b. Any refund of unearned premium is made ~~directly~~ to the credit card holder by mail or electronic transfer; and

c. The credit card transaction is authorized by the signature of the credit card holder or other person authorized to sign on the credit card account.

The conditions enumerated in sub-subparagraphs a.-c. do not apply to health insurance or to credit life, credit disability, or credit property insurance; and sub-subparagraph c. does not apply to property and casualty insurance if ~~so long as~~ the transaction is authorized by the insured.

4. No person may use or disclose information resulting from the use of a credit card in conjunction with the purchase of insurance if~~, when~~ such information is to the advantage of the ~~such~~ credit card facility or an insurance agent, or is to the detriment of the insured or any other insurance agent; except that this provision does not prohibit a credit card facility from using or disclosing such information in a ~~any~~ judicial proceeding or consistent with applicable law on credit reporting.

5. ~~No~~ Such insurance may not ~~shall~~ be sold through a credit card facility in conjunction with membership in any automobile club. The term "automobile club" means a legal entity that ~~which~~, in consideration of dues, assessments, or periodic payments of money, promises its members or subscribers to assist them in matters relating to the ownership, operation, use, or maintenance of a motor vehicle; however, the term ~~definition of~~

~~automobile clubs~~ does not include persons, associations, or corporations that ~~which~~ are organized and operated solely for the purpose of conducting, sponsoring, or sanctioning motor vehicle races, exhibitions, or contests upon racetracks, or upon race courses established and marked as such for the duration of such particular event. The words "motor vehicle" used herein shall be the same as defined in chapter 320.

Section 27. Paragraph (b) of subsection (2) of section 627.062, Florida Statutes, is amended to read:

627.062 Rate standards.—

(2) As to all such classes of insurance:

(b) Upon receiving a rate filing, the office shall review the filing to determine whether the ~~if a~~ rate is excessive, inadequate, or unfairly discriminatory. In making that determination, the office shall, in accordance with generally accepted and reasonable actuarial techniques, consider the following factors:

1. Past and prospective loss experience within and without this state.

2. Past and prospective expenses.

3. The degree of competition among insurers for the risk insured.

4. Investment income reasonably expected by the insurer, consistent with the insurer's investment practices, from investable premiums anticipated in the filing, plus any other expected income from currently invested assets representing the amount expected on unearned premium reserves and loss reserves. The commission may adopt rules using reasonable techniques of actuarial science and economics to specify the manner in which

insurers calculate investment income attributable to classes of insurance written in this state and the manner in which investment income is used to calculate insurance rates. Such manner must contemplate allowances for an underwriting profit factor and full consideration of investment income that ~~which~~ produce a reasonable rate of return; however, investment income from invested surplus may not be considered.

5. The reasonableness of the judgment reflected in the filing.

6. Dividends, savings, or unabsorbed premium deposits allowed or returned to Florida policyholders, members, or subscribers.

7. The adequacy of loss reserves.

8. The cost of reinsurance. The office may not disapprove a rate as excessive solely due to the insurer's ~~insurer~~ having obtained catastrophic reinsurance to cover the insurer's estimated 250-year probable maximum loss or any lower level of loss.

9. Trend factors, including trends in actual losses per insured unit for the insurer making the filing.

10. Conflagration and catastrophe hazards, if applicable.

11. Projected hurricane losses, if applicable, which must be estimated using a model or method, or a straight average of model results or output ranges, which are independently found to be acceptable or reliable by the Florida Commission on Hurricane Loss Projection Methodology~~,~~ and as further provided in s. 627.0628.

12. A reasonable margin for underwriting profit and contingencies.

13. The cost of medical services, if applicable.

14. Other relevant factors that affect the frequency or severity of claims or expenses.

Section 28. Paragraph (d) of subsection (3) of section 627.0628, Florida Statutes, is amended to read:

627.0628 Florida Commission on Hurricane Loss Projection Methodology; public records exemption; public meetings exemption.—

(3) ADOPTION AND EFFECT OF STANDARDS AND GUIDELINES.—

(d) With respect to a rate filing under s. 627.062, an insurer shall employ and may not modify or adjust actuarial methods, principles, standards, models, or output ranges found by the commission to be accurate or reliable in determining hurricane loss factors for use in a rate filing under s. 627.062. An insurer shall employ and may not modify or adjust models found by the commission to be accurate or reliable in determining probable maximum loss levels pursuant to paragraph (b) with respect to a rate filing under s. 627.062 made more than 180 ~~60~~ days after the commission has made such findings. This paragraph does not prohibit an insurer from using a straight average of model results or output ranges or using straight averages for the purposes of a rate filing under s. 627.062.

Section 29. Subsection (8) of section 627.0651, Florida Statutes, is amended to read:

627.0651 Making and use of rates for motor vehicle insurance.—

(8) Rates are not unfairly discriminatory if averaged broadly among members of a group; nor are rates unfairly

discriminatory even though they are lower than rates for nonmembers of the group. However, such rates are unfairly discriminatory if they are not actuarially measurable and credible and sufficiently related to actual or expected loss and expense experience of the group so as to ensure ~~assure~~ that nonmembers of the group are not unfairly discriminated against. Use of a single United States Postal Service zip code as a rating territory shall be deemed unfairly discriminatory unless filed pursuant to paragraph (1)(a) and such rating territory incorporates sufficient actual or expected loss and loss adjustment expense experience so as to be actuarially measurable and credible.

Section 30. Subsection (6) is added to section 627.0653, Florida Statutes, to read:

627.0653 Insurance discounts for specified motor vehicle equipment.—

(6) The office may approve a premium discount applicable to any rates, rating schedules, or rating manuals for liability, personal injury protection, and collision coverages for motor vehicle insurance policies filed with the office for vehicles equipped with electronic vehicle crash avoidance technology that is factory installed or with a retrofitted system that complies with National Highway Traffic Safety Administration standards.

Section 31. Present subsections (2) through (4) of section 627.072, Florida Statutes, are redesignated as subsections (3) through (5), respectively, and a new subsection (2) is added to that section, to read:

627.072 Making and use of rates.—

(2) A retrospective rating plan may contain a provision

that allows for the negotiation of premium between the employer and the insurer for employers having exposure in more than one state and an estimated annual countrywide standard premium of $750,000 or more for workers' compensation.

Section 32. The Office of Insurance Regulation, in consultation with the National Council on Compensation Insurance, is directed to prepare a report that analyzes the use of negotiated workers' compensation premium provisions within retrospective rating plans. The report must examine the use of such provisions in neighboring and competitive states, specifically as to any savings in the actual premium if a retrospective rating deviation is applied, compared to the standard workers' compensation premium, and the potential inequity for the state's employers due to the lack of such provisions in this state. The report must also examine the potential savings to Florida employers which results from implementing negotiated premiums for employers having exposure in more than one state and an estimated annual countrywide standard premium of at least $250,000, $500,000, and $750,000. The report shall be delivered to the task force for approval by September 1, 2014, and the approved report shall be delivered to the President of the Senate and the Speaker of the House of Representatives by November 1, 2014. This section is repealed June 30, 2015.

Section 33. Subsection (2) of section 627.281, Florida Statutes, is amended to read:

627.281 Appeal from rating organization; workers' compensation and employer's liability insurance filings.—

(2) If the ~~such~~ appeal is based on ~~upon~~ the failure of the

rating organization to make a filing on behalf of a ~~such~~ member or subscriber which is based on a system of expense provisions which ~~differs~~, in accordance with the right granted in s. 627.072(3) ~~627.072(2)~~, differs from the system of expense provisions included in a filing made by the rating organization, the office shall, if it grants the appeal, order the rating organization to make the requested filing for use by the appellant. In deciding such appeal, the office shall apply the applicable standards set forth in ss. 627.062 and 627.072.

Section 34. Paragraph (h) of subsection (5) of section 627.311, Florida Statutes, is amended to read:

627.311 Joint underwriters and joint reinsurers; public records and public meetings exemptions.—

(5)

(h) Any premium or assessments collected by the plan in excess of the amount necessary to fund projected ultimate incurred losses and expenses of the plan and not paid to insureds of the plan in conjunction with loss prevention or dividend programs shall be retained by the plan for future use. Any state funds received by the plan in excess of the amount necessary to fund deficits in subplan D or any tier shall be returned to the state. Any dividend payable to a former insured of the plan may be retained by the plan for future use upon such terms as set forth in the declaration of dividend.

Section 35. Subsection (9) of section 627.3518, Florida Statutes, is amended to read:

627.3518 Citizens Property Insurance Corporation policyholder eligibility clearinghouse program.—The purpose of this section is to provide a framework for the corporation to

implement a clearinghouse program by January 1, 2014.

(9) The 45-day notice of nonrenewal requirement set forth in s. 627.4133(2)(b)5. ~~627.4133(2)(b)4.b.~~ applies when a policy is nonrenewed by the corporation because the risk has received an offer of coverage pursuant to this section which renders the risk ineligible for coverage by the corporation.

Section 36. Section 627.3519, Florida Statutes, is repealed.

Section 37. Section 627.409, Florida Statutes, is amended to read:

627.409 Representations in applications; warranties.—

(1) Any statement or description made by or on behalf of an insured or annuitant in an application for an insurance policy or annuity contract, or in negotiations for a policy or contract, is a representation and ~~is~~ not a warranty. Except as provided in subsection (3), a misrepresentation, omission, concealment of fact, or incorrect statement may prevent recovery under the contract or policy only if any of the following apply:

(a) The misrepresentation, omission, concealment, or statement is fraudulent or is material ~~either~~ to the acceptance of the risk or to the hazard assumed by the insurer.

(b) If the true facts had been known to the insurer pursuant to a policy requirement or other requirement, the insurer in good faith would not have issued the policy or contract, would not have issued it at the same premium rate, would not have issued a policy or contract in as large an amount, or would not have provided coverage with respect to the hazard resulting in the loss.

(2) A breach or violation by the insured of a ~~any~~ warranty,

condition, or provision of a ~~any~~ wet marine or transportation insurance policy, contract of insurance, endorsement, or application ~~therefor~~ does not void the policy or contract, or constitute a defense to a loss thereon, unless such breach or violation increased the hazard by any means within the control of the insured.

(3) For residential property insurance, if a policy or contract is in effect for more than 90 days, a claim filed by the insured may not be denied based on credit information available in public records.

Section 38. Paragraph (b) of subsection (2) of section 627.4133, Florida Statutes, is amended to read:

627.4133 Notice of cancellation, nonrenewal, or renewal premium.—

(2) With respect to a ~~any~~ personal lines or commercial residential property insurance policy, including a~~, but not limited to, any~~ homeowner's, mobile home owner's, farmowner's, condominium association, condominium unit owner's, apartment building, or other policy covering a residential structure or its contents:

(b) The insurer shall give the first-named insured written notice of nonrenewal, cancellation, or termination at least 120 ~~100~~ days before the effective date of the nonrenewal, cancellation, or termination. ~~However, the insurer shall give at least 100 days' written notice, or written notice by June 1, whichever is earlier, for any nonrenewal, cancellation, or termination that would be effective between June 1 and November 30.~~ The notice must include the reason or reasons for the nonrenewal, cancellation, or termination, except that:

~~1. The insurer shall give the first-named insured written notice of nonrenewal, cancellation, or termination at least 120 days prior to the effective date of the nonrenewal, cancellation, or termination for a first-named insured whose residential structure has been insured by that insurer or an affiliated insurer for at least a 5-year period immediately prior to the date of the written notice.~~

1.~~2.~~ If cancellation is for nonpayment of premium, at least 10 days' written notice of cancellation accompanied by the reason therefor must be given. As used in this subparagraph, the term "nonpayment of premium" means failure of the named insured to discharge when due her or his obligations for paying the premium ~~in connection with the payment of premiums~~ on a policy or an ~~any~~ installment of such premium, whether the premium is payable directly to the insurer or its agent or indirectly under any premium finance plan or extension of credit, or failure to maintain membership in an organization if such membership is a condition precedent to insurance coverage. The term also means the failure of a financial institution to honor an insurance applicant's check after delivery to a licensed agent for payment of a premium, even if the agent has previously delivered or transferred the premium to the insurer. If a dishonored check represents the initial premium payment, the contract and all contractual obligations are void ab initio unless the nonpayment is cured within the earlier of 5 days after actual notice by certified mail is received by the applicant or 15 days after notice is sent to the applicant by certified mail or registered mail.~~, and~~ If the contract is void, any premium received by the insurer from a third party must be refunded to that party in

full.

2.~~3.~~ If ~~such~~ cancellation or termination occurs during the first 90 days the insurance is in force and the insurance is canceled or terminated for reasons other than nonpayment of premium, at least 20 days' written notice of cancellation or termination accompanied by the reason therefor must be given unless there has been a material misstatement or misrepresentation or failure to comply with the underwriting requirements established by the insurer.

3. After the policy has been in effect for 90 days, the insurer may not cancel the policy unless there has been a material misstatement, a nonpayment of premium, a failure to comply with underwriting requirements established by the insurer within 90 days after the date of effectuation of coverage, or a substantial change in the risk covered by the policy or the cancellation is for all insureds under such policies for a class of insureds. This subparagraph does not apply to individually rated risks having a policy term of less than 90 days.

4. After a policy or contract has been in effect for 90 days, the insurer may not cancel or terminate the policy or contract based on credit information available in public records. ~~The requirement for providing written notice by June 1 of any nonrenewal that would be effective between June 1 and November 30 does not apply to the following situations, but the insurer remains subject to the requirement to provide such notice at least 100 days before the effective date of nonrenewal:~~

~~a. A policy that is nonrenewed due to a revision in the coverage for sinkhole losses and catastrophic ground cover~~

~~collapse pursuant to s. 627.706.~~

5.~~b.~~ A policy that is nonrenewed by Citizens Property Insurance Corporation, pursuant to s. 627.351(6), for a policy that has been assumed by an authorized insurer offering replacement coverage to the policyholder is exempt from the notice requirements of paragraph (a) and this paragraph. In such cases, the corporation must give the named insured written notice of nonrenewal at least 45 days before the effective date of the nonrenewal.

~~After the policy has been in effect for 90 days, the policy may not be canceled by the insurer unless there has been a material misstatement, a nonpayment of premium, a failure to comply with underwriting requirements established by the insurer within 90 days after the date of effectuation of coverage, or a substantial change in the risk covered by the policy or if the cancellation is for all insureds under such policies for a given class of insureds. This paragraph does not apply to individually rated risks having a policy term of less than 90 days.~~

6.~~5.~~ Notwithstanding any other ~~provision of~~ law, an insurer may cancel or nonrenew a property insurance policy after at least 45 days' notice if the office finds that the early cancellation of some or all of the insurer's policies is necessary to protect the best interests of the public or policyholders and the office approves the insurer's plan for early cancellation or nonrenewal of some or all of its policies. The office may base such finding upon the financial condition of the insurer, lack of adequate reinsurance coverage for hurricane risk, or other relevant factors. The office may condition its

finding on the consent of the insurer to be placed under administrative supervision pursuant to s. 624.81 or to the appointment of a receiver under chapter 631.

7.~~6.~~ A policy covering both a home and a motor vehicle may be nonrenewed for any reason applicable to ~~either~~ the property or motor vehicle insurance after providing 90 days' notice.

Section 39. Subsection (1) of section 627.4137, Florida Statutes, is amended to read:

627.4137 Disclosure of certain information required.—

(1) Each insurer that provides ~~which does~~ or may provide liability insurance coverage to pay all or a portion of a ~~any~~ claim that ~~which~~ might be made shall ~~provide~~, within 30 days after ~~of~~ the written request of the claimant, provide a statement, under oath, of a corporate officer or the insurer's claims manager, ~~or~~ superintendent, or licensed company adjuster setting forth the following information with regard to each known policy of insurance, including excess or umbrella insurance:

(a) The name of the insurer.

(b) The name of each insured.

(c) The limits of the liability coverage.

(d) A statement of any policy or coverage defense that the ~~which such~~ insurer reasonably believes is available to the ~~such~~ insurer at the time of filing such statement.

(e) A copy of the policy.

~~In addition,~~ The insured, or her or his insurance agent, upon written request of the claimant or the claimant's attorney, shall also disclose the name and coverage of each known insurer

to the claimant and ~~shall~~ forward the ~~such~~ request for information ~~as~~ required by this subsection to all affected insurers. The insurer shall ~~then~~ supply the required information ~~required in this subsection~~ to the claimant within 30 days after ~~of~~ receipt of such request.

Section 40. Subsection (1) of section 627.421, Florida Statutes, is amended to read:

627.421 Delivery of policy.—

(1) Subject to the insurer's requirement as to payment of premium, every policy shall be mailed, delivered, or electronically transmitted to the insured or to the person entitled thereto within ~~not later than~~ 60 days after the effectuation of coverage. Notwithstanding any other provision of law, an insurer may allow a policyholder of personal lines insurance to affirmatively elect delivery of the policy documents, including policies, endorsements, notices, or other documents, by electronic means in lieu of delivery by mail. Electronic transmission of a policy for commercial risks, including, but not limited to, workers' compensation and employers' liability, commercial automobile liability, commercial automobile physical damage, commercial lines residential property, commercial nonresidential property, farm owners' insurance, and the types of commercial lines risks set forth in s. 627.062(3)(d), constitute ~~shall constitute~~ delivery to the insured or to the person entitled to delivery, unless the insured or the person entitled to delivery communicates to the insurer in writing or electronically that he or she does not agree to delivery by electronic means. Electronic transmission must ~~shall~~ include a notice to the insured or to the person

entitled to delivery of a policy of his or her right to receive the policy via United States mail rather than via electronic transmission. A paper copy of the policy shall be provided to the insured or to the person entitled to delivery at his or her request.

Section 41. Subsection (2) of section 627.43141, Florida Statutes, is amended to read:

627.43141 Notice of change in policy terms.—

(2) A renewal policy may contain a change in policy terms. If a renewal policy contains ~~does contain~~ such change, the insurer must give the named insured written notice of the change, which may ~~must~~ be enclosed along with the written notice of renewal premium required by ss. 627.4133 and 627.728 or be sent in a separate notice that complies with the nonrenewal mailing time requirement for that particular line of business. The insurer must also provide a sample copy of the notice to the insured's insurance agent before or at the same time that notice is given to the insured. Such notice shall be entitled "Notice of Change in Policy Terms."

Section 42. Section 627.4553, Florida Statutes, is created to read:

627.4553 Recommendations to surrender.—If an insurance agent recommends the surrender of an annuity or life insurance policy containing a cash value and is not recommending that the proceeds from the surrender be used to fund or purchase another annuity or life insurance policy, before execution of the surrender, the insurance agent, or the insurance company if no agent is involved, shall provide, on a form adopted by rule by the department, information concerning the annuity or policy to

be surrendered, including the amount of any surrender charge, the loss of any minimum interest rate guarantees, the amount of any tax consequences resulting from the surrender, the amount of any forfeited death benefit, and the value of any other investment performance guarantees being forfeited as a result of the surrender. This section also applies to a person performing insurance agent activities pursuant to an exemption from licensure under this part.

Section 43. Paragraph (b) of subsection (4) of section 627.7015, Florida Statutes, is amended to read:

627.7015 Alternative procedure for resolution of disputed property insurance claims.—

(4) The department shall adopt by rule a property insurance mediation program to be administered by the department or its designee. The department may also adopt special rules which are applicable in cases of an emergency within the state. The rules shall be modeled after practices and procedures set forth in mediation rules of procedure adopted by the Supreme Court. The rules must ~~shall~~ provide ~~for~~:

(b) Qualifications, denial of application, suspension, revocation of approval, and other penalties for ~~of~~ mediators as provided in s. 627.745 and in the Florida Rules for ~~of~~ Certified and Court-Appointed ~~Court Appointed~~ Mediators~~, and for such other individuals as are qualified by education, training, or experience as the department determines to be appropriate~~.

Section 44. Section 627.70151, Florida Statutes, is created to read:

627.70151 Appraisal; conflicts of interest.—An insurer that offers residential coverage, as defined in s. 627.4025, or a

policyholder that uses an appraisal clause in the property insurance contract to establish a process for estimating or evaluating the amount of the loss through the use of an impartial umpire may challenge the umpire's impartiality and disqualify the proposed umpire only if:

(1) A familial relationship within the third degree exists between the umpire and a party or a representative of a party;

(2) The umpire has previously represented a party or a representative of a party in a professional capacity in the same or a substantially related matter;

(3) The umpire has represented another person in a professional capacity on the same or a substantially related matter, which includes the claim, same property, or an adjacent property and that other person's interests are materially adverse to the interests of any party; or

(4) The umpire has worked as an employer or employee of a party within the preceding 5 years.

Section 45. Paragraph (c) of subsection (2) of section 627.706, Florida Statutes, is amended to read:

627.706 Sinkhole insurance; catastrophic ground cover collapse; definitions.—

(2) As used in ss. 627.706-627.7074, and as used in connection with any policy providing coverage for a catastrophic ground cover collapse or for sinkhole losses, the term:

(c) "Neutral evaluator" means a professional engineer or a professional geologist who has completed a course of study in alternative dispute resolution designed or approved by the department for use in the neutral evaluation process, ~~and~~ who is determined by the department to be fair and impartial, and who

is not otherwise ineligible for certification as provided in s. 627.7074.

