BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 152
INTRODUCER:	Senator Grimsley
SUBJECT:	Ordering of Medication
DATE:	February 24, 2016
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Stovall	Stovall	HP	**Favorable**
2.	Brown	Pigott	AHS	**Recommend: Favorable**
3.	Brown	Kynoch	AP	**Pre-meeting**

I. Summary:

SB 152 provides express authority for an advanced registered nurse practitioner to order *any* medication for administration to a patient in a hospital, ambulatory surgical center, or mobile surgical facility within the framework of an established protocol. The bill provides express authority in chapter 893, Florida Statutes, the Florida Comprehensive Drug Abuse Prevention and Control Act, for a supervisory physician to authorize a physician assistant or an advanced registered nurse practitioner to order controlled substances for administration to a patient in a hospital, ambulatory surgical center, or mobile surgical facility.

The bill has an indeterminate fiscal impact. See Section V.

The bill has an effective date of July 1, 2016.

II. Present Situation:

Regulation of Physician Assistants in Florida

Chapter 458, F.S., sets forth the provisions for the regulation of the practice of medicine by the Board of Medicine. Chapter 459, F.S., similarly sets forth the provisions for the regulation of the practice of osteopathic medicine by the Board of Osteopathic Medicine. Physician assistants (PAs) are regulated by both boards. Licensure of PAs is overseen jointly by the boards through the Council on Physician Assistants.[1]

[1] The council consists of three physicians who are members of the Board of Medicine; one physician who is a member of the Board of Osteopathic Medicine; and a physician assistant appointed by the State Surgeon General. (*See* ss. 458.347(9) and 459.022(9), F.S.)

Physician assistants are trained and required by statute to work under the supervision and control of medical physicians or osteopathic physicians.[2] The Board of Medicine and the Board of Osteopathic Medicine have adopted rules that set out the general principles a supervising physician must use in developing the scope of practice of the PA under both direct[3] and indirect[4] supervision.

A supervising physician's decision to permit a PA to perform a task or procedure under direct or indirect supervision must be based on reasonable medical judgment regarding the probability of morbidity and mortality to the patient. The supervising physician must be certain that the PA is knowledgeable and skilled in performing the tasks and procedures assigned.[5] Each physician or group of physicians supervising a licensed PA must be qualified in the medical areas in which the PA is to perform and must be individually or collectively responsible and liable for the performance and the acts and omissions of the PA.[6]

Current law allows a supervisory physician to delegate to a licensed PA the authority to prescribe or dispense any medication used in the physician's practice, except controlled substances, general anesthetics, and radiographic contrast materials.[7] However, Florida law does allow a supervisory physician to delegate authority to a PA to order any medication, including controlled substances, general anesthetics, and radiographic contrast materials, for a patient of the physician during the patient's stay in a facility licensed under ch. 395, F.S.[8]

Regulation of Advanced Registered Nurse Practitioners in Florida

Chapter 464, F.S., governs the licensure and regulation of nurses in Florida. Nurses are licensed by the Department of Health and are regulated by the Board of Nursing.[9]

An advanced registered nurse practitioner (ARNP) is a licensed nurse who is certified in advanced or specialized nursing.[10] Florida recognizes three types of ARNP: nurse practitioner

[2] Sections 458.347(4) and 459.022(4), F.S.
[3] "Direct supervision" requires the physician to be on the premises and immediately available. (*See* Fla. Admin. Code R. 64B8-30.001(4) and 64B15-6.001(4).
[4] "Indirect supervision" refers to the easy availability of the supervising physician to the physician assistant, which includes the ability to communicate by telecommunications, and requires the physician to be within reasonable physical proximity. (*See* Fla. Admin. Code R. 64B8-30.001(5) and 64B15-6.001(5).
[5] Fla. Admin. Code R. 64B8-30.012(2) and 64B15-6.010(2).
[6] Sections 458.347(3) and 459.022(3), F.S.
[7] Sections 458.347(4)(e) and (f)1 and 459.022(4)(e), F.S.
[8] *See* s. 395.002(16), F.S. The facilities licensed under ch. 395, F.S., are hospitals, ambulatory surgical centers, and mobile surgical facilities.
[9] The Board of Nursing is composed of 13 members appointed by the Governor and confirmed by the Senate who serve 4-year terms. Seven of the 13 members must be nurses who reside in Florida and have been engaged in the practice of professional nursing for at least 4 years. Of those seven members, one must be an advanced registered nurse practitioner, one a nurse educator at an approved nursing program, and one a nurse executive. Three members of the BON must be licensed practical nurses who reside in the state and have engaged in the practice of practical nursing for at least 4 years. The remaining three members must be Florida residents who have never been licensed as nurses and are in no way connected to the practice of nursing, any health care facility, agency, or insurer. Additionally, one member must be 60 years of age or older. (*See* s. 464.004(2), F.S.)
[10] "Advanced or specialized nursing practice" is defined as the performance of advanced-level nursing acts approved by the Board of Nursing which, by virtue of post-basic specialized education, training and experience, are appropriately performed by an advanced registered nurse practitioner. (*See* s. 464.003(2), F.S.)

(NP), certified registered nurse anesthetist (CRNA), and certified nurse midwife (CNM).[11] To be certified as an ARNP, a nurse must hold a current license as a registered nurse[12] and submit proof to the Board of Nursing that he or she meets one of the following requirements:[13]

- Satisfactory completion of a formal post-basic educational program of specialized or advanced nursing practice;
- Certification by an appropriate specialty board;[14] or
- Graduation from a master's degree program in a nursing clinical specialty area with preparation in specialized practitioner skills.

Advanced or specialized nursing acts may only be performed under protocol of a supervising physician or dentist.[15] Within the established framework of the protocol, an ARNP may:[16]

- Monitor and alter drug therapies;
- Initiate appropriate therapies for certain conditions; and
- Order diagnostic tests and physical and occupational therapy.

The statute further describes additional acts that may be performed within an ARNP's specialty certification (CRNA, CNM, and NP).[17]

Advanced registered nurse practitioners must meet financial responsibility requirements, as determined by rule of the Board of Nursing, and the practitioner profiling requirements.[18] The Board of Nursing requires professional liability coverage of at least $100,000 per claim with a minimum annual aggregate of at least $300,000 or an unexpired irrevocable letter of credit in the same amounts payable to the ARNP.[19]

Florida law does not authorize ARNPs to prescribe controlled substances.[20] However, s. 464.012(4)(a), F.S., provides express authority for a CRNA to order certain controlled substances "to the extent authorized by established protocol approved by the medical staff of the facility in which the anesthetic service is performed."

[11] Section 464.003(3), F.S. Florida certifies clinical nurse specialists as a category distinct from advanced registered nurse practitioners. (*See* ss. 464.003(7) and 464.0115, F.S.)
[12] Practice of professional nursing. (See s. 464.003(20), F.S.)
[13] Section 464.012(1), F.S.
[14] Specialty boards expressly recognized by the Board of Nursing include: Council on Certification of Nurse Anesthetists, or Council on Recertification of Nurse Anesthetists; American College of Nurse Midwives; American Nurses Association (American Nurses Credentialing Center); National Certification Corporation for OB/GYN, Neonatal Nursing Specialties; National Board of Pediatric Nurse Practitioners and Associates; National Board for Certification of Hospice and Palliative Nurses; American Academy of Nurse Practitioners; Oncology Nursing Certification Corporation; American Association of Critical-Care Nurses Adult Acute Care Nurse Practitioner Certification. (*See* Fla. Admin. Code R. 64B9-4.002(2)).
[15] Section 464.003(2), F.S.
[16] Section 464.012(3), F.S.
[17] Section 464.012(4), F.S.
[18] Sections 456.0391 and 456.041, F.S.
[19] Fla. Admin. Code R. 64B9-4.002(5).
[20] Sections 893.02(21) and 893.05(1), F.S.

Definitions related to the Ordering of Medicinal Drugs

Chapter 464, F.S., does not contain a definition of the terms "order" or "prescribe." Chapter 465, F.S., relating to pharmacy, defines "prescription" as "any order for drugs or medicinal supplies written or transmitted by any means of communication by a duly licensed practitioner authorized by the laws of the state to prescribe such drugs or medicinal supplies and intended to be dispensed by a pharmacist.[21] "Dispense" is defined as "the transfer of possession of one or more doses of a medicinal drug by a pharmacist to the ultimate consumer or her or his agent."[22] "Administration" is defined as "the obtaining and giving of a single dose of medicinal drugs by a legally authorized person to a patient for her or his consumption."[23] Chapter 893, F.S., relating to drug abuse prevention and control, contains similar definitions.[24]

ARNP Petition for Declaratory Statement

On January 22, 2014, a petition for declaratory statement[25] was filed with the Board of Nursing which asked, "Can ARNPs legally order narcotics for patients we treat in the institution with written protocols from our attending Doctors [sic]?"[26] The petition noted that prior to January 1, 2014, ARNPs ordered controlled substances for patients. Effective January 1, 2014, the hospital disallowed the practice and required all ARNPs to get an order from a physician. The hospital cited passage of legislation in 2013 which clarified the authority of physician assistants to order controlled substances but did not address the authority of ARNPs.[27] The Board of Nursing dismissed the petition, finding that it failed to comply with the requirements of chapter 120 and that it sought an opinion regarding the scope of practice of a category of licensees based on an employer's policies.

Drug Enforcement Agency Registration

An individual practitioner[28] who is an agent or employee of another practitioner (other than a mid-level practitioner)[29] registered to dispense controlled substances, may, when acting in the normal course of business or employment, administer or dispense (other than by issuance of a prescription) controlled substances if and to the extent authorized by state law, under the registration of the employer or principal practitioner in lieu of being registered himself or herself.[30]

---

[22] Section 465.003(6), F.S.
[23] Section 465.003(1), F.S.
[24] See ss. 893.02(1), 893.02(7), and 893.02(22), F.S.
[25] A declaratory statement is an agency's opinion regarding the applicability of a statutory provision, rule, or agency order to a petitioner's set of circumstances. (*See* s. 120.565(1), F.S.)
[26] Petition for Declaratory Statement filed by Carolann Robley ARNP, MSN, BC, FNP (on file with the Senate Committee on Health Policy).
[27] *See* ch. 2013-127, Laws of Fla.
[28] "Practitioner" means a physician, dentist, veterinarian, scientific investigator, pharmacy, hospital, or other person licensed, registered, or otherwise permitted, by the United States of the jurisdiction in which he practices or does research, to distribute, dispense, conduct research with respect to, administer, or use in teaching or chemical analysis, a controlled substance in the course of professional practice or research. See 21 U.S.C. s. 802(21) (2011).
[29] Examples of mid-level practitioners include, but are not limited to: nurse practitioners, nurse midwives, nurse anesthetists, clinical nurse specialists, and physician assistants.
[30] 21 C.F.R. 1301.22.

Health care practitioners who are agents or employees of a hospital or other institution, may, when acting in the usual course of business or employment, administer, dispense, or prescribe controlled substances under the registration of the hospital or other institution in which he or she is employed, in lieu of individual registration, provided that:

- The dispensing, administering, or prescribing is in the usual course of professional practice;
- The practitioner is authorized to do so by the state in which he or she practices;
- The hospital or other institution has verified that the practitioner is permitted to administer, dispense, or prescribe controlled substances within the state;
- The practitioner acts only within the scope of employment in the hospital or other institution;
- The hospital or other institution authorizes the practitioner to administer, dispense, or prescribe under its registration and assigns a specific internal code number for each practitioner; and
- The hospital or other institution maintains a current list of internal codes and the corresponding practitioner.[31]

III. Effect of Proposed Changes:

This bill expressly authorizes an advanced registered nurse practitioner (ARNP) to order any medication, including a controlled substance, for administration to a patient in a hospital, ambulatory surgical center, or mobile surgical facility within the framework of an established protocol. This authority is comparable to the express authority previously granted by the Legislature to physician assistants (PAs).

The bill also provides express authority in ch. 893, F.S., for a supervisory physician to authorize a PA or ARNP to order controlled substances for administration to a patient in a hospital, ambulatory surgical center, or mobile surgical facility.

The bill conforms ss. 458.347(4)(g) and 459.022(4)(f), F.S., relating to the authority of a PA to order medications, to changes made elsewhere in the act, but does not alter the authority of supervisory physicians or PAs.

The bill clarifies the distinction between a prescription and an order for administration by amending the definition of "prescription" in ch. 465 and ch. 893, F.S., to exclude an order that is dispensed for administration and making conforming changes in s. 893.04, F.S. The bill also revises the definition of "administer" in ch. 893, F.S., to include the term "administration."

The bill reenacts various sections of Florida law as required to incorporate amendments made in the act.

The bill takes effect July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Under SB 152, physicians who use advanced registered nurse practitioners to serve hospitalized patients, physicians who supervise ARNPs with a hospital practice, and hospitals that employ ARNPs may see increased efficiencies if ARNPs can order controlled substances directly under a supervisory protocol without the need for obtaining a physician's order. These efficiencies include time savings for the practitioners and ARNPs and better utilization of potentially limited space, such as emergency room beds where patients might otherwise wait while a supervising physician is located.

C. Government Sector Impact:

The impact described in Section V. B., above, would also apply to public hospitals and physicians employed in public hospitals.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 458.347, 459.022, 464.012, 465.003, 893.02, 893.04, and 893.05.

This bill reenacts the following sections of the Florida Statutes: 400.462, 401.445, 409.906, 766.103, 409.9201, 458.331, 459.015, 465.014, 465.015, 465.016, 465.022, 465.023, 465.1901, 499.003, 831.30, 112.0455, 381.986, 440.102, 499.0121, 768.36, 810.02, 812.014, 856.015, 944.47, 951.22, 985.711, 1003.57, 1006.09, and 893.0551.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

556062

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Appropriations (Grimsley) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Subsection (3) of section 381.887, Florida Statutes, is amended to read:

381.887 Emergency treatment for suspected opioid overdose.—

(3) An authorized health care practitioner may, directly or by a non-patient specific standing order, prescribe and dispense an emergency opioid antagonist to a patient or caregiver for use

556062

in accordance with this section, and pharmacists may dispense an emergency opioid antagonist pursuant to such a prescription that ~~issued in the name of the patient or caregiver, which~~ is appropriately labeled with instructions for use. Such patient or caregiver is authorized to store and possess approved emergency opioid antagonists and, in an emergency situation when a physician is not immediately available, administer the emergency opioid antagonist to a person believed in good faith to be experiencing an opioid overdose, regardless of whether that person has a prescription for an emergency opioid antagonist.

Section 2. Paragraph (g) of subsection (4) of section 458.347, Florida Statutes, is amended to read:

458.347 Physician assistants.—

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(g) A supervisory physician may delegate to a licensed physician assistant the authority to, and the licensed physician assistant acting under the direction of the supervisory physician may, order any medication ~~medications~~ for administration to the supervisory physician's patient ~~during his or her care~~ in a facility licensed under chapter 395 or part II of chapter 400, notwithstanding any provisions in chapter 465 or chapter 893 which may prohibit this delegation. For the purpose of this paragraph, an order is not considered a prescription. A licensed physician assistant working in a facility that is licensed under chapter 395 or part II of chapter 400 may order any medication under the direction of the supervisory physician.

Section 3. Paragraph (f) of subsection (4) of section 459.022, Florida Statutes, is amended to read:

459.022 Physician assistants.—

556062

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(f) A supervisory physician may delegate to a licensed physician assistant the authority to, and the licensed physician assistant acting under the direction of the supervisory physician may, order any medication ~~medications~~ for administration to the supervisory physician's patient ~~during his or her care~~ in a facility licensed under chapter 395 or part II of chapter 400, notwithstanding any provisions in chapter 465 or chapter 893 which may prohibit this delegation. For the purpose of this paragraph, an order is not considered a prescription. A licensed physician assistant working in a facility that is licensed under chapter 395 or part II of chapter 400 may order any medication under the direction of the supervisory physician.

Section 4. Paragraph (a) of subsection (3) of section 464.012, Florida Statutes, is amended to read:

464.012 Certification of advanced registered nurse practitioners; fees.—

(3) An advanced registered nurse practitioner shall perform those functions authorized in this section within the framework of an established protocol that is filed with the board upon biennial license renewal and within 30 days after entering into a supervisory relationship with a physician or changes to the protocol. The board shall review the protocol to ensure compliance with applicable regulatory standards for protocols. The board shall refer to the department licensees submitting protocols that are not compliant with the regulatory standards for protocols. A practitioner currently licensed under chapter 458, chapter 459, or chapter 466 shall maintain supervision for directing the specific course of medical treatment. Within the

556062

established framework, an advanced registered nurse practitioner may:

(a) Monitor and alter drug therapies and order any medication for administration to a patient in a facility licensed under chapter 395 or part II of chapter 400.

Section 5. Subsection (14) of section 465.003, Florida Statutes, is amended to read:

465.003 Definitions.—As used in this chapter, the term:

(14) "Prescription" includes any order for drugs or medicinal supplies written or transmitted by any means of communication by a ~~duly~~ licensed practitioner authorized by the laws of this ~~the~~ state to prescribe such drugs or medicinal supplies and intended to be dispensed by a pharmacist, except for an order that is dispensed for administration. The term also includes an orally transmitted order by the lawfully designated agent of such practitioner;~~. The term also includes~~ an order written or transmitted by a practitioner licensed to practice in a jurisdiction other than this state, but only if the pharmacist called upon to dispense such order determines, in the exercise of her or his professional judgment, that the order is valid and necessary for the treatment of a chronic or recurrent illness; and~~. The term "prescription" also includes~~ a pharmacist's order for a product selected from the formulary created pursuant to s. 465.186. Prescriptions may be retained in written form or the pharmacist may cause them to be recorded in a data processing system, provided that such order can be produced in printed form upon lawful request.

Section 6. Subsections (1) and (22) of section 893.02, Florida Statutes, are amended to read:

556062

893.02 Definitions.—The following words and phrases as used in this chapter shall have the following meanings, unless the context otherwise requires:

(1) "Administer" or "administration" means the direct application of a controlled substance, whether by injection, inhalation, ingestion, or any other means, to the body of a person or animal.

(22) "Prescription" ~~means and~~ includes any ~~an~~ order for drugs or medicinal supplies which is written~~, signed,~~ or transmitted by any ~~word of mouth, telephone, telegram, or other~~ means of communication by a ~~duly~~ licensed practitioner authorized ~~licensed~~ by the laws of this ~~the~~ state to prescribe such drugs or medicinal supplies, is issued in good faith and in the course of professional practice, is intended to be ~~filled, compounded, or~~ dispensed by a ~~another~~ person authorized ~~licensed~~ by the laws of this ~~the~~ state to do so, and meets ~~meeting~~ the requirements of s. 893.04.

(a) The term also includes an order for drugs or medicinal supplies ~~so~~ transmitted or written by a physician, dentist, veterinarian, or other practitioner licensed to practice in a state other than Florida, but only if the pharmacist called upon to fill such an order determines, in the exercise of his or her professional judgment, that the order was issued pursuant to a valid patient-physician relationship, that it is authentic, and that the drugs or medicinal supplies ~~so~~ ordered are considered necessary for the continuation of treatment of a chronic or recurrent illness.

(b) The term does not include an order that is dispensed for administration by a licensed practitioner authorized by the

556062

laws of this state to administer such drugs or medicinal supplies.

(c) ~~However,~~ If the physician writing the prescription is not known to the pharmacist, the pharmacist shall obtain proof to a reasonable certainty of the validity of the ~~said~~ prescription.

(d) A prescription ~~order~~ for a controlled substance may ~~shall~~ not be issued on the same prescription blank with another prescription ~~order~~ for a controlled substance that ~~which~~ is named or described in a different schedule or with another~~, nor shall any prescription order for a controlled substance be issued on the same prescription blank as a~~ prescription ~~order~~ for a medicinal drug, as defined in s. 465.003(8), that is ~~which does~~ not ~~fall within the definition of~~ a controlled substance ~~as defined in this act~~.

Section 7. Paragraphs (a), (d), and (f) of subsection (2) of section 893.04, Florida Statutes, are amended to read:

893.04 Pharmacist and practitioner.—

(2)(a) A pharmacist may not dispense a controlled substance listed in Schedule II, Schedule III, or Schedule IV to any patient or patient's agent without first determining, in the exercise of her or his professional judgment, that the prescription ~~order~~ is valid. The pharmacist may dispense the controlled substance, in the exercise of her or his professional judgment, when the pharmacist or pharmacist's agent has obtained satisfactory patient information from the patient or the patient's agent.

(d) Each ~~written~~ prescription written ~~prescribed~~ by a practitioner in this state for a controlled substance listed in

556062

Schedule II, Schedule III, or Schedule IV must include ~~both~~ a written and a numerical notation of the quantity of the controlled substance prescribed and a notation of the date in numerical, month/day/year format, or with the abbreviated month written out, or the month written out in whole. A pharmacist may, upon verification by the prescriber, document any information required by this paragraph. If the prescriber is not available to verify a prescription, the pharmacist may dispense the controlled substance, but may insist that the person to whom the controlled substance is dispensed provide valid photographic identification. If a prescription includes a numerical notation of the quantity of the controlled substance or date, but does not include the quantity or date written out in textual format, the pharmacist may dispense the controlled substance without verification by the prescriber of the quantity or date if the pharmacy previously dispensed another prescription for the person to whom the prescription was written.

(f) A pharmacist may not knowingly dispense ~~fill~~ a prescription that has been forged for a controlled substance listed in Schedule II, Schedule III, or Schedule IV.

Section 8. Subsection (1) of section 893.05, Florida Statutes, is amended to read:

893.05 Practitioners and persons administering controlled substances in their absence.—

(1)(a) A practitioner, in good faith and in the course of his or her professional practice only, may prescribe, administer, dispense, mix, or otherwise prepare a controlled substance, or the practitioner may cause the controlled substance ~~same~~ to be administered by a licensed nurse or an

intern practitioner under his or her direction and supervision only.

(b) Pursuant to s. 458.347(4)(g), s. 459.022(4)(f), or s. 464.012(3), as applicable, a practitioner who supervises a licensed physician assistant or advanced registered nurse practitioner may authorize the licensed physician assistant or advanced registered nurse practitioner to order controlled substances for administration to a patient in a facility licensed under chapter 395 or part II of chapter 400.

(c) A veterinarian may ~~so~~ prescribe, administer, dispense, mix, or prepare a controlled substance for use on animals only, and may cause the controlled substance ~~it~~ to be administered by an assistant or orderly only under the veterinarian's direction and supervision ~~only~~.

(d) A certified optometrist licensed under chapter 463 may not administer or prescribe a controlled substance listed in Schedule I or Schedule II of s. 893.03.

Section 9. Subsection (26) of s. 400.462, subsection (1) of s. 401.445, subsection (18) of s. 409.906, and subsection (3) of s. 766.103, Florida Statutes, are reenacted for the purpose of incorporating the amendments made by this act to ss. 458.347 and 459.022, Florida Statutes, in references thereto.

Section 10. Subsection (1) of s. 401.445 and subsection (3) of s. 766.103, Florida Statutes, are reenacted for the purpose of incorporating the amendment made by this act to s. 464.012, Florida Statutes, in references thereto.

Section 11. Paragraph (a) of subsection (1) of s. 409.9201, paragraph (pp) of subsection (1) of s. 458.331, paragraph (rr) of subsection (1) of s. 459.015, subsection (1) of s. 465.014,

556062

paragraph (c) of subsection (2) of s. 465.015, paragraph (s) of subsection (1) of s. 465.016, paragraph (j) of subsection (5) of s. 465.022, paragraph (h) of subsection (1) of s. 465.023, s. 465.1901, subsection (43) of s. 499.003, and subsection (1) of s. 831.30, Florida Statutes, are reenacted for the purpose of incorporating the amendments made by this act to s. 465.003, Florida Statutes, in references thereto.

Section 12. Paragraph (i) of subsection (5) of s. 112.0455, paragraph (b) of subsection (7) of s. 381.986, paragraph (l) of subsection (1) of s. 440.102, paragraph (pp) of subsection (1) of s. 458.331, paragraph (rr) of subsection (1) of s. 459.015, subsection (3) of s. 465.015, paragraph (s) of subsection (1) of s. 465.016, paragraph (j) of subsection (5) of s. 465.022, paragraph (h) of subsection (1) of s. 465.023, subsection (14) of s. 499.0121, paragraph (b) of subsection (1) of s. 768.36, paragraph (f) of subsection (3) of s. 810.02, paragraph (c) of subsection (2) of s. 812.014, paragraph (c) of subsection (1) of s. 856.015, paragraph (a) of subsection (1) of s. 944.47, subsection (1) of s. 951.22, paragraph (a) of subsection (1) of s. 985.711, paragraph (i) of subsection (1) of s. 1003.57, and subsection (8) of s. 1006.09, Florida Statutes, are reenacted for the purpose of incorporating the amendments made by this act to s. 893.02, Florida Statutes, in references thereto.

Section 13. Paragraph (e) of subsection (3) of s. 893.0551, Florida Statutes, is reenacted for the purpose of incorporating the amendments made by this act to s. 893.04, Florida Statutes, in a reference thereto.

Section 14. Paragraph (d) of subsection (3) of s. 893.0551, Florida Statutes, is reenacted for the purpose of incorporating

556062

the amendments made by this act to s. 893.05, Florida Statutes, in a reference thereto.

Section 15. This act shall take effect July 1, 2016.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

An act relating to the ordering of medication; amending s. 381.887, F.S.; clarifying the provision that authorizes a health care practitioner to prescribe and dispense an emergency opioid antagonist; deleting a requirement that certain prescriptions be issued in the name of the patient or caregiver; amending ss. 458.347 and 459.022, F.S.; revising the authority of a licensed physician assistant to order medication under the direction of a supervisory physician for a specified patient; authorizing a supervisory physician to delegate to a licensed physician assistant the authority to order medications for a patient at a licensed nursing home facility; amending s. 464.012, F.S.; authorizing an advanced registered nurse practitioner to order medication for administration to patients in specialized facilities; amending s. 465.003, F.S.; revising the term "prescription" to exclude an order for drugs or medicinal supplies dispensed for administration; amending s. 893.02, F.S.; revising the term

556062

"administer" to include the term "administration"; revising the term "prescription" to exclude an order for drugs or medicinal supplies dispensed for administration; amending s. 893.04, F.S.; conforming provisions to changes made by act; amending s. 893.05, F.S.; authorizing a licensed practitioner to authorize a licensed physician assistant or advanced registered nurse practitioner to order controlled substances for administration to patients in specified facilities under certain circumstances; reenacting ss. 400.462(26), 401.445(1), 409.906(18), and 766.103(3), F.S., to incorporate the amendments made to ss. 458.347 and 459.022, F.S., in references thereto; reenacting ss. 401.445(1) and 766.103(3), F.S., to incorporate the amendment made to s. 464.012, F.S., in references thereto; reenacting ss. 409.9201(1)(a), 458.331(1)(pp), 459.015(1)(rr), 465.014(1), 465.015(2)(c), 465.016(1)(s), 465.022(5)(j), 465.023(1)(h), 465.1901, 499.003(43), and 831.30(1), F.S., to incorporate the amendment made to s. 465.003, F.S., in references thereto; reenacting ss. 112.0455(5)(i), 381.986(7)(b), 440.102(1)(l), 458.331(1)(pp), 459.015(1)(rr), 465.015(3), 465.016(1)(s), 465.022(5)(j), 465.023(1)(h), 499.0121(14), 768.36(1)(b), 810.02(3)(f), 812.014(2)(c), 856.015(1)(c), 944.47(1)(a), 951.22(1), 985.711(1)(a), 1003.57(1)(i), and 1006.09(8), F.S., to incorporate the amendment made to s. 893.02, F.S., in references thereto; reenacting s. 893.0551(3)(e),

556062

F.S., to incorporate the amendment made to s. 893.04, F.S., in a reference thereto; reenacting s. 893.0551(3)(d), F.S., to incorporate the amendment made to s. 893.05, F.S., in a reference thereto; providing an effective date.

725966

LEGISLATIVE ACTION

Senate . House

. . . . . .

The Committee on Appropriations (Grimsley) recommended the following:

Senate Substitute for Amendment (556062) (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Paragraph (g) of subsection (4) of section 458.347, Florida Statutes, is amended to read:

458.347 Physician assistants.—

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(g) A supervisory physician may delegate to a licensed

725966

physician assistant the authority to, and the licensed physician assistant acting under the direction of the supervisory physician may, order any medication ~~medications~~ for administration to the supervisory physician's patient ~~during his or her care~~ in a facility licensed under chapter 395 or part II of chapter 400, notwithstanding any provisions in chapter 465 or chapter 893 which may prohibit this delegation. For the purpose of this paragraph, an order is not considered a prescription. A licensed physician assistant working in a facility that is licensed under chapter 395 or part II of chapter 400 may order any medication under the direction of the supervisory physician.

Section 2. Paragraph (f) of subsection (4) of section 459.022, Florida Statutes, is amended to read:

459.022 Physician assistants.—

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(f) A supervisory physician may delegate to a licensed physician assistant the authority to, and the licensed physician assistant acting under the direction of the supervisory physician may, order any medication ~~medications~~ for administration to the supervisory physician's patient ~~during his or her care~~ in a facility licensed under chapter 395 or part II of chapter 400, notwithstanding any provisions in chapter 465 or chapter 893 which may prohibit this delegation. For the purpose of this paragraph, an order is not considered a prescription. A licensed physician assistant working in a facility that is licensed under chapter 395 or part II of chapter 400 may order any medication under the direction of the supervisory physician.

Section 3. Paragraph (a) of subsection (3) of section 464.012, Florida Statutes, is amended to read:

725966

464.012 Certification of advanced registered nurse practitioners; fees.—

(3) An advanced registered nurse practitioner shall perform those functions authorized in this section within the framework of an established protocol that is filed with the board upon biennial license renewal and within 30 days after entering into a supervisory relationship with a physician or changes to the protocol. The board shall review the protocol to ensure compliance with applicable regulatory standards for protocols. The board shall refer to the department licensees submitting protocols that are not compliant with the regulatory standards for protocols. A practitioner currently licensed under chapter 458, chapter 459, or chapter 466 shall maintain supervision for directing the specific course of medical treatment. Within the established framework, an advanced registered nurse practitioner may:

(a) Monitor and alter drug therapies and order any medication for administration to a patient in a facility licensed under chapter 395 or part II of chapter 400.

Section 4. Subsection (14) of section 465.003, Florida Statutes, is amended to read:

465.003 Definitions.—As used in this chapter, the term:

(14) "Prescription" includes any order for drugs or medicinal supplies written or transmitted by any means of communication by a ~~duly~~ licensed practitioner authorized by the laws of this ~~the~~ state to prescribe such drugs or medicinal supplies and intended to be dispensed by a pharmacist, except for an order that is dispensed for administration. The term also includes an orally transmitted order by the lawfully designated

725966

agent of such practitioner;~~. The term also includes~~ an order written or transmitted by a practitioner licensed to practice in a jurisdiction other than this state, but only if the pharmacist called upon to dispense such order determines, in the exercise of her or his professional judgment, that the order is valid and necessary for the treatment of a chronic or recurrent illness; and~~. The term "prescription" also includes~~ a pharmacist's order for a product selected from the formulary created pursuant to s. 465.186. Prescriptions may be retained in written form or the pharmacist may cause them to be recorded in a data processing system, provided that such order can be produced in printed form upon lawful request.

Section 5. Subsections (1) and (22) of section 893.02, Florida Statutes, are amended to read:

893.02 Definitions.—The following words and phrases as used in this chapter shall have the following meanings, unless the context otherwise requires:

(1) "Administer" or "administration" means the direct application of a controlled substance, whether by injection, inhalation, ingestion, or any other means, to the body of a person or animal.

(22) "Prescription" ~~means and~~ includes any ~~an~~ order for drugs or medicinal supplies which is written~~, signed,~~ or transmitted by any ~~word of mouth, telephone, telegram, or other~~ means of communication by a ~~duly~~ licensed practitioner authorized ~~licensed~~ by the laws of this ~~the~~ state to prescribe such drugs or medicinal supplies, is issued in good faith and in the course of professional practice, is intended to be ~~filled, compounded, or~~ dispensed by a ~~another~~ person authorized ~~licensed~~

by the laws of this ~~the~~ state to do so, and meets ~~meeting~~ the requirements of s. 893.04.

(a) The term also includes an order for drugs or medicinal supplies ~~so~~ transmitted or written by a physician, dentist, veterinarian, or other practitioner licensed to practice in a state other than Florida, but only if the pharmacist called upon to fill such an order determines, in the exercise of his or her professional judgment, that the order was issued pursuant to a valid patient-physician relationship, that it is authentic, and that the drugs or medicinal supplies ~~so~~ ordered are considered necessary for the continuation of treatment of a chronic or recurrent illness.

(b) The term does not include an order that is dispensed for administration by a licensed practitioner authorized by the laws of this state to administer such drugs or medicinal supplies.

(c) ~~However,~~ If the physician writing the prescription is not known to the pharmacist, the pharmacist shall obtain proof to a reasonable certainty of the validity of the ~~said~~ prescription.

(d) A prescription ~~order~~ for a controlled substance may ~~shall~~ not be issued on the same prescription blank with another prescription ~~order~~ for a controlled substance that ~~which~~ is named or described in a different schedule or with another~~, nor shall any prescription order for a controlled substance be issued on the same prescription blank as a~~ prescription ~~order~~ for a medicinal drug, as defined in s. 465.003(8), that is ~~which does~~ not ~~fall within the definition of~~ a controlled substance ~~as defined in this act~~.

725966

Section 6. Paragraphs (a), (d), and (f) of subsection (2) of section 893.04, Florida Statutes, are amended to read:

893.04 Pharmacist and practitioner.—

(2)(a) A pharmacist may not dispense a controlled substance listed in Schedule II, Schedule III, or Schedule IV to any patient or patient's agent without first determining, in the exercise of her or his professional judgment, that the prescription ~~order~~ is valid. The pharmacist may dispense the controlled substance, in the exercise of her or his professional judgment, when the pharmacist or pharmacist's agent has obtained satisfactory patient information from the patient or the patient's agent.

(d) Each ~~written~~ prescription written ~~prescribed~~ by a practitioner in this state for a controlled substance listed in Schedule II, Schedule III, or Schedule IV must include ~~both~~ a written and a numerical notation of the quantity of the controlled substance prescribed and a notation of the date in numerical, month/day/year format, or with the abbreviated month written out, or the month written out in whole. A pharmacist may, upon verification by the prescriber, document any information required by this paragraph. If the prescriber is not available to verify a prescription, the pharmacist may dispense the controlled substance, but may insist that the person to whom the controlled substance is dispensed provide valid photographic identification. If a prescription includes a numerical notation of the quantity of the controlled substance or date, but does not include the quantity or date written out in textual format, the pharmacist may dispense the controlled substance without verification by the prescriber of the quantity or date if the

725966

pharmacy previously dispensed another prescription for the person to whom the prescription was written.

(f) A pharmacist may not knowingly dispense ~~fill~~ a prescription that has been forged for a controlled substance listed in Schedule II, Schedule III, or Schedule IV.

Section 7. Subsection (1) of section 893.05, Florida Statutes, is amended to read:

893.05 Practitioners and persons administering controlled substances in their absence.—

(1)(a) A practitioner, in good faith and in the course of his or her professional practice only, may prescribe, administer, dispense, mix, or otherwise prepare a controlled substance, or the practitioner may cause the controlled substance ~~same~~ to be administered by a licensed nurse or an intern practitioner under his or her direction and supervision only.

(b) Pursuant to s. 458.347(4)(g), s. 459.022(4)(f), or s. 464.012(3), as applicable, a practitioner who supervises a licensed physician assistant or advanced registered nurse practitioner may authorize the licensed physician assistant or advanced registered nurse practitioner to order controlled substances for administration to a patient in a facility licensed under chapter 395 or part II of chapter 400.

(c) A veterinarian may ~~so~~ prescribe, administer, dispense, mix, or prepare a controlled substance for use on animals only, and may cause the controlled substance ~~it~~ to be administered by an assistant or orderly only under the veterinarian's direction and supervision ~~only~~.

(d) A certified optometrist licensed under chapter 463 may

not administer or prescribe a controlled substance listed in Schedule I or Schedule II of s. 893.03.

Section 8. Subsection (26) of s. 400.462, subsection (1) of s. 401.445, subsection (18) of s. 409.906, and subsection (3) of s. 766.103, Florida Statutes, are reenacted for the purpose of incorporating the amendments made by this act to ss. 458.347 and 459.022, Florida Statutes, in references thereto.

Section 9. Subsection (1) of s. 401.445 and subsection (3) of s. 766.103, Florida Statutes, are reenacted for the purpose of incorporating the amendment made by this act to s. 464.012, Florida Statutes, in references thereto.

Section 10. Paragraph (a) of subsection (1) of s. 409.9201, paragraph (pp) of subsection (1) of s. 458.331, paragraph (rr) of subsection (1) of s. 459.015, subsection (1) of s. 465.014, paragraph (c) of subsection (2) of s. 465.015, paragraph (s) of subsection (1) of s. 465.016, paragraph (j) of subsection (5) of s. 465.022, paragraph (h) of subsection (1) of s. 465.023, s. 465.1901, subsection (43) of s. 499.003, and subsection (1) of s. 831.30, Florida Statutes, are reenacted for the purpose of incorporating the amendments made by this act to s. 465.003, Florida Statutes, in references thereto.

Section 11. Paragraph (i) of subsection (5) of s. 112.0455, paragraph (b) of subsection (7) of s. 381.986, paragraph (l) of subsection (1) of s. 440.102, paragraph (pp) of subsection (1) of s. 458.331, paragraph (rr) of subsection (1) of s. 459.015, subsection (3) of s. 465.015, paragraph (s) of subsection (1) of s. 465.016, paragraph (j) of subsection (5) of s. 465.022, paragraph (h) of subsection (1) of s. 465.023, subsection (14) of s. 499.0121, paragraph (b) of subsection (1) of s. 768.36,

725966

paragraph (f) of subsection (3) of s. 810.02, paragraph (c) of subsection (2) of s. 812.014, paragraph (c) of subsection (1) of s. 856.015, paragraph (a) of subsection (1) of s. 944.47, subsection (1) of s. 951.22, paragraph (a) of subsection (1) of s. 985.711, paragraph (i) of subsection (1) of s. 1003.57, and subsection (8) of s. 1006.09, Florida Statutes, are reenacted for the purpose of incorporating the amendments made by this act to s. 893.02, Florida Statutes, in references thereto.

Section 12. Paragraph (e) of subsection (3) of s. 893.0551, Florida Statutes, is reenacted for the purpose of incorporating the amendments made by this act to s. 893.04, Florida Statutes, in a reference thereto.

Section 13. Paragraph (d) of subsection (3) of s. 893.0551, Florida Statutes, is reenacted for the purpose of incorporating the amendments made by this act to s. 893.05, Florida Statutes, in a reference thereto.

Section 14. This act shall take effect July 1, 2016.

465.014(1), 465.015(2)(c), 465.016(1)(s), 465.022(5)(j), 465.023(1)(h), 465.1901, 499.003(43), and 831.30(1), F.S., to incorporate the amendment made to s. 465.003, F.S., in references thereto; reenacting ss. 112.0455(5)(i), 381.986(7)(b), 440.102(1)(l), 458.331(1)(pp), 459.015(1)(rr), 465.015(3), 465.016(1)(s), 465.022(5)(j), 465.023(1)(h), 499.0121(14), 768.36(1)(b), 810.02(3)(f), 812.014(2)(c), 856.015(1)(c), 944.47(1)(a), 951.22(1), 985.711(1)(a), 1003.57(1)(i), and 1006.09(8), F.S., to incorporate the amendment made to s. 893.02, F.S., in references thereto; reenacting s. 893.0551(3)(e), F.S., to incorporate the amendment made to s. 893.04, F.S., in a reference thereto; reenacting s. 893.0551(3)(d), F.S., to incorporate the amendment made to s. 893.05, F.S., in a reference thereto; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (g) of subsection (4) of section 458.347, Florida Statutes, is amended to read:

458.347 Physician assistants.—

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(g) A supervisory physician may delegate to a licensed physician assistant the authority to, and the licensed physician assistant acting under the direction of the supervisory physician may, order any medication ~~medications~~ for administration to the supervisory physician's patient ~~during his~~

~~or her care~~ in a facility licensed under chapter 395~~,~~ ~~notwithstanding any provisions in chapter 465 or chapter 893 which may prohibit this delegation~~. ~~For the purpose of this paragraph, an order is not considered a prescription. A licensed physician assistant working in a facility that is licensed under chapter 395 may order any medication under the direction of the supervisory physician.~~

Section 2. Paragraph (f) of subsection (4) of section 459.022, Florida Statutes, is amended to read:

459.022 Physician assistants.—

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(f) A supervisory physician may delegate to a licensed physician assistant the authority to, and the licensed physician assistant acting under the direction of the supervisory physician may, order any medication ~~medications~~ for administration to the supervisory physician's patient ~~during his or her care~~ in a facility licensed under chapter 395~~,~~ ~~notwithstanding any provisions in chapter 465 or chapter 893 which may prohibit this delegation~~. ~~For the purpose of this paragraph, an order is not considered a prescription. A licensed physician assistant working in a facility that is licensed under chapter 395 may order any medication under the direction of the supervisory physician.~~

Section 3. Paragraph (a) of subsection (3) of section 464.012, Florida Statutes, is amended to read:

464.012 Certification of advanced registered nurse practitioners; fees.—

(3) An advanced registered nurse practitioner shall perform those functions authorized in this section within the framework

of an established protocol that is filed with the board upon biennial license renewal and within 30 days after entering into a supervisory relationship with a physician or changes to the protocol. The board shall review the protocol to ensure compliance with applicable regulatory standards for protocols. The board shall refer to the department licensees submitting protocols that are not compliant with the regulatory standards for protocols. A practitioner currently licensed under chapter 458, chapter 459, or chapter 466 shall maintain supervision for directing the specific course of medical treatment. Within the established framework, an advanced registered nurse practitioner may:

(a) Monitor and alter drug therapies and order any medication for administration to a patient in a facility licensed under chapter 395.

Section 4. Subsection (14) of section 465.003, Florida Statutes, is amended to read:

465.003 Definitions.—As used in this chapter, the term:

(14) "Prescription" includes any order for drugs or medicinal supplies written or transmitted by any means of communication by a ~~duly~~ licensed practitioner authorized by the laws of this ~~the~~ state to prescribe such drugs or medicinal supplies and intended to be dispensed by a pharmacist, except for an order that is dispensed for administration. The term also includes an orally transmitted order by the lawfully designated agent of such practitioner;~~. The term also includes~~ an order written or transmitted by a practitioner licensed to practice in a jurisdiction other than this state, but only if the pharmacist called upon to dispense such order determines, in the exercise

of her or his professional judgment, that the order is valid and necessary for the treatment of a chronic or recurrent illness; and. ~~The term "prescription" also includes~~ a pharmacist's order for a product selected from the formulary created pursuant to s. 465.186. Prescriptions may be retained in written form or the pharmacist may cause them to be recorded in a data processing system, provided that such order can be produced in printed form upon lawful request.

Section 5. Subsections (1) and (22) of section 893.02, Florida Statutes, are amended to read:

893.02 Definitions.—The following words and phrases as used in this chapter shall have the following meanings, unless the context otherwise requires:

(1) "Administer" or "administration" means the direct application of a controlled substance, whether by injection, inhalation, ingestion, or any other means, to the body of a person or animal.

(22) "Prescription" ~~means and~~ includes any ~~an~~ order for drugs or medicinal supplies which is written~~, signed,~~ or transmitted by any ~~word of mouth, telephone, telegram, or other~~ means of communication by a ~~duly~~ licensed practitioner authorized ~~licensed~~ by the laws of this ~~the~~ state to prescribe such drugs or medicinal supplies, is issued in good faith and in the course of professional practice, is intended to be ~~filled, compounded, or~~ dispensed by a ~~another~~ person authorized ~~licensed~~ by the laws of this ~~the~~ state to do so, and meets ~~meeting~~ the requirements of s. 893.04.

(a) The term also includes an order for drugs or medicinal supplies ~~so~~ transmitted or written by a physician, dentist,

veterinarian, or other practitioner licensed to practice in a state other than Florida, but only if the pharmacist called upon to fill such an order determines, in the exercise of his or her professional judgment, that the order was issued pursuant to a valid patient-physician relationship, that it is authentic, and that the drugs or medicinal supplies ~~so~~ ordered are considered necessary for the continuation of treatment of a chronic or recurrent illness.

(b) The term does not include an order that is dispensed for administration by a licensed practitioner authorized by the laws of this state to administer such drugs or medicinal supplies.

(c) ~~However,~~ If the physician writing the prescription is not known to the pharmacist, the pharmacist shall obtain proof to a reasonable certainty of the validity of the ~~said~~ prescription.

(d) A prescription ~~order~~ for a controlled substance may ~~shall~~ not be issued on the same prescription blank with another prescription ~~order~~ for a controlled substance that ~~which~~ is named or described in a different schedule or with another~~, nor shall any prescription order for a controlled substance be issued on the same prescription blank as a~~ prescription ~~order~~ for a medicinal drug, as defined in s. 465.003(8), that is ~~which does~~ not ~~fall within the definition of~~ a controlled substance ~~as defined in this act~~.

Section 6. Paragraphs (a), (d), and (f) of subsection (2) of section 893.04, Florida Statutes, are amended to read:

893.04 Pharmacist and practitioner.—

(2)(a) A pharmacist may not dispense a controlled substance

listed in Schedule II, Schedule III, or Schedule IV to any patient or patient's agent without first determining, in the exercise of her or his professional judgment, that the prescription ~~order~~ is valid. The pharmacist may dispense the controlled substance, in the exercise of her or his professional judgment, when the pharmacist or pharmacist's agent has obtained satisfactory patient information from the patient or the patient's agent.

(d) Each ~~written~~ prescription written ~~prescribed~~ by a practitioner in this state for a controlled substance listed in Schedule II, Schedule III, or Schedule IV must include ~~both~~ a written and a numerical notation of the quantity of the controlled substance prescribed and a notation of the date in numerical, month/day/year format, or with the abbreviated month written out, or the month written out in whole. A pharmacist may, upon verification by the prescriber, document any information required by this paragraph. If the prescriber is not available to verify a prescription, the pharmacist may dispense the controlled substance, but may insist that the person to whom the controlled substance is dispensed provide valid photographic identification. If a prescription includes a numerical notation of the quantity of the controlled substance or date, but does not include the quantity or date written out in textual format, the pharmacist may dispense the controlled substance without verification by the prescriber of the quantity or date if the pharmacy previously dispensed another prescription for the person to whom the prescription was written.

(f) A pharmacist may not knowingly dispense ~~fill~~ a prescription that has been forged for a controlled substance

listed in Schedule II, Schedule III, or Schedule IV.

Section 7. Subsection (1) of section 893.05, Florida Statutes, is amended to read:

893.05 Practitioners and persons administering controlled substances in their absence.—

(1)(a) A practitioner, in good faith and in the course of his or her professional practice only, may prescribe, administer, dispense, mix, or otherwise prepare a controlled substance, or the practitioner may cause the controlled substance ~~same~~ to be administered by a licensed nurse or an intern practitioner under his or her direction and supervision only.

(b) Pursuant to s. 458.347(4)(g), s. 459.022(4)(f), or s. 464.012(3), as applicable, a practitioner who supervises a licensed physician assistant or advanced registered nurse practitioner may authorize the licensed physician assistant or advanced registered nurse practitioner to order controlled substances for administration to a patient in a facility licensed under chapter 395.

(c) A veterinarian may ~~so~~ prescribe, administer, dispense, mix, or prepare a controlled substance for use on animals only, and may cause the controlled substance ~~it~~ to be administered by an assistant or orderly under the veterinarian's direction and supervision only.

(d) A certified optometrist licensed under chapter 463 may not administer or prescribe a controlled substance listed in Schedule I or Schedule II of s. 893.03.

Section 8. Subsection (26) of s. 400.462, subsection (1) of s. 401.445, subsection (18) of s. 409.906, and subsection (3) of

s. 766.103, Florida Statutes, are reenacted for the purpose of incorporating the amendments made by this act to ss. 458.347 and 459.022, Florida Statutes, in references thereto.

Section 9. Subsection (1) of s. 401.445 and subsection (3) of s. 766.103, Florida Statutes, are reenacted for the purpose of incorporating the amendment made by this act to s. 464.012, Florida Statutes, in references thereto.

Section 10. Paragraph (a) of subsection (1) of s. 409.9201, paragraph (pp) of subsection (1) of s. 458.331, paragraph (rr) of subsection (1) of s. 459.015, subsection (1) of s. 465.014, paragraph (c) of subsection (2) of s. 465.015, paragraph (s) of subsection (1) of s. 465.016, paragraph (j) of subsection (5) of s. 465.022, paragraph (h) of subsection (1) of s. 465.023, s. 465.1901, subsection (43) of s. 499.003, and subsection (1) of s. 831.30, Florida Statutes, are reenacted for the purpose of incorporating the amendments made by this act to s. 465.003, Florida Statutes, in references thereto.

Section 11. Paragraph (i) of subsection (5) of s. 112.0455, paragraph (b) of subsection (7) of s. 381.986, paragraph (l) of subsection (1) of s. 440.102, paragraph (pp) of subsection (1) of s. 458.331, paragraph (rr) of subsection (1) of s. 459.015, subsection (3) of s. 465.015, paragraph (s) of subsection (1) of s. 465.016, paragraph (j) of subsection (5) of s. 465.022, paragraph (h) of subsection (1) of s. 465.023, subsection (14) of s. 499.0121, paragraph (b) of subsection (1) of s. 768.36, paragraph (f) of subsection (3) of s. 810.02, paragraph (c) of subsection (2) of s. 812.014, paragraph (c) of subsection (1) of s. 856.015, paragraph (a) of subsection (1) of s. 944.47, subsection (1) of s. 951.22, paragraph (a) of subsection (1) of

s. 985.711, paragraph (i) of subsection (1) of s. 1003.57, and subsection (8) of s. 1006.09, Florida Statutes, are reenacted for the purpose of incorporating the amendments made by this act to s. 893.02, Florida Statutes, in references thereto.

Section 12. Paragraph (e) of subsection (3) of s. 893.0551, Florida Statutes, is reenacted for the purpose of incorporating the amendments made by this act to s. 893.04, Florida Statutes, in a reference thereto.

Section 13. Paragraph (d) of subsection (3) of s. 893.0551, Florida Statutes, is reenacted for the purpose of incorporating the amendments made by this act to s. 893.05, Florida Statutes, in a reference thereto.

Section 14. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 212
INTRODUCER:	Health Policy Committee and Senator Gaetz
SUBJECT:	Ambulatory Surgical Centers
DATE:	February 24, 2016
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Looke	Stovall	HP	**Fav/CS**
2.	Brown	Pigott	AHS	**Recommend: Favorable**
3.	Brown	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 212 allows patients in an ambulatory surgical center (ASC) to stay in the center for up to 24 hours. Current law requires that patients in an ASC be discharged on the same working day and restricts patients from staying overnight in an ASC.

The bill also requires, as a condition of licensure, that an ASC must provide services to Medicaid and Medicare patients and to patients who qualify for charity care. The bill defines "charity care" as uncompensated care delivered to uninsured patients having incomes at or below 200 percent of the federal poverty level when such services are preauthorized by the licensee and not subject to collection procedures.

The bill is not estimated to have a fiscal impact on state government.

The bill has an effective date of July 1, 2016.

II. Present Situation:

Ambulatory Surgical Centers

An ASC is a facility, that is not a part of a hospital, with a primary purpose to provide elective surgical care, in which the patient is admitted and discharged within the same working day and is not permitted to stay overnight.[1]

In Florida, ambulatory procedures are performed in two settings, hospital-based outpatient facilities and freestanding ASCs. Currently, there are 431 licensed ASCs in Florida.[2] Of these, 413 are Medicare and/or Medicaid certified, and 381 are accredited by either the Accreditation Association for Ambulatory Health Care (AAAHC) or by the Joint Commission.[3] In 2008, Medicare paid for 39.1 percent of all procedures performed in ASCs while Medicaid paid for 5.6 percent and commercial payers paid for 46.6 percent.

Between April 2014 and March 2015, there were 2,933,433 visits to ASCs or hospital outpatient facilities in Florida.[4] Hospital outpatient facilities accounted for 31 percent and free standing ASCs accounted for 59 percent. Freestanding ASC average charges range from $2,930 to $7,333 and hospital outpatient facility average charges range from $7,727 to $26,034 for the same time period.[5] Two of the most popular procedures that are performed on adults at an ASC include cataract procedures with 249,184 performed and colonoscopies with 218,745 performed, also during the same time period.[6]

In a survey of ASC research and literature, the Office of Program Policy Analysis and Government Accountability (OPPAGA) found that, generally, the impact on hospitals from competition from ASCs was limited and that ASCs can result in cost savings when performing certain procedures. Additionally, the OPPAGA did not identify any patterns associated with access to services in ASCs and found that the studies largely agree that ASCs, in general, provide timely service and had low rates of unexpected adverse safety events.[7]

---

[1] Section 395.002(3), F.S, defines "Ambulatory surgical center" or "mobile surgical facility" to mean a facility the primary purpose of which is to provide elective surgical care, in which the patient is admitted to and discharged from such facility within the same working day and is not permitted to stay overnight, and which is not part of a hospital. However, a facility existing for the primary purpose of performing terminations of pregnancy, an office maintained by a physician for the practice of medicine, or an office maintained for the practice of dentistry shall not be construed to be an ambulatory surgical center, provided that any facility or office which is certified or seeks certification as a Medicare ambulatory surgical center shall be licensed as an ambulatory surgical center pursuant to s. 395.003, F.S. Any structure or vehicle in which a physician maintains an office and practices surgery, and which can appear to the public to be a mobile office because the structure or vehicle operates at more than one address, shall be construed to be a mobile surgical facility.

ASC Licensure

ASCs are licensed and regulated by the AHCA under the same regulatory framework as hospitals.[8] Applicants for ASC licensure must submit certain information to the AHCA prior to accepting patients for care or treatment, including registration of articles of incorporation and a zoning certificate or proof of compliance with zoning requirements.[9]

Upon receipt of an initial application, the AHCA is required to conduct a survey to determine compliance with all laws and rules. ASCs are required to provide certain information during the initial inspection, including:

- The governing body's bylaws, rules, and regulations;
- The roster of registered nurses and licensed practical nurses with current license numbers;
- A fire plan; and
- A comprehensive emergency management plan.[10]

Rules for ASCs

Pursuant to s. 395.1055, F.S., the AHCA is authorized to adopt rules for hospitals and ASCs. Separate standards may be provided for general and specialty hospitals, ASCs, and statutory rural hospitals, but the rules for all hospitals and ASCs must include minimum standards for ensuring that:

- A sufficient number of qualified types of personnel and occupational disciplines are on duty and available at all times to provide necessary and adequate patient care;
- Infection control, housekeeping, sanitary conditions, and medical record procedures are established and implemented to adequately protect patients;
- A comprehensive emergency management plan is prepared and updated annually;
- A licensed facility is established, organized, and operated consistent with established standards and rules; and
- A licensed facility conforms to minimum space, equipment, and furnishing standards for the beds in the facility.

AHCA rule ch. 59A-5, F.A.C., implements the minimum standards for ASCs. Those rules also require policies and procedures to ensure the protection of patient rights.

Staff and Personnel Rules

ASCs are required to have written policies and procedures for surgical services, anesthesia services, nursing services, pharmaceutical services, laboratory services, and radiologic services. In providing these services, ACSs are required to have certain professional staff available, including:

- A qualified person responsible for the daily functioning and maintenance of the surgical suite;
- An anesthesiologist, physician, a certified registered nurse anesthetist under the on-site medical direction of a licensed physician, or an anesthesiologist assistant under the direct

[8] Sections 395.001-395.1065, F.S., and Part II, Chapter 408, F.S.
[9] Rule 59A-5.003(4), F.A.C.
[10] Rule 59A-5.003(5), F.A.C.

supervision of an anesthesiologist who must be in the ASC during the anesthesia and post-anesthesia recovery period until all patients are alert or discharged;
- A registered professional nurse who is responsible for coordinating and supervising all nursing services;
- A registered professional circulating nurse for a patient during that patient's surgical procedure; and
- A registered professional nurse who must be in the recovery area at all times when any patients are present.[11]

Infection Control Rules

ASCs are required to establish an infection control program involving members of the medical, nursing, and administrative staff. The program must include written policies and procedures reflecting the scope of the infection control program. The written policies and procedures must be reviewed at least every two years by the infection control program members. The infection control program must include:
- Surveillance, prevention, and control of infection among patients and personnel;
- A system for identifying, reporting, evaluating and maintaining records of infections;
- Ongoing review and evaluation of aseptic, isolation, and sanitation techniques employed by the ASC; and
- Development and coordination of training programs in infection control for all personnel.[12]

Emergency Management Plan Rules

ASCs are required to develop and adopt a written comprehensive emergency management plan for emergency care during an internal or external disaster or emergency. The ASC must review the plan and update it annually.[13]

Accreditation

ASCs may seek voluntary accreditation by the Joint Commission or the AAAHC. The AHCA is required to conduct an annual licensure inspection survey for non-accredited ASCs. The AHCA is authorized to accept survey reports of accredited ASCs from accrediting organizations if the standards included in the survey report are determined to document that the ASC is in substantial compliance with state licensure requirements. The AHCA is required to conduct annual validation inspections on a minimum of five percent of the ASCs which were inspected by an accreditation organization.[14]

AHCA is required to conduct annual life safety inspections of all ASCs to ensure compliance with life safety codes and disaster preparedness requirements. However, the life-safety inspection may be waived if an accreditation inspection was conducted on an ASC by a certified life safety inspector and the ASC was found to be in compliance with the life safety requirements.[15]

[15] Id.

Medicare Requirements

ASCs are required to have an agreement with the federal Centers for Medicare & Medicaid Services (CMS) in order to participate in Medicare. ASCs are also required to comply with specific conditions for coverage. The CMS defines "ASC" as any distinct entity that operates exclusively for the purpose of providing surgical services to patients not requiring hospitalization and in which the expected duration of services would not exceed 24 hours following an admission.[16]

The CMS may deem an ASC to be in compliance with all of the conditions for coverage if the ASC is accredited by a national accrediting body, or licensed by a state agency, and the CMS determines that such accreditation or licensure provides reasonable assurance that the conditions for coverage are met.[17] All of the CMS conditions for coverage requirements are specifically required in AHCA rule ch. 59A-5, F.A.C., and apply to all ASCs in Florida. The conditions for coverage require ASCs to have:

- A governing body that assumes full legal responsibility for determining, implementing, and monitoring policies governing the ASC's total operation;
- A quality assessment and performance improvement program;
- A transfer agreement with one or more acute care general hospitals, which will admit any patient referred who requires continuing care;
- A disaster preparedness plan;
- An organized medical staff;
- A fire control plan;
- A sanitary environment;
- An infection control program; and
- A procedure for patient admission, assessment, and discharge.

III. Effect of Proposed Changes:

The bill amends the definition of "ambulatory surgical center" in s. 395.002, F.S., to allow a patient to be admitted and discharged from an ASC within 24 hours. Current law requires that patients be discharged from an ASC within the same working day and restricts patients from staying at an ASC overnight.

The bill also amends s. 395.003, F.S., to require, as a condition of licensure, that ASCs provide services to Medicaid and Medicare patients and to patients who qualify for charity care. The bill defines "charity care" as uncompensated care delivered to uninsured patients having incomes at or below 200 percent of the federal poverty level when such services are preauthorized by the licensee and not subject to collection procedures.

The bill also includes conforming changes for statutory cross-references.

The bill establishes an effective date of July 1, 2016.

[17] 42 C.F.R. §416.26(a)(1)

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

CS/SB 212 may have an indeterminate positive fiscal impact on patients in Florida who are able to have a surgical procedure performed in an ASC if the costs are less in these settings than in a hospital.

The bill may have an indeterminate negative fiscal impact on hospitals if more patients choose to have their procedures performed in an ASC rather than in a hospital.

The bill may have a negative fiscal impact on ASCs that are required to provide services to Medicare and Medicaid patients as well as patients who qualify for charity care if the ASCs do not currently provide such services.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 395.002 and 395.003.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Health Policy on January 19, 2016:
The CS amends SB 212 to remove all provisions of the bill except a change to the definition of "ambulatory surgical center" which allows patients to recover in an ASC for 24 hours, rather than requiring that patients be released on the same business day. The CS also requires that ASCs provide services to Medicaid and Medicare patients as well as patients who qualify for charity care. The CS defines "charity care" as uncompensated care delivered to uninsured patients having incomes at or below 200 percent of the federal poverty level when such services are preauthorized by the licensee and not subject to collection procedures.

B. Amendments:

None.

LEGISLATIVE ACTION

Senate . House

. .

. .

. .

. .

The Committee on Appropriations (Gaetz) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Section 381.4019, Florida Statutes, is created to read:

381.4019 Dental care access accounts.—Subject to the availability of funds, the Legislature establishes a joint local and state dental care access account initiative and authorizes the creation of dental care access accounts to promote economic

317634

development by supporting qualified dentists who practice in dental health professional shortage areas or medically underserved areas or who treat a medically underserved population. The Legislature recognizes that maintaining good oral health is integral to overall health status and that the good health of residents of this state is an important contributing factor in economic development. Better health, including better oral health, enables workers to be more productive, reduces the burden of health care costs, and enables children to improve in cognitive development.

(1) As used in this section, the term:

(a) "Dental health professional shortage area" means a geographic area so designated by the Health Resources and Services Administration of the United States Department of Health and Human Services.

(b) "Department" means the Department of Health.

(c) "Medically underserved area" means a geographic area so designated by the Health Resources and Services Administration of the United States Department of Health and Human Services.

(d) "Public health program" means a county health department, the Children's Medical Services Network, a federally qualified community health center, a federally funded migrant health center, or other publicly funded or nonprofit health care program as designated by the department.

(2) The department shall develop and implement a dental care access account initiative to benefit dentists licensed to practice in this state who demonstrate, as required by the department by rule:

(a) Active employment by a public health program located in

317634

a dental health professional shortage area or a medically underserved area; or

(b) A commitment to opening a private practice in a dental health professional shortage area or a medically underserved area, as demonstrated by the dentist residing in the designated area, maintaining an active Medicaid provider agreement, enrolling in one or more Medicaid managed care plans, expending sufficient capital to make substantial progress in opening a dental practice that is capable of serving at least 1,200 patients, and obtaining financial support from the local community in which the dentist is practicing or intending to open a practice.

(3) The department shall establish dental care access accounts as individual benefit accounts for each dentist who satisfies the requirements of subsection (2) and is selected by the department for participation. The department shall implement an electronic benefit transfer system that enables each dentist to spend funds from his or her account for the purposes described in subsection (4).

(4) Funds contributed from state and local sources to a dental care access account may be used for one or more of the following purposes:

(a) Repayment of dental school student loans.

(b) Investment in property, facilities, or equipment necessary to establish and operate a dental office consisting of no fewer than two operatories.

(c) Payment of transitional expenses related to the relocation or opening of a dental practice which are specifically approved by the department.

317634

(5) Subject to legislative appropriation, the department shall distribute state funds as an award to each dental care access account. An individual award must be in an amount not more than $100,000 and not less than $10,000, except that a state award may not exceed 3 times the amount contributed to an account in the same year from local sources. If a dentist qualifies for a dental care access account under paragraph (2)(a), the dentist's salary and associated employer expenditures constitute a local match and qualify the account for a state award if the salary and associated expenditures do not come from state funds. State funds may not be included in a determination of the amount contributed to an account from local sources.

(6) The department may accept contributions of funds from a local source for deposit in the account of a dentist designated by the donor.

(7) The department shall close an account no later than 5 years after the first deposit of state or local funds into that account or immediately upon the occurrence of any of the following:

(a) Termination of the dentist's employment with a public health program, unless, within 30 days after such termination, the dentist opens a private practice in a dental health professional shortage area or medically underserved area.

(b) Termination of the dentist's practice in a designated dental health professional shortage area or medically underserved area.

(c) Termination of the dentist's participation in the Florida Medicaid program.

317634

(d) Participation by the dentist in any fraudulent activity.

(8) Any state funds remaining in a closed account may be awarded and transferred to another account concurrent with the distribution of funds under the next legislative appropriation for the initiative. The department shall return to the donor on a pro rata basis unspent funds from local sources which remain in a closed account.

(9) If the department determines that a dentist has withdrawn account funds after the occurrence of an event specified in subsection (7), has used funds for purposes not authorized in subsection (4), or has not remained eligible for a dental care access account for a minimum of 2 years, the dentist shall repay the funds to his or her account. The department may recover the withdrawn funds through disciplinary enforcement actions and other methods authorized by law.

(10) The department shall establish by rule:

(a) Application procedures for dentists who wish to apply for a dental care access account. An applicant may demonstrate that he or she has expended sufficient capital to make substantial progress in opening a dental practice that is capable of serving at least 1,200 patients by documenting contracts for the purchase or lease of a practice location and providing executed obligations for the purchase or other acquisition of at least 30 percent of the value of equipment or supplies necessary to operate a dental practice. The department may limit the number of applicants selected and shall give priority to those applicants practicing in the areas receiving higher rankings pursuant to subsection (11). The department may

317634

establish additional criteria for selection which recognize an applicant's active engagement with and commitment to the community providing a local match.

(b) A process to verify that funds withdrawn from a dental care access account have been used solely for the purposes described in subsection (4).

(11) The Department of Economic Opportunity shall rank the dental health professional shortage areas and medically underserved areas of the state based on the extent to which limited access to dental care is impeding the areas' economic development, with a higher ranking indicating a greater impediment to development.

(12) The department shall develop a marketing plan for the dental care access account initiative in cooperation with the University of Florida College of Dentistry, the Nova Southeastern University College of Dental Medicine, the Lake Erie College of Osteopathic Medicine School of Dental Medicine, and the Florida Dental Association.

(13)(a) By January 1 of each year, beginning in 2018, the department shall issue a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which must include:

1. The number of patients served by dentists receiving funding under this section.

2. The number of Medicaid recipients served by dentists receiving funding under this section.

3. The average number of hours worked and patients served in a week by dentists receiving funding under this section.

4. The number of dentists in each dental health

317634

professional shortage area or medically underserved area receiving funding under this section.

5. The amount and source of local matching funds received by the department.

6. The amount of state funds awarded to dentists under this section.

7. A complete accounting of the use of funds by categories identified by the department, including, but not limited to, loans, supplies, equipment, rental property payments, real property purchases, and salary and wages.

(b) The department shall adopt rules to require dentists to report information to the department which is necessary for the department to fulfill its reporting requirement under this subsection.

Section 2. Subsection (3) of section 395.002, Florida Statutes, is amended to read:

395.002 Definitions.—As used in this chapter:

(3) "Ambulatory surgical center" or "mobile surgical facility" means a facility the primary purpose of which is to provide elective surgical care, in which the patient is admitted to and discharged from such facility within 24 hours ~~the same working day and is not permitted to stay overnight~~, and which is not part of a hospital. However, a facility existing for the primary purpose of performing terminations of pregnancy, an office maintained by a physician for the practice of medicine, or an office maintained for the practice of dentistry shall not be construed to be an ambulatory surgical center, provided that any facility or office which is certified or seeks certification as a Medicare ambulatory surgical center shall be licensed as an

317634

ambulatory surgical center pursuant to s. 395.003. Any structure or vehicle in which a physician maintains an office and practices surgery, and which can appear to the public to be a mobile office because the structure or vehicle operates at more than one address, shall be construed to be a mobile surgical facility.

Section 3. Present subsections (6) through (10) of section 395.003, Florida Statutes, are redesignated as subsections (7) through (11), respectively, a new subsection (6) is added to that section, and present subsections (9) and (10) of that section are amended, to read:

395.003 Licensure; denial, suspension, and revocation.—

(6) An ambulatory surgical center, as a condition of initial licensure and license renewal, must provide services to Medicare patients, Medicaid patients, and patients who qualify for charity care in an amount equal to or greater than the applicable district average among licensed providers of similar services. For the purposes of this subsection, "charity care" means uncompensated care delivered to uninsured patients with incomes at or below 200 percent of the federal poverty level when such services are preauthorized by the licensee and not subject to collection procedures.

(10) ~~(9)~~ A hospital licensed as of June 1, 2004, shall be exempt from subsection (9) ~~subsection (8)~~ as long as the hospital maintains the same ownership, facility street address, and range of services that were in existence on June 1, 2004. Any transfer of beds, or other agreements that result in the establishment of a hospital or hospital services within the intent of this section, shall be subject to subsection (9)

317634

~~subsection (8)~~. Unless the hospital is otherwise exempt under subsection (9) ~~subsection (8)~~, the agency shall deny or revoke the license of a hospital that violates any of the criteria set forth in that subsection.

(11) ~~(10)~~ The agency may adopt rules implementing the licensure requirements set forth in subsection (9) ~~subsection (8)~~. Within 14 days after rendering its decision on a license application or revocation, the agency shall publish its proposed decision in the Florida Administrative Register. Within 21 days after publication of the agency's decision, any authorized person may file a request for an administrative hearing. In administrative proceedings challenging the approval, denial, or revocation of a license pursuant to subsection (9) ~~subsection (8)~~, the hearing must be based on the facts and law existing at the time of the agency's proposed agency action. Existing hospitals may initiate or intervene in an administrative hearing to approve, deny, or revoke licensure under subsection (9) ~~subsection (8)~~ based upon a showing that an established program will be substantially affected by the issuance or renewal of a license to a hospital within the same district or service area.

Section 4. Section 624.27, Florida Statutes, is created to read:

624.27 Application of code as to direct primary care agreements.—

(1) As used in this section, the term:

(a) "Direct primary care agreement" means a contract between a primary care provider and a patient, the patient's legal representative, or an employer which meets the requirements specified under subsection (4) and does not

317634

indemnify for services provided by a third party.

(b) "Primary care provider" means a health care practitioner licensed under chapter 458, chapter 459, chapter 460, or chapter 464, or a primary care group practice that provides medical services to patients which are commonly provided without referral from another health care provider.

(c) "Primary care service" means the screening, assessment, diagnosis, and treatment of a patient for the purpose of promoting health or detecting and managing disease or injury within the competency and training of the primary care provider.

(2) A direct primary care agreement does not constitute insurance and is not subject to chapter 636 or any other chapter of the Florida Insurance Code. The act of entering into a direct primary care agreement does not constitute the business of insurance and is not subject to chapter 636 or any other chapter of the Florida Insurance Code.

(3) A primary care provider or an agent of a primary care provider is not required to obtain a certificate of authority or license under chapter 636 or any other chapter of the Florida Insurance Code to market, sell, or offer to sell a direct primary care agreement.

(4) For purposes of this section, a direct primary care agreement must:

(a) Be in writing.

(b) Be signed by the primary care provider or an agent of the primary care provider and the patient, the patient's legal representative, or an employer.

(c) Allow a party to terminate the agreement by giving the other party at least 30 days' advance written notice. The

317634

agreement may provide for immediate termination due to a violation of the physician-patient relationship or a breach of the terms of the agreement.

(d) Describe the scope of primary care services that are covered by the monthly fee.

(e) Specify the monthly fee and any fees for primary care services not covered by the monthly fee.

(f) Specify the duration of the agreement and any automatic renewal provisions.

(g) Offer a refund to the patient of monthly fees paid in advance if the primary care provider ceases to offer primary care services for any reason.

(h) Contain in contrasting color and in not less than 12-point type the following statements on the same page as the applicant's signature:

1. The agreement is not health insurance and the primary care provider will not file any claims against the patient's health insurance policy or plan for reimbursement of any primary care services covered by the agreement.

2. The agreement does not qualify as minimum essential coverage to satisfy the individual shared responsibility provision of the Patient Protection and Affordable Care Act, 26 U.S.C. s. 5000A.

Section 5. The amendments made by this act to ss. 409.967, 627.42392, 641.31, and 641.394, Florida Statutes, may be known as the "Right Medicine Right Time Act."

Section 6. Effective January 1, 2017, paragraph (c) of subsection (2) of section 409.967, Florida Statutes, is amended to read:

317634

409.967 Managed care plan accountability.—

(2) The agency shall establish such contract requirements as are necessary for the operation of the statewide managed care program. In addition to any other provisions the agency may deem necessary, the contract must require:

(c) *Access.*—

1. The agency shall establish specific standards for the number, type, and regional distribution of providers in managed care plan networks to ensure access to care for both adults and children. Each plan must maintain a regionwide network of providers in sufficient numbers to meet the access standards for specific medical services for all recipients enrolled in the plan. The exclusive use of mail-order pharmacies may not be sufficient to meet network access standards. Consistent with the standards established by the agency, provider networks may include providers located outside the region. A plan may contract with a new hospital facility before the date the hospital becomes operational if the hospital has commenced construction, will be licensed and operational by January 1, 2013, and a final order has issued in any civil or administrative challenge. Each plan shall establish and maintain an accurate and complete electronic database of contracted providers, including information about licensure or registration, locations and hours of operation, specialty credentials and other certifications, specific performance indicators, and such other information as the agency deems necessary. The database must be available online to both the agency and the public and have the capability to compare the availability of providers to network adequacy standards and to

317634

accept and display feedback from each provider's patients. Each plan shall submit quarterly reports to the agency identifying the number of enrollees assigned to each primary care provider.

2.a. Each managed care plan must publish any prescribed drug formulary or preferred drug list on the plan's website in a manner that is accessible to and searchable by enrollees and providers. The plan must update the list within 24 hours after making a change. Each plan must ensure that the prior authorization process for prescribed drugs is readily accessible to health care providers, including posting appropriate contact information on its website and providing timely responses to providers. For Medicaid recipients diagnosed with hemophilia who have been prescribed anti-hemophilic-factor replacement products, the agency shall provide for those products and hemophilia overlay services through the agency's hemophilia disease management program.

b. If a managed care plan restricts the use of prescribed drugs through a fail-first protocol, it must establish a clear and convenient process that a prescribing physician may use to request an override of the restriction from the managed care plan. The managed care plan shall grant an override of the protocol within 24 hours if:

(I) Based on sound clinical evidence, the prescribing provider concludes that the preferred treatment required under the fail-first protocol has been ineffective in the treatment of the enrollee's disease or medical condition; or

(II) Based on sound clinical evidence or medical and scientific evidence, the prescribing provider believes that the preferred treatment required under the fail-first protocol:

317634

(A) Is likely to be ineffective given the known relevant physical or mental characteristics and medical history of the enrollee and the known characteristics of the drug regimen; or

(B) Will cause or is likely to cause an adverse reaction or other physical harm to the enrollee.

If the prescribing provider follows the fail-first protocol recommended by the managed care plan for an enrollee, the duration of treatment under the fail-first protocol may not exceed a period deemed appropriate by the prescribing provider. Following such period, if the prescribing provider deems the treatment provided under the protocol clinically ineffective, the enrollee is entitled to receive the course of therapy that the prescribing provider recommends, and the provider is not required to seek approval of an override of the fail-first protocol. As used in this subparagraph, the term "fail-first protocol" means a prescription practice that begins medication for a medical condition with the most cost-effective drug therapy and progresses to other more costly or risky therapies only if necessary.

3. Managed care plans, and their fiscal agents or intermediaries, must accept prior authorization requests for any service electronically.

4. Managed care plans serving children in the care and custody of the Department of Children and Families shall ~~must~~ maintain complete medical, dental, and behavioral health encounter information and participate in making such information available to the department or the applicable contracted community-based care lead agency for use in providing

317634

comprehensive and coordinated case management. The agency and the department shall establish an interagency agreement to provide guidance for the format, confidentiality, recipient, scope, and method of information to be made available and the deadlines for submission of the data. The scope of information available to the department are ~~shall be~~ the data that managed care plans are required to submit to the agency. The agency shall determine the plan's compliance with standards for access to medical, dental, and behavioral health services; the use of medications; and followup on all medically necessary services recommended as a result of early and periodic screening, diagnosis, and treatment.

Section 7. Effective January 1, 2017, section 627.42392, Florida Statutes, is created to read:

627.42392 Fail-first protocols.—If an insurer restricts the use of prescribed drugs through a fail-first protocol, it must establish a clear and convenient process that a prescribing physician may use to request an override of the restriction from the insurer. The insurer shall grant an override of the protocol within 24 hours if:

(1) Based on sound clinical evidence, the prescribing provider concludes that the preferred treatment required under the fail-first protocol has been ineffective in the treatment of the insured's disease or medical condition; or

(2) Based on sound clinical evidence or medical and scientific evidence, the prescribing provider believes that the preferred treatment required under the fail-first protocol:

(a) Is likely to be ineffective given the known relevant physical or mental characteristics and medical history of the

317634

insured and the known characteristics of the drug regimen; or

(b) Will cause or is likely to cause an adverse reaction or other physical harm to the insured.

If the prescribing provider follows the fail-first protocol recommended by the insurer for an insured, the duration of treatment under the fail-first protocol may not exceed a period deemed appropriate by the prescribing provider. Following such period, if the prescribing provider deems the treatment provided under the protocol clinically ineffective, the insured is entitled to receive the course of therapy that the prescribing provider recommends, and the provider is not required to seek approval of an override of the fail-first protocol. As used in this section, the term "fail-first protocol" means a prescription practice that begins medication for a medical condition with the most cost-effective drug therapy and progresses to other more costly or risky therapies only if necessary.

Section 8. Effective January 1, 2017, subsection (44) is added to section 641.31, Florida Statutes, to read:

641.31 Health maintenance contracts.—

(44) A health maintenance organization may not require a health care provider, by contract with another health care provider, a patient, or another individual or entity, to use a clinical decision support system or a laboratory benefits management program before the provider may order clinical laboratory services or in an attempt to direct or limit the provider's medical decisionmaking relating to the use of such services. This subsection may not be construed to prohibit any

317634

prior authorization requirements that the health maintenance organization may have regarding the provision of clinical laboratory services. As used in this subsection, the term:

(a) "Clinical decision support system" means software designed to direct or assist clinical decisionmaking by matching the characteristics of an individual patient to a computerized clinical knowledge base and providing patient-specific assessments or recommendations based on the match.

(b) "Clinical laboratory services" means the examination of fluids or other materials taken from the human body, which examination is ordered by a health care provider for use in the diagnosis, prevention, or treatment of a disease or in the identification or assessment of a medical or physical condition.

(c) "Laboratory benefits management program" means a health maintenance organization protocol that dictates or limits health care provider decisionmaking relating to the use of clinical laboratory services.

Section 9. Effective January 1, 2017, section 641.394, Florida Statutes, is created to read:

641.394 Fail-first protocols.—If a health maintenance organization restricts the use of prescribed drugs through a fail-first protocol, it must establish a clear and convenient process that a prescribing physician may use to request an override of the restriction from the health maintenance organization. The health maintenance organization shall grant an override of the protocol within 24 hours if:

(1) Based on sound clinical evidence, the prescribing provider concludes that the preferred treatment required under the fail-first protocol has been ineffective in the treatment of

317634

the subscriber's disease or medical condition; or

(2) Based on sound clinical evidence or medical and scientific evidence, the prescribing provider believes that the preferred treatment required under the fail-first protocol:

(a) Is likely to be ineffective given the known relevant physical or mental characteristics and medical history of the subscriber and the known characteristics of the drug regimen; or

(b) Will cause or is likely to cause an adverse reaction or other physical harm to the subscriber.

If the prescribing provider follows the fail-first protocol recommended by the health maintenance organization for a subscriber, the duration of treatment under the fail-first protocol may not exceed a period deemed appropriate by the prescribing provider. Following such period, if the prescribing provider deems the treatment provided under the protocol clinically ineffective, the subscriber is entitled to receive the course of therapy that the prescribing provider recommends, and the provider is not required to seek approval of an override of the fail-first protocol. As used in this section, the term "fail-first protocol" means a prescription practice that begins medication for a medical condition with the most cost-effective drug therapy and progresses to other more costly or risky therapies only if necessary.

Section 10. Paragraphs (a) and (d) of subsection (3) and subsections (4) and (5) of section 766.1115, Florida Statutes, are amended to read:

766.1115 Health care providers; creation of agency relationship with governmental contractors.—

317634

(3) DEFINITIONS.—As used in this section, the term:

(a) "Contract" means an agreement executed in compliance with this section between a health care provider and a governmental contractor for volunteer, uncompensated services which allows the health care provider to deliver health care services to low-income recipients as an agent of the governmental contractor. ~~The contract must be for volunteer, uncompensated services, except as provided in paragraph (4)(g).~~ For services to qualify as volunteer, uncompensated services under this section, the health care provider, or any employee or agent of the health care provider, must receive no compensation from the governmental contractor for any services provided under the contract and must not bill or accept compensation from the recipient, or a public or private third-party payor, for the specific services provided to the low-income recipients covered by the contract, except as provided in paragraph (4)(g). A free clinic as described in subparagraph (d)14. may receive a legislative appropriation, a grant through a legislative appropriation, or a grant from a governmental entity or nonprofit corporation to support the delivery of contracted services by volunteer health care providers, including the employment of health care providers to supplement, coordinate, or support the delivery of such services. The appropriation or grant for the free clinic does not constitute compensation under this paragraph from the governmental contractor for services provided under the contract, nor does receipt or use of the appropriation or grant constitute the acceptance of compensation under this paragraph for the specific services provided to the low-income recipients covered by the contract.

317634

(d) "Health care provider" or "provider" means:

1. A birth center licensed under chapter 383.

2. An ambulatory surgical center licensed under chapter 395.

3. A hospital licensed under chapter 395.

4. A physician or physician assistant licensed under chapter 458.

5. An osteopathic physician or osteopathic physician assistant licensed under chapter 459.

6. A chiropractic physician licensed under chapter 460.

7. A podiatric physician licensed under chapter 461.

8. A registered nurse, nurse midwife, licensed practical nurse, or advanced registered nurse practitioner licensed or registered under part I of chapter 464 or any facility which employs nurses licensed or registered under part I of chapter 464 to supply all or part of the care delivered under this section.

9. A midwife licensed under chapter 467.

10. A health maintenance organization certificated under part I of chapter 641.

11. A health care professional association ~~and its employees~~ or a corporate medical group ~~and its employees~~.

12. Any other medical facility the primary purpose of which is to deliver human medical diagnostic services or which delivers nonsurgical human medical treatment, and which includes an office maintained by a provider.

13. A dentist or dental hygienist licensed under chapter 466.

14. A free clinic that delivers only medical diagnostic

317634

services or nonsurgical medical treatment free of charge to all low-income recipients.

15. A pharmacy or pharmacist licensed under chapter 465.

16.~~15.~~ Any other health care professional, practitioner, provider, or facility under contract with a governmental contractor, including a student enrolled in an accredited program that prepares the student for licensure as any one of the professionals listed in subparagraphs 4.-9.

The term includes any nonprofit corporation qualified as exempt from federal income taxation under s. 501(a) of the Internal Revenue Code, and described in s. 501(c) of the Internal Revenue Code, which delivers health care services provided by licensed professionals listed in this paragraph, any federally funded community health center, and any volunteer corporation or volunteer health care provider that delivers health care services.

(4) CONTRACT REQUIREMENTS.—A health care provider that executes a contract with a governmental contractor to deliver health care services ~~on or after April 17, 1992,~~ as an agent of the governmental contractor, or any employee or agent of such health care provider, is an agent for purposes of s. 768.28(9), while acting within the scope of duties under the contract, if the contract complies with the requirements of this section and regardless of whether the individual treated is later found to be ineligible. A health care provider, or any employee or agent of such health care provider, shall continue to be an agent for purposes of s. 768.28(9) for 30 days after a determination of ineligibility to allow for treatment until the individual

317634

transitions to treatment by another health care provider. A health care provider<u>, or any employee or agent of such health care provider,</u> under contract with the state may not be named as a defendant in any action arising out of medical care or treatment ~~provided on or after April 17, 1992,~~ under contracts entered into under this section. The contract must provide that:

(a) The right of dismissal or termination of any health care provider delivering services under the contract is retained by the governmental contractor.

(b) The governmental contractor has access to the patient records of any health care provider delivering services under the contract.

(c) Adverse incidents and information on treatment outcomes must be reported by any health care provider to the governmental contractor if the incidents and information pertain to a patient treated under the contract. The health care provider shall submit the reports required by s. 395.0197. If an incident involves a professional licensed by the Department of Health or a facility licensed by the Agency for Health Care Administration, the governmental contractor shall submit such incident reports to the appropriate department or agency, which shall review each incident and determine whether it involves conduct by the licensee that is subject to disciplinary action. All patient medical records and any identifying information contained in adverse incident reports and treatment outcomes which are obtained by governmental entities under this paragraph are confidential and exempt from the provisions of s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

(d) Patient selection and initial referral must be made by

317634

the governmental contractor or the provider. Patients may not be transferred to the provider based on a violation of the antidumping provisions of the Omnibus Budget Reconciliation Act of 1989, the Omnibus Budget Reconciliation Act of 1990, or chapter 395.

(e) If emergency care is required, the patient need not be referred before receiving treatment, but must be referred within 48 hours after treatment is commenced or within 48 hours after the patient has the mental capacity to consent to treatment, whichever occurs later.

(f) The provider is subject to supervision and regular inspection by the governmental contractor.

(g) ~~As an agent of the governmental contractor for purposes of s. 768.28(9), while acting within the scope of duties under the contract,~~ A health care provider licensed under chapter 466, as an agent of the governmental contractor for purposes of s. 768.28(9), may allow a patient, or a parent or guardian of the patient, to voluntarily contribute a monetary amount to cover costs of dental laboratory work related to the services provided to the patient within the scope of duties under the contract. This contribution may not exceed the actual cost of the dental laboratory charges.

A governmental contractor that is also a health care provider is not required to enter into a contract under this section with respect to the health care services delivered by its employees.

(5) NOTICE OF AGENCY RELATIONSHIP.—The governmental contractor must provide written notice to each patient, or the patient's legal representative, receipt of which must be

317634

acknowledged in writing at the initial visit, that the provider is an agent of the governmental contractor and that the exclusive remedy for injury or damage suffered as the result of any act or omission of the provider or of any employee or agent thereof acting within the scope of duties pursuant to the contract is by commencement of an action pursuant to ~~the provisions of~~ s. 768.28. Thereafter, or with respect to any federally funded community health center, the notice requirements may be met by posting in a place conspicuous to all persons a notice that the health care provider, or federally funded community health center, is an agent of the governmental contractor and that the exclusive remedy for injury or damage suffered as the result of any act or omission of the provider or of any employee or agent thereof acting within the scope of duties pursuant to the contract is by commencement of an action pursuant to ~~the provisions of~~ s. 768.28.

Section 11. Paragraphs (a) and (b) of subsection (9) of section 768.28, Florida Statutes, is amended to read:

768.28 Waiver of sovereign immunity in tort actions; recovery limits; limitation on attorney fees; statute of limitations; exclusions; indemnification; risk management programs.—

(9)(a) An ~~No~~ officer, employee, or agent of the state or of any of its subdivisions may not ~~shall~~ be held personally liable in tort or named as a party defendant in any action for any injury or damage suffered as a result of any act, event, or omission of action in the scope of her or his employment or function, unless such officer, employee, or agent acted in bad faith or with malicious purpose or in a manner exhibiting wanton

and willful disregard of human rights, safety, or property. However, such officer, employee, or agent shall be considered an adverse witness in a tort action for any injury or damage suffered as a result of any act, event, or omission of action in the scope of her or his employment or function. The exclusive remedy for injury or damage suffered as a result of an act, event, or omission of an officer, employee, or agent of the state or any of its subdivisions or constitutional officers is ~~shall be~~ by action against the governmental entity, or the head of such entity in her or his official capacity, or the constitutional officer of which the officer, employee, or agent is an employee, unless such act or omission was committed in bad faith or with malicious purpose or in a manner exhibiting wanton and willful disregard of human rights, safety, or property. The state or its subdivisions are ~~shall~~ not ~~be~~ liable in tort for the acts or omissions of an officer, employee, or agent committed while acting outside the course and scope of her or his employment or committed in bad faith or with malicious purpose or in a manner exhibiting wanton and willful disregard of human rights, safety, or property.

(b) As used in this subsection, the term:

1. "Employee" includes any volunteer firefighter.

2. "Officer, employee, or agent" includes, but is not limited to, any health care provider, and its employees or agents, when providing services pursuant to s. 766.1115; any nonprofit independent college or university located and chartered in this state which owns or operates an accredited medical school, and its employees or agents, when providing patient services pursuant to paragraph (10)(f); ~~and~~ any public

317634

defender or her or his employee or agent, including~~, among others,~~ an assistant public defender or ~~and~~ an investigator; and any physician licensed in this state who is a medical director for or member of a child protection team, as defined in s. 39.01, when carrying out her or his duties as a team member.

Section 12. Except as otherwise expressly provided in this act, this act shall take effect July 1, 2016.

By the Committee on Health Policy; and Senator Gaetz

588-02302-16 2016212c1

A bill to be entitled

An act relating to ambulatory surgical centers; amending s. 395.002, F.S.; revising the definition of the term "ambulatory surgical center" or "mobile surgical facility"; amending s. 395.003, F.S.; requiring, as a condition of licensure and license renewal, that ambulatory surgical centers provide services to specified patients; defining a term; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (3) of section 395.002, Florida Statutes, is amended to read:

395.002 Definitions.—As used in this chapter:

(3) "Ambulatory surgical center" or "mobile surgical facility" means a facility the primary purpose of which is to provide elective surgical care, in which the patient is admitted to and discharged from such facility within 24 hours ~~the same working day and is not permitted to stay overnight~~, and which is not part of a hospital. However, a facility existing for the primary purpose of performing terminations of pregnancy, an office maintained by a physician for the practice of medicine, or an office maintained for the practice of dentistry shall not be construed to be an ambulatory surgical center, provided that any facility or office which is certified or seeks certification as a Medicare ambulatory surgical center shall be licensed as an ambulatory surgical center pursuant to s. 395.003. Any structure or vehicle in which a physician maintains an office and practices surgery, and which can appear to the public to be a mobile office because the structure or vehicle operates at more than one address, shall be construed to be a mobile surgical

588-02302-16 2016212c1

facility.

Section 2. Present subsections (6) through (10) of section 395.003, Florida Statutes, are redesignated as subsections (7) through (11), respectively, a new subsection (6) is added to that section, and present subsections (9) and (10) of that section are amended, to read:

395.003 Licensure; denial, suspension, and revocation.—

(6) An ambulatory surgical center, as a condition of initial licensure and license renewal, must provide services to Medicare patients, Medicaid patients, and patients who qualify for charity care. For the purposes of this subsection, "charity care" means uncompensated care delivered to uninsured patients with incomes at or below 200 percent of the federal poverty level when such services are preauthorized by the licensee and not subject to collection procedures.

(10)~~(9)~~ A hospital licensed as of June 1, 2004, shall be exempt from subsection (9) ~~subsection (8)~~ as long as the hospital maintains the same ownership, facility street address, and range of services that were in existence on June 1, 2004. Any transfer of beds, or other agreements that result in the establishment of a hospital or hospital services within the intent of this section, shall be subject to subsection (9) ~~subsection (8)~~. Unless the hospital is otherwise exempt under subsection (9) ~~subsection (8)~~, the agency shall deny or revoke the license of a hospital that violates any of the criteria set forth in that subsection.

(11)~~(10)~~ The agency may adopt rules implementing the licensure requirements set forth in subsection (9) ~~subsection (8)~~. Within 14 days after rendering its decision on a license

application or revocation, the agency shall publish its proposed decision in the Florida Administrative Register. Within 21 days after publication of the agency's decision, any authorized person may file a request for an administrative hearing. In administrative proceedings challenging the approval, denial, or revocation of a license pursuant to subsection (9) ~~subsection (8)~~, the hearing must be based on the facts and law existing at the time of the agency's proposed agency action. Existing hospitals may initiate or intervene in an administrative hearing to approve, deny, or revoke licensure under subsection (9) ~~subsection (8)~~ based upon a showing that an established program will be substantially affected by the issuance or renewal of a license to a hospital within the same district or service area.

Section 3. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 234 (406770)

1.	Lloyd	Stovall	HP	**Favorable**
2.	Brown	Pigott	AHS	**Recommend: Fav/CS**
3.	Brown	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/SB 234 authorizes the creation of joint state and local dental care access accounts to promote local economic development and to encourage Florida-licensed dentists to practice in dental health professional shortage areas or medically underserved areas, or serve a medically underserved population, subject to the availability of funds.

The bill directs the Department of Health (DOH) to create individual benefit accounts through an electronic benefits transfer system for each dentist who satisfies the requirements of participation. A qualifying dentist must be actively employed by a public health program in a targeted area or demonstrate a commitment to opening a dental practice that serves at least 1,200 patients and obtaining local financial support from the community where the dentist will practice in that targeted area. No more than 10 new dental care access accounts may be established per fiscal year.

Funds from the account may be used to repay dental school loans; purchase property, facilities, or equipment for a dental office; or pay for transitional expenses relating to relocating or opening a dental practice. Subject to availability, a practitioner may receive funds for up to five years. An account may be terminated under certain conditions and any unspent funds returned to the donor or redistributed to other available applicants.

The DOH estimates first-year implementation expenditures of $306,064 in general revenue and recurring maintenance and support costs of $277,296 in general revenue.

The effective date of the bill is July 1, 2016.

II. Present Situation:

Health Professional Shortage Areas

Health Professional Shortage Areas (HPSAs) are designated by the Health Resources and Services Administration (HRSA) within the U.S. Department of Health and Human Services according to criteria developed in accordance with section 332 of the Public Health Services Act. HPSA designations are used to identify areas and population groups within the United States that are experiencing a shortage of health professionals.

There are three categories of HPSA designation: (1) primary medical; (2) dental; and (3) mental health. For each discipline category, there are three types of HPSA designations based on the area or population group that is experiencing the shortage: (1) geographic area; (2) population group; and (3) facility.[1]

A geographic HPSA indicates that the entire area may experience barriers in accessing care, while a population HPSA indicates that a particular subpopulation of an area (e.g., homeless or low-income) may be underserved. Finally, a facility HPSA is a unique facility that primarily cares for an underserved population.

The primary factor used to determine a HPSA designation is the number of health professionals relative to the population with consideration of high need. The threshold for a dental HPSA is a population-to-provider ratio of at least 5,000 to 1 (or 4,000 to 1 in high-need communities).[2]

Medically Underserved Area

Medically Underserved Areas (MUA) are also designated by the U.S. Department of Health and Human Services. These areas are designated using one of three methods and can consist of a whole county, a group of contiguous counties, or census tracts.[3]

The first method, the Index of Medical Underservice (IMU), calculates a score based on the ratio of primary medical care physicians per 1,000 in population, percentage of the population with incomes below the federal poverty level, infant mortality rate, and percentage of population aged 65 or older.

The second method, Medically Underserved Populations (MUP), is based on data collected under the MUA process and reviews the ratio of primary care physicians serving the population

[1] U.S. Department of Health and Human Services, Health Resources and Services Administration, *Shortage Designation: Health Professional Shortage Areas & Medically Underserved Areas/Population* http://www.hrsa.gov/shortage/ (last visited Sept. 21, 2015).
[2] *Id.*
[3] *Id.*

seeking the designation. A MUP is a group of people who encounter economic or cultural barriers to primary health care services.

The third process, Exceptional MUP Designations, includes those population groups which do not meet the criteria of an IMU but may be considered for designation because of unusual conditions with a request by the governor or another senior executive level official and a local state health official.[4]

The Dental Workforce

Nationally, the pool of dentists to serve the growing population of Americans is shrinking. The American Dental Association has found that 6,000 dentists retire each year in the U.S., while only 4,000 dental school students graduate each year. The projected shortage of dentists is even greater in rural America. Of the approximately 150,000 general dentists in practice in the U.S., only 14 percent practice in rural areas, 7.7 percent practice in large rural areas, 3.7 percent practice in small rural areas, and 2.2 percent practice in isolated rural areas. In 2003, there were 2,235 federally designated dental health professional shortage areas (HPSAs).[5] Today, the number of dental HPSAs has increased to over 4,900.

While the dental workforce is projected to grow by six percent between 2012 and 2025, it is not expected to meet the overall national demand. Florida is listed as the second neediest state, with 1,152 fewer dentists than the number required to serve the population.[6] Similar to the national trend, most dentists in Florida are concentrated in the more populous areas of the state, while rural areas, especially the central Panhandle counties and interior counties of south Florida, have a noticeable lack of dentists.[7] This is true for both general dentistry as well as for dental specialists. Additionally, over 20 percent of Florida licensed dentists that responded to the 2011-2012 *Florida Workforce Survey of Dentists* (survey) currently do not practice in Florida.[8]

Most dentists – 77.8 percent – practice in general dentistry.[9] In many rural communities, the county health department may be the primary provider of health care services, including dental care. Florida currently has 220 designated dental HPSAs, which have only enough dentists to serve 17 percent of the population living within them. For 2012, HRSA estimated that 853 additional dentists were required to meet the total need. This puts Florida among the states with

[7] Florida Dept. of Health, *Report on the 2011-2012 Workforce Survey of Dentists*, p. 6 (April 2014) http://www.floridahealth.gov/programs-and-services/community-health/dental-health/workforce-reports/florida-workforce-survey-of-dentists-2011-2012.pdf (last visited Sept. 21, 2015). In 2009, the DOH developed this workforce survey for dentists. The survey was administered on a voluntary basis in conjunction with biennial renewal of dental licenses and 87 percent of dentists with an active Florida license responded to the survey; a drop of 2 percent points from the 2009-2010 survey.

[9] *Id.*

the highest proportion of their populations that are deemed underserved. By 2025, Florida's need grows to 1,152 dentists.[10]

The American Dental Association has also studied this issue and found that while there may be a sufficient number of dentists overall, there may be an inadequate number among certain populations or in certain geographic areas.[11] Children are acutely affected by the shortage of dentists to serve low income patients. In 2012, 26 percent of Medicaid-enrolled children in Florida received one or more dental care services, according data from the Agency for Health Care Administration (AHCA).[12] The survey noted a noticeable participation difference between private-practice dentists and those who practice in a safety-net setting. Of those in a private-office setting, only 13.7 percent report seeing Medicaid enrollees while over 60 percent of safety-net providers report Medicaid participation.[13]

In 2011, the Legislature passed HB 7107[14] creating the Statewide Medicaid Managed Care (SMMC) program as part IV of ch. 409, F.S. The program has two primary components: Managed Medical Assistance program (MMA) and Long Term Care program. To implement MMA, the law required the AHCA to create an integrated managed care program for the delivery of Medicaid primary and acute care services, including dental. Medicaid recipients who are enrolled in MMA receive their dental services through managed care plans. Although most dental services are designated as a required benefit only for Medicaid recipients under age 21, many of the managed care plans also provide dental services for adults as an enhanced benefit.

The Cost of Dental Education

Among U.S. dental schools, the cost of a four-year degree has risen dramatically over the last 10 years – by 93 percent for in-state residents (from about $89,000 to $171,000) and by 82 percent for out-of-state residents (from $128,000 to $234,000). Dental school debt has increased proportionately. The average debt for dental school graduates in 2014 was $247,227.[15]

In 2013, Congress enacted the Bipartisan Student Loan Certainty Act of 2013 (Public Law 113-28) that tied student loan interest rates to the 10-year Treasury Note. For graduate and professional student loans, the interest rate is tied to 10-year Treasury Note plus 3.6 percent, but may not exceed 9.5 percent in any given year.[16] In June 2014, through a Presidential Memorandum, President Barack Obama directed the Secretary of Education to propose regulations to allow additional students with student loan debt to cap their payments at 10

percent of their income, by December 31, 2015.[17] The Presidential Memorandum called the plan, "*Pay as You Earn Plan."*[18]

Some studies indicate that increasing education costs and the prospect of indebtedness after dental school graduation could further erode access to care for vulnerable, underserved populations.[19] At least three studies, including a 2011 Florida Senate Report,[20] have recommended consideration of loan forgiveness programs as one strategy for addressing dental workforce shortage concerns.[21]

Florida does not have a current state program to address the dental health professional shortage areas or medically underserved areas. According to the DOH, there are 16 vacant positions (out of 82 or 19.5 percent) for dentists in the DOH.[22] Additionally, according to the Health Resources and Services Administration, there are 16 vacant dentist positions in Florida Dental Health Professional Shortage Areas as of September 16, 2015.[23]

Florida Health Services Corps

In 1992, the Legislature created the Florida Health Services Corps (FHSC), administered by the DOH, to encourage medical professionals to practice in locations that are underserved because of a shortage of qualified professionals.[24] The FHSC was defined[25] as a program that offered scholarships to allopathic, osteopathic, chiropractic, podiatric, dental, physician assistant, and

[20] Comm. on Health Regulation, The Florida Senate, *Review Eligibility of Dentist Licensure in Florida and Other Jurisdictions*, p.15 (Interim Report 2012-127) (Sept. 2011) http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-127hr.pdf (last visited Sept. 21, 2015). The report concluded, in part: "Florida may become more competitive in its recruitment of dentists in rural areas and may enhance Florida's dental care for underserved populations if it offers a loan forgiveness program. The program could require dentists seeking loan assistance to serve in a rural area (the Panhandle or central, south Florida) and require dentists to serve a certain percentage of Medicaid recipients or participate in the provider network of managed care entities participating in the Medicaid program for a particular period of time. Considering the current lack of state resources, it may be beneficial to limit the number of dentists that may apply to the loan forgiveness program and target resources to areas with the most need for general dentists or specialists." At the time, Florida was one of only eight states that did not have a state loan forgiveness program. According to the American Dental Association, it is one of only 11 states: Alabama, Arkansas, Connecticut, Florida, Georgia, Hawaii, Idaho, Indiana, Montana, Texas, and Utah as of July 2014. http://www.ada.org/~/media/ADA/Education%20and%20Careers/Files/dental-student-loan-repayment-resource.ashx (Last visited Mar. 2, 2015).

[24] Chapter 92-33, s. 111, Laws of Fla. (creating s. 381.0302, F.S., effective July 1, 1992).

[25] Section 381.0302(2)(b)1., F.S. (2011).

nursing students, and loan repayment assistance and travel and relocation expenses to allopathic and osteopathic residents and physicians, chiropractic physicians, podiatric physicians, nurse practitioners, dentists, and physician assistants, in return for service in a public health care program[26] or in a medically underserved area.[27] Membership in the FHSC could be extended to any health care practitioner who provided uncompensated care to medically indigent patients.[28] All FHSC members were required to enroll in Medicaid and to accept all patients referred by the DOH pursuant to the program agreement.[29] In exchange for this service, an FHSC member was made an agent of the state and granted sovereign immunity under s. 768.28(9), F.S., when providing uncompensated care to medically indigent patients referred for treatment by the DOH.[30]

The statute authorized the DOH to provide loan repayment assistance and travel and relocation reimbursement to allopathic and osteopathic medical residents with primary care specialties during their last two years of residency training or upon completion of residency training, and to physician assistants and nurse practitioners with primary care specialties, in return for an agreement to serve a minimum of two years in the FHSC. During the period of service, the maximum amount of annual financial payments was limited to no more than the annual total of loan repayment assistance and tax subsidies authorized by the National Health Services Corps (NHSC) loan repayment program.[31]

During the 20 years the program was authorized by law, it was funded only three times. A total of $3,684,000 was appropriated in the 1994-1995 fiscal year, 1995-1996 fiscal year, and 1996-1997 fiscal year for loan assistance payments to all categories of eligible health care practitioners. Of that amount, $971,664 was directed to 18 dentists for an average award of $25,570 per year of service in the program.[32] The 2007 Legislature attempted to reinvigorate the program by appropriating $700,000 to fund loan repayment assistance for dentists only.[33] However, the appropriation and a related substantive bill were vetoed.[34] The Legislature repealed the program in 2012.[35]

[26] "Public health program" was defined to include a county health department, a children's medical services program, a federally funded community health center, a federally funded migrant health center, or other publicly funded or nonprofit health care program designated by the department. Section 381.0302(2)(e), F.S. (2011).
[27] "Medically underserved area" was defined to include: a geographic area, a special population, or a facility that has a shortage of health professionals as defined by federal regulations; a county health department, community health center, or migrant health center; or a geographic area or facility designated by rule of the department that has a shortage of health care practitioners who serve Medicaid and other low-income patients. Section 381.0302(2)(c), F.S. (2011).
[28] "Medically indigent person" was defined as a person who lacks public or private health insurance, is unable to pay for care, and is a member of a family with income at or below 185 percent of the federal poverty level. Section 381.0302(2)(d), F.S. (2011).
[29] Section 381.0302(10), F.S. (2011).
[30] Section 381.0302(11), F.S. (2011).
[31] Section 381.0302(6), F.S. (2011).

National Health Service Corps

The NHSC programs provide scholarships and educational loan repayment to primary care providers[36] who agree to practice in areas that are medically underserved. NHSC loan repayment program (LRP) participants fulfill their service requirement by working at NHSC-approved sites in HPSAs. The NHSC-approved sites are community-based health care facilities that provide comprehensive outpatient, ambulatory, primary health care services. Eligible dental facilities must be located in a dental HPSA and offer comprehensive primary dental health services. NHSC-approved sites (with the exception of correctional facilities and free clinics) are required to provide services for free or on a sliding fee scale (SFS) or discounted fee schedule for low-income individuals. The SFS or discounted fee schedule is based upon the Federal Poverty Guidelines, and patient eligibility is determined by annual income and family size.[37]

The LRP provides funds to participants to repay their outstanding qualifying educational loans. Maximum loan reimbursement under the program is $50,000 for a two-year, full-time practice or up to $15,000 for a two-year, half-time clinical practice, although participants may be eligible to continue loan repayment beyond the initial term.[38,39] Participants who breach their LRP agreement are subject to monetary damages, which are the sum of the amount of assistance received by the participant representing any period of obligated service not completed, a penalty, and interest. Loan repayments are exempt from federal income and employment taxes and are not included as wages when determining benefits under the Social Security Act.[40] As of September 2015, there were 47 full-time-equivalent NHSC dentists in Florida.[41]

A second NHSC program, the State Loan Repayment Program (SLRP) offers cost-sharing grants to states to operate their own state educational loan repayment programs for primary care providers, including dental professionals, working in HPSAs within the state. The SLRP varies from state to state and may differ in eligible categories of providers, practice sites, length of required service commitment, and the amount of loan repayment assistance offered. However, there are certain statutory requirements SLRP grantees must meet. There is a minimum two-year service commitment with an additional one-year commitment for each year of additional support requested. Any SLRP program participant must practice at an eligible site located in a federally-designated HPSA. Like the NHSC loan repayment program awards, assistance provided through an SLRP is not taxable.

[40] U.S. Dept. of Health and Human Services, Health Resources and Services Administration, *National Health Service Corps 101* (on file in the Senate Committee on Health Policy).

[41] E-mail from Debbie Reich, Supervisor, State Primary Care Office, Health Statistics and Performance Management, Florida Dept. of Health (Sept. 22, 2015) (on file with the Senate Committee on Health Policy).

In addition, the SLRP requires a $1 state match for every $1 provided under the federal grant. While the SLRP does not limit award amounts, the maximum award amount per provider that the federal government will support through its grant is $50,000 per year, with a minimum service commitment of two years.

Florida does not currently participate in SLRP.

III. Effect of Proposed Changes:

The bill creates the dental care access accounts initiative at the Department of Health (DOH). The initiative is conditioned on the availability of funds and is intended to encourage dentists to practice in dental health professional shortage areas or medically underserved areas or serve a medically underserved population. The bill defines several key terms:

- Dental health professional shortage area: A geographic area so designated by the Health Resources and Services Administration of the U.S. Department of Health and Human Services;
- Medically underserved area: A designated health professional shortage area that lacks an adequate number of dental health professionals to serve Medicaid and other low income patients; and
- Public health program: A county health department, the Children's Medical Services program, a federally qualified community health center, a federally-funded migrant health center, or other publicly-funded or not-for-profit health care program designated by the DOH.

The initiative will be developed by the DOH to benefit dentists licensed to practice in this state who demonstrate, as required by DOH rule:

- Active employment by a public health program in a dental health professional shortage area or a medically underserved area; or
- A commitment to opening a private practice in a dental health professional shortage area or medically underserved area by residing in the area, maintaining a Medicaid provider agreement, enrolling with one or more Medicaid managed care plans, expending capital to open an office to serve at least 1,200 patients, and obtaining community financial support.

The DOH is required to establish dental access accounts for dentists who meet the requirements in the bill and to implement an electronic benefits transfer system. The bill requires that no more than 10 new dental care access accounts may be established per fiscal year. Funds from an account may be used only for specific purposes, such as payment of student loans; investment in property, facilities, or equipment necessary to establish an office and payment of transitional expenses related to relocating or opening a dental practice.

Subject to available appropriations, the DOH is required to distribute funds to the dental access accounts in amounts not to exceed $100,000 and no less than $10,000. A state award may not exceed three times the amount contributed to an account in the same year from a local source. The DOH is authorized to accept funds for deposit from local sources.

If a dentist qualifies for an account on the basis of his or her employment with a public health program, the dentist's salary and associated employer expenditures may count as local match for

a state award if the salary and employer expenditures are not state funds. State funds may not be used to calculate amounts contributed from local sources.

Accounts may be terminated if the dentist no longer works for a public health program and does not open a dental practice in a designated area within 30 days of terminating employment, the dentist's practice is no longer located in a dental professional shortage area or a medically underserved area, the provider has been terminated from Medicaid, or the provider has participated in any fraudulent activity. The DOH is directed to close an account five years after the first deposit or upon a dentist's termination from the program.

Any remaining funds after five years or from terminated accounts may be awarded to another account or returned to the donor. A dentist is required to repay any funds withdrawn from the account after the occurrence of an event which requires account closure, if the dentist fails to maintain eligibility for the program through employment in a public health program or establishing a dental practice for a minimum of two years, or uses the funds for unauthorized purposes. The DOH is authorized to recover the withdrawn funds through disciplinary enforcement actions and other methods authorized by law.

The DOH is authorized to adopt rules for application procedures that:

- Limit the number of applicants;
- Incorporate a documentation process for evidence of sufficient capital expenditures in opening a dental practice, such as contracts or leases or other acquisitions of a practice location of at least 30 percent of the value of equipment or supplies necessary to operate a practice; and
- Give priority to those applicants practicing in the areas receiving higher rankings by the Department of Economic Opportunity.

The DOH may also establish by rule a process to verify that funds withdrawn from an account have been used for the purposes authorized.

The Department of Economic Opportunity is directed to rank the dental professional shortage areas and medically underserved areas based on the extent to which limited access to dental care is impeding economic development.

The DOH must develop a marketing plan for the dental care access account initiative with the University of Florida's College of Dentistry, the Nova Southeastern College of Dental Medicine, the Lake Erie College of Osteopathic Medicine's School of Dental Medicine, and the Florida Dental Association.

Beginning in January 2018, the DOH is required to issue a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which must include:

- The number of patients served by dentists who receive funding under the bill;
- The number of Medicaid recipients served by dentists who receive funding under the bill;
- The average number of hours worked and patients served per week by dentists who receive funding under the bill;

- The number of dentists in each dental health professional shortage area or medically underserved area who receive funding under the bill;
- The amount and source of local matching funds received by the DOH;
- The amount of state funds awarded to dentists under the bill; and
- A complete accounting of the use of funds, by categories identified by the DOH, including, but not limited to, loans, supplies, equipment, rental property payments, real property purchases, and salary and wages.

The DOH is directed under the bill to adopt rules to require dentists to report information to the DOH that is necessary for the DOH to fulfill the reporting requirement.

The bill's effective date is July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Under PCS/SB 234, Floridians living in those areas identified as medically underserved and have little or no access to dental care could benefit from this initiative. The program could bring additional dental professionals to underserved communities. The initiative also permits the grantees to utilize the funds to transition or relocate to new areas and to build or renovate office space in rural communities, which would generate economic growth for small towns and cities. Additionally, dentists who qualify for loan repayment assistance will benefit from a reduction in their student loan debt.

C. Government Sector Impact:

If the program receives an appropriation, the bill will create a fiscal impact to the Department of Health (DOH) in order to implement and manage the dental care access account initiative. The estimated cost is $306,064 for the 2016-2017 fiscal year with a

recurring cost of $277,296 beginning with Fiscal Year 2017-2018. These costs would need to be funded with general revenue.

The initial cost for the electronic benefit transfer contract/vendor is estimated at $100,000 for the first year and $50,000 for the second year. The DOH reports that there is a current EBT system that could be used to implement this system, but it is unknown if it could accommodate all of the provisions of this bill. The EBT systems charge a nominal fee of approximately $0.50 per participant per month as a maintenance fee. The DOH also anticipates a withdrawal fee of at least $1 per transaction when a dentist makes a withdrawal from his or her account.

The number of dentists qualifying for this initiative is unknown.[42] However, the DOH estimates at least 32 dentists could be served annually. The cost of the EBT system would have to be negotiated based on the number of dentists participating in the program.

The DOH also reports the bill will create a workload impact that current staff is unable to meet. Two additional full-time equivalent (FTE) staff members would be required to develop the application process and adopt rules. Staff will also be needed to monitor activity, dentist conduct, dentist membership status, and rulings by the Board of Dentistry on recipients.

The following are the estimated expenditures for the DOH:[43]

Estimated Expenditures (General Revenue)	1st Year	2nd Year Annualization/Recurring
SALARIES		
1 FTE **Health Care Program Analyst @ $40,948 - pay grade 24**	$41,460	$55,280
1 FTE **Senior Management Analyst II @ $46,381 - pay grade 26**	$47,114	$62,818
EXPENSES		
2 FTEs Calculated with standard DOH professional package (limited travel) @ $15,742	$31,484	$23,486
2 docking stations (@ $142 each	$294	$0-
HUMAN RESOURCES SERVICES		
2 FTEs Calculated with standard DOH Central Office package @ $356	$712	$712
Operating Capital Outlay		
Operating Capital Outlay	$0.00	$0.00

[43] *Id., at p 2.*

Estimated Expenditures (General Revenue)	1st Year	2nd Year Annualization/Recurring
Contractual Services		
Estimate for the development, implementation and maintenance of an electronic benefit transfer (EBT) system	$100,000	$50,000
Marketing Campaign*	$85,000	$85,000
TOTAL ESTIMATED EXPENDITURES	**$306,064**	**$277,296**

*The DOH is also directed to develop a marketing plan with Florida-based dental schools.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill creates section 381.4019 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Health and Human Services on November 18, 2015:
The committee substitute requires that no more than 10 new dental care access accounts may be established per fiscal year.

B. Amendments:

None.

406770

576-01373-16

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Health and Human Services)

A bill to be entitled

An act relating to dental care; creating s. 381.4019, F.S.; establishing a joint local and state dental care access account initiative, subject to the availability of funding; authorizing the creation of dental care access accounts; specifying the purpose of the initiative; defining terms; providing criteria for the selection of dentists for participation in the initiative; providing for the establishment of accounts; limiting the number of new accounts that may be established per fiscal year; requiring the Department of Health to implement an electronic benefit transfer system; providing for the use of funds deposited in the accounts; requiring the department to distribute state funds to accounts, subject to legislative appropriations; authorizing the department to accept contributions from a local source for deposit in a designated account; limiting the number of years that an account may remain open; providing for the immediate closing of accounts under certain circumstances; authorizing the department to transfer state funds remaining in a closed account at a specified time and to return unspent funds from local sources; requiring a dentist to repay funds in certain circumstances; authorizing the department to pursue disciplinary enforcement actions and to use other legal means to recover funds; requiring the

406770

576-01373-16

department to establish by rule application procedures and a process to verify the use of funds withdrawn from a dental care access account; requiring the department to give priority to applications from dentists practicing in certain areas; requiring the Department of Economic Opportunity to rank dental health professional shortage areas and medically underserved areas; requiring the Department of Health to develop a marketing plan in cooperation with certain dental colleges and the Florida Dental Association; requiring the Department of Health to annually submit a report with certain information to the Governor and the Legislature; providing rulemaking authority to require the submission of information for such reporting; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 381.4019, Florida Statutes, is created to read:

381.4019 Dental care access accounts.—Subject to the availability of funds, the Legislature establishes a joint local and state dental care access account initiative and authorizes the creation of dental care access accounts to promote economic development by supporting qualified dentists who practice in dental health professional shortage areas or medically underserved areas or who treat a medically underserved population. The Legislature recognizes that maintaining good oral health is integral to overall health status and that the

good health of residents of this state is an important contributing factor in economic development. Better health, including better oral health, enables workers to be more productive, reduces the burden of health care costs, and enables children to improve in cognitive development.

(1) As used in this section, the term:

(a) "Dental health professional shortage area" means a geographic area so designated by the Health Resources and Services Administration of the United States Department of Health and Human Services.

(b) "Department" means the Department of Health.

(c) "Medically underserved area" means a geographic area so designated by the Health Resources and Services Administration of the United States Department of Health and Human Services.

(d) "Public health program" means a county health department, the Children's Medical Services Network, a federally qualified community health center, a federally funded migrant health center, or other publicly funded or nonprofit health care program as designated by the department.

(2) The department shall develop and implement a dental care access account initiative to benefit dentists licensed to practice in this state who demonstrate, as required by the department by rule:

(a) Active employment by a public health program located in a dental health professional shortage area or a medically underserved area; or

(b) A commitment to opening a private practice in a dental health professional shortage area or a medically underserved area, as demonstrated by the dentist residing in the designated

area, maintaining an active Medicaid provider agreement, enrolling in one or more Medicaid managed care plans, expending sufficient capital to make substantial progress in opening a dental practice that is capable of serving at least 1,200 patients, and obtaining financial support from the local community in which the dentist is practicing or intending to open a practice.

(3) The department shall establish dental care access accounts as individual benefit accounts for each dentist who satisfies the requirements of subsection (2) and is selected by the department for participation. The department may not establish more than 10 new dental care access accounts per fiscal year. The department shall implement an electronic benefit transfer system that enables each dentist to spend funds from his or her account for the purposes described in subsection (4).

(4) Funds contributed from state and local sources to a dental care access account may be used for one or more of the following purposes:

(a) Repayment of dental school student loans.

(b) Investment in property, facilities, or equipment necessary to establish and operate a dental office consisting of no fewer than two operatories.

(c) Payment of transitional expenses related to the relocation or opening of a dental practice which are specifically approved by the department.

(5) Subject to legislative appropriation, the department shall distribute state funds as an award to each dental care access account. An individual award must be in an amount not

more than $100,000 and not less than $10,000, except that a state award may not exceed 3 times the amount contributed to an account in the same year from local sources. If a dentist qualifies for a dental care access account under paragraph (2)(a), the dentist's salary and associated employer expenditures constitute a local match and qualify the account for a state award if the salary and associated expenditures do not come from state funds. State funds may not be included in a determination of the amount contributed to an account from local sources.

(6) The department may accept contributions of funds from a local source for deposit in the account of a dentist designated by the donor.

(7) The department shall close an account no later than 5 years after the first deposit of state or local funds into that account or immediately upon the occurrence of any of the following:

(a) Termination of the dentist's employment with a public health program, unless, within 30 days of such termination, the dentist opens a private practice in a dental health professional shortage area or medically underserved area.

(b) Termination of the dentist's practice in a designated dental health professional shortage area or medically underserved area.

(c) Termination of the dentist's participation in the Florida Medicaid program.

(d) Participation by the dentist in any fraudulent activity.

(8) Any state funds remaining in a closed account may be

awarded and transferred to another account concurrent with the distribution of funds under the next legislative appropriation for the initiative. The department shall return to the donor on a pro rata basis unspent funds from local sources which remain in a closed account.

(9) If the department determines that a dentist has withdrawn account funds after the occurrence of an event specified in subsection (7), has used funds for purposes not authorized in subsection (4), or has not remained eligible for a dental care access account for a minimum of 2 years, the dentist shall repay the funds to his or her account. The department may recover the withdrawn funds through disciplinary enforcement actions and other methods authorized by law.

(10) The department shall establish by rule:

(a) Application procedures for dentists who wish to apply for a dental care access account. An applicant may demonstrate that he or she has expended sufficient capital to make substantial progress in opening a dental practice that is capable of serving at least 1,200 patients by documenting contracts for the purchase or lease of a practice location and providing executed obligations for the purchase or other acquisition of at least 30 percent of the value of equipment or supplies necessary to operate a dental practice. The department may limit the number of applicants selected and shall give priority to those applicants practicing in the areas receiving higher rankings pursuant to subsection (11). The department may establish additional criteria for selection which recognize an applicant's active engagement with and commitment to the community providing a local match.

(b) A process to verify that funds withdrawn from a dental care access account have been used solely for the purposes described in subsection (4).

(11) The Department of Economic Opportunity shall rank the dental health professional shortage areas and medically underserved areas of the state based on the extent to which limited access to dental care is impeding the areas' economic development, with a higher ranking indicating a greater impediment to development.

(12) The department shall develop a marketing plan for the dental care access account initiative in cooperation with the University of Florida College of Dentistry, the Nova Southeastern University College of Dental Medicine, the Lake Erie College of Osteopathic Medicine School of Dental Medicine, and the Florida Dental Association.

(13)(a) By January 1 of each year, beginning in 2018, the department shall issue a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which must include:

1. The number of patients served by dentists receiving funding under this section.

2. The number of Medicaid recipients served by dentists receiving funding under this section.

3. The average number of hours worked and patients served in a week by dentists receiving funding under this section.

4. The number of dentists in each dental health professional shortage area or medically underserved area receiving funding under this section.

5. The amount and source of local matching funds received

by the department.

6. The amount of state funds awarded to dentists under this section.

7. A complete accounting of the use of funds by categories identified by the department, including, but not limited to, loans, supplies, equipment, rental property payments, real property purchases, and salary and wages.

(b) The department shall adopt rules to require dentists to report information to the department which is necessary for the department to fulfill its reporting requirement under this subsection.

Section 2. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 234
INTRODUCER:	Senator Gaetz and others
SUBJECT:	Dental Care
DATE:	February 24, 2016
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Lloyd	Stovall	HP	**Favorable**
2.	Brown	Pigott	AHS	**Recommend: Fav/CS**
3.	Brown	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

SB 234 authorizes the creation of joint state and local dental care access accounts to promote local economic development and to encourage Florida-licensed dentists to practice in dental health professional shortage areas or medically underserved areas, or serve a medically underserved population, subject to the availability of funds.

The bill directs the Department of Health (DOH) to create individual benefit accounts through an electronic benefits transfer system for each dentist who satisfies the requirements of participation. A qualifying dentist must be actively employed by a public health program in a targeted area or demonstrate a commitment to opening a dental practice that serves at least 1,200 patients and obtaining local financial support from the community where the dentist will practice in that targeted area.

Funds from the account may be used to repay dental school loans; purchase property, facilities, or equipment for a dental office; or pay for transitional expenses relating to relocating or opening a dental practice. Subject to availability, a practitioner may receive funds for up to five years. An account may be terminated under certain conditions and any unspent funds returned to the donor or redistributed to other available applicants.

The DOH estimates first-year implementation expenditures of $306,064 in general revenue and recurring maintenance and support costs of $277,296 in general revenue.

The effective date of the bill is July 1, 2016.

II. Present Situation:

Health Professional Shortage Areas

Health Professional Shortage Areas (HPSAs) are designated by the Health Resources and Services Administration (HRSA) within the U.S. Department of Health and Human Services according to criteria developed in accordance with section 332 of the Public Health Services Act. HPSA designations are used to identify areas and population groups within the United States that are experiencing a shortage of health professionals.

There are three categories of HPSA designation: (1) primary medical; (2) dental; and (3) mental health. For each discipline category, there are three types of HPSA designations based on the area or population group that is experiencing the shortage: (1) geographic area; (2) population group; and (3) facility.[1]

A geographic HPSA indicates that the entire area may experience barriers in accessing care, while a population HPSA indicates that a particular subpopulation of an area (e.g., homeless or low-income) may be underserved. Finally, a facility HPSA is a unique facility that primarily cares for an underserved population.

The primary factor used to determine a HPSA designation is the number of health professionals relative to the population with consideration of high need. The threshold for a dental HPSA is a population-to-provider ratio of at least 5,000 to 1 (or 4,000 to 1 in high-need communities).[2]

Medically Underserved Area

Medically Underserved Areas (MUA) are also designated by the U.S. Department of Health and Human Services. These areas are designated using one of three methods and can consist of a whole county, a group of contiguous counties, or census tracts.[3]

The first method, the Index of Medical Underservice (IMU), calculates a score based on the ratio of primary medical care physicians per 1,000 in population, percentage of the population with incomes below the federal poverty level, infant mortality rate, and percentage of population aged 65 or older.

The second method, Medically Underserved Populations (MUP), is based on data collected under the MUA process and reviews the ratio of primary care physicians serving the population seeking the designation. A MUP is a group of people who encounter economic or cultural barriers to primary health care services.

[2] *Id.*
[3] *Id.*

The third process, Exceptional MUP Designations, includes those population groups which do not meet the criteria of an IMU but may be considered for designation because of unusual conditions with a request by the governor or another senior executive level official and a local state health official.[4]

The Dental Workforce

Nationally, the pool of dentists to serve the growing population of Americans is shrinking. The American Dental Association has found that 6,000 dentists retire each year in the U.S., while only 4,000 dental school students graduate each year. The projected shortage of dentists is even greater in rural America. Of the approximately 150,000 general dentists in practice in the U.S., only 14 percent practice in rural areas, 7.7 percent practice in large rural areas, 3.7 percent practice in small rural areas, and 2.2 percent practice in isolated rural areas. In 2003, there were 2,235 federally designated dental health professional shortage areas (HPSAs).[5] Today, the number of dental HPSAs has increased to over 4,900.

While the dental workforce is projected to grow by six percent between 2012 and 2025, it is not expected to meet the overall national demand. Florida is listed as the second neediest state, with 1,152 fewer dentists than the number required to serve the population.[6] Similar to the national trend, most dentists in Florida are concentrated in the more populous areas of the state, while rural areas, especially the central Panhandle counties and interior counties of south Florida, have a noticeable lack of dentists.[7] This is true for both general dentistry as well as for dental specialists. Additionally, over 20 percent of Florida licensed dentists that responded to the 2011-2012 *Florida Workforce Survey of Dentists* (survey) currently do not practice in Florida.[8]

Most dentists – 77.8 percent – practice in general dentistry.[9] In many rural communities, the county health department may be the primary provider of health care services, including dental care. Florida currently has 220 designated dental HPSAs, which have only enough dentists to serve 17 percent of the population living within them. For 2012, HRSA estimated that 853 additional dentists were required to meet the total need. This puts Florida among the states with the highest proportion of their populations that are deemed underserved. By 2025, Florida's need grows to 1,152 dentists.[10]

[7] Florida Dept. of Health, *Report on the 2011-2012 Workforce Survey of Dentists*, p. 6 (April 2014) http://www.floridahealth.gov/programs-and-services/community-health/dental-health/workforce-reports/florida-workforce-survey-of-dentists-2011-2012.pdf (last visited Sept. 21, 2015). In 2009, the DOH developed this workforce survey for dentists. The survey was administered on a voluntary basis in conjunction with biennial renewal of dental licenses and 87 percent of dentists with an active Florida license responded to the survey; a drop of 2 percent points from the 2009-2010 survey.

[8] *Id.* at 46.

[9] *Id.*

[10] *Supra* note 6, at 9.

The American Dental Association has also studied this issue and found that while there may be a sufficient number of dentists overall, there may be an inadequate number among certain populations or in certain geographic areas.[11] Children are acutely affected by the shortage of dentists to serve low income patients. In 2012, 26 percent of Medicaid-enrolled children in Florida received one or more dental care services, according data from the Agency for Health Care Administration (AHCA).[12] The survey noted a noticeable participation difference between private-practice dentists and those who practice in a safety-net setting. Of those in a private-office setting, only 13.7 percent report seeing Medicaid enrollees while over 60 percent of safety-net providers report Medicaid participation.[13]

In 2011, the Legislature passed HB 7107[14] creating the Statewide Medicaid Managed Care (SMMC) program as part IV of ch. 409, F.S. The program has two primary components: Managed Medical Assistance program (MMA) and Long Term Care program. To implement MMA, the law required the AHCA to create an integrated managed care program for the delivery of Medicaid primary and acute care services, including dental. Medicaid recipients who are enrolled in MMA receive their dental services through managed care plans. Although most dental services are designated as a required benefit only for Medicaid recipients under age 21, many of the managed care plans also provide dental services for adults as an enhanced benefit.

The Cost of Dental Education

Among U.S. dental schools, the cost of a four-year degree has risen dramatically over the last 10 years – by 93 percent for in-state residents (from about $89,000 to $171,000) and by 82 percent for out-of-state residents (from $128,000 to $234,000). Dental school debt has increased proportionately. The average debt for dental school graduates in 2014 was $247,227.[15]

In 2013, Congress enacted the Bipartisan Student Loan Certainty Act of 2013 (Public Law 113-28) that tied student loan interest rates to the 10-year Treasury Note. For graduate and professional student loans, the interest rate is tied to 10-year Treasury Note plus 3.6 percent, but may not exceed 9.5 percent in any given year.[16] In June 2014, through a Presidential Memorandum, President Barack Obama directed the Secretary of Education to propose regulations to allow additional students with student loan debt to cap their payments at 10

percent of their income, by December 31, 2015.[17] The Presidential Memorandum called the plan, "*Pay as You Earn Plan."*[18]

Some studies indicate that increasing education costs and the prospect of indebtedness after dental school graduation could further erode access to care for vulnerable, underserved populations.[19] At least three studies, including a 2011 Florida Senate Report,[20] have recommended consideration of loan forgiveness programs as one strategy for addressing dental workforce shortage concerns.[21]

Florida does not have a current state program to address the dental health professional shortage areas or medically underserved areas. According to the DOH, there are 16 vacant positions (out of 82 or 19.5 percent) for dentists in the DOH.[22] Additionally, according to the Health Resources and Services Administration, there are 16 vacant dentist positions in Florida Dental Health Professional Shortage Areas as of September 16, 2015.[23]

Florida Health Services Corps

In 1992, the Legislature created the Florida Health Services Corps (FHSC), administered by the DOH, to encourage medical professionals to practice in locations that are underserved because of a shortage of qualified professionals.[24] The FHSC was defined[25] as a program that offered scholarships to allopathic, osteopathic, chiropractic, podiatric, dental, physician assistant, and

[20] Comm. on Health Regulation, The Florida Senate, *Review Eligibility of Dentist Licensure in Florida and Other Jurisdictions*, p.15 (Interim Report 2012-127) (Sept. 2011) http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-127hr.pdf (last visited Sept. 21, 2015). The report concluded, in part: "Florida may become more competitive in its recruitment of dentists in rural areas and may enhance Florida's dental care for underserved populations if it offers a loan forgiveness program. The program could require dentists seeking loan assistance to serve in a rural area (the Panhandle or central, south Florida) and require dentists to serve a certain percentage of Medicaid recipients or participate in the provider network of managed care entities participating in the Medicaid program for a particular period of time. Considering the current lack of state resources, it may be beneficial to limit the number of dentists that may apply to the loan forgiveness program and target resources to areas with the most need for general dentists or specialists." At the time, Florida was one of only eight states that did not have a state loan forgiveness program. According to the American Dental Association, it is one of only 11 states: Alabama, Arkansas, Connecticut, Florida, Georgia, Hawaii, Idaho, Indiana, Montana, Texas, and Utah as of July 2014. http://www.ada.org/~/media/ADA/Education%20and%20Careers/Files/dental-student-loan-repayment-resource.ashx (Last visited Mar. 2, 2015).

[24] Chapter 92-33, s. 111, Laws of Fla. (creating s. 381.0302, F.S., effective July 1, 1992).

[25] Section 381.0302(2)(b)1., F.S. (2011).

nursing students, and loan repayment assistance and travel and relocation expenses to allopathic and osteopathic residents and physicians, chiropractic physicians, podiatric physicians, nurse practitioners, dentists, and physician assistants, in return for service in a public health care program[26] or in a medically underserved area.[27] Membership in the FHSC could be extended to any health care practitioner who provided uncompensated care to medically indigent patients.[28] All FHSC members were required to enroll in Medicaid and to accept all patients referred by the DOH pursuant to the program agreement.[29] In exchange for this service, an FHSC member was made an agent of the state and granted sovereign immunity under s. 768.28(9), F.S., when providing uncompensated care to medically indigent patients referred for treatment by the DOH.[30]

The statute authorized the DOH to provide loan repayment assistance and travel and relocation reimbursement to allopathic and osteopathic medical residents with primary care specialties during their last two years of residency training or upon completion of residency training, and to physician assistants and nurse practitioners with primary care specialties, in return for an agreement to serve a minimum of two years in the FHSC. During the period of service, the maximum amount of annual financial payments was limited to no more than the annual total of loan repayment assistance and tax subsidies authorized by the National Health Services Corps (NHSC) loan repayment program.[31]

During the 20 years the program was authorized by law, it was funded only three times. A total of $3,684,000 was appropriated in the 1994-1995 fiscal year, 1995-1996 fiscal year, and 1996-1997 fiscal year for loan assistance payments to all categories of eligible health care practitioners. Of that amount, $971,664 was directed to 18 dentists for an average award of $25,570 per year of service in the program.[32] The 2007 Legislature attempted to reinvigorate the program by appropriating $700,000 to fund loan repayment assistance for dentists only.[33] However, the appropriation and a related substantive bill were vetoed.[34] The Legislature repealed the program in 2012.[35]

[26] "Public health program" was defined to include a county health department, a children's medical services program, a federally funded community health center, a federally funded migrant health center, or other publicly funded or nonprofit health care program designated by the department. Section 381.0302(2)(e), F.S. (2011).
[27] "Medically underserved area" was defined to include: a geographic area, a special population, or a facility that has a shortage of health professionals as defined by federal regulations; a county health department, community health center, or migrant health center; or a geographic area or facility designated by rule of the department that has a shortage of health care practitioners who serve Medicaid and other low-income patients. Section 381.0302(2)(c), F.S. (2011).
[28] "Medically indigent person" was defined as a person who lacks public or private health insurance, is unable to pay for care, and is a member of a family with income at or below 185 percent of the federal poverty level. Section 381.0302(2)(d), F.S. (2011).
[29] Section 381.0302(10), F.S. (2011).
[30] Section 381.0302(11), F.S. (2011).

National Health Service Corps

The NHSC programs provide scholarships and educational loan repayment to primary care providers[36] who agree to practice in areas that are medically underserved. NHSC loan repayment program (LRP) participants fulfill their service requirement by working at NHSC-approved sites in HPSAs. The NHSC-approved sites are community-based health care facilities that provide comprehensive outpatient, ambulatory, primary health care services. Eligible dental facilities must be located in a dental HPSA and offer comprehensive primary dental health services. NHSC-approved sites (with the exception of correctional facilities and free clinics) are required to provide services for free or on a sliding fee scale (SFS) or discounted fee schedule for low-income individuals. The SFS or discounted fee schedule is based upon the Federal Poverty Guidelines, and patient eligibility is determined by annual income and family size.[37]

The LRP provides funds to participants to repay their outstanding qualifying educational loans. Maximum loan reimbursement under the program is $50,000 for a two-year, full-time practice or up to $15,000 for a two-year, half-time clinical practice, although participants may be eligible to continue loan repayment beyond the initial term.[38,39] Participants who breach their LRP agreement are subject to monetary damages, which are the sum of the amount of assistance received by the participant representing any period of obligated service not completed, a penalty, and interest. Loan repayments are exempt from federal income and employment taxes and are not included as wages when determining benefits under the Social Security Act.[40] As of September 2015, there were 47 full-time-equivalent NHSC dentists in Florida.[41]

A second NHSC program, the State Loan Repayment Program (SLRP) offers cost-sharing grants to states to operate their own state educational loan repayment programs for primary care providers, including dental professionals, working in HPSAs within the state. The SLRP varies from state to state and may differ in eligible categories of providers, practice sites, length of required service commitment, and the amount of loan repayment assistance offered. However, there are certain statutory requirements SLRP grantees must meet. There is a minimum two-year service commitment with an additional one-year commitment for each year of additional support requested. Any SLRP program participant must practice at an eligible site located in a federally-designated HPSA. Like the NHSC loan repayment program awards, assistance provided through an SLRP is not taxable.

[40] U.S. Dept. of Health and Human Services, Health Resources and Services Administration, *National Health Service Corps 101* (on file in the Senate Committee on Health Policy).

[41] E-mail from Debbie Reich, Supervisor, State Primary Care Office, Health Statistics and Performance Management, Florida Dept. of Health (Sept. 22, 2015) (on file with the Senate Committee on Health Policy).

In addition, the SLRP requires a $1 state match for every $1 provided under the federal grant. While the SLRP does not limit award amounts, the maximum award amount per provider that the federal government will support through its grant is $50,000 per year, with a minimum service commitment of two years.

Florida does not currently participate in SLRP.

III. Effect of Proposed Changes:

The bill creates the dental care access accounts initiative at the Department of Health (DOH). The initiative is conditioned on the availability of funds and is intended to encourage dentists to practice in dental health professional shortage areas or medically underserved areas or serve a medically underserved population. The bill defines several key terms:

- Dental health professional shortage area: A geographic area so designated by the Health Resources and Services Administration of the U.S. Department of Health and Human Services;
- Medically underserved area: A designated health professional shortage area that lacks an adequate number of dental health professionals to serve Medicaid and other low income patients; and
- Public health program: A county health department, the Children's Medical Services program, a federally qualified community health center, a federally-funded migrant health center, or other publicly-funded or not-for-profit health care program designated by the DOH.

The initiative will be developed by the DOH to benefit dentists licensed to practice in this state who demonstrate, as required by DOH rule:

- Active employment by a public health program in a dental health professional shortage area or a medically underserved area; or
- A commitment to opening a private practice in a dental health professional shortage area or medically underserved area by residing in the area, maintaining a Medicaid provider agreement, enrolling with one or more Medicaid managed care plans, expending capital to open an office to serve at least 1,200 patients, and obtaining community financial support.

The DOH is required to establish dental access accounts for dentists who meet the requirements in the bill and to implement an electronic benefits transfer system. Funds from the account may be used only for specific purposes, such as payment of student loans; investment in property, facilities, or equipment necessary to establish an office and payment of transitional expenses related to relocating or opening a dental practice.

Subject to available appropriations, the DOH is required to distribute funds to the dental access accounts in amounts not to exceed $100,000 and no less than $10,000. A state award may not exceed three times the amount contributed to an account in the same year from a local source. The DOH is authorized to accept funds for deposit from local sources.

If a dentist qualifies for an account on the basis of his or her employment with a public health program, the dentist's salary and associated employer expenditures may count as local match for

a state award if the salary and employer expenditures are not state funds. State funds may not be used to calculate amounts contributed from local sources.

Accounts may be terminated if the dentist no longer works for a public health program and does not open a dental practice in a designated area within 30 days of terminating employment, the dentist's practice is no longer located in a dental professional shortage area or a medically underserved area, the provider has been terminated from Medicaid, or the provider has participated in any fraudulent activity. The DOH is directed to close an account five years after the first deposit or upon a dentist's termination from the program.

Any remaining funds after five years or from terminated accounts may be awarded to another account or returned to the donor. A dentist is required to repay any funds withdrawn from the account after the occurrence of an event which requires account closure, if the dentist fails to maintain eligibility for the program through employment in a public health program or establishing a dental practice for a minimum of two years, or uses the funds for unauthorized purposes. The DOH is authorized to recover the withdrawn funds through disciplinary enforcement actions and other methods authorized by law.

The DOH is authorized to adopt rules for application procedures that:

- Limit the number of applicants;
- Incorporate a documentation process for evidence of sufficient capital expenditures in opening a dental practice, such as contracts or leases or other acquisitions of a practice location of at least 30 percent of the value of equipment or supplies necessary to operate a practice; and
- Give priority to those applicants practicing in the areas receiving higher rankings by the Department of Economic Opportunity.

The DOH may also establish by rule a process to verify that funds withdrawn from an account have been used for the purposes authorized.

The Department of Economic Opportunity is directed to rank the dental professional shortage areas and medically underserved areas based on the extent to which limited access to dental care is impeding economic development.

The DOH must develop a marketing plan for the dental care access account initiative with the University of Florida's College of Dentistry, the Nova Southeastern College of Dental Medicine, the Lake Erie College of Osteopathic Medicine's School of Dental Medicine, and the Florida Dental Association.

Beginning in January 2018, the DOH is required to issue a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which must include:

- The number of patients served by dentists who receive funding under the bill;
- The number of Medicaid recipients served by dentists who receive funding under the bill;
- The average number of hours worked and patients served per week by dentists who receive funding under the bill;

- The number of dentists in each dental health professional shortage area or medically underserved area who receive funding under the bill;
- The amount and source of local matching funds received by the DOH;
- The amount of state funds awarded to dentists under the bill; and
- A complete accounting of the use of funds, by categories identified by the DOH, including, but not limited to, loans, supplies, equipment, rental property payments, real property purchases, and salary and wages.

The DOH is directed under the bill to adopt rules to require dentists to report information to the DOH that is necessary for the DOH to fulfill the reporting requirement.

The bill's effective date is July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Under SB 234, Floridians living in those areas identified as medically underserved and have little or no access to dental care could benefit from this initiative. The program could bring additional dental professionals to underserved communities. The initiative also permits the grantees to utilize the funds to transition or relocate to new areas and to build or renovate office space in rural communities, which would generate economic growth for small towns and cities. Additionally, dentists who qualify for loan repayment assistance will benefit from a reduction in their student loan debt.

C. Government Sector Impact:

If the program receives an appropriation, the bill will create a fiscal impact to the Department of Health (DOH) in order to implement and manage the dental care access account initiative. The estimated cost is $306,064 for the 2016-2017 fiscal year with a

recurring cost of $277,296 beginning with Fiscal Year 2017-2018. These costs would need to be funded with general revenue.

The initial cost for the electronic benefit transfer contract/vendor is estimated at $100,000 for the first year and $50,000 for the second year. The DOH reports that there is a current EBT system that could be used to implement this system, but it is unknown if it could accommodate all of the provisions of this bill. The EBT systems charge a nominal fee of approximately $0.50 per participant per month as a maintenance fee. The DOH also anticipates a withdrawal fee of at least $1 per transaction when a dentist makes a withdrawal from his or her account.

The number of dentists qualifying for this initiative is unknown.[42] However, the DOH estimates at least 32 dentists could be served annually. The cost of the EBT system would have to be negotiated based on the number of dentists participating in the program.

The DOH also reports the bill will create a workload impact that current staff is unable to meet. Two additional full-time equivalent (FTE) staff members would be required to develop the application process and adopt rules. Staff will also be needed to monitor activity, dentist conduct, dentist membership status, and rulings by the Board of Dentistry on recipients.

The following are the estimated expenditures for the DOH:[43]

Estimated Expenditures (General Revenue)	1st Year	2nd Year Annualization/Recurring
SALARIES		
1 FTE **Health Care Program Analyst @ $40,948 - pay grade 24**	$41,460	$55,280
1 FTE **Senior Management Analyst II @ $46,381 - pay grade 26**	$47,114	$62,818
EXPENSES		
2 FTEs Calculated with standard DOH professional package (limited travel) @ $15,742	$31,484	$23,486
2 docking stations (@ $142 each	$294	$0-
HUMAN RESOURCES SERVICES		
2 FTEs Calculated with standard DOH Central Office package @ $356	$712	$712
Operating Capital Outlay		
Operating Capital Outlay	$0.00	$0.00

[43] *Id., at p 2.*

Estimated Expenditures (General Revenue)	1st Year	2nd Year Annualization/Recurring
Contractual Services		
Estimate for the development, implementation and maintenance of an electronic benefit transfer (EBT) system	$100,000	$50,000
Marketing Campaign*	$85,000	$85,000
TOTAL ESTIMATED EXPENDITURES	**$306,064**	**$277,296**

*The DOH is also directed to develop a marketing plan with Florida-based dental schools.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill creates section 381.4019 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

By Senator Gaetz

1-00273-16 2016234__

A bill to be entitled

An act relating to dental care; creating s. 381.4019, F.S.; establishing a joint local and state dental care access account initiative, subject to the availability of funding; authorizing the creation of dental care access accounts; specifying the purpose of the initiative; defining terms; providing criteria for the selection of dentists for participation in the initiative; providing for the establishment of accounts; requiring the Department of Health to implement an electronic benefit transfer system; providing for the use of funds deposited in the accounts; requiring the department to distribute state funds to accounts, subject to legislative appropriations; authorizing the department to accept contributions from a local source for deposit in a designated account; limiting the number of years that an account may remain open; providing for the immediate closing of accounts under certain circumstances; authorizing the department to transfer state funds remaining in a closed account at a specified time and to return unspent funds from local sources; requiring a dentist to repay funds in certain circumstances; authorizing the department to pursue disciplinary enforcement actions and to use other legal means to recover funds; requiring the department to establish by rule application procedures and a process to verify the use of funds withdrawn from a dental care access account; requiring the department

1-00273-16 2016234__

to give priority to applications from dentists practicing in certain areas; requiring the Department of Economic Opportunity to rank dental health professional shortage areas and medically underserved areas; requiring the Department of Health to develop a marketing plan in cooperation with certain dental colleges and the Florida Dental Association; requiring the Department of Health to annually submit a report with certain information to the Governor and the Legislature; providing rulemaking authority to require the submission of information for such reporting; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 381.4019, Florida Statutes, is created to read:

381.4019 Dental care access accounts.—Subject to the availability of funds, the Legislature establishes a joint local and state dental care access account initiative and authorizes the creation of dental care access accounts to promote economic development by supporting qualified dentists who practice in dental health professional shortage areas or medically underserved areas or who treat a medically underserved population. The Legislature recognizes that maintaining good oral health is integral to overall health status and that the good health of residents of this state is an important contributing factor in economic development. Better health, including better oral health, enables workers to be more

productive, reduces the burden of health care costs, and enables children to improve in cognitive development.

(1) As used in this section, the term:

(a) "Dental health professional shortage area" means a geographic area so designated by the Health Resources and Services Administration of the United States Department of Health and Human Services.

(b) "Department" means the Department of Health.

(c) "Medically underserved area" means a geographic area so designated by the Health Resources and Services Administration of the United States Department of Health and Human Services.

(d) "Public health program" means a county health department, the Children's Medical Services Network, a federally qualified community health center, a federally funded migrant health center, or other publicly funded or nonprofit health care program as designated by the department.

(2) The department shall develop and implement a dental care access account initiative to benefit dentists licensed to practice in this state who demonstrate, as required by the department by rule:

(a) Active employment by a public health program located in a dental health professional shortage area or a medically underserved area; or

(b) A commitment to opening a private practice in a dental health professional shortage area or a medically underserved area, as demonstrated by the dentist residing in the designated area, maintaining an active Medicaid provider agreement, enrolling in one or more Medicaid managed care plans, expending sufficient capital to make substantial progress in opening a

dental practice that is capable of serving at least 1,200 patients, and obtaining financial support from the local community in which the dentist is practicing or intending to open a practice.

(3) The department shall establish dental care access accounts as individual benefit accounts for each dentist who satisfies the requirements of subsection (2) and is selected by the department for participation. The department shall implement an electronic benefit transfer system that enables each dentist to spend funds from his or her account for the purposes described in subsection (4).

(4) Funds contributed from state and local sources to a dental care access account may be used for one or more of the following purposes:

(a) Repayment of dental school student loans.

(b) Investment in property, facilities, or equipment necessary to establish and operate a dental office consisting of no fewer than two operatories.

(c) Payment of transitional expenses related to the relocation or opening of a dental practice which are specifically approved by the department.

(5) Subject to legislative appropriation, the department shall distribute state funds as an award to each dental care access account. An individual award must be in an amount not more than $100,000 and not less than $10,000, except that a state award may not exceed 3 times the amount contributed to an account in the same year from local sources. If a dentist qualifies for a dental care access account under paragraph (2)(a), the dentist's salary and associated employer

expenditures constitute a local match and qualify the account for a state award if the salary and associated expenditures do not come from state funds. State funds may not be included in a determination of the amount contributed to an account from local sources.

(6) The department may accept contributions of funds from a local source for deposit in the account of a dentist designated by the donor.

(7) The department shall close an account no later than 5 years after the first deposit of state or local funds into that account or immediately upon the occurrence of any of the following:

(a) Termination of the dentist's employment with a public health program, unless, within 30 days of such termination, the dentist opens a private practice in a dental health professional shortage area or medically underserved area.

(b) Termination of the dentist's practice in a designated dental health professional shortage area or medically underserved area.

(c) Termination of the dentist's participation in the Florida Medicaid program.

(d) Participation by the dentist in any fraudulent activity.

(8) Any state funds remaining in a closed account may be awarded and transferred to another account concurrent with the distribution of funds under the next legislative appropriation for the initiative. The department shall return to the donor on a pro rata basis unspent funds from local sources which remain in a closed account.

(9) If the department determines that a dentist has withdrawn account funds after the occurrence of an event specified in subsection (7), has used funds for purposes not authorized in subsection (4), or has not remained eligible for a dental care access account for a minimum of 2 years, the dentist shall repay the funds to his or her account. The department may recover the withdrawn funds through disciplinary enforcement actions and other methods authorized by law.

(10) The department shall establish by rule:

(a) Application procedures for dentists who wish to apply for a dental care access account. An applicant may demonstrate that he or she has expended sufficient capital to make substantial progress in opening a dental practice that is capable of serving at least 1,200 patients by documenting contracts for the purchase or lease of a practice location and providing executed obligations for the purchase or other acquisition of at least 30 percent of the value of equipment or supplies necessary to operate a dental practice. The department may limit the number of applicants selected and shall give priority to those applicants practicing in the areas receiving higher rankings pursuant to subsection (11). The department may establish additional criteria for selection which recognize an applicant's active engagement with and commitment to the community providing a local match.

(b) A process to verify that funds withdrawn from a dental care access account have been used solely for the purposes described in subsection (4).

(11) The Department of Economic Opportunity shall rank the dental health professional shortage areas and medically

underserved areas of the state based on the extent to which limited access to dental care is impeding the areas' economic development, with a higher ranking indicating a greater impediment to development.

(12) The department shall develop a marketing plan for the dental care access account initiative in cooperation with the University of Florida College of Dentistry, the Nova Southeastern University College of Dental Medicine, the Lake Erie College of Osteopathic Medicine School of Dental Medicine, and the Florida Dental Association.

(13)(a) By January 1 of each year, beginning in 2018, the department shall issue a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which must include:

1. The number of patients served by dentists receiving funding under this section.

2. The number of Medicaid recipients served by dentists receiving funding under this section.

3. The average number of hours worked and patients served in a week by dentists receiving funding under this section.

4. The number of dentists in each dental health professional shortage area or medically underserved area receiving funding under this section.

5. The amount and source of local matching funds received by the department.

6. The amount of state funds awarded to dentists under this section.

7. A complete accounting of the use of funds by categories identified by the department, including, but not limited to,

loans, supplies, equipment, rental property payments, real property purchases, and salary and wages.

(b) The department shall adopt rules to require dentists to report information to the department which is necessary for the department to fulfill its reporting requirement under this subsection.

Section 2. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 318 (508372)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on General Government); Environmental Preservation and Conservation Committee; and Senator Richter
SUBJECT:	Regulation of Oil and Gas Resources
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Istler	Rogers	EP	**Fav/CS**
2.	Howard	DeLoach	AGG	**Recommend: Fav/CS**
3.	Howard	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 318 revises Florida's oil and gas regulations to define the term "high-pressure well stimulation" and requires a separate permit for the performance of high-pressure well stimulations. The bill directs the Department of Environmental Protection (DEP) to conduct a study analyzing the potential impacts that high-pressure well stimulations may have on Florida's underlying geologic features. The bill prohibits permits for high-pressure well stimulations from being issued until the DEP adopts rules regulating high-pressure well stimulations and such rules take effect.

Additionally, the bill:

- Preempts to the state all matters relating to the regulation of the exploration, development, production, processing, storage, and transportation of oil and gas;
- Requires inspections during the testing of blowout preventers, the pressure testing of the casing and casing shoe, and the integrity testing of cement plugs in plugging and abandonment operations;
- Requires notice to be given, a fee to be paid, and a permit to be granted before performing a high-pressure well stimulation;
- Requires the DEP to consider groundwater contamination as a result of high-pressure well stimulations and public policy when reviewing a permit application for high-pressure well stimulations;

- Specifies that a permit may be denied or specific permitting conditions may be applied based on the past history of prior adjudicated, uncontested, or settled violations committed by the permit applicant or an affiliated entity of the applicant of any substantive and material rule or law pertaining to the regulation of oil or gas, including violations that occurred outside the state;
- Clarifies the inspection authority of the DEP;
- Requires the permit applicant to provide surety to the DEP that the high-pressure well stimulation will be conducted in a safe and environmentally compatible manner;
- Increases the civil penalty from $10,000 per day to $25,000 per day for violations; and
- Designates FracFocus as the state's registry for chemical disclosure for all wells on which high-pressure well stimulations are performed.

The bill provides a $1 million nonrecurring appropriation from the General Revenue Fund to the DEP to conduct a study on high-pressure well stimulations. According to the DEP, the increased workload related to the regulatory and rulemaking process can be handled within existing resources. The remaining fiscal impact of the bill is indeterminate.

The bill provides an effective date of July 1, 2016.

II. Present Situation:

Production of conventional versus unconventional oil and gas resources: the use of well stimulation techniques

Conventional oil and gas resources are found in permeable sandstone and carbonate reservoirs.[1] To extract conventional resources, wells have historically been drilled vertically, straight down into a rock formation. Whereas conventional resources are found in concentrated underground locations, unconventional resources are highly dispersed through impermeable or "tight" rock formations such as shales and tight sands. To extract unconventional resources, drilling has shifted from vertical to horizontal or directional away from the reservoir to the source rock, and well stimulation techniques have been developed to increase the production at such oil or gas wells. The profitable extraction of unconventional resources is relatively new.[2]

Well stimulation techniques are used in the production of both conventional and unconventional resources. The techniques can be focused solely on the wellbore for maintenance and remedial purposes or can be used to increase production from the reservoir.[3] The three most commonly used well stimulation techniques include matrix acidizing, acid fracturing, and hydraulic fracturing. Dating back to 1895, matrix acidizing is the oldest well stimulation technique. It involves pumping acid into the well at a pressure that does not exceed the fracture gradient to dissolve some of the rock to bypass wellbore damage or to stimulate carbonate formations.[4] Acid

fracturing is a well stimulation technique that involves pumping acidic fluids into a well at a pressure that fractures the rock. The acid etches the walls of the fracture so the fractures remain open after the pressure is released. These types of acid stimulations are preferred in carbonate reservoirs.[5]

Hydraulic fracturing was developed in the 1940s to increase production of conventional resources. While the technique is not new, the composition of the fracturing fluids has evolved over time. Initially the technique used very little water and relied on a mixture of petroleum compounds, such as napalm and diesel fuels.[6] Modern hydraulic fracturing involves a fracturing fluid that is composed of a base fluid, in most cases water; additives, each designed to serve a particular function; and a proppant, such as sand, to hold the fractures open. The composition of the fracturing fluid varies depending on the property of the reservoir rock, specifically the rock's permeability and brittleness.[7] A hydraulic fracturing operation at a horizontal well involves four stages. The first is the "stage" during which a portion of the well is isolated to focus the fracture fluid pressure. The second is the "pad" in which fracture fluid is injected without proppant to initiate and propagate the fracture. The proppant is then added to keep the fractures open. The third stage is the "flush" during which fluid is injected without proppant to push any remaining proppant into the fractures. The fourth is the "flowback" during which the hydraulic fracturing fluids are removed and the fluid pressure dissipates.[8]

The Environmental Protection Agency (EPA) estimates that between 25,000-30,000 new wells were drilled and hydraulically fractured annually in the United States between 2011 and 2014.[9] Horizontal or directional drilling techniques in conjunction with hydraulic fracturing has led to a surge in domestic production of oil and gas resources in the recent decade and, in 2014, the United States was the world's top producer of petroleum and natural gas hydrocarbons.[10]

Production of oil and gas resources in Florida

Northwest and South Florida are the major oil and gas producing areas in the state. The first producing oil well was discovered in 1943 at a wellsite located in Big Cypress Preserve.[11] It was not until 1970 that oil and gas resources were first discovered in Northwest Florida. There are

seven active fields in South Florida, specifically in Lee, Hendry, Collier, and Dade Counties, and three active fields in Northwest Florida, specifically in Escambia and Santa Rosa Counties.[12] While geologists believe that there may be large oil and natural gas deposits off Florida's western coast, the state enacted a drilling ban for state waters in 1990 and, in 2006, Congress banned the leasing of federal offshore blocks within 125 miles of Florida's western coast until at least 2022.[13]

There are approximately 163 active wells in Florida.[14] The Department of Environmental Protection's (DEP) 2014 Annual Production Report totaled natural gas production at 728,884 million cubic feet (MMcf) and oil production totals at 614,668 thousand barrels (MBbls).[15]

Proven oil and gas reserves both in Northwest and South Florida are composed of carbonate formations and reservoirs that have relatively high permeability.[16] Because acid easily dissolves carbonate materials, techniques such as matrix acidizing and acid fracturing are preferred in carbonate reservoirs.[17] In December 2013, the DEP received a workover notice proposing use of an enhanced extraction procedure at a well site located in Collier County, Florida. The DEP requested that the company not complete the proposed workover, until additional review could be performed.[18] The company commenced with the workover procedure, and the DEP issued a cease and desist order. After failing to comply with the order, the company withdrew its permit application.[19] The DEP reported that the last use of hydraulic fracturing on record was in the Jay oilfield in 2003.[20]

Regulation of well stimulation techniques

Federal

There is limited direct federal regulation over the use of well stimulation techniques. In 2005, Congress passed the Energy Policy Act amending the Safe Water Drinking Act (SWDA) and the Clean Water Act (CWA).[21] The SWDA was amended to revise the definition of the term "underground injection" to specifically exclude the underground injection of fluids or propping agents (other than diesel fuels) pursuant to hydraulic fracturing operations. The CWA was amended to characterize oil and gas exploration and production as "construction activities,"

[21] Energy Policy Act of 2005, H.R. 6, 109th Cong. (2005-2006).

thereby removing these operations from the scope of the CWA.[22] Thus, the Energy Policy Act effectively exempted non-diesel hydraulic fracturing from federal law.[23]

In an attempt to regulate hydraulic fracturing on federal and tribal lands, the Bureau of Land Management (BLM) in March 2015, published final rules governing hydraulic fracturing.[24] The rules were to take effect on June 24, 2015, however, the United States District Court for the District of Wyoming granted a preliminary injunction, holding that the BLM lacked the authority to regulate hydraulic fracturing.[25] The BLM is enjoined from enforcing the final rules pending the finality of the rule challenge.

While direct regulation over well stimulation techniques at the federal level is limited, there are several federal statutes that have been applied to regulate the impacts of oil and gas extraction more generally. The Oil and Gas Extraction Effluent Guidelines and Standards regulate wastewater discharges from field exploration, drilling, production, well treatment, and well completion activities.[26] The regulations apply to conventional and unconventional extraction with the exception of extractions of coalbed methane.[27] These standards are incorporated in the National Pollutant Discharge Elimination System (NPDES).

Because it is possible that oil and gas activities could result in the release of hazardous substances into the environment at or under the surface in a manner that may endanger public health or the environment, these activities are regulated under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).[28] While any recovered petroleum or natural gas is exempt, other hazardous substances that result from oil or gas production, including fracturing fluids, fall under the act and if a release were to occur, the facility owner and operator could face liability under CERCLA.[29]

To ensure that employees who may be exposed to hazardous chemicals in the workplace are aware of the chemicals' potential dangers, manufacturers and importers must obtain or develop

---

[22] The EPA rule implementing the CWA amendment was challenged and the Ninth Circuit Court of Appeals vacated the rule. Oil and gas construction facilities remain subject to stormwater permitting requirements, as well as, NPDES permit requirements. *See* William J. Brady, *Hydraulic Fracturing Regulation in the United States: The Laissez-faire approach of the Federal government and varying state regulations* at 8 (Unv. of Denver Sturm College of Law), *available at* http://www.law.du.edu/documents/faculty-highlights/Intersol-2012-HydroFracking.pdf.

[24] Under the final BLM regulations, the term "hydraulic fracturing" is defined as "those operations conducted in an individual wellbore designed to increase the flow of hydrocarbons from the rock formation to the wellbore through modifying the permeability of reservoir rock by applying fluids under pressure to fracture it. Hydraulic fracturing does not include enhanced secondary recovery such as water flooding, tertiary recovery, recovery through steam injection, or other types of well stimulation operations such as acidizing."

[29] *Id*. at 13.

Material Safety Data Sheets (MSDS) for hydraulic fracturing chemicals that are hazardous according to the Occupational Safety and Health Administration (OSHA) standards. MSDS sheets must be maintained for hazardous chemicals at each job site and must, at a minimum, include the chemical names of substances that are considered hazardous under OSHA regulations.[30]

State

States have primary jurisdiction and authority over the regulation of oil and gas activities. Almost all states with economically viable production wells have extensive regulatory programs in place for permitting and monitoring oil and gas activities. Recent advances in technology and the widespread use of well stimulation techniques, particularly hydraulic fracturing, have motivated some states to update and revise their oil and gas regulations to specifically address such techniques or to ban certain techniques altogether.[31]

The DEP has regulatory authority over oil and gas resources in Florida. The Division of Water Resource Management (Division) within DEP oversees the permitting process for drilling production and exploration. The DEP adopted Rule Chapters 62C-25 through 62C-30 of the Florida Administrative Code to implement and enforce the regulation of oil and gas resources. The Division has jurisdiction and authority over all persons and property necessary to administer and enforce all laws relating to the conservation of oil and gas.[32] Drilling and exploration is not authorized or is subject to local governmental approval in tidal waters, near improved beaches, and within municipal boundaries.[33]

When issuing permits for oil or gas exploration or extraction, the Division is required to consider the nature, character, and location of the lands involved; the nature, type, and extent of ownership of the applicant; and the proven or indicated likelihood of the presence of oil, gas, or related minerals on a commercially viable basis.[34] The DEP is required to ensure that all precautions are taken to prevent the spillage of oil or other pollutants in all phases of the drilling for, and extracting of, oil, gas, or other petroleum products.[35] Additionally, the DEP is authorized to issue rules to require the drilling, casing, and plugging of wells to be done in such a manner as to prevent the escape of oil or other petroleum products from one stratum to another.[36]

Before any person begins work other than environmental assessments or surveying at the site of a proposed drilling operation, a permit to drill is required and a preliminary site inspection must be conducted by the DEP.[37] An application for a permit to drill must include a proposed casing

[37] Fla. Admin. Code R. 62C-26.003.

and cementing program and a location plat survey.[38] Each drilling permit is valid for one year and may be extended for an additional year.[39] Before a well is used for its intended purpose, a permit to operate the well must be obtained.[40] Operating permits are valid for the life of the well; however, every five years the DEP is required to perform a comprehensive field inspection and the permit must be re-certified.[41] Each application and subsequent re-certification must include the appropriate fee; bond or security coverage; a spill prevention and cleanup plan; flowline specification and an installation plan; containment facility certification; and additional reporting and data submissions, such as a driller's logs and monthly well reports.[42] Before a permit is granted, the owner or operator is required to post a bond or other form of security for each well. The amounts vary depending upon the well depth.[43] In lieu of posting a bond or security for each well, the owner or operator may file a blanket bond for multiple operations in the amount of $1,000,000, which may cover up to ten wells.[44]

A separate permit is not required for the performance of well stimulation techniques, the techniques are regulated as workovers.[45] Rule 62C-25.002(61) of the Florida Administrative Code defines the term "workover" as "an operation involving a deepening, plug back, repair, cement squeeze, perforation, hydraulic fracturing, acidizing, or other chemical treatment which is performed in a production, disposal, or injection well in order to restore, sustain, or increase production, disposal, or injection rates." An operator is required to notify the DEP before commencing a workover procedure and must submit a revised Well Record[46] to the DEP within 30 days after the workover.[47]

A person that violates any statute, rule, regulation, order, or permit of the Division relating to the regulation of oil or gas resources or who refuses inspection by the Division is liable for damages caused to the air, waters, or property of the state; for reasonable costs in tracing the source of the discharge, in controlling and abating the source and the pollutants; and in restoring the air, waters, and property.[48] Such persons are also subject to judicial imposition of a civil penalty up to $10,000 for each offense.[49] Each day during any portion of which a violation occurs constitutes a separate offense.[50]

Local

As most states with oil and gas interests have extensive regulatory programs governing oil and gas activities, the issue relating to what extent local governments may regulate oil and gas activities within their boundaries has arisen. In some areas local governments have banned or limited certain well stimulation techniques within their boundaries with varying success. In Colorado a number of municipalities passed bans on hydraulic fracturing within their city limits, but state courts have overturned the bans recognizing that the state's interest in the efficient and fair development of its resources may otherwise be threatened by inconsistent ordinances.[51] In Pennsylvania similar bans have been passed, and Pennsylvania state courts have held that municipalities retain their authority to limit oil and gas development within their borders, effectively authorizing them to regulate the "where, but not the how, of hydrocarbon recovery."[52]

While cities and counties do not operate oil and gas permitting programs in Florida, some through their land use regulations or zoning ordinances require special exceptions for oil and gas activities or limit oil and gas activities to certain zoning classifications.[53] When authorizing oil and gas activities, local governments consider factors such as consistency with their comprehensive plan, injuries to communities or the public welfare, and compliance with zoning ordinances.[54]

Section 377.24(5), F. S., restricts the DEP from issuing a permit for drilling within the corporate limits of a municipality unless the municipality adopts a resolution approving the permit. Three municipalities, Estero, Bonita Springs, and Coconut Creek have banned well stimulation techniques by ordinance.[55] Additionally, many counties and cities have passed resolutions supporting various types of bans and moratoriums relating to well stimulation techniques.[56]

Environmental Concerns

There are a variety of environmental concerns relating to well stimulation techniques. Potential impacts and concerns include: groundwater or surface water contamination; stress on water supplies; inadequate wastewater management and disposal; and air quality degradation.[57] Because well stimulation techniques are applied to so many types of formations using a variety of methods and fluids, environmental impacts vary depending on factors such as toxicity of the

fluid used; the closeness of the fracture zone to underground drinking water; the existence of a barrier between the fracture formation and other formations; and how wastewater is disposed.[58]

Water Quality

A major environmental concern is the impact well stimulation techniques may have on drinking water quality. The EPA estimated that 6,800 sources of drinking water are within one mile of a well that has been hydraulically fractured.[59] Sources of drinking water may be contaminated through the release of gas-phase hydrocarbons, in what is known as stray gas migration, through the movement of liquid or gases out of the well if the well casing or cementing is too weak or if it fails.[60] While concerns related to inadequate well casing or cementing are not unique to hydraulic fracturing, horizontally drilled, hydraulically fractured wells pose more production challenges because they are subject to greater pressures.[61]

Mitigating measures, such as extending the casing farther below groundwater resources and pressure testing the well casing before the injection of fluids, may work to prevent well casing failures. Blowout preventers also help control and prevent pressure build-ups. Furthermore, hydraulically fractured wells in shale formations are usually drilled deeper than vertical wells and, therefore, the vertical separation between the formation and the drinking water resource is greater.[62] Thousands of feet of rock layers typically overlay the produced portion of shale and serve as a barrier to contamination.[63] The vast majority of Florida's public water supply is obtained from groundwater sources, specifically from the Floridan aquifer system which underlies the state of Florida.[64] Areas in which oil and gas have been extracted have an upper confining unit that is generally greater than 100 feet, which serves as a barrier to contamination.[65]

Fractures created during hydraulic fracturing can intersect nearby wells or their fracture networks, resulting in the flow of fluids into those wells and to underground drinking water resources. These "frac-hits" are more likely to occur if wells are close to each other or are on the same well pad.[66] In Florida, horizontal wells deeper than 7,000 feet have more stringent spacing requirements.[67]

[67] Fla. Admin. Code R. 62C-26.004(5).

