Re: **SB 40** – Senator Perry E. Thurston, Jr.
HB 6535 – Representative Wengay "Newt" Newton
Relief of Estate of Dr. Sherrill Lynn Aversa

SPECIAL MASTER'S FINAL REPORT

THIS IS AN UNOPPOSED EQUITABLE CLAIM FOR $650,000 FROM UNAPPROPRIATED TRUST FUNDS OF THE DEPARTMENT OF TRANSPORTATION FOR THE DEATH OF THE CLAIMANT IN AN AUTOMOBILE ACCIDENT CAUSED WHEN A LADDER FELL OFF A DEPARTMENT TRUCK.

CURRENT STATUS:

Before a prior legislative session, Judge Bram D. E. Canter, an administrative law judge from the Division of Administrative Hearings, serving as a Senate Special Master, held a de novo hearing on a previous version of this bill. After the hearing, the judge issued a report containing findings of fact and conclusions of law and recommended that the bill be reported FAVORABLY.

Judge Canter's report was reissued for SB 30 (2012), the most recent version of the claim bill for which a report is available. The 2012 report is attached as an addendum to this document.

Due to the passage of time since the hearing, the Senate President reassigned the claim to me, Thomas C. Cibula. My

responsibilities were to review the records relating to the claim bill, be available for questions from Senators, and determine whether any changes have occurred since the hearing before Judge Canter, which if known at the hearing might have significantly altered the findings or recommendation in the report.

As part of my review of this matter, counsel for the parties were asked to describe any developments that have occurred since the original special master hearing. After reviewing the responses, I find that there are no new facts that would justify altering the original findings. Additionally, the 2012 claim bill on which Judge Canter's report is based is similar to the claim bill filed for the 2018 Legislative Session. The 2018 bill, however, incorporates several corrections recommended by Judge Canter. Therefore, the undersigned recommends that SB 40 be reported FAVORABLY.

Respectfully submitted,

Thomas C. Cibula
Senate Special Master

Relief of Sherrill Lynn Aversa

SPECIAL MASTER'S FINAL REPORT

THIS IS AN UNOPPOSED EQUITABLE CLAIM FOR $650,000 FROM UNAPPROPRIATED TRUST FUNDS OF THE DEPARTMENT OF TRANSPORTATION FOR THE DEATH OF THE CLAIMANT IN AN AUTOMOBILE ACCIDENT CAUSED WHEN A LADDER FELL OFF A DEPARTMENT TRUCK.

FINDINGS OF FACT:

On June 21, 1999, Dr. Sherrill Lynn Aversa, 33 years old, was traveling southbound on I-75 in Tampa in rush hour traffic. She was wearing her seatbelt. At the same time, a Department of Transportation (DOT) truck driven by DOT employee Domingo Alvarado was traveling northbound. A 12-foot extension ladder on the DOT truck was not well-secured and fell off the truck into the path of a vehicle driven by Roxann Hodge. Ms. Hodge veered sharply left to avoid the ladder and went into the median where she lost control of her vehicle. Ms. Hodge's car crossed the median into the southbound traffic and struck Dr. Aversa's car head-on. Dr. Aversa was killed instantly. Three other vehicles were also involved in the crash, but those drivers were not seriously injured.

When Mr. Alvarado realized that the ladder had fallen off his truck, he pulled off the roadway, backed up, and retrieved the ladder, which had come to a rest in the center northbound lane. Mr. Alvarado re-secured the ladder and then proceeded on his way. He said that he was unaware that his ladder caused a crash, although he acknowledged seeing smoke and commotion in the southbound lanes of I-75. Later that evening, Mr. Alvarado saw news coverage of the crash and called the Florida Highway Patrol to report his probable involvement.

Mr. Alvarado was cited for a violation of section 316.520, Florida Statutes, for failing to secure a load. DOT suspended him for four weeks without pay for violating DOT's policy regarding securing equipment on his truck.

Dr. Aversa was survived by her husband, Dr. Lee Crandall. They had no children. Dr. Aversa was an epidemiologist at the University of Miami Medical School and a leading researcher in the field of HIV/AIDS. An economist's report estimated that Dr. Aversa's economic damages (lost wages, etc.) were approximately $2.6 million.

Dr. Crandall created a non-profit foundation to honor Dr. Aversa. The foundation awards scholarships to assist epidemiology students in completing their doctoral degrees. Dr. Crandall testified at the claim bill hearing that it is his intention to deposit most of the funds awarded from this claim bill into the foundation in order to endow the scholarships in perpetuity.

The other injured drivers settled with DOT for a total of $50,000. That left $150,000 under the sovereign immunity cap to pay Dr. Aversa's estate. DOT paid $150,000 to Dr. Aversa's estate. All but $727 was used to pay for attorney's fees and costs. Dr. Crandall received approximately $110,000 from a life insurance policy, $100,000 in underinsured motorist coverage, and $10,000 in settlement proceeds from Ms. Hodge's insurer. Some of these funds were used to pay off Dr. Aversa's student loans and some will be transferred to the foundation once Dr. Aversa's estate is closed.

LITIGATION HISTORY:

Dr. Crandall, as husband and personal representative of Dr. Aversa's estate, filed an action for negligence against DOT in the circuit court for Hillsborough County in 2000. In May 2003, on the eve of trial, the parties entered into a stipulated settlement agreement wherein DOT agreed to pay Dr. Aversa's estate a total of $800,000. DOT has already paid $150,000, leaving $650,000 to be paid by way of this claim bill. As a part of the settlement agreement, DOT agreed to cooperate and support the passage of a claim bill in the amount of $650,000.

CONCLUSIONS OF LAW:

The claim bill hearing was a *de novo* proceeding to determine, based on the evidence presented to the Special Master, whether DOT is liable in negligence for the death of the Claimant and, if so, whether the amount of the claim is reasonable.

Mr. Alvarado had a duty to secure the load to his truck pursuant to section 316.520, Florida Statutes, and DOT policy. His failure to do so was the direct and proximate cause of the crash that killed Dr. Aversa. Mr. Alvarado was an employee of DOT acting in the course and scope of his employment at the time of the crash. His negligence is therefore attributable to DOT.

The amount of the claim is fair and reasonable.

ATTORNEY'S FEES:

Claimant's attorneys have agreed to limit their fees to 25 percent of any amount awarded by the Legislature in compliance with section 768.28(8), Florida Statutes. There is an agreement to pay the lobbyist's fee from the claim bill proceeds, which could conflict with the requirement in SB 30 that the lobbyist's fee must be paid from the 25 percent attorney's fees.

OTHER ISSUES:

DOT states that the claim should be paid from the State Transportation Fund.

There are some errors in SB 30. The bill states that the consent judgment was for $797,500. The correct figure is $800,000. The bill states that DOT paid $100,000 to Dr. Aversa's estate, but DOT paid $150,000.

RECOMMENDATIONS: For the reasons set forth above, I recommend that Senate Bill 30 (2012) be reported FAVORABLY, as amended.

Respectfully submitted,

Bram D. E. Canter
Senate Special Master

cc: Senator Thad Altman
Debbie Brown, Interim Secretary of the Senate
Counsel of Record

By Senator Thurston

33-00252-18 201840__

A bill to be entitled

An act for the relief of the Estate of Dr. Sherrill Lynn Aversa; providing an appropriation to compensate the Estate of Dr. Sherrill Lynn Aversa for Dr. Aversa's death as a result of the negligence of the Department of Transportation; requiring the Executive Office of the Governor to establish spending authority from unappropriated trust fund balances of the department for compensation to the Estate of Dr. Sherrill Lynn Aversa; providing a limitation on the payment of attorney fees; providing an effective date.

WHEREAS, on June 21, 1999, an employee of the Department of Transportation was driving a department vehicle north on Interstate 75 in Hillsborough County, and

WHEREAS, on that same day, Dr. Sherrill Lynn Aversa, having completed an interview at the University of South Florida Medical School, was traveling south on Interstate 75, and

WHEREAS, according to departmental policy, employees of the department are required to ensure that all items used by the department and stored on a department vehicle are appropriately secured, and

WHEREAS, one such item used by the department was a 12-foot extension ladder stored on the roof of the truck driven by the department employee and the employee failed to ensure that the ladder was secured to the vehicle before leaving the department's maintenance yard, and

WHEREAS, as the employee traveled north on Interstate 75 in the department vehicle, the extension ladder flew off the roof

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

33-00252-18 201840__

into the northbound traffic traveling behind the department vehicle, and

WHEREAS, the driver of the vehicle traveling behind the department vehicle swerved to avoid hitting the ladder and, as a result of the swerving movement, lost control of her vehicle, veered to the left, crossed the Interstate 75 median, and struck Dr. Aversa's southbound vehicle, killing Dr. Aversa instantly, and

WHEREAS, as a result of these events, the Estate of Dr. Sherrill Lynn Aversa brought suit against the department for its negligence in causing the death of Dr. Aversa, and

WHEREAS, after 3 years of litigation, the department admitted liability for the accident and agreed to settle the case, and

WHEREAS, the parties agreed to a consent judgment in the amount of $800,000 solely against the department, with no finding of comparative negligence against any other party, and

WHEREAS, the department has paid $150,000 to the Estate of Dr. Sherrill Lynn Aversa consistent with the statutory limits of liability set forth in s. 768.28, Florida Statutes, NOW, THEREFORE,

Be It Enacted by the Legislature of the State of Florida:

Section 1. The facts stated in the preamble to this act are found and declared to be true.

Section 2. The Executive Office of the Governor is directed to establish spending authority from unappropriated trust fund balances of the Department of Transportation in the amount of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

$650,000 to a new category titled "Relief: Estate of Dr. Sherrill Lynn Aversa" as compensation to the Estate of Dr. Sherrill Lynn Aversa for the death of Dr. Sherrill Lynn Aversa, which amount includes attorney fees and costs.

Section 3. The Chief Financial Officer is directed to draw a warrant, pursuant to the stipulated settlement agreement executed by the Department of Transportation and the personal representative of the Estate of Dr. Sherrill Lynn Aversa, in the amount of $650,000 upon funds of the Department of Transportation not otherwise encumbered, and the Chief Financial Officer is directed to pay the same sum out of such funds in the State Treasury.

Section 4. The amount paid by the Department of Transportation pursuant to s. 768.28, Florida Statutes, and the amount awarded under this act are intended to provide the sole compensation for this excess judgment claim and for all other present and future claims arising out of the factual situation described in this act which resulted in the death of Dr. Sherrill Lynn Aversa. The total amount paid for attorney fees relating to this claim may not exceed 25 percent of the amount awarded under this act.

Section 5. This act shall take effect upon becoming a law.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Re: **SB 42** – Senator Jose Rodriguez
HB 6505 – Representative Jenne
Relief of Vonshelle Brothers, Individually, and as the Natural Parent and Guardian of Iyonna Hughey

SPECIAL MASTER'S FINAL REPORT

THIS IS A SETTLED EXCESS JUDGMENT CLAIM FOR $1 MILLION. THE CLAIM SEEKS COMPENSATION FROM THE GENERAL REVENUE FUND FOR THE ALLEGED MEDICAL MALPRACTICE COMMITTED BY THE BREVARD COUNTY HEALTH DEPARTMENT DURING THE PRENATAL CARE OF VONSHELLE BROTHERS AND THE RESULTING DAMAGES TO HER DAUGHTER, IYONNA HUGHEY.

CASE SUMMARY:

Iyonna Hughey is a 7-year-old child who developed meningoencephalitis[1] soon after birth. The disease was both an infection of the meninges, the tissue covering the brain, and an infection of the brain tissue itself. The disease was caused by herpes simplex virus type 2. As a result, Iyonna is severely brain damaged and has profound developmental delays.

Vonshelle Brothers, the Claimant, is Iyonna's mother. Vonshelle alleges that the infection and resulting damage

[1] Iyonna's condition is referred to throughout the depositions as being meningoencephalitis, herpetic encephalopathy, and alternatively, herpetic encephalitis.

were caused by the failure of the Brevard County Health Department to sufficiently test her, the mother, for herpes. Adequate testing, the Claimant argued, would have led to Vonshelle's treatment with an anti-viral drug that would have prevented her from passing the virus to Iyonna. However, the evidence submitted through deposition testimony and medical records demonstrated that Vonshelle Brothers did not have the herpes simplex virus type 2. As a result, Iyonna must have contracted the herpes virus by contact with another person who had the infection. Because the Department did not cause the injuries to Iyonna, I recommend this claim unfavorably.

BACKGROUND INFORMATION: As a foundational matter, it is helpful to understand how Iyonna may have contracted the herpes virus. The herpes simplex viruses exist in two forms: herpes simplex virus type 1, which is oral herpes and abbreviated as HSV-1, and herpes simplex virus type 2, which is genital herpes and abbreviated as HSV-2.

HSV-1 generally causes sores near the mouth and lips, which are referred to as cold sores or fever blisters. HSV-1 is usually transmitted by oral-to-oral contact through oral secretions or sores on the skin and can be spread through sharing eating utensils and toothbrushes or kissing. With HSV-2, sores generally occur around the genitals or rectum. Genital herpes may be caused by HSV-1 or HSV-2, but most cases are caused by HSV-2 and are spread during sexual contact with someone who has a genital herpes type 2 infection. HSV-2 is highly contagious.

Many people infected with genital herpes do not display symptoms or have mild symptoms that are not noticed. When symptoms are noticed, they present as blisters, open ulcers, scabs, fever, muscle aches, or swollen lymph nodes. Both HSV-1 and HSV-2 remain in a person's body for life, even when no signs of infection are present. While it is rare, HSV-2 may be transmitted from a mother to her baby during

the delivery process.[2] The incubation period for HSV-1 or HSV-2 ranges anywhere from 2 to 12 days.[3]

FINDINGS OF FACT:

Initial Pre-Natal Visit

On March 16, 2010, Vonshelle Brothers visited the Brevard County Health Department to determine if she was pregnant.

Regina Pappagallo, a registered nurse, performed the initial intake interview and obtained a Patient History from Vonshelle.

To complete the Prenatal History form, Nurse Pappagallo asked Vonshelle two pages of extensive questions about her previous pregnancies, medical history, genetic screening, and infection history. The nurse recorded Vonshelle's response to each question. Under the "infection history" portion of the screening, Vonshelle responded "no" when asked if she or her partner had a history of genital herpes.[4]

Elena Cruz-Hunter, a certified nurse mid-wife and advanced registered nurse practitioner, then reviewed the patient history taken by Nurse Pappagallo, performed a vaginal exam, and conducted a Pap test to screen for the presence of pre-cancerous cells on the cervix.[5]

In conducting the initial physical examination, Ms. Cruz-Hunter was required to examine and note whether 17 specific areas of Vonshelle's body were normal or abnormal. The notations from the physical exam recorded no lesions, discharge, or inflammation in the areas of the vulva, vagina,

[4] The Prenatal History indicates that Vonshelle acknowledged smoking 4 cigarettes per day for about 2 years and noted "daily" drug use/abuse for about 3 years, and drinking socially for about 1 year, but stated that she did not participate with tobacco, drugs, or alcohol when pregnant.

[5] The Pap test, or Pap smear, is a screening, not a diagnostic test, in which cells are scraped from the cervix and sent to a lab for testing to determine if abnormal cells are present that could lead to cancer. Deposition testimony from medical professionals in the case and The American College of Obstetricians and Gynecologists, *Frequently Asked Questions*, available at http://www.acog.org/Patients/FAQs/Cervical-Cancer-Screening#cervical.

or cervix. She checked that each of the specific areas was normal. In her deposition, Ms. Cruz-Hunter testified that she did not see any indication of any lesions or any signs or symptoms that suggested the presence of the herpes simplex virus. The urine test performed on Vonshelle that day was negative and showed that her urine was "perfectly normal." She noted that Vonshelle's uterus size indicated that she was 8-10 weeks pregnant. The Pap test used to screen for precancers was sent to Quest Diagnostics for interpretation.

Pap Test Results from Quest Diagnostics

On March 22, 2010, Quest Diagnostics reported that the patient was 9 weeks pregnant[6] and that the Pap test culture was satisfactory for evaluation. In the category titled "Interpretation/Result" the report stated:

"Negative for intraepithelial lesion or malignancy.
Cellular changes consistent with Herpes simplex virus
Shift in vaginal flora suggestive of bacterial vaginosis."

Under the comment section, the following cryptic and ambiguous phrase was noted: "Queued for Alerts call." No deposition testimony of any Quest pathologist was submitted to clarify what Quest meant by this ambiguous notation or if Quest made a call to the Brevard County Health Department alerting them to this observation. Accordingly, it is unclear if this phrase meant that Quest was indicating that someone in its office would call the clinician to alert them to this additional observation, given that someone at Quest was commenting on an issue outside the scope of the initial test for precancer or pre-malignancy.

Brevard County Health Department's Lab Slip Tracking Policy

The Claimant attached, as an exhibit to Nurse Regina Pappagallo's deposition, the cover page for the Brevard County Health Department Tracking Policy, dated 07-10-06, which did not contain the terms of the policy. The Claimant also attached the Brevard County Health Department Tracking [Policy for] Lab Slips and Missed Appointments, dated 7/15/10,[7] which contained the policy's contents. This

[6] This was Vonshelle's third pregnancy, which would be followed by two additional pregnancies. None of the other four pregnancies involved herpes simplex virus issues or injuries.
[7] The date of "7/15/10" is almost 4 months after Vonshelle visited the Brevard County Health Department. It is unclear if this policy was also in place when she visited the Department for her initial pregnancy exam.

policy explains what the staff members are to do when they receive the result of lab tests, like the results of Vonshelle's Pap test.

The policy for reviewing lab slips was a two-step process, and how the second step was to be completed depended on whether the lab test results were positive or negative. The first step in the policy required that a nurse review and initial the incoming lab slip. The second step required the medical staff to file the slip in the client's medical record if the results were negative, or pull the slip and give it to a nurse/clinician for additional orders if the results were positive. Under the policy, all abnormal slips needed to be signed by a clinician. The nurse would then determine how the client was to be contacted about the positive results–whether by the health support technician or nurse and whether by a letter or phone call. Someone was then required to make three documented attempts to reach the client. The Sr. CHN Supervisor[8] or designee was to determine if there were a need to send a certified letter. The policy also established the procedure for notating when a client failed to make an appointment.

The Quest Diagnostic lab report for Vonshelle was initialed by Nurse Pappagallo in the upper right hand corner, as required. A checkmark was placed at the end of the phrase "Negative for intraepithelial lesion of malignancy" indicating that the diagnosis was reviewed. Accordingly, the Pap test lab slip was negative for a malignancy, so it was placed in Vonshelle's medical records, in compliance with the policy. The purpose of the test was to determine the existence of precancerous cells, not herpes or another sexually transmitted disease. Among Vonshelle's additional medical records, labeled "Laboratory Results" and the category of Pap Test, it is recorded "3/16/10" and the word "normal" is circled. If the results had been abnormal, or positive for a malignancy, the records should have been pulled by the medical records staff and given to the nurse/clinician for possible orders and the nurse would have determined the type of contact with the patient that was appropriate.

What is confusing in this case but important to the issue of liability is the meaning of the unusual and added verbiage stating, "Cellular changes consistent with Herpes simplex

[8] It is unclear what this designation means.

virus." This is apparently an unusual notation to be placed on a Pap test result. According to the deposition testimony of Nurse Pappagallo, she had never seen this writing on another Pap smear; it was the first time she had ever seen this notation. Dr. Mark Sargent, the Brevard County Health Department physician who was Vonshelle's obstetrician, testified that he had "never even heard of this result on a pap smear . . . it's not even supposed to be on a pap smear and I've never seen it on a pap smear." He said that he did not know if the nurse was confused by the remark, because it was so unusual, but if he had seen the notation he would have certainly pursued it.

Additionally, there is no evidence in the record to demonstrate that Quest Diagnostic contacted the Clinic as suggested by the phrase "Queued for Alerts call." Further, Quest's lab results did not state whether herpes simplex virus type 1 or type 2 might be indicated.

No additional tests were performed by the Brevard County Health Department during the pregnancy to determine whether Vonshelle was infected with the herpes virus. Additionally, there is no documentation in the medical records that Vonshelle complained to the medical staff or requested prescriptions to alleviate the common symptoms of the herpes simplex virus.

The Pregnancy

According to the medical records, the pregnancy was not without complications and Vonshelle did not consistently comply with medical advice. Vonshelle had low amniotic fluid, which can be dangerous for the baby. She was admitted to the hospital for a 3-day stay in September to monitor pre-term contractions and preterm labor at 31 weeks. She was advised to stay 3 days and increase her fluids. Vonshelle left the hospital 1 day early, against the doctor's recommendation. She was given multiple sonograms throughout the pregnancy to monitor the level of amniotic fluid.

Because she had given birth prematurely in two earlier pregnancies, Vonshelle was given a prescription of progesterone to help reduce the risk of early labor.[9] The

[9] In his deposition, Dr. Mark Sargent testified that he gave the nurse a progesterone prescription for Vonshelle on August 12, but Vonshelle later denied ever having it. He wrote another prescription for progesterone on August 26, and handed the prescription to Vonshelle. Dr. Sargent had someone call Vonshelle on August 30 to follow up

medical notes indicate that she smoked cigarettes and declined Quitline[10] at her initial visit and stated that she could quit smoking on her own.[11]

Delivery

On October 14, 2010, an ultrasound and non-stress test were performed on Vonshelle. Because of the stress test results and decreased fetal movement, she was admitted to the labor and delivery unit at Wuesthoff Memorial Hospital in Melbourne and labor was induced. Vonshelle gave birth by vaginal delivery to Iyonna Hughey that night at 36 weeks and 4 days gestation.

On October 16, 2010, Vonshelle and Iyonna were discharged 2 days later, both in good condition. In her deposition testimony, Vonshelle stated that at the time of Iyonna's delivery she did not have any lesions or sores on her vagina or elsewhere on her body. This was confirmed by Dr. Mark Sargent, the delivering doctor, who stated that Vonshelle never indicated any lesions either pre-pregnancy, early pregnancy, or during the labor and delivery process. He noted that other than the "spurious finding on the pap smear, there is no indication that she ever had herpes."

Vonshelle returned with Iyonna to her home where her two older daughters were living and another woman, Cynthia Retland. It is unclear if Cynthia Retland's sons were also living in the home at that time.

Emergency Room Visit

On October 31, 2010, at about 11:00 p.m., Vonshelle took Iyonna to the emergency room at Wuesthoff because Iyonna had a fever, was lethargic and pale, was not eating, and was sleeping a lot. She stated in her deposition that the fever may have been present for a couple of days. Vonshelle stated that

---

to make certain that the prescription was filled, but Vonshelle said she was unable to fill the prescription. Vonshelle did not show for her next appointment, and it is unclear when she actually began taking the progesterone.

[10] Quitline is a tobacco cessation service that supplies nicotine replacement therapy at no cost to the participants. http://c.ymcdn.com/sites/www.naquitline.org/resource/resmgr/ppp/fl_bureau_of_tobacco_prevent.pdf.

[11] Smoking during pregnancy can cause problems with the placenta and reduce a baby's food and oxygen. Smoking is known to increase the risk that a baby will be born prematurely or have a low birth weight. This increases the likelihood that the baby will be sick and require a longer hospitalization. See Centers for Disease Control and Prevention, Reproductive Health, *Tobacco Use and Pregnancy*, available at https://www.cdc.gov/reproductivehealth/maternalinfanthealth/tobaccousepregnancy/index.htm.

her mother kept saying that night that something was not right with Iyonna, and she was pale.

Vonshelle's deposition states that she signed in and spoke with a nurse in the front area of the waiting room. She estimates that she was in the waiting room for a total of about 30 minutes during which she spoke with a nurse for about 10 minutes. Vonshelle said that the nurse told her that the way Iyonna was behaving was "what newborns do, they sleep." Vonshelle stated that the nurse told her to take a cold rag and rub it over Iyonna's body and see if that would wake her. Vonshelle stated that the nurse told her to go home and come back in the morning if something was not right. Vonshelle left the emergency room and did not wait for her name to be called to see medical personnel. She stated that she thought, "maybe we are just overreacting. So, we left."

Vonshelle stated that she did not tell the nurse that Iyonna was lethargic or had a fever. Vonshelle added that she really thought nothing was wrong. She took Iyonna home, and both slept through the night from about midnight until 7:00 a.m.

Wuesthoff Memorial Hospital
On November 1, the next morning, when Vonshelle woke, she noticed that Iyonna was not responsive, her eyes were rolling back in her head, her lips were dark, she would not eat, and her breathing was shallow. Vonshelle called her mother who came and drove them to the Wuesthoff Hospital. She did not call 911.

Transfer to Arnold Palmer Hospital
The staff at Wuesthoff performed a lumbar puncture on Iyonna and drew spinal fluid. She was transferred to Arnold Palmer Hospital for Children in Orlando for further evaluation and care. The lumbar puncture was repeated and the results came back positive for herpes simplex virus type 2. Iyonna was diagnosed with herpes meningoencephalitis, meaning that her brain tissue was infected. She remained at Arnold Palmer for 36 days, from November 1, 2010 until her discharge on December 6, 2010. While at the hospital, Iyonna was treated intravenously with acyclovir for 21 days, to stop the viral growth, followed by oral acyclovir for suppressive therapy. She was fed through a gastric tube and was on a ventilator.

Iyonna's Injuries and Disabilities

The viral infection caused severe brain damage and neurological disabilities that impair Iyonna's ability to develop and function as a normal child. This was caused by the herpes simplex virus type 2. At the time of the special master hearing Iyonna spoke only about 20 words, could feed herself, but could not walk independently or bathe herself, and wore diapers each day. She was in kindergarten in a special needs program at Palm Bay Elementary. Iyonna rode a special needs school bus to and from school each day. She had a walker and wheelchair at school for mobility. She enjoyed playing games on a tablet, coloring, and watching television. The professionals who have observed Iyonna believe that she is going to need continuous care throughout her lifetime and will never be able to live or function independently due to the brain damage she received from the herpes meningoencephalitis.

Subsequent Herpes Tests

Vonshelle returned to the Brevard County Health Department for a subsequent pregnancy test in 2014, almost 4 years after Iyonna's birth. She did not alert the Health Department that she might be carrying the herpes virus, which allegedly caused the severe brain damage to Iyonna. If Vonshelle believed she had herpes, one would have expected her to disclose this information to the Department in order to protect her next child from the virus and the potential for brain damage. However, the Department recognized Vonshelle's name because of the ongoing litigation and tested her for herpes to determine if an anti-viral medication needed to be prescribed to prevent the fetus from getting the disease.

Blood was drawn from Vonshelle on August 1, 2014, for two separate HerpeSelect tests[12] and sent to different labs. The first blood sample was collected on August 1, 2014, and tested by Health Management System. The second blood sample was collected a few minutes later and tested by Quest Diagnostics. Both tests were negative for HSV-1 and HSV-2.[13]

[12] According to a website, the HerpeSelect test "is the most commonly used HSV antibody test in the U.S." The test can detect antibodies and differentiate between HSV-1 and HSV-2. It generally takes about 3-6 weeks for someone to develop a detectable amount of antibodies to the herpes simplex virus. Most everyone will have detectable antibodies 16 weeks after exposure. http://www.healthassist.net/medical/herpes-test.shtml

[13] There is a third DOH hsv test result in the records, apart from the two tests discussed above, which shows that more blood was drawn from Vonshelle on August 4, 2014, and sent to Quest Diagnostics. This was also initiated

On November 20, 2014, Vonshelle's attorneys initiated a third, and different type, of herpes test on Vonshelle. Blood was collected in Florida for an HSV Western Blot test[14] and sent overnight to the University of Washington Medical Center in Washington state. That test found that Vonshelle had been exposed to HSV-1, but was "indeterminate" for antibodies to HSV-2. No additional Western Blot tests were performed to clarify the results. The Claimant's attorneys did not reveal this test to the Brevard County Health Department during discovery claiming it was protected under the Claimant's work product privilege. Because the attorneys for the Department were unaware of the test's existence, they did not question any experts on the Western Blot's credibility or reliability.

Not one of the three blood tests performed on Vonshelle has demonstrated that she was exposed to herpes simplex virus, type 2.

LITIGATION HISTORY:

Litigation
Vonshelle Brothers filed a medical malpractice suit, individually and on behalf of her daughter, Iyonna Hughey, a minor, against the Brevard County Health Department on October 9, 2012. The suit was filed in the Circuit Court of the Eighteenth Judicial Circuit in and for Brevard County. The Brevard County Health Department is a division of the Florida Department of Health, an agency of the State of Florida. An extensive period of discovery ensued, and depositions were taken in 2014, 2015, and 2016.

Mediation
The parties attempted to mediate the case on February 10, 2015, but were not able to reach a settlement.

Settlement
The trial was scheduled to begin April 25, 2016. Approximately 1 week before the trial, the parties reached their first of two settlement agreements. The Department of

by DOH. The results were again negative for HSV type-1 and HSV type-2. The expert witness depositions seem to discuss only two tests initiated by the Department of Health, so the presence of this third hsv test, although present in the submitted records, does not appear to be mentioned in the depositions. Because the Department of Health did not present a case at the claim bill hearing, this third DOH test, nor any of their theories, were argued at the hearing.

[14] In the last paragraph of the HSV Western Blot test results two sentences are printed: "This test was developed and its performance characteristics determined by UW Medicine, Department of Laboratory Medicine. *It has not been cleared or approved by the U.S. Food and Drug Administration*." (Emphasis added.)

Health agreed to pay the statutory cap of $200,000, and the Claimant would pursue a claim bill for the excess amount of $3 million. However, the Department maintained the right to contest the claim bill during the legislative process.

The Department then paid the $200,000, the maximum amount that may be paid without legislative authority which was disbursed as follows:

$101,841.41	Litigation Expenses Paid to Plaintiff's Law Firm
$7,560.58	Payment of Medical Liens
$50,000.00	Purchase of Annuity for Iyonna Hughey[15]
$40,698.01	Disbursement to Vonshelle Brothers
$200,000.00	

As of the date of the special master hearing, the Claimant's law firm had not received any fees for its legal work, only reimbursements for costs. An additional $71.19 is due the firm for interest accrued.

The Claimant's attorneys later offered to reduce the claim to $1 million if the Department would not contest the claim bill. The Department accepted this offer and has agreed to maintain a neutral position on the claim bill, but it has not admitted liability.

Claim Bill Hearing

On February 24, 2017, a lengthy, almost day-long hearing was held before the House and Senate special masters. Ronald Gilbert and Jonathan Gilbert appeared with their clients, Vonshelle Brothers and Iyonna Hughey. Patrick Reynolds, Chief Legal Counsel for the Department, Michael J. Williams, Assistant General Counsel, and Maria Stahl, Health Officer for Brevard County, appeared for the Department of Health. Because the Department agreed that it would not oppose the claim bill, it did not present any theories, arguments, or evidence on the Department's behalf. However, the Department did provide documentation in response to specific requests by the special masters. The Department did not admit fault in this claim.

[15] The annuity will begin making payments to Iyonna Hughey when she is 18 years old. As the annuity is structured, Iyonna will receive annual income of $2,500 per year for 5 years when she turns 18, $3,500 per year for 5 years when she turns 23, $4,500 per year for 5 years when she turns 28, $5,500 per year for 5 years when she turns 33, and lump sum annual disbursements of $6,500 payable at ages 38, 39, and 40, then $3,825.85 when she is 41, for a total lifetime yield of $103,325.85.

CLAIMANT'S POSITION: Vonshelle Brothers' position is that the Brevard County Health Department was negligent and did not meet the standard of care when reviewing her Pap test. Her argument then follows that, if the lab slip had been properly reviewed, additional testing would have revealed that Vonshelle carried the herpes virus. A proper course of treatment could have then prevented Iyonna from contracting the herpes virus, suffering herpetic encephalitis, and sustaining substantial brain damage.

RESPONDENT'S POSITION: While the Respondent did not present a case at the special master hearing, a review of the depositions taken over the course of discovery in this case reveals what its arguments might have been. Based upon the depositions of expert witnesses, the Department was likely preparing to argue that Vonshelle did not have the herpes virus and therefore, could not have transmitted the virus to Iyonna during the pregnancy or delivery.

An alternative theory might have been that Vonshelle contributed to Iyonna's damage by transmitting the herpes virus to her. Additionally, it might have been argued, that Vonshelle did not seek timely medical attention when severe symptoms were apparent on the night that she left the emergency room without seeing a doctor, thereby delaying treatment for Iyonna by 7 or 8 hours. Prompt treatment for Iyonna might have prevented or mitigated her brain damage.

A case might also have been built on missed opportunities by Vonshelle. She missed many obstetrical appointments and apparently did not fill an initial progesterone prescription to prevent early labor, which required that a second prescription be written for her, thus causing the medicine to be taken later. Iyonna missed many appointments for speech therapy, physical therapy, occupational therapy, and Vonshelle chose not to acquire a wheelchair that was prescribed for Iyonna because she did not want people to see Iyonna in a wheelchair. It was questioned whether she made a diligent effort to enroll Iyonna in school as early as she could have.

CONCLUSIONS OF LAW: The Brevard County Health Department, a department of the Florida Department of Health, is an agency of the State of Florida. Under the legal doctrine of *respondeat superior*, the Department is liable for its employees' wrongful acts, or medical negligence, committed within the scope of their employment.

When a plaintiff seeks to recover damages for a personal injury and alleges that the injury resulted from the negligence of a health care provider, the plaintiff bears the legal burden of proving, by the greater weight of the evidence, that the alleged actions of the health care provider were a breach of the prevailing professional standard of care for that health care provider. The prevailing professional standard of care is defined in statute as "that level of care, skill, and treatment which, in light of all relevant surrounding circumstances, is recognized as acceptable and appropriate by reasonably prudent similar health care providers."[16] The standard of care is established at trial by providing expert testimony from professionals in that field.

To establish liability in a medical malpractice action, the plaintiff must prove:
(1) A duty of care owed by the healthcare provider to the injured party;
(2) A breach of that duty;
(3) Causation--that the breach of the duty caused the plaintiff's injury;[17] and
(4) Damages.

In this case, the Department's liability turns on whether the Department breached a duty and whether it caused Iyonna's damages. To express these legal principles in the factual context of this case, the issues are whether the Department should have tested Vonshelle Brothers for the herpes simplex virus, and whether that testing would have led to treatment that could have prevented Iyonna Hughey from acquiring meningoencephalitis, which caused her brain damage.

These elements as outlined below are based upon depositions, testimony, and other information provided before and during the special master hearing. Medical malpractice cases generally "involve a battle of expert witnesses."[18] This claim is no exception. The parties deposed medical experts in several cities in Florida, Atlanta, New York City, and Michigan to support their cases.

[16] Section 766.102(1), F.S.
[17] *Saunders v. Dickens*, 151 So. 3d 434, 441 (Fla. 2014).
[18] *Id.*

Duty
As discussed above, a health care facility and its employees have a duty to provide a professional standard of care to its patients that is recognized as acceptable and appropriate by reasonably prudent similar health care providers.[19] The issue of whether the Brevard County Health Department owed a duty to Vonshelle Brothers is not contested in this case. The duty was owed.

Breach of Duty
If this case had proceeded to trial, it would likely have been disputed whether the duty of care owed to Vonshelle Brothers and Iyonna Hughey was breached. Three areas of a potential breach were identified:

(1) Whether the Department breached the standard of care when it received and filed the Pap test lab results in Vonshelle's medical records and did not have a clinician review the results or pursue additional testing to determine if she carried the herpes virus.

(2) Whether the Health Department breached its duty by not starting Vonshelle on a regimen of anti-viral medicines that would have suppressed the alleged hsv in her body, thereby preventing her from passing the disease to Iyonna during the birth process.

(3) Whether an anti-viral medicine should have been given to Vonshelle and when it should have been given because of her history of delivering two earlier babies before full-term gestation at 40 weeks.[20]

Based upon the deposition testimony of medical experts, each side would have had arguments to support its case before a jury.

The Claimant's Arguments
The Claimant provided experts who testified in depositions that the Brevard County Health Department breached the duty of care owed to Vonshelle.

[19] Section 766.102(1), F.S.
[20] Authoritative medical literature and expert witness medical testimony suggest waiting until the 36th week of pregnancy to begin an anti-viral medicine for the mother.

Dr. Berto Lopez

Dr. Berto Lopez, a medical doctor practicing in obstetrics and gynecology, testified as a standard of care expert. He stated that he personally reads the results of all Pap smears that he orders and that Dr. Mark Sargent, Vonshelle's obstetrician at the Brevard County Health Department, should have read the results himself rather than allowing a subordinate on staff to read the results. In his opinion, this was a breach of the standard of care. Regarding the issues of initiating an anti-viral medicine and when the anti-viral should be initiated, he stated that he generally starts women on an anti-viral drug early in the pregnancy. To prevent the passage of the disease to the baby at birth, he does not wait until 36 weeks to begin suppression therapy.

Nurse Sharon Hall

Sharon Hall[21] testified in her deposition about the nursing standard of care at the Brevard County Health Department. Nurse Hall is an obstetrical nurse who formerly practiced in high-risk labor and delivery. She stated that it was a deviation from the standard of care when the Department nurse did not report to Dr. Sargent the changes that were observed in the Pap smear report.

The Respondent's Arguments

Perhaps the Respondent's theory would have been that the added phrase "Cellular changes consistent with Herpes simplex virus" was so out of place on a Pap test report that it did not actually alert the nurse to notify a clinician. Because the test was negative for precancers, she technically complied with the policy for handling negative lab slips.

Dr. Mark Sargent

Dr. Mark Sargent, Vonshelle's treating obstetrician, stated in his deposition that he felt the findings should have been reported to him, but that he had "never even heard of this result on a Pap smear. It's not even – it's not even supposed to be on a pap smear and I've never seen it on a pap smear….I would have expected, had I seen it, I would have certainly pursued it." Dr. Sargent said that he would have expected the nurse to bring this report to someone's attention.

[21] Sharon Hall is an obstetrical nurse with approximately 30 years of experience. She earned a bachelor's degree in nursing and a master's degree and is certified in inpatient obstetric care and electronic fetal monitoring.

Dr. David Colombo

Dr. David Colombo was also deposed as a defense expert witness for the Department. He is a practicing physician in obstetrics and gynecology and maternal fetal medicine.[22] He stated in his deposition that he believed that Dr. Sargent deviated from the standard of care by not personally reviewing the Pap test results. However, as will be discussed later, he did not believe that this deviation caused any damage.

Conclusion

Accordingly, I find that the Brevard County Health Department deviated from the acceptable standard of care owed to Vonshelle Brothers by not having a clinician review the results of the Pap test that was ordered by a nurse midwife.[23]

Causation

If this case had proceeded to trial, it would likely have been disputed whether the damage to Iyonna was actually caused by the negligence of the employees of the Brevard County Health Department. The Claimant argues that the failure of the Brevard County Health Department to discover whether Vonshelle had herpes, and its subsequent failure to provide her with anti-viral medication that would have prevented her from passing the herpes virus to Iyonna at birth, is the cause of Iyonna's injuries. It is undisputed that Iyonna contracted HSV-2, which caused her brain damage. Whether she contracted the disease from her mother at birth is not so clear.

The Claimant's Arguments

Dr. Berto Lopez

Dr. Berto Lopez, an expert witness for the claimant, testified that, upon receiving and reviewing Vonshelle's Pap smear lab slip, he would have given her extra tests to determine whether she had herpes. He would have given her anti-viral medication early in the pregnancy and would not have waited until she was 36 weeks pregnant. He believed that there was

[22] Dr. Colombo is a former clinical assistant professor of maternal fetal medicine at the Ohio State University hospitals and associate professor of obstetrics and gynecology and maternal fetal medicine at Michigan State University.

[23] The Brevard County Health Department instituted a new policy for reviewing lab slips, on or around August 2015, according to an affidavit submitted by Maria Stahl, the Administrator for the Brevard County Health Department. The ordering clinician must review and acknowledge the laboratory results, in addition to the review performed by the assigned nursing staff. The laboratory review process is reviewed at all new employee orientations for the Brevard County Health Department.

no harm in giving the anti-viral medication to Vonshelle early, but that there could be tremendous harm to the baby if the medication were not given.

Dr. Fred Gonzalez

Dr. Fred Gonzalez, a board certified perinatologist[24] or maternal fetal medicine specialist, practicing in New York City, was another expert witness for the claimant. He also testified that when he has a pregnant patient with a recurrent herpes infection and she has not had an outbreak in the last year, he puts her on an anti-viral drug for suppression therapy at 36 weeks. He then lets the pediatrician or neonatologist know that the mother has a history of herpes. According to Dr. Gonzalez, the mother's primary outbreak is the most dangerous to the baby. When asked if he recommended beginning anti-viral therapy earlier than 36 weeks for someone with previous pre-term births at 35 or 36 weeks, he said he did not. If a mother has herpes symptoms or a lesion at the time of delivery, the treatment is to do a Caesarean section.

Dr. Catherine Lamprecht

Dr. Catherine Lamprecht, a pediatric infectious disease specialist for the claimant, treated Iyonna at Arnold Palmer Hospital for Children. She testified that she could say with medical certainty that Iyonna was exposed to hsv and suffered meningoencephalitis as a result. Dr. Lamprecht was asked in her deposition if she was an expert in the prenatal care of a mother with herpes who was about to give birth. She stated that she did not consider herself an expert in that area. Dr. Lamprecht said that she could not give a medical expert opinion as to whether Vonshelle had herpes.

Respondent's Arguments

Dr. Mark Sargent

Diagnosing Herpes In Pregnant Women

Dr. Mark Sargent, Vonshelle's treating obstetrician, testified in his deposition that he had dealt with approximately 10,000 patients in his obstetrical career of which "a couple hundred" were pregnant women having confirmed cases of herpes simplex virus.

[24] Perinatology is a subspecialty within the field of obstetrics and gynecology. It focuses on high-risk, complicated pregnancies. Perinatology is also referred to as maternal-fetal medicine. http://www.perinatologist.net/

When asked how he confirms that a pregnant woman has herpes, Dr. Sargent responded that, if the woman has been diagnosed with herpes or told of it and treated for it, that is the first way. If the patient tells him that she has a lesion in the vaginal area or vulva, he cultures the lesion, sends it to a lab, and if it comes back positive, that is definitive. A third way, which is less definitive, is a blood test to determine the presence of herpes antibodies, because it means that a patient has been exposed to herpes.

Sores or Boils

Later in the deposition, Dr. Sargent discussed Vonshelle's claim that she had boils. Vonshelle stated that she had a sore under her arm and in the area of the crease in her leg near the vaginal area during the pregnancy. She described the sores to be boils about the size of a penny. When asked if this could be characteristic of a herpes lesion, Dr. Sargent said "No" and that boils are not cratered lesions characteristic of herpes. Moreover, Dr. Sargent testified that there was nothing in the medical records that indicated that Vonshelle had any boils during her pregnancy. He said that he would have examined those areas and the information would have been in Vonshelle's medical records if he had been notified, but there was nothing in her records about boils.

Standard of Care and Suppression Therapy

When asked what Dr. Sargent would have done if the Quest Pap test lab report had been brought to his attention, he replied that he would have gotten a second opinion about starting an anti-viral medicine on a baby in the first trimester. He does not order acyclovir, an anti-viral prescription that suppresses herpes, in the first trimester, but waits until the last trimester, at approximately 34 or 36 weeks, if the mother has a history of herpes. He stated that it is too late to treat a mother with acyclovir during the birthing process because it would not be helpful to her, the mother. Additionally, a Caesarean section was never recommended for Vonshelle because they were not aware that she had herpes.

Dr. Sargent testified that treating the mother at 34 to 36 weeks with acyclovir does not protect the baby and because Vonshelle delivered Iyonna at 36 weeks, the medicine would not have been in Vonshelle's system long enough to help the baby. He stated that the medical recommendation is that the

drug needs to be administered for 4 to 6 weeks before it is helpful.

When asked if Iyonna likely contracted herpes during the birthing process, Dr. Sargent responded, "No." He said that he really did not know when the transmission of the disease likely occurred, and commented that the case was very odd.[25]

Dr. Keith Van Dyke

Herpes Testing

Dr. Keith Van Dyke was also deposed as a defense expert witness. At the time of his deposition, he was a practicing gynecologist who had worked in high risk obstetrics. He stated that he had never had a patient who tested positive for hsv on a Pap test.

Whether Vonshelle Had the Herpes Simplex Virus

Dr. Van Dyke stated that Vonshelle "has never had herpes based on her lab test from 2014." He noted that Vonshelle took a blood serum test and the results test were negative.

Dr. Van Dyke was asked to comment on conclusions made by Dr. Lamprecht, the infectious disease specialist practicing at Arnold Palmer Hospital for Children. Dr. Lamprecht concluded that Iyonna contracted hsv during the vaginal birth. Dr. Van Dyke stated that Dr. Lamprecht was wrong to conclude that Iyonna was exposed to hsv during the vaginal delivery. He based this on the fact that Vonshelle tested negative for herpes.

When asked if false-negatives could occur, he responded that it is possible if the herpes test is performed on someone soon after the virus is transmitted to them. This is because the particular anti-body had not been around long enough in the body to register. However, Dr. Van Dyke said that he was not aware of any false negative tests in the literature he reviewed. When asked if Vonshelle could have had a false negative for the hsv test, Dr. Van Dyke stated, "I would think not."

Iyonna's Acquisition of Herpes

When asked his opinion of how Iyonna acquired the herpes simplex virus, Dr. Van Dyke stated, "I can only suppose that

[25] At the time of Dr. Sargent's deposition on March 13, 2014, Vonshelle had not been tested for herpes. The multiple HerpeSelect tests were not taken until almost 5 months later, in August 2014. It was then that people became aware that she did not have the herpes type 2 virus.

the baby acquired it after delivery." The follow up question was asked if there were any possibility that the baby would have acquired the virus before labor and delivery and he responded, "No."

Herpes Incubation Period
During Dr. Van Dyke's deposition, the issue was raised about the length of an incubation period for the herpes simplex virus. Dr. Van Dyke stated that generally, the incubation period before lesions appear is 2 to 12 days or so after exposure.

Validity of HSV Test
Dr. Van Dyke placed more validity on the negative hsv test than on the Pap test report which stated "cellular change consistent with herpes simplex virus." He explained his reasoning as being that the blood serology test, or the test that was performed on Vonshelle in 2014 after Iyonna's birth in 2010, is an antibody test, and if someone has been exposed to the herpes virus, the person will remain positive for antibodies for his or her lifetime. He said that this holds true if it was a blood sample test, regardless of the location of where the blood was drawn or the amount of blood that was drawn.

Dr. Van Dyke stated that, in his opinion, other than when the test was performed during the early stage of an initial or primary herpes outbreak, a negative result would be 100 percent confirmation that the patient had never had herpes.

Suppression Therapy
Dr. Van Dyke relies on the American Congress of Obstetrics and Gynecology's publication, the Herpes Management in Pregnancy document, published in 2007 and reaffirmed in 2014. It states that suppression therapy for herpes should begin at 36 weeks. He found the bulletin to be authoritative and follows its guidelines for suppression therapy.

Dr. Van Dyke was asked about suppression therapy for hsv and using a daily therapy drug such as acyclovir or Valtrex to prevent recurrences of herpes outbreaks, and whether that would affect the results of an antibody hsv test. He stated suppression therapy would not affect those test results because "antibodies" are for life and that "They don't go away."

When asked if he would have begun a regimen of suppression therapy based upon the Pap test results, he responded that it would not have been appropriate to initiate suppression therapy without a diagnosis of hsv with a serum blood test. He stated, once again, that Vonshelle did not have a diagnosis of herpes simplex, and in his opinion, because Vonshelle never had herpes, it would not matter. He noted that it is not good practice to give medicine for no reason. Dr. Van Dyke expounded that suppression therapy is a treatment for a known disease. He stated that suppression will decrease outbreaks, but some of his patients on daily suppression still get outbreaks of herpes. Unless it is a primary outbreak during pregnancy, suppression is used for recurrences at 36 weeks and up.

Standard of Care

When asked whether the handling of Vonshelle's Pap test met the standard of care, Dr. Van Dyke responded that he did not think there was a standard of care on this particular Pap test because it was so unusual. He said, "It's got to be rare because I've never seen one. I wouldn't know that there would be a standard." He noted that the Pap test result did not say "diagnostic of" herpes, and suggested that there are other possibilities that might not always be true, such as other infections. He concluded that the Pap test results did not need to be communicated to Vonshelle because the results were negative for what it was tested for, cervical disease, dysplasia, and malignancy.

Dr. Van Dyke also stated that the pathologist's notation about cellular changes did not make any distinction between herpes-1 and herpes-2. He stated, once again, that note on the Pap smear lab slip is odd and extremely rare and he could not say what the standard of care would be for it.

He further stated that a Pap test is not diagnostic of herpes.

Transmission from Mother to Baby

When asked his theories of how a baby could acquire HSV-2 after birth, Dr. Van Dyke said that if someone had lesions in his or her mouth, he or she could shed the virus through saliva. If someone has active herpes or lesions on their genitals and they touch themselves and then touch the baby, that is a possible way to transmit the virus as well. "So, kissing, touching."

In summary, when Dr. Van Dyke was asked if it was his opinion that the baby absolutely did not acquire hsv from the mother during vaginal birth but rather was exposed to the herpes simplex virus after birth by someone other than the mother, he replied, "Correct."

Dr. David Columbo

Dr. David Columbo was also deposed as a defense expert witness. He is board certified in obstetrics and gynecology and maternal fetal medicine.[26] He regularly addresses the prevention of neonatal herpes in his maternal fetal medicine practice.

Impact of Previous Pre-term Births on this Pregnancy

When asked if Vonshelle's two earlier pre-term births were important to the issues in this case, Dr. Columbo stated, "No." He said that he would not have done anything differently than what Dr. Sargent did in treating Vonshelle in 2010.

He agreed with the American Congress of Obstetrics and Gynecology's guidelines for maternal fetal medicine. Those guidelines recommend beginning an anti-viral medicine at 36 weeks, and he found those guidelines to be reliable and well thought out. This opinion is in direct conflict with the testimony offered by the Claimant's medical expert, Dr. Berto Lopez.

Whether Vonshelle had the Herpes Simplex Virus

Dr. Colombo commented on the testimony of Dr. Lamprecht, the pediatric infectious disease specialist. He stated that her testimony was actually very good but her conclusion was wrong when she was asked about the pathology results showing cellular changes consistent with herpes. He also said that Dr. Lamprecht was wrong to conclude that Vonshelle had hsv during her pregnancy. When asked to elaborate, he said that Vonshelle Brothers did not have hsv during her pregnancy. He based that opinion upon the 2014 test results of the antibody screen for HSV-1 and HSV-2, after the 2010 pregnancy. Those test results show that it was impossible for her to have had hsv during her pregnancy.

[26] Dr. Colombo served as a clinical assistant professor of maternal fetal medicine at the Ohio State University hospital system and at the time of the deposition was an associate professor at Michigan State University in obstetrics and gynecology and maternal fetal medicine.

Dr. Colombo expounded on the pathology notation about changes consistent with herpes. He said that the pathologist saw a multinucleated giant cell with inclusions in the nucleus that were not specific for herpes. At that point, he felt that it was the obstetrician's job to do an antibody screen to see if Vonshelle actually had herpes or if it were due to another cause. The fact that the obstetrician did not follow up then was not an issue because the fact that the tests were negative years later meant that the results would have been negative at the time that the Pap smear was done in 2010.

He felt that the pathologist was correct to say that he saw those type of cells, but those types of cells could also be human papilloma virus, chronic inflammation, or a lot of things that can give that appearance. He felt that the pathologist was unable to distinguish between herpes simplex virus and other viruses or infections at that point. Dr. Colombo felt that the pathologist made an incorrect assumption that the cells were herpes simplex virus.

The Method of Transmission to Iyonna

Dr. Colombo believed that Dr. Lamprecht actually gave the method of Iyonna's transmission in her deposition when she related the story of someone with a cold sore kissing a baby. He concluded that what happened to Iyonna was either "in the nursery or a family member, somebody with herpes contacted this child shortly after delivery and transmitted the herpes virus then." He stated, "But the mom didn't have it. So it had to be that other two percent where somebody else gave it to the kid shortly after delivery."

Standard of Care

Dr. Colombo felt that Dr. Sargent deviated from the standard of care by failing to review the lab report. However, because the mistake did not result in any damage, the mistake is less relevant. He found no causal connection between the deviation in the standard of care and the resulting damages.

Suppression Therapy

If he had received a positive antibody screen on Vonshelle, he would have offered acyclovir at 36 weeks. He would not have started it any sooner even though she had two pregnancies that delivered at 32 and 36 weeks.

Dr. Colombo stated that, if a mother has antibodies and a recurrent infection, the risk of transmitting herpes to the baby is about 1 in 4,000. Some people have a reaction or side effects to acyclovir or Valtrex which could be catastrophic, even fatal. He did not think that giving the medicines in a timely manner would prevent herpetic meningoencephalitis, but would decrease the risk of herpetic meningoencephalitis.

Dr. Colombo said that the HSV-2 antibody test used in 2014 for determining whether Vonshelle had herpes is a very good test.

Source of Transmission of HSV to Iyonna
Dr. Colombo testified that the virus likely came from a well-meaning relative who was excited for the baby, who came in with a cold sore and kissed the child. He noted that it could have been a nurse or tech in the newborn nursery who picked the child up without gloves and had a herpes lesion on her or his hand. He said that this method is consistent with the incubation period because it happened shortly after delivery.

Dr. Colombo expressed once again that Iyonna's exposure to the virus was not during labor and delivery and he based that upon the fact that Vonshelle tested negative for herpes in a subsequent pregnancy. He also noted that if Vonshelle were exposed to herpes, she would have antibodies in her blood for life. He stated that because she twice tested negative for herpes means that she was never exposed to the virus

Incubation Period
Dr. Colombo testified that herpes incubation periods generally occur with a general range of time. The shortest incubation period he has seen was 7 days and the longest was 21 days.

<u>Conclusion</u>
In light of the negative HerpeSelect tests[27] and expert witness testimony, as well as the Western Blot test, I find that Vonshelle did not have HSV-2 while pregnant with Iyonna. She was, therefore, incapable of transmitting the virus to Iyonna during the birth process and causing her neurological

[27] According to a website, the HerpeSelect test "is the most commonly used HSV antibody test in the U.S." The test can detect antibodies and differentiate between HSV-1 and HSV-2. It generally takes about 3-6 weeks for someone to develop a detectable amount of antibodies to the herpes simplex virus. Most everyone will have detectable antibodies 16 weeks after exposure. http://www.healthassist.net/medical/herpes-test.shtml

damage. Iyonna's infection must have originated from coming into contact with another person who had the infection.

Damages

The parties agreed to settle this claim for:

(1) The $200,000 statutory cap, which was previously paid to the Claimant and her attorneys; and
(2) The right to pursue a claim bill for no more than $1 million that would not be contested by the Department of Health.

As discussed on page 11, the attorneys have been reimbursed $101,841.41 for their costs, but have not received any compensation for their legal services. Vonshelle has received $40,698.01. An annuity costing $50,000 has been purchased for Iyonna.

Vonshelle has incurred no out-of-pocket medical expenses because she and Iyonna are covered by Medicaid. According to Vonshelle's deposition testimony in 2014, she received $720 per month in Social Security disability payments for Iyonna.

FINAL CONCLUSION IN LIGHT OF THE EVIDENCE:

I do not find that the Claimant has proven, by the greater weight of the evidence, that the Brevard County Health Department is responsible for Iyonna's neurological injuries.

The Department's breach of the standard of care when Dr. Sargent did not review the entire results of Vonshelle's Pap test did not cause Iyonna's injuries. Vonshelle has never tested positive for HSV-2, in separate tests submitted to the special masters, and therefore, she did not have the virus and was not capable of passing the virus to Iyonna. Any further testing by the Department for hsv after the lab slip noted the cellular changes consistent with the herpes virus would not have yielded a positive test result. Therefore, the Department is not liable for any damages.

ATTORNEY FEES:

Section 768.28, F.S, limits the claimant's attorney fees to 25 percent of the claimant's total recovery by way of any judgment or settlement obtained pursuant to s. 768.28, F.S. The claimant's attorney has agreed to limit attorney fees to 15 percent of the claim bill award.

RECOMMENDATIONS: Based upon the foregoing, the undersigned recommends that Senate Bill 42 be reported UNFAVORABLY.

Respectfully submitted,

Eva M. Davis
Senate Special Master

cc: Secretary of the Senate

A bill to be entitled

An act for the relief of Vonshelle Brothers on behalf of her daughter Iyonna Hughey; providing an appropriation to compensate Iyonna Hughey for injuries and damages sustained as a result of the alleged negligence of the Brevard County Health Department, an agency of the Department of Health; providing that certain payments and the appropriation satisfy all present and future claims related to the alleged negligent acts; providing a limitation on the payment of fees and costs; providing an effective date.

WHEREAS, on March 16, 2010, Vonshelle Brothers visited a location of the Brevard County Health Department for her initial prenatal visit, during which a complete obstetrical and gynecological exam was conducted, including a Pap smear, and

WHEREAS, the lab results of the exam were reported to be within normal limits with the exception of the Pap smear, which had tested negative for intraepithelial lesion or malignancy, but showed cellular changes consistent with herpes simplex virus and bacterial vaginosis, and

WHEREAS, despite the results of the Pap smear, the Brevard County Health Department did not report the results to Vonshelle Brothers, and

WHEREAS, Vonshelle Brothers continued to receive treatment from the Brevard County Health Department through the duration of her pregnancy until the birth of her daughter, Iyonna Hughey, on October 14, 2010, at the Wuesthoff Medical Center, and both were discharged from the hospital 2 days later in good

condition, and

WHEREAS, on November 1, 2010, Vonshelle Brothers brought Iyonna to the emergency room at Wuesthoff Medical Center, citing Iyonna's lack of eating, weak condition, and fever, and

WHEREAS, a lumbar puncture was performed and cerebral spinal fluid was collected which initially suggested that Iyonna had meningitis, which prompted her transfer to the Arnold Palmer Hospital for Children for further evaluation and management, and

WHEREAS, on November 3, 2010, the final results of the cerebral spinal fluid collection were reported, and the fluid had tested positive for herpes simplex type 2, and

WHEREAS, as a result of her diagnosis, Iyonna continues to experience significant developmental delay and neurologic impairment related to the herpes meningoencephalitis and has required continued treatment, including physical therapy, occupational and speech therapy, and neurologic and ophthalmologic care, and

WHEREAS, Iyonna's condition requires her to be under the constant care and supervision of Vonshelle Brothers, and

WHEREAS, the Brevard County Health Department had a duty to provide a reasonable level of care to Vonshelle Brothers and Iyonna, but that duty was allegedly breached by the department's failure to disclose the presence of the herpes simplex virus in Vonshelle Brothers and to order proper treatment of the virus, which eventually resulted in Iyonna's medical condition, and

WHEREAS, in June 2016, a final order was entered approving a settlement in the sum of $3.2 million between Vonshelle Brothers, individually and as parent and legal guardian of Iyonna, and the Brevard County Health Department to settle all

claims arising out of the factual situation described in this act, and

WHEREAS, the Department of Health has paid $200,000 to Vonshelle Brothers under the statutory limits of liability set forth in s. 768.28, Florida Statutes, and the parties have agreed to a reduced settlement in the amount of $1 million, NOW, THEREFORE,

Be It Enacted by the Legislature of the State of Florida:

Section 1. The facts stated in the preamble to this act are found and declared to be true.

Section 2. The sum of $1 million is appropriated from the General Revenue Fund to the Department of Health for the Supplemental Care Trust for the Benefit of Iyonna Hughey or other special needs trust for the exclusive use and benefit of Iyonna Hughey.

Section 3. The Chief Financial Officer is directed to draw a warrant in favor of the Supplemental Care Trust for the Benefit of Iyonna Hughey or other special needs trust for the exclusive use and benefit of Iyonna Hughey in the sum of $1 million upon funds of the Department of Health in the State Treasury and to pay the same out of such funds in the State Treasury.

Section 4. The amount paid by the Department of Health pursuant to s. 768.28, Florida Statutes, and the amount awarded under this act are intended to provide the sole compensation for all present and future claims arising out of the factual situation described in this act which resulted in injuries and

damages to Vonshelle Brothers and Iyonna Hughey. Of the amount awarded under this act, the total amount paid for attorney fees may not exceed $100,000, the total amount paid for lobbying fees may not exceed $50,000, and the total amount paid for costs and other similar expenses relating to this claim may not exceed $2,214.

Section 5. This act shall take effect upon becoming a law.

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Health and Human Services)

A bill to be entitled

An act for the relief of Cristina Alvarez and George Patnode; providing appropriations to compensate them for the death of their son, Nicholas Patnode, a minor, due to the negligence of the Department of Health; providing for the repayment of Medicaid liens; providing a limitation on the payment of attorney fees; providing an effective date.

WHEREAS, on January 8, 1998, Nicholas Patnode, 5 months of age, was seen for a fever at the Martin County Health Department - Indiantown Clinic, and

WHEREAS, a blood test was ordered, the results of which were abnormal and consistent with bacteremia, a condition that requires immediate administration of antibiotics, and

WHEREAS, the results of the blood test were printed that day but not picked up from the printer at the clinic, and as a result, treatment was not begun and Nicholas Patnode's condition deteriorated, and

WHEREAS, several hours later, Nicholas Patnode's parents took him to Martin Memorial Medical Center, where a spinal tap confirmed a diagnosis of bacterial meningitis, and Nicholas Patnode was transferred to St. Mary's Hospital in critical condition, and

WHEREAS, a decision was made to discontinue life support due to irreversible brain damage, and Nicholas Patnode died on January 10, 1998, and

366626

576-03509-18

WHEREAS, Nicholas Patnode is survived by his parents, Cristina Alvarez and George Patnode, and

WHEREAS, the actions of the Martin County Health Department demonstrated the failure to adhere to a reasonable level of care for Nicholas Patnode and resulted in his death, and

WHEREAS, after an unsuccessful attempt by Nicholas Patnode's parents to settle this claim, it proceeded to litigation, resulting in a judgment in favor of the parents in the amount of $2.6 million, and

WHEREAS, the Department of Health has paid $200,000 to Cristina Alvarez and George Patnode under the statutory limits of liability set forth in s. 768.28, Florida Statutes, NOW, THEREFORE,

Be It Enacted by the Legislature of the State of Florida:

Section 1. The facts stated in the preamble to this act are found and declared to be true.

Section 2. The sum of $1,382,500 is appropriated from the General Revenue Fund to the Department of Health for the relief of Cristina Alvarez as compensation for the death of her son, Nicholas Patnode, a minor, due to the negligence of the Martin County Health Department.

Section 3. The Chief Financial Officer is directed to draw a warrant in favor of Cristina Alvarez in the sum of $1,382,500 upon funds of the Department of Health in the State Treasury, and the Chief Financial Officer is directed to pay the same out of such funds in the State Treasury.

Section 4. The sum of $782,500 is appropriated from the

366626

576-03509-18

General Revenue Fund to the Department of Health for the relief of George Patnode as compensation for the death of his son, Nicholas Patnode, a minor, due to the negligence of the Martin County Health Department.

Section 5. The Chief Financial Officer is directed to draw a warrant in favor of George Patnode in the sum of $782,500 upon funds of the Department of Health in the State Treasury, and the Chief Financial Officer is directed to pay the same out of such funds in the State Treasury.

Section 6. The governmental entity responsible for payment of the warrants shall pay to the Agency for Health Care Administration the amount due under s. 409.910, Florida Statutes, before disbursing any funds to the claimants. The amount due to the agency shall be equal to all unreimbursed medical payments paid by Medicaid up to the date on which this act becomes a law. Such amounts shall be deducted in equal amounts from the award to each parent.

Section 7. The amount paid by the Department of Health pursuant to s. 768.28, Florida Statutes, and the amounts awarded under this act are intended to provide the sole compensation for all present and future claims arising out of the factual situation described in this act which resulted in the death of Nicholas Patnode. The total amount paid for attorney fees relating to this claim may not exceed 25 percent of the total amount awarded under this act.

Section 8. This act shall take effect upon becoming a law.

Re: **CS/SB 44** – Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services) and Senator Jose Rodriguez
HB 6501 – Representative Jackie Toledo
Relief of Christina Alvarez and George Patnode by the Department of Health

SPECIAL MASTER'S FINAL REPORT

THIS IS A CONTESTED EXCESS JUDGMENT CLAIM FOR $2.4 MILLION AGAINST THE DEPARTMENT OF HEALTH FOR THE NEGLIGENT MEDICAL CARE PROVIDED TO NICHOLAS PATNODE IN 1998 AT THE COUNTY HEALTH DEPARTMENT/PUBLIC HEALTH CLINIC OPERATED BY THE DEPARTMENT IN MARTIN COUNTY.

CURRENT STATUS:

This claim bill was previously filed with the Legislature for the 2004 through 2010 Legislative Sessions. At some point, it was heard by T. Kent Wetherell, an administrative law judge from the Division of Administrative Hearings, serving as a Senate Special Master. After the hearing, the judge issued a report containing findings of fact and conclusions of law and recommended that the bill be reported FAVORABLY. Judge Wetherell's special master report from SB 46 (2007), the latest report available, is attached.

According to counsel for the parties, no changes have occurred since the hearing which might have altered the

findings and recommendations in the report. Additionally, the prior claim bills on which the attached special master report is based, is effectively identical to claim bill filed for the 2018 Legislative Session. Therefore, the undersigned recommends that Senate Bill 44 be reported FAVORABLY.

Respectfully submitted,

Thomas C. Cibula
Senate Special Master

Re: **SB 46 (2007)** – Senator Dave Aronberg
Relief of Nicholas Patnode

SPECIAL MASTER'S FINAL REPORT

THIS IS A CONTESTED EXCESS JUDGMENT CLAIM FOR $2.4 MILLION AGAINST THE DEPARTMENT OF HEALTH FOR THE NEGLIGENT MEDICAL CARE PROVIDED TO NICHOLAS PATNODE IN 1998 AT THE COUNTY HEALTH DEPARTMENT/PUBLIC HEALTH CLINIC OPERATED BY THE DEPARTMENT IN MARTIN COUNTY.

FINDINGS OF FACT:

On December 26, 1997, 5-month-old Nicholas Patnode was taken to the Martin County Health Department - Indiantown Clinic (hereafter "the Clinic") by his mother, Christina Alvarez, because of a fever. Nicholas received his primary care through the Clinic, as did the claimants' other two children. Nicholas' regular pediatrician was Dr. Stephen Williams.

Dr. Williams diagnosed Nicholas with an ear infection. He prescribed an antibiotic, and told Ms. Alvarez to bring Nicholas back in 10 days. Nicholas completed the antibiotic, and went in for the follow-up appointment on January 6, 1998. At the follow-up appointment, Dr. Williams found that Nicholas had recovered from the ear infection.

Two days later, on Thursday, January 8, 1998, Nicholas again ran a fever causing his mother to bring him back to the Clinic. Dr. Williams saw Nicholas and measured his fever at 103.7

degrees. The fever was "without focus," meaning that there was no apparent cause for the fever. In order to rule out a dangerous bacterial infection, Dr. Williams properly ordered a complete blood count (CBC) and urine test.

The Clinic did not have lab facilities. Lab work, such as the CBC ordered by Dr. Williams, was sent to the lab at Martin Memorial Hospital for analysis. The lab faxed the results of the tests back to the Clinic physician who ordered the tests.

In addition to ordering the CBC, Dr. Williams prescribed Tylenol and Motrin for Nicholas, told his mother to keep cool clothes on him, and to watch him for a rash. He also told her that if there was a rash or if the fever persisted or got worse, she should take Nicholas immediately to the emergency room.

The next day, January 9, 1998, Ms. Alvarez stated that she checked Nicholas' temperature every 4 hours, and that his temperature was "normal" (i.e., 98.6 degrees) throughout the day. At about 4:30 p.m., Nicholas felt hot and had a fever of 100 degrees. Ms. Alvarez gave Nicholas a dose of Tylenol, and when she checked his temperature again an hour later, his fever was up to 101 degrees. At about the same time, Nicholas' father, George Patnode, arrived home from working on a friend's car.

Mr. Patnode and Ms. Alvarez proceeded directly to the Martin Memorial Hospital emergency room with Nicholas. They arrived at the hospital at approximately 6:50 p.m. Ms. Alvarez did not mention during the admission process that Nicholas had been seen by Dr. Williams on the prior day or that he had ordered a CBC test.

The emergency room physician ordered another CBC test, which showed an abnormal white blood cell count. While waiting for test results, Cristina noticed that Nicholas was getting limp and whining, and was starting to get blotches on his lips. A lumbar puncture (i.e., spinal tap) indicated that Nicholas had pneumoccoccal meningitis. Nicholas was given intravenous antibiotics, and transferred by ambulance to St. Mary Hospital's pediatric intensive care unit.

Nicholas arrived at St. Mary's at 1:57 a.m., on January 10, 1998. By that time, Nicholas had gone into septic shock. He was removed from life support and died later that morning.

Dr. Williams' Background

Dr. Williams obtained his medical degree in Nigeria in the 1980's. He came to the United States in 1991 after completing an internship in a Nigerian hospital and working for a year in a public health clinic in Nigeria. It took Dr. Williams two tries to pass the exams required for him to practice medicine in the United States. He did a residency program in pediatrics in New York before coming to the Clinic in July 1996. According the Department's website, Dr. Williams was licensed to practice medicine in Florida on July 1, 1996, and his license number is ME70792.

Dr. Williams was granted permanent resident status in the United States in 1996. He worked for the Clinic pursuant to an F-1 visa that required him to provide services in an underserved area for three years. It took Dr. Williams three tries to pass the exam for Board certification in pediatrics. He was Board certified at some point in 1998 after the incident involving Nicholas.

Negligent Medical Care Provided by Dr. Williams

Dr. Williams did not order a rush or "stat" CBC; he ordered a routine CBC. Had Dr. Williams ordered the CBC "stat," the results would have been ready by 5:30 p.m., the day that they were ordered, i.e., January 8, 1998. The more credible expert testimony establishes that, in order to meet standard of care, Dr. Williams should have ordered the CBC "stat" because the test involved a five-month old child who had a fever without a focus.

The tests were completed by the lab at 11:30 p.m., on January 8, 1998. The results were faxed to the Clinic at 12:17 p.m., on January 9, 1998.

The lab results showed that Nicholas had a white blood cell count of 24,900. The normal range for a child of Nicholas' age was between 6,000 to 15,000. Nicholas' elevated white blood cell count was an indication that he might have a serious bacterial infection which, in turn, might develop into bacterial meningitis. In such cases, the standard of care requires immediate treatment with antibiotics.

The Clinic policy in effect at the time required abnormal lab results to be followed-up on with the patient within 24 hours of receipt. Dr. Williams did not review Nicolas' lab results until January 14, 1998, four days after he passed away. His failure to do so violated the clinic policy, and more importantly, fell below the standard of care.

The Clinic had a policy that required the lab to call the physician immediately if the lab results exceeded "panic values" set by the Clinic. The "panic value" set for white blood cell counts was 25,000, which was 100 higher than Nicholas' white blood cell count. The claimants' expert testified that the "panic value" should have been 15,000, which was the reference range published by the American Academy of Pediatrics.

The claimants' expert ultimately opined that had the CBC test been ordered "stat," or if the regular and actual results that were received by the Clinic at 12:17 p.m. on January 9, 1998, had been promptly reviewed and acted upon by Dr. Williams, then a course of intravenous antibiotics could have been administered in time to save Nicholas' life. The Clinic's expert, while not agreeing that a "stat" CBC was required, agreed that had Nicholas been started on antibiotics at any point up until 4:30 p.m. or so on January 9, 1998, he most likely would not have died.

The Clinic

The Clinic a county health department/public health clinic operated by the Department, with funding support from Martin County. See generally ss. 154.001-.067, F.S. Employees of the Clinic are employees of the Department. s. 154.04(2), F.S.

The Clinic serves Medicaid recipients and other low income patients who do not otherwise have access to health care. It is one of only three facilities in Martin County serving that patient population. In fiscal year 2005-06, the Clinic served more than 19,000 patients and had a budget of $7.8 million. It now has 137 employees.

The Clinic was only one of only three county health departments in the state that provides prenatal care from pregnancy to birth. The Clinic delivers approximately one-

third of the babies born in Martin County. Pediatric care is provided to many of these children after birth, as was the case with Nicholas and his siblings.

The Clinic is funded with a mix of federal, state, and county funds. It receives approximately $3.5 million in state funds and $920,000 (or 12 percent of its budget) from Martin County. As of November 30, 2006, the Clinic had a cash reserve of $1.3 million and a cash-to-budget ratio of 17.85 percent, which exceeds the 8.5 percent operating reserve required by s. 154.02(5)(a), F.S.

The Claimants

Nicholas' parents, Cristina Alvarez and George Patnode had two children prior to Nicolas. One of the other children is emotionally handicapped, has ADHD, and has pervasive developmental disorder. The other child has ADHD.

Ms. Alvarez and Ms. Patnode had been married for 10 years at the time of Nicholas' death. They separated four days after Nicolas' death, and they divorced in 2000. Both have remarried, and they each have had additional children since Nicholas' death.

George Patnode is 45-years-old. He does not work. He is a disabled veteran, who receives $724 per month in Social Security disability benefits and $115 per month from the Veterans Administration. He has been on Social Security disability since 1998. He has been working on an Associate in Arts degree at Indian River Community College for several years. He expects to complete that degree soon and then he intends to pursue a Bachelor's degree at Florida Atlantic University.

Mr. Patnode pays a total of $1,200 per month in child support, $600 of which is paid to Ms. Alvarez. He is current on his child support obligations. He is a "recovering alcoholic." He has been sober for 8 years, except for a "brief relapse in 2004," and he is active in Alcoholics Anonymous. He had two criminal offenses in 2002. The offenses were misdemeanor domestic batteries to which he pled no contest and served 30 days in jail.

Ms. Alvarez does not work outside the home. She receives $982 per month in government benefits for the two children

fathered by Mr. Patnode who are disabled, in addition to the $600 per month in child support that she receives from Mr. Patnode. She has no history of drug or alcohol abuse.

Relevant Subsequent Events

Dr. Williams no longer works for the Clinic. He left the Clinic in June 1999, after the end of the 3-year term required by his visa. Dr. Williams is now in private practice in the Tampa area.

Dr. Williams was not disciplined by the Clinic as a result of the incident. No disciplinary action was taken against his medical license.

The only policy change that came about at the Clinic as a result of Nicholas' death was the that the white blood cell count "panic value" of 25,000 was changed. Now, the "panic value" for that and other tests depends upon the range established by the lab for the specific test. No Department-wide policy changes were made as a result of the incident.

Source of Funds to Pay this Claim Bill

The bill authorizes and directs payment of this claim out of General Revenue, not the funds of the Department or the Clinic. The Department argues that neither it nor the Clinic has funds available to pay this claim and that payment of the claim from funds earmarked for the Clinic would be contrary to state law and would seriously hamper the Clinic's ability to serve its patients.

The Clinic and other county health departments receive a majority of their state funding from the County Health Department Trust Fund (CHDTF). In the 2006-07 General Appropriations Act, for example, a total of approximately $980 million of state funds were appropriated for the operation of the 67 county health departments, with $192 million (19.6%), coming from General Revenue and $780 million (79.4%) coming from the CHDTF, and the remainder (1%) coming from other sources.

Section 154.02(2), F.S., provides that funds in the CHDTF "shall be expended by the Department of Health solely for the purposes of carrying out the intent and purposes of [Part I of Chapter 154, F.S.]." Nothing in Part I of Chapter 154.02, F.S., addresses payment of claims against county health

departments. Moreover, s. 154.02(3), F.S., provides very specific language regarding the use of funds in the CHDTF; limitations on the transfer of the funds; and specific accounting requirements for those funds. Thus, it does not appear that that funds from the CHDTF could be used to pay this claim, and, under the circumstances, it is appropriate to pay the claim from General Revenue.

If the claim is paid from General Revenue, the Legislature will have to make a policy decision as to whether to concomitantly increase the appropriation of General Revenue to the Department to offset the payment of the claim. Failure to do so will provide a measure of accountability to the Department, whose employee's negligence was the basis of the claim, but it will mean that the other 66 county health departments are effectively subsidizing the payment of this claim since they will receive proportionally less General Revenue than they otherwise would have received.

In my view, it is unlikely that a proportional reduction in General Revenue would have a material negative impact on the operation of the county health departments since the amount of the claim ($2.4 million) amounts to less than 1.3 percent of the General Revenue ($192 million) and only 0.25 percent of the total state funds ($980 million) appropriated to the county health departments in fiscal year 2006-07. Thus, I recommend that the bill be amended to require payment of the claim out of the General Revenue funds appropriated to the Department for the county health departments and not from a separate and additional appropriation of General Revenue to the Department specifically for the payment of this claim.

LITIGATION HISTORY:

In 2000, the claimants filed suit against the Clinic, Dr. Williams, Martin Memorial Hospital, and others involved in the care and treatment of Nicholas from January 8 through 10, 1998. The suit was filed in circuit court in Martin County.

The claimants offered to settle with the Clinic for $200,000 prior to trial, but the Clinic rejected the offer. Martin Memorial Hospital settled with the claimants for $35,000. The claims against the other defendants were dismissed, and the case proceeded to trial against the Clinic only.

A jury trial was held in February 2002. The trial judge granted a directed verdict in favor of Mr. Patnode on the issue of his comparative negligence, but the jury had the opportunity to apportion negligence to Ms. Alvarez. The jury returned a $2.6 million verdict in favor of the claimants, finding the Clinic 100 percent responsible for Nicholas' death. The damages award was for past and future pain and suffering; no economic damages were sought or awarded. The jury apportioned 61.5 percent of the damages ($1.6 million) to Ms. Alvarez and 38.5 percent ($1 million) to Mr. Patnode.

The Department's post-trial motions were denied, and a final judgment consistent with the jury verdict was entered on March 26, 2002. The Fourth District Court of Appeal affirmed the final judgment without an opinion on April 30, 2003. The Clinic paid $200,000 in partial satisfaction of the judgment pursuant to s. 768.28, F.S., in September 2003.

The final judgment reserved jurisdiction to tax costs and attorney's fees, but no subsequent order was entered. The claimant's attorney has advised that no costs are being sought as part of the claim bill.

CLAIMANTS' POSITION:

- The claim is based on a jury verdict that was affirmed on appeal, and the jury verdict should be given full effect because it is supported by the evidence.
- Government entities should be held to the same level of accountability as the private sector, especially in the area of health care.
- The Department had an opportunity to settle this case for $200,000, but it failed to do so and, therefore, it should be required to pay the full amount awarded by the jury.

DEPARTMENT'S POSITION:

- Nicholas' mother, Ms. Patnode, should be found comparatively negligent for not taking Nicolas to the emergency room sooner, and for not telling the emergency room nurse about seeing Dr. Williams the day before.
- Payment of the claim would hinder the Clinic's ability to provide services to its patients.

- Payment of the claim should come from a separate appropriation of General Revenue because the Clinic and the Department do not have the funds to pay the claim.

CONCLUSIONS OF LAW:

Dr. Williams was an employee of the Department acting within the course and scope of his employment at the time of the incidents giving rise to this claim. As a result, the Department is vicariously liable for his negligence.

Dr. Williams owed a duty to Nicholas and his parents to properly diagnose and treat his medical condition. Dr. Williams breached that duty by failing to follow-up on the blood test that he ordered for Nicholas for the purpose of ruling out a serious bacterial infection. His failure to do so fell below the prevailing professional standard of care and was a proximate cause of Nicholas' death because had he reviewed the results of the test, Dr. Williams would have (or, at least, should have) sent Nicholas to the emergency room for antibiotics.

It is a close question in my mind as to whether Nicholas' mother was comparatively negligent for failing to take Nicholas to the emergency room sooner. On one hand, she was following Dr. Williams advice by giving Nicholas Tylenol and Motrin to reduce his fever and by only taking him to the emergency room if the fever continued despite the medications. On the other hand, it is clear from the expert medical testimony that she could not have been truthful when she testified that Nicholas' temperature was "normal" (i.e., 98.6 degrees) throughout the day on January 9, 1998, and, as a result, she might bear some responsibility for not bringing Nicholas to the emergency room until it was too late. The jury rejected the Department's argument that Nicholas' mother was comparatively negligent and, on balance, I agree with the jury's conclusion on that issue.

The damages awarded by the jury are reasonable. The damage award should, however, be reduced by $35,000 to reflect the settlement that the claimants received from Martin Memorial Hospital. It would be a windfall to the claimants if the claim bill was not reduced by the amount of that settlement because the jury specifically found that the hospital's lab was not negligent and the claimants' medical expert testified that he had no criticism of the care provided to Nicholas in the hospital's emergency room. Each parent's share of the claim

bill should be reduced by $17,500 (i.e., half of the $35,000 settlement) because they split the settlement equally.

ATTORNEY'S FEES AND LOBBYIST'S FEES: The claimants' attorney submitted an affidavit stating that attorney's fees related to this claim bill, inclusive of lobbyist's fees and costs, will be limited to 25 percent of the final claim in accordance with s. 768.28(8), F.S.

LEGISLATIVE HISTORY: This is the fourth year that this claim has been presented to the Senate. It was first presented in 2004 (SB 26), and then again in 2005 (SB 42) and 2006 (SB 52). No Special Master hearings were held on the prior years' Senate bills. The House Special Master recommended favorable consideration of the claim, as presented in HB 235 in 2004.

OTHER ISSUES: The bill authorizes and directs payment of $1.5 million to Ms. Alvarez and $900,000 to Mr. Patnode, which is consistent with the allocation of damages by the jury and the final judgment. However, the proceeds received to date -- the $35,000 settlement with Martin Memorial Hospital and the $200,000 partial satisfaction of the judgment by the Clinic -- have been split equally between Ms. Alvarez and Mr. Patnode after payment of attorney's fees and costs.

RECOMMENDATIONS: For the reasons set forth above, I recommend that SB 46 be reported FAVORABLY, as amended.

Respectfully submitted,

T. Kent Wetherell
Senate Special Master

cc: Senator Dave Aronberg
Faye Blanton, Secretary of the Senate
House Claims Committee

CS by Appropriations on March 2, 2018:
The committee substitute reduces the award amounts to reflect partial payments previously made, specifically the $200,000 partial satisfaction of the judgement and $35,000 paid in settlement with the treating hospital, which is consistent with the original Special Master's Final Report from January 17, 2007.

By Senator Rodriguez

37-00064-18 201844__

A bill to be entitled

An act for the relief of Cristina Alvarez and George Patnode; providing appropriations to compensate them for the death of their son, Nicholas Patnode, a minor, due to the negligence of the Department of Health; providing for the repayment of Medicaid liens; providing a limitation on the payment of attorney fees; providing an effective date.

WHEREAS, on January 8, 1998, Nicholas Patnode, 5 months of age, was seen for a fever at the Martin County Health Department - Indiantown Clinic, and

WHEREAS, a blood test was ordered, the results of which were abnormal and consistent with bacteremia, a condition that requires immediate administration of antibiotics, and

WHEREAS, the results of the blood test were printed that day but not picked up from the printer at the clinic, and as a result, treatment was not begun and Nicholas Patnode's condition deteriorated, and

WHEREAS, several hours later, Nicholas Patnode's parents took him to Martin Memorial Medical Center, where a spinal tap confirmed a diagnosis of bacterial meningitis, and Nicholas Patnode was transferred to St. Mary's Hospital in critical condition, and

WHEREAS, a decision was made to discontinue life support due to irreversible brain damage, and Nicholas Patnode died on January 10, 1998, and

WHEREAS, Nicholas Patnode is survived by his parents, Cristina Alvarez and George Patnode, and

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

37-00064-18 201844__

WHEREAS, the actions of the Martin County Health Department demonstrated the failure to adhere to a reasonable level of care for Nicholas Patnode and resulted in his death, and

WHEREAS, after an unsuccessful attempt by Nicholas Patnode's parents to settle this claim, it proceeded to litigation, resulting in a judgment in favor of the parents in the amount of $2.6 million, and

WHEREAS, the Department of Health has paid $200,000 to Cristina Alvarez and George Patnode under the statutory limits of liability set forth in s. 768.28, Florida Statutes, NOW, THEREFORE,

Be It Enacted by the Legislature of the State of Florida:

Section 1. The facts stated in the preamble to this act are found and declared to be true.

Section 2. The sum of $1.5 million is appropriated from the General Revenue Fund to the Department of Health for the relief of Cristina Alvarez as compensation for the death of her son, Nicholas Patnode, a minor, due to the negligence of the Martin County Health Department.

Section 3. The Chief Financial Officer is directed to draw a warrant in favor of Cristina Alvarez in the sum of $1.5 million upon funds of the Department of Health in the State Treasury, and the Chief Financial Officer is directed to pay the same out of such funds in the State Treasury.

Section 4. The sum of $900,000 is appropriated from the General Revenue Fund to the Department of Health for the relief of George Patnode as compensation for the death of his son,

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Nicholas Patnode, a minor, due to the negligence of the Martin County Health Department.

Section 5. The Chief Financial Officer is directed to draw a warrant in favor of George Patnode in the sum of $900,000 upon funds of the Department of Health in the State Treasury, and the Chief Financial Officer is directed to pay the same out of such funds in the State Treasury.

Section 6. The governmental entity responsible for payment of the warrants shall pay to the Agency for Health Care Administration the amount due under s. 409.910, Florida Statutes, before disbursing any funds to the claimants. The amount due to the agency shall be equal to all unreimbursed medical payments paid by Medicaid up to the date on which this act becomes a law. Such amounts shall be deducted in equal amounts from the award to each parent.

Section 7. The amount paid by the Department of Health pursuant to s. 768.28, Florida Statutes, and the amounts awarded under this act are intended to provide the sole compensation for all present and future claims arising out of the factual situation described in this act which resulted in the death of Nicholas Patnode. The total amount paid for attorney fees relating to this claim may not exceed 25 percent of the total amount awarded under this act.

Section 8. This act shall take effect upon becoming a law.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 272 provides that a referendum to adopt or amend a local option discretionary sales surtax must be held at a general election. The bill has no impact on state or local revenues or expenditures.

II. Present Situation:

Discretionary Sales Surtax

The Florida Constitution preempts all forms of taxation to the state, except for ad valorem taxes on real estate and tangible personal property, unless otherwise provided by general law.[1] Counties have limited authority to levy discretionary sales surtaxes on transactions subject to state sales tax.[2,3] The Legislature has authorized the following local option discretionary sales surtaxes:

- Charter County and Regional Transportation System Surtax, for operating a transportation system in a charter county, a county which is consolidated with that of one or more

[1] Art. VII, s. 1(a), Fla. Const.
[2] Sections 212.054 and 212.055, F.S.
[3] Surtaxes only apply to the first $5,000 of a taxable transaction pursuant to s. 212.054(2)(b)1, F.S.

municipalities, or a county that is within or under an interlocal agreement with a regional transportation or transit authority.[4]

- Local Government Infrastructure Surtax, for financing local government infrastructure projects.[5]
- Small County Surtax, providing additional revenue for counties having fewer than 50,000 residents as of April 1, 1992.[6]
- Indigent Care and Trauma Center Surtax, for providing medical care for indigent persons (in non-consolidated counties having a population of at least 800,000) and funding trauma centers (in non-consolidated counties having a population less than 800,000).[7]
- County Public Hospital Surtax, for operating, maintaining, and administering a county public general hospital in a county as defined in s. 125.011(1), F.S. (i.e., Miami-Dade County).[8]
- School Capital Outlay Surtax, for constructing and renovating schools.[9]
- Voter-Approved Indigent Care Surtax, for providing medical care for indigent persons in counties with a population less than 800,000.[10]
- Emergency Fire Rescue Services and Facilities Surtax, for providing emergency fire rescue services and facilities.[11]
- Pension Liability Surtax for funding pension liability shortfalls.[12]

Local discretionary sales surtaxes are collected by the Department of Revenue (DOR) using the same procedures used for the administration, collection, and enforcement of the general state sales tax.[13] DOR places these funds into the Discretionary Sales Surtax Clearing Trust Fund. A separate account is established for each county imposing a discretionary surtax. The proceeds of the surtax are distributed to the county on a monthly basis, minus an administrative fee of the lesser of three percent or administrative costs solely and directly attributable to the surtax. Each county is liable for its prorated share of administrative costs, based on its prorated share of the amount collected statewide.[14]

New surtaxes and rate changes to existing surtaxes take effect on January 1, while the repeal of an existing surtax takes effect on December 31.[15] The governing body of the county or the school district must notify DOR of the imposition, termination, or rate change of a discretionary sales surtax within 10 days of final adoption by ordinance or referendum, but no later than November 16. The notification must include the duration of the surtax, the surtax rate, a copy of the ordinance, and any additional information DOR requires by rule.[16] If the county or school district fails to provide timely notice, the effective date of the change is delayed by 1 year.[17] Counties

[17] *Id*.

and school districts are also required to notify DOR if a referendum or consideration of an ordinance to impose, terminate, or change the rate of a surtax is to occur after October 1.[18]

The 49 counties and 16 school districts levying one or more discretionary sales surtaxes were projected to realize $2.35 billion in revenue in fiscal year 2016-17.[19] If all counties and school districts levied discretionary sales surtaxes at the maximum possible rates, they would have been projected to raise $11.68 billion in revenue in fiscal year 2016-17.[20]

Most local discretionary sales surtaxes may be approved only by referendum, while some may be approved by an extraordinary vote of the county commission.[21] For those requiring voter approval, the referendum must be approved by a majority of electors voting.[22] Except for the emergency fire rescue services and facilities surtax, the date of the referendum is at the discretion of the county commission.[23]

Referendum Process

The Florida Election Code provides the general requirements for a referendum.[24] The question presented to voters must contain a ballot summary with clear and unambiguous language, such that a "yes" or "no" vote on the measure indicates approval or rejection, respectively.[25] The ballot summary should explain the chief purpose of the measure and may not exceed 75 words.[26] The ballot summary and title must be included in the resolution or ordinance calling for the referendum.[27] For some discretionary sales surtaxes, the form of the ballot question is specified by statute.[28]

Five types of elections exist under the Election Code: primary elections, special primary elections, special elections, general elections, and presidential preference primary elections.[29] A "general election" is held on the first Tuesday after the first Monday in November in even-numbered years to fill national, state, county, and district offices, and for voting on constitutional amendments.[30]

III. Effect of Proposed Changes:

Section 1 amends s. 212.055, F.S., to require that a referendum to adopt or amend a local government discretionary surtax must be held at a general election. This will limit the timing and frequency of these referenda to even-year November elections.

Section 2 provides that the act takes effect upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(b) of the Florida Constitution provides that the Legislature, except upon approval by a two-thirds vote of the membership, may not enact a general law if the anticipated effect of doing so would be to reduce the *authority* that counties or municipalities have to raise revenues in the aggregate.

In 1991, Senate President Margolis and House Speaker Wetherell released a memorandum to guide the House and Senate in the review of local government mandates. In the memorandum, the guidelines define the term "authority" to mean the power to levy a tax; the vote required to levy the tax, e.g., increasing the required vote from majority to majority plus one; the tax rate which can be levied; and the base against which the tax is levied, e.g., a bill providing a sales tax exemption should be considered a reduction in authority because counties have authority to levy local option sales taxes against the state sales tax base.

The bill requires that a referendum to adopt or amend a local government discretionary surtax must be held at a general election. While the bill limits the flexibility that counties and municipalities have for scheduling a referendum, it does not limit the authority they have to raise revenues. Therefore, the bill does not appear to be a mandate.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 212.055 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Finance and Tax on January 16, 2018:
Provides that a referendum to adopt or amend a local government discretionary sales surtax must be held at a general election, and is effective upon becoming a law.

CS by Community Affairs Committee on October 24, 2017:
Removes a provision that required a municipality to attain a vote of at least 60 percent of the governing body of the municipality in order to increase the millage rate of ad valorem taxes levied on real and tangible personal property within the municipality.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

576-02115-18

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Finance and Tax)

A bill to be entitled

An act relating to local tax referenda; amending s. 212.055, F.S.; providing that a referendum to adopt or amend a local discretionary sales surtax must be held at a general election; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (c) of subsection (1), paragraph (b) of subsection (5), and paragraph (b) of subsection (8) of section 212.055, Florida Statutes, are amended, and subsection (10) is added to that section, to read:

212.055 Discretionary sales surtaxes; legislative intent; authorization and use of proceeds.—It is the legislative intent that any authorization for imposition of a discretionary sales surtax shall be published in the Florida Statutes as a subsection of this section, irrespective of the duration of the levy. Each enactment shall specify the types of counties authorized to levy; the rate or rates which may be imposed; the maximum length of time the surtax may be imposed, if any; the procedure which must be followed to secure voter approval, if required; the purpose for which the proceeds may be expended; and such other requirements as the Legislature may provide. Taxable transactions and administrative procedures shall be as provided in s. 212.054.

(1) CHARTER COUNTY AND REGIONAL TRANSPORTATION SYSTEM SURTAX.—

245118

576-02115-18

(c) The proposal to adopt a discretionary sales surtax as provided in this subsection and to create a trust fund within the county accounts shall be placed on the ballot in accordance with law and must be approved in a referendum held at a general election as set forth in subsection (10) ~~at a time to be set at the discretion of the governing body~~.

(5) COUNTY PUBLIC HOSPITAL SURTAX.—Any county as defined in s. 125.011(1) may levy the surtax authorized in this subsection pursuant to an ordinance either approved by extraordinary vote of the county commission or conditioned to take effect only upon approval by a majority vote of the electors of the county voting in a referendum. In a county as defined in s. 125.011(1), for the purposes of this subsection, "county public general hospital" means a general hospital as defined in s. 395.002 which is owned, operated, maintained, or governed by the county or its agency, authority, or public health trust.

(b) If the ordinance is conditioned on a referendum, the proposal to adopt the county public hospital surtax shall be placed on the ballot in accordance with subsection (10) ~~law at a time to be set at the discretion of the governing body~~. The referendum question on the ballot shall include a brief general description of the health care services to be funded by the surtax.

(8) EMERGENCY FIRE RESCUE SERVICES AND FACILITIES SURTAX.—

(b) Upon the adoption of the ordinance, the levy of the surtax must be placed on the ballot by the governing authority of the county enacting the ordinance. The ordinance will take effect if approved by a majority of the electors of the county voting in a referendum held for such purpose. The referendum

shall be placed on the ballot of a general ~~regularly scheduled~~ election. The ballot for the referendum must conform to the requirements of s. 101.161.

(10) DATES FOR REFERENDA.—A referendum to adopt or amend a local government discretionary sales surtax under this section shall be held at a general election as defined in s. 97.021.

Section 2. This act shall take effect upon becoming a law.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 272
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Finance and Tax); Community Affairs Committee; and Senators Brandes and Campbell
SUBJECT:	Local Tax Referenda
DATE:	March 3, 2018
REVISED:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 272 provides that a referendum to adopt or amend a local option discretionary sales surtax must be held at a general election. The bill has no impact on state or local revenues or expenditures.

II. Present Situation:

Discretionary Sales Surtax

The Florida Constitution preempts all forms of taxation to the state, except for ad valorem taxes on real estate and tangible personal property, unless otherwise provided by general law.[1] Counties have limited authority to levy discretionary sales surtaxes on transactions subject to state sales tax.[2,3] The Legislature has authorized the following local option discretionary sales surtaxes:

- Charter County and Regional Transportation System Surtax, for operating a transportation system in a charter county, a county which is consolidated with that of one or more

[1] Art. VII, s. 1(a), Fla. Const.
[2] Sections 212.054 and 212.055, F.S.
[3] Surtaxes only apply to the first $5,000 of a taxable transaction pursuant to s. 212.054(2)(b)1, F.S.

municipalities, or a county that is within or under an interlocal agreement with a regional transportation or transit authority.[4]

- Local Government Infrastructure Surtax, for financing local government infrastructure projects.[5]
- Small County Surtax, providing additional revenue for counties having fewer than 50,000 residents as of April 1, 1992.[6]
- Indigent Care and Trauma Center Surtax, for providing medical care for indigent persons (in non-consolidated counties having a population of at least 800,000) and funding trauma centers (in non-consolidated counties having a population less than 800,000).[7]
- County Public Hospital Surtax, for operating, maintaining, and administering a county public general hospital in a county as defined in s. 125.011(1), F.S. (i.e., Miami-Dade County).[8]
- School Capital Outlay Surtax, for constructing and renovating schools.[9]
- Voter-Approved Indigent Care Surtax, for providing medical care for indigent persons in counties with a population less than 800,000.[10]
- Emergency Fire Rescue Services and Facilities Surtax, for providing emergency fire rescue services and facilities.[11]
- Pension Liability Surtax for funding pension liability shortfalls.[12]

Local discretionary sales surtaxes are collected by the Department of Revenue (DOR) using the same procedures used for the administration, collection, and enforcement of the general state sales tax.[13] DOR places these funds into the Discretionary Sales Surtax Clearing Trust Fund. A separate account is established for each county imposing a discretionary surtax. The proceeds of the surtax are distributed to the county on a monthly basis, minus an administrative fee of the lesser of three percent or administrative costs solely and directly attributable to the surtax. Each county is liable for its prorated share of administrative costs, based on its prorated share of the amount collected statewide.[14]

New surtaxes and rate changes to existing surtaxes take effect on January 1, while the repeal of an existing surtax takes effect on December 31.[15] The governing body of the county or the school district must notify DOR of the imposition, termination, or rate change of a discretionary sales surtax within 10 days of final adoption by ordinance or referendum, but no later than November 16. The notification must include the duration of the surtax, the surtax rate, a copy of the ordinance, and any additional information DOR requires by rule.[16] If the county or school district fails to provide timely notice, the effective date of the change is delayed by 1 year.[17] Counties

and school districts are also required to notify DOR if a referendum or consideration of an ordinance to impose, terminate, or change the rate of a surtax is to occur after October 1.[18]

The 49 counties and 16 school districts levying one or more discretionary sales surtaxes were projected to realize $2.35 billion in revenue in fiscal year 2016-17.[19] If all counties and school districts levied discretionary sales surtaxes at the maximum possible rates, they would have been projected to raise $11.68 billion in revenue in fiscal year 2016-17.[20]

Most local discretionary sales surtaxes may be approved only by referendum, while some may be approved by an extraordinary vote of the county commission.[21] For those requiring voter approval, the referendum must be approved by a majority of electors voting.[22] Except for the emergency fire rescue services and facilities surtax, the date of the referendum is at the discretion of the county commission.[23]

Referendum Process

The Florida Election Code provides the general requirements for a referendum.[24] The question presented to voters must contain a ballot summary with clear and unambiguous language, such that a "yes" or "no" vote on the measure indicates approval or rejection, respectively.[25] The ballot summary should explain the chief purpose of the measure and may not exceed 75 words.[26] The ballot summary and title must be included in the resolution or ordinance calling for the referendum.[27] For some discretionary sales surtaxes, the form of the ballot question is specified by statute.[28]

Five types of elections exist under the Election Code: primary elections, special primary elections, special elections, general elections, and presidential preference primary elections.[29] A "general election" is held on the first Tuesday after the first Monday in November in even-numbered years to fill national, state, county, and district offices, and for voting on constitutional amendments.[30]

III. Effect of Proposed Changes:

Section 1 amends s. 212.055, F.S., to require that a referendum to adopt or amend a local government discretionary surtax must be held at a general election. This will limit the timing and frequency of these referenda to even-year November elections.

Section 2 provides that the act takes effect upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(b) of the Florida Constitution provides that the Legislature, except upon approval by a two-thirds vote of the membership, may not enact a general law if the anticipated effect of doing so would be to reduce the *authority* that counties or municipalities have to raise revenues in the aggregate.

In 1991, Senate President Margolis and House Speaker Wetherell released a memorandum to guide the House and Senate in the review of local government mandates. In the memorandum, the guidelines define the term "authority" to mean the power to levy a tax; the vote required to levy the tax, e.g., increasing the required vote from majority to majority plus one; the tax rate which can be levied; and the base against which the tax is levied, e.g., a bill providing a sales tax exemption should be considered a reduction in authority because counties have authority to levy local option sales taxes against the state sales tax base.

The bill requires that a referendum to adopt or amend a local government discretionary surtax must be held at a general election. While the bill limits the flexibility that counties and municipalities have for scheduling a referendum, it does not limit the authority they have to raise revenues. Therefore, the bill does not appear to be a mandate.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 212.055 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on March 2, 2018:
Provides that a referendum to adopt or amend a local government discretionary sales surtax must be held at a general election, and is effective upon becoming a law.

CS by Community Affairs Committee on October 24, 2017:
Removes a provision that required a municipality to attain a vote of at least 60 percent of the governing body of the municipality in order to increase the millage rate of ad valorem taxes levied on real and tangible personal property within the municipality.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Community Affairs; and Senator Brandes

578-00918-18 2018272c1

A bill to be entitled

An act relating to local tax referenda; amending s. 212.055, F.S.; revising the voter approval threshold required to pass a referendum to adopt or amend local government discretionary sales surtaxes when the referendum is held at any date other than a general election; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraphs (a) and (c) of subsection (1), paragraph (a) of subsection (2), paragraph (a) of subsection (3), subsections (4) and (5), paragraph (a) of subsection (6), paragraph (a) of subsection (7), paragraph (b) of subsection (8), and paragraph (a) of subsection (9) of section 212.055, Florida Statutes, are amended, and subsection (10) is added to that section, to read:

212.055 Discretionary sales surtaxes; legislative intent; authorization and use of proceeds.—It is the legislative intent that any authorization for imposition of a discretionary sales surtax shall be published in the Florida Statutes as a subsection of this section, irrespective of the duration of the levy. Each enactment shall specify the types of counties authorized to levy; the rate or rates which may be imposed; the maximum length of time the surtax may be imposed, if any; the procedure which must be followed to secure voter approval, if required; the purpose for which the proceeds may be expended; and such other requirements as the Legislature may provide.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

578-00918-18 2018272c1

Taxable transactions and administrative procedures shall be as provided in s. 212.054.

(1) CHARTER COUNTY AND REGIONAL TRANSPORTATION SYSTEM SURTAX.—

(a) Each charter county that has adopted a charter, each county the government of which is consolidated with that of one or more municipalities, and each county that is within or under an interlocal agreement with a regional transportation or transit authority created under chapter 343 or chapter 349 may levy a discretionary sales surtax~~, subject to approval by a majority vote of the electorate of the county or by a charter amendment approved by a majority vote of the electorate of the county~~.

(c) The proposal to adopt a discretionary sales surtax as provided in this subsection and to create a trust fund within the county accounts shall be placed on the ballot in accordance with law and must be approved in a referendum as set forth in subsection (10) ~~at a time to be set at the discretion of the governing body~~.

(2) LOCAL GOVERNMENT INFRASTRUCTURE SURTAX.—

(a)1. The governing authority in each county may levy a discretionary sales surtax of 0.5 percent or 1 percent. The levy of the surtax shall be pursuant to an ordinance enacted by a majority of the members of the county governing authority and approved by ~~a majority of~~ the electors of the county, as set forth in subsection (10), voting in a referendum on the surtax. If the governing bodies of the municipalities representing a majority of the county's population adopt uniform resolutions establishing the rate of the surtax and calling for a referendum

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

on the surtax, the levy of the surtax shall be placed on the ballot and shall take effect if approved by ~~a majority of~~ the electors of the county, as set forth in subsection (10), voting in the referendum on the surtax.

2. If the surtax was levied pursuant to a referendum held before July 1, 1993, the surtax may not be levied beyond the time established in the ordinance, or, if the ordinance did not limit the period of the levy, the surtax may not be levied for more than 15 years. The levy of such surtax may be extended only by approval of ~~a majority of~~ the electors of the county, as set forth in subsection (10), voting in a referendum on the surtax.

(3) SMALL COUNTY SURTAX.—

(a) The governing authority in each county that has a population of 50,000 or less on April 1, 1992, may levy a discretionary sales surtax of 0.5 percent or 1 percent. The levy of the surtax shall be pursuant to an ordinance enacted by an extraordinary vote of the members of the county governing authority if the surtax revenues are expended for operating purposes. If the surtax revenues are expended for the purpose of servicing bond indebtedness, the surtax shall be approved by ~~a majority of~~ the electors of the county, as set forth in subsection (10), voting in a referendum on the surtax.

(4) INDIGENT CARE AND TRAUMA CENTER SURTAX.—

(a)1. The governing body in each county the government of which is not consolidated with that of one or more municipalities, which has a population of at least 800,000 residents and is not authorized to levy a surtax under subsection (5), may levy, pursuant to an ordinance either approved by an extraordinary vote of the governing body or

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

conditioned to take effect only upon approval by ~~a majority vote of~~ the electors of the county, as set forth in subsection (10), voting in a referendum, a discretionary sales surtax at a rate that may not exceed 0.5 percent.

2. If the ordinance is conditioned on a referendum, a statement that includes a brief and general description of the purposes to be funded by the surtax and that conforms to the requirements of s. 101.161 shall be placed on the ballot by the governing body of the county. The following questions shall be placed on the ballot:

FOR THE. . . .CENTS TAX
AGAINST THE. . . .CENTS TAX

3. The ordinance adopted by the governing body providing for the imposition of the surtax shall set forth a plan for providing health care services to qualified residents, as defined in subparagraph 4. Such plan and subsequent amendments to it shall fund a broad range of health care services for both indigent persons and the medically poor, including, but not limited to, primary care and preventive care as well as hospital care. The plan must also address the services to be provided by the Level I trauma center. It shall emphasize a continuity of care in the most cost-effective setting, taking into consideration both a high quality of care and geographic access. Where consistent with these objectives, it shall include, without limitation, services rendered by physicians, clinics, community hospitals, mental health centers, and alternative delivery sites, as well as at least one regional referral

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

hospital where appropriate. It shall provide that agreements negotiated between the county and providers, including hospitals with a Level I trauma center, will include reimbursement methodologies that take into account the cost of services rendered to eligible patients, recognize hospitals that render a disproportionate share of indigent care, provide other incentives to promote the delivery of charity care, promote the advancement of technology in medical services, recognize the level of responsiveness to medical needs in trauma cases, and require cost containment, including, but not limited to, case management. It must also provide that any hospitals that are owned and operated by government entities on May 21, 1991, must, as a condition of receiving funds under this subsection, afford public access equal to that provided under s. 286.011 as to meetings of the governing board, the subject of which is budgeting resources for the rendition of charity care as that term is defined in the Florida Hospital Uniform Reporting System (FHURS) manual referenced in s. 408.07. The plan shall also include innovative health care programs that provide cost-effective alternatives to traditional methods of service delivery and funding.

4. For the purpose of this paragraph, the term "qualified resident" means residents of the authorizing county who are:

a. Qualified as indigent persons as certified by the authorizing county;

b. Certified by the authorizing county as meeting the definition of the medically poor, defined as persons having insufficient income, resources, and assets to provide the needed medical care without using resources required to meet basic

needs for shelter, food, clothing, and personal expenses; or not being eligible for any other state or federal program, or having medical needs that are not covered by any such program; or having insufficient third-party insurance coverage. In all cases, the authorizing county is intended to serve as the payor of last resort; or

c. Participating in innovative, cost-effective programs approved by the authorizing county.

5. Moneys collected pursuant to this paragraph remain the property of the state and shall be distributed by the Department of Revenue on a regular and periodic basis to the clerk of the circuit court as ex officio custodian of the funds of the authorizing county. The clerk of the circuit court shall:

a. Maintain the moneys in an indigent health care trust fund;

b. Invest any funds held on deposit in the trust fund pursuant to general law;

c. Disburse the funds, including any interest earned, to any provider of health care services, as provided in subparagraphs 3. and 4., upon directive from the authorizing county. However, if a county has a population of at least 800,000 residents and has levied the surtax authorized in this paragraph, notwithstanding any directive from the authorizing county, on October 1 of each calendar year, the clerk of the court shall issue a check in the amount of $6.5 million to a hospital in its jurisdiction that has a Level I trauma center or shall issue a check in the amount of $3.5 million to a hospital in its jurisdiction that has a Level I trauma center if that county enacts and implements a hospital lien law in accordance

with chapter 98-499, Laws of Florida. The issuance of the checks on October 1 of each year is provided in recognition of the Level I trauma center status and shall be in addition to the base contract amount received during fiscal year 1999-2000 and any additional amount negotiated to the base contract. If the hospital receiving funds for its Level I trauma center status requests such funds to be used to generate federal matching funds under Medicaid, the clerk of the court shall instead issue a check to the Agency for Health Care Administration to accomplish that purpose to the extent that it is allowed through the General Appropriations Act; and

d. Prepare on a biennial basis an audit of the trust fund specified in sub-subparagraph a. Commencing February 1, 2004, such audit shall be delivered to the governing body and to the chair of the legislative delegation of each authorizing county.

6. Notwithstanding any other provision of this section, a county shall not levy local option sales surtaxes authorized in this paragraph and subsections (2) and (3) in excess of a combined rate of 1 percent.

(b) Notwithstanding any other provision of this section, the governing body in each county the government of which is not consolidated with that of one or more municipalities and which has a population of less than 800,000 residents~~,~~ may levy, by ordinance subject to approval by ~~a majority of~~ the electors of the county, as set forth in subsection (10), voting in a referendum, a discretionary sales surtax at a rate that may not exceed 0.25 percent for the sole purpose of funding trauma services provided by a trauma center licensed pursuant to chapter 395.

1. A statement that includes a brief and general description of the purposes to be funded by the surtax and that conforms to the requirements of s. 101.161 shall be placed on the ballot by the governing body of the county. The following shall be placed on the ballot:

FOR THE. . . .CENTS TAX
AGAINST THE. . . .CENTS TAX

2. The ordinance adopted by the governing body of the county providing for the imposition of the surtax shall set forth a plan for providing trauma services to trauma victims presenting in the trauma service area in which such county is located.

3. Moneys collected pursuant to this paragraph remain the property of the state and shall be distributed by the Department of Revenue on a regular and periodic basis to the clerk of the circuit court as ex officio custodian of the funds of the authorizing county. The clerk of the circuit court shall:

a. Maintain the moneys in a trauma services trust fund.

b. Invest any funds held on deposit in the trust fund pursuant to general law.

c. Disburse the funds, including any interest earned on such funds, to the trauma center in its trauma service area, as provided in the plan set forth pursuant to subparagraph 2., upon directive from the authorizing county. If the trauma center receiving funds requests such funds be used to generate federal matching funds under Medicaid, the custodian of the funds shall instead issue a check to the Agency for Health Care

Administration to accomplish that purpose to the extent that the agency is allowed through the General Appropriations Act.

d. Prepare on a biennial basis an audit of the trauma services trust fund specified in sub-subparagraph a., to be delivered to the authorizing county.

4. A discretionary sales surtax imposed pursuant to this paragraph shall expire 4 years after the effective date of the surtax~~,~~ unless reenacted by ordinance subject to approval by ~~a majority of~~ the electors of the county, as set forth in subsection (10), voting in a subsequent referendum.

5. Notwithstanding any other provision of this section, a county shall not levy local option sales surtaxes authorized in this paragraph and subsections (2) and (3) in excess of a combined rate of 1 percent.

(5) COUNTY PUBLIC HOSPITAL SURTAX.—Any county as defined in s. 125.011(1) may levy the surtax authorized in this subsection pursuant to an ordinance either approved by extraordinary vote of the county commission or conditioned to take effect only upon approval by ~~a majority vote of~~ the electors of the county, as set forth in subsection (10), voting in a referendum. In a county as defined in s. 125.011(1), for the purposes of this subsection, "county public general hospital" means a general hospital as defined in s. 395.002 which is owned, operated, maintained, or governed by the county or its agency, authority, or public health trust.

(a) The rate shall be 0.5 percent.

(b) If the ordinance is conditioned on a referendum, the proposal to adopt the county public hospital surtax shall be placed on the ballot in accordance with subsection (10) ~~law at a~~

~~time to be set at the discretion of the governing body~~. The referendum question on the ballot shall include a brief general description of the health care services to be funded by the surtax.

(c) Proceeds from the surtax shall be:

1. Deposited by the county in a special fund, set aside from other county funds, to be used only for the operation, maintenance, and administration of the county public general hospital; and

2. Remitted promptly by the county to the agency, authority, or public health trust created by law which administers or operates the county public general hospital.

(d) Except as provided in subparagraphs 1. and 2., the county must continue to contribute each year an amount equal to at least 80 percent of that percentage of the total county budget appropriated for the operation, administration, and maintenance of the county public general hospital from the county's general revenues in the fiscal year of the county ending September 30, 1991:

1. Twenty-five percent of such amount must be remitted to a governing board, agency, or authority that is wholly independent from the public health trust, agency, or authority responsible for the county public general hospital, to be used solely for the purpose of funding the plan for indigent health care services provided for in paragraph (e);

2. However, in the first year of the plan, a total of $10 million shall be remitted to such governing board, agency, or authority, to be used solely for the purpose of funding the plan for indigent health care services provided for in paragraph (e),

and in the second year of the plan, a total of $15 million shall be so remitted and used.

(e) A governing board, agency, or authority shall be chartered by the county commission upon this act becoming law. The governing board, agency, or authority shall adopt and implement a health care plan for indigent health care services. The governing board, agency, or authority shall consist of no more than seven and no fewer than five members appointed by the county commission. The members of the governing board, agency, or authority shall be at least 18 years of age and residents of the county. No member may be employed by or affiliated with a health care provider or the public health trust, agency, or authority responsible for the county public general hospital. The following community organizations shall each appoint a representative to a nominating committee: the South Florida Hospital and Healthcare Association, the Miami-Dade County Public Health Trust, the Dade County Medical Association, the Miami-Dade County Homeless Trust, and the Mayor of Miami-Dade County. This committee shall nominate between 10 and 14 county citizens for the governing board, agency, or authority. The slate shall be presented to the county commission and the county commission shall confirm the top five to seven nominees, depending on the size of the governing board. Until such time as the governing board, agency, or authority is created, the funds provided for in subparagraph (d)2. shall be placed in a restricted account set aside from other county funds and not disbursed by the county for any other purpose.

1. The plan shall divide the county into a minimum of four and maximum of six service areas, with no more than one

participant hospital per service area. The county public general hospital shall be designated as the provider for one of the service areas. Services shall be provided through participants' primary acute care facilities.

2. The plan and subsequent amendments to it shall fund a defined range of health care services for both indigent persons and the medically poor, including primary care, preventive care, hospital emergency room care, and hospital care necessary to stabilize the patient. For the purposes of this section, "stabilization" means stabilization as defined in s. 397.311(45). Where consistent with these objectives, the plan may include services rendered by physicians, clinics, community hospitals, and alternative delivery sites, as well as at least one regional referral hospital per service area. The plan shall provide that agreements negotiated between the governing board, agency, or authority and providers shall recognize hospitals that render a disproportionate share of indigent care, provide other incentives to promote the delivery of charity care to draw down federal funds where appropriate, and require cost containment, including, but not limited to, case management. From the funds specified in subparagraphs (d)1. and 2. for indigent health care services, service providers shall receive reimbursement at a Medicaid rate to be determined by the governing board, agency, or authority created pursuant to this paragraph for the initial emergency room visit, and a per-member per-month fee or capitation for those members enrolled in their service area, as compensation for the services rendered following the initial emergency visit. Except for provisions of emergency services, upon determination of eligibility,

enrollment shall be deemed to have occurred at the time services were rendered. The provisions for specific reimbursement of emergency services shall be repealed on July 1, 2001, unless otherwise reenacted by the Legislature. The capitation amount or rate shall be determined before program implementation by an independent actuarial consultant. In no event shall such reimbursement rates exceed the Medicaid rate. The plan must also provide that any hospitals owned and operated by government entities on or after the effective date of this act must, as a condition of receiving funds under this subsection, afford public access equal to that provided under s. 286.011 as to any meeting of the governing board, agency, or authority the subject of which is budgeting resources for the retention of charity care, as that term is defined in the rules of the Agency for Health Care Administration. The plan shall also include innovative health care programs that provide cost-effective alternatives to traditional methods of service and delivery funding.

3. The plan's benefits shall be made available to all county residents currently eligible to receive health care services as indigents or medically poor as defined in paragraph (4)(d).

4. Eligible residents who participate in the health care plan shall receive coverage for a period of 12 months or the period extending from the time of enrollment to the end of the current fiscal year, per enrollment period, whichever is less.

5. At the end of each fiscal year, the governing board, agency, or authority shall prepare an audit that reviews the budget of the plan, delivery of services, and quality of

services, and makes recommendations to increase the plan's efficiency. The audit shall take into account participant hospital satisfaction with the plan and assess the amount of poststabilization patient transfers requested, and accepted or denied, by the county public general hospital.

(f) Notwithstanding any other provision of this section, a county may not levy local option sales surtaxes authorized in this subsection and subsections (2) and (3) in excess of a combined rate of 1 percent.

(6) SCHOOL CAPITAL OUTLAY SURTAX.—

(a) The school board in each county may levy, pursuant to a resolution conditioned to take effect only upon approval by ~~a majority vote of~~ the electors of the county, as set forth in subsection (10), voting in a referendum, a discretionary sales surtax at a rate that may not exceed 0.5 percent.

(7) VOTER-APPROVED INDIGENT CARE SURTAX.—

(a)1. The governing body in each county that has a population of fewer than 800,000 residents may levy an indigent care surtax pursuant to an ordinance conditioned to take effect only upon approval by ~~a majority vote of~~ the electors of the county, as set forth in subsection (10), voting in a referendum. The surtax may be levied at a rate not to exceed 0.5 percent, except that if a publicly supported medical school is located in the county, the rate shall not exceed 1 percent.

2. Notwithstanding subparagraph 1., the governing body of any county that has a population of fewer than 50,000 residents may levy an indigent care surtax pursuant to an ordinance conditioned to take effect only upon approval by ~~a majority vote of~~ the electors of the county, as set forth in subsection (10),

voting in a referendum. The surtax may be levied at a rate not to exceed 1 percent.

(8) EMERGENCY FIRE RESCUE SERVICES AND FACILITIES SURTAX.—

(b) Upon the adoption of the ordinance, the levy of the surtax must be placed on the ballot by the governing authority of the county enacting the ordinance. The ordinance will take effect if approved by ~~a majority of~~ the electors of the county, as set forth in subsection (10), voting in a referendum held for such purpose. The referendum shall be placed on the ballot of a regularly scheduled election. The ballot for the referendum must conform to the requirements of s. 101.161.

(9) PENSION LIABILITY SURTAX.—

(a) The governing body of a county may levy a pension liability surtax to fund an underfunded defined benefit retirement plan or system, pursuant to an ordinance conditioned to take effect upon approval by ~~a majority vote of~~ the electors of the county, as set forth in subsection (10), voting in a referendum, at a rate that may not exceed 0.5 percent. The county may not impose a pension liability surtax unless the underfunded defined benefit retirement plan or system is below 80 percent of actuarial funding at the time the ordinance or referendum is passed. The most recent actuarial report submitted to the Department of Management Services pursuant to s. 112.63 must be used to establish the level of actuarial funding for purposes of determining eligibility to impose the surtax. The governing body of a county may only impose the surtax if:

1. An employee, including a police officer or firefighter, who enters employment on or after the date when the local government certifies that the defined benefit retirement plan or

system formerly available to such an employee has been closed may not enroll in a defined benefit retirement plan or system that will receive surtax proceeds.

2. The local government and the collective bargaining representative for the members of the underfunded defined benefit retirement plan or system or, if there is no representative, a majority of the members of the plan or system, mutually consent to requiring each member to make an employee retirement contribution of at least 10 percent of each member's salary for each pay period beginning with the first pay period after the plan or system is closed.

3. The pension board of trustees for the underfunded defined benefit retirement plan or system, if such board exists, is prohibited from participating in the collective bargaining process and engaging in the determination of pension benefits.

4. The county currently levies a local government infrastructure surtax pursuant to subsection (2) which is scheduled to terminate and is not subject to renewal.

5. The pension liability surtax does not take effect until the local government infrastructure surtax described in subparagraph 4. is terminated.

(10) VOTER APPROVAL THRESHOLDS.—A referendum to adopt or amend a local government discretionary sales surtax under this section which is held at any date other than a general election as defined by s. 97.021 requires the approval of at least 60 percent of the electors voting on the ballot question. A referendum under this section which is held at a general election as defined by s. 97.021 requires the approval of a majority of the electors voting on the ballot question.

Section 2. This act shall take effect July 1, 2018.

2.	Davis	Hansen	AP	**Fav/CS**
3.			RC	

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 354 amends various statutes to enhance government accountability and auditing, based on recommendations noted in recent reports by the Auditor General. The bill:

- Specifies that the Governor or Commissioner of Education, or designee, may notify the Joint Legislative Auditing Committee of an entity's failure to comply with certain auditing and financial reporting requirements;
- Provides definitions for the terms "abuse," "fraud," and "waste;"
- Adds tourist development council and county tourism promotion agency to the definition of "local government entity;"
- States that local government entities do not include water management districts for the purposes of s. 11.45(2), F.S.;
- Includes tourist development councils and county tourism promotion agencies in the list of entities that the Auditor General may audit;
- Requires the Florida Clerks of Court Operations Corporation to notify quarterly the Legislature of any clerk not meeting workload performance standards;
- Requires each agency, the judicial branch, the Justice Administrative Commission, state attorneys, public defenders, criminal conflict and civil regional counsel, capital collateral regional counsel, the Guardian Ad Litem program, local governmental entities, charter schools, school districts, Florida College System institutions, and state universities to establish and maintain internal controls designed to prevent and detect fraud, waste, and abuse;

- Requires counties, municipalities, special districts, and water management districts to maintain certain budget documents on their websites for specified timeframes;
- Requires counties, municipalities, and special districts, water management districts and school districts to:
  - Provide an electronic copy of their respective budgets to the Office of Economic and Demographic Research (EDR), on forms prescribed by the EDR; and
  - Provide a copy of their budgets and a certification of timely filing to the clerk of the court. However, these requirements do not apply to a charter county in which the clerk of the court is not the county auditor.
- Provides that the clerk of court must notify the appropriate fiscal officer to withhold salary payments from the head of the local government entity or the superintendent of the school district until the reports are filed if a local government entity or school district fails to file required reports with the clerk of the court;
- Revises the monthly financial statement requirements for water management districts;
- Provides that the Department of Financial Services may request additional information from local government entities when preparing its annual verified report;
- Requires a local governmental entity, district school board, charter school, or charter technical career center, Florida College System board of trustees, or university board of trustees to respond to audit recommendations under certain circumstances;
- Begins the process of creating the Florida Open Financial Statement System to allow better access to financial reports filed by local governments;
- Requires school districts receiving annual federal, state, and local funds in excess of $500 million to employ an internal auditor. The duties of the internal auditor must include oversight of every functional and program area of the school system;
- Requires the internal auditor to perform a comprehensive risk assessment of all areas of the school system every five years, and conduct other audits and reviews as the district school board directs to make a determination;
- Requires the internal auditor to prepare audit reports of his or her findings and establishes penalties for failure to produce financial records to the internal auditor;
- Establishes the Statewide Travel Management System (system) in law;
- Requires all executive branch state government agencies and the judicial branch to report public officer and employee travel information in the system;
- Additionally requires that all executive branch state government agencies and the judicial branch use the system for purposes of travel authorization and reimbursement;
- Requires reporting entities, to report monthly, all public officer and employee travel information resulting from an overnight stay in the system;
- Establishes a timeline for the Department of Management Services (DMS) to make travel reports for executive branch state government agencies, the judicial branch, and certain reporting entities available for public view;
- Requires reporting entities to redact confidential and exempt information from travel reports prior to posting them to the system and provides a process for reporting entities to follow when a travel report has been posted prior to proper redaction;
- Provides rulemaking authority to the DMS to administer provisions of the section pertaining to the system;
- Makes the requirements to implement the system for reporting entities contingent upon the Legislature appropriating at least $5.4 million to the DMS for Fiscal Year 2018-2019;

- Requires an independent certified public accountant conducting an audit of a local governmental entity to determine, as part of the audit, whether the entity's annual financial report is in agreement with the entity's audited financial statements;
- Revises the composition of auditor selection committees;
- Requires completion of an annual financial audit of the Florida Virtual School; and
- Prohibits a board or commission from requiring a member of the public to provide an advance written copy of his or her testimony or comments as a precondition of being given the opportunity to be heard.

In addition, the bill limits the amount that may be reimbursed per day for state agency and judicial branch employee lodging expenses for travel under certain circumstances to $150, and requires all governmental entities to use the statewide travel management system.

Executive branch state government agencies and the judicial branch may incur indeterminate additional costs associated with using the Statewide Travel Management System for travel authorization and reimbursement. The bill specifies the requirements to implement the system for reporting entities are contingent upon the Legislature appropriating at least $5.4 million to the DMS for Fiscal Year 2018-2019.

Costs for the development of the Florida Open Financial Statement System are estimated to be $500,000. There will be additional costs in future years to create the software tool needed to implement the system. The additional future needs are indeterminate.

II. Present Situation:

Various statutes ensure government accountability of state and local governments. For example, the Auditor General conducts audits of accounts and records of state agencies, state universities, state colleges, district school boards, and others as directed by the Joint Legislative Auditing Committee. The Auditor General conducts operational and performance audits on public records and information technology systems. The Auditor General also reviews all audit reports of local governmental entities, charter schools, and charter technical career centers. Other statutes require publishing of government budgets and other information online and require government entities to follow certain practices to promote efficiency and compliance within the entity.

Due to the disparate issues in the bill, the present situation for each section is discussed below in conjunction with the Effect of Proposed Changes.

III. Effect of Proposed Changes:

Auditing

Present Situation

The position of Auditor General is established by Art. III, s. 2 of the State Constitution. The Auditor General is appointed to office to serve at the pleasure of the Legislature, by a majority vote of the members of the Joint Legislative Auditing Committee, subject to confirmation by

both houses of the Legislature.[1] The appointment of the Auditor General may be terminated at any time by a majority vote of both houses of the Legislature.[2] At the time of appointment, the Auditor General must have been certified under the Public Accountancy Law in Florida for a period of at least 10 years and may not have less than 10 years' experience in an accounting or auditing related field.[3]

The Auditor General must conduct audits, examinations, or reviews of government programs[4] as well as audit the accounts and records of state agencies, state universities, state colleges, district school boards, and others as directed by the Joint Legislative Auditing Committee.[5] The Auditor General conducts operational and performance audits on public records and information technology systems and reviews all audit reports of local governmental entities, charter schools, and charter technical career centers.[6]

Various provisions require the Auditor General to compile and submit reports. For example, the Auditor General must annually compile and transmit to the President of the Senate, the Speaker of the House of Representatives, and the Joint Legislative Auditing Committee a summary of significant findings and financial trends identified in audit reports.[7] The Auditor General also must compile and transmit to the President of the Senate, Speaker of the House of Representatives, and Joint Legislative Auditing Committee an annual report by December 1. The report must include a two-year work plan identifying the audit and other accountability activities to be undertaken and a list of statutory and fiscal changes recommended by the Auditor General.[8] In addition, the Auditor General must transmit recommendations at other times during the year when the information would be timely and useful to the Legislature.[9]

The annual report for the Auditor General for November 1, 2015, through October 31, 2016, contained the following recommendation:[10]

> The Legislature should consider amending applicable Florida Statutes to establish in law the responsibility of each state and local government for the establishment and maintenance of management systems and internal controls designed to prevent and detect fraud, waste, and abuse; promote and encourage compliance with applicable laws, rules, contracts, grant agreements, and best practices; support economical and efficient operations; ensure reliability of financial records and reports; and safeguard assets.

[1] Section 11.42(2), F.S.
[2] Section 11.42(5), F.S.
[3] Section 11.42(2), F.S.
[4] Section 11.45(7), F.S.
[5] Section 11.45(2)(d)-(f), F.S.
[6] Section 11.45(7)(b), F.S.
[7] Section 11.45(7)(f), F.S.
[8] Section 11.45(7)(h), F.S.
[9] *Id.*
[10] A copy of the report can be found online at: https://flauditor.gov/pages/pdf_files/annual%20report%202016.pdf (last visited November 1, 2017).

Section 11.45, F.S., defines the types of audits the Auditor General may conduct, requires certain state and local governmental audits to be conducted, and specifies the frequency with which the audits must occur. The Auditor General also may conduct other audits he or she determines to be appropriate.

Following notification by the Auditor General, the Department of Financial Services (DFS), or the Division of Bond Finance of the State Board of Administration of the failure of a local governmental entity, district school board, charter school, or charter technical career center to comply with applicable auditing, financial reporting, bond issuance notification, or bond verification provisions or the failure to disclose a financial emergency or provide information required during a financial emergency,[11] the Joint Legislative Auditing Committee may schedule a hearing to determine whether the entity should be subject to further state action. For purposes of s. 11.45, F.S., the term "local governmental entity" means a county agency, municipality, or special district as defined in s. 189.012, F.S.,[12] but does not include any housing authority established under ch. 421, F.S.

The Auditor General is also required to annually transmit, by July 15, to the President of the Senate, the Speaker of the House of Representatives, and the DFS a list of all school districts, charter schools, charter technical career centers, Florida College System institutions, state universities, and water management districts (WMDs) that have failed to comply with certain transparency requirements.

Effect of the Bill

Section 1 amends s. 11.40, F.S., to authorize the Governor or his or her designee, and the Commissioner of Education or his or her designee, to notify the Joint Legislative Auditing Committee that a local governmental entity, district school board, charter school, or charter technical career center has failed to comply with applicable auditing, financial reporting, bond issuance notification, or bond verification provisions or failed to disclose a financial emergency or provide information required during a financial emergency.

Section 2 amends s. 11.45, F.S., to define the terms abuse, fraud, and waste. These terms are related to the internal controls various government agencies must establish and maintain to prevent and detect fraud, waste, and abuse.

This section expands the definition of "local governmental entity" to include tourist development council and county tourism promotion agency. With this expanded definition, the Auditor

[11] Section 11.45, F.S., governs certain audits to be conducted by the Auditor General. Section 218.32(1), F.S., requires annual financial reports from local governmental entities. Section 218.38, F.S., requires notice of bond issuance and contains verification requirements. Section 218.503(3), F.S., requires certain entities to disclose a financial emergency and provide certain information concerning a financial emergency.

[12] Section 189.012(6), F.S., defines a "special district" to mean a unit of local government created for a special purpose, as opposed to a general purpose, which has jurisdiction to operate within a limited geographic boundary and is created by general law, special act, local ordinance, or by rule of the Governor and Cabinet. The term does not include a school district, a community college district, a special improvement district created pursuant to s. 285.17, F.S., a municipal service taxing or benefit unit as specified in s. 125.01, F.S., or a board which provides electrical service and which is a political subdivision of a municipality or is part of a municipality.

General is authorized to conduct audits or other engagements of tourist development councils and county tourism promotion agencies.

This section exempts WMDs from being subject to audits of local governmental entities conducted pursuant to s. 11.45(2)(j), F.S. With this change, the WMDs will be subject only to the periodic audits authorized by s. 11.45(2)(f), F.S.,[13] rather than audits requested by the Joint Legislative Auditing Committee or when deemed necessary by the Auditor General.

This section expands the list of entities that must be included in the Auditor General report concerning entities that fail to comply with transparency requirements in s. 11.45, F.S., to include all local governmental entities rather than just the WMDs.

Florida Clerks of Court Operations Corporation

Present Situation

Currently, s. 28.35, F.S., requires the Florida Clerks of Court Operations Corporation (corporation) to develop and certify a uniform system of workload measures and applicable workload standards for court-related functions as developed by the corporation and clerk workload performance in meeting the workload performance standards. These workload measures and workload performance standards must be designed to facilitate an objective determination of the performance of each clerk in accordance with minimum standards for fiscal management, operational efficiency, and effective collection of fines, fees, service charges, and court costs. The corporation must develop the workload measures and workload performance standards in consultation with the Legislature. When the corporation finds a clerk has not met the workload performance standards, the corporation must identify the nature of each deficiency and any corrective action recommended and taken by the affected clerk of the court. The corporation must notify the Legislature of any clerk not meeting workload performance standards and provide a copy of any corrective action plans.

Effect of the Bill

Section 3 amends s. 28.35, F.S., to require the corporation to notify the Legislature of any clerk not meeting the workload performance standards and provide a copy of any corrective action plans within 45 days after the end of each quarter. For purposes of s. 28.35, F.S., the quarters end on the last day of March, June, September, and December of each year.

Public Employee Travel Expenses

Present Situation

Section 112.061, F.S., establishes the rates of per diem and subsistence allowance for travel by public officers and employees. When traveling to a convention or conference or to conduct bona fide state business, a traveler is authorized to receive $80 per diem. However, if actual expenses exceed $80, the traveler may receive $6 for breakfast, $11 for lunch, $19 for dinner, and the actual expenses for lodging at a single-occupancy rate.

[13] Section 11.45(2)(f), F.S., states in part that at least every three years, the Auditor General shall conduct operational audits of the accounts and records of water management districts.

The 2017-18 implementing bill created a limit on the amount of actual expenses for lodging that may be reimbursed under certain circumstances. The bill provided that when an employee of a state agency or the judicial branch is attending a meeting, conference, or convention organized or sponsored in whole or in part by a state agency or the judicial branch, the reimbursement for lodging expenses may not exceed $150 per day. However, an employee may expend his or her own funds for any lodging expenses in excess of the limit. This limit is in effect until July 1, 2018.

Section 112.061(2)(a), F.S., defines the term "agency or public agency" to mean any office, department, agency, division, subdivision, political subdivision, board, bureau, commission, authority, district, public body, body politic, county, city, town, village, municipality, or any other separate unit of government created pursuant to law.

The Fiscal Year 2016-2017 General Appropriations Act (GAA) appropriated $1,800,000 in recurring General Revenue funding to the Executive Office of the Governor (EOG) to acquire a Statewide Travel Management System (system). The EOG was required to undertake a competitive procurement for the system pursuant to s. 287.057, F.S. In addition, $2,800,000 in nonrecurring General Revenue funding was provided to executive branch state agencies and the judicial branch for their portion relating to implementation of the system.[14]

The system was required to be able to electronically: interface with the Florida Accounting Information Resource Subsystem (FLAIR) and the Personnel Information System; generate uniform travel authorization request and travel voucher forms pursuant to s. 112.061, F.S.; and receive approvals for travel. The system was also required to include search features that query travel information by specific criteria. Proviso also required the EOG and the Legislature to have access to the system for purposes of generating reports on all travel completed by executive branch state agencies and the judicial branch.

The system was also required to include search features that query travel information by specific criteria. Additionally, proviso in the Fiscal Year 2016-2017 GAA required the EOG and the Legislature to have access to the system for purposes of generating reports on all travel completed by executive branch state agencies and the judicial branch.

The EOG directed the Department of Management Services (DMS) to become the lead agency on procuring and establishing the system. Proviso in Specific Appropriation 2718A of ch. 2017-70, L.O.F., provided $1,800,000 in recurring General Revenue funding to the DMS to operate and maintain a statewide travel management system (system).

Effect of the Bill

Section 5 amends s. 112.061, F.S., to limit the reimbursement of lodging expenses associated with the attendance at a meeting, conference, or convention organized or sponsored by a state agency or judicial branch. Such reimbursement cannot exceed $150 per day for executive and judicial branch employees. The section clarifies that a "meeting" does not include the travel

[14] Specific Appropriation 1965A, Ch. 2016-66, L.O.F.

activities associated with an audit, examination, or inspection or the travel activities relating to litigation or an emergency response.

This section also:

- Establishes the "Statewide Travel Management System" (system) as the system used by the DMS to:
  - Collect and store information relating to public officer or employee travel information;
  - Standardize and automate agency travel management;
  - Allow for travel planning and approval, expense reporting, and reimbursement; and
  - Allow travel information queries.
- Requires that each executive branch state government agency and the judicial branch must use the system for:
  - Travel authorization;
  - Travel reimbursement; and
  - Reporting all public officer and employee travel information, including, but not limited to:
    - Name and position title;
    - Purpose of travel;
    - Dates and location of travel;
    - Mode of travel;
    - Confirmation from the head of the agency or designee authorization, if required; and
    - Total travel cost.
- Requires that by November 1, 2018, the DMS shall make available to the public, all travel reports posted on the system for executive branch state agencies and the judicial branch.
- Requires that each "reporting entity" must report into the system, information relating to all travel resulting in an overnight stay by a public officer or employee, including:
  - Name and position title;
  - Purpose of travel;
  - Dates and location of travel;
  - Mode of travel; and
  - Total travel cost.
- Specifies the term "reporting entity" includes each municipality, county, local constitutional officer, county school district, state college, state university, and water management district.
- Specifies that each reporting entity shall post one travel report per entity; however, a "local constitutional officer" may post a separate travel report from the respective county travel report.
- Defines the term "local constitutional officer" to include sheriffs, tax collectors, property appraisers, supervisors of elections, clerks of the circuit court, county commissioners, district school board members, and superintendents of schools.
- Requires that on a monthly basis, each reporting entity shall post on the system, a report for the previous month's travel, which resulted in an overnight stay.
- Requires the DMS to provide a format and method for reporting entities to post travel reports on the system.
- Requires that no later than November 1, 2019, each reporting entity shall post monthly travel reports relating to all travel resulting in an overnight stay for public officers and employees into the statewide travel management system.

- Requires that beginning December 1, 2019, the DMS shall make available to the public all travel reports posted on the system for each reporting entity.
- Makes the requirements to implement the system for reporting entities contingent upon the Legislature appropriating at least $5.4 million to the DMS for Fiscal Year 2018-2019.
- Provides that travel reports made available on the system may not reveal information made confidential or exempt by law. Specifying that each reporting entity must redact confidential or exempt information from a travel report before posting the report on the system. If the posting reporting entity becomes aware that an improperly redacted travel report has been posted to the system, the reporting entity must notify the DMS and immediately request removal of the travel report from the system. The reporting entity must then republish a properly redacted version of the travel report within seven business days on the system.
- Provides that the Secretary of the DMS, and any officer, employee or contractor of the DMS is not responsible for redacting confidential or exempt information from a travel report posted on the system.
- Provides that the posting of travel reports on the system does not supersede the duty of a reporting entity to respond to a public records request or subpoena for the information.
- Amends s. 112.061(9), F.S., providing that the DMS may adopt rules to administer the provisions of this section relating to the Statewide Travel Management System.

Florida Single Audit Act

Present Situation

The Florida Single Audit Act, codified in s. 215.97, F.S., is designed to:
- Establish uniform state audit requirements for state financial assistance provided by state agencies to nonstate entities to carry out state projects;
- Promote sound financial management, including effective internal controls, with respect to state financial assistance administered by nonstate entities;
- Promote audit economy and efficiency by relying to the extent possible on already required audits of federal financial assistance provided to nonstate entities;
- Provide for identification of state financial assistance transactions in the state accounting records and recipient organization records;
- Promote improved coordination and cooperation within and between affected state agencies providing state financial assistance and nonstate entities receiving state assistance; and
- Ensure, to the maximum extent possible, that state agencies monitor, use, and follow-up on audits of state financial assistance provided to nonstate entities.

Pursuant to the Florida Single Audit Act, certain entities that meet the "audit threshold" requirements are subject to a state single audit or a project-specific audit. Currently, the "audit threshold" requires each nonstate entity that expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such nonstate entity to have a state single audit, or a project-specific audit, for such fiscal year. Every two years, the Auditor General, after consulting with the Executive Office of the Governor, the DFS, and all state awarding agencies, is required to review the threshold amount for requiring audits and may adjust the threshold amount.[15]

[15] Section 215.97(2)(a), F.S.

Effect of the Bill

Section 11 amends s. 215.97, F.S., to change the requirement that the Auditor General review the threshold amount for requiring audits from every two years to "periodically;" however, the term "periodically" is not defined. This section also authorizes the Auditor General to recommend to the Legislature a statutory change to revise the threshold amount in its annual report.

Annual Financial Audit Reports

Present Situation

Counties, school districts, municipalities with revenues or expenditures of more than $250,000 per year, special districts with revenues or expenditures of more than $100,000 per year, school districts, charter schools, and charter technical career centers are required to conduct an annual audit, unless informed by the first day of the fiscal year that a financial audit by the Auditor General will be performed for that fiscal year.[16] Municipalities with revenues or expenditures between $100,000 and $250,000 and special districts with revenues or expenditures between $50,000 and $100,000 are required to conduct audits on a triennial basis.[17]

The auditor meets with the chair of the entity to discuss comments that will be included in the report and informs the entity's governing body if deteriorating financial conditions exist that may cause a financial emergency in the absence of corrective actions being taken or a deficit exists for which there are insufficient funds to cover.[18] The officer's explanation or rebuttal of the auditor's findings, including corrective actions to be taken, must be filed with the entity's governing body within 30 days after the delivery of the auditor's findings.[19]

The audit report must be filed with the Auditor General within 45 days of delivery to the governing body of the audited entity, but no later than nine months after the end of the audited entity's fiscal year.[20] The audit report must include a written statement describing corrective actions to be taken in response to each of the auditor's recommendations included in the report. If an audited entity fails to take full corrective action in response to a recommendation that was included in the two preceding financial audit reports, the Auditor General must notify the Joint Legislative Auditing Committee.[21]

Effect of the Bill

Section 15 amends s. 218.39, F.S., to require all municipalities and special districts to complete an annual financial audit starting in Fiscal Year 2018-2019. Local government entities required to submit an annual financial audit report to the Auditor General must do so no later than six

[16] Section 218.39(1), F.S.
[17] Section 218.39(1)(g)-(h), F.S. In fiscal year 2016, 17 municipalities reported revenue or expenditures of less than $250,000. *See* Local Government Financial Reporting, Department of Financial Services, https://apps.fldfs.com/localgov/reports/default.aspx (last visited Feb. 22, 2018).
[18] Section 218.39(5), F.S.
[19] Section 218.39(6), F.S.
[20] Section 218.39(7), F.S.
[21] Section 218.39(8), F.S.

months after the end of the fiscal year. The Auditor General may extend the deadline for up to 90 days if the Governor declares a state of emergency within 30 days of the submission deadline.

This section also provides that if an audit report contains a recommendation that was included in the preceding financial audit report but remains unaddressed, the governing body of the audited entity, within 60 days after delivery of the audit report to the governing body, must indicate during a regularly scheduled public meeting whether it intends to take a corrective action, the corrective action to be taken, and when the corrective action will occur. If the governing body does not intend to take any corrective action, it must explain its decision at the public meeting.

Section 25 amends s. 1011.60, F.S., to require each school district required to file an annual financial report to submit an electronic copy to the Department of Education certifying the report was timely filed to maintain eligibility for the Florida Education Finance Program.

Auditor Selection Procedures

Present Situation

Section 218.391, F.S., outlines the process that each local governmental entity, district school board, charter school, or charter technical career center must follow in selecting an auditor to conduct the annual financial audit of the entity required by s. 218.39, F.S. Each entity is required to establish an audit committee to assist the governing body in selecting the auditor. Each noncharter county's audit committee must consist of each of its officers elected pursuant to the State Constitution and one member of the board of county commissioners or its designee. The audit committees must publicly announce requests for proposals for the audit services. The law specifies the factors that must be considered in selecting the auditor and the procedures for negotiating for compensation.

Effect of the Bill

Section 16 amends s. 218.391, F.S., to require every county's audit committee to consist of each county officer elected pursuant to the State Constitution or the county charter, or their respective designees, and one member of the board of county commissioners or its designee. The section requires the audit committee for a municipality, special district, district school board, charter school, or charter technical career center to consist of at least three members, one of whom must be a member of the governing body of the entity. That member must serve as the audit committee's chair. An employee, chief executive officer, or chief financial officer of the county, municipality, special district, district school board, charter school, or charter technical career center may not serve as a member of an audit committee but may serve in a nonvoting advisory capacity. At least one member of the audit committee should have experience in finance, business, or government operations.

For each of the annual financial audits, certain information relating to the selection of the auditor and the contract for such services must be included in the management letter. If an entity fails to select an auditor in compliance with the new process, the Joint Legislative Auditing Committee must determine whether the entity should be subject to state action pursuant to 11.40(2), F.S.

The Florida Virtual School

Present Situation

The Florida Virtual School was created to develop and deliver online and distance learning education.[22] The Commissioner of Education is charged with monitoring the Florida Virtual School. In pertinent part, the law requires the board of trustees to submit an annual report to the Governor, the Legislature, the Commissioner of Education, and the State Board of Education (SBE) that must address:

- The operations and accomplishments of the Florida Virtual School within the state and those occurring outside the state as Florida Virtual School Global;
- The marketing and operational plan for the Florida Virtual School and Florida Virtual School Global, including recommendations regarding methods for improving the delivery of education through the Internet and other distance learning technology;
- The assets and liabilities of the Florida Virtual School and Florida Virtual School Global at the end of the fiscal year;
- A copy of an annual financial audit of the accounts and records of the Florida Virtual School and Florida Virtual School Global, conducted by an independent certified public accountant and performed in accordance with rules adopted by the Auditor General;
- Recommendations regarding the unit cost of providing services to students through the Florida Virtual School and Florida Virtual School Global; and
- Recommendations regarding an accountability mechanism to assess the effectiveness of the services provided by the Florida Virtual School and Florida Virtual School Global.[23]

The Auditor General must conduct an operational audit of the Florida Virtual School, including Florida Virtual School Global.[24] The scope of the audit must include, but is not limited to, the administration of responsibilities relating to personnel; procurement and contracting; revenue production; school funds, including internal funds; student enrollment records; franchise agreements; information technology utilization, assets, and security; performance measures and standards; and accountability. The law specifies that the final report on the audit must be submitted to the President of the Senate and the Speaker of the House of Representatives no later than January 31, 2014.[25]

Effect of the Bill

Section 21 amends s. 1002.37, F.S., to require the Florida Virtual School to have an annual financial audit of its accounts and records conducted by an independent auditor who is a licensed certified public accountant. The independent auditor must conduct the audit in accordance with rules adopted by the Auditor General and must prepare an audit report in accordance with such rules. The audit report must include a written statement by the board of trustees describing corrective action to be taken in response to each of the independent auditor's recommendations. The independent auditor must submit the audit report to the board of trustees and the Auditor General no later than nine months after the end of the preceding fiscal year.

[22] Section 1002.37(1)(a), F.S.
[23] Section 1002.37(6), F.S.
[24] Section 1002.37(11), F.S.
[25] *Id.*

Local Governmental Entity Annual Financial Reports

Present Situation

Section 218.32, F.S., requires local governmental entities that are required to provide for an audit under s. 218.39, F.S., to submit an audit report and annual financial report to the DFS within 45 days after completion of the audit report, but no later than nine months after the end of the fiscal year. The annual financial report must be signed by the chair of the governing body and the chief financial officer of the local governmental entity. The law also specifies the information that must be included in the report.

In addition, the DFS is required to file a verified report with the Governor, the Legislature, the Auditor General, and the Special District Accountability Program of the Department of Economic Opportunity showing the revenues, both locally derived and derived from intergovernmental transfers, and the expenditures of each local governmental entity, regional planning council, local government finance commission, and municipal power corporation that is required to submit an annual financial report.[26]

Effect of the Bill

Section 13 amends s. 218.32, F.S., to provide that the Legislature intends to create the Florida Open Financial Statement System. The system will be an interactive repository for governmental financial statements. The Chief Financial Officer (CFO) may consult with stakeholders, including the department, the Auditor General, a representative of a municipality or county, a representative of a special district, a municipal bond investor, and an information technology professional employed in the private sector for input on the design and implementation of the system.

This section permits the CFO to choose contractors to build one or more eXtensible Business Reporting Language (XBRL) taxonomies suitable for state, county, municipal, and special district financial filings and to create a software tool that enables financial statement filers to create XBRL documents consistent with the taxonomy or taxonomies. XBRL is a global standard for exchanging business information. The CFO must recruit and select contractors through an open request for proposals process pursuant to ch. 287, F.S., and all work must be completed by December 31, 2021. If the CFO deems the work products adequate, all local governmental financial statements pertaining to fiscal years ending on or after September 1, 2022, must be filed in XBRL format and must meet the validation requirements of the relevant taxonomy.

Local government entities required to submit an audit report and annual financial report to the DFS must do so no later than six months after the end of the fiscal year. An extension of the deadline is allowed for up to 90 days if the Governor declares a state of emergency within 30 days of the submission deadline.

Each local government entity must submit an electronic copy of the annual financial report and a statement certifying the document was timely filed with the DFS to the clerk of the court.

[26] Section 218.32(2), F.S.

However, these requirements do not apply to a charter county in which the clerk of the court is not the county auditor. Starting in Fiscal Year 2018-2019, the bill provides that if a local government entity fails to submit information to the clerk of the court, the clerk must notify the appropriate fiscal officer of the local government to suspend salary payments to the head of the local government entity until such time as the information is provided to the clerk. The clerk must notify the appropriate local fiscal officer to resume payments when the clerk receives the information.

This section requires an independent certified public accountant conducting an audit of a local governmental entity pursuant to s. 218.39, F.S., to determine, as part of the audit, whether the entity's annual financial report is in agreement with the entity's audited financial statements. If the audited financial statements are not in agreement with the annual financial report, the section requires the accountant to specify in the audit report the significant differences that exist between the audited financial statements and the annual financial report.

This section also authorizes the DFS, in preparing the verified report, to request additional information from the local governmental entity. Any additional information requested must be provided to the DFS within 45 days after the request. If the local governmental entity does not comply with the request, the DFS must notify the Joint Legislative Auditing Committee, which may take action pursuant to s. 11.40(2), F.S.

This section requires the DFS to post a copy of each local government entity's annual financial report to its website within 12 months of the conclusion of the fiscal year for which the report was compiled.

Required Audits of Certain Educational Institutions

Present Situation

School districts, Florida College System institutions, and other institutions and agencies under the supervision of the State Board of Education (SBE) and state universities under the supervision of the Board of Governors (BOG) are subject to the audit provisions of ss. 11.45 and 218.39, F.S. If an audit contains a significant finding, the district school board, the Florida College System institution board of trustees, or the university board of trustees is required to conduct an audit overview during a public meeting.[27]

Effect of the Bill

Section 23 amends s. 1010.30, F.S., to provide that if an audit report includes a recommendation that was included in the preceding financial audit report but remains unaddressed, the district school board, the Florida College System institution board of trustees, or the university board of trustees must indicate during a regularly scheduled public meeting whether it intends to take corrective action, the corrective action to be taken, and when the corrective action will occur within 60 days after the delivery of the audit report. If the district school board, Florida College System institution board of trustees, or university board of trustees does not intend to take corrective action, it must explain its decision at the public meeting.

[27] Section 1010.30(2), F.S.

Internal Controls to Prevent and Detect Fraud, Waste, and Abuse

Present Situation

State Agencies and the Judicial Branch

Section 215.86, F.S., requires each state agency and the judicial branch as defined in s. 216.011, F.S., to establish and maintain management systems and controls that promote and encourage compliance; economic, efficient, and effective operations; reliability of records and reports; and safeguarding of assets. It requires accounting systems and procedures to be designed to fulfill the requirements of generally accepted accounting principles.

Local Governmental Entities

Section 218.33, F.S., requires each local governmental entity to begin its fiscal year on October 1 and end it on September 30. Section 218.33(2), F.S., requires each local governmental entity to follow uniform accounting practices and procedures as provided by rule of DFS to assure the use of proper accounting and fiscal management by such units. Such rules must include a uniform classification of accounts.

Charter Schools

Section 1002.33, F.S., authorizes charter schools as part of Florida's state program of education. In addition to creating charter schools, that section also imposes certain requirements on charter schools. In pertinent part, the law provides that the governing body of a charter school is responsible for:

- Ensuring that the charter school has retained a certified public accountant or auditor to perform its annual audit;
- Reviewing and approving the audit report;
- Establishing a corrective plan, if necessary;
- Monitoring a financial recovery plan to ensure compliance; and
- Participating in governance training approved by the Department of Education, which must include government in the sunshine, conflicts of interest, ethics, and financial responsibility.[28]

School Districts, Florida College System Institutions, and State Universities

Current law requires the financial records and accounts of each school district, Florida College System institution, and other institution or agency under the supervision of the SBE to be prepared and maintained as prescribed by law and rules of the SBE. The financial records and accounts of each state university under the supervision of the BOG must be prepared and maintained as prescribed by law and rules of the BOG. Rules of the SBE and rules of the BOG must incorporate the requirements of law and accounting principles generally accepted in the United States and must include a uniform classification of accounts. Each state university must annually file with the BOG financial statements prepared in conformity with these requirements. The BOG's rules must prescribe the filing deadline for the financial statements. The required

[28] Section 1002.33(9)(j), F.S.

financial accounts and reports must include provisions that are unique to K-12 school districts, Florida College System institutions, and state universities.[29]

Justice Administrative Commission

The Justice Administrative Commission (Commission) is created in s. 43.16, F.S. As one of its duties, the Commission is charged with maintaining a central state office for administrative services and assistance on behalf of state attorneys and public defenders, the capital collateral regional counsel, the criminal conflict and civil regional counsel, and the Guardian Ad Litem Program.[30] Additionally, the Commission records and submits certain documents prepared by a state attorney, public defender, or criminal conflict and civil regional counsel or the Guardian Ad Litem Program, including necessary budgets, vouchers that represent valid claims for reimbursement by the state for authorized expenses, and other things incidental to the proper administrative operation of the office, such as revenue transmittals to the Chief Financial Officer and automated systems plans.[31]

Effect of the Bill

Sections 4, 10, 14, 20 and 22 amend ss. 43.16, 215.86, 218.33, 1002.33, and 1010.01, F.S., respectively, to require state agencies, the judicial branch, local governmental entities, charter schools, school districts, Florida College System institutions, state universities, the Commission, each state attorney, each public defender, the criminal conflict and civil regional counsel, the capital collateral regional counsel, and the Guardian Ad Litem Program to establish and maintain internal controls designed to:

- Prevent and detect fraud, waste, and abuse, as defined in s. 11.45(1), F.S.;
- Promote and encourage compliance with applicable laws, rules, contracts, grant agreements, and best practices;
- Support economical and efficient operations;
- Ensure reliability of financial records and reports; and
- Safeguard assets.

Section 19 amends s. 1001.42, F.S., to require school districts receiving annual federal, state, and local funds in excess of $500 million to employ an internal auditor. The duties of the internal auditor must include oversight of every functional and program area of the school system.

Additionally, this section requires the internal auditor to perform a comprehensive risk assessment of all areas of the school system every five years, and conduct other audits and reviews as the district school board directs to determine:

- The adequacy of internal controls designed to prevent and detect fraud, waste, and abuse.
- Compliance with applicable laws, rules, contracts, grant agreements, district school board-approved policies, and best practices.
- The efficiency of operations.
- The reliability of financial records and reports.
- The safeguarding of assets.

[29] Section 1010.01, F.S.
[30] Section 43.16(5)(a), F.S.
[31] Section 43.16(5)(b), F.S.

- Financial solvency.
- Projected revenues and expenditures.
- The rate of change in the general fund balance.

This section requires the internal auditor to prepare audit reports of his or her findings and establishes penalties for failure to produce financial records to the internal auditor.[32]

Online Posting of Governmental Budgets

Present Situation

Counties and Municipalities

Counties[33] and municipalities[34] are required to post their tentative budgets on their websites two days prior to consideration of the budget at a public hearing. The final budget of a county or municipality must be posted on its website within 30 days after adoption. An amendment to a budget must be posted to the website within five days of adoption.[35] Current law does not specify how long these documents must remain available on the website.

Effect of the Bill

Sections 6, 7 and 8 amend ss. 129.03, 129.06, and 166.241, F.S., respectively, to require a tentative budget to remain on a county or municipality's website for at least 45 days. The sections also requires a final budget to remain on the entity's website for at least two years. Finally, the sections requires an adopted amendment to a budget to remain on the website for at least two years.

The bill also requires the county or municipality to submit an electronic copy of the final budget to the Office of Economic and Demographic Research (EDR) within 30 days after the budget is adopted. The bill allows for an extension of the deadline for up to 90 days if the Governor declares a state of emergency within 30 days of the submission deadline.

The county or municipality must also submit to the clerk of the court a copy of the information that was submitted to the EDR, a copy of the final budget that was posted on the county's website, and a statement certifying both of these items were submitted and posted in a timely manner. However, these requirements do not apply to a charter county in which the clerk of the court is not the county auditor.

[32] Section 11.47(3), F.S. Any person who willfully fails or refuses to furnish or produce any book, record, paper, document, data, or sufficient information necessary to a proper audit or examination which the Auditor General or the Office of Program Policy Analysis and Government Accountability is by law authorized to perform is guilty of a misdemeanor of the first degree. Section 11.47(4), F.S.
[33] Section 129.03, F.S.
[34] Section 166.241, F.S.
[35] Sections 129.06(2)(f)2., 166.241(5), and 189.016(7), F.S.

Present Situation

Special Districts

A "special district" is defined as a unit of local government created for a special purpose, as opposed to a general purpose, which has jurisdiction to operate within a limited geographic boundary and is created by general law, special act, local ordinance, or by rule of the Governor and Cabinet. The term does not include a school district, a community college district, a special improvement district created pursuant to s. 285.17, F.S., a municipal service taxing or benefit unit as specified in s. 125.01, F.S., or a board which provides electrical service and which is a political subdivision of a municipality or is part of a municipality.[36] Special districts are required to post their tentative budgets on their websites two days prior to consideration of the budget at a public hearing and must remain on the website for at least 45 days. The final budget of a special district must be posted on its website within 30 days after adoption and must remain on the website for at least two years.[37]

Effect of the Bill

Section 9 amends s. 189.016, F.S., to require a special district to submit an electronic copy of the final budget to the EDR within 30 days after the budget is adopted. The bill allows for an extension of the deadline for up to 90 days if the Governor declares a state of emergency within 30 days of the submission deadline.

The special district must also submit to the clerk of the court a copy of the information that was submitted to the EDR, a copy of the final budget that was posted on the county's website, and a statement certifying both of these items were submitted and posted in a timely manner.

Present Situation

Water Management Districts (WMD)

Chapter 373, F.S., governs Florida's water resource management and authorizes the creation of WMDs, which are given taxing authority. A WMD is defined as "any flood control, resource management, or water management district" operating under the authority of ch. 373, F.S.[38] There are five WMDs in Florida: Northwest Florida, Suwanee River, St. Johns River, Southwest Florida, and South Florida.[39] Section 373.536, F.S., governs the budget process for WMDs and requires a WMD's tentative budget to be posted on the WMD's website at least two days before budget hearings are conducted. The law requires a WMD's final adopted budget to be posted on the WMD's official website within 30 days after adoption.

Effect of the Bill

Section 18 amends s. 373.536, F.S., to require a WMD's tentative budget to remain on the WMD's website for at least 45 days and requires the final adopted budget to remain on the website for at least two years.

[36] Section 189.012(6), F.S.
[37] Section 189.016(4), F.S.
[38] Section 373.019(23), F.S.
[39] Section 373.069(1), F.S.

The bill also requires the WMD to submit an electronic copy of the final budget to the EDR within 30 days after the budget is adopted. The bill allows for an extension of the deadline for up to 90 days if the Governor declares a state of emergency within 30 days of the submission deadline.

The WMD must also submit to the clerk of the court a copy of the information that was submitted to the EDR, a copy of the final budget that was posted on the county's website, and a statement certifying both of these items were submitted and posted in a timely manner.

Beginning in Fiscal Year 2018-2019, the bill provides that if a WMD fails to submit information to the clerk of the court, the clerk must notify the appropriate fiscal officer to suspend future salary payments for the executive director of that WMD until such time as the information is provided to the clerk.

Present Situation

School Districts

Section 1011.03, F.S., requires each district school board to post its tentative budget on the district's official website at least two days prior to consideration of the budget at a public hearing. The final budget of a county or municipality must be posted on its website within 30 days after adoption. The district school superintendent is required to transmit two copies of the adopted budget to the Department of Education.

Effect of the Bill

Section 24 amends s. 1011.03, F.S., to require the district school board budget officer to submit an electronic copy of the final budget to the EDR within 30 days after the budget is adopted. The bill allows for an extension of the deadline for up to 90 days if the Governor declares a state of emergency within 30 days of the submission deadline.

The district school board budget officer must also submit to the clerk of the court a copy of the information that was submitted to the EDR, a copy of the final budget that was posted on the district school's website, and a statement certifying both of these items were submitted and posted in a timely manner.

Beginning in Fiscal Year 2018-2019, the bill provides that if a district school board budget officer fails to submit information to the clerk of the court, the clerk must notify the appropriate fiscal officer to suspend future salary payments for the superintendent of that district until such time as the information is provided to the clerk.

Transparency in Government Spending

Present Situation

The Transparency Florida Act (Act), codified in s. 215.985, F.S., requires the Governor, in consultation with the appropriations committees of the House and Senate, to maintain a central website providing access to all other websites required to be linked under the Act. It also requires certain budget information, certain contract information, and minimum functionality standards to

be readily available online. In pertinent part, s. 215.985(11), F.S., requires each WMD to provide a monthly financial statement to its governing board and make the statement available for public access on its website.

Effect of the Bill

Section 12 amends s. 215.985, F.S., to require a WMD's monthly financial statement to be in the form and manner prescribed by the DFS and requires each WMD to make the monthly financial statement available to the public on its website.

Office of Economic and Demographic Research (EDR)

Effect of the Bill

Section 26 requires the EDR to develop forms by July 15, 2018, for the purpose of submitting budget data. The forms must provide "broad, but meaningful" categories for organizing expenditures. By December 1, 2018, the EDR is required to submit a report to the President of the Senate and Speaker of the House of Representatives that:

- Identifies a structure to create unique area profiles for the counties, municipalities, special districts, water management districts, and school districts that would assist the public to make simple, direct comparisons between governmental entities of the same type;
- Provides recommendations for metrics for ranking the reporting entities based on the final budget information submitted to the EDR. The metrics must allow the public to make direct comparisons between different local governments; and
- Provides recommendations to provide this information in a cost-effective manner.

Reasonable Opportunity to Be Heard at Public Meetings

Present Situation

Section 286.0114, F.S., requires, with certain exceptions, that members of the public be provided a reasonable opportunity to be heard before a board or commission. The law describes a general public comment process and allows entities to prescribe how public comment is made and create certain reasonable limitations.

Effect of the Bill

Section 17 amends s. 286.0114, F.S., to prohibit a board or commission from requiring a member of the public to provide an advance written copy of his or her testimony or comments as a precondition of being given the opportunity to be heard at a meeting.

Statement of Legislative Findings

Section 32 specifies that a proper and legitimate state purpose is served when internal controls are established to prevent and detect fraud, waste, and abuse and to safeguard and account for government funds and property. In addition, a proper and legitimate state purpose is served when the travel records of state and local employees are transparent to members of the public. The Legislature further finds that a proper and legitimate state purpose is served when local

governments ensure the budgets, annual financial report, and associated data for various governmental entities are available to, and usable by, the public.

Sections 27, 28, 29, 30 and 31 amend ss. 165.0615, 189.066, 189.069, 189.074 and 218.503, F.S., to correct cross-references.

Section 33 provides an effective date of July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(a) of the Florida Constitution provides, in pertinent part, that no county or municipality shall be bound by any general law requiring such county or municipality to spend funds or to take an action requiring the expenditure of funds unless the legislature has determined that such law fulfills an important state interest and:

- The law requiring such expenditure is approved by two-thirds of the membership in each house of the legislature; or
- The expenditure is required to comply with a law that applies to all persons similarly situated, including the state and local governments.

Article VII, s. 18(d) of the Florida Constitution provides, in pertinent part, that laws having insignificant fiscal impact are exempt from the mandates requirements.

This bill requires county and municipal governments to establish and maintain specified internal controls, to post government budgets online, and to use the statewide travel management system. Section 32 of the bill specifies that the bill serves an important state interest. An exception may apply because the bill applies to similarly situated persons (municipalities, counties, water management districts, school districts, state agencies and other governmental entities).

In addition, the bill may be exempt from the mandates requirements if the costs incurred by the municipalities and counties to comply are $2.05 million or less (the threshold for "insignificant"[40] fiscal impact for Fiscal Year 2017-2018).[41]

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

---

[40] An insignificant fiscal impact is the amount not greater than the average statewide population for the applicable fiscal year times $0.10. *See* Florida Senate Committee on Community Affairs, *Interim Report 2012-115: Insignificant Impact*, (September 2011), *available at* http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf (last visited Nov. 9, 2017).

[41] Based on the Demographic Estimating Conference's population adopted on December 5, 2017. The conference packet is available at http://edr.state.fl.us/Content/conferences/population/ConferenceResults.pdf (last visited Dec. 22, 2017).

D. Other Constitutional Issues:

Section 13 requires the salary of the head of the local entity to be withheld if a local government fails to submit specified information to the clerk of the court. If that head of the local entity is a constitutional officer, such as a county commissioner, school board member or a school superintendent, that officer has legal right to receive salary as long as he or she holds the office and performs the requisite duties.[42, 43]

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

State agency and judicial branch personnel may incur additional costs to the extent lodging costs exceed $150 per day when such personnel are required to travel for official business.

C. Government Sector Impact:

Executive branch state government agencies and the judicial branch may incur indeterminate additional costs associated with using the Statewide Travel Management System (system). The bill makes the requirements to implement the system for reporting entities contingent upon the Legislature appropriating at least $5.4 million to the Department of Management Services (DMS) for Fiscal Year 2018-2019.

State agencies, the court system, court-related entities, local governments, district school boards, charter schools, and state colleges and universities may incur minimal costs associated with establishing and maintaining the specified internal controls.

State agencies and the judicial branch may avoid some travel costs associated with the limitations of lodging expenses.

The Department of Financial Services estimates the costs for the development of the Florida Open Financial Statement System to be $500,000. There will be additional costs in future years to create the software tool needed to implement the system. The additional future needs are indeterminate.

The bill has an indeterminate, but likely insignificant negative fiscal impact to expenditures and staff time of the Office of Economic and Demographic Research (EDR). The bill requires that the EDR, by July 15, 2018, develop forms for the submittal of budget data from certain specified entities. Additionally, the bill requires the EDR to compile and submit a report to the President of the Senate and Speaker of the House of

[42] Section 111.045, F.S.
[43] see Flack v. Graham, 453 So. 2d 819 (Fla. 1984).

Representatives by December 1, 2018. In the report, the EDR is required to identify a structure to allow the public to make simple, direct comparisons between governmental entities of the same type; enable the public to rank entities of the same type based on submitted budget data; and, offer recommendations to provide this information in a cost-effective manner. According to the EDR, current resources are adequate to absorb these costs.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 11.40, 11.45, 28.35, 43.16, 112.061, 129.03, 129.06, 165.0615, 166.241, 189.016, 189.066, 189.069, 189.074, 215.86, 215.97, 215.985, 218.32, 218.33, 218.39, 218.391, 218.503, 286.0114, 373.536, 1001.42, 1002.33, 1002.37, 1010.01, 1010.30, 1011.03, and 1011.60.

This bill also creates two undesignated sections of Florida law.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on March 2, 2018:
The committee substitute:

- Requires counties, municipalities, special districts, water management districts, and school districts to:
  - Post annual budgets to their respective websites for two years;
  - Post tentative budgets to their websites for 45 days;
  - Provide an electronic copy of their budgets to the Office of Economic and Demographic Research (EDR), on forms prescribed by the EDR; and
  - Provide a copy of their budgets and certification of timely filing to the clerk of the court. However, a charter county in which the clerk of the court is not the county auditor is excluded.
- Provides that if a local government entity or school district fails to file required reports with the clerk of the court, the clerk must notify the appropriate fiscal officer to withhold salary payments from the head of the local government entity or the superintendent of the school district until the reports are filed.
- Requires all municipalities and special districts to conduct an annual audit.
- Requires the Joint Legislative Auditing Committee to conduct a hearing upon receiving notification from the Auditor General, the Department of Financial Services, the Division of Bond Finance of the State Board of Administration, the

Governor, or the Commissioner of Education that a local government entity has failed to file required reports.
- Begins the process of creating the Florida Open Financial Statement System to allow better access to financial reports filed by local governments.
- Requires school districts receiving annual federal, state, and local funds in excess of $500 million to employ an internal auditor. The duties of the internal auditor must include oversight of every functional and program area of the school system.
- Requires the internal auditor to perform a comprehensive risk assessment of all areas of the school system every five years, and conduct other audits and reviews as the district school board directs to make a determination.
- Requires the internal auditor to prepare audit reports of his or her findings and establishes penalties for failure to produce financial records to the internal auditor.
- Establishes the Statewide Travel Management System (system) in law.
- Requires all executive branch state government agencies and the judicial branch to report public officer and employee travel information in the system.
- Additionally requires that all executive branch state government agencies and the judicial branch use the system for purposes of travel authorization and reimbursement.
- Requires "reporting entities", which are defined in the bill to include municipalities, counties, local constitutional officers, county school districts, state colleges, state universities, and water management districts, to report monthly, all public officer and employee travel information resulting from an overnight stay in the system.
- Establishes a timeline for the Department of Management Services (DMS) to make travel reports for executive branch state government agencies, the judicial branch, and certain reporting entities available for public view.
- Requires reporting entities to redact confidential and exempt information from travel reports prior to posting them to the system and provides a process for reporting entities to follow when a travel report has been posted prior to proper redaction.
- Provides rulemaking authority to the DMS to administer provisions of the section pertaining to the system.
- Makes the requirements to implement the system for reporting entities contingent upon the Legislature appropriating at least $5.4 million to the DMS for Fiscal Year 2018-2019.
- Clarifies the finding of an important state interest.

CS by Community Affairs on November 7, 2017:
Identifies the Department of Management Services as the body that acquired the statewide travel management system, not the Executive Office of the Governor.

LEGISLATIVE ACTION

Senate	.	House
Comm: FAV	.	
03/02/2018	.	
	.	
	.	
	.	

The Committee on Appropriations (Stargel) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Subsection (2) of section 11.40, Florida Statutes, is amended to read:

11.40 Legislative Auditing Committee.—

(2) Following notification by the Auditor General, the Department of Financial Services, ~~or~~ the Division of Bond Finance of the State Board of Administration, the Governor or

522564

his or her designee, or the Commissioner of Education or his or her designee of the failure of a local governmental entity, district school board, charter school, or charter technical career center to comply with the applicable provisions within s. 11.45(5)-(7), s. 218.32(1), s. 218.38, or s. 218.503(3), the Legislative Auditing Committee shall ~~may~~ schedule a hearing to determine if the entity should be subject to further state action. If the committee determines that the entity should be subject to further state action, the committee shall:

(a) In the case of a local governmental entity or district school board, direct the Department of Revenue and the Department of Financial Services to withhold any funds not pledged for bond debt service satisfaction which are payable to such entity until the entity complies with the law. The committee shall specify the date that such action must ~~shall~~ begin, and the directive must be received by the Department of Revenue and the Department of Financial Services 30 days before the date of the distribution mandated by law. The Department of Revenue and the Department of Financial Services may implement ~~the provisions of~~ this paragraph.

(b) In the case of a special district created by:

1. A special act, notify the President of the Senate, the Speaker of the House of Representatives, the standing committees of the Senate and the House of Representatives charged with special district oversight as determined by the presiding officers of each respective chamber, the legislators who represent a portion of the geographical jurisdiction of the special district, and the Department of Economic Opportunity that the special district has failed to comply with the law.

522564

Upon receipt of notification, the Department of Economic Opportunity shall proceed pursuant to s. 189.062 or s. 189.067. If the special district remains in noncompliance after the process set forth in s. 189.0651, or if a public hearing is not held, the Legislative Auditing Committee may request the department to proceed pursuant to s. 189.067(3).

2. A local ordinance, notify the chair or equivalent of the local general-purpose government pursuant to s. 189.0652 and the Department of Economic Opportunity that the special district has failed to comply with the law. Upon receipt of notification, the department shall proceed pursuant to s. 189.062 or s. 189.067. If the special district remains in noncompliance after the process set forth in s. 189.0652, or if a public hearing is not held, the Legislative Auditing Committee may request the department to proceed pursuant to s. 189.067(3).

3. Any manner other than a special act or local ordinance, notify the Department of Economic Opportunity that the special district has failed to comply with the law. Upon receipt of notification, the department shall proceed pursuant to s. 189.062 or s. 189.067(3).

(c) In the case of a charter school or charter technical career center, notify the appropriate sponsoring entity, which may terminate the charter pursuant to ss. 1002.33 and 1002.34.

Section 2. Subsection (1), paragraph (j) of subsection (2), paragraph (u) of subsection (3), and paragraph (i) of subsection (7) of section 11.45, Florida Statutes, are amended, and paragraph (y) is added to subsection (3) of that section, to read:

11.45 Definitions; duties; authorities; reports; rules.—

(1) DEFINITIONS.—As used in ss. 11.40-11.51, the term:

(a) "Abuse" means behavior that is deficient or improper when compared with behavior that a prudent person would consider a reasonable and necessary operational practice given the facts and circumstances. The term includes the misuse of authority or position for personal gain.

(b) ~~(a)~~ "Audit" means a financial audit, operational audit, or performance audit.

(c) ~~(b)~~ "County agency" means a board of county commissioners or other legislative and governing body of a county, however styled, including that of a consolidated or metropolitan government, a clerk of the circuit court, a separate or ex officio clerk of the county court, a sheriff, a property appraiser, a tax collector, a supervisor of elections, or any other officer in whom any portion of the fiscal duties of a body or officer expressly stated in this paragraph are ~~the above are under law~~ separately placed by law.

(d) ~~(c)~~ "Financial audit" means an examination of financial statements in order to express an opinion on the fairness with which they are presented in conformity with generally accepted accounting principles and an examination to determine whether operations are properly conducted in accordance with legal and regulatory requirements. Financial audits must be conducted in accordance with auditing standards generally accepted in the United States and government auditing standards as adopted by the Board of Accountancy. When applicable, the scope of financial audits must ~~shall~~ encompass the additional activities necessary to establish compliance with the Single Audit Act Amendments of 1996, 31 U.S.C. ss. 7501-7507, and other

522564

applicable federal law.