Section 46. Subsections (3), (7), and (18) of section 627.7074, Florida Statutes, are amended to read:

627.7074 Alternative procedure for resolution of disputed sinkhole insurance claims.—

(3) Following the receipt of the report required ~~provided~~ under s. 627.7073 or the denial of a claim for a sinkhole loss, the insurer shall notify the policyholder of his or her right to participate in the neutral evaluation program under this section if coverage is available under the policy and the claim was submitted within the timeframe provided in s. 627.706(5). Neutral evaluation supersedes the alternative dispute resolution process under s. 627.7015 but does not invalidate the appraisal clause of the insurance policy. The insurer shall provide to the policyholder the consumer information pamphlet prepared by the department pursuant to subsection (1) electronically or by United States mail.

(7) Upon receipt of a request for neutral evaluation, the department shall provide the parties a list of certified neutral evaluators. The department shall allow the parties to submit requests for disqualifying ~~to disqualify~~ evaluators on the list for cause.

(a) The department shall disqualify neutral evaluators for cause based only on any of the following grounds:

1. A familial relationship exists between the neutral evaluator and either party or a representative of either party within the third degree.

2. The proposed neutral evaluator has, in a professional

capacity, previously represented either party or a representative of either party, in the same or a substantially related matter.

3. The proposed neutral evaluator has, in a professional capacity, represented another person in the same or a substantially related matter and that person's interests are materially adverse to the interests of the parties. The term "substantially related matter" means participation by the neutral evaluator on the same claim, property, or adjacent property.

4. The proposed neutral evaluator has, within the preceding 5 years, worked as an employer or employee of a ~~any~~ party to the case.

(b) The department shall deny an application, or suspend or revoke the certification, of a neutral evaluator to serve in the neutral evaluator capacity if the department finds that one or more of the following grounds exist:

1. Lack of one or more of the qualifications for certification specified in this section.

2. Material misstatement, misrepresentation, or fraud in obtaining or attempting to obtain the certification.

3. Demonstrated lack of fitness or trustworthiness to act as a neutral evaluator.

4. Fraudulent or dishonest practices in the conduct of an evaluation or in the conduct of business in the financial services industry.

5. Violation of any provision of this code or of a lawful order or rule of the department or aiding, instructing, or encouraging another party to commit such violation.

(c) ~~(b)~~ The parties shall appoint a neutral evaluator from the department list and promptly inform the department. If the parties cannot agree to a neutral evaluator within 14 business days, the department shall appoint a neutral evaluator from the list of certified neutral evaluators. The department shall allow each party to disqualify two neutral evaluators without cause. Upon selection or appointment, the department shall promptly refer the request to the neutral evaluator.

(d) ~~(c)~~ Within 14 business days after the referral, the neutral evaluator shall notify the policyholder and the insurer of the date, time, and place of the neutral evaluation conference. The conference may be held by telephone, if feasible and desirable. The neutral evaluator shall make reasonable efforts to hold the conference within 90 days after the receipt of the request by the department. Failure of the neutral evaluator to hold the conference within 90 days does not invalidate either party's right to neutral evaluation or to a neutral evaluation conference held outside this timeframe.

(18) The department shall adopt rules of procedure for the neutral evaluation process and for certifying, denying or suspending the certification of, and revoking certification as, a neutral evaluator.

Section 47. Subsection (8) of section 627.711, Florida Statutes, is amended to read:

627.711 Notice of premium discounts for hurricane loss mitigation; uniform mitigation verification inspection form.—

(8) At its expense, the insurer may require that a uniform mitigation verification form provided by a policyholder, a policyholder's agent, or an authorized mitigation inspector or

inspection company be independently verified by an inspector, an inspection company, or an independent third-party quality assurance provider that ~~which~~ possesses a quality assurance program before accepting the uniform mitigation verification form as valid. The insurer may exempt from additional independent verification any uniform mitigation verification form provided by a policyholder, a policyholder's agent, an authorized mitigation inspector, or an inspection company that possesses a quality assurance program that meets the standards established by the insurer. A uniform mitigation verification form provided by a policyholder, a policyholder's agent, an authorized mitigation inspector, or an inspection company to Citizens Property Insurance Corporation is not subject to additional verification, and the property is not subject to reinspection by the corporation, absent material changes to the structure for the term stated on the form if the form signed by a qualified inspector was submitted to, reviewed, and verified by a quality assurance program approved by the corporation before submission to the corporation.

Section 48. Subsections (1), (2), and (3) of section 627.7283, Florida Statutes, are amended to read:

627.7283 Cancellation; return of premium.—

(1) If the insured cancels a policy of motor vehicle insurance, the insurer must mail or electronically transfer the unearned portion of any premium paid within 30 days after the effective date of the policy cancellation or receipt of notice or request for cancellation, whichever is later. This requirement applies to a cancellation initiated by an insured for any reason.

(2) If an insurer cancels a policy of motor vehicle insurance, the insurer must mail or electronically transfer the unearned premium portion of any premium within 15 days after the effective date of the policy cancellation.

(3) If the unearned premium is not mailed or electronically transferred within the applicable period, the insurer must pay to the insured 8 percent interest on the amount due. If the unearned premium is not mailed or electronically transferred within 45 days after the applicable period, the insured may bring an action against the insurer pursuant to s. 624.155.

Section 49. Paragraph (a) of subsection (5) of section 627.736, Florida Statutes, is amended to read:

627.736 Required personal injury protection benefits; exclusions; priority; claims.—

(5) CHARGES FOR TREATMENT OF INJURED PERSONS.—

(a) A physician, hospital, clinic, or other person or institution lawfully rendering treatment to an injured person for a bodily injury covered by personal injury protection insurance may charge the insurer and injured party only a reasonable amount pursuant to this section for the services and supplies rendered, and the insurer providing such coverage may directly pay ~~for~~ such charges ~~directly~~ to the ~~such~~ person or institution lawfully rendering ~~such~~ treatment if the insured receiving such treatment or his or her guardian has countersigned the properly completed invoice, bill, or claim form approved by the office upon which such charges are to be paid ~~for~~ as having actually been rendered, to the best knowledge of the insured or his or her guardian. However, such a charge may not exceed the amount the person or institution customarily

charges for like services or supplies. In determining whether a charge for a particular service, treatment, or otherwise is reasonable, consideration may be given to evidence of usual and customary charges and payments accepted by the provider involved in the dispute, reimbursement levels in the community and various federal and state medical fee schedules applicable to motor vehicle and other insurance coverages, and other information relevant to the reasonableness of the reimbursement ~~for the service, treatment, or supply~~.

1. The insurer may limit reimbursement to 80 percent of the following schedule of maximum charges:

a. For emergency transport and treatment by providers licensed under chapter 401, 200 percent of Medicare.

b. For emergency services and care provided by a hospital licensed under chapter 395, 75 percent of the hospital's usual and customary charges.

c. For emergency services and care as defined by s. 395.002 provided in a facility licensed under chapter 395 rendered by a physician or dentist, and related hospital inpatient services rendered by a physician or dentist, the usual and customary charges in the community.

d. For hospital inpatient services, other than emergency services and care, 200 percent of the Medicare Part A prospective payment applicable to the specific hospital providing the inpatient services.

e. For hospital outpatient services, other than emergency services and care, 200 percent of the Medicare Part A Ambulatory Payment Classification for the specific hospital providing the outpatient services.

f. For all other medical services, supplies, and care, 200 percent of the allowable amount under:

(I) The participating physicians fee schedule of Medicare Part B, except as provided in sub-sub-subparagraphs (II) and (III).

(II) Medicare Part B, in the case of services, supplies, and care provided by ambulatory surgical centers and clinical laboratories.

(III) The Durable Medical Equipment Prosthetics/Orthotics and Supplies fee schedule of Medicare Part B, in the case of durable medical equipment.

However, if such services, supplies, or care is not reimbursable under Medicare Part B, as provided in this sub-subparagraph, the insurer may limit reimbursement to 80 percent of the maximum reimbursable allowance under workers' compensation, as determined under s. 440.13 and rules adopted thereunder which are in effect at the time such services, supplies, or care is provided. Services, supplies, or care that is not reimbursable under Medicare or workers' compensation is not required to be reimbursed by the insurer.

2. For purposes of subparagraph 1., the applicable fee schedule or payment limitation under Medicare is the fee schedule or payment limitation in effect on March 1 of the year in which the services, supplies, or care is rendered and for the area in which such services, supplies, or care is rendered, and the applicable fee schedule or payment limitation applies from March 1 until the last day of February ~~throughout the remainder~~ of the following ~~that~~ year, notwithstanding any subsequent

change made to the fee schedule or payment limitation, except that it may not be less than the allowable amount under the applicable schedule of Medicare Part B for 2007 for medical services, supplies, and care subject to Medicare Part B.

3. Subparagraph 1. does not allow the insurer to apply a ~~any~~ limitation on the number of treatments or other utilization limits that apply under Medicare or workers' compensation. An insurer that applies the allowable payment limitations of subparagraph 1. must reimburse a provider who lawfully provided care or treatment under the scope of his or her license, regardless of whether such provider is entitled to reimbursement under Medicare due to restrictions or limitations on the types or discipline of health care providers who may be reimbursed for particular procedures or procedure codes. However, subparagraph 1. does not prohibit an insurer from using the Medicare coding policies and payment methodologies of the federal Centers for Medicare and Medicaid Services, including applicable modifiers, to determine the appropriate amount of reimbursement for medical services, supplies, or care if the coding policy or payment methodology does not constitute a utilization limit.

4. If an insurer limits payment as authorized by subparagraph 1., the person providing such services, supplies, or care may not bill or attempt to collect from the insured any amount in excess of such limits, except for amounts that are not covered by the insured's personal injury protection coverage due to the coinsurance amount or maximum policy limits.

5. ~~Effective July 1, 2012,~~ An insurer may limit payment as authorized by this paragraph only if the insurance policy includes a notice at the time of issuance or renewal that the

insurer may limit payment pursuant to the schedule of charges specified in this paragraph. A policy form approved by the office satisfies this requirement. If a provider submits a charge for an amount less than the amount allowed under subparagraph 1., the insurer may pay the amount of the charge submitted.

Section 50. Subsection (1) and paragraphs (a) and (b) of subsection (2) of section 627.744, Florida Statutes, are amended to read:

627.744 Required preinsurance inspection of private passenger motor vehicles.—

(1) A private passenger motor vehicle insurance policy providing physical damage coverage, including collision or comprehensive coverage, may not be issued in this state unless the insurer has inspected the motor vehicle in accordance with this section. Physical damage coverage on a motor vehicle may not be suspended during the term of the policy due to the applicant's failure to provide required documents. However, payment of a claim may be conditioned upon the insurer's receipt of the required documents, and physical damage loss occurring after the effective date of coverage is not payable until the documents are provided to the insurer.

(2) This section does not apply:

(a) To a policy for a policyholder who has been insured for 2 years or longer, without interruption, under a private passenger motor vehicle policy that ~~which~~ provides physical damage coverage for any vehicle~~,~~ if the agent of the insurer verifies the previous coverage.

(b) To a new, unused motor vehicle purchased or leased from

a licensed motor vehicle dealer or leasing company~~,~~ if the insurer is provided with:

1. A bill of sale, ~~or~~ buyer's order, or lease agreement that ~~which~~ contains a full description of the motor vehicle~~,~~ ~~including all options and accessories~~; or

2. A copy of the title or registration that ~~which~~ establishes transfer of ownership from the dealer or leasing company to the customer and a copy of the window sticker ~~or the dealer invoice showing the itemized options and equipment and the total retail price of the vehicle~~.

~~For the purposes of this paragraph, the physical damage coverage on the motor vehicle may not be suspended during the term of the policy due to the applicant's failure to provide the required documents. However, payment of a claim is conditioned upon the receipt by the insurer of the required documents, and no physical damage loss occurring after the effective date of the coverage is payable until the documents are provided to the insurer.~~

Section 51. Paragraph (b) of subsection (3) of section 627.745, Florida Statutes, is amended, present subsections (4) and (5) of that section are redesignated as subsections (5) and (6), respectively, and a new subsection (4) is added to that section, to read:

627.745 Mediation of claims.—

(3)

(b) To qualify for approval as a mediator, an individual ~~a person~~ must meet one of the following qualifications:

1. Possess an active certification as a Florida Supreme

Court certified circuit court mediator. A circuit court mediator whose certification is in a lapsed, suspended, or decertified status is not eligible to participate in the program ~~a masters or doctorate degree in psychology, counseling, business, accounting, or economics, be a member of The Florida Bar, be licensed as a certified public accountant, or demonstrate that the applicant for approval has been actively engaged as a qualified mediator for at least 4 years prior to July 1, 1990~~.

2. Be an approved department mediator as of July 1, 2014, and have conducted at least one mediation on behalf of the department within the 4 years ~~immediately~~ preceding that ~~the~~ date ~~the application for approval is filed with the department, have completed a minimum of a 40-hour training program approved by the department and successfully passed a final examination included in the training program and approved by the department~~. ~~The training program shall include and address all of the following:~~

~~a. Mediation theory.~~

~~b. Mediation process and techniques.~~

~~c. Standards of conduct for mediators.~~

~~d. Conflict management and intervention skills.~~

~~e. Insurance nomenclature.~~

(4) The department shall deny an application, or suspend or revoke its approval of a mediator or certification of a neutral evaluator to serve in such capacity, if the department finds that any of the following grounds exist:

(a) Lack of one or more of the qualifications for approval or certification specified in this section.

(b) Material misstatement, misrepresentation, or fraud in

obtaining, or attempting to obtain, the approval or certification.

(c) Demonstrated lack of fitness or trustworthiness to act as a mediator or neutral evaluator.

(d) Fraudulent or dishonest practices in the conduct of mediation or neutral evaluation or in the conduct of business in the financial services industry.

(e) Violation of any provision of this code or of a lawful order or rule of the department, violation of the Florida Rules of Certified and Court Appointed Mediators, or aiding, instructing, or encouraging another party in committing such a violation.

The department may adopt rules to administer this subsection.

Section 52. Subsection (8) of section 627.782, Florida Statutes, is amended to read:

627.782 Adoption of rates.—

(8) Each title insurance agency and insurer licensed to do business in this state and each insurer's direct or retail business in this state shall maintain and submit information, including revenue, loss, and expense data, as the office determines necessary to assist in the analysis of title insurance premium rates, title search costs, and the condition of the title insurance industry in this state. This information must be transmitted to the office annually by May ~~March~~ 31 of the year after the reporting year. The commission shall adopt rules regarding the collection and analysis of the data from the title insurance industry.

Section 53. Subsections (1), (3), (10), and (12) of section

628.461, Florida Statutes, are amended to read:

628.461 Acquisition of controlling stock.—

(1) A person may not, individually or in conjunction with an ~~any~~ affiliated person of such person, acquire directly or indirectly, conclude a tender offer or exchange offer for, enter into any agreement to exchange securities for, or otherwise finally acquire 10 ~~5~~ percent or more of the outstanding voting securities of a domestic stock insurer or of a controlling company~~,~~ unless:

(a) The person or affiliated person has filed with the office and sent to the insurer and controlling company a letter of notification regarding the transaction or proposed transaction within ~~no later than~~ 5 days after any form of tender offer or exchange offer is proposed~~,~~ or within ~~no later than~~ 5 days after the acquisition of the securities if no tender offer or exchange offer is involved. The notification must be provided on forms prescribed by the commission containing information determined necessary to understand the transaction and identify all purchasers and owners involved;

(b) The person or affiliated person has filed with the office a statement as specified in subsection (3). The statement must be completed and filed within 30 days after:

1. Any definitive acquisition agreement is entered;

2. Any form of tender offer or exchange offer is proposed; or

3. The acquisition of the securities~~,~~ if no definitive acquisition agreement, tender offer, or exchange offer is involved; and

(c) The office has approved the tender or exchange offer,

or acquisition if no tender offer or exchange offer is involved, and approval is in effect.

~~In lieu of a filing as required under this subsection, a party acquiring less than 10 percent of the outstanding voting securities of an insurer may file a disclaimer of affiliation and control. The disclaimer shall fully disclose all material relationships and basis for affiliation between the person and the insurer as well as the basis for disclaiming the affiliation and control. After a disclaimer has been filed, the insurer shall be relieved of any duty to register or report under this section which may arise out of the insurer's relationship with the person unless and until the office disallows the disclaimer. The office shall disallow a disclaimer only after furnishing all parties in interest with notice and opportunity to be heard and after making specific findings of fact to support the disallowance.~~ A filing as required under this subsection must be made as to any acquisition that equals or exceeds 10 percent of the outstanding voting securities.

(3) The statement to be filed with the office under subsection (1) and furnished to the insurer and controlling company must ~~shall~~ contain the following information and any additional information ~~as~~ the office deems necessary to determine the character, experience, ability, and other qualifications of the person or affiliated person of such person for the protection of the policyholders and shareholders of the insurer and the public:

(a) The identity of, and the background information specified in subsection (4) on, each natural person by whom, or

on whose behalf, the acquisition is to be made; and, if the acquisition is to be made by, or on behalf of, a corporation, association, or trust, as to the corporation, association, or trust and as to any person who ~~controls either~~ directly or indirectly controls the corporation, association, or trust, the identity of, and the background information specified in subsection (4) on, each director, officer, trustee, or other natural person performing duties similar to those of a director, officer, or trustee for the corporation, association, or trust;

(b) The source and amount of the funds or other consideration used, or to be used, in making the acquisition;

(c) Any plans or proposals that ~~which~~ such persons may have made to liquidate such insurer, to sell any of its assets or merge or consolidate it with any person, or to make any other major change in its business or corporate structure or management; and any plans or proposals that which such persons may have made to liquidate any controlling company of such insurer, to sell any of its assets or merge or consolidate it with any person, or to make any other major change in its business or corporate structure or management;

(d) The number of shares or other securities which the person or affiliated person of such person proposes to acquire, the terms of the proposed acquisition, and the manner in which the securities are to be acquired; and

(e) Information as to any contract, arrangement, or understanding with any party with respect to any of the securities of the insurer or controlling company, including, but not limited to, information relating to the transfer of any of the securities, option arrangements, puts or calls, or the

giving or withholding of proxies, which information names the party with whom the contract, arrangement, or understanding has been entered into and gives the details thereof.

(10) Upon notification to the office by the domestic stock insurer or a controlling company that any person or any affiliated person of such person has acquired 10 ~~5~~ percent or more of the outstanding voting securities of the domestic stock insurer or controlling company without complying with ~~the provisions of~~ this section, the office shall order that the person and any affiliated person of such person cease acquisition of any further securities of the domestic stock insurer or controlling company; however, the person or any affiliated person of such person may request a proceeding, which ~~proceeding~~ shall be convened within 7 days after the rendering of the order for the sole purpose of determining whether the person, individually or in connection with an ~~any~~ affiliated person of such person, has acquired 10 ~~5~~ percent or more of the outstanding voting securities of a domestic stock insurer or controlling company. Upon the failure of the person or affiliated person to request a hearing within 7 days, or upon a determination at a hearing convened pursuant to this subsection that the person or affiliated person has acquired voting securities of a domestic stock insurer or controlling company in violation of this section, the office may order the person and affiliated person to divest themselves of any voting securities so acquired.

(12)~~(a)~~ A presumption of control may be rebutted by filing a disclaimer of control. A person may file a disclaimer of control with the office. The disclaimer must fully disclose all

material relationships and bases for affiliation between the person and the insurer as well as the basis for disclaiming the affiliation. The disclaimer of control shall be filed on a form prescribed by the office, or a person or acquiring party may file with the office a copy of a Schedule 13G on file with the Securities and Exchange Commission pursuant to Rule 13d-1(b) or Rule 13d-1(c) under the Securities Exchange Act of 1934, as amended. After a disclaimer is filed, the insurer is relieved of any duty to register or report under this section which may arise out of the insurer's relationship with the person, unless the office disallows the disclaimer. ~~For the purpose of this section, the term "affiliated person" of another person means:~~

~~1. The spouse of such other person;~~

~~2. The parents of such other person and their lineal descendants and the parents of such other person's spouse and their lineal descendants;~~

~~3. Any person who directly or indirectly owns or controls, or holds with power to vote, 5 percent or more of the outstanding voting securities of such other person;~~

~~4. Any person 5 percent or more of the outstanding voting securities of which are directly or indirectly owned or controlled, or held with power to vote, by such other person;~~

~~5. Any person or group of persons who directly or indirectly control, are controlled by, or are under common control with such other person;~~

~~6. Any officer, director, partner, copartner, or employee of such other person;~~

~~7. If such other person is an investment company, any investment adviser of such company or any member of an advisory~~

~~board of such company;~~

~~8. If such other person is an unincorporated investment company not having a board of directors, the depositor of such company; or~~

~~9. Any person who has entered into an agreement, written or unwritten, to act in concert with such other person in acquiring or limiting the disposition of securities of a domestic stock insurer or controlling company.~~

~~(b) For the purposes of this section, the term "controlling company" means any corporation, trust, or association owning, directly or indirectly, 25 percent or more of the voting securities of one or more domestic stock insurance companies.~~

Section 54. Subsection (11) of section 631.717, Florida Statutes, is amended to read:

631.717 Powers and duties of the association.—

(11) The association is ~~shall~~ not ~~be~~ liable for any civil action under s. 624.155 arising from any acts alleged to have been committed by a member insurer before ~~prior to~~ its liquidation. ~~This subsection does not affect the association's obligation to pay valid insurance policy or contract claims if warranted after its independent de novo review of the policies, contracts, and claims presented to it, whether domestic or foreign, after a Florida domestic rehabilitation or a liquidation.~~

Section 55. Section 631.737, Florida Statutes, is amended to read:

631.737 Rescission and review generally.—The association shall review claims and matters regarding covered policies based upon the record available to it on and after the date of

liquidation. Notwithstanding any other provision of this part, in order to allow for orderly claims administration by the association, entry of a liquidation order by a court of competent jurisdiction tolls ~~shall be deemed to toll~~ for 1 year any rescission or noncontestable period allowed by the contract, the policy, or by law. The association's obligation is to pay any valid insurance policy or contract claims, if warranted, after its independent de novo review of the policies, contracts, and claims presented to it, whether domestic or foreign, after a rehabilitation or a liquidation.