Surface water contamination may occur as a result of the inadequate storage and disposal of produced waters, which includes fractured fluids or "flowback." Approximately 10-40 percent of the volume of the injected fracturing fluids returns to the surface after hydraulic fracturing.[68] In most produced waters the concentrations of toxic elements, such as radioactive radium, are positively correlated with salinity, which suggests that many of the potential water quality issues associated with produced waters may be attributable to the geochemistry of the brines within the shale formations.[69] In Florida, all spills of waste material must be immediately reported to the Division and the appropriate federal agencies, and the owner or operator is responsible for the costs of cleanup or other damage incurred by the state.[70]

Water Supply

The amount of water used during the performance of a well stimulation depends on the well depth, formation geology, and the composition of the fracturing fluid. In some cases, over 90 percent of the fracturing fluid is made up of water and each hydraulically fractured well could require thousands to millions of gallons.[71] While the total water use for well stimulation techniques is relatively low compared to other water users,[72] wells that are good candidates for such techniques are usually located near the same source and as a result the collective impact of water withdrawals could result in increased competition among users.[73] To decrease the competition among users, some states have implemented pilot projects evaluating the feasibility of reusing produced waters or other brackish or wastewaters.[74]

Wastewater Management and Disposal

As the use of hydraulic fracturing has increased, so has the volume of wastewaters that are generated. Produced water is the water that comes to the surface naturally, as part of the oil and natural gas production process, and for a hydraulically fractured well, includes flowback. The vast majority of produced water is disposed of using injection wells. Injection wells are permitted under the Underground Injection Control (UIC) program.[75] The goal of the UIC program is the effective isolation of injected fluids from underground sources of drinking water.[76] Class II injection wells are designed to inject fluids associated with the production of oil and natural gas or fluids used to enhance hydrocarbon recovery. As unconventional oil and gas wells are being drilled at rapid rates, space for underground injection wells is becoming limited in some areas. Another issue that is developing with the increase in injection wells is the concern

that the deep-well disposal of oil and gas production wastewater is responsible for seismic activity in certain areas.[77] The Oklahoma Geological Survey determined that the primary suspected source of triggered seismicity is from the injection of produced water associated with oil and gas production in disposal wells.[78]

Additionally, in some states the produced waters are being sent to treatment facilities that are not equipped to treat wastewater from hydraulically fractured wells.[79] In April 2015, the EPA under the authority of the Clean Water Act published proposed rules for the oil and gas extraction category which would set pretreatment standards for discharges of wastewater from unconventional oil and gas operations to a publicly owned treatment works plant.[80]

Air Quality

The key emissions associated with unconventional oil and natural gas production include methane, volatile organic compounds (VOCs), nitrogen oxides, sulfur dioxide, particulate matter, and various hazardous air pollutants.[81] In 2012, the EPA issued New Source Performance Standards that require reductions in emissions from VOCs from hydraulically fractured natural gas wells.[82] These rules were the first federal air standards for natural gas wells that were hydraulically fractured.[83] In August 2015, the EPA proposed additional requirements that would complement the 2012 standards, including requiring operators of hydraulically fractured oil wells, in addition to natural gas wells, to use "green completion" and a proposal to require owners or operators to find and repair leaks, which can be significant causes of methane and VOC pollution.[84]

Chemical Disclosure

Fracturing fluids vary in composition based on a variety of factors, including, but not limited to, the geologic type of formation being fractured, temperature, the sensitivity of the reservoir system to water.[85] Fracturing fluids are commonly composed of water, sand, a friction reducer, acid, biocide, a breaker, a stabilizer, a cross linker, gel, a non-emulsifier, a scale inhibitor, a surfactant, a pH adjuster agent, a gelling agent, and an iron control.[86] FracFocus is a publicly

[86] FracFocus Chemical Disclosure Registry, *Why Chemicals are Used*, https://fracfocus.org/chemical-use/why-chemicals-are-used (last visited Jan. 11, 2016).

accessible database managed by the Ground Water Protection Council and the Interstate Oil and Gas Compact Commission and was created to provide public access to reported chemicals used for hydraulic fracturing.[87] There are 106,132 well sites registered and the website lists over 50 chemicals that are used most often.[88] In February 2015, the Ground Water Protection Council reported that 27 states require chemical disclosure relating to hydraulic fracturing operations, and at least 18 of these states allow or require companies to use FracFocus.[89]

Because unique formulas are used based on the geology of each formation, the exact contents and proportions of various chemicals within the mixtures may not be common knowledge within the industry and could possibly be claimed as trade secret.[90] Therefore, while some states require specific fracturing fluid compositions to be disclosed to the state agencies, confidentiality provisions are provided to protect such trade secret information.

III. Effect of Proposed Changes:

Section 1 amends s. 377.06, F.S., to preempt all matters relating to the regulation of the exploration, development, production, processing, storage, and transportation of oil and gas to the state. The bill declares that any such existing ordinance or regulation regulating such matters is void. The bill authorizes a county or municipality to adopt and enforce zoning or land use requirements which affect the use of property for the exploration, development, production, processing, storage or transportation of oil and gas, except zoning or land use requirements that affect geophysical operations, so long as such zoning or land use requirements do not impose a moratorium on, effectively prohibit, or inordinately burden one or more of these activities on a subject property. Geophysical operations are activities, such as seismic surveys using off-road vibratory vehicles, specialized microphones, or explosives, which are utilized in the exploration for oil, gas, or other minerals.[91]

Currently, three municipalities have banned well stimulation techniques within their boundaries and under the bill such ordinances would be declared void.

Section 2 amends s. 377.19, F.S., to define the term "high-pressure well stimulation" as "all stages of a well intervention performed by injecting fluids into a rock formation at high pressure that exceeds the fracture gradient of the rock formation in order to propagate fractures in such formation to increase production at an oil or gas well by improving the flow of hydrocarbons from the formation into the wellbore." The bill specifies that the term does not include "well stimulation or conventional workover procedures that may incidentally fracture the formation near the wellbore."

[91] DEP, *Geophysical Prospecting*, http://www.dep.state.fl.us/water/mines/oil_gas/docs/OilGasGeophysicalProspectingFactSheet.pdf (last visited Jan. 26, 2016).

As defined, the term "high-pressure well stimulation" includes both hydraulic fracturing and acid fracturing and, consequently, a permit will be required before the performance of either technique. However, matrix acidizing, as it is performed at a pressure that does not exceed the fracture gradient, is outside the scope of the definition and would remain regulated as a workover.

Section 3 amends s. 377.22, F.S., to require the Department of Environmental Protection (DEP) to adopt rules for the regulation of high-pressure well stimulations, as well as rules relating to oil and gas well operations generally. The bill:

- Requires a bond or other form of security to be conditioned upon properly drilling, casing, producing, and operating each well and upon restoration of the area.
- Specifies that inspections are required during the testing of blowout preventers, during the pressure testing of the casing and casing shoe, and during the integrity testing of the cement plugs in plugging and abandonment operations.
- Authorizes the DEP to evaluate the history of prior adjudicated, uncontested, or settled violations committed by the permit applicant or the applicant's affiliated entities of any substantive and material rule or law pertaining to the regulation of oil or gas.

Section 4 amends s. 377.24, F.S., to require a person who desires to perform a high-pressure well stimulation to provide notice to the DEP, pay a fee, and receive a permit before the performance of a high-pressure well stimulation. The bill provides that a permit may authorize a single activity or multiple activities. The bill provides that an application for permission to perform a high-pressure well stimulation may only be denied by the Division of Water Resource Management (Division) for just and lawful cause.

The bill removes the prohibition against the granting of permits for drilling a gas or oil well within the corporate limits of a municipality without the approval of the governing authority of the municipality by resolution. The bill prohibits a permit to drill a gas or oil well from being granted within the jurisdictional boundaries of any municipality or county, unless the applicant provides notice of the permit application by certified mail to the governing authority of the county or municipality. The applicant is required to include a copy of the notice with the permit application.

The bill prohibits the DEP from approving a permit authorizing high-pressure well stimulations until rules are adopted for high-pressure well stimulations which are based upon the findings of the study on high-pressure well stimulations and such rules take effect. The bill requires the rules for high-pressure well stimulation to be submitted to the President of the Senate and the Speaker of the House of Representatives and prohibits such rules from taking effect until they are ratified by the Legislature.

Section 5 amends s. 377.241, F.S., to add criteria the DEP must consider and be guided by relating to the issuance of permits for high-pressure well stimulations; specifically, whether the high-pressure well stimulation as proposed is designed to ensure that the groundwater near the well location or through which the well will be or has been drilled is not contaminated as a result of the high-pressure well stimulation and whether the performance of the high-pressure well

stimulation is consistent with the public policy of the state to safeguard the health, property, and public welfare of the citizens of the state.[92]

The bill specifies that a permit may be denied or specific conditions of a permit may be required, including increased bonding and monitoring, if the permit applicant or affiliated entity has a history of prior adjudicated, uncontested, or settled violations of any substantive and material rule or law pertaining to the regulation of oil and gas, including violations that occurred outside of Florida.

The bill adds matters raised in comments timely submitted by a municipality or county to the Division of Water Resource Management to the list of criteria that the Division must give consideration to and be guided by when issuing permits for oil and gas activities.

Section 6 amends s. 377.242, F.S., to specify that the DEP has the authority to issue permits for the performance of a high-pressure well stimulation. The bill clarifies that a permittee agrees to inspections during the installation and cementing of the casing, during the testing of blowout preventers, during the pressure testing of the casing and casing shoe, and during the integrity testing of the cement plugs in plugging and abandonment operations.

Section 7 amends s. 377.2425, F.S., to require the permit applicant or operator to provide surety that the performance of a high-pressure well stimulation will be conducted in a safe and environmentally compatible manner.

Section 8 creates s. 377.2436, F.S., to require the DEP to conduct a study on high-pressure well stimulations. The study must include all of the following:

- An evaluation of the underlying geologic features in the counties where oil wells have been permitted and an analysis of the potential impact that high-pressure well stimulations and wellbore construction may have on the underlying geologic features;
- An evaluation of the potential hazards and risks that high-pressure well stimulations pose to surface water or groundwater resources;
- An assessment of the potential impact of high-pressure well stimulations on drinking water resources and an identification of the main factors affecting the severity and frequency of impacts;
- An analysis of the potential for the use or reuse of recycled water in well stimulation fluids, while meeting the appropriate water quality standards;
- A review and evaluation of the potential for groundwater contamination from conducting high-pressure well stimulations under or near wells that have been previously abandoned and plugged;
- An identification of a setback radius from plugged and abandoned wells that could be impacted by high-pressure well stimulations;
- A review and evaluation of the ultimate disposition of high-pressure well stimulation fluids after use in high-pressure well stimulation processes;
- A review and evaluation of the potential direct and indirect economic benefits resulting from the use of high-pressure well stimulations, including effects on state and local tax revenues, royalty payments, employment opportunities, and demand for goods and services;

[92] Section 377.06, F.S.

- A review and evaluation of the potential seismic activity associated with high-pressure well stimulation and the deep-well disposal of oil and gas production wastewater; and
- A review and evaluation of the feasibility and impact of waterless fracturing technologies to perform high-pressure well stimulation.

The bill specifies that the DEP must continue conventional oil and gas business operations during the performance of the study and that there is not a moratorium on the evaluation and issuance of permits for conventional drilling, explorations, conventional completions, or conventional workovers during the performance of the study.

The bill requires the study to be subject to an independent scientific peer review, and the findings of the study to be submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives by June 30, 2017. It also requires the results of the study to be posted to the DEP's website.

The bill prohibits the DEP from adopting rules for high-pressure well stimulations until the findings of the study have been submitted to the Legislature. The bill requires the DEP to adopt rules by March 1, 2018, to implement the findings of the study if such rules are warranted to protect public health, safety, and the environment.

Section 9 amends s. 377.37, F.S., to increase the civil penalty from $10,000 per offense per day to $25,000 per offense per day.

Section 10 creates s. 377.45, F.S., to require the DEP to designate the national chemical registry FracFocus as the state's registry for chemical disclosure for all wells on which high-pressure well stimulations are performed. In addition to providing the following information to the DEP as part of the permitting process, the bill requires a service provider, vendor, or owner or operator to report all of the following information, at a minimum, to the DEP for submission to FracFocus:

- The service provider, vendor, or owner or operator's name;
- The date of completion of the high-pressure well stimulation;
- The county in which the well is located;
- The American Petroleum Institute (API) well number;
- The well name and number;
- The longitude and latitude of the wellhead;
- The total vertical depth of the well;
- The total volume of water used in the high-pressure well stimulation;
- Each chemical ingredient that is subject to the Occupational Safety and Health Administration (OSHA) regulations set forth in 29 C.F.R. s. 1910.1200(g)(2)[93] and the ingredient concentration in the high-pressure well stimulation fluid by mass for each well on which a high-pressure well stimulation is performed; and
- The trade or common name and the Chemical Abstract Service (CAS) number for each chemical ingredient.

[93] 29 C.F.R. s. 1910.1200(g)(2) requires chemical manufacturers and importers to insure that the safety data sheets have the required information. See Appendix D to s. 1910.1200 - Safety Data Sheets, *available at* https://www.osha.gov/dsg/hazcom/hazcom-appendix-d.html.

The bill requires the DEP to report this information to FracFocus, excluding any information that is subject to the Uniform Trade Secrets Protection Act as set forth in chapter 688, F.S. If FracFocus cannot accept and make publicly available such information, the DEP is required to post the information, excluding trade secret information, on its website.

The service provider, vendor, owner or operator is required to report the chemical disclosure information within 60 days of the initiation of the high-pressure well stimulation. The service provider, vendor, well owner, or operator must also notify the DEP if any chemical ingredient not previously reported was intentionally included and used for the purpose of performing a high-pressure well stimulation.

The new section created by the bill (s. 377.45, F.S.) does not apply to ingredients that are unintentionally added to the high-pressure well stimulation, occur incidentally, or are otherwise unintentionally present in the high-pressure well stimulation.

The bill provides the DEP with rule authority to administer this section.

Section 11 amends s. 377.07, F.S., to rename the Division of Resource Management to the Division of Water Resource Management.

Section 12 amends s. 377.10, F.S., to make technical changes.

Section 13 amends s. 377.243, F.S., to make technical changes.

Section 14 amends s. 377.244, F.S., to make technical changes.

Section 15 provides an appropriation of $1,000,000 in nonrecurring funds from the General Revenue Fund for the 2016-2017 fiscal year to the DEP to conduct a study on high-pressure well stimulations.

Section 16 provides an effective date of July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

The county/municipality mandates provision of Art. VII, s. (18)(b) of the Florida Constitution may apply because the bill restricts the authority of counties and municipalities to establish programs that regulate any activity related to oil and gas exploration, production, processing, storage, and transportation. No county or municipality currently operates such permitting program.[94] Therefore, the mandates exception for insignificant fiscal impact may apply.

[94] Florida League of Cities, *Legislative Issue Briefs, Hydraulic Fracturing (Fracking)*, http://www.floridaleagueofcities.com/Assets/Files/Advocacy/2016_IB_Fracking.pdf (last visited Jan. 7, 2016).

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

PCS/CS/SB 318 authorizes a new permit fee for high-pressure well stimulations and increases fines from $10,000 per offense per day to $25,000 per offense per day. The increased revenue associated with the new permit fee is indeterminate. Should violations occur, the increased revenue associated with the increased fine will have a positive indeterminate fiscal impact to the Minerals Trust Fund within the DEP.

B. Private Sector Impact:

The bill increases penalties from $10,000 to $25,000 per offense, which will have a negative fiscal impact on private companies that are found in violation of the law.

C. Government Sector Impact:

The Department of Environmental Protection (DEP) will incur additional costs associated with permitting high-pressure well stimulation techniques. The regulatory costs and permit fee(s) will be based on the permitting requirements to be established through the rulemaking process. According to the DEP, existing staff is sufficient to handle the anticipated workload increases.[95] The increased revenues associated with permit fees is indeterminate.

The bill increases the penalty for violations from $10,000 per offense to $25,000 per offense. Should violations occur, the increased revenue will have a positive fiscal impact to the Minerals Trust Fund within the DEP.

According to the DEP, the costs associated to amend Rules 62C-25 through 30, of the Florida Administrative Code, can be absorbed within the DEP's existing budget.

The estimated cost for the study on high pressure well stimulations is $1 million.[96] The bill provides an appropriation of $1 million from nonrecurring general revenue for the study.

[95] DEP, *Senate Bill 318 Agency Legislative Bill Analysis*, pg. 4 (Nov. 6, 2015) (on file with the Senate Committee on Environmental Preservation and Conservation).
[96] *Id*.

VI. Technical Deficiencies:

The bill requires the Division of Water Resource Management (Division) to consider and be guided by matters raised in comments timely submitted by a municipality or county, related to the issuance of permits to drill a gas or oil well, which are submitted to the Division pursuant to s. 377.24(5), F.S, when reviewing a permit application. The cross-referenced subsection requires a permit applicant to provide notice to the county or municipality of the permit application, it does not provide a process for counties or municipalities to submit comments on the permit application to the Division.

VII. Related Issues:

The bill requires the DEP to conduct a study evaluating underlying geologic features. The language refers only to counties in which oil wells have been permitted and, therefore, may not include counties that have only permitted gas wells or counties where applications have been submitted for exploratory permits. The DEP has represented that any variation in the underlying geologic features between the counties where oil wells have been permitted and counties where gas wells or exploratory permits have been applied for are negligible for the purposes of the study.[97]

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 377.06, 377.19, 377.22, 377.24, 377.241, 377.242, 377.2425, 377.37, 377.07, 377.10, 377.243, and 377.244.

This bill creates the following sections of the Florida Statutes: 377.2436 and 377.45.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on General Government on January 25, 2016:
The committee substitute:

- Authorizes a county or municipality to adopt and enforce zoning or land use requirements which affect the use of property for the exploration, development, production, processing, storage or transportation of oil and gas, with the exception of geophysical operations, so long as such zoning or land use requirements do not impose a moratorium on, effectively prohibit, or inordinately burden one or more of these activities on a subject property.
- Removes the ability for counties or municipalities to enforce existing zone ordinances passed before January 1, 2015, related to oil and gas exploration, development, production, processing, storage, and transportation if the ordinance is otherwise valid.

[97] Email from Andrew Ketchel, Director, Office of Legislative Affairs, DEP (Jan. 7, 2016) (on file with the Senate Committee on Environmental Preservation and Conservation).

- Requires applicants for permits to drill a gas or oil well to provide notice of the permit application to any municipality or county within which the permit would authorize drilling a gas or oil well and requires matters raised by a municipality or county in response to such permit which are timely submitted to the Division of Water Resource Management to be considered as criteria for the issuance of the permit.
- Expands the scope of the study to include the economic benefits resulting from the use of high-pressure well stimulations, potential seismic activity associated with high-pressure well stimulation and the deep-well disposal of oil and gas production wastewater, and the impact of waterless fracking technologies.

CS by Environmental Preservation and Conservation on January 13, 2016:

- The CS authorizes the DEP to evaluate the prior adjudicated, uncontested, or settled violations committed by permit applicants as a basis for permit denial or imposition of specific permit conditions.
- The CS authorizes the DEP to consider as a criterion for issuing a permit for a high-pressure well stimulation, whether the high-pressure well stimulation as proposed is designed to ensure that the groundwater near the well location is not contaminated as a result of the high-pressure well stimulation. Additionally, the CS clarifies that the study provide a review and evaluation of the potential for groundwater contamination from conducting high-pressure well stimulations near well that have been previously abandoned and plugged.
- The CS prohibits the DEP from adopting rules for high-pressure well stimulations until the findings of the study have been submitted to the Legislature and the CS clarifies that the rules are to be based upon the findings of the study. Additionally, the CS requires legislative ratification of the rules prior to such rules taking effect and prohibits the DEP from issuing permits for high-pressure well stimulations until such rules take effect.

B. Amendments:

None.

508372

576-02578-16

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on General Government)

A bill to be entitled

An act relating to the regulation of oil and gas resources; amending s. 377.06, F.S.; preempting the regulation of all matters relating to the exploration, development, production, processing, storage, and transportation of oil and gas; declaring ordinances and regulations relating thereto void; providing an exception for certain zoning or land use requirements; ordinances and regulations relating thereto void; providing an exception for certain zoning ordinances; amending s. 377.19, F.S.; applying the definitions of certain terms to additional sections of ch. 377, F.S.; revising the definition of the term "division"; conforming a cross-reference; defining the term "high-pressure well stimulation"; amending s. 377.22, F.S.; revising the rulemaking authority of the Department of Environmental Protection; amending s. 377.24, F.S.; requiring that a permit be obtained before the performance of a high-pressure well stimulation; specifying that a permit may authorize single or multiple activities; revising provisions that prohibit the Division of Water Resource Management from granting permits to drill gas or oil wells; providing notice requirements for an application of such permit; prohibiting the department from approving permits for high-pressure well stimulation until certain rules are adopted and take effect; requiring legislative

508372

576-02578-16

ratification of such rules; amending s. 377.241, F.S.; requiring the Division of Water Resource Management to give consideration to and be guided by certain additional criteria when issuing permits; amending s. 377.242, F.S.; authorizing the department to issue permits for the performance of a high-pressure well stimulation; revising permit requirements that permitholders agree not to prevent division inspections; amending s. 377.2425, F.S.; requiring an applicant or operator to provide surety that performance of a high-pressure well stimulation will be conducted in a safe and environmentally compatible manner; creating s. 377.2436, F.S.; requiring the department to conduct a study on high-pressure well stimulation; providing study criteria; requiring the study to be submitted to the Governor and Legislature and posted on the department website; prohibiting the department from adopting rules until the study has been submitted to the Legislature; requiring the department to adopt rules under certain conditions by a specified date; amending s. 377.37, F.S.; increasing the maximum amount of a civil penalty; creating s. 377.45, F.S.; requiring the department to designate the national chemical disclosure registry as the state's registry; requiring service providers, vendors, and well owners or operators to report certain information to the department; requiring the department to report certain information to the national chemical registry; providing applicability;

requiring the department to adopt rules; amending ss. 377.07, 377.10, 377.243, and 377.244, F.S.; making technical changes; conforming provisions to changes made by the act; providing an appropriation; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 377.06, Florida Statutes, is amended to read:

377.06 Public policy of state concerning natural resources of oil and gas; preemption.—

(1) It is ~~hereby declared~~ the public policy of this state to conserve and control the natural resources of oil and gas in this state, and the products made from oil and gas in this state; to prevent waste of natural resources; to provide for the protection and adjustment of the correlative rights of the owners of the land in which the natural resources lie, of the owners and producers of oil and gas resources and the products made from oil and gas, and of others interested in these resources and products; and to safeguard the health, property, and public welfare of the residents of this state and other interested persons ~~and for all purposes indicated by the provisions in this section~~.

(2) ~~Further,~~ It is the public policy of this state ~~declared~~ that underground storage of natural gas is in the public interest because underground storage promotes conservation of natural gas~~,~~ makes gas more readily available to the domestic, commercial, and industrial consumers of this state~~,~~ and allows

the accumulation of large quantities of gas in reserve for orderly withdrawal during emergencies or periods of peak demand. It is not the intention of this section to limit, restrict, or modify in any way the provisions of this law.

(3) The Legislature declares that all matters relating to the regulation of the exploration, development, production, processing, storage, and transportation of oil and gas are preempted to the state, to the exclusion of all existing and future ordinances or regulations relating thereto adopted by any county, municipality, or other political subdivision of the state. All such ordinances or regulations are hereby declared void as a matter of law, including those that impose a moratorium or effect a ban on one or more of these activities. A county or municipality may, however, adopt and enforce zoning or land use requirements which affect the use of property for the exploration, development, production, processing, storage or transportation of oil and gas, with the exception of geophysical operations pursuant to s. 377.2424(3), so long as such zoning or land use requirements would not impose a moratorium on, effectively prohibit, or inordinately burden one or more of these activities on a subject property.

Section 2. Section 377.19, Florida Statutes, is amended to read:

377.19 Definitions.—As used in ss. 377.06, 377.07, and 377.10-377.45 ~~377.10-377.40~~, the term:

(1) "Completion date" means the day, month, and year that a new productive well, a previously shut-in well, or a temporarily abandoned well is completed, repaired, or recompleted and the operator begins producing oil or gas in commercial quantities.

(2) "Department" means the Department of Environmental Protection.

(3) "Division" means the Division of Water Resource Management of the Department of Environmental Protection.

(4) "Field" means the general area that is underlaid, or appears to be underlaid, by at least one pool. The term includes the underground reservoir, or reservoirs, containing oil or gas, or both. The terms "field" and "pool" mean the same thing if only one underground reservoir is involved; however, the term "field," unlike the term "pool," may relate to two or more pools.

(5) "Gas" means all natural gas, including casinghead gas, and all other hydrocarbons not defined as oil in subsection (16) ~~(15)~~.

(6) "High-pressure well stimulation" means all stages of a well intervention performed by injecting fluids into a rock formation at high pressure that exceeds the fracture gradient of the rock formation in order to propagate fractures in such formation to increase production at an oil or gas well by improving the flow of hydrocarbons from the formation into the wellbore. The term does not include well stimulation or conventional workover procedures that may incidentally fracture the formation near the wellbore.

(7) ~~(6)~~ "Horizontal well" means a well completed with the wellbore in a horizontal or nearly horizontal orientation within 10 degrees of horizontal within the producing formation.

(8) ~~(7)~~ "Illegal gas" means gas that has been produced within the state from any well or wells in excess of the amount allowed by any rule, regulation, or order of the division, as

distinguished from gas produced within the State of Florida from a well not producing in excess of the amount so allowed, which is "legal gas."

(9) ~~(8)~~ "Illegal oil" means oil that has been produced within the state from any well or wells in excess of the amount allowed by rule, regulation, or order of the division, as distinguished from oil produced within the state from a well not producing in excess of the amount so allowed, which is "legal oil."

(10) ~~(9)~~ "Illegal product" means a product of oil or gas, any part of which was processed or derived, in whole or in part, from illegal gas or illegal oil or from any product thereof, as distinguished from "legal product," which is a product processed or derived to no extent from illegal oil or illegal gas.

(11) ~~(10)~~ "Lateral storage reservoir boundary" means the projection up to the land surface of the maximum horizontal extent of the gas volume contained in a natural gas storage reservoir.

(12) ~~(11)~~ "Native gas" means gas that occurs naturally within this state and does not include gas produced outside the state, transported to this state, and injected into a permitted natural gas storage facility.

(13) ~~(12)~~ "Natural gas storage facility" means an underground reservoir from which oil or gas has previously been produced and which is used or to be used for the underground storage of natural gas, and any surface or subsurface structure, or infrastructure, except wells. The term also includes a right or appurtenance necessary or useful in the operation of the facility for the underground storage of natural gas, including

any necessary or reasonable reservoir protective area as designated for the purpose of ensuring the safe operation of the storage of natural gas or protecting the natural gas storage facility from pollution, invasion, escape, or migration of gas, or any subsequent extension thereof. The term does not mean a transmission, distribution, or gathering pipeline or system that is not used primarily as integral piping for a natural gas storage facility.

(14) ~~(13)~~ "Natural gas storage reservoir" means a pool or field from which gas or oil has previously been produced and which is suitable for or capable of being made suitable for the injection, storage, and recovery of gas, as identified in a permit application submitted to the department under s. 377.2407.

(15) ~~(14)~~ "New field well" means an oil or gas well completed after July 1, 1997, in a new field as designated by the Department of Environmental Protection.

(16) ~~(15)~~ "Oil" means crude petroleum oil and other hydrocarbons, regardless of gravity, which are produced at the well in liquid form by ordinary production methods, and which are not the result of condensation of gas after it leaves the reservoir.

(17) ~~(16)~~ "Oil and gas" has the same meaning as the term "oil or gas."

(18) ~~(17)~~ "Oil and gas administrator" means the State Geologist.

(19) ~~(18)~~ "Operator" means the entity who:

(a) Has the right to drill and to produce a well; or

(b) As part of a natural gas storage facility, injects, or

is engaged in the work of preparing to inject, gas into a natural gas storage reservoir; or stores gas in, or removes gas from, a natural gas storage reservoir.

(20) ~~(19)~~ "Owner" means the person who has the right to drill into and to produce from any pool and to appropriate the production for the person or for the person and another, or others.

(21) ~~(20)~~ "Person" means a natural person, corporation, association, partnership, receiver, trustee, guardian, executor, administrator, fiduciary, or representative of any kind.

(22) ~~(21)~~ "Pool" means an underground reservoir containing or appearing to contain a common accumulation of oil or gas or both. Each zone of a general structure which is completely separated from any other zone on the structure is considered a separate pool as used herein.

(23) ~~(22)~~ "Producer" means the owner or operator of a well or wells capable of producing oil or gas, or both.

(24) ~~(23)~~ "Product" means a commodity made from oil or gas and includes refined crude oil, crude tops, topped crude, processed crude petroleum, residue from crude petroleum, cracking stock, uncracked fuel oil, fuel oil, treated crude oil, residuum, gas oil, casinghead gasoline, natural gas gasoline, naphtha, distillate, condensate, gasoline, waste oil, kerosene, benzine, wash oil, blended gasoline, lubricating oil, blends or mixtures of oil with one or more liquid products or byproducts derived from oil or gas, and blends or mixtures of two or more liquid products or byproducts derived from oil or gas, whether hereinabove enumerated or not.

(25) ~~(24)~~ "Reasonable market demand" means the amount of oil

reasonably needed for current consumption, together with a reasonable amount of oil for storage and working stocks.

(26) ~~(25)~~ "Reservoir protective area" means the area extending up to and including 2,000 feet surrounding a natural gas storage reservoir.

(27) ~~(26)~~ "Shut-in bottom hole pressure" means the pressure at the bottom of a well when all valves are closed and no oil or gas has been allowed to escape for at least 24 hours.

(28) ~~(27)~~ "Shut-in well" means an oil or gas well that has been taken out of service for economic reasons or mechanical repairs.

(29) ~~(28)~~ "State" means the State of Florida.

(30) ~~(29)~~ "Temporarily abandoned well" means a permitted well or wellbore that has been abandoned by plugging in a manner that allows reentry and redevelopment in accordance with oil or gas rules of the Department of Environmental Protection.

(31) ~~(30)~~ "Tender" means a permit or certificate of clearance for the transportation or the delivery of oil, gas, or products, approved and issued or registered under the authority of the division.

(32) ~~(31)~~ "Waste," in addition to its ordinary meaning, means "physical waste" as that term is generally understood in the oil and gas industry. The term "waste" includes:

(a) The inefficient, excessive, or improper use or dissipation of reservoir energy; and the locating, spacing, drilling, equipping, operating, or producing of any oil or gas well or wells in a manner that results, or tends to result, in reducing the quantity of oil or gas ultimately to be stored or recovered from any pool in this state.

(b) The inefficient storing of oil; and the locating, spacing, drilling, equipping, operating, or producing of any oil or gas well or wells in a manner that causes, or tends to cause, unnecessary or excessive surface loss or destruction of oil or gas.

(c) The producing of oil or gas in a manner that causes unnecessary water channeling or coning.

(d) The operation of any oil well or wells with an inefficient gas-oil ratio.

(e) The drowning with water of any stratum or part thereof capable of producing oil or gas.

(f) The underground waste, however caused and whether or not defined.

(g) The creation of unnecessary fire hazards.

(h) The escape into the open air, from a well producing both oil and gas, of gas in excess of the amount that is necessary in the efficient drilling or operation of the well.

(i) The use of gas for the manufacture of carbon black.

(j) Permitting gas produced from a gas well to escape into the air.

(k) The abuse of the correlative rights and opportunities of each owner of oil and gas in a common reservoir due to nonuniform, disproportionate, and unratable withdrawals, causing undue drainage between tracts of land.

(33) ~~(32)~~ "Well site" means the general area around a well, which area has been disturbed from its natural or existing condition, as well as the drilling or production pad, mud and water circulation pits, and other operation areas necessary to drill for or produce oil or gas, or to inject gas into and

recover gas from a natural gas storage facility.

Section 3. Subsection (2) of section 377.22, Florida Statutes, is amended to read:

377.22 Rules and orders.—

(2) The department shall issue orders and adopt rules pursuant to ss. 120.536 and 120.54 to implement and enforce ~~the provisions of~~ this chapter. Such rules and orders shall ensure that all precautions are taken to prevent the spillage of oil or any other pollutant in all phases of the drilling for, and extracting of, oil, gas, or other petroleum products, including high-pressure well stimulations, or during the injection of gas into and recovery of gas from a natural gas storage reservoir. The department shall revise such rules from time to time as necessary for the proper administration and enforcement of this chapter. Rules adopted and orders issued in accordance with this section are for, but not limited to, the following purposes:

(a) To require the drilling, casing, and plugging of wells to be done in such a manner as to prevent the pollution of the fresh, salt, or brackish waters or the lands of the state and to protect the integrity of natural gas storage reservoirs.

(b) To prevent the alteration of the sheet flow of water in any area.

(c) To require that appropriate safety equipment be installed to minimize the possibility of an escape of oil or other petroleum products in the event of accident, human error, or a natural disaster during drilling, casing, or plugging of any well and during extraction operations.

(d) To require the drilling, casing, and plugging of wells to be done in such a manner as to prevent the escape of oil or

other petroleum products from one stratum to another.

(e) To prevent the intrusion of water into an oil or gas stratum from a separate stratum, except as provided by rules of the division relating to the injection of water for proper reservoir conservation and brine disposal.

(f) To require a reasonable bond, or other form of security acceptable to the department, conditioned upon properly drilling, casing, producing, and operating each well and properly plugging ~~the performance of the duty to plug properly~~ each dry and abandoned well and upon the full and complete restoration by the applicant of the area over which geophysical exploration, drilling, or production is conducted to the similar contour and general condition in existence before ~~prior to~~ such operation.

(g) To require and carry out a reasonable program of monitoring and inspecting ~~or inspection of~~ all drilling operations, high-pressure well stimulations, producing wells, ~~or~~ injecting wells, and well sites, including regular inspections by division personnel. Inspections are required during the testing of blowout preventers, during the pressure testing of the casing and casing shoe, and during the integrity testing of the cement plugs in plugging and abandonment operations.

(h) To require the making of reports showing the location of all oil and gas wells; the making and filing of logs; the taking and filing of directional surveys; the filing of electrical, sonic, radioactive, and mechanical logs of oil and gas wells; if taken, the saving of cutting and cores, the cuts of which shall be given to the Bureau of Geology; and the making of reports with respect to drilling and production records.

However, such information, or any part thereof, at the request of the operator, shall be exempt from ~~the provisions of~~ s. 119.07(1) and held confidential by the division for ~~a period of~~ 1 year after the completion of a well.

(i) To prevent wells from being drilled, operated, or produced in such a manner as to cause injury to neighboring leases, property, or natural gas storage reservoirs.

(j) To prevent the drowning by water of any stratum, or part thereof, capable of producing oil or gas in paying quantities and to prevent the premature and irregular encroachment of water which reduces, or tends to reduce, the total ultimate recovery of oil or gas from any pool.

(k) To require the operation of wells with efficient gas-oil ratio, and to fix such ratios.

(l) To prevent "blowouts," "caving," and "seepage," in the sense that conditions indicated by such terms are generally understood in the oil and gas business.

(m) To prevent fires.

(n) To identify the ownership of all oil or gas wells, producing leases, refineries, tanks, plants, structures, and storage and transportation equipment and facilities.

(o) To regulate the "shooting," perforating, ~~and~~ chemical treatment, and high-pressure stimulations of wells.

(p) To regulate secondary recovery methods, including the introduction of gas, air, water, or other substance into producing formations.

(q) To regulate gas cycling operations.

(r) To regulate the storage and recovery of gas injected into natural gas storage facilities.

(s) If necessary for the prevention of waste, as herein defined, to determine, limit, and prorate the production of oil or gas, or both, from any pool or field in the state.

(t) To require, either generally or in or from particular areas, certificates of clearance or tenders in connection with the transportation or delivery of oil or gas, or any product.

(u) To regulate the spacing of wells and to establish drilling units.

(v) To prevent, so far as is practicable, reasonably avoidable drainage from each developed unit which is not equalized by counterdrainage.

(w) To require that geophysical operations requiring a permit be conducted in a manner which will minimize the impact on hydrology and biota of the area, especially environmentally sensitive lands and coastal areas.

(x) To regulate aboveground crude oil storage tanks in a manner which will protect the water resources of the state.

(y) To act in a receivership capacity for fractional mineral interests for which the owners are unknown or unlocated and to administratively designate the operator as the lessee.

(z) To evaluate the history of prior adjudicated, uncontested, or settled violations committed by permit applicants or the applicants' affiliated entities of any substantive and material rule or law pertaining to the regulation of oil or gas.

Section 4. Subsections (1), (2), (4), and (5) of section 377.24, Florida Statutes, are amended, and subsections (10) and (11) are added to that section, to read:

377.24 Notice of intention to drill well; permits;

abandoned wells and dry holes.—

(1) Before drilling a well in search of oil or gas, before performing a high-pressure well stimulation, or before storing gas in or recovering gas from a natural gas storage reservoir, the person who desires to drill for, store, or recover gas, ~~or~~ drill for oil or gas, or perform a high-pressure well stimulation shall notify the division upon such form as it may prescribe and shall pay a reasonable fee set by rule of the department not to exceed the actual cost of processing and inspecting for each well or reservoir. The drilling of any well, the performance of any high-pressure well stimulation, and the storing and recovering of gas are prohibited until such notice is given, the fee is paid, and a ~~the~~ permit is granted. A permit may authorize a single activity or multiple activities.

(2) An application for the drilling of a well in search of oil or gas, for the performance of a high-pressure well stimulation, or for the storing of gas in and recovering of gas from a natural gas storage reservoir~~,~~ in this state must include the address of the residence of the applicant~~,~~ or applicants, which must be the address of each person involved in accordance with the records of the Division of Water Resource Management until such address is changed on the records of the division after written request.

(4) Application for permission to drill or abandon any well or perform a high-pressure well stimulation may be denied by the division for only just and lawful cause.

(5) No permit to drill a gas or oil well shall be granted within the jurisdictional boundaries of any municipality or county, unless the applicant provides notice of the permit

application, by certified mail, to ~~the corporate limits of any municipality, unless~~ the governing authority of the county or municipality. The applicant shall include a copy of the notice with the permit application ~~shall have first duly approved the application for such permit by resolution~~.

(10) The department may not approve a permit to authorize a high-pressure well stimulation until the department adopts rules for high-pressure well stimulations which are based upon the findings of the study required pursuant to s. 377.2436 and such rules take effect.

(11) The rules for high-pressure well stimulation shall be submitted to the President of the Senate and Speaker of the House of Representatives and such rules may not take effect until they are ratified by the Legislature.

Section 5. Subsections (5), (6), and 7 are added to section 377.241, Florida Statutes, to read:

377.241 Criteria for issuance of permits.—The division, in the exercise of its authority to issue permits as hereinafter provided, shall give consideration to and be guided by the following criteria:

(5) For high-pressure well stimulations, whether the high-pressure well stimulation as proposed is designed to ensure that:

(a) The groundwater near the well location, including groundwater through which the well will be or has been drilled, is not contaminated as a result of the high-pressure well stimulation; and

(b) The high-pressure well stimulation is consistent with the public policy of this state as specified in s. 377.06.

(6) As a basis for permit denial or imposition of specific permit conditions, including increased bonding up to five times the applicable limits and increased monitoring, the history of prior adjudicated, uncontested, or settled violations committed by the applicant or an affiliated entity of the applicant of any substantive and material rule or law pertaining to the regulation of oil or gas, including violations that occurred outside the state.

(7) Matters raised in comments timely submitted by a municipality or county to the division pursuant to s. 377.24(5).

Section 6. Section 377.242, Florida Statutes, is amended to read:

377.242 Permits for drilling or exploring and extracting through well holes or by other means.—The department is vested with the power and authority:

(1)(a) To issue permits for the performance of a high-pressure well stimulation or the drilling for, exploring for, or production of oil, gas, or other petroleum products that ~~which~~ are to be extracted from below the surface of the land, including submerged land, only through the well hole drilled for oil, gas, and other petroleum products.

1. A ~~No~~ structure intended for the drilling for, or production of, oil, gas, or other petroleum products may not be permitted or constructed on any submerged land within any bay or estuary.

2. A ~~No~~ structure intended for the drilling for, or production of, oil, gas, or other petroleum products may not be permitted or constructed within 1 mile seaward of the coastline of the state.

3. A ~~No~~ structure intended for the drilling for, or production of, oil, gas, or other petroleum products may not be permitted or constructed within 1 mile of the seaward boundary of any state, local, or federal park or aquatic or wildlife preserve or on the surface of a freshwater lake, river, or stream.

4. A ~~No~~ structure intended for the drilling for, or production of, oil, gas, or other petroleum products may not be permitted or constructed within 1 mile inland from the shoreline of the Gulf of Mexico, the Atlantic Ocean, or any bay or estuary or within 1 mile of any freshwater lake, river, or stream unless the department is satisfied that the natural resources of such bodies of water and shore areas of the state will be adequately protected in the event of accident or blowout.

5. Without exception, after July 1, 1989, a ~~no~~ structure intended for the drilling for, or production of, oil, gas, or other petroleum products may not be permitted or constructed south of 26°00′00″ north latitude off Florida's west coast and south of 27°00′00″ north latitude off Florida's east coast, within the boundaries of Florida's territorial seas as defined in 43 U.S.C. s. 1301. After July 31, 1990, a ~~no~~ structure intended for the drilling for, or production of, oil, gas, or other petroleum products may not be permitted or constructed north of 26°00′00″ north latitude off Florida's west coast to the western boundary of the state bordering Alabama as set forth in s. 1, Art. II of the State Constitution, or located north of 27°00′00″ north latitude off Florida's east coast to the northern boundary of the state bordering Georgia as set forth in s. 1, Art. II of the State Constitution, within the boundaries

of Florida's territorial seas as defined in 43 U.S.C. s. 1301.

(b) Subparagraphs (a)1. and 4. do not apply to permitting or construction of structures intended for the drilling for, or production of, oil, gas, or other petroleum products pursuant to an oil, gas, or mineral lease of such lands by the state under which lease any valid drilling permits are in effect on the effective date of this act. In the event that such permits contain conditions or stipulations, such conditions and stipulations shall govern and supersede subparagraphs (a)1. and 4.

(c) The prohibitions of subparagraphs (a)1.-4. ~~in this subsection~~ do not include "infield gathering lines," provided no other placement is reasonably available and all other required permits have been obtained.

(2) To issue permits to explore for and extract minerals which are subject to extraction from the land by means other than through a well hole.

(3) To issue permits to establish natural gas storage facilities or construct wells for the injection and recovery of any natural gas for storage in natural gas storage reservoirs.

Each permit shall contain an agreement by the permitholder that the permitholder will not prevent inspection by division personnel at any time, including during installation and cementing of casing, during the testing of blowout preventers, during the pressure testing of the casing and casing shoe, and during the integrity testing of the cement plugs in plugging and abandonment operations. The provisions of this section prohibiting permits for drilling or exploring for oil in coastal

waters do not apply to any leases entered into before June 7, 1991.

Section 7. Subsection (1) of section 377.2425, Florida Statutes, is amended to read:

377.2425 Manner of providing security for geophysical exploration, drilling, and production.—

(1) Before ~~Prior to~~ granting a permit for conducting ~~to conduct~~ geophysical operations; drilling of exploratory, injection, or production wells; producing oil and gas from a wellhead; performing a high-pressure well stimulation; or transporting oil and gas through a field-gathering system, the department shall require the applicant or operator to provide surety that these operations will be conducted in a safe and environmentally compatible manner.

(a) The applicant for a drilling, production, high-pressure well stimulation, or injection well permit or a geophysical permit may provide the following types of surety to the department for this purpose:

1. A deposit of cash or other securities made payable to the Minerals Trust Fund. Such cash or securities so deposited shall be held at interest by the Chief Financial Officer to satisfy safety and environmental performance provisions of this chapter. The interest shall be credited to the Minerals Trust Fund. Such cash or other securities shall be released by the Chief Financial Officer upon request of the applicant and certification by the department that all safety and environmental performance provisions established by the department for permitted activities have been fulfilled.

2. A bond of a surety company authorized to do business in

the state in an amount as provided by rule.

3. A surety in the form of an irrevocable letter of credit in an amount as provided by rule guaranteed by an acceptable financial institution.

(b) An applicant for a drilling, production, high-pressure well stimulation, or injection well permit, or a permittee who intends to continue participating in long-term production activities of such wells, has the option to provide surety to the department by paying an annual fee to the Minerals Trust Fund. For an applicant or permittee choosing this option the following shall apply:

1. For the first year, or part of a year, of a drilling, production, or injection well permit, or change of operator, the fee is $4,000 per permitted well.

2. For each subsequent year, or part of a year, the fee is $1,500 per permitted well.

3. The maximum fee that an applicant or permittee may be required to pay into the trust fund is $30,000 per calendar year, regardless of the number of permits applied for or in effect.

4. The fees set forth in subparagraphs 1., 2., and 3. shall be reviewed by the department on a biennial basis and adjusted for the cost of inflation. The department shall establish by rule a suitable index for implementing such fee revisions.

(c) An applicant for a drilling or operating permit for operations planned in coastal waters that by their nature warrant greater surety shall provide surety only in accordance with paragraph (a), or similar proof of financial responsibility other than as provided in paragraph (b). For all such

applications, including applications pending at the effective date of this act and notwithstanding ~~the provisions of~~ paragraph (b), the Governor and Cabinet in their capacity as the Administration Commission, at the recommendation of the department ~~of Environmental Protection~~, shall set a reasonable amount of surety required under this subsection. The surety amount shall be based on the projected cleanup costs and natural resources damages resulting from a maximum oil spill and adverse hydrographic and atmospheric conditions that would tend to transport the oil into environmentally sensitive areas, as determined by the department ~~of Environmental Protection~~.

Section 8. Section 377.2436, Florida Statutes, is created to read:

377.2436 Study on high-pressure well stimulations.—

(1) The department shall conduct a study on high-pressure well stimulations. The study must:

(a) Evaluate the underlying geologic features present in the counties where oil wells have been permitted and analyze the potential impact that high-pressure well stimulation and wellbore construction may have on the underlying geologic features.

(b) Evaluate the potential hazards and risks that high-pressure well stimulation poses to surface water or groundwater resources. The study must assess the potential impacts of high-pressure well stimulation on drinking water resources and identify the main factors affecting the severity and frequency of impacts and must analyze the potential for the use or reuse of recycled water in well stimulation fluids while meeting appropriate water quality standards.

(c) Review and evaluate the potential for groundwater contamination from conducting high-pressure well stimulation under or near wells that have been previously plugged and abandoned and identify a setback radius from previously plugged and abandoned wells that could be impacted by high-pressure well stimulation.

(d) Review and evaluate the ultimate disposition of high-pressure well stimulation fluids after use in high-pressure well stimulation processes.

(e) Review and evaluate the potential direct and indirect economic benefits resulting from the use of high-pressure well stimulation, including effects on state and local tax revenues, royalty payments, employment opportunities, and demand for goods and services.

(f) Review and evaluate potential seismic activity associated with high-pressure well stimulation and the deep-well disposal of oil and gas production wastewater.

(g) Review and evaluate the feasibility and impact of waterless fracturing technologies to perform high-pressure well stimulation.

(2) The department shall continue conventional oil and gas business operations during the performance of the study. There may not be a moratorium on the evaluation and issuance of permits for conventional drilling, exploration, conventional completions, or conventional workovers during the performance of the study.

(3) The study is subject to independent scientific peer review.

(4) The department shall submit the findings of the study

to the Governor, the President of the Senate, and the Speaker of the House of Representatives by June 30, 2017, and shall prominently post the findings on its website.

(5) The department may not adopt rules for high-pressure well stimulation until the findings of the study have been submitted to the Legislature. However, by March 1, 2018, the department must adopt rules to implement the findings of the study, if such rules are warranted to protect public health, safety, and the environment.

Section 9. Paragraph (a) of subsection (1) of section 377.37, Florida Statutes, is amended to read:

377.37 Penalties.—

(1)(a) A ~~Any~~ person who violates any provision of this chapter ~~law~~ or any rule, regulation, or order of the division made under this chapter or who violates the terms of any permit to drill for or produce oil, gas, or other petroleum products referred to in s. 377.242(1) or to store gas in a natural gas storage facility, or any lessee, permitholder, or operator of equipment or facilities used in the exploration for, drilling for, or production of oil, gas, or other petroleum products, or storage of gas in a natural gas storage facility, who refuses inspection by the division as provided in this chapter, is liable to the state for any damage caused to the air, waters, or property, including animal, plant, or aquatic life, of the state and for reasonable costs and expenses of the state in tracing the source of the discharge, in controlling and abating the source and the pollutants, and in restoring the air, waters, and property, including animal, plant, and aquatic life, of the state. Furthermore, such person, lessee, permitholder, or

operator is subject to the judicial imposition of a civil penalty ~~in an amount~~ of not more than $25,000 ~~$10,000~~ for each offense. However, the court may receive evidence in mitigation. Each day during any portion of which such violation occurs constitutes a separate offense. This paragraph does not ~~Nothing herein shall~~ give the department the right to bring an action on behalf of a ~~any~~ private person.

Section 10. Section 377.45, Florida Statutes, is created to read:

377.45 High-pressure well stimulation chemical disclosure registry.—

(1)(a) The department shall designate the national chemical disclosure registry, known as FracFocus, developed by the Ground Water Protection Council and the Interstate Oil and Gas Compact Commission, as the state's registry for chemical disclosure for all wells on which high-pressure well stimulations are performed. The department shall provide a link to FracFocus through its website.

(b) In addition to providing the following information to the department as part of the permitting process, a service provider, vendor, or well owner or operator shall report, as established by department rule, to the department, at a minimum, the following information:

1. The name of the service provider, vendor, or owner or operator.

2. The date of completion of the high-pressure well stimulation.

3. The county in which the well is located.

4. The API Well Number.

5. The well name and number.

6. The longitude and latitude of the wellhead.

7. The total vertical depth of the well.

8. The total volume of water used in the high-pressure well stimulation.

9. Each chemical ingredient that is subject to 29 C.F.R. s. 1910.1200(g)(2) and the ingredient concentration in the high-pressure well stimulation fluid by mass for each well on which a high-pressure well stimulation is performed.

10. The trade or common name and the CAS Registry Number for each chemical ingredient.

(c) The department shall report to FracFocus all information received under paragraph (b), excluding any information subject to chapter 688.

(d) If FracFocus cannot accept and make publicly available any information specified in this section, the department shall post the information on its website, excluding any information subject to chapter 688.

(2) A service provider, vendor, or well owner or operator shall:

(a) Report the information required under subsection (1) to the department within 60 days after the initiation of the high-pressure well stimulation for each well on which such high-pressure well stimulation is performed.

(b) Notify the department if any chemical ingredient not previously reported is intentionally included and used for the purpose of performing a high-pressure well stimulation.

(3) This section does not apply to an ingredient that:

(a) Is not intentionally added to the high-pressure well

stimulation; or

(b) Occurs incidentally or is otherwise unintentionally present in a high-pressure well stimulation.

(4) The department shall adopt rules to administer this section.

Section 11. Section 377.07, Florida Statutes, is amended to read:

377.07 Division of Water Resource Management; powers, duties, and authority.—The Division of Water Resource Management of the Department of Environmental Protection is ~~hereby~~ vested with power, authority, and duty to administer, carry out, and enforce ~~the provisions of~~ this part ~~law as directed in s. 370.02(3)~~.

Section 12. Section 377.10, Florida Statutes, is amended to read:

377.10 Certain persons not to be employed by division.—A ~~No~~ person in the employ of, or holding any official connection or position with any person, firm, partnership, corporation, or association of any kind, engaged in the business of buying or selling mineral leases, drilling wells in the search of oil or gas, producing, transporting, refining, or distributing oil or gas may not ~~shall~~ hold any position under, or be employed by, the Division of Water Resource Management in the prosecution of its duties under this part ~~law~~.

Section 13. Subsection (1) of section 377.243, Florida Statutes, is amended to read:

377.243 Conditions for granting permits for extraction through well holes.—

(1) Before applying ~~Prior to the application~~ to the

Division of Water Resource Management for the permit to drill for oil, gas, and related products referred to in s. 377.242(1), the applicant must own a valid deed, or other muniment of title, or lease granting the ~~said~~ applicant the privilege to explore for oil, gas, or related mineral products to be extracted only through the well hole on the land or lands included in the application. However, unallocated interests may be unitized according to s. 377.27.

Section 14. Subsection (1) of section 377.244, Florida Statutes, is amended to read:

377.244 Conditions for granting permits for surface exploratory and extraction operations.—

(1) Exploration for and extraction of minerals under ~~and by virtue of~~ the authority of a grant of oil, gas, or mineral rights, or which, subsequent to such grant, may ~~be interpreted to~~ include the right to explore for and extract minerals which are subject to extraction from the land by means other than through a well hole, that is by means of surface exploratory and extraction operations such as sifting of the sands, dragline, open pit mining, or other type of surface operation, which would include movement of sands, dirt, rock, or minerals, shall be exercised only pursuant to a permit issued by the Division of Water Resource Management upon the applicant's compliance ~~applicant complying~~ with the following conditions:

(a) The applicant must own a valid deed, or other muniment of title, or lease granting the applicant the right to explore for and extract oil, gas, and other minerals from the ~~said~~ lands.

(b) The applicant shall post a good and sufficient surety

bond with the division in such amount as the division determines ~~may determine~~ is adequate to afford full and complete protection for the owner of the surface rights of the lands described in the application, conditioned upon the full and complete restoration, by the applicant, of the area over which the exploratory and extraction operations are conducted to the same condition and contour in existence before ~~prior to~~ such operations.

Section 15. For the 2016-2017 fiscal year, the sum of $1 million in nonrecurring funds is appropriated from the General Revenue Fund to the Department of Environmental Protection to conduct a high-pressure well stimulation study pursuant to s. 377.2436, Florida Statutes.

Section 16. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 318
INTRODUCER:	Environmental Preservation and Conservation Committee and Senator Richter
SUBJECT:	Regulation of Oil and Gas Resources
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Istler	Rogers	EP	**Fav/CS**
2.	Howard	DeLoach	AGG	**Recommend: Fav/CS**
3.	Howard	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Technical Changes

I. Summary:

CS/SB 318 revises Florida's oil and gas regulations to define the term "high-pressure well stimulation" and requires a separate permit for the performance of high-pressure well stimulations. The bill directs the Department of Environmental Protection (DEP) to conduct a study analyzing the potential impacts that high-pressure well stimulations may have on Florida's underlying geologic features. The bill prohibits permits for high-pressure well stimulations from being issued until the DEP adopts rules regulating high-pressure well stimulations and such rules take effect.

Additionally, the bill:

- Preempts to the state all matters relating to the regulation of the exploration, development, production, processing, storage, and transportation of oil and gas;
- Requires inspections during the testing of blowout preventers, the pressure testing of the casing and casing shoe, and the integrity testing of cement plugs in plugging and abandonment operations;
- Requires notice to be given, a fee to be paid, and a permit to be granted before performing a high-pressure well stimulation;
- Requires the DEP to consider groundwater contamination as a result of high-pressure well stimulations and public policy when reviewing a permit application for high-pressure well stimulations;
- Specifies that a permit may be denied or specific permitting conditions may be applied based on the past history of prior adjudicated, uncontested, or settled violations committed by the

permit applicant or an affiliated entity of the applicant of any substantive and material rule or law pertaining to the regulation of oil or gas, including violations that occurred outside the state;
- Clarifies the inspection authority of the DEP;
- Requires the permit applicant to provide surety to the DEP that the high-pressure well stimulation will be conducted in a safe and environmentally compatible manner;
- Increases the civil penalty from $10,000 per day to $25,000 per day for violations; and
- Designates FracFocus as the state's registry for chemical disclosure for all wells on which high-pressure well stimulations are performed.

The bill provides a $1 million nonrecurring appropriation from the General Revenue Fund to the DEP to conduct a study on high-pressure well stimulations. According to the DEP, the increased workload related to the regulatory and rulemaking process can be handled within existing resources. The remaining fiscal impact of the bill is indeterminate.

The bill provides an effective date of July 1, 2016.

II. Present Situation:

Production of conventional versus unconventional oil and gas resources: the use of well stimulation techniques

Conventional oil and gas resources are found in permeable sandstone and carbonate reservoirs.[1] To extract conventional resources, wells have historically been drilled vertically, straight down into a rock formation. Whereas conventional resources are found in concentrated underground locations, unconventional resources are highly dispersed through impermeable or "tight" rock formations such as shales and tight sands. To extract unconventional resources, drilling has shifted from vertical to horizontal or directional away from the reservoir to the source rock, and well stimulation techniques have been developed to increase the production at such oil or gas wells. The profitable extraction of unconventional resources is relatively new.[2]

Well stimulation techniques are used in the production of both conventional and unconventional resources. The techniques can be focused solely on the wellbore for maintenance and remedial purposes or can be used to increase production from the reservoir.[3] The three most commonly used well stimulation techniques include matrix acidizing, acid fracturing, and hydraulic fracturing. Dating back to 1895, matrix acidizing is the oldest well stimulation technique. It involves pumping acid into the well at a pressure that does not exceed the fracture gradient to dissolve some of the rock to bypass wellbore damage or to stimulate carbonate formations.[4] Acid fracturing is a well stimulation technique that involves pumping acidic fluids into a well at a pressure that fractures the rock. The acid etches the walls of the fracture so the fractures remain

[4] *Id*. at 69.

open after the pressure is released. These types of acid stimulations are preferred in carbonate reservoirs.[5]

Hydraulic fracturing was developed in the 1940s to increase production of conventional resources. While the technique is not new, the composition of the fracturing fluids has evolved over time. Initially the technique used very little water and relied on a mixture of petroleum compounds, such as napalm and diesel fuels.[6] Modern hydraulic fracturing involves a fracturing fluid that is composed of a base fluid, in most cases water; additives, each designed to serve a particular function; and a proppant, such as sand, to hold the fractures open. The composition of the fracturing fluid varies depending on the property of the reservoir rock, specifically the rock's permeability and brittleness.[7] A hydraulic fracturing operation at a horizontal well involves four stages. The first is the "stage" during which a portion of the well is isolated to focus the fracture fluid pressure. The second is the "pad" in which fracture fluid is injected without proppant to initiate and propagate the fracture. The proppant is then added to keep the fractures open. The third stage is the "flush" during which fluid is injected without proppant to push any remaining proppant into the fractures. The fourth is the "flowback" during which the hydraulic fracturing fluids are removed and the fluid pressure dissipates.[8]

The Environmental Protection Agency (EPA) estimates that between 25,000-30,000 new wells were drilled and hydraulically fractured annually in the United States between 2011 and 2014.[9] Horizontal or directional drilling techniques in conjunction with hydraulic fracturing has led to a surge in domestic production of oil and gas resources in the recent decade and, in 2014, the United States was the world's top producer of petroleum and natural gas hydrocarbons.[10]

Production of oil and gas resources in Florida

Northwest and South Florida are the major oil and gas producing areas in the state. The first producing oil well was discovered in 1943 at a wellsite located in Big Cypress Preserve.[11] It was not until 1970 that oil and gas resources were first discovered in Northwest Florida. There are seven active fields in South Florida, specifically in Lee, Hendry, Collier, and Dade Counties, and

three active fields in Northwest Florida, specifically in Escambia and Santa Rosa Counties.[12] While geologists believe that there may be large oil and natural gas deposits off Florida's western coast, the state enacted a drilling ban for state waters in 1990 and, in 2006, Congress banned the leasing of federal offshore blocks within 125 miles of Florida's western coast until at least 2022.[13]

There are approximately 163 active wells in Florida.[14] The Department of Environmental Protection's (DEP) 2014 Annual Production Report totaled natural gas production at 728,884 million cubic feet (MMcf) and oil production totals at 614,668 thousand barrels (MBbls).[15]

Proven oil and gas reserves both in Northwest and South Florida are composed of carbonate formations and reservoirs that have relatively high permeability.[16] Because acid easily dissolves carbonate materials, techniques such as matrix acidizing and acid fracturing are preferred in carbonate reservoirs.[17] In December 2013, the DEP received a workover notice proposing use of an enhanced extraction procedure and requested that the company not complete until additional review could be performed.[18] The company commenced with the workover procedure, and the DEP issued a cease and desist order. After failing to comply with the order, the company withdrew its permit application.[19] The DEP reported that the last use of hydraulic fracturing on record was in the Jay oilfield in 2003.[20]

Regulation of well stimulation techniques

Federal

There is limited direct federal regulation over the use of well stimulation techniques. In 2005, Congress passed the Energy Policy Act amending the Safe Water Drinking Act (SWDA) and the Clean Water Act (CWA).[21] The SWDA was amended to revise the definition of the term "underground injection" to specifically exclude the underground injection of fluids or propping agents (other than diesel fuels) pursuant to hydraulic fracturing operations. The CWA was amended to characterize oil and gas exploration and production as "construction activities,"

thereby removing these operations from the scope of the CWA.[22] Thus, the Energy Policy Act effectively exempted non-diesel hydraulic fracturing from federal law.[23]

In an attempt to regulate hydraulic fracturing on federal and tribal lands, the Bureau of Land Management (BLM) in March 2015, published final rules governing hydraulic fracturing.[24] The rules were to take effect on June 24, 2015, however, the United States District Court for the District of Wyoming granted a preliminary injunction, holding that the BLM lacked the authority to regulate hydraulic fracturing.[25] The BLM is enjoined from enforcing the final rules pending the finality of the rule challenge.

While direct regulation over well stimulation techniques at the federal level is limited, there are several federal statutes that have been applied to regulate the impacts of oil and gas extraction more generally. The Oil and Gas Extraction Effluent Guidelines and Standards regulate wastewater discharges from field exploration, drilling, production, well treatment, and well completion activities.[26] The regulations apply to conventional and unconventional extraction with the exception of extractions of coalbed methane.[27] These standards are incorporated in the National Pollutant Discharge Elimination System (NPDES).

Because it is possible that oil and gas activities could result in the release of hazardous substances into the environment at or under the surface in a manner that may endanger public health or the environment, these activities are regulated under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).[28] While any recovered petroleum or natural gas is exempt, other hazardous substances that result from oil or gas production, including fracturing fluids, fall under the act and if a release were to occur, the facility owner and operator could face liability under CERCLA.[29]

To ensure that employees who may be exposed to hazardous chemicals in the workplace are aware of the chemicals' potential dangers, manufacturers and importers must obtain or develop

---

[22] The EPA rule implementing the CWA amendment was challenged and the Ninth Circuit Court of Appeals vacated the rule. Oil and gas construction facilities remain subject to stormwater permitting requirements, as well as, NPDES permit requirements. *See* William J. [24] Under the final BLM regulations, the term "hydraulic fracturing" is defined as "those operations conducted in an individual wellbore designed to increase the flow of hydrocarbons from the rock formation to the wellbore through modifying the permeability of reservoir rock by applying fluids under pressure to fracture it. Hydraulic fracturing does not include enhanced secondary recovery such as water flooding, tertiary recovery, recovery through steam injection, or other types of well stimulation operations such as acidizing."

Material Safety Data Sheets (MSDS) for hydraulic fracturing chemicals that are hazardous according to the Occupational Safety and Health Administration (OSHA) standards. MSDS sheets must be maintained for hazardous chemicals at each job site and must, at a minimum, include the chemical names of substances that are considered hazardous under OSHA regulations.[30]

State

States have primary jurisdiction and authority over the regulation of oil and gas activities. Almost all states with economically viable production wells have extensive regulatory programs in place for permitting and monitoring oil and gas activities. Recent advances in technology and the widespread use of well stimulation techniques, particularly hydraulic fracturing, have motivated some states to update and revise their oil and gas regulations to specifically address such techniques or to ban certain techniques altogether.[31]

The DEP has regulatory authority over oil and gas resources in Florida. The Division of Water Resource Management (Division) within DEP oversees the permitting process for drilling production and exploration. The DEP adopted Rule Chapters 62C-25 through 62C-30 of the Florida Administrative Code to implement and enforce the regulation of oil and gas resources. The Division has jurisdiction and authority over all persons and property necessary to administer and enforce all laws relating to the conservation of oil and gas.[32] Drilling and exploration is not authorized or is subject to local governmental approval in tidal waters, near improved beaches, and within municipal boundaries.[33]

When issuing permits for oil or gas exploration or extraction, the Division is required to consider the nature, character, and location of the lands involved; the nature, type, and extent of ownership of the applicant; and the proven or indicated likelihood of the presence of oil, gas, or related minerals on a commercially viable basis.[34] The DEP is required to ensure that all precautions are taken to prevent the spillage of oil or other pollutants in all phases of the drilling for, and extracting of, oil, gas, or other petroleum products.[35] Additionally, the DEP is authorized to issue rules to require the drilling, casing, and plugging of wells to be done in such a manner as to prevent the escape of oil or other petroleum products from one stratum to another.[36]

Before any person begins work other than environmental assessments or surveying at the site of a proposed drilling operation, a permit to drill is required and a preliminary site inspection must be conducted by the DEP.[37] An application for a permit to drill must include a proposed casing

[37] Fla. Admin. Code R. 62C-26.003.

and cementing program and a location plat survey.[38] Each drilling permit is valid for one year and may be extended for an additional year.[39] Before a well is used for its intended purpose, a permit to operate the well must be obtained.[40] Operating permits are valid for the life of the well; however, every five years the DEP is required to perform a comprehensive field inspection and the permit must be re-certified.[41] Each application and subsequent re-certification must include the appropriate fee; bond or security coverage; a spill prevention and cleanup plan; flowline specification and an installation plan; containment facility certification; and additional reporting and data submissions, such as a driller's logs and monthly well reports.[42] Before a permit is granted, the owner or operator is required to post a bond or other form of security for each well. The amounts vary depending upon the well depth.[43] In lieu of posting a bond or security for each well, the owner or operator may file a blanket bond for multiple operations in the amount of $1,000,000, which may cover up to ten wells.[44]

A separate permit is not required for the performance of well stimulation techniques, the techniques are regulated as workovers.[45] Rule 62C-25.002(61) of the Florida Administrative Code defines the term "workover" as "an operation involving a deepening, plug back, repair, cement squeeze, perforation, hydraulic fracturing, acidizing, or other chemical treatment which is performed in a production, disposal, or injection well in order to restore, sustain, or increase production, disposal, or injection rates." An operator is required to notify the DEP before commencing a workover procedure and must submit a revised Well Record[46] to the DEP within 30 days after the workover.[47]

A person that violates any statute, rule, regulation, order, or permit of the Division relating to the regulation of oil or gas resources or who refuses inspection by the Division is liable for damages caused to the air, waters, or property of the state; for reasonable costs in tracing the source of the discharge, in controlling and abating the source and the pollutants; and in restoring the air, waters, and property.[48] Such persons are also subject to judicial imposition of a civil penalty up to $10,000 for each offense.[49] Each day during any portion of which a violation occurs constitutes a separate offense.[50]

Local

As most states with oil and gas interests have extensive regulatory programs governing oil and gas activities, the issue relating to what extent local governments may regulate oil and gas activities within their boundaries has arisen. In some areas local governments have banned or limited certain well stimulation techniques within their boundaries with varying success. In Colorado a number of municipalities passed bans on hydraulic fracturing within their city limits, but state courts have overturned the bans recognizing that the state's interest in the efficient and fair development of its resources may otherwise be threatened by inconsistent ordinances.[51] In Pennsylvania similar bans have been passed, and Pennsylvania state courts have held that municipalities retain their authority to limit oil and gas development within their borders, effectively authorizing them to regulate the "where, but not the how, of hydrocarbon recovery."[52]

While cities and counties do not operate oil and gas permitting programs in Florida, some through their land use regulations or zoning ordinances require special exceptions for oil and gas activities or limit oil and gas activities to certain zoning classifications.[53] When authorizing oil and gas activities, local governments consider factors such as consistency with their comprehensive plan, injuries to communities or the public welfare, and compliance with zoning ordinances.[54]

Section 377.24(5), F. S., restricts the DEP from issuing a permit for drilling within the corporate limits of a municipality unless the municipality adopts a resolution approving the permit. Three municipalities, Estero, Bonita Springs, and Coconut Creek have banned well stimulation techniques by ordinance.[55] Additionally, many counties and cities have passed resolutions supporting various types of bans and moratoriums relating to well stimulation techniques.[56]

Environmental Concerns

There are a variety of environmental concerns relating to well stimulation techniques. Potential impacts and concerns include: groundwater or surface water contamination; stress on water supplies; inadequate wastewater management and disposal; and air quality degradation.[57] Because well stimulation techniques are applied to so many types of formations using a variety of methods and fluids, environmental impacts vary depending on factors such as toxicity of the

fluid used; the closeness of the fracture zone to underground drinking water; the existence of a barrier between the fracture formation and other formations; and how wastewater is disposed.[58]

Water Quality

A major environmental concern is the impact well stimulation techniques may have on drinking water quality. The EPA estimated that 6,800 sources of drinking water are within one mile of a well that has been hydraulically fractured.[59] Sources of drinking water may be contaminated through the release of gas-phase hydrocarbons, in what is known as stray gas migration, through the movement of liquid or gases out of the well if well casing or cementing is too weak or if it fails.[60] While concerns related to inadequate well casing or cementing are not unique to hydraulic fracturing, horizontally drilled, hydraulically fractured wells pose more production challenges because they are subject to greater pressures.[61]

Mitigating measures, such as extending the casing farther below groundwater resources and pressure testing the well casing before the injection of fluids, may work to prevent well casing failures. Blowout preventers also help control and prevent pressure build-ups. Furthermore, hydraulically fractured wells in shale formations are usually drilled deeper than vertical wells and, therefore, the vertical separation between the formation and the drinking water resource is greater.[62] Thousands of feet of rock layers typically overlay the produced portion of shale and serve as a barrier to contamination.[63] The vast majority of Florida's public water supply is obtained from groundwater sources, specifically from the Floridan aquifer system which underlies the state of Florida.[64] Areas in which oil and gas have been extracted have an upper confining unit that is generally greater than 100 feet, which serves as a barrier to contamination.[65]

Fractures created during hydraulic fracturing can intersect nearby wells or their fracture networks, resulting in the flow of fluids into those wells and to underground drinking water resources. These "frac-hits" are more likely to occur if wells are close to each other or are on the same well pad.[66] In Florida, horizontal wells deeper than 7,000 feet have more stringent spacing requirements.[67]

[67] Fla. Admin. Code R. 62C-26.004(5).

Surface water contamination may occur as a result of the inadequate storage and disposal of produced waters, which includes fractured fluids or "flowback." Approximately 10-40 percent of the volume of the injected fracturing fluids returns to the surface after hydraulic fracturing.[68] In most produced waters the concentrations of toxic elements, such as radioactive radium, are positively correlated with salinity, which suggests that many of the potential water quality issues associated with produced waters may be attributable to the geochemistry of the brines within the shale formations.[69] In Florida, all spills of waste material must be immediately reported to the Division and the appropriate federal agencies, and the owner or operator is responsible for the costs of cleanup or other damage incurred by the state.[70]

Water Supply

The amount of water used during the performance of a well stimulation depends on the well depth, formation geology, and the composition of the fracturing fluid. In some cases, over 90 percent of the fracturing fluid is made up of water and each hydraulically fractured well could require thousands to millions of gallons.[71] While the total water use for well stimulation techniques is relatively low compared to other water users,[72] wells that are good candidates for such techniques are usually located near the same source and as a result the collective impact of water withdrawals could result in increased competition among users.[73] To decrease the competition among users, some states have implemented pilot projects evaluating the feasibility of reusing produced waters or other brackish or wastewaters.[74]

Wastewater Management and Disposal

As the use of hydraulic fracturing has increased, so has the volume of wastewaters that are generated. Produced water is the water that comes to the surface naturally, as part of the oil and natural gas production process, and for a hydraulically fractured well, includes flowback. The vast majority of produced water is disposed of using injection wells. Injection wells are permitted under the Underground Injection Control (UIC) program.[75] The goal of the UIC program is the effective isolation of injected fluids from underground sources of drinking water.[76] Class II injection wells are designed to inject fluids associated with the production of oil and natural gas or fluids used to enhance hydrocarbon recovery. As unconventional oil and gas wells are being drilled at rapid rates, space for underground injection wells is becoming limited in some areas. Another issue that is developing with the increase in injection wells is the concern

that the deep-well disposal of oil and gas production wastewater is responsible for seismic activity in certain areas.[77] The Oklahoma Geological Survey determined that the primary suspected source of triggered seismicity is from the injection of produced water associated with oil and gas production in disposal wells.[78]

Additionally, in some states the produced waters are being sent to treatment facilities that are not equipped to treat wastewater from hydraulically fractured wells.[79] In April 2015, the EPA under the authority of the Clean Water Act published proposed rules for the oil and gas extraction category which would set pretreatment standards for discharges of wastewater from unconventional oil and gas operations to a publicly owned treatment works plant.[80]

Air Quality

The key emissions associated with unconventional oil and natural gas production include methane, volatile organic compounds (VOCs), nitrogen oxides, sulfur dioxide, particulate matter, and various hazardous air pollutants.[81] In 2012, the EPA issued New Source Performance Standards that require reductions in emissions from VOCs from hydraulically fractured natural gas wells.[82] These rules were the first federal air standards for natural gas wells that were hydraulically fractured.[83] In August 2015, the EPA proposed additional requirements that would complement the 2012 standards, including requiring operators of hydraulically fractured oil wells, in addition to natural gas wells, to use "green completion" and a proposal to require owners or operators to find and repair leaks, which can be significant causes of methane and VOC pollution.[84]

Chemical Disclosure

Fracturing fluids vary in composition based on a variety of factors, including, but not limited to, the geologic type of formation being fractured, temperature, the sensitivity of the reservoir system to water.[85] Fracturing fluids are commonly composed of water, sand, a friction reducer, acid, biocide, a breaker, a stabilizer, a cross linker, gel, a non-emulsifier, a scale inhibitor, a surfactant, a pH adjuster agent, a gelling agent, and an iron control.[86] FracFocus is a publicly

accessible database managed by the Ground Water Protection Council and the Interstate Oil and Gas Compact Commission and was created to provide public access to reported chemicals used for hydraulic fracturing.[87] There are 106,132 well sites registered and the website lists over 50 chemicals that are used most often.[88] In February 2015, the Ground Water Protection Council reported that 27 states require chemical disclosure relating to hydraulic fracturing operations, and at least 18 of these states allow or require companies to use FracFocus.[89]

Because unique formulas are used based on the geology of each formation, the exact contents and proportions of various chemicals within the mixtures may not be common knowledge within the industry and could possibly be claimed as trade secret.[90] Therefore, while some states require specific fracturing fluid compositions to be disclosed to the state agencies, confidentiality provisions are provided to protect such trade secret information.

III. Effect of Proposed Changes:

Section 1 amends s. 377.06, F.S., to preempt all matters relating to the regulation of the exploration, development, production, processing, storage, and transportation of oil and gas to the state. The bill declares that any such existing ordinance or regulation is void, with the exception of zoning ordinances adopted before January 1, 2015.

Currently, three municipalities have banned well stimulation techniques within their boundaries and because these ordinances were adopted after January 1, 2015, the ordinances would be void.

Section 2 amends s. 377.19, F.S., to define the term "high-pressure well stimulation" as "all stages of a well intervention performed by injecting fluids into a rock formation at high pressure that exceeds the fracture gradient of the rock formation in order to propagate fractures in such formation to increase production at an oil or gas well by improving the flow of hydrocarbons from the formation into the wellbore." The bill specifies that the term does not include "well stimulation or conventional workover procedures that may incidentally fracture the formation near the wellbore."

As defined, the term "high-pressure well stimulation" includes both hydraulic fracturing and acid fracturing and, consequently, a permit will be required before the performance of either technique. However, matrix acidizing, as it is performed at a pressure that does not exceed the fracture gradient, is outside the scope of the definition and would remain regulated as a workover.

Section 3 amends s. 377.22, F.S., to require the Department of Environmental Protection (DEP) to adopt rules for the regulation of high-pressure well stimulations, as well as rules relating to oil and gas well operations generally. The bill:

---

[87] *Id*.
[88] *Id*.
[89] Michael Ratner & Mary Tiemann, Cong. Research Serv., R 43148, *An Overview of Unconventional Oil and Natural Gas: Resources and Federal Actions*, pg. 12 (Apr. 22, 2015), *available at* https://www.fas.org/sgp/crs/misc/R43148.pdf.
[90] Hannah Wiseman, *Trade Secrets, Disclosure, and Dissent in a Fracturing Energy Revolution*, 111 COLUM. L. REV. SIDEBAR 1, 6-7 (2011), *available at* http://www.columbialawreview.org/wp-content/uploads/2011/01/1_Wiseman.pdf.

- Requires a bond or other form of security to be conditioned upon properly drilling, casing, producing, and operating each well and upon restoration of the area.
- Specifies that inspections are required during the testing of blowout preventers, during the pressure testing of the casing and casing shoe, and during the integrity testing of the cement plugs in plugging and abandonment operations.
- Authorizes the DEP to evaluate the history of prior adjudicated, uncontested, or settled violations committed by the permit applicant or the applicant's affiliated entities of any substantive and material rule or law pertaining to the regulation of oil or gas.

Section 4 amends s. 377.24, F.S., to require a person who desires to perform a high-pressure well stimulation to provide notice to the DEP, pay a fee, and receive a permit before the performance of a high-pressure well stimulation. The bill provides that a permit may authorize a single activity or multiple activities. The bill provides that an application for permission to perform a high-pressure well stimulation may only be denied by the Division for just and lawful cause.

The bill removes the prohibition against the granting of permits for drilling a gas or oil well within the corporate limits of a municipality without the approval of the governing authority of the municipality by resolution.

The bill prohibits the DEP from approving a permit authorizing high-pressure well stimulations until rules are adopted for high-pressure well stimulations which are based upon the findings of the study on high-pressure well stimulations and such rules take effect. The bill requires the rules for high-pressure well stimulation to be submitted to the President of the Senate and the Speaker of the House of Representatives and prohibits such rules from taking effect until they are ratified by the Legislature.

Section 5 amends s. 377.241, F.S., to add criteria the DEP must consider and be guided by relating to the issuance of permits for high-pressure well stimulations; specifically, whether the high-pressure well stimulation as proposed is designed to ensure that the groundwater near the well location or through which the well will be or has been drilled is not contaminated as a result of the high-pressure well stimulation and whether the performance of the high-pressure well stimulation is consistent with the public policy of the state to safeguard the health, property, and public welfare of the citizens of the state.[91]

The bill specifies that a permit may be denied or specific conditions of a permit may be required, including increased bonding and monitoring, if the permit applicant or affiliated entity has a history of prior adjudicated, uncontested, or settled violations of any substantive and material rule or law pertaining to the regulation of oil and gas, including violations that occurred outside of Florida.

Section 6 amends s. 377.242, F.S., to specify that the DEP has the authority to issue permits for the performance of a high-pressure well stimulation. The bill clarifies that a permittee agrees to inspections during the installation and cementing of the casing, during the testing of blowout preventers, during the pressure testing of the casing and casing shoe, and during the integrity testing of the cement plugs in plugging and abandonment operations.

[91] Section 377.06, F.S.

Section 7 amends s. 377.2425, F.S., to require the permit applicant or operator to provide surety that the performance of a high-pressure well stimulation will be conducted in a safe and environmentally compatible manner.

Section 8 creates s. 377.2436, F.S., to require the DEP to conduct a study on high-pressure well stimulations. The study must include all of the following:

- An evaluation of the underlying geologic features in the counties where oil wells have been permitted and an analysis of the potential impact that high-pressure well stimulations and wellbore construction may have on the underlying geologic features;
- An evaluation of the potential hazards and risks that high-pressure well stimulations pose to surface water or groundwater resources;
- An assessment of the potential impact of high-pressure well stimulations on drinking water resources and an identification of the main factors affecting the severity and frequency of impacts;
- An analysis of the potential for the use or reuse of recycled water in well stimulation fluids, while meeting the appropriate water quality standards;
- A review and evaluation of the potential for groundwater contamination from conducting high-pressure well stimulations under or near wells that have been previously abandoned and plugged;
- An identification of a setback radius from plugged and abandoned wells that could be impacted by high-pressure well stimulations; and
- A review and evaluation of the ultimate disposition of high-pressure well stimulation fluids after use in high-pressure well stimulation processes.

The bill specifies that the DEP must continue conventional oil and gas business operations during the performance of the study and that there is not a moratorium on the evaluation and issuance of permits for conventional drilling, explorations, conventional completions, or conventional workovers during the performance of the study.

The bill requires the study to be subject to an independent scientific peer review, and the findings of the study to be submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives by June 30, 2017. It also requires the results of the study to be posted to the DEP's website.

The bill prohibits the DEP from adopting rules for high-pressure well stimulations until the findings of the study have been submitted to the Legislature. The bill requires the DEP to adopt rules by March 1, 2018, to implement the findings of the study if such rules are warranted to protect public health, safety, and the environment.

Section 9 amends s. 377.37, F.S., to increase the civil penalty from $10,000 per offense per day to $25,000 per offense per day.

Section 10 creates s. 377.45, F.S., to require the DEP to designate the national chemical registry FracFocus as the state's registry for chemical disclosure for all wells on which high-pressure well stimulations are performed. In addition to providing the following information to the DEP

as part of the permitting process, the bill requires a service provider, vendor, or owner or operator to report all of the following information, at a minimum, to the DEP for submission to FracFocus:

- The service provider, vendor, or owner or operator's name;
- The date of completion of the high-pressure well stimulation;
- The county in which the well is located;
- The American Petroleum Institute (API) well number;
- The well name and number;
- The longitude and latitude of the wellhead;
- The total vertical depth of the well;
- The total volume of water used in the high-pressure well stimulation;
- Each chemical ingredient that is subject to the Occupational Safety and Health Administration (OSHA) regulations set forth in 29 C.F.R. s. 1910.1200(g)(2)[92] and the ingredient concentration in the high-pressure well stimulation fluid by mass for each well on which a high-pressure well stimulation is performed; and
- The trade or common name and the Chemical Abstract Service (CAS) number for each chemical ingredient.

The bill requires the DEP to report this information to FracFocus, excluding any information that is subject to the Uniform Trade Secrets Protection Act as set forth in chapter 688, F.S. If FracFocus cannot accept and make publicly available such information, the DEP is required to post the information, excluding trade secret information, on its website.

The service provider, vendor, owner or operator is required to report the chemical disclosure information within 60 days of the initiation of the high-pressure well stimulation. The service provider, vendor, well owner, or operator must also notify the DEP if any chemical ingredient not previously reported was intentionally included and used for the purpose of performing a high-pressure well stimulation.

The new section created by the bill (s. 377.45, F.S.) does not apply to ingredients that are unintentionally added to the high-pressure well stimulation, occur incidentally, or are otherwise unintentionally present in the high-pressure well stimulation.

The bill provides the DEP with rule authority to administer this section.

Section 11 amends s. 377.07, F.S., to rename the Division of Resource Management to the Division of Water Resource Management.

Section 12 amends s. 377.10, F.S., to make technical changes.

Section 13 amends s. 377.243, F.S., to make technical changes.

Section 14 amends s. 377.244, F.S., to make technical changes.

[92] 29 C.F.R. s. 1910.1200(g)(2) requires chemical manufacturers and importers to insure that the safety data sheets have the required information. See Appendix D to s. 1910.1200 - Safety Data Sheets, *available at* https://www.osha.gov/dsg/hazcom/hazcom-appendix-d.html.

Section 15 provides an appropriation of $1,000,000 in nonrecurring funds from the General Revenue Fund for the 2016-2017 fiscal year to the DEP to conduct a study on high-pressure well stimulations.

Section 16 provides an effective date of July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

The county/municipality mandates provision of Art. VII, s. (18)(b) of the Florida Constitution may apply because the bill restricts the authority of counties and municipalities to establish programs that regulate any activity related to oil and gas exploration, production, processing, storage, and transportation. No county or municipality currently operates such permitting program.[93] Therefore, the mandates exception for insignificant fiscal impact may apply.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

CS/SB 318 authorizes a new permit fee for high-pressure well stimulations and increases fines from $10,000 per offense per day to $25,000 per offense per day. The increased revenue associated with the new permit fee is indeterminate. Should violations occur, the increased revenue associated with the increased fine will have a positive indeterminate fiscal impact to the Minerals Trust Fund within the DEP.

B. Private Sector Impact:

The bill increases penalties from $10,000 to $25,000 per offense, which will have a negative fiscal impact on private companies that are found in violation of the law.

C. Government Sector Impact:

The Department of Environmental Protection (DEP) will incur additional costs associated with permitting high-pressure well stimulation techniques. The regulatory costs and permit fee(s) will be based on the permitting requirements to be established through the

[93] Florida League of Cities, *Legislative Issue Briefs, Hydraulic Fracturing (Fracking)*, http://www.floridaleagueofcities.com/Assets/Files/Advocacy/2016_IB_Fracking.pdf (last visited Jan. 7, 2016).

rulemaking process. According to the DEP, existing staff is sufficient to handle the anticipated workload increases.[94] The increased revenues associated with permit fees is indeterminate.

The bill increases the penalty for violations from $10,000 per offense to $25,000 per offense. Should violations occur, the increased revenue will have a positive fiscal impact to the Minerals Trust Fund within the DEP.

According to the DEP, the costs associated to amend Rules 62C-25 through 30, of the Florida Administrative Code, can be absorbed within the DEP's existing budget.

The estimated cost for the study on high pressure well stimulations is $1 million.[95] CS/SB 318 provides an appropriation of $1 million from nonrecurring general revenue for the study.

VI. Technical Deficiencies:

None.

VII. Related Issues:

The bill requires the DEP to conduct a study evaluating underlying geologic features. The language refers only to counties in which oil wells have been permitted and, therefore, may not include counties that have only permitted gas wells or counties where applications have been submitted for exploratory permits. The DEP has represented that any variation in the underlying geologic features between the counties where oil wells have been permitted and counties where gas wells or exploratory permits have been applied for are negligible for the purposes of the study.[96]

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 377.06, 377.19, 377.22, 377.24, 377.241, 377.242, 377.2425, 377.37, 377.07, 377.10, 377.243, and 377.244.

This bill creates the following sections of the Florida Statutes: 377.2436 and 377.45.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Environmental Preservation and Conservation on January 13, 2016:
The CS authorizes the DEP to evaluate the prior adjudicated, uncontested, or settled

[94] DEP, *Senate Bill 318 Agency Legislative Bill Analysis*, pg. 4 (Nov. 6, 2015) (on file with the Senate Committee on Environmental Preservation and Conservation).
[95] *Id*.
[96] Email from Andrew Ketchel, Director, Office of Legislative Affairs, DEP (Jan. 7, 2016) (on file with the Senate Committee on Environmental Preservation and Conservation).

violations committed by permit applicants as a basis for permit denial or imposition of specific permit conditions.

- The CS authorizes the DEP to consider as a criterion for issuing a permit for a high-pressure well stimulation, whether the high-pressure well stimulation as proposed is designed to ensure that the groundwater near the well location is not contaminated as a result of the high-pressure well stimulation. Additionally, the CS clarifies that the study provide a review and evaluation of the potential for groundwater contamination from conducting high-pressure well stimulations near well that have been previously abandoned and plugged.
- The CS prohibits the DEP from adopting rules for high-pressure well stimulations until the findings of the study have been submitted to the Legislature and the CS clarifies that the rules are to be based upon the findings of the study. Additionally, the CS requires legislative ratification of the rules prior to such rules taking effect and prohibits the DEP from issuing permits for high-pressure well stimulations until such rules take effect.

B. Amendments:

None.

By the Committee on Environmental Preservation and Conservation; and Senator Richter

592-02111-16 2016318c1

A bill to be entitled

An act relating to the regulation of oil and gas resources; amending s. 377.06, F.S.; preempting the regulation of all matters relating to the exploration, development, production, processing, storage, and transportation of oil and gas; declaring existing ordinances and regulations relating thereto void; providing an exception for certain zoning ordinances; amending s. 377.19, F.S.; applying the definitions of certain terms to additional sections of ch. 377, F.S.; revising the definition of the term "division"; conforming a cross-reference; defining the term "high-pressure well stimulation"; amending s. 377.22, F.S.; revising the rulemaking authority of the Department of Environmental Protection; amending s. 377.24, F.S.; requiring that a permit be obtained before the performance of a high-pressure well stimulation; specifying that a permit may authorize single or multiple activities; deleting provisions that prohibit the Division of Water Resource Management from granting permits to drill gas or oil wells within the limits of a municipality without approval of the governing authority of the municipality; prohibiting the department from approving permits for high-pressure well stimulation until certain rules are adopted and take effect; requiring legislative ratification of such rules; amending s. 377.241, F.S.; requiring the Division of Water Resource Management to give consideration to and be guided by certain additional criteria when issuing permits; amending s. 377.242, F.S.; authorizing the department to issue

592-02111-16 2016318c1

permits for the performance of a high-pressure well stimulation; revising permit requirements that permitholders agree not to prevent division inspections; amending s. 377.2425, F.S.; requiring an applicant or operator to provide surety that performance of a high-pressure well stimulation will be conducted in a safe and environmentally compatible manner; creating s. 377.2436, F.S.; requiring the department to conduct a study on high-pressure well stimulation; providing study criteria; requiring the study to be submitted to the Governor and Legislature and posted on the department website; prohibiting the department from adopting rules until the study has been submitted to the Legislature; requiring the department to adopt rules under certain conditions by a specified date; amending s. 377.37, F.S.; increasing the maximum amount of a civil penalty; creating s. 377.45, F.S.; requiring the department to designate the national chemical disclosure registry as the state's registry; requiring service providers, vendors, and well owners or operators to report certain information to the department; requiring the department to report certain information to the national chemical registry; providing applicability; requiring the department to adopt rules; amending ss. 377.07, 377.10, 377.243, and 377.244, F.S.; making technical changes; conforming provisions to changes made by the act; providing an appropriation; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 377.06, Florida Statutes, is amended to read:

377.06 Public policy of state concerning natural resources of oil and gas; preemption.—

(1) It is ~~hereby declared~~ the public policy of this state to conserve and control the natural resources of oil and gas in this state, and the products made from oil and gas in this state; to prevent waste of natural resources; to provide for the protection and adjustment of the correlative rights of the owners of the land in which the natural resources lie, of the owners and producers of oil and gas resources and the products made from oil and gas, and of others interested in these resources and products; and to safeguard the health, property, and public welfare of the residents of this state and other interested persons ~~and for all purposes indicated by the provisions in this section~~.

(2) ~~Further,~~ It is the public policy of this state ~~declared~~ that underground storage of natural gas is in the public interest because underground storage promotes conservation of natural gas~~,~~ ~~,~~ makes gas more readily available to the domestic, commercial, and industrial consumers of this state~~,~~ ~~,~~ and allows the accumulation of large quantities of gas in reserve for orderly withdrawal during emergencies or periods of peak demand. It is not the intention of this section to limit, restrict, or modify in any way the provisions of this law.

(3) The Legislature declares that all matters relating to

the regulation of the exploration, development, production, processing, storage, and transportation of oil and gas are preempted to the state, to the exclusion of all existing and future ordinances or regulations relating thereto adopted by any county, municipality, or other political subdivision of the state. Any such existing ordinance or regulation is void. A county or municipality may, however, enforce an existing zoning ordinance adopted before January 1, 2015, if the ordinance is otherwise valid.

Section 2. Section 377.19, Florida Statutes, is amended to read:

377.19 Definitions.—As used in ss. 377.06, 377.07, and 377.10-377.45 ~~377.10-377.40~~, the term:

(1) "Completion date" means the day, month, and year that a new productive well, a previously shut-in well, or a temporarily abandoned well is completed, repaired, or recompleted and the operator begins producing oil or gas in commercial quantities.

(2) "Department" means the Department of Environmental Protection.

(3) "Division" means the Division of Water Resource Management of the Department of Environmental Protection.

(4) "Field" means the general area that is underlaid, or appears to be underlaid, by at least one pool. The term includes the underground reservoir, or reservoirs, containing oil or gas, or both. The terms "field" and "pool" mean the same thing if only one underground reservoir is involved; however, the term "field," unlike the term "pool," may relate to two or more pools.

(5) "Gas" means all natural gas, including casinghead gas,

and all other hydrocarbons not defined as oil in subsection (16) ~~(15)~~.

(6) "High-pressure well stimulation" means all stages of a well intervention performed by injecting fluids into a rock formation at high pressure that exceeds the fracture gradient of the rock formation in order to propagate fractures in such formation to increase production at an oil or gas well by improving the flow of hydrocarbons from the formation into the wellbore. The term does not include well stimulation or conventional workover procedures that may incidentally fracture the formation near the wellbore.

(7) ~~(6)~~ "Horizontal well" means a well completed with the wellbore in a horizontal or nearly horizontal orientation within 10 degrees of horizontal within the producing formation.

(8) ~~(7)~~ "Illegal gas" means gas that has been produced within the state from any well or wells in excess of the amount allowed by any rule, regulation, or order of the division, as distinguished from gas produced within the State of Florida from a well not producing in excess of the amount so allowed, which is "legal gas."

(9) ~~(8)~~ "Illegal oil" means oil that has been produced within the state from any well or wells in excess of the amount allowed by rule, regulation, or order of the division, as distinguished from oil produced within the state from a well not producing in excess of the amount so allowed, which is "legal oil."

(10) ~~(9)~~ "Illegal product" means a product of oil or gas, any part of which was processed or derived, in whole or in part, from illegal gas or illegal oil or from any product thereof, as

distinguished from "legal product," which is a product processed or derived to no extent from illegal oil or illegal gas.

(11) ~~(10)~~ "Lateral storage reservoir boundary" means the projection up to the land surface of the maximum horizontal extent of the gas volume contained in a natural gas storage reservoir.

(12) ~~(11)~~ "Native gas" means gas that occurs naturally within this state and does not include gas produced outside the state, transported to this state, and injected into a permitted natural gas storage facility.

(13) ~~(12)~~ "Natural gas storage facility" means an underground reservoir from which oil or gas has previously been produced and which is used or to be used for the underground storage of natural gas, and any surface or subsurface structure, or infrastructure, except wells. The term also includes a right or appurtenance necessary or useful in the operation of the facility for the underground storage of natural gas, including any necessary or reasonable reservoir protective area as designated for the purpose of ensuring the safe operation of the storage of natural gas or protecting the natural gas storage facility from pollution, invasion, escape, or migration of gas, or any subsequent extension thereof. The term does not mean a transmission, distribution, or gathering pipeline or system that is not used primarily as integral piping for a natural gas storage facility.

(14) ~~(13)~~ "Natural gas storage reservoir" means a pool or field from which gas or oil has previously been produced and which is suitable for or capable of being made suitable for the injection, storage, and recovery of gas, as identified in a

permit application submitted to the department under s. 377.2407.

(15) ~~(14)~~ "New field well" means an oil or gas well completed after July 1, 1997, in a new field as designated by the Department of Environmental Protection.

(16) ~~(15)~~ "Oil" means crude petroleum oil and other hydrocarbons, regardless of gravity, which are produced at the well in liquid form by ordinary production methods, and which are not the result of condensation of gas after it leaves the reservoir.

(17) ~~(16)~~ "Oil and gas" has the same meaning as the term "oil or gas."

(18) ~~(17)~~ "Oil and gas administrator" means the State Geologist.

(19) ~~(18)~~ "Operator" means the entity who:

(a) Has the right to drill and to produce a well; or

(b) As part of a natural gas storage facility, injects, or is engaged in the work of preparing to inject, gas into a natural gas storage reservoir; or stores gas in, or removes gas from, a natural gas storage reservoir.

(20) ~~(19)~~ "Owner" means the person who has the right to drill into and to produce from any pool and to appropriate the production for the person or for the person and another, or others.

(21) ~~(20)~~ "Person" means a natural person, corporation, association, partnership, receiver, trustee, guardian, executor, administrator, fiduciary, or representative of any kind.

(22) ~~(21)~~ "Pool" means an underground reservoir containing or appearing to contain a common accumulation of oil or gas or

both. Each zone of a general structure which is completely separated from any other zone on the structure is considered a separate pool as used herein.

(23) ~~(22)~~ "Producer" means the owner or operator of a well or wells capable of producing oil or gas, or both.

(24) ~~(23)~~ "Product" means a commodity made from oil or gas and includes refined crude oil, crude tops, topped crude, processed crude petroleum, residue from crude petroleum, cracking stock, uncracked fuel oil, fuel oil, treated crude oil, residuum, gas oil, casinghead gasoline, natural gas gasoline, naphtha, distillate, condensate, gasoline, waste oil, kerosene, benzine, wash oil, blended gasoline, lubricating oil, blends or mixtures of oil with one or more liquid products or byproducts derived from oil or gas, and blends or mixtures of two or more liquid products or byproducts derived from oil or gas, whether hereinabove enumerated or not.

(25) ~~(24)~~ "Reasonable market demand" means the amount of oil reasonably needed for current consumption, together with a reasonable amount of oil for storage and working stocks.

(26) ~~(25)~~ "Reservoir protective area" means the area extending up to and including 2,000 feet surrounding a natural gas storage reservoir.

(27) ~~(26)~~ "Shut-in bottom hole pressure" means the pressure at the bottom of a well when all valves are closed and no oil or gas has been allowed to escape for at least 24 hours.

(28) ~~(27)~~ "Shut-in well" means an oil or gas well that has been taken out of service for economic reasons or mechanical repairs.

(29) ~~(28)~~ "State" means the State of Florida.

(30)~~(29)~~ "Temporarily abandoned well" means a permitted well or wellbore that has been abandoned by plugging in a manner that allows reentry and redevelopment in accordance with oil or gas rules of the Department of Environmental Protection.

(31)~~(30)~~ "Tender" means a permit or certificate of clearance for the transportation or the delivery of oil, gas, or products, approved and issued or registered under the authority of the division.

(32)~~(31)~~ "Waste," in addition to its ordinary meaning, means "physical waste" as that term is generally understood in the oil and gas industry. The term "waste" includes:

(a) The inefficient, excessive, or improper use or dissipation of reservoir energy; and the locating, spacing, drilling, equipping, operating, or producing of any oil or gas well or wells in a manner that results, or tends to result, in reducing the quantity of oil or gas ultimately to be stored or recovered from any pool in this state.

(b) The inefficient storing of oil; and the locating, spacing, drilling, equipping, operating, or producing of any oil or gas well or wells in a manner that causes, or tends to cause, unnecessary or excessive surface loss or destruction of oil or gas.

(c) The producing of oil or gas in a manner that causes unnecessary water channeling or coning.

(d) The operation of any oil well or wells with an inefficient gas-oil ratio.

(e) The drowning with water of any stratum or part thereof capable of producing oil or gas.

(f) The underground waste, however caused and whether or

not defined.

(g) The creation of unnecessary fire hazards.

(h) The escape into the open air, from a well producing both oil and gas, of gas in excess of the amount that is necessary in the efficient drilling or operation of the well.

(i) The use of gas for the manufacture of carbon black.

(j) Permitting gas produced from a gas well to escape into the air.

(k) The abuse of the correlative rights and opportunities of each owner of oil and gas in a common reservoir due to nonuniform, disproportionate, and unratable withdrawals, causing undue drainage between tracts of land.

(33)~~(32)~~ "Well site" means the general area around a well, which area has been disturbed from its natural or existing condition, as well as the drilling or production pad, mud and water circulation pits, and other operation areas necessary to drill for or produce oil or gas, or to inject gas into and recover gas from a natural gas storage facility.

Section 3. Subsection (2) of section 377.22, Florida Statutes, is amended to read:

377.22 Rules and orders.—

(2) The department shall issue orders and adopt rules pursuant to ss. 120.536 and 120.54 to implement and enforce ~~the provisions of~~ this chapter. Such rules and orders shall ensure that all precautions are taken to prevent the spillage of oil or any other pollutant in all phases of the drilling for, and extracting of, oil, gas, or other petroleum products, including high-pressure well stimulations, or during the injection of gas into and recovery of gas from a natural gas storage reservoir.

The department shall revise such rules from time to time as necessary for the proper administration and enforcement of this chapter. Rules adopted and orders issued in accordance with this section are for, but not limited to, the following purposes:

(a) To require the drilling, casing, and plugging of wells to be done in such a manner as to prevent the pollution of the fresh, salt, or brackish waters or the lands of the state and to protect the integrity of natural gas storage reservoirs.

(b) To prevent the alteration of the sheet flow of water in any area.

(c) To require that appropriate safety equipment be installed to minimize the possibility of an escape of oil or other petroleum products in the event of accident, human error, or a natural disaster during drilling, casing, or plugging of any well and during extraction operations.

(d) To require the drilling, casing, and plugging of wells to be done in such a manner as to prevent the escape of oil or other petroleum products from one stratum to another.

(e) To prevent the intrusion of water into an oil or gas stratum from a separate stratum, except as provided by rules of the division relating to the injection of water for proper reservoir conservation and brine disposal.

(f) To require a reasonable bond, or other form of security acceptable to the department, conditioned upon properly drilling, casing, producing, and operating each well and properly plugging ~~the performance of the duty to plug properly~~ each dry and abandoned well and upon the full and complete restoration by the applicant of the area over which geophysical exploration, drilling, or production is conducted to the similar

contour and general condition in existence before ~~prior to~~ such operation.

(g) To require and carry out a reasonable program of monitoring and inspecting ~~or inspection of~~ all drilling operations, high-pressure well stimulations, producing wells, ~~or~~ injecting wells, and well sites, including regular inspections by division personnel. Inspections are required during the testing of blowout preventers, during the pressure testing of the casing and casing shoe, and during the integrity testing of the cement plugs in plugging and abandonment operations.

(h) To require the making of reports showing the location of all oil and gas wells; the making and filing of logs; the taking and filing of directional surveys; the filing of electrical, sonic, radioactive, and mechanical logs of oil and gas wells; if taken, the saving of cutting and cores, the cuts of which shall be given to the Bureau of Geology; and the making of reports with respect to drilling and production records. However, such information, or any part thereof, at the request of the operator, shall be exempt from ~~the provisions of~~ s. 119.07(1) and held confidential by the division for ~~a period of~~ 1 year after the completion of a well.

(i) To prevent wells from being drilled, operated, or produced in such a manner as to cause injury to neighboring leases, property, or natural gas storage reservoirs.

(j) To prevent the drowning by water of any stratum, or part thereof, capable of producing oil or gas in paying quantities and to prevent the premature and irregular encroachment of water which reduces, or tends to reduce, the total ultimate recovery of oil or gas from any pool.

(k) To require the operation of wells with efficient gas-oil ratio, and to fix such ratios.

(l) To prevent "blowouts," "caving," and "seepage," in the sense that conditions indicated by such terms are generally understood in the oil and gas business.

(m) To prevent fires.

(n) To identify the ownership of all oil or gas wells, producing leases, refineries, tanks, plants, structures, and storage and transportation equipment and facilities.

(o) To regulate the "shooting," perforating, ~~and~~ chemical treatment, and high-pressure stimulations of wells.

(p) To regulate secondary recovery methods, including the introduction of gas, air, water, or other substance into producing formations.

(q) To regulate gas cycling operations.

(r) To regulate the storage and recovery of gas injected into natural gas storage facilities.

(s) If necessary for the prevention of waste, as herein defined, to determine, limit, and prorate the production of oil or gas, or both, from any pool or field in the state.

(t) To require, either generally or in or from particular areas, certificates of clearance or tenders in connection with the transportation or delivery of oil or gas, or any product.

(u) To regulate the spacing of wells and to establish drilling units.

(v) To prevent, so far as is practicable, reasonably avoidable drainage from each developed unit which is not equalized by counterdrainage.

(w) To require that geophysical operations requiring a

permit be conducted in a manner which will minimize the impact on hydrology and biota of the area, especially environmentally sensitive lands and coastal areas.

(x) To regulate aboveground crude oil storage tanks in a manner which will protect the water resources of the state.

(y) To act in a receivership capacity for fractional mineral interests for which the owners are unknown or unlocated and to administratively designate the operator as the lessee.

(z) To evaluate the history of prior adjudicated, uncontested, or settled violations committed by permit applicants or the applicants' affiliated entities of any substantive and material rule or law pertaining to the regulation of oil or gas.

Section 4. Subsections (1), (2), (4), and (5) of section 377.24, Florida Statutes, are amended, present subsections (6) through (9) of that section are redesignated as subsections (5) through (8), respectively, and a new subsection (9) and subsection (10) are added to that section, to read:

377.24 Notice of intention to drill well; permits; abandoned wells and dry holes.—

(1) Before drilling a well in search of oil or gas, before performing a high-pressure well stimulation, or before storing gas in or recovering gas from a natural gas storage reservoir, the person who desires to drill for, store, or recover gas, ~~or~~ drill for oil or gas, or perform a high-pressure well stimulation shall notify the division upon such form as it may prescribe and shall pay a reasonable fee set by rule of the department not to exceed the actual cost of processing and inspecting for each well or reservoir. The drilling of any well,

the performance of any high-pressure well stimulation, and the storing and recovering of gas are prohibited until such notice is given, the fee is paid, and a ~~the~~ permit is granted. A permit may authorize a single activity or multiple activities.

(2) An application for the drilling of a well in search of oil or gas, for the performance of a high-pressure well stimulation, or for the storing of gas in and recovering of gas from a natural gas storage reservoir~~,~~ in this state must include the address of the residence of the applicant~~,~~ or applicants, which must be the address of each person involved in accordance with the records of the Division of Water Resource Management until such address is changed on the records of the division after written request.

(4) Application for permission to drill or abandon any well or perform a high-pressure well stimulation may be denied by the division for only just and lawful cause.

~~(5) No permit to drill a gas or oil well shall be granted within the corporate limits of any municipality, unless the governing authority of the municipality shall have first duly approved the application for such permit by resolution.~~

(9) The department may not approve a permit to authorize a high-pressure well stimulation until the department adopts rules for high-pressure well stimulations which are based upon the findings of the study required pursuant to s. 377.2436 and such rules take effect.

(10) The rules for high-pressure well stimulation shall be submitted to the President of the Senate and Speaker of the House of Representatives and such rules may not take effect until they are ratified by the Legislature.

Section 5. Subsections (5) and (6) are added to section 377.241, Florida Statutes, to read:

377.241 Criteria for issuance of permits.—The division, in the exercise of its authority to issue permits as hereinafter provided, shall give consideration to and be guided by the following criteria:

(5) For high-pressure well stimulations, whether the high-pressure well stimulation as proposed is designed to ensure that:

(a) The groundwater near the well location, including groundwater through which the well will be or has been drilled, is not contaminated as a result of the high-pressure well stimulation; and

(b) The high-pressure well stimulation is consistent with the public policy of this state as specified in s. 377.06.

(6) As a basis for permit denial or imposition of specific permit conditions, including increased bonding up to five times the applicable limits and increased monitoring, the history of prior adjudicated, uncontested, or settled violations committed by the applicant or an affiliated entity of the applicant of any substantive and material rule or law pertaining to the regulation of oil or gas, including violations that occurred outside the state.

Section 6. Section 377.242, Florida Statutes, is amended to read:

377.242 Permits for drilling or exploring and extracting through well holes or by other means.—The department is vested with the power and authority:

(1)(a) To issue permits for the performance of a high-

pressure well stimulation or the drilling for, exploring for, or production of oil, gas, or other petroleum products that ~~which~~ are to be extracted from below the surface of the land, including submerged land, only through the well hole drilled for oil, gas, and other petroleum products.

1. A ~~No~~ structure intended for the drilling for, or production of, oil, gas, or other petroleum products may not be permitted or constructed on any submerged land within any bay or estuary.

2. A ~~No~~ structure intended for the drilling for, or production of, oil, gas, or other petroleum products may not be permitted or constructed within 1 mile seaward of the coastline of the state.

3. A ~~No~~ structure intended for the drilling for, or production of, oil, gas, or other petroleum products may not be permitted or constructed within 1 mile of the seaward boundary of any state, local, or federal park or aquatic or wildlife preserve or on the surface of a freshwater lake, river, or stream.

4. A ~~No~~ structure intended for the drilling for, or production of, oil, gas, or other petroleum products may not be permitted or constructed within 1 mile inland from the shoreline of the Gulf of Mexico, the Atlantic Ocean, or any bay or estuary or within 1 mile of any freshwater lake, river, or stream unless the department is satisfied that the natural resources of such bodies of water and shore areas of the state will be adequately protected in the event of accident or blowout.

5. Without exception, after July 1, 1989, a ~~no~~ structure intended for the drilling for, or production of, oil, gas, or

other petroleum products may not be permitted or constructed south of 26°00′00″ north latitude off Florida's west coast and south of 27°00′00″ north latitude off Florida's east coast, within the boundaries of Florida's territorial seas as defined in 43 U.S.C. s. 1301. After July 31, 1990, a ~~no~~ structure intended for the drilling for, or production of, oil, gas, or other petroleum products may not be permitted or constructed north of 26°00′00″ north latitude off Florida's west coast to the western boundary of the state bordering Alabama as set forth in s. 1, Art. II of the State Constitution, or located north of 27°00′00″ north latitude off Florida's east coast to the northern boundary of the state bordering Georgia as set forth in s. 1, Art. II of the State Constitution, within the boundaries of Florida's territorial seas as defined in 43 U.S.C. s. 1301.

(b) Subparagraphs (a)1. and 4. do not apply to permitting or construction of structures intended for the drilling for, or production of, oil, gas, or other petroleum products pursuant to an oil, gas, or mineral lease of such lands by the state under which lease any valid drilling permits are in effect on the effective date of this act. In the event that such permits contain conditions or stipulations, such conditions and stipulations shall govern and supersede subparagraphs (a)1. and 4.

(c) The prohibitions of subparagraphs (a)1.-4. ~~in this subsection~~ do not include "infield gathering lines," provided no other placement is reasonably available and all other required permits have been obtained.

(2) To issue permits to explore for and extract minerals which are subject to extraction from the land by means other

than through a well hole.

(3) To issue permits to establish natural gas storage facilities or construct wells for the injection and recovery of any natural gas for storage in natural gas storage reservoirs.

Each permit shall contain an agreement by the permitholder that the permitholder will not prevent inspection by division personnel at any time, including during installation and cementing of casing, during the testing of blowout preventers, during the pressure testing of the casing and casing shoe, and during the integrity testing of the cement plugs in plugging and abandonment operations. The provisions of this section prohibiting permits for drilling or exploring for oil in coastal waters do not apply to any leases entered into before June 7, 1991.

Section 7. Subsection (1) of section 377.2425, Florida Statutes, is amended to read:

377.2425 Manner of providing security for geophysical exploration, drilling, and production.—

(1) Before ~~Prior to~~ granting a permit for conducting ~~to conduct~~ geophysical operations; drilling of exploratory, injection, or production wells; producing oil and gas from a wellhead; performing a high-pressure well stimulation; or transporting oil and gas through a field-gathering system, the department shall require the applicant or operator to provide surety that these operations will be conducted in a safe and environmentally compatible manner.

(a) The applicant for a drilling, production, high-pressure well stimulation, or injection well permit or a geophysical

permit may provide the following types of surety to the department for this purpose:

1. A deposit of cash or other securities made payable to the Minerals Trust Fund. Such cash or securities so deposited shall be held at interest by the Chief Financial Officer to satisfy safety and environmental performance provisions of this chapter. The interest shall be credited to the Minerals Trust Fund. Such cash or other securities shall be released by the Chief Financial Officer upon request of the applicant and certification by the department that all safety and environmental performance provisions established by the department for permitted activities have been fulfilled.

2. A bond of a surety company authorized to do business in the state in an amount as provided by rule.

3. A surety in the form of an irrevocable letter of credit in an amount as provided by rule guaranteed by an acceptable financial institution.

(b) An applicant for a drilling, production, high-pressure well stimulation, or injection well permit, or a permittee who intends to continue participating in long-term production activities of such wells, has the option to provide surety to the department by paying an annual fee to the Minerals Trust Fund. For an applicant or permittee choosing this option the following shall apply:

1. For the first year, or part of a year, of a drilling, production, or injection well permit, or change of operator, the fee is $4,000 per permitted well.

2. For each subsequent year, or part of a year, the fee is $1,500 per permitted well.

3. The maximum fee that an applicant or permittee may be required to pay into the trust fund is $30,000 per calendar year, regardless of the number of permits applied for or in effect.

4. The fees set forth in subparagraphs 1., 2., and 3. shall be reviewed by the department on a biennial basis and adjusted for the cost of inflation. The department shall establish by rule a suitable index for implementing such fee revisions.

(c) An applicant for a drilling or operating permit for operations planned in coastal waters that by their nature warrant greater surety shall provide surety only in accordance with paragraph (a), or similar proof of financial responsibility other than as provided in paragraph (b). For all such applications, including applications pending at the effective date of this act and notwithstanding ~~the provisions of~~ paragraph (b), the Governor and Cabinet in their capacity as the Administration Commission, at the recommendation of the department ~~of Environmental Protection~~, shall set a reasonable amount of surety required under this subsection. The surety amount shall be based on the projected cleanup costs and natural resources damages resulting from a maximum oil spill and adverse hydrographic and atmospheric conditions that would tend to transport the oil into environmentally sensitive areas, as determined by the department ~~of Environmental Protection~~.

Section 8. Section 377.2436, Florida Statutes, is created to read:

377.2436 Study on high-pressure well stimulations.—

(1) The department shall conduct a study on high-pressure well stimulations. The study must:

(a) Evaluate the underlying geologic features present in the counties where oil wells have been permitted and analyze the potential impact that high-pressure well stimulation and wellbore construction may have on the underlying geologic features.

(b) Evaluate the potential hazards and risks that high-pressure well stimulation poses to surface water or groundwater resources. The study must assess the potential impacts of high-pressure well stimulation on drinking water resources and identify the main factors affecting the severity and frequency of impacts and must analyze the potential for the use or reuse of recycled water in well stimulation fluids while meeting appropriate water quality standards.

(c) Review and evaluate the potential for groundwater contamination from conducting high-pressure well stimulation under or near wells that have been previously plugged and abandoned and identify a setback radius from previously plugged and abandoned wells that could be impacted by high-pressure well stimulation.

(d) Review and evaluate the ultimate disposition of high-pressure well stimulation fluids after use in high-pressure well stimulation processes.

(2) The department shall continue conventional oil and gas business operations during the performance of the study. There may not be a moratorium on the evaluation and issuance of permits for conventional drilling, exploration, conventional completions, or conventional workovers during the performance of the study.

(3) The study is subject to independent scientific peer

review.

(4) The department shall submit the findings of the study to the Governor, the President of the Senate, and the Speaker of the House of Representatives by June 30, 2017, and shall prominently post the findings on its website.

(5) The department may not adopt rules for high-pressure well stimulation until the findings of the study have been submitted to the Legislature. However, by March 1, 2018, the department must adopt rules to implement the findings of the study, if such rules are warranted to protect public health, safety, and the environment.

Section 9. Paragraph (a) of subsection (1) of section 377.37, Florida Statutes, is amended to read:

377.37 Penalties.—

(1)(a) A ~~Any~~ person who violates any provision of this chapter ~~law~~ or any rule, regulation, or order of the division made under this chapter or who violates the terms of any permit to drill for or produce oil, gas, or other petroleum products referred to in s. 377.242(1) or to store gas in a natural gas storage facility, or any lessee, permitholder, or operator of equipment or facilities used in the exploration for, drilling for, or production of oil, gas, or other petroleum products, or storage of gas in a natural gas storage facility, who refuses inspection by the division as provided in this chapter, is liable to the state for any damage caused to the air, waters, or property, including animal, plant, or aquatic life, of the state and for reasonable costs and expenses of the state in tracing the source of the discharge, in controlling and abating the source and the pollutants, and in restoring the air, waters, and

property, including animal, plant, and aquatic life, of the state. Furthermore, such person, lessee, permitholder, or operator is subject to the judicial imposition of a civil penalty ~~in an amount~~ of not more than $25,000 ~~$10,000~~ for each offense. However, the court may receive evidence in mitigation. Each day during any portion of which such violation occurs constitutes a separate offense. This paragraph does not ~~Nothing herein shall~~ give the department the right to bring an action on behalf of a ~~any~~ private person.

Section 10. Section 377.45, Florida Statutes, is created to read:

377.45 High-pressure well stimulation chemical disclosure registry.—

(1)(a) The department shall designate the national chemical disclosure registry, known as FracFocus, developed by the Ground Water Protection Council and the Interstate Oil and Gas Compact Commission, as the state's registry for chemical disclosure for all wells on which high-pressure well stimulations are performed. The department shall provide a link to FracFocus through its website.

(b) In addition to providing the following information to the department as part of the permitting process, a service provider, vendor, or well owner or operator shall report, as established by department rule, to the department, at a minimum, the following information:

1. The name of the service provider, vendor, or owner or operator.

2. The date of completion of the high-pressure well stimulation.

3. The county in which the well is located.

4. The API Well Number.

5. The well name and number.

6. The longitude and latitude of the wellhead.

7. The total vertical depth of the well.

8. The total volume of water used in the high-pressure well stimulation.

9. Each chemical ingredient that is subject to 29 C.F.R. s. 1910.1200(g)(2) and the ingredient concentration in the high-pressure well stimulation fluid by mass for each well on which a high-pressure well stimulation is performed.

10. The trade or common name and the CAS Registry Number for each chemical ingredient.

(c) The department shall report to FracFocus all information received under paragraph (b), excluding any information subject to chapter 688.

(d) If FracFocus cannot accept and make publicly available any information specified in this section, the department shall post the information on its website, excluding any information subject to chapter 688.

(2) A service provider, vendor, or well owner or operator shall:

(a) Report the information required under subsection (1) to the department within 60 days after the initiation of the high-pressure well stimulation for each well on which such high-pressure well stimulation is performed.

(b) Notify the department if any chemical ingredient not previously reported is intentionally included and used for the purpose of performing a high-pressure well stimulation.

(3) This section does not apply to an ingredient that:

(a) Is not intentionally added to the high-pressure well stimulation; or

(b) Occurs incidentally or is otherwise unintentionally present in a high-pressure well stimulation.

(4) The department shall adopt rules to administer this section.

Section 11. Section 377.07, Florida Statutes, is amended to read:

377.07 Division of Water Resource Management; powers, duties, and authority.—The Division of Water Resource Management of the Department of Environmental Protection is ~~hereby~~ vested with power, authority, and duty to administer, carry out, and enforce ~~the provisions of~~ this part ~~law as directed in s. 370.02(3)~~.

Section 12. Section 377.10, Florida Statutes, is amended to read:

377.10 Certain persons not to be employed by division.—A ~~No~~ person in the employ of, or holding any official connection or position with any person, firm, partnership, corporation, or association of any kind, engaged in the business of buying or selling mineral leases, drilling wells in the search of oil or gas, producing, transporting, refining, or distributing oil or gas may not ~~shall~~ hold any position under, or be employed by, the Division of Water Resource Management in the prosecution of its duties under this part ~~law~~.

Section 13. Subsection (1) of section 377.243, Florida Statutes, is amended to read:

377.243 Conditions for granting permits for extraction

through well holes.—

(1) Before applying ~~Prior to the application~~ to the Division of Water Resource Management for the permit to drill for oil, gas, and related products referred to in s. 377.242(1), the applicant must own a valid deed, or other muniment of title, or lease granting the ~~said~~ applicant the privilege to explore for oil, gas, or related mineral products to be extracted only through the well hole on the land or lands included in the application. However, unallocated interests may be unitized according to s. 377.27.

Section 14. Subsection (1) of section 377.244, Florida Statutes, is amended to read:

377.244 Conditions for granting permits for surface exploratory and extraction operations.—

(1) Exploration for and extraction of minerals under ~~and by virtue of~~ the authority of a grant of oil, gas, or mineral rights, or which, subsequent to such grant, may ~~be interpreted to~~ include the right to explore for and extract minerals which are subject to extraction from the land by means other than through a well hole, that is by means of surface exploratory and extraction operations such as sifting of the sands, dragline, open pit mining, or other type of surface operation, which would include movement of sands, dirt, rock, or minerals, shall be exercised only pursuant to a permit issued by the Division of Water Resource Management upon the applicant's compliance ~~applicant complying~~ with the following conditions:

(a) The applicant must own a valid deed, or other muniment of title, or lease granting the applicant the right to explore for and extract oil, gas, and other minerals from the ~~said~~

lands.

(b) The applicant shall post a good and sufficient surety bond with the division in such amount as the division determines ~~may determine~~ is adequate to afford full and complete protection for the owner of the surface rights of the lands described in the application, conditioned upon the full and complete restoration, by the applicant, of the area over which the exploratory and extraction operations are conducted to the same condition and contour in existence before ~~prior to~~ such operations.

Section 15. For the 2016-2017 fiscal year, the sum of $1 million in nonrecurring funds is appropriated from the General Revenue Fund to the Department of Environmental Protection to conduct a high-pressure well stimulation study pursuant to s. 377.2436, Florida Statutes.

Section 16. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 356
INTRODUCER:	Senator Hutson
SUBJECT:	Mental or Physical Disabilities
DATE:	February 24, 2016
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Erickson	Cannon	CJ	**Favorable**
2.	Clodfelter	Sadberry	ACJ	**Recommend: Favorable**
3.	Clodfelter	Kynoch	AP	**Pre-meeting**

I. Summary:

SB 356 removes prejudice based on mental or physical disability as a factor for reclassifying a criminal offense or having a civil cause of action under section 775.085, Florida Statutes, Florida's hate crimes statute. Section 775.085, Florida Statutes, reclassifies the felony or misdemeanor degree of an offense if the commission of the offense evidences prejudice based on any of ten specified characteristics of the victim, including mental or physical disability. It also provides that a person or organization who is coerced, intimidated, or threatened in violation of the statute has a civil cause of action. The bill creates a new section of law, section 775.0851, Florida Statutes, which may be cited as "Carl's Law," to establish a separate hate crime statute specifically for crimes evidencing prejudice based on mental or physical disability. This new section's language is substantively identical to the language currently in section 775.085, Florida Statutes, with respect to evidencing prejudice based on mental or physical disability.

The Criminal Justice Impact Conference estimates that SB 356 will not have a prison bed impact.

The effective date of the bill is October 1, 2016.

II. Present Situation:

Section 775.085, F.S., Florida's hate crimes statute, reclassifies the felony or misdemeanor degree of an offense if the commission of the offense evidences prejudice based on race, color, ancestry, ethnicity, religion, sexual orientation, national origin, homeless status, *mental or physical disability*,[1] or advanced age of the victim.[2] It is an essential element of proof for the record to reflect that the defendant perceived, knew, or had reasonable grounds to know or

[1] "Mental or physical disability" means that the victim suffers from a condition of physical or mental incapacitation due to a developmental disability, organic brain damage, or mental illness, and has one or more physical or mental limitations that restrict the victim's ability to perform the normal activities of daily living. Section 775.085(1)(b)1., F.S.

[2] Section 775.08(1), F.S.

perceive that the victim was within one of the delineated classes.[3] This is commonly referred to as the "hate crime" statute. Offenses are reclassified as follows:

- A second degree misdemeanor[4] is reclassified to a first degree misdemeanor.[5]
- A first degree misdemeanor is reclassified to a third degree felony.[6]
- A third degree felony is reclassified to a second degree felony.[7]
- A second degree felony is reclassified to a first degree felony.[8]
- A first degree felony is reclassified to a life felony.[9]

Reclassification of the degree of an offense increases the minimum and maximum penalties that a judge may impose for an offense.

Section 775.085, F.S., also provides that a person or organization that establishes by clear and convincing evidence that it has been coerced, intimidated, or threatened in violation of this section has a civil cause of action for treble damages, an injunction, or any other appropriate relief in law or in equity. Upon prevailing in such civil action, the plaintiff may recover reasonable attorney's fees and costs.[10]

It is an essential element of proof in either a criminal or civil action under the statute for the record to reflect that the defendant perceived, knew, or had reasonable grounds to know or perceive that the victim was within one of the delineated classes.[11]

III. Effect of Proposed Changes:

The bill removes prejudice based on mental or physical disability as a factor for reclassifying an offense or having a civil cause of action under s. 775.085, F.S., Florida's hate crimes statute. The bill creates a new section of law, s. 775.0851, F.S., which may be cited as "Carl's Law," to establish a separate hate crime statute specifically for crimes evidencing prejudice based on mental or physical disability. This new section's language is substantively identical to the language currently in s. 775.085, F.S, with respect to evidencing prejudice based on mental or physical disability. This highlights the offense by placing it in a separate statutory section, but does not change the effect of the law.

---

[3] Section. 775.085(3), F.S.

[4] A second degree misdemeanor is punishable by up to 60 days in county jail and a fine of up to $500. Sections 775.082 and 775.083, F.S.

[5] A first degree misdemeanor is punishable by up to one year in county jail and a fine of up to $1,000. Sections 775.082 and 775.083, F.S.

[6] A third degree felony is punishable by up to five years in state prison and a fine of up to $5,000. Sections 775.082 and 775.083, F.S. However, if the third degree felony is not a forcible felony (excluding any third degree felony violation under ch. 810, F.S.) and if total sentence points are 22 points or fewer, the court must sentence the defendant to a nonstate prison sanction, unless the court makes written findings that a nonstate prison sanction could present a danger to the public. Section 775.082(10), F.S.

[7] A second degree felony is punishable by up to 15 years in state prison and a fine of up to $10,000. Sections 775.082 and 775.083, F.S.

[8] A first degree felony is generally punishable by up to 30 years in state prison and a fine of up to $10,000. Sections 775.082 and 775.083, F.S

[9] A life felony is generally punishable by life imprisonment or a term of years not exceeding life imprisonment and a fine of up to $15,000. Sections 775.082 and 775.083, F.S.

[10] Section 775.085(2), F.S.

[11] Section 775.085(3), F.S.

The effective date of the bill is October 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The Criminal Justice Impact Conference, which provides the official estimate of the prison bed impact, if any, of legislation, estimates that SB 356 will not have a prison bed impact. There will also be no fiscal impact in other areas of the criminal or civil justice systems.

VI. Technical Deficiencies:

None.

VII. Related Issues:

According to the Florida Attorney General's Office, in 2014 (the latest year for which data is reported), there were two reported hate crimes in Florida motivated by the victim's mental disability (2.7% of reported hate crimes). No hate crimes were reported under the physical disability category.[12]

[12] *Hate Crimes in Florida (January 1, 2014 – December 31, 2014)*, Florida Attorney General's Office, http://myfloridalegal.com/webfiles.nsf/WF/MNOS-A5QNXL/$file/2014HateCrimesinFloridaReport.pdf (last visited on February 11, 2016).

In August 2015, a thirty-six-year-old autistic St. Augustine resident named Carl Starke was followed home and murdered by several individuals who were reportedly looking for cars to steal.[13] During the investigation that resulted in the days following Carl Starke's murder, the St. Johns County Sheriff, David Shoar, stated that Starke was victimized because he was seen as a "soft target" by these individuals.[14]

VIII. Statutes Affected:

This bill substantially amends section 775.085 of the Florida Statutes.

This bill creates section 775.0851 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

By Senator Hutson

6-00364-16 2016356__

A bill to be entitled

An act relating to mental or physical disabilities; providing a short title; amending s. 775.085, F.S.; deleting enhanced penalties for crimes evidencing prejudice based on mental or physical disability; deleting the definition of the term "mental or physical disability"; creating s. 775.0851, F.S.; defining the term "mental or physical disability"; creating enhanced penalties for crimes evidencing prejudice based on mental or physical disability; creating a cause of action for a person or organization that is threatened with certain violations; providing an essential element for such cause of action; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. This act may be cited as "Carl's Law."

Section 2. Subsection (1) of section 775.085, Florida Statutes, is amended to read:

775.085 Evidencing prejudice while committing offense; reclassification.—

(1)(a) The penalty for any felony or misdemeanor shall be reclassified as provided in this subsection if the commission of such felony or misdemeanor evidences prejudice based on the race, color, ancestry, ethnicity, religion, sexual orientation, national origin, homeless status, ~~mental or physical disability,~~ or advanced age of the victim:

1. A misdemeanor of the second degree is reclassified to a misdemeanor of the first degree.

6-00364-16 2016356__

2. A misdemeanor of the first degree is reclassified to a felony of the third degree.

3. A felony of the third degree is reclassified to a felony of the second degree.

4. A felony of the second degree is reclassified to a felony of the first degree.

5. A felony of the first degree is reclassified to a life felony.

(b) As used in paragraph (a), the term:

~~1. "Mental or physical disability" means that the victim suffers from a condition of physical or mental incapacitation due to a developmental disability, organic brain damage, or mental illness, and has one or more physical or mental limitations that restrict the victim's ability to perform the normal activities of daily living.~~

1.~~2.~~ "Advanced age" means that the victim is older than 65 years of age.

2.~~3.~~ "Homeless status" means that the victim:

a. Lacks a fixed, regular, and adequate nighttime residence; or

b. Has a primary nighttime residence that is:

(I) A supervised publicly or privately operated shelter designed to provide temporary living accommodations; or

(II) A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

Section 3. Section 775.0851, Florida Statutes, is created to read:

775.0851 Evidencing prejudice while committing offense against persons with mental or physical disabilities; reclassification.—

(1) As used in this section, the term "mental or physical disability" means that the victim suffers from a condition of physical or mental incapacitation due to a developmental disability, organic brain damage, or mental illness and has one or more physical or mental limitations that restrict the victim's ability to perform the normal activities of daily living.

(2) The penalty for any felony or misdemeanor shall be reclassified as provided in this subsection if the commission of the felony or misdemeanor evidences prejudice based on the mental or physical disability of the victim:

(a) A misdemeanor of the second degree is reclassified to a misdemeanor of the first degree.

(b) A misdemeanor of the first degree is reclassified to a felony of the third degree.

(c) A felony of the third degree is reclassified to a felony of the second degree.

(d) A felony of the second degree is reclassified to a felony of the first degree.

(e) A felony of the first degree is reclassified to a life felony.

(3) A person or organization that establishes by clear and convincing evidence that it has been coerced, intimidated, or threatened in violation of this section has a civil cause of action for treble damages, an injunction, or any other appropriate relief in law or in equity. Upon prevailing in such

civil action, the plaintiff may recover reasonable attorney fees and costs.

(4) It is an essential element of this section that the record reflect that the defendant perceived, knew, or had reasonable grounds to know or perceive that the victim had a mental or physical disability.

Section 4. This act shall take effect October 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 400
INTRODUCER:	Environmental Preservation and Conservation Committee and Senator Hays
SUBJECT:	Organizational Structure of the Department of Environmental Protection
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Istler	Rogers	EP	**Fav/CS**
2.	Howard	DeLoach	AGG	**Recommend: Favorable**
3.	Howard	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Technical Changes

I. Summary:

CS/SB 400 revises the organizational structure of the Department of Environmental Protection (department) and authorizes the secretary of the department to establish divisions and offices to accomplish the agency's mission and goals. These divisions include, but are not limited to, water resources management, regulatory programs, and lands and recreation. The bill provides greater flexibility in the coordination of existing programs in order to increase responsiveness to public needs.

There is no fiscal impact on the department.

The bill provides an effective date of July 1, 2016.

II. Present Situation:

Chapter 20, F.S., sets forth the requirements for the organizational structure of the executive branch to maximize the efficiency and effectiveness of agencies. Specifically, s. 20.02, F.S., requires departments to be organized along functional or program lines and stipulates the structural reorganization of departments to be a continuing process through careful executive and legislative appraisal of the placement of proposed new programs and coordination of existing programs in response to public needs.

Section 20.04(3), F.S., requires each department[1] to adhere to the following organizational structure:

- The principal unit of the department is the "division." Each division is headed by a "director."
- The principal unit of the division is the "bureau." Each bureau is headed by a "chief."
- The principal unit of the bureau is the "section." Each section is headed by an "administrator."
- If further subdivision is necessary, sections may be divided into "subsections," which are headed by "supervisors."

The head of a department is prohibited from reallocating duties and functions specifically assigned by law to a specific unit of the department, unless specifically authorized by law. However, the head of the department is authorized to allocate or reallocate those duties or functions that are assigned generally.[2]

Additional divisions, bureaus, sections, and subsections of a department may be recommended by the head of the department to promote efficient and effective operation. New bureaus, sections, and subsections of a department may be initiated by a department and established as recommended by the Department of Management Services and approved by the Executive Office of the Governor, or may be established by specific statutory enactment.[3]

Some departments, such as the Department of State and the Department of Management Services, have organizational structures that statutorily establish each division or program within the department.[4] Whereas, other departments like the Department of Transportation and the Department of Corrections have organizational structures that statutorily authorize the secretaries of such departments to appoint positions at the level of deputy assistant secretary, director, or other positions as the secretary deems necessary to accomplish the mission and goals of the department.[5]

Section 20.255, F.S., provides the organizational structure for the Department of Environmental Protection and statutorily establishes each division and special office within the department. Additionally, s. 20.255, F.S., requires there to be six administrative districts involved in regulatory matters of waste management, water resource management, wetlands, and air resources.

III. Effect of Proposed Changes:

This bill revises the requirements for the organizational structure of the Department of Environmental Protection (department) to promote efficiency and effectiveness and to provide greater flexibility in the coordination of existing programs in response to public needs.

[1] Section 20.04(3), F.S. provides an exception for the Department of Financial Services, the Department of Children and Families, the Department of Corrections, the Department of Management Services, the Department of Revenue, and the Department of Transportation.
[2] Section 20.04(7)(a), F.S.
[3] Section 20.04(7)(b), F.S.
[4] See s. 20.10, F.S., creating the Department of State and s. 20.22, F.S., creating the Department of Management Services.
[5] See s. 20.23, F.S., creating the Department of Transportation and s. 20.315, F.S., creating the Department of Corrections.

The bill requires the secretary of the department to appoint a general counsel who is directly responsible to and serves at the pleasure of the secretary. The bill provides that the general counsel is responsible for all legal matters of the department.

Rather than statutorily establishing each division, the bill authorizes the secretary to establish divisions as he or she deems necessary to accomplish the mission and goals of the department, which include, but are not limited to, the following program areas:

- Water Resources Management;
- Regulatory Programs; and
- Lands and Recreation.

As required under s. 20.04, F.S., the bill specifies that divisions shall be headed by directors. Each director is to be appointed by and shall serve at the pleasure of the secretary. The bill does not revise the statutorily established Division of State Lands within the department.

The bill authorizes offices to be established as deemed necessary to promote the effective and efficient operation of the department. Under the bill, the secretary is authorized to combine, separate, or delete offices as necessary in consultation with the Executive Office of the Governor.

The bill removes the authorization for a division to have one assistant or two deputy division directors and the requirement that there be six administrative districts limited to the areas of waste management, water resource management, wetlands, and air resources.

The bill takes effect July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

There are numerous references in statute to specific divisions and offices within the department. If the department revises the names of divisions or offices or transfers authority between divisions or offices, then the statutory references to such division or office will need to be amended.

VIII. Statutes Affected:

This bill substantially amends section 20.255 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Environmental Preservation and Conservation on November 18, 2015:
The CS requires the Secretary of the Department of Environmental Protection to appoint a general counsel and provides that the general counsel is responsible for all legal matters of the department.

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Appropriations (Hays) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Subsections (2) and (3) of section 20.255, Florida Statutes, are amended to read:

20.255 Department of Environmental Protection.—There is created a Department of Environmental Protection.

(2)(a) There shall be three deputy secretaries who are to be appointed by and shall serve at the pleasure of the

secretary. The secretary may assign any deputy secretary the responsibility to supervise, coordinate, and formulate policy for any division, office, or district. ~~The following special offices are established and headed by managers, each of whom is to be appointed by and serve at the pleasure of the secretary:~~

~~1. Office of Chief of Staff;~~

~~2. Office of General Counsel;~~

~~3. Office of Inspector General;~~

~~4. Office of External Affairs;~~

~~5. Office of Legislative Affairs;~~

~~6. Office of Intergovernmental Programs; and~~

~~7. Office of Greenways and Trails.~~

~~8. Office of Emergency Response.~~

(b) The Office of the Secretary is established. The secretary may establish offices within divisions or within the Office of the Secretary to promote the efficient and effective operation of the department.

(c) The secretary shall appoint a general counsel who is directly responsible to and serves at the pleasure of the secretary. The general counsel is responsible for all legal matters of the department.

(d) ~~(b)~~ There shall be six administrative districts involved in regulatory matters of waste management, water resource management, wetlands, and air resources, which shall be headed by managers, each of whom is to be appointed by and serve at the pleasure of the secretary. Divisions of the department may have one assistant or two deputy division directors, as required to facilitate effective operation.

517418

The directors ~~managers~~ of all divisions, managers of all ~~and~~ offices, ~~specifically named in this section~~ and the managers ~~directors~~ of the six administrative districts are exempt from part II of chapter 110 and are included in the Senior Management Service in accordance with s. 110.205(2)(j).

(3) The following divisions of the Department of Environmental Protection are established:

(a) Division of Administrative Services.

(b) Division of Air Resource Management.

(c) Division of Water Resource Management.

(d) Division of Environmental Assessment and Restoration.

(e) Division of Waste Management.

(f) Division of Recreation and Parks.

(g) Division of State Lands, the director of which is to be appointed by the secretary of the department, subject to confirmation by the Governor and Cabinet sitting as the Board of Trustees of the Internal Improvement Trust Fund.

(h) Division of Water Restoration Assistance.

In order to ensure statewide and intradepartmental consistency, the department's divisions shall direct the district offices and bureaus on matters of interpretation and applicability of the department's rules and programs.

Section 2. This act shall take effect July 1, 2016.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete everything before the enacting clause and insert:

517418

A bill to be entitled

An act relating to the organizational structure of the Department of Environmental Protection; amending s. 20.255, F.S.; deleting a provision requiring certain offices within the department; establishing the Office of the Secretary; authorizing the secretary to establish offices within divisions or the Office of the Secretary as necessary to promote the efficient and effective operation of the department; requiring the appointment of a general counsel; providing an exemption for certain managers and directors from part II of ch. 110, F.S.; establishing the Division of Water Restoration Assistance within the department; providing an effective date.

By the Committee on Environmental Preservation and Conservation; and Senator Hays

592-01416A-16 2016400c1

A bill to be entitled

An act relating to the organizational structure of the Department of Environmental Protection; amending s. 20.255, F.S.; requiring the secretary of the Department of Environmental Protection to appoint a general counsel; authorizing the secretary to establish divisions as necessary to accomplish the mission and goals of the department; authorizing offices to be established as necessary to promote the efficient and effective operation of the department; deleting the required establishment of certain offices and divisions; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (2) and (3) of section 20.255, Florida Statutes, are amended to read:

20.255 Department of Environmental Protection.—There is created a Department of Environmental Protection.

(2)(a) The secretary shall appoint ~~There shall be~~ three deputy secretaries who ~~are to be appointed by and shall~~ serve at the pleasure of the secretary. The secretary may assign any deputy secretary the responsibility to supervise, coordinate, and formulate policy for any division, office, or district.

(b) The secretary shall appoint a general counsel who is directly responsible to and serves at the pleasure of the secretary. The general counsel is responsible for all legal matters of the department.

(c) The secretary may establish divisions as he or she

592-01416A-16 2016400c1

deems necessary to accomplish the mission and goals of the department, including, but not limited to, the following areas of program responsibility: water resources management, regulatory programs, and lands and recreation. The divisions shall be headed by directors, each of whom is to be appointed by and serve at the pleasure of the secretary. The Division of State Lands is established within the department, the director of which is to be appointed by the secretary, subject to confirmation by the Governor and Cabinet sitting as the Board of Trustees of the Internal Improvement Trust Fund.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 432
INTRODUCER:	Education Pre-K - 12 Committee and Senator Hutson
SUBJECT:	Teacher Certification
DATE:	February 22, 2016
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Bailey	Klebacha	ED	**Fav/CS**
2.	Sikes	Elwell	AED	**Recommend: Favorable**
3.	Sikes	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 432 creates an expedited pathway for an individual holding a Florida temporary educator certificate to earn a Florida professional educator certificate for grades 6-12.

Specifically, the bill requires the applicant to:

- Meet all general certification requirements, with the exception of certain professional preparation coursework requirements;
- Hold a master's or higher degree in the area of science, technology, engineering, or mathematics;
- Teach a high school course in the subject of the advanced degree;
- Be rated as highly effective as determined by the teacher's performance evaluation system, based in part on student performance as measured by a statewide standardized assessment or an Advanced International Certificate of Education, or International Baccalaureate examination; and
- Achieve a passing score on the Florida professional competency examination required by the state board rules.

The bill has no impact on state funds.

The bill takes effect on July 1, 2016.

II. Present Situation:

Instructional Personnel Certification

In order for a person to serve as an educator in a traditional public school, charter school, virtual school, or other publicly operated school, the person must hold a certificate issued by the Florida Department of Education.[1]

Certification requirements are established to assure that educational personnel in public schools possess appropriate skills in reading, writing, and mathematics, and adequate pedagogical knowledge, including the use of technology to enhance student learning, and relevant subject matter competence to demonstrate an acceptable level of professional performance.[2]

Types of Educator Certificates

The Department of Education (DOE) identifies appropriate educator certification for the instruction of specified courses in an annual publication of a directory of course code numbers[3] for all programs and courses funded through the Florida Education Finance Program.[4]

The DOE issues three types of educator certificates:[5]

- A professional certificate is the highest type of full-time certificate issued. The professional certificate is a 5-year renewable certificate.[6]
- A temporary certificate is a 3-year nonrenewable certificate issued to an applicant who does not qualify for a professional certificate.[7]
- An Athletic Coaching certificate covers a full-time or part-time individual who is employed as an athletic coach in any public school in any district of the state.[8]

Eligibility Criteria for Educator Certification

To be eligible to seek a Florida educator's certificate, an individual must submit an application and meet specified requirements:[9]

- Be at least 18 years of age;
- File an affidavit to uphold the principles incorporated in the Constitution of the United States and the Constitution of the State of Florida;
- Document receipt of a bachelor's or higher degree from an accredited institution of higher learning, or a nonaccredited institution of higher learning that the DOE has identified as having a quality program resulting in a bachelor's degree, or higher;
- Submit to a background screening;

- Be of good moral character;
- Be competent and capable of performing the duties, functions, and responsibilities of an educator; and
- Demonstrate mastery of general knowledge, subject area knowledge, and professional preparation and education competence.

General Knowledge

Mastery of general knowledge may be demonstrated through several methods, including achieving a passing score on the General Knowledge Test[10] or achieving passing scores established in state board rule on national or international examinations that test comparable content and relevant standards in verbal, analytical writing, and quantitative reasoning skills portions of the Graduate Record Examination.[11]

An educator who is employed under a temporary certificate must demonstrate mastery of general knowledge within one calendar year after employment in order to remain employed in a position that requires a certificate.[12]

If the educator is employed under contract, the calendar year deadline for demonstrating mastery of general knowledge may be extended through the end of the school year.[13]

Subject Area Knowledge

Mastery of subject area knowledge may be demonstrated by earning a baccalaureate or graduate degree and passing the Florida-developed subject area examination specified in state board rule[14] or, if a Florida subject area examination has not been developed, achieving a passing score on a standardized examination specified in state board rule.[15]

An applicant may also demonstrate mastery of subject area knowledge by providing documentation of a valid professional standard teaching certificate issued for a subject area by another U.S. state or territory, by National Board for Professional Teaching Standards, or by American Board for Certification of Teacher Excellence, if the certificate is comparable to the Florida certificate issued for the same subject area.[16]

Professional Preparation and Education Competence

Mastery of professional preparation and education competence is typically demonstrated by successfully completing an approved teacher preparation program at a postsecondary educational institution in Florida, or a teacher preparation program from an out-of-state accredited or

[15] Section 1012.56(5), F.S.
[16] Section 1012.56(5)(e) and (f), F.S.; Rule 6A-4.002(1)(i)-(j), F.A.C.

department-approved institution, and achieving a passing score on the Professional Education Test required by state board rule.[17]

For individuals who have earned a baccalaureate or higher degree in a subject other than education, competence is demonstrated in part by completing 15 semester hours in professional preparation courses specified in state board rule[18] and achieving a passing score on the Professional Education Test.[19]

Exception to Educator Certification

Currently, local school district boards can issue an adjunct teaching certificate to any applicant who meets specific requirements[20] and has expertise in the assigned subject area.[21] The adjunct teaching certificate is only valid through the term of the annual contract between the educator and school district.[22]

State Board of Education rules authorize district school boards to employ selected noncertificated personnel to provide instructional services in the individuals' fields of specialty or to assist instructional staff members as education paraprofessionals.[23]

STEM Education

STEM education is the intentional integration of science, technology, engineering, and mathematics, and their associated practices to create a student-centered learning environment in which students investigate and engineer solutions to problems, and construct evidence-based explanations of real-world phenomena with a focus on a student's social, emotional, physical, and academic needs through shared contributions of schools, families, and community partners.[24]

III. Effect of Proposed Changes:

This bill creates an expedited pathway for an individual holding a Florida temporary educator certificate to earn a Florida professional educator certificate for grades 6-12.

Specifically, the bill requires the applicant to:

- Meet all general certification requirements, with the exception of certain professional preparation coursework requirements;

---

[17] Section 1012.56(6)(a) and (b), F.S.; *see* s. 1004.04, F.S.; Rule 6A-4.003(1) and (4), F.A.C. The Professional Education Test is part of the Florida Teacher Certification Examinations. Rule 6A-4.0021(8), F.A.C.
[18] Section 1012.56(6)(f), F.S.; Rule 6A-4.006, F.A.C. The required 15 semester hours of course work in professional education areas include: classroom management, child and adolescent development and learning, educational assessment practices, effective instructional techniques, strategies, and materials to meet the needs of diverse learners, applications of research-based practices in reading, and strategies for teaching students of limited English proficiency.
[19] Section 1012.56(6)(f), F.S.
[20] Section 1012.56(2)(a)-(f) and (10), F.S.
[21] Section 1012.57(1), F.S.
[22] Section 1012.57(4), F.S.
[23] Section 1012.55(1)(c), F.S.; Rule 6A-1.0502, F.A.C
[24] Department of Education, *STEM Programs*, http://www.fldoe.org/academics/standards/subject-areas/math-science/stem/defining-stem.stml (last visited January 15, 2016).

- Hold a master's or higher degree in the area of science, technology, engineering, or mathematics (STEM);
- Teach a high school course in the subject of the advanced degree;
- Be rated as highly effective as determined by the teacher's performance evaluation system, based in part on student performance as measured by a statewide standardized assessment or an Advanced International Certificate of Education, or International Baccalaureate examination; and
- Achieve a passing score on the Florida professional competency examination required by the state board rules.

In effect, the bill creates an efficient approach for an individual with expertise in a STEM field to earn a professional educator certificate by eliminating the additional coursework requirements that would typically be completed while teaching under a Florida state-issued temporary certificate.

The bill permits an individual to bypass the 15 semester hours of professional preparation requirements, therefore, omitting coursework in topics such as classroom management with a focus on safe learning environments, educational assessment practices, and instructional strategies for teaching students of limited English proficiency. The bill presumes the educator, through attainment of a highly effective rating and a passing score on the Florida professional competency examination, has attained the knowledge and skills covered in the content areas of the professional preparation coursework.

The bill takes effect on July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Teachers who meet the qualifications specified in CS/SB 432 will save money as a result of not being required to enroll in the professional preparation courses. Currently, the average cost of tuition and fees at an Educator Preparation Institute (EPI), which provides professional preparation instruction for college graduates who were not education majors, is $106.74 per credit hour.[25]

C. Government Sector Impact:

The bill has no impact on state funds.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends section 1012.56 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Education Pre-K – 12 on January 20, 2016:
The committee substitute modifies the bill as follows:

- Requires a bill title change from STEM Teachers Pilot Program to Teacher Certification which provides alternative requirements for an applicant to earn a professional educator certificate;
- Removes the STEM Teachers Pilot Program and reporting requirements; and
- Creates an expedited pathway for temporary certified teachers who meet certain requirements in the area of science, technology, engineering, or mathematics to receive a professional certificate for grades 6-12.

B. Amendments:

None.

[25] Florida Department of Education, Division of Florida Colleges, *Student Fees for Fall 2015-201, Credit Programs: A&P, PSV, Developmental Education, and EPI Programs*

By the Committee on Education Pre-K - 12; and Senator Hutson

581-02368-16 2016432c1

A bill to be entitled

An act relating to teacher certification; amending s. 1012.56, F.S.; providing alternative requirements for earning a professional educator certificate that covers certain grades; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (a) of subsection (7) of section 1012.56, Florida Statutes, is amended to read:

1012.56 Educator certification requirements.—

(7) TYPES AND TERMS OF CERTIFICATION.—

(a) The Department of Education shall issue a professional certificate for a period not to exceed 5 years to any applicant who meets all the requirements outlined in subsection (2) or, for a professional certificate covering grades 6 through 12, any applicant who:

1. Meets the requirements of paragraphs (2)(a)-(h).

2. Holds a master's or higher degree in the area of science, technology, engineering, or mathematics.

3. Teaches a high school course in the subject of the advanced degree.

4. Is rated highly effective as determined by the teacher's performance evaluation under s. 1012.34, based in part on student performance as measured by a statewide, standardized assessment or an Advanced Placement, Advanced International Certificate of Education, or International Baccalaureate examination.

5. Achieves a passing score on the Florida professional education competency examination required by state board rule.

Each temporary certificate is valid for 3 school fiscal years

581-02368-16 2016432c1

and is nonrenewable. However, the requirement in paragraph (2)(g) must be met within 1 calendar year of the date of employment under the temporary certificate. Individuals who are employed under contract at the end of the 1 calendar year time period may continue to be employed through the end of the school year in which they have been contracted. A school district shall not employ, or continue the employment of, an individual in a position for which a temporary certificate is required beyond this time period if the individual has not met the requirement of paragraph (2)(g). The State Board of Education shall adopt rules to allow the department to extend the validity period of a temporary certificate for 2 years when the requirements for the professional certificate, not including the requirement in paragraph (2)(g), were not completed due to the serious illness or injury of the applicant or other extraordinary extenuating circumstances. The department shall reissue the temporary certificate for 2 additional years upon approval by the Commissioner of Education. A written request for reissuance of the certificate shall be submitted by the district school superintendent, the governing authority of a university lab school, the governing authority of a state-supported school, or the governing authority of a private school.

Section 2. This act shall take effect July 1, 2016.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 434 (899122)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Education); Education Pre-K - 12 Committee; and Senators Garcia and Gaetz
SUBJECT:	Principal Autonomy Pilot Program Initiative
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Bailey	Klebacha	ED	**Fav/CS**
2.	Sikes	Elwell	AED	**Recommend: Fav/CS**
3.	Sikes	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 434 establishes the Principal Autonomy Pilot Program Initiative (PAPPI) within the Department of Education (DOE) to provide a highly effective principal of a participating school with increased autonomy and authority to operate his or her school in a way that produces significant improvements in student achievement and school management. Schools selected for participation in PAPPI are exempt from the K-20 Education Code and State Board of Education (SBE) rules, with exceptions. The bill requires specified personnel from each participating school and district to enroll in and complete a nationally recognized school turnaround program upon acceptance into the pilot program.

Funding for the pilot program is contingent upon an appropriation in the General Appropriations Act. The Legislature may provide an appropriation to the DOE for the costs of the pilot program, including administrative costs, enrollment costs for the school turnaround program, and an additional scholarship for each participating principal for use at his or her school.

The bill takes effective on July 1, 2016.

II. Present Situation:

Principal Authority and Responsibilities

A public school principal is responsible for: [1]

- Fully supporting the authority of classroom teachers and school bus drivers regarding student discipline and conduct.
- Providing instructional leadership in the development, revision, and implementation of a school improvement plan.
- Accurate and timely compliance with statutory reporting requirements.
- The management and care of instructional materials.
- Facilitating parental involvement in their child's education and providing information to parents regarding their child's educational progress and available educational choices pursuant to s. 1002.23, F.S.[2]

When filling instructional positions[3] at the school level, the district school superintendent must consider nominations received from school principals of the respective schools in the school district.[4] The superintendent then must make recommendations to the district school board regarding each position to be filled and the persons to fill such positions.[5] Before transferring a classroom teacher from one school to another, the superintendent must consult with the principal of the receiving school and allow the principal to review the teacher's records, including student performance results,[6] and interview the teacher.[7] If a principal believes students would not benefit from the placement, he or she may request an alternative placement subject to the approval by the superintendent.[8] However, the superintendent must accept the principal's decision to refuse placement or transfer of instructional personnel if the instructional personnel has a performance evaluation rating of needs improvement or unsatisfactory.[9]

Florida Principal Leadership Standards

The Florida Principal Leadership Standards (FPLS) are Florida's core expectations for effective school administrators, including school principals.[10] The FPLS are research-based; represent necessary knowledge, skills, and abilities for effective school leadership; and are the basis for school administrator performance evaluations, professional development systems, preparation programs, and certification requirements.[11] The FPLS emphasize the ability to improve student

[1] Section 1001.54, F.S.
[2] Section 1002.23, F.S., is referred to as the Family and School Partnership for Student Achievement Act.
[3] Instructional personnel include classroom teachers; staff who provide student personnel services, e.g., certified school counselors, social workers, career specialists, and school psychologists; librarians and media specialists; other instructional staff, e.g., learning resource specialists; and education paraprofessionals under the direct supervision of instructional personnel. [11] *Id*.

learning results; development and retention of quality classroom teachers; and school management practices that promote student learning, effective allocation of resources, and efficient operations.[12]

Performance Evaluation

Florida law requires each district school superintendent to establish procedures to evaluate the job performance of district instructional, administrative, and supervisory personnel.[13] School district performance evaluation systems must differentiate among four levels of performance: [14]

- Highly effective;
- Effective;
- Needs improvement, or for instructional personnel in their first three years of employment who need improvement, developing; and
- Unsatisfactory.

The criteria used to measure school administrator performance are student performance, instructional leadership, and professional and job responsibilities.[15] At least one-third of a school administrator's evaluation must be based upon student performance, with certain exceptions.[16] Evaluation of instructional leadership must include performance measures related to the effectiveness of classroom teachers in the school, the administrator's appropriate use of evaluation criteria and procedures, recruitment and retention of effective and highly effective classroom teachers, improvement in the percentage of instructional personnel evaluated at the highly effective or effective level, and other leadership practices that result in student learning growth.[17]

Professional Development

Professional development for school administrators is provided through school district professional development systems including the William Cecil Golden Professional Development Program for School Leaders.[18] This program is established in collaboration with state and national professional leadership organizations and it is designed to respond to Florida's needs for quality school leadership and support the efforts of school leaders in improving instruction and student achievement and developing and retaining quality teachers.[19] Professional development provided through the program must be based upon the FPLS and other school leadership standards.[20]

[20] Section 1012.986(1)-(2), F.S.

III. Effect of Proposed Changes:

This bill establishes the Principal Autonomy Pilot Program Initiative (PAPPI) within the Department of Education (DOE) to provide a highly effective principal of a participating school with increased autonomy and authority to operate his or her school in a way that produces significant improvements in student achievement and school management.

Schools selected for participation in PAPPI are exempt from the K-20 Education Code and State Board of Education (SBE) rules, with exceptions.

Participating School Districts

The bill authorizes the SBE to enter into a performance contract with up to three district school boards for participation in PAPPI. The term of the program is three years, at which time the performance of all participating schools in the school district must be evaluated. The SBE may revoke a district's participation in the program during the term of the program and may renew participation upon expiration of the initial term. The bill specifies deadlines for submission and approval of principal autonomy proposals and requires the SBE to adopt rules for administering PAPPI, including criteria for approving proposals.

Principal Autonomy Proposal

The bill requires the school districts seeking to participate in PAPPI to submit a principal autonomy proposal to the SBE for approval. The proposal must:

- Identify three middle or high schools that received at least two school grades of "D" or "F" during the previous three school years;
- Identify three principals who have earned a highly effective rating on the prior year's performance evaluations, one of whom shall be assigned to each of the participating schools;
- Describe the current financial and administrative management of each participating school;
- Identify the areas in which each school principal will have increased fiscal and administrative autonomy, including greater autonomy regarding the hiring of instructional personnel;
- Identify the areas in which each participating school will continue to follow district school board fiscal and administrative policies;
- Explain the methods used to identify the educational strengths and needs of the participating school's students and how student achievement can be improved;
- Establish performance goals for student achievement;
- Explain how increased principal autonomy will help participating schools improve student achievement and school management; and
- Provide each participating school's mission and a description of its student population.

Principal Authority and Responsibilities

The bill revises existing law governing the personnel duties for school principals participating in PAPPI and school budgeting and calculation of expenditures to facilitate implementation of PAPPI. The bill authorizes the principal of a participating school to:

- Select qualified instructional personnel for placement at the school or refuse placement or transfer of instructional personnel by the district school superintendent;
- Deploy financial resources to school programs to help improve student achievement;

- Meet performance goals identified in the principal autonomy proposal; and
- Provide, annually, to the district school superintendent and district school board a budget for the operation of the participating school that identifies how funds are allocated.

The bill requires the principal of each participating school, a three-member leadership team from each participating school, and district personnel working with each participating school to enroll and complete a nationally recognized school turnaround program upon acceptance into the pilot program.

Exemptions

The bill exempts schools participating in PAPPI from the K-20 Education Code and SBE rules, except provisions relating to:

- Election and compensation of district school board members, the election or appointment and compensation of district school superintendents, public meetings and public records requirements, financial disclosure, and conflicts of interest.
- Student assessment program, school grading system, and other school improvement and accountability requirements.
- Services to students with disabilities.
- Civil rights and discrimination.
- Student health, safety, and welfare.
- Uniform opening date for public schools.
- Maximum class size, except that compliance for a participating school is calculated at the school-level average, rather than at the individual classroom level.[21]
- Personnel compensation and salary schedules.
- Workforce reductions for annual contracts for instructional personnel, excluding at-will employees.
- Annual contracts for instructional personnel hired on or after July 1, 2011, excluding at-will employees.
- Personnel performance evaluations.
- Educational facilities, excluding provisions governing covered walkways for relocatables and use of relocatable facilities exceeding 20 years of age.
- Administration and implementation of PAPPI.

Funding of the Program

The Legislature may provide an appropriation to the DOE for the costs of the pilot program, including administrative costs, enrollment costs for the school turnaround program, and an additional scholarship for each participating principal to use at his or her school.

The bill specifies that a school participating in PAPPI must be guaranteed to receive at least 90 percent of the funds generated in the Florida Education Finance Program (FEFP), including gross state and local funds, discretionary lottery funds, and funds from the school district's current

[21] The Florida Constitution provides that class sizes may not exceed 18 students for prekindergarten through 3rd grade; 22 students for 4th through 8th grades; and 25 students for 9th through 12th grades. *Section* 1(a), Art. IX of the State Constitution and s. 1003.03(1), F.S. The law provides for calculation of class size compliance at the school-level average for public schools of choice, including charter schools. Sections 1002.31(5) and 1002.33(16)(b)3., F.S.

operating discretionary millage levy by that school rather than current law which specifies at least 80 percent of the FEFP funds generated by that school.

Evaluation and Reporting

The bill authorizes a school district to participate in the pilot program for a period of three years. The SBE may renew or revoke a school district's participation in PAPPI if the school district fails to meet the requirements of the program.

The bill requires a participating school district to annually submit a report to the SBE regarding program implementation. Upon completion of the program's first three-year term, the Commissioner of Education must submit a full evaluation of the program's effectiveness to the President of the Senate and the Speaker of the House of Representatives by December 1 of that year.

The bill takes effect on July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

Under PCS/SB/SB 434, funding for the pilot program is contingent upon an appropriation in the General Appropriations Act. The Legislature may provide an appropriation to the DOE for the costs of the pilot program, including administrative costs, enrollment costs for the school turnaround program, and an additional scholarship for each participating principal for use at his or her school.

The bill requires the principal of each participating school, a three-member leadership team from each participating school, and district personnel working with each participating school to enroll and complete a nationally recognized school turnaround program upon acceptance into the pilot program.

The bill specifies that schools participating in PAPPI must be guaranteed to receive at least 90 percent of the funds generated in the FEFP by that school rather than current law which specifies at least 80 percent of the funds generated by that school based upon the Florida Education Finance Program (FEFP), including gross state and local funds, discretionary lottery funds, and funds from the school district's current operating discretionary millage levy.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1011.69 and 1012.28.

This bill creates section 1011.6202 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Education on January 13, 2016:
The committee substitute:

- Replaces the professional development requirement for pilot program participants to complete the University of Virginia School Turnaround Program with the requirement for participants to complete a nationally recognized school turnaround program.
- Removes the requirement that the Legislature provide $100,000 to each participating district, and $10,000 to each participating principal in the pilot program.

CS by Education Pre-K – 12 on November 18, 2015:
The committee substitute authorizes the exemption from the K-20 Education Code and State Board of Education rules to the schools participating in the Principal Autonomy Pilot Program Initiative rather than their respective school districts.

B. Amendments:

None.

899122

576-02097-16

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Education)

A bill to be entitled

An act relating to the Principal Autonomy Pilot Program Initiative; creating s. 1011.6202, F.S.; creating the Principal Autonomy Pilot Program Initiative; providing a procedure for a school district to participate in the pilot program; providing requirements for participating school districts and schools; exempting participating schools from certain laws and rules; requiring principals of participating schools and specified personnel to complete a nationally recognized school turnaround program; providing for the term of participation in the pilot program; providing for renewal or revocation of authorization to participate in the pilot program; providing for reporting, funding, and rulemaking; amending s. 1011.69, F.S.; requiring participating district school boards to allocate a specified percentage of certain funds to participating schools; amending s. 1012.28, F.S.; providing additional authority and responsibilities of the principal of a participating school; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 1011.6202, Florida Statutes, is created to read:

1011.6202 Principal Autonomy Pilot Program Initiative.—The

899122

576-02097-16

Principal Autonomy Pilot Program Initiative is created within the Department of Education. The purpose of the pilot program is to provide the highly effective principal of a participating school with increased autonomy and authority to operate his or her school in a way that produces significant improvements in student achievement and school management while complying with constitutional requirements. The State Board of Education may, upon approval of a principal autonomy proposal, enter into a performance contract with up to three district school boards for participation in the pilot program.

(1) PARTICIPATING SCHOOL DISTRICTS.—A Florida school district may submit to the state board for approval a principal autonomy proposal that exchanges statutory and rule exemptions for an agreement to meet performance goals established in the proposal. If approved by the state board, the school district shall be eligible to participate in the pilot program for 3 years. At the end of the 3 years, the performance of all participating schools in the school district shall be evaluated.

(2) PRINCIPAL AUTONOMY PROPOSAL.—

(a) To participate in the pilot program, a school district must:

1. Identify three middle or high schools that received at least two school grades of “D” or “F” pursuant to s. 1008.34 during the previous 3 school years.

2. Identify three principals who have earned a highly effective rating on the prior year’s performance evaluation pursuant to s. 1012.34, one of whom shall be assigned to each of the participating schools.

3. Describe the current financial and administrative

management of each participating school; identify the areas in which each school principal will have increased fiscal and administrative autonomy, including the authority and responsibilities provided in s. 1012.28(8); and identify the areas in which each participating school will continue to follow district school board fiscal and administrative policies.

4. Explain the methods used to identify the educational strengths and needs of the participating school's students and identify how student achievement can be improved.

5. Establish performance goals for student achievement, as defined in s. 1008.34(1), and explain how the increased autonomy of principals will help participating schools improve student achievement and school management.

6. Provide each participating school's mission and a description of its student population.

(b) The state board shall establish criteria, which must include the criteria listed in paragraph (a), for the approval of a principal autonomy proposal.

(c) A school district must submit its principal autonomy proposal to the state board for approval by December 1 in order to begin participation in the subsequent school year. By February 28 of the school year in which the proposal is submitted, the state board shall notify the district school board in writing whether the proposal is approved.

(3) EXEMPTION FROM LAWS.—

(a) With the exception of those laws listed in paragraph (b), a participating school is exempt from the provisions of chapters 1000-1013 and rules of the state board that implement those exempt provisions.

(b) A participating school shall comply with the provisions of chapters 1000-1013, and rules of the state board that implement those provisions, pertaining to the following:

1. Those laws relating to the election and compensation of district school board members, the election or appointment and compensation of district school superintendents, public meetings and public records requirements, financial disclosure, and conflicts of interest.

2. Those laws relating to the student assessment program and school grading system, including chapter 1008.

3. Those laws relating to the provision of services to students with disabilities.

4. Those laws relating to civil rights, including s. 1000.05, relating to discrimination.

5. Those laws relating to student health, safety, and welfare.

6. Section 1001.42(4)(f), relating to the uniform opening date for public schools.

7. Section 1003.03, governing maximum class size, except that the calculation for compliance pursuant to s. 1003.03 is the average at the school level for a participating school.

8. Sections 1012.22(1)(c) and 1012.27(2), relating to compensation and salary schedules.

9. Section 1012.33(5), relating to workforce reductions for annual contracts for instructional personnel. This subparagraph does not apply to at-will employees.

10. Section 1012.335, relating to annual contracts for instructional personnel hired on or after July 1, 2011. This subparagraph does not apply to at-will employees.

11. Section 1012.34, relating to personnel evaluation procedures and criteria.

12. Those laws pertaining to educational facilities, including chapter 1013, except that s. 1013.20, relating to covered walkways for relocatables, and s. 1013.21, relating to the use of relocatable facilities exceeding 20 years of age, are eligible for exemption.

13. Those laws pertaining to participating school districts, including this section and ss. 1011.69(2) and 1012.28(8).

(4) PROFESSIONAL DEVELOPMENT.—Each participating school district shall require that the principal of each participating school, a three-member leadership team from each participating school, and district personnel working with each participating school complete a nationally recognized school turnaround program which focuses on improving leadership, instructional infrastructure, talent management, and differentiated support and accountability. The required personnel must enroll in the school turnaround program upon acceptance into the pilot program.

(5) TERM OF PARTICIPATION.—The state board shall authorize a school district to participate in the pilot program for a period of 3 years commencing with approval of the principal autonomy proposal. Authorization to participate in the pilot program may be renewed upon action of the state board. The state board may revoke authorization to participate in the pilot program if the school district fails to meet the requirements of this section during the 3-year period.

(6) REPORTING.—Each participating school district shall

submit an annual report to the state board. The state board shall annually report on the implementation of the Principal Autonomy Pilot Program Initiative. Upon completion of the pilot program's first 3-year term, the Commissioner of Education shall submit to the President of the Senate and the Speaker of the House of Representatives by December 1 a full evaluation of the effectiveness of the pilot program.

(7) FUNDING.—The Legislature may appropriate funding to the department in the General Appropriations Act for the costs of the pilot program, including administrative costs and enrollment costs for the school turnaround program, and an additional scholarship to each participating principal to be used at his or her school.

(8) RULEMAKING.—The State Board of Education shall adopt rules to administer this section.

Section 2. Subsection (2) of section 1011.69, Florida Statutes, is amended to read:

1011.69 Equity in School-Level Funding Act.—

(2) Beginning in the 2003-2004 fiscal year, district school boards shall allocate to schools within the district an average of 90 percent of the funds generated by all schools and guarantee that each school receives at least 80 percent of the funds generated by that school based upon the Florida Education Finance Program as provided in s. 1011.62 and the General Appropriations Act, including gross state and local funds, discretionary lottery funds, and funds from the school district's current operating discretionary millage levy. A school participating in the Principal Autonomy Pilot Program Initiative under s. 1011.6202 shall be guaranteed an allocation

899122

576-02097-16

of at least 90 percent of the funds generated by that school. Total funding for each school shall be recalculated during the year to reflect the revised calculations under the Florida Education Finance Program by the state and the actual weighted full-time equivalent students reported by the school during the full-time equivalent student survey periods designated by the Commissioner of Education. If the district school board is providing programs or services to students funded by federal funds, any eligible students enrolled in the schools in the district shall be provided federal funds.

Section 3. Subsection (8) is added to section 1012.28, Florida Statutes, to read:

1012.28 Public school personnel; duties of school principals.—

(8) The principal of a school participating in the Principal Autonomy Pilot Program Initiative under s. 1011.6202 has the following additional authority and responsibilities:

(a) In addition to the authority provided in subsection (6), the authority to select qualified instructional personnel for placement or to refuse to accept the placement or transfer of instructional personnel by the district school superintendent. Placement of instructional personnel at a participating school in a participating school district does not affect the employee's status as a school district employee.