(e) "Fraud" means obtaining something of value through willful misrepresentation, including, but not limited to, the intentional misstatements or intentional omissions of amounts or disclosures in financial statements to deceive users of financial statements, theft of an entity's assets, bribery, or the use of one's position for personal enrichment through the deliberate misuse or misapplication of an organization's resources.

(f) ~~(d)~~ "Governmental entity" means a state agency, a county agency, or any other entity, however styled, that independently exercises any type of state or local governmental function.

(g) ~~(e)~~ "Local governmental entity" means a county agency, municipality, tourist development council, county tourism promotion agency, or special district as defined in s. 189.012. The term~~, but~~ does not include any housing authority established under chapter 421.

(h) ~~(f)~~ "Management letter" means a statement of the auditor's comments and recommendations.

(i) ~~(g)~~ "Operational audit" means an audit whose purpose is to evaluate management's performance in establishing and maintaining internal controls, including controls designed to prevent and detect fraud, waste, and abuse, and in administering assigned responsibilities in accordance with applicable laws, administrative rules, contracts, grant agreements, and other guidelines. Operational audits must be conducted in accordance with government auditing standards. Such audits examine internal controls that are designed and placed in operation to promote and encourage the achievement of management's control objectives

522564

in the categories of compliance, economic and efficient operations, reliability of financial records and reports, and safeguarding of assets, and identify weaknesses in those internal controls.

(j) ~~(h)~~ "Performance audit" means an examination of a program, activity, or function of a governmental entity, conducted in accordance with applicable government auditing standards or auditing and evaluation standards of other appropriate authoritative bodies. The term includes an examination of issues related to:

1. Economy, efficiency, or effectiveness of the program.

2. Structure or design of the program to accomplish its goals and objectives.

3. Adequacy of the program to meet the needs identified by the Legislature or governing body.

4. Alternative methods of providing program services or products.

5. Goals, objectives, and performance measures used by the agency to monitor and report program accomplishments.

6. The accuracy or adequacy of public documents, reports, or requests prepared under the program by state agencies.

7. Compliance of the program with appropriate policies, rules, or laws.

8. Any other issues related to governmental entities as directed by the Legislative Auditing Committee.

(k) ~~(i)~~ "Political subdivision" means a separate agency or unit of local government created or established by law and includes, but is not limited to, the following and the officers thereof: authority, board, branch, bureau, city, commission,

522564

consolidated government, county, department, district, institution, metropolitan government, municipality, office, officer, public corporation, town, or village.

(l) ~~(j)~~ "State agency" means a separate agency or unit of state government created or established by law and includes, but is not limited to, the following and the officers thereof: authority, board, branch, bureau, commission, department, division, institution, office, officer, or public corporation, as the case may be, except any such agency or unit within the legislative branch of state government other than the Florida Public Service Commission.

(m) "Waste" means the act of using or expending resources unreasonably, carelessly, extravagantly, or for no useful purpose.

(2) DUTIES.—The Auditor General shall:

(j) Conduct audits of local governmental entities when determined to be necessary by the Auditor General, when directed by the Legislative Auditing Committee, or when otherwise required by law. No later than 18 months after the release of the audit report, the Auditor General shall perform such appropriate followup procedures as he or she deems necessary to determine the audited entity's progress in addressing the findings and recommendations contained within the Auditor General's previous report. The Auditor General shall notify each member of the audited entity's governing body and the Legislative Auditing Committee of the results of his or her determination. For purposes of this paragraph, local governmental entities do not include water management districts.

522564

The Auditor General shall perform his or her duties independently but under the general policies established by the Legislative Auditing Committee. This subsection does not limit the Auditor General's discretionary authority to conduct other audits or engagements of governmental entities as authorized in subsection (3).

(3) AUTHORITY FOR AUDITS AND OTHER ENGAGEMENTS.—The Auditor General may, pursuant to his or her own authority, or at the direction of the Legislative Auditing Committee, conduct audits or other engagements as determined appropriate by the Auditor General of:

(u) The Florida Virtual School ~~pursuant to s. 1002.37~~.

(y) Tourist development councils and county tourism promotion agencies.

(7) AUDITOR GENERAL REPORTING REQUIREMENTS.—

(i) The Auditor General shall annually transmit by July 15, to the President of the Senate, the Speaker of the House of Representatives, and the Department of Financial Services, a list of all school districts, charter schools, charter technical career centers, Florida College System institutions, state universities, and local governmental entities ~~water management districts~~ that have failed to comply with the transparency requirements as identified in the audit reports reviewed pursuant to paragraph (b) and those conducted pursuant to subsection (2).

Section 3. Paragraph (d) of subsection (2) of section 28.35, Florida Statutes, is amended to read:

28.35 Florida Clerks of Court Operations Corporation.—

(2) The duties of the corporation shall include the

following:

(d) Developing and certifying a uniform system of workload measures and applicable workload standards for court-related functions as developed by the corporation and clerk workload performance in meeting the workload performance standards. These workload measures and workload performance standards shall be designed to facilitate an objective determination of the performance of each clerk in accordance with minimum standards for fiscal management, operational efficiency, and effective collection of fines, fees, service charges, and court costs. The corporation shall develop the workload measures and workload performance standards in consultation with the Legislature. When the corporation finds a clerk has not met the workload performance standards, the corporation shall identify the nature of each deficiency and any corrective action recommended and taken by the affected clerk of the court. For quarterly periods ending on the last day of March, June, September, and December of each year, the corporation shall notify the Legislature of any clerk not meeting workload performance standards and provide a copy of any corrective action plans. Such notifications shall be submitted no later than 45 days after the end of the preceding quarterly period. As used in this subsection, the term:

1. "Workload measures" means the measurement of the activities and frequency of the work required for the clerk to adequately perform the court-related duties of the office as defined by the membership of the Florida Clerks of Court Operations Corporation.

2. "Workload performance standards" means the standards

522564

developed to measure the timeliness and effectiveness of the activities that are accomplished by the clerk in the performance of the court-related duties of the office as defined by the membership of the Florida Clerks of Court Operations Corporation.

Section 4. Present subsections (6) and (7) of section 43.16, Florida Statutes, are renumbered as subsections (7) and (8), respectively, and a new subsection (6) is added to that section, to read:

43.16 Justice Administrative Commission; membership, powers and duties.—

(6) The commission, each state attorney, each public defender, the criminal conflict and civil regional counsel, the capital collateral regional counsel, and the Guardian Ad Litem Program shall establish and maintain internal controls designed to:

(a) Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

(b) Promote and encourage compliance with applicable laws, rules, contracts, grant agreements, and best practices.

(c) Support economical and efficient operations.

(d) Ensure reliability of financial records and reports.

(e) Safeguard assets.

Section 5. Subsection (6) of section 112.061, Florida Statutes, is amended, and subsection (16) is added to that section, to read:

112.061 Per diem and travel expenses of public officers, employees, and authorized persons.—

(6) RATES OF PER DIEM AND SUBSISTENCE ALLOWANCE.—For

522564

purposes of reimbursement rates and methods of calculation, per diem and subsistence allowances are provided as follows:

(a) All travelers shall be allowed for subsistence when traveling to a convention or conference or when traveling within or outside the state in order to conduct bona fide state business, which convention, conference, or business serves a direct and lawful public purpose with relation to the public agency served by the person attending such meeting or conducting such business, either of the following for each day of such travel at the option of the traveler:

1. Eighty dollars per diem; or

2. If actual expenses exceed $80, the amounts permitted in paragraph (b) for subsistence, plus actual expenses for lodging at a single-occupancy rate, except as provided in paragraph (c), to be substantiated by paid bills therefor.

When lodging or meals are provided at a state institution, the traveler shall be reimbursed only for the actual expenses of such lodging or meals, not to exceed the maximum provided for in this subsection.

(b) All travelers shall be allowed the following amounts for subsistence while on Class C travel on official business as provided in paragraph (5)(b):

1. Breakfast.....$6
2. Lunch.....$11
3. Dinner.....$19

(c) Actual expenses for lodging associated with the attendance of an employee of a state agency or the judicial branch at a meeting, conference, or convention organized or

522564

sponsored in whole or in part by a state agency or the judicial branch may not exceed $150 per day. However, an employee may expend his or her own funds for any lodging expenses that exceed $150 per day. For purposes of this paragraph, a meeting does not include travel activities for conducting an audit, examination, inspection, or investigation or travel activities related to a litigation or emergency response.

(d) ~~(c)~~ No one, whether traveling out of state or in state, shall be reimbursed for any meal or lodging included in a convention or conference registration fee paid by the state.

(16) STATEWIDE TRAVEL MANAGEMENT SYSTEM.—

(a) For purposes of this subsection, the term "statewide travel management system" means the system acquired by the Department of Management Services to:

1. Standardize and automate agency travel management;

2. Allow for travel planning and approval, expense reporting, and reimbursement; and

3. Allow a person to query travel information by public employee or officer name and position title, purpose of travel, dates and location of travel, mode of travel, confirmation of agency head or designee authorization if required, and total travel cost.

(b) All agencies and the judicial branch must report public officer and employee travel information in the statewide travel management system, including, but not limited to, officer or employee name and position title, purpose of travel, dates and location of travel, mode of travel, confirmation of agency head or designee authorization if required, and total travel cost. At a minimum, such information must be reported in the statewide

522564

travel management system on a monthly basis.

(c) All executive branch state agencies and the judicial branch must use the statewide travel management system for purposes of travel authorization and reimbursement.

Section 6. Paragraph (c) of subsection (3) of section 129.03, Florida Statutes, is amended, and paragraph (d) is added to that subsection, to read:

129.03 Preparation and adoption of budget.—

(3) The county budget officer, after tentatively ascertaining the proposed fiscal policies of the board for the next fiscal year, shall prepare and present to the board a tentative budget for the next fiscal year for each of the funds provided in this chapter, including all estimated receipts, taxes to be levied, and balances expected to be brought forward and all estimated expenditures, reserves, and balances to be carried over at the end of the year.

(c) The board shall hold public hearings to adopt tentative and final budgets pursuant to s. 200.065. The hearings shall be primarily for the purpose of hearing requests and complaints from the public regarding the budgets and the proposed tax levies and for explaining the budget and any proposed or adopted amendments. The tentative budget must be posted on the county's official website at least 2 days before the public hearing to consider such budget and must remain on the website for at least 45 days. The final budget must be posted on the website within 30 days after adoption and must remain on the website for at least 2 years. The tentative budgets, adopted tentative budgets, and final budgets shall be filed in the office of the county auditor as a public record. Sufficient reference in words and

522564

figures to identify the particular transactions must ~~shall~~ be made in the minutes of the board to record its actions with reference to the budgets.

(d) Beginning in the 2018-2019 fiscal year, the county budget officer shall electronically submit information regarding the final budget to the Office of Economic and Demographic Research in the format specified by the office within 30 days after adoption of the final budget. If the Governor declares a state of emergency pursuant to s. 252.36(2) within 30 days after the submission deadline, the office may extend the deadline up to an additional 90 days. The county budget officer shall also electronically submit to the clerk of the court:

1. A copy of the information that was submitted to the office.

2. A copy of the final budget that was posted on the county's website.

3. A statement certifying that the items in subparagraphs 1. and 2. were timely submitted and posted.

Section 7. Paragraph (f) of subsection (2) of section 129.06, Florida Statutes, is amended to read:

129.06 Execution and amendment of budget.—

(2) The board at any time within a fiscal year may amend a budget for that year, and may within the first 60 days of a fiscal year amend the budget for the prior fiscal year, as follows:

(f) Unless otherwise prohibited by law, if an amendment to a budget is required for a purpose not specifically authorized in paragraphs (a)-(e), the amendment may be authorized by resolution or ordinance of the board of county commissioners

adopted following a public hearing.

1. The public hearing must be advertised at least 2 days, but not more than 5 days, before the date of the hearing. The advertisement must appear in a newspaper of paid general circulation and must identify the name of the taxing authority, the date, place, and time of the hearing, and the purpose of the hearing. The advertisement must also identify each budgetary fund to be amended, the source of the funds, the use of the funds, and the total amount of each fund's appropriations.

2. If the board amends the budget pursuant to this paragraph, the adopted amendment must be posted on the county's official website within 5 days after adoption and must remain on the website for at least 2 years.

Section 8. Present subsections (4) and (5) of section 166.241, Florida Statutes, are renumbered as subsections (5) and (6), respectively, subsection (3) and present subsection (5) are amended, and a new subsection (4) is added to that section, to read:

166.241 Fiscal years, budgets, and budget amendments.—

(3) The tentative budget must be posted on the municipality's official website at least 2 days before the budget hearing, held pursuant to s. 200.065 or other law, to consider such budget and must remain on the website for at least 45 days. The final adopted budget must be posted on the municipality's official website within 30 days after adoption and must remain on the website for at least 2 years. If the municipality does not operate an official website, the municipality must, within a reasonable period of time as established by the county or counties in which the municipality

is located, transmit the tentative budget and final budget to the manager or administrator of such county or counties who shall post the budgets on the county's website.

(4) Beginning in the 2018-2019 fiscal year, the municipality budget officer shall electronically submit information regarding the final budget to the Office of Economic and Demographic Research in the format specified by the office within 30 days after adoption of the final budget. If the Governor declares a state of emergency pursuant to s. 252.36(2) within 30 days after the submission deadline, the office may extend the deadline up to an additional 90 days. The municipality budget officer shall also electronically submit to the clerk of the court:

(a) A copy of the information that was submitted to the office.

(b) A copy of the final budget that was posted on the municipality's website.

(c) A statement certifying that the items in paragraphs (a) and (b) were timely submitted and posted.

(6) ~~(5)~~ If the governing body of a municipality amends the budget pursuant to paragraph (5)(c) ~~(4)(c)~~, the adopted amendment must be posted on the official website of the municipality within 5 days after adoption and must remain on the website for at least 2 years. If the municipality does not operate an official website, the municipality must, within a reasonable period of time as established by the county or counties in which the municipality is located, transmit the adopted amendment to the manager or administrator of such county or counties who shall post the adopted amendment on the county's

522564

website.

Section 9. Present subsections (5) through (10) of section 189.016, Florida Statutes, are renumbered as subsections (6) through (11), respectively, present subsections (7) and (10) are amended, and a new subsection (5) is added to that section, to read:

189.016 Reports; budgets; audits.—

(5) Beginning in the 2018-2019 fiscal year, the special district budget officer shall electronically submit information regarding the final budget to the Office of Economic and Demographic Research in the format specified by the office within 30 days after adoption of the final budget. If the Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline for the final budget, the office may extend the deadline up to an additional 90 days. The special district budget officer shall also electronically submit to the clerk of the court:

(a) A copy of the information that was submitted to the office.

(b) A copy of the final budget that was posted on the special district's website.

(c) A statement certifying that the items in paragraphs (a) and (b) were timely submitted and posted.

(8)~~(7)~~ If the governing body of a special district amends the budget pursuant to paragraph (7)(c) ~~(6)(c)~~, the adopted amendment must be posted on the official website of the special district within 5 days after adoption and must remain on the website for at least 2 years.

(11)~~(10)~~ All reports or information required to be filed

522564

with a local general-purpose government or governing authority under ss. 189.014, 189.015, and 189.08 and subsection (9) ~~(8)~~ must:

(a) If the local general-purpose government or governing authority is a county, be filed with the clerk of the board of county commissioners.

(b) If the district is a multicounty district, be filed with the clerk of the county commission in each county.

(c) If the local general-purpose government or governing authority is a municipality, be filed at the place designated by the municipal governing body.

Section 10. Section 215.86, Florida Statutes, is amended to read:

215.86 Management systems and controls.—Each state agency and the judicial branch as defined in s. 216.011 shall establish and maintain management systems and internal controls designed to:

(1) Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1). ~~that~~

(2) Promote and encourage compliance with applicable laws, rules, contracts, and grant agreements.~~;~~

(3) Support economical and ~~economic,~~ efficient~~, and effective~~ operations.~~;~~

(4) Ensure reliability of financial records and reports.~~;~~

(5) Safeguard ~~and safeguarding of~~ assets. ~~Accounting systems and procedures shall be designed to fulfill the requirements of generally accepted accounting principles.~~

Section 11. Paragraph (a) of subsection (2) of section 215.97, Florida Statutes, is amended to read:

215.97 Florida Single Audit Act.—

(2) As used in this section, the term:

(a) "Audit threshold" means the threshold amount used to determine when a state single audit or project-specific audit of a nonstate entity shall be conducted in accordance with this section. Each nonstate entity that expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such nonstate entity shall be required to have a state single audit~~,~~ or a project-specific audit~~,~~ for such fiscal year in accordance with the requirements of this section. ~~Every 2 years the Auditor General,~~ After consulting with the Executive Office of the Governor, the Department of Financial Services, and all state awarding agencies, the Auditor General shall periodically review the threshold amount for requiring audits under this section and may recommend any appropriate statutory change to revise the threshold amount in the annual report submitted pursuant to s. 11.45(7)(h) to the Legislature ~~adjust such threshold amount consistent with the purposes of this section~~.

Section 12. Subsection (11) of section 215.985, Florida Statutes, is amended to read:

215.985 Transparency in government spending.—

(11) Each water management district shall provide a monthly financial statement in the form and manner prescribed by the Department of Financial Services to the district's ~~its~~ governing board and make such monthly financial statement available for public access on its website.

Section 13. Section 218.32, Florida Statutes, is amended to read:

522564

218.32 Annual financial reports; local governmental entities; Florida Open Financial Statement System.—

(1)(a) Each local governmental entity that is determined to be a reporting entity, as defined by generally accepted accounting principles, and each independent special district as defined in s. 189.012, shall submit to the department a copy of its annual financial report for the previous fiscal year in a format prescribed by the department. The annual financial report must include a list of each local governmental entity included in the report and each local governmental entity that failed to provide financial information as required by paragraph (b). The chair of the governing body and the chief financial officer of each local governmental entity shall sign the annual financial report submitted pursuant to this subsection attesting to the accuracy of the information included in the report. The county annual financial report must be a single document that covers each county agency.

(b) Each component unit, as defined by generally accepted accounting principles, of a local governmental entity shall provide the local governmental entity, within a reasonable time period as established by the local governmental entity, with financial information necessary to comply with the reporting requirements contained in this section.

(c) Each regional planning council created under s. 186.504, each local government finance commission, board, or council, and each municipal power corporation created as a separate legal or administrative entity by interlocal agreement under s. 163.01(7) shall submit to the department a copy of its audit report and an annual financial report for the previous

522564

fiscal year in a format prescribed by the department.

(d) Each local governmental entity that is required to provide for an audit under s. 218.39(1) must submit a copy of the audit report and annual financial report to the department within 45 days after the completion of the audit report but no later than 6 ~~9~~ months after the end of the fiscal year. If the Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline for the audit report and annual financial report, the department may extend the deadline up to an additional 90 days. The local governmental entity must electronically submit to the clerk of the court a copy of its annual financial report and a statement certifying that the report was timely filed with the department.

(e) In conducting an audit of a local governmental entity pursuant to s. 218.39, an independent certified public accountant shall determine whether the entity's annual financial report is in agreement with the audited financial statements. If the audited financial statements are not in agreement with the annual financial report, the accountant shall specify and explain the significant differences that exist between the audited financial statements and the annual financial report.

(f) Each local governmental entity that is not required to provide for an audit under s. 218.39 must submit the annual financial report to the department no later than 9 months after the end of the fiscal year. The department shall consult with the Auditor General in the development of the format of annual financial reports submitted pursuant to this paragraph. The format must include balance sheet information used by the Auditor General pursuant to s. 11.45(7)(f). The department must

522564

forward the financial information contained within the annual financial reports to the Auditor General in electronic form. If the Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline, the department may extend the deadline up to an additional 90 days. This paragraph does not apply to housing authorities created under chapter 421.

(g) ~~(f)~~ If the department does not receive a completed annual financial report from a local governmental entity within the required period, it shall notify the Legislative Auditing Committee and the Special District Accountability Program of the Department of Economic Opportunity by April 30 of the entity's failure to comply with the reporting requirements.

(h) ~~(g)~~ Each local governmental entity's website must provide a link to the department's website to view the entity's annual financial report submitted to the department pursuant to this section. If the local governmental entity does not have an official website, the county government's website must provide the required link for the local governmental entity.

(i) It is the intent of the Legislature to create the Florida Open Financial Statement System, an interactive repository for governmental financial statements.

1. The Chief Financial Officer may consult with stakeholders, including the department, the Auditor General, a representative of a municipality or county, a representative of a special district, a municipal bond investor, and an information technology professional employed in the private sector, for input on the design and implementation of the Florida Open Financial Statement System.

2. The Chief Financial Officer may choose contractors to

522564

build one or more extensible Business Reporting Language (XBRL) taxonomies suitable for state, county, municipal, and special district financial filings and to create a software tool that enables financial statement filers to easily create XBRL documents consistent with the taxonomy or taxonomies. The Chief Financial Officer shall recruit and select contractors through an open request for proposals process pursuant to chapter 287.

3. The Chief Financial Officer shall require all work to be completed no later than December 31, 2021.

4. If the Chief Financial Officer deems the work products adequate, all local governmental financial statements pertaining to fiscal years ending on or after September 1, 2022, must be filed in XBRL format and must meet the validation requirements of the relevant taxonomy.

5. A local government that commences filing in XBRL format may not be required to make filings in portable document format.

(j) Beginning in the 2018-2019 fiscal year and notwithstanding any other penalty or remedy provided by law, if a local governmental entity fails to submit information to the clerk of the court as required under paragraph (d), s. 129.03(3)(d), s. 166.241(4), or s. 189.016(5), as applicable, the clerk of the court shall notify the appropriate local fiscal officer to suspend future salary payments to the head of that local governmental entity. The clerk shall notify the appropriate local fiscal officer to resume payments when the clerk receives the information.

(2) The department shall annually by December 1 file a verified report with the Governor, the Legislature, the Auditor General, and the Special District Accountability Program of the

522564

Department of Economic Opportunity showing the revenues, both locally derived and derived from intergovernmental transfers, and the expenditures of each local governmental entity, regional planning council, local government finance commission, and municipal power corporation that is required to submit an annual financial report. In preparing the verified report, the department may request additional information from the local governmental entity. The information requested must be provided to the department within 45 days after the request. If the local governmental entity does not comply with the request, the department shall notify the Legislative Auditing Committee, which may take action pursuant to s. 11.40(2). The report must include, but is not limited to:

(a) The total revenues and expenditures of each local governmental entity that is a component unit included in the annual financial report of the reporting entity.

(b) The amount of outstanding long-term debt by each local governmental entity. For purposes of this paragraph, the term "long-term debt" means any agreement or series of agreements to pay money, which, at inception, contemplate terms of payment exceeding 1 year in duration.

(3) No later than 12 months after the end of the most recently completed fiscal year, the department shall post on its website the annual financial report for each local governmental entity and independent special district that is required to submit an annual financial report pursuant to subsection (1).

(4) ~~(3)~~ The department shall notify the President of the Senate and the Speaker of the House of Representatives of any municipality that has not reported any financial activity for

522564

the last 4 fiscal years. Such notice must be sufficient to initiate dissolution procedures as described in s. 165.051(1)(a). Any special law authorizing the incorporation or creation of the municipality must be included within the notification.

Section 14. Present subsection (3) of section 218.33, Florida Statutes, is renumbered as subsection (4), and a new subsection (3) is added to that section, to read:

218.33 Local governmental entities; establishment of uniform fiscal years and accounting practices and procedures.—

(3) Each local governmental entity shall establish and maintain internal controls designed to:

(a) Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

(b) Promote and encourage compliance with applicable laws, rules, contracts, grant agreements, and best practices.

(c) Support economical and efficient operations.

(d) Ensure reliability of financial records and reports.

(e) Safeguard assets.

Section 15. Present subsections (8) through (12) of section 218.39, Florida Statutes, are renumbered as subsections (9) through (13), respectively, paragraphs (b), (c), (g), and (h) of subsection (1) and subsection (7) of that section are amended, and a new subsection (8) is added to that section, to read:

218.39 Annual financial audit reports.—

(1) If, by the first day in any fiscal year, a local governmental entity, district school board, charter school, or charter technical career center has not been notified that a financial audit for that fiscal year will be performed by the

522564

Auditor General, each of the following entities shall have an annual financial audit of its accounts and records completed within 9 months after the end of its fiscal year by an independent certified public accountant retained by it and paid from its public funds:

(b) Any municipality with revenues or the total of expenditures and expenses in excess of $250,000, as reported on the fund financial statements, and each municipality beginning with the 2018-2019 fiscal year.

(c) Any special district with revenues or the total of expenditures and expenses in excess of $100,000, as reported on the fund financial statements, and each special district beginning with the 2018-2019 fiscal year.

~~(g) Each municipality with revenues or the total of expenditures and expenses between $100,000 and $250,000, as reported on the fund financial statements, which has not been subject to a financial audit pursuant to this subsection for the 2 preceding fiscal years.~~

~~(h) Each special district with revenues or the total of expenditures and expenses between $50,000 and $100,000, as reported on the fund financial statement, which has not been subject to a financial audit pursuant to this subsection for the 2 preceding fiscal years.~~

(7) All audits conducted pursuant to this section must be conducted in accordance with the rules of the Auditor General adopted pursuant to s. 11.45. Upon completion of the audit, the auditor shall prepare an audit report in accordance with the rules of the Auditor General. The audit report shall be filed with the Auditor General within 45 days after delivery of the

522564

audit report to the governing body of the audited entity, but no later than 6 ~~9~~ months after the end of the audited entity's fiscal year. The audit report must include a written statement describing corrective actions to be taken in response to each of the auditor's recommendations included in the audit report. If the Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline for the audit report, the Auditor General may extend the deadline up to an additional 90 days.

(8) If the audit report includes a recommendation that was included in the preceding financial audit report and remains unaddressed, the governing body of the audited entity, within 60 days after the delivery of the audit report to the governing body, shall indicate during a regularly scheduled public meeting whether it intends to take corrective action, the intended corrective action, and the timeframe for the corrective action. If the governing body indicates that it does not intend to take corrective action, it must explain its decision at the public meeting.

Section 16. Subsection (2) of section 218.391, Florida Statutes, is amended, and subsections (9) through (13) are added to that section, to read:

218.391 Auditor selection procedures.—

(2) The governing body of a ~~charter~~ county, municipality, special district, district school board, charter school, or charter technical career center shall establish an audit committee.

(a) At a minimum, the audit committee for a county must ~~Each noncharter county shall establish an audit committee that,~~

522564

~~at a minimum, shall~~ consist of each of the county officers elected pursuant to the county charter or s. 1(d), Art. VIII of the State Constitution, or their respective designees ~~a designee~~, and one member of the board of county commissioners or its designee.

(b) The audit committee for a municipality, special district, district school board, charter school, or charter technical career center shall consist of at least three members. One member of the audit committee must be a member of the governing body of an entity specified in this paragraph, who shall also serve as the chair of the committee.

(c) An employee, a chief executive officer, or a chief financial officer of the county, municipality, special district, district school board, charter school, or charter technical career center may not serve as a member of an audit committee established under this subsection.

(d) The primary purpose of the audit committee is to assist the governing body in selecting an auditor to conduct the annual financial audit required in s. 218.39; however, the audit committee may serve other audit oversight purposes as determined by the entity's governing body. The public may ~~shall~~ not be excluded from the proceedings under this section.

(9) For each audit required by s. 218.39, the auditor shall include the following information in the management letter prepared pursuant to s. 218.39(4):

(a) The date the entity's governing body approved the selection of the auditor and the date the entity and the auditor executed the most recent contract pursuant to subsection (7);

(b) The first fiscal year for which the auditor conducted

522564

the audit under the most recently executed contract pursuant to subsection (7); and

(c) The contract period, including renewals, and conditions under which the contract may be terminated or renewed.

(10) On each occasion that an entity contracts with an auditor to conduct an audit pursuant to s. 218.39, an affidavit shall be executed by the chair of the entity's governing body in a format prescribed in accordance with rules adopted by the Auditor General, affirming that the auditor was selected in compliance with the requirements of subsections (3)-(6). The affidavit must accompany the entity's first audit report prepared by the auditor under the most recently executed contract pursuant to subsection (7). The affidavit shall include the following information:

(a) The date the entity's governing body approved the selection of the auditor;

(b) The first fiscal year for which the auditor conducted the audit; and

(c) The contract period, including renewals, and conditions under which the contract may be terminated or renewed.

(11) If the entity fails to select the auditor in accordance with the requirements of subsections (3)-(6), the entity shall again perform the auditor selection process in accordance with this section to select an auditor to conduct audits for subsequent fiscal years if the original audit was performed under a multiyear contract.

(a) If performing the auditor selection process again in accordance with this section would preclude the entity from timely completing the annual financial audit required by s.

522564

218.39, the entity shall again perform the auditor selection process in accordance with this section for the subsequent annual financial audit. A multiyear contract entered into between an entity and an auditor after the effective date of this act may not prohibit or restrict an entity from complying with the section.

(b) If the entity fails to perform the auditor selection process again, pursuant to this subsection, the Legislative Auditing Committee shall determine whether the entity should be subject to state action pursuant to s. 11.40(2).

(12) If the entity fails to provide the Auditor General with the affidavit required by subsection (10), the Auditor General shall request that the entity provide the affidavit. The affidavit must be provided within 45 days after the date of the request. If the entity does not comply with the Auditor General's request, the Legislative Auditing Committee shall determine whether the entity should be subject to state action pursuant to s. 11.40(2).

(13) If the entity provides the Auditor General with the affidavit required in subsection (10) but failed to select the auditor in accordance with the requirements of subsections (3)-(6), the Legislative Auditing Committee shall determine whether the entity should be subject to state action pursuant to s. 11.40(2).

Section 17. Subsection (2) of section 286.0114, Florida Statutes, is amended to read:

286.0114 Public meetings; reasonable opportunity to be heard; attorney fees.—

(2) Members of the public shall be given a reasonable

522564

opportunity to be heard on a proposition before a board or commission. The opportunity to be heard need not occur at the same meeting at which the board or commission takes official action on the proposition if the opportunity occurs at a meeting that is during the decisionmaking process and is within reasonable proximity in time before the meeting at which the board or commission takes the official action. A board or commission may not require a member of the public to provide an advance written copy of his or her testimony or comments as a condition of being given the opportunity to be heard at a meeting. This section does not prohibit a board or commission from maintaining orderly conduct or proper decorum in a public meeting. The opportunity to be heard is subject to rules or policies adopted by the board or commission, as provided in subsection (4).

Section 18. Paragraph (e) of subsection (4), paragraph (d) of subsection (5), and paragraph (d) of subsection (6) of section 373.536, Florida Statutes, are amended, and paragraphs (e) and (f) are added to subsection (6) of that section, to read:

373.536 District budget and hearing thereon.—

(4) BUDGET CONTROLS; FINANCIAL INFORMATION.—

(e) ~~By September 1, 2012,~~ Each district shall provide a monthly financial statement in the form and manner prescribed by the Department of Financial Services to the district’s governing board and make such monthly financial statement available for public access on its website.

(5) TENTATIVE BUDGET CONTENTS AND SUBMISSION; REVIEW AND APPROVAL.—

522564

(d) Each district shall, by August 1 of each year, submit for review a tentative budget and a description of any significant changes from the preliminary budget submitted to the Legislature pursuant to s. 373.535 to the Governor, the President of the Senate, the Speaker of the House of Representatives, the chairs of all legislative committees and subcommittees having substantive or fiscal jurisdiction over water management districts, as determined by the President of the Senate or the Speaker of the House of Representatives, as applicable, the secretary of the department, and the governing body of each county in which the district has jurisdiction or derives any funds for the operations of the district. The tentative budget must be posted on the district's official website at least 2 days before budget hearings held pursuant to s. 200.065 or other law and must remain on the website for at least 45 days.

(6) FINAL BUDGET; ANNUAL AUDIT; CAPITAL IMPROVEMENTS PLAN; WATER RESOURCE DEVELOPMENT WORK PROGRAM.—

(d) The final adopted budget must be posted on the water management district's official website within 30 days after adoption and must remain on the website for at least 2 years.

(e) Beginning in the 2018-2019 fiscal year, the water management district budget officer shall electronically submit information regarding the final budget to the Office of Economic and Demographic Research in the format specified by the office within 30 days after adoption of the final budget. If the Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline, the office may extend the deadline up to an additional 90 days. The water management

522564

district budget officer shall also electronically submit to the clerk of the court in each county in which the district operates:

1. A copy of the information that was submitted to the office.

2. A copy of the final budget that was posted on the water management district's website.

3. A statement certifying that the items in subparagraphs 1. and 2. were timely submitted and posted.

(f) Beginning in the 2018-2019 fiscal year and notwithstanding any other penalty or remedy that may be authorized by law, if a water management district budget officer fails to submit information to the clerk of the court as required in paragraph (e), the clerk of the court shall notify the appropriate fiscal officer to suspend future salary payments for the executive director of that district. The clerk shall notify the fiscal officer to resume payments when the clerk receives the information.

Section 19. Paragraph (l) of subsection (12) of section 1001.42, Florida Statutes, is amended to read:

1001.42 Powers and duties of district school board.—The district school board, acting as a board, shall exercise all powers and perform all duties listed below:

(12) FINANCE.—Take steps to assure students adequate educational facilities through the financial procedure authorized in chapters 1010 and 1011 and as prescribed below:

(l) *Internal auditor.*—May employ an internal auditor to perform ongoing financial verification of the financial records of the school district and such other audits and reviews as the

522564

district school board directs for the purpose of determining:

1. The adequacy of internal controls designed to prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

2. Compliance with applicable laws, rules, contracts, grant agreements, district school board-approved policies, and best practices.

3. The efficiency of operations.

4. The reliability of financial records and reports.

5. The safeguarding of assets.

The internal auditor shall report directly to the district school board or its designee.

Section 20. Paragraph (j) of subsection (9) of section 1002.33, Florida Statutes, is amended to read:

1002.33 Charter schools.—

(9) CHARTER SCHOOL REQUIREMENTS.—

(j) The governing body of the charter school shall be responsible for:

1. Establishing and maintaining internal controls designed to:

a. Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

b. Promote and encourage compliance with applicable laws, rules, contracts, grant agreements, and best practices.

c. Support economical and efficient operations.

d. Ensure reliability of financial records and reports.

e. Safeguard assets.

2.~~1.~~ Ensuring that the charter school has retained the services of a certified public accountant or auditor for the

522564

annual financial audit, pursuant to s. 1002.345(2), who shall submit the report to the governing body.

3.~~2.~~ Reviewing and approving the audit report, including audit findings and recommendations for the financial recovery plan.

4.a.~~3.a.~~ Performing the duties in s. 1002.345, including monitoring a corrective action plan.

b. Monitoring a financial recovery plan in order to ensure compliance.

5.~~4.~~ Participating in governance training approved by the department which must include government in the sunshine, conflicts of interest, ethics, and financial responsibility.

Section 21. Present subsections (6) through (10) of section 1002.37, Florida Statutes, are renumbered as subsections (7) through (11), respectively, present subsection (6) is amended, and a new subsection (6) is added to that section, to read:

1002.37 The Florida Virtual School.—

(6) The Florida Virtual School shall have an annual financial audit of its accounts and records conducted by an independent auditor who is a certified public accountant licensed under chapter 473. The independent auditor shall conduct the audit in accordance with rules adopted by the Auditor General pursuant to s. 11.45 and, upon completion of the audit, shall prepare an audit report in accordance with such rules. The audit report must include a written statement by the board of trustees describing corrective action to be taken in response to each of the recommendations of the independent auditor included in the audit report. The independent auditor shall submit the audit report to the board of trustees and the

522564

Auditor General no later than 9 months after the end of the preceding fiscal year.

(7) ~~(6)~~ The board of trustees shall annually submit to the Governor, the Legislature, the Commissioner of Education, and the State Board of Education the audit report prepared pursuant to subsection (6) and a complete and detailed report setting forth:

(a) The operations and accomplishments of the Florida Virtual School within the state and those occurring outside the state as Florida Virtual School Global.

(b) The marketing and operational plan for the Florida Virtual School and Florida Virtual School Global, including recommendations regarding methods for improving the delivery of education through the Internet and other distance learning technology.

(c) The assets and liabilities of the Florida Virtual School and Florida Virtual School Global at the end of the fiscal year.

~~(d) A copy of an annual financial audit of the accounts and records of the Florida Virtual School and Florida Virtual School Global, conducted by an independent certified public accountant and performed in accordance with rules adopted by the Auditor General.~~

(d) ~~(e)~~ Recommendations regarding the unit cost of providing services to students through the Florida Virtual School and Florida Virtual School Global. In order to most effectively develop public policy regarding any future funding of the Florida Virtual School, it is imperative that the cost of the program is accurately identified. The identified cost of the

522564

program must be based on reliable data.

(e)~~(f)~~ Recommendations regarding an accountability mechanism to assess the effectiveness of the services provided by the Florida Virtual School and Florida Virtual School Global.

Section 22. Subsection (5) is added to section 1010.01, Florida Statutes, to read:

1010.01 Uniform records and accounts.—

(5) Each school district, Florida College System institution, and state university shall establish and maintain internal controls designed to:

(a) Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

(b) Promote and encourage compliance with applicable laws, rules, contracts, grant agreements, and best practices.

(c) Support economical and efficient operations.

(d) Ensure reliability of financial records and reports.

(e) Safeguard assets.

Section 23. Subsection (2) of section 1010.30, Florida Statutes, is amended to read:

1010.30 Audits required.—

(2) If a school district, Florida College System institution, or university audit report includes a recommendation that was included in the preceding financial audit report but remains unaddressed ~~an audit contains a significant finding~~, the district school board, the Florida College System institution board of trustees, or the university board of trustees, within 60 days after the delivery of the audit report to the school district, Florida College System institution, or university, shall indicate ~~conduct an audit~~

522564

~~overview~~ during a regularly scheduled public meeting whether it intends to take corrective action, the intended corrective action, and the timeframe for the corrective action. If the district school board, Florida College System institution board of trustees, or university board of trustees indicates that it does not intend to take corrective action, it shall explain its decision at the public meeting.

Section 24. Section 1011.03, Florida Statutes, is amended to read:

1011.03 Public hearings; budget submissions; penalties ~~to be submitted to Department of Education~~.—

(1) Each district school board shall cause a summary of its tentative budget, including the proposed millage levies as provided for by law, to be posted on the district's official website and advertised once in a newspaper of general circulation published in the district or to be posted at the courthouse if there be no such newspaper.

(2) The advertisement of a district that has been required by the Legislature to increase classroom expenditures pursuant to s. 1011.64 must include the following statement:

"This proposed budget reflects an increase in classroom expenditures as a percent of total current operating expenditures of XX percent over the (previous fiscal year) fiscal year. This increase in classroom expenditures is required by the Legislature because the district has performed below the required performance standard on XX of XX student performance standards for the (previous school year) school year. In order to achieve the legislatively required level of classroom

522564

expenditures as a percentage of total operating expenditures, the proposed budget includes an increase in overall classroom expenditures of $XX,XXX,XXX above the amount spent for this same purpose during the (previous fiscal year) fiscal year. In order to achieve improved student academic performance, this proposed increase is being budgeted for the following activities: ...(list activities and amount budgeted)....”

(3) The advertisement shall appear adjacent to the advertisement required pursuant to s. 200.065. The State Board of Education may adopt rules necessary to provide specific requirements for the format of the advertisement.

(4) The board shall hold public hearings to adopt tentative and final budgets pursuant to s. 200.065. The hearings shall be primarily for the purpose of hearing requests and complaints from the public regarding the budgets and the proposed tax levies and for explaining the budget and proposed or adopted amendments thereto, if any. The tentative budget must be posted on the district’s official website at least 2 days before the budget hearing held pursuant to s. 200.065 or other law. The final adopted budget must be posted on the district’s official website within 30 days after adoption. The board shall require the superintendent to transmit two copies of the adopted budget to the Department of Education as prescribed by law and rules of the State Board of Education.

(5)(a) Beginning in the 2018-2019 fiscal year, the district school board budget officer shall electronically submit information regarding the final budget to the Office of Economic and Demographic Research in the format specified by the office within 30 days after adoption of the final budget. If the

522564

Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline for the final budget, the office may extend the deadline up to an additional 90 days. The district school board budget officer shall also electronically submit to the clerk of the court:

1. A copy of the information that was submitted to the office.

2. A copy of the final budget that was posted on the district school board's website.

3. A statement certifying that the items in subparagraphs 1. and 2. were timely submitted and posted.

(b) Beginning in the 2018-2019 fiscal year and notwithstanding any other penalty or remedy that may be authorized by law, if the district school board budget officer fails to submit information to the clerk of the court as required in paragraph (a), the clerk of the court shall notify the appropriate fiscal officer to suspend future salary payments for the superintendent of that district. The clerk shall notify the appropriate fiscal officer to resume payments when the clerk receives the information.

(6)~~(5)~~ If the governing body of a district amends the budget, the adopted amendment must be posted on the official website of the district within 5 days after adoption.

Section 25. Subsection (1) of section 1011.60, Florida Statutes, is amended to read:

1011.60 Minimum requirements of the Florida Education Finance Program.—Each district which participates in the state appropriations for the Florida Education Finance Program shall provide evidence of its effort to maintain an adequate school

522564

program throughout the district and shall meet at least the following requirements:

(1) ACCOUNTS AND REPORTS.—Maintain adequate and accurate records, including a system of internal accounts for individual schools, and file with the Department of Education, in correct and proper form on or before the date due as fixed by law or rule, each annual or periodic report that is required by rules of the State Board of Education. A district school board that submits an annual financial report to the department must also electronically submit to the clerk of the court a copy of the report with a statement certifying that the report was timely filed with the department.

Section 26. (1) By July 15, 2018, the Office of Economic and Demographic Research shall prepare forms for use by counties, municipalities, special districts, water management districts, and school districts when submitting information regarding their final budgets to the office. The forms must group existing fiscal information in broad yet meaningful categories, but should not create new reporting requirements.

(2) By December 1, 2018, the office shall submit a report to the President of the Senate and the Speaker of the House of Representatives that:

(a) Identifies a structure to create unique area profiles for the counties, municipalities, special districts, water management districts, and school districts which would assist the public in making simple direct comparisons between the distinct entities.

(b) Provides recommendations for metrics for ranking the reporting entities based on the final budget information

522564

submitted to the office. The metrics must allow the public to make direct comparisons between the different local governments.

(c) Provides recommendations for mechanisms to submit the information in this subsection to the public in a cost-effective manner.

Section 27. Subsection (16) of section 165.0615, Florida Statutes, is amended to read:

165.0615 Municipal conversion of independent special districts upon elector-initiated and approved referendum.—

(16) If the incorporation plan is approved by a majority of the votes cast in the independent special district, the district shall notify the Special District Accountability Program pursuant to s. 189.016(2) and the local general-purpose governments in which any part of the independent special district is situated pursuant to s. 189.016(8) ~~s. 189.016(7)~~.

Section 28. Subsections (1) and (2) of section 189.066, Florida Statutes, are amended to read:

189.066 Effect of failure to file certain reports or information.—

(1) If an independent special district fails to file the reports or information required under s. 189.014, s. 189.015, s. 189.016(10) ~~s. 189.016(9)~~, or s. 189.08 with the local general-purpose government or governments in which it is located, the person authorized to receive and read the reports or information or the local general-purpose government shall notify the district's registered agent. If requested by the district, the local general-purpose government shall grant an extension of up to 30 days for filing the required reports or information. If the governing body of the local general-purpose government or

522564

governments determines that there has been an unjustified failure to file these reports or information, it shall notify the department, and the department may proceed pursuant to s. 189.067(1).

(2) If a dependent special district fails to file the reports or information required under s. 189.014, s. 189.015, or s. 189.016(10) ~~s. 189.016(9)~~ with the local governing authority to which it is dependent, the local governing authority shall take whatever steps it deems necessary to enforce the special district's accountability. Such steps may include, as authorized, withholding funds, removing governing body members at will, vetoing the special district's budget, conducting the oversight review process set forth in s. 189.068, or amending, merging, or dissolving the special district in accordance with the provisions contained in the ordinance that created the dependent special district.

Section 29. Paragraph (e) of subsection (2) and paragraph (g) of subsection (3) of section 189.074, Florida Statutes, are amended to read:

189.074 Voluntary merger of independent special districts.—Two or more contiguous independent special districts created by special act which have similar functions and elected governing bodies may elect to merge into a single independent district through the act of merging the component independent special districts.

(2) JOINT MERGER PLAN BY RESOLUTION.—The governing bodies of two or more contiguous independent special districts may, by joint resolution, endorse a proposed joint merger plan to commence proceedings to merge the districts pursuant to this

section.

(e) After the final public hearing, the governing bodies shall notify the supervisors of elections of the applicable counties in which district lands are located of the adoption of the resolution by each governing body. The supervisors of elections shall schedule a separate referendum for each component independent special district. The referenda may be held in each district on the same day, or on different days, but no more than 20 days apart.

1. Notice of a referendum on the merger of independent special districts must be provided pursuant to the notice requirements in s. 100.342. At a minimum, the notice must include:

a. A brief summary of the resolution and joint merger plan;

b. A statement as to where a copy of the resolution and joint merger plan may be examined;

c. The names of the component independent special districts to be merged and a description of their territory;

d. The times and places at which the referendum will be held; and

e. Such other matters as may be necessary to call, provide for, and give notice of the referendum and to provide for the conduct thereof and the canvass of the returns.

2. The referenda must be held in accordance with the Florida Election Code and may be held pursuant to ss. 101.6101-101.6107. All costs associated with the referenda shall be borne by the respective component independent special district.

3. The ballot question in such referendum placed before the qualified electors of each component independent special

522564

district to be merged must be in substantially the following form:

"Shall ...(name of component independent special district)... and ...(name of component independent special district or districts)... be merged into ...(name of newly merged independent district)...?

....YES
....NO"

4. If the component independent special districts proposing to merge have disparate millage rates, the ballot question in the referendum placed before the qualified electors of each component independent special district must be in substantially the following form:

"Shall ...(name of component independent special district)... and ...(name of component independent special district or districts)... be merged into ...(name of newly merged independent district)... if the voter-approved maximum millage rate within each independent special district will not increase absent a subsequent referendum?

....YES
....NO"

5. In any referendum held pursuant to this section, the ballots shall be counted, returns made and canvassed, and

results certified in the same manner as other elections or referenda for the component independent special districts.

6. The merger may not take effect unless a majority of the votes cast in each component independent special district are in favor of the merger. If one of the component districts does not obtain a majority vote, the referendum fails, and merger does not take effect.

7. If the merger is approved by a majority of the votes cast in each component independent special district, the merged independent district is created. Upon approval, the merged independent district shall notify the Special District Accountability Program pursuant to s. 189.016(2) and the local general-purpose governments in which any part of the component independent special districts is situated pursuant to s. 189.016(8) ~~s. 189.016(7)~~.

8. If the referendum fails, the merger process under this subsection may not be initiated for the same purpose within 2 years after the date of the referendum.

(3) QUALIFIED ELECTOR-INITIATED MERGER PLAN.—The qualified electors of two or more contiguous independent special districts may commence a merger proceeding by each filing a petition with the governing body of their respective independent special district proposing to be merged. The petition must contain the signatures of at least 40 percent of the qualified electors of each component independent special district and must be submitted to the appropriate component independent special district governing body no later than 1 year after the start of the qualified elector-initiated merger process.

(g) After the final public hearing, the governing bodies

522564

shall notify the supervisors of elections of the applicable counties in which district lands are located of the adoption of the resolution by each governing body. The supervisors of elections shall schedule a date for the separate referenda for each district. The referenda may be held in each district on the same day, or on different days, but no more than 20 days apart.

1. Notice of a referendum on the merger of the component independent special districts must be provided pursuant to the notice requirements in s. 100.342. At a minimum, the notice must include:

a. A brief summary of the resolution and elector-initiated merger plan;

b. A statement as to where a copy of the resolution and petition for merger may be examined;

c. The names of the component independent special districts to be merged and a description of their territory;

d. The times and places at which the referendum will be held; and

e. Such other matters as may be necessary to call, provide for, and give notice of the referendum and to provide for the conduct thereof and the canvass of the returns.

2. The referenda must be held in accordance with the Florida Election Code and may be held pursuant to ss. 101.6101-101.6107. All costs associated with the referenda shall be borne by the respective component independent special district.

3. The ballot question in such referendum placed before the qualified electors of each component independent special district to be merged must be in substantially the following form:

522564

"Shall ...(name of component independent special district)... and ...(name of component independent special district or districts)... be merged into ...(name of newly merged independent district)...?

....YES
....NO"

4. If the component independent special districts proposing to merge have disparate millage rates, the ballot question in the referendum placed before the qualified electors of each component independent special district must be in substantially the following form:

"Shall ...(name of component independent special district)... and ...(name of component independent special district or districts)... be merged into ...(name of newly merged independent district)... if the voter-approved maximum millage rate within each independent special district will not increase absent a subsequent referendum?

....YES
....NO"

5. In any referendum held pursuant to this section, the ballots shall be counted, returns made and canvassed, and results certified in the same manner as other elections or referenda for the component independent special districts.

522564

6. The merger may not take effect unless a majority of the votes cast in each component independent special district are in favor of the merger. If one of the component independent special districts does not obtain a majority vote, the referendum fails, and merger does not take effect.

7. If the merger is approved by a majority of the votes cast in each component independent special district, the merged district shall notify the Special District Accountability Program pursuant to s. 189.016(2) and the local general-purpose governments in which any part of the component independent special districts is situated pursuant to s. 189.016(8) ~~s. 189.016(7)~~.

8. If the referendum fails, the merger process under this subsection may not be initiated for the same purpose within 2 years after the date of the referendum.

Section 30. Subsection (3) of section 218.503, Florida Statutes, is amended to read:

218.503 Determination of financial emergency.—

(3) Upon notification that one or more of the conditions in subsection (1) have occurred or will occur if action is not taken to assist the local governmental entity or district school board, the Governor or his or her designee shall contact the local governmental entity or the Commissioner of Education or his or her designee shall contact the district school board, as appropriate, to determine what actions have been taken by the local governmental entity or the district school board to resolve or prevent the condition. The information requested must be provided within 45 days after the date of the request. If the local governmental entity or the district school board does not

522564

comply with the request, the Governor or his or her designee or the Commissioner of Education or his or her designee shall notify ~~the members of~~ the Legislative Auditing Committee, which ~~who~~ may take action pursuant to s. 11.40(2) ~~s. 11.40~~. The Governor or the Commissioner of Education, as appropriate, shall determine whether the local governmental entity or the district school board needs state assistance to resolve or prevent the condition. If state assistance is needed, the local governmental entity or district school board is considered to be in a state of financial emergency. The Governor or the Commissioner of Education, as appropriate, has the authority to implement measures as set forth in ss. 218.50-218.504 to assist the local governmental entity or district school board in resolving the financial emergency. Such measures may include, but are not limited to:

(a) Requiring approval of the local governmental entity's budget by the Governor or approval of the district school board's budget by the Commissioner of Education.

(b) Authorizing a state loan to a local governmental entity and providing for repayment of same.

(c) Prohibiting a local governmental entity or district school board from issuing bonds, notes, certificates of indebtedness, or any other form of debt until such time as it is no longer subject to this section.

(d) Making such inspections and reviews of records, information, reports, and assets of the local governmental entity or district school board as are needed. The appropriate local officials shall cooperate in such inspections and reviews.

(e) Consulting with officials and auditors of the local

governmental entity or the district school board and the appropriate state officials regarding any steps necessary to bring the books of account, accounting systems, financial procedures, and reports into compliance with state requirements.

(f) Providing technical assistance to the local governmental entity or the district school board.

(g)1. Establishing a financial emergency board to oversee the activities of the local governmental entity or the district school board. If a financial emergency board is established for a local governmental entity, the Governor shall appoint board members and select a chair. If a financial emergency board is established for a district school board, the State Board of Education shall appoint board members and select a chair. The financial emergency board shall adopt such rules as are necessary for conducting board business. The board may:

a. Make such reviews of records, reports, and assets of the local governmental entity or the district school board as are needed.

b. Consult with officials and auditors of the local governmental entity or the district school board and the appropriate state officials regarding any steps necessary to bring the books of account, accounting systems, financial procedures, and reports of the local governmental entity or the district school board into compliance with state requirements.

c. Review the operations, management, efficiency, productivity, and financing of functions and operations of the local governmental entity or the district school board.

d. Consult with other governmental entities for the consolidation of all administrative direction and support

services, including, but not limited to, services for asset sales, economic and community development, building inspections, parks and recreation, facilities management, engineering and construction, insurance coverage, risk management, planning and zoning, information systems, fleet management, and purchasing.

2. The recommendations and reports made by the financial emergency board must be submitted to the Governor for local governmental entities or to the Commissioner of Education and the State Board of Education for district school boards for appropriate action.

(h) Requiring and approving a plan, to be prepared by officials of the local governmental entity or the district school board in consultation with the appropriate state officials, prescribing actions that will cause the local governmental entity or district school board to no longer be subject to this section. The plan must include, but need not be limited to:

1. Provision for payment in full of obligations outlined in subsection (1), designated as priority items, which are currently due or will come due.

2. Establishment of priority budgeting or zero-based budgeting in order to eliminate items that are not affordable.

3. The prohibition of a level of operations which can be sustained only with nonrecurring revenues.

4. Provisions implementing the consolidation, sourcing, or discontinuance of all administrative direction and support services, including, but not limited to, services for asset sales, economic and community development, building inspections, parks and recreation, facilities management, engineering and

522564

construction, insurance coverage, risk management, planning and zoning, information systems, fleet management, and purchasing.

Section 31. The Legislature finds that a proper and legitimate state purpose is served when internal controls are established to prevent and detect fraud, waste, and abuse and to safeguard and account for government funds and property. Therefore, the Legislature determines and declares that this act fulfills an important state interest.

Section 32. This act shall take effect July 1, 2018.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

An act relating to government accountability; amending s. 11.40, F.S.; requiring, rather than authorizing, the Legislative Auditing Committee to schedule hearings concerning certain governmental entities for failure to comply with certain financial audit requirements; amending s. 11.45, F.S.; defining the terms "abuse," "fraud," and "waste"; revising definitions; excluding water management districts from certain audit requirements; removing a cross-reference; authorizing the Auditor General to conduct audits of tourist development councils and county tourism promotion agencies; revising reporting requirements applicable to the Auditor General; amending s. 28.35, F.S.; revising reporting

522564

requirements applicable to the Florida Clerks of Court Operations Corporation; amending s. 43.16, F.S.; revising the responsibilities of the Justice Administrative Commission, each state attorney, each public defender, the criminal conflict and civil regional counsel, the capital collateral regional counsel, and the Guardian Ad Litem Program, to include the establishment and maintenance of certain internal controls; amending s. 112.061, F.S.; revising certain lodging rates for the purpose of reimbursement to specified employees; authorizing an employee to expend his or her funds for certain lodging expenses; defining the term "statewide travel management system"; requiring agencies and the judicial branch to report certain travel information of public officers and employees in the statewide travel management system; requiring executive branch state agencies and the judicial branch to use the statewide travel management system for certain purposes; amending ss. 129.03, 129.06, and 166.241, F.S.; requiring counties and municipalities to maintain certain budget documents on the entities' websites for a specified period; requiring county and municipality budget officers to submit certain budget information to specified entities within a certain timeframe; amending s. 189.016, F.S.; requiring special district budget officers to submit certain budget information to specified entities within a certain timeframe; amending s. 215.86, F.S.; revising the purposes for

522564

which management systems and internal controls must be established and maintained by each state agency and the judicial branch; amending s. 215.97, F.S.; revising certain audit threshold requirements; amending s. 215.985, F.S.; revising the requirements for a monthly financial statement provided by a water management district; amending s. 218.32, F.S.; revising certain reporting deadlines for an audit report and annual financial report of certain local governmental entities; providing an exception; prescribing duties of an independent certified public accountant in conducting an audit; providing legislative intent regarding the establishment of the Florida Open Financial Statement System; authorizing the Chief Financial Officer to consult with certain stakeholders for input on the design and implementation of the system; specifying requirements and procedures for the Chief Financial Officer in selecting and recruiting contractors for certain purposes; requiring the Chief Financial Officer to require completion of all work by a specified date; providing that if the Chief Financial Officer deems work products adequate, all local governmental financial statements pertaining to fiscal years ending on or after a specified date must meet certain requirements; providing for the suspension of salary payments to the head of a local governmental entity that does not submit certain financial information; authorizing the Department of Financial Services to

request additional information from a local governmental entity under certain circumstances; requiring a local governmental entity to comply with such requests within a specified timeframe; requiring the department to notify the Legislative Auditing Committee of noncompliance; authorizing the committee to take certain action; requiring the department to post annual financial reports for certain governmental entities on its website within a specified timeframe; amending s. 218.33, F.S.; requiring local governmental entities to establish and maintain internal controls to achieve specified purposes; amending s. 218.39, F.S.; requiring certain municipalities and special districts to have a certain audit performed beginning with a specified fiscal year; revising the deadline for an audit report; providing an exception; requiring the governing body of an audited entity to respond to audit recommendations under specified circumstances; amending s. 218.391, F.S.; revising membership for audit committees; prohibiting an audit committee member from being an employee, a chief executive officer, or a chief financial officer of the respective governmental entity; requiring an auditor to include certain information in a management letter; requiring the chair of a governmental entity's governing body to submit an affidavit containing certain information when the entity contracts with an auditor to conduct an audit; providing requirements and procedures for selecting an auditor; requiring the

Legislative Auditing Committee to determine whether a governmental entity should be subject to state action under certain circumstances; amending s. 286.0114, F.S.; prohibiting a board or commission from requiring an advance copy of testimony or comments from a member of the public as a precondition to being given the opportunity to be heard at a public meeting; amending s. 373.536, F.S.; deleting obsolete language; requiring water management districts to maintain certain budget documents on the districts' websites for a specified period; requiring district budget officers to submit certain budget information to specified entities within a certain timeframe; providing for the suspension of salary payments of a district executive director if the district does not submit such information; amending s. 1001.42, F.S.; authorizing additional internal audits as directed by the district school board; amending s. 1002.33, F.S.; revising the responsibilities of the governing board of a charter school to include the establishment and maintenance of internal controls; amending s. 1002.37, F.S.; requiring completion of an annual financial audit of the Florida Virtual School; specifying audit requirements; requiring an audit report to be submitted to the board of trustees of the Florida Virtual School and the Auditor General; deleting obsolete provisions; amending s. 1010.01, F.S.; requiring each school district, Florida College System institution, and state university to establish and

522564

maintain certain internal controls; amending s. 1010.30, F.S.; requiring a district school board, Florida College System institution board of trustees, or university board of trustees to respond to audit recommendations under certain circumstances; amending s. 1011.03, F.S.; requiring a district school board's budget officer to submit certain budget information to specified entities within a certain timeframe; providing for suspension of salary payments for a superintendent of a district that does not submit such information; amending s. 1011.60, F.S.; requiring district school boards that submit an annual financial report to the Department of Education to also electronically submit a copy to the clerk of the court; requiring the Office of Economic and Demographic Research to develop, by a specified date, certain forms for use by local governmental entities in reporting certain budget information; requiring the office to submit a report to the Legislature by a specified date; providing requirements for the report; amending ss. 165.0615, 189.066, 189.074, and 218.503, F.S.; conforming provisions and cross-references to changes made by the act; declaring that the act fulfills an important state interest; providing an effective date.

	.	
	.	
	.	

The Committee on Appropriations (Bradley) recommended the following:

Senate Amendment to Amendment (522564)

Delete lines 362 - 574
and insert:
(d)1. Beginning in the 2018-2019 fiscal year, the county budget officer shall electronically submit information regarding the final budget to the Office of Economic and Demographic Research in the format specified by the office within 30 days after adoption of the final budget. If the Governor declares a state of emergency pursuant to s. 252.36(2) within 30 days after

104016

the submission deadline, the office may extend the deadline up to an additional 90 days.

2. The county budget officer shall also electronically submit to the clerk of the court:

a. A copy of the information that was submitted to the office.

b. A copy of the final budget that was posted on the county's website.

c. A statement certifying that the items in sub-subparagraphs a. and b. were timely submitted and posted.

3. Subparagraph 2. does not apply to a charter county in which the clerk of the court is not the county auditor.

Section 7. Paragraph (f) of subsection (2) of section 129.06, Florida Statutes, is amended to read:

129.06 Execution and amendment of budget.—

(2) The board at any time within a fiscal year may amend a budget for that year, and may within the first 60 days of a fiscal year amend the budget for the prior fiscal year, as follows:

(f) Unless otherwise prohibited by law, if an amendment to a budget is required for a purpose not specifically authorized in paragraphs (a)-(e), the amendment may be authorized by resolution or ordinance of the board of county commissioners adopted following a public hearing.

1. The public hearing must be advertised at least 2 days, but not more than 5 days, before the date of the hearing. The advertisement must appear in a newspaper of paid general circulation and must identify the name of the taxing authority, the date, place, and time of the hearing, and the purpose of the

hearing. The advertisement must also identify each budgetary fund to be amended, the source of the funds, the use of the funds, and the total amount of each fund's appropriations.

2. If the board amends the budget pursuant to this paragraph, the adopted amendment must be posted on the county's official website within 5 days after adoption and must remain on the website for at least 2 years.

Section 8. Present subsections (4) and (5) of section 166.241, Florida Statutes, are renumbered as subsections (5) and (6), respectively, subsection (3) and present subsection (5) are amended, and a new subsection (4) is added to that section, to read:

166.241 Fiscal years, budgets, and budget amendments.—

(3) The tentative budget must be posted on the municipality's official website at least 2 days before the budget hearing, held pursuant to s. 200.065 or other law, to consider such budget and must remain on the website for at least 45 days. The final adopted budget must be posted on the municipality's official website within 30 days after adoption and must remain on the website for at least 2 years. If the municipality does not operate an official website, the municipality must, within a reasonable period of time as established by the county or counties in which the municipality is located, transmit the tentative budget and final budget to the manager or administrator of such county or counties who shall post the budgets on the county's website.

(4) Beginning in the 2018-2019 fiscal year, the municipality budget officer shall electronically submit information regarding the final budget to the Office of Economic

104016

and Demographic Research in the format specified by the office within 30 days after adoption of the final budget. If the Governor declares a state of emergency pursuant to s. 252.36(2) within 30 days after the submission deadline, the office may extend the deadline up to an additional 90 days. The municipality budget officer shall also electronically submit to the clerk of the court:

(a) A copy of the information that was submitted to the office.

(b) A copy of the final budget that was posted on the municipality's website.

(c) A statement certifying that the items in paragraphs (a) and (b) were timely submitted and posted.

(6) ~~(5)~~ If the governing body of a municipality amends the budget pursuant to paragraph (5)(c) ~~(4)(c)~~, the adopted amendment must be posted on the official website of the municipality within 5 days after adoption and must remain on the website for at least 2 years. If the municipality does not operate an official website, the municipality must, within a reasonable period of time as established by the county or counties in which the municipality is located, transmit the adopted amendment to the manager or administrator of such county or counties who shall post the adopted amendment on the county's website.

Section 9. Present subsections (5) through (10) of section 189.016, Florida Statutes, are renumbered as subsections (6) through (11), respectively, present subsections (7) and (10) are amended, and a new subsection (5) is added to that section, to read:

189.016 Reports; budgets; audits.—

(5) Beginning in the 2018-2019 fiscal year, the special district budget officer shall electronically submit information regarding the final budget to the Office of Economic and Demographic Research in the format specified by the office within 30 days after adoption of the final budget. If the Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline for the final budget, the office may extend the deadline up to an additional 90 days. The special district budget officer shall also electronically submit to the clerk of the court:

(a) A copy of the information that was submitted to the office.

(b) A copy of the final budget that was posted on the special district's website.

(c) A statement certifying that the items in paragraphs (a) and (b) were timely submitted and posted.

(8)~~(7)~~ If the governing body of a special district amends the budget pursuant to paragraph (7)(c) ~~(6)(c)~~, the adopted amendment must be posted on the official website of the special district within 5 days after adoption and must remain on the website for at least 2 years.

(11)~~(10)~~ All reports or information required to be filed with a local general-purpose government or governing authority under ss. 189.014, 189.015, and 189.08 and subsection (9) ~~(8)~~ must:

(a) If the local general-purpose government or governing authority is a county, be filed with the clerk of the board of county commissioners.

104016

(b) If the district is a multicounty district, be filed with the clerk of the county commission in each county.

(c) If the local general-purpose government or governing authority is a municipality, be filed at the place designated by the municipal governing body.

Section 10. Section 215.86, Florida Statutes, is amended to read:

215.86 Management systems and controls.—Each state agency and the judicial branch as defined in s. 216.011 shall establish and maintain management systems and internal controls designed to:

(1) Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1). ~~that~~

(2) Promote and encourage compliance with applicable laws, rules, contracts, and grant agreements.~~;~~

(3) Support economical and ~~economic,~~ efficient~~, and effective~~ operations.~~;~~

(4) Ensure reliability of financial records and reports.~~;~~

(5) Safeguard ~~and safeguarding of~~ assets. ~~Accounting systems and procedures shall be designed to fulfill the requirements of generally accepted accounting principles.~~

Section 11. Paragraph (a) of subsection (2) of section 215.97, Florida Statutes, is amended to read:

215.97 Florida Single Audit Act.—

(2) As used in this section, the term:

(a) "Audit threshold" means the threshold amount used to determine when a state single audit or project-specific audit of a nonstate entity shall be conducted in accordance with this section. Each nonstate entity that expends a total amount of

104016

state financial assistance equal to or in excess of $750,000 in any fiscal year of such nonstate entity shall be required to have a state single audit~~,~~ or a project-specific audit~~,~~ for such fiscal year in accordance with the requirements of this section. ~~Every 2 years the Auditor General,~~ After consulting with the Executive Office of the Governor, the Department of Financial Services, and all state awarding agencies, the Auditor General shall periodically review the threshold amount for requiring audits under this section and may recommend any appropriate statutory change to revise the threshold amount in the annual report submitted pursuant to s. 11.45(7)(h) to the Legislature ~~adjust such threshold amount consistent with the purposes of this section~~.

Section 12. Subsection (11) of section 215.985, Florida Statutes, is amended to read:

215.985 Transparency in government spending.—

(11) Each water management district shall provide a monthly financial statement in the form and manner prescribed by the Department of Financial Services to the district's ~~its~~ governing board and make such monthly financial statement available for public access on its website.

Section 13. Section 218.32, Florida Statutes, is amended to read:

218.32 Annual financial reports; local governmental entities; Florida Open Financial Statement System.—

(1)(a) Each local governmental entity that is determined to be a reporting entity, as defined by generally accepted accounting principles, and each independent special district as defined in s. 189.012, shall submit to the department a copy of

104016

its annual financial report for the previous fiscal year in a format prescribed by the department. The annual financial report must include a list of each local governmental entity included in the report and each local governmental entity that failed to provide financial information as required by paragraph (b). The chair of the governing body and the chief financial officer of each local governmental entity shall sign the annual financial report submitted pursuant to this subsection attesting to the accuracy of the information included in the report. The county annual financial report must be a single document that covers each county agency.

(b) Each component unit, as defined by generally accepted accounting principles, of a local governmental entity shall provide the local governmental entity, within a reasonable time period as established by the local governmental entity, with financial information necessary to comply with the reporting requirements contained in this section.

(c) Each regional planning council created under s. 186.504, each local government finance commission, board, or council, and each municipal power corporation created as a separate legal or administrative entity by interlocal agreement under s. 163.01(7) shall submit to the department a copy of its audit report and an annual financial report for the previous fiscal year in a format prescribed by the department.

(d)1. Each local governmental entity that is required to provide for an audit under s. 218.39(1) must submit a copy of the audit report and annual financial report to the department within 45 days after the completion of the audit report but no later than 6 ~~9~~ months after the end of the fiscal year. If the

104016

Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline for the audit report and annual financial report, the department may extend the deadline up to an additional 90 days.

2. The local governmental entity must electronically submit to the clerk of the court a copy of its annual financial report and a statement certifying that the report was timely filed with the department.

3. Subparagraph 2. does not apply to a charter county in which the clerk of the court is not the county auditor.

	.	

The Committee on Appropriations (Stargel) recommended the following:

Senate Amendment to Amendment (522564) (with title amendment)

Delete lines 779 - 947
and insert:
career center may not serve as a voting member of an audit committee established under this subsection but may serve in a nonvoting advisory capacity.

(d) At least one member of the audit committee should have experience in finance, business, or government operations.

(e) The primary purpose of the audit committee is to assist the governing body in selecting an auditor to conduct the annual financial audit required in s. 218.39; however, the audit committee may serve other audit oversight purposes as determined by the entity's governing body. The public may ~~shall~~ not be excluded from the proceedings under this section.

(9) For each audit required by s. 218.39, the auditor shall include the following information in the management letter prepared pursuant to s. 218.39(4):

(a) The date the entity's governing body approved the selection of the auditor and the date the entity and the auditor executed the most recent contract pursuant to subsection (7);

(b) The first fiscal year for which the auditor conducted the audit under the most recently executed contract pursuant to subsection (7); and

(c) The contract period, including renewals, and conditions under which the contract may be terminated or renewed.

(10) On each occasion that an entity contracts with an auditor to conduct an audit pursuant to s. 218.39, an affidavit shall be executed by the chair of the entity's governing body in a format prescribed in accordance with rules adopted by the Auditor General, affirming that the auditor was selected in compliance with the requirements of subsections (3)-(6). The affidavit must, as a separate document, accompany the entity's first audit report prepared by the auditor under the most recently executed contract pursuant to subsection (7). The affidavit shall include the following information:

(a) The date the entity's governing body approved the selection of the auditor;

(b) The first fiscal year for which the auditor conducted the audit; and

(c) The contract period, including renewals, and conditions under which the contract may be terminated or renewed.

(11) If the entity fails to select the auditor in accordance with the requirements of subsections (3)-(6), the entity shall again perform the auditor selection process in accordance with this section to select an auditor to conduct audits for subsequent fiscal years if the original audit was performed under a multiyear contract.

(a) If performing the auditor selection process again in accordance with this section would preclude the entity from timely completing the annual financial audit required by s. 218.39, the entity shall again perform the auditor selection process in accordance with this section for the subsequent annual financial audit. A multiyear contract entered into between an entity and an auditor after the effective date of this act may not prohibit or restrict an entity from complying with the section.

(b) If the entity fails to perform the auditor selection process again, pursuant to this subsection, the Legislative Auditing Committee shall determine whether the entity should be subject to state action pursuant to s. 11.40(2).

(12) If the entity fails to provide the Auditor General with the affidavit required by subsection (10), the Auditor General shall request that the entity provide the affidavit. The affidavit must be provided within 45 days after the date of the request. If the entity does not comply with the Auditor General’s request, the Legislative Auditing Committee shall

determine whether the entity should be subject to state action pursuant to s. 11.40(2).

(13) If the entity provides the Auditor General with the affidavit required in subsection (10) but failed to select the auditor in accordance with the requirements of subsections (3)-(6), the Legislative Auditing Committee shall determine whether the entity should be subject to state action pursuant to s. 11.40(2).

Section 17. Subsection (2) of section 286.0114, Florida Statutes, is amended to read:

286.0114 Public meetings; reasonable opportunity to be heard; attorney fees.—

(2) Members of the public shall be given a reasonable opportunity to be heard on a proposition before a board or commission. The opportunity to be heard need not occur at the same meeting at which the board or commission takes official action on the proposition if the opportunity occurs at a meeting that is during the decisionmaking process and is within reasonable proximity in time before the meeting at which the board or commission takes the official action. A board or commission may not require a member of the public to provide an advance written copy of his or her testimony or comments as a condition of being given the opportunity to be heard at a meeting. This section does not prohibit a board or commission from maintaining orderly conduct or proper decorum in a public meeting. The opportunity to be heard is subject to rules or policies adopted by the board or commission, as provided in subsection (4).

Section 18. Paragraph (e) of subsection (4), paragraph (d)

of subsection (5), and paragraph (d) of subsection (6) of section 373.536, Florida Statutes, are amended, and paragraphs (e) and (f) are added to subsection (6) of that section, to read:

373.536 District budget and hearing thereon.—

(4) BUDGET CONTROLS; FINANCIAL INFORMATION.—

(e) ~~By September 1, 2012,~~ Each district shall provide a monthly financial statement in the form and manner prescribed by the Department of Financial Services to the district's governing board and make such monthly financial statement available for public access on its website.

(5) TENTATIVE BUDGET CONTENTS AND SUBMISSION; REVIEW AND APPROVAL.—

(d) Each district shall, by August 1 of each year, submit for review a tentative budget and a description of any significant changes from the preliminary budget submitted to the Legislature pursuant to s. 373.535 to the Governor, the President of the Senate, the Speaker of the House of Representatives, the chairs of all legislative committees and subcommittees having substantive or fiscal jurisdiction over water management districts, as determined by the President of the Senate or the Speaker of the House of Representatives, as applicable, the secretary of the department, and the governing body of each county in which the district has jurisdiction or derives any funds for the operations of the district. The tentative budget must be posted on the district's official website at least 2 days before budget hearings held pursuant to s. 200.065 or other law and must remain on the website for at least 45 days.

(6) FINAL BUDGET; ANNUAL AUDIT; CAPITAL IMPROVEMENTS PLAN; WATER RESOURCE DEVELOPMENT WORK PROGRAM.—

(d) The final adopted budget must be posted on the water management district's official website within 30 days after adoption and must remain on the website for at least 2 years.

(e) Beginning in the 2018-2019 fiscal year, the water management district budget officer shall electronically submit information regarding the final budget to the Office of Economic and Demographic Research in the format specified by the office within 30 days after adoption of the final budget. If the Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline, the office may extend the deadline up to an additional 90 days. The water management district budget officer shall also electronically submit to the clerk of the court in each county in which the district operates:

1. A copy of the information that was submitted to the office.

2. A copy of the final budget that was posted on the water management district's website.

3. A statement certifying that the items in subparagraphs 1. and 2. were timely submitted and posted.

(f) Beginning in the 2018-2019 fiscal year and notwithstanding any other penalty or remedy that may be authorized by law, if a water management district budget officer fails to submit information to the clerk of the court as required in paragraph (e), the clerk of the court shall notify the appropriate fiscal officer to suspend future salary payments for the executive director of that district. The clerk shall

110202

notify the fiscal officer to resume payments when the clerk receives the information.

Section 19. Paragraphs (b) and (l) of subsection (12) of section 1001.42, Florida Statutes, are amended to read:

1001.42 Powers and duties of district school board.—The district school board, acting as a board, shall exercise all powers and perform all duties listed below:

(12) FINANCE.—Take steps to assure students adequate educational facilities through the financial procedure authorized in chapters 1010 and 1011 and as prescribed below:

(b) *Annual budget.*—

1. Cause to be prepared, adopt, and have submitted to the Department of Education as required by law and rules of the State Board of Education, the annual school budget, such budget to be so prepared and executed as to promote the improvement of the district school system.

2. An individual school board member may request and shall receive any proposed, tentative, and official budget documents, including all supporting and background information.

(l) *Internal auditor.*—May or, in the case of a school district receiving annual federal, state, and local funds in excess of $500 million, shall employ an internal auditor. The scope of the internal auditor may not be restricted and must include every functional and program area of the school system.

1. The internal auditor shall ~~to~~ perform ongoing financial verification of the financial records of the school district, a comprehensive risk assessment of all areas of the school system every 5 years, and other audits and reviews as the district school board directs for determining:

110202

a. The adequacy of internal controls designed to prevent and detect fraud, waste, and abuse.

b. Compliance with applicable laws, rules, contracts, grant agreements, district school board-approved policies, and best practices.

c. The efficiency of operations.

d. The reliability of financial records and reports.

e. The safeguarding of assets.

f. Financial solvency.

g. Projected revenues and expenditures.

h. The rate of change in the general fund balance.

2. The internal auditor shall prepare audit reports of his or her findings and report directly to the district school board or its designee.

3. Any person responsible for furnishing or producing any book, record, paper, document, data, or sufficient information necessary to conduct a proper audit or examination which the internal auditor is by law authorized to perform is subject to the provisions of s. 11.47(3) and (4).

Delete lines 311 - 333
and insert:
(9) RULES.—
(c) The Department of Management Services may adopt rules to administer the provisions of this section relating to the statewide travel management system.
(16) STATEWIDE TRAVEL MANAGEMENT SYSTEM.—

703092

(a) For purposes of this subsection, the term:

1. "Local constitutional officer" includes sheriffs, tax collectors, property appraisers, supervisors of elections, clerks of the circuit court, county commissioners, district school board members, and superintendents of schools.

2. "Reporting entity" includes each municipality, county, local constitutional officer, county school district, state college, state university, and water management district.

3. "Statewide travel management system" means the system used by the Department of Management Services to:

a. Collect and store information relating to public officer or employee travel information.

b. Standardize and automate agency travel management.

c. Allow for travel planning and approval, expense reporting, and reimbursement.

d. Allow travel information queries.

(b) Each executive branch state government agency and the judicial branch must report on the statewide travel management system all public officer and employee travel information, including, but not limited to, name and position title, purpose of travel, dates and location of travel, mode of travel, confirmation from the head of the agency or designee authorization if required, and total travel cost.

1. Each executive branch state government agency and the judicial branch must use the statewide travel management system for purposes of travel authorization and reimbursement.

2. By November 1, 2018, the Department of Management Services shall make available to the public all travel reports posted on the statewide travel management system for executive

703092

branch state government agencies and the judicial branch.

(c) Each reporting entity must post on the statewide travel management system information relating to all travel resulting in an overnight stay for public officers and employees, including, but not limited to, name and position title, purpose of travel, dates and location of travel, mode of travel, and total travel costs.

1. Each reporting entity shall post one travel report per entity. A local constitutional officer may post a separate travel report from the respective county travel report.

2. Every month, each reporting entity shall post a travel report for the previous month.

3. The Department of Management Services shall provide a format and method for reporting entities to post travel reports.

4. No later than November 1, 2019, each reporting entity shall post monthly travel reports relating to all travel resulting in an overnight stay for public officers and employees.

5. Beginning December 1, 2019, the Department of Management Services shall make available to the public all travel reports for reporting entities which are in the statewide travel management system.

6. The requirements of this paragraph are contingent upon the Legislature appropriating at least $5.4 million to the Department of Management Services for the 2018-2019 fiscal year to implement the system for the reporting entities.

(d) Travel reports made available on the statewide travel management system may not reveal information made confidential and exempt or exempt by law.

703092

1. A reporting entity must redact confidential and exempt or exempt information from a travel report before posting the report on the statewide travel management system. If the reporting entity becomes aware that an improperly redacted travel report has been posted, the entity must notify the Department of Management Services and immediately request removal of the travel report from the statewide travel management system. Within 7 business days of becoming aware that an improperly redacted travel report has been posted, the entity must post a properly redacted travel report on the statewide travel management system.

2. The Secretary of Management Services or an officer, an employee, or a contractor of the department is not responsible for redacting confidential and exempt or exempt information from a travel report posted on the statewide travel management system.

3. The posting of travel reports on the statewide travel management system or the provision of information on a website for public viewing and downloading does not supersede the duty of a reporting entity to respond to a public records request or subpoena for the information.

Section 6. The Legislature finds that a proper and legitimate state purpose is served when the travel records of state and local employees are transparent to members of the public. Therefore, the Legislature determines and declares that this act fulfills an important state interest.

recommendations under specified circumstances; amending s. 218.391, F.S.; revising membership for the audit committee; prohibiting an audit committee member from being an employee, a chief executive officer, or a chief financial officer of the respective governmental entity; requiring an auditor to include certain information in a management letter; requiring the chair of a governmental entity's governing body to submit an affidavit containing certain information when the entity contracts with an auditor to conduct an audit; providing requirements and procedures for selecting an auditor; requiring the Legislative Auditing Committee to determine whether a governmental entity should be subject to state action under certain circumstances; amending s. 286.0114, F.S.; prohibiting a board or commission from requiring an advance copy of testimony or comments from a member of the public as a precondition to being given the opportunity to be heard at a public meeting; amending s. 373.536, F.S.; deleting obsolete language; requiring water management districts to maintain certain budget documents on the districts' websites for a specified period; amending s. 1001.42, F.S.; authorizing additional internal audits as directed by the district school board; amending s. 1002.33, F.S.; revising the responsibilities of the governing board of a charter school to include the establishment and maintenance of internal controls; amending s. 1002.37, F.S.; requiring completion of an annual financial audit of

the Florida Virtual School; specifying audit requirements; requiring an audit report to be submitted to the board of trustees of the Florida Virtual School and the Auditor General; deleting obsolete provisions; amending s. 1010.01, F.S.; requiring each school district, Florida College System institution, and state university to establish and maintain certain internal controls; amending s. 1010.30, F.S.; requiring a district school board, Florida College System institution board of trustees, or university board of trustees to respond to audit recommendations under certain circumstances; amending s. 218.503, F.S.; conforming provisions and cross-references to changes made by the act; declaring that the act fulfills an important state interest; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (2) of section 11.40, Florida Statutes, is amended to read:

11.40 Legislative Auditing Committee.—

(2) Following notification by the Auditor General, the Department of Financial Services, ~~or~~ the Division of Bond Finance of the State Board of Administration, the Governor or his or her designee, or the Commissioner of Education or his or her designee of the failure of a local governmental entity, district school board, charter school, or charter technical career center to comply with the applicable provisions within s.

11.45(5)-(7), s. 218.32(1), s. 218.38, or s. 218.503(3), the Legislative Auditing Committee may schedule a hearing to determine if the entity should be subject to further state action. If the committee determines that the entity should be subject to further state action, the committee shall:

(a) In the case of a local governmental entity or district school board, direct the Department of Revenue and the Department of Financial Services to withhold any funds not pledged for bond debt service satisfaction which are payable to such entity until the entity complies with the law. The committee shall specify the date that such action must ~~shall~~ begin, and the directive must be received by the Department of Revenue and the Department of Financial Services 30 days before the date of the distribution mandated by law. The Department of Revenue and the Department of Financial Services may implement ~~the provisions of~~ this paragraph.

(b) In the case of a special district created by:

1. A special act, notify the President of the Senate, the Speaker of the House of Representatives, the standing committees of the Senate and the House of Representatives charged with special district oversight as determined by the presiding officers of each respective chamber, the legislators who represent a portion of the geographical jurisdiction of the special district, and the Department of Economic Opportunity that the special district has failed to comply with the law. Upon receipt of notification, the Department of Economic Opportunity shall proceed pursuant to s. 189.062 or s. 189.067. If the special district remains in noncompliance after the process set forth in s. 189.0651, or if a public hearing is not

held, the Legislative Auditing Committee may request the department to proceed pursuant to s. 189.067(3).

2. A local ordinance, notify the chair or equivalent of the local general-purpose government pursuant to s. 189.0652 and the Department of Economic Opportunity that the special district has failed to comply with the law. Upon receipt of notification, the department shall proceed pursuant to s. 189.062 or s. 189.067. If the special district remains in noncompliance after the process set forth in s. 189.0652, or if a public hearing is not held, the Legislative Auditing Committee may request the department to proceed pursuant to s. 189.067(3).

3. Any manner other than a special act or local ordinance, notify the Department of Economic Opportunity that the special district has failed to comply with the law. Upon receipt of notification, the department shall proceed pursuant to s. 189.062 or s. 189.067(3).

(c) In the case of a charter school or charter technical career center, notify the appropriate sponsoring entity, which may terminate the charter pursuant to ss. 1002.33 and 1002.34.

Section 2. Subsection (1), paragraph (j) of subsection (2), paragraph (u) of subsection (3), and paragraph (i) of subsection (7) of section 11.45, Florida Statutes, are amended, and paragraph (x) is added to subsection (3) of that section, to read:

11.45 Definitions; duties; authorities; reports; rules.—

(1) DEFINITIONS.—As used in ss. 11.40-11.51, the term:

(a) "Abuse" means behavior that is deficient or improper when compared with behavior that a prudent person would consider a reasonable and necessary operational practice given the facts

and circumstances. The term includes the misuse of authority or position for personal gain.

(b) ~~(a)~~ "Audit" means a financial audit, operational audit, or performance audit.

(c) ~~(b)~~ "County agency" means a board of county commissioners or other legislative and governing body of a county, however styled, including that of a consolidated or metropolitan government, a clerk of the circuit court, a separate or ex officio clerk of the county court, a sheriff, a property appraiser, a tax collector, a supervisor of elections, or any other officer in whom any portion of the fiscal duties of a body or officer expressly stated in this paragraph are ~~the above are under law~~ separately placed by law.

(d) ~~(c)~~ "Financial audit" means an examination of financial statements in order to express an opinion on the fairness with which they are presented in conformity with generally accepted accounting principles and an examination to determine whether operations are properly conducted in accordance with legal and regulatory requirements. Financial audits must be conducted in accordance with auditing standards generally accepted in the United States and government auditing standards as adopted by the Board of Accountancy. When applicable, the scope of financial audits must ~~shall~~ encompass the additional activities necessary to establish compliance with the Single Audit Act Amendments of 1996, 31 U.S.C. ss. 7501-7507, and other applicable federal law.

(e) "Fraud" means obtaining something of value through willful misrepresentation, including, but not limited to, the intentional misstatements or intentional omissions of amounts or

disclosures in financial statements to deceive users of financial statements, theft of an entity's assets, bribery, or the use of one's position for personal enrichment through the deliberate misuse or misapplication of an organization's resources.

(f) ~~(d)~~ "Governmental entity" means a state agency, a county agency, or any other entity, however styled, that independently exercises any type of state or local governmental function.

(g) ~~(e)~~ "Local governmental entity" means a county agency, municipality, tourist development council, county tourism promotion agency, or special district as defined in s. 189.012. The term~~, but~~ does not include any housing authority established under chapter 421.

(h) ~~(f)~~ "Management letter" means a statement of the auditor's comments and recommendations.

(i) ~~(g)~~ "Operational audit" means an audit whose purpose is to evaluate management's performance in establishing and maintaining internal controls, including controls designed to prevent and detect fraud, waste, and abuse, and in administering assigned responsibilities in accordance with applicable laws, administrative rules, contracts, grant agreements, and other guidelines. Operational audits must be conducted in accordance with government auditing standards. Such audits examine internal controls that are designed and placed in operation to promote and encourage the achievement of management's control objectives in the categories of compliance, economic and efficient operations, reliability of financial records and reports, and safeguarding of assets, and identify weaknesses in those internal controls.

(j) ~~(h)~~ "Performance audit" means an examination of a program, activity, or function of a governmental entity, conducted in accordance with applicable government auditing standards or auditing and evaluation standards of other appropriate authoritative bodies. The term includes an examination of issues related to:

1. Economy, efficiency, or effectiveness of the program.

2. Structure or design of the program to accomplish its goals and objectives.

3. Adequacy of the program to meet the needs identified by the Legislature or governing body.

4. Alternative methods of providing program services or products.

5. Goals, objectives, and performance measures used by the agency to monitor and report program accomplishments.

6. The accuracy or adequacy of public documents, reports, or requests prepared under the program by state agencies.

7. Compliance of the program with appropriate policies, rules, or laws.

8. Any other issues related to governmental entities as directed by the Legislative Auditing Committee.

(k) ~~(i)~~ "Political subdivision" means a separate agency or unit of local government created or established by law and includes, but is not limited to, the following and the officers thereof: authority, board, branch, bureau, city, commission, consolidated government, county, department, district, institution, metropolitan government, municipality, office, officer, public corporation, town, or village.

(l) ~~(j)~~ "State agency" means a separate agency or unit of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

state government created or established by law and includes, but is not limited to, the following and the officers thereof: authority, board, branch, bureau, commission, department, division, institution, office, officer, or public corporation, as the case may be, except any such agency or unit within the legislative branch of state government other than the Florida Public Service Commission.

(m) "Waste" means the act of using or expending resources unreasonably, carelessly, extravagantly, or for no useful purpose.

(2) DUTIES.—The Auditor General shall:

(j) Conduct audits of local governmental entities when determined to be necessary by the Auditor General, when directed by the Legislative Auditing Committee, or when otherwise required by law. No later than 18 months after the release of the audit report, the Auditor General shall perform such appropriate followup procedures as he or she deems necessary to determine the audited entity's progress in addressing the findings and recommendations contained within the Auditor General's previous report. The Auditor General shall notify each member of the audited entity's governing body and the Legislative Auditing Committee of the results of his or her determination. For purposes of this paragraph, local governmental entities do not include water management districts.

The Auditor General shall perform his or her duties independently but under the general policies established by the Legislative Auditing Committee. This subsection does not limit the Auditor General's discretionary authority to conduct other

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

audits or engagements of governmental entities as authorized in subsection (3).

(3) AUTHORITY FOR AUDITS AND OTHER ENGAGEMENTS.—The Auditor General may, pursuant to his or her own authority, or at the direction of the Legislative Auditing Committee, conduct audits or other engagements as determined appropriate by the Auditor General of:

(u) The Florida Virtual School ~~pursuant to s. 1002.37~~.

(x) Tourist development councils and county tourism promotion agencies.

(7) AUDITOR GENERAL REPORTING REQUIREMENTS.—

(i) The Auditor General shall annually transmit by July 15, to the President of the Senate, the Speaker of the House of Representatives, and the Department of Financial Services, a list of all school districts, charter schools, charter technical career centers, Florida College System institutions, state universities, and local governmental entities ~~water management districts~~ that have failed to comply with the transparency requirements as identified in the audit reports reviewed pursuant to paragraph (b) and those conducted pursuant to subsection (2).

Section 3. Paragraph (d) of subsection (2) of section 28.35, Florida Statutes, is amended to read:

28.35 Florida Clerks of Court Operations Corporation.—

(2) The duties of the corporation shall include the following:

(d) Developing and certifying a uniform system of workload measures and applicable workload standards for court-related functions as developed by the corporation and clerk workload

performance in meeting the workload performance standards. These workload measures and workload performance standards shall be designed to facilitate an objective determination of the performance of each clerk in accordance with minimum standards for fiscal management, operational efficiency, and effective collection of fines, fees, service charges, and court costs. The corporation shall develop the workload measures and workload performance standards in consultation with the Legislature. When the corporation finds a clerk has not met the workload performance standards, the corporation shall identify the nature of each deficiency and any corrective action recommended and taken by the affected clerk of the court. For quarterly periods ending on the last day of March, June, September, and December of each year, the corporation shall notify the Legislature of any clerk not meeting workload performance standards and provide a copy of any corrective action plans. Such notifications shall be submitted no later than 45 days after the end of the preceding quarterly period. As used in this subsection, the term:

1. "Workload measures" means the measurement of the activities and frequency of the work required for the clerk to adequately perform the court-related duties of the office as defined by the membership of the Florida Clerks of Court Operations Corporation.

2. "Workload performance standards" means the standards developed to measure the timeliness and effectiveness of the activities that are accomplished by the clerk in the performance of the court-related duties of the office as defined by the membership of the Florida Clerks of Court Operations

Corporation.

Section 4. Present subsections (6) and (7) of section 43.16, Florida Statutes, are renumbered as subsections (7) and (8), respectively, and a new subsection (6) is added to that section, to read:

43.16 Justice Administrative Commission; membership, powers and duties.—

(6) The commission, each state attorney, each public defender, the criminal conflict and civil regional counsel, the capital collateral regional counsel, and the Guardian Ad Litem Program shall establish and maintain internal controls designed to:

(a) Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

(b) Promote and encourage compliance with applicable laws, rules, contracts, grant agreements, and best practices.

(c) Support economical and efficient operations.

(d) Ensure reliability of financial records and reports.

(e) Safeguard assets.

Section 5. Subsection (6) of section 112.061, Florida Statutes, is amended, and subsection (16) is added to that section, to read:

112.061 Per diem and travel expenses of public officers, employees, and authorized persons.—

(6) RATES OF PER DIEM AND SUBSISTENCE ALLOWANCE.—For purposes of reimbursement rates and methods of calculation, per diem and subsistence allowances are provided as follows:

(a) All travelers shall be allowed for subsistence when traveling to a convention or conference or when traveling within

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

or outside the state in order to conduct bona fide state business, which convention, conference, or business serves a direct and lawful public purpose with relation to the public agency served by the person attending such meeting or conducting such business, either of the following for each day of such travel at the option of the traveler:

1. Eighty dollars per diem; or

2. If actual expenses exceed $80, the amounts permitted in paragraph (b) for subsistence, plus actual expenses for lodging at a single-occupancy rate, except as provided in paragraph (c), to be substantiated by paid bills therefor.

When lodging or meals are provided at a state institution, the traveler shall be reimbursed only for the actual expenses of such lodging or meals, not to exceed the maximum provided for in this subsection.

(b) All travelers shall be allowed the following amounts for subsistence while on Class C travel on official business as provided in paragraph (5)(b):

1. Breakfast.....$6

2. Lunch.....$11

3. Dinner.....$19

(c) Actual expenses for lodging associated with the attendance of an employee of a state agency or the judicial branch at a meeting, conference, or convention organized or sponsored in whole or in part by a state agency or the judicial branch may not exceed $150 per day. However, an employee may expend his or her own funds for any lodging expenses that exceed $150 per day. For purposes of this paragraph, a meeting does not

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

include travel activities for conducting an audit, examination, inspection, or investigation or travel activities related to a litigation or emergency response.

(d) ~~(c)~~ No one, whether traveling out of state or in state, shall be reimbursed for any meal or lodging included in a convention or conference registration fee paid by the state.

(16) STATEWIDE TRAVEL MANAGEMENT SYSTEM.—

(a) For purposes of this subsection, the term "statewide travel management system" means the system acquired by the Department of Management Services to:

1. Standardize and automate agency travel management;

2. Allow for travel planning and approval, expense reporting, and reimbursement; and

3. Allow a person to query travel information by public employee or officer name and position title, purpose of travel, dates and location of travel, mode of travel, confirmation of agency head or designee authorization if required, and total travel cost.

(b) All agencies and the judicial branch must report public officer and employee travel information in the statewide travel management system, including, but not limited to, officer or employee name and position title, purpose of travel, dates and location of travel, mode of travel, confirmation of agency head or designee authorization if required, and total travel cost. At a minimum, such information must be reported in the statewide travel management system on a monthly basis.

(c) All executive branch state agencies and the judicial branch must use the statewide travel management system for purposes of travel authorization and reimbursement.

Section 6. Paragraph (c) of subsection (3) of section 129.03, Florida Statutes, is amended to read:

129.03 Preparation and adoption of budget.—

(3) The county budget officer, after tentatively ascertaining the proposed fiscal policies of the board for the next fiscal year, shall prepare and present to the board a tentative budget for the next fiscal year for each of the funds provided in this chapter, including all estimated receipts, taxes to be levied, and balances expected to be brought forward and all estimated expenditures, reserves, and balances to be carried over at the end of the year.

(c) The board shall hold public hearings to adopt tentative and final budgets pursuant to s. 200.065. The hearings shall be primarily for the purpose of hearing requests and complaints from the public regarding the budgets and the proposed tax levies and for explaining the budget and any proposed or adopted amendments. The tentative budget must be posted on the county's official website at least 2 days before the public hearing to consider such budget and must remain on the website for at least 45 days. The final budget must be posted on the website within 30 days after adoption and must remain on the website for at least 2 years. The tentative budgets, adopted tentative budgets, and final budgets shall be filed in the office of the county auditor as a public record. Sufficient reference in words and figures to identify the particular transactions must ~~shall~~ be made in the minutes of the board to record its actions with reference to the budgets.

Section 7. Paragraph (f) of subsection (2) of section 129.06, Florida Statutes, is amended to read:

129.06 Execution and amendment of budget.—

(2) The board at any time within a fiscal year may amend a budget for that year, and may within the first 60 days of a fiscal year amend the budget for the prior fiscal year, as follows:

(f) Unless otherwise prohibited by law, if an amendment to a budget is required for a purpose not specifically authorized in paragraphs (a)-(e), the amendment may be authorized by resolution or ordinance of the board of county commissioners adopted following a public hearing.

1. The public hearing must be advertised at least 2 days, but not more than 5 days, before the date of the hearing. The advertisement must appear in a newspaper of paid general circulation and must identify the name of the taxing authority, the date, place, and time of the hearing, and the purpose of the hearing. The advertisement must also identify each budgetary fund to be amended, the source of the funds, the use of the funds, and the total amount of each fund's appropriations.

2. If the board amends the budget pursuant to this paragraph, the adopted amendment must be posted on the county's official website within 5 days after adoption and must remain on the website for at least 2 years.

Section 8. Subsections (3) and (5) of section 166.241, Florida Statutes, are amended to read:

166.241 Fiscal years, budgets, and budget amendments.—

(3) The tentative budget must be posted on the municipality's official website at least 2 days before the budget hearing, held pursuant to s. 200.065 or other law, to consider such budget and must remain on the website for at least

45 days. The final adopted budget must be posted on the municipality's official website within 30 days after adoption and must remain on the website for at least 2 years. If the municipality does not operate an official website, the municipality must, within a reasonable period of time as established by the county or counties in which the municipality is located, transmit the tentative budget and final budget to the manager or administrator of such county or counties who shall post the budgets on the county's website.

(5) If the governing body of a municipality amends the budget pursuant to paragraph (4)(c), the adopted amendment must be posted on the official website of the municipality within 5 days after adoption and must remain on the website for at least 2 years. If the municipality does not operate an official website, the municipality must, within a reasonable period of time as established by the county or counties in which the municipality is located, transmit the adopted amendment to the manager or administrator of such county or counties who shall post the adopted amendment on the county's website.

Section 9. Section 215.86, Florida Statutes, is amended to read:

215.86 Management systems and controls.—Each state agency and the judicial branch as defined in s. 216.011 shall establish and maintain management systems and internal controls designed to:

(1) Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1). ~~that~~

(2) Promote and encourage compliance with applicable laws, rules, contracts, and grant agreements.~~;~~

(3) Support economical and ~~economic,~~ efficient~~, and effective~~ operations.~~.~~

(4) Ensure reliability of financial records and reports.~~.~~

(5) Safeguard ~~and safeguarding of~~ assets. ~~Accounting systems and procedures shall be designed to fulfill the requirements of generally accepted accounting principles.~~

Section 10. Paragraph (a) of subsection (2) of section 215.97, Florida Statutes, is amended to read:

215.97 Florida Single Audit Act.—

(2) As used in this section, the term:

(a) "Audit threshold" means the threshold amount used to determine when a state single audit or project-specific audit of a nonstate entity shall be conducted in accordance with this section. Each nonstate entity that expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such nonstate entity shall be required to have a state single audit~~,~~ or a project-specific audit~~,~~ for such fiscal year in accordance with the requirements of this section. ~~Every 2 years the Auditor General,~~ After consulting with the Executive Office of the Governor, the Department of Financial Services, and all state awarding agencies, the Auditor General shall periodically review the threshold amount for requiring audits under this section and may recommend any appropriate statutory change to revise the threshold amount in the annual report submitted pursuant to s. 11.45(7)(h) to the Legislature ~~adjust such threshold amount consistent with the purposes of this section~~.

Section 11. Subsection (11) of section 215.985, Florida Statutes, is amended to read:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

215.985 Transparency in government spending.—

(11) Each water management district shall provide a monthly financial statement in the form and manner prescribed by the Department of Financial Services to the district's ~~its~~ governing board and make such monthly financial statement available for public access on its website.

Section 12. Paragraph (d) of subsection (1) and subsection (2) of section 218.32, Florida Statutes, are amended to read:

218.32 Annual financial reports; local governmental entities.—

(1)

(d) Each local governmental entity that is required to provide for an audit under s. 218.39(1) must submit a copy of the audit report and annual financial report to the department within 45 days after the completion of the audit report but no later than 9 months after the end of the fiscal year. In conducting an audit of a local governmental entity pursuant to s. 218.39, an independent certified public accountant shall determine whether the entity's annual financial report is in agreement with the audited financial statements. If the audited financial statements are not in agreement with the annual financial report, the accountant shall specify and explain the significant differences that exist between the audited financial statements and the annual financial report.

(2) The department shall annually by December 1 file a verified report with the Governor, the Legislature, the Auditor General, and the Special District Accountability Program of the Department of Economic Opportunity showing the revenues, both locally derived and derived from intergovernmental transfers,

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

and the expenditures of each local governmental entity, regional planning council, local government finance commission, and municipal power corporation that is required to submit an annual financial report. In preparing the verified report, the department may request additional information from the local governmental entity. The information requested must be provided to the department within 45 days after the request. If the local governmental entity does not comply with the request, the department shall notify the Legislative Auditing Committee, which may take action pursuant to s. 11.40(2). The report must include, but is not limited to:

(a) The total revenues and expenditures of each local governmental entity that is a component unit included in the annual financial report of the reporting entity.

(b) The amount of outstanding long-term debt by each local governmental entity. For purposes of this paragraph, the term "long-term debt" means any agreement or series of agreements to pay money, which, at inception, contemplate terms of payment exceeding 1 year in duration.

Section 13. Present subsection (3) of section 218.33, Florida Statutes, is renumbered as subsection (4), and a new subsection (3) is added to that section, to read:

218.33 Local governmental entities; establishment of uniform fiscal years and accounting practices and procedures.—

(3) Each local governmental entity shall establish and maintain internal controls designed to:

(a) Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

(b) Promote and encourage compliance with applicable laws,

rules, contracts, grant agreements, and best practices.

(c) Support economical and efficient operations.

(d) Ensure reliability of financial records and reports.

(e) Safeguard assets.

Section 14. Present subsections (8) through (12) of section 218.39, Florida Statutes, are renumbered as subsections (9) through (13), respectively, and a new subsection (8) is added to that section, to read:

218.39 Annual financial audit reports.—

(8) If the audit report includes a recommendation that was included in the preceding financial audit report but remains unaddressed, the governing body of the audited entity, within 60 days after the delivery of the audit report to the governing body, shall indicate during a regularly scheduled public meeting whether it intends to take corrective action, the intended corrective action, and the timeframe for the corrective action. If the governing body indicates that it does not intend to take corrective action, it must explain its decision at the public meeting.

Section 15. Subsection (2) of section 218.391, Florida Statutes, is amended, and subsections (9) through (13) are added to that section, to read:

218.391 Auditor selection procedures.—

(2) The governing body of a ~~charter~~ county, municipality, special district, district school board, charter school, or charter technical career center shall establish an audit committee.

(a) The audit committee for a county ~~Each noncharter county shall establish an audit committee that~~, at a minimum, shall

consist of each of the county officers elected pursuant to the county charter or s. 1(d), Art. VIII of the State Constitution~~,~~ or their respective designees ~~a designee,~~ and one member of the board of county commissioners or its designee.

(b) The audit committee for a municipality, special district, district school board, charter school, or charter technical career center shall consist of at least three members. One member of the audit committee must be a member of the governing body of an entity specified in this paragraph, who shall also serve as the chair of the committee.

(c) An employee, chief executive officer, or chief financial officer of the county, municipality, special district, district school board, charter school, or charter technical career center may not serve as a member of an audit committee established under this subsection.

(d) The primary purpose of the audit committee is to assist the governing body in selecting an auditor to conduct the annual financial audit required in s. 218.39; however, the audit committee may serve other audit oversight purposes as determined by the entity's governing body. The public may ~~shall~~ not be excluded from the proceedings under this section.

(9) For each audit required by s. 218.39, the auditor shall include the following information in the management letter prepared pursuant to s. 218.39(4):

(a) The date the entity's governing body approved the selection of the auditor and the date the entity and the auditor executed the most recent contract pursuant to subsection (7);

(b) The first fiscal year for the auditor conducted the audit under the most recently executed contract pursuant to

subsection (7); and

(c) The contract period, including renewals, and conditions under which the contract may be terminated or renewed.

(10) On each occasion that an entity contracts with an auditor to conduct an audit pursuant to s. 218.39, an affidavit shall be executed by the chair of the entity's governing body in a format prescribed in accordance with rules adopted by the Auditor General, affirming that the auditor was selected in compliance with the requirements of subsections (3)-(6). The affidavit must accompany the entity's first audit report prepared by the auditor under the most recently executed contract pursuant to subsection (7). The affidavit shall include the following information:

(a) The date the entity's governing body approved the selection of the auditor;

(b) The first fiscal year for which the auditor conducted the audit; and

(c) The contract period, including renewals, and conditions under which the contract may be terminated or renewed.

(11) If the entity fails to select the auditor in accordance with the requirements of subsections (3)-(6), the entity shall again perform the auditor selection process in accordance with this section to select an auditor to conduct audits for subsequent fiscal years if the original audit was performed under a multiyear contract.

(a) If performing the auditor selection process again in accordance with this section would preclude the entity from timely completing the annual financial audit required by s. 218.39, the entity shall again perform the auditor selection

process in accordance with this section for the subsequent annual financial audit. A multiyear contract entered into between an entity and an auditor after the effective date of this act may not prohibit or restrict an entity from complying with the section.

(b) If the entity fails to perform the auditor selection process again, pursuant to this subsection, the Legislative Auditing Committee shall determine whether the entity should be subject to state action pursuant to s. 11.40(2).

(12) If the entity fails to provide the Auditor General with the affidavit required by subsection (10), the Auditor General shall request that the entity provide the affidavit. The affidavit must be provided within 45 days after the date of the request. If the entity does not comply with the Auditor General's request, the Legislative Auditing Committee shall determine whether the entity should be subject to state action pursuant to s. 11.40(2).

(13) If the entity provides the Auditor General with the affidavit required in subsection (10) but failed to select the auditor in accordance with the requirements of subsections (3)-(6), the Legislative Auditing Committee shall determine whether the entity should be subject to state action pursuant to s. 11.40(2).

Section 16. Subsection (2) of section 286.0114, Florida Statutes, is amended to read:

286.0114 Public meetings; reasonable opportunity to be heard; attorney fees.—

(2) Members of the public shall be given a reasonable opportunity to be heard on a proposition before a board or

commission. The opportunity to be heard need not occur at the same meeting at which the board or commission takes official action on the proposition if the opportunity occurs at a meeting that is during the decisionmaking process and is within reasonable proximity in time before the meeting at which the board or commission takes the official action. A board or commission may not require a member of the public to provide an advance written copy of his or her testimony or comments as a condition of being given the opportunity to be heard at a meeting. This section does not prohibit a board or commission from maintaining orderly conduct or proper decorum in a public meeting. The opportunity to be heard is subject to rules or policies adopted by the board or commission, as provided in subsection (4).

Section 17. Paragraph (e) of subsection (4), paragraph (d) of subsection (5), and paragraph (d) of subsection (6) of section 373.536, Florida Statutes, are amended to read:

373.536 District budget and hearing thereon.—

(4) BUDGET CONTROLS; FINANCIAL INFORMATION.—

(e) ~~By September 1, 2012,~~ Each district shall provide a monthly financial statement in the form and manner prescribed by the Department of Financial Services to the district's governing board and make such monthly financial statement available for public access on its website.

(5) TENTATIVE BUDGET CONTENTS AND SUBMISSION; REVIEW AND APPROVAL.—

(d) Each district shall, by August 1 of each year, submit for review a tentative budget and a description of any significant changes from the preliminary budget submitted to the

Legislature pursuant to s. 373.535 to the Governor, the President of the Senate, the Speaker of the House of Representatives, the chairs of all legislative committees and subcommittees having substantive or fiscal jurisdiction over water management districts, as determined by the President of the Senate or the Speaker of the House of Representatives, as applicable, the secretary of the department, and the governing body of each county in which the district has jurisdiction or derives any funds for the operations of the district. The tentative budget must be posted on the district's official website at least 2 days before budget hearings held pursuant to s. 200.065 or other law and must remain on the website for at least 45 days.

(6) FINAL BUDGET; ANNUAL AUDIT; CAPITAL IMPROVEMENTS PLAN; WATER RESOURCE DEVELOPMENT WORK PROGRAM.—

(d) The final adopted budget must be posted on the water management district's official website within 30 days after adoption and must remain on the website for at least 2 years.

Section 18. Paragraph (l) of subsection (12) of section 1001.42, Florida Statutes, is amended to read:

1001.42 Powers and duties of district school board.—The district school board, acting as a board, shall exercise all powers and perform all duties listed below:

(12) FINANCE.—Take steps to assure students adequate educational facilities through the financial procedure authorized in chapters 1010 and 1011 and as prescribed below:

(l) *Internal auditor.*—May employ an internal auditor to perform ongoing financial verification of the financial records of the school district and such other audits and reviews as the

district school board directs for the purpose of determining:

1. The adequacy of internal controls designed to prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

2. Compliance with applicable laws, rules, contracts, grant agreements, district school board-approved policies, and best practices.

3. The efficiency of operations.

4. The reliability of financial records and reports.

5. The safeguarding of assets.

The internal auditor shall report directly to the district school board or its designee.

Section 19. Paragraph (j) of subsection (9) of section 1002.33, Florida Statutes, is amended to read:

1002.33 Charter schools.—

(9) CHARTER SCHOOL REQUIREMENTS.—

(j) The governing body of the charter school shall be responsible for:

1. Establishing and maintaining internal controls designed to:

a. Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

b. Promote and encourage compliance with applicable laws, rules, contracts, grant agreements, and best practices.

c. Support economical and efficient operations.

d. Ensure reliability of financial records and reports.

e. Safeguard assets.

2.~~1.~~ Ensuring that the charter school has retained the services of a certified public accountant or auditor for the

annual financial audit, pursuant to s. 1002.345(2), who shall submit the report to the governing body.

3.~~2.~~ Reviewing and approving the audit report, including audit findings and recommendations for the financial recovery plan.

4.a.~~3.a.~~ Performing the duties in s. 1002.345, including monitoring a corrective action plan.

b. Monitoring a financial recovery plan in order to ensure compliance.

5.~~4.~~ Participating in governance training approved by the department which must include government in the sunshine, conflicts of interest, ethics, and financial responsibility.

Section 20. Present subsections (6) through (10) of section 1002.37, Florida Statutes, are renumbered as subsections (7) through (11), respectively, present subsection (6) is amended, and a new subsection (6) is added to that section, to read:

1002.37 The Florida Virtual School.—

(6) The Florida Virtual School shall have an annual financial audit of its accounts and records conducted by an independent auditor who is a certified public accountant licensed under chapter 473. The independent auditor shall conduct the audit in accordance with rules adopted by the Auditor General pursuant to s. 11.45 and, upon completion of the audit, shall prepare an audit report in accordance with such rules. The audit report must include a written statement by the board of trustees describing corrective action to be taken in response to each of the recommendations of the independent auditor included in the audit report. The independent auditor shall submit the audit report to the board of trustees and the

Auditor General no later than 9 months after the end of the preceding fiscal year.

(7)~~(6)~~ The board of trustees shall annually submit to the Governor, the Legislature, the Commissioner of Education, and the State Board of Education the audit report prepared pursuant to subsection (6) and a complete and detailed report setting forth:

(a) The operations and accomplishments of the Florida Virtual School within the state and those occurring outside the state as Florida Virtual School Global.

(b) The marketing and operational plan for the Florida Virtual School and Florida Virtual School Global, including recommendations regarding methods for improving the delivery of education through the Internet and other distance learning technology.

(c) The assets and liabilities of the Florida Virtual School and Florida Virtual School Global at the end of the fiscal year.

~~(d) A copy of an annual financial audit of the accounts and records of the Florida Virtual School and Florida Virtual School Global, conducted by an independent certified public accountant and performed in accordance with rules adopted by the Auditor General.~~

(d)~~(c)~~ Recommendations regarding the unit cost of providing services to students through the Florida Virtual School and Florida Virtual School Global. In order to most effectively develop public policy regarding any future funding of the Florida Virtual School, it is imperative that the cost of the program is accurately identified. The identified cost of the

program must be based on reliable data.

(e)~~(f)~~ Recommendations regarding an accountability mechanism to assess the effectiveness of the services provided by the Florida Virtual School and Florida Virtual School Global.

Section 21. Subsection (5) is added to section 1010.01, Florida Statutes, to read:

1010.01 Uniform records and accounts.—

(5) Each school district, Florida College System institution, and state university shall establish and maintain internal controls designed to:

(a) Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

(b) Promote and encourage compliance with applicable laws, rules, contracts, grant agreements, and best practices.

(c) Support economical and efficient operations.

(d) Ensure reliability of financial records and reports.

(e) Safeguard assets.

Section 22. Subsection (2) of section 1010.30, Florida Statutes, is amended to read:

1010.30 Audits required.—

(2) If a school district, Florida College System institution, or university audit report includes a recommendation that was included in the preceding financial audit report but remains unaddressed ~~an audit contains a significant finding~~, the district school board, the Florida College System institution board of trustees, or the university board of trustees, within 60 days after the delivery of the audit report to the school district, Florida College System institution, or university, shall indicate ~~conduct an audit~~

~~overview~~ during a regularly scheduled public meeting whether it intends to take corrective action, the intended corrective action, and the timeframe for the corrective action. If the district school board, Florida College System institution board of trustees, or university board of trustees indicates that it does not intend to take corrective action, it shall explain its decision at the public meeting.

Section 23. Subsection (3) of section 218.503, Florida Statutes, is amended to read:

218.503 Determination of financial emergency.—

(3) Upon notification that one or more of the conditions in subsection (1) have occurred or will occur if action is not taken to assist the local governmental entity or district school board, the Governor or his or her designee shall contact the local governmental entity or the Commissioner of Education or his or her designee shall contact the district school board, as appropriate, to determine what actions have been taken by the local governmental entity or the district school board to resolve or prevent the condition. The information requested must be provided within 45 days after the date of the request. If the local governmental entity or the district school board does not comply with the request, the Governor or his or her designee or the Commissioner of Education or his or her designee shall notify ~~the members of~~ the Legislative Auditing Committee, which ~~who~~ may take action pursuant to s. 11.40(2) ~~s. 11.40~~. The Governor or the Commissioner of Education, as appropriate, shall determine whether the local governmental entity or the district school board needs state assistance to resolve or prevent the condition. If state assistance is needed, the local governmental

entity or district school board is considered to be in a state of financial emergency. The Governor or the Commissioner of Education, as appropriate, has the authority to implement measures as set forth in ss. 218.50-218.504 to assist the local governmental entity or district school board in resolving the financial emergency. Such measures may include, but are not limited to:

(a) Requiring approval of the local governmental entity's budget by the Governor or approval of the district school board's budget by the Commissioner of Education.

(b) Authorizing a state loan to a local governmental entity and providing for repayment of same.

(c) Prohibiting a local governmental entity or district school board from issuing bonds, notes, certificates of indebtedness, or any other form of debt until such time as it is no longer subject to this section.

(d) Making such inspections and reviews of records, information, reports, and assets of the local governmental entity or district school board as are needed. The appropriate local officials shall cooperate in such inspections and reviews.

(e) Consulting with officials and auditors of the local governmental entity or the district school board and the appropriate state officials regarding any steps necessary to bring the books of account, accounting systems, financial procedures, and reports into compliance with state requirements.

(f) Providing technical assistance to the local governmental entity or the district school board.

(g)1. Establishing a financial emergency board to oversee the activities of the local governmental entity or the district

school board. If a financial emergency board is established for a local governmental entity, the Governor shall appoint board members and select a chair. If a financial emergency board is established for a district school board, the State Board of Education shall appoint board members and select a chair. The financial emergency board shall adopt such rules as are necessary for conducting board business. The board may:

a. Make such reviews of records, reports, and assets of the local governmental entity or the district school board as are needed.

b. Consult with officials and auditors of the local governmental entity or the district school board and the appropriate state officials regarding any steps necessary to bring the books of account, accounting systems, financial procedures, and reports of the local governmental entity or the district school board into compliance with state requirements.

c. Review the operations, management, efficiency, productivity, and financing of functions and operations of the local governmental entity or the district school board.

d. Consult with other governmental entities for the consolidation of all administrative direction and support services, including, but not limited to, services for asset sales, economic and community development, building inspections, parks and recreation, facilities management, engineering and construction, insurance coverage, risk management, planning and zoning, information systems, fleet management, and purchasing.

2. The recommendations and reports made by the financial emergency board must be submitted to the Governor for local governmental entities or to the Commissioner of Education and

the State Board of Education for district school boards for appropriate action.

(h) Requiring and approving a plan, to be prepared by officials of the local governmental entity or the district school board in consultation with the appropriate state officials, prescribing actions that will cause the local governmental entity or district school board to no longer be subject to this section. The plan must include, but need not be limited to:

1. Provision for payment in full of obligations outlined in subsection (1), designated as priority items, which are currently due or will come due.

2. Establishment of priority budgeting or zero-based budgeting in order to eliminate items that are not affordable.

3. The prohibition of a level of operations which can be sustained only with nonrecurring revenues.

4. Provisions implementing the consolidation, sourcing, or discontinuance of all administrative direction and support services, including, but not limited to, services for asset sales, economic and community development, building inspections, parks and recreation, facilities management, engineering and construction, insurance coverage, risk management, planning and zoning, information systems, fleet management, and purchasing.

Section 24. The Legislature finds that a proper and legitimate state purpose is served when internal controls are established to prevent and detect fraud, waste, and abuse and to safeguard and account for government funds and property. Therefore, the Legislature determines and declares that this act fulfills an important state interest.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Section 25. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

LEGISLATIVE ACTION

Senate	.	House
Comm: FAV	.	
03/02/2018	.	
	.	
	.	
	.	

The Committee on Appropriations (Stargel) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Subsection (2) of section 11.40, Florida Statutes, is amended to read:

11.40 Legislative Auditing Committee.—

(2) Following notification by the Auditor General, the Department of Financial Services, ~~or~~ the Division of Bond Finance of the State Board of Administration, the Governor or

522564

his or her designee, or the Commissioner of Education or his or her designee of the failure of a local governmental entity, district school board, charter school, or charter technical career center to comply with the applicable provisions within s. 11.45(5)-(7), s. 218.32(1), s. 218.38, or s. 218.503(3), the Legislative Auditing Committee shall ~~may~~ schedule a hearing to determine if the entity should be subject to further state action. If the committee determines that the entity should be subject to further state action, the committee shall:

(a) In the case of a local governmental entity or district school board, direct the Department of Revenue and the Department of Financial Services to withhold any funds not pledged for bond debt service satisfaction which are payable to such entity until the entity complies with the law. The committee shall specify the date that such action must ~~shall~~ begin, and the directive must be received by the Department of Revenue and the Department of Financial Services 30 days before the date of the distribution mandated by law. The Department of Revenue and the Department of Financial Services may implement ~~the provisions of~~ this paragraph.

(b) In the case of a special district created by:

1. A special act, notify the President of the Senate, the Speaker of the House of Representatives, the standing committees of the Senate and the House of Representatives charged with special district oversight as determined by the presiding officers of each respective chamber, the legislators who represent a portion of the geographical jurisdiction of the special district, and the Department of Economic Opportunity that the special district has failed to comply with the law.

522564

Upon receipt of notification, the Department of Economic Opportunity shall proceed pursuant to s. 189.062 or s. 189.067. If the special district remains in noncompliance after the process set forth in s. 189.0651, or if a public hearing is not held, the Legislative Auditing Committee may request the department to proceed pursuant to s. 189.067(3).

2. A local ordinance, notify the chair or equivalent of the local general-purpose government pursuant to s. 189.0652 and the Department of Economic Opportunity that the special district has failed to comply with the law. Upon receipt of notification, the department shall proceed pursuant to s. 189.062 or s. 189.067. If the special district remains in noncompliance after the process set forth in s. 189.0652, or if a public hearing is not held, the Legislative Auditing Committee may request the department to proceed pursuant to s. 189.067(3).

3. Any manner other than a special act or local ordinance, notify the Department of Economic Opportunity that the special district has failed to comply with the law. Upon receipt of notification, the department shall proceed pursuant to s. 189.062 or s. 189.067(3).

(c) In the case of a charter school or charter technical career center, notify the appropriate sponsoring entity, which may terminate the charter pursuant to ss. 1002.33 and 1002.34.

Section 2. Subsection (1), paragraph (j) of subsection (2), paragraph (u) of subsection (3), and paragraph (i) of subsection (7) of section 11.45, Florida Statutes, are amended, and paragraph (y) is added to subsection (3) of that section, to read:

11.45 Definitions; duties; authorities; reports; rules.—

(1) DEFINITIONS.—As used in ss. 11.40-11.51, the term:

(a) "Abuse" means behavior that is deficient or improper when compared with behavior that a prudent person would consider a reasonable and necessary operational practice given the facts and circumstances. The term includes the misuse of authority or position for personal gain.

(b) ~~(a)~~ "Audit" means a financial audit, operational audit, or performance audit.

(c) ~~(b)~~ "County agency" means a board of county commissioners or other legislative and governing body of a county, however styled, including that of a consolidated or metropolitan government, a clerk of the circuit court, a separate or ex officio clerk of the county court, a sheriff, a property appraiser, a tax collector, a supervisor of elections, or any other officer in whom any portion of the fiscal duties of a body or officer expressly stated in this paragraph are ~~the above are under law~~ separately placed by law.

(d) ~~(c)~~ "Financial audit" means an examination of financial statements in order to express an opinion on the fairness with which they are presented in conformity with generally accepted accounting principles and an examination to determine whether operations are properly conducted in accordance with legal and regulatory requirements. Financial audits must be conducted in accordance with auditing standards generally accepted in the United States and government auditing standards as adopted by the Board of Accountancy. When applicable, the scope of financial audits must ~~shall~~ encompass the additional activities necessary to establish compliance with the Single Audit Act Amendments of 1996, 31 U.S.C. ss. 7501-7507, and other

522564

applicable federal law.

(e) "Fraud" means obtaining something of value through willful misrepresentation, including, but not limited to, the intentional misstatements or intentional omissions of amounts or disclosures in financial statements to deceive users of financial statements, theft of an entity's assets, bribery, or the use of one's position for personal enrichment through the deliberate misuse or misapplication of an organization's resources.

(f) ~~(d)~~ "Governmental entity" means a state agency, a county agency, or any other entity, however styled, that independently exercises any type of state or local governmental function.

(g) ~~(e)~~ "Local governmental entity" means a county agency, municipality, tourist development council, county tourism promotion agency, or special district as defined in s. 189.012. The term~~, but~~ does not include any housing authority established under chapter 421.

(h) ~~(f)~~ "Management letter" means a statement of the auditor's comments and recommendations.

(i) ~~(g)~~ "Operational audit" means an audit whose purpose is to evaluate management's performance in establishing and maintaining internal controls, including controls designed to prevent and detect fraud, waste, and abuse, and in administering assigned responsibilities in accordance with applicable laws, administrative rules, contracts, grant agreements, and other guidelines. Operational audits must be conducted in accordance with government auditing standards. Such audits examine internal controls that are designed and placed in operation to promote and encourage the achievement of management's control objectives

522564

in the categories of compliance, economic and efficient operations, reliability of financial records and reports, and safeguarding of assets, and identify weaknesses in those internal controls.

(j) ~~(h)~~ "Performance audit" means an examination of a program, activity, or function of a governmental entity, conducted in accordance with applicable government auditing standards or auditing and evaluation standards of other appropriate authoritative bodies. The term includes an examination of issues related to:

1. Economy, efficiency, or effectiveness of the program.

2. Structure or design of the program to accomplish its goals and objectives.

3. Adequacy of the program to meet the needs identified by the Legislature or governing body.

4. Alternative methods of providing program services or products.

5. Goals, objectives, and performance measures used by the agency to monitor and report program accomplishments.

6. The accuracy or adequacy of public documents, reports, or requests prepared under the program by state agencies.

7. Compliance of the program with appropriate policies, rules, or laws.

8. Any other issues related to governmental entities as directed by the Legislative Auditing Committee.

(k) ~~(i)~~ "Political subdivision" means a separate agency or unit of local government created or established by law and includes, but is not limited to, the following and the officers thereof: authority, board, branch, bureau, city, commission,

522564

consolidated government, county, department, district, institution, metropolitan government, municipality, office, officer, public corporation, town, or village.

(l) ~~(j)~~ "State agency" means a separate agency or unit of state government created or established by law and includes, but is not limited to, the following and the officers thereof: authority, board, branch, bureau, commission, department, division, institution, office, officer, or public corporation, as the case may be, except any such agency or unit within the legislative branch of state government other than the Florida Public Service Commission.

(m) "Waste" means the act of using or expending resources unreasonably, carelessly, extravagantly, or for no useful purpose.

(2) DUTIES.—The Auditor General shall:

(j) Conduct audits of local governmental entities when determined to be necessary by the Auditor General, when directed by the Legislative Auditing Committee, or when otherwise required by law. No later than 18 months after the release of the audit report, the Auditor General shall perform such appropriate followup procedures as he or she deems necessary to determine the audited entity's progress in addressing the findings and recommendations contained within the Auditor General's previous report. The Auditor General shall notify each member of the audited entity's governing body and the Legislative Auditing Committee of the results of his or her determination. For purposes of this paragraph, local governmental entities do not include water management districts.

522564

The Auditor General shall perform his or her duties independently but under the general policies established by the Legislative Auditing Committee. This subsection does not limit the Auditor General's discretionary authority to conduct other audits or engagements of governmental entities as authorized in subsection (3).

(3) AUTHORITY FOR AUDITS AND OTHER ENGAGEMENTS.—The Auditor General may, pursuant to his or her own authority, or at the direction of the Legislative Auditing Committee, conduct audits or other engagements as determined appropriate by the Auditor General of:

(u) The Florida Virtual School ~~pursuant to s. 1002.37~~.

(y) Tourist development councils and county tourism promotion agencies.

(7) AUDITOR GENERAL REPORTING REQUIREMENTS.—

(i) The Auditor General shall annually transmit by July 15, to the President of the Senate, the Speaker of the House of Representatives, and the Department of Financial Services, a list of all school districts, charter schools, charter technical career centers, Florida College System institutions, state universities, and local governmental entities ~~water management districts~~ that have failed to comply with the transparency requirements as identified in the audit reports reviewed pursuant to paragraph (b) and those conducted pursuant to subsection (2).

Section 3. Paragraph (d) of subsection (2) of section 28.35, Florida Statutes, is amended to read:

28.35 Florida Clerks of Court Operations Corporation.—

(2) The duties of the corporation shall include the

following:

(d) Developing and certifying a uniform system of workload measures and applicable workload standards for court-related functions as developed by the corporation and clerk workload performance in meeting the workload performance standards. These workload measures and workload performance standards shall be designed to facilitate an objective determination of the performance of each clerk in accordance with minimum standards for fiscal management, operational efficiency, and effective collection of fines, fees, service charges, and court costs. The corporation shall develop the workload measures and workload performance standards in consultation with the Legislature. When the corporation finds a clerk has not met the workload performance standards, the corporation shall identify the nature of each deficiency and any corrective action recommended and taken by the affected clerk of the court. For quarterly periods ending on the last day of March, June, September, and December of each year, the corporation shall notify the Legislature of any clerk not meeting workload performance standards and provide a copy of any corrective action plans. Such notifications shall be submitted no later than 45 days after the end of the preceding quarterly period. As used in this subsection, the term:

1. "Workload measures" means the measurement of the activities and frequency of the work required for the clerk to adequately perform the court-related duties of the office as defined by the membership of the Florida Clerks of Court Operations Corporation.

2. "Workload performance standards" means the standards

522564

developed to measure the timeliness and effectiveness of the activities that are accomplished by the clerk in the performance of the court-related duties of the office as defined by the membership of the Florida Clerks of Court Operations Corporation.

Section 4. Present subsections (6) and (7) of section 43.16, Florida Statutes, are renumbered as subsections (7) and (8), respectively, and a new subsection (6) is added to that section, to read:

43.16 Justice Administrative Commission; membership, powers and duties.—

(6) The commission, each state attorney, each public defender, the criminal conflict and civil regional counsel, the capital collateral regional counsel, and the Guardian Ad Litem Program shall establish and maintain internal controls designed to:

(a) Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

(b) Promote and encourage compliance with applicable laws, rules, contracts, grant agreements, and best practices.

(c) Support economical and efficient operations.

(d) Ensure reliability of financial records and reports.

(e) Safeguard assets.

Section 5. Subsection (6) of section 112.061, Florida Statutes, is amended, and subsection (16) is added to that section, to read:

112.061 Per diem and travel expenses of public officers, employees, and authorized persons.—

(6) RATES OF PER DIEM AND SUBSISTENCE ALLOWANCE.—For

522564

purposes of reimbursement rates and methods of calculation, per diem and subsistence allowances are provided as follows:

(a) All travelers shall be allowed for subsistence when traveling to a convention or conference or when traveling within or outside the state in order to conduct bona fide state business, which convention, conference, or business serves a direct and lawful public purpose with relation to the public agency served by the person attending such meeting or conducting such business, either of the following for each day of such travel at the option of the traveler:

1. Eighty dollars per diem; or

2. If actual expenses exceed $80, the amounts permitted in paragraph (b) for subsistence, plus actual expenses for lodging at a single-occupancy rate, except as provided in paragraph (c), to be substantiated by paid bills therefor.

When lodging or meals are provided at a state institution, the traveler shall be reimbursed only for the actual expenses of such lodging or meals, not to exceed the maximum provided for in this subsection.

(b) All travelers shall be allowed the following amounts for subsistence while on Class C travel on official business as provided in paragraph (5)(b):

1. Breakfast.....$6
2. Lunch.....$11
3. Dinner.....$19

(c) Actual expenses for lodging associated with the attendance of an employee of a state agency or the judicial branch at a meeting, conference, or convention organized or

522564

sponsored in whole or in part by a state agency or the judicial branch may not exceed $150 per day. However, an employee may expend his or her own funds for any lodging expenses that exceed $150 per day. For purposes of this paragraph, a meeting does not include travel activities for conducting an audit, examination, inspection, or investigation or travel activities related to a litigation or emergency response.

(d) ~~(c)~~ No one, whether traveling out of state or in state, shall be reimbursed for any meal or lodging included in a convention or conference registration fee paid by the state.

(16) STATEWIDE TRAVEL MANAGEMENT SYSTEM.—

(a) For purposes of this subsection, the term "statewide travel management system" means the system acquired by the Department of Management Services to:

1. Standardize and automate agency travel management;

2. Allow for travel planning and approval, expense reporting, and reimbursement; and

3. Allow a person to query travel information by public employee or officer name and position title, purpose of travel, dates and location of travel, mode of travel, confirmation of agency head or designee authorization if required, and total travel cost.

(b) All agencies and the judicial branch must report public officer and employee travel information in the statewide travel management system, including, but not limited to, officer or employee name and position title, purpose of travel, dates and location of travel, mode of travel, confirmation of agency head or designee authorization if required, and total travel cost. At a minimum, such information must be reported in the statewide

522564

travel management system on a monthly basis.

(c) All executive branch state agencies and the judicial branch must use the statewide travel management system for purposes of travel authorization and reimbursement.

Section 6. Paragraph (c) of subsection (3) of section 129.03, Florida Statutes, is amended, and paragraph (d) is added to that subsection, to read:

129.03 Preparation and adoption of budget.—

(3) The county budget officer, after tentatively ascertaining the proposed fiscal policies of the board for the next fiscal year, shall prepare and present to the board a tentative budget for the next fiscal year for each of the funds provided in this chapter, including all estimated receipts, taxes to be levied, and balances expected to be brought forward and all estimated expenditures, reserves, and balances to be carried over at the end of the year.

(c) The board shall hold public hearings to adopt tentative and final budgets pursuant to s. 200.065. The hearings shall be primarily for the purpose of hearing requests and complaints from the public regarding the budgets and the proposed tax levies and for explaining the budget and any proposed or adopted amendments. The tentative budget must be posted on the county's official website at least 2 days before the public hearing to consider such budget and must remain on the website for at least 45 days. The final budget must be posted on the website within 30 days after adoption and must remain on the website for at least 2 years. The tentative budgets, adopted tentative budgets, and final budgets shall be filed in the office of the county auditor as a public record. Sufficient reference in words and

522564

figures to identify the particular transactions must ~~shall~~ be made in the minutes of the board to record its actions with reference to the budgets.

(d) Beginning in the 2018-2019 fiscal year, the county budget officer shall electronically submit information regarding the final budget to the Office of Economic and Demographic Research in the format specified by the office within 30 days after adoption of the final budget. If the Governor declares a state of emergency pursuant to s. 252.36(2) within 30 days after the submission deadline, the office may extend the deadline up to an additional 90 days. The county budget officer shall also electronically submit to the clerk of the court:

1. A copy of the information that was submitted to the office.

2. A copy of the final budget that was posted on the county's website.

3. A statement certifying that the items in subparagraphs 1. and 2. were timely submitted and posted.

Section 7. Paragraph (f) of subsection (2) of section 129.06, Florida Statutes, is amended to read:

129.06 Execution and amendment of budget.—

(2) The board at any time within a fiscal year may amend a budget for that year, and may within the first 60 days of a fiscal year amend the budget for the prior fiscal year, as follows:

(f) Unless otherwise prohibited by law, if an amendment to a budget is required for a purpose not specifically authorized in paragraphs (a)-(e), the amendment may be authorized by resolution or ordinance of the board of county commissioners

adopted following a public hearing.

1. The public hearing must be advertised at least 2 days, but not more than 5 days, before the date of the hearing. The advertisement must appear in a newspaper of paid general circulation and must identify the name of the taxing authority, the date, place, and time of the hearing, and the purpose of the hearing. The advertisement must also identify each budgetary fund to be amended, the source of the funds, the use of the funds, and the total amount of each fund's appropriations.

2. If the board amends the budget pursuant to this paragraph, the adopted amendment must be posted on the county's official website within 5 days after adoption and must remain on the website for at least 2 years.

Section 8. Present subsections (4) and (5) of section 166.241, Florida Statutes, are renumbered as subsections (5) and (6), respectively, subsection (3) and present subsection (5) are amended, and a new subsection (4) is added to that section, to read:

166.241 Fiscal years, budgets, and budget amendments.—

(3) The tentative budget must be posted on the municipality's official website at least 2 days before the budget hearing, held pursuant to s. 200.065 or other law, to consider such budget and must remain on the website for at least 45 days. The final adopted budget must be posted on the municipality's official website within 30 days after adoption and must remain on the website for at least 2 years. If the municipality does not operate an official website, the municipality must, within a reasonable period of time as established by the county or counties in which the municipality

is located, transmit the tentative budget and final budget to the manager or administrator of such county or counties who shall post the budgets on the county's website.

(4) Beginning in the 2018-2019 fiscal year, the municipality budget officer shall electronically submit information regarding the final budget to the Office of Economic and Demographic Research in the format specified by the office within 30 days after adoption of the final budget. If the Governor declares a state of emergency pursuant to s. 252.36(2) within 30 days after the submission deadline, the office may extend the deadline up to an additional 90 days. The municipality budget officer shall also electronically submit to the clerk of the court:

(a) A copy of the information that was submitted to the office.

(b) A copy of the final budget that was posted on the municipality's website.

(c) A statement certifying that the items in paragraphs (a) and (b) were timely submitted and posted.

(6) ~~(5)~~ If the governing body of a municipality amends the budget pursuant to paragraph (5)(c) ~~(4)(c)~~, the adopted amendment must be posted on the official website of the municipality within 5 days after adoption and must remain on the website for at least 2 years. If the municipality does not operate an official website, the municipality must, within a reasonable period of time as established by the county or counties in which the municipality is located, transmit the adopted amendment to the manager or administrator of such county or counties who shall post the adopted amendment on the county's

522564

website.

Section 9. Present subsections (5) through (10) of section 189.016, Florida Statutes, are renumbered as subsections (6) through (11), respectively, present subsections (7) and (10) are amended, and a new subsection (5) is added to that section, to read:

189.016 Reports; budgets; audits.—

(5) Beginning in the 2018-2019 fiscal year, the special district budget officer shall electronically submit information regarding the final budget to the Office of Economic and Demographic Research in the format specified by the office within 30 days after adoption of the final budget. If the Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline for the final budget, the office may extend the deadline up to an additional 90 days. The special district budget officer shall also electronically submit to the clerk of the court:

(a) A copy of the information that was submitted to the office.

(b) A copy of the final budget that was posted on the special district's website.

(c) A statement certifying that the items in paragraphs (a) and (b) were timely submitted and posted.

(8)~~(7)~~ If the governing body of a special district amends the budget pursuant to paragraph (7)(c) ~~(6)(c)~~, the adopted amendment must be posted on the official website of the special district within 5 days after adoption and must remain on the website for at least 2 years.

(11)~~(10)~~ All reports or information required to be filed

522564

with a local general-purpose government or governing authority under ss. 189.014, 189.015, and 189.08 and subsection (9) ~~(8)~~ must:

(a) If the local general-purpose government or governing authority is a county, be filed with the clerk of the board of county commissioners.

(b) If the district is a multicounty district, be filed with the clerk of the county commission in each county.

(c) If the local general-purpose government or governing authority is a municipality, be filed at the place designated by the municipal governing body.

Section 10. Section 215.86, Florida Statutes, is amended to read:

215.86 Management systems and controls.—Each state agency and the judicial branch as defined in s. 216.011 shall establish and maintain management systems and internal controls designed to:

(1) Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1). ~~that~~

(2) Promote and encourage compliance with applicable laws, rules, contracts, and grant agreements.~~;~~

(3) Support economical and ~~economic,~~ efficient~~, and effective~~ operations.~~;~~

(4) Ensure reliability of financial records and reports.~~;~~

(5) Safeguard ~~and safeguarding of~~ assets. ~~Accounting systems and procedures shall be designed to fulfill the requirements of generally accepted accounting principles.~~

Section 11. Paragraph (a) of subsection (2) of section 215.97, Florida Statutes, is amended to read:

215.97 Florida Single Audit Act.—

(2) As used in this section, the term:

(a) "Audit threshold" means the threshold amount used to determine when a state single audit or project-specific audit of a nonstate entity shall be conducted in accordance with this section. Each nonstate entity that expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such nonstate entity shall be required to have a state single audit~~,~~ or a project-specific audit~~,~~ for such fiscal year in accordance with the requirements of this section. ~~Every 2 years the Auditor General,~~ After consulting with the Executive Office of the Governor, the Department of Financial Services, and all state awarding agencies, the Auditor General shall periodically review the threshold amount for requiring audits under this section and may recommend any appropriate statutory change to revise the threshold amount in the annual report submitted pursuant to s. 11.45(7)(h) to the Legislature ~~adjust such threshold amount consistent with the purposes of this section~~.

Section 12. Subsection (11) of section 215.985, Florida Statutes, is amended to read:

215.985 Transparency in government spending.—

(11) Each water management district shall provide a monthly financial statement in the form and manner prescribed by the Department of Financial Services to the district's ~~its~~ governing board and make such monthly financial statement available for public access on its website.

Section 13. Section 218.32, Florida Statutes, is amended to read:

522564

218.32 Annual financial reports; local governmental entities; Florida Open Financial Statement System.—

(1)(a) Each local governmental entity that is determined to be a reporting entity, as defined by generally accepted accounting principles, and each independent special district as defined in s. 189.012, shall submit to the department a copy of its annual financial report for the previous fiscal year in a format prescribed by the department. The annual financial report must include a list of each local governmental entity included in the report and each local governmental entity that failed to provide financial information as required by paragraph (b). The chair of the governing body and the chief financial officer of each local governmental entity shall sign the annual financial report submitted pursuant to this subsection attesting to the accuracy of the information included in the report. The county annual financial report must be a single document that covers each county agency.

(b) Each component unit, as defined by generally accepted accounting principles, of a local governmental entity shall provide the local governmental entity, within a reasonable time period as established by the local governmental entity, with financial information necessary to comply with the reporting requirements contained in this section.

(c) Each regional planning council created under s. 186.504, each local government finance commission, board, or council, and each municipal power corporation created as a separate legal or administrative entity by interlocal agreement under s. 163.01(7) shall submit to the department a copy of its audit report and an annual financial report for the previous

522564

fiscal year in a format prescribed by the department.

(d) Each local governmental entity that is required to provide for an audit under s. 218.39(1) must submit a copy of the audit report and annual financial report to the department within 45 days after the completion of the audit report but no later than 6 ~~9~~ months after the end of the fiscal year. If the Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline for the audit report and annual financial report, the department may extend the deadline up to an additional 90 days. The local governmental entity must electronically submit to the clerk of the court a copy of its annual financial report and a statement certifying that the report was timely filed with the department.

(e) In conducting an audit of a local governmental entity pursuant to s. 218.39, an independent certified public accountant shall determine whether the entity's annual financial report is in agreement with the audited financial statements. If the audited financial statements are not in agreement with the annual financial report, the accountant shall specify and explain the significant differences that exist between the audited financial statements and the annual financial report.

(f) Each local governmental entity that is not required to provide for an audit under s. 218.39 must submit the annual financial report to the department no later than 9 months after the end of the fiscal year. The department shall consult with the Auditor General in the development of the format of annual financial reports submitted pursuant to this paragraph. The format must include balance sheet information used by the Auditor General pursuant to s. 11.45(7)(f). The department must

522564

forward the financial information contained within the annual financial reports to the Auditor General in electronic form. If the Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline, the department may extend the deadline up to an additional 90 days. This paragraph does not apply to housing authorities created under chapter 421.

(g) ~~(f)~~ If the department does not receive a completed annual financial report from a local governmental entity within the required period, it shall notify the Legislative Auditing Committee and the Special District Accountability Program of the Department of Economic Opportunity by April 30 of the entity's failure to comply with the reporting requirements.

(h) ~~(g)~~ Each local governmental entity's website must provide a link to the department's website to view the entity's annual financial report submitted to the department pursuant to this section. If the local governmental entity does not have an official website, the county government's website must provide the required link for the local governmental entity.

(i) It is the intent of the Legislature to create the Florida Open Financial Statement System, an interactive repository for governmental financial statements.

1. The Chief Financial Officer may consult with stakeholders, including the department, the Auditor General, a representative of a municipality or county, a representative of a special district, a municipal bond investor, and an information technology professional employed in the private sector, for input on the design and implementation of the Florida Open Financial Statement System.

2. The Chief Financial Officer may choose contractors to

522564

build one or more extensible Business Reporting Language (XBRL) taxonomies suitable for state, county, municipal, and special district financial filings and to create a software tool that enables financial statement filers to easily create XBRL documents consistent with the taxonomy or taxonomies. The Chief Financial Officer shall recruit and select contractors through an open request for proposals process pursuant to chapter 287.

3. The Chief Financial Officer shall require all work to be completed no later than December 31, 2021.

4. If the Chief Financial Officer deems the work products adequate, all local governmental financial statements pertaining to fiscal years ending on or after September 1, 2022, must be filed in XBRL format and must meet the validation requirements of the relevant taxonomy.

5. A local government that commences filing in XBRL format may not be required to make filings in portable document format.

(j) Beginning in the 2018-2019 fiscal year and notwithstanding any other penalty or remedy provided by law, if a local governmental entity fails to submit information to the clerk of the court as required under paragraph (d), s. 129.03(3)(d), s. 166.241(4), or s. 189.016(5), as applicable, the clerk of the court shall notify the appropriate local fiscal officer to suspend future salary payments to the head of that local governmental entity. The clerk shall notify the appropriate local fiscal officer to resume payments when the clerk receives the information.

(2) The department shall annually by December 1 file a verified report with the Governor, the Legislature, the Auditor General, and the Special District Accountability Program of the

522564

Department of Economic Opportunity showing the revenues, both locally derived and derived from intergovernmental transfers, and the expenditures of each local governmental entity, regional planning council, local government finance commission, and municipal power corporation that is required to submit an annual financial report. In preparing the verified report, the department may request additional information from the local governmental entity. The information requested must be provided to the department within 45 days after the request. If the local governmental entity does not comply with the request, the department shall notify the Legislative Auditing Committee, which may take action pursuant to s. 11.40(2). The report must include, but is not limited to:

(a) The total revenues and expenditures of each local governmental entity that is a component unit included in the annual financial report of the reporting entity.

(b) The amount of outstanding long-term debt by each local governmental entity. For purposes of this paragraph, the term "long-term debt" means any agreement or series of agreements to pay money, which, at inception, contemplate terms of payment exceeding 1 year in duration.

(3) No later than 12 months after the end of the most recently completed fiscal year, the department shall post on its website the annual financial report for each local governmental entity and independent special district that is required to submit an annual financial report pursuant to subsection (1).

(4) ~~(3)~~ The department shall notify the President of the Senate and the Speaker of the House of Representatives of any municipality that has not reported any financial activity for

522564

the last 4 fiscal years. Such notice must be sufficient to initiate dissolution procedures as described in s. 165.051(1)(a). Any special law authorizing the incorporation or creation of the municipality must be included within the notification.

Section 14. Present subsection (3) of section 218.33, Florida Statutes, is renumbered as subsection (4), and a new subsection (3) is added to that section, to read:

218.33 Local governmental entities; establishment of uniform fiscal years and accounting practices and procedures.—

(3) Each local governmental entity shall establish and maintain internal controls designed to:

(a) Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

(b) Promote and encourage compliance with applicable laws, rules, contracts, grant agreements, and best practices.

(c) Support economical and efficient operations.

(d) Ensure reliability of financial records and reports.

(e) Safeguard assets.

Section 15. Present subsections (8) through (12) of section 218.39, Florida Statutes, are renumbered as subsections (9) through (13), respectively, paragraphs (b), (c), (g), and (h) of subsection (1) and subsection (7) of that section are amended, and a new subsection (8) is added to that section, to read:

218.39 Annual financial audit reports.—

(1) If, by the first day in any fiscal year, a local governmental entity, district school board, charter school, or charter technical career center has not been notified that a financial audit for that fiscal year will be performed by the

522564

Auditor General, each of the following entities shall have an annual financial audit of its accounts and records completed within 9 months after the end of its fiscal year by an independent certified public accountant retained by it and paid from its public funds:

(b) Any municipality with revenues or the total of expenditures and expenses in excess of $250,000, as reported on the fund financial statements, and each municipality beginning with the 2018-2019 fiscal year.

(c) Any special district with revenues or the total of expenditures and expenses in excess of $100,000, as reported on the fund financial statements, and each special district beginning with the 2018-2019 fiscal year.

~~(g) Each municipality with revenues or the total of expenditures and expenses between $100,000 and $250,000, as reported on the fund financial statements, which has not been subject to a financial audit pursuant to this subsection for the 2 preceding fiscal years.~~

~~(h) Each special district with revenues or the total of expenditures and expenses between $50,000 and $100,000, as reported on the fund financial statement, which has not been subject to a financial audit pursuant to this subsection for the 2 preceding fiscal years.~~

(7) All audits conducted pursuant to this section must be conducted in accordance with the rules of the Auditor General adopted pursuant to s. 11.45. Upon completion of the audit, the auditor shall prepare an audit report in accordance with the rules of the Auditor General. The audit report shall be filed with the Auditor General within 45 days after delivery of the

522564

audit report to the governing body of the audited entity, but no later than 6 ~~9~~ months after the end of the audited entity's fiscal year. The audit report must include a written statement describing corrective actions to be taken in response to each of the auditor's recommendations included in the audit report. If the Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline for the audit report, the Auditor General may extend the deadline up to an additional 90 days.

(8) If the audit report includes a recommendation that was included in the preceding financial audit report and remains unaddressed, the governing body of the audited entity, within 60 days after the delivery of the audit report to the governing body, shall indicate during a regularly scheduled public meeting whether it intends to take corrective action, the intended corrective action, and the timeframe for the corrective action. If the governing body indicates that it does not intend to take corrective action, it must explain its decision at the public meeting.

Section 16. Subsection (2) of section 218.391, Florida Statutes, is amended, and subsections (9) through (13) are added to that section, to read:

218.391 Auditor selection procedures.—

(2) The governing body of a ~~charter~~ county, municipality, special district, district school board, charter school, or charter technical career center shall establish an audit committee.

(a) At a minimum, the audit committee for a county must ~~Each noncharter county shall establish an audit committee that,~~

522564

~~at a minimum, shall~~ consist of each of the county officers elected pursuant to the county charter or s. 1(d), Art. VIII of the State Constitution, or their respective designees ~~a designee~~, and one member of the board of county commissioners or its designee.

(b) The audit committee for a municipality, special district, district school board, charter school, or charter technical career center shall consist of at least three members. One member of the audit committee must be a member of the governing body of an entity specified in this paragraph, who shall also serve as the chair of the committee.

(c) An employee, a chief executive officer, or a chief financial officer of the county, municipality, special district, district school board, charter school, or charter technical career center may not serve as a member of an audit committee established under this subsection.

(d) The primary purpose of the audit committee is to assist the governing body in selecting an auditor to conduct the annual financial audit required in s. 218.39; however, the audit committee may serve other audit oversight purposes as determined by the entity's governing body. The public may ~~shall~~ not be excluded from the proceedings under this section.

(9) For each audit required by s. 218.39, the auditor shall include the following information in the management letter prepared pursuant to s. 218.39(4):

(a) The date the entity's governing body approved the selection of the auditor and the date the entity and the auditor executed the most recent contract pursuant to subsection (7);

(b) The first fiscal year for which the auditor conducted

522564

the audit under the most recently executed contract pursuant to subsection (7); and

(c) The contract period, including renewals, and conditions under which the contract may be terminated or renewed.

(10) On each occasion that an entity contracts with an auditor to conduct an audit pursuant to s. 218.39, an affidavit shall be executed by the chair of the entity's governing body in a format prescribed in accordance with rules adopted by the Auditor General, affirming that the auditor was selected in compliance with the requirements of subsections (3)-(6). The affidavit must accompany the entity's first audit report prepared by the auditor under the most recently executed contract pursuant to subsection (7). The affidavit shall include the following information:

(a) The date the entity's governing body approved the selection of the auditor;

(b) The first fiscal year for which the auditor conducted the audit; and

(c) The contract period, including renewals, and conditions under which the contract may be terminated or renewed.

(11) If the entity fails to select the auditor in accordance with the requirements of subsections (3)-(6), the entity shall again perform the auditor selection process in accordance with this section to select an auditor to conduct audits for subsequent fiscal years if the original audit was performed under a multiyear contract.

(a) If performing the auditor selection process again in accordance with this section would preclude the entity from timely completing the annual financial audit required by s.

522564

218.39, the entity shall again perform the auditor selection process in accordance with this section for the subsequent annual financial audit. A multiyear contract entered into between an entity and an auditor after the effective date of this act may not prohibit or restrict an entity from complying with the section.

(b) If the entity fails to perform the auditor selection process again, pursuant to this subsection, the Legislative Auditing Committee shall determine whether the entity should be subject to state action pursuant to s. 11.40(2).

(12) If the entity fails to provide the Auditor General with the affidavit required by subsection (10), the Auditor General shall request that the entity provide the affidavit. The affidavit must be provided within 45 days after the date of the request. If the entity does not comply with the Auditor General's request, the Legislative Auditing Committee shall determine whether the entity should be subject to state action pursuant to s. 11.40(2).

(13) If the entity provides the Auditor General with the affidavit required in subsection (10) but failed to select the auditor in accordance with the requirements of subsections (3)-(6), the Legislative Auditing Committee shall determine whether the entity should be subject to state action pursuant to s. 11.40(2).

Section 17. Subsection (2) of section 286.0114, Florida Statutes, is amended to read:

286.0114 Public meetings; reasonable opportunity to be heard; attorney fees.—

(2) Members of the public shall be given a reasonable

522564

opportunity to be heard on a proposition before a board or commission. The opportunity to be heard need not occur at the same meeting at which the board or commission takes official action on the proposition if the opportunity occurs at a meeting that is during the decisionmaking process and is within reasonable proximity in time before the meeting at which the board or commission takes the official action. A board or commission may not require a member of the public to provide an advance written copy of his or her testimony or comments as a condition of being given the opportunity to be heard at a meeting. This section does not prohibit a board or commission from maintaining orderly conduct or proper decorum in a public meeting. The opportunity to be heard is subject to rules or policies adopted by the board or commission, as provided in subsection (4).

Section 18. Paragraph (e) of subsection (4), paragraph (d) of subsection (5), and paragraph (d) of subsection (6) of section 373.536, Florida Statutes, are amended, and paragraphs (e) and (f) are added to subsection (6) of that section, to read:

373.536 District budget and hearing thereon.—

(4) BUDGET CONTROLS; FINANCIAL INFORMATION.—

(e) ~~By September 1, 2012,~~ Each district shall provide a monthly financial statement in the form and manner prescribed by the Department of Financial Services to the district’s governing board and make such monthly financial statement available for public access on its website.

(5) TENTATIVE BUDGET CONTENTS AND SUBMISSION; REVIEW AND APPROVAL.—

522564

(d) Each district shall, by August 1 of each year, submit for review a tentative budget and a description of any significant changes from the preliminary budget submitted to the Legislature pursuant to s. 373.535 to the Governor, the President of the Senate, the Speaker of the House of Representatives, the chairs of all legislative committees and subcommittees having substantive or fiscal jurisdiction over water management districts, as determined by the President of the Senate or the Speaker of the House of Representatives, as applicable, the secretary of the department, and the governing body of each county in which the district has jurisdiction or derives any funds for the operations of the district. The tentative budget must be posted on the district's official website at least 2 days before budget hearings held pursuant to s. 200.065 or other law and must remain on the website for at least 45 days.

(6) FINAL BUDGET; ANNUAL AUDIT; CAPITAL IMPROVEMENTS PLAN; WATER RESOURCE DEVELOPMENT WORK PROGRAM.—

(d) The final adopted budget must be posted on the water management district's official website within 30 days after adoption and must remain on the website for at least 2 years.

(e) Beginning in the 2018-2019 fiscal year, the water management district budget officer shall electronically submit information regarding the final budget to the Office of Economic and Demographic Research in the format specified by the office within 30 days after adoption of the final budget. If the Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline, the office may extend the deadline up to an additional 90 days. The water management

522564

district budget officer shall also electronically submit to the clerk of the court in each county in which the district operates:

1. A copy of the information that was submitted to the office.

2. A copy of the final budget that was posted on the water management district's website.

3. A statement certifying that the items in subparagraphs 1. and 2. were timely submitted and posted.

(f) Beginning in the 2018-2019 fiscal year and notwithstanding any other penalty or remedy that may be authorized by law, if a water management district budget officer fails to submit information to the clerk of the court as required in paragraph (e), the clerk of the court shall notify the appropriate fiscal officer to suspend future salary payments for the executive director of that district. The clerk shall notify the fiscal officer to resume payments when the clerk receives the information.

Section 19. Paragraph (l) of subsection (12) of section 1001.42, Florida Statutes, is amended to read:

1001.42 Powers and duties of district school board.—The district school board, acting as a board, shall exercise all powers and perform all duties listed below:

(12) FINANCE.—Take steps to assure students adequate educational facilities through the financial procedure authorized in chapters 1010 and 1011 and as prescribed below:

(l) *Internal auditor.*—May employ an internal auditor to perform ongoing financial verification of the financial records of the school district and such other audits and reviews as the

522564

district school board directs for the purpose of determining:

1. The adequacy of internal controls designed to prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

2. Compliance with applicable laws, rules, contracts, grant agreements, district school board-approved policies, and best practices.

3. The efficiency of operations.

4. The reliability of financial records and reports.

5. The safeguarding of assets.

The internal auditor shall report directly to the district school board or its designee.

Section 20. Paragraph (j) of subsection (9) of section 1002.33, Florida Statutes, is amended to read:

1002.33 Charter schools.—

(9) CHARTER SCHOOL REQUIREMENTS.—

(j) The governing body of the charter school shall be responsible for:

1. Establishing and maintaining internal controls designed to:

a. Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

b. Promote and encourage compliance with applicable laws, rules, contracts, grant agreements, and best practices.

c. Support economical and efficient operations.

d. Ensure reliability of financial records and reports.

e. Safeguard assets.

2.~~1.~~ Ensuring that the charter school has retained the services of a certified public accountant or auditor for the

522564

annual financial audit, pursuant to s. 1002.345(2), who shall submit the report to the governing body.

3.~~2.~~ Reviewing and approving the audit report, including audit findings and recommendations for the financial recovery plan.

4.a.~~3.a.~~ Performing the duties in s. 1002.345, including monitoring a corrective action plan.

b. Monitoring a financial recovery plan in order to ensure compliance.

5.~~4.~~ Participating in governance training approved by the department which must include government in the sunshine, conflicts of interest, ethics, and financial responsibility.

Section 21. Present subsections (6) through (10) of section 1002.37, Florida Statutes, are renumbered as subsections (7) through (11), respectively, present subsection (6) is amended, and a new subsection (6) is added to that section, to read:

1002.37 The Florida Virtual School.—

(6) The Florida Virtual School shall have an annual financial audit of its accounts and records conducted by an independent auditor who is a certified public accountant licensed under chapter 473. The independent auditor shall conduct the audit in accordance with rules adopted by the Auditor General pursuant to s. 11.45 and, upon completion of the audit, shall prepare an audit report in accordance with such rules. The audit report must include a written statement by the board of trustees describing corrective action to be taken in response to each of the recommendations of the independent auditor included in the audit report. The independent auditor shall submit the audit report to the board of trustees and the

522564

Auditor General no later than 9 months after the end of the preceding fiscal year.

(7) ~~(6)~~ The board of trustees shall annually submit to the Governor, the Legislature, the Commissioner of Education, and the State Board of Education the audit report prepared pursuant to subsection (6) and a complete and detailed report setting forth:

(a) The operations and accomplishments of the Florida Virtual School within the state and those occurring outside the state as Florida Virtual School Global.

(b) The marketing and operational plan for the Florida Virtual School and Florida Virtual School Global, including recommendations regarding methods for improving the delivery of education through the Internet and other distance learning technology.

(c) The assets and liabilities of the Florida Virtual School and Florida Virtual School Global at the end of the fiscal year.

~~(d) A copy of an annual financial audit of the accounts and records of the Florida Virtual School and Florida Virtual School Global, conducted by an independent certified public accountant and performed in accordance with rules adopted by the Auditor General.~~

(d) ~~(e)~~ Recommendations regarding the unit cost of providing services to students through the Florida Virtual School and Florida Virtual School Global. In order to most effectively develop public policy regarding any future funding of the Florida Virtual School, it is imperative that the cost of the program is accurately identified. The identified cost of the

522564

program must be based on reliable data.

(e)~~(f)~~ Recommendations regarding an accountability mechanism to assess the effectiveness of the services provided by the Florida Virtual School and Florida Virtual School Global.

Section 22. Subsection (5) is added to section 1010.01, Florida Statutes, to read:

1010.01 Uniform records and accounts.—

(5) Each school district, Florida College System institution, and state university shall establish and maintain internal controls designed to:

(a) Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

(b) Promote and encourage compliance with applicable laws, rules, contracts, grant agreements, and best practices.

(c) Support economical and efficient operations.

(d) Ensure reliability of financial records and reports.

(e) Safeguard assets.

Section 23. Subsection (2) of section 1010.30, Florida Statutes, is amended to read:

1010.30 Audits required.—

(2) If a school district, Florida College System institution, or university audit report includes a recommendation that was included in the preceding financial audit report but remains unaddressed ~~an audit contains a significant finding~~, the district school board, the Florida College System institution board of trustees, or the university board of trustees, within 60 days after the delivery of the audit report to the school district, Florida College System institution, or university, shall indicate ~~conduct an audit~~

522564

~~overview~~ during a regularly scheduled public meeting whether it intends to take corrective action, the intended corrective action, and the timeframe for the corrective action. If the district school board, Florida College System institution board of trustees, or university board of trustees indicates that it does not intend to take corrective action, it shall explain its decision at the public meeting.

Section 24. Section 1011.03, Florida Statutes, is amended to read:

1011.03 Public hearings; budget submissions; penalties ~~to be submitted to Department of Education~~.—

(1) Each district school board shall cause a summary of its tentative budget, including the proposed millage levies as provided for by law, to be posted on the district's official website and advertised once in a newspaper of general circulation published in the district or to be posted at the courthouse if there be no such newspaper.

(2) The advertisement of a district that has been required by the Legislature to increase classroom expenditures pursuant to s. 1011.64 must include the following statement:

"This proposed budget reflects an increase in classroom expenditures as a percent of total current operating expenditures of XX percent over the (previous fiscal year) fiscal year. This increase in classroom expenditures is required by the Legislature because the district has performed below the required performance standard on XX of XX student performance standards for the (previous school year) school year. In order to achieve the legislatively required level of classroom

522564

expenditures as a percentage of total operating expenditures, the proposed budget includes an increase in overall classroom expenditures of $XX,XXX,XXX above the amount spent for this same purpose during the (previous fiscal year) fiscal year. In order to achieve improved student academic performance, this proposed increase is being budgeted for the following activities: ...(list activities and amount budgeted)....”

(3) The advertisement shall appear adjacent to the advertisement required pursuant to s. 200.065. The State Board of Education may adopt rules necessary to provide specific requirements for the format of the advertisement.

(4) The board shall hold public hearings to adopt tentative and final budgets pursuant to s. 200.065. The hearings shall be primarily for the purpose of hearing requests and complaints from the public regarding the budgets and the proposed tax levies and for explaining the budget and proposed or adopted amendments thereto, if any. The tentative budget must be posted on the district’s official website at least 2 days before the budget hearing held pursuant to s. 200.065 or other law. The final adopted budget must be posted on the district’s official website within 30 days after adoption. The board shall require the superintendent to transmit two copies of the adopted budget to the Department of Education as prescribed by law and rules of the State Board of Education.

(5)(a) Beginning in the 2018-2019 fiscal year, the district school board budget officer shall electronically submit information regarding the final budget to the Office of Economic and Demographic Research in the format specified by the office within 30 days after adoption of the final budget. If the

522564

Governor declares a state of emergency under s. 252.36(2) within 30 days after the submission deadline for the final budget, the office may extend the deadline up to an additional 90 days. The district school board budget officer shall also electronically submit to the clerk of the court:

1. A copy of the information that was submitted to the office.

2. A copy of the final budget that was posted on the district school board's website.

3. A statement certifying that the items in subparagraphs 1. and 2. were timely submitted and posted.

(b) Beginning in the 2018-2019 fiscal year and notwithstanding any other penalty or remedy that may be authorized by law, if the district school board budget officer fails to submit information to the clerk of the court as required in paragraph (a), the clerk of the court shall notify the appropriate fiscal officer to suspend future salary payments for the superintendent of that district. The clerk shall notify the appropriate fiscal officer to resume payments when the clerk receives the information.

(6)~~(5)~~ If the governing body of a district amends the budget, the adopted amendment must be posted on the official website of the district within 5 days after adoption.

Section 25. Subsection (1) of section 1011.60, Florida Statutes, is amended to read:

1011.60 Minimum requirements of the Florida Education Finance Program.—Each district which participates in the state appropriations for the Florida Education Finance Program shall provide evidence of its effort to maintain an adequate school

522564

program throughout the district and shall meet at least the following requirements:

(1) ACCOUNTS AND REPORTS.—Maintain adequate and accurate records, including a system of internal accounts for individual schools, and file with the Department of Education, in correct and proper form on or before the date due as fixed by law or rule, each annual or periodic report that is required by rules of the State Board of Education. A district school board that submits an annual financial report to the department must also electronically submit to the clerk of the court a copy of the report with a statement certifying that the report was timely filed with the department.

Section 26. (1) By July 15, 2018, the Office of Economic and Demographic Research shall prepare forms for use by counties, municipalities, special districts, water management districts, and school districts when submitting information regarding their final budgets to the office. The forms must group existing fiscal information in broad yet meaningful categories, but should not create new reporting requirements.

(2) By December 1, 2018, the office shall submit a report to the President of the Senate and the Speaker of the House of Representatives that:

(a) Identifies a structure to create unique area profiles for the counties, municipalities, special districts, water management districts, and school districts which would assist the public in making simple direct comparisons between the distinct entities.

(b) Provides recommendations for metrics for ranking the reporting entities based on the final budget information

522564

submitted to the office. The metrics must allow the public to make direct comparisons between the different local governments.

(c) Provides recommendations for mechanisms to submit the information in this subsection to the public in a cost-effective manner.

Section 27. Subsection (16) of section 165.0615, Florida Statutes, is amended to read:

165.0615 Municipal conversion of independent special districts upon elector-initiated and approved referendum.—

(16) If the incorporation plan is approved by a majority of the votes cast in the independent special district, the district shall notify the Special District Accountability Program pursuant to s. 189.016(2) and the local general-purpose governments in which any part of the independent special district is situated pursuant to s. 189.016(8) ~~s. 189.016(7)~~.

Section 28. Subsections (1) and (2) of section 189.066, Florida Statutes, are amended to read:

189.066 Effect of failure to file certain reports or information.—

(1) If an independent special district fails to file the reports or information required under s. 189.014, s. 189.015, s. 189.016(10) ~~s. 189.016(9)~~, or s. 189.08 with the local general-purpose government or governments in which it is located, the person authorized to receive and read the reports or information or the local general-purpose government shall notify the district's registered agent. If requested by the district, the local general-purpose government shall grant an extension of up to 30 days for filing the required reports or information. If the governing body of the local general-purpose government or

522564

governments determines that there has been an unjustified failure to file these reports or information, it shall notify the department, and the department may proceed pursuant to s. 189.067(1).

(2) If a dependent special district fails to file the reports or information required under s. 189.014, s. 189.015, or s. 189.016(10) ~~s. 189.016(9)~~ with the local governing authority to which it is dependent, the local governing authority shall take whatever steps it deems necessary to enforce the special district's accountability. Such steps may include, as authorized, withholding funds, removing governing body members at will, vetoing the special district's budget, conducting the oversight review process set forth in s. 189.068, or amending, merging, or dissolving the special district in accordance with the provisions contained in the ordinance that created the dependent special district.

Section 29. Paragraph (e) of subsection (2) and paragraph (g) of subsection (3) of section 189.074, Florida Statutes, are amended to read:

189.074 Voluntary merger of independent special districts.—Two or more contiguous independent special districts created by special act which have similar functions and elected governing bodies may elect to merge into a single independent district through the act of merging the component independent special districts.

(2) JOINT MERGER PLAN BY RESOLUTION.—The governing bodies of two or more contiguous independent special districts may, by joint resolution, endorse a proposed joint merger plan to commence proceedings to merge the districts pursuant to this

section.

(e) After the final public hearing, the governing bodies shall notify the supervisors of elections of the applicable counties in which district lands are located of the adoption of the resolution by each governing body. The supervisors of elections shall schedule a separate referendum for each component independent special district. The referenda may be held in each district on the same day, or on different days, but no more than 20 days apart.

1. Notice of a referendum on the merger of independent special districts must be provided pursuant to the notice requirements in s. 100.342. At a minimum, the notice must include:

a. A brief summary of the resolution and joint merger plan;

b. A statement as to where a copy of the resolution and joint merger plan may be examined;

c. The names of the component independent special districts to be merged and a description of their territory;

d. The times and places at which the referendum will be held; and

e. Such other matters as may be necessary to call, provide for, and give notice of the referendum and to provide for the conduct thereof and the canvass of the returns.

2. The referenda must be held in accordance with the Florida Election Code and may be held pursuant to ss. 101.6101-101.6107. All costs associated with the referenda shall be borne by the respective component independent special district.

3. The ballot question in such referendum placed before the qualified electors of each component independent special

522564

district to be merged must be in substantially the following form:

"Shall ...(name of component independent special district)... and ...(name of component independent special district or districts)... be merged into ...(name of newly merged independent district)...?

....YES
....NO"

4. If the component independent special districts proposing to merge have disparate millage rates, the ballot question in the referendum placed before the qualified electors of each component independent special district must be in substantially the following form:

"Shall ...(name of component independent special district)... and ...(name of component independent special district or districts)... be merged into ...(name of newly merged independent district)... if the voter-approved maximum millage rate within each independent special district will not increase absent a subsequent referendum?

....YES
....NO"

5. In any referendum held pursuant to this section, the ballots shall be counted, returns made and canvassed, and

results certified in the same manner as other elections or referenda for the component independent special districts.

6. The merger may not take effect unless a majority of the votes cast in each component independent special district are in favor of the merger. If one of the component districts does not obtain a majority vote, the referendum fails, and merger does not take effect.

7. If the merger is approved by a majority of the votes cast in each component independent special district, the merged independent district is created. Upon approval, the merged independent district shall notify the Special District Accountability Program pursuant to s. 189.016(2) and the local general-purpose governments in which any part of the component independent special districts is situated pursuant to s. 189.016(8) ~~s. 189.016(7)~~.

8. If the referendum fails, the merger process under this subsection may not be initiated for the same purpose within 2 years after the date of the referendum.

(3) QUALIFIED ELECTOR-INITIATED MERGER PLAN.—The qualified electors of two or more contiguous independent special districts may commence a merger proceeding by each filing a petition with the governing body of their respective independent special district proposing to be merged. The petition must contain the signatures of at least 40 percent of the qualified electors of each component independent special district and must be submitted to the appropriate component independent special district governing body no later than 1 year after the start of the qualified elector-initiated merger process.

(g) After the final public hearing, the governing bodies

522564

shall notify the supervisors of elections of the applicable counties in which district lands are located of the adoption of the resolution by each governing body. The supervisors of elections shall schedule a date for the separate referenda for each district. The referenda may be held in each district on the same day, or on different days, but no more than 20 days apart.

1. Notice of a referendum on the merger of the component independent special districts must be provided pursuant to the notice requirements in s. 100.342. At a minimum, the notice must include:

a. A brief summary of the resolution and elector-initiated merger plan;

b. A statement as to where a copy of the resolution and petition for merger may be examined;

c. The names of the component independent special districts to be merged and a description of their territory;

d. The times and places at which the referendum will be held; and

e. Such other matters as may be necessary to call, provide for, and give notice of the referendum and to provide for the conduct thereof and the canvass of the returns.

2. The referenda must be held in accordance with the Florida Election Code and may be held pursuant to ss. 101.6101-101.6107. All costs associated with the referenda shall be borne by the respective component independent special district.

3. The ballot question in such referendum placed before the qualified electors of each component independent special district to be merged must be in substantially the following form:

522564

"Shall ...(name of component independent special district)... and ...(name of component independent special district or districts)... be merged into ...(name of newly merged independent district)...?

....YES
....NO"

4. If the component independent special districts proposing to merge have disparate millage rates, the ballot question in the referendum placed before the qualified electors of each component independent special district must be in substantially the following form:

"Shall ...(name of component independent special district)... and ...(name of component independent special district or districts)... be merged into ...(name of newly merged independent district)... if the voter-approved maximum millage rate within each independent special district will not increase absent a subsequent referendum?

....YES
....NO"

5. In any referendum held pursuant to this section, the ballots shall be counted, returns made and canvassed, and results certified in the same manner as other elections or referenda for the component independent special districts.

522564

6. The merger may not take effect unless a majority of the votes cast in each component independent special district are in favor of the merger. If one of the component independent special districts does not obtain a majority vote, the referendum fails, and merger does not take effect.

7. If the merger is approved by a majority of the votes cast in each component independent special district, the merged district shall notify the Special District Accountability Program pursuant to s. 189.016(2) and the local general-purpose governments in which any part of the component independent special districts is situated pursuant to s. 189.016(8) ~~s. 189.016(7)~~.

8. If the referendum fails, the merger process under this subsection may not be initiated for the same purpose within 2 years after the date of the referendum.

Section 30. Subsection (3) of section 218.503, Florida Statutes, is amended to read:

218.503 Determination of financial emergency.—

(3) Upon notification that one or more of the conditions in subsection (1) have occurred or will occur if action is not taken to assist the local governmental entity or district school board, the Governor or his or her designee shall contact the local governmental entity or the Commissioner of Education or his or her designee shall contact the district school board, as appropriate, to determine what actions have been taken by the local governmental entity or the district school board to resolve or prevent the condition. The information requested must be provided within 45 days after the date of the request. If the local governmental entity or the district school board does not

522564

comply with the request, the Governor or his or her designee or the Commissioner of Education or his or her designee shall notify ~~the members of~~ the Legislative Auditing Committee, which ~~who~~ may take action pursuant to s. 11.40(2) ~~s. 11.40~~. The Governor or the Commissioner of Education, as appropriate, shall determine whether the local governmental entity or the district school board needs state assistance to resolve or prevent the condition. If state assistance is needed, the local governmental entity or district school board is considered to be in a state of financial emergency. The Governor or the Commissioner of Education, as appropriate, has the authority to implement measures as set forth in ss. 218.50-218.504 to assist the local governmental entity or district school board in resolving the financial emergency. Such measures may include, but are not limited to:

(a) Requiring approval of the local governmental entity's budget by the Governor or approval of the district school board's budget by the Commissioner of Education.

(b) Authorizing a state loan to a local governmental entity and providing for repayment of same.

(c) Prohibiting a local governmental entity or district school board from issuing bonds, notes, certificates of indebtedness, or any other form of debt until such time as it is no longer subject to this section.

(d) Making such inspections and reviews of records, information, reports, and assets of the local governmental entity or district school board as are needed. The appropriate local officials shall cooperate in such inspections and reviews.

(e) Consulting with officials and auditors of the local

governmental entity or the district school board and the appropriate state officials regarding any steps necessary to bring the books of account, accounting systems, financial procedures, and reports into compliance with state requirements.

(f) Providing technical assistance to the local governmental entity or the district school board.

(g)1. Establishing a financial emergency board to oversee the activities of the local governmental entity or the district school board. If a financial emergency board is established for a local governmental entity, the Governor shall appoint board members and select a chair. If a financial emergency board is established for a district school board, the State Board of Education shall appoint board members and select a chair. The financial emergency board shall adopt such rules as are necessary for conducting board business. The board may:

a. Make such reviews of records, reports, and assets of the local governmental entity or the district school board as are needed.

b. Consult with officials and auditors of the local governmental entity or the district school board and the appropriate state officials regarding any steps necessary to bring the books of account, accounting systems, financial procedures, and reports of the local governmental entity or the district school board into compliance with state requirements.

c. Review the operations, management, efficiency, productivity, and financing of functions and operations of the local governmental entity or the district school board.

d. Consult with other governmental entities for the consolidation of all administrative direction and support

services, including, but not limited to, services for asset sales, economic and community development, building inspections, parks and recreation, facilities management, engineering and construction, insurance coverage, risk management, planning and zoning, information systems, fleet management, and purchasing.