Section 56. Subsections (6) and (7) of section 634.406, Florida Statutes, are amended to read:

634.406 Financial requirements.—

(6) An association that ~~which~~ holds a license under this part ~~and which does not hold any other license under this chapter~~ may allow its premiums for service warranties written under this part to exceed the ratio to net assets limitations of this section if the association meets all of the following conditions:

(a) Maintains net assets of at least $750,000.

(b) Uses ~~Utilizes~~ a contractual liability insurance policy approved by the office that: ~~which~~

1. Reimburses the service warranty association for 100 percent of its claims liability and is issued by an insurer that maintains a policyholder surplus of at least $100 million; or

2. Complies with subsection (3) and is issued by an insurer that maintains a policyholder surplus of at least $200 million.

(c) The insurer issuing the contractual liability insurance policy:

~~1. Maintains a policyholder surplus of at least $100 million.~~

1.~~2.~~ Is rated "A" or higher by A.M. Best Company or an equivalent rating by another national rating service acceptable to the office.

~~3. Is in no way affiliated with the warranty association.~~

2.~~4.~~ In conjunction with the warranty association's filing of the quarterly and annual reports, provides, on a form prescribed by the commission, a statement certifying the gross written premiums in force reported by the warranty association and a statement that all of the warranty association's gross written premium in force is covered under the contractual liability policy, regardless of whether ~~or not~~ it has been reported.

~~(7) A contractual liability policy must insure 100 percent of an association's claims exposure under all of the association's service warranty contracts, wherever written, unless all of the following are satisfied:~~

~~(a) The contractual liability policy contains a clause that specifically names the service warranty contract holders as sole beneficiaries of the contractual liability policy and claims are paid directly to the person making a claim under the contract;~~

~~(b) The contractual liability policy meets all other requirements of this part, including subsection (3) of this section, which are not inconsistent with this subsection;~~

~~(c) The association has been in existence for at least 5 years or the association is a wholly owned subsidiary of a corporation that has been in existence and has been licensed as a service warranty association in the state for at least 5~~

~~years, and:~~

~~1. Is listed and traded on a recognized stock exchange; is listed in NASDAQ (National Association of Security Dealers Automated Quotation system) and publicly traded in the over-the-counter securities market; is required to file either of Form 10-K, Form 100, or Form 20-G with the United States Securities and Exchange Commission; or has American Depository Receipts listed on a recognized stock exchange and publicly traded or is the wholly owned subsidiary of a corporation that is listed and traded on a recognized stock exchange; is listed in NASDAQ (National Association of Security Dealers Automated Quotation system) and publicly traded in the over-the-counter securities market; is required to file Form 10-K, Form 100, or Form 20-G with the United States Securities and Exchange Commission; or has American Depository Receipts listed on a recognized stock exchange and is publicly traded;~~

~~2. Maintains outstanding debt obligations, if any, rated in the top four rating categories by a recognized rating service;~~

~~3. Has and maintains at all times a minimum net worth of not less than $10 million as evidenced by audited financial statements prepared by an independent certified public accountant in accordance with generally accepted accounting principles and submitted to the office annually; and~~

~~4. Is authorized to do business in this state; and~~

~~(d) The insurer issuing the contractual liability policy:~~

~~1. Maintains and has maintained for the preceding 5 years, policyholder surplus of at least $100 million and is rated "A" or higher by A.M. Best Company or has an equivalent rating by another rating company acceptable to the office;~~

~~2. Holds a certificate of authority to do business in this state and is approved to write this type of coverage; and~~

~~3. Acknowledges to the office quarterly that it insures all of the association's claims exposure under contracts delivered in this state.~~

~~If all the preceding conditions are satisfied, then the scope of coverage under a contractual liability policy shall not be required to exceed an association's claims exposure under service warranty contracts delivered in this state.~~

Section 57. Except as otherwise expressly provided in this act, this act shall take effect July 1, 2014.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1260
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on General Government); Banking and Insurance Committee; and Senators Brandes and Soto
SUBJECT:	Insurance
DATE:	April 24, 2014
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Knudson	Knudson	BI	**Fav/CS**
2.	Betta	DeLoach	AGG	**Fav/CS**
3.	Betta	Kynoch	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1260 enacts the following changes related to insurance:

- Revises the criteria for establishing a not-for-profit self-insurance fund;
- Revises insurance agency licensure application requirements;
- Allows an insurance agency license to continue in force until cancelled, suspended, revoked or terminated;
- Creates a license for unaffiliated insurance agents;
- Expands the scope limited licenses to transact motor vehicle rental insurance issued to a business entity that offers motor vehicles for rent or lease;
- Provides the Department of Financial Services (DFS) with additional authority to regulate mediators, navigators, and sinkhole neutral evaluators;
- Provides the DFS with an additional ground to deny, suspend, revoke, or refuse to renew a license for an insurance agent, adjuster, customer or service representative, or managing general agent;
- Deletes the requirement that representatives of an insurer must provide at least 48 hours' notice to the insured before scheduling a meeting or conducting an onsite inspection of the insured property;
- Revises the application for a certificate of authority to be an insurance administrator;
- Allows an insurer to use a qualified third party to conduct required reviews of an insurance administrator;

- Allows annual financial statements of insurance administrators to cover the prior fiscal year;
- Allows motor vehicle insurers to electronically transfer unearned premium to a policyholder who cancels a motor vehicle insurance policy;
- Repeals the requirement that surplus lines agents file an affidavit with the Florida Surplus Lines Service Office (FSLSO);
- Includes using a straight average of hurricane model results or output ranges as factors the Office of Insurance Regulation (OIR) must consider in a rate filing;
- Allows motor vehicle insurance rating territories to encompass a single zip code;
- Allows the OIR to approve a premium discount to rates for liability, personal injury protection, and collision coverages for motor vehicle policies for vehicles with electronic vehicle crash avoidance technology;
- Increases from 60 days to 180 days the time an insurer is not required to use the newest version of an approved hurricane model;
- Allows workers' compensation insurance retrospective rating plans that provide for negotiation of rating factors between the insurer and employer in specified instances;
- Allows the Florida Workers' Compensation Joint Underwriting Association to retain dividends that are not paid to former insureds;
- Prohibits insurers from denying residential property insurance claims on the basis of credit information that is publicly available if the insurance policy has been effective for more than 90 days;
- Establishes a uniform 120 day advance written notice of nonrenewal, cancellation, or termination for personal and commercial lines residential property insurance policies;
- Authorizes a licensed company adjuster to provide the sworn statement of liability insurance coverage required by current law;
- Allows a policyholder to elect electronic delivery of policy documents;
- Allows a Notice of Change in Policy Terms to be sent separately from the Notice of Renewal Premium;
- Requires an insurance agent recommending the surrender of an annuity or life insurance policy with a cash value, but is not recommending the proceeds be used to fund another life insurance or annuity product, to provide specified disclosures;
- Creates conflict of interest standards for appraisers in residential property insurance claims;
- Specifies instances when an insurer need not provide notice of the availability of sinkhole neutral evaluation;
- Allows insurers to exempt uniform mitigation verification forms from independent verification under certain circumstances and prohibits Citizens Property Insurance Corporation from subjecting such forms to additional verification in certain circumstances;
- Clarifies that the annual update to the Personal Injury Protection medical fee schedule applies until the last day of February in the following year;
- Creates exemptions to the required preinsurance inspection of private passenger motor vehicles;
- Changes the date by which title insurers and title insurance agencies must annually submit financial data to the Office of Insurance Regulation (OIR);
- Expands the risks industrial insured captive insurance companies may insure;
- Revises requirements related to the acquisition of controlling stock in an insurer; and

- Provides exceptions to certain financial requirements applicable to service warranty associations.

II. Present Situation:

Not-For-Profit Self-Insurance Funds

Section 624.4625, F.S., provides that two or more not-for-profit corporations located and organized under Florida law may form a self-insurance fund. The purpose of the self-insurance fund must be to pool and spread the property and casualty liabilities of group members. The fund must meet a number of requirements including:

- Annual normal premiums in excess of $5 million;
- Each participating member receiving at least 75 percent of its revenues from local, state, and federal governmental sources;
- Use of a qualified actuary to determine actuarially sound rates and adequate reserves;
- Maintaining excess insurance coverage;
- Submitting annually audited financial statements; and
- Other requirements set forth under the statute.

Licensing of Insurance Agents Selling Motor Vehicle Rental Insurance

In general, insurance agents transact insurance on behalf of an insurer or insurers. Agents must be licensed by the DFS to act as an agent for an insurer, and be appointed (i.e., given the authority by an insurance company to transact business on its behalf) by at least one insurer to act as the agent for that particular appointing insurer or insurers.[1]

Limited lines insurance agents are individuals, or in some cases entities, licensed as insurance agents but limited to selling one or more of the following forms of insurance (each requiring a separate license):

- Motor vehicle physical damage and mechanical breakdown insurance;
- Industrial fire or burglary;
- Travel insurance;
- Motor vehicle rental insurance;
- Credit insurance;
- Crop hail and multiple-peril crop insurance;
- In-transit and storage personal property insurance; and
- Portable electronics insurance.[2]

A limited lines insurance agent license generally has fewer requirements for licensing than other insurance agents. These licensees must, however, file an application with the DFS and be appointed by an insurance company.

[1] s. 626.112, F.S.
[2] s. 626.321, F.S.

Department of Financial Services

The DFS licenses insurance agencies and agents. The DFS Division of Agent and Agency Services receives licensing applications, issues licenses, and investigates violations of the Insurance Code.[3] In order to transact insurance, a person must be licensed by the DFS and appointed by an insurer to transact insurance on its behalf.[4] If an agent fails to maintain an appointment during a four-year period, the agent's license expires and the agent must qualify as a first time applicant before transacting insurance.[5]

Section 624.310, F.S., gives the DFS the authority to initiate administrative proceedings to seek cease and desist orders, to seek the removal of affiliated parties, to impose administrative fines, and to suspend or revoke licenses. Any service of documents authorized or required by s. 624.310, F.S., must be made by certified mail, personal delivery, or by service of process in accordance with ch. 48, F.S. Section 624.310, F.S., does not allow for service by electronic mail.

Insurance Agency Licensure and Registration

The DFS is responsible for licensing insurance agencies in accordance with s. 626.172, F.S. An application for licensure must be signed by the owner of the agency.[6] Insurance agents who are sole proprietors and do not employ other insurance agents must be licensed as both an insurance agent and an insurance agency.[7]

Each place of business where an agent transacts insurance must have an agency license.[8] Section 626.747, F.S., requires a licensed insurance agent to be at each branch location where activities requiring licensure as an insurance agent occur. Such an agent is commonly referred to as the "agent in charge."

Section 626.112(7), F.S., provides that agencies existing prior to January 1, 2003, are allowed to file an application for registration in lieu of applying for licensure. A benefit of registration over licensing is that registrations do not expire, whereas licenses expire every three years.[9] The DFS staff indicates that Florida is the only state that registers insurance agencies in lieu of licensing them and that many registered agencies are seeking licensure.[10]

Insurance Agents

A "general lines agent" is an agent who transacts property insurance, casualty insurance, surety insurance, certain types of health insurance, and marine insurance.[11] A "customer representative" means an individual appointed by a general lines agent or agency to assist that agent or agency in

[3] The Division of Agent and Agency Services website is found at http://www.myfloridacfo.com/Division/Agents/#.UxnmwPldUeG (last accessed March 7, 2013).

transacting the business of insurance from the office of that agent or agency.[12] A "limited customer representative" is a customer representative appointed by a general lines agent or agency to assist that agent or agency in transacting only the business of private passenger motor vehicle insurance from the office of that agent or agency.[13]

Regulation of Navigators

In 2010, the federal Patient Protection and Affordable Care Act became law. The act created "navigators" to aid consumers in selecting a health plan. Part XIII of ch. 626, F.S., requires navigators to register with the DFS and provides a registration process for navigators.[14] Section 626.9957, F.S., provides disciplinary rules for navigators and grounds for the denial of registration.

Alternative Dispute Resolution Programs

The DFS administers alternative dispute programs for various types of insurance and has mediation programs for property insurance[15] and automobile insurance[16] claims. The DFS has a neutral evaluation program, similar to mediation, for sinkhole insurance claims.[17] The DFS approves mediators used in the two mediation programs and certifies the neutral evaluators used in neutral evaluations for sinkhole insurance claims.[18]

To qualify as a mediator for the property or automobile mediation programs, a person must possess graduate level degrees in specified areas, be a member of the Florida Bar, be a licensed certified public accountant, or be a mediator for four years.[19] In addition, an applicant must complete a training program approved by the DFS.[20]

To qualify as a neutral evaluator for sinkhole insurance claims, a neutral evaluator must be a professional engineer or a professional geologist who has completed a course of study in alternative dispute resolution approved by the DFS and who is determined by the DFS to be fair and impartial.[21] According to an analysis provided by the DFS,[22] the number of reported mediations and neutral evaluations is:

	Fiscal Year 2010-2011	Fiscal Year 2011-2012	Fiscal Year 2012-2013
Mediations	3,489	3,323	3,966
Neutral Evaluations	2,245	2,681	1,867

The DFS does not have the explicit authority to investigate, remove, or discipline mediators and neutral evaluators.

Public Adjuster and Insurance Adjuster Notice Requirements for Residential Property Insurance Claims

Section 626.854, F.S., defines a public adjuster as any person[23] who is compensated for aiding an insured or third-party claimant to file an insurance claim or negotiate the settlement of an insurance claim.[24] Section 626.854(6), F.S., prohibits public adjusters from initiating contact or contracting with an insured or claimant regarding a residential property insurance claim until at least 48 hours after the event that is the basis of the claim occurs. The Florida Supreme Court, however, ruled the 48 hour prohibition an unconstitutional regulation of commercial speech in a 2012 decision.[25] Section 626.854(14), F.S., contains a corresponding requirement that adjusters, investigators and attorneys representing insurers must provide the claimant or claimant's representative at least 48 hours' notice prior to scheduling a meeting with the claimant or inspecting the insured property. This requirement remains effective under Florida law.

Insurance Administrators

An insurance administrator is any person who directly or indirectly solicits or effects coverage of, collects charges or premiums from, or adjusts or settles claims on residents of this state in connection with an insurance policy. To operate as an insurance administrator, a person must obtain a certificate of authority to act as an administrator from the Office of Insurance Regulation.[26] An insurer who utilizes an insurance administrator must at least semiannually conduct a review of the operations of an administrator that administers more than 100 certificateholders of that insurer.[27] An administrator must have a written agreement between itself and each insurer for which it performs administrative functions.[28] Administrators must also file an annual financial statement with the OIR containing the administrator's financial condition, transactions, and affairs no later than March 1 of each year.[29]

[23] Other than an attorney at law.
[24] Licensed health care providers or their employees who prepare or file health insurance claims on behalf of patients are excluded from the definition, as are any person who files a health insurance claim on behalf of another and does so without compensation.

[29] S. 626.89, F.S.

Surplus Lines Agent Affidavit

Surplus lines insurance refers to a category of insurance for which there is no market available through standard insurance carriers in the admitted market (insurance companies licensed to transact insurance in Florida). Surplus lines insurance is sold by surplus lines insurance agents. Before a surplus lines insurance agent can place insurance in the surplus lines market, s. 626.916, F.S., requires the insurance agent to make a diligent effort to procure the desired coverage from admitted insurers. Section 626.914, F.S., defines a diligent effort as seeking and being denied coverage from at least three authorized insurers in the admitted market unless the cost to replace the property insured is $1 million or more. In that case, diligent effort is seeking and being denied coverage from at least one authorized insurer in the admitted market.

Surplus lines insurance agents must report surplus lines insurance transactions to the Florida Surplus Lines Service Office (FSLSO or Office) within 30 days of the effective date of the transaction. They must also transmit service fees to the Office each month, and must transmit assessment and tax payments to the Office quarterly.

Current law also requires a surplus lines agent to file a quarterly affidavit with the FSLSO to document all surplus lines insurance transacted in the quarter it was submitted to the FSLSO. The affidavit also documents the efforts the agent made to place coverage with authorized insurers and the results of the efforts.

Hurricane Loss Projection Models

The Florida Commission on Hurricane Loss Projection Methodology (Commission) was established by the Legislature to serve as an independent body to provide expert evaluation of computer models that project hurricane losses.[30] The Commission is assigned to the State Board of Administration. The Commission adopts findings on the accuracy or reliability of the methods, standards, principles, models and other means used to project hurricane losses. Members of the Commission include:[31]

- The Insurance Consumer Advocate;
- The person responsible for FHCF operations;
- The Executive Director of Citizens Property Insurance Corporation;
- The Director of Emergency Management;
- An actuary member from the FHCF Advisory Council;
- An actuary employed by the OIR;
- An appointment by the state Chief Financial Officer who is an actuary employed with a property and casualty insurer;
- An appointment by the state Chief Financial Officer who is an insurance finance expert and who is a full-time faculty member in the State University System;
- An appointment by the state Chief Financial Officer who is a statistics expert in meteorology and who is a full-time faculty member in the State University System; and
- An appointment by the state Chief Financial Officer who is an expert in computer system design and who is a full-time faculty member in the State University System.

[30] See s. 627.0628, F.S.
[31] S. 627.0628(2) (b), F.S.

The Commission sets standards for loss projection methodology and examines the methods employed in hurricane loss models used by private insurers in setting rates to determine whether they meet the Commission's standards. Only hurricane loss models or methods that the Commission has found to be accurate can be used by insurers to estimate the hurricane losses that are used to set property insurance rates. After the Commission finds a model to be accurate, an insurer has 60 days to use the model to predict the insurer's probable maximum loss "with respect to a rate filing."[32]

Zip Codes and Rating Territories for Motor Vehicle Insurance

Section 627.062, F.S., is Florida's rating law. Among other requirements, it provides that insurance rates cannot be excessive, inadequate, or unfairly discriminatory. Insurer rate filings that comply with the law and are adequately supported by actuarial justification must be accepted by the OIR. Pursuant to s. 627.0651, F.S., the use of a single zip code as a rating territory for motor vehicle insurance rates is deemed unfairly discriminatory and is thus prohibited.

Premium Discounts for Motor Vehicle Insurance

Section 627.0653, F.S., sets forth motor vehicle insurance discounts that insurers must offer for specified motor vehicle equipment. Insurers are required to provide a premium discount for liability, personal injury protection (PIP), and collision coverages if the insured vehicle is equipped with factory-installed, four-wheel antilock brakes. A premium discount on comprehensive coverage must be provided for an antitheft device or vehicle recovery system that is factory installed or approved by the OIR. Discounts must be provided on PIP and medical payments coverage if a vehicle has one or more factory installed airbags. The statute also allows, but does not require, insurers to provide a discount on comprehensive coverage for permanent etching of the vehicle identification number on all windows of the vehicle. Section 627.0652, F.S., requires insurers to provide a discount to insureds age 55 years or older who successfully complete a motor vehicle accident prevention course approved by the Department of Highway Safety and Motor Vehicles.

Workers' Compensation Retrospective Rating Plans

Florida law requires every workers' compensation insurer to file with the OIR its rates and classifications that the insurer proposes to use.[33] Section 627.072, F.S., prescribes factors used in the determination of rates. Section 627.091(1), F.S., requires every insurer to file with the OIR every manual of classifications, rules, and rates, and every rating plan, which it proposes to use. Rate filings for workers' compensation are subject to approval by the OIR before they become effective. The standard for approving insurance rates in Florida and most states is that the rate may not be excessive, inadequate, or unfairly discriminatory.[34]

[32] S. 627.0628(3) (d), F.S.
[33] Section 627. 091(4), F.S., allows an insurer to satisfy this obligation by becoming a member of a licensed rating organization, which makes such filings on its behalf. The law expressly provides that an insurer is not required to be a member of any rating organization, but all workers' compensation insurers in Florida have chosen to do so. Currently, all workers' compensation insurers are members of the National Council on Compensation Insurance.
[34] Section 627.062, F.S.

Current Florida law and the rating plans approved by OIR allow for various ways for insurers to compete in the market by varying or adjusting premiums, including retrospective (retro) rating plans that adjust the premium at the end of the policy period to reflect the actual loss experience of the employer. In a retro rating plan, the insurer and employer agree that the final premium paid will be based upon losses actually incurred in the policy period. The insurer and employer negotiate on certain expenses, charges, taxes, and assessments, based upon minimum and maximum premiums. Retrospective rating has been a component of workers' compensation rating for over 50 years in Florida and nationwide. The National Council on Compensation Insurance (NCCI) has filed actuarially sound rating plans.