(b) The authority to deploy financial resources to school programs at the principal's discretion to help improve student achievement, as defined in s. 1008.34(1), and meet performance goals identified in the principal autonomy proposal submitted pursuant to s. 1011.6202.

899122

576-02097-16

(c) To annually provide to the district school superintendent and the district school board a budget for the operation of the participating school that identifies how funds provided pursuant to s. 1011.69(2) are allocated. The school district shall include the budget in the annual report provided to the State Board of Education pursuant to s. 1011.6202(6).

Section 4. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 434
INTRODUCER:	Education Pre-K - 12 Committee; and Senators Garcia and Gaetz
SUBJECT:	Principal Autonomy Pilot Program Initiative
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Bailey	Klebacha	ED	**Fav/CS**
2.	Sikes	Elwell	AED	**Recommend: Fav/CS**
3.	Sikes	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 434 establishes the Principal Autonomy Pilot Program Initiative (PAPPI) within the Department of Education (DOE) to provide a highly effective principal of a participating school with increased autonomy and authority to operate his or her school in a way that produces significant improvements in student achievement and school management. Schools selected for participation in PAPPI are exempt from the K-20 Education Code and State Board of Education (SBE) rules, with exceptions.

The bill requires the Legislature to provide an appropriation to the DOE for the costs of the pilot program, including $100,000 to each participating school district for enrollment in the University of Virginia School Turnaround Program and a $10,000 scholarship for each participating principal for use at his or her school.

The bill takes effective on July 1, 2016.

II. Present Situation:

Principal Authority and Responsibilities

A public school principal is responsible for: [1]

[1] Section 1001.54, F.S.

- Fully supporting the authority of classroom teachers and school bus drivers regarding student discipline and conduct.
- Providing instructional leadership in the development, revision, and implementation of a school improvement plan.
- Accurate and timely compliance with statutory reporting requirements.
- The management and care of instructional materials.
- Facilitating parental involvement in their child's education and providing information to parents regarding their child's educational progress and available educational choices pursuant to s. 1002.23, F.S.[2]

When filling instructional positions[3] at the school level, the district school superintendent must consider nominations received from school principals of the respective schools in the school district.[4] The superintendent then must make recommendations to the district school board regarding each position to be filled and the persons to fill such positions.[5] Before transferring a classroom teacher from one school to another, the superintendent must consult with the principal of the receiving school and allow the principal to review the teacher's records, including student performance results,[6] and interview the teacher.[7] If a principal believes students would not benefit from the placement, he or she may request an alternative placement subject to the approval by the superintendent.[8] However, the superintendent must accept the principal's decision to refuse placement or transfer of instructional personnel if the instructional personnel has a performance evaluation rating of needs improvement or unsatisfactory.[9]

Florida Principal Leadership Standards

The Florida Principal Leadership Standards (FPLS) are Florida's core expectations for effective school administrators, including school principals.[10] The FPLS are research-based; represent necessary knowledge, skills, and abilities for effective school leadership; and are the basis for school administrator performance evaluations, professional development systems, preparation programs, and certification requirements.[11] The FPLS emphasize the ability to improve student learning results; development and retention of quality classroom teachers; and school management practices that promote student learning, effective allocation of resources, and efficient operations.[12]

[2] Section 1002.23, F.S., is referred to as the Family and School Partnership for Student Achievement Act.
[3] Instructional personnel include classroom teachers; staff who provide student personnel services, e.g., certified school counselors, social workers, career specialists, and school psychologists; librarians and media specialists; other instructional staff, e.g., learning resource specialists; and education paraprofessionals under the direct supervision of instructional personnel. Section 1012.01(2), F.S.
[4] Section 1012.27(1), F.S.
[5] *Id.*
[6] As measured by the instructional personnel's performance evaluation. Sections 1012.28(6) and 1012.34, F.S.
[7] Section 1012.27, F.S.
[8] *Id.*
[9] Section 1012.28(6), F.S.
[10] State Board of Education Rule 6A-5.080, F.A.C.
[11] *Id*.
[12] Section 1012.34, F.S., and Rule 6A-5.080(1)-(2), F.A.C.

Performance Evaluation

Florida law requires each district school superintendent to establish procedures to evaluate the job performance of district instructional, administrative, and supervisory personnel.[13] School district performance evaluation systems must differentiate among four levels of performance: [14]

- Highly effective;
- Effective;
- Needs improvement, or for instructional personnel in their first three years of employment who need improvement, developing; and
- Unsatisfactory.

The criteria used to measure school administrator performance are student performance, instructional leadership, and professional and job responsibilities.[15] At least one-third of a school administrator's evaluation must be based upon student performance, with certain exceptions.[16] Evaluation of instructional leadership must include performance measures related to the effectiveness of classroom teachers in the school, the administrator's appropriate use of evaluation criteria and procedures, recruitment and retention of effective and highly effective classroom teachers, improvement in the percentage of instructional personnel evaluated at the highly effective or effective level, and other leadership practices that result in student learning growth.[17]

Professional Development

Professional development for school administrators is provided through school district professional development systems including the William Cecil Golden Professional Development Program for School Leaders.[18] This program is established in collaboration with state and national professional leadership organizations and it is designed to respond to Florida's needs for quality school leadership and support the efforts of school leaders in improving instruction and student achievement and developing and retaining quality teachers.[19] Professional development provided through the program must be based upon the FPLS and other school leadership standards.[20]

III. Effect of Proposed Changes:

This bill establishes the Principal Autonomy Pilot Program Initiative (PAPPI) within the Department of Education (DOE) to provide a highly effective principal of a participating school with increased autonomy and authority to operate his or her school in a way that produces significant improvements in student achievement and school management.

---

[13] Section 1012.34(1)(a), F.S. The term supervisory personnel is not defined. *See* s. 1012.01(3), F.S.
[14] Section 1012.34(2)(e), F.S.
[15] Section 1012.34(3)(a)1., 3., and 4., F.S.
[16] Section 1012.34(3)(a)1., F.S. If less than three years of data are available, the years for which data are available must be used. The proportion of growth or achievement data may be determined by instructional assignment. Section 1012.34(3)(a)1.b., F.S.
[17] Section 1012.34(3)(a)3., F.S.
[18] Section 1012.986, F.S.
[19] *See* ss. 1012. 98(4) and 1012.986, F.S.
[20] Section 1012.986(1)-(2), F.S.

Schools selected for participation in PAPPI are exempt from the K-20 Education Code and State Board of Education (SBE) rules, with exceptions.

Participating School Districts

The bill authorizes the SBE to enter into a performance contract with up to three district school boards for participation in PAPPI. The term of the program is three years, at which time the performance of all participating schools in the school district must be evaluated. The SBE may revoke a district's participation in the program during the term of the program and may renew participation upon expiration of the initial term. The bill specifies deadlines for submission and approval of principal autonomy proposals and requires the SBE to adopt rules for administering PAPPI, including criteria for approving proposals.

Principal Autonomy Proposal

The bill requires the school districts seeking to participate in PAPPI to submit a principal autonomy proposal to the SBE for approval. The proposal must:

- Identify three middle or high schools that received at least two school grades of "D" or "F" during the previous three school years;
- Identify three principals who have earned a highly effective rating on the prior year's performance evaluations, one of whom shall be assigned to each of the participating schools;
- Describe the current financial and administrative management of each participating school;
- Identify the areas in which each school principal will have increased fiscal and administrative autonomy, including greater autonomy regarding the hiring of instructional personnel;
- Identify the areas in which each participating school will continue to follow district school board fiscal and administrative policies;
- Explain the methods used to identify the educational strengths and needs of the participating school's students and how student achievement can be improved;
- Establish performance goals for student achievement;
- Explain how increased principal autonomy will help participating schools improve student achievement and school management; and
- Provide each participating school's mission and a description of its student population.

Principal Authority and Responsibilities

The bill revises existing law governing the personnel duties for school principals participating in PAPPI and school budgeting and calculation of expenditures to facilitate implementation of PAPPI. The bill authorizes the principal of a participating school to:

- Select qualified instructional personnel for placement at the school or refuse placement or transfer of instructional personnel by the district school superintendent;
- Deploy financial resources to school programs to help improve student achievement;
- Meet performance goals identified in the principal autonomy proposal; and
- Provide, annually, to the district school superintendent and district school board a budget for the operation of the participating school that identifies how funds are allocated.

The bill requires the principal of each participating school, a three-member leadership team from each participating school, and district personnel working with each participating school to enroll and complete the University of Virginia School Turnaround Program upon acceptance into the pilot program. Each participating school district receives $100,000 from the DOE for participation in the University of Virginia School Turnaround Program.

The University of Virginia School Turnaround Program is a professional development program for school-level leaders established in collaboration with the University of Virginia Darden School of Business and the Curry School of Education.[21] The three-year program is designed to respond to the needs of underperforming schools by helping education leaders identify individual key issues and develop individual strategies to turn around a school.[22] The program's managers accomplish these tasks by, among other things, hosting workshops to develop turnaround plans, helping participating schools identify qualified school leaders to oversee school turnaround, and conducting on-site visits to help participating schools accomplish turnaround goals.[23] The program's managers and participating schools also collaborate to develop plans designed to help teachers and students reach performance goals.[24]

Exemptions

The bill exempts schools participating in PAPPI from the K-20 Education Code and SBE rules, except provisions relating to:

- Election and compensation of district school board members, the election or appointment and compensation of district school superintendents, public meetings and public records requirements, financial disclosure, and conflicts of interest.
- Student assessment program, school grading system, and other school improvement and accountability requirements.
- Services to students with disabilities.
- Civil rights and discrimination.
- Student health, safety, and welfare.
- Uniform opening date for public schools.
- Maximum class size, except that compliance for a participating school is calculated at the school-level average, rather than at the individual classroom level.[25]
- Personnel compensation and salary schedules.
- Workforce reductions for annual contracts for instructional personnel, excluding at-will employees.
- Annual contracts for instructional personnel hired on or after July 1, 2011, excluding at-will employees.
- Personnel performance evaluations.

- Administration and implementation of PAPPI.

Funding of the Program

The bill requires the Legislature to provide an appropriation to the DOE for the costs of the pilot program, including administrative costs and enrollment costs for the University of Virginia School Turnaround Program and an additional $10,000 for each participating principal to use at his or her school.

The bill specifies that a school participating in PAPPI must be guaranteed to receive at least 90 percent of the funds generated in the Florida Education Finance Program (FEFP), including gross state and local funds, discretionary lottery funds, and funds from the school district's current operating discretionary millage levy by that school rather than current law which specifies at least 80 percent of the FEFP funds generated by that school.

Evaluation and Reporting

The bill authorizes a school district to participate in the pilot program for a period of three years. The SBE may renew or revoke a school district's participation in PAPPI if the school district fails to meet the requirements of the program.

The bill requires a participating school district to annually submit a report to the SBE regarding program implementation. Upon completion of the program's first three-year term, the Commissioner of Education must submit a full evaluation of the program's effectiveness to the President of the Senate and the Speaker of the House of Representatives by December 1 of that year.

The bill takes effect on July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

CS/SB 434 requires the Legislature to provide an appropriation to the DOE for the costs of the pilot program, including administrative costs and enrollment costs for the University of Virginia School Turnaround Program. If all potential schools participate in the pilot, the total appropriation required for the three participating districts in the 2016-2017 fiscal year would be $390,000.

The bill requires the principal of each participating school, a three-member leadership team from each participating school, and district personnel working with each participating school to enroll and complete the University of Virginia School Turnaround Program upon acceptance into the pilot program. Each participating school district would receive $100,000 from the DOE for participation in the University of Virginia School Turnaround Program and an additional $10,000 for each participating principal to use at his or her participating school.

The bill specifies that schools participating in PAPPI must be guaranteed to receive at least 90 percent of the funds generated in the FEFP by that school rather than current law which specifies at least 80 percent of the funds generated by that school based upon the Florida Education Finance Program (FEFP), including gross state and local funds, discretionary lottery funds, and funds from the school district's current operating discretionary millage levy.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1011.69 and 1012.28.

This bill creates section 1011.6202 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Education Pre-K – 12 on November 18, 2015:
The committee substitute authorizes the exemption from the K-20 Education Code and State Board of Education rules to the schools participating in the Principal Autonomy Pilot Program Initiative rather than their respective school districts.

B. Amendments:

None.

By the Committee on Education Pre-K - 12; and Senators Garcia and Gaetz

581-01399-16 2016434c1

A bill to be entitled

An act relating to the Principal Autonomy Pilot Program Initiative; creating s. 1011.6202, F.S.; creating the Principal Autonomy Pilot Program Initiative; providing a procedure for a school district to participate in the pilot program; providing requirements for participating school districts and schools; exempting participating schools from certain laws and rules; requiring principals of participating schools and specified personnel to participate in the University of Virginia School Turnaround Program; providing for the term of participation in the pilot program; providing for renewal or revocation of authorization to participate in the pilot program; providing for funding, reporting, and rulemaking; amending s. 1011.69, F.S.; requiring participating district school boards to allocate a specified percentage of certain funds to participating schools; amending s. 1012.28, F.S.; providing additional authority and responsibilities of the principal of a participating school; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 1011.6202, Florida Statutes, is created to read:

1011.6202 Principal Autonomy Pilot Program Initiative.—The Principal Autonomy Pilot Program Initiative is created within

581-01399-16 2016434c1

the Department of Education. The purpose of the pilot program is to provide the highly effective principal of a participating school with increased autonomy and authority to operate his or her school in a way that produces significant improvements in student achievement and school management while complying with constitutional requirements. The State Board of Education may, upon approval of a principal autonomy proposal, enter into a performance contract with up to three district school boards for participation in the pilot program.

(1) PARTICIPATING SCHOOL DISTRICTS.—A Florida school district may submit to the state board for approval a principal autonomy proposal that exchanges statutory and rule exemptions for an agreement to meet performance goals established in the proposal. If approved by the state board, the school district shall be eligible to participate in the pilot program for 3 years. At the end of the 3 years, the performance of all participating schools in the school district shall be evaluated.

(2) PRINCIPAL AUTONOMY PROPOSAL.—

(a) To participate in the pilot program, a school district must:

1. Identify three middle or high schools that received at least two school grades of "D" or "F" pursuant to s. 1008.34 during the previous 3 school years.

2. Identify three principals who have earned a highly effective rating on the prior year's performance evaluation pursuant to s. 1012.34, one of whom shall be assigned to each of the participating schools.

3. Describe the current financial and administrative management of each participating school; identify the areas in

which each school principal will have increased fiscal and administrative autonomy, including the authority and responsibilities provided in s. 1012.28(8); and identify the areas in which each participating school will continue to follow district school board fiscal and administrative policies.

4. Explain the methods used to identify the educational strengths and needs of the participating school's students and identify how student achievement can be improved.

5. Establish performance goals for student achievement, as defined in s. 1008.34(1), and explain how the increased autonomy of principals will help participating schools improve student achievement and school management.

6. Provide each participating school's mission and a description of its student population.

(b) The state board shall establish criteria, which must include the criteria listed in paragraph (a), for the approval of a principal autonomy proposal.

(c) A school district must submit its principal autonomy proposal to the state board for approval by December 1 in order to begin participation in the subsequent school year. By February 28 of the school year in which the proposal is submitted, the state board shall notify the district school board in writing whether the proposal is approved.

(3) EXEMPTION FROM LAWS.—

(a) With the exception of those laws listed in paragraph (b), a participating school is exempt from the provisions of chapters 1000-1013 and rules of the state board that implement those exempt provisions.

(b) A participating school shall comply with the provisions

of chapters 1000-1013, and rules of the state board that implement those provisions, pertaining to the following:

1. Those laws relating to the election and compensation of district school board members, the election or appointment and compensation of district school superintendents, public meetings and public records requirements, financial disclosure, and conflicts of interest.

2. Those laws relating to the student assessment program and school grading system, including chapter 1008.

3. Those laws relating to the provision of services to students with disabilities.

4. Those laws relating to civil rights, including s. 1000.05, relating to discrimination.

5. Those laws relating to student health, safety, and welfare.

6. Section 1001.42(4)(f), relating to the uniform opening date for public schools.

7. Section 1003.03, governing maximum class size, except that the calculation for compliance pursuant to s. 1003.03 is the average at the school level for a participating school.

8. Sections 1012.22(1)(c) and 1012.27(2), relating to compensation and salary schedules.

9. Section 1012.33(5), relating to workforce reductions for annual contracts for instructional personnel. This subparagraph does not apply to at-will employees.

10. Section 1012.335, relating to annual contracts for instructional personnel hired on or after July 1, 2011. This subparagraph does not apply to at-will employees.

11. Section 1012.34, relating to personnel evaluation

procedures and criteria.

12. Those laws pertaining to educational facilities, including chapter 1013, except that s. 1013.20, relating to covered walkways for relocatables, and s. 1013.21, relating to the use of relocatable facilities exceeding 20 years of age, are eligible for exemption.

13. Those laws pertaining to participating school districts, including this section and ss. 1011.69(2) and 1012.28(8).

(4) PROFESSIONAL DEVELOPMENT.—Each participating school district shall require that the principal of each participating school, a three-member leadership team from each participating school, and district personnel working with each participating school complete the University of Virginia School Turnaround Program. The required personnel must enroll in the University of Virginia School Turnaround Program upon acceptance into the pilot program. Each participating school district shall receive $100,000 from the department for participation in the University of Virginia School Turnaround Program.

(5) TERM OF PARTICIPATION.—The state board shall authorize a school district to participate in the pilot program for a period of 3 years commencing with approval of the principal autonomy proposal. Authorization to participate in the pilot program may be renewed upon action of the state board. The state board may revoke authorization to participate in the pilot program if the school district fails to meet the requirements of this section during the 3-year period.

(6) REPORTING.—Each participating school district shall submit an annual report to the state board. The state board

shall annually report on the implementation of the Principal Autonomy Pilot Program Initiative. Upon completion of the pilot program's first 3-year term, the Commissioner of Education shall submit to the President of the Senate and the Speaker of the House of Representatives by December 1 a full evaluation of the effectiveness of the pilot program.

(7) FUNDING.—The Legislature shall provide an appropriation to the department for the costs of the pilot program, including administrative costs and enrollment costs for the University of Virginia School Turnaround Program, and an additional scholarship of $10,000 to each participating principal to be used at his or her school.

(8) RULEMAKING.—The State Board of Education shall adopt rules to administer this section.

Section 2. Subsection (2) of section 1011.69, Florida Statutes, is amended to read:

1011.69 Equity in School-Level Funding Act.—

(2) Beginning in the 2003-2004 fiscal year, district school boards shall allocate to schools within the district an average of 90 percent of the funds generated by all schools and guarantee that each school receives at least 80 percent, except schools participating in the Principal Autonomy Pilot Program Initiative under s. 1011.6202 are guaranteed to receive at least 90 percent, of the funds generated by that school based upon the Florida Education Finance Program as provided in s. 1011.62 and the General Appropriations Act, including gross state and local funds, discretionary lottery funds, and funds from the school district's current operating discretionary millage levy. Total funding for each school shall be recalculated during the year to

reflect the revised calculations under the Florida Education Finance Program by the state and the actual weighted full-time equivalent students reported by the school during the full-time equivalent student survey periods designated by the Commissioner of Education. If the district school board is providing programs or services to students funded by federal funds, any eligible students enrolled in the schools in the district shall be provided federal funds.

Section 3. Subsection (8) is added to section 1012.28, Florida Statutes, to read:

1012.28 Public school personnel; duties of school principals.—

(8) The principal of a school participating in the Principal Autonomy Pilot Program Initiative under s. 1011.6202 has the following additional authority and responsibilities:

(a) In addition to the authority provided in subsection (6), the authority to select qualified instructional personnel for placement or to refuse to accept the placement or transfer of instructional personnel by the district school superintendent. Placement of instructional personnel at a participating school in a participating school district does not affect the employee's status as a school district employee.

(b) The authority to deploy financial resources to school programs at the principal's discretion to help improve student achievement, as defined in s. 1008.34(1), and meet performance goals identified in the principal autonomy proposal submitted pursuant to s. 1011.6202.

(c) To annually provide to the district school superintendent and the district school board a budget for the

operation of the participating school that identifies how funds provided pursuant to s. 1011.69(2) are allocated. The school district shall include the budget in the annual report provided to the State Board of Education pursuant to s. 1011.6202(6).

Section 4. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 436 (418634)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Criminal and Civil Justice); Criminal Justice Committee and Senator Simpson
SUBJECT:	Terroristic Threats
DATE:	February 24, 2016
REVISED:

2.	Clodfelter	Sadberry	ACJ	**Recommend: Fav/CS**
3.	Clodfelter	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 436 amends sections 790.163 and 790.164, Florida Statutes., which prohibit making false reports concerning planting a bomb, explosive, or weapon of mass destruction, to also prohibit making a false report concerning use of a firearm in a violent manner. Commission of either of these offenses is a second degree felony, punishable by up to 15 years imprisonment and a $10,000 fine.

The bill also creates section 836.12, Florida Statutes, which includes a provision requiring a person who is convicted of violating section 790.163, Florida Statutes, or section 790.164, Florida Statues, to pay restitution for all costs and damages caused by an evacuation that results from the violation if it:

- Caused the occupants of the building, place of assembly, or facility of public transportation to be diverted from their normal or customary operations; or
- Involved a threat against a law enforcement officer, state attorney or assistant state attorney, firefighter, judge, or elected official; or a family member of one of the identified persons.

Newly created section 836.12, Florida Statutes, also makes it unlawful for a person to threaten to commit a crime of violence with the intent to cause, or with reckless disregard for the risk of causing, terror or the evacuation of a building, place of assembly, or facility of public transportation. The offense does not have a specified penalty.

The Criminal Justice Impact Conference has not reviewed the bill in its current form. However, it appears that the bill likely will result in an indeterminate increase in the prison population.

The bill has an effective date of July 1, 2016.

II. Present Situation:

Threat to Throw, Project, Place or Discharge any Destructive Device

Section 790.162, F.S., makes it a second degree felony[1] if a person threatens to throw, project, place, or discharge any destructive device with intent to do bodily harm to any person or with intent to do damage to any property of any person.

False reports concerning planting bomb, explosive, or weapon of mass destruction

Section 790.163, F.S., makes it a second degree felony if a person makes a false report, with intent to deceive, mislead, or otherwise misinform any person, concerning the placing or planting of any bomb, dynamite, or other deadly explosive, or weapon of mass destruction.[2] Persons who are convicted of commission of this offense that resulted in the mobilization or action of any law enforcement officer or any state or local agency, may be required by the court to pay restitution for all of the costs and damages arising from the criminal conduct.

False reports concerning planting a bomb, explosive, or weapon of mass destruction in, or committing arson against, state-owned property

Section 790.164, F.S., includes the same elements and has the same penalties as s. 790.163, F.S., but adds the additional element that the threat must relate to property owned by the state or any political subdivision. Additionally, this section prohibits threats concerning any act of arson or other violence to property owned by the state or a political subdivision. This section includes the same provision for restitution that is in s. 790.163, F.S.

Planting of "hoax bomb"

Section 790.165, F.S., makes it a second degree felony if a person, without lawful authority, manufactures, possesses, sells, delivers, sends, mails, displays, uses, threatens to use, attempts to use or conspires to use, or makes readily accessible to others, a "hoax bomb." [3]

[1] A second degree felony is punishable by up to 15 years in state prison and a fine of up to $10,000. *See,* ss. 775.082 and 775.083, F.S.

[2] "Weapon of mass destruction" is defined in s. 790.166(1)(a), F.S., to mean any device or object that is designed or intended to cause death or serious bodily injury to any human or animal, or severe emotional or mental harm to any human, through the release, dissemination, or impact of toxic or poisonous chemicals, or their precursors; any device or object involving a biological agent or that is designed or intended to release radiation or radioactivity at a level dangerous to human or animal life or any biological agent, toxin, vector, or delivery system.

[3] "Hoax bomb" is defined in s. 790.165(1), F.S., to mean any device or object that by its design, construction, content, or characteristics appears to be, or to contain, or is represented to be or to contain a destructive device or explosive but is in fact inoperable.

Manufacture, possession, sale, delivery, display, use, or attempted or threatened use of a weapon of mass destruction or hoax weapon of mass destruction

Section 790.166, F.S., makes it a first degree felony[4] if a person, without lawful authority, manufactures, possesses, sells, delivers, sends, mails, displays, uses, threatens to use, attempts to use or conspires to use, or makes readily accessible to others, a weapon of mass destruction.[5] The offense is a second degree felony if the device is a hoax weapon of mass destruction.[6]

False reports of commission of crimes

Section 817.49, F.S., provides that it is a first degree misdemeanor[7] to willfully impart, convey or cause to be imparted or conveyed to any law enforcement officer false information or reports concerning the alleged commission of any crime under Florida law, knowing the information to be false in that no such crime had actually been committed.

Threats; extortion

Section 836.05, F.S., provides that it is a second degree felony to maliciously, by verbal, written, or printed communication, to injure the person or property of another with intent to compel the threatened person, or any other person, to do any act or refrain from doing any act against his or her will.

Written Threats to Kill or Do Bodily Injury

Section 836.10, F.S., provides that it is a second degree felony to write or compose and send, or procure the sending of, any written communication containing a threat to kill or do bodily injury to the person to whom the letter is sent or a threat to kill or do bodily injury to the family of the person to whom such letter or communication is sent.

False reports to law enforcement authorities

Section 837.05, F.S., provides that it is a first degree misdemeanor to knowingly give false information to a law enforcement officer concerning the alleged commission of a crime. The penalty may be enhanced to a third degree felony under certain circumstances.

---

[4] A first degree felony is punishable by up to 30 years in state prison and a fine of up to $10,000. *See* ss. 775.082 and 775.083, F.S.

[5] For purposes of this section, the term "weapon of mass destruction" does not include self-defense devices that are lawfully possessed or used for self protection.

[6] "Hoax weapon of mass destruction" is defined in s. 790.166(1)(b), F.S., to mean any device or object that by its design, construction, content, or characteristics appears to be or to contain, or is represented to be, constitute, or contain, a weapon of mass destruction as defined in this section, but which is, in fact, an inoperative facsimile, imitation, counterfeit, or representation of a weapon of mass destruction which does not meet the definition of a weapon of mass destruction or which does not actually contain or constitute a weapon, biological agent, toxin, vector, or delivery system prohibited by this section.

[7] A first degree misdemeanor is punishable by up to one year in county jail and a $1,000 fine. *See*, ss. 775.082, and 775.083, F.S.

Corruption by threat against public servants

Section 838.021, F.S., makes it a felony to unlawfully harm or threaten to harm any public servant,[8] his or her immediate family, or any other person whose welfare the public servant is interested with the intent or purpose of:

- Influencing the performance of any act or omission that the person believes to be, or that the public servant represents as being, within the official discretion of the public servant, in violation or performance of a public duty[9];
- Causing or inducing the public servant to use or exert, or procure the use of exertion of any influence upon or with any other public servant regarding any act or omission which the defendant believes to be or the public servant represents as being, within the official discretion of the public servant, in violation or performance of a public duty.[10]

Prosecution under this section does not require allegation or proof that:

- The public servant ultimately sought to be unlawfully influenced was qualified to act in the desired way;
- That the public servant had assumed office;
- That the matter was properly pending before him or her or might by law properly be brought before him or her;
- That the public servant possessed jurisdiction over the matter; or
- That his or her official action was necessary to achieve the person's purpose.[11]

It is a second degree felony if the defendant actually does harm or a third degree felony[12] if the defendant threatens harm.

Breach of the peace; disorderly conduct

Section 877.03, F.S., provides that it is a second degree misdemeanor[13] to "… engage in such conduct as to constitute a breach of the peace or disorderly conduct." The Florida Supreme Court has narrowed the scope of the conduct that is prohibited under this section:

> In light of these considerations, we now limit the application of Section 877.03 so that it shall hereafter only apply either to words which "by their very utterance ... inflict injury or tend to incite an immediate breach of the peace," or to words, known to be false, reporting some physical hazard in circumstances where such a report creates a clear and present danger of bodily harm to others. We construe the statute so that no words except "fighting words" or words like shouts of "fire" in a crowded theatre fall within its proscription, in order to avoid the constitutional

[8] Section 838.021, F.S.
[9] Section 838.021(1)(a), F.S.
[10] Section 838.021(1)(b), F.S.
[11] Section 838.021(2), F.S.
[12] A third degree felony is punishable by up to 5 years in state prison and a fine of up to $5,000. *See,* ss. 775.082 and 775.083, F.S.
[13] A second degree misdemeanor is punishable by up to sixty days in county jail and a $500 fine. *See,* ss. 775.082, and 775.083, F.S.

problem of overbreadth, and "the danger that a citizen will be punished as a criminal for exercising his right of free speech."[14]

Disruption of educational institutions or school boards

Section 877.13, F.S., provides that it is a second degree misdemeanor to knowingly disrupt or interfere with the lawful administration or functions of any educational institution, school board, or activity on school board property; to knowingly interfere with the attendance of any other school pupil or school employee in a school or classroom; or to engage in any school campus or school function disruption or disturbance which interferes with the educational processes or with the orderly conduct of a school campus, school, or school board function or activity on school board property.

The Pasco Sheriff's Office (Sheriff's Office) asserts that this bill would address issues that existing statutes do not, including clearly prohibiting threats to do harm by use of firearms. According to the Sheriff's Office, the bill's inclusion of all types of threats, application even if a specific victim is not identified in the threat, and inclusion of threats that are made with the intent to cause terror or evacuation of a location, would give law enforcement the necessary tools to bring charges when these types of events take place.

III. Effect of Proposed Changes:

Sections 1 and 2 of the bill amend ss. 790.163 and 790.164, F.S., which prohibit making false reports concerning planting a bomb, explosive, or weapon of mass destruction, to also prohibit making a false report concerning use of a firearm in a violent manner.[15] Commission of either of these offenses is a second degree felony, punishable by up to 15 years imprisonment and a $10,000 fine.

Section 3 of the bill creates s. 836.12, F.S., relating to terroristic threats. Subsection (1) defines "law enforcement officer" to mean the same as the definition of the term in s. 943.10, F.S., and defines "family member" to be "an individual related to the person by blood or marriage; or an individual to whom the person stands in loco parentis."[16]

Subsection (2) makes it unlawful to threaten to commit a crime of violence with the intent to cause, or with reckless disregard for the risk of causing:

- Terror; or
- Evacuation of a building, place of assembly, or facility of public transportation.

[14] *State v. Saunders*, 339 So.2d 641, 644 (Fla.1976) (internal citations omitted) (quoting *White v. State*, 330 So.2d 3, 7 (Fla.1976), and *Spears v. State*, 337 So.2d 977, 980 (Fla.1976)).

[15] Section 790.194, F.S., differs from s. 790.193, F.S., by adding an additional element of proof that the threat was made against property owned by the state or a political subdivision. As worded, the amendment to s. 790.194, F.S., does not apply the additional element of proof to false reports concerning use of a firearm in a violent manner. Therefore, there is no difference between the elements of proof for the two offenses with regard to false reports concerning use of a firearm in a violent manner.

[16] "In loco parentis" means "in the place of a parent." MERRIAM-WEBSTER, *In Loco Parentis*, http://www.merriam-webster.com/dictionary/in%20loco%20parentis (last visited February 5, 2016).

The bill does not provide any penalty for this unlawful act.[17]

Subsection (3) creates a new criminal offense that applies to a person who violates s. 790.163, F.S., or s. 790.164, F.S., if the violation:

- Causes occupants of the building, place of assembly, or facility of public transportation to be diverted from their normal or customary operations; or
- Involves a threat against a law enforcement officer, a state attorney or assistant state attorney, a firefighter, a judge, an elected official, or any of their family members.

Like ss. 790.163 and 790.164, F.S., the new offense created in subsection (3) is a second degree felony.[18]

Subsection (4) provides that a person who is convicted of violating subsection (3) must pay restitution for all costs and damages caused by an evacuation resulting from the violation, in addition to any other restitution or penalty provided by law.

Section 4 of the bill amends s. 921.0022, the Criminal Punishment Code Offense Severity Ranking Chart (Ranking Chart), to add false reports concerning use of a firearm in a violent manner to the description of ss. 790.163 and 790.164, F.S.

Sections 5 and 6 of the bill republish ss. 1006.07(2)(m) and 1006.13(2)(b), F.S., respectively, to incorporate amendments made to s. 790.163, F.S.

The bill has an effective date of July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

[17] The unlawful act is not a crime because no penalty is specified and the new offense is not designated as a felony or a misdemeanor. If considered a noncriminal violation, the unlawful act is punishable by a fine not exceeding $500. *See* ss. 775.08 and 775.083, F.S.

[18] Section 921.0022, F.S., the Criminal Punishment Code Offense Severity Ranking Chart (Ranking Chart), ranks criminal offenses from Levels 1 through 10, with Level 1 including the least severe offenses and Level 10 including the most severe offenses. The rankings assign sentencing points that are used to calculate the lowest permissible sentence that may be imposed for an offense. Section 790.163 is ranked in Level 5 of the Ranking Chart and s. 790.164, F.S., is ranked in Level 6. The new offense is not listed in the Ranking Chart, and therefore is ranked in Level 4 by operation of s. 921.0023, F.S.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

PCS/CS/SB 436 differs significantly from CS/SB 436. As a result, the Criminal Justice Impact Conference (CJIC) estimate for HB 257, which is similar to CS/SB 436, can no longer be used to estimate the fiscal impact of PCS/CS/SB 436. The new criminal offenses created in ss. 790.163 and 790.164, F.S., by the proposed committee substitute may be chargeable as crimes under current law in many factual situations. However, it is not possible to project how often the new offenses would be charged or, if there is an existing offense, whether charging the criminal activity as a violation of ss. 790.163 or 790.164, F.S., would result in an increase in the penalty. Therefore, it appears that PCS/CS/SB 436 will result in an indeterminate increase in the prison population.

VI. Technical Deficiencies:

- As noted in Section III of this Analysis, no penalty is specified for the unlawful activity proscribed in s. 836.12 (2), F.S., created by the bill, and the unlawful activity is not designated as a felony or a misdemeanor. Therefore, the unlawful activity is not a crime but may be a noncriminal violation punishable by a fine not exceeding $500. *See* ss. 775.08 and 775.083, F.S.
- The unlawful act created in new s. 836.12(2), F.S., does not include definitions of the terms "terror" or "facility of public transportation." As a result, an offender who is charged with committing the unlawful act may claim that the statute is unconstitutional because of vagueness. *See, e.g., Papachristou v. City of Jacksonville*, 405 U.S. 156 (1972).
- Proving a violation of the second degree felony offense created in new s. 836.12(3), F.S., requires proof that the offender violated either s. 790.693 or 790.694, F.S., plus proof of an additional element. However, the new offense would be ranked as a less severe offense on the Ranking Chart.
- Consideration should be given to amending ss. 1006.07(2)(m) and 1006.13(3)(b), F.S., to include a reference to s. 790.164, F.S., which applies to threats involving school property.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends the following sections of the Florida Statutes: 790.163, 790.164, and 921.0022.

This bill creates section 836.12, of the Florida Statutes.

This bill reenacts the following sections of the Florida Statutes: 1006.7(2)(m) and 1006.13(3)(b).

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Criminal and Civil Justice on February 11, 2016:
The committee substitute:

- Amends ss. 790.163 and 790.164, F.S., to prohibit making a false report concerning use of a firearm in a violent manner.
- Creates s. 835.12, F.S., which:
  - Expands the requirement to pay restitution for costs and damages that result from a violation of s. 790.163 or s. 790.164, F.S.; and
  - Makes threatening to commit a crime of violence in specified circumstances an unlawful act.

CS by Criminal Justice on January 25, 2016:

- Adds and clarifies definitions.
- Revises the prohibition in the bill to apply to threats to commit a crime of violence with intent to cause, or reckless disregard for causing terror or the evacuation of a public building, place of assembly, or facility of public transportation.
- Clarifies the requirement for persons convicted under the bill to pay restitution.
- The effective date is changed from October 1, 2016 to July 1, 2016.

B. Amendments:

None.

696840

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Appropriations (Galvano) recommended the following:

Senate Amendment (with title amendment)

Delete lines 108 - 139
and insert:
836.12 Threats.—
(1) As used in this section, the term:
(a) "Family member" means:
1. An individual related to another individual by blood or marriage; or
2. An individual who stands in loco parentis to another

696840

individual.

(b) "Law enforcement officer" means:

1. A law enforcement officer as defined in s. 943.10; or

2. A federal law enforcement officer as defined in s. 901.1505.

(2) Any person who threatens a law enforcement officer, a state attorney, an assistant state attorney, a firefighter, a judge, or an elected official, or a family member of such persons, with death or serious bodily harm commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(3) A person who commits a second or subsequent violation of subsection (2) commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete lines 3 - 11

and insert:

threats of violence; amending ss. 790.163 and 790.164, F.S.; creating the crime of falsely reporting the use of firearms in a violent manner against a person or persons; creating s. 836.12, F.S.; defining the terms "family member" and "law enforcement officer"; providing criminal penalties for a person who threatens specified persons with death or serious bodily harm; amending s. 921.0022, F.S.; conforming

418634

576-03396-16

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Criminal and Civil Justice)

A bill to be entitled

An act relating to relating to the crime of making threats of terror or violence ; amending ss. 790.163 and 790.164, F.S.; creating the crime of falsely reporting the use of firearms in a violent manner against a person or persons; creating s. 836.12, F.S.; defining the terms "family member of a person" and "law enforcement officer"; providing a criminal penalty for a violation of specified provisions under certain circumstances; requiring payment of restitution; amending s. 921.0022, F.S.; conforming provisions to changes made by the act; reenacting ss. 1006.07(2)(m) and 1006.13(3)(b), F.S., relating to district school board duties relating to student discipline and school safety and a policy of zero tolerance for crime and victimization, respectively, to incorporate the amendment made to s. 790.163, F.S., in references thereto; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 790.163, Florida Statutes, is amended to read:

790.163 False report concerning ~~about~~ planting a bomb, an explosive, or a weapon of mass destruction, or concerning use of firearms in a violent manner; penalty.—

(1) It is unlawful for any person to make a false report,

418634

576-03396-16

with intent to deceive, mislead, or otherwise misinform any person, concerning the placing or planting of any bomb, dynamite, other deadly explosive, or weapon of mass destruction as defined in s. 790.166, or concerning the use of firearms in a violent manner against a person or persons. A person who violates this subsection~~; and any person convicted thereof~~ commits a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(2) Notwithstanding any other law, adjudication of guilt or imposition of sentence for a violation of this section may not be suspended, deferred, or withheld. However, the state attorney may move the sentencing court to reduce or suspend the sentence of any person who is convicted of a violation of this section and who provides substantial assistance in the identification, arrest, or conviction of any of his or her accomplices, accessories, coconspirators, or principals.

(3) Proof that a person accused of violating this section knowingly made a false report is prima facie evidence of the accused person's intent to deceive, mislead, or otherwise misinform any person.

(4) In addition to any other penalty provided by law with respect to any person who is convicted of a violation of this section that resulted in the mobilization or action of any law enforcement officer or any state or local agency, a person convicted of a violation of this section may be required by the court to pay restitution for all of the costs and damages arising from the criminal conduct.

Section 2. Section 790.164, Florida Statutes, is amended to read:

576-03396-16

790.164 False reports concerning planting a bomb, explosive, or weapon of mass destruction in, or committing arson against, state-owned property, or concerning use of firearms in a violent manner; penalty; reward.—

(1) It is unlawful for any person to make a false report, with intent to deceive, mislead, or otherwise misinform any person, concerning the placing or planting of any bomb, dynamite, other deadly explosive, or weapon of mass destruction as defined in s. 790.166, ~~or~~ concerning any act of arson or other violence to property owned by the state or any political subdivision, or concerning the use of firearms in a violent manner against a person or persons. A ~~Any~~ person who violates ~~violating~~ this subsection commits a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(2) Notwithstanding any other law, adjudication of guilt or imposition of sentence for a violation of this section may not be suspended, deferred, or withheld. However, the state attorney may move the sentencing court to reduce or suspend the sentence of any person who is convicted of a violation of this section and who provides substantial assistance in the identification, arrest, or conviction of any of his or her accomplices, accessories, coconspirators, or principals.

(3) Proof that a person accused of violating this section knowingly made a false report is prima facie evidence of the accused person's intent to deceive, mislead, or otherwise misinform any person.

(4)(a) There shall be a $5,000 reward for the giving of information to any law enforcement agency in the state, which information leads to the arrest and conviction of any person

576-03396-16

violating the provisions of this section. Any person claiming such reward shall apply to the law enforcement agency developing the case and be paid by the Department of Law Enforcement from the deficiency fund.

(b) There shall be only one reward given for each case, regardless of how many persons are arrested and convicted in connection with the case and regardless of how many persons submit claims for the reward.

(c) The Department of Law Enforcement shall establish procedures to be used by all reward applicants, and the circuit judge in whose jurisdiction the action occurs shall review all such applications and make final determination as to those applicants entitled to receive an award.

(d) In addition to any other penalty provided by law with respect to any person who is convicted of a violation of this section that resulted in the mobilization or action of any law enforcement officer or any state or local agency, a person convicted of a violation of this section may be required by the court to pay restitution for all of the costs and damages arising from the criminal conduct.

Section 3. Section 836.12, Florida Statutes, is created to read:

836.12 Terroristic threats.—

(1) As used in this section, the term:

(a) "Family member of a person" means:

1. An individual related to the person by blood or marriage; or

2. An individual to whom the person stands in loco parentis.

(b) "Law enforcement officer" means:

1. Law enforcement officer as defined in s. 943.10; or

2. Federal law enforcement officer as defined in s. 901.1505.

(2) It is unlawful for a person to threaten to commit a crime of violence with the intent to cause, or with reckless disregard for the risk of causing:

(a) Terror; or

(b) The evacuation of a building, place of assembly, or facility of public transportation.

(3) A person who violates s. 790.163 or s. 790.164 commits a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084, if the violation:

(a) Causes the occupants of a building, place of assembly, or facility of public transportation to be diverted from their normal or customary operations;

(b) Involves a threat against a law enforcement officer, a state attorney or assistant state attorney, a firefighter, a judge, or an elected official; or

(c) Involves a threat against a family member of a person identified in paragraph (b).

(4) A person convicted of violating subsection (3) shall, in addition to any other restitution or penalty provided by law, pay restitution for all costs and damages caused by an evacuation resulting from the criminal violation.

Section 4. Paragraphs (e) and (f) of subsection (3) of section 921.0022, Florida Statutes, are amended to read:

921.0022 Criminal Punishment Code; offense severity ranking chart.—

(3) OFFENSE SEVERITY RANKING CHART

(e) LEVEL 5

Florida Statute	Felony Degree	Description
316.027(2)(a)	3rd	Accidents involving personal injuries other than serious bodily injury, failure to stop; leaving scene.

944.47(1)(a)5.	2nd	Introduction of contraband (firearm, weapon, or explosive) into correctional facility.
951.22(1)	3rd	Intoxicating drug, firearm, or weapon introduced into county facility.

Section 5. For the purpose of incorporating the amendment made by this act to section 790.163, Florida Statutes, in a reference thereto, paragraph (m) of subsection (2) of section 1006.07, Florida Statutes, is reenacted to read:

1006.07 District school board duties relating to student discipline and school safety.—The district school board shall provide for the proper accounting for all students, for the

attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(2) CODE OF STUDENT CONDUCT.—Adopt a code of student conduct for elementary schools and a code of student conduct for middle and high schools and distribute the appropriate code to all teachers, school personnel, students, and parents, at the beginning of every school year. Each code shall be organized and written in language that is understandable to students and parents and shall be discussed at the beginning of every school year in student classes, school advisory council meetings, and parent and teacher association or organization meetings. Each code shall be based on the rules governing student conduct and discipline adopted by the district school board and shall be made available in the student handbook or similar publication. Each code shall include, but is not limited to:

(m) Notice that any student who is determined to have made a threat or false report, as defined by ss. 790.162 and 790.163, respectively, involving school or school personnel's property, school transportation, or a school-sponsored activity will be expelled, with or without continuing educational services, from the student's regular school for a period of not less than 1 full year and referred for criminal prosecution. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a

disciplinary program or second chance school if it is determined to be in the best interest of the student and the school system.

Section 6. For the purpose of incorporating the amendment made by this act to section 790.163, Florida Statutes, in a reference thereto, paragraph (b) of subsection (3) of section 1006.13, Florida Statutes, is reenacted to read:

1006.13 Policy of zero tolerance for crime and victimization.—

(3) Zero-tolerance policies must require students found to have committed one of the following offenses to be expelled, with or without continuing educational services, from the student's regular school for a period of not less than 1 full year, and to be referred to the criminal justice or juvenile justice system.

(b) Making a threat or false report, as defined by ss. 790.162 and 790.163, respectively, involving school or school personnel's property, school transportation, or a school-sponsored activity.

District school boards may assign the student to a disciplinary program for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system. If a student committing any of the offenses in this subsection is a student who has a

418634

576-03396-16

disability, the district school board shall comply with applicable State Board of Education rules.

Section 7. This act shall take effect October 1, 2016.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 436 creates new criminal offenses relating to terroristic threats. The bill makes it unlawful for a person to threaten to commit a crime of violence with the intent to cause, or with reckless disregard for the risk of causing, terror or the evacuation of a building, place of assembly, or facility of public transportation.

Persons violating this offense commit a third degree felony punishable by up to five years imprisonment and a $5,000 fine. Persons commit a second degree felony punishable by up to 15 years imprisonment and a $10,000 fine if occupants of the building, place of assembly, or facility of public transportation are diverted from their normal or customary operations; if the threat is against instructional personnel, a law enforcement officer, state attorney or assistant state attorney, firefighter, judge, or elected official; or if the threat is against a family member of one of the identified persons.

The bill provides that in addition to any restitution or penalty, persons violating this section shall pay restitution for all costs and damages caused by the evacuation resulting from the criminal conduct.

The Criminal Justice Impact Conference reviewed HB 257, which is similar to this bill, and found that it will have a positive insignificant prison bed impact on the Department of Corrections (an increase of ten or fewer beds). It appears that the differences between this bill and HB 257 would not change the prison bed impact.

The bill has an effective date of July 1, 2016.

II. Present Situation:

Threat to Throw, Project, Place or Discharge any Destructive Device

Section 790.162, F.S., makes it a second degree felony[1] if a person threatens to throw, project, place, or discharge any destructive device with intent to do bodily harm to any person or with intent to do damage to any property of any person.

False reports concerning planting bomb, explosive, or weapon of mass destruction

Section 790.163, F.S., makes it a second degree felony if a person makes a false report, with intent to deceive, mislead, or otherwise misinform any person, concerning the placing or planting of any bomb, dynamite, or other deadly explosive, or weapon of mass destruction.[2] Persons who are convicted of commission of this offense that resulted in the mobilization of any law enforcement officer or any state or local agency, may be required by the court to pay restitution for all of the costs and damages arising from the criminal conduct.

False reports concerning planting a bomb, explosive, or weapon of mass destruction in, or committing arson against, state-owned property

Section 790.164, F.S., includes the same elements and has the same penalties as s. 790.163, F.S., but adds the additional element that the threat must relate to property owned by the state or any political subdivision. Additionally, this section prohibits threats concerning any act of arson or other violence to property owned by the state or a political subdivision.

Planting of "hoax bomb"

Section 790.165, F.S., makes it a second degree felony if a person, without lawful authority, manufactures, possesses, sells, delivers, sends, mails, displays, uses, threatens to use, attempts to use or conspires to use, or makes readily accessible to others, a "hoax bomb." [3]

---

[1] A second degree felony is punishable by up to 15 years in state prison and a fine of up to $10,000. *See,* ss. 775.082 and 775.083, F.S.

[2] "Weapon of mass destruction" is defined in s. 790.166(1)(a), F.S., to mean any device or object that is designed or intended to cause death or serious bodily injury to any human or animal, or severe emotional or mental harm to any human, through the release, dissemination, or impact of toxic or poisonous chemicals, or their precursors; any device or object involving a biological agent or that is designed or intended to release radiation or radioactivity at a level dangerous to human or animal life or any biological agent, toxin, vector, or delivery system.

[3] "Hoax bomb" is defined in s. 790.165(1), F.S., to mean any device or object that by its design, construction, content, or characteristics appears to be, or to contain, or is represented to be or to contain a destructive device or explosive but is in fact inoperable.

Manufacture, possession, sale, delivery, display, use, or attempted or threatened use of a weapon of mass destruction or hoax weapon of mass destruction

Section 790.166, F.S., makes it a first degree felony[4] if a person, without lawful authority, manufactures, possesses, sells, delivers, sends, mails, displays, uses, threatens to use, attempts to use or conspires to use, or makes readily accessible to others, a weapon of mass destruction.[5] The offense is a second degree felony if the device is a hoax weapon of mass destruction.[6]

False reports of commission of crimes

Section 817.49, F.S., provides that it is a first degree misdemeanor[7] to willfully impart, convey or cause to be imparted or conveyed to any law enforcement officer false information or reports concerning the alleged commission of any crime under Florida law, knowing the information to be false in that no such crime had actually been committed.

Threats; extortion

Section 836.05, F.S., provides that it is a second degree felony to maliciously, by verbal, written, or printed communication, to injure the person or property of another with intent to compel the threatened person, or any other person, to do any act or refrain from doing any act against his or her will.

Written Threats to Kill or Do Bodily Injury

Section 836.10, F.S., provides that it is a second degree felony to write or compose and send, or procure the sending of, any written communication containing a threat to kill or do bodily injury to the person to whom the letter is sent or a threat to kill or do bodily injury to the family of the person to whom such letter or communication is sent.

False reports to law enforcement authorities

Section 837.05, F.S., provides that it is a first degree misdemeanor to knowingly give false information to a law enforcement officer concerning the alleged commission of a crime. The penalty may be enhanced to a third degree felony under certain circumstances.

[4] A first degree felony is punishable by up to 30 years in state prison and a fine of up to $10,000. *See* ss. 775.082 and 775.083, F.S.
[5] For purposes of this section, the term "weapon of mass destruction" does not include self-defense devices that are lawfully possessed or used for self protection.
[6] "Hoax weapon of mass destruction" is defined in s. 790.166(1)(b), F.S., to mean any device or object that by its design, construction, content, or characteristics appears to be or to contain, or is represented to be, constitute, or contain, a weapon of mass destruction as defined in this section, but which is, in fact, an inoperative facsimile, imitation, counterfeit, or representation of a weapon of mass destruction which does not meet the definition of a weapon of mass destruction or which does not actually contain or constitute a weapon, biological agent, toxin, vector, or delivery system prohibited by this section.
[7] A first degree misdemeanor is punishable by up to one year in county jail and a $1,000 fine. *See*, ss. 775.082, and 775.083, F.S.

Corruption by threat against public servants

Section 838.021, F.S., makes it a felony to unlawfully harm or threaten to harm any public servant,[8] his or her immediate family, or any other person whose welfare the public servant is interested with the intent or purpose of:

- Influencing the performance of any act or omission that the person believes to be, or that the public servant represents as being, within the official discretion of the public servant, in violation or performance of a public duty[9];
- Causing or inducing the public servant to use or exert, or procure the use of exertion of any influence upon or with any other public servant regarding any act or omission which the defendant believes to be or the public servant represents as being, within the official discretion of the public servant, in violation or performance of a public duty.[10]

Prosecution under this section does not require allegation or proof that:

- The public servant ultimately sought to be unlawfully influenced was qualified to act in the desired way;
- That the public servant had assumed office;
- That the matter was properly pending before him or her or might by law properly be brought before him or her;
- That the public servant possessed jurisdiction over the matter; or
- That his or her official action was necessary to achieve the person's purpose.[11]

It is a second degree felony if the defendant actually does harm or a third degree felony[12] if the defendant threatens harm.

Breach of the peace; disorderly conduct

Section 877.03, F.S., provides that it is a second degree misdemeanor[13] to "… engage in such conduct as to constitute a breach of the peace or disorderly conduct." The Florida Supreme Court has narrowed the scope of the conduct that is prohibited under this section:

> In light of these considerations, we now limit the application of Section 877.03 so that it shall hereafter only apply either to words which "by their very utterance ... inflict injury or tend to incite an immediate breach of the peace," or to words, known to be false, reporting some physical hazard in circumstances where such a report creates a clear and present danger of bodily harm to others. We construe the statute so that no words except "fighting words" or words like shouts of "fire" in a crowded theatre fall within its proscription, in order to avoid the constitutional

[8] Section 838.021, F.S.
[9] Section 838.021(1)(a), F.S.
[10] Section 838.021(1)(b), F.S.
[11] Section 838.021(2), F.S.
[12] A third degree felony is punishable by up to 5 years in state prison and a fine of up to $5,000. *See,* ss. 775.082 and 775.083, F.S.
[13] A second degree misdemeanor is punishable by up to sixty days in county jail and a $500 fine. *See,* ss. 775.082, and 775.083, F.S.

problem of overbreadth, and "the danger that a citizen will be punished as a criminal for exercising his right of free speech."[14]

Disruption of educational institutions or school boards

Section 877.13, F.S., provides that it is a second degree misdemeanor to knowingly disrupt or interfere with the lawful administration or functions of any educational institution, school board, or activity on school board property; to knowingly interfere with the attendance of any other school pupil or school employee in a school or classroom; or to engage in any school campus or school function disruption or disturbance which interferes with the educational processes or with the orderly conduct of a school campus, school, or school board function or activity on school board property.

The Pasco Sheriff's Office (Sheriff's Office) asserts that this bill would address issues that existing statutes do not, including clearly prohibiting threats to do harm by use of firearms. According to the Sheriff's Office, the bill's inclusion of all types of threats, application even if a specific victim is not identified in the threat, and inclusion of threats that are made with the intent to cause terror or evacuation of a location, would give law enforcement the necessary tools to bring charges when these types of events take place.

III. Effect of Proposed Changes:

The bill creates s. 836.12, F.S., dealing with terroristic threats, and makes it a third degree felony to threaten to commit a crime of violence with the intent to cause, or with reckless disregard for the risk of causing:

- Terror; or
- Evacuation of a building, place of assembly, or facility of public transportation.

Persons commit a second degree felony punishable by up to 15 years imprisonment and a $10,000 fine if:

- Occupants of the building, place of assembly, or facility of public transportation are diverted from their normal or customary operations; or
- The threat is against instructional personnel, a law enforcement officer, state attorney or assistant state attorney, firefighter, judge, elected official, or any of their family members.

The bill requires any person violating the new criminal offense, in addition to any restitution or penalty, to pay restitution for all costs and damages caused by the evacuation resulting from the criminal conduct.

For purposes of the act the bill provides the following definitions:

- "Facility of public transportation" – is defined as a public conveyance and any area, structure, or device which is used to support, guide, control, permit, or facilitate the movement, starting, stopping, takeoff, landing, or servicing of a public conveyance, or the loading or unloading of passengers, freight, or goods and includes a passenger or freight

[14] *State v. Saunders*, 339 So.2d 641, 644 (Fla.1976) (internal citations omitted) (quoting *White v. State*, 330 So.2d 3, 7 (Fla.1976), and *Spears v. State*, 337 So.2d 977, 980 (Fla.1976)).

train, airplane, bus, truck, car, boat, tramway, gondola, lift, elevator, escalator, or other device used for the public carriage of persons or property.

- "Family member of a person" is defined as:
  - An individual related to the person by blood or marriage;
  - An individual living in the person's household or having the same legal residence as the person;
  - An individual who is engaged to be married to the person, or who holds himself or herself out as, or is generally known as, an individual whom the person intends to marry; or
  - An individual to whom the person stands in loco parentis.[15]
- "Instructional personnel" is defined in accordance with s. 1012.01, F.S.[16]
- "Law enforcement officer" is defined as a current or former:
  - Law enforcement officer, correctional officer, correctional probation officer, part-time law enforcement officer, part-time correctional officer, part-time correctional probation officer, auxiliary law enforcement officer, auxiliary correctional officer, or auxiliary correctional probation officer, as those terms are respectively defined in s. 943.10, or a county probation officer;
  - Employee or agent of the Department of Corrections who supervises or provides services to inmates;
  - Officer of the Florida Commission on Offender Review;
  - Federal law enforcement officer as defined in s. 901.1505; or
  - Law enforcement personnel of the Fish and Wildlife Conservation Commission or the Department of Law Enforcement.

The bill has an effective date of July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

[15] "In loco parentis" means "in the place of a parent." MERRIAM-WEBSTER, *In Loco Parentis*, http://www.merriam-webster.com/dictionary/in%20loco%20parentis (last visited February 5, 2016).
[16] "Instructional personnel" means any K-12 staff member whose function includes the provision of direct instructional services to students. The term also includes K-12 personnel whose functions provide direct support in the learning process of students. *See, s.* 1012.01(2), F.S.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The Criminal Justice Impact Conference reviewed HB 257, which is similar to CS/SB 436, and determined that it will have a positive insignificant prison bed impact on the Department of Corrections (an increase of ten or fewer beds). It appears that the differences between this bill and HB 257 would not change this determination.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill creates section 836.12 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Criminal Justice on January 25, 2016:

- Adds and clarifies definitions.
- Revises the prohibition in the bill to apply to threats to commit a crime of violence with intent to cause, or reckless disregard for causing terror or the evacuation of a public building, place of assembly, or facility of public transportation.
- Clarifies the requirement for persons convicted under the bill to pay restitution.
- The effective date is changed from October 1, 2016 to July 1, 2016.

B. Amendments:

None.

By the Committee on Criminal Justice; and Senator Simpson

591-02535-16 2016436c1

A bill to be entitled

An act relating to terroristic threats; creating s. 836.12, F.S.; providing definitions; providing that a person commits the crime of terroristic threats if he or she threatens to commit a crime of violence under certain circumstances; providing criminal penalties; requiring payment of restitution; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 836.12, Florida Statutes, is created to read:

836.12 Terroristic threats.—

(1) As used in this section, the term:

(a) "Facility of public transportation" means a public conveyance and any area, structure, or device which is used to support, guide, control, permit, or facilitate the movement, starting, stopping, takeoff, landing, or servicing of a public conveyance, or the loading or unloading of passengers, freight, or goods. For purposes of this paragraph, the term "public conveyance" includes a passenger or freight train, airplane, bus, truck, car, boat, tramway, gondola, lift, elevator, escalator, or other device used for the public carriage of persons or property.

(b) "Family member of a person" means:

1. An individual related to the person by blood or marriage;

2. An individual living in the person's household or having the same legal residence as the person;

3. An individual who is engaged to be married to the person, or who holds himself or herself out as, or is generally

591-02535-16 2016436c1

known as, an individual whom the person intends to marry; or

4. An individual to whom the person stands in loco parentis.

(c) "Instructional personnel" has the same meaning as provided in s. 1012.01.

(d) "Law enforcement officer" means a current or former:

1. Law enforcement officer, correctional officer, correctional probation officer, part-time law enforcement officer, part-time correctional officer, part-time correctional probation officer, auxiliary law enforcement officer, auxiliary correctional officer, or auxiliary correctional probation officer, as those terms are respectively defined in s. 943.10, or county probation officer;

2. Employee or agent of the Department of Corrections who supervises or provides services to inmates;

3. Officer of the Florida Commission on Offender Review;

4. Federal law enforcement officer as defined in s. 901.1505; or

5. Law enforcement personnel of the Fish and Wildlife Conservation Commission or the Department of Law Enforcement.

(2) It is unlawful for a person to threaten to commit a crime of violence with the intent to cause, or with reckless disregard for the risk of causing:

(a) Terror; or

(b) The evacuation of a building, place of assembly, or facility of public transportation.

(3) Except as provided in subsection (4), a person who violates subsection (2) commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(4) A person who violates subsection (2) commits a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084, if the violation:

(a) Causes the occupants of a building, place of assembly, or facility of public transportation to be diverted from their normal or customary operations;

(b) Involves a threat against instructional personnel, a law enforcement officer, state attorney or assistant state attorney, firefighter, judge, or elected official; or

(c) Involves a threat against a family member of a person identified in paragraph (b).

(5) A person convicted of violating subsection (2) shall, in addition to any other restitution or penalty provided by law, pay restitution for all costs and damages caused by an evacuation resulting from the criminal conduct.

Section 2. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 442
INTRODUCER:	Senators Flores and Garcia
SUBJECT:	Educational Facilities
DATE:	February 24, 2016
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Scott	Klebacha	ED	**Favorable**
2.	Sikes	Elwell	AED	**Recommend: Favorable**
3.	Sikes	Kynoch	AP	**Pre-meeting**

I. Summary:

SB 442 authorizes a district school board to adopt, by supermajority vote, a resolution to implement exceptions to the State Requirements for Educational Facilities (SREF). The bill requires that the district school board adopt the resolution at a public meeting that begins no earlier than 5 p.m., and conduct a cost-benefit analysis using a professionally accepted methodology for each exception selected by the district school board.

Specifically, the bill authorizes implementation of the following exceptions to the SREF:

- Interior nonload-bearing walls.
- Walkways, roadways, driveways, and parking areas.
- Standards for relocatables used as classroom space.
- Site lighting.

The bill has no impact on state funds. District school boards that adopt the authorized exceptions may achieve cost savings.

The bill provides an effective date of July 1, 2016.

II. Present Situation:

State Requirements for Educational Facilities

The Florida Building Commission (commission) adopts the State Requirements for Educational Facilities (SREF) within the Florida Building Code (FBC), which governs the planning and

construction of public educational and ancillary plants.[1] The State Fire Marshal adopts standards for public school fire safety within the Florida Fire Prevention Code (FFPC).[2]

The construction of public educational facilities[3] and ancillary plants by a district school board must conform to the FBC, FFPC, and the Florida Accessibility Code for Building Construction[4] (FACBC).[5] Collectively, the FBC, FFPC, and FACBC form the uniform building code for public educational facilities construction and ensure that such facilities are a safe, secure, sanitary, and accessible learning environment for all students, and that the structures will perform efficiently over their expected life cycles.[6] The requirements preempt local codes and local amendments to the FBC.[7]

The SREF specifies standards including, but not limited to:[8]

- Interior walls;[9]
- Walks, roads, drives, and parking areas;[10]
- Covered walks;[11] and
- Site lighting.[12]

[1] Sections 553.73 and 1013.37(1), F.S.; Rule 6A-2.0010, F.A.C.; Section 423, FBC. The 2014 *State Requirements for Educational Facilities* (effective Nov. 4, 2014) are *available at* http://www.fldoe.org/core/fileparse.php/7738/urlt/srefrule14.pdf.

[2] Sections 381.006(16), 1013.03(6), and 1013.37(1) and (4), F.S.; Section 443, FBC.

[3] "Educational facilities" is defined as the buildings and equipment, structures, and special educational use areas that are built, installed, or established to serve primarily the educational purposes and secondarily the social and recreational purposes of the community and which may lawfully be used as authorized by the Florida Statutes and approved by boards. Section 1013.01(6), F.S.

[4] The federal Americans with Disabilities Act Standards for Accessible Design, and related regulations in 28 C.F.R. parts 35 and 36 and 49 C.F.R. part 37, are adopted by the Florida Building Commission. Sections 553.503 and 553.73(1)(b), F.S.

[5] The ancillary plants are exempt from other state building codes; county, municipal, or other local amendments to the FBC and local amendments to the FFPC; building permits, and assessments of fees for building permits; ordinances; road closures; and impact fees or service availability fees. Section 1013.371(1)(a), F.S.

[6] Florida Department of Education, *2016 Agency Legislative Bill Analysis* (Oct. 12, 2015), at 2 (on file with the staff of the Senate Committee on Education Pre-K – 12).

[7] The enforcement of construction regulations governing public school districts is conducted by personnel and contract providers who are certified to perform plan reviews and inspections. Section 553.80(1)(e) and (6), F.S.

[8] Section 423 of the FBC contains the State Requirements for Educational Facilities (SREF). However, the Florida Building Code has been redrafted and section 423 will be renumbered as section 453. *The Florida Building Code, Draft Building Chapters*, 5th Edition (2014) is *available at* http://ecodes.biz/ecodes_support/free_resources/14FloridaDraft/Building/14FL_Building_Draft.html (last visited January 23, 2016).

[9] Interior nonload-bearing wood studs or partitions may not be used in permanent educational and auxiliary facilities or relocatable buildings. Section 423.8.3.1.1, FBC.

[10] Walks, roads, drives, and parking areas on educational and ancillary sites must be paved. Roads, drives, and parking areas shall be in compliance with Department of Transportation (DOT) road specifications and striped in compliance with DOT paint specifications. All paved areas must have positive drainage. Section 423.10.2, FBC.

[11] All buildings in K-12 educational facilities must be connected by paved walks and accessible under continuous roof cover. New relocatable classroom buildings must be connected to permanent buildings by paved covered walks where applicable. Section 423.10.2.1, FBC.

[12] Design, construction, and installation of exterior security lighting for educational and ancillary facilities must be provided for auto, bus, and service drives and loading areas; parking areas; building perimeter; and covered and connector walks between buildings and between buildings and parking. Section 423.10.3, FBC.

Proposed Construction, Renovation, or Remodeling Plans

Review by the District School Board

Before the commencement of the construction, renovation, or remodeling of any educational or ancillary plants, a district school board must review the construction plans, including any related documents.[13] In reviewing the plans, the district school board must consider, among other things:[14]

- The need for the new facility.
- The energy efficiency and conservation of design.
- Life-cycle cost considerations.
- The proposed construction cost per gross square foot.
- Plans for future expansion.
- The type of construction.
- Sanitary provisions.
- The design to accommodate physically handicapped persons.
- Conformity with the FBC and FFPC standards.

Approval by the District School Board

Before approving any construction plans, a district school board must ensure that the plans comply with the applicable standards of the FBC and the FFPC.[15] For each proposed new facility and each proposed new addition, exceeding 2,500 square feet, the district school board must submit a copy of the plans[16] to the county, municipality, or independent special fire control district providing fire protection services to the facility for review at no charge.[17] Upon determining that the construction plans comply with the applicable standards, the district school board may approve the plans and construction may begin on the facilities.[18]

Waivers or Variances

The State Constitution prohibits the enactment of any special act or general law of local application that proposes to amend, alter, or contravene the provisions of the SREF.[19] Legislative intent is that building officials, local enforcement agencies, and the commission interpret the FBC in a manner that protects the public safety, health, and welfare at the most reasonable cost.[20]

[13] Section 1013.37(2)(a) and (b), F.S.
[14] Section 1013.37(2)(b), F.S.
[15] Sections 1013.37(2), 1013.371(1)(c), and 1013.38(4)(a), F.S.
[16] Such site plans are exempt from all other state building codes; local amendments to the FBC and FFPC; local ordinances; building permits, including related fees; road closures; and impact fees or service availability fees. Sections 1013.371(1)(a) and 1013.38(1)(b), F.S.
[17] Section 1013.38(1)(a) and (b), F.S.
[18] Sections 1013.37(2)(a) and 1013.38(4)(a), F.S.
[19] Section 1013.37(5), F.S. The enactment of a special law or general law of local application is prohibited if pertaining to a subject prohibited by general law. Art. III, s. 11(a)(21), Fla. Const.
[20] Section 553.775(1), F.S.

The Florida Building Commission (commission) is not authorized to accept a petition for and may not grant any waiver[21] or variance[22] from the requirements of the FBC.[23] However, the commission is required to adopt criteria and procedures for granting alternative means of compliance with the FBC standards, or local amendments to the FBC, for enforcement by local governments, local enforcement districts, or other entities authorized by law to enforce the FBC.[24]

Upon a determination by the commission of unnecessary, unreasonable, or extreme economic hardship, provided the waiver does not violate federal accessibility laws and regulations, the commission must grant an applicant's request for waiver.[25]

If planned or actual construction of a facility deviates from the standards, a district school board must, at a public hearing, quantify and compare the costs of constructing the facility with the proposed deviations and in compliance with the adopted standards and the FBC, and explain the reason for the proposed deviations.[26]

III. Effect of Proposed Changes:

This bill authorizes a district school board to adopt, by supermajority vote, a resolution to implement exceptions to the State Requirements for Educational Facilities (SREF). The bill requires that the district school board adopt the resolution at a public meeting that begins no earlier than 5 p.m., and conduct a cost-benefit analysis using a professionally accepted methodology for each exception selected by the district school board.

The bill authorizes implementation of the following exceptions to the SREF relating to:

- Interior nonload-bearing walls, by approving the use of fire-rated wood stud walls in new construction or remodeling for interior nonload-bearing wall assemblies that will not be exposed to water or located in wet areas.
- Walkways, roadways, driveways, and parking areas, by approving the use of designated, stabilized, and well-drained gravel or grassed student parking areas.
- Standards for relocatables used as classroom space, by approving construction specifications for installation of relocatable buildings that do not have covered walkways leading to the permanent buildings onsite.
- Site lighting, by approving construction specifications regarding site lighting that:

[21] "Waiver" means a decision by an agency to apply all or part of a rule to a person who is subject to the rule. Any waiver must conform to the standards for waivers outlined in the Administrative Procedure Act and in the uniform rulemaking procedures. Section 120.52(22), F.S. (definition of "waiver"); Section 120.54, F.S. (rulemaking procedure).
[22] "Variance" means a decision by an agency to grant a modification to all or part of the literal requirements of an agency rule to a person who is subject to the rule. Any variance must conform to the standards for variances outlined in the Administrative Procedure Act and in the uniform rulemaking procedures. Section 120.52(21), F.S. (definition of "variance"); Section 120.54, F.S. (rulemaking procedure).
[23] Sections 120.80(16)(a) and (b) and 553.512(1), F.S.
[24] Section 120.80(16)(b), F.S. Each local government and each code enforcement agency with statutory authority must regulate building construction and enforce the FBC standards. Section 553.513, F.S.
[25] Section 553.512(1), F.S. Alterations made to provide an accessible path of travel to the altered area will be deemed disproportionate to the overall alteration when the cost exceeds 20 percent of the cost of the alteration to the primary function area. 28 C.F.R. s. 36.403(f)(1).
[26] Section 1013.371(2), F.S.

- Do not provide for lighting of gravel or grassed auxiliary or student parking areas.
- Provide lighting for walkways, roadways, driveways, paved parking lots, exterior stairs, ramps, and walkways from the exterior of the building to a public walkway through installation of a timer that is set to provide lighting only during periods when the site is occupied.
- Allow lighting for building entrances and exits to be installed with a timer that is set to provide lighting only during periods in which the building is occupied. The minimum illumination level at single-door exits may be reduced to no less than 1 footcandle.[27]

Before voting on a resolution, the district school board must conduct a cost-benefit analysis using a professionally accepted methodology that describes how each proposed exception:

- Achieves cost savings;
- Improves the efficient use of school district resources;
- Impacts the life-cycle costs and life span for each educational facility to be constructed; and
- Demonstrates that implementation of the exception will not compromise student safety or the quality of student instruction.

The bill requires that the district school board hold at least one public workshop, beginning no earlier than 5 p.m., to discuss and receive public comment on the proposed resolution and cost-benefit analysis, and authorizes the district school board to vote on the resolution at the same meeting. Otherwise, the vote on the resolution must be made during a public meeting beginning no earlier than 5 p.m.

The bill provides an effective date of July 1, 2016.

By Senator Flores

37-00516-16 2016442__

A bill to be entitled

An act relating to educational facilities; creating s. 1013.385, F.S.; providing for school district construction flexibility; authorizing exceptions to educational facilities construction requirements under certain circumstances; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 1013.385, Florida Statutes, is created to read:

1013.385 School district construction flexibility.—

(1) A district school board may, with a supermajority vote at a public meeting that begins no earlier than 5 p.m., adopt a resolution to implement one or more of the exceptions to the educational facilities construction requirements provided in this section. Before voting on the resolution, a district school board must conduct a cost-benefit analysis prepared according to a professionally accepted methodology that describes how each exception selected by the district school board achieves cost savings, improves the efficient use of school district resources, and impacts the life-cycle costs and life span for each educational facility to be constructed, as applicable, and demonstrates that implementation of the exception will not compromise student safety or the quality of student instruction. The district school board must conduct at least one public workshop to discuss and receive public comment on the proposed resolution and cost-benefit analysis, which must begin no earlier than 5 p.m. and may occur at the same meeting at which

37-00516-16 2016442__

the resolution will be voted upon.

(2) A resolution adopted under this section may propose implementation of exceptions to requirements of the uniform statewide building code for the planning and construction of public educational and ancillary plants adopted pursuant to ss. 553.73 and 1013.37 relating to:

(a) Interior nonload-bearing walls, by approving the use of fire-rated wood stud walls in new construction or remodeling for interior nonload-bearing wall assemblies that will not be exposed to water or located in wet areas.

(b) Walkways, roadways, driveways, and parking areas, by approving the use of designated, stabilized, and well-drained gravel or grassed student parking areas.

(c) Standards for relocatables used as classroom space, as specified in s. 1013.20, by approving construction specifications for installation of relocatable buildings that do not have covered walkways leading to the permanent buildings onsite.

(d) Site lighting, by approving construction specifications regarding site lighting that:

1. Do not provide for lighting of gravel or grassed auxiliary or student parking areas.

2. Provide lighting for walkways, roadways, driveways, paved parking lots, exterior stairs, ramps, and walkways from the exterior of the building to a public walkway through installation of a timer that is set to provide lighting only during periods when the site is occupied.

3. Allow lighting for building entrances and exits to be installed with a timer that is set to provide lighting only

during periods in which the building is occupied. The minimum illumination level at single-door exits may be reduced to no less than 1 footcandle.

Section 2. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 524 (314320)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Education); Higher Education Committee; and Senator Gaetz
SUBJECT:	State University System Performance-based Incentives

2.	Sikes	Elwell	AED	**Recommend: Fav/CS**
3.	Sikes	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 524 incorporates into the Florida Statutes on July 1, 2016, and modifies public postsecondary education performance funding and educator liability insurance program provisions affected by the 2015-2016 General Appropriations Act (GAA) and Implementing Bill by:

- Requiring the Board of Governors (BOG) to adopt a regulation implementing the State University System (SUS) Performance-Based Incentive Program. The program must include wage thresholds that reflect the added value of a baccalaureate degree and minimum performance funding eligibility thresholds that, if not met, will make an institution ineligible for the state's investment in performance funding.
- Requiring the State Board of Education (SBE or state board) to establish, by rule, performance-based metrics for the Florida College System (FCS) and minimum performance funding eligibility thresholds that, if any FCS institution does not meet, will make the institution ineligible for a share of the state's investment in performance funding. Likewise, any FCS institution that fails to meet the threshold for the institutional investment shall have a portion of its institutional investment withheld.
- Eliminating the July 1, 2016, expiration date of the educator liability insurance program that provides a minimum of $2 million in liability coverage for all full-time public school instructional personnel.

During the 2015A Special Session, the Legislature adopted the substance of PCS/CS/SB 524, related to the SUS Performance-Based Incentive, the FCS Performance-Based Incentive, and the educator liability insurance program, in ch. 2015-222, L.O.F., the implementing bill for the 2015-2016 General Appropriations Act (GAA). These provisions will expire on July 1, 2016, unless the Legislature acts to codify the policy beyond the 2015-2016 fiscal year. PCS/CS/SB 524 protects these policies from repeal by reenacting modified provisions and providing an effective date of July 1, 2016.

The bill also amends the preeminent state research universities program, to require the BOG to designate each state university that meets at least six of the 12 academic and research excellence standards identified in law as an "emerging preeminent state research university." The bill modifies the academic and research excellence standards of the preeminent state research universities program and establishes funding parameters for universities designated as "preeminent" or "emerging preeminent."

The bill has no impact on state funds. The amount of performance funding available to SUS and FCS institutions is determined annually in the GAA. In the 2015-2016 fiscal year, the Legislature appropriated $150 million for the state's investment in the SUS Performance-Based Incentive and $20 million for the state's investment in the FCS Performance-Based Incentive. Likewise, funding for the preeminent state research universities program, as well as the educator liability insurance program, are contingent upon funding in the GAA. In the 2015-2016 fiscal year, the Legislature appropriated $10 million for the preeminent state research universities program and $1.2 million for the educator liability insurance program.

The bill is effective July 1, 2016.

II. Present Situation:

Performance-Based Funding

The Legislature has established performance-based funding models in the recent years to evaluate the performance of Florida's public educational institutions, such as state universities and FCS institutions, based on identified performance metrics.

State University System

In 2014, the Legislature required that performance funding be allocated based on the BOG's Performance Funding Model approved on January 16, 2014.[1] The BOG's Performance Funding Model contained 10 performance metrics that evaluate the state universities on the following:[2]

- Percent of bachelor's degree graduates employed and/or continuing their education;
- Average wages of employed baccalaureate graduates;

[1] Specific Appropriation 143, ch. 2014-51, L.O.F.
[2] Florida Board of Governors, *Meeting Minutes* (January 16, 2014), *available at* http://www.flbog.edu/documents_meetings/0187_0790_5874_10.2.2%20BOG%202014_01_16_Board_of_Governors_minutes.pdf; *see also* Florida Board of Governors, *Performance Funding Model Overview*, *available at* http://www.flbog.edu/about/budget/docs/performance_funding/Overview-Doc-Performance-Funding-10-Metric-Model-Condensed-Version-April2015.pdf.

- Cost per undergraduate degree;
- Six-year graduation rate (full-time and part-time first time in college (FTIC));
- Academic Progress Rate (second year retention with grade point average above 2.0);
- Bachelor's degrees awarded in areas of strategic emphasis (including Science, Technology, Engineering, and Math (STEM) education);
- University access rate (percent of undergraduates with a Pell Grant);
- Graduate degrees awarded in areas of strategic emphasis (including STEM);
- Two additional metrics, one chosen by each of the following:
  - Board of Governors and
  - University Board of Trustees

The performance of state universities are evaluated based on the benchmarks adopted by the BOG for achievement of excellence or improvement in these specified metrics. The 2014-2015 GAA appropriated $200 million for State University Performance Based Incentives, which included $100 million in new funding and $100 million redistributed from a proportionate share of each state university's base funds.[3] A state university that qualified for the new funding, also received its full base funding.[4] A state university that failed to meet the minimum performance threshold established by the BOG had a portion of its base funding withheld and was required to submit a performance improvement plan (plan) to the BOG.[5] The board was required to approve the plan and monitor the university's progress on implementing the performance measures specified in the plan.[6] Full base funding for a state university was restored upon the board's approval of the plan and progress monitoring reports.[7] Full base funding was not restored for a state university that fails to make satisfactory progress on meeting its performance improvement plan expectations.[8]

During the 2015A Special Session, the Legislature codified the SUS Performance-Based Incentive, which is based on indicators of institutional attainment of performance metrics adopted by the BOG.[9] These performance metrics include graduation rates, retention rates, postgraduation education rates, degree production, affordability, postgraduation employment and salaries, access, and other metrics approved by the board in a noticed meeting.[10] The Legislature instructed the BOG to adopt benchmarks to evaluate each state university's performance on the metrics to determine a state university's achievement of institutional excellence or need for improvement.[11] The 2015-2016 GAA appropriated $400 million for the SUS Performance-Based Incentive, which included $150 million for the state investment and $250 million for the institutional investment.[12]

Florida College System

In the 2015-2016 Implementing Bill, the Legislature established the FCS Performance Based Incentive, which is based on indicators of institutional attainment of performance metrics adopted by the state board. These performance metrics include metrics that measure retention; program completion and graduation rates; job placement; and post-graduation employment, salaries, or further education. FCS institutions were evaluated for their performance, based on benchmarks adopted by the state board for achievement of excellence or improvement on the metrics. In the 2015-2016 GAA, the Legislature appropriated $40 million for FCS performance, including $20 million in new funding and $20 million redistributed from a proportionate share of each institution's base funds.[13]

Educator Liability Insurance Program

The 2015-2016 Implementing Bill amended s. 1012.75, F.S., to require the Department of Education (department) to administer a liability insurance program to protect public school educators from liability for claims arising from incidents occurring while performing job responsibilities.[14] The program must provide coverage amounting to $2 million to all full-time instructional personnel.[15] Part-time instructional personnel, administrative personnel, and student teachers participating in clinical field experience through a state-approved teacher preparation program may opt to receive liability coverage, at cost.[16]

The law required the department, by August 1, 2015, to notify eligible personnel of the pending procurement for liability coverage. In addition, the law required each school district, by September 1, 2015, to notify eligible personnel of the liability coverage using a postcard which included:

- The amount of the coverage;
- A general description of the nature of the coverage; and
- The contact information for coverage and claims questions.[17]

The law required each district school board to certify to the department, by September 15, 2015, that the district had provided the notification to the eligible personnel.[18]

The department must consult with the Department of Financial Services to select the "most economically prudent and cost-effective means of implementing the program through self-insurance, a risk management program, or competitive procurement." [19]

These amendments to the educator liability insurance program will expire on July 1, 2016.

[19] Section 1012.75(3)(c), F.S

Preeminent State Research Universities

The preeminent state research university program is a collaborative partnership between the BOG and the Legislature to elevate the academic and research preeminence of Florida's highest performing state research universities.[20] A state research university that meets at least 11 of the 12 academic and research excellence standards specified in law is designated as a preeminent state research university.[21]

The academic and research excellence standards are:[22]

- An average weighted grade point average of 4.0 or higher on a 4.0 scale and an average SAT score of 1800 or higher for fall semester incoming freshmen, as reported annually.
- A top-50 ranking on at least two well-known and highly respected national public university rankings, reflecting national preeminence, using most recent rankings.
- A freshman retention rate of 90 percent or higher for full-time, first-time-in-college students, as reported annually to the Integrated Postsecondary Education Data System (IPEDS).
- A 6-year graduation rate of 70 percent or higher for full-time, first-time-in-college students, as reported annually to the IPEDS.
- Six or more faculty members at the state university who are members of a national academy, as reported by the Center for Measuring University Performance in the Top American Research Universities (TARU) annual report.
- Total annual research expenditures, including federal research expenditures, of $200 million or more, as reported annually by the National Science Foundation (NSF).
- Total annual research expenditures in diversified nonmedical sciences of $150 million or more, based on data reported annually by the NSF.
- A top-100 university national ranking for research expenditures in five or more science, technology, engineering, or mathematics fields of study, as reported annually by the NSF.
- One hundred or more total patents awarded by the United States Patent and Trademark Office for the most recent 3-year period.
- Four hundred or more doctoral degrees awarded annually, as reported in the BOG Annual Accountability Report.
- Two hundred or more postdoctoral appointees annually, as reported in the TARU annual report.
- An endowment of $500 million or more, as reported in the BOG Annual Accountability Report.

A preeminent state research university receives $5 million in recurring funds annually, subject to appropriation in the GAA.[23] Currently, only the Florida State University and University of Florida meet the standards for preeminent state research university designation and are Florida's only two preeminent state research universities.[24]

III. Effect of Proposed Changes:

This bill re-enacts and amends the FCS Performance-Based Incentive and the SUS Performance-Based Incentive, re-enacts 2015A Special Session amendments to the educator liability insurance program, and amends the preeminent state research universities program.

Performance-Based Funding

State University System

The bill re-enacts and modifies the SUS Performance-Based Incentive to:

- Require the performance-based metrics to include wage thresholds that reflect the added value of a baccalaureate degree.
- Require the BOG to establish minimum performance funding eligibility thresholds for the state's investment and the institutional investment.
- Prohibit a state university that fails to meet the state's investment performance funding threshold from eligibility to receive a share of the state's investment performance funding.

Additionally, the bill requires the BOG to adopt a regulation to implement the SUS Performance-Based Incentive statutory provisions.

Florida College System

The bill re-enacts the FCS Performance-Based Incentive and requires the state board to adopt rules for its implementation. Specifically, the bill:

- Modifies the performance-based metrics to include metrics that measure: retention; program completion and graduation rates; postgraduation employment, salaries, and continuing education for workforce education and baccalaureate degree programs, with wage thresholds that reflect the added value of the certificate or degree; and outcome measures appropriate for associate degree recipients.
- Requires the state board to establish minimum performance funding eligibility thresholds for both the state's investment and the institutional investment.
- Specifies that any institution that does not meet the SBE's performance threshold for the state's investment is not eligible for a share of the state's investment in performance funding.
- Specifies that each institution's share of performance funding shall be calculated based on its relative performance on the established metrics, in conjunction with the institution's size and scope.
- Requires that any institution that fails to meet the SBE's performance threshold for the institutional investment shall have a portion of its institutional investment withheld and must submit an improvement plan to the state board which specifies activities and strategies for improving the institution's performance.
- Requires the SBE, by October 1 of each year, to submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives on the previous fiscal year's performance funding allocation which must reflect the rankings and award distributions.

Educator Liability Insurance Program

The bill re-enacts amendments made to the educator liability insurance program during the 2015A Special Session by eliminating the July 1, 2016, statutory expiration date. The program requires the department and each school district to provide annual notification of the $2 million insurance coverage to eligible personnel. District school boards must annually certify to the department that the notification has been provided. In addition, the bill requires a district school board providing clinical field experience to students in teacher preparation programs to notify the student electronically or in writing of the availability of educator liability insurance. Postsecondary educational institutions and district school boards are prohibited from requiring a student in a teacher preparation program to purchase liability insurance as a condition of participation in any clinical field experience or related activity on the premises of an elementary or secondary school.

During the 2015A Special Session, the Legislature adopted the substance of PCS/CS/SB 524 related to the SUS Performance-Based Incentive, the FCS Performance-Based Incentive, and the educator liability insurance program in ch. 2015-222, L.O.F., the implementing bill for the 2015-2016 GAA. These provisions will expire on July 1, 2016, unless the Legislature acts to codify the policy beyond the 2015-2016 fiscal year. PCS/CS/SB 524 protects these polices from repeal by reenacting modified provisions and providing an effective date of July 1, 2016.

Preeminent State Research Universities

The bill modifies the academic and research excellence standards of the preeminent state research universities program by:

- Aligning the required average SAT score for incoming freshman with recent changes to the SAT examination scoring rubric;
- Specifying that the U.S. News and World Report rankings is one of the rankings that should be considered for the Top-50 Ranking requirement;
- Including the official membership directories maintained by each national academy (in addition to the Top American Research Universities (TARU) annual report) as a source for verification of recognition of faculty members in a national academy; and
- Including professional degrees awarded in medical and healthcare disciplines in the calculation of the number of doctoral degrees awarded annually.

Currently, each state university that meets at least 11 of the 12 academic and research excellence standards above is designated as a "preeminent state research university." The bill requires the BOG to also designate each state university that meets at least six of the 12 academic and research excellence standards as an "emerging preeminent state research university." However, the BOG may temporarily suspend or rescind the "preeminent" or "emerging preeminent" designation upon petition from a designated institution. The BOG may also revoke either designation of an institution with concurrence of the Governor, the President of the Senate, and the Speaker of the House of Representatives.

The bill requires a state university that is designated as an "emerging preeminent state research university" to submit to the BOG a 5-year benchmark plan, with target rankings on key performance metrics for national excellence. Once approved by the BOG and upon the university

meeting the benchmark goals annually, the BOG shall award the university its proportional share of any funds provided annually in the GAA to support the program.

The bill repeals the preeminent state research university enhancement initiative. This initiative authorizes additional funding for preeminent state research universities for the purpose of recruiting National Academy Members, providing a master's degree in cloud virtualization, and instituting an enterprise in resident program, if funding was provided in the GAA. The bill also repeals the preeminent state research university special course requirement authority. This authority allows preeminent state research universities to require incoming first time in college students to take a 9 to 12 credit set of unique courses specifically determined by the university.

Unless otherwise specified in the GAA, funding increases appropriated to support the program must be distributed equally to each designated "preeminent state research university" and each university designated as an "emerging preeminent state research university" shall receive an amount equal to one-half of the total increased amount awarded to each designated "preeminent state research university."

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

PCS/CS/SB 524 has no impact on state funds. All programs in the bill are contingent upon funding in the GAA. In the 2015-2016 fiscal year, the Legislature appropriated $150 million for the state's investment in the SUS Performance-Based Incentive, $20 million for the state's investment in the FCS Performance-Based Incentive, $10 million for the preeminent state research universities program, and $1.2 million for the educator liability insurance program.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1001.7065, 1001.92, 1012.39, and 1012.75.

This bill creates section 1001.66 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Education on December 3, 2015:
The committee substitute:

- Maintains provisions regarding state university performance funding.
- Re-enacts and amends the FCS Performance-Based Incentive.
- Modifies criteria for the preeminent state research university designation.
- Establishes an "emerging preeminent state research university" designation and establishes eligibility criteria.
- Re-enacts 2015A Special Session amendments to the educator liability insurance program.

CS by Higher Education on November 17, 2015:
The committee substitute restores current law regarding limiting to one fiscal year, the ability of state universities to submit performance improvement plans to the Florida Board of Governors of the State University System of Florida to receive institutional investment performance funding.

B. Amendments:

None.

741272

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Appropriations (Gaetz) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Present subsection (27) of section 1001.42, Florida Statutes, is redesignated as subsection (28), and a new subsection (27) is added to that section, to read:

1001.42 Powers and duties of district school board.—The district school board, acting as a board, shall exercise all powers and perform all duties listed below:

741272

(27) VISITATION OF SCHOOLS.—Visit the schools, observe the management and instruction, give suggestions for improvement, and advise citizens with the view of promoting interest in education and improving the school.

Section 2. Section 1001.66, Florida Statutes, is created to read:

1001.66 Florida College System Performance-Based Incentive.—

(1) A Florida College System Performance-Based Incentive shall be awarded to Florida College System institutions using performance-based metrics adopted by the State Board of Education. The performance-based metrics must include retention rates; program completion and graduation rates; postgraduation employment, salaries, and continuing education for workforce education and baccalaureate programs, with wage thresholds that reflect the added value of the certificate or degree; and outcome measures appropriate for associate of arts degree recipients. The state board shall adopt benchmarks to evaluate each institution's performance on the metrics to measure the institution's achievement of institutional excellence or need for improvement and minimum requirements for eligibility to receive performance funding.

(2) Each fiscal year, the amount of funds available for allocation to the Florida College System institutions based on the performance-based funding model shall consist of the state's investment in performance funding plus institutional investments consisting of funds to be redistributed from the base funding of the Florida College System Program Fund as determined in the General Appropriations Act. The State Board of Education shall

741272

establish minimum performance funding eligibility thresholds for the state's investment and the institutional investments. An institution that fails to meet the minimum state investment performance funding eligibility threshold is ineligible for a share of the state's investment in performance funding. The institutional investment shall be restored for all institutions eligible for the state's investment under the performance-based funding model.

(3)(a) Each Florida College System institution's share of the performance funding shall be calculated based on its relative performance on the established metrics in conjunction with the institutional size and scope.

(b) A Florida College System institution that fails to meet the State Board of Education's minimum institutional investment performance funding eligibility threshold shall have a portion of its institutional investment withheld by the state board and must submit an improvement plan to the state board which specifies the activities and strategies for improving the institution's performance. The state board must review and approve the improvement plan and, if the plan is approved, must monitor the institution's progress in implementing the activities and strategies specified in the improvement plan. The institution shall submit monitoring reports to the state board by December 31 and May 31 of each year in which an improvement plan is in place. The ability of an institution to submit an improvement plan to the state board is limited to 1 fiscal year.

(c) The Commissioner of Education shall withhold disbursement of the institutional investment until the monitoring report is approved by the State Board of Education. A

741272

Florida College System institution determined by the state board to be making satisfactory progress on implementing the improvement plan shall receive no more than one-half of the withheld institutional investment in January and the balance of the withheld institutional investment in June. An institution that fails to make satisfactory progress may not have its full institutional investment restored. Any institutional investment funds that are not restored shall be redistributed in accordance with the state board's performance-based metrics.

(4) Distributions of performance funding, as provided in this section, shall be made to each of the Florida College System institutions listed in the Florida Colleges category in the General Appropriations Act.

(5) By October 1 of each year, the State Board of Education shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report on the previous fiscal year's performance funding allocation, which must reflect the rankings and award distributions.

(6) The State Board of Education shall adopt rules to administer this section.

Section 3. Section 1001.67, Florida Statutes, is created to read:

1001.67 Distinguished Florida College System Program.—A collaborative partnership is established between the State Board of Education and the Legislature to recognize the excellence of Florida's highest-performing Florida College system institutions.

(1) EXCELLENCE STANDARDS.—The following excellence standards are established for the program:

741272

(a) A 150 percent-of-normal-time completion rate of 50 percent or higher, as calculated by the Division of Florida Colleges.

(b) A 150 percent-of-normal-time completion rate for Pell Grant recipients of 40 percent or higher, as calculated by the Division of Florida Colleges.

(c) A retention rate of 70 percent or higher, as calculated by the Division of Florida Colleges.

(d) A continuing education, or transfer, rate of 72 percent or higher for students graduating with an associate of arts degree, as reported by the Florida Education and Training Placement Information Program (FETPIP).

(e) A licensure passage rate on the National Council Licensure Examination for Registered Nurses (NCLEX-RN) of 90 percent or higher for first-time exam takers, as reported by the Board of Nursing.

(f) A job placement or continuing education rate of 88 percent or higher for workforce programs, as reported by FETPIP.

(g) A time-to-degree for students graduating with an associate of arts degree of 2.25 years or less for first-time-in-college students with accelerated college credits, as reported by the Southern Regional Education Board.

(2) DISTINGUISHED COLLEGE DESIGNATION.—The State Board of Education shall designate each Florida College System institution that meets five of the seven standards identified in subsection (1) as a distinguished college.

(3) DISTINGUISHED COLLEGE SUPPORT.—A Florida College System institution designated as a distinguished college by the State Board of Education is eligible for funding as specified in the

741272

General Appropriations Act.

Section 4. Subsection (1) of section 1001.7065, Florida Statutes, is reenacted, and subsections (2), (3), and (5) through (9) of that section are amended, to read:

1001.7065 Preeminent state research universities program.—

(1) STATE UNIVERSITY SYSTEM SHARED GOVERNANCE COLLABORATION.—A collaborative partnership is established between the Board of Governors and the Legislature to elevate the academic and research preeminence of Florida's highest-performing state research universities in accordance with this section. The partnership stems from the State University System Governance Agreement executed on March 24, 2010, wherein the Board of Governors and leaders of the Legislature agreed to a framework for the collaborative exercise of their joint authority and shared responsibility for the State University System. The governance agreement confirmed the commitment of the Board of Governors and the Legislature to continue collaboration on accountability measures, the use of data, and recommendations derived from such data.

(2) ACADEMIC AND RESEARCH EXCELLENCE STANDARDS.—~~Effective July 1, 2013,~~ The following academic and research excellence standards are established for the preeminent state research universities program:

(a) An average weighted grade point average of 4.0 or higher on a 4.0 scale and an average SAT score of 1800 or higher on a 2400-point scale or 1200 or higher on a 1600-point scale for fall semester incoming freshmen, as reported annually.

(b) A top-50 ranking on at least two well-known and highly respected national public university rankings, including, but

741272

not limited to, the U.S. News and World Report rankings, reflecting national preeminence, using most recent rankings.

(c) A freshman retention rate of 90 percent or higher for full-time, first-time-in-college students, as reported annually to the Integrated Postsecondary Education Data System (IPEDS).

(d) A 6-year graduation rate of 70 percent or higher for full-time, first-time-in-college students, as reported annually to the IPEDS.

(e) Six or more faculty members at the state university who are members of a national academy, as reported by the Center for Measuring University Performance in the Top American Research Universities (TARU) annual report or the official membership directories maintained by each national academy.

(f) Total annual research expenditures, including federal research expenditures, of $200 million or more, as reported annually by the National Science Foundation (NSF).

(g) Total annual research expenditures in diversified nonmedical sciences of $150 million or more, based on data reported annually by the NSF.

(h) A top-100 university national ranking for research expenditures in five or more science, technology, engineering, or mathematics fields of study, as reported annually by the NSF.

(i) One hundred or more total patents awarded by the United States Patent and Trademark Office for the most recent 3-year period.

(j) Four hundred or more doctoral degrees awarded annually, including professional doctoral degrees awarded in medical and health care disciplines, as reported in the Board of Governors Annual Accountability Report.

741272

(k) Two hundred or more postdoctoral appointees annually, as reported in the TARU annual report.

(l) An endowment of $500 million or more, as reported in the Board of Governors Annual Accountability Report.

(3) PREEMINENT STATE RESEARCH UNIVERSITY DESIGNATION.—

(a) The Board of Governors shall designate each state ~~research~~ university that annually meets at least 11 of the 12 academic and research excellence standards identified in subsection (2) as a "preeminent state research university." ~~preeminent state research university.~~

(b) The Board of Governors shall designate each state university that annually meets at least 6 of the 12 academic and research excellence standards identified in subsection (2) as an "emerging preeminent state research university."

(5) PREEMINENT STATE RESEARCH UNIVERSITIES PROGRAM ~~UNIVERSITY~~ SUPPORT.—

(a) A state ~~research~~ university that is designated as a preeminent state research university~~, as of July 1, 2013, meets all 12 of the academic and research excellence standards identified in subsection (2), as verified by the Board of Governors,~~ shall submit to the Board of Governors a 5-year benchmark plan with target rankings on key performance metrics for national excellence. Upon approval by the Board of Governors, and upon the university's meeting the benchmark plan goals annually, the Board of Governors shall award the university its proportionate share of any funds provided annually to support the program created under this section ~~an amount specified in the General Appropriations Act to be provided annually throughout the 5-year period. Funding for this~~

741272

~~purpose is contingent upon specific appropriation in the General Appropriations Act~~.

(b) A state university designated as an emerging preeminent state research university shall submit to the Board of Governors a 5-year benchmark plan with target rankings on key performance metrics for national excellence. Upon approval by the Board of Governors, and upon the university's meeting the benchmark plan goals annually, the Board of Governors shall award the university its proportionate share of any funds provided annually to support the program created under this section.

(c) The award of funds under this subsection is contingent upon funding provided in the General Appropriations Act to support the preeminent state research universities program created under this section. Funding increases appropriated beyond the amounts funded in the previous fiscal year shall be distributed as follows:

1. Each designated preeminent state research university that meets the criteria in paragraph (a) shall receive an equal amount of funding.

2. Each designated emerging preeminent state research university that meets the criteria in paragraph (b) shall receive an amount of funding that is equal to one-half of the total increased amount awarded to each designated preeminent state research university.

~~(6) PREEMINENT STATE RESEARCH UNIVERSITY ENHANCEMENT INITIATIVE.—A state research university that, as of July 1, 2013, meets 11 of the 12 academic and research excellence standards identified in subsection (2), as verified by the Board of Governors, shall submit to the Board of Governors a 5-year~~

741272

~~benchmark plan with target rankings on key performance metrics for national excellence. Upon the university's meeting the benchmark plan goals annually, the Board of Governors shall award the university an amount specified in the General Appropriations Act to be provided annually throughout the 5-year period for the purpose of recruiting National Academy Members, expediting the provision of a master's degree in cloud virtualization, and instituting an entrepreneurs-in-residence program throughout its campus. Funding for this purpose is contingent upon specific appropriation in the General Appropriations Act.~~

~~(7) PREEMINENT STATE RESEARCH UNIVERSITY SPECIAL COURSE REQUIREMENT AUTHORITY.—In order to provide a jointly shared educational experience, a university that is designated a preeminent state research university may require its incoming first-time-in-college students to take a 9-to-12-credit set of unique courses specifically determined by the university and published on the university's website. The university may stipulate that credit for such courses may not be earned through any acceleration mechanism pursuant to s. 1007.27 or s. 1007.271 or any other transfer credit. All accelerated credits earned up to the limits specified in ss. 1007.27 and 1007.271 shall be applied toward graduation at the student's request.~~

(6) ~~(8)~~ PREEMINENT STATE RESEARCH UNIVERSITY FLEXIBILITY AUTHORITY.—The Board of Governors is encouraged to identify and grant all reasonable, feasible authority and flexibility to ensure that a designated preeminent state research university is free from unnecessary restrictions.

(7) ~~(9)~~ PROGRAMS OF EXCELLENCE THROUGHOUT THE STATE

741272

UNIVERSITY SYSTEM.—The Board of Governors is encouraged to establish standards and measures whereby individual programs in state universities that objectively reflect national excellence can be identified and make recommendations to the Legislature as to how any such programs could be enhanced and promoted.

Section 5. Section 1001.92, Florida Statutes, is amended to read:

1001.92 State University System Performance-Based Incentive.—

(1) A State University System Performance-Based Incentive shall be awarded to state universities using performance-based metrics adopted by the Board of Governors of the State University System. The performance-based metrics must include graduation rates;~~,~~ retention rates;~~,~~ postgraduation education rates;~~,~~ degree production;~~,~~ affordability;~~,~~ postgraduation employment and salaries, including wage thresholds that reflect the added value of a baccalaureate degree; access;~~,~~ and other metrics approved by the board in a formally noticed meeting. The board shall adopt benchmarks to evaluate each state university's performance on the metrics to measure the state university's achievement of institutional excellence or need for improvement and minimum requirements for eligibility to receive performance funding.

(2) Each fiscal year, the amount of funds available for allocation to the state universities based on the performance-based funding model ~~metrics~~ shall consist of the state's investment in ~~appropriation for~~ performance funding~~, including increases in base funding~~ plus institutional investments consisting of funds deducted from the base funding of each state

741272

university in the State University System~~,~~ in an amount provided in the General Appropriations Act. The Board of Governors shall establish minimum performance funding eligibility thresholds for the state's investment and the institutional investments. A state university that fails to meet the minimum state investment performance funding eligibility threshold is ineligible for a share of the state's investment in performance funding. The institutional investment shall be restored for each institution eligible for the state's investment under the performance-based funding model ~~metrics~~.

(3)(a) A state university that fails to meet the Board of Governors' minimum institutional investment performance funding eligibility threshold shall have ~~a portion of~~ its institutional investment withheld by the board and must submit an improvement plan to the board that specifies the activities and strategies for improving the state university's performance. The board must review and approve the improvement plan and, if the plan is approved, must monitor the state university's progress in implementing the activities and strategies specified in the improvement plan. The state university shall submit monitoring reports to the board by December 31 and May 31 of each year in which an improvement plan is in place. The ability of a state university to submit an improvement plan to the board is limited to 1 fiscal year.

(b) The Chancellor of the State University System shall withhold disbursement of the institutional investment until the monitoring report is approved by the Board of Governors. A state university ~~that is~~ determined by the board to be making satisfactory progress on implementing the improvement plan shall

741272

receive no more than one-half of the withheld institutional investment in January and the balance of the withheld institutional investment in June. A state university that fails to make satisfactory progress may not have its full institutional investment restored. Any institutional investment funds that are not restored shall be redistributed in accordance with the board's performance-based metrics.

(4) Distributions of performance funding, as provided in this section, shall be made to each of the state universities listed in the Education and General Activities category in the General Appropriations Act.

(5) By October 1 of each year, the Board of Governors shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report on the previous fiscal year's performance funding allocation which must reflect the rankings and award distributions.

(6) The Board of Governors shall adopt regulations to administer this section ~~expires July 1, 2016~~.

Section 6. Subsection (4) is added to section 1002.391, Florida Statutes, to read:

1002.391 Auditory-oral education programs.—

(4) Beginning with the 2017-2018 school year, a school district shall add four special consideration points to the calculation of a matrix of services for a student who is deaf and enrolled in an auditory-oral education program.

Section 7. Subsections (1) and (2) of section 1002.53, Florida Statutes, are amended to read:

1002.53 Voluntary Prekindergarten Education Program; eligibility and enrollment.—

741272

(1) The Voluntary Prekindergarten Education Program is created and shall be organized, designed, and delivered in accordance with s. 1(b) and (c), Art. IX of the State Constitution.

(2) Each child who resides in this state who will have attained the age of 4 years on or before September 1 of the school year is eligible for the Voluntary Prekindergarten Education Program during either that school year or the following school year. The child remains eligible until ~~the beginning of the school year for which the child is eligible for admission to kindergarten in a public school under s. 1003.21(1)(a)2. or until~~ the child is admitted to kindergarten, or unless he or she will have attained the age of 6 years by February 1 of any school year under s. 1003.21(1)(a)1 ~~whichever occurs first~~.

Section 8. Subsection (4) of section 1003.4282, Florida Statutes, is amended to read:

1003.4282 Requirements for a standard high school diploma.—

(4) ONLINE COURSE REQUIREMENT.—At least one course within the 24 credits required under this section must be completed through online learning. ~~A school district may not require a student to take the online course outside the school day or in addition to a student's courses for a given semester.~~

(a) An online course taken in grade 6, grade 7, or grade 8 fulfills the ~~this~~ requirement in this subsection. The ~~This~~ requirement is met through an online course offered by the Florida Virtual School, a virtual education provider approved by the State Board of Education, a high school, or an online dual enrollment course. A student who is enrolled in a full-time or

741272

part-time virtual instruction program under s. 1002.45 meets the ~~this~~ requirement.

(b) A district school board or a charter school governing board, as applicable, may offer students the following options to satisfy the online course requirement in this subsection:

1. Completion of a course in which a student earns a nationally recognized industry certification in information technology that is identified on the CAPE Industry Certification Funding List pursuant to s. 1008.44 or passage of the information technology certification examination without enrollment in or completion of the corresponding course or courses, as applicable.

2. Passage of an online content assessment, without enrollment in or completion of the corresponding course or courses, as applicable, by which the student demonstrates skills and competency in locating information and applying technology for instructional purposes.

For purposes of this subsection, a school district may not require a student to take the online course outside the school day or in addition to a student's courses for a given semester. This subsection ~~requirement~~ does not apply to a student who has an individual education plan under s. 1003.57 which indicates that an online course would be inappropriate or to an out-of-state transfer student who is enrolled in a Florida high school and has 1 academic year or less remaining in high school.

Section 9. Effective July 1, 2016, and upon the expiration of the amendment to section 1011.62, Florida Statutes, made by chapter 2015-222, Laws of Florida, paragraph (a) of subsection

741272

(4) of that section is amended, present subsections (13), (14), and (15) of that section are redesignated as subsections (14), (15), and (16), respectively, a new subsection (13) is added to that section, and present subsection (14) of that section is amended, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.*—

1.a. Not later than 2 working days <u>before</u> ~~prior to~~ July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by

741272

final judicial decisions as specified in paragraph (15)(b) ~~(14)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district’s revenue from required local effort millage will produce more than 90 percent of the district’s total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph

741272

1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(13) FEDERALLY CONNECTED STUDENT SUPPLEMENT.—The federally connected student supplement is created to provide supplemental funding for school districts to support the education of students connected with federally owned military installations, National Aeronautics and Space Administration (NASA) real property, and Indian lands. To be eligible for this supplement, the district must be eligible for federal Impact Aid Program funds under s. 8003 of Title VIII of the Elementary and Secondary Education Act of 1965. The supplement shall be allocated annually to each eligible school district in the amount provided in the General Appropriations Act. The supplement shall be the sum of the student allocation and an exempt property allocation.

(a) The student allocation shall be calculated based on the number of students reported for federal Impact Aid Program funds, including students with disabilities, who meet one of the following criteria:

1. The student has a parent who is on active duty in the uniformed services or is an accredited foreign government official and military officer. Students with disabilities shall also be reported separately for this category.

2. The student resides on eligible federally owned Indian

741272

land. Students with disabilities shall also be reported separately for this category.

3. The student resides with a civilian parent who lives or works on eligible federal property connected with a military installation or NASA. The number of these students shall be multiplied by a factor of 0.5.

(b) The total number of federally connected students calculated under paragraph (a) shall be multiplied by a percentage of the base student allocation as provided in the General Appropriations Act. The total of the number of students with disabilities as reported separately under subparagraphs (a)1. and (a)2. shall be multiplied by an additional percentage of the base student allocation as provided in the General Appropriations Act. The base amount and the amount for students with disabilities shall be summed to provide the student allocation.

(c) The exempt property allocation shall be equal to the tax-exempt value of federal impact aid lands reserved as military installations, real property owned by NASA, or eligible federally owned Indian lands located in the district, as of January 1 of the previous year, multiplied by the millage authorized and levied under s. 1011.71(2).

(14) ~~(13)~~ QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (15) ~~(14)~~, quality guarantee funds, and actual

741272

nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (15) ~~(14)~~ and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

Section 10. Section 1011.6202, Florida Statutes, is created to read:

1011.6202 Principal Autonomy Pilot Program Initiative.—The Principal Autonomy Pilot Program Initiative is created within the Department of Education. The purpose of the pilot program is to provide the highly effective principal of a participating school with increased autonomy and authority to operate his or her school in a way that produces significant improvements in student achievement and school management while complying with constitutional requirements. The State Board of Education may, upon approval of a principal autonomy proposal, enter into a performance contract with up to seven district school boards for participation in the pilot program.

(1) PARTICIPATING SCHOOL DISTRICTS.—The district school

741272

boards in Broward, Duval, Escambia, Jefferson, Madison, Palm Beach, Pinellas, and Seminole Counties may submit to the state board for approval a principal autonomy proposal that exchanges statutory and rule exemptions for an agreement to meet performance goals established in the proposal. If approved by the state board, each of these school districts shall be eligible to participate in the pilot program for 3 years. At the end of the 3 years, the performance of all participating schools in the school district shall be evaluated.

(2) PRINCIPAL AUTONOMY PROPOSAL.—

(a) To participate in the pilot program, a school district must:

1. Identify three schools that received at least two school grades of "D" or "F" pursuant to s. 1008.34 during the previous 3 school years.

2. Identify three principals who have earned a highly effective rating on the prior year's performance evaluation pursuant to s. 1012.34, one of whom shall be assigned to each of the participating schools.

3. Describe the current financial and administrative management of each participating school; identify the areas in which each school principal will have increased fiscal and administrative autonomy, including the authority and responsibilities provided in s. 1012.28(8); and identify the areas in which each participating school will continue to follow district school board fiscal and administrative policies.

4. Explain the methods used to identify the educational strengths and needs of the participating school's students and identify how student achievement can be improved.

741272

5. Establish performance goals for student achievement, as defined in s. 1008.34(1), and explain how the increased autonomy of principals will help participating schools improve student achievement and school management.

6. Provide each participating school's mission and a description of its student population.

(b) The state board shall establish criteria, which must include the criteria listed in paragraph (a), for the approval of a principal autonomy proposal.

(c) A district school board must submit its principal autonomy proposal to the state board for approval by December 1 in order to begin participation in the subsequent school year. By February 28 of the school year in which the proposal is submitted, the state board shall notify the district school board in writing whether the proposal is approved.

(3) EXEMPTION FROM LAWS.—

(a) With the exception of those laws listed in paragraph (b), a participating school is exempt from the provisions of chapters 1000-1013 and rules of the state board that implement those exempt provisions.

(b) A participating school shall comply with the provisions of chapters 1000-1013, and rules of the state board that implement those provisions, pertaining to the following:

1. Those laws relating to the election and compensation of district school board members, the election or appointment and compensation of district school superintendents, public meetings and public records requirements, financial disclosure, and conflicts of interest.

2. Those laws relating to the student assessment program

741272

and school grading system, including chapter 1008.

3. Those laws relating to the provision of services to students with disabilities.

4. Those laws relating to civil rights, including s. 1000.05, relating to discrimination.

5. Those laws relating to student health, safety, and welfare.

6. Section 1001.42(4)(f), relating to the uniform opening date for public schools.

7. Section 1003.03, governing maximum class size, except that the calculation for compliance pursuant to s. 1003.03 is the average at the school level for a participating school.

8. Sections 1012.22(1)(c) and 1012.27(2), relating to compensation and salary schedules.

9. Section 1012.33(5), relating to workforce reductions for annual contracts for instructional personnel. This subparagraph does not apply to at-will employees.

10. Section 1012.335, relating to annual contracts for instructional personnel hired on or after July 1, 2011. This subparagraph does not apply to at-will employees.

11. Section 1012.34, relating to personnel evaluation procedures and criteria.

12. Those laws pertaining to educational facilities, including chapter 1013, except that s. 1013.20, relating to covered walkways for relocatables, and s. 1013.21, relating to the use of relocatable facilities exceeding 20 years of age, are eligible for exemption.

13. Those laws pertaining to participating school districts, including this section and ss. 1011.69(2) and

741272

1012.28(8).

(4) PROFESSIONAL DEVELOPMENT.—Each participating school district shall require that the principal of each participating school, a three-member leadership team from each participating school, and district personnel working with each participating school complete a nationally recognized school turnaround program which focuses on improving leadership, instructional infrastructure, talent management, and differentiated support and accountability. The required personnel must enroll in the school turnaround program upon acceptance into the pilot program.

(5) TERM OF PARTICIPATION.—The state board shall authorize a school district to participate in the pilot program for a period of 3 years commencing with approval of the principal autonomy proposal. Authorization to participate in the pilot program may be renewed upon action of the state board. The state board may revoke authorization to participate in the pilot program if the school district fails to meet the requirements of this section during the 3-year period.

(6) REPORTING.—Each participating school district shall submit an annual report to the state board. The state board shall annually report on the implementation of the Principal Autonomy Pilot Program Initiative. Upon completion of the pilot program's first 3-year term, the Commissioner of Education shall submit to the President of the Senate and the Speaker of the House of Representatives by December 1 a full evaluation of the effectiveness of the pilot program.

(7) FUNDING.—The Legislature may appropriate funding to the department in the General Appropriations Act for the costs of

741272

the pilot program, including administrative costs and enrollment costs for the school turnaround program, and an additional scholarship to each participating principal to be used at his or her school.

(8) RULEMAKING.—The State Board of Education shall adopt rules to administer this section.

Section 11. Subsection (2) of section 1011.69, Florida Statutes, is amended to read:

1011.69 Equity in School-Level Funding Act.—

(2) Beginning in the 2003-2004 fiscal year, district school boards shall allocate to schools within the district an average of 90 percent of the funds generated by all schools and guarantee that each school receives at least 80 percent, except schools participating in the Principal Autonomy Pilot Program Initiative under s. 1011.6202 are guaranteed to receive at least 90 percent, of the funds generated by that school based upon the Florida Education Finance Program as provided in s. 1011.62 and the General Appropriations Act, including gross state and local funds, discretionary lottery funds, and funds from the school district's current operating discretionary millage levy. Total funding for each school shall be recalculated during the year to reflect the revised calculations under the Florida Education Finance Program by the state and the actual weighted full-time equivalent students reported by the school during the full-time equivalent student survey periods designated by the Commissioner of Education. If the district school board is providing programs or services to students funded by federal funds, any eligible students enrolled in the schools in the district shall be provided federal funds.

741272

Section 12. Subsection (8) is added to section 1012.28, Florida Statutes, to read:

1012.28 Public school personnel; duties of school principals.—

(8) The principal of a school participating in the Principal Autonomy Pilot Program Initiative under s. 1011.6202 has the following additional authority and responsibilities:

(a) In addition to the authority provided in subsection (6), the authority to select qualified instructional personnel for placement or to refuse to accept the placement or transfer of instructional personnel by the district school superintendent. Placement of instructional personnel at a participating school in a participating school district does not affect the employee's status as a school district employee.

(b) The authority to deploy financial resources to school programs at the principal's discretion to help improve student achievement, as defined in s. 1008.34(1), and meet performance goals identified in the principal autonomy proposal submitted pursuant to s. 1011.6202.

(c) To annually provide to the district school superintendent and the district school board a budget for the operation of the participating school that identifies how funds provided pursuant to s. 1011.69(2) are allocated. The school district shall include the budget in the annual report provided to the State Board of Education pursuant to s. 1011.6202(6).

Section 13. Subsection (3) of section 1012.39, Florida Statutes, is amended to read:

1012.39 Employment of substitute teachers, teachers of adult education, nondegreed teachers of career education, and

741272

career specialists; students performing clinical field experience.—

(3) A student who is enrolled in a state-approved teacher preparation program in a postsecondary educational institution that is approved by rules of the State Board of Education and who is jointly assigned by the postsecondary educational institution and a district school board to perform a clinical field experience under the direction of a regularly employed and certified educator shall, while serving such supervised clinical field experience, be accorded the same protection of law as that accorded to the certified educator except for the right to bargain collectively as an employee of the district school board. The district school board providing the clinical field experience shall notify the student electronically or in writing of the availability of educator liability insurance under s. 1012.75. A postsecondary educational institution or district school board may not require a student enrolled in a state-approved teacher preparation program to purchase liability insurance as a condition of participation in any clinical field experience or related activity on the premises of an elementary or a secondary school.

Section 14. Section 1012.731, Florida Statutes, is created to read:

1012.731 The Florida Best and Brightest Teacher Scholarship Program.—

(1) The Legislature recognizes that, second only to parents, teachers play the most critical role within schools in preparing students to achieve a high level of academic performance. The Legislature further recognizes that research

741272

has linked student outcomes to a teacher's own academic achievement. Therefore, it is the intent of the Legislature to designate teachers who have achieved high academic standards during their own education as Florida's best and brightest teacher scholars.

(2) There is created the Florida Best and Brightest Teacher Scholarship Program to be administered by the Department of Education. The scholarship program shall provide categorical funding for scholarships to be awarded to classroom teachers, as defined in s. 1012.01(2)(a), who have demonstrated a high level of academic achievement.

(3)(a) To be eligible for a scholarship, a classroom teacher must have achieved a composite score at or above the 80th percentile on either the SAT or the ACT based on the National Percentile Ranks in effect when the classroom teacher took the assessment and have been evaluated as highly effective pursuant to s. 1012.34 in the school year immediately preceding the year in which the scholarship will be awarded, unless the classroom teacher is newly hired by the district school board and has not been evaluated pursuant to s. 1012.34.

(b) In order to demonstrate eligibility for an award, an eligible classroom teacher must submit to the school district, no later than November 1, an official record of his or her SAT or ACT score demonstrating that the classroom teacher scored at or above the 80th percentile based on the National Percentile Ranks in effect when the teacher took the assessment. Once a classroom teacher is deemed eligible by the school district, including teachers deemed eligible in the 2015-2016 fiscal year, the teacher shall remain eligible as long as he or she remains

741272

employed by the school district as a classroom teacher at the time of the award and receives an annual performance evaluation rating of highly effective pursuant to s. 1012.34.

(4) Annually, by December 1, each school district shall submit to the department the number of eligible classroom teachers who qualify for the scholarship.

(5) Annually, by February 1, the department shall disburse scholarship funds to each school district for each eligible classroom teacher to receive a scholarship as provided in the General Appropriations Act. The amount disbursed shall include a scholarship award of $1,000, from the total amount of funds appropriated, for each eligible classroom teacher in a Title I school. Of the remaining funds, a scholarship in the amount provided in the General Appropriations Act shall be awarded to every eligible classroom teacher, including those in Title I schools. If the number of eligible classroom teachers exceeds the total appropriation authorized in the General Appropriations Act, the department shall prorate the per-teacher scholarship amount.

(6) Annually, by April 1, each school district shall award the scholarship to each eligible classroom teacher.

(7) For purposes of this section, the term "school district" includes the Florida School for the Deaf and the Blind and charter school governing boards.

Section 15. Subsection (3) of section 1012.75, Florida Statutes, is amended to read:

1012.75 Liability of teacher or principal; excessive force.—

(3) The Department of Education shall administer an

741272

educator liability insurance program, as provided in the General Appropriations Act, to protect full-time instructional personnel from liability for monetary damages and the costs of defending actions resulting from claims made against the instructional personnel arising out of occurrences in the course of activities within the instructional personnel's professional capacity. For purposes of this subsection, the terms "full-time," "part-time," and "administrative personnel" shall be defined by the individual district school board. For purposes of this subsection, the term "instructional personnel" has the same meaning as provided in s. 1012.01(2).

(a) Liability coverage of at least $2 million shall be provided to all full-time instructional personnel. Liability coverage may be provided to the following individuals who choose to participate in the program, at cost: part-time instructional personnel, administrative personnel, and students enrolled in a state-approved teacher preparation program pursuant to s. 1012.39(3).

(b) By August 1 of each year, the department shall notify the personnel specified in paragraph (a) of the pending procurement for liability coverage. By September 1 of each year, each district school board shall notify the personnel specified in paragraph (a) of the liability coverage provided pursuant to this subsection. The department shall develop the form of the notice which shall be used by each district school board. The notice must be on an 8 1/2-inch by 5 1/2-inch postcard and include the amount of coverage, a general description of the nature of the coverage, and the contact information for coverage and claims questions. The notification shall be provided

741272

separately from any other correspondence. Each district school board shall certify to the department, by September 15 of each year, that the notification required by this paragraph has been provided.

(c) The department shall consult with the Department of Financial Services to select the most economically prudent and cost-effective means of implementing the program through self-insurance, a risk management program, or competitive procurement.

~~(d) This subsection expires July 1, 2016.~~

Section 16. Section 1013.62, Florida Statutes, is amended to read:

1013.62 Charter schools capital outlay funding.—

(1) In each year in which funds are appropriated for charter school capital outlay purposes, the Commissioner of Education shall allocate the funds among eligible charter schools as specified in this section.

(a) To be eligible for a funding allocation, a charter school must:

1.a. Have been in operation for 3 or more years;

b. Be governed by a governing board established in the state for 3 or more years which operates both charter schools and conversion charter schools within the state;

c. Be an expanded feeder chain of a charter school within the same school district that is currently receiving charter school capital outlay funds;

d. Have been accredited by the Commission on Schools of the Southern Association of Colleges and Schools; or

e. Serve students in facilities that are provided by a

741272

business partner for a charter school-in-the-workplace pursuant to s. 1002.33(15)(b).

2. Have financial stability for future operation as a charter school.

3. Have satisfactory student achievement based on state accountability standards applicable to the charter school.

4. Have received final approval from its sponsor pursuant to s. 1002.33 for operation during that fiscal year.

5. Serve students in facilities that are not provided by the charter school's sponsor.

~~(b) The first priority for charter school capital outlay funding is to allocate to charter schools that received funding in the 2005-2006 fiscal year an allocation of the same amount per capital outlay full-time equivalent student, up to the lesser of the actual number of capital outlay full-time equivalent students in the current year, or the capital outlay full-time equivalent students in the 2005-2006 fiscal year. After calculating the first priority, the second priority is to allocate excess funds remaining in the appropriation in an amount equal to the per capital outlay full-time equivalent student amount in the first priority calculation to eligible charter schools not included in the first priority calculation and to schools in the first priority calculation with growth greater than the 2005-2006 capital outlay full-time equivalent students. After calculating the first and second priorities, excess funds remaining in the appropriation must be allocated to all eligible charter schools.~~

~~(c) A charter school's allocation may not exceed one-fifteenth of the cost per student station specified in s.~~

741272

~~1013.64(6)(b). Before releasing capital outlay funds to a school district on behalf of the charter school, the Department of Education must ensure that the district school board and the charter school governing board enter into a written agreement that provides for the reversion of any unencumbered funds and all equipment and property purchased with public education funds to the ownership of the district school board, as provided for in subsection (3) if the school terminates operations. Any funds recovered by the state shall be deposited in the General Revenue Fund.~~

(b) ~~(d)~~ A charter school is not eligible for a funding allocation if it was created by the conversion of a public school and operates in facilities provided by the charter school's sponsor for a nominal fee, or at no charge, or if it is directly or indirectly operated by the school district.

(c) It is the intent of the Legislature that the public interest be protected by prohibiting personal financial enrichment by owners, operators, managers, and other affiliated parties of charter schools. A charter school is not eligible for a funding allocation unless the chair of the governing board and the chief administrative officer of the charter school annually certify under oath that the funds will be used solely and exclusively for constructing, renovating, or improving charter school facilities that are:

1. Owned by a school district, political subdivision of the state, municipality, Florida College System institution, or state university;

2. Owned by an organization, qualified as an exempt organization under s. 501(c)(3) of the Internal Revenue Code,

741272

whose articles of incorporation specify that upon the organization's dissolution, the subject property will be transferred to a school district, political subdivision of the state, municipality, Florida College System institution, or state university; or

3. Owned by and leased from a person who or an entity that is not an affiliated party of the charter school. For purposes of this paragraph, the term "affiliated party of the charter school" means the applicant for the charter school pursuant to s. 1002.33; the governing board of the charter school or a member of the governing board; the charter school owner; the charter school principal; an employee of the charter school; an independent contractor of the charter school or the governing board of the charter school; a relative, as defined in s. 1002.33(24)(a)2., of a charter school governing board member, a charter school owner, a charter school principal, a charter school employee, or an independent contractor of a charter school or charter school governing board; a subsidiary corporation, a service corporation, an affiliated corporation, a parent corporation, a limited liability company, a limited partnership, a trust, a partnership, or a related party that individually or through one or more entities that share common ownership or control that directly or indirectly manages, administers, controls, or oversees the operation of the charter school; or any person or entity, individually or through one or more entities that share common ownership, that directly or indirectly manages, administers, controls, or oversees the operation of any of the foregoing.

(d) The funding allocation for eligible charter schools

741272

shall be calculated as follows:

1. Eligible charter schools shall be grouped into categories based on their student populations according to the following criteria:

a. Seventy-five percent or greater who are eligible for free or reduced-price school lunch.

b. Twenty-five percent or greater with disabilities as defined in state board rule and consistent with the requirements of the Individuals with Disabilities Education Act.

2. If an eligible charter school does not meet the criteria for either category under subparagraph 1., its FTE shall be provided as the base amount of funding and shall be assigned a weight of 1.0. An eligible charter school that meets the criteria under sub-subparagraph 1.a. or sub-subparagraph 1.b. shall be provided an additional 25 percent above the base funding amount, and the total FTE shall be multiplied by a weight of 1.25. An eligible charter school that meets the criteria under both sub-subparagraphs 1.a. and 1.b. shall be provided an additional 50 percent above the base funding amount, and the FTE for that school shall be multiplied by a weight of 1.5.

3. The state appropriation for charter school capital outlay shall be divided by the total weighted FTE for all eligible charter schools to determine the base charter school per weighted FTE allocation amount. The per weighted FTE allocation amount shall be multiplied by the weighted FTE to determine each charter school’s capital outlay allocation.

~~(c) Unless otherwise provided in the General Appropriations Act, the funding allocation for each eligible charter school is~~

741272

~~determined by multiplying the school's projected student enrollment by one-fifteenth of the cost-per-student station specified in s. 1013.64(6)(b) for an elementary, middle, or high school, as appropriate. If the funds appropriated are not sufficient, the commissioner shall prorate the available funds among eligible charter schools. However, a charter school or charter lab school may not receive state charter school capital outlay funds greater than the one-fifteenth cost per student station formula if the charter school's combination of state charter school capital outlay funds, capital outlay funds calculated through the reduction in the administrative fee provided in s. 1002.33(20), and capital outlay funds allowed in s. 1002.32(9)(e) and (h) exceeds the one-fifteenth cost per student station formula.~~

(2)(a) ~~(f)~~ The department shall calculate the eligible charter school funding allocations. Funds shall be allocated using ~~distributed on the basis of the capital outlay~~ full-time equivalent membership from ~~by grade level, which is calculated by averaging the results of~~ the second and third enrollment surveys and free and reduced-price school lunch data. The department shall recalculate the allocations periodically based on the receipt of revised information, on a schedule established by the Commissioner of Education.

(b) The department ~~of Education~~ shall distribute capital outlay funds monthly, beginning in the first quarter of the fiscal year, based on one-twelfth of the amount the department reasonably expects the charter school to receive during that fiscal year. The commissioner shall adjust subsequent distributions as necessary to reflect each charter school's

741272

recalculated allocation ~~actual student enrollment as reflected in the second and third enrollment surveys. The commissioner shall establish the intervals and procedures for determining the projected and actual student enrollment of eligible charter schools~~.

(3) ~~(2)~~ A charter school's governing body may use charter school capital outlay funds for the following purposes:

(a) Purchase of real property.

(b) Construction of school facilities.

(c) Purchase, lease-purchase, or lease of permanent or relocatable school facilities.

(d) Purchase of vehicles to transport students to and from the charter school.

(e) Renovation, repair, and maintenance of school facilities that the charter school owns or is purchasing through a lease-purchase or long-term lease of 5 years or longer.

(f) Effective July 1, 2008, purchase, lease-purchase, or lease of new and replacement equipment, and enterprise resource software applications that are classified as capital assets in accordance with definitions of the Governmental Accounting Standards Board, have a useful life of at least 5 years, and are used to support schoolwide administration or state-mandated reporting requirements.

(g) Payment of the cost of premiums for property and casualty insurance necessary to insure the school facilities.

(h) Purchase, lease-purchase, or lease of driver's education vehicles; motor vehicles used for the maintenance or operation of plants and equipment; security vehicles; or vehicles used in storing or distributing materials and

741272

equipment.

Conversion charter schools may use capital outlay funds received through the reduction in the administrative fee provided in s. 1002.33(20) for renovation, repair, and maintenance of school facilities that are owned by the sponsor.

(4) ~~(3)~~ If ~~When~~ a charter school is nonrenewed or terminated, any unencumbered funds and all equipment and property purchased with district public funds shall revert to the ownership of the district school board, as provided for in s. 1002.33(8)(e) and (f). In the case of a charter lab school, any unencumbered funds and all equipment and property purchased with university public funds shall revert to the ownership of the state university that issued the charter. The reversion of such equipment, property, and furnishings shall focus on recoverable assets, but not on intangible or irrecoverable costs such as rental or leasing fees, normal maintenance, and limited renovations. The reversion of all property secured with public funds is subject to the complete satisfaction of all lawful liens or encumbrances. If there are additional local issues such as the shared use of facilities or partial ownership of facilities or property, these issues shall be agreed to in the charter contract prior to the expenditure of funds.

(5) ~~(4)~~ The Commissioner of Education shall specify procedures for submitting and approving requests for funding under this section and procedures for documenting expenditures.

(6) ~~(5)~~ The annual legislative budget request of the Department of Education shall include a request for capital outlay funding for charter schools. The request shall be based

741272

on the projected number of students to be served in charter schools who meet the eligibility requirements of this section. ~~A dedicated funding source, if identified in writing by the Commissioner of Education and submitted along with the annual charter school legislative budget request, may be considered an additional source of funding.~~

~~(6) Unless authorized otherwise by the Legislature, allocation and proration of charter school capital outlay funds shall be made to eligible charter schools by the Commissioner of Education in an amount and in a manner authorized by subsection (1).~~

Section 17. Paragraphs (a) and (b) of subsection (2) and paragraphs (b) through (e) of subsection (6) of section 1013.64, Florida Statutes, are amended to read:

1013.64 Funds for comprehensive educational plant needs; construction cost maximums for school district capital projects.—Allocations from the Public Education Capital Outlay and Debt Service Trust Fund to the various boards for capital outlay projects shall be determined as follows:

(2)(a) The department shall establish, as a part of the Public Education Capital Outlay and Debt Service Trust Fund, a separate account, in an amount determined by the Legislature, to be known as the "Special Facility Construction Account." The Special Facility Construction Account shall be used to provide necessary construction funds to school districts which have urgent construction needs but which lack sufficient resources at present, and cannot reasonably anticipate sufficient resources within the period of the next 3 years, for these purposes from currently authorized sources of capital outlay revenue. A school

741272

district requesting funding from the Special Facility Construction Account shall submit one specific construction project, not to exceed one complete educational plant, to the Special Facility Construction Committee. A ~~No~~ district may not ~~shall~~ receive funding for more than one approved project in any 3-year period or while any portion of the district's participation requirement is outstanding. The first year of the 3-year period shall be the first year a district receives an appropriation. The department shall encourage a construction program that reduces the average size of schools in the district. The request must meet the following criteria to be considered by the committee:

1. The project must be deemed a critical need and must be recommended for funding by the Special Facility Construction Committee. Before ~~Prior to~~ developing construction plans for the proposed facility, the district school board must request a preapplication review by the Special Facility Construction Committee or a project review subcommittee convened by the chair of the committee to include two representatives of the department and two staff members from school districts not eligible to participate in the program. A school district may request a preapplication review at any time; however, if the district school board seeks inclusion in the department's next annual capital outlay legislative budget request, the preapplication review request must be made before February 1. Within 90 ~~60~~ days after receiving the preapplication review request, the committee or subcommittee must meet in the school district to review the project proposal and existing facilities. To determine whether the proposed project is a critical need,

741272

the committee or subcommittee shall consider, at a minimum, the capacity of all existing facilities within the district as determined by the Florida Inventory of School Houses; the district's pattern of student growth; the district's existing and projected capital outlay full-time equivalent student enrollment as determined by the demographic, revenue, and education estimating conferences established in s. 216.136 ~~department~~; the district's existing satisfactory student stations; the use of all existing district property and facilities; grade level configurations; and any other information that may affect the need for the proposed project.

2. The construction project must be recommended in the most recent survey or survey amendment cooperatively prepared ~~surveys~~ by the district and the department, and approved by the department under the rules of the State Board of Education. If a district employs a consultant in the preparation of a survey or survey amendment, the consultant may not be employed by or receive compensation from a third party that designs or constructs a project recommended by the survey.

3. The construction project must appear on the district's approved project priority list under the rules of the State Board of Education.

4. The district must have selected and had approved a site for the construction project in compliance with s. 1013.36 and the rules of the State Board of Education.

5. The district shall have developed a district school board adopted list of facilities that do not exceed the norm for net square feet occupancy requirements under the State Requirements for Educational Facilities, using all possible

741272

programmatic combinations for multiple use of space to obtain maximum daily use of all spaces within the facility under consideration.

6. Upon construction, the total cost per student station, including change orders, must not exceed the cost per student station as provided in subsection (6) except for cost overruns created by a disaster as defined in s. 252.34 or an unforeseeable circumstance beyond the district's control as determined by the Special Facility Construction Committee.

7. There shall be an agreement signed by the district school board stating that it will advertise for bids within 30 days of receipt of its encumbrance authorization from the department.

8. For construction projects for which Special Facilities Construction Account funding is sought before the 2019-2020 fiscal year, the district shall, at the time of the request and for a continuing period necessary to meet the district's participation requirement ~~of 3 years~~, levy the maximum millage against its ~~their~~ nonexempt assessed property value as allowed in s. 1011.71(2) or shall raise an equivalent amount of revenue from the school capital outlay surtax authorized under s. 212.055(6). Beginning with construction projects for which Special Facilities Construction Account funding is sought in the 2019-2020 fiscal year, the district shall, for a minimum of 3 years before submitting the request and for a continuing period necessary to meet its participation requirement, levy the maximum millage against the district's nonexempt assessed property value as authorized under s. 1011.71(2) or shall raise an equivalent amount of revenue from the school capital outlay

741272

surtax authorized under s. 212.055(6). Any district with a new or active project, funded under the provisions of this subsection, shall be required to budget no more than the value of 1 mill ~~1.5 mills~~ per year to the project until the district's ~~to satisfy the annual~~ participation requirement relating to the local discretionary capital improvement millage or the equivalent amount of revenue from the school capital outlay surtax is satisfied ~~in the Special Facility Construction Account~~.

9. If a contract has not been signed 90 days after the advertising of bids, the funding for the specific project shall revert to the Special Facility New Construction Account to be reallocated to other projects on the list. However, an additional 90 days may be granted by the commissioner.

10. The department shall certify the inability of the district to fund the survey-recommended project over a continuous 3-year period using projected capital outlay revenue derived from s. 9(d), Art. XII of the State Constitution, as amended, paragraph (3)(a) of this section, and s. 1011.71(2).

11. The district shall have on file with the department an adopted resolution acknowledging its ~~3-year~~ commitment to satisfy its participation requirement, which is equivalent to ~~of~~ all unencumbered and future revenue acquired from s. 9(d), Art. XII of the State Constitution, as amended, paragraph (3)(a) of this section, and s. 1011.71(2), in the year of the initial appropriation and for the 2 years immediately following the initial appropriation.

12. Final phase III plans must be certified by the district school board as complete and in compliance with the building and

741272

life safety codes before June 1 of the year the application is made ~~prior to August 1~~.

(b) The Special Facility Construction Committee shall be composed of the following: two representatives of the Department of Education, a representative from the Governor's office, a representative selected annually by the district school boards, and a representative selected annually by the superintendents. A representative of the department shall chair the committee.

(6)

(b)1. A district school board may ~~must~~ not use funds from the following sources: Public Education Capital Outlay and Debt Service Trust Fund; School District and Community College District Capital Outlay and Debt Service Trust Fund; Classrooms First Program funds provided in s. 1013.68; nonvoted 1.5-mill levy of ad valorem property taxes provided in s. 1011.71(2); Classrooms for Kids Program funds provided in s. 1013.735; District Effort Recognition Program funds provided in s. 1013.736; or High Growth District Capital Outlay Assistance Grant Program funds provided in s. 1013.738 for any new construction of educational plant space with a total cost per student station, including change orders, that equals more than:

a. $17,952 for an elementary school,

b. $19,386 for a middle school, or

c. $25,181 for a high school,

(January 2006) as adjusted annually to reflect increases or decreases in the Consumer Price Index.

2. School districts shall maintain accurate documentation related to the costs of all new construction of educational

741272

plant space reported to the Department of Education pursuant to paragraph (d). The Auditor General shall review the documentation maintained by the school districts and verify compliance with the limits under this paragraph during its scheduled operational audits of the school district. The Auditor General shall make the final determination on district compliance.

3. The Office of Program Policy Analysis and Government Accountability (OPPAGA), in consultation with the department, shall:

a. Conduct a study of the cost per student station amounts using the most recent available information on construction costs. In this study, the costs per student station should represent the costs of classroom construction and administrative offices as well as the supplemental costs of core facilities, including required media centers, gymnasiums, music rooms, cafeterias and their associated kitchens and food service areas, vocational areas, and other defined specialty areas, including exceptional student education areas. The study must take into account appropriate cost-effectiveness factors in school construction and should include input from industry experts. OPPAGA must provide the results of the study and recommendations on the cost per student station to the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than January 31, 2017.

b. Conduct a study of the State Requirements for Education Facilities (SREF)to identify current requirements that can be eliminated or modified in order to decrease the cost of construction of educational facilities while ensuring student

741272

safety. OPPAGA must provide the results of the study, and an overall recommendation as to whether SREF should be retained, to the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than January 31, 2017.

4. Effective July 1, 2017, in addition to the funding sources listed in subparagraph 1., a district school board may not use funds from any sources for new construction of educational plant space with a total cost per student station, including change orders, which equals more than the current adjusted amounts provided in sub-subparagraphs 1.a.-c. which shall subsequently be adjusted annually to reflect increases or decreases in the Consumer Price Index.

5.~~2.~~ A district school board must not use funds from the Public Education Capital Outlay and Debt Service Trust Fund or the School District and Community College District Capital Outlay and Debt Service Trust Fund for any new construction of an ancillary plant that exceeds 70 percent of the average cost per square foot of new construction for all schools.

(c) Except as otherwise provided, new construction initiated by a district school board on or after July 1, 2017, may ~~after June 30, 1997, must~~ not exceed the cost per student station as provided in paragraph (b). A school district that exceeds the cost per student station provided in paragraph (b), as determined by the Auditor General, shall be subject to the following sanctions:

1. The school district shall be ineligible for allocations from the Public Education Capital Outlay and Debt Service Trust Fund for the next 3 years in which the school district would have received allocations had the violation not occurred.

741272

2. The school district shall be subject to the supervision of a district capital outlay oversight committee. The oversight committee is authorized to approve all capital outlay expenditures of the school district, including new construction, renovations, and remodeling, for 3 fiscal years following the violation.

a. Each oversight committee shall be composed of the following:

(I) One appointee of the Commissioner of Education who has significant financial management, school facilities construction, or related experience.

(II) One appointee of the office of the state attorney with jurisdiction over the district.

(III) One appointee of the Auditor General who is a licensed certified public accountant.

b. An appointee to the oversight committee may not be employed by the school district; be a relative, as defined in s. 1002.33(24)(a)2., of any school district employee; or be an elected official. Each appointee must sign an affidavit attesting to these conditions and affirming that no conflict of interest exists in his or her oversight role.

(d) The department shall:

1. Compute for each calendar year the statewide average construction costs for facilities serving each instructional level, for relocatable educational facilities, for administrative facilities, and for other ancillary and auxiliary facilities. The department shall compute the statewide average costs per student station for each instructional level.

2. Annually review the actual completed construction costs

741272

of educational facilities in each school district. For any school district in which the total actual cost per student station, including change orders, exceeds the statewide limits established in paragraph (b), the school district shall report to the department the actual cost per student station and the reason for the school district's inability to adhere to the limits established in paragraph (b). The department shall collect all such reports and shall provide these reports to the Auditor General for verification purposes ~~report to the Governor, the President of the Senate, and the Speaker of the House of Representatives by December 31 of each year a summary of each school district's spending in excess of the cost per student station provided in paragraph (b) as reported by the school districts~~.

Cost per student station includes contract costs, legal and administrative costs, fees of architects and engineers, furniture and equipment, and site improvement costs. Cost per student station does not include the cost of purchasing or leasing the site for the construction or the cost of related offsite improvements.

~~(c) The restrictions of this subsection on the cost per student station of new construction do not apply to a project funded entirely from proceeds received by districts through provisions of ss. 212.055 and 1011.73 and s. 9, Art. VII of the State Constitution, if the school board approves the project by majority vote.~~

Section 18. Subsection (7) is added to section 1013.74, Florida Statutes, to read:

741272

1013.74 University authorization for fixed capital outlay projects.—

(7) A university board of trustees may expend reserve or carry-forward balances from prior year operational and programmatic appropriations for fixed capital outlay projects approved by the Board of Governors which include significant academic instructional space or critical deferred maintenance needs in this area.

Section 19. Competency-based innovation pilot program.—Beginning with the 2016-2017 school year, a competency-based innovation pilot program is established within the Department of Education.

(1) For the purposes of this section, the term "competency-based education" means a system in which a student may advance to higher levels of learning after demonstrating a mastery of concepts and skills instead of after a specified timeframe.

(2) Public schools in Lake, Palm Beach, Pinellas, and Seminole Counties; P.K. Yonge Developmental Research School; and school districts or charter schools designated by the Commissioner of Education may submit an application to the department for approval of a competency-based innovation pilot program. The application shall be submitted on a form provided and by a date specified by the department and must include, but need not be limited to, the following:

(a) A vision for the pilot program, including a timeline for the program and the timeframe for districtwide implementation of competency-based education.

(b) Annual goals and performance outcomes that participating schools must meet, including, but not limited to:

741272

1. Student performance, as defined in s. 1008.34, Florida Statutes.

2. Promotion and retention rates.

3. Graduation rates.

4. Indicators of college and career readiness.

(c) A communication plan for stakeholders, including businesses and community members.

(d) A scope of, and a timeline for, professional development.

(e) A plan for student progression based on mastery of concepts and skills, including proposed methods to determine the degree to which a student has attained mastery of concepts and skills.

(f) A plan for using technology and digital and blended learning to enhance student achievement and to facilitate competency-based education.

(g) A plan for how resources will be allocated for the pilot program at both the district and school levels.

(h) The recruitment and selection of participating schools.

(i) Rules to be waived, as authorized in subsection (3), as necessary to implement the program.

(3) In addition to the waivers provided in s. 1001.10(3), Florida Statutes, the State Board of Education may authorize the Commissioner of Education to grant waivers relating to the awarding of credit and pupil progression.

(4) Students participating in the pilot program at participating schools shall be reported and generate funding consistent with the requirements of s. 1011.62, Florida Statutes.

741272

(5) The department shall:

(a) Compile student and staff schedules before and after implementation of the pilot program.

(b) Provide access to statewide, standardized assessments pursuant to s. 1008.22(3), Florida Statutes.

(c) By June 1 of each year, provide a report summarizing the activities and accomplishments of the pilot programs and any recommendations for statutory revisions for statewide implementation to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

(6) This section expires June 30, 2021.

Section 20. Paragraph (a) of subsection (20) of section 1002.33, Florida Statutes, is amended to read:

1002.33 Charter schools.—

(20) SERVICES.—

(a)1. A sponsor shall provide certain administrative and educational services to charter schools. These services shall include contract management services; full-time equivalent and data reporting services; exceptional student education administration services; services related to eligibility and reporting duties required to ensure that school lunch services under the federal lunch program, consistent with the needs of the charter school, are provided by the school district at the request of the charter school, that any funds due to the charter school under the federal lunch program be paid to the charter school as soon as the charter school begins serving food under the federal lunch program, and that the charter school is paid at the same time and in the same manner under the federal lunch program as other public schools serviced by the sponsor or the

741272

school district; test administration services, including payment of the costs of state-required or district-required student assessments; processing of teacher certificate data services; and information services, including equal access to student information systems that are used by public schools in the district in which the charter school is located. Student performance data for each student in a charter school, including, but not limited to, FCAT scores, standardized test scores, previous public school student report cards, and student performance measures, shall be provided by the sponsor to a charter school in the same manner provided to other public schools in the district.

2. A total administrative fee for the provision of such services shall be calculated based upon up to 5 percent of the available funds defined in paragraph (17)(b) for all students, except that when 75 percent or more of the students enrolled in the charter school are exceptional students as defined in s. 1003.01(3), the 5 percent of those available funds shall be calculated based on unweighted full-time equivalent students. However, a sponsor may only withhold up to a 5-percent administrative fee for enrollment for up to and including 250 students. For charter schools with a population of 251 or more students, the difference between the total administrative fee calculation and the amount of the administrative fee withheld may only be used for capital outlay purposes specified in s. 1013.62(3) ~~s. 1013.62(2)~~.

3. For high-performing charter schools, as defined in ch. 2011-232, a sponsor may withhold a total administrative fee of up to 2 percent for enrollment up to and including 250 students

741272

per school.

4. In addition, a sponsor may withhold only up to a 5-percent administrative fee for enrollment for up to and including 500 students within a system of charter schools which meets all of the following:

a. Includes both conversion charter schools and nonconversion charter schools;

b. Has all schools located in the same county;

c. Has a total enrollment exceeding the total enrollment of at least one school district in the state;

d. Has the same governing board; and

e. Does not contract with a for-profit service provider for management of school operations.

5. The difference between the total administrative fee calculation and the amount of the administrative fee withheld pursuant to subparagraph 4. may be used for instructional and administrative purposes as well as for capital outlay purposes specified in s. 1013.62(3) ~~s. 1013.62(2)~~.

6. For a high-performing charter school system that also meets the requirements in subparagraph 4., a sponsor may withhold a 2-percent administrative fee for enrollments up to and including 500 students per system.

7. Sponsors shall not charge charter schools any additional fees or surcharges for administrative and educational services in addition to the maximum 5-percent administrative fee withheld pursuant to this paragraph.

8. The sponsor of a virtual charter school may withhold a fee of up to 5 percent. The funds shall be used to cover the cost of services provided under subparagraph 1. and

741272

implementation of the school district's digital classrooms plan pursuant to s. 1011.62.

Section 21. This act shall take effect July 1, 2016.

decreases in the Consumer Price Index, except for projects funded as provided in paragraph (e).

5.~~2.~~ A district school board must not use funds from the Public Education Capital Outlay and Debt Service Trust Fund or the School District and Community College District Capital

538852

Outlay and Debt Service Trust Fund for any new construction of an ancillary plant that exceeds 70 percent of the average cost per square foot of new construction for all schools.

(c) Except as otherwise provided, new construction initiated by a district school board on or after July 1, 2017, may ~~after June 30, 1997, must~~ not exceed the cost per student station as provided in paragraph (b). A school district that exceeds the cost per student station provided in paragraph (b), as determined by the Auditor General, shall be subject to the following sanctions:

1. The school district shall be ineligible for allocations from the Public Education Capital Outlay and Debt Service Trust Fund for the next 3 years in which the school district would have received allocations had the violation not occurred.

2. The school district shall be subject to the supervision of a district capital outlay oversight committee. The oversight committee is authorized to approve all capital outlay expenditures of the school district, including new construction, renovations, and remodeling, for 3 fiscal years following the violation.

a. Each oversight committee shall be composed of the following:

(I) One appointee of the Commissioner of Education who has significant financial management, school facilities construction, or related experience.

(II) One appointee of the office of the state attorney with jurisdiction over the district.

(III) One appointee of the Auditor General who is a licensed certified public accountant.

538852

b. An appointee to the oversight committee may not be employed by the school district; be a relative, as defined in s. 1002.33(24)(a)2., of any school district employee; or be an elected official. Each appointee must sign an affidavit attesting to these conditions and affirming that no conflict of interest exists in his or her oversight role.

(d) The department shall:

1. Compute for each calendar year the statewide average construction costs for facilities serving each instructional level, for relocatable educational facilities, for administrative facilities, and for other ancillary and auxiliary facilities. The department shall compute the statewide average costs per student station for each instructional level.

2. Annually review the actual completed construction costs of educational facilities in each school district. For any school district in which the total actual cost per student station, including change orders, exceeds the statewide limits established in paragraph (b), the school district shall report to the department the actual cost per student station and the reason for the school district's inability to adhere to the limits established in paragraph (b). The department shall collect all such reports and shall provide these reports to the Auditor General for verification purposes ~~report to the Governor, the President of the Senate, and the Speaker of the House of Representatives by December 31 of each year a summary of each school district's spending in excess of the cost per student station provided in paragraph (b) as reported by the school districts~~.

538852

Cost per student station includes contract costs, legal and administrative costs, fees of architects and engineers, furniture and equipment, and site improvement costs. Cost per student station does not include the cost of purchasing or leasing the site for the construction or the cost of related offsite improvements.

preeminent state research university enhancement initiative and special course requirement authorization; amending s. 1001.92, F.S.; requiring performance-based metrics to include specified wage thresholds; requiring the board to establish minimum performance funding eligibility thresholds; prohibiting a state university that fails to meet the state's threshold from eligibility for a share of the state's investment performance funding; requiring the board to adopt regulations; deleting an expiration; amending s. 1012.39, F.S.; providing requirements regarding liability insurance for students performing clinical field experience; amending s. 1012.75, F.S.; requiring annual notification of liability insurance to specified personnel; abrogating the scheduled expiration of the educator liability insurance program; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 1001.66, Florida Statutes, is created to read:

1001.66 Florida College System Performance-Based Incentive.—

(1) A Florida College System Performance-Based Incentive shall be awarded to Florida College System institutions using performance-based metrics adopted by the State Board of Education. The performance-based metrics must include retention rates; program completion and graduation rates; postgraduation

employment, salaries, and continuing education for workforce education and baccalaureate programs, with wage thresholds that reflect the added value of the certificate or degree; and outcome measures appropriate for associate of arts degree recipients. The state board shall adopt benchmarks to evaluate each institution's performance on the metrics to measure the institution's achievement of institutional excellence or need for improvement and minimum requirements for eligibility to receive performance funding.

(2) Each fiscal year, the amount of funds available for allocation to the Florida College System institutions based on the performance-based funding model shall consist of the state's investment in performance funding plus institutional investments consisting of funds to be redistributed from the base funding of the Florida College System Program Fund as determined in the General Appropriations Act. The State Board of Education shall establish minimum performance funding eligibility thresholds for the state's investment and the institutional investments. An institution that fails to meet the minimum state investment performance funding eligibility threshold is ineligible for a share of the state's investment in performance funding. The institutional investment shall be restored for all institutions eligible for the state's investment under the performance-based funding model.

(3)(a) Each Florida College System institution's share of the performance funding shall be calculated based on its relative performance on the established metrics in conjunction with the institutional size and scope.

(b) A Florida College System institution that fails to meet

the State Board of Education's minimum institutional investment performance funding eligibility threshold shall have a portion of its institutional investment withheld by the state board and must submit an improvement plan to the state board which specifies the activities and strategies for improving the institution's performance. The state board must review and approve the improvement plan and, if the plan is approved, must monitor the institution's progress in implementing the activities and strategies specified in the improvement plan. The institution shall submit monitoring reports to the state board by December 31 and May 31 of each year in which an improvement plan is in place. The ability of an institution to submit an improvement plan to the state board is limited to 1 fiscal year.

(c) The Commissioner of Education shall withhold disbursement of the institutional investment until the monitoring report is approved by the State Board of Education. A Florida College System institution determined by the state board to be making satisfactory progress on implementing the improvement plan shall receive no more than one-half of the withheld institutional investment in January and the balance of the withheld institutional investment in June. An institution that fails to make satisfactory progress may not have its full institutional investment restored. Any institutional investment funds that are not restored shall be redistributed in accordance with the state board's performance-based metrics.

(4) Distributions of performance funding, as provided in this section, shall be made to each of the Florida College System institutions listed in the Florida Colleges category in the General Appropriations Act.

(5) By October 1 of each year, the State Board of Education shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report on the previous fiscal year's performance funding allocation, which must reflect the rankings and award distributions.

(6) The State Board of Education shall adopt rules to administer this section.

Section 2. Subsection (1) of section 1001.7065, Florida Statutes, is reenacted, and subsections (2), (3), and (5) through (9) of that section are amended, to read:

1001.7065 Preeminent state research universities program.—

(1) STATE UNIVERSITY SYSTEM SHARED GOVERNANCE COLLABORATION.—A collaborative partnership is established between the Board of Governors and the Legislature to elevate the academic and research preeminence of Florida's highest-performing state research universities in accordance with this section. The partnership stems from the State University System Governance Agreement executed on March 24, 2010, wherein the Board of Governors and leaders of the Legislature agreed to a framework for the collaborative exercise of their joint authority and shared responsibility for the State University System. The governance agreement confirmed the commitment of the Board of Governors and the Legislature to continue collaboration on accountability measures, the use of data, and recommendations derived from such data.

(2) ACADEMIC AND RESEARCH EXCELLENCE STANDARDS. ~~Effective July 1, 2013,~~ The following academic and research excellence standards are established for the preeminent state research universities program:

(a) An average weighted grade point average of 4.0 or higher on a 4.0 scale and an average SAT score of 1800 or higher on a 2400-point scale or 1200 or higher on a 1600-point scale for fall semester incoming freshmen, as reported annually.

(b) A top-50 ranking on at least two well-known and highly respected national public university rankings, including, but not limited to, the U.S. News and World Report rankings, reflecting national preeminence, using most recent rankings.

(c) A freshman retention rate of 90 percent or higher for full-time, first-time-in-college students, as reported annually to the Integrated Postsecondary Education Data System (IPEDS).

(d) A 6-year graduation rate of 70 percent or higher for full-time, first-time-in-college students, as reported annually to the IPEDS.

(e) Six or more faculty members at the state university who are members of a national academy, as reported by the Center for Measuring University Performance in the Top American Research Universities (TARU) annual report or the official membership directories maintained by each national academy.

(f) Total annual research expenditures, including federal research expenditures, of $200 million or more, as reported annually by the National Science Foundation (NSF).

(g) Total annual research expenditures in diversified nonmedical sciences of $150 million or more, based on data reported annually by the NSF.

(h) A top-100 university national ranking for research expenditures in five or more science, technology, engineering, or mathematics fields of study, as reported annually by the NSF.

(i) One hundred or more total patents awarded by the United

States Patent and Trademark Office for the most recent 3-year period.

(j) Four hundred or more doctoral degrees awarded annually, including professional doctoral degrees awarded in medical and health care disciplines, as reported in the Board of Governors Annual Accountability Report.

(k) Two hundred or more postdoctoral appointees annually, as reported in the TARU annual report.

(l) An endowment of $500 million or more, as reported in the Board of Governors Annual Accountability Report.

(3) PREEMINENT STATE RESEARCH UNIVERSITY DESIGNATION.—

(a) The Board of Governors shall designate each state ~~research~~ university that meets at least 11 of the 12 academic and research excellence standards identified in subsection (2) as a "preeminent state research university." ~~preeminent state research university.~~

(b) The Board of Governors shall designate each state university that meets at least 6 of the 12 academic and research excellence standards identified in subsection (2) as an "emerging preeminent state research university."

The Board of Governors may, upon petition of a university designated under this subsection, temporarily suspend or rescind the designation, or may, with the concurrence of the Governor, the President of the Senate, and the Speaker of the House of Representatives, revoke the designation of a university under this subsection.

(5) PREEMINENT STATE RESEARCH UNIVERSITIES PROGRAM ~~UNIVERSITY~~ SUPPORT.—

(a) A state ~~research~~ university that is designated as a preeminent state research university~~, as of July 1, 2013, meets all 12 of the academic and research excellence standards identified in subsection (2), as verified by the Board of Governors,~~ shall submit to the Board of Governors a 5-year benchmark plan with target rankings on key performance metrics for national excellence. Upon approval by the Board of Governors, and upon the university's meeting the benchmark plan goals annually, the Board of Governors shall award the university its proportionate share of any funds provided annually to support the program created under this section ~~an amount specified in the General Appropriations Act to be provided annually throughout the 5-year period. Funding for this purpose is contingent upon specific appropriation in the General Appropriations Act~~.

(b) A state university designated as an emerging preeminent state research university shall submit to the Board of Governors a 5-year benchmark plan with target rankings on key performance metrics for national excellence. Upon approval by the Board of Governors, and upon the university's meeting the benchmark plan goals annually, the Board of Governors shall award the university its proportionate share of any funds provided annually to support the program created under this section.

(c) The award of funds under this subsection is contingent upon funding provided in the General Appropriations Act to support the preeminent state research universities program created under this section. Funding increases appropriated beyond the amounts funded in the previous fiscal year shall be distributed as follows:

1. Each designated preeminent state research university that meets the criteria in paragraph (a) shall receive an equal amount of funding.

2. Each designated emerging preeminent state research university that meets the criteria in paragraph (b) shall receive an amount of funding that is equal to one-half of the total increased amount awarded to each designated preeminent state research university.

~~(6) PREEMINENT STATE RESEARCH UNIVERSITY ENHANCEMENT INITIATIVE.—A state research university that, as of July 1, 2013, meets 11 of the 12 academic and research excellence standards identified in subsection (2), as verified by the Board of Governors, shall submit to the Board of Governors a 5-year benchmark plan with target rankings on key performance metrics for national excellence. Upon the university's meeting the benchmark plan goals annually, the Board of Governors shall award the university an amount specified in the General Appropriations Act to be provided annually throughout the 5-year period for the purpose of recruiting National Academy Members, expediting the provision of a master's degree in cloud virtualization, and instituting an entrepreneurs-in-residence program throughout its campus. Funding for this purpose is contingent upon specific appropriation in the General Appropriations Act.~~

~~(7) PREEMINENT STATE RESEARCH UNIVERSITY SPECIAL COURSE REQUIREMENT AUTHORITY. In order to provide a jointly shared educational experience, a university that is designated a preeminent state research university may require its incoming first-time-in-college students to take a 9-to-12-credit set of~~

~~unique courses specifically determined by the university and published on the university's website. The university may stipulate that credit for such courses may not be earned through any acceleration mechanism pursuant to s. 1007.27 or s. 1007.271 or any other transfer credit. All accelerated credits earned up to the limits specified in ss. 1007.27 and 1007.271 shall be applied toward graduation at the student's request.~~

(6) ~~(8)~~ PREEMINENT STATE RESEARCH UNIVERSITY FLEXIBILITY AUTHORITY.—The Board of Governors is encouraged to identify and grant all reasonable, feasible authority and flexibility to ensure that a designated preeminent state research university is free from unnecessary restrictions.

(7) ~~(9)~~ PROGRAMS OF EXCELLENCE THROUGHOUT THE STATE UNIVERSITY SYSTEM.—The Board of Governors is encouraged to establish standards and measures whereby individual programs in state universities that objectively reflect national excellence can be identified and make recommendations to the Legislature as to how any such programs could be enhanced and promoted.

Section 3. Section 1001.92, Florida Statutes, is amended to read:

1001.92 State University System Performance-Based Incentive.—

(1) A State University System Performance-Based Incentive shall be awarded to state universities using performance-based metrics adopted by the Board of Governors of the State University System. The performance-based metrics must include graduation rates~~;~~ retention rates~~;~~ postgraduation education rates~~;~~ degree production~~;~~ affordability~~;~~ postgraduation employment and salaries, including wage thresholds that reflect

the added value of a baccalaureate degree; access;~~,~~ and other metrics approved by the board in a formally noticed meeting. The board shall adopt benchmarks to evaluate each state university's performance on the metrics to measure the state university's achievement of institutional excellence or need for improvement and minimum requirements for eligibility to receive performance funding.

(2) Each fiscal year, the amount of funds available for allocation to the state universities based on the performance-based funding model ~~metrics~~ shall consist of the state's investment in ~~appropriation for~~ performance funding~~, including increases in base funding~~ plus institutional investments consisting of funds deducted from the base funding of each state university in the State University System~~,~~ in an amount provided in the General Appropriations Act. The Board of Governors shall establish minimum performance funding eligibility thresholds for the state's investment and the institutional investments. A state university that fails to meet the minimum state investment performance funding eligibility threshold is ineligible for a share of the state's investment in performance funding. The institutional investment shall be restored for each institution eligible for the state's investment under the performance-based funding model ~~metrics~~.

(3)(a) A state university that fails to meet the Board of Governors' minimum institutional investment performance funding eligibility threshold shall have ~~a portion of~~ its institutional investment withheld by the board and must submit an improvement plan to the board that specifies the activities and strategies for improving the state university's performance. The board must

review and approve the improvement plan and, if the plan is approved, must monitor the state university's progress in implementing the activities and strategies specified in the improvement plan. The state university shall submit monitoring reports to the board by December 31 and May 31 of each year in which an improvement plan is in place. The ability of a state university to submit an improvement plan to the board is limited to 1 fiscal year.

(b) The Chancellor of the State University System shall withhold disbursement of the institutional investment until the monitoring report is approved by the Board of Governors. A state university ~~that is~~ determined by the board to be making satisfactory progress on implementing the improvement plan shall receive no more than one-half of the withheld institutional investment in January and the balance of the withheld institutional investment in June. A state university that fails to make satisfactory progress may not have its full institutional investment restored. Any institutional investment funds that are not restored shall be redistributed in accordance with the board's performance-based metrics.

(4) Distributions of performance funding, as provided in this section, shall be made to each of the state universities listed in the Education and General Activities category in the General Appropriations Act.

(5) By October 1 of each year, the Board of Governors shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report on the previous fiscal year's performance funding allocation which must reflect the rankings and award distributions.

(6) The Board of Governors shall adopt regulations to administer this section ~~expires July 1, 2016~~.

Section 4. Subsection (3) of section 1012.39, Florida Statutes, is amended to read:

1012.39 Employment of substitute teachers, teachers of adult education, nondegreed teachers of career education, and career specialists; students performing clinical field experience.—

(3) A student who is enrolled in a state-approved teacher preparation program in a postsecondary educational institution that is approved by rules of the State Board of Education and who is jointly assigned by the postsecondary educational institution and a district school board to perform a clinical field experience under the direction of a regularly employed and certified educator shall, while serving such supervised clinical field experience, be accorded the same protection of law as that accorded to the certified educator except for the right to bargain collectively as an employee of the district school board. The district school board providing the clinical field experience shall notify the student electronically or in writing of the availability of educator liability insurance under s. 1012.75. A postsecondary educational institution or district school board may not require a student enrolled in a state-approved teacher preparation program to purchase liability insurance as a condition of participation in any clinical field experience or related activity on the premises of an elementary or a secondary school.

Section 5. Subsection (3) of section 1012.75, Florida Statutes, is amended to read:

1012.75 Liability of teacher or principal; excessive force.—

(3) The Department of Education shall administer an educator liability insurance program, as provided in the General Appropriations Act, to protect full-time instructional personnel from liability for monetary damages and the costs of defending actions resulting from claims made against the instructional personnel arising out of occurrences in the course of activities within the instructional personnel's professional capacity. For purposes of this subsection, the terms "full-time," "part-time," and "administrative personnel" shall be defined by the individual district school board. For purposes of this subsection, the term "instructional personnel" has the same meaning as provided in s. 1012.01(2).

(a) Liability coverage of at least $2 million shall be provided to all full-time instructional personnel. Liability coverage may be provided to the following individuals who choose to participate in the program, at cost: part-time instructional personnel, administrative personnel, and students enrolled in a state-approved teacher preparation program pursuant to s. 1012.39(3).

(b) By August 1 of each year, the department shall notify the personnel specified in paragraph (a) of the pending procurement for liability coverage. By September 1 of each year, each district school board shall notify the personnel specified in paragraph (a) of the liability coverage provided pursuant to this subsection. The department shall develop the form of the notice which shall be used by each district school board. The notice must be on an 8 1/2-inch by 5 1/2-inch postcard and

include the amount of coverage, a general description of the nature of the coverage, and the contact information for coverage and claims questions. The notification shall be provided separately from any other correspondence. Each district school board shall certify to the department, by September 15 of each year, that the notification required by this paragraph has been provided.

(c) The department shall consult with the Department of Financial Services to select the most economically prudent and cost-effective means of implementing the program through self-insurance, a risk management program, or competitive procurement.

~~(d) This subsection expires July 1, 2016.~~

Section 6. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 524
INTRODUCER:	Higher Education Committee and Senator Gaetz
SUBJECT:	State University System Performance-based Incentives
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Graf	Klebacha	HE	**Fav/CS**
2.	Sikes	Elwell	AED	**Recommend: Fav/CS**
3.	Sikes	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 524 codifies performance-based funding accountability of the state universities and modifies the State University System (SUS) Performance-Based Incentive to:

- Require the performance-based metrics to include wage thresholds that reflect the added value of a baccalaureate degree.
- Require the Florida Board of Governors of the State University System of Florida (BOG or board) to establish minimum performance funding eligibility thresholds for the state's investment and the institutional investment.
- Prohibit a state university that fails to meet the state's investment performance funding threshold from eligibility to receive a share of the state's investment performance funding.

Additionally, the bill requires the BOG to adopt a regulation to implement the SUS Performance-Based Incentive statutory provisions.

During the 2015A Special Session, the Legislature adopted the substance of SB 524 in ch. 2015-222, L.O.F., the implementing bill for the 2015-2016 General Appropriations Act (GAA). These provisions will expire on July 1, 2016, unless the Legislature acts to codify the policy beyond the 2015-2016 fiscal year. SB 524 protects the SUS Performance-Based Incentive from repeal by reenacting modified provisions and providing an effective date of July 1, 2016.

The bill has no impact on state funds. The amount of performance funding available to SUS institutions is determined annually in the GAA. The changes to the SUS Performance-Based

Incentive may impact an institution's eligibility for performance funding, but the impact is indeterminable.

The bill is effective July 1, 2016.

II. Present Situation:

The Legislature has established performance-based funding models in the recent years to evaluate the performance of Florida's public educational institutions, such as state universities and Florida College System institutions, based on identified performance metrics.

In 2014, the Legislature required that performance funding be allocated based on the BOG's Performance Funding Model approved on January 16, 2014.[1] The BOG's Performance Funding Model contained 10 performance metrics that evaluate the state universities on the following:[2]

- Percent of bachelor's degree graduates employed and/or continuing their education;
- Average wages of employed baccalaureate graduates;
- Cost per undergraduate degree;
- Six-year graduation rate (full-time and part-time first time in college (FTIC));
- Academic Progress Rate (second year retention with grade point average above 2.0);
- Bachelor's degrees awarded in areas of strategic emphasis (including Science, Technology, Engineering, and Math (STEM) education);
- University access rate (percent of undergraduates with a Pell Grant);
- Graduate degrees awarded in areas of strategic emphasis (including STEM);
- Two additional metrics, one chosen by each of the following:
  - Board of Governors and
  - University Board of Trustees

The performance of state universities are evaluated based on the benchmarks adopted by the BOG for achievement of excellence or improvement in these specified metrics. The 2014-2015 GAA appropriated $200 million for State University Performance Based Incentives, which included $100 million in new funding and $100 million redistributed from a proportionate share of each state university's base funds.[3] A state university that qualified for the new funding, also received its full base funding.[4] A state university that failed to meet the minimum performance threshold established by the BOG had a portion of its base funding withheld and was required to submit a performance improvement plan (plan) to the BOG.[5] The board was required to approve the plan and monitor the university's progress on implementing the performance measures specified in the plan.[6] Full base funding for a state university was restored upon the board's

[1] Specific Appropriation 143, ch. 2014-51, L.O.F.