2. The recommendations and reports made by the financial emergency board must be submitted to the Governor for local governmental entities or to the Commissioner of Education and the State Board of Education for district school boards for appropriate action.

(h) Requiring and approving a plan, to be prepared by officials of the local governmental entity or the district school board in consultation with the appropriate state officials, prescribing actions that will cause the local governmental entity or district school board to no longer be subject to this section. The plan must include, but need not be limited to:

1. Provision for payment in full of obligations outlined in subsection (1), designated as priority items, which are currently due or will come due.

2. Establishment of priority budgeting or zero-based budgeting in order to eliminate items that are not affordable.

3. The prohibition of a level of operations which can be sustained only with nonrecurring revenues.

4. Provisions implementing the consolidation, sourcing, or discontinuance of all administrative direction and support services, including, but not limited to, services for asset sales, economic and community development, building inspections, parks and recreation, facilities management, engineering and

522564

construction, insurance coverage, risk management, planning and zoning, information systems, fleet management, and purchasing.

Section 31. The Legislature finds that a proper and legitimate state purpose is served when internal controls are established to prevent and detect fraud, waste, and abuse and to safeguard and account for government funds and property. Therefore, the Legislature determines and declares that this act fulfills an important state interest.

Section 32. This act shall take effect July 1, 2018.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 422 (707324)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services) and Senator Gibson
SUBJECT:	Elder Abuse Fatality Review Teams
DATE:	March 1, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Hendon	Hendon	CF	**Favorable**
2.	Loe	Williams	AHS	**Recommend: Fav/CS**
3.	Loe	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/SB 422 authorizes the establishment of elder abuse fatality review teams on a voluntary basis in each judicial circuit to review fatal incidents of elder abuse, and make policy and other recommendations to help prevent future incidents of elder abuse-related fatalities. The bill exempts certain information and records acquired by a review team from discovery or introduction into evidence in specified actions or proceedings. The review teams are assigned to the Department of Elder Affairs (DOEA) for administrative purposes only. The DOEA must submit a report, annually by November 1, that summarizes the findings and recommendations of the review teams to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Department of Children and Families.

The bill adds elder abuse fatality review teams to the list of persons and entities authorized pursuant to s. 415.107(3), F.S., to have access to records concerning reports of abuse, neglect, or exploitation of a vulnerable adult, including reports made to the central abuse hotline, otherwise held confidential and exempt from s. 119.07(1), F.S.

The bill will increase state expenditures by an indeterminate amount. The Department of Elder Affairs will experience an increase in workload related to submitting the required report and providing administrative support to the review teams; however, these costs can be absorbed within existing resources.

The bill takes effect on July 1, 2018.

II. Present

There are currently no designated Elder Abuse Fatality Review Teams in Florida. The Adult Protective Services Program, under the Department of Children and Families (DCF), is responsible for preventing further harm to vulnerable adults who are victims of abuse, neglect, exploitation, or self-neglect. The mandatory reporting requirement of persons who are required to investigate reports of abuse, neglect, or exploitation also extends to alleged deaths due to abuse or neglect.

The Florida Abuse Hotline, administered by the DCF, screens allegations of adult abuse and neglect to determine whether the information meets the criteria of an abuse report. If the criteria are met, a protective investigation is initiated to confirm whether there is evidence that abuse has occurred; whether that is an immediate or long-term risk to the victim; and whether the victim needs additional services to safeguard his or her well-being.[1]

Section 415.1034, F.S., enumerates persons that have an immediate, mandatory requirement to report to the central abuse hotline if they know, have suspicion, or have reasonable cause to suspect that a vulnerable adult has been or is being abused, neglected, or exploited. Additionally, any person required to investigate reports of abuse, neglect, or exploitation and who has reasonable cause to suspect that a vulnerable adult died as a result of abuse, neglect, or exploitation shall immediately report the suspicion to the appropriate medical examiner, the appropriate criminal justice agency and to the DCF, notwithstanding the existence of a death certificate signed by a practicing physician.[2]

The DCF is required, upon receipt of a report alleging abuse, neglect, or exploitation of a vulnerable adult, to begin within 24 hours a protective investigation of the matter.[3] For each report it receives, the DCF shall perform an onsite investigation to determine, among other things, if the person meets the definition of a vulnerable adult and, if so, if the person is in need of services; whether there is an indication that the vulnerable adult was abused, neglected, or exploited; and if protective, treatment, and ameliorative services are necessary to safeguard and ensure the vulnerable adult's well-being.[4]

Section 415.1102, F.S., authorizes the DCF to develop, maintain, and coordinate the services of one or more multidisciplinary adult protection teams in each of its regions. A "multidisciplinary adult protection team" is defined as a team of two or more persons trained in the prevention, identification, and treatment of abuse of elderly persons.[5] The multidisciplinary teams may be composed of, but are not limited to, psychiatrists, psychologists, or other trained counseling personnel; law enforcement officers; medical personal with experience or training to provide

[5] Section 415.1102(1), F.S.

health services; social workers who have experience or training in the prevention of abuse of the elderly or dependent persons; and public and professional guardians.[6] The multidisciplinary team is convened to supplement the protective services activities of the Adult Protective Services program of the DCF.[7]

Section 415.107(3), F.S., enumerates persons and entities that may have access to records concerning reports of abuse, neglect, or exploitation of a vulnerable adult, including reports made to the central abuse hotline, otherwise held confidential and exempt from s. 119.07(1), F.S. The identity of any person reporting abuse, neglect, or exploitation of a vulnerable person shall not be released to these persons and entities.

III. Effect of Proposed Changes:

Section 1 creates s. 415.1103, F.S., to authorize the creation of an elder abuse fatality review team on a voluntary basis in each judicial circuit[8] to review fatal or near-fatal incidents of abuse, neglect, or violence against the elderly. Each review team is composed of volunteers from numerous state and local agencies as well as community partners.[9] Each volunteer serves without compensation for a two-year term. Each team will determine the number of cases it will review and must limit its review to closed cases in which an elderly person's death is verified to have been caused by abuse or neglect in order to avoid interference with an ongoing criminal investigation or prosecution.

The elder abuse fatality team's review may include a review of events leading up to the incident, available community resources, actions taken by systems and individuals related to the incident, and any other information deemed relevant to the team. The review team is directed to make policy and other recommendations, which include system improvements and necessary resources, training, or other information to prevent future incidents of elder abuse deaths. Each team is required to submit its findings and recommendations to the DOEA annually by September 1. By November 1 each year, the DOEA shall prepare a summary report of the information provided by the review teams, and submit the report to the Executive Office of the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Department of Children and Families.

The bill exempts a member of a review team in the performance of his or her duties as a review team member from monetary liability. Additionally, all information and records acquired by an elder abuse fatality review team are not subject to discovery or introduction into evidence in any

[6] Section 415.1102(2), F.S.
[7] Section 415.1102(3), F.S.
[8] There are currently 20 judicial circuits in Florida.
[9] The bill provides for membership to include, but not be limited to, the following or their representatives: law enforcement agencies; the state attorney; the medical examiner; a county court judge; adult protective services; an Aging and Disability Resource Center; the State Long-Term Care Ombudsman program; the Agency for Health Care Administration; the Office of the Attorney General; the office of court administration; the clerk of the court; a victim services program; an elder law attorney; emergency services personnel; a certified domestic violence center; an advocacy organization for victims of sexual violence; a funeral home director; a forensic pathologist; a geriatrician; a geriatric nurse; a geriatric psychiatrist or other individual licensed to offer behavioral health services; a hospital discharge planner; a public guardian; and other persons with knowledge regarding fatal incidents of elder abuse, domestic violence, or sexual violence.

civil or criminal action. The elder abuse fatality review teams are assigned to the Department of Elder Affairs for administrative purposes only.

Section 2 adds elder abuse fatality review teams to the list of persons and entities authorized pursuant to s. 415.107(3), F.S., to have access to records concerning reports of abuse, neglect, or exploitation of a vulnerable adult, including reports made to the central abuse hotline, otherwise held confidential and exempt from s. 119.07(1), F.S.

Section 3 provides an effective date of July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

Any public records or open meetings issues are addressed in SB 424.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The Department of Elder Affairs will incur additional costs associated with providing administrative support to the various elder abuse fatality review teams, and submitting the required annual report; however, these costs can be absorbed within existing resources. Other public agencies whose staff serve on the review teams may incur some costs.

VI. Technical Deficiencies:

The bill does not specify the appointing authority for the members of the review team. As a result, anyone that falls within the particular membership categories may "volunteer" to participate on the review team. This may raise concerns because the review team has access to information that is otherwise confidential and exempt from public disclosure.

VII. Related Issues:

The bill does not define the term "elder," specifically the age at which a person is deemed to be an elder, which may lead to inconsistency in the cases a team chooses to review. Providing a definition of "elder" which establishes, at a minimum, the age of a person eligible for a team review will allow for more standardized comparability amongst the separate reports required to be submitted by each team.

VIII. Statutes Affected:

This bill creates section 415.1103 of the Florida Statutes.

The bill amends section 415.107 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Health and Human Services on January 10, 2018:

The committee substitute makes the following changes:

- Makes the establishment of an elder abuse fatality review team voluntary in each judicial circuit in Florida;
- Requires the scope of the review team be limited to closed cases in which abuse or neglect is verified;
- Requires the review teams to submit recommendations by September 1 annually to the DOEA;
- Requires the DOEA to compile the recommendations of the review teams into a single report to be submitted to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Department of Children and Families by November 1 annually; and
- Adds elder abuse fatality review teams to the list of persons and entities authorized pursuant to s. 415.107(3), F.S., to have access to records concerning reports of abuse, neglect, or exploitation of a vulnerable adult, including reports made to the central abuse hotline, otherwise held confidential and exempt from s. 119.07(1), F.S.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

913150

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
03/02/2018	.	
	.	
	.	
	.	

The Committee on Appropriations (Gibson) recommended the following:

Senate Amendment (with title amendment)

Before line 29
insert:
Section 1. Section 415.101, Florida Statutes, is amended to read:
415.101 Adult Protective Services Act; legislative intent.—
(1) Sections 415.101-415.113 may be cited as the "Adult Protective Services Act."
(2) The Legislature recognizes that there are many persons

913150

in this state who, because of age or disability, are in need of protective services. Such services should allow such an individual the same rights as other citizens and, at the same time, protect the individual from abuse, neglect, and exploitation. It is the intent of the Legislature to provide for the detection and correction of abuse, neglect, and exploitation through social services and criminal investigations and to establish a program of protective services for all vulnerable adults in need of them. It is intended that the mandatory reporting of such cases will cause the protective services of the state to be brought to bear in an effort to prevent further abuse, neglect, and exploitation of vulnerable adults. In taking this action, the Legislature intends to place the fewest possible restrictions on personal liberty and the exercise of constitutional rights, consistent with due process and protection from abuse, neglect, and exploitation. Further, the Legislature intends to encourage the constructive involvement of families in the care and protection of vulnerable adults or elderly persons. It is the intent of the Legislature that each protective investigator, as defined in s. 415.102, earn and maintain a valid certification as a protective investigator through a third party credentialing entity in accordance with s. 402.40(3).

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Between lines 2 and 3

insert:

amending s. 415.101, F.S.; revising legislative

913150

intent;

707324

576-02005A-18

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Health and Human Services)

A bill to be entitled

An act relating to elder abuse fatality review teams; creating s. 415.1103, F.S.; authorizing the establishment of elder abuse fatality review teams in each judicial circuit housed, for administrative purposes only, in the Department of Elderly Affairs; providing conditions for team establishment and organization; specifying review team duties; providing review teams with access to and use of records; requiring each review team to submit an annual report by a certain date to the Department of Elderly Affairs containing specified information; requiring the department to prepare an annual report by a certain date with such information to the Governor, the Legislature, and the Department of Children and Families; exempting certain information and records from discovery; providing exceptions; prohibiting a member from testifying about information or records presented during meetings or activities of the team; providing immunity from monetary liability for members under certain conditions; prohibiting review teams and review team members from disclosing confidential information; amending s. 415.107, F.S.; requiring that elder abuse fatality review teams be granted access to certain records; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

707324

576-02005A-18

Section 1. Section 415.1103, Florida Statutes, is created to read:

415.1103 Elder abuse fatality review teams.—

(1)(a) An elder abuse fatality review team may be established in each judicial circuit to review deaths of elderly persons alleged or found to have been caused by, or related to, abuse or neglect. The teams are housed, for administrative purposes only, in the Department of Elderly Affairs.

(b) An elder abuse fatality review team may include, but is not limited to, representatives from the following entities within the review team's judicial circuit:

1. Law enforcement agencies;
2. The state attorney;
3. The medical examiner;
4. A county court judge;
5. Adult protective services;
6. The area agency on aging;
7. The State Long-Term Care Ombudsman Program;
8. The Agency for Health Care Administration;
9. The Office of the Attorney General;
10. The Office of the State Courts Administrator;
11. The clerk of the court;
12. A victim services program;
13. An elder law attorney;
14. Emergency services personnel;
15. A certified domestic violence center;
16. An advocacy organization for victims of sexual violence;

17. A funeral home director;

18. A forensic pathologist;

19. A geriatrician;

20. A geriatric nurse;

21. A geriatric psychiatrist or other individual licensed to offer behavioral health services;

22. A hospital discharge planner;

23. A public guardian; or

24. Any other persons who have knowledge regarding fatal incidents of elder abuse, domestic violence, or sexual violence, including knowledge of research, policy, law, and other matters connected with such incidents involving elders or who are recommended for inclusion by the review team.

(c) A person eligible under paragraph (b) may initiate the establishment of a team in his or her judicial circuit and call the first organizational meeting of the team. At the initial meeting, members of the team shall choose two members to serve as co-chairs.

(d) Participation in a review team is voluntary. Members of the review team shall serve without compensation and may not be reimbursed for per diem or travel expenses.

(e) Members shall serve for terms of 2 years, to be staggered as determined by the co-chairs. Chairs may be reelected by a majority of the review team but not for more than 2 consecutive terms.

(f) A review team shall determine the local operations of the team, including, but not limited to, the process for case selection, which must be limited to closed cases in which an elderly person’s death is verified to have been caused by abuse

or neglect, and the meeting schedule, to include at least one meeting in each fiscal year.

(g) Administrative costs of operating the review team shall be borne by the team members or entities whom they represent.

(2) An elder abuse fatality review team must do all of the following:

(a) Review deaths of elderly persons in its judicial circuit alleged or found to have been caused by, or related to, abuse or neglect.

(b) Consider the events leading up to a fatal incident, available community resources, current law and policies, and the actions taken by systems and individuals related to the fatal incident.

(c) Identify gaps, deficiencies, or problems in the delivery of services to elderly persons by public and private agencies which may be related to deaths reviewed by the team.

(d) Whenever possible, develop a communitywide approach to address causes of, and contributing factors to, deaths reviewed by the team.

(e) Develop practice standards and recommend changes in law, rules, and policies to support the care of elderly persons and prevent elder abuse deaths.

(3)(a) Upon written request from a co-chair of a review team, the following information or records pertaining to an elderly person whose death is being reviewed by the team shall be disclosed:

1. Information and records held by a criminal justice agency, as defined in s. 119.011(4), not including active criminal intelligence or investigative information, as defined

in s. 119.011(3).

2. Information and records from Adult Protective Services pursuant to s. 415.107(3)(m).

3. An autopsy report from the Medical Examiner's Office, not including materials protected under s. 406.135.

(b) Review teams may share with each other any relevant information that pertains to the review of the death of an elderly person.

(c) A team member may not contact, interview, or obtain information by request directly from a member of the deceased elder's family as part of the review, unless a team member is authorized to do so in the course of his or her employment duties. A member of the deceased elder's family may voluntarily provide records or information to a review team.

(4)(a) By September 1 of each year, each review team shall submit a report to the Department of Elderly Affairs, including, but not limited to:

1. Descriptive statistics regarding cases reviewed by the review team, including demographic information regarding victims and caregivers, and the causes and nature of deaths;

2. Current policies, procedures, rules, or statutes that the review team identified as contributing to the incidence of elder abuse and elder deaths, and recommendations for system improvement and needed resources, training, or information dissemination to address those identified issues;

3. Any other recommendations to prevent deaths from elder abuse, based on an analysis of the data and information presented in the report; and

4. Any steps taken by the review team and public and

private agencies to implement necessary changes and improve the coordination of services and reviews.

(b) By November 1 of each year, the Department of Elderly Affairs shall prepare a summary report of the information required by paragraph (a), which shall be provided to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Department of Children and Families.

(5) Information and records acquired by an elder abuse fatality review team are not subject to discovery or introduction into evidence in any civil or criminal action or administrative or disciplinary proceeding by any state or local government department or agency if the information or records arose out of the matters that are the subject of review by a review team, unless the information and records are not discoverable from any other source. Information and records that are available from other sources are not immune from discovery or introduction into evidence solely because the information, documents, or records were presented to or reviewed by a review team.

(6) A person who has attended a meeting of the review team or who has otherwise participated in the activities authorized by this section may not be allowed or required to testify in any civil, criminal, administrative, or disciplinary proceeding as to any records or information produced or presented to a team during a meeting or other activity authorized by this section, unless such testimony is necessary to determine the records or information that was available to the fatality review team. However, this paragraph does not prevent any person who testifies before the team or who is a member of the team from

testifying as to matters otherwise within his or her knowledge.

(7) There is no monetary liability on the part of, and a cause of action for damages may not arise against, any member of an elder abuse fatality review team in the performance of his or her duties as a review team member in regard to any discussions by, or deliberations or recommendations of, the team or the member, unless such member acted in bad faith, with wanton and willful disregard of human rights, safety, or property.

(8) Elder abuse fatality review teams and their members may not disclose any information that is confidential pursuant to law.

Section 2. Paragraph (m) is added to subsection (3) of section 415.107, Florida Statutes, to read:

415.107 Confidentiality of reports and records.—

(3) Access to all records, excluding the name of the reporter which shall be released only as provided in subsection (6), shall be granted only to the following persons, officials, and agencies:

(m) An elder abuse fatality review team established under s. 415.1103(1) that is reviewing the death of an elderly person.

Section 3. This act shall take effect July 1, 2018.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 422
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services) and Senator Gibson
SUBJECT:	Elder Abuse Fatality Review Teams
DATE:	March 6, 2018
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Hendon	Hendon	CF	**Favorable**
2.	Loe	Williams	AHS	**Recommend: Fav/CS**
3.	Loe	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 422 authorizes the establishment of elder abuse fatality review teams on a voluntary basis in each judicial circuit to review fatal incidents of elder abuse, and make policy and other recommendations to help prevent future incidents of elder abuse-related fatalities. The bill exempts certain information and records acquired by a review team from discovery or introduction into evidence in specified actions or proceedings. The review teams are assigned to the Department of Elder Affairs (DOEA) for administrative purposes only. The DOEA must submit a report, annually by November 1, that summarizes the findings and recommendations of the review teams to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Department of Children and Families.

The bill adds elder abuse fatality review teams to the list of persons and entities authorized pursuant to s. 415.107(3), F.S., to have access to records concerning reports of abuse, neglect, or exploitation of a vulnerable adult, including reports made to the central abuse hotline, otherwise held confidential and exempt from s. 119.07(1), F.S.

The bill expands the legislative intent of the Adult Protective Services Act to state that each adult protective investigator of the Department of Children and Families (DCF) should earn and maintain a valid certification as a protective investigator from a third-party credentialing agency.

The bill will increase state expenditures in the DOEA by an indeterminate amount. The DOEA will experience an increase in workload related to submitting the required report and providing administrative support to the review teams; however, these costs can be absorbed within existing resources.

The bill has no impact on state expenditures in the DCF.

The bill takes effect on July 1, 2018.

II. Present

Adult Protective Services Act

Established in ch. 415, F.S., the Adult Protective Services Act (the Act) creates a structure of support, mandatory reporting, investigatory, referral, and other related services provided by the Department of Children and Families (DCF) to ensure the protection of vulnerable individuals over the age of 18 from abuse, neglect, and exploitation.

The Act establishes a toll-free hotline for the public and certain individuals[1] to report incidents when there is suspicion of abuse, neglect, or exploitation of a vulnerable adult. These reported incidences are investigated by protective investigators of the DCF. A protective investigator is an authorized agent of the DCF who receives and investigates reports of abuse, neglect, or exploitation of vulnerable adults.[2] The DCF is required to provide, within existing resources, appropriate preservice and in-service training for adult protective investigation staff.[3]

Elder Abuse Fatality Review Teams

There are currently no designated Elder Abuse Fatality Review Teams in Florida. The Adult Protective Services Program, under the Department of Children and Families (DCF), is responsible for preventing further harm to vulnerable adults who are victims of abuse, neglect, exploitation, or self-neglect. The mandatory reporting requirement of persons who are required to investigate reports of abuse, neglect, or exploitation also extends to alleged deaths due to abuse or neglect.

The Florida Abuse Hotline, administered by the DCF, screens allegations of adult abuse and neglect to determine whether the information meets the criteria of an abuse report. If the criteria are met, a protective investigation is initiated to confirm whether there is evidence that abuse has occurred; whether that is an immediate or long-term risk to the victim; and whether the victim needs additional services to safeguard his or her well-being.[4]

---

[1] Section 415.1034(1)(a), F.S.
[2] Section 415.102(21), F.S.
[3] Section 415.1105(a), F.S.
[4] Florida Department of Children and Families; Protecting Vulnerable Adults, *available at:* http://www.myflfamilies.com/service-programs/adult-protective-services/protecting-vulnerable-adults (last visited Nov. 7, 2017).

Section 415.1034, F.S., enumerates persons that have an immediate, mandatory requirement to report to the central abuse hotline if they know, have suspicion, or have reasonable cause to suspect that a vulnerable adult has been or is being abused, neglected, or exploited. Additionally, any person required to investigate reports of abuse, neglect, or exploitation and who has reasonable cause to suspect that a vulnerable adult died as a result of abuse, neglect, or exploitation shall immediately report the suspicion to the appropriate medical examiner, the appropriate criminal justice agency and to the DCF, notwithstanding the existence of a death certificate signed by a practicing physician.[5]

The DCF is required, upon receipt of a report alleging abuse, neglect, or exploitation of a vulnerable adult, to begin within 24 hours a protective investigation of the matter.[6] For each report it receives, the DCF shall perform an onsite investigation to determine, among other things, if the person meets the definition of a vulnerable adult and, if so, if the person is in need of services; whether there is an indication that the vulnerable adult was abused, neglected, or exploited; and if protective, treatment, and ameliorative services are necessary to safeguard and ensure the vulnerable adult's well-being.[7]

Section 415.1102, F.S., authorizes the DCF to develop, maintain, and coordinate the services of one or more multidisciplinary adult protection teams in each of its regions. A "multidisciplinary adult protection team" is defined as a team of two or more persons trained in the prevention, identification, and treatment of abuse of elderly persons.[8] The multidisciplinary teams may be composed of, but are not limited to, psychiatrists, psychologists, or other trained counseling personnel; law enforcement officers; medical personal with experience or training to provide health services; social workers who have experience or training in the prevention of abuse of the elderly or dependent persons; and public and professional guardians.[9] The multidisciplinary team is convened to supplement the protective services activities of the Adult Protective Services program of the DCF.[10]

Section 415.107(3), F.S., enumerates persons and entities that may have access to records concerning reports of abuse, neglect, or exploitation of a vulnerable adult, including reports made to the central abuse hotline, otherwise held confidential and exempt from s. 119.07(1), F.S. The identity of any person reporting abuse, neglect, or exploitation of a vulnerable person shall not be released to these persons and entities.

III. Effect of Proposed Changes:

Section 1 amends s. 415.101(2), F.S., to expand the legislative intent of the Adult Protective Services Act to state that each adult protective investigator of the DCF should earn and maintain a valid certification as a protective investigator from a third-party credentialing agency.

[5] Section 415.1034(2), F.S.
[6] Section 415.104(1), F.S.
[7] Section 415.104(2), F.S.
[8] Section 415.1102(1), F.S.
[9] Section 415.1102(2), F.S.
[10] Section 415.1102(3), F.S.

Section 2 creates s. 415.1103, F.S., to authorize the creation of an elder abuse fatality review team on a voluntary basis in each judicial circuit[11] to review fatal or near-fatal incidents of abuse, neglect, or violence against the elderly. Each review team is composed of volunteers from numerous state and local agencies as well as community partners.[12] Each volunteer serves without compensation for a two-year term. Each team will determine the number of cases it will review and must limit its review to closed cases in which an elderly person's death is verified to have been caused by abuse or neglect in order to avoid interference with an ongoing criminal investigation or prosecution.

The elder abuse fatality team's review may include a review of events leading up to the incident, available community resources, actions taken by systems and individuals related to the incident, and any other information deemed relevant to the team. The review team is directed to make policy and other recommendations, which include system improvements and necessary resources, training, or other information to prevent future incidents of elder abuse deaths. Each team is required to submit its findings and recommendations to the DOEA annually by September 1. By November 1 each year, the DOEA shall prepare a summary report of the information provided by the review teams, and submit the report to the Executive Office of the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Department of Children and Families.

The bill exempts a member of a review team in the performance of his or her duties as a review team member from monetary liability. Additionally, all information and records acquired by an elder abuse fatality review team are not subject to discovery or introduction into evidence in any civil or criminal action. The elder abuse fatality review teams are assigned to the Department of Elder Affairs for administrative purposes only.

Section 3 adds elder abuse fatality review teams to the list of persons and entities authorized pursuant to s. 415.107(3), F.S., to have access to records concerning reports of abuse, neglect, or exploitation of a vulnerable adult, including reports made to the central abuse hotline, otherwise held confidential and exempt from s. 119.07(1), F.S.

Section 4 provides an effective date of July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

[11] There are currently 20 judicial circuits in Florida.

[12] The bill provides for membership to include, but not be limited to, the following or their representatives: law enforcement agencies; the state attorney; the medical examiner; a county court judge; adult protective services; an Aging and Disability Resource Center; the State Long-Term Care Ombudsman program; the Agency for Health Care Administration; the Office of the Attorney General; the office of court administration; the clerk of the court; a victim services program; an elder law attorney; emergency services personnel; a certified domestic violence center; an advocacy organization for victims of sexual violence; a funeral home director; a forensic pathologist; a geriatrician; a geriatric nurse; a geriatric psychiatrist or other individual licensed to offer behavioral health services; a hospital discharge planner; a public guardian; and other persons with knowledge regarding fatal incidents of elder abuse, domestic violence, or sexual violence.

B. Public Records/Open Meetings Issues:

Any public records or open meetings issues are addressed in SB 424.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

The title of the bill is narrowly defined as an act relating to elder abuse fatality review teams, and should be broadened to include the portion of the bill that expands the legislative intent of the Adult Protective Services Act related to adult protective investigator certification.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

If the cost of the credentialing is borne by the protective investigator, it is estimated that each certification will cost approximately $250; however, the bill does not establish any penalties for the failure of a protective investigator to earn or maintain a valid certification from a third-party credentialing entity.

C. Government Sector Impact:

The bill will not increase state expenditures in the DCF. The DCF is required to provide appropriate preservice and in-service training for adult protective investigation staff within available resources of the department.[13] If the cost of the credentialing is borne by the DCF, it is estimated that each certification will cost approximately $250.

The Department of Elder Affairs will incur additional costs associated with providing administrative support to the various elder abuse fatality review teams, and submitting the required annual report; however, these costs can be absorbed within existing resources. Other public agencies whose staff serve on the review teams may incur some costs.

VI. Technical Deficiencies:

The bill does not specify the appointing authority for the members of the review team. As a result, anyone that falls within the particular membership categories may "volunteer" to participate on the review team. This may raise concerns because the review team has access to information that is otherwise confidential and exempt from public disclosure.

[13] *Supra* note 3.

VII. Related Issues:

The bill amends the legislative intent of the Adult Protective Services Act but does not amend any other section of statute, such as s. 415.1105(a), F.S., to require the DCF to certify the protective investigators, or the protective investigators to certify themselves at their own expense, using a third-party credentialing agency. Section 415.1105(a), F.S., authorizes the DCF to provide, within available resources, appropriate preservice and in-service training for adult protective investigation staff. This would have the effect of nullifying any responsibility of the DCF to contract with a third-party credentialing agency without an additional appropriation by the Legislature.

The bill does not define the term "elder," specifically the age at which a person is deemed to be an elder, which may lead to inconsistency in the cases a team chooses to review. Providing a definition of "elder" which establishes, at a minimum, the age of a person eligible for a team review will allow for more standardized comparability amongst the separate reports required to be submitted by each team.

VIII. Statutes Affected:

This bill creates section 415.1103 of the Florida Statutes.

The bill amends sections 415.107 and 415.101 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on March 2, 2018:
The committee substitute makes the following changes:

- Expands the legislative intent of the Adult Protective Services Act to state that each adult protective investigator of the DCF should be certified as a protective investigator by a third-party credentialing agency;
- Makes the establishment of an elder abuse fatality review team voluntary in each judicial circuit in Florida;
- Requires the scope of the review team be limited to closed cases in which abuse or neglect is verified;
- Requires the review teams to submit recommendations by September 1 annually to the DOEA;
- Requires the DOEA to compile the recommendations of the review teams into a single report to be submitted to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Department of Children and Families by November 1 annually; and
- Adds elder abuse fatality review teams to the list of persons and entities authorized pursuant to s. 415.107(3), F.S., to have access to records concerning reports of abuse,

neglect, or exploitation of a vulnerable adult, including reports made to the central abuse hotline, otherwise held confidential and exempt from s. 119.07(1), F.S.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By Senator Gibson

6-00430B-18 2018422__

A bill to be entitled

An act relating to elder abuse fatality review teams; creating s. 415.1103, F.S.; providing legislative findings; creating elder abuse fatality review teams in each judicial circuit housed, for administrative purposes only, in the Department of Elderly Affairs; providing for membership; specifying the duties of the review teams; providing immunity from liability for acts conducted in furtherance of a review team's duties; prohibiting a review team and its members from disclosing certain information; exempting certain information and records acquired by a review team from discovery or introduction into evidence in specified actions or proceedings; providing an exception; prohibiting a person from being required to testify regarding records or information produced or presented during meetings or other activities of a review team; providing an exception; requiring each judicial circuit to organize by public notice the review team's initial meeting; providing requirements for the initial meeting; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 415.1103, Florida Statutes, is created to read:

415.1103 Elder abuse fatality review teams.—

(1) The Legislature finds that elder abuse is a serious issue and that fatality review teams raise awareness in the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

6-00430B-18 2018422__

community of the serious nature and potential lethality of elder abuse in this state, support the enactment of protections and reforms that will help prevent abuse-related deaths in the future, and help ensure that victims of elder abuse receive needed services.

(2) Effective December 31, 2018, an elder abuse fatality review team must be established in each judicial circuit to review the facts and circumstances in cases involving abuse-related deaths. The teams shall be housed, for administrative purposes only, in the Department of Elderly Affairs.

(3) The elder abuse fatality review teams are composed of volunteers, each of whom shall serve without compensation for a term of 2 years. The review team membership may include, but is not limited to, the following or their representatives:

(a) Law enforcement agencies.

(b) The state attorney.

(c) The medical examiner.

(d) A county court judge.

(e) Adult protective services.

(f) The Aging and Disability Resource Center.

(g) The State Long-Term Care Ombudsman Program.

(h) The Agency for Health Care Administration.

(i) The Office of the Attorney General.

(j) The office of court administration.

(k) The clerk of the court.

(l) A victim services program.

(m) An elder law attorney.

(n) Emergency services personnel.

(o) A certified domestic violence center.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(p) An advocacy organization for victims of sexual violence.

(q) A funeral home director.

(r) A forensic pathologist.

(s) A geriatrician.

(t) A geriatric nurse.

(u) A geriatric psychiatrist or other individual licensed to offer behavioral health services.

(v) A hospital discharge planner.

(w) A public guardian.

(x) Other persons who have knowledge regarding fatal incidents of elder abuse, domestic violence, or sexual violence, including knowledge of research, policy, law, and other matters connected with such incidents or who are recommended for inclusion by the review team.

(4) Each elder abuse fatality review team shall do all of the following:

(a) Limit its review to cases that have been closed, to avoid interference with or influencing the outcome of an ongoing criminal investigation or prosecution.

(b) Determine the number of cases it will review in which an elderly person's death is verified to have been caused by abuse or neglect.

(c) After reviewing those cases, make policy and other recommendations as to how incidents of abuse-related fatalities may be prevented.

(d) Submit its recommendations to the Office of the Governor, the President of the Senate, the Speaker of the House of Representatives, the Department of Children and Families, and

the Department of Elder Affairs.

(5)(a) The elder abuse fatality review teams must be provided access to any information or records contained in a closed file that pertains to an elder whose death is subject to review by a team, including information or records from a law enforcement agency, which are determined necessary for the team to carry out its duties.

(b) The review teams shall review the events leading up to a fatal incident, available community resources, the actions taken by systems and individuals related to the fatal incident, and any other information deemed relevant by the team.

(6) There is no monetary liability on the part of, and a cause of action for damages may not arise against, any member of an elder abuse fatality review team in the performance of his or her duties as a review team member.

(7) Elder abuse fatality review teams and their members may not disclose any information that is not otherwise a public record.

(8) Information and records acquired by an elder abuse fatality review team are not subject to discovery or introduction into evidence in any civil or criminal action or administrative or disciplinary proceeding by any department or employing agency if the information or records arose out of matters that are the subject of evaluation and review by the elder abuse fatality review team. However, information, documents, and records that are available from other sources are not immune from discovery or introduction into evidence solely because the information, documents, or records were presented to or reviewed by a review team. A person who has attended a

meeting of an elder abuse fatality review team may not be required to testify in any civil, criminal, administrative, or disciplinary proceedings as to any records or information produced or presented to the team during meetings or other activities authorized by this section. However, review team members may be required to testify as to matters otherwise within their personal knowledge.

(9) The chief judge or his or her representative from each judicial circuit shall provide public notice of the initial meeting of the review team in its circuit. At the initial meeting, the volunteers shall choose two members who shall serve as co-chairs of the review team. The co-chairs shall determine the frequency of the meetings in the circuit and submit the team's recommendations as provided in paragraph (4)(d).

Section 2. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 424 creates a public records exemption for certain information obtained by an elder abuse fatality review team as authorized by SB 422. This includes information contained in a record created by an elder abuse fatality review team that reveals the identity of a victim of elder abuse. The bill exempts from public meetings requirements those portions of a meeting that would reveal information that is made confidential and exempt under this bill.

The bill provides that the exemption is subject to the Open Government Sunset Review Act, and stands repealed on October 2, 2023, unless reviewed and saved from repeal through reenactment by the Legislature. The bill provides a statement of public necessity as required by the Florida Constitution.

The bill creates a new public records exemption, and therefore requires a two-thirds vote of the members present and voting in each house of the Legislature for final passage.

The bill has no impact on state revenues or expenditures.

The effective date of the bill is contingent upon, and concurrent with, passage of SB 422, which has an effective date of July 1, 2018.

II. Present Situation:

Public Records Law

The Florida Constitution provides the public the right to inspect or copy records made or received in connection with official governmental business.[1] This applies to the official business of any public body, officer or employee of the state, including all three branches of state government, local governmental entities, and any person acting on behalf of the government.[2]

In addition to the Florida Constitution, the Florida Statutes provides that the public may access legislative and executive branch records.[3] Chapter 119, F.S., constitutes the main body of public records laws, and is known as the Public Records Act. The Public Records Act states:

> [I]t is the policy of this state that all state, county and municipal records are open for personal inspection and copying by any person. Providing access to public records is a duty of each agency.[4]

According to the Public Records Act, a public record includes virtually any document or recording, regardless of its physical form or the method of transmission.[5] The Florida Supreme Court has interpreted public records as being "any material prepared in connection with official agency business which is intended to perpetuate, communicate or formalize knowledge of some type."[6] A violation of the Public Records Act may result in civil or criminal liability.[7]

The Legislature may create an exemption to public records requirements.[8] An exemption must pass by a two-thirds vote of the House and the Senate.[9] In addition, an exemption must explicitly lay out the public necessity justifying the exemption, and the exemption must be no broader than necessary to accomplish the stated purpose of the exemption.[10] A statutory exemption that does not meet these criteria may be unconstitutional and may not be judicially saved.[11]

[11] *Halifax Hosp. Medical Center v. New-Journal Corp.*, 724 So.2d 567 (Fla. 1999). In *Halifax Hospital*, the Florida Supreme Court found that a public meetings exemption was unconstitutional because the statement of public necessity did not define

When creating a public records exemption, the Legislature may provide that a record is "confidential and exempt" or "exempt."[12] Records designated as "confidential and exempt" may be released by the records custodian only under the circumstances defined by the Legislature. Records designated as "exempt" are not required to be made available for public inspection, but may be released at the discretion of the records custodian under certain circumstances.[13]

Open Meetings Laws

The Florida Constitution provides that the public has a right to access governmental meetings.[14] Each collegial body must provide notice of its meetings to the public and permit the public to attend any meeting where official acts are taken or public business is transacted or discussed.[15] This applies to the meetings of any collegial body of the executive branch of state government, counties, municipalities, school districts, or special districts.[16]

Section 286.011, F.S., which is known as the "Government in the Sunshine Law,"[17] or the "Sunshine Law,"[18] requires all meetings of any board or commission of any state or local agency or authority where official acts are to be taken be open to the public.[19] The board or commission must provide the public reasonable notice of such meetings.[20] Public meetings may not be held at any location that discriminates on the basis of sex, age, race, creed, color, origin, or economic status or operates in a manner that unreasonably restricts the public's access to the facility.[21] Minutes of a public meeting must be promptly recorded and open to public inspection.[22] Failure to abide by open meetings requirements will invalidate any resolution, rule, or formal action adopted at a meeting.[23] A public officer or member of a governmental entity who violates the Sunshine Law is subject to civil and criminal penalties.[24]

[21] Section 286.011(6), F.S.

[22] Section 286.011(2), F.S.

[23] Section 286.011(1), F.S.

[24] Section 286.011(3), F.S.

The Legislature may create an exemption to open meetings requirements by passing a general law by a two-thirds vote of the House and the Senate.[25] The exemption must explicitly lay out the public necessity justifying the exemption, and must be no broader than necessary to accomplish the stated purpose of the exemption.[26] A statutory exemption that does not meet these two criteria may be unconstitutional and may not be judicially saved.[27]

Open Government Sunset Review Act

The Open Government Sunset Review Act (OGSR) prescribes a legislative review process for newly created or substantially amended public records.[28] The OGSR provides that an exemption automatically repeals on October 2 of the fifth year after creation or substantial amendment. The Legislature must reenact an exemption in order to save the exemption from repeal.[29] In practice, many exemptions are continued by repealing the sunset date rather than reenacting the exemption.

The OGSR provides that a public records or open meetings exemption may be created or maintained only if it serves an identifiable public purpose and is no broader than necessary to accomplish the stated purpose of the exemption.[30] The Legislature must find that the purpose of the exemption outweighs open government policy and cannot be accomplished without the exemption. An exemption serves an identifiable purpose if it meets one of the following criteria:

- Allows the state or its political subdivision to effectively and efficiently administer a program, and administration would be significantly impaired without the exemption;[31]
- Release of sensitive personal information would be defamatory or would jeopardize an individual's safety;[32,33] or
- Protects trade or business secrets.[34]

The OGSR requires specific questions be considered during the review process.[35] The OGSR asks the Legislature to question carefully the purpose and necessity of reenacting the exemption.

---

[25] FLA. CONST., art. I, s. 24(c).
[26] *Id*.
[27] *See supra* note 12.
[28] Section 119.15, F.S. According to s. 119.15(4)(b), F.S., a substantially amended exemption is one that is expanded to include more information or to include meetings. The OGSR does not apply to an exemption that is required by federal law or that applies solely to the Legislature or the State Court System pursuant to s. 119.15(2), F.S.
[29] Section 119.15(3), F.S.
[30] Section 119.15(6)(b), F.S.
[31] Section 119.15(6)(b)1., F.S.
[32] Section 119.15(6)(b)2., F.S.
[33] Only personal identifying information is exempt if this public purpose is cited as the basis of an exemption.
[34] Section 119.15(6)(b)3., F.S.
[35] Section 119.15(6)(a), F.S. The specified questions are:

- What specific records or meetings are affected by the exemption?
- Whom does the exemption uniquely affect, as opposed to the general public?
- What is the identifiable public purpose or goal of the exemption?
- Can the information contained in the records or discussed in the meeting be readily obtained by alternative means? If so, how?
- Is the record or meeting protected by another exemption?
- Are there multiple exemptions for the same type of record or meeting that it would be appropriate to merge?

A public necessity statement and a two-thirds vote of the members present and voting in each house of the Legislature are required for final passage if the Legislature expands an exemption.[36] A public necessity statement and a two-thirds vote of the members present and voting in each house of the Legislature are not required for final passage if the exemption is reenacted without substantive changes or if the exemption is narrowed. If the Legislature allows an exemption to sunset, the previously exempt records will remain exempt unless otherwise provided for by law.[37]

III. Effect of Proposed Changes:

Section 1 amends s. 415.1103, F.S., to provide that any information that is confidential and exempt from s. 119.07(1), F.S., and s. 24(a), Art. I of the State Constitution obtained by an elder abuse fatality review team when conducting a review retains its confidential or exempt status when held by the review team. The bill creates a public records exemption for information contained in a record created by an elder abuse fatality review team that reveals the identity of a victim of elder abuse as authorized in SB 422.

This section provides that portions of meetings of a review team where confidential or exempt information or the identity of a victim of elder abuse is discussed are exempt from s. 286.011, F.S., and s. 24(b), Art. I of the State Constitution.

The exemption is subject to the OGSR and stands repealed on October 2, 2023, unless reviewed and saved from repeal through reenactment by the Legislature.

The bill creates a new public records exemption, and therefore requires a two-thirds vote of the members present and voting in each house of the Legislature for final passage.

Section 2 provides a statement of public necessity as required by the Florida Constitution. It states that sensitive personal information concerning victims of elder abuse would be disclosed and open communication and coordination between the parties involved in the elder abuse fatality review would be hampered without the exemption.

Section 3 provides an effective date that is contingent upon, and concurrent with, passage of SB 422, which has an effective date of July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

[36] FLA. CONST., art. I, s. 24(c).
[37] Section 119.15(7), F.S.

B. Public Records/Open Meetings Issues:

Voting Requirement

Article I, Section 24(c) of the Florida Constitution requires a two-thirds vote of the members present and voting in each house of the Legislature for a public records exemption to pass.

Breadth of Exemption

Article I, Section 24(c) of the Florida Constitution requires a newly created public records exemption to be no broader than necessary to accomplish the stated purpose of the law. The bill provides that information that is confidential and exempt from s. 119.07(1), F.S., remain confidential and exempt when held by an elder abuse fatality review team. The bill allows a record created by a review team that identifies the victim of elder abuse to remain confidential and exempt from s. 119.07(1), F.S., and s. 24(a), Art. I of the State Constitution. This bill appears to be no broader than necessary to accomplish the public necessity for this public records exemption.

Portions of meetings of an elder abuse fatality review team at which confidential or exempt information or the identity of a victim of elder abuse is discussed would be exempt from s. 286.011, F.S., and s. 24(b), Art. I of the State Constitution.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

SB 422 authorizes the establishment of elder abuse fatality review teams to review fatal incidents of elder abuse.

VIII. Statutes Affected:

This bill substantially amends s. 415.1103 of the Florida Statutes.

IX. Additional Information:

By the Committee on Governmental Oversight and Accountability; and Senator Gibson

585-01960-18 2018424c1

A bill to be entitled

An act relating to public records and public meetings; amending s. 415.1103, F.S.; specifying that information obtained by an elder abuse fatality review team which is exempt or confidential and exempt from public records requirements retains its protected status; providing an exemption from public records requirements for identifying information of an elder abuse victim in records created by a review team; providing an exemption from public meetings requirements for portions of review team meetings at which exempt or confidential and exempt information or the identity of an elder abuse victim is discussed; providing for future legislative review and repeal; providing statements of public necessity; providing a contingent effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (9), (10), and (11) are added to section 415.1103, Florida Statutes, as created by SB 422, to read:

415.1103 Elder abuse fatality review teams.—

(9)(a) Any information that is exempt or confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution and that is obtained by an elder abuse fatality review team conducting a review under this section retains its exempt or confidential and exempt status when held by an elder abuse fatality review team.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

585-01960-18 2018424c1

(b) Any information contained in a record created by an elder abuse fatality review team which reveals the identity of a victim of elder abuse is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

(10) Portions of meetings of an elder abuse fatality review team at which exempt or confidential and exempt information or the identity of a victim of elder abuse is discussed are exempt from s. 286.011 and s. 24(b), Art. I of the State Constitution.

(11) Subsections (9) and (10) are subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2023, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 2. (1) The Legislature finds that it is a public necessity that information that is exempt or confidential and exempt from s. 119.07(1), Florida Statutes, and s. 24(a), Article I of the State Constitution remain exempt or confidential and exempt when held by an elder abuse fatality review team and that any information contained in a record created by an elder abuse fatality review team which reveals the identity of a victim of elder abuse be confidential and exempt from public records requirements. Otherwise, sensitive personal information concerning victims of elder abuse would be disclosed and open communication and coordination among the parties involved in the elder abuse fatality review teams would be hampered. The harm that would result from the release of such information substantially outweighs any public benefit that would be achieved by disclosure.

(2) The Legislature further finds that it is a public necessity that portions of meetings of an elder abuse fatality

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

review team at which exempt or confidential and exempt information or the identity of a victim of elder abuse is discussed be exempt from s. 286.011, Florida Statutes, and s. 24(b), Article I of the State Constitution. The failure to close portions of meetings at which exempt or confidential and exempt information or the identity of a victim of elder abuse are discussed would defeat the purpose of the public records exemption. Further, the Legislature finds that the exemption is narrowly tailored to apply to only certain portions of meetings of elder abuse fatality review teams to allow for public oversight.

Section 3. This act shall take effect on the same date that SB 422 or similar legislation takes effect, if such legislation is adopted in the same legislative session or an extension thereof and becomes a law.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Tallahassee, FL 32399-1100

Chair Bradley:

I respectfully request that SB 424, relating to public records and public meetings/elder abuse fatality review teams, be placed on the next committee agenda.

SB 424, exempts certain information obtained by an elder abuse fatality review team that was already exempt before receiving the closed file.

Thank you for your time and consideration.

Sincerely,

Audrey Gibson
State Senator

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 620 (741326)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Finance and Tax); Commerce and Tourism Committee; and Senator Passidomo and others
SUBJECT:	Disaster Preparedness Tax Exemption
DATE:	March 1, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Little	McKay	CM	**Fav/CS**
2.	Gross	Diez-Arguelles	AFT	**Recommend: Fav/CS**
3.	Gross	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 620 provides a documentary stamp tax exemption for any loan made by the Florida Small Business Emergency Bridge Loan Program in response to a disaster that results in a state of emergency, or any loan made by the Agricultural Economic Development Program.

The bill also establishes two 7-day periods during which items purchased for disaster preparedness and protection are exempt from state sales and use tax and county discretionary sales surtaxes. The first period begins Friday, June 1, 2018, and ends Thursday, June 7, 2018, which coincides with the start of the Atlantic hurricane season. The second period begins Friday, July 6, 2018, and ends Thursday, July 12, 2018.

Exempt items include: light sources, radios, tarps, "tie-down" kits, fuel tanks, batteries, cellular telephone chargers, portable power banks, food storage coolers, generators, carbon monoxide detectors, reusable ice, locator beacons,

The Revenue Estimating Conference (REC) estimates that this bill will reduce General Revenue Fund receipts by $9.9 million and reduce local government revenues by $2.6 million in Fiscal Year 2018-2019.

The bill appropriates $70,072 in nonrecurring funds from the General Revenue Fund to the Department of Revenue to administer the sales tax holidays.

The bill is effective upon becoming law.

II. Present Situation:

Emergency Loans

The Excise Tax on Documents (documentary stamp tax) is levied on promissory notes, nonnegotiable notes, written obligations to pay money, and assignments of salaries, wages, or other compensation at the rate of 35 cents per $100 or fraction thereof of the indebtedness or obligation evidenced thereby. The tax on these documents may not exceed $2,450.[1]

The Florida Small Business Emergency Loan Program is part of Florida's response to disasters. The program's purpose is to provide short-term, interest-free working capital loans that are intended to "bridge the gap" between the time a major catastrophe hits and when a business has secured longer term recovery resources. Loans are awarded in amounts from $1,000 to $50,000, with terms of 90 or 180 days, and must be paid in full by the end of the loan term.[2]

The program was first activated following Hurricane Andrew and has been activated 20 additional times since then. In response to Hurricane Irma in September 2017, the program has made 829 small business loans totaling $27,719,793 and 49 citrus-related loans totaling $5,728,000.[3]

The Agricultural Economic Development Program[4] provides for disaster loans and grants for agricultural producers who have experienced losses from a natural disaster or a socio-economic condition or event. The loans and grants may be used to:

- Restore or replace essential physical property or remove debris from essential physical property;
- Pay all or part of production costs associated with the disaster year;
- Pay essential family living expenses; or
- Restructure farm debts.

Agricultural producers having parcels of land in production not exceeding 300 acres are eligible for loans under this program, and funds may be issued as direct loans or as loan guarantees for up to 90 percent of the total loan, in amounts not less than $30,000 and not more than $300,000. Loan applicants must provide at least ten percent equity.[5] This program has not been funded by the Legislature, and no loans have been made.[6]

Florida Sales and Use Tax

Florida levies a six percent sales and use tax on the sale or rental of most tangible personal property, admissions,[7] transient rentals,[8] rental of commercial real estate,[9] and a limited number of services. Chapter 212, F.S., contains statutory provisions authorizing the levy and collection of Florida's sales and use tax, as well as the exemptions and credits applicable to certain items or uses under specified circumstances. There are currently more than 250 exemptions, exclusions, deductions, and credits from the sales and use tax.[10] Sales tax is added to the price of the taxable good or service and collected from the purchaser at the time of sale.[11]

In addition to the state tax, s. 212.055, F.S., authorizes counties to impose nine local discretionary sales surtaxes. A surtax applies to "all transactions occurring in the county which transactions are subject to the state tax imposed on sales, use, services, rental, admissions, and other transactions by [ch. 212, F.S.], and on communications services as defined in ch. 202, F.S."[12] The discretionary sales surtax is based on the tax rate imposed by the county where the taxable goods or services are sold, or are delivered into. Discretionary sales surtax rates currently levied vary by county in a range from 0.5 percent to 1.5.[13]

Disaster Preparedness

Previous legislatures have approved sales tax exemptions for specified items in preparation for the Atlantic hurricane season, which typically begins on June 1st of each year.[14]

The Florida Division of Emergency Management recommends having a plan and preparing property to prevent damage. Additionally, the Division of Emergency Management recommends having a disaster supply kit with items such as a battery-operated radio, flashlight, batteries, and first-aid kit.[15]

The Federal Emergency Management Agency (FEMA) educates Americans on how to prepare for emergencies through Ready, a public service advertising campaign.[16] In addition to the items listed in the paragraph above, FEMA recommends cell phone chargers, inverters, or solar chargers as items to include in an emergency preparedness supply kit.[17]

III. Effect of Proposed Changes:

Section 1 provides an exemption from documentary stamp tax for any loan made by the Florida Small Business Emergency Loan Program in response to a disaster for which the governor declares a state of emergency pursuant to s. 252.36, F.S., or any loan made by the Agricultural Economic Development Program.

Section 2 establishes two 7-day periods during which items purchased for disaster preparedness and protection are exempt from the sales and use tax and local discretionary sales surtaxes. The first exemption period begins at 12:01 a.m. on Friday, June 1, 2018, and ends at 11:59 p.m. on Thursday, June 7, 2018. The second exemption period begins at 12:01 a.m. on Friday, July 6, 2018 and ends at 11:59 on Thursday, July 12, 2018. The following items are exempt:

- A portable self-powered light source selling for $20 or less.
- A portable self-powered radio, two-way radio, or weather band radio selling for $75 or less.
- A tarpaulin or other flexible waterproof sheeting selling for $50 or less.
- An item typically sold or advertised as a ground anchor system or tie-down kit selling for $50 or less.
- A gas or diesel fuel tank selling for $25 or less.
- A package of AAA-cell, AA-cell, C-cell, D-cell, 6-volt, or 9-volt batteries, excluding automobile and boat batteries, selling for $30 or less.
- A portable power bank intended to be used to charge cellular telephones and other small electronic devices and selling for $75 or less.
- A cellular telephone charger selling for $40 or less.
- A non-electric food storage cooler selling for $30 or less.
- A carbon monoxide detector selling for $75 or less.
- Reusable ice selling for $10 or less.
- A single product consisting of two or more of the previously listed items selling for $75 or less.
- A portable generator selling for $1,000 or less used to provide light, support communications, or preserve food during a power outage.
- A standby generator selling for $5,000 or less which is intended to be permanently affixed to real property.
- A personal locator beacon selling for $600 or less.
- An emergency position-indicating radio beacon selling for $1,500 or less.

Sales within public lodging establishments,[18] theme parks or entertainment complexes,[19] or airports[20] are not exempt from taxes under this bill.

The bill authorizes the Department of Revenue (DOR) to adopt emergency rules in order to implement the sales tax exemption.

Section 3 appropriates $70,072 in nonrecurring funds from the General Revenue Fund to the DOR in Fiscal Year 2017-18 to administer the holidays.

[18] Section 509.013(4), F.S.
[19] Section 509.013(9), F.S.
[20] Section 330.27(2), F.S.

Section 4 provides that the bill is effective upon becoming law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18 of the Florida Constitution governs laws that require counties and municipalities to spend funds or that limit their ability to raise revenue or receive state tax revenues.

Subsection (b) of s. 18, Art. VII, Florida Constitution, provides, that except upon approval of each house of the Legislature by two-thirds vote of the membership, the legislature may not enact, amend, or repeal any general law if the anticipated effect of doing so would be to reduce the authority that municipalities or counties have to raise revenue in the aggregate, as such authority existed on February 1, 1989. However, the mandates requirements do not apply to laws having an insignificant impact,[21] which for Fiscal Year 2017-2018, is $2.1 million or less.[22]

The Revenue Estimating Conference estimates this bill will reduce the authority that counties have to raise revenue from the local options sales tax by $1.3 million. Therefore, this bill has an insignificant fiscal impact on local governments and may not be a mandate requiring a two-thirds vote of the membership.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference estimates that the documentary stamp tax exemption provided by this bill will reduce General Revenue Fund receipts and state trust fund receipts by an indeterminate amount in Fiscal Year 2018-2019 and each year thereafter.[23]

---

[21] An insignificant fiscal impact is the amount not greater than the average statewide population for the applicable fiscal year times $0.10. *See* Florida Senate Committee on Community Affairs, *Interim Report 2012-115: Insignificant Impact*, (September 2011), *available at* http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf (last visited Nov. 9, 2017).

[22] Based on the Demographic Estimating Conference's population adopted on December 5, 2017. The conference packet is available at http://edr.state.fl.us/Content/conferences/population/ConferenceResults.pdf (last visited Dec. 22, 2017).

[23] *Supra note 6.*

The Revenue Estimating Conference estimates that the disaster preparedness sales tax holidays in this bill will reduce General Revenue Fund receipts by $9.9 million and reduce local government revenues by $2.6 million in Fiscal Year 2018-2019.[24]

B. Private Sector Impact:

Indeterminate, but positive. Consumers may see a reduction in the cost of the specified products related to disaster preparation and protection.

C. Government Sector Impact:

The DOR estimates the cost associated with notifying businesses of the sales tax exemption, by printing and mailing a tax information publication, will be approximately $70,072.[25]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

The bill creates section 201.25 of the Florida Statutes.
The bill creates an undesignated section of Florida law.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Finance and Tax on January 16, 2018:
The committee substitute (CS) exempts from the tax on documents:

- Loans made by the Florida Small Business Emergency Bridge Loan Program that are in response to a disaster, which disaster must be declared by executive order or proclamation by the Governor.
- Loans made by the Agricultural Economic Development Program.

The CS creates two 7-day periods when items purchased for disaster preparedness are exempt from sales tax. The first period, beginning at 12:01 a.m. on Friday, June 1, 2018, and ending Thursday, June 7, 2018, coincides with the start of the Atlantic hurricane

[24] Florida Legislature, Office of Economic and Demographic Research, Revenue Estimating Conference, *Disaster Preparedness Holiday, SB620-Proposed Amendment*, Jan 12, 2018 Revenue Impact Results, *available at http://edr.state.fl.us/Content/conferences/revenueimpact/archives/2018/_pdf/page295-301.pdf.*
[25] Florida Department of Revenue, *2018 Agency Legislative Bill Analysis: SB 620* (Nov. 3, 3017) (on file with the Senate Commerce and Tourism Committee).

season. The second period begins at 12:01 a.m. on Friday, July 6, 2018, and ends Thursday, July 12, 2018.

The CS removes from the list of exempt items in CS/SB 620:
- Cellphone batteries;
- Storm shutter devices;
- External portable computer drives; and
- Inverters or uninterruptible power supply systems.

The CS adds to the list of exempt items in CS/SB 620:
- Portable power banks intended to be used to charge cellular telephones and other small electronic devices.
- Standby generators intended to be permanently affixed to real property selling for $5,000 or less.

CS by Commerce and Tourism Committee on November 13, 2017:
The bill is amended to specify the amount of the appropriation to the DOR to administer the sales tax exemption. For the 2017-2018 fiscal year, the bill appropriates $70,072 in nonrecurring funds from the General Revenue Fund to the DOR.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

177326

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
03/02/2018	.	
	.	
	.	
	.	

The Committee on Appropriations (Stargel) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Effective January 1, 2019, subsection (6) of section 28.241, Florida Statutes, is amended to read:

28.241 Filing fees for trial and appellate proceedings.—

(6) From each attorney appearing pro hac vice, the clerk of the circuit court shall collect a fee of $100 for deposit into the State Courts Revenue Trust Fund ~~General Revenue Fund~~.

177326

Section 2. Section 159.621, Florida Statutes, is amended to read:

159.621 Housing bonds exempted from taxation; notes and mortgages exempted from excise tax on documents.—

(1) The bonds of a housing finance authority issued under this act, together with all notes, mortgages, security agreements, letters of credit, or other instruments which arise out of or are given to secure the repayment of bonds issued in connection with the financing of any housing development under this part, as well as the interest thereon and income therefrom, shall be exempt from all taxes.

(2) Any note or mortgage given in connection with a loan made by or on behalf of a housing finance authority under s. 159.608(8) is exempt from the excise tax on documents under chapter 201 if, at the time the note or mortgage is recorded, the housing finance authority records an affidavit signed by an agent of the housing authority which affirms that the loan was made by or on behalf of the housing finance authority. The documentation must be in the form of an affidavit or letter from the housing finance authority and signed by the agent of the authority. The affidavit or letter must be recorded with the mortgage.

The exemptions ~~exemption~~ granted by this section do not apply ~~shall not~~ ~~be applicable~~ to any tax imposed by chapter 220 on interest, income, or profits on debt obligations owned by corporations or to a deed for property financed by a housing finance authority.

Section 3. Effective upon this act becoming a law, section

177326

193.0237, Florida Statutes, is created to read:

193.0237 Assessment of multiple parcel buildings.—

(1) As used in this section, the term:

(a) "Multiple parcel building" means a building, other than a building consisting entirely of a single condominium, timeshare, or cooperative, which contains separate parcels that are vertically located, in whole or in part, on or over the same land.

(b) "Parcel" means a portion of a multiple parcel building which is identified in a recorded instrument by a legal description that is sufficient for record ownership and conveyance by deed separately from any other portion of the building.

(c) "Recorded instrument" means a declaration, covenant, easement, deed, plat, agreement, or other legal instrument, other than a lease, mortgage, or lien, which describes one or more parcels in a multiple parcel building and which is recorded in the public records of the county where the multiple parcel building is located.

(2) The value of land upon which a multiple parcel building is located, regardless of ownership, may not be separately assessed and must be allocated among and included in the just value of all the parcels in the multiple parcel building as provided in subsection (3).

(3) The property appraiser, for assessment purposes, must allocate all of the just value of the land among the parcels in a multiple parcel building in the same proportion that the just value of the improvements in each parcel bears to the total just value of all the improvements in the entire multiple parcel

building.

(4) A condominium, timeshare, or cooperative may be created within a parcel in a multiple parcel building. Any land value allocated to the just value of a parcel containing a condominium must be further allocated among the condominium units in that parcel in the manner required in s. 193.023(5). Any land value allocated to the just value of a parcel containing a cooperative must be further allocated among the cooperative units in that parcel in the manner required in s. 719.114.

(5) Each parcel in a multiple parcel building must be assigned a separate tax folio number. However, if a condominium or cooperative is created within any such parcel, a separate tax folio number must be assigned to each condominium unit or cooperative unit, rather than to the parcel in which it was created.

(6) All provisions of a recorded instrument affecting a parcel in a multiple parcel building, which parcel has been sold for taxes or special assessments, survive and are enforceable after the issuance of a tax deed or master's deed, or upon foreclosure of an assessment, a certificate or lien, a tax deed, a tax certificate, or a tax lien, to the same extent that such provisions would be enforceable against a voluntary grantee of the title immediately before the delivery of the tax deed, master's deed, or clerk's certificate of title as provided in s. 197.573.

(7) This section applies to any land on which a multiple parcel building is substantially completed as of January 1 of the respective assessment year. This section applies to assessments beginning in the 2018 calendar year.

Section 4. Section 193.4516, Florida Statutes, is created to read:

193.4516 Assessment of citrus fruit packing and processing equipment rendered unused due to Hurricane Irma or citrus greening.—

(1) For purposes of ad valorem taxation, and applying to the 2018 tax roll only, tangible personal property owned and operated by a citrus fruit packing or processing facility is deemed to have a market value no greater than its value for salvage, provided the tangible personal property is no longer used in the operation of the facility due to the effects of Hurricane Irma or to citrus greening.

(2) As used in this section, the term "citrus" has the same meaning as provided in s. 581.011(7).

Section 5. The creation by this act of s. 193.4516, Florida Statutes, applies to the 2018 property tax roll.

Section 6. Subsection (8) is added to section 193.461, Florida Statutes, to read:

193.461 Agricultural lands; classification and assessment; mandated eradication or quarantine program.—

(8) Lands classified for assessment purposes as agricultural lands, which are not being used for agricultural production due to a hurricane that made landfall in this state during calendar year 2017, must continue to be classified as agricultural lands for assessment purposes through December 31, 2022, unless the lands are converted to a nonagricultural use. Lands converted to nonagricultural use are not covered by this subsection and must be assessed as otherwise provided by law.

Section 7. The amendment made by this act to s. 193.461,

Florida Statutes, applies to the 2018 property tax roll.

Section 8. Subsection (2) of section 196.173, Florida Statutes, is amended to read:

196.173 Exemption for deployed servicemembers.—

(2) The exemption is available to servicemembers who were deployed during the preceding calendar year on active duty outside the continental United States, Alaska, or Hawaii in support of any of the following military operations:

(a) Operation Joint Task Force Bravo, which began in 1995.

(b) Operation Joint Guardian, which began on June 12, 1999.

(c) Operation Noble Eagle, which began on September 15, 2001.

(d) Operation Enduring Freedom, which began on October 7, 2001, and ended on December 31, 2014.

(e) Operations in the Balkans, which began in 2004.

(f) Operation Nomad Shadow, which began in 2007.

(g) Operation U.S. Airstrikes Al Qaeda in Somalia, which began in January 2007.

(h) Operation Copper Dune, which began in 2009.

(i) Operation Georgia Deployment Program, which began in August 2009.

~~(j) Operation New Dawn, which began on September 1, 2010, and ended on December 15, 2011.~~

~~(k) Operation Odyssey Dawn, which began on March 19, 2011, and ended on October 31, 2011.~~

(j) ~~(l)~~ Operation Spartan Shield, which began in June 2011.

(k) ~~(m)~~ Operation Observant Compass, which began in October 2011.

(l) ~~(n)~~ Operation Inherent Resolve, which began on August 8,

2014.

(m) ~~(o)~~ Operation Atlantic Resolve, which began in April 2014.

(n) ~~(p)~~ Operation Freedom's Sentinel, which began on January 1, 2015.

(o) ~~(q)~~ Operation Resolute Support, which began in January 2015.

The Department of Revenue shall notify all property appraisers and tax collectors in this state of the designated military operations.

Section 9. Subsection (1) of section 196.24, Florida Statutes, is amended to read:

196.24 Exemption for disabled ex-servicemember or surviving spouse; evidence of disability.—

(1) Any ex-servicemember, as defined in s. 196.012, who is a bona fide resident of the state, who was discharged under honorable conditions, and who has been disabled to a degree of 10 percent or more by misfortune or while serving during a period of wartime service as defined in s. 1.01(14) is entitled to the exemption from taxation provided for in s. 3(b), Art. VII of the State Constitution as provided in this section. Property to the value of $5,000 of such a person is exempt from taxation. The production by him or her of a certificate of disability from the United States Government or the United States Department of Veterans Affairs or its predecessor before the property appraiser of the county wherein the ex-servicemember's property lies is prima facie evidence of the fact that he or she is entitled to the exemption. The unremarried surviving spouse of

such a disabled ex-servicemember ~~who, on the date of the disabled ex-servicemember's death, had been married to the disabled ex-servicemember for at least 5 years~~ is also entitled to the exemption.

Section 10. Effective upon this act becoming a law, section 197.3631, Florida Statutes, is amended to read:

197.3631 Non-ad valorem assessments; general provisions.—

(1) Non-ad valorem assessments as defined in s. 197.3632 may be collected pursuant to the method provided for in ss. 197.3632 and 197.3635. Non-ad valorem assessments may also be collected pursuant to any alternative method which is authorized by law, but such alternative method shall not require the tax collector or property appraiser to perform those services as provided for in ss. 197.3632 and 197.3635. However, a property appraiser or tax collector may contract with a local government to supply information and services necessary for any such alternative method. Section 197.3632 is additional authority for local governments to impose and collect non-ad valorem assessments supplemental to the home rule powers pursuant to ss. 125.01 and 166.021 and chapter 170, or any other law. Any county operating under a charter adopted pursuant to s. 11, Art. VIII of the Constitution of 1885, as amended, as referred to in s. 6(e), Art. VIII of the Constitution of 1968, as amended, may use any method authorized by law for imposing and collecting non-ad valorem assessments.

(2) For non-ad valorem special assessments based on the size or area of the land containing a multiple parcel building, regardless of ownership, the special assessment must be levied on and allocated among all the parcels in the multiple parcel

building on the same basis that the land value is allocated among the parcels in s. 193.0237(3). For non-ad valorem assessments not based on the size or area of the land, each parcel in the multiple parcel building shall be subject to a separate assessment. For purposes of this subsection, the terms "multiple parcel building" and "parcel" have the meanings as provided in s. 193.0237(1).

Section 11. Effective upon this act becoming a law, section 197.572, Florida Statutes, is amended to read:

197.572 Easements for conservation purposes, ~~or for~~ public service purposes, support of certain improvements, or for drainage or ingress and egress survive tax sales and deeds.—When any lands are sold for the nonpayment of taxes, or any tax certificate is issued thereon by a governmental unit or agency or pursuant to any tax lien foreclosure proceeding, the title to the lands shall continue to be subject to any easement for conservation purposes as provided in s. 704.06 or for telephone, telegraph, pipeline, power transmission, or other public service purpose; and shall continue to be subject to any easement that supports improvements that may be constructed above the lands; and any easement for the purposes of drainage or of ingress and egress to and from other land. The easement and the rights of the owner of it shall survive and be enforceable after the execution, delivery, and recording of a tax deed, a master's deed, or a clerk's certificate of title pursuant to foreclosure of a tax deed, tax certificate, or tax lien, to the same extent as though the land had been conveyed by voluntary deed. The easement must be evidenced by written instrument recorded in the office of the clerk of the circuit court in the county where

177326

such land is located before the recording of such tax deed or master's deed, or, if not recorded, an easement for a public service purpose must be evidenced by wires, poles, or other visible occupation, an easement for drainage must be evidenced by a waterway, water bed, or other visible occupation, and an easement for the purpose of ingress and egress must be evidenced by a road or other visible occupation to be entitled to the benefit of this section; however, this shall apply only to tax deeds issued after the effective date of this act.

Section 12. Effective upon this act becoming a law, subsections (1) and (2) of section 197.573, Florida Statutes, are amended to read:

197.573 Survival of restrictions and covenants after tax sale.—

(1) When a deed or other recorded instrument in the chain of title contains restrictions and covenants running with the land, as hereinafter defined and limited, the restrictions and covenants shall survive and be enforceable after the issuance of a tax deed or master's deed, or a clerk's certificate of title upon foreclosure of a tax deed, tax certificate, or tax lien, to the same extent that it would be enforceable against a voluntary grantee of the owner of the title immediately before the delivery of the tax deed, master's deed, or clerk's certificate of title.

(2) This section applies ~~shall apply~~ to the usual restrictions and covenants limiting the use of property; the type, character and location of building; covenants against nuisances and what the former parties deemed to be undesirable conditions, in, upon, and about the property; and other similar

restrictions and covenants; but this section does ~~shall~~ not protect covenants that:

(a) Create ~~creating~~ any debt or lien against or upon the property, except one providing for satisfaction or survival of a lien of record held by a municipal or county governmental unit, or one providing a lien for assessments accruing after such tax deed, master's deed, or clerk's certificate of title to a condominium association, homeowners' association, property owners' association, or person having assessment powers under such covenants; or

(b) Require ~~requiring~~ the grantee to expend money for any purpose, except one that may require that the premises be kept in a sanitary or sightly condition or one to abate nuisances or undesirable conditions.

Section 13. Subsection (7) of section 201.02, Florida Statutes, is amended to read:

201.02 Tax on deeds and other instruments relating to real property or interests in real property.—

(7) Taxes imposed by this section do not apply to:

(a) A deed, transfer, or conveyance between spouses or former spouses pursuant to an action for dissolution of their marriage wherein the real property is or was their marital home or an interest therein. Taxes paid pursuant to this section shall be refunded in those cases in which a deed, transfer, or conveyance occurred 1 year before a dissolution of marriage. This paragraph ~~subsection~~ applies in spite of any consideration as defined in subsection (1). This paragraph ~~subsection~~ does not apply to a deed, transfer, or conveyance executed before July 1, 1997.

177326

(b) A deed or other instrument that transfers or conveys homestead property or any interest in homestead property between spouses, if the only consideration for the transfer or conveyance is the amount of a mortgage or other lien encumbering the homestead property at the time of the transfer or conveyance and if the deed or other instrument is recorded within 1 year after the date of the marriage. This paragraph applies to transfers or conveyances from one spouse to another, from one spouse to both spouses, or from both spouses to one spouse. For the purpose of this paragraph, the term "homestead property" has the same meaning as the term "homestead" as defined in s. 192.001.

Section 14. Section 201.25, Florida Statutes, is created to read:

201.25 Tax exemptions for certain loans.—There shall be exempt from all taxes imposed by this chapter:

(1) Any loan made by the Florida Small Business Emergency Bridge Loan Program in response to a disaster that results in a state of emergency declared by executive order or proclamation of the Governor pursuant to s. 252.36.

(2) Any loan made by the Agricultural Economic Development Program pursuant to s. 570.82.

Section 15. Subsections (3) and (8) of section 206.9952, Florida Statutes, are amended to read:

206.9952 Application for license as a natural gas fuel retailer.—

(3)(a) Any person who acts as a natural gas retailer and does not hold a valid natural gas fuel retailer license shall pay a penalty of $200 for each month of operation without a

177326

license. This paragraph expires December 31, 2023 ~~2018~~.

(b) Effective January 1, 2024 ~~2019~~, any person who acts as a natural gas fuel retailer and does not hold a valid natural gas fuel retailer license shall pay a penalty of 25 percent of the tax assessed on the total purchases made during the unlicensed period.

(8) With the exception of a state or federal agency or a political subdivision licensed under this chapter, each person, as defined in this part, who operates as a natural gas fuel retailer shall report monthly to the department and pay a tax on all natural gas fuel purchases beginning January 1, 2024 ~~2019~~.

Section 16. Subsection (2) of section 206.9955, Florida Statutes, is amended to read:

206.9955 Levy of natural gas fuel tax.—

(2) Effective January 1, 2024 ~~2019~~, the following taxes shall be imposed:

(a) An excise tax of 4 cents upon each motor fuel equivalent gallon of natural gas fuel.

(b) An additional tax of 1 cent upon each motor fuel equivalent gallon of natural gas fuel, which is designated as the "ninth-cent fuel tax."

(c) An additional tax of 1 cent on each motor fuel equivalent gallon of natural gas fuel by each county, which is designated as the "local option fuel tax."

(d) An additional tax on each motor fuel equivalent gallon of natural gas fuel, which is designated as the "State Comprehensive Enhanced Transportation System Tax," at a rate determined pursuant to this paragraph. Before January 1, 2024, and each year thereafter ~~Each calendar year~~, the department

177326

shall determine the tax rate applicable to the sale of natural gas fuel for the following 12-month period beginning January 1, rounded to the nearest tenth of a cent, by adjusting the ~~initially established~~ tax rate of 5.8 cents per gallon by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30, compared to the base year average, which is the average for the 12-month period ending September 30, 2013.

(e)1. An additional tax is imposed on each motor fuel equivalent gallon of natural gas fuel for the privilege of selling natural gas fuel. Before January 1, 2024, and each year thereafter ~~Each calendar year~~, the department shall determine the tax rate applicable to the sale of natural gas fuel, rounded to the nearest tenth of a cent, for the following 12-month period beginning January 1, ~~. The tax rate is calculated~~ by adjusting the ~~initially established~~ tax rate of 9.2 cents per gallon by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30, compared to the base year average, which is the average for the 12-month period ending September 30, 2013.

2. The department is authorized to adopt rules and publish forms to administer this paragraph.

Section 17. Subsection (1) of section 206.996, Florida Statutes, is amended to read:

206.996 Monthly reports by natural gas fuel retailers; deductions.—

(1) For the purpose of determining the amount of taxes

177326

imposed by s. 206.9955, each natural gas fuel retailer shall file beginning with February 2024 ~~2019~~, and each month thereafter, no later than the 20th day of each month, monthly reports electronically with the department showing information on inventory, purchases, nontaxable disposals, taxable uses, and taxable sales in gallons of natural gas fuel for the preceding month. However, if the 20th day of the month falls on a Saturday, Sunday, or federal or state legal holiday, a return must be accepted if it is electronically filed on the next succeeding business day. The reports must include, or be verified by, a written declaration stating that such report is made under the penalties of perjury. The natural gas fuel retailer shall deduct from the amount of taxes shown by the report to be payable an amount equivalent to 0.67 percent of the taxes on natural gas fuel imposed by s. 206.9955(2)(a) and (e), which deduction is allowed to the natural gas fuel retailer to compensate it for services rendered and expenses incurred in complying with the requirements of this part. This allowance is not deductible unless payment of applicable taxes is made on or before the 20th day of the month. This subsection may not be construed as authorizing a deduction from the constitutional fuel tax or the fuel sales tax.

Section 18. Section 210.205, Florida Statutes, is created to read:

210.205 Cigarette tax distribution reporting.—By March 15 of each year, each entity that received a distribution pursuant to s. 210.20(2)(b) in the preceding calendar year shall report to the Office of Economic and Demographic Research the following information:

(1) An itemized accounting of all expenditures of the funds distributed in the preceding calendar year, including amounts spent on debt service.

(2) A statement indicating what portion of the distributed funds have been pledged for debt service.

(3) The original principal amount and current debt service schedule of any bonds or other borrowing for which the distributed funds have been pledged for debt service.

Section 19. Effective January 1, 2019, paragraphs (c) and (d) of subsection (1) of section 212.031, Florida Statutes, are amended to read:

212.031 Tax on rental or license fee for use of real property.—

(1)

(c) For the exercise of such privilege, a tax is levied at the rate of 5.7 ~~5.8~~ percent of and on the total rent or license fee charged for such real property by the person charging or collecting the rental or license fee. The total rent or license fee charged for such real property shall include payments for the granting of a privilege to use or occupy real property for any purpose and shall include base rent, percentage rents, or similar charges. Such charges shall be included in the total rent or license fee subject to tax under this section whether or not they can be attributed to the ability of the lessor’s or licensor’s property as used or operated to attract customers. Payments for intrinsically valuable personal property such as franchises, trademarks, service marks, logos, or patents are not subject to tax under this section. In the case of a contractual arrangement that provides for both payments taxable as total

rent or license fee and payments not subject to tax, the tax shall be based on a reasonable allocation of such payments and shall not apply to that portion which is for the nontaxable payments.

(d) When the rental or license fee of any such real property is paid by way of property, goods, wares, merchandise, services, or other thing of value, the tax shall be at the rate of 5.7 ~~5.8~~ percent of the value of the property, goods, wares, merchandise, services, or other thing of value.

Section 20. Paragraph (d) of subsection (2) of section 212.055, Florida Statutes, is amended to read:

212.055 Discretionary sales surtaxes; legislative intent; authorization and use of proceeds.—It is the legislative intent that any authorization for imposition of a discretionary sales surtax shall be published in the Florida Statutes as a subsection of this section, irrespective of the duration of the levy. Each enactment shall specify the types of counties authorized to levy; the rate or rates which may be imposed; the maximum length of time the surtax may be imposed, if any; the procedure which must be followed to secure voter approval, if required; the purpose for which the proceeds may be expended; and such other requirements as the Legislature may provide. Taxable transactions and administrative procedures shall be as provided in s. 212.054.

(2) LOCAL GOVERNMENT INFRASTRUCTURE SURTAX.—

(d) The proceeds of the surtax authorized by this subsection and any accrued interest shall be expended by the school district, within the county and municipalities within the county, or, in the case of a negotiated joint county agreement,

within another county, to finance, plan, and construct infrastructure; to acquire any interest in land for public recreation, conservation, or protection of natural resources or to prevent or satisfy private property rights claims resulting from limitations imposed by the designation of an area of critical state concern; to provide loans, grants, or rebates to residential or commercial property owners who make energy efficiency improvements to their residential or commercial property, if a local government ordinance authorizing such use is approved by referendum; or to finance the closure of county-owned or municipally owned solid waste landfills that have been closed or are required to be closed by order of the Department of Environmental Protection. Any use of the proceeds or interest for purposes of landfill closure before July 1, 1993, is ratified. The proceeds and any interest may not be used for the operational expenses of infrastructure, except that a county that has a population of fewer than 75,000 and that is required to close a landfill may use the proceeds or interest for long-term maintenance costs associated with landfill closure. Counties, as defined in s. 125.011, and charter counties may, in addition, use the proceeds or interest to retire or service indebtedness incurred for bonds issued before July 1, 1987, for infrastructure purposes, and for bonds subsequently issued to refund such bonds. Any use of the proceeds or interest for purposes of retiring or servicing indebtedness incurred for refunding bonds before July 1, 1999, is ratified.

1. For the purposes of this paragraph, the term "infrastructure" means:

a. Any fixed capital expenditure or fixed capital outlay

associated with the construction, reconstruction, or improvement of public facilities that have a life expectancy of 5 or more years, any related land acquisition, land improvement, design, and engineering costs, and all other professional and related costs required to bring the public facilities into service. For purposes of this sub-subparagraph, the term "public facilities" means facilities as defined in s. 163.3164(38), s. 163.3221(13), or s. 189.012(5), and includes facilities that are necessary to carry out governmental purposes, including, but not limited to, fire stations, general governmental office buildings, and animal shelters, regardless of whether the facilities are owned by the local taxing authority or another governmental entity.

b. A fire department vehicle, an emergency medical service vehicle, a sheriff's office vehicle, a police department vehicle, or any other vehicle, and the equipment necessary to outfit the vehicle for its official use or equipment that has a life expectancy of at least 5 years.

c. Any expenditure for the construction, lease, or maintenance of, or provision of utilities or security for, facilities, as defined in s. 29.008.

d. Any fixed capital expenditure or fixed capital outlay associated with the improvement of private facilities that have a life expectancy of 5 or more years and that the owner agrees to make available for use on a temporary basis as needed by a local government as a public emergency shelter or a staging area for emergency response equipment during an emergency officially declared by the state or by the local government under s. 252.38. Such improvements are limited to those necessary to comply with current standards for public emergency evacuation

177326

shelters. The owner must enter into a written contract with the local government providing the improvement funding to make the private facility available to the public for purposes of emergency shelter at no cost to the local government for a minimum of 10 years after completion of the improvement, with the provision that the obligation will transfer to any subsequent owner until the end of the minimum period.

e. Any land acquisition expenditure for a residential housing project in which at least 30 percent of the units are affordable to individuals or families whose total annual household income does not exceed 120 percent of the area median income adjusted for household size, if the land is owned by a local government or by a special district that enters into a written agreement with the local government to provide such housing. The local government or special district may enter into a ground lease with a public or private person or entity for nominal or other consideration for the construction of the residential housing project on land acquired pursuant to this sub-subparagraph.

f. Instructional technology used solely in a school district's classrooms. As used in this sub-subparagraph, the term "instructional technology" means an interactive device that assists a teacher in instructing a class or a group of students, and includes the necessary hardware and software to operate the interactive device. The term also includes support systems in which an interactive device may mount and is not required to be affixed to the facilities.

2. For the purposes of this paragraph, the term "energy efficiency improvement" means any energy conservation and

efficiency improvement that reduces consumption through conservation or a more efficient use of electricity, natural gas, propane, or other forms of energy on the property, including, but not limited to, air sealing; installation of insulation; installation of energy-efficient heating, cooling, or ventilation systems; installation of solar panels; building modifications to increase the use of daylight or shade; replacement of windows; installation of energy controls or energy recovery systems; installation of electric vehicle charging equipment; installation of systems for natural gas fuel as defined in s. 206.9951; and installation of efficient lighting equipment.

3. Notwithstanding any other provision of this subsection, a local government infrastructure surtax imposed or extended after July 1, 1998, may allocate up to 15 percent of the surtax proceeds for deposit into a trust fund within the county's accounts created for the purpose of funding economic development projects having a general public purpose of improving local economies, including the funding of operational costs and incentives related to economic development. The ballot statement must indicate the intention to make an allocation under the authority of this subparagraph.

Section 21. Paragraph (p) of subsection (5) and paragraphs (p) and (ff) of subsection (7) of section 212.08, Florida Statutes, are amended, and paragraph (ooo) is added to subsection (7) of that section, to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the

storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(5) EXEMPTIONS; ACCOUNT OF USE.—

(p) *Community contribution tax credit for donations.*—

1. Authorization.—Persons who are registered with the department under s. 212.18 to collect or remit sales or use tax and who make donations to eligible sponsors are eligible for tax credits against their state sales and use tax liabilities as provided in this paragraph:

a. The credit shall be computed as 50 percent of the person’s approved annual community contribution.

b. The credit shall be granted as a refund against state sales and use taxes reported on returns and remitted in the 12 months preceding the date of application to the department for the credit as required in sub-subparagraph 3.c. If the annual credit is not fully used through such refund because of insufficient tax payments during the applicable 12-month period, the unused amount may be included in an application for a refund made pursuant to sub-subparagraph 3.c. in subsequent years against the total tax payments made for such year. Carryover credits may be applied for a 3-year period without regard to any time limitation that would otherwise apply under s. 215.26.

c. A person may not receive more than $200,000 in annual tax credits for all approved community contributions made in any one year.

d. All proposals for the granting of the tax credit require the prior approval of the Department of Economic Opportunity.

e. The total amount of tax credits which may be granted for

177326

all programs approved under this paragraph, s. 220.183, and s. 624.5105 is $10.5 million in the 2018-2019 fiscal year, $17 million ~~$21.4 million~~ in the 2019-2020 ~~2017-2018~~ fiscal year, and $10.5 million in each fiscal year thereafter for projects that provide housing opportunities for persons with special needs or homeownership opportunities for low-income households or very-low-income households and $3.5 million each fiscal year for all other projects. As used in this paragraph, the term "person with special needs" has the same meaning as in s. 420.0004 and the terms "low-income person," "low-income household," "very-low-income person," and "very-low-income household" have the same meanings as in s. 420.9071.

f. A person who is eligible to receive the credit provided in this paragraph, s. 220.183, or s. 624.5105 may receive the credit only under one section of the person's choice.

2. Eligibility requirements.—

a. A community contribution by a person must be in the following form:

(I) Cash or other liquid assets;

(II) Real property, including 100 percent ownership of a real property holding company;

(III) Goods or inventory; or

(IV) Other physical resources identified by the Department of Economic Opportunity.

For purposes of this sub-subparagraph, the term "real property holding company" means a Florida entity, such as a Florida limited liability company, that is wholly owned by the person; is the sole owner of real property, as defined in s.

192.001(12), located in the state; is disregarded as an entity for federal income tax purposes pursuant to 26 C.F.R. s. 301.7701-3(b)(1)(ii); and at the time of contribution to an eligible sponsor, has no material assets other than the real property and any other property that qualifies as a community contribution.

b. All community contributions must be reserved exclusively for use in a project. As used in this sub-subparagraph, the term "project" means activity undertaken by an eligible sponsor which is designed to construct, improve, or substantially rehabilitate housing that is affordable to low-income households or very-low-income households; designed to provide housing opportunities for persons with special needs; designed to provide commercial, industrial, or public resources and facilities; or designed to improve entrepreneurial and job-development opportunities for low-income persons. A project may be the investment necessary to increase access to high-speed broadband capability in a rural community that had an enterprise zone designated pursuant to chapter 290 as of May 1, 2015, including projects that result in improvements to communications assets that are owned by a business. A project may include the provision of museum educational programs and materials that are directly related to a project approved between January 1, 1996, and December 31, 1999, and located in an area which was in an enterprise zone designated pursuant to s. 290.0065 as of May 1, 2015. This paragraph does not preclude projects that propose to construct or rehabilitate housing for low-income households or very-low-income households on scattered sites or housing opportunities for persons with special needs. With respect to housing,

contributions may be used to pay the following eligible special needs, low-income, and very-low-income housing-related activities:

(I) Project development impact and management fees for special needs, low-income, or very-low-income housing projects;

(II) Down payment and closing costs for persons with special needs, low-income persons, and very-low-income persons;

(III) Administrative costs, including housing counseling and marketing fees, not to exceed 10 percent of the community contribution, directly related to special needs, low-income, or very-low-income projects; and

(IV) Removal of liens recorded against residential property by municipal, county, or special district local governments if satisfaction of the lien is a necessary precedent to the transfer of the property to a low-income person or very-low-income person for the purpose of promoting home ownership. Contributions for lien removal must be received from a nonrelated third party.

c. The project must be undertaken by an "eligible sponsor," which includes:

(I) A community action program;

(II) A nonprofit community-based development organization whose mission is the provision of housing for persons with specials needs, low-income households, or very-low-income households or increasing entrepreneurial and job-development opportunities for low-income persons;

(III) A neighborhood housing services corporation;

(IV) A local housing authority created under chapter 421;

(V) A community redevelopment agency created under s.

163.356;

(VI) A historic preservation district agency or organization;

(VII) A local workforce development board;

(VIII) A direct-support organization as provided in s. 1009.983;

(IX) An enterprise zone development agency created under s. 290.0056;

(X) A community-based organization incorporated under chapter 617 which is recognized as educational, charitable, or scientific pursuant to s. 501(c)(3) of the Internal Revenue Code and whose bylaws and articles of incorporation include affordable housing, economic development, or community development as the primary mission of the corporation;

(XI) Units of local government;

(XII) Units of state government; or

(XIII) Any other agency that the Department of Economic Opportunity designates by rule.

A contributing person may not have a financial interest in the eligible sponsor.

d. The project must be located in an area which was in an enterprise zone designated pursuant to chapter 290 as of May 1, 2015, or a Front Porch Florida Community, unless the project increases access to high-speed broadband capability in a rural community that had an enterprise zone designated pursuant to chapter 290 as of May 1, 2015, but is physically located outside the designated rural zone boundaries. Any project designed to construct or rehabilitate housing for low-income households or

177326

very-low-income households or housing opportunities for persons with special needs is exempt from the area requirement of this sub-subparagraph.

e.(I) If, during the first 10 business days of the state fiscal year, eligible tax credit applications for projects that provide housing opportunities for persons with special needs or homeownership opportunities for low-income households or very-low-income households are received for less than the annual tax credits available for those projects, the Department of Economic Opportunity shall grant tax credits for those applications and grant remaining tax credits on a first-come, first-served basis for subsequent eligible applications received before the end of the state fiscal year. If, during the first 10 business days of the state fiscal year, eligible tax credit applications for projects that provide housing opportunities for persons with special needs or homeownership opportunities for low-income households or very-low-income households are received for more than the annual tax credits available for those projects, the Department of Economic Opportunity shall grant the tax credits for those applications as follows:

(A) If tax credit applications submitted for approved projects of an eligible sponsor do not exceed $200,000 in total, the credits shall be granted in full if the tax credit applications are approved.

(B) If tax credit applications submitted for approved projects of an eligible sponsor exceed $200,000 in total, the amount of tax credits granted pursuant to sub-sub-sub-subparagraph (A) shall be subtracted from the amount of available tax credits, and the remaining credits shall be

granted to each approved tax credit application on a pro rata basis.

(II) If, during the first 10 business days of the state fiscal year, eligible tax credit applications for projects other than those that provide housing opportunities for persons with special needs or homeownership opportunities for low-income households or very-low-income households are received for less than the annual tax credits available for those projects, the Department of Economic Opportunity shall grant tax credits for those applications and shall grant remaining tax credits on a first-come, first-served basis for subsequent eligible applications received before the end of the state fiscal year. If, during the first 10 business days of the state fiscal year, eligible tax credit applications for projects other than those that provide housing opportunities for persons with special needs or homeownership opportunities for low-income households or very-low-income households are received for more than the annual tax credits available for those projects, the Department of Economic Opportunity shall grant the tax credits for those applications on a pro rata basis.

3. Application requirements.—

a. An eligible sponsor seeking to participate in this program must submit a proposal to the Department of Economic Opportunity which sets forth the name of the sponsor, a description of the project, and the area in which the project is located, together with such supporting information as is prescribed by rule. The proposal must also contain a resolution from the local governmental unit in which the project is located certifying that the project is consistent with local plans and

regulations.

b. A person seeking to participate in this program must submit an application for tax credit to the Department of Economic Opportunity which sets forth the name of the sponsor, a description of the project, and the type, value, and purpose of the contribution. The sponsor shall verify, in writing, the terms of the application and indicate its receipt of the contribution, and such verification must accompany the application for tax credit. The person must submit a separate tax credit application to the Department of Economic Opportunity for each individual contribution that it makes to each individual project.

c. A person who has received notification from the Department of Economic Opportunity that a tax credit has been approved must apply to the department to receive the refund. Application must be made on the form prescribed for claiming refunds of sales and use taxes and be accompanied by a copy of the notification. A person may submit only one application for refund to the department within a 12-month period.

4. Administration.—

a. The Department of Economic Opportunity may adopt rules necessary to administer this paragraph, including rules for the approval or disapproval of proposals by a person.

b. The decision of the Department of Economic Opportunity must be in writing, and, if approved, the notification shall state the maximum credit allowable to the person. Upon approval, the Department of Economic Opportunity shall transmit a copy of the decision to the department.

c. The Department of Economic Opportunity shall

periodically monitor all projects in a manner consistent with available resources to ensure that resources are used in accordance with this paragraph; however, each project must be reviewed at least once every 2 years.

d. The Department of Economic Opportunity shall, in consultation with the statewide and regional housing and financial intermediaries, market the availability of the community contribution tax credit program to community-based organizations.

(7) MISCELLANEOUS EXEMPTIONS.—Exemptions provided to any entity by this chapter do not inure to any transaction that is otherwise taxable under this chapter when payment is made by a representative or employee of the entity by any means, including, but not limited to, cash, check, or credit card, even when that representative or employee is subsequently reimbursed by the entity. In addition, exemptions provided to any entity by this subsection do not inure to any transaction that is otherwise taxable under this chapter unless the entity has obtained a sales tax exemption certificate from the department or the entity obtains or provides other documentation as required by the department. Eligible purchases or leases made with such a certificate must be in strict compliance with this subsection and departmental rules, and any person who makes an exempt purchase with a certificate that is not in strict compliance with this subsection and the rules is liable for and shall pay the tax. The department may adopt rules to administer this subsection.

(p) *Section 501(c)(3) organizations.*—

1. ~~Also~~ Exempt from the tax imposed by this chapter are

sales or leases to organizations determined by the Internal Revenue Service to be currently exempt from federal income tax pursuant to s. 501(c)(3) of the Internal Revenue Code of 1986, as amended, if such leases or purchases are used in carrying on their customary nonprofit activities, unless such organizations are subject to a final disqualification order issued by the Department of Agriculture and Consumer Services pursuant to s. 496.430.

2. Exempt from the tax imposed by this chapter is tangible personal property purchased for resale by a dealer and subsequently donated to an organization determined by the Internal Revenue Service to be currently exempt from federal income tax pursuant to s. 501(c)(3) of the Internal Revenue Code of 1986, as amended, unless such organization is subject to a final disqualification order issued by the Department of Agriculture and Consumer Services pursuant to s. 496.430. As used in this subparagraph, the term "donate" means any transfer of title or possession of tangible personal property to a s. 501(c)(3) organization for no consideration.

(ff) *Certain electricity or steam uses.*—

1. Subject to the provisions of subparagraph 4., charges for electricity or steam used to operate machinery and equipment at a fixed location in this state when such machinery and equipment is used to manufacture, process, compound, produce, or prepare for shipment items of tangible personal property for sale, or to operate pollution control equipment, recycling equipment, maintenance equipment, or monitoring or control equipment used in such operations are exempt to the extent provided in this paragraph. If 75 percent or more of the

electricity or steam used at the fixed location is used to operate qualifying machinery or equipment, 100 percent of the charges for electricity or steam used at the fixed location are exempt. If less than 75 percent but 50 percent or more of the electricity or steam used at the fixed location is used to operate qualifying machinery or equipment, 50 percent of the charges for electricity or steam used at the fixed location are exempt. If less than 50 percent of the electricity or steam used at the fixed location is used to operate qualifying machinery or equipment, none of the charges for electricity or steam used at the fixed location are exempt.

2. This exemption applies only to industries classified under SIC Industry Major Group Numbers 10, 12, 13, 14, 20, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, and 39 and Industry Group Number 212 and industries classified under NAICS code 423930. As used in this paragraph, "SIC" means those classifications contained in the Standard Industrial Classification Manual, 1987, as published by the Office of Management and Budget, Executive Office of the President. As used in this subparagraph, the term "NAICS" means those classifications contained in the North American Industry Classification System, as published in 2007 by the Office of Management and Budget, Executive Office of the President.

3. Possession by a seller of a written certification by the purchaser, certifying the purchaser's entitlement to an exemption permitted by this subsection, relieves the seller from the responsibility of collecting the tax on the nontaxable amounts, and the department shall look solely to the purchaser for recovery of such tax if it determines that the purchaser was

not entitled to the exemption.

4. Such exemption shall be applied as follows: beginning July 1, 2000, 100 percent of the charges for such electricity or steam shall be exempt.

(ooo) *Recycling roll off containers.*—Recycling roll off containers purchased by a business whose primary business activity is within the industry classified under NAICS code 423930 and which are used exclusively for business activities within the industry classified under NAICS code 423930 are exempt from the tax imposed by this chapter. As used in this paragraph, the term "NAICS" means those classifications contained in the North American Industry Classification System, as published in 2007 by the Office of Management and Budget, Executive Office of the President.

Section 22. Subsection (11) of section 212.12, Florida Statutes, is amended to read:

212.12 Dealer's credit for collecting tax; penalties for noncompliance; powers of Department of Revenue in dealing with delinquents; brackets applicable to taxable transactions; records required.—

(11) The department shall make available in an electronic format or otherwise the tax amounts and brackets applicable to all taxable transactions that occur in counties that have a surtax at a rate other than 1 percent which would otherwise have been transactions taxable at the rate of 6 percent. Likewise, the department shall make available in an electronic format or otherwise the tax amounts and brackets applicable to transactions taxable at 4.35 percent pursuant to s. 212.05(1)(e)1.c. or the applicable tax rate pursuant to s.

212.031(1) and on transactions which would otherwise have been so taxable in counties which have adopted a discretionary sales surtax.

Section 23. Section 212.205, Florida Statutes, is created to read:

212.205 Sales tax distribution reporting.—By March 15 of each year, each person who received a distribution pursuant to s. 212.20(6)(d)6.b.-f. in the preceding calendar year shall report to the Office of Economic and Demographic Research the following information:

(1) An itemized accounting of all expenditures of the funds distributed in the preceding calendar year, including amounts spent on debt service.

(2) A statement indicating what portion of the distributed funds have been pledged for debt service.

(3) The original principal amount, and current debt service schedule of any bonds or other borrowing for which the distributed funds have been pledged for debt service.

Section 24. Section 218.135, Florida Statutes, is created to read:

218.135 Offset for tax loss associated with reductions in value of certain citrus fruit packing and processing equipment.—

(1) For the 2018-2019 fiscal year, the Legislature shall appropriate moneys to offset the reductions in ad valorem tax revenue experienced by fiscally constrained counties, as defined in s. 218.67(1), which occur as a direct result of the implementation of s. 193.4516. The moneys appropriated for this purpose shall be distributed in January 2019 among the fiscally constrained counties based on each county's proportion of the

177326

total reduction in ad valorem tax revenue resulting from the implementation s. 193.4516.

(2) On or before November 15, 2018, each fiscally constrained county shall apply to the Department of Revenue to participate in the distribution of the appropriation and provide documentation supporting the county's estimated reduction in ad valorem tax revenue in the form and manner prescribed by the department. The documentation must include an estimate of the reduction in taxable value directly attributable to the implementation of s. 193.4516 for all county taxing jurisdictions within the county and shall be prepared by the property appraiser in each fiscally constrained county. The documentation shall also include the county millage rates applicable in all such jurisdictions for the current year. For purposes of this section, each fiscally constrained county's reduction in ad valorem tax revenue shall be calculated as 95 percent of the estimated reduction in taxable value multiplied by the applicable millage rate for each county taxing jurisdiction in the current year. If a fiscally constrained county fails to apply for the distribution, its share shall revert to the fund from which the appropriation was made.

Section 25. For the 2018-2019 fiscal year, the sum of $650,000 in nonrecurring funds is appropriated from the General Revenue Fund to the Department of Revenue to implement the provisions of s. 218.135, Florida Statutes.

Section 26. Paragraph (c) of subsection (1) of section 220.183, Florida Statutes, is amended to read:

220.183 Community contribution tax credit.—

(1) AUTHORIZATION TO GRANT COMMUNITY CONTRIBUTION TAX

CREDITS; LIMITATIONS ON INDIVIDUAL CREDITS AND PROGRAM SPENDING.—

(c) The total amount of tax credit which may be granted for all programs approved under this section, s. 212.08(5)(p), and s. 624.5105 is $10.5 million in the 2018-2019 fiscal year, $17 million ~~$21.4 million~~ in the 2019-2020 ~~2017-2018~~ fiscal year, and $10.5 million in each fiscal year thereafter for projects that provide housing opportunities for persons with special needs as defined in s. 420.0004 and homeownership opportunities for low-income households or very-low-income households as defined in s. 420.9071 and $3.5 million each fiscal year for all other projects.

Section 27. Paragraph (f) of subsection (2) of section 220.1845, Florida Statutes, is amended to read:

220.1845 Contaminated site rehabilitation tax credit.—

(2) AUTHORIZATION FOR TAX CREDIT; LIMITATIONS.—

(f) The total amount of the tax credits which may be granted under this section is $21 million in the 2018-2019 fiscal year and $10 million each fiscal year thereafter.

Section 28. Effective January 1, 2019, subsection (9) of section 318.14, Florida Statutes, is amended to read:

318.14 Noncriminal traffic infractions; exception; procedures.—

(9) Any person who does not hold a commercial driver license or commercial learner’s permit and who is cited while driving a noncommercial motor vehicle for an infraction under this section other than a violation of s. 316.183(2), s. 316.187, or s. 316.189 when the driver exceeds the posted limit by 30 miles per hour or more, s. 320.0605, s. 320.07(3)(a) or

(b), s. 322.065, s. 322.15(1), s. 322.61, or s. 322.62 may, in lieu of a court appearance, elect to attend in the location of his or her choice within this state a basic driver improvement course approved by the Department of Highway Safety and Motor Vehicles. In such a case, adjudication must be withheld, any civil penalty that is imposed by s. 318.18(3) must be reduced by 18 percent, and points, as provided by s. 322.27, may not be assessed. However, a person may not make an election under this subsection if the person has made an election under this subsection in the preceding 12 months. A person may not make more than five elections within his or her lifetime under this subsection. The requirement for community service under s. 318.18(8) is not waived by a plea of nolo contendere or by the withholding of adjudication of guilt by a court. ~~If a person makes an election to attend a basic driver improvement course under this subsection, 18 percent of the civil penalty imposed under s. 318.18(3) shall be deposited in the State Courts Revenue Trust Fund; however, that portion is not revenue for purposes of s. 28.36 and may not be used in establishing the budget of the clerk of the court under that section or s. 28.35.~~

Section 29. Effective January 1, 2019, paragraph (b) of subsection (1) of section 318.15, Florida Statutes, is amended to read:

318.15 Failure to comply with civil penalty or to appear; penalty.—

(1)

(b) However, a person who elects to attend driver improvement school and has paid the civil penalty as provided in s. 318.14(9), but who subsequently fails to attend the driver

177326

improvement school within the time specified by the court is ~~shall be~~ deemed to have admitted the infraction and shall be adjudicated guilty. If the person received ~~In such a case in which there was~~ an 18-percent reduction pursuant to s. 318.14(9) ~~as it existed before February 1, 2009~~, the person must pay the clerk of the court that amount and a processing fee of up to $18, after which ~~no~~ additional penalties, court costs, or surcharges may not ~~shall~~ be imposed for the violation. In all other such cases, the person must pay the clerk a processing fee of up to $18, after which ~~no~~ additional penalties, court costs, or surcharges may not ~~shall~~ be imposed for the violation. The clerk of the court shall notify the department of the person's failure to attend driver improvement school and points shall be assessed pursuant to s. 322.27.

Section 30. Paragraphs (m) and (n) of subsection (4) of section 320.08, Florida Statutes, are amended to read:

320.08 License taxes.—Except as otherwise provided herein, there are hereby levied and imposed annual license taxes for the operation of motor vehicles, mopeds, motorized bicycles as defined in s. 316.003(3), tri-vehicles as defined in s. 316.003, and mobile homes as defined in s. 320.01, which shall be paid to and collected by the department or its agent upon the registration or renewal of registration of the following:

(4) HEAVY TRUCKS, TRUCK TRACTORS, FEES ACCORDING TO GROSS VEHICLE WEIGHT.—

(m) Notwithstanding the declared gross vehicle weight, a truck tractor used within the state ~~a 150-mile radius of its home address~~ is eligible for a license plate for a fee of $324 flat if:

177326

1. The truck tractor is used exclusively for hauling forestry products; or

2. The truck tractor is used primarily for the hauling of forestry products, and is also used for the hauling of associated forestry harvesting equipment used by the owner of the truck tractor.

Of the fee imposed by this paragraph, $84 shall be deposited into the General Revenue Fund.

(n) A truck tractor or heavy truck, not operated as a for-hire vehicle and~~,~~ which is engaged exclusively in transporting raw, unprocessed, and nonmanufactured agricultural or horticultural products within the state ~~a 150-mile radius of its home address,~~ is eligible for a restricted license plate for a fee of:

1. If such vehicle's declared gross vehicle weight is less than 44,000 pounds, $87.75 flat, of which $22.75 shall be deposited into the General Revenue Fund.

2. If such vehicle's declared gross vehicle weight is 44,000 pounds or more and such vehicle only transports from the point of production to the point of primary manufacture; to the point of assembling the same; or to a shipping point of a rail, water, or motor transportation company, $324 flat, of which $84 shall be deposited into the General Revenue Fund.

Such not-for-hire truck tractors and heavy trucks used exclusively in transporting raw, unprocessed, and nonmanufactured agricultural or horticultural products may be incidentally used to haul farm implements and fertilizers

delivered direct to the growers. The department may require any documentation deemed necessary to determine eligibility before ~~prior to~~ issuance of this license plate. For the purpose of this paragraph, "not-for-hire" means the owner of the motor vehicle must also be the owner of the raw, unprocessed, and nonmanufactured agricultural or horticultural product, or the user of the farm implements and fertilizer being delivered.

Section 31. Subsection (4) of section 376.30781, Florida Statutes, is amended to read:

376.30781 Tax credits for rehabilitation of drycleaning-solvent-contaminated sites and brownfield sites in designated brownfield areas; application process; rulemaking authority; revocation authority.—

(4) The Department of Environmental Protection is responsible for allocating the tax credits provided for in s. 220.1845, which may not exceed a total of $21 million in tax credits in fiscal year 2018-2019 and $10 million in tax credits each fiscal year thereafter.

Section 32. Paragraph (c) of subsection (1) of section 624.5105, Florida Statutes, is amended to read:

624.5105 Community contribution tax credit; authorization; limitations; eligibility and application requirements; administration; definitions; expiration.—

(1) AUTHORIZATION TO GRANT TAX CREDITS; LIMITATIONS.—

(c) The total amount of tax credit which may be granted for all programs approved under this section and ss. 212.08(5)(p) and 220.183 is $10.5 million in the 2018-2019 fiscal year, $17 million ~~$21.4 million~~ in the 2019-2020 ~~2017-2018~~ fiscal year, and $10.5 million in each fiscal year thereafter for projects

that provide housing opportunities for persons with special needs as defined in s. 420.0004 or homeownership opportunities for low-income or very-low-income households as defined in s. 420.9071 and $3.5 million each fiscal year for all other projects.

Section 33. Effective January 1, 2019, subsection (3) of section 741.01, Florida Statutes, is amended to read:

741.01 County court judge or clerk of the circuit court to issue marriage license; fee.—

(3) An additional fee of $25 shall be paid to the clerk upon receipt of the application for issuance of a marriage license. The moneys collected shall be remitted by the clerk to the Department of Revenue, monthly, for deposit in the State Courts Revenue Trust Fund ~~General Revenue Fund~~.

Section 34. Clothing and school supplies; sales tax holiday.—

(1) The tax levied under chapter 212, Florida Statutes, may not be collected during the period from August 3, 2018, through August 5, 2018, on the retail sale of:

(a) Clothing, wallets, or bags, including handbags, backpacks, fanny packs, and diaper bags, but excluding briefcases, suitcases, and other garment bags, having a sales price of $60 or less per item. As used in this paragraph, the term "clothing" means:

1. Any article of wearing apparel intended to be worn on or about the human body, excluding watches, watchbands, jewelry, umbrellas, and handkerchiefs; and

2. All footwear, excluding skis, swim fins, roller blades, and skates.

(b) School supplies having a sales price of $15 or less per item. As used in this paragraph, the term "school supplies" means pens, pencils, erasers, crayons, notebooks, notebook filler paper, legal pads, binders, lunch boxes, construction paper, markers, folders, poster board, composition books, poster paper, scissors, cellophane tape, glue or paste, rulers, computer disks, protractors, compasses, and calculators.

(2) The tax exemptions provided in this section do not apply to sales within a theme park or entertainment complex as defined in s. 509.013(9), Florida Statutes, within a public lodging establishment as defined in s. 509.013(4), Florida Statutes, or within an airport as defined in s. 330.27(2), Florida Statutes.

(3) The tax exemptions provided in this section may apply at the option of a dealer if less than 5 percent of the dealer's gross sales of tangible personal property in the prior calendar year are comprised of items that would be exempt under this section. If a qualifying dealer chooses not to participate in the tax holiday, by August 1, 2018, the dealer must notify the Department of Revenue in writing of its election to collect sales tax during the holiday and must post a copy of that notice in a conspicuous location at its place of business.

(4) The Department of Revenue may, and all conditions are deemed met to, adopt emergency rules pursuant to s. 120.54(4), Florida Statutes, to administer this section.

(5) For the 2017-2018 fiscal year, the sum of $243,814 in nonrecurring funds is appropriated from the General Revenue Fund to the Department of Revenue for the purpose of implementing this section. Funds remaining unexpended or unencumbered from

this appropriation as of June 30, 2018, shall revert and be reappropriated for the same purpose in the 2018-2019 fiscal year.

(6) This section shall take effect upon this act becoming a law.

Section 35. Disaster preparedness supplies; sales tax holiday.—

(1) The tax levied under chapter 212, Florida Statutes, may not be collected during the period from June 1, 2018, through June 7, 2018, on the retail sale of:

(a) A portable self-powered light source selling for $20 or less.

(b) A portable self-powered radio, two-way radio, or weather-band radio selling for $50 or less.

(c) A tarpaulin or other flexible waterproof sheeting selling for $50 or less.

(d) An item normally sold as, or generally advertised as, a ground anchor system or tie-down kit and selling for $50 or less.

(e) A gas or diesel fuel tank selling for $25 or less.

(f) A package of AAA-cell, AA-cell, C-cell, D-cell, 6-volt, or 9- volt batteries, excluding automobile and boat batteries, selling for $30 or less.

(g) A nonelectric food storage cooler selling for $30 or less.

(h) A portable generator used to provide light or communications or preserve food in the event of a power outage and selling for $750 or less.

(i) Reusable ice selling for $10 or less.

(2) The Department of Revenue may, and all conditions are deemed met to, adopt emergency rules pursuant to s. 120.54(4), Florida Statutes, to administer this section.

(3) The tax exemptions provided in this section do not apply to sales within a theme park or entertainment complex as defined in s. 509.013(9), Florida Statutes, within a public lodging establishment as defined in s. 509.013(4), Florida Statutes, or within an airport as defined in s. 330.27(2), Florida Statutes.

(4) For the 2017-2018 fiscal year, the sum of $70,072 in nonrecurring funds is appropriated from the General Revenue Fund to the Department of Revenue for the purpose of implementing this section.

(5) This section shall take effect upon this act becoming a law.

Section 36. Equipment used to generate emergency electric energy.—

(1) The purchase of any equipment to generate emergency electric energy at a nursing home facility as defined in s. 400.021(12) or an assisted living facility as defined in s. 429.02(5), is exempt from the tax imposed under chapter 212, Florida Statutes, during the period from July 1, 2017, through December 31, 2018. The electric energy that is generated must be used at the home or facility and meet the energy needs for emergency generation for that size and class of facility.

(2) The purchaser of the equipment must provide the dealer with an affidavit certifying that the equipment will only be used as provided in subsection (1).

(3) The exemption provided in subsection (1) is limited to

a maximum of $15,000 in tax for the purchase of equipment for any single facility.

(4)(a) The exemption under this section may be applied at the time of purchase or is available through a refund from the Department of Revenue of previously paid taxes. For purchases made before the effective date of this section, an application for refund must be submitted to the department within 6 months after the effective date of this section. For purchases made on or after the effective date of this section, if the exemption was not applied to the purchase, an application for refund must be submitted to the department within 6 months after the date of purchase.

(b) The purchaser of the emergency electric equipment applying for a refund under this subsection must provide the department with an affidavit certifying that the equipment will only be used as provided in subsection (1).

(5) A person furnishing a false affidavit to the dealer pursuant to subsection (2) or the Department of Revenue pursuant to subsection (4) is subject to the penalty set forth in s. 212.085 and as otherwise authorized by law.

(6) The Department of Revenue may, and all conditions are deemed met to, adopt emergency rules pursuant to s. 120.54(4), Florida Statutes, to administer this section.

(7) Notwithstanding any other law, emergency rules adopted pursuant to subsection (6) are effective for 6 months after adoption and may be renewed during the pendency of procedures to adopt permanent rules addressing the subject of the emergency rules.

(8) This section is considered a revenue law for the

purposes of ss. 213.05 and 213.06, Florida Statutes, and s. 72.011, Florida Statutes, applies to this section.

(9) This section shall take effect upon becoming a law and operates retroactively to July 1, 2017.

Section 37. Fencing materials used in agriculture.—

(1) The purchase of fencing materials used in the repair of farm fences on land classified as agricultural under s. 193.461, Florida Statutes, is exempt from the tax imposed under chapter 212, Florida Statutes, during the period from September 10, 2017, through May 31, 2018, if the fencing materials will be or were used to repair damage to fences that occurred as a direct result of the impact of Hurricane Irma. The exemption provided by this section is available only through a refund from the Department of Revenue of previously paid taxes.

(2) To receive a refund pursuant to this section, the owner of the fencing materials or the real property into which the fencing materials were incorporated must apply to the Department of Revenue by December 31, 2018. The refund application must include the following information:

(a) The name and address of the person claiming the refund.

(b) The address and assessment roll parcel number of the agricultural land in which the fencing materials was or will be used.

(c) The sales invoice or other proof of purchase of the fencing materials, showing the amount of sales tax paid, the date of purchase, and the name and address of the dealer from whom the materials were purchased.

(d) An affidavit executed by the owner of the fencing materials or the real property into which the fencing materials

177326

were or will be incorporated, including a statement that the fencing materials were or will be used to repair fencing damaged as a direct result of the impact of Hurricane Irma.

(3) A person furnishing a false affidavit to the Department of Revenue pursuant to subsection (2) is subject to the penalty set forth in s. 212.085 and as otherwise authorized by law.

(4) The Department of Revenue may, and all conditions are deemed met to, adopt emergency rules pursuant to s. 120.54(4), Florida Statutes, to administer this section.

(5) Notwithstanding any other law, emergency rules adopted pursuant to subsection (4) are effective for 6 months after adoption and may be renewed during the pendency of procedures to adopt permanent rules addressing the subject of the emergency rules.

(6) This section is considered a revenue law for the purposes of ss. 213.05 and 213.06, Florida Statutes, and s. 72.011, Florida Statutes, applies to this section.

(7) This section shall take effect upon becoming a law and operates retroactively to September 10, 2017.

Section 38. Building materials used in the repair of nonresidential farm buildings damaged by Hurricane Irma.—

(1) Building materials used to repair a nonresidential farm building damaged as a direct result of the impact of Hurricane Irma and purchased during the period from September 10, 2017, through May 31, 2018, are exempt from the tax imposed under chapter 212, Florida Statutes. The exemption provided by this section is available only through a refund of previously paid taxes.

(2) For purposes of the exemption provided in this section,

177326

the term:

(a) "Building materials" means tangible personal property that becomes a component part of a nonresidential farm building.

(b) "Nonresidential farm building" has the same meaning as in s. 604.50, Florida Statutes.

(3) To receive a refund pursuant to this section, the owner of the building materials or of the real property into which the building materials will be or were incorporated must apply to the Department of Revenue by December 31, 2018. The refund application must include the following information:

(a) The name and address of the person claiming the refund.

(b) The address and assessment roll parcel number of the real property where the building materials were or will be used.

(c) The sales invoice or other proof of purchase of the building materials, showing the amount of sales tax paid, the date of purchase, and the name and address of the dealer from whom the materials were purchased.

(d) An affidavit executed by the owner of the building materials or the real property into which the building materials will be or were incorporated, including a statement that the building materials were or will be used to repair the nonresidential farm building damaged as a direct result of the impact of Hurricane Irma.

(4) A person furnishing a false affidavit to the Department of Revenue pursuant to subsection (3) is subject to the penalty set forth in s. 212.085 and as otherwise provided by law.

(5) The Department of Revenue may, and all conditions are deemed met to, adopt emergency rules pursuant to s. 120.54(4), Florida Statutes, to administer this section.

177326

(6) Notwithstanding any other law, emergency rules adopted pursuant to subsection (5) are effective for 6 months after adoption and may be renewed during the pendency of procedures to adopt permanent rules addressing the subject of the emergency rules.

(7) This section is considered a revenue law for the purposes of ss. 213.05 and 213.06, Florida Statutes, and s. 72.011, Florida Statutes, applies to this section.

(8) This section shall take effect upon becoming a law and operates retroactively to September 10, 2017.

Section 39. Refund of fuel taxes used for agricultural shipment after Hurricane Irma.—

(1) Fuel purchased and used in this state during the period from September 10, 2017, through June 30, 2018, which is or was used in any motor vehicle driven or operated upon the public highways of this state for agricultural shipment is exempt from all state and county taxes authorized or imposed under parts I and II of chapter 206, Florida Statutes, excluding the taxes imposed under s. 206.41(1)(a) and (h), Florida Statutes. The exemption provided by this section is available to the fuel purchaser in an amount equal to the fuel tax imposed on fuel that was purchased for agricultural shipment during the period from September 10, 2017, through June 30, 2018. The exemption provided by this section is only available through a refund from the Department of Revenue.

(2) For purposes of the exemption provided in this section, the term:

(a) "Agricultural processing or storage facility" means property used or useful in separating, cleaning, processing,

converting, packaging, handling, storing, and other activities necessary to prepare crops, livestock, related products, and other products of agriculture, and includes nonfarm facilities that produce agricultural products in whole or in part through natural processes, animal husbandry, and apiaries.

(b) "Agricultural product" means the natural products of a farm, nursery, grove, orchard, vineyard, garden, or apiary, including livestock as defined in s. 585.01(13).

(c) "Agricultural shipment" means the transport of any agricultural product from a farm, nursery, grove, orchard, vineyard, garden, or apiary to an agricultural processing or storage facility.

(d) "Fuel" means motor fuel or diesel fuel, as those terms are defined in ss. 206.01 and 206.86, respectively.

(e) "Fuel tax" means all state and county taxes authorized or imposed under chapter 206, Florida Statutes, on fuel.

(f) "Motor vehicle" and "public highways" have the same meanings as in s. 206.01, Florida Statutes.

(3) To receive a refund pursuant to this section, the fuel purchaser must apply to the Department of Revenue by December 31, 2018. The refund application must include the following information:

(a) The name and address of the person claiming the refund.

(b) The names and addresses of up to three owners of farms, nurseries, groves, orchards, vineyards, gardens, or apiaries whose agricultural products were shipped by the person seeking the refund pursuant to this section.

(c) The sales invoice or other proof of purchase of the fuel, showing the number of gallons of fuel purchased, the type

177326

of fuel purchased, the date of purchase, and the name and place of business of the dealer from whom the fuel was purchased.

(d) The license number or other identification number of the motor vehicle that used the exempt fuel.

(e) An affidavit executed by the person seeking the refund pursuant to this section, including a statement that he or she purchased and used the fuel for which the refund is being claimed during the period from September 10, 2017, through June 30, 2018, for an agricultural shipment.

(4) A person furnishing a false affidavit to the Department of Revenue pursuant to subsection (3) is subject to the penalty set forth in s. 206.11 and as otherwise provided by law.

(5) The tax imposed under s. 212.0501 does not apply to fuel that is exempt under this section and for which a fuel purchaser received a refund under this section.

(6) The Department of Revenue may, and all conditions are deemed met to, adopt emergency rules pursuant to s. 120.54(4), Florida Statutes, to administer this section.

(7) Notwithstanding any other law, emergency rules adopted pursuant to subsection (6) are effective for 6 months after adoption and may be renewed during the pendency of procedures to adopt permanent rules addressing the subject of the emergency rules.

(8) This section is considered a revenue law for the purposes of ss. 213.05 and 213.06, Florida Statutes, and s. 72.011, Florida Statutes, applies to this section.

(9) This section shall take effect upon becoming a law and operate retroactively to September 10, 2017.

Section 40. Paragraph (m) is added to subsection (8) of

177326

section 193.155, Florida Statutes, to read:

193.155 Homestead assessments.—Homestead property shall be assessed at just value as of January 1, 1994. Property receiving the homestead exemption after January 1, 1994, shall be assessed at just value as of January 1 of the year in which the property receives the exemption unless the provisions of subsection (8) apply.

(8) Property assessed under this section shall be assessed at less than just value when the person who establishes a new homestead has received a homestead exemption as of January 1 of either of the 2 immediately preceding years. A person who establishes a new homestead as of January 1, 2008, is entitled to have the new homestead assessed at less than just value only if that person received a homestead exemption on January 1, 2007, and only if this subsection applies retroactive to January 1, 2008. For purposes of this subsection, a husband and wife who owned and both permanently resided on a previous homestead shall each be considered to have received the homestead exemption even though only the husband or the wife applied for the homestead exemption on the previous homestead. The assessed value of the newly established homestead shall be determined as provided in this subsection.

(m) For purposes of receiving an assessment reduction pursuant to this subsection, an owner of a homestead property that was significantly damaged or destroyed as a result of a named tropical storm or hurricane may elect, in the calendar year following the named tropical storm or hurricane, to have the significantly damaged or destroyed homestead deemed to have been abandoned as of the date of the named tropical storm or

hurricane even though the owner received a homestead exemption on the property as of January 1 of the year immediately following the named tropical storm or hurricane. The election provided for in this paragraph is available only if the owner establishes a new homestead as of January 1 of the second year immediately following the storm or hurricane. This paragraph shall apply to homestead property damaged or destroyed on or after January 1, 2017.

Section 41. Paragraph (g) of subsection (7) of section 163.01, Florida Statutes, is amended to read:

163.01 Florida Interlocal Cooperation Act of 1969.—

(7)

(g)1. Notwithstanding any other provisions of this section, any separate legal entity created under this section, the membership of which is limited to municipalities and counties of the state, and which may include a special district in addition to a municipality or county or both, may acquire, own, construct, improve, operate, and manage public facilities, or finance facilities on behalf of any person, relating to a governmental function or purpose, including, but not limited to, wastewater facilities, water or alternative water supply facilities, and water reuse facilities, which may serve populations within or outside of the members of the entity. Notwithstanding s. 367.171(7), any separate legal entity created under this paragraph is not subject to Public Service Commission jurisdiction. The separate legal entity may not provide utility services within the service area of an existing utility system unless it has received the consent of the utility.

2. For purposes of this paragraph, the term:

177326

a. "Host government" means the governing body of the county, if the largest number of equivalent residential connections currently served by a system of the utility is located in the unincorporated area, or the governing body of a municipality, if the largest number of equivalent residential connections currently served by a system of the utility is located within that municipality's boundaries.

b. "Separate legal entity" means any entity created by interlocal agreement the membership of which is limited to two or more special districts, municipalities, or counties of the state, but which entity is legally separate and apart from any of its member governments.

c. "System" means a water or wastewater facility or group of such facilities owned by one entity or affiliate entities.

d. "Utility" means a water or wastewater utility and includes every person, separate legal entity, lessee, trustee, or receiver owning, operating, managing, or controlling a system, or proposing construction of a system, who is providing, or proposes to provide, water or wastewater service to the public for compensation.

3. A separate legal entity that seeks to acquire any utility shall notify the host government in writing by certified mail about the contemplated acquisition not less than 30 days before any proposed transfer of ownership, use, or possession of any utility assets by such separate legal entity. The potential acquisition notice shall be provided to the legislative head of the governing body of the host government and to its chief administrative officer and shall provide the name and address of a contact person for the separate legal entity and information

identified in s. 367.071(4)(a) concerning the contemplated acquisition.

4.a. Within 30 days following receipt of the notice, the host government may adopt a resolution to become a member of the separate legal entity, adopt a resolution to approve the utility acquisition, or adopt a resolution to prohibit the utility acquisition by the separate legal entity if the host government determines that the proposed acquisition is not in the public interest. A resolution adopted by the host government which prohibits the acquisition may include conditions that would make the proposal acceptable to the host government.

b. If a host government adopts a membership resolution, the separate legal entity shall accept the host government as a member on the same basis as its existing members before any transfer of ownership, use, or possession of the utility or the utility facilities. If a host government adopts a resolution to approve the utility acquisition, the separate legal entity may complete the acquisition. If a host government adopts a prohibition resolution, the separate legal entity may not acquire the utility within that host government’s territory without the specific consent of the host government by future resolution. If a host government does not adopt a prohibition resolution or an approval resolution, the separate legal entity may proceed to acquire the utility after the 30-day notice period without further notice.

5. After the acquisition or construction of any utility systems by a separate legal entity created under this paragraph, revenues or any other income may not be transferred or paid to a member of a separate legal entity, or to any other special

177326

district, county, or municipality, from user fees or other charges or revenues generated from customers that are not physically located within the jurisdictional or service delivery boundaries of the member, special district, county, or municipality receiving the transfer or payment. Any transfer or payment to a member, special district, or other local government must be solely from user fees or other charges or revenues generated from customers that are physically located within the jurisdictional or service delivery boundaries of the member, special district, or local government receiving the transfer of payment.

6. This section is an alternative provision otherwise provided by law as authorized in s. 4, Art. VIII of the State Constitution for any transfer of power as a result of an acquisition of a utility by a separate legal entity from a municipality, county, or special district.

7. The entity may finance or refinance the acquisition, construction, expansion, and improvement of such facilities relating to a governmental function or purpose through the issuance of its bonds, notes, or other obligations under this section or as otherwise authorized by law. The entity has all the powers provided by the interlocal agreement under which it is created or which are necessary to finance, own, operate, or manage the public facility, including, without limitation, the power to establish rates, charges, and fees for products or services provided by it, the power to levy special assessments, the power to sell or finance all or a portion of such facility, and the power to contract with a public or private entity to manage and operate such facilities or to provide or receive

177326

facilities, services, or products. Except as may be limited by the interlocal agreement under which the entity is created, all of the privileges, benefits, powers, and terms of s. 125.01, relating to counties, and s. 166.021, relating to municipalities, are fully applicable to the entity. However, neither the entity nor any of its members on behalf of the entity may exercise the power of eminent domain over the facilities or property of any existing water or wastewater plant utility system, nor may the entity acquire title to any water or wastewater plant utility facilities, other facilities, or property which was acquired by the use of eminent domain after the effective date of this act. Bonds, notes, and other obligations issued by the entity are issued on behalf of the public agencies that are members of the entity.

8. Any entity created under this section may also issue bond anticipation notes in connection with the authorization, issuance, and sale of bonds. The bonds may be issued as serial bonds or as term bonds or both. Any entity may issue capital appreciation bonds or variable rate bonds. Any bonds, notes, or other obligations must be authorized by resolution of the governing body of the entity and bear the date or dates; mature at the time or times, not exceeding 40 years from their respective dates; bear interest at the rate or rates; be payable at the time or times; be in the denomination; be in the form; carry the registration privileges; be executed in the manner; be payable from the sources and in the medium or payment and at the place; and be subject to the terms of redemption, including redemption prior to maturity, as the resolution may provide. If any officer whose signature, or a facsimile of whose signature,

appears on any bonds, notes, or other obligations ceases to be an officer before the delivery of the bonds, notes, or other obligations, the signature or facsimile is valid and sufficient for all purposes as if he or she had remained in office until the delivery. The bonds, notes, or other obligations may be sold at public or private sale for such price as the governing body of the entity shall determine. Pending preparation of the definitive bonds, the entity may issue interim certificates, which shall be exchanged for the definitive bonds. The bonds may be secured by a form of credit enhancement, if any, as the entity deems appropriate. The bonds may be secured by an indenture of trust or trust agreement. In addition, the governing body of the legal entity may delegate, to an officer, official, or agent of the legal entity as the governing body of the legal entity may select, the power to determine the time; manner of sale, public or private; maturities; rate of interest, which may be fixed or may vary at the time and in accordance with a specified formula or method of determination; and other terms and conditions as may be deemed appropriate by the officer, official, or agent so designated by the governing body of the legal entity. However, the amount and maturity of the bonds, notes, or other obligations and the interest rate of the bonds, notes, or other obligations must be within the limits prescribed by the governing body of the legal entity and its resolution delegating to an officer, official, or agent the power to authorize the issuance and sale of the bonds, notes, or other obligations.

9. Bonds, notes, or other obligations issued under this paragraph may be validated as provided in chapter 75. The

complaint in any action to validate the bonds, notes, or other obligations must be filed only in the Circuit Court for Leon County. The notice required to be published by s. 75.06 must be published in Leon County and in each county that is a member of the entity issuing the bonds, notes, or other obligations, or in which a member of the entity is located, and the complaint and order of the circuit court must be served only on the State Attorney of the Second Judicial Circuit and on the state attorney of each circuit in each county that is a member of the entity issuing the bonds, notes, or other obligations or in which a member of the entity is located. Section 75.04(2) does not apply to a complaint for validation brought by the legal entity.

10. The accomplishment of the authorized purposes of a legal entity created under this paragraph is in all respects for the benefit of the people of the state, for the increase of their commerce and prosperity, and for the improvement of their health and living conditions. Since the legal entity will perform essential governmental functions <u>for the public health, safety, and welfare</u> in accomplishing its purposes, the legal entity is not required to pay any taxes or assessments of any kind whatsoever upon any property acquired or used by it for such purposes or upon any revenues at any time received by it<u>, whether the property is within or outside the jurisdiction of members of the entity. The exemption provided in this paragraph applies regardless of whether the separate legal entity enters into agreements with private firms or entities to manage, operate, or improve the utilities owned by the separate legal entity</u>. The bonds, notes, and other obligations of an entity,

their transfer, and the income therefrom, including any profits made on the sale thereof, are at all times free from taxation of any kind by the state or by any political subdivision or other agency or instrumentality thereof. The exemption granted in this subparagraph is not applicable to any tax imposed by chapter 220 on interest, income, or profits on debt obligations owned by corporations.

Section 42. Subsection (2) of section 206.052, Florida Statutes, is renumbered as subsection (3), and a new subsection (2) is added to that section, to read:

206.052 Export of tax-free fuels.—

(2) A terminal supplier may purchase taxable motor fuels from another terminal supplier at a terminal without paying the tax imposed pursuant to this part only under the following circumstances:

(a) The terminal supplier who purchased the motor fuel will sell the motor fuel to a licensed exporter for immediate export from the state.

(b) The terminal supplier who purchased the motor fuel has designated to the terminal supplier who sold the motor fuel the destination for delivery of the fuel to a location outside the state.

(c) The terminal supplier who purchased the motor fuel is licensed in the state of destination and has supplied the terminal supplier who sold the motor fuel with that license number.

(d) The licensed exporter has not been barred from making tax-free exports by the department for violation of s. 206.051(5).

(e) The terminal supplier who sold the motor fuel to the other terminal supplier collects and remits to the state of destination all taxes imposed by the destination state on the fuel.

Section 43. Effective July 1, 2019, section 206.9826, Florida Statutes, is created to read:

206.9826 Refund for certain air carriers.—An air carrier conducting scheduled operations or all-cargo operations that are authorized under 14 C.F.R. part 121, 14 C.F.R. part 129, or 14 C.F.R. part 135, is entitled to receive a refund of 1.42 cents per gallon of the taxes imposed by this part on aviation fuel purchased by such air carrier. The refund provided under this section plus the refund provided under s. 206.9855 may not exceed 4.27 cents per gallon of aviation fuel purchased by an air carrier.

Section 44. The amendments made by this act to ss. 197.3631, 197.572, and 197.573, Florida Statutes, and the creation by this act of s. 193.0237, Florida Statutes, first apply to taxes and special assessments levied in 2018.

Section 45. For the 2018-2019 fiscal year, the sum of $91,319 in nonrecurring funds is appropriated from the General Revenue Fund to the Department of Revenue to implement the provisions of this act.

Section 46. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon this act becoming a law, this act shall take effect July 1, 2018.

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

An act relating to taxation; amending s. 28.241, F.S.; specifying that certain filing fees for trial and appellate proceedings must be deposited into the State Courts Revenue Trust Fund rather than the General Revenue Fund; amending s. 159.621, F.S.; providing a documentary stamp tax exemption for notes and mortgages that are given in connection with a loan made by or on behalf of a housing financing authority; providing requirements for the exemption; revising applicability; creating s. 193.0237, F.S.; defining terms; prohibiting separate ad valorem taxes or non-ad valorem assessments against the land upon which a multiple parcel building is located; specifying requirements for property appraisers in allocating the value of land containing a multiple parcel building among the parcels; providing that a condominium, timeshare, or cooperative may be created within a parcel in a multiple parcel building; specifying the allocation of land value to the assessed value of parcels containing condominiums and of parcels containing cooperatives; requiring each parcel in a multiple parcel building to be assigned a tax folio number; providing an exception; providing construction relating to the survival and enforceability of recorded instrument provisions affecting a certain

177326

parcel in a multiple parcel building; providing applicability; creating s. 193.4516, F.S.; specifying a limitation on ad valorem tax assessments for tangible personal property that is owned and operated by a citrus fruit packing or processing facility and that is unused due to the effects of a certain hurricane or to citrus greening; defining the term "citrus"; providing retroactive applicability; amending s. 193.461, F.S.; providing that certain lands classified for assessment purposes as agricultural lands which are not being used for agricultural production must continue to be classified as agricultural lands until a specified date; providing construction; providing applicability; amending s. 196.173, F.S.; revising the military operations that qualify certain servicemembers for an additional ad valorem tax exemption; amending s. 196.24, F.S.; deleting a condition for unremarried spouses of deceased disabled ex-servicemembers to claim a certain ad valorem tax exemption; amending s. 197.3631, F.S.; specifying requirements for the levy and allocation of non-ad valorem assessments on land containing a multiple parcel building; defining the terms "multiple parcel building" and "parcel"; amending s. 197.572, F.S.; providing that easements supporting improvements that may be constructed above lands survive tax sales and deeds of such lands; amending s. 197.573, F.S.; specifying that a provision relating to the survival and enforceability of

177326

restrictions and covenants after a tax sale applies to recorded instruments other than deeds; revising covenants that are excluded from applicability; amending s. 201.02, F.S.; providing a documentary stamp tax exemption for certain instruments transferring or conveying homestead property interests between spouses; providing applicability; defining the term "homestead property"; creating s. 201.25, F.S.; providing exemptions from documentary stamp taxes for certain loans made by the Florida Small Business Emergency Bridge Loan Program and the Agricultural Economic Development Program; amending s. 206.9952, F.S.; conforming provisions to changes made by the act; amending s. 206.9955, F.S.; delaying the effective date of certain taxes on natural gas fuel; revising the calculation of certain taxes by the Department of Revenue; amending s. 206.996, F.S.; conforming a provision to changes made by the act; creating s. 210.205, F.S.; requiring the H. Lee Moffitt Cancer Center and Research Institute to report information regarding the expenditure of cigarette tax distributions to the Office of Economic and Demographic Research; amending s. 212.031, F.S.; reducing the tax levied on rental or license fees charged for the use of real property; amending s. 212.055, F.S.; revising the definition of the term "infrastructure" for purposes of the local government infrastructure surtax; amending s. 212.08, F.S.; revising, at specified timeframes, the total amount of

177326

community contribution tax credits which may be granted; providing an exemption from the sales and use tax for certain tangible personal property donated by a dealer to certain s. 501(c)(3) organizations; defining the term "donate"; revising applicability of a sales and use tax exemption for certain charges for electricity and steam uses; defining the term "NAICS"; providing a sales and use tax exemption for recycling roll off containers used by certain businesses for certain purposes; defining the term "NAICS"; amending s. 212.12, F.S.; requiring the department to make available the tax amounts and brackets applicable to transactions subject to the sales tax on commercial leases of real property; creating s. 212.205, F.S.; requiring certain recipients of sales tax distributions to report information related to expenditures of those distributions to the Office of Economic and Demographic Research; creating s. 218.135, F.S.; requiring the Legislature to appropriate funds to offset reductions in ad valorem taxes as a result of certain assessment limitations on the value of certain citrus packing and processing equipment; specifying requirements for such counties and jurisdictions to apply to participate in the distribution; specifying the calculation of such reductions; providing for a reversion of a share of funds if such county or jurisdiction fails to apply; providing an appropriation; amending s. 220.183, F.S.; revising, at specified timeframes, the total amount of

community contribution tax credits that may be granted; amending s. 220.1845, F.S.; increasing, for a specified fiscal year, the total amount of contaminated site rehabilitation tax credits; amending s. 318.14, F.S.; providing a specified reduction in civil penalty for persons who are cited for certain noncriminal traffic infractions and who elect to attend a certain driver improvement course; deleting the requirement that a specified percentage of the civil penalty be deposited in the State Courts Revenue Trust Fund; amending s. 318.15, F.S.; conforming a provision to changes made by the act; amending s. 320.08, F.S.; revising a condition under which certain truck tractors and heavy trucks used for certain purposes are eligible for specified license plate fees; amending s. 376.30781, F.S.; increasing, for a specified fiscal year, the total amount of tax credits for the rehabilitation of drycleaning-solvent-contaminated sites and brownfield sites in designated brownfield areas; amending s. 624.5105, F.S.; revising, at specified timeframes, the total amount of community contribution tax credits that may be granted; amending s. 741.01, F.S.; providing for a certain fee paid to the clerk of the circuit court for the issuance of a marriage license to be deposited into the State Courts Revenue Trust Fund, rather than the General Revenue Fund; providing sales tax exemptions for the retail sale of certain clothing and school supplies during a specified timeframe; defining

terms; providing exceptions; authorizing certain dealers to opt out of participating in such tax exemption; providing requirements for such dealers; authorizing the department to adopt emergency rules; providing an appropriation; providing a sales tax exemption for specified disaster preparedness supplies during a specified timeframe; authorizing the department to adopt emergency rules; providing exceptions to the exemption; providing an appropriation; providing a sales tax exemption, during a specified timeframe, for certain equipment used to generate emergency electric energy in nursing homes and assisted living facilities; requiring a purchaser to provide a dealer with a specified affidavit; specifying a limit to the exemption; providing procedures and requirements for filing applications for a refund of previously paid taxes; providing penalties for the furnishing of false affidavits; providing rulemaking authority to the department; providing construction; providing retroactive operation; providing a sales tax exemption for certain fencing materials used in agriculture during a specified timeframe; providing procedures and requirements for filing applications for the refund of previously paid taxes; providing penalties for the furnishing of false affidavits; providing rulemaking authority to the department; providing construction; providing retroactive applicability; providing a sales tax exemption for certain building materials used to

repair nonresidential farm buildings and purchased during a specified timeframe; defining terms; providing procedures and requirements for filing applications for a refund of taxes previously paid; providing penalties for the furnishing of false affidavits; providing rulemaking authority to the department; providing construction; providing retroactive applicability; providing an exemption from taxes on fuel used for agricultural shipment and purchased and used during a specified timeframe; defining terms; providing procedures and requirements for filing applications for a refund of previously paid taxes; providing penalties for the furnishing of false affidavits; providing applicability of a certain tax; providing rulemaking authority to the department; providing construction; providing retroactive applicability; amending s. 193.155, F.S.; providing that owners of homestead property that was significantly damaged or destroyed as a result of a named tropical storm or hurricane may elect to have such property deemed abandoned, for the purpose of receiving a certain assessment reduction, if the owner establishes a new homestead property by a specified date; providing retroactive applicability; amending s. 163.01, F.S.; specifying the applicability of a certain tax exemption for property located within or outside the jurisdiction of specified legal entities created under the Florida Interlocal Cooperation Act of 1969; amending s. 206.052, F.S.; exempting certain

terminal suppliers from paying the motor fuel tax under specified circumstances; creating s. 206.9826, F.S.; providing that certain air carriers are entitled to receive a specified refund on purchased aviation fuel; specifying a limitation on such refund; providing applicability; providing an appropriation; providing effective dates.

576-02117-18

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Finance and Tax)

A bill to be entitled

An act relating to tax exemptions; creating s. 201.25, F.S.; providing exemptions from excise taxes on documents for certain loans made by the Florida Small Business Emergency Bridge Loan Program and the Agricultural Economic Development Program; providing a sales and use tax exemption during specified periods for certain tangible personal property related to disaster preparedness; providing exceptions to the exemption; authorizing the Department of Revenue to adopt emergency rules; providing an appropriation; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 201.25, Florida Statutes, is created to read:

201.25 Tax exemptions for certain loans.—There shall be exempt from all taxes imposed by this chapter:

(1) Any loan made by the Florida Small Business Emergency Bridge Loan Program in response to a disaster that results in a state of emergency declared by executive order or proclamation of the Governor pursuant to s. 252.36.

(2) Any loan made by the Agricultural Economic Development Program pursuant to s. 570.82.

Section 2. Disaster preparedness tax exemption.—

(1) The tax levied under chapter 212, Florida Statutes, may

741326

576-02117-18

not be collected during the period from 12:01 a.m. on June 1, 2018, through 11:59 p.m. on June 7, 2018, and from 12:01 a.m. on July 6, 2018, through 11:59 p.m. on July 12, 2018, on the sale of any of the following:

(a) A portable self-powered light source selling for $20 or less.

(b) A portable self-powered radio, two-way radio, or weather band radio selling for $75 or less.

(c) A tarpaulin or other flexible waterproof sheeting selling for $50 or less.

(d) An item typically sold or advertised as a ground anchor system or tie-down kit selling for $50 or less.

(e) A gas or diesel fuel tank selling for $25 or less.

(f) A package of AAA-cell, AA-cell, C-cell, D-cell, 6-volt, or 9-volt batteries, excluding automobile and boat batteries, selling for $30 or less.

(g) A portable power bank intended to be used to charge cellular telephones and other small electronic devices and selling for $75 or less.

(h) A cellular telephone charger selling for $40 or less.

(i) A nonelectric food storage cooler selling for $30 or less.

(j) A carbon monoxide detector selling for $75 or less.

(k) Reusable ice selling for $10 or less.

(l) A single product consisting of two or more of the items listed in paragraphs (a)-(k) and selling for $75 or less.

(m) A portable generator that is used to provide light, support communications, or preserve food during a power outage and selling for $1,000 or less.

(n) A standby generator intended to be permanently affixed to real property and selling for $5,000 or less.

(o) A personal locator beacon selling for $600 or less.

(p) An emergency position-indicating radio beacon selling for $1,500 or less.

(2) The tax exemption provided in this section does not apply to sales within a public lodging establishment as defined in s. 509.013(4), Florida Statutes, a theme park or entertainment complex as defined in s. 509.013(9), Florida Statutes, or an airport as defined in s. 330.27(2), Florida Statutes.

(3) The Department of Revenue may, and all conditions are deemed met to, adopt emergency rules pursuant to ss. 120.536(1) and 120.54, Florida Statutes, to implement this section.

Section 3. For the 2017-2018 fiscal year, the sum of $70,072 in nonrecurring funds is appropriated from the General Revenue Fund to the Department of Revenue to administer the tax exemption for the purchase of tangible personal property relating to disaster preparedness specified under this act.

Section 4. This act shall take effect upon becoming a law.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 620
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Finance and Tax); Commerce and Tourism Committee; and Senator Passidomo and others
SUBJECT:	Taxation
DATE:	March 5, 2018
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Little	McKay	CM	**Fav/CS**
2.	Gross	Diez-Arguelles	AFT	**Recommend: Fav/CS**
3.	Diez-Arguelles	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 620 provides for a number of tax reductions and modifications. The bill:

- Creates a 3-day back-to-school tax holiday for clothing and school supplies from August 3, 2018, through August 5, 2018.
- Creates a 7-day disaster preparedness holiday from June 1, 2018, through June 7, 2018.
- Exempts from sales and use tax generators purchased for use at nursing homes or assisted living facilities from July 1, 2017, through December 31, 2018.
- Exempts from sales and use tax the purchase of fencing materials for repairs of fences on agricultural lands that were damaged by Hurricane Irma. The exemption runs from September 10, 2017, through May 31, 2018.
- Exempts from sales and use tax building materials used to repair nonresidential farm buildings damaged by Hurricane Irma. The exemption runs from September 10, 2017, through May 31, 2018.
- Provides a refund of fuel taxes paid during the period September 10, 2017, through June 30, 2018, for motor vehicles used for agricultural shipment.
- Authorizes a homestead owner whose homestead is significantly damaged by a named tropical storm or hurricane to treat the homestead as abandoned on the date of the tropical storm or hurricane for property tax purposes.
- Exempts from documentary stamp tax certain notes and mortgages made by a housing finance authority.

- Provides for a reduced property tax assessment on citrus fruit packing and processing equipment impacted by Hurricane Irma or citrus greening. The bill provides for a distribution to fiscally constrained counties to offset the impact of the reduced property tax assessment.
- Allows agricultural lands that are not currently productive due to Hurricane Irma to retain their agricultural classification for 5 years.
- Redirects certain filing fees from the General Revenue Fund to the State Courts Revenue Trust Fund.
- Provides for the assessment of multiple parcel buildings.
- Updates the list of deployments that qualify for the deployed servicemember property tax exemption.
- Authorizes surviving spouses of certain disabled veterans to continue to receive property tax benefits regardless of the time the spouses were married.
- Specifies the property liens that survive a tax sale.
- Exempts from documentary stamp tax certain deeds transferred between spouses.
- Exempts from documentary stamp tax certain loans related to the Florida Small Business Emergency Bridge Loan Program and the Agricultural Economic Development Program.
- Delays the imposition of Florida's natural gas fuel tax from 2019 to 2024.
- Requires reports from recipients of cigarette tax distributions.
- Expands the definition of "infrastructure" for purposes of the Local Government Infrastructure Surtax.
- Increases the Community Contribution Tax Credits available in Fiscal Year 2019-2020 for projects that provide housing opportunities for certain persons and households from $10.5 million to $17 million.
- Exempts from the sales and use tax certain tangible personal property donated to charities.
- Provides a sales and use tax exemption for steam or electricity purchased for use in recycling.
- Exempts from sales and use tax roll-off containers used by recyclers.
- Requires some entities that receive sales tax distributions to report certain information to the Office of Economic and Demographic Research.
- Expands the distance that farm trucks can travel with a restricted license plate.
- Increases the tax credits available in Fiscal Year 2018-2019 for the rehabilitation of brownfields from $10 million to $21 million.
- Exempts from property tax property owned by the Florida Governmental Utility Authority located within a non-member county.
- Reduces the aviation fuel tax rate for air carriers who conduct scheduled operations or all-cargo operations.

The bill will reduce state revenues by $103.4 million in Fiscal Year 2018-2019, with a $60.4 million recurring reduction. General Revenue Fund receipts will be reduced by $73.8 million in Fiscal Year 2018-2019, with a $39.3 million recurring reduction. State trust fund receipts will be reduced by $4.0 million in Fiscal Year 2018-2019, with a $14.5 million recurring reduction. Local government receipts will be reduced by $25.7 million in Fiscal Year 2018-2019, with a $6.5 million recurring reduction.

Non-recurring General Revenue Fund and local government receipts will be reduced by $6.0 million and $0.5 million in Fiscal Year 2019-2020, respectively.

The total tax reductions proposed by the bill are represented by the sum of the recurring impacts, reflecting the annual value of permanent tax reductions when fully implemented, and the 1-year only tax reductions, reflecting temporary tax reductions. The total of $148.9 million in tax reductions proposed by the bill is the sum of $60.4 million (recurring), $82.0 million (1-year only tax cuts in Fiscal Year 2018-2019), and $6.5 million (1-year only tax reductions after Fiscal Year 2019-2020).

The bill makes the following appropriations:

- For Fiscal Year 2017-2018, the bill appropriates $243,814 in nonrecurring funds from the General Revenue Fund to the Department of Revenue to implement the back-to-school sales tax holiday.
- For Fiscal Year 2017-2018, the bill appropriates $70,072 in nonrecurring funds from the General Revenue Fund to the Department of Revenue to implement the disaster preparedness sales tax holiday.
- For Fiscal Year 2018-2019, the bill appropriates $91,319 in nonrecurring funds from the General Revenue Fund to the Department of Revenue to implement the provisions in the bill.
- For Fiscal Year 2018-2019, the bill appropriates $650,000 in nonrecurring funds from the General Revenue Fund to the Department of Revenue for fiscally constrained counties affected by the provisions of the bill that reduce property tax assessments for tangible personal property impacted by Hurricane Irma and citrus greening.

The bill provides an effective date of July 1, 2018, unless another date is expressed in the bill.

II. Present Situation:

The discussion of the present situation is included below in Section III, Effect of Proposed Changes.

III. Effect of Proposed Changes:

Sections 1 and 33 – Court Fees

Present situation: Section 28.241(6), F.S., imposes a $100 filing fee on attorneys wishing to appear pro hac vice[1] in trial and appellate proceedings in the state. The fee is deposited into the General Revenue Fund.

Section 741.01, F.S., imposes on every application for a marriage license a fee of $2, remitted to the clerk for receiving the application; a fee of $25, remitted by the clerk to the Department of Revenue (DOR) for deposit into the Domestic Violence Trust Fund; and an additional fee of $25, remitted by the clerk to DOR for deposit into the General Revenue Fund.

Proposed change: The bill redirects from the General Revenue Fund to the State Courts Revenue Trust Fund both the fee imposed for appearing pro hac vice and the additional marriage license fee.

[1] An attorney licensed in another state, but not a member of the Florida Bar, may appear in trial and appellate proceedings under certain circumstances. This is referred to as appearing Pro Hac Vice. See: https://www.floridabar.org/rules/upl/upl002/#E-FilingProHacVice (last visited Mar. 1, 2018).

Section 2 – Loans Issued by Local Housing Finance Authorities

Present situation: Current law authorizes each county to create by ordinance a Housing Finance Authority (HFA) to encourage investment in construction and rehabilitation of suitable affordable housing units.[2] HFAs have the authority to issue bonds and use the bond proceeds to raise capital for financing of qualifying housing projects.[3] Bonds issued by a HFA, and all notes, mortgages, or other instruments given to secure repayment of the bonds, are exempt from all taxes.[4]

HFAs also have the authority to make conventional loans with funds derived from sources other than bond proceeds,[5] for instance, loans made to persons who otherwise cannot borrow from conventional lending sources.[6] However, even though bonds issued by a HFA and financial instruments given to secure repayment of the bonds are tax exempt, notes and mortgages pertaining to loans made by a HFA other than as part of a bond transaction remain subject to documentary stamp tax at a rate of 35 cents per $100 of the consideration paid therefor.[7]

Proposed change: The bill provides an exemption from documentary stamp taxes for any note or mortgage given in connection with a loan made by or on behalf of a housing finance authority. In order to qualify for the exemption, the housing authority must, at the time the note or mortgage is recorded, record an affidavit signed by an agent of the housing authority affirming that the loan was made by or on behalf of the housing finance authority.

Sections 3, 10, 11 and 12 – Multiple Parcel Buildings

Present situation: Currently, a building is treated as a single parcel of property for property tax purposes, unless portions of the building are legally separated, such as a condominium. If the ownership of the property is not legally separated, the owner of the building may require the users of the building to contribute toward payment of taxes on the value of the land under the building. When a party fails to make its contribution, a tax certificate could be sold or the property could eventually be sold for nonpayment of taxes.

Section 197.572, F.S., provides that when any lands are sold for nonpayment of taxes, or any tax certificate is issued, the title to the land shall continue to be subject to any easement or public service purpose and shall continue to be subject to any easement for the purposes of drainage or of ingress and egress to and from other land.

Section 197.573, F.S., provides that when a deed in the chain of title contains restrictions and covenants running with the land, the restrictions and covenants shall survive and be enforceable after the issuance of a tax deed or master's deed, or a clerk's certificate of title upon foreclosure of a tax deed, tax certificate, or tax lien, to the same extent that it would be enforceable against a

[3] Section 159.612(2), F.S.
[4] Section 159.621, F.S.
[5] For example, funds from the State Housing Initiatives Partnership pursuant to ch. 420, F.S.
[6] Section 159.608(8), F.S.
[7] Section 201.08, F.S.

voluntary grantee of the owner of the title immediately before the delivery of the tax deed, master's deed, or clerk's certificate of title.

Proposed change: The bill creates s. 193.0237, F.S., providing for assigning parcel numbers to sections of a building and then allocating the value of the land among the parcels. The bill defines a multiple parcel building as a building, other than one consisting entirely of a single condominium, timeshare, or cooperative, which contains separate parcels that are vertically located, in whole or in part, on or over the same land.

The bill prohibits separate ad valorem or non-ad valorem assessments against the land upon which the multiple parcel building is located. The property appraiser is required to allocate all of the just value of the land among the parcels in the multiple parcel building in the same proportion that the just value of the improvements in each parcel bears to the total just value of all the improvements in the entire multiple parcel building. Each parcel in a multiple parcel building must also be assigned a separate tax folio number.

The bill provides that a condominium, timeshare, or cooperative may be created within a parcel in the multiple parcel building. However, any land value allocated to the just value of a parcel containing a condominium or cooperative must be further allocated among the units pursuant to ss. 193.023(5) and 719.114, F.S., respectively. If a condominium or cooperative is created within a parcel, a separate tax folio number must be assigned to each unit.

The bill provides that all provisions of a recorded instrument affecting a parcel in a multiple parcel building, which parcel has been sold for taxes or special assessments, survive and are enforceable to the same extent that they would be enforceable against a voluntary grantee of the title immediately before the delivery of the tax deed, master’s deed, or clerk’s certificate of title as provided in s. 197.573, F.S.

The bill amends s. 197.3631, F.S., providing that non-ad valorem special assessments based on the size of the area of the land containing a multiple parcel building, regardless of ownership, must be levied on and allocated among all parcels in the multiple parcel building on the same basis that the land value is allocated among parcels. For non-ad valorem assessments not based on the size or area of the land, each parcel in the multiple parcel building is subject to a separate assessment.

The bill amends s. 197.572, F.S., providing that when lands are sold for nonpayment of taxes, the issuance of a tax certificate, or pursuant to any tax lien foreclosure proceeding, the title to the land will continue to be subject to any surviving easements for conservation purposes or other public service purpose and shall continue to be subject to any easement for “support of improvements that may be constructed above the lands,” and for the purposes of drainage or of ingress and egress to and from other land.

The bill amends s. 197.573(1), F.S., to provide that when a deed or other recorded instrument in the chain of title contains restrictions and covenants running the land, the restrictions and covenants shall survive and be enforceable after the issuance of a tax deed or master's deed, or a clerk's certificate of title upon foreclosure of a tax deed, tax certificate, or tax lien, to the same

extent that it would be enforceable against a voluntary grantee of the owner of the title immediately before the delivery of the tax deed, master's deed, or clerk's certificate of title.

Sections 4, 5, 24 and 25 – Assessment of Citrus Fruit Packing and Processing Equipment

Present situation: Counties, municipalities, school districts, and some special districts have the authority to levy ad valorem ("property") taxes.[8] Property tax applies to real property and tangible personal property.

"Tangible personal property" means all goods, chattels, and other articles of value (not including vehicles) capable of manual possession and whose chief value is intrinsic to the article itself.[9] All tangible personal property is subject to ad valorem taxation unless expressly exempted.[10] Household goods and personal effects,[11] items of inventory,[12] and up to $25,000 of assessed value for each tangible personal property tax return[13] are exempt from ad valorem taxation.

For purposes of ad valorem property taxation, agricultural equipment that is located on property classified as agricultural under s. 193.461, F.S., and is obsolete and no longer usable for its intended purpose is deemed to have a market value no greater than its value for salvage.[14]

Proposed change: The bill creates s. 193.4516, F.S., providing that tangible personal property owned and operated by a citrus fruit packing or processing facility shall be deemed to have a market value no greater than its salvage value, provided the tangible personal property is no longer used in the operation of the facility due to the effects of Hurricane Irma or citrus greening. This valuation will be effective only for the 2018 tax year.

The bill also creates s. 218.135, F.S., to direct the legislature to provide fiscally constrained counties[15] an appropriation to offset the reduction in ad valorem tax revenue which occur as a direct result of the implementation of s. 193.4516, F.S. The affected counties must apply to DOR and provide supporting documentation to receive an appropriation. Appropriations will be distributed to the affected counties in January of each fiscal year in proportion of the total reduction in ad valorem tax revenue resulting from the implementation of s. 193.4516, F.S.

The bill appropriates $650,000 for the 2018-2019 fiscal year from the General Revenue Fund to the Department of Revenue to provide the offset for fiscally constrained counties.

Sections 6 and 7 – Agricultural Classification of Lands impacted by Hurricane Irma

Present situation: Florida requires all property to be assessed at its "just value" unless the state constitution provides an exception,[16] and just valuation requires property to be valued at its

[8] FLA. CONST. art VII, s. 9.
[9] Section 192.001(11)(d), F.S.
[10] Section 196.001(1), F.S.
[11] Section 196.181, F.S.
[12] Section 196.185, F.S.
[13] Section 196.183, F.S.
[14] Section 193.4615, F.S.
[15] *See* s. 218.67(1), F.S.
[16] FLA. CONST. art. VII, s. 4

highest and best use.[17] Agricultural land is one exception to the highest and best use requirement.[18] Agricultural land is assessed based on its current use as agricultural land, which generally results in a lower assessment. However, when agricultural land ceases to be used for bona fide agricultural purposes, it no longer qualifies for its agricultural assessment.[19]

Proposed change: The bill provides that lands that were classified as agricultural but are not actively used for agricultural production due to a hurricane that made landfall in Florida in 2017 must continue to be assessed as agricultural lands until December 31, 2022, unless the lands are converted to nonagricultural use. The bill applies this treatment to the 2018 property tax roll.

Section 8 – Ad Valorem Exemption for Deployed Servicemembers

Present situation: The Florida Constitution grants an exemption for military servicemembers that have Florida homesteads and are deployed on active duty outside the continental United States, Alaska or Hawaii in support of military operations designated by the Legislature.[20] The exemption is equal to the taxable value of the qualifying servicemember's homestead on January 1 of the year in which the exemption is sought, multiplied by the number of days that the servicemember was on a qualifying deployment in the preceding calendar year, and divided by the number of days in that year.[21]

By January 15 of each year, the Department of Military Affairs (DMA) must submit to the President of the Senate, the Speaker of the House of Representatives, and the tax committees of each house of the Legislature a report of all known and unclassified military operations outside the continental United States, Alaska, or Hawaii for which servicemembers based in the continental United States have been deployed during the previous calendar year.[22]

Proposed change: The bill updates the statutory list of military operations eligible for the exemption by specifying that Operation Enduring Freedom ended on December 31, 2014, and by removing from the list Operations New Dawn and Odyssey Dawn that ended on December 15, 2011, and October 31, 2011, respectively; these operations are no longer relevant for purposes of the tax exemption.

Section 9 – Ad Valorem Exemption for Unmarried Surviving Spouse of a Disabled Ex-Servicemember

Present situation: Current law provides a $5,000 property tax exemption to any resident ex-servicemember who was honorably discharged and has been disabled to a degree of 10 percent or more by misfortune or while serving during a period of wartime service.[23] This exemption is extended to the surviving spouse of the disabled ex-servicemember if, at the time of the disabled

[22] Section 196.173(3), F.S.
[23] Section 196.24, F.S.

ex-servicemember's death, the unremarried surviving spouse was married to the ex-servicemember for at least five years.[24]

Proposed change: The bill removes the requirement that the unremarried surviving spouse of a disabled ex-servicemember be married for at least five years on the date of the ex-servicemember's death in order to be entitled to the $5,000 property tax exemption.

Section 13 – Spousal Homestead Transfers

Present situation: Florida imposes a documentary stamp tax on tax deeds and other documents related to real property at the rate of 70 cents per $100 of the consideration paid therefor.[25] Consideration is defined to include, but is not limited to, the money paid or agreed to be paid; the discharge of an obligation; and the amount of any mortgage, purchase money mortgage lien, or other encumbrance, whether or not the underlying indebtedness is assumed.[26]

Current law provides a documentary stamp tax exemption for a deed, transfer, or conveyance between spouses or former spouses pursuant to an action for dissolution of their marriage if the real property is or was their marital home.[27] This exemption also applies to conveyances that occurred within one year before the dissolution of marriage.

Except for the exemption discussed above, there is no documentary stamp tax exemption for transfers or conveyances between spouses. For instance, if a spouse owned real property before his or her marriage and added the other spouse's name to the deed subsequent to their marriage, documentary stamp tax would be imposed on the transaction.

Proposed change: The bill provides an exemption from documentary stamp taxes for a deed or other instrument that transfers or conveys homestead property, or any interest therein, between spouses. The exemption applies if:

- The only consideration for the transfer or conveyance is the amount of a mortgage or other lien encumbering the homestead property at the time of the transfer or conveyance; and
- The deed or other instrument is recorded within one year after the date of the marriage.

This exemption applies to transfers or conveyances between spouses, regardless of whether the transfer or conveyance is from one spouse to another, from one spouse to both spouses, or from both spouses to one spouse.

Section 14 – Small Business Emergency Bridge Loans

Present situation: The Excise Tax on Documents (documentary stamp tax) is levied on promissory notes, nonnegotiable notes, written obligations to pay money, and assignments of salaries, wages, or other compensation at the rate of 35 cents per $100 or fraction thereof of the

[24] *Id.*
[25] Section 201.02(1)(a), F.S.
[26] Section 201.02(1)(a), F.S.
[27] Section 201.02(7), F.S.

indebtedness or obligation evidenced thereby. The tax on these documents may not exceed $2,450.[28]

The Florida Small Business Emergency Loan Program is part of Florida's response to disasters. The program's purpose is to provide short-term, interest-free working capital loans that are intended to "bridge the gap" between the time a major catastrophe hits and when a business has secured longer term recovery resources. Loans are awarded in amounts from $1,000 to $50,000, with terms of 90 or 180 days, and must be paid in full by the end of the loan term.[29]

The program was first activated following Hurricane Andrew and has been activated 20 additional times since then. In response to Hurricane Irma in September 2017, the program has made 829 small business loans totaling $27,719,793 and 49 citrus-related loans totaling $5,728,000.[30]

The Agricultural Economic Development Program[31] provides for disaster loans and grants for agricultural producers who have experienced losses from a natural disaster or a socio-economic condition or event. The loans and grants may be used to:

- Restore or replace essential physical property or remove debris from essential physical property;
- Pay all or part of production costs associated with the disaster year;
- Pay essential family living expenses; or
- Restructure farm debts.

Agricultural producers having parcels of land in production not exceeding 300 acres are eligible for loans under this program, and funds may be issued as direct loans or as loan guarantees for up to 90 percent of the total loan, in amounts not less than $30,000 and not more than $300,000. Loan applicants must provide at least ten percent equity.[32] This program has not been funded by the Legislature, and no loans have been made.[33]

Proposed change: The bill creates s. 201.25, F.S., providing an exemption from documentary stamp tax for any loan made by the Florida Small Business Emergency Loan Program in response to a disaster for which the governor declares a state of emergency pursuant to s. 252.36, F.S., or any loan made by the Agricultural Economic Development Program.

Sections 15, 16 and 17 – Natural Gas Fuel Tax

Present situation: In 2013, CS/CS/HB 579 established a fuel tax rate structure for motor vehicles powered by natural gas and repealed the decal fee imposed on "alternative fuel" vehicles.[34] The bill also provided an exemption from the new rate structure until December 31, 2018, and exempted from the sales and use tax natural gas and natural gas fuel when placed into the fuel system of a motor vehicle.[35]

Beginning January 1, 2019, the following taxes are imposed on natural gas fuel:
- An excise tax of 4 cents upon each motor fuel equivalent gallon of natural gas fuel.
- An additional tax of 1 cent upon each motor fuel equivalent gallon[36] of natural gas fuel, which is designated as the "ninth-cent fuel tax."
- An additional tax of 1 cent on each motor fuel equivalent gallon of natural gas fuel by each county, which is designated as the "local option fuel tax."
- An additional tax on each motor fuel equivalent gallon of natural gas fuel, which is designated as the "State Comprehensive Enhanced Transportation System (SCETS) Tax," at a rate determined by statute.[37]
- An additional tax is imposed on each motor fuel equivalent gallon of natural gas fuel "for the privilege of selling natural gas fuel," designated as the "fuel sales tax," at a rate determined by statute.[38]

Proposed change: The bill clarifies s. 206.9955, F.S., to delay the imposition of the tax on natural gas fuel used in motor vehicles from January 1, 2019, to January 1, 2024.

In addition, the bill clarifies the formula used to adjust the tax rates and sets the 12-month period ending September 30, 2013, as the base year in the formula.

The bill also:
- Amends s. 206.9952(3), F.S.:
  - to delay the expiration of a $200 penalty for each month a person acts as a natural gas retailer without a valid natural gas fuel retailer license from December 31, 2018, to December 31, 2023.

[34] The bill created a new Part V of Ch. 206, F.S., consisting of ss. 206.9951 – 206.998, entitled 'NATURAL GAS FUEL." It repealed various provisions, including ss. 206.877 and 206.89, F.S.; and it amended and relocated various provisions to the new Part V. *See supra* note 4 for a detailed analysis of the bill.
[35] *See* s. 212.08(4)(a)2., F.S.
[36] "Motor fuel equivalent gallon" is defined in s. 206.9951(1), F.S., to mean the volume of natural gas fuel it takes to equal the energy content of one gallon of motor fuel. Section 206.9955, F.S., currently defines the motor fuel equivalent gallon for compressed natural gas, liquefied natural gas, and liquefied petroleum gas.
[37] Paragraph (d) of s. 206.9955(2), F.S., currently requires the DOR, each calendar year, to determine the tax rate applicable to the sale of natural gas fuel for the following 12-month period beginning January 1, rounded to the nearest tenth of a cent, by adjusting the initially established rate of **5.8 cents per gallon** by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30.
[38] Paragraph (e) of s. 206.9955(2), F.S., currently requires the DOR, each calendar year, to determine the tax rate applicable to the sale of natural gas fuel, rounded to the nearest tenth of a cent, for the following 12-month period beginning January 1. The tax rate is to be calculated by adjusting the initially established tax rate of **9.2 cents per gallon** by the percentage change in the average of the Consumer Price Index for the most recent 12-month period ending September 30.

- to delay the effective date of the penalty of 25 percent of the tax that is assessed on the total purchases made during the person's unlicensed period until January 1, 2024.

- Amends s. 206.966, F.S., to delay the date on which natural gas fuel retailers are required to begin filing related monthly reports with the DOR from February 2019 to February 2024.

Section 18 – Moffitt Distribution

Present situation: Chapter 210, F.S., governs taxes on tobacco products. Cigarette tax collections received by the Division of Alcoholic Beverages and Tobacco (division) in the Department of Business and Professional Regulation are deposited into the Cigarette Tax Collection Trust Fund. Section 210.20, F.S., provides for the payment of monthly distributions as follows:
From the total amount of cigarette tax collections:[39]

- 8.0 percent service charge to the General Revenue Fund; [40] and
- 0.9 percent to the Alcoholic Beverage and Tobacco Trust Fund.

From the remaining net collections:[41]

- 2.9 percent to the Revenue Sharing Trust Fund for Counties;
- 29.3 percent to the Public Medical Assistance Trust Fund;
- 4.04 percent of fiscal year 2001-2002 cigarette tax collections to the Moffitt Center;[42] and
- 1.0 percent, not to exceed $3 million annually, to the Biomedical Research Trust Fund in the Department of Health (DOH).

After the above distributions are made, the remaining balance of net cigarette tax collections is deposited in the General Revenue Fund.[43]

Proposed change: The bill creates reporting requirements for distributions from cigarette tax collections going to the Moffitt Center. By March 15 of each year, the Center shall report to the Office of Economic and Demographic Research the following information:

- An itemized accounting of all expenditures of the distributed funds, including amounts spent on debt service.
- A statement indicating what portion of the distributed funds have been pledged for debt service.
- The original principal amount, and current debt service schedule of any bonds or other borrowing for which the distributed funds have been pledged or debt service.

[39] *See* s. 210.20(2)(a), F.S.
[40] *See* s. 215.20(1), F.S. concerning the appropriation of the eight percent service charge to the General Revenue Fund.
[41] *See* s. 210.20(2)(a), F.S.
[42] *See* s. 210.20(2)(b), F.S. The distribution of cigarette tax funds to the Moffitt Center was initiated in 1998, using 2.59 percent for the calculation on net cigarette tax collections. *See* ch. 98-286, Laws of Fla. The last adjustment to the percentage for the calculation occurred in 2014, when the percentage was set at the current 4.04 percent from July 1, 2014 through June 30, 2017. *See* s. 8 of ch. 2014-38, Laws of Fla.
[43] *See* s. 210.20(b), F.S.

Section 19 – Sales Tax on Commercial Rent

Present situation: Since 1969, Florida has imposed a sales tax on the total rent charged for the rental, lease, or license to use commercial real property.[44] Sales tax is due at the rate of 5.8 percent on the total rent paid and county sales surtax can also be levied.[45] If the tenant makes payments such as mortgage, ad valorem taxes, or insurance on behalf of the property owner, such payments are also classified as rent and are subject to the tax.

Commercial real property includes land, buildings, office or retail space, convention or meeting rooms, airport tie-downs, and parking and docking spaces. It may also involve the granting of a license to use real property for placement of vending, amusement, or newspaper machines. However, there are several commercial rentals that are not subject to tax, including:

- Rentals of real property assessed as agricultural;
- Rentals to nonprofit organizations that hold a current Florida consumer's certificate of exemption;
- Rentals to federal, state, county, or city government agencies;
- Properties used exclusively as dwelling units; and
- Public streets or roads used for transportation purposes.[46]

Proposed change: The bill reduces the state tax rate on rental, lease or license to use commercial real property from 5.8 percent to 5.7 percent, beginning January 1, 2019.

Section 20 – Local Government Infrastructure Surtax

Present situation: There are nine discretionary sales surtaxes that serve as revenue sources for county and municipal governments and school districts.[47] A surtax applies to all taxable transactions that are subject to Florida's sales and use tax.

The local government infrastructure surtax allows a qualifying county to levy a discretionary sales surtax of 0.5 percent or one percent pursuant to an ordinance enacted by a majority of the members of the county and approved by a majority of the electors of the county voting in a referendum on the surtax.[48] Surtax proceeds are distributed to the county and the municipalities within the county according to an interlocal agreement between the county governing authority and the governing bodies of the municipalities representing a majority of the county's municipal population. If there is no interlocal agreement, the proceeds are distributed according to the formula in s. 218.62, F.S.[49]

The proceeds of the surtax and any accrued interest must be spent only to:

[44] Chapter 1969-222, Laws of Fla.
[45] Section 212.031, F.S., and Rule 12A-1.070, F.A.C.
[46] *See* s. 212.031(1)(a)1.-13., F.S.
[47] Section 212.055, F.S.
[48] Section 212.055(2)(a)1., F.S.
[49] Section 212.055(2)(c)1., F.S. The agreement may include a school district with the consent of the county governing authority and the governing bodies of the municipalities.

- Finance, plan, and construct infrastructure;
- Acquire land for public recreation, conservation, or protection of natural resources;
- Provide loans, grants, or rebates to residential or commercial property owners who make energy efficiency improvements to their residential or commercial property, if a local government ordinance authorizing the use is approved by referendum; or
- Finance the closure of county-owned or municipally owned solid waste landfills that are closed or are required to be closed by order of the Department of Environmental Protection.[50]

The term "infrastructure" includes any fixed capital expenditure or fixed capital outlay associated with the construction, reconstruction, or improvement of public facilities that have a life expectancy of 5 or more years, any related land acquisition, land improvement, design, and engineering costs, and all other professional and related costs required to bring the public facilities into service.[51]

Prior to 2016, the term "public facilities" was not specifically defined. In 2016, the Legislature defined the term "public facilities" to mean facilities as defined in three other sections of law (ss. 163.3164(38), 163.3221(13), and 189.012(5), F.S.), regardless of whether the facilities are owned by the local taxing authority or another governmental entity.

Generally, the three incorporated sections define "public facilities" as major capital improvements, including transportation, sanitary sewer, solid waste, drainage, potable water, educational, parks and recreational facilities (two of the three sections also include health system facilities). However, the incorporation of the specific statutory definitions into the definition of "public facilities" may have had the unintended consequence of limiting the authorized use of the surtax revenues to only the listed facilities.

Proposed change: The bill amends s. 212.055(2), F.S., to clarify that the definition of "public facilities" means facilities that are necessary to carry out governmental purposes, including but not limited to fire stations, general governmental office buildings, animal shelters, or facilities defined in ss. 163.3164(38), 163.3221(13), and 189.012(5), F.S.

The bill also adds to the definition of "infrastructure" instructional technology used in a school district's classroom. Instructional technology is defined as an interactive device that assists a teacher in instructing as class or a group of students. The hardware and software necessary to operate the interactive device and a support system in which an interactive device may mount are also included as authorized expenditures.

Sections 21, 26 and 32 – Community Contribution Tax Credit Program

Present situation: In 1980, the Legislature established the Community Contribution Tax Credit Program ("CCTCP") to encourage private sector participation in community revitalization and housing projects.[52] Broadly, the CCTCP offers tax credits to businesses or persons ("taxpayers")

[50] Section 212.055(2)(d), F.S.
[51] Section 212.055(2)(d)1.a., F.S.
[52] Chapter 80-249, Laws of Fla. The CCTCP is one of the state incentives available under the Florida Enterprise Zone Act, which was partially repealed on December 31, 2015. Sections 290.007(3) and 290.016, F.S.

anywhere in Florida that contribute[53] to certain projects undertaken by approved CCTCP sponsors.[54]

Eligible sponsors under the CCTCP include a wide variety of community organizations, housing organizations, historic preservation organizations, units of state and local government, and regional workforce boards.[55] As of February 2018, the CCTCP had 124 approved sponsors.[56]

Eligible projects include activities undertaken by an eligible sponsor that are designed to accomplish one of the following purposes:

- To construct, improve, or substantially rehabilitate housing that is affordable to low-income households or very-low-income households as those terms are defined in s. 420.9071;
- To provide commercial, industrial, or public resources and facilities; or
- To improve entrepreneurial and job-development opportunities for low-income persons.[57]

In addition, eligible projects must be located in an area that was designated as an enterprise zone as of May 1, 2015,[58] or a Front Porch Florida Community, with two exceptions. First, any project designed to construct or rehabilitate housing for low-income households or very-low-income households as those terms are defined in s. 420.9071, F.S., is exempt from the area requirement. Second, any project designed to provide increased access to high-speed broadband capabilities that includes coverage in a rural community that had an enterprise zone designation as of May 1, 2015, may locate the project's infrastructure in any area of a rural county (inside or outside of the zone).