In 1991, the NCCI filed the Large Risk Alternative Rating Option (LRARO) in Florida. The LRARO was described as providing greater flexibility of negotiation between an insurer and employer for risks with over $1,000,000 in standard premium." In 1991, the Department of Insurance (predecessor of the Office of Insurance Regulation) disapproved the use of the LRARO on the basis that it did not comply with s. 627.091(1), F.S., and that the LRARO was not a rating plan but an agreement to use any factors acceptable to both parties.[35] Subsequently, in 1993, an insurer filed its own version of the LRARO and the Department of Insurance disapproved it. The rejection of the plan was primarily on the basis that the use of the LRARO would not allow agency oversight as to the determination of premiums since it proposed to allow the insurer and prospective insureds to agree unilaterally on the components to be used in the rating process.[36] The insurer appealed the disapproval to the Division of Administrative Hearings (DOAH) and DOAH found that the Department of Insurance was justified in disapproving the plan.

Currently, the LRARO plans are available in the majority of the states. However, Alaska, Arkansas, Florida, and Nebraska do not allow its use.[37] The NCCI retro plan rule, which does not apply in Florida, provides that an insured is eligible for the LRARO if the estimated standard premium individually or in any combination with any other commercial casualty lines of insurance exceeds an annual standard premium eligibility threshold of $500,000 for the term of a retrospective rating plan. The following table provides examples of states with different annual standard premium eligibility thresholds for LRARO.[38]

[38] *Id.*

LRARO Premium Eligibility Threshold	
State	**Annual Standard Premium**
Arizona	$250,000
Kansas	$1,000,000
Minnesota	$250,000
Nevada	$250,000
New Hampshire	$250,000
North Carolina	$250,000

Refunds to Insureds from the Workers' Compensation Joint Underwriting Association

The Florida Workers' Compensation Joint Underwriting Association (FWCJUA)[39] is the market of last resort for workers' compensation and employers' liability coverage. Only employers that cannot find coverage in the voluntary market are eligible for coverage in the FWCJUA. At the end of October 2013, the FWCJUA had 1,636 policies with corresponding premiums of $29.4 million.[40]

The FWCJUA has a three-tier rating plan. As a brief overview, Tier 1 is for employers with good loss experience; Tier 2 is for employers with moderate loss experience and non-rated new employers; and Tier 3 is for employers not eligible for Tiers 1 or 2.[41] As of January 1, 2014, the premium for Tier 1 is five percent above voluntary rates, Tier 2 is 20 percent above voluntary rates, and Tier 3[42] is 75 percent above voluntary rates. Additionally, all three tiers have a flat surcharge of $475. Tier 3 policies are also subject to assessment if premiums are not sufficient to cover losses and expenses.

Misrepresentations on Insurance Applications and Cancellation of Insurance Policies

Section 627.409, F.S., provides recovery under an insurance policy may be prevented if a misrepresentation, omission, concealment of fact, or incorrect statement on an application for insurance (1) is fraudulent or is material either to the acceptance of the risk or to the hazard assumed by the insurer or (2) if the true facts had been known to the insurer, the insurer would not have issued the policy, would not have issued it at the same premium rate, would not have issued a policy in as large an amount, or would not have provided coverage with respect to the hazard resulting in the loss. If an insurer discovers a misrepresentation or omission after issuing the policy, it may deny coverage after a claim is made. In *Nationwide Mutual Fire Insurance*

[39] The Florida Workers' Compensation Insurance Plan (FWCIP) was the residual market for Florida until the FWCJUA was created on January 1, 1994.
[40] *See* "2013 Workers' Compensation Annual Report," Florida Office of Insurance Regulation (December 31, 2013). Available at: http://www.floir.com/search/search.aspx#2013 workers compensation annual report (Last accessed March 21, 2014).
[41] For further specifics, see the FWCJUA's website: http://www.fwcjua.com/.
[42] In addition, an Assigned Risk Adjustment Program (ARAP) surcharge applies for Tier 3.

Company v. Kramer,[43] an insurer refused to pay a claim for a stolen automobile because the insureds did not disclose a previous bankruptcy filing. In *Kieser v. Old Line Insurance Company of America*,[44] an insurance company refused to pay a life insurance policy because the insured failed to disclose certain health conditions and failed to disclose that he was shopping for other life insurance policies. In *Universal Property and Casualty Insurance Company v. Johnson*,[45] an insurance company refused to pay a property insurance claim because the insureds failed to disclose prior criminal history. A misrepresentation from or an omission in an insurance application need not be intentional in order for the insurance company to deny recovery.[46]

Section 627.4133(2), F.S., requires notice to the insured before an insurer can cancel, nonrenew, or terminate any personal lines or commercial residential property insurance policy. The timing of the notice ranges from ten days for nonpayment of premium to 120 days for certain policyholders.[47] After the policy has been in effect for 90 days, such a policy cannot be canceled unless there has been a material misstatement, a nonpayment of premium, a failure to comply with underwriting requirements within 90 days after the date of effectuation of coverage, or a substantial change in the risk covered by the policy.[48] According to the DFS, there are instances of insurance companies reviewing a policyholder's application for insurance after a claim has been filed and denying coverage based on misrepresentations about credit history.[49]

Notice of Cancellation or Nonrenewal

The requirements for an insurer to give notice of cancelling or nonrenewing a residential property insurance policy are contained in s. 627.4133(2), F.S. The specific notice depends on the particular circumstances of the policy being nonrenewed, as follows:

- Generally, an insurer must give the insured 100 days written notice of nonrenewal or cancellation;
- For any nonrenewal or cancellation that would be effective between June 1 and November 30 (hurricane season), an insurer must give notice by June 1, or 100 days, whichever is earlier;
- If the nonrenewal or cancellation would be effective between June 1 and November 30, but the reason is a revision in sinkhole coverage, the insurer must give the insured 100 days written notice of nonrenewal;
- If the nonrenewal or cancellation would be effective between June 1 and November 30, but the policy is to be nonrenewed by Citizens pursuant to an approved assumption plan by an authorized insurer, Citizens must give the insured 45 days written notice of nonrenewal;
- If the insured structure has been insured by the insurer or an affiliate for at least five years, the insurer must give 120 days' notice of nonrenewal or cancellation;
- If the cancellation is for nonpayment of premium, the insurer must give 10 days' notice of cancellation accompanied by the reason for the cancellation;

[43] 725 So.2d 1141 (Fla. 2d DCA 1998).
[44] 712 So.2d 1261 (Fla. 1st DCA 1998).
[45] 114 So.3d 1031 (Fla. 1st DCA 2013).
[46] *Universal Property and Casualty Insurance Company*, 114 So.3d at 1035.
[47] *See* s. 627.4133(2), F.S.
[48] *Id*.
[49] *See* Department of Financial Services, *Senate Bill 708 Analysis* (February 4, 2014)(on file with the Committee on Banking and Insurance).

- If the OIR finds that the early cancellation is necessary to protect the best interests of the public or policyholders, the insurer must give the insured 45 days' written notice of cancellation or nonrenewal;
- If a policy covers both home and motor vehicle, the insurer must give the insured 100 days written notice of nonrenewal.

Required Disclosures by Liability Insurers

Under current law, a liability insurer must provide to a claimant a statement containing the following information within 30 days of a written request by the claimant:

- The name of the insurer;
- The name of each insured;
- The limits of the liability coverage;
- A statement of any policy or coverage defense which such insurer reasonably believes is available to the such insurer at the time of filing such statement; and
- A copy of the policy.

Further, the above statement must be under oath by a corporate officer or the insurer's claims manager or superintendent.

Delivery of Insurance Policies Electronically

Section 627.421, F.S., requires every insurance policy[50] to be mailed or delivered to the insured (policyholder) within 60 days after the insurance takes effect. Insurance policies are typically only delivered when the policy is issued and are not delivered each time the policy is renewed. The Federal Electronic Signatures in Global and National Commerce Act (E-SIGN) applies to electronic transactions involving interstate commerce.[51] Insurance is specifically included in E-SIGN.[52] E-SIGN provides contracts formed using electronic signatures on electronic records will not be denied legal effect only because they are electronic. However, E-SIGN requires consumer disclosure and consent to electronic records in certain instances before electronic records will be given legal effect. Under E-SIGN, if a statute requires information to be provided or made available to a consumer in writing, the use of an electronic record to provide or make the information available to the consumer will satisfy the statute's requirement of writing if the consumer affirmatively consents to use of an electronic record. The consumer must also be provided with a statement notifying the consumer of the right to have the electronic information made available in a paper format and of the right to withdraw consent to electronic records, among other notifications.

In addition, s. 668.50, F.S., Florida's Uniform Electronic Transaction Act (UETA), is similar to the federal E-SIGN law. The UETA specifically applies to insurance and provides a requirement in statute that information that must be delivered in writing to another person can be satisfied by

[50] s. 627.402, F.S., defines policy to include endorsements, riders, and clauses. Reinsurance, wet marine and transportation insurance, title insurance, and credit life or credit disability insurance policies do not have to be mailed or delivered. (see s. 627.401, F.S.)
[51] Section 101, Electronic Signatures in Global and National Commerce Act, Pub. L. no. 106-229, 114 Stat 464 (2000). Many of the provisions of E-SIGN took effective October 1, 2000.
[52] *Id.*

delivering the information electronically if the parties have agreed to conduct a transaction by electronic means.

In 2013, legislation[53] was enacted allowing all insurance policies to be electronically transmitted to the policyholder. The legislation also contained specific electronic delivery parameters for insurance covering commercial risks.

Change of Policy Terms in Insurance Policies

An insurer must give the policyholder written Notice of Change in Policy Terms with the policy renewal notice to make a change in the terms of a property and casualty insurance contract. Additionally, the notice must comply with current law, which requires insurers to give notice of renewal 45 days prior to the renewal date.[54] A policyholder is deemed to accept the policy term change if the renewal premium is paid. If the insurer does not provide the Notice of Change in Policy Terms to the policyholder, the terms of the insurance policy are not changed.

Mitigation Discount Verification for Citizens Property Insurance Corporation

Since 2003, insurers have been required to provide mitigation credits, discounts, other rate differentials, or reductions in deductibles (mitigation discounts) to reduce residential property insurance premiums for properties with mitigation features.[55] Section 627.711, F.S., requires insurers to clearly notify an applicant or policyholder of a personal lines residential property insurance policy of the availability and range of each premium discount, credit, other rate differential, or reduction in deductibles, for wind mitigation. The notice must be provided when the policy is issued and renewed.

Typically, policyholders are responsible for substantiating to their insurers that the insured property has mitigation features. Policyholders submit a completed uniform mitigation verification inspection form to the insurer to substantiate mitigation features. Insurers must accept mitigation forms prepared by home inspectors, building code inspectors, contractors, engineers, and architects and may accept forms prepared by persons determined to be qualified by the insurer to prepare the form.

Insurers can require mitigation forms provided to the insurer by mitigation inspectors or mitigation inspection companies be independently verified for quality assurance purposes before accepting the mitigation form as valid. The insurer must pay for the independent verification.[56] At their expense, insurers can also independently verify, for quality assurance purposes, mitigation forms submitted by policyholders or insurance agents.

[53] Ch. 2013-190, L.O.F.
[54] s. 627.43141, F.S.
[55] s. 627.0629(1)(a), F.S. Mitigation features are construction techniques used or items purchased and installed by a property owner to protect a structure against windstorm damage and loss. (e.g., hurricane shutters, hip roof, specified roof covering).
[56] s. 627.711(8), F.S.

Personal Injury Protection Insurance (PIP)

In 2012, the Legislature enacted HB 119,[57] making substantial changes to laws applying to Florida's PIP requirements. Among numerous other changes, the bill amended s. 627.736(5)(a)2., F.S., by establishing the date on which changes to the Medicare fee schedule or payment limitation are effective. The new provision states, in part:

> [T]he applicable fee schedule or payment limitation under Medicare is the fee schedule or payment limitation in effect on March 1 of the year in which the services, supplies, or care is rendered…and the applicable fee schedule or payment limitation applies throughout the remainder of that year….

The above language created uncertainty as to whether the Medicare fee schedule in place on March 1st applied just to the end of the calendar year or applied through the end of February of the following year. On November 6, 2012, the OIR issued Informational Memorandum OIR-12-06M,[58] stating that the plain language of the section requires the fee schedule in place on March 1, to apply throughout the following 365 days, or until March 1, of the following year.

Preinsurance Inspection of Private Passenger Motor Vehicles

Section 627.744, F.S., requires preinsurance inspections of private passenger motor vehicles, but lists various exemptions, including for new, used motor vehicles "purchased" from a licensed motor vehicle dealer or leasing company when the insurer is provided with the bill of sale, buyer's order, or copy of the title and certain other documentation. Despite the exemptions, an insurer may require a preinsurance inspection of any motor vehicle as a condition of issuance of physical damage coverage. Applicants for insurance may be required to pay the cost of the preinsurance inspection, not to exceed five dollars.

Title Insurance

In Florida, title insurers operate on a monoline basis, meaning that the insurer can only transact title insurance and cannot transact any other type of insurance. Pursuant to s. 627.782, F.S., the Financial Services Commission (FSC) is mandated to adopt a rule specifying the premium to be charged by title insurers for the respective types of title insurance contracts and, for policies issued through agents or agencies, the percentage of such premium required to be retained by the title insurer, which shall not be less than 30 percent. The FSC must review the premium not less than once every three years. Title insurers and title insurance agencies are required to submit to the Office of Insurance Regulation (OIR), on or before March 31st of each year, revenue, loss, and expense data for the most recently concluded year that are determined necessary to assist in the analysis of premium rates, title search costs, and the condition of the Florida title insurance industry.

Model Holding Company Act and Regulations

For years, the OIR's financial oversight authority has included a review of transactions among affiliates and members of insurance holding companies by adopting the National Association of Insurance Commissioners' (NAIC) Model Insurance Holding Company Act.

In response to the recent financial crisis, the NAIC's Solvency Modernization Initiative (SMI)[59] studied key group supervision issues for insurance holding company systems. In light of the 2008 liquidity crisis and collapse of American International Group, Inc., the SMI's efforts focused on the risks and activities of non-insurance entities within insurance holding companies, concluded there was a corresponding regulatory need to obtain affiliates' financial information, such as enterprise risk. The NAIC model act defines "enterprise risk" as:

> [A]ny activity, circumstance, event, or series of events involving one or more affiliates of an insurer that, if not remedied promptly, is likely to have a material adverse effect upon the financial condition or liquidity of the insurer of its insurance company as a whole, including, but not limited to, anything that would cause the insurer's risk-based capital as set forth in [state requirement] or would cause the insurer to be in a hazardous financial condition.[60]

As a result, the NAIC adopted revisions to its *Model Insurance Holding Company System Regulatory Act and Regulations* in December 2010**,** which states must adopt as an accreditation component. These revisions include:

- Expansions to regulators' ability to evaluate any entity within an insurance holding company system;
- Enhancements to the regulator's rights to access books and records and to compel production of information;
- Establishment of expectation of funding with regard to regulator participation in supervisory colleges;
- Enhancements in corporate governance, such as board of directors and senior management responsibilities;
- The inclusion of financial statements as part of an affiliate's registration requirements; and
- Enterprise risk reporting requirements.

Currently, s. 628.461, F.S., provides that a person or affiliated person[61] must file a letter of notification and a statement for the OIR's approval before concluding a tender offer to acquire five percent or more of a domestic stock insurer or of a controlling company. The statute also sets forth the information required to be disclosed in the statement, which includes criminal and regulatory history information. Alternatively, a party acquiring less than 10 percent of the outstanding voting securities of an insurer may file a disclaimer of affiliation of control, and such disclaimer must fully disclose all material relationships and affiliation with the insurer, as well as

[59] NAIC Solvency Modernization Initiative (last viewed February 3, 2014), at http://www.naic.org/index_smi.htm
[60] Section 1(F) of the NAIC Model Insurance Holding Company System Regulatory Act.
[61] Currently, "affiliated person" is defined in s. 628.461(12)(a), F.S., to include spouses, parents and lineal descendants, and persons affiliated through 5 percent ownership, common control, or management.

the reason for such disclaimer (this disclaimer is mandatory for acquisitions of more than 10 percent).

During the pendency of the OIR's review of an acquisition filing, the insurer is not permitted to make a "material change" to its operation or management, unless the OIR has approved or been notified, respectively. A "material change" consists of a disposal or obligation of five percent or more of the insurer's capital and surplus, or a change in management involving a person who has the authority to dispose or obligate five percent of the insurer's capital and surplus.

Service Warranty Associations

A service warranty is generally defined as a contract to perform the repair or replacement of a consumer product for failure due to a defect.[62] A service warranty association is defined as any person, other than an authorized insurer, issuing service warranties.[63]

Section 634.406, F.S., establishes the financial requirements, ratios, and limitations on service warranty associations. A service warranty association can allow its premiums to exceed the ratio to net assets limitations of s. 634.406, F.S., only if the association meets all of the following:

- Maintains net assets of at least $750,000.
- Utilizes a contractual liability insurance policy approved by the office which:
  - Reimburses the service warranty association for 100 percent of its claims liability and is issued by an insurer that maintains a policyholder surplus of at least $100 million; or
  - Complies with the requirements of subsection (3)[64] and is issued by an insurer that maintains a policyholder surplus of at least $200 million.
- The insurer issuing the contractual liability insurance policy:
  - Maintains a policyholder surplus of at least $100 million.
  - Is rated "A" or higher by A.M. Best Company or an equivalent rating by another national rating service acceptable to the OIR.
  - Is in no way affiliated with the warranty association.
  - Provides a statement certifying the gross written premiums is covered under the contractual liability policy, whether or not it has been reported.

[62] S. 634.401(13), F.S.
[63] S. 634.401(14), F.S.
[64] Subsection (3) of s. 634.406, F.S., states that a warranty association need not establish an unearned premium reserve if it purchases contractual liability insurance that covers 100 percent of its claims liability from an authorized insurer. The terms of the policy must contain the following (a) state the insurer will pay losses and unearned premium refunds directly to a person making a claim under the warranty association contract in the event the services warranty association does not do so; (b) the insurer must assume full responsibility for administering claims if the warranty association cannot do so; (c) 60 days written notice must be given to the OIR prior to policy cancellation; (d) the policy must insure all service warranty contracts issued while the policy was in effect whether or not the premium has been remitted to the insurer; (e) If the insurer is fulfilling the service warranty covered by the policy and the service warranty holder cancels the warranty, the insurer must fully refund unearned premium, subject to a cancellation fee under s. 634.414, F.S.; and (f) a warranty association may not use an unearned premium reserve and contractual liability insurance policy simultaneously. However, the warranty association may have contractual liability coverage on service warranties previously sold and sell new service warranties covered by the unearned premium reserve, and the converse. The warranty association must be able to distinguish how each individual service warranty is covered.

The statute further requires that a contractual liability policy must insure 100 percent of an association's claims exposure under all of the association's service warranty contracts, unless numerous specified conditions are met.

III. Effect of Proposed Changes:

Not-For-Profit Self-Insurance Funds

Section 1 amends s. 624.4625(1)(b), F.S., to permit a publicly supported organization under s. 501(c)(3) or s. 4947(a)(1) of the United States Internal Revenue Code, as evidenced by the participating member's most recently filed Internal Revenue Service Form 990 or 990-EZ, Schedule A, to participate as a member of a not-for-profit self-insurance fund. This option is in addition to current law which provides that each member receive at least 75 percent of its revenues from local, state, or federal government sources.

Unaffiliated Agents (Sections 2, 3, 8, and 41)

According to the DFS, some insurance agents act as advisors to clients for a fee. These agents provide advice and recommendations regarding, among other things, insurance products but do not sell the products. **Section 3** defines in s. 626.015(18), F.S., a new type of insurance agent, an unaffiliated insurance agent, and **Section 8** specifies the scope of the unaffiliated insurance agent license in s. 626.311, F.S. An unaffiliated insurance agent acts as an independent consultant in the business of analyzing or abstracting insurance policies, providing insurance advice or counseling, or making specific recommendations or comparisons of insurance products for a fee established in advance by a written contract signed by the parties. This bill defines this type of agent as a licensed insurance agent, except a limited lines agent, who is not appointed by or affiliated with any insurer, but is self-appointed. This bill prohibits an unaffiliated insurance agent from holding an appointment from an insurer, from transacting an insurance contract for an insurer, and from interfering with commissions from an appointed insurance agent. Unaffiliated insurance agents may continue to receive commissions on sales made before the date of appointment as an unaffiliated insurance agent as long as the agent discloses the receipt of commissions to the client when making recommendations or evaluating products of the entity from which commissions are received.

The unaffiliated agent is not appointed by an insurer to sell insurance products. This can lead to a situation where an agent's license expires because the agent is not appointed during a four-year period.[65] This bill allows an unaffiliated agent to appoint himself or herself. S**ection 2** amends s. 624.501, F.S., to require unaffiliated insurance agents to pay the same agent appointment fees required under current law for agents appointed by insurers.

Section 41 creates s. 627.4553, F.S., to require insurance agents, insurers, or persons performing insurance agent activities under an exemption from licensure, who recommend that a consumer surrender an annuity or life insurance policy with a cash value, but who do not recommend that another such policy be purchased with the proceeds from the surrender, to provide the consumer with information relating to the product to be surrendered before execution of the surrender. The information must include that the amount of any surrender charge, tax consequences resulting

[65] Phone interview with DFS staff.

from the transaction, and forfeited death benefit. The consumer must also be informed about the loss of any minimum interest rate guarantees and the value of any other investment performance guarantees that will be forfeited as a result of the transaction. This bill requires the DFS to adopt rules and forms so the required information can be provided.