[5] *Id*.
[6] Specific Appropriation 143, ch. 2014-51, L.O.F.

approval of the plan and progress monitoring reports.[7] Full base funding was not restored for a state university that fails to make satisfactory progress on meeting its performance improvement plan expectations.[8]

During the 2015A Special Session, the Legislature codified the SUS Performance-Based Incentive, which is based on indicators of institutional attainment of performance metrics adopted by the BOG.[9] These performance metrics include graduation rates, retention rates, postgraduation education rates, degree production, affordability, postgraduation employment and salaries, access, and other metrics approved by the board in a noticed meeting.[10] The Legislature instructed the BOG to adopt benchmarks to evaluate each state university's performance on the metrics to determine a state university's achievement of institutional excellence or need for improvement.[11] The 2015-2016 GAA appropriated $400 million for the SUS Performance-Based Incentive, which included $150 million for the state investment and $250 million for the institutional investment.[12]

III. Effect of Proposed Changes:

This bill codifies performance-based funding accountability of the state universities and modifies the SUS Performance-Based Incentive to:

- Require the performance-based metrics to include wage thresholds that reflect the added value of a baccalaureate degree.
- Require the BOG to establish minimum performance funding eligibility thresholds for the state's investment and the institutional investment.
- Prohibit a state university that fails to meet the state's investment performance funding threshold from eligibility to receive a share of the state's investment performance funding.

Additionally, the bill requires the BOG to adopt a regulation to implement the SUS Performance-Based Incentive statutory provisions.

During the 2015A Special Session, the Legislature adopted the substance of SB 524 in ch. 2015-222, L.O.F., the implementing bill for the 2015-2016 GAA. These provisions will expire on July 1, 2016, unless the Legislature acts to codify the policy beyond the 2015-2016 fiscal year. SB 524 protects the SUS Performance-Based Incentive from repeal by reenacting modified provisions and providing an effective date of July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

[7] *Id*.
[8] *Id*.
[9] Section 1001.92, F.S., *as created by* s. 14, ch. 2015-222, L.O.F.
[10] *Id*.
[11] *Id*.
[12] Specific Appropriation 138, ch. 2015-232, L.O.F.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

According to the BOG, "There is no discernable fiscal impact on local governments. At this time, Board staff are unable to discern the impact of raising the wage threshold for the post-graduation metric on universities and the effect of scoring for performance based funding."[13]

The BOG is conducting an analysis to establish an appropriate threshold for the postgraduation metric that would reflect the added value of a baccalaureate degree.[14]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 1001.92 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Higher Education on November 17, 2015:
The committee substitute restores current law regarding limiting to one fiscal year, the ability of state universities to submit performance improvement plans to the Florida Board of Governors of the State University System of Florida to receive institutional investment performance funding.

B. Amendments:

None.

By the Committee on Higher Education; and Senator Gaetz

589-01297-16 2016524c1

A bill to be entitled

An act relating to state university system performance-based incentives; amending s. 1001.92, F.S.; requiring performance-based metrics to include specified wage thresholds; requiring the Board of Governors to establish minimum performance funding eligibility thresholds; prohibiting a state university that fails to meet the state's threshold from eligibility for a share of the state's investment performance funding; requiring the board to adopt a regulation; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 1001.92, Florida Statutes, is amended to read:

1001.92 State University System Performance-Based Incentive.—

(1) A State University System Performance-Based Incentive shall be awarded to state universities using performance-based metrics adopted by the Board of Governors of the State University System. The performance-based metrics must include graduation rates~~,~~; retention rates~~,~~; postgraduation education rates~~,~~; degree production~~,~~; affordability~~,~~; postgraduation employment and salaries, including wage thresholds that reflect the added value of a baccalaureate degree; access~~,~~; and other metrics approved by the board in a formally noticed meeting. The board shall adopt benchmarks to evaluate each state university's performance on the metrics to measure the state university's

589-01297-16 2016524c1

achievement of institutional excellence or need for improvement and minimum requirements for eligibility to receive performance funding.

(2) Each fiscal year, the amount of funds available for allocation to the state universities based on the performance-based metrics shall consist of the state's appropriation for performance funding~~, including increases in base funding~~ plus institutional investments consisting of funds deducted from the base funding of each state university in the State University System~~,~~ in an amount provided in the General Appropriations Act. The Board of Governors shall establish minimum performance funding eligibility thresholds for both the state's investment and the institutional investment. A state university that fails to meet the state's investment performance funding threshold is not eligible for a share of the state's investment performance funding. The institutional investment shall be restored for each institution eligible for the state's investment under the performance-based metrics.

(3)(a) A state university that fails to meet the Board of Governors' minimum institutional investment performance funding threshold shall have ~~a portion of~~ its institutional investment withheld by the board and must submit an improvement plan to the board that specifies the activities and strategies for improving the state university's performance. The board must review and approve the improvement plan and, if the plan is approved, must monitor the state university's progress in implementing the activities and strategies specified in the improvement plan. The state university shall submit monitoring reports to the board by December 31 and May 31 of each year in which an improvement plan

is in place. The ability of a state university to submit an improvement plan to the board is limited to 1 fiscal year.

(b) The Chancellor of the State University System shall withhold disbursement of the institutional investment until the monitoring report is approved by the Board of Governors. A state university that is determined by the board to be making satisfactory progress on implementing the improvement plan shall receive no more than one-half of the withheld institutional investment in January and the balance of the withheld institutional investment in June. A state university that fails to make satisfactory progress may not have its full institutional investment restored. Any institutional investment funds that are not restored shall be redistributed in accordance with the board's performance-based metrics.

(4) Distributions of performance funding, as provided in this section, shall be made to each of the state universities listed in the Education and General Activities category in the General Appropriations Act.

(5) By October 1 of each year, the Board of Governors shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report on the previous fiscal year's performance funding allocation which must reflect the rankings and award distributions.

(6) The Board of Governors shall adopt a regulation to implement this section ~~expires July 1, 2016~~.

Section 2. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 572
INTRODUCER:	Senator Altman
SUBJECT:	Involuntary Examinations Under the Baker Act
DATE:	February 24, 2016
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Rossitto-Van Winkle	Stovall	HP	**Favorable**
2.	Maida	Cibula	JU	**Favorable**
3.	Brown	Kynoch	AP	**Pre-meeting**

I. Summary:

SB 572 adds advanced registered nurse practitioners (ARNP) and physician assistants (PA) to the list of health care providers who are authorized to initiate an involuntary mental health examination of another person under the Baker Act. An authorized health care provider may initiate the examination by executing a certificate stating that he or she examined a person within the past 48 hours and found that the person appears to meet the criteria for involuntary examination. The certificate must also state the observations on which the conclusion is based.

The bill has an indeterminate fiscal impact.

The bill's effective date is July 1, 2016.

II. Present Situation:

The Florida Mental Health Act

In 1971, the Florida Legislature passed the Florida Mental Health Act, also known as "The Baker Act," to address mental health needs of the state.[1] The Baker Act, codified in part I of ch. 394, F.S., provides the authority and process for the voluntary and involuntary examination of persons showing evidence of a mental illness. It further provides for the subsequent inpatient or outpatient placement of individuals for treatment.

Under the Baker Act, a person may be taken by a law enforcement officer to a receiving facility for an involuntary examination if there is reason to believe the person has a mental illness and, because of the mental illness, the person:

[1] Section 1, ch. 71-131, Laws of Fla.

- Has refused voluntary examination after conscientious explanation and disclosure of the purpose of the examination and is unable to determine for himself or herself whether examination is necessary; and
- Is likely, without care or treatment, to suffer from neglect or refuse to care for himself or herself, or cause substantial harm to, or be a danger to, himself or herself or others.[2]

A person who is subject to an involuntary examination generally may not be held longer than 72 hours in a receiving facility.[3]

Involuntary examinations may be initiated by a circuit court or by a law enforcement officer.[4] A law enforcement officer, as defined by s. 943.10, F.S.,[5] may take into custody a person who appears to meet the criteria for involuntary examination. The officer may then transport that person to the nearest receiving facility for examination.[6]

Similarly, the following professionals, having examined an individual within the preceding 48 hours, may initiate an involuntary examination by executing a certificate stating that the individual meets the criteria for involuntary examination:[7]

- A physician licensed under ch. 458, F.S., or ch. 459, F.S, who has experience in the diagnosis and treatment of mental and nervous disorders;
- A physician employed by a facility operated by the U.S. Department of Veterans Affairs which qualifies as a receiving or treatment facility under ch. 394, F.S.;
- A clinical psychologist, as defined in s. 490.003(7), F.S., who has three years of post-doctoral experience in the practice of clinical psychology, inclusive of the experience required for licensure, or a psychologist employed by a facility operated by the U.S. Department of Veterans Affairs which qualifies as a receiving or treatment facility under ch. 394, F.S.;[8]
- A psychiatric nurse who is an ARNP certified under s. 464.012, F.S., has a master's or doctoral degree in psychiatric nursing, holds a national advanced practice certification as a psychiatric mental health advanced practice nurse, and has two years of post-master's clinical experience under the supervision of a physician;[9]
- A mental health counselor licensed under ch. 491, F.S.;
- A marriage and family therapist licensed under ch. 491, F.S.; and
- A clinical social worker licensed under ch. 491, F.S.

[2] Section 394.463(1), F.S.
[3] Section 394.463(2)(f)(i), F.S.
[4] Section 394.463(2)(a), F.S.
[5] Under section 943.10, F.S., a law enforcement officer is defined as "any person who is elected, appointed, or employed full time by any municipality or the state or any political subdivision thereof; who is vested with authority to bear arms and make arrests; and whose primary responsibility is the prevention and detection of crime or the enforcement of the penal, criminal, traffic, or highway laws of the state."
[6] *See generally* Section 394.463(2), F.S.
[7] Section 394.463(2)(a)3., F.S.
[8] *See* Section 394.455(2), F.S.
[9] *See* Section 394.455(23), F.S.

The Department of Children and Families (DCF) administers[10] the Baker Act through receiving facilities that provide for the examination of persons showing evidence of a mental illness. Receiving facilities are designated by the DCF and may be public or private facilities that provide for the examination and short-term treatment of persons who meet the criteria under the Baker Act.[11]

Once received by a facility, a patient must be examined by a physician, a clinical psychologist, or a psychiatric nurse performing within the framework of an established protocol with a psychiatrist at a receiving facility without unnecessary delay.[12] The patient may, upon the order of a physician, be given emergency treatment if it is determined that such treatment is necessary for the safety of the patient or others.[13] Upon recommendation of the administrator of the receiving facility, a patient who requires additional treatment may be transported to a treatment facility.[14] Treatment facilities are designated by the DCF and are state-owned, state-operated, or state-supported hospitals that provide extended treatment and hospitalization beyond what is provided in a receiving facility.[15]

Advanced Registered Nurse Practitioners

Currently, ARNPs[16] are not included as health care providers authorized by s. 394.463(2)(a)3., F.S., to initiate an involuntary examination.

Part I of chapter 464, F.S., governs the licensure and regulation of nurses in this state. Nurses are licensed by the Department of Health (DOH) and are regulated by the Board of Nursing (BON).

A person is eligible for certification as an ARNP, if he or she holds a current, active registered nursing license and, as determined by the BON:[17]

- Satisfactorily completes at least one year of a formal post-basic education program, the primary purpose of which is to prepare nurses for advanced or specialized practice;[18]

[10] *See generally* section 394.457, F.S. DCF is designated as the "Mental Health Authority" of Florida and shall exercise executive and administrative supervision over all mental health facilities, programs, and services.
[11] Section 394.455(26), F.S.
[12] Section 394.463(2)(f), F.S.
[13] *Id.*
[14] Section 394.467(1), F.S.
[15] Section 394.455(32), F.S.
[16] An ARNP is defined under s. 464.003(3), F.S., as "any person licensed in this state to practice professional nursing and certified in advanced or specialized nursing practice, including certified registered nurse anesthetists, certified nurse midwives, and nurse practitioners."
[17] Section 464.012(1), F.S., and Rule 64B9-4.002, F.A.C., which provides that applications for certification as an advanced registered nurse practitioner pursuant to s. 464.012(3), F.S., must include proof of current national advanced practice certification from an approved nursing specialty board.
[18] Section 464.0115(1), F.S., relating to the certification of clinical nurse specialists, states that any nurse seeking certification as a clinical nurse specialist must apply to the department and submit proof that he or she holds a current license to practice professional nursing, a master's degree in a clinical nursing specialty, and either: (a) Proof of current certification in a specialty area as a clinical nurse specialist from a nationally recognized certifying body as determined by the board; or (b) Proof that he or she holds a master's degree in a specialty area for which there is no certification within the clinical nurse specialist role and specialty and proof of having completed 1,000 hours of clinical experience in the clinical specialty for which he or she is academically prepared, with a minimum of 500 hours of clinical practice after graduation. The applicant for certification as a clinical nurse specialist must submit an affidavit to the Board of Nursing affirming the required hours of clinical experience. Falsification of the affidavit constitutes grounds for discipline in accordance with s. 464.018(1)(f), F.S.

- Holds a current national advanced practice certification from a board approved specialty board;
- Holds a master's degree in a nursing clinical specialty area with preparation in specialized practitioner skills; or
- Submits proof that the applicant holds a current national advanced practice certification from a BON-approved nursing specialty board.

An ARNP applicant must also pass a criminal background screening and pay applicable fees. Renewal is biennial and contingent upon completion of certain continuing medical education requirements.

Section 464.003, F. S., lists three categories of ARNP: certified registered nurse anesthetists, certified nurse midwives, and nurse practitioners.[19] All ARNPs, regardless of practice category, may only practice within the framework of an established protocol and under the supervision of an allopathic or osteopathic physician or a dentist.[20]

An ARNP may carry out treatments as specified in statute, including:[21]
- Monitoring and altering drug therapies;
- Initiating appropriate therapies for certain conditions;
- Performing additional functions as may be determined by rule in accordance with s. 464.003(2), F.S.; and
- Ordering diagnostic tests and physical and occupational therapy.

In addition to the above, an ARNP may also perform other acts as authorized by statute and within his or her specialty.[22] Further, if it is within an ARNP's established protocol, the ARNP may establish behavioral problems and diagnosis and make treatment recommendations.[23]

Physician Assistants

Physician assistants, as defined in s. 458.347 (2)(e), F.S., and s. 459.022(2)(e), F.S., are also not included as health care providers authorized by s. 394.463(2)(a)3, F.S., to execute a certificate stating an individual meets the criteria for an involuntary examination.

Section 458.347, F.S., and Rule 64B-8, F.A.C., along with s. 459.022, F.S., and Rule and 64B15, F.A.C., govern the licensure and regulation of PAs in this state. PAs are licensed by the DOH and are regulated by the Board of Medicine (BOM) and the Board of Osteopathic Medicine (BOOM); however, the DOH Council on PAs may make recommendations to the boards.[24] A person may be licensed as a PA if he or she:
- Is at least 18 years of age;
- Graduates from an approved PA program or its equivalent or meets standards approved by the BOM or the BOOM, as applicable;

[19] Section 464.012(2), F.S.
[20] Section 464.012(3), F.S.
[21] *Id.*
[22] Section 464.012(4), F.S.
[23] Section 464.012(4)(c)5, F.S.
[24] Section 458.347(9), F.S.

- Satisfactorily passes a proficiency examination with an acceptable score established by the National Commission on Certification of Physician Assistants (NCCPA); and
- Completes the DOH application form and remits an application fee.

A PA must also pass a criminal background check. The renewal of PA licenses is biennial and contingent upon completion of certain continuing medical education requirements.

III. Effect of Proposed Changes:

The bill amends s. 394.463(2), F.S., to add ARNPs and PAs to the list of health care providers who may initiate the involuntary examination of another person under the Baker Act. As a result, an ARNP or PA may initiate an involuntary examination by executing a certificate stating that he or she has examined another person within the past 48 hours and found that the person appears to meet the criteria for involuntary examination. The certificate must also state the observations on which the conclusion is based.

The bill also amends s. 494.455, F.S., to define "advanced registered nurse practitioner" as "a person licensed in the state to practice professional nursing and certified in advanced or specialized nursing as defined in s. 464.003, F.S."[25] and to tie the definition of a "physician assistant" to the existing definition under s. 458.347(2)(e), F.S.[26]

Sections 3 through 8 of the bill amend various sections of the Florida Statutes to conform cross-references to the definitions in s. 394.455, F.S.

The bill takes effect on July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

---

[25] "Advanced or specialized nursing practice," as defined in s. 464.003(2), F.S., means "in addition to the practice of professional nursing, the performance of advanced-level nursing acts approved by the Board of Nursing which, by virtue of post-basic specialized education, training, and experience, are appropriately performed by an advanced registered nurse practitioner. Within the context of advanced or specialized nursing practice, the ARNP may perform acts of nursing diagnosis and nursing treatment of alterations of the health status. The ARNP may also perform certain acts of medical diagnosis and treatment, prescription, and operation.

[26] Physician assistant as defined in s. 458.347(2)(e), F.S., means, "a person who is a graduate of an approved program or its equivalent or meets standards approved by the boards and is licensed to perform medical services delegated by the supervising physician."

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

SB 572 may result in additional individuals being taken to a private receiving facility for an involuntary examination.

C. Government Sector Impact:

Because the bill increases the number of enumerated health care providers authorized to issue certificates for involuntary examination under the Baker Act, involuntary examinations may rise. The rise in involuntary examinations may commensurately increase government sector costs to an indeterminate extent.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 394.455, 394.463, 39.407, 394.495, 394.496, 394.9085, 409.972, and 744.704.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

By Senator Altman

16-00798-16 2016572__

A bill to be entitled

An act relating to involuntary examinations under the Baker Act; amending s. 394.455, F.S.; defining terms; amending s. 394.463, F.S.; authorizing physician assistants and advanced registered nurse practitioners to execute a certificate that finds that a person appears to meet the criteria for involuntary examination under the Baker Act of persons believed to have mental illness; amending ss. 39.407, 394.495, 394.496, 394.9085, 409.972, and 744.704, F.S.; conforming cross-references; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present subsections (2) through (21) of section 394.455, Florida Statutes, are redesignated as subsections (3) through (22), respectively, present subsections (22) through (38) of that section are redesignated as subsections (24) through (40), respectively, and new subsections (2) and (23) are added to that section, to read:

394.455 Definitions.—As used in this part, unless the context clearly requires otherwise, the term:

(2) "Advanced registered nurse practitioner" means a person licensed in this state to practice professional nursing and certified in advanced or specialized nursing practice, as defined in s. 464.003.

(23) "Physician assistant" has the same meaning as defined in s. 458.347(2)(e).

16-00798-16 2016572__

Section 2. Paragraph (a) of subsection (2) of section 394.463, Florida Statutes, is amended to read:

394.463 Involuntary examination.—

(2) INVOLUNTARY EXAMINATION.—

(a) An involuntary examination may be initiated by any one of the following means:

1. A court may enter an ex parte order stating that a person appears to meet the criteria for involuntary examination, giving the findings on which that conclusion is based. The ex parte order for involuntary examination must be based on sworn testimony, written or oral. If other less restrictive means are not available, such as voluntary appearance for outpatient evaluation, a law enforcement officer, or other designated agent of the court, shall take the person into custody and deliver him or her to the nearest receiving facility for involuntary examination. The order of the court shall be made a part of the patient's clinical record. A ~~No~~ fee may not ~~shall~~ be charged for the filing of an order under this subsection. Any receiving facility accepting the patient based on this order must send a copy of the order to the Agency for Health Care Administration on the next working day. The order shall be valid only until executed or, if not executed, for the period specified in the order itself. If no time limit is specified in the order, the order shall be valid for 7 days after the date that the order was signed.

2. A law enforcement officer shall take a person who appears to meet the criteria for involuntary examination into custody and deliver the person or have him or her delivered to the nearest receiving facility for examination. The officer

shall execute a written report detailing the circumstances under which the person was taken into custody, and the report shall be made a part of the patient's clinical record. Any receiving facility accepting the patient based on this report must send a copy of the report to the Agency for Health Care Administration on the next working day.

3. A physician, physician assistant, clinical psychologist, psychiatric nurse, mental health counselor, marriage and family therapist, ~~or~~ clinical social worker, or advanced registered nurse practitioner may execute a certificate stating that he or she has examined a person within the preceding 48 hours and finds that the person appears to meet the criteria for involuntary examination and stating the observations upon which that conclusion is based. If other less restrictive means are not available, such as voluntary appearance for outpatient evaluation, a law enforcement officer shall take the person named in the certificate into custody and deliver him or her to the nearest receiving facility for involuntary examination. The law enforcement officer shall execute a written report detailing the circumstances under which the person was taken into custody. The report and certificate shall be made a part of the patient's clinical record. Any receiving facility accepting the patient based on this certificate must send a copy of the certificate to the Agency for Health Care Administration on the next working day.

Section 3. Paragraph (a) of subsection (3) of section 39.407, Florida Statutes, is amended to read:

39.407 Medical, psychiatric, and psychological examination and treatment of child; physical, mental, or substance abuse

examination of person with or requesting child custody.—

(3)(a)1. Except as otherwise provided in subparagraph (b)1. or paragraph (e), before the department provides psychotropic medications to a child in its custody, the prescribing physician shall attempt to obtain express and informed consent, as defined in s. 394.455(10) ~~s. 394.455(9)~~ and as described in s. 394.459(3)(a), from the child's parent or legal guardian. The department must take steps necessary to facilitate the inclusion of the parent in the child's consultation with the physician. However, if the parental rights of the parent have been terminated, the parent's location or identity is unknown or cannot reasonably be ascertained, or the parent declines to give express and informed consent, the department may, after consultation with the prescribing physician, seek court authorization to provide the psychotropic medications to the child. Unless parental rights have been terminated and if it is possible to do so, the department shall continue to involve the parent in the decisionmaking process regarding the provision of psychotropic medications. If, at any time, a parent whose parental rights have not been terminated provides express and informed consent to the provision of a psychotropic medication, the requirements of this section that the department seek court authorization do not apply to that medication until such time as the parent no longer consents.

2. Any time the department seeks a medical evaluation to determine the need to initiate or continue a psychotropic medication for a child, the department must provide to the evaluating physician all pertinent medical information known to the department concerning that child.

Section 4. Paragraphs (a) and (c) of subsection (3) of section 394.495, Florida Statutes, are amended to read:

394.495 Child and adolescent mental health system of care; programs and services.—

(3) Assessments must be performed by:

(a) A professional as defined in s. 394.455(3), (5), (22), (25), or (26) ~~s. 394.455(2), (4), (21), (23), or (24)~~;

(c) A person who is under the direct supervision of a professional as defined in s. 394.455(3), (5), (22), (25), or (26) ~~s. 394.455(2), (4), (21), (23), or (24)~~ or a professional licensed under chapter 491.

Section 5. Subsection (5) of section 394.496, Florida Statutes, is amended to read:

394.496 Service planning.—

(5) A professional as defined in s. 394.455(3), (5), (22), (25), or (26) ~~s. 394.455(2), (4), (21), (23), or (24)~~ or a professional licensed under chapter 491 must be included among those persons developing the services plan.

Section 6. Subsection (6) of section 394.9085, Florida Statutes, is amended to read:

394.9085 Behavioral provider liability.—

(6) For purposes of this section, the terms "detoxification services," "addictions receiving facility," and "receiving facility" have the same meanings as those provided in ss. 397.311(22)(a)4., 397.311(22)(a)1., and 394.455(28) ~~394.455(26)~~, respectively.

Section 7. Paragraph (b) of subsection (1) of section 409.972, Florida Statutes, is amended to read:

409.972 Mandatory and voluntary enrollment.—

(1) The following Medicaid-eligible persons are exempt from mandatory managed care enrollment required by s. 409.965, and may voluntarily choose to participate in the managed medical assistance program:

(b) Medicaid recipients residing in residential commitment facilities operated through the Department of Juvenile Justice or mental health treatment facilities as defined by s. 394.455(34) ~~s. 394.455(32)~~.

Section 8. Subsection (7) of section 744.704, Florida Statutes, is amended to read:

744.704 Powers and duties.—

(7) A public guardian may ~~shall~~ not commit a ward to a mental health treatment facility, as defined in s. 394.455(34) ~~s. 394.455(32)~~, without an involuntary placement proceeding as provided by law.

Section 9. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Appropriations Committee			
BILL:	CS/SB 718		
INTRODUCER:	Transportation Committee and Senator Sobel		
SUBJECT:	Identification Cards		
DATE:	February 24, 2016	REVISED:

2.	Gusky	Miller	ATD	**Recommended: Favorable**
3.	Gusky	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 718 allows a person with a developmental disability, or a parent or guardian of a child or ward with a developmental disability to voluntarily request to be issued an identification card with a "D" designation for the person diagnosed with a developmental disability.

The Department of Highway Safety and Motor Vehicles (DHSMV) will issue the identification card upon proof of diagnosis of a developmental disability by a licensed physician and payment of a $10 fee. The additional $10 fee is deposited into the Operations and Maintenance Trust Fund administered by the Agency for Persons with Disabilities (APD). A replacement identification card that includes the designation may be issued without payment of the $25 replacement fee.

To the extent that individuals apply for and obtain the "D" designation authorized in the bill at the time their identification cards are issued, renewed, or replaced, there will be a positive fiscal impact on the APD's Operations and Maintenance Trust Fund, and a negative fiscal impact on the General Revenue Fund, the DHSMV's Highway Safety Operating Trust Fund and issuing county tax collectors. These impacts are indeterminate and expected to be insignificant.[1]

The bill provides an effective date of October 1, 2016, however, the bill specifies that the "D" designation will not be available on identification cards until the DHSMV implements the new designs for the driver license and identification card, which is anticipated to be in 2017.

[1] Department of Highway Safety and Motor Vehicles, *SB 718 Agency Bill Analysis* (December 9, 2015) (on file with the Senate Appropriations Subcommittee on Transportation, Tourism, and Economic Development).

II. Present Situation:

Developmental Disabilities in Florida

Section 393.063(9), F.S., defines developmental disabilities to mean "a disorder or syndrome that is attributable to intellectual disability, cerebral palsy, autism, spina bifida, or Prader-Willi syndrome; that manifests before the age of 18; and that constitutes a substantial handicap that can reasonably be expected to continue indefinitely."

The Florida Developmental Disabilities Council estimates there are approximately 100,000 individuals living in the state who meet the developmental disability criteria.[2]

Identification Cards in Florida

Any person who is five years of age or older, or any person who has a disability, regardless of age, who applies for a disabled parking permit, may be issued an identification card by the DHSMV upon completion of an application and payment of a $25 fee.[3] For an original identification card the $25 fee is deposited into the General Revenue Fund. For a replacement identification card $9 is deposited into the Highway Safety Operating Trust Fund (HSOTF) or retained by the tax collector issuing the replacement, and $16 is deposited into the General Revenue Fund.[4]

An identification card issued to a person 5 to 14 years of age expires, unless canceled earlier, on the fourth birthday of the applicant following the date of original issue. An identification card issued to a person 15 years of age or older expires, unless canceled earlier, on the eighth birthday of the applicant following the date of original issue.[5]

In fiscal year 2014-2015, there were 533,584 identification cards issued statewide.[6]

Identification Cards for Persons with Developmental Disabilities

Other states have implemented Disability Identification Cards for individuals with developmental disabilities. These identification cards serve as an indicator for police and others that an individual has a developmental disability.

For example, in Illinois, the Disabled Person Identification Card is used to signify an individual has a physical, developmental, visual, hearing, or mental disability, and classifies each disability.[7] The card is able to be used as proof of a disability as well as proof of identification for the individual. In Georgia, disability symbols can be placed on a license, permit, or identification card issued by the Georgia Department of Driver Services.[8] Conditions such as

[7] *See* 15 ILCS 335/4a
[8] O.C.G.A. s. 40-5-171 (2010).

PTSD, Dementia, Autism, and developmental disabilities, confirmed by a medical doctor, can be indicated on the back of an individual's license, permit, or identification card.[9]

Agency for Persons with Disabilities (APD)

The APD serves over 50,000 Floridians with developmental disabilities.[10] Revenues deposited into the Operations and Maintenance Trust Fund administered by the APD consist of receipts from third-party payers of health care services, such as Medicaid.[11], These funds are used to provide services to agency clients and administer those services.[12] These services include: life skills development and job training, personal care assistance, therapeutic and wellness support, transportation services, and specialized medical assistance.

III. Effect of Proposed Changes:

The bill allows a person with a developmental disability[13], or the parent or guardian of a child or ward with a developmental disability, to voluntarily request to be issued an identification card exhibiting a "D" designation for the person who has been diagnosed by a licensed physician as having a developmental disability.

The DHSMV will issue the identification card upon proof of diagnosis of a developmental disability, acceptable to the department, and an additional fee of $10. The $10 fee will be deposited into the Operations and Maintenance Trust Fund administered by the APD. A replacement identification card that includes the "D" designation may be issued without payment of the required $25 fee. The bill requires the DHSMV to develop rules for implementing the identification card designation.

The designated identification card could help law enforcement and other officials identify if they are dealing with a developmentally disabled individual. However, it is unknown how many individuals may apply for this designated identification card.

The bill provides that the changes made to the identification card by this bill will apply upon implementation of new designs for the driver license and identification card by the DHSMV, which is currently anticipated to be in 2017[14].

This bill takes effect October 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

---

[9] Georgia Department of Driver Services, *DDs-29 Revised (3/23/2011) Form*, http://www.dds.ga.gov/docs/forms/DDS-29-12610.pdf (last visited Nov. 23, 2015).
[10] Agency for Persons with Disabilities, *About Us*, http://apd.myflorida.com/about/ (last visited Nov. 23, 2015).
[11] Section 20.1971(2)(a), F.S.
[12] Email from Agency for Persons with Disabilities, (Mar. 18, 2015) (on file with the Senate Committee on Transportation).
[13] As defined in s. 393.063, F.S.
[14] As stated in the DHSMV analysis of SB 158, (Sept. 3, 2015) (on file with the Senate Committee on Transportation).

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Under CS/SB 718, individuals requesting a "D" designation on an identification card must pay an additional $10 fee. A replacement identification card including the designation may be issued without payment of the $25 replacement fee.

Revenue from the $10 additional fee may have a minimal positive impact on clients of the APD, since the funds are deposited into its Operations and Maintenance Trust Fund for client services. However, it is unknown how many individuals may apply for an identification card with the "D" designation.

C. Government Sector Impact:

How many of the approximately 100,000 individuals living in the state who meet the developmental disability criteria that may apply for an identification card with the "D" designation is unknown. Waiver of the $25 fee for a replacement identification card will have a negative fiscal impact on the General Revenue Fund, the DHSMV's Highway Safety Operating Trust Fund and issuing county tax collectors. These impacts are indeterminate and expected to be insignificant.[15] Revenue from the $10 additional fee will have a positive fiscal impact on the APD's Operations and Maintenance Trust Fund. However, because how many individuals may apply for the "D" designated identification card is unknown, that impact is indeterminate.

VI. Technical Deficiencies:

Section 20.1971(2)(a), F.S., should be amended to specifically include the additional $10 fee collected from individuals requesting the "D" designation on an identification card as a receipt that may be credited to the Operations and Maintenance Trust Fund administered by the APD.

[15] DHSMV Agency Analysis, *supra* note 1.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 322.051 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Transportation on December 3, 2015:
The CS adds that changes made to the identification cards by this bill will apply upon implementation of new designs for the driver license and identification card by the DHSMV.

3.	Brown	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 748 authorizes a physician assistant (PA) to perform services delegated by a supervising physician related to the PA's practice in accordance with his or her education and training unless expressly prohibited under ch. 458, ch. 459, F.S., or by rules adopted under the allopathic and osteopathic medical practice acts.

The bill creates a definition of "designated supervising physician," which means a physician designated by a facility or practice to be the primary contact and supervising physician for the PAs in a practice where PAs are supervised by multiple supervising physicians.

The bill streamlines a PA's reporting requirements to the Department of Health (DOH) with respect to multiple supervising physicians.

The bill also clarifies that a PA, with delegated prescribing authority, may use prescriptions in both paper and electronic form. The bill deletes obsolete provisions relating to PA examinations by the DOH in favor of national proficiency examinations. The bill streamlines the PA licensure and application process by eliminating the requirement for letters of recommendation and substituting acknowledgments for sworn statements that required notarization.

The bill's potential fiscal impacts on state government are indeterminate but are likely minimal.

The effective date of the bill is July 1, 2016.

II. Present Situation:

Supervision of Physician Assistants

Chapter 458, F.S., sets forth the provisions for the regulation of the practice of allopathic medicine by the Board of Medicine (BOM). Chapter 459, F.S., sets forth the provisions for the regulation of the practice of osteopathic medicine by the Board of Osteopathic Medicine (BOOM). Physician assistants (PAs) are regulated by both boards. Licensure of PAs is overseen jointly by the boards through the Council on Physician Assistants.[1]

PAs are trained and required by statute to work under the supervision and control of allopathic physicians or osteopathic physicians.[2] The BOM and the BOOM have adopted rules that set out the general principles a supervising physician must use in developing the scope of practice of the PA under both direct[3] and indirect[4] supervision. These principles are required to recognize the diversity of both specialty and practice settings in which PAs are used.[5]

A supervising physician's decision to permit a PA to perform a task or procedure under direct or indirect supervision must be based on reasonable medical judgment regarding the probability of morbidity and mortality to the patient. The supervising physician must be certain that the PA is knowledgeable and skilled in performing the tasks and procedures assigned.[6] Each physician or group of physicians supervising a licensed PA must be qualified in the medical areas in which the PA is to perform and must be individually or collectively responsible and liable for the performance and the acts and omissions of the PA.[7]

The following duties are not permitted to be performed by a PA under indirect supervision:

- Routine insertion of chest tubes and removal of pacer wires or left atrial monitoring lines;
- Performance of a cardiac stress testing;
- Routine insertion of central venous catheters;
- Injection of intrathecal[8] medication without prior approval of the supervising physician;
- Interpretation of laboratory tests, X-ray studies and EKG's without the supervising physician's interpretation and final review;

---

[1] The council consists of three physicians who are members of the Board of Medicine; one physician who is a member of the Board of Osteopathic Medicine; and a PA appointed by the State Surgeon General. (*See* ss. 458.347(9) and 459.022(9), F.S.)
[2] Sections 458.347(4) and 459.022(4), F.S.
[3] "Direct supervision" requires the physician to be on the premises and immediately available. (*See* Rules 64B8-30.001(4) and 64B15-6.001(4), F.A.C.).
[4] "Indirect supervision" refers to the easy availability of the supervising physician to the PA, which includes the ability to communicate by telecommunications, and requires the physician to be within reasonable physical proximity. (*See* Rules 64B8-30.001(5) and 64B15-6.001(5), F.A.C.)
[5] Sections 458.347(4)(a) and 459.002(4)(a), F.S.
[6] Rules 64B8-30.012(2) and 64B15-6.010(2), F.A.C.
[7] Sections 458.347(3) and 459.022(3), F.S.
[8] Intrathecal means within a sheath; or through the theca of the spinal cord into the subarachnoid space. Miller-Keane Encyclopedia and Dictionary of Medicine, Nursing, and Allied Health, Seventh Edition. © 2003 by Saunders, an imprint of Elsevier, Inc. (last viewed Nov. 23, 2015) *available at* http://medical-dictionary.thefreedictionary.com/intrathecal.

- Administration of general, spinal, or epidural anesthetics; and then only by physician assistants who graduated from Board-approved programs for the education of anesthesiology assistants.[9]

Current law allows a supervising physician to delegate to a licensed PA the authority to prescribe or dispense any medication used in the physician's practice, except controlled substances, general anesthetics, and radiographic contrast materials.[10]

Licensure of a PA requires that the PA:

- Is at least 18 years of age;
- Has graduated from an BOM- or BOOM-approved PA program[11] or its equivalent, or meets standards approved by the boards;
- Has passed a proficiency examination with an acceptable score established by the National Commission on Certification of Physician Assistants (NCCPA);
- Has completed the DOH application form[12] and remitted an application fee; and
- Has passed a criminal background check.

The PA application form requires, among other things, two letters of recommendation and sworn statements that require notarization, pertaining to prior felony convictions and any previous revocation or denial of licensure or certification in any state.

Renewal of a PA's license is biennial and contingent upon completion of certain continuing medical education requirements. A PA with delegated prescribing authority must submit a signed affidavit that he or she has completed a minimum of 10 continuing medical education hours in the specialty practice in which the PA has prescriptive privileges.[13]

Section 458.347(7)(b), F.S., contains obsolete provisions relating to PA examinations by the DOH. The DOH no longer administers a PA examination for licensure because s. 456.017(1)(c)2., F.S., prohibits a board or department to use state-developed written examinations if a national examination has been certified by the department. The current provision regarding foreign medical school trained unlicensed physicians who had not previously taken, or who had failed the NCCPA examination, but who had been certified by the BOM as

[9] Rules 64B8-30.012 and 64B15-6.010, F.A.C.
[10] Sections 458.347(4)(e) and (f)1. and 459.022(4)(e), F.S.
[11] The DOH, BOM and BOOM have delegated their responsibility to approve PA programs to the NCCPA who used the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA) to accredit PA schools. The ARC-PA defines the standards for PA education and evaluating PA educational programs in the United States to ensure their compliance with those standards. The ARC-PA is an independent accrediting body and accredited programs located in institutions offering, associate, baccalaureate or master's degrees in conjunction with the PA credential awarded. *See* Accreditation Review Commission on Education for the Physician Assistants, Inc., *available at* http://www.arc-pa.com/about/index.html (last visited Nov. 6, 2015).
[12] The DOH PA licensure application must include: a certificate of completion of a specified physician assistant training program; a sworn statement of any prior felony convictions; a sworn statement of any previous revocation or denial of licensure or certification in any state; two letters of recommendation; and a copy of course transcripts and a copy of the course description from the physician assistant's training program describing course content in pharmacotherapy, if the applicant wishes to apply for prescribing authority. These documents must meet the evidence requirements for prescribing authority. See s. 458.347(7)(a)3., F.S.
[13] Sections 458.347(4)(e)3. and 459.022(4)(e)3., F.S.

having met the requirements for licensure as a medical doctor by examination, was only available from July 1, 1990 through June 30, 1991. A temporary PA license was authorized and was valid until the receipt of passing scores from the examination of the NCCPA. Furthermore, because there is no department administered examination, the timetable for notice and administration of a department administered examination is now obsolete.[14]

All licensed PAs, as a condition of practice, must also, upon employment or any subsequent change of employment, notify the DOH in writing,[15] within 30 days, with the following:

- Complete mailing address of all current practice locations; and
- The names and license numbers of all supervising physicians, the specialties of supervising physicians, and the date or dates supervision began.[16]

Additionally, any subsequent change in the supervising physician must be communicated in writing to the DOH within 30 days after the change.

Board rules[17] define a primary supervising physician as a physician licensed pursuant to ch. 458 or ch. 459, F.S., who assumes responsibility and legal liability for the services rendered by the PA at all times and the PA is not under the supervision and control of an alternate supervising physician. An alternate supervising physician is defined as physician(s) licensed pursuant to ch. 458 or ch. 459, F.S., who assume responsibility and legal liability for the services rendered by the PA while the PA is under his or her supervision and control. A physician may not supervise more than four licensed physician assistants at any one time.[18]

Section 458.347(4)(e)5., F.S., and s. 459.022(4)(e)5., F.S., dealing with delegated prescribing authority, allow for the use of prescriptions in written form only.

III. Effect of Proposed Changes:

This bill amends the virtually identical provisions relating to physician assistants (PAs) in both the Medical Practice Act, ch.458, F.S., and the Osteopathic Medical Practice Act, ch. 459, F.S.

Affirmative Delegation Authority

The bill authorizes a PA to perform services delegated by the supervising physician in the PA's practice in accordance with his or her education and training unless expressly prohibited under ch. 458, F.S., ch. 459, F.S., or by rules adopted under either chapter.

[16] Sections 458.347(7)(e) and 459.022(7)(d), F.S., and Rules 64B15-6.003 and 64B8-30.003, F.A.C.
[17] Rules 64B8-30.001 and 64B15-6.001, F.A.C.
[18] Sections 458.347(3) and 459.022(3), F.S.

Designated Supervising Physician

The bill amends s. 458.347(4)(e)5, F.S., and s. 459.002(4)(e)5., F.S., to create and define a new type of supervising physician for PAs, the "designated supervising physician." The bill gives a PA a choice of whether to report his or her supervising physician(s) or the designated supervising physician for employment by a facility or practice. If the PA chooses the option of reporting only the designated supervising physician, a PA would no longer be required to report changes in physicians who actually supervise the PA in a facility or practice within 30 days of the changes. Any changes to the designated supervising physicians must be reported to the DOH within 30 days of the change.

Current law limits the number of PAs a physician my supervise at one time to four.[19,20] Under the bill, in order for the DOH to obtain that information, the DOH is required to make a written request to the facility's or practice's designated supervising physician for a list which must contain the names of all supervising physicians along with each supervising physician's practice area and be up-to-date with respect to additions and terminations of physicians. It does not require the designated supervising physician to include in the list which physicians supervised which PAs at which facility or location on a daily basis. There are also no sanctions in the bill for not maintaining the list, not keeping it up-to-date, or not providing it to the DOH in a timely manner. General disciplinary provisions in s. 458.072, F.S., and s. 459.015, F.S., however, might be applicable.

Form of Prescription

The bill amends s. 458.347(4)(e)5., F.S., and s. 459.022(4)(e)5., F.S., to clarify that a PA, with delegated prescribing authority, may use prescriptions in both paper and electronic form. The prescription must comply with provisions in s. 456.0392(1), F.S., s. 456.42(1), F.S., and ch. 499, which require identification of the PA, i.e., name and prescriber number, and other essential elements for dispensing such as name and address of the patient, name and strength of the drug, quantity prescribed, directions for use, date prescribed, and the prescriber's signature.

Licensure Efficiencies

The bill amends s. 458.347(7)(a), F.S., and s.459.022(7)(a)., F.S., to streamline and simplify the PA licensure and application process by eliminating the requirement for two letters of recommendation and substituting acknowledgments for sworn statements that required notarization pertaining to continuing medical education, prior felony convictions, and certain regulatory actions for licensure or certification in any state.

The bill deletes obsolete provisions relating to PA examinations by the DOH in favor of national proficiency examinations. This language appears only in the Medical Practice Act in s. 458.347(7)(b), F.S.

[19] Section 458.347(3), F.S.
[20] Section 459.022(3), F.S.

Effective Date

The effective date of the bill is July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Under CS/SB 748, applicants for licensure as a PA, and PAs renewing their licenses, will experience reduced costs and time savings due to the administrative efficiencies.

Physician Assistants may also avoid disciplinary action for missing the filing deadlines, whether intentionally or unintentionally, when changes in supervising physicians occur.

C. Government Sector Impact:

The Department of Health and medical boards may experience fewer investigations and probable cause hearings with fewer complaints relating to PAs missing filing deadlines associated with changes in supervising physicians, which could lead to some level of cost savings. However, additional efforts may be required to monitor responsibilities of the designated supervising physician. Any resulting fiscal impacts, if any, are indeterminate at this time but are likely minimal.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 458.347 and 459.022.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Health Policy on December 1, 2015:
Provides that a PA may perform services that are delegated by the supervising physician in accordance with his or her education and training, unless expressly prohibited by law; provides that prescriptions may be in paper or electronic form; reinstates the requirement that prescriptions comply with ch. 499, F.S.; and removes the provision for designated supervising physicians to be "approved."

B. Amendments.

None.

A bill to be entitled

An act relating to physician assistants; amending s. 458.347, F.S.; revising circumstances under which a physician assistant may prescribe medication; authorizing a licensed physician assistant to perform certain services as delegated by a supervising physician; revising physician assistant licensure and license renewal requirements; removing a requirement for letters of recommendation; deleting provisions related to examination by the Department of Health; defining the term "designated supervising physician"; requiring licensed physician assistants to report any changes in the designated supervising physician within a specified time; requiring a designated supervising physician to maintain a list of supervising physicians at the practice or facility; amending s. 459.022, F.S.; revising circumstances under which a physician assistant may prescribe medication; authorizing a licensed physician assistant to perform certain services as delegated by a supervising physician; revising physician assistant licensure and license renewal requirements; removing a requirement for letters of recommendation; defining the term "designated supervising physician"; requiring licensed physician assistants to report any changes in the designated supervising physician within a specified time; requiring a designated supervising physician to maintain a list of supervising physicians at the practice or facility; providing an effective date.

588-01772A-16 2016748c1

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (e) of subsection (4) of section 458.347, Florida Statutes, is amended, paragraph (h) is added to that subsection, paragraphs (c) through (h) of subsection (7) are redesignated as paragraphs (b) through (g), respectively, and present paragraphs (a), (b), (c), (e), and (f) of that subsection are amended, to read:

458.347 Physician assistants.—

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(e) A supervising ~~supervisory~~ physician may delegate to a fully licensed physician assistant the authority to prescribe or dispense any medication used in the supervising ~~supervisory~~ physician's practice unless such medication is listed on the formulary created pursuant to paragraph (f). A fully licensed physician assistant may only prescribe or dispense such medication under the following circumstances:

1. A physician assistant must clearly identify to the patient that he or she is a physician assistant. Furthermore, the physician assistant must inform the patient that the patient has the right to see the physician before ~~prior to~~ any prescription is ~~being~~ prescribed or dispensed by the physician assistant.

2. The supervising ~~supervisory~~ physician must notify the department of his or her intent to delegate, on a department-approved form, before delegating such authority and notify the department of any change in prescriptive privileges of the physician assistant. Authority to dispense may be delegated only

by a supervising physician who is registered as a dispensing practitioner in compliance with s. 465.0276.

3. The physician assistant must acknowledge with ~~file with~~ the department ~~a signed affidavit~~ that he or she has completed a minimum of 10 continuing medical education hours in the specialty practice in which the physician assistant has prescriptive privileges with each licensure renewal application.

4. The department may issue a prescriber number to the physician assistant granting authority for the prescribing of medicinal drugs authorized within this paragraph upon completion of the foregoing requirements. The physician assistant shall not be required to independently register pursuant to s. 465.0276.

5. The prescription may ~~must~~ be ~~written~~ in paper or electronic ~~a~~ form but must comply ~~that complies~~ with ss. 456.0392(1) and 456.42(1) and chapter 499 and must contain, in addition to the supervising ~~supervisory~~ physician's name, address, and telephone number, the physician assistant's prescriber number. Unless it is a drug or drug sample dispensed by the physician assistant, the prescription must be filled in a pharmacy permitted under chapter 465 and must be dispensed in that pharmacy by a pharmacist licensed under chapter 465. The appearance of the prescriber number creates a presumption that the physician assistant is authorized to prescribe the medicinal drug and the prescription is valid.

6. The physician assistant must note the prescription or dispensing of medication in the appropriate medical record.

(h) A licensed physician assistant may perform services delegated by the supervising physician in the physician assistant's practice in accordance with his or her education and

training unless expressly prohibited under this chapter, chapter 459, or rules adopted under this chapter or chapter 459.

(7) PHYSICIAN ASSISTANT LICENSURE.—

(a) Any person desiring to be licensed as a physician assistant must apply to the department. The department shall issue a license to any person certified by the council as having met the following requirements:

1. Is at least 18 years of age.

2. Has satisfactorily passed a proficiency examination by an acceptable score established by the National Commission on Certification of Physician Assistants. If an applicant does not hold a current certificate issued by the National Commission on Certification of Physician Assistants and has not actively practiced as a physician assistant within the immediately preceding 4 years, the applicant must retake and successfully complete the entry-level examination of the National Commission on Certification of Physician Assistants to be eligible for licensure.

3. Has completed the application form and remitted an application fee not to exceed $300 as set by the boards. An application for licensure made by a physician assistant must include:

a. A certificate of completion of a physician assistant training program specified in subsection (6).

b. Acknowledgment ~~A sworn statement~~ of any prior felony convictions.

c. Acknowledgment ~~A sworn statement~~ of any previous revocation or denial of licensure or certification in any state.

d. ~~Two letters of recommendation.~~

~~e.~~ A copy of course transcripts and a copy of the course description from a physician assistant training program describing course content in pharmacotherapy, if the applicant wishes to apply for prescribing authority. These documents must meet the evidence requirements for prescribing authority.

(b) ~~1. Notwithstanding subparagraph (a)2. and sub-subparagraph (a)3.a., the department shall examine each applicant who the Board of Medicine certifies:~~

~~a. Has completed the application form and remitted a nonrefundable application fee not to exceed $500 and an examination fee not to exceed $300, plus the actual cost to the department to provide the examination. The examination fee is refundable if the applicant is found to be ineligible to take the examination. The department shall not require the applicant to pass a separate practical component of the examination. For examinations given after July 1, 1998, competencies measured through practical examinations shall be incorporated into the written examination through a multiple-choice format. The department shall translate the examination into the native language of any applicant who requests and agrees to pay all costs of such translation, provided that the translation request is filed with the board office no later than 9 months before the scheduled examination and the applicant remits translation fees as specified by the department no later than 6 months before the scheduled examination, and provided that the applicant demonstrates to the department the ability to communicate orally in basic English. If the applicant is unable to pay translation costs, the applicant may take the next available examination in English if the applicant submits a request in writing by the application deadline and if the applicant is otherwise eligible under this section. To demonstrate the ability to communicate orally in basic English, a passing score or grade is required, as determined by the department or organization that developed it, on the test for spoken English (TSE) by the Educational Testing Service (ETS), the test of English as a foreign language (TOEFL) by ETS, a high school or college level English course, or the English examination for citizenship, Bureau of Citizenship and Immigration Services. A notarized copy of an Educational Commission for Foreign Medical Graduates (ECFMG) certificate may also be used to demonstrate the ability to communicate in basic English; and~~

~~b. Is an unlicensed physician who graduated from a foreign medical school listed with the World Health Organization who has not previously taken and failed the examination of the National Commission on Certification of Physician Assistants and who has been certified by the Board of Medicine as having met the requirements for licensure as a medical doctor by examination as set forth in s. 458.311(1), (3), (4), and (5), with the exception that the applicant is not required to have completed an approved residency of at least 1 year and the applicant is not required to have passed the licensing examination specified under s. 458.311 or hold a valid, active certificate issued by the Educational Commission for Foreign Medical Graduates; was eligible and made initial application for certification as a physician assistant in this state between July 1, 1990, and June 30, 1991; and was a resident of this state on July 1, 1990, or was licensed or certified in any state in the United States as a physician assistant on July 1, 1990.~~

~~2. The department may grant temporary licensure to an applicant who meets the requirements of subparagraph 1. Between meetings of the council, the department may grant temporary licensure to practice based on the completion of all temporary licensure requirements. All such administratively issued licenses shall be reviewed and acted on at the next regular meeting of the council. A temporary license expires 30 days after receipt and notice of scores to the licenseholder from the first available examination specified in subparagraph 1. following licensure by the department. An applicant who fails the proficiency examination is no longer temporarily licensed, but may apply for a one-time extension of temporary licensure after reapplying for the next available examination. Extended licensure shall expire upon failure of the licenseholder to sit for the next available examination or upon receipt and notice of scores to the licenseholder from such examination.~~

~~3. Notwithstanding any other provision of law, the examination specified pursuant to subparagraph 1. shall be administered by the department only five times. Applicants certified by the board for examination shall receive at least 6 months' notice of eligibility prior to the administration of the initial examination. Subsequent examinations shall be administered at 1-year intervals following the reporting of the scores of the first and subsequent examinations. For the purposes of this paragraph, the department may develop, contract for the development of, purchase, or approve an examination that adequately measures an applicant's ability to practice with reasonable skill and safety. The minimum passing score on the examination shall be established by the department, with the~~

~~advice of the board. Those applicants failing to pass that examination or any subsequent examination shall receive notice of the administration of the next examination with the notice of scores following such examination. Any applicant who passes the examination and meets the requirements of this section shall be licensed as a physician assistant with all rights defined thereby.~~

~~(c)~~ The license must be renewed biennially. Each renewal must include:

1. A renewal fee not to exceed $500 as set by the boards.

2. Acknowledgment ~~A sworn statement~~ of no felony convictions in the previous 2 years.

(d)1.~~(c)~~ Upon employment as a physician assistant, a licensed physician assistant must notify the department in writing within 30 days after such employment or after any subsequent change ~~changes~~ in the supervising physician or the designated supervising physician. The notification must include the full name, Florida medical license number, specialty, and address of the supervising physician or the designated supervising physician. For purposes of this paragraph, the term "designated supervising physician" means a physician designated by the facility or practice to be the primary contact and supervising physician for the physician assistants in a practice where physician assistants are supervised by multiple supervising physicians.

2. A licensed physician assistant shall notify the department of any subsequent change in the designated supervising physician within 30 days after the change. Assignment of a designated supervising physician does not

preclude a physician assistant from practicing under the supervision of a physician other than the designated supervising physician.

3. The designated supervising physician shall maintain a list of all supervising physicians at the practice or facility. Such list must include the name of each supervising physician and his or her area of practice, must be kept up to date with respect to additions and terminations, and must be provided, in a timely manner, to the department upon written request.

(e)~~(f)~~ Notwithstanding subparagraph (a)2., the department may grant to a recent graduate of an approved program, as specified in subsection (6), who expects to take the first examination administered by the National Commission on Certification of Physician Assistants available for registration after the applicant's graduation, a temporary license. The temporary license shall expire 30 days after receipt of scores of the proficiency examination administered by the National Commission on Certification of Physician Assistants. Between meetings of the council, the department may grant a temporary license to practice based on the completion of all temporary licensure requirements. All such administratively issued licenses shall be reviewed and acted on at the next regular meeting of the council. The recent graduate may be licensed before ~~prior to~~ employment~~,~~ but must comply with paragraph (d) ~~(c)~~. An applicant who has passed the proficiency examination may be granted permanent licensure. An applicant failing the proficiency examination is no longer temporarily licensed~~,~~ but may reapply for a 1-year extension of temporary licensure. An applicant may not be granted more than two temporary licenses

and may not be licensed as a physician assistant until he or she passes the examination administered by the National Commission on Certification of Physician Assistants. As prescribed by board rule, the council may require an applicant who does not pass the licensing examination after five or more attempts to complete additional remedial education or training. The council shall prescribe the additional requirements in a manner that permits the applicant to complete the requirements and be reexamined within 2 years after the date the applicant petitions the council to retake the examination a sixth or subsequent time.

Section 2. Paragraph (e) of subsection (4) of section 459.022, Florida Statutes, is amended, paragraph (g) is added to that subsection, and paragraphs (a), (b), and (d) of subsection (7) of that section are amended, to read:

459.022 Physician assistants.—

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(e) A supervising ~~supervisory~~ physician may delegate to a fully licensed physician assistant the authority to prescribe or dispense any medication used in the supervising ~~supervisory~~ physician's practice unless such medication is listed on the formulary created pursuant to s. 458.347. A fully licensed physician assistant may only prescribe or dispense such medication under the following circumstances:

1. A physician assistant must clearly identify to the patient that she or he is a physician assistant. Furthermore, the physician assistant must inform the patient that the patient has the right to see the physician before ~~prior to~~ any prescription is ~~being~~ prescribed or dispensed by the physician assistant.

2. The supervising ~~supervisory~~ physician must notify the department of her or his intent to delegate, on a department-approved form, before delegating such authority and notify the department of any change in prescriptive privileges of the physician assistant. Authority to dispense may be delegated only by a supervising ~~supervisory~~ physician who is registered as a dispensing practitioner in compliance with s. 465.0276.

3. The physician assistant must acknowledge with ~~file with~~ the department ~~a signed affidavit~~ that she or he has completed a minimum of 10 continuing medical education hours in the specialty practice in which the physician assistant has prescriptive privileges with each licensure renewal application.

4. The department may issue a prescriber number to the physician assistant granting authority for the prescribing of medicinal drugs authorized within this paragraph upon completion of the foregoing requirements. The physician assistant shall not be required to independently register pursuant to s. 465.0276.

5. The prescription may ~~must~~ be ~~written~~ in paper or electronic ~~a~~ form but must comply ~~that complies~~ with ss. 456.0392(1) and 456.42(1) and chapter 499 and must contain, in addition to the supervising ~~supervisory~~ physician's name, address, and telephone number, the physician assistant's prescriber number. Unless it is a drug or drug sample dispensed by the physician assistant, the prescription must be filled in a pharmacy permitted under chapter 465, and must be dispensed in that pharmacy by a pharmacist licensed under chapter 465. The appearance of the prescriber number creates a presumption that the physician assistant is authorized to prescribe the medicinal drug and the prescription is valid.

6. The physician assistant must note the prescription or dispensing of medication in the appropriate medical record.

(g) A licensed physician assistant may perform services delegated by the supervising physician in the physician assistant's practice in accordance with his or her education and training unless expressly prohibited under this chapter, chapter 458, or rules adopted under this chapter or chapter 458.

(7) PHYSICIAN ASSISTANT LICENSURE.—

(a) Any person desiring to be licensed as a physician assistant must apply to the department. The department shall issue a license to any person certified by the council as having met the following requirements:

1. Is at least 18 years of age.

2. Has satisfactorily passed a proficiency examination by an acceptable score established by the National Commission on Certification of Physician Assistants. If an applicant does not hold a current certificate issued by the National Commission on Certification of Physician Assistants and has not actively practiced as a physician assistant within the immediately preceding 4 years, the applicant must retake and successfully complete the entry-level examination of the National Commission on Certification of Physician Assistants to be eligible for licensure.

3. Has completed the application form and remitted an application fee not to exceed $300 as set by the boards. An application for licensure made by a physician assistant must include:

a. A certificate of completion of a physician assistant training program specified in subsection (6).

b. Acknowledgment ~~A sworn statement~~ of any prior felony convictions.

c. Acknowledgment ~~A sworn statement~~ of any previous revocation or denial of licensure or certification in any state.

d. ~~Two letters of recommendation.~~

~~e.~~ A copy of course transcripts and a copy of the course description from a physician assistant training program describing course content in pharmacotherapy, if the applicant wishes to apply for prescribing authority. These documents must meet the evidence requirements for prescribing authority.

(b) The licensure must be renewed biennially. Each renewal must include:

1. A renewal fee not to exceed $500 as set by the boards.

2. Acknowledgment ~~A sworn statement~~ of no felony convictions in the previous 2 years.

(d)1. Upon employment as a physician assistant, a licensed physician assistant must notify the department in writing within 30 days after such employment or after any subsequent changes in the supervising physician or the designated supervising physician. The notification must include the full name, Florida medical license number, specialty, and address of the supervising physician or the designated supervising physician. For purposes of this paragraph, the term "designated supervising physician" means a physician designated by the facility or practice to be the primary contact and supervising physician for the physician assistants in a practice where physician assistants are supervised by multiple supervising physicians.

2. A licensed physician assistant shall notify the department of any subsequent change in the designated

supervising physician within 30 days after the change. Assignment of a designated supervising physician does not preclude a physician assistant from practicing under the supervision of a physician other than the designated supervising physician.

3. The designated supervising physician shall maintain a list of all supervising physicians at the practice or facility. Such list must include the name of each supervising physician and his or her area of practice, must be kept up to date with respect to additions and terminations, and must be provided, in a timely manner, to the department upon written request.

Section 3. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations Subcommittee

BILL:	SB 850
INTRODUCER:	Senator Bradley
SUBJECT:	Offenses Concerning Racketeering and Illegal Debts
DATE:	February 24, 2016
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Erickson	Cannon	CJ	**Favorable**
2.	Clodfelter	Sadberry	ACJ	**Recommend: Favorable**
3.	Clodfelter	Kynoch	AP	**Pre-meeting**

I. Summary:

SB 850 amends civil enforcement provisions of the Florida RICO (Racketeer Influenced and Corrupt Organization) Act. Major features of the bill include:

- Authorizing an investigative agency, on behalf of the state, to institute a RICO civil proceeding for forfeiture in the circuit court for the judicial circuit in which the real or personal tangible property is located or in a circuit court in the state for intangible property;
- Authorizing an investigative agency to pursue an action to recover fair market value of unavailable property regardless of when the property is conveyed, alienated, disposed of, diminished in value, or otherwise rendered unavailable for forfeiture;
- Authorizing a court to order the forfeiture of any other property of a defendant up to the value of the property subject to forfeiture (as an alternative to the court ordering an amount equal to the fair market value of the unavailable property);
- Authorizing the Department of Legal Affairs to bring an action for a Florida RICO Act violation to obtain injunctive relief, civil penalties, attorney fees, and costs incurred in the investigation and prosecution of any action under the Florida RICO Act;
- Providing that a natural person who violates the Florida RICO Act may be subject to a civil penalty of up to $100,000 and any other person who violates the act may be subject to a civil penalty of up to $1 million, and requiring that moneys recovered for such civil penalties be deposited into the General Revenue Fund;
- Requiring that moneys recovered by the Department of Legal Affairs for attorney fees and costs under the Florida Rico Act be deposited into the Legal Affairs Revolving Trust Fund and authorizing use of those funds to investigate Florida RICO Act violations and enforce the act;
- Authorizing any party to a Florida RICO Act civil action to petition the court for entry of a consent decree or for approval of a settlement agreement;

- Providing that an investigative subpoena issued pursuant to the Florida RICO Act is confidential for 120 days after the date of issuance, unless extended by the court upon a showing of good cause by the investigating agency;
- Providing that the list of claims for which a court directs distribution of forfeiture funds includes claims for restitution by RICO victims; and
- Providing that where the forfeiture action was brought by the Department of Legal Affairs, the restitution is distributed through the Legal Affairs Trust Fund (otherwise, the restitution is distributed by the clerk of the circuit court).

The Department of Legal Affairs indicates that the new civil penalties for Florida RICO Act violations may have an indeterminate positive revenue impact on the General Revenue Fund. Changes regarding recovery of the value of property subject to forfeiture that has become unavailable may also increase forfeiture proceeds by an indeterminate amount.

The bill has an effective date of July 1, 2016.

II. Present Situation:

Florida RICO Act

The "Florida RICO Act" is the short title for ss. 895.01-895.06, F.S. "Racketeering activity" means committing, attempting to commit, conspiring to commit, or soliciting, coercing, or intimidating another person to commit any of a number of offenses listed in the definition.[1] Section 895.03, F.S., punishes as a first degree felony:

- With criminal intent receiving any proceeds derived, directly or indirectly, from a pattern of racketeering activity[2] or through the collection of an unlawful debt[3] to use or invest, whether directly or indirectly, any part of such proceeds, or the proceeds derived from the investment or use thereof, in the acquisition of any title to, or any right, interest, or equity in, real property or in the establishment or operation of any enterprise;[4]
- Through a pattern of racketeering activity or through the collection of an unlawful debt, acquiring or maintaining, directly or indirectly, any interest in or control of any enterprise or real property;

[1] Section 895.02(1), F.S. These offenses include violations of specified Florida laws (e.g., Medicaid fraud, kidnapping, human trafficking, and drug offenses) as well as any conduct defined as "racketeering activity" under 18 U.S.C. § 1961(1).
[2] "Pattern of racketeering activity" means engaging in at least two incidents of racketeering conduct that have the same or similar intents, results, accomplices, victims, or methods of commission or that otherwise are interrelated by distinguishing characteristics and are not isolated incidents, provided at least one of such incidents occurred after the effective date of this act and that the last of such incidents occurred within five years after a prior incident of racketeering conduct. Section 895.02(4), F.S.
[3] An "unlawful debt" is any money or other thing of value constituting principal or interest of a debt that is legally unenforceable in this state in whole or in part because the debt was incurred or contracted in violation of any law listed in the definition. Section 895.02(2), F.S. These offenses include violations of specified Florida laws (e.g., various gambling offenses) as well as any gambling activity in violation of federal law or in the business of lending money at a rate usurious under state or federal law.
[4] An "enterprise" is any individual, sole proprietorship, partnership, corporation, business trust, union chartered under the laws of this state, or other legal entity, or any unchartered union, association, or group of individuals associated in fact although not a legal entity. The definition includes: illicit as well as licit enterprises; governmental, as well as other, entities; and a criminal gang, as defined in s. 874.03, F.S. Section 895.02(3), F.S.

- If employed by, or associated with, any enterprise, conducting or participating, directly or indirectly, in such enterprise through a pattern of racketeering activity or the collection of an unlawful debt; and
- Conspiring or endeavoring to violate any of the aforementioned unlawful acts.[5]

In addition to criminal penalties, the Florida RICO Act imposes civil liability for violations of the act, including forfeiture to the state of all property, including money, used in the course of, intended for use in the course of, derived from, or realized through conduct in violation of the act.[6]

Recovery of Property Unavailable for Forfeiture

Section 895.05, F.S., provides that if property subject to forfeiture is conveyed, alienated, disposed of, or otherwise rendered unavailable for forfeiture after the filing of a RICO lien notice[7] or after the filing of a civil or criminal proceeding pursuant to the act, whichever is earlier, an investigative agency may institute an action to recover an amount equal to the fair market value of the property, together with investigative costs and attorney's fees incurred by the investigative agency in the action.[8] "[I]f a defendant conveys or otherwise disposes of property subject to forfeiture before the filing of a civil RICO action or the filing of a RICO lien notice, or if the property's value has been diminished, no money judgment can be obtained against the defendant for the dissipated or devalued property and the property in question cannot be forfeited."[9]

Investigative Subpoenas

Section 895.06, F.S., provides that an investigating agency may subpoena witnesses or materials during the course of a civil enforcement investigation. "The purpose of the subpoena power under section 895.06 is to allow an investigative agency to investigate, collect evidence and determine if a RICO violation has occurred."[10] An investigative agency may apply ex parte to a circuit court for an order directing that a person or entity who has been subpoenaed not disclose the existence of the subpoena for a period of 90 days to anyone except the attorney for the subpoenaed person or entity.[11] The 90-day time limit may be extended by the court for good cause shown by the investigative agency.[12]

[5] Section 895.03(1)-(4), F.S. (prohibited activities).
[6] Section 895.05(2), F.S.
[7] An investigative agency may file a RICO lien notice in the county records when it initiates a civil proceeding. The RICO lien notice creates a lien in favor of the state on the real property or beneficial interest situated in the county where the lien is filed. Section 895.07, F.S. An "investigative agency" is the Department of Legal Affairs, the Office of Statewide Prosecution, or the office of a state attorney. Section 895.02(7), F.S.

Omissions Relevant to Civil Enforcement

Current law does not:

- Specify where an action may be filed if personal property involved in a Florida RICO Act violation is subject to forfeiture;
- Address civil penalties in a Florida RICO Act enforcement action;
- Address consent decrees or settlement agreements in civil actions for Florida RICO Act violations; and
- Authorize restitution to RICO victims.

Public Records Exemption

In 2015, the Legislature created s. 895.06(7), F.S.[13] Section 895.06(7)(a), F.S., provides that information held by an investigative agency pursuant to an investigation of a violation of s. 895.03, F.S., is confidential and exempt from s. 119.07(1), F.S., and s. 24(a), Art. I of the State Constitution. Information made confidential and exempt under paragraph (a) may be disclosed by the investigative agency to a government entity in the performance of its official duties and to a court or tribunal.[14] This information is no longer confidential and exempt once all investigations to which the information pertains are completed, unless the information is otherwise protected by law.[15] An investigation is considered complete once the investigative agency either files an action or closes its investigation without filing an action.[16]

III. Effect of Proposed Changes:

The bill amends civil enforcement provisions of the Florida RICO Act to:

- Authorize an investigative agency, on behalf of the state, to institute a RICO civil proceeding for forfeiture in the circuit court for the judicial circuit in which the real or personal tangible property[17] is located, or in a circuit court in the state for intangible property;[18]
- Authorize an investigative agency to pursue an action to recover fair market value of unavailable property regardless of when the property is conveyed, alienated, disposed of, diminished in value, or otherwise rendered unavailable for forfeiture;
- Authorize a court to order the forfeiture of any other property of the defendant up to the value of the unavailable property (as an alternative to the court ordering forfeiture of an amount equal to the fair market value of the unavailable property);
- Authorize the Department of Legal Affairs to bring an action for a Florida RICO Act violation to obtain injunctive relief, civil penalties, attorney fees, and costs incurred in the investigation and prosecution of any action under the Florida RICO Act;

[13] Ch. 2015-99, L.O.F.
[14] Section 895.06(7)(b), F.S.
[15] Section 895.06(7)(c), F.S.
[16] Section 895.06(7)(d), F.S.
[17] The bill states that the terms "real or personal tangible property" and "intangible property" are described in s. 895.05(2)(a), F.S. This paragraph states that all property, real or personal, including money, used in the course of, intended for use in the course of, derived from, or realized through conduct in violation of a provision of ss. 895.01-895.05, F.S., is subject to civil forfeiture to the state.
[18] *Id.*

- Provide that a natural person who violates the Florida RICO Act may be subject to a civil penalty of up to $100,000 and any other person who violates the act may be subject to a civil penalty of up to $1 million and require that moneys recovered for civil penalties be deposited into the General Revenue Fund;
- Require that moneys recovered by the Department of Legal Affairs for attorney fees and costs under the Florida Rico Act be deposited into the Legal Affairs Revolving Trust Fund and authorize use of those funds to investigate Florida RICO Act violations and enforce the act;
- Authorize any party to a Florida RICO Act civil action to petition the court for entry of a consent decree or for approval of a settlement agreement;
- Require that the proposed decree or settlement specify the alleged violations, the future obligations of the parties, the relief agreed upon, and the reasons for entering into the consent decree or settlement agreement;
- Provide that current law relating to the suspension of the running of the period of limitations with respect to certain causes of action will apply to actions for injunctive relief, civil penalties, attorney fees, and costs incurred in the investigation and prosecution of any Florida RICO Act violation;[19]
- Provide that an investigative subpoena issued pursuant to the Florida RICO Act is confidential for 120 days after the date of issuance, unless the period is extended by the court upon a showing of good cause by the investigating agency;
- Prohibit a subpoenaed person or entity from disclosing the existence of the subpoena to any person or entity other than the attorney of the subpoenaed person or entity during the 120-day period;
- Require that the subpoena include a reference to the confidentiality of the subpoena and a notice to the recipient of the subpoena that disclosure of the existence of the subpoena to any person or entity other than the attorney of the subpoenaed person or entity is prohibited;
- Authorize an investigative agency to stipulate to protective orders with respect to documents and information submitted in response to an investigative subpoena;
- Provide that the list of claims for which a court directs distribution of forfeiture funds includes claims for restitution by RICO victims; and
- Provide that if the forfeiture action was brought by the Department of Legal Affairs, the restitution is distributed through the Legal Affairs Trust Fund (otherwise, the restitution is distributed by the clerk of the court).

The bill takes effect July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

[19] A criminal or civil action or proceeding under the Florida RICO Act may be commenced at any time within five years after the conduct in violation of the act terminates or the cause of action accrues. If a criminal prosecution or civil action or other proceeding is brought, or intervened in, to punish, prevent, or restrain any violation of the act, the running of the period of limitations prescribed with respect to certain causes of action (e.g., an action for damages brought by the state) which is based in whole or in part upon any matter complained of in any such prosecution, action, or proceeding is suspended during the pendency of such prosecution, action, or proceeding and for two years following its termination. Section 895.05(10), F.S.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

According to the Department of Legal Affairs, "[t]he civil penalties of up to $100,000 for a natural person and up to $1 million for any other person for RICO Act violations created by [SB 850] may have an indeterminate positive revenue impact on the General Revenue Fund."[20] Changes regarding recovery of the value of property subject to forfeiture that has become unavailable may also increase forfeiture proceeds by an indeterminate amount.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends sections 16.53, 16.56, 895.05, 895.06, 895.09, and 905.34, Florida Statutes.

This bill reenacts provisions of the sections 16.53, 27.345, and 92.142, Florida Statutes to incorporate the amendment made to section 895.05, Florida Statutes, in references to that statute.

[20] Department of Legal Affairs Analysis, *supra* note 9.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

By Senator Bradley

7-01019-16 2016850__

A bill to be entitled

An act relating to offenses concerning racketeering and illegal debts; reordering and amending s. 895.02, F.S.; specifying the earliest date that incidents constituting a pattern of racketeering activity may have occurred; conforming a cross-reference; amending s. 895.05, F.S.; authorizing an investigative agency to institute a civil proceeding for forfeiture in a circuit court in certain circumstances; adding diminution in value as a ground for an action under certain circumstances; removing certain grounds for an action; authorizing a court to order the forfeiture of other property of the defendant up to the value of unavailable property in certain circumstances; authorizing the Department of Legal Affairs to bring an action for certain violations to obtain specified relief, fees, and costs for certain purposes; providing for civil penalties for natural persons and other persons who commit certain violations; providing for deposit of moneys received for certain violations; authorizing a party to a specific civil action to petition the court for entry of a consent decree or for approval of a settlement agreement; providing requirements for such decrees or agreements; amending s. 895.06, F.S.; deleting the definition of "investigative agency" for purposes of provisions relating to civil investigative subpoenas; providing that a subpoena must be confidential for a specified time; restricting to whom the subpoenaed person or

7-01019-16 2016850__

entity may disclose the existence of the subpoena; requiring certain information be included in the subpoena; authorizing the investigative agency to apply for an order extending the amount of time the subpoena remains confidential rather than having it extended by the court for a specified period; providing that the investigative agency has the authority to stipulate to protective orders with respect to documents and information submitted in response to a subpoena; amending s. 895.09, F.S.; conforming a cross-reference; providing for distribution of forfeiture proceeds to victims; amending ss. 16.56 and 905.34, F.S.; conforming cross-references; amending s. 16.53, F.S., and reenacting subsection (4) and paragraph (5)(a), relating to the Legal Affairs Revolving Trust Fund, to incorporate the amendment made by the act to s. 895.05, F.S., a reference thereto; conforming a cross-reference; reenacting ss. 27.345(1) and 92.142(3), F.S., relating to the State Attorney RICO Trust Fund and witness pay, respectively, to incorporate the amendment made by the act to s. 895.05, F.S., in references thereto; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 895.02, Florida Statutes, is reordered and amended to read:

895.02 Definitions.—As used in ss. 895.01-895.08, the term:

(8)~~(1)~~ "Racketeering activity" means to commit, to attempt to commit, to conspire to commit, or to solicit, coerce, or intimidate another person to commit:

(a) Any crime that is chargeable by petition, indictment, or information under the following provisions of the Florida Statutes:

1. Section 210.18, relating to evasion of payment of cigarette taxes.

2. Section 316.1935, relating to fleeing or attempting to elude a law enforcement officer and aggravated fleeing or eluding.

3. Section 403.727(3)(b), relating to environmental control.

4. Section 409.920 or s. 409.9201, relating to Medicaid fraud.

5. Section 414.39, relating to public assistance fraud.

6. Section 440.105 or s. 440.106, relating to workers' compensation.

7. Section 443.071(4), relating to creation of a fictitious employer scheme to commit reemployment assistance fraud.

8. Section 465.0161, relating to distribution of medicinal drugs without a permit as an Internet pharmacy.

9. Section 499.0051, relating to crimes involving contraband and adulterated drugs.

10. Part IV of chapter 501, relating to telemarketing.

11. Chapter 517, relating to sale of securities and investor protection.

12. Section 550.235 or s. 550.3551, relating to dogracing and horseracing.

13. Chapter 550, relating to jai alai frontons.

14. Section 551.109, relating to slot machine gaming.

15. Chapter 552, relating to the manufacture, distribution, and use of explosives.

16. Chapter 560, relating to money transmitters, if the violation is punishable as a felony.

17. Chapter 562, relating to beverage law enforcement.

18. Section 624.401, relating to transacting insurance without a certificate of authority, s. 624.437(4)(c)1., relating to operating an unauthorized multiple-employer welfare arrangement, or s. 626.902(1)(b), relating to representing or aiding an unauthorized insurer.

19. Section 655.50, relating to reports of currency transactions, when such violation is punishable as a felony.

20. Chapter 687, relating to interest and usurious practices.

21. Section 721.08, s. 721.09, or s. 721.13, relating to real estate timeshare plans.

22. Section 775.13(5)(b), relating to registration of persons found to have committed any offense for the purpose of benefiting, promoting, or furthering the interests of a criminal gang.

23. Section 777.03, relating to commission of crimes by accessories after the fact.

24. Chapter 782, relating to homicide.

25. Chapter 784, relating to assault and battery.

26. Chapter 787, relating to kidnapping or human trafficking.

27. Chapter 790, relating to weapons and firearms.

28. Chapter 794, relating to sexual battery, but only if such crime was committed with the intent to benefit, promote, or further the interests of a criminal gang, or for the purpose of increasing a criminal gang member's own standing or position within a criminal gang.

29. Former s. 796.03, former s. 796.035, s. 796.04, s. 796.05, or s. 796.07, relating to prostitution.

30. Chapter 806, relating to arson and criminal mischief.

31. Chapter 810, relating to burglary and trespass.

32. Chapter 812, relating to theft, robbery, and related crimes.

33. Chapter 815, relating to computer-related crimes.

34. Chapter 817, relating to fraudulent practices, false pretenses, fraud generally, and credit card crimes.

35. Chapter 825, relating to abuse, neglect, or exploitation of an elderly person or disabled adult.

36. Section 827.071, relating to commercial sexual exploitation of children.

37. Section 828.122, relating to fighting or baiting animals.

38. Chapter 831, relating to forgery and counterfeiting.

39. Chapter 832, relating to issuance of worthless checks and drafts.

40. Section 836.05, relating to extortion.

41. Chapter 837, relating to perjury.

42. Chapter 838, relating to bribery and misuse of public office.

43. Chapter 843, relating to obstruction of justice.

44. Section 847.011, s. 847.012, s. 847.013, s. 847.06, or

s. 847.07, relating to obscene literature and profanity.

45. Chapter 849, relating to gambling, lottery, gambling or gaming devices, slot machines, or any of the provisions within that chapter.

46. Chapter 874, relating to criminal gangs.

47. Chapter 893, relating to drug abuse prevention and control.

48. Chapter 896, relating to offenses related to financial transactions.

49. Sections 914.22 and 914.23, relating to tampering with or harassing a witness, victim, or informant, and retaliation against a witness, victim, or informant.

50. Sections 918.12 and 918.13, relating to tampering with jurors and evidence.

(b) Any conduct defined as "racketeering activity" under 18 U.S.C. s. 1961(1).

(12) ~~(2)~~ "Unlawful debt" means any money or other thing of value constituting principal or interest of a debt that is legally unenforceable in this state in whole or in part because the debt was incurred or contracted:

(a) In violation of any one of the following provisions of law:

1. Section 550.235 or s. 550.3551, relating to dogracing and horseracing.

2. Chapter 550, relating to jai alai frontons.

3. Section 551.109, relating to slot machine gaming.

4. Chapter 687, relating to interest and usury.

5. Section 849.09, s. 849.14, s. 849.15, s. 849.23, or s. 849.25, relating to gambling.

(b) In gambling activity in violation of federal law or in the business of lending money at a rate usurious under state or federal law.

(5)~~(3)~~ "Enterprise" means any individual, sole proprietorship, partnership, corporation, business trust, union chartered under the laws of this state, or other legal entity, or any unchartered union, association, or group of individuals associated in fact although not a legal entity; and it includes illicit as well as licit enterprises and governmental, as well as other, entities. A criminal gang, as defined in s. 874.03, constitutes an enterprise.

(7)~~(4)~~ "Pattern of racketeering activity" means engaging in at least two incidents of racketeering conduct that have the same or similar intents, results, accomplices, victims, or methods of commission or that otherwise are interrelated by distinguishing characteristics and are not isolated incidents, provided at least one of such incidents occurred after October 1, 1977, ~~the effective date of this act~~ and that the last of such incidents occurred within 5 years after a prior incident of racketeering conduct.

(4)~~(5)~~ "Documentary material" means any book, paper, document, writing, drawing, graph, chart, photograph, phonorecord, magnetic tape, computer printout, other data compilation from which information can be obtained or from which information can be translated into usable form, or other tangible item.

(10)~~(6)~~ "RICO lien notice" means the notice described in s. 895.05(13) ~~s. 895.05(12)~~ or in s. 895.07.

(6)~~(7)~~ "Investigative agency" means the Department of Legal

Affairs, the Office of Statewide Prosecution, or the office of a state attorney.

(1)~~(8)~~ "Beneficial interest" means any of the following:

(a) The interest of a person as a beneficiary under a trust established pursuant to s. 689.07 or s. 689.071 in which the trustee for the trust holds legal or record title to real property;

(b) The interest of a person as a beneficiary under any other trust arrangement pursuant to which a trustee holds legal or record title to real property for the benefit of such person; or

(c) The interest of a person under any other form of express fiduciary arrangement pursuant to which any other person holds legal or record title to real property for the benefit of such person.

The term "beneficial interest" does not include the interest of a stockholder in a corporation or the interest of a partner in either a general partnership or a limited partnership. A beneficial interest shall be deemed to be located where the real property owned by the trustee is located.

(9) "Real property" means any real property or any interest in such real property, including, but not limited to, any lease of or mortgage upon such real property.

(11)~~(10)~~ "Trustee" means any of the following:

(a) Any person acting as trustee pursuant to a trust established under s. 689.07 or s. 689.071 in which the trustee holds legal or record title to real property.

(b) Any person who holds legal or record title to real

property in which any other person has a beneficial interest.

(c) Any successor trustee or trustees to any or all of the foregoing persons.

However, the term "trustee" does not include any person appointed or acting as a personal representative as defined in s. 731.201 or appointed or acting as a trustee of any testamentary trust or as a trustee of any indenture of trust under which any bonds have been or are to be issued.

(3) ~~(11)~~ "Criminal proceeding" means any criminal proceeding commenced by an investigative agency under s. 895.03 or any other provision of the Florida RICO Act.

(2) ~~(12)~~ "Civil proceeding" means any civil proceeding commenced by an investigative agency under s. 895.05 or any other provision of the Florida RICO Act.

Section 2. Subsections (2), (5), and (8) through (12) of section 895.05, Florida Statutes, are amended to read:

895.05 Civil remedies.—

(2)(a) All property, real or personal, including money, used in the course of, intended for use in the course of, derived from, or realized through conduct in violation of ~~a provision of~~ ss. 895.01-895.05 is subject to civil forfeiture to the state.

(b) An investigative agency may, on behalf of the state, institute a civil proceeding for forfeiture in the circuit court for the judicial circuit in which the real or personal tangible property, as described in paragraph (a), is located. An investigative agency may, on behalf of the state, institute a civil proceeding for forfeiture in a circuit court in the state

regarding intangible property as described in paragraph (a).

(c) Upon the entry of a final judgment of forfeiture in favor of the state, the title of the state to the forfeited property shall relate back:

1. In the case of real property or a beneficial interest, to the date of filing of the RICO lien notice in the official records of the county where the real property or beneficial trust is located; if no RICO lien notice is filed, then to the date of the filing of any notice of lis pendens under s. 895.07(5)(a) in the official records of the county where the real property or beneficial interest is located; and if no RICO lien notice or notice of lis pendens is filed, then to the date of recording of the final judgment of forfeiture in the official records of the county where the real property or beneficial interest is located.

2. In the case of personal property, to the date the personal property was seized by the investigating agency.

(d) If property subject to forfeiture is conveyed, alienated, disposed of, diminished in value, or otherwise rendered unavailable for forfeiture ~~after the filing of a RICO lien notice or after the filing of a civil proceeding or criminal proceeding, whichever is earlier~~, the investigative agency may, on behalf of the state, institute an action in any circuit court against the person named in the RICO lien notice or the defendant in the civil proceeding or criminal proceeding, and the court shall enter final judgment against the person named in the RICO lien notice or the defendant in the civil proceeding or criminal proceeding in an amount equal to the fair market value of the property, together with investigative costs

and attorney ~~attorney's~~ fees incurred by the investigative agency in the action. As an alternative, the court may order the forfeiture of any other property of a defendant up to the value of the property subject to forfeiture. If a civil proceeding is pending, such action shall be filed only in the court where the civil proceeding is pending.

(e)~~(c)~~ The state shall dispose of all forfeited property as soon as commercially feasible. If property is not exercisable or transferable for value by the state, it shall expire. All forfeitures or dispositions under this section shall be made with due provision for the rights of innocent persons. The proceeds realized from such forfeiture and disposition shall be promptly distributed in accordance with the provisions of s. 895.09.

(5) The Department of Legal Affairs, any state attorney, or any state agency having jurisdiction over conduct in violation of a provision of this chapter ~~act~~ may institute civil proceedings under this section. In any action brought under this section, the circuit court shall proceed as soon as practicable to the hearing and determination. Pending final determination, the circuit court may at any time enter such injunctions, prohibitions, or restraining orders, or take such actions, including the acceptance of satisfactory performance bonds, as the court may deem proper.

(8) A final judgment or decree rendered in favor of the state in any criminal proceeding under this chapter ~~act~~ or any other criminal proceeding under state law shall estop the defendant in any subsequent civil action or proceeding under this chapter ~~act~~ or under s. 772.104 as to all matters as to

which such judgment or decree would be an estoppel as between the parties.

(9) The Department of Legal Affairs may bring an action for a violation of s. 895.03 to obtain injunctive relief, civil penalties as provided in this subsection, attorney fees, and costs incurred in the investigation and prosecution of any action under this chapter.

(a) A natural person who violates s. 895.03 is subject to a civil penalty of up to $100,000. Any other person who violates s. 895.03 is subject to a civil penalty of up to $1 million. Moneys recovered for civil penalties under this paragraph shall be deposited into the General Revenue Fund.

(b) Moneys recovered by the Department of Legal Affairs for attorney fees and costs under this subsection shall be deposited into the Legal Affairs Revolving Trust Fund, which may be used to investigate and enforce this chapter.

(c) In a civil action brought under this subsection by the Department of Legal Affairs, any party to such action may petition the court for entry of a consent decree or for approval of a settlement agreement. The proposed decree or settlement shall specify the alleged violations, the future obligations of the parties, the relief agreed upon, and the reasons for entering into the consent decree or settlement agreement.

(10)~~(9)~~ The Department of Legal Affairs may, upon timely application, intervene in any civil action or proceeding brought under subsection (6) or subsection (7) if it certifies that, in its opinion, the action or proceeding is of general public importance. In such action or proceeding, the state shall be entitled to the same relief as if the Department of Legal

Affairs had instituted the action or proceeding.

(11)~~(10)~~ Notwithstanding any other provision of law, a criminal or civil action or proceeding under this chapter ~~act~~ may be commenced at any time within 5 years after the conduct in violation of ~~a provision of~~ this chapter ~~act~~ terminates or the cause of action accrues. If a criminal prosecution or civil action or other proceeding is brought, or intervened in, to punish, prevent, or restrain any violation of ~~the provisions of~~ this chapter ~~act~~, the running of the period of limitations prescribed by this section with respect to any cause of action arising under subsection (6), ~~or~~ subsection (7), or subsection (9) which is based in whole or in part upon any matter complained of in any such prosecution, action, or proceeding shall be suspended during the pendency of such prosecution, action, or proceeding and for 2 years following its termination.

(12)~~(11)~~ The application of one civil remedy under any provision of this chapter ~~act~~ does not preclude the application of any other remedy, civil or criminal, under this chapter ~~act~~ or any other provision of law. Civil remedies under this chapter ~~act~~ are supplemental, and not mutually exclusive.

(13)~~(12)~~(a) In addition to the authority to file a RICO lien notice set forth in s. 895.07(1), the Department of Legal Affairs, the Office of Statewide Prosecution, or the office of a state attorney may apply ex parte to a criminal division of a circuit court and, upon petition supported by sworn affidavit, obtain an order authorizing the filing of a RICO lien notice against real property upon a showing of probable cause to believe that the property was used in the course of, intended for use in the course of, derived from, or realized through

conduct in violation of ~~a provision of~~ ss. 895.01-895.05. If the lien notice authorization is granted, the department shall, after filing the lien notice, forthwith provide notice to the owner of the property by one of the following methods:

1. By serving the notice in the manner provided by law for the service of process.

2. By mailing the notice, postage prepaid, by ~~registered or~~ certified mail to the person to be served at his or her last known address and evidence of the delivery.

3. If neither of the foregoing can be accomplished, by posting the notice on the premises.

(b) The owner of the property may move the court to discharge the lien, and such motion shall be set for hearing at the earliest possible time.

(c) The court shall discharge the lien if it finds that there is no probable cause to believe that the property was used in the course of, intended for use in the course of, derived from, or realized through conduct in violation of ~~a provision of~~ ss. 895.01-895.05 or if it finds that the owner of the property neither knew nor reasonably should have known that the property was used in the course of, intended for use in the course of, derived from, or realized through conduct in violation of ~~a provision of~~ ss. 895.01-895.05.

(d) No testimony presented by the owner of the property at the hearing is admissible against him or her in any criminal proceeding except in a criminal prosecution for perjury or false statement, nor shall such testimony constitute a waiver of the owner's constitutional right against self-incrimination.

(e) A lien notice secured under ~~the provisions of~~ this

subsection is valid for a period of 90 days from the date the court granted authorization, which period may be extended for an additional 90 days by the court for good cause shown, unless a civil proceeding is instituted under this section and a lien notice is filed under s. 895.07, in which event the term of the lien notice is governed by s. 895.08.

(f) The filing of a lien notice, whether or not subsequently discharged or otherwise lifted, shall constitute notice to the owner and knowledge by the owner that the property was used in the course of, intended for use in the course of, derived from, or realized through conduct in violation of ~~a provision of~~ ss. 895.01-895.05, such that lack of such notice and knowledge shall not be a defense in any subsequent civil or criminal proceeding under this chapter.

Section 3. Section 895.06, Florida Statutes, is amended to read:

895.06 Civil investigative subpoenas; public records exemption.—

~~(1) As used in this section, the term "investigative agency" means the Department of Legal Affairs, the Office of Statewide Prosecution, or the office of a state attorney.~~

(1)~~(2)~~ If, pursuant to the civil enforcement provisions of s. 895.05, an investigative agency has reason to believe that a person or other enterprise has engaged in, or is engaging in, activity in violation of this chapter ~~act~~, the investigative agency may administer oaths or affirmations, subpoena witnesses or material, and collect evidence.

(2)~~(3)~~ A subpoena issued pursuant to this chapter is confidential for 120 days after the date of its issuance. The

subpoenaed person or entity may not disclose the existence of the subpoena to any person or entity other than his or her attorney during the 120-day period. The subpoena must include a reference to the confidentiality of the subpoena and a notice to the recipient of the subpoena that disclosure of the existence of the subpoena to any person or entity other than the subpoenaed person's or entity's attorney is prohibited. The investigative agency may apply ex parte to the circuit court for the circuit in which a subpoenaed person or entity resides, is found, or transacts business for an order directing that the subpoenaed person or entity not disclose the existence of the subpoena to any other person or entity except the subpoenaed person's attorney for an additional ~~a~~ period of time ~~90 days, which time may be extended by the court~~ for good cause shown by the investigative agency. The order shall be served on the subpoenaed person or entity with the subpoena, and the subpoena must ~~shall~~ include a reference to the order and a notice to the recipient of the subpoena that disclosure of the existence of the subpoena to any other person or entity in violation of the order may subject the subpoenaed person or entity to punishment for contempt of court. Such an order may be granted by the court only upon a showing:

(a) Of sufficient factual grounds to reasonably indicate a violation of ss. 895.01-895.06;

(b) That the documents or testimony sought appear reasonably calculated to lead to the discovery of admissible evidence; and

(c) Of facts that ~~which~~ reasonably indicate that disclosure of the subpoena would hamper or impede the investigation or

would result in a flight from prosecution.

(3) ~~(4)~~ If matter that the investigative agency seeks to obtain by the subpoena is located outside the state, the person or enterprise subpoenaed may make such matter available to the investigative agency or its representative for examination at the place where such matter is located. The investigative agency may designate representatives, including officials of the jurisdiction in which the matter is located, to inspect the matter on its behalf and may respond to similar requests from officials of other jurisdictions.

(4) ~~(5)~~ Upon failure of a person or enterprise, without lawful excuse, to obey a subpoena issued under this section or a subpoena issued in the course of a civil proceeding instituted pursuant to s. 895.05, and after reasonable notice to such person or enterprise, the investigative agency may apply to the circuit court in which such civil proceeding is pending or, if no civil proceeding is pending, to the circuit court for the judicial circuit in which such person or enterprise resides, is found, or transacts business for an order compelling compliance. Except in a prosecution for perjury, an individual who complies with a court order to provide testimony or material after asserting a privilege against self-incrimination to which the individual is entitled by law shall not have the testimony or material so provided, or evidence derived therefrom, received against him or her in any criminal investigation or proceeding.

(5) ~~(6)~~ A person who fails to obey a court order entered pursuant to this section may be punished for contempt of court.

(6) The investigative agency may stipulate to protective orders with respect to documents and information submitted in

response to a subpoena issued under this section.

(7)(a) Information held by an investigative agency pursuant to an investigation of a violation of s. 895.03 is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

(b) Information made confidential and exempt under paragraph (a) may be disclosed by the investigative agency to:

1. A government entity in the performance of its official duties.

2. A court or tribunal.

(c) Information made confidential and exempt under paragraph (a) is no longer confidential and exempt once all investigations to which the information pertains are completed, unless the information is otherwise protected by law.

(d) For purposes of this subsection, an investigation is considered complete once the investigative agency either files an action or closes its investigation without filing an action.

(e) This subsection is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2020, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 4. Paragraph (b) of subsection (1) of section 895.09, Florida Statutes, is amended, and paragraph (d) is added to that subsection, to read:

895.09 Disposition of funds obtained through forfeiture proceedings.—

(1) A court entering a judgment of forfeiture in a proceeding brought pursuant to s. 895.05 shall retain jurisdiction to direct the distribution of any cash or of any

cash proceeds realized from the forfeiture and disposition of the property. The court shall direct the distribution of the funds in the following order of priority:

(b) Any claims against the property by persons who have previously been judicially determined to be innocent persons, pursuant to s. 895.05(2)(e) ~~the provisions of s. 895.05(2)(c)~~, and whose interests are preserved from forfeiture by the court and not otherwise satisfied. Such claims may include any claim by a person appointed by the court as receiver pending litigation.

(d) Any claims for restitution by victims of racketeering activity. If the forfeiture action was brought by the Department of Legal Affairs, the restitution shall be distributed through the Legal Affairs Revolving Trust Fund; otherwise, the restitution shall be distributed by the clerk of the court.

Section 5. Paragraph (a) of subsection (1) of section 16.56, Florida Statutes, is amended to read:

16.56 Office of Statewide Prosecution.—

(1) There is created in the Department of Legal Affairs an Office of Statewide Prosecution. The office shall be a separate "budget entity" as that term is defined in chapter 216. The office may:

(a) Investigate and prosecute the offenses of:

1. Bribery, burglary, criminal usury, extortion, gambling, kidnapping, larceny, murder, prostitution, perjury, robbery, carjacking, and home-invasion robbery;

2. Any crime involving narcotic or other dangerous drugs;

3. Any violation of the Florida RICO (Racketeer Influenced and Corrupt Organization) Act, including any offense listed in

the definition of racketeering activity in s. 895.02(8)(a) ~~895.02(1)(a)~~, providing such listed offense is investigated in connection with a violation of s. 895.03 and is charged in a separate count of an information or indictment containing a count charging a violation of s. 895.03, the prosecution of which listed offense may continue independently if the prosecution of the violation of s. 895.03 is terminated for any reason;

4. Any violation of the Florida Anti-Fencing Act;

5. Any violation of the Florida Antitrust Act of 1980, as amended;

6. Any crime involving, or resulting in, fraud or deceit upon any person;

7. Any violation of s. 847.0135, relating to computer pornography and child exploitation prevention, or any offense related to a violation of s. 847.0135 or any violation of chapter 827 where the crime is facilitated by or connected to the use of the Internet or any device capable of electronic data storage or transmission;

8. Any violation of chapter 815;

9. Any criminal violation of part I of chapter 499;

10. Any violation of the Florida Motor Fuel Tax Relief Act of 2004;

11. Any criminal violation of s. 409.920 or s. 409.9201;

12. Any crime involving voter registration, voting, or candidate or issue petition activities;

13. Any criminal violation of the Florida Money Laundering Act;

14. Any criminal violation of the Florida Securities and

Investor Protection Act; or

15. Any violation of chapter 787, as well as any and all offenses related to a violation of chapter 787;

or any attempt, solicitation, or conspiracy to commit any of the crimes specifically enumerated above. The office shall have such power only when any such offense is occurring, or has occurred, in two or more judicial circuits as part of a related transaction, or when any such offense is connected with an organized criminal conspiracy affecting two or more judicial circuits. Informations or indictments charging such offenses shall contain general allegations stating the judicial circuits and counties in which crimes are alleged to have occurred or the judicial circuits and counties in which crimes affecting such circuits or counties are alleged to have been connected with an organized criminal conspiracy.

Section 6. Subsection (3) of section 905.34, Florida Statutes, is amended to read:

905.34 Powers and duties; law applicable.—The jurisdiction of a statewide grand jury impaneled under this chapter shall extend throughout the state. The subject matter jurisdiction of the statewide grand jury shall be limited to the offenses of:

(3) Any violation of the provisions of the Florida RICO (Racketeer Influenced and Corrupt Organization) Act, including any offense listed in the definition of racketeering activity in s. 895.02(8)(a) ~~895.02(1)(a)~~, providing such listed offense is investigated in connection with a violation of s. 895.03 and is charged in a separate count of an information or indictment containing a count charging a violation of s. 895.03, the

prosecution of which listed offense may continue independently if the prosecution of the violation of s. 895.03 is terminated for any reason;

or any attempt, solicitation, or conspiracy to commit any violation of the crimes specifically enumerated above, when any such offense is occurring, or has occurred, in two or more judicial circuits as part of a related transaction or when any such offense is connected with an organized criminal conspiracy affecting two or more judicial circuits. The statewide grand jury may return indictments and presentments irrespective of the county or judicial circuit where the offense is committed or triable. If an indictment is returned, it shall be certified and transferred for trial to the county where the offense was committed. The powers and duties of, and law applicable to, county grand juries shall apply to a statewide grand jury except when such powers, duties, and law are inconsistent with the provisions of ss. 905.31-905.40.

Section 7. For the purpose of incorporating the amendment made by this act to section 895.05, Florida Statutes, in a reference thereto, subsection (4) and paragraph (a) of subsection (5) of section 16.53, Florida Statutes, are reenacted, and subsection (6) of that section is amended, to read:

16.53 Legal Affairs Revolving Trust Fund.—

(4) Subject to the provisions of s. 895.09, when the Attorney General files an action pursuant to s. 895.05, funds provided to the Department of Legal Affairs pursuant to s. 895.09(2)(a) or, alternatively, attorneys' fees and costs,

whichever is greater, shall be deposited in the fund.

(5)(a) In the case of a forfeiture action pursuant to s. 895.05, the remainder of the moneys recovered shall be distributed as set forth in s. 895.09.

(6) "Moneys recovered" means damages or penalties or any other monetary payment, including monetary proceeds from property forfeited to the state pursuant to s. 895.05 remaining after satisfaction of any valid claims made pursuant to s. 895.09(1)(a)-(d) ~~895.09(1)(a)-(c)~~, which damages, penalties, or other monetary payment is made by any defendant by reason of any decree or settlement in any Racketeer Influenced and Corrupt Organization Act or state or federal antitrust action prosecuted by the Attorney General, but excludes attorney ~~attorneys'~~ fees and costs.

Section 8. For the purpose of incorporating the amendment made by this act to section 895.05, Florida Statutes, in a reference thereto, subsection (1) of section 27.345, Florida Statutes, is reenacted to read:

27.345 State Attorney RICO Trust Fund; authorized use of funds; reporting.—

(1) Subject to the provisions of s. 895.09, when a state attorney files an action pursuant to s. 895.05, funds provided to the state attorney pursuant to s. 895.09(2)(a) or, alternatively, attorneys' fees and costs, whichever is greater, shall be deposited in the State Attorney RICO Trust Fund.

Section 9. For the purpose of incorporating the amendment made by this act to section 895.05, Florida Statutes, in a reference thereto, subsection (3) of section 92.142, Florida Statutes, is reenacted to read:

92.142 Witnesses; pay.—

(3) Any witness subpoenaed to testify on behalf of the state in any action brought pursuant to s. 895.05 or chapter 542 who is required to travel outside his or her county of residence and more than 50 miles from his or her residence, or who is required to travel from out of state, shall be entitled to per diem and travel expenses at the same rate provided for state employees under s. 112.061 in lieu of any state witness fee.

Section 10. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 886 (203738)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Education); and Senator Benacquisto
SUBJECT:	Parent and Student Rights
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Hand	Klebacha	ED	**Favorable**
2.	Sikes	Elwell	AED	**Recommend: Fav/CS**
3.	Sikes	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/SB 886 expands notification requirements and educational choice options available for parents to make informed decisions about the placement of their children in an educational setting. Specifically the bill:

- Expands parent notification requirements to include school district reporting average of estimated funding expenditures on a per student basis.
- Authorizes parent ability to choose to enroll his or her child in any public school in the state which has not reached capacity. The bill further specifies the components of the school district educational facilities plan which the district school board must consider in determining capacity.
- Authorizes a parent to request a transfer of his or her child to a different classroom teacher.

The bill is expected to have an insignificant impact on state funds. Individual school districts may experience an increase or decrease in Florida Education Finance Program (FEFP) funding based on shifts in student enrollment.

The bill takes effect July 1, 2016.

II. Present Situation:

There is a range of information and school choice options available to parents, from academic progress information, multiple school choice options, and notifications about and limits to certain types of teachers that may be assigned a student.

Educational Transparency

Parents of public school students must receive accurate and timely information regarding their child's academic progress and must be informed about ways that the parents can help their child to succeed in school.[1]

For purposes of exceptional student education (ESE), district school boards must provide parents, at the initial individual education plan (IEP) team meeting, the amount of state appropriations that the school district receives for each of the five ESE support levels for a full-time student.[2]

Public School Educational Choice Options

Parents of public school students may seek school choice options such as controlled open enrollment, lab schools, virtual instruction programs, charter schools, charter technical career centers, magnet schools, alternative schools, special programs, auditory-oral education programs, advanced placement, dual enrollment, International Baccalaureate, Advanced International Certificate of Education, credit by examination or demonstration of competency, the School for Deaf and the Blind, the Florida Virtual School, and the public school options for the Opportunity Scholarship Program and the McKay Scholarships for Students with Disabilities Program.[3]

Controlled Open Enrollment

Controlled open enrollment is a public education delivery system that gives school districts the option of making student school assignments using a parent's indicated preferential public school choice as a significant factor.[4]

Each district school board offering the controlled open enrollment must adopt by rule a controlled open enrollment plan (plan) and post the plan on the district's website.[5] The plan must:[6]

- Adhere to federal desegregation requirements.
- Include an application process required to participate in controlled open enrollment that allows parents to declare school preferences, including placement of siblings within the same school.
- Provide a lottery procedure to determine student assignment and establish an appeals process for hardship cases.

[1] Section 1002.20, F.S.
[2] Section 1003.57(1)(j), F.S.
[3] Section 1002.20(6), F.S.
[4] Section 1002.31(1), F.S.; Implementation of the plan by a district school board is optional. Section 1002.31(2), F.S.
[5] Section 1002.31(3), F.S.
[6] Section 1002.31(3), F.S.

- Afford parents of students in multiple session schools preferred access to controlled open enrollment.
- Maintain socioeconomic, demographic, and racial balance.
- Address the availability of transportation.

The controlled open enrollment provisions do not specify how a district may determine, or limit, the number of students that may be enrolled in these schools.[7] However, "over-capacity" is otherwise statutorily defined to mean a school whose capital outlay FTE enrollment exceeds 100 percent of the space and occupancy design capacity of its nonrelocatable facilities.[8] If a school's initial design incorporated relocatable or modular instruction space, an "over-capacity school" means a school the capital outlay FTE enrollment of which exceeds 100% of the space and occupant design capacity of its core facilities.[9]

Notification and Ability to Change Teachers

Each district school board must adopt and implement a plan to assist teachers who teach out-of-field and prioritize professional development activities for such teachers.[10] If a teacher is assigned a class that is outside the field in which the teacher is certified or has demonstrated sufficient subject matter expertise, parents of all students in that class must be notified, in writing, of such assignment.[11]

Public school students are prohibited from being taught by a classroom teacher who received a performance evaluation rating of "needs improvement" or "unsatisfactory" if the student was taught by a classroom teacher that received a performance rating of "needs improvement" or "unsatisfactory" in the previous school year.[12]

III. Effect of Proposed Changes:

This bill expands notification requirements and educational choice options available for parents to make informed decisions about the placement of their children in an educational setting. Specifically the bill:

- Expands parent notification requirements to include school district reporting average of estimated funding expenditures on a per student basis.
- Authorizes parent ability to choose to enroll his or her child in any public school in the state which has not reached capacity. The bill further specifies the components of the school district educational facilities plan which the district school board must consider in determining capacity.
- Authorizes a parent to request a transfer of his or her child to a different classroom teacher.

[7] Section 1002.31, F.S.
[8] Section 1013.21(1)(b), F.S.
[9] *Id.*
[10] Section 1012.42(1), F.S. The district school board must require the teacher to participate in a certification or staff development program that is designed to provide the teacher with the necessary competencies to perform assigned duties. *Id*.
[11] Section 1012.42(2), F.S.
[12] Section 1012.2315(6), F.S. For elementary school students, this probation applies to any subject, while the prohibition for middle school and high school students is limited to teachers who receive the performance evaluations in the same subject area. *Id.* A parent may provide written consent to exempt extracurricular courses from this prohibition. *Id.*

Educational Transparency

The bill requires a school district to notify parents of the estimated amount of funding[13] allocated to a student similar to their child, based upon grade level and level of support. This notification may be included in the student handbook or similar publication.

The bill updates statutes that provide an overview of public and private educational options. The bill also revises applicable terminology by using the term "educational choice" instead of "school choice," to identify that the available choices stem beyond a specific school.

Public School Educational Choice Options

The bill eliminates controlled open enrollment as the mechanism for making student school assignments, and instead allows parents to choose to send their children to any school in the district or state. Specifically, the bill:

- Requires each district school board to establish and post on its website a public school parental choice policy that authorizes a parent to choose to enroll his or her child in any school in the district, including charter schools, subject to capacity. The parent is responsible for providing transportation.
- Allows a parent to choose to enroll his or her child in any public school in the state, including charter schools, that has not reached capacity. The district may provide transportation at the district's discretion, otherwise the parent is responsible for transporting the child to school. The school district must report the student for purposes of the district's funding pursuant to the Florida Education Finance Program.
- Requires a school district to identify which schools have not reached capacity. In determining the capacity of each school, the district school board must incorporate the specifications, plans, elements, and commitments contained in the school district educational facilities plan and long term work programs.

Notification and Ability to Change Teachers

The bill creates two new mechanisms for a parent to request transfer of his or her child to a different teacher:

- Each district school board must establish a transfer process for a parent to request his or her child to be transferred to another classroom teacher. The transfer process must be published in the student handbook or similar publication. A school must grant or deny the transfer within two weeks after receiving a request for such transfer. If a request is denied, the school must notify the parent of the denial and provide reasons for the denial.
- A parent may request a transfer of his or her child to another classroom teacher within the school and grade upon receipt of written notification that the child's assigned teacher is an out-of-field teacher. The bill requires school districts to grant parents' requests for such transfers within two weeks; however, parents do not have the right to choose a specific teacher.

[13] The funding amount is the average amount of money estimated to be expended from all sources, state, local, and federal, including operating and capital outlay expenses.

The bill takes effect July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

PCS/SB 886 is expected to have an insignificant impact on state funds. Individual school districts may experience an increase or decrease in Florida Education Finance Program (FEFP) funding based on shifts in student enrollment.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1002.20, 1002.31, 1002.33, 1002.38, 1002.451, 1006.15, and 1012.42.

This bill creates section 1003.3101 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Education on January 28, 2016:
The committee substitute requires a district school board, when determining the capacity of each school, to incorporate specific components of the school district educational facilities plan.

B. Amendments:

None.

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Education)

A bill to be entitled

An act relating to parent and student rights; amending s. 1002.20, F.S.; revising public school educational choice options available to students throughout the state to include CAPE Digital Tool certificates, CAPE industry certifications, and collegiate high school programs; authorizing parents of public school students to seek private educational choice options through the Florida Personal Learning Scholarship Accounts Program under certain circumstances; providing the right of a parent to know an estimated amount of money expended for the education of his or her child; requiring the Department of Education to provide each school district with such information; requiring the school districts to provide notification to parents; authorizing the information to be published in the student handbook or a similar publication; amending s. 1002.31, F.S.; deleting the definition of and provisions relating to the term "controlled open enrollment"; requiring each school district to establish a public school parental choice policy that authorizes parents to choose to enroll their child in and transport their child to any public school that has not reached capacity in the state; authorizing a school district to provide transportation to students who participate in the public school parental choice policy; prohibiting the

203738

576-02721-16

displacement of certain students who participate in the public school parental choice policy; authorizing a student participating in the public school parental choice policy to remain at a school until a certain time; revising requirements for the public school parental choice plan; requiring a district school board to incorporate certain information in its determination of the capacity of each school; authorizing a parent to enroll and transport his or her child to a public school that has not reached capacity by a specified date; requiring the school district to report a student for purposes of the school district's funding; amending s. 1002.33, F.S.; requiring a charter school with space available to be open to any student in the state; creating s. 1003.3101, F.S.; requiring each school district board to establish a classroom teacher transfer process for parents, to approve or deny a transfer request within a certain timeframe, to notify a parent of a denial, and to post an explanation of the transfer process in the student handbook or a similar publication; amending s. 1012.42, F.S.; authorizing a parent of a child whose teacher is teaching outside the teacher's field to request that the child be transferred to another classroom teacher within the school and grade in which the child is currently enrolled within a specified timeframe; specifying that a transfer does not provide a parent the right to choose a specific teacher; amending ss. 1002.38, 1002.451, and 1006.15,

F.S.; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraphs (a) and (b) of subsection (6) of section 1002.20, Florida Statutes, are amended, and subsection (25) is added to that section, to read:

1002.20 K-12 student and parent rights.—Parents of public school students must receive accurate and timely information regarding their child's academic progress and must be informed of ways they can help their child to succeed in school. K-12 students and their parents are afforded numerous statutory rights including, but not limited to, the following:

(6) EDUCATIONAL CHOICE.—

(a) *Public educational ~~school~~ choices.*—Parents of public school students may seek whatever public educational ~~school~~ choice options that are applicable and available to students throughout the state ~~in their school districts~~. These options may include public school parental choice ~~controlled open enrollment~~, single-gender programs, lab schools, virtual instruction programs, charter schools, charter technical career centers, magnet schools, alternative schools, special programs, auditory-oral education programs, CAPE Digital Tool certificates, CAPE industry certifications, collegiate high school programs, advanced placement, dual enrollment, International Baccalaureate, International General Certificate of Secondary Education (pre-AICE), Advanced International Certificate of Education, early admissions, credit by

examination or demonstration of competency, the New World School of the Arts, the Florida School for the Deaf and the Blind, and the Florida Virtual School. These options may also include the public educational ~~school~~ choice options of the Opportunity Scholarship Program and the McKay Scholarships for Students with Disabilities Program.

(b) *Private educational ~~school~~ choices.*—Parents of public school students may seek private educational ~~school~~ choice options under certain programs.

1. Under the McKay Scholarships for Students with Disabilities Program, the parent of a public school student with a disability may request and receive a McKay Scholarship for the student to attend a private school in accordance with s. 1002.39.

2. Under the Florida Tax Credit Scholarship Program, the parent of a student who qualifies for free or reduced-price school lunch or who is currently placed, or during the previous state fiscal year was placed, in foster care as defined in s. 39.01 may seek a scholarship from an eligible nonprofit scholarship-funding organization in accordance with s. 1002.395.

3. Under the Florida Personal Learning Scholarship Accounts Program, the parent of a student with a qualifying disability may apply for a personal learning scholarship to be used for educational needs in accordance with s. 1002.385.

(25) FISCAL TRANSPARENCY.—A parent has the right to know the average amount of money estimated to be expended from all local, state, and federal sources, for the education of his or her child, including operating and capital outlay expenses. The department shall annually provide each district the estimated

amount of funding allocated for a student in the district by grade level and level of support. Each district must notify parents of the estimated amount of funding allocated for a student similar to their child, based upon grade level and level of support. The fiscal transparency notification may be included in the student handbook or a similar publication.

Section 2. Section 1002.31, Florida Statutes, is amended to read:

1002.31 ~~Controlled open enrollment;~~ Public school parental choice.—

~~(1) As used in this section, "controlled open enrollment" means a public education delivery system that allows school districts to make student school assignments using parents' indicated preferential school choice as a significant factor.~~

(1)~~(2)~~ Each district school board shall establish a public school parental choice policy that authorizes a parent to choose to enroll his or her child in and transport his or her child to any public school in the state which has not reached capacity, including charter schools. This policy ~~may offer controlled open enrollment within the public schools which~~ is in addition to the existing choice programs, such as virtual instruction programs, magnet schools, alternative schools, special programs, advanced placement, and dual enrollment. The district may provide transportation to the students at the district's discretion. A student assigned to a school may not be displaced by the public school parental choice policy included in the district's plan. For the purposes of continuity of educational choice, a student may continue to attend the chosen school until the student completes the highest grade offered by the school.

(2)~~(3)~~ Each district school board ~~offering controlled open enrollment~~ shall adopt by rule and post on its website a public school parental choice ~~controlled open enrollment~~ plan that ~~which~~ must:

(a) Adhere to federal desegregation requirements.

(b) ~~Include an application process required to participate in controlled open enrollment that allows parents to declare school preferences, including placement of siblings within the same school.~~

~~(c)~~ Provide a lottery procedure to determine student assignment and establish an appeals process for hardship cases.

(c)~~(d)~~ Afford parents of students in multiple session schools preferred access ~~to controlled open enrollment~~.

(d)~~(c)~~ Maintain socioeconomic, demographic, and racial balance.

(e)~~(f)~~ Address the availability of transportation.

(f) Maintain existing eligibility criteria for educational choice, pursuant to s. 1002.20(6)(a).

(g) Identify schools that have not reached capacity. In determining the capacity of each school, the district school board shall incorporate the specifications, plans, elements, and commitments contained in the school district educational facilities plan and the long-term work programs required under s. 1013.35.

(h) Provide preferential treatment to all of the following:

1. Dependent children of active duty military personnel.

2. Siblings who could attend the same school.

3. Students residing in the district.

4. Children who have been relocated due to a foster care

placement.

(3) Beginning in the 2017-2018 school year, or earlier if authorized by the district, a parent may choose to enroll his or her child in and transport his or her child to any public school that has not reached capacity, including charter schools, in any school district in this state. The school district shall accept the student and report the student for purposes of the district's funding pursuant to the Florida Education Finance Program.

(4) For a student in grades 9 through 12, interscholastic and intrascholastic extracurricular student activity eligibility may be impacted by choosing to attend a school other than the school assigned by the district.

(5) ~~(4)~~ In accordance with the reporting requirements of s. 1011.62, each district school board shall annually report the number of students exercising public school choice, by type of educational choice, in accordance with ~~attending the various types of public schools of choice in the district, including schools such as virtual instruction programs, magnet schools, and public charter schools, according to~~ rules adopted by the State Board of Education.

(6) ~~(5)~~ For a school or program that is a public school of choice under this section, the calculation for compliance with maximum class size pursuant to s. 1003.03 is the average number of students at the school level.

Section 3. Paragraph (a) of subsection (10) of section 1002.33, Florida Statutes, is amended to read:

1002.33 Charter schools.—

(10) ELIGIBLE STUDENTS.—

(a) A charter school must ~~shall~~ be open to any student covered in an interdistrict agreement or residing in the school district in which the charter school is located; however, in the case of a charter lab school, the charter lab school must ~~shall~~ be open to any student eligible to attend the lab school as provided in s. 1002.32 or who resides in the school district in which the charter lab school is located. A charter school with space available must be open to any student in the state, pursuant to s. 1002.31. Any eligible student must ~~shall~~ be allowed interdistrict transfer to attend a charter school when based on good cause. Good cause includes ~~shall include~~, but is not limited to, geographic proximity to a charter school in a neighboring school district.

Section 4. Section 1003.3101, Florida Statutes, is created to read:

1003.3101 Additional educational choice options.—Each school district board shall establish a transfer process for a parent to request his or her child be transferred to another classroom teacher. A school must approve or deny the transfer within 2 weeks after receiving a request. If a request for transfer is denied, the school must notify the parent and specify the reasons for the denial. An explanation of the transfer process must be made available in the student handbook or a similar publication.

Section 5. Subsection (2) of section 1012.42, Florida Statutes, is amended to read:

1012.42 Teacher teaching out-of-field.—

(2) NOTIFICATION REQUIREMENTS.—When a teacher in a district school system is assigned teaching duties in a class dealing

with subject matter that is outside the field in which the teacher is certified, outside the field that was the applicant's minor field of study, or outside the field in which the applicant has demonstrated sufficient subject area expertise, as determined by district school board policy in the subject area to be taught, the parents of all students in the class shall be notified in writing of such assignment. A parent who receives this notification may, after the October student membership survey, request that his or her child be transferred to another classroom teacher within the school and grade in which the student is currently enrolled. The school district shall grant the parent's request and transfer the student to a different classroom teacher within a reasonable period of time, not to exceed 2 weeks. This subsection does not provide a parent the right to choose a specific teacher.

Section 6. Paragraph (e) of subsection (3) of section 1002.38, Florida Statutes, is amended to read:

1002.38 Opportunity Scholarship Program.—

(3) SCHOOL DISTRICT OBLIGATIONS.—

(e) If the parent chooses to request that the student be enrolled in a higher-performing public school in the school district, transportation costs to the higher-performing public school shall be the responsibility of the school district. The district may utilize state categorical transportation funds or state-appropriated public educational ~~school~~ choice incentive funds for this purpose.

Section 7. Paragraph (c) of subsection (1) and paragraph (a) of subsection (6) of section 1002.451, Florida Statutes, are amended to read:

1002.451 District innovation school of technology program.—

(1) DISTRICT INNOVATION SCHOOL OF TECHNOLOGY.—

(c) An innovation school of technology must be open to any student covered in an interdistrict agreement or residing in the school district in which the innovation school of technology is located. An innovation school of technology shall enroll an eligible student who submits a timely application if the number of applications does not exceed the capacity of a program, class, grade level, or building. If the number of applications exceeds capacity, all applicants shall have an equal chance of being admitted through a public random selection process. However, a district may give enrollment preference to students who identify the innovation school of technology as the student's preferred choice pursuant to the district's public school parental choice ~~controlled open enrollment~~ plan.

(6) APPLICATION PROCESS AND PERFORMANCE CONTRACT.—

(a) A district school board may apply to the State Board of Education for an innovation school of technology if the district:

1. Has at least 20 percent of its total enrollment in public educational ~~school~~ choice programs or at least 5 percent of its total enrollment in charter schools;

2. Has no material weaknesses or instances of material noncompliance noted in the annual financial audit conducted pursuant to s. 218.39; and

3. Has received a district grade of "A" or "B" in each of the past 3 years.

Section 8. Paragraphs (c), (d), and (e) of subsection (3) of section 1006.15, Florida Statutes, are amended to read:

1006.15 Student standards for participation in interscholastic and intrascholastic extracurricular student activities; regulation.—

(3)

(c) An individual home education student is eligible to participate at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend pursuant to public school parental choice ~~district or interdistrict controlled open enrollment~~ provisions, or may develop an agreement to participate at a private school, in the interscholastic extracurricular activities of that school, provided the following conditions are met:

1. The home education student must meet the requirements of the home education program pursuant to s. 1002.41.

2. During the period of participation at a school, the home education student must demonstrate educational progress as required in paragraph (b) in all subjects taken in the home education program by a method of evaluation agreed upon by the parent and the school principal which may include: review of the student's work by a certified teacher chosen by the parent; grades earned through correspondence; grades earned in courses taken at a Florida College System institution, university, or trade school; standardized test scores above the 35th percentile; or any other method designated in s. 1002.41.

3. The home education student must meet the same residency requirements as other students in the school at which he or she participates.

4. The home education student must meet the same standards

of acceptance, behavior, and performance as required of other students in extracurricular activities.

5. The student must register with the school his or her intent to participate in interscholastic extracurricular activities as a representative of the school before the beginning date of the season for the activity in which he or she wishes to participate. A home education student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

6. A student who transfers from a home education program to a public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period provided the student has a successful evaluation from the previous school year, pursuant to subparagraph 2.

7. Any public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a home education student until the student has successfully completed one grading period in home education pursuant to subparagraph 2. to become eligible to participate as a home education student.

(d) An individual charter school student pursuant to s. 1002.33 is eligible to participate at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend, pursuant to district or interdistrict public school parental choice ~~controlled open-enrollment~~ provisions, in any interscholastic extracurricular activity of that school, unless

203738

576-02721-16

such activity is provided by the student's charter school, if the following conditions are met:

1. The charter school student must meet the requirements of the charter school education program as determined by the charter school governing board.

2. During the period of participation at a school, the charter school student must demonstrate educational progress as required in paragraph (b).

3. The charter school student must meet the same residency requirements as other students in the school at which he or she participates.

4. The charter school student must meet the same standards of acceptance, behavior, and performance that are required of other students in extracurricular activities.

5. The charter school student must register with the school his or her intent to participate in interscholastic extracurricular activities as a representative of the school before the beginning date of the season for the activity in which he or she wishes to participate. A charter school student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

6. A student who transfers from a charter school program to a traditional public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period if the student has a successful evaluation from the previous school year, pursuant to subparagraph 2.

7. Any public school or private school student who has been

203738

576-02721-16

unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a charter school student until the student has successfully completed one grading period in a charter school pursuant to subparagraph 2. to become eligible to participate as a charter school student.

(e) A student of the Florida Virtual School full-time program may participate in any interscholastic extracurricular activity at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend, pursuant to district or interdistrict public school parental choice ~~controlled open enrollment~~ policies, if the student:

1. During the period of participation in the interscholastic extracurricular activity, meets the requirements in paragraph (a).

2. Meets any additional requirements as determined by the board of trustees of the Florida Virtual School.

3. Meets the same residency requirements as other students in the school at which he or she participates.

4. Meets the same standards of acceptance, behavior, and performance that are required of other students in extracurricular activities.

5. Registers his or her intent to participate in interscholastic extracurricular activities with the school before the beginning date of the season for the activity in which he or she wishes to participate. A Florida Virtual School student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

405 Section 9. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 886
INTRODUCER:	Senator Benacquisto
SUBJECT:	Parent and Student Rights
DATE:	February 24, 2016
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Hand	Klebacha	ED	**Favorable**
2.	Sikes	Elwell	AED	**Recommend: Fav/CS**
3.	Sikes	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

SB 886 expands notification requirements and educational choice options available for parents to make informed decisions about the placement of their children in an educational setting. Specifically the bill:

- Expands parent notification requirements to include school district reporting average of estimated funding expenditures on a per student basis.
- Authorizes parent ability to choose to enroll his or her child in any public school in the state which has not reached capacity. The bill further defines capacity.
- Authorizes a parent to request a transfer of his or her child to a different classroom teacher.

The bill is expected to have an insignificant impact on state funds. Individual school districts may experience an increase or decrease in Florida Education Finance Program (FEFP) funding based on shifts in student enrollment.

The bill takes effect July 1, 2016.

II. Present Situation:

There is a range of information and school choice options available to parents, from academic progress information, multiple school choice options, and notifications about and limits to certain types of teachers that may be assigned a student.

Educational Transparency

Parents of public school students must receive accurate and timely information regarding their child's academic progress and must be informed about ways that the parents can help their child to succeed in school.[1]

For purposes of exceptional student education (ESE), district school boards must provide parents, at the initial individual education plan (IEP) team meeting, the amount of state appropriations that the school district receives for each of the five ESE support levels for a full-time student.[2]

Public School Educational Choice Options

Parents of public school students may seek school choice options such as controlled open enrollment, lab schools, virtual instruction programs, charter schools, charter technical career centers, magnet schools, alternative schools, special programs, auditory-oral education programs, advanced placement, dual enrollment, International Baccalaureate, Advanced International Certificate of Education, credit by examination or demonstration of competency, the School for Deaf and the Blind, the Florida Virtual School, and the public school options for the Opportunity Scholarship Program and the McKay Scholarships for Students with Disabilities Program.[3]

Controlled Open Enrollment

Controlled open enrollment is a public education delivery system that gives school districts the option of making student school assignments using a parent's indicated preferential public school choice as a significant factor.[4]

Each district school board offering the controlled open enrollment must adopt by rule a controlled open enrollment plan (plan) and post the plan on the district's website.[5] The plan must:[6]

- Adhere to federal desegregation requirements.
- Include an application process required to participate in controlled open enrollment that allows parents to declare school preferences, including placement of siblings within the same school.
- Provide a lottery procedure to determine student assignment and establish an appeals process for hardship cases.
- Afford parents of students in multiple session schools preferred access to controlled open enrollment.
- Maintain socioeconomic, demographic, and racial balance.
- Address the availability of transportation.

[1] Section 1002.20, F.S.
[2] Section 1003.57(1)(j), F.S.
[3] Section 1002.20(6), F.S.
[4] Section 1002.31(1), F.S.; Implementation of the plan by a district school board is optional. Section 1002.31(2), F.S.
[5] Section 1002.31(3), F.S.
[6] Section 1002.31(3), F.S.

The controlled open enrollment provisions do not specify how a district may determine, or limit, the number of students that may be enrolled in these schools.[7] However, "over-capacity" is otherwise statutorily defined to mean a school whose capital outlay FTE enrollment exceeds 100 percent of the space and occupancy design capacity of its nonrelocatable facilities.[8] If a school's initial design incorporated relocatable or modular instruction space, an "over-capacity school" means a school the capital outlay FTE enrollment of which exceeds 100% of the space and occupant design capacity of its core facilities.[9]

Notification and Ability to Change Teachers

Each district school board must adopt and implement a plan to assist teachers who teach out-of-field and prioritize professional development activities for such teachers.[10] If a teacher is assigned a class that is outside the field in which the teacher is certified or has demonstrated sufficient subject matter expertise, parents of all students in that class must be notified, in writing, of such assignment.[11]

Public school students are prohibited from being taught by a classroom teacher who received a performance evaluation rating of "needs improvement" or "unsatisfactory" if the student was taught by a classroom teacher that received a performance rating of "needs improvement" or "unsatisfactory" in the previous school year.[12]

III. Effect of Proposed Changes:

This bill expands notification requirements and educational choice options available for parents to make informed decisions about the placement of their children in an educational setting. Specifically the bill:

- Expands parent notification requirements to include school district reporting average of estimated funding expenditures on a per student basis.
- Authorizes parent ability to choose to enroll his or her child in any public school in the state which has not reached capacity. The bill further defines capacity.
- Authorizes a parent to request a transfer of his or her child to a different classroom teacher.

Educational Transparency

The bill requires a school district to notify parents of the estimated amount of funding[13] allocated to a student similar to their child, based upon grade level and level of support. This notification may be included in the student handbook or similar publication.

---

[7] Section 1002.31, F.S.
[8] Section 1013.21(1)(b), F.S.
[9] *Id.*
[10] Section 1012.42(1), F.S. The district school board must require the teacher to participate in a certification or staff development program that is designed to provide the teacher with the necessary competencies to perform assigned duties. *Id*.
[11] Section 1012.42(2), F.S.
[12] Section 1012.2315(6), F.S. For elementary school students, this probation applies to any subject, while the prohibition for middle school and high school students is limited to teachers who receive the performance evaluations in the same subject area. *Id.* A parent may provide written consent to exempt extracurricular courses from this prohibition. *Id.*
[13] The funding amount is the average amount of money estimated to be expended from all sources, state, local, and federal, including operating and capital outlay expenses.

The bill updates statutes that provide an overview of public and private educational options. The bill also revises applicable terminology by using the term "educational choice" instead of "school choice," to identify that the available choices stem beyond a specific school.

Public School Educational Choice Options

The bill eliminates controlled open enrollment as the mechanism for making student school assignments, and instead allows parents to choose to send their children to any school in the district or state. Specifically, the bill:

- Requires each district school board to establish and post on its website a public school parental choice policy that authorizes a parent to choose to enroll his or her child in any school in the district, including charter schools, subject to capacity. The parent is responsible for providing transportation.
- Allows a parent to choose to enroll his or her child in any public school in the state, including charter schools, that has not reached capacity. The district may provide transportation at the district's discretion, otherwise the parent is responsible for transporting the child to school. The school district must report the student for purposes of the district's funding pursuant to the Florida Education Finance Program.
- Defines capacity to mean a school in which the capital outlay full-time equivalent (FTE) enrollment exceeds 95 percent of the space and occupant design capacity of its nonrelocatable facilities. If a school's initial design incorporated relocatable or modular instructional space, the term "capacity" must mean a school in which the capital outlay FTE enrollment exceeds 95 percent of the space and occupant design capacity of its core facilities. In effect, the bill prevents controlled open enrollment plans from identifying artificially low limits to student enrollment, while ensuring a 5 percent buffer for overall school capacity.

Notification and Ability to Change Teachers

The bill creates two new mechanisms for a parent to request transfer of his or her child to a different teacher:

- Each district school board must establish a transfer process for a parent to request his or her child to be transferred to another classroom teacher. The transfer process must be published in the student handbook or similar publication. A school must grant or deny the transfer within two weeks after receiving a request for such transfer. If a request is denied, the school must notify the parent of the denial and provide reasons for the denial.
- A parent may request a transfer of his or her child to another classroom teacher within the school and grade upon receipt of written notification that the child's assigned teacher is an out-of-field teacher. The bill requires school districts to grant parents' requests for such transfers within two weeks; however, parents do not have the right to choose a specific teacher.

The bill takes effect July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

SB 886 is expected to have an insignificant impact on state funds. Individual school districts may experience an increase or decrease in Florida Education Finance Program (FEFP) funding based on shifts in student enrollment.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1002.20, 1002.31, 1002.33, 1002.38, 1002.451, 1006.15, and 1012.42.

This bill creates section 1003.3101 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

By Senator Benacquisto

30-00637A-16 2016886__

A bill to be entitled

An act relating to parent and student rights; amending s. 1002.20, F.S.; revising public school educational choice options available to students throughout the state to include CAPE Digital Tool certificates, CAPE industry certifications, and collegiate high school programs; authorizing parents of public school students to seek private educational choice options through the Florida Personal Learning Scholarship Accounts Program under certain circumstances; providing the right of a parent to know an estimated amount of money expended for the education of his or her child; requiring the Department of Education to provide each school district with such information; requiring the school districts to provide notification to parents; authorizing the information to be published in the student handbook or a similar publication; amending s. 1002.31, F.S.; deleting the definition of and provisions relating to the term "controlled open enrollment"; requiring each school district to establish a public school parental choice policy that authorizes parents to choose to enroll their child in and transport their child to any public school that has not reached capacity in the state; authorizing a school district to provide transportation to students who participate in the public school parental choice policy; prohibiting the displacement of certain students who participate in the public school parental choice policy; authorizing

30-00637A-16 2016886__

a student participating in the public school parental choice policy to remain at a school until a certain time; revising requirements for the public school parental choice plan; defining the term "capacity"; authorizing a parent to enroll and transport his or her child to a public school that has not reached capacity by a specified date; requiring the school district to report a student for purposes of the school district's funding; amending s. 1002.33, F.S.; requiring a charter school with space available to be open to any student in the state; creating s. 1003.3101, F.S.; requiring each school district board to establish a classroom teacher transfer process for parents, to approve or deny a transfer request within a certain timeframe, to notify a parent of a denial, and to post an explanation of the transfer process in the student handbook or a similar publication; amending s. 1012.42, F.S.; authorizing a parent of a child whose teacher is teaching outside the teacher's field to request that the child be transferred to another classroom teacher within the school and grade in which the child is currently enrolled within a specified timeframe; specifying that a transfer does not provide a parent the right to choose a specific teacher; amending ss. 1002.38, 1002.451, and 1006.15, F.S.; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraphs (a) and (b) of subsection (6) of section 1002.20, Florida Statutes, are amended, and subsection (25) is added to that section, to read:

1002.20 K-12 student and parent rights.—Parents of public school students must receive accurate and timely information regarding their child's academic progress and must be informed of ways they can help their child to succeed in school. K-12 students and their parents are afforded numerous statutory rights including, but not limited to, the following:

(6) EDUCATIONAL CHOICE.—

(a) *Public educational ~~school~~ choices.*—Parents of public school students may seek whatever public educational ~~school~~ choice options that are applicable and available to students throughout the state ~~in their school districts~~. These options may include public school parental choice ~~controlled open enrollment~~, single-gender programs, lab schools, virtual instruction programs, charter schools, charter technical career centers, magnet schools, alternative schools, special programs, auditory-oral education programs, CAPE Digital Tool certificates, CAPE industry certifications, collegiate high school programs, advanced placement, dual enrollment, International Baccalaureate, International General Certificate of Secondary Education (pre-AICE), Advanced International Certificate of Education, early admissions, credit by examination or demonstration of competency, the New World School of the Arts, the Florida School for the Deaf and the Blind, and the Florida Virtual School. These options may also include the public educational ~~school~~ choice options of the Opportunity

Scholarship Program and the McKay Scholarships for Students with Disabilities Program.

(b) *Private educational ~~school~~ choices.*—Parents of public school students may seek private educational ~~school~~ choice options under certain programs.

1. Under the McKay Scholarships for Students with Disabilities Program, the parent of a public school student with a disability may request and receive a McKay Scholarship for the student to attend a private school in accordance with s. 1002.39.

2. Under the Florida Tax Credit Scholarship Program, the parent of a student who qualifies for free or reduced-price school lunch or who is currently placed, or during the previous state fiscal year was placed, in foster care as defined in s. 39.01 may seek a scholarship from an eligible nonprofit scholarship-funding organization in accordance with s. 1002.395.

3. Under the Florida Personal Learning Scholarship Accounts Program, the parent of a student with a qualifying disability may apply for a personal learning scholarship to be used for educational needs in accordance with s. 1002.385.

(25) FISCAL TRANSPARENCY.—A parent has the right to know the average amount of money estimated to be expended from all local, state, and federal sources, for the education of his or her child, including operating and capital outlay expenses. The department shall annually provide each district the estimated amount of funding allocated for a student in the district by grade level and level of support. Each district must notify parents of the estimated amount of funding allocated for a student similar to their child, based upon grade level and level

of support. The fiscal transparency notification may be included in the student handbook or a similar publication.

Section 2. Section 1002.31, Florida Statutes, is amended to read:

1002.31 ~~Controlled open enrollment;~~ Public school parental choice.—

~~(1) As used in this section, "controlled open enrollment" means a public education delivery system that allows school districts to make student school assignments using parents' indicated preferential school choice as a significant factor.~~

(1)~~(2)~~ Each district school board shall establish a public school parental choice policy that authorizes a parent to choose to enroll his or her child in and transport his or her child to any public school in the state which has not reached capacity, including charter schools. This policy ~~may offer controlled open enrollment within the public schools which~~ is in addition to the existing choice programs, such as virtual instruction programs, magnet schools, alternative schools, special programs, advanced placement, and dual enrollment. The district may provide transportation to the students at the district's discretion. A student assigned to a school may not be displaced by the public school parental choice policy included in the district's plan. For the purposes of continuity of educational choice, a student may continue to attend the chosen school until the student completes the highest grade offered by the school.

(2)~~(3)~~ Each district school board ~~offering controlled open enrollment~~ shall adopt by rule and post on its website a public school parental choice ~~controlled open enrollment~~ plan that ~~which~~ must:

(a) Adhere to federal desegregation requirements.

(b) ~~Include an application process required to participate in controlled open enrollment that allows parents to declare school preferences, including placement of siblings within the same school.~~

~~(c)~~ Provide a lottery procedure to determine student assignment and establish an appeals process for hardship cases.

(c)~~(d)~~ Afford parents of students in multiple session schools preferred access ~~to controlled open enrollment~~.

(d)~~(e)~~ Maintain socioeconomic, demographic, and racial balance.

(e)~~(f)~~ Address the availability of transportation.

(f) Maintain existing eligibility criteria for educational choice, pursuant to s. 1002.20(6)(a).

(g) Identify schools that have not reached capacity. The term "capacity" means a level of capital outlay FTE enrollment in a school which exceeds 95 percent of the space and occupant design capacity of its nonrelocatable facilities. However, if a school's initial design incorporated relocatable or modular instructional space, the term means a level of capital outlay FTE enrollment in a school which exceeds 95 percent of the space and occupant design capacity of its core facilities.

(h) Provide preferential treatment to all of the following:

1. Dependent children of active duty military personnel.

2. Siblings who could attend the same school.

3. Students residing in the district.

4. Children who have been relocated due to a foster care placement.

(3) Beginning in the 2017-2018 school year, or earlier if

authorized by the district, a parent may choose to enroll his or her child in and transport his or her child to any public school that has not reached capacity, including charter schools, in any school district in this state. The school district shall accept the student and report the student for purposes of the district's funding pursuant to the Florida Education Finance Program.

(4) For a student in grades 9 through 12, interscholastic and intrascholastic extracurricular student activity eligibility may be impacted by choosing to attend a school other than the school assigned by the district.

(5) ~~(4)~~ In accordance with the reporting requirements of s. 1011.62, each district school board shall annually report the number of students exercising public school choice, by type of educational choice, in accordance with ~~attending the various types of public schools of choice in the district, including schools such as virtual instruction programs, magnet schools, and public charter schools, according to~~ rules adopted by the State Board of Education.

(6) ~~(5)~~ For a school or program that is a public school of choice under this section, the calculation for compliance with maximum class size pursuant to s. 1003.03 is the average number of students at the school level.

Section 3. Paragraph (a) of subsection (10) of section 1002.33, Florida Statutes, is amended to read:

1002.33 Charter schools.—

(10) ELIGIBLE STUDENTS.—

(a) A charter school must ~~shall~~ be open to any student covered in an interdistrict agreement or residing in the school

district in which the charter school is located; however, in the case of a charter lab school, the charter lab school must ~~shall~~ be open to any student eligible to attend the lab school as provided in s. 1002.32 or who resides in the school district in which the charter lab school is located. A charter school with space available must be open to any student in the state, pursuant to s. 1002.31. Any eligible student must ~~shall~~ be allowed interdistrict transfer to attend a charter school when based on good cause. Good cause includes ~~shall include~~, but is not limited to, geographic proximity to a charter school in a neighboring school district.

Section 4. Section 1003.3101, Florida Statutes, is created to read:

1003.3101 Additional educational choice options.—Each school district board shall establish a transfer process for a parent to request his or her child be transferred to another classroom teacher. A school must approve or deny the transfer within 2 weeks after receiving a request. If a request for transfer is denied, the school must notify the parent and specify the reasons for the denial. An explanation of the transfer process must be made available in the student handbook or a similar publication.

Section 5. Subsection (2) of section 1012.42, Florida Statutes, is amended to read:

1012.42 Teacher teaching out-of-field.—

(2) NOTIFICATION REQUIREMENTS.—When a teacher in a district school system is assigned teaching duties in a class dealing with subject matter that is outside the field in which the teacher is certified, outside the field that was the applicant's

minor field of study, or outside the field in which the applicant has demonstrated sufficient subject area expertise, as determined by district school board policy in the subject area to be taught, the parents of all students in the class shall be notified in writing of such assignment. A parent who receives this notification may, after the October student membership survey, request that his or her child be transferred to another classroom teacher within the school and grade in which the student is currently enrolled. The school district shall grant the parent's request and transfer the student to a different classroom teacher within a reasonable period of time, not to exceed 2 weeks. This subsection does not provide a parent the right to choose a specific teacher.

Section 6. Paragraph (e) of subsection (3) of section 1002.38, Florida Statutes, is amended to read:

1002.38 Opportunity Scholarship Program.—

(3) SCHOOL DISTRICT OBLIGATIONS.—

(e) If the parent chooses to request that the student be enrolled in a higher-performing public school in the school district, transportation costs to the higher-performing public school shall be the responsibility of the school district. The district may utilize state categorical transportation funds or state-appropriated public educational ~~school~~ choice incentive funds for this purpose.

Section 7. Paragraph (c) of subsection (1) and paragraph (a) of subsection (6) of section 1002.451, Florida Statutes, are amended to read:

1002.451 District innovation school of technology program.—

(1) DISTRICT INNOVATION SCHOOL OF TECHNOLOGY.—

(c) An innovation school of technology must be open to any student covered in an interdistrict agreement or residing in the school district in which the innovation school of technology is located. An innovation school of technology shall enroll an eligible student who submits a timely application if the number of applications does not exceed the capacity of a program, class, grade level, or building. If the number of applications exceeds capacity, all applicants shall have an equal chance of being admitted through a public random selection process. However, a district may give enrollment preference to students who identify the innovation school of technology as the student's preferred choice pursuant to the district's public school parental choice ~~controlled open enrollment~~ plan.

(6) APPLICATION PROCESS AND PERFORMANCE CONTRACT.—

(a) A district school board may apply to the State Board of Education for an innovation school of technology if the district:

1. Has at least 20 percent of its total enrollment in public educational ~~school~~ choice programs or at least 5 percent of its total enrollment in charter schools;

2. Has no material weaknesses or instances of material noncompliance noted in the annual financial audit conducted pursuant to s. 218.39; and

3. Has received a district grade of "A" or "B" in each of the past 3 years.

Section 8. Paragraphs (c), (d), and (e) of subsection (3) of section 1006.15, Florida Statutes, are amended to read:

1006.15 Student standards for participation in interscholastic and intrascholastic extracurricular student

activities; regulation.—

(3)

(c) An individual home education student is eligible to participate at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend pursuant to public school parental choice ~~district or interdistrict controlled open enrollment~~ provisions, or may develop an agreement to participate at a private school, in the interscholastic extracurricular activities of that school, provided the following conditions are met:

1. The home education student must meet the requirements of the home education program pursuant to s. 1002.41.

2. During the period of participation at a school, the home education student must demonstrate educational progress as required in paragraph (b) in all subjects taken in the home education program by a method of evaluation agreed upon by the parent and the school principal which may include: review of the student's work by a certified teacher chosen by the parent; grades earned through correspondence; grades earned in courses taken at a Florida College System institution, university, or trade school; standardized test scores above the 35th percentile; or any other method designated in s. 1002.41.

3. The home education student must meet the same residency requirements as other students in the school at which he or she participates.

4. The home education student must meet the same standards of acceptance, behavior, and performance as required of other students in extracurricular activities.

5. The student must register with the school his or her intent to participate in interscholastic extracurricular activities as a representative of the school before the beginning date of the season for the activity in which he or she wishes to participate. A home education student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

6. A student who transfers from a home education program to a public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period provided the student has a successful evaluation from the previous school year, pursuant to subparagraph 2.

7. Any public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a home education student until the student has successfully completed one grading period in home education pursuant to subparagraph 2. to become eligible to participate as a home education student.

(d) An individual charter school student pursuant to s. 1002.33 is eligible to participate at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend, pursuant to district or interdistrict public school parental choice ~~controlled open-enrollment~~ provisions, in any interscholastic extracurricular activity of that school, unless such activity is provided by the student's charter school, if the following conditions are met:

1. The charter school student must meet the requirements of the charter school education program as determined by the charter school governing board.

2. During the period of participation at a school, the charter school student must demonstrate educational progress as required in paragraph (b).

3. The charter school student must meet the same residency requirements as other students in the school at which he or she participates.

4. The charter school student must meet the same standards of acceptance, behavior, and performance that are required of other students in extracurricular activities.

5. The charter school student must register with the school his or her intent to participate in interscholastic extracurricular activities as a representative of the school before the beginning date of the season for the activity in which he or she wishes to participate. A charter school student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

6. A student who transfers from a charter school program to a traditional public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period if the student has a successful evaluation from the previous school year, pursuant to subparagraph 2.

7. Any public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to

participate in such activities as a charter school student until the student has successfully completed one grading period in a charter school pursuant to subparagraph 2. to become eligible to participate as a charter school student.

(e) A student of the Florida Virtual School full-time program may participate in any interscholastic extracurricular activity at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend, pursuant to district or interdistrict public school parental choice ~~controlled open enrollment~~ policies, if the student:

1. During the period of participation in the interscholastic extracurricular activity, meets the requirements in paragraph (a).

2. Meets any additional requirements as determined by the board of trustees of the Florida Virtual School.

3. Meets the same residency requirements as other students in the school at which he or she participates.

4. Meets the same standards of acceptance, behavior, and performance that are required of other students in extracurricular activities.

5. Registers his or her intent to participate in interscholastic extracurricular activities with the school before the beginning date of the season for the activity in which he or she wishes to participate. A Florida Virtual School student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

Section 9. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 918 (857014)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services); Health Policy Committee; and Senator Richter
SUBJECT:	Licensure of Health Care Professionals
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Rossitto-Van Winkle	Stovall	HP	**Fav/CS**
2.	Brown/Rossitto-Van Winkle	Pigott	AHS	**Recommend: Fav/CS**
3.	Brown	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 918 authorizes the Department of Health (DOH) to waive fees and issue health care licenses to active duty U.S. military personnel who are within six months of an honorable discharge and to waive fees and issue licenses to active duty military spouses under certain circumstances. The bill authorizes the DOH to issue certificates to military trained emergency medical technicians (EMTs) and paramedics under certain circumstances; and authorizes the issuance of temporary certificates to active duty military licensed in another state and practicing in Florida pursuant to a military platform The bill also eliminates the requirement that a military spouse who has been issued a temporary dental license may practice only under the supervision of a Florida dentist.

The bill exempts a chiropractic physician from regulation in Florida when he or she holds an active license in another jurisdiction and is performing chiropractic procedures or demonstrating equipment or supplies for educational purposes at a board-approved continuing education program.

The bill also updates various provisions regulating health care professions to reflect current operations and to improve operational efficiencies, including:

- Conforming Florida Statute to reflect implementation of the integrated electronic continuing education (CE) tracking system regarding the licensure and renewal process;

- Authorizing the DOH to contract with a third party to serve as the custodian of medical records in the event of a practitioner's death, incapacitation, or abandonment of records;
- Modifying procedures for handling professions that have been operating with cash deficits and which are at the statutory fee cap;
- Deleting the requirement for pre-licensure courses relating to HIV/AIDS and medical errors for certain professions;
- Eliminating a loophole pertaining to the licensure and license renewal of certain felons, persons convicted of Medicaid fraud, or other excluded individuals;
- Eliminating the requirement for annual inspections of dispensing practitioners' facilities;[1]
- Repealing the Council on Certified Nursing Assistants and the Advisory Council of Medical Physicists; and
- Providing for a one-year temporary license for medical physicists.

Additionally, the bill mandates more stringent reporting requirements for the James and Esther King Biomedical Research Program, the William G. "Bill" Bankhead, Jr., David Coley Cancer Research Program, the Ed and Ethel Moore Alzheimer's Disease Research Program within the DOH, and entities that receive a specific appropriation for biomedical research and related functions.

Unspent, but obligated, general revenue funds that are appropriated to the Ed and Ethel Moore Alzheimer's Disease Research Program are authorized to be carried forward on June 30 of each fiscal year for up to five years after the effective date of the original appropriation.

The bill is expected to result in cost savings of approximately $630,000 in recurring funds within the DOH Medical Quality Assurance Trust Fund.

The bill has an effective date of July 1, 2016.

II. Present Situation:

Health Care Practitioner Licensure

The Department of Health (DOH) is responsible for the regulation of health practitioners and health care facilities in Florida for the preservation of the health, safety, and welfare of the public. The Division of Medical Quality Assurance (MQA), working in conjunction with 22 boards and six councils, licenses and regulates seven types of health care facilities and more than 200 license types in over 40 health care professions.[2] Any person desiring to be a licensed health care professional in Florida must apply to the DOH in writing.[3] Most health care professions are regulated by a board or council in conjunction with the DOH and all professions have different requirements for initial licensure and licensure renewal.[4]

---

[1] Under s. 465.0276, F.S., a person may not dispense medicinal drugs unless licensed as a pharmacist or otherwise authorized under ch. 465, F.S., to do so, except that a practitioner authorized by law to prescribe drugs may dispense such drugs to her or his patients in the regular course of her or his practice in compliance with s. 465.0276, F.S.

[3] Section 456.013, F.S.

[4] *See* chs. 401, 456-468, 478, 480, 483, 484, 486, 490, and 491, F.S.

Initial Licensure Requirements

Military Health Care Practitioner Licensure under Chapter 456, F.S.

Section 456.024, F.S., provides that any member of the U.S. Armed Forces who has served as a health care practitioner on active duty in the military, reserves, National Guard, or in the United States Public Health Service, is also eligible for licensure in Florida. The DOH is required to waive fees and issue these individuals a license if they submit a completed application and proof of the following:

- An honorable discharge within six months before or after the date of submission of the application;[5]
- An active, unencumbered license issued by another state, the District of Columbia, or a U.S. possession or territory, with no disciplinary action taken in the five years preceding the date of submission of the application;
- An affidavit that he or she is not, at the time of submission, the subject of a disciplinary proceeding in a jurisdiction in which he or she holds a license or by the United States Department of Defense for reasons related to the practice of the profession for which he or she is applying;
- Documentation of actively practicing his or her profession for the three years preceding the date of submission of the application; and
- Fingerprints for a background screening, if required for the profession for which he or she is applying.[6]

Florida offers an expedited licensure process to facilitate veterans seeking licensure in a health care profession in Florida through its Veterans Application for Licensure Online Response system (VALOR).[7] In order to qualify, a veteran must apply for the license within six months before, or six months after, he or she is honorably discharged from the Armed Forces. Under the VALOR system, there is no application fee, licensure fee, or unlicensed activity fee.[8]

A board, or the DOH if there is no board, may also issue a temporary health care professional license to the spouse of an active duty member of the Armed Forces upon submission of an application form and fees. The applicant must hold a valid license for the profession issued by another state, the District of Columbia, or a possession or territory of the United States and may not be the subject of any disciplinary proceeding in any jurisdiction relating to the practice of a regulated health care profession in Florida. A spouse who is issued a temporary professional license to practice as a dentist under this authority may practice only under the supervision of a Florida dentist.

[8] *Id.*

Emergency Medical Technicians (EMTs) and Paramedics Certification under Chapter 401, F.S.

EMTs and paramedics in Florida are certified by the DOH under ch. 401, F.S. Frequently, EMTs and paramedics work closely with police and firefighters during an emergency situation. EMTs and paramedics take care of sick or injured patients in an emergency medical setting.[9] Any person seeking certification in Florida as an EMT or paramedic who was trained out of state must provide proof of the following:

- A current EMT or paramedic certification or registration based upon successful completion of a training program approved by the DOH as equivalent to the most recent EMT-Basic or EMT-Paramedic National Standard Curriculum or the National EMS Education Standards of the United States Department of Transportation;
- A current certificate in cardiopulmonary resuscitation or advanced cardiac life support, and
- Successful completion of the certification examination within two years.

HIV and AIDS Course Requirements

Section 381.0034(3), F.S. and s. 468.1201, F.S., require prospective licensees for midwifery, radiology technology, laboratory technicians, medical physicists, speech-language pathology, and audiology, as a condition of initial licensure, to complete an approved course on HIV and AIDS. An applicant who has not completed the required HIV and AIDS course at the time of initial licensure will, upon submission of an affidavit showing good cause, be allowed six months to complete this requirement.

Medical Errors Course Requirements

Section 456.013(7), F.S., requires that every practitioner regulated by DOH complete a DOH approved two-hour course relating to the prevention of medical errors as part of the licensure and renewal process. The two-hour course counts toward the total number of continuing education (CE) credits required for the profession.

Licensure Renewal Requirements

CE Tracking

Under s. 456.025(7), F.S., the DOH is required to utilize an electronic continuing education (CE) tracking system for each new biennial renewal cycle, and all approved CE providers must submit information on course attendance to the DOH for this system. The initial CE tracking system was not linked to the DOH license renewal system, so in order for a practitioner to renew his or her license, he or she certified that the required CEs had been completed. The DOH is currently deploying an integrated CE tracking system for all professions. Several practice acts still reference the submission of sworn affidavits, audits for compliance, and other methods for proof of completion of CE requirements.[10]

[9] U.S. Bureau of Labor Statistics, EMTs and Paramedics, http://www.bls.gov/ooh/Healthcare/EMTs-and-paramedics.htm#tab-2 (last visited January 28, 2016).
[10] *See* Florida Department of Health, *Senate Bill 918 Analysis*, p. 6, (Nov. 20, 2015) (on file with the Senate Committee on Health Policy).

Felons, Medicaid Fraud, and Excluded Individuals

Section 456.0635(2), F.S., provides that a board or the DOH, if there is no board, must refuse to admit a candidate to any examination, and refuse to issue a license, certificate, or registration, to any applicant if the candidate, applicant, or principal, officer, agent, managing employee, or affiliated person of an applicant:

- Has been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, certain specified felonies;
- Has been terminated for cause from any Medicaid program; or
- Is listed on the U.S. Department of Health and Human Services' List of Excluded Individuals and Entities.

Section 456.0635(2), F.S., provides a tiered timeframe for these individuals to apply for a license, certificate, or registration, depending on the degree and age of the violation. There is a general exception for candidates or applicants for initial licensure or certification who were enrolled in an educational or training program on or before July 1, 2009, and who applied for licensure after July 1, 2012.

According to the DOH, recently, when the department refused to renew licenses based on the provisions of s. 456.0635(3), F.S., the licensees have immediately reapplied under the exception in s. 456.0635(2), F.S., and were granted a license. By taking advantage of the exception, licensees who were convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, certain specified felonies; or were terminated for cause from the Florida Medicaid or any other state's Medicaid program; or are currently listed on the United States Department of Health and Human Services' List of Excluded Individuals and Entities, have been able to regain a license to practice. When the next renewal cycle ends, those licensees will once again be denied renewal based on s. 456.0635(3), F.S., but the applicants can again reapply for licensure under the exception in s. 456.0635(2), F.S.[11]

Continuing Education Reporting for Renewal

Section 463.007, F.S., authorizes the DOH to periodically require an optometrist to demonstrate his or her professional competence, as a condition of licensure renewal, by completing up to 30 CE hours in the two years preceding renewal. For certified optometrists, the 30 hours of CE must include six or more hours of approved transcript-quality coursework in ocular and systemic pharmacology and the diagnosis, treatment, and management of ocular and systemic conditions and diseases.

Section 464.203, F.S., requires a certified nursing assistant (CNA) to complete 12 CE hours of in-service training every year.

Sections 457.107(3), 458.347(4)(e)3., 466.0135(3), 466.014, 466.032(5), 484.047(2), and 486.109(4), F.S., require acupuncturists, physician assistants, dentists, dental hygienists, dental laboratories, hearing aid specialists, and physical therapists to provide an affidavit or written statement attesting to the completion of the required CEs for his or her biennial renewal period.

[11] *Id* at p. 7.

The DOH is authorized to request that a licensee, with or without cause, produce documentation of his or her completed CEs reported for the biennial renewal period.

Licensure Regulation Costs

Section 456.025, F.S., sets forth the legislative intent that all costs of regulating health care professions must be borne solely by licensees and license applicants and that no profession is to operate with a negative cash flow balance. Fees are set by the board, or the DOH where there is no board, and are required to be reasonable while not creating a barrier to licensure. Fees are to be based on potential earnings of licensees, must be similar to similarly licensed professions, and must not be more than 10 percent higher than the actual cost of regulating the profession the previous biennium. All funds collected by the DOH from fees, fines, or costs awarded to the department by a court must be paid into the Medical Quality Assurance Trust Fund. The DOH may not expend funds from one profession to pay for the expenses incurred by another profession, except that the Board of Nursing is responsible for the costs incurred in regulating certified nursing assistants.

The DOH may adopt rules for advancing funds to professions operating with a negative cash balance. However, it may not advance funds to one profession for more than two consecutive years and must charge interest at the current rate earned on trust funds used by the DOH to implement ch. 456, F.S. Interest earned by the trust fund must be allocated to the professions in accordance with its respective investment. Each board or the DOH, by rule, may also assess a one-time fee to each active and inactive licensee in an amount necessary to eliminate a cash deficit in the profession or, if there is no deficit, to maintain the financial integrity of the profession. Not more than one such assessment may be made in any four-year period.

The DOH has provided the following recap of professions that have faced negative cash balances.[12] The boards have imposed four one-time assessments in the past 10 years as follows:

- Electrolysis: FY 2005-2006, $1,306;
- Nursing Home Administrators: FY 2005-2006, $200;
- Dentistry: FY 2007-2008, $250; and
- Midwifery: FY 2008-2009, $250.

Three professions operate in a chronic deficit. Each is at its statutory fee cap and, according to the DOH, the midwifery and electrology professions do not have a large enough licensure base to generate adequate revenue to cover expenditures. These professions and the deficit amount under which they operate are:

	Cash Balance	Renewal Fee	Statutory Fee Cap	Total Licensees
Dentistry	$ (2,144,333)	$ 300	$ 300	14,285
Electrology	$ (638,545)	$ 100	$ 100	1,591
Midwifery	$ (900,115)	$ 500	$ 500	206

If the boards or the DOH were to impose a one-time assessment, the amounts needed to eliminate the deficits and result in solvency though Fiscal Year 2019-2020 would be:

[12] *Id*. at p. 5.

- Dentistry: $450 per active/inactive licensee;
- Electrology: $900 per active/inactive licensee; and
- Midwifery: $5,500 per active/inactive licensee.

Section 456.025, F.S., allows the boards, or the DOH if there is no board, to collect up to $250 from CE providers seeking approval or renewal of individual courses. The fees are required to be used to review the proposed courses and for implementation of the electronic CE tracking system which is integrated with the licensure and renewal systems.

Section 456.025, F.S., also requires the chairpersons of the boards and councils to meet annually to review the long-range policy plan and current and proposed fee schedules. The chairpersons are required to make recommendations for any necessary statutory changes relating to fees and fee caps which must be compiled by the DOH and included in its annual report to the Legislature.

Ownership and Control of Patient Records

Section 456.057(20), F.S., provides that the board or the DOH may appoint a medical records custodian for patient records in the event of the death or incapacitation of a practitioner or when patient records have been abandoned. The custodian is required to comply with all requirements of s. 456.057, F.S. The DOH reports that 10 or more times per year, most frequently upon the death or incarceration of a practitioner, patient records are abandoned and patients cannot access their own records. The DOH attempts to secure the abandoned records but does not have the manpower or storage capacity to assume control.[13]

Dispensing Practitioner Facility Inspections

Section 465.0276(3), F.S., requires the DOH to inspect any facility where a dispensing practitioner dispenses medicinal drugs in the same manner, and with the same frequency, as it inspects pharmacies to determine whether the practitioner is in compliance with all applicable statutes and rules. The DOH currently inspects pharmacies upon opening, annually, when they change locations, and when changing ownership.[14] The DOH inspects a dispensing practitioner's practice location(s) prior to the registration being added to the practitioner's license and annually thereafter.[15]

Dispensing practitioners can dispense any prescription medication in their office, except Schedule II and III controlled substances. This prohibition against dispensing controlled substances does not apply to:

- The dispensing of complimentary packages of medicinal drugs which are labeled as a drug sample or complimentary drug to the practitioner's own patients in the regular course of her or his practice without the payment of a fee or remuneration of any kind, whether direct or indirect;
- The dispensing of controlled substances in the health care system of the Department of Corrections;

[15] *Id*.

- In connection with a surgical procedure, and then no more than a 14-day supply;
- In an approved clinical trial;
- In a medication-assisted opiate treatment facility licensed under s. 397.427, F.S.; or
- In a hospice facility licensed under part IV of chapter 400.[16]

During the last two fiscal years, the DOH conducted 15,062 dispensing practitioner inspections with a passing rate of 99 percent.[17]

Council on Certified Nursing Assistants

Section 464.2085, F.S., creates the council on certified nursing assistants (CNA) within the DOH, under the board of nursing. The council consists of two members who are registered nurses, one member who is a licensed practical nurse, and two CNAs who are appointed by the State Surgeon General. The duties of the council are to make recommendations to the DOH and the board on:

- Policies and procedures for the certification of nursing assistants;
- Rules regulating the education, training, and certification process for nursing assistants; and
- Concerns and problems of certified nursing assistants to improve safety in the practice.

Historically, the council met every two months in conjunction with board of nursing meetings at an estimated cost of $40,000 per year. The council's last face-to-face meeting was in 2013. Beginning in 2014, the council met by telephone conference call only on an as-needed basis. Both the board of nursing and the council have supported abolishment of the council since 2014.[18]

Advisory Council of Medical Physicists

The Advisory Council of Medical Physicists (advisory council) was created in 1997 in s. 483.901(3), F.S., to advise the DOH in regulating the practice of medical physics. The nine-member advisory council is charged with recommending rules to administer the regulation of the practice of medical physics, recommending practice standards, and developing and recommending CE requirements for licensed medical physicists.

According to the DOH, the advisory council fulfilled its statutory role and last met in December 1998. The State Surgeon General appointed new members in 2015 and the advisory council will meet for the first time in 17 years at an estimated cost of $3,535 per meeting. The DOH advises that an Advisory Council on Radiation Protection includes medical physicists as council members, and that group may be used for guidance on matters of practice and public safety pertaining to the practice of medical physics.[19]

[17] *Supra note 20*, at p.8. The restrictions on dispensing controlled substances listed in Schedule II or Schedule III was enacted in 2011. *See*, ch. 2011-141, s. 15, Laws of Florida.
[18] *Supra note 20*, at p.8.
[19] *Supra note 20*, at p. 9.

Research Programs

The James and Esther King Biomedical Research Program, administered by the DOH Biomedical Research Advisory Council, is funded by the proceeds of the Lawton Chiles Endowment Fund.[20] The purpose of the program is to provide an annual and perpetual source of funding to support research on health care problems of Floridians in the areas of tobacco-related cancer, cardiovascular disease, stroke, and pulmonary disease.

The William G. "Bill" Bankhead, Jr., and David Coley Cancer Research Program, is also administered by the DOH Biomedical Research Advisory Council and funded pursuant to s. 215.5602(12), F.S. The purpose of the program is to advance progress towards cures for cancer.

Every year the council is required to submit a progress report on the programs it administers to the Governor, State Surgeon General, President of the Senate, and Speaker of the House of Representatives which must include:

- A list of current research projects;
- A list of recipients of grants or fellowships;
- A list of peer reviewed publications in journals from research projects;
- The state ranking and total amount of biomedical research funding currently flowing into the state from the National Institutes of Health;
- New grants awarded;
- Description of the progress made towards program goals; and
- Recommendations to further the mission of the programs.

Starting in the 2011-2012 fiscal year, $25 million of the funds deposited into the Health Care Trust Fund[21] were reserved for research on tobacco-related, or cancer-related, illnesses and were transferred to the Biomedical Research Trust Fund. Five million dollars of those funds were required to be appropriated to the James and Esther King Biomedical Research Program; and $5 million to the William G. "Bill" Bankhead, Jr., and David Coley Cancer Research Program.[22]

Beginning in 2014, any entity performing cancer research and receiving funds without statutory reporting requirements is required to submit an annual progress report to the President of the Senate and the Speaker of the House of Representatives on the use of those funds. The report must include:

- A description of the general use of the funds;
- A description of research funded by the programs;
- A description of any fixed costs for a particular project, the need for the project, how the project would be utilized, and a timeline for the project; and
- A description of any federal or private grants or donations generated as a result of the appropriation or activities.

[20] *See* s. 215.5601, F.S.
[21] *See* ss. 210.011(9) and 210.276(7), F.S.
[22] *See* s. 381.922, F.S.

The Ed and Ethel Moore Alzheimer's Disease Research Program is a research program within the DOH created to fund research leading to prevention or a cure for Alzheimer's disease. It is administered by the DOH Alzheimer's Disease Research Grant Advisory Board.[23] Its funding is subject to legislative appropriation. The board is required to submit a yearly progress report on the programs under its purview to the Governor, President of the Senate, Speaker of the House of Representatives, and State Surgeon General by February 15. The report must include:

- A list of current research projects;
- A list of recipients of grants or fellowships;
- A list of peer reviewed publications in journals from research projects;
- The state ranking and total amount of Alzheimer's disease research funding currently flowing into the state from the National Institutes of Health;
- New grants awarded under the program;
- Description of the progress made towards program goals; and
- Recommendations to further the mission of the programs.

III. Effect of Proposed Changes:

This bill updates various sections of law relating to the regulation of health care practitioners and research programs within the DOH.

Initial Licensure Requirements

Military Health Care Practitioners [24]

The bill amends s. 456.024, F.S., to delete provisions relating to temporary licenses for military spouses and delineates that the following military personnel and military-connected persons are eligible for health care practitioner licenses in Florida:

- A person who serves, or has served, in the U.S. Armed Forces, Reserves or National Guard;
- A person who serves, or has served, on active duty as a health care practitioner[25] in the U.S. Armed Forces as a health care practitioner in the U.S. Public Health Service; or
- A health care practitioner in another state or U.S. jurisdiction whose spouse serves on active duty in the U.S. Armed Forces.

The bill authorizes the Department of Health (DOH) to waive fees and issue licenses to a person who:

- Submits a complete application form;
- Is a member of the military and submits proof that he or she will receive an honorable discharge either six months before, or six months after the date of the application; , and
    - Holds an active, unencumbered license in another state or U.S. Jurisdiction with no disciplinary action in the preceding five years;

[23] The activities of the board are exempt from chapter 120. Section 381.82(5), F.S.
[24] See section 7 of the bill.
[25] The bill defines the term "health care practitioner" as those defined in 456.001, F.S. and Part IV of Ch. 468.

  - Is a military health care practitioner in a profession that does not require licensure in another state or U.S. jurisdiction,[26] if the applicant submits to the DOH evidence of military training or experience equivalent to that required in Florida and evidence of a passing score on a regional or national standards organization exam, if one is required in Florida; or
  - Is a health care practitioner in a profession that does not require licensure in other states, if the applicant can provide evidence to the DOH of training or experience equivalent to that required in Florida and evidence of a passing score on a regional or national standards organization exam, if one is required in Florida; and
- Attests that he or she is not under licensure disciplinary preceding anywhere;
- Actively practiced the profession for which licensure is sought for three years preceding the date of the application; and
- Submits a set of fingerprints for a background screening.

The bill eliminates the requirement that a military spouse who has been issued a temporary dental license may practice only under the supervision of a Florida dentist.

The bill also makes military-trained EMTs or paramedics eligible for certification in Florida under ch. 401, F.S.,[27] if they provide proof of:
- A current EMT or paramedic certification or registration that is considered by the DOH to be nationally recognized;
- Successful completion of a DOH-approved training program as equivalent to the most recent EMT-Basic or EMT-Paramedic National Standard Curriculum or the National EMS Education Standards of the United States Department of Transportation; and
- A current certificate of successful course completion in cardiopulmonary resuscitation or advanced cardiac life support.

The bill creates s.456.0241, F.S.,[28] which authorizes the DOH to issue temporary certificates to active duty military health care practitioners to practice, if the applicant meets all of the following requirements:
- Submits proof that he or she will be practicing pursuant to a military platform[29];
- Submits a complete application and fee;
- Provides proof of:
  - Having a valid and unencumbered license to practice as a health care professional in another state or U.S. jurisdiction; or

[26] Professions not licensed in all states: Respiratory therapists (and assistants), Clinical Laboratory Personnel, Medical Physicists, Opticians, Athletics trainers, Electrologists, Nursing home administrators, Midwives, Orthotists (and assistants), Prosthetists (and assistants), Pedorthotists (and assistants), Orthotic fitters (and assistants), Certified chiropractic physician assistants, Pharmacy Technicians.
[27] See section 5 of the bill.
[28] See section 8 of the bill.
[29] Section 456.0241, F.S., defines a "Military platform" as a military training agreement with a non-military health care provider which is designed to develop and support medical, surgical, or other health care treatment opportunities in the nonmilitary health care provider setting so that military health care practitioners may develop and maintain technical proficiency to meet the present and future health care needs of the United States Armed Forces. Such agreements may include training affiliation agreements and external resource sharing agreements.

    - Being a military health care practitioner in a profession for which licensure in a state or jurisdiction is not required for practice in the United States Armed Services; and Provides evidence of military training and experience substantially equivalent to the requirements for licensure in this state to practice in that profession;
- Attests that he or she is not subject to any disciplinary proceeding where he or she holds a license or by the United States Department of Defense;
- Has been determined to be competent in the profession for which he or she is applying for a temporary certificate; and
- Submits a set of fingerprints for a background if required by the profession for which he or she is applying for a temporary certificate.