The CCTCP credit is calculated as 50 percent of the taxpayer's annual contribution, but a taxpayer may not receive more than $200,000 in credits in any one year.[59] The taxpayer may use the credit against corporate income tax, insurance premiums tax, or as a refund against sales tax.[60] Unused credits against corporate income taxes and insurance premium taxes may be carried forward for five years.[61] Unused credits against sales taxes may be carried forward for three years.[62]

DOR may approve $10.5 million in annual funding for projects that provide homeownership opportunities for low-income and very-low-income households or housing opportunities for persons with special needs and $3.5 million for all other projects.

---

[53] Sections 212.08(5)(p)2.a., 220.183(2)(a), and 624.5105(5)(a), F.S., require community contributions to be in the form of cash or other liquid assets, real property, goods or inventory, or other physical resources.
[54] *See* ss. 212.08(5)(p); 220.183; and 624.5105, F.S.
[55] *See* ss. 212.08(5)(p)2.c.; 220.183(2)(c); and 624.5105(2)(c), F.S.
[56] Email correspondence with DEO staff, Feb. 8, 2018, on file with the Senate Appropriations Subcommittee on Finance and Tax.
[57] Sections 212.08(5)(p)2.b.; 220.183(2)(d); 624.5105(2)(b); and 220.03(1)(t), F.S.
[58] The Florida Enterprise Zone Act was partially repealed as of December 31, 2015- see ch. 2015-221, Laws of Fla.; s. 290.016, F.S.
[59] Sections 212.08(5)(p)1.; 220.183 (1)(a) and (b); and 624.5105(1), F.S.
[60] *See* ss. 212.08(5)(p); 220.183; and 624.5105, F.S.
[61] Sections 220.183(1)(e) and (g); and 624.5105, F.S.
[62] Section 212.08(5)(p)1.b. and f., F.S.

The Legislature extended the CCTCP in 1984, 1994, 2005, 2014, and 2015,[63] and made the program permanent in 2017.[64] It has also amended the annual tax credit allocation of the CCTCP on numerous occasions.[65] The CCTCP cap, which started at $3 million annually, is currently set at $21.4 million for fiscal year 2017-18; for fiscal years after 2017-18, the cap is set at $14 million.

Proposed change: The bill provides a one-time additional tax credit authorization of $6.5 million for Fiscal Year 2019-20 for projects that provide homeownership opportunities for low-income and very-low-income households or housing opportunities for persons with special needs. The annual credit authorization for all other projects will remain at $3.5 million. Thus, the tax credit authorization for all projects in Fiscal Year 2019-20 is $20.5 million.

Section 21 – Donations to Charities; Exemptions for Recycling Containers and Electricity

Florida levies a 6 percent sales and use tax on the sale or rental of most tangible personal property, admissions,[66] transient rentals,[67] rental of commercial real estate,[68] and a limited number of services. Chapter 212, F.S., contains statutory provisions authorizing the levy and collection of Florida's sales and use tax, as well as the exemptions and credits applicable to certain items or uses under specified circumstances. There are currently more than 250 exemptions, exclusions, deductions, and credits from the sales and use tax.[69] Sales tax is added to the price of the taxable good or service and collected from the purchaser at the time of sale.[70]

Florida imposes sales tax[71] at the rate of 4.35 percent and gross receipts tax[72] at the rate of 2.6 percent on charges for electrical power or energy.

Donations to Charities

Present situation: Section 212.08(7), F.S., exempts from the sales and use tax the sale or lease of tangible personal property made to an organization determined to be exempt from federal income tax pursuant to s. 501(c)(3) of the Internal Revenue Code of 1986. However, donations made by entities that purchase items for resale must pay tax on the acquisition cost of the tangible personal property that is subsequently donated.

Proposed change: The bill amends s. 212.08(7)(p), F.S., to exempt from the sales and use tax tangible personal property that was purchased for resale by a dealer but whose purchase was subsequently donated to a tax-exempt entity.

[71] Section 212.05(1)(e)1.c., F.S.
[72] Section 203.01(1)(b)4., F.S.

Exemption for Electricity Used by Certain Recyclers

Present situation: Section 212.08(7)(ff), F.S., exempts electricity or steam used to operate machinery and equipment at a fixed location in this state. Such machinery and equipment must be used to manufacture, process, compound, produce, or prepare for shipment items of tangible personal property for sale, or to operate pollution control equipment, recycling equipment, maintenance equipment, or monitoring or control equipment used in such operations. This exemption applies only to specific industries classified under the Standard Industrial Classification (SIC) Manual, 1987, as published by the Office of Management and Budget, Executive Office of the President.

Proposed change: The bill amends s. 212.08(7)(ff), F.S., to add "Recyclable Material Merchant Wholesalers" as classified under the North American Classification System code 423930 to the industries exempted from the tax on electricity or steam. Businesses under this NAICS code primarily engage in the merchant wholesale distribution of automotive scrap, industrial scrap, and other recyclable materials. Included in this industry are auto wreckers primarily engaged in dismantling motor vehicles for the purpose of wholesaling scrap.[73]

Exemption for Roll-off Containers Used by Certain Recyclers

Present situation: Current law imposes sales and use tax on roll-off containers purchased and used by a business primarily engaged in the distribution of recycled materials.

Proposed change: The bill creates s. 212.08(7)(ooo), F.S., to exempt roll-off containers purchased by a business classified under NAICS code 423930 and engages in the distribution of recycled materials. The roll-off containers must be used exclusively by the business for recycling purposes.

Section 22 – Tax Amounts and Tax Brackets

Present situation: The DOR must make available the tax amounts and tax brackets applicable for:

- Transactions that occur in counties that have a surtax at a rate other than 1 percent.
- Sales of electrical power or energy taxed at a rate of 4.35 percent.
- Transactions that would otherwise have been taxable in counties that have adopted a discretionary sales tax.

Proposed change: The bill amends s. 212.12(11), F.S., to provide that the DOR must make available the tax amounts and tax brackets applicable to the commercial rental tax rate under s. 212.031,(1), F.S.

Section 23 – Sales Tax Distribution Reporting

Present situation: Section 212.20, F.S., provides for the distribution of all tax or fee revenue collected or received by DOR under ch. 212, F.S., as well as certain communication service taxes

[73] United State Census Bureau, *North American Industry Classification System, 2007 NAICS Definition*, available at: https://www.census.gov/cgi-bin/sssd/naics/naicsrch?input=423930&search=2007+NAICS+Search (last visited Mar. 3, 2018).

and gross receipt taxes. Depending on the specific tax or fee source, distributions are made first to various state trust funds, then to the local government in which the tax or fee was collected, and then to certain applicants that qualify under economic development programs created by the Legislature. For example, after the distributions under ss. 212.20(6)(a)-(d)6.a., F.S., are made, the remaining tax and fee revenues are distributed as follows:

- $166,667 monthly to professional sports franchise facilities certified pursuant to s. 288.1162, F.S., and $41,667 monthly to spring training franchise facilities certified pursuant to s. 288.11621, F.S.[74]
- $166,667 monthly to the professional golf hall of fame certified pursuant to s. 288.1168, F.S.[75]
- $83,333 monthly to certain spring training franchise facilities certified pursuant to s. 288.11631, F.S.[76]
- Monthly distributions of an amount to be determined by DEO to each local government that is certified pursuant to s. 288.11625, F.S., for the public purpose of constructing, reconstructing, renovating, or improving a sports facility.[77]

While DEO must certify the persons that receive a distribution described above prior to receiving the distributions, current law does not require annual reporting of the manner in which the distributions are spent or whether, and to what extent, the distributions are pledged for debt service.

Proposed changes: The bill creates reporting requirements for persons that receive a distribution pursuant to ss. 212.20(6)(d)6.b.-f., F.S. By March 15 of each year, such persons receiving distributions in the prior calendar year shall report to the Office of Economic and Demographic Research the following information:

- An itemized accounting of all expenditures of the funds distributed in the prior calendar, including amounts spent on debt service.
- A statement indicating what portion of the distributed funds have been pledged for debt service.
- The original principal amount, and current debt service schedule of any bonds or other borrowing for which the distributed funds have been pledged for debt service.

Sections 27 and 31 – Voluntary Cleanup Tax Credit Program - Brownfields Tax Credit

Present situation: The Department of Environmental Protection (DEP) is authorized to issue $10 million annually in tax credits as an incentive to encourage site rehabilitation in brownfield areas and to encourage voluntary cleanup of certain other types of contaminated sites. This corporate income tax credit may be taken in the amount of 50 percent of the costs of voluntary cleanup activity that is integral to site rehabilitation at the following sites:

- A site eligible for state-funded cleanup under the Drycleaning Solvent Cleanup Program;[78]

[74] Section 212.20(6)(d)6.b., F.S.
[75] Section 212.20(6)(d)6.c., F.S.
[76] Section 212.20(6)(d)6.e., F.S.
[77] Section 212.20(6)(d)6.f., F.S.
[78] Section 376.30781, F.S.

- A drycleaning solvent contaminated site at which the real property owner undertakes voluntary cleanup, provided that the real property owner has never been the owner or operator of the drycleaning facility; or
- A brownfield site in a designated brownfield area.[79]

Eligible tax credit applicants may receive up to $500,000 per site per year in tax credits plus an additional 25 percent supplemental tax credit for those applicants that completed site rehabilitation and received a Site Rehabilitation Completion Order from the DEP. This additional supplemental credit has a $500,000 cap. Businesses are also allowed a one-time application for an additional 25 percent of the total site rehabilitation costs, up to $500,000, for brownfield sites at which the land use is restricted to affordable housing. They may also submit a one-time application claiming 50 percent of the costs, up to $500,000, for removal, transportation and disposal of solid waste at a brownfield site.

Site rehabilitation tax credit applications must be complete and submitted by January 31 of each year. In the event that approved tax credit applications exceed the $10 million annual authorization, the statute provides for remaining applications to roll over into the next fiscal year to receive tax credits in first come, first served order from the next year's authorization. These tax credits may be applied toward corporate income tax in Florida. The tax credits may be transferred one time, although they may succeed to a surviving or acquiring entity after merger or acquisition.

Since 1998, the VCTC Program has approved $81.7 million in VCTCs,[80] and total requests for tax credits have met or exceeded the annual authorization since 2007.[81] As of February 1, 2018, DEP had a backlog of $10.2 million in approved tax credits that have not been funded.[82] On July 1, 2018, the $10 million annual authorization for Fiscal Year 2018-19 becomes available which will reduce the current backlog to $200,000. However, the $12.8 million in tax credits applied for 2017 costs when added to the $200,000 tax credits outstanding will create a backlog of approximately $13 million[83] that will be partially funded when the $10 million annually authorized credit amount becomes available on July 1, 2019.

Proposed Change: The bill provides a one-time additional tax credit authorization of $11 million for Fiscal Year 2018-19.

Sections 28 and 29 – Traffic Fine Reduction for Driver Improvement Course Attendance

Present situation: A person who commits a noncriminal traffic infraction and is issued a citation, must elect to appear before a designated official, pay the citation, or enter into a payment plan

[79] Section 220.1845, F.S.
[80] Florida Brownfields Redevelopment Program, 2016-17 Annual Report, on file with the Senate Appropriations Subcommittee on Finance and Tax. Unavailable online as of Feb. 1, 2018.
[81] DEP, Florida Brownfields Redevelopment Program, 2016 Annual Report, no longer available at: http://www.dep.state.fl.us/Waste/quick_topics/publications/wc/brownfields/AnnualReport/2016/2015-16_FDEP_Annual.pdf (last visited March 22, 2017).
[82] Email correspondence with DEP staff, Feb. 1, 2018, on file with Senate Appropriations Subcommittee on Finance and Tax.
[83] Note that, for various reasons, not all of the $12.8 million in tax credits applied for will be approved.

with the clerk of court within 30 days after the citation is issued to avoid having his or her driver license suspended.[84]

Section 318.14(9), F.S., provides that a person who does not hold a commercial driver license or commercial learner's permit and who is cited while driving a noncommercial motor vehicle for a noncriminal traffic infraction may, in lieu of a court appearance, elect to attend a basic driver improvement course.[85] If a driver improvement course is completed, adjudication is withheld and points[86] are not assessed against the person's driver license.

If a person completes a basic driver improvement course, 18 percent of the civil penalty imposed[87] is deposited in the State Courts Revenue Trust Fund.

A person who elects to attend driver improvement school and has paid the civil penalty,[88] but who subsequently fails to attend the driver improvement school within the time specified by the court is deemed to have admitted the infraction and is adjudicated guilty.[89] In such a case, the clerk of the court notifies the Department of Highway Safety and Motor Vehicles (DHSMV) of the person's failure to attend driver improvement school and points are assessed on the person's driver license.

The cost of driver improvement courses range from $15 to $40, depending on the provider.[90]

Proposed change: The bill amends s. 318.14(9), F.S., providing a reduction of 18 percent on the civil penalty for a noncriminal traffic infraction if the person elects to attend driver improvement school. The bill also removes the provision that 18 percent of the civil penalty from those attending driver improvement schools is deposited into the State Courts Revenue Trust Fund. Therefore, the bill reduces the fine for those attending a driver improvement course and reduces the revenue provided to the State Courts Revenue Trust Fund.

The bill also amends s. 318.15(1)(b), F.S., making conforming changes regarding the reduction in fines for those who elect to attend a driver improvement course.

Section 30 – Transportation of Agriculture, Horticulture, and Forestry Products

Present situation: Florida imposes an annual license tax for the operation of motor vehicles, which is paid to the Department of Highway Safety and Motor Vehicles upon the registration or renewal of each vehicle. The amount of the tax depends on the type and size of the vehicle.

Currently, restricted license plates with a reduced annual license tax are available for an eligible truck tractor or heavy truck not operated as a for-hire vehicle, which is engaged exclusively in

[84] Section 318.14, F.S.
[85] Driver improvement courses must be approved by the DHSMV.
[86] Points are provided for in s. 322.27, F.S.
[87] *See* s. 318.18(3), F.S. The civil penalty varies by violation.
[88] The civil penalty is provided for in s. 318.14(9), F.S.

transporting raw, unprocessed, and non-manufactured agriculture or horticultural products or forestry products within a 150-mile radius of its home address.

Proposed change: The bill amends s. 320.08, F.S, to expand the eligibility for the restricted license plate to include such trucks that operate anywhere within the state.

Sections 34 and 35 – Back to School and Disaster Preparedness Sales Tax Holidays

Back-to-school

Present situation: Since 1998, the Legislature has enacted 22 temporary periods (commonly called "sales tax holidays") during which certain household items, household appliances, clothing, footwear, books, and/or school supply items were exempted from the state sales tax and county discretionary sales surtaxes.

The "Florida Residents' Tax Relief Act of 1998" established Florida's first back-to-school sales tax holiday, during which time clothing purchases of $50 or less were exempt from tax.[91] In 1999, the legislature added backpacks to the tax holiday;[92] and included school supplies in 2001.[93] In 2013, personal computers and related accessories that were purchased for noncommercial home or personal use with a sales price of $750 or less were exempt.[94] Since 1998, the duration of back-to-school sales tax holidays have varied from 3 to 10 days, as have the type and value of exempt items.

For the 2017-2018 school year, 41 of Florida school districts (61 percent) held their opening day for students during the first week of August (Aug. 7 – 11). Another 23 districts (34 percent) had opening days during the second week of August.

Proposed change: The bill provides for a 3-day sales tax holiday from August 3, 2018, through August 5, 2018. During the holiday, the following items that cost $60 or less are exempt from the state sales tax and county discretionary sales surtaxes:

- Clothing (defined as an "article of wearing apparel intended to be worn on or about the human body," but excluding watches, watchbands, jewelry, umbrellas, and handkerchiefs);
- Footwear (excluding skis, swim fins, roller blades, and skates);
- Wallets; and
- Bags (including handbags, backpacks, fanny packs, and diaper bags, but excluding briefcases, suitcases, and other garment bags).

The bill also exempts "school supplies" that cost $15 or less per item during the holiday.

The bill allows the back-to-school sales tax holiday to apply at the option of the dealer if less than five percent of the dealer's gross sales of tangible personal property in the prior calendar year are comprised of items that would be exempt under the holiday. If a qualifying dealer

[91] Chapter 98-341, Laws of Fla.
[92] Chapter 99-229, Laws of Fla.
[93] Chapter 2001-148, Laws of Fla.
[94] Chapter 2013-42, s. 42 Laws of Fla.

chooses not to participate in the tax holiday, by August 1, 2018, the dealer must notify the DOR in writing of its election to collect sales tax during the holiday and must post a copy of that notice in a conspicuous location at its place of business. The bill authorizes the DOR to adopt emergency rules to implement the provisions of the holidays.

The bill appropriates $243,814 in nonrecurring funds from the General Revenue Fund for the 2017-2018 fiscal year to the Department of Revenue to administer this sales tax holiday.

Disaster Preparedness

Present situation: In 2017, the Florida Office of Insurance Regulation estimated a gross probable loss of over $7 billion due to Hurricane Irma in 2017, $1 billion due to hurricanes Hermine and Mathew in 2016,[95] $25 billion due to four hurricanes in 2004, and $10.8 billion due to four hurricanes in 2005.[96] Tropical Storm Fay was estimated to have resulted in $242 million of damage in 2008.[97] The Florida Division of Emergency Management recommends having a disaster supply kit with items such as a battery operated radio, flashlight, batteries, and first-aid kit.[98]

Proposed change: The bill provides for a 7-day sales tax holiday from June 1, 2018, through June 7, 2018, for specified items related to disaster preparedness. During the holiday, the following items are exempt from the state sales tax and county discretionary sales surtaxes:

- A portable self-powered light source selling for $20 or less;
- A portable self-powered radio, two-way radio, or weather band radio selling for $50 or less;
- A tarpaulin or other flexible waterproof sheeting selling for $50 or less;
- A ground anchor system or tie-down kit selling for $50 or less;
- A gas or diesel fuel tank selling for $25 or less;
- A package of AAA-cell, AA-cell, C-cell, D-cell, 6-volt, or 9-volt batteries, excluding automobile and boat batteries, selling for $30 or less;
- A nonelectric food storage cooler selling for $30 or less;
- A portable generator that is used to provide light or communications or preserve food in the event of a power outage selling for $750 or less; and
- Reusable ice selling for $10 or less.

The bill appropriates $70,072 in nonrecurring funds from the General Revenue Fund for the 2017-2018 fiscal year to the Department of Revenue to administer this sales tax holiday.

Both the back-to-school and disaster preparedness sales tax holidays in the bill do not apply to the following sales:

- Sales within an airport, as defined in s. 330.27(2), F.S.

Section 36 – Generators for Nursing Homes and Assisted Living Facilities

Present situation: There is currently no sales tax exemption for the purchase of generators for assisted living facilities or nursing homes. In September 2017, in response to electrical outages caused by Hurricane Irma, the Agency for Health Care Administration (AHCA) and the Department of Elder Affairs (DEA) published Emergency Rules to require nursing homes and assisted living facilities to comply with an emergency power plan.[99] Nursing homes and assisted living facilities were required to provide a detailed plan which included the acquisition of a sufficient generator or generators to ensure ambient temperatures at facilities will be maintained at 80 degrees or less for a minimum of 96 hours in the event of a loss of power. Facilities must also acquire and maintain sufficient fuel to ensure that in an emergency the generators can function as required, and must acquire services necessary to install, maintain, and test the equipment to ensure the safe and sufficient operation of the generator system. Facilities must have implemented their plan within sixty days of September 16, 2017. Additional Emergency Rules were subsequently published to provide for exceptions for the implementation timeline.[100]

DEA and AHCA have certified to the Department of State permanent rules concerning emergency environmental control for assisted living facilities[101] and nursing homes[102] and both have requested that these rules be ratified during the 2018 Legislative Session.[103] Each rule requires that facilities licensed prior to the effective date of the rule shall have implemented the plan no later than June 1, 2018, but provides for extensions up to January 1, 2019 under certain conditions.

Proposed change: The bill provides an exemption from the sales and use tax for the purchase of generators used to generate emergency electric energy at nursing homes or assisted living facilities. The exemption is available at the time or purchase or through a refund of previously paid taxes and applies to purchases made between July 1, 2017 and December 31, 2018. The exemption is limited to a maximum of $15,000 in tax for the purchase of generators for any one facility.

A purchaser must provide an affidavit to a seller certifying that the equipment will only be used for the above purposes. A similar requirement is made when applying to DOR for a refund.

[102] Rule 59A-4.1265, as certified by the Agency for Health Care Administration, Feb. 2, 2018.
[103] Letters of request on file with the Senate Appropriations Subcommittee on Finance and Tax.

Section 37 – Fencing Materials / Hurricane Irma

Present situation: Current law exempts from the sales and use tax certain items used for agricultural purposes and nets used by commercial fisheries.[104] The exemption is not allowed unless the purchaser or lessee signs a certificate stating that the item to be exempted is for the exclusive use designated in s. 212.08(5)(a), F.S.

Hurricane Irma's path coincided with some of Florida's most productive agricultural regions in the state, and consequently it caused major losses to all segments of agriculture production, including crop losses and damaged infrastructure (such as destroyed fences, shade structures, and ground cover for row crops). Preliminary estimates for total losses (crops and infrastructure) reported by the Department of Agriculture and Consumer Services (DACS) to Florida's agricultural sectors are over $2 billion.[105]

Proposed change: The bill provides an exemption from the sales and use tax for the purchase of fencing materials used in the repair of farm fences on lands classified as agricultural under s. 193.461, F.S., if the fencing materials will be or were used to repair damage to fences that occurred as a direct result of the impact of Hurricane Irma.

The exemption is available through a refund of previously paid taxes and applies to purchases made between September 10, 2017, and May 31, 2018.

To receive a refund, the owner of the fencing materials or the real property into which the materials were incorporated must apply to the DOR by December 31, 2018 and include the following information:

- The name and address of the person claiming the refund.
- The address and assessment roll parcel number of the agricultural land where the fencing materials will be or were used.
- The sales invoice or other proof of purchase of the fencing materials, showing the amount of sales tax paid, the date of purchase, and the name and address of the sales tax dealer from whom the materials were purchased.
- An affidavit executed by the owner of the fencing materials including a statement that the fencing materials were or will be used to repair fencing damaged as a direct result of the impact of Hurricane Irma.

Section 38 – Building Materials for Nonresidential Farm Buildings / Hurricane Irma

Present situation: Current law defines a "nonresidential farm building" as any temporary or permanent building or support structure that is classified as a nonresidential farm building on a farm under s. 553.73(10)(c) or that is used primarily for agricultural purposes, is located on land that is an integral part of a farm operation or is classified as agricultural land under s. 193.461,

[104] Section 212.08(5)(a), F.S.
[105] Florida Department of Agriculture and Consumer Services (DACS), *Hurricane Irma's Damage to Florida Agriculture*, October 4, 2017, available at: https://www.freshfromflorida.com/content/download/77515/2223098/FDACS+Irma+Agriculture+Assessment.pdf

F.S., and is not intended to be used as a residential dwelling.[106] The term includes barns, greenhouses, shade houses, farm offices, storage buildings, and poultry houses.

Generally, sales and use tax are currently levied on the purchase of tangible personal property that is used in the construction or repair of buildings and other projects, unless specifically exempted under current law.[107] There is currently no general sales tax exemption for the purchase of tangible personal property used in the construction or repair of nonresidential farm buildings.

Hurricane Irma caused major losses to Florida's agricultural landscapes, and damage to nonresidential farm building is a part of the agricultural infrastructure losses.

Proposed change: The bill provides an exemption from the sales and use tax for the purchase of certain building materials used to repair nonresidential farm buildings that were damaged as a direct result of Hurricane Irma. The exemption is available through a refund of previously paid taxes and applies to purchases made between September 10, 2017, and May 31, 2018. The exempt building materials are broadly defined as tangible personal property that becomes a component part of a nonresidential farm building.

To receive a refund, the owner of the building materials must apply to the DOR by December 31, 2018 and include the following information:

- The name and address of the person claiming the refund.
- The address and assessment roll parcel number of the real property where the building materials will be or were used.
- The sales invoice or other proof of purchase of the building materials, showing the amount of sales tax paid, the date of purchase, and the name and address of the sales tax dealer from whom the materials were purchased.
- An affidavit executed by the owner of the building materials including a statement that the building materials were or will be used to repair the nonresidential farm building damaged as a direct result of the impact of Hurricane Irma.

Section 39 – Refund of Fuel Taxes / Hurricane Irma

Present situation: Motor fuel and diesel fuel are subject to state taxation pursuant to ch. 206, F.S. The tax rate is a combination of several state and local rates, and the revenue collected is distributed to various state trust funds and to local governments for revenue sharing purposes.[108] For 2017, the combined state tax rate is 24.8 cents per gallon.[109] In addition, the retail sale of motor and diesel fuel is subject to sales tax under ch. 212, F.S., under certain circumstances if fuel taxes have not been paid.[110]

[106] Section 604.50, F.S.
[107] For example, s. 212.08(7)(r), F.S., exempts the sale of building materials that are used in new construction located in a rural area of opportunity.
[108] Section 206.41, F.S.
[109] Revenue Estimating Conference, 2018 FLORIDA TAX HANDBOOK, pp. 126-127, available at: http://edr.state.fl.us/content/revenues/reports/tax-handbook/taxhandbook2018.pdf
[110] Sections 212.18(3) and 212.0501, F.S.; Rule 12B-5.120, F.A.C.

Current law exempts the sale or use of motor and diesel fuel for agricultural or farm purposes;[111] however, agricultural or farm purposes are generally defined to mean "used exclusively on a farm or for processing farm products on the farm, and does not include fuel used in any vehicle or equipment operated upon public highways of the state."[112]

Proposed change: The bill creates an exemption from state and local taxes imposed on motor fuel and diesel under parts I and II, ch. 206, F.S.,[113] for fuel that is used for the transportation of agricultural products from the farm or agricultural land to a facility used to process, package, or store the product.

The exemption is available through a refund of previously paid taxes and applies to purchases made between September 10, 2017, and June 30, 2018. Excluded from this exemption are the "constitutional fuel tax" levied under s. 9(c), Art. XII of the 1968 State Constitution, and the 0.125 cents per gallon levied to defray expenses for motor fuel inspection, testing and analysis by the Department of Agriculture and Consumer Services.[114]

To receive a refund, the fuel purchaser must apply to the DOR by December 31, 2018, and include the following information:

- The name and address of the person claiming the refund.
- The name and address of up to three owners of a farm or agricultural land whose agricultural product was shipped by the fuel purchaser.
- The sales invoice or other proof of purchase of the fuel, showing the number of gallons of fuel purchased, the type of fuel purchased, the date of purchase, and the name and place of business of the dealer from whom the fuel was purchased.
- The license number, or other identification number, of the motor vehicle that used the exempt fuel.
- An affidavit executed by the fuel purchaser including a statement that he or she purchased and used the fuel in a manner that qualifies for this exemption.

Section 40 – Save Our Homes Portability Affected by Storm Damage

Present situation: The "Save Our Homes" amendment to the Florida Constitution was approved by voters in 1992.[115] This amendment limits annual assessment increases to the lower of: 3% of the assessment for the prior year or the change in the Consumer Price Index (CPI) for all urban consumers. See Fla. Const., art. VII, s. 4(d)(1). The operation of this provision over time results in the market value of a homestead property exceeding its assessed value for property tax purposes if the property owner does not sell the property.

[111] Sections 206.41(4)(c), 206.64, 206.874(2)-(3), and 212.0501, F.S.
[112] The restriction does not apply to fuel used on highways to move equipment from one farm to another.
[113] The exemption does not include the 2 cent per gallon "second gas tax" imposed pursuant to art. XII, sec. 9(c), Fla. Const. under s. 206.41(1)(a), F.S., or the 0.125 cents per gallon inspection fee imposed under s. 206.41(1)(h), F.S.
[114] Sections 206.41(1)(a) and (h), F.S.
[115] Section 193.155(1), F.S.

Section 193.155(8), F.S., allows a homestead to be assessed at less than just value when the person who establishes a new homestead has received a homestead exemption as of January 1 of either of the two immediately preceding years. Property owners who relocate to a new homestead may also transfer or "port" up to $500,000 of their accrued benefit, also known as the Save our Home (SOH) benefit, to the new homestead.

Section 193.155(8)(g), F.S., provides that for purposes of receiving an assessment reduction pursuant to this subsection, a person entitled to assessment under this section may abandon his or her property even though it remains his or her primary residence by notifying the property appraiser of the county where the homestead is located. The notification must be in writing and delivered at the same time as or before timely filing a new application for homestead exemption on the property.

Proposed change: The bill amends s. 193.155(8). F.S., and creates a new paragraph to allow owners of homestead property that was significantly damaged or destroyed as a result of a named tropical storm or hurricane to elect to have the property deemed abandoned if the owner establishes a new homestead by January 1 of the second year immediately following the storm or hurricane. This will allow the owner of the homestead property to keep their SOH benefit if they move from the significantly damaged or destroyed property to establish a new homestead by the end of the year following the storm.

Section 41 – Ad Valorem Taxes on Water and Wastewater Utilities

Present Situation: Section 163.01, F.S., also known as the Florida Interlocal Cooperation Act of 1969, enables local governments to cooperate with other localities on a basis of mutual advantage to provide services and facilities that will best address the geographic, economic, population, and other factors that affect the needs and development of local communities. The act authorizes public agencies to exercise jointly, by contract in the form of an interlocal agreement, any power, privilege, or authority shared by those agencies in order to more efficiently provide services and facilities.

An interlocal agreement may provide for a separate legal or administrative entity to administer or execute the agreement, which may be a commission, board, or council constituted pursuant to the agreement. Section 163.01(7), F.S. provides a separate legal entity may acquire, own, construct, improve, operate, and manage public facilities, or finance facilities on behalf of any person, relating to a governmental function or purpose, including, but not limited to, wastewater facilities, water or alternative water supply facilities, and water reuse facilities, which may serve populations within or outside of the members of the entity. Since the legal entities created under the Florida Interlocal Act of 1969 perform essential governmental functions they are not required to pay any taxes or assessments of any kind on property acquired to perform such functions. In a recent circuit court case, the court concluded that water and wastewater facilities owned by an entity created under ch. 163 were not exempt from ad valorem taxes, despite the exemption provided in s. 163.01(7), F.S.[116] The court reasoned that the facilities did not serve a governmental function or purpose for members located within the entity when the facilities only

[116] *Florida Governmental Utility Authority v. Tim Parker and Linda Myers*, Case Number 2014-CA-000472, Fla. 7th Judicial Circuit (December 8, 2016), per curium affirmed, *Florida Governmental Utility Authority v. Tim Parker and Linda Myers*, Case No. 5D17-93, Slip Opinion 2017 WL 6624263, (Fla. 5th DCA Dec. 26, 2017)

served members located outside the entity The court also declined to interpret the exemption provided in s. 163.01(7) as an ad valorem exemption because the language in the statute does not specifically mention ad valorem taxation. Lastly, the court reasoned that the facilities were subject to taxation when the entity contracted a private entity to perform the water treatment services because that private entity would be subject to tax had it owned the property,

Proposed Change: This bill amends s. 163.01, F.S., to clarify that any separate legal entity created under the Florida Interlocal Cooperation Act of 1969 is not required to pay any taxes or assessments, including ad valorem tax, on property acquired or used by the entity to perform essential governmental functions regardless of whether the property is located within or outside of the jurisdiction of the members of the entity. The bill also clarifies that the entity, in performance of its authorized purposes, provides essential governmental functions for the public health, safety and welfare of the people of the state and not just the members located within the entity. Further, the bill clarifies that the exemption is not affected by the entity entering into agreements with private entities for services related to utilities owned by the separate legal entity.

Section 42 – Export of Motor Fuels

Present situation: Chapter 206, F.S., provides for the licensing of a person engaged in business as a terminal supplier, importer, exporter, blender, biodiesel manufacturer, or wholesaler of motor fuel within this state.[117] Generally, taxes on motor fuel are imposed on all of the following:[118]

- The removal of motor fuel in this state from a terminal[119] if the motor fuel is removed at the rack.[120]
- The removal of motor fuel in this state from any refinery under certain circumstances.
- The entry of motor fuel into this state for sale, consumption, use, or warehousing under certain circumstances.
- The removal of motor fuel in this state to an unregistered person, unless there was a prior taxable removal, entry, or sale of the motor fuel.
- The removal or sale of blended motor fuel in this state by the blender thereof.

However, current law exempts the purchase of taxable motor fuels at a terminal by a licensed exporter only under the following circumstances:

- The exporter has designated to the terminal supplier the destination for delivery of the fuel to a location outside the state;
- The exporter is licensed in the state of destination and has supplied the terminal supplier with that license number;
- The exporter has not been barred from making tax-free exports by the department for violation of s. 206.051(5); and

[117] Section 206.02, F.S.
[118] Section 206.41(6), F.S.
[119] "Terminal" means a storage and distribution facility for taxable motor or diesel fuel, supplied by pipeline or marine vessel, that has the capacity to receive and store a bulk transfer of taxable motor or diesel fuel. *See* s. 206.01(18), F.S.
[120] "Rack" means the part of a terminal or refinery by which fuel is physically removed into tanker trucks or rail cars. *See* s. 206.01(12), F.S.

- The terminal supplier collects and remits to the state of destination all taxes imposed on said fuel by the destination state.

If a licensed exporter pays Florida motor fuel taxes, the exporter can take a credit on its monthly fuel tax return or apply for a refund of Florida fuel tax paid on fuel exported from the state.[121] Terminal suppliers may exchange fuel above the loading rack of a terminal with other terminal suppliers without paying motor fuel taxes,[122] but fuel tax must be paid by a terminal supplier that purchases motor fuel at the rack from another terminal supplier.

When a terminal supplier purchases motor fuel at the rack from another terminal supplier and subsequently resells the motor fuel to an exporter, the purchasing terminal supplier must pay Florida motor fuel tax on his purchase and charge Florida motor fuel tax to the exporter on the resale. Although the exporter may take a credit or refund for the Florida motor fuel tax (as described above), the exporter must first pay the Florida motor fuel tax as well as the motor fuel tax in the state to which the fuel will be exported.

Proposed change: The bill amends s. 206.052, F.S., to provide an exemption from motor fuel taxes for a terminal supplier that purchases motor fuel from another terminal supplier at a terminal under the following circumstances:

- The terminal supplier who purchased the motor fuels sells the motor fuels to a licensed exporter for immediate export from the state.
- The terminal supplier who purchased the motor fuels has designated to the terminal supplier who sold the motor fuels the destination for delivery of the fuel to a location outside the state.
- The terminal supplier who purchased the motor fuels is licensed in the state of destination and has supplied the terminal supplier who sold the motor fuels with that license number.
- The licensed exporter has not been barred from making tax-free exports by the department for violation of s. 206.051(5).
- The terminal supplier who sold the motor fuels collects and remits to the state of destination all taxes imposed on said fuel by the destination state.

Section 43 – Aviation Fuel Taxes

Present situation: Florida law imposes an excise tax of 6.9 cents on every gallon of aviation fuel sold in the state or brought into the state for use.[123] Aviation fuel is defined as "fuel for use in aircraft, and includes aviation gasoline and aviation turbine fuels and kerosene, as determined by the American Society for Testing Materials specifications D-910 or D-1655 or current specifications."[124]

In 2016, the Legislature amended the fuel tax laws by removing an exemption available to certain air carriers and reducing the tax rate on all air carriers.[125] The 2016 law changes provided a delayed effective date to July 1, 2019. Beginning in fiscal year 2019-2020, the excise tax on

[121] Section 206.051(4), F.S.
[122] Rule 12B-5.050, F.A.C.
[123] Section 206.9825, F.S.
[124] Section 206.9815, F.S.
[125] Chapter 2016-220, Laws of Fla.

aviation fuel will be 4.27 per gallon, and collections of aviation fuel tax in fiscal year 2019-20 are estimated to be $27.7 million, net of refunds.

The Federal Aviation Administration (FAA) is the agency within the United States Department of Transportation (USDOT) that, among other things, regulates the air transportation system in the United States.[126] Title 14 of the Code of Federal Regulations, in part, provides the licensing, certification, and operational specifications for all aviation activities in the United States. Federal regulations define "air carrier" to mean a person who undertakes directly by lease, or other arrangement, to engage in air transportation. Part 121 provides the operating requirements for domestic, flag, and supplemental operations. Part 125 provides for the certification and operation requirements for airplanes having a seating capacity of 20 or more passengers or a maximum payload capacity of 6,000 pounds or more; part 125 also provides rules governing person on board such aircrafts. Part 135 provides the operating requirements for commuter and on-demand operations and rules governing persons on board such aircrafts.

The FAA imposes certain restrictions on the uses of revenues for airport operators that accept Federal assistance.[127] Generally, revenues from state and local taxes on aviation fuel may only be used for certain aviation-related purposes such as airport operating costs, or in the case of state taxes, a "state aviation program."[128] However, the revenue from state and local taxes on aviation fuel which were in effect prior to December 30, 1987, is considered "grandfathered" and is eligible for use for otherwise impermissible expenditures.[129] On November 7, 2014, the FAA clarified its interpretation of the federal requirements for the use of revenue derived from taxes on aviation fuel, and requested each state to validate compliance with this FAA regulation.[130] On April 26, 2016, the Florida Department of Transportation validated the state's compliance with the FAA regulation.[131]

Any air carrier that is in the business of transporting persons or property for compensation or hire by air is entitled to receive a refund of aviation fuel taxes paid on fuel purchased by the carrier, not to exceed 0.6 percent of the wages paid by the carrier to employees located or based within this state and covered by the reemployment compensation provisions of ch. 443, F.S.[132]

Proposed change: Beginning July 1, 2019, the bill provides a refund of 1.42 cent per gallon of the aviation fuel taxes imposed on fuel purchased by an air carrier who conducts scheduled operations or all-cargo operations that are authorized under 14 C.F.R. parts 121, 129, or 135,

[132] Section 206.9855, F.S.

reducing the effective tax rate to 2.85 cents per gallon. The refund provided under this section plus the wages-based refund provided under s. 206.9855, F.S., may not exceed 4.27 cent per gallon of aviation fuel purchased by the carrier.

Section 44 provides that the provisions related to multiple parcel buildings first apply to taxes and special assessments levied in 2018.

Section 45 appropriates, for the 2018-2019 fiscal year, the sum of $91,319 in nonrecurring funds from the General Revenue Fund to the Department of Revenue to implement the provisions of the bill.

Section 46 provides an effective date of July 1, 2018, unless another date is expressed in the bill.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18 of the Florida Constitution governs laws that require counties and municipalities to spend funds or that limit their ability to raise revenue or receive state tax revenues.

Subsection (b) of s. 18, Art. VII, Florida Constitution, provides, that except upon approval of each house of the Legislature by two-thirds vote of the membership, the legislature may not enact, amend, or repeal any general law if the anticipated effect of doing so would be to reduce the authority that municipalities or counties have to raise revenue in the aggregate, as such authority existed on February 1, 1989. However, the mandates requirements do not apply to laws having an insignificant impact,[133] which for Fiscal Year 2017-2018, is $2.05 million or less.[134]

The bill reduces local government revenues by more than an insignificant amount and it does not appear that any exemption or exception applies. Therefore, the bill may qualify as a mandate requiring a two-thirds vote of the membership.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

[133] An insignificant fiscal impact is the amount not greater than the average statewide population for the applicable fiscal year times $0.10. *See* Florida Senate Committee on Community Affairs, *Interim Report 2012-115: Insignificant Impact*, (September 2011), *available at* http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf (last visited Mar. 03, 2018).

[134] Based on the Demographic Estimating Conference's population adopted on December 5, 2017. The conference packet is available at http://edr.state.fl.us/Content/conferences/population/ConferenceResults.pdf (last visited Mar. 03, 2018).

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

CS/CS/SB 620 will reduce state revenues by $103.4 million in Fiscal Year 2018-2019, with a $60.4 million recurring reduction. General Revenue Fund receipts will be reduced by $73.8 million in Fiscal Year 2018-2019, with a $39.3 million recurring reduction. State trust fund receipts will be reduced by $4.0 million in Fiscal Year 2018-2019, with a $14.5 million recurring reduction. Local government receipts will be reduced by $25.7 million in Fiscal Year 2018-2019, with a $6.5 million recurring reduction.

Non-recurring General Revenue Fund and local government receipts will be reduced by $6.0 million and $0.5 million in Fiscal Year 2019-2020, respectively.

The total tax reductions proposed by the bill are represented by the sum of the recurring impacts, reflecting the annual value of permanent tax reductions when fully implemented, and the 1-year only tax reductions, reflecting temporary tax reductions. The total of $148.9 million in tax reductions proposed by the bill is the sum of $60.4 million (recurring), $82.0 million (1-year only tax cuts in Fiscal Year 2018-2019), and $6.5 million (1-year only tax reductions after Fiscal Year 2019-2020).

The table on page 32 shows the details of the revenue impacts.

(*) Impact less than $50,000; (**) Impact is indeterminate.

B. Private Sector Impact:

The bill provides tax relief to agricultural producers affected by Hurricane Irma and citrus greening.

The bill removes, either during specific periods of time or on an ongoing basis, the sales tax on various purchases of tangible personal property, and it reduces the sales tax rate on the rental of commercial real property.

The bill provides surviving spouses of disabled military veterans increased homestead property tax exemptions, and reduces the documentary stamp tax burden on spouses that transfer property between one another.

C. Government Sector Impact:

The bill contains the following appropriations totaling $1,000,205:

- $243,814 in Fiscal Year 2017-2018 from the General Revenue Fund to the Department of Revenue to implement the back-to-school sales tax holiday;
- $70,072 in Fiscal Year 2017-2018 from the General Revenue Fund to the Department of Revenue to implement the disaster preparedness sales tax holiday;
- $91,319 in Fiscal Year 2018-2019 from the General Revenue Fund to the Department of Revenue to implement the provisions in the bill; and
- $650,000 in Fiscal Year 2018-2019 from the General Revenue Fund to the Department of Revenue for fiscally constrained counties affected by the reduced property tax assessments for tangible personal property impacted by Hurricane Irma and citrus greening.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

The bill amends the following sections of the Florida Statutes: 28.241, 159.621, 163.01, 193.155, 193.461, 196.173, 196.24, 197.3631, 197.572, 197.573, 201.02, 206.052, 206.9952, 206.9955, 206.996, 212.031, 212.055, 212.08, 212.12, 220.183, 220.1845, 318.14, 318.15, 320.08, 376.30781, 624.5105, and 741.01.

The bill creates the following sections of the Florida Statutes: 193.0237, 193.4516, 201.25, 206.9826, 210.205, 212.205, and 218.135.

The bill creates undesignated sections of Florida law.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on March 2, 2018:
The committee substitute:

- Redirects certain fees from the General Revenue Fund to the State Courts Trust Fund.
- Provides a documentary stamp tax exemption related to housing finance authorities.
- Provides for the assessment of multiple parcel buildings.
- Reduces property taxes for agricultural equipment affected by citrus greening and Hurricane Irma.
- Extends agricultural assessments for 5 years for certain lands affected by Hurricane Irma.
- Updates the deployed servicemember property tax exemption.
- Expands homestead exemptions for surviving spouses of disabled veterans.
- Limits the property liens that survive a tax sale.
- Exempts from documentary stamp tax certain deeds between spouses and certain loans related to the Florida Small Business Emergency Bridge Loan Program and the Agricultural Economic Development Program.
- Delays the imposition of Florida's natural gas fuel tax from 2019 to 2024.
- Requires additional reporting on cigarette tax distributions.
- Expands the use of Local Government Infrastructure Surtax revenue.
- Authorizes community contribution tax credits for Fiscal Year 2018-2019.
- Exempts from the sales and use tax property donations to charities.
- Expands the manufacturing sales and use tax exemption for steam or electricity.
- Exempts from sales and use tax recycling roll-off containers.
- Requires reporting on certain sales tax distributions.
- Expands the distance that certain farm trucks can travel with a restricted license plate.
- Increases brownfield tax credits.
- Creates a 3-day back-to-school tax holiday.
- Creates a 7-day disaster preparedness holiday.
- Exempts from sales tax generators for nursing homes or assisted living facilities.
- Exempts from sales tax repair materials for certain agricultural fences.
- Exempts from sales tax repair materials nonresidential farm buildings.
- Provides a refund of certain fuel taxes paid for agricultural shipment.
- Authorizes homestead owners significantly affected by 2017 hurricanes to treat the homestead as abandoned on the date of the tropical storm or hurricane for property tax purposes.
- Extends the property tax exemption for water and wastewater utility equipment.

CS by Commerce and Tourism Committee on November 13, 2017:
The bill is amended to specify the amount of the appropriation to the DOR to administer the sales tax exemption. For the 2017-2018 fiscal year, the bill appropriates $70,072 in nonrecurring funds from the General Revenue Fund to the DOR.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Commerce and Tourism; and Senators Passidomo and Young

577-01303-18 2018620c1

A bill to be entitled

An act relating to a disaster preparedness tax exemption; providing a sales and use tax exemption for certain tangible personal property related to disaster preparedness during a specified period; providing exceptions to the exemption; authorizing the Department of Revenue to adopt emergency rules; providing an expiration date; providing an appropriation; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Disaster preparedness tax exemption.—

(1) The tax levied under chapter 212, Florida Statutes, may not be collected during the period from 12:01 a.m. on June 1, 2018, through 11:59 p.m. on June 10, 2018, on the sale of any of the following:

(a) A portable self-powered light source selling for $20 or less.

(b) A portable self-powered radio, two-way radio, or weather band radio selling for $75 or less.

(c) A tarpaulin or other flexible waterproof sheeting selling for $50 or less.

(d) An item typically sold or advertised as a ground anchor system or tie-down kit selling for $50 or less.

(e) A gas or diesel fuel tank selling for $25 or less.

(f) A package of AAA-cell, AA-cell, C-cell, D-cell, 6-volt, or 9-volt batteries, excluding automobile and boat batteries, selling for $30 or less.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

577-01303-18 2018620c1

(g) A cellular telephone battery selling for $60 or less.

(h) A cellular telephone charger selling for $40 or less.

(i) A nonelectric food storage cooler selling for $30 or less.

(j) A portable generator that is used to provide light, support communications, or preserve food during a power outage and selling for $1,000 or less.

(k) A storm shutter device selling for $200 or less. As used in this paragraph, the term "storm shutter device" means a material or product manufactured, rated, and marketed specifically for the purpose of preventing window damage from storms.

(l) A carbon monoxide detector selling for $75 or less.

(m) Reusable ice selling for $10 or less.

(n) A single product consisting of two or more of the items listed in paragraphs (a)-(m) and selling for $75 or less.

(o) A personal locator beacon selling for $600 or less.

(p) An emergency position-indicating radio beacon selling for $1,500 or less.

(q) An external portable computer drive for data backup and recovery and selling for $200 or less.

(r) An inverter, inverter/charger, or uninterruptible power supply system selling for $200 or less.

(2) The tax exemption provided in this section does not apply to sales within a public lodging establishment as defined in s. 509.013(4), Florida Statutes, a theme park or entertainment complex as defined in s. 509.013(9), Florida Statutes, or an airport as defined in s. 330.27(2), Florida Statutes.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(3) The Department of Revenue may, and all conditions are deemed met to, adopt emergency rules pursuant to ss. 120.536(1) and 120.54, Florida Statutes, to implement this section.

(4) This section expires September 30, 2018.

Section 2. For the 2017-2018 fiscal year, the sum of $70,072 in nonrecurring funds is appropriated from the General Revenue Fund to the Department of Revenue to administer the tax exemption for the purchase of tangible personal property relating to disaster preparedness specified under this act.

Section 3. This act shall take effect upon becoming a law.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations			
BILL:	SB 672		
INTRODUCER:	Senator Stargel and others		
SUBJECT:	Truck License Taxes		
DATE:	March 2, 2018	REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Jones	Miller	TR	**Favorable**
2.	Wells	Hrdlicka	ATD	**Recommend: Favorable**
3.	Wells	Hansen	AP	**Favorable**

I. Summary:

SB 672 revises the eligibility requirement for the agricultural restricted license plate. The bill allows truck tractors or heavy trucks, not operated as for-hire vehicles, engaged exclusively in transporting raw, unprocessed, and nonmanufactured agricultural or horticultural products that operate *within the state*, instead of within a 150-mile radius of the truck's home address, to be eligible for the restricted plate. The annual fee for the plate is:

- $87.75 if such vehicle's declared gross weight is less than 44,000 pounds; or
- $324 if the vehicle's declared gross weight is 44,000 pounds or more and such vehicle only transports from the point of production to the point of primary manufacture; the point of assembly; or to a shipping point.

The Revenue Estimating Conference has estimated that the bill will reduce the General Revenue Fund by $7,233 and the State Transportation Trust Fund by $20,617, beginning in Fiscal Year 2018-2019, with an insignificant reduction in recurring revenues for the next five years.

The bill takes effect July 1, 2018.

II. Present Situation:

Under s. 320.08(4)(n), F.S., a restricted agricultural license plate is available for a truck tractor or heavy truck, not operated as a for-hire vehicle, engaged exclusively in transporting raw, unprocessed, and nonmanufactured agricultural or horticultural products within a 150-mile radius of its home address. The annual fee for the plate is:

- $87.75 if the vehicle's declared gross weight is less than 44,000 pounds; or
- $324 if the vehicle's declared gross weight is 44,000 pounds or more and the vehicle only transports:
  - From the point of production to the point of primary manufacture;
  - From the point of production to the point of assembling the same; or

- From the point of production to a shipping point by rail, water, or motor transportation company.

For these purposes, a truck tractor or heavy truck is considered to be not operated as a for-hire vehicle when the owner of the truck is also the owner of the raw, unprocessed, and nonmanufactured agricultural or horticultural product or the user of the farm implements and fertilizer being delivered. The Department of Highway Safety and Motor Vehicles (DHSMV) may require any documentation deemed necessary to determine eligibility before issuance of this restricted plate.

Generally, a truck tractor or heavy truck, which does not qualify for the restricted plate, is required to pay an annual registration fee that can range from $60.75 to $1,322, depending on the vehicle's overall gross weight.[1] Portions of annual license registration fees are deposited into the General Revenue Fund[2] and the remaining funds are distributed to the State Transportation Trust Fund as provided in s. 320.20, F.S.

According to the DHSMV, in Fiscal Year 2016-2017, 1,608 trucks registered as restricted agricultural trucks. Of those, approximately 60 percent were over 44,000 pounds.[3]

III. Effect of Proposed Changes:

The bill amends s. 320.08(4)(n), F.S., removing the 150-mile radius restriction for trucks to be issued an agricultural restricted license plate. Instead, truck tractors or heavy trucks that operate *within the state* and otherwise meet the criteria for the restricted plate are eligible for the restricted plate. It is likely that the bill will increase the number of vehicles that qualify for the agricultural restricted plate.

The bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

[1] *See* s. 320.08(4)(a)-(l), F.S.
[2] As required by s. 320.08, F.S.
[3] Email from Kevin Jacobs, DHSMV, *RE: SB 672* (Jan. 8, 2018) (on file with the Senate Committee on Transportation).

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference (REC) reviewed a similar provision in CS/HB 1231 in the 2017 legislative session.[4] The REC estimated the change in the requirement for the agricultural restricted plate would have a negative, but insignificant, impact on revenues deposited in the General Revenue Fund and the State Transportation Trust Fund.[5]

B. Private Sector Impact:

Expanding the distance that vehicles with an agricultural plate are authorized to travel may reduce the costs associated with shipping agricultural products within the state.

C. Government Sector Impact:

The DHSMV may incur minimal programming costs to implement the bill.

The Revenue Estimating Conference has estimated that the bill will reduce the General Revenue Fund by $7,233 and the State Transportation Trust Fund by $20,617, beginning in Fiscal Year 2018-2019, with an insignificant reduction in recurring revenues for the next five years.[6]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 320.08 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By Senator Stargel

22-00856-18 2018672__

A bill to be entitled

An act relating to truck license taxes; amending s. 320.08, F.S.; revising which truck tractors and heavy trucks transporting certain agricultural or horticultural products are eligible for reduced license taxes; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (n) of subsection (4) of section 320.08, Florida Statutes, is amended to read:

320.08 License taxes.—Except as otherwise provided herein, there are hereby levied and imposed annual license taxes for the operation of motor vehicles, mopeds, motorized bicycles as defined in s. 316.003(3), tri-vehicles as defined in s. 316.003, and mobile homes as defined in s. 320.01, which shall be paid to and collected by the department or its agent upon the registration or renewal of registration of the following:

(4) HEAVY TRUCKS, TRUCK TRACTORS, FEES ACCORDING TO GROSS VEHICLE WEIGHT.—

(n) A truck tractor or heavy truck~~,~~ not operated as a for-hire vehicle and~~,~~ which is engaged exclusively in transporting raw, unprocessed, and nonmanufactured agricultural or horticultural products within the state ~~a 150-mile radius of its home address,~~ is eligible for a restricted license plate for a fee of:

1. If such vehicle's declared gross vehicle weight is less than 44,000 pounds, $87.75 flat, of which $22.75 shall be deposited into the General Revenue Fund.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

22-00856-18 2018672__

2. If such vehicle's declared gross vehicle weight is 44,000 pounds or more and such vehicle only transports from the point of production to the point of primary manufacture; to the point of assembling the same; or to a shipping point of a rail, water, or motor transportation company, $324 flat, of which $84 shall be deposited into the General Revenue Fund.

Such not-for-hire truck tractors and heavy trucks used exclusively in transporting raw, unprocessed, and nonmanufactured agricultural or horticultural products may be incidentally used to haul farm implements and fertilizers delivered direct to the growers. The department may require any documentation deemed necessary to determine eligibility before ~~prior to~~ issuance of this license plate. For the purpose of this paragraph, "not-for-hire" means the owner of the motor vehicle must also be the owner of the raw, unprocessed, and nonmanufactured agricultural or horticultural product, or the user of the farm implements and fertilizer being delivered.

Section 2. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 732 (478690)
INTRODUCER:	Appropriations Subcommittee on Pre-K-12 Education; Education Committee; and Senator Baxley
SUBJECT:	K-12 Education
DATE:	March 1, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Bouck	Graf	ED	**Fav/CS**
2.	Sikes	Elwell	AED	**Recommend: Fav/CS**
3.	Sikes	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 732 modifies requirements related to home education programs, school attendance, and the Florida Partnership for Minority and Underrepresented Student Achievement. Specifically, the bill:

- Modifies the home education program to:
  - Limit the information a parent must provide to establish and maintain a home education program unless the home education program student chooses to participate in a district program or service.
  - Authorize school districts to provide home education program students access to career and technical education courses and programs.
  - Require school districts to make industry certifications and national and statewide assessments available to home education program students.
- Requires a home education program student to register his or her intent to participate in an extracurricular activity prior to participating in the activity.
- Clarifies the academic requirements that home education program students must meet in order to participate in dual enrollment programs by:
  - Exempting a home education program student from maintaining a specific high school grade point average if he or she has meets a minimum score on a common placement test.
  - Requiring a home education program student to maintain a minimum GPA established by the postsecondary institution for continued enrollment in a dual enrollment course.
- Clarifies school attendance procedures to:

  - Prohibit the district school superintendent from requiring evidence of a child's age if the child attends a school or program specified in law.
  - Authorize the district school superintendent to refer instances of nonenrollment to a child study team for intervention.
  - Require school districts to implement interventions for nonenrollment and nonattendance prior to criminal prosecution.
- Modifies the Florida Partnership for Minority and Underrepresented Student Achievement to:
  - Update the name of the preliminary ACT to the PreACT.
  - Add the ACT and the PreACT to specified assessments included in databases containing assessment data, to which the Department of Education must provide access for evaluation purposes.

The bill does not affect state revenues or expenditures.

The bill takes effect July 1, 2018.

II. Present Situation:

The present situation for the relevant portions of the bill is discussed in the Effect of Proposed Changes section of this bill analysis.

III. Effect of Proposed Changes:

Home Education Programs (Section 1)

Florida is a long-time supporter of home education, and the number of families choosing this education option has shown steady growth since the Legislature established it as a school choice option in 1985. For the 2016-2017 school year, 60,547 families and 87,462 students participated in home education programs.

Present Situation

A home education program is defined as the sequentially progressive instruction of a student directed by his or her parent in order to satisfy the attendance requirements established in law.[1] To establish a home education program, a parent must:

- Submit a written and signed notice of intent to establish a home education program to the district school superintendent in the county of residence.[2] The notice must include the names, addresses, and birthdates of all children to be enrolled as students in the home education program.[3]
- Maintain a portfolio of records and materials, the contents of which are specified in law and which must be preserved by the parent for two years and made available for inspection if requested.[4]

[1] Section 1002.01(1), F.S. The attendance requirements are established in ss 1002.41, 1003.01(13), and 1003.21(1), F.S.
[2] Section 1002.41(1)(a), F.S.
[3] *Id.*
[4] Section 1002.41(1)(b), F.S.

- Select and provide for an annual educational evaluation to document the student's educational progress.[5] The parent must file a copy of the evaluation annually with the district school superintendent's office, and the district school superintendent must review and accept the results.[6]

If a parent terminates a home education program, he or she must file a written notice of termination in the district school superintendent's office.[7]

Although not required, some school districts provide opportunities for home education program students to enroll in specified courses in district schools.[8] The public school district may report such home education program students for full-time equivalent funding through the Florida Education Finance Program.[9]

Effect of Proposed Changes

Section 1 amends s. 1002.41, F.S., to specify that a home education program is not a school district program and is registered with the district school superintendent only for the purpose of complying with attendance requirements specified under Florida law.

This section clarifies the definition of a "parent," consistent with Florida law.[10] A parent is defined as either or both parents of a student, any guardian of a student, any person in a parental relationship to a student, or any person exercising supervisory authority over a student in place of the parent. The bill requires the:

- Notice submitted by the parent to include the full legal names of all children who will be enrolled as students in the home education program.
- District school superintendent to accept the notice and immediately register the home education program.
- Parent to file a notice of termination upon completion of a home education program with the district school superintendent, and requires the notice to accompany the required annual educational evaluation.

Additionally, this section specifies that a school district may not require any additional information or verification, assign a grade level to the home education program student, or include a social security number or any other personal information in any database unless the student chooses to participate in a school district program or service.
This section clarifies that the parent determines the content of a portfolio and provides that a parent must make the portfolio available for inspection if requested by the district school superintendent or agent. The bill also removes the requirement for a district school superintendent to review the annual educational evaluation. Accordingly, the bill provides that a

[5] *Id.* at (c).
[6] *Id*. at (2).
[7] *Id.* at (a).
[8] Florida Department of Education, Office of School Choice, *Frequently Asked Questions, available at* http://www.fldoe.org/core/fileparse.php/7709/urlt/Home-Ed-FAQs-2017.pdf, at 3.
[9] Florida Department of Education, *FTE General Instructions, 2017-18, available at* http://www.fldoe.org/core/fileparse.php/7508/urlt/1718FTE-GeneralInstructions.pdf, at 29.
[10] Section 1000.21(5), F.S.

district school superintendent must accept the results of an annual education evaluation without a review of such evaluation.

This section provides to home education program students access to courses, programs, industry certifications and assessments. Specifically, the school district:

- May provide home education program students access to career and technical education courses and may report participating students as full-time equivalent students for funding through the Florida Education Finance Program.
- Must make available to home education program students industry certifications, national assessments, and statewide, standardized assessments offered by the school district. The school district must notify home education program students of available certifications, assessments, administrations, and deadlines for the student to notify the district of the student's intent to participate.

Finally, this section specifies that the school district may not further regulate, exercise control over, or require documentation from parents of home education program students beyond the requirements of the law, unless the regulation, control, or documentation is necessary for participation in a school district program.

The modifications to the home education program are likely to expedite the establishment of home education programs and may provide the student access to additional courses and programs.

Participation in Extracurricular Activities (Section 5)

Present Situation

An extracurricular activity is any school-authorized or education-related activity occurring during or outside the regular instructional school day.[11]

An individual home education program student is eligible to participate[12] in extracurricular activities at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend under controlled open enrollment.[13] The student may also develop an agreement to participate in interscholastic extracurricular activities at a private school.
A home education program student who intends to participate in a public school's extracurricular activity must register with the school his or her intent to participate in the activity before the beginning date of the season for the activity in which he or she wishes to participate.[14]

[11] Section 1006.15(2), F.S.
[12] "Eligible to participate" includes, but is not limited to, a student participating in tryouts, off-season conditioning, summer workouts, preseason conditioning, in-season practice, or contests; but does not require that a student be placed on any specific team for interscholastic or intrascholastic extracurricular activities.
[13] Section 1006.15(3)(c), F.S. Beginning with the 2017-18 school year, each district school board and charter school must adopt a controlled open enrollment plan that allows a parent from any school district in the state to enroll his or her child in and transport his or her child to any public school that has not reached capacity. Section 1002.31, F.S.
[14] Section 1006.15(3)(c)5., F.S.

Effect of Proposed Changes

Section 5 amends s. 1006.15, F.S., to specify that a student must register his or her intent to participate in an extracurricular activity prior to participating in the activity rather than before the beginning date of the season for the activity. Accordingly, the bill provides flexibility for a home education program student to begin participation in such activity.

Dual Enrollment (Section 6)

Present Situation

The dual enrollment program is the enrollment of an eligible secondary student or home education program student in a postsecondary course creditable toward high school completion and a career certificate or an associate or baccalaureate degree.[15]

Each postsecondary institution eligible to participate in the dual enrollment courses[16] must enter into a home education articulation agreement with each home education program student seeking to enroll a dual enrollment course and the student's parent. The home education articulation agreement includes, but is not limited to:[17]

- A delineation of courses and programs available to dually enrolled home education program students. Courses and programs may be added, revised, or deleted at any time by the postsecondary institution.
- The initial and continued eligibility requirements for home education program student participation, not to exceed those required of other dually enrolled students. Florida College System (FCS) institutions may not establish additional requirements in the articulation agreement that arbitrarily prohibit students who have demonstrated the ability to master advanced courses from participating in dual enrollment courses.

Effect of Proposed Changes

Section 6 amends s. 1007.271, F.S., to modify specified provisions in the home education articulation agreement, which may provide home education program students with greater access to dual enrollment courses. Specifically, this section:

- Specifies that any limitations to courses and programs available to home education program students may not exceed the limitations for other dual enrollment students.
- Exempts a home education program student who meets a minimum score on a common placement test from maintaining a high school grade point average (GPA) in order to participate in dual enrollment.
- Clarifies that a home education program student must meet postsecondary requirements for continued eligibility to participate in dual enrollment, which may include maintenance of a minimum postsecondary GPA.

[15] Section 1007.271(1), F.S.
[16] Eligible institutions include public postsecondary institutions and independent colleges or universities, which are not for profit, accredited by a regional or national accrediting agency recognized by the United States Department of Education, and confer postsecondary degrees. Section 1011.62(1)(i), F.S.
[17] Section 1007.271(13)(b), F.S.

- Prohibits a FCS institution from limiting the number of dual enrollment courses in which a student may enroll based solely upon enrollment by the student at an independent postsecondary institution.

School Attendance

Required School Attendance (Section 2)

Present Situation

Except as otherwise provided, children who are age 6 by February 1 of any school year but are not age 16, are required to attend school regularly during the entire school term.[18] Additionally, children who are age 5 by September 1 of the school year are eligible for public kindergarten.[19] A district school superintendent may require evidence of the age of any child whom he or she believes to be within the limits of compulsory attendance as provided for by law.[20]

Effect of Proposed Changes

Section 2 amends s. 1003.21, F.S., to specify that the district school superintendent may require evidence of the age of any child being enrolled in public school whom he or she believes to be within the limits of compulsory attendance. However, the district school superintendent may not require evidence of age from any child who satisfies attendance requirements by attending a:[21]

- Parochial, religious, or denominational school;
- Private school supported in whole or in part by tuition charges or by endowments or gifts;
- Home education program that meets the requirements specified in law; or
- Private tutoring program that meets the requirements specified in law.

Enforcement of School Attendance (Section 3)

Present Situation

When there is no valid reason for a child not to be enrolled in school, a designated school representative must give written notice to the parent that requires enrollment or attendance within three days after the date of notice.[22] If the parent ignores the notice and requirement, the designated school representative must report the case to the district school superintendent and may refer the case to the case staffing committee.[23] The district school superintendent must then take steps necessary to bring criminal prosecution against the parent.[24]

[18] Section 1003.21(1)(a)1.
[19] *Id.* at (a)2.
[20] *Id.* at (4).
[21] Section 1003.01(13)(b)-(e), F.S.
[22] Section 1003.26(1)(a), F.S.
[23] *Id.* at (2). The case staffing committee reviews the case of any family or child who the Department of Children and Families determines is in need of services or treatment. Section 984.12(1), F.S.
[24] Section 1003.26(2)(a), F.S.

Effect of Proposed Changes

Section 3 amends s. 1003.26, F.S., to authorize an intervention prior to the district school superintendent taking steps to initiate criminal prosecution. If the parent ignores a notice and requirement for enrollment or attendance, the district school superintendent may refer the case to a child study team[25] at the school the student would be assigned to attend according to district school board's attendance policies.

This section requires the child study team to be diligent in facilitating intervention services and to report the case to the district school superintendent only when all reasonable efforts to resolve the nonenrollment behavior are exhausted. If the parent continues to refuse to cooperate or enroll the child in school, the district school superintendent must take the steps necessary to bring criminal prosecution against the parent.

Court Procedures and Penalties Related to School Attendance (Section 4)

Present Situation

Each parent of a child within the compulsory attendance age is responsible for the child's school attendance as required by law.[26] While the absence of a student from school is evidence of a violation of compulsory attendance, criminal prosecution may not be brought against a parent prior to compliance with provisions related to enforcement of school attendance.[27]

When no valid reason for nonenrollment or nonattendance is found for a student who is required to attend a school, the district school superintendent must institute a criminal prosecution against the student's parent.[28]

Effect of Proposed Changes

Section 4 amends s. 1003.27, F.S., to clarify that court procedures and penalties for nonenrollment or nonattendance may not be initiated against the student's parent until the school and school district have complied with the policies and procedures established to enforce school attendance.

In addition, this section updates cross references to home education program portfolio specifications under provisions related to the enforcement of school attendance, and home

[25] A child study team is also used for patterns of nonattendance, defined as five unexcused absences, or absences for which the reasons are unknown, within a calendar month or 10 unexcused absences, or absences for which the reasons are unknown, within a 90-calendar-day period. Section 1003.26(1)(b), F.S. The school principal must refer the case to the school's child study team to determine if early patterns of truancy are developing. *Id.* The child study team must implement specified interventions, and may implement other interventions, including referral to other agencies for family services or recommendation for filing a truancy petition. *Id.* at (b) and (c). The child study team must be diligent in facilitating intervention services and shall report the case to the district school superintendent only when all reasonable efforts to resolve the nonattendance behavior are exhausted. *Id.* at (d). District school boards are also authorized to establish policies that require referral to a school's child study team for students who have fewer absences than the established number. Section 1003.02(1)(b), F.S.

education program annual evaluations under provisions related to participation in the Gardiner Scholarship Program.

Florida Partnership for Minority and Underrepresented Student Achievement (Section 7)

Present Situation

The Florida Partnership for Minority and Underrepresented Student Achievement (Florida partnership), was created in 2004[29] to prepare, inspire, and connect students to postsecondary success and opportunity, with a particular focus on minority students and students who are underrepresented in postsecondary education.[30]

The Florida partnership provides to students enrolled in grade 10 in public schools access to the preliminary ACT and another specified assessment.[31] Test results will provide each high school with a database of student assessment data that certified school counselors must use to identify students who are prepared or who need additional work to be prepared to enroll and be successful in AP courses or other advanced high school courses.[32]

The Florida partnership is required to provide information to students and other specified recipients regarding the preliminary ACT or PSAT/NMSQT administration and participation by 10th grade students.[33] The Florida partnership must also submit to the Florida Department of Education (DOE) a report that, among other items, evaluates the level of participation in the preliminary ACT.[34]

Additionally, the DOE must contribute to the evaluation of the Florida partnership by providing access to student and teacher information necessary to match against databases containing teacher professional development data and against databases containing assessment data for the PSAT/NMSQT, SAT, AP, and other appropriate measures.[35]

Effect of Proposed Changes

Section 7 amends s. 1007.35, F.S., to retain the requirements of the Florida partnership but updates the name of the preliminary ACT to the PreACT to be consistent with the correct name of the assessment.[36] In addition this section:

- Adds dual enrollment to the types of college credit-bearing courses that certified school counselors must use PSAT/NMSQT or PreACT data to identify students who are prepared to enroll in and be successful in advanced high school courses or college credit-bearing courses.

The bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill has no fiscal impact on state revenues or expenditures.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1002.385, 1002.41, 1003.21, 1003.26, 1003.27, 1006.15, 1007.271, and 1007.35.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by the Appropriations Subcommittee on Pre-K-12 Education on February 8, 2018:
The committee substitute prohibits a Florida College System institution from limiting the number of dual enrollment courses in which a student may enroll based solely upon enrollment by the student at an independent postsecondary institution.

CS by Education on January 22, 2018:
The committee substitute modifies requirements in the bill regarding home education program students' enrollment in extracurricular courses and dual enrollment. The bill also modifies provisions relating to the Florida Partnership for Minority and Underrepresented Student Achievement. Specifically, the committee substitute:

- Removes the bill's provision that deemed home education program students eligible to participate in extracurricular courses, which are exempted from maximum class size requirements, regardless of the school's capacity under controlled open enrollment; and deletes related conforming provisions and exemptions from meeting school district residency requirements and standards for acceptance to extracurricular activities.
- Modifies the provision in the bill related to home education program students' participation in dual enrollment to clarify that such students must maintain the minimum postsecondary grade point average for continued enrollment in dual enrollment courses, not limited to only the college credit dual enrollment courses.
- Updates cross references to home education program portfolio specifications under provisions related to the enforcement of school attendance, and home education program annual evaluations under provisions related to participation in the Gardiner Scholarship Program.
- Modifies the Florida Partnership for Minority and Underrepresented Student Achievement to:
  - Update the name of the preliminary ACT to the PreACT.
  - Add the ACT and the PreACT to specified assessments included in databases containing assessment data, to which the Department of Education must provide access for evaluation purposes.
  - Add dual enrollment to the types of college credit-bearing courses for which certified school counselors will use PSAT/NMSQT or PreACT data to identify students who are prepared to enroll in and be successful in advanced high school courses or college credit-bearing courses.

B. Amendments:

None.

The Committee on Appropriations (Brandes) recommended the following:

Senate Amendment (with title amendment)

Delete lines 535 - 592
and insert:
Section 8. Paragraph (d) of subsection (2), paragraphs (d), (h), (i), (j), and (l) of subsection (5), subsection (8), and paragraph (a) of subsection (11) of section 1002.385, Florida Statutes, are amended, and paragraphs (p) and (q) are added to subsection (5) of that section, to read:
1002.385 The Gardiner Scholarship.—

677438

(2) DEFINITIONS.—As used in this section, the term:

(d) "Disability" means, for a 3- or 4-year-old child or for a student in kindergarten to grade 12, autism spectrum disorder, as defined in the Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition, published by the American Psychiatric Association; cerebral palsy, as defined in s. 393.063(6); Down syndrome, as defined in s. 393.063(15); an intellectual disability, as defined in s. 393.063(24); Phelan-McDermid syndrome, as defined in s. 393.063(28); Prader-Willi syndrome, as defined in s. 393.063(29); spina bifida, as defined in s. 393.063(40); being a high-risk child, as defined in s. 393.063(23)(a); muscular dystrophy; Williams syndrome; a rare disease, a disorder that affects ~~diseases which affect~~ patient populations of ~~fewer than~~ 200,000 individuals or fewer in the United States, as defined by the Orphan Drug Act of 1983, Pub. L. No. 97-414 ~~National Organization for Rare Disorders~~; anaphylaxis; deaf; visually impaired; traumatic brain injured; hospital or homebound; or identification as dual sensory impaired, as defined by rules of the State Board of Education and evidenced by reports from local school districts. The term "hospital or homebound" includes a student who has a medically diagnosed physical or psychiatric condition or illness, as defined by the state board in rule, and who is confined to the home or hospital for more than 6 months.

(5) AUTHORIZED USES OF PROGRAM FUNDS.—Program funds must be used to meet the individual educational needs of an eligible student and may be spent for the following purposes:

(d) ~~Enrollment in, or~~ Tuition or fees associated with full-time or part-time enrollment in~~,~~ a home education program, an

eligible private school, an eligible postsecondary educational institution or a program offered by the postsecondary institution, ~~a private tutoring program authorized under s. 1002.43,~~ a virtual program offered by a department-approved private online provider that meets the provider qualifications specified in s. 1002.45(2)(a), the Florida Virtual School as a private paying student, or an approved online course offered pursuant to s. 1003.499 or s. 1004.0961.

(h) Tuition and fees for part-time tutoring services provided by a person who holds a valid Florida educator's certificate pursuant to s. 1012.56; a person who holds a valid professional standard teaching certificate issued by another state; a person who holds an adjunct teaching certificate pursuant to s. 1012.57; a person who has a bachelor's degree or a graduate degree in the subject area in which instruction is given; or a person who has demonstrated a mastery of subject area knowledge pursuant to s. 1012.56(5). As used in this paragraph, the term "part-time tutoring services" does not qualify as regular school attendance as defined in s. 1003.01(13) ~~s. 1003.01(13)(c)~~.

(i) Fees for ~~specialized~~ summer education programs.

(j) Fees for ~~specialized~~ after-school education programs.

(l) Fees for an annual evaluation of educational progress by a state-certified teacher under s. 1002.41(1)(f) ~~s. 1002.41(1)(c)~~, if this option is chosen for a home education student.

(p) Fees for art, music, or sports lessons.

(q) Tuition or fees associated with enrollment in a nationally or internationally recognized research-based training

program for a child with a neurological disorder or brain damage.

A provider of any services receiving payments pursuant to this subsection may not share, refund, or rebate any moneys from the Gardiner Scholarship with the parent or participating student in any manner. A parent, student, or provider of any services may not bill an insurance company, Medicaid, or any other agency for the same services that are paid for using Gardiner Scholarship funds.

(8) PRIVATE SCHOOL ELIGIBILITY AND OBLIGATIONS.—An eligible private school may be sectarian or nonsectarian and shall:

(a) Comply with all requirements for private schools participating in state school choice scholarship programs pursuant to s. 1002.421.

(b) Provide to the organization, upon request, all documentation required for the student's participation, including the private school's and student's fee schedules.

(c) Be academically accountable to the parent for meeting the educational needs of the student by:

1. At a minimum, annually providing to the parent a written explanation of the student's progress.

2. Annually administering or making provision for students participating in the program in grades 3 through 10 to take one of the nationally norm-referenced tests identified by the Department of Education or the statewide assessments pursuant to s. 1008.22. Students with disabilities for whom standardized testing is not appropriate are exempt from this requirement. A participating private school shall report a student's scores to

677438

the parent.

3. Cooperating with the scholarship student whose parent chooses to have the student participate in the statewide assessments pursuant to s. 1008.22 or, if a private school chooses to offer the statewide assessments, administering the assessments at the school.

a. A participating private school may choose to offer and administer the statewide assessments to all students who attend the private school in grades 3 through 10.

b. A participating private school shall submit a request in writing to the Department of Education by March 1 of each year in order to administer the statewide assessments in the subsequent school year.

(d) Employ or contract with teachers who have regular and direct contact with each student receiving a scholarship under this section at the school's physical location.

(e) Provide a report from an independent certified public accountant who performs the agreed-upon procedures developed under s. 1002.395(6)(o) if the private school receives more than $250,000 in funds from scholarships awarded under this chapter ~~section~~ in a state fiscal year. A private school subject to this paragraph must annually submit the report by September 15 to the organization that awarded the majority of the school's scholarship funds. The agreed-upon procedures must be conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.

If a private school fails or refuses ~~is unable~~ to meet the requirements of this subsection or has consecutive years of

material exceptions listed in the report required under paragraph (e), the commissioner may determine that the private school is ineligible to participate in the program.

(11) PARENT AND STUDENT RESPONSIBILITIES FOR PROGRAM PARTICIPATION.—A parent who applies for program participation under this section is exercising his or her parental option to determine the appropriate placement or the services that best meet the needs of his or her child. The scholarship award for a student is based on a matrix that assigns the student to support Level III services. If a parent receives an IEP and a matrix of services from the school district pursuant to subsection (7), the amount of the payment shall be adjusted as needed, when the school district completes the matrix.

(a) To satisfy or maintain program eligibility, including eligibility to receive and spend program payments, the parent must sign an agreement with the organization and annually submit a notarized, sworn compliance statement to the organization to:

1. Affirm that the student is enrolled in a program that meets regular school attendance requirements as provided in s. 1003.01(13)(b) or (c) ~~s. 1003.01(13)(b)-(d)~~.

2. Affirm that the program funds are used only for authorized purposes serving the student's educational needs, as described in subsection (5).

3. Affirm that the parent is responsible for the education of his or her student by, as applicable:

a. Requiring the student to take an assessment in accordance with paragraph (8)(c);

b. Providing an annual evaluation in accordance with s. 1002.41(1)(f) ~~s. 1002.41(1)(c)~~; or

677438

c. Requiring the child to take any preassessments and postassessments selected by the provider if the child is 4 years of age and is enrolled in a program provided by an eligible Voluntary Prekindergarten Education Program provider. A student with disabilities for whom a preassessment and postassessment is not appropriate is exempt from this requirement. A participating provider shall report a student's scores to the parent.

4. Affirm that the student remains in good standing with the provider or school if those options are selected by the parent.

A parent who fails to comply with this subsection forfeits the Gardiner Scholarship.

Section 9. Section 1002.411, Florida Statutes, is created to read:

1002.411 Reading scholarship accounts.—

(1) READING SCHOLARSHIP ACCOUNTS.—Reading scholarship accounts are established to provide educational options for students.

(2) ELIGIBILITY.—Contingent upon available funds, and on a first-come, first-served basis, each student in grades 3 through 5 who is enrolled in a Florida public school is eligible for a reading scholarship account if the student scored below a Level 3 on the grade 3 or grade 4 statewide, standardized English Language Arts (ELA) assessment in the prior school year. An eligible student who is classified as an English Learner and is enrolled in a program or receiving services that are specifically designed to meet the instructional needs of English Learner students shall receive priority.

(3) PARENT AND STUDENT RESPONSIBILITIES FOR PARTICIPATION.—

(a) For an eligible student to receive a reading scholarship account, the student's parent must:

1. Submit an application to an eligible nonprofit scholarship-funding organization by the deadline established by such organization; and

2. Submit eligible expenses to the eligible nonprofit scholarship-funding organization for reimbursement of qualifying expenditures, which may include:

a. Instructional materials.

b. Curriculum. As used in this sub-subparagraph, the term "curriculum" means a complete course of study for a particular content area or grade level, including any required supplemental materials and associated online instruction.

c. Tuition and fees for part-time tutoring services provided by a person who holds a valid Florida educator's certificate pursuant to s. 1012.56; a person who holds a baccalaureate or graduate degree in the subject area; a person who holds an adjunct teaching certificate pursuant to s. 1012.57; or a person who has demonstrated a mastery of subject area knowledge pursuant to s. 1012.56(5).

d. Fees for summer education programs.

e. Fees for after-school education programs.

A provider of any services receiving payments pursuant to this subparagraph may not share any moneys from the reading scholarship with, or provide a refund or rebate of any moneys from such scholarship to, the parent or participating student in any manner. A parent, student, or provider of any services may

not bill an insurance company, Medicaid, or any other agency for the same services that are paid for using reading scholarship funds.

(b) The parent is responsible for the payment of all eligible expenses in excess of the amount in the account in accordance with the terms agreed to between the parent and any providers and may not receive any refund or rebate of any expenditures made in accordance with paragraph (a).

(4) ADMINISTRATION.—An eligible nonprofit scholarship-funding organization participating in the Florida Tax Credit Scholarship Program established by s. 1002.395 may establish reading scholarship accounts for eligible students in accordance with the requirements of eligible nonprofit scholarship-funding organizations under this chapter.

(5) DEPARTMENT OBLIGATIONS.—The department shall have the same duties imposed by this chapter upon the department regarding oversight of scholarship programs administered by an eligible nonprofit scholarship-funding organization.

(6) SCHOOL DISTRICT OBLIGATIONS; PARENTAL OPTIONS.—By September 30, the school district shall notify the parent of each student in grades 3 through 5 who scored below a level 3 on the statewide, standardized ELA assessment in the prior school year of the process to request and receive a reading scholarship, subject to available funds.

(7) ACCOUNT FUNDING AND PAYMENT.—

(a) For the 2018-2019 school year, the amount of the scholarship shall be $500 per eligible student. Thereafter, the maximum amount awarded an eligible student shall be provided in the General Appropriations Act.

(b) One hundred percent of the funds appropriated for the reading scholarship accounts shall be released to the department at the beginning of the first quarter of each fiscal year.

(c) Upon notification from the eligible nonprofit scholarship-funding organization that a student has been determined eligible for a reading scholarship, the department shall release the student's scholarship funds to such organization to be deposited into the student's account.

(d) Accrued interest in the student's account is in addition to, and not part of, the awarded funds. Account funds include both the awarded funds and accrued interest.

(e) The eligible nonprofit scholarship-funding organization may develop a system for payment of scholarship funds by funds transfer, including, but not limited to, debit cards, electronic payment cards, or any other means of payment that the department deems to be commercially viable or cost-effective. A student's scholarship award may not be reduced for debit card or electronic payment fees. Commodities or services related to the development of such a system shall be procured by competitive solicitation unless they are purchased from a state term contract pursuant to s. 287.056.

(f) Payment of the scholarship shall be made by the eligible nonprofit scholarship-funding organization no less frequently than on a quarterly basis.

(g) In addition to funds appropriated for scholarships and subject to a separate, specific legislative appropriation, an organization may receive an amount equivalent to not more than 3 percent of the amount of each scholarship from state funds for administrative expenses if the organization has operated as a

677438

nonprofit entity for at least the preceding 3 fiscal years and did not have any findings of material weakness or material noncompliance in its most recent audit under s. 1002.395. Such administrative expenses must be reasonable and necessary for the organization's management and distribution of scholarships under this section. Funds authorized under this paragraph may not be used for lobbying or political activity or expenses related to lobbying or political activity. An organization may not charge an application fee for a scholarship. Administrative expenses may not be deducted from funds appropriated for scholarships.

(h) Moneys received pursuant to this section do not constitute taxable income to the qualified student or his or her parent.

(i) A student's scholarship account must be closed and any remaining funds shall revert to the state after:

1. Denial or revocation of scholarship eligibility by the commissioner for fraud or abuse, including, but not limited to, the student or student's parent accepting any payment, refund, or rebate, in any manner, from a provider of any services received pursuant to subsection (3); or

2. Three consecutive fiscal years in which an account has been inactive.

(8) LIABILITY.—No liability shall arise on the part of the state based on the award or use of a reading scholarship account.

Section 10. Paragraph (a) of subsection (1) of section 1003.436, Florida Statutes, is amended to read:

1003.436 Definition of "credit."—

(1)(a) For the purposes of requirements for high school

graduation, one full credit means a minimum of 135 hours of bona fide instruction in a designated course of study that contains student performance standards, except as otherwise provided through the Credit Acceleration Program (CAP) under s. 1003.4295(3). One full credit means a minimum of 120 hours of bona fide instruction in a designated course of study that contains student performance standards for purposes of meeting high school graduation requirements in a district school that has been authorized to implement block scheduling by the district school board. In lieu of the 135- and 120-hour instruction requirements, district school boards participating in the Mastery-Based Education Pilot Program under s. 1003.4996, may determine and award credit based on a student's mastery of the core content and skills, consistent with s. 1003.41, as approved by the district school board. The State Board of Education shall determine the number of postsecondary credit hours earned through dual enrollment pursuant to s. 1007.271 that satisfy the requirements of a dual enrollment articulation agreement according to s. 1007.271(21) and that equal one full credit of the equivalent high school course identified pursuant to s. 1007.271(9).

Section 11. Section 1003.437, Florida Statutes, is amended to read:

1003.437 Middle and high school grading system.—

(1) The grading system and interpretation of letter grades used to measure student success in grade 6 through grade 12 courses for students in public schools shall be as follows:

(a) ~~(1)~~ Grade "A" equals 90 percent through 100 percent, has a grade point average value of 4, and is defined as "outstanding

677438

progress."

(b) ~~(2)~~ Grade "B" equals 80 percent through 89 percent, has a grade point average value of 3, and is defined as "above average progress."

(c) ~~(3)~~ Grade "C" equals 70 percent through 79 percent, has a grade point average value of 2, and is defined as "average progress."

(d) ~~(4)~~ Grade "D" equals 60 percent through 69 percent, has a grade point average value of 1, and is defined as "lowest acceptable progress."

(e) ~~(5)~~ Grade "F" equals zero percent through 59 percent, has a grade point average value of zero, and is defined as "failure."

(f) ~~(6)~~ Grade "I" equals zero percent, has a grade point average value of zero, and is defined as "incomplete."

(2) District school boards participating in the Mastery-Based Education Pilot Program under s. 1003.4996 may use an alternative interpretation of letter grades to measure student success in grades 6 through 12.

For the purposes of class ranking, district school boards may exercise a weighted grading system pursuant to s. 1007.271.

Section 12. Section 1003.4996, Florida Statutes, is amended to read:

1003.4996 Mastery-Based ~~Competency-Based~~ Education Pilot Program. ~~Beginning with the 2016-2017 school year,~~ The Mastery-Based ~~Competency-Based~~ Education Pilot Program is created within the Department of Education to be administered for a period of 5 years. The purpose of the pilot program is to provide an

educational environment that allows students to advance to higher levels of learning upon the mastery of concepts and skills through statutory exemptions relating to student progression and the awarding of credits.

(1) PARTICIPATION.—The P.K. Yonge Developmental Research School and public school districts, including, but not limited to, the Lake, Palm Beach, Pinellas, and Seminole County School Districts, may submit an application in a format prescribed by the department to participate in the pilot program.

(2) APPLICATION.—The application to participate in the pilot program must, at a minimum, include:

(a) The vision and timelines for the implementation of mastery-based ~~competency-based~~ education within the school district, including a list of the schools that will participate in the pilot program during the first school year and the list of schools that will be integrated into the program in subsequent school years.

(b) The annual goals and performance outcomes for participating schools, including, but not limited to:

1. Student performance as defined in s. 1008.34.

2. Promotion and retention rates.

3. Graduation rates.

4. Indicators of college and career readiness.

(c) A communication plan for parents and other stakeholders, including local businesses and community members.

(d) The scope of and timelines for professional development for school instructional and administrative personnel.

(e) A plan for student progression based on the mastery of content, including mechanisms that determine and ensure that a

677438

student has satisfied the requirements for grade-level promotion and content mastery.

(f) A plan for using technology and digital and blended learning to enhance student achievement and facilitate the mastery-based ~~competency-based~~ education system.

(g) The proposed allocation of resources for the pilot program at the school and district levels.

(h) The recruitment and selection of participating schools.

(i) The rules to be waived for participating schools pursuant to subsection (3) to implement the pilot program.

(3) EXEMPTION FROM RULES.—In addition to the waivers authorized in s. 1001.10(3), the State Board of Education may authorize the commissioner to grant an additional waiver of rules relating to student progression and the awarding of credits.

(4) ALTERNATE CREDIT AND LETTER GRADE SYSTEMS.—

(a) Beginning with the 2018-2019 school year, participating school districts may amend their applications to include alternatives for awarding credit, as authorized under s. 1003.436, and for the interpretation of middle and high school letter grades, as authorized under s. 1003.437.

1. Alternatives to awarding credit must include a verification of the student's mastery of the applicable course content using rigorous scoring rubrics to evaluate the student's work.

2. Alternatives to the interpretation of middle and high school letter grades may substitute the applicable language from the school district's rigorous scoring rubric.

(b) An application that is amended pursuant to this

677438

subsection must be approved by the district school board.

(5)~~(4)~~ STUDENT FUNDING.—Students enrolled in a participating school shall be reported for and generate funding pursuant to s. 1011.62.

(6)~~(5)~~ DEPARTMENT DUTIES.—The department shall:

(a) Compile the student and staff schedules of participating schools before and after implementation of the pilot program.

(b) Provide participating schools with access to statewide, standardized assessments required under s. 1008.22.

(c) Annually, by June 1, provide to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report summarizing the activities and accomplishments of the pilot program and any recommendations for statutory revisions.

~~(6) RULES.—The State Board of Education shall adopt rules to administer this section.~~

Section 13. Subsection (7) is added to section 1007.23, Florida Statutes, to read:

1007.23 Statewide articulation agreement.—

(7) The articulation agreement must ensure fair and equitable access for high school graduates with mastery-based, nontraditional diplomas and transcripts.

Section 14. For the 2018-2019 fiscal year, the sum of $9.7 million in recurring funds from the General Revenue Fund is appropriated to the Department of Education to fund reading scholarship accounts pursuant to s. 1002.411, Florida Statutes, and $300,000 in recurring funds from the General Revenue Fund shall be provided as an administrative fee pursuant to s.

677438

1002.411(7)(g), Florida Statutes.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete line 51

and insert:

F.S.; revising the meaning of a rare disease within the definition of the term "disability" for purposes of the Gardiner Scholarship Program; revising eligible expenditures for the program; revising requirements for private schools that participate in the program; specifying that the failure or refusal, rather than the inability of, a private school to meet certain requirements constitutes a basis for program ineligibility; conforming cross-references; creating s. 1002.411, F.S.; establishing reading scholarship accounts for specified purposes; providing for eligibility for scholarships; providing for administration; providing duties of the Department of Education; providing school district obligations; specifying options for parents; providing that maximum funding shall be specified in the General Appropriations Act; providing for payment of funds; specifying that no state liability arises from the award or use of such an account; amending s. 1003.436, F.S.; authorizing a district school board participating in the Mastery-Based Education Pilot Program to award credit based on student mastery of certain content and skills; amending s. 1003.437,

F.S.; authorizing a district school board participating in the Mastery-Based Education Pilot Program to use an alternative interpretation of letter grades for certain students; amending s. 1003.4996, F.S.; renaming the Competency-Based Education Pilot Program as the Mastery-Based Education Pilot Program; authorizing public school districts to submit applications for the program; authorizing participating school districts to amend their applications to include alternatives for the award credits and interpretation of letter grades; providing requirements for such alternatives; deleting a requirement that the State Board of Education adopt rules; amending s. 1007.23, F.S.; requiring the statewide articulation agreement to ensure fair and equitable access for students with mastery-based, nontraditional diplomas and transcripts; providing an

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Pre-K - 12 Education)

A bill to be entitled

An act relating to K-12 education; amending s. 1002.41, F.S.; specifying that a home education program is not a school district program and is registered with the district school superintendent only for the purpose of complying with the state's attendance requirements; revising the content requirements of a notice of enrollment of a student in a home education program; requiring the district school superintendent to immediately register a home education program upon receipt of the notice; prohibiting a school district from requiring additional information or verification of a home education student except in specified circumstances; authorizing a school district to provide home education program students with access to certain courses and programs offered by the school district; requiring reporting and funding through the Florida Education Finance Program; requiring home education program students be provided access to certain certifications and assessments offered by the school district; prohibiting a school district from taking certain actions against a home education program student's parent unless such action is necessary for a school district program; amending s. 1003.21, F.S.; prohibiting a district school superintendent from requiring certain evidence relating to a child's age

478690

576-03006-18

from children enrolled in specified schools and programs; amending s. 1003.26, F.S.; revising reporting requirements for specified issues relating to compulsory school attendance; amending s. 1003.27, F.S.; requiring a school and school district to comply with specified provisions before instituting criminal prosecution against certain parents relating to compulsory school attendance; amending s. 1006.15, F.S.; revising the standards required for a home education student to participate in extracurricular activities; amending s. 1007.271, F.S.; prohibiting the dual enrollment articulation agreement from including course enrollment limitations for certain students; prohibiting dual enrollment course and program limitations for home education students from exceeding limitations for other students; providing an exemption from the grade point average requirement for initial enrollment in a dual enrollment program for certain home education students; amending s. 1007.35, F.S.; updating terminology; requiring the Department of Education to provide certain teacher and student ACT and PreACT information for the evaluation of certain services and activities; amending s. 1002.385, F.S.; conforming cross-references; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (1) and (2) of section 1002.41,

576-03006-18

Florida Statutes, are amended, and subsections (11), (12), and (13) are added to that section, to read:

1002.41 Home education programs.—

(1) As used in this section, the term ~~A~~ "home education program" has the same meaning as ~~is defined~~ in s. 1002.01. A home education program is not a school district program and is registered with the district school superintendent only for the purpose of complying with the state's attendance requirements under s. 1003.21(1). The parent is not required to hold a valid regular Florida teaching certificate.

(a) The parent, as defined in s. 1000.21, who establishes and maintains a home education program shall notify the district school superintendent of the county in which the parent resides of her or his intent to establish and maintain a home education program. The notice must ~~shall~~ be in writing, signed by the parent, and ~~shall~~ include the full legal names, addresses, and birthdates of all children who shall be enrolled as students in the home education program. The notice must ~~shall~~ be filed in the district school superintendent's office within 30 days of the establishment of the home education program.

(b) The district school superintendent shall accept the notice and immediately register the home education program upon receipt of the notice. The district may not require any additional information or verification from the parent unless the student chooses to participate in a school district program or service. The district school superintendent may not assign a grade level to the home education student or include a social security number or any other personal information of the student in any school district or state database unless the student

576-03006-18

chooses to participate in a school district program or service; and

(c) The parent shall file a written notice of termination upon completion of the home education program with ~~shall be filed in~~ the district school superintendent, along with the annual evaluation required in paragraph (f), within ~~superintendent's office within~~ 30 days of ~~after said~~ termination.

(d) ~~(b)~~ The parent shall maintain a portfolio of records and materials. The portfolio must ~~shall~~ consist of the following:

1. A log of educational activities that is made contemporaneously with the instruction and that designates by title any reading materials used.

2. Samples of any writings, worksheets, workbooks, or creative materials used or developed by the student.

(e) The parent shall determine the content of the portfolio, preserve it ~~shall be preserved by the parent~~ for 2 years, and make it ~~shall be made~~ available for inspection, if requested, by the district school superintendent, or the district school superintendent's agent, upon 15 days' written notice. Nothing in this section shall require the district school superintendent to inspect the portfolio.

(f) ~~(c)~~ The parent shall provide for an annual educational evaluation in which is documented the student's demonstration of educational progress at a level commensurate with her or his ability. The parent shall select the method of evaluation and shall file a copy of the evaluation annually with the district school superintendent's office in the county in which the student resides. The annual educational evaluation shall consist

576-03006-18

of one of the following:

1. A teacher selected by the parent shall evaluate the student's educational progress upon review of the portfolio and discussion with the student. Such teacher shall hold a valid regular Florida certificate to teach academic subjects at the elementary or secondary level;

2. The student shall take any nationally normed student achievement test administered by a certified teacher;

3. The student shall take a state student assessment test used by the school district and administered by a certified teacher, at a location and under testing conditions approved by the school district;

4. The student shall be evaluated by an individual holding a valid, active license pursuant to the provisions of s. 490.003(7) or (8); or

5. The student shall be evaluated with any other valid measurement tool as mutually agreed upon by the district school superintendent of the district in which the student resides and the student's parent.

(2) The district school superintendent shall ~~review and~~ accept the results of the annual educational evaluation of the student in a home education program. If the student does not demonstrate educational progress at a level commensurate with her or his ability, the district school superintendent shall notify the parent, in writing, that such progress has not been achieved. The parent shall have 1 year from the date of receipt of the written notification to provide remedial instruction to the student. At the end of the 1-year probationary period, the student shall be reevaluated as specified in paragraph (1)(f)

576-03006-18

~~(1)(c)~~. Continuation in a home education program shall be contingent upon the student demonstrating educational progress commensurate with her or his ability at the end of the probationary period.

(11) A school district may provide access to career and technical courses and programs for a home education program student who enrolls in a public school solely for the career and technical courses or programs. The school district that provides the career and technical courses and programs shall report each student as a full-time equivalent student in the class and in a manner prescribed by the department, and funding shall be provided through the Florida Education Finance Program pursuant to s. 1011.62.

(12) Industry certifications, national assessments, and statewide, standardized assessments offered by the school district shall be available to home education program students. Each school district shall notify home education program students of the available certifications and assessments; the date, time, and locations for the administration of each certification and assessment; and the deadline for notifying the school district of the student's intent to participate and the student's preferred location.

(13) A school district may not further regulate, exercise control over, or require documentation from parents of home education program students beyond the requirements of this section unless the regulation, control, or documentation is necessary for participation in a school district program.

Section 2. Subsection (4) of section 1003.21, Florida Statutes, is amended to read:

576-03006-18

1003.21 School attendance.—

(4) Before admitting a child to kindergarten, the principal shall require evidence that the child has attained the age at which he or she should be admitted in accordance with the provisions of subparagraph (1)(a)2. The district school superintendent may require evidence of the age of any child who is being enrolled in public school who the district school superintendent ~~whom he or she~~ believes to be within the limits of compulsory attendance as provided for by law; however, the district school superintendent may not require evidence from any child who meets regular attendance requirements by attending a school or program listed in s. 1003.01(13)(b)-(e). If the first prescribed evidence is not available, the next evidence obtainable in the order set forth below shall be accepted:

(a) A duly attested transcript of the child's birth record filed according to law with a public officer charged with the duty of recording births;

(b) A duly attested transcript of a certificate of baptism showing the date of birth and place of baptism of the child, accompanied by an affidavit sworn to by the parent;

(c) An insurance policy on the child's life that has been in force for at least 2 years;

(d) A bona fide contemporary religious record of the child's birth accompanied by an affidavit sworn to by the parent;

(e) A passport or certificate of arrival in the United States showing the age of the child;

(f) A transcript of record of age shown in the child's school record of at least 4 years prior to application, stating

576-03006-18

date of birth; or

(g) If none of these evidences can be produced, an affidavit of age sworn to by the parent, accompanied by a certificate of age signed by a public health officer or by a public school physician, or, if these are not available in the county, by a licensed practicing physician designated by the district school board, which states that the health officer or physician has examined the child and believes that the age as stated in the affidavit is substantially correct. Children and youths who are experiencing homelessness and children who are known to the department, as defined in s. 39.0016, shall be given temporary exemption from this section for 30 school days.

Section 3. Paragraph (f) of subsection (1) and paragraph (a) of subsection (2) of section 1003.26, Florida Statutes, are amended to read:

1003.26 Enforcement of school attendance.—The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent

576-03006-18

of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) CONTACT, REFER, AND ENFORCE.—

(f)1. If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to chapter 1002, the district school superintendent shall provide the parent a copy of s. 1002.41 and the accountability requirements of this paragraph. The district school superintendent shall also refer the parent to a home education review committee composed of the district contact for home education programs and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least 3 years and who have indicated a willingness to serve on the committee. The home education review committee shall review the portfolio of the student, as defined by s. 1002.41, every 30 days during the district's regular school terms until the committee is satisfied that the home education program is in

576-03006-18

compliance with s. 1002.41(1)(d) ~~s. 1002.41(1)(b)~~. The first portfolio review must occur within the first 30 calendar days of the establishment of the program. The provisions of subparagraph 2. do not apply once the committee determines the home education program is in compliance with s. 1002.41(1)(d) ~~s. 1002.41(1)(b)~~.

2. If the parent fails to provide a portfolio to the committee, the committee shall notify the district school superintendent. The district school superintendent shall then terminate the home education program and require the parent to enroll the child in an attendance option that meets the definition of "regular school attendance" under s. 1003.01(13)(a), (b), (c), or (e), within 3 days. Upon termination of a home education program pursuant to this subparagraph, the parent shall not be eligible to reenroll the child in a home education program for 180 calendar days. Failure of a parent to enroll the child in an attendance option as required by this subparagraph after termination of the home education program pursuant to this subparagraph shall constitute noncompliance with the compulsory attendance requirements of s. 1003.21 and may result in criminal prosecution under s. 1003.27(2). Nothing contained herein shall restrict the ability of the district school superintendent, or the ability of his or her designee, to review the portfolio pursuant to s. 1002.41(1)(e) ~~s. 1002.41(1)(b)~~.

(2) GIVE WRITTEN NOTICE.—

(a) Under the direction of the district school superintendent, a designated school representative shall give written notice that requires enrollment or attendance within 3 days after the date of notice, in person or by return-receipt

mail, to the parent when no valid reason is found for a student's nonenrollment in school. If the notice and requirement are ignored, the designated school representative shall report the case to the district school superintendent, who ~~and~~ may refer the case to the child study team in paragraph (1)(b) at the school the student would be assigned according to district school board attendance area policies or to the case staffing committee, established pursuant to s. 984.12. The child study team shall diligently facilitate intervention services and shall report the case back to the district school superintendent only when all reasonable efforts to resolve the nonenrollment behavior are exhausted. If the parent still refuses to cooperate or enroll the child in school, the district school superintendent shall take such steps as are necessary to bring criminal prosecution against the parent.

Section 4. Subsection (2) of section 1003.27, Florida Statutes, is amended to read:

1003.27 Court procedure and penalties.—The court procedure and penalties for the enforcement of the provisions of this part, relating to compulsory school attendance, shall be as follows:

(2) NONENROLLMENT AND NONATTENDANCE CASES.—

(a) In each case of nonenrollment or of nonattendance upon the part of a student who is required to attend some school, when no valid reason for such nonenrollment or nonattendance is found, the district school superintendent shall institute a criminal prosecution against the student's parent. However, criminal prosecution may not be instituted against the student's parent until the school and school district have complied with

s. 1003.26.

(b) Each public school principal or the principal's designee shall notify the district school board of each minor student under its jurisdiction who accumulates 15 unexcused absences in a period of 90 calendar days. ~~Each designee of the governing body of each private school, and each parent whose child is enrolled in a home education program, may provide the Department of Highway Safety and Motor Vehicles with the legal name, sex, date of birth, and social security number of each minor student under his or her jurisdiction who fails to satisfy relevant attendance requirements and who fails to otherwise satisfy the requirements of s. 322.091.~~ The district school superintendent must provide the Department of Highway Safety and Motor Vehicles the legal name, sex, date of birth, and social security number of each minor student who has been reported under this paragraph and who fails to otherwise satisfy the requirements of s. 322.091. The Department of Highway Safety and Motor Vehicles may not issue a driver license or learner's driver license to, and shall suspend any previously issued driver license or learner's driver license of, any such minor student, pursuant to the provisions of s. 322.091.

(c) Each designee of the governing body of each private school and each parent whose child is enrolled in a home education program may provide the Department of Highway Safety and Motor Vehicles with the legal name, sex, date of birth, and social security number of each minor student under his or her jurisdiction who fails to satisfy relevant attendance requirements and who fails to otherwise satisfy the requirements of s. 322.091. The Department of Highway Safety and Motor

Vehicles may not issue a driver license or learner's driver license to, and shall suspend any previously issued driver license or learner's driver license of, any such minor student, pursuant to s. 322.091.

Section 5. Paragraph (c) of subsection (3) of section 1006.15, Florida Statutes, is amended to read:

1006.15 Student standards for participation in interscholastic and intrascholastic extracurricular student activities; regulation.—

(3)

(c) An individual home education student is eligible to participate at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend pursuant to s. 1002.31, or may develop an agreement to participate at a private school, in the interscholastic extracurricular activities of that school, provided the following conditions are met:

1. The home education student must meet the requirements of the home education program pursuant to s. 1002.41.

2. During the period of participation at a school, the home education student must demonstrate educational progress as required in paragraph (b) in all subjects taken in the home education program by a method of evaluation agreed upon by the parent and the school principal which may include: review of the student's work by a certified teacher chosen by the parent; grades earned through correspondence; grades earned in courses taken at a Florida College System institution, university, or trade school; standardized test scores above the 35th

percentile; or any other method designated in s. 1002.41.

3. The home education student must meet the same residency requirements as other students in the school at which he or she participates.

4. The home education student must meet the same standards of acceptance, behavior, and performance as required of other students in extracurricular activities.

5. The student must register with the school his or her intent to participate in interscholastic extracurricular activities as a representative of the school before participation ~~the beginning date of the season for the activity in which he or she wishes to participate~~. A home education student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

6. A student who transfers from a home education program to a public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period provided the student has a successful evaluation from the previous school year, pursuant to subparagraph 2.

7. Any public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a home education student until the student has successfully completed one grading period in home education pursuant to subparagraph 2. to become eligible to participate as a home education student.

Section 6. Subsection (3) and paragraph (b) of subsection (13) of section 1007.271, Florida Statutes, are amended to read:

576-03006-18

1007.271 Dual enrollment programs.—

(3) Student eligibility requirements for initial enrollment in college credit dual enrollment courses must include a 3.0 unweighted high school grade point average and the minimum score on a common placement test adopted by the State Board of Education which indicates that the student is ready for college-level coursework. Student eligibility requirements for continued enrollment in college credit dual enrollment courses must include the maintenance of a 3.0 unweighted high school grade point average and the minimum postsecondary grade point average established by the postsecondary institution. Regardless of meeting student eligibility requirements for continued enrollment, a student may lose the opportunity to participate in a dual enrollment course if the student is disruptive to the learning process such that the progress of other students or the efficient administration of the course is hindered. Student eligibility requirements for initial and continued enrollment in career certificate dual enrollment courses must include a 2.0 unweighted high school grade point average. Exceptions to the required grade point averages may be granted on an individual student basis if the educational entities agree and the terms of the agreement are contained within the dual enrollment articulation agreement established pursuant to subsection (21). Florida College System institution boards of trustees may establish additional initial student eligibility requirements, which shall be included in the dual enrollment articulation agreement, to ensure student readiness for postsecondary instruction. Additional requirements included in the agreement may not arbitrarily prohibit students who have demonstrated the

576-03006-18

ability to master advanced courses from participating in dual enrollment courses or limit the number of dual enrollment courses in which a student may enroll based solely upon enrollment by the student at an independent postsecondary institution.

(13)

(b) Each postsecondary institution eligible to participate in the dual enrollment program pursuant to s. 1011.62(1)(i) must enter into a home education articulation agreement with each home education student seeking enrollment in a dual enrollment course and the student's parent. By August 1 of each year, the eligible postsecondary institution shall complete and submit the home education articulation agreement to the Department of Education. The home education articulation agreement must include, at a minimum:

1. A delineation of courses and programs available to dually enrolled home education students. Courses and programs may be added, revised, or deleted at any time by the postsecondary institution. Any course or program limitations may not exceed the limitations for other dually enrolled students.

2. The initial and continued eligibility requirements for home education student participation, not to exceed those required of other dually enrolled students. A high school grade point average may not be required for home education students who meet the minimum score on a common placement test adopted by the State Board of Education which indicates that the student is ready for college-level coursework; however, home education student eligibility requirements for continued enrollment in dual enrollment courses must include the maintenance of the

minimum postsecondary grade point average established by the postsecondary institution.

3. The student's responsibilities for providing his or her own instructional materials and transportation.

4. A copy of the statement on transfer guarantees developed by the Department of Education under subsection (15).

Section 7. Subsection (5), paragraph (j) of subsection (6), and subsection (8) of section 1007.35, Florida Statutes, are amended to read:

1007.35 Florida Partnership for Minority and Underrepresented Student Achievement.—

(5) Each public high school, including, but not limited to, schools and alternative sites and centers of the Department of Juvenile Justice, shall provide for the administration of the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT), or the PreACT ~~preliminary ACT~~ to all enrolled 10th grade students. However, a written notice shall be provided to each parent which must include the opportunity to exempt his or her child from taking the PSAT/NMSQT or the PreACT ~~preliminary ACT~~.

(a) Test results will provide each high school with a database of student assessment data which certified school counselors will use to identify students who are prepared or who need additional work to be prepared to enroll and be successful in AP courses or other advanced high school courses.

(b) Funding for the PSAT/NMSQT or the PreACT ~~preliminary ACT~~ for all 10th grade students shall be contingent upon annual funding in the General Appropriations Act.

(c) Public school districts must choose either the

PSAT/NMSQT or the PreACT ~~preliminary ACT~~ for districtwide administration.

(6) The partnership shall:

(j) Provide information to students, parents, teachers, counselors, administrators, districts, Florida College System institutions, and state universities regarding PSAT/NMSQT or the PreACT ~~preliminary ACT~~ administration, including, but not limited to:

1. Test administration dates and times.

2. That participation in the PSAT/NMSQT or the PreACT ~~preliminary ACT~~ is open to all 10th grade students.

3. The value of such tests in providing diagnostic feedback on student skills.

4. The value of student scores in predicting the probability of success on AP or other advanced course examinations.

(8)(a) By September 30 of each year, the partnership shall submit to the department a report that contains an evaluation of the effectiveness of the delivered services and activities. Activities and services must be evaluated on their effectiveness at raising student achievement and increasing the number of AP or other advanced course examinations in low-performing middle and high schools. Other indicators that must be addressed in the evaluation report include the number of middle and high school teachers trained; the effectiveness of the training; measures of postsecondary readiness of the students affected by the program; levels of participation in 10th grade PSAT/NMSQT or the PreACT ~~preliminary ACT~~ testing; and measures of student, parent, and teacher awareness of and satisfaction with the services of the

576-03006-18

partnership.

(b) The department shall contribute to the evaluation process by providing access, consistent with s. 119.071(5)(a), to student and teacher information necessary to match against databases containing teacher professional development data and databases containing assessment data for the PSAT/NMSQT, SAT, ACT, PreACT, AP, and other appropriate measures. The department shall also provide student-level data on student progress from middle school through high school and into college and the workforce, if available, in order to support longitudinal studies. The partnership shall analyze and report student performance data in a manner that protects the rights of students and parents as required in 20 U.S.C. s. 1232g and s. 1002.22.

Section 8. Paragraph (l) of subsection (5) and paragraph (a) of subsection (11) of section 1002.385, Florida Statutes, are amended to read:

1002.385 The Gardiner Scholarship.—

(5) AUTHORIZED USES OF PROGRAM FUNDS.—Program funds must be used to meet the individual educational needs of an eligible student and may be spent for the following purposes:

(l) Fees for an annual evaluation of educational progress by a state-certified teacher under s. 1002.41(1)(f) ~~s. 1002.41(1)(c)~~, if this option is chosen for a home education student.

A provider of any services receiving payments pursuant to this subsection may not share, refund, or rebate any moneys from the Gardiner Scholarship with the parent or participating student in

576-03006-18

any manner. A parent, student, or provider of any services may not bill an insurance company, Medicaid, or any other agency for the same services that are paid for using Gardiner Scholarship funds.

(11) PARENT AND STUDENT RESPONSIBILITIES FOR PROGRAM PARTICIPATION.—A parent who applies for program participation under this section is exercising his or her parental option to determine the appropriate placement or the services that best meet the needs of his or her child. The scholarship award for a student is based on a matrix that assigns the student to support Level III services. If a parent receives an IEP and a matrix of services from the school district pursuant to subsection (7), the amount of the payment shall be adjusted as needed, when the school district completes the matrix.

(a) To satisfy or maintain program eligibility, including eligibility to receive and spend program payments, the parent must sign an agreement with the organization and annually submit a notarized, sworn compliance statement to the organization to:

1. Affirm that the student is enrolled in a program that meets regular school attendance requirements as provided in s. 1003.01(13)(b)-(d).

2. Affirm that the program funds are used only for authorized purposes serving the student's educational needs, as described in subsection (5).

3. Affirm that the parent is responsible for the education of his or her student by, as applicable:

a. Requiring the student to take an assessment in accordance with paragraph (8)(c);

b. Providing an annual evaluation in accordance with s.

1002.41(1)(f) ~~s. 1002.41(1)(c)~~; or

c. Requiring the child to take any preassessments and postassessments selected by the provider if the child is 4 years of age and is enrolled in a program provided by an eligible Voluntary Prekindergarten Education Program provider. A student with disabilities for whom a preassessment and postassessment is not appropriate is exempt from this requirement. A participating provider shall report a student's scores to the parent.

4. Affirm that the student remains in good standing with the provider or school if those options are selected by the parent.

A parent who fails to comply with this subsection forfeits the Gardiner Scholarship.

Section 9. This act shall take effect July 1, 2018.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 732 modifies requirements related to home education programs, school attendance, competency-based education, the Florida Partnership for Minority and Underrepresented Student Achievement, and the Gardiner Scholarship Program, and establishes reading scholarship accounts. Specifically, the bill:

- Modifies the home education program to:
  - Limit the information a parent must provide to establish and maintain a home education program unless the home education program student chooses to participate in a district program or service.
  - Authorize school districts to provide home education program students access to career and technical education courses and programs.
  - Require school districts to make industry certifications and national and statewide assessments available to home education program students.
- Requires a home education program student to register his or her intent to participate in an extracurricular activity prior to participating in the activity.
- Clarifies the academic requirements that home education program students must meet in order to participate in dual enrollment programs by:
  - Exempting a home education program student from maintaining a specific high school grade point average if he or she has meets a minimum score on a common placement test.
  - Requiring a home education program student to maintain a minimum GPA established by the postsecondary institution for continued enrollment in a dual enrollment course.

- Clarifies school attendance procedures to:
  - Prohibit the district school superintendent from requiring evidence of a child's age if the child attends a school or program specified in law.
  - Authorize the district school superintendent to refer instances of nonenrollment to a child study team for intervention.
  - Require school districts to implement interventions for nonenrollment and nonattendance prior to criminal prosecution.
- Renames the Competency-Based Education Pilot Program as the Mastery-Based Education Pilot Program (mastery-based pilot) and:
  - Expands participation in the mastery-based pilot to all school districts.
  - Authorizes district school boards participating in the mastery-based pilot to determine award of credit based on mastery of content and skills and to use an alternative interpretation of letter grades to measure student success in grades 6 through 12.
- Requires the statewide articulation agreement to ensure fair and equitable access for high school graduates with mastery-based, nontraditional diplomas and transcripts.
- Modifies the Florida Partnership for Minority and Underrepresented Student Achievement to:
  - Update the name of the preliminary ACT to the PreACT.
  - Add the ACT and the PreACT to specified assessments included in databases containing assessment data, to which the Department of Education must provide access for evaluation purposes.
- Modifies the Gardiner Scholarship Program (program) to:
  - Revise, for the purposes of the program, the definition of a rare disease to be as defined by the Orphan Drug Act of 1983, Pub. L. No.97-414.
  - Expand authorized uses of program funds to include tuition or fees associated with full-time or part-time enrollment in home education program; tuition or fees for enrollment in recognized research-based training program; and fees for art, music, and sports lessons.
  - Eliminates private tutoring programs from authorized uses of program funds but expands the qualifying credentials for who may provide part-time tutoring services to include individuals who hold a valid teaching certificate from another state and individuals who have a bachelor's or higher degree in the subject area in which instruction is given.
  - Clarify accountability provisions regarding private schools that participate in the program.
- Establishes reading scholarship accounts for public school students in grades 3 through 5 who scored below a Level 3 on the grade 3 or grade 4 statewide, standardized ELA assessment in the prior school year.

For the 2018-2019 fiscal year, the bill appropriates the sum of $9.7 million in recurring funds from the General Revenue Fund to the Department of Education to fund reading scholarship accounts and $300,000 in recurring funds from the General Revenue Fund toward related administrative fees.

The bill takes effect July 1, 2018.

II. Present Situation:

The present situation for the relevant portions of the bill is discussed in the Effect of Proposed Changes section of this bill analysis.

III. Effect of Proposed Changes:

Gardiner Scholarship Program (Section 1)

Present Situation

The Gardiner Scholarship Program (GSP) provides a parent of an eligible student with a disability the option to better meet the educational needs of his or her child.[1] Funds are distributed to qualified[2] scholarship funding organizations (SFOs) to establish accounts for eligible students.[3] Parents can use funds from the student's account to choose from a variety of approved items or services for their students including, but not limited to: specialized services, curriculum, instructional materials, tuition, and contracted services.[4]

Eligibility

The parent of a student, who is a Florida resident, may request and receive an account if the student:[5]

- Is 3 or 4 years old, or is eligible to enroll in kindergarten through grade 12 in a Florida public school;
- Has one of the specified disabilities, one of which is a rare disease which affect patient populations of fewer than 200,000 individuals in the United States, as defined by the National Organization of Rare Disorders;
- Has an individualized education plan (IEP) written in accordance with the SB or has received a diagnosis of one of the above disabilities from a licensed physician or a licensed psychologist.

Allowable Expenditures

GSP funds must be used to meet the individual education needs of the student.[6] Program funds may be spent for authorized purposes specified in law, which include:[7]

- Enrollment in, or tuition and fees for enrollment in, a home education program, an eligible private school or postsecondary institution or a program offered by the institution, a private tutoring program, or virtual education programs or courses.
- Tuition and fees for part-time tutoring services provided by an individual who has a valid Florida educator's certificate, an adjunct teaching certificate, or has demonstrated mastery of subject area knowledge.
- Fees for specialized summer or after-school education programs.
- Fees for an annual evaluation used by home education students.

[2] *Id.* at (2)(e).
[3] Section 1002.385, F.S.
[4] Section 1002.385(5), F.S.
[5] Section 1002.385(3), F.S.
[6] *Id.* at (11).
[7] *Id.* at (5).

Eligible Service Providers

Entities eligible to provide specialized services or educational programs include:[8]

- A provider approved by the Agency for Persons with Disabilities, a health care practitioner or a provider approved by the Florida Department of Education (DOE) to offer specialized instructional services for children with disabilities.
- A postsecondary educational institution including a Florida College System institution; a state university; a school district technical center; a school district adult general education center; an independent college or university eligible to participate in the William L. Boyd, IV Florida Resident Access Grant Program; or an accredited, independent postsecondary educational institution which is licensed to operate in this state.
- A private school that is located in this state, offers education to students in any grade from kindergarten to grade 12, meets all the requirements of a private school operating in Florida, and meets all the requirements of a private school participating in the John M. McKay Scholarship Program or the Florida Tax Credit Scholarship Program.

An eligible private school may be sectarian or nonsectarian and must:[9]

- Comply with all requirements for private schools participating in state school choice scholarship programs.[10].
- Provide to the organization, upon request, all documentation required for the student's participation, including the private school's and student's fee schedules.
- Be academically accountable to the parent for meeting the educational needs of the student.
- Employ or contract with teachers who have regular and direct contact with each student receiving a scholarship under this section at the school's physical location.
- Provide a report from an independent certified public accountant (CPA) if the private school receives more than $250,000 in funds from GSP in a state fiscal year.

If a private school is unable to meet the requirements for participation or has consecutive years of material exceptions listed in the report from the specified CPA, the Commissioner of Education (commissioner) may determine that the private school is ineligible to participate in the program.[11]

Effect of Proposed Changes

Section 1 revises the definition of a rare disease as a disorder that affects patient populations of 200,000 individuals or fewer in the United States, and conforms the definition of a rare disease to the definition provided by the Orphan Drug Act of 1983, Pub. L. No. 97-414.

The section expands authorized uses of program funds to include:

- Tuition and fees associated with full-time or part-time enrollment in home education program.
- Tuition or fees for enrollment in a nationally or internationally recognized research-based training program for a child with a neurological disorder or brain damage.

[8] Section 1002.285(2), F.S.
[9] Section 1002.385(8), F.S.
[10] Section 1002.421, F.S.
[11] Section 1002.385(8), F.S.

- Fees for art, music, and sports lessons.

This section eliminates private tutoring programs from authorized uses of program funds, but expands the qualifying credentials for who may provide part-time tutoring services to include individuals who hold a valid teaching certificate from another state and individuals who have a bachelor's or a graduate degree in the subject area in which instruction is given.

Finally, this section changes the criteria for the commissioner to determine ineligibility for a private school to participate in the GSP. This section specifies that a private school may be deemed ineligible if the private school fails or refuses to meet requirements for participation.

Home Education Programs (Section 2)

Florida is a long-time supporter of home education, and the number of families choosing this education option has shown steady growth since the Legislature established it as a school choice option in 1985. For the 2016-2017 school year, 60,547 families and 87,462 students participated in home education programs.

Present Situation

A home education program is defined as the sequentially progressive instruction of a student directed by his or her parent in order to satisfy the attendance requirements established in law.[12] To establish a home education program, a parent must:

- Submit a written and signed notice of intent to establish a home education program to the district school superintendent in the county of residence.[13] The notice must include the names, addresses, and birthdates of all children to be enrolled as students in the home education program.[14]
- Maintain a portfolio of records and materials, the contents of which are specified in law and which must be preserved by the parent for two years and made available for inspection if requested.[15]
- Select and provide for an annual educational evaluation to document the student's educational progress.[16] The parent must file a copy of the evaluation annually with the district school superintendent's office, and the district school superintendent must review and accept the results.[17]

If a parent terminates a home education program, he or she must file a written notice of termination in the district school superintendent's office.[18]

[12] Section 1002.01(1), F.S. The attendance requirements are established in ss 1002.41, 1003.01(13), and 1003.21(1), F.S.
[13] Section 1002.41(1)(a), F.S.
[14] *Id.*
[15] Section 1002.41(1)(b), F.S.
[16] *Id.* at (c).
[17] *Id.* at (2).
[18] *Id.* at (a).

Although not required, some school districts provide opportunities for home education program students to enroll in specified courses in district schools.[19] The public school district may report such home education program students for full-time equivalent funding through the Florida Education Finance Program.[20]

Effect of Proposed Changes

Section 2 amends s. 1002.41, F.S., to specify that a home education program is not a school district program and is registered with the district school superintendent only for the purpose of complying with attendance requirements specified under Florida law.

This section clarifies the definition of a "parent," consistent with Florida law.[21] A parent is defined as either or both parents of a student, any guardian of a student, any person in a parental relationship to a student, or any person exercising supervisory authority over a student in place of the parent. The bill requires the:

- Notice submitted by the parent to include the full legal names of all children who will be enrolled as students in the home education program.
- District school superintendent to accept the notice and immediately register the home education program.
- Parent to file a written notice of termination upon completion of a home education program with the district school superintendent, and requires the notice to accompany the required annual educational evaluation.

Additionally, this section specifies that a school district may not require any additional information or verification, assign a grade level to the home education program student, or include a social security number or any other personal information in any database unless the student chooses to participate in a school district program or service.
This section clarifies that the parent determines the content of a portfolio and provides that a parent must make the portfolio available for inspection if requested by the district school superintendent or agent. The bill also removes the requirement for a district school superintendent to review the annual educational evaluation. Accordingly, the bill provides that a district school superintendent must accept the results of an annual education evaluation without a review of such evaluation.

This section provides to home education program students access to courses, programs, industry certifications and assessments. Specifically, the school district:

- May provide home education program students access to career and technical education courses and may report participating students as full-time equivalent students for funding through the Florida Education Finance Program.
- Must make available to home education program students industry certifications, national assessments, and statewide, standardized assessments offered by the school district. The school district must notify home education program students of available certifications,

[19] Florida Department of Education, Office of School Choice, *Frequently Asked Questions, available at* http://www.fldoe.org/core/fileparse.php/7709/urlt/Home-Ed-FAQs-2017.pdf, at 3.
[20] Florida Department of Education, *FTE General Instructions, 2017-18, available at* http://www.fldoe.org/core/fileparse.php/7508/urlt/1718FTE-GeneralInstructions.pdf, at 29.
[21] Section 1000.21(5), F.S.

assessments, administrations, and deadlines for the student to notify the district of the student's intent to participate.

Finally, this section specifies that the school district may not further regulate, exercise control over, or require documentation from parents of home education program students beyond the requirements of the law, unless the regulation, control, or documentation is necessary for participation in a school district program.

The modifications to the home education program are likely to expedite the establishment of home education programs and may provide the student access to additional courses and programs.

Reading Instruction and Scholarship (Section 3)

Present Situation

Any student in kindergarten through grade 3 who exhibits a substantial deficiency in reading based upon screening, diagnostic, progress monitoring, or assessment data; statewide assessments; or teacher observations must be provided intensive, explicit, systematic, and multisensory reading interventions immediately following the identification of the reading deficiency.[22] A school may not wait for a student to receive a failing grade at the end of a grading period to identify the student as having a substantial reading deficiency and initiate intensive reading interventions.[23] The student's reading proficiency must be monitored and the intensive interventions must continue until the student demonstrates grade level proficiency in a manner determined by the district, which may include achieving a Level 3 on the statewide, standardized English Language Arts (ELA) assessment.[24]

To be promoted to grade 4, a student must score a Level 2 or higher on the statewide, standardized ELA assessment required for grade 3.[25] The parent of any student who exhibits a substantial deficiency in reading must be notified in writing of the student's deficiency in reading, current services that are provided to the child, and a description of the proposed intensive interventions and supports that will be provided to the child that are designed to remediate the reading deficiency.[26]

Each school district that has one or more of the 300 lowest-performing elementary schools based on the state reading assessment for the prior year must use supplemental academic instruction funds, along with the funds provided in the district's research-based reading instruction

[22] Section 1008.25(5)(a), F.S.
[23] *Id*.
[24] *Id*. "Achievement level," "student achievement," or "achievement" describes the level of content mastery a student has acquired in a particular subject as measured by a statewide, standardized assessment administered pursuant to s. 1008.22(3)(a) and (b). There are five achievement levels. Level 1 is the lowest achievement level, level 5 is the highest achievement level, and level 3 indicates satisfactory performance. A student passes an assessment if the student achieves a level 3, level 4, or level 5. Section 1008.34(1)(a), F.S.
[25] Section 1008.25(5)(b), F.S.
[26] *Id.* at (5)(c), F.S.

allocation[27] and other available funds, to provide an additional hour of instruction beyond the normal school day for intensive reading instruction.[28,29] The additional hour of instruction must be provided by teachers or reading specialists who have demonstrated effectiveness in teaching reading or by a K-5 mentoring reading program that is supervised by a teacher who is effective at teaching reading.[30]

After this requirement has been met, supplemental instruction strategies may include, but are not limited to: use of a modified curriculum, reading instruction, after-school instruction, tutoring, mentoring, a reduction in class size, extended school year, intensive skills development in summer school, and other methods of improving student achievement.[31] Supplemental instruction may be provided to a student in any manner and at any time during or beyond the regular 180-day term identified by the school as being the most effective and efficient way to best help that student progress from grade to grade and to graduate.[32]

Effect of Proposed Changes

Section 3 establishes reading scholarship accounts to provide educational options for students, and specifies that each student in grades 3 through 5 who is enrolled in a Florida public school is eligible for the reading scholarship if the student scored below a Level 3 on the grade 3 or grade 4 statewide, standardized ELA assessment in the prior school year. The eligibility requirements for students in grade 3 may apply to students who scored Level 1 on the grade 3 ELA assessment in the prior school year and were retained in grade 3.

This section authorizes an eligible nonprofit scholarship-funding organization (SFO) participating in the Florida Tax Credit Scholarship to establish reading scholarship accounts for eligible students. The scholarship is $500 per eligible student for the 2018-2019 school year, and is available on a first-come, first-served basis contingent on available funds. Thereafter, the maximum scholarship amount will be provided in the General Appropriations Act.

The parent of a student receiving a reading scholarship must submit eligible expenses to the SFO for reimbursement of qualifying expenditures, which may include:

- Instructional materials;

[27] The research-based reading instruction allocation is created to provide comprehensive reading instruction to students in kindergarten through grade 12. Section 1011.62(9)(a), F.S.

[28] Section 1011.62(1)(f)2., F.S. The intensive reading instruction delivered in the additional hour and for other students must include: research-based reading instruction that has been proven to accelerate progress of students exhibiting a reading deficiency; differentiated instruction based on screening, diagnostic, progress monitoring, or student assessment data to meet students' specific reading needs; explicit and systematic reading strategies to develop phonemic awareness, phonics, fluency, vocabulary, and comprehension, with more extensive opportunities for guided practice, error correction, and feedback; and the integration of social studies, science, and mathematics-text reading, text discussion, and writing in response to reading. Section 1011.62(9)(a), F.S. Funds for comprehensive, research-based reading instruction must be allocated annually to each school district in the amount provided in the General Appropriations Act (GAA). Each eligible school district must receive the same minimum amount as specified in the GAA, and any remaining funds must be distributed to eligible school districts based on each school district's proportionate share of K-12 base funding. Section 1011.62(9)(b), F.S.

[29] Students enrolled in these schools who have level 5 assessment scores may participate in the additional hour of instruction on an optional basis. Section 1011.62(1)(f), F.S.

[30] Section 1011.62(1)(f)2., F.S.

[31] *Id*.

[32] *Id*.

- Curriculum;
- Tuition and fees for part-time tutoring services provided by a person who holds an authorized credential;
- Fees for summer education programs and after-school education programs.

This section also specifies responsibilities for parents of eligible students, school districts, Department of Education, and eligible SFOs.

Finally, this section provides that no state liability arises from the award or use of the reading scholarship account.

Participation in Extracurricular Activities (Section 10)

Present Situation

An extracurricular activity is any school-authorized or education-related activity occurring during or outside the regular instructional school day.[33]

An individual home education program student is eligible to participate[34] in extracurricular activities at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend under controlled open enrollment.[35] The student may also develop an agreement to participate in interscholastic extracurricular activities at a private school.
A home education program student who intends to participate in a public school's extracurricular activity must register with the school his or her intent to participate in the activity before the beginning date of the season for the activity in which he or she wishes to participate.[36]

Effect of Proposed Changes

Section 10 amends s. 1006.15, F.S., to specify that a student must register his or her intent to participate in an extracurricular activity prior to participating in the activity rather than before the beginning date of the season for the activity. Accordingly, the bill provides flexibility for a home education program student to begin participation in such activity.

[33] Section 1006.15(2), F.S.
[34] "Eligible to participate" includes, but is not limited to, a student participating in tryouts, off-season conditioning, summer workouts, preseason conditioning, in-season practice, or contests; but does not require that a student be placed on any specific team for interscholastic or intrascholastic extracurricular activities.
[35] Section 1006.15(3)(c), F.S. Beginning with the 2017-18 school year, each district school board and charter school must adopt a controlled open enrollment plan that allows a parent from any school district in the state to enroll his or her child in and transport his or her child to any public school that has not reached capacity. Section 1002.31, F.S.
[36] Section 1006.15(3)(c)5., F.S.

Dual Enrollment (Section 12)

Present Situation

The dual enrollment program is the enrollment of an eligible secondary student or home education program student in a postsecondary course creditable toward high school completion and a career certificate or an associate or baccalaureate degree.[37]

Each postsecondary institution eligible to participate in the dual enrollment courses[38] must enter into a home education articulation agreement with each home education program student seeking to enroll a dual enrollment course and the student's parent. The home education articulation agreement includes, but is not limited to:[39]

- A delineation of courses and programs available to dually enrolled home education program students. Courses and programs may be added, revised, or deleted at any time by the postsecondary institution.
- The initial and continued eligibility requirements for home education program student participation, not to exceed those required of other dually enrolled students. Florida College System (FCS) institutions may not establish additional requirements in the articulation agreement that arbitrarily prohibit students who have demonstrated the ability to master advanced courses from participating in dual enrollment courses.

Effect of Proposed Changes

Section 12 amends s. 1007.271, F.S., to modify specified provisions in the home education articulation agreement, which may provide home education program students with greater access to dual enrollment courses. Specifically, this section:

- Specifies that any limitations to courses and programs available to home education program students may not exceed the limitations for other dual enrollment students.
- Exempts a home education program student who meets a minimum score on a common placement test from maintaining a high school grade point average (GPA) in order to participate in dual enrollment.
- Clarifies that a home education program student must meet postsecondary requirements for continued eligibility to participate in dual enrollment, which may include maintenance of a minimum postsecondary GPA.
- Prohibits a FCS institution from limiting the number of dual enrollment courses in which a student may enroll based solely upon enrollment by the student at an independent postsecondary institution.

[37] Section 1007.271(1), F.S.
[38] Eligible institutions include public postsecondary institutions and independent colleges or universities, which are not for profit, accredited by a regional or national accrediting agency recognized by the United States Department of Education, and confer postsecondary degrees. Section 1011.62(1)(i), F.S.
[39] Section 1007.271(13)(b), F.S.

School Attendance

Required School Attendance (Section 4)

Present Situation

Except as otherwise provided, children who are age 6 by February 1 of any school year but are not age 16, are required to attend school regularly during the entire school term.[40] Additionally, children who are age 5 by September 1 of the school year are eligible for public kindergarten.[41] A district school superintendent may require evidence of the age of any child whom he or she believes to be within the limits of compulsory attendance as provided for by law.[42]

Effect of Proposed Changes

Section 4 amends s. 1003.21, F.S., to specify that the district school superintendent may require evidence of the age of any child being enrolled in public school whom he or she believes to be within the limits of compulsory attendance. However, the district school superintendent may not require evidence of age from any child who satisfies attendance requirements by attending a:[43]

- Parochial, religious, or denominational school;
- Private school supported in whole or in part by tuition charges or by endowments or gifts;
- Home education program that meets the requirements specified in law; or
- Private tutoring program that meets the requirements specified in law.

Enforcement of School Attendance (Section 5)

Present Situation

When there is no valid reason for a child not to be enrolled in school, a designated school representative must give written notice to the parent that requires enrollment or attendance within three days after the date of notice.[44] If the parent ignores the notice and requirement, the designated school representative must report the case to the district school superintendent and may refer the case to the case staffing committee.[45] The district school superintendent must then take steps necessary to bring criminal prosecution against the parent.[46]

Effect of Proposed Changes

Section 5 amends s. 1003.26, F.S., to authorize an intervention prior to the district school superintendent taking steps to initiate criminal prosecution. If the parent ignores a notice and requirement for enrollment or attendance, the district school superintendent may refer the case to

[40] Section 1003.21(1)(a)1, F.S.
[41] *Id.* at (a)2.
[42] *Id.* at (4).
[43] Section 1003.01(13)(b)-(e), F.S.
[44] Section 1003.26(1)(a), F.S.
[45] *Id.* at (2). The case staffing committee reviews the case of any family or child who the Department of Children and Families determines is in need of services or treatment. Section 984.12(1), F.S.
[46] Section 1003.26(2)(a), F.S.

a child study team[47] at the school the student would be assigned to attend according to district school board's attendance policies.

This section requires the child study team to be diligent in facilitating intervention services and to report the case to the district school superintendent only when all reasonable efforts to resolve the nonenrollment behavior are exhausted. If the parent continues to refuse to cooperate or enroll the child in school, the district school superintendent must take the steps necessary to bring criminal prosecution against the parent.

Court Procedures and Penalties Related to School Attendance (Section 6)

Present Situation

Each parent of a child within the compulsory attendance age is responsible for the child's school attendance as required by law.[48] While the absence of a student from school is evidence of a violation of compulsory attendance, criminal prosecution may not be brought against a parent prior to compliance with provisions related to enforcement of school attendance.[49]

When no valid reason for nonenrollment or nonattendance is found for a student who is required to attend a school, the district school superintendent must institute a criminal prosecution against the student's parent.[50]

Effect of Proposed Changes

Section 6 amends s. 1003.27, F.S., to clarify that court procedures and penalties for nonenrollment or nonattendance may not be initiated against the student's parent until the school and school district have complied with the policies and procedures established to enforce school attendance.

Mastery-Based Education (Section 9)

Present Situation

In 2016[51] the Legislature created the Competency-Based Education Pilot Program (pilot program) within the Department of Education (DOE) to be administered for a period of 5 years,

[47] A child study team is also used for patterns of nonattendance, defined as five unexcused absences, or absences for which the reasons are unknown, within a calendar month or 10 unexcused absences, or absences for which the reasons are unknown, within a 90-calendar-day period. Section 1003.26(1)(b), F.S. The school principal must refer the case to the school's child study team to determine if early patterns of truancy are developing. *Id.* The child study team must implement specified interventions, and may implement other interventions, including referral to other agencies for family services or recommendation for filing a truancy petition. *Id.* at (b) and (c). The child study team must be diligent in facilitating intervention services and shall report the case to the district school superintendent only when all reasonable efforts to resolve the nonattendance behavior are exhausted. *Id.* at (d). District school boards are also authorized to establish policies that require referral to a school's child study team for students who have fewer absences than the established number. Section 1003.02(1)(b), F.S.
[48] Section 1003.24, F.S.
[49] *Id.*
[50] Section 1003.27(2)(a), F.S.
[51] Section 1, ch. 2016-149, L.O.F.

beginning with the 2016-2017 school year.[52] The purpose of the pilot program is to provide an educational environment that allows students to advance to higher levels of learning upon the mastery of concepts and skills through statutory exemptions relating to student progression and the awarding of credits.[53]

The Lake, Palm Beach, Pinellas, and Seminole County School Districts and the P.K. Yonge Developmental Research School may submit an application in a format prescribed by the DOE to participate in the pilot program.[54]

The application to participate in the pilot program must, at a minimum, include:[55]

- The vision and timelines for the implementation of competency-based education within the school district, including a list of the schools that will participate in the pilot program during the first school year and the list of schools that will be integrated into the program in subsequent school years.
- The annual goals and performance outcomes, specified in law, for participating schools.
- A communication plan for parents and other stakeholders, including local businesses and community members.
- The scope of and timelines for professional development for school instructional and administrative personnel.
- A plan for student progression based on the mastery of content, including mechanisms that determine and ensure that a student has satisfied the requirements for grade-level promotion and content mastery.
- A plan for using technology and digital and blended learning to enhance student achievement and facilitate the competency-based education system.
- The proposed allocation of resources for the pilot program at the school and district levels.
- The recruitment and selection of participating schools.
- The rules to be waived for participating schools to implement the pilot program.[56]

Four of the five eligible school districts chose to participate in the pilot program during the 2016-2017 school year.[57] The Seminole County School District elected to use 2016-2017 as a planning year only.[58] Additionally, while the Lake County School District participated in the pilot program in 2016-2017, the district school superintendent decided to suspend the district's

[52] Section 1003.4996, F.S.
[53] *Id.*
[54] Section 1003.4996(1), F.S. The P.K. Yonge Developmental Research School is a public school affiliated with the University of Florida. P.K. Yonge Developmental Research School at the University of Florida, https://pkyonge.ufl.edu/ (last visited Feb. 19, 2018).
[55] Section 1003.4996(2), F.S.
[56] To facilitate innovative practices and to allow local selection of educational methods, the State Board of Education (SBE) may authorize the commissioner to waive, upon the request of a district school board, SBE rules that relate to district school instruction and school operations, except those rules pertaining to civil rights, and student health, safety, and welfare. Section 1001.10(3), F.S. The SBE may authorize the commissioner to grant an additional waiver of rules relating to student progression and the awarding of credits. Section 1003.4996(2)(i), F.S.
[57] Florida Department of Education, *Competency-Based Education Pilot Program, 2016-17 Annual Report* (June 9, 2017), at 1. Email, Florida Department of Education (Feb. 15, 2018).
[58] *Id.*

participation in 2017-2018 to assess the pressing needs of the district, but intends for the school district to participate in the pilot program in 2018-2019.[59]

Effect of Proposed Changes

Section 9 amends s. 1003.4996, F.S., to expand participation in the pilot program to all public school districts.[60] In addition, beginning in the 2018-2019 school year, participating school districts may amend their applications to include alternatives to:

- Awarding credit, which must include a verification of the student's mastery of the applicable course content using rigorous scoring rubrics to evaluate the student's work.
- The interpretation of middle school and high school letter grades, which may substitute the applicable language from the school district's rigorous scoring rubric.

An application that is amended to include such provisions must be approved by the district school board.

Definition of Credit (Section 7)

Present Situation

For the purposes of requirements for high school graduation, one full credit means a minimum of 135 hours of bona fide instruction in a designated course of study that contains student performance standards, except as otherwise provided through the Credit Acceleration Program.[61] For a school authorized to implement block scheduling by the district school board, one full credit means a minimum of 120 hours of bona fide instruction in a designated course of study that contains student performance standards for purposes of meeting high school graduation requirements.[62]

The State Board of Education is required to determine the number of postsecondary credit hours earned through dual enrollment[63] that satisfy the requirements of a dual enrollment articulation agreement[64] and that equal one full credit of the equivalent high school course.[65]

---

[59] *Id.*

[60] Each county is designated as a school district. Art IX, sec. 4, Fla. Const. and section 1001.30, F.S. For the purposes of funding and educational facilities, developmental research (laboratory) schools are designated as special school districts. Section 1011.24, F.S. It is unclear, however, if developmental research schools affiliated with Florida Agricultural and Mechanical University, Florida Atlantic University, and Florida State University would be eligible to participate in the mastery-based pilot under section 1003.4996, F.S.

[61] Section 1003.436(1), F.S. The Credit Acceleration Program allows a student to earn high school credit in courses required for high school graduation through passage of an end-of-course assessment, an Advanced Placement Examination, or a College Level Examination Program. Section 1003.4295(3), F.S.

[62] Section 1003.436(1), F.S.

[63] The dual enrollment program is the enrollment of an eligible secondary student or home education student in a postsecondary course creditable toward high school completion and a career certificate or an associate or baccalaureate degree. Section 1007.271, F.S.

[64] The dual enrollment articulation agreement between a school district and public postsecondary institution must delineate the high school credit earned for passage of each dual enrollment course. Section 1007.271(21)(f), F.S.

[65] Section 1003.436(1), F.S. The Commissioner of Education must recommend to the State Board of Education postsecondary courses that meet high school graduation requirements and the number of postsecondary semester credit hours of instruction and equivalent high school credits that are necessary to meet high school graduation requirements. Section 1007.271(9), F.S.

Effect of Proposed Changes

Section 7 amends s. 1003.436, F.S., to authorize district school boards[66] participating in the mastery-based pilot to determine and award credit based on a student's mastery of the core content and skills, consistent with the Next Generation Sunshine State Standards,[67] as approved by the district school board. This section may allow a student to progress more rapidly by completing course competencies without the requirement to meet the minimum hours of instruction.

Middle and High School Grading System (Section 8)

Present Situation

The grading system and interpretation of letter grades used to measure student success in grade 6 through grade 12 courses for students in public schools shall be as follows:[68]

- Grade "A" equals 90 percent through 100 percent, has a grade point average value of 4, and is defined as "outstanding progress."
- Grade "B" equals 80 percent through 89 percent, has a grade point average value of 3, and is defined as "above average progress."
- Grade "C" equals 70 percent through 79 percent, has a grade point average value of 2, and is defined as "average progress."
- Grade "D" equals 60 percent through 69 percent, has a grade point average value of 1, and is defined as "lowest acceptable progress."
- Grade "F" equals zero percent through 59 percent, has a grade point average value of zero, and is defined as "failure."
- Grade "I" equals zero percent, has a grade point average value of zero, and is defined as "incomplete."

For the purposes of class ranking, district school boards may exercise a weighted grading system.[69]

[66] *See supra* note 15. It is unclear if the P.K. Yonge Developmental Research School is included in the authorization in the bill to award credit based on a student's mastery of core content and skills. A district school board refers to the president of the university, or the president's designee, only for the purposes of school improvement and accountability. Section 1002.32(10)(b), F.S.

[67] The Next Generation Sunshine State Standards establish the core content of the curricula to be taught in the state and specify the core content knowledge and skills that K-12 public school students are expected to acquire. Standards must be rigorous and relevant and provide for the logical, sequential progression of core curricular content that incrementally increases a student's core content knowledge and skills over time. Section 1003.41(1), F.S.

[68] Section 1003.437, F.S.

[69] *Id.* School districts and Florida College System institutions must weigh dual enrollment courses the same as advanced placement, International Baccalaureate, and Advanced International Certificate of Education courses when grade point averages are calculated. Alternative grade calculation systems, alternative grade weighting systems, and information regarding student education options that discriminate against dual enrollment courses are prohibited. Section 1007.271(18), F.S.

Effect of Proposed Changes

Section 8 amends s. 1003.437, F.S, to authorize district school boards[70] participating in the mastery-based pilot to use an alternative interpretation of letter grades to measure student success in grade 6 through grade 12.

According to the Department of Education and Board of Governors of the State University System (BOG), the use of an alternative interpretation of the letter grade system by school districts that participate in the pilot program may impact the students' ability to meet the specific minimum grade point average (GPA) requirements for the following:[71]

- National Collegiate Athletic Association Division I and II scholarships;
- Interscholastic extracurricular activities;
- Bright Futures and other scholarships; and
- Dual enrollment.

Statewide Articulation Agreement (Section 11)

Present Situation

The State Board of Education (SBE) and the Board of Governors of the State University System (BOG) are required to enter into a statewide articulation agreement, which must preserve Florida's "2+2" system of articulation, facilitate the seamless articulation of student credit across and among Florida's educational entities, and govern, among other provisions, articulation between secondary and postsecondary education.[72]

Effect of Proposed Changes

Section 11 amends s. 1007.23, F.S., to require the statewide articulation agreement to ensure fair and equitable access for high school graduates with mastery-based, nontraditional diplomas and transcripts. Accordingly, the statewide articulation agreement may need to be updated in rule by the SBE and in regulation by the BOG. In addition, postsecondary institutions may need to update first-time-in-college admissions procedures to revise GPA requirements consistent with alternatives to the letter-grade system.[73]

Florida Partnership for Minority and Underrepresented Student Achievement (Section 13)

Present Situation

The Florida Partnership for Minority and Underrepresented Student Achievement (Florida partnership), was created in 2004[74] to prepare, inspire, and connect students to postsecondary success and opportunity, with a particular focus on minority students and students who are underrepresented in postsecondary education.[75]

---

[70] *See supra* note 16.
[71] Department of Education, *2018 Agency Analysis for SB 968* (Dec. 1, 2017), at 4 and 7, and Board of Governors, *2018 Bill Analysis of SB 968* (Dec. 13, 2017), at 4.
[72] Section 1007.23(1), F.S.
[73] Board of Governors, *2018 Bill Analysis of SB 968* (Dec. 13, 2017), at 3-4.
[74] Section 1, ch. 2004-63, L.O.F.
[75] Section 1007.35(4), F.S.

The Florida partnership provides to students enrolled in grade 10 in public schools access to the preliminary ACT and another specified assessment.[76] Test results will provide each high school with a database of student assessment data that certified school counselors must use to identify students who are prepared or who need additional work to be prepared to enroll and be successful in AP courses or other advanced high school courses.[77]

The Florida partnership is required to provide information to students and other specified recipients regarding the preliminary ACT or PSAT/NMSQT administration and participation by 10th grade students.[78] The Florida partnership must also submit to the Florida Department of Education (DOE) a report that, among other items, evaluates the level of participation in the preliminary ACT.[79]

Additionally, the DOE must contribute to the evaluation of the Florida partnership by providing access to student and teacher information necessary to match against databases containing teacher professional development data and against databases containing assessment data for the PSAT/NMSQT, SAT, AP, and other appropriate measures.[80]

Effect of Proposed Changes

Section 13 amends s. 1007.35, F.S., to retain the requirements of the Florida partnership but updates the name of the preliminary ACT to the PreACT to be consistent with the correct name of the assessment.[81] In addition this section:

- Adds dual enrollment to the types of college credit-bearing courses that certified school counselors must use PSAT/NMSQT or PreACT data to identify students who are prepared to enroll in and be successful in advanced high school courses or college credit-bearing courses.
- Adds the ACT and the PreACT to specified assessments in databases for which the DOE must provide access for evaluation purposes.

The bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

For the 2018-2019 fiscal year, the bill appropriates the sum of $9.7 million in recurring funds from the General Revenue Fund to the Department of Education to fund reading scholarship accounts and $300,000 in recurring funds from the General Revenue Fund toward related administrative fees.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1002.385, 1002.41, 1003.21, 1003.26, 1003.27, 1003.436, 1003.437, 1003.4996, 1006.15, 1007.271, 1007.23, and 1007.35.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on March 2, 2018:
The committee substitute maintains the substance of the bill with the following modifications:

- Renames the Competency-Based Education Pilot Program as the Mastery-Based Education Pilot Program (mastery-based pilot) and:
  - Expands participation in the mastery-based pilot to all school districts.
  - Authorizes district school boards participating in the mastery-based pilot to determine award of credit based on mastery of content and skills and to use an

alternative interpretation of letter grades to measure student success in grades 6 through 12.
    - Requires the statewide articulation agreement to ensure fair and equitable access for high school graduates with mastery-based, nontraditional diplomas and transcripts.
- Modifies the Gardiner Scholarship Program (program) to:
    - Revise the definition of a rare disease based on the Orphan Drug Act of 1983, for the purposes of the program.
    - Expand authorized uses of program funds to include tuition or fees associated with full-time or part-time enrollment in home education program; tuition or fees for enrollment in recognized research-based training program; and fees for art, music, and sports lessons.
    - Eliminates private tutoring programs from authorized uses of program funds but expand the entities who may provide part-time tutoring services to include individuals who hold a valid teaching certificate from another state and individuals who have a bachelor's or higher degree in the subject area in which instruction is given.
    - Clarify accountability provisions regarding private schools that participate in the program.
- Establishes reading scholarship accounts for public school students in grades 3 through 5 who scored below a Level 3 on the grade 3 or grade 4 statewide, standardized ELA assessment in the prior school year

CS by Education on January 22, 2018:
The committee substitute modifies requirements in the bill regarding home education program students' enrollment in extracurricular courses and dual enrollment. The bill also modifies provisions relating to the Florida Partnership for Minority and Underrepresented Student Achievement. Specifically, the committee substitute:

- Removes the bill's provision that deemed home education program students eligible to participate in extracurricular courses, which are exempted from maximum class size requirements, regardless of the school's capacity under controlled open enrollment; and deletes related conforming provisions and exemptions from meeting school district residency requirements and standards for acceptance to extracurricular activities.
- Modifies the provision in the bill related to home education program students' participation in dual enrollment to clarify that such students must maintain the minimum postsecondary grade point average for continued enrollment in dual enrollment courses, not limited to only the college credit dual enrollment courses.
- Updates cross references to home education program portfolio specifications under provisions related to the enforcement of school attendance, and home education program annual evaluations under provisions related to participation in the Gardiner Scholarship Program.
- Modifies the Florida Partnership for Minority and Underrepresented Student Achievement to:
    - Update the name of the preliminary ACT to the PreACT.

- Add the ACT and the PreACT to specified assessments included in databases containing assessment data, to which the Department of Education must provide access for evaluation purposes.
- Add dual enrollment to the types of college credit-bearing courses for which certified school counselors will use PSAT/NMSQT or PreACT data to identify students who are prepared to enroll in and be successful in advanced high school courses or college credit-bearing courses.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Education; and Senator Baxley

581-02337-18 2018732c1

A bill to be entitled

An act relating to K-12 education; amending s. 1002.41, F.S.; specifying that a home education program is not a school district program and is registered with the district school superintendent only for the purpose of complying with the state's attendance requirements; revising the content requirements of a notice of enrollment of a student in a home education program; requiring the district school superintendent to immediately register a home education program upon receipt of the notice; prohibiting a school district from requiring additional information or verification of a home education student except in specified circumstances; authorizing a school district to provide home education program students with access to certain courses and programs offered by the school district; requiring reporting and funding through the Florida Education Finance Program; requiring home education program students be provided access to certain certifications and assessments offered by the school district; prohibiting a school district from taking certain actions against a home education program student's parent unless such action is necessary for a school district program; amending s. 1003.21, F.S.; prohibiting a district school superintendent from requiring certain evidence relating to a child's age from children enrolled in specified schools and programs; amending s. 1003.26, F.S.; revising

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

581-02337-18 2018732c1

reporting requirements for specified issues relating to compulsory school attendance; amending s. 1003.27, F.S.; requiring a school and school district to comply with specified provisions before instituting criminal prosecution against certain parents relating to compulsory school attendance; amending s. 1006.15, F.S.; revising the standards required for a home education student to participate in extracurricular activities; amending s. 1007.271, F.S.; prohibiting dual enrollment course and program limitations for home education students from exceeding limitations for other students; providing an exemption from the grade point average requirement for initial enrollment in a dual enrollment program for certain home education students; amending s. 1007.35, F.S.; updating terminology; requiring the Department of Education to provide certain teacher and student ACT and PreACT information for the evaluation of certain services and activities; amending s. 1002.385, F.S.; conforming cross-references; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (1) and (2) of section 1002.41, Florida Statutes, are amended, and subsections (11), (12), and (13) are added to that section, to read:

1002.41 Home education programs.—

(1) As used in this section, the term ~~A~~ "home education program" has the same meaning as ~~is defined~~ in s. 1002.01. A

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

home education program is not a school district program and is registered with the district school superintendent only for the purpose of complying with the state's attendance requirements under s. 1003.21(1). The parent is not required to hold a valid regular Florida teaching certificate.

(a) The parent, as defined in s. 1000.21, who establishes and maintains a home education program shall notify the district school superintendent of the county in which the parent resides of her or his intent to establish and maintain a home education program. The notice must ~~shall~~ be in writing, signed by the parent, and ~~shall~~ include the full legal names, addresses, and birthdates of all children who shall be enrolled as students in the home education program. The notice must ~~shall~~ be filed in the district school superintendent's office within 30 days of the establishment of the home education program.

(b) The district school superintendent shall accept the notice and immediately register the home education program upon receipt of the notice. The district may not require any additional information or verification from the parent unless the student chooses to participate in a school district program or service. The district school superintendent may not assign a grade level to the home education student or include a social security number or any other personal information of the student in any school district or state database unless the student chooses to participate in a school district program or service; and

(c) The parent shall file a written notice of termination upon completion of the home education program with ~~shall be filed in~~ the district school superintendent, along with the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

annual evaluation required in paragraph (f), within ~~superintendent's office within~~ 30 days of ~~after said~~ termination.

(d) ~~(b)~~ The parent shall maintain a portfolio of records and materials. The portfolio must ~~shall~~ consist of the following:

1. A log of educational activities that is made contemporaneously with the instruction and that designates by title any reading materials used.

2. Samples of any writings, worksheets, workbooks, or creative materials used or developed by the student.

(e) The parent shall determine the content of the portfolio, preserve it ~~shall be preserved by the parent~~ for 2 years, and make it ~~shall be made~~ available for inspection, if requested, by the district school superintendent, or the district school superintendent's agent, upon 15 days' written notice. Nothing in this section shall require the district school superintendent to inspect the portfolio.

(f) ~~(c)~~ The parent shall provide for an annual educational evaluation in which is documented the student's demonstration of educational progress at a level commensurate with her or his ability. The parent shall select the method of evaluation and shall file a copy of the evaluation annually with the district school superintendent's office in the county in which the student resides. The annual educational evaluation shall consist of one of the following:

1. A teacher selected by the parent shall evaluate the student's educational progress upon review of the portfolio and discussion with the student. Such teacher shall hold a valid regular Florida certificate to teach academic subjects at the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

elementary or secondary level;

2. The student shall take any nationally normed student achievement test administered by a certified teacher;

3. The student shall take a state student assessment test used by the school district and administered by a certified teacher, at a location and under testing conditions approved by the school district;

4. The student shall be evaluated by an individual holding a valid, active license pursuant to the provisions of s. 490.003(7) or (8); or

5. The student shall be evaluated with any other valid measurement tool as mutually agreed upon by the district school superintendent of the district in which the student resides and the student's parent.

(2) The district school superintendent shall ~~review and~~ accept the results of the annual educational evaluation of the student in a home education program. If the student does not demonstrate educational progress at a level commensurate with her or his ability, the district school superintendent shall notify the parent, in writing, that such progress has not been achieved. The parent shall have 1 year from the date of receipt of the written notification to provide remedial instruction to the student. At the end of the 1-year probationary period, the student shall be reevaluated as specified in paragraph (1)(f) ~~(1)(c)~~. Continuation in a home education program shall be contingent upon the student demonstrating educational progress commensurate with her or his ability at the end of the probationary period.

(11) A school district may provide access to career and

technical courses and programs for a home education program student who enrolls in a public school solely for the career and technical courses or programs. The school district that provides the career and technical courses and programs shall report each student as a full-time equivalent student in the class and in a manner prescribed by the department, and funding shall be provided through the Florida Education Finance Program pursuant to s. 1011.62.

(12) Industry certifications, national assessments, and statewide, standardized assessments offered by the school district shall be available to home education program students. Each school district shall notify home education program students of the available certifications and assessments; the date, time, and locations for the administration of each certification and assessment; and the deadline for notifying the school district of the student's intent to participate and the student's preferred location.

(13) A school district may not further regulate, exercise control over, or require documentation from parents of home education program students beyond the requirements of this section unless the regulation, control, or documentation is necessary for participation in a school district program.

Section 2. Subsection (4) of section 1003.21, Florida Statutes, is amended to read:

1003.21 School attendance.—

(4) Before admitting a child to kindergarten, the principal shall require evidence that the child has attained the age at which he or she should be admitted in accordance with the provisions of subparagraph (1)(a)2. The district school

superintendent may require evidence of the age of any child who is being enrolled in public school who the district school superintendent ~~whom he or she~~ believes to be within the limits of compulsory attendance as provided for by law; however, the district school superintendent may not require evidence from any child who meets regular attendance requirements by attending a school or program listed in s. 1003.01(13)(b)-(e). If the first prescribed evidence is not available, the next evidence obtainable in the order set forth below shall be accepted:

(a) A duly attested transcript of the child's birth record filed according to law with a public officer charged with the duty of recording births;

(b) A duly attested transcript of a certificate of baptism showing the date of birth and place of baptism of the child, accompanied by an affidavit sworn to by the parent;

(c) An insurance policy on the child's life that has been in force for at least 2 years;

(d) A bona fide contemporary religious record of the child's birth accompanied by an affidavit sworn to by the parent;

(e) A passport or certificate of arrival in the United States showing the age of the child;

(f) A transcript of record of age shown in the child's school record of at least 4 years prior to application, stating date of birth; or

(g) If none of these evidences can be produced, an affidavit of age sworn to by the parent, accompanied by a certificate of age signed by a public health officer or by a public school physician, or, if these are not available in the

county, by a licensed practicing physician designated by the district school board, which states that the health officer or physician has examined the child and believes that the age as stated in the affidavit is substantially correct. Children and youths who are experiencing homelessness and children who are known to the department, as defined in s. 39.0016, shall be given temporary exemption from this section for 30 school days.

Section 3. Paragraph (f) of subsection (1) and paragraph (a) of subsection (2) of section 1003.26, Florida Statutes, are amended to read:

1003.26 Enforcement of school attendance.—The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an

unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) CONTACT, REFER, AND ENFORCE.—

(f)1. If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to chapter 1002, the district school superintendent shall provide the parent a copy of s. 1002.41 and the accountability requirements of this paragraph. The district school superintendent shall also refer the parent to a home education review committee composed of the district contact for home education programs and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least 3 years and who have indicated a willingness to serve on the committee. The home education review committee shall review the portfolio of the student, as defined by s. 1002.41, every 30 days during the district's regular school terms until the committee is satisfied that the home education program is in compliance with s. 1002.41(1)(d) ~~s. 1002.41(1)(b)~~. The first portfolio review must occur within the first 30 calendar days of the establishment of the program. The provisions of subparagraph 2. do not apply once the committee determines the home education program is in compliance with s. 1002.41(1)(d) ~~s. 1002.41(1)(b)~~.

2. If the parent fails to provide a portfolio to the committee, the committee shall notify the district school superintendent. The district school superintendent shall then terminate the home education program and require the parent to enroll the child in an attendance option that meets the definition of "regular school attendance" under s. 1003.01(13)(a), (b), (c), or (e), within 3 days. Upon termination of a home education program pursuant to this subparagraph, the parent shall not be eligible to reenroll the child in a home education program for 180 calendar days. Failure of a parent to enroll the child in an attendance option as required by this subparagraph after termination of the home education program pursuant to this subparagraph shall constitute noncompliance with the compulsory attendance requirements of s. 1003.21 and may result in criminal prosecution under s. 1003.27(2). Nothing contained herein shall restrict the ability of the district school superintendent, or the ability of his or her designee, to review the portfolio pursuant to s. 1002.41(1)(e) ~~s. 1002.41(1)(b)~~.

(2) GIVE WRITTEN NOTICE.—

(a) Under the direction of the district school superintendent, a designated school representative shall give written notice that requires enrollment or attendance within 3 days after the date of notice, in person or by return-receipt mail, to the parent when no valid reason is found for a student's nonenrollment in school. If the notice and requirement are ignored, the designated school representative shall report the case to the district school superintendent, who ~~and~~ may refer the case to the child study team in paragraph (1)(b) at

the school the student would be assigned according to district school board attendance area policies or to the case staffing committee, established pursuant to s. 984.12. The child study team shall diligently facilitate intervention services and shall report the case back to the district school superintendent only when all reasonable efforts to resolve the nonenrollment behavior are exhausted. If the parent still refuses to cooperate or enroll the child in school, the district school superintendent shall take such steps as are necessary to bring criminal prosecution against the parent.

Section 4. Subsection (2) of section 1003.27, Florida Statutes, is amended to read:

1003.27 Court procedure and penalties.—The court procedure and penalties for the enforcement of the provisions of this part, relating to compulsory school attendance, shall be as follows:

(2) NONENROLLMENT AND NONATTENDANCE CASES.—

(a) In each case of nonenrollment or of nonattendance upon the part of a student who is required to attend some school, when no valid reason for such nonenrollment or nonattendance is found, the district school superintendent shall institute a criminal prosecution against the student's parent. However, criminal prosecution may not be instituted against the student's parent until the school and school district have complied with s. 1003.26.

(b) Each public school principal or the principal's designee shall notify the district school board of each minor student under its jurisdiction who accumulates 15 unexcused absences in a period of 90 calendar days. ~~Each designee of the~~

~~governing body of each private school, and each parent whose child is enrolled in a home education program, may provide the Department of Highway Safety and Motor Vehicles with the legal name, sex, date of birth, and social security number of each minor student under his or her jurisdiction who fails to satisfy relevant attendance requirements and who fails to otherwise satisfy the requirements of s. 322.091.~~ The district school superintendent must provide the Department of Highway Safety and Motor Vehicles the legal name, sex, date of birth, and social security number of each minor student who has been reported under this paragraph and who fails to otherwise satisfy the requirements of s. 322.091. The Department of Highway Safety and Motor Vehicles may not issue a driver license or learner's driver license to, and shall suspend any previously issued driver license or learner's driver license of, any such minor student, pursuant to the provisions of s. 322.091.

(c) Each designee of the governing body of each private school and each parent whose child is enrolled in a home education program may provide the Department of Highway Safety and Motor Vehicles with the legal name, sex, date of birth, and social security number of each minor student under his or her jurisdiction who fails to satisfy relevant attendance requirements and who fails to otherwise satisfy the requirements of s. 322.091. The Department of Highway Safety and Motor Vehicles may not issue a driver license or learner's driver license to, and shall suspend any previously issued driver license or learner's driver license of, any such minor student, pursuant to s. 322.091.

Section 5. Paragraph (c) of subsection (3) of section

1006.15, Florida Statutes, is amended to read:

1006.15 Student standards for participation in interscholastic and intrascholastic extracurricular student activities; regulation.—

(3)

(c) An individual home education student is eligible to participate at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend pursuant to s. 1002.31, or may develop an agreement to participate at a private school, in the interscholastic extracurricular activities of that school, provided the following conditions are met:

1. The home education student must meet the requirements of the home education program pursuant to s. 1002.41.

2. During the period of participation at a school, the home education student must demonstrate educational progress as required in paragraph (b) in all subjects taken in the home education program by a method of evaluation agreed upon by the parent and the school principal which may include: review of the student's work by a certified teacher chosen by the parent; grades earned through correspondence; grades earned in courses taken at a Florida College System institution, university, or trade school; standardized test scores above the 35th percentile; or any other method designated in s. 1002.41.

3. The home education student must meet the same residency requirements as other students in the school at which he or she participates.

4. The home education student must meet the same standards

of acceptance, behavior, and performance as required of other students in extracurricular activities.

5. The student must register with the school his or her intent to participate in interscholastic extracurricular activities as a representative of the school before participation ~~the beginning date of the season for the activity in which he or she wishes to participate~~. A home education student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

6. A student who transfers from a home education program to a public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period provided the student has a successful evaluation from the previous school year, pursuant to subparagraph 2.

7. Any public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a home education student until the student has successfully completed one grading period in home education pursuant to subparagraph 2. to become eligible to participate as a home education student.

Section 6. Paragraph (b) of subsection (13) of section 1007.271, Florida Statutes, is amended to read:

1007.271 Dual enrollment programs.—

(13)

(b) Each postsecondary institution eligible to participate in the dual enrollment program pursuant to s. 1011.62(1)(i) must enter into a home education articulation agreement with each

home education student seeking enrollment in a dual enrollment course and the student's parent. By August 1 of each year, the eligible postsecondary institution shall complete and submit the home education articulation agreement to the Department of Education. The home education articulation agreement must include, at a minimum:

1. A delineation of courses and programs available to dually enrolled home education students. Courses and programs may be added, revised, or deleted at any time by the postsecondary institution. Any course or program limitations may not exceed the limitations for other dually enrolled students.

2. The initial and continued eligibility requirements for home education student participation, not to exceed those required of other dually enrolled students. A high school grade point average may not be required for home education students who meet the minimum score on a common placement test adopted by the State Board of Education which indicates that the student is ready for college-level coursework; however, home education student eligibility requirements for continued enrollment in dual enrollment courses must include the maintenance of the minimum postsecondary grade point average established by the postsecondary institution.

3. The student's responsibilities for providing his or her own instructional materials and transportation.

4. A copy of the statement on transfer guarantees developed by the Department of Education under subsection (15).

Section 7. Subsection (5), paragraph (j) of subsection (6), and subsection (8) of section 1007.35, Florida Statutes, are amended to read:

1007.35 Florida Partnership for Minority and Underrepresented Student Achievement.—

(5) Each public high school, including, but not limited to, schools and alternative sites and centers of the Department of Juvenile Justice, shall provide for the administration of the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT), or the PreACT ~~preliminary ACT~~ to all enrolled 10th grade students. However, a written notice shall be provided to each parent which must include the opportunity to exempt his or her child from taking the PSAT/NMSQT or the PreACT ~~preliminary ACT~~.

(a) Test results will provide each high school with a database of student assessment data which certified school counselors will use to identify students who are prepared or who need additional work to be prepared to enroll and be successful in credit-bearing college coursework, including dual enrollment programs, AP courses, or other advanced high school courses.

(b) Funding for the PSAT/NMSQT or the PreACT ~~preliminary ACT~~ for all 10th grade students shall be contingent upon annual funding in the General Appropriations Act.

(c) Public school districts must choose either the PSAT/NMSQT or the PreACT ~~preliminary ACT~~ for districtwide administration.

(6) The partnership shall:

(j) Provide information to students, parents, teachers, counselors, administrators, districts, Florida College System institutions, and state universities regarding PSAT/NMSQT or the PreACT ~~preliminary ACT~~ administration, including, but not limited to:

1. Test administration dates and times.

2. That participation in the PSAT/NMSQT or the PreACT ~~preliminary ACT~~ is open to all 10th grade students.

3. The value of such tests in providing diagnostic feedback on student skills.

4. The value of student scores in predicting the probability of success on AP or other advanced course examinations.

(8)(a) By September 30 of each year, the partnership shall submit to the department a report that contains an evaluation of the effectiveness of the delivered services and activities. Activities and services must be evaluated on their effectiveness at raising student achievement and increasing the number of AP or other advanced course examinations in low-performing middle and high schools. Other indicators that must be addressed in the evaluation report include the number of middle and high school teachers trained; the effectiveness of the training; measures of postsecondary readiness of the students affected by the program; levels of participation in 10th grade PSAT/NMSQT or the PreACT ~~preliminary ACT~~ testing; and measures of student, parent, and teacher awareness of and satisfaction with the services of the partnership.

(b) The department shall contribute to the evaluation process by providing access, consistent with s. 119.071(5)(a), to student and teacher information necessary to match against databases containing teacher professional development data and databases containing assessment data for the PSAT/NMSQT, SAT, ACT, PreACT, AP, and other appropriate measures. The department shall also provide student-level data on student progress from

middle school through high school and into college and the workforce, if available, in order to support longitudinal studies. The partnership shall analyze and report student performance data in a manner that protects the rights of students and parents as required in 20 U.S.C. s. 1232g and s. 1002.22.

Section 8. Paragraph (l) of subsection (5) and paragraph (a) of subsection (11) of section 1002.385, Florida Statutes, are amended to read:

1002.385 The Gardiner Scholarship.—

(5) AUTHORIZED USES OF PROGRAM FUNDS.—Program funds must be used to meet the individual educational needs of an eligible student and may be spent for the following purposes:

(l) Fees for an annual evaluation of educational progress by a state-certified teacher under s. 1002.41(1)(f) ~~s. 1002.41(1)(c)~~, if this option is chosen for a home education student.

A provider of any services receiving payments pursuant to this subsection may not share, refund, or rebate any moneys from the Gardiner Scholarship with the parent or participating student in any manner. A parent, student, or provider of any services may not bill an insurance company, Medicaid, or any other agency for the same services that are paid for using Gardiner Scholarship funds.

(11) PARENT AND STUDENT RESPONSIBILITIES FOR PROGRAM PARTICIPATION.—A parent who applies for program participation under this section is exercising his or her parental option to determine the appropriate placement or the services that best

meet the needs of his or her child. The scholarship award for a student is based on a matrix that assigns the student to support Level III services. If a parent receives an IEP and a matrix of services from the school district pursuant to subsection (7), the amount of the payment shall be adjusted as needed, when the school district completes the matrix.

(a) To satisfy or maintain program eligibility, including eligibility to receive and spend program payments, the parent must sign an agreement with the organization and annually submit a notarized, sworn compliance statement to the organization to:

1. Affirm that the student is enrolled in a program that meets regular school attendance requirements as provided in s. 1003.01(13)(b)-(d).

2. Affirm that the program funds are used only for authorized purposes serving the student's educational needs, as described in subsection (5).

3. Affirm that the parent is responsible for the education of his or her student by, as applicable:

a. Requiring the student to take an assessment in accordance with paragraph (8)(c);

b. Providing an annual evaluation in accordance with s. 1002.41(1)(f) ~~s. 1002.41(1)(c)~~; or

c. Requiring the child to take any preassessments and postassessments selected by the provider if the child is 4 years of age and is enrolled in a program provided by an eligible Voluntary Prekindergarten Education Program provider. A student with disabilities for whom a preassessment and postassessment is not appropriate is exempt from this requirement. A participating provider shall report a student's scores to the parent.

4. Affirm that the student remains in good standing with the provider or school if those options are selected by the parent.

A parent who fails to comply with this subsection forfeits the Gardiner Scholarship.

Section 9. This act shall take effect July 1, 2018.

February 8, 2018

The Honorable Senator Rob Bradley
414 Senate Office Building
Tallahassee, Florida 32399

Dear Senator Bradley,

I respectfully request that CS/SB 732 Home Education be placed on your next available agenda.

The bill clarifies the roles of the parent and the superintendent in a home education program consistent with Florida law. It specifies limits on information required by the school district from a parent unless the home education program student chooses to participate in a district program or service.

The bill also authorizes a school district to provide to home education program students access to career and technical education courses and programs. It requires access to extracurricular courses, regardless of the public school's capacity and specifies that a student must register intent to participate in an extracurricular activity before participation, rather than before the beginning date of the season for the activity.

I appreciate your favorable consideration.

Onward & Upward,

Senator Dennis Baxley
Senate District 12

2.	Davis	Hansen	AP	**Fav/CS**
3.			RC	

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 744 revises the framework for the oversight of electrology by eliminating the Electrolysis Council (EC) and its oversight of the practice of electrology. The Board of Medicine (board) is solely responsible for regulating the practice of electrology.

The definition of "electrolysis or electrology" is revised to reflect technological advancements; removing reference to the permanent removal of hair by destroying the hair-producing cells of the skin and vascular system from the definition. The bill defines "electrolysis or electrology" as the permanent removal of hair using equipment and devices that have been cleared by and registered with the United States Food and Drug Administration (FDA) and that are used pursuant to protocols approved by the board.

The bill requires that a licensed electrologist who uses a laser or pulsed-light device in a laser hair removal or reduction procedure must be certified in the use of these devices.

The bill has no fiscal impact on state revenues or expenditures.

The bill takes effect October 1, 2018.

II. Present Situation:

State Regulation of Electrology

The board within the Florida Department of Health (department) licenses, monitors, disciplines, educates, and rehabilitates physicians and other practitioners to assure their fitness and competence in the service of the people of Florida.[1] Electrology is a practice that is regulated by the board, with input by the EC.[2] The EC is a body that is housed within the board. These entities are given authority to investigate complaints, impose discipline on a license, and perform inspections related to electrolysis.[3]

"Electrolysis or electrology" is defined as the permanent removal of hair by destroying the hair-producing cells of the skin and vascular system, using equipment and devices approved by the board which have been cleared by, and registered with, the FDA and that are used pursuant to protocols approved by the board.[4]

The EC consists of five members appointed by the board. The EC meets quarterly and has the following responsibilities:[5]

- Approval and denial of applicants by examination and endorsement;
- Approval and denial of continuing education providers and electrolysis training programs;
- Authority to accept non-disciplinary voluntarily relinquishments;
- Authority to notice rules for development and to propose rules to the board; and
- Initial consideration of rulemaking proposals, petitions to adopt, amend, or repeal rules related to electrology and making recommendations to the board as to the appropriate action to be taken.

A person may not practice electrolysis or hold himself or herself out as an electrologist unless that person has an active valid Florida license.[6] Specifically, an applicant for a license must:

- Be at least 18 years old;
- Be of good moral character;
- Possess a high school diploma or high school equivalency diploma;
- Have not committed in any jurisdiction an act that constitutes grounds for discipline as an electrologist in Florida;
- Have successfully completed the 120-hour electrolysis training program and board approved 200-hour practical application; and
- Have passed a written examination developed by the department or a national examination approved by the board.[7]

---

[1] FLORIDA BOARD OF MEDICINE, http://flboardofmedicine.gov/ (last visited Feb. 19, 2018).
[2] *See* ch. 478, F.S., and Fla. Admin. Code R. 64B8-50 through 64B8-56.
[3] ss. 478.43, 478.51, and 478.52, F.S.
[4] Section 478.42(5), F.S.
[5] Section 478.44, F.S., and Fla. Admin. Code R. 64B8-50.003.
[6] Section 478.49(1), F.S.
[7] Section 478.45(1) and (2), F.S., and Florida Department of Health, *Analysis of SB 744* (November 2, 2017)(on file with the Senate Subcommittee on General Government).