Agent in Charge and Branch Agencies (Sections 4, 13, and 14)

Effective January 1, 2015, **Section 4** creates s. 626.0428(4), F.S., which defines an agent in charge as the licensed and appointed agent responsible for the supervision of all individuals within an insurance agency location. Each business location established by an agent or insurance agency must be in the active full-time charge of a licensed and appointed agent holding the required licenses for the lines of insurance transacted at the location. The agent in charge of an insurance agency may be the agent in charge of additional branch locations if: (1) insurance activities requiring licensure as an insurance agent do not occur at the locations when an agent is not physically present, and (2) unlicensed employees at the locations do not engage in insurance activities that require licensure as an insurance agent or customer representative.

This bill requires each insurance agency and branch office to designate an agent in charge and to file the agent's name, license number, and physical address of the insurance agency location with the DFS at the DFS website. A change of the designated agent in charge must be reported to the DFS within 30 days, and becomes effective upon notification to the DFS.

This bill provides that an insurance agency location is precluded from conducting the business of insurance unless an agent in charge is designated by and providing services to the agency at all times. When the agent in charge ends his or her affiliation with the agency, the agency must designate another agent in charge within 30 days. If the agency fails to make such designation within 90 days after the designated agent has ended his or her affiliation with the agency, the agency license automatically expires 91 days after the designated agent ended his or her affiliation with the agency.

This bill provides that an agent in charge of an insurance agency is accountable for the wrongful acts, misconduct or violations committed by the licensee or agent or by any person under her or his supervision acting on behalf of the agency. However, the agent in charge is not criminally liable for the misconduct unless she or he personally committed the act or knew or should have known of the acts and of the facts that constitute the violation.

Section 13 repeals s. 626.747, F.S., relating to branch agencies, effective January 1, 2015. The section is incorporated and expanded in the new s. 624.0428(4), F.S.

Section 14 amends, s. 626.8411(1)(b), F.S., correcting a cross reference to properly cite the new branch agency requirements created by Section 7.

Insurance Agency Licensing and Registration (Sections 5, 6 and 7)

Section 5 amends s. 626.112, F.S., prohibiting the DFS from issuing limited customer service licenses, effective October 1, 2014.

Section 6 also amends s. 626.112, F.S., eliminating the insurance agency licensing requirement for agencies that are owned and operated by a single licensed agent who conducts business in her or his own name and does not employ or use other insurance licensees, effective January 1, 2015.

The bill provides that a branch place of business established by a licensed agency is considered a branch agency.[66] A branch agency is not required to be licensed if it: (1) transacts business under the same name and federal tax identification number as the licensed agency and has designated with the DFS a licensed agent in charge of the branch location; and (2) has submitted to the DFS for inclusion in the licensing record of the licensed agency the address and telephone number of the branch location within 30 days after insurance transactions began at the branch location.

This bill no longer allows certain insurance agencies to obtain a registration in lieu of a license and makes conforming changes due to this repeal. This bill converts all agency registrations to licenses effective October 1, 2015. Effective January 1, 2015, the bill also eliminates the three-year expiration of an agency license. Thus, an agency license will continue in force until canceled, suspended, revoked, or until it is otherwise terminated or it expires by operation of law.

Section 7 amends s. 626.172, F.S., allowing an owner, partner, officer, director, president, senior vice president, secretary, treasurer, and limited liability company member who directs or participates in the management and control of the agency, to complete and sign an insurance agency application. This bill also allows a third party to complete, submit, and sign an agency license application on the agency's behalf. However, the agency is responsible for ensuring that the information provided by the third party is true and correct and is accountable for any misstatements or misrepresentations.

This bill also requires additional information relating to an agency or branch agency to be provided on the agency license application. Such additional information includes the name, address, and e-mail address of the agency's registered agent or person authorized to accept service on the agency's behalf, the physical address of the branch location, including its name, e-mail address, and telephone number, the date that the branch office began transacting insurance, and the fingerprints of each individual required to be listed in the agency application.

Motor Vehicle Retail Insurance License

Section 9 amends s. 626.321(1), F.S., changing the limited license statute for motor vehicle rental insurance. Under current law, a limited license to sell motor vehicle rental insurance can be issued to a business that offers motor vehicles for rent or lease. A license issued to a rental business covers each office, branch office, or place of business associated with the rental

[66] This bill further provides that a license issued to a business entity that offers motor vehicles for rent encompasses each employee or authorized representative at a designated branch.

business. The bill expands this coverage to include each employee working at the rental business. Thus, all employees would be covered by the rental business' license to sell rental insurance. According to DFS, the agency interprets the current law relating to rental insurance licensing to mean the license for the rental company business covers each branch office and each employee working at the rental business. Thus, the change made by the bill is clarifying and is consistent with the application of the current law by the DFS.

Continuation of Insurance Agency Licensure

Section 10 amends s. 626.382, F.S., to allow an insurance agency license to continue in force until it is cancelled, suspended, revoked, terminated, or expires by operation of law. Under current law, the license is issued for a three-year period and may be renewed.

Mediators, Navigators, and Neutral Evaluators (Sections 11, 12, 42, 44, 45, and 50)

Section 11 amends s. 626.601, F.S., to authorize the Department of Financial Services to inquire into alleged improper conduct of mediators, neutral evaluators, and navigators and subsequently initiate and conduct an investigation if reasonable cause exists of an insurance code violation.

Section 42 amends s. 627.7015(4)(b), F.S., to specify that the requirements for qualification as a mediator of liability claims under s. 627.745, F.S., are also the standards that the DFS applies for denial of application, suspension, revocation, and other penalties for mediators who participate in the DFS property insurance mediation program.

Section 44 amends s. 627.706(2)(c), F.S., to specify that a sinkhole neutral evaluator is a person who is not otherwise ineligible for certification as a neutral evaluator under s. 627.7074, F.S.

Sections 45 and 50 amend s. 627.7074, F.S., and s. 627.745, F.S., to require the DFS to deny an application or revoke its approval of a mediator or neutral evaluator for any of the following:

- Lack of one or more of the qualifications required for approval or certification.
- Material misstatement, misrepresentation, or fraud in obtaining or attempting to obtain approval or certification.
- Demonstrated lack of fitness or trustworthiness to act as a mediator or neutral evaluator.
- Fraudulent or dishonest practices in the conduct of mediation or neutral evaluation or in conducting business in the financial services industry.
- Violation of any provision of the Florida Insurance Code; a lawful order or rule of the DFS; or aiding, instructing, or encouraging another party to commit such a violation.

The bill grants rulemaking authority to administer these requirements.

Section 50 also changes the requirements for qualifying as a mediator under the motor vehicle insurance claim mediation program for personal injury claims of $10,000 or less, or for property damage claims of any amount. Under the bill, a mediator must possess an active certification as a Florida Circuit Court Mediator or be an appointed department mediator as of July 1, 2014, who has conducted at least one mediation on behalf of the DFS within four years prior to that date. This provision essentially grandfathers in current and active mediators so they can continue, even if they are not certified as a Florida Circuit Court Mediator. The bill eliminates the 40-hour

mediation training program and test that all mediators currently must complete in order to be approved as a mediator under the program. In order to become certified as a Florida Circuit Court Mediator, one must fulfil education requirements set by the Florida Supreme Court, complete a mediation training program certified by the Florida Supreme Court, and observe and conduct mediations under the supervision of a certified mediator.[67]

Section 12 amends s. 626.621, F.S., to allow the DFS to deny an application for, suspend, revoke, or refuse to renew or continue a license or appointment of an agent, adjuster, customer representative, service representative, or managing general agent who directly or indirectly accepts any compensation, inducement, or reward from an inspector or inspection company for referring the owner of the property to the inspector or inspection company.

Insurance Company Adjusters – Notice Requirement

Section 15 repeals s. 626.854(16), F.S., which currently requires insurance company employee adjusters, independent adjusters, attorneys, investigators, or other persons acting on behalf of an insurer to provide at least 48 hours' notice to the insured, claimant, public adjuster, or legal representative before scheduling a meeting with the claimant or an onsite inspection of the insured property. A prohibition on public adjusters contacting or contracting with insureds and claimants within 48 hours of a loss in s. 626.854(6), F.S., was ruled unconstitutional by the Florida Supreme Court in 2012.

Insurance Administrators – Certificate of Authority Requirements

Section 16 amends s. 626.8805, F.S., changing the information that must be filed with the OIR or made available for OIR inspection as part of an application for a certificate of authority to act as an insurance administrator. The bill requires the applicant to provide the names, addresses, official positions, and professional qualifications of individuals who are employed or retained by the administrator and who are responsible for the conduct of the affairs of the administrator. Current law contains a broader standard, requiring information of any person who exercises control or influence over the affairs of the administrator.

Insurance Administrators – Oversight Responsibilities of Insurers

Sections 17-20 amend ss. 626.8817, 626.882, 626.883, and 626.884, F.S., to allow an insurer who uses the services of an administrator to contract with a qualified third party to conduct the required semiannual review of an administrator that administers benefits for more than 100 certificateholders on behalf of the insurer.

The bill also specifies that the written agreement between an insurer and an administrator that details the responsibilities of the insurer and administrator specifies the rights, duties, and obligations of the administrator and insurer. Any restrictions regarding the proprietary rights of the insurer and administrator related to continuing access to books and records maintained by the administrator are governed by the written agreement between the parties required under s. 626.8817, F.S.

[67] *See* http://www.flcourts.org/core/fileparse.php/283/urlt/HowToBecomeMediator.pdf (last accessed February 7, 2014).

Insurance Administrators – Annual Financial Statement

Section 21 amends s. 626.89, F.S., to change the date by which an administrator must file an annual financial statement with the OIR. The bill requires administrators to file the statement with the OIR within three months after the end of the administrator's fiscal year, rather than by April 1 as required under current law. The bill also allows the financial statement to cover the previous fiscal year, rather than a calendar year, if the administrator's accounting is on a fiscal year basis. Administrators must file an independently audited financial statement annually with the OIR within five months of the administrator's fiscal year, rather than by June 1 as required under current law.

Repeal of Surplus Lines Agent Affidavit Requirement

Section 22 amends s. 626.931, F.S., to eliminate the requirement that each surplus lines agent must, on or before the 45th day following each calendar quarter, file with the Florida Surplus Lines Service Office (FSLSO) an affidavit stating that all surplus lines insurance he or she transacted during that calendar year has been submitted to the FSLSO and that includes efforts made to place coverage with authorized insurers and the results of those efforts. However, surplus lines agents must still file a copy of information on each surplus lines transaction with the FSLSO in accordance with the FSLSO's plan of operation.

Sections 23-25 amend ss. 626.932, 626.935, and 626.936, F.S., to conform to the elimination of the affidavit requirement in s. 626.89, F.S.

Insurance Discounts for Motor Vehicle Equipment

Section 30 amends s. 627.0653, F.S., to specify that the OIR, when reviewing a rate filing for liability, personal injury protection, and collision coverages for motor vehicle insurance policies, may approve a premium discount applicable to the rates for vehicles equipped with electronic vehicle crash avoidance technology that is factory installed or a retrofitted system that complies with the National Highway Traffic Safety Administration standards.

Use of Hurricane Models in Rate Filings

Section 27 amends s. 627.062, F.S., to specify that the Office of Insurance Regulation, when reviewing a rate filing, must consider projections of hurricane losses estimated using a straight average of model results or output ranges independently found acceptable or reliable by the Florida Commission on Hurricane Loss Projection Methodology, and as further provided in s. 627.0628, F.S.[68]

[68] Section 627.0628, F.S., tasks the Florida Commission on Hurricane Loss Projection Methodology with considering actuarial methods, principles, standards, models, or output ranges that have the potential for improving the accuracy or reliability of hurricane loss projections used in rate filing and probable maximum loss levels. Insurers are prohibited from using in a rate filing a modified or adjusted model, actuarial method, principle, standard, or output range that the commission has found accurate or reliable.

Section 28 amends s. 627.0628, F.S., to increase from 60 days to 180 days the time an insurer is not required to use the newest version of a model approved by the Commission on Hurricane Loss Projection Methodology. This section also specifies that an insurer is not prohibited from using a straight average of model results or output ranges or using straight averages in a rate filing.

Motor Vehicle Insurance Rating

Section 29 amends s. 627.0651, F.S., to allow motor vehicle insurance rating programs that result in at least a single zip code as a rating territory for motor vehicle insurance rates. The bill will allow the use of such territories that are filed with the OIR if the territory incorporates sufficient loss data to be actuarially measurable and credible. The OIR would determine if the rates for such territories are excessive, inadequate, or unfairly discriminatory. Current law prohibits the use of a single zip code as a rating territory as being unfairly discriminatory.

Workers' Compensation Retrospective Rating Plans

Section 31 amends s. 627.072, F.S., allowing an insurer and employer to negotiate the retrospective plan rating factors that can be used for calculating the premium when the employer has multistate exposure, an estimated annual standard premium in Florida of at least $100,000 for workers' compensation, and an annual estimated countrywide standard premium of $750,000 or more for workers' compensation. Such plans and forms must be filed with the OIR. Only insurers with at least $500 million in surplus as to policyholders may negotiate premium with eligible employers.

Section 32 provides a technical conforming cross reference in s. 627.281, F.S.

Florida Workers' Compensation Joint Underwriting Association (FWCJUA) Dividend and Premium Refunds

Section 33 amends s. 627.311(5)(h), F.S., authorizing the FWCJUA to retain for future use any dividends that cannot be paid to former insureds of the FWCJUA for reasons set forth in the declaration of the dividend. Currently, the FWCJUA reports the property[69] and owner's name, last known address, and other information to the Department of Financial Services, Bureau of Unclaimed Property. The owner can claim her or his property at no cost, any time, regardless of the amount.[70] The bill eliminates the ability of a person to recover unclaimed property that is left in possession of the FWCJUA at any time in the future. The FWCJUA will not report unclaimed property to the DFS and will ultimately use the unclaimed funds in its possession.

Repeal of Duplicative Citizens Property Insurance Corporation Report

Section 35 repeals 627.3519, F.S., because it requires a report that is duplicative of the report required under s. 627.35191, F.S.

[69] Over the past 5 years, the FWCJUA has reported unclaimed property totaling $279,499.06 to the DFS. The amount for each year follows: $16,388.32 (2009); $87,813.27 (2010); $63,552.52 (2011); $73,631.27 (2012); $38,113.68 (2013).
[70] *See* chap. 717, F.S., (the Florida Disposition of Unclaimed Property Act) and information on unclaimed property on the website of the Florida Department of Financial Services: http://www.myfloridacfo.com.

Misrepresentations on Insurance Applications and Cancellation of Insurance Policies

Section 36 amends s. 627.409, F.S. The bill provides that if a residential property insurance policy or contract has been in effect for more than 90 days, a claim filed by the insured cannot be denied based on credit information available in the public record. The bill does not change the law relating to other types of insurance or other types of misrepresentations (such as a misrepresentation regarding health or criminal history).

Section 37 amends s. 627.4133(2)(b), F.S., to provide that after a policy or contract has been in effect for more than 90 days, the insurer may not cancel or terminate the policy or contract based on credit information available in public records.

Residential Property Insurance Notice of Cancellation Requirements

Section 37 amends s. 627.4133(2)(b), F.S., to reduce to 120 days the advance written notice of nonrenewal, cancellation, or termination an insurer must give the first-named insured of a personal lines or commercial residential property insurance policy.

Section 34 provides a technical conforming cross reference in s. 627.3518, F.S.

Insurer Sworn Statement Detailing Liability Coverage and Alleged Defenses

Section 38 amends s. 627.4137, F.S., to authorize the licensed company adjuster of an insurer that provides liability insurance coverage to provide the sworn statement required by current law setting forth the name of the insurer, the name of each insured, the limits of liability coverage, a statement of each policy defense the insurer reasonably believes is available, and a copy of the policy. Current law allows the sworn statement to be provided by only the insurer's claims manager or superintendent, or a corporate officer of the insurer.

Electronic Delivery of Personal Lines Insurance Policies

Section 39 amends s. 627.421, F.S., allowing insurers to deliver insurance policies by electronic means in lieu of delivery by mail if the policyholder affirmatively elects electronic delivery. The bill does not likely implicate E-SIGN or UETA because it requires the affirmative consent of the policyholder before the electronic delivery of insurance policy documents.

Notice of Change in Policy Terms Delivered Separately from Notice of Renewal Premium

Section 40 amends s. 627.43141(2), F.S., to allow the Notice of Change in Policy Terms to be sent separately from the Notice of Renewal Premium. If a separate notice is used, it must comply with the nonrenewal mailing time requirement for that particular line of business. Insurers must also provide or make available electronically the Notice of Change in Policy Terms to the insured's insurance agent before or at the same time the notice is given to the insured.

Information Required With the Surrender of Life Insurance or Annuity

Section 41 creates s. 627.4553, F.S., to require insurance agents, insurers, or persons performing insurance agent activities under an exemption from licensure, who recommend that a consumer surrender an annuity or life insurance policy with a cash value, but who do not recommend that another such policy be purchased with the proceeds from the surrender, to provide the consumer with information relating to the product to be surrendered before execution of the surrender. The information must include that the amount of any surrender charge, tax consequences resulting from the transaction, and forfeited death benefit. The consumer must also be informed about the loss of any minimum interest rate guarantees and the value of any other investment performance guarantees that will be forfeited as a result of the transaction. This bill requires the DFS to adopt rules and forms so the required information can be provided.

Conflict of Interest Standards for Residential Property Insurance Appraisal Umpires

Section 43 creates s. 627.70151, F.S., to only allow a residential property insurer or policyholder to challenge the impartiality of an appraisal umpire if:

- A familial relationship within the third degree exists between the umpire and a party or a representative of a party;
- The umpire previously professionally represented a party or party representative in the same or a substantially related matter;
- The umpire has represented another person in a professional capacity on the same claim or a substantially related claim whose interests are materially adverse to the interests of any party; or
- The umpire has been an employer or employee of a party within the preceding five years.

Notice to Policyholder of Availability of Sinkhole Neutral Evaluation

Section 45 amends s. 627.7074(3), F.S., to limit the circumstances when an insurer must notify a policyholder of the right to participate in neutral evaluation of a sinkhole claim. The insurer must provide the notice only if there is sinkhole coverage on the damaged property and if the sinkhole claim was submitted within the statute of limitations period which is two years after the policyholder knew or reasonably should have known about the sinkhole loss. There are no parameters under current law about notification of neutral evaluation. Thus, insurers are required to notify a policyholder about neutral evaluation in cases where there is no sinkhole coverage or when the sinkhole claim is untimely filed.

Verification of Uniform Mitigation Verification Forms

Section 46 amends s. 627.711(8), F.S., to provide an exception to the mitigation form independent verification process for Citizens only. The bill does not allow independent verification of mitigation discount forms submitted to Citizens if a quality assurance program approved by Citizens reviewed and verified the form when it was submitted. In addition, Citizens is not allowed to reinspect a property to confirm mitigation features if the mitigation form was reviewed and verified by a quality assurance program approved by them. The bill also allows insurers to exempt such forms from independent verification if the form is submitted by a company with a quality assurance program that meets the standards established by the insurer.

Return of Motor Vehicle Insurance Premiums

Section 47 amends s. 627.7283, F.S., to allow the insurer to electronically transfer unearned premium to a policyholder who cancels a motor vehicle insurance policy. The insurer may also deliver the unearned premium by mail. Current law is retained requiring the insurer to refund the unearned premium within 30 days of the later of the policy cancellation date or the date the insurer receives notice of the cancellation.

Section 26 amends s. 626.9541(1)(q), F.S., the unfair insurance practices act, to specify that insurers and agents that utilize a credit card facility or seek to insure credit card holders may provide refunds of unearned premium by mail or electronic transfer.

Personal Injury Protection Medical Fee Schedule Clarification

Section 48 amends s. 627.736(5)(a), F.S., to clarify that the Personal Injury Protection medical fee schedule that is effective on March 1 of each year applies until the last day of the following February.

Exemptions to the Preinsurance Inspection of Private Passenger Motor Vehicles

Section 49 amends s. 627.744, F.S., to exempt from preinsurance inspection new, unused motor vehicles that are leased from a licensed motor vehicle dealer or leasing company, if the insurer is provided with a lease agreement that contains a full description of the motor vehicle or a copy of the registration and a copy of the window sticker. In addition, this section deletes the preinsurance inspection exemption for new, unused motor vehicles purchased if the following conditions apply:

- If the bill of sale or buyer's order contains a full description of all options and accessories, or
- If the dealer invoice showing the itemized options, equipment, and total retail price is submitted as documentation.

Title Insurance Data Submission to the OIR

Section 51 amends s. 627.782, F.S., to extend the date by which title insurers and title insurance agencies must annually submit data on the title insurance industry to the OIR for the most recently concluded year from March 31 to May 31.

Requirements Related to Acquisition of Controlling Stock

Section 52 amends s. 628.461, F.S., relating to acquisition of controlling stock of a domestic stock insurer or a controlling company. The bill increases from five percent to 10 percent the amount of stock that is considered "controlling stock" of an insurer or controlling company. Currently, s. 628.461, F.S., provides that a person or affiliated person must file a letter of notification and a statement for the OIR's approval before concluding a tender offer to acquire five percent or more of a domestic stock insurer or of a controlling company. The statement must contain certain criminal, employment, and regulatory history information.