The temporary certificates expires six months after issuance but may be renewed upon proof of the certificate holder receiving continuing orders in this state and that he or she continues to be a military platform participant. All provision of ch. 456, F.S., apply to these licensees except the practitioner profile requirements of ss. 456.039-456.046, F.S.

Chiropractic Physicians[30]

The bill amends s.460.402, F.S, to exempt a chiropractic physician from regulation under ch. 460, F.S., regulation when he or she holds an active license in another jurisdiction and is performing chiropractic procedures or demonstrating equipment or supplies for educational purposes at a board-approved continuing education program.

Temporary Licensure for Medical Physicists

The bill amends s. 483.901, F.S., to allow the DOH to issue a temporary license for no more than one year upon proof that the physicist has completed a residency program and payment of a fee set forth by rule. The DOH may adopt by rule requirements for temporary licensure and renewal of temporary licenses.

HIV and AIDS Course Requirement - Deleted[31]

The bill amends s. 381.0034, F.S., and repeals s. 468.1201, F.S., to delete the requirement that applicants under part IV of ch. 468, F.S., (radiological personnel), medical physicists under ch.483, F.S., speech and language pathology practitioners, and audiology practitioners, must complete courses in HIV and AIDS before their license may be initially issued. According to the DOH, this will accelerate the initial licensure process and reduce costs to licensees.[32]

Medical Errors Course Requirement - Deleted [33]

The bill amends s. 456.013(7), F.S., to delete the requirement that health care practitioners take two hours of continuing education (CE) in medical errors before a license may be issued but keeps that requirement for biennial renewal. The bill clarifies that the two course hours count toward the total required CE hours for renewal and are not in addition to the required hours.

[30] See Section 16 of the bill
[31] See sections 1 and 18 of the bill.
[32] *Supra note 20* at pp. 9 and 12.
[33] See section 2 of the bill.

Licensure Renewal Requirements

***CE Tracking*[34]**

The bill moves the requirement that DOH must establish an electronic CE tracking system which integrates tracking licensee CEs with the DOH licensure and renewal process from s. 456.025, F.S., to a newly created s. 456.0361, F.S. The bill prohibits the DOH from renewing licenses unless the licensee's CE requirements are complete, authorizes the imposition of additional penalties under the applicable practice act for the failure to comply with CE requirements, and authorizes the DOH to adopt rules to implement this section. This codifies in statute DOH's new CE tracking system and allows for uniformity in handling CEs across the various professions.

Accordingly, the bill amends ss. 457.107(3), 458.347(4)(e)3, 459.022(4)(e)3., 466.0135(3), 466.014, 466.032(5), 484.047(2), and 486.109(4), F.S., to simplify and conform the license renewal process for acupuncturists, physician assistants, dentists, dental hygienists, dental laboratories, hearing aid specialists, and physical therapists by eliminating the requirement of an affidavit or written statement attesting to the completion of the required CEs for the biennial renewal period, and by eliminating the DOH's authority to request a licensee, with or without cause, to produce documentation of his or her completed CEs for the biennial renewal period.[35]

Similarly, the bill amends s. 463.007, F.S., to clarify and conform the CE requirements of an optometrist as a condition of license renewal and amends s. 464.203, F.S., to require CNAs to complete 24 CE hours of in-service training every biennium, rather than requiring hours annually. This change matches the two-year renewal cycle.[36]

***Felons, Medicaid Fraud, and Excluded Individuals*[37]**

The bill amends s. 456.0635(2), F.S., to delete the exception to the requirement that a board or the DOH must deny the initial licensure of candidates or applicants who were convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, certain specified felonies primarily relating to health care fraud; have been terminated for cause from a Medicaid program; or who are listed on the U.S. Department of Health and Human Services' List of Excluded Individuals and Entities. The exception currently applies to candidates or applicants for initial licensure or certification who were enrolled in an educational or training program on or before July 1, 2009, and who applied for licensure after July 1, 2012. Under the bill, these individuals are unable to re-apply unless their sentence, and any probation, is scheduled to end within the time frame set out in s. 256.0635(2), F.S. Similar grounds exist for denial of a license renewal under s. 456.0635(3), F.S.

Licensure Regulation Costs[38]

The bill amends s. 456.025, F.S., to include a method to address professions which operate in a chronic deficit and which have reached their statutory fee cap. The bill:

[34] See sections 4 and 5 of the bill.
[35] See sections 8, 9, 14, 15, 16, 19 and 20 of the bill.
[36] See sections 10 and 11 of the bill.
[37] See section 7 of the bill.
[38] See section 4 of the bill.

- Deletes the requirement for the DOH to increase license fees if the cap has not been reached;
- Deletes the requirement to include recommendations for increases to fee caps in the annual report;
- Deletes rule authority to authorize advances to the profession's account with interest;
- Deletes the prohibition on using funds from one profession for operating another profession;
- Allows the DOH to waive the deficit profession's allocated indirect administrative and operational costs until the profession has a positive cash balance; and
- Allows cash in the unlicensed activity account of the profession whose indirect costs have been waived to be transferred to the operating account up to the amount of the deficit.

According to the DOH, as of June 30, 2014, three of 34 professions regulated under ch. 456, F.S. were in a chronic cash flow deficit and at their statutory fee cap. These three professions are dentistry, electrolysis, and midwifery. The total amount of the deficit was $3,682,993.[39]

The bill deletes the requirement that the chairpersons of the boards and councils meet annually to review the long-range policy plan and current and proposed fee schedules and recommend statutory changes relating to fees and fee caps for compilation by the DOH for inclusion in its annual report to the Legislature.

Council on Certified Nursing Assistants (CNA)[40]

The bill repeals s. 464.2085, F.S., which created the Council on Certified Nursing Assistants within the DOH under the Board of Nursing. Under the bill, the Board of Nursing will assume responsibility for all matters relating to CNAs.[41]

Advisory Council of Medical Physicists[42]

The bill repeals the advisory council in s. 483.901(3), F.S.

Ownership and Control of Patient Records[43]

The bill amends s. 456.057(20), F.S., to require DOH approval of all board-appointed medical records custodians for the patient medical records of a practitioner who has died, become incapacitated, or abandoned his or her records. The bill further authorizes the DOH to contract with a third party to function as the medical records custodian in these instances and designates the vendor the "records owner" under the same disclosure and confidentiality requirements imposed on licensees.

[39] *Supra note* 20 at p.10.
[40] See section 12 of the bill.
[41] *Supra note* 20 at p.11.
[42] See section 18 of the bill.
[43] See section 6 of bill.

Dispensing Practitioner Facility Inspections[44]

The bill amends s.465.0276, F.S., to eliminate any required DOH inspection of the facilities of dispensing practitioners. Dispensing practitioners will still be required to register with their appropriate boards[45] but there will no longer be any statutory mandate for the DOH to inspect those facilities within specified timeframes. The DOH may inspect dispensing practitioner locations at such times as it determines necessary as a random, unannounced inspection or during the course of an investigation.[46] The DOH indicates that due to the restrictions on dispensing controlled substances in Schedules II or III, the frequency and manner in which inspections are conducted may no longer be necessary.[47]

James and Esther King Biomedical Research Program, William G. "Bill" Bankhead, Jr., and David Coley Cancer Research Program and Ed and Ethel Moore Alzheimer's Disease Research Program[48]

The bill amends s. 215.5602(10), F.S., and adds identical language as a new subsection 6 to s. 381.922, F.S., to require more stringent annual reporting requirements for the DOH Biomedical Research Advisory Council which administers both the James and Esther King Biomedical Research Program for research on tobacco-related cancer, cardiovascular disease, stroke, and pulmonary disease, and the William G. "Bill" Bankhead, Jr., and David Coley Cancer Research Program. Specifically, the bill requires the reports for each program to include:

- For each research project supported by grants or fellowships awarded under the program:
  - A summary of the research project and results;
  - The status of the research, including estimated date of completion;
  - The amount of the grant awarded and the estimated or actual cost of the project;
  - A list of the principal investigators;
  - The title, citation, and summary of findings in a peer-reviewed journal publications from the research;
  - The source and amount of any federal, state, or local government grants or donations or private grants or donations generated as a result of the research project;
  - The status of any patent generated from the research and an economic analysis of the impact of the patent; and
  - A list of the postsecondary educational institutions involved in the research, with a description of each postsecondary educational institution's involvement; and the number of students receiving training or performing research in the project.
- The state ranking and amount of biomedical research funding coming into the state from the National Institutes of Health;
- A description of the progress towards the program's goals; and
- Recommendations to further the mission of the programs.

[44] See section 13 of the bill.
[45] Section 465.0276(2)(a), F.S.
[46] *See* s. 456.069, F.S.
[47] See Florida Dep't of Health, *Senate Bill 918 Agency Analysis*, pp. 11-12, (Nov. 20, 2015) (on file with the Senate Committee on Health Policy).
[48] See sections. 1, 3 and 4 of the bill.

The bill also amends s. 215.5602(12), F.S., to require more stringent annual reporting requirements for research entities currently without statutory reporting requirements, like the Ed and Ethel Moore Alzheimer's Disease Research Program. The bill requires their annual report to include:

- A describe the general use of the funds;
- A summary of research, funded, and:
  - The status of the research, including whether the research has concluded;
  - The results or expected results; and
  - The names of the principal investigators;
  - The title, citation, and summary of findings in a peer-reviewed journal publication from the research;
  - The status of a patent, if any, generated from the research and an economic analysis of the impact of the resulting patent;
  - The list of the postsecondary educational institutions involved in the research, a description of each postsecondary educational institution's involvement in the research; and the number of students receiving training or performing research.

The bill authorizes the balance of any appropriation from the General Revenue Fund for the Ed and Ethel Moore Alzheimer's Disease Research Program which is not disbursed but which is obligated by June 30 of the fiscal year in which the funds are appropriate to be carried forward for up to five years after the effective date of the original appropriation.

Technical Revisions and Effective Date

The bill makes technical and conforming changes and reenacts s. 921.022, F.S.

The bill is effective July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

PCS/CS/SB 918 will reduce the costs associated with initial applications for licensure, and renewals, as practitioners will not incur the costs of taking additional specific courses, or for obtaining notarized affidavits before initial licensure or renewal. Section 12 of the bill will prevent practitioners who are prohibited from renewing their licenses by s. 456.0635(3), F.S., from becoming licensed pursuant to s.456.0635(2), F.S.

C. Government Sector Impact:

The bill:

- May require the DOH to incur costs related to maintaining the security and distribution of medical records for practitioners who have left practice. The DOH estimates a recurring coast of approximately $4,020 for which current spending authority is reported to be adequate to absorb.
- Eliminates the CNA Council, which will result in a cost savings to the DOH of approximately $40,000 per fiscal year due to the elimination of costs associated with face-to-face meetings.
- Eliminates the DOH's costs associated with the annual routine inspection of dispensing practitioners' facilities. The DOH reports that based on Fiscal Year 2014-2015 data, the total cost to complete these mandatory inspections was $597,707.
- Eliminates the Advisory Council of Medical Physicists which will result in a cost avoidance for reactivating the advisory council.

VI. Technical Deficiencies:

None.

VII. Related Issues:

Section 20 of the bill eliminates the DOH's routine inspection of dispensing practitioners' facilities. Although speculative, this lack of routine oversight could result in a public health and safety risk to patients due to issues relating to cleanliness, improper storage and labeling of medications, use of counterfeit medication, etc. However, dispensing practitioners may experience less disruption in routine practice due to fewer inspections.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 215.5602, 381.0034, 381.82, 381.922, 456.013, 456.024, 456.025, 456.0361, 456.057, 456.0635, 457.107, 458.347, 459.022, 460.402, 463.007, 464.203, 465.0276, 466.0135, 466.014, 466.032, 483.901, 484.047, 486.109, 499.028, and 921.0022.

This bill creates section 456.0241 of the Florida Statutes.

This bill repeals the following sections of the Florida Statutes: 464.2085 and 468.1201.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Health and Human Services on January 26, 2016:
The committee substitute:

- Changes the short title of the bill from "An act relating to licensure of health care professionals" to "An act relating to the Department of Health;"
- Mandates more stringent reporting requirements for the James and Esther King Biomedical Research Program, the William G. "Bill" Bankhead, Jr., David Coley Cancer Research Program, the Ed and Ethel Moore Alzheimer's Disease Research Program, within the Department of Health (DOH), and entities that receive a specific appropriation for biomedical research and related functions;
- Authorizes the DOH to issue certificates to military trained emergency medical technicians (EMTs) and paramedics under certain circumstances and authorizes the issuance of temporary certificates to active duty military licensed in another state and practicing in Florida pursuant to a military platform;
- Exempts a chiropractic physician from regulation in Florida when he or she holds an active license in another jurisdiction and is performing chiropractic procedures or demonstrating equipment or supplies for educational purposes at a board-approved continuing education program; and
- Allows unspent, but obligated, general revenue that is appropriated to the Ed and Ethel Moore Alzheimer's Disease Research Program to be carried forward on June 30 of each fiscal year for up to five years after the effective date of the original appropriation.

CS by Health Policy on January 11, 2016:
The committee substitute recognizes a passing score for examinations approved by a regional, in addition to a national, standards organization for both the military and spousal exceptions from licensure in another state and provides a technical clarification pertaining to the description of the spouse's practice in health care.

The committee substitute also deletes sections pertaining to the Impaired Practitioner program.

B. Amendments:

None.

553418

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Appropriations (Grimsley) recommended the following:

Senate Amendment (with title amendment)

Between lines 341 and 342
insert:

Section 5. Subsection (3) of section 384.23, Florida Statutes, is amended to read:

384.23 Definitions.—

(3) "Sexually transmissible disease" means a bacterial, viral, fungal, or parasitic disease, determined by rule of the department to be sexually transmissible, to be a threat to the

553418

public health and welfare, and to be a disease for which a legitimate public interest will be served by providing for prevention, elimination, control, ~~regulation~~ and treatment. The department must, by rule, determine ~~In considering~~ which diseases are to be designated as sexually transmissible diseases, ~~the department shall consider such diseases as chancroid, gonorrhea, granuloma inguinale, lymphogranuloma venereum, genital herpes simplex, chlamydia, nongonococcal urethritis (NGU), pelvic inflammatory disease (PID)/acute salpingitis, syphilis, and human immune deficiency virus infection for designation,~~ and shall consider the recommendations and classifications of the Centers for Disease Control and Prevention ~~centers for disease control~~ and other nationally recognized medical authorities in making that determination. Not all diseases that are sexually transmissible need be designated for the purposes of this act.

Section 6. Subsection (7) is added to section 384.27, Florida Statutes, to read:

384.27 Physical examination and treatment.—

(7)(a) A health care practitioner licensed under chapter 458 or chapter 459 or certified under s. 464.012 may provide expedited partner therapy if the following requirements are met:

1. The patient has a laboratory-confirmed or suspected clinical diagnosis of a sexually transmissible disease;

2. The patient indicates that he or she has a partner with whom the patient has engaged in sexual activity before the diagnosis of the sexually transmissible disease; and

3. The patient indicates that his or her partner is unable or unlikely to seek clinical services in a timely manner.

553418

(b) A pharmacist licensed under chapter 465 may dispense medication for a person diagnosed with a sexually transmissible disease pursuant to a prescription to treat that person's partner, regardless of whether the person's partner has been personally examined by the prescribing health care practitioner.

(c) A pharmacist or health care practitioner must check for potential allergic reactions, in accordance with the prevailing professional standard of care, before dispensing a prescription or providing a medication.

(d) The department may adopt rules to implement this subsection.

Senate . House

. . . . .

The Committee on Appropriations (Hays) recommended the following:

Senate Amendment (with title amendment)

Delete lines 396 - 530
and insert:
Section 7. Subsection (3) of section 456.024, Florida Statutes, is amended to read:
456.024 Members of Armed Forces in good standing with administrative boards or the department; spouses; licensure.—
(3)(a) A person is eligible for licensure as a health care practitioner in this state if he or she:

357670

1. ~~who~~ Serves or has served as a health care practitioner in the United States Armed Forces, the United States Reserve Forces, or the National Guard;

2. ~~or a person who~~ Serves or has served on active duty with the United States Armed Forces as a health care practitioner in the United States Public Health Service; or

3. Is a health care practitioner, other than a dentist, in another state, the District of Columbia, or a possession or territory of the United States and is the spouse of a person serving on active duty with the United States Armed Forces, ~~is eligible for licensure in this state~~.

The department shall develop an application form, and each board, or the department if there is no board, shall waive the application fee, licensure fee, and unlicensed activity fee for such applicants. For purposes of this subsection, "health care practitioner" means a health care practitioner as defined in s. 456.001 and a person licensed under part III of chapter 401 or part IV of chapter 468.

(b) ~~(a)~~ The board, or the department if there is no board, shall issue a license to practice in this state to a person who:

1. Submits a complete application.

2. If he or she is member of the United States Armed Forces, the United States Reserve Forces, or the National Guard, submits proof that he or she has received ~~Receives~~ an honorable discharge within 6 months before, or will receive an honorable discharge within 6 months after, the date of submission of the application.

3.a. Holds an active, unencumbered license issued by

another state, the District of Columbia, or a possession or territory of the United States and who has not had disciplinary action taken against him or her in the 5 years preceding the date of submission of the application;

b. Is a military health care practitioner in a profession for which licensure in a state or jurisdiction is not required to practice in the United States Armed Forces, if he or she submits to the department evidence of military training or experience substantially equivalent to the requirements for licensure in this state in that profession and evidence that he or she has obtained a passing score on the appropriate examination of a national or regional standards organization if required for licensure in this state; or

c. Is the spouse of a person serving on active duty in the United States Armed Forces and is a health care practitioner in a profession, excluding dentistry, for which licensure in another state or jurisdiction is not required, if he or she submits to the department evidence of training or experience substantially equivalent to the requirements for licensure in this state in that profession and evidence that he or she has obtained a passing score on the appropriate examination of a national or regional standards organization if required for licensure in this state.

4. Attests that he or she is not, at the time of submission of the application, the subject of a disciplinary proceeding in a jurisdiction in which he or she holds a license or by the United States Department of Defense for reasons related to the practice of the profession for which he or she is applying.

5. Actively practiced the profession for which he or she is

357670

applying for the 3 years preceding the date of submission of the application.

6. Submits a set of fingerprints for a background screening pursuant to s. 456.0135, if required for the profession for which he or she is applying.

The department shall verify information submitted by the applicant under this subsection using the National Practitioner Data Bank.

(c) ~~(b)~~ Each applicant who meets the requirements of this subsection shall be licensed with all rights and responsibilities as defined by law. The applicable board, or the department if there is no board, may deny an application if the applicant has been convicted of or pled guilty or nolo contendere to, regardless of adjudication, any felony or misdemeanor related to the practice of a health care profession regulated by this state.

(d) ~~(c)~~ An applicant for initial licensure under this subsection must submit the information required by ss. 456.039(1) and 456.0391(1) no later than 1 year after the license is issued.

Senate Amendment (with title amendment)

Between lines 737 and 738
insert:

Section 10. Effective July 1, 2017, section 456.031, Florida Statutes, is amended to read:

456.031 Requirement for instruction on domestic violence and human trafficking.—

(1)(a) The appropriate board shall require each person licensed or certified under chapter 458, chapter 459, part I of

675498

chapter 464, chapter 466, chapter 467, chapter 490, or chapter 491 to complete a 2-hour continuing education course, approved by the board, on domestic violence, as defined in s. 741.28, and on human trafficking, as defined in s. 787.06(2), as part of every third biennial relicensure or recertification.

1. The domestic violence section of the course must ~~shall~~ consist of data and information on the number of patients in that professional's practice who are likely to be victims of domestic violence and the number who are likely to be perpetrators of domestic violence, screening procedures for determining whether a patient has any history of being either a victim or a perpetrator of domestic violence, and instruction on how to provide such patients with information on, or how to refer such patients to, resources in the local community, such as domestic violence centers and other advocacy groups, that provide legal aid, shelter, victim counseling, batterer counseling, or child protection services.

2. The human trafficking section of the course must consist of data and information on the types of human trafficking, such as labor and sex, and the extent of human trafficking; factors that place a person at greater risk for being a victim of human trafficking; management of medical records of patients who are human trafficking victims; patient safety and security; public and private social services available for rescue, food, clothing, and shelter referrals; hotlines for reporting human trafficking maintained by the National Human Trafficking Resource Center and the United States Department of Homeland Security; validated assessment tools for identifying human trafficking victims and general indicators that a person may be

675498

a victim of human trafficking; procedures for sharing information related to human trafficking with a patient; and referral options for legal and social services.

(b) Each ~~such~~ licensee or certificateholder shall submit confirmation of having completed the continuing education ~~such~~ course, on a form provided by the board, when submitting fees for every third biennial relicensure or recertification ~~renewal~~.

(c) The board may approve additional equivalent courses that may be used to satisfy the requirements of paragraph (a). Each licensing board that requires a licensee to complete a continuing ~~an~~ educational course pursuant to this subsection may include the hours ~~hour~~ required for completion of the course in the total hours of continuing education required by law for the ~~such~~ profession, unless the continuing education requirements for the ~~such~~ profession consist of fewer than 30 hours of continuing education biennially.

(d) Any person holding two or more licenses subject to ~~the provisions of~~ this subsection shall be permitted to show proof of completion of ~~having taken~~ one board-approved course on domestic violence and human trafficking~~,~~ for purposes of relicensure or recertification for additional licenses.

(e) Failure to comply with the requirements of this subsection shall constitute grounds for disciplinary action under each respective practice act and under s. 456.072(1)(k). In addition to discipline by the board, the licensee shall be required to complete the board-approved ~~such~~ course under this subsection.

(2) Each board may adopt rules to carry out the provisions of this section.

education requirements; authorizing the department to adopt rules; amending s. 456.057, F.S.; revising a provision for a person or an entity appointed by the board to be approved by the department; authorizing the department to contract with a third party to provide record custodian services; amending s. 456.0635, F.S.; deleting a provision on applicability relating to the issuance of licenses; amending s. 457.107, F.S.; deleting a provision authorizing the Board of Acupuncture to request certain documentation from applicants; amending ss. 458.347 and 459.022, F.S.; deleting a requirement that a physician assistant file a signed affidavit with the department; making technical changes; amending s. 460.402, F.S.; providing an additional exception to licensure requirements for chiropractic physicians; amending s. 463.007, F.S.; making technical changes; amending s. 464.203, F.S.; revising inservice training requirements for certified nursing assistants; deleting a rulemaking requirement; repealing s. 464.2085, F.S., relating to the Council on Certified Nursing Assistants; amending s. 465.0276, F.S.; deleting a requirement that the department inspect certain facilities; amending s. 466.0135, F.S.; deleting a requirement that a dentist file a signed affidavit with the department; deleting a provision authorizing the Board of Dentistry to request certain documentation from applicants; amending s. 466.014, F.S.; deleting a requirement that a dental hygienist

file a signed affidavit with the department; deleting a provision authorizing the board to request certain documentation from applicants; amending s. 466.032, F.S.; deleting a requirement that a dental laboratory file a signed affidavit with the department; deleting a provision authorizing the department to request certain documentation from applicants; repealing s. 468.1201, F.S., relating to a requirement for instruction on human immunodeficiency virus and acquired immune deficiency syndrome; amending s. 483.901, F.S.; deleting provisions relating to the Advisory Council of Medical Physicists in the department; authorizing the department to issue temporary licenses in certain circumstances; authorizing the department to adopt rules; amending s. 484.047, F.S.; deleting a requirement for a written statement from an applicant in certain circumstances; amending s. 486.109, F.S.; deleting a provision authorizing the department to conduct a random audit for certain information; amending ss. 499.028 and 921.0022, F.S.; conforming cross-references; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (10) and (12) of section 215.5602, Florida Statutes, are amended to read:

215.5602 James and Esther King Biomedical Research Program.—

(10) The council shall submit a fiscal-year progress report on the programs under its purview to the Governor, the State Surgeon General, the President of the Senate, and the Speaker of the House of Representatives by December 15. The report must include:

(a) For each ~~A list of~~ research project ~~projects~~ supported by grants or fellowships awarded under the program:~~.~~

1.~~(b)~~ A summary ~~list~~ of the research project and results or expected results of the research ~~recipients of program grants or fellowships~~.

2.~~(c)~~ The status of the research project, including whether it has concluded or the estimated date of completion.

3. The amount of the grant or fellowship awarded and the estimated or actual cost of the research project.

4. A list of the principal investigators on the research project.

5. The title, citation, and summary of findings of a publication ~~publications~~ in a peer-reviewed journal resulting from the ~~peer reviewed journals involving~~ research ~~supported by grants or fellowships awarded under the program~~.

6.~~(d)~~ The source and amount of any federal, state, or local government grants or donations or private grants or donations generated as a result of the research project.

7. The status of a patent, if any, generated from the research project and an economic analysis of the impact of the resulting patent.

8. A list of the postsecondary educational institutions involved in the research project, a description of each postsecondary educational institution’s involvement in the

research project, and the number of students receiving training or performing research in the research project.

(b) The state ranking and total amount of biomedical research funding currently flowing into the state from the National Institutes of Health.

~~(c) New grants for biomedical research which were funded based on research supported by grants or fellowships awarded under the program.~~

(c)~~(f)~~ Progress towards programmatic goals, particularly in the prevention, diagnosis, treatment, and cure of diseases related to tobacco use, including cancer, cardiovascular disease, stroke, and pulmonary disease.

(d)~~(g)~~ Recommendations to further the mission of the programs.

(12)(a) Beginning in the 2011-2012 fiscal year and thereafter, $25 million from the revenue deposited into the Health Care Trust Fund pursuant to ss. 210.011(9) and 210.276(7) shall be reserved for research of tobacco-related or cancer-related illnesses. Of the revenue deposited in the Health Care Trust Fund pursuant to this section, $25 million shall be transferred to the Biomedical Research Trust Fund within the Department of Health. Subject to annual appropriations in the General Appropriations Act, $5 million shall be appropriated to the James and Esther King Biomedical Research Program, $5 million shall be appropriated to the William G. "Bill" Bankhead, Jr., and David Coley Cancer Research Program created under s. 381.922.

(b) Beginning July 1, 2014, an entity that ~~which~~ performs or is associated with cancer research or care and that receives

a specific appropriation for biomedical research, research-related functions, operations or other supportive functions, or expansion of operations in the General Appropriations Act without statutory reporting requirements for the receipt of those funds, must submit an annual fiscal-year progress report to the President of the Senate and the Speaker of the House of Representatives by December 15. The report must:

1. Describe the general use of the funds.

2. Summarize ~~Specify~~ the research, if any, funded by the appropriation, and provide:

a. The status of the research, including whether the research has concluded.

b. The results or expected results of the research.

c. The names of the principal investigators performing the research.

d. The title, citation, and summary of findings of a publication in a peer-reviewed journal resulting from the research.

e. The status of a patent, if any, generated from the research and an economic analysis of the impact of the resulting patent.

f. The list of the postsecondary educational institutions involved in the research, a description of each postsecondary educational institution's involvement in the research, and the number of students receiving training or performing research.

3. Describe any fixed capital outlay project funded by the appropriation, the need for the project, how the project will be utilized, and the timeline for and status of the project, if applicable.

857014

576-02645-16

4. Identify any federal, state, or local government grants or donations or private grants or donations generated as a result of the appropriation or activities funded by the appropriation, if applicable and traceable.

Section 2. Subsection (3) of section 381.0034, Florida Statutes, is amended to read:

381.0034 Requirement for instruction on HIV and AIDS.—

(3) The department shall require, as a condition of granting a license under chapter 467 or part III of chapter 483 ~~the chapters specified in subsection (1)~~, that an applicant making initial application for licensure complete an educational course acceptable to the department on human immunodeficiency virus and acquired immune deficiency syndrome. Upon submission of an affidavit showing good cause, an applicant who has not taken a course at the time of licensure must ~~shall, upon an affidavit showing good cause,~~ be allowed 6 months to complete this requirement.

Section 3. Subsection (4) of section 381.82, Florida Statutes, is amended and subsection (8) is added to that section, to read:

381.82 Ed and Ethel Moore Alzheimer's Disease Research Program.—

(4) The board shall submit a fiscal-year progress report on the programs under its purview annually to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the State Surgeon General by February 15. The report must include:

(a) For each ~~A list of~~ research project ~~projects~~ supported by grants or fellowships awarded under the program:~~.~~

857014

576-02645-16

1.~~(b)~~ A summary ~~list~~ of the research project and results or expected results of the research ~~recipients of program grants or fellowships~~.

2.~~(c)~~ The status of the research project, including whether it has concluded or the estimated date of completion.

3. The amount of the grant or fellowship awarded and the estimated or actual cost of the research project.

4. A list of the principal investigators on the research project.

5. The title, citation, and summary of findings of a publication ~~publications~~ in a peer-reviewed journal resulting from the ~~journals involving~~ research ~~supported by grants or fellowships awarded under the program~~.

6.~~(d)~~ The source and amount of any federal, state, or local government grants or donations or private grants or donations generated as a result of the research project.

7. The status of a patent, if any, generated from the research project and an economic analysis of the impact of the resulting patent.

8. A list of postsecondary educational institutions involved in the research project, a description of each postsecondary educational institution's involvement in the research project, and the number of students receiving training or performing research under the research project.

(b) The state ranking and total amount of Alzheimer's disease research funding currently flowing into the state from the National Institutes of Health.

~~(c) New grants for Alzheimer's disease research which were funded based on research supported by grants or fellowships~~

~~awarded under the program.~~

(c) ~~(f)~~ Progress toward programmatic goals, particularly in the prevention, diagnosis, treatment, and cure of Alzheimer's disease.

(d) ~~(g)~~ Recommendations to further the mission of the program.

(8) Notwithstanding s. 216.301 and pursuant to s. 216.351, the balance of any appropriation from the General Revenue Fund for the Ed and Ethel Moore Alzheimer's Disease Research Program which is not disbursed but which is obligated pursuant to contract or committed to be expended by June 30 of the fiscal year in which the funds are appropriated may be carried forward for up to 5 years after the effective date of the original appropriation.

Section 4. Subsection (6) is added to section 381.922, Florida Statutes, to read:

381.922 William G. "Bill" Bankhead, Jr., and David Coley Cancer Research Program.—

(6) The Biomedical Research Advisory Council shall submit a report relating to grants awarded under the program to the Governor, the President of the Senate, and the Speaker of the House of Representatives by December 15 each year. The report must include:

(a) For each research project supported by grants awarded under the program:

1. A summary of the research project and results or expected results of the research.

2. The status of the research project, including whether it has concluded or the estimated date of completion.

3. The amount of the grant awarded and the estimated or actual cost of the research project.

4. A list of the principal investigators on the research project.

5. The title, citation, and summary of findings of a publication in a peer-reviewed journal resulting from the research.

6. The source and amount of any federal, state, or local government grants or donations or private grants or donations generated as a result of the research project.

7. The status of a patent, if any, generated from the research project and an economic analysis of the impact of the resulting patent.

8. A list of the postsecondary educational institutions involved in the research project, a description of each postsecondary educational institution's involvement in the research project, and the number of students receiving training or performing research in the research project.

(b) The state ranking and total amount of cancer research funding currently flowing into the state from the National Institutes of Health.

(c) Progress toward programmatic goals, particularly in the prevention, diagnosis, treatment, and cure of cancer.

(d) Recommendations to further the mission of the program.

Section 5. Subsections (8) and (12) of section 401.27, Florida Statutes, are amended to read:

401.27 Personnel; standards and certification.—

(8) Each emergency medical technician certificate and each paramedic certificate will expire automatically and may be

857014

576-02645-16

renewed if the holder meets the qualifications for renewal as established by the department. A certificate that is not renewed at the end of the 2-year period will automatically revert to an inactive status for a period not to exceed two renewal periods ~~180 days~~. Such certificate may be reactivated and renewed within the two renewal periods ~~180 days~~ if the certificateholder meets all other qualifications for renewal, including completion of continuing education requirements and passage of the state certification examination, and pays a $25 late fee. Reactivation shall be in a manner and on forms prescribed by department rule.

(12) An applicant for certification as an emergency medical technician or paramedic who is trained outside the state or trained in the military must provide proof of current emergency medical technician or paramedic certification or registration that is considered by the department to be nationally recognized, successfully complete ~~based upon successful completion of~~ a training program approved by the department as equivalent to the most recent EMT-Basic or EMT-Paramedic National Standard Curriculum or the National EMS Education Standards of the United States Department of Transportation, and hold a current certificate of successful course completion in cardiopulmonary resuscitation (CPR) or advanced cardiac life support for emergency medical technicians or paramedics, respectively, to be eligible for the certification ~~examination~~. ~~The applicant must successfully complete the certification examination within 2 years after the date of the receipt of his or her application by the department. After 2 years, the applicant must submit a new application, meet all eligibility requirements, and submit all fees to reestablish eligibility to~~

857014

576-02645-16

~~take the certification examination.~~

Section 6. Subsection (7) of section 456.013, Florida Statutes, is amended to read:

456.013 Department; general licensing provisions.—

(7) The boards, or the department when there is no board, shall require the completion of a 2-hour course relating to prevention of medical errors as part of the biennial ~~licensure and~~ renewal process. The 2-hour course counts toward ~~shall count towards~~ the total number of continuing education hours required for the profession. The course must ~~shall~~ be approved by the board or department, as appropriate, and must ~~shall~~ include a study of root-cause analysis, error reduction and prevention, and patient safety. In addition, the course approved by the Board of Medicine and the Board of Osteopathic Medicine must ~~shall~~ include information relating to the five most misdiagnosed conditions during the previous biennium, as determined by the board. If the course is being offered by a facility licensed pursuant to chapter 395 for its employees, the board may approve up to 1 hour of the 2-hour course to be specifically related to error reduction and prevention methods used in that facility.

Section 7. Paragraph (a) of subsection (3) and subsection (4) of section 456.024, Florida Statutes, are amended to read:

456.024 Members of Armed Forces in good standing with administrative boards or the department; spouses; licensure.—

(3)(a) A person is eligible for licensure as a health care practitioner in this state if he or she is:

1. A person who serves or has served as a health care practitioner in the United States Armed Forces, United States Reserve Forces, or the National Guard;

857014

576-02645-16

2. A ~~or a~~ person who serves or has served on active duty with the United States Armed Forces as a health care practitioner in the United States Public Health Service; or

3. A health care practitioner in another state, the District of Columbia, or a possession or territory of the United States whose spouse serves on active duty in the United States Armed Forces ~~is eligible for licensure in this state~~. The department shall develop an application form, and each board, or the department if there is no board, shall waive the application fee, licensure fee, and unlicensed activity fee for such applicants. For purposes of this subsection, the term "health care practitioner" means a health care practitioner as defined in s. 456.001 and a person licensed under part III of chapter 401 or part IV of chapter 468.

(b) ~~(a)~~ The board, or department if there is no board, shall issue a license to practice in this state to a person who:

1. Submits a complete application.

2. If he or she is a member of the military, submits proof of receipt of ~~Receives~~ an honorable discharge within 6 months before, or that he or she will receive an honorable discharge within 6 months after, the date of submission of the application.

3.a. Holds an active, unencumbered license issued by another state, the District of Columbia, or a possession or territory of the United States and who has not had disciplinary action taken against him or her in the 5 years preceding the date of submission of the application;

b. Is a military health care practitioner in a profession for which licensure in a state or jurisdiction is not required

857014

576-02645-16

to practice in the United States Armed Services, if the applicant submits to the department evidence of military training or experience substantially equivalent to the requirements for licensure in this state in that profession, and evidence that the applicant has obtained a passing score on the appropriate examination of a national or regional standards organization if required for licensure in this state; or

c. Is a health care practitioner in a profession for which licensure in another state or jurisdiction is not required and whose spouse serves on active duty in the United States Armed Forces, if the applicant submits to the department evidence of training or experience substantially equivalent to the requirements for licensure in this state in that profession, and evidence that the applicant has obtained a passing score on the appropriate examination of a national or regional standards organization if required for licensure in this state.

4. Attests that he or she is not, at the time of submission, the subject of a disciplinary proceeding in a jurisdiction in which he or she holds a license or by the United States Department of Defense for reasons related to the practice of the profession for which he or she is applying.

5. Actively practiced the profession for which he or she is applying for the 3 years preceding the date of submission of the application.

6. Submits a set of fingerprints for a background screening pursuant to s. 456.0135, if required for the profession for which he or she is applying.

The department shall verify information submitted by the

applicant under this subsection using the National Practitioner Data Bank.

~~(4)(a) The board, or the department if there is no board, may issue a temporary professional license to the spouse of an active duty member of the Armed Forces of the United States who submits to the department:~~

~~1. A completed application upon a form prepared and furnished by the department in accordance with the board's rules;~~

~~2. The required application fee;~~

~~3. Proof that the applicant is married to a member of the Armed Forces of the United States who is on active duty;~~

~~4. Proof that the applicant holds a valid license for the profession issued by another state, the District of Columbia, or a possession or territory of the United States, and is not the subject of any disciplinary proceeding in any jurisdiction in which the applicant holds a license to practice a profession regulated by this chapter;~~

~~5. Proof that the applicant's spouse is assigned to a duty station in this state pursuant to the member's official active duty military orders; and~~

~~6. Proof that the applicant would otherwise be entitled to full licensure under the appropriate practice act, and is eligible to take the respective licensure examination as required in Florida.~~

~~(b) The applicant must also submit to the Department of Law Enforcement a complete set of fingerprints. The Department of Law Enforcement shall conduct a statewide criminal history check and forward the fingerprints to the Federal Bureau of~~

~~Investigation for a national criminal history check.~~

~~(c) Each board, or the department if there is no board, shall review the results of the state and federal criminal history checks according to the level 2 screening standards in s. 435.04 when granting an exemption and when granting or denying the temporary license.~~

~~(d) The applicant shall pay the cost of fingerprint processing. If the fingerprints are submitted through an authorized agency or vendor, the agency or vendor shall collect the required processing fees and remit the fees to the Department of Law Enforcement.~~

~~(e) The department shall set an application fee, which may not exceed the cost of issuing the license.~~

~~(f) A temporary license expires 12 months after the date of issuance and is not renewable.~~

~~(g) An applicant for a temporary license under this subsection is subject to the requirements under s. 456.013(3)(a) and (c).~~

~~(h) An applicant shall be deemed ineligible for a temporary license pursuant to this section if the applicant:~~

~~1. Has been convicted of or pled nolo contendere to, regardless of adjudication, any felony or misdemeanor related to the practice of a health care profession;~~

~~2. Has had a health care provider license revoked or suspended from another of the United States, the District of Columbia, or a United States territory;~~

~~3. Has been reported to the National Practitioner Data Bank, unless the applicant has successfully appealed to have his or her name removed from the data bank; or~~

~~4. Has previously failed the Florida examination required to receive a license to practice the profession for which the applicant is seeking a license.~~

~~(i) The board, or department if there is no board, may revoke a temporary license upon finding that the individual violated the profession's governing practice act.~~

~~(j) An applicant who is issued a temporary professional license to practice as a dentist pursuant to this section must practice under the indirect supervision, as defined in s. 466.003, of a dentist licensed pursuant to chapter 466.~~

Section 8. Section 456.0241, Florida Statutes, is created to read:

456.0241 Temporary certificate for active duty military health care practitioners.—

(1) As used in this section, the term:

(a) "Military health care practitioner" means a person who is practicing as a health care practitioner as that term is defined in s. 456.001, is licensed under part III of chapter 401, or is licensed under part IV of chapter 468 and is serving on active duty in the United States Armed Forces, the United States Reserve Forces, or the National Guard, or is serving on active duty in the United States Armed Forces and in the United States Public Health Service.

(b) "Military platform" means a military training agreement with a nonmilitary health care provider which is designed to develop and support medical, surgical, or other health care treatment opportunities in the nonmilitary health care provider setting so that military health care practitioners may develop and maintain technical proficiency to meet the present and

future health care needs of the United States Armed Forces. Such agreements may include training affiliation agreements and external resource sharing agreements.

(2) The department may issue a temporary certificate to an active duty military health care practitioner to practice in a regulated profession, as that term is defined in s. 456.001, if the applicant meets all of the following requirements:

(a) Submits proof that he or she will be practicing pursuant to a military platform.

(b) Submits a complete application and a nonrefundable application fee.

(c) Holds a valid and unencumbered license to practice as a health care professional in another state, the District of Columbia, or a possession or territory of the United States or is a military health care practitioner in a profession for which licensure in a state or jurisdiction is not required for practice in the United States Armed Services and who provides evidence of military training and experience substantially equivalent to the requirements for licensure in this state to practice in that profession.

(d) Attests that he or she is not, at the time of application, the subject of a disciplinary proceeding in a jurisdiction in which he or she holds a license or by the United States Department of Defense for reasons related to the practice of the profession for which he or she is applying for a temporary certificate.

(e) Has been determined to be competent in the profession for which he or she is applying for a temporary certificate.

(f) Submits a set of fingerprints for a background

screening pursuant to s. 456.0135, if required by the profession for which he or she is applying for a temporary certificate.

The department shall verify information submitted by the applicant under this subsection using the National Practitioner Data Bank.

(3) A temporary certificate issued under this section expires 6 months after issuance, but may be renewed upon proof of continuing orders in this state and evidence that the military health care practitioner continues to be a military platform participant.

(4) A military health care practitioner applying under this section is exempt from the requirements of ss. 456.039-456.046. All other provisions of chapter 456 apply.

(5) An applicant for a temporary certificate under this section shall be deemed ineligible if the applicant:

(a) Has been convicted of or pled nolo contendere to, regardless of adjudication, a felony or misdemeanor related to the practice of a health care profession.

(b) Has had a health care provider license revoked or suspended in another state, the District of Columbia, or a possession or territory of the United States.

(c) Has failed to obtain a passing score on the Florida licensure examination required to practice the profession for which the applicant is seeking a temporary certificate.

(d) Is under investigation in another jurisdiction for an act that would constitute a violation of the applicable licensing chapter or chapter 456 until such time as the investigation is complete and the military health care

practitioner is found innocent of all charges.

(6) The department shall establish by rule application and renewal fees not to exceed $50 for a temporary certificate issued under this section.

(7) Application must be made on a form prepared and furnished by the department.

(8) The department shall adopt rules necessary to implement the provisions of this section.

Section 9. Present subsections (3) through (11) of section 456.025, Florida Statutes, are redesignated as subsections (2) through (10), respectively, and present subsections (2), (3), (7), and (8) of that section are amended, to read:

456.025 Fees; receipts; disposition.—

~~(2) The chairpersons of the boards and councils listed in s. 20.43(3)(g) shall meet annually at division headquarters to review the long-range policy plan required by s. 456.005 and current and proposed fee schedules. The chairpersons shall make recommendations for any necessary statutory changes relating to fees and fee caps. Such recommendations shall be compiled by the Department of Health and be included in the annual report to the Legislature required by s. 456.026 as well as be included in the long-range policy plan required by s. 456.005.~~

(2)~~(3)~~ Each board within the jurisdiction of the department, or the department when there is no board, shall determine by rule the amount of license fees for the profession it regulates, based upon long-range estimates prepared by the department of the revenue required to implement laws relating to the regulation of professions by the department and the board. Each board, or the department if there is no board, shall ensure

that license fees are adequate to cover all anticipated costs and to maintain a reasonable cash balance, as determined by rule of the agency, with advice of the applicable board. ~~If sufficient action is not taken by a board within 1 year after notification by the department that license fees are projected to be inadequate, the department shall set license fees on behalf of the applicable board to cover anticipated costs and to maintain the required cash balance. The department shall include recommended fee cap increases in its annual report to the Legislature.~~ Further, it is the intent of the Legislature ~~legislative intent~~ that a ~~no~~ regulated profession not operate with a negative cash balance. If, however, a profession's fees are at their statutory fee cap and the requirements of subsections (1) and (4) are met, a profession may operate at a deficit until the deficit is eliminated ~~The department may provide by rule for advancing sufficient funds to any profession operating with a negative cash balance. The advancement may be for a period not to exceed 2 consecutive years, and the regulated profession must pay interest. Interest shall be calculated at the current rate earned on investments of a trust fund used by the department to implement this chapter. Interest earned shall be allocated to the various funds in accordance with the allocation of investment earnings during the period of the advance~~.

(6) ~~(7)~~ Each board, or the department if there is no board, shall establish~~,~~ by rule~~,~~ a fee of up to ~~not to exceed~~ $250 for anyone seeking ~~approval~~ to provide continuing education courses or programs and ~~shall establish by rule~~ a biennial renewal fee of up to ~~not to exceed~~ $250 for the renewal of an approval to

provide ~~providership of~~ such courses. The fees collected ~~from continuing education providers~~ shall be used for the purposes of reviewing course provider applications, monitoring the integrity of the courses provided, covering legal expenses incurred as a result of not granting or renewing an approval ~~a providership~~, and developing and maintaining an electronic continuing education tracking system pursuant to s. 456.0361. ~~The department shall implement an electronic continuing education tracking system for each new biennial renewal cycle for which electronic renewals are implemented after the effective date of this act and shall integrate such system into the licensure and renewal system.~~ All approved continuing education providers shall provide information on course attendance to the department necessary to implement the electronic tracking system. The department shall, by rule, specify the form and procedures by which the information is to be submitted.

(7) ~~(8)~~ All moneys collected by the department from fees or fines or from costs awarded to the agency by a court shall be paid into a trust fund used by the department to implement this chapter. The Legislature shall appropriate funds from this trust fund sufficient to administer ~~carry out~~ this chapter and the provisions of law with respect to professions regulated by the Division of Medical Quality Assurance within the department and the boards. The department may contract with public and private entities to receive and deposit revenue pursuant to this section. The department shall maintain separate accounts in the trust fund used by the department to implement this chapter for every profession within the department. To the maximum extent possible, the department shall directly charge all expenses to

the account of each regulated profession. For the purpose of this subsection, direct charge expenses include, but are not limited to, costs for investigations, examinations, and legal services. For expenses that cannot be charged directly, the department shall provide for the proportionate allocation among the accounts of expenses incurred by the department in the performance of its duties with respect to each regulated profession. If a profession has established renewal fees that meet the requirements of subsection (1), has fees that are at the statutory fee cap, and has been operating in a deficit for 2 or more fiscal years, the department may waive allocated administrative and operational indirect costs until such time as the profession has a positive cash balance. The costs related to administration and operations include, but are not limited to, the costs of the director's office and the costs of system support, communications, central records, and other such administrative functions. Such waived costs shall be allocated to the other professions that must meet the requirements of this section, and cash in the unlicensed activity account under s. 456.065 of the profession whose costs have been waived shall be transferred to the operating account in an amount not to exceed the amount of the deficit. The regulation by the department of professions, as defined in this chapter, must ~~shall~~ be financed solely from revenue collected by the department ~~it~~ from fees and other charges and deposited in the Medical Quality Assurance Trust Fund, and all such revenue is hereby appropriated to the department, which~~. However, it is legislative intent that each profession shall operate within its anticipated fees. The department may not expend funds from the account of a profession~~

~~to pay for the expenses incurred on behalf of another profession, except that the Board of Nursing must pay for any costs incurred in the regulation of certified nursing assistants. The department~~ shall maintain adequate records to support its allocation of agency expenses. The department shall provide any board with reasonable access to these records upon request. On or before October 1 of each year, the department shall provide each board an annual report of revenue and direct and allocated expenses related to the operation of that profession. The board shall use these reports and the department's adopted long-range plan to determine the amount of license fees. ~~A condensed version of this information, with the department's recommendations, shall be included in the annual report to the Legislature prepared under s. 456.026.~~

Section 10. Section 456.0361, Florida Statutes, is created to read:

456.0361 Compliance with continuing education requirements.—

(1) The department shall establish an electronic continuing education tracking system to monitor licensee compliance with applicable continuing education requirements and to determine whether a licensee is in full compliance with the requirements at the time of his or her application for license renewal. The tracking system shall be integrated into the department's licensure and renewal process.

(2) The department may not renew a license until the licensee complies with all applicable continuing education requirements. This subsection does not prohibit the department or the boards from imposing additional penalties under the

applicable professional practice act or applicable rules for failure to comply with continuing education requirements.

(3) The department may adopt rules to implement this section.

Section 11. Subsection (20) of section 456.057, Florida Statutes, is amended to read:

456.057 Ownership and control of patient records; report or copies of records to be furnished; disclosure of information.—

(20) The board with department approval, or the department when there is no board, may temporarily or permanently appoint a person or an entity as a custodian of medical records in the event of the death of a practitioner, the mental or physical incapacitation of a ~~the~~ practitioner, or the abandonment of medical records by a practitioner. Such ~~The~~ custodian ~~appointed~~ shall comply with ~~all provisions of~~ this section. The department may contract with a third party to provide these services under the confidentiality and disclosure requirements of this section~~, including the release of patient records~~.

Section 12. Subsection (2) of section 456.0635, Florida Statutes, is amended to read:

456.0635 Health care fraud; disqualification for license, certificate, or registration.—

(2) Each board within the jurisdiction of the department, or the department if there is no board, shall refuse to admit a candidate to any examination and refuse to issue a license, certificate, or registration to any applicant if the candidate or applicant or any principal, officer, agent, managing employee, or affiliated person of the applicant:

(a) Has been convicted of, or entered a plea of guilty or

nolo contendere to, regardless of adjudication, a felony under chapter 409, chapter 817, or chapter 893, or a similar felony offense committed in another state or jurisdiction, unless the candidate or applicant has successfully completed a drug court program for that felony and provides proof that the plea has been withdrawn or the charges have been dismissed. Any such conviction or plea shall exclude the applicant or candidate from licensure, examination, certification, or registration unless the sentence and any subsequent period of probation for such conviction or plea ended:

1. For felonies of the first or second degree, more than 15 years before the date of application.

2. For felonies of the third degree, more than 10 years before the date of application, except for felonies of the third degree under s. 893.13(6)(a).

3. For felonies of the third degree under s. 893.13(6)(a), more than 5 years before the date of application;

(b) Has been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a felony under 21 U.S.C. ss. 801-970, or 42 U.S.C. ss. 1395-1396, unless the sentence and any subsequent period of probation for such conviction or plea ended more than 15 years before the date of the application;

(c) Has been terminated for cause from the Florida Medicaid program pursuant to s. 409.913, unless the candidate or applicant has been in good standing with the Florida Medicaid program for the most recent 5 years;

(d) Has been terminated for cause, pursuant to the appeals procedures established by the state, from any other state

857014

576-02645-16

Medicaid program, unless the candidate or applicant has been in good standing with a state Medicaid program for the most recent 5 years and the termination occurred at least 20 years before the date of the application; or

(e) Is currently listed on the United States Department of Health and Human Services Office of Inspector General's List of Excluded Individuals and Entities.

~~This subsection does not apply to candidates or applicants for initial licensure or certification who were enrolled in an educational or training program on or before July 1, 2009, which was recognized by a board or, if there is no board, recognized by the department, and who applied for licensure after July 1, 2012.~~

Section 13. Subsection (3) of section 457.107, Florida Statutes, is amended to read:

457.107 Renewal of licenses; continuing education.—

(3) The board shall ~~by rule~~ prescribe by rule continuing education requirements of up to~~, not to exceed~~ 30 hours biennially~~,~~ as a condition for renewal of a license. All education programs that contribute to the advancement, extension, or enhancement of professional skills and knowledge related to the practice of acupuncture, whether conducted by a nonprofit or profitmaking entity, are eligible for approval. The continuing professional education requirements must be in acupuncture or oriental medicine subjects, including, but not limited to, anatomy, biological sciences, adjunctive therapies, sanitation and sterilization, emergency protocols, and diseases. The board may ~~shall have the authority to~~ set a fee of up to~~,~~

857014

576-02645-16

~~not to exceed~~ $100~~,~~ for each continuing education provider. The licensee shall retain in his or her records the certificates of completion of continuing professional education requirements ~~to prove compliance with this subsection. The board may request such documentation without cause from applicants who are selected at random~~. All national and state acupuncture and oriental medicine organizations and acupuncture and oriental medicine schools are approved to provide continuing professional education in accordance with this subsection.

Section 14. Paragraph (e) of subsection (4) of section 458.347, Florida Statutes, is amended to read:

458.347 Physician assistants.—

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(e) A supervisory physician may delegate to a fully licensed physician assistant the authority to prescribe or dispense any medication used in the supervisory physician's practice unless such medication is listed on the formulary created pursuant to paragraph (f). A fully licensed physician assistant may only prescribe or dispense such medication under the following circumstances:

1. A physician assistant must clearly identify to the patient that he or she is a physician assistant and~~.~~ ~~Furthermore, the physician assistant must~~ inform the patient that the patient has the right to see the physician before a ~~prior to any~~ prescription is ~~being~~ prescribed or dispensed by the physician assistant.

2. The supervisory physician must notify the department of his or her intent to delegate, on a department-approved form, before delegating such authority and ~~notify the department~~ of

857014

576-02645-16

any change in prescriptive privileges of the physician assistant. Authority to dispense may be delegated only by a supervising physician who is registered as a dispensing practitioner in compliance with s. 465.0276.

3. The physician assistant must complete ~~file with the department a signed affidavit that he or she has completed~~ a minimum of 10 continuing medical education hours in the specialty practice in which the physician assistant has prescriptive privileges with each licensure renewal ~~application~~.

4. The department may issue a prescriber number to the physician assistant granting authority for the prescribing of medicinal drugs authorized within this paragraph upon completion of the ~~foregoing~~ requirements of this paragraph. The physician assistant is ~~shall~~ not ~~be~~ required to independently register pursuant to s. 465.0276.

5. The prescription must be written in a form that complies with chapter 499 and, in addition to the supervisory physician's name, address, and telephone number, must contain~~, in addition to the supervisory physician's name, address, and telephone number,~~ the physician assistant's prescriber number. Unless it is a drug or drug sample dispensed by the physician assistant, the prescription must be filled in a pharmacy permitted under chapter 465 and must be dispensed in that pharmacy by a pharmacist licensed under chapter 465. The inclusion ~~appearance~~ of the prescriber number creates a presumption that the physician assistant is authorized to prescribe the medicinal drug and the prescription is valid.

6. The physician assistant must note the prescription or dispensing of medication in the appropriate medical record.

857014

576-02645-16

Section 15. Paragraph (e) of subsection (4) of section 459.022, Florida Statutes, is amended to read:

459.022 Physician assistants.—

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(e) A supervisory physician may delegate to a fully licensed physician assistant the authority to prescribe or dispense any medication used in the supervisory physician's practice unless such medication is listed on the formulary created pursuant to s. 458.347. A fully licensed physician assistant may only prescribe or dispense such medication under the following circumstances:

1. A physician assistant must clearly identify to the patient that she or he is a physician assistant and~~. Furthermore, the physician assistant must~~ inform the patient that the patient has the right to see the physician before a ~~prior to any~~ prescription is ~~being~~ prescribed or dispensed by the physician assistant.

2. The supervisory physician must notify the department of her or his intent to delegate, on a department-approved form, before delegating such authority and ~~notify the department~~ of any change in prescriptive privileges of the physician assistant. Authority to dispense may be delegated only by a supervisory physician who is registered as a dispensing practitioner in compliance with s. 465.0276.

3. The physician assistant must complete ~~file with the department a signed affidavit that she or he has completed~~ a minimum of 10 continuing medical education hours in the specialty practice in which the physician assistant has prescriptive privileges with each licensure renewal ~~application~~.

4. The department may issue a prescriber number to the physician assistant granting authority for the prescribing of medicinal drugs authorized within this paragraph upon completion of the ~~foregoing~~ requirements of this paragraph. The physician assistant is ~~shall~~ not ~~be~~ required to independently register pursuant to s. 465.0276.

5. The prescription must be written in a form that complies with chapter 499 and, in addition to the supervisory physician's name, address, and telephone number, must contain~~, in addition to the supervisory physician's name, address, and telephone number,~~ the physician assistant's prescriber number. Unless it is a drug or drug sample dispensed by the physician assistant, the prescription must be filled in a pharmacy permitted under chapter 465, and must be dispensed in that pharmacy by a pharmacist licensed under chapter 465. The inclusion ~~appearance~~ of the prescriber number creates a presumption that the physician assistant is authorized to prescribe the medicinal drug and the prescription is valid.

6. The physician assistant must note the prescription or dispensing of medication in the appropriate medical record.

Section 16. Subsection (7) is added to section 460.402, Florida Statutes, to read:

460.402 Exceptions.—The provisions of this chapter shall not apply to:

(7) A chiropractic physician who holds an active license in another jurisdiction and is performing chiropractic procedures or demonstrating equipment or supplies for educational purposes at a board-approved continuing education program.

Section 17. Subsection (3) of section 463.007, Florida

Statutes, is amended to read:

463.007 Renewal of license; continuing education.—

(3) As a condition of license renewal, a licensee must ~~Unless otherwise provided by law, the board shall require licensees to periodically~~ demonstrate his or her ~~their~~ professional competence~~, as a condition of renewal of a license,~~ by completing up to 30 hours of continuing education during the 2-year period preceding license renewal. For certified optometrists, the 30-hour continuing education requirement includes ~~shall include~~ 6 or more hours of approved transcript-quality coursework in ocular and systemic pharmacology and the diagnosis, treatment, and management of ocular and systemic conditions and diseases during the 2-year period preceding application for license renewal.

Section 18. Subsection (7) of section 464.203, Florida Statutes, is amended to read:

464.203 Certified nursing assistants; certification requirement.—

(7) A certified nursing assistant shall complete 24 ~~12~~ hours of inservice training during each biennium ~~calendar year~~. The certified nursing assistant shall maintain ~~be responsible for maintaining~~ documentation demonstrating compliance with these provisions. ~~The Council on Certified Nursing Assistants, in accordance with s. 464.2085(2)(b), shall propose rules to implement this subsection.~~

Section 19. Section 464.2085, Florida Statutes, is repealed.

Section 20. Paragraph (b) of subsection (1) and subsection (3) of section 465.0276, Florida Statutes, are amended to read:

857014

576-02645-16

465.0276 Dispensing practitioner.—

(1)

(b) A practitioner registered under this section may not dispense a controlled substance listed in Schedule II or Schedule III as provided in s. 893.03. This paragraph does not apply to:

1. The dispensing of complimentary packages of medicinal drugs which are labeled as a drug sample or complimentary drug as defined in s. 499.028 to the practitioner's own patients in the regular course of her or his practice without the payment of a fee or remuneration of any kind, whether direct or indirect, as provided in subsection (4) ~~subsection (5)~~.

2. The dispensing of controlled substances in the health care system of the Department of Corrections.

3. The dispensing of a controlled substance listed in Schedule II or Schedule III in connection with the performance of a surgical procedure. The amount dispensed pursuant to the subparagraph may not exceed a 14-day supply. This exception does not allow for the dispensing of a controlled substance listed in Schedule II or Schedule III more than 14 days after the performance of the surgical procedure. For purposes of this subparagraph, the term "surgical procedure" means any procedure in any setting which involves, or reasonably should involve:

a. Perioperative medication and sedation that allows the patient to tolerate unpleasant procedures while maintaining adequate cardiorespiratory function and the ability to respond purposefully to verbal or tactile stimulation and makes intra- and postoperative monitoring necessary; or

b. The use of general anesthesia or major conduction

857014

576-02645-16

anesthesia and preoperative sedation.

4. The dispensing of a controlled substance listed in Schedule II or Schedule III pursuant to an approved clinical trial. For purposes of this subparagraph, the term "approved clinical trial" means a clinical research study or clinical investigation that, in whole or in part, is state or federally funded or is conducted under an investigational new drug application that is reviewed by the United States Food and Drug Administration.

5. The dispensing of methadone in a facility licensed under s. 397.427 where medication-assisted treatment for opiate addiction is provided.

6. The dispensing of a controlled substance listed in Schedule II or Schedule III to a patient of a facility licensed under part IV of chapter 400.

~~(3) The department shall inspect any facility where a practitioner dispenses medicinal drugs pursuant to subsection (2) in the same manner and with the same frequency as it inspects pharmacies for the purpose of determining whether the practitioner is in compliance with all statutes and rules applicable to her or his dispensing practice.~~

Section 21. Subsection (3) of section 466.0135, Florida Statutes, is amended to read:

466.0135 Continuing education; dentists.—

(3) A ~~In applying for license renewal, the~~ dentist shall complete ~~submit a sworn affidavit, on a form acceptable to the department, attesting that she or he has completed~~ the required continuing education as provided ~~required~~ in this section ~~in accordance with the guidelines and provisions of this section~~

~~and listing the date, location, sponsor, subject matter, and hours of completed continuing education courses~~. An ~~The~~ applicant shall retain in her or his records any ~~such~~ receipts, vouchers, or certificates ~~as may be~~ necessary to document completion of such ~~the~~ continuing education courses ~~listed in accordance with this subsection~~. ~~With cause, the board may request such documentation by the applicant, and the board may request such documentation from applicants selected at random without cause.~~

Section 22. Section 466.014, Florida Statutes, is amended to read:

466.014 Continuing education; dental hygienists.—In addition to the other requirements for relicensure for dental hygienists set out in this chapter ~~act~~, the board shall require each licensed dental hygienist to complete at least ~~not less than~~ 24 hours but not ~~or~~ more than 36 hours of continuing professional education in dental subjects, biennially, in programs prescribed or approved by the board or in equivalent programs of continuing education. Programs of continuing education approved by the board are ~~shall be~~ programs of learning which, in the opinion of the board, contribute directly to the dental education of the dental hygienist. The board shall adopt rules and guidelines to administer and enforce ~~the provisions of~~ this section. ~~In applying for license renewal, the dental hygienist shall submit a sworn affidavit, on a form acceptable to the department, attesting that she or he has completed the continuing education required in this section in accordance with the guidelines and provisions of this section and listing the date, location, sponsor, subject matter, and~~

~~hours of completed continuing education courses.~~ An ~~The~~ applicant shall retain in her or his records any ~~such~~ receipts, vouchers, or certificates ~~as may be~~ necessary to document completion of such ~~the~~ continuing education courses ~~listed in accordance with this section~~. ~~With cause, the board may request such documentation by the applicant, and the board may request such documentation from applicants selected at random without cause.~~ Compliance with the continuing education requirements is ~~shall be~~ mandatory for issuance of the renewal certificate. The board may ~~shall have the authority to~~ excuse licensees, as a group or as individuals, from all or part of the continuing educational requirements if~~, or any part thereof, in the event~~ an unusual circumstance, emergency, or hardship has prevented compliance with this section.

Section 23. Subsection (5) of section 466.032, Florida Statutes, is amended to read:

466.032 Registration.—

(5) A ~~The~~ dental laboratory owner or at least one employee of any dental laboratory renewing registration on or after July 1, 2010, shall complete 18 hours of continuing education biennially. Programs of continuing education must ~~shall~~ be programs of learning that contribute directly to the education of the dental technician and may include, but are not limited to, attendance at lectures, study clubs, college courses, or scientific sessions of conventions and research.

(a) The aim of continuing education for dental technicians is to improve dental health care delivery to the public as such is impacted through the design, manufacture, and use of artificial human oral prosthetics and related restorative

appliances.

(b) Continuing education courses shall address one or more of the following areas of professional development, including, but not limited to:

1. Laboratory and technological subjects, including, but not limited to, laboratory techniques and procedures, materials, and equipment; and

2. Subjects pertinent to oral health, infection control, and safety.

(c) Programs that meet ~~meeting~~ the general requirements of continuing education may be developed and offered to dental technicians by the Florida Dental Laboratory Association and the Florida Dental Association. Other organizations, schools, or agencies may also be approved to develop and offer continuing education in accordance with specific criteria established by the department.

~~(d) Any dental laboratory renewing a registration on or after July 1, 2010, shall submit a sworn affidavit, on a form approved by the department, attesting that either the dental laboratory owner or one dental technician employed by the registered dental laboratory has completed the continuing education required in this subsection in accordance with the guidelines and provisions of this subsection and listing the date, location, sponsor, subject matter, and hours of completed continuing education courses. The dental laboratory shall retain in its records such receipts, vouchers, or certificates as may be necessary to document completion of the continuing education courses listed in accordance with this subsection. With cause, the department may request that the documentation be provided by~~

~~the applicant. The department may also request the documentation from applicants selected at random without cause.~~

(d) ~~(e)~~ 1. This subsection does not apply to a dental laboratory that is physically located within a dental practice operated by a dentist licensed under this chapter.

2. A dental laboratory in another state or country which provides service to a dentist licensed under this chapter is not required to register with the state and may continue to provide services to such dentist with a proper prescription. However, a dental laboratory in another state or country~~, however,~~ may voluntarily comply with this subsection.

Section 24. Section 468.1201, Florida Statutes, is repealed.

Section 25. Paragraph (a) of subsection (3), subsections (4) and (5), paragraphs (a) and (e) of subsection (6), and subsection (7) of section 483.901, Florida Statutes, are amended, and paragraph (k) is added to subsection (6) of that section, to read:

483.901 Medical physicists; definitions; licensure.—

(3) DEFINITIONS.—As used in this section, the term:

~~(a) "Council" means the Advisory Council of Medical Physicists in the Department of Health.~~

~~(4) COUNCIL.—The Advisory Council of Medical Physicists is created in the Department of Health to advise the department in regulating the practice of medical physics in this state.~~

~~(a) The council shall be composed of nine members appointed by the State Surgeon General as follows:~~

~~1. A licensed medical physicist who specializes in diagnostic radiological physics.~~

~~2. A licensed medical physicist who specializes in therapeutic radiological physics.~~

~~3. A licensed medical physicist who specializes in medical nuclear radiological physics.~~

~~4. A physician who is board certified by the American Board of Radiology or its equivalent.~~

~~5. A physician who is board certified by the American Osteopathic Board of Radiology or its equivalent.~~

~~6. A chiropractic physician who practices radiology.~~

~~7. Three consumer members who are not, and have never been, licensed as a medical physicist or licensed in any closely related profession.~~

~~(b) The State Surgeon General shall appoint the medical physicist members of the council from a list of candidates who are licensed to practice medical physics.~~

~~(c) The State Surgeon General shall appoint the physician members of the council from a list of candidates who are licensed to practice medicine in this state and are board certified in diagnostic radiology, therapeutic radiology, or radiation oncology.~~

~~(d) The State Surgeon General shall appoint the public members of the council.~~

~~(e) As the term of each member expires, the State Surgeon General shall appoint the successor for a term of 4 years. A member shall serve until the member's successor is appointed, unless physically unable to do so.~~

~~(f) An individual is ineligible to serve more than two full consecutive 4-year terms.~~

~~(g) If a vacancy on the council occurs, the State Surgeon~~

~~General shall appoint a member to serve for a 4-year term.~~

~~(h) A council member must be a United States citizen and must have been a resident of this state for 2 consecutive years immediately before being appointed.~~

~~1. A member of the council who is a medical physicist must have practiced for at least 6 years before being appointed or be board certified for the specialty in which the member practices.~~

~~2. A member of the council who is a physician must be licensed to practice medicine in this state and must have practiced diagnostic radiology or radiation oncology in this state for at least 2 years before being appointed.~~

~~3. The public members of the council must not have a financial interest in any endeavor related to the practice of medical physics.~~

~~(i) A council member may be removed from the council if the member:~~

~~1. Did not have the required qualifications at the time of appointment;~~

~~2. Does not maintain the required qualifications while serving on the council; or~~

~~3. Fails to attend the regularly scheduled council meetings in a calendar year as required by s. 456.011.~~

~~(j) Members of the council may not receive compensation for their services; however, they are entitled to reimbursement, from funds deposited in the Medical Quality Assurance Trust Fund, for necessary travel expenses as specified in s. 112.061 for each day they engage in the business of the council.~~

~~(k) At the first regularly scheduled meeting of each calendar year, the council shall elect a presiding officer and~~

~~an assistant presiding officer from among its members. The council shall meet at least once each year and at other times in accordance with department requirements.~~

~~(l) The department shall provide administrative support to the council for all licensing activities.~~

~~(m) The council may conduct its meetings electronically.~~

~~(5) POWERS OF COUNCIL.—The council shall:~~

~~(a) Recommend rules to administer this section.~~

~~(b) Recommend practice standards for the practice of medical physics which are consistent with the Guidelines for Ethical Practice for Medical Physicists prepared by the American Association of Physicists in Medicine and disciplinary guidelines adopted under s. 456.079.~~

~~(c) Develop and recommend continuing education requirements for licensed medical physicists.~~

(4)~~(6)~~ LICENSE REQUIRED.—An individual may not engage in the practice of medical physics, including the specialties of diagnostic radiological physics, therapeutic radiological physics, medical nuclear radiological physics, or medical health physics, without a license issued by the department for the appropriate specialty.

(a) The department shall adopt rules to administer this section which specify license application and renewal fees, continuing education requirements, and standards for practicing medical physics. ~~The council shall recommend to the department continuing education requirements that shall be a condition of license renewal.~~ The department shall require a minimum of 24 hours per biennium of continuing education offered by an organization ~~recommended by the council and~~ approved by the

department. The department~~, upon recommendation of the council,~~ may adopt rules to specify continuing education requirements for persons who hold a license in more than one specialty.

(e) Upon ~~On~~ receipt of an application and fee as specified in this section, the department may issue a license to practice medical physics in this state ~~on or after October 1, 1997,~~ to a person who is board certified in the medical physics specialty in which the applicant applies to practice by the American Board of Radiology for diagnostic radiological physics, therapeutic radiological physics, or medical nuclear radiological physics; by the American Board of Medical Physics for diagnostic radiological physics, therapeutic radiological physics, or medical nuclear radiological physics; or by the American Board of Health Physics or an equivalent certifying body approved by the department.

(k) Upon proof of a completed residency program and receipt of the fee set forth by rule, the department may issue a temporary license for no more than 1 year. The department may adopt by rule requirements for temporary licensure and renewal of temporary licenses.

(5)~~(7)~~ FEES.—The fee for the initial license application shall be $500 and is nonrefundable. The fee for license renewal may not be more than $500. These fees may cover only the costs incurred by the department ~~and the council~~ to administer this section. By July 1 each year, the department shall determine ~~advise the council~~ if the fees are insufficient to administer this section.

Section 26. Subsection (2) of section 484.047, Florida Statutes, is amended to read:

484.047 Renewal of license.—

(2) In addition to the other requirements for renewal provided in this section and by the board, the department shall renew a license upon receipt of the renewal application and~~,~~ the renewal fee~~, and a written statement affirming compliance with all other requirements set forth in this section and by the board~~. A licensee must maintain, if applicable, a certificate from a manufacturer or independent testing agent certifying that the testing room meets the requirements of s. 484.0501(6) and, if applicable, a certificate from a manufacturer or independent testing agent stating that all audiometric testing equipment used by the licensee has been calibrated acoustically to American National Standards Institute standards on an annual basis ~~acoustically to American National Standards Institute standard specifications~~. Possession of any applicable certificate is ~~the certificates shall be~~ a prerequisite to renewal.

Section 27. Subsections (1) and (4) of section 486.109, Florida Statutes, are amended to read:

486.109 Continuing education.—

(1) The board shall require licensees to ~~periodically~~ demonstrate their professional competence as a condition of renewal of a license by completing 24 hours of continuing education biennially.

(4) Each licensee shall maintain ~~be responsible for maintaining~~ sufficient records ~~in a format as determined by rule which shall be subject to a random audit by the department~~ to demonstrate ~~assure~~ compliance with this section.

Section 28. Paragraph (a) of subsection (15) of section

499.028, Florida Statutes, is amended to read:

499.028 Drug samples or complimentary drugs; starter packs; permits to distribute.—

(15) A person may not possess a prescription drug sample unless:

(a) The drug sample was prescribed to her or him as evidenced by the label required in s. 465.0276(4) ~~s. 465.0276(5)~~.

Section 29. Paragraph (g) of subsection (3) of section 921.0022, Florida Statutes, is amended to read:

921.0022 Criminal Punishment Code; offense severity ranking chart.—

(3) OFFENSE SEVERITY RANKING CHART

(g) LEVEL 7

Florida Statute	Felony Degree	Description
316.027(2)(c)	1st	Accident involving death, failure to stop; leaving scene.

985.4815(12)	3rd	Failure to report or providing false information about a sexual offender; harbor or conceal a sexual offender.
985.4815(13)	3rd	Sexual offender; failure to report and reregister; failure to respond to address verification; providing false registration information.

Section 30. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 918
INTRODUCER:	Health Policy Committee and Senator Richter
SUBJECT:	Licensure of Health Care Professionals
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Rossitto-Van Winkle	Stovall	HP	**Fav/CS**
2.	Brown	Pigott	AHS	**Recommend: Fav/CS**
3.	Brown	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 918 authorizes the Department of Health (DOH) to waive fees and issue health care licenses to active duty U.S. military personnel who are within six months of an honorable discharge and to issue temporary licenses to active duty military spouses under certain circumstances. The bill also eliminates the requirement that a military spouse who has been issued a temporary dental license may practice only under the supervision of a Florida dentist.

The bill also updates various provisions regulating health care professions to reflect current operations and to improve operational efficiencies, including:

- Conforming Florida Statute to reflect implementation of the integrated electronic continuing education (CE) tracking system regarding the licensure and renewal process;
- Authorizing the DOH to contract with a third party to serve as the custodian of medical records in the event of a practitioner's death, incapacitation, or abandonment of records;
- Modifying procedures for handling professions that have been operating with cash deficits and which are at the statutory fee cap;
- Deleting the requirement for pre-licensure courses relating to HIV/AIDS and medical errors for certain professions;
- Eliminating a loophole pertaining to the licensure and license renewal of certain felons, persons convicted of Medicaid fraud, or other excluded individuals;

- Eliminating the requirement for annual inspections of dispensing practitioners' facilities;[1]
- Repealing the Council on Certified Nursing Assistants and the Advisory Council of Medical Physicists; and
- Providing for a one-year temporary license for medical physicists.

The bill is expected to result in cost savings of approximately $630,000 in recurring funds within the DOH Medical Quality Assurance Trust Fund.

The bill has an effective date of July 1, 2016.

II. Present Situation:

Health Care Practitioner Licensure

The Department of Health (DOH) is responsible for the regulation of health practitioners and health care facilities in Florida for the preservation of the health, safety, and welfare of the public. The Division of Medical Quality Assurance (MQA), working in conjunction with 22 boards and six councils, licenses and regulates seven types of health care facilities and more than 200 license types in over 40 health care professions.[2] Any person desiring to be a licensed health care professional in Florida must apply to the DOH in writing.[3] Most health care professions are regulated by a board or council in conjunction with the DOH and all professions have different requirements for initial licensure and licensure renewal.[4]

Initial Licensure Requirements

Military Health Care Practitioners

Section 456.024, F.S., provides that any member of the U.S. Armed Forces who has served as a health care practitioner on active duty in the military, reserves, National Guard, or in the United States Public Health Service, is also eligible for licensure in Florida. The DOH is required to waive fees and issue these individuals a license if they submit a completed application and proof of the following:

- An honorable discharge within six months before or after the date of submission of the application;[5]
- An active, unencumbered license issued by another state, the District of Columbia, or a U.S. possession or territory, with no disciplinary action taken in the five years preceding the date of submission of the application;
- An affidavit that he or she is not, at the time of submission, the subject of a disciplinary proceeding in a jurisdiction in which he or she holds a license or by the United States

---

[1] Under s. 465.0276, F.S., a person may not dispense medicinal drugs unless licensed as a pharmacist or otherwise authorized under ch. 465, F.S., to do so, except that a practitioner authorized by law to prescribe drugs may dispense such drugs to her or his patients in the regular course of her or his practice in compliance with s. 465.0276, F.S.

[3] Section 456.013, F.S.

[4] *See* chs. 401, 456-468, 478, 480, 483, 484, 486, 490, and 491, F.S.

[5] A form DD-214 or an NGB-22 is required as proof of honorable discharge. Department of Health, *Veterans,* http://www.floridahealth.gov/licensing-and-regulation/armed-forces/veterans/index.html (last visited Dec. 15, 2015).

Department of Defense for reasons related to the practice of the profession for which he or she is applying;
- Documentation of actively practicing his or her profession for the three years preceding the date of submission of the application; and
- Fingerprints for a background screening, if required for the profession for which he or she is applying.[6]

Florida offers an expedited licensure process to facilitate veterans seeking licensure in a health care profession in Florida through its Veterans Application for Licensure Online Response system (VALOR).[7] In order to qualify, a veteran must apply for the license within six months before, or six months after, he or she is honorably discharged from the Armed Forces. Under the VALOR system, there is no application fee, licensure fee, or unlicensed activity fee.[8]

A board, or the DOH if there is no board, may also issue a temporary health care professional license to the spouse of an active duty member of the Armed Forces upon submission of an application form and fees. The applicant must hold a valid license for the profession issued by another state, the District of Columbia, or a possession or territory of the United States and may not be the subject of any disciplinary proceeding in any jurisdiction relating to the practice of a regulated health care profession in Florida. A spouse who is issued a temporary professional license to practice as a dentist under this authority may practice only under the supervision of a Florida dentist.

HIV and AIDS Course Requirements

Section 381.0034(3), F.S. and s. 468.1201, F.S., require prospective licensees for midwifery, radiology technology, laboratory technicians, medical physicists, speech-language pathology, and audiology, as a condition of initial licensure, to complete an approved course on HIV and AIDS. An applicant who has not completed the required HIV and AIDS course at the time of initial licensure will, upon submission of an affidavit showing good cause, be allowed six months to complete this requirement.

Medical Errors Course Requirements

Section 456.013(7), F.S., requires that every practitioner regulated by DOH complete a DOH approved two-hour course relating to the prevention of medical errors as part of the licensure and renewal process. The two-hour course counts toward the total number of continuing education (CE) credits required for the profession.

[6] *Id.* The Military Veteran Fee Waiver Request Form, also must be submitted with the application for licensure to receive waiver of fees and is available on the DOH website.
[7] Florida Dep't of Health, *Veterans*, http://www.floridahealth.gov/licensing-and-regulation/armed-forces/veterans/index.html, (last visited Dec. 15, 2015).
[8] *Id.*

Licensure Renewal Requirements

CE Tracking

Under s. 456.025(7), F.S., the DOH is required to utilize an electronic continuing education (CE) tracking system for each new biennial renewal cycle, and all approved CE providers must submit information on course attendance to the DOH for this system. The initial CE tracking system was not linked to the DOH license renewal system, so in order for a practitioner to renew his or her license, he or she certified that the required CEs had been completed. The DOH is currently deploying an integrated CE tracking system for all professions. Several practice acts still reference the submission of sworn affidavits, audits for compliance, and other methods for proof of completion of CE requirements.[9]

Felons, Medicaid Fraud, and Excluded Individuals

Section 456.0635(2), F.S., provides that a board or the DOH, if there is no board, must refuse to admit a candidate to any examination, and refuse to issue a license, certificate, or registration, to any applicant if the candidate, applicant, or principal, officer, agent, managing employee, or affiliated person of an applicant:

- Has been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, certain specified felonies;
- Has been terminated for cause from any Medicaid program; or
- Is listed on the U.S. Department of Health and Human Services' List of Excluded Individuals and Entities.

Section 456.0635(2), F.S., provides a tiered timeframe for these individuals to apply for a license, certificate, or registration, depending on the degree and age of the violation. There is a general exception for candidates or applicants for initial licensure or certification who were enrolled in an educational or training program on or before July 1, 2009, and who applied for licensure after July 1, 2012.

According to the DOH, recently, when the department refused to renew licenses based on the provisions of s. 456.0635(3), F.S., the licensees have immediately reapplied under the exception in s. 456.0635(2), F.S., and were granted a license. By taking advantage of the exception, licensees who were convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, certain specified felonies; or were terminated for cause from the Florida Medicaid or any other state's Medicaid program; or are currently listed on the United States Department of Health and Human Services' List of Excluded Individuals and Entities, have been able to regain a license to practice. When the next renewal cycle ends, those licensees will once again be denied renewal based on s. 456.0635(3), F.S., but the applicants can again reapply for licensure under the exception in s. 456.0635(2), F.S.[10]

[9] *See* Florida Department of Health, *Senate Bill 918 Analysis*, p. 6, (Nov. 20, 2015) (on file with the Senate Committee on Health Policy).
[10] *Id* at p. 7.

Continuing Education Reporting for Renewal

Section 463.007, F.S., authorizes the DOH to periodically require an optometrist to demonstrate his or her professional competence, as a condition of licensure renewal, by completing up to 30 CE hours in the two years preceding renewal. For certified optometrists, the 30 hours of CE must include six or more hours of approved transcript-quality coursework in ocular and systemic pharmacology and the diagnosis, treatment, and management of ocular and systemic conditions and diseases.

Section 464.203, F.S., requires a certified nursing assistant (CNA) to complete 12 CE hours of in-service training every year.

Sections 457.107(3), 458.347(4)(e)3., 466.0135(3), 466.014, 466.032(5), 484.047(2), and 486.109(4), F.S., require acupuncturists, physician assistants, dentists, dental hygienists, dental laboratories, hearing aid specialists, and physical therapists to provide an affidavit or written statement attesting to the completion of the required CEs for his or her biennial renewal period. The DOH is authorized to request that a licensee, with or without cause, produce documentation of his or her completed CEs reported for the biennial renewal period.

Licensure Regulation Costs

Section 456.025, F.S., sets forth the legislative intent that all costs of regulating health care professions must be borne solely by licensees and license applicants and that no profession is to operate with a negative cash flow balance. Fees are set by the board, or the DOH where there is no board, and are required to be reasonable while not creating a barrier to licensure. Fees are to be based on potential earnings of licensees, must be similar to similarly licensed professions, and must not be more than 10 percent higher than the actual cost of regulating the profession the previous biennium. All funds collected by the DOH from fees, fines, or costs awarded to the department by a court must be paid into the Medical Quality Assurance Trust Fund. The DOH may not expend funds from one profession to pay for the expenses incurred by another profession, except that the Board of Nursing is responsible for the costs incurred in regulating certified nursing assistants.

The DOH may adopt rules for advancing funds to professions operating with a negative cash balance. However, it may not advance funds to one profession for more than two consecutive years and must charge interest at the current rate earned on trust funds used by the DOH to implement ch. 456, F.S. Interest earned by the trust fund must be allocated to the professions in accordance with its respective investment. Each board or the DOH, by rule, may also assess a one-time fee to each active and inactive licensee in an amount necessary to eliminate a cash deficit in the profession or, if there is no deficit, to maintain the financial integrity of the profession. Not more than one such assessment may be made in any four-year period.

The DOH has provided the following recap of professions that have faced negative cash balances.[11] The boards have imposed four one-time assessments in the past 10 years as follows:

- Electrolysis: FY 2005-2006, $1,306;
- Nursing Home Administrators: FY 2005-2006, $200;

[11] *Id*. at p. 5.

- Dentistry: FY 2007-2008, $250; and
- Midwifery: FY 2008-2009, $250.

Three professions operate in a chronic deficit. Each is at its statutory fee cap and, according to the DOH, the midwifery and electrology professions do not have a large enough licensure base to generate adequate revenue to cover expenditures. These professions and the deficit amount under which they operate are:

	Cash Balance	Renewal Fee	Statutory Fee Cap	Total Licensees
Dentistry	$ (2,144,333)	$ 300	$ 300	14,285
Electrology	$ (638,545)	$ 100	$ 100	1,591
Midwifery	$ (900,115)	$ 500	$ 500	206

If the boards or the DOH were to impose a one-time assessment, the amounts needed to eliminate the deficits and result in solvency though Fiscal Year 2019-2020 would be:
- Dentistry: $450 per active/inactive licensee;
- Electrology: $900 per active/inactive licensee; and
- Midwifery: $5,500 per active/inactive licensee.

Section 456.025, F.S., allows the boards, or the DOH if there is no board, to collect up to $250 from CE providers seeking approval or renewal of individual courses. The fees are required to be used to review the proposed courses and for implementation of the electronic CE tracking system which is integrated with the licensure and renewal systems.

Section 456.025, F.S., also requires the chairpersons of the boards and councils to meet annually to review the long-range policy plan and current and proposed fee schedules. The chairpersons are required to make recommendations for any necessary statutory changes relating to fees and fee caps which must be compiled by the DOH and included in its annual report to the Legislature.

Ownership and Control of Patient Records

Section 456.057(20), F.S., provides that the board or the DOH may appoint a medical records custodian for patient records in the event of the death or incapacitation of a practitioner or when patient records have been abandoned. The custodian is required to comply with all requirements of s. 456.057, F.S. The DOH reports that 10 or more times per year, most frequently upon the death or incarceration of a practitioner, patient records are abandoned and patients cannot access their own records. The DOH attempts to secure the abandoned records but does not have the manpower or storage capacity to assume control.[12]

Dispensing Practitioner Facility Inspections

Section 465.0276(3), F.S., requires the DOH to inspect any facility where a dispensing practitioner dispenses medicinal drugs in the same manner, and with the same frequency, as it inspects pharmacies to determine whether the practitioner is in compliance with all applicable statutes and rules. The DOH currently inspects pharmacies upon opening, annually, when they

[12] *Supra note 9.*

change locations, and when changing ownership.[13] The DOH inspects a dispensing practitioner's practice location(s) prior to the registration being added to the practitioner's license and annually thereafter.[14]

Dispensing practitioners can dispense any prescription medication in their office, except Schedule II and III controlled substances. This prohibition against dispensing controlled substances does not apply to:

- The dispensing of complimentary packages of medicinal drugs which are labeled as a drug sample or complimentary drug to the practitioner's own patients in the regular course of her or his practice without the payment of a fee or remuneration of any kind, whether direct or indirect;
- The dispensing of controlled substances in the health care system of the Department of Corrections;
- In connection with a surgical procedure, and then no more than a 14-day supply;
- In an approved clinical trial;
- In a medication-assisted opiate treatment facility licensed under s. 397.427, F.S.; or
- In a hospice facility licensed under part IV of chapter 400.[15]

During the last two fiscal years, the DOH conducted 15,062 dispensing practitioner inspections with a passing rate of 99 percent.[16]

Council on Certified Nursing Assistants

Section 464.2085, F.S., creates the council on certified nursing assistants (CNA) within the DOH, under the board of nursing. The council consists of two members who are registered nurses, one member who is a licensed practical nurse, and two CNAs who are appointed by the State Surgeon General. The duties of the council are to make recommendations to the DOH and the board on:

- Policies and procedures for the certification of nursing assistants;
- Rules regulating the education, training, and certification process for nursing assistants; and
- Concerns and problems of certified nursing assistants to improve safety in the practice.

Historically, the council met every two months in conjunction with board of nursing meetings at an estimated cost of $40,000 per year. The council's last face-to-face meeting was in 2013. Beginning in 2014, the council met by telephone conference call only on an as-needed basis. Both the board of nursing and the council have supported abolishment of the council since 2014.[17]

[16] *Supra note 9*, at p.8. The restrictions on dispensing controlled substances listed in Schedule II or Schedule III was enacted in 2011. *See*, ch. 2011-141, s. 15, Laws of Florida.
[17] *Supra note 9*, at p.8.

Advisory Council of Medical Physicists

The Advisory Council of Medical Physicists (advisory council) was created in 1997 in s. 483.901(3), F.S., to advise the DOH in regulating the practice of medical physics. The nine-member advisory council is charged with recommending rules to administer the regulation of the practice of medical physics, recommending practice standards, and developing and recommending CE requirements for licensed medical physicists.

According to the DOH, the advisory council fulfilled its statutory role and last met in December 1998. The State Surgeon General appointed new members in 2015 and the advisory council will meet for the first time in 17 years at an estimated cost of $3,535 per meeting. The DOH advises that an Advisory Council on Radiation Protection includes medical physicists as council members, and that group may be used for guidance on matters of practice and public safety pertaining to the practice of medical physics.[18]

III. Effect of Proposed Changes:

This bill updates various sections of law relating to the regulation of health care practitioners.

Initial Licensure Requirements

Military Health Care Practitioners [19]

The bill amends s. 456.024, F.S., to authorize the Department of Health (DOH) to waive fees and issue health care licenses to active duty U.S. military personnel who apply either six months before, or six months after, an honorable discharge, in professions that do not require licensure in other states,[20] if the applicant can provide evidence of training or experience equivalent to that required in Florida and proof of a passing score on a regional or national standards organization exam, if one is required in Florida.

The DOH may also issue temporary licenses to active duty military spouses, in professions that do not require licensure in other states,[21] if the applicant can provide evidence of training or experience equivalent to that required in Florida and proof of a passing score on a regional or national standards organization exam, if one is required in Florida. The applicant must pay the required application fee.

The bill also eliminates the requirement that a military spouse who has been issued a temporary dental license may practice only under the supervision of a Florida dentist.

[18] *Supra note 9*, at p. 9.
[19] See section 3 of the bill.
[20] Professions not licensed in all states: Respiratory therapists (and assistants), Clinical Laboratory Personnel, Medical Physicists, Opticians, Athletics trainers, Electrologists, Nursing home administrators, Midwives, Orthotists (and assistants), Prosthetists (and assistants), Pedorthotists (and assistants), Orthotic fitters (and assistants), Certified chiropractic physician assistants, Pharmacy Technicians.
[21] *Id.*

Temporary Licensure for Medical Physicists

The bill amends s. 483.901, F.S., to allow the DOH to issue a temporary license for no more than one year upon proof that the physicist has completed a residency program and payment of a fee set forth by rule. The DOH may adopt by rule requirements for temporary licensure and renewal of temporary licenses.

HIV and AIDS Course Requirement - Deleted[22]

The bill amends s. 381.0034, F.S., and repeals s. 468.1201, F.S., to delete the requirement that applicants under part IV of ch. 468, F.S., (radiological personnel), medical physicists under ch. 483, F.S., speech and language pathology practitioners, and audiology practitioners, must complete courses in HIV and AIDS before their license may be initially issued. According to the DOH, this will accelerate the initial licensure process and reduce costs to licensees.[23]

Medical Errors Course Requirement - Deleted [24]

The bill amends s. 456.013(7), F.S., to delete the requirement that health care practitioners take two hours of continuing education (CE) in medical errors before a license may be issued but keeps that requirement for biennial renewal. The bill clarifies that the two course hours count toward the total required CE hours for renewal and are not in addition to the required hours.

Licensure Renewal Requirements

CE Tracking[25]

The bill moves the requirement that DOH must establish an electronic CE tracking system which integrates tracking licensee CEs with the DOH licensure and renewal process from s. 456.025, F.S., to a newly created s. 456.0361, F.S. The bill prohibits the DOH from renewing licenses unless the licensee's CE requirements are complete, authorizes the imposition of additional penalties under the applicable practice act for the failure to comply with CE requirements, and authorizes the DOH to adopt rules to implement this section. This codifies in statute DOH's new CE tracking system and allows for uniformity in handling CEs across the various professions.

Accordingly, the bill amends ss. 457.107(3), 458.347(4)(e)3, 466.0135(3), 466.014, 466.032(5), 484.047(2), and 486.109(4), F.S., to simplify and conform the license renewal process for acupuncturists, physician assistants, dentists, dental hygienists, dental laboratories, hearing aid specialists, and physical therapists by eliminating the requirement of an affidavit or written statement attesting to the completion of the required CEs for the biennial renewal period, and by eliminating the DOH's authority to request a licensee, with or without cause, to produce documentation of his or her completed CEs for the biennial renewal period.[26]

Similarly, the bill amends s. 463.007, F.S., to clarify and conform the CE requirements of an optometrist as a condition of license renewal and amends s. 464.203, F.S., to require CNAs to

[22] See sections 1 and 18 of the bill.
[23] *Supra note 9* at pp. 9 and 12.
[24] See section 2 of the bill.
[25] See sections 4 and 5 of the bill.
[26] See sections 8, 9, 14, 15, 16, 19 and 20 of the bill.

complete 24 CE hours of in-service training every biennium, rather than requiring hours annually. This change matches the two-year renewal cycle.[27]

Felons, Medicaid Fraud, and Excluded Individuals[28]

The bill amends s. 456.0635(2), F.S., to delete the exception to the requirement that a board or the DOH must deny the initial licensure of candidates or applicants who were convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, certain specified felonies primarily relating to health care fraud; have been terminated for cause from a Medicaid program; or who are listed on the U.S. Department of Health and Human Services' List of Excluded Individuals and Entities. The exception currently applies to candidates or applicants for initial licensure or certification who were enrolled in an educational or training program on or before July 1, 2009, and who applied for licensure after July 1, 2012. Under the bill, these individuals are unable to re-apply unless their sentence, and any probation, is scheduled to end within the time frame set out in s. 256.0635(2), F.S. Similar grounds exist for denial of a license renewal under s. 456.0635(3), F.S.

Licensure Regulation Costs[29]

The bill amends s. 456.025, F.S., to include a method to address professions which operate in a chronic deficit and which have reached their statutory fee cap. The bill:

- Deletes the requirement for the DOH to increase license fees if the cap has not been reached;
- Deletes the requirement to include recommendations for increases to fee caps in the annual report;
- Deletes rule authority to authorize advances to the profession's account with interest;
- Deletes the prohibition on using funds from one profession for operating another profession;
- Allows the DOH to waive the deficit profession's allocated indirect administrative and operational costs until the profession has a positive cash balance; and
- Allows cash in the unlicensed activity account of the profession whose indirect costs have been waived to be transferred to the operating account up to the amount of the deficit.

According to the DOH, as of June 30, 2014, three of 34 professions regulated under ch. 456, F.S. were in a chronic cash flow deficit and at their statutory fee cap. These three professions are dentistry, electrolysis, and midwifery. The total amount of the deficit was $3,682,993.[30]

The bill deletes the requirement that the chairpersons of the boards and councils meet annually to review the long-range policy plan and current and proposed fee schedules and recommend statutory changes relating to fees and fee caps for compilation by the DOH for inclusion in its annual report to the Legislature.

[27] See sections 10 and 11 of the bill.
[28] See section 7 of the bill.
[29] See section 4 of the bill.
[30] *Supra note 9* at p.10.

Council on Certified Nursing Assistants (CNA)[31]

The bill repeals s. 464.2085, F.S., which created the Council on Certified Nursing Assistants within the DOH under the Board of Nursing. Under the bill, the Board of Nursing will assume responsibility for all matters relating to CNAs.[32]

Advisory Council of Medical Physicists[33]

The bill repeals the advisory council in s. 483.901(3), F.S.

Ownership and Control of Patient Records[34]

The bill amends s. 456.057(20), F.S., to require DOH approval of all board-appointed medical records custodians for the patient medical records of a practitioner who has died, become incapacitated, or abandoned his or her records. The bill further authorizes the DOH to contract with a third party to function as the medical records custodian in these instances and designates the vendor the "records owner" under the same disclosure and confidentiality requirements imposed on licensees.

Dispensing Practitioner Facility Inspections[35]

The bill amends s.465.0276, F.S., to eliminate any required DOH inspection of the facilities of dispensing practitioners. Dispensing practitioners will still be required to register with their appropriate boards[36] but there will no longer be any statutory mandate for the DOH to inspect those facilities within specified timeframes. The DOH may inspect dispensing practitioner locations at such times as it determines necessary as a random, unannounced inspection or during the course of an investigation.[37] The DOH indicates that due to the restrictions on dispensing controlled substances in Schedules II or III, the frequency and manner in which inspections are conducted may no longer be necessary.[38]

Technical Revisions and Effective Date

The bill makes technical and conforming changes and reenacts s. 921.022, F.S.

The bill is effective July 1, 2016.

[31] See section 12 of the bill.
[32] *Supra note 9* at p.11.
[33] See section 18 of the bill.
[34] See section 6 of bill.
[35] See section 13 of the bill.
[36] Section 465.0276(2)(a), F.S.
[37] *See* s. 456.069, F.S.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Sections 8, 9, 11, 14, 15, 16, 17, 19, and 20 of CS/SB 918 will reduce the costs associated with initial applications for licensure, and renewals, as practitioners will not incur the costs of taking additional specific courses, or for obtaining notarized affidavits before initial licensure or renewal. Section 7 of the bill will prevent practitioners who are prohibited from renewing their licenses by s. 456.0635(3), F.S., from becoming licensed pursuant to s.456.0635(2), F.S.

C. Government Sector Impact:

Section 6 of the bill may require the DOH to incur costs related to maintaining the security and distribution of medical records for practitioners who have left practice. The DOH estimates a recurring coast of approximately $4,020 for which current spending authority is reported to be adequate to absorb.

Section 12 of the bill eliminates the CNA Council, which will result in a cost savings to the DOH of approximately $40,000 per fiscal year due to the elimination of costs associated with face-to-face meetings.

Section 13 of the bill eliminates the DOH's costs associated with the annual routine inspection of dispensing practitioners' facilities. The DOH reports that based on Fiscal Year 2014-2015 data, the total cost to complete these mandatory inspections was $597,707.

Section 19 of the bill eliminates the Advisory Council of Medical Physicists which will result in a cost avoidance for reactivating the advisory council.

VI. Technical Deficiencies:

None.

VII. Related Issues:

Section 13 of the bill eliminates the DOH's routine inspection of dispensing practitioners' facilities. Although speculative, this lack of routine oversight could result in a public health and safety risk to patients due to issues relating to cleanliness, improper storage and labeling of medications, use of counterfeit medication, etc. However, dispensing practitioners may experience less disruption in routine practice due to fewer inspections.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 381.0034, 456.013, 456.024, 456.025, 456.0361, 456.057, 456.0635, 457.107, 458.347, 463.007, 464.203, 465.0276, 466.0135, 466.014, 466.032, 483.901, 484.047, 486.109, 499.028, and 921.0022.

This bill repeals the following sections of the Florida Statutes: 464.2085 and 468.1201.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Health Policy on January 11, 2016:
The committee substitute recognizes a passing score for examinations approved by a regional, in addition to a national, standards organization for both the military and spousal exceptions from licensure in another state and provides a technical clarification pertaining to the description of the spouse's practice in health care.

The committee substitute also deletes sections pertaining to the Impaired Practitioner program.

B. Amendments:

None.

By the Committee on Health Policy; and Senator Richter

588-02036-16 2016918c1

A bill to be entitled

An act relating to licensure of health care professionals; amending s. 381.0034, F.S.; deleting the requirement that applicants making initial application for certain licensure complete certain courses; amending s. 456.013, F.S.; revising course requirements for renewing a certain license; amending s. 456.024, F.S.; providing for the issuance of a license to practice under certain conditions to a military health care practitioner in a profession for which licensure in a state or jurisdiction is not required to practice in the military; providing for the issuance of a temporary professional license under certain conditions to the spouse of an active duty member of the Armed Forces of the United States who is a healthcare practitioner in a profession for which licensure in a state or jurisdiction may not be required; deleting the requirement that an applicant who is issued a temporary professional license to practice as a dentist must practice under the indirect supervision of a licensed dentist; amending s. 456.025, F.S.; deleting the requirement for an annual meeting of chairpersons of Division of Medical Quality Assurance boards and professions; deleting the requirement that certain recommendations be included in a report to the Legislature; deleting a requirement that the Department of Health set license fees and recommend fee cap increases in certain circumstances; providing that a profession may operate at a deficit for a certain time period; deleting a provision authorizing the department to advance funds under certain circumstances; deleting a requirement that the

588-02036-16 2016918c1

department implement an electronic continuing education tracking system; authorizing the department to waive specified costs under certain circumstances; revising legislative intent; deleting a prohibition against the expenditure of funds by the department from the account of a profession to pay for the expenses of another profession; deleting a requirement that the department include certain information in an annual report to the Legislature; creating s. 456.0361, F.S.; requiring the department to establish an electronic continuing education tracking system; prohibiting the department from renewing a license unless the licensee has complied with all continuing education requirements; authorizing the department to adopt rules; amending s. 456.057, F.S.; revising a provision for a person or an entity appointed by a board to be approved by the department; authorizing the department to contract with a third party to provide record custodian services; amending s. 456.0635, F.S.; deleting a provision on applicability relating to the issuance of licenses; amending s. 457.107, F.S.; deleting a provision authorizing the Board of Acupuncture to request certain documentation from applicants; amending s. 458.347, F.S.; deleting a requirement that a physician assistant file a signed affidavit with the department; amending s. 463.007, F.S.; making technical changes; amending s. 464.203, F.S.; revising inservice training requirements for certified nursing assistants; deleting a rulemaking

requirement; repealing s. 464.2085, F.S., relating to the Council on Certified Nursing Assistants; amending s. 465.0276, F.S.; deleting a requirement that the department inspect certain facilities; amending s. 466.0135, F.S.; deleting a requirement that a dentist file a signed affidavit with the department; deleting a provision authorizing the Board of Dentistry to request certain documentation from applicants; amending s. 466.014, F.S.; deleting a requirement that a dental hygienist file a signed affidavit with the department; deleting a provision authorizing the board to request certain documentation from applicants; amending s. 466.032, F.S.; deleting a requirement that a dental laboratory file a signed affidavit with the department; deleting a provision authorizing the department to request certain documentation from applicants; repealing s. 468.1201, F.S., relating to a requirement for instruction on human immunodeficiency virus and acquired immune deficiency syndrome; amending s. 483.901, F.S.; deleting provisions relating to the Advisory Council of Medical Physicists in the department; authorizing the department to issue temporary licenses in certain circumstances; authorizing the department to adopt rules; amending s. 484.047, F.S.; deleting a requirement for a written statement from an applicant in certain circumstances; amending s. 486.109, F.S.; deleting a provision authorizing the department to conduct a random audit for certain information; amending ss. 499.028 and

921.0022, F.S.; conforming cross-references; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (3) of section 381.0034, Florida Statutes, is amended to read:

381.0034 Requirement for instruction on HIV and AIDS.—

(3) The department shall require, as a condition of granting a license under chapter 467 or part III of chapter 483 ~~the chapters specified in subsection (1)~~, that an applicant making initial application for licensure complete an educational course acceptable to the department on human immunodeficiency virus and acquired immune deficiency syndrome. Upon submission of an affidavit showing good cause, an applicant who has not taken a course at the time of licensure must ~~shall, upon an affidavit showing good cause,~~ be allowed 6 months to complete this requirement.

Section 2. Subsection (7) of section 456.013, Florida Statutes, is amended to read:

456.013 Department; general licensing provisions.—

(7) The boards, or the department when there is no board, shall require the completion of a 2-hour course relating to prevention of medical errors as part of the biennial ~~licensure and~~ renewal process. The 2-hour course counts toward ~~shall count towards~~ the total number of continuing education hours required for the profession. The course must ~~shall~~ be approved by the board or department, as appropriate, and must ~~shall~~ include a study of root-cause analysis, error reduction and prevention,

and patient safety. In addition, the course approved by the Board of Medicine and the Board of Osteopathic Medicine must ~~shall~~ include information relating to the five most misdiagnosed conditions during the previous biennium, as determined by the board. If the course is being offered by a facility licensed pursuant to chapter 395 for its employees, the board may approve up to 1 hour of the 2-hour course to be specifically related to error reduction and prevention methods used in that facility.

Section 3. Paragraph (a) of subsection (3) and paragraphs (a) and (j) of subsection (4) of section 456.024, Florida Statutes, are amended to read:

456.024 Members of Armed Forces in good standing with administrative boards or the department; spouses; licensure.—

(3) A person who serves or has served as a health care practitioner in the United States Armed Forces, United States Reserve Forces, or the National Guard or a person who serves or has served on active duty with the United States Armed Forces as a health care practitioner in the United States Public Health Service is eligible for licensure in this state. The department shall develop an application form, and each board, or the department if there is no board, shall waive the application fee, licensure fee, and unlicensed activity fee for such applicants. For purposes of this subsection, "health care practitioner" means a health care practitioner as defined in s. 456.001 and a person licensed under part III of chapter 401 or part IV of chapter 468.

(a) The board, or department if there is no board, shall issue a license to practice in this state to a person who:

1. Submits a complete application.

2. Receives an honorable discharge within 6 months before, or will receive an honorable discharge within 6 months after, the date of submission of the application.

3. Holds an active, unencumbered license issued by another state, the District of Columbia, or a possession or territory of the United States and who has not had disciplinary action taken against him or her in the 5 years preceding the date of submission of the application, or who is a military health care practitioner in a profession for which licensure in a state or jurisdiction is not required to practice in the United States Armed Services, who provides evidence of military training or experience substantially equivalent to the requirements for licensure in this state in that profession, and who obtained a passing score on the appropriate examination of a national or regional standards organization if required for licensure in this state.

4. Attests that he or she is not, at the time of submission, the subject of a disciplinary proceeding in a jurisdiction in which he or she holds a license or by the United States Department of Defense for reasons related to the practice of the profession for which he or she is applying.

5. Actively practiced the profession for which he or she is applying for the 3 years preceding the date of submission of the application.

6. Submits a set of fingerprints for a background screening pursuant to s. 456.0135, if required for the profession for which he or she is applying.

The department shall verify information submitted by the

applicant under this subsection using the National Practitioner Data Bank.

(4)(a) The board, or the department if there is no board, may issue a temporary professional license to the spouse of an active duty member of the Armed Forces of the United States who submits to the department:

1. A completed application upon a form prepared and furnished by the department in accordance with the board's rules;

2. The required application fee;

3. Proof that the applicant is married to a member of the Armed Forces of the United States who is on active duty;

4. Proof that the applicant holds a valid license for the profession issued by another state, the District of Columbia, or a possession or territory of the United States, and is not the subject of any disciplinary proceeding in any jurisdiction in which the applicant holds a license to practice a profession regulated by this chapter; or proof that the applicant is a practitioner of health care in a profession for which licensure in another state or jurisdiction is not required, has training or experience substantially equivalent to the requirements for licensure in this state in that profession, and has obtained a passing score on the appropriate examination of a national or regional standards organization if required for licensure in this state; and

5. Proof that the applicant's spouse is assigned to a duty station in this state pursuant to the member's official active duty military orders.~~; and~~

~~6. Proof that the applicant would otherwise be entitled to~~

~~full licensure under the appropriate practice act, and is eligible to take the respective licensure examination as required in Florida.~~

~~(j) An applicant who is issued a temporary professional license to practice as a dentist pursuant to this section must practice under the indirect supervision, as defined in s. 466.003, of a dentist licensed pursuant to chapter 466.~~

Section 4. Present subsections (3) through (11) of section 456.025, Florida Statutes, are redesignated as subsections (2) through (10), respectively, and present subsections (2), (3), (7), and (8) of that section are amended, to read:

456.025 Fees; receipts; disposition.—

~~(2) The chairpersons of the boards and councils listed in s. 20.43(3)(g) shall meet annually at division headquarters to review the long-range policy plan required by s. 456.005 and current and proposed fee schedules. The chairpersons shall make recommendations for any necessary statutory changes relating to fees and fee caps. Such recommendations shall be compiled by the Department of Health and be included in the annual report to the Legislature required by s. 456.026 as well as be included in the long-range policy plan required by s. 456.005.~~

(2)~~(3)~~ Each board within the jurisdiction of the department, or the department when there is no board, shall determine by rule the amount of license fees for the profession it regulates, based upon long-range estimates prepared by the department of the revenue required to implement laws relating to the regulation of professions by the department and the board. Each board, or the department if there is no board, shall ensure that license fees are adequate to cover all anticipated costs

and to maintain a reasonable cash balance, as determined by rule of the agency, with advice of the applicable board. ~~If sufficient action is not taken by a board within 1 year after notification by the department that license fees are projected to be inadequate, the department shall set license fees on behalf of the applicable board to cover anticipated costs and to maintain the required cash balance. The department shall include recommended fee cap increases in its annual report to the Legislature.~~ Further, it is the intent of the Legislature ~~legislative intent~~ that a ~~no~~ regulated profession not operate with a negative cash balance. If, however, a profession's fees are at their statutory fee cap and the requirements of subsections (1) and (4) are met, a profession may operate at a deficit until the deficit is eliminated ~~The department may provide by rule for advancing sufficient funds to any profession operating with a negative cash balance. The advancement may be for a period not to exceed 2 consecutive years, and the regulated profession must pay interest. Interest shall be calculated at the current rate earned on investments of a trust fund used by the department to implement this chapter. Interest earned shall be allocated to the various funds in accordance with the allocation of investment earnings during the period of the advance~~.

(6) ~~(7)~~ Each board, or the department if there is no board, shall establish~~,~~ by rule~~,~~ a fee of up to ~~not to exceed~~ $250 for anyone seeking ~~approval~~ to provide continuing education courses or programs and ~~shall establish by rule~~ a biennial renewal fee of up to ~~not to exceed~~ $250 for the renewal of an approval to provide ~~providership of~~ such courses. The fees collected ~~from~~

~~continuing education providers~~ shall be used for the purposes of reviewing course provider applications, monitoring the integrity of the courses provided, covering legal expenses incurred as a result of not granting or renewing an approval ~~a providership~~, and developing and maintaining an electronic continuing education tracking system pursuant to s. 456.0361. ~~The department shall implement an electronic continuing education tracking system for each new biennial renewal cycle for which electronic renewals are implemented after the effective date of this act and shall integrate such system into the licensure and renewal system.~~ All approved continuing education providers shall provide information on course attendance to the department necessary to implement the electronic tracking system. The department shall, by rule, specify the form and procedures by which the information is to be submitted.

(7) ~~(8)~~ All moneys collected by the department from fees or fines or from costs awarded to the agency by a court shall be paid into a trust fund used by the department to implement this chapter. The Legislature shall appropriate funds from this trust fund sufficient to administer ~~carry out~~ this chapter and the provisions of law with respect to professions regulated by the Division of Medical Quality Assurance within the department and the boards. The department may contract with public and private entities to receive and deposit revenue pursuant to this section. The department shall maintain separate accounts in the trust fund used by the department to implement this chapter for every profession within the department. To the maximum extent possible, the department shall directly charge all expenses to the account of each regulated profession. For the purpose of

this subsection, direct charge expenses include, but are not limited to, costs for investigations, examinations, and legal services. For expenses that cannot be charged directly, the department shall provide for the proportionate allocation among the accounts of expenses incurred by the department in the performance of its duties with respect to each regulated profession. If a profession has established renewal fees that meet the requirements of subsection (1), has fees that are at the statutory fee cap, and has been operating in a deficit for 2 or more fiscal years, the department may waive allocated administrative and operational indirect costs until such time as the profession has a positive cash balance. The costs related to administration and operations include, but are not limited to, the costs of the director's office and the costs of system support, communications, central records, and other such administrative functions. Such waived costs shall be allocated to the other professions that must meet the requirements of this section, and cash in the unlicensed activity account under s. 456.065 of the profession whose costs have been waived shall be transferred to the operating account in an amount not to exceed the amount of the deficit. The regulation by the department of professions, as defined in this chapter, must ~~shall~~ be financed solely from revenue collected by the department ~~it~~ from fees and other charges and deposited in the Medical Quality Assurance Trust Fund, and all such revenue is hereby appropriated to the department, which~~. However, it is legislative intent that each profession shall operate within its anticipated fees. The department may not expend funds from the account of a profession to pay for the expenses incurred on behalf of another~~

~~profession, except that the Board of Nursing must pay for any costs incurred in the regulation of certified nursing assistants. The department~~ shall maintain adequate records to support its allocation of agency expenses. The department shall provide any board with reasonable access to these records upon request. On or before October 1 of each year, the department shall provide each board an annual report of revenue and direct and allocated expenses related to the operation of that profession. The board shall use these reports and the department's adopted long-range plan to determine the amount of license fees. ~~A condensed version of this information, with the department's recommendations, shall be included in the annual report to the Legislature prepared under s. 456.026.~~

Section 5. Section 456.0361, Florida Statutes, is created to read:

456.0361 Compliance with continuing education requirements.—

(1) The department shall establish an electronic continuing education tracking system to monitor licensee compliance with applicable continuing education requirements and to determine whether a licensee is in full compliance with the requirements at the time of his or her application for license renewal. The tracking system shall be integrated into the department's licensure and renewal process.

(2) The department may not renew a license until the licensee complies with all applicable continuing education requirements. This subsection does not prohibit the department or the boards from imposing additional penalties under the applicable professional practice act or applicable rules for

failure to comply with continuing education requirements.

(3) The department may adopt rules to implement this section.

Section 6. Subsection (20) of section 456.057, Florida Statutes, is amended to read:

456.057 Ownership and control of patient records; report or copies of records to be furnished; disclosure of information.—

(20) The board with department approval, or department when there is no board, may temporarily or permanently appoint a person or an entity as a custodian of medical records in the event of the death of a practitioner, the mental or physical incapacitation of a ~~the~~ practitioner, or the abandonment of medical records by a practitioner. Such ~~The~~ custodian ~~appointed~~ shall comply with ~~all provisions of~~ this section. The department may contract with a third party to provide these services under the confidentiality and disclosure requirements of this section~~, including the release of patient records~~.

Section 7. Subsection (2) of section 456.0635, Florida Statutes, is amended to read:

456.0635 Health care fraud; disqualification for license, certificate, or registration.—

(2) Each board within the jurisdiction of the department, or the department if there is no board, shall refuse to admit a candidate to any examination and refuse to issue a license, certificate, or registration to any applicant if the candidate or applicant or any principal, officer, agent, managing employee, or affiliated person of the applicant:

(a) Has been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a felony under

chapter 409, chapter 817, or chapter 893, or a similar felony offense committed in another state or jurisdiction, unless the candidate or applicant has successfully completed a drug court program for that felony and provides proof that the plea has been withdrawn or the charges have been dismissed. Any such conviction or plea shall exclude the applicant or candidate from licensure, examination, certification, or registration unless the sentence and any subsequent period of probation for such conviction or plea ended:

1. For felonies of the first or second degree, more than 15 years before the date of application.

2. For felonies of the third degree, more than 10 years before the date of application, except for felonies of the third degree under s. 893.13(6)(a).

3. For felonies of the third degree under s. 893.13(6)(a), more than 5 years before the date of application;

(b) Has been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a felony under 21 U.S.C. ss. 801-970, or 42 U.S.C. ss. 1395-1396, unless the sentence and any subsequent period of probation for such conviction or plea ended more than 15 years before the date of the application;

(c) Has been terminated for cause from the Florida Medicaid program pursuant to s. 409.913, unless the candidate or applicant has been in good standing with the Florida Medicaid program for the most recent 5 years;

(d) Has been terminated for cause, pursuant to the appeals procedures established by the state, from any other state Medicaid program, unless the candidate or applicant has been in

good standing with a state Medicaid program for the most recent 5 years and the termination occurred at least 20 years before the date of the application; or

(e) Is currently listed on the United States Department of Health and Human Services Office of Inspector General's List of Excluded Individuals and Entities.

~~This subsection does not apply to candidates or applicants for initial licensure or certification who were enrolled in an educational or training program on or before July 1, 2009, which was recognized by a board or, if there is no board, recognized by the department, and who applied for licensure after July 1, 2012.~~

Section 8. Subsection (3) of section 457.107, Florida Statutes, is amended to read:

457.107 Renewal of licenses; continuing education.—

(3) The board shall ~~by rule~~ prescribe by rule continuing education requirements of up to~~, not to exceed~~ 30 hours biennially~~,~~ as a condition for renewal of a license. All education programs that contribute to the advancement, extension, or enhancement of professional skills and knowledge related to the practice of acupuncture, whether conducted by a nonprofit or profitmaking entity, are eligible for approval. The continuing professional education requirements must be in acupuncture or oriental medicine subjects, including, but not limited to, anatomy, biological sciences, adjunctive therapies, sanitation and sterilization, emergency protocols, and diseases. The board may ~~shall have the authority to~~ set a fee of up to~~, not to exceed~~ $100~~,~~ for each continuing education provider. The

licensee shall retain in his or her records the certificates of completion of continuing professional education requirements ~~to prove compliance with this subsection. The board may request such documentation without cause from applicants who are selected at random~~. All national and state acupuncture and oriental medicine organizations and acupuncture and oriental medicine schools are approved to provide continuing professional education in accordance with this subsection.

Section 9. Paragraph (e) of subsection (4) of section 458.347, Florida Statutes, is amended to read:

458.347 Physician assistants.—

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(e) A supervisory physician may delegate to a fully licensed physician assistant the authority to prescribe or dispense any medication used in the supervisory physician's practice unless such medication is listed on the formulary created pursuant to paragraph (f). A fully licensed physician assistant may only prescribe or dispense such medication under the following circumstances:

1. A physician assistant must clearly identify to the patient that he or she is a physician assistant and~~. Furthermore, the physician assistant must~~ inform the patient that the patient has the right to see the physician before a ~~prior to any~~ prescription is ~~being~~ prescribed or dispensed by the physician assistant.

2. The supervisory physician must notify the department of his or her intent to delegate, on a department-approved form, before delegating such authority and ~~notify the department~~ of any change in prescriptive privileges of the physician

assistant. Authority to dispense may be delegated only by a supervising physician who is registered as a dispensing practitioner in compliance with s. 465.0276.

3. The physician assistant must complete ~~file with the department a signed affidavit that he or she has completed~~ a minimum of 10 continuing medical education hours in the specialty practice in which the physician assistant has prescriptive privileges with each licensure renewal ~~application~~.

4. The department may issue a prescriber number to the physician assistant granting authority for the prescribing of medicinal drugs authorized within this paragraph upon completion of the ~~foregoing~~ requirements of this paragraph. The physician assistant is ~~shall~~ not ~~be~~ required to independently register pursuant to s. 465.0276.

5. The prescription must be written in a form that complies with chapter 499 and, in addition to the supervisory physician's name, address, and telephone number, must contain~~, in addition to the supervisory physician's name, address, and telephone number,~~ the physician assistant's prescriber number. Unless it is a drug or drug sample dispensed by the physician assistant, the prescription must be filled in a pharmacy permitted under chapter 465 and must be dispensed in that pharmacy by a pharmacist licensed under chapter 465. The inclusion ~~appearance~~ of the prescriber number creates a presumption that the physician assistant is authorized to prescribe the medicinal drug and the prescription is valid.

6. The physician assistant must note the prescription or dispensing of medication in the appropriate medical record.

Section 10. Subsection (3) of section 463.007, Florida

Statutes, is amended to read:

463.007 Renewal of license; continuing education.—

(3) As a condition of license renewal, a licensee must ~~Unless otherwise provided by law, the board shall require licensees to periodically~~ demonstrate his or her ~~their~~ professional competence~~, as a condition of renewal of a license,~~ by completing up to 30 hours of continuing education during the 2-year period preceding license renewal. For certified optometrists, the 30-hour continuing education requirement includes ~~shall include~~ 6 or more hours of approved transcript-quality coursework in ocular and systemic pharmacology and the diagnosis, treatment, and management of ocular and systemic conditions and diseases during the 2-year period preceding application for license renewal.

Section 11. Subsection (7) of section 464.203, Florida Statutes, is amended to read:

464.203 Certified nursing assistants; certification requirement.—

(7) A certified nursing assistant shall complete 24 ~~12~~ hours of inservice training during each biennium ~~calendar year~~. The certified nursing assistant shall maintain ~~be responsible for maintaining~~ documentation demonstrating compliance with these provisions. ~~The Council on Certified Nursing Assistants, in accordance with s. 464.2085(2)(b), shall propose rules to implement this subsection.~~

Section 12. Section 464.2085, Florida Statutes, is repealed.

Section 13. Paragraph (b) of subsection (1) and subsection (3) of section 465.0276, Florida Statutes, are amended to read:

465.0276 Dispensing practitioner.—

(1)

(b) A practitioner registered under this section may not dispense a controlled substance listed in Schedule II or Schedule III as provided in s. 893.03. This paragraph does not apply to:

1. The dispensing of complimentary packages of medicinal drugs which are labeled as a drug sample or complimentary drug as defined in s. 499.028 to the practitioner's own patients in the regular course of her or his practice without the payment of a fee or remuneration of any kind, whether direct or indirect, as provided in subsection (4) ~~subsection (5)~~.

2. The dispensing of controlled substances in the health care system of the Department of Corrections.

3. The dispensing of a controlled substance listed in Schedule II or Schedule III in connection with the performance of a surgical procedure. The amount dispensed pursuant to the subparagraph may not exceed a 14-day supply. This exception does not allow for the dispensing of a controlled substance listed in Schedule II or Schedule III more than 14 days after the performance of the surgical procedure. For purposes of this subparagraph, the term "surgical procedure" means any procedure in any setting which involves, or reasonably should involve:

a. Perioperative medication and sedation that allows the patient to tolerate unpleasant procedures while maintaining adequate cardiorespiratory function and the ability to respond purposefully to verbal or tactile stimulation and makes intra- and postoperative monitoring necessary; or

b. The use of general anesthesia or major conduction

anesthesia and preoperative sedation.

4. The dispensing of a controlled substance listed in Schedule II or Schedule III pursuant to an approved clinical trial. For purposes of this subparagraph, the term "approved clinical trial" means a clinical research study or clinical investigation that, in whole or in part, is state or federally funded or is conducted under an investigational new drug application that is reviewed by the United States Food and Drug Administration.

5. The dispensing of methadone in a facility licensed under s. 397.427 where medication-assisted treatment for opiate addiction is provided.

6. The dispensing of a controlled substance listed in Schedule II or Schedule III to a patient of a facility licensed under part IV of chapter 400.

~~(3) The department shall inspect any facility where a practitioner dispenses medicinal drugs pursuant to subsection (2) in the same manner and with the same frequency as it inspects pharmacies for the purpose of determining whether the practitioner is in compliance with all statutes and rules applicable to her or his dispensing practice.~~

Section 14. Subsection (3) of section 466.0135, Florida Statutes, is amended to read:

466.0135 Continuing education; dentists.—

(3) A ~~In applying for license renewal, the~~ dentist shall complete ~~submit a sworn affidavit, on a form acceptable to the department, attesting that she or he has completed~~ the required continuing education as provided ~~required~~ in this section ~~in accordance with the guidelines and provisions of this section~~

~~and listing the date, location, sponsor, subject matter, and hours of completed continuing education courses~~. An ~~The~~ applicant shall retain in her or his records any ~~such~~ receipts, vouchers, or certificates ~~as may be~~ necessary to document completion of such ~~the~~ continuing education courses ~~listed in accordance with this subsection~~. ~~With cause, the board may request such documentation by the applicant, and the board may request such documentation from applicants selected at random without cause.~~

Section 15. Section 466.014, Florida Statutes, is amended to read:

466.014 Continuing education; dental hygienists.—In addition to the other requirements for relicensure for dental hygienists set out in this chapter ~~act~~, the board shall require each licensed dental hygienist to complete at least ~~not less than~~ 24 hours but not ~~or~~ more than 36 hours of continuing professional education in dental subjects, biennially, in programs prescribed or approved by the board or in equivalent programs of continuing education. Programs of continuing education approved by the board are ~~shall be~~ programs of learning which, in the opinion of the board, contribute directly to the dental education of the dental hygienist. The board shall adopt rules and guidelines to administer and enforce ~~the provisions of~~ this section. ~~In applying for license renewal, the dental hygienist shall submit a sworn affidavit, on a form acceptable to the department, attesting that she or he has completed the continuing education required in this section in accordance with the guidelines and provisions of this section and listing the date, location, sponsor, subject matter, and~~

~~hours of completed continuing education courses.~~ An ~~The~~ applicant shall retain in her or his records any ~~such~~ receipts, vouchers, or certificates ~~as may be~~ necessary to document completion of such ~~the~~ continuing education courses ~~listed in accordance with this section~~. ~~With cause, the board may request such documentation by the applicant, and the board may request such documentation from applicants selected at random without cause.~~ Compliance with the continuing education requirements is ~~shall be~~ mandatory for issuance of the renewal certificate. The board may ~~shall have the authority to~~ excuse licensees, as a group or as individuals, from all or part of the continuing educational requirements if~~, or any part thereof, in the event~~ an unusual circumstance, emergency, or hardship has prevented compliance with this section.

Section 16. Subsection (5) of section 466.032, Florida Statutes, is amended to read:

466.032 Registration.—

(5) A ~~The~~ dental laboratory owner or at least one employee of any dental laboratory renewing registration on or after July 1, 2010, shall complete 18 hours of continuing education biennially. Programs of continuing education must ~~shall~~ be programs of learning that contribute directly to the education of the dental technician and may include, but are not limited to, attendance at lectures, study clubs, college courses, or scientific sessions of conventions and research.

(a) The aim of continuing education for dental technicians is to improve dental health care delivery to the public as such is impacted through the design, manufacture, and use of artificial human oral prosthetics and related restorative

appliances.

(b) Continuing education courses shall address one or more of the following areas of professional development, including, but not limited to:

1. Laboratory and technological subjects, including, but not limited to, laboratory techniques and procedures, materials, and equipment; and

2. Subjects pertinent to oral health, infection control, and safety.

(c) Programs that meet ~~meeting~~ the general requirements of continuing education may be developed and offered to dental technicians by the Florida Dental Laboratory Association and the Florida Dental Association. Other organizations, schools, or agencies may also be approved to develop and offer continuing education in accordance with specific criteria established by the department.

~~(d) Any dental laboratory renewing a registration on or after July 1, 2010, shall submit a sworn affidavit, on a form approved by the department, attesting that either the dental laboratory owner or one dental technician employed by the registered dental laboratory has completed the continuing education required in this subsection in accordance with the guidelines and provisions of this subsection and listing the date, location, sponsor, subject matter, and hours of completed continuing education courses. The dental laboratory shall retain in its records such receipts, vouchers, or certificates as may be necessary to document completion of the continuing education courses listed in accordance with this subsection. With cause, the department may request that the documentation be provided by~~

~~the applicant. The department may also request the documentation from applicants selected at random without cause.~~

(d) ~~(c)~~ 1. This subsection does not apply to a dental laboratory that is physically located within a dental practice operated by a dentist licensed under this chapter.

2. A dental laboratory in another state or country which provides service to a dentist licensed under this chapter is not required to register with the state and may continue to provide services to such dentist with a proper prescription. However, a dental laboratory in another state or country~~, however,~~ may voluntarily comply with this subsection.

Section 17. Section 468.1201, Florida Statutes, is repealed.

Section 18. Paragraph (a) of subsection (3), subsections (4) and (5), paragraphs (a) and (e) of subsection (6), and subsection (7) of section 483.901, Florida Statutes, are amended, and paragraph (k) is added to subsection (6) of that section, to read:

483.901 Medical physicists; definitions; licensure.—

(3) DEFINITIONS.—As used in this section, the term:

~~(a) "Council" means the Advisory Council of Medical Physicists in the Department of Health.~~

~~(4) COUNCIL.—The Advisory Council of Medical Physicists is created in the Department of Health to advise the department in regulating the practice of medical physics in this state.~~

~~(a) The council shall be composed of nine members appointed by the State Surgeon General as follows:~~

~~1. A licensed medical physicist who specializes in diagnostic radiological physics.~~

~~2. A licensed medical physicist who specializes in therapeutic radiological physics.~~

~~3. A licensed medical physicist who specializes in medical nuclear radiological physics.~~

~~4. A physician who is board certified by the American Board of Radiology or its equivalent.~~

~~5. A physician who is board certified by the American Osteopathic Board of Radiology or its equivalent.~~

~~6. A chiropractic physician who practices radiology.~~

~~7. Three consumer members who are not, and have never been, licensed as a medical physicist or licensed in any closely related profession.~~

~~(b) The State Surgeon General shall appoint the medical physicist members of the council from a list of candidates who are licensed to practice medical physics.~~

~~(c) The State Surgeon General shall appoint the physician members of the council from a list of candidates who are licensed to practice medicine in this state and are board certified in diagnostic radiology, therapeutic radiology, or radiation oncology.~~

~~(d) The State Surgeon General shall appoint the public members of the council.~~

~~(e) As the term of each member expires, the State Surgeon General shall appoint the successor for a term of 4 years. A member shall serve until the member's successor is appointed, unless physically unable to do so.~~

~~(f) An individual is ineligible to serve more than two full consecutive 4-year terms.~~

~~(g) If a vacancy on the council occurs, the State Surgeon~~

~~General shall appoint a member to serve for a 4-year term.~~

~~(h) A council member must be a United States citizen and must have been a resident of this state for 2 consecutive years immediately before being appointed.~~

~~1. A member of the council who is a medical physicist must have practiced for at least 6 years before being appointed or be board certified for the specialty in which the member practices.~~

~~2. A member of the council who is a physician must be licensed to practice medicine in this state and must have practiced diagnostic radiology or radiation oncology in this state for at least 2 years before being appointed.~~

~~3. The public members of the council must not have a financial interest in any endeavor related to the practice of medical physics.~~

~~(i) A council member may be removed from the council if the member:~~

~~1. Did not have the required qualifications at the time of appointment;~~

~~2. Does not maintain the required qualifications while serving on the council; or~~

~~3. Fails to attend the regularly scheduled council meetings in a calendar year as required by s. 456.011.~~

~~(j) Members of the council may not receive compensation for their services; however, they are entitled to reimbursement, from funds deposited in the Medical Quality Assurance Trust Fund, for necessary travel expenses as specified in s. 112.061 for each day they engage in the business of the council.~~

~~(k) At the first regularly scheduled meeting of each calendar year, the council shall elect a presiding officer and~~

~~an assistant presiding officer from among its members. The council shall meet at least once each year and at other times in accordance with department requirements.~~

~~(l) The department shall provide administrative support to the council for all licensing activities.~~

~~(m) The council may conduct its meetings electronically.~~

~~(5) POWERS OF COUNCIL.—The council shall:~~

~~(a) Recommend rules to administer this section.~~

~~(b) Recommend practice standards for the practice of medical physics which are consistent with the Guidelines for Ethical Practice for Medical Physicists prepared by the American Association of Physicists in Medicine and disciplinary guidelines adopted under s. 456.079.~~

~~(c) Develop and recommend continuing education requirements for licensed medical physicists.~~

(4) ~~(6)~~ LICENSE REQUIRED.—An individual may not engage in the practice of medical physics, including the specialties of diagnostic radiological physics, therapeutic radiological physics, medical nuclear radiological physics, or medical health physics, without a license issued by the department for the appropriate specialty.

(a) The department shall adopt rules to administer this section which specify license application and renewal fees, continuing education requirements, and standards for practicing medical physics. ~~The council shall recommend to the department continuing education requirements that shall be a condition of license renewal.~~ The department shall require a minimum of 24 hours per biennium of continuing education offered by an organization ~~recommended by the council and~~ approved by the

department. The department~~, upon recommendation of the council,~~ may adopt rules to specify continuing education requirements for persons who hold a license in more than one specialty.

(e) Upon ~~On~~ receipt of an application and fee as specified in this section, the department may issue a license to practice medical physics in this state ~~on or after October 1, 1997,~~ to a person who is board certified in the medical physics specialty in which the applicant applies to practice by the American Board of Radiology for diagnostic radiological physics, therapeutic radiological physics, or medical nuclear radiological physics; by the American Board of Medical Physics for diagnostic radiological physics, therapeutic radiological physics, or medical nuclear radiological physics; or by the American Board of Health Physics or an equivalent certifying body approved by the department.

(k) Upon proof of a completed residency program and receipt of the fee set forth by rule, the department may issue a temporary license for no more than 1 year. The department may adopt by rule requirements for temporary licensure and renewal of temporary licenses.

(5) ~~(7)~~ FEES.—The fee for the initial license application shall be $500 and is nonrefundable. The fee for license renewal may not be more than $500. These fees may cover only the costs incurred by the department ~~and the council~~ to administer this section. By July 1 each year, the department shall determine ~~advise the council~~ if the fees are insufficient to administer this section.

Section 19. Subsection (2) of section 484.047, Florida Statutes, is amended to read:

484.047 Renewal of license.—

(2) In addition to the other requirements for renewal provided in this section and by the board, the department shall renew a license upon receipt of the renewal application and~~,~~ the renewal fee~~, and a written statement affirming compliance with all other requirements set forth in this section and by the board~~. A licensee must maintain, if applicable, a certificate from a manufacturer or independent testing agent certifying that the testing room meets the requirements of s. 484.0501(6) and, if applicable, a certificate from a manufacturer or independent testing agent stating that all audiometric testing equipment used by the licensee has been calibrated acoustically to American National Standards Institute standards on an annual basis ~~acoustically to American National Standards Institute standard specifications~~. Possession of any applicable certificate is ~~the certificates shall be~~ a prerequisite to renewal.

Section 20. Subsections (1) and (4) of section 486.109, Florida Statutes, are amended to read:

486.109 Continuing education.—

(1) The board shall require licensees to ~~periodically~~ demonstrate their professional competence as a condition of renewal of a license by completing 24 hours of continuing education biennially.

(4) Each licensee shall maintain ~~be responsible for maintaining~~ sufficient records ~~in a format as determined by rule which shall be subject to a random audit by the department~~ to demonstrate ~~assure~~ compliance with this section.

Section 21. Paragraph (a) of subsection (15) of section

499.028, Florida Statutes, is amended to read:

499.028 Drug samples or complimentary drugs; starter packs; permits to distribute.—

(15) A person may not possess a prescription drug sample unless:

(a) The drug sample was prescribed to her or him as evidenced by the label required in s. 465.0276(4) ~~s. 465.0276(5)~~.

Section 22. Paragraph (g) of subsection (3) of section 921.0022, Florida Statutes, is amended to read:

921.0022 Criminal Punishment Code; offense severity ranking chart.—

(3) OFFENSE SEVERITY RANKING CHART

(g) LEVEL 7

Florida Statute	Felony Degree	Description
316.027(2)(c)	1st	Accident involving death, failure to stop; leaving scene.
316.193(3)(c)2.	3rd	DUI resulting in serious bodily injury.
316.1935(3)(b)	1st	Causing serious bodily injury or death to another person; driving at high speed or with wanton

		disregard for safety while fleeing or attempting to elude law enforcement officer who is in a patrol vehicle with siren and lights activated.
327.35(3)(c)2.	3rd	Vessel BUI resulting in serious bodily injury.
402.319(2)	2nd	Misrepresentation and negligence or intentional act resulting in great bodily harm, permanent disfiguration, permanent disability, or death.
409.920 (2)(b)1.a.	3rd	Medicaid provider fraud; $10,000 or less.
409.920 (2)(b)1.b.	2nd	Medicaid provider fraud; more than $10,000, but less than $50,000.
456.065(2)	3rd	Practicing a health care profession without a license.
456.065(2)	2nd	Practicing a health care

		profession without a license which results in serious bodily injury.
458.327(1)	3rd	Practicing medicine without a license.
459.013(1)	3rd	Practicing osteopathic medicine without a license.
460.411(1)	3rd	Practicing chiropractic medicine without a license.
461.012(1)	3rd	Practicing podiatric medicine without a license.
462.17	3rd	Practicing naturopathy without a license.
463.015(1)	3rd	Practicing optometry without a license.
464.016(1)	3rd	Practicing nursing without a license.
465.015(2)	3rd	Practicing pharmacy

		without a license.
466.026(1)	3rd	Practicing dentistry or dental hygiene without a license.
467.201	3rd	Practicing midwifery without a license.
468.366	3rd	Delivering respiratory care services without a license.
483.828(1)	3rd	Practicing as clinical laboratory personnel without a license.
483.901(7) ~~483.901(9)~~	3rd	Practicing medical physics without a license.
484.013(1)(c)	3rd	Preparing or dispensing optical devices without a prescription.
484.053	3rd	Dispensing hearing aids without a license.
494.0018(2)	1st	Conviction of any violation of chapter 494

		in which the total money and property unlawfully obtained exceeded $50,000 and there were five or more victims.
560.123(8)(b)1.	3rd	Failure to report currency or payment instruments exceeding $300 but less than $20,000 by a money services business.
560.125(5)(a)	3rd	Money services business by unauthorized person, currency or payment instruments exceeding $300 but less than $20,000.
655.50(10)(b)1.	3rd	Failure to report financial transactions exceeding $300 but less than $20,000 by financial institution.
775.21(10)(a)	3rd	Sexual predator; failure to register; failure to renew driver license or identification card; other registration violations.

775.21(10)(b)	3rd	Sexual predator working where children regularly congregate.
775.21(10)(g)	3rd	Failure to report or providing false information about a sexual predator; harbor or conceal a sexual predator.
782.051(3)	2nd	Attempted felony murder of a person by a person other than the perpetrator or the perpetrator of an attempted felony.
782.07(1)	2nd	Killing of a human being by the act, procurement, or culpable negligence of another (manslaughter).
782.071	2nd	Killing of a human being or unborn child by the operation of a motor vehicle in a reckless manner (vehicular homicide).

782.072	2nd	Killing of a human being by the operation of a vessel in a reckless manner (vessel homicide).
784.045(1)(a)1.	2nd	Aggravated battery; intentionally causing great bodily harm or disfigurement.
784.045(1)(a)2.	2nd	Aggravated battery; using deadly weapon.
784.045(1)(b)	2nd	Aggravated battery; perpetrator aware victim pregnant.
784.048(4)	3rd	Aggravated stalking; violation of injunction or court order.
784.048(7)	3rd	Aggravated stalking; violation of court order.
784.07(2)(d)	1st	Aggravated battery on law enforcement officer.
784.074(1)(a)	1st	Aggravated battery on sexually violent predators

		facility staff.
784.08(2)(a)	1st	Aggravated battery on a person 65 years of age or older.
784.081(1)	1st	Aggravated battery on specified official or employee.
784.082(1)	1st	Aggravated battery by detained person on visitor or other detainee.
784.083(1)	1st	Aggravated battery on code inspector.
787.06(3)(a)2.	1st	Human trafficking using coercion for labor and services of an adult.
787.06(3)(e)2.	1st	Human trafficking using coercion for labor and services by the transfer or transport of an adult from outside Florida to within the state.
790.07(4)	1st	Specified weapons

		violation subsequent to previous conviction of s. 790.07(1) or (2).
790.16(1)	1st	Discharge of a machine gun under specified circumstances.
790.165(2)	2nd	Manufacture, sell, possess, or deliver hoax bomb.
790.165(3)	2nd	Possessing, displaying, or threatening to use any hoax bomb while committing or attempting to commit a felony.
790.166(3)	2nd	Possessing, selling, using, or attempting to use a hoax weapon of mass destruction.
790.166(4)	2nd	Possessing, displaying, or threatening to use a hoax weapon of mass destruction while committing or attempting to commit a felony.

790.23	1st,PBL	Possession of a firearm by a person who qualifies for the penalty enhancements provided for in s. 874.04.
794.08(4)	3rd	Female genital mutilation; consent by a parent, guardian, or a person in custodial authority to a victim younger than 18 years of age.
796.05(1)	1st	Live on earnings of a prostitute; 2nd offense.
796.05(1)	1st	Live on earnings of a prostitute; 3rd and subsequent offense.
800.04(5)(c)1.	2nd	Lewd or lascivious molestation; victim younger than 12 years of age; offender younger than 18 years of age.
800.04(5)(c)2.	2nd	Lewd or lascivious molestation; victim 12 years of age or older but

		younger than 16 years of age; offender 18 years of age or older.
800.04(5)(e)	1st	Lewd or lascivious molestation; victim 12 years of age or older but younger than 16 years; offender 18 years or older; prior conviction for specified sex offense.
806.01(2)	2nd	Maliciously damage structure by fire or explosive.
810.02(3)(a)	2nd	Burglary of occupied dwelling; unarmed; no assault or battery.
810.02(3)(b)	2nd	Burglary of unoccupied dwelling; unarmed; no assault or battery.
810.02(3)(d)	2nd	Burglary of occupied conveyance; unarmed; no assault or battery.
810.02(3)(e)	2nd	Burglary of authorized

		emergency vehicle.
812.014(2)(a)1.	1st	Property stolen, valued at $100,000 or more or a semitrailer deployed by a law enforcement officer; property stolen while causing other property damage; 1st degree grand theft.
812.014(2)(b)2.	2nd	Property stolen, cargo valued at less than $50,000, grand theft in 2nd degree.
812.014(2)(b)3.	2nd	Property stolen, emergency medical equipment; 2nd degree grand theft.
812.014(2)(b)4.	2nd	Property stolen, law enforcement equipment from authorized emergency vehicle.
812.0145(2)(a)	1st	Theft from person 65 years of age or older; $50,000 or more.

812.019(2)	1st	Stolen property; initiates, organizes, plans, etc., the theft of property and traffics in stolen property.
812.131(2)(a)	2nd	Robbery by sudden snatching.
812.133(2)(b)	1st	Carjacking; no firearm, deadly weapon, or other weapon.

838.22	2nd	Bid tampering.
843.0855(2)	3rd	Impersonation of a public officer or employee.
843.0855(3)	3rd	Unlawful simulation of legal process.
843.0855(4)	3rd	Intimidation of a public officer or employee.

847.0135(3)	3rd	Solicitation of a child, via a computer service, to commit an unlawful sex act.
847.0135(4)	2nd	Traveling to meet a minor to commit an unlawful sex act.
872.06	2nd	Abuse of a dead human body.
874.05(2)(b)	1st	Encouraging or recruiting person under 13 to join a criminal gang; second or subsequent offense.
874.10	1st,PBL	Knowingly initiates, organizes, plans, finances, directs, manages, or supervises criminal gang-related activity.
893.13(1)(c)1.	1st	Sell, manufacture, or deliver cocaine (or other drug prohibited under s. 893.03(1)(a), (1)(b),

		(1)(d), (2)(a), (2)(b), or (2)(c)4.) within 1,000 feet of a child care facility, school, or state, county, or municipal park or publicly owned recreational facility or community center.
893.13(1)(e)1.	1st	Sell, manufacture, or deliver cocaine or other drug prohibited under s. 893.03(1)(a), (1)(b), (1)(d), (2)(a), (2)(b), or (2)(c)4., within 1,000 feet of property used for religious services or a specified business site.
893.13(4)(a)	1st	Deliver to minor cocaine (or other s. 893.03(1)(a), (1)(b), (1)(d), (2)(a), (2)(b), or (2)(c)4. drugs).
893.135(1)(a)1.	1st	Trafficking in cannabis, more than 25 lbs., less than 2,000 lbs.

893.135 (1)(b)1.a.	1st	Trafficking in cocaine, more than 28 grams, less than 200 grams.
893.135 (1)(c)1.a.	1st	Trafficking in illegal drugs, more than 4 grams, less than 14 grams.
893.135 (1)(c)2.a.	1st	Trafficking in hydrocodone, 14 grams or more, less than 28 grams.
893.135 (1)(c)2.b.	1st	Trafficking in hydrocodone, 28 grams or more, less than 50 grams.
893.135 (1)(c)3.a.	1st	Trafficking in oxycodone, 7 grams or more, less than 14 grams.
893.135 (1)(c)3.b.	1st	Trafficking in oxycodone, 14 grams or more, less than 25 grams.
893.135(1)(d)1.	1st	Trafficking in phencyclidine, more than 28 grams, less than 200 grams.

893.135(1)(e)1.	1st	Trafficking in methaqualone, more than 200 grams, less than 5 kilograms.
893.135(1)(f)1.	1st	Trafficking in amphetamine, more than 14 grams, less than 28 grams.
893.135 (1)(g)1.a.	1st	Trafficking in flunitrazepam, 4 grams or more, less than 14 grams.
893.135 (1)(h)1.a.	1st	Trafficking in gamma-hydroxybutyric acid (GHB), 1 kilogram or more, less than 5 kilograms.
893.135 (1)(j)1.a.	1st	Trafficking in 1,4-Butanediol, 1 kilogram or more, less than 5 kilograms.
893.135 (1)(k)2.a.	1st	Trafficking in Phenethylamines, 10 grams or more, less than 200 grams.

893.1351(2)	2nd	Possession of place for trafficking in or manufacturing of controlled substance.
896.101(5)(a)	3rd	Money laundering, financial transactions exceeding $300 but less than $20,000.
896.104(4)(a)1.	3rd	Structuring transactions to evade reporting or registration requirements, financial transactions exceeding $300 but less than $20,000.
943.0435(4)(c)	2nd	Sexual offender vacating permanent residence; failure to comply with reporting requirements.
943.0435(8)	2nd	Sexual offender; remains in state after indicating intent to leave; failure to comply with reporting requirements.
943.0435(9)(a)	3rd	Sexual offender; failure

		to comply with reporting requirements.
943.0435(13)	3rd	Failure to report or providing false information about a sexual offender; harbor or conceal a sexual offender.
943.0435(14)	3rd	Sexual offender; failure to report and reregister; failure to respond to address verification; providing false registration information.
944.607(9)	3rd	Sexual offender; failure to comply with reporting requirements.
944.607(10)(a)	3rd	Sexual offender; failure to submit to the taking of a digitized photograph.
944.607(12)	3rd	Failure to report or providing false information about a sexual offender; harbor or conceal a sexual offender.

944.607(13)	3rd	Sexual offender; failure to report and reregister; failure to respond to address verification; providing false registration information.
985.4815(10)	3rd	Sexual offender; failure to submit to the taking of a digitized photograph.
985.4815(12)	3rd	Failure to report or providing false information about a sexual offender; harbor or conceal a sexual offender.
985.4815(13)	3rd	Sexual offender; failure to report and reregister; failure to respond to address verification; providing false registration information.

Section 23. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 944
INTRODUCER:	Senators Richter and Gaetz
SUBJECT:	Out-of-state Fee Waivers for Active Duty Service Members
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Graf	Klebacha	HE	**Favorable**
2.	Smith	Elwell	AED	**Recommend: Favorable**
3.	Sikes	Kynoch	AP	**Pre-meeting**

I. Summary:

SB 944 provides for out-of-state fee waivers for active duty members of the United States Armed Forces who reside or are stationed outside of Florida. The bill specifies that tuition and fees charged to such students must not exceed the tuition and fees charged to resident students.

Additionally, the bill requires rulemaking to administer the fee waivers to the active duty members of the United States Armed Forces and reporting to maintain a record of the number and value of all such fee waivers granted.

The impact on institutional fee revenues is insignificant.

The bill takes effect July 1, 2016.

II. Present Situation:

The Florida Legislature has enacted laws to provide members of the Armed Forces access to public postsecondary education in the state.

Tuition and Fees

The term "tuition" is defined as "the basic fee charged to a student for instruction provided by a public postsecondary educational institution in this state."[1] An "out-of-state fee" is the additional fee for instruction provided by a public postsecondary educational institution charged to a student who does not qualify for the in-state tuition rate."[2]

[1] Section 1009.01(1), F.S. Additionally, the definition states that "[a] charge for any other purpose shall not be included within this fee." *Id.*

[2] Section 1009.01(2), F.S. Adding that "[a] charge for any other purpose shall not be included within this fee." *Id.*

A student who is classified as a "resident for tuition purposes" is a student who qualifies for the in-state tuition rate.[3] A "non-resident for tuition purposes" is defined as a "person who does not qualify for the in-state tuition rate,"[4] and pays the out-of-state fee in addition to tuition.

Current law affords in-state tuition benefits to members of the United States military through either fee waivers or resident status for tuition purposes.

In-state Tuition

Fee Waivers

Florida law affords waivers[5] from fees to certain students who meet specified criteria including, but not limited to, certain members of the United States military. For instance, state universities, Florida College System (FCS) institutions, and technical centers must waive tuition for undergraduate college credit programs and career certificate programs, as applicable, for recipients of a Purple Heart or another combat decoration superior in precedence.[6] Additionally, honorably discharged veterans of the United States Armed Forces, the United States Reserved Forces, or the National Guard who meet certain conditions are eligible for out-of-state fee waiver benefits through the Congressman C.W. "Bill" Young Veteran Tuition Waiver Program.[7]

Resident Status for Tuition Purposes

Active duty members of the Armed Services of the United States residing or stationed in Florida, and their spouses and dependent children, and active drilling members of the Florida National Guard are considered Florida residents for tuition purposes[8] and accordingly receive in-state tuition and student financial aid benefits. Such benefits also apply to active duty members of the Armed Services of the United States and their spouses and dependents attending an FCS institution or state university within 50 miles of the military establishment where they are stationed, if such military establishment is within a county contiguous to Florida.[9]

III. Effect of Proposed Changes:

This bill waives the out-of-state fee for active duty members of the United States Armed Forces who reside in or are stationed outside of Florida. In effect, the bill extends in-state tuition benefits, through a fee waiver approach, to the specified United States Armed Forces members. The out-of-state fee waivers may apply to undergraduate and graduate degree programs.

Additionally, similar to the Congressman C.W. "Bill" Young Veteran Tuition Waiver Program requirements, the bill requires:

- Tuition and fees charged to a student who qualifies for the out-of-state fee waiver for the specified active duty members of the United States Armed Forces must not exceed the tuition and fees charged to a resident student.

[8] Section 1009.21(10)(a), F.S.
[9] Section 1009.21(10)(b), F.S.

- Each state university, Florida College System institution, and technical center to report to the Board of Governors (BOG) and the State Board of Education (SBE), as applicable, the number and value of all fee waivers granted to the active duty members of the United States Armed Forces.
- The BOG and the SBE to adopt regulations and rules, respectively, to administer the out-of-state fee waivers for active duty members of the United States Armed Forces.

This waiver will primarily affect active duty members of the Armed Forces who enroll in distance learning courses while stationed outside of Florida on military establishments farther than 50 miles from an FCS institution or state university, if the military establishment is not in a county contiguous to Florida.

The bill takes effect July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

SB 944 provides for out-of-state fee waivers for active duty members of the United States Armed Forces who reside or who are stationed outside of Florida. Students who qualify for this waiver will experience cost savings associated with their programs of study at state universities, Florida College System (FCS) institutions, and technical centers. This waiver applies to both undergraduate and graduate education. At a state university system institution, an average of $465.59 will be saved for each undergraduate credit hour and an average of $599.07 will be saved for each graduate credit hour taken by eligible servicemembers. [10]

[10] Board of Governors, 2016 Agency Legislative Bill Analysis for SB 944 (Jan. 13, 2016), at 2, on file with the Appropriations Subcommittee on Education staff.

C. Government Sector Impact:

State universities, Florida College System institutions, and technical centers will potentially forgo out-of-state fee revenue for the specified students. The Florida Board of Governors estimates the state universities could potentially see a decrease of $248,000 in tuition revenues. [11] According to the Florida Department of Education, FCS institutions and technical centers may see a reduction in out-of-state tuition and fee revenues generated by non-resident students, but the amount is indeterminable at this time. [12]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 1009.26 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

By Senator Richter

23-00505-16 2016944__

A bill to be entitled

An act relating to out-of-state fee waivers for active duty service members; amending s. 1009.26, F.S.; requiring state universities, Florida College System institutions, and certain centers to waive out-of-state fees for active duty members of the United States Armed Forces residing or stationed outside of this state; prohibiting tuition and fees charged to such students from exceeding a specified amount; requiring an annual report of all out-of-state fee waivers for such individuals; requiring the Board of Governors and the State Board of education to adopt related regulations and rules; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (14) is added to section 1009.26, Florida Statutes, to read:

1009.26 Fee waivers.—

(14)(a) A state university, Florida College System institution, career center operated by a school district under s. 1001.44, or charter technical career center shall waive out-of-state fees for a person who is an active duty member of the Armed Forces of the United States residing or stationed outside of this state.

(b) Tuition and fees charged to a student who qualifies for the out-of-state fee waiver under this subsection may not exceed the tuition and fees charged to a resident student.

23-00505-16 2016944__

(c) Each state university, Florida College System institution, career center operated by a school district under s. 1001.44, and charter technical career center shall report to the Board of Governors and the State Board of Education, respectively, the number and value of all fee waivers granted annually under this subsection.

(d) The Board of Governors and the State Board of Education shall respectively adopt regulations and rules to administer this subsection.

Section 2. This act shall take effect July 1, 2016.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 970
INTRODUCER:	Banking and Insurance Committee and Senator Richter
SUBJECT:	Unclaimed Property
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Matiyow	Knudson	BI	**Fav/CS**
2.	Davis	Cibula	JU	**Favorable**
3.	Fournier	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 970 amends the Florida Disposition of Unclaimed Property Act (the act). Unclaimed property consists of any funds or other property, including insurance proceeds, that remain unclaimed by the owner for a certain period of time. The act requires holders of unclaimed property to exercise due diligence to locate owners and pay them the funds. If the owner cannot be located, the holder must report and remit the unclaimed property to the Department of Financial Services (DFS) Bureau of Unclaimed Property. The bill makes the following changes to the act:

- Eliminates several exceptions to the general 20-percent fee cap on the compensation that may be paid to a claimant's representative who recovers unclaimed property;
- Requires that the purchase agreement for unclaimed property which compensates the buyer through a flat fee show the fee as a percentage of the property;
- Requires DFS to deny a claim for unclaimed property submitted by a purchaser of the property if the purchase agreement shows that the property was discounted by more than 20 percent;
- Requires that agreements to recover unclaimed property other than an original limited power of attorney be executed by the claimant no earlier than the date the claimant executed the original limited power of attorney;
- Requires a claim for unclaimed property to include certified copies of all court pleadings to establish entitlement to the property which were filed within 180 days before the claim form is signed;

- Repeals a provision giving DFS the exclusive right to notify owners of the existence of unclaimed property valued at more than $250 within the first 45 days after the property is added to the unclaimed property database;
- Requires unclaimed property in a campaign account for public office to escheat to the state;
- Increases from $5,000 to $10,000 the aggregate value of the unclaimed property held by DFS which may be claimed by the beneficiary of the estate of a deceased owner without initiating probate proceedings;
- Authorizes DFS to estimate the value of unclaimed property held by the holder of the property if the holder fails to provide records after being requested to do so; and
- Increases to 30 days from 10 days the time by which a purchaser of unclaimed property must pay the seller, and voids the claim by the purchaser, if proof of payment is not filed with DFS.

The bill does not affect any state or local tax or fee. It provides that unclaimed property in a campaign account will escheat to the state and the proceeds will be deposited in the State School Trust Fund. The Revenue Estimating Conference has not analyzed the bill**.**

The bill has a July 1, 2016 effective date.

II. Present Situation:

Unclaimed Property

According to the Bureau of Unclaimed Property, in Fiscal Year 2014-2015 the bureau processed over 500,000 claims and returned $253 million worth of property to Floridians.[1] Unclaimed property comprises any funds or other property, tangible or intangible, that have remained unclaimed by the owner for more than 5 years. Unclaimed property may include savings and checking accounts, money orders, travelers' checks, uncashed payroll or cashiers' checks, stocks, bonds, other securities, insurance policy payments, refunds, security and utility deposits, and contents of safe deposit boxes.[2]

In 1987, Florida adopted the Uniform Unclaimed Property Act[3] and enacted the Florida Disposition of Unclaimed Property Act (ch. 717, F.S., "the act").[4] The act serves to protect the interests of missing owners of property, while the state derives a benefit from the unclaimed and abandoned property until the property is claimed, if ever. Under the act, the Department of Financial Services, Bureau of Unclaimed Property (DFS) is responsible for receiving property, attempting to locate the rightful owners, and returning the property or proceeds to them. There is no statute of limitations in the act, and citizens may claim their property at any time and at no cost.

[2] Sections 717.104 – 717.116, F.S.
[3] UNIFORM LAW COMMISSION, *Unclaimed Property Act (1952)(1981)*, http://www.uniformlaws.org/Act.aspx?title=Unclaimed Property Act (1952)(1981) (last visited Feb. 15, 2016).
[4] Chapter 87-105, Laws of Fla. See also UNIFORM LAW COMMISSION, *Unclaimed Property Act Summary*, http://www.uniformlaws.org/ActSummary.aspx?title=Unclaimed%20Property%20Act (last visited Feb. 15, 2016).

Generally, all intangible property, including any income less any lawful charges, which is held in the ordinary course of the holder's business, is presumed to be unclaimed when the owner fails to claim the property for more than 5 years after the property becomes payable or distributable, unless otherwise provided in the act.[5] Holders of unclaimed property (which typically include banks and insurance companies) of $50 or more are required to use due diligence to locate and notify apparent owners of inactive accounts, at least 60 days but not more than 120 days, prior to filing a report with DFS.[6] If the owners cannot be located, holders must file an annual report with DFS for all property, valued at $50 or more, which is presumed unclaimed for the preceding year.[7] The report must contain certain identifying information, such as the apparent owner's name, social security number or federal employer identification number, and last known address of apparent owners.[8] The holder must deliver all reportable unclaimed property to DFS when it submits its annual report.[9]

Upon the payment or delivery of unclaimed property to DFS, the state assumes custody and responsibility for the safekeeping of the property.[10] The original property owner retains the right to recover the proceeds of the property, and any person claiming an interest in the property delivered to DFS may file a claim for the property, subject to certain requirements.[11] DFS is required to make a determination on a claim within 90 days. If a claim is determined in favor of the claimant, DFS is to deliver or pay over to the claimant the property or the amount DFS actually received or the proceeds, if it has been sold by DFS.[12]

If the property remains unclaimed, all proceeds from abandoned property are then deposited by DFS into the Unclaimed Property Trust Fund.[13] DFS is allowed to retain up to $15 million to make prompt payment on verified claims and to cover costs incurred by DFS in administering and enforcing the act. All remaining funds received must be deposited into the State School Fund to be used for public education.[14]

Claims for recovery of unclaimed property held by DFS under the act may be filed by or on behalf of any person with an interest in the property.[15] While the act provides the opportunity for anyone to recover the full value of their property at no cost, provision is made for claimants to designate someone who may perfect the claim for them. The claimant may designate and empower a representative to pursue the claim by executing a power of attorney agreement. The claimant may also sell the right to the property to certain individuals who are registered with

[5] Section 717.102(1), F.S.
[6] Section 717.117(4), F.S.
[7] Section 717.117, F.S.
[8] For unclaimed funds owing under any life or endowment insurance policy or annuity contract, the report must also include the last known address of the insured or annuitant and of the beneficiary according to records of the insurance company holding or owing the funds. Section 717.117(1)(b), F.S.
[9] Section 717.119, F.S.
[10] Section 717.1201, F.S. Like many other states' unclaimed property acts, the act is based on the common-law doctrine of escheat and is a "custody" statute, rather than a "title" statute, in that the DFS does not take title to abandoned property, but instead obtains its custody and beneficial use pending identification of the property owner.
[11] Sections 717.117 and 717.124, F.S.
[12] Section 717.124, F.S.
[13] Section 717.123, F.S.
[14] *Id.*
[15] Section 717.124, F.S.

DFS for this purpose.[16] In either case, the transaction is subject to a fee limitation, unless a disclosure statement is provided to the claimant, in the form and with the content specified in the act. The fee limitations are:

- For representatives operating under a power of attorney:[17]
  - 20 percent of the value of the property, not to exceed $1,000;
  - However, the fee limitation does not apply if the representative must initiate probate proceedings for an estate that has never been probated before or if the claimant is outside of the United States.
- For purchasers obtaining rights under a purchase agreement:[18]
  - 20 percent discount off of the value of the property, not to exceed a discount of $1,000;
  - However, the $1,000 discount limitation does not apply if the representative must initiate probate proceedings for an estate that has never been probated, if the claimant is outside of the United States or is not a natural person, such as a business or similar entity.

The act also prescribes the form and content of the purchase agreement that transfers the right of the claimant to another person and the document granting the power of attorney.

The public policy of the state is to provide DFS with the first opportunity to locate the owner of the unclaimed property and for the owner to receive the full value of his or her property.[19] There are limitations on claiming by others through powers of attorney and purchase agreements. Powers of attorney and purchase agreements that are executed less than 45 days after the property is received by the DFS and that relate to accounts over $250 in value are void under the act.[20] The 45 day limit on the claims provides DFS the opportunity to attempt to locate the property's owner. However, placing time and value limits on claim eligibility requires DFS to track accounts and audit claims to identify the amount and timing of the claims. The DFS reports that this is inefficient and the public purpose can be served through other provisions of the act. DFS recommends repealing s. 717.1381, F.S., to eliminate administrative inefficiency.[21]

---

[16] Only a Florida licensed attorney, a licensed Florida certified public accountant, a private investigator or an employee of a private investigator, or an employer of the private investigator if the employer holds a Class "A" license under ch. 493, F.S., may execute such purchase agreements. s. 717.1351, F.S. Additionally, the purchaser must be registered with DFS. DFS reports that there are currently 246 registrants under this provision. Florida Department of Financial Services, *Agency Analysis of 2016 SB 970*, p. 3 (Dec. 14, 2015) (on file with the Senate Committee on Judiciary).

[17] Section 717.135, F.S., requires the disclosure that the property is held by the DFS pursuant to the act, the mailing and Internet addresses of DFS, the person or name of the entity that held the property prior to the property becoming unclaimed, the date of the holder's last contact with the owner, if known, and the approximate value of the property, and the categories of unclaimed property the claimant's representative is seeking to recover. The categories of unclaimed property are: cash accounts; stale dated checks; life insurance or annuity contract assets; utility deposits; securities or other interests in business associations; wages; accounts receivable; and contents of safe-deposit boxes.

[18] Section 717.1351, F.S. The content of the disclosure statement has the same elements as the disclosure described in s. 717.135, F.S., related to powers of attorney. However, the fee limitation does not apply if the representative must initiate probate proceedings for an estate that has never been probated, if the claimant is outside of the United States or is not a natural person, such as a business or similar entity.

[19] Sections 717.118 and 717.1381, F.S.

[20] Section 717.1381, F.S.

[21] Florida Department of Financial Services, *Agency Analysis of 2016 SB 970*, p. 3 (Dec. 14, 2015) and email from Elizabeth Boyd, Director of Legislative Affairs, Department of Financial Services, *Re: 45 Day Issue* (Jan. 27, 2016) (on file with the Senate Committee on Judiciary).

Unclaimed Campaign Funds

Section 106.141, F.S., requires candidates for public office to dispose of the funds in their campaign account within 90 days after the date that their candidacy ended.[22] Paragraph 106.141(4)(a), F.S., specifies a variety of options for the disposal of surplus campaign funds. With certain exceptions, candidates may take any combination of the following actions when disposing of the surplus:

- Returning, pro rata to each contributor, the funds that have not been spent or obligated;
- Donating the funds that have not been spent or obligated to a charitable organization or organizations that meet the qualifications of s. 501(c)(3) of the Internal Revenue Code;
- Giving not more than $25,000 of the funds that have not been spent or obligated to the affiliated party committee or political party of which such candidate is a member; or
- Giving the funds that have not been spent or obligated:
  - In the case of a candidate for state office, to the state, to be deposited in either the Election Campaign Financing Trust Fund or the General Revenue Fund, as designated by the candidate; or
  - In the case of a candidate for an office of a political subdivision, to such political subdivision, to be deposited in the general fund thereof.

If the candidate accepted contributions under the Florida Election Campaign Financing Act, the surplus funds must be returned to the General Revenue Fund, after satisfying certain monetary obligations. If the candidate takes office, they may transfer a limited amount of the funds to his or her office account.

Violations of the campaign finance law are subject to criminal penalties, both misdemeanors and felonies. Failure to properly dispose of surplus campaign funds is a first degree misdemeanor punishable by up to a year in jail and/or a fine of $1,000. Candidates are prohibited from accepting campaign contributions following the end of their candidacy. They are allowed to receive and deposit refund checks to be disposed of consistent with the requirements of law, as described above.

Chapter 717, F.S., does not address the treatment of unclaimed funds in the name of a campaign account. The department sees a small number of accounts reported each year in the name of a political candidate or campaign. Because a campaign ceases to exist at the end of the election cycle, there is no entity eligible to claim the funds.[23]

III. Effect of Proposed Changes:

Section 1 revises the definitions of "business association," "domicile," and "insurance company" to simplify their text and improve understanding. Limited liability companies are specifically included in the definition of "business association." A definition of "United States" is created to specify the meaning of that term, which is currently used throughout the act to determine various rights and conditions.

[22] The triggers for disposition are when the candidate withdraws their candidacy, becomes an unopposed candidate, is eliminated, or is elected. Section 106.141(1), F.S.

[23] Dept. of Financial Services, *Senate Bill 970 Analysis* (Dec. 14, 2015)(on file with the Senate Committee on Finance and Tax).

Section 2 of the bill provides that, if unclaimed property is owned by the campaign account of a candidate for public office, following a report of the property to the DFS, the property shall become the property of the state and the proceeds of the property shall be paid into the State School Fund.

Section 3 redefines what the value of a small estate account is. Generally, a claim for property related to the estate of a deceased person must be accompanied by an order from a probate court. However, there are exceptions for estates having an aggregate value of $5,000 or less if no probate proceeding is pending.[24] This section amends s. 717.1243, F.S., to increase the maximum threshold value of this small estate provision to $10,000 from $5,000.

Section 4 amends s. 717.1262, F.S., the provisions dealing with court documents. The section currently requires that a claimant whose right to property is based on a court document file a certified copy of the relevant court document with DFS. This section expands the requirement to include all pleadings filed with the court to establish the property right which were filed within the 180 days preceding the signing of the claim form.

Section 5 amends s. 717.1333, F.S., to authorize DFS to estimate the amount of unclaimed property held and due to DFS if the holder fails to produce records following a request by DFS. Currently, the holder of unclaimed property is obligated to report the value of property to DFS. If the holder's records are insufficient to permit preparation of the required report, the value of the property may be estimated. However, there is currently no authority for DFS to estimate the value of the property when the holder fails to produce the record.

Section 6 amends s. 717.135, F.S., which requires a claimant's representative to either give notice to a property owner that unclaimed property is held by the DFS Bureau of Unclaimed Property or limit the fees that a claimant's representative earns under a power of attorney to recover unclaimed property to 20 percent of the unclaimed property, not to exceed $1,000. The bill applies the requirements of the section to claims where probate proceedings must be initiated on behalf of a claimant for an estate that has never been probated. The bill also applies the requirements of the section to claims made by a person outside the United States.

Section 717.135, F.S., also requires a specific form be used to execute a limited power of attorney that discloses to the property owner the dollar value of the property and the percent of the property that is being paid to the property, and additional disclosures. The bill removes a provision in current law that allows a property locator that charges a flat fee to not include in the limited power of attorney form the percent of the property paid as compensation to the property locator.

Sections 6 and 7 require any authorization or agreement for the recovery or purchase of property to be personally signed and dated by the claimant. The date of the authorization or agreement cannot precede the date on the grant of limited power of attorney or purchase agreement. The effect is to have a compliant power of attorney or purchase agreement be the first agreement in the case. This facilitates getting the disclosure, if one is going to be used to remove the fee cap, in front of the claimant during the first step in the claims process. The change is meant to address

[24] Section 717.1243, F.S.

the problem of claimants being presented and obligated to noncompliant authorizations or agreements, only to later execute a compliant agreement, which misrepresents the factual circumstances of the representation and the lawfulness of the fee to DFS. The bill requires a copy of such authorizations or agreements to be filed with DFS along with the other required documents. Additionally, the bill requires DFS to deny any claim where the representative under an authorization or agreement refuses to reduce its fee to the maximum allowed by law, i.e., 20 percent of the value of the property, if the disclosure was required but not provided to the claimant timely. Taken together, the provisions of the bill creating ss. 717.135(5) and 717.1351(8), F.S., would allow the fee cap to be lifted when the specified disclosure is made at the time of the first engagement of services. Failure to do so limits fees to 20 percent of the value of the property or requires DFS' denial of the claim.

Section 7 amends s. 717.1351, F.S., which governs contracts to acquire ownership of unclaimed property from the person entitled to the unclaimed property. Current law limits the purchase price that may be offered if the purchaser does not disclose to the owner of unclaimed property that the property is being held by the Bureau of Unclaimed Property. If such notice is not provided, the purchase price may not discount the value of the unclaimed property more than 20 percent, up to a maximum discounted purchase price of $1,000. The bill applies the requirements of the section to purchase agreements where probate proceedings must be initiated on behalf of a seller for an estate that has never been probated. The bill also applies the requirements of the section to sellers located outside the United States.

Currently, s. 717.1351, F.S., requires that purchase agreements specify the percent of the property to be paid to the purchaser on a discrete line item of the purchase agreement pursuant to the form and content requirements of the act. However, this line may be deleted if the purchaser is paid a flat fee instead of a percentage of the recovery. The bill eliminates this exception and requires every purchase agreement to include the required text regarding the percent of the property to be paid to the purchaser and the insertion of the appropriate percentage figure, which varies depending upon the amount of the flat fee and the value of the property to be recovered.

The bill also expands the time period a purchaser of unclaimed property has to remit the purchase price to the seller to 30 days from 10 days after the execution of the purchase contract. The bill expands the requirement that the purchaser file with the DFS proof that the seller received the purchase price to include all forms of payment, rather than just payment by check. The bill also provides that if proof of payment is not provided, the claim is void.