The department may issue temporary permits to qualified applicants to practice electrology that are valid until the next board meeting at which licensing decisions occur, or the next exam results are issued.[8]

The board, with the assistance of the EC,[9] establishes minimum standards for the delivery of electrolysis services and adopts rules to implement ch. 478, F.S.[10]

Electrology facilities must be licensed by the department. The board is responsible for rulemaking to govern the licensure, operation, personnel, and safety and sanitary requirements of electrology facilities.[11]

Use of Laser and Light-based Devices for Hair Removal or Reduction

The board has established by rule an allowance for a Florida electrologist to use laser and light-based devices for hair removal or reduction, which are procedures above the initial scope of licensure, if he or she:

- Has completed a 30-hour continuing education course approved by the EC;[12]
- Is certified in the use of laser and light-based devices for the removal or reduction of hair by a national certification organization approved by the EC and the board (i.e. passed the Certified Medical Electrologist Exam (CME) given by the Society for Clinical & Medical Hair Removal, Inc. (SCMHR));
- Is using only the laser and light-based hair removal or reduction devices upon which they have been trained; and
- Is operating under the direct supervision and responsibility of a physician[13] properly trained in laser hair removal and licensed pursuant to chs. 458 or 459, F.S.[14]

The EC and the board have approved the SCMHR,[15] as the national certification organization to certifiy Florida electrologists in the use of laser and pulse-light devices for the removal or reduction of hair.[16] The SCMHR offers certification for use of laser and light-based devices, education programs for hair removal procedures, and membership services.[17] The CME test that is required by the department is $200 for members of the organization and $300 for non-

[8] Section 478.46, F.S.
[9] Section 478.44, F.S., creates the Electrolysis Council, and specifies its membership and meeting requirements.
[10] Section 478.43, F.S. *See* Rules 64B8-50 through 64B8-56, F.A.C., which regulate the licensure, practice, continuing education, and discipline of electrologists.
[11] Section 478.51, F.S.
[12] Fla. Admin. Code R. 64B8-52.004.
[13] A physician cannot supervise more than four electrologists at any one time. Fla. Admin. Code R. 64B8-56.002(6).
[14] Fla. Admin. Code R. 64B8-56.002(2).
[15] The Society for Clinical & Medical Hair Removal, Inc., is an international non-profit organization with members in the United States, Canada, and abroad. The Society for Clinical & Medical Hair Removal offers four certifications through International Commission for Hair Removal Certification (ICHRC) competency-based certification examinations. These certifications enhance the professional growth of members and the Society, and all allied health practitioners, including physicians, electrologists, nurses and others authorized to practice in the jurisdiction in which they practice. *See* The Society of Clinical & Medical Hair Removal, Inc., *Certification* https://www.scmhr.org/certification/ (last visited Feb. 8, 2018).
[16] Department of Health, Licensing and Regulation, Electrolysis, *Laser Information* http://www.floridahealth.gov/licensing-and-regulation/electrolysis/laser/index.html (last visited Feb. 8, 2018).
[17] THE SOCIETY FOR CLINICAL & MEDICAL HAIR REMOVAL, INC., *About Us*, https://www.scmhr.org/ (last visited Feb. 20, 2018).

members.[18] Certification that is obtained by passing the test lasts for five years, at which time either taking continuing education units (7.5 units at $25 per[19]) or a reexamination is required to renew.[20] Membership costs $195 annually.[21] Currently, Florida electrologists using laser or light-based devices do not need to renew or maintain such certification to continue to use such devices.[22]

If a licensee violates the Electrology Practice Act, he or she can be disciplined[23] and be given penalties set forth in s. 456.072, F.S., which include suspension, probation, fines, reprimands, refunds, and remedial education.[24]

There are currently 1,329 active electrologist licenses, and 310 licensed electrolysis facilities, in Florida. The department does not distinguish in its reporting between those electrologists certified and those not certified in the use of lasers or pulse-light devices.[25]

III. Effect of Proposed Changes:

The bill eliminates the EC and its oversight of the practice of electrology. The board is solely responsible for regulating the practice of electrology.

The definition of "electrolysis or electrology" is revised to reflect technological advancements; removing reference to the permanent removal of hair by destroying the hair-producing cells of the skin and vascular system from the definition. The bill defines "electrolysis or electrology" as the permanent removal of hair using equipment and devices that have been cleared by and registered with the FDA and that are used pursuant to protocols approved by the board.

The bill requires a licensed electrologist who uses a laser or pulsed-light device in a laser hair removal or reduction procedure must be certified by a nationally recognized electrology organization in the use of these devices.

The bill conforms changes in assigned responsibilities or authorizations to reflect that the EC is eliminated and the board is solely responsible for regulating the practice of electrology.

The bill takes effect October 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill will increase costs on individuals to maintain an electrology license for those who use laser and pulsed-light devices because the licensee will have to maintain their SCMHR certification and pay costs associated with doing so every five years. Current policy is that after initial certification, licensees are not required to maintain CME certification to practice or renew licensure.

C. Government Sector Impact:

The department may incur costs related to rulemaking to remove the EC's regulation of the practice of electrology. According to the department, current resources are adequate to absorb these costs.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 478.42, 478.43, 478.45, 478.49, 478.50, 478.52, and 478.53.

The bill repeals section 478.44 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on March 2, 2018:
The committee substitute:

- Restores the board's oversight of electrology but maintains elimination of the Electrolysis Council;
- Revises the definition of electrolysis/electrology;
- Removes language from the medical practice acts which requires electrologists and other licensees to be directly supervised by a physician during laser and light-based hair removal procedures;
- Restores department's authority to issue a temporary permit prior to issuing an electrologist license; and
- Deletes one year phase out provision for valid permits in good standing that exist on the effective date of the bill.

CS by Health Policy February 13, 2018:
The committee substitute:

- Retains the regulation of electrology in the department through the Division of Medical Quality Assurance, rather than transferring it to the Department of Business and Professional Regulation;
- References the direct physician supervision requirements;
- Provides a one year phase out for valid permits in good standing that exist on the effective date of the bill; and
- Preserves the electrology rules in place unless they are changed by the department or superseded by other laws.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

128446

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
03/02/2018	.	
	.	
	.	
	.	

The Committee on Appropriations (Grimsley) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Section 478.42, Florida Statutes, is amended to read:

478.42 Definitions.—As used in this chapter, the term:

(1) "Board" means the Board of Medicine.

~~(2) "Council" means the Electrolysis Council.~~

(2)~~(3)~~ "Department" means the Department of Health.

(3) ~~(4)~~ "Electrologist" means a person who engages in the practice of electrolysis.

(4) ~~(5)~~ "Electrolysis or electrology" means the permanent removal of hair ~~by destroying the hair-producing cells of the skin and vascular system,~~ using equipment and devices approved by the board which have been cleared by and registered with the United States Food and Drug Administration and that are used pursuant to protocols approved by the board.

Section 2. Section 478.43, Florida Statutes, is amended to read:

478.43 Board of Medicine; powers and duties.—

(1) The board~~, with the assistance of the Electrolysis Council,~~ is authorized to establish minimum standards for the delivery of electrolysis services and to adopt rules pursuant to ss. 120.536(1) and 120.54 to implement the provisions of this chapter.

(2) The board may administer oaths, summon witnesses, and take testimony in all matters relating to its duties under this chapter.

~~(3) The board may delegate such powers and duties to the council as it may deem proper.~~

(3) ~~(4)~~ The board~~, in consultation with the council, shall recommend proposed rules, and the board~~ shall adopt rules for a code of ethics for electrologists and rules related to the curriculum and approval of electrolysis training programs, sanitary guidelines, the delivery of electrolysis services, continuing education requirements, and any other area related to the practice of electrology.

Section 3. Section 478.44, Florida Statutes, is repealed.

Section 4. Subsections (2), (3), and (6) of section 478.45, Florida Statutes, are amended to read:

478.45 Requirements for licensure.—

(2) Each applicant for licensure must ~~shall~~ successfully pass a written examination developed by the department or a national examination that has been approved by the board. The examinations must ~~shall~~ test the applicant's knowledge relating to the practice of electrology, including the applicant's professional skills and judgment in the use of electrolysis techniques and methods, and any other subjects that ~~which~~ are useful to determine the applicant's fitness to practice.

(3) The department, upon approval of the board, may adopt a national examination in lieu of any part of the examination required by this section. The board~~, with the assistance of the council,~~ shall establish standards for acceptable performance.

(6) The department may not issue a license to any applicant who is under investigation in another jurisdiction for an offense that ~~which~~ would be a violation of this chapter, until such investigation is complete. Upon completion of such investigation, if the applicant is found guilty of such offense, the board shall apply the applicable provisions of s. 478.52.

Section 5. Section 478.49, Florida Statutes, is amended to read:

478.49 License required.—

(1) A person may not ~~No person may~~ practice electrology or hold herself or himself out as an electrologist in this state unless she or he ~~the person~~ has been issued a license by the department and holds an active license pursuant to ~~the requirements of~~ this chapter.

(2) A licensee shall display her or his license in a conspicuous location in her or his place of practice and provide it to the department or the board upon request.

(3) A licensee who uses a laser or pulsed-light device in a laser hair removal or reduction procedure must be certified by a nationally recognized electrology organization in the use of such device.

Section 6. Subsection (4) of section 478.50, Florida Statutes, is amended to read:

478.50 Renewal of license; delinquent status; address notification; continuing education requirements.—

(4)(a) An application for license renewal must be accompanied by proof of the successful completion of 20 hours of continuing education courses or proof of successfully passing a reexamination for licensure within the immediately preceding biennium which meets the criteria established by the board. Both the continuing education and reexamination shall contain education on blood-borne diseases.

(b) The board~~, with the assistance of the council,~~ shall approve criteria for, and content of, electrolysis training programs and continuing education courses required for licensure and renewal as set forth in this chapter.

(c) Continuing education programs shall be approved by the board. Applications for approval shall be submitted to the board not less than 60 days or ~~nor~~ more than 360 days before they are held.

Section 7. Paragraph (t) of subsection (1) and subsection (4) of section 478.52, Florida Statutes, is amended to read:

478.52 Disciplinary proceedings.—

128446

(1) The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2):

(t) Practicing or attempting to practice any permanent hair removal except as described in s. 478.42(4) ~~s. 478.42(5)~~.

(4) The board~~, with the assistance of the council,~~ may, by rule, establish guidelines for the disposition of disciplinary cases involving specific types of violations. The guidelines may include minimum and maximum fines, periods of supervision on probation, or conditions upon probation or reissuance of a license.

Section 8. Subsection (6) of section 478.53, Florida Statutes, is amended to read:

478.53 Penalty for violations.—It is a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083, to:

(6) Practice or attempt to practice any permanent hair removal except as described in s. 478.42(4) ~~s. 478.42(5)~~.

Section 9. This act shall take effect October 1, 2018.

================ T I T L E A M E N D M E N T ================

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

An act relating to laser hair removal or reduction; amending s. 478.42, F.S.; revising definitions; repealing s. 478.44, F.S., relating to the Electrolysis Council; amending s. 478.49, F.S.; providing certification requirements for licensed

128446

electrologists who perform laser hair removal or reduction; amending ss. 478.43, 478.45, 478.50, 478.52, and 478.53, F.S.; conforming provisions to changes made by the act; providing an effective date.

By the Committee on Health Policy; and Senator Grimsley

588-03141-18 2018744c1

A bill to be entitled

An act relating to laser hair removal or reduction; amending s. 478.42, F.S.; revising definitions; amending s. 478.43, F.S.; providing rulemaking authority to the Department of Health for regulating electrolysis services; repealing ss. 478.44 and 478.46, F.S., relating to the Electrolysis Council and temporary permits, respectively; providing for the validity of temporary permits previously issued by the Board of Medicine; providing for the expiration of such permits by a specified date, upon the issuance of a license to practice electrology, or upon notice that the applicant failed a written examination; amending s. 478.49, F.S.; providing certification requirements for licensed electrologists who perform laser hair removal or reduction; specifying that licensed electrologists must meet certain direct supervision requirements; providing an exception; amending ss. 478.45, 478.47, 478.50, 478.51, 478.52, 478.53, and 478.55, F.S.; conforming provisions to changes made by the act; specifying that current rules relating to the practice of electrology remain in full force and effect unless revised by the department or superseded by other laws; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 478.42, Florida Statutes, is amended to read:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

588-03141-18 2018744c1

478.42 Definitions.—As used in this chapter, the term:

~~(1) "Board" means the Board of Medicine.~~

~~(2) "Council" means the Electrolysis Council.~~

(1)~~(3)~~ "Department" means the Department of Health.

(2)~~(4)~~ "Electrologist" means a person who engages in the practice of electrolysis.

(3)~~(5)~~ "Electrolysis or electrology" means the permanent removal of hair ~~by destroying the hair-producing cells of the skin and vascular system,~~ using equipment and devices that ~~approved by the board which~~ have been cleared by and registered with the United States Food and Drug Administration ~~and that are used pursuant to protocols approved by the board~~.

Section 2. Section 478.43, Florida Statutes, is amended to read:

478.43 Department ~~Board of Medicine~~; powers and duties.—

(1) The department ~~board, with the assistance of the Electrolysis Council,~~ is authorized to establish minimum standards for the delivery of electrolysis services and to adopt rules pursuant to ss. 120.536(1) and 120.54 to implement the provisions of this chapter.

(2) The department ~~board~~ may administer oaths, summon witnesses, and take testimony in all matters relating to its duties under this chapter.

~~(3) The board may delegate such powers and duties to the council as it may deem proper.~~

(3)~~(4)~~ The department ~~board, in consultation with the council, shall recommend proposed rules, and the board~~ shall adopt ~~rules for a code of ethics for electrologists and~~ rules related to the curriculum and approval of electrolysis training

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

programs, sanitary guidelines, the delivery of electrolysis services, continuing education requirements, and any other area related to the practice of electrology.

Section 3. Section 478.44, Florida Statutes, is repealed.

Section 4. Section 478.46, Florida Statutes, is repealed.

Section 5. A valid temporary permit issued pursuant to s. 478.46, Florida Statutes, before October 1, 2018, remains valid until October 1, 2019, until the applicant receives notice that he or she has failed the written examination required under s. 478.45, Florida Statutes, or until the Department of Health issues the applicant a license to practice electrology, whichever occurs first. If the department has not issued the applicant a license to practice electrology by October 1, 2019, or if the applicant receives notice that he or she has failed the written examination, the applicant's temporary permit is automatically revoked.

Section 6. Section 478.49, Florida Statutes, is amended to read:

478.49 License and certification required.—

(1) A person may not ~~No person may~~ practice electrology or hold herself or himself out as an electrologist in this state unless she or he ~~the person~~ has been issued a license by the department and holds an active license pursuant to ~~the requirements of~~ this chapter.

(2) A licensee shall display her or his license in a conspicuous location in her or his place of practice and provide it to the department ~~or the board~~ upon request.

(3) A licensee who uses a laser or pulsed-light device in a laser hair removal or reduction procedure must be certified by a

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

nationally recognized electrology organization in the use of these devices.

(4) A licensee must follow the direct supervision requirements of ss. 458.348(2) and 459.025(2) unless exempt under s. 458.348(3)(e) or s. 459.025(3)(e).

Section 7. Section 478.45, Florida Statutes, is amended to read:

478.45 Requirements for licensure.—

(1) An applicant applying for licensure as an electrologist shall file a written application, accompanied by the application for licensure fee prescribed in s. 478.55, on a form provided by the department ~~board~~, showing to the satisfaction of the department ~~board~~ that the applicant:

(a) Is at least 18 years old.

(b) Is of good moral character.

(c) Possesses a high school diploma or a high school equivalency diploma.

(d) Has not committed an act in any jurisdiction which would constitute grounds for disciplining an electrologist in this state.

(e) Has successfully completed the academic requirements of an electrolysis training program, not to exceed 120 hours, and the practical application thereof as approved by the department ~~board~~.

(2) Each applicant for licensure must ~~shall~~ successfully pass a written examination developed by the department or a national examination that has been approved by the department ~~board~~. The examinations must ~~shall~~ test the applicant's knowledge relating to the practice of electrology, including the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

applicant's professional skills and judgment in the use of electrolysis techniques and methods, and any other subjects that ~~which~~ are useful to determine the applicant's fitness to practice.

(3) The department~~, upon approval of the board,~~ may adopt a national examination in lieu of any part of the examination required by this section. The department ~~board, with the assistance of the council,~~ shall establish standards for acceptable performance.

(4) The department shall issue a license to practice electrology to any applicant who passes the examination, pays the licensure fee as set forth in s. 478.55, and otherwise meets the requirements of this chapter.

(5) The department shall conduct licensure examinations at least two times a year. The department shall give public notice of the time and place of each examination at least 60 days before it is administered and shall mail notice of such examination to each applicant whose application is timely filed, pursuant to department ~~board~~ rule.

(6) The department may not issue a license to any applicant who is under investigation in another jurisdiction for an offense that ~~which~~ would be a violation of this chapter, until such investigation is complete. Upon completion of such investigation, if the applicant is found guilty of such offense, the department ~~board~~ shall apply the applicable provisions of s. 478.52.

Section 8. Section 478.47, Florida Statutes, is amended to read:

478.47 Licensure by endorsement.—The department shall issue

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

a license by endorsement to any applicant who submits an application and the required fees as set forth in s. 478.55 and who holds an active license or other authority to practice electrology in a jurisdiction whose licensure requirements are determined by the department ~~board~~ to be equivalent to the requirements for licensure in this state.

Section 9. Subsections (2) and (4) of section 478.50, Florida Statutes, are amended to read:

478.50 Renewal of license; delinquent status; address notification; continuing education requirements.—

(2) A license that is not renewed at the end of the biennium prescribed by the department automatically reverts to delinquent status. The department ~~board~~ shall adopt rules establishing procedures, criteria, and fees as set forth in s. 478.55 for reactivation of an inactive license.

(4)(a) An application for license renewal must be accompanied by proof of the successful completion of 20 hours of continuing education courses or proof of successfully passing a reexamination for licensure within the immediately preceding biennium which meets the criteria established by the department ~~board~~. Both the continuing education and reexamination shall contain education on blood-borne diseases.

(b) The department ~~board, with the assistance of the council,~~ shall approve criteria for, and content of, electrolysis training programs and continuing education courses required for licensure and renewal as set forth in this chapter.

(c) Continuing education programs shall be approved by the department ~~board~~. Applications for approval shall be submitted to the department ~~board~~ not less than 60 days or ~~nor~~ more than

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

360 days before they are held.

Section 10. Subsections (2), (3), and (11) of section 478.51, Florida Statutes, are amended to read:

478.51 Electrology facilities; requisites; facility licensure; inspection.—

(2) The facility license shall be displayed in a conspicuous place within the facility and shall be made available upon request of the department ~~or board~~.

(3) The department ~~board~~ shall adopt rules governing the licensure and operations of such facilities, personnel, safety and sanitary requirements, and the licensure application and granting process.

(11) Renewal of license registration for electrology facilities shall be accomplished pursuant to rules adopted by the department ~~board~~.

Section 11. Section 478.52, Florida Statutes, is amended to read:

478.52 Disciplinary proceedings.—

(1) The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2):

(a) Obtaining or attempting to obtain a license by bribery, fraud, or knowing misrepresentation.

(b) Having a license or other authority to deliver electrolysis services revoked, suspended, or otherwise acted against, including denial of licensure, in another jurisdiction.

(c) Being convicted or found guilty of, or entering a plea of nolo contendere to, regardless of adjudication, a crime, in any jurisdiction, which directly relates to the practice of electrology.

(d) Willfully making or filing a false report or record, willfully failing to file a report or record required for electrologists, or willfully impeding or obstructing the filing of a report or record required by this act or inducing another person to do so.

(e) Circulating false, misleading, or deceptive advertising.

(f) Unprofessional conduct, including any departure from, or failure to conform to, acceptable standards related to the delivery of electrolysis services.

(g) Engaging or attempting to engage in the illegal possession, sale, or distribution of any illegal or controlled substance.

(h) Willfully failing to report any known violation of this chapter.

(i) Willfully or repeatedly violating a rule adopted under this chapter, or an order of the ~~board or~~ department previously entered in a disciplinary hearing.

(j) Engaging in the delivery of electrolysis services without an active license.

(k) Employing an unlicensed person to practice electrology.

(l) Failing to perform any statutory or legal obligation placed upon an electrologist.

(m) Accepting and performing professional responsibilities which the licensee knows, or has reason to know, she or he is not competent to perform.

(n) Delegating professional responsibilities to a person the licensee knows, or has reason to know, is unqualified by training, experience, or licensure to perform.

(o) Gross or repeated malpractice or the inability to practice electrology with reasonable skill and safety.

(p) Judicially determined mental incompetency.

(q) Practicing or attempting to practice electrology under a name other than her or his own.

(r) Being unable to practice electrology with reasonable skill and safety because of a mental or physical condition or illness, or the use of alcohol, controlled substances, or any other substance that ~~which~~ impairs one's ability to practice.

1. The department may, upon probable cause, compel a licensee to submit to a mental or physical examination by physicians designated by the department. The cost of an examination shall be borne by the licensee, and her or his failure to submit to such an examination constitutes an admission of the allegations against her or him, consequent upon which a default and a final order may be entered without the taking of testimony or presentation of evidence, unless the failure was due to circumstances beyond her or his control.

2. A licensee who is disciplined under this paragraph shall, at reasonable intervals, be afforded an opportunity to demonstrate that she or he can resume the practice of electrology with reasonable skill and safety.

3. In any proceeding under this paragraph, the record of proceedings or the orders entered by the department ~~board~~ may not be used against a licensee in any other proceeding.

(s) Disclosing the identity of or information about a patient without written permission, except for information which does not identify a patient and which is used for training purposes in an approved electrolysis training program.

(t) Practicing or attempting to practice any permanent hair removal except as described in s. 478.42(3) ~~s. 478.42(5)~~.

(u) Operating any electrolysis facility unless it has been duly licensed as provided in this chapter.

(v) Violating any provision of this chapter or chapter 456, or any rules adopted pursuant thereto.

(2) The department ~~board~~ may enter an order denying licensure, ~~or~~ imposing any of the penalties in s. 456.072(2), or imposing costs as provided in s. 456.072(4) against any applicant for licensure or licensee who is found guilty of violating any provision of subsection (1) of this section or who is found guilty of violating any provision of s. 456.072(1).

(3) The department ~~board~~ may not issue or reinstate a license to a person it has deemed unqualified until it is satisfied that such person has complied with the terms and conditions of the final order and that the licensee can safely practice electrology.

(4) The department ~~board, with the assistance of the council,~~ may, by rule, establish guidelines for the disposition of disciplinary cases involving specific types of violations. The guidelines may include minimum and maximum fines, periods of supervision on probation, or conditions upon probation or reissuance of a license.

Section 12. Subsection (6) of section 478.53, Florida Statutes, is amended to read:

478.53 Penalty for violations.—It is a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083, to:

(6) Practice or attempt to practice any permanent hair

removal except as described in s. 478.42(3) ~~s. 478.42(5)~~.

Section 13. Subsection (1) of section 478.55, Florida Statutes, is amended to read:

478.55 Fees; facility; disposition.—

(1) The department ~~board~~ shall establish by rule the collection of fees for the following purposes:

(a) License application fee: a fee not to exceed $100.

(b) Examination fee: a fee not to exceed $300.

(c) Initial licensure fee: a fee not to exceed $100.

(d) Renewal fee: a fee not to exceed $100 biennially.

(e) Reactivation fee: a fee not to exceed $100.

(f) Inspection fee for facility: a fee not to exceed $100 biennially.

Section 14. Any current rules adopted by the Department of Health, the Board of Medicine, or the Electrolysis Council which relate to the practice of electrology remain in full force and effect unless revised by the Department of Health pursuant to this act or superseded by other laws.

Section 15. This act shall take effect October 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 774
INTRODUCER:	Judiciary Committee; Children, Families, and Elder Affairs Committee; and Senator Bean
SUBJECT:	Dependency Proceedings
DATE:	February 26, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Preston	Hendon	CF	**Fav/CS**
2.	Tulloch	Cibula	JU	**Fav/CS**
3.	Sneed	Hansen	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 774 provides that, in private adoptions, the adoption entity conducting the preliminary home study is responsible for determining the counseling and educational needs of the adoptive parents.

The bill clarifies that the training mandated by the Department of Children and Families (DCF) for foster families applies only when children are being adopted from the department and does not apply to private adoptions.

The bill also requires that the DCF provide a copy of its record check from the central abuse registry to the adoption entity conducting the preliminary home study of the adoptive parents.

The bill has no fiscal impact on state government.

The bill is effective July 1, 2018.

II. Present Situation:

Section 63.092(3), F.S., requires prospective adoptive parents in private adoption proceedings to undergo a preliminary home study to determine their suitability as adoptive parents.[1] A DCF-licensed child-placing agency or child-caring agency generally conducts the preliminary home study, which includes, among other things, a records check of the prospective parents in DCF's central abuse registry and counseling and education of the intended adoptive parents on adoptive parenting.[2]

Currently, the statute does not require the results of the DCF record check to be given directly to the entity conducting the preliminary home study. This provision also does not specify what the counseling and education requirements are for prospective adoptive parents in private proceedings; however, the DCF imposes the same training requirements it uses for licensing and training prospective foster care parents and emergency shelter parents pursuant to s. 407.175, F.S.[3] This training is designed to prepare prospective foster care parents and emergency shelter parents for the unique difficulties they will have to face when caring for children in dependency proceedings with a history of abuse, neglect, or prior placement disruptions.[4]

III. Effect of Proposed Changes:

Section 1 amends s. 63.092(3), F.S., relating to the requirements of preliminary home studies of intended adoptive parents, to:

- Require the DCF to provide records checks of its central abuse registry directly to the adoption entity conducting the home study, to ensure integrity of the results and protect the best interest of the child being placed for adoption, and
- Allow licensed adoption agencies in private adoptions to use their professional judgement to determine the appropriate counseling and education for the intended adoptive parents. The bill exempts adoptive parents in private adoptions from the training requirements in s. 409.175(14), F.S.

Section 2 provides an effective date of October 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

[1] Section 63.092(3), F.S.
[2] *Id.*
[3] Rules 65C-15.028, 65C-16.005(4), and 65C-13.024, F.A.C; and s. 409.175(14), F.S.
[4] Section 409.175(14), F.S. One of the training requirements for these parents is 21 hours of preservice training to: orient them; explain their role as a treatment team member; prepare them for issues involved in the transition of a child into and out of foster care and emergency shelter care; teach them to manage difficult child behavior intensified by placement, prior abuse or neglect, or prior placement disruptions; prevent placement disruptions; teach them how to care for children at various developmental levels; and educate them on the effects of foster parenting on their families.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The Department of Children and Families expects no fiscal impact to state government.[5]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

The bill substantially amends s. 63.092 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Judiciary on February 20, 2018:
The committee substitute no longer includes sections 1 through 7 of the underlying bill. These sections imported the more expeditious procedures of the adoption act, ch. 63, F.S., into the dependency law, ch. 39, F.S., for identifying prospective parents or unmarried biological fathers prior to terminating all parental rights.

CS by Children, Families, and Elder Affairs on January 22, 2018:
The amendment does the following:

[5] Dept. of Children & Families, *2018 Agency Legislative Bill Analysis, Senate Bill 774*, (Jan. 29, 2018) (on filed with Senate Judiciary Committee).

- Makes a number of technical and conforming changes including replacing the term "individually served" with the term "personally served" and replacing the term "alleged parent" with the term "prospective parent."
- Requires certain records check of the Department of Children and Families' Central Abuse Registry be provided directly to the entity conducting the home study to ensure the integrity of the results and protect the best interest of children being placed for adoption; and
- Allows licensed adoption agencies to use their professional judgement to determine the appropriate counseling and education, dependent upon the type of adoption and the child being adopted.
- Removes the provision that allows the community-based lead care agencies to receive credit for specified adoptions.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committees on Judiciary; and Children, Families, and Elder Affairs; and Senator Bean

590-03466-18 2018774c2

A bill to be entitled

An act relating to dependency proceedings; amending s. 63.092, F.S.; requiring the Department of Children and Families to provide specified records to entities conducting preliminary home studies; limiting certain training requirements to persons who adopt children from the department; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (3) of section 63.092, Florida Statutes, is amended to read:

63.092 Report to the court of intended placement by an adoption entity; at-risk placement; preliminary study.—

(3) PRELIMINARY HOME STUDY.—Before placing the minor in the intended adoptive home, a preliminary home study must be performed by a licensed child-placing agency, a child-caring agency registered under s. 409.176, a licensed professional, or an agency described in s. 61.20(2), unless the adoptee is an adult or the petitioner is a stepparent or a relative. If the adoptee is an adult or the petitioner is a stepparent or a relative, a preliminary home study may be required by the court for good cause shown. The department is required to perform the preliminary home study only if there is no licensed child-placing agency, child-caring agency registered under s. 409.176, licensed professional, or agency described in s. 61.20(2), in the county where the prospective adoptive parents reside. The preliminary home study must be made to determine the suitability of the intended adoptive parents and may be completed prior to

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Florida Senate - 2018 CS for CS for SB 774

590-03466-18 2018774c2

identification of a prospective adoptive minor. A favorable preliminary home study is valid for 1 year after the date of its completion. Upon its completion, a signed copy of the home study must be provided to the intended adoptive parents who were the subject of the home study. A minor may not be placed in an intended adoptive home before a favorable preliminary home study is completed unless the adoptive home is also a licensed foster home under s. 409.175. The preliminary home study must include, at a minimum:

(a) An interview with the intended adoptive parents;

(b) Records checks of the department's central abuse registry, which the department shall provide to the entity conducting the preliminary home study, and criminal records correspondence checks under s. 39.0138 through the Department of Law Enforcement on the intended adoptive parents;

(c) An assessment of the physical environment of the home;

(d) A determination of the financial security of the intended adoptive parents;

(e) Documentation of counseling and education of the intended adoptive parents on adoptive parenting as determined by the entity conducting the preliminary home study. The training specified in s. 409.175(14) shall only be required for persons who adopt children from the department;

(f) Documentation that information on adoption and the adoption process has been provided to the intended adoptive parents;

(g) Documentation that information on support services available in the community has been provided to the intended adoptive parents; and

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(h) A copy of each signed acknowledgment of receipt of disclosure required by s. 63.085.

If the preliminary home study is favorable, a minor may be placed in the home pending entry of the judgment of adoption. A minor may not be placed in the home if the preliminary home study is unfavorable. If the preliminary home study is unfavorable, the adoption entity may, within 20 days after receipt of a copy of the written recommendation, petition the court to determine the suitability of the intended adoptive home. A determination as to suitability under this subsection does not act as a presumption of suitability at the final hearing. In determining the suitability of the intended adoptive home, the court must consider the totality of the circumstances in the home. A minor may not be placed in a home in which there resides any person determined by the court to be a sexual predator as defined in s. 775.21 or to have been convicted of an offense listed in s. 63.089(4)(b)2.

Section 2. This act shall take effect October 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 784
INTRODUCER:	Judiciary Committee; Banking and Insurance Committee; and Senator Brandes
SUBJECT:	Insurance
DATE:	March 1, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Billmeier	Knudson	BI	**Fav/CS**
2.	Stallard	Cibula	JU	**Fav/CS**
3.	Sanders	Hansen	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 784 amends numerous provisions of the Florida Insurance Code. This bill:

- Exempts foreign insurers (insurers domiciled in another state) from certain regulations regarding insurer's investments, including regulations on the valuation of those investments, and sets forth alternative regulations in these areas;
- Adds two categories of persons to the list of individuals who are not required to take the examination to become an all-lines insurance adjuster, namely a person certified as a Claims Adjuster Certified Professional from WebCE, Inc. and a person who has a designation similar to one of those set forth in statute and who meets the other requirements;
- Repeals a requirement that surplus lines insurers request eligibility from the Florida Surplus Lines Service Office;
- Provides a uniform surplus lines tax of 4.936 percent;
- Updates the requirement that the rules of the Department of Financial Services (DFS) and the Financial Services Commission relating to insurers' use of insureds' private information comport with the Gramm-Leach-Bliley Act, specifying that the rules must be consistent with the amended version of the Act;
- Provides that an insurer may issue an insurance policy without it being signed by one of its officers, attorneys in fact, employees, or duly authorized representatives;
- Requires that a notice of policy change sent in advance of a renewal include a summary of the changes;
- Permits a third party, as an assignee of policy benefits, to request mediation, but also permits an insurer to not attend a mediation request by the third party;

- Allows motor vehicle insurers to use the Intelligent Mail barcode, or similar method approved by the United States Postal Service, to document proof of mailing of certain required notices;
- Expands the confidentiality of documents submitted to the OIR under Own-Risk and Solvency Assessment requirements to make them inadmissible as evidence in any private civil action, regardless of from whom they were obtained;
- Revises unearned premium reserve requirements for reciprocal insurers; and
- Allows for electronic posting of certain policy information by health maintenance organizations and motor vehicle service agreement companies.

This bill does not affect state funds or expenditures.

The bill is effective upon becoming law.

II. Present Situation:

This bill addresses a number of issues related to insurance.

Foreign Insurers (Sections 1 and 2)

Chapter 625, F.S., regulates the financial affairs of insurers admitted in Florida. Sections 625.151 and 625.325, F.S., govern the valuation of securities other than bonds and limit an insurer's ability to invest in its subsidiaries and related corporations. If the insurer's surplus including investments in subsidiaries does not exceed $100 million, shall be valued in an amount in which the aggregate does not exceed the lesser of:

- Ten percent of the insurer's admitted assets; or
- Fifty percent of the insurer's surplus in excess of the minimum required surplus.[1]

If the surplus of an insurer, including investments in subsidiaries, is $100 million or more, investments in subsidiaries and related corporations shall be valued in an amount in which the aggregate does not exceed 25 percent of the insurer's admitted assets.[2]

The investment portfolio of a foreign or alien insurer shall be as permitted by the laws of its domicile if of a quality substantially as high as that required for similar funds of like domestic insurers.[3]

Insurance Adjuster Licensure Examination (Section 3)

An adjuster is an individual employed by an insurer to evaluate losses and settle policyholder claims.[4] An adjuster may be licensed as either an "all-lines adjuster" or a "public adjuster."[5] An all-lines adjuster "is a person who, for money, commission, or any other thing of value, directly

[5] Section 626.864, F.S.

or indirectly undertakes on behalf of a public adjuster or an insurer to ascertain and determine the amount of any claim, loss, or damage payable under an insurance contract or undertakes to effect settlement of such claim, loss, or damage."[6] Subject to certain exceptions, a public adjuster is someone that is paid by an insured to prepare and file a claim against his or her insurer.[7]

Among other requirements, an applicant must pass an examination to obtain an adjuster's license; however, the examination requirement is waived if the applicant has attained certain professional designations that document their successful completion of professional education coursework. An examination is not required for all-lines adjuster applicants with the following professional designations:

- Accredited Claims Adjuster (ACA) from a regionally accredited postsecondary institution in this state;
- Associate in Claims (AIC) from the Insurance Institute of America;
- Professional Claims Adjuster (PCA) from the Professional Career Institute;
- Professional Property Insurance Adjuster (PPIA) from the HurriClaim Training Academy;
- Certified Adjuster (CA) from ALL LINES Training;
- Certified Claims Adjuster (CCA) from AE21 Incorporated; or
- Universal Claims Certification (UCC) from Claims and Litigation Management Alliance (CLM).

The DFS must approve the curriculum, which must include comprehensive analysis of basic property and casualty lines of insurance and testing at least equal to that of standard department testing for the all-lines adjuster license.[8] The curriculum must include 40 hours of instruction covering all of the topics in the all-lines adjuster Examination Content Outline adopted by the DFS.[9] The DFS only approves curriculum related to adjuster licensing for designations listed in s. 626.221(2)(j), F.S.

WebCE, Inc., is a national provider of professional and continuing educational courses.[10] They provide education related to multiple professions, including insurance, financial planning, accounting, and taxation. Participants can obtain the following professional designations from WebCE, Inc.: Certified Financial Planner (CFP), Certified Investment Management Analyst (CIMA), Certified Private Wealth Advisor (CPWA), and Certified Fraud Examiner (CFE). WebCE, Inc., provides continuing education to insurance professionals with courses in subjects of life and health, property and casualty, adjuster, and limited lines.

Surplus Lines Insurance (Sections 4 and 5)

Surplus lines insurance refers to insurance coverage that is not available from insurers licensed in the state, called admitted companies, and must be purchased from a non-admitted carrier. Examples include risks of an unusual nature that require greater flexibility in policy terms and conditions than exist in standard forms or where the highest rates allowed by state regulators are

[10] See WebCE.com for more information about the continuing education and CPE courses that it offers.

considered inadequate by admitted companies.[11] Surplus lines insurance agents sell surplus lines insurance.

Surplus Lines Insurer Registration

In the past, for a surplus lines insurer to become eligible to underwrite insurance risks in this state, the Florida Surplus Lines Service Office (FSLSO)[12] had to file a written request with the Office of Insurance Regulation (OIR) on the underwriter's behalf. However, subsequent to the adoption of this requirement, Congress passed the Nonadmitted and Reinsurance Reform Act of 2010 (NRRA).[13] The NRRA requires the eligibility of surplus lines insurers to be determined in compliance with its criteria, unless the state has adopted nationwide uniform eligibility requirements.[14] The OIR has implemented such eligibility determination standards that may be accessed directly by interested surplus lines insurers. Accordingly, surplus lines insurers apply directly to the OIR rather than having the FSLSO make the written request. The statute requiring such a written request by the FSLSO[15] has become superfluous because it conflicts with the NRRA and is no longer implemented.

Surplus Lines Premium Tax

Surplus lines policies are taxed at five percent of all gross premiums.[16] However, a surplus lines policy written in Florida may cover risks that are only partially located in this state. This is because the insured's business, property, or other risks cross state lines. Because not all states use gross premiums as the taxable base nor use the same tax rate, this can lead to disparities in cost associated with the applicable premium tax law of other states. Florida law provides that, if Florida is the "home" state, as defined in the NRRA, the tax is computed on the gross premium to facilitate uniform application of the tax rate to the gross premiums paid on multi-state risks.[17] The law also provides that the surplus lines premium tax is limited to the tax rate in the state where the risk is located. This can result in an effective tax rate on total taxable premiums that is lower than the statutory five percent.

Privacy Disclosures (Section 6)

The Department of Financial Services (DFS) and the Financial Services Commission (Commission) are required to adopt rules governing the use of a consumer's non-public personal financial and health information by regulated entities. The rules must be consistent with and not more restrictive than the requirements of Title V of the Gramm-Leach-Bliley Act of 1999. However, in December 2015, the Gramm-Leach-Bliley Act was amended by the Fixing America's Surface Transportation (FAST) Act, Public Law No. 114-94.

[16] Section 626.932(1), F.S.
[17] Section 626.932(3), F.S.

Execution of Policies (Section 7)

Every insurance policy shall be executed in the name of and on behalf of the insurer by its officer, attorney in fact, employee, or representative duly authorized by the insurer. The person executing the policy must sign the policy, with either an original signature or a facsimile signature.[18] However, insurer representatives have suggested it would be more efficient to allow policies to be issued without a signature as long as consumer protections remain in place.

Notice of Change in Policy Terms (Section 8)

An insurer may not change policy terms at renewal unless the insurer issues advance written notice of the change in policy terms.[19] However, the notice may not be used to add optional coverages that increase premium, unless the policyholder affirmatively accepts the optional coverage.[20] The notice is required to be titled a "Notice of Change in Policy Terms." However, there is no explicit requirement for any other specific content of the notice. Therefore, it is arguable that a bare notice with the title "Notice of Change in Policy Terms" and containing no meaningful explanation of the change in policy terms complies with the law.

A change in policy terms includes the modification, addition, or deletion of any term, coverage, duty, or condition from the previous policy, not including typographical or scrivener's errors or the application of mandated legislative changes.[21]

If the insurer fails to issue the advance written notice, coverage under the old terms continues until the earlier of the next renewal with proper service of notice or replacement coverage is obtained by the policyholder.

Mediation through the DFS (Section 9)

The statutes set forth a mediation program for claims under personal lines and commercial residential property insurance policies. Mediation may be requested only by the policyholder, as a first-party claimant, or the insurer. The insurer must pay the costs of the mediation. If a settlement agreement is reached and is not rescinded, it is binding and acts as a release of all specific claims that were presented in that mediation conference.[22]

Issues have arisen over whether an assignee of policy benefits, such as vendor or contractor, is allowed to request mediation through the DFS program.

Proof of Mailing (Section 10)

Current law requires motor vehicle insurers to mail a notice of cancellation or non-renewal to the first named insured on the policy and the applicable insurance agent at least 45 days prior to the effective date of the cancellation or non-renewal. However, in the case of a cancellation or non-

renewal based on a non-payment of premium, only a 10-day notice is required. For each of these required notices the insurer must use United States postal proof of mailing, certified mail, or registered mail.[23] However, current law does not provide for use of the United States Postal Service tracking system known as "intelligent mail barcode."[24]

Bonds for Construction Contracts (Sections 11 and 12)

Under Florida law, there are generally two ways a contractor, subcontractor, materialman, or laborer may help secure or guarantee payment for work performed on a construction project. The first is by filing a lien against the owner's property.

The second way of helping to secure or guarantee payment for work on a construction project is by filing a claim against a payment bond. A "payment bond" is "[a] bond given by a surety to cover any amounts that, because of the general contractor's default, are not paid to a subcontractor or materials supplier."[25] In Florida, a surety issuing a contract bond, such as a payment bond, is treated as an insurer and regulated by the Insurance Code (Code).[26]

Surety insurers[27] that issue construction bonds are governed by the Code.[28] Under the Code, owners, subcontractors, laborers, or materialmen are deemed insureds or beneficiaries of a construction bond.[29] If an insured or beneficiary must bring a lawsuit against a surety insurer to force payment under the construction bond and prevails, the insured or beneficiary is entitled to attorney's fees under s. 627.428, F.S. However, contractors are not deemed insureds or beneficiaries for purposes of s. 627.756, F.S., and therefore may not recover attorney fees if they file a lawsuit to recover against a payment bond.

Filing Exception for Specialty Insurers (Section 13)

In 2014, the Legislature passed CS/CS/SB 1308,[30] which implemented elements of model legislation developed by the National Association of Insurance Commissioners (NAIC) related to risk-based capital, holding company systems, standard valuation, and actuarial opinions and memoranda. This was primarily in response to the financial crisis of 2008. A contributing factor of the financial crisis was common ownership and control of insurance and financial services companies, such that when one company became financially troubled or insolvent, the value and solvency of related companies also became affected. This led regulators to have an interest in

[29] Section 627.756(1), F.S.
[30] Ch. 2014-101, Laws of Fla.

knowing and understanding the web of controlling interests among related companies. This legislation created a presumption of control in certain interests and acquisitions among related companies.

The 2014 bill allowed insurers to overcome the presumption of control by either filing a disclaimer of control on a form prescribed by the OIR or by providing a copy of the applicable Schedule 13G on file with the federal Securities and Exchange Commission (SEC).

After a disclaimer is filed, the insurer is relieved of any further duty to register or report under s. 628.461, F.S., unless the OIR disallows the disclaimer. Specialty insurers must meet similar requirements addressing solvency and organizational risk controls as those created for insurers; however, they do not have the option of filing their SEC Schedule 13G to rebut the presumption of control.

Specialty insurers are defined as:[31]
- Motor vehicle service agreement companies;
- Home warranty associations;
- Service warranty associations;
- Prepaid limited health service organizations;
- Authorized health maintenance organizations;
- Authorized prepaid health clinics;
- Legal expense insurance corporations;
- Providers licensed to operate a facility that undertakes to provide continuing care;
- Multiple-employer welfare arrangements;
- Premium finance companies; and
- Corporations authorized to accept donor annuity agreements.

Own-Risk and Solvency Assessment (Section 14)

The Risk Management and Own Risk and Solvency Assessment (ORSA) Model Act by the NAIC requires insurers to conduct their own internal assessment of all reasonably foreseeable and relevant material risks (e.g., underwriting, credit, market) potentially affecting their ability to meet policyholder obligations. This information provides regulators with a more comprehensive view of the ability of an insurer to withstand financial stress. Florida adopted portions of the model act in 2016.[32]

Pursuant to these provisions, insurers or insurance groups must:
- Maintain a risk management framework for identifying, assessing, monitoring, managing, and reporting on its material, relevant risks;
- Conduct an ORSA at least annually (and whenever there have been significant changes to the risk profile of the insurer or the insurance group);
- File an ORSA summary report with the appropriate regulator; and
- File a corporate governance annual disclosure with the OIR.[33]

[31] Section 627.4615(1), F.S.
[32] Ch. 2016-206, Laws of Fla.
[33] Section 628.8015, F.S.

ORSA documents and corporate governance reports are generally exempt from disclosure as public records.[34] In addition, the filings and related documents are privileged such that they may not be produced in response to a subpoena or other discovery directed to the OIR. Also, if any of these filings and related documents are obtained from the OIR, they are nonetheless inadmissible in evidence in any private civil action.[35]

Reciprocal Insurance Reserve Requirements (Section 15)

Reciprocal insurance is an alternative to traditional insurance. The fundamental difference between reciprocal and traditional insurance is that in reciprocal insurance arrangements, the "subscribers" bear the risk instead of an insurance company. Subscribers' premiums are paid into a fund from which claims are drawn. Moreover, each subscriber's liability is limited to its premium.[36] There are currently four companies active in Florida and licensed as reciprocal insurers under s. 629.401, F.S.[37]

The statutes define reciprocal insurance as insurance "resulting from an interexchange among persons, known as 'subscribers,' of reciprocal agreements of indemnity, the interexchange being effectuated through an 'attorney in fact' common to all such persons."[38] The rights and powers of the attorney in fact are as provided in the power of attorney given to it by the subscribers.[39] "In general, the attorney in fact manages the reciprocal's finances and handles underwriting, claims administration and investments."[40]

Twenty-five or more persons domiciled in Florida may organize a domestic reciprocal insurer and apply to the OIR for authority to transact insurance.[41] Reciprocal insurers may transact any kind of insurance other than life insurance or title insurance.[42]

Reciprocal insurers offering property insurance are required to maintain an unearned premium reserve consistent with the requirement generally applicable to property insurers under the Code.[43] An unearned premium reserve is a fund comprised of premium money that has been paid by subscribers but is not yet due, or earned, by the insurer. For example, if a subscriber's policy required him or her to pay $1,000 in premiums for year one of the policy, that sum was paid in full at the beginning of the year, and if he or she was six months into the first year, then there would be $500 in unearned premiums held by the insurer.[44]

[39] Sections 629.101, F.S.
[40] *See* Kevin Moriarty, *Twenty Things You'd Always Wanted to Know about Reciprocals (But May Not Have Thought to Ask)*, THE RISK RETENTION REPORTER, July 2003.
[41] Section 629.081(1), F.S.
[42] Section 629.041(1), F.S.
[43] *See* ss. 625.051 and 629.041(6)(b), F.S.
[44] *See* INVESTOPEDIA, *Unearned Premium* https://www.investopedia.com/terms/u/unearned-premium.asp (last visited Feb. 15, 2018)

This reserve requirement ensures the availability of funds for transfer to loss reserves when losses are incurred during the policy period or refunds that become due before the premium is earned, among other things. Premiums ceded to reinsurers for the purchase of reinsurance may be deducted from unearned premiums.

Section 625.051, F.S., requires property insurers to retain unearned premiums on reserve in the following proportions based upon the length of the policy period, as follows:

Policy Term	Proportion Required to be Reserved	
One year or less		1/2
Two years	1st year	3/4
	2nd year	1/4
Three years	1st year	5/6
	2nd year	1/2
	3rd year	1/6
Four years	1st year	7/8
	2nd year	5/8
	3rd year	3/8
	4th year	1/8
Five years	1st year	9/10
	2nd year	7/10
	3rd year	1/2
	4th year	3/10
	5th year	1/10
Over five years		pro rata

In the alternative, insurers are allowed to calculate unearned premium reserves on a monthly or more frequent pro rata basis.[45] Reciprocal insurers must calculate unearned premium reserves on a monthly or more frequent basis.[46]

The NAIC has developed a model act for regulation of reciprocals. Section 7, Reserves, of the NAIC Model Act 356, Model Indemnity Contracts Act,[47] provides for an unearned premium reserve, as follows:

> There shall at all times be maintained as a reserve a sum in cash or convertible securities equal to fifty percent (50%) of the net annual deposits collected and credited to the accounts of the subscribers on policies having one year or less to run and pro rata on those for longer

[45] Section 625.051(3), F.S.
[46] Section 629.401(6)(b)24., F.S.
[47] National Association of Insurance Commissioners, *Model Indemnity Contracts Act*, http://www.naic.org/store/free/MDL-356.pdf (last visited February 7, 2018).

> periods. Net annual deposits shall be construed to mean the advance payments of subscribers after deducting the amounts specifically provided in the subscribers' agreements, for expenses. The sum shall at no time be less than $25,000, and if at any time fifty percent (50%) of the deposits so collected and credited shall not equal that amount, then the subscribers, or their attorney for them, shall make up any deficiency.

Delivery of Policies by Motor Vehicle Service Agreement Companies and Health Maintenance Organizations (Sections 16 and 17)

The law requires most insurance policies[48] to be mailed or delivered to the insured (policyholder) within 60 days after the insurance takes effect.[49] Insurance policies are typically only delivered when the policy is issued and are not delivered each time the policy is renewed.

Insurers are allowed to post property or casualty insurance policies not containing policyholder personal identifiable information on the insurer's website instead of mailing or delivering the policy to the insured. Casualty insurance includes automobile policies, workers' compensation policies, liability policies, and malpractice policies, among others.[50] Property insurance policies include homeowner's, tenant's, condominium unit owner's, mobile home owner's, condominium association, and commercial business property insurance policies.[51]

If an insurer opts to post an insurance policy online instead of mailing it, the policy must be easily accessible on the insurer's website and posted in a format that allows the policy to be printed by the policyholder free of charge. Insurers posting policies on their website must notify each policyholder of his or her right to request and obtain a paper or electronic copy of the policy without charge, but policyholder consent is not required for an insurer to post an insurance policy online. Insurers must also notify policyholders of this right if the insurer changes a policy. Furthermore, insurers posting policies online must archive expired policies for five years on the insurer's website and archived policies must be available to policyholders at their request.

III. Effect of Proposed Changes:

Foreign Insurers (Sections 1 and 2)

Section 1 amends s. 625.151, F.S., to provide that the valuation requirements do not apply to stock of a subsidiary corporation or related entities of a foreign insurer if the stock meets the valuation requirements under the laws of that insurer's state of domicile and if that state is a member of the National Association of Insurance Commissioners (NAIC).

Section 2 amends s. 625.325, F.S., to exempt foreign insurers, under certain circumstances, from the restrictions on insurers' investments in their subsidiaries.

[48] Section 627.402, F.S., defines policy to include endorsements, riders, and clauses.
[49] Section 627.421, F.S.
[50] Section 624.605, F.S.
[51] Sections 624.604 and 627.4025, F.S.

Section 625.325, F.S., in general terms, prohibits insurers from investing too heavily in their subsidiaries. This section exempts a foreign insurer from these restrictions if the insurer is domiciled in a NAIC member state, and the investments are permitted under the laws of the insurer's state of domicile and:

- Are assigned a rating of one, two or three by the NAIC's Securities Valuation Office; or
- Qualify for the NAIC's exemption rule and are assigned a rating by a nationally recognized statistical rating organization that would be equivalent to a rating of one, two or three by the NAIC's Securities Valuation Office.

The Office of Insurance Regulation (OIR) asserts "[l]owering Florida's investment limitation standards to those of the domiciliary state would reduce protection for Florida policyholders and weaken effective solvency regulation."[52]

The Securities Valuation Office (SVO) is responsible for the day-to-day credit quality assessment and valuation of securities owned by state regulated insurance companies. The SVO conducts credit analysis on these securities for the purpose of assigning an NAIC designation. These designations are produced for the benefit of NAIC members who may use them as part of the member's monitoring of the financial condition of its domiciliary insurers.[53] An NAIC rating of one means the obligation should be eligible for the most favorable treatment provided under the NAIC Financial Conditions Framework. An NAIC rating of two means that credit risk is low but may increase in the intermediate future and the issuer's credit profile are reasonably stable. It should be eligible for relatively favorable treatment under the NAIC Financial Conditions Framework. A rating of three is assigned to obligations of medium quality. Credit risk is intermediate. Ratings of four, five and six means the obligations are low quality.[54]

Nationally recognized statistical rating organizations (NRSRO) are credit rating agencies that provide an assessment of the creditworthiness of a company or a financial instrument. In 2006, Congress provided the Securities and Exchange Commission (SEC) with the authority to establish a registration and oversight program for credit rating agencies registered as NRSROs.[55] The NRSROs registered with the SEC are:

- A.M. Best Rating Services, Inc.
- DBRS, Inc.
- Egan-Jones Ratings Co.
- Fitch Ratings, Inc.
- HR Ratings de México, S.A. de C.V.
- Japan Credit Rating Agency, Ltd.
- Kroll Bond Rating Agency, Inc.

Insurance Adjuster Licensure Examination (Section 3)

Section 3 amends s. 626.221, F.S., to exempt a person who receives a Claims Adjuster Certified Professional (CACP) designation from WebCE, Inc., from the all-lines adjuster licensing exam requirement. The bill also authorizes the Department of Financial Services (DFS) to accept similar designations from similar entities to those listed in the statute for purposes for the examination exemption.

Surplus Lines Insurance (Sections 4 and 5)

Section 4 repeals s. 626.918(2)(a), F.S., which currently requires an unauthorized insurer that desires to become eligible as a surplus lines insurer to request eligibility from the Florida Surplus Lines Surplus Officer.

Section 5 amends s. 626.932, F.S., to lower the surplus lines premium tax rate to 4.936 percent instead of the current five percent. It allows the tax to exceed the tax rate where the risk or exposure is located.

Privacy Disclosures (Section 6)

Current law requires the DFS to develop rules governing the use of a consumer's nonpublic personal financial and health information. In addition to other requirements for these rules, they must be consistent with the standards contained in Title V of the Gramm-Leach-Bliley Act of 1999. This act has since been amended, namely in Title LXXV of the Fixing America's Surface Transportation (FAST) Act.

Section 6 amends s. 626.9651, F.S., and specifies that the privacy rules developed by the DFS must be consistent with the amendments made by the FAST Act. Title LXXV of the FAST Act provides that companies that have not made changes to certain privacy policies are not required to send an annual notice of changes. If changes are made, the companies must notify customers.

Execution of Insurance Policies (Section 7)

Section 7 amends s. 627.416, F.S., to provide that an insurer may elect to issue an insurance policy without it being executed by one of its officers, attorneys in fact, employees, or duly authorized representatives. If such a policy is issued, it is not invalid despite not being executed.

Notice of Change in Policy Terms (Section 8)

Under current law, a policy that is being renewed may contain a change in policy terms, in which case the insurer must give the insured advance written "notice" of the change. However, this notice is not explicitly required to contain any summary or explanation of the change. **Section 8**

[56] *Id*. The chart containing ratings equivalent to SVO ratings is found here: http://www.naic.org/documents/svo_naic_aro.pdf (last visited Feb. 15, 2018).

amends s. 627.43141, F.S., to require that this notice contain a summary of the changes and must be entitled "Notice of Change in Policy Terms."

Mediation through the DFS (Section 9)

Under current law, mediation on a claim for insurance benefits may be requested by the policyholder, as a first-party claimant, or the insurer. **Section 9** amends s. 627.7015, F.S., to permit a third party, as assignee of policy benefits, to request mediation. However, when mediation is requested by a third party, as assignee of policy benefits, the insurer is not required to participate in the mediation. The bill also makes stylistic changes by replacing the term "insured" with the term "policyholder" in s. 627.7015, F.S. The terms are used interchangeably in this section.

Proof of Mailing (Section 10)

Section 10 amends s. 627.728, F.S., relating to the sufficient proof that a person has received a notice of cancellation, intention not to renew, or of reasons for cancellation, or of the intention of the insurer to issue a policy by an insurer under the same ownership or management. Under current law, United States postal proof of mailing or certified or registered mailing of these items to the first-named insured at the address shown in the policy is sufficient proof of notice. Under this section, an insurer may also show proof of notice by using the Intelligent Mail barcode or other similar tracking method used approved by the USPS.

Bonds for Construction Contracts (Sections 11 and 12)

Section 11 amends s. 627.756(1), F.S., of the Insurance Code to extend the ability to collect attorney's fees against an insurer under s. 627.428(1), F.S., to contractors by also deeming them an insured or beneficiary. This change will apply when a contractor successfully enforces a claim against the bond of a subcontractor that has breached a contract with the contractor. **Section 12** provides that this provision applies to payment or performance bonds issued on or after October 1, 2018.

Specialty Insurers (Section 13)

Section 13 amends s. 628.4615, F.S., to add viatical settlement providers to the list of specialty insurers and allows any specialty insurer to overcome the presumption of control by filing with the OIR a disclaimer of control on an OIR form or a copy of their SEC Schedule 13G.

Own-Risk and Solvency Assessment (Section 14)

Section 14 amends s. 628.8015, F.S., to expand the confidentiality of documents submitted to the OIR under ORSA requirements. The section provides that such documents may not be admitted as evidence in a private civil action regardless of the source of the documents, rather than only when they are obtained from the OIR.

Reciprocal Insurer Reserve Requirements (Section 15)

Section 15 amends s. 629.401, F.S., to revise the unearned premium reserve requirement that must be met by a reciprocal insurer, regardless of the line of insurance underwritten. The reciprocal insurer must retain 50 percent of "net written premiums" on policies having a policy period of one year or less. "Net written premiums" means premium payments made or due from subscribers after deducting expenses specified in the subscriber's agreement, including reinsurance costs and subscriber fees. To take the deduction from "net written premiums" for subscriber fees, the power of attorney agreement must contain an explicit provision to return subscriber fees on a pro rata basis for cancelled policies. This section requires an unearned premium reserve of $100,000, at all times, and provides a mechanism to return the reserve to that amount if it is not maintained at the required amount.

Delivery of Policies by Motor Vehicle Service Agreement Companies and Health Maintenance Organizations (Sections 16 and 17)

Section 16 amends s. 634.121, F.S., to allow electronic submission of an application form under s. 627.421, F.S. This section also changes the timeline for delivery of a motor vehicle service agreement from 45 days to 60 days. The section adds motor vehicle service agreements and related endorsement forms to the terms "insurance policies and endorsements," "policy and endorsement," "policy," or "policy form and endorsement form" as used in s. 627.421, F.S. The section also defines a motor vehicle service agreement holder as an "insured" and a motor vehicle service agreement company as an "insurer."

Section 17 amends s. 641.3107, F.S., and changes the timeline for delivery for HMO contracts from 10 days from enrollment to 60 days. The section includes health maintenance contract, endorsement and rider, certificate of coverage or member handbook to the terms "insurance policies and endorsements," "policy and endorsement," "policy," or "policy form and endorsement form" as used in s. 627.421, F.S. The term "insured" is amended to include a subscriber, or, in the case of a group health maintenance contract, to the employer or other person who will hold the contract on behalf of the subscriber group. The section also defines a health maintenance organization as an "insurer."

These sections also allow posting of the non-personal portions of agreements and contracts, as applicable, on a website in the manner allowed for policies by insurers. The personal portions of these documents would be delivered by other allowable means, usually mailing, as set forth in s. 627.421, F.S.

Effective Date (Section 18)

The bill takes effect upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Changes to the mailing requirement in Section 10 could result in cost savings to insurers.

C. Government Sector Impact:

The bill does not affect state funds or expenditures. The Revenue Estimating Conference does not anticipate any impact on state revenues as a result of the change to the surplus lines tax in Section 5 of the bill.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 625.151, 625.325, 626.221, 626.932, 626.9651, 627.416, 627.41341, 627.7015, 627.728, 627.756, 628.4615, 628.8015, 629.401, 634.121, and 641.3107.

The bill repeals paragraph 626.918(2)(a) of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Judiciary on February 20, 2018:
The committee substitute removed a provision from the underlying bill that would have lowered from $1 million to $700,000 the threshold for exporting a homeowner's property insurance risk to a surplus lines insurer following a single coverage rejection.

Additionally, the committee substitute clarified a provision in the property insurance mediation statute.

CS by Banking and Insurance on February 6, 2018:
The CS removed provisions that:

- Provides that a third-party vendor, as an assignee of policy benefits, is not a consumer for purposes of consumer complaints received by the DFS Division of Consumer Services;
- Provides that complaints from third-party vendors as assignees of policy benefits will not count as complaints for purposes of the complaint ratio calculations;
- Provides that the reporting of certain information used by the Department of Financial Services to prevent insurance fraud is not mandatory;
- Provides that the insurance nonjoinder statute applies to surplus lines insurers;
- Allows the Office of Insurance Regulation (OIR) to waive the requirement that a surplus lines insurer has operated for the previous 3 years before seeking eligibility to operate in Florida if the insurer provides a product or service not readily available to Florida consumers or has operated successfully for a period of at least 1 year next preceding and has capital and surplus of not less than $30 million;
- Increases the ability of motor vehicle insurers to exclude coverage when drivers are engaged in transportation network company activities; and
- Provides that any person who sells prepaid limited health service contracts that only cover the cost of transportation provided by an air ambulance service is not required to be licensed as a health insurance agent.

The CS adds provisions that:

- Provide if an applicant for licensure as an all-lines adjuster is certified as a Claims Adjuster Certified Professional from WebCE, Inc., the applicant does not have to take the adjuster examination;
- Repeal a requirement that surplus lines insurers request eligibility from the Florida Surplus Lines Service Office;
- Provide a uniform surplus lines tax of 4.936 percent;
- Lower from $1 million to $700,000 the threshold for exporting a homeowner's property insurance risk to a surplus lines insurer following a single coverage rejection;
- Provide that an insurer may issue an insurance policy without certain signatures;
- Require that a notice of policy change summarize the changes made to the policy before renewal;
- Revise unearned premium reserve requirements for reciprocal insurers; and
- Allow for electronic posting of certain policy information by health maintenance organizations and motor vehicle service agreement companies and increases the time for delivering such contracts.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committees on Judiciary; and Banking and Insurance; and Senator Brandes

590-03473-18 2018784c2

A bill to be entitled

An act relating to insurance; amending s. 625.151, F.S.; providing that certain securities valuation limitations do not apply to certain stock of certain foreign insurers' subsidiary corporations or related entities; amending s. 625.325, F.S.; providing that certain provisions relating to insurer investments in subsidiaries and related corporations do not apply to foreign insurers under certain circumstances; amending s. 626.221, F.S.; revising professional designations that exempt all-lines adjuster license applicants from an examination requirement; repealing s. 626.918(2)(a), F.S., relating to a certain condition before an unauthorized insurer may be or become an eligible surplus lines insurer; amending s. 626.932, F.S.; reducing the tax on surplus lines insurance; deleting a limitation on the tax rate for certain surplus lines policies; amending s. 626.9651, F.S.; revising federal standards applicable to Department of Financial Services and Financial Services Commission rules governing the use of consumer nonpublic personal financial and health information; amending s. 627.416, F.S.; authorizing insurers to issue policies that are not executed by certain authorized persons; amending s. 627.43141, F.S.; specifying that a written notice of a change in policy terms must summarize the change; amending s. 627.7015, F.S.; authorizing a third party, as assignee of the policy benefits, to request mediation for disputed property insurance claims;

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

590-03473-18 2018784c2

providing that insurers are not required to participate in such mediations; making technical changes; amending s. 627.728, F.S.; adding certain proofs of mailing that an insurer may use to provide certain notices relating to cancellation and nonrenewals of policies to certain insureds; amending s. 627.756, F.S.; providing that certain attorney fee provisions apply to suits brought by contractors against surety insurers under payment or performance bonds for building or construction contracts; providing that contractors are deemed to be insureds or beneficiaries for the purposes of such provisions; providing applicability; amending s. 628.4615, F.S.; revising the definition of the term "specialty insurer" to include viatical settlement providers; providing that a person may rebut a presumption of control by filing a specified disclaimer with the Office of Insurance Regulation; providing an alternative to a form prescribed by the commission; providing construction; conforming cross-references; amending s. 628.8015, F.S.; deleting a condition that certain filings and documents relating to insurer own-risk and solvency assessments and corporate governance annual disclosures must be obtained from the office to be inadmissible in evidence in private civil actions; amending s. 629.401, F.S.; revising unearned premium reserve requirements for insurance exchanges regulated by the office; defining the term "net written premiums"; amending s. 634.121, F.S.; revising

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

requirements and procedures for the delivery of motor vehicle service agreements and certain forms by motor vehicle service agreement companies to agreement holders; defining terms; specifying requirements if a motor vehicle service agreement company elects to post service agreements on its website in lieu of mailing or delivering to agreement holders; amending s. 641.3107, F.S.; revising requirements and procedures for the delivery of health maintenance contracts and certain documents by health maintenance organizations to subscribers; defining terms; specifying requirements if a health maintenance organization elects to post health maintenance contracts on its website in lieu of mailing or delivering to subscribers or certain persons; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (c) is added to subsection (3) of section 625.151, Florida Statutes, to read:

625.151 Valuation of other securities.—

(3) Stock of a subsidiary corporation of an insurer may ~~shall~~ not be valued at an amount in excess of the net value thereof as based upon those assets only of the subsidiary which would be eligible under part II for investment of the funds of the insurer directly.

(c) This subsection does not apply to stock of a subsidiary corporation or related entities of a foreign insurer which is

permissible under the laws of its state of domicile, if the state of domicile is a member of the National Association of Insurance Commissioners.

Section 2. Subsection (7) is added to section 625.325, Florida Statutes, to read:

625.325 Investments in subsidiaries and related corporations.—

(7) APPLICABILITY.-This section does not apply to a foreign insurer's investments in its subsidiaries or related corporations if:

(a) The foreign insurer is domiciled in a state that is a member of the National Association of Insurance Commissioners (NAIC).

(b) Such investments in the foreign insurer's subsidiaries or related corporations are:

1. Permitted under the laws of the foreign insurer's state of domicile.

2.a. Assigned a rating of 1, 2, or 3 by the NAIC's Securities Valuation Office (SVO); or

b. Qualify for the NAIC's filing exemption rule and assigned a rating by a nationally recognized statistical rating organization which would be equivalent to a rating of 1, 2, or 3 by the SVO.

Section 3. Paragraph (j) of subsection (2) of section 626.221, Florida Statutes, is amended to read:

626.221 Examination requirement; exemptions.—

(2) However, an examination is not necessary for any of the following:

(j) An applicant for license as an all-lines adjuster who

has the designation of Accredited Claims Adjuster (ACA) from a regionally accredited postsecondary institution in this state, Associate in Claims (AIC) from the Insurance Institute of America, Professional Claims Adjuster (PCA) from the Professional Career Institute, Professional Property Insurance Adjuster (PPIA) from the HurriClaim Training Academy, Certified Adjuster (CA) from ALL LINES Training, Certified Claims Adjuster (CCA) from AE21 Incorporated, Claims Adjuster Certified Professional (CACP) from WebCE, Inc., ~~or~~ Universal Claims Certification (UCC) from Claims and Litigation Management Alliance (CLM), or any similar designation from a similar entity whose curriculum has been approved by the department and which includes comprehensive analysis of basic property and casualty lines of insurance and testing at least equal to that of standard department testing for the all-lines adjuster license. The department shall adopt rules establishing standards for the approval of curriculum.

Section 4. Paragraph (a) of subsection (2) of section 626.918, Florida Statutes, is repealed.

Section 5. Subsections (1) and (3) of section 626.932, Florida Statutes, are amended to read:

626.932 Surplus lines tax.—

(1) The premiums charged for surplus lines coverages are subject to a premium receipts tax of 4.936 ~~5~~ percent of all gross premiums charged for such insurance. The surplus lines agent shall collect from the insured the amount of the tax at the time of the delivery of the cover note, certificate of insurance, policy, or other initial confirmation of insurance, in addition to the full amount of the gross premium charged by

the insurer for the insurance. The surplus lines agent is prohibited from absorbing such tax or, as an inducement for insurance or for any other reason, rebating all or any part of such tax or of his or her commission.

(3) If a surplus lines policy covers risks or exposures only partially in this state and the state is the home state as defined in the federal Nonadmitted and Reinsurance Reform Act of 2010 (NRRA), the tax payable must ~~shall~~ be computed on the gross premium. ~~The tax must not exceed the tax rate where the risk or exposure is located.~~

Section 6. Section 626.9651, Florida Statutes, is amended to read:

626.9651 Privacy.—The department and commission shall each adopt rules consistent with other provisions of the Florida Insurance Code to govern the use of a consumer's nonpublic personal financial and health information. These rules must be based on, consistent with, and not more restrictive than the Privacy of Consumer Financial and Health Information Regulation, adopted September 26, 2000, by the National Association of Insurance Commissioners; however, the rules must permit the use and disclosure of nonpublic personal health information for scientific, medical, or public policy research, in accordance with federal law. In addition, these rules must be consistent with, and not more restrictive than, the standards contained in Title V of the Gramm-Leach-Bliley Act of 1999, Pub. L. No. 106-102, as amended in Title LXXV of the Fixing America's Surface Transportation (FAST) Act, Pub. L. No. 114-94. If the office determines that a health insurer or health maintenance organization is in compliance with, or is actively undertaking

compliance with, the consumer privacy protection rules adopted by the United States Department of Health and Human Services, in conformance with the Health Insurance Portability and Affordability Act, that health insurer or health maintenance organization is in compliance with this section.

Section 7. Subsection (1) of section 627.416, Florida Statutes, is amended, and subsection (4) is added to that section, to read:

627.416 Execution of policies.—

(1) Except as set forth in subsection (4), every insurance policy must ~~shall~~ be executed in the name of and on behalf of the insurer by its officer, attorney in fact, employee, or representative duly authorized by the insurer.

(4) An insurer may elect to issue an insurance policy that is not executed by an officer, attorney in fact, employee, or representative, provided that such policy may not be rendered invalid by reason of the lack of execution thereof.

Section 8. Subsection (2) of section 627.43141, Florida Statutes, is amended to read:

627.43141 Notice of change in policy terms.—

(2) A renewal policy may contain a change in policy terms. If such change occurs, the insurer shall give the named insured advance written notice summarizing ~~of~~ the change, which may be enclosed along with the written notice of renewal premium required under ss. 627.4133 and 627.728 or sent separately within the timeframe required under the Florida Insurance Code for the provision of a notice of nonrenewal to the named insured for that line of insurance. The insurer must also provide a sample copy of the notice to the named insured's insurance agent

before or at the same time that notice is provided to the named insured. Such notice must ~~shall~~ be entitled "Notice of Change in Policy Terms."

Section 9. Subsections (1), (3), (6), and (9) of section 627.7015, Florida Statutes, are amended to read:

627.7015 Alternative procedure for resolution of disputed property insurance claims.—

(1) This section sets forth a nonadversarial alternative dispute resolution procedure for a mediated claim resolution conference prompted by the need for effective, fair, and timely handling of property insurance claims. There is a particular need for an informal, nonthreatening forum for helping parties who elect this procedure to resolve their claims disputes because most homeowner and commercial residential insurance policies obligate policyholders to participate in a potentially expensive and time-consuming adversarial appraisal process before litigation. The procedure set forth in this section is designed to bring the parties together for a mediated claims settlement conference without any of the trappings or drawbacks of an adversarial process. Before resorting to these procedures, policyholders and insurers are encouraged to resolve claims as quickly and fairly as possible. This section is available with respect to claims under personal lines and commercial residential policies before commencing the appraisal process, or before commencing litigation. Mediation may be requested only by the policyholder, as a first-party claimant; a third party, as assignee of the policy benefits; ~~,~~ or the insurer. However, an insurer is not required to participate in any mediation requested by a third party assignee of policy benefits. If

requested by the policyholder, participation by legal counsel is permitted. Mediation under this section is also available to litigants referred to the department by a county court or circuit court. This section does not apply to commercial coverages, to private passenger motor vehicle insurance coverages, or to disputes relating to liability coverages in policies of property insurance.

(3) The costs of mediation must ~~shall~~ be reasonable, and the insurer shall bear all of the cost of conducting mediation conferences, except as otherwise provided in this section. If the policyholder ~~an insured~~ fails to appear at the conference, the conference must ~~shall~~ be rescheduled upon the policyholder's ~~insured's~~ payment of the costs of a rescheduled conference. If the insurer fails to appear at the conference, the insurer must ~~shall~~ pay the policyholder's ~~insured's~~ actual cash expenses incurred in attending the conference if the insurer's failure to attend was not due to a good cause acceptable to the department. An insurer will be deemed to have failed to appear if the insurer's representative lacks authority to settle the full value of the claim. The insurer shall incur an additional fee for a rescheduled conference necessitated by the insurer's failure to appear at a scheduled conference. The fees assessed by the administrator must ~~shall~~ include a charge necessary to defray the expenses of the department related to its duties under this section and must ~~shall~~ be deposited in the Insurance Regulatory Trust Fund.

(6) Mediation under this section is nonbinding; however, if a written settlement is reached, the policyholder ~~insured~~ has 3 business days within which the policyholder ~~insured~~ may rescind

the settlement unless the policyholder ~~insured~~ has cashed or deposited any check or draft disbursed to the policyholder ~~insured~~ for the disputed matters as a result of the conference. If a settlement agreement is reached and is not rescinded, it is ~~shall be~~ binding and acts ~~act~~ as a release of all specific claims that were presented in that mediation conference.

(9) For purposes of this section, the term "claim" refers to any dispute between an insurer and a policyholder relating to a material issue of fact other than a dispute:

(a) With respect to which the insurer has a reasonable basis to suspect fraud;

(b) When ~~Where~~, based on agreed-upon facts as to the cause of loss, there is no coverage under the policy;

(c) With respect to which the insurer has a reasonable basis to believe that the policyholder has intentionally made a material misrepresentation of fact which is relevant to the claim, and the entire request for payment of a loss has been denied on the basis of the material misrepresentation;

(d) With respect to which the amount in controversy is less than $500, unless the parties agree to mediate a dispute involving a lesser amount; or

(e) With respect to a windstorm or hurricane loss that does not comply with s. 627.70132.

Section 10. Subsection (5) of section 627.728, Florida Statutes, is amended to read:

627.728 Cancellations; nonrenewals.—

(5) United States postal proof of mailing, ~~or~~ certified or registered mailing, or other mailing using the Intelligent Mail barcode or other similar tracking method used or approved by the

United States Postal Service of notice of cancellation, of intention not to renew, or of reasons for cancellation, or of the intention of the insurer to issue a policy by an insurer under the same ownership or management, to the first-named insured at the address shown in the policy is ~~shall be~~ sufficient proof of notice.

Section 11. Subsection (1) of section 627.756, Florida Statutes, is amended to read:

627.756 Bonds for construction contracts; attorney fees in case of suit.—

(1) Section 627.428 applies to suits brought by owners, contractors, subcontractors, laborers, and materialmen against a surety insurer under payment or performance bonds written by the insurer under the laws of this state to indemnify against pecuniary loss by breach of a building or construction contract. Owners, contractors, subcontractors, laborers, and materialmen are ~~shall be~~ deemed to be insureds or beneficiaries for the purposes of this section.

Section 12. The amendment made by this act to s. 627.756, Florida Statutes, applies only to payment or performance bonds issued on or after October 1, 2018.

Section 13. Subsections (1) and (7) of section 628.4615, Florida Statutes, are amended, present subsections (11) through (14) of that section are redesignated as subsections (12) through (15), respectively, and a new subsection (11) is added to that section, to read:

628.4615 Specialty insurers; acquisition of controlling stock, ownership interest, assets, or control; merger or consolidation.—

(1) For the purposes of this section, the term "specialty insurer" means any person holding a license or certificate of authority as:

(a) A motor vehicle service agreement company authorized to issue motor vehicle service agreements as those terms are defined in s. 634.011;

(b) A home warranty association authorized to issue "home warranties" as those terms are defined in s. 634.301;

(c) A service warranty association authorized to issue "service warranties" as those terms are defined in s. 634.401(13) and (14);

(d) A prepaid limited health service organization authorized to issue prepaid limited health service contracts, as those terms are defined in chapter 636;

(e) An authorized health maintenance organization operating pursuant to s. 641.21;

(f) An authorized prepaid health clinic operating pursuant to s. 641.405;

(g) A legal expense insurance corporation authorized to engage in a legal expense insurance business pursuant to s. 642.021;

(h) A provider that is licensed to operate a facility that undertakes to provide continuing care as those terms are defined in s. 651.011;

(i) A multiple-employer welfare arrangement operating pursuant to ss. 624.436-624.446;

(j) A premium finance company authorized to finance insurance premiums pursuant to s. 627.828; ~~or~~

(k) A corporation authorized to accept donor annuity

agreements pursuant to s. 627.481; or

(l) A viatical settlement provider authorized to do business in this state under part X of chapter 626.

(7) The office may disapprove any acquisition subject to ~~the provisions of~~ this section by any person or any affiliated person of such person who:

(a) Willfully violates this section;

(b) In violation of an order of the office issued pursuant to subsection (12) ~~(11)~~, fails to divest himself or herself of any stock or ownership interest obtained in violation of this section or fails to divest himself or herself of any direct or indirect control of such stock or ownership interest, within 25 days after such order; or

(c) In violation of an order issued by the office pursuant to subsection (12) ~~(11)~~, acquires an additional stock or ownership interest in a specialty insurer or controlling company or direct or indirect control of such stock or ownership interest, without complying with this section.

(11) A person may rebut a presumption of control by filing a disclaimer of control with the office on a form prescribed by the commission. The disclaimer must fully disclose all material relationships and bases for affiliation between the person and the specialty insurer as well as the basis for disclaiming the affiliation. In lieu of such form, a person or acquiring party may file with the office a copy of a Schedule 13G filed with the Securities and Exchange Commission pursuant to Rule 13d-1(b) or (c), 17 C.F.R. s. 240.13d-1, under the Securities Exchange Act of 1934, as amended. After a disclaimer has been filed, the specialty insurer is relieved of any duty to register or report

under this section which may arise out of the specialty insurer's relationship with the person unless the office disallows the disclaimer.

Section 14. Subsection (4) of section 628.8015, Florida Statutes, is amended to read:

628.8015 Own-risk and solvency assessment; corporate governance annual disclosure.—

(4) CONFIDENTIALITY.—The required filings and related documents submitted pursuant to subsections (2) and (3) are privileged such that they may not be produced in response to a subpoena or other discovery directed to the office, and any such filings and related documents~~, if obtained from the office,~~ are not admissible in evidence in any private civil action. However, the department or office may use these filings and related documents in the furtherance of any regulatory or legal action brought against an insurer as part of the official duties of the department or office. A waiver of any applicable claim of privilege in these filings and related documents may not occur because of a disclosure to the office under this section, because of any other provision of the Insurance Code, or because of sharing under s. 624.4212. The office or a person receiving these filings and related documents, while acting under the authority of the office, or with whom such filings and related documents are shared pursuant to s. 624.4212, is not permitted or required to testify in any private civil action concerning any such filings or related documents.

Section 15. Paragraph (b) of subsection (6) of section 629.401, Florida Statutes, is amended to read:

629.401 Insurance exchange.—

(6)

(b) In addition to the insurance laws specified in paragraph (a), the office shall regulate the exchange pursuant to the following powers, rights, and duties:

1. General examination powers.—The office shall examine the affairs, transactions, accounts, records, and assets of any security fund, exchange, members, and associate brokers as often as it deems advisable. The examination may be conducted by the accredited examiners of the office at the offices of the entity or person being examined. The office shall examine in like manner each prospective member or associate broker applying for membership in an exchange.

2. Office approval and applications of underwriting members.—No underwriting member shall commence operation without the approval of the office. Before commencing operation, an underwriting member shall provide a written application containing:

a. Name, type, and purpose of the underwriting member.

b. Name, residence address, business background, and qualifications of each person associated or to be associated in the formation or financing of the underwriting member.

c. Full disclosure of the terms of all understandings and agreements existing or proposed among persons so associated relative to the underwriting member, or the formation or financing thereof, accompanied by a copy of each such agreement or understanding.

d. Full disclosure of the terms of all understandings and agreements existing or proposed for management or exclusive agency contracts.

3. Investigation of underwriting member applications.—In connection with any proposal to establish an underwriting member, the office shall make an investigation of:

a. The character, reputation, financial standing, and motives of the organizers, incorporators, or subscribers organizing the proposed underwriting member.

b. The character, financial responsibility, insurance experience, and business qualifications of its proposed officers.

c. The character, financial responsibility, business experience, and standing of the proposed stockholders and directors, or owners.

4. Notice of management changes.—An underwriting member shall promptly give the office written notice of any change among the directors or principal officers of the underwriting member within 30 days after such change. The office shall investigate the new directors or principal officers of the underwriting member. The office's investigation shall include an investigation of the character, financial responsibility, insurance experience, and business qualifications of any new directors or principal officers. As a result of the investigation, the office may require the underwriting member to replace any new directors or principal officers.

5. Alternate financial statement.—In lieu of any financial examination, the office may accept an audited financial statement.

6. Correction and reconstruction of records.—If the office finds any accounts or records to be inadequate, or inadequately kept or posted, it may employ experts to reconstruct, rewrite,

post, or balance them at the expense of the person or entity being examined if such person or entity has failed to maintain, complete, or correct such records or accounts after the office has given him or her or it notice and reasonable opportunity to do so.

7. Obstruction of examinations.—Any person or entity who or which willfully obstructs the office or its examiner in an examination is guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

8. Filing of annual statement.—Each underwriting member shall file with the office a full and true statement of its financial condition, transactions, and affairs. The statement shall be filed on or before March 1 of each year, or within such extension of time as the office for good cause grants, and shall be for the preceding calendar year. The statement shall contain information generally included in insurer financial statements prepared in accordance with generally accepted insurance accounting principles and practices and in a form generally utilized by insurers for financial statements, sworn to by at least two executive officers of the underwriting member. The form of the financial statements shall be the approved form of the National Association of Insurance Commissioners or its successor organization. The commission may by rule require each insurer to submit any part of the information contained in the financial statement in a computer-readable form compatible with the office's electronic data processing system. In addition to information furnished in connection with its annual statement, an underwriting member must furnish to the office as soon as reasonably possible such information about its transactions or

affairs as the office requests in writing. All information furnished pursuant to the office's request must be verified by the oath of two executive officers of the underwriting member.

9. Record maintenance.—Each underwriting member shall have and maintain its principal place of business in this state and shall keep therein complete records of its assets, transactions, and affairs in accordance with such methods and systems as are customary for or suitable to the kind or kinds of insurance transacted.

10. Examination of agents.—If the department has reason to believe that any agent, as defined in s. 626.015 or s. 626.914, has violated or is violating any provision of the insurance law, or upon receipt of a written complaint signed by any interested person indicating that any such violation may exist, the department shall conduct such examination as it deems necessary of the accounts, records, documents, and transactions pertaining to or affecting the insurance affairs of such agent.

11. Written reports of office.—The office or its examiner shall make a full and true written report of any examination. The report shall contain only information obtained from examination of the records, accounts, files, and documents of or relative to the person or entity examined or from testimony of individuals under oath, together with relevant conclusions and recommendations of the examiner based thereon. The office shall furnish a copy of the report to the person or entity examined not less than 30 days prior to filing the report in its office. If such person or entity so requests in writing within such 30-day period, the office shall grant a hearing with respect to the report and shall not file the report until after the hearing and

after such modifications have been made therein as the office deems proper.

12. Admissibility of reports.—The report of an examination when filed shall be admissible in evidence in any action or proceeding brought by the office against the person or entity examined, or against his or her or its officers, employees, or agents. The office or its examiners may at any time testify and offer other proper evidence as to information secured or matters discovered during the course of an examination, whether or not a written report of the examination has been either made, furnished, or filed in the office.

13. Publication of reports.—After an examination report has been filed, the office may publish the results of any such examination in one or more newspapers published in this state whenever it deems it to be in the public interest.

14. Consideration of examination reports by entity examined.—After the examination report of an underwriting member has been filed, an affidavit shall be filed with the office, not more than 30 days after the report has been filed, on a form furnished by the office and signed by the person or a representative of any entity examined, stating that the report has been read and that the recommendations made in the report will be considered within a reasonable time.

15. Examination costs.—Each person or entity examined by the office shall pay to the office the expenses incurred in such examination.

16. Exchange costs.—An exchange shall reimburse the office for any expenses incurred by it relating to the regulation of the exchange and its members, except as specified in

subparagraph 15.

17. Powers of examiners.—Any examiner appointed by the office, as to the subject of any examination, investigation, or hearing being conducted by him or her, may administer oaths, examine and cross-examine witnesses, and receive oral and documentary evidence, and shall have the power to subpoena witnesses, compel their attendance and testimony, and require by subpoena the production of books, papers, records, files, correspondence, documents, or other evidence which the examiner deems relevant to the inquiry. If any person refuses to comply with any such subpoena or to testify as to any matter concerning which he or she may be lawfully interrogated, the Circuit Court of Leon County or the circuit court of the county wherein such examination, investigation, or hearing is being conducted, or of the county wherein such person resides, on the office's application may issue an order requiring such person to comply with the subpoena and to testify; and any failure to obey such an order of the court may be punished by the court as a contempt thereof. Subpoenas shall be served, and proof of such service made, in the same manner as if issued by a circuit court. Witness fees and mileage, if claimed, shall be allowed the same as for testimony in a circuit court.

18. False testimony.—Any person willfully testifying falsely under oath as to any matter material to any examination, investigation, or hearing shall upon conviction thereof be guilty of perjury and shall be punished accordingly.

19. Self-incrimination.—

a. If any person asks to be excused from attending or testifying or from producing any books, papers, records,

contracts, documents, or other evidence in connection with any examination, hearing, or investigation being conducted by the office or its examiner, on the ground that the testimony or evidence required of the person may tend to incriminate him or her or subject him or her to a penalty or forfeiture, and the person notwithstanding is directed to give such testimony or produce such evidence, he or she shall, if so directed by the office and the Department of Legal Affairs, nonetheless comply with such direction; but the person shall not thereafter be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter, or thing concerning which he or she may have so testified or produced evidence, and no testimony so given or evidence so produced shall be received against him or her upon any criminal action, investigation, or proceeding; except that no such person so testifying shall be exempt from prosecution or punishment for any perjury committed by him or her in such testimony, and the testimony or evidence so given or produced shall be admissible against him or her upon any criminal action, investigation, or proceeding concerning such perjury, nor shall he or she be exempt from the refusal, suspension, or revocation of any license, permission, or authority conferred, or to be conferred, pursuant to the insurance law.

b. Any such individual may execute, acknowledge, and file with the office a statement expressly waiving such immunity or privilege in respect to any transaction, matter, or thing specified in such statement, and thereupon the testimony of such individual or such evidence in relation to such transaction, matter, or thing may be received or produced before any judge or

justice, court, tribunal, grand jury, or otherwise; and if such testimony or evidence is so received or produced, such individual shall not be entitled to any immunity or privileges on account of any testimony so given or evidence so produced.

20. Penalty for failure to testify.—Any person who refuses or fails, without lawful cause, to testify relative to the affairs of any member, associate broker, or other person when subpoenaed and requested by the office to so testify, as provided in subparagraph 17., shall, in addition to the penalty provided in subparagraph 17., be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

21. Name selection.—No underwriting member shall be formed or authorized to transact insurance in this state under a name which is the same as that of any authorized insurer or is so nearly similar thereto as to cause or tend to cause confusion or under a name which would tend to mislead as to the type of organization of the insurer. Before incorporating under or using any name, the underwriting syndicate or proposed underwriting syndicate shall submit its name or proposed name to the office for the approval of the office.

22. Capitalization.—An underwriting member approved on or after July 2, 1987, shall provide an initial paid-in capital and surplus of $3 million and thereafter shall maintain a minimum policyholder surplus of $2 million in order to be permitted to write insurance. Underwriting members approved prior to July 2, 1987, shall maintain a minimum policyholder surplus of $1 million. After June 29, 1988, underwriting members approved prior to July 2, 1987, must maintain a minimum policyholder

surplus of $1.5 million to write insurance. After June 29, 1989, underwriting members approved prior to July 2, 1987, must maintain a minimum policyholder surplus of $1.75 million to write insurance. After December 30, 1989, all underwriting members, regardless of the date they were approved, must maintain a minimum policyholder surplus of $2 million to write insurance. Except for that portion of the paid-in capital and surplus which shall be maintained in a security fund of an exchange, the paid-in capital and surplus shall be invested by an underwriting member in a manner consistent with ss. 625.301-625.340. The portion of the paid-in capital and surplus in any security fund of an exchange shall be invested in a manner limited to investments for life insurance companies under the Florida insurance laws.

23. Limitations on coverage written.—

a. Limit of risk.—No underwriting member shall expose itself to any loss on any one risk in an amount exceeding 10 percent of its surplus to policyholders. Any risk or portion of any risk which shall have been reinsured in an assuming reinsurer authorized or approved to do such business in this state shall be deducted in determining the limitation of risk prescribed in this section.

b. Restrictions on premiums written.—If the office has reason to believe that the underwriting member's ratio of actual or projected annual gross written premiums to policyholder surplus exceeds 8 to 1 or the underwriting member's ratio of actual or projected annual net premiums to policyholder surplus exceeds 4 to 1, the office may establish maximum gross or net annual premiums to be written by the underwriting member

consistent with maintaining the ratios specified in this sub-subparagraph.

(I) Projected annual net or gross premiums shall be based on the actual writings to date for the underwriting member's current calendar year, its writings for the previous calendar year, or both. Ratios shall be computed on an annualized basis.

(II) For purposes of this sub-subparagraph, the term "gross written premiums" means direct premiums written and reinsurance assumed.

c. Surplus as to policyholders.—For the purpose of determining the limitation on coverage written, surplus as to policyholders shall be deemed to include any voluntary reserves, or any part thereof, which are not required by or pursuant to law and shall be determined from the last sworn statement of such underwriting member with the office, or by the last report or examination filed by the office, whichever is more recent at the time of assumption of such risk.

24. Unearned premium reserves.—An underwriting member must at all times maintain an unearned premium reserve equal to 50 percent of the net written premiums of the subscribers on policies having 1 year or less to run, and pro rata on those for longer periods, ~~All unearned premium reserves for business written on the exchange shall be calculated on a monthly or more frequent basis or on such other basis as determined by the office,~~ except that all premiums on any marine or transportation insurance trip risk shall be deemed unearned until the trip is terminated. For the purpose of this subparagraph, the term "net written premiums" means the premium payments made by subscribers plus the premiums due from subscribers, after deducting the

amounts specifically provided in the subscribers' agreements for expenses, including reinsurance costs and fees paid to the attorney in fact, provided that the power of attorney agreement contains an explicit provision requiring the attorney in fact to refund any unearned subscribers fees on a pro-rata basis for cancelled policies. If there is no such provision, the unearned premium reserves must be calculated without any adjustment for fees paid to the attorney in fact. If the unearned premium reserves at any time do not amount to $100,000, there must be maintained on deposit at the exchange at all times additional funds in cash or eligible securities, which, together with the unearned premium reserves, equal $100,000. In calculating the foregoing reserves, the amount of the attorney's bond, as filed with the office and as required by s. 629.121, must be included in such reserves. If at any time the unearned premium reserves are less than the foregoing requirements, the subscribers or the attorney in fact shall advance funds to make up the deficiency. Such advances must be repaid only out of the surplus of the exchange and only after receiving written approval from the office.

25. Loss reserves.—All underwriting members of an exchange shall maintain loss reserves, including a reserve for incurred but not reported claims. The reserves shall be subject to review by the office, and, if loss experience shows that an underwriting member's loss reserves are inadequate, the office shall require the underwriting member to maintain loss reserves in such additional amount as is needed to make them adequate.

26. Distribution of profits.—An underwriting member shall not distribute any profits in the form of cash or other assets

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

to owners except out of that part of its available and accumulated surplus funds which is derived from realized net operating profits on its business and realized capital gains. In any one year such payments to owners shall not exceed 30 percent of such surplus as of December 31 of the immediately preceding year, unless otherwise approved by the office. No distribution of profits shall be made that would render an underwriting member either impaired or insolvent.

27. Stock dividends.—A stock dividend may be paid by an underwriting member out of any available surplus funds in excess of the aggregate amount of surplus advanced to the underwriting member under subparagraph 29.

28. Dividends from earned surplus.—A dividend otherwise lawful may be payable out of an underwriting member's earned surplus even though the total surplus of the underwriting member is then less than the aggregate of its past contributed surplus resulting from issuance of its capital stock at a price in excess of the par value thereof.

29. Borrowing of money by underwriting members.—

a. An underwriting member may borrow money to defray the expenses of its organization, provide it with surplus funds, or for any purpose of its business, upon a written agreement that such money is required to be repaid only out of the underwriting member's surplus in excess of that stipulated in such agreement. The agreement may provide for interest not exceeding 15 percent simple interest per annum. The interest shall or shall not constitute a liability of the underwriting member as to its funds other than such excess of surplus, as stipulated in the agreement. No commission or promotion expense shall be paid in

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

connection with any such loan. The use of any surplus note and any repayments thereof shall be subject to the approval of the office.

b. Money so borrowed, together with any interest thereon if so stipulated in the agreement, shall not form a part of the underwriting member's legal liabilities except as to its surplus in excess of the amount thereof stipulated in the agreement, nor be the basis of any setoff; but until repayment, financial statements filed or published by an underwriting member shall show as a footnote thereto the amount thereof then unpaid, together with any interest thereon accrued but unpaid.

30. Liquidation, rehabilitation, and restrictions.—The office, upon a showing that a member or associate broker of an exchange has met one or more of the grounds contained in part I of chapter 631, may restrict sales by type of risk, policy or contract limits, premium levels, or policy or contract provisions; increase surplus or capital requirements of underwriting members; issue cease and desist orders; suspend or restrict a member's or associate broker's right to transact business; place an underwriting member under conservatorship or rehabilitation; or seek an order of liquidation as authorized by part I of chapter 631.

31. Prohibited conduct.—The following acts by a member, associate broker, or affiliated person shall constitute prohibited conduct:

a. Fraud.

b. Fraudulent or dishonest acts committed by a member or associate broker prior to admission to an exchange, if the facts and circumstances were not disclosed to the office upon

application to become a member or associate broker.

c. Conduct detrimental to the welfare of an exchange.

d. Unethical or improper practices or conduct, inconsistent with just and equitable principles of trade as set forth in, but not limited to, ss. 626.951-626.9641 and 626.973.

e. Failure to use due diligence to ascertain the insurance needs of a client or a principal.

f. Misstatements made under oath or upon an application for membership on an exchange.

g. Failure to testify or produce documents when requested by the office.

h. Willful violation of any law of this state.

i. Failure of an officer or principal to testify under oath concerning a member, associate broker, or other person's affairs as they relate to the operation of an exchange.

j. Violation of the constitution and bylaws of the exchange.

32. Penalties for participating in prohibited conduct.—

a. The office may order the suspension of further transaction of business on the exchange of any member or associate broker found to have engaged in prohibited conduct. In addition, any member or associate broker found to have engaged in prohibited conduct may be subject to reprimand, censure, and/or a fine not exceeding $25,000 imposed by the office.

b. Any member which has an affiliated person who is found to have engaged in prohibited conduct shall be subject to involuntary withdrawal or in addition thereto may be subject to suspension, reprimand, censure, and/or a fine not exceeding $25,000.

33. Reduction of penalties.—Any suspension, reprimand, censure, or fine may be remitted or reduced by the office on such terms and conditions as are deemed fair and equitable.

34. Other offenses.—Any member or associate broker that is suspended shall be deprived, during the period of suspension, of all rights and privileges of a member or of an associate broker and may be proceeded against by the office for any offense committed either before or after the date of suspension.

35. Reinstatement.—Any member or associate broker that is suspended may be reinstated at any time on such terms and conditions as the office may specify.

36. Remittance of fines.—Fines imposed under this section shall be remitted to the office and shall be paid into the Insurance Regulatory Trust Fund.

37. Failure to pay fines.—When a member or associate broker has failed to pay a fine for 15 days after it becomes payable, such member or associate broker shall be suspended, unless the office has granted an extension of time to pay such fine.

38. Changes in ownership or assets.—In the event of a major change in the ownership or a major change in the assets of an underwriting member, the underwriting member shall report such change in writing to the office within 30 days of the effective date thereof. The report shall set forth the details of the change. Any change in ownership or assets of more than 5 percent shall be considered a major change.

39. Retaliation.—

a. When by or pursuant to the laws of any other state or foreign country any taxes, licenses, or other fees, in the aggregate, and any fines, penalties, deposit requirements, or

other material obligations, prohibitions, or restrictions are or would be imposed upon an exchange or upon the agents or representatives of such exchange which are in excess of such taxes, licenses, and other fees, in the aggregate, or which are in excess of such fines, penalties, deposit requirements, or other obligations, prohibitions, or restrictions directly imposed upon similar exchanges or upon the agents or representatives of such exchanges of such other state or country under the statutes of this state, so long as such laws of such other state or country continue in force or are so applied, the same taxes, licenses, and other fees, in the aggregate, or fines, penalties, deposit requirements, or other material obligations, prohibitions, or restrictions of whatever kind shall be imposed by the office upon the exchanges, or upon the agents or representatives of such exchanges, of such other state or country doing business or seeking to do business in this state.

b. Any tax, license, or other obligation imposed by any city, county, or other political subdivision or agency of a state, jurisdiction, or foreign country on an exchange, or on the agents or representatives on an exchange, shall be deemed to be imposed by such state, jurisdiction, or foreign country within the meaning of sub-subparagraph a.

40. Agents.—

a. Agents as defined in ss. 626.015 and 626.914 who are broker members or associate broker members of an exchange shall be allowed only to place on an exchange the same kind or kinds of business that the agent is licensed to place pursuant to Florida law. Direct Florida business as defined in s. 626.916 or

s. 626.917 shall be written through a broker member who is a surplus lines agent as defined in s. 626.914. The activities of each broker member or associate broker with regard to an exchange shall be subject to all applicable provisions of the insurance laws of this state, and all such activities shall constitute transactions under his or her license as an insurance agent for purposes of the Florida insurance law.

b. Premium payments and other requirements.—If an underwriting member has assumed the risk as to a surplus lines coverage and if the premium therefor has been received by the surplus lines agent who placed such insurance, then in all questions thereafter arising under the coverage as between the underwriting member and the insured, the underwriting member shall be deemed to have received the premium due to it for such coverage; and the underwriting member shall be liable to the insured as to losses covered by such insurance, and for unearned premiums which may become payable to the insured upon cancellation of such insurance, whether or not in fact the surplus lines agent is indebted to the underwriting member with respect to such insurance or for any other cause.

41. Improperly issued contracts, riders, and endorsements.—

a. Any insurance policy, rider, or endorsement issued by an underwriting member and otherwise valid which contains any condition or provision not in compliance with the requirements of this section shall not be thereby rendered invalid, except as provided in s. 627.415, but shall be construed and applied in accordance with such conditions and provisions as would have applied had such policy, rider, or endorsement been in full compliance with this section. In the event an underwriting

member issues or delivers any policy for an amount which exceeds any limitations otherwise provided in this section, the underwriting member shall be liable to the insured or his or her beneficiary for the full amount stated in the policy in addition to any other penalties that may be imposed.

b. Any insurance contract delivered or issued for delivery in this state governing a subject or subjects of insurance resident, located, or to be performed in this state which, pursuant to the provisions of this section, the underwriting member may not lawfully insure under such a contract shall be cancelable at any time by the underwriting member, any provision of the contract to the contrary notwithstanding; and the underwriting member shall promptly cancel the contract in accordance with the request of the office therefor. No such illegality or cancellation shall be deemed to relieve the underwriting syndicate of any liability incurred by it under the contract while in force or to prohibit the underwriting syndicate from retaining the pro rata earned premium thereon. This provision does not relieve the underwriting syndicate from any penalty otherwise incurred by the underwriting syndicate.

42. Satisfaction of judgments.—

a. Every judgment or decree for the recovery of money heretofore or hereafter entered in any court of competent jurisdiction against any underwriting member shall be fully satisfied within 60 days from and after the entry thereof or, in the case of an appeal from such judgment or decree, within 60 days from and after the affirmance of the judgment or decree by the appellate court.

b. If the judgment or decree is not satisfied as required

under sub-subparagraph a., and proof of such failure to satisfy is made by filing with the office a certified transcript of the docket of the judgment or the decree together with a certificate by the clerk of the court wherein the judgment or decree remains unsatisfied, in whole or in part, after the time provided in sub-subparagraph a., the office shall forthwith prohibit the underwriting member from transacting business. The office shall not permit such underwriting member to write any new business until the judgment or decree is wholly paid and satisfied and proof thereof is filed with the office under the official certificate of the clerk of the court wherein the judgment was recovered, showing that the judgment or decree is satisfied of record, and until the expenses and fees incurred in the case are also paid by the underwriting syndicate.

43. Tender and exchange offers.—No person shall conclude a tender offer or an exchange offer or otherwise acquire 5 percent or more of the outstanding voting securities of an underwriting member or controlling company or purchase 5 percent or more of the ownership of an underwriting member or controlling company unless such person has filed with, and obtained the approval of, the office and sent to such underwriting member a statement setting forth:

a. The identity of, and background information on, each person by whom, or on whose behalf, the acquisition is to be made; and, if the acquisition is to be made by or on behalf of a corporation, association, or trust, the identity of and background information on each director, officer, trustee, or other natural person performing duties similar to those of a director, officer, or trustee for the corporation, association,

or trust.

b. The source and amount of the funds or other consideration used, or to be used, in making the acquisition.

c. Any plans or proposals which such person may have to liquidate such member, to sell its assets, or to merge or consolidate it.

d. The percentage of ownership which such person proposes to acquire and the terms of the offer or exchange, as the case may be.

e. Information as to any contracts, arrangements, or understandings with any party with respect to any securities of such member or controlling company, including, but not limited to, information relating to the transfer of any securities, option arrangements, or puts or calls or the giving or withholding of proxies, naming the party with whom such contract, arrangements, or understandings have been entered and giving the details thereof.

f. The office may disapprove any acquisition subject to the provisions of this subparagraph by any person or any affiliated person of such person who:

(I) Willfully violates this subparagraph;

(II) In violation of an order of the office issued pursuant to sub-subparagraph j., fails to divest himself or herself of any stock obtained in violation of this subparagraph, or fails to divest himself or herself of any direct or indirect control of such stock, within 25 days after such order; or

(III) In violation of an order issued by the office pursuant to sub-subparagraph j., acquires additional stock of the underwriting member or controlling company, or direct or

indirect control of such stock, without complying with this subparagraph.

g. The person or persons filing the statement required by this subparagraph have the burden of proof. The office shall approve any such acquisition if it finds, on the basis of the record made during any proceeding or on the basis of the filed statement if no proceeding is conducted, that:

(I) Upon completion of the acquisition, the underwriting member will be able to satisfy the requirements for the approval to write the line or lines of insurance for which it is presently approved;

(II) The financial condition of the acquiring person or persons will not jeopardize the financial stability of the underwriting member or prejudice the interests of its policyholders or the public;

(III) Any plan or proposal which the acquiring person has, or acquiring persons have, made:

(A) To liquidate the insurer, sell its assets, or merge or consolidate it with any person, or to make any other major change in its business or corporate structure or management; or

(B) To liquidate any controlling company, sell its assets, or merge or consolidate it with any person, or to make any major change in its business or corporate structure or management which would have an effect upon the underwriting member

is fair and free of prejudice to the policyholders of the underwriting member or to the public;

(IV) The competence, experience, and integrity of those persons who will control directly or indirectly the operation of

the underwriting member indicate that the acquisition is in the best interest of the policyholders of the underwriting member and in the public interest;

(V) The natural persons for whom background information is required to be furnished pursuant to this subparagraph have such backgrounds as to indicate that it is in the best interests of the policyholders of the underwriting member, and in the public interest, to permit such persons to exercise control over such underwriting member;

(VI) The officers and directors to be employed after the acquisition have sufficient insurance experience and ability to assure reasonable promise of successful operation;

(VII) The management of the underwriting member after the acquisition will be competent and trustworthy and will possess sufficient managerial experience so as to make the proposed operation of the underwriting member not hazardous to the insurance-buying public;

(VIII) The management of the underwriting member after the acquisition will not include any person who has directly or indirectly through ownership, control, reinsurance transactions, or other insurance or business relations unlawfully manipulated the assets, accounts, finances, or books of any insurer or underwriting member or otherwise acted in bad faith with respect thereto;

(IX) The acquisition is not likely to be hazardous or prejudicial to the underwriting member's policyholders or the public; and

(X) The effect of the acquisition of control would not substantially lessen competition in insurance in this state or

would not tend to create a monopoly therein.

h. No vote by the stockholder of record, or by any other person, of any security acquired in contravention of the provisions of this subparagraph is valid. Any acquisition of any security contrary to the provisions of this subparagraph is void. Upon the petition of the underwriting member or controlling company, the circuit court for the county in which the principal office of such underwriting member is located may, without limiting the generality of its authority, order the issuance or entry of an injunction or other order to enforce the provisions of this subparagraph. There shall be a private right of action in favor of the underwriting member or controlling company to enforce the provisions of this subparagraph. No demand upon the office that it perform its functions shall be required as a prerequisite to any suit by the underwriting member or controlling company against any other person, and in no case shall the office be deemed a necessary party to any action by such underwriting member or controlling company to enforce the provisions of this subparagraph. Any person who makes or proposes an acquisition requiring the filing of a statement pursuant to this subparagraph, or who files such a statement, shall be deemed to have thereby designated the Chief Financial Officer as such person's agent for service of process under this subparagraph and shall thereby be deemed to have submitted himself or herself to the administrative jurisdiction of the office and to the jurisdiction of the circuit court.

i. Any approval by the office under this subparagraph does not constitute a recommendation by the office for an acquisition, tender offer, or exchange offer. It is unlawful for

a person to represent that the office's approval constitutes a recommendation. A person who violates the provisions of this sub-subparagraph is guilty of a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084. The statute-of-limitations period for the prosecution of an offense committed under this sub-subparagraph is 5 years.

j. Upon notification to the office by the underwriting member or a controlling company that any person or any affiliated person of such person has acquired 5 percent or more of the outstanding voting securities of the underwriting member or controlling company without complying with the provisions of this subparagraph, the office shall order that the person and any affiliated person of such person cease acquisition of any further securities of the underwriting member or controlling company; however, the person or any affiliated person of such person may request a proceeding, which proceeding shall be convened within 7 days after the rendering of the order for the sole purpose of determining whether the person, individually or in connection with any affiliated person of such person, has acquired 5 percent or more of the outstanding voting securities of an underwriting member or controlling company. Upon the failure of the person or affiliated person to request a hearing within 7 days, or upon a determination at a hearing convened pursuant to this sub-subparagraph that the person or affiliated person has acquired voting securities of an underwriting member or controlling company in violation of this subparagraph, the office may order the person and affiliated person to divest themselves of any voting securities so acquired.

k.(I) The office shall, if necessary to protect the public

interest, suspend or revoke the certificate of authority of any underwriting member or controlling company:

(A) The control of which is acquired in violation of this subparagraph;

(B) That is controlled, directly or indirectly, by any person or any affiliated person of such person who, in violation of this subparagraph, has obtained control of an underwriting member or controlling company; or

(C) That is controlled, directly or indirectly, by any person who, directly or indirectly, controls any other person who, in violation of this subparagraph, acquires control of an underwriting member or controlling company.

(II) If any underwriting member is subject to suspension or revocation pursuant to sub-sub-subparagraph (I), the underwriting member shall be deemed to be in such condition, or to be using or to have been subject to such methods or practices in the conduct of its business, as to render its further transaction of insurance presently or prospectively hazardous to its policyholders, creditors, or stockholders or to the public.

l.(I) For the purpose of this sub-sub-subparagraph, the term "affiliated person" of another person means:

(A) The spouse of such other person;

(B) The parents of such other person and their lineal descendants and the parents of such other person's spouse and their lineal descendants;

(C) Any person who directly or indirectly owns or controls, or holds with power to vote, 5 percent or more of the outstanding voting securities of such other person;

(D) Any person 5 percent or more of the outstanding voting

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

securities of which are directly or indirectly owned or controlled, or held with power to vote, by such other person;

(E) Any person or group of persons who directly or indirectly control, are controlled by, or are under common control with such other person; or any officer, director, partner, copartner, or employee of such other person;

(F) If such other person is an investment company, any investment adviser of such company or any member of an advisory board of such company;

(G) If such other person is an unincorporated investment company not having a board of directors, the depositor of such company; or

(H) Any person who has entered into an agreement, written or unwritten, to act in concert with such other person in acquiring or limiting the disposition of securities of an underwriting member or controlling company.

(II) For the purposes of this section, the term "controlling company" means any corporation, trust, or association owning, directly or indirectly, 25 percent or more of the voting securities of one or more underwriting members.

m. The commission may adopt, amend, or repeal rules that are necessary to implement the provisions of this subparagraph, pursuant to chapter 120.

44. Background information.—The information as to the background and identity of each person about whom information is required to be furnished pursuant to sub-subparagraph 43.a. shall include, but shall not be limited to:

a. Such person's occupations, positions of employment, and offices held during the past 10 years.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

b. The principal business and address of any business, corporation, or other organization in which each such office was held or in which such occupation or position of employment was carried on.

c. Whether, at any time during such 10-year period, such person was convicted of any crime other than a traffic violation.

d. Whether, during such 10-year period, such person has been the subject of any proceeding for the revocation of any license and, if so, the nature of such proceeding and the disposition thereof.

e. Whether, during such 10-year period, such person has been the subject of any proceeding under the federal Bankruptcy Act or whether, during such 10-year period, any corporation, partnership, firm, trust, or association in which such person was a director, officer, trustee, partner, or other official has been subject to any such proceeding, either during the time in which such person was a director, officer, trustee, partner, or other official, or within 12 months thereafter.

f. Whether, during such 10-year period, such person has been enjoined, either temporarily or permanently, by a court of competent jurisdiction from violating any federal or state law regulating the business of insurance, securities, or banking, or from carrying out any particular practice or practices in the course of the business of insurance, securities, or banking, together with details of any such event.

45. Security fund.—All underwriting members shall be members of the security fund of any exchange.

46. Underwriting member defined.—Whenever the term

"underwriting member" is used in this subsection, it shall be construed to mean "underwriting syndicate."

47. Offsets.—Any action, requirement, or constraint imposed by the office shall reduce or offset similar actions, requirements, or constraints of any exchange.

48. Restriction on member ownership.—

a. Investments existing prior to July 2, 1987.—The investment in any member by brokers, agents, and intermediaries transacting business on the exchange, and the investment in any such broker, agent, or intermediary by any member, directly or indirectly, shall in each case be limited in the aggregate to less than 20 percent of the total investment in such member, broker, agent, or intermediary, as the case may be. After December 31, 1987, the aggregate percent of the total investment in such member by any broker, agent, or intermediary and the aggregate percent of the total investment in any such broker, agent, or intermediary by any member, directly or indirectly, shall not exceed 15 percent. After June 30, 1988, such aggregate percent shall not exceed 10 percent and after December 31, 1988, such aggregate percent shall not exceed 5 percent.

b. Investments arising on or after July 2, 1987.—The investment in any underwriting member by brokers, agents, or intermediaries transacting business on the exchange, and the investment in any such broker, agent, or intermediary by any underwriting member, directly or indirectly, shall in each case be limited in the aggregate to less than 5 percent of the total investment in such underwriting member, broker, agent, or intermediary.

49. "Underwriting manager" defined.—"Underwriting manager"

as used in this subparagraph includes any person, partnership, corporation, or organization providing any of the following services to underwriting members of the exchange:

a. Office management and allied services, including correspondence and secretarial services.

b. Accounting services, including bookkeeping and financial report preparation.

c. Investment and banking consultations and services.

d. Underwriting functions and services including the acceptance, rejection, placement, and marketing of risk.

50. Prohibition of underwriting manager investment.—Any direct or indirect investment in any underwriting manager by a broker member or any affiliated person of a broker member or any direct or indirect investment in a broker member by an underwriting manager or any affiliated person of an underwriting manager is prohibited. "Affiliated person" for purposes of this subparagraph is defined in subparagraph 43.

51. An underwriting member may not accept reinsurance on an assumed basis from an affiliate or a controlling company, nor may a broker member or management company place reinsurance from an affiliate or controlling company of theirs with an underwriting member. "Affiliate and controlling company" for purposes of this subparagraph is defined in subparagraph 43.

52. Premium defined.—"Premium" is the consideration for insurance, by whatever name called. Any "assessment" or any "membership," "policy," "survey," "inspection," "service" fee or charge or similar fee or charge in consideration for an insurance contract is deemed part of the premium.

53. Rules.—The commission shall adopt rules necessary for

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

or as an aid to the effectuation of any provision of this section.

Section 16. Subsection (6) of section 634.121, Florida Statutes, is amended to read:

634.121 Forms, required procedures, provisions; delivery and definitions.—

(6)(a) Each service agreement, which includes a copy of the application form, must be mailed, delivered, or otherwise provided electronically ~~transmitted~~ to the agreement holder as provided in s. 627.421. As used in s. 627.421, the term:

1. "Insurance policies and endorsements," "policy and endorsement," "policy," or "policy form and endorsement form" includes a motor vehicle service agreement and related endorsement forms.

2. "Insured" includes a motor vehicle service agreement holder.

3. "Insurer" includes a motor vehicle service agreement company.

(b) Section 627.421(4) applies if the motor vehicle service agreement company elects to post motor vehicle service agreements on its Internet website in lieu of mailing or delivery to agreement holders ~~within 45 days after the date of purchase~~. ~~Electronic transmission of a service agreement constitutes delivery to the agreement holder~~. ~~The electronic transmission must notify the agreement holder of his or her right to receive the service agreement via United States mail rather than electronic transmission. If the agreement holder communicates to the service agreement company electronically or in writing that he or she does not agree to receipt by~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~electronic transmission, a paper copy of the service agreement shall be provided to the agreement holder.~~

Section 17. Section 641.3107, Florida Statutes, is amended to read:

641.3107 Delivery of contract and certain documents; definitions.—

(1) ~~Unless delivered upon execution or issuance,~~ A health maintenance contract, certificate of coverage, endorsements and riders, or member handbook must ~~shall~~ be mailed, ~~or~~ delivered, or otherwise provided to the subscriber or, in the case of a group health maintenance contract, to the employer or other person who will hold the contract on behalf of the subscriber group, as provided in s. 627.421.

(2) As used in s. 627.421, the term:

(a) "Insurance policies and endorsements," "policy and endorsement," "policy," or "policy form and endorsement form" includes the health maintenance contract, endorsement and riders, certificate of coverage, or member handbook.

(b) "Insured" includes a subscriber or, in the case of a group health maintenance contract, to the employer or other person who will hold the contract on behalf of the subscriber group.

(c) "Insurer" includes a health maintenance organization.

(3) Section 627.421(4) applies if the health maintenance organization elects to post health maintenance contracts on its Internet website in lieu of mailing or delivery to subscribers or the person who will hold the contract on behalf of a subscriber group ~~within 10 working days from approval of the enrollment form by the health maintenance organization or by the~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~effective date of coverage, whichever occurs first~~. ~~However, if the employer or other person who will hold the contract on behalf of the subscriber group requires retroactive enrollment of a subscriber, the organization shall deliver the contract, certificate, or member handbook to the subscriber within 10 days after receiving notice from the employer of the retroactive enrollment.~~ This section does not apply to the delivery of those contracts specified in s. 641.31(13).

Section 18. This act shall take effect upon becoming a law.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 840 (514374)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Finance and Tax) and Senator Hutson
SUBJECT:	Gaming
DATE:	March 1, 2018
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Kraemer	McSwain	RI	**Favorable**
2.	Fournier	Diez-Arguelles	AFT	**Recommend: Fav/CS**
3.	Fournier	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/SB 840 revises Florida law concerning gaming. The bill:

- Authorizes the execution of a new gaming compact between the State of Florida (state) and the Seminole Tribe of Florida (Seminole Tribe), which:
  - Authorizes the Seminole Tribe to continue to conduct slot machine gaming at its seven gaming facilities;
  - Permits the Seminole Tribe to offer live table games, such as craps and roulette, at its seven gaming facilities;
  - Authorizes banked card games, including blackjack, chemin de fer, and baccarat, at all seven facilities ;
  - Is for a term of 20 years, through June 30, 2038; and
  - Includes a $3 billion guarantee of revenue sharing payments to the State for the first seven-years (Guarantee Period), with specific payment amounts (Guaranteed Payments) during each year of the Guarantee Period. After the Guarantee Period, payments will be based on varying percentage rates that depend on the amount of the Seminole Tribe's net win (Revenue Share Payments);
  - Provides exceptions to the Tribe's exclusive rights to allow:
    1. The authorization of fantasy contests;
    2. The play of Designated Player Games in cardrooms in the state; and
    3. Certain pari-mutuel permitholders to end live racing.

- Authorizes certain fantasy contests in which participants pay an entry fee, fantasy contest operators and their employees and agents may not be participants in a fantasy contest, prizes and awards must be established and disclosed before a contest, winning outcomes must reflect knowledge and skill of participants and be determined predominantly by statistical results of performances of individuals, including athletes in sporting events, and winning outcomes may not be based on performances in collegiate, high school, or youth sporting events.
- Provides that the Department of Business and Professional Regulation (DBPR) may not regulate fantasy contests and certain gambling laws set forth in Ch. 849, F.S., do not apply to a fantasy contest conducted by a fantasy contest operator or a commissioner who participates in fewer than ten contests each calendar year and distributes all contest entry fees as prizes.
- Allows, subject to eligibility requirements, greyhound racing permitholders, harness horse racing permitholders, and quarter horse racing permitholders to stop conducting live performances but continue operating slot machine facilities or cardrooms (decoupling).
- Requires permitholders licensed to conduct slot machine gaming or cardrooms that choose to discontinue live racing or games, (i.e., decouple), to make annual payments for the benefit of live thoroughbred horse racing purses.
- Eliminates dormant pari-mutuel permits and repeals authorization for the issuance of summer jai alai permits.
- Reduces the tax rate on slot machines from 35 percent to 30 percent effective January 1, 2019, and to 25 percent effective July 1, 2020.
- Provides that if, in any state fiscal year, the aggregate amount of tax paid to the state by all the slot machine licensees in Broward and Miami-Dade counties is less than the aggregate amount paid in the 2017-2018 state fiscal year, each of those licensees must pay a surcharge to alleviate the shortfall.
- Provides that a Designated Player Game is not a banking game and sets certain requirements and limitations for a Designated Player Game.
- Limits the number of Designated Player Game tables in a cardroom to not more than 50 percent of the cardroom's total licensed tables.
- Grants additional rulemaking authority to the DBPR's Division of Pari-Mutuel Wagering (division) relating to requests from licensed cardrooms and imposes deadlines for response by the division to submissions by cardroom licensees relating to rules for new authorized games, revisions to internal controls, and revisions to rules for games.
- Amends the definition of "slot machine or device" to include machines or devices that provide a preview of the outcome of the game (i.e., pre-reveal games).

If the new compact is agreed to by the Seminole Tribe and approved by the United States Secretary of the Interior, the payments made by the Seminole Tribe to the state will increase both during the Guarantee Period (Fiscal Years 2018-2019 through 2024-2025) and thereafter, compared to the payments the Seminole Tribe would be required to pay the state under the 2010 Gaming Compact.

If the new gaming compact does not become effective, and any provisions of PCS/SB 840 are determined to violate the 2010 Gaming Compact, the Seminole Tribe could stop making payments to the State. The payments are estimated to be $391.1 million in Fiscal Year 2018-2019, and from $328.2 to $361.4 million annually in the following seven years. The bill will also

result in the loss of $4.1 million on a recurring basis in slot machine revenue. See Section V., Fiscal Impact Statement.

This bill takes effect upon becoming a law.

II. Present Situation:

Background

In general, gambling is illegal in Florida.[1] Chapter 849, F.S., prohibits keeping a gambling house,[2] running a lottery,[3] or the manufacture, sale, lease, play, or possession of slot machines.[4] However, the following gaming activities are authorized by law and regulated by the state:

- Pari-mutuel[5] wagering at licensed greyhound and horse tracks and jai alai frontons;[6]
- Slot machine gaming at certain licensed pari-mutuel locations in Miami-Dade County and Broward County;[7] and
- Cardrooms[8] at certain pari-mutuel facilities.[9]

A license to offer pari-mutuel wagering, slot machine gambling, or a cardroom at a pari-mutuel facility is a privilege granted by the state.[10]

The 1968 State Constitution states that "[l]otteries, other than the types of pari-mutuel pools authorized by law as of the effective date of this constitution . . ." are prohibited.[11] A constitutional amendment approved by the voters in 1986 authorized state-operated lotteries. Net proceeds of the lottery are deposited to the Educational Enhancement Trust Fund (EETF) and

[2] *See* s. 849.01, F.S.
[3] *See* s. 849.09, F.S.
[4] Section 849.16, F.S., defines slot machines for purposes of ch. 849, F.S. Section 849.15(2), F.S., provides an exemption to the transportation of slot machines for the facilities that are authorized to conduct slot machine gaming under ch. 551, F.S.
[5] Pari-mutuel" is defined in Florida law as "a system of betting on races or games in which the winners divide the total amount bet, after deducting management expenses and taxes, in proportion to the sums they have wagered individually and with regard to the odds assigned to particular outcomes. *See* s. 550.002(22), F.S.
[6] *See* ch. 550, F.S., relating to the regulation of pari-mutuel activities.
[7] *See* ch. 551, F.S., relating to the regulation of slot machine gaming at pari-mutuel locations.
[8] Section 849.086, F.S., and *see* s. 849.086(2)(c), F.S., which defines "cardroom" to mean "a facility where authorized card games are played for money or anything of value and to which the public is invited to participate in such games and charged a fee for participation by the operator of such facility."
[9] The Department of Business and Professional Regulation (DBPR) has issued licenses to permitholders with 2017-2018 Operating Licenses to operate 25 cardrooms. *See* http://www.myfloridalicense.com/dbpr/pmw/PMW-PermitholderOperatingLicenses--2017-2018.html (last visited Jan. 11, 2018).
[10] *See* s. 550.1625(1), F.S., "…legalized pari-mutuel betting at dog tracks is a privilege and is an operation that requires strict supervision and regulation in the best interests of the state." *See also Solimena v. State*, 402 So.2d 1240, 1247 (Fla. 3d DCA 1981), *review denied*, 412 So.2d 470, which states "Florida courts have consistently emphasized the special nature of legalized racing, describing it as a privilege rather than as a vested right," citing *State ex rel. Mason v. Rose*, 122 Fla. 413, 165 So. 347 (1936).
[11] The pari-mutuel pools that were authorized by law on the effective date of the Florida Constitution, as revised in 1968, include horseracing, greyhound racing, and jai alai games. The revision was ratified by the electorate on November 5, 1968.

appropriated by the Legislature. Lottery operations are self-supporting and function as an entrepreneurial business enterprise.[12]

Chapter 849, F.S., also authorizes, under specific and limited conditions, the conduct of penny-ante games,[13] bingo,[14] charitable drawings, game promotions (sweepstakes),[15] and bowling tournaments.[16] The Family Amusement Games Act was enacted in 2015 and authorizes skill-based amusement games and machines at specified locations.[17]

III. Effect of Proposed Changes:

For ease of reference to each of the topics addressed in the bill, the Present Situation for each topic will be described, followed immediately by an associated section detailing the Effect of Proposed Changes.

Gaming Compacts with Seminole Tribe of Florida

Present Situation:

In 2010, a gaming compact (2010 Gaming Compact) between the Seminole Tribe of Florida (Seminole Tribe) and the State of Florida (state) was ratified by the Legislature.[18] The 2010 Gaming Compact authorizes the Seminole Tribe to conduct certain Class III gaming for a 20-year period, and to offer banked card games for five years, through July 31, 2015. The 2010 Gaming Compact provides that any expanded gaming (beyond what is specifically acknowledged) allowed in the state relieves the Seminole Tribe of its obligations to make substantial revenue sharing payments.[19]

Pursuant to Chapter 285, F.S., it is not a crime for a person to participate in raffles, drawings, slot machine gaming, or banked card games (e.g., blackjack or baccarat) at a tribal facility operating under the 2010 Gaming Compact.[20]

---

[12] The Department of the Lottery is authorized by s. 15, Art. X, Florida Constitution. Chapter 24, F.S., was enacted by ch. 87-65, Laws of Fla., to establish the state lottery. Section 24.102, F.S., states the legislative purpose and intent for the operations of the state lottery.
[13] *See* s. 849.085, F.S.
[14] *See* s. 849.0931, F.S.
[15] *See* s. 849.094, F.S., authorizes game promotions in connection with the sale of consumer products or services.
[16] *See* s. 849.141, F.S.
[17] *See* s. 546.10, F.S.
[18] The 2010 Gaming Compact was executed by the Governor and the Seminole Tribe on April 7, 2010, ratified by the Legislature, effective April 28, 2010, and approved by U.S. Secretary of the Interior, pursuant to the Indian Gaming Regulatory Act of 1988, on June 24, 2010. It took effect when published in the Federal Register on July 6, 2010. The 20-year term of the 2010 Gaming Compact expires July 31, 2030, unless renewed. Section 285.710(1)(f), F.S., designates the Division of Pari-mutuel Wagering of the Department of Business and Professional Regulation as the "state compliance agency" having authority to carry out the state's oversight responsibilities under the 2010 Gaming Compact. *See* http://www.myfloridalicense.com/dbpr/pmw/documents/2010_Compact-Signed1.pdf (last visited Jan. 11, 2018).
[19] *See* last sentence in paragraph B of Part XII of 2010 Gaming Compact at page 43.
[20] *See* s. 285.710, F.S., especially subsections (3), (13), and (14). The seven tribal locations where gaming is authorized by the 2010 Gaming Compact are: (1) Seminole Hard Rock Hotel & Casino—Hollywood (Broward); (2) Seminole Indian Casino—Coconut Creek (Broward); (3) Seminole Indian Casino—Hollywood (Broward); (4) Seminole Hard Rock Hotel & Casino—Tampa (Hillsborough); (5) Seminole Indian Casino—Immokalee (Collier); (6) Seminole Indian Casino—Brighton (Glades); and (7) Seminole Indian Casino—Big Cypress (Hendry).

Section 285.710, F.S., provides that money received by the state from the compact is to be deposited into the General Revenue Fund and provides for the distribution of 3 percent of the amount paid by the Seminole Tribe to the specified local governments. The percentage of the local share distributed to the specified counties and municipalities is based on the net win per facility in each county and municipality.

The 2010 Gaming Compact provides for revenue sharing in consideration for the exclusive authority granted to the Seminole Tribe to offer banked card games on tribal lands and to offer slot machine gaming outside Miami-Dade and Broward counties.

The Division of Pari-mutuel Wagering of the Department of Business and Professional Regulation (DBPR) carries out the state's oversight responsibilities under the 2010 Gaming Compact.[21]

Federal Litigation Concerning the 2010 Gaming Compact

The state and the Seminole Tribe were parties to litigation in federal court relating to the offering of table games by the Seminole Tribe after July 31, 2015, in which the state alleged that the Seminole Tribe's conduct of banked card games violated the 2010 Gaming Compact. The Seminole Tribe alleged it had authority to conduct banked card games under the 2010 Gaming Compact after 2015 because the state had allowed pari-mutuel cardrooms to conduct banked games (i.e., Designated Player Games).

On November 9, 2016, U.S. District Court Judge Robert L. Hinkle issued an Opinion on the Merits, which held the Seminole Tribe may operate banked card games at all seven of its facilities (rather than the five facilities at which banked card games had been allowed since 2010) through the entire 20-year term of the 2010 Gaming Compact (i.e., until 2030) because the state permitted others to offer banked card games (i.e., pari-mutuel cardrooms).[22]

Because of the finding that others had been allowed to conduct banked card games, the court found that the 2010 Gaming Compact allows the Seminole Tribe to conduct banked card games at all seven of its gaming facilities, for the Compact's full 20-year term (through July 31, 2030).[23] The DBPR appealed Judge Hinkle's decision.[24]

---

[21] *See* s. 285.710(1)(f), F.S.

[22] *See Seminole Tribe of Florida v. State of Florida,* 219 F.Supp. 3d 1177 (N.D. Fla. Nov. 9, 2016), Case No.: 4:15-cv-516-RH/CAS, Document 103. In addition to the holding as to banked card games, Judge Hinkle held that sovereign immunity barred the court from considering whether the State had failed to negotiate in good faith as to authorizing roulette and craps, and that a ruling on whether electronic forms of blackjack are also a banked card game was unnecessary as that issue was too close to resolve and was not essential to the outcome of the case.

[23] *Id.* at p. 19, and s*ee* Judgment issued in *Seminole Tribe of Florida v. State of Florida*, Case No.: 4:15-cv-516-RH/CAS (U.S.D.C. N.D. Fla.), Document 104, filed Nov. 16, 2016, at p. 1. *See Federal Litigation Concerning the 2010 Gaming Compact and Banked Card Games (including Player Banked Card Games with a Designated Player)*, below, for a discussion of Judge Hinkle's decision relating to banked card games.

[24] *See Seminole Tribe of Florida v. State of Florida*, 219 F.Supp. 3d 1177 (N.D. Fla. Jan. 19, 2017), Case No.: 4:15-cv-516-RH/CAS, Document 120.

Settlement of the Federal Litigation and Establishment of Forbearance Period

After the appeal of Judge Hinkle's decision was filed, the Seminole Tribe and the DBPR entered into a Settlement Agreement and Stipulation (2017 Settlement) on July 5, 2017.[25] The parties agreed to undertake certain actions.

The state agreed to dismiss the pending appeal, and, upon issuance of the final order of dismissal of the appeal, the Seminole Tribe agreed to release the state from all claims by the Tribe for past Revenue Share Payments,[26] based on the operation of player-banked games which use a designated player (Designated Player Games) or electronic forms of blackjack (Electronic Table Games) in Florida. The state and the Seminole Tribe also agreed that the findings of fact and conclusions of law in Judge Hinkle's decision are binding on the parties.[27]

The Seminole Tribe also agreed it would not seek the return of funds associated with tribal gaming paid to and segregated by the state during the pendency of the federal litigation, granting the state unencumbered use of the segregated funds.[28]

As to the continued operation of banked card games (i.e., Designated Player Games operated as described in Judge Hinkle's decision), the Seminole Tribe agreed to delay taking certain actions until after the last day of the month that the Legislature adjourns[29] its 2018 legislative session (the Forbearance Period). The Seminole Tribe agreed not to:

- Suspend Revenue Share Payments; or
- Deposit Revenue Share Payments into an escrow account in accordance with Part XII of the 2010 Gaming Compact, provided that the State takes aggressive enforcement action against the continued operation of banked card games and no other violations of the Tribe's exclusivity occur during the Forbearance Period.[30]

Effect of Proposed Changes:

Section 1 ratifies and approves in advance a new gaming compact between the Seminole Tribe and the state (the 2018 Gaming Compact) and authorizes the Governor to execute such a compact in the identical form set forth in the legislation. If ratified, the 2018 Gaming Compact will supersede the 2010 Gaming Compact; otherwise, the 2010 Gaming Compact remains in effect. The bill requires the Governor to cooperate with the Seminole Tribe in seeking approval of the 2018 Compact from the United States Secretary of the Interior. The state's ratification expires January 1, 2019, unless the 2018 Gaming Compact becomes effective.

---

[25] *See* Settlement Agreement and Stipulation (2017 Settlement) (July 5, 2017) (on file with the Senate Committee on Regulated Industries).

[26] Revenue Share Payments are the periodic payments to the State by the Seminole Tribe, based on the Tribe's Net Win. Net Win is defined as total receipts from the play of authorized tribal gaming in Florida, less all prizes, free play, or promotional credits. *See* paragraphs U and X of Part III of the 2010 Gaming Compact at page 11 at http://www.myfloridalicense.com/dbpr/pmw/documents/2010_Compact-Signed1.pdf (last visited Jan. 11, 2018).

[27] *See* 2017 Settlement at page 8.

[28] *See* the 2017 Settlement at page 6.

[29] Should the 2018 legislative session be adjourned as anticipated on March 9, 2018, the Forbearance Period will end on March 31, 2018.

[30] *See* 2017 Settlement at page 7.

The 2018 Gaming Compact:

- Authorizes the Seminole Tribe to conduct slot machine gaming at its seven gaming facilities;
- Permits the Seminole Tribe to offer live table games, such as craps and roulette, at its seven gaming facilities;
- Authorizes banked card games, including blackjack, chemin de fer, and baccarat, at its seven facilities;
- Is for a term of 20 years, through June 30, 2038; and
- Includes a $3 billion guarantee of revenue sharing payments to the state for the first seven-years (Guarantee Period), with specific payment amounts (Guaranteed Payments) during each year of the Guarantee Period. After the Guarantee Period, payments will be based on varying percentage rates that depend on the amount of the Seminole Tribe's net win (Revenue Share Payments).[31]

After ratification by the Legislature, the 2018 Gaming Compact is subject to approval by the United States Department of the Interior, as required under the Indian Gaming Regulatory Act of 1988. Notice of the approval by the Department of the Interior is published in the Federal Register.[32]

The following table compares the terms of the 2010 Gaming Compact to the 2018 Gaming Compact:

	2018 COMPACT	**2010 COMPACT**
Guarantee Money to State	7-year Guarantee worth $3 billion (Starts 7/1/2018) 1- $325 million 2- $350 million 3- $375 million 4- $425 million 5- $475 million 6- $500 million 7- $550 million Total: $3 Billion guaranteed (true-up at end of year 7)	5-year Guarantee worth $1 billion 1- $150 million 2- $150 million 3- $233 million 4- $233 million 5- $234 million Total: $1 Billion guaranteed
Term	20 years; 7-year minimum guarantee.	20 years; 5-year minimum guarantee; Banked Card Games exclusivity expired after 5 years.
Revenue Share to State	Revenue Share to State from Tribe's Gaming Revenue $0-2B: 13% (1% increase) $2-3B: 17.5% (2.5% increase) $3-3.5B: 17.5% $3.5-4B: 20%	Revenue Share to State from Tribe's Gaming Revenue $0-2B: 12% $2-3B: 15% $3-3.5B: 17.5% $3.5-4B: 20%

Fantasy Contests (Section 3)

Present Situation:

The operation of fantasy sports activities in Florida has received significant publicity, much like the operation of internet cafes in recent years. Many states are now evaluating the status of fantasy gaming activities in their jurisdictions,[33] as there are millions of participants.[34]

A fantasy game typically has multiple players who select and manage imaginary teams whose players are actual professional sports players. Fantasy game players compete against one another in various formats, including weekly leagues among friends and colleagues, season-long leagues, and on-line contests (daily and weekly) entered by using the Internet through personal computers or mobile telephones and other communications devices. There are various financial arrangements among players and game operators. The term "commissioner" has been used in the context of fantasy baseball leagues to denote a person who manages a fantasy baseball league, establishes league rules, resolves disputes over rule interpretations, publishes league standings, or selects the Internet service for publication of league standings.[35]

Florida law does not specifically address fantasy contests. Section 849.14, F.S.,[36] provides that a person who wagers any "thing of value" upon the result of a contest of skill or endurance of

[33] *See* Marc Edelman, *A Short Treatise on Fantasy Sports and the Law: How America Regulates its New National Pastime*, Journal of Sports & Entertainment Law, Harvard Law School Vol. 3 (Jan. 2012) (Edelman Treatise), at http://papers.ssrn.com/sol3/papers.cfm?abstract_id=1907272 (last visited Jan. 11, 2018), and Jonathan Griffin, *The Legality of Fantasy Sports*, National Conference of State Legislatures Legisbrief (Sep. 2015) (on file with the Committee on Regulated Industries).

[34] According to the Fantasy Sports Trade Association, which states it represents the interests of 57 million fantasy sports players, fantasy sports leagues were originally referred to as "rotisserie leagues" with the development of Rotisserie League Baseball in 1980, by magazine writer/editor Daniel Okrent, who met and played it with friends at a New York City restaurant La Rotisserie Francaise. *See* http://fsta.org/about/history-of-fsta/ (last visited Jan. 11, 2018).

human or beast, or who receives any money wagered, or who knowingly becomes the custodian of money or other thing of value that is wagered, is guilty of a second degree misdemeanor.[37]

In 2013, Spectrum Gaming Group, as part of a Gambling Impact Study prepared for the Florida Legislature, analyzed data related to participation by adults in selected activities.[38] Based on 2012 U.S. Census data, participation in fantasy sports leagues in the prior 12 months (nearly nine million adults), and those who participate two or more times weekly (nearly three million adults), was greater than attendance at horse races in the prior 12 months (6,654,000 adults) with 159,000 attending two or more times weekly.[39]

Florida Attorney General Opinions on Fantasy Sports Leagues and Contests Involving Skill

In 1991, Florida Attorney General Robert A. Butterworth issued a formal opinion[40] evaluating the legality of groups of football fans (contestants) paying for the right to manage a team under certain specified conditions. The Attorney General stated:

> You ask whether the formation of a fantasy football league by a group of football fans in which contestants pay $100 for the right to "manage" one of eight teams violates the state's gambling laws. You state that these teams are created by contestants by "drafting" players from all current eligible National Football League (NFL) members. Thus, these fantasy teams consist of members of various NFL teams.
>
> According to your letter, each week the performance statistics of the players in actual NFL games are evaluated and combined with the statistics of the other players on the fantasy team to determine the winner of the fantasy game and their ranking or standing in the fantasy league. No games are actually played by the fantasy teams; however, all results depend upon performance in actual NFL games. Following completion of the season, the proceeds are distributed according to the performance of the fantasy team.

In the contest described in the opinion, each contestant paid $100 to participate in the fantasy football league and manage one of eight teams. The resulting $800 in proceeds were used for prizes. The prizes were based upon the performance of the individual professional football players in actual games. Attorney General Butterworth determined that the proceeds qualified as a "stake, bet or wager" on the result of a contest of skill and, as a result, the operation of the fantasy sports leagues violated s. 849.14, F.S., relating to unlawful betting on the result of a trial or contest of skill.[41]

---

[37] A conviction for a second degree misdemeanor may subject the violator to a definite term of imprisonment not exceeding 60 days, and a fine not exceeding $500. *See* ss. 775.082 and 775.083, F.S.

[41] *Id*.

The 1991 opinion cited *Creash v. State*, 179 So. 149, 152 (Fla. 1938). In *Creash*, the Florida Supreme Court held:

> In gamblers' lingo, 'stake, bet or wager' are synonymous and refer to the money or other thing or value put up by the parties thereto with the understanding that one or the other gets the whole for nothing but on the turn of a card, the result of a race, or some trick of magic. A 'purse, prize, or premium' has a broader significance. *If offered by one (who in no way competes for it) to the successful contestant in a [feat] of mental or physical skill, it is not generally condemned as gambling*, while if contested for in a game of cards or other games of chance, it is so considered. [Citation omitted.] *It is also banned as gambling if created as in this case by paying admissions to the game, purchasing certificates, or otherwise contributing to a fund from which the 'purse, prize, or premium' contested for is paid*, and wherein the winner gains, and the other contestants lose all.[42] [Emphasis added.]

However, in a 1990 opinion, Attorney General Butterworth, again citing *Creash v. State*, determined that a contest of skill (such as a hole-in-one golf contest) "where the contestant pays an entry fee, which *does not make up* (i.e., create) *the prize*, for the opportunity to win a valuable prize by the exercise of skill, *did not violate the gambling laws of [Florida]*."[43] (Emphasis in original.) That 1990 opinion reasoned, "[t]hus, the payment of an entry fee to participate in a contest of skill when the sponsor of the contest does not participate in the contest of skill and where the prize money does not consist of entry fees would *not* appear to be a 'stake, bet or wager'" in violation of s. 849.14, F.S., relating to gambling. (Emphasis added.)[44]

Class III Gaming under the Indian Gaming Regulatory Act

Fantasy contests, if classified as Class III gaming, also could affect the revenue sharing provisions of the 2010 Gaming Compact.[45] Under the compact if fantasy contests are a form of new Class III gaming in Florida, payments due to the state under the compact would cease.[46]

Gambling on Indian lands is regulated by the Indian Gaming Regulatory Act of 1988 (IGRA).[47] The 2010 Gaming Compact authorizes the Seminole Tribe to conduct specified Class III gaming activities at its seven tribal facilities in Florida.[48]

[47] *See* Pub. L. 100-497, 102 Stat. 2467, codified at 18 U.S.C. ss. 1166-1168 and 25 U.S.C. s. 2701 *et seq.*
[48] *See* paragraph F of Part III of the 2010 Gaming Compact at http://www.flsenate.gov/PublishedContent/Committees/2016-2018/RI/Links/2015_Gaming_Compact,_Chart,_and_Letter_from_Governor_Scott.pdf (last visited Jan. 11, 2018). The Tribe has three gaming facilities in Broward County (The Seminole Indian Casinos at Coconut Creek and Hollywood, and the Seminole Hard Rock Hotel & Casino-Hollywood), and gaming facilities in Collier County (Seminole Indian Casino-

Under IGRA, gaming is categorized in three classes:

- **Class I** gaming means social games for minimal value or traditional forms of Indian gaming engaged in by individuals for tribal ceremonies or celebrations;
- **Class II** gaming includes bingo and pull-tabs, lotto, punch boards, tip jars, instant bingo, other games similar to bingo, and certain non-banked card games if not explicitly prohibited by the laws of the state and if played in conformity with state law; and
- **Class III** gaming includes all forms of gaming that are not Class I or Class II gaming, such as banked card games (such as baccarat, chemin de fer, and blackjack(21), casino games such as craps and roulette, electronic or electromechanical facsimiles of games of chance, slot machines, and pari-mutuel wagering.[49]

If fantasy contests are gaming, constitute Class III gaming under federal law, and constitute *new* Class III gaming in Florida (i.e., gaming not in operation as of February 1, 2010, or July 1, 2015, respectively), then authorizing fantasy contests in Florida (i.e., additional Class III gaming) violates the exclusivity provisions in the 2010 Gaming Compact and the Proposed 2015 Gaming Compact. As a result, certain revenue sharing requirements would not apply, and the Seminole Tribe would be authorized to offer similar internet/on-line gaming.

In a letter to Senator Travis Hutson and Representative Mike La Rosa dated December 5, 2017,[50] Jim Shore, General Counsel for the Seminole Tribe, indicated:

> The Tribe believes the games permitted by these bills [HB 223 and SB 374 (Fantasy Contests), and SB 840 (Gaming)] would violate the Tribe's exclusivity, as set forth in Part XII of the 2010 Gaming Compact between the State and Tribe. By providing this notice, the Tribe hopes to avoid a situation where the State enacts legislation that inadvertently violates the Tribe's exclusivity. That said, the Tribe and the State have discussed the issue of fantasy sports contests in previous compact negotiations and the Tribe remains willing to do so now. However, federal law requires that any reduction in the Tribe's exclusivity must be balanced by some additional consideration from the State. Without such an agreement, the 2010 Gaming Compact would allow the Tribe to cease all revenue sharing payments to the State based on the expanded gaming contemplated by these bills.

Immokalee), Glades County (Seminole Indian Casino-Brighton), Hendry County (Seminole Indian Casino-Big Cypress), and Hillsborough County (Seminole Hard Rock Hotel & Casino-Tampa). The 2010 Gaming Compact was approved by the U.S. Department of the Interior effective July 6, 2010. *See* 75 Fed. [50] *See* Letter from Jim Shore, General Counsel for the Seminole Tribe, to Senator Travis Hutson and Representative La Rosa (Dec. 5, 2017) (on file with the Senate Committee on Regulated Industries).

The National Indian Gaming Commission (commission) issued an opinion dated March 13, 2001,[51] relating to a sports betting game proposed for future play in Arizona and California via the Internet. In that sports betting game, players could wager upon various sporting *events*, including NFL football, baseball, golf, and the Olympics. The commission determined that game to be Class III gaming because it was not included within the definitions of Class I or Class II gaming under IGRA.

The Professional and Amateur Sports Protection Act of 1992 (PASPA)

In 1992, the U.S. Congress enacted the Professional and Amateur Sports Protection Act (PASPA),[52] which provides that it is unlawful for a governmental entity or any person to sponsor, operate, advertise, or promote:

> a lottery, sweepstakes, or other betting, gambling, or wagering scheme based . . . on one or more competitive games in which amateur or professional athletes participate, or are intended to participate, or on one or more performances of such athletes in such games.[53]

The prohibited activity is known generally as "sports betting." Governmental entities are also prohibited from licensing such activities or authorizing them by law or compact.[54] However, PASPA does not apply to pari-mutuel animal racing or jai alai games.[55] It does not apply to a lottery, sweepstakes, or other betting, gambling, or wagering conducted by a governmental entity between January 1, 1976, and August 31, 1990.[56]

The prohibition against sports betting also does not apply to a lottery, sweepstakes, or other betting, gambling, or wagering lawfully conducted, where such activity was authorized by law on October 2, 1991, and was conducted in a state or other governmental entity at any time between September 1, 1989, and October 2, 1991.[57]

In a case pending before the United States Supreme Court, the State of New Jersey has challenged the constitutionality of PASPA, on the basis that PASPA "commandeers" or impermissibly controls the regulatory power of states relating to the legalization of sports betting, thereby violating the Tenth Amendment to the U.S. Constitution.[58] The respondents (the

National Collegiate Athletic Association, the National Basketball Association, the National Football League, the National Hockey League, and the Office of the Commissioner of Baseball) defend PASPA's pre-emption of state laws that authorize sports gambling as a valid exercise of congressional power to regulate commerce.[59] The Court's decision in the case is anticipated no later than June 29, 2018.

The Unlawful Internet Gambling Enforcement Act of 2006 (UIGEA)

The Unlawful Internet Gambling Enforcement Act of 2006 (UIGEA)[60] was signed into law by President George W. Bush on October 13, 2006.[61] Internet gambling is not determined to be legal in a state, nor illegal. Instead, UIGEA targets financial institutions in an attempt to prevent the flow of money from an individual to an internet gaming company. Congress found that enforcement of gambling laws through new mechanisms "are necessary because traditional law enforcement mechanisms are often inadequate for enforcing gambling prohibitions or regulations on the Internet, especially where such gambling crosses State or national borders."[62] UIGEA expressly states that none of its provisions "shall be construed as altering, limiting, or extending any Federal or State law or Tribal-State compact prohibiting, permitting, or regulating gambling within the United States."[63]

"Unlawful internet gambling" prohibited by UIGEA includes the placement, receipt, or transmission of certain bets or wagers.[64] However, the definition of the term "bet or wager" specifically excludes any fantasy game or contest in which a fantasy team is not based on the current membership of a professional or amateur sports team, and:

- All prizes and awards are established and made known to the participants in advance of the game or contest;
- Prize amounts are not based on the number of participants or the amount of entry fees;
- Winning outcomes reflect the relative knowledge and skill of the participants and are determined predominantly by accumulated statistical results of the performance of individuals or athletes in multiple "real-world sporting or other events;" and
- No winning outcome is based:
  - On the score, point-spread, or any performance or performances of any single "real-world" team or combination of teams; or
  - Solely on any single performance of an individual athlete in any single "real-world sporting or other event."[65]

While UIGEA excludes bets or wagers of participants in certain fantasy sports games and contests,[66] it does not, however, authorize fantasy contests and activities in Florida.

Effect of Proposed Changes:

Section 3 creates s. 546.13, F.S., to authorize certain fantasy contests in which participants must pay an entry fee. Section 546.13(1), F.S., provides requirements for fantasy contests and associated definitions.

"Entry fee" means cash or a cash equivalent required to be paid by a person for the ability to participate in a fantasy contest offered by a fantasy contest operator.

"Fantasy contest operator" means a person or entity, including any employee or agent, that offers fantasy contests with an entry fee for a cash prize but is not a participant in the fantasy contest. The term does not include an individual who serves as the commissioner of no more than 10 fantasy contests in a calendar year. The term "commissioner" is not defined in the bill, but has been used in the context of fantasy baseball leagues to denote a person who manages a fantasy baseball league, establishes league rules, resolves disputes over rule interpretations, and publishes league standings or selects the Internet service for publication of league standings.[67]

A "fantasy contest" is a fantasy or simulated game in which:

- The value of all prizes and awards offered to winning participants must be established and disclosed to the participants in advance of the contest;
- All winning outcomes reflect the relative knowledge and skill of contest participants and are determined predominantly by accumulated statistical results of the performance of individuals, including athletes in the case of sporting events; and
- No winning outcome is based:
  - On the score, point spread, or any performance or performances of any single actual team or combination of teams;
  - Solely on any single performance of an individual athlete or player in any single actual event; or
  - On the performances of participants in collegiate, high schools, or youth sporting events.

The bill provides that the Department of Business and Professional Regulation (DBPR) may not regulate fantasy contests and the offenses in ss. 849.01, 849.08, 849.09, 849.11, 849.14, or 849.25, F.S., relating to gambling, lotteries, games of chance, contests of skill, or bookmaking do not apply to a fantasy contest operated or conducted by:

- A fantasy contest operator; or
- A natural person, who is a participant in the fantasy contest, serves as the commissioner of not more than ten contests in a calendar year, and distributes all contest entry fees as prizes or awards to the participants in that fantasy contest.

If the 2018 Gaming Compact between the Seminole Tribe and the state. which is ratified in Section 1 of this bill, becomes effective, the provisions in this bill relating to fantasy contests will not cause any impact to the revenues to be paid to the state by the Seminole Tribe because fantasy contests, as authorized under this bill, are excluded from the consequences associated

with any future authorization of internet gaming and are an exception to the exclusivity granted to the Seminole Tribe under that compact.

Regulation of Pari-Mutuel Wagering (Section 4)

Present Situation:

The Division of Pari-mutuel Wagering (division) in the Department of Business and Professional Regulation (DBPR) regulates pari-mutuel wagering. The division has regulatory oversight of permitted and licensed pari-mutuel wagering facilities, cardrooms located at pari-mutuel facilities, and slot machines at pari-mutuel facilities located in Miami-Dade and Broward counties. According to the division, there were 10 license suspensions, and $107,655 in fines assessed for violations of all pari-mutuel statutes and administrative rules in Fiscal Year 2015-2016.[68]

According to the latest information available from the DBPR, as of February 2017, there were 39 pari-mutuel permitholders with operating licenses[69] in Florida, operating at 12 greyhound tracks, six jai alai frontons, five quarter horse tracks, three thoroughbred tracks, and one harness track.[70] One jai alai permitholder voluntarily relinquished its permit in 2016.[71] Jai alai games were conducted pursuant to a new permitholder license beginning in June 2017 at a new jai alai fronton in Florida City (Miami-Dade County).[72]

Of the 19 greyhound racing permitholders with operating licenses during Fiscal Year 2016-2017, six permitholders conducted races at leased facilities.[73] Five pari-mutuel facilities have two

[73] According to information in the 2015-2016 Annual Report from the Division of Pari-Mutuel Wagering, *available at* http://www.myfloridalicense.com/dbpr/pmw/documents/AnnualReports/AnnualReport-2015-2016--85th--20170125.pdf, at pp. 29 - 33 of the online Annual Report (equivalent to pp. 25- - 29 the printed Annual Report),(last visited Jan. 11, 2018), both Jacksonville Kennel Club and Bayard Raceways (St. Johns Greyhound Park) conduct races at Orange Park Kennel Club; H&T Gaming conducts racing at Mardi Gras; Palm Beach Greyhound Racing conducts racing at Palm Beach Kennel Club; Tampa Greyhound conducts races at St. Petersburg Kennel Club (Derby Lane); West Volusia Racing conducts races at Daytona Beach Kennel Club; Dania Summer Ja Alai conducts games at Dania Jai Alai; Tropical Park conducts races at Gulfstream Park.

permits operating at those locations.[74] One greyhound racing permitholder's operating license was suspended late in 2014.[75]

There are 11 permitholders that do not have operating licenses for Fiscal Year 2017-2018: two greyhound,[76] three jai alai,[77] one limited thoroughbred,[78] and five quarter horse.[79]

Issuance of Pari-Mutuel Permits and Annual Licenses

Section 550.054, F.S., provides that any person meeting the qualification requirements of ch. 550, F.S., may apply to the division for a permit to conduct pari-mutuel wagering. Upon approval, a permit must be issued to the applicant that indicates:

- The name of the permitholder;
- The location of the pari-mutuel facility;
- The type of pari-mutuel activity to be conducted; and
- A statement showing qualifications of the applicant to conduct pari-mutuel performances under ch. 550, F.S.

A permit does not authorize any pari-mutuel performances until approved by a majority of voters in a ratification election in the county in which the applicant proposes to conduct pari-mutuel wagering activities. An application may not be considered, nor may a permit be issued by the division or be voted upon in any county, for the conduct of:

- Harness horse racing, quarter horse racing, thoroughbred horse racing, or greyhound racing at a location within 100 miles of an existing pari-mutuel facility; or
- Jai alai games within 50 miles of an existing pari-mutuel facility.

Distances are measured on a straight line from the nearest property line of one pari-mutuel facility to the nearest property line of the other facility.[80]

After issuance of the permit and a ratification election, the division may issue an annual operating license for wagering at the specified location in a county, indicating the time, place,

and number of days during which pari-mutuel operations may be conducted at the specified location.[81]

The Definition of a "Full Schedule of Live Racing or Games"

Current law provides complex requirements for what constitutes a "full schedule of live racing or games:"

- For a greyhound or jai alai permitholder, at least 100 live evening or matinee performances during the preceding year;
- For a permitholder who has a converted permit . . . at least 100 live evening and matinee wagering performances during either of the two preceding years;
- For a jai alai permitholder who does not operate slot machines . . ., who has conducted at least 100 live performances per year for at least 10 years after December 31, 1992, and whose handle on live jai alai games . . . has been less than $4 million per state fiscal year for at least two consecutive years after June 30, 1992, . . . at least 40 live evening or matinee performances during the preceding year;
- For a jai alai permitholder who operates slot machines . . ., at least 150 performances during the preceding year;
- For a harness permitholder, the conduct of at least 100 live regular wagering performances during the preceding year;
- For a quarter horse permitholder at its facility unless an alternative schedule of at least 20 live regular wagering performances is agreed upon by the permitholder and either the Florida Quarter Horse Racing Association or the horsemen's association representing the majority of the quarter horse owners and trainers at the facility and filed with the division along with its annual date application, in the Fiscal Year 2010-2011, . . . at least 20 regular wagering performances, in Fiscal Year 2011-2012 and Fiscal Year 2012-2013, . . . at least 30 live regular wagering performances, and for every fiscal year after Fiscal Year 2012-2013, . . . at least 40 live regular wagering performances;
- For a quarter horse permitholder leasing another licensed racetrack, the conduct of 160 events at the leased facility;
- For a thoroughbred permitholder, the conduct of at least 40 live regular wagering performances during the preceding year; and
- For a permitholder restricted by statute to certain operating periods within the year when other similar permitholders are authorized to operate throughout the year, the specified number of live performances which constitute a full schedule of live racing or games is calculated pro rata based on the authorized operating period and the full calendar year, and the resulting number of live performances is the full schedule of live games for such permitholder and all other permitholders of the same class within 100 air miles of such permitholder.[82]

A "performance" is a minimum of eight consecutive live races.[83] At least three live performances must be held at a track each week.[84] When a permitholder conducts at least three live

[81] *See* s. 550.054(9)(a), F.S.
[82] *See* s. 550.002(11), F.S.
[83] Section 550.002(25), F.S.
[84] Section 550.002(11), F.S.

performances in a week,[85] it must pay purses (cash prizes to participants) on wagers accepted at the track on certain greyhound races run at other tracks (in Florida or elsewhere).[86] In order to receive an operating license, permitholders must have conducted a full schedule of live racing during the preceding year.[87]

If a permitholder does not conduct all of the performances specified in its operating license, the division may determine whether to fine the permitholder or suspend[88] the license, unless the failure is due to certain events beyond the permitholder's control. Financial hardship itself is not an acceptable basis to avoid a fine or suspension.[89]

The conduct of a full schedule of live racing or games is a condition of licensure for a slot machine licensee,[90] and the conduct of a minimum number of live races is a condition of renewal for a cardroom license.[91]

Effect of Proposed Changes:

License Applications by Permitholders and Decoupling

Section 4 amends s. 550.01215, F.S., relating to operating license applications filed annually with the division by pari-mutuel permitholders for licenses for the next fiscal year (July 1 through June 30).

In general, permitholders, including those that do not conduct live performances, are required to file an application for a license to conduct pari-mutuel wagering, including intertrack wagering and simulcast wagering. Permitholders accepting wagers on intertrack and simulcast events are required to disclose the dates of all those events in their license application. For the 2018-2019 Fiscal Year only, the division may approve changes in racing dates for permitholders, if the requests are received before May 31, 2018.

Greyhound Racing Permitholders

Certain greyhound racing permitholders[92] are authorized to specify in their operating license applications that they will not conduct live racing or will conduct less than a full schedule of live racing or games (i.e., decouple), while they continue to operate their licensed slot machine

[85] The performances may be during the day or in the evenings, as set forth in the schedule that is part of the operating license issued by the division.
[86] Section 550.09514(2)(c), F.S.
[87] Section 550.002(11), F.S. In accordance with s. 550.002(38), F.S., a full schedule of live racing is calculated from July 1 to June 30, the state fiscal year.
[88] After Jefferson County Kennel Club failed to conduct scheduled performances, its operating license was suspended September 22, 2014 under a consent order a*vailable at* http://www.myfloridalicense.com/dbpr/pmw/documents/Licenses/PMW--Consent Order--JEFFERSON_COUNTY_KENNEL_CLUB_INC--146--2014-09-23--20141023.pdf (last visited Jan. 11, 2018).
[89] Section 550.01215(4), F.S.
[90] Section 551.104(4)(c), F.S.
[91] Section. 849.086(5)(b), F.S.
[92] Those that conducted a full schedule of live racing for a period of at least 10 consecutive state fiscal years after the state Fiscal Year 1996-1997, or that converted a permit to a permit to conduct greyhound racing after that state fiscal year.

facilities and/or cardrooms, if any, pursuant to ch. 551, F.S., and s. 849.086, F.S., as amended by the bill.

Decoupled greyhound permitholders retain their pari-mutuel permits, are pari-mutuel facilities as defined in s. 550.002(23), and remain eligible, but not required, to be a guest track for purposes of intertrack wagering and simulcasting.

Harness Horse Racing and Quarter Horse Racing Permitholders

Section 4 provides that harness horse racing permitholders and quarter horse racing permitholders that have conducted live racing for at least five years may discontinue live racing (i.e., decouple), if the irrevocable election to discontinue live racing is made during the 30-day period after the effective date of the bill.

A harness horse racing permitholder or quarter horse racing permitholder that makes the irrevocable election to decouple may retain its permit and is a pari-mutuel facility as defined in s. 550.002(23), F.S.

A decoupled harness horse racing permitholder is eligible, but not required, to be a *host* track for purposes of intertrack wagering and simulcasting; a decoupled quarter horse racing permitholder is eligible, but not required, to be a *guest* track for purposes of intertrack wagering and simulcasting.

Section 4 provides that a decoupled harness horse racing permitholder or a decoupled quarter horse racing permitholder may continue to operate its slot machine facility, if any, and cardroom, if any, pursuant to ch. 551, F.S., and s. 849.086, F.S., as amended by the bill.

If the 2018 Gaming Compact between the Seminole Tribe and the state, which is ratified in Section 1 of this bill, becomes effective, the provisions in this bill relating to decoupling will not cause any impact to the revenues to be paid to the state by the Seminole Tribe because the decoupling of greyhound racing permitholders, quarter horse racing permitholders and harness horse racing permitholders is permitted under that compact and is not a violation of the exclusivity granted to the Seminole Tribe under that compact.

Prohibition on Issuance of Additional Pari-Mutuel Permits, Revocation of Dormant Permits, and Repeal of the Authority to Issue New Summer Jai Alai Permits

Present Situation:

The permit of a harness horse permitholder or thoroughbred horse permitholder that does not pay tax on handle for live performances for a full schedule of live races during any two consecutive state fiscal years is void and escheats to and becomes property of the state, unless the failure to operate and pay tax on handle is the direct result of fire, strike, war, or other disaster or event beyond the ability of the permitholder to control.[93] Financial hardship of the permitholder does not constitute just cause for either failure.[94]

[93] *See* s. 550.09512(3), F.S. and s. 550.09515(3), F.S.
[94] *Id.*

An escheated harness horse permit or thoroughbred horse permit must be reissued by the division to a qualified applicant, using the procedures mandated for issuance of an initial permit. The requirements for a referendum before issuance of a pari-mutuel permit do not apply to reissuance of an escheated harness horse or thoroughbred horse permit.[95]

Pursuant to s. 550.054(9)(b), F.S., the division may revoke or suspend any permit or license upon the willful violation by the permitholder or licensee of any provision of ch. 550, F.S., or any administrative rule adopted by the division.

Section 550.0745 authorizes, under certain circumstances, the conversion of a pari-mutuel permit to a summer jai alai permit, for the conduct of jai alai games only during the summer season. Provisions of law prohibiting the location and operation of jai alai frontons within a specified distance from the location of another jai alai fronton or other permitholder, which prohibit the division from granting any permit at a location within a certain designated area, are inapplicable to summer jai alai permits issued pursuant to s. 550.0745, F.S.

The issuance of limited thoroughbred racing permits (through conversion from a quarter horse permit) is authorized in s. 550.3345, F.S. A limited thoroughbred racing permit authorizes the conduct of live thoroughbred horseracing, with net revenues dedicated to the enhancement of thoroughbred purses and breeders', stallion, and special racing awards under ch. 550, F.S., promotion of the thoroughbred horse breeding industry, and the care of retired thoroughbred horses in Florida.

Effect of Proposed Changes:

Section 5 amends s. 550.054, F.S., relating to applications for pari-mutuel wagering permits, to:

- Require the division to revoke a permit if the permitholder: (a) has not obtained an operating license for a period of more than 24 consecutive months after June 30, 2012, or (b) fails to make payments for taxes due on handle for more than 24 months, unless the failure to obtain an operating license was the direct result of fire, strike, war, or other disaster or event beyond the permitholder's control. Financial hardship of the permitholder does not constitute just cause for either failure. A revoked permit may not be reissued.
- Provide that a new pari-mutuel permit may not be approved or issued after January 1, 2018.
- Provide that a pari-mutuel license may not be transferred or reissued so as to change the location of a pari-mutuel facility, cardroom, or slot machine facility.
- Delete authority for the transfer of a thoroughbred permit to another racetrack and for conversion of a jai alai permit to a greyhound racing permit, except through the relocation of the pari-mutuel permit pursuant to s. 550.0555, F.S.
- Repeal provisions authorizing conversion and relocation of pari-mutuel permits, cardrooms, or slot machine facilities.

Section 6 repeals s. 550.0745, F.S., relating to summer jai alai permits.

[95] *See* ss. 550.09512(3)(b) and 550.09515(3)(b), F.S.

Sections 7 and **8** amend s. 550.09512, F.S., relating to harness horse racing, and s. 550.09515, F.S., relating to thoroughbred racing, respectively, to:

- Require the division to revoke a harness or thoroughbred horse racing permit that has not paid the tax due on the handle for a full live schedule of harness or thoroughbred racing for more than 24 consecutive months, unless the failure to operate and pay tax was the direct result of fire, strike, war, or other disaster or event beyond the permitholder's control. A revoked permit is void and may not be reissued.
- Repeal a provision allowing reissuance of a revoked harness or thoroughbred horse permit that has been revoked for nonpayment of taxes.

Section 9 amends s. 550.3345, F.S., to delete provisions authorizing conversion of quarter horse racing permits to limited thoroughbred racing permits.

Slot Machine Gaming and Decoupling (Sections 10 and 11)

Present Situation:

Chapter 551, F.S., authorizes slot machine gaming at the location of certain licensed pari-mutuel locations in Miami-Dade County or Broward County and provides for state regulation.[96] Currently eight facilities in Miami-Dade and Broward counties are authorized to operate slot machines. Voters in each county approved slot machine facilities after an amendment to the state Constitution was approved in 2004.[97]

Section 550.475, F.S., allows a pari-mutuel permitholder with a valid permit for the conduct of any jai alai games, greyhound racing, or thoroughbred and harness (Standardbred) horse racing in this state to lease any and all of its facilities to any other permitholder of a same class with a valid permit, when located within a 35-mile radius of each other, and the lessee is entitled to a permit and license to operate its race meet or jai alai games at the leased premises.

Effect of Proposed Changes:

Section 10 revises conditions for licensure and for maintaining continued authority for conducting slot machine gaming to reflect that certain pari-mutuel permitholders are authorized to discontinue conducting live racing or games (i.e., decouple). Section 10 authorizes a permitholder with a slot machine license to receive an operating license to conduct pari-mutuel wagering activities at another pari-mutuel facility, if the permitholder has operated its live races or games by lease for at least five consecutive years immediately prior to the permitholder's application for a slot machine license; however, the permitholders must be located within 35 miles of each other.[98]

Section 10 requires a slot machine licensee that chooses not to run a full schedule of live racing or games, (i.e., decouple), to make payments for the benefit of live thoroughbred horse racing purses. If a slot machine licensee is not running a full schedule of live racing or games under its pari-mutuel permit, then the decoupled licensee must remit each month to each qualified

[96] *See* ch. 551, F.S., relating to the regulation of slot machine gaming at pari-mutuel locations.
[97] *See* FLA. CONST., art. IX, s. 23 (1968).
[98] *See* s. 550.475, F.S., and lines 267 to 285 of the bill.

thoroughbred permitholder, by the fifth day of each calendar month[99] via electronic funds transfer instructions provided by the permitholder, an amount equal to one-twelfth of the lesser of $1.5 million or 2.75 percent of the permitholder's prior fiscal year slots revenue, divided by the total number of qualified thoroughbred permitholders for that fiscal year. A qualified thoroughbred permitholder must use such payments exclusively for purses and awards for live thoroughbred horse races held at that permitholder's racing facility.

The term "qualified thoroughbred permitholder":

- Does not include limited thoroughbred permitholders or thoroughbred permitholders leasing a racetrack facility from another thoroughbred permitholder.
- Includes thoroughbred permitholders conducting no less than a full schedule of live racing, and no fewer than the number of performances conducted in Fiscal Year 2017-2018.

The division must, within 15 days of issuing a slot machine license to a decoupled permitholder, notify the licensee of the qualified thoroughbred permitholders to which payments must be paid. A qualified thoroughbred permitholder that receives those funds must remit, within 10 days of receipt, ten percent of the funds to the Florida Thoroughbred Breeders' Association, Inc., for payment of breeders', stallion, and special racing awards, subject to the fee authorized in s. 550.2625(3), F.S.[100]

Slot Machines Tax Rate Reduction (Section 11)

Present Situation:

The tax rate on slot machine revenues is 35 percent under s. 550.106(2), F.S. If, during any state fiscal year, the aggregate amount of tax paid to the state by all slot machine licensees in Broward and Miami-Dade counties is less than the aggregate amount of tax paid to the state by all slot machine licensees in the 2008-2009 fiscal year, each slot machine licensee must pay to the state, within 45 days after the end of the state fiscal year, a surcharge equal to its pro rata share of an amount equal to the difference between the aggregate amount of tax paid to the state by all slot machine licensees in the 2008-2009 fiscal year and the amount of tax paid during the fiscal year that resulted in the revenue shortfall. All revenue from slot machine gaming is deposited into the Educational Enhancement Trust Fund of the Department of Education.

Effect of Proposed Changes:

Section 11 amends s. 551.106, F.S., to:

- Reduce the tax rate for slot machine revenues to 30 percent, effective January 1, 2018, and to 25 percent effective July 1, 2019.
- Require that if, in any state fiscal year, the aggregate amount of tax paid to the state by all the slot machine licensees in Broward and Miami-Dade counties is less than the aggregate amount paid in the 2017-2018 state fiscal year, each of those licensees must pay a surcharge calculated by dividing the aggregate amount of slot machine taxes paid to the state by all

[99] The bill provides if the fifth day of the calendar month falls on a weekend, the payment must be remitted on the first Monday following the weekend.

[100] Section 550.2625(3), F.S, states the Florida Thoroughbred Breeders' Association has the right to withhold up to 10 percent of a permitholder's payments under that section as a fee for administering the payments of awards and for general promotion of the horse racing industry.

such slot machine licensees in the 2017-18 fiscal year by the aggregate amount of slot machine taxes paid by all such licensees during the applicable fiscal year, multiplying the result by the amount of slot machine taxes paid by the licensee during the applicable state fiscal year, and then subtracting from that product the amount of slot machine taxes paid by the licensee during the applicable state fiscal year. However, the sum of taxes paid by a licensee at the reduced tax rates and any surcharge may not exceed 35 percent of the licensee's slot machine revenue in the applicable state fiscal year.

- Remove obsolete language relative to the slot machine license fee for Fiscal Year 2010-2011.

If the 2018 Gaming Compact between the Seminole Tribe and the state, which is ratified in Section 1 of this bill becomes effective, the provisions in this bill relating to the taxation of slot machine revenues will not cause any impact to the revenues to be paid to the state **by the Seminole Tribe** because the reduction of the tax on slot machine revenues is permitted under that compact and is not a violation of the exclusivity granted to the Seminole Tribe under that compact. Slot machine tax revenues are likely to be reduced by this provision.

Cardrooms and Designated Player Games (Section 12)

Present Situation:

Chapter 849, F.S., authorizes cardrooms at certain pari-mutuel facilities.[101] In Fiscal Year 2017-2018, 25 cardrooms are authorized to operate.[102] Cardrooms are operated by 14 greyhound permitholders, five jai alai permitholders, one harness horse racing permitholder, three quarter horse racing permitholders, and two thoroughbred racing permitholders.[103] A license to offer pari-mutuel wagering, slot machine gaming, or a cardroom at a pari-mutuel facility is a privilege granted by the state.[104]

Section 849.086, F.S., provides that a licensed pari-mutuel permitholder that holds a valid pari-mutuel permit and license to conduct a full schedule of live racing or games may hold a cardroom license authorizing the operation of a cardroom and the conduct of authorized games at the cardroom. An authorized game is a game or series of games of poker or dominoes.[105] Such games must be played in a non-banking manner,[106] where the participants play against each

[101] Section 849.086, F.S. Section 849.086(2)(c), F.S., defines "cardroom" to mean a facility where authorized games are played for money or anything of value and to which the public is invited to participate in such games and charges a fee for participation by the operator of such facility.
[102] *See* http://www.myfloridalicense.com/dbpr/pmw/PMW-PermitholderOperatingLicenses--2017-2018.html (last visited Jan. 11, 2018).
[103] Cardroom locations, by class of permit held are: (1) greyhound racing: Bonita Springs (Lee Co.), Daytona Beach (Volusia Co.), Ebro (Washington Co.), Hallandale Beach (Broward Co.), Melbourne (Brevard Co.), Miami (Miami-Dade Co.) Orange Park (Clay Co.), Pensacola (Escambia Co.), St. Petersburg (Pinellas Co.), and West Palm Beach (Palm Beach. Co.); (2) jai alai: Dania Beach (Broward Co.), Ft. Pierce (St. Lucie Co.), Florida City and Miami (Miami-Dade Co.), and Reddick (Marion Co.); (3) quarter horse: Gretna (Gadsden), Hialeah (Miami-Dade Co.) and Summerfield (Marion Co.); and (4) thoroughbred racing: Hallandale Beach (Broward Co.), and Tampa (Hillsborough Co.).
[104] *See* s. 550.1625(1), F.S., "…legalized pari-mutuel betting at dog tracks is a privilege and is an operation that requires strict supervision and regulation in the best interests of the state." *See also Solimena v. State,* 402 So.2d 1240, 1247 (Fla. 3d DCA 1981), review denied, 412 So.2d 470, which states "Florida courts have consistently emphasized the special nature of legalized racing, describing it as a privilege rather than as a vested right," citing *State ex rel. Mason v. Rose,* 122 Fla. 413, 165 So. 347 (1936).
[105] *See* s. 849.086(2)(a), F.S.
[106] *Id.*

other, instead of against the house (cardroom). At least four percent of the gross cardroom receipts of greyhound racing permitholders and jai alai permitholders must supplement greyhound purses, and quarter horse permitholders must have a contract with a horsemen's association governing the payment of purses on live quarter horse races conducted by the permitholder.[107]

Renewal of a cardroom license requires that a permitholder must, in its annual pari-mutuel license application, request to conduct at least 90 percent of the performances conducted either (1) in the year in which its first cardroom license was issued, or (2) in the state fiscal year immediately prior to the application if a full schedule of live racing was conducted ("90 percent rule").[108] If more than one permitholder is operating at a facility, each permitholder must have applied for a license to conduct a full schedule of live racing.[109]

Eleven of the 12 greyhound racing locations have cardrooms. As a result of the "90 percent rule," the required minimum of live performances varies among greyhound racing permitholders, from 93 to 394 performances.[110]

There is only one harness horse racing permitholder, and it has a cardroom. The permitholder must request authorization to conduct a minimum of 140 live performances during the state fiscal year immediately prior to its application for an operating license.[111] As a result of the "90 percent rule," the required minimum of live performances for the harness horse racing permitholder is 126 performances.[112]

Five of the six jai alai permitholders have cardrooms. As a result of the "90 percent rule," the required minimum of live performances varies among jai alai permitholders, from 36 to 150 performances.[113]

Three of the five quarter horse permitholders have cardrooms. As a result of the "90 percent rule," the required minimum of live performances varies among quarter horse permitholders, from 18 to 40 performances.[114]

Two of the three thoroughbred permitholders have cardrooms. As a result of the "90 percent rule," the required minimum of live performances varies among thoroughbred racing permitholders, from 40 to 81 performances.[115]

If more than one permitholder is operating at a facility, each permitholder must have applied for a license to conduct a full schedule of live racing.[116]

State Litigation Challenging DBPR's Administrative Rules Relating to Designated Player Games

In July 2014, the Division of Pari-Mutuel Wagering (division) of the Department of Business and Professional Regulation (DBPR) adopted two administrative rules relating to the play of Designated Player Games.[117] Under the rules, a designated player game is not authorized if it is not played in compliance with house rules required to be available for review by players or the division, which must:

- Establish uniform requirements to be a designated player;
- Ensure that the dealer button rotates clockwise around the card table for each hand, so that all players desiring to be a designated player have the opportunity to do so; and
- Not require the designated player to cover all potential wagers.[118]

Banking games are defined in current law as those in which the house is a participant.[119] Designated player[120] games, if conducted as defined in Rule 61D-11.002(5), Florida Administrative Code, were not considered by the DBPR to be banking games.