The bill provides that a person may rebut a presumption of control by filing a disclaimer of control on a form prescribed by the OFR or by providing a copy of a Schedule 13G on file with the U.S. Securities and Exchange Commission. After a disclaimer is filed, the insurer is relieved of any further duty to register or report under s. 628.461, F.S., unless the OIR disallows the disclaimer. Under current law, a party acquiring less than 10 percent of the outstanding voting securities of an insurer may file a disclaimer of affiliation of control, and such disclaimer must fully disclose all material relationships and affiliation with the insurer, as well as the reason for such disclaimer (this disclaimer is mandatory for acquisitions of more than 10 percent).

The section deletes the definition of "affiliated person" from the statute.

Florida Life and Health Insurance Guaranty Association (FLHIGA) – Obligation to Pay Claims

Section 53 amends s. 631.717(11), F.S., deleting language stating that the FLHIGA not being subject to statutory bad faith claims under s. 624.155, F.S., does not affect its obligation to pay valid policy or contract claims.

Section 54 amends s. 631.737, F.S., stating that the FLHIGA is obligated to pay valid claims. The amendments to these sections do not affect the obligation of the FLHIGA to pay valid policy or contract claims and will continue to not be subject to the provisions of s. 631.717(11), F.S.

Service Warranty Association Financial Requirements

Section 55 amends s. 634.406, F.S., to revise the requirement that if a service warranty association's premiums exceed the statutorily required 7-to-1 ratio of gross written premium to net assets, it must maintain net assets of $750,000 and maintain a contractual liability insurance policy that reimburses the service warranty association for 100 percent of its claims liability and is approved by the OIR. Under the bill, the contractual liability policy may be issued by an affiliate of the warranty association. Additionally, the insurer issuing the policy must either maintain at least a $100 million policyholder surplus or maintain a policyholder surplus of at least $200 million and issue a policy that complies with the provisions of subsection (3).[71]

[71] Subsection (3) of s. 634.406, F.S., states that a warranty association need not establish an unearned premium reserve if it purchases contractual liability insurance that covers 100 percent of its claims liability from an authorized insurer. The terms of the policy must contain the following (a) state the insurer will pay losses and unearned premium refunds directly to a person making a claim under the warranty association contract in the event the services warranty association does not do so; (b) the insurer must assume full responsibility for administering claims if the warranty association cannot do so; (c) 60 days written notice must be given to the OIR prior to policy cancellation; (d) the policy must insure all service warranty contracts issued while the policy was in effect whether or not the premium has been remitted to the insurer; (e) If the insurer is fulfilling the service warranty covered by the policy and the service warranty holder cancels the warranty, the insurer must fully refund unearned premium, subject to a cancellation fee under s. 634.414, F.S.; and (f) a warranty association may not use an unearned premium reserve and contractual liability insurance policy simultaneously. However, the warranty association may have contractual liability coverage on service warranties previously sold and sell new service warranties covered by the unearned premium reserve, and the converse. The warranty association must be able to distinguish how each individual service warranty is covered.

Effective Date:

Section 56 provides that except as otherwise expressly provided, the bill is effective July 1, 2014.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

CS/CS/SB 1260 allows workers' compensation insurers and larger employers greater flexibility in negotiating retrospective rating plans by allowing the parties to determine the rating factors used to calculate premiums. This change may result in a reduction in premiums for such employers.

The Florida Workers' Compensation Joint Underwriting Association (FWCJUA) declares dividends to its policyholders generally after the expiration of a seven-year look back period. Thus, the 2006 policyholder dividend would likely be declared in 2013. If FWCJUA is unable to pay a former policyholder, it must submit the funds to the Bureau of Unclaimed Property where they can be claimed by the policyholder. The bill will allow the FWCJUA to retain those funds pursuant to the terms set forth in the dividend.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

Section 53 deletes the definition of "affiliated person" from s. 628.461, F.S. The definition helps determine when a person, in conjunction with an affiliated person, has acquired controlling stock. Deletion of this definition may create ambiguity within the statute.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 624.4625, 624.501, 626.015, 626.0428, 626.112, 626.172, 626.311, 626.321, 626.382, 626.601, 626.621, 626.8411, 626.854, 626.8805, 626.8817, 626.882, 626.883, 626.884, 626.89, 626.931, 626.932, 626.935, 626.936, 626.9541, 627.062, 627.0628, 627.0651, 627.0653, 627.072, 627.281, 627.311, 627.3518, 627.409, 627.4133, 627.4137, 627.421, 627.43141, 627.4553, 627.7015, 627.706, 627.7074, 627.711, 627.7283, 627.736, 627.744, 627.745, 627.782, 628.461, 631.717, 631.734, and 634.406.

This bill creates the following sections of the Florida Statutes: 627.4553 and 627.70151.

This bill creates an undesignated section of Florida law.

This bill repeals the following sections of the Florida Statutes: 626.747 and 627.3519.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 22, 2014:
The committee substitute:

- Permits the OIR to approve a premium discount for electronic vehicle crash avoidance technology.
- Permits publicly supported organizations that receive a substantial part of its support from a government entity or from the general public, as evidenced on the entities most recent filing with the Internal Revenue Service, to join a corporation not for profit self-insurance fund.
- Provides an agent, adjuster, customer or service representative, or managing general agency may not directly or indirectly receive compensation, inducement, or reward from an inspector or inspection company for referring the owner of a property to the inspector or an inspection company.
- Revises the conditions when an insurer and employer can negotiate the retrospective plan rating factors that can be used for calculating the premium. Insurers with at least $500 million in surplus as to policyholders may negotiate premium with employers that have multistate exposure an annual estimated premium of at least $100,000 in this state for workers' compensation, and an annual estimated countrywide standard premium of $750,000 or more for workers' compensation.

CS by Banking and Insurance on March 14, 2014:
The committee substitute:

- Deletes the boiler inspection provisions of the bill.
- Deletes the corporation not-for-profit self-insurance fund provision of the bill.
- Deletes the insurance premium finance provision of the bill.
- Deletes current law requiring company insurance adjusters, investigators, attorneys, or other persons acting on the insurer's behalf to provide at least 48 hours' notice to the insured or insured's representatives before scheduling a meeting with the insured or an onsite inspection of the insured property.
- Allows an insurer to electronically transfer unearned premium back to a motor vehicle insurance policyholder who cancels the policy.
- Revises a provision in the bill to allow the Florida Workers' Compensation Joint Underwriting Association to retain dividends payable to a former insured.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Banking and Insurance; and Senators Brandes and Soto

597-02850A-14 20141260c1

A bill to be entitled

An act relating to insurance; amending s. 624.501, F.S.; revising original appointment and renewal fees related to certain insurance representatives; amending s. 626.015, F.S.; defining the term "unaffiliated insurance agent"; amending s. 626.0428, F.S.; requiring a branch place of business to have an agent in charge; authorizing an agent to be in charge of more than one branch office under certain circumstances; providing requirements relating to the designation of an agent in charge; prohibiting an insurance agency from conducting insurance business at a location without a designated agent in charge; providing that the agent in charge is accountable for misconduct and violations committed by the licensee and any person under his or her supervision; amending s. 626.112, F.S.; prohibiting limited customer representative licenses from being issued after a specified date; providing licensure exemptions that allow specified individuals or entities to conduct insurance business at specified locations under certain circumstances; revising licensure requirements and penalties with respect to registered insurance agencies; providing that the registration of an approved registered insurance agency automatically converts to an insurance agency license on a specified date; amending s. 626.172, F.S.; revising requirements relating to applications for insurance agency licenses; conforming provisions to changes made by the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

597-02850A-14 20141260c1

act; amending s. 626.311, F.S.; limiting the types of business that may be transacted by certain agents; amending s. 626.321, F.S.; providing that a limited license to offer motor vehicle rental insurance issued to a business that rents or leases motor vehicles encompasses the employees of such business; amending s. 626.382, F.S.; providing that an insurance agency license continues in force until canceled, suspended, revoked, terminated, or expired; amending s. 626.601, F.S.; revising terminology relating to investigations conducted by the Department of Financial Services and the Office of Insurance Regulation with respect to individuals and entities involved in the insurance industry; revising a confidentiality provision; repealing s. 626.747, F.S., relating to branch agencies, agents in charge, and the payment of additional county tax under certain circumstances; amending s. 626.8411, F.S.; conforming a cross-reference; amending s. 626.854, F.S.; deleting the requirement that a 48 hours' notice be provided before scheduling an onsite inspection of insured property; conforming a cross-reference; amending s. 626.8805, F.S.; revising insurance administrator application requirements; amending s. 626.8817, F.S.; authorizing an insurer's designee to provide certain coverage information to an insurance administrator; authorizing an insurer to subcontract the review of an insurance administrator; amending s. 626.882, F.S.; prohibiting a person from acting as an insurance administrator

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

without a specific written agreement; amending s. 626.883, F.S.; requiring an insurance administrator to furnish fiduciary account records to an insurer; requiring administrator withdrawals from a fiduciary account to be made according to a specific written agreement; providing that an insurer's designee may authorize payment of claims; amending s. 626.884, F.S.; revising an insurer's right of access to certain administrator records; amending s. 626.89, F.S.; revising the deadline for filing certain financial statements; deleting provisions allowing an extension for administrator to submit certain financial statements; amending s. 626.931, F.S.; deleting provisions requiring a surplus lines agent to file a quarterly affidavit with the Florida Surplus Lines Service Office; amending s. 626.932, F.S.; revising the due date of surplus lines tax; amending ss. 626.935 and 626.936, F.S.; conforming provisions to changes made by the act; amending s. 626.9541, F.S.; revising provisions for unfair methods of competition and unfair or deceptive acts relating to conducting certain insurance transactions through credit card facilities; amending s. 627.062, F.S.; authorizing the Office of Insurance Regulation to use a straight average of model results or output ranges to estimate hurricane losses when determining whether the rates in a rate filing are excessive, inadequate, or unfairly discriminatory; amending s. 627.0628, F.S.; increasing the length of time during which an insurer must adhere

to certain findings made by the Commission on Hurricane Loss Projection Methodology with respect to certain methods, principles, standards, models, or output ranges used in a rate filing; providing that the requirement to adhere to such findings does not limit an insurer from using straight averages of model results or output ranges under specified circumstances; amending s. 627.0651, F.S.; revising provisions for making and use of rates for motor vehicle insurance; amending s. 627.072, F.S.; authorizing retrospective rating plans relating to workers' compensation and employer's liability insurance to allow negotiations between certain employers and insurers with respect to rating factors used to calculate premiums; amending ss. 627.281, F.S.; conforming a cross-reference; amending s. 627.311, F.S.; providing that certain dividends may be retained by the joint underwriting plan for future use; amending s. 627.3518, F.S.; conforming a cross-reference; repealing s. 627.3519, F.S., relating to an annual report on the aggregate report of maximum losses of the Florida Hurricane Catastrophe Fund and Citizens Property Insurance Corporation; amending s. 627.409, F.S.; providing that a claim for residential property insurance may not be denied based on certain credit information; amending s. 627.4133, F.S.; extending the period for prior notice required with respect to the nonrenewal, cancellation, or termination of certain insurance policies; deleting

certain provisions that require extended periods of prior notice with respect to the nonrenewal, cancellation, or termination of certain insurance policies; prohibiting the cancellation of certain policies that have been in effect for a specified amount of time, except under certain circumstances; prohibiting the cancellation of a policy or contract that has been in effect for a specified amount of time based on certain credit information; amending s. 627.4137, F.S.; adding licensed company adjusters to the list of persons who may respond to a claimant's written request for information relating to liability insurance coverage; amending s. 627.421, F.S.; authorizing a policyholder of personal lines insurance to affirmatively elect delivery of policy documents by electronic means; amending s. 627.43141, F.S.; authorizing a notice of change in policy terms to be sent in a separate mailing to an insured under certain circumstances; requiring an insurer to provide such notice to the insured's insurance agent; creating s. 627.4553, F.S.; providing requirements for the recommendation to surrender an annuity or life insurance policy; amending s. 627.7015, F.S.; revising the rulemaking authority of the department with respect to qualifications and specified types of penalties covered under the property insurance mediation program; creating s. 627.70151, F.S.; providing criteria for an insurer or policyholder to challenge the impartiality of a loss appraisal umpire

for purposes of disqualifying such umpire; amending s. 627.706, F.S.; revising the definition of the term "neutral evaluator"; amending s. 627.7074, F.S.; revising notification requirements for participation in the neutral evaluation program; providing grounds for the department to deny an application, or suspend or revoke certification, of a neutral evaluator; requiring the department to adopt rules relating to certification of neutral evaluators; amending s. 627.711, F.S.; revising verification requirements for uniform mitigation verification forms; amending s. 627.7283, F.S.; providing for the electronic transfer of unearned premiums returned when a policy is cancelled; amending s. 627.736, F.S.; revising the time period for applicability of certain Medicare fee schedules or payment limitations; amending s. 627.744, F.S.; revising preinsurance inspection requirements for private passenger motor vehicles; amending s. 627.745, F.S.; revising qualifications for approval as a mediator by the department; providing grounds for the department to deny an application, or suspend or revoke approval of a mediator or certification of a neutral evaluator; authorizing the department to adopt rules; amending s. 627.782, F.S.; revising the date by which title insurance agencies and certain insurers must annually submit specified information to the Office of Insurance Regulation; amending s. 628.461, F.S.; revising filing requirements relating to the acquisition of controlling stock; revising the amount

of outstanding voting securities of a domestic stock insurer or a controlling company that a person is prohibited from acquiring unless certain requirements have been met; prohibiting persons acquiring a certain percentage of voting securities from acquiring certain securities; providing that a presumption of control may be rebutted by filing a disclaimer of control; deleting a definition; amending ss. 631.717 and 631.734, F.S.; transferring a provision relating to the obligations of the Florida Life and Health Insurance Guaranty Association; amending s. 634.406, F.S.; revising criteria authorizing premiums of certain service warranty associations to exceed their specified net assets limitations; revising requirements relating to contractual liability policies that insure warranty associations; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraphs (a) and (c) of subsection (6) and subsections (7) and (8) of section 624.501, Florida Statutes, are amended to read:

624.501 Filing, license, appointment, and miscellaneous fees.—The department, commission, or office, as appropriate, shall collect in advance, and persons so served shall pay to it in advance, fees, licenses, and miscellaneous charges as follows:

(6) Insurance representatives, property, marine, casualty,

and surety insurance.

(a) Agent's original appointment and biennial renewal or continuation thereof, each insurer or unaffiliated agent making an appointment:

Appointment fee.....$42.00
State tax.....12.00
County tax.....6.00
Total.....$60.00

(c) Nonresident agent's original appointment and biennial renewal or continuation thereof, appointment fee, each insurer or unaffiliated agent making an appointment.....$60.00

(7) Life insurance agents.

(a) Agent's original appointment and biennial renewal or continuation thereof, each insurer or unaffiliated agent making an appointment:

Appointment fee.....$42.00
State tax.....12.00
County tax.....6.00
Total.....$60.00

(b) Nonresident agent's original appointment and biennial renewal or continuation thereof, appointment fee, each insurer or unaffiliated agent making an appointment.....$60.00

(8) Health insurance agents.

(a) Agent's original appointment and biennial renewal or continuation thereof, each insurer or unaffiliated agent making an appointment:

Appointment fee.....$42.00
State tax.....12.00
County tax.....6.00

Total.....$60.00

(b) Nonresident agent's original appointment and biennial renewal or continuation thereof, appointment fee, each insurer or unaffiliated agent making an appointment.....$60.00

Section 2. Present subsection (18) of section 626.015, Florida Statutes, is renumbered as subsection (19), and a new subsection (18) is added to that section, to read:

626.015 Definitions.—As used in this part:

(18) "Unaffiliated insurance agent" means a licensed insurance agent, except a limited lines agent, who is self-appointed and who practices as an independent consultant in the business of analyzing or abstracting insurance policies, providing insurance advice or counseling, or making specific recommendations or comparisons of insurance products for a fee established in advance by written contract signed by the parties. An unaffiliated insurance agent may not be affiliated with an insurer, insurer-appointed insurance agent, or insurance agency contracted with or employing insurer-appointed insurance agents.

Section 3. Effective January 1, 2015, section 626.0428, Florida Statutes, is amended to read:

626.0428 Agency personnel powers, duties, and limitations.—

(1) An individual employed by an agent or agency on salary who devotes full time to clerical work, with incidental taking of insurance applications or quoting or receiving premiums on incoming inquiries in the office of the agent or agency, is not deemed to be an agent or customer representative if his or her compensation does not include in whole or in part any commissions on such business and is not related to the

production of applications, insurance, or premiums.

(2) An employee or authorized representative located at a designated branch of an agent or agency may not bind insurance coverage unless licensed and appointed as an agent or customer representative.

(3) An employee or authorized representative of an agent or agency may not initiate contact with any person for the purpose of soliciting insurance unless licensed and appointed as an agent or customer representative. As to title insurance, an employee of an agent or agency may not initiate contact with any individual proposed insured for the purpose of soliciting title insurance unless licensed as a title insurance agent or exempt from such licensure pursuant to s. 626.8417(4).

(4)(a) Each place of business established by an agent or agency, firm, corporation, or association must be in the active full-time charge of a licensed and appointed agent holding the required agent licenses to transact the lines of insurance being handled at the location.

(b) Notwithstanding paragraph (a), the licensed agent in charge of an insurance agency may also be the agent in charge of additional branch office locations of the agency if insurance activities requiring licensure as an insurance agent do not occur at any location when an agent is not physically present and unlicensed employees at the location do not engage in insurance activities requiring licensure as an insurance agent or customer representative.

(c) An insurance agency and each branch place of business of an insurance agency shall designate an agent in charge and file the name and license number of the agent in charge and the

physical address of the insurance agency location with the department and the department's website. The designation of the agent in charge may be changed at the option of the agency. A change of the designated agent in charge is effective upon notice to the department. Notice to the department must be provided within 30 days after such change.

(d) An insurance agency location may not conduct the business of insurance unless an agent in charge is designated by and providing services to the agency at all times. If the agent in charge designated with the department ends his or her affiliation with the agency for any reason and the agency fails to designate another agent in charge within 30 days as provided in paragraph (c) and such failure continues for 90 days, the agency license automatically expires on the 91st day after the date the designated agent in charge ended his or her affiliation with the agency.

(e) For purposes of this subsection, an "agent in charge" is the licensed and appointed agent responsible for the supervision of all individuals within an insurance agency location, regardless of whether the agent in charge handles a specific transaction or deals with the general public in the solicitation or negotiation of insurance contracts or the collection or accounting of money.

(f) An agent in charge of an insurance agency is accountable for the wrongful acts, misconduct, or violations of this code committed by the licensee or by any person under his or her supervision while acting on behalf of the agency. However, an agent in charge is not criminally liable for any act unless the agent in charge personally committed the act or knew

or should have known of the act and of the facts constituting a violation of this code.

Section 4. Paragraph (b) of subsection (1) and subsection (7) of section 626.112, Florida Statutes, is amended to read:

626.112 License and appointment required; agents, customer representatives, adjusters, insurance agencies, service representatives, managing general agents.—

(1)

(b) Except as provided in subsection (6) or in applicable department rules, and in addition to other conduct described in this chapter with respect to particular types of agents, a license as an insurance agent, service representative, customer representative, or limited customer representative is required in order to engage in the solicitation of insurance. Effective October 1, 2014, limited customer representative licenses may not be issued. For purposes of this requirement, as applicable to ~~any of~~ the license types described in this section, the solicitation of insurance is the attempt to persuade any person to purchase an insurance product by:

1. Describing the benefits or terms of insurance coverage, including premiums or rates of return;

2. Distributing an invitation to contract to prospective purchasers;

3. Making general or specific recommendations as to insurance products;

4. Completing orders or applications for insurance products;

5. Comparing insurance products, advising as to insurance matters, or interpreting policies or coverages; or

6. Offering or attempting to negotiate on behalf of another person a viatical settlement contract as defined in s. 626.9911.

However, an employee leasing company licensed under ~~pursuant to~~ chapter 468 which is seeking to enter into a contract with an employer that identifies products and services offered to employees may deliver proposals for the purchase of employee leasing services to prospective clients of the employee leasing company setting forth the terms and conditions of doing business; classify employees as permitted by s. 468.529; collect information from prospective clients and other sources as necessary to perform due diligence on the prospective client and to prepare a proposal for services; provide and receive enrollment forms, plans, and other documents; and discuss or explain in general terms the conditions, limitations, options, or exclusions of insurance benefit plans available to the client or employees of the employee leasing company were the client to contract with the employee leasing company. Any advertising materials or other documents describing specific insurance coverages must identify and be from a licensed insurer or its licensed agent or a licensed and appointed agent employed by the employee leasing company. The employee leasing company may not advise or inform the prospective business client or individual employees of specific coverage provisions, exclusions, or limitations of particular plans. As to clients for which the employee leasing company is providing services pursuant to s. 468.525(4), the employee leasing company may engage in activities permitted by ss. 626.7315, 626.7845, and 626.8305, subject to the restrictions specified in those sections. If a

prospective client requests more specific information concerning the insurance provided by the employee leasing company, the employee leasing company must refer the prospective business client to the insurer or its licensed agent or to a licensed and appointed agent employed by the employee leasing company.