Section 8 repeals s. 717.1381, F.S. This eliminates the 45 day waiting period for claims over $250 in value that are handled by a representative or purchaser. DFS reports that it will be able to maintain a waiting period using its authority under s. 717.117(3), F.S., and that the administrative efficiency will be improved by not having to audit claim filings for the timing of agreements and value of the claim for compliance with the repealed limitation.[25]

Section 9 retains the portion of legislative intent in s. 717.1381, F.S., regarding the right of the claimant to recover his or her property without charge, by moving it to s. 717.139, F.S. However,

[25] Supra note 20.

it does not preserve the legislative intent statement regarding the obligation of DFS to make a meaningful attempt to locate the claimant.

Section 10 deletes the authorization for registrants to receive social security numbers. Currently, individuals who register with DFS as potential purchasers under the act are permitted to receive the social security numbers of apparent property owners of property reported to DFS. This is in addition to other information related to the unclaimed property.

Section 11 provides an effective date of July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

CS/SB 970 allows for small estates up to $10,000 to file an affidavit with the department for a claim made by a beneficiary.

C. Government Sector Impact:

The bill requires unclaimed property in a campaign account for public office to escheat to the state. The Revenue Estimating Conference has not analyzed this bill.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 717.101, 717.1243, 717.1262, 717.1333, 717.135, 717.1351, 717.139, and 717.1400.

This bill creates section 717.1235 of the Florida Statutes.

This bill repeals section 717.1381 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Banking and Insurance on February 9, 2016:

- Removes the section of the bill relating to "surplus trustees";
- Requires each court pleading filed within 180 days prior to a claim for unclaimed property to be filed with the Department of Financial Services;
- Requires all authorizations or agreements for representation regarding a claim for unclaimed property to meet specified requirements regarding accurate and personal completion by the claimant and allows for a claim to be denied if such agreements exceed the fee cap;
- Increases the maximum number of days for a claimant to be paid following a purchase agreement from 10 days to 30 days from the date of execution and voids the claim if proof of payment is not filed with the DFS;
- Restores a statement of legislative intent found in s.717.1381, F.S.
- Removes the section of the bill that expressed intent to apply a portion of the bill retroactively;
- Removes the section of the bill that deleted the $1,000 fee cap on agreements to recover or purchase unclaimed property that do not provide specified disclosures; and
- Removes the section of the bill requiring a registration fee for claimant representatives.

B. Amendments:

None.

By the Committee on Banking and Insurance; and Senator Richter

597-03219-16 2016970c1

A bill to be entitled

An act relating to unclaimed property; amending s. 717.101, F.S.; revising and providing definitions; creating s. 717.1235, F.S.; requiring unclaimed funds reported in the name of specified campaigns for public office to be deposited with the Chief Financial Officer to the credit of the State School Trust Fund; amending s. 717.1243, F.S.; revising the aggregate value that constitutes a small estate account; amending s. 717.1262, F.S.; requiring certain persons claiming entitlement to unclaimed property to file certified copies of specified pleadings with the Department of Financial Services; amending s. 717.1333, F.S.; revising requirements for the estimation of certain amounts due to the department; amending s. 717.135, F.S.; revising applicability; deleting a provision that allows specified wording on a certain power of attorney; providing requirements for a certain authorization or agreement to recover unclaimed property; requiring the department to deny a claim under certain circumstances; amending s. 717.1351, F.S.; revising requirements and conditions for contracts to acquire ownership of or entitlement to property; deleting a provision that allows specified wording on a purchase agreement; providing requirements for a certain authorization or agreement to purchase unclaimed property; requiring the department to deny a claim under certain circumstances; repealing s. 717.1381, F.S., relating to void unclaimed property powers of attorney and purchase agreements; amending s. 717.139, F.S.; providing legislative intent; amending s. 717.1400,

597-03219-16 2016970c1

F.S.; removing authorization for certain private investigators, public accountants, and attorneys to obtain social security numbers; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (4), (8), and (13) of section 717.101, Florida Statutes, are amended, present subsection (24) of that section is renumbered as subsection (25), and a new subsection (24) is added to that section, to read:

717.101 Definitions.—As used in this chapter, unless the context otherwise requires:

(4) "Business association" means any corporation (other than a public corporation), joint stock company, investment company, business trust, partnership, limited liability company, or association of two or more individuals for business purposes ~~of two or more individuals~~, whether ~~or not~~ for profit or not for profit~~, including a banking organization, financial organization, insurance company, dissolved pension plan, or utility~~.

(8) "Domicile" means the state of incorporation for~~, in the case of~~ a corporation incorporated under the laws of a state~~;~~ ~~,~~ or for unincorporated business associations, the state where the business association is organized ~~and the state of the principal place of business, in the case of a person not incorporated under the laws of a state~~.

(13) "Insurance company" means an association, a corporation, or a fraternal or mutual benefit organization,

whether ~~or not~~ for profit or not for profit, which is engaged in providing insurance coverage~~, including, by way of illustration and not limitation, accident, burial, casualty, credit life, contract performance, dental, fidelity, fire, health, hospitalization, illness, life (including endowments and annuities), malpractice, marine, mortgage, surety, and wage protection insurance~~.

(24) "United States" means any state, district, commonwealth, territory, insular possession, and any other area subject to the legislative authority of the United States of America.

Section 2. Section 717.1235, Florida Statutes, is created to read:

717.1235 Dormant campaign accounts; report of unclaimed property.—Unclaimed funds reported in the name of a campaign for public office which is required to dispose of surplus funds in its campaign account pursuant to s. 106.141 must be deposited with the Chief Financial Officer to the credit of the State School Trust Fund.

Section 3. Subsection (4) of section 717.1243, Florida Statutes, is amended to read:

717.1243 Small estate accounts.—

(4) This section only applies if all of the unclaimed property held by the department on behalf of the owner has an aggregate value of $10,000 ~~$5,000~~ or less and no probate proceeding is pending.

Section 4. Section 717.1262, Florida Statutes, is amended to read:

717.1262 Court documents.—Any person who claims entitlement

to unclaimed property by reason of a court document shall file a certified copy of the court document with the department. The person shall also file with the department certified copies of all pleadings to obtain a court document establishing entitlement which were filed with the court within 180 days before the date the claim form was signed by the claimant or claimant's representative.

Section 5. Subsection (2) of section 717.1333, Florida Statutes, is amended to read:

717.1333 Evidence; estimations; audit reports, examiner's worksheets, investigative reports, other related documents.—

(2) If the records of the holder which ~~that~~ are available for the periods subject to this chapter are insufficient to permit the preparation of a report of the unclaimed property due and owing by a holder, or if the holder fails to provide records after being requested to do so, the amount due to the department may be reasonably estimated.

Section 6. Subsection (2) and paragraph (g) of subsection (4) of section 717.135, Florida Statutes, are amended, present subsections (5) and (6) of that section are renumbered as subsections (6) and (7), respectively, and a new subsection (5) is added to that section, to read:

717.135 Power of attorney to recover reported property in the custody of the department.—

(2) A power of attorney described in subsection (1) must:

(a) Limit the fees and costs for services to 20 percent per unclaimed property account held by the department. Fees and costs for cash accounts shall be based on the value of the property at the time the power of attorney is signed by the

claimant. Fees and costs for accounts containing securities or other intangible ownership interests, which securities or interests are not converted to cash, shall be based on the purchase price of the security as quoted on a national exchange or other market on which the property is regularly traded at the time the securities or other ownership interest is remitted to the claimant or the claimant's representative. Fees and costs for tangible property or safe-deposit box accounts shall be based on the value of the tangible property or contents of the safe-deposit box at the time the ownership interest is transferred or remitted to the claimant. Total fees and costs on any single account owned by a natural person residing in this country must not exceed $1,000; or

(b) Fully disclose that the property is held by the Bureau of Unclaimed Property of the Department of Financial Services pursuant to this chapter, the mailing address of the bureau, the Internet address of the bureau, the person or name of the entity that held the property prior to the property becoming unclaimed, the date of the holder's last contact with the owner, if known, and the approximate value of the property, and identify which of the following categories of unclaimed property the claimant's representative is seeking to recover, as reported by the holder:

1. Cash accounts.
2. Stale dated checks.
3. Life insurance or annuity contract assets.
4. Utility deposits.
5. Securities or other interests in business associations.
6. Wages.
7. Accounts receivable.

8. Contents of safe-deposit boxes.

~~This subsection shall not apply if probate proceedings must be initiated on behalf of the claimant for an estate that has never been probated or if the unclaimed property is being claimed by a person outside of the United States.~~

(4)

(g) This section does not prohibit the:

1. Use of bolding, italics, print of different colors, and text borders as a means of highlighting or stressing certain selected items within the text.

2. Placement of the name, address, and telephone number of the representative's firm or company in the top margin above the words "POWER OF ATTORNEY." No additional writing of any kind may be placed in the top margin including, but not limited to, logos, license numbers, Internet addresses, or slogans.

3. Placement of the word "pending" prior to the words "NET AMOUNT TO BE PAID TO CLAIMANT," if it is not yet possible to determine the percentage interest of an heir or legatee prior to a determination on the issue by the probate court.

4. Deletion of the words "Number of Shares of Stock (If Applicable)" if the agreement does not relate to the recovery of securities.

~~5. Deletion of the words "Percent to Be Paid as Compensation to Claimant's Representative" if the power of attorney provides for a flat fee to be paid as compensation to the claimant's representative.~~

(5)(a) Any other authorization or agreement to recover unclaimed property which is executed by or between a claimant's

representative and claimant must be signed and personally dated by the claimant. The date affixed to the authorization or agreement by the claimant may not be earlier than the date personally affixed by the claimant to the original limited power of attorney under this section. A copy of the authorization or agreement must be filed with the original claim submitted to the department, along with the statutorily compliant original power of attorney under this section.

(b) If the claimant's representative's fee for a document described in this subsection exceeds 20 percent on any given claim, s. 717.124(1)(d) applies.

Section 7. Subsections (2) and (4), paragraph (d) of subsection (7), and subsection (8) of section 717.1351, Florida Statutes, are amended to read:

717.1351 Acquisition of unclaimed property.—

(2) All contracts to acquire ownership of or entitlement to unclaimed property from the person or persons entitled to the unclaimed property must be in 10-point type or greater and must:

(a) Have a purchase price that discounts the value of the unclaimed property at the time the agreement is executed by the seller at no greater than 20 percent per account held by the department. An unclaimed property account must not be discounted in excess of $1,000~~. However, the $1,000 discount limitation does not apply if probate proceedings must be initiated on behalf of the seller for an estate that has never been probated or if the seller of the unclaimed property is not a natural person or is a person outside the United States~~; or

(b) Fully disclose that the property is held by the Bureau of Unclaimed Property of the Department of Financial Services

pursuant to this chapter, the mailing address of the bureau, the Internet address of the bureau, the person or name of the entity that held the property prior to the property becoming unclaimed, the date of the holder's last contact with the owner, if known, and the approximate value of the property, and identify which of the following categories of unclaimed property the buyer is seeking to purchase as reported by the holder:

1. Cash accounts.
2. Stale dated checks.
3. Life insurance or annuity contract assets.
4. Utility deposits.
5. Securities or other interests in business associations.
6. Wages.
7. Accounts receivable.
8. Contents of safe-deposit boxes.

The purchase agreement described in this paragraph must state in 12-point type or greater in the order indicated with the blank spaces accurately completed:

FULL DISCLOSURE STATEMENT

The property is currently held by the State of Florida Department of Financial Services, Bureau of Unclaimed Property, pursuant to chapter 717, Florida Statutes. The mailing address of the Bureau of Unclaimed Property is ..... The Internet address of the Bureau of Unclaimed Property is .....

The property was remitted by: .....

Date of last contact: .....

Property category: .....

Immediately above the signature line for the seller, the purchase agreement described in this paragraph must state in 12-point type or greater:

Seller agrees, by signing below, that the FULL DISCLOSURE STATEMENT has been read and fully understood.

(4) Any contract to acquire ownership of or entitlement to unclaimed property from the person or persons entitled to the unclaimed property must provide for the purchase price to be remitted to the seller or sellers within 30 ~~10~~ days after the execution of the contract by the seller or sellers. The contract must specify the unclaimed property account number, the name of the holder who reported the property to the department, the category of unclaimed property, the value of the unclaimed property account, and the number of shares of stock, if applicable. Proof that the seller received ~~of~~ payment ~~by check~~ must be filed with the department with the claim. If proof of payment is not provided, the claim is void.

(7) This section does not prohibit the:

~~(d) Deletion of the words "Percent of Property to be Paid to Buyer," if the purchase agreement provides for a flat fee to~~

~~be paid as compensation to the buyer.~~

(8)(a) Any other authorization or agreement to purchase unclaimed property which is executed by or between a registrant and seller must be signed and personally dated by the seller. The date affixed to the authorization or agreement by the seller may not be earlier than the date personally affixed by the seller to the original purchase agreement under this section. A copy of the authorization or agreement must be filed with the original claim submitted to the department, along with the statutorily compliant original purchase agreement under this section.

(b) If the claimant's representative's purchase price paid to the seller on a document referred to in this subsection reduces the purchase price by more than 20 percent on any given claim, s. 717.124(1)(d) applies.

(c) This section does not supersede the licensing requirements of chapter 493.

Section 8. Section 717.1381, Florida Statutes, is repealed.

Section 9. Section 717.139, Florida Statutes, is amended to read:

717.139 Uniformity of application and construction.—Protecting the interests of owners of unclaimed property is declared to be the public policy of this state. It is in the best interests of the owners of unclaimed property that they have the opportunity to receive the full amount of the unclaimed property returned to them without deduction of any fees. This chapter shall be applied and construed as to effectuate its general purpose of protecting the interest of missing owners of property, while providing that the benefit of all unclaimed and

abandoned property shall go to all the people of the state, and to make uniform the law with respect to the subject of this chapter among states enacting it.

Section 10. Subsections (1), (2), and (3) of section 717.1400, Florida Statutes, are amended to read:

717.1400 Registration.—

(1) In order to file claims as a claimant's representative, acquire ownership of or entitlement to unclaimed property, receive a distribution of fees and costs from the department, and obtain unclaimed property dollar amounts and~~,~~ numbers of reported shares of stock~~, and social security numbers~~ held by the department, a private investigator holding a Class "C" individual license under chapter 493 must register with the department on such form as the department shall prescribe by rule, and must be verified by the applicant. To register with the department, a private investigator must provide:

(a) A legible copy of the applicant's Class "A" business license under chapter 493 or that of the applicant's firm or employer which holds a Class "A" business license under chapter 493.

(b) A legible copy of the applicant's Class "C" individual license issued under chapter 493.

(c) The business address and telephone number of the applicant's private investigative firm or employer.

(d) The names of agents or employees, if any, who are designated to act on behalf of the private investigator, together with a legible copy of their photo identification issued by an agency of the United States, or a state, or a political subdivision thereof.

(e) Sufficient information to enable the department to disburse funds by electronic funds transfer.

(f) The tax identification number of the private investigator's firm or employer which holds a Class "A" business license under chapter 493.

(2) In order to file claims as a claimant's representative, acquire ownership of or entitlement to unclaimed property, receive a distribution of fees and costs from the department, and obtain unclaimed property dollar amounts and~~,~~ numbers of reported shares of stock~~, and social security numbers~~ held by the department, a Florida-certified public accountant must register with the department on such form as the department shall prescribe by rule, and must be verified by the applicant. To register with the department a Florida-certified public accountant must provide:

(a) The applicant's Florida Board of Accountancy number.

(b) A legible copy of the applicant's current driver license showing the full name and current address of such person. If a current driver license is not available, another form of identification showing the full name and current address of such person or persons shall be filed with the department.

(c) The business address and telephone number of the applicant's public accounting firm or employer.

(d) The names of agents or employees, if any, who are designated to act on behalf of the Florida-certified public accountant, together with a legible copy of their photo identification issued by an agency of the United States, or a state, or a political subdivision thereof.

(e) Sufficient information to enable the department to

disburse funds by electronic funds transfer.

(f) The tax identification number of the accountant's public accounting firm employer.

(3) In order to file claims as a claimant's representative, acquire ownership of or entitlement to unclaimed property, receive a distribution of fees and costs from the department, and obtain unclaimed property dollar amounts and~~,~~ numbers of reported shares of stock~~, and social security numbers~~ held by the department, an attorney licensed to practice in this state must register with the department on such form as the department shall prescribe by rule, and must be verified by the applicant. To register with the department, such attorney must provide:

(a) The applicant's Florida Bar number.

(b) A legible copy of the applicant's current driver license showing the full name and current address of such person. If a current driver license is not available, another form of identification showing the full name and current address of such person or persons shall be filed with the department.

(c) The business address and telephone number of the applicant's firm or employer.

(d) The names of agents or employees, if any, who are designated to act on behalf of the attorney, together with a legible copy of their photo identification issued by an agency of the United States, or a state, or a political subdivision thereof.

(e) Sufficient information to enable the department to disburse funds by electronic funds transfer.

(f) The tax identification number of the attorney's firm or employer.

Section 11. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 984
INTRODUCER:	Higher Education Committee and Senator Legg
SUBJECT:	Education Access and Affordability
DATE:	February 24, 2016
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Graf	Klebacha	HE	**Fav/CS**
2.	Sikes	Elwell	AED	**Recommend: Favorable**
3.	Sikes	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 984 modifies requirements related to higher education textbooks and instructional materials affordability and promotes public awareness on higher education costs. Specifically, the bill:

- Expands textbook affordability provisions to include instructional materials.
- Modifies the textbook and instructional materials affordability policies, procedures, and guidelines adopted by the State Board of Education and the Board of Governors for the State University System of Florida to include new issues and specifies reporting requirements regarding textbooks and instructional materials.
- Establishes college affordability provisions to identify strategies and initiatives to reduce the cost of higher education, and specifies annual reporting requirements regarding college affordability.
- Establishes notification requirements to inform students and the public, clearly and specifically, about any upcoming institutional boards of trustees meeting at which a vote will be taken on proposed increases in tuition and fees.

The bill has no impact on state funds. The provisions of this bill may have a positive impact on the private sector by establishing several cost-saving policies and procedures for students and their families.

The bill takes effect July 1, 2016.

II. Present Situation:

The Legislature has established several mechanisms to maintain higher education access and affordability through strategies to reduce the costs associated with textbook and instructional materials and tuition and fees.

Textbook Affordability

Federal Law

The Higher Education Opportunity Act (HEOA)[1] was enacted on August 14, 2008, and reauthorizes the Higher Education Act of 1965, as amended.[2] The HEOA imposes certain disclosure provisions to "ensure that students have timely access to affordable course materials at postsecondary institutions receiving Federal financial assistance."[3] The provisions require postsecondary institutions to:[4]

- Include on their online course schedules certain information (e.g., the International Standard Book Number (ISBN) or if the ISBN is not available, the author, title, publisher, and copyright date) for required and recommended textbooks and supplemental material. Postsecondary institutions must include on its written course schedule a reference to the textbook information available online and the Internet address to the course schedule.
- Provide to their college bookstores, upon request by such bookstores, information regarding the course schedule for the subsequent academic period, required and recommended textbooks and supplemental materials, and student enrollment.

Additionally, institutions are encouraged to provide information regarding renting textbooks, purchasing used textbooks, textbook buy-back programs, and alternative content delivery programs.[5]

The HEOA also requires textbook publishers to provide certain information regarding textbook and supplemental materials to faculty in charge of selecting course materials at postsecondary institutions such as the price of the textbooks, a description of substantial content revisions, and whether the textbooks are available in other formats and the related costs to the institution and the general public.[6]

The HEOA directed the Government Accountability Office (GAO) to study the implementation of the HEOA textbook provisions.[7]

The GAO reported that "the rising costs of postsecondary education present challenges to maintaining college access and affordability."[8] Between 2002 and 2012, the cost of textbooks increased at an average of 6 percent per year while tuition and fees increased at an average of 7 percent and overall prices increased at an average of 2 percent per year.[9] Over this ten-year time period, new textbook prices increased by a total of 82 percent, tuition and fees increased by 89 percent and overall prices increased by 28 percent.[10] The implementation of HEOA's textbook provisions has afforded students and their parents increased access to clear and early information about the cost of textbooks.[11] However, "although students are the end consumers, faculty are responsible for selecting which textbooks students will need, thereby limiting students' ability to allay costs."[12] Typically, faculty prioritize selecting the most appropriate materials for their courses over pricing and format considerations.[13] Nevertheless, new products, formats, and delivery channels provide students many options for obtaining the course materials.[14]

State Law

The Florida Legislature enacted the textbook affordability law in 2008. [15] The law prohibits employees of the Florida College System (FCS) and state university system from receiving anything of value in exchange for requiring students to purchase specific textbooks for coursework and instruction, and specifies notification requirements regarding the required textbooks.[16] Each FCS institution and state university must post on its website, at least 30 days prior to the first day of class for each term, a list of each textbook required for each course offered at the institution during the upcoming term.[17] The posted list must include the ISBN for each required textbook and other relevant information necessary to identify the specific textbook or textbooks required for each course.[18]

Additionally, the textbook affordability law requires the State Board of Education (SBE) and the Board of Governors for the State University System of Florida (BOG) to adopt policies, procedures, and guidelines for implementation by FCS institutions and state universities, respectively, that further efforts to minimize the costs of textbooks for students attending such institutions while maintaining the quality of education and academic freedom.[19] The policies, procedures, and guidelines must provide for the following:[20]

- Textbook adoptions are made with sufficient lead time to bookstores so as to confirm availability of the requested materials and ensure maximum availability of used books.

- In the textbook adoption process, the intent to use all items ordered, is confirmed by the course instructor or academic department offering the course before the adoption is finalized.
- A course instructor or the academic department offering the course determines, before a textbook is adopted, the extent to which a new edition differs significantly and substantively from earlier versions and the value of changing to a new edition or the extent to which an open access textbook may exist and be used.
- The establishment of policies must address the availability of required textbooks to students who are otherwise unable to afford the cost, including consideration of the extent to which an open-access textbook may be used.
- Course instructors and academic departments are encouraged to participate in the development, adaptation, and review of open-access textbooks, especially open-access textbooks for high-demand general education courses.

The SBE and BOG have adopted rules and regulations, respectively, to implement the statutory provisions regarding textbook affordability.[21]

During the Spring 2012 term, the Florida Distance Learning Consortium (FDLC) conducted a survey of students from 11 state universities and 22 of the 28 FCS institutions.[22] The survey revealed that a majority of students (54%) spent over $300 on textbooks during the Spring 2012 term.[23] Nineteen percent of the students spent more than $500 on textbooks during the same period.[24] The average student purchased 1.6 textbooks that were not used during the student's academic career.[25] The survey also indicated that financial aid does not always fully cover the costs of textbooks.[26] Additionally, students were generally unaware of open textbooks and their potential for use as supplementary text or as means to reduce costs.[27]

College Affordability

Attaining higher education is a growing challenge for students and their families nationally as tuition and fees have risen faster than incomes and the Pell Grant has lost buying power over the last 30 years.[28] In 1983-1984, the maximum Pell Grant covered 52 percent of the average annual costs of attending a U.S. public four-year college as compared to 31 percent in 2013-2014.[29]

Nationwide, the average annual costs for an in-state undergraduate student to attend a public four-year college reached $18,100 in 2013-2014, which is 126 percent higher than the 1983-1984 average.[30] At public two-year colleges, the average annual cost of attendance rose 57 percent to

[29] *Id* at 103.
[30] The cost of attendance includes tuition, required fees, and room and board. *Id* at 101.

$9,300 over the 30-year period.[31] The tuition and required fees portion of the college attendance costs at public four-year colleges typically range from 35 percent to 40 percent of the full costs of attendance.[32]

In Florida, the standard tuition is $71.98 per credit hour at FCS institutions[33] and $105.07 per credit hour at state universities.[34] In addition to tuition, students pay for fees, books and supplies, room and board, and other on campus expenses. The average annual cost of attendance (COA)[35] for a full-time, Florida resident student enrolled at a state university or college living on campus has increased over the years. Specifically, during the 2014-2015 academic year, the average COA for a full-time, undergraduate Florida resident enrolled at a state university living on campus was $20,911, representing approximately 2.5 percent increase since the 2012-2013 academic year.[36] In comparison, the average COA for a full-time Florida resident enrolled at an FCS institution living on campus during the 2014-2015 academic year was $15,969, representing just over a 1 percent increase during the same period.[37] The average COA for a full-time Florida resident enrolled at a state university or FCS institution living off campus, not with his or her family, also increased slightly between the 2012-2013 and 2014-2015 academic years.[38]

The COA data reflect general estimates of higher education costs and do not factor in financial aid that students may receive.[39]

III. Effect of Proposed Changes:

This bill modifies requirements related to higher education textbooks and instructional materials affordability and promotes public awareness on higher education costs.

[31] *Id*.
[32] *Id* at 102.
[33] The standard tuition is for resident and nonresident students enrolled in advanced and professional, postsecondary vocational, developmental education, or educator preparation institute programs. Nonresident students must also pay an out-of-state fee in the amount of $215.94 per credit hour. Section 1009.23(3)(a), F.S. For students who are residents for tuition purposes and enrolled in baccalaureate degree programs at public colleges, the tuition is $91.79 per credit hour. Section 1009.23(3)(b), F.S.
[34] Section 1009.24(4)(a), F.S.
[35] The cost of attendance includes tuition and fees, books and supplies, room and board, and other on-campus expenses for full-time, first-time degree- or certificate-seeking students. The COA data are based on information submitted by the colleges and universities annually to the Integrated Postsecondary Education Data System (IPEDS). Email, Florida Department of Education, Division of Florida Colleges (Jan. 5, 2016). Federal guidelines for reporting COA data to the IPEDS is not standardized. For instance, the data for the state universities are based on a 30 credit hour student course workload compared to a 24 credit hour student course workload. Additionally, the non-tuition components of the COA are estimates that are based on institutional surveys. Email, Board of Governors (Jan. 5, 2016).
[36] Emails, Florida Department of Education, Division of Florida Colleges (Jan. 4 and 5, 2016); *see also* Email, Board of Governors (Jan. 5, 2016).
[37] Only four of the 28 Florida College System institutions report the on-campus cost of attendance data. Email, Florida Department of Education, Division of Florida Colleges (Jan. 4, 2016)
[38] Emails, Florida Department of Education, Division of Florida Colleges (Jan. 4 and 5, 2016); *see also* Email, Board of Governors (Jan. 5, 2016).
[39] Email, Board of Governors (Jan. 5, 2016).

Textbook Affordability

The bill modifies the textbook affordability law[40] to include instructional materials and defines "instructional materials" as educational materials, in either printed or digital format, which are required or recommended for use within a course. The bill also adds recommended textbooks and instructional materials to the textbook affordability provisions which are currently limited to the required textbooks only.

In addition, the bill adds instructional materials to the costs that must be excluded from the tuition for the Preeminent State Research University Institute for Online Learning.[41] In effect, the bill aligns instructional materials to the textbooks-related policies for any programs offered through the Preeminent State Research University Institute for Online Learning.

Policies and Reporting Requirements

The bill modifies the textbook and instructional materials affordability policies, procedures, and guidelines, which must be adopted by the State Board of Education (SBE) and the Board of Governors for the State University System of Florida (BOG), to include new issues addressing:

- The establishment of deadlines for instructors or departments to notify the college or university bookstore, as applicable, of the required and recommended textbooks and instructional materials so that the bookstore may verify availability and explore lower cost options and alternatives with faculty when academically appropriate.
- Consultation with school districts to identify practices that impact the cost of dual enrollment textbooks and instructional materials to the school districts, including, but not limited to, the length of time that such textbooks and instructional materials remain in use.
- Selection of textbooks and instructional materials through cost-benefit analyses that help students obtain the highest quality product at the lowest available price by considering specified options (e.g., purchasing digital textbooks in bulk, expanding the use of open-access textbooks and instructional materials, providing rental options for textbook and instructional materials, and developing mechanisms to assist in buying, renting, selling, and sharing textbooks and instructional materials).

The bill also requires each Florida College System (FCS) institution and state university board of trustees to examine each semester the cost of textbooks and instructional materials by course and course section for all general education course offerings. The purpose for such examination is to identify any variance in the cost of textbooks and instructional materials among different sections of the same course and the percentage of textbooks and instructional materials that remain in use for more than one term. Courses with a wide variance in textbooks and instructional materials costs among sections or with frequent changes in textbooks and instructional materials must be reported to the appropriate academic department chair for review. The bill specifies a July 1, 2018 deadline for repeal of these general education course provisions.

[40] Section 1004.085, F.S.

[41] A state research university must meet all 12 of the academic and research excellence standards that are specified in law, as verified by the BOG, to establish an institute for online learning for offering high quality, fully online baccalaureate degree programs. Section 1001.7065(4), F.S. Currently, the University of Florida is the only state research university to have an institute for online learning based on meeting the specified criteria. Board of Governors, *Advisory Board for UF Online*, http://www.flbog.edu/about/taskforce/uf_online_advisory.php (last visited Jan. 5, 2016).

Additionally, the bill specifies the following new reporting requirements for the boards of trustees and chancellors of Florida College System (FCS) institutions and state universities:

- The board of trustees of each FCS institution and state university must annually report, by September 30, specified textbook and instructional material information to the Chancellor of the Florida College System or the Chancellor of the State University System, as applicable (e.g., textbooks and instructional materials selection process for general education courses with a wide cost variance and high-enrollment courses, and specific initiatives of the institution to reduce the cost of textbooks and instructional materials).
- Each chancellor must submit to the SBE or the BOG, as applicable, by November 1 of each year, a summary of the specified textbook and instructional materials information provided by the institution boards of trustees.

Publishing the information related to textbooks and instructional materials will provide students and parents, on behalf of their child, greater access to such information and the ability to plan ahead for higher education in the state of Florida. Cost-benefit analyses will assist with identifying mechanisms to reduce the costs associated with textbooks and instructional materials.

Notification Requirements

The bill promotes public awareness about textbook and instructional materials costs by requiring each FCS institution and state university to prominently post in the institution's course registration system and on the institution's website, a hyperlink to lists of required and recommended textbooks and instructional materials for at least 95 percent of the courses and course sections offered by the institution during the upcoming term. The bill also changes the statutory deadline for posting the textbook information from at least 30 days to at least 45 days before the first day of class for each term, requiring the institutions to post the specified information sooner than is required under current law. Such information, made available for a majority of courses in advance of the upcoming term, will help students plan ahead for course registration and course workload.

College Affordability

The bill establishes college affordability provisions and provides students and the public, in general, greater access to information regarding tuition and fees.

Policies and Reporting Requirements

The bill requires the BOG and the SBE to annually identify college affordability strategies and initiatives that must, at a minimum, evaluate the impact of:

- Tuition and fees on undergraduate, graduate, and professional students at public colleges and universities and graduate assistants employed by public universities.
- Federal, state, and institutional financial aid policies on the actual cost of attendance for students and their families.
- The costs of textbooks and instructional materials.

The bill also eliminates the BOG's ability to delegate authority to the university boards of trustees regarding establishing tuition for graduate and professional programs and out-of-state fees for all programs. As a result, state universities, on their own, will not be able to raise the

tuition for graduate and professional programs and out-of-state fees for all programs without seeking approval from the BOG.

Additionally, the bill establishes reporting requirements for the SBE and the BOG. Each board must annually, by December 31, report on its college affordability initiatives to the Governor, President of the Senate, and Speaker of the House of Representatives.

Notification Requirements

The bill requires each FCS institution and state university to notify all enrolled students and the public about any upcoming institutional boards of trustees meetings at which a vote will be taken on proposed increases in tuition and fees. At least 28 days before the scheduled meeting, such notification must be posted on the homepage of the institution's website, issued in a press release, and must include the following:

- Date and time of the meeting.
- Specific details of the existing tuition and fees, the rationale for the proposed increase, and the use for the proposed increase.

The bill takes effect July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The various cost-saving provisions of CS/SB 984 will save students and their families an indeterminable amount of money by expanding current textbook affordability provisions to all instructional materials, requiring the Board of Governors and the State Board of Education to annually identify strategies to promote college affordability and allowing students more time to review tuition and fee increases.

C. Government Sector Impact:

The bill has no impact on state funds. The Board of Governors indicated that the implementation of the bill can be accomplished with currently available resources but would likely require additional staff time and effort. [42]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1001.7065, 1004.085, 1009.23, and 1009.24.

This bill creates section 1004.084 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Higher Education on January 11, 2016:
The committee substitute maintains the substance of SB 984 with some modifications. The strike-all amendment:

- Changed the deadline within which the institutions must post required and recommended textbooks and instructional materials information to at least 45 days before the first day of class for each term.
- Changed the percentage of courses for which such information must be posted from to 95 percent of the courses and course sections offered in the upcoming term.
- Modified the textbook and instructional materials policies to require the State Board of Education (SBE) and the Board of Governors (BOG) to establish deadlines within which instructors or departments must notify the respective college or university bookstore about the required and recommended textbooks and instructional materials.
- Modified the textbook and instructional materials reporting requirements.
- Established requirements for the boards of trustees to examine the cost of textbooks and instructional materials for all general education course offerings to identify cost variance among different sections of the same course, and specified July 1, 2018 deadline for repeal of such provisions.
- Deleted the provision requiring certain institutions to submit quarterly reports.

[42] Florida Board of Governors, 2016 Agency Legislative Bill Analysis for SB 984 (Jan. 15, 2016)

- Eliminated the BOG's ability to delegate authority to the university boards of trustees regarding establishing tuition for graduate and professional programs and out-of-state fees for all programs.
- Specified that the BOG and the SBE include in their strategies to promote college affordability, the impact of federal, state, and institutional financial aid on the actual cost of attendance for students.

B. Amendments:

None.

By the Committee on Higher Education; and Senator Legg

589-02004-16 2016984c1

A bill to be entitled

An act relating to education access and affordability; amending s. 1001.7065, F.S.; specifying that the costs of instructional materials are not included in tuition for certain online degree programs; creating s. 1004.084, F.S.; requiring the Board of Governors and the State Board of Education to annually identify strategies to promote college affordability; requiring the Board of Governors of the State University System and the State Board of Education to submit annual reports to the Governor and Legislature relating to college affordability; amending s. 1004.085, F.S.; revising provisions relating to textbook affordability to include instructional materials; defining the term "instructional materials"; specifying that Florida College System or state university employees may not receive anything of value in exchange for instructional materials; requiring Florida College System institution and state university boards of trustees to identify wide variances in the costs of, and frequency of changes in the selection of, textbooks and instructional materials for certain courses; requiring the boards of trustees to send a list of identified courses to the academic department chairs for review; providing for legislative review and repeal of specified provisions; requiring Florida College System institutions and state universities to post certain information on their websites; requiring the State Board of Education and Board of Governors to receive input from specified individuals and entities before adopting textbook and instructional materials affordability policies; requiring postsecondary

589-02004-16 2016984c1

institutions to consult with certain school districts to identify certain practices; requiring cost-benefit analyses relating to textbooks and instructional materials; providing reporting requirements; amending s. 1009.23, F.S.; requiring Florida College System institutions to provide a public notice relating to increases in tuition and fees; amending s. 1009.24, F.S.; requiring state universities to provide a public notice relating to increases in tuition and fees; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (k) of subsection (4) of section 1001.7065, Florida Statutes, is amended to read:

1001.7065 Preeminent state research universities program.—

(4) PREEMINENT STATE RESEARCH UNIVERSITY INSTITUTE FOR ONLINE LEARNING.—A state research university that, as of July 1, 2013, meets all 12 of the academic and research excellence standards identified in subsection (2), as verified by the Board of Governors, shall establish an institute for online learning. The institute shall establish a robust offering of high-quality, fully online baccalaureate degree programs at an affordable cost in accordance with this subsection.

(k) The university shall establish a tuition structure for its online institute in accordance with this paragraph, notwithstanding any other provision of law.

1. For students classified as residents for tuition purposes, tuition for an online baccalaureate degree program

shall be set at no more than 75 percent of the tuition rate as specified in the General Appropriations Act pursuant to s. 1009.24(4) and 75 percent of the tuition differential pursuant to s. 1009.24(16). No distance learning fee, fee for campus facilities, or fee for on-campus services may be assessed, except that online students shall pay the university's technology fee, financial aid fee, and Capital Improvement Trust Fund fee. The revenues generated from the Capital Improvement Trust Fund fee shall be dedicated to the university's institute for online learning.

2. For students classified as nonresidents for tuition purposes, tuition may be set at market rates in accordance with the business plan.

3. Tuition for an online degree program shall include all costs associated with instruction, materials, and enrollment, excluding costs associated with the provision of textbooks and instructional materials pursuant to s. 1004.085 and physical laboratory supplies.

4. Subject to the limitations in subparagraph 1., tuition may be differentiated by degree program as appropriate to the instructional and other costs of the program in accordance with the business plan. Pricing must incorporate innovative approaches that incentivize persistence and completion, including, but not limited to, a fee for assessment, a bundled or all-inclusive rate, and sliding scale features.

5. The university must accept advance payment contracts and student financial aid.

6. Fifty percent of the net revenues generated from the online institute of the university shall be used to enhance and

enrich the online institute offerings, and 50 percent of the net revenues generated from the online institute shall be used to enhance and enrich the university's campus state-of-the-art research programs and facilities.

7. The institute may charge additional local user fees pursuant to s. 1009.24(14) upon the approval of the Board of Governors.

8. The institute shall submit a proposal to the president of the university authorizing additional user fees for the provision of voluntary student participation in activities and additional student services.

Section 2. Section 1004.084, Florida Statutes, is created to read:

1004.084 College affordability.—

(1) The Board of Governors and the State Board of Education shall annually identify strategies to promote college affordability for all Floridians by evaluating, at a minimum, the impact of:

(a) Tuition and fees on undergraduate, graduate, and professional students at public colleges and universities and graduate assistants employed by public universities.

(b) Federal, state, and institutional financial aid policies on the actual cost of attendance for students and their families.

(c) The costs of textbooks and instructional materials.

(2) By December 31 of each year, beginning in 2016, the Board of Governors and the State Board of Education shall submit a report on their respective college affordability initiatives to the Governor, the President of the Senate, and the Speaker of

the House of Representatives.

Section 3. Section 1004.085, Florida Statutes, is amended to read:

1004.085 Textbook and instructional materials affordability.—

(1) As used in this section, the term "instructional materials" means educational materials for use within a course which may be available in printed or digital format.

(2) ~~(1)~~ An ~~No~~ employee of a Florida College System institution or state university may not demand or receive any payment, loan, subscription, advance, deposit of money, service, or anything of value, present or promised, in exchange for requiring students to purchase a specific textbook or instructional material for coursework or instruction.

(3) ~~(2)~~ An employee may receive:

(a) Sample copies, instructor copies, or instructional materials. These materials may not be sold for any type of compensation if they are specifically marked as free samples not for resale.

(b) Royalties or other compensation from sales of textbooks or instructional materials that include the instructor's own writing or work.

(c) Honoraria for academic peer review of course materials.

(d) Fees associated with activities such as reviewing, critiquing, or preparing support materials for textbooks or instructional materials pursuant to guidelines adopted by the State Board of Education or the Board of Governors.

(e) Training in the use of course materials and learning technologies.

(4) Each Florida College System institution and state university board of trustees shall, each semester, examine the cost of textbooks and instructional materials by course and course section for all general education courses offered at the institution to identify any variance in the cost of textbooks and instructional materials among different sections of the same course and the percentage of textbooks and instructional materials that remain in use for more than one term. Courses that have a wide variance in costs among sections or that have frequent changes in textbook and instructional materials selections shall be identified and a list of such courses sent to the appropriate academic department chair for review. This subsection is repealed July 1, 2018, unless reviewed and saved from repeal through reenactment by the Legislature.

(5) ~~(3)~~ Each Florida College System institution ~~institutions~~ and state university ~~universities~~ shall post prominently in the course registration system and on its website ~~on their websites~~, as early as is feasible, but at least 45 ~~not less than 30~~ days before ~~prior to~~ the first day of class for each term, a hyperlink to lists ~~list~~ of ~~each textbook~~ required and recommended textbooks and instructional materials for at least 95 percent of all courses and ~~each~~ course sections offered at the institution during the upcoming term. The lists ~~posted list~~ must include the International Standard Book Number (ISBN) for each required and recommended textbook and instructional material or other identifying information, which must include, at a minimum, all of the following: the title, all authors listed, publishers, edition number, copyright date, published date, and other relevant information necessary to identify the

specific ~~textbook or~~ textbooks or instructional materials required and recommended for each course. The State Board of Education and the Board of Governors shall include in the policies, procedures, and guidelines adopted under subsection (6) ~~(4)~~ certain limited exceptions to this notification requirement for classes added after the notification deadline.

(6)~~(4)~~ After receiving input from students, faculty, bookstores, and publishers, the State Board of Education and the Board of Governors each shall adopt textbook and instructional materials affordability policies, procedures, and guidelines for implementation by Florida College System institutions and state universities, respectively, that further efforts to minimize the cost of textbooks and instructional materials for students attending such institutions while maintaining the quality of education and academic freedom. The policies, procedures, and guidelines shall address ~~provide for the following~~:

(a) The establishment of deadlines for an instructor or department to notify the bookstore of required and recommended textbooks and instructional materials so that the bookstore may verify availability, source lower cost options when practicable, explore alternatives with faculty when academically appropriate, and maximize the availability of used textbooks and instructional materials ~~That textbook adoptions are made with sufficient lead time to bookstores so as to confirm availability of the requested materials and, where possible, ensure maximum availability of used books~~.

(b) Confirmation by the course instructor or academic department offering the course, before the textbook or instructional materials adoption is finalized ~~That, in the~~

~~textbook adoption process~~, of the intent to use all items ordered, particularly each individual item sold as part of a bundled package~~, is confirmed by the course instructor or the academic department offering the course before the adoption is finalized~~.

(c) Determination by ~~That~~ a course instructor or the academic department offering the course ~~determines~~, before a textbook or instructional material is adopted, of the extent to which a new edition differs significantly and substantively from earlier versions and the value to the student of changing to a new edition or the extent to which an open-access textbook or instructional material is available ~~may exist and be used~~.

(d) ~~That the establishment of policies shall address~~ The availability of required and recommended textbooks and instructional materials to students otherwise unable to afford the cost, including consideration of the extent to which an open-access textbook or instructional material may be used.

(e) Participation by ~~That~~ course instructors and academic departments ~~are encouraged to participate~~ in the development, adaptation, and review of open-access textbooks and instructional materials and, in particular, open-access textbooks and instructional materials for high-demand general education courses.

(f) Consultation with school districts to identify practices that impact the cost of dual enrollment textbooks and instructional materials to school districts, including, but not limited to, the length of time that textbooks and instructional materials remain in use.

(g) Selection of textbooks and instructional materials

through cost-benefit analyses that enable students to obtain the highest-quality product at the lowest available price, by considering:

1. Purchasing digital textbooks in bulk.

2. Expanding the use of open-access textbooks and instructional materials.

3. Providing rental options for textbooks and instructional materials.

4. Increasing the availability and use of affordable digital textbooks and learning objects.

5. Developing mechanisms to assist in buying, renting, selling, and sharing textbooks and instructional materials.

6. The length of time that textbooks and instructional materials remain in use.

(7) The board of trustees of each Florida College System institution and state university shall report, by September 30 of each year, beginning in 2016, to the Chancellor of the Florida College System or the Chancellor of the State University System, as applicable, the textbook and instructional materials selection process for general education courses with a wide cost variance identified pursuant to subsection (4) and high-enrollment courses; specific initiatives of the institution designed to reduce the costs of textbooks and instructional materials; policies implemented in accordance with subsection (6); the number of courses and course sections that were not able to meet the textbook and instructional materials posting deadline for the previous academic year; and any additional information determined by the chancellors. By November 1 of each year, beginning in 2016, each chancellor shall provide a summary

of the information provided by institutions to the State Board of Education and the Board of Governors, as applicable.

Section 4. Subsection (20) is added to section 1009.23, Florida Statutes, to read:

1009.23 Florida College System institution student fees.—

(20) Each Florida College System institution shall publicly notice and notify all enrolled students of any proposal to increase tuition or fees at least 28 days before its consideration at a board of trustees meeting. The notice must:

(a) Include the date and time of the meeting at which the proposal will be considered.

(b) Specifically outline the details of existing tuition and fees, the rationale for the proposed increase, and how the funds from the proposed increase will be used.

(c) Be posted on the institution's website and issued in a press release.

Section 5. Paragraph (b) of subsection (4) of section 1009.24, Florida Statutes, is amended, and subsection (20) is added to that section, to read:

1009.24 State university student fees.—

(4)

(b) The Board of Governors~~, or the board's designee,~~ may establish tuition for graduate and professional programs~~,~~ and out-of-state fees for all programs. Except as otherwise provided in this section, the sum of tuition and out-of-state fees assessed to nonresident students must be sufficient to offset the full instructional cost of serving such students. However, adjustments to out-of-state fees or tuition for graduate programs and professional programs may not exceed 15 percent in

any year.

(20) Each state university shall publicly notice and notify all enrolled students of any proposal to increase tuition or fees at least 28 days before its consideration at a board of trustees meeting. The notice must:

(a) Include the date and time of the meeting at which the proposal will be considered.

(b) Specifically outline the details of existing tuition and fees, the rationale for the proposed increase, and how the funds from the proposed increase will be used.

(c) Be posted on the university's website and issued in a press release.

Section 6. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 986
INTRODUCER:	Banking and Insurance Committee and Senator Simpson
SUBJECT:	Workers' Compensation System Administration
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Johnson	Knudson	BI	**Fav/CS**
2.	Betta	DeLoach	AGG	**Recommend: Favorable**
3.	Betta	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 986 amends regulatory provisions of ch. 440, F.S., the "Workers Compensation Law," which are administered by the Department of Financial Services (DFS). The bill affects provisions related to compliance and enforcement as follows:

- Creates a 25 percent penalty credit for employers who have not been previously issued a stop-work order or order of penalty assessment for non-compliance with coverage requirements if they maintain required business records and timely respond to the written DFS business records requests.
- Establishes a deadline for employers to file certain documentation to receive a penalty reduction.
- Reduces the imputed payroll multiplier related to penalty calculations from 2 times to 1.5 times the statewide average weekly wage.
- Eliminates a three-day response requirement applicable to employer held exemption documentation.

The bill eliminates fees collected by the DFS relating to new insurer registration and the Special Disability Trust Fund notices of claim and proofs of claim.

The bill revises provisions related to health care services and disputes as follows:

- Removes insurers and employers from the medical reimbursement dispute provision.
- Allows a Judge of Compensation Claims to designate an expert medical advisor of their choosing, rather than only those that are certified by the DFS.

The bill also:

- Eliminates the requirement for employers to notify the DFS by telephone or telegraph within 24 hours of any work related death and instead uses other reporting requirements.
- Eliminates the Preferred Worker Program, which has been inactive for over ten years.
- Allows employers to notify their insurers of their employee's coverage exemption, rather than requiring that a copy of the exemption be provided.

The bill has a negative annual fiscal impact of approximately $1 million in penalty revenue deposited into the Workers' Compensation Administration Trust Fund and a $1,500 negative annual fiscal impact to the Special Disability Trust Fund. Both trust funds are within the Department of Financial Services.

The effective date of the bill is October 1, 2016.

II. Present Situation:

Administration of the Workers' Compensation System in Florida

The Division of Workers' Compensation within the DFS is responsible for administering ch. 440, F.S., which includes the enforcement of coverage requirements,[1] administration of workers' compensation health care delivery system,[2] data collection,[3] and assisting injured workers, employers, insurers, and providers in fulfilling their responsibilities under ch. 440, F.S.[4]

Coverage Requirements

Whether an employer is required to have workers' compensation insurance depends upon the employer's industry and the number of employees. Employers may secure coverage by purchasing a workers' compensation insurance policy or qualifying as a self-insurer.[5] Individuals who elect an exemption are not considered "employees," for premium calculation purposes, and are not eligible to receive workers' compensation benefits if they suffer a workplace injury.

Enforcement of Coverage Requirements

Stop Work Orders

If an employer fails to comply with workers' compensation coverage requirements, the DFS must issue a stop-work order (SWO) within 72 hours of determining noncompliance.[6] The SWO requires the employer to cease all business operations. The SWO remains in effect until the employer secures appropriate coverage and the DFS issues an order releasing the SWO (for employers that have paid the assessed penalty); or an order of conditional release (for employers

[1] Section 440.107(3), F.S.
[2] Section 440.13, F.S.
[3] Section 440.185 and 440.593, F.S.
[4] Section 440.191, F.S.
[5] Section 440.38, F.S.
[6] Section 440.107, F.S.

that have agreed to pay the penalty in installments pursuant to a payment agreement schedule with the DFS).

An SWO is issued for the following violations:

- Failure to obtain workers' compensation insurance;
- Material understatement or concealment of payroll;
- Material misrepresentation or concealment of employee duties to avoid paying the proper premium;
- Material concealment of information pertinent to the calculation of an experience modification factor; and
- Failure to produce business records within ten days of receipt of a written request from the DFS.[7]

Imposition of Payroll for Penalty Purposes

In addition to the SWO, employers are assessed a penalty equal to 2.0 times what the employer would have paid in workers' compensation premiums for all periods of non-compliance during the preceding two-year period or $1,000, whichever is greater.[8] The SWO remains in effect and the employer cannot conduct business until the DFS has calculated the penalty imputed based on payroll. Sometimes, an employer will not have the required payroll information or will not comply with the DFS' business records request. Section 440.107(7), F.S., provides a means for the DFS to impute the employer's payroll for penalty purposes.

The imputed payroll under the law is twice the statewide average weekly wage (SAWW)[9] for each individual that the employer failed to cover. Depending on the circumstances of a particular case, the DFS may have to impute payroll for all of the employees for the entire two-year period or the DFS may only have to impute payroll for a one or more employees for a small portion of the two-year period. It depends upon the quality and availability of the employer's records. When the DFS authority to impute payroll was added to the law in 2003,[10] as one of the deterrents to fight fraud, it was set at 1.5 times the SAWW. It was increased to 2 times the SAWW in 2014. The DFS suggests that this can lead to "exorbitant penalty amounts that do not correlate with the violation committed by the employer."[11]

Avoiding Work Stoppage and Minimizing Penalties Due to Noncompliance

There are a two ways for a non-compliant employer to mitigate the impact of a DFS finding of non-compliance on their business operations. First, if the employer comes into compliance after initiation of an investigation, but before they are ordered to stop work, an SWO is not issued. Instead, if the law requires penalties, the DFS will only levy penalties. In that case, the penalties are levied in an Order of Penalty Assessment (OPA). This permits the employer to avoid work stoppage due to an SWO, while also achieving compliance. This also provides the employer an opportunity to reduce their potential penalty. If the employer has never received an SWO before,

[7] Section 440.107(7)(d), F.S.
[8] Section 440.107(7)(d), F.S.
[9] The statewide average weekly wage is determined by the DFS pursuant to s. 440.12(2), F.S.
[10] Ch. 2003-412, s. 13, Laws of Fla.
[11] Email from the Division of Workers' Compensation, Department of Financial Services, (Jan. 6, 2016) (on file with the Senate Committee on Banking and Insurance).

the employer may receive a credit against the penalty equal to the amount of the initial payment of workers' compensation premium resulting from them achieving compliance following the initiation of the DFS investigation.[12]

DFS Compliance and Enforcement Statistics

For Fiscal Year 2014-2015, the DFS issued 2,727 SWOs with approximately $52.4 million in penalties to employers that violated the coverage requirements.[13] The DFS imputed payroll against the employer in 1,584 cases.[14] The DFS issued 256 OPAs levying about $3.1 million in penalties when an employer came into compliance with the coverage requirements prior to the issuance of an SWO. The DFS reports that they are able to collect between 25 percent and 35 percent of the penalties they assess.[15]

The DFS maintains an online database of exemption holders.[16] The DFS reports that of the 367 non-construction LLCs that received an SWO in Fiscal Year 2014-2015, 32 corrected their non-compliance because one or more LLC members obtained exemptions.[17] An additional 30 non-construction LLCs achieved compliance by purchasing coverage for four employees.

Medical Reimbursement Disputes

The DFS is responsible for resolving medical reimbursement disputes between health care providers and insurers[18] or employers.[19] Health care providers, insurers, and employers have 45 days from receipt of notice of disallowance or adjustment of payment from an insurer to file a reimbursement dispute petition with the DFS. Insurers have 30 days from receipt of the provider's petition to submit all documentation substantiating the insurer's disallowance or adjustment to the DFS; otherwise they waive all objections to the petition. The DFS has 120 days from receipt of all documentation to issue a written determination. The DFS's determination is subject to the hearing provisions of the Administrative Procedures Act.[20]

Insurers are required to report all instances of health care provider overutilization to the DFS.[21] The DFS has implemented rules formalizing the procedure for reporting alleged provider

[18] The terms "carrier" and "insurer" are used interchangeably within the context of the workers' compensation law. In fact, the definition of "insurer" expressly includes the term "carrier." s. 440.02(38), F.S. "Carrier" means any person or fund authorized under s. 440.38 to insure under this chapter and includes a self-insurer, and a commercial self-insurance fund authorized under s. 624.462. s. 440.02(4), F.S. While this analysis uses the term "insurer" in this instance to maintain internal consistency, the portion of the bill described strikes the term "carrier" from statute.
[19] Section 440.13(7), F.S.
[20] Ch. 120, F.S.
[21] Section 440.13(6), F.S.

violations.[22] Any interested person can report an alleged provider violation through this procedure. Additionally, the DFS collects adjustment information for all reported workers' compensation medical bills. When the insurer properly codes and reports their adjustments and reimbursement decisions, the DFS can use their electronic database to identify alleged overutilization. Insurer compliance with electronic bill reporting requirements satisfies their statutory obligation to report all instances of overutilization.[23] The inclusion of insurers and employers in the medical reimbursement dispute provision can lead to confusion over the correct method for insurer or employer reporting of alleged provider violations and insurer reporting of medical overutilization issues.

Expert Medical Advisors and Judges of Compensation Claims

The Office of the Judges of Compensation Claims is responsible for resolving workers' compensation benefit disputes.[24] A Judge of Compensation Claims (JCC) receives medical evidence and testimony in the course of administering their assigned cases. Whenever there is a conflict in medical evidence or medical opinion, the JCC must appoint an Expert Medical Advisor (EMA) to address the conflict.[25] The EMAs are certified by the DFS.[26]

Certification as an EMA requires specialized workers' compensation training or experience and medical board certification or eligibility. The DFS is also required to "consider the qualifications, training, impartiality, and commitment of the health care provider to the provision of quality medical care at a reasonable cost."[27] Currently, there are 153 EMAs certified by the DFS.[28] The procedures that an EMA must abide by and the party responsible for the cost of the EMA's services are established by statute.[29]

The JCCs often have difficulty finding an eligible EMA to assist them with a case. This often occurs because there are too few EMAs in a particular specialty or the EMAs present in the local area of the injured worker have a conflict in participating in the matter as they have previously treated the injured worker or consulted in their care. When this occurs, the JCC identifies a willing provider with the appropriate qualifications and submits their information to the DFS for certification. Since the JCC has already considered the prospective EMA's qualifications, there is little benefit in going through the additional burden and delay of submitting the prospective EMA to the DFS for certification.

Workers' Compensation Special Disability Trust Fund

The Florida Special Disability Trust Fund (SDTF) was established to encourage the employment of workers with preexisting permanent physical impairments. The SDTF reimburses employers (or their carriers) for the excess in workers' compensation benefits provided to an employee with

[29] Section 440.13(9), F.S.

a preexisting impairment who is subsequently injured in a workers' compensation accident. As part of the reimbursement process, the SDTF determines whether claims are eligible to receive reimbursements, as well as audits and processes reimbursement requests. Reimbursement under the SDTF is not available for injuries occurring on or after January 1, 1998. The SDTF is funded by annual assessments on insurers providing compensation insurance coverage. Claims with an accident date before 1998 are still eligible to seek reimbursements. After a claim has been accepted, a request for reimbursement of additional expenses may be submitted annually.

Currently, every Notice of Claim against the SDTF must be submitted with a $250 fee. An insurer that files a notice of claim against the SDTF must submit certain documents to substantiate their claim. If the required documents are not filed with their notice of claim, they must file a proof of claim and include a $500 fee.

Preferred Worker Program

The Preferred Worker Program (PWP) was enacted by the Legislature and became effective January 1, 1994.[30] The intent of the program was to provide financial incentives for employers to hire employees who suffered a workplace injury resulting in permanent physical disability and are unable to return to work for their previous employer. The PWP would reimburse an employer for the costs of workers' compensation insurance premium related to the preferred worker for up to three years of continuous employment. This reimbursement was to be paid from the SDTF.[31] The Department of Financial Services and the Department of Education have rulemaking authority to implement the program.

III. Effect of Proposed Changes:

Coverage Requirements

The bill removes a requirement that exemption holders revoke their exemptions by mail. This will allow electronic revocations.[32] Since the DFS maintains an online exemption application and record review system, the DFS could add online revocation requests to their system.

The bill removes the requirement that exemption applicants provide their Federal Tax Identification Number when filing an electronic application for exemption with the DFS.[33] The Internal Revenue Service does not issue Federal Tax Identification Numbers to individuals; rather, they are issued to businesses. The Federal Tax Identification Number of the applicant's employer will still be collected.

The bill changes a requirement that employers provide their insurer with copies of their employee's certificate of exemption, instead the employer will notify the insurer of the

[30] Ch.93-415, s. 43, Laws of Fla.
[31] Section 440.49(8), F.S.
[32] Section 440.05(1), (2), and (5), F.S. DFS reports that 2,314 exemption holders filed voluntary revocations in fiscal year 2014-2015. Email from the Division of Workers' Compensation, Department of Financial Services, (Jan. 6, 2016) (on file with Committee on Banking and Insurance).
[33] Section. 440.05(3), F.S.

exemptions.[34] Since the DFS maintains online exemption information, the insurer can still verify the exemption without needing a copy of the certificate of exemption.

The bill removes a requirement that construction employers maintain written exemption acknowledgements by their corporate officers that hold an exemption certificate.[35] The bill also eliminates the three-day response requirement applicable to exemption information held by the employer since the DFS maintains these records online.

Compliance and Enforcement; Penalties

The bill reduces the imputed payroll multiplier from 2.0 times the statewide average weekly wage and returns it to the pre-2014 level of 1.5 times the statewide average weekly wage.

The bill adds two new eligibility requirements to the existing penalty credit for achieving compliance after the initiation of an investigation and adds a second penalty credit. The bill requires non-compliant employers to document their purchase of coverage to the DFS within 28 days of the SWO or OPA to qualify for the reduction in penalty and requires that the employer has never before received an SWO or OPA, rather than just an SWO. The bill creates another penalty credit for non-compliant employers who have never previously received an SWO or OPA. If they maintain business records consistent with the requirements of s. 440.107(5), F.S.,[36] and timely respond to the written DFS business records requests (a ten-day response requirement), the DFS must reduce their penalty by 25 percent.

Medical Services Disputes

The bill removes insurers and employers from the provision allowing the filing of a medical reimbursement dispute over the disallowance or adjustment of a medical payment. Accordingly, only health care providers are allowed to file petitions for resolution of medical billing disputes.

The bill allows a JCC to designate an EMA of their choosing, rather than only those that are certified as EMAs by the DFS. The EMAs, whether certified by the DFS or designated by the JCC, will continue to be subject to the existing procedural requirements of statute.

Elimination of Fees

The bill eliminates the registration fee of $100 required of every new workers' compensation carrier that registers with the DFS.[37]

The bill eliminates the SDTF Notice of Claim Fee of $250 and the Proof of Claim Fee of $500 that are deposited into the Special Disability Trust Fund.

[34] *Id.*
[35] Section. 440.05(10), F.S.
[36] Section 440.107(5), F.S., requires the DFS to adopt rules specifying the business records that the employer must maintain. Rule 69L-6.015, F.A.C., contains these requirements.
[37] Section 440.52(1), F.S.

Other Provisions

The bill removes a requirement that employers notify the DFS by telephone or telegraph within 24 hours of any work related death.[38] This relates to an obsolete function when the DFS had a role in workplace safety investigations. However, the DFS' former workplace safety role is preempted to the federal Occupational Safety and Health Administration (OSHA) of the U.S. Department of Labor with some exceptions.[39] The employers not covered[40] by the OSHA include self-employed workers, immediate family members of farm employers, and workers whose hazards are regulated by another federal agency (for example, the Mine Safety and Health Administration, the Department of Energy, or Coast Guard).[41] The DFS will continue to receive reports of death through an existing employer-reporting requirement.[42]

The bill eliminates the Preferred Worker Program. The program has experienced a small number of claims and has not made any program reimbursements in over a decade. The DFS reports that the program paid seven claims totaling $15,915 since 1994. The DFS last issued a reimbursement under the program in 2002.[43]

The bill provides technical, conforming changes to revise cross-references to conform to changes made by the bill.

The bill is effective October 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

[38] Section 440.185(3), F.S.
[39] The OSHA requires employers subject to OSHA to report fatalities within 8 hours. Available at https://www.osha.gov/as/opa/worker/employer-responsibility.html.
[40] See https://www.osha.gov/OSHA_FAQs.html (last visited January 26, 2016).
[41] Workers at state and local government agencies are not covered by Federal OSHA, but have the OSHA protections if they work in those states that have an OSHA-approved state program.
[42] Section 440.185(2), F.S.
[43] Florida Department of Financial Services, 2016 Agency Analysis of Senate Bill 986 (Jan. 6, 2016).

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

CS/SB 986 eliminates the new insurer registration fee of $100 and the Special Disability Trust Fund (SDTF) Notice of Claim and Proof of Claim fees of $250 and $500, respectively. The total annual fee reduction is approximately $1,500.

B. Private Sector Impact:

The bill eliminates the new insurer registration fee of $100. The DFS reports that four registrations for new workers' compensation insurers were received in Fiscal Year 2014-2015.

Insurers filing SDTF Notices of Claim or Proofs of Claim will no longer be assessed the $250 and $500 fee, respectively.

C. Government Sector Impact:

The elimination of fees will result in a decrease in collections of approximately $1,500 in the SDTF. The SDTF received no notices of claims or proofs of claims in Fiscal Year 2013-2014 and one notice of claim in Fiscal Year 2014-2015. [44] The DFS reports that four new registrations were received in Fiscal Year 2014-2015.[45]

The 25 percent reduction in penalties for employers who have not been previously issued a SWO or penalty will result in approximately $1 million less that is deposited into the Workers' Compensation Administration Trust Fund. This estimate is based on a 25 percent collection rate of the penalties. The DFS anticipates that the reduced penalty may increase the percentage actually collected which may offset the fiscal impact.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 440.021, 440.05, 440.107, 440.13, 440.185, 440.42, 440.49, 440.50, 440.52, and 624.4626.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Banking and Insurance on February 2, 2016:
The CS reinstates current statutory coverage requirements for non-construction limited liability companies and clarifies the process for the appointment of an expert medical advisor.

B. Amendments:

None.

By the Committee on Banking and Insurance; and Senator Simpson

597-02874-16 2016986c1

A bill to be entitled

An act relating to workers' compensation system administration; amending s. 440.05, F.S.; deleting a required item to be listed on a notice of election to be exempt; revising specified rules regarding the maintenance of business records by an officer of a corporation; removing the requirement that the Department of Financial Services issue a specified stop-work order; amending s. 440.107, F.S.; requiring that the department allow an employer who has not previously been issued an order of penalty assessment to receive a specified credit to be applied to the penalty; prohibiting the application of a specified credit unless the employer provides specified documentation and proof of payment to the department within a specified period; requiring the department to reduce the final assessed penalty by a specified percentage for employers who have not been previously issued a stop-work order or order of penalty assessment; revising the penalty calculation for the imputed weekly payroll for an employee; amending s. 440.13, F.S.; eliminating the certification requirements when an expert medical advisor is selected by a judge of compensation claims; providing requirements for the selection of an expert medical advisor; amending s. 440.185, F.S.; deleting the requirement that employers notify the department within 24 hours of any injury resulting in death; amending s. 440.49, F.S.; revising definitions; revising the requirements for filing a claim; deleting the preferred worker program; deleting the notification fees on certain filed claims which

597-02874-16 2016986c1

supplement the Special Disability Trust Fund; conforming cross-references; amending s. 440.52, F.S.; deleting a fee for certain registration of insurance carriers; amending ss. 440.021, 440.42, 440.50, and 624.4626, F.S.; conforming cross-references; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (1), (2), (3), (5), (10), and (11) of section 440.05, Florida Statutes, are amended to read:

440.05 Election of exemption; revocation of election; notice; certification.—

(1) Each corporate officer who elects not to accept the provisions of this chapter or who, after electing such exemption, revokes that exemption shall submit ~~mail~~ to the department ~~in Tallahassee~~ notice to such effect in accordance with a form to be prescribed by the department.

(2) Each sole proprietor or partner who elects to be included in the definition of "employee" or who, after such election, revokes that election must submit ~~mail~~ to the department ~~in Tallahassee~~ notice to such effect, in accordance with a form to be prescribed by the department.

(3) ~~Each officer of a corporation who is engaged in the construction industry and who elects an exemption from this chapter or who, after electing such exemption, revokes that exemption must submit a notice to such effect to the department on a form prescribed by the department.~~ The notice of election to be exempt must be electronically submitted to the department

by the officer of a corporation who is allowed to claim an exemption as provided by this chapter and must list the name, ~~federal tax identification number,~~ date of birth, driver license number or Florida identification card number, and all certified or registered licenses issued pursuant to chapter 489 held by the person seeking the exemption, the registration number of the corporation filed with the Division of Corporations of the Department of State, and the percentage of ownership evidencing the required ownership under this chapter. The notice of election to be exempt must identify each corporation that employs the person electing the exemption and must list the social security number or federal tax identification number of each such employer and the additional documentation required by this section. In addition, the notice of election to be exempt must provide that the officer electing an exemption is not entitled to benefits under this chapter, must provide that the election does not exceed exemption limits for officers provided in s. 440.02, and must certify that any employees of the corporation whose officer elects an exemption are covered by workers' compensation insurance. Upon receipt of the notice of the election to be exempt, receipt of all application fees, and a determination by the department that the notice meets the requirements of this subsection, the department shall issue a certification of the election to the officer, unless the department determines that the information contained in the notice is invalid. The department shall revoke a certificate of election to be exempt from coverage upon a determination by the department that the person does not meet the requirements for exemption or that the information contained in the notice of

election to be exempt is invalid. The certificate of election must list the name of the corporation listed in the request for exemption. A new certificate of election must be obtained each time the person is employed by a new or different corporation that is not listed on the certificate of election. A notice ~~copy~~ of the certificate of election must be sent to each workers' compensation carrier identified in the request for exemption. Upon filing a notice of revocation of election, an officer who is a subcontractor or an officer of a corporate subcontractor must notify her or his contractor. Upon revocation of a certificate of election of exemption by the department, the department shall notify the workers' compensation carriers identified in the request for exemption.

(5) A notice given under subsection (1), subsection (2), or subsection (3) shall become effective when issued by the department or 30 days after it ~~an application for an exemption~~ is received by the department, whichever occurs first. However, if an accident or occupational disease occurs less than 30 days after the effective date of the insurance policy under which the payment of compensation is secured or the date the employer qualified as a self-insurer, such notice is effective as of 12:01 a.m. of the day following the date it is submitted ~~mailed~~ to the department ~~in Tallahassee~~.

(10) Each officer of a corporation who is actively engaged in the construction industry and who elects an exemption from this chapter shall maintain business records as specified by the department by rule~~, which rules must include the provision that any corporation with exempt officers engaged in the construction industry must maintain written statements of those exempted~~

~~persons affirmatively acknowledging each such individual's exempt status~~.

(11) Any corporate officer permitted by this chapter to claim an exemption must be listed on the records of this state's Secretary of State, Division of Corporations, as a corporate officer. ~~The department shall issue a stop-work order under s. 440.107(7) to any corporation who employs a person who claims to be exempt as a corporate officer but who fails or refuses to produce the documents required under this subsection to the department within 3 business days after the request is made.~~

Section 2. Paragraphs (d) and (e) of subsection (7) of section 440.107, Florida Statutes, are amended to read:

440.107 Department powers to enforce employer compliance with coverage requirements.—

(7)

(d)1. In addition to any penalty, stop-work order, or injunction, the department shall assess against any employer who has failed to secure the payment of compensation as required by this chapter a penalty equal to 2 times the amount the employer would have paid in premium when applying approved manual rates to the employer's payroll during periods for which it failed to secure the payment of workers' compensation required by this chapter within the preceding 2-year period or $1,000, whichever is greater.

a. For employers who have not been previously issued a stop-work order or order of penalty assessment, the department must allow the employer to receive a credit for the initial payment of the estimated annual workers' compensation policy premium, as determined by the carrier, to be applied to the

penalty. Before applying the credit to the penalty, the employer must provide the department with documentation reflecting that the employer has secured the payment of compensation pursuant to s. 440.38 and proof of payment to the carrier. In order for the department to apply a credit for an employer that has secured workers' compensation for leased employees by entering into an employee leasing contract with a licensed employee leasing company, the employer must provide the department with a written confirmation, by a representative from the employee leasing company, of the dollar or percentage amount attributable to the initial estimated workers' compensation expense for leased employees, and proof of payment to the employee leasing company. The credit may not be applied unless the employer provides the documentation and proof of payment to the department within 28 days after service of the stop-work order or first order of penalty assessment upon the employer.

b. For employers who have not been previously issued a stop-work order or order of penalty assessment, the department must reduce the final assessed penalty by 25 percent if the employer has complied with administrative rules adopted pursuant to subsection (5) and has provided such business records to the department within 10 business days after the employer's receipt of the written request to produce business records.

c. The $1,000 penalty shall be assessed against the employer even if the calculated penalty after the credit and 25 percent reduction have ~~has~~ been applied is less than $1,000.

2. Any subsequent violation within 5 years after the most recent violation shall, in addition to the penalties set forth in this subsection, be deemed a knowing act within the meaning

of s. 440.105.

(e) When an employer fails to provide business records sufficient to enable the department to determine the employer's payroll for the period requested for the calculation of the penalty provided in paragraph (d), for penalty calculation purposes, the imputed weekly payroll for each employee, corporate officer, sole proprietor, or partner shall be the statewide average weekly wage as defined in s. 440.12(2) multiplied by 1.5 ~~2~~.

Section 3. Paragraph (a) of subsection (7) and paragraphs (a), (c), and (f) of subsection (9) of section 440.13, Florida Statutes, are amended to read:

440.13 Medical services and supplies; penalty for violations; limitations.—

(7) UTILIZATION AND REIMBURSEMENT DISPUTES.—

(a) Any health care provider~~, carrier, or employer~~ who elects to contest the disallowance or adjustment of payment by a carrier under subsection (6) must, within 45 days after receipt of notice of disallowance or adjustment of payment, petition the department to resolve the dispute. The petitioner must serve a copy of the petition on the carrier and on all affected parties by certified mail. The petition must be accompanied by all documents and records that support the allegations contained in the petition. Failure of a petitioner to submit such documentation to the department results in dismissal of the petition.

(9) EXPERT MEDICAL ADVISORS.—

(a) The department shall certify expert medical advisors in each specialty to assist the department ~~and the judges of~~

~~compensation claims~~ within the advisor's area of expertise as provided in this section. The department shall, in a manner prescribed by rule, in certifying, recertifying, or decertifying an expert medical advisor, consider the qualifications, training, impartiality, and commitment of the health care provider to the provision of quality medical care at a reasonable cost. As a prerequisite for certification or recertification, the department shall require, at a minimum, that an expert medical advisor have specialized workers' compensation training or experience under the workers' compensation system of this state and board certification or board eligibility.

(c) If there is disagreement in the opinions of the health care providers, if two health care providers disagree on medical evidence supporting the employee's complaints or the need for additional medical treatment, or if two health care providers disagree that the employee is able to return to work, the department may, and the judge of compensation claims shall, upon his or her own motion or within 15 days after receipt of a written request by either the injured employee, the employer, or the carrier, order the injured employee to be evaluated by an expert medical advisor. The injured employee and the employer or carrier may agree on the health care provider to serve as an expert medical advisor. If the parties do not agree, the judge of compensation claims shall select an expert medical advisor from the department's list of certified expert medical advisors. If a certified medical advisor within the relevant medical specialty is unavailable, the judge of compensation claims shall appoint any otherwise qualified health care provider to serve as

an expert medical advisor without obtaining the department's certification. The opinion of the expert medical advisor is presumed to be correct unless there is clear and convincing evidence to the contrary as determined by the judge of compensation claims. The expert medical advisor appointed to conduct the evaluation shall have free and complete access to the medical records of the employee. An employee who fails to report to and cooperate with such evaluation forfeits entitlement to compensation during the period of failure to report or cooperate.

(f) If the department or a judge of compensation claims orders the services of an ~~a certified~~ expert medical advisor to resolve a dispute under this section, the party requesting such examination must compensate the advisor for his or her time in accordance with a schedule adopted by the department. If the employee prevails in a dispute as determined in an order by a judge of compensation claims based upon the expert medical advisor's findings, the employer or carrier shall pay for the costs of such expert medical advisor. If a judge of compensation claims, upon his or her motion, finds that an expert medical advisor is needed to resolve the dispute, the carrier must compensate the advisor for his or her time in accordance with a schedule adopted by the department. The department may assess a penalty not to exceed $500 against any carrier that fails to timely compensate an advisor in accordance with this section.

Section 4. Subsection (3) of section 440.185, Florida Statutes, is amended to read:

440.185 Notice of injury or death; reports; penalties for violations.—

~~(3) In addition to the requirements of subsection (2), the employer shall notify the department within 24 hours by telephone or telegraph of any injury resulting in death. However, this special notice shall not be required when death results subsequent to the submission to the department of a previous report of the injury pursuant to subsection (2).~~

Section 5. Paragraph (b) of subsection (2), paragraph (c) of subsection (4), paragraph (c) of subsection (6), paragraphs (c) and (d) of subsection (7), subsection (8), and paragraph (d) of subsection (9) of section 440.49, Florida Statutes, are amended to read:

440.49 Limitation of liability for subsequent injury through Special Disability Trust Fund.—

(2) DEFINITIONS.—As used in this section, the term:

~~(b) "Preferred worker" means a worker who, because of a permanent impairment resulting from a compensable injury or occupational disease, is unable to return to the worker's regular employment.~~

In addition to the definitions contained in this subsection, the department may by rule prescribe definitions that are necessary for the effective administration of this section.

(4) PERMANENT IMPAIRMENT OR PERMANENT TOTAL DISABILITY, TEMPORARY BENEFITS, MEDICAL BENEFITS, OR ATTENDANT CARE AFTER OTHER PHYSICAL IMPAIRMENT.—

(c) *Temporary compensation and medical benefits; aggravation or acceleration of preexisting condition or circumstantial causation.*—If an employee who has a preexisting permanent physical impairment experiences an aggravation or

acceleration of the preexisting permanent physical impairment as a result of an injury or occupational disease arising out of and in the course of her or his employment, or suffers an injury as a result of a merger as defined in paragraph (2)(b) ~~(2)(c)~~, the employer shall provide all benefits provided by this chapter, but, subject to the limitations specified in subsection (7), the employer shall be reimbursed by the Special Disability Trust Fund created by subsection (9) for 50 percent of its payments for temporary, medical, and attendant care benefits.

(6) EMPLOYER KNOWLEDGE, EFFECT ON REIMBURSEMENT.—

(c) An employer's or carrier's right to apportionment or deduction pursuant to ss. 440.02(1), 440.15(5)(b), and 440.151(1)(c) does not preclude reimbursement from such fund, except when the merger comes within the definition of paragraph (2)(b) ~~(2)(c)~~ and such apportionment or deduction relieves the employer or carrier from providing the materially and substantially greater permanent disability benefits otherwise contemplated in those paragraphs.

(7) REIMBURSEMENT OF EMPLOYER.—

(c) A proof of claim must be filed on each notice of claim on file as of June 30, 1997, within 1 year after July 1, 1997, or the right to reimbursement of the claim shall be barred. A notice of claim on file on or before June 30, 1997, may be withdrawn and refiled if, at the time refiled, the notice of claim remains within the limitation period specified in paragraph (a). Such refiling shall not toll, extend, or otherwise alter in any way the limitation period applicable to the withdrawn and subsequently refiled notice of claim. ~~Each proof of claim filed shall be accompanied by a proof-of-claim~~

~~fee as provided in paragraph (9)(d).~~ The Special Disability Trust Fund shall, within 120 days after receipt of the proof of claim, serve notice of the acceptance of the claim for reimbursement. This paragraph shall apply to all claims notwithstanding the provisions of subsection (12).

(d) ~~Each notice of claim filed or refiled on or after July 1, 1997, must be accompanied by a notification fee as provided in paragraph (9)(d).~~ A proof of claim must be filed within 1 year after the date the notice of claim is filed or refiled~~,~~ ~~accompanied by a proof-of-claim fee as provided in paragraph (9)(d),~~ or the claim shall be barred. ~~The notification fee shall be waived if both the notice of claim and proof of claim are submitted together as a single filing.~~ The Special Disability Trust Fund shall, within 180 days after receipt of the proof of claim, serve notice of the acceptance of the claim for reimbursement. This paragraph shall apply to all claims notwithstanding the provisions of subsection (12).

~~(8) PREFERRED WORKER PROGRAM.—The Department of Education or administrator shall issue identity cards to preferred workers upon request by qualified employees and the Department of Financial Services shall reimburse an employer, from the Special Disability Trust Fund, for the cost of workers' compensation premium related to the preferred workers payroll for up to 3 years of continuous employment upon satisfactory evidence of placement and issuance of payroll and classification records and upon the employee's certification of employment. The Department of Financial Services and the Department of Education may by rule prescribe definitions, forms, and procedures for the administration of the preferred worker program. The Department~~

~~of Education may by rule prescribe the schedule for submission of forms for participation in the program.~~

(8)~~(9)~~ SPECIAL DISABILITY TRUST FUND.—

~~(d) The Special Disability Trust Fund shall be supplemented by a $250 notification fee on each notice of claim filed or refiled after July 1, 1997, and a $500 fee on each proof of claim filed in accordance with subsection (7). Revenues from the fee shall be deposited into the Special Disability Trust Fund and are exempt from the deduction required by s. 215.20. The fees provided in this paragraph shall not be imposed upon any insurer which is in receivership with the department.~~

Section 6. Subsection (1) of section 440.52, Florida Statutes, is amended to read:

440.52 Registration of insurance carriers; notice of cancellation or expiration of policy; suspension or revocation of authority.—

(1) Each insurance carrier who desires to write workers' ~~such~~ compensation insurance in compliance with this chapter shall be required, before writing such insurance, to register with the department ~~and pay a registration fee of $100. This shall be deposited by the department in the fund created by s. 440.50~~.

Section 7. Section 440.021, Florida Statutes, is amended to read:

440.021 Exemption of workers' compensation from chapter 120.—Workers' compensation adjudications by judges of compensation claims are exempt from chapter 120, and no judge of compensation claims shall be considered an agency or a part thereof. Communications of the result of investigations by the

department pursuant to s. 440.185(3) ~~s. 440.185(4)~~ are exempt from chapter 120. In all instances in which the department institutes action to collect a penalty or interest which may be due pursuant to this chapter, the penalty or interest shall be assessed without hearing, and the party against which such penalty or interest is assessed shall be given written notice of such assessment and shall have the right to protest within 20 days of such notice. Upon receipt of a timely notice of protest and after such investigation as may be necessary, the department shall, if it agrees with such protest, notify the protesting party that the assessment has been revoked. If the department does not agree with the protest, it shall refer the matter to the judge of compensation claims for determination pursuant to s. 440.25(2)-(5). Such action of the department is exempt from the provisions of chapter 120.

Section 8. Subsection (3) of section 440.42, Florida Statutes, is amended to read:

440.42 Insurance policies; liability.—

(3) No contract or policy of insurance issued by a carrier under this chapter shall expire or be canceled until at least 30 days have elapsed after a notice of cancellation has been sent to the department and to the employer in accordance with the provisions of s. 440.185(6) ~~s. 440.185(7)~~. For cancellation due to nonpayment of premium, the insurer shall mail notification to the employer at least 10 days prior to the effective date of the cancellation. However, when duplicate or dual coverage exists by reason of two different carriers having issued policies of insurance to the same employer securing the same liability, it shall be presumed that only that policy with the later effective

date shall be in force and that the earlier policy terminated upon the effective date of the latter. In the event that both policies carry the same effective date, one of the policies may be canceled instanter upon filing a notice of cancellation with the department and serving a copy thereof upon the employer in such manner as the department prescribes by rule. The department may by rule prescribe the content of the notice of retroactive cancellation and specify the time, place, and manner in which the notice of cancellation is to be served.

Section 9. Paragraph (b) of subsection (1) of section 440.50, Florida Statutes, is amended to read:

440.50 Workers' Compensation Administration Trust Fund.—

(1)

(b) The department is authorized to transfer as a loan an amount not in excess of $250,000 from such special fund to the Special Disability Trust Fund established by s. 440.49(8) ~~s. 440.49(9)~~, which amount shall be repaid to the ~~said~~ special fund in annual payments equal to not less than 10 percent of moneys received for the ~~such~~ Special Disability Trust Fund.

Section 10. Subsection (2) of section 624.4626, Florida Statutes, is amended to read:

624.4626 Electric cooperative self-insurance fund.—

(2) A self-insurance fund that meets the requirements of this section is subject to the assessments set forth in ss. 440.49(8) ~~ss. 440.49(9)~~, 440.51(1), and 624.4621(7), but is not subject to any other provision of s. 624.4621 and is not required to file any report with the department under s. 440.38(2)(b) which is uniquely required of group self-insurer funds qualified under s. 624.4621.

Section 11. This act shall take effect October 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1010 (249924)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on General Government); Agriculture Committee; and Senator Montford
SUBJECT:	Department of Agriculture and Consumer Services
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Akhavein	Becker	AG	**Fav/CS**
2.	Blizzard	DeLoach	AGG	**Recommend: Fav/CS**
3.	Blizzard	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1010 addresses issues relating to agriculture and certain powers and duties of the Department of Agriculture and Consumer Services (department). The bill:

- Designates tupelo honey as the official state honey.
- Changes the procedure to obtain and renew a pest control operator's certificate and eliminates a late charge.
- Changes the deadline to submit a recertification application for the limited certification for urban landscape commercial fertilizer application and eliminates the $50 per month late charge for late recertification.
- Adds the term "dietary supplements" to the list of possibly adulterated foods.
- Defines the term "vehicle" to provide clarity to the types of mobile carriers that fall under the department's regulatory authority.
- Adds allergen information labeling requirements to the list of possibly misbranded foods.
- Authorizes the department to sponsor "events" (not just breakfasts, luncheons, or dinners) to promote agriculture and agricultural business products.
- Authorizes the department to secure letters of patent, copyrights, and trademarks on any work products of the department and accordingly to enforce its rights.
- Authorizes the department to use money deposited in the Pest Control Trust Fund to carry out any of the powers and duties of the Division of Agricultural Environmental Services.
- Creates an Office of Agriculture Technology Services.

- Removes the requirement for the department to provide administrative staff relating to meetings and office space for the Florida Agriculture Center and Horse Park Authority.
- Specifies the intent of the "Fresh From Florida" marketing brand.
- Amends membership requirements for the Florida Agricultural Promotional Campaign Advisory Council.
- Modifies the reporting period for fertilizer tonnage sales from monthly to quarterly and changes the reporting requirement from 15 days to 30 days following the close of the reporting period.
- Preempts regulatory authority for commercial feed and feedstuff to the department.
- Removes the requirement that the department notify a property owner that a plant infested or infected with plant pests or noxious weeds has been found on their property if the plant is infested with pests or noxious weeds that are determined to be widely established in Florida. This change provides the department with the flexibility to not have to require an owner to destroy or remove the plant.
- Creates the Grove Removal or Vector Elimination Program.
- Rewrites ch. 582, F.S., to modernize the Soil and Water Conservation Districts' (SWCDs) statutes to reflect the actual functions of the districts.
- Removes obsolete statutory references relating to Watershed Improvement Districts.
- Adds definitions for "school breakfast program," "summer nutrition program," and "universal school breakfast program" to specify that they are programs which are authorized by federal law.
- Authorizes the department to implement the Farmers' Market Nutrition Program to provide participants in the Supplemental Nutrition Program for Women, Infants, and Children with locally grown fruits and vegetables.
- Eliminates a federal licensing requirement for certain citrus fruit inspectors.
- Requires the department to provide the highest rate of reimbursement to which it is entitled under the federal school breakfast program to a "severe need school".
- Renames the "Florida Farm Fresh Schools Program" to be the "Florida Farm to School Program."
- Eliminates the requirement that each grain dealer report monthly to the department the value of grain it received from producers for which the producers have not received payment; and
- Eliminates the Florida Forest Service's power to dedicate its land for use by the public as a park.

The bill has an insignificant impact on state revenues (see Section V. Fiscal Impact Statement); however, the bill will have a significant impact on state expenditures relating to the creation of the Grove Removal or Vector Elimination Program created in section 21.

II. Present Situation:

This section topically describes the present situation and the bill's impact on each. See Section III., for a section-by section analysis of the bill's provisions.

Tupelo Honey

The Legislature has not designated an official state honey. Pure Tupelo honey is commercially produced in only three river valleys in the world – the Ogeechee, the Apalachicola, and the Chattahoochee River Basins, which are all located in northwest Florida and Southeast Georgia. The bill designates tupelo honey as the official state honey.

Pest Control Operator's Certification Application Fee

Each location of each licensed pest control business must have a certified operator in charge that is registered with the Department of Agriculture and Consumer Services (department).[1] This person must be certified for the particular category of pest control engaged in at that location and may be in charge of one or more categories if they are certified in those categories.[2] To become a certified operator, an individual must pass an examination and satisfy specified education and experience requirements.[3]

Currently, persons seeking this certification pay $300 to take the exam.[4] After the individual has passed the exam, he or she must then receive an original certificate before engaging in pest control work.[5] To obtain the original certificate, the individual must pay an additional $150 issuance fee.[6] These requirements cause the department to process an additional, repetitive application and to collect an additional fee. Improvements in on-line processing capability have eliminated the need for this process and can improve the speed with which applicants can obtain their certificate. According to the department, while there will be a negative fiscal impact, there will also be decreased costs and administrative burdens for processing the application for initial certification.

Limited Certification for Urban Landscape Commercial Fertilizer Application

Section 482.1562, F.S., outlines the application requirements to receive a limited urban landscape commercial fertilizer certificate. Renewals are required every four years. For those who hold a limited license, recertification applications must be submitted 90-days prior to expiration of the current license. If the renewal application is not received 60 days prior to the expiration date, a late fee of $50 is assessed in addition to the $25 renewal fee. In order to renew a limited commercial fertilizer certificate, the cost may be as much as $75. A new license is $25. The bill removes the late fee and allows certificate holders 30 days to renew their licenses. This process is consistent with other certifications under ch. 482, F.S.

Florida Food Safety Act

The Florida Food Safety Act is intended to:

[1] Section 482.111(6)(a), F.S.
[2] Id.
[3] Section 482.132, F.S.
[4] Section 482.141, F.S.; Rule 5E-14.123(4), F.A.C.
[5] Section 482.111, F.S.
[6] Id.; Rule 5E-14.132(3), F.A.C.

- Promote public welfare by protecting the consuming public from injury by product use and the purchasing public from injury by merchandising deceit, flowing from intrastate commerce in food;
- Provide uniform legislation so far as practical with federal regulations; and
- Promote uniform administration and enforcement of federal and state food safety laws.[7]

The bill proposes adoption by reference of federal law (21 USC 321) which details information about dietary supplements or ingredients. The changes proposed add dietary supplements to the list of foods that could possibly be adulterated. Additionally, the bill sets forth criteria to determine if the supplement is adulterated. Dietary supplements have historically been regulated as a food item and are defined as such in federal law. The expansive growth of such products in the last decade, combined with a lack of understanding by many consumers and producers that supplements and supplement ingredients are food products, has created considerable confusion in the regulation of such products. The department is seeking to clarify its ongoing regulation of these products through definition of the product and inclusion of dietary supplements.

The department currently has authority to inspect vehicles which transport food products. However, the various modes of transportation are not clearly identified. Adding the term "vehicle" to the list of definitions will provide clarity around the types of mobile carriers that fall under the department's regulatory authority.

The department's federal partners recognize allergens as a critical food safety issue and have created regulations for such. Section 500.11, F.S., defines what constitutes misbranded food; however, the language is incomplete and/or inconsistent with federal law in 21 U.S.C. 343. The department recommends adoption by reference of federal law, 21 U.S.C. 343 (w) (1) (a) and (b), which includes labeling requirements for allergen information. Such requirements will better protect consumers by requiring appropriate labeling of foods containing known allergens.

Powers and Organization of the Department of Agriculture and Consumer Services

The Legislature has granted the department authority to regulate and promote Florida agriculture, protect the environment, safeguard consumers, and ensure the safety of food. The department has 13 divisions and five offices that establish rules for the state's animal, aquaculture, forestry and produce industries, license producers, the state's agribusiness marketing needs, oversight of emergency preparedness, and law enforcement efforts covering the agriculture industry. In addition to its agricultural duties, the department regulates various consumer service businesses, including motor vehicle repair shops, charitable organizations, dance studios, pawnshops, telemarketers, and several others. The bill repeals certain department authority and duties that are obsolete and updates others to allow the department to more effectively carry out its duties.

Pest Control Trust Fund

Section 482.2401, F.S., requires all moneys collected or received by the department under chapter 482, F.S., to be deposited into the Pest Control Trust Fund. The department indicates that current language restricts the use of funds to carry out the provisions of ch. 482, F.S., because it

[7] Section 500.02, F.S.

prevents resources funded in ch. 482, F.S., from being used to conduct work for other programs. This is problematic when functions across programs are combined within a work unit, such as licensing or inspections. Prior to the reorganization of the Division of Agriculture Environmental Services (AES), the work units were separate for each statutory area. The re-organization streamlined these units. The bill authorizes the department to use money deposited in the Pest Control Trust Fund to carry out any of the responsibilities of the Division of Agricultural Environmental Services (set forth in s. 570.44, F.S.), not just the Structural Pest Control Act (ch. 482, F.S.). The authority of the Division of Agricultural and Environmental Services includes state mosquito control program coordination, agricultural pesticide registration, testing and regulation, and feed, seed, and fertilizer production inspection and testing. This authorization expires June 30, 2019.

Office of Agriculture Technology Services

Currently, the Division of Administration is responsible for "providing electronic data processing and management information systems support for the department." The bill would create an Office of Agriculture Technology Services as a stand-alone office under the supervision of a senior manager within ch. 570, F.S. This change paves the way for continued implementation of the department's information technology strategic plan.

Florida Agriculture Center and Horse Park

In 1994, the Florida Legislature created the Florida Agriculture Center and Horse Park (Florida Horse Park) in order to provide a unique tourist experience for visitors and Florida residents.[8] The Florida Horse Park is situated on 500 acres that are located south of Ocala. Numerous events occur at the Florida Horse Park throughout the year including rodeos, dressage, polo, obstacle challenges, dog shows, and trail rides.[9] The Florida Agriculture Center and Horse Park Authority (Authority), a twenty-one member group appointed by the Commissioner of Agriculture, oversees the management of the park.[10] The department is currently required to provide administrative and staff support services for the meetings of the Authority and provide suitable space in the offices of the department for Authority's meetings and storage of the Authority's records.[11] The bill revises these requirements so that the department may provide them, but is not required to do so.

Florida Agricultural Promotion Campaign

The department is authorized to establish and coordinate the Florida Agricultural Promotional Campaign (FAPC), also known as the "Fresh From Florida" campaign.[12] This campaign is intended to increase consumer awareness and to expand the market for Florida's agricultural products.[13] Florida agricultural producers may voluntarily join the FAPC. FAPC members may

[11] Section 570.685(4)(b), F.S.
[12] Section 571.24, F.S.
[13] Section 571.22, F.S.

use the "Fresh From Florida" logos, participate in industry trade shows at a reduced cost, receive point-of-purchase materials, have access to trade leads, and receive the "Fresh From Florida" magazine and industry newsletter. Additionally, members of the FAPC can tie into supermarket promotions that feature Florida products in newspaper and store circular advertisements, and receive a farm sign customized with the member's business name.[14] The bill would clarify the intent of the marketing brand to avoid misconception that the brand is indicative of inspection for food safety purposes and to decrease the possibility of liability to the department. It makes clear that the department is not warranting safety of products by use of the brand. These changes will clarify intent that the FAPC is only providing a marketing program aimed at promoting department brands, including the "Fresh From Florida" program.

Commercial Feed and Feedstuff

"Commercial feed" is all materials or combinations of materials that are distributed or intended to be distributed for use as feed or for mixing in a feed for animals other than humans.[15] "Feedstuff" is edible materials, other than commercial feed, that are distributed for animal consumption and that contribute energy or nutrients, or both, to an animal diet.[16] The department has indicated that it, as well as local governments, if they are inclined to, are authorized to regulate commercial feed and feedstuff for quality, safety, labeling requirements, and standards. At present, there is no regulation of animal feed and feedstuff through local ordinances. The federal Food and Drug Administration is currently promulgating rules which would bring the manufacture and distribution of commercial livestock feed and ingredients to a standard of sanitation safe for both human handling and animal consumption through the Food Safety Modernization Act. The bill would clarify the department's preemptive authority to regulate, inspect, sample, and analyze any commercial feed and feedstuff to eliminate potential duplication of regulation.

Removal and Destruction of Infected and Infested Plants

The Division of Plant Industry must order the removal and destruction of any plant or plant product infested or infected with plant pests or noxious weeds.[17] The division may take this action in order to stop the introduction and dissemination of plants or pests that may threaten Florida's agriculture industry. The division provides written notice to the owner or the person in charge of the premises when the department finds an infested or infected plant or plant product. Within ten days of the notice, the owner or person in charge must treat as directed or remove and destroy the infested or infected plant or plant product. If the owner or person in charge does not, the department may treat as directed or remove and destroy the infested or infected plant or plant product.[18] The bill would create an exception from the destruction requirement for plant or plant products infested with pests or noxious weeds that are widely established in Florida and not regulated. According to the department, there are times when noxious plants, plant pests, or plant

[17] Section 581.181(1), F.S.
[18] Section 581.181(2), F.S.

diseases are well established in Florida and are not under a department eradication or control program. The bill provides the department with flexibility if the situation does not justify action to eliminate or otherwise mitigate the plant pest or noxious weed.

Citrus Greening

Huanglongbing, citrus greening, is thought to be caused by the bacterium, *Candidatus* Liberibacter asiaticus. Citrus greening has seriously affected citrus production in a number of countries in Asia, Africa, the Indian subcontinent and the Arabian Peninsula, and was discovered in July 2004 in Brazil. Wherever the disease has appeared, citrus production has been compromised with the loss of millions of trees. In August 2005, the disease was found in the south Florida region of Homestead and Florida City. Since that time, citrus greening has been found in commercial and residential sites in all counties with commercial citrus.[19] In these areas, citrus crops have been seriously threatened or even completely destroyed. Primary disease symptoms include leaf yellowing or blotchy mottling of leaves; lopsided and bitter fruit; fruit that remains green even when ripe; twig dieback; and stunted, sparsely foliated trees that may bloom off season.[20] When dying groves and unmaintained properties are abandoned by property owners who have not removed the diseased trees, the properties become breeding grounds for citrus greening to spread to neighboring healthy groves. The bill creates the Grove Removal or Vector Elimination Program for the removal or destruction of abandoned citrus groves in order to eliminate the material harboring the citrus greening and spread of the disease.

Soil and Water Conservation Districts

Faced with the problems of the Dust Bowl in the 1930's, President Franklin D. Roosevelt signed the Soil Conservation Act of 1935, which authorized the Secretary of Agriculture to make payments and grants of aid to support approved soil and water conservation measures. The Soil Conservation Service addressed the challenge by setting up a number of large-scale demonstration projects around the country. Although these projects were successful, this approach was not far-reaching enough. It was not only costly and slow to achieve the desired results, but it lacked grass-roots support and participation and did not provide long-lasting conservation treatment. It was recognized that a local organization was necessary through which conservation could be accomplished. In 1937, a model Soil Conservation District Law was developed for consideration by each of the states. Along with a letter from President Roosevelt, this model enabling act was sent to each of the state governors, suggesting that farmers and ranchers be granted the authority to establish districts specifically for conservation of soil and water resources.[21]

Florida adopted much of the model law in 1937.[22] The Legislature recognized farms, forests, and grazing lands as among Florida's basic assets in need of protection from improper land use

[22] Chapter 18144, 1937, Laws of Florida.

techniques that cause erosion.[23] It found that erosion reduced the productivity of land, harmed water resources, injured wildlife, caused flooding, and destroyed infrastructure.[24] Thus, corrective measures were required to prevent erosion and conserve, develop, and utilize soil and water resources.[25] The Legislature intended for soil and water conservation districts (SWCDs) to control and prevent soil erosion, prevent floodwater and sediment damage, further conservation, development, and utilization of soil and water resources, preserve natural resources, control floods, prevent impairment of dams and reservoirs, assist in maintaining the navigability of rivers and harbors, preserve wildlife, protect the tax base, protect public lands, and protect and promote the health, safety and general welfare of the people of Florida.[26] Currently there are 58 SWCDs in Florida. The bill amends ch. 582, F.S., to eliminate obsolete powers and duties relating to the soil and water conservation districts that are obsolete or exercised by other arms of government.

School Nutrition Program

The National School Lunch Program (NSLP) is a federally funded program that assists schools and other agencies in providing nutritious meals to children at reasonable prices. The program was established under the National School Lunch Act, signed by President Harry Truman in 1946.[27] In addition to financial assistance, the NSLP provides donated commodity foods to help reduce lunch program costs. Chapter 595, F.S., authorizes the department to coordinate with the federal government to use federal and state funding to provide school nutrition programs. The Legislature declared that it is the policy of the state to provide standards for school food and nutrition services and to require each school district to establish and maintain an appropriate school food and nutrition service program consistent with the nutritional needs of students.[28]

Schools must apply through the department and complete certain requirements prior to the operation of a school nutrition program.[29] Once approved, the department reimburses the schools for each lunch and breakfast meal served, provided they meet established state and federal regulations. Chapter 595, F.S., does not contain definitions for "school breakfast program," "summer nutrition program," or "universal school breakfast program." The bill adds these definitions to clarify the meaning and usage of these terms both in statute and in rule and to specify that they are the programs authorized by federal law. The department administers more than one United States Department of Agriculture summer nutrition program. The bill amends the definition of "summer nutrition programs" to specify that certain requirements apply to all summer nutrition programs.

Currently, the department must make a reasonable effort to ensure that any school designated as a "severe need school" receives the highest rate of reimbursement to which it is entitled under the federal school breakfast program for each breakfast meal served. The bill clarifies that the department does not just make efforts to, but actually ensures through its processes and

[23] Section 582.02, F.S.
[24] Section 582.03, F.S.
[25] Section 582.04, F.S.
[26] Section 582.05, F.S.
[27] *See* http://www.fns.usda.gov/nslp/national-school-lunch-program-nslp
[28] Section 595.403, F.S.
[29] Requirements found in s. 595.405, F.S.

procedures, that all eligible severe need schools receive the higher rate of reimbursement. This change will have no economic or substantive effect on any interest groups or stakeholders and will remove ambiguities from the statute that could potentially result in misinterpretation and misapplication of the law. Further, the department may advance funds from the school nutrition program's annual appropriation to sponsors in order to implement the school nutrition program. There is no restriction on when or for which program the funds may be advanced. The bill also clarifies that the department will only advance funds when requested by sponsors of the Summer Food Service Program.

Florida Farm to Schools Program

Section 595.406, F.S., provides for implementation of the Florida Farm Fresh Schools Program. The program was instituted in 2010 to require the Florida Department of Education to work with the department to increase the presence of Florida-grown products in schools. When the administration of the school nutrition programs was transferred to the department, this program became part of the Florida Farm to School Program, which was already being administered by the department. The bill replaces all references to the "Florida Farm Fresh Schools Program" with the "Florida Farm to School Program." This allows for consistent messaging and marketing around the department's efforts as stated in the statute. Further changes will allow the department to recognize those school districts who have purchased ten percent of the food they serve under the Florida Farm to School Program.

Children's Summer Nutrition Program

Section 595.407, F.S., requires all school districts to develop a plan to sponsor a summer nutrition program to operate within five miles of at least one elementary school where 50 percent or more of the students are eligible for free or reduced prices meals for 35 consecutive days, and also within 10 miles of each elementary school where 50 percent or more of the students are eligible for free or reduced-price meals. The bill specifies that each school district must provide a summer nutrition program within five miles of at least one school that serves any combination of grades K-5, not just elementary schools. This provision attempts to close a loophole where some K-8 or K-12 schools claimed they were not elementary schools, and therefore, did not have to comply. According to the department, interpretation of this statute has varied greatly. This change may require district school boards to adjust the location or increase the number of summer nutrition program sites they operate. The bill removes the requirement that each school district provide reduced-price school meals during the summer for 35 consecutive days and replaces it with the requirement that each school district provide reduced-price school meals during the summer for 35 days between the end of one school year and the beginning of the next. This allows school districts to exclude holidays and weekends.

Food and Nutrition Services Trust Fund

The Food and Nutrition Services Trust Fund was created for deposit of revenue and disbursements of Federal Food and Nutrition funds received by the department. In s. 595.601, F.S., the authorizing statute for this trust fund is incorrectly cited. Because the Child Nutrition Programs and Food Distribution Programs were housed in separate agencies, federal funding for these programs is currently maintained separately in the Food and Nutrition Services Trust Fund

and the Federal Grants Trust Fund. Correcting this reference in s. 595.601, F.S., will direct all future allocations of federal funding into the Food and Nutrition Services Trust Fund and create better efficiency.

State Test House for Citrus Inspectors

The state test house for citrus inspectors is staffed by the Division of Fruit and Vegetables (DFV) employees within the department. The DFV inspectors certify wholesomeness and maturity of fruit received at citrus processing plants and determine juice content and pounds solids contained in each box of fruit, pursuant to ch. 601, F.S. Currently, the DFV inspectors are licensed by the United States Department of Agriculture (USDA), as required by s. 601.31, F.S. The USDA license does not convey regulatory authority. Regulatory functions are carried out under the authority of the department. [30]

Financial Assurance Requirements for Dealers in Agricultural Products and Grain Dealers

Currently, any agricultural dealer who is engaged within this state in the business of purchasing, receiving, or soliciting agricultural products from the producer or the producer's agent or representative is required to obtain a bond or certificate of deposit (CD), as required in s. 604.20(1) F.S. If a CD is the chosen form of security, the dealer is required to furnish the department the CD or a CD receipt, a bank's acknowledgement letter, and an assignment of CD. The bill eliminates the need to provide a letter, accompanying a certificate of deposit, from the issuing institution acknowledging that the assignment has been properly recorded on the books of the issuing institution and will be honored by the issuing institution. This requirement is unnecessary because issuance of the certificate of deposit is acknowledgement that the agreement has been properly recorded.

Each grain dealer must report to the department monthly the value of grain it received from producers for which the producers have not received payment. This report must include a statement showing the type and amount of security maintained to cover the grain dealer's liability to producers. The bill eliminates the requirement that each grain dealer report monthly to the department, as only three of the four licensed dealers are required to do so. The dealers will continue to be licensed and bonded which allows the department to request information from dealers in the event of a complaint or suspected malpractice.

III. Effect of Proposed Changes:

Section 1 creates s. 15.0521, F.S., to designate tupelo honey as the official state honey.

Section 2 amends s. 482.111, F.S., to eliminate the initial certification fee and associated application deadlines for pest control operator applicants.

Section 3 amends s. 482.1562, F.S., to provide renewal clarification for limited certification for urban landscape commercial fertilizer application and to remove a $50 per month late fee. Application for recertification must be submitted four years after the date of issuance.

[30] Analysis by the Department of Agriculture and Consumer Services for SB 1010, p.16 (December 11, 2015).

Section 4 amends s. 500.03, F.S., to revise the definition of the term "food" to include dietary supplements. It also adds a definition for the term "vehicle" in order to recognize the various modes of transportation used by service food establishments and to be consistent with the federal rules implementing the Food Safety Modernization Act. Currently, the Florida Food Safety Act does not define the term.

Section 5 amends s. 500.10, F.S., to include foods transported under certain conditions to be adulterated. The change also adds dietary supplements in the list of foods that could possibly be adulterated and sets forth criterial to determine if it is adulterated.

Section 6 amends s. 500.11, F.S., to adopt by reference federal law which includes labeling requirements for allergen information.

Section 7 amends s. 570.07, F.S., to authorize the Department of Agriculture and Consumer Services (department) to sponsor "events," in addition to trade breakfasts, luncheons, and dinners to promote agriculture and agricultural business products. It also authorizes the department to secure letters of patent, copyrights, and trademarks on any work product of the department and accordingly to enforce its rights.

Section 8 amends s. 570.30, F.S., to remove electronic data processing and management information systems support as a duty for the department's Division of Administration.

Section 9 amends s. 570.441, F.S., to authorize the department to use money deposited in the Pest Control Trust Fund to carry out any of the powers and duties of the Division of Agricultural Environmental Services. This subsection expires June 30, 2019.

Section 10 amends s. 570.53, F.S., to remove duties associated with issuing Agriculture Dealer's Licenses from the duties of the Division of Marketing and Development.

Section 11 amends s. 570.544, F.S., to move issuance of Agriculture Dealer's Licenses from the Division of Marketing and Development to the Division of Consumer Services, which already issues several other licenses. It also requires the department, rather than a specific division, to regulate Live Stock Markets.

Section 12 creates s. 570.68, F.S., to create the Office of Agriculture Technology Services to provide electronic data processing and agency information technology services to the department.

Section 13 amends s. 570.681, F.S., to clarify legislative findings with regard to the Florida Agriculture Center and Horse Park.

Section 14 amends s. 570.685, F.S., to authorize the department to provide staff, meeting space and records storage space for the Florida Agriculture Center and Horse Park Authority.

Section 15 amends s. 571.24, F.S., to clarify the intent of the Florida Agricultural Promotional Campaign as a marketing program. It removes an obsolete provision relating to the designation

of a Division of Marketing and Development employee as a member of the Advertising Interagency Coordinating Council.

Section 16 amends s. 571.27, F.S., to remove obsolete provisions relating to the department's authority to adopt rules related to negotiating and entering into contracts with advertising agencies for services that are directly related to the Florida Agricultural Promotional Campaign.

Section 17 amends s. 571.28, F.S., to change the membership criteria for the Florida Agricultural Promotional Campaign Advisory Council. This change would allow members to be selected without regard for a specific number from each category of business, but rather an overall representation of the major business components important to the business of agriculture.

Section 18 amends s. 576.041, F.S., to change fertilizer reporting requirements. This would take advantage of the department's web-based reporting tool and align Florida's tonnage reporting requirement with other states, where reporting is quarterly. In addition, the grace period in which reports must be submitted after the reporting period would be extended from 15 to 30 days. By moving the reporting period from monthly to quarterly, the potential for licensees to incur penalties for late reporting will decrease and compliance will increase. Reducing the reporting requirement by 66 percent per year will improve customer service, allow staff to be proactive during the four reporting months, and afford them the time to follow up with licensees to ensure compliance with mandated reporting requirements.

Section 19 creates s. 580.0365, F.S., to preempt the regulatory authority for commercial feed and feedstuff to the department in order to eliminate duplication of regulation.

Section 20 amends s. 581.181, F.S., to eliminate the requirement that the department notify a property owner that a plant infested or infected with plant pests or noxious weeds has been found on their property if the plant is infested with pests or noxious weeds that are determined to be widely established in Florida. With this change, the owner will not be required to destroy or remove the plant within ten days.

Section 21 creates s. 581.189, F.S., to create the Grove Removal or Vector Elimination Program, which is a cost-sharing program for the removal or destruction of abandoned citrus groves to eliminate the material harboring the citrus greening and the vectors that spread the disease. It provides definitions for "abandoned citrus grove," "applicant," "eligible costs," "funded application," and "program." This section authorizes the department to adopt rules for reviewing and ranking applications for cost-share funding and establishes the maximum that an applicant may be awarded in any given fiscal year. It specifies the application process and authorizes the department to deny an application if the applicant has not complied with this section or department rules. Applicants selected for funding must initiate and complete the removal of identified citrus trees in the timeframe specified by department rule or the cost-share funding will be forfeited. The annual awarding of funding through the program is subject to specific legislative appropriations.

Section 22 amends s. 582.01, F.S., to redefine terms relating to soil and water conservation. It eliminates the definition of "administrative officer."

Section 23 amends s. 582.02, F.S., to revise legislative intent concerning soil and water conservation districts (SWCDs). This section emphasizes that the purpose of SWCDs is to promote the appropriate and efficient use of soil and water resources, protect water quality, prevent floodwater and sediment damage, preserve wildlife, and protect public lands. It is also to provide assistance, guidance, and education to landowners, land occupiers, the agricultural industry, and the general public in implementing land and water resource protection practices.

Section 24 amends s. 582.055, F.S., to update the powers and duties of the department in relation to SWCDs to reflect its current practices. This section ensures that the department is authorized to work with SWCDs to receive state and federal assistance. It grants the department the power to create and dissolve SWCDs and to adopt rules to implement this chapter.

Section 25 amends s. 582.06, F.S., to grant the Soil and Water Conservation Council the authority to review requests to create or dissolve a SWCD. It also authorizes the council to consider and provide a recommendation, at the request of the Governor or a district, as to whether a SWCD supervisor should be removed because of neglect of duty or malfeasance in office.

Section 26 amends s. 582.16, F.S., to revise the procedure used in changing district boundaries so that it is the same as when forming a district.

Section 27 amends s. 582.20, F.S., to modernize language relating to SWCDs and their supervisors. The changes focus more on water and best management practices, and less on erosion, to align with the current practices and missions of the districts. Further changes clarify that districts are authorized to partner with other entities on projects regarding floodwater control or soil and water resources. The bill would also allow a supervisor to ask the Governor to remove a fellow supervisor for neglect of duty.

Section 28 amends s. 582.29, F.S., to revise the terms under which state agencies charged with maintenance and administration of state lands must cooperate with the supervisors of any county-owned or publicly owned lands in the implementation of programs and operations under this chapter.

Section 29 amends s. 595.402, F.S., to add definitions for "school breakfast program," "summer nutrition program," and "universal school breakfast program" to specify that these programs are authorized by federal law.

Section 30 amends s. 595.404, F.S., to authorize the department to implement the Farmers' Market Nutrition Program which would provide participants in the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC)[31] with locally grown fruits and vegetables. The program is to be carried out using federal or state funds or funds from any other source. The bill authorizes the department to adopt rules to administer, operate, and enforce the program.

[31] WIC provides federal grants to states for supplemental foods, health care referrals, and nutrition education for low-income pregnant, breastfeeding and non-breastfeeding postpartum women, and to infants and children up to age five who are found to be at nutritional risk http://www.fns.usda.gov/wic/women-infants-amd-childen-wic (last visited December 14, 2015).

The bill clarifies requirements for the School Nutrition Program. It creates a duty for each school district to provide to a "severe need school" the highest rate of reimbursement to which it is entitled under the federal school breakfast program for each breakfast meal served. It specifies that funds from the school nutrition program may only be advanced to the sponsors of Summer Food Service Programs. This is consistent with the federal requirement in 7 CFR 225.9. This change will have no economic or substantive effect on any interest groups or stakeholders and will remove ambiguities from the statute that could potentially result in misinterpretation and misapplication of the law. The bill requires the department to collect and annually publish data from multiple sources on food purchased by sponsors through the Florida Farm to School Program and other school food and nutrition service programs. The bill also authorizes the department to enter into agreements with federal or state agencies to coordinate or cooperate in the implementation of nutrition programs.

Section 31 amends s. 595.405, F.S., to replace every instance of the term "school district" with "district school board." It rewrites the provisions of this section, which specifies that each district school board is encouraged to provide universal, free school breakfast meals to all students in each elementary, middle, and high school. The bill also provides criteria for when a universal school breakfast program must be provided. The reorganizing of the section combines several subsections and removes conflicting and duplicative clauses, so that the section is easier to read, interpret, and apply.

Section 32 amends s. 595.406, F.S., to change the name of the "Florida Farm Fresh Schools Program" to the "Florida Farm to School Program." The bill authorizes the department to recognize school districts who purchase at least ten percent of the food they serve from the Florida Farm to School Program.

Section 33 amends s. 595.407, F.S., to specify that each school district must provide a summer nutrition program within five miles of at least one school that serves any combination of grades kindergarten through five, not just elementary schools. The bill removes the requirement that each school district provide reduced-price school meals during the summer for 35 consecutive days and replaces it with the requirement that each school district provide reduced-price school meals during the summer for 35 days between the end of one school year and the beginning of the next. School districts may exclude holidays and weekends.

Section 34 amends s. 595.408, F.S., to change every instance of the word "commodity" with the word "food" to be consistent with the federal USDA Foods Program.

Section 35 amends s. 595.501, F.S., to remove requirements for corrective action plans from s. 595.405, F.S, and place them within this section. It would require sponsors to complete corrective action plans, required by the department or a federal agency, so that they are in compliance with school food and nutrition service programs. The bill also removes "school district" from the phrase "any person, sponsor, or school district" because the definition of "sponsor" is inclusive of "school districts."[32]

[32] Section 595.402(5), F.S.

Section 36 amends s. 595.601, F.S., to correct a cross-reference.

Section 37 amends s. 601.31, F.S., to require that certain citrus inspectors be licensed by the department rather than the United States Department of Agriculture.

Section 38 amends s. 604.21, F.S., to eliminate the requirement that a complainant against an agricultural dealer must file three notarized complaint affidavits with the department. The bill also eliminates the requirement to file an original complaint with the department if the complaint has been submitted electronically.

Section 39 amends s. 604.33, F.S., to remove provisions requiring grain dealers to submit monthly reports. The bill authorizes rather than requires the department to make at least one spot check annually of each grain dealer.

Section 40 repeals s. 582.03, F.S., relating to the consequences of soil erosion.

Section 41 repeals s. 582.04, F.S., relating to appropriate corrective measures for soil conservation.

Section 42 repeals s. 582.05, F.S., relating to legislative policy for soil and water conservation.

Section 43 repeals s. 582.08, F.S., relating to additional powers of the department in relation to SWCDs.

Section 44 repeals s. 582.09, F.S., relating to the employment of an administrative officer of soil and water conservation as well as supporting staff.

Section 45 repeals s. 582.17, F.S., relating to the establishment of SWCDs.

Section 46 repeals s. 582.21, F.S., relating to adoption of land use regulations of SWCDs.

Section 47 repeals s. 582.22, F.S., relating to SWCD regulations and the uniformity of their content within a district.

Section 48 repeals s. 582.23, F.S., relating to the duties of supervisors under SWCD regulations.

Section 49 repeals s. 582.24, F.S., relating to boards of adjustment for SWCDs which requires supervisors of any district to hear and consider petitions made by landowners for relief of land use regulations.

Section 50 repeals s. 582.25, F.S., relating to rule adoption and procedures of boards of adjustment.

Section 51 repeals s. 582.26, F.S., relating to petitions made to a board to vary from SWCD regulations.

Section 52 repeals s. 582.331, F.S., relating to the authorization to establish watershed improvement districts within SWCDs.

Section 53 repeals s. 582.34, F.S., relating to petitions for establishment of watershed improvement districts.

Section 54 repeals s. 582.35, F.S., relating to requirements of supervisors when a petition has been filed that include giving notice, conducting hearings on the petition, determinations of need for watershed improvement districts, and definition of boundaries.

Section 55 repeals s. 582.36, F.S., relating to the determination by supervisors that a proposed watershed improvement district is feasible and the referendum that must be held to consider the question of whether the operation of the proposed district is administratively practicable and feasible.

Section 56 repeals s. 582.37, F.S., relating to consideration of results of referendums on establishing watershed improvement districts and to declarations of the approved organization of a district.

Section 57 repeals s. 582.38, F.S., relating to organization of watershed improvement districts, certification to clerks of circuits courts, and limitations on tax rates.

Section 58 repeals s. 582.39, F.S., relating to the establishment of watershed improvement districts that are situated in more than one SWCD.

Section 59 repeals s. 582.40, F.S., relating to changes of district boundaries, additions, detachments, transfers of land from one district to another, and the change of district names.

Section 60 repeals s. 582.41, F.S., relating to the boards of directors of watershed improvement districts.

Section 61 repeals s. 582.42, F.S., relating to officers, agents, and employees that are retained by boards of supervisors of watershed improvement districts. This section of the Florida Statutes also provides for surety bonds for such officers, agents, and employees and requires an annual audit of the accounts of the district.

Section 62 repeals s. 582.43, F.S., relating to the status and general powers of watershed improvement districts.

Section 63 repeals s. 582.44, F.S., relating to watershed improvement districts levying taxes.

Section 64 repeals s. 582.45, F.S., relating to the fiscal powers of a watershed improvement district's governing board.

Section 65 repeals s. 582.46, F.S., relating to additional powers and authorities of watershed improvement districts. Such powers are additional to those of the soil and water conservation district in which the watershed improvement district is situated.

Section 66 repeals s. 582.47, F.S., relating to the requirement that a watershed improvement district must consult with and advise flood control districts to coordinate the work of the districts involved.

Section 67 repeals s. 582.48, F.S., relating to the discontinuance of a watershed improvement district.

Section 68 repeals s. 582.49, F.S., relating to the discontinuance of a soil and water conservation district.

Section 69 repeals s. 589.26, F.S., relating to the authority of the Florida Forest Service to dedicate its land for use by the public as a park.

Section 70 provides that except as otherwise expressly provided in the bill, the bill takes effect July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

See Private Sector Impact section below.

B. Private Sector Impact:

PCS/CS/SB 1010 eliminates the $50 late fee for limited certification for urban landscape commercial fertilizer application. This may have a positive impact on persons who apply commercial fertilizer by eliminating this fee.

The bill eliminates certain financial assurance and licensing requirements for dealers in agricultural products and for grain dealers. This may have a positive impact on those professions by eliminating the filing requirements.

The bill also creates an exemption from the destruction requirement for plant or plant products infested with pests or noxious weeds that are widely established in Florida and not regulated by the department. This may have a positive impact on those who own the plant or plant products infested with pests or noxious weeds by not requiring the owners to destroy them.

In addition, the bill eliminates the necessity for a complainant to submit three notarized complaint affidavits when an individual is damaged by an agricultural products dealer. This may have a positive impact on those individuals by eliminating the extra filings and speeding up the complaint process.

C. Government Sector Impact:

Pest Control Operator's Certification Application Fee

The bill appears to have an insignificant negative fiscal impact on state funds because of the elimination of the original certification fee of $150 for pest control certification applicants. The Department of Agriculture and Consumer Services (department) will have decreased revenues in the Pest Control Trust Fund of $76,762 annually. The department has indicated that the impact is expected to be minimal and will be absorbed by the department.[33]

Fee for Limited Certification for Urban Landscape Commercial Fertilizer Application

Eliminating the $50 late fee for a limited certification for urban landscape commercial fertilizer application will have an insignificant negative impact on state government revenues. The fee was first established in ch. 2009-199, Laws of Florida. Beginning January 1, 2014, any person applying commercial fertilizer to an urban landscape is required to be certified. The certification is for four years from the date of issuance; therefore, no late fees have been assessed.

Office of Agricultural Technology Services

The bill has an insignificant impact associated with the creation of s. 570.68, F.S., which creates the Office of Agricultural Technology Services, under the supervision of a senior management class employee. Changing the department's current Chief Information Officer from the Regular Class in the Florida Retirement System to the Senior Management Class would result in an additional state retirement contribution of $12,402 from the General Revenue Fund. The department will manage the additional costs within existing salary and benefit resources.

Grove Removal or Vector Elimination (GROVE) Program

Under the provisions of PCS/CS/SB 1010, funding of the Grove Removal or Vector Elimination (GROVE) program is subject to specific legislative appropriation. The

[33] Analysis by the Department of Agriculture and Consumer Services for SB 1010, p.19 (December 16, 2015).

department's Fiscal Year 2016-2017 legislative budget request includes $1,000,000 in nonrecurring general revenue to fund the GROVE program.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends the following sections of the Florida Statutes: 482.111, 482.1562, 500.03, 500.10, 500.11, 570.07, 570.30, 570.441, 570.53, 570.544, 570.681, 570.685, 571.24, 571.27, 571.28, 576.041, 581.181, 582.01, 582.02, 582.055, 582.06, 582.16, 582.20, 582.29, 595.402, 595.404, 595.405, 595.406, 595.407, 595.408, 595.501, 595.601, 601.31, 604.21, and 604.33.

This bill creates the following sections of the Florida Statutes: 15.0521, 570.68, 580.0365, and 581.189.

This bill repeals the following sections of the Florida Statutes: 582.03, 582.04, 582.05, 582.08, 582.09, 582.17, 582.21, 582.22, 582.23, 582.24, 582.25, 582.26, 582.331, 582.34, 582.35, 582.36, 582.37, 582.38, 582.39, 582.40, 582.41, 582.42, 582.43, 582.44, 582.45, 582.46, 582.47, 582.48, 582.49, and 589.26.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on General Government on January 21, 2016:
The committee substitute authorizes the Department of Agriculture and Consumer Services to license certain citrus inspectors rather than the United States Department of Agriculture.

CS by Agriculture on January 11, 2016:
The committee substitute:

- Restores current statute and removes language in the bill that changes the definition of "due notice" with regard to public hearings by soil and water conservation districts. It eliminates the requirement that notification must be published in a newspaper of general circulation seven days in advance of an event.
- Creates the Grove Removal or Vector Elimination Program to help eliminate citrus greening and improve the health of Florida's citrus industry.

B. Amendments:

None.

835292

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Appropriations (Hays) recommended the following:

Senate Amendment (with title amendment)

Between lines 342 and 343
insert:

Section 7. Section 500.90, Florida Statutes, is created to read:

500.90 Regulation of polystyrene products preempted to department.—The regulation of the use or sale of polystyrene products by entities regulated under this chapter is preempted to the department. This preemption does not apply to local

835292

ordinances or provisions thereof enacted before January 1, 2016, and does not limit the authority of a local government to restrict the use of polystyrene by individuals on public property, temporary vendors on public property, or entities engaged in a contractual relationship with the local government for the provision of goods or services, unless such use is otherwise preempted by law.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete line 19

and insert:

misbranded; creating s. 500.90, F.S.; preempting to the department the regulation of the use or sale of polystyrene products by entities regulated under the Florida Food Safety Act; providing applicability; amending s. 570.07, F.S.; revising the

576-02403-16

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on General Government)

A bill to be entitled

An act relating to the Department of Agriculture and Consumer Services; creating s. 15.0521, F.S.; designating tupelo honey as the official state honey; amending s. 482.111, F.S.; specifying the requirements for original certification as a pest control operator; specifying the fee for the renewal of a certificate; amending s. 482.1562, F.S.; specifying the deadline for recertification of persons who wish to apply urban landscape commercial fertilizer; providing a grace period for recertification; amending s. 500.03, F.S.; revising the definition of the term "food" to include dietary supplements; defining the term "vehicle"; amending s. 500.10, F.S.; providing additional conditions under which food may be deemed adulterated; amending s. 500.11, F.S.; including failure to comply with labeling relating to major food allergens as a criterion for use in determining whether food has been misbranded; amending s. 570.07, F.S.; revising the department's functions, powers, and duties; amending s. 570.30, F.S.; revising the powers and duties of the Division of Administration; amending s. 570.441, F.S.; authorizing the use of funds in the Pest Control Trust Fund for activities of the Division of Agricultural Environmental Services; providing for expiration; amending s. 570.53, F.S.; revising the powers and duties of the Division of Marketing and Development to

576-02403-16

remove the enforcement provisions relating to the dealers in agricultural products law; amending s. 570.544, F.S.; revising the duties of the director of the Division of Consumer Services to include enforcement provisions relating to the dealers in agricultural products law; creating s. 570.68, F.S.; authorizing the Commissioner of Agriculture to create an Office of Agriculture Technology Services; providing duties of the office; amending s. 570.681, F.S.; revising the legislative findings relating to the Florida Agriculture Center and Horse Park; amending s. 570.685, F.S.; authorizing, rather than requiring, the department to provide administrative and staff support services, meeting space, and record storage for the Florida Agriculture Center and Horse Park Authority; amending s. 571.24, F.S.; clarifying the intent that the Florida Agricultural Promotional Campaign serve as a marketing program; removing an obsolete provision relating to the designation of a division employee as a member of the Advertising Interagency Coordinating Council; amending s. 571.27, F.S.; removing obsolete provisions relating to the authority of the department to adopt rules for entering into contracts with advertising agencies for services that are directly related to the Florida Agricultural Promotional Campaign; amending s. 571.28, F.S.; revising the composition of the Florida Agricultural Promotional Campaign Advisory Council; amending s. 576.041, F.S.; revising the frequency with

which tonnage reports of fertilizer sales must be made; revising the timeframe for submission of such reports; creating s. 580.0365, F.S.; providing for the preemption of commercial feed and feedstuff regulation; amending s. 581.181, F.S.; providing applicability of provisions requiring treatment or destruction of infested or infected plants and plant products; creating s. 581.189, F.S.; creating the Grove Removal or Vector Elimination (GROVE) Program; specifying the purpose of the program; defining terms; requiring the department to adopt rules for reviewing and ranking applications for cost-share funding to remove or destroy abandoned citrus groves; establishing per applicant award maximums; specifying that the total funds awarded in a fiscal year cannot exceed the amount specifically appropriated for the program; specifying application requirements; specifying how the department must process applications; specifying that noncompliance will result in forfeiture of cost-share funds; requiring the department to rank and review applications and to conduct a certain inspection; specifying grounds for denial of an application; requiring applicants selected for funding to timely initiate and complete the removal of identified citrus trees in accordance with their respective applications; providing the process for making payments to applicants; authorizing the department to adopt rules; specifying that funding for the program is contingent upon specific

appropriation by the Legislature; amending s. 582.01, F.S.; redefining terms relating to soil and water conservation; amending s. 582.02, F.S.; providing legislative intent and findings relating to soil and water conservation districts; providing a statement of purpose; amending s. 582.055, F.S.; revising the powers and duties of the department; authorizing the department to adopt rules; amending s. 582.06, F.S.; requiring the Soil and Water Conservation Council to accept and review requests for creating or dissolving soil and water conservation districts and to make recommendations to the commissioner; requiring the council to provide recommendations to the commissioner relating to the removal of supervisors under certain circumstances; amending s. 582.16, F.S.; revising how district boundaries may be changed; amending s. 582.20, F.S.; revising the powers and duties of districts and supervisors; amending s. 582.29, F.S.; revising the terms under which certain state agencies must cooperate; amending s. 595.402, F.S.; defining terms relating to the school food and nutrition service program; amending s. 595.404, F.S.; revising the powers and duties of the department with regard to the school food and nutrition service program; directing the department to collect and annually publish data on food purchased by sponsors through the Florida Farm to School Program and other school food and nutrition service programs; amending s. 595.405, F.S.; clarifying requirements for the school nutrition

576-02403-16

program; requiring breakfast meals to be available to all students in schools that serve any combination of grades kindergarten through 5; amending s. 595.406, F.S.; renaming the "Florida Farm Fresh Schools Program" as the "Florida Farm to School Program"; authorizing the department to establish by rule a recognition program for certain sponsors; amending s. 595.407, F.S.; revising provisions of the children's summer nutrition program to include certain schools that serve any combination of grades kindergarten through 5; revising provisions relating to the duration of the program; authorizing school districts to exclude holidays and weekends; amending s. 595.408, F.S.; conforming provisions to changes made by the act; amending s. 595.501, F.S.; requiring certain entities to complete corrective action plans required by the department or a federal agency to be in compliance with school food and nutrition service programs; amending s. 595.601, F.S.; revising a cross-reference; amending s. 601.31, F.S.; specifying that certain citrus inspectors must be licensed by the state Department of Agriculture rather than the United States Department of Agriculture; amending s. 604.21, F.S.; deleting a requirement relating to complaints filed by electronic transmission or facsimile; amending s. 604.33, F.S.; deleting provisions requiring grain dealers to submit monthly reports; authorizing, rather than requiring, the department to make at least one spot check annually of each grain

576-02403-16

dealer; repealing s. 582.03, F.S., relating to the consequences of soil erosion; repealing s. 582.04, F.S., relating to appropriate corrective methods; repealing s. 582.05, F.S., relating to legislative policy for conservation; repealing s. 582.08, F.S., relating to additional powers of the department; repealing s. 582.09, F.S., relating to an administrative officer of soil and water conservation; repealing s. 582.17, F.S., relating to the presumption as to establishment of a district; repealing s. 582.21, F.S., relating to adoption of land use regulations; repealing s. 582.22, F.S., relating to district regulations and contents; repealing s. 582.23, F.S., relating to performance of work under the regulations by the supervisors; repealing s. 582.24, F.S., relating to the board of adjustment; repealing s. 582.25, F.S., relating to rules of procedure of the board; repealing s. 582.26, F.S., relating to petitioning the board to vary from regulations; repealing s. 582.331, F.S., relating to the authorization to establish watershed improvement districts within soil and water conservation districts; repealing s. 582.34, F.S., relating to petitions for establishment of watershed improvement districts; repealing s. 582.35, F.S., relating to notice and hearing on petitions, determinations of need for districts, and boundaries; repealing s. 582.36, F.S., relating to determination of feasibility of proposed districts and referenda; repealing s.

582.37, F.S., relating to consideration of results of referendums and declaration of organization of districts; repealing s. 582.38, F.S., relating to the organization of districts, certification to clerks of circuit courts, and limitation on tax rates; repealing s. 582.39, F.S., relating to establishment of watershed improvement districts situated in more than one soil and water conservation district; repealing s. 582.40, F.S., relating to change of district boundaries or names; repealing s. 582.41, F.S., relating to boards of directors of districts; repealing s. 582.42, F.S., relating to officers, agents, and employees, surety bonds, and annual audits; repealing s. 582.43, F.S., relating to status and general powers of districts; repealing s. 582.44, F.S., relating to the levy of taxes and taxing procedures; repealing s. 582.45, F.S., relating to fiscal powers of a governing body; repealing s. 582.46, F.S., relating to additional powers and authority of districts; repealing s. 582.47, F.S., relating to the coordination between watershed improvement districts and flood control districts; repealing s. 582.48, F.S., relating to the discontinuance of watershed improvement districts; repealing s. 582.49, F.S., relating to the discontinuance of soil and water conservation districts; repealing s. 589.26, F.S., relating to the dedication of state park lands for public use; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Effective upon this act becoming a law, section 15.0521, Florida Statutes, is created to read:

15.0521 Official state honey.—Tupelo honey is designated as the official Florida state honey.

Section 2. Subsections (1) and (7) of section 482.111, Florida Statutes, are amended to read:

482.111 Pest control operator's certificate.—

(1) The department shall issue a pest control operator's certificate to each individual who qualifies under this chapter. Before the issuance of the original certification, an individual must have completed an application for examination, paid the examination fee provided for in s. 482.141, and passed the examination. Before engaging in pest control work, each certified operator must be certified as provided in this section. ~~Application must be made and the issuance fee must be paid to the department for the original certificate within 60 days after the postmark date of written notification of passing the examination. During a period of 30 calendar days following expiration of the 60-day period, an original certificate may be issued; however, a late issuance charge of $50 shall be assessed and must be paid in addition to the issuance fee. An original certificate may not be issued after expiration of the 30-day period, without reexamination.~~

(7) The fee for ~~issuance of an original certificate or~~ the renewal of a certificate ~~thereof~~ shall be set by the department but may not be more than $150 or less than $75; however, until

rules setting these fees are adopted by the department, the issuance fee and the renewal fee shall each be $75.

Section 3. Subsections (5) and (6) of section 482.1562, Florida Statutes, are amended to read:

482.1562 Limited certification for urban landscape commercial fertilizer application.—

(5) An application for recertification must be made 4 years after the date of issuance ~~at least 90 days before the expiration~~ of the current certificate and be accompanied by:

(a) Proof of having completed the 4 classroom hours of acceptable continuing education required under subsection (4).

(b) A recertification fee set by the department in an amount of at least $25 but not more than $75. Until the fee is set by rule, the fee for certification is $25.

(6) ~~A late renewal charge of $50 per month shall be assessed 30 days after the date the application for recertification is due and must be paid in addition to the renewal fee. Unless timely recertified, a certificate automatically expires 90 days after the recertification date.~~ Upon expiration or after a grace period ending 30 days after expiration, a certificate may be issued only upon the person reapplying in accordance with subsection (3).

Section 4. Paragraph (n) of subsection (1) of section 500.03, Florida Statutes, is amended, and paragraph (cc) is added to that subsection, to read:

500.03 Definitions; construction; applicability.—

(1) For the purpose of this chapter, the term:

(n) "Food" includes:

1. Articles used for food or drink for human consumption;

2. Chewing gum;

3. Articles used for components of any such article; ~~and~~

4. Articles for which health claims are made, which claims are approved by the Secretary of the United States Department of Health and Human Services and which claims are made in accordance with s. 343(r) of the federal act, and which are not considered drugs solely because their labels or labeling contain health claims; and

5. "Dietary supplements" as the term is defined in 21 U.S.C. s. 321(ff)(1) and (2).

The term includes any raw, cooked, or processed edible substance; ice; any beverage; or any ingredient used, intended for use, or sold for human consumption.

(cc) "Vehicle" means a mode of transportation or mobile carrier used to transport food from one location to another, including, but not limited to, cars, carts, cycles, trucks, vans, trains, railcars, aircraft, and watercraft.

Section 5. Subsection (1) of section 500.10, Florida Statutes, is amended, and subsection (5) is added to that section, to read:

500.10 Food deemed adulterated.—A food is deemed to be adulterated:

(1)(a) If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance such food shall not be considered adulterated under this clause if the quantity of such substance in such food does not ordinarily render it injurious to health;

(b) If it bears or contains any added poisonous or added deleterious substance, other than one which is a pesticide chemical in or on a raw agricultural commodity; a food additive; or a color additive, which is unsafe within the meaning of s. 500.13(1);

(c) If it is a raw agricultural commodity and it bears or contains a pesticide chemical which is unsafe within the meaning of 21 U.S.C. s. 346(a) or s. 500.13(1);

(d) If it is or it bears or contains, any food additive which is unsafe within the meaning of 21 U.S.C. s. 348 or s. 500.13(1); provided that where a pesticide chemical has been used in or on a raw agricultural commodity in conformity with an exemption granted or tolerance prescribed under 21 U.S.C. s. 346 or s. 500.13(1), and such raw agricultural commodity has been subjected to processing such as canning, cooking, freezing, dehydrating, or milling, the residue of such pesticide chemical remaining in or on such processed food shall, notwithstanding the provisions of s. 500.13, and this paragraph, not be deemed unsafe if such residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice, and the concentration of such residue in the processed food when ready to eat, is not greater than the tolerance prescribed for the raw agricultural commodity;

(e) If it consists in whole or in part of a diseased, contaminated, filthy, putrid, or decomposed substance, or if it is otherwise unfit for food;

(f) If it has been produced, prepared, packed, transported, or held under insanitary conditions whereby it may become contaminated with filth, or whereby it may have been rendered

diseased, unwholesome, or injurious to health;

(g) If it is the product of a diseased animal or an animal which has died otherwise than by slaughter, or that has been fed upon the uncooked offal from a slaughterhouse; or

(h) If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health.

(5) If a dietary supplement or its ingredients present a significant risk of illness or injury due to:

(a) The recommended or suggested conditions of use on the product label;

(b) The failure to provide conditions of use on the product label; or

(c) It containing an ingredient for which there is inadequate information to provide reasonable assurances that the ingredient does not present a significant risk of illness or injury.

Section 6. Paragraph (m) of subsection (1) of section 500.11, Florida Statutes, is amended to read:

500.11 Food deemed misbranded.—

(1) A food is deemed to be misbranded:

(m) If it is offered for sale and its label or labeling does not comply with the requirements of 21 U.S.C. s. 343(q) or 21 U.S.C. s. 343(w) pertaining to nutrition or allergen information.

Section 7. Subsection (20) of section 570.07, Florida Statutes, is amended, and subsection (44) is added to that section, to read:

570.07 Department of Agriculture and Consumer Services;

576-02403-16

functions, powers, and duties.—The department shall have and exercise the following functions, powers, and duties:

(20)(a) To stimulate, encourage, and foster the production and consumption of agricultural and agricultural business products;

(b) To conduct activities that may foster a better understanding and more efficient cooperation among producers, dealers, buyers, food editors, and the consuming public in the promotion and marketing of Florida's agricultural and agricultural business products; and

(c) To sponsor events, trade breakfasts, luncheons, and dinners and distribute promotional materials and favors in connection with meetings, conferences, and conventions of dealers, buyers, food editors, and merchandising executives that will assist in the promotion and marketing of Florida's agricultural and agricultural business products to the consuming public.

The department is authorized to receive and expend donations contributed by private persons for the purpose of covering costs associated with the above described activities.

(44) In its own name:

(a) To perform all acts necessary to secure letters of patent, copyrights, and trademarks on any work products of the department and enforce its rights therein.

(b) To license, lease, assign, or otherwise give written consent to any person, firm, or corporation for the manufacture or use of such department work products on a royalty basis or for such other consideration as the department deems proper.

576-02403-16

(c) To take any action necessary, including legal action, to protect such department work products against improper or unlawful use or infringement.

(d) To enforce the collection of any sums due to the department for the manufacture or use of such department work products by another party.

(e) To sell any of such department work products and execute all instruments necessary to consummate any such sale.

(f) To do all other acts necessary and proper for the execution of powers and duties conferred upon the department by this section, including adopting rules, as necessary, in order to administer this section.

Section 8. Subsection (5) of section 570.30, Florida Statutes, is amended to read:

570.30 Division of Administration; powers and duties.—The Division of Administration shall render services required by the department and its other divisions, or by the commissioner in the exercise of constitutional and cabinet responsibilities, that can advantageously and effectively be centralized and administered and any other function of the department that is not specifically assigned by law to some other division. The duties of this division include, but are not limited to:

~~(5) Providing electronic data processing and management information systems support for the department.~~

Section 9. Subsection (4) is added to section 570.441, Florida Statutes, to read:

570.441 Pest Control Trust Fund.—

(4) In addition to the uses authorized under subsection (2), the department may use moneys collected or received under

chapter 482 to carry out s. 570.44. This subsection expires June 30, 2019.

Section 10. Subsection (2) of section 570.53, Florida Statutes, is amended to read:

570.53 Division of Marketing and Development; powers and duties.—The powers and duties of the Division of Marketing and Development include, but are not limited to:

~~(2) Enforcing the provisions of ss. 604.15-604.34, the dealers in agricultural products law, and ss. 534.47-534.53.~~

Section 11. Subsection (2) of section 570.544, Florida Statutes, is amended to read:

570.544 Division of Consumer Services; director; powers; processing of complaints; records.—

(2) The director shall supervise, direct, and coordinate the activities of the division and shall, under the direction of the department, enforce ss. 604.15-604.34 and ~~the provisions of~~ chapters 472, 496, 501, 507, 525, 526, 527, 531, 539, 559, 616, and 849.

Section 12. Section 570.68, Florida Statutes, is created to read:

570.68 Office of Agriculture Technology Services.—The commissioner may create an Office of Agriculture Technology Services under the supervision of a senior manager. The senior manager is exempt under s. 110.205 in the Senior Management Service and shall be appointed by the commissioner. The office shall provide electronic data processing and agency information technology services to support and facilitate the functions, powers, and duties of the department.

Section 13. Section 570.681, Florida Statutes, is amended

to read:

570.681 Florida Agriculture Center and Horse Park; legislative findings.—It is the finding of the Legislature that:

~~(1) Agriculture is an important industry to the State of Florida, producing over $6 billion per year while supporting over 230,000 jobs.~~

(1)~~(2)~~ Equine and other agriculture-related industries ~~will~~ strengthen and benefit each other with the establishment of a statewide agriculture and horse facility.

(2)~~(3)~~ The ~~A~~ Florida Agriculture Center and Horse Park provides ~~will provide~~ Florida with a unique tourist experience for visitors and residents, thus generating taxes and additional dollars for the state.

(3)~~(4)~~ Promoting the Florida Agriculture Center and Horse Park as a joint effort between the state and the private sector allows ~~will allow~~ this facility to use ~~utilize~~ experts and generate revenue from many areas to ensure the success of this facility.

Section 14. Paragraphs (b) and (c) of subsection (4) of section 570.685, Florida Statutes, are amended to read:

570.685 Florida Agriculture Center and Horse Park Authority.—

(4) The authority shall meet at least semiannually and elect a chair, a vice chair, and a secretary for 1-year terms.

(b) The department may provide ~~shall be responsible for providing~~ administrative and staff support services relating to the meetings of the authority and ~~shall provide~~ suitable space in the offices of the department for the meetings and the storage of records of the authority.

(c) In conducting its meetings, the authority shall use accepted rules of procedure. The secretary shall keep a complete record of the proceedings of each meeting showing~~, which record shall show~~ the names of the members present and the actions taken. These records shall be kept on file with the department, and such records and other documents regarding matters within the jurisdiction of the authority shall be subject to inspection by members of the authority.

Section 15. Section 571.24, Florida Statutes, is amended to read:

571.24 Purpose; duties of the department.—The purpose of this part is to authorize the department to establish and coordinate the Florida Agricultural Promotional Campaign. The campaign is intended to serve as a marketing program for the promotion of agricultural commodities, value-added products, and agricultural-related businesses of this state. The campaign is not a food safety and traceability program. The duties of the department shall include, but are not limited to:

(1) Developing logos and authorizing the use of logos as provided by rule.

(2) Registering participants.

(3) Assessing and collecting fees.

(4) Collecting rental receipts for industry promotions.

(5) Developing in-kind advertising programs.

(6) Contracting with media representatives for the purpose of dispersing promotional materials.

(7) Assisting the representative of the department who serves on the Florida Agricultural Promotional Campaign Advisory Council.

~~(8) Designating a division employee to be a member of the Advertising Interagency Coordinating Council.~~

(8)~~(9)~~ Adopting rules pursuant to ss. 120.536(1) and 120.54 to implement the provisions of this part.

(9)~~(10)~~ Enforcing and administering the provisions of this part, including measures ensuring that only Florida agricultural or agricultural based products are marketed under the "Fresh From Florida" or "From Florida" logos or other logos of the Florida Agricultural Promotional Campaign.

Section 16. Section 571.27, Florida Statutes, is amended to read:

571.27 Rules.—The department is authorized to adopt rules that implement, make specific, and interpret ~~the provisions of~~ this part~~, including rules for entering into contracts with advertising agencies for services which are directly related to the Florida Agricultural Promotional Campaign. Such rules shall establish the procedures for negotiating costs with the offerors of such advertising services who have been determined by the department to be qualified on the basis of technical merit, creative ability, and professional competency. Such determination of qualifications shall also include consideration of the provisions in s. 287.055(3), (4), and (5)~~. The department is further authorized to determine, by rule, the logos or product identifiers to be depicted for use in advertising, publicizing, and promoting the sale of Florida agricultural products or agricultural-based products in the Florida Agricultural Promotional Campaign. The department may also adopt rules consistent ~~not inconsistent~~ with ~~the provisions of~~ this part as in its judgment may be necessary for participant

registration, renewal of registration, classes of membership, application forms, and ~~as well as~~ other forms and enforcement measures ensuring compliance with this part.

Section 17. Subsection (1) of section 571.28, Florida Statutes, is amended to read:

571.28 Florida Agricultural Promotional Campaign Advisory Council.—

(1) ORGANIZATION.—There is ~~hereby~~ created within the department the Florida Agricultural Promotional Campaign Advisory Council, to consist of 15 members appointed by the Commissioner of Agriculture for 4-year staggered terms. The membership shall include: 13 ~~six~~ members representing agricultural producers, shippers, ~~or~~ packers, ~~three members representing agricultural~~ retailers, ~~two members representing~~ agricultural associations, and wholesalers ~~one member representing a wholesaler~~ of agricultural products; 1~~, one~~ member representing consumers;~~,~~ and 1 ~~one~~ member representing the department. Initial appointment of the council members shall be four members to a term of 4 years, four members to a term of 3 years, four members to a term of 2 years, and three members to a term of 1 year.

Section 18. Subsection (2) of section 576.041, Florida Statutes, is amended to read:

576.041 Inspection fees; records.—

(2) Before the distribution of a fertilizer, each licensee shall make application upon a form provided by the department to report quarterly ~~monthly~~ the tonnage of fertilizer sold in the state and make payment of the inspection fee. The continuance of a license is conditioned upon the applicant's:

(a) Maintaining records and a bookkeeping system that will accurately indicate the tonnage of fertilizer sold by the licensee; and

(b) Consent to examination of the business records and books by the department for a verification of the correctness of tonnage reports and inspection fees. Tonnage reports of sales and payment of inspection fee shall be made quarterly using the department's regulatory website or ~~monthly~~ on forms furnished by the department and submitted within 30 days following the close of the reporting period ~~on or before the fifteenth day of the month succeeding the month covered by the reports~~.

Section 19. Section 580.0365, Florida Statutes, is created to read:

580.0365 Preemption of regulatory authority over commercial feed and feedstuff.—It is the intent of the Legislature to eliminate duplication of regulation over commercial feed and feedstuff. Notwithstanding any other law, the authority to regulate, inspect, sample, and analyze commercial feed or feedstuff distributed in this state or to exercise the powers and duties of regulation granted by this chapter, including the assessment of penalties for violation of this chapter, is preempted to the department.

Section 20. Subsection (3) is added to section 581.181, Florida Statutes, to read:

581.181 Notice of infection of plants; destruction.—

(3) This section does not apply to plants or plant products infested with pests or noxious weeds if such pests and weeds are determined to be widely established within the state and are not specifically regulated under rules adopted by the department or

under any other provisions of law.

Section 21. Effective upon becoming a law, section 581.189, Florida Statutes, is created to read:

581.189 Grove Removal or Vector Elimination (GROVE) Program.—

(1) There is created within the Department of Agriculture and Consumer Services the Grove Removal or Vector Elimination Program, a cost-sharing program for the removal or destruction of abandoned citrus groves to eliminate the material harboring the citrus disease Huanglongbing, also known as citrus greening, and the vectors that spread the disease.

(2) For purposes of this section, the term:

(a) "Abandoned citrus grove" means a citrus grove that has minimal or no production value and is no longer economically viable as a commercial citrus grove.

(b) "Applicant" means the person who owns an abandoned citrus grove.

(c) "Eligible costs" means the costs, incurred after an application is selected for funding, of the removal or destruction the citrus trees and the elimination of any citrus greening vectors, as described in the removal or destruction plan in the funded application.

(d) "Funded application" means an application selected for cost-share funding pursuant to this section and rules adopted by the department.

(e) "Program" means the Grove Removal or Vector Elimination Program.

(3) The department shall adopt by rule the standards to be used in reviewing and ranking applications for cost-share

funding under the program based on the following factors:

(a) The length of time the citrus groves have been abandoned.

(b) Whether the citrus groves are located within a Citrus Health Management Area.

(c) The proximity of the abandoned citrus groves to other citrus groves currently in production.

(4) An applicant may submit multiple applications for the program, but is eligible only for a maximum of $125,000 in program cost-share funding in a given fiscal year. The department may award to each funded application a cost-share of up to 80 percent of eligible costs. The total amount of cost-share allocated under the program in each fiscal year may not exceed the amount specifically appropriated for the program for the fiscal year.

(5) An applicant seeking cost-share assistance under the program must submit an application to the department by a date determined by department rule. The application must include, at minimum:

(a) The applicant's plan to remove or destroy citrus trees and any citrus greening vectors in the abandoned citrus grove.

(b) An affidavit from the applicant certifying that all information contained in the application is true and correct.

(c) All information determined by rule to be necessary for the department to determine eligibility for the program and rank applications.

(6) If the department determines an application to be incomplete, it may require the applicant to submit additional information within 10 days after such determination is made.

(7) Each fiscal year, the department shall review all complete applications received in accordance with its rules adopted pursuant to subsection (5). For each such complete submitted application, the department must rank the applications in accordance with the factors specified in subsection (3) and, before selecting an application for funding, must conduct an inspection of the abandoned citrus grove that is the subject of the application.

(8) The department may deny an application pursuant to chapter 120 for failure to comply with this section and department rules.

(9) If an application is selected for funding, the applicant must initiate and complete the removal or destruction of the citrus trees identified in the application within the timeframe specified by department rule. The applicant's failure to initiate and complete the removal or destruction of the identified citrus trees within the time specified by the department results in the forfeiture of the cost-share funding approved based on the application. Upon such occurrence, the department shall notify the next eligible applicant, based upon its ranking of applicants for the fiscal year, of the availability of cost-share funding. Such applicant, upon acceptance, may be awarded cost-share funding pursuant to this section, subject to available program funds.

(10) Upon completion of the removal or destruction of the citrus trees identified in the funded application, the applicant shall present proof of payment of removal or destruction costs to the department. Upon receipt of satisfactory proof of payment and satisfactory proof of the removal or destruction of the

trees identified in the funded application, the department may issue payment to the applicant for the previously approved cost-share amount.

(11) The department may adopt rules to implement and administer this section, including an application process and requirements, an application ranking process that is consistent with the factors specified in subsection (3), and the administration of cost-share funding.

(12) The annual awarding of funding through the program is subject to specific legislative appropriation for this purpose.

Section 22. Subsections (1), (4), (5), (7), and (8) of section 582.01, Florida Statutes, are amended to read:

582.01 Definitions.—Wherever used or referred to in this chapter unless a different meaning clearly appears from the context:

(1) "District" ~~or "soil conservation district"~~ or "soil and water conservation district" means a governmental subdivision of this state, and a body corporate and politic, organized in accordance with the provisions of this chapter, for the purpose, with the powers, and subject to the provisions set forth in this chapter. The term "district," ~~or "soil conservation district,"~~ when used in this chapter, means and includes a "soil and water conservation district." All districts heretofore or hereafter organized under this chapter shall be known as soil and water conservation districts and shall have all the powers set out herein.

(4) "Landowner" or "owner of land" includes any person who holds ~~shall hold~~ legal or equitable title to any lands lying within a district organized under the provisions of this

chapter.

(5) "Land occupier" or "occupier of land" includes any person, other than the owner, who is a lessee, renter, or tenant or who is otherwise ~~shall be~~ in possession of land ~~any lands~~ lying within a district ~~organized under the provisions of this chapter, whether as lessee, renter, tenant, or otherwise~~.

(7) "Due notice," in addition to notice required pursuant to the provisions of chapter 120, means notice published at least twice, with an interval of at least 7 days between the two publication dates, in a newspaper or other publication of general circulation within the appropriate area ~~or, if no such publication of general circulation be available, by posting at a reasonable number of conspicuous places within the appropriate area, such posting to include, where possible, posting at public places where it may be customary to post notices concerning county or municipal affairs generally~~. ~~At any hearing held pursuant to such notice, at the time and place designated in such notice, adjournment may be made from time to time without the necessity of renewing such notice for such adjourned dates.~~

~~(8) "Administrative officer" means the administrative officer of soil and water conservation created by s. 582.09.~~

Section 23. Section 582.02, Florida Statutes, is amended to read:

582.02 Legislative intent and findings; purpose of districts ~~Lands a basic asset of state~~.—

(1) It is the intent of the Legislature to promote the appropriate and efficient use of soil and water resources, protect water quality, prevent floodwater and sediment damage, preserve wildlife, protect public lands, and protect and promote

the health, safety, and welfare of the public.

(2) The Legislature finds that the farm, forest, and grazing lands; green spaces; recreational areas; and natural areas of the state are among its ~~the~~ basic assets ~~of the state~~ and that the conservation ~~preservation~~ of these assets ~~lands~~ is in the public interest ~~necessary to protect and promote the health, safety, and general welfare of its people ; improper land use practices have caused and have contributed to, and are now causing and contributing to a progressively more serious erosion of the farm and grazing lands of this state by fire, wind and water; the breaking of natural grass, plant, and forest cover has interfered with the natural factors of soil stabilization, causing loosening of soil and exhaustion of humus, and developing a soil condition that favors erosion; the top soil is being burned, washed and blown out of fields and pastures; there has been an accelerated washing of sloping fields; these processes of erosion by fire, wind and water speed up with removal of absorptive topsoil, causing exposure of less absorptive and less protective but more erosive subsoil; failure by any landowner or occupier to conserve the soil and control erosion upon her or his lands causes destruction by burning, washing and blowing of soil and water from her or his lands onto other lands and makes the conservation of soil and control erosion of such other lands difficult or impossible~~.

(3) The Legislature further finds it necessary that appropriate land and water resource protection practices be implemented to ensure the conservation of this state's farm, forest, and grazing lands; green spaces; recreational areas; and natural areas and to conserve, protect, and properly use soil

and water resources.

(4) The purpose of the soil and water conservation districts is to provide assistance, guidance, and education to landowners, land occupiers, the agricultural industry, and the general public in implementing land and water resource protection practices and to work in conjunction with federal, state, and local agencies in all matters to implement this chapter.

Section 24. Section 582.055, Florida Statutes, is amended to read:

582.055 Powers and duties of the Department of Agriculture and Consumer Services.—The department has all of the following powers and duties:

(1) To administer ~~The provisions of~~ this chapter ~~shall be administered by the Department of Agriculture and Consumer Services~~.

(2) ~~The department is authorized~~ To receive gifts, appropriations, materials, equipment, lands, and facilities and to manage, operate, and disburse them for the use and benefit of the soil and water conservation districts of the state.

(3) To require ~~The department shall provide for~~ an annual audit of the accounts of receipts and disbursements.

(4) To ~~The department may~~ furnish information and call upon any state or local agencies for cooperation in carrying out the provisions of this chapter.

(5) To offer assistance as may be appropriate to the supervisors of soil and water conservation districts and to facilitate communication and cooperation between the districts.

(6) To seek the cooperation and assistance of the Federal

Government and any of its agencies, and of agencies and counties of this state, in the work of such districts, including the receipt and expenditure of state, federal, or other funds or contributions.

(7) To disseminate information throughout the state concerning the activities and programs of the soil and water conservation districts and to encourage the formation of such districts in areas where their organization is desirable.

(8) To create or dissolve a soil and water conservation district pursuant to this chapter.

(9) To adopt rules, as necessary, to implement this chapter.

Section 25. Subsection (2) of section 582.06, Florida Statutes, is amended to read:

582.06 Soil and Water Conservation Council; powers and duties.—

(2) POWERS AND DUTIES; MEETINGS; PROCEDURES; RECORDS.—

(a) The meetings, powers and duties, procedures, and recordkeeping of the Soil and Water Conservation Council shall be conducted pursuant to s. 570.232.

(b) The council shall accept and review requests for creating or dissolving soil and water conservation districts and shall, by a majority vote, recommend to the commissioner by resolution that a district be created or dissolved pursuant to the request or that the request be denied.

(c) At the request of the Governor or a district, the council shall consider and recommend to the Governor the removal or retention of a supervisor for neglect of duty or malfeasance in office.

576-02403-16

Section 26. Section 582.16, Florida Statutes, is amended to read:

582.16 Change of ~~Addition of territory to~~ district boundaries ~~or removal of territory therefrom~~.~~—~~Requests to increase or decrease the boundaries of ~~Petitions for including additional territory or removing territory within~~ an existing district may be filed with the department ~~of Agriculture and Consumer Services~~, and the department shall follow the proceedings provided for in this chapter to create a district ~~in the case of petitions to organize a district shall be observed in the case of petitions for such inclusion or removal~~. ~~The department shall prescribe the form for such petition, which shall be as nearly as may be in the form prescribed in this chapter for petitions to organize a district. If the petition is signed by a majority of the landowners of such area, no referendum need be held. In referenda upon petitions for such inclusions or removals, all owners of land lying within the proposed area to be added or removed shall be eligible to vote.~~

Section 27. Section 582.20, Florida Statutes, is amended to read:

582.20 Powers of districts and supervisors.~~—~~A soil and water conservation district organized under ~~the provisions of~~ this chapter constitutes ~~shall constitute~~ a governmental subdivision of this state~~,~~ and a public body corporate and politic, exercising public powers, and such district and the supervisors thereof~~, shall~~ have all of the following powers, in addition to others granted in other sections of this chapter:

(1) To conduct surveys, studies ~~investigations~~, and research relating to ~~the character of~~ soil and water resources

576-02403-16

and ~~erosion and floodwater and sediment damages, to the conservation, development and utilization of soil and water resources and the disposal of water, and to the preventive and control measures and works of improvement needed;~~ to publish and disseminate the results of such surveys, studies, and ~~investigations, or~~ research~~,~~ ~~;~~ and related ~~to disseminate~~ information. ~~concerning such preventive and control measures and works of improvement; provided, however, that in order to avoid duplication of research activities, no district shall initiate any research program except in cooperation with the government of this state or any of its agencies, or with the United States or any of its agencies;~~

(2) To conduct agricultural best management practices demonstration ~~demonstrational~~ projects and projects for the conservation, protection, and restoration of soil and water resources:

(a) Within the district's boundaries;

(b) Within another district's boundaries, subject to the other district's approval;~~, territory within another district's boundaries subject to the other district's approval, or territory~~

(c) In areas not contained within any district's boundaries on lands owned or controlled by this state or any of its agencies, with the cooperation of the agency administering and having jurisdiction thereof; or~~, and~~

(d) On any other lands within the district's boundaries, ~~territory~~ within another district's boundaries subject to the other district's approval, or on lands ~~territory~~ not contained within any district's boundaries upon obtaining the consent of

the owner and occupiers of such lands or the necessary rights or interests in such lands.~~, in order to demonstrate by example the means, methods, and measures by which soil and soil resources may be conserved, and soil erosion in the form of soil blowing and soil washing may be prevented and controlled, and works of improvement for flood prevention or the conservation, development and utilization of soil and water resources, and the disposal of water may be carried out;~~

~~(3) To carry out preventive and control measures and works of improvement for flood prevention or the conservation, development and utilization of soil and water resources, and the disposal of water within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries, including, but not limited to, engineering operations, methods of cultivation, the growing of vegetation, changes in use of land, and the measures listed in s. 582.04 on lands owned or controlled by this state or any of its agencies, with the cooperation of the agency administering and having jurisdiction thereof, and on any other lands within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries upon obtaining the consent of the owner and the occupiers of such lands or the necessary rights or interests in such lands;~~

(3) ~~(4)~~ To cooperate~~,~~ or enter into agreements with~~, and within the limits of appropriations duly made available to it by law, to furnish financial or other aid to,~~ any special district, municipality, county, water management district, state or

federal agency, governmental or otherwise, or any owner or occupier of lands within the district's boundaries; on lands~~,~~ ~~territory~~ within another district's boundaries, subject to the other district's approval; or on lands~~, or territory~~ not contained within any district's boundaries, to further the purpose of this chapter. ~~in the carrying on of erosion control or prevention operations and works of improvement for flood prevention or the conservation, development and utilization, of soil and water resources and the disposal of water within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries, subject to such conditions as the supervisors may deem necessary to advance the purposes of this chapter;~~

(4) ~~(5)~~ To obtain options upon and to acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, any property, real or personal, or rights or interests in such property ~~therein~~; to maintain, administer, and improve any properties acquired, to receive income from such properties, and to expend such income in complying with ~~carrying out the purposes and provisions of~~ this chapter; and to sell, lease, or otherwise dispose of any of its property or interests ~~therein~~ in compliance with ~~furtherance of the purposes and the provisions of~~ this chapter.~~;~~

(5) ~~(6)~~ To make available, on such terms as it shall prescribe, agricultural, engineering, and other machinery, materials, and equipment to landowners and occupiers of land within the district's boundaries, on lands ~~territory~~ within another district's boundaries, subject to the other district's

approval~~;~~ or on lands ~~territory~~ not contained within any district's boundaries. Such machinery, materials, and equipment must~~, agricultural and engineering machinery and equipment, fertilizer, seeds and seedlings, and such other material or equipment, as will~~ assist such landowners and occupiers of land to conduct ~~carry on~~ operations upon their lands for the conservation and protection of soil and water resources. ~~and for the prevention or control of soil erosion and for flood prevention or the conservation, development and utilization, of soil and water resources and the disposal of water;~~

(6) ~~(7)~~ To construct, improve, operate, and maintain such structures as may be necessary or convenient for the performance of any of the operations authorized in this chapter.~~;~~

(7) ~~(8)~~ To provide or assist in providing training and education programs that further the purposes of this chapter. ~~develop comprehensive plans for the conservation of soil and water resources and for the control and prevention of soil erosion and for flood prevention or the conservation, development and utilization of soil and water resources, and the disposal of water within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries, which plans shall specify in such detail as may be possible the acts, procedures, performances, and avoidances which are necessary or desirable for the effectuation of such plans, including the specification of engineering operations, methods of cultivation, the growing of vegetation, cropping programs, tillage practices, and changes in use of land; control of artesian wells; and to publish such plans and~~

~~information and bring them to the attention of owners and occupiers of lands within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries;~~

~~(9) To take over, by purchase, lease, or otherwise, and to administer any soil-conservation, erosion-control, erosion-prevention project, or any project for flood-prevention or for the conservation, development and utilization of soil and water resources, and the disposal of water, located within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries, undertaken by the United States or any of its agencies, or by this state or any of its agencies; to manage as agent of the United States or any of its agencies, or of the state or any of its agencies, any soil-conservation, erosion-control, erosion-prevention, or any project for flood prevention or for the conservation, development, and utilization of soil and water resources, and the disposal of water within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries; to act as agent for the United States, or any of its agencies, or for the state or any of its agencies, in connection with the acquisition, construction, operation or administration of any soil-conservation, erosion-control, erosion-prevention, or any project for flood-prevention or for the conservation, development and utilization of soil and water resources, and the~~

576-02403-16

~~disposal of water within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries; to accept donations, gifts, and contributions in money, services, materials, or otherwise, from the United States or any of its agencies, or from this state or any of its agencies, or from others, and to use or expend such moneys, services, materials or other contributions in carrying on its operations;~~

(8)~~(10)~~ To sue and be sued in the name of the district; to have a seal, which seal shall be judicially noticed; to have perpetual succession unless terminated as provided in this chapter; to make and execute contracts and other instruments necessary or convenient to the exercise of its powers; and upon a majority vote of the supervisors of the district, to borrow money and to execute promissory notes and other evidences of indebtedness in connection therewith, and to pledge, mortgage, and assign the income of the district and its personal property as security therefor, the notes and other evidences of indebtedness to be general obligations only of the district and in no event to constitute an indebtedness for which the faith and credit of the state or any of its revenues are pledged~~; to make, amend, and repeal rules and regulations not inconsistent with this chapter to carry into effect its purposes and powers~~.

(9) In coordination with the applicable counties, to use the services of the county agricultural agents and the facilities of their offices, if practicable and feasible. The supervisors may employ additional permanent or temporary staff, as needed, and determine their qualifications, duties, and

576-02403-16

compensation. The supervisors may delegate to their chair, to one or more supervisors, or to employees such powers and duties as they may deem proper, consistent with this chapter. The supervisors shall furnish to the department, upon request, copies of rules, orders, contracts, forms, and other documents they adopt or employ, and other information concerning their activities which the department may require in the performance of its duties under this chapter.

(10) To adopt rules pursuant to chapter 120 to implement this chapter.

(11) To request that the Governor remove a supervisor for neglect of duty or malfeasance in office by adoption of a resolution at a public meeting. If the district believes there is a need for a review of the request, the district may request the council, by resolution, to review the request and recommend action to the Governor. ~~As a condition to the extending of any benefits under this chapter to, or the performance of work upon, any lands not owned or controlled by this state or any of its agencies, the supervisors may require contributions in money, services, materials, or otherwise to any operations conferring such benefits, and may require landowners and occupiers to enter into and perform such agreements or covenants as to the permanent use of such lands as will tend to prevent or control erosion and prevent floodwater and sediment damages thereon;~~

(12) ~~No~~ Provisions with respect to the acquisition, operation, or disposition of property by public bodies of this state do not apply ~~shall be applicable~~ to a district organized under this chapter ~~hereunder~~ unless the Legislature ~~shall~~ specifically provides for their application ~~so state~~. The

property and property rights ~~of every kind and nature~~ acquired by a ~~any~~ district organized under ~~the provisions of~~ this chapter are ~~shall be~~ exempt from state, county, and other taxation.

Section 28. Section 582.29, Florida Statutes, is amended to read:

582.29 State agencies to cooperate.—Agencies of this state which ~~shall~~ have jurisdiction over, or are ~~be~~ charged with, the administration of any state-owned lands, and agencies of any county~~,~~ or other governmental subdivision of the state~~,~~ which ~~shall~~ have jurisdiction over, or are ~~be~~ charged with the administration of, any county-owned or other publicly owned lands~~, lying within the boundaries of any district organized under this chapter, the boundaries of another district subject to that district's approval, or territory not contained within the boundaries of any district organized under this chapter,~~ shall cooperate to the fullest extent with the supervisors of such districts in the implementation ~~effectuation~~ of programs and operations undertaken by the supervisors under ~~the provisions of~~ this chapter. The supervisors of such districts shall be given free access to enter and perform work upon such publicly owned lands. ~~The provisions of land use regulations adopted shall be in all respects observed by the agencies administering such publicly owned lands.~~

Section 29. Present subsections (4) and (5) of section 595.402, Florida Statutes, are redesignated as subsections (5) and (6), respectively, and a new subsection (4) and subsections (7) and (8) are added to that section, to read:

595.402 Definitions.—As used in this chapter, the term:

(4) "School breakfast program" means a program authorized

by s. 4 of the Child Nutrition Act of 1966 and administered by the department.

(7) "Summer nutrition program" means one or more of the programs authorized under 42 U.S.C. s. 1761.

(8) "Universal school breakfast program" means a program that makes breakfast available at no cost to all students regardless of their household income.

Section 30. Section 595.404, Florida Statutes, is amended to read:

595.404 School food and other nutrition programs ~~service program~~; powers and duties of the department.—The department has the following powers and duties:

(1) To conduct, supervise, and administer the program that will be carried out using federal or state funds, or funds from any other source.

(2) To conduct, supervise, and administer a Farmers' Market Nutrition Program to provide participants in the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) with locally grown fruits and vegetables. The program is to be carried out using federal or state funds or funds from any other source.

(3) ~~(2)~~ To fully cooperate with the United States Government and its agencies and instrumentalities so that the department may receive the benefit of all federal financial allotments and assistance possible to carry out the purposes of this chapter.

(4) ~~(3)~~ To implement and adopt by rule, as required, federal regulations ~~to maximize federal assistance for the program~~.

(5) ~~(4)~~ To act as agent of, or contract with, the Federal Government, another state agency, any county or municipal

government, or sponsor for the administration of the program, including the distribution of funds provided by the Federal Government to support the program.

(6) ~~(5)~~ To provide ~~make a reasonable effort to ensure that any school designated as~~ a "severe need school" ~~receives~~ the highest rate of reimbursement to which it is entitled under 42 U.S.C. s. 1773 for each breakfast meal served.

(7) ~~(6)~~ To develop and propose legislation necessary to implement the program, encourage the development of innovative school food and nutrition services, and expand participation in the program.

(8) ~~(7)~~ To annually allocate among the sponsors, as applicable, funds provided from the school breakfast supplement in the General Appropriations Act based on each district's total number of free and reduced-price breakfast meals served.

(9) ~~(8)~~ To employ such persons as are necessary to perform its duties under this chapter.

(10) ~~(9)~~ To adopt rules covering the administration, operation, and enforcement of the program, and the Farmers' Market Nutrition Program, as well as to implement ~~the provisions of~~ this chapter.

(11) ~~(10)~~ To adopt and implement an appeal process by rule, as required by federal regulations, for applicants and participants under the programs implemented under this chapter ~~program~~, notwithstanding ss. 120.569 and 120.57-120.595.

(12) ~~(11)~~ To assist, train, and review each sponsor in its implementation of the program.