The division pursued additional rulemaking concerning Designated Player Games in September 2014, to "address issues discovered in the implementation and practical application of [the July 2014] cardroom rules."[121] In October 2015, the division proposed to repeal the rule defining the term "designated player" as "the player identified by the button in the dealer position" and the rule establishing the standards for Designated Player Games.[122]

Various cardroom operators challenged the repeal of the rules in December 2015. In August 2016, Administrative Law Judge Gary Early of the Division of Administrative Hearings found:

> The evidence is conclusive that, by its repeal of rule 61D-11.002(5), Respondent simply changed its mind as to whether playing with a designated player constituted the establishment of a prohibited banking game. [Footnote omitted.] It previously determined that such games were lawful under the terms of section 849.086 [F.S.]; it has now determined they are not.[123]

Judge Early determined the division:

> Has taken divergent views of the statute in a manner that has substantially affected the interests of [cardroom operators]. For [the division] to suggest

[117] *See* Fla. Admin. Code R. 61D-11.001(17) and R. 61D-002(5) (2018) at https://www.flrules.org/gateway/ChapterHome.asp?Chapter=61D-11 (last visited Jan. 11, 2018).
[118] *Id*. and *see* Fla. Admin. Code R. 61D-11.002(3) and (5) (2017).
[119] Section 849.086(2)(b), F.S.
[120] Fla. Admin. Code R. 61D-11.001(17) (2018) defines "designated player" as the "player identified by the button as the dealer in the player position."
[121] *See Dania Entertainment Center, LLC. v. Dep't of Bus. and Prof. Reg., Div. of Pari-mutuel Wagering, (Dania Entertainment)* Case No. 15-7010RP (Fla DOAH 2016) at page 17.at https://www.doah.state.fl.us/ROS/2015/15007010.pdf (last visited Jan. 11, 2018).
[122] *Id*. at p. 18.
[123] *See Dania Entertainment* at pp. 24-25.

> that its repeal of the rules is a clarification, a simplification, or reflection of the unambiguous terms of the statute, and that [the cardrooms] should just tailor their actions to the statute without any interpretive guidance from [the division], works contrary to the role of government to provide meaningful and understandable standards for the regulation of business in Florida. [The division] cannot, with little more than a wave and well-wishes, expect regulated businesses to expose themselves to liability through their actions under a statute that is open to more than more one interpretation, when the agency itself has found it problematic to decipher the statute under which it exercises its regulatory authority.[124]

In November 2017, the Florida First District Court of Appeal (DCA) affirmed Judge Early's ruling that the proposed repeal of the Designated Player Games rules was invalid.[125] The DCA stated the ruling correctly found that repeal of the rules was a rule itself because it was a change of the DBPR's policy on Designated Player Games[126] However, the DCA declined to adopt Judge Early's finding that the division "lacked the authority to either promulgate or to repeal rules" on Designated Player Games, noting that the role of the division "is to provide meaningful and understandable standards for cardrooms, particularly where a statute is ambiguous."[127]

Federal Litigation Concerning the 2010 Gaming Compact and Banked Card Games (including Player Banked Card Games with a Designated Player) and Settlement

As discussed above in connection with the 2018 Gaming Compact authorized in this bill, the state and the Seminole Tribe were parties to litigation in federal court relating to the offering of table games by the Seminole Tribe after July 31, 2015.
As to the banked card games issue, Judge Hinkle found:

- The 2010 Gaming Compact defines 'Covered Games' to include 'banking or banked card games, including baccarat, chemin de fer, and blackjack (21);[128]
- Under s. 849.086, F.S., licensed pari-mutuel facilities may operate cardrooms, but the statute explicitly forbids "banking" card games;[129]
- Baccarat, chemin de fer, and blackjack are all games in which there is no common pot, and the players do not compete against one another;

[124] *Id*. at page 25.
[125] *See Dep't of Bus. and Prof. Reg., Div. of Pari-Mutuel Wagering v. Dania Entertainment Center, et al.* 229 So.3d 1259 (Fla. 1st DCA 2017) at https://edca.1dca.org/DCADocs/2016/4275/164275_1284_11082017_08460223_i.pdf (last visited Jan. 11, 2018).
[126] *Id*. The DCA also affirmed the finding that the Division of Pari-Mutuel Wagering (division) of the DBPR failed to follow required rulemaking procedures by not preparing a statement of estimated regulatory costs (SERC). *Id*. at pp. 11-12.
[127] *Id*. at page 14.
[128] *See Seminole Tribe of Florida v. State of Florida, 219 F.Supp. 3d 1177 (N.D. Fla. Nov. 9, 2016), Case No.: 4:15-cv-516-RH/CAS, Document 103*, at pp. 4-5.
[129] *Id*. at p. 5, and *see* s. 849.086(12)(a), F.S. The court further held "[b]ecause of this statute, the Tribe's authority under the Compact to conduct banked card games afforded the Tribe the right to conduct bank card games without competition from cardrooms. This was perhaps the most important benefit the Tribe obtained under the Compact. **The most important benefit to the State was more than a billion dollars.** Because IGRA prohibits a state from receiving a share of a tribe's gaming revenue except to defray expenses or in exchange for a benefit conferred on the tribe, **the Tribe's billion-dollars-plus payments to the State under the Compact were justified in large part as compensation for the exclusive right to conduct banked card games** – exclusive, that is, except for any competition from other tribes or other types of games." *Id*. at pp. 5-6. (Emphasis added.)

- A bank pays the winners and collects from the losers;
- In baccarat and blackjack, the bank is most often a dealer employed by the facility – in effect, the facility itself, commonly denominated the 'house;'
- In chemin de fer, the bank is always one of the players; and
- Under the 2010 Gaming Compact and [Indian Game Regulatory Act], banked games include both house banked games and player-banked games.[130]

Section 849.086(2)(b), F.S., defines a 'banking game' as a game in which:
- The house is a participant in the game, taking on players, paying winners, and collecting from losers; or
- The cardroom establishes a bank against which participants play.

The court found that:
- The first part of the definition in [1] describes a house banked game, one played in the manner that is typical for blackjack and baccarat;
- The second part of the definition in [2] describes a game banked by anyone else, including a player; that is, a game played in the manner of chemin de fer;[131]
- When the cardroom devises and runs the game and sets the rules, including the requirement that a player act as the bank, the cardroom 'establishes' a bank;
- Florida law does not state that a game is not 'banked' when the bank is a player rather than the house;
- There were no player-banked card games at pari-mutuel cardrooms when the parties entered into the 2010 Gaming Compact;
- The parties did not expect the Seminole Tribe to have to compete against such games; and
- The DBPR permitted cardrooms to conduct banked games as early as 2011, formally approved the practice by adopting a rule in 2014, continues to permit the games, and asserts the rule is currently valid.

After the DBPR's appeal of Judge Hinkle's decision,[132] the Seminole Tribe and the DBPR entered into a Settlement Agreement and Stipulation (2017 Settlement) on July 5, 2017.[133]

Authorization of Designated Player Games in Florida (i.e., player banked card games with a designated player) could affect the revenue sharing provisions of the 2010 Gaming Compact[134] Judge Hinkle found Designated Player Games to be banked card games, a form of Class III gaming. The Settlement Agreement that the state entered with the Seminole Tribe provides that

[130] *See Seminole Tribe of Florida v. State of Florida*, Case No.: 4:15-cv-516-RH/CAS (U.S.D.C. N.D. Fla.), Document 103, filed Nov. 9, 2016, at p. 9.
[131] *Id*. at p. 10.
[132] *See Seminole Tribe of Florida v. State of Florida*, 219 F.Supp. 3d 1177 (N.D. Fla. Jan. 19, 2017), Case No.: 4:15-cv-516-RH/CAS, Document 120.
[133] *See* Settlement Agreement and Stipulation (2017 Settlement) (July 5, 2017) (on file with the Senate Committee on Regulated Industries).
[134] *See* paragraph A of Part XII of the 2010 Gaming Compact at http://www.flsenate.gov/. . .RI/Links/Gaming Compact between The Seminole Tribe of Florida and the State of Florida.pdf (last visited Jan. 11, 2018).

Judge Hinkle's findings of fact and conclusions of law are binding on the State and the Seminole Tribe. Accordingly, payments due to the state under the 2010 Compact could cease.[135]

Additionally, the Tribe would also be authorized to offer Designated Player Games, because each compact provides the Tribe is authorized to offer "any new game authorized by Florida law for any person for any purpose.[136]

If the 2018 Gaming Compact between the Seminole Tribe and the state, which is ratified in Section 1 of this bill, becomes effective, the provisions in this bill relating to Designated Player Games will not cause any impact to the revenues to be paid to the state by the Seminole Tribe because the games are permitted under that compact and are not a violation of the exclusivity granted to the Seminole Tribe under that compact.

Effect of Proposed Changes:

Section 12 amends s. 849.086, F.S., to:

- Provide that a Designated Player Game is not a banking game, and that a designated player is the player in the dealer position seated at a traditional player position who pays winning players and collects from losing players.
- Define "Designated Player Game" as "a game in which the players compare their cards only to the cards of the designated player or to a combination of cards held by the designated player and cards common and available for play by all players."
- Repeal the "90 percent rule" in existing law mandating the minimum number of races that must be conducted by a permitholder to renew a cardroom license.
- Require that a permitholder conducting less than a full schedule of live racing or games make payments for the benefit of live thoroughbred horse racing purses. If a cardroom licensee is not running a full schedule of live racing or games under its pari-mutuel permit, then the decoupled licensee must remit each month to each qualified thoroughbred permitholder, an amount equal to four percent of the permitholder's monthly cardroom gross receipts divided by the total number of qualified thoroughbred permitholders for that fiscal year.
  The required uses of those payments, the requirements for making those payments, and the definition of the term "qualified thoroughbred permitholder" are the same as those applicable to the payments decoupled pari-mutuel permitholders that have a slot machine license must pay for thoroughbred horse racing purses under this bill.
- Require the division to respond to requests from a licensed cardroom within 45 days for approval of a cardroom's internal controls or the rules for a new authorized game, or provide a list of deficiencies. The division has ten days after receipt of revised internal controls or rules for a new game addressing the deficiencies identified by the division to approve or reject the revised internal controls or rules.[137]

[135] *See* paragraph A of Part XII of the 2010 Gaming Compact at pages 39-40 at http://www.myfloridalicense.com/dbpr/pmw/documents/2010_Compact-Signed1.pdf (last visited Jan. 11, 2018).
[136] *See* subparagraph 4 of paragraph F of Part III of the 2010 Gaming Compact at page 4 at http://www.myfloridalicense.com/dbpr/pmw/documents/2010_Compact-Signed1.pdf (last visited Jan. 11, 2018) and *see* subparagraph 5 of paragraph G of Part XII of the 2015 Gaming Compact at http://www.flsenate.gov/. . .Proposed 2015 Gaming Compact, Comparison Chart, and Letter from Governor Scott.pdf (last visited Jan. 1, 2018).
[137] According to the DBPR's Office of General Counsel, the terms "requests from a licensed cardroom" and "submission" in the bill "may create ambiguity in their application." *See 2018 Agency Legislative Bill Analysis (AGENCY: Department of*

- Authorize cardroom operators to offer Designated Player Games, at not more than 50 percent of the total licensed tables in a cardroom.
- Provide a cardroom operator may not serve as a designated player but may collect a table rake as posted at the table.
- Provide, if there are multiple designated players at a table, the dealer button must be rotated clockwise after each hand.
- Provide that a cardroom operator may not allow a designated player to pay an opposing player who holds a lower ranked hand.
- Provide that any designated player may not be required by the rules of a game or by the rules of a cardroom to cover more than 10 times the maximum wager for opposing players.
- Prohibit a cardroom, or any cardroom licensee, from contracting for or receiving compensation other than a posted table rake from any player to participate in any game to serve as a designated player.
- Require employees of a designated player be licensed, and a designated player pay, in addition to the cardroom business occupational fee, an employee occupational fee which may not exceed $500.00 per employee annually.

If the 2018 Gaming Compact between the Seminole Tribe and the state, which is ratified in Section 1 of this bill, becomes effective, the provisions in this bill relating to Designated Player Games at cardrooms will not cause any impact to the revenues to be paid to the state by the Seminole Tribe because the authorization for Designated Player Games is permitted under that compact and is not a violation of the exclusivity granted to the Seminole Tribe under that compact.

Definition of Slot Machines or Devices

Present Situation:

Slot machine gaming is lawful only in licensed slot machine facilities at pari-mutuel facilities located in Broward and Miami-Dade counties.[138] At issue in recent litigation is whether certain games, popularly known as pre-reveal games, are illegal slot machines.[139] The machines involve a "multiple game system with a preview feature" requiring a player to press a preview button that displays the outcome of the game before play may begin. The preview button shows the outcome of the next game but not the game after that. The circuit court concluded that pre-reveal machines are illegal slot machines, and an appeal of the case is now pending.[140]

Effect of Proposed Changes:

Section 13 amends the definition of "slot machine or device" in ch. 849, F.S., relating to gambling, to prohibit pre-reveal games.

Business and Professional Regulation) for SB 840, dated Jan. 9, 2018 (on file with Senate Committee on Regulated Industries) at page 8.

Effective Date

The bill takes effect upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

Fantasy Contests

None.

Pari-Mutuel Decoupling

The ending of live racing will reduce required daily license fees and taxes on wagering paid by pari-mutuel permitholders that decouple. According to the Department of Business and Professional Regulation (DBPR), the bill's fiscal impact to state government revenues is indeterminate.[141] The Revenue Estimating Conference (REC) has not analyzed this provision of the bill.

Purse Supplements by Decoupled Slot Machine Licensees

None.

Slot Machine Tax Rate Reduction

The REC has not analyzed this bill, but staff expects the impact of this provision of the bill to be loss of $4.1 million on a recurring basis in slot machine revenue. Under current law and current administration, the REC forecasts[142] slot machine revenues to increase by 2.1 percent in Fiscal Year 2018-2019, and by 1.2 percent annually thereafter, growing from $191.9 million in Fiscal Year 2017-2018 to $205.0 million in Fiscal Year 2022-

[141] *See 2018 Agency Legislative Bill Analysis (AGENCY: Department of Business and Professional Regulation)* for SB 840, dated Jan. 9, 2018 (on file with Senate Committee on Regulated Industries) at page 6.
[142] *See Revenue Estimating Conference Slot Machine Tax January 2018* at http://edr.state.fl.us/Content/conferences/slotmachines/SlotsResults.pdf (last visited Feb. 7, 2018).

2023. The bill will result in a loss of the growth in slot machine revenue deposited in the Educational Enhancement Trust Fund.

Authorization of Designated Player Games

None.

B. Private Sector Impact:

The bill authorizes certain fantasy contests to be offered by fantasy contest operators, who will retain amounts participants pay as entry fees to participate in fantasy contests. Persons who pay entry fees to participate in fantasy contests have the opportunity to win prizes and awards.

The ending of live racing will reduce required daily license fees and taxes on wagering paid by pari-mutuel permitholders that decouple.

The bill reduces the tax rate on slot machine gaming revenue effective January 1, 2019, but also requires that the existing Broward and Miami-Dade slot machine facilities pay, in each year, at least as much as they paid in Fiscal Year 2017-2018.

As to Designated Player Games, the bill:

- Provides a Designated Player Game is not a banking game.
- Sets requirements and limitations for a Designated Player Game.
- Limits the number of Designated Player Game tables in a cardroom to not more than 50 percent of the cardroom's total licensed tables.
- Grants additional rulemaking authority to the DBPR's Division of Pari-Mutuel Wagering (division) relating to requests from licensed cardrooms and imposes deadlines for response by the division to submissions by cardroom licensees relating to rules for new authorized games, revisions to internal controls, and revisions to rules for games.

C. Government Sector Impact:

The REC has not adopted an official estimate of the impact of this bill, but based on preliminary analysis, if the 2018 Gaming Compact between the Seminole Tribe of Florida and the state, which is ratified in Section 1 of this bill, becomes effective, the state would cease to receive payments under the 2010 Gaming Compact and would receive the following revenue from the Seminole Tribe in the fiscal years indicated:

Fiscal Year	Revenue Share (in millions)
2018-2019	$325
2019-2020	350
2020-2021	375
2021-2022	425
2022-2023	475
2023-2024	500
2024-2025	550

In total, during the seven years of the Guarantee Payment Period, the state would receive $619.4 million more in payments from the Seminole Tribe under the 2018 Gaming Compact than the Revenue Estimating Conference (REC) projects will be received under the 2010 Gaming Compact for the same period.

During Fiscal Year 2018-2019, the amount the state would receive under the 2018 Gaming Compact would be an increase of $2.2 million above the amount the REC projects will be received under the 2010 Gaming Compact. In Fiscal Year 2019-2020, the state would receive $21.3 million more under the 2018 Gaming Compact than the amount the state is projected to receive under the 2010 Gaming Compact.

If the 2018 Gaming Compact authorized in Section 1 of this bill does not become effective, the bill may significantly impact the Revenue Share Payments[143] required to be paid by the Seminole Tribe of Florida under the 2010 Gaming Compact.

Under current law and current administration, and assuming the state does not violate the "exclusivity" requirements in the current Compact, the REC estimates that during Fiscal Year 2017-2018 $280.4 million revenue will be received from the Seminole Tribe associated with the 2010 Gaming Compact, of which $276.9 million will accrue to the General Revenue Fund and $3.5 million will be distributed to local governments as required by s. 285.710(10), F.S. During Fiscal Year 2018-2019, the REC estimates revenue associated with the 2010 Gaming Compact will be $391.1 million, of which $382.4 million will accrue to the General Revenue Fund and $8.7 million will be distributed to local governments. The REC estimates the revenue associated with the 2010 Gaming Compact will increase to $361.4 million for Fiscal Year 2025-2026.[144]

The REC currently classifies all future Revenue Share Payments to be paid by the Seminole Tribe to the state under the 2010 Gaming Compact as nonrecurring revenue because the continuation of these payments depends on actions by the state and the Seminole Tribe "that cannot be anticipated with sufficient certainty."[145]

---

[143] Revenue Share Payments are the periodic payments to the State by the Seminole Tribe, based on the Tribe's Net Win. Net Win is defined as total receipts from the play of authorized tribal gaming in Florida, less all prizes, free play, or promotional credits. *See* paragraphs U and X of Part III of the 2010 Gaming Compact at page 11 at http://www.myfloridalicense.com/dbpr/pmw/documents/2010_Compact-Signed1.pdf (last visited Jan. 11, 2018).
[144] *See* the estimates for multiple fiscal years in the *Conference Results, Indian Gaming Revenues* at http://edr.state.fl.us/Content/conferences/Indian-gaming/IndianGamingResults.pdf (last visited Feb. 8, 2018).
[145] *Id.*

Fantasy Contests

If the 2018 Gaming Compact between the Seminole Tribe and the state does not become effective, and if fantasy contests permitted under the bill constitute gaming, are considered Class III gaming under federal law, and constitute, under the 2010 Gaming Compact, *new* Class III gaming in Florida, then the payments due to the state under the 2010 Gaming Compact could end when fantasy contests begin to be offered for public or private use.[146]

In a letter to Senator Travis Hutson and Representative Mike La Rosa dated December 5, 2017,[147] Jim Shore, General Counsel for the Seminole Tribe, indicated the Tribe believes the games permitted by HB 223 and SB 374 (Fantasy Contests), and SB 840 (Gaming) would violate the Tribe's exclusivity, as set forth in Part XII of the 2010 Gaming Compact between the State and Tribe. The stated purpose of the letter was to avoid enactment of legislation "that inadvertently violates the Tribe's exclusivity." Mr. Shore noted "federal law requires that any reduction in the Tribe's exclusivity must be balanced by some additional consideration from the State[, and] without such an agreement, the 2010 Gaming Compact would allow the Tribe to cease all revenue sharing payments to the State based on the expanded gaming contemplated by the referenced bills."

Pari-Mutuel Decoupling

The bill authorizes greyhound racing, harness horse racing, and quarter horse racing permitholders to stop conducting live racing while retaining intertrack and simulcast wagering, cardrooms, and, where relevant, slot machine facilities. The ending of live racing will reduce daily license fees and taxes on wagering payable by pari-mutuel permitholders that decouple. The Revenue Estimating Conference has not analyzed this bill, nor the impacts of ending live racing by greyhound racing permitholders and the various horse racing permitholders in the manner provided in the bill.

According to the Department of Business and Professional Regulation (DBPR), expenditures for licensing and sample collection may be reduced at permitholder facilities that choose to end live racing.[148] The DBPR's Office of General Counsel notes that rulemaking will be necessary to address revisions to permit and license application forms, as well as additional forms relating to the ending of live racing.[149]

---

[146] *See* paragraph A of Part XII of the 2010 Gaming Compact at pages 39-40 at http://www.myfloridalicense.com/dbpr/pmw/documents/2010_Compact-Signed1.pdf (last visited Jan. 11, 2018); the Revenue Share Payments and the required annual donation of $750,000 to the Florida Council on Compulsive Gaming must resume when the new Class III gaming is no longer operated.

[147] *See* Letter from Jim Shore, General Counsel for the Seminole Tribe, to Senator Travis Hutson and Representative La Rosa (Dec. 5, 2017) (on file with the Senate Committee on Regulated Industries).

[148] *See 2018 Agency Legislative Bill Analysis (AGENCY: Department of Business and Professional Regulation)* for SB 840, dated Jan. 9, 2018 (on file with Senate Committee on Regulated Industries) at page 6.

[149] *Id*. at page 8.

Slot Machine Tax Rate Reduction

The bill provides for a slot machine tax rate reduction, which takes effect on January 1, 2019, combined with a requirement that the existing Broward and Miami-Dade slot machine facilities pay, in each year, at least as much as they paid in Fiscal Year 2017-2018, but not to exceed 35 percent of any facility's slot machine revenue. The Revenue Estimating Conference (REC) forecasts[150] that under current law slot machine revenues will increase by 2.1 percent in Fiscal Year 2018-2019, and by 1.2 percent annually thereafter, growing from $191.9 million in Fiscal Year 2017-2018 to $205.0 million in Fiscal Year 2022-2023. The REC has not analyzed this bill, but staff expects the impact of the reduction in the slot machine tax rate to be a loss to the Educational Enhancement Trust Fund of the **growth** in slot machine revenue.

Authorization of Designated Player Games

If the 2018 Gaming Compact authorized in Section 1 of the bill does not become effective, authorization of player banked card games with a designated player, which were determined to be Class III gaming in federal litigation between the state of Florida and the Seminole Tribe of Florida, could impact the revenue sharing provisions of the 2010 Gaming Compact, as payments due to the state under the compact could cease.[151]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 285.710, 285.712, 550.01215, 550.054, 550.0745, 550.09512, 550.09515, 550.3345, 551.104, 551.106, 849.086, and 849.16.

This bill creates section 546.13 of the Florida Statutes.

[150] *See Revenue Estimating Conference Slot Machine Tax January 2018* at http://edr.state.fl.us/Content/conferences/slotmachines/SlotsResults.pdf (last visited Feb. 7, 2018).
[151] *See* paragraph A of Part XII of the 2010 Gaming Compact at pages 39-40 at http://www.myfloridalicense.com/dbpr/pmw/documents/2010_Compact-Signed1.pdf (last visited Jan. 11, 2018).

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Finance and Tax on February 12, 2018:
The committee substitute:

- Deletes decoupling of thoroughbred horse racing.
- Reduces the amount of slot machine revenue that a decoupled permitholder with a slot machine license must pay for thoroughbred horse purses to the *lesser* of 2.75 percent (reduced from 3 percent in the bill) of the licensee's slots revenue from the prior fiscal year or $1.5 million annually (reduced from $2 million in the bill).
- Revises provisions relating to the amount of slot machine revenue and cardroom revenue which decoupled permitholders must pay, so that qualified thoroughbred permitholders (conducting minimum live racing requirements) each receive the same amount.
- Provides that limited thoroughbred permitholders and thoroughbred permitholders leasing at another permitholder's racing facility are not qualified thoroughbred permitholders for purposes of receiving a share of revenues from decoupled permitholders.
- Eliminates dormant pari-mutuel permits and repeals authorization for issuance of summer jai alai permits.
- Amends the definition of "slot machine or device" to prohibit pre-reveal games.
- Authorizes the execution of a gaming compact between the state and the Seminole Tribe of Florida (Seminole Tribe), which:
  - Authorizes the Seminole Tribe to conduct slot machine gaming at its seven gaming facilities;
  - Permits the Seminole Tribe to offer live table games, such as craps and roulette, at its seven gaming facilities;
  - Authorizes banked card games, including blackjack, chemin de fer, and baccarat, at its seven facilities;
  - Is for a term of 20 years, through June 30, 2038; and
  - Includes a $3 billion guarantee of revenue sharing payments to the state for the first seven-years (Guarantee Period), with specific payment amounts (Guaranteed Payments) during each year of the Guarantee Period. After the Guarantee Period, payments will be based on varying percentage rates that depend on the amount of the Seminole Tribe's net win (Revenue Share Payments);
  - Provides exceptions to the Tribe's exclusive rights to allow the authorization of fantasy contests, the play of Designated Player Games in the state, and the ending of live racing by certain pari-mutuel permitholders.

B. Amendments:

None.

	.	

The Committee on Appropriations (Hutson) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Paragraph (a) of subsection (1) and subsection (3) of section 285.710, Florida Statutes, are amended to read:

285.710 Compact authorization.—

(1) As used in this section, the term:

(a) "Compact" means the Gaming Compact between the Seminole Tribe of Florida and the State of Florida~~, executed on April 7,~~

184406

~~2010~~.

(3)(a) The Gaming Compact between the Seminole Tribe of Florida and the State of Florida, executed by the Governor and the Tribe on April 7, 2010, was ~~is~~ ratified and approved by chapter 2010-29, Laws of Florida. ~~The Governor shall cooperate with the Tribe in seeking approval of the compact from the United States Secretary of the Interior.~~

(b) The Governor, on behalf of this state, is hereby authorized and directed to execute a new compact with the Tribe as set forth in paragraph (c), and the Legislature hereby signifies in advance its approval and ratification of such compact, provided that it is identical to the compact set forth in paragraph (c) and becomes effective on or before January 1, 2019. The Governor shall cooperate with the Tribe in seeking approval of such compact ratified and approved under this paragraph from the Secretary of the Department of the Interior. Upon becoming effective, such compact supersedes the Gaming Compact ratified and approved under paragraph (a), which shall then become null and void.

(c) The Legislature hereby approves and ratifies the following Gaming Compact between the State of Florida and the Seminole Tribe of Florida, provided that such compact becomes effective on or before January 1, 2019:

Gaming Compact Between the Seminole Tribe of Florida and the State of Florida

This compact is made and entered into by and between the Seminole Tribe of Florida and the State of Florida, with respect

184406

to the operation of covered games, as defined herein, on the Tribe's Indian lands, as defined by the Indian Gaming Regulatory Act, 25 U.S.C. ss. 2701 et seq.

PART I

TITLE.—This document shall be referred to as the "Gaming Compact between the Seminole Tribe of Florida and the State of Florida."

PART II

LEGISLATIVE FINDINGS.—

(1) The Seminole Tribe of Florida is a federally recognized tribal government that possesses sovereign powers and rights of self-government.

(2) The State of Florida is a state of the United States of America that possesses the sovereign powers and rights of a state.

(3) The State of Florida and the Seminole Tribe of Florida maintain a government-to-government relationship.

(4) The United States Supreme Court has long recognized the right of an Indian Tribe to regulate activity on lands within its jurisdiction, but the United States Congress, through the Indian Gaming Regulatory Act, has given states a role in the conduct of tribal gaming in accordance with negotiated tribal-state compacts.

(5) Pursuant to the Seminole Tribe Amended Gaming Ordinance, adopted by Resolution No. C-195-06, and approved by

the Chairman of the National Indian Gaming Commission on July 10, 2006, hereafter referred to as the "Seminole Tribal Gaming Code," the Seminole Tribe of Florida desires to offer the play of covered games, as defined in Part III, as a means of generating revenues for purposes authorized by the Indian Gaming Regulatory Act, including, without limitation, the support of tribal governmental programs, such as health care, housing, sewer and water projects, police, fire suppression, general assistance for tribal elders, day care for children, economic development, educational opportunities, per capita payments to tribal members, and other typical and valuable governmental services and programs for tribal members.

(6) This compact is the only gaming compact between the Tribe and the state. This compact supersedes the Gaming Compact between the Tribe and the state executed on or about April 7, 2010, which was subsequently ratified by the Legislature and went into effect on or about July 6, 2010.

(7) It is in the best interests of the Seminole Tribe of Florida and the State of Florida for the state to enter into a compact with the Tribe that recognizes the Tribe's right to offer certain Class III gaming and provides substantial exclusivity of such activities in conjunction with a reasonable revenue sharing arrangement between the Tribe and the state that will entitle the state to significant revenue participation.

PART III

DEFINITIONS.—As used in this compact, the term:

(1) "Annual oversight assessment" means the amount owed by

the Tribe to the state for reimbursement for the actual and reasonable costs incurred by the state compliance agency to perform the monitoring functions set forth under the compact.

(2) "Class II video bingo terminals" means any electronic aid to a Class II bingo game that includes a video spinning reel or mechanical spinning reel display.

(3) "Class III gaming" means the forms of Class III gaming defined in 25 U.S.C. s. 2703(8) and by the regulations of the National Indian Gaming Commission, as of January 1, 2018.

(4) "Commission" means the Seminole Tribal Gaming Commission, which is the tribal governmental agency that has the authority to carry out the Tribe's regulatory and oversight responsibilities under this compact.

(5) "Compact" means this Gaming Compact between the Seminole Tribe of Florida and the State of Florida.

(6) "Covered game" or "covered gaming activity" means the following Class III gaming activities:

(a) Slot machines, which may use spinning reels, video displays, or both, and which machines must meet all of the following requirements:

1. Any mechanical or electrical contrivance, terminal that may or may not be capable of downloading slot games from a central server system, machine, or other device.

2. Require, for play or operation, the insertion of a coin, bill, ticket, token, or similar object, or payment of any consideration whatsoever, including the use of any electronic payment system, except a credit card or debit card, unless state law authorizes the use of an electronic payment system that uses a credit or debit card payment, in which case the Tribe is

184406

authorized to use such payment system.

3. Are available to play or operate, the play or operation of which, whether by reason of skill or application of the element of chance or both, may deliver or entitle the person or persons playing or operating the contrivance, terminal, machine, or other device to receive cash, billets, tickets, tokens, or electronic credits to be exchanged for cash or to receive merchandise or anything of value whatsoever, whether the payoff is made automatically from the machine or manually.

4. Include associated equipment necessary to conduct the operation of the contrivance, terminal, machine, or other device.

(b) Banking or banked card games, such as baccarat, chemin de fer, and blackjack or 21.

(c) Raffles and drawings.

(d) Live table games.

(e) Any new game, if expressly authorized by the Legislature pursuant to legislation enacted subsequent to the effective date of this compact and lawfully conducted by any person for any purpose pursuant to such authorization.

(7) "Covered game employee" or "covered employee" means an individual employed and licensed by the Tribe whose responsibilities include the rendering of services with respect to the operation, maintenance, or management of covered games, including, but not limited to, managers and assistant managers; accounting personnel; commission officers; surveillance and security personnel; cashiers, supervisors, and floor personnel; cage personnel; and any other employee whose employment duties require or authorize access to areas of the facility related to

the conduct of covered games or the technical support or storage of covered game components. The term does not include the Tribe's elected officials, provided that such individuals are not directly involved in the operation, maintenance, or management of covered games or covered games components.

(8) "Documents" means books, records, electronic, magnetic, and computer media documents, and other writings and materials, copies of such documents and writings, and information contained in such documents and writings.

(9) "Effective date" means the date on which the compact becomes effective pursuant to subsection (1) of Part XVI.

(10) "Electronic bingo machine" means a card minding device, which may only be used in connection with a bingo game as defined in s. 849.0931(1)(a), Florida Statutes, which is certified in advance by an independent testing laboratory approved by the Division of Pari-Mutuel Wagering as a bingo aid device that meets all of the following requirements:

(a) Aids a bingo game player by:

1. Storing in the memory of the device not more than three bingo faces of tangible bingo cards as defined by s. 849.0931(1)(b), Florida Statutes, purchased by a player.

2. Comparing the numbers drawn and individually entered into the device by the player to the bingo faces previously stored in the memory of the device.

3. Identifying preannounced winning bingo patterns marked or covered on the stored bingo faces.

(b) Is not capable of accepting or dispensing any coins, currency, or tokens.

(c) Is not capable of monitoring any bingo card face other

184406

than the faces of the tangible bingo card or cards purchased by the player for that game.

(d) Is not capable of displaying or representing the game result through any means other than highlighting the winning numbers marked or covered on the bingo card face or giving an audio alert that the player's card has a prize-winning pattern. No casino game graphics, themes, or titles, including, but not limited to, depictions of slot machine-style symbols, cards, craps, roulette, or lottery may be used.

(e) Is not capable of determining the outcome of any game.

(f) Does not award progressive prizes of more than $2,500.

(g) Does not award prizes exceeding $1,000, other than progressive prizes not exceeding $2,500.

(h) Does not contain more than one player position for playing bingo.

(i) Does not contain or does not link to more than one video display.

(j) Awards prizes based solely on the results of the bingo game, with no additional element of chance.

(11) "Facility" means a building or buildings of the Tribe in which the covered games authorized by this compact are conducted.

(12) "Guaranteed minimum compact term payment" means a minimum total payment for the guarantee payment period of $3 billion, which shall include all revenue share payments during the guarantee payment period.

(13) "Guarantee payment period" means the seven-year period beginning July 1, 2018, and ending June 30, 2025.

(14) "Guaranteed revenue sharing cycle payment" means the

184406

payments as provided in Part XI.

(15) "Historic racing machine" means an individual historic race terminal linked to a central server as part of a network-based video game, where the terminals allow pari-mutuel wagering by players on the results of previously conducted horse or greyhound races, but only if the game is certified in advance by an independent testing laboratory approved by the Division of Pari-Mutuel Wagering as complying with all of the following requirements:

(a) Stores all data on previously conducted horse or greyhound races in a secure format on the central server, which is located at the pari-mutuel facility.

(b) Uses only horse or greyhound races that were recorded at licensed pari-mutuel facilities in the United States after January 1, 2000.

(c) Offers one or more of the following three bet types on all historic racing machines: win-place-show, quinella, or tri-fecta.

(d) Offers one or more of the following racing types: thoroughbreds, harness, or greyhounds.

(e) Does not award progressive prizes of more than $2,500.

(f) Does not award prizes exceeding $1,000, other than progressive prizes not exceeding $2,500.

(g) After each wager is placed, displays a video of at least the final eight seconds of the horse or greyhound race before any prize is awarded or indicated on the historic racing machine.

(h) The display of the video of the horse or greyhound race occupies at least 70 percent of the historic racing machine's

184406

video screen and does not contain and is not linked to more than one video display.

(i) Does not use casino game graphics, themes, or titles, including but not limited to, depictions of slot machine-style symbols, cards, craps, roulette, lottery, or bingo.

(j) Does not use video or mechanical reel displays.

(k) Does not contain more than one player position for placing wagers.

(l) Does not dispense coins, currency, or tokens.

(m) Awards prizes solely on the results of a previously conducted horse or greyhound race with no additional element of chance.

(n) Uses a random number generator to select the race from the central server to be displayed to the player and the numbers or other designations of race entrants that will be used in the various bet types for any "Quick Pick" bets. To prevent an astute player from recognizing the race based on the entrants and thus knowing the results before placing a wager, the entrants of the race may not be identified until after all wagers for that race have been placed.

(16) "Indian Gaming Regulatory Act" means the Indian Gaming Regulatory Act, Pub. L. 100-497, Oct. 17, 1988, 102 Stat. 2467, codified at 25 U.S.C. ss. 2701 et seq. and 18 U.S.C. ss. 1166 to 1168.

(17) "Indian lands" means the lands defined in 25 U.S.C. s. 2703(4).

(18) "Initial payment period" means the period beginning on the effective date of the compact and ending on June 30, 2018.

(19) "Live table games" means dice games, such as craps,

sic-bo and any similar variations thereof, and wheel games, such as roulette, big six, and any similar variations thereof, but not including any game that is authorized as a slot machine, banking or banked card game, raffle, or drawing.

(20) "Lottery vending machine" means any of the following four types of machines:

(a) A machine that dispenses pre-printed paper instant lottery tickets, but that does not read or reveal the results of the ticket or allow a player to redeem any ticket. The machine, or any machine or device linked to the machine, does not include or make use of video reels or mechanical reels or other video depictions of slot machine or casino game themes or titles for game play, but does not preclude the use of casino game themes or titles on such tickets or signage or advertising displays on the machines.

(b) A machine that dispenses pre-determined electronic instant lottery tickets and displays an image of the ticket on a video screen on the machine, where the player touches the image of the ticket on the video screen to reveal the outcome of the ticket, provided the machine does not permit a player to redeem winnings, does not make use of video reels or mechanical reels, and does not simulate the play of any casino game, and the lottery retailer is paid the same amount as would be paid for the sale of paper instant lottery tickets.

(c) A machine that dispenses a paper lottery ticket with numbers selected by the player or randomly by the machine, but does not reveal the winning numbers. Such winning numbers are selected at a subsequent time and different location through a drawing conducted by the state lottery. The machine, or any

machine or device linked to the machine, does not include or make use of video reels or mechanical reels or other video depictions of slot machine or casino game themes or titles for game play. The machine is not used to redeem a winning ticket. This does not preclude the use of casino game themes, titles for signage, or advertising displays on the machine.

(d) A point-of-sale system to sell tickets for draw lottery games at gasoline pumps at retail fuel stations, provided the system dispenses a paper lottery receipt after the purchaser uses a credit card or debit card to purchase the ticket; processes transactions through a platform that is certified or otherwise approved by the Florida Lottery; does not directly dispense money or permit payment of winnings at the point-of-sale terminal; and does not include or make use of video reels or mechanical reels or other slot machine or casino game themes or titles.

(21) "Monthly payment" means the monthly revenue share payment which the Tribe remits to the state on the 15th day of the month following each month of the revenue sharing cycle.

(22) "Net revenue base" means the net win for the 12 month period immediately preceding the offering of, for public or private use, Class III or other casino-style gaming at any of the licensed pari-mutuel facilities in Broward and Miami-Dade Counties, except that if the commencement of such new gaming is made during the initial payment period, "net revenue base" means net win for the 12-month period immediately preceding this compact.

(23) "Net win" means the total receipts from the play of all covered games less all prize payouts and free play or

184406

promotional credits issued by the Tribe.

(24) "Pari-mutuel wagering activities" means those activities authorized on January 1, 2018, by chapter 550, which do not include any casino-style game or device that include video reels or mechanical reels or other slot machine or casino game themes or titles.

(25) "Patron" means any person who is on the premises of a facility, or who enters the Tribe's Indian lands for the purpose of playing covered games authorized by this compact.

(26) "Regular payment period" means the period beginning on July 1, 2025, and terminating at the end of the term of this compact.

(27) "Revenue share payment" means the periodic payment by the Tribe to the state provided for in Part XI.

(28) "Revenue sharing cycle" means the annual 12-month period of the Tribe's operation of covered games in its facilities beginning on July 1 of each fiscal year, except for during the initial payment period, when the first revenue sharing cycle begins on July 1 of the previous year, and the Tribe receives a credit for any amount paid to the state under the 2010 Compact for that revenue sharing cycle.

(29) "Rules and regulations" means the rules and regulations promulgated by the commission for implementation of this compact.

(30) "State" means the State of Florida.

(31) "State compliance agency" means the state agency designated by the Florida Legislature that has the authority to carry out the state's oversight responsibilities under this compact.

184406

(32) "Tribe" means the Seminole Tribe of Florida or any affiliate thereof conducting activities pursuant to this compact under the authority of the Seminole Tribe of Florida.

PART IV

AUTHORIZATION AND LOCATION OF COVERED GAMES.—

(1) The Tribe and state agree that the Tribe is authorized to operate covered games on its Indian lands, as defined in the Indian Gaming Regulatory Act, in accordance with the provisions of this compact. Nothing in the compact is intended to prohibit the Tribe from operating slot machines that employ video or mechanical displays of roulette, wheels, or other table game themes. Except for the provisions in subsection (1) of Part XI, nothing in this compact shall limit the Tribe's right to operate any Class II gaming under the Indian Gaming Regulatory Act.

(2) The Tribe is authorized to conduct covered games under this compact only at the following seven existing facilities, which may be expanded or replaced as provided in subsection (3) on Indian lands:

(a) Seminole Indian Casino-Brighton in Okeechobee, FL.

(b) Seminole Indian Casino-Coconut Creek in Coconut Creek, FL.

(c) Seminole Indian Casino-Hollywood in Hollywood, FL.

(d) Seminole Indian Casino-Immokalee in Immokalee, FL.

(e) Seminole Indian Casino-Big Cypress in Clewiston, FL.

(f) Seminole Hard Rock Hotel & Casino-Hollywood in Hollywood, FL.

(g) Seminole Hard Rock Hotel & Casino-Tampa in Tampa, FL.

184406

(3) Any of the facilities existing on Indian lands identified in subsection (2) may be expanded or replaced by another facility on the same Indian lands with at least 60 days' advance notice to the state.

PART V

RULES AND REGULATIONS; MINIMUM REQUIREMENTS FOR OPERATIONS.—

(1) At all times during the term of this compact, the Tribe shall be responsible for all duties that are assigned to it and the commission under this compact. The Tribe shall promulgate any rules necessary to implement this compact, which, at a minimum, shall expressly include or incorporate by reference all provisions of Parts V, VI, VII, and VIII. Nothing in this compact shall be construed to affect the Tribe's right to amend its rules, provided that any such amendment is in conformity with this compact. The state compliance agency may propose additional rules consistent with and related to the implementation of this compact to the commission at any time, and the commission shall give good faith consideration to such proposed rules and shall notify the state compliance agency of its response or action with respect to such rules.

(2) All facilities shall comply with, and all covered games approved under this compact shall be operated in accordance with, the requirements set forth in this compact, including, but not limited to, the requirements set forth in subsections (3) and (4) and the Tribe's Internal Control Policies and Procedures. In addition, all facilities and all covered games

184406

shall be operated in strict compliance with tribal internal control standards that provide a level of control that equals or exceeds those set forth in the National Indian Gaming Commission's Minimum Internal Control Standards, 25 C.F.R. part 542 (2015), even if the 2015 regulations are determined to be invalid or are subsequently withdrawn by the National Indian Gaming Commission. The Tribe may amend or supplement its internal control standards from time to time, provided that such changes continue to provide a level of control that equals or exceeds those set forth in 25 C.F.R. part 542 (2015).

(3) The Tribe and the commission shall retain all documents in compliance with the requirements set forth in the Tribe's Record Retention Policies and Procedures.

(4) The Tribe shall continue and maintain its program to combat problem gambling and curtail compulsive gambling and work with the Florida Council on Compulsive Gambling or other organizations dedicated to assisting problem gamblers. The Tribe shall continue to maintain the following safeguards against problem gambling:

(a) The Tribe shall provide to every new gaming employee a comprehensive training and education program designed in cooperation with the Florida Council on Compulsive Gambling or other organization dedicated to assisting problem gamblers.

(b) The Tribe shall make printed materials available to patrons, which include contact information for the Florida Council on Compulsive Gambling 24-hour helpline or other hotline dedicated to assisting problem gamblers, and will work with the Florida Council on Compulsive Gambling or other organization dedicated to assisting problem gamblers to provide contact

information for the Florida Council on Compulsive Gambling or other organization dedicated to assisting problem gamblers, and to provide such information on the facility's website. The Tribe shall continue to display within the facilities all literature from the Florida Council on Compulsive Gambling or other organization dedicated to assisting problem gamblers.

(c)1. The commission shall establish a list of patrons voluntarily excluded from the Tribe's facilities, pursuant to subparagraph 3.

2. The Tribe shall employ its best efforts to exclude patrons on such list from entry into its facilities; provided that nothing in this compact shall create for patrons who are excluded but gain access to the facilities, or any other person, a cause of action or claim against the state, the Tribe or the commission, or any other person, entity, or agency for failing to enforce such exclusion.

3. Patrons who believe they may be compulsively playing covered games may request that their names be placed on the list of patrons voluntarily excluded from the Tribe's facilities.

(d) All covered game employees shall receive training on identifying compulsive gamblers and shall be instructed to ask such persons to leave. The facility shall make available signs bearing a toll-free help-line number and educational and informational materials at conspicuous locations and automated teller machines in each facility, which materials aim at the prevention of problem gaming and which specify where patrons may receive counseling or assistance for gambling problems. All covered games employees shall also be screened by the Tribe for compulsive gambling habits. Nothing in this subsection shall

184406

create for patrons, or any other person, a cause of action or claim against the state, the Tribe or the commission, or any other person, entity, or agency for failing to identify a patron or person who is a compulsive gambler or ask that person to leave.

(e) The Tribe shall follow the rules for exclusion of patrons set forth in the Seminole Tribal Gaming Code.

(f) The Tribe shall make diligent efforts to prevent underage individuals from loitering in the area of each facility where the covered games take place.

(g) The Tribe shall ensure that any advertising and marketing of covered games at the facilities contains a responsible gambling message and a toll-free help-line number for problem gamblers, where practical, and that such advertising and marketing make no false or misleading claims.

(5) The state may secure an annual independent audit of the conduct of covered games subject to this compact, as set forth in Part VIII.

(6) The facility shall visibly display summaries of the rules for playing covered games and promotional contests and shall make available complete sets of rules upon request. The Tribe shall provide copies of all such rules to the state compliance agency within 30 calendar days after issuance or amendment.

(7) The Tribe shall provide the commission and state compliance agency with a chart of the supervisory lines of authority with respect to those directly responsible for the conduct of covered games, and shall promptly notify those agencies of any material changes to the chart.

(8) The Tribe shall continue to maintain proactive approaches to prevent improper alcohol sales, drunk driving, underage drinking, and underage gambling. These approaches shall involve intensive staff training, screening and certification, patron education, and the use of security personnel and surveillance equipment in order to enhance patrons' enjoyment of the facilities and provide for patron safety.

(a) Staff training includes specialized employee training in nonviolent crisis intervention, driver license verification, and detection of intoxication.

(b) Patron education shall be carried out through notices transmitted on valet parking stubs, posted signs in the facilities, and in brochures.

(c) Roving and fixed security officers, along with surveillance cameras, shall assist in the detection of intoxicated patrons, investigate problems, and engage with patrons to deescalate volatile situations.

(d) To help prevent alcohol-related crashes, the Tribe will continue to operate the "Safe Ride Home Program," a free taxi service.

(e) The Tribe shall maintain these programs and policies in its Alcohol Beverage Control Act for the duration of the compact but may replace such programs and policies with stricter or more extensive programs and policies. The Tribe shall provide the state with written notice of any changes to the Tribe's Alcohol Beverage Control Act, which notice shall include a copy of such changes and shall be sent on or before the effective date of the change. Nothing in this subsection shall create for patrons, or any other person, a cause of action or claim against the state,

184406

the Tribe or the commission, or any other person, entity, or agency for failing to fulfill the requirements of this subsection.

(9) A person under 21 years of age may not play covered games, unless otherwise permitted by state law.

(10) The Tribe may establish and operate facilities that operate covered games only on its Indian lands as defined by the Indian Gaming Regulatory Act and as specified in Part IV.

(11) The commission shall keep a record of, and shall report at least quarterly to the state compliance agency, the number of covered games in each facility, by the name or type of each game and its identifying number.

(12) The Tribe and the commission shall make available, to any member of the public upon request, within 10 business days, a copy of the National Indian Gaming Commission's Minimum Internal Control Standards, 25 C.F.R. part 542 (2015), the Seminole Tribal Gaming Code, this compact, the rules of each covered game operated by the Tribe, and the administrative procedures for addressing patron tort claims under Part VI.

PART VI

PATRON DISPUTES, WORKERS' COMPENSATION, TORT CLAIMS; PRIZE CLAIMS; LIMITED CONSENT TO SUIT.—

(1) All patron disputes involving gaming shall be resolved in accordance with the procedures established in the Seminole Tribal Gaming Code.

(2) Tort claims by employees of the Tribe's facilities will be handled pursuant to the provisions of the Tribe's Workers'

Compensation Ordinance, which shall provide workers the same or better protections as provided in state workers' compensation laws.

(3) Disputes involving employees of the Tribe's facilities will be handled pursuant to the provisions of the Tribe's policy for gaming employees, as set forth in the Employee Fair Treatment and Dispute Resolution Policy.

(4) A patron who claims to have been injured after the effective date of the compact at one of the Tribe's facilities in which covered games are played is required to provide written notice to the Tribe's Risk Management Department or the facility, in a reasonable and timely manner, but no longer than three years after the date of the incident giving rise to the claimed injury, or the claim shall be forever barred.

(5) The Tribe shall have 30 days to respond to a claim made by a patron. If the Tribe fails to respond within 30 days, the patron may file suit against the Tribe. When the Tribe responds to an incident alleged to have caused a patron's injury or illness, the Tribe shall provide a claim form to the patron. The form must include the address for the Tribe's Risk Management Department and provide notice of the Tribe's administrative procedures for addressing patron tort claims, including notice of the relevant deadlines that may bar such claims if the Tribe's administrative procedures are not followed. It is the patron's responsibility to complete the form and forward the form to the Tribe's Risk Management Department within a reasonable period of time, and in a reasonable and timely manner. Nothing herein shall interfere with any claim a patron might have arising under the Federal Tort Claim Act.

(6) Upon receiving written notification of the claim, the Tribe's Risk Management Department shall forward the notification to the Tribe's insurance carrier. The Tribe shall use its best efforts to ensure that the insurance carrier contacts the patron within a reasonable period of time after receipt of the claim.

(7) The insurance carrier shall handle the claim to conclusion. If the patron, Tribe, and insurance carrier are not able to resolve the claim in good faith within one year after the patron provided written notice to the Tribe's Risk Management Department or the facility, the patron may bring a tort claim against the Tribe in any court of competent jurisdiction in the county in which the incident alleged to have caused injury occurred, as provided in this compact, and subject to a four-year statute of limitations, which shall begin to run from the date of the incident of the injury alleged in the claim. A patron's notice of injury to the Tribe pursuant to subsection (4) and the fulfillment of the good faith attempt at resolution pursuant to this part are conditions precedent to filing suit.

(8) For tort claims of patrons made pursuant to subsection (4), the Tribe agrees to waive its tribal sovereign immunity to the same extent as the state waives its sovereign immunity, as specified in s. 768.28(1) and (5), Florida Statutes, as such provision may be amended from time to time by the Legislature. In no event shall the Tribe be deemed to have waived its tribal immunity from suit beyond the limits set forth in s. 768.28(5), Florida Statutes. These limitations are intended to include liability for compensatory damages, costs, pre-judgment

184406

interest, and attorney fees if otherwise allowable under state law arising out of any claim brought or asserted against the Tribe, its subordinate governmental and economic units, any Tribal officials, employees, servants, or agents in their official capacities and any entity which is owned, directly or indirectly, by the Tribe. All patron tort claims brought pursuant to this provision shall be brought solely against the Tribe, as the sole party in interest.

(9) Notices explaining the procedures and time limitations with respect to making a tort claim shall be prominently displayed in the facilities, posted on the Tribe's website, and provided to any patron for whom the Tribe has notice of the injury or property damage giving rise to the tort claim. Such notices shall explain:

(a) The method and places for making a tort claim, including where the patron must submit the claim.

(b) That the process is the exclusive method for asserting a tort claim arising under this section against the Tribe.

(c) That the Tribe and its insurance carrier have one year from the date the patron gives notice of the claim to resolve the matter, and that after that time, the patron may file suit in a court of competent jurisdiction.

(d) That the exhaustion of the process is a prerequisite to filing a claim in state court.

(e) That claims that fail to follow this process shall be forever barred.

(10) The Tribe shall maintain an insurance policy that shall:

(a) Prohibit the insurer or the Tribe from invoking tribal

184406

sovereign immunity for claims up to the limits to which the state has waived sovereign immunity as set forth in s. 768.28(5), Florida Statutes, or its successor statute.

(b) Include covered claims made by a patron or invitee for personal injury or property damage.

(c) Permit the insurer or the Tribe to assert any statutory or common law defense other than sovereign immunity.

(d) Provide that any award or judgment rendered in favor of a patron or invitee shall be satisfied solely from insurance proceeds.

(11) The Tribal Council of the Seminole Tribe of Florida may, in its discretion, consider claims for compensation in excess of the limits of the Tribe's waiver of its sovereign immunity.

PART VII

ENFORCEMENT OF COMPACT PROVISIONS.—

(1) The Tribe, the commission, and the state compliance agency, to the extent authorized by this compact, shall be responsible for regulating activities pursuant to this compact. As part of its responsibilities, the Tribe shall adopt or issue standards designed to ensure that the facilities are constructed, operated, and maintained in a manner that adequately protects the environment and public health and safety. Additionally, the Tribe and the commission shall ensure that:

(a) Operation of the conduct of covered games is in strict compliance with:

184406

1. The Seminole Tribal Gaming Code.

2. All rules, regulations, procedures, specifications, and standards lawfully adopted by the National Indian Gaming Commission and the commission.

3. The provisions of this compact, including, but not limited to, the Tribe's standards and rules.

(b) Reasonable measures are taken to:

1. Ensure the physical safety of facility patrons, employees, and any other person while in the facility.

2. Prevent illegal activity at the facilities or with regard to the operation of covered games, including, but not limited to, the maintenance of employee procedures and a surveillance system.

3. Ensure prompt notification is given, in accordance with applicable law, to appropriate law enforcement authorities of persons who may be involved in illegal acts.

4. Ensure that the construction and maintenance of the facilities complies with the standards of the Florida Building Code, the provisions of which the Tribe has adopted as the Seminole Tribal Building Code.

5. Ensure adequate emergency access plans have been prepared to ensure the health and safety of all covered game patrons.

(2) All licenses for members and employees of the commission shall be issued according to the same standards and terms applicable to facility employees. The commission's officers shall be independent of the Tribal gaming operations, and shall be supervised by and accountable only to the commission. A commission officer shall be available to the

facility during all hours of operation upon reasonable notice, and shall have immediate access to any and all areas of the facility for the purpose of ensuring compliance with the provisions of this compact. The commission shall investigate any suspected or reported violation of this part and shall officially enter into its files timely written reports of investigations and any action taken thereon, and shall forward copies of such investigative reports to the state compliance agency within 30 calendar days after such filing. The scope of such reporting shall be determined by the commission and the state compliance agency as soon as practicable after the effective date of this compact. Any such violations shall be reported immediately to the commission, and the commission shall immediately forward such reports to the state compliance agency. In addition, the commission shall promptly report to the state compliance agency any such violations which it independently discovers.

(3) In order to develop and foster a positive and effective relationship in the enforcement of the provisions of this compact, representatives of the commission and the state compliance agency shall meet at least annually to review past practices and examine methods to improve the regulatory scheme created by this compact. The meetings shall take place at a location mutually agreed upon by the commission and the state compliance agency. The state compliance agency, before or during such meetings, shall disclose to the commission any concerns, suspected activities, or pending matters reasonably believed to constitute violations of the compact by any person, organization, or entity, if such disclosure will not compromise

the interest sought to be protected.

PART VIII

STATE MONITORING OF COMPACT.—

(1) It is the express intent of the Tribe and the state for the Tribe to regulate its own gaming activities. Notwithstanding, the state shall conduct random inspections as provided for in this part to ensure that the Tribe is operating in accordance with the terms of the compact. The state may secure an annual independent audit of the conduct of covered games subject to this compact and the Tribe shall cooperate with such audit. The audit shall:

(a) Examine the covered games operated by the Tribe to ensure compliance with the Tribe's Internal Control Policies and Procedures and any other standards, policies, or procedures adopted by the Tribe, the commission, or the National Indian Gaming Commission which govern the play of covered games.

(b) Examine revenues in connection with the conduct of covered games and include only those matters necessary to verify the determination of net win and the basis and amount of the payments the Tribe is required to make to the state pursuant to Part XI and as defined by this compact.

(2) A copy of the audit report for the conduct of covered games shall be submitted to the commission and the state compliance agency within 30 calendar days after completion. Representatives of the state compliance agency may, upon request, meet with the Tribe and its auditors to discuss the audit or any matters in connection therewith; provided that such

184406

765 discussions are limited to covered games information. The annual
766 independent audit shall be performed by an independent firm
767 selected by the state which has experience in auditing casino
768 operations, subject to the consent of the Tribe, which shall not
769 be unreasonably withheld. The Tribe shall pay for the cost of
770 the annual independent audit.
771 (3) As provided herein, the state compliance agency may
772 monitor the conduct of covered games to ensure that the covered
773 games are conducted in compliance with the provisions of this
774 compact. In order to properly monitor the conduct of covered
775 games, agents of the state compliance agency shall have
776 reasonable access, without prior notice, to all public areas of
777 the facilities related to the conduct of covered games.
778 (a) The state compliance agency may review whether the
779 Tribe's facilities are in compliance with the provisions of this
780 compact and the Tribe's rules and regulations applicable to
781 covered games and may advise on such issues as it deems
782 appropriate. In the event of a dispute or disagreement between
783 Tribal and state compliance agency regulators, the dispute or
784 disagreement shall be resolved in accordance with the dispute
785 resolution provisions of Part XIII.
786 (b) In order to fulfill its oversight responsibilities, the
787 state compliance agency may perform on a routine basis specific
788 oversight testing procedures as set forth in paragraph (c).
789 (c)1. The state compliance agency may inspect any covered
790 games in operation at the facilities on a random basis, provided
791 that such inspections may not exceed one inspection per facility
792 per calendar month and the inspection may not exceed 16 hours
793 spread over those two consecutive days, unless the state

184406

compliance agency determines that additional inspection hours are needed to address the issues of substantial noncompliance, provided that the state compliance agency provides the Tribe with written notification of the need for additional inspection hours and a written summary of the substantial noncompliance issues that need to be addressed during the additional inspection hours. The total number of hours of random inspections and audit reviews per year may not exceed 1,600 hours. Inspection hours shall be calculated on the basis of the actual amount of time spent by the state compliance agency conducting the inspections at a facility, without accounting for a multiple for the number of state compliance agency inspectors or agents engaged in the inspection activities. The purpose of the random inspections is to confirm that the covered games function properly pursuant to the manufacturer's technical standards and are conducted in compliance with the Tribe's Internal Control Policies and Procedures and any other standards, policies, or procedures adopted by the Tribe, the commission, or the National Indian Gaming Commission which govern the play of covered games. The state compliance agency shall provide notice to the commission of such inspection at or before the commencement of a random inspection and a commission agent may accompany the inspection.

2. For each facility, the state compliance agency may perform one annual review of the Tribe's slot machine compliance audit.

3. At least annually, the state compliance agency may meet with the Tribe's Internal Audit Department for Gaming to review internal controls and the record of violations for each

facility.

(d) The state compliance agency shall cooperate with and obtain the assistance of the commission in the resolution of any conflicts in the management of the facilities, and the state and the Tribe shall make their best efforts to resolve disputes through negotiation whenever possible. Therefore, to foster a spirit of cooperation and efficiency, the state compliance agency and Tribe shall resolve disputes between the state compliance agency staff and commission regulators about the day-to-day regulation of the facilities through meeting and conferring in good faith. Notwithstanding, the parties may seek other relief that may be available when circumstances require such relief. In the event of a dispute or disagreement between tribal and state compliance agency regulators, the dispute or disagreement shall be resolved in accordance with the dispute resolution provisions of Part XIII.

(e) The state compliance agency shall have access to each facility during the facility's operating hours only. No advance notice is required when the state compliance agency inspection is limited to public areas of the facility; however, representatives of the state compliance agency shall provide notice and photographic identification to the commission of their presence before beginning any such inspections.

(f) The state compliance agency agents, to ensure that a commission officer is available to accompany the state compliance agency agents at all times, shall provide one hour notice and photographic identification to the commission before entering any nonpublic area of a facility. Agents of the state compliance agency shall be accompanied in nonpublic areas of the

184406

facility by a commission officer.

(g) Any suspected or claimed violations of this compact or law shall be directed in writing to the commission. The state compliance agency, in conducting the functions assigned them under this compact, shall not unreasonably interfere with the functioning of any facility.

(4) Subject to the provisions herein, the state compliance agency may review and request copies of documents of the facility related to its conduct of covered games during normal business hours unless otherwise allowed by the Tribe. The Tribe may not refuse said inspection and copying of such documents, provided that the inspectors do not require copies of documents in such volume that it unreasonably interferes with the normal functioning of the facilities or covered games. To the extent that the Tribe provides the state with information that the Tribe claims to be confidential and proprietary, or a trade secret, the Tribe shall clearly mark such information with the following designation: "Trade Secret, Confidential, and Proprietary." If the state receives a request under chapter 119 that would include such designated information, the state shall promptly notify the Tribe of such a request and the Tribe shall promptly notify the state about its intent to seek judicial protection from disclosure. Upon such notice from the Tribe, the state may not release the requested information until a judicial determination is made. This designation and notification procedure does not excuse the state from complying with the requirements of the state's public records law, but is intended to provide the Tribe the opportunity to seek whatever judicial remedy it deems appropriate. Notwithstanding the foregoing

184406

procedure, the state compliance agency may provide copies of tribal documents to federal law enforcement and other state agencies or state consultants that the state deems reasonably necessary in order to conduct or complete any investigation of suspected criminal activity in connection with the Tribe's covered games or the operation of the facilities or in order to assure the Tribe's compliance with this compact.

(5) At the completion of any state compliance agency inspection or investigation, the state compliance agency shall forward any written report thereof to the commission, containing all pertinent, nonconfidential, nonproprietary information regarding any violation of applicable laws or this compact which was discovered during the inspection or investigation unless disclosure thereof would adversely impact an investigation of suspected criminal activity. Nothing herein prevents the state compliance agency from contacting tribal or federal law enforcement authorities for suspected criminal wrongdoing involving the commission.

(6) Except as expressly provided in this compact, nothing in this compact shall be deemed to authorize the state to regulate the Tribe's government, including the commission, or to interfere in any way with the Tribe's selection of its governmental officers, including members of the commission.

PART IX

JURISDICTION.—The obligations and rights of the state and the Tribe under this compact are contractual in nature and are to be construed in accordance with the laws of the state. This

184406

compact does not alter tribal, federal, or state civil adjudicatory or criminal jurisdiction in any way.

PART X

LICENSING.—The Tribe and the commission shall comply with the licensing and hearing requirements set forth in 25 C.F.R. parts 556 and 558, as well as the applicable licensing and hearing requirements set forth in Articles IV, V, and VI of the Seminole Tribal Gaming Code. The commission shall notify the state compliance agency of any disciplinary hearings or revocation or suspension of licenses.

PART XI

PAYMENTS TO THE STATE OF FLORIDA.—

(1) The parties acknowledge and recognize that this compact provides the Tribe with partial but substantial exclusivity and other valuable consideration consistent with the goals of the Indian Gaming Regulatory Act, including special opportunities for tribal economic development through gaming within the external boundaries of the state with respect to the play of covered games. In consideration thereof, the Tribe covenants and agrees, subject to the conditions agreed upon in Part XII, to make payments to the state derived from net win as set forth in subsections (2) and (7). The Tribe further agrees that it will not purchase or lease any new Class II video bingo terminals or their equivalents for use at its facilities after the effective date of this compact.

184406

(2) The Tribe shall make periodic revenue share payments to the state derived from net win as set forth in this subsection, and any such payments shall be made to the state via electronic funds transfer. Of the amounts paid by the Tribe to the state, three percent shall be distributed to local governments, including both counties and municipalities, in the state affected by the Tribe's operation of covered games. Revenue share payments by the Tribe to the state shall be calculated as follows:

(a) During the initial payment period, the Tribe agrees to pay the state a revenue share payment in accordance with this subparagraph.

1. 13 percent of all amounts up to $2 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle;

2. 17.5 percent of all amounts greater than $2 billion up to and including $3.5 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle;

3. 20 percent of all amounts greater than $3.5 billion up to and including $4 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle;

4. 22.5 percent of all amounts greater than $4 billion up to and including $4.5 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle; or

5. 25 percent of all amounts greater than $4.5 billion of net win received by the Tribe from the operation and play of

184406

covered games during each revenue sharing cycle.

(b) During the guarantee payment period, the Tribe agrees to make fixed payments in accordance with this paragraph. In addition, within 90 days after the end of the guarantee payment period, the Tribe shall make an additional payment to the state equal to the amount above $3 billion, if any, that would have been owed by the Tribe to the state had the percentages set forth in paragraph (c) been applicable during the guarantee payment period.

1. A payment of $325 million during the first revenue sharing cycle;

2. A payment of $350 million during the second revenue sharing cycle;

3. A payment of $375 million during the third revenue sharing cycle;

4. A payment of $425 million during the fourth revenue sharing cycle;

5. A payment of $475 million during the fifth revenue sharing cycle;

6. A payment of $500 million during the sixth revenue sharing cycle; and

7. A payment of $550 million during the seventh revenue sharing cycle.

(c) During the regular payment period, the Tribe agrees to pay a revenue share payment, for each revenue sharing cycle, to the state equal to the amount calculated in accordance with this paragraph.

1. 13 percent of all amounts up to $2 billion of net win received by the Tribe from the operation and play of covered

games during each revenue sharing cycle;

2. 17.5 percent of all amounts greater than $2 billion up to and including $3.5 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle;

3. 20 percent of all amounts greater than $3.5 billion up to and including $4 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle;

4. 22.5 percent of all amounts greater than $4 billion up to and including $4.5 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle; or

5. 25 percent of all amounts greater than $4.5 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle.

(3) The Tribe shall remit monthly payments as follows:

(a) On or before the 15th day of the month following each month of the revenue sharing cycle, the Tribe will remit to the state or its assignee the monthly payment. For purposes of this section, the monthly payment shall be 8.3333 percent of the estimated revenue share payment to be paid by the Tribe during such revenue sharing cycle.

(b) The Tribe shall make available to the state at the time of the monthly payment the basis for the calculation of the payment.

(c) The Tribe shall, on a monthly basis, reconcile the calculation of the estimated revenue share payment based on the Tribe’s unaudited financial statements related to covered games.

184406

(4) The Tribe shall have an audit conducted as follows:

(a) On or before the 45th day after the third month, sixth month, ninth month, and twelfth month of each revenue sharing cycle, provided that the 12-month period does not coincide with the Tribe's fiscal year end date as indicated in paragraph (c), the Tribe shall provide the state with an audit report by its independent auditors as to the annual revenue share calculation.

(b) For each quarter within revenue sharing cycle, the Tribe shall engage its independent auditors to conduct a review of the unaudited net revenue from covered games. On or before the 120th day after the end of the Tribe's fiscal year, the Tribe shall require its independent auditors to provide an audit report with respect to net win for covered games and the related payment of the annual revenue share.

(c) If the twelfth month of the revenue sharing cycle does not coincide with the Tribe's fiscal year, the Tribe shall deduct net win from covered games for any of the months outside of the revenue sharing cycle and include net win from covered games for those months outside of the Tribe's audit period but within the revenue sharing cycle, before issuing the audit report.

(d) No later than 30 calendar days after the day the audit report is issued, the Tribe shall remit to the state any underpayment of the annual revenue share, and the state shall either reimburse to the Tribe any overpayment of the annual revenue share or authorize the overpayment to be deducted from the next successive monthly payment or payments.

(5) If, after any change in state law to affirmatively allow internet or online gaming, or any functionally equivalent

remote gaming system that permits a person to play from home or any other location that is remote from a casino or other commercial gaming facility, but excluding any fantasy contest conducted pursuant to s. 546.13, the Tribe's net win from the operation of covered games at all of its facilities combined drops more than five percent below its net win from the previous 12-month period, the Tribe shall no longer be required to make payments to the state based on the guaranteed minimum compact term payment and shall not be required to make the guaranteed minimum compact term payment. However, the Tribe shall continue to make payments based on the percentage revenue share amount. The Tribe shall resume making the guaranteed minimum compact term payment for any subsequent revenue sharing cycle in which its net win rises above the level described in this subsection. This subsection does not apply if:

(a) The decline in net win is due to acts of God, war, terrorism, fires, floods, or accidents causing damage to or destruction of one or more of its facilities or property necessary to operate the facility of facilities; or

(b) The Tribe offers internet or online gaming or any functionally equivalent remote gaming system that permits a person to game from home or any other location that is remote from any of the Tribe's facilities, as authorized by law.

(6) The annual oversight assessment, which shall not exceed $250,000 per year, indexed for inflation as determined by the Consumer Price Index, shall be determined and paid in quarterly installments within 30 calendar days after receipt by the Tribe of an invoice from the state compliance agency. The Tribe reserves the right to audit the invoices on an annual basis, a

184406

copy of which will be provided to the state compliance agency, and any discrepancies found therein shall be reconciled within 45 calendar days after receipt of the audit by the state compliance agency.

(7) The Tribe shall make an annual donation to the Florida Council on Compulsive Gaming as an assignee of the state in an amount not less than $250,000 per facility.

(8) Except as expressly provided in this part, nothing in this compact shall be deemed to require the Tribe to make payments of any kind to the state or any of its agencies.

PART XII

REDUCTION OF TRIBAL PAYMENTS BECAUSE OF LOSS OF EXCLUSIVITY OR OTHER CHANGES IN STATE LAW.—The intent of this compact is to provide the Tribe with the right to operate covered games on an exclusive basis throughout the state, subject to the exceptions and provisions in this part.

(1) For purposes of this part, the terms "Class III gaming" or "other casino-style gaming" include, but are not limited to, slot machines, electronically assisted bingo, electronically assisted pull-tab games, noncard table games, video lottery terminals, or any similar games, whether or not such games are determined through the use of a random number generator. For the purposes of this part, the terms "Class III gaming" and "other casino-style gaming" do not include fantasy contests conducted pursuant to s. 546.13 or designated player games of poker authorized pursuant to s. 849.086, as those statutes are in effect on January 1, 2019.

(a) If, after January 1, 2019, state law is amended, implemented, or interpreted to allow the operation of Class III gaming or other casino-style gaming at any location under the jurisdiction of the state that was not in operation as of January 1, 2019, or a new form of Class III gaming or other casino-style gaming that was not in operation as of January 1, 2019, and such gaming is offered to the public as a result of the amendment, implementation, or interpretation, the Tribe, no fewer than 30 days after the commencement of such new gaming or 90 days after the state's receipt of written notice from the Tribe pursuant to paragraph (b), whichever occurs later, may elect to begin making the affected portion of its payments due to the state pursuant to subsections (2) and (7) of Part XI, into an escrow account.

(b) In order to exercise the provisions of paragraph (a), the Tribe must first notify the state, within 90 days after such amendment, implementation, or interpretation of state law, of the Tribe's objections to such action or interpretation and further specify the basis for the Tribe's contention that such action or interpretation infringes upon the substantial exclusivity afforded under this compact. As part of its written notice, the Tribe must also indicate, if applicable, its intention to begin making the affected portion of its payments due to the state into an escrow account.

(c) Upon receipt of written notice from the Tribe, the state may elect to:

1. Invoke the dispute resolution provisions of Part XIII to determine whether the Tribe's contention is well-founded. In such proceeding, the Tribe carries the burden of proof and

184406

persuasion. The pendency of such proceeding tolls the time periods set forth in paragraph (1)(a) of Part XII for the duration of the dispute or litigation; or

2. Seek through enforcement action, legislation, or other means to stop the conduct of such new games.

(d)1. If, within 15 months following the state's receipt of written notice from the Tribe, the Tribe's contention is deemed not to be well-founded at the conclusion of dispute resolution or new gaming is made illegal and is halted, then all funds being held in the escrow account shall be released to the state and all further payments due to the state pursuant to subsections (2) and (7) of Part XI shall promptly resume.

2. If, after 15 months following the state's receipt of written notice from the Tribe, the Tribe's contention is deemed to be well-founded at the conclusion of dispute resolution and such gaming is not made illegal and halted, then all funds being held in escrow shall be returned to the Tribe and all further payments due to the state pursuant to subsections (2) and (7) of Part XI shall cease or be reduced as provided in subsection (2) until such gaming is no longer operated, in which event the payments shall promptly resume.

(2) The following are exceptions to the exclusivity provisions of subsection (1):

(a) Any Class III gaming authorized by a compact between the state and any other federally recognized tribe pursuant to Indian Gaming Regulatory Act, provided that the tribe has land in federal trust in the state as of January 1, 2018.

(b) The operation of slot machines, which does not include any game played with tangible playing cards, at:

184406

1171 1. Each of the four currently operating licensed pari-
1172 mutuel facilities in Broward County and the four currently
1173 operating licensed pari-mutuel facilities in Miami-Dade County,
1174 whether or not currently operating slot machines, provided that
1175 such licenses are not transferred or otherwise used to move or
1176 operate such slot machines at any other location; or
1177 2. Licensed pari-mutuel facilities in counties, other than
1178 Broward County or Miami-Dade County, which have been authorized
1179 by referendum in each of those counties after January 1, 2012,
1180 and on or before September 1, 2018, pursuant to state law as of
1181 January 1, 2019.
1182 (c)1. If state law is amended to allow for the play of any
1183 additional type of Class III or other casino-style gaming at any
1184 of the presently operating licensed pari-mutuel facilities in
1185 Broward and Miami-Dade Counties, the Tribe may be entitled to a
1186 reduction in the revenue sharing payment as described in
1187 subparagraph 2.
1188 2. If the Tribe’s annual net win from its facilities
1189 located in Broward County for the 12 month period after the
1190 gaming specified in subparagraph 1. begins to be offered for
1191 public or private use is less than the net revenue base, the
1192 revenue share payments due to the state, pursuant to paragraph
1193 (2)(b) of Part XI, for the next revenue sharing cycle and future
1194 revenue sharing cycles shall be calculated by reducing the
1195 Tribe’s payment on revenue generated from its facilities in
1196 Broward County by 50 percent of that reduction in annual net win
1197 from its facilities in Broward County. This paragraph does not
1198 apply if the decline in net win is due to acts of God, war,
1199 terrorism, fires, floods, or accidents causing damage to or

184406

destruction of one or more of its facilities or property necessary to operate the facility or facilities.

3. If the Tribe's annual net win from its facilities located in Broward County subsequently equals or exceeds the net revenue base, then the Tribe's payments due to the state pursuant to paragraph (2)(b) of Part XI shall again be calculated without any reduction, but may be reduced again under the provisions set forth in subparagraph 2.

(d) If state law is amended to allow the play of Class III gaming or other casino-style gaming, as defined in this part, at any location in Miami-Dade County or Broward County under the jurisdiction of the state that is not presently licensed for the play of such games at such locations, other than those facilities set forth in paragraph (c) and this paragraph, and such games were not in play as of January 1, 2018, and such gaming begins to be offered for public or private use, the payments due the state pursuant to subparagraph (c)2., shall be calculated by excluding the net win from the Tribe's facilities in Broward County.

(e) The operation of a combined total of not more than 350 historic racing machines, connected to a central server at that facility, and electronic bingo machines at each pari-mutuel facility licensed as of January 1, 2018, and not located in either Broward County or Miami-Dade County.

(f) The operation of pari-mutuel wagering activities at pari-mutuel facilities licensed by the state.

(g) The operation by the Department of the Lottery of those types of lottery games authorized under chapter 24 as of January 1, 2018, but not including any player-activated or operated

184406

machine or device other than a lottery vending machine or any banked or banking card or table game. However, not more than ten lottery vending machines may be installed at any facility or location and no lottery vending machine that dispenses electronic instant tickets may be installed at any licensed pari-mutuel facility.

(h) The operation of games of poker, including designated player games of poker, as authorized by chapter 849 as of January 1, 2019.

(i) The operation of games permitted by chapters 546 and 849, Florida Statutes, as of January 1, 2019.

(j) The following events shall not trigger any remedy under this compact and do not affect the exclusivity provisions of this compact:

1. Any change to the tax rate paid to the state by the licensed pari-mutuel permitholders for the operation of slot machines, provided the effective tax rate is not less than 25 percent. If the effective tax rate is less than 25 percent, then the Tribe shall be relieved of its obligations to make the guaranteed minimum compact term payment and any further guaranteed revenue sharing cycle payment, but instead shall make payments to the state for all future revenue sharing cycles based on the percentage payments set forth in paragraph (2)(c) of Part XI, but shall be permitted to exclude all revenue generated by slot machines at its facilities in Broward County; and

2. Any change in state law that removes the requirement for pari-mutuel permitholders to conduct performances of live races or games in order to operate other authorized gaming activities.

184406

(3) To the extent that the exclusivity provisions of this part are breached or otherwise violated and the Tribe's ongoing payment obligations to the state pursuant to subsections (2) and (7) of Part XI cease, any outstanding payments that would have been due the state from the Tribe's facilities before the breach or violation shall be made within 30 business days after the breach or violation.

(4) The breach of this part's exclusivity provisions and the cessation of payments pursuant to subsections (2) and (7) of Part XI shall not excuse the Tribe from continuing to comply with all other provisions of this compact, including continuing to pay the state the annual oversight assessment as set forth in subsection (6) of Part XI.

PART XIII

DISPUTE RESOLUTION.—In the event that the Tribe or State believes that the other party has failed to comply with any requirements of this compact, or in the event of any dispute hereunder, including, but not limited to, a dispute over the proper interpretation of the terms and conditions of this compact, the goal of the parties is to resolve all disputes amicably and voluntarily whenever possible. In pursuit of this goal, the following procedures may be invoked:

(1) A party asserting noncompliance or seeking an interpretation of this compact first shall serve written notice on the other party. The notice shall identify the specific compact provision alleged to have been violated or in dispute and shall specify in detail the asserting party's contention and

184406

any factual basis for the claim. Representatives of the Tribe and state shall meet within 30 calendar days after receipt of notice in an effort to resolve the dispute, unless they mutually agree to extend this period.

(2) A party asserting noncompliance or seeking an interpretation of this compact under this part shall be deemed to have certified that to the best of the party's knowledge, information, and belief formed after reasonable inquiry, the claim of noncompliance or the request for interpretation of this compact is warranted and made in good faith and not for any improper purpose, such as to harass or to cause unnecessary delay or the needless incurring of the cost of resolving the dispute.

(3) If the parties are unable to resolve a dispute through the process specified in subsections (1) and (2), either party may call for mediation under the Commercial Mediation Procedures of the American Arbitration Association or any successor procedures, provided that such mediation does not last more than 60 calendar days, unless an extension to this time limit is negotiated by the parties. Only matters arising under the terms of this compact may be available for resolution through mediation. If the parties are unable to resolve a dispute through the process specified in this part, notwithstanding any other provision of law, either party may bring an action in a United States District Court having venue regarding a dispute arising under this compact. If the court declines to exercise jurisdiction, or federal precedent exists that holds that the court would not have jurisdiction over such a dispute, either party may bring the action in the appropriate court of the

184406

Seventeenth Judicial Circuit in Broward County, Florida. The parties are entitled to all rights of appeal permitted by law in the court system in which the action is brought.

(4) For purposes of actions based on disputes between the state and the Tribe that arise under this compact and the enforcement of any judgment resulting from such action, the Tribe and the state each expressly waive the right to assert sovereign immunity from suit and from enforcement of any ensuing judgment, and further consent to be sued in federal or state court, including the right of appeal specified above, as the case may be, provided that:

(a) The dispute is limited solely to issues arising under this compact.

(b) There is no claim for monetary damages, except that payment of any money required by the terms of this compact, as well as injunctive relief or specific performance enforcing a provision of this compact requiring the payment of money to the state may be sought.

(c) Nothing herein shall be construed to constitute a waiver of the sovereign immunity of the Tribe with respect to any third party that is made a party or intervenes as a party to the action. In the event that intervention, joinder, or other participation by any additional party in any action between the state and the Tribe would result in the waiver of the Tribe's sovereign immunity as to that additional party, the waiver of the Tribe may be revoked.

(5) The state may not be precluded from pursuing any mediation or judicial remedy against the Tribe on the grounds that the state has failed to exhaust its Tribal administrative

remedies.

(6) Notwithstanding any other provision of this part, any failure of the Tribe to remit the payments pursuant to the terms of Part XI entitles the state to seek injunctive relief in federal or state court, at the state's election, to compel the payments after the dispute resolution process in subsections (1) and (2) is exhausted.

PART XIV

CONSTRUCTION OF COMPACT; SEVERANCE; FEDERAL APPROVAL.—

(1) Each provision of this compact shall stand separate and independent of every other provision. In the event that a federal district court in Florida or other court of competent jurisdiction shall find any provision of this compact to be invalid, the remaining provisions shall remain in full force and effect, provided that severing the invalidated provision does not undermine the overall intent of the parties in entering into this compact. However, if subsection (6) of Part III, Part XI, or Part XII are held by a court of competent jurisdiction to be invalid, this compact will become null and void.

(2) It is understood that Part XII, which provides for a cessation of the payments to the state under Part XI, does not create any duty on the state but only a remedy for the Tribe if gaming under state jurisdiction is expanded.

(3) This compact is intended to meet the requirements of the Indian Gaming Regulatory Act as it reads on the effective date of this compact, and where reference is made to the Indian Gaming Regulatory Act, or to an implementing regulation thereof,

184406

the reference is deemed to have been incorporated into this document. Subsequent changes to the Indian Gaming Regulatory Act that diminish the rights of the state or Tribe may not be applied retroactively to alter the terms of this compact, except to the extent that federal law validly mandates that retroactive application without the respective consent of the state or the Tribe. In the event that a subsequent change in the Indian Gaming Regulatory Act, or to an implementing regulation thereof, mandates retroactive application without the respective consent of the state or the Tribe, the parties agree that this compact is voidable by either party if the subsequent change materially alters the provisions in the compact relating to the play of covered games, revenue sharing payments, suspension or reduction of payments, or exclusivity.

(4) Neither the presence of language that is not included in this compact, nor the absence in this compact of language that is present in another state-tribal compact shall be a factor in construing the terms of this compact.

(5) The Tribe and the state shall defend the validity of this compact.

(6) The parties shall cooperate in seeking approval of this compact from the Secretary of the Department of the Interior.

PART XV

NOTICES.—All notices required under this compact shall be given by certified mail, return receipt requested, commercial overnight courier service, or personal delivery, to the Governor, the President of the Senate, the Speaker of the House

of Representatives, and the Chairman and General Counsel of the Seminole Tribe of Florida.

PART XVI

EFFECTIVE DATE AND TERM.—

(1) This compact, if identical to the version ratified by the Legislature in s. 285.710(3)(c), Florida Statutes, in 2018, shall become effective upon its approval as a tribal-state compact within the meaning of the Indian Gaming Regulatory Act either by action of the Secretary of the Department of the Interior or by operation of law under 25 U.S.C. s. 2710(d)(8) upon publication of a notice of approval in the Federal Register under 25 U.S.C. s. 2710(d)(8)(D).

(2) This compact shall have a term of twenty-two years beginning on the first day of the month following the month in which the compact becomes effective under subsection (1).

(3) The Tribe's authorization to offer covered games under this compact shall automatically terminate twenty-two years after the effective date unless renewed by an affirmative act of the Legislature.

PART XVII

AMENDMENT OF COMPACT AND REFERENCES.—

(1) Amendment of this compact may only be made by written agreement of the parties, subject to approval by the Secretary of the Department of the Interior, either by publication of the notice of approval in the Federal Register or by operation of

184406

law under 25 U.S.C. s. 2710(d)(8).

(2) Legislative ratification is required for any amendment to the compact that alters the provisions relating to covered games, the amount of revenue sharing payments, suspension or reduction in payments, or exclusivity.

(3) Changes in the provisions of tribal ordinances, regulations, and procedures referenced in this compact may be made by the Tribe with 30 days' advance notice to the state. If the state has an objection to any change to the tribal ordinance, regulation, or procedure which is the subject of the notice on the ground that its adoption would be a violation of the Tribe's obligations under this compact, the state may invoke the dispute resolution provisions provided in Part XIII.

PART XVIII

MISCELLANEOUS.—

(1) Except to the extent expressly provided in this compact, this compact is not intended to, and shall not be construed to, create any right on the part of a third party to bring an action to enforce any of its terms.

(2) If, after the effective date of this compact, the state enters into a compact with any other Tribe that contains more favorable terms with respect to the provisions of this Compact and the Secretary of the Department of the Interior approves such compact, either by publication of the notice of approval in the Federal Register or by operation of law under 25 U.S.C. s. 2710(d)(8), upon tribal notice to the state and the Secretary, this compact shall be deemed amended to contain the more

184406

favorable terms, unless the state objects to the change and can demonstrate, in a proceeding commenced under Part XIII, that the terms in question are not more favorable.

(3) Upon the occurrence of certain events beyond the Tribe's control, including acts of God, war, terrorism, fires, floods, or accidents causing damage to or destruction of one or more of its facilities or property necessary to operate the facility or facilities, the Tribe's obligation to pay the guaranteed minimum compact term payment described in Part XI shall be reduced pro rata to reflect the percentage of the total net win lost to the Tribe from the impacted facility or facilities and the net win specified under subsection (2) of Part XII for purposes of determining whether the Tribe's payments described in Part XI shall cease, shall be reduced pro rata to reflect the percentage of the total net win lost to the Tribe from the impacted facility or facilities. The foregoing shall not excuse any obligations of the Tribe to make payments to the state as and when required hereunder or in any related document or agreement.

(4) The Tribe and the state recognize that opportunities to engage in gaming in smoke-free or reduced-smoke environments provides both health and other benefits to patrons, and the Tribe has instituted a nonsmoking section at its Seminole Hard Rock Hotel & Casino-Hollywood Facility. As part of its continuing commitment to this issue, the Tribe shall:

(a) Install and utilize a ventilation system at all new construction at its facilities, which system exhausts tobacco smoke to the extent reasonably feasible under existing state-of-the-art technology.

184406

(b) Designate a smoke-free area for slot machines at all new construction at its facilities.

(c) Install nonsmoking, vented tables for table games installed in its facilities sufficient to reasonably respond to demand for such tables.

(d) Designate a nonsmoking area for gaming within all of its facilities within five years after the effective date of the compact.

(5) The annual average minimum pay-out of all slot machines in each facility may not be less than 85 percent.

(6) Nothing in this compact shall alter any of the existing memoranda of understanding, contracts, or other agreements entered into between the Tribe and any other federal, state, or local governmental entity.

(7) The Tribe currently has, as set forth in its Employee Fair Treatment and Dispute Resolution Policy, and agrees to maintain, standards that are comparable to the standards provided in federal laws and state laws forbidding employers from discrimination in connection with the employment of persons working at the facilities on the basis of race, color, religion, national origin, gender, age, disability, or marital status. Nothing herein shall preclude the Tribe from giving preference in employment, promotion, seniority, lay-offs, or retention to members of the Tribe and other federally recognized tribes.

(8) The Tribe shall, with respect to any facility where covered games are played, adopt and comply with tribal requirements that meet the same minimum state requirements applicable to businesses in the state with respect to environmental and building standards.

PART XIX

EXECUTION.—The Governor of the State of Florida affirms that he has authority to act for the state in this matter and that, provided that this compact is identical to the compact ratified by the Legislature pursuant to s. 285.710(3)(c), Florida Statutes, no further action by the state or any state official is necessary for this compact to take effect upon federal approval by action of the Secretary of the Department of the Interior or by operation of law under 25 U.S.C. s. 2710(d)(8) by publication of the notice of approval in the Federal Register. The Governor affirms that he will proceed with obtaining such federal approval and take all other appropriate action to effectuate the purposes and intent of this Compact. The undersigned Chairman of the Tribal Council of the Seminole Tribe of Florida affirms that he is duly authorized and has the authority to execute this Compact on behalf of the Tribe. The Chairman also affirms that he will assist in obtaining federal approval and take all other appropriate action to effectuate the purposes and intent of this Compact.

Section 2. Subsection (4) of section 285.712, Florida Statutes, is amended to read:

285.712 Tribal-state gaming compacts.—

(4) Upon execution ~~receipt~~ of ~~an act ratifying~~ a tribal-state compact entered pursuant to s. 285.710(3)(b), the Governor shall provide a copy to the Secretary of State who shall forward a copy of the executed compact and the ratifying act to the United States Secretary of the Interior for his or her review

184406

and approval, in accordance with 25 U.S.C. s. 2710(d)(8) ~~2710(8)(d)~~.

Section 3. Section 546.13, Florida Statutes, is created to read:

546.13 Fantasy contests and fantasy contest operators.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Entry fee" means cash or a cash equivalent that is required to be paid by a participant in order to participate in a fantasy contest.

(b) "Fantasy contest" means a fantasy or simulated game or contest in which:

1. The value of all prizes and awards offered to winning participants is established and made known to the participants in advance of the contest and is unrelated to the number of participants in the contest;

2. All winning outcomes reflect the relative knowledge and skill of the participants and are determined predominantly by accumulated statistical results of the performance of individuals, including athletes in the case of sporting events;

3. No winning outcome is based on the score, point spread, or any performance or performances of any single actual team or combination of such teams, solely on any single performance of an individual athlete or player in any single actual event, or on the performances of participants in collegiate, high school, or youth sporting events.

4. No casino graphics, themes, or titles, including, but not limited to, depictions of slot machine-style symbols, cards, craps, roulette, or lotto, are displayed or depicted.

(c) "Fantasy contest operator" means a person or an entity,

184406

including any employee or agent, that offers or conducts a fantasy contest with an entry fee for a cash prize or award and that is not a participant in the fantasy contest.

(2) EXEMPTIONS.—The Department of Business and Professional Regulation may not regulate and the offenses established in s. 849.01, s. 849.08, s. 849.09, s. 849.11, s. 849.14, and s. 849.25 do not include or apply to a fantasy contest operated or conducted by a:

(a) Fantasy contest operator.

(b) Natural person who is a participant in the fantasy contest, serves as the commissioner of not more than 10 fantasy contests in a calendar year, and distributes all entry fees for the fantasy contest as prizes or awards to the participants in that fantasy contest.

Section 4. Subsections (1) and (3) of section 550.01215, Florida Statutes, are amended to read:

550.01215 License application; periods of operation; bond, conversion of permit.—

(1) Each permitholder shall annually, during the period between December 15 and January 4, file in writing with the division its application for an operating ~~a~~ license to conduct pari-mutuel wagering during the next state fiscal year, including intertrack and simulcast race wagering for greyhound racing permitholders, jai alai permitholders, harness horse racing permitholders, and quarter horse racing permitholders that do not ~~to~~ conduct live performances ~~during the next state fiscal year~~. Each application for live performances must ~~shall~~ specify the number, dates, and starting times of all live performances that ~~which~~ the permitholder intends to conduct. It

184406

must ~~shall~~ also specify which performances will be conducted as charity or scholarship performances.

(a) ~~In addition,~~ Each application for an operating ~~a~~ license also must ~~shall~~ include:~~,~~

1. For each permitholder, whether the permitholder intends to accept wagers on intertrack or simulcast events.

2. For each permitholder that elects ~~which elects~~ to operate a cardroom, the dates and periods of operation the permitholder intends to operate the cardroom. ~~or,~~

3. For each thoroughbred racing permitholder that ~~which~~ elects to receive or rebroadcast out-of-state races after 7 p.m., the dates for all performances which the permitholder intends to conduct.

(b) A greyhound racing permitholder that conducted a full schedule of live racing for a period of at least 10 consecutive state fiscal years after the 1996-1997 state fiscal year, or that converted its permit to a permit to conduct greyhound racing after the 1996-1997 state fiscal year, irrevocably may elect not to conduct live racing if the election is made within 36 months after the effective date of this act. A greyhound racing permitholder that makes such election retains its permit; is a pari-mutuel facility as defined in s. 550.002(23); if such permitholder has been issued a slot machine license, the facility where such permit is located remains an eligible facility as defined in s. 551.102(4), continues to be eligible for a slot machine license, and is exempt from ss. 551.104(3) and (4)(c)1. and 551.114(2) and (4); is eligible, but not required, to be a guest track for purposes of intertrack wagering and simulcasting pursuant to ss. 550.3551, 550.615, and

550.6305; and remains eligible for a cardroom license notwithstanding any requirement in s. 849.086 for the conduct of live performances. A greyhound racing permitholder may receive an operating license to conduct pari-mutuel wagering activities at another permitholder's greyhound racing facility pursuant to s. 550.475.

(c) A jai alai permitholder, harness horse racing permitholder or a quarter horse racing permitholder that has conducted live racing or games for at least 5 years irrevocably may elect not to conduct live racing or games if the election is made within 36 months after the effective date of this act. A permitholder that makes such election retains its permit; is a pari-mutuel facility as defined in s. 550.002(23); if such permitholder has been issued a slot machine license, the facility where such permit is located remains an eligible facility as defined in s. 551.102(4), continues to be eligible for a slot machine license, and is exempt from ss. 551.104(3) and (4)(c)1. and 551.114(2) and (4); is eligible, but not required, to be a guest track and, if the permitholder is a harness horse racing permitholder, to be a host track for purposes of intertrack wagering and simulcasting pursuant to ss. 550.3551, 550.615, 550.625, and 550.6305; and remains eligible for a cardroom license notwithstanding any requirement in s. 849.086 to conduct live performances.

(d) Permitholders may ~~shall be entitled to~~ amend their applications through February 28.

(3) The division shall issue each license no later than March 15. Each permitholder shall operate all performances at the date and time specified on its license. The division shall

184406

have the authority to approve minor changes in racing dates after a license has been issued. The division may approve changes in racing dates after a license has been issued when there is no objection from any operating permitholder located within 50 miles of the permitholder requesting the changes in operating dates. In the event of an objection, the division shall approve or disapprove the change in operating dates based upon the impact on operating permitholders located within 50 miles of the permitholder requesting the change in operating dates. In making the determination to change racing dates, the division shall take into consideration the impact of such changes on state revenues. Notwithstanding any other provision of law, and for the 2018-2019 fiscal year only, the division may approve changes in racing dates for permitholders if the request for such changes is received before May 31, 2018.

Section 5. Subsections (9), (13), (14), and paragraph (a) of subsection (11) of section 550.054, Florida Statutes, are amended to read:

550.054 Application for permit to conduct pari-mutuel wagering.—

(9)(a) After a permit has been granted by the division and has been ratified and approved by the majority of the electors participating in the election in the county designated in the permit, the division shall grant to the lawful permitholder, subject to the conditions of this chapter, a license to conduct pari-mutuel operations under this chapter, and, except as provided in s. 550.5251, the division shall fix annually the time, place, and number of days during which pari-mutuel operations may be conducted by the permitholder at the location

184406

fixed in the permit and ratified in the election. After the first license has been issued to the holder of a ratified permit for racing in any county, all subsequent annual applications for a license by that permitholder must be accompanied by proof, in such form as the division requires, that the ratified permitholder still possesses all the qualifications prescribed by this chapter and that the permit has not been recalled at a later election held in the county.

(b) The division may revoke or suspend any permit or license issued under this chapter upon a ~~the~~ willful violation by the permitholder or licensee ~~of any provision~~ of chapter 551, chapter 849, or this chapter or rules ~~of any rule~~ adopted pursuant to those chapters. With the exception of the revocation of permits required in paragraphs (c) and (e) ~~under this chapter. In lieu of suspending or revoking a permit or license~~, the division, in lieu of suspending or revoking a permit or license, may impose a civil penalty against the permitholder or licensee for a violation of this chapter or rules adopted pursuant thereto ~~any rule adopted by the division~~. The penalty so imposed may not exceed $1,000 for each count or separate offense. All penalties imposed and collected must be deposited with the Chief Financial Officer to the credit of the General Revenue Fund.

(c)1. The division shall revoke the permit of any permitholder that fails to make payments due pursuant to chapter 550, chapter 551, or s. 849.086 for more than 24 consecutive months unless such failure was the direct result of fire, strike, war, or other disaster or event beyond the permitholder’s control. Financial hardship to the permitholder

184406

does not, in and of itself, constitute just cause for failure to make payments.

2. The division shall revoke the permit of any permitholder that has not obtained an operating license in accordance with s. 550.01215 for a period of more than 24 consecutive months after June 30, 2012. The division shall revoke the permit upon adequate notice to the permitholder. Financial hardship to the permitholder does not, in and of itself, constitute just cause for failure to operate.

(d) A new permit to conduct pari-mutuel wagering may not be approved or issued after January 1, 2018.

(e) A permit revoked under this subsection is void and may not be reissued.

(11)(a) A permit granted under this chapter may not be transferred or assigned except upon written approval by the division pursuant to s. 550.1815~~, except that the holder of any permit that has been converted to a jai alai permit may lease or build anywhere within the county in which its permit is located~~.

(13)~~(a)~~ Notwithstanding any provisions of this chapter or chapter 551, a pari-mutuel ~~no thoroughbred horse racing~~ permit or license issued under this chapter may not ~~shall~~ be transferred, or reissued when such reissuance is in the nature of a transfer so as to permit or authorize a licensee to change the location of a pari-mutuel facility, or a cardroom or slot machine facility, except through the relocation of the pari-mutuel permit pursuant to s. 550.0555 ~~thoroughbred horse racetrack except upon proof in such form as the division may prescribe that a referendum election has been held:~~

~~1. If the proposed new location is within the same county~~

~~as the already licensed location, in the county where the licensee desires to conduct the race meeting and that a majority of the electors voting on that question in such election voted in favor of the transfer of such license~~.

~~2. If the proposed new location is not within the same county as the already licensed location, in the county where the licensee desires to conduct the race meeting and in the county where the licensee is already licensed to conduct the race meeting and that a majority of the electors voting on that question in each such election voted in favor of the transfer of such license.~~

~~(b) Each referendum held under the provisions of this subsection shall be held in accordance with the electoral procedures for ratification of permits, as provided in s. 550.0651. The expense of each such referendum shall be borne by the licensee requesting the transfer.~~

(14)~~(a)~~ Notwithstanding any other provision of law, a pari-mutuel permit, cardroom, or slot machine facility may not be relocated, and a pari-mutuel permit may not be converted to another class of permit. ~~Any holder of a permit to conduct jai alai may apply to the division to convert such permit to a permit to conduct greyhound racing in lieu of jai alai if:~~

~~1. Such permit is located in a county in which the division has issued only two pari-mutuel permits pursuant to this section;~~

~~2. Such permit was not previously converted from any other class of permit; and~~

~~3. The holder of the permit has not conducted jai alai games during a period of 10 years immediately preceding his or~~

~~her application for conversion under this subsection.~~

~~(b) The division, upon application from the holder of a jai alai permit meeting all conditions of this section, shall convert the permit and shall issue to the permitholder a permit to conduct greyhound racing. A permitholder of a permit converted under this section shall be required to apply for and conduct a full schedule of live racing each fiscal year to be eligible for any tax credit provided by this chapter. The holder of a permit converted pursuant to this subsection or any holder of a permit to conduct greyhound racing located in a county in which it is the only permit issued pursuant to this section who operates at a leased facility pursuant to s. 550.475 may move the location for which the permit has been issued to another location within a 30-mile radius of the location fixed in the permit issued in that county, provided the move does not cross the county boundary and such location is approved under the zoning regulations of the county or municipality in which the permit is located, and upon such relocation may use the permit for the conduct of pari-mutuel wagering and the operation of a cardroom. The provisions of s. 550.6305(9)(d) and (f) shall apply to any permit converted under this subsection and shall continue to apply to any permit which was previously included under and subject to such provisions before a conversion pursuant to this section occurred.~~

Section 6. Section 550.0745, Florida Statutes, is repealed.

Section 7. Subsection (3) of section 550.09512, Florida Statutes, is amended to read:

550.09512 Harness horse taxes; abandoned interest in a permit for nonpayment of taxes.—

184406

(3)~~(a)~~ The division shall revoke the permit of a harness horse racing permitholder who does not pay tax on handle for live harness horse performances for a full schedule of live races for more than 24 consecutive months ~~during any 2 consecutive state fiscal years shall be void and shall escheat to and become the property of the state~~ unless such failure to operate and pay tax on handle was the direct result of fire, strike, war, or other disaster or event beyond the ability of the permitholder to control. Financial hardship to the permitholder does ~~shall~~ not, in and of itself, constitute just cause for failure to operate and pay tax on handle. A permit revoked under this subsection is void and may not be reissued.

~~(b) In order to maximize the tax revenues to the state, the division shall reissue an escheated harness horse permit to a qualified applicant pursuant to the provisions of this chapter as for the issuance of an initial permit. However, the provisions of this chapter relating to referendum requirements for a pari-mutuel permit shall not apply to the reissuance of an escheated harness horse permit. As specified in the application and upon approval by the division of an application for the permit, the new permitholder shall be authorized to operate a harness horse facility anywhere in the same county in which the escheated permit was authorized to be operated, notwithstanding the provisions of s. 550.054(2) relating to mileage limitations.~~

Section 8. Subsections (3) and (7) of section 550.09515, Florida Statutes, are amended to read:

550.09515 Thoroughbred horse taxes; abandoned interest in a permit for nonpayment of taxes.—

(3)~~(a)~~ The division shall revoke the permit of a

184406

thoroughbred racing ~~horse~~ permitholder that ~~who~~ does not pay tax on handle for live thoroughbred horse performances for a full schedule of live races for more than 24 consecutive months ~~during any 2 consecutive state fiscal years shall be void and shall escheat to and become the property of the state~~ unless such failure to operate and pay tax on handle was the direct result of fire, strike, war, or other disaster or event beyond the ability of the permitholder to control. Financial hardship to the permitholder does ~~shall~~ not, in and of itself, constitute just cause for failure to operate and pay tax on handle. A permit revoked under this subsection is void and may not be reissued.

~~(b) In order to maximize the tax revenues to the state, the division shall reissue an escheated thoroughbred horse permit to a qualified applicant pursuant to the provisions of this chapter as for the issuance of an initial permit. However, the provisions of this chapter relating to referendum requirements for a pari-mutuel permit shall not apply to the reissuance of an escheated thoroughbred horse permit. As specified in the application and upon approval by the division of an application for the permit, the new permitholder shall be authorized to operate a thoroughbred horse facility anywhere in the same county in which the escheated permit was authorized to be operated, notwithstanding the provisions of s. 550.054(2) relating to mileage limitations.~~

~~(7) If a thoroughbred permitholder fails to operate all performances on its 2001-2002 license, failure to pay tax on handle for a full schedule of live races for those performances in the 2001-2002 fiscal year does not constitute failure to pay~~

184406

~~taxes on handle for a full schedule of live races in a fiscal year for the purposes of subsection (3). This subsection may not be construed as forgiving a thoroughbred permitholder from paying taxes on performances conducted at its facility pursuant to its 2001-2002 license other than for failure to operate all performances on its 2001-2002 license. This subsection expires July 1, 2003.~~

Section 9. Section 550.3345, Florida Statutes, is amended to read:

550.3345 ~~Conversion of quarter horse permit to a~~ Limited thoroughbred racing permit.—

(1) In recognition of the important and long-standing economic contribution of the thoroughbred horse breeding industry to this state and the state's vested interest in promoting the continued viability of this agricultural activity, the state intends to provide a limited opportunity for the conduct of live thoroughbred horse racing with the net revenues from such racing dedicated to the enhancement of thoroughbred purses and breeders', stallion, and special racing awards under this chapter; the general promotion of the thoroughbred horse breeding industry; and the care in this state of thoroughbred horses retired from racing.

(2) A limited thoroughbred racing permit previously converted from ~~Notwithstanding any other provision of law, the holder of~~ a quarter horse racing permit pursuant to chapter 2010-29, Laws of Florida, ~~issued under s. 550.334~~ may only be held by~~, within 1 year after the effective date of this section, apply to the division for a transfer of the quarter horse racing permit to~~ a not-for-profit corporation formed under state law to

184406

serve the purposes of the state as provided in subsection (1). The board of directors of the not-for-profit corporation must be composed ~~comprised~~ of 11 members, 4 of whom shall be designated by the applicant, 4 of whom shall be designated by the Florida Thoroughbred Breeders' Association, and 3 of whom shall be designated by the other 8 directors, with at least 1 of these 3 members being an authorized representative of another thoroughbred racing permitholder in this state. A limited thoroughbred racing ~~The not-for-profit corporation shall submit an application to the division for review and approval of the transfer in accordance with s. 550.054. Upon approval of the transfer by the division, and notwithstanding any other provision of law to the contrary, the not-for-profit corporation may, within 1 year after its receipt of the permit, request that the division convert the quarter horse racing permit to a permit authorizing the holder to conduct pari-mutuel wagering meets of thoroughbred racing. Neither the transfer of the quarter horse racing permit nor its conversion to a limited thoroughbred permit shall be subject to the mileage limitation or the ratification election as set forth under s. 550.054(2) or s. 550.0651. Upon receipt of the request for such conversion, the division shall timely issue a converted permit. The converted~~ permit and the not-for-profit corporation are ~~shall be~~ subject to the following requirements:

(a) All net revenues derived by the not-for-profit corporation under the thoroughbred ~~horse~~ racing permit, after the funding of operating expenses and capital improvements, shall be dedicated to the enhancement of thoroughbred purses and breeders', stallion, and special racing awards under this

184406

chapter; the general promotion of the thoroughbred horse breeding industry; and the care in this state of thoroughbred horses retired from racing.

(b) From December 1 through April 30, ~~no~~ live thoroughbred racing may not be conducted under the permit on any day during which another thoroughbred racing permitholder is conducting live thoroughbred racing within 125 air miles of the not-for-profit corporation's pari-mutuel facility unless the other thoroughbred racing permitholder gives its written consent.

(c) After ~~the conversion of the quarter horse racing permit and the~~ issuance of its initial license to conduct pari-mutuel wagering meets of thoroughbred racing, the not-for-profit corporation shall annually apply to the division for a license pursuant to s. 550.5251.

(d) Racing under the permit may take place only at the location for which the original quarter horse racing permit was issued, which may be leased by the not-for-profit corporation for that purpose~~; however, the not-for-profit corporation may, without the conduct of any ratification election pursuant to s. 550.054(13) or s. 550.0651, move the location of the permit to another location in the same county provided that such relocation is approved under the zoning and land use regulations of the applicable county or municipality~~.

(e) A limited thoroughbred racing ~~No~~ permit may not be transferred ~~converted under this section is eligible for transfer~~ to another person or entity.

(3) Unless otherwise provided in this section, ~~after conversion,~~ the permit and the not-for-profit corporation shall be treated under the laws of this state as a thoroughbred racing

184406

permit and as a thoroughbred racing permitholder, respectively, with the exception of ss. 550.054(9)(c) and 550.09515(3) ~~s. 550.09515(3)~~.

Section 10. Subsections (1), (4), and (5) of section 550.6308, Florida Statutes, are amended to read:

550.6308 Limited intertrack wagering license.—In recognition of the economic importance of the thoroughbred breeding industry to this state, its positive impact on tourism, and of the importance of a permanent thoroughbred sales facility as a key focal point for the activities of the industry, a limited license to conduct intertrack wagering is established to ensure the continued viability and public interest in thoroughbred breeding in Florida.

(1) Upon application to the division on or before January 31 of each year, any person that is licensed to conduct public sales of thoroughbred horses pursuant to s. 535.01 and~~,~~ that has conducted at least 8 ~~15~~ days of thoroughbred horse sales at a permanent sales facility in this state for at least 3 consecutive years~~, and that has conducted at least 1 day of nonwagering thoroughbred racing in this state, with a purse structure of at least $250,000 per year for 2 consecutive years~~ before such application~~,~~ shall be issued a license, subject to the conditions set forth in this section, to conduct intertrack wagering at such a permanent sales facility ~~during the following periods:~~

~~(a) Up to 21 days in connection with thoroughbred sales;~~

~~(b) Between November 1 and May 8;~~

~~(c) Between May 9 and October 31 at such times and on such days as any thoroughbred, jai alai, or a greyhound permitholder~~

184406

~~in the same county is not conducting live performances; provided that any such permitholder may waive this requirement, in whole or in part, and allow the licensee under this section to conduct intertrack wagering during one or more of the permitholder's live performances; and~~

~~(d) During the weekend of the Kentucky Derby, the Preakness, the Belmont, and a Breeders' Cup Meet that is conducted before November 1 and after May 8~~.

Only ~~No more than~~ one such license may be issued, and no such license may be issued for a facility located within 50 miles of any for-profit thoroughbred permitholder's track.

~~(4) Intertrack wagering under this section may be conducted only on thoroughbred horse racing, except that intertrack wagering may be conducted on any class of pari-mutuel race or game conducted by any class of permitholders licensed under this chapter if all thoroughbred, jai alai, and greyhound permitholders in the same county as the licensee under this section give their consent.~~

(4)~~(5)~~ The licensee shall be considered a guest track under this chapter. ~~The licensee shall pay 2.5 percent of the total contributions to the daily pari-mutuel pool on wagers accepted at the licensee's facility on greyhound races or jai alai games to the thoroughbred permitholder that is conducting live races for purses to be paid during its current racing meet. If more than one thoroughbred permitholder is conducting live races on a day during which the licensee is conducting intertrack wagering on greyhound races or jai alai games, the licensee shall allocate these funds between the operating thoroughbred~~

~~permitholders on a pro rata basis based on the total live handle at the operating permitholders' facilities.~~

Section 11. Subsections (4), (10), and (11) of section 551.102, Florida Statutes, are amended to read:

551.102 Definitions.—As used in this chapter, the term:

(4) "Eligible facility" means any licensed pari-mutuel facility~~ located in Miami-Dade County or Broward County existing at the time of adoption of s. 23, Art. X of the State Constitution that has conducted live racing or games during calendar years 2002 and 2003 and has been approved by a majority of voters in a countywide referendum to have slot machines at such facility in the respective county; any licensed pari-mutuel facility located within a county as defined in s. 125.011, provided such facility has conducted live racing for 2 consecutive calendar years immediately preceding its application for a slot machine license, pays the required license fee, and meets the other requirements of this chapter; or any licensed pari-mutuel facility in any other county in which a majority of voters have approved slot machines at such facilities in a countywide referendum held pursuant to a statutory or constitutional authorization after the effective date of this section in the respective county, provided such facility has conducted a full schedule of live racing for 2 consecutive calendar years immediately preceding its application for a slot machine license, pays the required licensed fee, and meets the other requirements of this chapter~~.

(10) "Slot machine license" means a license issued by the division authorizing a pari-mutuel permitholder to place and operate slot machines as provided in ~~by s. 23, Art. X of the~~

184406

~~State Constitution, the provisions of~~ this chapter~~,~~ and by division rule ~~rules~~.

(11) "Slot machine licensee" means a pari-mutuel permitholder which ~~who~~ holds a license issued by the division pursuant to this chapter which ~~that~~ authorizes such person to possess a slot machine ~~within facilities specified in s. 23, Art. X of the State Constitution~~ and allows slot machine gaming.

Section 12. Subsections (1) and (2) and paragraph (c) of subsection (4) of section 551.104, Florida Statutes, are amended to read:

551.104 License to conduct slot machine gaming.—

(1) Upon application, ~~and~~ a finding by the division after investigation that the application is complete and that the applicant is qualified, and payment of the initial license fee, the division may issue a license to conduct slot machine gaming in the designated slot machine gaming area of the eligible facility. Once licensed, slot machine gaming may be conducted subject to ~~the requirements of~~ this chapter and rules adopted pursuant thereto. The division may not issue a slot machine license to any pari-mutuel permitholder that includes, or previously included within its ownership group, an ultimate equitable owner that was also an ultimate equitable owner of a pari-mutuel permitholder whose permit was voluntarily or involuntarily surrendered, suspended, or revoked by the division within 10 years before the date of the permitholder's filing of an application for a slot machine license.

(2) An application may be approved by the division only after:

(a) The voters of the county where the applicant's facility

184406

is located have authorized by referendum slot machines within pari-mutuel facilities located in: ~~that county as specified in s. 23, Art. X of the State Constitution~~

1. Miami-Dade County or Broward County existing at the time of adoption of s. 23, Art. X of the State Constitution which conducted live racing or games during calendar years 2002 and 2003, if such permitholder pays the required license fee and meets the other requirements of this chapter.

2. A county as defined in s. 125.011, provided such facility has conducted live racing for 2 consecutive calendar years immediately preceding its application for a slot machine license, pays the required license fee, and meets the other requirements of this chapter.

3. Any other county, provided:

a. Such facility has conducted a full schedule of live racing or games, as defined in s. 550.002(11), for 2 consecutive calendar years immediately preceding its application for a slot machine license, pays the required license fee, and meets the other requirements of this chapter, and such referendum was conducted after January 1, 2012, and on or before September 1, 2018; or

b. Such facility is located on or contiguous with property of the qualified project of a public-private partnership between the permitholder and a responsible public entity in accordance with s. 255.065 and for which a comprehensive agreement has been executed pursuant to s. 255.065 (7), has conducted a full schedule of live racing or games, as defined in s. 550.002(11), for 2 consecutive calendar years immediately preceding its application, pays the required license fee and meets the other

requirements of this chapter, and such referendum is conducted after the effective date of this act and on or before September 1, 2018.

(b) The applicant, for a facility described in subparagraph (a)3., irrevocably surrenders to the division one greyhound racing permit or one jai alai permit issued pursuant to chapter 550 and, after surrendering such permit, continues to hold the permit authorizing pari-mutuel wagering activities at the location at which the applicant intends to operate slot machine gaming. For a permit to be qualified for surrender by an applicant under this paragraph, the holder of such greyhound racing permit or jai alai permit, including any previous owner of such permit, must have conducted a full schedule of live racing or games, as defined in s. 550.002(11), under such permit for not less than the 5 state fiscal years immediately prior to state fiscal year 2018-2019. Upon the surrender of such greyhound racing permit or jai alai permit, the surrendered permit is void and may not be reissued.

(4) As a condition of licensure and to maintain continued authority for the conduct of slot machine gaming, a ~~the~~ slot machine licensee shall:

(c)1. Conduct no less ~~fewer~~ than a full schedule of live racing or games as defined in s. 550.002(11), unless conducting less than a full schedule of live racing or games pursuant to s. 550.01215(1)(b) or (c). A permitholder's responsibility to conduct a full schedule ~~such number~~ of live races or games, as defined in s. 550.002(11), shall be reduced by the number of races or games that could not be conducted due to the direct result of fire, war, hurricane, or other disaster or event

beyond the control of the permitholder. A permitholder may conduct live races or games at another pari-mutuel facility pursuant to s. 550.475 if such permitholder has operated its live races or games by lease for at least 5 consecutive years immediately prior to the permitholder's application for a slot machine license.

2.a. If not licensed to conduct a full schedule of live racing or games, as defined in s. 550.002(11), pursuant to s. 550.01215(1)(b) or (c), remit each month to each qualified thoroughbred permitholder, by electronic funds transfer, an amount equal to one-twelfth of the lesser of $1.5 million or 2.75 percent of its slot machine revenues from the previous state fiscal year, divided by the total number of qualified thoroughbred permitholders for the applicable state fiscal year. Qualified thoroughbred permitholders shall use such payments exclusively for purses and awards for live thoroughbred horse races held at the qualified thoroughbred permitholder's racing facility. For the purposes of this subparagraph, the term "qualified thoroughbred permitholder" means a thoroughbred permitholder conducting, in the applicable state fiscal year, no less than a full schedule of live racing or games, as defined in s. 550.002(11), and no fewer live thoroughbred horse racing performances than such permitholder conducted in state fiscal year 2017-2018. The term does not include a permitholder whose permit was issued pursuant to s. 550.3345 or a permitholder leasing at another thoroughbred permitholder's facility pursuant to s. 550.475.

b. The division shall notify each slot machine licensee required to remit such payments, not later than 15 days after

184406

issuing the slot machine license, of the qualified thoroughbred permitholders to which such payments must be paid. Each qualified thoroughbred permitholder shall provide each slot machine licensee required to remit payments pursuant to this subparagraph with written instructions for transmitting such electronic payments. Such payments shall be remitted to each qualified thoroughbred permitholder on the fifth day of each calendar month. If the fifth day of the calendar month falls on a weekend, such payment shall be remitted on the first Monday following the weekend.

c. A qualified thoroughbred permitholder receiving funds under this subparagraph shall remit, within 10 days after receipt, 10 percent of those funds to the Florida Thoroughbred Breeders' Association, Inc., for the payment of breeders', stallion, and special racing awards, subject to the fee authorized in s. 550.2625(3).

Section 13. Subsections (3) and (5) of section 551.106, Florida Statutes, are redesignated as subsections (4) and (6), respectively, a new subsection (3) is added to that section, and subsections (1), (2), and present subsection (4) of that section are amended, to read:

551.106 License fee; tax rate; penalties.—

(1) LICENSE FEE.—

~~(a)~~ Upon submission of the initial application for a slot machine license, and annually thereafter~~,~~ on the anniversary date of the issuance of the initial license, the licensee must pay to the division a nonrefundable license fee of ~~$3 million for the succeeding 12 months of licensure. In the 2010-2011 fiscal year, the licensee must pay the division a nonrefundable~~

184406

~~license fee of $2.5 million for the succeeding 12 months of licensure. In the 2011-2012 fiscal year and for every fiscal year thereafter, the licensee must pay the division a nonrefundable license fee of~~ $2 million for the succeeding 12 months of licensure. The license fee must ~~shall~~ be deposited into the Pari-mutuel Wagering Trust Fund of the Department of Business and Professional Regulation to be used by the division and the Department of Law Enforcement for investigations, regulation of slot machine gaming, and enforcement of slot machine gaming provisions under this chapter. These payments must ~~shall~~ be accounted for separately from taxes or fees paid pursuant to ~~the provisions of~~ chapter 550.

~~(b) Prior to January 1, 2007, the division shall evaluate the license fee and shall make recommendations to the President of the Senate and the Speaker of the House of Representatives regarding the optimum level of slot machine license fees in order to adequately support the slot machine regulatory program.~~

(2) TAX ON SLOT MACHINE REVENUES.—

(a)1. The tax rate on slot machine revenues at each facility is ~~shall be~~ 35 percent. Effective January 1, 2019, the tax rate on slot machine revenues at each facility is 30 percent. Effective July 1, 2020, the tax rate on slot machine revenues at each facility is 25 percent.

2.a. If, during any state fiscal year, the aggregate amount of tax paid to the state by ~~all~~ slot machine licensees in Broward and Miami-Dade Counties is less than the aggregate amount of tax paid to the state by ~~all slot machine~~ licensees in those counties in the 2017-2018 ~~2008-2009~~ fiscal year, each slot machine licensee shall pay to the state within 45 days after the

end of the state fiscal year a surcharge ~~equal to its pro rata share of an amount equal to the difference between the aggregate amount of tax paid to the state by all slot machine licensees in the 2008-2009 fiscal year and the amount of tax paid during the fiscal year~~.

b. The amount of the surcharge to be paid by each such licensee must be calculated by dividing the aggregate amount of slot machine taxes paid to the state by all such slot machine licensees in the 2017-2018 fiscal year by the aggregate amount of slot machine taxes paid by all such licensees during the applicable state fiscal year, multiplying the result by the amount of slot machine taxes paid by the licensee during the applicable state fiscal year, and then subtracting from that product the amount of slot machine taxes paid by the licensee during the applicable state fiscal year. However, the sum of the taxes paid by a licensee pursuant to subparagraph 1. and any surcharge due from the licensee may not exceed 35 percent of the slot machine revenue of that licensee in the applicable state fiscal year ~~Each licensee's pro rata share shall be an amount determined by dividing the number 1 by the number of facilities licensed to operate slot machines during the applicable fiscal year, regardless of whether the facility is operating such machines~~.

(b) The slot machine revenue tax imposed by this section on facilities licensed pursuant to s. 551.104(2)(a)1., 2., or 3.a. must ~~shall~~ be paid to the division for deposit into the Pari-mutuel Wagering Trust Fund for immediate transfer by the Chief Financial Officer for deposit into the Educational Enhancement Trust Fund of the Department of Education. Any interest earnings

on the tax revenues must ~~shall~~ also be transferred to the Educational Enhancement Trust Fund. The slot machine revenue tax imposed by this section on facilities licensed pursuant to s. 551.104(2)(a)3.b. must be paid to the division for deposit into the Pari-mutuel Wagering Trust Fund. The division must transfer 90 percent of such funds to be deposited by the Chief Financial Officer into the Educational Enhancement Trust Fund of the Department of Education and must transfer 10 percent of such funds to the responsible public entity for the public-private partnership of the slot machine licensee pursuant to ss. 551.104(2)(a)3.b. and 255.065.

(c)1. Funds transferred to the Educational Enhancement Trust Fund under paragraph (b) must ~~shall~~ be used to supplement public education funding statewide. Funds transferred to a responsible public entity pursuant to paragraph (b) must be used in accordance with s. 255.065 to finance the qualifying project of such entity and the slot machine licensee, which established the licensee's eligibility for initial licensure pursuant to s. 551.104(2)(a)3.b.

2. If necessary to comply with any covenant established pursuant to s. 1013.68(4), s. 1013.70(1), or s. 1013.737(3), funds transferred to the Educational Enhancement Trust Fund under paragraph (b) must ~~shall~~ first be available to pay debt service on lottery bonds issued to fund school construction in the event lottery revenues are insufficient for such purpose or to satisfy debt service reserve requirements established in connection with lottery bonds. Moneys available pursuant to this subparagraph are subject to annual appropriation by the Legislature.

(3) SLOT MACHINE GUARANTEE FEE; SURCHARGE.—

(a) If a permitholder located within a county that has conducted a successful slot machine referendum after January 1, 2012, does not pay at least $10 million in total slot machine taxes and license fees to the state in state fiscal year 2018-2019, the permitholder shall pay to the state within 45 days after the end of the state fiscal year a surcharge equal to the difference between the aggregate amount of slot machine taxes and license fees paid to the state in the fiscal year and $10 million, regardless of whether the permitholder or licensee operated slot machines during the fiscal year.

(b) If a permitholder located within a county that has conducted a successful slot machine referendum after January 1, 2012, does not pay at least $20 million in total slot machine taxes and license fees to the state in state fiscal year 2019-2020 and any subsequent state fiscal year, the permitholder shall pay to the state within 45 days after the end of the state fiscal year a surcharge equal to the difference between the aggregate amount of slot machine taxes and license fees paid to the state in the fiscal year and $20 million, regardless of whether the permitholder or licensee operated slot machines during the fiscal year.

(5)~~(4)~~ TO PAY TAX; PENALTIES.—A slot machine licensee who fails to make tax and any applicable surcharge payments as required under this section is subject to an administrative penalty of up to $10,000 for each day the tax payment is not remitted. All administrative penalties imposed and collected must ~~shall~~ be deposited into the Pari-mutuel Wagering Trust Fund of the Department of Business and Professional Regulation. If

184406

any slot machine licensee fails to pay penalties imposed by order of the division under this subsection, the division may deny, suspend, revoke, or refuse to renew the license of the permitholder or slot machine licensee.

Section 14. Subsections (1), (2), and (4) of section 551.114, Florida Statutes, are amended to read:

551.114 Slot machine gaming areas.—

(1)(a) A slot machine licensee whose initial license was issued before January 1, 2018, may make available for play up to:

1. 1,600 ~~2,000~~ slot machines within the property of the facilities of the slot machine licensee, if the licensee made available for play 1,250 or more slot machines during state fiscal year 2016-2017.

2. 1,200 slot machines within the property of the facilities of the slot machine licensee, if the licensee made available for play 1,000 or more slot machines, but less than 1,250 slot machines, during state fiscal year 2016-2017.

3. 1,000 slot machines within the property of the facilities of the slot machine licensee, if the licensee made available for play less than 1,000 slot machines during state fiscal year 2016-2017.

(b)1. A slot machine licensee whose initial license was issued on or after January 1, 2018, may make available for play up to 750 slot machines within the property of the facilities of the slot machine licensee; provided however, the total number of slot machines which may be made available for play by all slot machine licensees whose initial license was issued after January 1, 2018, may not exceed 6,000 slot machines.

2. If the total number of slot machines which all licensees whose initial license was issued on or after January 1, 2018, would exceed 6,000 slot machines if each such licensee were to operate 750 slot machines, the maximum number of slot machines each such licensee may make available for play may not exceed 6,000 divided by the number of licensees whose initial license was issued after January 1, 2018.

(2) If such races or games are available to the slot machine licensee, the slot machine licensee shall display pari-mutuel races or games within the designated slot machine gaming areas and offer patrons within the designated slot machine gaming areas the ability to engage in pari-mutuel wagering on any live, intertrack, and simulcast races conducted or offered to patrons of the licensed facility.

(4) Designated slot machine gaming areas shall ~~may~~ be located anywhere within the property described in a slot machine licensee's pari-mutuel permit ~~within the current live gaming facility or in an existing building that must be contiguous and connected to the live gaming facility~~. ~~If a designated slot machine gaming area is to be located in a building that is to be constructed, that new building must be contiguous and connected to the live gaming facility.~~

Section 15. Section 551.116, Florida Statutes, is amended to read:

551.116 Days and hours of operation.—Slot machine gaming areas may be open 24 hours per day, 7 days a week ~~daily~~ throughout the year. ~~The slot machine gaming areas may be open a cumulative amount of 18 hours per day on Monday through Friday and 24 hours per day on Saturday and Sunday and on those~~

~~holidays specified in s. 110.117(1).~~

Section 16. Present subsections (9) through (17) of section 849.086, Florida Statutes, are redesignated as subsections (10) through (18), respectively, a new subsection (9) is added to that section, subsections (1) and (2) of that section are amended, paragraph (g) is added to subsection (4) of that section, and paragraph (b) of subsection (5), paragraphs (a), (b), and (c) of subsection (7), paragraph (a) of subsection (8), present subsection (12), and paragraphs (d) and (h) of present subsection (13) are amended, to read:

849.086 Cardrooms authorized.—

(1) LEGISLATIVE INTENT.—It is the intent of the Legislature to provide additional entertainment choices for the residents of and visitors to the state, promote tourism in the state, provide revenues to support the continuation of live pari-mutuel activity, and provide additional state revenues through the authorization of the playing of certain games in the state at facilities known as cardrooms which are to be located at licensed pari-mutuel facilities. To ensure the public confidence in the integrity of authorized cardroom operations, this act is designed to strictly regulate the facilities, persons, and procedures related to cardroom operations. Furthermore, the Legislature finds that authorized games of poker and dominoes ~~as herein defined~~ are considered to be pari-mutuel style games and not casino gaming because the participants play against each other instead of against the house.

(2) DEFINITIONS.—As used in this section:

(a) "Authorized game" means a game or series of games of poker, including designated player games, played in conformance

with this section and in a manner consistent with the rules and requirements specified in the 1974 edition of Hoyle's Modern Encyclopedia of Card Games: Rules of All the Basic Games and Popular Variations and including three card poker, or dominoes played in conformance with this section ~~or dominoes which are played in a nonbanking manner~~.

(b) "Banking game" means a game in which the house is a participant in the game, taking on players, paying winners, and collecting from losers ~~or in which the cardroom establishes a bank against which participants play~~. A designated player game is not a banking game.

(c) "Cardroom" means a facility where authorized games are played for money or anything of value and to which the public is invited to participate in such games and charged a fee for participation by the operator of such facility. Authorized games and cardrooms do not constitute casino gaming operations if conducted at an eligible facility.

(d) "Cardroom management company" means any individual not an employee of the cardroom operator, any proprietorship, partnership, corporation, or other entity that enters into an agreement with a cardroom operator to manage, operate, or otherwise control the daily operation of a cardroom.

(e) "Cardroom distributor" means any business that distributes cardroom paraphernalia such as card tables, betting chips, chip holders, dominoes, dominoes tables, drop boxes, banking supplies, playing cards, card shufflers, and other associated equipment to authorized cardrooms.

(f) "Cardroom operator" means a licensed pari-mutuel permitholder that ~~which~~ holds a valid permit and license issued

by the division pursuant to chapter 550 and which also holds a valid cardroom license issued by the division pursuant to this section which authorizes such person to operate a cardroom and to conduct authorized games in such cardroom.

(g) "Designated player" means the player identified for each game by a button that rotates clockwise before each hand begins as the player in the dealer position and seated at a traditional player position in a designated player game who pays winning players and collects from losing players.

(h) "Designated player game" means a game in which the players compare their cards only to the cards of the designated player or to a combination of cards held by the designated player and cards common and available for play by all players.

(i) ~~(g)~~ "Division" means the Division of Pari-mutuel Wagering of the Department of Business and Professional Regulation.

(j) ~~(h)~~ "Dominoes" means a game of dominoes typically played with a set of 28 flat rectangular blocks, called "bones," which are marked on one side and divided into two equal parts, with zero to six dots, called "pips," in each part. The term also includes larger sets of blocks that contain a correspondingly higher number of pips. The term also means the set of blocks used to play the game.

(k) ~~(i)~~ "Gross receipts" means the total amount of money received by a cardroom from any person for participation in authorized games.

(l) ~~(j)~~ "House" means the cardroom operator and all employees of the cardroom operator.

(m) ~~(k)~~ "Net proceeds" means the total amount of gross

receipts received by a cardroom operator from cardroom operations less direct operating expenses related to cardroom operations, including labor costs, admission taxes only if a separate admission fee is charged for entry to the cardroom facility, gross receipts taxes imposed on cardroom operators by this section, the annual cardroom license fees imposed by this section on each table operated at a cardroom, and reasonable promotional costs excluding officer and director compensation, interest on capital debt, legal fees, real estate taxes, bad debts, contributions or donations, or overhead and depreciation expenses not directly related to the operation of the cardrooms.

(n) ~~(l)~~ "Rake" means a set fee or percentage of the pot assessed by a cardroom operator for providing the services of a dealer, table, or location for playing the authorized game.

(o) ~~(m)~~ "Tournament" means a series of games that have more than one betting round involving one or more tables and where the winners or others receive a prize or cash award.

(4) AUTHORITY OF DIVISION.—The Division of Pari-mutuel Wagering of the Department of Business and Professional Regulation shall administer this section and regulate the operation of cardrooms under this section and the rules adopted pursuant thereto, and is hereby authorized to:

(g) Establish a reasonable period to respond to requests from a licensed cardroom; provided however, the division has a maximum of 45 days to approve:

1. A cardroom's internal controls or provide the cardroom with a list of deficiencies as to the internal controls.

2. Rules for a new authorized game submitted by a licensed cardroom or provide the cardroom with a list of deficiencies as

to those rules.

No later than 10 days after the submission of revised internal controls or revised rules addressing the deficiencies identified by the division, the division must review and approve or reject the revised internal controls or revised rules.

(5) LICENSE REQUIRED; APPLICATION; FEES.—No person may operate a cardroom in this state unless such person holds a valid cardroom license issued pursuant to this section.

(b) After the initial cardroom license is granted, the application for the annual license renewal shall be made in conjunction with the applicant's annual application for its pari-mutuel license. If a permitholder has operated a cardroom during any of the 3 previous fiscal years and fails to include a renewal request for the operation of the cardroom in its annual application for license renewal, the permitholder may amend its annual application to include operation of the cardroom. ~~In order for a cardroom license to be renewed the applicant must have requested, as part of its pari-mutuel annual license application, to conduct at least 90 percent of the total number of live performances conducted by such permitholder during either the state fiscal year in which its initial cardroom license was issued or the state fiscal year immediately prior thereto if the permitholder ran at least a full schedule of live racing or games in the prior year. If the application is for a harness permitholder cardroom, the applicant must have requested authorization to conduct a minimum of 140 live performances during the state fiscal year immediately prior thereto.~~ If more than one permitholder is operating at a facility, each

184406

permitholder must have applied for a license to conduct a full schedule of live racing.

(7) CONDITIONS FOR OPERATING A CARDROOM.—

(a) A cardroom may be operated only at the location specified on the cardroom license issued by the division, and such location may only be the location at which the pari-mutuel permitholder is authorized to conduct pari-mutuel wagering activities pursuant to such permitholder's valid pari-mutuel permit or as otherwise authorized by law. ~~Cardroom operations may not be allowed beyond the hours provided in paragraph (b) regardless of the number of cardroom licenses issued for permitholders operating at the pari-mutuel facility.~~

(b) Any cardroom operator may operate a cardroom at the pari-mutuel facility daily throughout the year, if the permitholder meets the requirements under paragraph (5)(b). The cardroom may be open ~~a cumulative amount of 18 hours per day on Monday through Friday and~~ 24 hours per day ~~on Saturday and Sunday and on the holidays specified in s. 110.117(1)~~.

(c) A cardroom operator must at all times employ and provide a nonplaying live dealer at ~~for~~ each table on which authorized ~~card~~ games ~~which traditionally use a dealer~~ are conducted ~~at the cardroom~~. Such dealers may not have a participatory interest in any game other than the dealing of cards and may not have an interest in the outcome of the game. The providing of such dealers by a licensee does not constitute the conducting of a banking game by the cardroom operator.

(8) METHOD OF WAGERS; LIMITATION.—

(a) ~~No~~ Wagering may not be conducted using money or other negotiable currency. Games may only be played utilizing a

wagering system whereby all players' money is first converted by the house to tokens or chips that may ~~which shall~~ be used for wagering only at that specific cardroom.

(9) DESIGNATED PLAYER GAMES AUTHORIZED.—

(a) A cardroom operator may offer designated player games consisting of players making wagers against the designated player. However, not more than 50 percent of the total licensed tables in a cardroom may offer designated player games. The designated player must be licensed pursuant to paragraph (6)(b). Employees of a designated player also must be licensed, and the designated player shall pay, in addition to the business occupational fee established pursuant to paragraph (6)(i), an employee occupational license fee that may not exceed $500 per employee for any 12-month period.

(b) A cardroom operator may not serve as a designated player in any game. The cardroom operator may not have a financial interest in a designated player in any game. A cardroom operator may collect a rake in accordance with the rake structure posted at the table.

(c) If there are multiple designated players at a table, the dealer button shall be rotated in a clockwise rotation after each hand.

(d) A cardroom operator may not allow a designated player to pay an opposing player who holds a lower-ranked hand.

(e) A designated player may not be required by the rules of a game or by the rules of a cardroom to cover more than 10 times the maximum wager for players participating in any one game.

(f) The cardroom, or any cardroom licensee, may not contract with, or receive compensation other than a posted table

rake from, any player to participate in any game to serve as a designated player.

(13)~~(12)~~ PROHIBITED ACTIVITIES.—

(a) A ~~No~~ person licensed to operate a cardroom may not conduct any banking game or any game not specifically authorized by this section.

(b) A ~~No~~ person who is younger than ~~under~~ 18 years of age may not be permitted to hold a cardroom or employee license~~,~~ or to engage in any game conducted therein.

(c) With the exception of mechanical card shufflers, ~~No~~ electronic or mechanical devices~~, except mechanical card shufflers,~~ may not be used to conduct any authorized game in a cardroom.

(d) ~~No~~ Cards, game components, or game implements may not be used in playing an authorized game unless they have ~~such has~~ been furnished or provided to the players by the cardroom operator.

(14)~~(13)~~ TAXES AND OTHER PAYMENTS.—

(d)1. Each ~~greyhound and jai alai~~ permitholder that operates a cardroom facility shall use at least 4 percent of such permitholder's cardroom monthly gross receipts to supplement ~~greyhound~~ purses and awards or jai alai prize money, respectively, during the permitholder's next ensuing pari-mutuel meet.

2.a. Any permitholder with a cardroom license and conducting less than a full schedule of live racing or games, as defined in s. 550.002(11), pursuant to s. 550.01215(1)(b) or (c) shall remit each month to each qualified thoroughbred permitholder, by electronic funds transfer, an amount equal to 4

184406

percent of its monthly cardroom gross receipts divided by the total number of qualified thoroughbred permitholders for a license year. Qualified thoroughbred permitholders shall use such payments exclusively for purses and awards for live thoroughbred horse races held at the qualified thoroughbred permitholder's racing facility. For the purposes of this subparagraph, the term "qualified thoroughbred permitholder" means a thoroughbred permitholder conducting, in the applicable state fiscal year, no less than a full schedule of live racing or games, as defined in s. 550.002(11), and no fewer live thoroughbred horse racing performances than such permitholder conducted in state fiscal year 2017-2018. The term does not include a permitholder whose permit was issued pursuant to s. 550.3345 or a permitholder leasing at another thoroughbred permitholder's facility pursuant to s. 550.475.

b. The division shall notify each cardroom licensee required to remit such payments, not later than 15 days after issuing the cardroom license, of the qualified thoroughbred permitholders to which such payments must be paid. Each qualified thoroughbred permitholder shall provide each cardroom licensee required to remit payments pursuant to this subparagraph with written instructions for transmitting such electronic payments. Such payments shall be remitted to each qualified thoroughbred permitholder on the fifth day of each calendar month and shall be based upon the preceding month's cardroom activities. If the fifth day of the calendar month falls on a weekend, such payment shall be remitted on the first Monday following the weekend.

c. A qualified thoroughbred permitholder receiving funds

under this subparagraph shall remit, within 10 days after receipt, 10 percent of those funds to the Florida Thoroughbred Breeders' Association, Inc., for the payment of breeders', stallion, and special racing awards, subject to the fee authorized in s. 550.2625(3).

3. Each thoroughbred and harness horse racing permitholder that operates a cardroom facility shall use at least 50 percent of such permitholder's cardroom monthly net proceeds as follows: 47 percent to supplement purses and 3 percent to supplement breeders' awards during the permitholder's next ensuing racing meet.

~~3. No cardroom license or renewal thereof shall be issued to an applicant holding a permit under chapter 550 to conduct pari-mutuel wagering meets of quarter horse racing unless the applicant has on file with the division a binding written agreement between the applicant and the Florida Quarter Horse Racing Association or the association representing a majority of the horse owners and trainers at the applicant's eligible facility, governing the payment of purses on live quarter horse races conducted at the licensee's pari-mutuel facility. The agreement governing purses may direct the payment of such purses from revenues generated by any wagering or gaming the applicant is authorized to conduct under Florida law. All purses shall be subject to the terms of chapter 550.~~

(h) One-quarter of the moneys deposited into the Pari-mutuel Wagering Trust Fund pursuant to paragraph (g) shall, by October 1 of each year, be distributed to the local government that approved the cardroom under subsection (17) ~~(16)~~; however, if two or more pari-mutuel racetracks are located within the

same incorporated municipality, the cardroom funds shall be distributed to the municipality. If a pari-mutuel facility is situated in such a manner that it is located in more than one county, the site of the cardroom facility shall determine the location for purposes of disbursement of tax revenues under this paragraph. The division shall, by September 1 of each year, determine: the amount of taxes deposited into the Pari-mutuel Wagering Trust Fund pursuant to this section from each cardroom licensee; the location by county of each cardroom; whether the cardroom is located in the unincorporated area of the county or within an incorporated municipality; and, the total amount to be distributed to each eligible county and municipality.

Section 17. Subsection (1) of section 849.16, Florida Statutes, is amended to read:

849.16 Machines or devices which come within provisions of law defined.—

(1) As used in this chapter, the term "slot machine or device" means any machine or device or system or network of devices that is adapted for use in such a way that, upon activation, which may be achieved by, but is not limited to, the insertion of any piece of money, coin, account number, code, or other object or information, such device or system is directly or indirectly caused to operate or may be operated and if the user, whether by application of skill or by reason of any element of chance or any other outcome unpredictable by the user, <u>regardless of whether the machine or device or system or networks of devices includes a preview of the outcome or whether the outcome is known, displayed, or capable of being known or displayed to the user,</u> may:

184406

(a) Receive or become entitled to receive any piece of money, credit, allowance, or thing of value; ~~, or~~ any check, slug, token, or memorandum, whether of value or otherwise, which may be exchanged for any money, credit, allowance, or thing of value or which may be given in trade; or the opportunity to purchase a subsequently displayed outcome that may have a monetary value, regardless of whether such value is equal to, greater than, or less than the cost of purchasing such outcome; or

(b) Secure additional chances or rights to use such machine, apparatus, or device, even though the device or system may be available for free play or, in addition to any element of chance or unpredictable outcome of such operation, may also sell, deliver, or present some merchandise, indication of weight, entertainment, or other thing of value. The term "slot machine or device" includes, but is not limited to, devices regulated as slot machines pursuant to chapter 551.

Section 18. The Division of Law Revision and Information is directed to replace the phrase "the effective date of this act" wherever it appears in this act with the date this act becomes a law.

Section 19. This act shall take effect upon becoming a law.

compact; providing for dispute resolution between the Tribe and the state; providing construction; providing requirements for notice under the compact; providing an effective date and termination of the compact; providing for execution of the compact; amending s. 285.712, F.S.; requiring the Governor to provide a copy of the executed compact to specified parties and direct the Secretary of State to forward a copy to the Secretary of the Interior; creating s. 546.13, F.S.; defining terms; exempting a fantasy contest from certain regulations; amending s. 550.01215, F.S.; revising application requirements for a pari-mutuel operating license; authorizing a greyhound racing permitholder to specify certain intentions on its application; providing that a greyhound racing permitholder that has been issued a slot machine license remains an eligible facility, continues to be eligible for a slot machine license, is exempt from certain provisions of ch. 551, F.S., is eligible to be a guest track for certain purposes, and remains eligible for a cardroom license; authorizing a greyhound racing permitholder to receive an operating license to conduct pari-mutuel wagering activities at another permitholder's greyhound racing facility; authorizing certain harness horse racing permitholders or quarter horse racing permitholders to elect not to conduct live racing if the election is made by a specified date; specifying that such permitholder may retain its permit and remains a pari-mutuel facility;

specifying that, if such permitholder has been issued a slot machine license, the permitholder's facility remains an eligible facility, continues to be eligible for a slot machine license, is exempt from certain provisions of chs. 550 and 551, F.S., is eligible to be a guest track, and if the permitholder is a harness horse racing permitholder, a host track for intertrack wagering and simulcasting, and remains eligible for a cardroom license; authorizing a harness horse racing permitholder to be a host track for purposes of intertrack wagering and simulcasting; authorizing the division to approve a change in racing dates for a permitholder if the request for a change is received before a specified date and under certain circumstances; amending s. 550.054, F.S.; requiring the Division of Pari-Mutuel Wagering to revoke a permit to conduct pari-mutuel wagering for a permitholder that fails to make specified payments or obtain an operating license; prohibiting the issuance of new permits; deleting provisions related to the conversion of permits; repealing s. 550.0745, F.S., relating to conversion of a pari-mutuel permit to a summer jai alai permit; amending ss. 550.09512 and 550.09515, F.S.; requiring the division to revoke the permit of a harness horse or thoroughbred racing permitholder, respectively, who does not pay tax on handle for a specified period of time; deleting provisions relating to the reissuance of escheated permits; amending s. 550.3345, F.S.; revising

provisions relating to a limited thoroughbred racing permit previously converted from a quarter horse racing permit; amending s. 551.104, F.S.; revising conditions of licensure and conditions for maintaining authority to conduct slot machine gaming; requiring certain permitholders to remit certain revenues to qualified thoroughbred permitholders; requiring qualified thoroughbred permitholders to use such payments for certain purposes; defining the term "qualified thoroughbred permitholder"; providing a process for remitting such payments; requiring qualified thoroughbred permitholders receiving such funds to remit a specified percentage of the funds to a specified association; amending s. 551.106, F.S.; deleting obsolete provisions; revising the tax rate on slot machine revenue effective on specified dates; providing a formula to calculate a surcharge amount; prohibiting the surcharge from exceeding a certain amount; amending s. 849.086, F.S.; revising legislative intent; revising definitions; authorizing the division to establish a reasonable period to respond to certain requests from a licensed cardroom; providing that the division must approve certain requests within 45 days; requiring the division to review and approve or reject certain revised internal controls or revised rules within 10 days after submission; deleting provisions relating to the renewal of a cardroom license; making technical changes; authorizing certain cardroom operators to

offer a certain number of certain designated player games; requiring the designated player and employees of the designated player to be licensed; requiring the designated player to pay certain fees; prohibiting a cardroom operator from serving as the designated player in a game and from having a financial interest in a designated player; authorizing a cardroom operator to collect a rake, subject to certain requirements; requiring the dealer button to be rotated under certain circumstances; prohibiting a cardroom operator from allowing a designated player to pay an opposing player under certain circumstances; prohibiting the rules of the game or of the cardroom to require a designated player to cover more than 10 times the maximum wager for players participating in any one game; prohibiting a cardroom or cardroom licensee from contracting with or receiving certain compensation from a player to allow that player to participate in any game as a designated player; requiring certain permitholders with a cardroom license to remit a certain amount of its monthly gross receipts to qualified thoroughbred permitholders; requiring qualified thoroughbred holders to use such payments for certain purposes; defining the term "qualified thoroughbred permitholder"; providing a process for remitting such payments; requiring qualified thoroughbred permitholders receiving such funds to remit a specified percentage of the funds to a specified association; deleting a provision relating

to the renewal or issuance of a cardroom license to a quarter horse racing permitholder; conforming a cross-reference; amending s. 849.16, F.S.; revising the definition of the term "slot machine or device"; providing a directive to the Division of Law Revision and Information; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (a) of subsection (1) and subsection (3) of section 285.710, Florida Statutes, are amended to read:

285.710 Compact authorization.—

(1) As used in this section, the term:

(a) "Compact" means the Gaming Compact between the Seminole Tribe of Florida and the State of Florida~~, executed on April 7, 2010~~.

(3)(a) The Gaming Compact between the Seminole Tribe of Florida and the State of Florida, executed by the Governor and the Tribe on April 7, 2010, was ~~is~~ ratified and approved by chapter 2010-29, Laws of Florida. ~~The Governor shall cooperate with the Tribe in seeking approval of the compact from the United States Secretary of the Interior.~~

(b) The Governor, on behalf of this state, is hereby authorized and directed to execute a new compact with the Tribe as set forth in paragraph (c), and the Legislature hereby signifies in advance its approval and ratification of such compact, provided that it is identical to the compact set forth in paragraph (c) and becomes effective on or before January 1, 2019. The Governor shall cooperate with the Tribe in seeking

approval of such compact ratified and approved under this paragraph from the Secretary of the Department of the Interior. Upon becoming effective, such compact supersedes the Gaming Compact ratified and approved under paragraph (a), which shall then become null and void.

(c) The Legislature hereby approves and ratifies the following Gaming Compact between the State of Florida and the Seminole Tribe of Florida, provided that such compact becomes effective on or before January 1, 2019:

Gaming Compact Between the Seminole Tribe of Florida and the State of Florida

This compact is made and entered into by and between the Seminole Tribe of Florida and the State of Florida, with respect to the operation of covered games, as defined herein, on the Tribe's Indian lands, as defined by the Indian Gaming Regulatory Act, 25 U.S.C. ss. 2701 et seq.

PART I

TITLE.—This document shall be referred to as the "Gaming Compact between the Seminole Tribe of Florida and the State of Florida."

PART II

LEGISLATIVE FINDINGS.—

(1) The Seminole Tribe of Florida is a federally recognized

tribal government that possesses sovereign powers and rights of self-government.

(2) The State of Florida is a state of the United States of America that possesses the sovereign powers and rights of a state.

(3) The State of Florida and the Seminole Tribe of Florida maintain a government-to-government relationship.

(4) The United States Supreme Court has long recognized the right of an Indian Tribe to regulate activity on lands within its jurisdiction, but the United States Congress, through the Indian Gaming Regulatory Act, has given states a role in the conduct of tribal gaming in accordance with negotiated tribal-state compacts.

(5) Pursuant to the Seminole Tribe Amended Gaming Ordinance, adopted by Resolution No. C-195-06, and approved by the Chairman of the National Indian Gaming Commission on July 10, 2006, hereafter referred to as the "Seminole Tribal Gaming Code," the Seminole Tribe of Florida desires to offer the play of covered games, as defined in Part III, as a means of generating revenues for purposes authorized by the Indian Gaming Regulatory Act, including, without limitation, the support of tribal governmental programs, such as health care, housing, sewer and water projects, police, fire suppression, general assistance for tribal elders, day care for children, economic development, educational opportunities, per capita payments to tribal members, and other typical and valuable governmental services and programs for tribal members.

(6) This compact is the only gaming compact between the Tribe and the state. This compact supersedes the Gaming Compact

between the Tribe and the state executed on or about April 7, 2010, which was subsequently ratified by the Legislature and went into effect on or about July 6, 2010.

(7) It is in the best interests of the Seminole Tribe of Florida and the State of Florida for the state to enter into a compact with the Tribe that recognizes the Tribe's right to offer certain Class III gaming and provides substantial exclusivity of such activities in conjunction with a reasonable revenue sharing arrangement between the Tribe and the state that will entitle the state to significant revenue participation.

PART III

DEFINITIONS.—As used in this compact, the term:

(1) "Annual oversight assessment" means the amount owed by the Tribe to the state for reimbursement for the actual and reasonable costs incurred by the state compliance agency to perform the monitoring functions set forth under the compact.

(2) "Class II video bingo terminals" means any electronic aid to a Class II bingo game that includes a video spinning reel or mechanical spinning reel display.

(3) "Class III gaming" means the forms of Class III gaming defined in 25 U.S.C. s. 2703(8) and by the regulations of the National Indian Gaming Commission, as of January 1, 2018.

(4) "Commission" means the Seminole Tribal Gaming Commission, which is the tribal governmental agency that has the authority to carry out the Tribe's regulatory and oversight responsibilities under this compact.

(5) "Compact" means this Gaming Compact between the

Seminole Tribe of Florida and the State of Florida.

(6) "Covered game" or "covered gaming activity" means the following Class III gaming activities:

(a) Slot machines, which may use spinning reels, video displays, or both, and which machines must meet all of the following requirements:

1. Any mechanical or electrical contrivance, terminal that may or may not be capable of downloading slot games from a central server system, machine, or other device.

2. Require, for play or operation, the insertion of a coin, bill, ticket, token, or similar object, or payment of any consideration whatsoever, including the use of any electronic payment system, except a credit card or debit card, unless state law authorizes the use of an electronic payment system that uses a credit or debit card payment, in which case the Tribe is authorized to use such payment system.

3. Are available to play or operate, the play or operation of which, whether by reason of skill or application of the element of chance or both, may deliver or entitle the person or persons playing or operating the contrivance, terminal, machine, or other device to receive cash, billets, tickets, tokens, or electronic credits to be exchanged for cash or to receive merchandise or anything of value whatsoever, whether the payoff is made automatically from the machine or manually.

4. Include associated equipment necessary to conduct the operation of the contrivance, terminal, machine, or other device.

(b) Banking or banked card games, such as baccarat, chemin de fer, and blackjack or 21.

(c) Raffles and drawings.

(d) Live table games.

(e) Any new game, if expressly authorized by the Legislature pursuant to legislation enacted subsequent to the effective date of this compact and lawfully conducted by any person for any purpose pursuant to such authorization.

(7) "Covered game employee" or "covered employee" means an individual employed and licensed by the Tribe whose responsibilities include the rendering of services with respect to the operation, maintenance, or management of covered games, including, but not limited to, managers and assistant managers; accounting personnel; commission officers; surveillance and security personnel; cashiers, supervisors, and floor personnel; cage personnel; and any other employee whose employment duties require or authorize access to areas of the facility related to the conduct of covered games or the technical support or storage of covered game components. The term does not include the Tribe's elected officials, provided that such individuals are not directly involved in the operation, maintenance, or management of covered games or covered games components.

(8) "Documents" means books, records, electronic, magnetic, and computer media documents, and other writings and materials, copies of such documents and writings, and information contained in such documents and writings.

(9) "Effective date" means the date on which the compact becomes effective pursuant to subsection (1) of Part XVI.

(10) "Electronic bingo machine" means a card minding device, which may only be used in connection with a bingo game as defined in s. 849.0931(1)(a), Florida Statutes, which is

certified in advance by an independent testing laboratory approved by the Division of Pari-Mutuel Wagering as a bingo aid device that meets all of the following requirements:

(a) Aids a bingo game player by:

1. Storing in the memory of the device not more than three bingo faces of tangible bingo cards as defined by s. 849.0931(1)(b), Florida Statutes, purchased by a player.

2. Comparing the numbers drawn and individually entered into the device by the player to the bingo faces previously stored in the memory of the device.

3. Identifying preannounced winning bingo patterns marked or covered on the stored bingo faces.

(b) Is not capable of accepting or dispensing any coins, currency, or tokens.

(c) Is not capable of monitoring any bingo card face other than the faces of the tangible bingo card or cards purchased by the player for that game.

(d) Is not capable of displaying or representing the game result through any means other than highlighting the winning numbers marked or covered on the bingo card face or giving an audio alert that the player's card has a prize-winning pattern. No casino game graphics, themes, or titles, including, but not limited to, depictions of slot machine-style symbols, cards, craps, roulette, or lottery may be used.

(e) Is not capable of determining the outcome of any game.

(f) Does not award progressive prizes of more than $2,500.

(g) Does not award prizes exceeding $1,000, other than progressive prizes not exceeding $2,500.

(h) Does not contain more than one player position for

playing bingo.

(i) Does not contain or does not link to more than one video display.

(j) Awards prizes based solely on the results of the bingo game, with no additional element of chance.

(11) "Facility" means a building or buildings of the Tribe in which the covered games authorized by this compact are conducted.

(12) "Guaranteed minimum compact term payment" means a minimum total payment for the guarantee payment period of $3 billion, which shall include all revenue share payments during the guarantee payment period.

(13) "Guarantee payment period" means the seven-year period beginning July 1, 2018, and ending June 30, 2025.

(14) "Guaranteed revenue sharing cycle payment" means the payments as provided in Part XI.

(15) "Historic racing machine" means an individual historic race terminal linked to a central server as part of a network-based video game, where the terminals allow pari-mutuel wagering by players on the results of previously conducted horse or greyhound races, but only if the game is certified in advance by an independent testing laboratory approved by the Division of Pari-Mutuel Wagering as complying with all of the following requirements:

(a) Stores all data on previously conducted horse or greyhound races in a secure format on the central server, which is located at the pari-mutuel facility.

(b) Uses only horse or greyhound races that were recorded at licensed pari-mutuel facilities in the United States after

January 1, 2000.

(c) Offers one or more of the following three bet types on all historic racing machines: win-place-show, quinella, or tri-fecta.

(d) Offers one or more of the following racing types: thoroughbreds, harness, or greyhounds.

(e) Does not award progressive prizes of more than $2,500.

(f) Does not award prizes exceeding $1,000, other than progressive prizes not exceeding $2,500.

(g) After each wager is placed, displays a video of at least the final eight seconds of the horse or greyhound race before any prize is awarded or indicated on the historic racing machine.

(h) The display of the video of the horse or greyhound race occupies at least 70 percent of the historic racing machine's video screen and does not contain and is not linked to more than one video display.

(i) Does not use casino game graphics, themes, or titles, including but not limited to, depictions of slot machine-style symbols, cards, craps, roulette, lottery, or bingo.

(j) Does not use video or mechanical reel displays.

(k) Does not contain more than one player position for placing wagers.

(l) Does not dispense coins, currency, or tokens.

(m) Awards prizes solely on the results of a previously conducted horse or greyhound race with no additional element of chance.

(n) Uses a random number generator to select the race from the central server to be displayed to the player and the numbers

or other designations of race entrants that will be used in the various bet types for any "Quick Pick" bets. To prevent an astute player from recognizing the race based on the entrants and thus knowing the results before placing a wager, the entrants of the race may not be identified until after all wagers for that race have been placed.

(16) "Indian Gaming Regulatory Act" means the Indian Gaming Regulatory Act, Pub. L. 100-497, Oct. 17, 1988, 102 Stat. 2467, codified at 25 U.S.C. ss. 2701 et seq. and 18 U.S.C. ss. 1166 to 1168.

(17) "Indian lands" means the lands defined in 25 U.S.C. s. 2703(4).

(18) "Initial payment period" means the period beginning on the effective date of the compact and ending on June 30, 2018.

(19) "Live table games" means dice games, such as craps, sic-bo and any similar variations thereof, and wheel games, such as roulette, big six, and any similar variations thereof, but not including any game that is authorized as a slot machine, banking or banked card game, raffle, or drawing.

(20) "Lottery vending machine" means any of the following four types of machines:

(a) A machine that dispenses pre-printed paper instant lottery tickets, but that does not read or reveal the results of the ticket or allow a player to redeem any ticket. The machine, or any machine or device linked to the machine, does not include or make use of video reels or mechanical reels or other video depictions of slot machine or casino game themes or titles for game play, but does not preclude the use of casino game themes or titles on such tickets or signage or advertising displays on

the machines.

(b) A machine that dispenses pre-determined electronic instant lottery tickets and displays an image of the ticket on a video screen on the machine, where the player touches the image of the ticket on the video screen to reveal the outcome of the ticket, provided the machine does not permit a player to redeem winnings, does not make use of video reels or mechanical reels, and does not simulate the play of any casino game, and the lottery retailer is paid the same amount as would be paid for the sale of paper instant lottery tickets.

(c) A machine that dispenses a paper lottery ticket with numbers selected by the player or randomly by the machine, but does not reveal the winning numbers. Such winning numbers are selected at a subsequent time and different location through a drawing conducted by the state lottery. The machine, or any machine or device linked to the machine, does not include or make use of video reels or mechanical reels or other video depictions of slot machine or casino game themes or titles for game play. The machine is not used to redeem a winning ticket. This does not preclude the use of casino game themes, titles for signage, or advertising displays on the machine.

(21) "Monthly payment" means the monthly revenue share payment which the Tribe remits to the state on the 15th day of the month following each month of the revenue sharing cycle.

(22) "Net revenue base" means the net win for the 12 month period immediately preceding the offering of, for public or private use, Class III or other casino-style gaming at any of the licensed pari-mutuel facilities in Broward and Miami-Dade Counties, except that if the commencement of such new gaming is

made during the initial payment period, "net revenue base" means net win for the 12-month period immediately preceding this compact.

(23) "Net win" means the total receipts from the play of all covered games less all prize payouts and free play or promotional credits issued by the Tribe.

(24) "Pari-mutuel wagering activities" means those activities authorized on January 1, 2018, by chapter 550, which do not include any casino-style game or device that include video reels or mechanical reels or other slot machine or casino game themes or titles.

(25) "Patron" means any person who is on the premises of a facility, or who enters the Tribe's Indian lands for the purpose of playing covered games authorized by this compact.

(26) "Regular payment period" means the period beginning on July 1, 2025, and terminating at the end of the term of this compact.

(27) "Revenue share payment" means the periodic payment by the Tribe to the state provided for in Part XI.

(28) "Revenue sharing cycle" means the annual 12-month period of the Tribe's operation of covered games in its facilities beginning on July 1 of each fiscal year, except for during the initial payment period, when the first revenue sharing cycle begins on July 1 of the previous year, and the Tribe receives a credit for any amount paid to the state under the 2010 Compact for that revenue sharing cycle.

(29) "Rules and regulations" means the rules and regulations promulgated by the commission for implementation of this compact.

(30) "State" means the State of Florida.

(31) "State compliance agency" means the state agency designated by the Florida Legislature that has the authority to carry out the state's oversight responsibilities under this compact.

(32) "Tribe" means the Seminole Tribe of Florida or any affiliate thereof conducting activities pursuant to this compact under the authority of the Seminole Tribe of Florida.

PART IV

AUTHORIZATION AND LOCATION OF COVERED GAMES.—

(1) The Tribe and state agree that the Tribe is authorized to operate covered games on its Indian lands, as defined in the Indian Gaming Regulatory Act, in accordance with the provisions of this compact. Nothing in the compact is intended to prohibit the Tribe from operating slot machines that employ video or mechanical displays of roulette, wheels, or other table game themes. Except for the provisions in subsection (1) of Part XI, nothing in this compact shall limit the Tribe's right to operate any Class II gaming under the Indian Gaming Regulatory Act.

(2) The Tribe is authorized to conduct covered games under this compact only at the following seven existing facilities, which may be expanded or replaced as provided in subsection (3) on Indian lands:

(a) Seminole Indian Casino-Brighton in Okeechobee, FL.

(b) Seminole Indian Casino-Coconut Creek in Coconut Creek, FL.

(c) Seminole Indian Casino-Hollywood in Hollywood, FL.

(d) Seminole Indian Casino-Immokalee in Immokalee, FL.

(e) Seminole Indian Casino-Big Cypress in Clewiston, FL.

(f) Seminole Hard Rock Hotel & Casino-Hollywood in Hollywood, FL.

(g) Seminole Hard Rock Hotel & Casino-Tampa in Tampa, FL.

(3) Any of the facilities existing on Indian lands identified in subsection (2) may be expanded or replaced by another facility on the same Indian lands with at least 60 days' advance notice to the state.

PART V

RULES AND REGULATIONS; MINIMUM REQUIREMENTS FOR OPERATIONS.—

(1) At all times during the term of this compact, the Tribe shall be responsible for all duties that are assigned to it and the commission under this compact. The Tribe shall promulgate any rules necessary to implement this compact, which, at a minimum, shall expressly include or incorporate by reference all provisions of Parts V, VI, VII, and VIII. Nothing in this compact shall be construed to affect the Tribe's right to amend its rules, provided that any such amendment is in conformity with this compact. The state compliance agency may propose additional rules consistent with and related to the implementation of this compact to the commission at any time, and the commission shall give good faith consideration to such proposed rules and shall notify the state compliance agency of its response or action with respect to such rules.

(2) All facilities shall comply with, and all covered games

approved under this compact shall be operated in accordance with, the requirements set forth in this compact, including, but not limited to, the requirements set forth in subsections (3) and (4) and the Tribe's Internal Control Policies and Procedures. In addition, all facilities and all covered games shall be operated in strict compliance with tribal internal control standards that provide a level of control that equals or exceeds those set forth in the National Indian Gaming Commission's Minimum Internal Control Standards, 25 C.F.R. part 542 (2015), even if the 2015 regulations are determined to be invalid or are subsequently withdrawn by the National Indian Gaming Commission. The Tribe may amend or supplement its internal control standards from time to time, provided that such changes continue to provide a level of control that equals or exceeds those set forth in 25 C.F.R. part 542 (2015).

(3) The Tribe and the commission shall retain all documents in compliance with the requirements set forth in the Tribe's Record Retention Policies and Procedures.

(4) The Tribe shall continue and maintain its program to combat problem gambling and curtail compulsive gambling and work with the Florida Council on Compulsive Gambling or other organizations dedicated to assisting problem gamblers. The Tribe shall continue to maintain the following safeguards against problem gambling:

(a) The Tribe shall provide to every new gaming employee a comprehensive training and education program designed in cooperation with the Florida Council on Compulsive Gambling or other organization dedicated to assisting problem gamblers.

(b) The Tribe shall make printed materials available to

patrons, which include contact information for the Florida Council on Compulsive Gambling 24-hour helpline or other hotline dedicated to assisting problem gamblers, and will work with the Florida Council on Compulsive Gambling or other organization dedicated to assisting problem gamblers to provide contact information for the Florida Council on Compulsive Gambling or other organization dedicated to assisting problem gamblers, and to provide such information on the facility's website. The Tribe shall continue to display within the facilities all literature from the Florida Council on Compulsive Gambling or other organization dedicated to assisting problem gamblers.

(c)1. The commission shall establish a list of patrons voluntarily excluded from the Tribe's facilities, pursuant to subparagraph 3.

2. The Tribe shall employ its best efforts to exclude patrons on such list from entry into its facilities; provided that nothing in this compact shall create for patrons who are excluded but gain access to the facilities, or any other person, a cause of action or claim against the state, the Tribe or the commission, or any other person, entity, or agency for failing to enforce such exclusion.

3. Patrons who believe they may be compulsively playing covered games may request that their names be placed on the list of patrons voluntarily excluded from the Tribe's facilities.

(d) All covered game employees shall receive training on identifying compulsive gamblers and shall be instructed to ask such persons to leave. The facility shall make available signs bearing a toll-free help-line number and educational and informational materials at conspicuous locations and automated

teller machines in each facility, which materials aim at the prevention of problem gaming and which specify where patrons may receive counseling or assistance for gambling problems. All covered games employees shall also be screened by the Tribe for compulsive gambling habits. Nothing in this subsection shall create for patrons, or any other person, a cause of action or claim against the state, the Tribe or the commission, or any other person, entity, or agency for failing to identify a patron or person who is a compulsive gambler or ask that person to leave.

(e) The Tribe shall follow the rules for exclusion of patrons set forth in the Seminole Tribal Gaming Code.

(f) The Tribe shall make diligent efforts to prevent underage individuals from loitering in the area of each facility where the covered games take place.

(g) The Tribe shall ensure that any advertising and marketing of covered games at the facilities contains a responsible gambling message and a toll-free help-line number for problem gamblers, where practical, and that such advertising and marketing make no false or misleading claims.

(5) The state may secure an annual independent audit of the conduct of covered games subject to this compact, as set forth in Part VIII.

(6) The facility shall visibly display summaries of the rules for playing covered games and promotional contests and shall make available complete sets of rules upon request. The Tribe shall provide copies of all such rules to the state compliance agency within 30 calendar days after issuance or amendment.

(7) The Tribe shall provide the commission and state compliance agency with a chart of the supervisory lines of authority with respect to those directly responsible for the conduct of covered games, and shall promptly notify those agencies of any material changes to the chart.

(8) The Tribe shall continue to maintain proactive approaches to prevent improper alcohol sales, drunk driving, underage drinking, and underage gambling. These approaches shall involve intensive staff training, screening and certification, patron education, and the use of security personnel and surveillance equipment in order to enhance patrons' enjoyment of the facilities and provide for patron safety.

(a) Staff training includes specialized employee training in nonviolent crisis intervention, driver license verification, and detection of intoxication.

(b) Patron education shall be carried out through notices transmitted on valet parking stubs, posted signs in the facilities, and in brochures.

(c) Roving and fixed security officers, along with surveillance cameras, shall assist in the detection of intoxicated patrons, investigate problems, and engage with patrons to deescalate volatile situations.

(d) To help prevent alcohol-related crashes, the Tribe will continue to operate the "Safe Ride Home Program," a free taxi service.

(e) The Tribe shall maintain these programs and policies in its Alcohol Beverage Control Act for the duration of the compact but may replace such programs and policies with stricter or more extensive programs and policies. The Tribe shall provide the

state with written notice of any changes to the Tribe's Alcohol Beverage Control Act, which notice shall include a copy of such changes and shall be sent on or before the effective date of the change. Nothing in this subsection shall create for patrons, or any other person, a cause of action or claim against the state, the Tribe or the commission, or any other person, entity, or agency for failing to fulfill the requirements of this subsection.

(9) A person under 21 years of age may not play covered games, unless otherwise permitted by state law.

(10) The Tribe may establish and operate facilities that operate covered games only on its Indian lands as defined by the Indian Gaming Regulatory Act and as specified in Part IV.

(11) The commission shall keep a record of, and shall report at least quarterly to the state compliance agency, the number of covered games in each facility, by the name or type of each game and its identifying number.

(12) The Tribe and the commission shall make available, to any member of the public upon request, within 10 business days, a copy of the National Indian Gaming Commission's Minimum Internal Control Standards, 25 C.F.R. part 542 (2015), the Seminole Tribal Gaming Code, this compact, the rules of each covered game operated by the Tribe, and the administrative procedures for addressing patron tort claims under Part VI.

PART VI

PATRON DISPUTES, WORKERS' COMPENSATION, TORT CLAIMS; PRIZE CLAIMS; LIMITED CONSENT TO SUIT.—

(1) All patron disputes involving gaming shall be resolved in accordance with the procedures established in the Seminole Tribal Gaming Code.

(2) Tort claims by employees of the Tribe's facilities will be handled pursuant to the provisions of the Tribe's Workers' Compensation Ordinance, which shall provide workers the same or better protections as provided in state workers' compensation laws.

(3) Disputes involving employees of the Tribe's facilities will be handled pursuant to the provisions of the Tribe's policy for gaming employees, as set forth in the Employee Fair Treatment and Dispute Resolution Policy.

(4) A patron who claims to have been injured after the effective date of the compact at one of the Tribe's facilities in which covered games are played is required to provide written notice to the Tribe's Risk Management Department or the facility, in a reasonable and timely manner, but no longer than three years after the date of the incident giving rise to the claimed injury, or the claim shall be forever barred.

(5) The Tribe shall have 30 days to respond to a claim made by a patron. If the Tribe fails to respond within 30 days, the patron may file suit against the Tribe. When the Tribe responds to an incident alleged to have caused a patron's injury or illness, the Tribe shall provide a claim form to the patron. The form must include the address for the Tribe's Risk Management Department and provide notice of the Tribe's administrative procedures for addressing patron tort claims, including notice of the relevant deadlines that may bar such claims if the Tribe's administrative procedures are not followed. It is the

patron's responsibility to complete the form and forward the form to the Tribe's Risk Management Department within a reasonable period of time, and in a reasonable and timely manner. Nothing herein shall interfere with any claim a patron might have arising under the Federal Tort Claim Act.

(6) Upon receiving written notification of the claim, the Tribe's Risk Management Department shall forward the notification to the Tribe's insurance carrier. The Tribe shall use its best efforts to ensure that the insurance carrier contacts the patron within a reasonable period of time after receipt of the claim.

(7) The insurance carrier shall handle the claim to conclusion. If the patron, Tribe, and insurance carrier are not able to resolve the claim in good faith within one year after the patron provided written notice to the Tribe's Risk Management Department or the facility, the patron may bring a tort claim against the Tribe in any court of competent jurisdiction in the county in which the incident alleged to have caused injury occurred, as provided in this compact, and subject to a four-year statute of limitations, which shall begin to run from the date of the incident of the injury alleged in the claim. A patron's notice of injury to the Tribe pursuant to subsection (4) and the fulfillment of the good faith attempt at resolution pursuant to this part are conditions precedent to filing suit.

(8) For tort claims of patrons made pursuant to subsection (4), the Tribe agrees to waive its tribal sovereign immunity to the same extent as the state waives its sovereign immunity, as specified in s. 768.28(1) and (5), Florida Statutes, as such

provision may be amended from time to time by the Legislature. In no event shall the Tribe be deemed to have waived its tribal immunity from suit beyond the limits set forth in s. 768.28(5), Florida Statutes. These limitations are intended to include liability for compensatory damages, costs, pre-judgment interest, and attorney fees if otherwise allowable under state law arising out of any claim brought or asserted against the Tribe, its subordinate governmental and economic units, any Tribal officials, employees, servants, or agents in their official capacities and any entity which is owned, directly or indirectly, by the Tribe. All patron tort claims brought pursuant to this provision shall be brought solely against the Tribe, as the sole party in interest.

(9) Notices explaining the procedures and time limitations with respect to making a tort claim shall be prominently displayed in the facilities, posted on the Tribe's website, and provided to any patron for whom the Tribe has notice of the injury or property damage giving rise to the tort claim. Such notices shall explain:

(a) The method and places for making a tort claim, including where the patron must submit the claim.

(b) That the process is the exclusive method for asserting a tort claim arising under this section against the Tribe.

(c) That the Tribe and its insurance carrier have one year from the date the patron gives notice of the claim to resolve the matter, and that after that time, the patron may file suit in a court of competent jurisdiction.

(d) That the exhaustion of the process is a prerequisite to filing a claim in state court.

(e) That claims that fail to follow this process shall be forever barred.

(10) The Tribe shall maintain an insurance policy that shall:

(a) Prohibit the insurer or the Tribe from invoking tribal sovereign immunity for claims up to the limits to which the state has waived sovereign immunity as set forth in s. 768.28(5), Florida Statutes, or its successor statute.

(b) Include covered claims made by a patron or invitee for personal injury or property damage.

(c) Permit the insurer or the Tribe to assert any statutory or common law defense other than sovereign immunity.

(d) Provide that any award or judgment rendered in favor of a patron or invitee shall be satisfied solely from insurance proceeds.

(11) The Tribal Council of the Seminole Tribe of Florida may, in its discretion, consider claims for compensation in excess of the limits of the Tribe's waiver of its sovereign immunity.

PART VII

ENFORCEMENT OF COMPACT PROVISIONS.—

(1) The Tribe, the commission, and the state compliance agency, to the extent authorized by this compact, shall be responsible for regulating activities pursuant to this compact. As part of its responsibilities, the Tribe shall adopt or issue standards designed to ensure that the facilities are constructed, operated, and maintained in a manner that

adequately protects the environment and public health and safety. Additionally, the Tribe and the commission shall ensure that:

(a) Operation of the conduct of covered games is in strict compliance with:

1. The Seminole Tribal Gaming Code.

2. All rules, regulations, procedures, specifications, and standards lawfully adopted by the National Indian Gaming Commission and the commission.

3. The provisions of this compact, including, but not limited to, the Tribe's standards and rules.

(b) Reasonable measures are taken to:

1. Ensure the physical safety of facility patrons, employees, and any other person while in the facility.

2. Prevent illegal activity at the facilities or with regard to the operation of covered games, including, but not limited to, the maintenance of employee procedures and a surveillance system.