Section 5. Effective January 1, 2015, subsection (7) of section 626.112, Florida Statutes, is amended to read:

626.112 License and appointment required; agents, customer representatives, adjusters, insurance agencies, service representatives, managing general agents.—

(7)(a) An ~~Effective October 1, 2006, no~~ individual, firm, partnership, corporation, association, or ~~any~~ other entity may not ~~shall~~ act in its own name or under a trade name, directly or indirectly, as an insurance agency~~,~~ unless it possesses ~~complies with s. 626.172 with respect to possessing~~ an insurance agency license issued pursuant to s. 626.172 for each place of business at which it engages in ~~any~~ activity that ~~which~~ may be performed only by a licensed insurance agent. However, an insurance agency that is owned and operated by a single licensed agent conducting business in his or her individual name and not employing or otherwise using the services of or appointing other licensees is exempt from the agency licensing requirements of this subsection.

(b) A branch place of business which is established by a licensed agency is considered a branch agency and is not required to be licensed if it transacts business under the same name and federal tax identification number as the licensed agency, has designated a licensed agent in charge of the location as required by s. 626.0428, and has submitted the

address and telephone number of the location to the department for inclusion in the licensing record of the licensed agency within 30 days after insurance transactions begin at the location ~~Each agency engaged in business in this state before January 1, 2003, which is wholly owned by insurance agents currently licensed and appointed under this chapter, each incorporated agency whose voting shares are traded on a securities exchange, each agency designated and subject to supervision and inspection as a branch office under the rules of the National Association of Securities Dealers, and each agency whose primary function is offering insurance as a service or member benefit to members of a nonprofit corporation may file an application for registration in lieu of licensure in accordance with s. 626.172(3). Each agency engaged in business before October 1, 2006, shall file an application for licensure or registration on or before October 1, 2006~~.

(c) ~~1.~~ If an agency is required to be licensed but fails to file an application for licensure in accordance with this section, the department shall impose on the agency an administrative penalty ~~in an amount~~ of up to $10,000.

~~2. If an agency is eligible for registration but fails to file an application for registration or an application for licensure in accordance with this section, the department shall impose on the agency an administrative penalty in an amount of up to $5,000.~~

(d) ~~(b)~~ Effective October 1, 2015, the department must automatically convert the registration of an approved ~~a~~ registered insurance agency to ~~shall, as a condition precedent to continuing business, obtain~~ an insurance agency license ~~if~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~the department finds that, with respect to any majority owner, partner, manager, director, officer, or other person who manages or controls the agency, any person has:~~

~~1. Been found guilty of, or has pleaded guilty or nolo contendere to, a felony in this state or any other state relating to the business of insurance or to an insurance agency, without regard to whether a judgment of conviction has been entered by the court having jurisdiction of the cases.~~

~~2. Employed any individual in a managerial capacity or in a capacity dealing with the public who is under an order of revocation or suspension issued by the department. An insurance agency may request, on forms prescribed by the department, verification of any person's license status. If a request is mailed within 5 working days after an employee is hired, and the employee's license is currently suspended or revoked, the agency shall not be required to obtain a license, if the unlicensed person's employment is immediately terminated.~~

~~3. Operated the agency or permitted the agency to be operated in violation of s. 626.747.~~

~~4. With such frequency as to have made the operation of the agency hazardous to the insurance-buying public or other persons:~~

~~a. Solicited or handled controlled business. This subparagraph shall not prohibit the licensing of any lending or financing institution or creditor, with respect to insurance only, under credit life or disability insurance policies of borrowers from the institutions, which policies are subject to part IX of chapter 627.~~

~~b. Misappropriated, converted, or unlawfully withheld~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~moneys belonging to insurers, insureds, beneficiaries, or others and received in the conduct of business under the license.~~

~~c. Unlawfully rebated, attempted to unlawfully rebate, or unlawfully divided or offered to divide commissions with another.~~

~~d. Misrepresented any insurance policy or annuity contract, or used deception with regard to any policy or contract, done either in person or by any form of dissemination of information or advertising.~~

~~e. Violated any provision of this code or any other law applicable to the business of insurance in the course of dealing under the license.~~

~~f. Violated any lawful order or rule of the department.~~

~~g. Failed or refused, upon demand, to pay over to any insurer he or she represents or has represented any money coming into his or her hands belonging to the insurer.~~

~~h. Violated the provision against twisting as defined in s. 626.9541(1)(l).~~

~~i. In the conduct of business, engaged in unfair methods of competition or in unfair or deceptive acts or practices, as prohibited under part IX of this chapter.~~

~~j. Willfully overinsured any property insurance risk.~~

~~k. Engaged in fraudulent or dishonest practices in the conduct of business arising out of activities related to insurance or the insurance agency.~~

~~l. Demonstrated lack of fitness or trustworthiness to engage in the business of insurance arising out of activities related to insurance or the insurance agency.~~

~~m. Authorized or knowingly allowed individuals to transact~~

~~insurance who were not then licensed as required by this code.~~

~~5. Knowingly employed any person who within the preceding 3 years has had his or her relationship with an agency terminated in accordance with paragraph (d).~~

~~6. Willfully circumvented the requirements or prohibitions of this code.~~

Section 6. Subsections (2), (3), and (4) of section 626.172, Florida Statutes, are amended to read:

626.172 Application for insurance agency license.—

(2) An application for an insurance agency license must ~~shall~~ be signed by an individual required to be listed in the application under paragraph (a) ~~the owner or owners of the agency. If the agency is incorporated, the application shall be signed by the president and secretary of the corporation~~. An insurance agency may allow a third party to complete, submit, and sign an application on the insurance agency's behalf, but the insurance agency is responsible for ensuring that the information on the application is true and correct and is accountable for any misstatements or misrepresentations. The application for an insurance agency license must ~~shall~~ include:

(a) The name of each ~~majority~~ owner, partner, officer, ~~and~~ director, president, senior vice president, secretary, treasurer, and limited liability company member, who directs or participates in the management or control of the insurance agency, whether through ownership of voting securities, by contract, by ownership of an agency bank account, or otherwise.

(b) The residence address of each person required to be listed in the application under paragraph (a).

(c) The name, principal business street address, and e-mail

address of the insurance agency and the name, address, and e-mail address of the agency's registered agent or person or company authorized to accept service on behalf of the agency ~~its principal business address~~.

(d) The name, physical address, e-mail address, and telephone number ~~location~~ of each branch agency and the date that the branch location begins transacting insurance ~~office and the name under which each agency office conducts or will conduct business~~.

(e) The name of each agent to be in full-time charge of an agency office and specification of which office, including branch locations.

(f) The fingerprints of each of the following:

1. A sole proprietor;

2. Each individual required to be listed in the application under paragraph (a) ~~partner~~; and

~~3. Each owner of an unincorporated agency;~~

3.~~4.~~ Each individual owner who directs or participates in the management or control of an incorporated agency whose shares are not traded on a securities exchange~~;~~

~~5. The president, senior vice presidents, treasurer, secretary, and directors of the agency; and~~

~~6. Any other person who directs or participates in the management or control of the agency, whether through the ownership of voting securities, by contract, or otherwise~~.

Fingerprints must be taken by a law enforcement agency or other entity approved by the department and must be accompanied by the fingerprint processing fee specified in s. 624.501. Fingerprints

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

must ~~shall~~ be processed in accordance with s. 624.34. However, fingerprints need not be filed for an ~~any~~ individual who is currently licensed and appointed under this chapter. This paragraph does not apply to corporations whose voting shares are traded on a securities exchange.

(g) Such additional information as the department requires by rule to ascertain the trustworthiness and competence of persons required to be listed on the application and to ascertain that such persons meet the requirements of this code. However, the department may not require that credit or character reports be submitted for persons required to be listed on the application.

(3)~~(h)~~ ~~Beginning October 1, 2005,~~ The department must ~~shall~~ accept the uniform application for nonresident agency licensure. The department may adopt by rule revised versions of the uniform application.

~~(3) The department shall issue a registration as an insurance agency to any agency that files a written application with the department and qualifies for registration. The application for registration shall require the agency to provide the same information required for an agency licensed under subsection (2), the agent identification number for each owner who is a licensed agent, proof that the agency qualifies for registration as provided in s. 626.112(7), and any other additional information that the department determines is necessary in order to demonstrate that the agency qualifies for registration. The application must be signed by the owner or owners of the agency. If the agency is incorporated, the application must be signed by the president and the secretary of~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~the corporation. An agent who owns the agency need not file fingerprints with the department if the agent obtained a license under this chapter and the license is currently valid.~~

~~(a) If an application for registration is denied, the agency must file an application for licensure no later than 30 days after the date of the denial of registration.~~

~~(b) A registered insurance agency must file an application for licensure no later than 30 days after the date that any person who is not a licensed and appointed agent in this state acquires any ownership interest in the agency. If an agency fails to file an application for licensure in compliance with this paragraph, the department shall impose an administrative penalty in an amount of up to $5,000 on the agency.~~

~~(c) Sections 626.6115 and 626.6215 do not apply to agencies registered under this subsection.~~

(4) The department must ~~shall~~ issue a license ~~or registration~~ to each agency upon approval of the application, and each agency location must ~~shall~~ display the license ~~or registration~~ prominently in a manner that makes it clearly visible to any customer or potential customer who enters the agency location.

Section 7. Present subsection (6) of section 626.311, Florida Statutes, is redesignated as subsection (7), and a new subsection (6) is added to that section, to read:

626.311 Scope of license.—

(6) An agent who appoints his or her license as an unaffiliated insurance agent may not hold an appointment from an insurer for any license he or she holds; transact, solicit, or service an insurance contract on behalf of an insurer; interfere

with commissions received or to be received by an insurer-appointed insurance agent or an insurance agency contracted with or employing insurer-appointed insurance agents; or receive compensation or any other thing of value from an insurer, an insurer-appointed insurance agent, or an insurance agency contracted with or employing insurer-appointed insurance agents for any transaction or referral occurring after the date of appointment as an unaffiliated insurance agent. An unaffiliated insurance agent may continue to receive commissions on sales that occurred before the date of appointment as an unaffiliated insurance agent if the receipt of such commissions is disclosed when making recommendations or evaluating products for a client that involve products of the entity from which the commissions are received.

Section 8. Paragraph (d) of subsection (1) of section 626.321, Florida Statutes, is amended to read:

626.321 Limited licenses.—

(1) The department shall issue to a qualified applicant a license as agent authorized to transact a limited class of business in any of the following categories of limited lines insurance:

(d) *Motor vehicle rental insurance.*—

1. License covering only insurance of the risks set forth in this paragraph when offered, sold, or solicited with and incidental to the rental or lease of a motor vehicle and which applies only to the motor vehicle that is the subject of the lease or rental agreement and the occupants of the motor vehicle:

a. Excess motor vehicle liability insurance providing

coverage in excess of the standard liability limits provided by the lessor in the lessor's lease to a person renting or leasing a motor vehicle from the licensee's employer for liability arising in connection with the negligent operation of the leased or rented motor vehicle.

b. Insurance covering the liability of the lessee to the lessor for damage to the leased or rented motor vehicle.

c. Insurance covering the loss of or damage to baggage, personal effects, or travel documents of a person renting or leasing a motor vehicle.

d. Insurance covering accidental personal injury or death of the lessee and any passenger who is riding or driving with the covered lessee in the leased or rented motor vehicle.

2. Insurance under a motor vehicle rental insurance license may be issued only if the lease or rental agreement is for up to ~~no more than~~ 60 days, the lessee is not provided coverage for more than 60 consecutive days per lease period, and the lessee is given written notice that his or her personal insurance policy providing coverage on an owned motor vehicle may provide coverage of such risks and that the purchase of the insurance is not required in connection with the lease or rental of a motor vehicle. If the lease is extended beyond 60 days, the coverage may be extended ~~one time~~ only once for up to ~~a period not to exceed an additional~~ 60 days. Insurance may be provided to the lessee as an additional insured on a policy issued to the licensee's employer.

3. The license may be issued only to the full-time salaried employee of a licensed general lines agent or to a business entity that offers motor vehicles for rent or lease if insurance

sales activities authorized by the license are in connection with and incidental to the rental or lease of a motor vehicle.

a. A license issued to a business entity that offers motor vehicles for rent or lease encompasses each office, branch office, employee, authorized representative located at a designated branch, or place of business making use of the entity's business name in order to offer, solicit, and sell insurance pursuant to this paragraph.

b. The application for licensure must list the name, address, and phone number for each office, branch office, or place of business which ~~that~~ is to be covered by the license. The licensee shall notify the department of the name, address, and phone number of any new location that is to be covered by the license before the new office, branch office, or place of business engages in the sale of insurance pursuant to this paragraph. The licensee must notify the department within 30 days after closing or terminating an office, branch office, or place of business. Upon receipt of the notice, the department shall delete the office, branch office, or place of business from the license.

c. A licensed and appointed entity is directly responsible and accountable for all acts of the licensee's employees.

Section 9. Effective January, 1, 2015, section 626.382, Florida Statutes, is amended to read:

626.382 Continuation, expiration of license; insurance agencies.—The license of an ~~any~~ insurance agency ~~shall be issued for a period of 3 years and~~ shall continue in force until canceled, suspended, or revoked~~,~~ or until it is otherwise terminated or becomes expired by operation of law. ~~A license may~~

~~be renewed by submitting a renewal request to the department on a form adopted by department rule.~~

Section 10. Section 626.601, Florida Statutes, is amended to read:

626.601 Improper conduct; investigation ~~inquiry~~; fingerprinting.—

(1) The department or office may, upon its own motion or upon a written complaint signed by an ~~any~~ interested person and filed with the department or office, inquire into the ~~any~~ alleged improper conduct of any licensed, approved, or certified licensee, insurance agency, agent, adjuster, service representative, managing general agent, customer representative, title insurance agent, title insurance agency, mediator, neutral evaluator, navigator, continuing education course provider, instructor, school official, or monitor group under this code. The department or office may thereafter initiate an investigation of ~~any~~ such individual or entity ~~licensee~~ if it has reasonable cause to believe that the individual or entity ~~licensee~~ has violated any provision of the insurance code. During the course of its investigation, the department or office shall contact the individual or entity ~~licensee~~ being investigated unless it determines that contacting such individual or entity ~~person~~ could jeopardize the successful completion of the investigation or cause injury to the public.

(2) In the investigation by the department or office of the alleged misconduct, the individual or entity ~~licensee~~ shall, if ~~whenever so~~ required by the department or office, open the individual's or entity's ~~cause his or her~~ books and records ~~to be open~~ for inspection for the purpose of such investigation

~~inquiries~~.

(3) ~~The~~ Complaints against an individual or entity ~~any licensee~~ may be informally alleged and are not required to include ~~need not be in any such~~ language ~~as is~~ necessary to charge a crime on an indictment or information.

(4) The expense for any hearings or investigations conducted pursuant to this section ~~under this law~~, as well as the fees and mileage of witnesses, may be paid out of the appropriate fund.

(5) If the department or office, after investigation, has reason to believe that an individual ~~a licensee~~ may have been found guilty of or pleaded guilty or nolo contendere to a felony or a crime related to the business of insurance in this or any other state or jurisdiction, the department or office may require the individual ~~licensee~~ to file with the department or office a complete set of his or her fingerprints, ~~which shall be~~ accompanied by the fingerprint processing fee set forth in s. 624.501. The fingerprints shall be taken by an authorized law enforcement agency or other department-approved entity.

(6) The complaint and any information obtained pursuant to the investigation by the department or office are confidential and ~~are~~ exempt from ~~the provisions of~~ s. 119.07~~,~~ unless the department or office files a formal administrative complaint, emergency order, or consent order against the individual or entity ~~licensee~~. ~~Nothing in~~ This subsection does not ~~shall be construed to~~ prevent the department or office from disclosing the complaint or such information as it deems necessary to conduct the investigation, to update the complainant as to the status and outcome of the complaint, or to share such

information with any law enforcement agency or other regulatory body.

Section 11. Effective January 1, 2015, section 626.747, Florida Statutes, is repealed.

Section 12. Effective January 1, 2015, subsection (1) of section 626.8411, Florida Statutes, is amended to read:

626.8411 Application of Florida Insurance Code provisions to title insurance agents or agencies.—

(1) The following provisions ~~of part II~~ applicable to general lines agents or agencies also apply to title insurance agents or agencies:

(a) Section 626.734, relating to liability of certain agents.

(b) Section 626.0428(4)(a) and (b) ~~626.747~~, relating to branch agencies.

(c) Section 626.749, relating to place of business in residence.

(d) Section 626.753, relating to sharing of commissions.

(e) Section 626.754, relating to rights of agent following termination of appointment.

Section 13. Subsections (14) and (18) of section 626.854, Florida Statutes, are amended to read:

626.854 "Public adjuster" defined; prohibitions.—The Legislature finds that it is necessary for the protection of the public to regulate public insurance adjusters and to prevent the unauthorized practice of law.

~~(14) A company employee adjuster, independent adjuster, attorney, investigator, or other persons acting on behalf of an insurer that needs access to an insured or claimant or to the~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~insured property that is the subject of a claim must provide at least 48 hours' notice to the insured or claimant, public adjuster, or legal representative before scheduling a meeting with the claimant or an onsite inspection of the insured property. The insured or claimant may deny access to the property if the notice has not been provided. The insured or claimant may waive the 48-hour notice.~~

(17)~~(18) The provisions of~~ Subsections (5)-(16) ~~(5)-(17)~~ apply only to residential property insurance policies and condominium unit owner policies as defined in s. 718.111(11).

Section 14. Paragraph (c) of subsection (2) and subsection (3) of section 626.8805, Florida Statutes, are amended to read:

626.8805 Certificate of authority to act as administrator.—

(2) The administrator shall file with the office an application for a certificate of authority upon a form to be adopted by the commission and furnished by the office, which application shall include or have attached the following information and documents:

(c) The names, addresses, official positions, and professional qualifications of the individuals employed or retained by the administrator who are responsible for the conduct of the affairs of the administrator, including all members of the board of directors, board of trustees, executive committee, or other governing board or committee, and the principal officers in the case of a corporation or~~,~~ the partners or members in the case of a partnership or association~~, and any other person who exercises control or influence over the affairs~~ of the administrator.

(3) The applicant shall make available for inspection by

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

the office copies of all contracts relating to services provided by the administrator to ~~with~~ insurers or other persons using ~~utilizing~~ the services of the administrator.

Section 15. Subsections (1) and (3) of section 626.8817, Florida Statutes, are amended to read:

626.8817 Responsibilities of insurance company with respect to administration of coverage insured.—

(1) If an insurer uses the services of an administrator, the insurer is responsible for determining the benefits, premium rates, underwriting criteria, and claims payment procedures applicable to the coverage and for securing reinsurance, if any. The rules pertaining to these matters shall be provided, in writing, by the insurer or its designee to the administrator. The responsibilities of the administrator as to any of these matters shall be set forth in a ~~the~~ written agreement binding upon ~~between~~ the administrator and the insurer.

(3) If ~~In cases in which~~ an administrator administers benefits for more than 100 certificateholders on behalf of an insurer, the insurer shall, at least semiannually, conduct a review of the operations of the administrator. At least one such review must be an onsite audit of the operations of the administrator. The insurer may contract with a qualified third party to conduct such review.

Section 16. Subsections (1) and (4) of section 626.882, Florida Statutes, are amended to read:

626.882 Agreement between administrator and insurer; required provisions; maintenance of records.—

(1) A ~~No~~ person may not act as an administrator without a written agreement, as required under s. 626.8817, which

specifies the rights, duties, and obligations of the ~~between such person as~~ administrator and ~~an~~ insurer.

(4) If a policy is issued to a trustee or trustees, a copy of the trust agreement and any amendments to that agreement shall be furnished to the insurer or its designee by the administrator and shall be retained as part of the official records of both the administrator and the insurer for the duration of the policy and for 5 years thereafter.

Section 17. Subsections (3), (4), and (5) of section 626.883, Florida Statutes, are amended to read:

626.883 Administrator as intermediary; collections held in fiduciary capacity; establishment of account; disbursement; payments on behalf of insurer.—

(3) If charges or premiums deposited in a fiduciary account have been collected on behalf of or for more than one insurer, the administrator shall keep records clearly recording the deposits in and withdrawals from such account on behalf of or for each insurer. The administrator shall, upon request of an insurer or its designee, furnish such insurer or designee with copies of records pertaining to deposits and withdrawals on behalf of or for such insurer.

(4) The administrator may not pay any claim by withdrawals from a fiduciary account. Withdrawals from such account shall be made as provided in the written agreement required under ss. 626.8817 and 626.882 ~~between the administrator and the insurer~~ for any of the following:

(a) Remittance to an insurer entitled to such remittance.

(b) Deposit in an account maintained in the name of such insurer.

(c) Transfer to and deposit in a claims-paying account, with claims to be paid as provided by such insurer.

(d) Payment to a group policyholder for remittance to the insurer entitled to such remittance.

(e) Payment to the administrator of the commission, fees, or charges of the administrator.

(f) Remittance of return premium to the person or persons entitled to such ~~return~~ premium.

(5) All claims paid by the administrator from funds collected on behalf of the insurer shall be paid only on drafts of, and as authorized by, such insurer or its designee.

Section 18. Subsection (3) of section 626.884, Florida Statutes, is amended to read:

626.884 Maintenance of records by administrator; access; confidentiality.—

(3) The insurer shall retain the right of continuing access to books and records maintained by the administrator sufficient to permit the insurer to fulfill all of its contractual obligations to insured persons, subject to any restrictions in the written agreement pertaining to ~~between the insurer and the administrator on~~ the proprietary rights of the parties in such books and records.