(13) ~~(12)~~ To advance funds from the program's annual appropriation to a summer nutrition program sponsor ~~sponsors~~,

when requested, in order to implement ~~the provisions of~~ this chapter and in accordance with federal regulations.

(14) To collect data on food purchased through the programs defined in ss. 595.402(3) and 595.406 and to publish that data annually.

(15) To enter into agreements with federal or state agencies to coordinate or cooperate in the implementation of nutrition programs.

Section 31. Section 595.405, Florida Statutes, is amended to read:

595.405 School nutrition program requirements ~~for school districts and sponsors~~.—

(1) Each ~~school~~ district school board shall consider the recommendations of the district school superintendent and adopt policies to provide for an appropriate food and nutrition service program for students consistent with federal law and department rules.

(2) Each ~~school~~ district school board shall implement school breakfast programs that make breakfast meals available to all students in each ~~elementary~~ school that serves any combination of grades kindergarten through 5. ~~Universal school breakfast programs shall be offered in schools in which 80 percent or more of the students are eligible for free or reduced-price meals. Each school shall, to the maximum extent practicable, make breakfast meals available to students at an alternative site location, which may include, but need not be limited to, alternative breakfast options as described in publications of the Food and Nutrition Service of the United States Department of Agriculture for the federal School~~

~~Breakfast Program.~~

(3) Each ~~school~~ district school board must annually set prices for breakfast meals at rates that, combined with federal reimbursements and state allocations, are sufficient to defray costs of school breakfast programs without requiring allocations from the district's operating funds, except if the district school board approves lower rates.

~~(4) Each school district is encouraged to provide universal, free school breakfast meals to all students in each elementary, middle, and high school. Each school district shall approve or disapprove a policy, after receiving public testimony concerning the proposed policy at two or more regular meetings, which makes universal, free school breakfast meals available to all students in each elementary, middle, and high school in which 80 percent or more of the students are eligible for free or reduced-price meals.~~

(4) ~~(5)~~ Each ~~elementary, middle, and high~~ school operating a breakfast program shall make a breakfast meal available if a student arrives at school on the school bus less than 15 minutes before the first bell rings and shall allow the student at least 15 minutes to eat the breakfast.

(5) Each district school board is encouraged to provide universal, free school breakfast meals to all students in each elementary, middle, and high school. A universal school breakfast program shall be implemented in each school in which 80 percent or more of the students are eligible for free or reduced-price meals, unless the district school board, after considering public testimony at two or more regularly scheduled board meetings, decides to not implement such a program in such

schools.

(6) To increase school breakfast and universal school breakfast program participation, each school district must, to the maximum extent practicable, make breakfast meals available to students through alternative service models as described in publications of the Food and Nutrition Service of the United States Department of Agriculture for the federal School Breakfast Program.

(7) ~~(6)~~ Each ~~school~~ district school board shall annually provide ~~to all students in each elementary, middle, and high school~~ information prepared by the district's food service administration regarding available ~~its~~ school breakfast programs. The information shall be communicated through school announcements and ~~written~~ notices sent to all parents.

(8) ~~(7)~~ A ~~school~~ district school board may operate a breakfast program providing for food preparation at the school site or in central locations with distribution to designated satellite schools or any combination thereof.

~~(8) Each sponsor shall complete all corrective action plans required by the department or a federal agency to be in compliance with the program.~~

Section 32. Section 595.406, Florida Statutes, is amended to read:

595.406 Florida Farm to School ~~Fresh Schools~~ Program.—

(1) In order to implement the Florida Farm to School ~~Fresh Schools~~ Program, the department shall develop policies pertaining to school food services which encourage:

(a) Sponsors to buy fresh and high-quality foods grown in this state when feasible.

(b) Farmers in this state to sell their products to sponsors, school districts, and schools.

(c) Sponsors to demonstrate a preference for competitively priced organic food products.

(d) Sponsors to make reasonable efforts to select foods based on a preference for those that have maximum nutritional content.

(2) The department shall provide outreach, guidance, and training to sponsors, schools, school food service directors, parent and teacher organizations, and students about the benefit of fresh food products from farms in this state.

(3) The department may recognize sponsors who purchase at least 10 percent of the food they serve from the Florida Farm to School Program.

Section 33. Subsection (2) of section 595.407, Florida Statutes, is amended to read:

595.407 Children's summer nutrition program.—

(2) Each school district shall develop a plan to sponsor or operate a summer nutrition program to operate sites in the school district as follows:

(a) Within 5 miles of at least one ~~elementary~~ school that serves any combination of grades kindergarten through 5 at which 50 percent or more of the students are eligible for free or reduced-price school meals and for the duration of 35 ~~consecutive~~ days between the end of the school year and the beginning of the next school year. School districts may exclude holidays and weekends.

(b) Within 10 miles of each ~~elementary~~ school that serves any combination of grades kindergarten through 5 at which 50

percent or more of the students are eligible for free or reduced-price school meals, except as operated pursuant to paragraph (a).

Section 34. Section 595.408, Florida Statutes, is amended to read:

595.408 Food ~~Commodity~~ distribution services; department responsibilities and functions.—

(1)(a) The department shall conduct, supervise, and administer all food ~~commodity~~ distribution services that will be carried on using federal or state funds, or funds from any other source, or food ~~commodities~~ received and distributed from the United States or any of its agencies.

(b) The department shall determine the benefits each applicant or recipient of assistance is entitled to receive under this chapter, provided that each applicant or recipient is a resident of this state and a citizen of the United States or is an alien lawfully admitted for permanent residence or otherwise permanently residing in the United States under color of law.

(2) The department shall cooperate fully with the United States Government and its agencies and instrumentalities so that the department may receive the benefit of all federal financial allotments and assistance possible to carry out the purposes of this chapter.

(3) The department may:

(a) Accept any duties with respect to food ~~commodity~~ distribution services as are delegated to it by an agency of the Federal Government or any state, county, or municipal government.

(b) Act as agent of, or contract with, the Federal Government, state government, or any county or municipal government in the administration of food ~~commodity~~ distribution services to secure the benefits of any public assistance that is available from the Federal Government or any of its agencies, and in the distribution of funds received from the Federal Government, state government, or any county or municipal government for food ~~commodity~~ distribution services within the state.

(c) Accept from any person or organization all offers of personal services, food ~~commodities~~, or other aid or assistance.

(4) This chapter does not limit, abrogate, or abridge the powers and duties of any other state agency.

Section 35. Section 595.501, Florida Statutes, is amended to read:

595.501 Penalties.—

(1) If a corrective action plan is issued by the department or a federal agency, each sponsor must complete the corrective action plan to be in compliance with the program.

(2) Any person or~~,~~ sponsor~~, or school district~~ that violates any provision of this chapter or any rule adopted thereunder or otherwise does not comply with the program is subject to a suspension or revocation of their agreement, loss of reimbursement, or a financial penalty in accordance with federal or state law or both. This section does not restrict the applicability of any other law.

Section 36. Section 595.601, Florida Statutes, is amended to read:

595.601 Food and Nutrition Services Trust Fund.—Chapter 99-

37, Laws of Florida, recreated the Food and Nutrition Services Trust Fund to record revenue and disbursements of Federal Food and Nutrition funds received by the department as authorized in ss. 595.404 and 598.408 ~~s. 595.405~~.

Section 37. Section 601.31, Florida Statutes, is amended to read:

601.31 Citrus inspectors; employment.—The Department of Agriculture may in each year employ as many citrus fruit inspectors for such period or periods, not exceeding 1 year, as the Department of Agriculture shall deem necessary for the effective enforcement of the citrus fruit laws of this state. All persons authorized to inspect and certify to the maturity and grade of citrus fruit shall be governed in the discharge of their duties as such inspectors by the provisions of law and by the rules adopted by the Department of Citrus and the Department of Agriculture and shall perform their duties under the direction and supervision of the Department of Agriculture. All citrus inspectors appointed for the enforcement of this chapter shall be persons who are duly licensed or certified by the ~~United States~~ Department of Agriculture as citrus fruit inspectors.

Section 38. Paragraphs (b) and (d) of subsection (1) and subsection (2) of section 604.21, Florida Statutes, are amended to read:

604.21 Complaint; investigation; hearing.—

(1)

(b) To be considered timely filed, a complaint together with any required affidavits ~~or notarizations~~ must be received by the department within 6 months after the date of sale by

electronic transmission, facsimile, regular mail, certified mail, or private delivery service. If the complaint is sent by a service other than electronic mail or facsimile, the mailing shall be postmarked or dated on or before the 6-month deadline to be accepted as timely filed.

(d) A person, partnership, corporation, or other business entity filing a complaint shall submit to the department a ~~the following documents: three~~ completed complaint affidavit ~~affidavits~~ on a form provided by the department which bears ~~with~~ an original signature of an owner, partner, general partner, or corporate officer and an original notarization and which is accompanied by ~~on each affidavit. If the complaint is filed by electronic transmission or facsimile, the original affidavits and original notarizations shall be filed with the department not later than the close of business of the tenth business day following the electronic transmission or facsimile filing. Attached to each complaint affidavit shall be~~ copies of all documents that ~~to~~ support the complaint. Supporting documents may include ~~be~~ copies of invoices, bills of lading, packing or shipping documents, demand letters, or any other documentation to support the claim. In cases in which ~~there are~~ multiple invoices are being claimed, a summary list of all claimed invoices must accompany the complaint.

(2) Upon the filing of a ~~such~~ complaint under this subsection ~~in the manner herein provided~~, the department shall investigate the complaint and ~~matters complained of; whereupon,~~ if it finds that~~, in the opinion of the department,~~ the facts contained in the complaint warrant it ~~such action~~, ~~the department~~ shall serve notice of the filing of complaint on ~~to~~

the dealer against whom the complaint has been filed at the last address of record. Such notice shall be accompanied by a ~~true~~ copy of the complaint. A copy of such notice and complaint shall also be served on any ~~to the~~ surety company~~, if any,~~ that provided the bond for the dealer, and the ~~which~~ surety company shall become party to the action. Such notice of the complaint shall inform the dealer of a reasonable time within which to answer the complaint by advising the department in writing that the allegations in the complaint are admitted or denied or that the complaint has been satisfied. Such notice shall also inform the dealer and the surety company or financial institution of a right to request a hearing on the complaint~~, if requested~~.

Section 39. Section 604.33, Florida Statutes, is amended to read:

604.33 Security requirements for grain dealers.—Each grain dealer doing business in the state shall maintain liquid security, in the form of grain on hand, cash, certificates of deposit, or other nonvolatile security that can be liquidated in 10 days or less, or cash bonds, surety bonds, or letters of credit, that have been assigned to the department and that are conditioned to secure the faithful accounting for and payment to the producers for grain stored or purchased, in an amount equal to the value of grain which the grain dealer has received from grain producers for which the producers have not received payment. The bonds must be executed by the applicant as principal and by a surety corporation authorized to transact business in the state. The certificates of deposit and letters of credit must be from a recognized financial institution doing business in the United States. ~~Each grain dealer shall report to~~

~~the department monthly, on or before a date established by rule of the department, the value of grain she or he has received from producers for which the producers have not received payment and the types of transaction involved, showing the value of each type of transaction. The report shall also include a statement showing the type and amount of security maintained to cover the grain dealer's liability to producers.~~ The department may ~~shall~~ make at least one spot check annually of each grain dealer to determine compliance with the requirements of this section.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1010 addresses issues relating to agriculture and certain powers and duties of the Department of Agriculture and Consumer Services (department). The bill:

- Designates tupelo honey as the official state honey.
- Changes the procedure to obtain and renew a pest control operator's certificate and eliminates a late charge.
- Changes the deadline to submit a recertification application for the limited certification for urban landscape commercial fertilizer application and eliminates the $50 per month late charge for late recertification.
- Adds the term "dietary supplements" to the list of possibly adulterated foods.
- Defines the term "vehicle" to provide clarity to the types of mobile carriers that fall under the department's regulatory authority.
- Adds allergen information labeling requirements to the list of possibly misbranded foods.
- Authorizes the department to sponsor "events" (not just breakfasts, luncheons, or dinners) to promote agriculture and agricultural business products.
- Authorizes the department to secure letters of patent, copyrights, and trademarks on any work products of the department and accordingly to enforce its rights.
- Authorizes the department to use money deposited in the Pest Control Trust Fund to carry out any of the powers and duties of the Division of Agricultural Environmental Services.
- Creates an Office of Agriculture Technology Services.

- Removes the requirement for the department to provide administrative staff relating to meetings and office space for the Florida Agriculture Center and Horse Park Authority.
- Specifies the intent of the "Fresh From Florida" marketing brand.
- Amends membership requirements for the Florida Agricultural Promotional Campaign Advisory Council.
- Modifies the reporting period for fertilizer tonnage sales from monthly to quarterly and changes the reporting requirement from 15 days to 30 days following the close of the reporting period.
- Preempts regulatory authority for commercial feed and feedstuff to the department.
- Removes the requirement that the department notify a property owner that a plant infested or infected with plant pests or noxious weeds has been found on their property if the plant is infested with pests or noxious weeds that are determined to be widely established in Florida. This change provides the department with the flexibility to not have to require an owner to destroy or remove the plant.
- Creates the Grove Removal or Vector Elimination Program.
- Rewrites ch. 582, F.S., to modernize the Soil and Water Conservation Districts' (SWCDs) statutes to reflect the actual functions of the districts.
- Removes obsolete statutory references relating to Watershed Improvement Districts.
- Adds definitions for "school breakfast program," "summer nutrition program," and "universal school breakfast program" to specify that they are programs which are authorized by federal law.
- Authorizes the department to implement the Farmers' Market Nutrition Program to provide participants in the Supplemental Nutrition Program for Women, Infants, and Children with locally grown fruits and vegetables.
- Requires the department to provide the highest rate of reimbursement to which it is entitled under the federal school breakfast program to a "severe need school".
- Renames the "Florida Farm Fresh Schools Program" to be the "Florida Farm to School Program."
- Eliminates the requirement that each grain dealer report monthly to the department the value of grain it received from producers for which the producers have not received payment.
- Eliminates the Florida Forest Service's power to dedicate its land for use by the public as a park.

The bill has an insignificant impact on state revenues (see Section V. Fiscal Impact Statement); however, the bill will have a significant impact on state expenditures relating to the creation of the Grove Removal or Vector Elimination Program created in section 21.

II. Present Situation:

This section topically describes the present situation and the bill's impact on each. See Section III., for a section-by section analysis of the bill's provisions.

Tupelo Honey

The Legislature has not designated an official state honey. Pure Tupelo honey is commercially produced in only three river valleys in the world – the Ogeechee, the Apalachicola, and the

Chattahoochee River Basins, which are all located in northwest Florida and Southeast Georgia. The bill designates tupelo honey as the official state honey.

Pest Control Operator's Certification Application Fee

Each location of each licensed pest control business must have a certified operator in charge that is registered with the Department of Agriculture and Consumer Services (department).[1] This person must be certified for the particular category of pest control engaged in at that location and may be in charge of one or more categories if they are certified in those categories.[2] To become a certified operator, an individual must pass an examination and satisfy specified education and experience requirements.[3]

Currently, persons seeking this certification pay $300 to take the exam.[4] After the individual has passed the exam, he or she must then receive an original certificate before engaging in pest control work.[5] To obtain the original certificate, the individual must pay an additional $150 issuance fee.[6] These requirements cause the department to process an additional, repetitive application and to collect an additional fee. Improvements in on-line processing capability have eliminated the need for this process and can improve the speed with which applicants can obtain their certificate. According to the department, while there will be a negative fiscal impact, there will also be decreased costs and administrative burdens for processing the application for initial certification.

Limited Certification for Urban Landscape Commercial Fertilizer Application

Section 482.1562, F.S., outlines the application requirements to receive a limited urban landscape commercial fertilizer certificate. Renewals are required every four years. For those who hold a limited license, recertification applications must be submitted 90-days prior to expiration of the current license. If the renewal application is not received 60 days prior to the expiration date, a late fee of $50 is assessed in addition to the $25 renewal fee. In order to renew a limited commercial fertilizer certificate, the cost may be as much as $75. A new license is $25. The bill removes the late fee and allows certificate holders 30 days to renew their licenses. This process is consistent with other certifications under ch. 482, F.S.

Florida Food Safety Act

The Florida Food Safety Act is intended to:

- Promote public welfare by protecting the consuming public from injury by product use and the purchasing public from injury by merchandising deceit, flowing from intrastate commerce in food;
- Provide uniform legislation so far as practical with federal regulations; and

[1] Section 482.111(6)(a), F.S.
[2] Id.
[3] Section 482.132, F.S.
[4] Section 482.141, F.S.; Rule 5E-14.123(4), F.A.C.
[5] Section 482.111, F.S.
[6] Id.; Rule 5E-14.132(3), F.A.C.

- Promote uniform administration and enforcement of federal and state food safety laws.[7]

The bill proposes adoption by reference of federal law (21 USC 321) which details information about dietary supplements or ingredients. The changes proposed add dietary supplements to the list of foods that could possibly be adulterated. Additionally, the bill sets forth criteria to determine if the supplement is adulterated. Dietary supplements have historically been regulated as a food item and are defined as such in federal law. The expansive growth of such products in the last decade, combined with a lack of understanding by many consumers and producers that supplements and supplement ingredients are food products, has created considerable confusion in the regulation of such products. The department is seeking to clarify its ongoing regulation of these products through definition of the product and inclusion of dietary supplements.

The department currently has authority to inspect vehicles which transport food products. However, the various modes of transportation are not clearly identified. Adding the term "vehicle" to the list of definitions will provide clarity around the types of mobile carriers that fall under the department's regulatory authority.

The department's federal partners recognize allergens as a critical food safety issue and have created regulations for such. Section 500.11, F.S., defines what constitutes misbranded food; however, the language is incomplete and/or inconsistent with federal law in 21 U.S.C. 343. The department recommends adoption by reference of federal law, 21 U.S.C. 343 (w) (1) (a) and (b), which includes labeling requirements for allergen information. Such requirements will better protect consumers by requiring appropriate labeling of foods containing known allergens.

Powers and Organization of the Department of Agriculture and Consumer Services

The Legislature has granted the department authority to regulate and promote Florida agriculture, protect the environment, safeguard consumers, and ensure the safety of food. The department has 13 divisions and five offices that establish rules for the state's animal, aquaculture, forestry and produce industries, license producers, the state's agribusiness marketing needs, oversight of emergency preparedness, and law enforcement efforts covering the agriculture industry. In addition to its agricultural duties, the department regulates various consumer service businesses, including motor vehicle repair shops, charitable organizations, dance studios, pawnshops, telemarketers, and several others. The bill repeals certain department authority and duties that are obsolete and updates others to allow the department to more effectively carry out its duties.

Pest Control Trust Fund

Section 482.2401, F.S., requires all moneys collected or received by the department under chapter 482, F.S., to be deposited into the Pest Control Trust Fund. The department indicates that current language restricts the use of funds to carry out the provisions of ch. 482, F.S., because it prevents resources funded in ch. 482, F.S., from being used to conduct work for other programs. This is problematic when functions across programs are combined within a work unit, such as licensing or inspections. Prior to the reorganization of the Division of Agriculture Environmental Services (AES), the work units were separate for each statutory area. The re-organization

[7] Section 500.02, F.S.

streamlined these units. The bill authorizes the department to use money deposited in the Pest Control Trust Fund to carry out any of the responsibilities of the Division of Agricultural Environmental Services (set forth in s. 570.44, F.S.), not just the Structural Pest Control Act (ch. 482, F.S.). The authority of the Division of Agricultural and Environmental Services includes state mosquito control program coordination, agricultural pesticide registration, testing and regulation, and feed, seed, and fertilizer production inspection and testing. This authorization expires June 30, 2019.

Office of Agriculture Technology Services

Currently, the Division of Administration is responsible for "providing electronic data processing and management information systems support for the department." The bill would create an Office of Agriculture Technology Services as a stand-alone office under the supervision of a senior manager within ch. 570, F.S. This change paves the way for continued implementation of the department's information technology strategic plan.

Florida Agriculture Center and Horse Park

In 1994, the Florida Legislature created the Florida Agriculture Center and Horse Park (Florida Horse Park) in order to provide a unique tourist experience for visitors and Florida residents.[8] The Florida Horse Park is situated on 500 acres that are located south of Ocala. Numerous events occur at the Florida Horse Park throughout the year including rodeos, dressage, polo, obstacle challenges, dog shows, and trail rides.[9] The Florida Agriculture Center and Horse Park Authority (Authority), a twenty-one member group appointed by the Commissioner of Agriculture, oversees the management of the park.[10] The department is currently required to provide administrative and staff support services for the meetings of the Authority and provide suitable space in the offices of the department for Authority's meetings and storage of the Authority's records.[11] The bill revises these requirements so that the department may provide them, but is not required to do so.

Florida Agricultural Promotion Campaign

The department is authorized to establish and coordinate the Florida Agricultural Promotional Campaign (FAPC), also known as the "Fresh From Florida" campaign.[12] This campaign is intended to increase consumer awareness and to expand the market for Florida's agricultural products.[13] Florida agricultural producers may voluntarily join the FAPC. FAPC members may use the "Fresh From Florida" logos, participate in industry trade shows at a reduced cost, receive point-of-purchase materials, have access to trade leads, and receive the "Fresh From Florida" magazine and industry newsletter. Additionally, members of the FAPC can tie into supermarket promotions that feature Florida products in newspaper and store circular advertisements, and

[12] Section 571.24, F.S.
[13] Section 571.22, F.S.

receive a farm sign customized with the member's business name.[14] The bill would clarify the intent of the marketing brand to avoid misconception that the brand is indicative of inspection for food safety purposes and to decrease the possibility of liability to the department. It makes clear that the department is not warranting safety of products by use of the brand. These changes will clarify intent that the FAPC is only providing a marketing program aimed at promoting department brands, including the "Fresh From Florida" program.

Commercial Feed and Feedstuff

"Commercial feed" is all materials or combinations of materials that are distributed or intended to be distributed for use as feed or for mixing in a feed for animals other than humans.[15] "Feedstuff" is edible materials, other than commercial feed, that are distributed for animal consumption and that contribute energy or nutrients, or both, to an animal diet.[16] The department has indicated that it, as well as local governments, if they are inclined to, are authorized to regulate commercial feed and feedstuff for quality, safety, labeling requirements, and standards. At present, there is no regulation of animal feed and feedstuff through local ordinances. The federal Food and Drug Administration is currently promulgating rules which would bring the manufacture and distribution of commercial livestock feed and ingredients to a standard of sanitation safe for both human handling and animal consumption through the Food Safety Modernization Act. The bill would clarify the department's preemptive authority to regulate, inspect, sample, and analyze any commercial feed and feedstuff to eliminate potential duplication of regulation.

Removal and Destruction of Infected and Infested Plants

The Division of Plant Industry must order the removal and destruction of any plant or plant product infested or infected with plant pests or noxious weeds.[17] The division may take this action in order to stop the introduction and dissemination of plants or pests that may threaten Florida's agriculture industry. The division provides written notice to the owner or the person in charge of the premises when the department finds an infested or infected plant or plant product. Within ten days of the notice, the owner or person in charge must treat as directed or remove and destroy the infested or infected plant or plant product. If the owner or person in charge does not, the department may treat as directed or remove and destroy the infested or infected plant or plant product.[18] The bill would create an exception from the destruction requirement for plant or plant products infested with pests or noxious weeds that are widely established in Florida and not regulated. According to the department, there are times when noxious plants, plant pests, or plant diseases are well established in Florida and are not under a department eradication or control program. The bill provides the department with flexibility if the situation does not justify action to eliminate or otherwise mitigate the plant pest or noxious weed.

[18] Section 581.181(2), F.S.

Citrus Greening

Huanglongbing, citrus greening, is thought to be caused by the bacterium, *Candidatus* Liberibacter asiaticus. Citrus greening has seriously affected citrus production in a number of countries in Asia, Africa, the Indian subcontinent and the Arabian Peninsula, and was discovered in July 2004 in Brazil. Wherever the disease has appeared, citrus production has been compromised with the loss of millions of trees. In August 2005, the disease was found in the south Florida region of Homestead and Florida City. Since that time, citrus greening has been found in commercial and residential sites in all counties with commercial citrus.[19] In these areas, citrus crops have been seriously threatened or even completely destroyed. Primary disease symptoms include leaf yellowing or blotchy mottling of leaves; lopsided and bitter fruit; fruit that remains green even when ripe; twig dieback; and stunted, sparsely foliated trees that may bloom off season.[20] When dying groves and unmaintained properties are abandoned by property owners who have not removed the diseased trees, the properties become breeding grounds for citrus greening to spread to neighboring healthy groves. The bill creates the Grove Removal or Vector Elimination Program for the removal or destruction of abandoned citrus groves in order to eliminate the material harboring the citrus greening and spread of the disease.

Soil and Water Conservation Districts

Faced with the problems of the Dust Bowl in the 1930's, President Franklin D. Roosevelt signed the Soil Conservation Act of 1935, which authorized the Secretary of Agriculture to make payments and grants of aid to support approved soil and water conservation measures. The Soil Conservation Service addressed the challenge by setting up a number of large-scale demonstration projects around the country. Although these projects were successful, this approach was not far-reaching enough. It was not only costly and slow to achieve the desired results, but it lacked grass-roots support and participation and did not provide long-lasting conservation treatment. It was recognized that a local organization was necessary through which conservation could be accomplished. In 1937, a model Soil Conservation District Law was developed for consideration by each of the states. Along with a letter from President Roosevelt, this model enabling act was sent to each of the state governors, suggesting that farmers and ranchers be granted the authority to establish districts specifically for conservation of soil and water resources.[21]

Florida adopted much of the model law in 1937.[22] The Legislature recognized farms, forests, and grazing lands as among Florida's basic assets in need of protection from improper land use techniques that cause erosion.[23] It found that erosion reduced the productivity of land, harmed water resources, injured wildlife, caused flooding, and destroyed infrastructure.[24] Thus, corrective measures were required to prevent erosion and conserve, develop, and utilize soil and

[22] Chapter 18144, 1937, Laws of Florida.
[23] Section 582.02, F.S.
[24] Section 582.03, F.S.

water resources.[25] The Legislature intended for soil and water conservation districts (SWCDs) to control and prevent soil erosion, prevent floodwater and sediment damage, further conservation, development, and utilization of soil and water resources, preserve natural resources, control floods, prevent impairment of dams and reservoirs, assist in maintaining the navigability of rivers and harbors, preserve wildlife, protect the tax base, protect public lands, and protect and promote the health, safety and general welfare of the people of Florida.[26] Currently there are 58 SWCDs in Florida. The bill amends ch. 582, F.S., to eliminate obsolete powers and duties relating to the soil and water conservation districts that are obsolete or exercised by other arms of government.

School Nutrition Program

The National School Lunch Program (NSLP) is a federally funded program that assists schools and other agencies in providing nutritious meals to children at reasonable prices. The program was established under the National School Lunch Act, signed by President Harry Truman in 1946.[27] In addition to financial assistance, the NSLP provides donated commodity foods to help reduce lunch program costs. Chapter 595, F.S., authorizes the department to coordinate with the federal government to use federal and state funding to provide school nutrition programs. The Legislature declared that it is the policy of the state to provide standards for school food and nutrition services and to require each school district to establish and maintain an appropriate school food and nutrition service program consistent with the nutritional needs of students.[28]

Schools must apply through the department and complete certain requirements prior to the operation of a school nutrition program.[29] Once approved, the department reimburses the schools for each lunch and breakfast meal served, provided they meet established state and federal regulations. Chapter 595, F.S., does not contain definitions for "school breakfast program," "summer nutrition program," or "universal school breakfast program." The bill adds these definitions to clarify the meaning and usage of these terms both in statute and in rule and to specify that they are the programs authorized by federal law. The department administers more than one United States Department of Agriculture summer nutrition program. The bill amends the definition of "summer nutrition programs" to specify that certain requirements apply to all summer nutrition programs.

Currently, the department must make a reasonable effort to ensure that any school designated as a "severe need school" receives the highest rate of reimbursement to which it is entitled under the federal school breakfast program for each breakfast meal served. The bill clarifies that the department does not just make efforts to, but actually ensures through its processes and procedures, that all eligible severe need schools receive the higher rate of reimbursement. This change will have no economic or substantive effect on any interest groups or stakeholders and will remove ambiguities from the statute that could potentially result in misinterpretation and misapplication of the law. Further, the department may advance funds from the school nutrition program's annual appropriation to sponsors in order to implement the school nutrition program.

[25] Section 582.04, F.S.
[26] Section 582.05, F.S.
[27] *See* http://www.fns.usda.gov/nslp/national-school-lunch-program-nslp
[28] Section 595.403, F.S.
[29] Requirements found in s. 595.405, F.S.

There is no restriction on when or for which program the funds may be advanced. The bill also clarifies that the department will only advance funds when requested by sponsors of the Summer Food Service Program.

Florida Farm to Schools Program

Section 595.406, F.S., provides for implementation of the Florida Farm Fresh Schools Program. The program was instituted in 2010 to require the Florida Department of Education to work with the department to increase the presence of Florida-grown products in schools. When the administration of the school nutrition programs was transferred to the department, this program became part of the Florida Farm to School Program, which was already being administered by the department. The bill replaces all references to the "Florida Farm Fresh Schools Program" with the "Florida Farm to School Program." This allows for consistent messaging and marketing around the department's efforts as stated in the statute. Further changes will allow the department to recognize those school districts who have purchased ten percent of the food they serve under the Florida Farm to School Program.

Children's Summer Nutrition Program

Section 595.407, F.S., requires all school districts to develop a plan to sponsor a summer nutrition program to operate within five miles of at least one elementary school where 50 percent or more of the students are eligible for free or reduced prices meals for 35 consecutive days, and also within 10 miles of each elementary school where 50 percent or more of the students are eligible for free or reduced-price meals. The bill specifies that each school district must provide a summer nutrition program within five miles of at least one school that serves any combination of grades K-5, not just elementary schools. This provision attempts to close a loophole where some K-8 or K-12 schools claimed they were not elementary schools, and therefore, did not have to comply. According to the department, interpretation of this statute has varied greatly. This change may require district school boards to adjust the location or increase the number of summer nutrition program sites they operate. The bill removes the requirement that each school district provide reduced-price school meals during the summer for 35 consecutive days and replaces it with the requirement that each school district provide reduced-price school meals during the summer for 35 days between the end of one school year and the beginning of the next. This allows school districts to exclude holidays and weekends.

Food and Nutrition Services Trust Fund

The Food and Nutrition Services Trust Fund was created for deposit of revenue and disbursements of Federal Food and Nutrition funds received by the department. In s. 595.601, F.S., the authorizing statute for this trust fund is incorrectly cited. Because the Child Nutrition Programs and Food Distribution Programs were housed in separate agencies, federal funding for these programs is currently maintained separately in the Food and Nutrition Services Trust Fund and the Federal Grants Trust Fund. Correcting this reference in s. 595.601, F.S., will direct all future allocations of federal funding into the Food and Nutrition Services Trust Fund and create better efficiency.[30]

[30] Analysis by the Department of Agriculture and Consumer Services for SB 1010, p.16 (December 11, 2015).

Financial Assurance Requirements for Dealers in Agricultural Products and Grain Dealers

Currently, any agricultural dealer who is engaged within this state in the business of purchasing, receiving, or soliciting agricultural products from the producer or the producer's agent or representative is required to obtain a bond or certificate of deposit (CD), as required in s. 604.20(1) F.S. If a CD is the chosen form of security, the dealer is required to furnish the department the CD or a CD receipt, a bank's acknowledgement letter, and an assignment of CD. The bill eliminates the need to provide a letter, accompanying a certificate of deposit, from the issuing institution acknowledging that the assignment has been properly recorded on the books of the issuing institution and will be honored by the issuing institution. This requirement is unnecessary because issuance of the certificate of deposit is acknowledgement that the agreement has been properly recorded.

Each grain dealer must report to the department monthly the value of grain it received from producers for which the producers have not received payment. This report must include a statement showing the type and amount of security maintained to cover the grain dealer's liability to producers. The bill eliminates the requirement that each grain dealer report monthly to the department, as only three of the four licensed dealers are required to do so. The dealers will continue to be licensed and bonded which allows the department to request information from dealers in the event of a complaint or suspected malpractice.

III. Effect of Proposed Changes:

Section 1 creates s. 15.0521, F.S., to designate tupelo honey as the official state honey.

Section 2 amends s. 482.111, F.S., to eliminate the initial certification fee and associated application deadlines for pest control operator applicants.

Section 3 amends s. 482.1562, F.S., to provide renewal clarification for limited certification for urban landscape commercial fertilizer application and to remove a $50 per month late fee. Application for recertification must be submitted four years after the date of issuance.

Section 4 amends s. 500.03, F.S., to revise the definition of the term "food" to include dietary supplements. It also adds a definition for the term "vehicle" in order to recognize the various modes of transportation used by service food establishments and to be consistent with the federal rules implementing the Food Safety Modernization Act. Currently, the Florida Food Safety Act does not define the term.

Section 5 amends s. 500.10, F.S., to include foods transported under certain conditions to be adulterated. The change also adds dietary supplements in the list of foods that could possibly be adulterated and sets forth criterial to determine if it is adulterated.

Section 6 amends s. 500.11, F.S., to adopt by reference federal law which includes labeling requirements for allergen information.

Section 7 amends s. 570.07, F.S., to authorize the Department of Agriculture and Consumer Services (department) to sponsor "events," in addition to trade breakfasts, luncheons, and dinners to promote agriculture and agricultural business products. It also authorizes the department to secure letters of patent, copyrights, and trademarks on any work product of the department and accordingly to enforce its rights.

Section 8 amends s. 570.30, F.S., to remove electronic data processing and management information systems support as a duty for the department's Division of Administration.

Section 9 amends s. 570.441, F.S., to authorize the department to use money deposited in the Pest Control Trust Fund to carry out any of the powers and duties of the Division of Agricultural Environmental Services. This subsection expires June 30, 2019.

Section 10 amends s. 570.53, F.S., to remove duties associated with issuing Agriculture Dealer's Licenses from the duties of the Division of Marketing and Development.

Section 11 amends s. 570.544, F.S., to move issuance of Agriculture Dealer's Licenses from the Division of Marketing and Development to the Division of Consumer Services, which already issues several other licenses. It also requires the department, rather than a specific division, to regulate Live Stock Markets.

Section 12 creates s. 570.68, F.S., to create the Office of Agriculture Technology Services to provide electronic data processing and agency information technology services to the department.

Section 13 amends s. 570.681, F.S., to clarify legislative findings with regard to the Florida Agriculture Center and Horse Park.

Section 14 amends s. 570.685, F.S., to authorize the department to provide staff, meeting space and records storage space for the Florida Agriculture Center and Horse Park Authority.

Section 15 amends s. 571.24, F.S., to clarify the intent of the Florida Agricultural Promotional Campaign as a marketing program. It removes an obsolete provision relating to the designation of a Division of Marketing and Development employee as a member of the Advertising Interagency Coordinating Council.

Section 16 amends s. 571.27, F.S., to remove obsolete provisions relating to the department's authority to adopt rules related to negotiating and entering into contracts with advertising agencies for services that are directly related to the Florida Agricultural Promotional Campaign.

Section 17 amends s. 571.28, F.S., to change the membership criteria for the Florida Agricultural Promotional Campaign Advisory Council. This change would allow members to be selected without regard for a specific number from each category of business, but rather an overall representation of the major business components important to the business of agriculture.

Section 18 amends s. 576.041, F.S., to change fertilizer reporting requirements. This would take advantage of the department's web-based reporting tool and align Florida's tonnage reporting

requirement with other states, where reporting is quarterly. In addition, the grace period in which reports must be submitted after the reporting period would be extended from 15 to 30 days. By moving the reporting period from monthly to quarterly, the potential for licensees to incur penalties for late reporting will decrease and compliance will increase. Reducing the reporting requirement by 66 percent per year will improve customer service, allow staff to be proactive during the four reporting months, and afford them the time to follow up with licensees to ensure compliance with mandated reporting requirements.

Section 19 creates s. 580.0365, F.S., to preempt the regulatory authority for commercial feed and feedstuff to the department in order to eliminate duplication of regulation.

Section 20 amends s. 581.181, F.S., to eliminate the requirement that the department notify a property owner that a plant infested or infected with plant pests or noxious weeds has been found on their property if the plant is infested with pests or noxious weeds that are determined to be widely established in Florida. With this change, the owner will not be required to destroy or remove the plant within ten days.

Section 21 creates s. 581.189, F.S., to create the Grove Removal or Vector Elimination Program, which is a cost-sharing program for the removal or destruction of abandoned citrus groves to eliminate the material harboring the citrus greening and the vectors that spread the disease. It provides definitions for "abandoned citrus grove," "applicant," "eligible costs," "funded application," and "program." This section authorizes the department to adopt rules for reviewing and ranking applications for cost-share funding and establishes the maximum that an applicant may be awarded in any given fiscal year. It specifies the application process and authorizes the department to deny an application if the applicant has not complied with this section or department rules. Applicants selected for funding must initiate and complete the removal of identified citrus trees in the timeframe specified by department rule or the cost-share funding will be forfeited. The annual awarding of funding through the program is subject to specific legislative appropriations.

Section 22 amends s. 582.01, F.S., to redefine terms relating to soil and water conservation. It eliminates the definition of "administrative officer."

Section 23 amends s. 582.02, F.S., to revise legislative intent concerning soil and water conservation districts (SWCDs). This section emphasizes that the purpose of SWCDs is to promote the appropriate and efficient use of soil and water resources, protect water quality, prevent floodwater and sediment damage, preserve wildlife, and protect public lands. It is also to provide assistance, guidance, and education to landowners, land occupiers, the agricultural industry, and the general public in implementing land and water resource protection practices.

Section 24 amends s. 582.055, F.S., to update the powers and duties of the department in relation to SWCDs to reflect its current practices. This section ensures that the department is authorized to work with SWCDs to receive state and federal assistance. It grants the department the power to create and dissolve SWCDs and to adopt rules to implement this chapter.

Section 25 amends s. 582.06, F.S., to grant the Soil and Water Conservation Council the authority to review requests to create or dissolve a SWCD. It also authorizes the council to

consider and provide a recommendation, at the request of the Governor or a district, as to whether a SWCD supervisor should be removed because of neglect of duty or malfeasance in office.

Section 26 amends s. 582.16, F.S., to revise the procedure used in changing district boundaries so that it is the same as when forming a district.

Section 27 amends s. 582.20, F.S., to modernize language relating to SWCDs and their supervisors. The changes focus more on water and best management practices, and less on erosion, to align with the current practices and missions of the districts. Further changes clarify that districts are authorized to partner with other entities on projects regarding floodwater control or soil and water resources. The bill would also allow a supervisor to ask the Governor to remove a fellow supervisor for neglect of duty.

Section 28 amends s. 582.29, F.S., to revise the terms under which state agencies charged with maintenance and administration of state lands must cooperate with the supervisors of any county-owned or publicly owned lands in the implementation of programs and operations under this chapter.

Section 29 amends s. 595.402, F.S., to add definitions for "school breakfast program," "summer nutrition program," and "universal school breakfast program" to specify that these programs are authorized by federal law.

Section 30 amends s. 595.404, F.S., to authorize the department to implement the Farmers' Market Nutrition Program which would provide participants in the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC)[31] with locally grown fruits and vegetables. The program is to be carried out using federal or state funds or funds from any other source. The bill authorizes the department to adopt rules to administer, operate, and enforce the program.

The bill clarifies requirements for the School Nutrition Program. It creates a duty for each school district to provide to a "severe need school" the highest rate of reimbursement to which it is entitled under the federal school breakfast program for each breakfast meal served. It specifies that funds from the school nutrition program may only be advanced to the sponsors of Summer Food Service Programs. This is consistent with the federal requirement in 7 CFR 225.9. This change will have no economic or substantive effect on any interest groups or stakeholders and will remove ambiguities from the statute that could potentially result in misinterpretation and misapplication of the law. The bill requires the department to collect and annually publish data from multiple sources on food purchased by sponsors through the Florida Farm to School Program and other school food and nutrition service programs. The bill also authorizes the department to enter into agreements with federal or state agencies to coordinate or cooperate in the implementation of nutrition programs.

[31] WIC provides federal grants to states for supplemental foods, health care referrals, and nutrition education for low-income pregnant, breastfeeding and non-breastfeeding postpartum women, and to infants and children up to age five who are found to be at nutritional risk http://www.fns.usda.gov/wic/women-infants-amd-childen-wic (last visited December 14, 2015).

Section 31 amends s. 595.405, F.S., to replace every instance of the term "school district" with "district school board." It rewrites the provisions of this section, which specifies that each district school board is encouraged to provide universal, free school breakfast meals to all students in each elementary, middle, and high school. The bill also provides criteria for when a universal school breakfast program must be provided. The reorganizing of the section combines several subsections and removes conflicting and duplicative clauses, so that the section is easier to read, interpret, and apply.

Section 32 amends s. 595.406, F.S., to change the name of the "Florida Farm Fresh Schools Program" to the "Florida Farm to School Program." The bill authorizes the department to recognize school districts who purchase at least ten percent of the food they serve from the Florida Farm to School Program.

Section 33 amends s. 595.407, F.S., to specify that each school district must provide a summer nutrition program within five miles of at least one school that serves any combination of grades kindergarten through five, not just elementary schools. The bill removes the requirement that each school district provide reduced-price school meals during the summer for 35 consecutive days and replaces it with the requirement that each school district provide reduced-price school meals during the summer for 35 days between the end of one school year and the beginning of the next. School districts may exclude holidays and weekends.

Section 34 amends s. 595.408, F.S., to change every instance of the word "commodity" with the word "food" to be consistent with the federal USDA Foods Program.

Section 35 amends s. 595.501, F.S., to remove requirements for corrective action plans from s. 595.405, F.S, and place them within this section. It would require sponsors to complete corrective action plans, required by the department or a federal agency, so that they are in compliance with school food and nutrition service programs. The bill also removes "school district" from the phrase "any person, sponsor, or school district" because the definition of "sponsor" is inclusive of "school districts."[32]

Section 36 amends s. 595.601, F.S., to correct a cross-reference.

Section 37 amends s. 604.21, F.S., to eliminate the requirement that a complainant against an agricultural dealer must file three notarized complaint affidavits with the department. The bill also eliminates the requirement to file an original complaint with the department if the complaint has been submitted electronically.

Section 38 amends s. 604.33, F.S., to remove provisions requiring grain dealers to submit monthly reports. The bill authorizes rather than requires the department to make at least one spot check annually of each grain dealer.

Section 39 repeals s. 582.03, F.S., relating to the consequences of soil erosion.

[32] Section 595.402(5), F.S.

Section 40 repeals s. 582.04, F.S., relating to appropriate corrective measures for soil conservation.

Section 41 repeals s. 582.05, F.S., relating to legislative policy for soil and water conservation.

Section 42 repeals s. 582.08, F.S., relating to additional powers of the department in relation to SWCDs.

Section 43 repeals s. 582.09, F.S., relating to the employment of an administrative officer of soil and water conservation as well as supporting staff.

Section 44 repeals s. 582.17, F.S., relating to the establishment of SWCDs.

Section 45 repeals s. 582.21, F.S., relating to adoption of land use regulations of SWCDs.

Section 46 repeals s. 582.22, F.S., relating to SWCD regulations and the uniformity of their content within a district.

Section 47 repeals s. 582.23, F.S., relating to the duties of supervisors under SWCD regulations.

Section 48 repeals s. 582.24, F.S., relating to boards of adjustment for SWCDs which requires supervisors of any district to hear and consider petitions made by landowners for relief of land use regulations.

Section 49 repeals s. 582.25, F.S., relating to rule adoption and procedures of boards of adjustment.

Section 50 repeals s. 582.26, F.S., relating to petitions made to a board to vary from SWCD regulations.

Section 51 repeals s. 582.331, F.S., relating to the authorization to establish watershed improvement districts within SWCDs.

Section 52 repeals s. 582.34, F.S., relating to petitions for establishment of watershed improvement districts.

Section 53 repeals s. 582.35, F.S., relating to requirements of supervisors when a petition has been filed that include giving notice, conducting hearings on the petition, determinations of need for watershed improvement districts, and definition of boundaries.

Section 54 repeals s. 582.36, F.S., relating to the determination by supervisors that a proposed watershed improvement district is feasible and the referendum that must be held to consider the question of whether the operation of the proposed district is administratively practicable and feasible.

Section 55 repeals s. 582.37, F.S., relating to consideration of results of referendums on establishing watershed improvement districts and to declarations of the approved organization of a district.

Section 56 repeals s. 582.38, F.S., relating to organization of watershed improvement districts, certification to clerks of circuits courts, and limitations on tax rates.

Section 57 repeals s. 582.39, F.S., relating to the establishment of watershed improvement districts that are situated in more than one SWCD.

Section 58 repeals s. 582.40, F.S., relating to changes of district boundaries, additions, detachments, transfers of land from one district to another, and the change of district names.

Section 59 repeals s. 582.41, F.S., relating to the boards of directors of watershed improvement districts.

Section 60 repeals s. 582.42, F.S., relating to officers, agents, and employees that are retained by boards of supervisors of watershed improvement districts. This section of the Florida Statutes also provides for surety bonds for such officers, agents, and employees and requires an annual audit of the accounts of the district.

Section 61 repeals s. 582.43, F.S., relating to the status and general powers of watershed improvement districts.

Section 62 repeals s. 582.44, F.S., relating to watershed improvement districts levying taxes.

Section 63 repeals s. 582.45, F.S., relating to the fiscal powers of a watershed improvement district's governing board.

Section 64 repeals s. 582.46, F.S., relating to additional powers and authorities of watershed improvement districts. Such powers are additional to those of the soil and water conservation district in which the watershed improvement district is situated.

Section 65 repeals s. 582.47, F.S., relating to the requirement that a watershed improvement district must consult with and advise flood control districts to coordinate the work of the districts involved.

Section 66 repeals s. 582.48, F.S., relating to the discontinuance of a watershed improvement district.

Section 67 repeals s. 582.49, F.S., relating to the discontinuance of a soil and water conservation district.

Section 68 repeals s. 589.26, F.S., relating to the authority of the Florida Forest Service to dedicate its land for use by the public as a park.

Section 69 provides that except as otherwise expressly provided in the bill, the bill takes effect July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

See Private Sector Impact section below.

B. Private Sector Impact:

CS/SB 1010 eliminates the $50 late fee for limited certification for urban landscape commercial fertilizer application. This may have a positive impact on persons who apply commercial fertilizer by eliminating this fee.

The bill eliminates certain financial assurance and licensing requirements for dealers in agricultural products and for grain dealers. This may have a positive impact on those professions by eliminating the filing requirements.

The bill also creates an exemption from the destruction requirement for plant or plant products infested with pests or noxious weeds that are widely established in Florida and not regulated by the department. This may have a positive impact on those who own the plant or plant products infested with pests or noxious weeds by not requiring the owners to destroy them.

In addition, the bill eliminates the necessity for a complainant to submit three notarized complaint affidavits when an individual is damaged by an agricultural products dealer. This may have a positive impact on those individuals by eliminating the extra filings and speeding up the complaint process.

C. Government Sector Impact:

Pest Control Operator's Certification Application Fee

The bill appears to have an insignificant negative fiscal impact on state funds because of the elimination of the original certification fee of $150 for pest control certification applicants. The Department of Agriculture and Consumer Services (department) will have decreased revenues in the Pest Control Trust Fund of $76,762 annually. The department has indicated that the impact is expected to be minimal and will be absorbed by the department.[33]

Fee for Limited Certification for Urban Landscape Commercial Fertilizer Application

Eliminating the $50 late fee for a limited certification for urban landscape commercial fertilizer application will have an insignificant negative impact on state government revenues. The fee was first established in ch. 2009-199, Laws of Florida. Beginning January 1, 2014, any person applying commercial fertilizer to an urban landscape is required to be certified. The certification is for four years from the date of issuance; therefore, no late fees have been assessed.

Office of Agricultural Technology Services

The bill has an insignificant impact associated with the creation of s. 570.68, F.S., which creates the Office of Agricultural Technology Services, under the supervision of a senior management class employee. Changing the department's current Chief Information Officer from the Regular Class in the Florida Retirement System to the Senior Management Class would result in an additional state retirement contribution of $12,402 from the General Revenue Fund. The department will manage the additional costs within existing salary and benefit resources.

Grove Removal or Vector Elimination (GROVE) Program

Under the provisions of CS/SB 1010, funding of the Grove Removal or Vector Elimination (GROVE) program is subject to specific legislative appropriation. The department's Fiscal Year 2016-2017 legislative budget request includes $1,000,000 in nonrecurring general revenue to fund the GROVE program.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

[33] Analysis by the Department of Agriculture and Consumer Services for SB 1010, p.19 (December 16, 2015).

VIII. Statutes Affected:

This bill amends the following sections of the Florida Statutes: 482.111, 482.1562, 500.03, 500.10, 500.11, 570.07, 570.30, 570.441, 570.53, 570.544, 570.681, 570.685, 571.24, 571.27, 571.28, 576.041, 581.181, 582.01, 582.02, 582.055, 582.06, 582.16, 582.20, 582.29, 595.402, 595.404, 595.405, 595.406, 595.407, 595.408, 595.501, 595.601, 604.21, and 604.33.

This bill creates the following sections of the Florida Statutes: 15.0521, 570.68, 580.0365, and 581.189.

This bill repeals the following sections of the Florida Statutes: 582.03, 582.04, 582.05, 582.08, 582.09, 582.17, 582.21, 582.22, 582.23, 582.24, 582.25, 582.26, 582.331, 582.34, 582.35, 582.36, 582.37, 582.38, 582.39, 582.40, 582.41, 582.42, 582.43, 582.44, 582.45, 582.46, 582.47, 582.48, 582.49, and 589.26.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Agriculture on January 11, 2016:
The committee substitute:

- Restores current statute and removes language in the bill that changes the definition of "due notice" with regard to public hearings by soil and water conservation districts. It eliminates the requirement that notification must be published in a newspaper of general circulation seven days in advance of an event.
- Creates the Grove Removal or Vector Elimination Program to help eliminate citrus greening and improve the health of Florida's citrus industry.

B. Amendments:

None.

and insert:

misbranded; creating s. 500.90, F.S.; preempting to the department the regulation of the use or sale of polystyrene products by entities regulated under the Florida Food Safety Act; providing applicability; amending s. 570.07, F.S.; revising the

By the Committee on Agriculture; and Senator Montford

575-02016-16 20161010c1

A bill to be entitled

An act relating to the Department of Agriculture and Consumer Services; creating s. 15.0521, F.S.; designating tupelo honey as the official state honey; amending s. 482.111, F.S.; specifying the requirements for original certification as a pest control operator; specifying the fee for the renewal of a certificate; amending s. 482.1562, F.S.; specifying the deadline for recertification of persons who wish to apply urban landscape commercial fertilizer; providing a grace period for recertification; amending s. 500.03, F.S.; revising the definition of the term "food" to include dietary supplements; defining the term "vehicle"; amending s. 500.10, F.S.; providing additional conditions under which food may be deemed adulterated; amending s. 500.11, F.S.; including failure to comply with labeling relating to major food allergens as a criterion for use in determining whether food has been misbranded; amending s. 570.07, F.S.; revising the department's functions, powers, and duties; amending s. 570.30, F.S.; revising the powers and duties of the Division of Administration; amending s. 570.441, F.S.; authorizing the use of funds in the Pest Control Trust Fund for activities of the Division of Agricultural Environmental Services; providing for expiration; amending s. 570.53, F.S.; revising the powers and duties of the Division of Marketing and Development to remove the enforcement provisions relating to the dealers in agricultural products law; amending s. 570.544, F.S.; revising the duties of the director of the Division of Consumer Services to include enforcement provisions relating to the dealers in

575-02016-16 20161010c1

agricultural products law; creating s. 570.68, F.S.; authorizing the Commissioner of Agriculture to create an Office of Agriculture Technology Services; providing duties of the office; amending s. 570.681, F.S.; revising the legislative findings relating to the Florida Agriculture Center and Horse Park; amending s. 570.685, F.S.; authorizing, rather than requiring, the department to provide administrative and staff support services, meeting space, and record storage for the Florida Agriculture Center and Horse Park Authority; amending s. 571.24, F.S.; clarifying the intent that the Florida Agricultural Promotional Campaign serve as a marketing program; removing an obsolete provision relating to the designation of a division employee as a member of the Advertising Interagency Coordinating Council; amending s. 571.27, F.S.; removing obsolete provisions relating to the authority of the department to adopt rules for entering into contracts with advertising agencies for services that are directly related to the Florida Agricultural Promotional Campaign; amending s. 571.28, F.S.; revising the composition of the Florida Agricultural Promotional Campaign Advisory Council; amending s. 576.041, F.S.; revising the frequency with which tonnage reports of fertilizer sales must be made; revising the timeframe for submission of such reports; creating s. 580.0365, F.S.; providing for the preemption of commercial feed and feedstuff regulation; amending s. 581.181, F.S.; providing

applicability of provisions requiring treatment or destruction of infested or infected plants and plant products; creating s. 581.189, F.S.; creating the Grove Removal or Vector Elimination (GROVE) Program; specifying the purpose of the program; defining terms; requiring the department to adopt rules for reviewing and ranking applications for cost-share funding to removal or destroy abandoned citrus groves; establishing per applicant award maximums; specifying that the total funds awarded in a fiscal year cannot exceed the amount specifically appropriated for the program; specifying application requirements; specifying how the department must process applications; specifying that noncompliance will result in forfeiture of cost-share funds; requiring the department to rank and review applications and to conduct a certain inspection; specifying grounds for denial of an application; requiring applicants selected for funding to timely initiate and complete the removal of identified citrus trees in accordance with their respective applications; providing the process for making payments to applicants; authorizing the department to adopt rules; specifying that funding for the program is contingent upon specific appropriation by the Legislature; amending s. 582.01, F.S.; redefining terms relating to soil and water conservation; amending s. 582.02, F.S.; providing legislative intent and findings relating to soil and water conservation districts; providing a statement of

purpose; amending s. 582.055, F.S.; revising the powers and duties of the department; authorizing the department to adopt rules; amending s. 582.06, F.S.; requiring the Soil and Water Conservation Council to accept and review requests for creating or dissolving soil and water conservation districts and to make recommendations to the commissioner; requiring the council to provide recommendations to the commissioner relating to the removal of supervisors under certain circumstances; amending s. 582.16, F.S.; revising how district boundaries may be changed; amending s. 582.20, F.S.; revising the powers and duties of districts and supervisors; amending s. 582.29, F.S.; revising the terms under which certain state agencies must cooperate; amending s. 595.402, F.S.; defining terms relating to the school food and nutrition service program; amending s. 595.404, F.S.; revising the powers and duties of the department with regard to the school food and nutrition service program; directing the department to collect and annually publish data on food purchased by sponsors through the Florida Farm to School Program and other school food and nutrition service programs; amending s. 595.405, F.S.; clarifying requirements for the school nutrition program; requiring breakfast meals to be available to all students in schools that serve any combination of grades kindergarten through 5; amending s. 595.406, F.S.; renaming the "Florida Farm Fresh Schools Program" as the "Florida Farm to School Program";

authorizing the department to establish by rule a recognition program for certain sponsors; amending s. 595.407, F.S.; revising provisions of the children's summer nutrition program to include certain schools that serve any combination of grades kindergarten through 5; revising provisions relating to the duration of the program; authorizing school districts to exclude holidays and weekends; amending s. 595.408, F.S.; conforming provisions to changes made by the act; amending s. 595.501, F.S.; requiring certain entities to complete corrective action plans required by the department or a federal agency to be in compliance with school food and nutrition service programs; amending s. 595.601, F.S.; revising a cross-reference; amending s. 604.21, F.S.; deleting a requirement relating to complaints filed by electronic transmission or facsimile; amending s. 604.33, F.S.; deleting provisions requiring grain dealers to submit monthly reports; authorizing, rather than requiring, the department to make at least one spot check annually of each grain dealer; repealing s. 582.03, F.S., relating to the consequences of soil erosion; repealing s. 582.04, F.S., relating to appropriate corrective methods; repealing s. 582.05, F.S., relating to legislative policy for conservation; repealing s. 582.08, F.S., relating to additional powers of the department; repealing s. 582.09, F.S., relating to an administrative officer of soil and water conservation; repealing s. 582.17, F.S.,

relating to the presumption as to establishment of a district; repealing s. 582.21, F.S., relating to adoption of land use regulations; repealing s. 582.22, F.S., relating to district regulations and contents; repealing s. 582.23, F.S., relating to performance of work under the regulations by the supervisors; repealing s. 582.24, F.S., relating to the board of adjustment; repealing s. 582.25, F.S., relating to rules of procedure of the board; repealing s. 582.26, F.S., relating to petitioning the board to vary from regulations; repealing s. 582.331, F.S., relating to the authorization to establish watershed improvement districts within soil and water conservation districts; repealing s. 582.34, F.S., relating to petitions for establishment of watershed improvement districts; repealing s. 582.35, F.S., relating to notice and hearing on petitions, determinations of need for districts, and boundaries; repealing s. 582.36, F.S., relating to determination of feasibility of proposed districts and referenda; repealing s. 582.37, F.S., relating to consideration of results of referendums and declaration of organization of districts; repealing s. 582.38, F.S., relating to the organization of districts, certification to clerks of circuit courts, and limitation on tax rates; repealing s. 582.39, F.S., relating to establishment of watershed improvement districts situated in more than one soil and water conservation district; repealing s. 582.40, F.S., relating to change of district

boundaries or names; repealing s. 582.41, F.S., relating to boards of directors of districts; repealing s. 582.42, F.S., relating to officers, agents, and employees, surety bonds, and annual audits; repealing s. 582.43, F.S., relating to status and general powers of districts; repealing s. 582.44, F.S., relating to the levy of taxes and taxing procedures; repealing s. 582.45, F.S., relating to fiscal powers of a governing body; repealing s. 582.46, F.S., relating to additional powers and authority of districts; repealing s. 582.47, F.S., relating to the coordination between watershed improvement districts and flood control districts; repealing s. 582.48, F.S., relating to the discontinuance of watershed improvement districts; repealing s. 582.49, F.S., relating to the discontinuance of soil and water conservation districts; repealing s. 589.26, F.S., relating to the dedication of state park lands for public use; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Effective upon this act becoming a law, section 15.0521, Florida Statutes, is created to read:

15.0521 Official state honey.—Tupelo honey is designated as the official Florida state honey.

Section 2. Subsections (1) and (7) of section 482.111, Florida Statutes, are amended to read:

482.111 Pest control operator's certificate.—

(1) The department shall issue a pest control operator's certificate to each individual who qualifies under this chapter. Before the issuance of the original certification, an individual must have completed an application for examination, paid the examination fee provided for in s. 482.141, and passed the examination. Before engaging in pest control work, each certified operator must be certified as provided in this section. ~~Application must be made and the issuance fee must be paid to the department for the original certificate within 60 days after the postmark date of written notification of passing the examination. During a period of 30 calendar days following expiration of the 60-day period, an original certificate may be issued; however, a late issuance charge of $50 shall be assessed and must be paid in addition to the issuance fee. An original certificate may not be issued after expiration of the 30-day period, without reexamination.~~

(7) The fee for ~~issuance of an original certificate or~~ the renewal of a certificate ~~thereof~~ shall be set by the department but may not be more than $150 or less than $75; however, until rules setting these fees are adopted by the department, the issuance fee and the renewal fee shall each be $75.

Section 3. Subsections (5) and (6) of section 482.1562, Florida Statutes, are amended to read:

482.1562 Limited certification for urban landscape commercial fertilizer application.—

(5) An application for recertification must be made 4 years after the date of issuance ~~at least 90 days before the expiration~~ of the current certificate and be accompanied by:

(a) Proof of having completed the 4 classroom hours of acceptable continuing education required under subsection (4).

(b) A recertification fee set by the department in an amount of at least $25 but not more than $75. Until the fee is set by rule, the fee for certification is $25.

(6) ~~A late renewal charge of $50 per month shall be assessed 30 days after the date the application for recertification is due and must be paid in addition to the renewal fee. Unless timely recertified, a certificate automatically expires 90 days after the recertification date.~~ Upon expiration or after a grace period ending 30 days after expiration, a certificate may be issued only upon the person reapplying in accordance with subsection (3).

Section 4. Paragraph (n) of subsection (1) of section 500.03, Florida Statutes, is amended, and paragraph (cc) is added to that subsection, to read:

500.03 Definitions; construction; applicability.—

(1) For the purpose of this chapter, the term:

(n) "Food" includes:

1. Articles used for food or drink for human consumption;

2. Chewing gum;

3. Articles used for components of any such article; ~~and~~

4. Articles for which health claims are made, which claims are approved by the Secretary of the United States Department of Health and Human Services and which claims are made in accordance with s. 343(r) of the federal act, and which are not considered drugs solely because their labels or labeling contain health claims; and

5. "Dietary supplements" as the term is defined in 21

U.S.C. s. 321(ff)(1) and (2).

The term includes any raw, cooked, or processed edible substance; ice; any beverage; or any ingredient used, intended for use, or sold for human consumption.

(cc) "Vehicle" means a mode of transportation or mobile carrier used to transport food from one location to another, including, but not limited to, cars, carts, cycles, trucks, vans, trains, railcars, aircraft, and watercraft.

Section 5. Subsection (1) of section 500.10, Florida Statutes, is amended, and subsection (5) is added to that section, to read:

500.10 Food deemed adulterated.—A food is deemed to be adulterated:

(1)(a) If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance such food shall not be considered adulterated under this clause if the quantity of such substance in such food does not ordinarily render it injurious to health;

(b) If it bears or contains any added poisonous or added deleterious substance, other than one which is a pesticide chemical in or on a raw agricultural commodity; a food additive; or a color additive, which is unsafe within the meaning of s. 500.13(1);

(c) If it is a raw agricultural commodity and it bears or contains a pesticide chemical which is unsafe within the meaning of 21 U.S.C. s. 346(a) or s. 500.13(1);

(d) If it is or it bears or contains, any food additive

which is unsafe within the meaning of 21 U.S.C. s. 348 or s. 500.13(1); provided that where a pesticide chemical has been used in or on a raw agricultural commodity in conformity with an exemption granted or tolerance prescribed under 21 U.S.C. s. 346 or s. 500.13(1), and such raw agricultural commodity has been subjected to processing such as canning, cooking, freezing, dehydrating, or milling, the residue of such pesticide chemical remaining in or on such processed food shall, notwithstanding the provisions of s. 500.13, and this paragraph, not be deemed unsafe if such residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice, and the concentration of such residue in the processed food when ready to eat, is not greater than the tolerance prescribed for the raw agricultural commodity;

(e) If it consists in whole or in part of a diseased, contaminated, filthy, putrid, or decomposed substance, or if it is otherwise unfit for food;

(f) If it has been produced, prepared, packed, transported, or held under insanitary conditions whereby it may become contaminated with filth, or whereby it may have been rendered diseased, unwholesome, or injurious to health;

(g) If it is the product of a diseased animal or an animal which has died otherwise than by slaughter, or that has been fed upon the uncooked offal from a slaughterhouse; or

(h) If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health.

(5) If a dietary supplement or its ingredients present a significant risk of illness or injury due to:

(a) The recommended or suggested conditions of use on the product label;

(b) The failure to provide conditions of use on the product label; or

(c) It containing an ingredient for which there is inadequate information to provide reasonable assurances that the ingredient does not present a significant risk of illness or injury.

Section 6. Paragraph (m) of subsection (1) of section 500.11, Florida Statutes, is amended to read:

500.11 Food deemed misbranded.—

(1) A food is deemed to be misbranded:

(m) If it is offered for sale and its label or labeling does not comply with the requirements of 21 U.S.C. s. 343(q) or 21 U.S.C. s. 343(w) pertaining to nutrition or allergen information.

Section 7. Subsection (20) of section 570.07, Florida Statutes, is amended, and subsection (44) is added to that section, to read:

570.07 Department of Agriculture and Consumer Services; functions, powers, and duties.—The department shall have and exercise the following functions, powers, and duties:

(20)(a) To stimulate, encourage, and foster the production and consumption of agricultural and agricultural business products;

(b) To conduct activities that may foster a better understanding and more efficient cooperation among producers, dealers, buyers, food editors, and the consuming public in the promotion and marketing of Florida's agricultural and

agricultural business products; and

(c) To sponsor events, trade breakfasts, luncheons, and dinners and distribute promotional materials and favors in connection with meetings, conferences, and conventions of dealers, buyers, food editors, and merchandising executives that will assist in the promotion and marketing of Florida's agricultural and agricultural business products to the consuming public.

The department is authorized to receive and expend donations contributed by private persons for the purpose of covering costs associated with the above described activities.

(44) In its own name:

(a) To perform all acts necessary to secure letters of patent, copyrights, and trademarks on any work products of the department and enforce its rights therein.

(b) To license, lease, assign, or otherwise give written consent to any person, firm, or corporation for the manufacture or use of such department work products on a royalty basis or for such other consideration as the department deems proper.

(c) To take any action necessary, including legal action, to protect such department work products against improper or unlawful use or infringement.

(d) To enforce the collection of any sums due to the department for the manufacture or use of such department work products by another party.

(e) To sell any of such department work products and execute all instruments necessary to consummate any such sale.

(f) To do all other acts necessary and proper for the

execution of powers and duties conferred upon the department by this section, including adopting rules, as necessary, in order to administer this section.

Section 8. Subsection (5) of section 570.30, Florida Statutes, is amended to read:

570.30 Division of Administration; powers and duties.—The Division of Administration shall render services required by the department and its other divisions, or by the commissioner in the exercise of constitutional and cabinet responsibilities, that can advantageously and effectively be centralized and administered and any other function of the department that is not specifically assigned by law to some other division. The duties of this division include, but are not limited to:

~~(5) Providing electronic data processing and management information systems support for the department.~~

Section 9. Subsection (4) is added to section 570.441, Florida Statutes, to read:

570.441 Pest Control Trust Fund.—

(4) In addition to the uses authorized under subsection (2), the department may use moneys collected or received under chapter 482 to carry out s. 570.44. This subsection expires June 30, 2019.

Section 10. Subsection (2) of section 570.53, Florida Statutes, is amended to read:

570.53 Division of Marketing and Development; powers and duties.—The powers and duties of the Division of Marketing and Development include, but are not limited to:

~~(2) Enforcing the provisions of ss. 604.15-604.34, the dealers in agricultural products law, and ss. 534.47-534.53.~~

Section 11. Subsection (2) of section 570.544, Florida Statutes, is amended to read:

570.544 Division of Consumer Services; director; powers; processing of complaints; records.—

(2) The director shall supervise, direct, and coordinate the activities of the division and shall, under the direction of the department, enforce ss. 604.15-604.34 and ~~the provisions of~~ chapters 472, 496, 501, 507, 525, 526, 527, 531, 539, 559, 616, and 849.

Section 12. Section 570.68, Florida Statutes, is created to read:

570.68 Office of Agriculture Technology Services.—The commissioner may create an Office of Agriculture Technology Services under the supervision of a senior manager. The senior manager is exempt under s. 110.205 in the Senior Management Service and shall be appointed by the commissioner. The office shall provide electronic data processing and agency information technology services to support and facilitate the functions, powers, and duties of the department.

Section 13. Section 570.681, Florida Statutes, is amended to read:

570.681 Florida Agriculture Center and Horse Park; legislative findings.—It is the finding of the Legislature that:

~~(1) Agriculture is an important industry to the State of Florida, producing over $6 billion per year while supporting over 230,000 jobs.~~

(1)~~(2)~~ Equine and other agriculture-related industries ~~will~~ strengthen and benefit each other with the establishment of a statewide agriculture and horse facility.

(2)~~(3)~~ The ~~A~~ Florida Agriculture Center and Horse Park provides ~~will provide~~ Florida with a unique tourist experience for visitors and residents, thus generating taxes and additional dollars for the state.

(3)~~(4)~~ Promoting the Florida Agriculture Center and Horse Park as a joint effort between the state and the private sector allows ~~will allow~~ this facility to use ~~utilize~~ experts and generate revenue from many areas to ensure the success of this facility.

Section 14. Paragraphs (b) and (c) of subsection (4) of section 570.685, Florida Statutes, are amended to read:

570.685 Florida Agriculture Center and Horse Park Authority.—

(4) The authority shall meet at least semiannually and elect a chair, a vice chair, and a secretary for 1-year terms.

(b) The department may provide ~~shall be responsible for providing~~ administrative and staff support services relating to the meetings of the authority and ~~shall provide~~ suitable space in the offices of the department for the meetings and the storage of records of the authority.

(c) In conducting its meetings, the authority shall use accepted rules of procedure. The secretary shall keep a complete record of the proceedings of each meeting showing~~, which record shall show~~ the names of the members present and the actions taken. These records shall be kept on file with the department, and such records and other documents regarding matters within the jurisdiction of the authority shall be subject to inspection by members of the authority.

Section 15. Section 571.24, Florida Statutes, is amended to

read:

571.24 Purpose; duties of the department.—The purpose of this part is to authorize the department to establish and coordinate the Florida Agricultural Promotional Campaign. The campaign is intended to serve as a marketing program for the promotion of agricultural commodities, value-added products, and agricultural-related businesses of this state. The campaign is not a food safety and traceability program. The duties of the department shall include, but are not limited to:

(1) Developing logos and authorizing the use of logos as provided by rule.

(2) Registering participants.

(3) Assessing and collecting fees.

(4) Collecting rental receipts for industry promotions.

(5) Developing in-kind advertising programs.

(6) Contracting with media representatives for the purpose of dispersing promotional materials.

(7) Assisting the representative of the department who serves on the Florida Agricultural Promotional Campaign Advisory Council.

~~(8) Designating a division employee to be a member of the Advertising Interagency Coordinating Council.~~

(8) ~~(9)~~ Adopting rules pursuant to ss. 120.536(1) and 120.54 to implement the provisions of this part.

(9) ~~(10)~~ Enforcing and administering the provisions of this part, including measures ensuring that only Florida agricultural or agricultural based products are marketed under the "Fresh From Florida" or "From Florida" logos or other logos of the Florida Agricultural Promotional Campaign.

Section 16. Section 571.27, Florida Statutes, is amended to read:

571.27 Rules.—The department is authorized to adopt rules that implement, make specific, and interpret ~~the provisions of~~ this part~~, including rules for entering into contracts with advertising agencies for services which are directly related to the Florida Agricultural Promotional Campaign. Such rules shall establish the procedures for negotiating costs with the offerors of such advertising services who have been determined by the department to be qualified on the basis of technical merit, creative ability, and professional competency. Such determination of qualifications shall also include consideration of the provisions in s. 287.055(3), (4), and (5)~~. The department is further authorized to determine, by rule, the logos or product identifiers to be depicted for use in advertising, publicizing, and promoting the sale of Florida agricultural products or agricultural-based products in the Florida Agricultural Promotional Campaign. The department may also adopt rules consistent ~~not inconsistent~~ with ~~the provisions of~~ this part as in its judgment may be necessary for participant registration, renewal of registration, classes of membership, application forms, and ~~as well as~~ other forms and enforcement measures ensuring compliance with this part.

Section 17. Subsection (1) of section 571.28, Florida Statutes, is amended to read:

571.28 Florida Agricultural Promotional Campaign Advisory Council.—

(1) ORGANIZATION.—There is ~~hereby~~ created within the department the Florida Agricultural Promotional Campaign

Advisory Council, to consist of 15 members appointed by the Commissioner of Agriculture for 4-year staggered terms. The membership shall include: 13 ~~six~~ members representing agricultural producers, shippers, ~~or~~ packers, ~~three members representing agricultural~~ retailers, ~~two members representing~~ agricultural associations, and wholesalers ~~one member representing a wholesaler~~ of agricultural products; 1~~, one~~ member representing consumers;~~,~~ and 1 ~~one~~ member representing the department. Initial appointment of the council members shall be four members to a term of 4 years, four members to a term of 3 years, four members to a term of 2 years, and three members to a term of 1 year.

Section 18. Subsection (2) of section 576.041, Florida Statutes, is amended to read:

576.041 Inspection fees; records.—

(2) Before the distribution of a fertilizer, each licensee shall make application upon a form provided by the department to report quarterly ~~monthly~~ the tonnage of fertilizer sold in the state and make payment of the inspection fee. The continuance of a license is conditioned upon the applicant's:

(a) Maintaining records and a bookkeeping system that will accurately indicate the tonnage of fertilizer sold by the licensee; and

(b) Consent to examination of the business records and books by the department for a verification of the correctness of tonnage reports and inspection fees. Tonnage reports of sales and payment of inspection fee shall be made quarterly using the department's regulatory website or ~~monthly~~ on forms furnished by the department and submitted within 30 days following the close

of the reporting period ~~on or before the fifteenth day of the month succeeding the month covered by the reports~~.

Section 19. Section 580.0365, Florida Statutes, is created to read:

580.0365 Preemption of regulatory authority over commercial feed and feedstuff.—It is the intent of the Legislature to eliminate duplication of regulation over commercial feed and feedstuff. Notwithstanding any other law, the authority to regulate, inspect, sample, and analyze commercial feed or feedstuff distributed in this state or to exercise the powers and duties of regulation granted by this chapter, including the assessment of penalties for violation of this chapter, is preempted to the department.

Section 20. Subsection (3) is added to section 581.181, Florida Statutes, to read:

581.181 Notice of infection of plants; destruction.—

(3) This section does not apply to plants or plant products infested with pests or noxious weeds if such pests and weeds are determined to be widely established within the state and are not specifically regulated under rules adopted by the department or under any other provisions of law.

Section 21. Effective upon becoming a law, section 581.189, Florida Statutes, is created to read:

581.189 Grove Removal or Vector Elimination (GROVE) Program.—

(1) There is created within the Department of Agriculture and Consumer Services the Grove Removal or Vector Elimination Program, a cost-sharing program for the removal or destruction of abandoned citrus groves to eliminate the material harboring

the citrus disease Huanglongbing, also known as citrus greening, and the vectors that spread the disease.

(2) For purposes of this section, the term:

(a) "Abandoned citrus grove" means a citrus grove that has minimal or no production value and is no longer economically viable as a commercial citrus grove.

(b) "Applicant" means the person who owns an abandoned citrus grove.

(c) "Eligible costs" means the costs, incurred after an application is selected for funding, of the removal or destruction the citrus trees and the elimination of any citrus greening vectors, as described in the removal or destruction plan in the funded application.

(d) "Funded application" means an application selected for cost-share funding pursuant to this section and rules adopted by the department.

(e) "Program" means the Grove Removal or Vector Elimination Program.

(3) The department shall adopt by rule the standards to be used in reviewing and ranking applications for cost-share funding under the program based on the following factors:

(a) The length of time the citrus groves have been abandoned.

(b) Whether the citrus groves are located within a Citrus Health Management Area.

(c) The proximity of the abandoned citrus groves to other citrus groves currently in production.

(4) An applicant may submit multiple applications for the program, but is eligible only for a maximum of $125,000 in

program cost-share funding in a given fiscal year. The department may award to each funded application a cost-share of up to 80 percent of eligible costs. The total amount of cost-share allocated under the program in each fiscal year may not exceed the amount specifically appropriated for the program for the fiscal year.

(5) An applicant seeking cost-share assistance under the program must submit an application to the department by a date determined by department rule. The application must include, at minimum:

(a) The applicant's plan to remove or destroy citrus trees and any citrus greening vectors in the abandoned citrus grove.

(b) An affidavit from the applicant certifying that all information contained in the application is true and correct.

(c) All information determined by rule to be necessary for the department to determine eligibility for the program and rank applications.

(6) If the department determines an application to be incomplete, it may require the applicant to submit additional information within 10 days after such determination is made.

(7) Each fiscal year, the department shall review all complete applications received in accordance with its rules adopted pursuant to subsection (5). For each such complete submitted application, the department must rank the applications in accordance with the factors specified in subsection (3) and, before selecting an application for funding, must conduct an inspection of the abandoned citrus grove that is the subject of the application.

(8) The department may deny an application pursuant to

chapter 120 for failure to comply with this section and department rules.

(9) If an application is selected for funding, the applicant must initiate and complete the removal or destruction of the citrus trees identified in the application within the timeframe specified by department rule. The applicant's failure to initiate and complete the removal or destruction of the identified citrus trees within the time specified by the department results in the forfeiture of the cost-share funding approved based on the application. Upon such occurrence, the department shall notify the next eligible applicant, based upon its ranking of applicants for the fiscal year, of the availability of cost-share funding. Such applicant, upon acceptance, may be awarded cost-share funding pursuant to this section, subject to available program funds.

(10) Upon completion of the removal or destruction of the citrus trees identified in the funded application, the applicant shall present proof of payment of removal or destruction costs to the department. Upon receipt of satisfactory proof of payment and satisfactory proof of the removal or destruction of the trees identified in the funded application, the department may issue payment to the applicant for the previously approved cost-share amount.

(11) The department may adopt rules to implement and administer this section, including an application process and requirements, an application ranking process that is consistent with the factors specified in subsection (3), and the administration of cost-share funding.

(12) The annual awarding of funding through the program is

subject to specific legislative appropriation for this purpose.

Section 22. Subsections (1), (4), (5), (7), and (8) of section 582.01, Florida Statutes, are amended to read:

582.01 Definitions.—Wherever used or referred to in this chapter unless a different meaning clearly appears from the context:

(1) "District" ~~or "soil conservation district"~~ or "soil and water conservation district" means a governmental subdivision of this state, and a body corporate and politic, organized in accordance with the provisions of this chapter, for the purpose, with the powers, and subject to the provisions set forth in this chapter. The term "district," ~~or "soil conservation district,"~~ when used in this chapter, means and includes a "soil and water conservation district." All districts heretofore or hereafter organized under this chapter shall be known as soil and water conservation districts and shall have all the powers set out herein.

(4) "Landowner" or "owner of land" includes any person who holds ~~shall hold~~ legal or equitable title to any lands lying within a district organized under the provisions of this chapter.

(5) "Land occupier" or "occupier of land" includes any person, other than the owner, who is a lessee, renter, or tenant or who is otherwise ~~shall be~~ in possession of land ~~any lands~~ lying within a district ~~organized under the provisions of this chapter, whether as lessee, renter, tenant, or otherwise~~.

(7) "Due notice," in addition to notice required pursuant to the provisions of chapter 120, means notice published at least twice, with an interval of at least 7 days between the two

publication dates, in a newspaper or other publication of general circulation within the appropriate area ~~or, if no such publication of general circulation be available, by posting at a reasonable number of conspicuous places within the appropriate area, such posting to include, where possible, posting at public places where it may be customary to post notices concerning county or municipal affairs generally~~. ~~At any hearing held pursuant to such notice, at the time and place designated in such notice, adjournment may be made from time to time without the necessity of renewing such notice for such adjourned dates.~~

~~(8) "Administrative officer" means the administrative officer of soil and water conservation created by s. 582.09.~~

Section 23. Section 582.02, Florida Statutes, is amended to read:

582.02 Legislative intent and findings; purpose of districts ~~Lands a basic asset of state~~.—

(1) It is the intent of the Legislature to promote the appropriate and efficient use of soil and water resources, protect water quality, prevent floodwater and sediment damage, preserve wildlife, protect public lands, and protect and promote the health, safety, and welfare of the public.

(2) The Legislature finds that the farm, forest, and grazing lands; green spaces; recreational areas; and natural areas of the state are among its ~~the~~ basic assets ~~of the state~~ and that the conservation ~~preservation~~ of these assets ~~lands~~ is in the public interest ~~necessary to protect and promote the health, safety, and general welfare of its people ; improper land use practices have caused and have contributed to, and are now causing and contributing to a progressively more serious~~

~~erosion of the farm and grazing lands of this state by fire, wind and water; the breaking of natural grass, plant, and forest cover has interfered with the natural factors of soil stabilization, causing loosening of soil and exhaustion of humus, and developing a soil condition that favors erosion; the top soil is being burned, washed and blown out of fields and pastures; there has been an accelerated washing of sloping fields; these processes of erosion by fire, wind and water speed up with removal of absorptive topsoil, causing exposure of less absorptive and less protective but more erosive subsoil; failure by any landowner or occupier to conserve the soil and control erosion upon her or his lands causes destruction by burning, washing and blowing of soil and water from her or his lands onto other lands and makes the conservation of soil and control erosion of such other lands difficult or impossible~~.

(3) The Legislature further finds it necessary that appropriate land and water resource protection practices be implemented to ensure the conservation of this state's farm, forest, and grazing lands; green spaces; recreational areas; and natural areas and to conserve, protect, and properly use soil and water resources.

(4) The purpose of the soil and water conservation districts is to provide assistance, guidance, and education to landowners, land occupiers, the agricultural industry, and the general public in implementing land and water resource protection practices and to work in conjunction with federal, state, and local agencies in all matters to implement this chapter.

Section 24. Section 582.055, Florida Statutes, is amended

to read:

582.055 Powers and duties of the Department of Agriculture and Consumer Services.—The department has all of the following powers and duties:

(1) To administer ~~The provisions of~~ this chapter ~~shall be administered by the Department of Agriculture and Consumer Services~~.

(2) ~~The department is authorized~~ To receive gifts, appropriations, materials, equipment, lands, and facilities and to manage, operate, and disburse them for the use and benefit of the soil and water conservation districts of the state.

(3) To require ~~The department shall provide for~~ an annual audit of the accounts of receipts and disbursements.

(4) To ~~The department may~~ furnish information and call upon any state or local agencies for cooperation in carrying out the provisions of this chapter.

(5) To offer assistance as may be appropriate to the supervisors of soil and water conservation districts and to facilitate communication and cooperation between the districts.

(6) To seek the cooperation and assistance of the Federal Government and any of its agencies, and of agencies and counties of this state, in the work of such districts, including the receipt and expenditure of state, federal, or other funds or contributions.

(7) To disseminate information throughout the state concerning the activities and programs of the soil and water conservation districts and to encourage the formation of such districts in areas where their organization is desirable.

(8) To create or dissolve a soil and water conservation

district pursuant to this chapter.

(9) To adopt rules, as necessary, to implement this chapter.

Section 25. Subsection (2) of section 582.06, Florida Statutes, is amended to read:

582.06 Soil and Water Conservation Council; powers and duties.—

(2) POWERS AND DUTIES; MEETINGS; PROCEDURES; RECORDS.—

(a) The meetings, powers and duties, procedures, and recordkeeping of the Soil and Water Conservation Council shall be conducted pursuant to s. 570.232.

(b) The council shall accept and review requests for creating or dissolving soil and water conservation districts and shall, by a majority vote, recommend to the commissioner by resolution that a district be created or dissolved pursuant to the request or that the request be denied.

(c) At the request of the Governor or a district, the council shall consider and recommend to the Governor the removal or retention of a supervisor for neglect of duty or malfeasance in office.

Section 26. Section 582.16, Florida Statutes, is amended to read:

582.16 Change of ~~Addition of territory to~~ district boundaries ~~or removal of territory therefrom~~.—Requests to increase or decrease the boundaries of ~~Petitions for including additional territory or removing territory within~~ an existing district may be filed with the department ~~of Agriculture and Consumer Services~~, and the department shall follow the proceedings provided for in this chapter to create a district ~~in~~

~~the case of petitions to organize a district shall be observed in the case of petitions for such inclusion or removal~~. ~~The department shall prescribe the form for such petition, which shall be as nearly as may be in the form prescribed in this chapter for petitions to organize a district. If the petition is signed by a majority of the landowners of such area, no referendum need be held. In referenda upon petitions for such inclusions or removals, all owners of land lying within the proposed area to be added or removed shall be eligible to vote.~~

Section 27. Section 582.20, Florida Statutes, is amended to read:

582.20 Powers of districts and supervisors.—A soil and water conservation district organized under ~~the provisions of~~ this chapter constitutes ~~shall constitute~~ a governmental subdivision of this state~~,~~ and a public body corporate and politic, exercising public powers, and such district and the supervisors thereof~~, shall~~ have all of the following powers, in addition to others granted in other sections of this chapter:

(1) To conduct surveys, studies ~~investigations~~, and research relating to ~~the character of~~ soil and water resources and ~~erosion and floodwater and sediment damages, to the conservation, development and utilization of soil and water resources and the disposal of water, and to the preventive and control measures and works of improvement needed,~~ to publish and disseminate the results of such surveys, studies, and ~~investigations, or~~ research~~,~~ and related ~~to disseminate~~ information. ~~concerning such preventive and control measures and works of improvement; provided, however, that in order to avoid duplication of research activities, no district shall initiate~~

~~any research program except in cooperation with the government of this state or any of its agencies, or with the United States or any of its agencies;~~

(2) To conduct agricultural best management practices demonstration ~~demonstrational~~ projects and projects for the conservation, protection, and restoration of soil and water resources:

(a) Within the district's boundaries;

(b) Within another district's boundaries, subject to the other district's approval;~~, territory within another district's boundaries subject to the other district's approval, or territory~~

(c) In areas not contained within any district's boundaries on lands owned or controlled by this state or any of its agencies, with the cooperation of the agency administering and having jurisdiction thereof; or~~, and~~

(d) On any other lands within the district's boundaries, ~~territory~~ within another district's boundaries subject to the other district's approval, or on lands ~~territory~~ not contained within any district's boundaries upon obtaining the consent of the owner and occupiers of such lands or the necessary rights or interests in such lands.~~, in order to demonstrate by example the means, methods, and measures by which soil and soil resources may be conserved, and soil erosion in the form of soil blowing and soil washing may be prevented and controlled, and works of improvement for flood prevention or the conservation, development and utilization of soil and water resources, and the disposal of water may be carried out;~~

~~(3) To carry out preventive and control measures and works~~

~~of improvement for flood prevention or the conservation, development and utilization of soil and water resources, and the disposal of water within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries, including, but not limited to, engineering operations, methods of cultivation, the growing of vegetation, changes in use of land, and the measures listed in s. 582.04 on lands owned or controlled by this state or any of its agencies, with the cooperation of the agency administering and having jurisdiction thereof, and on any other lands within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries upon obtaining the consent of the owner and the occupiers of such lands or the necessary rights or interests in such lands;~~

(3) ~~(4)~~ To cooperate~~,~~ or enter into agreements with~~, and within the limits of appropriations duly made available to it by law, to furnish financial or other aid to,~~ any special district, municipality, county, water management district, state or federal agency, governmental or otherwise, or any owner or occupier of lands within the district's boundaries; on lands~~,~~ ~~territory~~ within another district's boundaries, subject to the other district's approval; or on lands~~, or territory~~ not contained within any district's boundaries, to further the purpose of this chapter. ~~in the carrying on of erosion control or prevention operations and works of improvement for flood prevention or the conservation, development and utilization, of soil and water resources and the disposal of water within the~~

~~district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries, subject to such conditions as the supervisors may deem necessary to advance the purposes of this chapter;~~

(4) ~~(5)~~ To obtain options upon and to acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, any property, real or personal, or rights or interests in such property ~~therein~~; to maintain, administer, and improve any properties acquired, to receive income from such properties, and to expend such income in complying with ~~carrying out the purposes and provisions of~~ this chapter; and to sell, lease, or otherwise dispose of any of its property or interests ~~therein~~ in compliance with ~~furtherance of the purposes and the provisions of~~ this chapter.~~;~~

(5) ~~(6)~~ To make available, on such terms as it shall prescribe, agricultural, engineering, and other machinery, materials, and equipment to landowners and occupiers of land within the district's boundaries, on lands ~~territory~~ within another district's boundaries, subject to the other district's approval~~;~~ or on lands ~~territory~~ not contained within any district's boundaries. Such machinery, materials, and equipment must~~, agricultural and engineering machinery and equipment, fertilizer, seeds and seedlings, and such other material or equipment, as will~~ assist such landowners and occupiers of land to conduct ~~carry on~~ operations upon their lands for the conservation and protection of soil and water resources. ~~and for the prevention or control of soil erosion and for flood prevention or the conservation, development and utilization, of~~

~~soil and water resources and the disposal of water;~~

(6)~~(7)~~ To construct, improve, operate, and maintain such structures as may be necessary or convenient for the performance of any of the operations authorized in this chapter.~~;~~

(7)~~(8)~~ To provide or assist in providing training and education programs that further the purposes of this chapter.

~~develop comprehensive plans for the conservation of soil and water resources and for the control and prevention of soil erosion and for flood prevention or the conservation, development and utilization of soil and water resources, and the disposal of water within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries, which plans shall specify in such detail as may be possible the acts, procedures, performances, and avoidances which are necessary or desirable for the effectuation of such plans, including the specification of engineering operations, methods of cultivation, the growing of vegetation, cropping programs, tillage practices, and changes in use of land; control of artesian wells; and to publish such plans and information and bring them to the attention of owners and occupiers of lands within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries;~~

~~(9) To take over, by purchase, lease, or otherwise, and to administer any soil conservation, erosion control, erosion prevention project, or any project for flood prevention or for the conservation, development and utilization of soil and water~~

~~resources, and the disposal of water, located within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries, undertaken by the United States or any of its agencies, or by this state or any of its agencies; to manage as agent of the United States or any of its agencies, or of the state or any of its agencies, any soil-conservation, erosion-control, erosion-prevention, or any project for flood-prevention or for the conservation, development, and utilization of soil and water resources, and the disposal of water within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries; to act as agent for the United States, or any of its agencies, or for the state or any of its agencies, in connection with the acquisition, construction, operation or administration of any soil-conservation, erosion-control, erosion-prevention, or any project for flood-prevention or for the conservation, development and utilization of soil and water resources, and the disposal of water within the district's boundaries, territory within another district's boundaries subject to the other district's approval, or territory not contained within any district's boundaries; to accept donations, gifts, and contributions in money, services, materials, or otherwise, from the United States or any of its agencies, or from this state or any of its agencies, or from others, and to use or expend such moneys, services, materials or other contributions in carrying on its operations;~~

(8) ~~(10)~~ To sue and be sued in the name of the district; to have a seal, which seal shall be judicially noticed; to have perpetual succession unless terminated as provided in this chapter; to make and execute contracts and other instruments necessary or convenient to the exercise of its powers; and upon a majority vote of the supervisors of the district, to borrow money and to execute promissory notes and other evidences of indebtedness in connection therewith, and to pledge, mortgage, and assign the income of the district and its personal property as security therefor, the notes and other evidences of indebtedness to be general obligations only of the district and in no event to constitute an indebtedness for which the faith and credit of the state or any of its revenues are pledged~~; to make, amend, and repeal rules and regulations not inconsistent with this chapter to carry into effect its purposes and powers~~.

(9) In coordination with the applicable counties, to use the services of the county agricultural agents and the facilities of their offices, if practicable and feasible. The supervisors may employ additional permanent or temporary staff, as needed, and determine their qualifications, duties, and compensation. The supervisors may delegate to their chair, to one or more supervisors, or to employees such powers and duties as they may deem proper, consistent with this chapter. The supervisors shall furnish to the department, upon request, copies of rules, orders, contracts, forms, and other documents they adopt or employ, and other information concerning their activities which the department may require in the performance of its duties under this chapter.

(10) To adopt rules pursuant to chapter 120 to implement

this chapter.

(11) To request that the Governor remove a supervisor for neglect of duty or malfeasance in office by adoption of a resolution at a public meeting. If the district believes there is a need for a review of the request, the district may request the council, by resolution, to review the request and recommend action to the Governor. ~~As a condition to the extending of any benefits under this chapter to, or the performance of work upon, any lands not owned or controlled by this state or any of its agencies, the supervisors may require contributions in money, services, materials, or otherwise to any operations conferring such benefits, and may require landowners and occupiers to enter into and perform such agreements or covenants as to the permanent use of such lands as will tend to prevent or control erosion and prevent floodwater and sediment damages thereon;~~

(12) ~~No~~ Provisions with respect to the acquisition, operation, or disposition of property by public bodies of this state do not apply ~~shall be applicable~~ to a district organized under this chapter ~~hereunder~~ unless the Legislature ~~shall~~ specifically provides for their application ~~so state~~. The property and property rights ~~of every kind and nature~~ acquired by a ~~any~~ district organized under ~~the provisions of~~ this chapter are ~~shall be~~ exempt from state, county, and other taxation.

Section 28. Section 582.29, Florida Statutes, is amended to read:

582.29 State agencies to cooperate.—Agencies of this state which ~~shall~~ have jurisdiction over, or are ~~be~~ charged with, the administration of any state-owned lands, and agencies of any county~~,~~ or other governmental subdivision of the state~~,~~ which

~~shall~~ have jurisdiction over, or are ~~be~~ charged with the administration of, any county-owned or other publicly owned lands~~, lying within the boundaries of any district organized under this chapter, the boundaries of another district subject to that district's approval, or territory not contained within the boundaries of any district organized under this chapter,~~ shall cooperate to the fullest extent with the supervisors of such districts in the implementation ~~effectuation~~ of programs and operations undertaken by the supervisors under ~~the provisions of~~ this chapter. The supervisors of such districts shall be given free access to enter and perform work upon such publicly owned lands. ~~The provisions of land use regulations adopted shall be in all respects observed by the agencies administering such publicly owned lands.~~

Section 29. Present subsections (4) and (5) of section 595.402, Florida Statutes, are redesignated as subsections (5) and (6), respectively, and a new subsection (4) and subsections (7) and (8) are added to that section, to read:

595.402 Definitions.—As used in this chapter, the term:

(4) "School breakfast program" means a program authorized by s. 4 of the Child Nutrition Act of 1966 and administered by the department.

(7) "Summer nutrition program" means one or more of the programs authorized under 42 U.S.C. s. 1761.

(8) "Universal school breakfast program" means a program that makes breakfast available at no cost to all students regardless of their household income.

Section 30. Section 595.404, Florida Statutes, is amended to read:

595.404 School food and other nutrition programs ~~service program~~; powers and duties of the department.—The department has the following powers and duties:

(1) To conduct, supervise, and administer the program that will be carried out using federal or state funds, or funds from any other source.

(2) To conduct, supervise, and administer a Farmers' Market Nutrition Program to provide participants in the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) with locally grown fruits and vegetables. The program is to be carried out using federal or state funds or funds from any other source.

(3)~~(2)~~ To fully cooperate with the United States Government and its agencies and instrumentalities so that the department may receive the benefit of all federal financial allotments and assistance possible to carry out the purposes of this chapter.

(4)~~(3)~~ To implement and adopt by rule, as required, federal regulations ~~to maximize federal assistance for the program~~.

(5)~~(4)~~ To act as agent of, or contract with, the Federal Government, another state agency, any county or municipal government, or sponsor for the administration of the program, including the distribution of funds provided by the Federal Government to support the program.

(6)~~(5)~~ To provide ~~make a reasonable effort to ensure that any school designated as~~ a "severe need school" ~~receives~~ the highest rate of reimbursement to which it is entitled under 42 U.S.C. s. 1773 for each breakfast meal served.

(7)~~(6)~~ To develop and propose legislation necessary to implement the program, encourage the development of innovative

school food and nutrition services, and expand participation in the program.

(8) ~~(7)~~ To annually allocate among the sponsors, as applicable, funds provided from the school breakfast supplement in the General Appropriations Act based on each district's total number of free and reduced-price breakfast meals served.

(9) ~~(8)~~ To employ such persons as are necessary to perform its duties under this chapter.

(10) ~~(9)~~ To adopt rules covering the administration, operation, and enforcement of the program, and the Farmers' Market Nutrition Program, as well as to implement ~~the provisions of~~ this chapter.

(11) ~~(10)~~ To adopt and implement an appeal process by rule, as required by federal regulations, for applicants and participants under the programs implemented under this chapter ~~program~~, notwithstanding ss. 120.569 and 120.57-120.595.

(12) ~~(11)~~ To assist, train, and review each sponsor in its implementation of the program.

(13) ~~(12)~~ To advance funds from the program's annual appropriation to a summer nutrition program sponsor ~~sponsors~~, when requested, in order to implement ~~the provisions of~~ this chapter and in accordance with federal regulations.

(14) To collect data on food purchased through the programs defined in ss. 595.402(3) and 595.406 and to publish that data annually.

(15) To enter into agreements with federal or state agencies to coordinate or cooperate in the implementation of nutrition programs.

Section 31. Section 595.405, Florida Statutes, is amended

to read:

595.405 School nutrition program requirements ~~for school districts and sponsors~~.—

(1) Each ~~school~~ district school board shall consider the recommendations of the district school superintendent and adopt policies to provide for an appropriate food and nutrition service program for students consistent with federal law and department rules.

(2) Each ~~school~~ district school board shall implement school breakfast programs that make breakfast meals available to all students in each ~~elementary~~ school that serves any combination of grades kindergarten through 5. ~~Universal school breakfast programs shall be offered in schools in which 80 percent or more of the students are eligible for free or reduced-price meals. Each school shall, to the maximum extent practicable, make breakfast meals available to students at an alternative site location, which may include, but need not be limited to, alternative breakfast options as described in publications of the Food and Nutrition Service of the United States Department of Agriculture for the federal School Breakfast Program.~~

(3) Each ~~school~~ district school board must annually set prices for breakfast meals at rates that, combined with federal reimbursements and state allocations, are sufficient to defray costs of school breakfast programs without requiring allocations from the district's operating funds, except if the district school board approves lower rates.

~~(4) Each school district is encouraged to provide universal, free school breakfast meals to all students in each~~

~~elementary, middle, and high school. Each school district shall approve or disapprove a policy, after receiving public testimony concerning the proposed policy at two or more regular meetings, which makes universal, free school breakfast meals available to all students in each elementary, middle, and high school in which 80 percent or more of the students are eligible for free or reduced-price meals.~~

(4) ~~(5)~~ Each ~~elementary, middle, and high~~ school operating a breakfast program shall make a breakfast meal available if a student arrives at school on the school bus less than 15 minutes before the first bell rings and shall allow the student at least 15 minutes to eat the breakfast.

(5) Each district school board is encouraged to provide universal, free school breakfast meals to all students in each elementary, middle, and high school. A universal school breakfast program shall be implemented in each school in which 80 percent or more of the students are eligible for free or reduced-price meals, unless the district school board, after considering public testimony at two or more regularly scheduled board meetings, decides to not implement such a program in such schools.

(6) To increase school breakfast and universal school breakfast program participation, each school district must, to the maximum extent practicable, make breakfast meals available to students through alternative service models as described in publications of the Food and Nutrition Service of the United States Department of Agriculture for the federal School Breakfast Program.

(7) ~~(6)~~ Each ~~school~~ district school board shall annually

provide ~~to all students in each elementary, middle, and high school~~ information prepared by the district's food service administration regarding available ~~its~~ school breakfast programs. The information shall be communicated through school announcements and ~~written~~ notices sent to all parents.

(8) ~~(7)~~ A ~~school~~ district school board may operate a breakfast program providing for food preparation at the school site or in central locations with distribution to designated satellite schools or any combination thereof.

~~(8) Each sponsor shall complete all corrective action plans required by the department or a federal agency to be in compliance with the program.~~

Section 32. Section 595.406, Florida Statutes, is amended to read:

595.406 Florida Farm to School ~~Fresh Schools~~ Program.—

(1) In order to implement the Florida Farm to School ~~Fresh Schools~~ Program, the department shall develop policies pertaining to school food services which encourage:

(a) Sponsors to buy fresh and high-quality foods grown in this state when feasible.

(b) Farmers in this state to sell their products to sponsors, school districts, and schools.

(c) Sponsors to demonstrate a preference for competitively priced organic food products.

(d) Sponsors to make reasonable efforts to select foods based on a preference for those that have maximum nutritional content.

(2) The department shall provide outreach, guidance, and training to sponsors, schools, school food service directors,

parent and teacher organizations, and students about the benefit of fresh food products from farms in this state.

(3) The department may recognize sponsors who purchase at least 10 percent of the food they serve from the Florida Farm to School Program.

Section 33. Subsection (2) of section 595.407, Florida Statutes, is amended to read:

595.407 Children's summer nutrition program.—

(2) Each school district shall develop a plan to sponsor or operate a summer nutrition program to operate sites in the school district as follows:

(a) Within 5 miles of at least one ~~elementary~~ school that serves any combination of grades kindergarten through 5 at which 50 percent or more of the students are eligible for free or reduced-price school meals and for the duration of 35 ~~consecutive~~ days between the end of the school year and the beginning of the next school year. School districts may exclude holidays and weekends.

(b) Within 10 miles of each ~~elementary~~ school that serves any combination of grades kindergarten through 5 at which 50 percent or more of the students are eligible for free or reduced-price school meals, except as operated pursuant to paragraph (a).

Section 34. Section 595.408, Florida Statutes, is amended to read:

595.408 Food ~~Commodity~~ distribution services; department responsibilities and functions.—

(1)(a) The department shall conduct, supervise, and administer all food ~~commodity~~ distribution services that will be

carried on using federal or state funds, or funds from any other source, or food ~~commodities~~ received and distributed from the United States or any of its agencies.

(b) The department shall determine the benefits each applicant or recipient of assistance is entitled to receive under this chapter, provided that each applicant or recipient is a resident of this state and a citizen of the United States or is an alien lawfully admitted for permanent residence or otherwise permanently residing in the United States under color of law.

(2) The department shall cooperate fully with the United States Government and its agencies and instrumentalities so that the department may receive the benefit of all federal financial allotments and assistance possible to carry out the purposes of this chapter.

(3) The department may:

(a) Accept any duties with respect to food ~~commodity~~ distribution services as are delegated to it by an agency of the Federal Government or any state, county, or municipal government.

(b) Act as agent of, or contract with, the Federal Government, state government, or any county or municipal government in the administration of food ~~commodity~~ distribution services to secure the benefits of any public assistance that is available from the Federal Government or any of its agencies, and in the distribution of funds received from the Federal Government, state government, or any county or municipal government for food ~~commodity~~ distribution services within the state.

(c) Accept from any person or organization all offers of personal services, food ~~commodities~~, or other aid or assistance.

(4) This chapter does not limit, abrogate, or abridge the powers and duties of any other state agency.

Section 35. Section 595.501, Florida Statutes, is amended to read:

595.501 Penalties.—

(1) If a corrective action plan is issued by the department or a federal agency, each sponsor must complete the corrective action plan to be in compliance with the program.

(2) Any person or~~,~~ sponsor~~, or school district~~ that violates any provision of this chapter or any rule adopted thereunder or otherwise does not comply with the program is subject to a suspension or revocation of their agreement, loss of reimbursement, or a financial penalty in accordance with federal or state law or both. This section does not restrict the applicability of any other law.

Section 36. Section 595.601, Florida Statutes, is amended to read:

595.601 Food and Nutrition Services Trust Fund.—Chapter 99-37, Laws of Florida, recreated the Food and Nutrition Services Trust Fund to record revenue and disbursements of Federal Food and Nutrition funds received by the department as authorized in ss. 595.404 and 598.408 ~~s. 595.405~~.

Section 37. Paragraphs (b) and (d) of subsection (1) and subsection (2) of section 604.21, Florida Statutes, are amended to read:

604.21 Complaint; investigation; hearing.—

(1)

(b) To be considered timely filed, a complaint together with any required affidavits ~~or notarizations~~ must be received by the department within 6 months after the date of sale by electronic transmission, facsimile, regular mail, certified mail, or private delivery service. If the complaint is sent by a service other than electronic mail or facsimile, the mailing shall be postmarked or dated on or before the 6-month deadline to be accepted as timely filed.

(d) A person, partnership, corporation, or other business entity filing a complaint shall submit to the department a ~~the following documents: three~~ completed complaint affidavit ~~affidavits~~ on a form provided by the department which bears ~~with~~ an original signature of an owner, partner, general partner, or corporate officer and an original notarization and which is accompanied by ~~on each affidavit. If the complaint is filed by electronic transmission or facsimile, the original affidavits and original notarizations shall be filed with the department not later than the close of business of the tenth business day following the electronic transmission or facsimile filing. Attached to each complaint affidavit shall be~~ copies of all documents that ~~to~~ support the complaint. Supporting documents may include ~~be~~ copies of invoices, bills of lading, packing or shipping documents, demand letters, or any other documentation to support the claim. In cases in which ~~there are~~ multiple invoices are being claimed, a summary list of all claimed invoices must accompany the complaint.

(2) Upon the filing of a ~~such~~ complaint under this subsection ~~in the manner herein provided~~, the department shall investigate the complaint and ~~matters complained of; whereupon,~~

if it finds that~~, in the opinion of the department,~~ the facts contained in the complaint warrant it ~~such action~~, ~~the department~~ shall serve notice of the filing of complaint on ~~to~~ the dealer against whom the complaint has been filed at the last address of record. Such notice shall be accompanied by a ~~true~~ copy of the complaint. A copy of such notice and complaint shall also be served on any ~~to the~~ surety company~~, if any,~~ that provided the bond for the dealer, and the ~~which~~ surety company shall become party to the action. Such notice of the complaint shall inform the dealer of a reasonable time within which to answer the complaint by advising the department in writing that the allegations in the complaint are admitted or denied or that the complaint has been satisfied. Such notice shall also inform the dealer and the surety company or financial institution of a right to request a hearing on the complaint~~, if requested~~.

Section 38. Section 604.33, Florida Statutes, is amended to read:

604.33 Security requirements for grain dealers.—Each grain dealer doing business in the state shall maintain liquid security, in the form of grain on hand, cash, certificates of deposit, or other nonvolatile security that can be liquidated in 10 days or less, or cash bonds, surety bonds, or letters of credit, that have been assigned to the department and that are conditioned to secure the faithful accounting for and payment to the producers for grain stored or purchased, in an amount equal to the value of grain which the grain dealer has received from grain producers for which the producers have not received payment. The bonds must be executed by the applicant as principal and by a surety corporation authorized to transact

business in the state. The certificates of deposit and letters of credit must be from a recognized financial institution doing business in the United States. ~~Each grain dealer shall report to the department monthly, on or before a date established by rule of the department, the value of grain she or he has received from producers for which the producers have not received payment and the types of transaction involved, showing the value of each type of transaction. The report shall also include a statement showing the type and amount of security maintained to cover the grain dealer's liability to producers.~~ The department may ~~shall~~ make at least one spot check annually of each grain dealer to determine compliance with the requirements of this section.

Section 39. Section 582.03, Florida Statutes, is repealed.

Section 40. Section 582.04, Florida Statutes, is repealed.

Section 41. Section 582.05, Florida Statutes, is repealed.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1050 (453996)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on General Government); Regulated Industries Committee; and Senator Brandes
SUBJECT:	Regulated Professions and Occupations
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Kraemer	Caldwell	RI	**Fav/CS**
2.	Davis	DeLoach	AGG	**Recommend: Fav/CS**
3.	Davis	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1050 eliminates current business license requirements for certain regulated professions, but licensure requirements for individuals engaged in those professions remain intact. The affected professions are architects, interior designers, asbestos abatement consultants and contractors, and landscape architects.

The bill allows certain activities to be practiced without licensure, including nail polishing, low voltage landscape lighting, and low voltage communication cabling. The bill eliminates licensure and registration requirements for athlete agents, talent agencies, and labor organizations. Licensure of branch offices for yacht and ship brokers is also eliminated.

The bill has a significant negative fiscal impact to the Department of Business and Professional Regulation (DBPR or department) and to the Service Charge to General Revenue (see Section V, Fiscal Impact Statement).

II. Present Situation:

Section 20.165, F.S., establishes the organizational structure of the Department of Business and Professional Regulation (DBPR or department). There are 12 divisions, which include:

- Administration;
- Alcoholic Beverages and Tobacco;

- Certified Public Accounting;
- Drugs, Devices, and Cosmetics;
- Florida Condominiums, Timeshares, and Mobile Homes;
- Hotels and Restaurants;
- Pari-mutuel Wagering;
- Professions;
- Real Estate;
- Regulation;
- Service Operations; and
- Technology.

There are 15 boards and programs established within the Division of Professions,[1] two boards within the Division of Real Estate,[2] and one board within the Division of Certified Public Accounting.[3] The Florida State Boxing Commission (boxing commission) is also assigned to the DBPR for administrative and fiscal accountability purposes only.[4] The department also administers the Child Labor Law and Farm Labor Contractor Registration Law pursuant to parts I and III of ch. 450, F.S.

Chapter 455, F.S., applies to the regulation of professions constituting "any activity, occupation, profession, or vocation regulated by the department in the Divisions of Certified Public Accounting, Professions, Real Estate, and Regulation."[5]

Regulation of professions is limited under Florida law, to be undertaken "only for the preservation of the health, safety, and welfare of the public under the police powers of the state."[6] Regulation is required when:

- The potential for harming or endangering public health, safety, and welfare is recognizable and outweighs any anticompetitive impact that may result;
- The public is not effectively protected by other state statutes, local ordinances, federal legislation, or other means; and
- Less restrictive means of regulation are not available.[7]

---

[1] Section 20.165(4)(a), F.S., establishes the following boards and programs which are noted with the implementing statutes: Board of Architecture and Interior Design, part I of ch. 481; Florida Board of Auctioneers, part VI of ch. 468; Barbers' Board, ch. 476; Florida Building Code Administrators and Inspectors Board, part XII of ch. 468; Construction Industry Licensing Board, part I of ch. 489; Board of Cosmetology, ch. 477; Electrical Contractors' Licensing Board, part II of ch. 489; Board of Employee Leasing Companies, part XI of ch. 468; Board of Landscape Architecture, part II of ch. 481; Board of Pilot Commissioners, ch. 310; Board of Professional Engineers, ch. 471; Board of Professional Geologists, ch. 492; Board of Veterinary Medicine, ch. 474; Home Inspection Services Licensing Program, part XV of ch. 468; and Mold-related Services Licensing Program, part XVI of ch. 468, F.S.

[2] *See* s. 20.165(4)(b), F.S. Florida Real Estate Appraisal Board, created under part II of ch. 475, F.S., and Florida Real Estate Commission, created under part I of ch. 475, F.S.

[3] *See* s. 20.165(4)(c), F.S., which establishes the Board of Accountancy, created under ch. 473, F.S.

[4] Section 548.003(1), F.S.

[5] Section 455.01(6), F.S.

[6] Section 455.201(2), F.S.

[7] *Id.*

However, "neither the department nor any board may create a regulation that has an unreasonable effect on job creation or job retention," or a regulation that unreasonably restricts the ability of those who desire to engage in a profession or occupation to find employment.[8]

Chapter 455, F.S., provides the general powers of the DBPR and sets forth the procedural and administrative framework for all of the professional boards housed under the department as well as the Divisions of Certified Public Accounting, Professions, Real Estate, and Regulation.[9] When a person is authorized to engage in a profession or occupation in Florida, the department issues a "permit, registration, certificate, or license" to the licensee.[10]

In Fiscal Year 2014-2015, the Division of Accountancy had 38,678 licensees, the Division of Real Estate had 330,565 licensees, and the Board of Professional Engineers had 57,756 licensees.[11] In Fiscal Year 2014-2015, there were 415,207 licensees in the Division of Professions,[12] including:

- Architects and interior designers;
- Asbestos consultants and contractors;
- Athlete agents;
- Auctioneers;
- Barbers;
- Building code administrators and inspectors;
- Community association managers;
- Construction industry contractors;
- Cosmetologists;
- Electrical contractors;
- Employee leasing companies;
- Geologists;
- Home inspectors;
- Landscape architects;
- Harbor pilots;
- Mold-related services;
- Talent agencies; and
- Veterinarians.[13]

Sections 455.203 and 455.213, F.S., establish general licensing provisions for the DBPR, including the authority to charge license fees and license renewal fees. Each board within the

[8] Section 455.201(4)(b), F.S.
[9] *See* s. 455.203, F.S. The department must also provide legal counsel for boards within the department by contracting with the Department of Legal Affairs, by retaining private counsel, or by providing department staff counsel. *See* s. 455.221(1), F.S.
[10] Section 455.01(4) and (5), F.S.
[11] *See* Department of Business and Professional Regulation, *Annual Report, Fiscal Year 2014-2015,* http://www.myfloridalicense.com/dbpr/os/documents/FY2014-2015AnnualReportFinal.pdf (last accessed Jan. 31, 2016) at 22.
[12] Of the total 415,207 licensees in the Division of Professions, 22,566 are inactive. *Id*. at 22.
[13] *Id*. at 13.

department must determine by rule the amount of license fees for its profession, based on estimates of the required revenue to implement regulatory laws.[14]

The Division of Florida Condominiums, Timeshares, and Mobile Homes (FCTMH) within the DBPR provides consumer protection for Florida residents living in regulated communities through education, complaint resolution, mediation and arbitration, and developer disclosure.[15] The FCTMH has limited regulatory authority over the following business entities and individuals:

- Condominium Associations;
- Cooperative Associations;
- Florida Mobile Home Parks and related associations;
- Vacation Units and Timeshares;
- Yacht and Ship Brokers and related business entities; and
- Homeowner's Associations (jurisdiction limited to arbitration of election and recall disputes).[16]

Yacht and Ship Broker Branch Office Licenses

Chapter 326, F.S., governs the licensing and regulation of yacht and ship brokers, salespersons, and related business organizations in the state. The Yacht and Ship Broker's Section, a unit of the FCTMH, processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the yacht brokerage industry.[17]

A person may not act as a yacht or ship broker or salesperson unless licensed under ch. 326, F.S.[18] "Each [yacht or ship] broker must maintain a principle place of business in this state and may establish branch offices in the state. A separate license must be maintained for each branch office."[19]

Applicants for a branch office license and renewal pay a $100 fee with a license renewal every two years.[20] There is no requirement on the branch office other than to obtain licensure. Additionally, there are no inspection requirements.

Labor Organizations

Chapter 447, F.S., governs the licensing and regulation of labor organizations, and related business agents in the state. The Division of Regulation within the DBPR oversees the licensing and regulation of labor organizations. The Division of Regulation processes licenses and

[14] Section 455.219(1), F.S.

[18] Section 326.004(1), F.S.
[19] Section 326.004(13), F.S.
[20] Rule 61B-60.002, F.A.C.

responds to consumer complaints and inquiries by monitoring activities and compliance within the labor organization industry.

A labor organization is defined as "[a]ny organization of employees or local or subdivision thereof, having within its membership residents of the state, whether incorporated or not, organized for the purpose of dealing with employers concerning hours of employment, rate of pay, working conditions, or grievances of any kind relating to employment and recognized as a unit of bargaining by one or more employers doing business in this state."[21]

In Florida, all labor organizations are required to register with the department and all business agents of labor organizations must obtain a license.[22] Business agents are defined as "[a]ny person, without regard to title, who shall, for a pecuniary or financial consideration, act or attempt to act for any labor organization in:

- The issuance of membership or authorization cards, work permits, or any other evidence of rights granted or claimed in, or by, a labor organization; and
- Soliciting or receiving from any employer any right or privilege for employees."[23]

Applicants for a business agent license shall pay $25 fee for licensure and must meet a number of licensure requirements.[24] Labor organization applicants must pay an annual fee of $1.[25]

Talent Agencies

Chapter 468, Part VII, F.S., governs the licensing and regulation of talent agencies in the state. The Division of Professions within the DBPR oversees the licensing and regulation of talent agencies. The Division of Professions processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the talent agency industry.

Individuals are prohibited from owning, operating, soliciting business, or otherwise engaging in or carrying on the occupation of a talent agency in this state unless the person first obtains licensure for the talent agency.[26] A talent agency is defined as "[a]ny person who, for compensation, engages in the occupation or business of procuring or attempting to procure engagements for an artist."[27]

To qualify for a talent agency license, the applicant must be of good moral character and shall show whether or not the agency, any person, or any owner of the agency is financially interested in any other business of like nature, and if so, shall specify the interests.[28]

[21] Section 447.02(1), F.S.
[22] Section 447.04(2), F.S.
[23] Section 447.02(2), F.S.
[24] Section 447.04(2), F.S.
[25] Section 447.06(2), F.S.
[26] Section 468.403(1), F.S.
[27] Section 468.401, F.S.
[28] Section 468.405, F.S.

At the time of application, applicants for a talent agency license must pay an application fee of $300, an unlicensed activity fee of $5, and an initial licensure fee of $200 if licensed after March 31 of any odd numbered year. Otherwise the initial license fee is $400. Talent agency license holders must pay a biennial renewal fee of $400.[29]

Licensed talent agencies are required to:
- File an itemized schedule of maximum fees, charges, and commissions it intends to charge and collect for its services;[30]
- Pay to the artist all money collected from an employer for the benefit of an artist within five business days after receipt of the money;[31]
- Display a copy of the license conspicuously in the place of business;[32]
- File a bond with the department in the form of a surety for the penal sum of $5,000, which may be drawn upon if a person is aggrieved by the misconduct of the talent agency;[33]
- Maintain records including the application, registration, or contract of each artist, with additional information;[34]
- Provide a copy of the contract to the artist within 24 hours of the contract's execution;[35] and
- Comply with the prohibited acts set forth in s. 468.412, F.S.

Licensed talent agencies are prohibited from:
- Charging the artist a registration fee;[36]and
- Requiring the artist to subscribe to, purchase, or attend any publication, postcard service, and advertisement, resume service, photography service, school, acting school, workshop, or acting workshop.[37]

Section 468.415, F.S., provides prohibitions against sexual misconduct.

Section 468.413, F.S., provides criminal penalties for:
- Operating a talent agency without a license;
- Obtaining a license through misrepresentation;
- Assigning a license to another individual;
- Relocating a talent agency without notifying the department;
- Failing to provide information on an application regarding related businesses;
- Failing to maintain records;
- Requiring the artist to subscribe to, purchase, or attend any publication, postcard service, advertisement, resume service, photography service, school, acting school, workshop, or acting workshop;

[34] Section 468.409, F.S.
[35] Section 468.410(3), F.S.
[36] Section 468.410(1), F.S.
[37] Section 468.410(2), F.S.

- Failing to provide a copy of the contract to the artist;
- Failing to maintain a record sheet; and
- Knowingly sending an artist to an employer the licensee knows to be in violation of the laws of Florida or of the United States.

Athlete Agents

Chapter 468, Part IX, F.S., governs the licensing and regulation of athlete agents in the state. The Division of Professions within the DBPR oversees the licensing and regulation of athlete agents. The Division of Professions processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the athlete agent industry.

Individuals are prohibited from practicing as an athlete agent in Florida without first being licensed as an athlete agent.[38] An athlete agent is defined as:

> [A] person who, directly or indirectly, recruits or solicits a student athlete to enter into an agent contract, or who, for any type of financial gain, procures, offers, promises, or attempts to obtain employment or promotional fees or benefits for a student athlete with a professional sports team or as a professional athlete, or with any promoter who markets or attempts to market the student athlete's athletic ability or athletic reputation. This term includes all employees and other persons acting on behalf of an athlete agent who participate in the activities included under this subsection. The term does not include a spouse, parent, sibling, grandparent, or guardian of the student athlete or an individual acting solely on behalf of a professional sports team or professional sports organization.[39]

In order to be licensed, an applicant must be at least 18 years of age, of good moral character, and have completed the application form and remitted an application fee of $500, a licensure fee of $375, and an unlicensed activity fee of $5. Athlete agent license holders must pay a biennial renewal fee of $220.[40]

Licensed athlete agents are required to:
- Comply with specific contract requirements;[41]
- Comply with the prohibited acts;[42] and
- Maintain financial and business records.[43]

[38] Section 468.453(1), F.S.
[39] Section 468.452(2), F.S.
[40] Rule 61-24.004, F.A.C.
[41] Section 468.454, F.S.
[42] Section 468.456, F.S.
[43] Section 468.4565, F.S.

Section 468.45615, F.S., provides criminal penalties for a licensed athlete agent who provides anything of value to any person to induce a student athlete to enter into an agreement by which the agent will represent the student athlete.[44]

Asbestos Abatement Business Organization

Chapter 469, F.S., governs the licensing and regulation of asbestos abatement in the state. The Asbestos Licensing Unit is a program located under the Division of Professions. The program processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the asbestos abatement industry.

An asbestos consultant's license may be issued only to an applicant who holds a current, valid, active license as an architect, professional engineer, professional geologist, is a diplomat of the American Board of Industrial Hygiene, or has been awarded designation as a Certified Safety Professional by the Board of Certified Safety Professionals.[45]

A person must be a licensed asbestos contractor in order to conduct asbestos abatement work.[46] A person must be a licensed asbestos consultant in order to:

- Conduct an asbestos survey;
- Develop an operation and maintenance plan;
- Monitor and evaluate asbestos abatement; or
- Prepare asbestos abatement specifications.[47]

If an applicant for licensure as an asbestos consultant or contractor proposed to engage in consulting or contracting as a business organization, such as a corporation or other legal entity, or in any name other than the applicant's legal name, the business organization must be licensed as an asbestos abatement business. Each licensed business organization must have a qualifying agent that is licensed under ch 469, F.S.,[48] and that is qualified to supervise and is financially responsible. If the qualifying agent terminates his or her affiliation with the business organization and is the only qualifying agent for the business organization, the business organization must be qualified by another qualifying agent within 60 days after the termination, and may not engage in the practice of asbestos abatement until it is qualified.

Applicants for an asbestos abatement business license pay an application fee of $300, an unlicensed activity fee of $5, an initial licensure fee of $250, and a biennial renewal fee of $250.[49] There is no requirement on the branch office other than to obtain licensure. Additionally, there are no inspection requirements.

[46] Section 469.003(3), F.S.
[47] Section 469.003, F.S.
[48] Section 469.006, F.S.
[49] Rule 61E1-3.001, F.A.C.

Nail Painting

Chapter 477, F.S., governs the licensing and regulation of cosmetologists, hair wrappers, hair braiders, nail specialists, facial specialists, full specialists, body wrappers and related salons in the state. The Board of Cosmetology is a board located within the Division of Professions. The board processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the cosmetology industry.

Individuals are prohibited from providing manicures or pedicures in Florida without first being registered as a nail specialist, full specialist, or cosmetologist.

A "specialist" is defined as "any person holding a specialty registration in one or more of the specialties registered under [ch. 477, F.S.]."[50] The term "specialty" is defined as "the practice of one or more of the following:

- Manicuring, or the cutting, polishing, tinting, coloring, cleansing, adding, or extending of the nails, and massaging of the hands. This term includes any procedure or process for the affixing of artificial nails, except those nails which may be applied solely by use of a simple adhesive;
- Pedicuring, or the shaping, polishing, tinting, or cleansing of the nails of the feet, and massaging or beautifying of the feet;
- Facials, or the massaging or treating of the face or scalp with oils, creams, lotions, or other preparations, and skin care services."[51]

The term "cosmetologist" is defined as "a person who is licensed to engage in the practice of cosmetology…"[52] The term "cosmetology" is defined as "the mechanical or chemical treatment of the head, face, and scalp for aesthetic rather than medical purposes, including, but not limited to, hair shampooing, hair cutting, hair arranging, hair coloring, permanent waving, and hair relaxing for compensation. This term also includes performing hair removal, including wax treatments, manicures, pedicures, and skin care services."[53]

A nail specialist may complete manicures and pedicures. A full specialist may complete manicures, pedicures, and facials. Manicures and pedicures, as a part of cosmetology services, are required to be provided in a licensed specialty salon or cosmetology salon.[54] All cosmetology and specialty salons are subject to inspection by the department.[55]

To qualify for a specialist license, the applicant must be at least 16 years old, obtain a certificate of completion from an approved specialty education program, and submit an application for registration with the department with the registration fee.[56]

[50] Section 477.013(5), F.S.
[51] Section 477.013(6), F.S.
[52] Section 477.013(3), F.S.
[53] Section 477.013(4), F.S.
[54] Section 477.0263, F.S.
[55] Section 477.025, F.S.
[56] Section 477.0201, F.S.

To qualify for a license as a cosmetologist, the applicant must be at least 16 years old, have received a high school diploma, have submitted an application with the applicable fee and examination fee, and have either a license in another state or country for at least one year, or have received 1,200 hours training including completing an education at an approved cosmetology school or program. The applicants must also pass all parts of the licensure examination.[57]

The act of painting nails with fingernail polish falls under the scope of manicuring, even if the individual is not cutting, cleansing, adding, or extending the nails. Therefore, individuals seeking to add polish to fingernails and toenails for compensation are required to obtain a registration as a specialist or a license as a cosmetologist. The department does not have a separate license for polishing nails.

Architecture Business or Interior Design Organization

Chapter 481, Part I, F.S., governs the licensing and regulation of architects, interior designers, and related business organizations in the state. The Board of Architecture and Interior Design is a board located under the Division of Professions. The board processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the architecture and interior design industries.

"The practice of or the offer to practice architecture or interior design by licensees through a corporation, limited liability company, or partnership offering architectural or interior design services to the public, or by a corporation, limited liability company, or partnership offering architectural or interior design services to the public through licensees under this part as agents, employees, officers, or partners, is permitted, subject to the provisions of [ch. 481, Part I, F.S.]."[58] An architecture or interior design business corporation, limited liability company, or partnership, which is offering architecture or interior design service to the public, must obtain a certificate of authorization prior to practicing.[59]

Applicants for an architecture business certificate of authorization or interior design business certificate of authorization must pay an application fee of $100, an unlicensed activity fee of $5, and a biennial renewal fee of $125.[60] There is no requirement on the business entity other than to obtain licensure. Additionally, there are no inspection requirements.

Landscape Architecture Business Organization

Chapter 481, Part II, F.S., governs the licensing and regulation of landscape architects and related business organizations in the state. The Board of Landscape Architecture is a board located within the Division of Professions. The board processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the landscape architecture industry.

[57] Section 477.019(2), F.S.
[58] Section 481.219(1), F.S.
[59] Section 481.219(2)-(3), F.S.
[60] Rules 61G1-17.001 and 61G1-17.002, F.A.C.

A person may not knowingly practice landscape architecture unless the person holds a valid license issued pursuant to ch. 481, Part II, F.S.[61] A corporation or partnership is permitted to offer landscape architectural services to the public, subject to the provisions of ch. 481, Part I, F.S., if:

- One or more of the principles of the corporation, or partners in the partnership, is a licensed landscape architect;
- One or more of the officers, directors, or owners of the corporation, or one of more of the partners of the partnership is a licensed landscape architect;
- The corporation or partnership has been issued a certificate of authorization by the board.[62]

Applicants for a landscape architecture business certificate of authorization must pay an application fee and initial licensure fee of $450, an unlicensed activity fee of $5, and a biennial renewal fee of $337.50.[63] There is no requirement on the business entity other than to obtain licensure. Additionally, there are no inspection requirements.

Low Voltage Communication Cable

Chapter 489, Part II, F.S., governs the licensing and regulation of electrical contractors, alarm system contractors, and certain specialty contractors in the state. The Electrical Contractors' Licensing Board is a board located within the Division of Professions. The Electrical Contractors' Licensing Board processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the electrical contracting industry.

The term "electrical contractor" is defined as:

> [A] person who conducts business in the electrical trade field and who has the experience, knowledge, and skill to install, repair, alter, add to, or design, in compliance with law, electrical wiring, fixtures, appliances, apparatus, raceways, conduit, or any part thereof, which generates, transmits, transforms, or utilizes electrical energy in any form, including the electrical installations and systems within plants and substations, all in compliance with applicable plans, specifications, codes, laws, and regulations. The term means any person, firm, or corporation that engages in the business of electrical contracting under an express or implied contract; or that undertakes, offers to undertake, purports to have the capacity to undertake, or submits a bid to engage in the business of electrical contracting; or that does itself or by or through others engage in the business of electrical contracting.[64]

The term "alarm system contractor" is defined as:

[61] Section 481.323(1)(a), F.S.
[62] Section 481.319(1), F.S.
[63] Rule 61G10-12.002, F.A.C.
[64] Section 489.505(12), F.S.

> [A] person whose business includes the execution of contracts requiring the ability, experience, science, knowledge, and skill to lay out, fabricate, install, maintain, alter, repair, monitor, inspect, replace, or service alarm systems for compensation, including, but not limited to, all types of alarm systems for all purposes. This term also means any person, firm, or corporation that engages in the business of alarm contracting under an expressed or implied contract; that undertakes, offers to undertake, purports to have the capacity to undertake, or submits a bid to engage in the business of alarm contracting; or that by itself or by or through others engages in the business of alarm contracting.[65]

The term "specialty contractor" as referenced in ch. 489, Part II, F.S., is defined as:

> [A] contractor whose scope of practice is limited to a specific segment of electrical or alarm system contracting established in a category adopted by board rule, including, but not limited to, residential electrical contracting, maintenance of electrical fixtures, and fabrication, erection, installation, and maintenance of electrical advertising signs together with the interrelated parts and supports…[66]

The Electrical Contractors' Licensing Board created a "Limited Energy Systems" specialty, clarifying the scope of the specialty license to include "the installation, repair, fabrication, erection, alteration, addition to, or design of electrical wiring, fixtures, appliances, thermostats, apparatus, raceways, conduit, and fiber optics (transmission of light over stranded glass) or any part thereof not to exceed 98 volts, (RMS). The scope of work of this license does not include installation, repair, fabrication, erection, alteration, addition to, or design of electrical wiring, fixtures, appliances, thermostats, apparatus, raceways, conduit, that are part of an alarm system."[67]

The act of installing low voltage communication cabling currently falls under the scope of practice of a limited energy systems specialty license, electrical residential contractor license, and alarm systems contractor license. Therefore, at present an individual wishing to do so for compensation is required to obtain one of the listed licenses prior to completing the work.

Section 489.503(14), F.S., provides an exemption from licensure requirements for the selling, installing, repairing, altering, adding, or designing of low voltage communication cabling by employees of cable or communication companies operating under a certificate issued under ch. 364 or ch. 610, F.S., or under a local franchise or right-of-way agreement.

[65] Section 489.505(2), F.S.
[66] Section 489.505(19), F.S.
[67] Rule 61G6-7.001(4), F.A.C.

Low-Voltage Landscape Lighting

The act of installing low voltage landscape lighting systems that plug into existing receptacles currently falls under the scope of practice of a limited energy systems specialty license, electrical residential contractor license, and alarm systems contractor license. Therefore, currently, an individual wishing to do so for compensation is required to obtain one of the listed licenses prior to completing the work.

Burglar Alarm Systems Agents

A licensed electrical or alarm system contractor may hire a burglar alarm system agent to perform elements of alarm system contracting. A burglar alarm systems agent is defined as a person:

- Who is employed by a licensed alarm system contractor or licensed electrical contractor;
- Who is performing duties which are an element of an activity which constitutes alarm system contracting requiring licensure under this part; and
- Whose specific duties include any of the following: altering, installing, maintaining, moving, repairing, replacing, servicing, selling, or monitoring an intrusion or burglar alarm system for compensation.[68]

A licensed electrical or alarm system contractor may not employ a person as a burglar alarm system agent unless that person:

- Is at least 18 years old;
- Has completed a minimum of 14 hours of specific training from a board-approved provider;
- Has not been convicted within the previous three years of a crime directly related to the employment;
- Has not been committed for controlled substance abuse or been found guilty of a crime under chapter 893, F.S. within the previous three years.[69]

Each burglar alarm system agent must receive six hours of continuing education on burglar alarm system installation and repair and false alarm prevention every two years from a board-approved sponsor of training and through a board-approved training course.[70]

III. Effect of Proposed Changes:

Section 1 amends s. 326.004, F.S., to remove the requirement that separate branch office licenses be maintained by yacht and ship brokers, in addition to licensure of the principal office. Brokers and salespeople are required to maintain individual licensure, with a principal place of business in Florida tied to the broker's individual license. No disciplinary orders against branch office licenses were issued in the previous three fiscal years.[71]

[68] Section 489.505(25), F.S.
[69] Section 489.518(1), F.S.
[70] Section 489.518(5), F.S.
[71] S*ee 2016 Department of Business and Professional Regulation Legislative Bill Analysis for SB 1050,* Dec. 16, 2015 (on file with Senate Committee on Regulated Industries) at 4-5.

Sections 2 through **9** amend the provisions in Part I of ch. 447, F.S., to eliminate the registration and regulation of labor organizations by the Department of Business and Professional Regulation (DBPR or department). Provisions relating to the right to work and strike, recordkeeping, rights of franchise for labor organizations, civil causes of action, criminal penalties, and recognition of federal regulations remain effective.

According to the department, the National Labor Relations Board (NLRB) is active in Florida and provides similar oversight of unions to that of the DBPR. The United States Department of Labor, Office of Labor Management Standards also registers unions. The department issued no disciplinary orders against labor organizations during the three previous fiscal years.[72]

Sections 10 through **23** amend Part VII of ch. 468, F.S., to eliminate the licensing and regulation of talent agencies by the DBPR. The bill maintains the civil and criminal provisions currently provided in ch. 468, Part VII, F.S., and maintains contract and notice requirements related to talent agents.

According to the department, three disciplinary orders were issued against talent agencies in the three previous fiscal years; two involved minor violations for failure to include the talent agency's license number in advertisements. The financial account of the licensing program has been in a perpetual deficit since creation of talent agency licensure in 1986.[73]

Sections 24 through **33** amend Part IX of ch. 468, F.S., to eliminate all licensing requirements for athlete agents. According to the department, no disciplinary orders were issued against athlete agents in the previous three fiscal years.[74] Certain civil and criminal causes of action against athlete agents remain effective.

Sections 34 and **35** amend ch. 469, F.S., to remove the requirement that an asbestos abatement contractor obtain a separate business license in addition to an individual license. No disciplinary orders against a licensed asbestos abatement business were issued in the three previous fiscal years. Asbestos abatement contractors must qualify the business organizations they supervise and are liable for the actions of those businesses. Asbestos abatement contractors must inform the department of any change in their relationship with the qualified business, and a qualified business has 60 days to obtain another asbestos abatement contractor to serve as qualifying agent.

Section 36 amends s. 477.0135, F.S., to eliminate registration requirements for persons engaged in nail polishing. According to the department, this service is limited to non-invasive procedures and the use of harmful chemicals is prohibited.

The Board of Cosmetology issued three disciplinary orders against licensed cosmetologists or cosmetology salons for matters involving nail polishing in the three previous fiscal years. Two

[72] *Id.* at 4.
[73] *Id.*
[74] *Id.*

were for unlicensed activity, and one involved a nail specialist practicing with an expired license. None involved injury to a consumer.[75]

Sections 37 through **40** amend ch. 481, F.S., to remove the requirement that architects and interior designers obtain a separate business license (certificate of authorization) in addition to an individual license. The bill provides that architects and interior designers qualify their business organization with their individual licenses. The bill provides that architects and interior designers must inform the department of any change in their relationship with the qualified business, and the business has 60 days to obtain another qualifying architect or interior designer. The executive director or chair of the Board of Architecture and Interior Design may authorize another registered architect or interior designer employed by the business organization to temporarily service as its qualifying agent for no more than 60 days.

The bill amends s. 481.219(2)(b), F.S., to provide that the Board of Architecture and Interior Design may deny an application to qualify a business organization, if the applicant (or others identified in the application as partners, officers, directors, or stockholders who are also officers or directors) "has been involved in past disciplinary actions or on any grounds for which an individual registration or certification may be denied."

According to the department, in the three previous fiscal years, the Board of Architecture and Interior Design disciplined licensed architecture businesses only six times in cases that did not also involve discipline against the supervising architect; generally, the licensed business was cited for operating without a supervising architect or for failure to include license numbers in advertisements.[76]

The Board of Architecture and Interior Design disciplined licensed interior design businesses only four times in the three previous fiscal years in cases that did not also involve discipline against the qualifying interior designer. In three of the four disciplinary cases, the business license was retained by the business after the qualifying interior designer had left the firm.[77]

Sections 41 through **46** amend Part II of ch. 481, F.S., to remove the requirement that landscape architects obtain a separate business license in addition to an individual license. The bill provides that landscape architects must qualify their business organization with their individual licenses and will be liable for the actions of the business organizations they qualify.

The bill repeals the department's authority to issue a certificate of authorization to an applicant wishing to practice as a corporation, limited liability company, or partnership offering landscape architectural services. Furthermore, the bill repeals the board's ability to grant a temporary certificate of authorization for a business organization that is seeking to work on one project in Florida for a period not to exceed a year to an out-of-state corporation, partnership, or firm.

[75] *Id.*
[76] *Id.*at 5.
[77] *Id.*

The bill provides that a corporation or partnership is permitted to offer landscape architectural services to the public, subject to the provisions of ch. 481, Part I, F.S., if:

- One or more of the principles of the corporation, or partners in the partnership, is a licensed landscape architect; and
- One or more of the officers, directors, or owners of the corporation, or one of more of the partners of the partnership is a licensed landscape architect.

The bill provides that landscape architects must inform the department of any change in their relationship with the qualified business, and the business has one month to obtain another qualifying landscape architect. According to the department, the Board of Landscape Architecture and Design issued no disciplinary orders against landscape architecture businesses during the three previous fiscal years.[78]

Section 47 amends s. 489.503, F.S., to exempt from licensure as an electrical or alarm system contractor, those persons engaged in the installation or repair of low voltage or communication cabling. Low voltage cabling is limited to a maximum of 98 volts. Section 489.503, F.S., already exempts from licensure those employed by cable and telephone companies, who engage in the installation, maintenance, repair, etc. of systems relating to the transmission of voice and data. The bill exempts all persons from the licensure requirement, whether or not they are employed by a cable and telephone company. According to the department, the Electrical Contractors' Licensing Board issued no disciplinary orders for such work in the three previous fiscal years.[79]

The bill provides that a person installing low voltage landscape lighting that contains a factory-installed electrical cord with a plug and does not require installation or wiring is exempt from licensure requirements. The proposed exemption does not permit the alteration of a home's internal electrical system. According to the department, the Electrical Contractors' Licensing Board issued no disciplinary orders against licensees providing these services during the three previous fiscal years.[80]

Section 48 amends s. 489.518, F.S., to provide that persons who perform only sales or installation of wireless alarm systems, other than fire alarms, in a single family residence, are not required to complete the 14 hours of training required of burglar alarm system agents. Burglar alarm system agents installing a wireless system are required to be supervised by a properly licensed electrical or alarm system contractor who is responsible for ensuring proper installation of the alarm system. According to the DBPR, the Electrical Contractors Licensing Board issued no disciplinary orders in the three previous fiscal years relating to this supervision requirement.[81]

Section 49 provides the bill takes effect July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

PCS/CS/SB 1050 eliminates the requirement for several professions to obtain a license in order to practice in the state. According to the Department of Business and Professional Regulation (DBPR or department), licensees will receive the benefit of fee reductions in the amounts shown below:

- Yacht and Ship Brokers - approximately $1,200 in Fiscal Year 2015-2016; $6,100 in Fiscal Year 2016-2017; $2,600 in Fiscal Year 2017-2018; and $6,100 in Fiscal Year 2018-2019.
- Professions (labor organizations, athlete agents, talent agents, and business licenses related to architects, interior designers, landscape architects, and asbestos abatement consultants and contractors) - approximately $231,300 in Fiscal Year 2015-2016; $156,209 in Fiscal Year 2016-2017; $1,029,394 in Fiscal Year 2017-2018, and $156,209 in Fiscal Year 2018-2019.

C. Government Sector Impact:

According to the DBPR,[82] a reduction in state revenue within the Professional Regulation Trust Fund and the Division of Florida Condominiums, Timeshares, and Mobile Homes Trust Fund is anticipated to be $1,589,112 from Fiscal Year 2015-2016 to Fiscal Year 2018-2019 (see table below), with a corresponding reduction of approximately $128,314 in the Service Charge to General Revenue.

[82] *See* February 17, 2016, e-mail from Department of Business and Professional Regulation staff (on file with Senate Appropriations Subcommittee on General Government).

Reductions

	FY 2015-16	FY 2016-17	FY 2017-18	FY 2018-19
Revenues: License fees	Condominiums (Yacht and Ship Brokers) ($1,200) Professions ($231,300)	Condominiums (Yacht and Ship Brokers) ($6,100) Professions ($156,209)	Condominiums (Yacht and Ship Brokers) ($2,600) Professions ($1,029,394)	Condominiums (Yacht and Ship Brokers) ($6,100) Professions ($156,209)
Expenditures: Surcharge to GR (non-operating)	Condominiums (Yacht and Ship Brokers) ($96) Professions ($18,504)	Condominiums (Yacht and Ship Brokers) ($488) Professions ($12,985)	Condominiums (Yacht and Ship Brokers) ($208) Professions ($82,560)	Condominiums (Yacht and Ship Brokers) ($488) Professions ($12,985)

The effective date of the bill is July 1, 2016. However, the department anticipates revenue and expenditure reductions in Fiscal Year 2015-2016 (see table above) associated with the licensure renewal of athlete and talent agents and yacht and ship branch offices. Currently, the biennial renewals for athlete agents and talent agents are due May 31 during even years. Yacht and Ship branch office licenses are renewed for a period up to two years based on the expiration date of the licensee's associated yacht and ship broker license. In anticipation of the elimination of the licenses and fees provided in the bill, the department contemplates not collecting renewals for these particular licenses in the remaining months prior to the effective date of the bill.

According to the DBPR, changes in licensing and renewal requirements will require programming modifications which can be handled with existing resources.[83] In addition, the elimination and modification of certain licenses and registration will necessitate the repeal or amendment of rules and applications regarding those licenses and registrations, which can be handled with existing resources.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 326.004, 447.02, 447.09, 468.401, 468.406, 468.408, 468.409, 468.410, 468.412, 468.413, 468.415, 468.451,

[83] *Id*.

468.452, 468.454, 468.45615, 468.4565, 469.006, 469.009, 477.0135, 481.203, 481.219, 481.221, 481.229, 481.303, 481.321, 481.311, 481.317, 481.319, 481.329, 489.503, and 489.518.

This bill repeals the following sections of the Florida Statutes: 447.04, 447.041, 447.045, 447.06, 447.12, 447.16, 468.402, 468.403, 468.404, 468.405, 468.407, 468.414, 468.453, 468.4536, 468.456, 468.4561, and 468.457.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on General Government on February 17, 2016:
The committee substitute provides the following:

- Reinstates the criminal and civil remedies and corresponding requirements for how talent agents should conduct their business that are provided in current law;
- Removes deregulation provisions related to hair wrappers and body wrappers and reverts to current law regarding the regulation of those professions;
- Allows the executive director or the chair of the Board of Architecture and Interior Design to authorize another registered architect or interior designer employed by the business organization to temporarily serve as its qualifying agent for no more than 60 days. This provision applies when a qualifying architect or interior designer agent, who is the only qualifying agent for the business organization, ceases employment with the business organization;
- Clarifies that the license number for a qualifying agent of a business organization be included in any advertising of the business organization;
- Conforms to changes made in the bill to use the term "business organization" in lieu of "corporation," "limited liability company," "or partnership;" and
- Corrects a title description.

CS by Regulated Industries on February 2, 2016:
The CS deletes the exemption proposed for veterinary acupressure or veterinary massage. It removes joint and several liability of a licensed qualifying agent for a business organization offering architectural or interior design services, for any damages resulting from the actions of the organization. All provisions relating to certificates of authorization for the practice of professional geology and qualification of the organization by active licensed professional geologists in the state were removed from the bill.

B. Amendments:

None.

LEGISLATIVE ACTION

The Committee on Appropriations (Hays) recommended the following:

Senate Amendment (with title amendment)

Delete line 515

and insert:

Section 29. Section 468.456, Florida Statutes, is amended to read:

468.456 Prohibited acts.—

(1) Any of the following acts shall be grounds for the civil causes of action ~~disciplinary actions~~ and remedies as provided for in s. 468.4562 ~~subsection (3)~~:

~~(a) A violation of any law relating to the practice as an athlete agent including, but not limited to, violations of this part and chapter 455 and any rules promulgated thereunder~~.

(a) ~~(b)~~ Failure to account for or to pay, within a reasonable time, not to exceed 30 days, assets belonging to another which have come into the control of the athlete agent in the course of conducting business as an athlete agent.

(b) ~~(c)~~ Any conduct as an athlete agent which demonstrates bad faith or dishonesty.

(c) ~~(d)~~ Commingling money or property of another person with the athlete agent's money or property. Every athlete agent shall maintain a separate trust or escrow account in an insured bank or savings and loan association located in this state in which shall be deposited all proceeds received for another person through the athlete agent.

(d) ~~(e)~~ Accepting as a client a student athlete referred by and in exchange for any consideration made to an employee of or a coach for a college or university located in this state.

(e) ~~(f)~~ Offering anything of value to any person to induce a student athlete to enter into an agreement by which the agent will represent the student athlete. However, negotiations regarding the agent's fee shall not be considered an inducement.

~~(g) Knowingly providing financial benefit from the licensee's conduct of business as an athlete agent to another athlete agent whose license to practice as an athlete agent is suspended or has been permanently revoked within the previous 5 years~~.

(f) ~~(h)~~ Committing mismanagement or misconduct as an athlete agent which causes financial harm to a student athlete or

college or university.

~~(i) Failing to include the athlete agent's name and license number in any advertising related to the business of an athlete agent. Advertising shall not include clothing or other novelty items.~~

(g) ~~(j)~~ Publishing or causing to be published false or misleading information or advertisements, or giving any false information or making false promises to a student athlete concerning employment or financial services.

(h) ~~(k)~~ Violating or aiding and abetting another person to violate the rules of the athletic conference or collegiate athletic association governing a student athlete or student athlete's college or university.

(i) ~~(l)~~ Having contact, as prohibited by this part, with a student athlete.

(j) ~~(m)~~ Postdating agent contracts.

~~(n) Having an athlete agent certification acted against by a professional athletic club or association.~~

(k) ~~(o)~~ Being employed to illegally recruit or solicit student athletes by being utilized by or otherwise collaborating with a person known to have been convicted or found guilty of, or to have entered a plea of nolo contendere to, a violation of s. 468.45615, regardless of adjudication.

(2) This part does not prohibit an athlete agent from:

(a) Sending to a student athlete written materials provided that the athlete agent simultaneously sends an identical copy of such written materials to the athletic director, or the director's designee, of the college or university in which the student athlete is enrolled or to which the student athlete has

provided a written intent to participate in intercollegiate athletics; and

(b) Otherwise contacting a student athlete, provided that the student athlete initiates the contact with the athlete agent, and the athlete agent gives prior notice, as provided for by rule of the department, to the college or university in which the student athlete is enrolled or to which the student athlete has provided a written intent to participate in intercollegiate athletics.

~~(3) When the department finds any person guilty of any of the prohibited acts set forth in subsection (1), the department may enter an order imposing one or more of the penalties provided for in s. 455.227, and an administrative fine not to exceed $25,000 for each separate offense. In addition to any other penalties or disciplinary actions provided for in this part, the department shall suspend or revoke the license of any athlete agent licensed under this part who violates paragraph (1)(f) or paragraph (1)(o) or s. 468.45615.~~

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on General Government)

A bill to be entitled

An act relating to regulated professions and occupations; amending s. 326.004, F.S.; deleting a requirement that yacht and ship brokers maintain a separate license for each branch office and related fees; amending s. 447.02, F.S.; deleting a definition; repealing s. 447.04, F.S., relating to business agents, licenses, and permits; repealing s. 447.041, F.S., relating to hearings; repealing s. 447.045, F.S., relating to certain confidential information; repealing s. 447.06, F.S., relating to the required registration of labor organizations; amending s. 447.09, F.S.; deleting prohibitions against specified actions; repealing s. 447.12, F.S., relating to registration fees; repealing s. 447.16, F.S., relating to the applicability of ch. 447, F.S.; amending s. 468.401, F.S.; deleting the definitions of the terms "department," "license," and "licensee"; repealing s. 468.402, F.S., relating to the duties of the Department of Business and Professional Regulation; repealing s. 468.403, F.S., relating to licensure and application requirements for owners and operators of talent agencies; repealing s. 468.404, F.S., relating to fees and renewal of talent agency licenses; repealing s. 468.405, F.S., relating to qualification for talent agency licenses; amending s. 468.406, F.S.; deleting the requirement for talent agencies to file

453996

576-03720-16

with the department an itemized schedule of certain fees and an amended or supplemental schedule under certain circumstances; repealing s. 468.407, F.S., relating to license contents and posting; amending s. 468.408, F.S.; deleting a requirement that a talent agency file a bond for each talent agency license; deleting a departmental requirement to approve talent agency bonds; requiring that a bonding company notify the talent agency, rather than notifying the department, of certain claims; amending s. 468.409, F.S.; deleting provisions requiring talent agencies to make specified records readily available for inspection by the department; amending s. 468.410, F.S.; deleting a reference to the department in talent agency contracts; amending s. 468.412, F.S.; revising the requirements for talent agencies to enter in the talent agency records; revising the requirements for talent agencies to post certain laws and rules; revising the information required in talent agency publications; amending s. 468.413, F.S.; deleting provisions relating to criminal violations for failing to obtain or maintain licensure with the department; deleting provisions authorizing the court to suspend or revoke a license; deleting a provision authorizing the court to bring certain actions; repealing s. 468.414, F.S., relating to collection and deposit of fines, fees, and penalties collected by the department; amending s. 468.415, F.S.; deleting a provision authorizing the department to revoke a

license; amending s. 468.451, F.S.; revising legislative intent related to the regulation of athlete agents; reordering and amending s. 468.452, F.S.; deleting the term "department"; repealing s. 468.453, F.S., relating to the licensure of athlete agents; repealing s. 468.4536, F.S., relating to renewal of such licenses; amending s. 468.454, F.S.; revising the information that must be stated in agent contracts; deleting a condition under which an agent contract is void and unenforceable; repealing s. 468.456, F.S., relating to prohibited acts for athlete agents; repealing s. 468.4561, F.S., relating to unlicensed activity and penalties for violations; amending s. 468.45615, F.S.; conforming provisions to changes made by the act; amending s. 468.4565, F.S.; deleting provisions authorizing the Department of Business and Professional Regulation to access and inspect certain records of athlete agents and related disciplinary actions and subpoena powers; repealing s. 468.457, F.S., relating to rulemaking authority; amending s. 469.006, F.S.; requiring that a license be in the name of a qualifying agent rather than the name of a business organization; requiring the qualifying agent, rather than the business organization, to report certain changes in information; conforming provisions to changes made by the act; amending s. 469.009, F.S.; deleting the authority of the department to reprimand, censure, or impose probation on certain business organizations; amending s.

477.0135, F.S.; providing that a license or registration is not required for a person whose occupation or practice is confined solely to adding polish to nails; amending s. 481.203, F.S.; defining the term "business organization"; deleting the definition of the term "certificate of authorization"; amending s. 481.219, F.S.; revising the process by which a business organization obtains the requisite license to perform architectural services; requiring that a licensee or an applicant apply to qualify a business organization under certain circumstances; specifying application requirements; authorizing the Board of Architecture and Interior Design to deny an application under certain circumstances; requiring that a qualifying agent be a registered architect or a registered interior designer under certain circumstances; requiring that a qualifying agent notify the department when she or he ceases to be affiliated with a business organization; prohibiting a business organization from engaging in certain practices until it is qualified by a qualifying agent; authorizing the executive director or the chair of the board to authorize a certain registered architect or interior designer to temporarily serve as the business organization's qualifying agent for a specified timeframe under certain circumstances; requiring the qualifying agent to give written notice to the department before engaging in practice under her or his own name or in affiliation with another business

organization; requiring the board to certify an applicant to qualify one or more business organizations or to operate using a fictitious name under certain circumstances; conforming provisions to changes made by the act; amending s. 481.221, F.S.; requiring a business organization to include the license number of a certain registered architect or interior designer in any advertising; providing an exception; conforming provisions to changes made by the act; amending s. 481.229, F.S.; conforming provisions to changes made by the act; reordering and amending s. 481.303, F.S.; deleting the term "certificate of authorization"; amending s. 481.321, F.S.; revising provisions that require persons to display certificate numbers under certain circumstances; conforming provisions to changes made by the act; amending ss. 481.311, 481.317, and 481.319, F.S.; conforming provisions to changes made by the act; amending s. 481.329, F.S.; conforming a cross-reference; amending s. 489.503, F.S.; revising an exemption from regulation for certain persons; exempting a person who installs certain low-voltage landscape lighting from specified requirements; amending s. 489.518, F.S.; exempting certain persons from initial training for burglar alarm system agents; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (13) of section 326.004, Florida Statutes, is amended to read:

326.004 Licensing.—

(13) Each broker must maintain a principal place of business in this state and may establish branch offices in the state. ~~A separate license must be maintained for each branch office. The division shall establish by rule a fee not to exceed $100 for each branch office license.~~

Section 2. Subsection (3) of section 447.02, Florida Statutes, is amended to read:

447.02 Definitions.—The following terms, when used in this chapter, shall have the meanings ascribed to them in this section:

~~(3) The term "department" means the Department of Business and Professional Regulation.~~

Section 3. Section 447.04, Florida Statutes, is repealed.

Section 4. Section 447.041, Florida Statutes, is repealed.

Section 5. Section 447.045, Florida Statutes, is repealed.

Section 6. Section 447.06, Florida Statutes, is repealed.

Section 7. Subsections (6) and (8) of section 447.09, Florida Statutes, are amended to read:

447.09 Right of franchise preserved; penalties.—It shall be unlawful for any person:

~~(6) To act as a business agent without having obtained and possessing a valid and subsisting license or permit.~~

~~(8) To make any false statement in an application for a license.~~

Section 8. Section 447.12, Florida Statutes, is repealed.

Section 9. Section 447.16, Florida Statutes, is repealed.

453996

576-03720-16

Section 10. Section 468.401, Florida Statutes, is amended to read:

468.401 ~~Regulation of~~ Talent agencies; definitions.—~~As~~ As used in this part ~~or any rule adopted pursuant hereto~~:

(1) "Talent agency" means any person who, for compensation, engages in the occupation or business of procuring or attempting to procure engagements for an artist.

(2) "Owner" means any partner in a partnership, member of a firm, or principal officer or officers of a corporation, whose partnership, firm, or corporation owns a talent agency, or any individual who is the sole owner of a talent agency.

(3) "Compensation" means any one or more of the following:

(a) Any money or other valuable consideration paid or promised to be paid for services rendered by any person conducting the business of a talent agency under this part;

(b) Any money received by any person in excess of that which has been paid out by such person for transportation, transfer of baggage, or board and lodging for any applicant for employment; or

(c) The difference between the amount of money received by any person who furnishes employees, performers, or entertainers for circus, vaudeville, theatrical, or other entertainments, exhibitions, engagements, or performances and the amount paid by him or her to such employee, performer, or entertainer.

(4) "Engagement" means any employment or placement of an artist, where the artist performs in his or her artistic capacity. However, the term "engagement" shall not apply to procuring opera, music, theater, or dance engagements for any organization defined in s. 501(c)(3) of the Internal Revenue

453996

576-03720-16

Code or any nonprofit Florida arts organization that has received a grant from the Division of Cultural Affairs of the Department of State or has participated in the state touring program of the Division of Cultural Affairs.

~~(5) "Department" means the Department of Business and Professional Regulation.~~

(5)~~(6)~~ "Operator" means the person who is or who will be in actual charge of a talent agency.

(6)~~(7)~~ "Buyer" or "employer" means a person, company, partnership, or corporation that uses the services of a talent agency to provide artists.

(7)~~(8)~~ "Artist" means a person performing on the professional stage or in the production of television, radio, or motion pictures; a musician or group of musicians; or a model.

(8)~~(9)~~ "Person" means any individual, company, society, firm, partnership, association, corporation, manager, or any agent or employee of any of the foregoing.

~~(10) "License" means a license issued by the Department of Business and Professional Regulation to carry on the business of a talent agency under this part.~~

~~(11) "Licensee" means a talent agency which holds a valid unrevoked and unforfeited license issued under this part.~~

Section 11. Section 468.402, Florida Statutes, is repealed.

Section 12. Section 468.403, Florida Statutes, is repealed.

Section 13. Section 468.404, Florida Statutes, is repealed.

Section 14. Section 468.405, Florida Statutes, is repealed.

Section 15. Subsection (1) of section 468.406, Florida Statutes, is amended to read:

468.406 Fees to be charged by talent agencies; rates;

display.—

(1) Each owner or operator of a talent agency shall post ~~applicant for a license shall file with the application~~ an itemized schedule of maximum fees, charges, and commissions that ~~which~~ it intends to charge and collect for its services~~. This schedule may thereafter be raised only by filing with the department an amended or supplemental schedule at least 30 days before the change is to become effective. The schedule shall be posted~~ in a conspicuous place in each place of business of the agency, and the schedule shall be printed in not less than a 30-point boldfaced type, except that an agency that uses written contracts containing maximum fee schedules need not post such schedules.

Section 16. Section 468.407, Florida Statutes, is repealed.

Section 17. Subsection (1) of section 468.408, Florida Statutes, is amended to read:

468.408 Bond required.—

(1) A ~~There shall be filed with the department for each~~ talent agency shall obtain ~~license~~ a bond in the form of a surety by a reputable company engaged in the bonding business and authorized to do business in this state. The bond shall be for the penal sum of $5,000, with one or more sureties ~~to be approved by the department~~, and be conditioned that the talent agency ~~applicant~~ conform to and not violate any of the duties, terms, conditions, provisions, or requirements of this part.

(a) If any person is aggrieved by the misconduct of any talent agency, the person may maintain an action in his or her own name upon the bond of the agency in any court having jurisdiction of the amount claimed. All such claims shall be

assignable, and the assignee shall be entitled to the same remedies, upon the bond of the agency or otherwise, as the person aggrieved would have been entitled to if such claim had not been assigned. Any claim or claims so assigned may be enforced in the name of such assignee.

(b) The bonding company shall notify the talent agency ~~the department~~ of any claim against such bond, and a copy of such notice shall be sent to the talent agency against which the claim is made.

Section 18. Section 468.409, Florida Statutes, is amended to read:

468.409 Records required to be kept.—Each talent agency shall keep on file the application, registration, or contract of each artist. In addition, such file must include the name and address of each artist, the amount of the compensation received, and all attempts to procure engagements for the artist. No such agency or employee thereof shall knowingly make any false entry in applicant files or receipt files. Each card or document in such files shall be preserved for a period of 1 year after the date of the last entry thereon. ~~Records required under this section shall be readily available for inspection by the department during reasonable business hours at the talent agency's principal office. A talent agency must provide the department with true copies of the records in the manner prescribed by the department.~~

Section 19. Subsection (3) of section 468.410, Florida Statutes, is amended to read:

468.410 Prohibition against registration fees; referral.—

(3) A talent agency shall give each applicant a copy of a

contract, within 24 hours after the contract's execution, which lists the services to be provided and the fees to be charged. ~~The contract shall state that the talent agency is regulated by the department and shall list the address and telephone number of the department.~~

Section 20. Section 468.412, Florida Statutes, is amended to read:

468.412 Talent agency regulations; prohibited acts.—

(1) A talent agency shall maintain a record sheet for each booking. This shall be the only required record of placement and shall be kept for a period of 1 year after the date of the last entry in the buyer's file.

(2) Each talent agency shall keep records in which shall be entered:

(a) The name and address of each artist employing such talent agency;

(b) The amount of fees received from each such artist; and

(c) The employment in which each such artist is engaged at the time of employing such talent agency and the amount of compensation of the artist in such employment, if any, and the employments subsequently secured by such artist during the term of the contract between the artist and the talent agency and the amount of compensation received by the artist pursuant thereto.~~;~~ ~~and~~

~~(d) Other information which the department may require from time to time.~~

~~(3) All books, records, and other papers kept pursuant to this act by any talent agency shall be open at all reasonable hours to the inspection of the department and its agents. Each~~

~~talent agency shall furnish to the department, upon request, a true copy of such books, records, and papers, or any portion thereof, and shall make such reports as the department may prescribe from time to time.~~

(3)~~(4)~~ Each talent agency shall post in a conspicuous place in the office of such talent agency a printed copy of this part ~~and of the rules adopted under this part~~. ~~Such copies shall also contain the name and address of the officer charged with enforcing this part. The department shall furnish to talent agencies printed copies of any statute or rule required to be posted under this subsection.~~

(4)(a)~~(5)(a)~~ No talent agency may knowingly issue a contract for employment containing any term or condition which, if complied with, would be in violation of law, or attempt to fill an order for help to be employed in violation of law.

(b) A talent agency must advise an artist, in writing, that the artist has a right to rescind a contract for employment within the first 3 business days after the contract's execution. Any engagement procured by the talent agency for the artist during the first 3 business days of the contract remains commissionable to the talent agency.

(5)~~(6)~~ No talent agency may publish or cause to be published any false, fraudulent, or misleading information, representation, notice, or advertisement. All advertisements of a talent agency by means of card, circulars, or signs, and in newspapers and other publications, and all letterheads, receipts, and blanks shall be printed and contain the ~~licensed~~ name~~, department license number,~~ and address of the talent agency and the words "talent agency." No talent agency may give

576-03720-16

any false information or make any false promises or representations concerning an engagement or employment to any applicant who applies for an engagement or employment.

(6) ~~(7)~~ No talent agency may send or cause to be sent any person as an employee to any house of ill fame, to any house or place of amusement for immoral purposes, to any place resorted to for the purposes of prostitution, to any place for the modeling or photographing of a minor in the nude in the absence of written permission from the minor's parents or legal guardians, the character of which places the talent agency could have ascertained upon reasonable inquiry.

(7) ~~(8)~~ No talent agency, without the written consent of the artist, may divide fees with anyone, including, but not limited to, an agent or other employee of an employer, a buyer, a casting director, a producer, a director, or any venue that uses entertainment. For purposes of this subsection, to "divide fees" includes the sharing among two or more persons of those fees charged to an artist for services performed on behalf of that artist, the total amount of which fees exceeds the amount that would have been charged to the artist by the talent agency alone.

(8) ~~(9)~~ If a talent agency collects from an artist a fee or expenses for obtaining employment for the artist, and the artist fails to procure such employment, or the artist fails to be paid for such employment if procured, such talent agency shall, upon demand therefor, repay to the artist the fee and expenses so collected. Unless repayment thereof is made within 48 hours after demand therefor, the talent agency shall pay to the artist an additional sum equal to the amount of the fee.

576-03720-16

(9) ~~(10)~~ Each talent agency must maintain a permanent office and must maintain regular operating hours at that office.

(10) ~~(11)~~ A talent agency may assign an engagement contract to another talent agency licensed in this state only if the artist agrees in writing to the assignment. The assignment must occur, and written notice of the assignment must be given to the artist, within 30 days after the artist agrees in writing to the assignment.

Section 21. Section 468.413, Florida Statutes, is amended to read:

468.413 Legal requirements; penalties.—

(1) ~~Each of the following acts constitutes a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084:~~

~~(a) Owning or operating, or soliciting business as, a talent agency in this state without first procuring a license from the department.~~

~~(b) Obtaining or attempting to obtain a license by means of fraud, misrepresentation, or concealment.~~

~~(2)~~ Each of the following acts constitutes a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083:

~~(a) Relocating a business as a talent agency, or operating under any name other than that designated on the license, unless written notification is given to the department and to the surety or sureties on the original bond, and unless the license is returned to the department for the recording thereon of such changes.~~

~~(b) Assigning or attempting to assign a license issued~~

~~under this part.~~

~~(c) Failing to show on a license application whether or not the agency or any owner of the agency is financially interested in any other business of like nature and, if so, failing to specify such interest or interests.~~

(a) ~~(d)~~ Failing to maintain the records required by s. 468.409 or knowingly making false entries in such records.

(b) ~~(e)~~ Requiring as a condition to registering or obtaining employment or placement for any applicant that the applicant subscribe to, purchase, or attend any publication, postcard service, advertisement, resume service, photography service, school, acting school, workshop, or acting workshop.

(c) ~~(f)~~ Failing to give each applicant a copy of a contract which lists the services to be provided and the fees to be charged by~~, which states that~~ the talent agency ~~is regulated by the department, and which lists the address and telephone number of the department~~.

(d) ~~(g)~~ Failing to maintain a record sheet as required by s. 468.412(1).

(e) ~~(h)~~ Knowingly sending or causing to be sent any artist to a prospective employer or place of business, the character or operation of which employer or place of business the talent agency knows to be in violation of the laws of the United States or of this state.

~~(3) The court may, in addition to other punishment provided for in subsection (2), suspend or revoke the license of any licensee under this part who has been found guilty of any misdemeanor listed in subsection (2).~~

(2) ~~(4)~~ In the event that ~~the department or~~ any state

attorney shall have probable cause to believe that a talent agency or other person has violated any provision of subsection (1), an action may be brought by ~~the department or~~ any state attorney to enjoin such talent agency or any person from continuing such violation, or engaging therein or doing any acts in furtherance thereof, and for such other relief as to the court seems appropriate. ~~In addition to this remedy, the department may assess a penalty against any talent agency or any person in an amount not to exceed $5,000.~~

Section 22. Section 468.414, Florida Statutes, is repealed.

Section 23. Section 468.415, Florida Statutes, is amended to read:

468.415 Sexual misconduct in the operation of a talent agency.—The talent agent-artist relationship is founded on mutual trust. Sexual misconduct in the operation of a talent agency means violation of the talent agent-artist relationship through which the talent agent uses the relationship to induce or attempt to induce the artist to engage or attempt to engage in sexual activity. Sexual misconduct is prohibited in the operation of a talent agency. ~~If~~ Any agent, owner, or operator of a ~~licensed~~ talent agency who commits ~~is found to have committed~~ sexual misconduct in the operation of a talent agency~~, the agency license shall be permanently revoked. Such agent, owner, or operator~~ shall be permanently prohibited from acting ~~disqualified from present and future licensure~~ as an agent, owner, or operator of a ~~Florida~~ talent agency.

Section 24. Section 468.451, Florida Statutes, is amended to read:

468.451 Legislative findings and intent.—The Legislature

finds that dishonest or unscrupulous practices by agents who solicit representation of student athletes can cause significant harm to student athletes and the academic institutions for which they play. It is the intent of the Legislature to provide civil and criminal causes of action against athlete agents to protect the interests of student athletes and academic institutions ~~by regulating the activities of athlete agents~~.

Section 25. Subsections (4) through (7) of section 468.452, Florida Statutes, are reordered and amended to read:

468.452 Definitions.—For purposes of this part, the term:

~~(4) "Department" means the Department of Business and Professional Regulation.~~

(6)~~(5)~~ "Student athlete" means any student who:

(a) Resides in Florida, has informed, in writing, a college or university of the student's intent to participate in that school's intercollegiate athletics, or who does participate in that school's intercollegiate athletics and is eligible to do so; or

(b) Does not reside in Florida, but has informed, in writing, a college or university in Florida of the student's intent to participate in that school's intercollegiate athletics, or who does participate in that school's intercollegiate athletics and is eligible to do so.

(4)~~(6)~~ "Financial services" means the counseling on or the making or execution of investment and other financial decisions by the agent on behalf of the student athlete.

(5)~~(7)~~ "Participation" means practicing, competing, or otherwise representing a college or university in intercollegiate athletics.

Section 26. Section 468.453, Florida Statutes, is repealed.

Section 27. Section 468.4536, Florida Statutes, is repealed.

Section 28. Subsections (2) and (12) of section 468.454, Florida Statutes, are amended to read:

468.454 Contracts.—

(2) An agent contract must state:

(a) The amount and method of calculating the consideration to be paid by the student athlete for services to be provided by the athlete agent and any other consideration the agent has received or will receive from any other source under the contract;

(b) The name of any person ~~not listed in the licensure application~~ who will be compensated because the student athlete signed the agent contract;

(c) A description of any expenses that the student athlete agrees to reimburse;

(d) A description of the services to be provided to the student athlete;

(e) The duration of the contract; and

(f) The date of execution.

~~(12) An agent contract between a student athlete and a person not licensed under this part is void and unenforceable.~~

Section 29. Section 468.456, Florida Statutes, is repealed.

Section 30. Section 468.4561, Florida Statutes, is repealed.

Section 31. Section 468.45615, Florida Statutes, is amended to read:

468.45615 Provision of illegal inducements to athletes

~~prohibited; penalties; license suspension~~.—

(1) A ~~Any~~ person who offers anything of value to another person to induce a student athlete to enter into an agreement by which the athlete agent will represent the student athlete commits ~~violates s. 468.456(1)(f) is guilty of~~ a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, s. 775.084, s. 775.089, or s. 775.091. Negotiations regarding an athlete agent's fee are not considered an inducement.

(2)(a) Regardless of whether adjudication is withheld, any person convicted or found guilty of, or entering a plea of nolo contendere to, the violation described in subsection (1) may ~~shall~~ not employ, utilize, or otherwise collaborate with an ~~a licensed or unlicensed~~ athlete agent in Florida to illegally recruit or solicit student athletes. Any person who violates the provisions of this subsection is guilty of a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, s. 775.084, s. 775.089, or s. 775.091.