3. Ensure prompt notification is given, in accordance with applicable law, to appropriate law enforcement authorities of persons who may be involved in illegal acts.

4. Ensure that the construction and maintenance of the facilities complies with the standards of the Florida Building Code, the provisions of which the Tribe has adopted as the Seminole Tribal Building Code.

5. Ensure adequate emergency access plans have been prepared to ensure the health and safety of all covered game patrons.

(2) All licenses for members and employees of the

commission shall be issued according to the same standards and terms applicable to facility employees. The commission's officers shall be independent of the Tribal gaming operations, and shall be supervised by and accountable only to the commission. A commission officer shall be available to the facility during all hours of operation upon reasonable notice, and shall have immediate access to any and all areas of the facility for the purpose of ensuring compliance with the provisions of this compact. The commission shall investigate any suspected or reported violation of this part and shall officially enter into its files timely written reports of investigations and any action taken thereon, and shall forward copies of such investigative reports to the state compliance agency within 30 calendar days after such filing. The scope of such reporting shall be determined by the commission and the state compliance agency as soon as practicable after the effective date of this compact. Any such violations shall be reported immediately to the commission, and the commission shall immediately forward such reports to the state compliance agency. In addition, the commission shall promptly report to the state compliance agency any such violations which it independently discovers.

(3) In order to develop and foster a positive and effective relationship in the enforcement of the provisions of this compact, representatives of the commission and the state compliance agency shall meet at least annually to review past practices and examine methods to improve the regulatory scheme created by this compact. The meetings shall take place at a location mutually agreed upon by the commission and the state

compliance agency. The state compliance agency, before or during such meetings, shall disclose to the commission any concerns, suspected activities, or pending matters reasonably believed to constitute violations of the compact by any person, organization, or entity, if such disclosure will not compromise the interest sought to be protected.

PART VIII

STATE MONITORING OF COMPACT.—

(1) It is the express intent of the Tribe and the state for the Tribe to regulate its own gaming activities. Notwithstanding, the state shall conduct random inspections as provided for in this part to ensure that the Tribe is operating in accordance with the terms of the compact. The state may secure an annual independent audit of the conduct of covered games subject to this compact and the Tribe shall cooperate with such audit. The audit shall:

(a) Examine the covered games operated by the Tribe to ensure compliance with the Tribe's Internal Control Policies and Procedures and any other standards, policies, or procedures adopted by the Tribe, the commission, or the National Indian Gaming Commission which govern the play of covered games.

(b) Examine revenues in connection with the conduct of covered games and include only those matters necessary to verify the determination of net win and the basis and amount of the payments the Tribe is required to make to the state pursuant to Part XI and as defined by this compact.

(2) A copy of the audit report for the conduct of covered

games shall be submitted to the commission and the state compliance agency within 30 calendar days after completion. Representatives of the state compliance agency may, upon request, meet with the Tribe and its auditors to discuss the audit or any matters in connection therewith; provided that such discussions are limited to covered games information. The annual independent audit shall be performed by an independent firm selected by the state which has experience in auditing casino operations, subject to the consent of the Tribe, which shall not be unreasonably withheld. The Tribe shall pay for the cost of the annual independent audit.

(3) As provided herein, the state compliance agency may monitor the conduct of covered games to ensure that the covered games are conducted in compliance with the provisions of this compact. In order to properly monitor the conduct of covered games, agents of the state compliance agency shall have reasonable access, without prior notice, to all public areas of the facilities related to the conduct of covered games.

(a) The state compliance agency may review whether the Tribe's facilities are in compliance with the provisions of this compact and the Tribe's rules and regulations applicable to covered games and may advise on such issues as it deems appropriate. In the event of a dispute or disagreement between Tribal and state compliance agency regulators, the dispute or disagreement shall be resolved in accordance with the dispute resolution provisions of Part XIII.

(b) In order to fulfill its oversight responsibilities, the state compliance agency may perform on a routine basis specific oversight testing procedures as set forth in paragraph (c).

(c)1. The state compliance agency may inspect any covered games in operation at the facilities on a random basis, provided that such inspections may not exceed one inspection per facility per calendar month and the inspection may not exceed ten hours spread over those two consecutive days, unless the state compliance agency determines that additional inspection hours are needed to address the issues of substantial noncompliance, provided that the state compliance agency provides the Tribe with written notification of the need for additional inspection hours and a written summary of the substantial noncompliance issues that need to be addressed during the additional inspection hours. The total number of hours of random inspections and audit reviews per year may not exceed 1,200 hours. Inspection hours shall be calculated on the basis of the actual amount of time spent by the state compliance agency conducting the inspections at a facility, without accounting for a multiple for the number of state compliance agency inspectors or agents engaged in the inspection activities. The purpose of the random inspections is to confirm that the covered games function properly pursuant to the manufacturer's technical standards and are conducted in compliance with the Tribe's Internal Control Policies and Procedures and any other standards, policies, or procedures adopted by the Tribe, the commission, or the National Indian Gaming Commission which govern the play of covered games. The state compliance agency shall provide notice to the commission of such inspection at or before the commencement of a random inspection and a commission agent may accompany the inspection.

2. For each facility, the state compliance agency may

perform one annual review of the Tribe's slot machine compliance audit.

3. At least annually, the state compliance agency may meet with the Tribe's Internal Audit Department for Gaming to review internal controls and the record of violations for each facility.

(d) The state compliance agency shall cooperate with and obtain the assistance of the commission in the resolution of any conflicts in the management of the facilities, and the state and the Tribe shall make their best efforts to resolve disputes through negotiation whenever possible. Therefore, to foster a spirit of cooperation and efficiency, the state compliance agency and Tribe shall resolve disputes between the state compliance agency staff and commission regulators about the day-to-day regulation of the facilities through meeting and conferring in good faith. Notwithstanding, the parties may seek other relief that may be available when circumstances require such relief. In the event of a dispute or disagreement between tribal and state compliance agency regulators, the dispute or disagreement shall be resolved in accordance with the dispute resolution provisions of Part XIII.

(e) The state compliance agency shall have access to each facility during the facility's operating hours only. No advance notice is required when the state compliance agency inspection is limited to public areas of the facility; however, representatives of the state compliance agency shall provide notice and photographic identification to the commission of their presence before beginning any such inspections.

(f) The state compliance agency agents, to ensure that a

commission officer is available to accompany the state compliance agency agents at all times, shall provide one hour notice and photographic identification to the commission before entering any nonpublic area of a facility. Agents of the state compliance agency shall be accompanied in nonpublic areas of the facility by a commission officer.

(g) Any suspected or claimed violations of this compact or law shall be directed in writing to the commission. The state compliance agency, in conducting the functions assigned them under this compact, shall not unreasonably interfere with the functioning of any facility.

(4) Subject to the provisions herein, the state compliance agency may review and request copies of documents of the facility related to its conduct of covered games during normal business hours unless otherwise allowed by the Tribe. The Tribe may not refuse said inspection and copying of such documents, provided that the inspectors do not require copies of documents in such volume that it unreasonably interferes with the normal functioning of the facilities or covered games. To the extent that the Tribe provides the state with information that the Tribe claims to be confidential and proprietary, or a trade secret, the Tribe shall clearly mark such information with the following designation: "Trade Secret, Confidential, and Proprietary." If the state receives a request under chapter 119 that would include such designated information, the state shall promptly notify the Tribe of such a request and the Tribe shall promptly notify the state about its intent to seek judicial protection from disclosure. Upon such notice from the Tribe, the state may not release the requested information until a judicial

determination is made. This designation and notification procedure does not excuse the state from complying with the requirements of the state's public records law, but is intended to provide the Tribe the opportunity to seek whatever judicial remedy it deems appropriate. Notwithstanding the foregoing procedure, the state compliance agency may provide copies of tribal documents to federal law enforcement and other state agencies or state consultants that the state deems reasonably necessary in order to conduct or complete any investigation of suspected criminal activity in connection with the Tribe's covered games or the operation of the facilities or in order to assure the Tribe's compliance with this compact.

(5) At the completion of any state compliance agency inspection or investigation, the state compliance agency shall forward any written report thereof to the commission, containing all pertinent, nonconfidential, nonproprietary information regarding any violation of applicable laws or this compact which was discovered during the inspection or investigation unless disclosure thereof would adversely impact an investigation of suspected criminal activity. Nothing herein prevents the state compliance agency from contacting tribal or federal law enforcement authorities for suspected criminal wrongdoing involving the commission.

(6) Except as expressly provided in this compact, nothing in this compact shall be deemed to authorize the state to regulate the Tribe's government, including the commission, or to interfere in any way with the Tribe's selection of its governmental officers, including members of the commission.

PART IX

JURISDICTION.—The obligations and rights of the state and the Tribe under this compact are contractual in nature and are to be construed in accordance with the laws of the state. This compact does not alter tribal, federal, or state civil adjudicatory or criminal jurisdiction in any way.

PART X

LICENSING.—The Tribe and the commission shall comply with the licensing and hearing requirements set forth in 25 C.F.R. parts 556 and 558, as well as the applicable licensing and hearing requirements set forth in Articles IV, V, and VI of the Seminole Tribal Gaming Code. The commission shall notify the state compliance agency of any disciplinary hearings or revocation or suspension of licenses.

PART XI

PAYMENTS TO THE STATE OF FLORIDA.—

(1) The parties acknowledge and recognize that this compact provides the Tribe with partial but substantial exclusivity and other valuable consideration consistent with the goals of the Indian Gaming Regulatory Act, including special opportunities for tribal economic development through gaming within the external boundaries of the state with respect to the play of covered games. In consideration thereof, the Tribe covenants and agrees, subject to the conditions agreed upon in Part XII, to

make payments to the state derived from net win as set forth in subsections (2) and (7). The Tribe further agrees that it will not purchase or lease any new Class II video bingo terminals or their equivalents for use at its facilities after the effective date of this compact.

(2) The Tribe shall make periodic revenue share payments to the state derived from net win as set forth in this subsection, and any such payments shall be made to the state via electronic funds transfer. Of the amounts paid by the Tribe to the state, three percent shall be distributed to local governments, including both counties and municipalities, in the state affected by the Tribe's operation of covered games. Revenue share payments by the Tribe to the state shall be calculated as follows:

(a) During the initial payment period, the Tribe agrees to pay the state a revenue share payment in accordance with this subparagraph.

1. 13 percent of all amounts up to $2 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle;

2. 17.5 percent of all amounts greater than $2 billion up to and including $3.5 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle;

3. 20 percent of all amounts greater than $3.5 billion up to and including $4 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle;

4. 22.5 percent of all amounts greater than $4 billion up

to and including $4.5 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle; or

5. 25 percent of all amounts greater than $4.5 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle.

(b) During the guarantee payment period, the Tribe agrees to make fixed payments in accordance with this paragraph. In addition, within 90 days after the end of the guarantee payment period, the Tribe shall make an additional payment to the state equal to the amount above $3 billion, if any, that would have been owed by the Tribe to the state had the percentages set forth in paragraph (c) been applicable during the guarantee payment period.

1. A payment of $325 million during the first revenue sharing cycle;

2. A payment of $350 million during the second revenue sharing cycle;

3. A payment of $375 million during the third revenue sharing cycle;

4. A payment of $425 million during the fourth revenue sharing cycle;

5. A payment of $475 million during the fifth revenue sharing cycle;

6. A payment of $500 million during the sixth revenue sharing cycle; and

7. A payment of $550 million during the seventh revenue sharing cycle.

(c) During the regular payment period, the Tribe agrees to

pay a revenue share payment, for each revenue sharing cycle, to the state equal to the amount calculated in accordance with this paragraph.

1. 13 percent of all amounts up to $2 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle;

2. 17.5 percent of all amounts greater than $2 billion up to and including $3.5 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle;

3. 20 percent of all amounts greater than $3.5 billion up to and including $4 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle;

4. 22.5 percent of all amounts greater than $4 billion up to and including $4.5 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle; or

5. 25 percent of all amounts greater than $4.5 billion of net win received by the Tribe from the operation and play of covered games during each revenue sharing cycle.

(3) The Tribe shall remit monthly payments as follows:

(a) On or before the 15th day of the month following each month of the revenue sharing cycle, the Tribe will remit to the state or its assignee the monthly payment. For purposes of this section, the monthly payment shall be 8.3 percent of the estimated revenue share payment to be paid by the Tribe during such revenue sharing cycle.

(b) The Tribe shall make available to the state at the time

of the monthly payment the basis for the calculation of the payment.

(c) The Tribe shall, on a monthly basis, reconcile the calculation of the estimated revenue share payment based on the Tribe's unaudited financial statements related to covered games.

(4) The Tribe shall have an audit conducted as follows:

(a) On or before the 45th day after the third month, sixth month, ninth month, and twelfth month of each revenue sharing cycle, provided that the 12-month period does not coincide with the Tribe's fiscal year end date as indicated in paragraph (c), the Tribe shall provide the state with an audit report by its independent auditors as to the annual revenue share calculation.

(b) For each quarter within revenue sharing cycle, the Tribe shall engage its independent auditors to conduct a review of the unaudited net revenue from covered games. On or before the 120th day after the end of the Tribe's fiscal year, the Tribe shall require its independent auditors to provide an audit report with respect to net win for covered games and the related payment of the annual revenue share.

(c) If the twelfth month of the revenue sharing cycle does not coincide with the Tribe's fiscal year, the Tribe shall deduct net win from covered games for any of the months outside of the revenue sharing cycle and include net win from covered games for those months outside of the Tribe's audit period but within the revenue sharing cycle, before issuing the audit report.

(d) No later than 30 calendar days after the day the audit report is issued, the Tribe shall remit to the state any underpayment of the annual revenue share, and the state shall

either reimburse to the Tribe any overpayment of the annual revenue share or authorize the overpayment to be deducted from the next successive monthly payment or payments.

(5) If, after any change in state law to affirmatively allow internet or online gaming, or any functionally equivalent remote gaming system that permits a person to play from home or any other location that is remote from a casino or other commercial gaming facility, but excluding any fantasy contest conducted pursuant to s. 546.13, the Tribe's net win from the operation of covered games at all of its facilities combined drops more than five percent below its net win from the previous 12-month period, the Tribe shall no longer be required to make payments to the state based on the guaranteed minimum compact term payment and shall not be required to make the guaranteed minimum compact term payment. However, the Tribe shall continue to make payments based on the percentage revenue share amount. The Tribe shall resume making the guaranteed minimum compact term payment for any subsequent revenue sharing cycle in which its net win rises above the level described in this subsection. This subsection does not apply if:

(a) The decline in net win is due to acts of God, war, terrorism, fires, floods, or accidents causing damage to or destruction of one or more of its facilities or property necessary to operate the facility of facilities; or

(b) The Tribe offers internet or online gaming or any functionally equivalent remote gaming system that permits a person to game from home or any other location that is remote from any of the Tribe's facilities, as authorized by law.

(6) The annual oversight assessment, which shall not exceed

$250,000 per year, indexed for inflation as determined by the Consumer Price Index, shall be determined and paid in quarterly installments within 30 calendar days after receipt by the Tribe of an invoice from the state compliance agency. The Tribe reserves the right to audit the invoices on an annual basis, a copy of which will be provided to the state compliance agency, and any discrepancies found therein shall be reconciled within 45 calendar days after receipt of the audit by the state compliance agency.

(7) The Tribe shall make an annual donation to the Florida Council on Compulsive Gaming as an assignee of the state in an amount not less than $250,000 per facility.

(8) Except as expressly provided in this part, nothing in this compact shall be deemed to require the Tribe to make payments of any kind to the state or any of its agencies.

PART XII

REDUCTION OF TRIBAL PAYMENTS BECAUSE OF LOSS OF EXCLUSIVITY OR OTHER CHANGES IN STATE LAW.—The intent of this compact is to provide the Tribe with the right to operate covered games on an exclusive basis throughout the state, subject to the exceptions and provisions in this part.

(1) For purposes of this part, the terms "Class III gaming" or "other casino-style gaming" include, but are not limited to, slot machines, electronically assisted bingo, electronically assisted pull-tab games, noncard table games, video lottery terminals, or any similar games, whether or not such games are determined through the use of a random number generator. For the

purposes of this part, the terms "Class III gaming" and "other casino-style gaming" do not include fantasy contests conducted pursuant to s. 546.13 or designated player games of poker authorized pursuant to s. 849.086, as those statutes are in effect on January 1, 2019.

(a) If, after January 1, 2019, state law is amended, implemented, or interpreted to allow the operation of Class III gaming or other casino-style gaming at any location under the jurisdiction of the state that was not in operation as of January 1, 2019, or a new form of Class III gaming or other casino-style gaming that was not in operation as of January 1, 2019, and such gaming is offered to the public as a result of the amendment, implementation, or interpretation, the Tribe, no fewer than 30 days after the commencement of such new gaming or 90 days after the state's receipt of written notice from the Tribe pursuant to paragraph (b), whichever occurs later, may elect to begin making the affected portion of its payments due to the state pursuant to subsections (2) and (7) of Part XI, into an escrow account.

(b) In order to exercise the provisions of paragraph (a), the Tribe must first notify the state, within 90 days after such amendment, implementation, or interpretation of state law, of the Tribe's objections to such action or interpretation and further specify the basis for the Tribe's contention that such action or interpretation infringes upon the substantial exclusivity afforded under this compact. As part of its written notice, the Tribe must also indicate, if applicable, its intention to begin making the affected portion of its payments due to the state into an escrow account.

(c) Upon receipt of written notice from the Tribe, the state may elect to:

1. Invoke the dispute resolution provisions of Part XIII to determine whether the Tribe's contention is well-founded. In such proceeding, the Tribe carries the burden of proof and persuasion. The pendency of such proceeding tolls the time periods set forth in paragraph (1)(a) of Part XII for the duration of the dispute or litigation; or

2. Seek through enforcement action, legislation, or other means to stop the conduct of such new games.

(d)1. If, within 15 months following the state's receipt of written notice from the Tribe, the Tribe's contention is deemed not to be well-founded at the conclusion of dispute resolution or new gaming is made illegal and is halted, then all funds being held in the escrow account shall be released to the state and all further payments due to the state pursuant to subsections (2) and (7) of Part XI shall promptly resume.

2. If, after 15 months following the state's receipt of written notice from the Tribe, the Tribe's contention is deemed to be well-founded at the conclusion of dispute resolution and such gaming is not made illegal and halted, then all funds being held in escrow shall be returned to the Tribe and all further payments due to the state pursuant to subsections (2) and (7) of Part XI shall cease or be reduced as provided in subsection (2) until such gaming is no longer operated, in which event the payments shall promptly resume.

(2) The following are exceptions to the exclusivity provisions of subsection (1):

(a) Any Class III gaming authorized by a compact between

the state and any other federally recognized tribe pursuant to Indian Gaming Regulatory Act, provided that the tribe has land in federal trust in the state as of January 1, 2018.

(b) The operation of slot machines, which does not include any game played with tangible playing cards, at each of the four currently operating licensed pari-mutuel facilities in Broward County and the four currently operating licensed pari-mutuel facilities in Miami-Dade County, whether or not currently operating slot machines, provided that such licenses are not transferred or otherwise used to move or operate such slot machines at any other location.

(c)1. If state law is amended to allow for the play of any additional type of Class III or other casino-style gaming at any of the presently operating licensed pari-mutuel facilities in Broward and Miami-Dade Counties, the Tribe may be entitled to a reduction in the revenue sharing payment as described in subparagraph 2.

2. If the Tribe's annual net win from its facilities located in Broward County for the 12 month period after the gaming specified in subparagraph 1. begins to be offered for public or private use is less than the net revenue base, the revenue share payments due to the state, pursuant to paragraph (2)(b) of Part XI, for the next revenue sharing cycle and future revenue sharing cycles shall be calculated by reducing the Tribe's payment on revenue generated from its facilities in Broward County by 50 percent of that reduction in annual net win from its facilities in Broward County. This paragraph does not apply if the decline in net win is due to acts of God, war, terrorism, fires, floods, or accidents causing damage to or

destruction of one or more of its facilities or property necessary to operate the facility or facilities.

3. If the Tribe's annual net win from its facilities located in Broward County subsequently equals or exceeds the net revenue base, then the Tribe's payments due to the state pursuant to paragraph (2)(b) of Part XI shall again be calculated without any reduction, but may be reduced again under the provisions set forth in subparagraph 2.

(d) If state law is amended to allow the play of Class III gaming or other casino-style gaming, as defined in this part, at any location in Miami-Dade County or Broward County under the jurisdiction of the state that is not presently licensed for the play of such games at such locations, other than those facilities set forth in paragraph (c) and this paragraph, and such games were not in play as of January 1, 2018, and such gaming begins to be offered for public or private use, the payments due the state pursuant to subparagraph (c)2., shall be calculated by excluding the net win from the Tribe's facilities in Broward County.

(e) The operation of a combined total of not more than 350 historic racing machines, connected to a central server at that facility, and electronic bingo machines at each pari-mutuel facility licensed as of January 1, 2018, and not located in either Broward County or Miami-Dade County.

(f) The operation of pari-mutuel wagering activities at pari-mutuel facilities licensed by the state.

(g) The operation by the Department of the Lottery of those types of lottery games authorized under chapter 24 as of January 1, 2018, but not including any player-activated or operated

machine or device other than a lottery vending machine or any banked or banking card or table game. However, not more than ten lottery vending machines may be installed at any facility or location and no lottery vending machine that dispenses electronic instant tickets may be installed at any licensed pari-mutuel facility.

(h) The operation of games of poker, including designated player games of poker, as authorized by chapter 849 as of January 1, 2019.

(i) The operation of games permitted by chapters 546 and 849, Florida Statutes, as of January 1, 2019.

(j) The following events shall not trigger any remedy under this compact and do not affect the exclusivity provisions of this compact:

1. Any change to the tax rate paid to the state by the licensed pari-mutuel permitholders for the operation of slot machines, provided the effective tax rate is not less than 25 percent. If the effective tax rate is less than 25 percent, then the Tribe shall be relieved of its obligations to make the guaranteed minimum compact term payment and any further guaranteed revenue sharing cycle payment, but instead shall make payments to the state for all future revenue sharing cycles based on the percentage payments set forth in paragraph (2)(c) of Part XI, but shall be permitted to exclude all revenue generated by slot machines at its facilities in Broward County; and

2. Any change in state law that removes the requirement for pari-mutuel permitholders to conduct performances of live races or games in order to operate other authorized gaming activities.

(3) To the extent that the exclusivity provisions of this part are breached or otherwise violated and the Tribe's ongoing payment obligations to the state pursuant to subsections (2) and (7) of Part XI cease, any outstanding payments that would have been due the state from the Tribe's facilities before the breach or violation shall be made within 30 business days after the breach or violation.

(4) The breach of this part's exclusivity provisions and the cessation of payments pursuant to subsections (2) and (7) of Part XI shall not excuse the Tribe from continuing to comply with all other provisions of this compact, including continuing to pay the state the annual oversight assessment as set forth in subsection (6) of Part XI.

PART XIII

DISPUTE RESOLUTION.—In the event that the Tribe or State believes that the other party has failed to comply with any requirements of this compact, or in the event of any dispute hereunder, including, but not limited to, a dispute over the proper interpretation of the terms and conditions of this compact, the goal of the parties is to resolve all disputes amicably and voluntarily whenever possible. In pursuit of this goal, the following procedures may be invoked:

(1) A party asserting noncompliance or seeking an interpretation of this compact first shall serve written notice on the other party. The notice shall identify the specific compact provision alleged to have been violated or in dispute and shall specify in detail the asserting party's contention and

any factual basis for the claim. Representatives of the Tribe and state shall meet within 30 calendar days after receipt of notice in an effort to resolve the dispute, unless they mutually agree to extend this period.

(2) A party asserting noncompliance or seeking an interpretation of this compact under this part shall be deemed to have certified that to the best of the party's knowledge, information, and belief formed after reasonable inquiry, the claim of noncompliance or the request for interpretation of this compact is warranted and made in good faith and not for any improper purpose, such as to harass or to cause unnecessary delay or the needless incurring of the cost of resolving the dispute.

(3) If the parties are unable to resolve a dispute through the process specified in subsections (1) and (2), either party may call for mediation under the Commercial Mediation Procedures of the American Arbitration Association or any successor procedures, provided that such mediation does not last more than 60 calendar days, unless an extension to this time limit is negotiated by the parties. Only matters arising under the terms of this compact may be available for resolution through mediation. If the parties are unable to resolve a dispute through the process specified in this part, notwithstanding any other provision of law, either party may bring an action in a United States District Court having venue regarding a dispute arising under this compact. If the court declines to exercise jurisdiction, or federal precedent exists that holds that the court would not have jurisdiction over such a dispute, either party may bring the action in the appropriate court of the

Seventeenth Judicial Circuit in Broward County, Florida. The parties are entitled to all rights of appeal permitted by law in the court system in which the action is brought.

(4) For purposes of actions based on disputes between the state and the Tribe that arise under this compact and the enforcement of any judgment resulting from such action, the Tribe and the state each expressly waive the right to assert sovereign immunity from suit and from enforcement of any ensuing judgment, and further consent to be sued in federal or state court, including the right of appeal specified above, as the case may be, provided that:

(a) The dispute is limited solely to issues arising under this compact.

(b) There is no claim for monetary damages, except that payment of any money required by the terms of this compact, as well as injunctive relief or specific performance enforcing a provision of this compact requiring the payment of money to the state may be sought.

(c) Nothing herein shall be construed to constitute a waiver of the sovereign immunity of the Tribe with respect to any third party that is made a party or intervenes as a party to the action. In the event that intervention, joinder, or other participation by any additional party in any action between the state and the Tribe would result in the waiver of the Tribe's sovereign immunity as to that additional party, the waiver of the Tribe may be revoked.

(5) The state may not be precluded from pursuing any mediation or judicial remedy against the Tribe on the grounds that the state has failed to exhaust its Tribal administrative

remedies.

(6) Notwithstanding any other provision of this part, any failure of the Tribe to remit the payments pursuant to the terms of Part XI entitles the state to seek injunctive relief in federal or state court, at the state's election, to compel the payments after the dispute resolution process in subsections (1) and (2) is exhausted.

PART XIV

CONSTRUCTION OF COMPACT; SEVERANCE; FEDERAL APPROVAL.—

(1) Each provision of this compact shall stand separate and independent of every other provision. In the event that a federal district court in Florida or other court of competent jurisdiction shall find any provision of this compact to be invalid, the remaining provisions shall remain in full force and effect, provided that severing the invalidated provision does not undermine the overall intent of the parties in entering into this compact. However, if subsection (6) of Part III, Part XI, or Part XII are held by a court of competent jurisdiction to be invalid, this compact will become null and void.

(2) It is understood that Part XII, which provides for a cessation of the payments to the state under Part XI, does not create any duty on the state but only a remedy for the Tribe if gaming under state jurisdiction is expanded.

(3) This compact is intended to meet the requirements of the Indian Gaming Regulatory Act as it reads on the effective date of this compact, and where reference is made to the Indian Gaming Regulatory Act, or to an implementing regulation thereof,

the reference is deemed to have been incorporated into this document. Subsequent changes to the Indian Gaming Regulatory Act that diminish the rights of the state or Tribe may not be applied retroactively to alter the terms of this compact, except to the extent that federal law validly mandates that retroactive application without the respective consent of the state or the Tribe. In the event that a subsequent change in the Indian Gaming Regulatory Act, or to an implementing regulation thereof, mandates retroactive application without the respective consent of the state or the Tribe, the parties agree that this compact is voidable by either party if the subsequent change materially alters the provisions in the compact relating to the play of covered games, revenue sharing payments, suspension or reduction of payments, or exclusivity.

(4) Neither the presence of language that is not included in this compact, nor the absence in this compact of language that is present in another state-tribal compact shall be a factor in construing the terms of this compact.

(5) The Tribe and the state shall defend the validity of this compact.

(6) The parties shall cooperate in seeking approval of this compact from the Secretary of the Department of the Interior.

PART XV

NOTICES.—All notices required under this compact shall be given by certified mail, return receipt requested, commercial overnight courier service, or personal delivery, to the Governor, the President of the Senate, the Speaker of the House

of Representatives, and the Chairman and General Counsel of the Seminole Tribe of Florida.

PART XVI

EFFECTIVE DATE AND TERM.—

(1) This compact, if identical to the version ratified by the Legislature in s. 285.710(3)(c), Florida Statutes, in 2018, shall become effective upon its approval as a tribal-state compact within the meaning of the Indian Gaming Regulatory Act either by action of the Secretary of the Department of the Interior or by operation of law under 25 U.S.C. s. 2710(d)(8) upon publication of a notice of approval in the Federal Register under 25 U.S.C. s. 2710(d)(8)(D).

(2) This compact shall have a term of twenty years beginning on the first day of the month following the month in which the compact becomes effective under subsection (1).

(3) The Tribe's authorization to offer covered games under this compact shall automatically terminate twenty years after the effective date unless renewed by an affirmative act of the Legislature.

PART XVII

AMENDMENT OF COMPACT AND REFERENCES.—

(1) Amendment of this compact may only be made by written agreement of the parties, subject to approval by the Secretary of the Department of the Interior, either by publication of the notice of approval in the Federal Register or by operation of

law under 25 U.S.C. s. 2710(d)(8).

(2) Legislative ratification is required for any amendment to the compact that alters the provisions relating to covered games, the amount of revenue sharing payments, suspension or reduction in payments, or exclusivity.

(3) Changes in the provisions of tribal ordinances, regulations, and procedures referenced in this compact may be made by the Tribe with 30 days' advance notice to the state. If the state has an objection to any change to the tribal ordinance, regulation, or procedure which is the subject of the notice on the ground that its adoption would be a violation of the Tribe's obligations under this compact, the state may invoke the dispute resolution provisions provided in Part XIII.

PART XVIII

MISCELLANEOUS.—

(1) Except to the extent expressly provided in this compact, this compact is not intended to, and shall not be construed to, create any right on the part of a third party to bring an action to enforce any of its terms.

(2) If, after the effective date of this compact, the state enters into a compact with any other Tribe that contains more favorable terms with respect to the provisions of this Compact and the Secretary of the Department of the Interior approves such compact, either by publication of the notice of approval in the Federal Register or by operation of law under 25 U.S.C. s. 2710(d)(8), upon tribal notice to the state and the Secretary, this compact shall be deemed amended to contain the more

favorable terms, unless the state objects to the change and can demonstrate, in a proceeding commenced under Part XIII, that the terms in question are not more favorable.

(3) Upon the occurrence of certain events beyond the Tribe's control, including acts of God, war, terrorism, fires, floods, or accidents causing damage to or destruction of one or more of its facilities or property necessary to operate the facility or facilities, the Tribe's obligation to pay the guaranteed minimum compact term payment described in Part XI shall be reduced pro rata to reflect the percentage of the total net win lost to the Tribe from the impacted facility or facilities and the net win specified under subsection (2) of Part XII for purposes of determining whether the Tribe's payments described in Part XI shall cease, shall be reduced pro rata to reflect the percentage of the total net win lost to the Tribe from the impacted facility or facilities. The foregoing shall not excuse any obligations of the Tribe to make payments to the state as and when required hereunder or in any related document or agreement.

(4) The Tribe and the state recognize that opportunities to engage in gaming in smoke-free or reduced-smoke environments provides both health and other benefits to patrons, and the Tribe has instituted a nonsmoking section at its Seminole Hard Rock Hotel & Casino-Hollywood Facility. As part of its continuing commitment to this issue, the Tribe shall:

(a) Install and utilize a ventilation system at all new construction at its facilities, which system exhausts tobacco smoke to the extent reasonably feasible under existing state-of-the-art technology.

(b) Designate a smoke-free area for slot machines at all new construction at its facilities.

(c) Install nonsmoking, vented tables for table games installed in its facilities sufficient to reasonably respond to demand for such tables.

(d) Designate a nonsmoking area for gaming within all of its facilities within five years after the effective date of the compact.

(5) The annual average minimum pay-out of all slot machines in each facility may not be less than 85 percent.

(6) Nothing in this compact shall alter any of the existing memoranda of understanding, contracts, or other agreements entered into between the Tribe and any other federal, state, or local governmental entity.

(7) The Tribe currently has, as set forth in its Employee Fair Treatment and Dispute Resolution Policy, and agrees to maintain, standards that are comparable to the standards provided in federal laws and state laws forbidding employers from discrimination in connection with the employment of persons working at the facilities on the basis of race, color, religion, national origin, gender, age, disability, or marital status. Nothing herein shall preclude the Tribe from giving preference in employment, promotion, seniority, lay-offs, or retention to members of the Tribe and other federally recognized tribes.

(8) The Tribe shall, with respect to any facility where covered games are played, adopt and comply with tribal requirements that meet the same minimum state requirements applicable to businesses in the state with respect to environmental and building standards.

PART XIX

EXECUTION.—The Governor of the State of Florida affirms that he has authority to act for the state in this matter and that, provided that this compact is identical to the compact ratified by the Legislature pursuant to s. 285.710(3)(c), Florida Statutes, no further action by the state or any state official is necessary for this compact to take effect upon federal approval by action of the Secretary of the Department of the Interior or by operation of law under 25 U.S.C. s. 2710(d)(8) by publication of the notice of approval in the Federal Register. The Governor affirms that he will proceed with obtaining such federal approval and take all other appropriate action to effectuate the purposes and intent of this Compact. The undersigned Chairman of the Tribal Council of the Seminole Tribe of Florida affirms that he is duly authorized and has the authority to execute this Compact on behalf of the Tribe. The Chairman also affirms that he will assist in obtaining federal approval and take all other appropriate action to effectuate the purposes and intent of this Compact.

Section 2. Subsection (4) of section 285.712, Florida Statutes, is amended to read:

285.712 Tribal-state gaming compacts.—

(4) Upon execution ~~receipt~~ of ~~an act ratifying~~ a tribal-state compact entered pursuant to s. 285.710(3)(b), the Governor shall provide a copy to the Secretary of State who shall forward a copy of the executed compact and the ratifying act to the United States Secretary of the Interior for his or her review

and approval, in accordance with 25 U.S.C. s. 2710(d)(8) ~~2710(8)(d)~~.

Section 3. Section 546.13, Florida Statutes, is created to read:

546.13 Fantasy contests and fantasy contest operators.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Entry fee" means cash or a cash equivalent that is required to be paid by a participant in order to participate in a fantasy contest.

(b) "Fantasy contest" means a fantasy or simulated game or contest in which:

1. The value of all prizes and awards offered to winning participants is established and made known to the participants in advance of the contest;

2. All winning outcomes reflect the relative knowledge and skill of the participants and are determined predominantly by accumulated statistical results of the performance of individuals, including athletes in the case of sporting events;

3. No winning outcome is based on the score, point spread, or any performance or performances of any single actual team or combination of such teams, solely on any single performance of an individual athlete or player in any single actual event, or on the performances of participants in collegiate, high school, or youth sporting events.

(c) "Fantasy contest operator" means a person or an entity, including any employee or agent, that offers or conducts a fantasy contest with an entry fee for a cash prize or award and that is not a participant in the fantasy contest.

(2) EXEMPTIONS.—The Department of Business and Professional

Regulation may not regulate and the offenses established in s. 849.01, s. 849.08, s. 849.09, s. 849.11, s. 849.14, and s. 849.25 do not include or apply to a fantasy contest operated or conducted by a:

(a) Fantasy contest operator.

(b) Natural person who is a participant in the fantasy contest, serves as the commissioner of not more than 10 fantasy contests in a calendar year, and distributes all entry fees for the fantasy contest as prizes or awards to the participants in that fantasy contest.

Section 4. Subsections (1) and (3) of section 550.01215, Florida Statutes, are amended to read:

550.01215 License application; periods of operation; bond, conversion of permit.—

(1) Each permitholder shall annually, during the period between December 15 and January 4, file in writing with the division its application for an operating ~~a~~ license to conduct pari-mutuel wagering during the next state fiscal year, including intertrack and simulcast race wagering for greyhound racing permitholders, harness horse racing permitholders, and quarter horse racing permitholders that do not ~~to~~ conduct live performances ~~during the next state fiscal year~~. Each application for live performances must ~~shall~~ specify the number, dates, and starting times of all live performances that ~~which~~ the permitholder intends to conduct. It must ~~shall~~ also specify which performances will be conducted as charity or scholarship performances.

(a) ~~In addition,~~ Each application for an operating ~~a~~ license also must ~~shall~~ include:~~,~~

1. For each permitholder, whether the permitholder intends to accept wagers on intertrack or simulcast events.

2. For each permitholder that elects ~~which elects~~ to operate a cardroom, the dates and periods of operation the permitholder intends to operate the cardroom. ~~or,~~

3. For each thoroughbred racing permitholder that ~~which~~ elects to receive or rebroadcast out-of-state races after 7 p.m., the dates for all performances which the permitholder intends to conduct.

(b) A greyhound racing permitholder that conducted a full schedule of live racing for a period of at least 10 consecutive state fiscal years after the 1996-1997 state fiscal year, or that converted its permit to a permit to conduct greyhound racing after the 1996-1997 state fiscal year, may specify in its application for an operating license that it does not intend to conduct live racing, or that it intends to conduct less than a full schedule of live racing, in the next state fiscal year. A greyhound racing permitholder may retain its permit; is a pari-mutuel facility as defined in s. 550.002(23); if such permitholder has been issued a slot machine license, the facility where such permit is located remains an eligible facility as defined in s. 551.102(4), continues to be eligible for a slot machine license, and is exempt from ss. 551.104(3) and (4)(c)1. and 551.114(2) and (4); is eligible, but not required, to be a guest track for purposes of intertrack wagering and simulcasting pursuant to ss. 550.3551, 550.615, and 550.6305; and remains eligible for a cardroom license notwithstanding any requirement in s. 849.086 for the conduct of live performances. A greyhound racing permitholder may receive

an operating license to conduct pari-mutuel wagering activities at another permitholder's greyhound racing facility pursuant to s. 550.475.

(c) A harness horse racing permitholder or a quarter horse racing permitholder that has conducted live racing for at least 5 years irrevocably may elect not to conduct live racing if the election is made within 30 days after the effective date of this act. A permitholder that makes such election may retain its permit; is a pari-mutuel facility as defined in s. 550.002(23); if such permitholder has been issued a slot machine license, the facility where such permit is located remains an eligible facility as defined in s. 551.102(4), continues to be eligible for a slot machine license, and is exempt from ss. 551.104(3) and (4)(c)1. and 551.114(2) and (4); is eligible, but not required, to be a guest track and, if the permitholder is a harness horse racing permitholder, to be a host track for purposes of intertrack wagering and simulcasting pursuant to ss. 550.3551, 550.615, 550.625, and 550.6305; and remains eligible for a cardroom license notwithstanding any requirement in s. 849.086 to conduct live performances.

(d) Permitholders may ~~shall be entitled to~~ amend their applications through February 28.

(3) The division shall issue each license no later than March 15. Each permitholder shall operate all performances at the date and time specified on its license. The division shall have the authority to approve minor changes in racing dates after a license has been issued. The division may approve changes in racing dates after a license has been issued when there is no objection from any operating permitholder located

within 50 miles of the permitholder requesting the changes in operating dates. In the event of an objection, the division shall approve or disapprove the change in operating dates based upon the impact on operating permitholders located within 50 miles of the permitholder requesting the change in operating dates. In making the determination to change racing dates, the division shall take into consideration the impact of such changes on state revenues. Notwithstanding any other provision of law, and for the 2018-2019 fiscal year only, the division may approve changes in racing dates for permitholders if the request for such changes is received before May 31, 2018.

Section 5. Subsections (9), (13), (14), and paragraph (a) of subsection (11) of section 550.054, Florida Statutes, are amended to read:

550.054 Application for permit to conduct pari-mutuel wagering.—

(9)(a) After a permit has been granted by the division and has been ratified and approved by the majority of the electors participating in the election in the county designated in the permit, the division shall grant to the lawful permitholder, subject to the conditions of this chapter, a license to conduct pari-mutuel operations under this chapter, and, except as provided in s. 550.5251, the division shall fix annually the time, place, and number of days during which pari-mutuel operations may be conducted by the permitholder at the location fixed in the permit and ratified in the election. After the first license has been issued to the holder of a ratified permit for racing in any county, all subsequent annual applications for a license by that permitholder must be accompanied by proof, in

such form as the division requires, that the ratified permitholder still possesses all the qualifications prescribed by this chapter and that the permit has not been recalled at a later election held in the county.

(b) The division may revoke or suspend any permit or license issued under this chapter upon a ~~the~~ willful violation by the permitholder or licensee ~~of any provision~~ of chapter 551, chapter 849, or this chapter or rules ~~of any rule~~ adopted pursuant to those chapters. With the exception of the revocation of permits required in paragraphs (c) and (e) ~~under this chapter. In lieu of suspending or revoking a permit or license~~, the division, in lieu of suspending or revoking a permit or license, may impose a civil penalty against the permitholder or licensee for a violation of this chapter or rules adopted pursuant thereto ~~any rule adopted by the division~~. The penalty so imposed may not exceed $1,000 for each count or separate offense. All penalties imposed and collected must be deposited with the Chief Financial Officer to the credit of the General Revenue Fund.

(c)1. The division shall revoke the permit of any permitholder that fails to make payments due pursuant to chapter 550, chapter 551, or s. 849.086 for more than 24 consecutive months unless such failure was the direct result of fire, strike, war, or other disaster or event beyond the permitholder's control. Financial hardship to the permitholder does not, in and of itself, constitute just cause for failure to make payments.

2. The division shall revoke the permit of any permitholder that has not obtained an operating license in accordance with s.

550.01215 for a period of more than 24 consecutive months after June 30, 2012. The division shall revoke the permit upon adequate notice to the permitholder. Financial hardship to the permitholder does not, in and of itself, constitute just cause for failure to operate.

(d) A new permit to conduct pari-mutuel wagering may not be approved or issued after January 1, 2018.

(e) A permit revoked under this subsection is void and may not be reissued.

(11)(a) A permit granted under this chapter may not be transferred or assigned except upon written approval by the division pursuant to s. 550.1815~~, except that the holder of any permit that has been converted to a jai alai permit may lease or build anywhere within the county in which its permit is located~~.

(13)~~(a)~~ Notwithstanding any provisions of this chapter or chapter 551, a pari-mutuel ~~no thoroughbred horse racing~~ permit or license issued under this chapter may not ~~shall~~ be transferred, or reissued when such reissuance is in the nature of a transfer so as to permit or authorize a licensee to change the location of a pari-mutuel facility, or a cardroom or slot machine facility, except through the relocation of the pari-mutuel permit pursuant to s. 550.0555 ~~thoroughbred horse racetrack except upon proof in such form as the division may prescribe that a referendum election has been held:~~

~~1. If the proposed new location is within the same county as the already licensed location, in the county where the licensee desires to conduct the race meeting and that a majority of the electors voting on that question in such election voted in favor of the transfer of such license~~.

~~2. If the proposed new location is not within the same county as the already licensed location, in the county where the licensee desires to conduct the race meeting and in the county where the licensee is already licensed to conduct the race meeting and that a majority of the electors voting on that question in each such election voted in favor of the transfer of such license.~~

~~(b) Each referendum held under the provisions of this subsection shall be held in accordance with the electoral procedures for ratification of permits, as provided in s. 550.0651. The expense of each such referendum shall be borne by the licensee requesting the transfer.~~

(14)~~(a)~~ Notwithstanding any other provision of law, a pari-mutuel permit, cardroom, or slot machine facility may not be relocated, and a pari-mutuel permit may not be converted to another class of permit. ~~Any holder of a permit to conduct jai alai may apply to the division to convert such permit to a permit to conduct greyhound racing in lieu of jai alai if:~~

~~1. Such permit is located in a county in which the division has issued only two pari-mutuel permits pursuant to this section;~~

~~2. Such permit was not previously converted from any other class of permit; and~~

~~3. The holder of the permit has not conducted jai alai games during a period of 10 years immediately preceding his or her application for conversion under this subsection.~~

~~(b) The division, upon application from the holder of a jai alai permit meeting all conditions of this section, shall convert the permit and shall issue to the permitholder a permit~~

~~to conduct greyhound racing. A permitholder of a permit converted under this section shall be required to apply for and conduct a full schedule of live racing each fiscal year to be eligible for any tax credit provided by this chapter. The holder of a permit converted pursuant to this subsection or any holder of a permit to conduct greyhound racing located in a county in which it is the only permit issued pursuant to this section who operates at a leased facility pursuant to s. 550.475 may move the location for which the permit has been issued to another location within a 30-mile radius of the location fixed in the permit issued in that county, provided the move does not cross the county boundary and such location is approved under the zoning regulations of the county or municipality in which the permit is located, and upon such relocation may use the permit for the conduct of pari-mutuel wagering and the operation of a cardroom. The provisions of s. 550.6305(9)(d) and (f) shall apply to any permit converted under this subsection and shall continue to apply to any permit which was previously included under and subject to such provisions before a conversion pursuant to this section occurred.~~

Section 6. Section 550.0745, Florida Statutes, is repealed.

Section 7. Subsection (3) of section 550.09512, Florida Statutes, is amended to read:

550.09512 Harness horse taxes; abandoned interest in a permit for nonpayment of taxes.—

(3)~~(a)~~ The division shall revoke the permit of a harness horse racing permitholder who does not pay tax on handle for live harness horse performances for a full schedule of live races for more than 24 consecutive months ~~during any 2~~

~~consecutive state fiscal years shall be void and shall escheat to and become the property of the state~~ unless such failure to operate and pay tax on handle was the direct result of fire, strike, war, or other disaster or event beyond the ability of the permitholder to control. Financial hardship to the permitholder does ~~shall~~ not, in and of itself, constitute just cause for failure to operate and pay tax on handle. A permit revoked under this subsection is void and may not be reissued.

~~(b) In order to maximize the tax revenues to the state, the division shall reissue an escheated harness horse permit to a qualified applicant pursuant to the provisions of this chapter as for the issuance of an initial permit. However, the provisions of this chapter relating to referendum requirements for a pari-mutuel permit shall not apply to the reissuance of an escheated harness horse permit. As specified in the application and upon approval by the division of an application for the permit, the new permitholder shall be authorized to operate a harness horse facility anywhere in the same county in which the escheated permit was authorized to be operated, notwithstanding the provisions of s. 550.054(2) relating to mileage limitations.~~

Section 8. Subsections (3) and (7) of section 550.09515, Florida Statutes, are amended to read:

550.09515 Thoroughbred horse taxes; abandoned interest in a permit for nonpayment of taxes.—

(3)~~(a)~~ The division shall revoke the permit of a thoroughbred racing ~~horse~~ permitholder that ~~who~~ does not pay tax on handle for live thoroughbred horse performances for a full schedule of live races for more than 24 consecutive months ~~during any 2 consecutive state fiscal years shall be void and~~

~~shall escheat to and become the property of the state~~ unless such failure to operate and pay tax on handle was the direct result of fire, strike, war, or other disaster or event beyond the ability of the permitholder to control. Financial hardship to the permitholder does ~~shall~~ not, in and of itself, constitute just cause for failure to operate and pay tax on handle. A permit revoked under this subsection is void and may not be reissued.

~~(b) In order to maximize the tax revenues to the state, the division shall reissue an escheated thoroughbred horse permit to a qualified applicant pursuant to the provisions of this chapter as for the issuance of an initial permit. However, the provisions of this chapter relating to referendum requirements for a pari-mutuel permit shall not apply to the reissuance of an escheated thoroughbred horse permit. As specified in the application and upon approval by the division of an application for the permit, the new permitholder shall be authorized to operate a thoroughbred horse facility anywhere in the same county in which the escheated permit was authorized to be operated, notwithstanding the provisions of s. 550.054(2) relating to mileage limitations.~~

~~(7) If a thoroughbred permitholder fails to operate all performances on its 2001-2002 license, failure to pay tax on handle for a full schedule of live races for those performances in the 2001-2002 fiscal year does not constitute failure to pay taxes on handle for a full schedule of live races in a fiscal year for the purposes of subsection (3). This subsection may not be construed as forgiving a thoroughbred permitholder from paying taxes on performances conducted at its facility pursuant~~

~~to its 2001-2002 license other than for failure to operate all performances on its 2001-2002 license. This subsection expires July 1, 2003.~~

Section 9. Section 550.3345, Florida Statutes, is amended to read:

550.3345 ~~Conversion of quarter horse permit to a~~ Limited thoroughbred racing permit.—

(1) In recognition of the important and long-standing economic contribution of the thoroughbred horse breeding industry to this state and the state's vested interest in promoting the continued viability of this agricultural activity, the state intends to provide a limited opportunity for the conduct of live thoroughbred horse racing with the net revenues from such racing dedicated to the enhancement of thoroughbred purses and breeders', stallion, and special racing awards under this chapter; the general promotion of the thoroughbred horse breeding industry; and the care in this state of thoroughbred horses retired from racing.

(2) A limited thoroughbred racing permit previously converted from ~~Notwithstanding any other provision of law, the holder of~~ a quarter horse racing permit pursuant to chapter 2010-29, Laws of Florida, ~~issued under s. 550.334~~ may only be held by~~, within 1 year after the effective date of this section, apply to the division for a transfer of the quarter horse racing permit to~~ a not-for-profit corporation formed under state law to serve the purposes of the state as provided in subsection (1). The board of directors of the not-for-profit corporation must be composed ~~comprised~~ of 11 members, 4 of whom shall be designated by the applicant, 4 of whom shall be designated by the Florida

Thoroughbred Breeders' Association, and 3 of whom shall be designated by the other 8 directors, with at least 1 of these 3 members being an authorized representative of another thoroughbred racing permitholder in this state. A limited thoroughbred racing ~~The not-for-profit corporation shall submit an application to the division for review and approval of the transfer in accordance with s. 550.054. Upon approval of the transfer by the division, and notwithstanding any other provision of law to the contrary, the not-for-profit corporation may, within 1 year after its receipt of the permit, request that the division convert the quarter horse racing permit to a permit authorizing the holder to conduct pari-mutuel wagering meets of thoroughbred racing. Neither the transfer of the quarter horse racing permit nor its conversion to a limited thoroughbred permit shall be subject to the mileage limitation or the ratification election as set forth under s. 550.054(2) or s. 550.0651. Upon receipt of the request for such conversion, the division shall timely issue a converted permit. The converted~~ permit and the not-for-profit corporation are ~~shall be~~ subject to the following requirements:

(a) All net revenues derived by the not-for-profit corporation under the thoroughbred ~~horse~~ racing permit, after the funding of operating expenses and capital improvements, shall be dedicated to the enhancement of thoroughbred purses and breeders', stallion, and special racing awards under this chapter; the general promotion of the thoroughbred horse breeding industry; and the care in this state of thoroughbred horses retired from racing.

(b) From December 1 through April 30, ~~no~~ live thoroughbred

racing may not be conducted under the permit on any day during which another thoroughbred racing permitholder is conducting live thoroughbred racing within 125 air miles of the not-for-profit corporation's pari-mutuel facility unless the other thoroughbred racing permitholder gives its written consent.

(c) After ~~the conversion of the quarter horse racing permit and the~~ issuance of its initial license to conduct pari-mutuel wagering meets of thoroughbred racing, the not-for-profit corporation shall annually apply to the division for a license pursuant to s. 550.5251.

(d) Racing under the permit may take place only at the location for which the original quarter horse racing permit was issued, which may be leased by the not-for-profit corporation for that purpose~~; however, the not-for-profit corporation may, without the conduct of any ratification election pursuant to s. 550.054(13) or s. 550.0651, move the location of the permit to another location in the same county provided that such relocation is approved under the zoning and land use regulations of the applicable county or municipality~~.

(e) A limited thoroughbred racing ~~No~~ permit may not be transferred ~~converted under this section is eligible for transfer~~ to another person or entity.

(3) Unless otherwise provided in this section, ~~after conversion,~~ the permit and the not-for-profit corporation shall be treated under the laws of this state as a thoroughbred racing permit and as a thoroughbred racing permitholder, respectively, with the exception of ss. 550.054(9)(c) and 550.09515(3) ~~s. 550.09515(3)~~.

Section 10. Paragraph (c) of subsection (4) of section

551.104, Florida Statutes, is amended to read:

551.104 License to conduct slot machine gaming.—

(4) As a condition of licensure and to maintain continued authority for the conduct of slot machine gaming, a ~~the~~ slot machine licensee shall:

(c)1. Conduct no less ~~fewer~~ than a full schedule of live racing or games as defined in s. 550.002(11), unless conducting less than a full schedule of live racing or games pursuant to s. 550.01215(1)(b) or (c). A permitholder's responsibility to conduct a full schedule ~~such number~~ of live races or games, as defined in s. 550.002(11), shall be reduced by the number of races or games that could not be conducted due to the direct result of fire, war, hurricane, or other disaster or event beyond the control of the permitholder. A permitholder may conduct live races or games at another pari-mutuel facility pursuant to s. 550.475 if such permitholder has operated its live races or games by lease for at least 5 consecutive years immediately prior to the permitholder's application for a slot machine license.

2.a. If not licensed to conduct a full schedule of live racing or games, as defined in s. 550.002(11), pursuant to s. 550.01215(1)(b) or (c), remit each month to each qualified thoroughbred permitholder, by electronic funds transfer, an amount equal to one-twelfth of the lesser of $1.5 million or 2.75 percent of its slot machine revenues from the previous state fiscal year, divided by the total number of qualified thoroughbred permitholders for the applicable state fiscal year. Qualified thoroughbred permitholders shall use such payments exclusively for purses and awards for live thoroughbred horse

races held at the qualified thoroughbred permitholder's racing facility. For the purposes of this subparagraph, the term "qualified thoroughbred permitholder" means a thoroughbred permitholder conducting, in the applicable state fiscal year, no less than a full schedule of live racing or games, as defined in s. 550.002(11), and no fewer live thoroughbred horse racing performances than such permitholder conducted in state fiscal year 2017-2018. The term does not include a permitholder whose permit was issued pursuant to s. 550.3345 or a permitholder leasing at another thoroughbred permitholder's facility pursuant to s. 550.475.

b. The division shall notify each slot machine licensee required to remit such payments, not later than 15 days after issuing the slot machine license, of the qualified thoroughbred permitholders to which such payments must be paid. Each qualified thoroughbred permitholder shall provide each slot machine licensee required to remit payments pursuant to this subparagraph with written instructions for transmitting such electronic payments. Such payments shall be remitted to each qualified thoroughbred permitholder on the fifth day of each calendar month. If the fifth day of the calendar month falls on a weekend, such payment shall be remitted on the first Monday following the weekend.

c. A qualified thoroughbred permitholder receiving funds under this subparagraph shall remit, within 10 days after receipt, 10 percent of those funds to the Florida Thoroughbred Breeders' Association, Inc., for the payment of breeders', stallion, and special racing awards, subject to the fee authorized in s. 550.2625(3).

Section 11. Subsections (1), (2), and (4) of section 551.106, Florida Statutes, are amended to read:

551.106 License fee; tax rate; penalties.—

(1) LICENSE FEE.—

~~(a)~~ Upon submission of the initial application for a slot machine license, and annually thereafter~~,~~ on the anniversary date of the issuance of the initial license, the licensee must pay to the division a nonrefundable license fee of ~~$3 million for the succeeding 12 months of licensure. In the 2010-2011 fiscal year, the licensee must pay the division a nonrefundable license fee of $2.5 million for the succeeding 12 months of licensure. In the 2011-2012 fiscal year and for every fiscal year thereafter, the licensee must pay the division a nonrefundable license fee of~~ $2 million for the succeeding 12 months of licensure. The license fee must ~~shall~~ be deposited into the Pari-mutuel Wagering Trust Fund of the Department of Business and Professional Regulation to be used by the division and the Department of Law Enforcement for investigations, regulation of slot machine gaming, and enforcement of slot machine gaming provisions under this chapter. These payments must ~~shall~~ be accounted for separately from taxes or fees paid pursuant to ~~the provisions of~~ chapter 550.

~~(b) Prior to January 1, 2007, the division shall evaluate the license fee and shall make recommendations to the President of the Senate and the Speaker of the House of Representatives regarding the optimum level of slot machine license fees in order to adequately support the slot machine regulatory program.~~

(2) TAX ON SLOT MACHINE REVENUES.—

(a) 1. The tax rate on slot machine revenues at each facility is ~~shall be~~ 35 percent. Effective January 1, 2019, the tax rate on slot machine revenues at each facility is 30 percent. Effective July 1, 2020, the tax rate on slot machine revenues at each facility is 25 percent.

2.a. If, during any state fiscal year, the aggregate amount of tax paid to the state by ~~all~~ slot machine licensees in Broward and Miami-Dade Counties is less than the aggregate amount of tax paid to the state by ~~all slot machine~~ licensees in those counties in the 2017-2018 ~~2008-2009~~ fiscal year, each slot machine licensee shall pay to the state within 45 days after the end of the state fiscal year a surcharge ~~equal to its pro rata share of an amount equal to the difference between the aggregate amount of tax paid to the state by all slot machine licensees in the 2008-2009 fiscal year and the amount of tax paid during the fiscal year~~.

b. The amount of the surcharge to be paid by each such licensee must be calculated by dividing the aggregate amount of slot machine taxes paid to the state by all such slot machine licensees in the 2017-2018 fiscal year by the aggregate amount of slot machine taxes paid by all such licensees during the applicable state fiscal year, multiplying the result by the amount of slot machine taxes paid by the licensee during the applicable state fiscal year, and then subtracting from that product the amount of slot machine taxes paid by the licensee during the applicable state fiscal year. However, the sum of the taxes paid by a licensee pursuant to subparagraph 1. and any surcharge due from the licensee may not exceed 35 percent of the slot machine revenue of that licensee in the applicable state fiscal year ~~Each licensee's pro rata share shall be an amount~~

~~determined by dividing the number 1 by the number of facilities licensed to operate slot machines during the applicable fiscal year, regardless of whether the facility is operating such machines~~.

(b) The slot machine revenue tax imposed by this section must ~~shall~~ be paid to the division for deposit into the Pari-mutuel Wagering Trust Fund for immediate transfer by the Chief Financial Officer for deposit into the Educational Enhancement Trust Fund of the Department of Education. Any interest earnings on the tax revenues must ~~shall~~ also be transferred to the Educational Enhancement Trust Fund.

(c)1. Funds transferred to the Educational Enhancement Trust Fund under paragraph (b) must ~~shall~~ be used to supplement public education funding statewide.

2. If necessary to comply with any covenant established pursuant to s. 1013.68(4), s. 1013.70(1), or s. 1013.737(3), funds transferred to the Educational Enhancement Trust Fund under paragraph (b) must ~~shall~~ first be available to pay debt service on lottery bonds issued to fund school construction in the event lottery revenues are insufficient for such purpose or to satisfy debt service reserve requirements established in connection with lottery bonds. Moneys available pursuant to this subparagraph are subject to annual appropriation by the Legislature.

(4) TO PAY TAX; PENALTIES.—A slot machine licensee who fails to make tax and any applicable surcharge payments as required under this section is subject to an administrative penalty of up to $10,000 for each day the tax payment is not remitted. All administrative penalties imposed and collected

must ~~shall~~ be deposited into the Pari-mutuel Wagering Trust Fund of the Department of Business and Professional Regulation. If any slot machine licensee fails to pay penalties imposed by order of the division under this subsection, the division may deny, suspend, revoke, or refuse to renew the license of the permitholder or slot machine licensee.

Section 12. Present subsections (9) through (17) of section 849.086, Florida Statutes, are redesignated as subsections (10) through (18), respectively, a new subsection (9) is added to that section, subsections (1) and (2) of that section are amended, paragraph (g) is added to subsection (4) of that section, and paragraph (b) of subsection (5), paragraph (c) of subsection (7), paragraph (a) of subsection (8), present subsection (12), and paragraphs (d) and (h) of present subsection (13) are amended, to read:

849.086 Cardrooms authorized.—

(1) LEGISLATIVE INTENT.—It is the intent of the Legislature to provide additional entertainment choices for the residents of and visitors to the state, promote tourism in the state, provide revenues to support the continuation of live pari-mutuel activity, and provide additional state revenues through the authorization of the playing of certain games in the state at facilities known as cardrooms which are to be located at licensed pari-mutuel facilities. To ensure the public confidence in the integrity of authorized cardroom operations, this act is designed to strictly regulate the facilities, persons, and procedures related to cardroom operations. Furthermore, the Legislature finds that authorized games of poker and dominoes ~~as herein defined~~ are considered to be pari-mutuel style games and

not casino gaming because the participants play against each other instead of against the house.

(2) DEFINITIONS.—As used in this section:

(a) "Authorized game" means a game or series of games of poker, including designated player games, played in conformance with this section and in a manner consistent with the rules and requirements specified in the 1974 edition of Hoyle's Modern Encyclopedia of Card Games: Rules of All the Basic Games and Popular Variations and including three card poker, or dominoes played in conformance with this section ~~or dominoes which are played in a nonbanking manner~~.

(b) "Banking game" means a game in which the house is a participant in the game, taking on players, paying winners, and collecting from losers ~~or in which the cardroom establishes a bank against which participants play~~. A designated player game is not a banking game.

(c) "Cardroom" means a facility where authorized games are played for money or anything of value and to which the public is invited to participate in such games and charged a fee for participation by the operator of such facility. Authorized games and cardrooms do not constitute casino gaming operations if conducted at an eligible facility.

(d) "Cardroom management company" means any individual not an employee of the cardroom operator, any proprietorship, partnership, corporation, or other entity that enters into an agreement with a cardroom operator to manage, operate, or otherwise control the daily operation of a cardroom.

(e) "Cardroom distributor" means any business that distributes cardroom paraphernalia such as card tables, betting

chips, chip holders, dominoes, dominoes tables, drop boxes, banking supplies, playing cards, card shufflers, and other associated equipment to authorized cardrooms.

(f) "Cardroom operator" means a licensed pari-mutuel permitholder that ~~which~~ holds a valid permit and license issued by the division pursuant to chapter 550 and which also holds a valid cardroom license issued by the division pursuant to this section which authorizes such person to operate a cardroom and to conduct authorized games in such cardroom.

(g) "Designated player" means the player identified for each game by a button that rotates clockwise before each hand begins as the player in the dealer position and seated at a traditional player position in a designated player game who pays winning players and collects from losing players.

(h) "Designated player game" means a game in which the players compare their cards only to the cards of the designated player or to a combination of cards held by the designated player and cards common and available for play by all players.

(i) ~~(g)~~ "Division" means the Division of Pari-mutuel Wagering of the Department of Business and Professional Regulation.

(j) ~~(h)~~ "Dominoes" means a game of dominoes typically played with a set of 28 flat rectangular blocks, called "bones," which are marked on one side and divided into two equal parts, with zero to six dots, called "pips," in each part. The term also includes larger sets of blocks that contain a correspondingly higher number of pips. The term also means the set of blocks used to play the game.

(k) ~~(i)~~ "Gross receipts" means the total amount of money

received by a cardroom from any person for participation in authorized games.

(l) ~~(j)~~ "House" means the cardroom operator and all employees of the cardroom operator.

(m) ~~(k)~~ "Net proceeds" means the total amount of gross receipts received by a cardroom operator from cardroom operations less direct operating expenses related to cardroom operations, including labor costs, admission taxes only if a separate admission fee is charged for entry to the cardroom facility, gross receipts taxes imposed on cardroom operators by this section, the annual cardroom license fees imposed by this section on each table operated at a cardroom, and reasonable promotional costs excluding officer and director compensation, interest on capital debt, legal fees, real estate taxes, bad debts, contributions or donations, or overhead and depreciation expenses not directly related to the operation of the cardrooms.

(n) ~~(l)~~ "Rake" means a set fee or percentage of the pot assessed by a cardroom operator for providing the services of a dealer, table, or location for playing the authorized game.

(o) ~~(m)~~ "Tournament" means a series of games that have more than one betting round involving one or more tables and where the winners or others receive a prize or cash award.

(4) AUTHORITY OF DIVISION.—The Division of Pari-mutuel Wagering of the Department of Business and Professional Regulation shall administer this section and regulate the operation of cardrooms under this section and the rules adopted pursuant thereto, and is hereby authorized to:

(g) Establish a reasonable period to respond to requests from a licensed cardroom; provided however, the division has a

maximum of 45 days to approve:

1. A cardroom's internal controls or provide the cardroom with a list of deficiencies as to the internal controls.

2. Rules for a new authorized game submitted by a licensed cardroom or provide the cardroom with a list of deficiencies as to those rules.

No later than 10 days after the submission of revised internal controls or revised rules addressing the deficiencies identified by the division, the division must review and approve or reject the revised internal controls or revised rules.

(5) LICENSE REQUIRED; APPLICATION; FEES.—No person may operate a cardroom in this state unless such person holds a valid cardroom license issued pursuant to this section.

(b) After the initial cardroom license is granted, the application for the annual license renewal shall be made in conjunction with the applicant's annual application for its pari-mutuel license. If a permitholder has operated a cardroom during any of the 3 previous fiscal years and fails to include a renewal request for the operation of the cardroom in its annual application for license renewal, the permitholder may amend its annual application to include operation of the cardroom. ~~In order for a cardroom license to be renewed the applicant must have requested, as part of its pari-mutuel annual license application, to conduct at least 90 percent of the total number of live performances conducted by such permitholder during either the state fiscal year in which its initial cardroom license was issued or the state fiscal year immediately prior thereto if the permitholder ran at least a full schedule of live~~

~~racing or games in the prior year. If the application is for a harness permitholder cardroom, the applicant must have requested authorization to conduct a minimum of 140 live performances during the state fiscal year immediately prior thereto.~~ If more than one permitholder is operating at a facility, each permitholder must have applied for a license to conduct a full schedule of live racing.

(7) CONDITIONS FOR OPERATING A CARDROOM.—

(c) A cardroom operator must at all times employ and provide a nonplaying live dealer at ~~for~~ each table on which authorized ~~card~~ games ~~which traditionally use a dealer~~ are conducted ~~at the cardroom~~. Such dealers may not have a participatory interest in any game other than the dealing of cards and may not have an interest in the outcome of the game. The providing of such dealers by a licensee does not constitute the conducting of a banking game by the cardroom operator.

(8) METHOD OF WAGERS; LIMITATION.—

(a) ~~No~~ Wagering may not be conducted using money or other negotiable currency. Games may only be played utilizing a wagering system whereby all players' money is first converted by the house to tokens or chips that may ~~which shall~~ be used for wagering only at that specific cardroom.

(9) DESIGNATED PLAYER GAMES AUTHORIZED.—

(a) A cardroom operator may offer designated player games consisting of players making wagers against the designated player. However, not more than 50 percent of the total licensed tables in a cardroom may offer designated player games. The designated player must be licensed pursuant to paragraph (6)(b). Employees of a designated player also must be licensed, and the

designated player shall pay, in addition to the business occupational fee established pursuant to paragraph (6)(i), an employee occupational license fee that may not exceed $500 per employee for any 12-month period.

(b) A cardroom operator may not serve as a designated player in any game. The cardroom operator may not have a financial interest in a designated player in any game. A cardroom operator may collect a rake in accordance with the rake structure posted at the table.

(c) If there are multiple designated players at a table, the dealer button shall be rotated in a clockwise rotation after each hand.

(d) A cardroom operator may not allow a designated player to pay an opposing player who holds a lower-ranked hand.

(e) A designated player may not be required by the rules of a game or by the rules of a cardroom to cover more than 10 times the maximum wager for players participating in any one game.

(f) The cardroom, or any cardroom licensee, may not contract with, or receive compensation other than a posted table rake from, any player to participate in any game to serve as a designated player.

(13)~~(12)~~ PROHIBITED ACTIVITIES.—

(a) A ~~No~~ person licensed to operate a cardroom may not conduct any banking game or any game not specifically authorized by this section.

(b) A ~~No~~ person who is younger than ~~under~~ 18 years of age may not be permitted to hold a cardroom or employee license~~,~~ or to engage in any game conducted therein.

(c) With the exception of mechanical card shufflers, ~~No~~

electronic or mechanical devices~~, except mechanical card shufflers,~~ may not be used to conduct any authorized game in a cardroom.

(d) ~~No~~ Cards, game components, or game implements may not be used in playing an authorized game unless they have ~~such has~~ been furnished or provided to the players by the cardroom operator.

(14)~~(13)~~ TAXES AND OTHER PAYMENTS.—

(d)1. Each ~~greyhound and jai alai~~ permitholder that operates a cardroom facility shall use at least 4 percent of such permitholder's cardroom monthly gross receipts to supplement ~~greyhound~~ purses and awards or jai alai prize money, respectively, during the permitholder's next ensuing pari-mutuel meet.

2.a. Any permitholder with a cardroom license and conducting less than a full schedule of live racing or games, as defined in s. 550.002(11), pursuant to s. 550.01215(1)(b) or (c) shall remit each month to each qualified thoroughbred permitholder, by electronic funds transfer, an amount equal to 4 percent of its monthly cardroom gross receipts divided by the total number of qualified thoroughbred permitholders for a license year. Qualified thoroughbred permitholders shall use such payments exclusively for purses and awards for live thoroughbred horse races held at the qualified thoroughbred permitholder's racing facility. For the purposes of this subparagraph, the term "qualified thoroughbred permitholder" means a thoroughbred permitholder conducting, in the applicable state fiscal year, no less than a full schedule of live racing or games, as defined in s. 550.002(11), and no fewer live

thoroughbred horse racing performances than such permitholder conducted in state fiscal year 2017-2018. The term does not include a permitholder whose permit was issued pursuant to s. 550.3345 or a permitholder leasing at another thoroughbred permitholder's facility pursuant to s. 550.475.

b. The division shall notify each cardroom licensee required to remit such payments, not later than 15 days after issuing the cardroom license, of the qualified thoroughbred permitholders to which such payments must be paid. Each qualified thoroughbred permitholder shall provide each cardroom licensee required to remit payments pursuant to this subparagraph with written instructions for transmitting such electronic payments. Such payments shall be remitted to each qualified thoroughbred permitholder on the fifth day of each calendar month and shall be based upon the preceding month's cardroom activities. If the fifth day of the calendar month falls on a weekend, such payment shall be remitted on the first Monday following the weekend.

c. A qualified thoroughbred permitholder receiving funds under this subparagraph shall remit, within 10 days after receipt, 10 percent of those funds to the Florida Thoroughbred Breeders' Association, Inc., for the payment of breeders', stallion, and special racing awards, subject to the fee authorized in s. 550.2625(3).

3. Each thoroughbred and harness horse racing permitholder that operates a cardroom facility shall use at least 50 percent of such permitholder's cardroom monthly net proceeds as follows: 47 percent to supplement purses and 3 percent to supplement breeders' awards during the permitholder's next ensuing racing

meet.

~~3. No cardroom license or renewal thereof shall be issued to an applicant holding a permit under chapter 550 to conduct pari-mutuel wagering meets of quarter horse racing unless the applicant has on file with the division a binding written agreement between the applicant and the Florida Quarter Horse Racing Association or the association representing a majority of the horse owners and trainers at the applicant's eligible facility, governing the payment of purses on live quarter horse races conducted at the licensee's pari-mutuel facility. The agreement governing purses may direct the payment of such purses from revenues generated by any wagering or gaming the applicant is authorized to conduct under Florida law. All purses shall be subject to the terms of chapter 550.~~

(h) One-quarter of the moneys deposited into the Pari-mutuel Wagering Trust Fund pursuant to paragraph (g) shall, by October 1 of each year, be distributed to the local government that approved the cardroom under subsection (17) ~~(16)~~; however, if two or more pari-mutuel racetracks are located within the same incorporated municipality, the cardroom funds shall be distributed to the municipality. If a pari-mutuel facility is situated in such a manner that it is located in more than one county, the site of the cardroom facility shall determine the location for purposes of disbursement of tax revenues under this paragraph. The division shall, by September 1 of each year, determine: the amount of taxes deposited into the Pari-mutuel Wagering Trust Fund pursuant to this section from each cardroom licensee; the location by county of each cardroom; whether the cardroom is located in the unincorporated area of the county or

within an incorporated municipality; and, the total amount to be distributed to each eligible county and municipality.

Section 13. Subsection (1) of section 849.16, Florida Statutes, is amended to read:

849.16 Machines or devices which come within provisions of law defined.—

(1) As used in this chapter, the term "slot machine or device" means any machine or device or system or network of devices that is adapted for use in such a way that, upon activation, which may be achieved by, but is not limited to, the insertion of any piece of money, coin, account number, code, or other object or information, such device or system is directly or indirectly caused to operate or may be operated and if the user, whether by application of skill or by reason of any element of chance or any other outcome unpredictable by the user, regardless of whether the machine or device or system or networks of devices includes a preview of the outcome or whether the outcome is known, displayed, or capable of being known or displayed to the user, may:

(a) Receive or become entitled to receive any piece of money, credit, allowance, or thing of value; ~~, or~~ any check, slug, token, or memorandum, whether of value or otherwise, which may be exchanged for any money, credit, allowance, or thing of value or which may be given in trade; or the opportunity to purchase a subsequently displayed outcome that may have a monetary value, regardless of whether such value is equal to, greater than, or less than the cost of purchasing such outcome; or

(b) Secure additional chances or rights to use such

machine, apparatus, or device, even though the device or system may be available for free play or, in addition to any element of chance or unpredictable outcome of such operation, may also sell, deliver, or present some merchandise, indication of weight, entertainment, or other thing of value. The term "slot machine or device" includes, but is not limited to, devices regulated as slot machines pursuant to chapter 551.

Section 14. The Division of Law Revision and Information is directed to replace the phrase "the effective date of this act" wherever it appears in this act with the date this act becomes a law.

Section 15. This act shall take effect upon becoming a law.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 840
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Finance and Tax) and Senator Hutson
SUBJECT:	Gaming
DATE:	March 5, 2018
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Kraemer	McSwain	RI	**Favorable**
2.	Fournier	Diez-Arguelles	AFT	**Recommend: Fav/CS**
3.	Fournier	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 840 revises Florida law concerning gaming. The bill:

- Authorizes the execution of a new gaming compact between the State of Florida (state) and the Seminole Tribe of Florida (Seminole Tribe), which:
  - Authorizes the Seminole Tribe to continue to conduct slot machine gaming at its seven gaming facilities;
  - Permits the Seminole Tribe to offer live table games, such as craps and roulette, at its seven gaming facilities;
  - Authorizes banked card games, including blackjack, chemin de fer, and baccarat, at all seven facilities ;
  - Is for a term of 22 years, through June 30, 2040; and
  - Includes a $3 billion guarantee of revenue sharing payments to the State for the first seven-years (Guarantee Period), with specific payment amounts (Guaranteed Payments) during each year of the Guarantee Period. After the Guarantee Period, payments will be based on varying percentage rates that depend on the amount of the Seminole Tribe's net win (Revenue Share Payments);
  - Provides exceptions to the Tribe's exclusive rights to allow:
    - The authorization of fantasy contests;
    - Licensing of slot machine facilities in counties that conduct referenda, between January 1, 2012 and September 1, 2018.
    - The play of Designated Player Games in cardrooms in the state;

    - Certain pari-mutuel permitholders to end live racing or games.
- Authorizes certain fantasy contests in which participants pay an entry fee, fantasy contest operators and their employees and agents may not be participants in a fantasy contest, prizes and awards must be established and disclosed before a contest and be unrelated to the number of participants in the contest, winning outcomes must reflect knowledge and skill of participants and be determined predominantly by statistical results of performances of individuals, including athletes in sporting events, winning outcomes may not be based on performances in collegiate, high school, or youth sporting events, and casino themes such as slot machine symbol and cards may not be used.
- Provides that the Department of Business and Professional Regulation (DBPR) may not regulate fantasy contests and certain gambling laws set forth in Ch. 849, F.S., do not apply to a fantasy contest conducted by a fantasy contest operator or a commissioner who participates in fewer than ten contests each calendar year and distributes all contest entry fees as prizes.
- Allows, subject to eligibility requirements, greyhound racing permitholders, jai alai permitholders, harness horse racing permitholders, and quarter horse racing permitholders to stop conducting live performances but continue operating slot machine facilities or cardrooms (decoupling).
- Revises the operating requirements for limited thoroughbred horse wagering facilities and limited intertrack wagering.
- Requires permitholders licensed to conduct slot machine gaming or cardrooms that choose to discontinue live racing or games, (i.e., decouple), to make annual payments for the benefit of live thoroughbred horse racing purses.
- Eliminates dormant pari-mutuel permits and repeals authorization for the issuance of summer jai alai permits.
- Authorizes licensing of new slot machine facilities, under certain conditions, in counties that approve slot machine gaming in a referendum between January 1, 2012 and September 1, 2018.
- Reduces the tax rate on slot machines from 35 percent to 30 percent effective January 1, 2019, and to 25 percent effective July 1, 2020.
- Provides that if, in any state fiscal year, the aggregate amount of tax paid to the state by all the slot machine licensees in Broward and Miami-Dade counties is less than the aggregate amount paid in the 2017-2018 state fiscal year, each of those licensees must pay a surcharge to alleviate the shortfall.
- Requires all slot machine licensees located in a county that conducted a successful referendum to authorize slot machine gaming to pay slot machine taxes and license fees to the state of not less than $10 million in Fiscal Year 2018-2019, and not less than $20 million in each subsequent fiscal year.
- Allows slot machine facilities and cardrooms to operate 24 hours a day.
- Provides that a Designated Player Game is not a banking game and sets certain requirements and limitations for a Designated Player Game.
- Limits the number of Designated Player Game tables in a cardroom to not more than 50 percent of the cardroom's total licensed tables.
- Grants additional rulemaking authority to the DBPR's Division of Pari-Mutuel Wagering (division) relating to requests from licensed cardrooms and imposes deadlines for response by the division to submissions by cardroom licensees relating to rules for new authorized games, revisions to internal controls, and revisions to rules for games.

- Amends the definition of "slot machine or device" to include machines or devices that provide a preview of the outcome of the game (i.e., pre-reveal games).

If the new compact is agreed to by the Seminole Tribe and approved by the United States Secretary of the Interior, the payments made by the Seminole Tribe to the state will increase both during the Guarantee Period (Fiscal Years 2018-2019 through 2024-2025) and thereafter, compared to the payments the Seminole Tribe would be required to pay to the state under the 2010 Gaming Compact.

If the new gaming compact does not become effective, and any provisions of CS/SB 840 are determined to violate the 2010 Gaming Compact, the Seminole Tribe choose to cease making payments to the state. The payments are estimated to be $391.1 million in Fiscal Year 2018-2019, and from $328.2 to $361.4 million annually in the following seven years.

The bill will also result in the loss of $4.1 million on a recurring basis in slot machine revenue. See Section V., Fiscal Impact Statement.

The bill takes effect upon becoming a law.

II. Present Situation:

Background

In general, gambling is illegal in Florida.[1] Chapter 849, F.S., prohibits keeping a gambling house,[2] running a lottery,[3] or the manufacture, sale, lease, play, or possession of slot machines.[4] However, the following gaming activities are authorized by law and regulated by the state:

- Pari-mutuel[5] wagering at licensed greyhound and horse tracks and jai alai frontons;[6]
- Slot machine gaming at certain licensed pari-mutuel locations in Miami-Dade County and Broward County;[7] and
- Cardrooms[8] at certain pari-mutuel facilities.[9]

[1] *See* s. 849.08, F.S.
[2] *See* s. 849.01, F.S.
[3] *See* s. 849.09, F.S.
[4] Section 849.16, F.S., defines slot machines for purposes of ch. 849, F.S. Section 849.15(2), F.S., provides an exemption to the transportation of slot machines for the facilities that are authorized to conduct slot machine gaming under ch. 551, F.S.
[5] Pari-mutuel" is defined in Florida law as "a system of betting on races or games in which the winners divide the total amount bet, after deducting management expenses and taxes, in proportion to the sums they have wagered individually and with regard to the odds assigned to particular outcomes. *See* s. 550.002(22), F.S.
[6] *See* ch. 550, F.S., relating to the regulation of pari-mutuel activities.
[7] *See* ch. 551, F.S., relating to the regulation of slot machine gaming at pari-mutuel locations.
[8] Section 849.086, F.S., and *see* s. 849.086(2)(c), F.S., which defines "cardroom" to mean "a facility where authorized card games are played for money or anything of value and to which the public is invited to participate in such games and charged a fee for participation by the operator of such facility."
[9] The Department of Business and Professional Regulation (DBPR) has issued licenses to permitholders with 2017-2018 Operating Licenses to operate 25 cardrooms. *See* http://www.myfloridalicense.com/dbpr/pmw/PMW-PermitholderOperatingLicenses--2017-2018.html (last visited Jan. 11, 2018).

A license to offer pari-mutuel wagering, slot machine gambling, or a cardroom at a pari-mutuel facility is a privilege granted by the state.[10]

The 1968 State Constitution states that "[l]otteries, other than the types of pari-mutuel pools authorized by law as of the effective date of this constitution . . ." are prohibited.[11] A constitutional amendment approved by the voters in 1986 authorized state-operated lotteries. Net proceeds of the lottery are deposited to the Educational Enhancement Trust Fund (EETF) and appropriated by the Legislature. Lottery operations are self-supporting and function as an entrepreneurial business enterprise.[12]

Chapter 849, F.S., also authorizes, under specific and limited conditions, the conduct of penny-ante games,[13] bingo,[14] charitable drawings, game promotions (sweepstakes),[15] and bowling tournaments.[16] The Family Amusement Games Act was enacted in 2015 and authorizes skill-based amusement games and machines at specified locations.[17]

III. Effect of Proposed Changes:

For ease of reference to each of the topics addressed in the bill, the Present Situation for each topic will be described, followed immediately by an associated section detailing the Effect of Proposed Changes.

Gaming Compacts with Seminole Tribe of Florida

Present Situation:

In 2010, a gaming compact (2010 Gaming Compact) between the Seminole Tribe of Florida (Seminole Tribe) and the State of Florida (state) was ratified by the Legislature.[18] The 2010 Gaming Compact authorizes the Seminole Tribe to conduct certain Class III gaming for a 20-year period, and to offer banked card games for five years, through July 31, 2015. The 2010

[10] *See* s. 550.1625(1), F.S., "…legalized pari-mutuel betting at dog tracks is a privilege and is an operation that requires strict supervision and regulation in the best interests of the state." *See also Solimena v. State,* 402 So.2d 1240, 1247 (Fla. 3d DCA 1981), *review denied*, 412 So.2d 470, which states "Florida courts have consistently emphasized the special nature of legalized racing, describing it as a privilege rather than as a vested right," citing *State ex rel. Mason v. Rose,* 122 Fla. 413, 165 So. 347 (1936).

[11] The pari-mutuel pools that were authorized by law on the effective date of the Florida Constitution, as revised in 1968, include horseracing, greyhound racing, and jai alai games. The revision was ratified by the electorate on November 5, 1968.

[12] The Department of the Lottery is authorized by s. 15, Art. X, Florida Constitution. Chapter 24, F.S., was enacted by ch. 87-65, Laws of Fla., to establish the state lottery. Section 24.102, F.S., states the legislative purpose and intent for the operations of the state lottery.

[13] *See* s. 849.085, F.S.

[14] *See* s. 849.0931, F.S.

[15] *See* s. 849.094, F.S., authorizes game promotions in connection with the sale of consumer products or services.

[16] *See* s. 849.141, F.S.

[17] *See* s. 546.10, F.S.

[18] The 2010 Gaming Compact was executed by the Governor and the Seminole Tribe on April 7, 2010, ratified by the Legislature, effective April 28, 2010, and approved by U.S. Secretary of the Interior, pursuant to the Indian Gaming Regulatory Act of 1988, on June 24, 2010. It took effect when published in the Federal Register on July 6, 2010. The 20-year term of the 2010 Gaming Compact expires July 31, 2030, unless renewed. Section 285.710(1)(f), F.S., designates the Division of Pari-mutuel Wagering of the Department of Business and Professional Regulation as the "state compliance agency" having authority to carry out the state's oversight responsibilities under the 2010 Gaming Compact. *See* http://www.myfloridalicense.com/dbpr/pmw/documents/2010_Compact-Signed1.pdf (last visited Jan. 11, 2018).

Gaming Compact provides that any expanded gaming (beyond what is specifically acknowledged) allowed in the state relieves the Seminole Tribe of its obligations to make substantial revenue sharing payments.[19]

Pursuant to ch. 285, F.S., it is not a crime for a person to participate in raffles, drawings, slot machine gaming, or banked card games (e.g., blackjack or baccarat) at a tribal facility operating under the 2010 Gaming Compact.[20]

Section 285.710, F.S., provides that money received by the state from the compact is to be deposited into the General Revenue Fund and provides for the distribution of 3 percent of the amount paid by the Seminole Tribe to the specified local governments. The percentage of the local share distributed to the specified counties and municipalities is based on the net win per facility in each county and municipality.

The 2010 Gaming Compact provides for revenue sharing in consideration for the exclusive authority granted to the Seminole Tribe to offer banked card games on tribal lands and to offer slot machine gaming outside Miami-Dade and Broward counties.

The Division of Pari-mutuel Wagering of the Department of Business and Professional Regulation (DBPR) carries out the state's oversight responsibilities under the 2010 Gaming Compact.[21]

Federal Litigation Concerning the 2010 Gaming Compact

The state and the Seminole Tribe were parties to litigation in federal court relating to the offering of table games by the Seminole Tribe after July 31, 2015, in which the state alleged that the Seminole Tribe's conduct of banked card games violated the 2010 Gaming Compact. The Seminole Tribe alleged it had authority to conduct banked card games under the 2010 Gaming Compact after 2015 because the state had allowed pari-mutuel cardrooms to conduct banked games (i.e., Designated Player Games).

On November 9, 2016, U.S. District Court Judge Robert L. Hinkle issued an Opinion on the Merits, which held the Seminole Tribe may operate banked card games at all seven of its facilities (rather than the five facilities at which banked card games had been allowed since 2010) through the entire 20-year term of the 2010 Gaming Compact (i.e., until 2030) because the state permitted others to offer banked card games (i.e., pari-mutuel cardrooms).[22]

---

[19] *See* last sentence in paragraph B of Part XII of 2010 Gaming Compact at page 43.

[20] *See* s. 285.710, F.S., especially subsections (3), (13), and (14). The seven tribal locations where gaming is authorized by the 2010 Gaming Compact are: (1) Seminole Hard Rock Hotel & Casino—Hollywood (Broward); (2) Seminole Indian Casino—Coconut Creek (Broward); (3) Seminole Indian Casino—Hollywood (Broward); (4) Seminole Hard Rock Hotel & Casino—Tampa (Hillsborough); (5) Seminole Indian Casino—Immokalee (Collier); (6) Seminole Indian Casino—Brighton (Glades); and (7) Seminole Indian Casino—Big Cypress (Hendry).

[21] *See* s. 285.710(1)(f), F.S.

[22] *See Seminole Tribe of Florida v. State of Florida,* 219 F.Supp. 3d 1177 (N.D. Fla. Nov. 9, 2016), Case No.: 4:15-cv-516-RH/CAS, Document 103. In addition to the holding as to banked card games, Judge Hinkle held that sovereign immunity barred the court from considering whether the State had failed to negotiate in good faith as to authorizing roulette and craps, and that a ruling on whether electronic forms of blackjack are also a banked card game was unnecessary as that issue was too close to resolve and was not essential to the outcome of the case.

Because of the finding that others had been allowed to conduct banked card games, the court found that the 2010 Gaming Compact allows the Seminole Tribe to conduct banked card games at all seven of its gaming facilities, for the Compact's full 20-year term (through July 31, 2030).[23] The DBPR appealed Judge Hinkle's decision.[24]

Settlement of the Federal Litigation and Establishment of Forbearance Period

After the appeal of Judge Hinkle's decision was filed, the Seminole Tribe and the DBPR entered into a Settlement Agreement and Stipulation (2017 Settlement) on July 5, 2017.[25] The parties agreed to undertake certain actions.

The state agreed to dismiss the pending appeal, and, upon issuance of the final order of dismissal of the appeal, the Seminole Tribe agreed to release the state from all claims by the Tribe for past Revenue Share Payments,[26] based on the operation of player-banked games which use a designated player (Designated Player Games) or electronic forms of blackjack (Electronic Table Games) in Florida. The state and the Seminole Tribe also agreed that the findings of fact and conclusions of law in Judge Hinkle's decision are binding on the parties.[27]

The Seminole Tribe also agreed it would not seek the return of funds associated with tribal gaming paid to and segregated by the state during the pendency of the federal litigation, granting the state unencumbered use of the segregated funds.[28]

As to the continued operation of banked card games (i.e., Designated Player Games operated as described in Judge Hinkle's decision), the Seminole Tribe agreed to delay taking certain actions until after the last day of the month that the Legislature adjourns[29] its 2018 legislative session (the Forbearance Period). The Seminole Tribe agreed not to:

- Suspend Revenue Share Payments; or
- Deposit Revenue Share Payments into an escrow account in accordance with Part XII of the 2010 Gaming Compact, provided that the State takes aggressive enforcement action against the continued operation of banked card games and no other violations of the Tribe's exclusivity occur during the Forbearance Period.[30]

[26] Revenue Share Payments are the periodic payments to the State by the Seminole Tribe, based on the Tribe's Net Win. Net Win is defined as total receipts from the play of authorized tribal gaming in Florida, less all prizes, free play, or promotional credits. *See* paragraphs U and X of Part III of the 2010 Gaming Compact at page 11 at http://www.myfloridalicense.com/dbpr/pmw/documents/2010_Compact-Signed1.pdf (last visited Jan. 11, 2018).

[27] *See* 2017 Settlement at page 8.

[28] *See* the 2017 Settlement at page 6.

[29] Should the 2018 legislative session be adjourned as anticipated on March 9, 2018, the Forbearance Period will end on March 31, 2018.

[30] *See* 2017 Settlement at page 7.

Effect of Proposed Changes:

Section 1 ratifies and approves in advance a new gaming compact between the Seminole Tribe and the State (the 2018 Gaming Compact) and authorizes the Governor to execute such a compact in the identical form set forth in the legislation. If ratified, the 2018 Gaming Compact will supersede the 2010 Gaming Compact; otherwise, the 2010 Gaming Compact remains in effect. The bill requires the Governor to cooperate with the Seminole Tribe in seeking approval of the 2018 Compact from the United States Secretary of the Interior. The state's ratification expires January 1, 2019, unless the 2018 Gaming Compact becomes effective.

The 2018 Gaming Compact:

- Authorizes the Seminole Tribe to conduct slot machine gaming at its seven gaming facilities;
- Permits the Seminole Tribe to offer live table games, such as craps and roulette, at its seven gaming facilities;
- Authorizes banked card games, including blackjack, chemin de fer, and baccarat, at its seven facilities;
- Is for a term of 22 years, through June 30, 2040; and
- Includes a $3 billion guarantee of revenue sharing payments to the state for the first seven-years (Guarantee Period), with specific payment amounts (Guaranteed Payments) during each year of the Guarantee Period. After the Guarantee Period, payments will be based on varying percentage rates that depend on the amount of the Seminole Tribe's net win (Revenue Share Payments).[31]

After ratification by the Legislature, the 2018 Gaming Compact is subject to approval by the United States Department of the Interior, as required under the Indian Gaming Regulatory Act of 1988. Notice of the approval by the Department of the Interior is published in the Federal Register.[32]

The following table compares the terms of the 2010 Gaming Compact to the 2018 Gaming Compact:

	2018 COMPACT	**2010 COMPACT**
Guarantee Money to State	7-year Guarantee worth $3 billion (Starts 7/1/2018) 1- $325 million 2- $350 million 3- $375 million 4- $425 million 5- $475 million 6- $500 million 7- $550 million Total: $3 Billion guaranteed (true-up at end of year 7)	5-year Guarantee worth $1 billion 1- $150 million 2- $150 million 3- $233 million 4- $233 million 5- $234 million Total: $1 Billion guaranteed

Tribe pays annual oversight payment of $250,000, increased for inflation.
Pari-Mutuel Policy Choices for Legislature	Explicitly states that the following do not violate exclusivity: • The operation of slot machine gaming, if authorized by state law as of 1.1.19, at pari-mutuel facilities in Broward County and Miami-Dade County and in pari-mutuel facilities in other counties which have been authorized by	N/A

	2018 COMPACT	2010 COMPACT
	referendum after 1.1.12 and on or before 9.1.18. • Lower taxes for pari-mutuels on the operation of slot machines provided the effective tax rate is not less than 25% of slot machine revenues • Decoupling for pari-mutuels • Fantasy contests, as authorized in the bill • Designated player games	
Internet Gaming	Tribe recognizes that internet gaming, with the exception of fantasy contests as authorized in the bill, is illegal in Florida. If State authorizes internet gaming, other than fantasy contests, as authorized in the bill, THEN→ • Guaranteed Minimum Payments cease; but • Revenue Share Payments continue. If Tribe offers internet gaming to players in Florida then Guaranteed Minimum Payments continue. Affirmative recognition by Tribe that internet gaming is illegal in Florida.	If State authorizes internet gaming and Tribe's Net Win from all Facilities drops more than 5% below Net Win from previous year THEN → • Guaranteed Minimum Payments cease; but • Revenue Share Payments continue If Tribe offers internet gaming then Guaranteed Minimum Payments continue.
Smoking	Tribe will make efforts to promote smoke-free environment at Facilities	Tribe will make efforts to promote smoke-free environment at Facilities
Compulsive Gambling	Tribe will make annual $1,750,000 donation to the Florida Council on Compulsive Gambling and maintain a voluntary exclusion list.	Tribe will make annual $250,000 donation per Facility to the Florida Council on Compulsive Gambling and maintain a voluntary exclusion list.
Compact with another federally-recognized Indian Tribe in Florida	Florida may enter into a Compact with another federally-recognized Tribe that has land in trust in the State as of January 1, 2018.	Florida may enter into a Compact with another federally-recognized Tribe that has land in trust in the State as of February 1, 2010.

Fantasy Contests (Section 3)

Present Situation:

The operation of fantasy sports activities in Florida has received significant publicity, much like the operation of internet cafes in recent years. Many states are now evaluating the status of fantasy gaming activities in their jurisdictions,[33] as there are millions of participants.[34]

[33] *See* Marc Edelman, *A Short Treatise on Fantasy Sports and the Law: How America Regulates its New National Pastime*, Journal of Sports & Entertainment Law, Harvard Law School Vol. 3 (Jan. 2012) (Edelman Treatise), at http://papers.ssrn.com/sol3/papers.cfm?abstract_id=1907272 (last visited Jan. 11, 2018), and Jonathan Griffin, *The Legality of Fantasy Sports,* National Conference of State Legislatures Legisbrief (Sep. 2015) (on file with the Committee on Regulated Industries).

[34] According to the Fantasy Sports Trade Association, which states it represents the interests of 57 million fantasy sports players, fantasy sports leagues were originally referred to as "rotisserie leagues" with the development of Rotisserie League Baseball in 1980, by magazine writer/editor Daniel Okrent, who met and played it with friends at a New York City restaurant La Rotisserie Francaise. *See* http://fsta.org/about/history-of-fsta/ (last visited Jan. 11, 2018).

A fantasy game typically has multiple players who select and manage imaginary teams whose players are actual professional sports players. Fantasy game players compete against one another in various formats, including weekly leagues among friends and colleagues, season-long leagues, and on-line contests (daily and weekly) entered by using the Internet through personal computers or mobile telephones and other communications devices. There are various financial arrangements among players and game operators. The term "commissioner" has been used in the context of fantasy baseball leagues to denote a person who manages a fantasy baseball league, establishes league rules, resolves disputes over rule interpretations, publishes league standings, or selects the Internet service for publication of league standings.[35]

Florida law does not specifically address fantasy contests. Section 849.14, F.S.,[36] provides that a person who wagers any "thing of value" upon the result of a contest of skill or endurance of human or beast, or who receives any money wagered, or who knowingly becomes the custodian of money or other thing of value that is wagered, is guilty of a second degree misdemeanor.[37]

In 2013, Spectrum Gaming Group, as part of a Gambling Impact Study prepared for the Florida Legislature, analyzed data related to participation by adults in selected activities.[38] Based on 2012 U.S. Census data, participation in fantasy sports leagues in the prior 12 months (nearly nine million adults), and those who participate two or more times weekly (nearly three million adults), was greater than attendance at horse races in the prior 12 months (6,654,000 adults) with 159,000 attending two or more times weekly.[39]

Florida Attorney General Opinions on Fantasy Sports Leagues and Contests Involving Skill

In 1991, Florida Attorney General Robert A. Butterworth issued a formal opinion[40] evaluating the legality of groups of football fans (contestants) paying for the right to manage a team under certain specified conditions. The Attorney General stated:

> You ask whether the formation of a fantasy football league by a group of football fans in which contestants pay $100 for the right to "manage" one of eight teams violates the state's gambling laws. You state that these teams are created by contestants by "drafting" players from all current eligible National Football League (NFL) members. Thus, these fantasy teams consist of members of various NFL teams.

> According to your letter, each week the performance statistics of the players in actual NFL games are evaluated and combined with the statistics of the other players on the fantasy team to determine the winner of the fantasy game and their ranking or standing in the fantasy league. No games are actually played by the fantasy teams; however, all results depend upon performance in actual NFL games. Following completion of the season, the proceeds are distributed according to the performance of the fantasy team.

In the contest described in the opinion, each contestant paid $100 to participate in the fantasy football league and manage one of eight teams. The resulting $800 in proceeds were used for prizes. The prizes were based upon the performance of the individual professional football players in actual games. Attorney General Butterworth determined that the proceeds qualified as a "stake, bet or wager" on the result of a contest of skill and, as a result, the operation of the fantasy sports leagues violated s. 849.14, F.S., relating to unlawful betting on the result of a trial or contest of skill.[41]

The 1991 opinion cited *Creash v. State*, 179 So. 149, 152 (Fla. 1938). In *Creash*, the Florida Supreme Court held:

> In gamblers' lingo, 'stake, bet or wager' are synonymous and refer to the money or other thing or value put up by the parties thereto with the understanding that one or the other gets the whole for nothing but on the turn of a card, the result of a race, or some trick of magic. A 'purse, prize, or premium' has a broader significance. *If offered by one (who in no way competes for it) to the successful contestant in a [feat] of mental or physical skill, it is not generally condemned as gambling*, while if contested for in a game of cards or other games of chance, it is so considered. [Citation omitted.] *It is also banned as gambling if created as in this case by paying admissions to the game, purchasing certificates, or otherwise contributing to a fund from which the 'purse, prize, or premium' contested for is paid*, and wherein the winner gains, and the other contestants lose all.[42] [Emphasis added.]

However, in a 1990 opinion, Attorney General Butterworth, again citing *Creash v. State*, determined that a contest of skill (such as a hole-in-one golf contest) "where the contestant pays an entry fee, which *does not make up* (i.e., create) *the prize*, for the opportunity to win a valuable prize by the exercise of skill, *did not violate the gambling laws of [Florida]*."[43] (Emphasis in original.) That 1990 opinion reasoned, "[t]hus, the payment of an entry fee to participate in a contest of skill when the sponsor of the contest does not participate in the contest of skill and where the prize money does not consist of entry fees would *not* appear to be a 'stake, bet or wager'" in violation of s. 849.14, F.S., relating to gambling. (Emphasis added.)[44]

Class III Gaming under the Indian Gaming Regulatory Act

Fantasy contests, if classified as Class III gaming, also could affect the revenue sharing provisions of the 2010 Gaming Compact.[45] Under the compact if fantasy contests are a form of new Class III gaming in Florida, payments due to the state under the compact would cease.[46]

Gambling on Indian lands is regulated by the Indian Gaming Regulatory Act of 1988 (IGRA).[47] The 2010 Gaming Compact authorizes the Seminole Tribe to conduct specified Class III gaming activities at its seven tribal facilities in Florida.[48]

Under IGRA, gaming is categorized in three classes:

- **Class I** gaming means social games for minimal value or traditional forms of Indian gaming engaged in by individuals for tribal ceremonies or celebrations;
- **Class II** gaming includes bingo and pull-tabs, lotto, punch boards, tip jars, instant bingo, other games similar to bingo, and certain non-banked card games if not explicitly prohibited by the laws of the state and if played in conformity with state law; and
- **Class III** gaming includes all forms of gaming that are not Class I or Class II gaming, such as banked card games (such as baccarat, chemin de fer, and blackjack(21), casino games such as craps and roulette, electronic or electromechanical facsimiles of games of chance, slot machines, and pari-mutuel wagering.[49]

If fantasy contests are gaming, constitute Class III gaming under federal law, and constitute *new* Class III gaming in Florida (i.e., gaming not in operation as of February 1, 2010, or July 1, 2015, respectively), then authorizing fantasy contests in Florida (i.e., additional Class III gaming) violates the exclusivity provisions in the 2010 Gaming Compact and the Proposed 2015 Gaming Compact. As a result, certain revenue sharing requirements would not apply, and the Seminole Tribe would be authorized to offer similar internet/on-line gaming.

In a letter to Senator Travis Hutson and Representative Mike La Rosa dated December 5, 2017,[50] Jim Shore, General Counsel for the Seminole Tribe, indicated:

[50] *See* Letter from Jim Shore, General Counsel for the Seminole Tribe, to Senator Travis Hutson and Representative La Rosa (Dec. 5, 2017) (on file with the Senate Committee on Regulated Industries).

> The Tribe believes the games permitted by these bills [HB 223 and SB 374 (Fantasy Contests), and SB 840 (Gaming)] would violate the Tribe's exclusivity, as set forth in Part XII of the 2010 Gaming Compact between the State and Tribe. By providing this notice, the Tribe hopes to avoid a situation where the State enacts legislation that inadvertently violates the Tribe's exclusivity. That said, the Tribe and the State have discussed the issue of fantasy sports contests in previous compact negotiations and the Tribe remains willing to do so now. However, federal law requires that any reduction in the Tribe's exclusivity must be balanced by some additional consideration from the State. Without such an agreement, the 2010 Gaming Compact would allow the Tribe to cease all revenue sharing payments to the State based on the expanded gaming contemplated by these bills.

The National Indian Gaming Commission (commission) issued an opinion dated March 13, 2001,[51] relating to a sports betting game proposed for future play in Arizona and California via the Internet. In that sports betting game, players could wager upon various sporting *events*, including NFL football, baseball, golf, and the Olympics. The commission determined that game to be Class III gaming because it was not included within the definitions of Class I or Class II gaming under IGRA.

The Professional and Amateur Sports Protection Act of 1992 (PASPA)

In 1992, the U.S. Congress enacted the Professional and Amateur Sports Protection Act (PASPA),[52] which provides that it is unlawful for a governmental entity or any person to sponsor, operate, advertise, or promote:

> …a lottery, sweepstakes, or other betting, gambling, or wagering scheme based…on one or more competitive games in which amateur or professional athletes participate, or are intended to participate, or on one or more performances of such athletes in such games.[53]

The prohibited activity is known generally as "sports betting." Governmental entities are also prohibited from licensing such activities or authorizing them by law or compact.[54] However, PASPA does not apply to pari-mutuel animal racing or jai alai games.[55] It does not apply to a lottery, sweepstakes, or other betting, gambling, or wagering conducted by a governmental entity between January 1, 1976, and August 31, 1990.[56]

---

[51] *See* https://www.nigc.gov/images/uploads/game-opinions/WIN%20Sports%20Betting%20Game-Class%20III.pdf (last visited Jan. 11, 2018).
[52] *See* 28 U.S.C. ss. 3701-3704 (2015), at https://www.govinfo.gov/content/pkg/USCODE-2015-title28/html/USCODE-2015-title28.htm (last visited Jan. 11, 2018).
[53] *See* 28 U.S.C. s. 3702 (2015), at https://www.govinfo.gov/content/pkg/USCODE-2015-title28/html/USCODE-2015-title28.htm (last visited Jan. 11, 2018).
[54] *Id*.
[55] *See* 28 U.S.C. s. 3704(a)(4) (2015), at https://www.govinfo.gov/content/pkg/USCODE-2015-title28/html/USCODE-2015-title28.htm (last visited Jan. 11, 20187).
[56] *See* 28 U.S.C. s. 3704(a)(1) (2015), at https://www.govinfo.gov/content/pkg/USCODE-2015-title28/html/USCODE-2015-title28.htm (last visited Jan. 11, 2018).

The prohibition against sports betting also does not apply to a lottery, sweepstakes, or other betting, gambling, or wagering lawfully conducted, where such activity was authorized by law on October 2, 1991, and was conducted in a state or other governmental entity at any time between September 1, 1989, and October 2, 1991.[57]

In a case pending before the United States Supreme Court, the State of New Jersey has challenged the constitutionality of PASPA, on the basis that PASPA "commandeers" or impermissibly controls the regulatory power of states relating to the legalization of sports betting, thereby violating the Tenth Amendment to the U.S. Constitution.[58] The respondents (the National Collegiate Athletic Association, the National Basketball Association, the National Football League, the National Hockey League, and the Office of the Commissioner of Baseball) defend PASPA's pre-emption of state laws that authorize sports gambling as a valid exercise of congressional power to regulate commerce.[59] The Court's decision in the case is anticipated no later than June 29, 2018.

The Unlawful Internet Gambling Enforcement Act of 2006 (UIGEA)

The Unlawful Internet Gambling Enforcement Act of 2006 (UIGEA)[60] was signed into law by President George W. Bush on October 13, 2006.[61] Internet gambling is not determined to be legal in a state, nor illegal. Instead, UIGEA targets financial institutions in an attempt to prevent the flow of money from an individual to an internet gaming company. Congress found that enforcement of gambling laws through new mechanisms "are necessary because traditional law enforcement mechanisms are often inadequate for enforcing gambling prohibitions or regulations on the Internet, especially where such gambling crosses State or national borders."[62] UIGEA expressly states that none of its provisions "shall be construed as altering, limiting, or extending any Federal or State law or Tribal-State compact prohibiting, permitting, or regulating gambling within the United States."[63]

"Unlawful internet gambling" prohibited by UIGEA includes the placement, receipt, or transmission of certain bets or wagers.[64] However, the definition of the term "bet or wager" specifically excludes any fantasy game or contest in which a fantasy team is not based on the current membership of a professional or amateur sports team, and:

[61] The provisions of UIGEA were adopted in Conference Committee as an amendment to H.R. 4954 by Representative Daniel E. Lungren (CA-3), "The SAFE Ports Act of 2006."
[62] *See* 31 U.S.C. s. 5361(a)(4), UIGEA online, at page 46.
[63] *See* 31 U.S.C. s. 5361(b).
[64] *See* 31 U.S.C. s. 5362(10), UIGEA online, at page 48.

- (All prizes and awards are established and made known to the participants in advance of the game or contest and their value is not determined by the number of participants or the amount of fees by the participants;
- Prize amounts are not based on the number of participants or the amount of entry fees;
- Winning outcomes reflect the relative knowledge and skill of the participants and are determined predominantly by accumulated statistical results of the performance of individuals or athletes in multiple "real-world sporting or other events;" and
- No winning outcome is based:
  - On the score, point-spread, or any performance or performances of any single "real-world" team or combination of teams; or
  - Solely on any single performance of an individual athlete in any single "real-world sporting or other event."[65]

While UIGEA excludes bets or wagers of participants in certain fantasy sports games and contests,[66] it does not, however, authorize fantasy contests and activities in Florida.

Effect of Proposed Changes:

Section 3 creates s. 546.13, F.S., to authorize certain fantasy contests in which participants must pay an entry fee. Section 546.13(1), F.S., provides requirements for fantasy contests and associated definitions.

"Entry fee" means cash or a cash equivalent required to be paid by a person for the ability to participate in a fantasy contest offered by a fantasy contest operator.

"Fantasy contest operator" means a person or entity, including any employee or agent, that offers fantasy contests with an entry fee for a cash prize but is not a participant in the fantasy contest. The term does not include an individual who serves as the commissioner of no more than 10 fantasy contests in a calendar year. The term "commissioner" is not defined in the bill, but has been used in the context of fantasy baseball leagues to denote a person who manages a fantasy baseball league, establishes league rules, resolves disputes over rule interpretations, and publishes league standings or selects the Internet service for publication of league standings.[67]

A "fantasy contest" is a fantasy or simulated game in which:
- The value of all prizes and awards offered to winning participants must be established and disclosed to the participants in advance of the contest and be unrelated to the number of participants in the contest;
- All winning outcomes reflect the relative knowledge and skill of contest participants and are determined predominantly by accumulated statistical results of the performance of individuals, including athletes in the case of sporting events;
- No winning outcome is based:

[65] *See* 31 U.S.C. s. 5362(1)(E)(ix), UIGEA online, at page 47.
[66] *Id*.
[67] *See* Bernhard & Eade, *Gambling in a Fantasy World: An Exploratory Study of Rotisserie Baseball Games*, 9 UNLV Gaming Research & Review Journal Issue 1, at 30, at http://digitalscholarship.unlv.edu/grrj/vol9/iss1/3/, (last visited Jan. 11, 2018).

  - On the score, point spread, or any performance or performances of any single actual team or combination of teams;
  - Solely on any single performance of an individual athlete or player in any single actual event; or
  - On the performances of participants in collegiate, high schools, or youth sporting events; and
- No casino graphics, themes, or titles, including slot machine-style symbols, cards, craps, roulette, or lotto are displayed or depicted.

The bill provides that the Department of Business and Professional Regulation (DBPR) may not regulate fantasy contests and the offenses in ss. 849.01, 849.08, 849.09, 849.11, 849.14, or 849.25, F.S., relating to gambling, lotteries, games of chance, contests of skill, or bookmaking do not apply to a fantasy contest operated or conducted by:

- A fantasy contest operator; or
- A natural person, who is a participant in the fantasy contest, serves as the commissioner of not more than ten contests in a calendar year, and distributes all contest entry fees as prizes or awards to the participants in that fantasy contest.

If the 2018 Gaming Compact between the Seminole Tribe and the state, which is ratified in Section 1 of this bill, becomes effective, the provisions in this bill relating to fantasy contests will not cause any impact to the revenues to be paid to the state by the Seminole Tribe because fantasy contests, as authorized under this bill, are excluded from the consequences associated with any future authorization of internet gaming and are an exception to the exclusivity granted to the Seminole Tribe under that compact.

Regulation of Pari-Mutuel Wagering (Section 4)

Present Situation:

The Division of Pari-mutuel Wagering (division) in the Department of Business and Professional Regulation (DBPR) regulates pari-mutuel wagering. The division has regulatory oversight of permitted and licensed pari-mutuel wagering facilities, cardrooms located at pari-mutuel facilities, and slot machines at pari-mutuel facilities located in Miami-Dade and Broward counties. According to the division, there were 10 license suspensions, and $107,655 in fines assessed for violations of all pari-mutuel statutes and administrative rules in Fiscal Year 2015-2016.[68]

[68] *See* the 85th Annual Report for Fiscal Year 2015-2016 (the most current report) issued by the division *available at* http://www.myfloridalicense.com/dbpr/pmw/documents/AnnualReports/AnnualReport-2015-2016--85th--20170125.pdf (last visited Jan. 11, 2018) at page 5 (equivalent to page 3 of the printed Annual Report).

According to the latest information available from the DBPR, as of February 2017, there were 39 pari-mutuel permitholders with operating licenses[69] in Florida, operating at 12 greyhound tracks, six jai alai frontons, five quarter horse tracks, three thoroughbred tracks, and one harness track.[70] One jai alai permitholder voluntarily relinquished its permit in 2016.[71] Jai alai games were conducted pursuant to a new permitholder license beginning in June 2017 at a new jai alai fronton in Florida City (Miami-Dade County).[72]

Of the 19 greyhound racing permitholders with operating licenses during Fiscal Year 2016-2017, six permitholders conducted races at leased facilities.[73] Five pari-mutuel facilities have two permits operating at those locations.[74] One greyhound racing permitholder's operating license was suspended late in 2014.[75]

There are 11 permitholders that do not have operating licenses for Fiscal Year 2017-2018: two greyhound,[76] three jai alai,[77] one limited thoroughbred,[78] and five quarter horse.[79]

[69] *See* Pari-Mutuel Wagering Permitholders With 2016-2017 Operating Licenses map dated Feb. 10, 2017, (on file with Senate Committee on Regulated Industries).

[72] *See* http://www.myfloridalicense.com/dbpr/pmw/documents/Licenses/2017-2018-j/284--License--KingsCourtKey--2017-2018--2017-03-15.pdf (last visited Jan. 11, 2018).
[73] According to information in the 2015-2016 Annual Report from the Division of Pari-Mutuel Wagering, *available at* http://www.myfloridalicense.com/dbpr/pmw/documents/AnnualReports/AnnualReport-2015-2016--85th--20170125.pdf, at pp. 29 - 33 of the online Annual Report (equivalent to pp. 25- - 29 the printed Annual Report),(last visited Jan. 11, 2018), both Jacksonville Kennel Club and Bayard Raceways (St. Johns Greyhound Park) conduct races at Orange Park Kennel Club; H&T Gaming conducts racing at Mardi Gras; Palm Beach Greyhound Racing conducts racing at Palm Beach Kennel Club; Tampa Greyhound conducts races at St. Petersburg Kennel Club (Derby Lane); West Volusia Racing conducts races at Daytona Beach Kennel Club; Dania Summer Ja Alai conducts games at Dania Jai Alai; Tropical Park conducts races at Gulfstream Park.
[74] The division indicated that H & T Gaming @ Mardi Gras and Mardi Gras operate at a facility in Hallandale Beach, Daytona Beach Kennel Club and West Volusia Racing-Daytona operate at a facility in Daytona Beach, Palm Beach Kennel Club and License Acquisitions-Palm Beach operate at a facility in West Palm Beach, Miami Jai Alai and Summer Jai Alai operate at a facility in Miami, and Sanford-Orlando Kennel Club and Penn Sanford at SOKC operate at a facility in Longwood.
[75] *See* http://www.myfloridalicense.com/dbpr/pmw/documents/CurrentPermitholdersList.pdf (last visited Jan. 11, 2018) for a list of current permitholders and their licensing status. For information about permitholders for Fiscal Years 2013-2014, 2014-2015, and 2015-2016, *see* http://www.myfloridalicense.com/dbpr/pmw/track.html (last visited Jan. 11, 2018).
[76] Jefferson County Kennel Club (Monticello) and North American Racing Association (Key West).
[77] Gadsden Jai-alai (Chattahoochee), Tampa Jai Alai, and West Flagler Associates (Miami).
[78] Under s. 550.3345, F.S., during Fiscal Year 2010-2011 only, holders of quarter horse racing permits were allowed to convert their permits to a thoroughbred racing permit, conditioned upon specific use of racing revenues for enhancement of thoroughbred purses and awards, promotion of the thoroughbred horse industry, and the care of retired thoroughbred horses. Two conversions occurred, Gulfstream Park Thoroughbred After Racing Program (GPTARP) (Hallandale, Broward County), and Ocala Thoroughbred Racing (Marion County).
[79] ELH Jefferson (Jefferson County), DeBary Real Estate Holdings (Volusia County), North Florida Racing (Jacksonville), Pompano Park Racing (Pompano Beach), and St. Johns Racing (St. Johns County).

Issuance of Pari-Mutuel Permits and Annual Licenses

Section 550.054, F.S., provides that any person meeting the qualification requirements of ch. 550, F.S., may apply to the division for a permit to conduct pari-mutuel wagering. Upon approval, a permit must be issued to the applicant that indicates:

- The name of the permitholder;
- The location of the pari-mutuel facility;
- The type of pari-mutuel activity to be conducted; and
- A statement showing qualifications of the applicant to conduct pari-mutuel performances under ch. 550, F.S.

A permit does not authorize any pari-mutuel performances until approved by a majority of voters in a ratification election in the county in which the applicant proposes to conduct pari-mutuel wagering activities. An application may not be considered, nor may a permit be issued by the division or be voted upon in any county, for the conduct of:

- Harness horse racing, quarter horse racing, thoroughbred horse racing, or greyhound racing at a location within 100 miles of an existing pari-mutuel facility; or
- Jai alai games within 50 miles of an existing pari-mutuel facility.

Distances are measured on a straight line from the nearest property line of one pari-mutuel facility to the nearest property line of the other facility.[80]

After issuance of the permit and a ratification election, the division may issue an annual operating license for wagering at the specified location in a county, indicating the time, place, and number of days during which pari-mutuel operations may be conducted at the specified location.[81]

The Definition of a "Full Schedule of Live Racing or Games"

Current law provides complex requirements for what constitutes a "full schedule of live racing or games:"

- For a greyhound or jai alai permitholder, at least 100 live evening or matinee performances during the preceding year;
- For a permitholder who has a converted permit . . . at least 100 live evening and matinee wagering performances during either of the two preceding years;
- For a jai alai permitholder who does not operate slot machines . . ., who has conducted at least 100 live performances per year for at least 10 years after December 31, 1992, and whose handle on live jai alai games . . . has been less than $4 million per state fiscal year for at least two consecutive years after June 30, 1992, . . . at least 40 live evening or matinee performances during the preceding year;
- For a jai alai permitholder who operates slot machines . . ., at least 150 performances during the preceding year;
- For a harness permitholder, the conduct of at least 100 live regular wagering performances during the preceding year;

[80] *See* s. 550.054(2), F.S.
[81] *See* s. 550.054(9)(a), F.S.

- For a quarter horse permitholder at its facility unless an alternative schedule of at least 20 live regular wagering performances is agreed upon by the permitholder and either the Florida Quarter Horse Racing Association or the horsemen's association representing the majority of the quarter horse owners and trainers at the facility and filed with the division along with its annual date application, in the Fiscal Year 2010-2011, . . . at least 20 regular wagering performances, in Fiscal Year 2011-2012 and Fiscal Year 2012-2013, . . . at least 30 live regular wagering performances, and for every fiscal year after Fiscal Year 2012-2013, . . . at least 40 live regular wagering performances;
- For a quarter horse permitholder leasing another licensed racetrack, the conduct of 160 events at the leased facility;
- For a thoroughbred permitholder, the conduct of at least 40 live regular wagering performances during the preceding year; and
- For a permitholder restricted by statute to certain operating periods within the year when other similar permitholders are authorized to operate throughout the year, the specified number of live performances which constitute a full schedule of live racing or games is calculated pro rata based on the authorized operating period and the full calendar year, and the resulting number of live performances is the full schedule of live games for such permitholder and all other permitholders of the same class within 100 air miles of such permitholder.[82]

A "performance" is a minimum of eight consecutive live races.[83] At least three live performances must be held at a track each week.[84] When a permitholder conducts at least three live performances in a week,[85] it must pay purses (cash prizes to participants) on wagers accepted at the track on certain greyhound races run at other tracks (in Florida or elsewhere).[86] In order to receive an operating license, permitholders must have conducted a full schedule of live racing during the preceding year.[87]

If a permitholder does not conduct all of the performances specified in its operating license, the division may determine whether to fine the permitholder or suspend[88] the license, unless the failure is due to certain events beyond the permitholder's control. Financial hardship itself is not an acceptable basis to avoid a fine or suspension.[89]

[82] *See* s. 550.002(11), F.S.
[83] Section 550.002(25), F.S.
[84] Section 550.002(11), F.S.
[85] The performances may be during the day or in the evenings, as set forth in the schedule that is part of the operating license issued by the division.
[86] Section 550.09514(2)(c), F.S.
[87] Section 550.002(11), F.S. In accordance with s. 550.002(38), F.S., a full schedule of live racing is calculated from July 1 to June 30, the state fiscal year.
[88] After Jefferson County Kennel Club failed to conduct scheduled performances, its operating license was suspended September 22, 2014 under a consent order a*vailable at* http://www.myfloridalicense.com/dbpr/pmw/documents/Licenses/PMW--Consent Order--JEFFERSON_COUNTY_KENNEL_CLUB_INC--146--2014-09-23--20141023.pdf (last visited Jan. 11, 2018).
[89] Section 550.01215(4), F.S.

The conduct of a full schedule of live racing or games is a condition of licensure for a slot machine licensee,[90] and the conduct of a minimum number of live races is a condition of renewal for a cardroom license.[91]

Leasing of Pari-mutuel Facilities

Section 550.475, F.S., allows a pari-mutuel permitholder licensed to conduct jai alai games, greyhound racing, or thoroughbred and harness horse racing to lease any and all of its facilities to any other permitholder of a same class, when located within a 35-mile radius of each other, and the lessee is entitled to a permit and license to operate its race meet or jai alai games at the leased premises.

Effect of Proposed Changes:

License Applications by Permitholders and Decoupling

Section 4 amends s. 550.01215, F.S., relating to operating license applications filed annually with the division by pari-mutuel permitholders for licenses for the next fiscal year (July 1 through June 30).

In general, permitholders, including those that do not conduct live performances, are required to file an application for a license to conduct pari-mutuel wagering, including intertrack wagering and simulcast wagering. Permitholders accepting wagers on intertrack and simulcast events are required to disclose the dates of all those events in their license application. For the 2018-2019 Fiscal Year only, the division may approve changes in racing dates for permitholders, if the requests are received before May 31, 2018.

Greyhound Racing Permitholders

Certain greyhound racing permitholders[92] are authorized to irrevocably elect, within 36 months after the bill's effective date, not to conduct live racing (i.e., decouple), while they continue to operate their licensed slot machine facilities and/or cardrooms, if any, pursuant to ch. 551, F.S., and s. 849.086, F.S., as amended by the bill.

Decoupled greyhound permitholders retain their pari-mutuel permits, are pari-mutuel facilities as defined in s. 550.002(23), and remain eligible, but not required, to be a guest track for purposes of intertrack wagering and simulcasting. Decoupled greyhound permitholders may receive an operating license to conduct pari-mutuel wagering activities at another permitholder's racing facility pursuant to s. 550.475.

Jai Alai, Harness Horse Racing and Quarter Horse Racing Permitholders

Section 4 provides that jai alai permitholders, harness horse racing permitholders and quarter horse racing permitholders that have conducted live racing or games for at least five years may

[90] Section 551.104(4)(c), F.S.
[91] Section. 849.086(5)(b), F.S.
[92] Those that conducted a full schedule of live racing for a period of at least 10 consecutive state fiscal years after the state Fiscal Year 1996-1997, or that converted a permit to a permit to conduct greyhound racing after that state fiscal year.

discontinue live racing (i.e., decouple), if the irrevocable election to discontinue live racing is made within 36 months after the effective date of the bill.

A jai alai permitholder, harness horse racing permitholder or quarter horse racing permitholder that makes the irrevocable election to decouple retains its permit and is a pari-mutuel facility as defined in s. 550.002(23), F.S.

A decoupled harness horse racing permitholder is eligible, but not required, to be a *host* track for purposes of intertrack wagering and simulcasting; a decoupled jai alai permitholder or quarter horse racing permitholder is eligible, but not required, to be a *guest* track for purposes of intertrack wagering and simulcasting.

Section 4 provides that a decoupled jai alai permitholder, decoupled harness horse racing permitholder, or decoupled quarter horse racing permitholder may continue to operate its slot machine facility, if any, and cardroom, if any, pursuant to ch. 551, F.S., and s. 849.086, F.S., as amended by the bill.

If the 2018 Gaming Compact between the Seminole Tribe and the state, which is ratified in Section 1 of this bill, becomes effective, the provisions in this bill relating to decoupling will not cause any impact to the revenues to be paid to the state by the Seminole Tribe because the decoupling of greyhound racing permitholders, jai alai permitholders, quarter horse racing permitholders and harness horse racing permitholders is permitted under that compact and is not a violation of the exclusivity granted to the Seminole Tribe under that compact.

Prohibition on Issuance of Additional Pari-Mutuel Permits, Revocation of Dormant Permits, and Repeal of the Authority to Issue New Summer Jai Alai Permits

Present Situation

The permit of a harness horse permitholder or thoroughbred horse permitholder that does not pay tax on handle for live performances for a full schedule of live races during any two consecutive state fiscal years is void and escheats to and becomes property of the state, unless the failure to operate and pay tax on handle is the direct result of fire, strike, war, or other disaster or event beyond the ability of the permitholder to control.[93] Financial hardship of the permitholder does not constitute just cause for either failure.[94]

An escheated harness horse permit or thoroughbred horse permit must be reissued by the division to a qualified applicant, using the procedures mandated for issuance of an initial permit. The requirements for a referendum before issuance of a pari-mutuel permit do not apply to reissuance of an escheated harness horse or thoroughbred horse permit.[95]

Pursuant to s. 550.054(9)(b), F.S., the division may revoke or suspend any permit or license upon the willful violation by the permitholder or licensee of any provision of ch. 550, F.S., or any administrative rule adopted by the division.

[93] *See* s. 550.09512(3), F.S. and s. 550.09515(3), F.S.
[94] *Id.*
[95] *See* ss. 550.09512(3)(b) and 550.09515(3)(b), F.S.

Section 550.0745, F.S., authorizes, under certain circumstances, the conversion of a pari-mutuel permit to a summer jai alai permit, for the conduct of jai alai games only during the summer season. Provisions of law prohibiting the location and operation of jai alai frontons within a specified distance from the location of another jai alai fronton or other permitholder, which prohibit the division from granting any permit at a location within a certain designated area, are inapplicable to summer jai alai permits issued pursuant to s. 550.0745, F.S.

The issuance of limited thoroughbred racing permits (through conversion from a quarter horse permit) is authorized in s. 550.3345, F.S. A limited thoroughbred racing permit authorizes the conduct of live thoroughbred horseracing, with net revenues dedicated to the enhancement of thoroughbred purses and breeders', stallion, and special racing awards under ch. 550, F.S., promotion of the thoroughbred horse breeding industry, and the care of retired thoroughbred horses in Florida.

Effect of Proposed Changes:

Section 5 amends s. 550.054, F.S., relating to applications for pari-mutuel wagering permits, to:

- Require the division to revoke a permit if the permitholder: (a) has not obtained an operating license for a period of more than 24 consecutive months after June 30, 2012, or (b) fails to make payments for taxes due on handle for more than 24 months, unless the failure to obtain an operating license was the direct result of fire, strike, war, or other disaster or event beyond the permitholder's control. Financial hardship of the permitholder does not constitute just cause for either failure. A revoked permit may not be reissued.
- Provide that a new pari-mutuel permit may not be approved or issued after January 1, 2018.
- Provide that a pari-mutuel license may not be transferred or reissued so as to change the location of a pari-mutuel facility, cardroom, or slot machine facility.
- Delete authority for the transfer of a thoroughbred permit to another racetrack and for conversion of a jai alai permit to a greyhound racing permit, except through the relocation of the pari-mutuel permit pursuant to s. 550.0555, F.S.
- Repeal provisions authorizing conversion and relocation of pari-mutuel permits, cardrooms, or slot machine facilities.

Section 6 repeals s. 550.0745, F.S., relating to summer jai alai permits.

Sections 7 and **8** amend s. 550.09512, F.S., relating to harness horse racing, and s. 550.09515, F.S., relating to thoroughbred racing, respectively, to:

- Require the division to revoke a harness or thoroughbred horse racing permit that has not paid the tax due on the handle for a full live schedule of harness or thoroughbred racing for more than 24 consecutive months, unless the failure to operate and pay tax was the direct result of fire, strike, war, or other disaster or event beyond the permitholder's control. A revoked permit is void and may not be reissued.
- Repeal a provision allowing reissuance of a revoked harness or thoroughbred horse permit that has been revoked for nonpayment of taxes.

Section 9 amends s. 550.3345, F.S., to delete provisions authorizing conversion of quarter horse racing permits to limited thoroughbred racing permits.

Limited Intertrack Wagering License

Present Situation:

Under s. 550.6308, F.S., a limited amount of intertrack wagering is authorized for one permanent thoroughbred sales facility.[96] To qualify for a license, the facility must have at least 15 days of thoroughbred horse sales at a permanent sales facility in this state for at least three consecutive years. Additionally, the facility must have conducted at least one day of nonwagering thoroughbred racing in this state, with a purse structure of at least $250,000 per year for two consecutive years before application for a license.

A limited intertrack wagering licensee is limited to conducting intertrack wagering during:
- The 21 days in connection with thoroughbred sales;
- Between November 1 and May 8;
- Between May 9 and October 31, if:
  1. No permitholder within the county is conducting live events;
  2. Permitholders operating live events within the county consent; or
  3. For the weekend of the Kentucky Derby, the Preakness, the Belmont, and a Breeders' Cup Meet.

The licensee is further limited to intertrack wagering on thoroughbred racing unless all permitholders in the same county consent. [97] The licensee must pay 2.5 percent of total wagers on jai alai or greyhound racing to thoroughbred permitholders operating live races for purses.[98]

Effect of Proposed Changes:

Section 10 amends s. 550.6308, F.S., to:
- Reduce the required number of days of sales to eight days from fifteen days; and
- Remove the requirement to conduct at least one day of nonwagering thoroughbred racing with a $250,000 purse per year for two consecutive years.

Certain restrictions and requirements for intertrack wagering are deleted, including requirements that intertrack wagering may be conducted:
- For up to 21 days in connection with sales;
- Between November 1 and May 8;
- Only with the consent of other permitholders that run live racing in the county, between May 9 and October 31; and
- During the weekend of the Kentucky Derby, the Preakness, the Belmont, and a Breeders' Cup Meet conducted after May 8 and before November 1.

The following requirements imposed on the limited intertrack wagering permitholder are deleted:

[96] Section 550.6308, F.S.
[97] *See* s. 550.6308(4), F.S.
[98] *See* s. 550.6308(5), F.S.

- That intertrack wagering must be conducted only on thoroughbred racing unless the consent of all thoroughbred, jai alai, and greyhound racing permitholders in the same county is obtained; and
- That a contribution to a purse pool of 2.5 percent be made for intertrack wagering on greyhound or jai alai.

Slot Machine Gaming and Decoupling (Sections 11 and 12)

Present Situation:

Chapter 551, F.S., authorizes slot machine gaming at the location of certain licensed pari-mutuel locations in Miami-Dade County or Broward County and provides for state regulation.[99] Currently eight facilities in Miami-Dade and Broward counties are authorized to operate slot machines. Voters in each county approved slot machine facilities after an amendment to the state Constitution was approved in 2004.[100]

As of January 1, 2018, eight additional counties have approved slot machine gaming by countywide referendum since January 1, 2012: Brevard, Duval, Gadsden, Hamilton, Lee, Palm Beach, St. Lucie, and Washington.

In 2017, the Florida Supreme Court determined, in *Gretna Racing, LLC v. Department of Business and Professional Regulation, Division of Pari-mutuel Wagering,*[101] that the powers granted by the State Constitution to non-charter counties[102] does not authorize the conduct of referenda to approve slot machine gaming in those counties, and upheld the division's denial of the slot machine license sought by Gretna Racing, a quarter horse permitholder.[103] Gretna Racing's facilities are located in Gadsden County, which held a countywide non-binding vote, in which a majority of the voters favored slot machines at pari-mutuel facilities in the county.[104]

In *Gretna*, the Florida Supreme Court did not reach the question of whether the powers granted to charter counties by the State Constitution authorize the conduct of referenda to approve slot machine gaming in charter counties, however, the issue is pending in the 4th District Court of Appeal.[105]

Effect of Proposed Changes:

Section 11 amends the term "eligible facility" in s. 551.102(4), F.S., to mean, "any licensed pari-mutuel facility." Certain provisions in this definition are transferred to s. 551.104(2)(a)1. and 2., F.S. *See* **Section 12** of the bill.

---

[99] *See* ch. 551, F.S., relating to the regulation of slot machine gaming at pari-mutuel locations.

[104] *Id*. at p. 1.
[105] *See Investment Corporation of Palm Beach v. Dept. of Bus. & Prof. Reg.*, Case No. 4D15-460, at http://199.242.69.70/pls/ds/ds_docket_search?pnSearchType=1 (last visited Mar. 2, 2018).

Section 12 amends s. 551.104(2), F.S., to authorize the division to approve licenses for the conduct of slot machine gaming at:

- The eight pari-mutuel facilities in Broward County and Miami-Dade County which currently operate slot machines; and
- Pari-mutuel facilities in other counties, if authorized by referendum conducted after January 1, 2012 and on or before September 1, 2018, including pari-mutuel facilities contiguous with property of the qualified project of a public-private partnership between the pari-mutuel permitholder and a responsible public entity.[106]

Applicants for a slot machine license in a county that authorized slot machine gaming in a referendum held after January 1, 2012, and on or before September 1, 2018, must:

- Have conducted a full schedule of live racing or games for two consecutive calendar years immediately preceding its application.
- Pay the required license fee and meets other requirements of ch. 551, F.S.
- Irrevocably surrender one greyhound racing permit or one jai alai permit, issued pursuant to ch. 550, F.S., under which the permitholder, including any previous owner of such permit, conducted a full schedule of live racing or games for not less than the 5 state fiscal years immediately prior to state fiscal year 2018-2019.[107]
- Continue to hold a permit authorizing pari-mutuel wagering at the location at which the applicant intends to operate slot machine gaming, after surrendering such greyhound racing permit or jai alai permit.
- Pay total slot machine taxes and license fees, including a surcharge if necessary, to the State of not less than $10 million in Fiscal Year 2018-2019 and $20 million each fiscal year thereafter.

Section 12 also:

- Revises conditions for licensure and for maintaining continued authority for conducting slot machine gaming to reflect that certain pari-mutuel permitholders are authorized to discontinue conducting live racing or games (i.e., decouple).
- Authorizes a permitholder with a slot machine license to receive an operating license to conduct pari-mutuel wagering activities at another pari-mutuel facility, if the permitholder has operated its live races or games by lease for at least five consecutive years immediately prior to the permitholder's application for a slot machine license; however, the permitholders must be located within 35 miles of each other.[108] *See* s. 551.104(4)(c)1., as amended by the bill.

Section 12 requires a slot machine licensee that chooses not to run a full schedule of live racing or games, (i.e., decouple), to make payments for the benefit of live thoroughbred horse racing purses. If a slot machine licensee is not running a full schedule of live racing or games under its pari-mutuel permit, then the decoupled licensee must remit each month to each qualified

[106] *See* s. 255.065, F.S.; the bill requires execution of a comprehensive agreement pursuant to s. 255.065(7), F.S., relating to project design review, inspection, insurance, financial statement filing, users fees, lease payments, performance bonds, and similar development issues.
[107] After surrender, the permit is void and may not be reissued.
[108] *See* s. 550.475, F.S., and lines 2300 to 2305 of the bill

thoroughbred permitholder, by the fifth day of each calendar month[109] via electronic funds transfer instructions provided by the permitholder, an amount equal to one-twelfth of the lesser of $1.5 million or 2.75 percent of the permitholder's prior fiscal year slots revenue, divided by the total number of qualified thoroughbred permitholders for that fiscal year. A qualified thoroughbred permitholder must use such payments exclusively for purses and awards for live thoroughbred horse races held at that permitholder's racing facility.

The term "qualified thoroughbred permitholder":

- Does not include limited thoroughbred permitholders or thoroughbred permitholders leasing a racetrack facility from another thoroughbred permitholder.
- Includes thoroughbred permitholders conducting no less than a full schedule of live racing, and no fewer than the number of performances conducted in Fiscal Year 2017-2018.

The division must, within 15 days of issuing a slot machine license to a decoupled permitholder, notify the licensee of the qualified thoroughbred permitholders to which payments must be paid. A qualified thoroughbred permitholder that receives those funds must remit, within 10 days of receipt, ten percent of the funds to the Florida Thoroughbred Breeders' Association, Inc., for payment of breeders', stallion, and special racing awards, subject to the fee authorized in s. 550.2625(3), F.S.[110]

The bill disqualifies permitholders from receiving a slot machine license if a permitholder includes, or previously included, an ultimate equitable owner whose permit was voluntarily or involuntarily surrendered, suspended, or revoked by the division within 10 years before the date of the permitholder's application for a slot machine license.

Slot Machines Taxes (Section 13)

Present Situation:

The tax rate on slot machine revenues is 35 percent under s. 550.106(2), F.S. If, during any state fiscal year, the aggregate amount of tax paid to the state by all slot machine licensees in Broward and Miami-Dade counties is less than the aggregate amount of tax paid to the state by all slot machine licensees in the 2008-2009 fiscal year, each slot machine licensee must pay to the state, within 45 days after the end of the state fiscal year, a surcharge equal to its pro rata share of an amount equal to the difference between the aggregate amount of tax paid to the state by all slot machine licensees in the 2008-2009 fiscal year and the amount of tax paid during the fiscal year that resulted in the revenue shortfall. All revenue from slot machine gaming is deposited into the Educational Enhancement Trust Fund of the Department of Education.

Effect of Proposed Changes:

Section 13 amends s. 551.106, F.S., to:

[109] The bill provides if the fifth day of the calendar month falls on a weekend, the payment must be remitted on the first Monday following the weekend.

[110] Section 550.2625(3), F.S, states the Florida Thoroughbred Breeders' Association has the right to withhold up to 10 percent of a permitholder's payments under that section as a fee for administering the payments of awards and for general promotion of the horse racing industry.

- Reduce the tax rate for slot machine revenues to 30 percent, effective January 1, 2019, and to 25 percent effective July 1, 2020.
- Require that if, in any state fiscal year, the aggregate amount of tax paid to the state by all the slot machine licensees in Broward and Miami-Dade counties is less than the aggregate amount paid in the 2017-2018 state fiscal year, each of those licensees must pay a surcharge calculated by dividing the aggregate amount of slot machine taxes paid to the state by all such slot machine licensees in the 2017-2018 fiscal year by the aggregate amount of slot machine taxes paid by all such licensees during the applicable fiscal year, multiplying the result by the amount of slot machine taxes paid by the licensee during the applicable state fiscal year, and then subtracting from that product the amount of slot machine taxes paid by the licensee during the applicable state fiscal year. However, the sum of taxes paid by a licensee at the reduced tax rates and any surcharge may not exceed 35 percent of the licensee's slot machine revenue in the applicable state fiscal year.
- Provide that slot machine revenues from a slot machine licensee associated with a public-private partnership be deposited into the Pari-mutuel Wagering Trust Fund and that 90 percent of those revenues be transferred to the Educational Enhancement Trust Fund and 10 percent be transferred to the responsible public entity for the public-private partnership of the licensee. The funds transferred to the public entity must be used to finance the qualifying project that established the slot machine licensee's eligibility for initial licensure to conduct slot machine gaming.
- Require a permitholder with a slot machine license located in a county that conducted a successful slot machine referendum after January 1, 2012, (and on or before September 1, 2018), to pay at least $10 million in total slot machine taxes and license fees to the state in Fiscal Year 2018-2019, and at least $20 million in total slot machines taxes and license fees to the State in Fiscal Year 2019-2020 and thereafter, regardless of whether the permitholder or licensee operated slot machines during the fiscal year. If those requirements are not satisfied the permitholder must pay a surcharge equal to the difference between those amounts and the aggregate amount of slot machine taxes and license fees paid to the State. The surcharge is due 45 days after the end of each respective fiscal year.
- Remove obsolete language relative to the slot machine license fee for Fiscal Year 2010-2011.

If the 2018 Gaming Compact between the Seminole Tribe and the state, which is ratified in Section 1 of this bill becomes effective, the provisions in this bill relating to the taxation of slot machine revenues will not cause any impact to the revenues to be paid to the state **by the Seminole Tribe** because the reduction of the tax on slot machine revenues is permitted under that compact and is not a violation of the exclusivity granted to the Seminole Tribe under that compact. Slot machine tax revenues are likely to be reduced by this provision.

Slot Machine Gaming Operations

Present Situation:

Sections 551.114 and 551.116, F.S.:
(1) Allow slot machine licensees to make up to 2,000 slot machines available for play within their facilities;
(2) Require slot machine licensees to display pari-mutuel races or games to slot machine patrons in slot machine gaming areas;

(3) Require that slot machine gaming areas be within current live gaming areas or within a building contiguous or connected to the live gaming area; and
(4) Limit slot machine gaming to 18 hours per day, Monday through Friday, and 24 hours on Saturdays and Sundays.

Effect of Proposed Changes:

Section 14 amends s. 551.114, F.S. to:

- Limit the number of slot machines a slot machine licensee whose initial license was issued before January 1, 2018, may make available for play within the property of the licensee's facilities to:
  - 1,600 slot machines, if the licensee made available for play 1,250 or more slot machines during State Fiscal Year 2016-2017.
  - 1,200 slot machines, if the licensee made available for play 1,000 or more slot machines, but less than 1,250 slot machines, during State Fiscal Year 2016-2017.
  - 1,000 slot machines, if the licensee made available for play less than 1,000 slot machines during State Fiscal Year 2016-2017.
- Authorize a slot machine licensee whose initial license was issued on or after January 1, 2018, to make available for play within the property of the licensee's facility up to 750 slot machines. However, the total number of slot machines that may be made available for play by all slot machine licensees whose initial slot machine license was issued after January 1, 2018, may not exceed 6,000 slot machines.

  If the total number of such slot machines would exceed 6,000 slot machines if each such licensee were to operate 750 slot machines, the maximum number of slot machines each such licensee may make available for play may not exceed 6,000 divided by the number of licensees whose initial license was issued after January 1, 2018.

In addition, **Section 14** also amends ss. 551.114(2) and (4), F.S., to provide:

- Pari-mutuel races or games must be displayed to slot machine patrons in slot machine gaming areas, if such races or games are available to the slot machine licensee; and
- Designated slot machine gaming areas must be located anywhere within the property described in a slot machine licensee's pari-mutuel permit.

Section 15 amends s. 551.116, F.S., to allow slot machine facilities to operate 24 hours a day.

Cardrooms and Designated Player Games (Section 16)

Present Situation:

Chapter 849, F.S., authorizes cardrooms at certain pari-mutuel facilities.[111] In Fiscal Year 2017-2018, 25 cardrooms are authorized to operate.[112] Cardrooms are operated by 14 greyhound permitholders, five jai alai permitholders, one harness horse racing permitholder, three quarter

[111] Section 849.086, F.S. Section 849.086(2)(c), F.S., defines "cardroom" to mean a facility where authorized games are played for money or anything of value and to which the public is invited to participate in such games and charges a fee for participation by the operator of such facility.
[112] *See* http://www.myfloridalicense.com/dbpr/pmw/PMW-PermitholderOperatingLicenses--2017-2018.html (last visited Jan. 11, 2018).

horse racing permitholders, and two thoroughbred racing permitholders.[113] A license to offer pari-mutuel wagering, slot machine gaming, or a cardroom at a pari-mutuel facility is a privilege granted by the state.[114] A cardroom may be open 18 hours per day on Monday through Friday, and 24 hours per day on Saturday and Sunday.[115]

Section 849.086, F.S., provides that a licensed pari-mutuel permitholder that holds a valid pari-mutuel permit and license to conduct a full schedule of live racing or games may hold a cardroom license authorizing the operation of a cardroom and the conduct of authorized games at the cardroom. An authorized game is a game or series of games of poker or dominoes.[116] Such games must be played in a non-banking manner,[117] where the participants play against each other, instead of against the house (cardroom). At least four percent of the gross cardroom receipts of greyhound racing permitholders and jai alai permitholders must supplement greyhound purses, and quarter horse permitholders must have a contract with a horsemen's association governing the payment of purses on live quarter horse races conducted by the permitholder.[118]

Renewal of a cardroom license requires that a permitholder must, in its annual pari-mutuel license application, request to conduct at least 90 percent of the performances conducted either (1) in the year in which its first cardroom license was issued, or (2) in the state fiscal year immediately prior to the application if a full schedule of live racing was conducted ("90 percent rule").[119] If more than one permitholder is operating at a facility, each permitholder must have applied for a license to conduct a full schedule of live racing.[120]

Eleven of the 12 greyhound racing locations have cardrooms. As a result of the "90 percent rule," the required minimum of live performances varies among greyhound racing permitholders, from 93 to 394 performances.[121]

There is only one harness horse racing permitholder, and it has a cardroom. The permitholder must request authorization to conduct a minimum of 140 live performances during the state fiscal year immediately prior to its application for an operating license.[122] As a result of the "90 percent

---

[113] Cardroom locations, by class of permit held are: (1) greyhound racing: Bonita Springs (Lee Co.), Daytona Beach (Volusia Co.), Ebro (Washington Co.), Hallandale Beach (Broward Co.), Melbourne (Brevard Co.), Miami (Miami-Dade Co.) Orange Park (Clay Co.), Pensacola (Escambia Co.), St. Petersburg (Pinellas Co.), and West Palm Beach (Palm Beach. Co.); (2) jai alai: Dania Beach (Broward Co.), Ft. Pierce (St. Lucie Co.), Florida City and Miami (Miami-Dade Co.), and Reddick (Marion Co.); (3) quarter horse: Gretna (Gadsden), Hialeah (Miami-Dade Co.) and Summerfield (Marion Co.); and (4) thoroughbred racing: Hallandale Beach (Broward Co.), and Tampa (Hillsborough Co.).

[114] *See* s. 550.1625(1), F.S., "…legalized pari-mutuel betting at dog tracks is a privilege and is an operation that requires strict supervision and regulation in the best interests of the state." *See also Solimena v. State,* 402 So.2d 1240, 1247 (Fla. 3d DCA 1981), review denied, 412 So.2d 470, which states "Florida courts have consistently emphasized the special nature of legalized racing, describing it as a privilege rather than as a vested right," citing *State ex rel. Mason v. Rose,* 122 Fla. 413, 165 So. 347 (1936).

rule," the required minimum of live performances for the harness horse racing permitholder is 126 performances.[123]

Five of the six jai alai permitholders have cardrooms. As a result of the "90 percent rule," the required minimum of live performances varies among jai alai permitholders, from 36 to 150 performances.[124]

Three of the five quarter horse permitholders have cardrooms. As a result of the "90 percent rule," the required minimum of live performances varies among quarter horse permitholders, from 18 to 40 performances.[125]

Two of the three thoroughbred permitholders have cardrooms. As a result of the "90 percent rule," the required minimum of live performances varies among thoroughbred racing permitholders, from 40 to 81 performances.[126]

If more than one permitholder is operating at a facility, each permitholder must have applied for a license to conduct a full schedule of live racing.[127]

State Litigation Challenging DBPR's Administrative Rules Relating to Designated Player Games

In July 2014, the Division of Pari-Mutuel Wagering (division) of the Department of Business and Professional Regulation (DBPR) adopted two administrative rules relating to the play of Designated Player Games.[128] Under the rules, a designated player game is not authorized if it is not played in compliance with house rules required to be available for review by players or the division, which must:

- Establish uniform requirements to be a designated player;
- Ensure that the dealer button rotates clockwise around the card table for each hand, so that all players desiring to be a designated player have the opportunity to do so; and
- Not require the designated player to cover all potential wagers.[129]

Banking games are defined in current law as those in which the house is a participant.[130] Designated player[131] games, if conducted as defined in Rule 61D-11.002(5), Florida Administrative Code, were not considered by the DBPR to be banking games.

The division pursued additional rulemaking concerning Designated Player Games in September 2014, to "address issues discovered in the implementation and practical application of [the July

[130] Section 849.086(2)(b), F.S.
[131] Fla. Admin. Code R. 61D-11.001(17) (2018) defines "designated player" as the "player identified by the button as the dealer in the player position."

2014] cardroom rules."[132] In October 2015, the division proposed to repeal the rule defining the term "designated player" as "the player identified by the button in the dealer position" and the rule establishing the standards for Designated Player Games.[133]

Various cardroom operators challenged the repeal of the rules in December 2015. In August 2016, Administrative Law Judge Gary Early of the Division of Administrative Hearings found:

> The evidence is conclusive that, by its repeal of rule 61D-11.002(5), Respondent simply changed its mind as to whether playing with a designated player constituted the establishment of a prohibited banking game. [Footnote omitted.] It previously determined that such games were lawful under the terms of section 849.086 [F.S.]; it has now determined they are not.[134]

Judge Early determined the division:

> Has taken divergent views of the statute in a manner that has substantially affected the interests of [cardroom operators]. For [the division] to suggest that its repeal of the rules is a clarification, a simplification, or reflection of the unambiguous terms of the statute, and that [the cardrooms] should just tailor their actions to the statute without any interpretive guidance from [the division], works contrary to the role of government to provide meaningful and understandable standards for the regulation of business in Florida. [The division] cannot, with little more than a wave and well-wishes, expect regulated businesses to expose themselves to liability through their actions under a statute that is open to more than more one interpretation, when the agency itself has found it problematic to decipher the statute under which it exercises its regulatory authority.[135]

In November 2017, the Florida First District Court of Appeal (DCA) affirmed Judge Early's ruling that the proposed repeal of the Designated Player Games rules was invalid.[136] The DCA stated the ruling correctly found that repeal of the rules was a rule itself because it was a change of the DBPR's policy on Designated Player Games[137] However, the DCA declined to adopt Judge Early's finding that the division "lacked the authority to either promulgate or to repeal rules" on Designated Player Games, noting that the role of the division "is to provide meaningful and understandable standards for cardrooms, particularly where a statute is ambiguous."[138]

Federal Litigation Concerning the 2010 Gaming Compact and Banked Card Games (including Player Banked Card Games with a Designated Player) and Settlement

As discussed above in connection with the 2018 Gaming Compact authorized in this bill, the state and the Seminole Tribe were parties to litigation in federal court relating to the offering of table games by the Seminole Tribe after July 31, 2015.
As to the banked card games issue, Judge Hinkle found:

- The 2010 Gaming Compact defines 'Covered Games' to include 'banking or banked card games, including baccarat, chemin de fer, and blackjack (21);[139]
- Under s. 849.086, F.S., licensed pari-mutuel facilities may operate cardrooms, but the statute explicitly forbids "banking" card games;[140]
- Baccarat, chemin de fer, and blackjack are all games in which there is no common pot, and the players do not compete against one another;
- A bank pays the winners and collects from the losers;
- In baccarat and blackjack, the bank is most often a dealer employed by the facility – in effect, the facility itself, commonly denominated the 'house;'
- In chemin de fer, the bank is always one of the players; and
- Under the 2010 Gaming Compact and [Indian Game Regulatory Act], banked games include both house banked games and player-banked games.[141]

Section 849.086(2)(b), F.S., defines a 'banking game' as a game in which:

- The house is a participant in the game, taking on players, paying winners, and collecting from losers; or
- The cardroom establishes a bank against which participants play.

The court found that:

- The first part of the definition in [1] describes a house banked game, one played in the manner that is typical for blackjack and baccarat;
- The second part of the definition in [2] describes a game banked by anyone else, including a player; that is, a game played in the manner of chemin de fer;[142]
- When the cardroom devises and runs the game and sets the rules, including the requirement that a player act as the bank, the cardroom 'establishes' a bank;

[139] *See Seminole Tribe of Florida v. State of Florida, 219 F.Supp. 3d 1177 (N.D. Fla. Nov. 9, 2016), Case No.: 4:15-cv-516-RH/CAS, Document 103,* at pp. 4-5.
[140] *Id*. at p. 5, and *see* s. 849.086(12)(a), F.S. The court further held "[b]ecause of this statute, the Tribe's authority under the Compact to conduct banked card games afforded the Tribe the right to conduct bank card games without competition from cardrooms. This was perhaps the most important benefit the Tribe obtained under the Compact. **The most important benefit to the State was more than a billion dollars.** Because IGRA prohibits a state from receiving a share of a tribe's gaming revenue except to defray expenses or in exchange for a benefit conferred on the tribe, **the Tribe's billion-dollars-plus payments to the State under the Compact were justified in large part as compensation for the exclusive right to conduct banked card games** – exclusive, that is, except for any competition from other tribes or other types of games." *Id.* at pp. 5-6. (Emphasis added.)
[141] *See Seminole Tribe of Florida v. State of Florida*, Case No.: 4:15-cv-516-RH/CAS (U.S.D.C. N.D. Fla.), Document 103, filed Nov. 9, 2016, at p. 9.
[142] *Id*. at p. 10.

- Florida law does not state that a game is not 'banked' when the bank is a player rather than the house;
- There were no player-banked card games at pari-mutuel cardrooms when the parties entered into the 2010 Gaming Compact;
- The parties did not expect the Seminole Tribe to have to compete against such games; and
- The DBPR permitted cardrooms to conduct banked games as early as 2011, formally approved the practice by adopting a rule in 2014, continues to permit the games, and asserts the rule is currently valid.

After the DBPR's appeal of Judge Hinkle's decision,[143] the Seminole Tribe and the DBPR entered into a Settlement Agreement and Stipulation (2017 Settlement) on July 5, 2017.[144]

Authorization of Designated Player Games in Florida (i.e., player banked card games with a designated player) could affect the revenue sharing provisions of the 2010 Gaming Compact[145] Judge Hinkle found Designated Player Games to be banked card games, a form of Class III gaming. The Settlement Agreement that the state entered with the Seminole Tribe provides that Judge Hinkle's findings of fact and conclusions of law are binding on the State and the Seminole Tribe. Accordingly, payments due to the state under the 2010 Compact could cease.[146]

Additionally, the Tribe would also be authorized to offer Designated Player Games, because each compact provides the Tribe is authorized to offer "any new game authorized by Florida law for any person for any purpose.[147]

If the 2018 Gaming Compact between the Seminole Tribe and the state, which is ratified in Section 1 of this bill, becomes effective, the provisions in this bill relating to Designated Player Games will not cause any impact to the revenues to be paid to the state by the Seminole Tribe because the games are permitted under that compact and are not a violation of the exclusivity granted to the Seminole Tribe under that compact.

Effect of Proposed Changes:

Section 16 amends s. 849.086, F.S., to:

- Provide that a Designated Player Game is not a banking game, and that a designated player is the player in the dealer position seated at a traditional player position who pays winning players and collects from losing players.

- Define "Designated Player Game" as "a game in which the players compare their cards only to the cards of the designated player or to a combination of cards held by the designated player and cards common and available for play by all players."
- Repeal the "90 percent rule" in existing law mandating the minimum number of races that must be conducted by a permitholder to renew a cardroom license.
- Require that a permitholder conducting less than a full schedule of live racing or games make payments for the benefit of live thoroughbred horse racing purses. If a cardroom licensee is not running a full schedule of live racing or games under its pari-mutuel permit, then the decoupled licensee must remit each month to each qualified thoroughbred permitholder, an amount equal to four percent of the permitholder's monthly cardroom gross receipts divided by the total number of qualified thoroughbred permitholders for that fiscal year.
- The required uses of those payments, the requirements for making those payments and the definition of the term "qualified thoroughbred permitholder" are the same as those applicable to the payments decoupled pari-mutuel permitholders that have a slot machine license must pay for thoroughbred horse racing purses under this bill.
- Require the division to respond to requests from a licensed cardroom within 45 days for approval of a cardroom's internal controls or the rules for a new authorized game, or provide a list of deficiencies. The division has ten days after receipt of revised internal controls or rules for a new game addressing the deficiencies identified by the division to approve or reject the revised internal controls or rules.[148]
- Allow cardrooms to operate 24 hours a day.
- Authorize cardroom operators to offer Designated Player Games, at not more than 50 percent of the total licensed tables in a cardroom.
- Provide a cardroom operator may not serve as a designated player but may collect a table rake as posted at the table.
- Provide, if there are multiple designated players at a table, the dealer button must be rotated clockwise after each hand.
- Provide that a cardroom operator may not allow a designated player to pay an opposing player who holds a lower ranked hand.
- Provide that any designated player may not be required by the rules of a game or by the rules of a cardroom to cover more than 10 times the maximum wager for opposing players.
- Prohibit a cardroom, or any cardroom licensee, from contracting for or receiving compensation other than a posted table rake from any player to participate in any game to serve as a designated player.
- Require employees of a designated player be licensed, and a designated player pay, in addition to the cardroom business occupational fee, an employee occupational fee which may not exceed $500.00 per employee annually.

If the 2018 Gaming Compact between the Seminole Tribe and the state, which is ratified in Section 1 of this bill, becomes effective, the provisions in this bill relating to Designated Player Games at cardrooms will not cause any impact to the revenues to be paid to the state by the Seminole Tribe because the authorization for Designated Player Games is permitted under that

[148] According to the DBPR's Office of General Counsel, the terms "requests from a licensed cardroom" and "submission" in the bill "may create ambiguity in their application." *See 2018 Agency Legislative Bill Analysis (AGENCY: Department of Business and Professional Regulation)* for SB 840, dated Jan. 9, 2018 (on file with Senate Committee on Regulated Industries) at page 8.

compact and is not a violation of the exclusivity granted to the Seminole Tribe under that compact.

Definition of Slot Machines or Devices

Present Situation:

Slot machine gaming is lawful only in licensed slot machine facilities at pari-mutuel facilities located in Broward and Miami-Dade counties.[149] At issue in recent litigation is whether certain games, popularly known as pre-reveal games, are illegal slot machines.[150] The machines involve a "multiple game system with a preview feature" requiring a player to press a preview button that displays the outcome of the game before play may begin. The preview button shows the outcome of the next game but not the game after that. The circuit court concluded that pre-reveal machines are illegal slot machines, and an appeal of the case is now pending.[151]

Effect of Proposed Changes:

Section 17 amends the definition of "slot machine or device" in ch. 849, F.S., relating to gambling, to prohibit pre-reveal games.

Effective Date

The bill takes effect upon becoming a law.

Pari-Mutuel Decoupling

The ending of live racing will reduce required daily license fees and taxes on wagering paid by pari-mutuel permitholders that decouple. According to the Department of Business and Professional Regulation (DBPR), the bill's fiscal impact to state government revenues is indeterminate.[152] The Revenue Estimating Conference (REC) has not analyzed this provision of the bill.

Authorization of Slot Machine Gaming in Additional Counties

The bill requires each permitholder in a county that conducted or conducts a successful referendum to authorize slot machine gaming to pay at least $10 million in total slot machine taxes and license fees to the State in Fiscal Year 2018-2019, and at least $20 million in total slot machines taxes and license fees to the State in Fiscal Year 2019-2020 and each fiscal year thereafter, regardless of whether the permitholder or licensee operated slot machines during the fiscal year. If those requirements are not satisfied, each permitholder must pay a surcharge equal to the difference between those amounts and the aggregate amount of slot machine taxes and license fees paid to the State.

Purse Supplements by Decoupled Slot Machine Licensees

None.

Slot Machine Tax Rate Reduction

The REC has not analyzed this bill, but staff expects the impact of this provision of the bill to be loss of $4.1 million on a recurring basis in slot machine revenue. Under current law and current administration, the REC forecasts[153] slot machine revenues to increase by 2.1 percent in Fiscal Year 2018-2019, and by 1.2 percent annually thereafter, growing from $191.9 million in Fiscal Year 2017-2018 to $205.0 million in Fiscal Year 2022-2023. The bill will result in a loss of the growth in slot machine revenue deposited in the Educational Enhancement Trust Fund.

Authorization of Designated Player Games

None.

B. Private Sector Impact:

The bill authorizes certain fantasy contests to be offered by fantasy contest operators, who will retain amounts participants pay as entry fees to participate in fantasy contests.

[152] *See 2018 Agency Legislative Bill Analysis (AGENCY: Department of Business and Professional Regulation)* for SB 840, dated Jan. 9, 2018 (on file with Senate Committee on Regulated Industries) at page 6.
[153] *See Revenue Estimating Conference Slot Machine Tax January 2018* at http://edr.state.fl.us/Content/conferences/slotmachines/SlotsResults.pdf (last visited Feb. 7, 2018).

Persons who pay entry fees to participate in fantasy contests have the opportunity to win prizes and awards.

The ending of live racing will reduce required daily license fees and taxes on wagering paid by pari-mutuel permitholders that decouple.

The bill reduces the tax rate on slot machine gaming revenue effective January 1, 2019, but also requires that the existing Broward and Miami-Dade slot machine facilities pay, in each year, at least as much as they paid in Fiscal Year 2017-2018.

The bill requires each permitholder in a county that conducted or conducts a successful referendum to authorize slot machine gaming to pay at least $10 million in total slot machine taxes and license fees to the State in Fiscal Year 2018-2019, and at least $20 million in total slot machines taxes and license fees to the State in Fiscal Year 2019-2020 and each fiscal year thereafter, regardless of whether the permitholder or licensee operated slot machines during the fiscal year. If those requirements are not satisfied, each permitholder must pay a surcharge equal to the difference between those amounts and the aggregate amount of slot machine taxes and license fees paid to the State.

As to Designated Player Games, the bill:

- Provides a Designated Player Game is not a banking game.
- Sets requirements and limitations for a Designated Player Game.
- Limits the number of Designated Player Game tables in a cardroom to not more than 50 percent of the cardroom's total licensed tables.
- Grants additional rulemaking authority to the DBPR's Division of Pari-Mutuel Wagering (division) relating to requests from licensed cardrooms and imposes deadlines for response by the division to submissions by cardroom licensees relating to rules for new authorized games, revisions to internal controls, and revisions to rules for games.

C. Government Sector Impact:

The REC has not adopted an official estimate of the impact of this bill, but based on preliminary analysis, if the 2018 Gaming Compact between the Seminole Tribe of Florida and the state, which is ratified in Section 1 of this bill, becomes effective, the state would cease to receive payments under the 2010 Gaming Compact and would receive the following revenue from the Seminole Tribe in the fiscal years indicated:

Fiscal Year	Revenue Share (in millions)
2018-2019	$325
2019-2020	350
2020-2021	375
2021-2022	425
2022-2023	475
2023-2024	500
2024-2025	550

In total, during the seven years of the Guarantee Payment Period, the state would receive $619.4 million more in payments from the Seminole Tribe under the 2018 Gaming Compact than the Revenue Estimating Conference (REC) projects will be received under the 2010 Gaming Compact for the same period.

During Fiscal Year 2018-2019, the amount the state would receive under the 2018 Gaming Compact would be an increase of $2.2 million above the amount the REC projects will be received under the 2010 Gaming Compact. In Fiscal Year 2019-2020, the state would receive $21.3 million more under the 2018 Gaming Compact than the amount the state is projected to receive under the 2010 Gaming Compact.

If the 2018 Gaming Compact authorized in Section 1 of this bill does not become effective, the bill may significantly impact the Revenue Share Payments[154] required to be paid by the Seminole Tribe of Florida under the 2010 Gaming Compact.

Under current law and current administration, and assuming the state does not violate the "exclusivity" requirements in the current Compact, the REC estimates that during Fiscal Year 2017-2018 $280.4 million revenue will be received from the Seminole Tribe associated with the 2010 Gaming Compact, of which $276.9 million will accrue to the General Revenue Fund and $3.5 million will be distributed to local governments as required by s. 285.710(10), F.S. During Fiscal Year 2018-2019, the REC estimates revenue associated with the 2010 Gaming Compact will be $391.1 million, of which $382.4 million will accrue to the General Revenue Fund and $8.7 million will be distributed to local governments. The REC estimates the revenue associated with the 2010 Gaming Compact will increase to $361.4 million for Fiscal Year 2025-2026.[155]

The REC currently classifies all future Revenue Share Payments to be paid by the Seminole Tribe to the state under the 2010 Gaming Compact as nonrecurring revenue because the continuation of these payments depends on actions by the state and the Seminole Tribe "that cannot be anticipated with sufficient certainty."[156]

Fantasy Contests

If the 2018 Gaming Compact between the Seminole Tribe and the state does not become effective, and if fantasy contests permitted under the bill constitute gaming, are considered Class III gaming under federal law, and constitute, under the 2010 Gaming Compact, *new* Class III gaming in Florida, then the payments due to the state under the 2010 Gaming Compact could end when fantasy contests begin to be offered for public or private use.[157]

---

[154] Revenue Share Payments are the periodic payments to the State by the Seminole Tribe, based on the Tribe's Net Win. Net Win is defined as total receipts from the play of authorized tribal gaming in Florida, less all prizes, free play, or promotional credits. *See* paragraphs U and X of Part III of the 2010 Gaming Compact at page 11 at http://www.myfloridalicense.com/dbpr/pmw/documents/2010_Compact-Signed1.pdf (last visited Jan. 11, 2018).

[155] *See* the estimates for multiple fiscal years in the *Conference Results, Indian Gaming Revenues* at http://edr.state.fl.us/Content/conferences/Indian-gaming/IndianGamingResults.pdf (last visited Feb. 8, 2018).

[156] *Id.*

[157] *See* paragraph A of Part XII of the 2010 Gaming Compact at pages 39-40 at http://www.myfloridalicense.com/dbpr/pmw/documents/2010_Compact-Signed1.pdf (last visited Jan. 11, 2018); the Revenue

In a letter to Senator Travis Hutson and Representative Mike La Rosa dated December 5, 2017,[158] Jim Shore, General Counsel for the Seminole Tribe, indicated the Tribe believes the games permitted by HB 223 and SB 374 (Fantasy Contests), and SB 840 (Gaming) would violate the Tribe's exclusivity, as set forth in Part XII of the 2010 Gaming Compact between the State and Tribe. The stated purpose of the letter was to avoid enactment of legislation "that inadvertently violates the Tribe's exclusivity." Mr. Shore noted "federal law requires that any reduction in the Tribe's exclusivity must be balanced by some additional consideration from the State[, and] without such an agreement, the 2010 Gaming Compact would allow the Tribe to cease all revenue sharing payments to the State based on the expanded gaming contemplated by the referenced bills."

Pari-Mutuel Decoupling

The bill authorizes greyhound racing, harness horse racing, and quarter horse racing permitholders to stop conducting live racing while retaining intertrack and simulcast wagering, cardrooms, and, where relevant, slot machine facilities. The ending of live racing will reduce daily license fees and taxes on wagering payable by pari-mutuel permitholders that decouple. The Revenue Estimating Conference has not analyzed this bill, nor the impacts of ending live racing by greyhound racing permitholders and the various horse racing permitholders in the manner provided in the bill.

According to the Department of Business and Professional Regulation (DBPR), expenditures for licensing and sample collection may be reduced at permitholder facilities that choose to end live racing.[159] The DBPR's Office of General Counsel notes that rulemaking will be necessary to address revisions to permit and license application forms, as well as additional forms relating to the ending of live racing.[160]

Authorization of Slot Machine Gaming in Additional Counties

If the 2018 Gaming Compact authorized in Section 1 of the bill does not become effective, authorization and commencement of slot machine gaming in counties by referendum other than Broward County and Miami-Dade County,[161] as authorized in this bill, could impact the revenue sharing provisions of the 2010 Gaming Compact, as payments due to the state under the compact could cease when the expanded slot machine gaming begins to be offered.[162]

Share Payments and the required annual donation of $750,000 to the Florida Council on Compulsive Gaming must resume when the new Class III gaming is no longer operated.

[158] *See* Letter from Jim Shore, General Counsel for the Seminole Tribe, to Senator Travis Hutson and Representative La Rosa (Dec. 5, 2017) (on file with the Senate Committee on Regulated Industries).

[159] *See 2018 Agency Legislative Bill Analysis (AGENCY: Department of Business and Professional Regulation)* for SB 840, dated Jan. 9, 2018 (on file with Senate Committee on Regulated Industries) at page 6.

[160] *Id*. at page 8.

[161] As of January 1, 2018, eight counties have approved slot machine gaming by countywide referendum since January 1, 2012: Brevard, Duval, Gadsden, Hamilton, Lee, Palm Beach, St. Lucie, and Washington.

[162] *See* paragraph A of Part XII of the 2010 Gaming Compact at pages 39-40 at http://www.myfloridalicense.com/dbpr/pmw/documents/2010_Compact-Signed1.pdf (last visited Jan. 11, 2018).

However, the bill requires each permitholder in a county that conducted or conducts a successful referendum to authorize slot machine gaming to pay at least $10 million in total slot machine taxes and license fees to the state in Fiscal Year 2018-2019, and at least $20 million in total slot machines taxes and license fees to the State in Fiscal Year 2019-2020 and each fiscal year thereafter, regardless of whether the permitholder or licensee operated slot machines during the fiscal year. If those requirements are not satisfied, each permitholder must pay a surcharge equal to the difference between those amounts and the aggregate amount of slot machine taxes and license fees paid to the State. The surcharge is due 45 days after the end of each respective fiscal year.

When the slot machine facilities in additional counties would begin operation and begin paying slot machine taxes and license fees to the State is unknown. Likewise, when the revenues associated with those facilities would be received by the State also is unknown. Currently, eight additional counties (each with one pari-mutuel facility) have conducted successful referenda to authorize slot machine gaming; the bill requires those eight pari-mutuel permitholders to pay not less than $80 million to the State in total slot machine taxes, license fees, and any surcharge not later than August 15, 2019. For State Fiscal Year 2019-2010, the total amount of revenue those eight permitholders are required by the bill to pay the State is not less than $160 million.

Slot Machine Tax Rate Reduction

The bill provides for a slot machine tax rate reduction, which takes effect on January 1, 2019, combined with a requirement that the existing Broward and Miami-Dade slot machine facilities pay, in each year, at least as much as they paid in Fiscal Year 2017-2018, but not to exceed 35 percent of any facility's slot machine revenue. The Revenue Estimating Conference (REC) forecasts[163] that under current law slot machine revenues will increase by 2.1 percent in Fiscal Year 2018-2019, and by 1.2 percent annually thereafter, growing from $191.9 million in Fiscal Year 2017-2018 to $205.0 million in Fiscal Year 2022-2023. The REC has not analyzed this bill, but staff expects the impact of the reduction in the slot machine tax rate to be a loss to the Educational Enhancement Trust Fund of the **growth** in slot machine revenue.

Authorization of Designated Player Games

If the 2018 Gaming Compact authorized in Section 1 of the bill does not become effective, authorization of player banked card games with a designated player, which were determined to be Class III gaming in federal litigation between the state of Florida and the Seminole Tribe of Florida, could impact the revenue sharing provisions of the 2010 Gaming Compact, as payments due to the state under the compact could cease.[164]

[163] *See Revenue Estimating Conference Slot Machine Tax January 2018* at http://edr.state.fl.us/Content/conferences/slotmachines/SlotsResults.pdf (last visited Feb. 7, 2018).
[164] *See* paragraph A of Part XII of the 2010 Gaming Compact at pages 39-40 at http://www.myfloridalicense.com/dbpr/pmw/documents/2010_Compact-Signed1.pdf (last visited Jan. 11, 2018).

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 285.710, 285.712, 550.01215, 550.054, 550.09512, 550.09515, 550.3345, 550.6308, 551.102, 551.104, 551.106, 551.114, 551.116, 849.086, and 849.16.

This bill creates section 546.13 of the Florida Statutes.

This bill repeals section 550.0745 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on March 2, 2018:
The committee substitute:

- Authorizes slot machine facilities in referendum counties (those conducting referenda between January 1, 2012 and September 1, 2018, including counties that undertake a public-private partnership with a pari-mutuel permitholder).
  - Requires a pari-mutuel permitholder seeking one of the new, referendum county slot machine licenses to surrender one ***active*** greyhound or jai alai pari-mutuel permit and still hold a pari-mutuel permit at the location for the new slot machine facility.
  - Requires that all new slot machine licensees pay not less than $10 million to the state in Fiscal Year 2018-2019 and $20 million annually each subsequent fiscal year.
- Authorizes decoupling for greyhound, harness racing, and quarter horse racing pari-mutuel permitholders, based on an irrevocable decision made within 36 months after the bill's effective date.
- Authorizes decoupling of jai alai in the same manner.
- Deletes decoupling of thoroughbred horse racing.
- Reduces the amount of slot machine revenue that a decoupled permitholder with a slot machine license must pay for thoroughbred horse purses to the *lesser* of 2.75 percent (reduced from 3 percent in the bill) of the licensee's slots revenue from the prior fiscal year or $1.5 million annually (reduced from $2 million in the bill).
- Revises provisions relating to the amount of slot machine revenue and cardroom revenue that decoupled permitholders must pay, so that qualified thoroughbred permitholders (conducting minimum live racing requirements) each receive the same amount.

- Provides that limited thoroughbred permitholders and thoroughbred permitholders leasing at another permitholder's racing facility are not qualified thoroughbred permitholders for purposes of receiving a share of revenues from decoupled permitholders.
- Provides that fantasy contest prizes must be unrelated to the number of contest participants and prohibits fantasy contests from using casino graphics, themes and titles, including slot machine-style symbols, cards, roulette, etc.
- Eliminates dormant pari-mutuel permits and repeals authorization for issuance of summer jai alai permits.
- Revises the operating requirements for limited thoroughbred horse wagering facilities.
- Authorizes slot machine facilities and cardrooms to operate 24 hours a day on weekdays (up from 18 hours per day currently).
- Amends the definition of "slot machine or device" to prohibit pre-reveal games.
- Authorizes the execution of a gaming compact between the state and the Seminole Tribe of Florida (Seminole Tribe), which:
  - Authorizes the Seminole Tribe to conduct slot machine gaming at its seven gaming facilities;
  - Permits the Seminole Tribe to offer live table games, such as craps and roulette, at its seven gaming facilities;
  - Authorizes banked card games, including blackjack, chemin de fer, and baccarat, at its seven facilities;
  - Is for a term of 22 years, through June 30, 2040; and
  - Includes a $3 billion guarantee of revenue sharing payments to the state for the first seven-years (Guarantee Period), with specific payment amounts (Guaranteed Payments) during each year of the Guarantee Period. After the Guarantee Period, payments will be based on varying percentage rates that depend on the amount of the Seminole Tribe's net win (Revenue Share Payments);
- Provides exceptions to the Tribe's exclusive rights to allow the authorization of fantasy contests, the authorization by countywide referendum for slot machines in counties other than Broward County or Miami-Dade County, the play of Designated Player Games in the state, and the ending of live racing by certain pari-mutuel permitholders.

B. Amendments:

None.