(b) Regardless of whether adjudication is withheld, any person who knowingly actively assists in the illegal recruitment or solicitation of student athletes for a person who has been convicted or found guilty of, or entered a plea of nolo contendere to, a violation of this section is guilty of a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, s. 775.084, s. 775.089, or s. 775.091.

~~(3) In addition to any other penalties provided in this section, the court may suspend the license of the person pending the outcome of any administrative action against the person by the department.~~

(3)~~(4)~~(a) An athlete agent, with the intent to induce a

student athlete to enter into an agent contract, may not:

1. Give any materially false or misleading information or make a materially false promise or representation;

2. Furnish anything of value to a student athlete before the student athlete enters into the agent contract; or

3. Furnish anything of value to any individual other than the student athlete or another athlete agent.

(b) An athlete agent may not intentionally:

1. ~~Initiate contact with a student athlete unless licensed under this part;~~

~~2.~~ Refuse or fail to retain or permit inspection of the records required to be retained by s. 468.4565;

~~3. Provide materially false or misleading information in an application for licensure;~~

2.~~4.~~ Predate or postdate an agent contract;

3.~~5.~~ Fail to give notice of the existence of an agent contract as required by s. 468.454(6); or

4.~~6.~~ Fail to notify a student athlete before the student athlete signs or otherwise authenticates an agent contract for a sport that the signing or authentication may make the student athlete ineligible to participate as a student athlete in that sport.

(c) An athlete agent who violates this subsection commits a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Section 32. Section 468.4565, Florida Statutes, is amended to read:

468.4565 Business records requirement.—

~~(1)~~ An athlete agent shall establish and maintain complete

financial and business records. The athlete agent shall save each entry into a financial or business record for at least 5 years after ~~from~~ the date of entry. These records must include:

(1) ~~(a)~~ The name and address of each individual represented by the athlete agent;

(2) ~~(b)~~ Any agent contract entered into by the athlete agent; and

(3) ~~(c)~~ Any direct costs incurred by the athlete agent in the recruitment or solicitation of a student athlete to enter into an agent contract.

~~(2) The department shall have access to and shall have the right to inspect and examine the financial or business records of an athlete agent during normal business hours. Refusal or failure of an athlete agent to provide the department access to financial and business records shall be the basis for disciplinary action by the department pursuant to s. 455.225. The department may exercise its subpoena powers to obtain the financial and business records of an athlete agent.~~

Section 33. Section 468.457, Florida Statutes, is repealed.

Section 34. Paragraphs (a) and (e) of subsection (2), subsection (3), paragraph (b) of subsection (4), and subsection (6) of section 469.006, Florida Statutes, are amended to read:

469.006 Licensure of business organizations; qualifying agents.—

(2)(a) If the applicant proposes to engage in consulting or contracting as a partnership, corporation, business trust, or other legal entity, or in any name other than the applicant's legal name, the ~~legal entity must apply for licensure through a qualifying agent or the~~ individual applicant must apply for

licensure under the name of the business organization ~~fictitious name~~.

(e) A ~~The~~ license~~, when issued upon application of a business organization,~~ must be in the name of the qualifying agent ~~business organization~~, and the name of the business organization ~~qualifying agent~~ must be noted on the license ~~thereon~~. If there is a change in any information that is required to be stated on the application, the qualifying agent ~~business organization~~ shall, within 45 days after such change occurs, mail the correct information to the department.

(3) The qualifying agent must ~~shall~~ be licensed under this chapter in order for the business organization to be qualified ~~licensed~~ in the category of the business conducted for which the qualifying agent is licensed. If any qualifying agent ceases to be affiliated with such business organization, the agent shall so inform the department. In addition, if such qualifying agent is the only licensed individual affiliated with the business organization, the business organization shall notify the department of the termination of the qualifying agent and has ~~shall have~~ 60 days after ~~from~~ the date of termination of the qualifying agent's affiliation with the business organization ~~in which~~ to employ another qualifying agent. The business organization may not engage in consulting or contracting until a qualifying agent is employed, unless the department has granted a temporary nonrenewable license to the financially responsible officer, the president, the sole proprietor, a partner, or, in the case of a limited partnership, the general partner, who assumes all responsibilities of a primary qualifying agent for the entity. This temporary license only allows ~~shall only allow~~

the entity to proceed with incomplete contracts.

(4)

(b) Upon a favorable determination by the department, after investigation of the financial responsibility, credit, and business reputation of the qualifying agent and the new business organization, the department shall issue, without any examination, a new license in the qualifying agent's ~~business organization's~~ name, and the name of the business organization ~~qualifying agent~~ shall be noted thereon.

(6) Each qualifying agent shall pay the department an amount equal to the original fee for licensure ~~of a new business organization.~~ if the qualifying agent for a business organization desires to qualify additional business organizations.~~,~~ The department shall require the agent to present evidence of supervisory ability and financial responsibility of each such organization. Allowing a licensee to qualify more than one business organization must ~~shall~~ be conditioned upon the licensee showing that the licensee has both the capacity and intent to adequately supervise each business organization. The department may ~~shall~~ not limit the number of business organizations that ~~which~~ the licensee may qualify except upon the licensee's failure to provide such information as is required under this subsection or upon a finding that the ~~such~~ information or evidence ~~as is~~ supplied is incomplete or unpersuasive in showing the licensee's capacity and intent to comply with the requirements of this subsection. A qualification for an additional business organization may be revoked or suspended upon a finding by the department that the licensee has failed in the licensee's responsibility to adequately supervise

the operations of the business organization. Failure to adequately supervise the operations of a business organization is ~~shall be~~ grounds for denial to qualify additional business organizations.

Section 35. Subsection (1) of section 469.009, Florida Statutes, is amended to read:

469.009 License revocation, suspension, and denial of issuance or renewal.—

(1) The department may revoke, suspend, or deny the issuance or renewal of a license; reprimand, censure, or place on probation any contractor, consultant, or financially responsible officer~~, or business organization~~; require financial restitution to a consumer; impose an administrative fine not to exceed $5,000 per violation; require continuing education; or assess costs associated with any investigation and prosecution if the contractor or consultant, or business organization or officer or agent thereof, is found guilty of any of the following acts:

(a) Willfully or deliberately disregarding or violating the health and safety standards of the Occupational Safety and Health Act of 1970, the Construction Safety Act, the National Emission Standards for Asbestos, the Environmental Protection Agency Asbestos Abatement Projects Worker Protection Rule, the Florida Statutes or rules promulgated thereunder, or any ordinance enacted by a political subdivision of this state.

(b) Violating any provision of chapter 455.

(c) Failing in any material respect to comply with the provisions of this chapter or any rule promulgated hereunder.

(d) Acting in the capacity of an asbestos contractor or

asbestos consultant under any license issued under this chapter except in the name of the licensee as set forth on the issued license.

(e) Proceeding on any job without obtaining all applicable approvals, authorizations, permits, and inspections.

(f) Obtaining a license by fraud or misrepresentation.

(g) Being convicted or found guilty of, or entering a plea of nolo contendere to, regardless of adjudication, a crime in any jurisdiction which directly relates to the practice of asbestos consulting or contracting or the ability to practice asbestos consulting or contracting.

(h) Knowingly violating any building code, lifesafety code, or county or municipal ordinance relating to the practice of asbestos consulting or contracting.

(i) Performing any act which assists a person or entity in engaging in the prohibited unlicensed practice of asbestos consulting or contracting, if the licensee knows or has reasonable grounds to know that the person or entity was unlicensed.

(j) Committing mismanagement or misconduct in the practice of contracting that causes financial harm to a customer. Financial mismanagement or misconduct occurs when:

1. Valid liens have been recorded against the property of a contractor's customer for supplies or services ordered by the contractor for the customer's job; the contractor has received funds from the customer to pay for the supplies or services; and the contractor has not had the liens removed from the property, by payment or by bond, within 75 days after the date of such liens;

2. The contractor has abandoned a customer's job and the percentage of completion is less than the percentage of the total contract price paid to the contractor as of the time of abandonment, unless the contractor is entitled to retain such funds under the terms of the contract or refunds the excess funds within 30 days after the date the job is abandoned; or

3. The contractor's job has been completed, and it is shown that the customer has had to pay more for the contracted job than the original contract price, as adjusted for subsequent change orders, unless such increase in cost was the result of circumstances beyond the control of the contractor, was the result of circumstances caused by the customer, or was otherwise permitted by the terms of the contract between the contractor and the customer.

(k) Being disciplined by any municipality or county for an act or violation of this chapter.

(l) Failing in any material respect to comply with the provisions of this chapter, or violating a rule or lawful order of the department.

(m) Abandoning an asbestos abatement project in which the asbestos contractor is engaged or under contract as a contractor. A project may be presumed abandoned after 20 days if the contractor terminates the project without just cause and without proper notification to the owner, including the reason for termination; if the contractor fails to reasonably secure the project to safeguard the public while work is stopped; or if the contractor fails to perform work without just cause for 20 days.

(n) Signing a statement with respect to a project or

contract falsely indicating that the work is bonded; falsely indicating that payment has been made for all subcontracted work, labor, and materials which results in a financial loss to the owner, purchaser, or contractor; or falsely indicating that workers' compensation and public liability insurance are provided.

(o) Committing fraud or deceit in the practice of asbestos consulting or contracting.

(p) Committing incompetency or misconduct in the practice of asbestos consulting or contracting.

(q) Committing gross negligence, repeated negligence, or negligence resulting in a significant danger to life or property in the practice of asbestos consulting or contracting.

(r) Intimidating, threatening, coercing, or otherwise discouraging the service of a notice to owner under part I of chapter 713 or a notice to contractor under chapter 255 or part I of chapter 713.

(s) Failing to satisfy, within a reasonable time, the terms of a civil judgment obtained against the licensee, or the business organization qualified by the licensee, relating to the practice of the licensee's profession.

For the purposes of this subsection, construction is considered to be commenced when the contract is executed and the contractor has accepted funds from the customer or lender.

Section 36. Subsection (7) is added to section 477.0135, Florida Statutes, to read:

477.0135 Exemptions.—

(7) A license or registration is not required for a person

whose occupation or practice is confined solely to adding polish to fingernails and toenails.

Section 37. Subsection (5) of section 481.203, Florida Statutes, is amended to read:

481.203 Definitions.—As used in this part:

(5) "Business organization" means a partnership, a limited liability company, a corporation, or an individual operating under a fictitious name ~~"Certificate of authorization" means a certificate issued by the department to a corporation or partnership to practice architecture or interior design~~.

Section 38. Section 481.219, Florida Statutes, is amended to read:

481.219 Business organization; qualifying agents ~~Certification of partnerships, limited liability companies, and corporations~~.—

(1) A licensee may ~~The practice of or the offer to~~ practice architecture or interior design ~~by licensees~~ through a business organization that offers ~~corporation, limited liability company, or partnership offering~~ architectural or interior design services to the public, or through ~~by~~ a business organization that offers ~~corporation, limited liability company, or partnership offering~~ architectural or interior design services to the public through such licensees ~~under this part~~ as agents, employees, officers, or partners~~, is permitted, subject to the provisions of this section~~.

(2) If a licensee or an applicant proposes to engage in the practice of architecture or interior design as a business organization, the licensee or applicant must apply to qualify the business organization ~~For the purposes of this section, a~~

~~certificate of authorization shall be required for a corporation, limited liability company, partnership, or person practicing under a fictitious name, offering architectural services to the public jointly or separately. However, when an individual is practicing architecture in her or his own name, she or he shall not be required to be certified under this section. Certification under this subsection to offer architectural services shall include all the rights and privileges of certification under subsection (3) to offer interior design services~~.

(a) An application to qualify a business organization must:

1. If the business is a partnership, state the names of the partnership and its partners.

2. If the business is a corporation, state the names of the corporation and its officers and directors and the name of each of its stockholders who is also an officer or a director.

3. If the business is operating under a fictitious name, state the fictitious name under which it is doing business.

4. If the business is not a partnership, a corporation, or operating under a fictitious name, state the name of such other legal entity and its members.

(b) The board may deny an application to qualify a business organization if the applicant or any person required to be named pursuant to paragraph (a) has been involved in past disciplinary actions or on any grounds for which an individual registration or certification may be denied.

(3)(a) A business organization may not engage in the practice of architecture unless its qualifying agent is a registered architect under this part. A business organization

may not engage in the practice of interior design unless its qualifying agent is a registered architect or a registered interior designer under this part. A qualifying agent who terminates her or his affiliation with a business organization shall immediately notify the department of such termination. If the qualifying agent who terminates her or his affiliation is the only qualifying agent for a business organization, the business organization must be qualified by another qualifying agent within 60 days after the termination. Except as provided in paragraph (b), such a business organization may not engage in the practice of architecture or interior design until it is qualified by a qualifying agent.

(b) In the event a qualifying architect or interior designer ceases employment with the business organization, the executive director or the chair of the board may authorize another registered architect or interior designer employed by the business organization to temporarily serve as its qualifying agent for a period of no more than 60 days. The business organization is not authorized to operate beyond such period under this chapter absent replacement of the qualifying architect or interior designer who has ceased employment.

(c) A qualifying agent shall notify the department in writing before engaging in the practice of architecture or interior design in her or his own name or in affiliation with a different business organization, and she or he or such business organization shall supply the same information to the department as required of applicants under this part ~~For the purposes of this section, a certificate of authorization shall be required for a corporation, limited liability company, partnership, or~~

~~person operating under a fictitious name, offering interior design services to the public jointly or separately. However, when an individual is practicing interior design in her or his own name, she or he shall not be required to be certified under this section~~.

(4) All final construction documents and instruments of service which include drawings, specifications, plans, reports, or other papers or documents that involve ~~involving~~ the practice of architecture which are prepared or approved for the use of the business organization ~~corporation, limited liability company, or partnership~~ and filed for public record within the state must ~~shall~~ bear the signature and seal of the licensee who prepared or approved them and the date on which they were sealed.

(5) All drawings, specifications, plans, reports, or other papers or documents prepared or approved for the use of the business organization ~~corporation, limited liability company, or partnership~~ by an interior designer in her or his professional capacity and filed for public record within the state must ~~shall~~ bear the signature and seal of the licensee who prepared or approved them and the date on which they were sealed.

~~(6) The department shall issue a certificate of authorization to any applicant who the board certifies as qualified for a certificate of authorization and who has paid the fee set in s. 481.207.~~

(6) ~~(7)~~ The board shall allow ~~certify~~ an applicant to qualify one or more business organizations ~~as qualified for a certificate of authorization~~ to offer architectural or interior design services, or to use a fictitious name to offer such

services, if one of the following criteria is met ~~provided that~~:

(a) One or more of the principal officers of the corporation or limited liability company, or one or more partners of the partnership, and all personnel of the corporation, limited liability company, or partnership who act in its behalf in this state as architects, are registered as provided by this part.~~; or~~

(b) One or more of the principal officers of the corporation or one or more partners of the partnership, and all personnel of the corporation, limited liability company, or partnership who act in its behalf in this state as interior designers, are registered as provided by this part.

~~(8) The department shall adopt rules establishing a procedure for the biennial renewal of certificates of authorization.~~

~~(9) The department shall renew a certificate of authorization upon receipt of the renewal application and biennial renewal fee.~~

(7) ~~(10)~~ Each qualifying agent approved to qualify a business organization ~~partnership, limited liability company, and corporation certified~~ under this section shall notify the department within 30 days of any change in the information contained in the application upon which the qualification ~~certification~~ is based. Any registered architect or interior designer who qualifies the business organization shall ensure ~~corporation, limited liability company, or partnership as provided in subsection (7) shall be responsible for ensuring~~ responsible supervising control of projects of the business organization ~~entity~~ and upon termination of her or his

employment with a business organization qualified ~~partnership, limited liability company, or corporation certified~~ under this section shall notify the department of the termination within 30 days.

(8) ~~(11)~~ A business organization is not ~~No corporation, limited liability company, or partnership shall be~~ relieved of responsibility for the conduct or acts of its agents, employees, or officers by reason of its compliance with this section. However, except as provided in s. 558.0035, the architect who signs and seals the construction documents and instruments of service is ~~shall be~~ liable for the professional services performed, and the interior designer who signs and seals the interior design drawings, plans, or specifications is ~~shall be~~ liable for the professional services performed.

~~(12) Disciplinary action against a corporation, limited liability company, or partnership shall be administered in the same manner and on the same grounds as disciplinary action against a registered architect or interior designer, respectively.~~

(9) ~~(13)~~ ~~Nothing in~~ This section may not ~~shall~~ be construed to mean that a certificate of registration to practice architecture or interior design must ~~shall~~ be held by a business organization ~~corporation, limited liability company, or partnership~~. ~~Nothing in~~ This section does not prohibit a business organization from offering ~~prohibits corporations, limited liability companies, and partnerships from joining together to offer~~ architectural, engineering, interior design, surveying and mapping, and landscape architectural services, or any combination of such services, to the public if the business

organization~~, provided that each corporation, limited liability company, or partnership~~ otherwise meets the requirements of law.

(10) ~~(14)~~ A business organization that is qualified by a registered architect may ~~Corporations, limited liability companies, or partnerships holding a valid certificate of authorization to practice architecture shall be permitted to~~ use ~~in their title~~ the term "interior designer" or "registered interior designer" in its title. ~~designer."~~

Section 39. Subsection (10) of section 481.221, Florida Statutes, is amended to read:

481.221 Seals; display of certificate number.—

(10) Each registered architect or interior designer~~, and each corporation, limited liability company, or partnership holding a certificate of authorization, shall~~ must include her or his license ~~its certificate~~ number in any newspaper, telephone directory, or other advertising medium used by the registered licensee ~~architect, interior designer, corporation, limited liability company, or partnership~~. Each business organization must include the license number of the registered architect or interior designer who serves as the qualifying agent for that business organization in any newspaper, telephone directory, or other advertising medium used by the business organization, but is not required to display the license numbers of other registered architects or interior designers employed by the business organization ~~A corporation, limited liability company, or partnership is not required to display the certificate number of individual registered architects or interior designers employed by or working within the corporation, limited liability company, or partnership~~.

Section 40. Paragraphs (a) and (c) of subsection (5) of section 481.229, Florida Statutes, are amended to read:

481.229 Exceptions; exemptions from licensure.—

(5)(a) ~~Nothing contained in~~ This part does not prohibit ~~shall prevent~~ a registered architect or a qualified business organization ~~partnership, limited liability company, or corporation holding a valid certificate of authorization to provide architectural services~~ from performing any interior design service or from using the title "interior designer" or "registered interior designer."

(c) Notwithstanding any other provision of this part, a registered architect or qualified business organization certified ~~any corporation, partnership, or person operating under a fictitious name which holds a certificate of authorization~~ to provide architectural services must ~~shall~~ be qualified, without fee, ~~for a certificate of authorization~~ to provide interior design services upon submission of a completed application for qualification ~~therefor~~. ~~For corporations, partnerships, and persons operating under a fictitious name which hold a certificate of authorization to provide interior design services, satisfaction of the requirements for renewal of the certificate of authorization to provide architectural services under s. 481.219 shall be deemed to satisfy the requirements for renewal of the certificate of authorization to provide interior design services under that section.~~

Section 41. Section 481.303, Florida Statutes, is reordered and amended to read:

481.303 Definitions.—As used in this chapter, the term:

(1) "Board" means the Board of Landscape Architecture.

(3) ~~(2)~~ "Department" means the Department of Business and Professional Regulation.

(6) ~~(3)~~ "Registered landscape architect" means a person who holds a license to practice landscape architecture in this state under the authority of this act.

(2) ~~(4)~~ "Certificate of registration" means a license issued by the department to a natural person to engage in the practice of landscape architecture.

~~(5) "Certificate of authorization" means a license issued by the department to a corporation or partnership to engage in the practice of landscape architecture.~~

(4) ~~(6)~~ "Landscape architecture" means professional services, including, but not limited to, the following:

(a) Consultation, investigation, research, planning, design, preparation of drawings, specifications, contract documents and reports, responsible construction supervision, or landscape management in connection with the planning and development of land and incidental water areas, including the use of Florida-friendly landscaping as defined in s. 373.185, where, and to the extent that, the dominant purpose of such services or creative works is the preservation, conservation, enhancement, or determination of proper land uses, natural land features, ground cover and plantings, or naturalistic and aesthetic values;

(b) The determination of settings, grounds, and approaches for and the siting of buildings and structures, outdoor areas, or other improvements;

(c) The setting of grades, shaping and contouring of land

and water forms, determination of drainage, and provision for storm drainage and irrigation systems where such systems are necessary to the purposes outlined herein; and

(d) The design of such tangible objects and features as are necessary to the purpose outlined herein.

(5) ~~(7)~~ "Landscape design" means consultation for and preparation of planting plans drawn for compensation, including specifications and installation details for plant materials, soil amendments, mulches, edging, gravel, and other similar materials. Such plans may include only recommendations for the conceptual placement of tangible objects for landscape design projects. Construction documents, details, and specifications for tangible objects and irrigation systems shall be designed or approved by licensed professionals as required by law.

Section 42. Subsection (5) of section 481.321, Florida Statutes, is amended to read:

481.321 Seals; display of certificate number.—

(5) Each registered landscape architect must ~~and each corporation or partnership holding a certificate of authorization shall~~ include her or his ~~its~~ certificate number in any newspaper, telephone directory, or other advertising medium used by the registered landscape architect, corporation, or partnership. A corporation or partnership must ~~is not required to~~ display the certificate number ~~numbers~~ of at least one officer, director, owner, or partner who is a ~~individual~~ registered landscape architect ~~architects~~ employed by or practicing with the corporation or partnership.

Section 43. Subsection (4) of section 481.311, Florida Statutes, is amended to read:

481.311 Licensure.—

~~(4) The board shall certify as qualified for a certificate of authorization any applicant corporation or partnership who satisfies the requirements of s. 481.319.~~

Section 44. Subsection (2) of section 481.317, Florida Statutes, is amended to read:

481.317 Temporary certificates.—

~~(2) Upon approval by the board and payment of the fee set in s. 481.307, the department shall grant a temporary certificate of authorization for work on one specified project in this state for a period not to exceed 1 year to an out-of-state corporation, partnership, or firm, provided one of the principal officers of the corporation, one of the partners of the partnership, or one of the principals in the fictitiously named firm has obtained a temporary certificate of registration in accordance with subsection (1).~~

Section 45. Section 481.319, Florida Statutes, is amended to read:

481.319 Corporate and partnership practice of landscape architecture~~; certificate of authorization~~.—

(1) The practice of or offer to practice landscape architecture by registered landscape architects registered under this part through a corporation or partnership offering landscape architectural services to the public, or through a corporation or partnership offering landscape architectural services to the public through individual registered landscape architects as agents, employees, officers, or partners, is permitted, subject to the provisions of this section, if:

(a) One or more of the principal officers of the

corporation, or partners of the partnership, and all personnel of the corporation or partnership who act in its behalf as landscape architects in this state are registered landscape architects; and

(b) One or more of the officers, one or more of the directors, one or more of the owners of the corporation, or one or more of the partners of the partnership is a registered landscape architect~~; and~~

~~(c) The corporation or partnership has been issued a certificate of authorization by the board as provided herein~~.

(2) All documents involving the practice of landscape architecture which are prepared for the use of the corporation or partnership shall bear the signature and seal of a registered landscape architect.

(3) A landscape architect applying to practice in the name of a ~~An applicant~~ corporation must ~~shall~~ file with the department the names and addresses of all officers and board members of the corporation, including the principal officer or officers, duly registered to practice landscape architecture in this state and, also, of all individuals duly registered to practice landscape architecture in this state who shall be in responsible charge of the practice of landscape architecture by the corporation in this state. A landscape architect applying to practice in the name of a ~~An applicant~~ partnership must ~~shall~~ file with the department the names and addresses of all partners of the partnership, including the partner or partners duly registered to practice landscape architecture in this state and, also, of an individual or individuals duly registered to practice landscape architecture in this state who shall be in

responsible charge of the practice of landscape architecture by said partnership in this state.

(4) Each landscape architect qualifying a partnership or ~~and~~ corporation ~~licensed~~ under this part must ~~shall~~ notify the department within 1 month of any change in the information contained in the application upon which the license is based. Any landscape architect who terminates her or his ~~or her~~ employment with a partnership or corporation licensed under this part shall notify the department of the termination within 1 month.

(5) ~~Disciplinary action against a corporation or partnership shall be administered in the same manner and on the same grounds as disciplinary action against a registered landscape architect.~~

~~(6)~~ Except as provided in s. 558.0035, the fact that a registered landscape architect practices landscape architecture through a corporation or partnership as provided in this section does not relieve the landscape architect from personal liability for her or his ~~or her~~ professional acts.

Section 46. Subsection (5) of section 481.329, Florida Statutes, is amended to read:

481.329 Exceptions; exemptions from licensure.—

(5) This part does not prohibit any person from engaging in the practice of landscape design, as defined in s. 481.303(5) ~~s. 481.303(7)~~, or from submitting for approval to a governmental agency planting plans that are independent of, or a component of, construction documents that are prepared by a Florida-registered professional. Persons providing landscape design services shall not use the title, term, or designation

"landscape architect," "landscape architectural," "landscape architecture," "L.A.," "landscape engineering," or any description tending to convey the impression that she or he is a landscape architect unless she or he is registered as provided in this part.

Section 47. Subsection (14) of section 489.503, Florida Statutes, is amended, and subsection (24) is added to that section, to read:

489.503 Exemptions.—This part does not apply to:

(14) The sale of, installation of, repair of, alteration of, addition to, or design of electrical wiring, fixtures, appliances, thermostats, apparatus, raceways, computers, customer premises equipment, customer premises wiring, and conduit, or any part thereof, ~~by an employee, contractor, subcontractor, or affiliate of a company operating under a certificate issued under chapter 364 or chapter 610, or under a local franchise or right-of-way agreement,~~ if those items are for the purpose of transmitting data, voice, video, or other communications, or commands as part of a cable television, community antenna television, radio distribution, communications, or telecommunications system. An employee, subcontractor, contractor, or affiliate of a company that operates under a certificate issued under chapter 364 or chapter 610, or under a local franchise or right-of-way agreement, is not subject to any local ordinance that requires a permit for work related to low-voltage electrical work, including related technical codes, regulations, and licensure. The scope of this exemption is limited to electrical circuits and equipment governed by the applicable provisions of Articles 725 (Classes 2

and 3 circuits only), 770, 800, 810, and 820 of the National Electrical Code, current edition, or 47 C.F.R. part 68~~, and employees, contractors, and subcontractors of companies, and affiliates thereof, operating under a certificate issued under chapter 364 or chapter 610 or under a local franchise or right-of-way agreement~~. This subsection does not relieve any person from licensure as an alarm system contractor.

(24) A person who installs low-voltage landscape lighting that contains a factory-installed electrical cord with a plug and does not require installation, wiring, or a modification to the electrical wiring in a structure.

Section 48. Present paragraphs (a) through (e) of subsection (2) of section 489.518, Florida Statutes, are redesignated as paragraphs (b) through (f), respectively, and a new paragraph (a) is added to that subsection, to read:

489.518 Alarm system agents.—

(2)(a) A person who performs only sales or installations of wireless alarm systems, other than fire alarm systems, in a single-family residence is not required to complete the initial training required for burglar alarm system agents.

Section 49. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1050
INTRODUCER:	Regulated Industries Committee and Senator Brandes
SUBJECT:	Regulated Professions and Occupations
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Kraemer	Caldwell	RI	**Fav/CS**
2.	Davis	DeLoach	AGG	**Recommend: Fav/CS**
3.	Davis	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1050 eliminates current business license requirements for certain regulated professions, but licensure requirements for individuals engaged in those professions remain intact. The affected professions are architects, interior designers, asbestos abatement consultants and contractors, and landscape architects.

The bill allows certain activities to be practiced without licensure, including nail polishing, low voltage landscape lighting, and low voltage communication cabling. The bill eliminates licensure and registration requirements for athlete agents, talent agencies, hair wrappers, body wrappers, and labor organizations. Licensure of branch offices for yacht and ship brokers is also eliminated.

The bill has a significant negative fiscal impact to the Department of Business and Professional Regulation (DBRP or department) and to the Service Charge to General Revenue (see Section V, Fiscal Impact Statement).

II. Present Situation:

Section 20.165, F.S., establishes the organizational structure of the Department of Business and Professional Regulation (DBPR or department). There are 12 divisions, which include:

- Administration;
- Alcoholic Beverages and Tobacco;

- Certified Public Accounting;
- Drugs, Devices, and Cosmetics;
- Florida Condominiums, Timeshares, and Mobile Homes;
- Hotels and Restaurants;
- Pari-mutuel Wagering;
- Professions;
- Real Estate;
- Regulation;
- Service Operations; and
- Technology.

There are 15 boards and programs established within the Division of Professions,[1] two boards within the Division of Real Estate,[2] and one board within the Division of Certified Public Accounting.[3] The Florida State Boxing Commission (boxing commission) is also assigned to the DBPR for administrative and fiscal accountability purposes only.[4] The department also administers the Child Labor Law and Farm Labor Contractor Registration Law pursuant to parts I and III of ch. 450, F.S.

Chapter 455, F.S., applies to the regulation of professions constituting "any activity, occupation, profession, or vocation regulated by the department in the Divisions of Certified Public Accounting, Professions, Real Estate, and Regulation."[5]

Regulation of professions is limited under Florida law, to be undertaken "only for the preservation of the health, safety, and welfare of the public under the police powers of the state."[6] Regulation is required when:

- The potential for harming or endangering public health, safety, and welfare is recognizable and outweighs any anticompetitive impact that may result;
- The public is not effectively protected by other state statutes, local ordinances, federal legislation, or other means; and
- Less restrictive means of regulation are not available.[7]

[1] Section 20.165(4)(a), F.S., establishes the following boards and programs which are noted with the implementing statutes: Board of Architecture and Interior Design, part I of ch. 481; Florida Board of Auctioneers, part VI of ch. 468; Barbers' Board, ch. 476; Florida Building Code Administrators and Inspectors Board, part XII of ch. 468; Construction Industry Licensing Board, part I of ch. 489; Board of Cosmetology, ch. 477; Electrical Contractors' Licensing Board, part II of ch. 489; Board of Employee Leasing Companies, part XI of ch. 468; Board of Landscape Architecture, part II of ch. 481; Board of Pilot Commissioners, ch. 310; Board of Professional Engineers, ch. 471; Board of Professional Geologists, ch. 492; Board of Veterinary Medicine, ch. 474; Home Inspection Services Licensing Program, part XV of ch. 468; and Mold-related Services Licensing Program, part XVI of ch. 468, F.S.
[2] *See* s. 20.165(4)(b), F.S. Florida Real Estate Appraisal Board, created under part II of ch. 475, F.S., and Florida Real Estate Commission, created under part I of ch. 475, F.S.
[3] *See* s. 20.165(4)(c), F.S., which establishes the Board of Accountancy, created under ch. 473, F.S.
[4] Section 548.003(1), F.S.
[5] Section 455.01(6), F.S.
[6] Section 455.201(2), F.S.
[7] *Id.*

However, "neither the department nor any board may create a regulation that has an unreasonable effect on job creation or job retention," or a regulation that unreasonably restricts the ability of those who desire to engage in a profession or occupation to find employment.[8]

Chapter 455, F.S., provides the general powers of the DBPR and sets forth the procedural and administrative framework for all of the professional boards housed under the department as well as the Divisions of Certified Public Accounting, Professions, Real Estate, and Regulation.[9] When a person is authorized to engage in a profession or occupation in Florida, the department issues a "permit, registration, certificate, or license" to the licensee.[10]

In Fiscal Year 2014-2015, the Division of Accountancy had 38,678 licensees, the Division of Real Estate had 330,565 licensees, and the Board of Professional Engineers had 57,756 licensees.[11] In Fiscal Year 2014-2015, there were 415,207 licensees in the Division of Professions,[12] including:

- Architects and interior designers;
- Asbestos consultants and contractors;
- Athlete agents;
- Auctioneers;
- Barbers;
- Building code administrators and inspectors;
- Community association managers;
- Construction industry contractors;
- Cosmetologists;
- Electrical contractors;
- Employee leasing companies;
- Geologists;
- Home inspectors;
- Landscape architects;
- Harbor pilots;
- Mold-related services;
- Talent agencies; and
- Veterinarians.[13]

Sections 455.203 and 455.213, F.S., establish general licensing provisions for the DBPR, including the authority to charge license fees and license renewal fees. Each board within the

[8] Section 455.201(4)(b), F.S.
[9] *See* s. 455.203, F.S. The department must also provide legal counsel for boards within the department by contracting with the Department of Legal Affairs, by retaining private counsel, or by providing department staff counsel. *See* s. 455.221(1), F.S.
[10] Section 455.01(4) and (5), F.S.
[11] *See* Department of Business and Professional Regulation, *Annual Report, Fiscal Year 2014-2015,* http://www.myfloridalicense.com/dbpr/os/documents/FY2014-2015AnnualReportFinal.pdf (last accessed Jan. 31, 2016) at 22.
[12] Of the total 415,207 licensees in the Division of Professions, 22,566 are inactive. *Id*. at 22.
[13] *Id*. at 13.

department must determine by rule the amount of license fees for its profession, based on estimates of the required revenue to implement regulatory laws.[14]

The Division of Florida Condominiums, Timeshares, and Mobile Homes (FCTMH) within the DBPR provides consumer protection for Florida residents living in regulated communities through education, complaint resolution, mediation and arbitration, and developer disclosure.[15] The FCTMH has limited regulatory authority over the following business entities and individuals:

- Condominium Associations;
- Cooperative Associations;
- Florida Mobile Home Parks and related associations;
- Vacation Units and Timeshares;
- Yacht and Ship Brokers and related business entities; and
- Homeowner's Associations (jurisdiction limited to arbitration of election and recall disputes).[16]

Yacht and Ship Broker Branch Office Licenses

Chapter 326, F.S., governs the licensing and regulation of yacht and ship brokers, salespersons, and related business organizations in the state. The Yacht and Ship Broker's Section, a unit of the FCTMH, processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the yacht brokerage industry.[17]

A person may not act as a yacht or ship broker or salesperson unless licensed under ch. 326, F.S.[18] "Each [yacht or ship] broker must maintain a principle place of business in this state and may establish branch offices in the state. A separate license must be maintained for each branch office."[19]

Applicants for a branch office license and renewal pay a $100 fee with a license renewal every two years.[20] There is no requirement on the branch office other than to obtain licensure. Additionally, there are no inspection requirements.

Labor Organizations

Chapter 447, F.S., governs the licensing and regulation of labor organizations, and related business agents in the state. The Division of Regulation within the DBPR oversees the licensing and regulation of labor organizations. The Division of Regulation processes licenses and

[19] Section 326.004(13), F.S.
[20] Rule 61B-60.002, F.A.C.

responds to consumer complaints and inquiries by monitoring activities and compliance within the labor organization industry.

A labor organization is defined as "[a]ny organization of employees or local or subdivision thereof, having within its membership residents of the state, whether incorporated or not, organized for the purpose of dealing with employers concerning hours of employment, rate of pay, working conditions, or grievances of any kind relating to employment and recognized as a unit of bargaining by one or more employers doing business in this state."[21]

In Florida, all labor organizations are required to register with the department and all business agents of labor organizations must obtain a license.[22] Business agents are defined as "[a]ny person, without regard to title, who shall, for a pecuniary or financial consideration, act or attempt to act for any labor organization in:

- The issuance of membership or authorization cards, work permits, or any other evidence of rights granted or claimed in, or by, a labor organization; and
- Soliciting or receiving from any employer any right or privilege for employees."[23]

Applicants for a business agent license shall pay $25 fee for licensure and must meet a number of licensure requirements.[24] Labor organization applicants must pay an annual fee of $1.[25]

Talent Agencies

Chapter 468, Part VII, F.S., governs the licensing and regulation of talent agencies in the state. The Division of Professions within the DBPR oversees the licensing and regulation of talent agencies. The Division of Professions processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the talent agency industry.

Individuals are prohibited from owning, operating, soliciting business, or otherwise engaging in or carrying on the occupation of a talent agency in this state unless the person first obtains licensure for the talent agency.[26] A talent agency is defined as "[a]ny person who, for compensation, engages in the occupation or business of procuring or attempting to procure engagements for an artist."[27]

To qualify for a talent agency license, the applicant must be of good moral character and shall show whether or not the agency, any person, or any owner of the agency is financially interested in any other business of like nature, and if so, shall specify the interests.[28]

At the time of application, applicants for a talent agency license must pay an application fee of $300, an unlicensed activity fee of $5, and an initial licensure fee of $200 if licensed after

[28] Section 468.405, F.S.

March 31 of any odd numbered year. Otherwise the initial license fee is $400. Talent agency license holders must pay a biennial renewal fee of $400.[29]

Licensed talent agencies are required to:
- File an itemized schedule of maximum fees, charges, and commissions it intends to charge and collect for its services;[30]
- Pay to the artist all money collected from an employer for the benefit of an artist within five business days after receipt of the money;[31]
- Display a copy of the license conspicuously in the place of business;[32]
- File a bond with the department in the form of a surety for the penal sum of $5,000, which may be drawn upon if a person is aggrieved by the misconduct of the talent agency;[33]
- Maintain records including the application, registration, or contract of each artist, with additional information;[34]
- Provide a copy of the contract to the artist within 24 hours of the contract's execution;[35] and
- Comply with the prohibited acts set forth in s. 468.412, F.S.

Licensed talent agencies are prohibited from:
- Charging the artist a registration fee;[36]and
- Requiring the artist to subscribe to, purchase, or attend any publication, postcard service, and advertisement, resume service, photography service, school, acting school, workshop, or acting workshop.[37]

Section 468.415, F.S., provides prohibitions against sexual misconduct.

Section 468.413, F.S., provides criminal penalties for:
- Operating a talent agency without a license;
- Obtaining a license through misrepresentation;
- Assigning a license to another individual;
- Relocating a talent agency without notifying the department;
- Failing to provide information on an application regarding related businesses;
- Failing to maintain records;
- Requiring the artist to subscribe to, purchase, or attend any publication, postcard service, advertisement, resume service, photography service, school, acting school, workshop, or acting workshop;
- Failing to provide a copy of the contract to the artist;
- Failing to maintain a record sheet; and

- Knowingly sending an artist to an employer the licensee knows to be in violation of the laws of Florida or of the United States.

Athlete Agents

Chapter 468, Part IX, F.S., governs the licensing and regulation of athlete agents in the state. The Division of Professions within the DBPR oversees the licensing and regulation of athlete agents. The Division of Professions processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the athlete agent industry.

Individuals are prohibited from practicing as an athlete agent in Florida without first being licensed as an athlete agent.[38] An athlete agent is defined as:

> [A] person who, directly or indirectly, recruits or solicits a student athlete to enter into an agent contract, or who, for any type of financial gain, procures, offers, promises, or attempts to obtain employment or promotional fees or benefits for a student athlete with a professional sports team or as a professional athlete, or with any promoter who markets or attempts to market the student athlete's athletic ability or athletic reputation. This term includes all employees and other persons acting on behalf of an athlete agent who participate in the activities included under this subsection. The term does not include a spouse, parent, sibling, grandparent, or guardian of the student athlete or an individual acting solely on behalf of a professional sports team or professional sports organization.[39]

In order to be licensed, an applicant must be at least 18 years of age, of good moral character, and have completed the application form and remitted an application fee of $500, a licensure fee of $375, and an unlicensed activity fee of $5. Athlete agent license holders must pay a biennial renewal fee of $220.[40]

Licensed athlete agents are required to:
- Comply with specific contract requirements;[41]
- Comply with the prohibited acts;[42] and
- Maintain financial and business records.[43]

Section 468.45615, F.S., provides criminal penalties for a licensed athlete agent who provides anything of value to any person to induce a student athlete to enter into an agreement by which the agent will represent the student athlete.[44]

[43] Section 468.4565, F.S.
[44] Section. 468.456(1)(f), F.S.

Asbestos Abatement Business Organization

Chapter 469, F.S., governs the licensing and regulation of asbestos abatement in the state. The Asbestos Licensing Unit is a program located under the Division of Professions. The program processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the asbestos abatement industry.

An asbestos consultant's license may be issued only to an applicant who holds a current, valid, active license as an architect, professional engineer, professional geologist, is a diplomat of the American Board of Industrial Hygiene, or has been awarded designation as a Certified Safety Professional by the Board of Certified Safety Professionals.[45]

A person must be a licensed asbestos contractor in order to conduct asbestos abatement work.[46] A person must be a licensed asbestos consultant in order to:

- Conduct an asbestos survey;
- Develop an operation and maintenance plan;
- Monitor and evaluate asbestos abatement; or
- Prepare asbestos abatement specifications.[47]

If an applicant for licensure as an asbestos consultant or contractor proposed to engage in consulting or contracting as a business organization, such as a corporation or other legal entity, or in any name other than the applicant's legal name, the business organization must be licensed as an asbestos abatement business. Each licensed business organization must have a qualifying agent that is licensed under ch 469, F.S.,[48] and that is qualified to supervise and is financially responsible. If the qualifying agent terminates his or her affiliation with the business organization and is the only qualifying agent for the business organization, the business organization must be qualified by another qualifying agent within 60 days after the termination, and may not engage in the practice of asbestos abatement until it is qualified.

Applicants for an asbestos abatement business license pay an application fee of $300, an unlicensed activity fee of $5, an initial licensure fee of $250, and a biennial renewal fee of $250.[49] There is no requirement on the branch office other than to obtain licensure. Additionally, there are no inspection requirements.

Nail Painting

Chapter 477, F.S., governs the licensing and regulation of cosmetologists, hair wrappers, hair braiders, nail specialists, facial specialists, full specialists, body wrappers and related salons in the state. The Board of Cosmetology is a board located within the Division of Professions. The board processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the cosmetology industry.

[45] Florida Department of Business and Professional Regulation, *2016 Legislative Bill Analysis*, *Senate Bill 1050*, p. 2, (December 16, 2015).
[46] Section 469.003(3), F.S.
[47] Section 469.003, F.S.
[48] Section 469.006, F.S.
[49] Rule 61E1-3.001, F.A.C.

Individuals are prohibited from providing manicures or pedicures in Florida without first being registered as a nail specialist, full specialist, or cosmetologist.

A "specialist" is defined as "any person holding a specialty registration in one or more of the specialties registered under [ch. 477, F.S.]."[50] The term "specialty" is defined as "the practice of one or more of the following:

- Manicuring, or the cutting, polishing, tinting, coloring, cleansing, adding, or extending of the nails, and massaging of the hands. This term includes any procedure or process for the affixing of artificial nails, except those nails which may be applied solely by use of a simple adhesive;
- Pedicuring, or the shaping, polishing, tinting, or cleansing of the nails of the feet, and massaging or beautifying of the feet;
- Facials, or the massaging or treating of the face or scalp with oils, creams, lotions, or other preparations, and skin care services."[51]

The term "cosmetologist" is defined as "a person who is licensed to engage in the practice of cosmetology…"[52] The term "cosmetology" is defined as "the mechanical or chemical treatment of the head, face, and scalp for aesthetic rather than medical purposes, including, but not limited to, hair shampooing, hair cutting, hair arranging, hair coloring, permanent waving, and hair relaxing for compensation. This term also includes performing hair removal, including wax treatments, manicures, pedicures, and skin care services."[53]

A nail specialist may complete manicures and pedicures. A full specialist may complete manicures, pedicures, and facials. Manicures and pedicures, as a part of cosmetology services, are required to be provided in a licensed specialty salon or cosmetology salon.[54] All cosmetology and specialty salons are subject to inspection by the department.[55]

To qualify for a specialist license, the applicant must be at least 16 years old, obtain a certificate of completion from an approved specialty education program, and submit an application for registration with the department with the registration fee.[56]

To qualify for a license as a cosmetologist, the applicant must be at least 16 years old, have received a high school diploma, have submitted an application with the applicable fee and examination fee, and have either a license in another state or country for at least one year, or have received 1,200 hours training including completing an education at an approved cosmetology school or program. The applicants must also pass all parts of the licensure examination.[57]

[50] Section 477.013(5), F.S.
[51] Section 477.013(6), F.S.
[52] Section 477.013(3), F.S.
[53] Section 477.013(4), F.S.
[54] Section 477.0263, F.S.
[55] Section 477.025, F.S.
[56] Section 477.0201, F.S.
[57] Section 477.019(2), F.S.

The act of painting nails with fingernail polish falls under the scope of manicuring, even if the individual is not cutting, cleansing, adding, or extending the nails. Therefore, individuals seeking to add polish to fingernails and toenails for compensation are required to obtain a registration as a specialist or a license as a cosmetologist. The department does not have a separate license for polishing nails.

Hair Wrapping and Body Wrapping

Persons who wish to practice hair wrapping or body wrapping must register with the DBPR.[58] Hair wrapping is defined as "wrapping of manufactured materials around a strand or strands of human hair, for compensation, without cutting, coloring, permanent waving, relaxing, removing, weaving, chemically treating, braiding, using hair extensions, or performing any other service defined as cosmetology."[59]

Body wrapping is defined as "a treatment program that uses herbal wraps for the purposes of cleansing and beautifying the skin of the body, but does not include:

- The application of oils, lotions, or other fluids to the body, except fluids contained in presoaked materials used in the wraps; or
- Manipulation of the body's superficial tissue, other than that arising from compression emanating from the wrap materials."[60]

To qualify for a hair wrapping or body wrapping registration, the applicant must submit a registration application with the department, provide the registration fee, and take a two-day, 12-hour, board-approved course that consists of education in HIV/AIDS and other communicable diseases, sanitation and sterilization, disorders and diseases of the skin, and studies regarding laws affecting hair wrapping or body wrapping.[61]

At the time of application, applicants for a hair wrapping or body wrapping registration must pay a registration fee of $20 and an unlicensed activity fee of $5. Registration holders must pay a biennial renewal fee of $20.[62]

Architecture Business or Interior Design Organization

Chapter 481, Part I, F.S., governs the licensing and regulation of architects, interior designers, and related business organizations in the state. The Board of Architecture and Interior Design is a board located under the Division of Professions. The board processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the architecture and interior design industries.

"The practice of or the offer to practice architecture or interior design by licensees through a corporation, limited liability company, or partnership offering architectural or interior design services to the public, or by a corporation, limited liability company, or partnership offering

[58] Section 477.0132(1), F.S.
[59] Section 477.013(10), F.S.
[60] Section 477.013(12), F.S.
[61] Section 477.0132(1), F.S.
[62] Rule 61G5-24.019, F.A.C.

architectural or interior design services to the public through licensees under this part as agents, employees, officers, or partners, is permitted, subject to the provisions of [ch. 481, Part I, F.S.]."[63] An architecture or interior design business corporation, limited liability company, or partnership, which is offering architecture or interior design service to the public, must obtain a certificate of authorization prior to practicing.[64]

Applicants for an architecture business certificate of authorization or interior design business certificate of authorization must pay an application fee of $100, an unlicensed activity fee of $5, and a biennial renewal fee of $125.[65] There is no requirement on the business entity other than to obtain licensure. Additionally, there are no inspection requirements.

Landscape Architecture Business Organization

Chapter 481, Part II, F.S., governs the licensing and regulation of landscape architects and related business organizations in the state. The Board of Landscape Architecture is a board located within the Division of Professions. The board processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the landscape architecture industry.

A person may not knowingly practice landscape architecture unless the person holds a valid license issued pursuant to ch. 481, Part II, F.S.[66] A corporation or partnership is permitted to offer landscape architectural services to the public, subject to the provisions of ch. 481, Part I, F.S., if:

- One or more of the principles of the corporation, or partners in the partnership, is a licensed landscape architect;
- One or more of the officers, directors, or owners of the corporation, or one of more of the partners of the partnership is a licensed landscape architect;
- The corporation or partnership has been issued a certificate of authorization by the board.[67]

Applicants for a landscape architecture business certificate of authorization must pay an application fee and initial licensure fee of $450, an unlicensed activity fee of $5, and a biennial renewal fee of $337.50.[68] There is no requirement on the business entity other than to obtain licensure. Additionally, there are no inspection requirements.

Low Voltage Communication Cable

Chapter 489, Part II, F.S., governs the licensing and regulation of electrical contractors, alarm system contractors, and certain specialty contractors in the state. The Electrical Contractors' Licensing Board is a board located within the Division of Professions. The Electrical Contractors' Licensing Board processes licenses and responds to consumer complaints and inquiries by monitoring activities and compliance within the electrical contracting industry.

[63] Section 481.219(1), F.S.
[64] Section 481.219(2)-(3), F.S.
[65] Rules 61G1-17.001 and 61G1-17.002, F.A.C.
[66] Section 481.323(1)(a), F.S.
[67] Section 481.319(1), F.S.
[68] Rule 61G10-12.002, F.A.C.

The term "electrical contractor" is defined as:

> [A] person who conducts business in the electrical trade field and who has the experience, knowledge, and skill to install, repair, alter, add to, or design, in compliance with law, electrical wiring, fixtures, appliances, apparatus, raceways, conduit, or any part thereof, which generates, transmits, transforms, or utilizes electrical energy in any form, including the electrical installations and systems within plants and substations, all in compliance with applicable plans, specifications, codes, laws, and regulations. The term means any person, firm, or corporation that engages in the business of electrical contracting under an express or implied contract; or that undertakes, offers to undertake, purports to have the capacity to undertake, or submits a bid to engage in the business of electrical contracting; or that does itself or by or through others engage in the business of electrical contracting.[69]

The term "alarm system contractor" is defined as:

> [A] person whose business includes the execution of contracts requiring the ability, experience, science, knowledge, and skill to lay out, fabricate, install, maintain, alter, repair, monitor, inspect, replace, or service alarm systems for compensation, including, but not limited to, all types of alarm systems for all purposes. This term also means any person, firm, or corporation that engages in the business of alarm contracting under an expressed or implied contract; that undertakes, offers to undertake, purports to have the capacity to undertake, or submits a bid to engage in the business of alarm contracting; or that by itself or by or through others engages in the business of alarm contracting.[70]

The term "specialty contractor" as referenced in ch. 489, Part II, F.S., is defined as:

> [A] contractor whose scope of practice is limited to a specific segment of electrical or alarm system contracting established in a category adopted by board rule, including, but not limited to, residential electrical contracting, maintenance of electrical fixtures, and fabrication, erection, installation, and maintenance of electrical advertising signs together with the interrelated parts and supports…[71]

The Electrical Contractors' Licensing Board created a "Limited Energy Systems" specialty, clarifying the scope of the specialty license to include "the installation, repair, fabrication, erection, alteration, addition to, or design of electrical wiring, fixtures, appliances, thermostats, apparatus, raceways, conduit, and fiber optics (transmission of light over stranded glass) or any

[69] Section 489.505(12), F.S.
[70] Section 489.505(2), F.S.
[71] Section 489.505(19), F.S.

part thereof not to exceed 98 volts, (RMS). The scope of work of this license does not include installation, repair, fabrication, erection, alteration, addition to, or design of electrical wiring, fixtures, appliances, thermostats, apparatus, raceways, or conduit, that are part of an alarm system."[72]

The act of installing low voltage communication cabling currently falls under the scope of practice of a limited energy systems specialty license, electrical residential contractor license, and alarm systems contractor license. Therefore, at present an individual wishing to do so for compensation is required to obtain one of the listed licenses prior to completing the work.

Section 489.503(14), F.S., provides an exemption from licensure requirements for the selling, installing, repairing, altering, adding, or designing of low voltage communication cabling by employees of cable or communication companies operating under a certificate issued under ch. 364 or ch. 610, F.S., or under a local franchise or right-of-way agreement.

Low-Voltage Landscape Lighting

The act of installing low voltage landscape lighting systems that plug into existing receptacles currently falls under the scope of practice of a limited energy systems specialty license, electrical residential contractor license, and alarm systems contractor license. Therefore, currently, an individual wishing to do so for compensation is required to obtain one of the listed licenses prior to completing the work.

Burglar Alarm Systems Agents

A licensed electrical or alarm system contractor may hire a burglar alarm system agent to perform elements of alarm system contracting. A burglar alarm systems agent is defined as a person:

- Who is employed by a licensed alarm system contractor or licensed electrical contractor;
- Who is performing duties which are an element of an activity which constitutes alarm system contracting requiring licensure under this part; and
- Whose specific duties include any of the following: altering, installing, maintaining, moving, repairing, replacing, servicing, selling, or monitoring an intrusion or burglar alarm system for compensation.[73]

A licensed electrical or alarm system contractor may not employ a person as a burglar alarm system agent unless that person:

- Is at least 18 years old;
- Has completed a minimum of 14 hours of specific training from a board-approved provider;
- Has not been convicted within the previous three years of a crime directly related to the employment;
- Has not been committed for controlled substance abuse or been found guilty of a crime under chapter 893, F.S. within the previous three years.[74]

[72] Rule 61G6-7.001(4), F.A.C.
[73] Section 489.505(25), F.S.
[74] Section 489.518(1), F.S.

Each burglar alarm system agent must receive six hours of continuing education on burglar alarm system installation and repair and false alarm prevention every two years from a board-approved sponsor of training and through a board-approved training course.[75]

III. Effect of Proposed Changes:

Section 1 amends s. 326.004, F.S., to remove the requirement that separate branch office licenses be maintained by yacht and ship brokers, in addition to licensure of the principal office. Brokers and salespeople are required to maintain individual licensure, with a principal place of business in Florida tied to the broker's individual license. No disciplinary orders against branch office licenses were issued in the previous three fiscal years.[76]

Sections 2 through **9** amend the provisions in Part I of ch. 447, F.S., to eliminate the registration and regulation of labor organizations by the Department of Business and Professional Regulation (DBPR or department). Provisions relating to the right to work and strike, recordkeeping, rights of franchise for labor organizations, civil causes of action, criminal penalties, and recognition of federal regulations remain effective.

According to the department, the National Labor Relations Board (NLRB) is active in Florida and provides similar oversight of unions to that of the DBPR. The United States Department of Labor, Office of Labor Management Standards also registers unions. The department issued no disciplinary orders against labor organizations during the three previous fiscal years.[77]

Section 10 repeals Part VII of ch. 468, F.S., and eliminates the regulation of talent agencies by the DBPR. According to the department, three disciplinary orders were issued against talent agencies in the three previous fiscal years; two involved minor violations for failure to include the talent agency's license number in advertisements. The financial account of the licensing program has been in a perpetual deficit since creation of talent agency licensure in 1986.[78]

Sections 11 through **20** amend Part IX of ch. 468, F.S., to eliminate all licensing requirements for athlete agents. According to the department, no disciplinary orders were issued against athlete agents in the previous three fiscal years.[79] Certain civil and criminal causes of action against athlete agents remain effective.

Sections 21 and **22** amend ch. 469, F.S., to remove the requirement that an asbestos abatement contractor obtain a separate business license in addition to an individual license. No disciplinary orders against a licensed asbestos abatement business were issued in the three previous fiscal years. Asbestos abatement contractors must qualify the business organizations they supervise and are liable for the actions of those businesses. Asbestos abatement contractors must inform the department of any change in their relationship with the qualified business, and a qualified

[75] Section 489.518(5), F.S.
[76] S*ee 2016 Department of Business and Professional Regulation Legislative Bill Analysis for SB 1050*, Dec. 16, 2015 (on file with Senate Committee on Regulated Industries) at 4-5.
[77] *Id.* at 4.
[78] *Id.*
[79] *Id.*

business has 60 days to obtain another asbestos abatement contractor to serve as qualifying agent.

Sections 23 through **28** amend ch. 477, F.S., to eliminate registration requirements for persons engaged in hair wrapping, body wrapping, and nail polishing. According to the department, these services are limited to non-invasive procedures and the use of harmful chemicals is prohibited. The Board of Cosmetology issued two disciplinary orders against body wrappers in the three previous fiscal years, and neither involved injury to a consumer.[80]

The Board of Cosmetology issued nine disciplinary orders against hair wrappers in the three previous fiscal years; six licensees were disciplined for practicing with an expired license or failing to timely renew their salon license.[81]

The Board of Cosmetology issued three disciplinary orders against licensed cosmetologists or cosmetology salons for matters involving nail polishing in the three previous fiscal years. Two were for unlicensed activity, and one involved a nail specialist practicing with an expired license. None involved injury to a consumer.[82]

According to the department, these 14 orders are one-half of one percent of the 2,690 disciplinary orders issued by the Board of Cosmetology during the last three fiscal years.[83]

Sections 29 through **32** amend ch. 481, F.S., to remove the requirement that architects and interior designers obtain a separate business license in addition to an individual license. The bill provides that architects and interior designers qualify their business organization with their individual licenses. The bill provides that architects and interior designers must inform the department of any change in their relationship with the qualified business, and the business has 60 days to obtain another qualifying architect or interior designer.

The bill amends s. 481.219(2)(b), F.S., to provide that the Board of Architecture and Interior Design may deny an application to qualify a business organization, if the applicant (or others identified in the application as partners, officers, directors, or stockholders who are also officers or directors) "has been involved in past disciplinary actions or on any grounds for which an individual registration or certification may be denied."

According to the department, in the three previous fiscal years, the Board of Architecture and Interior Design disciplined licensed architecture businesses only six times in cases that did not also involve discipline against the supervising architect; generally, the licensed business was cited for operating without a supervising architect or for failure to include license numbers in advertisements.[84]

The Board of Architecture and Interior Design disciplined licensed interior design businesses only four times in the three previous fiscal years in cases that did not also involve discipline

[80] *Id.*
[81] *Id.*
[82] *Id.*
[83] *Id.*
[84] *Id.*at 5.

against the qualifying interior designer. In three of the four disciplinary cases, the business license was retained by the business after the qualifying interior designer had left the firm.[85]

Sections 33 through **38** amend Part II of ch. 481, F.S., to remove the requirement that landscape architects obtain a separate business license in addition to an individual license. The bill provides that landscape architects must qualify their business organization with their individual licenses and will be liable for the actions of the business organizations they qualify.

The bill repeals the department's authority to issue a certificate of authorization to an applicant wishing to practice as a corporation, limited liability company, or partnership offering landscape architectural services. Furthermore, the bill repeals the board's ability to grant a temporary certificate of authorization for a business organization that is seeking to work on one project in Florida for a period not to exceed a year to an out-of-state corporation, partnership, or firm.

The bill provides that a corporation or partnership is permitted to offer landscape architectural services to the public, subject to the provisions of ch. 481, Part I, F.S., if:

- One or more of the principles of the corporation, or partners in the partnership, is a licensed landscape architect; and
- One or more of the officers, directors, or owners of the corporation, or one of more of the partners of the partnership is a licensed landscape architect.

The bill provides that landscape architects must inform the department of any change in their relationship with the qualified business, and the business has one month to obtain another qualifying landscape architect. According to the department, the Board of Landscape Architecture and Design issued no disciplinary orders against landscape architecture businesses during the three previous fiscal years.[86]

Sections 39 and **40** amend s. 489.503, F.S., to exempt from licensure as an electrical or alarm system contractor, those persons engaged in the installation or repair of low voltage or communication cabling. Low voltage cabling is limited to a maximum of 98 volts. Section 489.503, F.S., already exempts from licensure those employed by cable and telephone companies, who engage in the installation, maintenance, repair, etc. of systems relating to the transmission of voice and data. The bill exempts all persons from the licensure requirement, whether or not they are employed by a cable and telephone company. According to the department, the Electrical Contractors' Licensing Board issued no disciplinary orders for such work in the three previous fiscal years.[87]

The bill provides that a person installing low voltage landscape lighting that contains a factory-installed electrical cord with a plug and does not require installation or wiring is exempt from licensure requirements. The proposed exemption does not permit the alteration of a home's internal electrical system. According to the department, the Electrical Contractors' Licensing

[85] *Id.*
[86] *Id.*
[87] *Id.*

Board issued no disciplinary orders against licensees providing these services during the three previous fiscal years.[88]

In addition, the bill provides that persons who perform only sales or installation of wireless alarm systems, other than fire alarms, in a single family residence, are not required to complete the 14 hours of training required of burglar alarm system agents. Burglar alarm system agents installing a wireless system are required to be supervised by a properly licensed electrical or alarm system contractor who is responsible for ensuring proper installation of the alarm system. According to the DBPR, the Electrical Contractors Licensing Board issued no disciplinary orders in the three previous fiscal years relating to this supervision requirement.[89]

Sections 41 provides the bill takes effect July 1, 2016.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

CS/SB 1050 eliminates the requirement for several professions to obtain a license in order to practice in the state. According to the Department of Business and Professional Regulation (DBPR or department), licensees will receive the benefit of fee reductions in the amounts shown below:

- Yacht and Ship Brokers - approximately $1,200 in Fiscal Year 2015-2016; $6,100 in Fiscal Year 2016-2017; $2,600 in Fiscal Year 2017-2018; and $6,100 in Fiscal Year 2018-2019.
- Professions (labor organizations, athlete agents, hair wrappers, body wrappers, talent agents, and business licenses related to architects, interior designers, landscape architects, and asbestos abatement consultants and contractors) - approximately

[88] *Id.*
[89] *Id.*

$231,300 in Fiscal Year 2015-2016; $253,809 in Fiscal Year 2016-2017; $1,126,974 in Fiscal Year 2017-2018, and $253,809 in Fiscal Year 2018-2019.

C. Government Sector Impact:

According to the DBPR,[90] a reduction in state revenue within the Professional Regulation Trust Fund and the Division of Florida Condominiums, Timeshares, and Mobile Homes Trust Fund is anticipated to be $1,881,892 from Fiscal Year 2015-2016 to Fiscal Year 2018-2019 (see table below), with a corresponding reduction of approximately $150,551 in the Service Charge to General Revenue.

Reductions

	FY 2015-16	FY 2016-17	FY 2017-18	FY 2018-19
Revenues: License fees	Condominiums (Yacht and Ship Brokers) ($1,200) Professions ($231,300)	Condominiums (Yacht and Ship Brokers) ($6,100) Professions ($253,809)	Condominiums (Yacht and Ship Brokers) ($2,600) Professions ($1,126,974)	Condominiums (Yacht and Ship Brokers) ($6,100) Professions ($253,809)
Expenditures: Surcharge to GR (non-operating)	Condominiums (Yacht and Ship Brokers) ($96) Professions ($18,504)	Condominiums (Yacht and Ship Brokers) ($488) Professions ($20,305)	Condominiums (Yacht and Ship Brokers) ($208) Professions ($90,158)	Condominiums (Yacht and Ship Brokers) ($488) Professions ($20,305)

The effective date of the bill is July 1, 2016. However, the department anticipates revenue and expenditure reductions in Fiscal Year 2015-2016 (see table above) associated with the licensure renewal of athlete and talent agents and yacht and ship branch offices. Currently, the biennial renewals for athlete agents and talent agents are due May 31 during even years. Yacht and Ship branch office licenses are renewed for a period up to two years based on the expiration date of the licensee's associated yacht and ship broker license. In anticipation of the elimination of the licenses and fees provided in the bill, the department contemplates not collecting renewals for these particular licenses in the remaining months prior to the effective date of the bill.

According to the DBPR, changes in licensing and renewal requirements will require programming modifications which can be handled with existing resources.[91] In addition, the elimination and modification of certain licenses and registration will necessitate the repeal or amendment of rules and applications regarding those licenses and registrations, which can be handled with existing resources.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 326.004, 447.02, 447.09, 468.451, 468.452, 468.454, 468.45615, 468.4565, 469.006, 469.009, 477.0132, 477.0135, 477.019, 477.026, 477.0265, 477.029, 481.203, 481.219, 481.221, 481.229, 481.303, 481.321, 481.311, 481.317, 481.319, 481.329, 489.503, and 489.518.

This bill repeals the following sections of the Florida Statutes: 447.04, 447.041, 447.045, 447.06, 447.12, 447.16, 468.401, 468.402, 468.403, 468.404, 468.405, 468.406, 468.407, 468.408, 468.409, 468.410, 468.411, 468.412, 468.413, 468.414, 468.415, 468.453, 468.4536, 468.456, 468.4561, and 468.457.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Regulated Industries on February 2, 2016:
The CS deletes the exemption proposed for veterinary acupressure or veterinary massage. It removes joint and several liability of a licensed qualifying agent for a business organization offering architectural or interior design services, for any damages resulting from the actions of the organization. All provisions relating to certificates of authorization for the practice of professional geology and qualification of the organization by active licensed professional geologists in the state were removed from the bill.

B. Amendments:

None.

By the Committee on Regulated Industries; and Senator Brandes

580-02951-16 20161050c1

A bill to be entitled

An act relating to regulated professions and occupations; amending s. 326.004, F.S.; deleting a requirement that yacht and ship brokers maintain a separate license for each branch office and related fees; amending s. 447.02, F.S.; deleting a definition; repealing s. 447.04, F.S., relating to business agents, licenses, and permits; repealing s. 447.041, F.S., relating to hearings; repealing s. 447.045, F.S., relating to certain confidential information; repealing s. 447.06, F.S., relating to the required registration of labor organizations; amending s. 447.09, F.S.; deleting prohibitions against specified actions; repealing s. 447.12, F.S., relating to registration fees; repealing s. 447.16, F.S., relating to the applicability of ch. 447, F.S.; repealing part VII of ch. 468, F.S., relating to the regulation of talent agencies; amending s. 468.451, F.S.; revising legislative intent related to the regulation of athlete agents; reordering and amending s. 468.452, F.S.; deleting the term "department"; repealing s. 468.453, F.S., relating to the licensure of athlete agents; repealing s. 468.4536, F.S., relating to renewal of such licenses; amending s. 468.454, F.S.; revising the information that must be stated in agent contracts; deleting a condition under which an agent contract is void and unenforceable; repealing s. 468.456, F.S., relating to prohibited acts for athlete agents; repealing s. 468.4561, F.S., relating to unlicensed activity and penalties for violations; amending s. 468.45615, F.S.; conforming provisions to changes made by the act; amending s. 468.4565, F.S.;

580-02951-16 20161050c1

deleting provisions authorizing the Department of Business and Professional Regulation to access and inspect certain records of athlete agents and related disciplinary actions and subpoena powers; repealing s. 468.457, F.S., relating to rulemaking authority; amending s. 469.006, F.S.; requiring that a license be in the name of a qualifying agent rather than the name of a business organization; requiring the qualifying agent, rather than the business organization, to report certain changes in information; conforming provisions to changes made by the act; amending s. 469.009, F.S.; deleting the authority of the department to reprimand, censure, or impose probation on certain business organizations; amending s. 477.0132, F.S.; excluding the practices of hair wrapping and body wrapping from regulation under the Florida Cosmetology Act; amending s. 477.0135, F.S.; providing that a license or registration is not required for a person whose occupation or practice is confined solely to adding polish to nails or solely to hair wrapping or body wrapping; amending ss. 477.019, 477.026, 477.0265, and 477.029, F.S.; conforming provisions to changes made by the act; amending s. 481.203, F.S.; defining the term "business organization"; deleting the definition of the term "certificate of authorization"; amending s. 481.219, F.S.; revising the process by which a business organization obtains the requisite license to perform architectural services; requiring that a licensee or

an applicant apply to qualify a business organization under certain circumstances; specifying application requirements; authorizing the Board of Architecture and Interior Design to deny an application under certain circumstances; requiring that a qualifying agent be a registered architect or a registered interior designer under certain circumstances; requiring that a qualifying agent notify the department when she or he ceases to be affiliated with a business organization; prohibiting a business organization from engaging in certain practices until it is qualified by a qualifying agent; authorizing a business organization to proceed with specified contracts under a temporary certificate in certain circumstances; defining the term "incomplete contract"; requiring the qualifying agent to give written notice to the department before engaging in practice under her or his own name or in affiliation with another business organization; requiring the board to certify an applicant to qualify one or more business organizations or to operate using a fictitious name under certain circumstances; conforming provisions to changes made by the act; amending ss. 481.221 and 481.229, F.S.; conforming provisions to changes made by the act; reordering and amending s. 481.303, F.S.; deleting the term "certificate of authorization"; amending s. 481.321, F.S.; revising provisions that require persons to display certificate numbers under certain

circumstances; conforming provisions to changes made by the act; amending ss. 481.311, 481.317, and 481.319, F.S.; conforming provisions to changes made by the act; amending s. 481.329, F.S.; conforming a cross-reference; amending s. 489.503, F.S.; deleting an exemption from regulation for certain persons; exempting a person who installs certain low-voltage landscape lighting from specified requirements; amending s. 489.518, F.S.; exempting certain persons from initial training for burglar alarm system agents; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (13) of section 326.004, Florida Statutes, is amended to read:

326.004 Licensing.—

(13) Each broker must maintain a principal place of business in this state and may establish branch offices in the state. ~~A separate license must be maintained for each branch office. The division shall establish by rule a fee not to exceed $100 for each branch office license.~~

Section 2. Subsection (3) of section 447.02, Florida Statutes, is amended to read:

447.02 Definitions.—The following terms, when used in this chapter, shall have the meanings ascribed to them in this section:

~~(3) The term "department" means the Department of Business and Professional Regulation.~~

Section 3. Section 447.04, Florida Statutes, is repealed.

Section 4. Section 447.041, Florida Statutes, is repealed.

Section 5. Section 447.045, Florida Statutes, is repealed.

Section 6. Section 447.06, Florida Statutes, is repealed.

Section 7. Subsections (6) and (8) of section 447.09, Florida Statutes, are amended to read:

447.09 Right of franchise preserved; penalties.—It shall be unlawful for any person:

~~(6) To act as a business agent without having obtained and possessing a valid and subsisting license or permit.~~

~~(8) To make any false statement in an application for a license.~~

Section 8. Section 447.12, Florida Statutes, is repealed.

Section 9. Section 447.16, Florida Statutes, is repealed.

Section 10. Part VII of chapter 468, Florida Statutes, consisting of ss. 468.401, 468.402, 468.403, 468.404, 468.405, 468.406, 468.407, 468.408, 468.409, 468.410, 468.411, 468.412, 468.413, 468.414, and 468.415, is repealed.

Section 11. Section 468.451, Florida Statutes, is amended to read:

468.451 Legislative findings and intent.—The Legislature finds that dishonest or unscrupulous practices by agents who solicit representation of student athletes can cause significant harm to student athletes and the academic institutions for which they play. It is the intent of the Legislature to provide civil and criminal causes of action against athlete agents to protect the interests of student athletes and academic institutions ~~by regulating the activities of athlete agents~~.

Section 12. Subsections (4) through (7) of section 468.452,

Florida Statutes, are reordered and amended to read:

468.452 Definitions.—For purposes of this part, the term:

~~(4) "Department" means the Department of Business and Professional Regulation.~~

(6)~~(5)~~ "Student athlete" means any student who:

(a) Resides in Florida, has informed, in writing, a college or university of the student's intent to participate in that school's intercollegiate athletics, or who does participate in that school's intercollegiate athletics and is eligible to do so; or

(b) Does not reside in Florida, but has informed, in writing, a college or university in Florida of the student's intent to participate in that school's intercollegiate athletics, or who does participate in that school's intercollegiate athletics and is eligible to do so.

(4)~~(6)~~ "Financial services" means the counseling on or the making or execution of investment and other financial decisions by the agent on behalf of the student athlete.

(5)~~(7)~~ "Participation" means practicing, competing, or otherwise representing a college or university in intercollegiate athletics.

Section 13. Section 468.453, Florida Statutes, is repealed.

Section 14. Section 468.4536, Florida Statutes, is repealed.

Section 15. Subsections (2) and (12) of section 468.454, Florida Statutes, are amended to read:

468.454 Contracts.—

(2) An agent contract must state:

(a) The amount and method of calculating the consideration

to be paid by the student athlete for services to be provided by the athlete agent and any other consideration the agent has received or will receive from any other source under the contract;

(b) The name of any person ~~not listed in the licensure application~~ who will be compensated because the student athlete signed the agent contract;

(c) A description of any expenses that the student athlete agrees to reimburse;

(d) A description of the services to be provided to the student athlete;

(e) The duration of the contract; and

(f) The date of execution.

~~(12) An agent contract between a student athlete and a person not licensed under this part is void and unenforceable.~~

Section 16. Section 468.456, Florida Statutes, is repealed.

Section 17. Section 468.4561, Florida Statutes, is repealed.

Section 18. Section 468.45615, Florida Statutes, is amended to read:

468.45615 Provision of illegal inducements to athletes ~~prohibited; penalties; license suspension~~.—

(1) A ~~Any~~ person who offers anything of value to another person to induce a student athlete to enter into an agreement by which the athlete agent will represent the student athlete commits ~~violates s. 468.456(1)(f) is guilty of~~ a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, s. 775.084, s. 775.089, or s. 775.091. Negotiations regarding an athlete agent's fee are not considered an inducement.

(2)(a) Regardless of whether adjudication is withheld, any person convicted or found guilty of, or entering a plea of nolo contendere to, the violation described in subsection (1) may ~~shall~~ not employ, utilize, or otherwise collaborate with an ~~a licensed or unlicensed~~ athlete agent in Florida to illegally recruit or solicit student athletes. Any person who violates the provisions of this subsection is guilty of a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, s. 775.084, s. 775.089, or s. 775.091.

(b) Regardless of whether adjudication is withheld, any person who knowingly actively assists in the illegal recruitment or solicitation of student athletes for a person who has been convicted or found guilty of, or entered a plea of nolo contendere to, a violation of this section is guilty of a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, s. 775.084, s. 775.089, or s. 775.091.

~~(3) In addition to any other penalties provided in this section, the court may suspend the license of the person pending the outcome of any administrative action against the person by the department.~~

(3) ~~(4)~~ (a) An athlete agent, with the intent to induce a student athlete to enter into an agent contract, may not:

1. Give any materially false or misleading information or make a materially false promise or representation;

2. Furnish anything of value to a student athlete before the student athlete enters into the agent contract; or

3. Furnish anything of value to any individual other than the student athlete or another athlete agent.

(b) An athlete agent may not intentionally:

1. ~~Initiate contact with a student athlete unless licensed under this part;~~

~~2.~~ Refuse or fail to retain or permit inspection of the records required to be retained by s. 468.4565;

~~3. Provide materially false or misleading information in an application for licensure;~~

2.~~4.~~ Predate or postdate an agent contract;

3.~~5.~~ Fail to give notice of the existence of an agent contract as required by s. 468.454(6); or

4.~~6.~~ Fail to notify a student athlete before the student athlete signs or otherwise authenticates an agent contract for a sport that the signing or authentication may make the student athlete ineligible to participate as a student athlete in that sport.

(c) An athlete agent who violates this subsection commits a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Section 19. Section 468.4565, Florida Statutes, is amended to read:

468.4565 Business records requirement.—

~~(1)~~ An athlete agent shall establish and maintain complete financial and business records. The athlete agent shall save each entry into a financial or business record for at least 5 years after ~~from~~ the date of entry. These records must include:

(1)~~(a)~~ The name and address of each individual represented by the athlete agent;

(2)~~(b)~~ Any agent contract entered into by the athlete agent; and

(3)~~(c)~~ Any direct costs incurred by the athlete agent in

the recruitment or solicitation of a student athlete to enter into an agent contract.

~~(2) The department shall have access to and shall have the right to inspect and examine the financial or business records of an athlete agent during normal business hours. Refusal or failure of an athlete agent to provide the department access to financial and business records shall be the basis for disciplinary action by the department pursuant to s. 455.225. The department may exercise its subpoena powers to obtain the financial and business records of an athlete agent.~~

Section 20. Section 468.457, Florida Statutes, is repealed.

Section 21. Paragraphs (a) and (e) of subsection (2), subsection (3), paragraph (b) of subsection (4), and subsection (6) of section 469.006, Florida Statutes, are amended to read:

469.006 Licensure of business organizations; qualifying agents.—

(2)(a) If the applicant proposes to engage in consulting or contracting as a partnership, corporation, business trust, or other legal entity, or in any name other than the applicant's legal name, the ~~legal entity must apply for licensure through a qualifying agent or the~~ individual applicant must apply for licensure under the name of the business organization ~~fictitious name~~.

(e) A ~~The~~ license~~, when issued upon application of a business organization,~~ must be in the name of the qualifying agent ~~business organization~~, and the name of the business organization ~~qualifying agent~~ must be noted on the license ~~thereon~~. If there is a change in any information that is required to be stated on the application, the qualifying agent

~~business organization~~ shall, within 45 days after such change occurs, mail the correct information to the department.

(3) The qualifying agent must ~~shall~~ be licensed under this chapter in order for the business organization to be qualified ~~licensed~~ in the category of the business conducted for which the qualifying agent is licensed. If any qualifying agent ceases to be affiliated with such business organization, the agent shall so inform the department. In addition, if such qualifying agent is the only licensed individual affiliated with the business organization, the business organization shall notify the department of the termination of the qualifying agent and has ~~shall have~~ 60 days after ~~from~~ the date of termination of the qualifying agent's affiliation with the business organization ~~in which~~ to employ another qualifying agent. The business organization may not engage in consulting or contracting until a qualifying agent is employed, unless the department has granted a temporary nonrenewable license to the financially responsible officer, the president, the sole proprietor, a partner, or, in the case of a limited partnership, the general partner, who assumes all responsibilities of a primary qualifying agent for the entity. This temporary license only allows ~~shall only allow~~ the entity to proceed with incomplete contracts.

(4)

(b) Upon a favorable determination by the department, after investigation of the financial responsibility, credit, and business reputation of the qualifying agent and the new business organization, the department shall issue, without any examination, a new license in the qualifying agent's ~~business organization's~~ name, and the name of the business organization

~~qualifying agent~~ shall be noted thereon.

(6) Each qualifying agent shall pay the department an amount equal to the original fee for licensure ~~of a new business organization.~~ if the qualifying agent for a business organization desires to qualify additional business organizations.~~,~~ The department shall require the agent to present evidence of supervisory ability and financial responsibility of each such organization. Allowing a licensee to qualify more than one business organization must ~~shall~~ be conditioned upon the licensee showing that the licensee has both the capacity and intent to adequately supervise each business organization. The department may ~~shall~~ not limit the number of business organizations that ~~which~~ the licensee may qualify except upon the licensee's failure to provide such information as is required under this subsection or upon a finding that the ~~such~~ information or evidence ~~as is~~ supplied is incomplete or unpersuasive in showing the licensee's capacity and intent to comply with the requirements of this subsection. A qualification for an additional business organization may be revoked or suspended upon a finding by the department that the licensee has failed in the licensee's responsibility to adequately supervise the operations of the business organization. Failure to adequately supervise the operations of a business organization is ~~shall be~~ grounds for denial to qualify additional business organizations.

Section 22. Subsection (1) of section 469.009, Florida Statutes, is amended to read:

469.009 License revocation, suspension, and denial of issuance or renewal.—

(1) The department may revoke, suspend, or deny the issuance or renewal of a license; reprimand, censure, or place on probation any contractor, consultant, or financially responsible officer~~, or business organization~~; require financial restitution to a consumer; impose an administrative fine not to exceed $5,000 per violation; require continuing education; or assess costs associated with any investigation and prosecution if the contractor or consultant, or business organization or officer or agent thereof, is found guilty of any of the following acts:

(a) Willfully or deliberately disregarding or violating the health and safety standards of the Occupational Safety and Health Act of 1970, the Construction Safety Act, the National Emission Standards for Asbestos, the Environmental Protection Agency Asbestos Abatement Projects Worker Protection Rule, the Florida Statutes or rules promulgated thereunder, or any ordinance enacted by a political subdivision of this state.

(b) Violating any provision of chapter 455.

(c) Failing in any material respect to comply with the provisions of this chapter or any rule promulgated hereunder.

(d) Acting in the capacity of an asbestos contractor or asbestos consultant under any license issued under this chapter except in the name of the licensee as set forth on the issued license.

(e) Proceeding on any job without obtaining all applicable approvals, authorizations, permits, and inspections.

(f) Obtaining a license by fraud or misrepresentation.

(g) Being convicted or found guilty of, or entering a plea of nolo contendere to, regardless of adjudication, a crime in

any jurisdiction which directly relates to the practice of asbestos consulting or contracting or the ability to practice asbestos consulting or contracting.

(h) Knowingly violating any building code, lifesafety code, or county or municipal ordinance relating to the practice of asbestos consulting or contracting.

(i) Performing any act which assists a person or entity in engaging in the prohibited unlicensed practice of asbestos consulting or contracting, if the licensee knows or has reasonable grounds to know that the person or entity was unlicensed.

(j) Committing mismanagement or misconduct in the practice of contracting that causes financial harm to a customer. Financial mismanagement or misconduct occurs when:

1. Valid liens have been recorded against the property of a contractor's customer for supplies or services ordered by the contractor for the customer's job; the contractor has received funds from the customer to pay for the supplies or services; and the contractor has not had the liens removed from the property, by payment or by bond, within 75 days after the date of such liens;

2. The contractor has abandoned a customer's job and the percentage of completion is less than the percentage of the total contract price paid to the contractor as of the time of abandonment, unless the contractor is entitled to retain such funds under the terms of the contract or refunds the excess funds within 30 days after the date the job is abandoned; or

3. The contractor's job has been completed, and it is shown that the customer has had to pay more for the contracted job

than the original contract price, as adjusted for subsequent change orders, unless such increase in cost was the result of circumstances beyond the control of the contractor, was the result of circumstances caused by the customer, or was otherwise permitted by the terms of the contract between the contractor and the customer.

(k) Being disciplined by any municipality or county for an act or violation of this chapter.

(l) Failing in any material respect to comply with the provisions of this chapter, or violating a rule or lawful order of the department.

(m) Abandoning an asbestos abatement project in which the asbestos contractor is engaged or under contract as a contractor. A project may be presumed abandoned after 20 days if the contractor terminates the project without just cause and without proper notification to the owner, including the reason for termination; if the contractor fails to reasonably secure the project to safeguard the public while work is stopped; or if the contractor fails to perform work without just cause for 20 days.

(n) Signing a statement with respect to a project or contract falsely indicating that the work is bonded; falsely indicating that payment has been made for all subcontracted work, labor, and materials which results in a financial loss to the owner, purchaser, or contractor; or falsely indicating that workers' compensation and public liability insurance are provided.

(o) Committing fraud or deceit in the practice of asbestos consulting or contracting.

(p) Committing incompetency or misconduct in the practice of asbestos consulting or contracting.

(q) Committing gross negligence, repeated negligence, or negligence resulting in a significant danger to life or property in the practice of asbestos consulting or contracting.

(r) Intimidating, threatening, coercing, or otherwise discouraging the service of a notice to owner under part I of chapter 713 or a notice to contractor under chapter 255 or part I of chapter 713.

(s) Failing to satisfy, within a reasonable time, the terms of a civil judgment obtained against the licensee, or the business organization qualified by the licensee, relating to the practice of the licensee's profession.

For the purposes of this subsection, construction is considered to be commenced when the contract is executed and the contractor has accepted funds from the customer or lender.

Section 23. Section 477.0132, Florida Statutes, is amended to read:

477.0132 Hair braiding~~, hair wrapping, and body wrapping~~ registration.—

(1)(a) Persons whose occupation or practice is confined solely to hair braiding must register with the department, pay the applicable registration fee, and take a two-day 16-hour course. The course shall be board approved and consist of 5 hours of HIV/AIDS and other communicable diseases, 5 hours of sanitation and sterilization, 4 hours of disorders and diseases of the scalp, and 2 hours of studies regarding laws affecting hair braiding.

(b) ~~Persons whose occupation or practice is confined solely to hair wrapping must register with the department, pay the applicable registration fee, and take a one-day 6-hour course. The course shall be board approved and consist of education in HIV/AIDS and other communicable diseases, sanitation and sterilization, disorders and diseases of the scalp, and studies regarding laws affecting hair wrapping.~~

~~(c) Unless otherwise licensed or exempted from licensure under this chapter, any person whose occupation or practice is body wrapping must register with the department, pay the applicable registration fee, and take a two-day 12-hour course. The course shall be board approved and consist of education in HIV/AIDS and other communicable diseases, sanitation and sterilization, disorders and diseases of the skin, and studies regarding laws affecting body wrapping.~~

~~(d)~~ Only the board may review, evaluate, and approve a course required of an applicant for registration under this subsection in the occupation or practice of hair braiding~~, hair wrapping, or body wrapping~~. A provider of such a course is not required to hold a license under chapter 1005.

(2) Hair braiding is~~, hair wrapping, and body wrapping are~~ not required to be practiced in a cosmetology salon or specialty salon. When hair braiding~~, hair wrapping, or body wrapping~~ is practiced outside a cosmetology salon or specialty salon, disposable implements must be used or all implements must be sanitized in a disinfectant approved for hospital use or approved by the federal Environmental Protection Agency.

(3) Pending issuance of registration, a person is eligible to practice hair braiding~~, hair wrapping, or body wrapping~~ upon

submission of a registration application that includes proof of successful completion of the education requirements and payment of the applicable fees required by this chapter.

Section 24. Subsections (7), (8), and (9) are added to section 477.0135, Florida Statutes, to read:

477.0135 Exemptions.—

(7) A license or registration is not required for a person whose occupation or practice is confined solely to adding polish to fingernails and toenails.

(8) A license or registration is not required for a person whose occupation or practice is confined solely to hair wrapping as defined in s. 477.013(10).

(9) A license or registration is not required for a person whose occupation or practice is confined solely to body wrapping as defined in s. 477.013(12).

Section 25. Paragraph (b) of subsection (7) of section 477.019, Florida Statutes, is amended to read:

477.019 Cosmetologists; qualifications; licensure; supervised practice; license renewal; endorsement; continuing education.—

(7)

(b) Any person whose occupation or practice is confined solely to hair braiding~~, hair wrapping, or body wrapping~~ is exempt from the continuing education requirements of this subsection.

Section 26. Paragraph (f) of subsection (1) of section 477.026, Florida Statutes, is amended to read:

477.026 Fees; disposition.—

(1) The board shall set fees according to the following

schedule:

(f) For hair braiders, ~~hair wrappers, and body wrappers,~~ fees for registration shall not exceed $25.

Section 27. Paragraph (f) of subsection (1) of section 477.0265, Florida Statutes, is amended to read:

477.0265 Prohibited acts.—

(1) It is unlawful for any person to:

(f) Advertise or imply that skin care services ~~or body wrapping, as~~ performed under this chapter~~,~~ have any relationship to the practice of massage therapy as defined in s. 480.033(3), except those practices or activities defined in s. 477.013.

Section 28. Paragraph (a) of subsection (1) of section 477.029, Florida Statutes, is amended to read:

477.029 Penalty.—

(1) It is unlawful for any person to:

(a) Hold himself or herself out as a cosmetologist, specialist, or ~~hair wrapper,~~ hair braider~~, or body wrapper~~ unless duly licensed or registered, or otherwise authorized, as provided in this chapter.

Section 29. Subsection (5) of section 481.203, Florida Statutes, is amended to read:

481.203 Definitions.—As used in this part:

(5) "Business organization" means a partnership, a limited liability company, a corporation, or an individual operating under a fictitious name ~~"Certificate of authorization" means a certificate issued by the department to a corporation or partnership to practice architecture or interior design~~.

Section 30. Section 481.219, Florida Statutes, is amended to read:

481.219 Business organization; qualifying agents ~~Certification of partnerships, limited liability companies, and corporations~~.—

(1) A licensee may ~~The practice of or the offer to~~ practice architecture or interior design ~~by licensees~~ through a business organization that offers ~~corporation, limited liability company, or partnership offering~~ architectural or interior design services to the public, or through ~~by~~ a business organization that offers ~~corporation, limited liability company, or partnership offering~~ architectural or interior design services to the public through such licensees ~~under this part~~ as agents, employees, officers, or partners~~, is permitted, subject to the provisions of this section~~.

(2) If a licensee or an applicant proposes to engage in the practice of architecture or interior design as a business organization, the licensee or applicant must apply to qualify the business organization ~~For the purposes of this section, a certificate of authorization shall be required for a corporation, limited liability company, partnership, or person practicing under a fictitious name, offering architectural services to the public jointly or separately. However, when an individual is practicing architecture in her or his own name, she or he shall not be required to be certified under this section. Certification under this subsection to offer architectural services shall include all the rights and privileges of certification under subsection (3) to offer interior design services~~.

(a) An application to qualify a business organization must:

1. If the business is a partnership, state the names of the

partnership and its partners.

2. If the business is a corporation, state the names of the corporation and its officers and directors and the name of each of its stockholders who is also an officer or a director.

3. If the business is operating under a fictitious name, state the fictitious name under which it is doing business.

4. If the business is not a partnership, a corporation, or operating under a fictitious name, state the name of such other legal entity and its members.

(b) The board may deny an application to qualify a business organization if the applicant or any person required to be named pursuant to paragraph (a) has been involved in past disciplinary actions or on any grounds for which an individual registration or certification may be denied.

(3)(a) A business organization may not engage in the practice of architecture unless its qualifying agent is a registered architect under this part. A business organization may not engage in the practice of interior design unless its qualifying agent is a registered architect or a registered interior designer under this part. A qualifying agent who terminates her or his affiliation with a business organization shall immediately notify the department of such termination. If the qualifying agent who terminates her or his affiliation is the only qualifying agent for a business organization, the business organization must be qualified by another qualifying agent within 60 days after the termination. Except as provided in paragraph (b), such a business organization may not engage in the practice of architecture or interior design until it is qualified by a qualifying agent.

(b) The executive director or chair of the board may grant a temporary, nonrenewable certificate or registration to a licensee in supervising control, the president, a managing member, a partner, or, in the case of a limited partnership, the general partner for the purpose of allowing the business organization to begin or continue work required under an incomplete contract. Such person shall assume all of the responsibilities of a qualifying agent. For purposes of this paragraph, the term "incomplete contract" means a contract that has been awarded to, or entered into by, the business organization before the termination of affiliation of the qualifying agent with the business organization or a contract on which the business organization was the low bidder and that is subsequently awarded to the business organization, regardless of whether any actual work has commenced under the contract before termination of affiliation by the qualifying agent with the business organization.

(c) A qualifying agent shall notify the department in writing before engaging in the practice of architecture or interior design in her or his own name or in affiliation with a different business organization, and she or he or such business organization shall supply the same information to the department as required of applicants under this part ~~For the purposes of this section, a certificate of authorization shall be required for a corporation, limited liability company, partnership, or person operating under a fictitious name, offering interior design services to the public jointly or separately. However, when an individual is practicing interior design in her or his own name, she or he shall not be required to be certified under~~

~~this section~~.

(4) All final construction documents and instruments of service which include drawings, specifications, plans, reports, or other papers or documents that involve ~~involving~~ the practice of architecture which are prepared or approved for the use of the business organization ~~corporation, limited liability company, or partnership~~ and filed for public record within the state must ~~shall~~ bear the signature and seal of the licensee who prepared or approved them and the date on which they were sealed.

(5) All drawings, specifications, plans, reports, or other papers or documents prepared or approved for the use of the business organization ~~corporation, limited liability company, or partnership~~ by an interior designer in her or his professional capacity and filed for public record within the state must ~~shall~~ bear the signature and seal of the licensee who prepared or approved them and the date on which they were sealed.

~~(6) The department shall issue a certificate of authorization to any applicant who the board certifies as qualified for a certificate of authorization and who has paid the fee set in s. 481.207.~~

(6)~~(7)~~ The board shall allow ~~certify~~ an applicant to qualify one or more business organizations ~~as qualified for a certificate of authorization~~ to offer architectural or interior design services, or to use a fictitious name to offer such services, if one of the following criteria is met ~~provided that~~:

(a) One or more of the principal officers of the corporation or limited liability company, or one or more partners of the partnership, and all personnel of the

corporation, limited liability company, or partnership who act in its behalf in this state as architects, are registered as provided by this part.~~; or~~

(b) One or more of the principal officers of the corporation or one or more partners of the partnership, and all personnel of the corporation, limited liability company, or partnership who act in its behalf in this state as interior designers, are registered as provided by this part.

~~(8) The department shall adopt rules establishing a procedure for the biennial renewal of certificates of authorization.~~

~~(9) The department shall renew a certificate of authorization upon receipt of the renewal application and biennial renewal fee.~~

(7)~~(10)~~ Each qualifying agent approved to qualify a business organization ~~partnership, limited liability company, and corporation certified~~ under this section shall notify the department within 30 days of any change in the information contained in the application upon which the qualification ~~certification~~ is based. Any registered architect or interior designer who qualifies the business organization shall ensure ~~corporation, limited liability company, or partnership as provided in subsection (7) shall be responsible for ensuring~~ responsible supervising control of projects of the business organization ~~entity~~ and upon termination of her or his employment with a business organization qualified ~~partnership, limited liability company, or corporation certified~~ under this section shall notify the department of the termination within 30 days.

(8) ~~(11)~~ A business organization is not ~~No corporation, limited liability company, or partnership shall be~~ relieved of responsibility for the conduct or acts of its agents, employees, or officers by reason of its compliance with this section. However, except as provided in s. 558.0035, the architect who signs and seals the construction documents and instruments of service is ~~shall be~~ liable for the professional services performed, and the interior designer who signs and seals the interior design drawings, plans, or specifications is ~~shall be~~ liable for the professional services performed.

~~(12) Disciplinary action against a corporation, limited liability company, or partnership shall be administered in the same manner and on the same grounds as disciplinary action against a registered architect or interior designer, respectively.~~

(9) ~~(13) Nothing in~~ This section may not ~~shall~~ be construed to mean that a certificate of registration to practice architecture or interior design must ~~shall~~ be held by a business organization ~~corporation, limited liability company, or partnership~~. ~~Nothing in~~ This section does not prohibit ~~prohibits~~ corporations, limited liability companies, and partnerships from joining together to offer architectural, engineering, interior design, surveying and mapping, and landscape architectural services, or any combination of such services, to the public if~~,~~ ~~provided that~~ each corporation, limited liability company, or partnership otherwise meets the requirements of law.

(10) ~~(14)~~ A business organization that is qualified by a registered architect may ~~Corporations, limited liability companies, or partnerships holding a valid certificate of~~

~~authorization to practice architecture shall be permitted to~~ use ~~in their title~~ the term "interior designer" or "registered interior designer" in its title. ~~designer."~~

Section 31. Subsection (10) of section 481.221, Florida Statutes, is amended to read:

481.221 Seals; display of certificate number.—

(10) Each registered architect or interior designer or qualifying agent of a business organization must~~, and each corporation, limited liability company, or partnership holding a certificate of authorization, shall~~ include her or his license ~~its certificate~~ number in any newspaper, telephone directory, or other advertising medium used by the registered architect or~~,~~ interior designer, or business organization ~~corporation, limited liability company, or partnership~~. A business organization ~~corporation, limited liability company, or partnership~~ is not required to display the certificate number of individual registered architects or interior designers employed by or working within the business organization ~~corporation, limited liability company, or partnership~~.

Section 32. Paragraphs (a) and (c) of subsection (5) of section 481.229, Florida Statutes, are amended to read:

481.229 Exceptions; exemptions from licensure.—

(5)(a) ~~Nothing contained in~~ This part does not prohibit ~~shall prevent~~ a registered architect or a qualified business organization ~~partnership, limited liability company, or corporation holding a valid certificate of authorization to provide architectural services~~ from performing any interior design service or from using the title "interior designer" or "registered interior designer."

(c) Notwithstanding any other provision of this part, a registered architect or qualified business organization certified ~~any corporation, partnership, or person operating under a fictitious name which holds a certificate of authorization~~ to provide architectural services must ~~shall~~ be qualified, without fee, ~~for a certificate of authorization~~ to provide interior design services upon submission of a completed application for qualification ~~therefor~~. ~~For corporations, partnerships, and persons operating under a fictitious name which hold a certificate of authorization to provide interior design services, satisfaction of the requirements for renewal of the certificate of authorization to provide architectural services under s. 481.219 shall be deemed to satisfy the requirements for renewal of the certificate of authorization to provide interior design services under that section.~~

Section 33. Section 481.303, Florida Statutes, is reordered and amended to read:

481.303 Definitions.—As used in this chapter, the term:

(1) "Board" means the Board of Landscape Architecture.

(3) ~~(2)~~ "Department" means the Department of Business and Professional Regulation.

(6) ~~(3)~~ "Registered landscape architect" means a person who holds a license to practice landscape architecture in this state under the authority of this act.

(2) ~~(4)~~ "Certificate of registration" means a license issued by the department to a natural person to engage in the practice of landscape architecture.

~~(5) "Certificate of authorization" means a license issued by the department to a corporation or partnership to engage in~~

~~the practice of landscape architecture.~~

(4) ~~(6)~~ "Landscape architecture" means professional services, including, but not limited to, the following:

(a) Consultation, investigation, research, planning, design, preparation of drawings, specifications, contract documents and reports, responsible construction supervision, or landscape management in connection with the planning and development of land and incidental water areas, including the use of Florida-friendly landscaping as defined in s. 373.185, where, and to the extent that, the dominant purpose of such services or creative works is the preservation, conservation, enhancement, or determination of proper land uses, natural land features, ground cover and plantings, or naturalistic and aesthetic values;

(b) The determination of settings, grounds, and approaches for and the siting of buildings and structures, outdoor areas, or other improvements;

(c) The setting of grades, shaping and contouring of land and water forms, determination of drainage, and provision for storm drainage and irrigation systems where such systems are necessary to the purposes outlined herein; and

(d) The design of such tangible objects and features as are necessary to the purpose outlined herein.

(5) ~~(7)~~ "Landscape design" means consultation for and preparation of planting plans drawn for compensation, including specifications and installation details for plant materials, soil amendments, mulches, edging, gravel, and other similar materials. Such plans may include only recommendations for the conceptual placement of tangible objects for landscape design

projects. Construction documents, details, and specifications for tangible objects and irrigation systems shall be designed or approved by licensed professionals as required by law.

Section 34. Subsection (5) of section 481.321, Florida Statutes, is amended to read:

481.321 Seals; display of certificate number.—

(5) Each registered landscape architect must ~~and each corporation or partnership holding a certificate of authorization shall~~ include her or his ~~its~~ certificate number in any newspaper, telephone directory, or other advertising medium used by the registered landscape architect, corporation, or partnership. A corporation or partnership must ~~is not required to~~ display the certificate number ~~numbers~~ of at least one officer, director, owner, or partner who is a ~~individual~~ registered landscape architect ~~architects~~ employed by or practicing with the corporation or partnership.

Section 35. Subsection (4) of section 481.311, Florida Statutes, is amended to read:

481.311 Licensure.—

~~(4) The board shall certify as qualified for a certificate of authorization any applicant corporation or partnership who satisfies the requirements of s. 481.319.~~

Section 36. Subsection (2) of section 481.317, Florida Statutes, is amended to read:

481.317 Temporary certificates.—

~~(2) Upon approval by the board and payment of the fee set in s. 481.307, the department shall grant a temporary certificate of authorization for work on one specified project in this state for a period not to exceed 1 year to an out-of-~~

~~state corporation, partnership, or firm, provided one of the principal officers of the corporation, one of the partners of the partnership, or one of the principals in the fictitiously named firm has obtained a temporary certificate of registration in accordance with subsection (1).~~

Section 37. Section 481.319, Florida Statutes, is amended to read:

481.319 Corporate and partnership practice of landscape architecture~~; certificate of authorization~~.—

(1) The practice of or offer to practice landscape architecture by registered landscape architects registered under this part through a corporation or partnership offering landscape architectural services to the public, or through a corporation or partnership offering landscape architectural services to the public through individual registered landscape architects as agents, employees, officers, or partners, is permitted, subject to the provisions of this section, if:

(a) One or more of the principal officers of the corporation, or partners of the partnership, and all personnel of the corporation or partnership who act in its behalf as landscape architects in this state are registered landscape architects; and

(b) One or more of the officers, one or more of the directors, one or more of the owners of the corporation, or one or more of the partners of the partnership is a registered landscape architect~~; and~~

~~(c) The corporation or partnership has been issued a certificate of authorization by the board as provided herein~~.

(2) All documents involving the practice of landscape

architecture which are prepared for the use of the corporation or partnership shall bear the signature and seal of a registered landscape architect.

(3) A landscape architect applying to practice in the name of a ~~An applicant~~ corporation must ~~shall~~ file with the department the names and addresses of all officers and board members of the corporation, including the principal officer or officers, duly registered to practice landscape architecture in this state and, also, of all individuals duly registered to practice landscape architecture in this state who shall be in responsible charge of the practice of landscape architecture by the corporation in this state. A landscape architect applying to practice in the name of a ~~An applicant~~ partnership must ~~shall~~ file with the department the names and addresses of all partners of the partnership, including the partner or partners duly registered to practice landscape architecture in this state and, also, of an individual or individuals duly registered to practice landscape architecture in this state who shall be in responsible charge of the practice of landscape architecture by said partnership in this state.

(4) Each landscape architect qualifying a partnership or ~~and~~ corporation ~~licensed~~ under this part must ~~shall~~ notify the department within 1 month of any change in the information contained in the application upon which the license is based. Any landscape architect who terminates her or his ~~or her~~ employment with a partnership or corporation licensed under this part shall notify the department of the termination within 1 month.

(5) ~~Disciplinary action against a corporation or~~

~~partnership shall be administered in the same manner and on the same grounds as disciplinary action against a registered landscape architect.~~

~~(6)~~ Except as provided in s. 558.0035, the fact that a registered landscape architect practices landscape architecture through a corporation or partnership as provided in this section does not relieve the landscape architect from personal liability for her or his ~~or her~~ professional acts.

Section 38. Subsection (5) of section 481.329, Florida Statutes, is amended to read:

481.329 Exceptions; exemptions from licensure.—

(5) This part does not prohibit any person from engaging in the practice of landscape design, as defined in s. 481.303(5) ~~s. 481.303(7)~~, or from submitting for approval to a governmental agency planting plans that are independent of, or a component of, construction documents that are prepared by a Florida-registered professional. Persons providing landscape design services shall not use the title, term, or designation "landscape architect," "landscape architectural," "landscape architecture," "L.A.," "landscape engineering," or any description tending to convey the impression that she or he is a landscape architect unless she or he is registered as provided in this part.

Section 39. Subsection (14) of section 489.503, Florida Statutes, is amended, and subsection (24) is added to that section, to read:

489.503 Exemptions.—This part does not apply to:

(14) The sale of, installation of, repair of, alteration of, addition to, or design of electrical wiring, fixtures,

appliances, thermostats, apparatus, raceways, computers, customer premises equipment, customer premises wiring, and conduit, or any part thereof, ~~by an employee, contractor, subcontractor, or affiliate of a company operating under a certificate issued under chapter 364 or chapter 610, or under a local franchise or right-of-way agreement,~~ if those items are for the purpose of transmitting data, voice, video, or other communications, or commands as part of a cable television, community antenna television, radio distribution, communications, or telecommunications system. An employee, subcontractor, contractor, or affiliate of a company that operates under a certificate issued under chapter 364 or chapter 610, or under a local franchise or right-of-way agreement, is not subject to any local ordinance that requires a permit for work related to low-voltage electrical work, including related technical codes, regulations, and licensure. The scope of this exemption is limited to electrical circuits and equipment governed by the applicable provisions of Articles 725 (Classes 2 and 3 circuits only), 770, 800, 810, and 820 of the National Electrical Code, current edition, or 47 C.F.R. part 68~~, and employees, contractors, and subcontractors of companies, and affiliates thereof, operating under a certificate issued under chapter 364 or chapter 610 or under a local franchise or right-of-way agreement~~. This subsection does not relieve any person from licensure as an alarm system contractor.

(24) A person who installs low-voltage landscape lighting that contains a factory-installed electrical cord with a plug and does not require installation, wiring, or a modification to the electrical wiring in a structure.

Section 40. Present paragraphs (a) through (e) of subsection (2) of section 489.518, Florida Statutes, are redesignated as paragraphs (b) through (f), respectively, and a new paragraph (a) is added to that subsection, to read:

489.518 Alarm system agents.—

(2)(a) A person who performs only sales or installations of wireless alarm systems, other than fire alarm systems, in a single-family residence is not required to complete the initial training required for burglar alarm system agents.

Section 41. This act shall take effect July 1, 2016.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1052 (510850)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on General Government); Environmental Preservation and Conservation Committee; and Senator Hays
SUBJECT:	Environmental Control
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Hinton	Rogers	EP	**Fav/CS**
2.	Howard	DeLoach	AGG	**Recommend: Fav/CS**
3.	Howard	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1052:

- Revises the number of letters required to provide proof of the length of time an applicant wishing to take the water well contractor licensure examination has been engaged in the business of the construction, repair, or abandonment of water wells from two letters to one letter.
- Exempts constructed clay settling areas at phosphate mines from rate of reclamation and financial assurance requirements where its beneficial use has been extended until the beneficial use of the area is completed.
- Allows land set-asides and land use modifications not otherwise required by state law or permit to be used to generate credits for water quality credit trading.
- Modifies the prohibition against granting variances that would result in the provision or requirement being less stringent than federal law. It authorizes moderating provisions or requirements under state law, subject to any necessary approval by the U.S. Environmental Protection Agency.
- Deletes the July 1, 2016, expiration date for the solid waste landfill closure account within the Solid Waste Management Trust Fund within the Department of Environmental Protection (DEP).
- Allows the DEP to use funds from the solid waste landfill closure account to pay for or reimburse additional expenses needed to perform or complete the facility closure or long-

term care activities if funds under the insurance policy or alternative forms of financial assurance are insufficient for these activities.
- Modifies conditions necessary for the DEP to use funds from the solid waste landfill closure account for the closing and long-term care of solid waste management facilities.
- Allows construction of a stormwater management system to proceed without any further agency action by the DEP or water management district (WMD) if, before construction begins, an electronic self-certification is submitted to the DEP or the WMD which certifies that the proposed system was designed by a Florida registered professional and that the registered professional has certified that the proposed system meets all statutory requirements.
- Requires the stormwater management system to be designed, operated, and maintained in accordance with applicable rules adopted pursuant to part IV of chapter 373, F.S.

There is a significant indeterminate fiscal impact to state funds related to solid waste facility closures or long-term care activities. The bill provides an effective date of July 1, 2016.

II. Present Situation:

Water Well Contractor Licenses

Section 373.336, F.S., provides that it is unlawful for any person to construct, repair, or abandon a water well, or operate drilling equipment for those purposes unless that person is employed by or under the supervision of a licensed water well contractor, subject to certain exemptions detailed in s. 373.326, F.S. Each person who engages in the business of a water well contractor must obtain a license from a water management district (WMD).[1] Persons must submit an application to the WMD in which they reside or in which his or her principal place of business is located.[2] In order to take the licensure exam, an applicant must be 18 years old; have at least two years of experience in constructing, repairing, or abandoning water wells; complete an application form; and pay a nonrefundable fee.[3]

To provide evidence that an applicant has at least two years of experience in constructing, repairing, or abandoning water wells, an applicant must submit a letter from a water well contactor and a letter from a water well inspector employed by a governmental agency. An applicant must also submit a list of at least ten water wells that the applicant has constructed, repaired, or abandoned within the preceding five years.[4]

Clay Settling Areas

In Florida, phosphate mining occurs primarily in central Florida. There are 27 phosphate mines in the state covering more than 491,900 acres.[5] The Florida Legislature requires the reclamation of lands mined for phosphate after July 1, 1975. Reclamation standards for phosphate lands include contouring to safe slopes, providing for acceptable water quality and quantity,

vegetation, and the return of wetlands to pre-mining type, nature, function, and acreage.[6] A byproduct of phosphate mining is clay, which is deposited in impoundment areas to allow additional settling of the clays.[7] Mining areas must be reclaimed after the completion of mining operations.[8] Reclamation of mining areas must be completed according to a schedule detailed in s. 379.209, F.S. If a mining operator cannot comply with the schedule, the operator must post one or more of several forms of security.[9]

The Department of Environmental Protection (DEP) has encouraged prolonged use of clay settling areas in order to minimize the total acreage used for settling, reduce reclamation delays in areas of the mine that are not used for clay settling, and reduce the number of dams that need to be built. Changes in mining practices to utilize clay-settling areas for longer periods of time have resulted in delays in reclamation of those areas, which has triggered the requirement for operators to post the required financial assurance.[10]

Water Quality Credit Trading

Water quality credit trading provides a potentially less costly option for meeting the pollution limits for an impaired waterbody. It is a voluntary, market-based approach for reducing pollution to Florida's impaired rivers, lakes, streams, and estuaries.[11]

The underlying theory is that achieving pollution abatement at the lowest incremental cost at each additional increment reduced is the most cost effective means to achieve pollution abatement. Trading is based on the premise that different dischargers of a pollutant in a watershed can face substantially different costs to control that pollutant. Trading allows pollutant reduction activities to be valued in the form of credits that can then be traded on a local market to promote cost-effective water quality improvements.[12] Water quality credits are generated when a discharger reduces its loading of a given pollutant below the load allowable for the discharger.[13] Financial savings accrue to parties that buy credits (pollutant reductions) from others for less than the cost of implementing the reductions themselves. Those that sell credits will do so only if the value of the trade is equal to or higher than their investment in the facilities or activities necessary to achieve the pollutant reductions.[14]

[14] DEP, *The Pilot Water Quality Credit Trading Program for the Lower St. Johns River: A Report to the Governor and Legislature*, 2 (Oct. 2010), *available at* http://www.dep.state.fl.us/water/wqssp/docs/WaterQualityCreditReport-101410.pdf (last visited Jan. 14, 2016). *See also* Fla. Admin. Code R. 62-306, for rules pertaining to water quality credit trading in Florida.

Water quality credit trading can accelerate cleanup because potentially unaffordable costs for individual dischargers can be reduced and cooperative relationships built through trading agreements that foster shared responsibility and commitment. Trading can also accommodate new growth, including new pollutant loadings from urban stormwater, and domestic and industrial wastewater discharges. It offers the possibility for the owners of potential new or increased discharges to purchase credits from existing dischargers so that overall pollutant loads to a watershed are not increased and water quality is preserved.[15]

Pursuant to Florida Administrative Code Rule 60-306.400(1), activities that are potentially eligible to generate credits include, but are not limited to:

- Installation or modification of water pollution control equipment or activities that are not required to meet pollution control obligations that reduce nutrient loads below those required;
- Operational changes or the modification of a process or process equipment that reduce the quantity of water discharged through reuse, recycling, water conservation, or other measures and thereby reduce the load of nutrient discharged;
- Implementation of structural nonpoint source management controls;
- Installation, operation and maintenance of new drainage projects designed to treat stormwater;
- Implementation by agricultural operations of soil or water treatment technologies or water-quality enhancing production practices or systems that are confirmed in writing the Department of Agriculture and Consumer Services;
- Other pollution controls, technologies or management practices with a demonstrated ability to reduce nutrient loads below those required; and
- A documented change in land use that goes beyond normal crop rotations or other standard agronomic practices that results in a reduction of nutrient loads below those required.

Variances

The Florida Air and Water Pollution Control Act was enacted in 1967.[16] The legislative declaration states in part that, "[t]he pollution of the air and waters of this state constitute a menace to the public health and welfare; create public nuisances; is harmful to wildlife and fish and other aquatic life; and impairs domestic, agricultural, industrial, recreational, and other beneficial uses of the air and water."[17]

Section 403.201, F.S., allows the DEP to grant a variance from provisions of the act or adopted rules and regulations. A variance may be granted for one of the following reasons:

- There is no practicable means known or available for the adequate control of the pollution.
- Compliance with the requirements of the variance will require extensive cost and time, therefore, a variance may be issued with a timetable for the actions required.

[15] *Id.*
[16] Chapter 67-436, Laws of Fla.
[17] Section 403.021(1), F.S.

- To relieve or prevent hardship. The variances granted under this provision are limited to 24 months. A variance granted for electrical power plant and transmission line siting, as described in Part II of ch. 403, F.S., may be granted for the life of the permit.[18]

The State of Florida is granted authority from the federal government to administer programs such as the CWA, governing water pollution, and the Resource Conservation and Recovery Act (RCRA), governing hazardous waste management. "The most important feature of authorization is the State's agreement to issue permits that conform to the regulatory requirements of the law, to inspect and monitor activities subject to regulation, to take appropriate enforcement action against violators and to do so in a manner no less stringent than the Federal program."[19] Therefore, Florida Statutes prohibit any variance for the discharge of waste into state waters or for hazardous waste management that would result in the requirement being less stringent than an applicable federal requirement. However, research, development, and demonstration permits under s. 403.70715, F.S., are exempt from this provision.[20]

Relief mechanisms may be included in a permit when the natural conditions for the impacted area results in limits that exceed what is authorized in the permit. The relief mechanisms include:
- A site specific alternative criteria for each water quality criteria;
- A variance or exemption for each water quality criteria;
- A variance or exemption for a public water system from the maximum contaminant level or treatments techniques;
- A variance from other permitting standards or conditions; or
- A major or minor exemption for an aquifer.[21]

Solid Waste Management Trust Fund

Section 403.709, F.S., creates the Solid Waste Management Trust Fund (SWMTF) to fund solid waste management activities. Funds deposited in the SWMTF include penalties for littering,[22] waste tire fees,[23] and oil related fees, fines and penalties.[24] The DEP must allocate funds deposited in the SWMTF in the following manner:
- Up to 40 percent for funding solid waste activities of the DEP and other state agencies, such as providing technical assistance to local governments and the private sector, performing solid waste regulatory and enforcement functions, preparing solid waste documents, and implementing solid waste education programs;
- Up to 4.5 percent for funding research and training programs relating to solid waste management through the Center for Solid and Hazardous Waste Management;
- Up to 14 percent to use for funding to supplement any other funds provided to the Department of Agriculture and Consumer Services for mosquito control;

[18] Section 403.201(1)(a)-(c), F.S.

[22] Section 403.413(6)(a), F.S.
[23] Section 403.718(2), F.S.
[24] Section 403.759, F.S.

- Up to 4.5 percent for funding to the Department of Transportation for litter prevention and control programs through a certified Keep America Beautiful Affiliate at the local level; and
- A minimum of 37 percent for funding a solid waste management grant program pursuant to s. 403.7095, F.S., for activities relating to recycling and waste reduction, including waste tires requiring final disposal.[25]

Landfill Closure

The DEP is responsible for implementing and enforcing the state solid waste management program, which provides guidelines for the storage, separation, processing, recovery, recycling, and disposal of solid waste.[26] Counties are responsible for operating solid waste disposal facilities, which are permitted by the DEP, in order to meet the needs of incorporated and unincorporated areas of the county.[27]

Florida Administrative Code Chapters 62-701 through 62-722 establish standards for the construction, operations, and closure of solid waste management facilities.[28] Landfills or solid waste disposal sites that close require a closure permit issued by the DEP or a closure plan approved by the DEP. The closure plan includes:

- A closure design plan;
- A closure operation plan;
- A long-term care plan; and
- A demonstration that proof of financial assurance for long-term care will be provided.[29]

Every owner or operator of a landfill is liable for the improper operation and closure of a landfill.[30] The owner or operator of a landfill owned or operated by a local or state government or the Federal Government is required to establish a fee, a surcharge on existing fees, or other appropriate revenue-producing mechanism, to ensure the availability of financial resources for the proper closure of the landfill.[31]

Operators of solid waste disposal units must receive a closure permit to close a landfill.[32] Solid waste disposal units must close within 180 days after they cease receiving waste, or within the time frame set forth in the facility's approved closure plan.[33]

These facilities must also perform long-term care for 30 years.[34] This includes monitoring and maintaining the integrity and effectiveness of the final cover, controlling erosion, filling

[34] Fla. Admin. Code R. 62-701.620(1)

subsidences, complying with a water quality monitoring plan, maintaining a leachate collection system, measuring the volumes of leachate removed, and maintaining a stormwater system.[35]

Section 403.709(5), F.S., creates a solid waste landfill closure account within the SWMTF to provide funds for the closing and long-term care of solid waste management facilities. The closure account receives funds from insurance certificates provided as proof of financial assurance. The DEP may use those funds to contract with a third party for the closing and long-term care of a solid waste management facility if:

- The facility has or had a DEP permit to operate the facility;
- The permittee provided proof of financial assurance for closure in the form of an insurance certificate;
- The facility is deemed to be abandoned or was ordered to close by the DEP;
- Closure is accomplished in substantial accordance with a closure plan approved by the DEP; and
- The DEP has written documentation that the insurance company issuing a closure insurance policy will provide or reimburse the funds required to complete closing and long-term care of the facility.

The closure account was created within the implementing bill for the 2015-2016 General Appropriations Act, Chapter 2015-222, Laws of Florida, and will expire July 1, 2016.[36]

The DEP provides that in cases where there is a viable insurance policy provided for the purposes of financial assurance, the contractor or the DEP can be reimbursed by the insurance company for the allowable closure costs covered by the financial assurance related insurance policy. Currently, there are five solid waste management facilities that are covered by insurance policies and require closure work by contractors to minimize adverse environmental impacts.[37]

General Permits

A general permit is granted for the construction, alteration, and maintenance of a stormwater management system serving a total project area of up to 10 acres.[38] When the stormwater management system is designed, operated, and maintained in accordance with applicable rules adopted pursuant to part IV of chapter 373, F.S., there is a rebuttable presumption that the discharge for such system will comply with state water quality standards. The construction of such a system may proceed without any further agency action by the DEP or water management district if, within 30 days after construction begins, an electronic self-certification is submitted to the DEP or applicable WMD that certifies the proposed system was designed by a Florida registered professional to meet the following requirements:

- The total project area involves less than 10 acres and less than two acres of impervious surface;
- No activities will impact wetlands or other surface waters;

[35] *Id.*
[36] Ch. 2015-222, s. 53, Laws of Fla.
[37] DEP, *House Bill 589 Agency Analysis* (Jan. 4, 2016) (on file with the Senate Committee on Environmental Preservation and Conservation).
[38] Section 403.814, F.S.

- No activities are conducted in, on, or over wetlands or other surface waters;
- Drainage facilities will not include pipes having diameters greater than 24 inches, or the hydraulic equivalent, and will not use pumps in any manner;
- The project is not part of a larger common plan, development, or sale; and
- The project does not:
  - Cause adverse water quantity or flooding impacts to receiving water and adjacent lands;
  - Cause adverse impacts to existing surface water storage and conveyance capabilities;
  - Cause a violation of state water quality standards; or
  - Cause an adverse impact to the maintenance of surface or ground water levels or surface water flows established pursuant to s. 373.042, F.S., or a work of the district established pursuant to s. 373.086, F.S.

III. Effect of Proposed Changes:

Section 1 amends s. 373.323, F.S., to change the number of letters attesting to the length of time an applicant wishing to take the water well contractor licensure examination has been engaged in the business of the construction, repair, or abandonment of water wells. The bill requires a letter from a water well contractor or a letter from a water well inspector employed by a governmental agency, rather than letters from both.

Section 2 amends s. 378.209, F.S., to provide that when the beneficial use of a clay settling area has been extended, the rate of reclamation requirements and financial assurance requirements for phosphate mines do not become applicable until the beneficial use of the settling area is completed.

Section 3 amends s. 403.067, F.S., to allow the Department of Environmental Protection (DEP) to authorize the generation of credits for water quality credit trading for land set-asides and land-use modifications, including constructed wetlands and other water quality improvement projects, which reduce nutrient loads into nutrient-impaired surface waters. The DEP provides that it already has this authority and has adopted rules that allow such trades.[39]

Section 4 amends s. 403.201, F.S., to modify the prohibition against granting a variance that would result in a provision or requirement being less stringent than federal law. The bill authorizes moderating provisions or requirements, subject to any necessary approval by the United States Environmental Protection Agency.

Section 5 amends s. 403.709, F.S., to delete the July 1, 2016, expiration date for the solid waste landfill closure account within the Solid Waste Management Trust Fund. The bill allows the DEP to use funds from the solid waste landfill closure account to pay for or reimburse additional expenses needed to perform or complete the approved facility closure or long-term care activities. Funds within the solid waste landfill closure account may be utilized for this purpose, if the amount available under the insurance policy or alternative form of financial assurance is insufficient or otherwise inaccessible to perform or complete the closing or long-term care of the facility, and the DEP has used all of the funds from the insurance policy or alternative form of financial assurance.

[39] *See* Fla. Admin. Code R. 62-306.400.

The bill amends the conditions necessary for the DEP to use funds from the solid waste landfill closure account to contract with a third party for the closing and long-term care of a solid waste management facility. Rather than just requiring that a permittee provided proof of financial assurance for closure in the form of an insurance certificate, the permittee must have provided proof of financial assurance when required by permit or rule and, rather than just requiring an insurance certificate, the permittee may have also provided an alternative form of financial assurance mechanism established pursuant to s. 403.7125, F.S.

Section 6 amends s. 403.814, F.S., to require, stormwater management systems to be designed, operated, and maintained in accordance with applicable rules adopted pursuant to ch. 373, part IV, F.S. The bill changes the requirement for the timing of the submittal of an electronic self-certification from within 30 days after construction starts to before construction starts. As part of the self-certification submitted to the DEP or a WMD, the bill specifies that a Florida registered professional must certify that the proposed system will meet the specified requirements in addition to any requirements in part IV of ch. 373, F.S.

Section 7 reenacts s. 373.414(17), F.S., due to changes made by the bill.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

PCS/CS/SB 1052 may have a positive indeterminate fiscal impact on phosphate mine operators by exempting them from the financial assurance requirements concerning the reclamation of a clay settling area when its beneficial use has been extended, until its beneficial use has been completed.

C. Government Sector Impact:

The Department of Environmental Protection (DEP) has requested $1,000,000 from the Solid Waste Management Trust Fund in their Fiscal Year 2016-2017 Legislative Budget Request to cover costs for closure and long-term care of facilities. The Senate has included this issue in SB 2500, the Fiscal Year 2016-2017 General Appropriations Bill.

The bill has no other fiscal impact to the DEP.

VI. Technical Deficiencies:

None.

VII. Related Issues:

The bill provides that if insufficient funds exist from the insurance policy or alternative forms of financial assurance, the Department of Environmental Protection (DEP) may use funds from the solid waste landfill closure account to cover costs. This language needs to be modified to provide that if insufficient funds exists, the DEP may use funds from the Solid Waste Management Trust Fund. The solid waste landfill closure account is only authorized to contain insurance policy funding or alternative forms of financial assurance.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 373.323, 378.209, 403.067, 403.201, 403.709, and 403.814.

This bill reenacts 373.414 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on General Government on February 11, 2016:
The committee substitute:

- Removes language that provided incentives for water conservation by limiting the conditions under which a water management district (WMD) may lower allocations in consumptive use permits (CUPs) and directing the WMDs to adopt rule providing water conservation incentives;
- Removes language that makes revisions for certain membership qualifications for the Harris Chain of Lakes Restoration Council and authorization for the Lake County legislative delegation to waive membership qualifications based on good cause;
- Removes the requirement for the Department of Environmental Protection (DEP) to adopt by rule a surface water classification to protect surface waters used for treated potable water supply and to add treated potable waters supply as a designated use of surface water segments in certain circumstances;

- Removes prerequisites for the institution of flow control ordinances by local governments;
- Removes language prohibiting local governments from implementing flow control ordinances that would direct solid waste to a landfill gas-to-energy system of facility;
- Allows construction of a stormwater management system to proceed without any further agency action by the DEP or the WMD if, before construction begins, an electronic self-certification is submitted to the DEP or the WMD that certifies that the proposed system was designed by a Florida registered professional, and that the registered professional has certified that the proposed system meets all statutory requirements;
- Adds language that in order for the DEP to contract for the closing and long-term care of a solid waste management facility, a permittee must have shown proof of financial assurance which can include an alternative form of financial assurance mechanism in addition to an insurance certificate;
- The bill allows the DEP to use funds from the solid waste landfill closure account to pay for or reimburse additional expenses needed to perform or complete the approved facility closure or long-term care activities if the amount available under the insurance policy or alternative form of financial assurance is insufficient or otherwise inaccessible to perform or complete the facility closing or long-term care of the facility;
- Removes the appropriation from the Solid Waste Management Trust Fund in Fiscal Year 2016-2017 for the closure and long-term care of solid waste management facilities; and
- Requires, rather than encourages, the stormwater management system to be designed, operated, and maintained in accordance with applicable rules adopted pursuant to part IV of chapter 373, F.S.

CS by Environmental Preservation and Conservation on January 20, 2016:
For constructed clay settling areas, the CS provides that if the beneficial use of a clay settling area has been extended, the rate of reclamation and financial assurance requirements do not become applicable until the beneficial use of the area is completed.

Section 403.709, F.S., establishes the solid waste landfill closure account within the Solid Waste Management Trust Fund. The subsection establishing the account expires July 1, 2016. The CS removes the sunset provision.

B. Amendments:

None.

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on General Government)

A bill to be entitled

An act relating to environmental control; amending s. 373.323, F.S.; revising eligibility requirements for taking the water well contractor licensure examination; amending s. 378.209, F.S.; exempting certain constructed clay settling areas from reclamation rate and financial responsibility requirements; amending s. 403.067, F.S.; authorizing the use of land set-asides and land use modifications in water quality credit trading; amending s. 403.201, F.S.; providing applicability of prohibited variances concerning discharges of waste into waters of the state and hazardous waste management; amending s. 403.709, F.S.; establishing a solid waste landfill closure account within the Solid Waste Management Trust Fund to provide funding for the closing and long-term care of solid waste facilities; authorizing the department to contract with a third party for such closing and long-term care under certain conditions; requiring the department to deposit certain funds in the solid waste landfill closure account; authorizing the department to use funds from the solid waste landfill closure account to pay for facility closing and long-term care under certain circumstances; deleting an expiration date; amending s. 403.814, F.S.; requiring that a Florida registered professional certify that certain projects meet additional

510850

576-03419-16

requirements; requiring such certification to be submitted to the department before, rather than after, construction of a stormwater management system begins; reenacting s. 373.414(17), F.S., relating to variances for activities in surface waters and wetlands, to incorporate the amendment made by the act to s. 403.201, F.S., in a reference thereto; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (b) of subsection (3) of section 373.323, Florida Statutes, is amended to read:

373.323 Licensure of water well contractors; application, qualifications, and examinations; equipment identification.—

(3) An applicant who meets the following requirements shall be entitled to take the water well contractor licensure examination:

(b) Has at least 2 years of experience in constructing, repairing, or abandoning water wells. Satisfactory proof of such experience shall be demonstrated by providing:

1. Evidence of the length of time the applicant has been engaged in the business of the construction, repair, or abandonment of water wells as a major activity, as attested to by a letter from a water well contractor or ~~and~~ a letter from a water well inspector employed by a governmental agency.

2. A list of at least 10 water wells that the applicant has constructed, repaired, or abandoned within the preceding 5 years. Of these wells, at least seven must have been

constructed, as defined in s. 373.303(2), by the applicant. The list shall also include:

a. The name and address of the owner or owners of each well.

b. The location, primary use, and approximate depth and diameter of each well that the applicant has constructed, repaired, or abandoned.

c. The approximate date the construction, repair, or abandonment of each well was completed.

Section 2. Subsection (4) is added to section 378.209, Florida Statutes, to read:

378.209 Timing of reclamation.—

(4) When the beneficial use of a constructed clay settling area has been extended, the rate of reclamation requirements in paragraphs (1)(a)-(e) and the requirements of s. 378.208 apply to such settling area when the beneficial use of such settling area is completed.

Section 3. Paragraph (i) is added to subsection (8) of section 403.067, Florida Statutes, to read:

403.067 Establishment and implementation of total maximum daily loads.—

(8) WATER QUALITY CREDIT TRADING.—

(i) Land set-asides and land use modifications not otherwise required by state law or a permit, including constructed wetlands or other water quality improvement projects, which reduce nutrient loads into nutrient impaired surface waters may be used under this subsection.

Section 4. Subsection (2) of section 403.201, Florida Statutes, is amended to read:

403.201 Variances.—

(2) A ~~No~~ variance may not ~~shall~~ be granted from any provision or requirement concerning discharges of waste into waters of the state or hazardous waste management which would result in the provision or requirement being less stringent than a comparable federal provision or requirement, except as provided in s. 403.70715. However, this subsection does not prohibit the issuance of moderating provisions or requirements under state law, subject to any necessary approval by the United States Environmental Protection Agency.

Section 5. Present subsections (2) through (4) of section 403.709, Florida Statutes, are redesignated as subsections (3) through (5), respectively, and present subsection (5) is amended, to read:

403.709 Solid Waste Management Trust Fund; use of waste tire fees.—There is created the Solid Waste Management Trust Fund, to be administered by the department.

(2)~~(5)(a)~~ Notwithstanding subsection (1), a solid waste landfill closure account is established within the Solid Waste Management Trust Fund to provide funding for the closing and long-term care of solid waste management facilities.

(a) The department may use funds from the account to contract with a third party for the closing and long-term care of a solid waste management facility if:

1. The facility has, ~~or~~ had, or was not required to obtain a department permit to operate as a solid waste management ~~the~~ facility;

2. The permittee, when required by permit or rule, provided proof of financial assurance for closure in the form of an

insurance certificate or an alternative form of financial assurance mechanism established pursuant to s. 403.7125;

3. The department has ordered the facility closed or has deemed the facility abandoned ~~facility is deemed to be abandoned or was ordered to close by the department~~;

4. The closure of the facility is accomplished in substantial accordance with a closure plan approved by the department; and

5. The department has sufficient ~~written~~ documentation to confirm that the issuer of ~~insurance company issuing~~ the closure insurance policy or alternative form of financial assurance will provide or reimburse the funds required to complete closing and long-term care of the facility.

(b) The department shall deposit all ~~the~~ funds received from the insurer or other parties for reimbursing ~~insurance company as reimbursement for~~ the costs of closing or long-term care of the facility into the solid waste landfill closure account.

(c) If the amount available under the insurance policy or alternative form of financial assurance is insufficient or is otherwise inaccessible to perform or complete the facility closing or long-term care under this subsection and the department has used all such funds from the insurance policy or alternative form of financial assurance, the department may use funds from the solid waste landfill closure account to pay for or reimburse additional expenses needed to perform or complete the approved facility closure or long-term care activities ~~This subsection expires July 1, 2016~~.

Section 6. Subsection (12) of section 403.814, Florida

Statutes, is amended to read:

403.814 General permits; delegation.—

(12) A general permit is granted for the construction, alteration, and maintenance of a stormwater management system serving a total project area of up to 10 acres meeting the criteria of this subsection. Such ~~When the~~ stormwater management systems must be ~~system is~~ designed, operated, and maintained in accordance with applicable rules adopted pursuant to part IV of chapter 373.~~,~~ There is a rebuttable presumption that the discharge from ~~for~~ such systems complies ~~system will comply~~ with state water quality standards. The construction of such a system may proceed without any further agency action by the department or water management district if, before ~~within 30 days after~~ construction begins, an electronic self-certification is submitted to the department or water management district which ~~that~~ certifies that the proposed system was designed by a Florida registered professional, and that the registered professional has certified that the proposed system will ~~to~~ meet the following additional requirements:

(a) The total project area involves less than 10 acres and less than 2 acres of impervious surface;

(b) No activities will impact wetlands or other surface waters;

(c) No activities are conducted in, on, or over wetlands or other surface waters;

(d) Drainage facilities will not include pipes having diameters greater than 24 inches, or the hydraulic equivalent, and will not use pumps in any manner;

(e) The project is not part of a larger common plan,

development, or sale; and

(f) The project does not:

1. Cause adverse water quantity or flooding impacts to receiving water and adjacent lands;

2. Cause adverse impacts to existing surface water storage and conveyance capabilities;

3. Cause a violation of state water quality standards; or

4. Cause an adverse impact to the maintenance of surface or ground water levels or surface water flows established pursuant to s. 373.042 or a work of the district established pursuant to s. 373.086.

Section 7. For the purpose of incorporating the amendment made by this act to section 403.201, Florida Statutes, in a reference thereto, subsection (17) of section 373.414, Florida Statutes, is reenacted to read:

373.414 Additional criteria for activities in surface waters and wetlands.—

(17) The variance provisions of s. 403.201 are applicable to the provisions of this section or any rule adopted pursuant to this section. The governing boards and the department are authorized to review and take final agency action on petitions requesting such variances for those activities they regulate under this part and s. 373.4145.

Section 8. This act shall take effect upon becoming a law.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1052
INTRODUCER:	Environmental Preservation and Conservation Committee and Senator Hays
SUBJECT:	Environmental Control
DATE:	February 24, 2016 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Hinton	Rogers	EP	**Fav/CS**
2.	Howard	DeLoach	AGG	**Recommend: Fav/CS**
3.	Howard	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1052:

- Provides incentives for water conservation by limiting the conditions under which a water management district (WMD) may lower allocations in consumptive use permits (CUPs), and directs the WMDs to adopt rules providing water conservation incentives, including limited permit extensions.
- Revises the number of letters required to provide proof of the length of time an applicant wishing to take the water well contractor licensure examination has been engaged in the business of the construction, repair, or abandonment of water wells from two letters to one letter.
- Revises certain membership qualifications for the Harris Chain of Lakes Restoration Council and authorizes the Lake County legislative delegation to waive membership qualifications based on good cause.
- Requires the WMDs to promote expanded cost-share criteria for additional conservation practices.
- Exempts constructed clay settling areas at phosphate mines from rate of reclamation and financial assurance requirements where its beneficial use has been extended until the beneficial use of the area is completed.
- Requires the Department of Environmental Protection (DEP) to adopt by rule a surface water classification to protect surface waters used for treated potable water supply and to add treated potable waters supply as a designated use of surface water segments in certain circumstances.

- Allows land set-asides and land use modifications not otherwise required by state law or permit to be used to generate credits for water quality credit trading.
- Modifies the prohibition against granting variances that would result in the provision or requirement being less stringent than federal law. It authorizes moderating provisions or requirements under state law, subject to any necessary approval by the U.S. Environmental Protection Agency.
- Deletes the July 1, 2016, expiration date for the solid waste landfill closure account within the Solid Waste Management Trust Fund within the DEP.
- Revises prerequisites for the institution of flow control ordinances by local governments.
- Provides that local governments may not implement flow control ordinances that would direct solid waste to a landfill gas-to-energy system of facility.

The bill provides a nonrecurring appropriation for Fiscal Year 2016-2017 of $2,339,764 from the Solid Waste Management Trust Fund for the closure and long-term care of solid waste management facilities.

The bill provides an effective date of July 1, 2016.

II. Present Situation:

Water Conservation and Consumptive Use Permitting

A consumptive use permit (CUP) establishes the duration and type of water use as well as the maximum amount of water that may be withdrawn daily. Pursuant to s. 373.219, F.S., each CUP must be consistent with the objectives of the issuing water management district (WMD) or the Department of Environmental Protection (DEP) and may not be harmful to the water resources of the area. To obtain a CUP, an applicant must establish that the proposed use of water satisfies the statutory test, commonly referred to as "the three-prong test." Specifically, the proposed water use must:

- Be a "reasonable-beneficial use";[1]
- Not interfere with any presently existing legal use of water; and
- Be consistent with the public interest.[2]

Applicants may receive a CUP with duration of 20 years if there is sufficient data to provide reasonable assurance that the conditions for permit issuance will be met for the duration of the permit. Otherwise, the WMD or the DEP may issue a CUP for a shorter duration which reflects the period for which such reasonable assurances can be provided.[3]

When a CUP is issued for a 20-year duration, a WMD or the DEP may require the permittee to provide a compliance report every 10 years during the term of the permit to maintain reasonable

[1] Section 373.019(16), F.S., defines reasonable-beneficial use as, "the use of water in such quantity as is necessary for economic and efficient utilization for a purpose and in a manner which is both reasonable and consistent with the public interest." *See also* Fla. Admin. Code R. 62-40.410(2) for additional factors to help determine if a water use is a reasonable-beneficial use.
[2] Section 373.223, F.S.
[3] Section 373.236, F.S.

assurance that the conditions of the CUP are being met.[4] Following review of a compliance report, the WMD or the DEP may modify the CUP to ensure that the use meets the conditions for issuance. Permit modifications resulting from review of the compliance report are not subject to competing applications, provided there is no increase in the permitted allocation or permit duration, and no change in source, except for changes in source requested by the WMD.[5]

In several WMDs, when economic conditions or population growth rates result in the actual water use being less than permitted water use, a modification to reduce the permitted allocation may be made by the WMD only when there is no reasonable likelihood that the allocation will be needed during the permit term.[6] However, in order to incentivize conservation of water, if actual water use is less than permitted water use due to documented implementation of water conservation measures, the WMD may not modify the permitted allocation due to these circumstances during the term of the permit.[7]

In addition, s. 373.227, F.S., requires the DEP, in cooperation with the WMDs, to develop a statewide water conservation program for public water supply that:

- Encourages utilities to implement water conservation programs that are economically efficient, effective, affordable, and appropriate;
- Allows no reduction in, and increase where possible, utility-specific water conservation effectiveness over current programs;
- Is goal-based, accountable, measurable, and implemented collaboratively with water suppliers, water users, and water management agencies;
- Includes cost and benefit data on individual water conservation practices to assist in tailoring practices to be effective for the unique characteristics of particular utility service areas, focusing upon cost-effective measures;
- Uses standardized public water supply conservation definitions and standardized quantitative and qualitative performance measures for an overall system of assessing and benchmarking the effectiveness of water conservation programs and practices;
- Creates a clearinghouse or inventory for water conservation programs and practices available to public water supply utilities;
- Develops a standardized water conservation planning process for utilities; and
- Develops and maintains a Florida-specific water conservation guidance document containing a menu of affordable and effective water conservation practices.[8]

As part of an application for a CUP, a public water supply utility may propose a goal-based water conservation plan that is tailored to its individual circumstances. If the utility provides reasonable assurance that the plan will achieve effective water conservation at least as well as the water conservation requirements adopted by the appropriate WMD, the WMD must approve the plan. The approved plan will satisfy water conservation requirements imposed as a condition of obtaining a CUP.[9]

[9] Section 373.227(4), F.S.

Water Quality Standards (WQSs)

Under s. 303 of the Federal Clean Water Act (CWA), states are incentivized to adopt WQSs for their navigable waters and must review and update those standards at least once every three years.[10] These standards include:

- Designation of a waterbody's beneficial uses, such as water supply, recreation, fish propagation, and navigation;
- Water quality criteria that define the amounts of pollutants, in either numeric or narrative standards, that a waterbody can contain without impairment of the designated beneficial uses; and
- Anti-degradation requirements.[11]

The CWA requires that the surface waters of each state be classified according to their designated uses.[12] Florida has six classes that are arranged in order of the degree of protection required:

- Class I - Potable water supply;
- Class II - Shellfish propagation or harvesting;
- Class III - Fish consumption, recreation, propagation and maintenance of a healthy, well-balanced population of fish and wildlife;
- Class III Limited - Fish consumption, recreation or limited recreation, and/or propagation and maintenance of a limited population of fish and wildlife;
- Class IV - Agricultural water supplies; and
- Class V - Navigation, utility, and industrial use.[13]

Each class has specific water quality criteria that must be met to maintain that classification.[14] Criteria applicable to a classification are designed to maintain the minimum conditions necessary to assure the suitability of water for the designated use of the classification. Activities allowed under a lower classification are allowable when withdrawing water from higher class waters. So, for example, a Class II surface water may also be used for any other use except for Class I purposes.[15]

Reclassification

Reclassification of a waterbody's designated beneficial use can be initiated by the DEP or by petition from another entity. A designation may be upgraded, but there must be credible information showing the existence or attainability of the beneficial use. For example, a waterbody designated as Class III may be upgraded to Class II if there is credible information

[10] 33 U.S.C. s. 1313(b)(1) and (c)(4). If states do not submit water quality standards within a certain time, or if the standards are not consistent with certain requirements, the EPA may step in and establish water quality standards.
[11] 33 U.S.C. s. 1313(c)(2)(A); 40 C.F.R. ss. 131.6 and 131.10-131.12.
[12] 33 U.S.C. s. 1313(c).
[13] Fla. Admin. Code R. 62-302.400.
[14] *See* Fla. Admin. Code R. 62-302.500 and 62-302.530.
[15] Fla. Admin. Code R. 62-302.400(6).

showing that shellfish harvesting and consumption are routinely conducted in the waterbody and that the water quality criteria for Class II is attainable.[16]

For a waterbody to be considered for reclassification as a drinking water source, a petitioner must demonstrate that the water quality meets Class I water quality criteria or can meet those criteria after conventional treatment. Potential influences of reclassification on other users of the waterbody must be evaluated and permitting requirements must also be considered.[17]

Petitions to add a waterbody's designated use as drinking water source should determine if it is an existing use (now or since 1975) or an attainable use. Factors to consider when determining whether the use is an existing use can include the presence of drinking water withdrawals and permits authorizing withdrawal for consumptive use. Factors to consider when determining whether the designation is an attainable use can include proximity to wastewater sources and effects on water quality.[18]

Water Well Contractor Licenses

Section 373.336, F.S., provides that it is unlawful for any person to construct, repair, or abandon a water well, or operate drilling equipment for those purposes unless that person is employed by or under the supervision of a licensed water well contractor, subject to certain exemptions detailed in s. 373.326, F.S. Each person who engages in the business of a water well contractor must obtain a license from a WMD.[19] Persons must submit an application to the WMD in which they reside or in which his or her principal place of business is located.[20] In order to take the licensure exam, an applicant must be 18 years old; have at least two years of experience in constructing, repairing, or abandoning water wells; complete an application form; and pay a nonrefundable fee.[21]

To provide evidence that an applicant has at least two years of experience in constructing, repairing, or abandoning water wells, an applicant must submit a letter from a water well contactor and a letter from a water well inspector employed by a governmental agency. An applicant must also submit a list of at least ten water wells that the applicant has constructed, repaired, or abandoned within the preceding five years.[22]

The Harris Chain of Lakes Restoration Council

The Harris Chain of Lakes is located north and west of the Orlando metropolitan area and is in Lake and Orange counties.[23] It contains tens of thousands of acres of lakes and wetlands and is at the headwaters of the Ocklawaha River.[24] The Harris Chain of Lakes Council was created to:

- Review audits and all data related to lake restoration techniques and sport fish population recovery strategies;
- Evaluate whether additional studies are needed;
- Explore all possible sources of funding to conduct the restoration activities; and
- Report to the President of the Senate and the Speaker of the House of Representatives yearly before November 25 on the progress of the Harris Chain of Lakes restoration program and provide any recommendations for the next fiscal year.[25]

The council consists of nine voting members who are:

- A representative of waterfront property owners;
- A representative of the sport fishing industry;
- An environmental engineer;
- A person with training in biology or another scientific discipline;
- A person with training as an attorney;
- A physician;
- A person with training as an engineer; and
- Two residents of Lake County appointed by the Lake County legislative delegation who do not meet any of the other qualifications for membership on the council.[26]

The council works with an advisory group composed of regional, state, and federal entities.[27]

Clay Settling Areas

In Florida, phosphate mining occurs primarily in central Florida. There are 27 phosphate mines in the state covering more than 491,900 acres.[28] The Florida Legislature requires the reclamation of lands mined for phosphate after July 1, 1975. Reclamation standards for phosphate lands include contouring to safe slopes, providing for acceptable water quality and quantity, vegetation, and the return of wetlands to pre-mining type, nature, function, and acreage.[29] A byproduct of phosphate mining is clay, which is deposited in impoundment areas to allow additional settling of the clays.[30] Mining areas must be reclaimed after the completion of mining operations.[31] Reclamation of mining areas must be completed according to a schedule detailed in

[31] Section 378.209(1), F.S.

s. 379.209, F.S. If a mining operator cannot comply with the schedule, the operator must post one or more of several forms of security.[32]

The DEP has encouraged prolonged use of clay settling areas in order to minimize the total acreage used for settling, reduce reclamation delays in areas of the mine that are not used for clay settling, and reduce the number of dams that need to be built. Changes in mining practices to utilize clay-settling areas for longer periods of time have resulted in delays in reclamation of those areas, which has triggered the requirement for operators to post the required financial assurance.[33]

Water Quality Credit Trading

Water quality credit trading provides a potentially less costly option for meeting the pollution limits for an impaired waterbody. It is a voluntary, market-based approach for reducing pollution to Florida's impaired rivers, lakes, streams, and estuaries.[34]

The underlying theory is that achieving pollution abatement at the lowest incremental cost at each additional increment reduced is the most cost effective means to achieve pollution abatement. Trading is based on the premise that different dischargers of a pollutant in a watershed can face substantially different costs to control that pollutant. Trading allows pollutant reduction activities to be valued in the form of credits that can then be traded on a local market to promote cost-effective water quality improvements.[35] Water quality credits are generated when a discharger reduces its loading of a given pollutant below the load allowable for the discharger.[36] Financial savings accrue to parties that buy credits (pollutant reductions) from others for less than the cost of implementing the reductions themselves. Those that sell credits will do so only if the value of the trade is equal to or higher than their investment in the facilities or activities necessary to achieve the pollutant reductions.[37]

Water quality credit trading can accelerate cleanup because potentially unaffordable costs for individual dischargers can be reduced and cooperative relationships built through trading agreements that foster shared responsibility and commitment. Trading can also accommodate new growth, including new pollutant loadings from urban stormwater, and domestic and industrial wastewater discharges. It offers the possibility for the owners of potential new or

Admin. Code R. 62-306, for rules pertaining to water quality credit trading in Florida.

increased discharges to purchase credits from existing dischargers so that overall pollutant loads to a watershed are not increased and water quality is preserved.[38]

Pursuant to Florida Administrative Code Rule 60-306.400(1), activities that are potentially eligible to generate credits include, but are not limited to:

- Installation or modification of water pollution control equipment or activities that are not required to meet pollution control obligations that reduce nutrient loads below those required;
- Operational changes or the modification of a process or process equipment that reduce the quantity of water discharged through reuse, recycling, water conservation, or other measures and thereby reduce the load of nutrient discharged;
- Implementation of structural nonpoint source management controls;
- Installation, operation and maintenance of new drainage projects designed to treat stormwater;
- Implementation by agricultural operations of soil or water treatment technologies or water-quality enhancing production practices or systems that are confirmed in writing the Department of Agriculture and Consumer Services;
- Other pollution controls, technologies or management practices with a demonstrated ability to reduce nutrient loads below those required; and
- A documented change in land use that goes beyond normal crop rotations or other standard agronomic practices that results in a reduction of nutrient loads below those required.

Variances

The Florida Air and Water Pollution Control Act was enacted in 1967.[39] The legislative declaration states in part that, "[t]he pollution of the air and waters of this state constitute a menace to the public health and welfare; create public nuisances; is harmful to wildlife and fish and other aquatic life; and impairs domestic, agricultural, industrial, recreational, and other beneficial uses of the air and water."[40]

Section 403.201, F.S., allows the DEP to grant a variance from provisions of the act or adopted rules and regulations. A variance may be granted for one of the following reasons:

- There is no practicable means known or available for the adequate control of the pollution.
- Compliance with the requirements of the variance will require extensive cost and time, therefore, a variance may be issued with a timetable for the actions required.
- To relieve or prevent hardship. The variances granted under this provision are limited to 24 months. A variance granted for electrical power plant and transmission line siting, as described in Part II of ch. 403, F.S., may be granted for the life of the permit.[41]

The State of Florida is granted authority from the federal government to administer programs such as the CWA, governing water pollution, and the Resource Conservation and Recovery Act (RCRA), governing hazardous waste management. "The most important feature of authorization is the State's agreement to issue permits that conform to the regulatory requirements of the law,

[38] *Id.*
[39] Chapter 67-436, Laws of Fla.
[40] Section 403.021(1), F.S.
[41] Section 403.201(1)(a)-(c), F.S.

to inspect and monitor activities subject to regulation, to take appropriate enforcement action against violators and to do so in a manner no less stringent than the Federal program."[42] Therefore, Florida Statutes prohibit any variance for the discharge of waste into state waters or for hazardous waste management that would result in the requirement being less stringent than an applicable federal requirement. However, research, development, and demonstration permits under s. 403.70715, F.S., are exempt from this provision.[43]

Relief mechanisms may be included in a permit when the natural conditions for the impacted area results in limits that exceed what is authorized in the permit. The relief mechanisms include:

- A site specific alternative criteria for each water quality criteria;
- A variance or exemption for each water quality criteria;
- A variance or exemption for a public water system from the maximum contaminant level or treatments techniques;
- A variance from other permitting standards or conditions; or
- A major or minor exemption for an aquifer.[44]

Flow Control Ordinances

Flow control ordinances are ordinances implemented by a local government to require haulers to dispose of solid waste at government-approved waste facilities or within a specific geographic jurisdiction.[45] Flow control ordinances are used to assure that the designated facility or facilities are assured of receiving a guaranteed amount of waste so that they are assured a source of revenue to meet their capital costs.[46]

> Use of flow controls took hold in the late 1970s. State and local governments began using flow controls to support the development of new waste management facilities, particularly those requiring relatively large capital investments such as waste to-energy (WTE) facilities and high-technology materials recovery facilities (MRFs). Flow controls were one mechanism state and local governments could use to help finance these costly facilities. To construct these facilities, local governments often issued revenue bonds, which were to be repaid out of the revenues (tipping fees) the facilities generated. Flow controls ensured receipt of enough waste or recyclable materials to generate sufficient revenue to pay facility debt service and other fixed costs.

[42] DEP, *Hazardous Waste Regulation Section*, available at http://www.dep.state.fl.us/waste/categories/hwRegulation/ (last visited on January 18, 2016).
[43] Section 403.201(2), F.S.
[44] Fla. Admin. Code R. 62-4.050.
[45] Note that flow control ordinances that benefit of publically owned facilities do not violate the U.S. Commerce Clause even though they provide a particular benefit to in-state interests because they treat all private businesses the same way. *United Haulers Ass'n, Inc. v. Oneida-Herkimer Solid Waste Management Authority*, 550 U.S. 330 (2007).
[46] U.S. Env. Protection Agency, *Report to Congress on Flow Control and Municipal Solid Waste*, I-3 (1992), *available at* http://www3.epa.gov/epawaste/nonhaz/municipal/landfill/flowctrl.htm.

Section 403.713, F.S., authorizes local governments to control the collection and disposal of solid waste and institute a flow control ordinances for the purpose of ensuring that a resource recovery[47] facility receives an adequate quantity of solid waste.

Landfill Gas-to-Energy Systems

Landfill gas (LFG) is created when organic waste in a solid waste landfill decomposes.[48] This gas consists of about 50% methane (the primary component of natural gas), about 50% carbon dioxide (CO2), and a small amount of non-methane organic compounds (NMOCs).[49] Instead of being allowed to escape into the air, LFG can be captured, converted, and used as an energy source.[50] Using LFG helps to reduce odors and other hazards associated with LFG emissions, and helps prevent methane from migrating into the atmosphere and contributing to local smog and global climate change.[51]

In 2010 Orange County, Florida, and the Orlando Utilities Commission won an award from the U.S. Environmental Protection Agency (EPA) as part of its Landfill Methane Outreach Program. The landfill is one of the largest in the country and in 2010 the EPA found that:

- The carbon sequestered annually was the equivalent of 12,100 acres of pine or fir forests, annual greenhouse gas emissions from 10,900 passenger vehicles, or carbon dioxide emissions from 132,500 barrels of oil consumed;
- The annual energy savings equate to powering 7,300 homes; and
- The revenue generated to Orange County each year for landfill gas rights was $400,000.[52]

In 2015, Sarasota County in partnership with Aria Energy opened a landfill gas-to-energy facility in Sarasota County. The facility is estimated to produce enough energy to power 2,800 homes and reduce carbon dioxide emissions by 236,000 metric tons.[53]

Solid Waste Management Trust Fund

Section 403.709, F.S., creates the Solid Waste Management Trust Fund (SWMTF) to fund solid waste management activities. Funds deposited in the SWMTF include penalties for littering,[54] waste tire fees,[55] and oil related fees, fines and penalties.[56] The DEP must allocate funds deposited in the SWMTF in the following manner:

---

[47] Resource recovery is defined as "the process of recovering materials or energy from solid waste, excluding those materials or solid waste under control of the Nuclear Regulatory Commission." Fla. Admin. Code R. 62-701.200.

[55] Section 403.718(2), F.S.
[56] Section 403.759, F.S.

- Up to 40 percent for funding solid waste activities of the DEP and other state agencies, such as providing technical assistance to local governments and the private sector, performing solid waste regulatory and enforcement functions, preparing solid waste documents, and implementing solid waste education programs;
- Up to 4.5 percent for funding research and training programs relating to solid waste management through the Center for Solid and Hazardous Waste Management;
- Up to 14 percent to use for funding to supplement any other funds provided to the Department of Agriculture and Consumer Services for mosquito control;
- Up to 4.5 percent for funding to the Department of Transportation for litter prevention and control programs through a certified Keep America Beautiful Affiliate at the local level; and
- A minimum of 37 percent for funding a solid waste management grant program pursuant to s. 403.7095, F.S., for activities relating to recycling and waste reduction, including waste tires requiring final disposal.[57]

Landfill Closure

The DEP is responsible for implementing and enforcing the state solid waste management program, which provides guidelines for the storage, separation, processing, recovery, recycling, and disposal of solid waste.[58] Counties are responsible for operating solid waste disposal facilities, which are permitted by the DEP, in order to meet the needs of incorporated and unincorporated areas of the county.[59]

Florida Administrative Code Chapters 62-701 through 62-722 establish standards for the construction, operations, and closure of solid waste management facilities.[60] Landfills or solid waste disposal sites that close require a closure permit issued by the DEP or a closure plan approved by the DEP. The closure plan includes:

- A closure design plan;
- A closure operation plan;
- A long-term care plan; and
- A demonstration that proof of financial assurance for long-term care will be provided.[61]

Every owner or operator of a landfill is liable for the improper operation and closure of a landfill.[62] The owner or operator of a landfill owned or operated by a local or state government or the Federal Government is required to establish a fee, a surcharge on existing fees, or other appropriate revenue-producing mechanism, to ensure the availability of financial resources for the proper closure of the landfill.[63]

[57] Section 403.709(1), F.S.
[58] Section 403.705, F.S.
[59] Section 403.706, F.S.
[60] Fla. Admin. Code R. 62-701.100.
[61] Fla. Admin. Code R. 62-701.600(2).
[62] Section 403.7125(1), F.S.
[63] Section 403.7125(2), F.S.

Operators of solid waste disposal units must receive a closure permit to close a landfill.[64] Solid waste disposal units must close within 180 days after they cease receiving waste, or within the time frame set forth in the facility's approved closure plan.[65]

These facilities must also perform long-term care for 30 years.[66] This includes monitoring and maintaining the integrity and effectiveness of the final cover, controlling erosion, filling subsidences, complying with a water quality monitoring plan, maintaining a leachate collection system, measuring the volumes of leachate removed, and maintaining a stormwater system.[67]

Section 403.709(5), F.S., creates a solid waste landfill closure account within the SWMTF to provide funds for the closing and long-term care of solid waste management facilities. The closure account receives funds from insurance certificates provided as proof of financial assurance. The DEP may use those funds to contract with a third party for the closing and long-term care of a solid waste management facility if:

- The facility has or had a DEP permit to operate the facility;
- The permittee provided proof of financial assurance for closure in the form of an insurance certificate;
- The facility is deemed to be abandoned or was ordered to close by the DEP;
- Closure is accomplished in substantial accordance with a closure plan approved by the DEP; and
- The DEP has written documentation that the insurance company issuing a closure insurance policy will provide or reimburse the funds required to complete closing and long-term care of the facility.

The closure account was created within the implementing bill for the 2015-2016 General Appropriations Act, Chapter 2015-222, Laws of Florida, and will expire July 1, 2016.[68]

The DEP provides that in cases where there is a viable insurance policy provided for the purposes of financial assurance, the contractor or the DEP can be reimbursed by the insurance company for the allowable closure costs covered by the financial assurance related insurance policy. Currently, there are five solid waste management facilities that are covered by insurance policies and require closure work by contractors to minimize adverse environmental impacts.[69]

III. Effect of Proposed Changes:

Section 1 amends s. 373.227, F.S., to:

- Prohibit modification of a consumptive use permit (CUP) allocation during the permit term if documented conservation measures beyond those required in the CUP, including best management practices, result in decreased water use, and require water management districts

[64] Fla. Admin. Code R. 62-701.600(2).
[65] Fla. Admin. Code R. 62-701.600(3)(f)2.
[66] Fla. Admin. Code R. 62-701.620(1)
[67] *Id.*
[68] Ch. 2015-222, s. 53, Laws of Fla.
[69] DEP, *House Bill 589 Agency Analysis* (Jan. 4, 2016) (on file with the Senate Committee on Environmental Preservation and Conservation).

(WMDs) to adopt rules providing water conservation incentives, which may include limited permit extensions; and
- Prohibit the reduction of permitted water use authorized by a CUP for agricultural irrigation during the term of the CUP if actual water use is less than permitted use due to weather, crop disease, nursery stock availability, market conditions, or changes in crop type.

Section 2 amends s. 373.323, F.S., to change the number of letters attesting to the length of time an applicant wishing to take the water well contractor licensure examination has been engaged in the business of the construction, repair, or abandonment of water wells. The bill requires a letter from a water well contractor or a letter from a water well inspector employed by a governmental agency, rather than letters from both.

Section 3 amends s. 373.467, F.S., to revise the membership requirements for the Harris Chain of Lakes Restoration Council. One member must be a person with experience in environmental science or regulation, rather than an environmental engineer. It requires an attorney and an engineer, rather than individuals that have training in either discipline. It also clarifies that the two members, who are residents of the county, are not required to meet any of the other requirements of membership to be appointed to the council. As the statute is currently written, it appears those two members are prohibited from meeting any of the other requirements for membership. The bill provides that the Lake County legislative delegation may waive the qualifications for membership on a case-by-case basis for good cause. The bill provides that resignation by a council member, or removal of a council member for failure to attend three consecutive meetings without an excuse approved by the chair of the committee results in a vacancy on the council.

Section 4 amends s. 373.705, F.S., to require the WMDs to promote expanded cost-share criteria for additional conservation practices, such as soil and moisture sensors and other irrigation improvements, water-saving equipment, and water-saving household fixtures, and software technologies that can achieve verifiable water conservation by providing water use information to utility customers.

Section 5 amends s. 378.209, F.S., to provide that if the beneficial use of a clay settling area has been extended, the rate of reclamation requirements and financial assurance requirements for phosphate mines do not become applicable until the beneficial use of the area is completed.

Section 6 amends s. 403.061, F.S., to require the Department of Environmental Protection (DEP) to adopt by rule a specific surface water classification to protect surface waters used for treated potable water supply. Waters classified under this section must have the same water quality criteria as that for Class III waters. This new classification will allow utilities to withdraw water for potable use from a waterbody classified as Class II or III, so long as it does not require significant alteration of permitted treatment processes or prevent compliance with applicable state drinking water standards. Regardless, this classification or the inclusion of treated water supply as a designated use of a surface water does not prevent a surface water used for treated potable water supply from being reclassified as water designated for potable water supply (Class I).

Section 7 amends s. 403.067, F.S., to allow the DEP to authorize the generation of credits for water quality credit trading for land set-asides and land-use modifications, including constructed wetlands and other water quality improvement projects, which reduce nutrient loads into nutrient-impaired surface waters. The DEP provides that it already has this authority and has adopted rules that allow such trades.[70]

Section 8 amends s. 403.201, F.S., to modify the prohibition against granting a variance that would result in a provision or requirement being less stringent than federal law. The bill authorizes moderating provisions or requirements, subject to any necessary approval by the United States Environmental Protection Agency.

Section 9 amends s. 403.709, F.S., to delete the July 1, 2016, expiration date for the solid waste landfill closure account within the Solid Waste Management Trust Fund.

Section 10 amends s. 403.713, F.S., to provide that a local government may only institute a flow control ordinance after it owns, and actively uses, a resource recovery facility and the local government proves the necessity of instituting flow control to ensure sufficient materials for that facility. The bill also provides that a flow control ordinance does not limit the ability of other entities and districts to contract for waste management services.

The bill also specifies that landfill gas-to-energy systems or facilities are not a resource recovery facility for purposes of exercising flow control authority, meaning that flow control ordinances may not be enacted that require waste to be sent to a landfill gas-to-energy system or facility.

Section 11 amends s. 403.861, F.S., to require the DEP to establish rules concerning the use of surface waters for treated potable public water supply.

The bill provides that when a construction permit is issued to construct a new public water system drinking water treatment facility to provide potable water using a surface water of the state that, at the time of the permit application, is not being used as a potable water supply, and the classification of which does not include potable water supply as a designated use, the DEP must add treated potable water supply as a designated use of the surface water segment.

The bill provides that for existing public water system drinking water treatment facilities that use a surface water of the state as a treated potable water supply, and the surface water classification does not include potable water as a designated use, the DEP shall add treated potable water supply as a designated use of the surface water segment.

Section 12 reenacts s. 373.414(17), F.S., due to changes made by the bill.

Section 13 provides an appropriation for the 2016-2017 fiscal year of $2,339,764 in nonrecurring funds to the DEP from the Solid Waste Management Trust Fund for the closing and

[70] *See* Fla. Admin. Code R. 62-306.400.

long-term care of solid waste management facilities. The DEP has requested $1,000,000 for Fiscal Year 2016-2017 in its Legislative Budget Request for similar closure activities.[71]

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

CS/SB 1052 may have a negative, indeterminate fiscal impact on rate payers if potable water supply systems must use more expensive treatment options in order to treat water from a Class III water body and if those costs are passed on to rate payers. The Department of Environmental Protection (DEP) reports that this is possible but unlikely.[72]

The bill may have a positive, indeterminate fiscal impact on phosphate mine operators by exempting them from the financial assurance requirements concerning the reclamation of a clay settling area when its beneficial use has been extended, until its beneficial use has been completed.

C. Government Sector Impact:

The bill could have a negative, indeterminate fiscal impact on local governments if a flow control ordinance may only be adopted after a local government owns, actively uses, and proves the necessity of instituting flow control when securing funding for a resource recovery facility.

[71] DEP, *House Bill 589 Agency Analysis* (Jan. 4, 2016) (on file with the Senate Committee on Environmental Preservation and Conservation).
[72] *Id*.

The bill provides a nonrecurring appropriation for Fiscal Year 2016-2017 of $2,339,764 from the Solid Waste Management Trust Fund for the closure and long-term care of solid waste management facilities.

The DEP will absorb the costs of rulemaking with existing resources.

VI. Technical Deficiencies:

None.

VII. Related Issues:

Section 5 of the bill states that reclamation requirements do not apply to a constructed clay settling area "if the beneficial use of such area has been extended." This wording is somewhat unclear. There is no provision in statute or rule that defines what "beneficial use" is in relation to clay settling areas or who determines whether the beneficial use has been completed.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 373.227, 373.323, 373.467, 373.705, 378.209, 403.061, 403.067, 403.201, 403.709, 403.713, and 403.861.

This bill reenacts 373.414 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Environmental Preservation and Conservation on January 20, 2016:
For constructed clay settling areas, the CS provides that if the beneficial use of a clay settling area has been extended, the rate of reclamation and financial assurance requirements do not become applicable until the beneficial use of the area is completed.

Section 403.709, F.S., establishes the solid waste landfill closure account within the Solid Waste Management Trust Fund. The subsection establishing the account expires July 1, 2016. The CS removes the sunset provision.

B. Amendments:

None.

By the Committee on Environmental Preservation and Conservation; and Senator Hays

592-02359-16 20161052c1

A bill to be entitled

An act relating to environmental control; amending s. 373.227, F.S.; prohibiting water management districts from modifying or reducing consumptive use permit allocations if actual water use is less than permitted water use due to water conservation measures or specified circumstances; requiring water management districts to adopt rules providing water conservation incentives, including permit extensions; amending s. 373.323, F.S.; revising eligibility requirements for taking the water well contractor licensure examination; amending s. 373.467, F.S.; revising membership qualifications for the Harris Chain of Lakes Restoration Council; authorizing the Lake County legislative delegation to waive such membership qualifications for good cause; providing that resignation or removal of a council member results in a council vacancy; amending s. 373.705, F.S.; requiring water management districts to promote expanded cost-share criteria for additional conservation practices; amending s. 378.209, F.S.; exempting certain constructed clay settling areas from reclamation rate and financial responsibility requirements under certain conditions; amending s. 403.061, F.S.; requiring the Department of Environmental Protection to adopt by rule a specific surface water classification to protect surface waters used for treated potable water supply; providing criteria for such rule; authorizing the reclassification of surface waters used for treated potable water supply notwithstanding such rule;

592-02359-16 20161052c1

amending s. 403.067, F.S.; authorizing the use of land set-asides and land use modifications, including constructed wetlands or other water quality improvement projects, in water quality credit trading; amending s. 403.201, F.S.; providing applicability of prohibited variances concerning discharges of waste into waters of the state and hazardous waste management; amending s. 403.709, F.S.; making technical changes; deleting a scheduled repeal date; amending s. 403.713, F.S.; authorizing local governments to implement a flow control ordinance only upon ownership and utilization of a resource recovery facility and a proven need of flow control for the facility; excluding landfill gas-to-energy systems and facilities from being classified as resource recovery facilities under certain circumstances; amending s. 403.861, F.S.; requiring the department to add treated potable water supply as a designated use of a surface water segment under certain circumstances; reenacting s. 373.414(17), F.S., relating to variances for activities in surface waters and wetlands, to incorporate the amendment made by the act to s. 403.201, F.S., in a reference thereto; providing an appropriation; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present subsection (5) of section 373.227, Florida Statutes, is renumbered as subsection (7), and new

subsections (5) and (6) are added to that section, to read:

373.227 Water conservation; legislative findings and intent; objectives; comprehensive statewide water conservation program requirements.—

(5) To incentivize water conservation, if actual water use is less than permitted water use due to documented implementation of water conservation measures beyond those required in a consumptive use permit, including, but not limited to, those measures identified in best management practices pursuant to s. 570.93, the permitted allocation may not be modified solely due to such water conservation during the term of the permit. To promote water conservation and the implementation of measures that produce significant water savings beyond those required in a consumptive use permit, each water management district shall adopt rules providing water conservation incentives, which may include limited permit extensions.

(6) For consumptive use permits for agricultural irrigation, if actual water use is less than permitted water use due to weather events, crop diseases, nursery stock availability, market conditions, or changes in crop type, a district may not, as a result, reduce permitted allocation amounts during the term of the permit.

Section 2. Paragraph (b) of subsection (3) of section 373.323, Florida Statutes, is amended to read:

373.323 Licensure of water well contractors; application, qualifications, and examinations; equipment identification.—

(3) An applicant who meets the following requirements shall be entitled to take the water well contractor licensure

examination:

(b) Has at least 2 years of experience in constructing, repairing, or abandoning water wells. Satisfactory proof of such experience shall be demonstrated by providing:

1. Evidence of the length of time the applicant has been engaged in the business of the construction, repair, or abandonment of water wells as a major activity, as attested to by a letter from a water well contractor or ~~and~~ a letter from a water well inspector employed by a governmental agency.

2. A list of at least 10 water wells that the applicant has constructed, repaired, or abandoned within the preceding 5 years. Of these wells, at least seven must have been constructed, as defined in s. 373.303(2), by the applicant. The list shall also include:

a. The name and address of the owner or owners of each well.

b. The location, primary use, and approximate depth and diameter of each well that the applicant has constructed, repaired, or abandoned.

c. The approximate date the construction, repair, or abandonment of each well was completed.

Section 3. Paragraph (a) of subsection (1) and subsection (3) of section 373.467, Florida Statutes, are amended to read:

373.467 The Harris Chain of Lakes Restoration Council.—There is created within the St. Johns River Water Management District, with assistance from the Fish and Wildlife Conservation Commission and the Lake County Water Authority, the Harris Chain of Lakes Restoration Council.

(1)(a) The council shall consist of nine voting members,

which shall include: a representative of waterfront property owners, a representative of the sport fishing industry, a person with experience in an environmental science or regulation engineer, a person with training in biology or another scientific discipline, a person with training as an attorney, a physician, a person with training as an engineer, and two residents of the county who are do not required to meet any additional of the other qualifications for membership enumerated in this paragraph, each to be appointed by the Lake County legislative delegation. The Lake County legislative delegation may waive the qualifications for membership on a case-by-case basis if good cause is shown. A No person serving on the council may not be appointed to a council, board, or commission of any council advisory group agency. The council members shall serve as advisors to the governing board of the St. Johns River Water Management District. The council is subject to the provisions of chapters 119 and 120.