By Senator Hutson

7-00886B-18 2018840__

A bill to be entitled

An act relating to gaming; creating s. 546.13, F.S.; defining terms; exempting a fantasy contest from certain regulations; amending s. 550.01215, F.S.; revising application requirements for a pari-mutuel operating license; authorizing a greyhound racing permitholder to specify certain intentions on its application; providing that a greyhound racing permitholder that has been issued a slot machine license remains an eligible facility, continues to be eligible for a slot machine license, is exempt from certain provisions of ch. 551, F.S., is eligible to be a guest track for certain purposes, and remains eligible for a cardroom license; authorizing a greyhound racing permitholder to receive an operating license to conduct pari-mutuel wagering activities at another permitholder's greyhound racing facility; authorizing a thoroughbred horse racing permitholder to elect not to conduct live racing under certain circumstances; authorizing a thoroughbred horse racing permitholder that elects not to conduct live racing to retain its permit and requiring the permitholder to specify its intention not to conduct live racing in future applications and that it is a pari-mutuel facility; authorizing such thoroughbred racing permitholder's facility to remain an eligible facility, to continue to be eligible for a slot machine license, to be exempt from certain provisions of chs. 550 and 551, F.S., to be eligible as a guest

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

track for intertrack wagering and simulcasting, and to remain eligible for a cardroom license; requiring that such permitholder comply with all contracts regarding distributions to thoroughbred horse purse supplements or breeders' awards entered into before a specified date; requiring, for a specified period, that such permitholder file with the division an irrevocable consent authorizing the use of certain contributions for specified purses and awards; authorizing harness horse and quarter horse racing permitholders to elect not to conduct live racing under certain circumstances; authorizing a permitholder that elects not to conduct live racing to retain its permit and remain a pari-mutuel facility; specifying that, if such permitholder has been issued a slot machine license, the permitholder's facility remains an eligible facility, continues to be eligible for a slot machine license, is exempt from certain provisions of chs. 550 and 551, F.S., is eligible to be a guest track, and if the permitholder is a harness horse racing permitholder, a host track for intertrack wagering and simulcasting, and remains eligible for a cardroom license; authorizing a harness horse racing permitholder to be a host track for purposes of intertrack wagering and simulcasting; authorizing the division to approve a change in racing dates for a permitholder if the request for a change is received before a specified date and under certain circumstances; amending s. 551.104, F.S.; revising

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

conditions of licensure and conditions for maintaining authority to conduct slot machine gaming; amending s. 551.106, F.S.; deleting obsolete provisions; revising the tax rate on slot machine revenue effective on specified dates; providing a formula to calculate a surcharge amount; prohibiting the surcharge from exceeding a certain amount; amending s. 849.086, F.S.; revising legislative intent; revising definitions; authorizing the division to establish a reasonable period to respond to certain requests from a licensed cardroom; providing that the division must approve certain requests within 45 days; requiring the division to review and approve or reject certain revised internal controls or revised rules within 10 days after submission; deleting provisions relating to the renewal of a cardroom license; making technical changes; authorizing certain cardroom operators to offer a certain number of certain designated player games; requiring the designated player and employees of the designated player to be licensed; requiring the designated player to pay certain fees; prohibiting a cardroom operator from serving as the designated player in a game and from having a financial interest in a designated player; authorizing a cardroom operator to collect a rake, subject to certain requirements; requiring the dealer button to be rotated under certain circumstances; prohibiting a cardroom operator from allowing a designated player to pay an opposing player under certain circumstances;

prohibiting the rules of the game or of the cardroom to require a designated player to cover more than 10 times the maximum wager for players participating in any one game; prohibiting a cardroom or cardroom licensee from contracting with or receiving certain compensation from a player to allow that player to participate in any game as a designated player; revising requirements for a cardroom license to be issued or renewed; requiring a certain written agreement with a thoroughbred permitholder; providing contract requirements for the agreement; requiring a thoroughbred permitholder to remit a percentage of specified funds to the Florida Thoroughbred Breeders' Association, Inc., subject to certain requirements; deleting provisions relating to a quarter horse racing permitholder's cardroom license; conforming a cross-reference; providing a directive to the Division of Law Revision and Information; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 546.13, Florida Statutes, is created to read:

546.13 Fantasy contests and fantasy contest operators.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Entry fee" means cash or a cash equivalent that is required to be paid by a participant in order to participate in a fantasy contest.

(b) "Fantasy contest" means a fantasy or simulated game or contest in which:

1. The value of all prizes and awards offered to winning participants is established and made known to the participants in advance of the contest;

2. All winning outcomes reflect the relative knowledge and skill of the participants and are determined predominantly by accumulated statistical results of the performance of individuals, including athletes in the case of sporting events;

3. No winning outcome is based on the score, point spread, or any performance or performances of any single actual team or combination of such teams, solely on any single performance of an individual athlete or player in any single actual event, or on the performances of participants in collegiate, high school, or youth sporting events.

(c) "Fantasy contest operator" means a person or an entity, including any employee or agent, that offers or conducts a fantasy contest with an entry fee for a cash prize or award and that is not a participant in the fantasy contest.

(2) EXEMPTIONS.—The Department of Business and Professional Regulation may not regulate and the offenses established in s. 849.01, s. 849.08, s. 849.09, s. 849.11, s. 849.14, and s. 849.25 do not include or apply to a fantasy contest operated or conducted by a:

(a) Fantasy contest operator.

(b) Natural person who is a participant in the fantasy contest, serves as the commissioner of not more than 10 fantasy contests in a calendar year, and distributes all entry fees for the fantasy contest as prizes or awards to the participants in

that fantasy contest.

Section 2. Subsections (1) and (3) of section 550.01215, Florida Statutes, are amended to read:

550.01215 License application; periods of operation; bond, conversion of permit.—

(1) Each permitholder shall annually, during the period between December 15 and January 4, file in writing with the division its application for an operating ~~a~~ license to conduct pari-mutuel wagering during the next state fiscal year, including intertrack and simulcast race wagering for greyhound racing permitholders and thoroughbred horse racing permitholders that do not ~~to~~ conduct live performances ~~during the next state fiscal year~~. Each application for live performances must ~~shall~~ specify the number, dates, and starting times of all live performances that ~~which~~ the permitholder intends to conduct. It must ~~shall~~ also specify which performances will be conducted as charity or scholarship performances.

(a) ~~In addition,~~ Each application for an operating ~~a~~ license also must ~~shall~~ include:~~,~~

1. For each permitholder, whether the permitholder intends to accept wagers on intertrack or simulcast events.

2. For each permitholder that elects ~~which elects~~ to operate a cardroom, the dates and periods of operation the permitholder intends to operate the cardroom. ~~or,~~

3. For each thoroughbred racing permitholder that ~~which~~ elects to receive or rebroadcast out-of-state races after 7 p.m., the dates for all performances which the permitholder intends to conduct.

(b) A greyhound racing permitholder that conducted a full

schedule of live racing for a period of at least 10 consecutive state fiscal years after the 1996-1997 state fiscal year, or that converted its permit to a permit to conduct greyhound racing after the 1996-1997 state fiscal year, may specify in its application for an operating license that it does not intend to conduct live racing, or that it intends to conduct less than a full schedule of live racing, in the next state fiscal year. A greyhound racing permitholder may retain its permit; is a pari-mutuel facility as defined in s. 550.002(23); if such permitholder has been issued a slot machine license, the facility where such permit is located remains an eligible facility as defined in s. 551.102(4), continues to be eligible for a slot machine license, and is exempt from ss. 551.104(3) and (4)(c)1. and 551.114(2) and (4); is eligible, but not required, to be a guest track for purposes of intertrack wagering and simulcasting pursuant to ss. 550.3551, 550.615, and 550.6305; and, if such permitholder has been issued a cardroom license, remains eligible for a cardroom license notwithstanding any requirement in s. 849.086 for the conduct of live racing. A greyhound racing permitholder may receive an operating license to conduct pari-mutuel wagering activities at another permitholder's greyhound racing facility pursuant to s. 550.475.

(c)1. A thoroughbred horse racing permitholder that has conducted live racing for at least 5 years irrevocably may elect not to conduct live racing if the election is made within 30 days after the effective date of this act. A thoroughbred horse racing permitholder that makes such election may retain such permit, must specify in future applications for an operating license that it does not intend to conduct live racing, and is a

pari-mutuel facility as defined in s. 550.002(23).

2. If a thoroughbred horse racing permitholder makes such election and if such permitholder holds a slot machine license when such election is made, the facility where such permit is located:

a. Remains an eligible facility pursuant to s. 551.102(4), and continues to be eligible for a slot machine license;

b. Is exempt from ss. 550.5251, 551.104(3) and (4)(c)1., and 551.114(2) and (4);

c. Is eligible, but not required, to be a guest track for purposes of intertrack wagering and simulcasting; and

d. Remains eligible for a cardroom license, notwithstanding any requirement in s. 849.086 for the conduct of live racing.

3. A thoroughbred horse racing permitholder that makes such election shall comply with all contracts regarding contributions by such permitholder to thoroughbred horse purse supplements or breeders' awards entered into before the effective date of this act pursuant to s. 551.104(10)(a). At the time of such election, such permitholder shall file with the division an irrevocable consent that such contributions shall be allowed to be used for purses and awards on live races at other thoroughbred horse racing facilities in this state. This subparagraph and s. 551.104(10)(a) do not apply after December 31, 2020, to a thoroughbred horse racing permitholder that made such election.

(d) A harness horse racing permitholder or a quarter horse racing permitholder that has conducted live racing for at least 5 years irrevocably may elect not to conduct live racing if the election is made within 30 days after the effective date of this act. A permitholder that makes such election may retain its

permit; is a pari-mutuel facility as defined in s. 550.002(23); if such permitholder has been issued a slot machine license, the facility where such permit is located remains an eligible facility as defined in s. 551.102(4), continues to be eligible for a slot machine license, and is exempt from ss. 551.104(3) and (4)(c)1. and 551.114(2) and (4); is eligible, but not required, to be a guest track and, if the permitholder is a harness horse racing permitholder, to be a host track for purposes of intertrack wagering and simulcasting pursuant to ss. 550.3551, 550.615, 550.625, and 550.6305; and, if such permitholder has been issued a cardroom license, remains eligible for a cardroom license notwithstanding any requirement in s. 849.086 to conduct live racing performances.

(e) Permitholders may ~~shall be entitled to~~ amend their applications through February 28.

(3) The division shall issue each license no later than March 15. Each permitholder shall operate all performances at the date and time specified on its license. The division shall have the authority to approve minor changes in racing dates after a license has been issued. The division may approve changes in racing dates after a license has been issued when there is no objection from any operating permitholder located within 50 miles of the permitholder requesting the changes in operating dates. In the event of an objection, the division shall approve or disapprove the change in operating dates based upon the impact on operating permitholders located within 50 miles of the permitholder requesting the change in operating dates. In making the determination to change racing dates, the division shall take into consideration the impact of such

changes on state revenues. Notwithstanding any other provision of law, and for the 2018-2019 fiscal year only, the division may approve changes in racing dates for permitholders if the request for such changes is received before May 31, 2018.

Section 3. Paragraph (c) of subsection (4) of section 551.104, Florida Statutes, is amended to read:

551.104 License to conduct slot machine gaming.—

(4) As a condition of licensure and to maintain continued authority for the conduct of slot machine gaming, a ~~the~~ slot machine licensee shall:

(c)1. Conduct no less ~~fewer~~ than a full schedule of live racing or games as defined in s. 550.002(11), unless conducting less than a full schedule of live racing or games pursuant to s. 550.01215(1)(b) or (c). A permitholder's responsibility to conduct a full schedule ~~such number~~ of live races or games, as defined in s. 550.002(11), shall be reduced by the number of races or games that could not be conducted due to the direct result of fire, war, hurricane, or other disaster or event beyond the control of the permitholder. A permitholder may conduct live races or games at another pari-mutuel facility pursuant to s. 550.475 if such permitholder has operated its live races or games by lease for at least 5 consecutive years immediately prior to the permitholder's application for a slot machine license.

2. If not licensed to conduct a full schedule of live racing or games, as defined in s. 550.002(11), pursuant to s. 550.01215(1)(b) or (c), remit for the payment of purses and awards on live races an amount equal to the lesser of $2 million or 3 percent of its slot machine revenues from the previous

state fiscal year to a slot machine licensee licensed to conduct not fewer than 160 days of thoroughbred racing. A slot machine licensee receiving funds under this subparagraph shall remit, within 10 days after receipt, 10 percent of those funds to the Florida Thoroughbred Breeders' Association, Inc., for the payment of breeders', stallion, and special racing awards, subject to the fee authorized in s. 550.2625(3). If no slot machine licensee is licensed for at least 160 days of live thoroughbred racing, no payments for purses are required. A slot machine licensee that conducts no live racing and is making purse and awards supplement payments due under agreements entered pursuant to paragraph (10)(a) prior to the effective date of this act may offset the total amount paid under such agreements for purses and awards on or after July 1, 2017, against any amount due under this subparagraph until the amount paid and the amount due equal zero.

Section 4. Subsections (1), (2), and (4) of section 551.106, Florida Statutes, are amended to read:

551.106 License fee; tax rate; penalties.—

(1) LICENSE FEE.—

~~(a)~~ Upon submission of the initial application for a slot machine license, and annually thereafter~~,~~ on the anniversary date of the issuance of the initial license, the licensee must pay to the division a nonrefundable license fee of ~~$3 million for the succeeding 12 months of licensure. In the 2010-2011 fiscal year, the licensee must pay the division a nonrefundable license fee of $2.5 million for the succeeding 12 months of licensure. In the 2011-2012 fiscal year and for every fiscal year thereafter, the licensee must pay the division a~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~nonrefundable license fee of~~ $2 million for the succeeding 12 months of licensure. The license fee must ~~shall~~ be deposited into the Pari-mutuel Wagering Trust Fund of the Department of Business and Professional Regulation to be used by the division and the Department of Law Enforcement for investigations, regulation of slot machine gaming, and enforcement of slot machine gaming provisions under this chapter. These payments must ~~shall~~ be accounted for separately from taxes or fees paid pursuant to ~~the provisions of~~ chapter 550.

~~(b) Prior to January 1, 2007, the division shall evaluate the license fee and shall make recommendations to the President of the Senate and the Speaker of the House of Representatives regarding the optimum level of slot machine license fees in order to adequately support the slot machine regulatory program.~~

(2) TAX ON SLOT MACHINE REVENUES.—

(a)1. The tax rate on slot machine revenues at each facility is ~~shall be~~ 35 percent. Effective January 1, 2019, the tax rate on slot machine revenues at each facility is 30 percent. Effective July 1, 2020, the tax rate on slot machine revenues at each facility is 25 percent.

2.a. If, during any state fiscal year, the aggregate amount of tax paid to the state by ~~all~~ slot machine licensees in Broward and Miami-Dade Counties is less than the aggregate amount of tax paid to the state by ~~all slot machine~~ licensees in those counties in the 2017-2018 ~~2008-2009~~ fiscal year, each slot machine licensee shall pay to the state within 45 days after the end of the state fiscal year a surcharge ~~equal to its pro rata share of an amount equal to the difference between the aggregate amount of tax paid to the state by all slot machine licensees in~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~the 2008-2009 fiscal year and the amount of tax paid during the fiscal year~~.

b. The amount of the surcharge to be paid by each such licensee must be calculated by dividing the aggregate amount of slot machine taxes paid to the state by all such slot machine licensees in the 2017-2018 fiscal year by the aggregate amount of slot machine taxes paid by all such licensees during the applicable state fiscal year, multiplying the result by the amount of slot machine taxes paid by the licensee during the applicable state fiscal year, and then subtracting from that product the amount of slot machine taxes paid by the licensee during the applicable state fiscal year. However, the sum of the taxes paid by a licensee pursuant to subparagraph 1. and any surcharge due from the licensee may not exceed 35 percent of the slot machine revenue of that licensee in the applicable state fiscal year ~~Each licensee's pro rata share shall be an amount determined by dividing the number 1 by the number of facilities licensed to operate slot machines during the applicable fiscal year, regardless of whether the facility is operating such machines~~.

(b) The slot machine revenue tax imposed by this section must ~~shall~~ be paid to the division for deposit into the Pari-mutuel Wagering Trust Fund for immediate transfer by the Chief Financial Officer for deposit into the Educational Enhancement Trust Fund of the Department of Education. Any interest earnings on the tax revenues must ~~shall~~ also be transferred to the Educational Enhancement Trust Fund.

(c)1. Funds transferred to the Educational Enhancement Trust Fund under paragraph (b) must ~~shall~~ be used to supplement

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

public education funding statewide.

2. If necessary to comply with any covenant established pursuant to s. 1013.68(4), s. 1013.70(1), or s. 1013.737(3), funds transferred to the Educational Enhancement Trust Fund under paragraph (b) must ~~shall~~ first be available to pay debt service on lottery bonds issued to fund school construction in the event lottery revenues are insufficient for such purpose or to satisfy debt service reserve requirements established in connection with lottery bonds. Moneys available pursuant to this subparagraph are subject to annual appropriation by the Legislature.

(4) TO PAY TAX; PENALTIES.—A slot machine licensee who fails to make tax and any applicable surcharge payments as required under this section is subject to an administrative penalty of up to $10,000 for each day the tax payment is not remitted. All administrative penalties imposed and collected must ~~shall~~ be deposited into the Pari-mutuel Wagering Trust Fund of the Department of Business and Professional Regulation. If any slot machine licensee fails to pay penalties imposed by order of the division under this subsection, the division may deny, suspend, revoke, or refuse to renew the license of the permitholder or slot machine licensee.

Section 5. Present subsections (9) through (17) of section 849.086, Florida Statutes, are redesignated as subsections (10) through (18), respectively, and a new subsection (9) is added to that section, subsections (1) and (2) of that section are amended, paragraph (g) is added to subsection (4) of that section, and paragraph (b) of subsection (5), paragraph (c) of subsection (7), paragraph (a) of subsection (8), present

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

subsection (12), and paragraphs (d) and (h) of present subsection (13) are amended, to read:

849.086 Cardrooms authorized.—

(1) LEGISLATIVE INTENT.—It is the intent of the Legislature to provide additional entertainment choices for the residents of and visitors to the state, promote tourism in the state, provide revenues to support the continuation of live pari-mutuel activity, and provide additional state revenues through the authorization of the playing of certain games in the state at facilities known as cardrooms which are to be located at licensed pari-mutuel facilities. To ensure the public confidence in the integrity of authorized cardroom operations, this act is designed to strictly regulate the facilities, persons, and procedures related to cardroom operations. Furthermore, the Legislature finds that authorized games of poker and dominoes ~~as herein defined~~ are considered to be pari-mutuel style games and not casino gaming because the participants play against each other instead of against the house.

(2) DEFINITIONS.—As used in this section:

(a) "Authorized game" means a game or series of games of poker or dominoes which are played in conformance with this section, including designated player games that are played in a manner consistent with the rules and requirements specified in the 1974 edition of Hoyle's Modern Encyclopedia of Card Games: Rules of All the Basic Games and Popular Variations and including three card poker ~~a nonbanking manner~~.

(b) "Banking game" means a game in which the house is a participant in the game, taking on players, paying winners, and collecting from losers ~~or in which the cardroom establishes a bank against which participants play~~. A designated player game is not a banking game.

(c) "Cardroom" means a facility where authorized games are played for money or anything of value and to which the public is invited to participate in such games and charged a fee for participation by the operator of such facility. Authorized games and cardrooms do not constitute casino gaming operations if conducted at an eligible facility.

(d) "Cardroom management company" means any individual not an employee of the cardroom operator, any proprietorship, partnership, corporation, or other entity that enters into an agreement with a cardroom operator to manage, operate, or otherwise control the daily operation of a cardroom.

(e) "Cardroom distributor" means any business that distributes cardroom paraphernalia such as card tables, betting chips, chip holders, dominoes, dominoes tables, drop boxes, banking supplies, playing cards, card shufflers, and other associated equipment to authorized cardrooms.

(f) "Cardroom operator" means a licensed pari-mutuel permitholder that ~~which~~ holds a valid permit and license issued by the division pursuant to chapter 550 and which also holds a valid cardroom license issued by the division pursuant to this section which authorizes such person to operate a cardroom and to conduct authorized games in such cardroom.

(g) "Designated player" means the player identified for each game by a button that rotates clockwise before each game begins as the player in the dealer position and seated at a traditional player position in a designated player game who pays winning players and collects from losing players.

(h) "Designated player game" means a game in which the players compare their cards only to the cards of the designated player or to a combination of cards held by the designated player and cards common and available for play by all players.

(i)~~(g)~~ "Division" means the Division of Pari-mutuel Wagering of the Department of Business and Professional Regulation.

(j)~~(h)~~ "Dominoes" means a game of dominoes typically played with a set of 28 flat rectangular blocks, called "bones," which are marked on one side and divided into two equal parts, with zero to six dots, called "pips," in each part. The term also includes larger sets of blocks that contain a correspondingly higher number of pips. The term also means the set of blocks used to play the game.

(k)~~(i)~~ "Gross receipts" means the total amount of money received by a cardroom from any person for participation in authorized games.

(l)~~(j)~~ "House" means the cardroom operator and all employees of the cardroom operator.

(m)~~(k)~~ "Net proceeds" means the total amount of gross receipts received by a cardroom operator from cardroom operations less direct operating expenses related to cardroom operations, including labor costs, admission taxes only if a separate admission fee is charged for entry to the cardroom facility, gross receipts taxes imposed on cardroom operators by this section, the annual cardroom license fees imposed by this section on each table operated at a cardroom, and reasonable promotional costs excluding officer and director compensation, interest on capital debt, legal fees, real estate taxes, bad

debts, contributions or donations, or overhead and depreciation expenses not directly related to the operation of the cardrooms.

(n)~~(l)~~ "Rake" means a set fee or percentage of the pot assessed by a cardroom operator for providing the services of a dealer, table, or location for playing the authorized game.

(o)~~(m)~~ "Tournament" means a series of games that have more than one betting round involving one or more tables and where the winners or others receive a prize or cash award.

(4) AUTHORITY OF DIVISION.—The Division of Pari-mutuel Wagering of the Department of Business and Professional Regulation shall administer this section and regulate the operation of cardrooms under this section and the rules adopted pursuant thereto, and is hereby authorized to:

(g) Establish a reasonable period to respond to requests from a licensed cardroom; provided however, the division has a maximum of 45 days to approve:

1. A cardroom's internal controls or provide the cardroom with a list of deficiencies as to the internal controls.

2. Rules for a new authorized game submitted by a licensed cardroom or provide the cardroom with a list of deficiencies as to those rules.

No later than 10 days after the submission of revised internal controls or revised rules addressing the deficiencies identified by the division, the division must review and approve or reject the revised internal controls or revised rules.

(5) LICENSE REQUIRED; APPLICATION; FEES.—No person may operate a cardroom in this state unless such person holds a valid cardroom license issued pursuant to this section.

(b) After the initial cardroom license is granted, the application for the annual license renewal shall be made in conjunction with the applicant's annual application for its pari-mutuel license. If a permitholder has operated a cardroom during any of the 3 previous fiscal years and fails to include a renewal request for the operation of the cardroom in its annual application for license renewal, the permitholder may amend its annual application to include operation of the cardroom. ~~In order for a cardroom license to be renewed the applicant must have requested, as part of its pari-mutuel annual license application, to conduct at least 90 percent of the total number of live performances conducted by such permitholder during either the state fiscal year in which its initial cardroom license was issued or the state fiscal year immediately prior thereto if the permitholder ran at least a full schedule of live racing or games in the prior year. If the application is for a harness permitholder cardroom, the applicant must have requested authorization to conduct a minimum of 140 live performances during the state fiscal year immediately prior thereto.~~ If more than one permitholder is operating at a facility, each permitholder must have applied for a license to conduct a full schedule of live racing.

(7) CONDITIONS FOR OPERATING A CARDROOM.—

(c) A cardroom operator must at all times employ and provide a nonplaying live dealer at ~~for~~ each table on which authorized ~~card~~ games ~~which traditionally use a dealer~~ are conducted ~~at the cardroom~~. Such dealers may not have a participatory interest in any game other than the dealing of cards and may not have an interest in the outcome of the game.

The providing of such dealers by a licensee does not constitute the conducting of a banking game by the cardroom operator.

(8) METHOD OF WAGERS; LIMITATION.—

(a) ~~No~~ Wagering may not be conducted using money or other negotiable currency. Games may only be played utilizing a wagering system whereby all players' money is first converted by the house to tokens or chips that may ~~which shall~~ be used for wagering only at that specific cardroom.

(9) DESIGNATED PLAYER GAMES AUTHORIZED.—

(a) A cardroom operator may offer designated player games consisting of players making wagers against the designated player. However, not more than 50 percent of the total licensed tables in a cardroom may offer designated player games. The designated player must be licensed pursuant to paragraph (6)(b). Employees of a designated player also must be licensed, and the designated player shall pay, in addition to the business occupational fee established pursuant to paragraph (6)(i), an employee occupational license fee that may not exceed $500 per employee for any 12-month period.

(b) A cardroom operator may not serve as a designated player in any game. The cardroom operator may not have a financial interest in a designated player in any game. A cardroom operator may collect a rake in accordance with the rake structure posted at the table.

(c) If there are multiple designated players at a table, the dealer button shall be rotated in a clockwise rotation after each hand.

(d) A cardroom operator may not allow a designated player to pay an opposing player who holds a lower-ranked hand.

(e) A designated player may not be required by the rules of a game or by the rules of a cardroom to cover more than 10 times the maximum wager for players participating in any one game.

(f) The cardroom, or any cardroom licensee, may not contract with, or receive compensation other than a posted table rake from, any player to participate in any game to serve as a designated player.

(13)~~(12)~~ PROHIBITED ACTIVITIES.—

(a) A ~~No~~ person licensed to operate a cardroom may not conduct any banking game or any game not specifically authorized by this section.

(b) A ~~No~~ person who is younger than ~~under~~ 18 years of age may not be permitted to hold a cardroom or employee license~~,~~ or to engage in any game conducted therein.

(c) With the exception of mechanical card shufflers, ~~No~~ electronic or mechanical devices~~, except mechanical card shufflers,~~ may not be used to conduct any authorized game in a cardroom.

(d) ~~No~~ Cards, game components, or game implements may not be used in playing an authorized game unless they have ~~such has~~ been furnished or provided to the players by the cardroom operator.

(14)~~(13)~~ TAXES AND OTHER PAYMENTS.—

(d)1. Each ~~greyhound and jai alai~~ permitholder that operates a cardroom facility shall use at least 4 percent of such permitholder's cardroom monthly gross receipts to supplement ~~greyhound~~ purses and awards or jai alai prize money, respectively, during the permitholder's next ensuing pari-mutuel meet.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

2. A cardroom license or renewal thereof may not be issued to a permitholder conducting less than a full schedule of live racing or games, as defined in s. 550.002(11), pursuant to s. 550.01215(1)(b), (c), or (d) unless the applicant has on file with the division a binding written contract with a thoroughbred permitholder that is licensed to conduct live racing and that does not possess a slot machine license. This contract must provide that the permitholder will pay an amount equal to 4 percent of its monthly cardroom gross receipts to the thoroughbred permitholder conducting the live racing for exclusive use as purses and awards during the current or ensuing live racing meet of the thoroughbred permitholder. A thoroughbred permitholder receiving funds under this subparagraph shall remit, within 10 days after receipt, 10 percent of those funds to the Florida Thoroughbred Breeders' Association, Inc., for the payment of breeders', stallion, and special racing awards, subject to the fee authorized in s. 550.2625(3). If there is not a thoroughbred permitholder that does not possess a slot machine license, payments for purses are not required, and the cardroom licensee shall retain such funds for its use. Each thoroughbred and harness horse racing permitholder that operates a cardroom facility shall use at least 50 percent of such permitholder's cardroom monthly net proceeds as follows: 47 percent to supplement purses and 3 percent to supplement breeders' awards during the permitholder's next ensuing racing meet.

~~3. No cardroom license or renewal thereof shall be issued to an applicant holding a permit under chapter 550 to conduct pari-mutuel wagering meets of quarter horse racing unless the~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~applicant has on file with the division a binding written agreement between the applicant and the Florida Quarter Horse Racing Association or the association representing a majority of the horse owners and trainers at the applicant's eligible facility, governing the payment of purses on live quarter horse races conducted at the licensee's pari-mutuel facility. The agreement governing purses may direct the payment of such purses from revenues generated by any wagering or gaming the applicant is authorized to conduct under Florida law. All purses shall be subject to the terms of chapter 550.~~

(h) One-quarter of the moneys deposited into the Pari-mutuel Wagering Trust Fund pursuant to paragraph (g) shall, by October 1 of each year, be distributed to the local government that approved the cardroom under subsection (17) ~~(16)~~; however, if two or more pari-mutuel racetracks are located within the same incorporated municipality, the cardroom funds shall be distributed to the municipality. If a pari-mutuel facility is situated in such a manner that it is located in more than one county, the site of the cardroom facility shall determine the location for purposes of disbursement of tax revenues under this paragraph. The division shall, by September 1 of each year, determine: the amount of taxes deposited into the Pari-mutuel Wagering Trust Fund pursuant to this section from each cardroom licensee; the location by county of each cardroom; whether the cardroom is located in the unincorporated area of the county or within an incorporated municipality; and, the total amount to be distributed to each eligible county and municipality.

Section 6. The Division of Law Revision and Information is directed to replace the phrase "the effective date of this act"

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

wherever it occurs in this act with the date this act becomes a law.

Section 7. This act shall take effect upon becoming a law.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 844
INTRODUCER:	Education Committee and Senator Bean
SUBJECT:	Excess Credit Hour Surcharges
DATE:	March 1, 2018
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Bouck	Graf	ED	**Fav/CS**
2.	Sikes	Elwell	AHE	**Recommend: Favorable**
3.	Sikes	Hansen	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 844 requires a state university to refund the assessed excess hour surcharge, for up to 12 credit hours, to any first-time-in-college student who completes a baccalaureate degree program within 4 years after initial enrollment in a state university.

According to the Board of Governors and based on data related to the 2015-16 graduating class, universities may be required to refund approximately $2.4 million annually to students who earn excess credit hours and graduate within 4 years of initial enrollment.

The bill takes effect July 1, 2018.

II. Present Situation:

The Legislature established the excess credit hour surcharge in 2009[1] to encourage each undergraduate student who enrolls in a state university to complete the student's respective baccalaureate degree program in the most efficient way possible.[2] State universities must require a student to pay an excess hour surcharge for each credit hour in excess of the allowed number of credit hours required to complete the baccalaureate degree program in which the student is enrolled.[3]

[1] Section 11, ch. 2009-60, L.O.F.
[2] Section 1009.286(1), F.S.
[3] *Id.* at (2).

The excess hour surcharge applies to students who enter a state university for the first time and maintain continuous enrollment. The surcharge was phased in over four years between the 2009-2010 and 2012-2013 academic years. For students who enter a state university for the first time in 2012-2103 academic year and thereafter and maintain continuous enrollment, an excess hour surcharge equal to 100 percent of the tuition rate for each credit hour in excess of 110 percent applies.[4]

Under current law, a student enrolled in a 120 credit hour baccalaureate degree program may take up to 132 credit hours (or 110 percent) before being assessed the excess hour surcharge for each credit hour in excess of the 120 credit hour degree requirement. Similarly, a student enrolled in a 130 credit hour baccalaureate degree program may take up to 143 credit hours (or 110 percent) before being assessed the excess hour surcharge for each credit hour in excess of the 130 credit hour degree requirement.

All credit hours for courses taken at the state university from which the student is seeking a baccalaureate degree are included when calculating the number of hours taken by a student, including:[5]

- Failed courses.
- Courses that are dropped after the advertised last day of the drop and add period.
- Courses from which a student withdraws, except for withdrawals due to medical or personal hardship.[6]
- Repeated courses, except repeated courses for which the student has paid the full cost of instruction.[7]

In addition, all credit hours earned at another institution and accepted for transfer by the state university, which are applied toward the student's baccalaureate degree program are included when calculating the number of credit hours taken by the student.[8]

Credit hours earned under the following circumstances are not calculated as hours required to earn a baccalaureate degree and are not counted towards the extra hour surcharge:[9]

- College credits earned through an articulated accelerated mechanism identified in law.[10]
- Credit hours earned through internship programs.
- Credit hours required for certification, recertification, or certificate programs.
- Credit hours in courses from which a student must withdraw due to reasons of medical or personal hardship.
- Credit hours taken by active-duty military personnel.
- Credit hours required to achieve a dual major taken while pursuing a baccalaureate degree.
- Remedial and English as a Second Language credit hours.

[4] *Id.*
[5] Section 1009.286(3)(a), F.S.
[6] *Id*. at (4).
[7] Section 1009.285, F.S.
[8] Section 1009.286(3)(b), F.S.
[9] *Id.* at (4).
[10] Section 1007.27, F.S. Articulated acceleration mechanisms include, but are not limited to, dual enrollment and early admission, advanced placement, credit by examination, the International Baccalaureate Program, and the Advanced International Certificate of Education Program. *Id.*

- Credit hours earned in military science courses that are part of the Reserve Officers' Training Corps (ROTC) program.

The Board of Governors reports that 14,284 first-time-in-college students in the 2015-2016 graduating class graduated within 48 months.[11] Ten percent (or 1,450) of these students earned excess credit hours - totaling 12,000 excess credit hours.[12] On average, these students earned 8 credit hours for which they were assessed the excess hour surcharge.

III. Effect of Proposed Changes:

The bill amends s. 1009.286, F.S., to require a state university to refund the assessed excess hour surcharge, for up to 12 credit hours, to any first-time-in-college student who completes a baccalaureate degree program within 4 years after initial enrollment in a state university.

Accordingly, a student enrolled in a 120 credit hour baccalaureate degree program could take up to 144 credit hours, 12 credit hours more than allowed by current law. The student would be assessed the excess hour surcharge for the additional 12 credit hours but would receive a refund for the surcharge if he or she graduates in 4 years after initial enrollment.

The bill takes effect July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill may result in cost savings, in the form of refunds, for students who generate excess credit hours but who graduate with a baccalaureate degree within 4 years of initial enrollment.

[11] Board of Governors, *2018 Agency Bill Analysis for SB 844* (Dec. 15, 2017), at 3.
[12] *Id.*

C. Government Sector Impact:

Based on data from the Board of Governors for the 2015-16 graduating class, state universities may be required to refund approximately $2.4 million annually to students who were assessed the excess hour surcharge but graduated in 4 years.[13] This estimate is based on 1,450 identified first-time-in-college students who generated 12,000 excess credit hours but graduated in 4 years.[14]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 1009.286 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Education on February 6, 2018:
The committee substitute:

- Modifies the bill provision regarding the application of the excess hour surcharge for first-time-in-college students who graduate with a baccalaureate degree in 4 years. Specifically, the committee substitute requires a state university to refund the assessed excess hour surcharge, for up to 12 credit hours, to any first-time-in-college student who completes a baccalaureate degree program within 4 years after initial enrollment in a state university.
- Removes from the bill the provision specifying the assessment of the excess hour surcharge for each credit hour in excess of 120 percent of the credit hours required to complete the baccalaureate degree for students enrolled in a degree program designated by the Board of Governors as an area of strategic emphasis in a science, technology, engineering, mathematics, or health discipline.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

[13] Board of Governors, *2018 Agency Bill Analysis for SB 844* (Dec. 15, 2017), at 4.
[14] *Id.*

By the Committee on Education; and Senator Bean

581-02904-18 2018844c1

A bill to be entitled

An act relating to excess credit hour surcharges; amending s. 1009.286, F.S.; requiring a state university to return up to a specified amount of assessed excess credit hour surcharges to first-time-in-college students who meet certain requirements; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (c) of subsection (2) of section 1009.286, Florida Statutes, is amended to read:

1009.286 Additional student payment for hours exceeding baccalaureate degree program completion requirements at state universities.—

(2) State universities shall require a student to pay an excess hour surcharge for each credit hour in excess of the number of credit hours required to complete the baccalaureate degree program in which the student is enrolled. The excess hour surcharge shall become effective for students who enter a state university for the first time and maintain continuous enrollment as follows:

(c) For the 2012-2013 academic year and thereafter, an excess hour surcharge equal to 100 percent of the tuition rate for each credit hour in excess of 110 percent. Notwithstanding the requirements of this subsection, the state university shall refund the excess hour surcharge assessed pursuant to this paragraph, for up to 12 credit hours, to any first-time-in-college student who completes a baccalaureate degree program

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

581-02904-18 2018844c1

within 4 years after initial enrollment in a state university.

Section 2. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

SUBJECT:	Telepharmacy
DATE:	February 26, 2018
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Looke	Stovall	HP	**Fav/CS**
2.	Loe	Hansen	AP	**Favorable**
3.			RC	

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 848 creates a new pharmacy permit specific to remote dispensing site pharmacies (RDSP). The bill defines "remote dispensing site pharmacy" and provides exceptions to current law for the operation of an RDSP. In an RDSP, a registered pharmacy technician may dispense medicinal drugs under the supervision of an offsite pharmacist. The bill establishes requirements for RDSP permits including:

- Ownership and video surveillance for remote supervision by a Florida licensed pharmacist;
- A restriction that a remote dispensing site pharmacy must be located in a rural area and may not be located within 10 miles of a community pharmacy, with exceptions; and
- Policies and procedures that an RDSP must maintain.

The bill allows an RDSP to store, hold, and dispense all medicinal drugs,[1] including controlled substances listed in s. 893.03(3)-(5), F.S., but restricts an RDSP from storing, holding, and dispensing schedule II narcotic controlled substances. The bill restricts an RDSP from performing centralized prescription filling[2] and a registered pharmacy technician working in an RDSP from performing sterile or complex nonsterile compounding.

[1] "Medicinal drugs" are defined in s. 465.003(8), F.S., as those substances or preparations commonly known as "prescription" or "legend" drugs, which are required by federal or state law to be dispensed only on a prescription.

[2] "Centralized prescription filling" is defined in s. 465.003(16), F.S., as the filling of a prescription by one pharmacy upon request by another pharmacy to fill or refill the prescription. The term includes the performance by one pharmacy for another pharmacy of other pharmacy duties such as drug utilization review, therapeutic drug utilization review, claims adjudication, and the obtaining of refill authorizations.

The bill will increase costs in the DOH by an indeterminate amount; however, these costs will be absorbed within existing resources of the DOH.

The effective date of the bill is July 1, 2018.

II. Present Situation:

Pharmacy Regulation

The Florida Pharmacy Act (act) regulates the practice of pharmacy in Florida and contains the minimum requirements for safe practice.[3] The Board of Pharmacy (board) is tasked with adopting rules to implement the provisions of the act and setting standards of practice within the state.[4] Any person who operates a pharmacy in Florida must have a permit, and as of July 1, 2017, there were 9,835 permitted pharmacies in the state.[5] The Department of Health (DOH) issues the following permits:

- Community pharmacy – A permit is required for each location where medicinal drugs are compounded, dispensed, stored, or sold or where prescriptions are filled or dispensed on an outpatient basis.[6]
- Institutional pharmacy – A permit is required for every location in a hospital, clinic, nursing home, dispensary, sanitarium, extended care facility, or other facility where medicinal drugs are compounded, dispensed, stored, or sold.[7]
- Nuclear pharmacy – A permit is required for every location where radioactive drugs and chemicals within the classification of medicinal drugs are compounded, dispensed, stored, or sold. The term "nuclear pharmacy" does not include hospitals licensed under ch. 395, F.S., or the nuclear medicine facilities of such hospitals.[8]
- Special pharmacy – A permit is required for every location where medicinal drugs are compounded, dispensed, stored, or sold if the location does not otherwise meet an applicable pharmacy definition in s. 465.003, F.S.[9]
- Internet pharmacy – A permit is required for a location not otherwise licensed or issued a permit under this chapter, within or outside this state, which uses the Internet to communicate with, or obtain information from, consumers in this state to fill or refill prescriptions or to dispense, distribute, or otherwise practice pharmacy in this state.[10]
- Nonresident sterile compounding pharmacy – A permit is required for a registered nonresident pharmacy or an outsourcing facility to ship, mail, deliver, or dispense, in any manner, a compounded sterile product into this state.[11]

[3] Chapter 465, F.S.
[4] Sections 465.005, 465.0155, and 465.022, F.S.
[5] Department of Health, *Senate Bill 848 Analysis* (Nov. 13, 2017) (on file with the Senate Committee on Health Policy).
[6] Sections 465.003(11)(a)1. and 465.018, F.S.
[7] Sections 465.003(11)(a)2. and 465.019, F.S.
[8] Sections 465.003(11)(a)3. and 465.0193, F.S.
[9] Sections 465.003(11)(a)4. and 465.0196, F.S.
[10] Sections 465.003(11)(a)5. and 465.0197, F.S.
[11] Section 465.0158, F.S.

- Special sterile compounding – A separate permit is required for a pharmacy holding an active pharmacy permit that engages in sterile compounding.[12]

A pharmacy must pass an on-site inspection for a permit to be issued,[13] and the permit is valid only for the name and address to which it is issued.[14]

Regulation of Pharmacists and Pharmacy Technicians

Pharmacists

Licensure Requirements

A pharmacist is a person who is licensed under the act to practice the profession of pharmacy.[15] To be licensed as a pharmacist in Florida, a person must:[16]

- Be at least 18 years of age;
- Complete an application and remit an examination fee;
- Hold a degree from an accredited and approved school or college of pharmacy;[17]
- Have completed a board-approved internship; and
- Successfully complete the board-approved examination.

During each biennial licensure renewal cycle, a pharmacist must complete at least 30 hours of board-approved continuing education courses.[18] If a pharmacist is certified to administer vaccines or epinephrine, the pharmacist must complete a three-hour continuing education course on the safe and effective administration of vaccines and epinephrine autoinjections as a part of the biennial licensure renewal.[19]

Scope of Practice

The practice of the profession of pharmacy includes:[20]

- Compounding,[21] dispensing, and consulting concerning contents, therapeutic values, and uses of a medicinal drug;

[12] Rules 64B16-2.100 and 64B16-28.802, F.A.C. An outsourcing facility is considered a pharmacy and needs to hold a special sterile compounding permit if it engages in sterile compounding.
[13] Id.
[14] Rule 64B16-28.100, F.A.C.
[15] Section 465.003(10), F.S.
[16] Section 465.007, F.S. DOH may also issue a license by endorsement to a pharmacist who is licensed in another state upon meeting the applicable requirements set forth in law and rule. See s. 465.0075, F.S.
[17] If the applicant has graduated from a four-year undergraduate pharmacy program of a school or college of pharmacy located outside the United States, the applicant must demonstrate proficiency in English, pass the board-approved Foreign Pharmacy Graduate Equivalency Examination, and complete a minimum of 500 hours in a supervised work activity program within Florida under the supervision of a DOH-licensed pharmacist.
[18] Section 465.009, F.S.
[19] Section 465.009(6), F.S.
[20] Section 465.003(13), F.S.
[21] Rule 64B16-27.700, F.A.C., defines compounding as a professional act by a pharmacist incorporating ingredients to create a finished product for dispensing to a patient or to a practitioner for administration to a patient. The American Pharmacists Association, citing the U.S. Pharmacopeia Convention (USP), defines compounding as "the preparation, mixing, assembling, altering, packaging, and labeling of a drug, drug-delivery device, or device in accordance with a licensed practitioner's prescription, medication order, or initiative based on the practitioner/patient/ pharmacist/compounder relationship in the

- Consulting concerning therapeutic values and interactions of patent or proprietary preparations;
- Monitoring a patient's drug therapy and assisting the patient in the management of his or her drug therapy, including the review of the patient's drug therapy and communication with the patient's prescribing health care provider or other persons specifically authorized by the patient, regarding the drug therapy;
- Transmitting information from prescribers to their patients;
- Administering vaccines to adults;[22]
- Administering epinephrine injections;[23] and
- Administering antipsychotic medications by injection.[24]

Pharmacists are specifically prohibited from altering a prescriber's directions, diagnosing or treating any disease, initiating any drug therapy, and practicing medicine or osteopathic medicine unless permitted by law.[25]

Only a pharmacist or registered intern may:[26]
- Supervise or be responsible for the controlled substance inventory;
- Receive verbal prescriptions from a prescriber;
- Interpret and identify prescription contents;
- Engage in consultation with a health care practitioner regarding the interpretation of a prescription and date in a patient's profile record;
- Engage in professional communication with health care practitioners;
- Advise or consult with a patient, both as to the prescription and the patient profile record; and
- Perform certain duties related to the preparation of parenteral and bulk solutions.

Pharmacists must perform the final check of a completed prescription, thereby assuming complete responsibility for its preparation and accuracy.[27] A pharmacist must be personally available at the time of dispensing.[28] A prescription department is considered closed if a Florida-licensed pharmacist is not present and on duty unless the pharmacist leaves the prescription department to:[29]
- Consult, respond to inquiries, or provide assistance to customers or patients;
- Attend to personal hygiene needs; or
- Perform functions for which the pharmacist is responsible if such activities are performed in a manner that is consistent with the pharmacist's responsibility to provide pharmacy services.

---

course of professional practice." See http://www.pharmacist.com/frequently-asked-questions-about-pharmaceutical-compounding (last visited Feb. 1, 2018).
[22] See s. 465.189, F.S.
[23] Id.
[24] Section 465.1893, F.S.
[25] Supra note 21.
[26] Rule 64B16-27.1001(1)-(2), F.A.C. Section 465.003(12), F.S., defines a pharmacy intern as a person who is currently registered in, and attending, or is a graduate of a duly accredited college or school of pharmacy and is properly registered with DOH.
[27] Rule 64B16-27.1001(3), F.A.C.
[28] Rule 64B16-27.1001(4), F.A.C.
[29] Section 465.003(11)(b), F.S.

Prescription Department Managers

Each community pharmacy must designate a licensed pharmacist as a prescription department manager.[30] The prescription department manager is responsible for maintaining all drug records, providing for the security of the prescription department, and ensuring that all regulations of the practice of the profession of pharmacy are followed.[31] A pharmacist may only serve as the prescription department manager of one pharmacy.[32] However, the board may grant an exception based on circumstances, such as the proximity of the pharmacies and the workload of the pharmacist.

Pharmacy Technicians

Registration Requirements

Pharmacy technicians assist pharmacists in dispensing medications and are accountable to a supervising pharmacist who is legally responsible for the care and safety of the patients served.[33] A person must register with DOH to practice as a pharmacy technician. To register, an individual must:[34]

- Be at least 17 years of age;
- Submit an application and pay an application fee; and
- Complete a board-approved pharmacy technician-training program.[35]

The pharmacy technician must renew the registration biennially. For each renewal cycle, a pharmacy technician must complete 20 continuing education hours.[36]

Pharmacy Technician Training Programs

A pharmacy technician may only be registered with DOH if he or she completes a board-approved training program. These include pre-approved training programs that were accredited on or before April 1, 2017, by certain accreditation entities, such as the Accreditation Council on Pharmacy Education, as well as pharmacy technician training programs provided by a branch of the United States Armed Forces whose curriculum was developed on or before April 1, 2017.[37]

The board may review and approve other training programs that do not meet the criteria for pre-approval. Such programs must be licensed by the Commission for Independent Education or equivalent licensing authority or be within the public school system of this state and offer a course of study that includes:[38]

- Introduction to pharmacy and health care systems;

[33] Pharmacy Technician Certification Board, Pharmacy Technicians, *available at* https://www.ptcb.org/who-we-serve/pharmacy-technicians#.WnjALPwUlPZ (last visited on Feb. 1, 2018).
[34] Section 465.014(2), F.S.
[35] An individual is exempt from the training program if he or she was registered as a pharmacy technician before January 1, 2011, and either worked as a pharmacy technician at least 1,500 hours under a licensed pharmacists or received certification from an accredited pharmacy technician program.
[36] Section 465.014(6), F.S.
[37] Rule 64B16-26.351(1)-(2), F.A.C.
[38] Rule 64B16-26.351(3)(b), F.A.C.

- Confidentiality;
- Patient rights and the Health Insurance Portability and Accountability Act (HIPAA);
- Relevant state and federal law;
- Pharmaceutical topics, including medical terminology, abbreviations, and symbols; medication safety and error prevention; and prescriptions and medication orders;
- Records management and inventory control, including pharmaceutical supplies, medication labeling, medication packaging and storage, controlled substances, and adjudication and billing;
- Interpersonal relations and ethics, including diversity of communications, empathetic communications, ethics governing pharmacy practice, patient and caregiver communications; and
- Pharmaceutical calculations.

The training program must provide the board with educational and professional background of its faculty.[39] A licensed pharmacist or registered pharmacy technician with appropriate expertise must be involved with planning and instruction and must supervise learning experiences.[40]

The board may also review and approve employer-based pharmacy technician training programs. An employer-based program must be offered by a Florida-permitted pharmacy or affiliated group of pharmacies under common ownership. [41] The program must include 160 hours of training over a period of no more than six months and may be provided only to the employees of that pharmacy.[42] The employer-based training program must:[43]

- Meet the same qualifications as required for non-employment based pharmacy technician training programs as indicated above;
- Provide an opportunity for students to evaluate learning experiences, instructional methods, facilitates, and resources;
- Ensure that self-directed learning experience, such as home study or web-based courses, evaluate the participant's knowledge at the completion of the learning experience; and
- Designate a person to assume responsibility for the registered pharmacy technician-training program.

Scope of Practice

A registered pharmacy technician may not engage in the practice of the profession of pharmacy; however, a licensed pharmacist may delegate those duties, tasks, and functions that do not fall within the definition of the practice of professional pharmacy.[44] Registered pharmacy technicians' responsibilities include: [45]

- Retrieval of prescription files;
- Data entry;
- Label preparation;

[39] Rule 64B16-26.351(3)(e), F.A.C.

[43] Id.
[44] Section 465.014(1), F.S.
[45] Rule 64B16-27.420(1), F.A.C.

- Counting, weighing, measuring, and pouring of prescription medication;
- Initiation of communication with a prescribing practitioner regarding requests for prescription refill authorization, obtaining clarification on missing or illegible information on prescriptions, and confirmation of information such as names, medication, strength, directions, and refills;
- Acceptance of authorization for prescription renewals; and
- Any other mechanical, technical, or administrative tasks that do not themselves constitute the practice of the profession of pharmacy.

A licensed pharmacist must directly supervise the performance of a registered pharmacy technician[46] and is responsible for acts performed by persons under his or her supervision.[47] A pharmacist may use technological means to communicate with or observe a registered pharmacy technician who is performing delegated tasks.[48]

The board specifies, by rule, certain acts that registered pharmacy technicians are prohibited from performing, which include:[49]

- Receiving new verbal prescriptions or any change in the medication, strength, or directions of an existing prescription;
- Interpreting a prescription or medication order for therapeutic acceptability and appropriateness;
- Conducting a final verification of dosage and directions;
- Engaging in prospective drug review;
- Monitoring prescription drug usage;
- Transferring a prescription;
- Overriding clinical alerts without first notifying the pharmacist;
- Preparing a copy of a prescription or reading a prescription to any person for the purpose of providing reference concerning treatment of the patient for whom the prescription was written;
- Engaging in patient counseling; or
- Engaging in any other act that requires the exercise of a pharmacist's professional judgment.

A registered pharmacy technician must wear an identification badge with a designation as a "registered pharmacy technician" and identify herself or himself as a registered pharmacy technician in telephone or other forms of communication.[50]

[46] Direct supervision means supervision by a pharmacist who is on the premises at all times the delegated tasks are being performed; who is aware of delegated tasks being performed; and who is readily available to provide personal assistance, direction, and approval throughout the time the delegated tasks are being performed (Rule 64B16-27.4001(2)(a), F.A.C.)
[47] Rule 64B16-27.1001(7), F.A.C.
[48] Rule 64B16-27.4001(2)(b), F.A.C.
[49] Rule 64B16-27.420(2), F.A.C.
[50] Rule 64B16-27.100(2), F.A.C.

Pharmacist-to-Technician Ratios

Florida law prohibits a pharmacist from supervising more than one registered pharmacy technician, unless otherwise permitted by guidelines adopted by the board.[51] The guidelines include the following restrictions:[52]

- A pharmacist engaging in sterile compounding may supervise up to three registered pharmacy technicians.
- A pharmacist who is not engaged in sterile compounding may supervise up to four registered pharmacy technicians.
- In a pharmacy that does not dispense medicinal drugs, a pharmacist may supervise up to six registered pharmacy technicians, as long as the pharmacist or pharmacy is not involved in sterile compounding.
- In a pharmacy that dispenses medicinal drugs in a physically separate area[53] of the pharmacy from which medicinal drugs are not dispensed, a pharmacist may supervise up to six registered pharmacy technicians.

Telehealth

There is no universally accepted definition of telehealth. In broad terms, telehealth is:

The delivery of health care services, where distance is a critical factor, by all health care professionals using information and communication technologies for the exchange of valid information for diagnosis, treatment,[54] and prevention of disease and injuries,[55] research and evaluation, and for the continuing education of health care providers, all in the interests of advancing the health of individuals and their communities.[56]

Definitions that are more specific vary by state and occasionally by profession; however,[57] there are common elements among the varied definitions of telehealth.

---

[51] Section 465.014(1), F.S.
[52] Rule 64B16-27.410, F.A.C.
[53] A "physically separate area" is a part of the pharmacy that is separated by a permanent wall or other barrier, which restricts access between the two areas.
[54] The University of Florida's Diabetes Institute utilizes telehealth to deliver treatment to children with diabetes and other endocrine problems who live in Volusia County. This allows the children to receive specialized treatment without the necessity of traveling from Volusia County to Gainesville. The Florida Department of Health's Children's Medical Services underwrites the program. See https://ufhealth.org/diabetes-center-excellence/telemedicine (last visited on Feb. 1, 2018).
[55] The University of South Florida has partnered with American Well to provide health care services to the residents of the Villages via telehealth. The goal is to reduce hospital admissions, readmission rates, and pharmacy costs, while maintaining Medicare beneficiaries in their homes rather than long-term care settings. See http://hscweb3.hsc.usf.edu/blog/2012/06/22/usf-health-and-american-well-to-bring-telehealth-to-seniors-living-at-the-villages/ (last visited on Feb. 1, 2018).

Telehealth generally consists of synchronous and/or asynchronous transmittal of information.[58] Synchronous refers to the live[59] transmission of information between patient and provider during the same time period.[60] Asynchronous telehealth is the transfer of data over a period of time and typically in separate time frames.[61] This is commonly referred to as "store and forward." Definitions of telehealth also commonly contain restrictions related to the location where telehealth may be used. For example, the use of the "hub and spoke" model is a common location restriction. A hub site is the location from which specialty or consultative services originate from the provider.[62] A spoke site is a remote site where the patient is presented during the telehealth encounter.[63] Under this model, health services may be provided through telehealth only if the patient is located at a designated spoke site and the provider is located at a designated hub site.

Telehealth is not a type of health care service but rather is a mechanism for the delivery of health care services. Health care professionals use telehealth as a platform to provide traditional health care services in a non-traditional manner. These services include, among others, preventative medicine and the treatment of chronic conditions.[64]

Telepharmacy

Telepharmacy is the provision of pharmaceutical care by pharmacies and pharmacists using telepharmacy technologies to patients or their agents at a distance.[65] Telepharmacy operations include, but are not limited to, drug review and monitoring, dispensing of medications, medication therapy management, clinical consultation, and patient counseling.[66]

In 2001, North Dakota became the first state to regulate telepharmacy.[67] North Dakota created a pilot project using telepharmacy to save rural pharmacies from closing and to provide

---

[58] The majority of telehealth definitions allow for both synchronous and asynchronous transmittal of information, but some definitions omit asynchronous from the definition of telehealth.
[59] This is also referred to as "real time" or "interactive" telehealth.
[60] American Telemedicine Association, Telemedicine Glossary, *available at* http://thesource.americantelemed.org/resources/telemedicine-glossary (last visited on Feb. 1, 2018). The use of live video to evaluate and diagnosis a patient would be considered synchronous telehealth.
[61] Id. A common example of synchronous telehealth is the transfer of X-rays or MRI images from one health care provider to another health care provider for review in the future.

Telepharmacy technologies means secure electronic communications, information exchange, or other methods that meet state and federal requirements.
[66] E. Alexander et al, ASHP Statement on Telepharmacy, 74 Am J Health-System Pharm., e236 (May 2017), available at http://www.ajhp.org/content/74/9/e236?sso-checked=true (last visited Feb. 1, 2018).
[67] George Tzanetakos et al, RUPRI Center for Rural Health Policy Analysis, University of Iowa College of Public Health, Rural Policy Brief: Telepharmacy Rules and Statutes: A 50-State Survey, Brief No. 2017-4, (April 2017), *available at* https://www.public-health.uiowa.edu/rupri/publications/policybriefs/2017/Telepharmacy%20Rules%20and%20Statutes.pdf (last visited Feb. 1, 2018).

telepharmacy services to underserved rural communities in that state.[68] The pilot project authorized community pharmacies to open and operate telepharmacy sites in rural communities without a pharmacist being physically present to supervise a registered pharmacy technician working at the remote site.[69] A pharmacist supervises the pharmacy technician and speaks with patients using real-time communications technology.[70] Almost 80,000 rural citizens had pharmacy services established, restored, or retained under the pilot project.[71]

At least 23 states have enacted laws or regulations that allow for the use of telepharmacy and/or remote dispensing sites since 2001.[72] The regulation of telepharmacy and remote dispensing varies by state. Some states geographically limit the provision of telepharmacy services to ensure that remote dispensing sites are only established in rural areas or medically underserved areas[73] while others restrict it by facility type such as rural health centers.[74] Many states have included minimum staffing and education requirements, such as requiring a minimum level of experience for the pharmacy technicians or limiting the number of pharmacy technicians that a pharmacist may supervise.[75]

III. Effect of Proposed Changes:

Section 1 amends s. 465.003, F.S., to define an RDSP to include every location where medicinal drugs are prepared by a registered pharmacy technician who is electronically supervised by an offsite pharmacist and dispensed pursuant to s. 465.014(1), F.S., to the patient after verification, certification, and counseling by the pharmacist. The bill exempts an RDSP from the requirement to close when a pharmacist is not present and on duty if the pharmacist is remotely supervising a registered pharmacy technician at an RDSP.

Section 2 amends s. 465.014(1), F.S., to allow a registered pharmacy technician to dispense medicinal drugs at an RDSP when operating under electronic supervision of an offsite Florida licensed pharmacist.

Section 3 amends s. 465.015, F.S., to exempt any person who owns, operates, maintain, opens, establishes, conducts, or has charge of an RDSP from the requirement that a licensed pharmacist

[71] National Association of Boards of Pharmacy, Telepharmacy: The New Frontier of Patient Care and Professional Practice, 46 Innovations 46 (June/July 2017), *available at* https://nabp.pharmacy/wp-content/uploads/2016/07/Innovations_June_July_Final.pdf (last visited Feb.1, 2018).
[72] Supra note 678. These states include Alaska, Colorado, Hawaii, Idaho, Illinois, Indiana, Iowa, Louisiana, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Tennessee, Texas, Utah, Vermont, West Virginia, Wisconsin, and Wyoming.
[73] Id. For example, Colorado requires that a telepharmacy outlet be more than 20 miles from the nearest prescription drug outlet or another telepharmacy outlet. (Colo. Rev. Stat. s. 12-12.5-102 (2017)).
[74] Id. For example, Wisconsin limits the operation of a remote dispensing site to a health care facility, office or clinic of a practitioner, county jail, rehabilitation facility, state prison, county house of correction, juvenile correctional facility, juvenile detention center, or residential care center for children and youth. (Wis. Admin. Code s. Phar. 7.095(3)).
[75] Id. For example, Illinois requires a pharmacy technician to have at least one year of experience and prohibits a pharmacist from supervising more than three sites that are simultaneously open. (Ill. Admin. Code tit. 68, s. 1330.510).

or registered intern must fill, compound, or dispense any prescription or medicinal drugs. The bill also exempts a registered pharmacy technician working in an RDSP from the restriction on dispensing medicinal medications without an active pharmacist's license or without being a registered pharmacy intern.

Section 4 creates s. 465.0198, F.S., to allow for the operation of RDSPs. The bill:

- Requires any person desiring to operate an RDSP to apply to the DOH for a permit. To receive a permit, the application must comply with the laws and board rules governing pharmacy and must designate a licensed pharmacist or consultant pharmacist as the prescription department manager responsible for oversight of the RDSP. The bill requires an RDSP to notify the DOH within 10 days if the prescription department manager changes.
- Requires an RDSP to pass an onsite inspection before receiving an initial permit or changing locations. The DOH is required to inspect the RDSP within 90 days before issuing the permit.
- Establishes requirements for an RDSP, including that:
  - An RDSP be jointly owned, or operated under contract with, a supervising pharmacy. A "supervising pharmacy" is defined as a licensed pharmacy in Florida that employs a Florida licensed pharmacist who remotely supervises the registered pharmacy technician at the RDSP.
  - An RDSP must be under 24-hour video surveillance, display a sign indicating that the RDSP is an RDSP and is under video surveillance, and must keep video surveillance recordings for at least 45 days.
  - An RDSP must be located in a rural area[76] and at least 10 miles from an existing community pharmacy unless the RDSP is located in a hospital or a clinic. For the purposes of this requirement, a "clinic" is defined as an entity where health care services are provided to individuals and which tenders charges for reimbursement for such services, excluding a mobile clinic and a portable equipment provider. The bill specifies that an RDSP may not lose its permit if a community pharmacy opens within 10 miles of the RDSP subsequent to the opening of the RDSP.
  - The prescription department manager or other pharmacist employed by the supervising pharmacy visits the RDSP on a schedule determined by the board to inspect the pharmacy, address personnel matters, and provide clinic services for patients.
  - A registered pharmacy technician must have completed at least 2,080 hours of experience at a pharmacy within the two years immediately preceding the date on which the registered pharmacy technician begins employment at the RDSP.
- Allows an RDSP to store, hold, and dispense all medicinal drugs[77] including schedule III-V controlled substances listed in s. 893.03(3)-(5), F.S.
- Restricts an RDSP from storing, holding, or dispensing schedule II narcotic controlled substances and performing centralized prescription filling. [78]
- Restricts a registered pharmacy technician from performing sterile or complex nonsterile compounding.

[76] As defined in s. 381.0406, F.S. A map of rural counties is *available at* http://www.floridahealth.gov/programs-and-services/community-health/rural-health/_documents/ruralcountiespdf.12.pdf. (Last visited on Feb. 6, 2018).
[77] Supra note 1
[78] Supra note 2

- Requires an RDSP to maintain a policy and procedures manual that must be made available to the board upon request. The manual must include:
  - A description of how the RDSP will comply with state and federal laws, rules, and regulations.
  - The procedure for supervising the RDSP and counseling its patients before the dispensing of any medicinal drug.
  - The procedure for reviewing the prescription drug inventory and drug records maintained by the RDSP.
  - The policy and procedure for providing appropriate security to protect the confidentiality and integrity of patient information.
  - The written plan for recovery from an event that interrupts or prevents the pharmacist from supervising the RDSP's operation.
  - The procedure by which the supervising pharmacist consults the state prescription drug-monitoring program (PDMP) before authorizing any controlled substance for dispensing and reports the dispensing of controlled substances to the PDMP.
  - The specific duties, tasks, and functions that a registered pharmacy technician is authorized to perform at the RDSP.

Section 5 amends s. 460.022, F.S., to allow a Florida licensed pharmacist to serve as a prescription manager for up to two RDSPs that are under common control and to make a technical change.

Section 6 amends s. 465.0265, F.S., to conform its provisions to the restriction on RDSPs performing centralized prescription filling.

Section 7 establishes an effective date of July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

CS/SB 848 may have an indeterminate fiscal impact on persons who open and run an RDSP pursuant to the provisions of the bill. It may also have an indeterminate fiscal impact on community pharmacies that are nearby but beyond the 10-mile zone.

C. Government Sector Impact:

The DOH will incur indeterminate costs to establish the RDSP permit and regulate permitted RDSPs; however, these costs will be absorbed within existing resources of the DOH.

VI. Technical Deficiencies:

None.

VII. Related Issues:

Lines 158-162 of the bill specify that a RDSP may store, hold, and dispense medicinal drugs listed as a controlled substance in schedules III-V but may not store, hold, and dispense narcotic controlled substances listed in schedule II. The bill does not specify whether an RDSP may store, hold, and dispense nonnarcotic schedule II controlled substances. The bill should be clarified to specify whether an RDSP may or may not store, hold, and dispense nonnarcotic controlled substances listed in schedule II.

Lines 201-203 of the bill restrict a registered pharmacy technician working in an RDSP from performing sterile and complex nonsterile compounding. The use of the term "complex" nonsterile compounding implies that a pharmacy technician may perform noncomplex nonsterile compounding at an RDSP. However, it is unclear what the definitions of "complex" and "noncomplex" nonsterile compounding include. The bill should be amended to clarify what compounding, if any, a registered pharmacy technician is authorized to perform at an RDSP.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 465.003, 465.014, 465.015, 465.022, and 465.0265.

This bill creates section 465.0198 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Health Policy on February 6, 2018:
The CS changes the title of the bill to Telepharmacy and:

- Tightens the regulation of RDSPs by:
  - Requiring that RDSPs be supervised by Florida licensed pharmacists;

  - Restricting a pharmacy technician at an RDSP from performing sterile or complex nonsterile compounding;
  - Restricting a pharmacy technician at an RDSP from dispensing narcotic drugs listed as a schedule II controlled substance; and
  - Requiring a registered pharmacy technician who works in a RDSP to have certain experience.
- Requires all RDSPs to be located in rural areas (as defined in s. 381.0406, F.S.) and be located at least 10 miles from an existing community pharmacy unless the RDSP is located in a hospital or a clinic.
- Requires each RDSP to be inspected by the DOH before being issued an initial permit or a permit for a change of location.
- Specifies that the section establishing RDSPs does not alter supervisory requirements for pharmacy technicians.
- Removes the provision that an RDSP may not be counted toward network adequacy in managed care programs.
- Makes a number of technical changes to clean up the bill's provisions.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Health Policy; and Senator Grimsley

588-02911-18 2018848c1

A bill to be entitled

An act relating to telepharmacy; amending s. 465.003, F.S.; revising and providing definitions; amending s. 465.014, F.S.; authorizing a registered pharmacy technician to dispense medicinal drugs under certain conditions; amending s. 465.015, F.S.; conforming provisions to changes made by the act; creating s. 465.0198, F.S.; providing permit requirements for remote dispensing site pharmacies; providing operating requirements and prohibitions for a remote dispensing site pharmacy; defining the term "clinic"; requiring the prescription department manager or other pharmacist employed by the supervising pharmacy to visit the remote dispensing site pharmacy; providing an experience requirement for a registered pharmacy technician working at a remote site pharmacy; prohibiting a registered pharmacy technician from performing sterile or nonsterile compounding; providing construction; amending s. 465.022, F.S.; authorizing a Florida licensed pharmacist to serve as the prescription drug manager at more than one remote dispensing site pharmacy under certain conditions; amending s. 465.0265, F.S.; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (11) of section 465.003, Florida Statutes, is amended to read:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

588-02911-18 2018848c1

465.003 Definitions.—As used in this chapter, the term:

(11)(a) "Pharmacy" includes a community pharmacy, an institutional pharmacy, a nuclear pharmacy, a special pharmacy, ~~and~~ an Internet pharmacy, and a remote dispensing site pharmacy.

1. The term "community pharmacy" includes every location where medicinal drugs are compounded, dispensed, stored, or sold or where prescriptions are filled or dispensed on an outpatient basis.

2. The term "institutional pharmacy" includes every location in a hospital, clinic, nursing home, dispensary, sanitarium, extended care facility, or other facility, hereinafter referred to as "health care institutions," where medicinal drugs are compounded, dispensed, stored, or sold.

3. The term "nuclear pharmacy" includes every location where radioactive drugs and chemicals within the classification of medicinal drugs are compounded, dispensed, stored, or sold. The term "nuclear pharmacy" does not include hospitals licensed under chapter 395 or the nuclear medicine facilities of such hospitals.

4. The term "special pharmacy" includes every location where medicinal drugs are compounded, dispensed, stored, or sold if such locations are not otherwise defined in this subsection.

5. The term "Internet pharmacy" includes locations not otherwise licensed or issued a permit under this chapter, within or outside this state, which use the Internet to communicate with or obtain information from consumers in this state and use such communication or information to fill or refill prescriptions or to dispense, distribute, or otherwise engage in the practice of pharmacy in this state. Any act described in

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

this definition constitutes the practice of pharmacy as defined in subsection (13).

6. The term "remote dispensing site pharmacy" includes every location where medicinal drugs are prepared by a registered pharmacy technician who is electronically supervised by an offsite pharmacist and dispensed pursuant to s. 465.014(1) to the patient after verification, certification, and counseling by the pharmacist.

(b) The pharmacy department of any permittee shall be considered closed whenever a Florida licensed pharmacist is not present and on duty. The term "not present and on duty" may ~~shall~~ not be construed to prevent:

1. A pharmacist from exiting the prescription department for the purposes of consulting or responding to inquiries or providing assistance to patients or customers~~;~~;

2. A pharmacist attending to personal hygiene needs~~;~~; ~~or~~

3. A pharmacist performing any other function for which the pharmacist is responsible, provided that such activities are conducted in a manner consistent with the pharmacist's responsibility to provide pharmacy services; or

4. An offsite pharmacist from remotely supervising a registered pharmacy technician at a remote dispensing site pharmacy.

Section 2. Subsection (1) of section 465.014, Florida Statutes, is amended to read:

465.014 Pharmacy technician.—

(1) A person other than a licensed pharmacist or pharmacy intern may not engage in the practice of the profession of pharmacy, except that a licensed pharmacist may delegate to

pharmacy technicians who are registered pursuant to this section those duties, tasks, and functions that do not fall within the purview of s. 465.003(13). However, a registered pharmacy technician may dispense medicinal drugs when operating under the electronic supervision of an offsite Florida licensed pharmacist pursuant to s. 465.0198. All such delegated acts must be performed under the direct supervision of a licensed pharmacist who is responsible for all such acts performed by persons under his or her supervision. A registered pharmacy technician, under the supervision of a pharmacist, may initiate or receive communications with a practitioner or his or her agent, on behalf of a patient, regarding refill authorization requests. A licensed pharmacist may not supervise more than one registered pharmacy technician unless otherwise permitted by the guidelines adopted by the board. The board shall establish guidelines to be followed by licensees or permittees in determining the circumstances under which a licensed pharmacist may supervise more than one pharmacy technician.

Section 3. Subsections (1) and (2) of section 465.015, Florida Statutes, are amended to read:

465.015 Violations and penalties.—

(1) It is unlawful for any person to own, operate, maintain, open, establish, conduct, or have charge of, either alone or with another person or persons, a pharmacy:

(a) Which is not registered under ~~the provisions of~~ this chapter.

(b) In which a person not licensed as a pharmacist in this state or not registered as an intern in this state or in which an intern who is not acting under the direct and immediate

personal supervision of a licensed pharmacist fills, compounds, or dispenses any prescription or dispenses medicinal drugs. This paragraph does not apply to any person who owns, operates, maintains, opens, establishes, conducts, or has charge of a remote dispensing site pharmacy pursuant to s. 465.0198.

(2) It is unlawful for any person:

(a) To make a false or fraudulent statement, either for herself or himself or for another person, in any application, affidavit, or statement presented to the board or in any proceeding before the board.

(b) To fill, compound, or dispense prescriptions or to dispense medicinal drugs if such person does not hold an active license as a pharmacist in this state, is not registered as an intern in this state, or is an intern not acting under the direct and immediate personal supervision of a licensed pharmacist. This paragraph does not apply to a registered pharmacy technician dispensing medicinal drugs pursuant to s. 465.0198.

(c) To sell or dispense drugs as defined in s. 465.003(8) without first being furnished with a prescription.

(d) To sell samples or complimentary packages of drug products.

Section 4. Section 465.0198, Florida Statutes, is created to read:

465.0198 Remote dispensing site pharmacy permits.—

(1) Any person desiring a permit to operate a remote dispensing site pharmacy must apply to the department for a remote dispensing site pharmacy permit. If the board certifies that the application complies with the laws and board rules

governing the practice of the profession of pharmacy, the department must issue the permit. A permit may not be issued unless a licensed pharmacist or consultant pharmacist is designated as the prescription department manager responsible for the oversight of the remote dispensing site pharmacy. The permittee must notify the department within 10 days after any change of the prescription department manager.

(2) As a prerequisite to issuance of an initial permit or a permit for a change of location, the remote dispensing site pharmacy must pass an onsite inspection. The department must make the inspection within 90 days before issuance of the permit.

(3) The remote dispensing site pharmacy must:

(a) Be jointly owned by a supervising pharmacy or operated under a contract with a supervising pharmacy. For purposes of this subsection, "supervising pharmacy" means a licensed pharmacy in this state which employs a Florida licensed pharmacist who remotely supervises a registered pharmacy technician at a remote dispensing site pharmacy.

(b) Display a sign visible to the public indicating that the location is a remote dispensing site pharmacy and that the facility is under 24-hour video surveillance. The remote dispensing site pharmacy must retain the video surveillance recordings for at least 45 days.

(c) Be located in an area defined as rural pursuant to s. 381.0406 and be at least 10 miles from an existing community pharmacy, unless the remote dispensing site pharmacy is located in a hospital licensed under chapter 395 or in a clinic. For purposes of this paragraph, the term "clinic" means an entity

where health care services are provided to individuals and which tenders charges for reimbursement for such services, excluding a mobile clinic and a portable equipment provider.

(4) A remote dispensing site pharmacy may not lose its permit based on the subsequent opening of a community pharmacy within 10 miles of the remote dispensing site pharmacy.

(5) A remote dispensing site pharmacy may store, hold, and dispense all medicinal drugs including those listed in s. 893.03(3)-(5). A remote dispensing pharmacy may not store, hold, or dispense narcotic controlled substances listed in s. 893.03(2).

(6) A remote dispensing site pharmacy may not perform centralized prescription filling, as defined in s. 465.003(16).

(7) A remote dispensing site pharmacy must maintain a policy and procedures manual, which shall be made available to the board or its agent upon request. The policy and procedures manual shall include:

(a) A description of how the pharmacy will comply with federal and state laws, rules, and regulations.

(b) The procedure for supervising the remote dispensing site pharmacy and counseling its patients before the dispensing of any medicinal drug pursuant to this section.

(c) The procedure for reviewing the prescription drug inventory and drug records maintained by the remote dispensing site pharmacy.

(d) The policy and procedure for providing appropriate security to protect the confidentiality and integrity of patient information.

(e) The written plan for recovery from an event that

interrupts or prevents the pharmacist from supervising the remote dispensing site pharmacy's operation.

(f) The procedure by which a supervising pharmacist consults the state prescription drug monitoring program before authorizing any controlled substance for dispensing and reports the dispensing of a controlled substance as required under s. 893.055.

(g) The specific duties, tasks, and functions that a registered pharmacy technician is authorized to perform at the remote dispensing site pharmacy.

(8) The prescription department manager or other pharmacist employed by the supervising pharmacy must visit the remote dispensing site pharmacy, based on a schedule designated by the board, to inspect the pharmacy, address personnel matters, and provide clinical services for patients.

(9) A registered pharmacy technician must have completed at least 2,080 hours of experience at a pharmacy within the 2 years immediately preceding the date on which the registered pharmacy technician begins employment at the remote dispensing site pharmacy.

(10) A registered pharmacy technician working at a remote dispensing site pharmacy may not perform sterile or complex nonsterile compounding.

(11) This section does not alter the supervision requirements established in s. 465.014.

Section 5. Paragraph (c) of subsection (11) of section 465.022, Florida Statutes, is amended to read:

465.022 Pharmacies; general requirements; fees.—

(11) A permittee must notify the department of the identity

of the prescription department manager within 10 days after employment. The prescription department manager must comply with the following requirements:

(c) A Florida licensed ~~registered~~ pharmacist may not serve as the prescription department manager in more than one location unless approved by the board. However, a Florida licensed pharmacist may serve as a prescription department manager for no more than two remote dispensing site pharmacies, if such pharmacies are under common control.

Section 6. Subsection (1) of section 465.0265, Florida Statutes, is amended to read:

465.0265 Centralized prescription filling.—

(1) Except as otherwise provided in this chapter, a pharmacy licensed under this chapter may perform centralized prescription filling for another pharmacy, provided that the pharmacies have the same owner or have a written contract specifying the services to be provided by each pharmacy, the responsibilities of each pharmacy, and the manner in which the pharmacies will comply with federal and state laws, rules, and regulations.

Section 7. This act shall take effect July 1, 2018.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 852 (859872)
INTRODUCER:	Appropriations Committee (Recommended by Subcommittee on Transportation, Tourism, and Economic Development); Transportation Committee; and Senator Brandes and others
SUBJECT:	Florida Smart City Challenge Grant Program
DATE:	February 26, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Price	Miller	TR	**Fav/CS**
2.	McAuliffe	Hrdlicka	ATD	**Recommend: Fav/CS**
3.	McAuliffe	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 852 creates the Florida Smart City Challenge Grant Program to provide opportunities to cities and other regions of the state for developing smart mobility solutions to local transportation challenges. The bill authorizes certain state, county, municipal, regional, or other agencies to submit applications to the Florida Department of Transportation (FDOT) for grants to fund certain innovative transportation projects.

The bill requires the FDOT to issue a request for proposals by September 1, 2018, and sets out information and documentation requirements for inclusion in grant proposals. The FDOT must award at least three grants, and each grant is limited to $6 million. Grant awards may be used to fund up to 50 percent of project implementation costs. A grant recipient must fund at least 10 percent of project costs. The FDOT must distribute awards by January 1, 2019.

The bill provides project selection, matching funds, and reporting requirements. The FDOT is directed to provide administrative support and to conduct expedited proposal reviews to facilitate smart city technology deployment within the state.

Related to electric vehicles, the bill requires the Florida Transportation Commission (FTC) to review all funding sources for transportation infrastructure and maintenance projects when it is determined that electric and hybrid vehicles make up two percent or more of the total number of registered vehicles in this state. The report must assess the effect of projected electric and hybrid

vehicle use on future revenues from existing fuel taxes and other fees related to nonelectric vehicles. The report must also make recommendations to: provide continued funding to maintain existing infrastructure; continue to meet projected infrastructure demand; and improve infrastructure to support emergency evacuations by users of electric vehicles.

The report must be submitted to the Governor and the Legislature by September 1 of the year immediately after the year in which the FTC determines that electric and hybrid vehicles make up two percent or more of the total number of vehicles registered in Florida. The FTC may complete the review and report before the two-percent threshold if the FTC determines it appropriate.

The bill also requires the FTC, in consultation with the Florida Division of Emergency Management (FDEM), to assess transportation infrastructure with respect to emergency evacuations and electric vehicles, including the availability of electric vehicle charging stations in this state. Lastly, the bill requires metropolitan planning organization's long-range transportation plans to include an assessment of the increased use of autonomous technology and electric vehicles.

The FTC will incur indeterminate expenses associated with the reporting requirements of this bill. The DHSMV expects the bill to have no impact on expenditures. The FDEM may incur indeterminate expenses associated with its participation in the emergency evacuation assessment.

The bill appropriates $15 million in nonrecurring funds from the State Transportation Trust Fund to the FDOT implement the Florida Smart City Challenge Grant Program.

The bill takes effect on July 1, 2018.

II. Present Situation:

Smart City Challenge Grant Program

According to the National League of Cities, 66 percent of cities are investing in smart city technology, and 25 percent of cities with no smart city technology are investigating how to implement it.[1] A single definition of smart city technology is difficult to identify, but in the context of transportation, it relates to "using sensors to collect data about the movement of people, all forms of vehicles and bikes. A smart city is one that greatly reduces vehicle traffic and allows people and goods to be moved easily through various means."[2] Examples include intelligent vehicle systems and autonomous vehicle transportation. Outcomes of smart city efforts are reduced vehicle related deaths, reduced pollution, reduced traffic times, and healthier populations.[3]

The Federal Smart City Challenge

The United States Department of Transportation (USDOT) launched a Smart City Challenge in December 2015. The challenge asked mid-sized cities "to develop ideas for an integrated, first-of-its-kind smart transportation system that would use data, applications, and technology to help people and goods move more quickly, cheaply, and efficiently."[4] The USDOT committed up to $40 million to one winning city.[5] The USDOT received 78 applications from cities across America, including the following cities in Florida: Jacksonville, Miami, Orlando, St. Petersburg, Tallahassee, and Tampa.[6] However, no Florida city received any funding.

Ultimately, Columbus, Ohio won the challenge by proposing "a comprehensive, integrated plan addressing challenges in residential, commercial, freight, and downtown districts using a number of new technologies, including connected infrastructure, an integrated data platform, autonomous vehicles, and more."[7] The USDOT then worked with selected finalists to further develop the ideas proposed by the cities and, in October 2016, announced an additional $65 million in grants to support advanced technology transportation projects.[8] Again, no city in Florida was selected for project funding.[9]

The State Smart City Challenge Grant Program

The 2017 Legislature enacted legislation[10] requiring the FDOT, in consultation with the Department of Highway Safety & Motor Vehicles and *subject to appropriation*, to develop the Florida Smart City Challenge Grant Program and establish grant award requirements for municipalities or regions for the purpose of receiving grant awards. The law requires grant applications to demonstrate and document the adoption of emerging technologies and their impact on transportation systems and to address at least the following focus areas: autonomous vehicles, connected vehicles, sensor-based infrastructure, collecting and using data, electric vehicles (including charging stations), and developing strategic models and partnerships. The law also specifies a non-exclusive list of goals of the grant program.

The law requires the FDOT to develop eligibility, application, and selection criteria for the program grants and a plan for promotion of the grant program to municipalities or regions of the state as an opportunity to compete for the grant funding. Criteria must include the award of grants to a single recipient and secondary grants to specific projects of merit within other applications. The law authorizes the FDOT to contract with a third party demonstrating knowledge and expertise in the focuses and goals of the program to provide guidance in the development of the program requirements. By January 1, 2018, the FDOT was to submit the

grant program guidelines and plans for promotion of the grant program to the Governor, the Senate President, and the House Speaker.

The 2017 General Appropriations Act contained an appropriation for the Smart City Challenge Grant program, authorizing the FDOT to use up to $325,000 from the State Transportation Trust Fund (STTF) to establish the program. However, that appropriation was vetoed.[11] The program, currently codified in s. 316.0898, F.S., expires on July 1, 2018.

Electric and Hybrid Vehicles

Florida law currently defines two types of vehicles powered, in whole or in part, by electricity: an electric vehicle and a hybrid vehicle. An "electric vehicle," defined for purposes of vehicle registration under ch. 320, F.S., is "a motor vehicle that is powered by an electric motor that draws current from rechargeable storage batteries, fuel cells, or other sources of electrical current."[12] A "hybrid vehicle," defined for purposes of use of high-occupancy-vehicle lanes, is a motor vehicle:

- That draws propulsion energy from onboard sources of stored energy which are both an internal combustion or heat engine using combustible fuel and a rechargeable energy-storage system;
- That, in the case of a passenger automobile or light truck, has received a certificate of conformity under the Clean Air Act…and meets or exceeds the equivalent qualifying California standards for a low-emission vehicle;[13] and
- That, in the case of a tri-vehicle,[14] is an inherently low-emission vehicle.[15]

Florida has enacted a number of EV-related provisions that may incentivize people to purchase EVs. They include:

- Authorizing a local government to enact a program to allow property owners to apply for financing from the local government to install EV charging equipment on his or her property. The local government can collect the loan payments through ad valorem assessments.[16]
- Authorizing a local government to use the proceeds of a levied infrastructure surtax (discretionary sales surtax) to provide loans to property owners to install EV charging equipment.[17]
- Allowing hybrid electric vehicles to use high-occupancy-vehicle lanes regardless of occupancy and to use such lanes without paying a toll if one is otherwise required.[18]

[11] Specific Appropriation 1869, proviso, ch. 2017-70, Laws of Florida.
[12] Section 320.01(36), F.S.

[14] Defined in s. 316.003(93), F.S.
[15] Section 316.0741, F.S.
[16] Section 163.08, F.S.
[17] Section 212.055, F.S.
[18] Generally, a high-occupancy-vehicle lane is a lane designed for use by vehicles in which there is more than one occupant. Section 316.0741, F.S.

In addition, local Florida entities offer EV incentives. The National Conference of State Legislatures reports that, through June 30 of this year or until funds were depleted,[19] Duke Energy and Orlando Utilities Commission customers and employees were eligible for a $10,000 rebate for the purchase of a new, all-electric, 2017 Nissan Leaf at participating dealerships; and the Jacksonville Electric Authority offers rebates for plug-in HEVs with a battery less than 15 kilowatt hours in capacity to receive $500, and plug-in HEVs with larger battery capacity are eligible for $1,000.[20] The federal government also allows an income tax credit of up to $7,500 for certain EVs.[21]

Impact of Electric and Hybrid Vehicles on Transportation Funding/Prior Studies

Taxes on gas and diesel fuel are a primary source of revenue for both the federal highway fund and the State Transportation Trust Fund.[22] Transportation funding has generally experienced a continuing shortfall attributed to static federal gas tax rates, more fuel efficient vehicles, and increasing transportation construction and maintenance costs.[23]

Annual fuel tax revenues at both the state and federal levels are directly based on the number of gallons of gasoline and diesel fuel consumed. Because electric vehicles (EV) are not powered by gasoline or diesel, and because hybrid electric vehicles (HEV) use less gasoline or diesel fuel than a conventional vehicle with only an internal combustion engine, an increase in the number of these vehicles operating in Florida results in less revenue being raised from fuel taxes for comparable vehicle miles traveled.

There are a limited number of studies specifically focused on the impact of EVs[24] on fuel tax revenues. A 2015 study conducted by the University of Central Florida acknowledges the increasing national EV sales trend for the 5-year period prior to the study but concludes:

> Of course, despite the increase, electric and plug-in electric vehicles still represent a small portion of the US auto market. With total vehicles sales for 2014 coming in at around 16.5 million, EVs made up less than 1 percent of total sales.[25]

---

[24] Unless otherwise noted, EV includes both EVs and HEVs.

[25] *See* Electric Vehicle Transportation Center, *Implications of Electric Vehicles on Gasoline Tax Revenues*, December 2015, at p. 8 available at: http://www.fsec.ucf.edu/en/publications/pdf/FSEC-CR-2011-15.pdf (Last visited February 22, 2018).

The study further concludes that EVs, for now and in the near future, will have only a small impact on fuel tax revenues but notes a University of Texas study on EV market share suggesting that by 2050, over 50 percent of fuel tax funds may be lost.[26] The authors highlight the importance of understanding that "the rate at which revenue declines depends on many factors. The relationship among these factors is complex and continued investigation is warranted to better understand vehicle fleet mix, fuel economy, and fuel tax revenue."[27]

According to the study, a number of states are exploring or implementing revenue generating alternatives, both to increase transportation funding in general and also to prepare for revenue reduction due to increased EV sales. These alternatives include a fee based on the number of miles a given vehicle travels,[28] as well as increased direct taxes and surcharges on EV purchases.[29]

For example, in 2015, the Georgia Legislature repealed "one of the nation's most generous state tax credits for electric cars." The Legislature also voted to impose a $200 annual registration fee on owners of some plug-in hybrids and all zero-emissions vehicles to make up for the lost fuel taxes. EV sales then experienced a sharp reduction, a result attributed to the repealed credit and imposed fee.[30]

EV Registration in Florida

The license tax for EVs is the same as that for a vehicle that is not electrically powered.[31] The exact number of EVs registered in Florida is somewhat unclear. Under the Department of Highway Safety and Motor Vehicles' (DHSMV) current vehicle registration system programming, a "fuel type" classification is an optional field and therefore the precise number of EVs registered is unknown.[32]

The DHSMV analyzed vehicle identification numbers (VINs) in its motor vehicle registration database using available software and estimated that of the 16.2 million vehicles with VINs that could be analyzed, approximately 247,131 EVs and HEVs, are registered in Florida, or about 1.53 percent.[33]

---

[26] *Id.* at p. 12.
[27] *Id.*
[28] Known as VMT (vehicle miles traveled) and MBUF (mileage-based user fee). Fees are assessed based on the actual amount of road use, not on fuel consumption.

[30] *See* Politifact Georgia, *Electric car sales hit the brakes as tax credit axed and fee added*, (November 2, 2015), available at: http://www.politifact.com/georgia/statements/2015/nov/02/don-francis/electric-car-sales-hit-brakes-tax-credit-axed-and-/ (Last visited February 22, 2018).
[31] Section 320.08001, F.S. Registration fees differ based on factors such as the type of vehicle, its weight, the license plate chosen, and whether the registration period is one or two years.
[32] The DHSMV also advises a system change is underway to make "fuel type" a mandatory field. *See* email from DHSMV staff dated September 22, 2017, to staff of the Senate Transportation Committee.
[33] *See* DHSMV, *SB 384 Bill Analysis* (November 9, 2017), at p. 5.

Emergency Evacuation

The Florida Division of Emergency Management (FDEM) is responsible for maintaining a comprehensive statewide program of emergency management. Among the FDEM's duties is a requirement to prepare a state comprehensive emergency management plan containing provisions that will ensure the state is prepared for emergencies and minor, major, and catastrophic disasters.[34] As part of the plan, the FDEM must include an evacuation component including specific regional and interregional planning provisions and promoting intergovernmental coordination of evacuation activities. Among other items, this part of the plan must establish strategies for ensuring sufficient, reasonably priced fueling locations along evacuation routes.[35] A review of available documents and information on the FDEM's website did not identify an assessment of electric vehicle charging stations for the purpose of emergency evacuations.

Section 377.815, F.S., authorizes the Florida Department of Agriculture and Consumer Services to post information on its website relating to alternative fueling stations or EV charging stations that are available for public use in this state. The department's website provides a list of stations, however, the list is not specific to emergency evacuations.[36]

According to the U.S Department of Energy's Alternative Fuels Data Center, 949 electric vehicle charging stations (2,130 outlets) are currently available in the State of Florida, excluding private stations.[37] The DHSMV notes that no EV charging stations within Florida's transportation infrastructure are specifically designated for use during emergency evacuations.[38]

III. Effect of Proposed Changes:

The bill creates a new Florida Smart City Challenge Grant Program to provide opportunities for grants to fund certain innovative transportation projects. The FDOT must issue a request for proposals by September 1, 2018, and distribute awards by January 1, 2019. The bill establishes goals and eligibility requirements for the program; provides project selection criteria and matching funds requirements; sets out reporting requirements; provides for administrative support for the program; and provides an appropriation from the STTF to implement the program.

Section 1 creates s. 316.0899, F.S., effective July 1, 2018, to create a new Florida Smart City Challenge Grant Program within the FDOT. The bill identifies the goals of the program to include:

- Providing opportunities to municipalities and other regions of the state to develop innovative smart mobility solutions to local transportation challenges.

[34] Section 252.35(2)(a), F.S.
[35] *Id.*
[36] *See* Florida Department of Agriculture and Consumer Services, Florida Energy Clearinghouse, Transportation, available at: http://www.freshfromflorida.com/Energy/Florida-Energy-Clearinghouse/Transportation (Last visited February 22, 2018).
[37] *See* US Department of Energy, Alternative Fuels Data Center, Electric Vehicles Charging Station Locations, available at: https://www.afdc.energy.gov/fuels/electricity_locations.html, including a map and a download spreadsheet of locations and related information (Last visited February 22, 2018).
[38] *See* DHSMV, *SB 384 Bill Analysis* (November 9, 2017), at p. 5.

- Deploying smart city technology that has an immediate impact on the safe and efficient movement of people and goods within municipalities and other regions of the state.
- Advancing autonomous, connected, grid-integrated,[39] and electric vehicle readiness and deployment throughout the state.
- Providing enhanced education and workforce development opportunities by deploying emerging technologies that support the state's future workforce.
- Meeting the mobility needs of residents of this state, particularly transportation disadvantaged persons[40] by increasing access to and convenience of transportation within municipalities and other regions of the state.
- Facilitating the efficient movement of freight within the state, especially in and around airports and seaports.
- Supporting the reduction or elimination of fossil fuel consumption by relying on renewable energy sources and electric technologies.
- Creating a smart mobility demonstration community in the state that serves as a model for municipalities and other regions nationwide.

The bill authorizes the various government entities to apply to the FDOT for project funding under the program. These government entities include:

- A state, county, municipal, regional, or other agency that is responsible for the movement of persons, goods, or services within a defined geographical region, including an entity created pursuant to chs. 343,[41] 348,[42] or 349,[43] F.S.
- A metropolitan planning organization (MPO) or transportation planning organization (TPO), with a requirement that each entity responsible for deploying or operating a project on behalf of an MPO or TPO must submit to the FDOT a letter detailing its commitment to the implementation, operation, and maintenance of the project.
- A state university.

The bill requires an applicant to have in place a plan or framework for the implementation of the proposed project in at least one of the following categories:

- Autonomous vehicle deployment or demonstration.
- Connected vehicle technology deployment.
- Shared mobility services innovation and deployment.
- Acceleration of the use of plug-in electric vehicles and electric charging infrastructure, including the deployment of grid-integrated vehicles.

[39] The bill defines this term to mean "a motor vehicle that has the ability for two-way power flow between the vehicle and the electric grid and the communications hardware and software that allow for external control of battery charging and discharging."
[40] Section 427.011(1), F.S., defines a "transportation disadvantaged person" as a person who, because of physical or mental disability, income status, or age is unable to transport himself or herself or to purchase transportation and is, therefore, dependent on others to obtain access to health care, employment, education, shopping, social activities, or other life-sustaining activities, or children who are handicapped or high-risk or at-risk as defined in s. 411.202, F.S.
[41] Chapter 343, F.S., creates the Northeast Florida Regional Transportation Commission, the South Florida Regional Transportation Authority, the Central Florida Regional Transportation Authority, the Northwest Florida Transportation Corridor Authority, and the Tampa Bay Area Regional Transit Authority.
[42] Chapter 348, F.S., creates the Miami-Dade Expressway Authority, the Tampa-Hillsborough County Expressway Authority, the Santa Rosa Bay Bridge Authority, and the Osceola County Expressway Authority.
[43] Chapter 349, F.S., creates the Jacksonville Transportation Authority.

The FDOT is required to issue a request for proposals for the award of program grants by September 1, 2018. Each submitted proposal must include:

- A statement by the applicant certifying that the project will be implement within 2 years after receipt of the grant.
- A plan for fulfilling documentation requirements under the FDOT's Statewide Systems Engineering Management Plan within such 2-year period.[44]
- A description of how operation and maintenance costs for the project will be funded in order to ensure that the FDOT's investment in the project is sustained.
- A plan for evaluation of the project and the methods by which such evaluation will be shared with residents of the area served by the project.
- The procedure for integrating the project's transportation-related data into the FDOT's Data Integration and Video Aggregation System.[45]

The FDOT must award a grant to at least three recipients, with each award limited to no more than $6 million. The FDOT must distribute awards by January 1, 2019. An award may fund up to 50 percent of project costs. A grant recipient must fund at least 10 percent of project costs. Grant funds must be used exclusively for startup costs, including acquisition of hardware, software, and assets associated with implementing a project. Grant funds may not be used for costs associated with operation, maintenance, or evaluation of the project.

When selecting grant recipients, the FDOT must give priority to proposals that:

- Demonstrate the availability of matching funds;[46]
- Include a plan for documenting the acquisition and expenditure of matching funds; and
- Include matching funds from private sector partner organizations.

Matching funds may be used for costs associated with operation, maintenance, and evaluation of the project.

Each grant recipient must submit a quarterly report to the FDOT regarding the development, implementation, and operation of the project. A grant recipient that receives matching funds must document the contribution of such funds in the quarterly report that details the manner in

[44] A Systems Engineering Management Plan (SEMP) enables an engineer "to manage a project using systems engineering principles and methods to maximize the quality of the system being implemented, while minimizing the budget and schedule required for its completion." For extensive details, see the FDOT's systems engineering website available at: http://www.fdot.gov/traffic/its/projects_deploy/semp.shtm (Last visited January 12, 2018). Federal regulations require all Intelligent Transportation System projects funded with federal highway funds to be based on a systems engineering analysis on a scale commensurate with the project scope. See 23 C.F.R. s. 940.11. Required documentation in a SEMP can be extensive. See the list of document templates on the identified FDOT website.

[45] This system integrates and manages real-time information. It consists of a data integration subsystem, which collects and integrates transportation and related data from numerous sources and integrates that data for internal and external dissemination and consumption; and a video aggregation subsystem, which aggregates "live streaming video from FDOT and external agency cameras for distribution using ubiquitous, modern video streaming technologies, such that video is made available to users regardless of their specific location or device platform. See the FDOT's *TSM&O Disseminator*, July-August 2017, at p. 9, available at: http://www.fdot.gov/traffic/Newsletters/2017/2017-AUG.pdf (Last visited January 12, 2018).

[46] Under the bill, "matching funds" includes in-kind services, goods, equipment, or other noncash contributions calculated at fair market value.

which the value of such contribution is calculated. The FDOT must submit a quarterly report to the Senate President and House Speaker regarding the overall status of the grant program.

After a project is implemented, each grant recipient must submit a report to the Governor, the Senate President, and the House Speaker detailing: the project's impact on the transportation system within the area served by the project; the extent to which the goals of the grant program have been met; and recommendations for project revisions or improvements to guide future deployment activities. A final report must be submitted 2 years after submission of the initial report.

The bill requires the FDOT to provide administrative support to the grant program to facilitate the deployment of smart city technology within the state, including expedited review of submitted proposals.

The FDOT may select an independent nongovernmental entity to assist in project construction, management, and evaluation; to oversee the implementation of the project; and to analyze and document lessons learned during, and benefits derived from, implementation of the project. The nongovernmental entity must have experience with the national (federal) Smart Cities Initiative, advanced transportation deployment experience in this state, extensive engineering experience, or expertise in stakeholder engagement of potential partners to create a demonstration community.

Section 2 appropriates $15 million in nonrecurring funds from the State Transportation Trust Fund for the 2018-2019 fiscal year to the FDOT to implement the program.

Electric and Hybrid Vehicles

Section 3 requires the FTC to review all sources of revenue for transportation infrastructure and maintenance projects and prepare a report to the Governor and the Legislature when the FTC determines that electric vehicles, as defined in s. 320.01(36), F.S., and hybrid vehicles, as defined in s. 316.0741, F.S., make up two percent or more of the total number of vehicles registered in this state.

The FTC, in consultation with the DHSMV, is authorized to use commercially available data that the FTC deems reliable to support its determination and report. In consultation with the FDEM, the FTC is also required to assess transportation infrastructure with respect to emergency evacuations and EVs, including, but not limited to, the availability of EV charging stations in this state.

At a minimum, the report must assess the effect of projected electric and hybrid vehicle use in this state on future revenue from existing taxes, fees, and surcharges related to nonelectric, private-use motorcycles, mopeds, automobiles, tri-vehicles, and trucks. The report must include recommendations to the Legislature to:

- Ensure continued funding for necessary maintenance that provides for adequate levels of service on existing transportation infrastructure;
- Accomplish improvements and capacity projects on transportation infrastructure which meet the demand from projected population and economic growth; and

- Accomplish necessary improvements to transportation infrastructure that would support emergency evacuations by users of electric vehicles.

The bill requires the report to be submitted to the Governor and the Legislature by September 1 of the year immediately after the year in which the FTC determines that electric and hybrid vehicles make up two percent or more of the total number of vehicles registered in this state. The FTC is authorized to complete the review and report before the two-percent threshold is reached if the FTC determines that earlier completion is appropriate to maintain a financially stable long-term transportation work program.

Section 4 amends s. 339.175(7)(c)2., F.S., requiring each metropolitan planning organization to consider the increased use of autonomous technology and electric vehicles, and other developments, when making its capital investment assessment as part of development of its long-range transportation plan.

The bill takes effect on July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

The bill does not implicate the mandates provisions of the State Constitution. Counties and cities are not required to apply to the program, but those that do apply for funding from the Florida Smart City Challenge Grant Program will be required to provide matching funds.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Private-sector partners who invest in innovative transportation projects may benefit to the extent that the project receives state grant funding.

C. Government Sector Impact:

The bill appropriates $15 million in nonrecurring funds from the State Transportation Trust Fund for Fiscal Year 2018-2019 to the FDOT to implement the program. This appropriation may be used to fund the costs incurred by FDOT to implement the Florida Smart City Challenge Grant Program as noted below.

The FDOT will incur administrative expenses associated with:
- Issuing the request for proposals.
- Conducting expedited reviews of proposals and awarding grants.
- Preparing the required quarterly reports.
- Providing administrative support.

Related to the report on EVs in Florida, the FTC will incur indeterminate expenses associated with:
- Determining when EVs make up two percent of vehicle registrations;
- Assessing transportation revenue impacts of EV registrations;
- Assessing infrastructure related to emergency evacuations for EVs; and
- Preparing the report required by the bill.

The DHSMV expects the bill to have no impact on its expenditures.

The FDEM may incur indeterminate expenses associated with its participation in the emergency evacuation assessment.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill creates section 316.0899 of the Florida Statutes.

This bill creates an undesignated section of Florida Law.

This bill amends section 339.175 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Transportation, Tourism, and Economic Development on February 21, 2018:
The committee substitute changes the bill to "[a]n act relating to transportation infrastructure" and adds the substance of CS/SB 384 (2017) to the bill.

The committee substitute requires the FTC to review all revenue sources for transportation infrastructure and maintenance projects and assess the effect of projected electric and hybrid vehicle use on future revenue from existing taxes, fees, and surcharges; make an assessment with the FDEM of transportation infrastructure with respect to emergency evacuations and electric vehicles; and prepare a report containing certain recommendations at the specified time.

The committee substitute revises planning requirements related to autonomous technology and electric vehicles to be considered as part of each metropolitan planning organization's development of the long-range transportation plan.

CS by Transportation on January 18, 2018:
The Committee Substitute:

- Creates a "Definitions" subsection, defines "grid-integrated vehicle," and relocates the definition of "matching funds" to this subsection.
- Revises one of the categories for which an applicant must have in place a plan or framework for project implementation to include acceleration of deployment of grid-integrated vehicles.
- Requires the FDOT to award at least three grants, rather than a awarding a maximum of three.
- Requires a grant recipient to fund at least ten percent of project costs and correspondingly removes a reference to partner organizations funding "50 percent of" projects costs in the provisions relating to priority selection of proposals.
- Revises the authorized uses of grant funds to specifically include acquisition of hardware, software, and assets associated with project implementation.
- Requires each recipient's initial report to be submitted to the Governor, in addition to the Senate President and the House Speaker.
- Authorizes the FDOT to select an independent nongovernmental entity to assist in project construction, management, and evaluation; and requires such entity to have certain prior experience.

B. Amendments:

None.

The Committee on Appropriations (Brandes) recommended the following:

Senate Amendment (with title amendment)

Delete lines 94 - 147
and insert:
2. An independent special district with powers that include or are related to infrastructure development or transportation systems and services.
3. A metropolitan planning organization or transportation planning organization. Each entity responsible for deploying or operating the project on behalf of a metropolitan planning

136690

organization or transportation planning organization must submit a letter to the department detailing its commitment to the implementation, operation, and maintenance of the project.

4. A state university.

(b) An applicant for a Florida Smart City Challenge Grant must have in place a plan or framework for the implementation of the proposed project in at least one of the following categories:

1. Autonomous vehicle deployment or demonstration.

2. Connected vehicle technology deployment.

3. Shared mobility services innovation and deployment.

4. Acceleration of the use of plug-in electric vehicles and electric charging infrastructure, including deployment of grid-integrated vehicles.

(4) PROPOSALS.—By September 1, 2018, the Department of Transportation shall issue a request for proposals for the award of a Florida Smart City Challenge Grant. Each proposal submitted to the department must include:

(a) A statement by the applicant certifying that the project will be implemented and operational within 5 years after receipt of the grant.

(b) A plan for fulfilling documentation requirements under the department's Statewide Systems Engineering Management Plan within such 5-year period.

(c) A description of how operation and maintenance costs for the project will be funded in order to ensure that the department's investment in the project is sustained.

(d) A plan for evaluation of the project and the methods by which such evaluation will be shared with residents of the area

136690

served by the project.

(e) The procedure for integrating the project's transportation-related data into the department's Data Integration and Video Aggregation System.

(5) AWARD OF GRANTS.—The Department of Transportation shall award a Florida Smart City Challenge Grant to at least three recipients. Each award may not exceed $6 million. The department shall distribute the award to each recipient by January 1, 2019.

(a) The grant may fund up to 50 percent of project costs. At least 10 percent of project costs must be funded by the grant recipient. An additional minimum of 10 percent of project costs must be funded by the private sector. Grant funds must be used exclusively for startup costs, including, but not limited to, acquisition of hardware, software, and assets associated with implementation of the project, and may not be used for costs associated with operation or maintenance of the project.

(b) In selecting grant recipients, the department shall give priority to those proposals that demonstrate the availability of matching funds from partner organizations to fund project costs and that include a plan for documenting the acquisition and expenditure of such matching funds.

1. The department shall give further priority to those proposals that include larger amounts of matching funds from private-sector

The Committee on Appropriations (Brandes) recommended the following:

Senate Amendment (with title amendment)

Delete line 289
and insert:
Section 5. Paragraph (a) of subsection (4) of section 201.15, Florida Statutes, is amended, and paragraph (b) of that subsection is republished, to read:
201.15 Distribution of taxes collected.—All taxes collected under this chapter are hereby pledged and shall be first made

819704

available to make payments when due on bonds issued pursuant to s. 215.618 or s. 215.619, or any other bonds authorized to be issued on a parity basis with such bonds. Such pledge and availability for the payment of these bonds shall have priority over any requirement for the payment of service charges or costs of collection and enforcement under this section. All taxes collected under this chapter, except taxes distributed to the Land Acquisition Trust Fund pursuant to subsections (1) and (2), are subject to the service charge imposed in s. 215.20(1). Before distribution pursuant to this section, the Department of Revenue shall deduct amounts necessary to pay the costs of the collection and enforcement of the tax levied by this chapter. The costs and service charge may not be levied against any portion of taxes pledged to debt service on bonds to the extent that the costs and service charge are required to pay any amounts relating to the bonds. All of the costs of the collection and enforcement of the tax levied by this chapter and the service charge shall be available and transferred to the extent necessary to pay debt service and any other amounts payable with respect to bonds authorized before January 1, 2017, secured by revenues distributed pursuant to this section. All taxes remaining after deduction of costs shall be distributed as follows:

(4) After the required distributions to the Land Acquisition Trust Fund pursuant to subsections (1) and (2) and deduction of the service charge imposed pursuant to s. 215.20(1), the remainder shall be distributed as follows:

(a) The lesser of 24.18442 percent of the remainder or $541.75 million in each fiscal year shall be paid into the State

819704

Treasury to the credit of the State Transportation Trust Fund. Of such funds, $75 million for each fiscal year shall be transferred to the General Revenue Fund. Notwithstanding any other law, the remaining amount credited to the State Transportation Trust Fund shall be used for:

1. Capital funding for the New Starts Transit Program, authorized by Title 49, U.S.C. s. 5309 and specified in s. 341.051, in the amount of 10 percent of the funds;

2. The Small County Outreach Program specified in s. 339.2818, in the amount of 10 percent of the funds;

3. The Strategic Intermodal System specified in ss. 339.61, 339.62, 339.63, and 339.64, in the amount of 75 percent of the funds after deduction of the payments required pursuant to subparagraphs 1. and 2.; and

4.a. The Transportation Regional Incentive Program specified in s. 339.2819, in the amount of 25 percent of the funds after deduction of the payments required pursuant to subparagraphs 1. and 2.

b. In fiscal years 2018-2019, 2019-2020, and 2020-2021, the first $60 million of the funds allocated pursuant to this subparagraph must ~~shall~~ be allocated annually to the Florida Rail Enterprise for the purposes established in s. 341.303(5). This sub-subparagraph expires July 1, 2021.

c. Beginning in the 2021-2022 fiscal year, the first $60 million of the funds allocated pursuant to this subparagraph must be allocated annually as follows:

(I) Twenty-five million dollars on a matching basis to the Tampa Bay Area Regional Transit Authority for the design and construction of an innovative mobility system, as defined in s.

819704

339.84. One dollar in local or private matching funds must be provided for each dollar distributed under this sub-sub-subparagraph. Federal funds may not be substituted for the local or private matching funds. In any fiscal year in which the Tampa Bay Area Regional Transit Authority notifies the Department of Transportation that the authority will not request all of the funds allocated under this sub-sub-subparagraph for an innovative mobility system, the Department of Transportation shall allocate such funds to projects in the 5-year work program under s. 339.135 in the area described in s. 343.91(1)(a) and such funds shall be in addition to currently scheduled work program commitments in that area.

(II) Thirty-five million dollars to the Statewide Mobility Innovation Program for the purposes established in s. 339.84.

(b) The lesser of 0.1456 percent of the remainder or $3.25 million in each fiscal year shall be paid into the State Treasury to the credit of the Grants and Donations Trust Fund in the Department of Economic Opportunity to fund technical assistance to local governments.

Moneys distributed pursuant to paragraphs (a) and (b) may not be pledged for debt service unless such pledge is approved by referendum of the voters.

Section 6. Section 339.84, Florida Statutes, is created to read:

339.84 Statewide Mobility Innovation Program.—

(1) As used in this section the term "innovative mobility system" means a system of infrastructure, appurtenances, and technology designed to move the greatest number of people in the

819704

least amount of time. The term includes, but is not limited to, autonomous vehicles as defined in s. 316.003, automated people movers, bus rapid transit networks, transportation network companies as defined in s. 627.748, ridesharing as defined in 341.031(9)(a), and commuter highway vehicles as defined in 49 U.S.C. s. 5323(i)(2)(C)(ii). The term does not include other traditional uses of a roadway system for conveyance.

(2) The Statewide Mobility Innovation Program is created within the department. The goals of the program include, but are not limited to:

(a) Evaluating, financing, and overseeing proposals for innovative mobility systems in this state.

(b) Expending funds to publicize and promote innovative mobility systems and to contract with entities to accomplish these purposes.

(c) Soliciting proposals in accordance with chapter 287 for the design and construction of innovative mobility systems and contracting with entities to expend funds to accomplish this purpose.

(3) Beginning in the 2021-2022 fiscal year, the department shall use funds allocated pursuant to s. 201.15(4)(a)4.c.(II) in a county to fund the design and construction of an innovative mobility system based on a proposal that the county submits to the department which the department approves as being consistent with the requirements of this section.

(4) Of the $35 million allocated under s. 201.15(4)(a)4.c.(II), the department must use:

(a) Twenty-five million dollars for an innovative mobility system in a county as defined in s. 125.011(1) and $5 million

819704

for an alternative transportation system within the jurisdiction of the Jacksonville Transportation Authority. In any fiscal year in which a county as defined in s. 125.011(1) notifies the department that the county will not request all of the funds allocated under this paragraph for an innovative mobility system, the department shall allocate such funds to projects in the 5-year work program under s. 339.135 in the county and such funds shall be in addition to currently scheduled work program commitments in that area.

(b) The remainder for such a system in any other county or counties in the state.

(5) A county proposing the use of funds for an innovative mobility system must submit a request to the department which must include a detailed project and financial plan. The funding request must specify the duration of the project and the total amount sought by state fiscal year. Two or more counties may submit a joint proposal to the department.

(6) One dollar in local or private matching funds must be provided for each dollar distributed under this section. Federal funds may not be substituted for the local or private matching funds.

(7) Funds distributed under this section may not be used to subsidize projects with existing funding commitments as of July 1, 2018.

(8) Each recipient of funds under this program must submit a quarterly report to the department regarding the development, implementation, and operation of the project. The department must submit an annual report by September 1 to the President of the Senate and the Speaker of the House of Representatives

819704

regarding the overall status of the program.

Section 7. Subsection (5) of section 341.303, Florida Statutes, is amended to read:

341.303 Funding authorization and appropriations; eligibility and participation.—

(5) FUND PARTICIPATION; FLORIDA RAIL ENTERPRISE.—The department, through the Florida Rail Enterprise, is authorized to use funds provided pursuant to s. 201.15(4)(a)4. to fund:

(a) Up to 50 percent of the nonfederal share of the costs of any eligible passenger rail capital improvement project.

(b) Up to 100 percent of planning and development costs related to the provision of a passenger rail system, including, but not limited to, preliminary engineering, revenue studies, environmental impact studies, financial advisory services, engineering design, and other appropriate professional services.

(c) The high-speed rail system.

(d) Projects necessary to identify or address anticipated impacts of increased freight rail traffic resulting from the implementation of passenger rail systems as provided in s. 341.302(3)(b).

After June 30, 2018, the department may not program any projects to be funded pursuant to this subsection for any year of the work program if the project was not in the 5-year work program adopted for the 2017-2018 fiscal year.

Section 8. Effective July 1, 2021, subsection (5) of section 341.303, Florida Statutes, is repealed.

Section 9. Effective July 1, 2021, paragraph (b) of subsection (4) of section 343.58, Florida Statutes, is amended

819704

to read:

343.58 County funding for the South Florida Regional Transportation Authority.—

(4) Notwithstanding any other provision of law to the contrary and effective July 1, 2010, until as provided in paragraph (d), the department shall transfer annually from the State Transportation Trust Fund to the South Florida Regional Transportation Authority the amounts specified in subparagraph (a)1. or subparagraph (a)2.

(b) Funding required by this subsection may not be provided from the funds dedicated to the Florida Rail Enterprise or the Statewide Mobility Innovation Program pursuant to s. 201.15(4)(a)4.

Section 10. Except as otherwise expressly provided in this act, this act shall take effect July 1, 2018.

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Transportation, Tourism, and Economic Development)

A bill to be entitled

An act relating to transportation infrastructure; creating s. 316.0899, F.S.; defining the terms "grid-integrated vehicle" and "matching funds"; creating the program within the Department of Transportation; providing program goals; providing grant eligibility requirements; requiring the department to issue a request for proposals by a specified date; providing proposal requirements; providing requirements for the award of grants and the use of grant funds; providing reporting requirements; requiring administrative support by the department; authorizing the department to select an independent nongovernmental entity to assist in project construction, management, and evaluation for specified purposes; providing requirements for the nongovernmental entity; providing an appropriation; requiring the Florida Transportation Commission to review all sources of revenue for transportation infrastructure and maintenance projects and prepare a report to the Governor and the Legislature when the commission determines that electric and hybrid vehicles make up a certain percentage or more of the total number of vehicles registered in this state; authorizing the commission, in consultation with the Department of Highway Safety and Motor Vehicles, to use certain commercially

859872

576-03500-18

available data; providing minimum reporting requirements; requiring the commission, in consultation with the Division of Emergency Management, to make an assessment of transportation infrastructure with respect to emergency evacuations and electric vehicles; specifying requirements for the report; requiring the report to be submitted to the Governor and the Legislature no later than a certain date; authorizing the commission to undertake and complete the review before the specified percentage threshold is reached, under certain circumstances; amending s. 339.175, F.S.; requiring a long-range transportation plan to consider infrastructure and technological improvements necessary to accommodate the increased use of autonomous technology and electric vehicles; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 316.0899, Florida Statutes, is created to read:

316.0899 Florida Smart City Challenge Grant Program.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Grid-integrated vehicle" means a motor vehicle that has the ability for two-way power flow between the vehicle and the electric grid and the communications hardware and software that allow for external control of battery charging and discharging.

(b) "Matching funds" includes in-kind services, goods,

equipment, or other noncash contributions calculated at fair market value.

(2) CREATION; GOALS.—The Florida Smart City Challenge Grant Program is created within the Department of Transportation. The goals of the grant program include, but are not limited to:

(a) Providing opportunities to municipalities and other regions of the state to develop innovative smart mobility solutions to local transportation challenges.

(b) Deploying smart city technology that has an immediate impact on the safe and efficient movement of people and goods within municipalities and other regions of the state.

(c) Advancing autonomous, connected, grid-integrated, and electric vehicle readiness and deployment throughout the state.

(d) Providing enhanced education and workforce development opportunities by deploying emerging technologies that support the state's future workforce.

(e) Meeting the mobility needs of residents of this state, particularly transportation disadvantaged persons as defined in s. 427.011, by increasing access to and convenience of transportation within municipalities and other regions of the state.

(f) Facilitating the efficient movement of freight within the state, especially in and around airports and seaports.

(g) Supporting the reduction or elimination of fossil fuel consumption by relying on renewable energy sources and electric technologies.

(h) Creating a smart mobility demonstration community in the state that serves as a model for municipalities and other regions nationwide.

(3) ELIGIBILITY REQUIREMENTS.—

(a) The following entities may apply to the Department of Transportation for a grant to fund projects under the Florida Smart City Challenge Grant Program:

1. A state, county, municipal, regional, or other agency that is responsible for the movement of persons, goods, or services within a defined geographical region, including an entity created pursuant to chapter 343, chapter 348, or chapter 349.

2. A metropolitan planning organization or transportation planning organization. Each entity responsible for deploying or operating the project on behalf of a metropolitan planning organization or transportation planning organization must submit a letter to the department detailing its commitment to the implementation, operation, and maintenance of the project.

3. A state university.

(b) An applicant for a Florida Smart City Challenge Grant must have in place a plan or framework for the implementation of the proposed project in at least one of the following categories:

1. Autonomous vehicle deployment or demonstration.

2. Connected vehicle technology deployment.

3. Shared mobility services innovation and deployment.

4. Acceleration of the use of plug-in electric vehicles and electric charging infrastructure, including deployment of grid-integrated vehicles.

(4) PROPOSALS.—By September 1, 2018, the Department of Transportation shall issue a request for proposals for the award of a Florida Smart City Challenge Grant. Each proposal submitted

to the department must include:

(a) A statement by the applicant certifying that the project will be implemented and operational within 2 years after receipt of the grant.

(b) A plan for fulfilling documentation requirements under the department's Statewide Systems Engineering Management Plan within such 2-year period.

(c) A description of how operation and maintenance costs for the project will be funded in order to ensure that the department's investment in the project is sustained.

(d) A plan for evaluation of the project and the methods by which such evaluation will be shared with residents of the area served by the project.

(e) The procedure for integrating the project's transportation-related data into the department's Data Integration and Video Aggregation System.

(5) AWARD OF GRANTS.—The Department of Transportation shall award a Florida Smart City Challenge Grant to at least three recipients. Each award may not exceed $6 million. The department shall distribute the award to each recipient by January 1, 2019.

(a) The grant may fund up to 50 percent of project costs. At least 10 percent of project costs must be funded by the grant recipient. Grant funds must be used exclusively for startup costs, including, but not limited to, acquisition of hardware, software, and assets associated with implementation of the project, and may not be used for costs associated with operation or maintenance of the project.

(b) In selecting grant recipients, the department shall give priority to those proposals that demonstrate the

availability of matching funds from partner organizations to fund project costs and that include a plan for documenting the acquisition and expenditure of such matching funds.

1. The department shall give further priority to those proposals that include matching funds from private-sector partner organizations; however, local public funds may also be used.

2. Matching funds may be used for costs associated with operation, maintenance, and evaluation of the project.

3. A grant recipient that receives matching funds must document the contribution of such funds in a quarterly report that details the manner in which the value of such contribution is calculated.

(6) REPORTING REQUIREMENTS.—

(a) Each recipient of a Florida Smart City Challenge Grant shall submit a quarterly report to the Department of Transportation regarding the development, implementation, and operation of the project. Such report must include information documented pursuant to subparagraph (5)(b)3.

(b) The Department of Transportation must submit a quarterly report to the President of the Senate and the Speaker of the House of Representatives regarding the overall status of the grant program.

(c) After implementation of the project is complete, each recipient must submit an initial report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which details the project's impact on the transportation system within the area served by the project, the extent to which the goals of the grant program have been met,

and recommendations for project revisions or improvements to guide future deployment activities. A final report must be submitted 2 years after submission of the initial report.

(7) ADMINISTRATIVE SUPPORT.—The Department of Transportation shall provide administrative support to the Florida Smart City Challenge Grant Program in order to facilitate the deployment of smart city technology within the state, including, but not limited to, expedited review of proposals submitted under subsection (4). The department may select an independent nongovernmental entity to assist in project construction, management, and evaluation; to oversee the implementation of the project; and to analyze and document lessons learned during, and benefits derived from, implementation of the project. The nongovernmental entity must have experience with the national Smart Cities Initiative, advanced transportation deployment experience in this state, extensive engineering experience, or expertise in stakeholder engagement of potential partners to create a demonstration community as described in paragraph (2)(h).

Section 2. For the 2018-2019 fiscal year, the sum of $15 million in nonrecurring funds is appropriated from the State Transportation Trust Fund to the Department of Transportation for the purpose of implementing s. 316.0899, Florida Statutes.

Section 3. Florida Transportation Commission review; electric and hybrid vehicles report.—

(1)(a) The Florida Transportation Commission shall review all sources of revenue for transportation infrastructure and maintenance projects and prepare a report to the Governor and the Legislature when the commission determines that electric

vehicles, as defined in s. 320.01(36), Florida Statutes, and hybrid vehicles, as defined in s. 316.0741, Florida Statutes, make up 2 percent or more of the total number of vehicles registered in this state.

(b) The commission, in consultation with the Department of Highway Safety and Motor Vehicles, may use commercially available data that the commission deems reliable to support its determination and report. The report must, at a minimum, assess the effect of projected electric and hybrid vehicle use in this state on future revenue from existing taxes, fees, and surcharges related to nonelectric, private-use motorcycles, mopeds, automobiles, tri-vehicles, and trucks.

(c) The commission, in consultation with the Division of Emergency Management, shall also make an assessment of transportation infrastructure with respect to emergency evacuations and electric vehicles, including, but not limited to, the availability of electric vehicle charging stations in this state.

(2) The report must include recommendations to the Legislature:

(a) To ensure continued funding for necessary maintenance that provides for adequate levels of service on existing transportation infrastructure;

(b) To accomplish improvements and capacity projects on transportation infrastructure which meet the demand from projected population and economic growth; and

(c) To accomplish necessary improvements to transportation infrastructure that would support emergency evacuations by users of electric vehicles.

(3) The report shall be submitted to the Governor and the Legislature no later than September 1 of the year immediately after the year in which the commission determines that electric vehicles, as defined in s. 320.01(36), Florida Statutes, and hybrid vehicles, as defined in s. 316.0741, Florida Statutes, make up 2 percent or more of the total number of vehicles registered in this state.

(4) Notwithstanding any other provisions of this section, the commission may undertake and complete the review and report before the 2-percent threshold is reached if the commission finds that earlier completion is appropriate to maintain a financially stable, long-term transportation work program.

Section 4. Paragraph (c) of subsection (7) of section 339.175, Florida Statutes, is amended to read:

339.175 Metropolitan planning organization.—

(7) LONG-RANGE TRANSPORTATION PLAN.—Each M.P.O. must develop a long-range transportation plan that addresses at least a 20-year planning horizon. The plan must include both long-range and short-range strategies and must comply with all other state and federal requirements. The prevailing principles to be considered in the long-range transportation plan are: preserving the existing transportation infrastructure; enhancing Florida's economic competitiveness; and improving travel choices to ensure mobility. The long-range transportation plan must be consistent, to the maximum extent feasible, with future land use elements and the goals, objectives, and policies of the approved local government comprehensive plans of the units of local government located within the jurisdiction of the M.P.O. Each M.P.O. is encouraged to consider strategies that integrate transportation

and land use planning to provide for sustainable development and reduce greenhouse gas emissions. The approved long-range transportation plan must be considered by local governments in the development of the transportation elements in local government comprehensive plans and any amendments thereto. The long-range transportation plan must, at a minimum:

(c) Assess capital investment and other measures necessary to:

1. Ensure the preservation of the existing metropolitan transportation system including requirements for the operation, resurfacing, restoration, and rehabilitation of major roadways and requirements for the operation, maintenance, modernization, and rehabilitation of public transportation facilities; and

2. Make the most efficient use of existing transportation facilities to relieve vehicular congestion, improve safety, and maximize the mobility of people and goods. Such efforts must include, but are not limited to, consideration of infrastructure and technological improvements necessary to accommodate advances in vehicle technology, such as the increased use of autonomous technology and electric vehicles, and other developments.

In the development of its long-range transportation plan, each M.P.O. must provide the public, affected public agencies, representatives of transportation agency employees, freight shippers, providers of freight transportation services, private providers of transportation, representatives of users of public transit, and other interested parties with a reasonable opportunity to comment on the long-range transportation plan. The long-range transportation plan must be approved by the

859872

576-03500-18

M.P.O.

Section 5. This act shall take effect July 1, 2018.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 852
INTRODUCER:	Appropriations Committee (Recommended by Subcommittee on Transportation, Tourism, and Economic Development); Transportation Committee; and Senator Brandes and others
SUBJECT:	Transportation Infrastructure
DATE:	March 5, 2018 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Price	Miller	TR	**Fav/CS**
2.	McAuliffe	Hrdlicka	ATD	**Recommend: Fav/CS**
3.	McAuliffe	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 852 creates the Florida Smart City Challenge Grant Program; requires the Florida Transportation Commission to project the effect of electric and hybrid vehicles on fuel tax revenues; and, creates the Statewide Mobility Innovation Program within the Department of Transportation.

The Florida Smart City Challenge Grant Program is created to provide opportunities to cities and other regions of the state for developing smart mobility solutions to local transportation challenges. The bill authorizes certain state, county, municipal, regional, or other agencies to submit applications to the Florida Department of Transportation (FDOT) for grants to fund certain innovative transportation projects. The bill provides project selection, matching funds, and reporting requirements. The FDOT is directed to provide administrative support and to conduct expedited proposal reviews to facilitate smart city technology deployment within the state.

The bill also requires the Florida Transportation Commission (FTC) to review all funding sources for transportation infrastructure and maintenance projects when it is determined that electric and hybrid vehicles make up two percent or more of the total number of registered vehicles in this state. The report must assess the effect of projected electric and hybrid vehicle use on future revenues from existing fuel taxes and other fees related to nonelectric vehicles. The report must also make recommendations to: provide continued funding to maintain existing

infrastructure; continue to meet projected infrastructure demand; and improve infrastructure to support emergency evacuations by users of electric vehicles.

The bill also requires the FTC, in consultation with the Florida Division of Emergency Management (FDEM), to assess transportation infrastructure with respect to emergency evacuations and electric vehicles, including the availability of electric vehicle charging stations in this state. The bill requires metropolitan planning organization's long-range transportation plans to include an assessment of the increased use of autonomous technology and electric vehicles.

The bill further creates the Statewide Mobility Innovation Program within the Department of Transportation (FDOT). Through the program, FDOT will solicit, evaluate, and finance proposals for the design and construction of innovative mobility systems.

Currently, the Florida Rail Enterprise receives a $60 million from documentary stamp taxes. Beginning in the 2021-2022 fiscal year, the bill redistributes the $60 million to provide $35 million to the Statewide Mobility Innovation Program and $25 million to the Tampa Bay Area Regional Transit Authority (TBARTA). Of the $35 million distributed to the program, $25 million is allocated to Miami-Dade County, $5 million to the Jacksonville Transportation Authority (JTA), and the remaining $5 million will be available to all other counties competing for funding for innovative mobility system projects.

The bill appropriates $15 million in nonrecurring funds from the State Transportation Trust Fund to the FDOT implement the Florida Smart City Challenge Grant Program.

The FTC will incur indeterminate expenses associated with the reporting requirements of this bill. The DHSMV expects the bill to have no impact on expenditures. The FDEM may incur indeterminate expenses associated with its participation in the emergency evacuation assessment.

Beginning in Fiscal Year 2021-2022, the bill will reduce revenues directed to the FRE and may negatively impact FRE projects planned in the FDOT's work program. The FDOT will also incur indeterminate expenses associated with creation and administration of the Statewide Mobility Innovation Program. Counties that elect to apply for funding for innovative mobility system projects will be required to provide matching funds.

The bill takes effect on July 1, 2018.

II. Present Situation:

Smart City Challenge Grant Program

According to the National League of Cities, 66 percent of cities are investing in smart city technology, and 25 percent of cities with no smart city technology are investigating how to implement it.[1] A single definition of smart city technology is difficult to identify, but in the context of transportation, it relates to "using sensors to collect data about the movement of

[1] National League of Cities, *Cities and Innovation Economy: Perceptions of Local Leaders (October 18, 2017)*, available at: http://www.nlc.org/resource/cities-and-innovation-economy-perceptions-of-local-leaders (Last visited January 14, 2018).

people, all forms of vehicles and bikes. A smart city is one that greatly reduces vehicle traffic and allows people and goods to be moved easily through various means."[2] Examples include intelligent vehicle systems and autonomous vehicle transportation. Outcomes of smart city efforts are reduced vehicle related deaths, reduced pollution, reduced traffic times, and healthier populations.[3]

The Federal Smart City Challenge

The United States Department of Transportation (USDOT) launched a Smart City Challenge in December 2015. The challenge asked mid-sized cities "to develop ideas for an integrated, first-of-its-kind smart transportation system that would use data, applications, and technology to help people and goods move more quickly, cheaply, and efficiently."[4] The USDOT committed up to $40 million to one winning city.[5] The USDOT received 78 applications from cities across America, including the following cities in Florida: Jacksonville, Miami, Orlando, St. Petersburg, Tallahassee, and Tampa.[6] However, no Florida city received any funding.

Ultimately, Columbus, Ohio won the challenge by proposing "a comprehensive, integrated plan addressing challenges in residential, commercial, freight, and downtown districts using a number of new technologies, including connected infrastructure, an integrated data platform, autonomous vehicles, and more."[7] The USDOT then worked with selected finalists to further develop the ideas proposed by the cities and, in October 2016, announced an additional $65 million in grants to support advanced technology transportation projects.[8] Again, no city in Florida was selected for project funding.[9]

The State Smart City Challenge Grant Program

The 2017 Legislature enacted legislation[10] requiring the FDOT, in consultation with the Department of Highway Safety & Motor Vehicles and *subject to appropriation*, to develop the Florida Smart City Challenge Grant Program and establish grant award requirements for municipalities or regions for the purpose of receiving grant awards. The law requires grant applications to demonstrate and document the adoption of emerging technologies and their impact on transportation systems and to address at least the following focus areas: autonomous vehicles, connected vehicles, sensor-based infrastructure, collecting and using data, electric vehicles (including charging stations), and developing strategic models and partnerships. The law also specifies a non-exclusive list of goals of the grant program.

[10] Chapter 2017-42, Laws of Florida. Section 316.0898, F.S.

The law requires the FDOT to develop eligibility, application, and selection criteria for the program grants and a plan for promotion of the grant program to municipalities or regions of the state as an opportunity to compete for the grant funding. Criteria must include the award of grants to a single recipient and secondary grants to specific projects of merit within other applications. The law authorizes the FDOT to contract with a third party demonstrating knowledge and expertise in the focuses and goals of the program to provide guidance in the development of the program requirements. By January 1, 2018, the FDOT was to submit the grant program guidelines and plans for promotion of the grant program to the Governor, the Senate President, and the House Speaker.

The 2017 General Appropriations Act contained an appropriation for the Smart City Challenge Grant program, authorizing the FDOT to use up to $325,000 from the State Transportation Trust Fund (STTF) to establish the program. However, that appropriation was vetoed.[11] The program, currently codified in s. 316.0898, F.S., expires on July 1, 2018.

Electric and Hybrid Vehicles

Florida law currently defines two types of vehicles powered, in whole or in part, by electricity: an electric vehicle and a hybrid vehicle. An "electric vehicle," defined for purposes of vehicle registration under ch. 320, F.S., is "a motor vehicle that is powered by an electric motor that draws current from rechargeable storage batteries, fuel cells, or other sources of electrical current."[12] A "hybrid vehicle," defined for purposes of use of high-occupancy-vehicle lanes, is a motor vehicle:

- That draws propulsion energy from onboard sources of stored energy which are both an internal combustion or heat engine using combustible fuel and a rechargeable energy-storage system;
- That, in the case of a passenger automobile or light truck, has received a certificate of conformity under the Clean Air Act…and meets or exceeds the equivalent qualifying California standards for a low-emission vehicle;[13] and
- That, in the case of a tri-vehicle,[14] is an inherently low-emission vehicle.[15]

Florida has enacted a number of EV-related provisions that may incentivize people to purchase EVs. They include:

- Authorizing a local government to enact a program to allow property owners to apply for financing from the local government to install EV charging equipment on his or her property. The local government can collect the loan payments through ad valorem assessments.[16]

[11] Specific Appropriation 1869, proviso, ch. 2017-70, Laws of Florida.
[12] Section 320.01(36), F.S.
[13] For detailed information on California's Low-Emission Vehicle Program, *see* California Air Resources Board, *Low-Emission Vehicle Program (January 25, 2017)*, available at: https://www.arb.ca.gov/msprog/levprog/levprog.htm (Last visited February 21, 2018).
[14] Defined in s. 316.003(93), F.S.
[15] Section 316.0741, F.S.
[16] Section 163.08, F.S.

- Authorizing a local government to use the proceeds of a levied infrastructure surtax (discretionary sales surtax) to provide loans to property owners to install EV charging equipment.[17]
- Allowing hybrid electric vehicles to use high-occupancy-vehicle lanes regardless of occupancy and to use such lanes without paying a toll if one is otherwise required.[18]

In addition, local Florida entities offer EV incentives. The National Conference of State Legislatures reports that, through June 30 of this year or until funds were depleted,[19] Duke Energy and Orlando Utilities Commission customers and employees were eligible for a $10,000 rebate for the purchase of a new, all-electric, 2017 Nissan Leaf at participating dealerships; and the Jacksonville Electric Authority offers rebates for plug-in HEVs with a battery less than 15 kilowatt hours in capacity to receive $500, and plug-in HEVs with larger battery capacity are eligible for $1,000.[20] The federal government also allows an income tax credit of up to $7,500 for certain EVs.[21]

Impact of Electric and Hybrid Vehicles on Transportation Funding/Prior Studies

Taxes on gas and diesel fuel are a primary source of revenue for both the federal highway fund and the State Transportation Trust Fund.[22] Transportation funding has generally experienced a continuing shortfall attributed to static federal gas tax rates, more fuel efficient vehicles, and increasing transportation construction and maintenance costs.[23]

Annual fuel tax revenues at both the state and federal levels are directly based on the number of gallons of gasoline and diesel fuel consumed. Because electric vehicles (EV) are not powered by gasoline or diesel, and because hybrid electric vehicles (HEV) use less gasoline or diesel fuel than a conventional vehicle with only an internal combustion engine, an increase in the number of these vehicles operating in Florida results in less revenue being raised from fuel taxes for comparable vehicle miles traveled.

---

[17] Section 212.055, F.S.
[18] Generally, a high-occupancy-vehicle lane is a lane designed for use by vehicles in which there is more than one occupant. Section 316.0741, F.S.
[19] US Department of Energy, Alternative Fuels Data Center reports this rebate expired on July 1 of this year. *See* AFDC, *Expired, Repealed, and Archived Florida Incentives and Laws*, available at: https://www.afdc.energy.gov/laws/laws_expired?jurisdiction=FL (Last visited February 22, 2018).

[23] *See* US Department of Energy National Renewable Energy Laboratory, *Primer on Motor Fuel Excise Taxes and the Role of Alternative Fuels and Energy Efficient Vehicles (August 2015)*, at p. 7, available at: https://www.afdc.energy.gov/uploads/publication/motor_fuel_tax_primer.pdf (Last visited February 22, 2018).

There are a limited number of studies specifically focused on the impact of EVs[24] on fuel tax revenues. A 2015 study conducted by the University of Central Florida acknowledges the increasing national EV sales trend for the 5-year period prior to the study but concludes:

> Of course, despite the increase, electric and plug-in electric vehicles still represent a small portion of the US auto market. With total vehicles sales for 2014 coming in at around 16.5 million, EVs made up less than 1 percent of total sales.[25]

The study further concludes that EVs, for now and in the near future, will have only a small impact on fuel tax revenues but notes a University of Texas study on EV market share suggesting that by 2050, over 50 percent of fuel tax funds may be lost.[26] The authors highlight the importance of understanding that "the rate at which revenue declines depends on many factors. The relationship among these factors is complex and continued investigation is warranted to better understand vehicle fleet mix, fuel economy, and fuel tax revenue."[27]

According to the study, a number of states are exploring or implementing revenue generating alternatives, both to increase transportation funding in general and also to prepare for revenue reduction due to increased EV sales. These alternatives include a fee based on the number of miles a given vehicle travels,[28] as well as increased direct taxes and surcharges on EV purchases.[29]

For example, in 2015, the Georgia Legislature repealed "one of the nation's most generous state tax credits for electric cars." The Legislature also voted to impose a $200 annual registration fee on owners of some plug-in hybrids and all zero-emissions vehicles to make up for the lost fuel taxes. EV sales then experienced a sharp reduction, a result attributed to the repealed credit and imposed fee.[30]

EV Registration in Florida

The license tax for EVs is the same as that for a vehicle that is not electrically powered.[31] The exact number of EVs registered in Florida is somewhat unclear. Under the Department of Highway Safety and Motor Vehicles' (DHSMV) current vehicle registration system

---

[24] Unless otherwise noted, EV includes both EVs and HEVs.

[30] *See* Politifact Georgia, *Electric car sales hit the brakes as tax credit axed and fee added*, (November 2, 2015), available at: http://www.politifact.com/georgia/statements/2015/nov/02/don-francis/electric-car-sales-hit-brakes-tax-credit-axed-and-/ (Last visited February 22, 2018).
[31] Section 320.08001, F.S. Registration fees differ based on factors such as the type of vehicle, its weight, the license plate chosen, and whether the registration period is one or two years.

programming, a "fuel type" classification is an optional field and therefore the precise number of EVs registered is unknown.[32]

The DHSMV analyzed vehicle identification numbers (VINs) in its motor vehicle registration database using available software and estimated that of the 16.2 million vehicles with VINs that could be analyzed, approximately 247,131 EVs and HEVs, are registered in Florida, or about 1.53 percent.[33]

Emergency Evacuation

The Florida Division of Emergency Management (FDEM) is responsible for maintaining a comprehensive statewide program of emergency management. Among the FDEM's duties is a requirement to prepare a state comprehensive emergency management plan containing provisions that will ensure the state is prepared for emergencies and minor, major, and catastrophic disasters.[34] As part of the plan, the FDEM must include an evacuation component including specific regional and interregional planning provisions and promoting intergovernmental coordination of evacuation activities. Among other items, this part of the plan must establish strategies for ensuring sufficient, reasonably priced fueling locations along evacuation routes.[35] A review of available documents and information on the FDEM's website did not identify an assessment of electric vehicle charging stations for the purpose of emergency evacuations.

Section 377.815, F.S., authorizes the Florida Department of Agriculture and Consumer Services to post information on its website relating to alternative fueling stations or EV charging stations that are available for public use in this state. The department's website provides a list of stations, however, the list is not specific to emergency evacuations.[36]

According to the U.S Department of Energy's Alternative Fuels Data Center, 949 electric vehicle charging stations (2,130 outlets) are currently available in the State of Florida, excluding private stations.[37] The DHSMV notes that no EV charging stations within Florida's transportation infrastructure are specifically designated for use during emergency evacuations.[38]

---

[32] The DHSMV also advises a system change is underway to make "fuel type" a mandatory field. *See* email from DHSMV staff dated September 22, 2017, to staff of the Senate Transportation Committee.

Statewide Mobility Innovation Program

FDOT Organization and the Florida Rail Enterprise

The FDOT is organized into seven geographic districts, each headed by a district secretary, and the Florida Turnpike Enterprise (FTE) and the FRE, each of which are headed by an executive director.[39] The district secretaries and executive directors must be registered professional engineers or hold an advanced degree in an appropriate related discipline.

The FRE operates pursuant to the Florida Rail Enterprise Act[40] and is responsible for:

- Developing and operating the high-speed and passenger rail systems established in ch. 341, F.S.;
- Directing funding for passenger rail systems under s. 341.303, F.S.; and
- Coordinating publicly funded passenger rail operations, including freight rail interoperability issues.

Generally[41] the FRE is exempt from the FDOT's policies, procedures, and standards, subject to the FDOT secretary's authority to apply any such policies, procedures, and standards to the FRE as the secretary deems appropriate.[42]

The FRE is a single budget entity that submits its budget to the Legislature along with the FDOT's budget. All passenger rail funding is included in the FRE's budget.[43] Notwithstanding certain provisions of law relating to undisbursed appropriations balances,[44] on July 1 each year the Governor is required to certify forward (into the next state fiscal year) all unexpended funds appropriated or provided pursuant to s. 341.303, F.S., to the FRE. This includes any expended funds that are unencumbered. The carried-forward funds cannot exceed 5 percent of the original approved FRE operating budget.[45] Funds carried forward may be used for any lawful purpose, including, but not limited to, promotional and market activities, technology, and training. Any certified forward funds that are undisbursed on September 30 of each year are carried forward.[46]

[39] Section 20.23(4)(f), F.S.
[40] Section 20.23(4)(f)1., F.S. The Florida Rail Enterprise Act is located in ss. 341.8201-341.842, F.S.
[41] Except as provided in the Consultants' Competitive Negotiation Act, which relates to agency acquisition of professional architectural, engineering, landscape architectural, or survey and mapping services. s. 287.055, F.S.
[42] Section 20.23(4)(f)2., F.S. Florida's Turnpike Enterprise (FTE) is likewise exempt, subject to the FDOT secretary's same authority, under s. 20.23(4)(e)2., F.S.
[43] Section 341.303(6)(a), F.S.
[44] See s. 216.301, F.S., which generally provides that the balance of any operations appropriation not identified in the state's financial system as an incurred obligation effective June 30th each year ("unencumbered") reverts to the fund from which it was appropriated and is available for re-appropriation by the Legislature. Funds for an identified incurred obligation are "carried forward" in the amount of the identified obligations (unexpended, but encumbered). Generally, fixed capital outlay appropriation balances which are not disbursed but are expended, contracted, or committed to be expended prior to February 1 of the second fiscal year of the appropriation are "certified forward." Similarly, any balance not certified reverts to the fund from which it was appropriated and is available for re-appropriation.
[45] Per s. 216.181, F.S., the General Appropriations Act and any other acts containing appropriations are considered the original approved operating budgets for operational and fixed capital expenditures. The original approved operating budgets may be amended in accordance with provisions contained in that section of law.
[46] Section 341.303(6)(b), F.S. Similar provisions apply to the FTE under s. 338.2216(3), F.S.

Funding for the FRE

The Transportation Regional Incentive Program receives a distribution from documentary stamp taxes, of which the first $60 million of funds are redirected annually to the FRE.[47] Such distribution must be used to fund:

- Up to 50 percent of the nonfederal share of the costs of any eligible[48] passenger rail capital improvement project.
- Up to 100 percent of planning and development costs related to the provision of a passenger rail system.
- The high-speed rail system.
- Projects necessary to identify or address anticipated impact of increased freight rail traffic resulting from the implementation of passenger rail systems.[49]

In addition to documentary stamp tax revenues, the FRE is appropriated additional funds from the State Transportation Trust Fund in the General Appropriations Act. For the 2017-2018 fiscal year, the FRE was authorized one position and a total budget of approximately $237.4 million. Of that amount, $74.4 million was for public transit development grants, $159.6 million for rail development grants, and $2.8 million for intermodal development grants.[50]
Examples of major passenger rail projects that have received funding by the FRE include the Central Florida Commuter Rail System (SunRail)[51] and the South Florida Regional Transportation Authority (TriRail)[52].

Transportation Regional Incentive Program

The Transportation Regional Incentive Program (TRIP) was created in 2005 as part of growth management legislation to "encourage regional planning by providing state matching funds for improvements to regionally significant transportation facilities identified and prioritized by regional partners."[53] It is a "matching program designed to leverage investments in regionally-significant road and public transportation projects."[54] The TRIP funds provide up to 50 percent of the project costs and must be matched by regional, local, or federal dollars or in-kind contributions. Funds are "distributed to the FDOT Districts based on a statutory formula of equal parts population and fuel tax collections."[55] Certain projects receive priority, such as providing connectivity to the strategic intermodal system or supporting economic development and goods movement in rural areas of opportunity.

---

[47] Section 201.15(4)(a), F.S.
[48] Any project necessary to carry out the FDOT's duties and responsibilities provided in s. 341.302, F.S., that is consistent with the approved local government comprehensive plan of the unit of government of the areas served by the rail service, and that is contained in the adopted work program, is eligible for funding in accordance with the identified participation rates, per s. 341.303(2), F.S.
[49] Section 341.303(5), F.S.

Tampa Bay Area Regional Transit Authority

Part V of ch. 343, F.S., creates the Tampa Bay Area Regional Transit Authority (TBARTA). TBARTA covers Hernando, Hillsborough, Manatee, Pasco, and Pinellas Counties and any other contiguous county that is party to an agreement of participation.[56] TBARTA's express purposes are to:

- Plan, implement, and operate mobility improvements and expansions of multimodal transportation options for passengers and freight throughout the designated region;
- Produce a regional transit development plan, integrating the transit development plans of participant counties, to include a prioritization of regionally significant transit projects and facilities; and
- Serve, with the consent of the Governor or designee, as the recipient of federal funds supporting an intercountry project or an intracounty capital project that represents a phase of an intercountry project that exists in a single county within the designated region.[57]

The TBARTA was required to provide to the Legislature a plan to produce the regional development plan on or before the 2018 Regular Session. Currently, the TBARTA is developing the plan to identify projects "that have the greatest potential to be funded (compete for federal grants) and implemented[,]… are the most forward thinking and make the best use of today's technology[, and]…best serve our region today while supporting tomorrow's growth."[58] An evaluation process will use "clearly defined criteria [to] identify the top transit corridors in the region, and ultimately one "catalyst project" that could be implemented first, followed by other projects to move forward around the region."[59]

South Florida Regional Transportation Authority

Part I of ch. 343, F.S., creates the South Florida Regional Transportation Authority (SFRTA). SFRTA covers Broward, Miami-Dada, and Palm Beach Counties, and may expand its service area into Monroe County by resolution of the SFRTA's governing board and consent of the board of county commissioners and any other county with FDOT's approval.[60]

SFRTA receives funding from the State Transportation Trust Fund for the operation, maintenance, and dispatch of the South Florida Rail Corridor.[61] The law specifically prohibits the provision of these funds from the funds dedicated to the FRE from documentary stamp tax distributions.

[56] Section 343.91(1)(a), F.S.
[57] 343.922(1), F.S.
[58] TBARTA, Regional Transit Feasibility Plan, *About*, available at http://tbregionaltransit.com/about/ (last visited February 11, 2018).
[59] Id.
[60] Section 343.54, F.S.
[61] Section 343.58(4), F.S.

Jacksonville Transportation Authority

Chapter 349, F.S., creates the Jacksonville Transportation Authority (JTA). The JTA covers the Duval County and any jurisdiction outside of Duval County with the consent of that jurisdiction.[62] Some of the JTA's purposes and powers are to:

- Acquire, hold, construct, improve, operate, maintain, and lease in the capacity of lessor a mass transit system employing motor cars or buses; street railway systems; or any other means determined useful to the rapid transfer of large numbers of people among the locations of residence, commerce, industry, and education in Duval County;
- Plan, coordinate, and recommend to methods and facilities for the parking of vehicles, the movement of pedestrians, and vehicular traffic (including bicycles), public and private, in Duval County to accomplish a coordinated transportation system for the greater Jacksonville area.[63]

III. Effect of Proposed Changes:

The bill creates a new Florida Smart City Challenge Grant Program to provide opportunities for grants to fund certain innovative transportation projects. The FDOT must issue a request for proposals by September 1, 2018, and distribute awards by January 1, 2019. The bill establishes goals and eligibility requirements for the program; provides project selection criteria and matching funds requirements; sets out reporting requirements; provides for administrative support for the program; and provides an appropriation from the STTF to implement the program.

Section 1 creates s. 316.0899, F.S., effective July 1, 2018, to create a new Florida Smart City Challenge Grant Program within the FDOT. The bill identifies the goals of the program to include:

- Providing opportunities to municipalities and other regions of the state to develop innovative smart mobility solutions to local transportation challenges.
- Deploying smart city technology that has an immediate impact on the safe and efficient movement of people and goods within municipalities and other regions of the state.
- Advancing autonomous, connected, grid-integrated,[64] and electric vehicle readiness and deployment throughout the state.
- Providing enhanced education and workforce development opportunities by deploying emerging technologies that support the state's future workforce.
- Meeting the mobility needs of residents of this state, particularly transportation disadvantaged persons[65] by increasing access to and convenience of transportation within municipalities and other regions of the state.

[62] Section 349.04(2)(q), F.S.
[63] Section 349.04(1), F.S.
[64] The bill defines this term to mean "a motor vehicle that has the ability for two-way power flow between the vehicle and the electric grid and the communications hardware and software that allow for external control of battery charging and discharging."
[65] Section 427.011(1), F.S., defines a "transportation disadvantaged person" as a person who, because of physical or mental disability, income status, or age is unable to transport himself or herself or to purchase transportation and is, therefore, dependent on others to obtain access to health care, employment, education, shopping, social activities, or other life-sustaining activities, or children who are handicapped or high-risk or at-risk as defined in s. 411.202, F.S.

- Facilitating the efficient movement of freight within the state, especially in and around airports and seaports.
- Supporting the reduction or elimination of fossil fuel consumption by relying on renewable energy sources and electric technologies.
- Creating a smart mobility demonstration community in the state that serves as a model for municipalities and other regions nationwide.

The bill authorizes the various government entities to apply to the FDOT for project funding under the program. These government entities include:

- A state, county, municipal, regional, or other agency that is responsible for the movement of persons, goods, or services within a defined geographical region, including an entity created pursuant to chs. 343,[66] 348,[67] or 349,[68] F.S.
- An independent special district with powers that include or are related to infrastructure development or transportation systems or services.
- A metropolitan planning organization (MPO) or transportation planning organization (TPO), with a requirement that each entity responsible for deploying or operating a project on behalf of an MPO or TPO must submit to the FDOT a letter detailing its commitment to the implementation, operation, and maintenance of the project.
- A state university.

The bill requires an applicant to have in place a plan or framework for the implementation of the proposed project in at least one of the following categories:

- Autonomous vehicle deployment or demonstration.
- Connected vehicle technology deployment.
- Shared mobility services innovation and deployment.
- Acceleration of the use of plug-in electric vehicles and electric charging infrastructure, including the deployment of grid-integrated vehicles.

The FDOT is required to issue a request for proposals for the award of program grants by September 1, 2018. Each submitted proposal must include:

- A statement by the applicant certifying that the project will be implement within 5 years after receipt of the grant.
- A plan for fulfilling documentation requirements under the FDOT's Statewide Systems Engineering Management Plan within such 5-year period.[69]

---

[66] Chapter 343, F.S., creates the Northeast Florida Regional Transportation Commission, the South Florida Regional Transportation Authority, the Central Florida Regional Transportation Authority, the Northwest Florida Transportation Corridor Authority, and the Tampa Bay Area Regional Transit Authority.

[67] Chapter 348, F.S., creates the Miami-Dade Expressway Authority, the Tampa-Hillsborough County Expressway Authority, the Santa Rosa Bay Bridge Authority, and the Osceola County Expressway Authority.

[68] Chapter 349, F.S., creates the Jacksonville Transportation Authority.

[69] A Systems Engineering Management Plan (SEMP) enables an engineer "to manage a project using systems engineering principles and methods to maximize the quality of the system being implemented, while minimizing the budget and schedule required for its completion." For extensive details, see the FDOT's systems engineering website available at: http://www.fdot.gov/traffic/its/projects_deploy/semp.shtm (Last visited January 12, 2018). Federal regulations require all Intelligent Transportation System projects funded with federal highway funds to be based on a systems engineering analysis on a scale commensurate with the project scope. See 23 C.F.R. s. 940.11. Required documentation in a SEMP can be extensive. See the list of document templates on the identified FDOT website.

- A description of how operation and maintenance costs for the project will be funded in order to ensure that the FDOT's investment in the project is sustained.
- A plan for evaluation of the project and the methods by which such evaluation will be shared with residents of the area served by the project.
- The procedure for integrating the project's transportation-related data into the FDOT's Data Integration and Video Aggregation System.[70]

The FDOT must award a grant to at least three recipients, with each award limited to no more than $6 million. The FDOT must distribute awards by January 1, 2019. An award may fund up to 50 percent of project costs. A grant recipient must fund at least 10 percent of project costs, and a minimum of 10 percent of project costs must be funded by the private sector. Grant funds must be used exclusively for startup costs, including acquisition of hardware, software, and assets associated with implementing a project. Grant funds may not be used for costs associated with operation, maintenance, or evaluation of the project.

When selecting grant recipients, the FDOT must give priority to proposals that:
- Demonstrate the availability of matching funds;[71]
- Include a plan for documenting the acquisition and expenditure of matching funds; and
- Include a larger amount of matching funds from private sector partner organizations.

Matching funds may be used for costs associated with operation, maintenance, and evaluation of the project.

Each grant recipient must submit a quarterly report to the FDOT regarding the development, implementation, and operation of the project. A grant recipient that receives matching funds must document the contribution of such funds in the quarterly report that details the manner in which the value of such contribution is calculated. The FDOT must submit a quarterly report to the Senate President and House Speaker regarding the overall status of the grant program.

After a project is implemented, each grant recipient must submit a report to the Governor, the Senate President, and the House Speaker detailing: the project's impact on the transportation system within the area served by the project; the extent to which the goals of the grant program have been met; and recommendations for project revisions or improvements to guide future deployment activities. A final report must be submitted 2 years after submission of the initial report.

[70] This system integrates and manages real-time information. It consists of a data integration subsystem, which collects and integrates transportation and related data from numerous sources and integrates that data for internal and external dissemination and consumption; and a video aggregation subsystem, which aggregates "live streaming video from FDOT and external agency cameras for distribution using ubiquitous, modern video streaming technologies, such that video is made available to users regardless of their specific location or device platform. See the FDOT's *TSM&O Disseminator*, July-August 2017, at p. 9, available at: http://www.fdot.gov/traffic/Newsletters/2017/2017-AUG.pdf (Last visited January 12, 2018).

[71] Under the bill, "matching funds" includes in-kind services, goods, equipment, or other noncash contributions calculated at fair market value.

The bill requires the FDOT to provide administrative support to the grant program to facilitate the deployment of smart city technology within the state, including expedited review of submitted proposals.

The FDOT may select an independent nongovernmental entity to assist in project construction, management, and evaluation; to oversee the implementation of the project; and to analyze and document lessons learned during, and benefits derived from, implementation of the project. The nongovernmental entity must have experience with the national (federal) Smart Cities Initiative, advanced transportation deployment experience in this state, extensive engineering experience, or expertise in stakeholder engagement of potential partners to create a demonstration community.

Section 2 appropriates $15 million in nonrecurring funds from the State Transportation Trust Fund for the 2018-2019 fiscal year to the FDOT to implement the program.

Electric and Hybrid Vehicles

Section 3 requires the FTC to review all sources of revenue for transportation infrastructure and maintenance projects and prepare a report to the Governor and the Legislature when the FTC determines that electric vehicles, as defined in s. 320.01(36), F.S., and hybrid vehicles, as defined in s. 316.0741, F.S., make up two percent or more of the total number of vehicles registered in this state.

The FTC, in consultation with the DHSMV, is authorized to use commercially available data that the FTC deems reliable to support its determination and report. In consultation with the FDEM, the FTC is also required to assess transportation infrastructure with respect to emergency evacuations and EVs, including, but not limited to, the availability of EV charging stations in this state.

At a minimum, the report must assess the effect of projected electric and hybrid vehicle use in this state on future revenue from existing taxes, fees, and surcharges related to nonelectric, private-use motorcycles, mopeds, automobiles, tri-vehicles, and trucks. The report must include recommendations to the Legislature to:

- Ensure continued funding for necessary maintenance that provides for adequate levels of service on existing transportation infrastructure;
- Accomplish improvements and capacity projects on transportation infrastructure which meet the demand from projected population and economic growth; and
- Accomplish necessary improvements to transportation infrastructure that would support emergency evacuations by users of electric vehicles.

The bill requires the report to be submitted to the Governor and the Legislature by September 1 of the year immediately after the year in which the FTC determines that electric and hybrid vehicles make up two percent or more of the total number of vehicles registered in this state. The FTC is authorized to complete the review and report before the two-percent threshold is reached if the FTC determines that earlier completion is appropriate to maintain a financially stable long-term transportation work program.

Section 4 amends s. 339.175(7)(c)2., F.S., requiring each metropolitan planning organization to consider the increased use of autonomous technology and electric vehicles, and other developments, when making its capital investment assessment as part of development of its long-range transportation plan.

Statewide Mobility Innovation Program Funding

Section 5 amends s. 201.15(4)(a)4., F.S., relating to the distribution of documentary stamp taxes to the TRIP. For the 2018-2019, 2019-2020, and 2021-2021 fiscal years, the FRE will continue to receive $60 million distributed from the documentary stamp taxes pursuant to this subparagraph.

Beginning in the 2021-2022 fiscal year, the first $60 million allocated to the TRIP will be allocated for innovative mobility systems as follows:

- $25 million on a matching basis to TBARTA for the design and construction of an innovative mobility system.
- $35 million to the Statewide Mobility Innovation Program for the purposes established in s. 341.86, F.S. (which directs that $25 million of those funds be distributed to Miami-Dade County, $5 million to the JTA, and the remaining $5 million available for any other counties).

The funds distributed to the TBARTA require one dollar in local or private matching funds for each dollar distributed, and federal funds may not be substituted for the local or private matching funds. If TBARTA notifies the FDOT that it will not request all of the funds allocated for an innovative mobility system, the FDOT must allocate those funds to projects in the 5-year work program in the jurisdiction of TBARTA.

The existing prohibition against pledging the distributed funds for debt service unless such pledge is approved by referendum of the voters is unchanged.

Statewide Mobility Innovation Program

Section 6 creates s. 339.84, F.S., creating the Statewide Mobility Innovation Program within the FDOT. "Innovative mobility system" is defined as a "system of infrastructure, appurtenances, and technology designed to move the greatest number of people in the least amount of time." An innovative mobility system includes automated people movers, bus rapid transit networks, autonomous vehicles,[72] transportation network companies,[73] ridesharing,[74] and commuter highway vehicles,[75] but not other traditional uses of a roadway system for conveyance.

[72] Section 316.003, F.S., currently defines "autonomous vehicle" as any vehicle equipped with autonomous technology, with certain exclusions. "Autonomous technology" is defined to mean technology installed on a motor vehicle that has the capability to drive the vehicle on which the technology is installed without the active control of monitoring by a human operator.
[73] Section 627.748, F.S., defines "transportation network company" or "TNC" as an entity operating in this state using a digital network to connect a rider to a TNC driver, who provides prearranged rides.
[74] The term "ridesharing" is defined in s. 341.031(9)(a), F.S.
[75] 49 U.S.C. s. 5323(i)(2)(C)(ii) defines "commuter highway vehicle as "any vehicle…the seating capacity of which is at least 6 adults (not including the driver); and…at least 80 percent of the mileage use of which can be reasonably expected to be for the purposes of transporting commuters in connection with travel between their residences and their place of employment."

The goals of the program include, but are not limited to:

- Evaluating, financing, and overseeing proposals for innovative mobility systems in this state;
- Expending funds to publicize and promote innovative mobility systems and to contract with entities to accomplish these purposes; and
- Soliciting proposals in accordance with ch. 287, F.S.,[76] for the design and construction of innovative mobility systems and contracting with entities to expend funds to accomplish this purpose.

The FDOT, through the program, is required to use the $35 million distributed from documentary stamp tax revenues in a county to fund the design and construction of an innovative mobility system for passengers, based on a county proposal that the FDOT approves as being consistent with the requirements of the new law. More specifically, the bill requires the program to use:

- $25 million for an innovative mobility systems in a county as defined in s. 125.011(1), F.S. (Miami-Dade County).[77]
- $5 million for an innovative mobility systems in the Jacksonville Transportation Authority.
- $5 million for an innovative mobility systems in any other county or counties in the state.

If Miami-Dade County notifies the FDOT that it will not request all of the funds allocated for an innovative mobility system, the FDOT must allocate those funds to projects in the 5-year work program in the jurisdiction of the county.

A county proposing use of innovative mobility system funds must submit a request to the FDOT. The request must include a detailed project and financial plan, and must specify the project's duration and the total amount of funding sought by state fiscal year.

One dollar in local or private matching funds is required for each dollar distributed, and federal funds may not be substituted for the local or private matching funds. Additionally, funds distributed may not be used to subsidize projects with existing funding commitments as of July 1, 2018.

Conforming Revision

Section 7 amends s. 341.303, F.S., to provide the FDOT may not program any funds from the documentary stamps after Fiscal Year 2017-2018 to ensure funding will be available for the Statewide Mobility Innovation Program beginning in 2021.

Section 8 repeals subsection (5) of s. 341.303, F.S., effective July 1, 2021, which sets forth how the FRE is required to use the distribution from the documentary stamp taxes.

[76] Chapter 287, F.S., sets forth requirements and procedures to be used by state agencies in managing and procuring commodities and contractual services.

[77] Section 125.011(1), F.S., defines a county as: "[A]any county operating under a home rule charter adopted pursuant to Art. VIII, ss. 10, 11, and 24 of the State Constitution of 1885, as preserved by Art. VIII, s. 6(e) of the State Constitution of 1968, which county, by resolution of its board of county commissioners, elects to exercise the powers herein conferred." Of the local governments authorized to operate under a home rule charter by the State Constitutions of 1885 and 1968, only Miami-Dade County operates under a home-rule charter, which was adopted on May 21, 1957, under the constitutional provision.

Section 9 amends s. 343.58(4), F.S., effective July 1, 2021, to conform to changes made in the bill by prohibiting the SFRTA from receiving documentary stamp tax revenues distributed to the Statewide Mobility Innovation Program, instead of the FRE.

The bill takes effect on July 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

The bill does not implicate the mandates provisions of the State Constitution. Counties and cities are not required to apply to the program, but those that do apply for funding from the Florida Smart City Challenge Grant Program will be required to provide matching funds.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Private-sector partners who invest in innovative transportation projects may benefit to the extent that the project receives state grant funding.

The traveling public in Miami-Dade County and in the counties covered by the JTA and TBARTA, as well as in any other county in which an innovative mobility system project is constructed, may benefit from increased mobility options.

C. Government Sector Impact:

Florida Smart City Challenge Grant Program

The bill appropriates $15 million in nonrecurring funds from the State Transportation Trust Fund for Fiscal Year 2018-2019 to the FDOT to implement the program. This appropriation may be used to fund the costs incurred by FDOT to implement the Florida Smart City Challenge Grant Program as noted below.

The FDOT will incur administrative expenses associated with:
- Issuing the request for proposals.
- Conducting expedited reviews of proposals and awarding grants.
- Preparing the required quarterly reports.
- Providing administrative support.

FTC EV Report

Related to the report on EVs in Florida, the FTC will incur indeterminate expenses associated with:
- Determining when EVs make up two percent of vehicle registrations;
- Assessing transportation revenue impacts of EV registrations;
- Assessing infrastructure related to emergency evacuations for EVs; and
- Preparing the report required by the bill.

The DHSMV expects the bill to have no impact on its expenditures.

The FDEM may incur indeterminate expenses associated with its participation in the emergency evacuation assessment.

Statewide Mobility Innovation Program

Beginning in Fiscal Year 2021-2022, a distribution of the first $60 million in documentary stamp tax revenues for TRIP will be distributed to the:
- TBARTA in the amount of $25 million.
- Statewide Mobility Innovation Program in the amount of $35 million.

The FRE portion of the FDOT's work program will have a $60 million reduction in funding starting in Fiscal Year 2021-2022. As a result, FRE projects planned for the future may be either delayed or canceled. The FDOT states that it has $342.6 million of plan commitments related to the FRE in the Adopted 5-Year Work Program (FYs 2017-2018 to 2021-2022). The FDOT estimates that "redirecting revenue resources would significantly disrupt the FRE-related projects as well as other projects in the work program."[78]

The FDOT will incur indeterminate expenses associated with creation of the program.[79]

Under the bill, Miami-Dade County and the TBARTA will each receive $25 million per year, and the JTA will receive $5 million per year for innovative mobility systems projects. The remaining $5 million will be available to all other counties competing for funding for innovative mobility system projects.

To the extent that counties, including Miami-Dade County, wish to engage in innovative mobility system projects, the bill requires local or private matching funds to be provided.

[78] FDOT, *2018 Agency Legislative Bill Analysis: SB 1200*, February 7, 2018.
[79] Id.

To the extent that a county provides matching funds, the local resources used as a match would not be available for other purposes in that county. Further, projects with existing funding commitments as of July 1, 2018, will not be eligible for funding.

VI. Technical Deficiencies:

None.

VII. Related Issues:

Under the portion of the bill creating the Statewide Mobility Innovation Program, the bill does not include the same provision for the Jacksonville Transportation Authority as it does for Miami-Dade County, which allows Miami-Dade County to notify the FDOT that it will not request all of the funds allocated for an innovative mobility system and requires the FDOT to allocate those funds to projects in the 5-year work program in the jurisdiction of the county.

VIII. Statutes Affected:

This bill creates section 316.0899 of the Florida Statutes.

This bill creates an undesignated section of Florida Law.

This bill amends section 339.175 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on March 2, 2018:
The committee substitute changes the bill to "[a]n act relating to transportation infrastructure" and adds the substance of CS/SB 384 and CS/SB 1200 (2017) to the bill.

The committee substitute requires the FTC to review all revenue sources for transportation infrastructure and maintenance projects and assess the effect of projected electric and hybrid vehicle use on future revenue from existing taxes, fees, and surcharges; make an assessment with the FDEM of transportation infrastructure with respect to emergency evacuations and electric vehicles; and prepare a report containing certain recommendations at the specified time.

The committee substitute revises planning requirements related to autonomous technology and electric vehicles to be considered as part of each metropolitan planning organization's development of the long-range transportation plan.

The committee substitute creates the Statewide Mobility Innovation Program within the Department of Transportation (FDOT). Through the program, FDOT will solicit, evaluate, and finance proposals for the design and construction of innovative mobility systems.

CS by Transportation on January 18, 2018:
The Committee Substitute:

- Creates a "Definitions" subsection, defines "grid-integrated vehicle," and relocates the definition of "matching funds" to this subsection.
- Revises one of the categories for which an applicant must have in place a plan or framework for project implementation to include acceleration of deployment of grid-integrated vehicles.
- Requires the FDOT to award at least three grants, rather than a awarding a maximum of three.
- Requires a grant recipient to fund at least ten percent of project costs and correspondingly removes a reference to partner organizations funding "50 percent of" projects costs in the provisions relating to priority selection of proposals.
- Revises the authorized uses of grant funds to specifically include acquisition of hardware, software, and assets associated with project implementation.
- Requires each recipient's initial report to be submitted to the Governor, in addition to the Senate President and the House Speaker.
- Authorizes the FDOT to select an independent nongovernmental entity to assist in project construction, management, and evaluation; and requires such entity to have certain prior experience.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Transportation; and Senators Brandes and Taddeo

596-02191-18 2018852c1

A bill to be entitled

An act relating to the Florida Smart City Challenge Grant Program; creating s. 316.0899, F.S.; defining the terms "grid-integrated vehicle" and "matching funds"; creating the program within the Department of Transportation; providing program goals; providing grant eligibility requirements; requiring the department to issue a request for proposals by a specified date; providing proposal requirements; providing requirements for the award of grants and the use of grant funds; providing reporting requirements; requiring administrative support by the department; authorizing the department to select an independent nongovernmental entity to assist in project construction, management, and evaluation for specified purposes; providing requirements for the nongovernmental entity; providing an appropriation; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 316.0899, Florida Statutes, is created to read:

316.0899 Florida Smart City Challenge Grant Program.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Grid-integrated vehicle" means a motor vehicle that has the ability for two-way power flow between the vehicle and the electric grid and the communications hardware and software that allow for external control of battery charging and discharging.

(b) "Matching funds" includes in-kind services, goods, equipment, or other noncash contributions calculated at fair market value.

(2) CREATION; GOALS.—The Florida Smart City Challenge Grant Program is created within the Department of Transportation. The goals of the grant program include, but are not limited to:

(a) Providing opportunities to municipalities and other regions of the state to develop innovative smart mobility solutions to local transportation challenges.

(b) Deploying smart city technology that has an immediate impact on the safe and efficient movement of people and goods within municipalities and other regions of the state.

(c) Advancing autonomous, connected, grid-integrated, and electric vehicle readiness and deployment throughout the state.

(d) Providing enhanced education and workforce development opportunities by deploying emerging technologies that support the state's future workforce.

(e) Meeting the mobility needs of residents of this state, particularly transportation disadvantaged persons as defined in s. 427.011, by increasing access to and convenience of transportation within municipalities and other regions of the state.

(f) Facilitating the efficient movement of freight within the state, especially in and around airports and seaports.

(g) Supporting the reduction or elimination of fossil fuel consumption by relying on renewable energy sources and electric technologies.

(h) Creating a smart mobility demonstration community in

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

the state that serves as a model for municipalities and other regions nationwide.

(3) ELIGIBILITY REQUIREMENTS.—

(a) The following entities may apply to the Department of Transportation for a grant to fund projects under the Florida Smart City Challenge Grant Program:

1. A state, county, municipal, regional, or other agency that is responsible for the movement of persons, goods, or services within a defined geographical region, including an entity created pursuant to chapter 343, chapter 348, or chapter 349.

2. A metropolitan planning organization or transportation planning organization. Each entity responsible for deploying or operating the project on behalf of a metropolitan planning organization or transportation planning organization must submit a letter to the department detailing its commitment to the implementation, operation, and maintenance of the project.

3. A state university.

(b) An applicant for a Florida Smart City Challenge Grant must have in place a plan or framework for the implementation of the proposed project in at least one of the following categories:

1. Autonomous vehicle deployment or demonstration.

2. Connected vehicle technology deployment.

3. Shared mobility services innovation and deployment.

4. Acceleration of the use of plug-in electric vehicles and electric charging infrastructure, including deployment of grid-integrated vehicles.

(4) PROPOSALS.—By September 1, 2018, the Department of

Transportation shall issue a request for proposals for the award of a Florida Smart City Challenge Grant. Each proposal submitted to the department must include:

(a) A statement by the applicant certifying that the project will be implemented and operational within 2 years after receipt of the grant.

(b) A plan for fulfilling documentation requirements under the department's Statewide Systems Engineering Management Plan within such 2-year period.

(c) A description of how operation and maintenance costs for the project will be funded in order to ensure that the department's investment in the project is sustained.

(d) A plan for evaluation of the project and the methods by which such evaluation will be shared with residents of the area served by the project.

(e) The procedure for integrating the project's transportation-related data into the department's Data Integration and Video Aggregation System.

(5) AWARD OF GRANTS.—The Department of Transportation shall award a Florida Smart City Challenge Grant to at least three recipients. Each award may not exceed $6 million. The department shall distribute the award to each recipient by January 1, 2019.

(a) The grant may fund up to 50 percent of project costs. At least 10 percent of project costs must be funded by the grant recipient. Grant funds must be used exclusively for startup costs, including, but not limited to, acquisition of hardware, software, and assets associated with implementation of the project, and may not be used for costs associated with operation or maintenance of the project.

(b) In selecting grant recipients, the department shall give priority to those proposals that demonstrate the availability of matching funds from partner organizations to fund project costs and that include a plan for documenting the acquisition and expenditure of such matching funds.

1. The department shall give further priority to those proposals that include matching funds from private-sector partner organizations; however, local public funds may also be used.

2. Matching funds may be used for costs associated with operation, maintenance, and evaluation of the project.

3. A grant recipient that receives matching funds must document the contribution of such funds in a quarterly report that details the manner in which the value of such contribution is calculated.

(6) REPORTING REQUIREMENTS.—

(a) Each recipient of a Florida Smart City Challenge Grant shall submit a quarterly report to the Department of Transportation regarding the development, implementation, and operation of the project. Such report must include information documented pursuant to subparagraph (5)(b)3.

(b) The Department of Transportation must submit a quarterly report to the President of the Senate and the Speaker of the House of Representatives regarding the overall status of the grant program.

(c) After implementation of the project is complete, each recipient must submit an initial report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which details the project's impact on the

transportation system within the area served by the project, the extent to which the goals of the grant program have been met, and recommendations for project revisions or improvements to guide future deployment activities. A final report must be submitted 2 years after submission of the initial report.

(7) ADMINISTRATIVE SUPPORT.—The Department of Transportation shall provide administrative support to the Florida Smart City Challenge Grant Program in order to facilitate the deployment of smart city technology within the state, including, but not limited to, expedited review of proposals submitted under subsection (4). The department may select an independent nongovernmental entity to assist in project construction, management, and evaluation; to oversee the implementation of the project; and to analyze and document lessons learned during, and benefits derived from, implementation of the project. The nongovernmental entity must have experience with the national Smart Cities Initiative, advanced transportation deployment experience in this state, extensive engineering experience, or expertise in stakeholder engagement of potential partners to create a demonstration community as described in paragraph (2)(h).

Section 2. For the 2018-2019 fiscal year, the sum of $15 million in nonrecurring funds is appropriated from the State Transportation Trust Fund to the Department of Transportation for the purpose of implementing this act.

Section 3. This act shall take effect July 1, 2018.

2.	Reagan	Betta	AEN	**Recommend: Fav/CS**
3.	Reagan	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/SB 992 revises provisions relating to the C-51 reservoir project, which is located in western Palm Beach County. Specifically, the bill:

- Adds the phrase "to the extent practicable" to the requirement that the South Florida Water Management District (SFWMD) operate the reservoir project to maximize the reduction of high-volume Lake Okeechobee regulatory releases to the St. Lucie or Caloosahatchee estuaries;
- Requires the operation of Phase I of the reservoir project to be in accordance with any operation and maintenance agreement adopted by the SFWMD;
- Requires that water made available by Phase I or Phase II of the reservoir project be used for natural systems in addition to any permitted, rather than allocated, amounts for water supply;
- Provides that water received from Lake Okeechobee may only be available to support consumptive use permits if such use is in accordance with the SFWMD rules; and
- Authorizes the SFWMD to enter into a capacity allocation agreement with a water supply entity for a pro rata share of unreserved capacity in the water storage facility and request the Department of Environmental Protection (DEP) to waive repayment of all or a portion of the loan issued through the water storage facility revolving loan fund.
- If any or all of the loan is waived, the DEP will not receive repayment of up to $30 million depending on what reasonable value the DEP deems appropriate.