Section 19. Subsections (1) and (2) of section 626.89, Florida Statutes, are amended to read:

626.89 Annual financial statement and filing fee; notice of change of ownership.—

(1) Each authorized administrator shall annually file with the office a full and true statement of its financial condition, transactions, and affairs within 3 months after the end of the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

administrator's fiscal year~~. The statement shall be filed annually on or before March 1~~ or within such extension of time ~~therefor~~ as the office for good cause may have granted. The statement must ~~and shall~~ be for the preceding fiscal ~~calendar~~ year and must~~. The statement shall~~ be in such form and contain such matters as the commission prescribes and must ~~shall~~ be verified by at least two officers of the ~~such~~ administrator. ~~An administrator whose sole stockholder is an association representing health care providers which is not an affiliate of an insurer, an administrator of a pooled governmental self-insurance program, or an administrator that is a university may submit the preceding fiscal year's statement within 2 months after its fiscal year end.~~

(2) Each authorized administrator shall also file an audited financial statement performed by an independent certified public accountant. The audited financial statement shall be filed with the office within 5 months after the end of the administrator's fiscal year and be ~~on or before June 1~~ for the preceding fiscal ~~calendar~~ year ~~ending December 31~~. ~~An administrator whose sole stockholder is an association representing health care providers which is not an affiliate of an insurer, an administrator of a pooled governmental self-insurance program, or an administrator that is a university may submit the preceding fiscal year's audited financial statement within 5 months after the end of its fiscal year.~~ An audited financial statement prepared on a consolidated basis must include a columnar consolidating or combining worksheet that must be filed with the statement and must comply with the following:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(a) Amounts shown on the consolidated audited financial statement must be shown on the worksheet;

(b) Amounts for each entity must be stated separately; and

(c) Explanations of consolidating and eliminating entries must be included.

Section 20. Section 626.931, Florida Statutes, is amended to read:

626.931 ~~Agent affidavit and~~ Insurer reporting requirements.—

~~(1) Each surplus lines agent shall on or before the 45th day following each calendar quarter file with the Florida Surplus Lines Service Office an affidavit, on forms as prescribed and furnished by the Florida Surplus Lines Service Office, stating that all surplus lines insurance transacted by him or her during such calendar quarter has been submitted to the Florida Surplus Lines Service Office as required.~~

~~(2) The affidavit of the surplus lines agent shall include efforts made to place coverages with authorized insurers and the results thereof.~~

(1) ~~(3)~~ Each foreign insurer accepting premiums shall, on or before the end of the month following each calendar quarter, file with the Florida Surplus Lines Service Office a verified report of all surplus lines insurance transacted by such insurer for insurance risks located in this state during the ~~such~~ calendar quarter.

(2) ~~(4)~~ Each alien insurer accepting premiums shall, on or before June 30 of each year, file with the Florida Surplus Lines Service Office a verified report of all surplus lines insurance transacted by such insurer for insurance risks located in this

state during the preceding calendar year.

(3) ~~(5)~~ The department may waive the filing requirements described in subsections (1) ~~(3)~~ and (2) ~~(4)~~.

(4) ~~(6)~~ Each insurer's report and supporting information shall be in a computer-readable format as determined by the Florida Surplus Lines Service Office or ~~shall~~ be submitted on forms prescribed by the Florida Surplus Lines Service Office and ~~shall~~ show for each applicable agent:

(a) A listing of all policies, certificates, cover notes, or other forms of confirmation of insurance coverage or any substitutions thereof or endorsements thereto and the identifying number; and

(b) Any additional information required by the department or Florida Surplus Lines Service Office.

Section 21. Paragraph (a) of subsection (2) of section 626.932, Florida Statutes, is amended to read:

626.932 Surplus lines tax.—

(2)(a) The surplus lines agent shall make payable to the department the tax related to each calendar quarter's business as reported to the Florida Surplus Lines Service Office~~,~~ and remit the tax to the Florida Surplus Lines Service Office on or before the 45th day after each calendar quarter ~~at the same time as provided for the filing of the quarterly affidavit, under s. 626.931~~. The Florida Surplus Lines Service Office shall forward to the department the taxes and any interest collected pursuant to paragraph (b)~~,~~ within 10 days after ~~of~~ receipt.

Section 22. Subsection (1) of section 626.935, Florida Statutes, is amended to read:

626.935 Suspension, revocation, or refusal of surplus lines

agent's license.—

(1) The department shall deny an application for, suspend, revoke, or refuse to renew the appointment of a surplus lines agent and all other licenses and appointments held by the licensee under this code~~,~~ on any of the following grounds:

(a) Removal of the licensee's office from the licensee's state of residence.

(b) Removal of the accounts and records of his or her surplus lines business from this state or the licensee's state of residence during the period when such accounts and records are required to be maintained under s. 626.930.

(c) Closure of the licensee's office for more than 30 consecutive days.

~~(d) Failure to make and file his or her affidavit or reports when due as required by s. 626.931.~~

(d)~~(e)~~ Failure to pay the tax or service fee on surplus lines premiums~~,~~ as provided in the Surplus Lines Law.

(e)~~(f)~~ Suspension, revocation, or refusal to renew or continue the license or appointment as a general lines agent, service representative, or managing general agent.

(f)~~(g)~~ Lack of qualifications as for an original surplus lines agent's license.

(g)~~(h)~~ Violation of this Surplus Lines Law.

(h)~~(i)~~ ~~For~~ Any other applicable cause for which the license of a general lines agent could be suspended, revoked, or refused under s. 626.611 or s. 626.621.

Section 23. Subsection (1) of section 626.936, Florida Statutes, is amended to read:

626.936 Failure to file reports or pay tax or service fee;

administrative penalty.—

(1) A ~~Any~~ licensed surplus lines agent who neglects to file a report ~~or an affidavit~~ in the form and within the time required under ~~or provided for in~~ the Surplus Lines Law may be fined up to $50 per day for each day the neglect continues, beginning the day after the report ~~or affidavit~~ was due until the date the report ~~or affidavit~~ is received. All sums collected under this section shall be deposited into the Insurance Regulatory Trust Fund.

Section 24. Paragraph (q) of subsection (1) of section 626.9541, Florida Statutes, is amended to read:

626.9541 Unfair methods of competition and unfair or deceptive acts or practices defined.—

(1) UNFAIR METHODS OF COMPETITION AND UNFAIR OR DECEPTIVE ACTS.—The following are defined as unfair methods of competition and unfair or deceptive acts or practices:

(q) *Certain insurance transactions through credit card facilities prohibited.*—

1. Except as provided in subparagraph 3., no person shall knowingly solicit or negotiate ~~any~~ insurance; seek or accept applications for insurance; issue or deliver any policy; receive, collect, or transmit premiums, to or for an ~~any~~ insurer; or otherwise transact insurance in this state, or relative to a subject of insurance resident, located, or to be performed in this state, through the arrangement or facilities of a credit card facility or organization, for the purpose of insuring credit card holders or prospective credit card holders. The term "credit card holder" as used in this paragraph means a ~~any~~ person who may pay the charge for purchases or other

transactions through the credit card facility or organization, whose credit with such facility or organization is evidenced by a credit card identifying such person as being one whose charges the credit card facility or organization will pay, and who is identified as such upon the credit card ~~either~~ by name, account number, symbol, insignia, or ~~any~~ other method or device of identification. This subparagraph does not apply as to health insurance or to credit life, credit disability, or credit property insurance.

2. If ~~Whenever~~ any person does or performs in this state any of the acts in violation of subparagraph 1. for or on behalf of an ~~any~~ insurer or credit card facility, such insurer or credit card facility shall be deemed ~~held~~ to be doing business in this state and, if an insurer, shall be subject to the same state, county, and municipal taxes as insurers that have been legally qualified and admitted to do business in this state by agents or otherwise are subject, the same to be assessed and collected against such insurers; and such person so doing or performing any of such acts is ~~shall be~~ personally liable for all such taxes.

3. A licensed agent or insurer may solicit or negotiate ~~any~~ insurance; seek or accept applications for insurance; issue or deliver any policy; receive, collect, or transmit premiums, to or for an ~~any~~ insurer; or otherwise transact insurance in this state, or relative to a subject of insurance resident, located, or to be performed in this state, through the arrangement or facilities of a credit card facility or organization, for the purpose of insuring credit card holders or prospective credit card holders if:

a. The insurance or policy which is the subject of the transaction is noncancelable by any person other than the named insured, the policyholder, or the insurer;

b. Any refund of unearned premium is made ~~directly~~ to the credit card holder by mail or electronic transfer; and

c. The credit card transaction is authorized by the signature of the credit card holder or other person authorized to sign on the credit card account.

The conditions enumerated in sub-subparagraphs a.-c. do not apply to health insurance or to credit life, credit disability, or credit property insurance; and sub-subparagraph c. does not apply to property and casualty insurance if ~~so long as~~ the transaction is authorized by the insured.

4. No person may use or disclose information resulting from the use of a credit card in conjunction with the purchase of insurance if~~, when~~ such information is to the advantage of the ~~such~~ credit card facility or an insurance agent, or is to the detriment of the insured or any other insurance agent; except that this provision does not prohibit a credit card facility from using or disclosing such information in a ~~any~~ judicial proceeding or consistent with applicable law on credit reporting.

5. ~~No~~ Such insurance may not ~~shall~~ be sold through a credit card facility in conjunction with membership in any automobile club. The term "automobile club" means a legal entity that ~~which~~, in consideration of dues, assessments, or periodic payments of money, promises its members or subscribers to assist them in matters relating to the ownership, operation, use, or

maintenance of a motor vehicle; however, the term ~~definition of automobile clubs~~ does not include persons, associations, or corporations that ~~which~~ are organized and operated solely for the purpose of conducting, sponsoring, or sanctioning motor vehicle races, exhibitions, or contests upon racetracks, or upon race courses established and marked as such for the duration of such particular event. The words "motor vehicle" used herein shall be the same as defined in chapter 320.

Section 25. Paragraph (b) of subsection (2) of section 627.062, Florida Statutes, is amended to read:

627.062 Rate standards.—

(2) As to all such classes of insurance:

(b) Upon receiving a rate filing, the office shall review the filing to determine whether the ~~if a~~ rate is excessive, inadequate, or unfairly discriminatory. In making that determination, the office shall, in accordance with generally accepted and reasonable actuarial techniques, consider the following factors:

1. Past and prospective loss experience within and without this state.

2. Past and prospective expenses.

3. The degree of competition among insurers for the risk insured.

4. Investment income reasonably expected by the insurer, consistent with the insurer's investment practices, from investable premiums anticipated in the filing, plus any other expected income from currently invested assets representing the amount expected on unearned premium reserves and loss reserves. The commission may adopt rules using reasonable techniques of

actuarial science and economics to specify the manner in which insurers calculate investment income attributable to classes of insurance written in this state and the manner in which investment income is used to calculate insurance rates. Such manner must contemplate allowances for an underwriting profit factor and full consideration of investment income that ~~which~~ produce a reasonable rate of return; however, investment income from invested surplus may not be considered.

5. The reasonableness of the judgment reflected in the filing.

6. Dividends, savings, or unabsorbed premium deposits allowed or returned to Florida policyholders, members, or subscribers.

7. The adequacy of loss reserves.

8. The cost of reinsurance. The office may not disapprove a rate as excessive solely due to the insurer's ~~insurer~~ having obtained catastrophic reinsurance to cover the insurer's estimated 250-year probable maximum loss or any lower level of loss.

9. Trend factors, including trends in actual losses per insured unit for the insurer making the filing.

10. Conflagration and catastrophe hazards, if applicable.

11. Projected hurricane losses, if applicable, which must be estimated using a model or method, or a straight average of model results or output ranges, which are independently found to be acceptable or reliable by the Florida Commission on Hurricane Loss Projection Methodology~~,~~ and as further provided in s. 627.0628.

12. A reasonable margin for underwriting profit and

contingencies.

13. The cost of medical services, if applicable.

14. Other relevant factors that affect the frequency or severity of claims or expenses.

Section 26. Paragraph (d) of subsection (3) of section 627.0628, Florida Statutes, is amended to read:

627.0628 Florida Commission on Hurricane Loss Projection Methodology; public records exemption; public meetings exemption.—

(3) ADOPTION AND EFFECT OF STANDARDS AND GUIDELINES.—

(d) With respect to a rate filing under s. 627.062, an insurer shall employ and may not modify or adjust actuarial methods, principles, standards, models, or output ranges found by the commission to be accurate or reliable in determining hurricane loss factors for use in a rate filing under s. 627.062. An insurer shall employ and may not modify or adjust models found by the commission to be accurate or reliable in determining probable maximum loss levels pursuant to paragraph (b) with respect to a rate filing under s. 627.062 made more than 180 ~~60~~ days after the commission has made such findings. This paragraph does not prohibit an insurer from using a straight average of model results or output ranges or using straight averages for the purposes of a rate filing under s. 627.062.

Section 27. Subsection (8) of section 627.0651, Florida Statutes, is amended to read:

627.0651 Making and use of rates for motor vehicle insurance.—

(8) Rates are not unfairly discriminatory if averaged

broadly among members of a group; nor are rates unfairly discriminatory even though they are lower than rates for nonmembers of the group. However, such rates are unfairly discriminatory if they are not actuarially measurable and credible and sufficiently related to actual or expected loss and expense experience of the group so as to ensure ~~assure~~ that nonmembers of the group are not unfairly discriminated against. Use of a single United States Postal Service zip code as a rating territory shall be deemed unfairly discriminatory unless filed pursuant to paragraph (1)(a) and such rating territory incorporates sufficient actual or expected loss and loss adjustment expense experience so as to be actuarially measurable and credible.

Section 28. Present subsections (2) through (4) of section 627.072, Florida Statutes, are redesignated as subsections (3) through (5), respectively, and a new subsection (2) is added to that section, to read:

627.072 Making and use of rates.—

(2) A retrospective rating plan may contain a provision that allows for the negotiation of premium between the employer and the insurer for employers having exposure in more than one state, an estimated annual standard premium in this state of $175,000, and an estimated annual countrywide standard premium of $1 million or more for workers' compensation.

Section 29. Subsection (2) of section 627.281, Florida Statutes, is amended to read:

627.281 Appeal from rating organization; workers' compensation and employer's liability insurance filings.—

(2) If the ~~such~~ appeal is based on ~~upon~~ the failure of the

rating organization to make a filing on behalf of a ~~such~~ member or subscriber which is based on a system of expense provisions which ~~differs~~, in accordance with the right granted in s. 627.072(3) ~~627.072(2)~~, differs from the system of expense provisions included in a filing made by the rating organization, the office shall, if it grants the appeal, order the rating organization to make the requested filing for use by the appellant. In deciding such appeal, the office shall apply the applicable standards set forth in ss. 627.062 and 627.072.

Section 30. Paragraph (h) of subsection (5) of section 627.311, Florida Statutes, is amended to read:

627.311 Joint underwriters and joint reinsurers; public records and public meetings exemptions.—

(5)

(h) Any premium or assessments collected by the plan in excess of the amount necessary to fund projected ultimate incurred losses and expenses of the plan and not paid to insureds of the plan in conjunction with loss prevention or dividend programs shall be retained by the plan for future use. Any state funds received by the plan in excess of the amount necessary to fund deficits in subplan D or any tier shall be returned to the state. Any dividend payable to a former insured of the plan may be retained by the plan for future use upon such terms as set forth in the declaration of dividend.

Section 31. Subsection (9) of section 627.3518, Florida Statutes, is amended to read:

627.3518 Citizens Property Insurance Corporation policyholder eligibility clearinghouse program.—The purpose of this section is to provide a framework for the corporation to

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

implement a clearinghouse program by January 1, 2014.

(9) The 45-day notice of nonrenewal requirement set forth in s. 627.4133(2)(b)5. ~~627.4133(2)(b)4.b.~~ applies when a policy is nonrenewed by the corporation because the risk has received an offer of coverage pursuant to this section which renders the risk ineligible for coverage by the corporation.

Section 32. Section 627.3519, Florida Statutes, is repealed.

Section 33. Section 627.409, Florida Statutes, is amended to read:

627.409 Representations in applications; warranties.—

(1) Any statement or description made by or on behalf of an insured or annuitant in an application for an insurance policy or annuity contract, or in negotiations for a policy or contract, is a representation and ~~is~~ not a warranty. Except as provided in subsection (3), a misrepresentation, omission, concealment of fact, or incorrect statement may prevent recovery under the contract or policy only if any of the following apply:

(a) The misrepresentation, omission, concealment, or statement is fraudulent or is material ~~either~~ to the acceptance of the risk or to the hazard assumed by the insurer.

(b) If the true facts had been known to the insurer pursuant to a policy requirement or other requirement, the insurer in good faith would not have issued the policy or contract, would not have issued it at the same premium rate, would not have issued a policy or contract in as large an amount, or would not have provided coverage with respect to the hazard resulting in the loss.

(2) A breach or violation by the insured of a ~~any~~ warranty,

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

condition, or provision of a ~~any~~ wet marine or transportation insurance policy, contract of insurance, endorsement, or application ~~therefor~~ does not void the policy or contract, or constitute a defense to a loss thereon, unless such breach or violation increased the hazard by any means within the control of the insured.

(3) For residential property insurance, if a policy or contract is in effect for more than 90 days, a claim filed by the insured may not be denied based on credit information available in public records.

Section 34. Paragraph (b) of subsection (2) of section 627.4133, Florida Statutes, is amended to read:

627.4133 Notice of cancellation, nonrenewal, or renewal premium.—

(2) With respect to a ~~any~~ personal lines or commercial residential property insurance policy, including a~~, but not limited to, any~~ homeowner's, mobile home owner's, farmowner's, condominium association, condominium unit owner's, apartment building, or other policy covering a residential structure or its contents:

(b) The insurer shall give the first-named insured written notice of nonrenewal, cancellation, or termination at least 120 ~~100~~ days before the effective date of the nonrenewal, cancellation, or termination. ~~However, the insurer shall give at least 100 days' written notice, or written notice by June 1, whichever is earlier, for any nonrenewal, cancellation, or termination that would be effective between June 1 and November 30.~~ The notice must include the reason or reasons for the nonrenewal, cancellation, or termination, except that:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~1. The insurer shall give the first-named insured written notice of nonrenewal, cancellation, or termination at least 120 days prior to the effective date of the nonrenewal, cancellation, or termination for a first-named insured whose residential structure has been insured by that insurer or an affiliated insurer for at least a 5-year period immediately prior to the date of the written notice.~~

1.~~2.~~ If cancellation is for nonpayment of premium, at least 10 days' written notice of cancellation accompanied by the reason therefor must be given. As used in this subparagraph, the term "nonpayment of premium" means failure of the named insured to discharge when due her or his obligations for paying the premium ~~in connection with the payment of premiums~~ on a policy or an ~~any~~ installment of such premium, whether the premium is payable directly to the insurer or its agent or indirectly under any premium finance plan or extension of credit, or failure to maintain membership in an organization if such membership is a condition precedent to insurance coverage. The term also means the failure of a financial institution to honor an insurance applicant's check after delivery to a licensed agent for payment of a premium, even if the agent has previously delivered or transferred the premium to the insurer. If a dishonored check represents the initial premium payment, the contract and all contractual obligations are void ab initio unless the nonpayment is cured within the earlier of 5 days after actual notice by certified mail is received by the applicant or 15 days after notice is sent to the applicant by certified mail or registered mail.~~, and~~ If the contract is void, any premium received by the insurer from a third party must be refunded to that party in

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

full.

2.~~3.~~ If ~~such~~ cancellation or termination occurs during the first 90 days the insurance is in force and the insurance is canceled or terminated for reasons other than nonpayment of premium, at least 20 days' written notice of cancellation or termination accompanied by the reason therefor must be given unless there has been a material misstatement or misrepresentation or failure to comply with the underwriting requirements established by the insurer.

3. After the policy has been in effect for 90 days, the insurer may not cancel the policy unless there has been a material misstatement, a nonpayment of premium, a failure to comply with underwriting requirements established by the insurer within 90 days after the date of effectuation of coverage, or a substantial change in the risk covered by the policy or the cancellation is for all insureds under such policies for a class of insureds. This subparagraph does not apply to individually rated risks having a policy term of less than 90 days.

4. After a policy or contract has been in effect for 90 days, the insurer may not cancel or terminate the policy or contract based on credit information available in public records. ~~The requirement for providing written notice by June 1 of any nonrenewal that would be effective between June 1 and November 30 does not apply to the following situations, but the insurer remains subject to the requirement to provide such notice at least 100 days before the effective date of nonrenewal:~~

~~a. A policy that is nonrenewed due to a revision in the coverage for sinkhole losses and catastrophic ground cover collapse pursuant to s. 627.706.~~

5.~~b.~~ A policy that is nonrenewed by Citizens Property Insurance Corporation, pursuant to s. 627.351(6), for a policy that has been assumed by an authorized insurer offering replacement coverage to the policyholder is exempt from the notice requirements of paragraph (a) and this paragraph. In such cases, the corporation must give the named insured written notice of nonrenewal at least 45 days before the effective date of the nonrenewal.

~~After the policy has been in effect for 90 days, the policy may not be canceled by the insurer unless there has been a material misstatement, a nonpayment of premium, a failure to comply with underwriting requirements established by the insurer within 90 days after the date of effectuation of coverage, or a substantial change in the risk covered by the policy or if the cancellation is for all insureds under such policies for a given class of insureds. This paragraph does not apply to individually rated risks having a policy term of less than 90 days.~~

6.~~5.~~ Notwithstanding any other ~~provision of~~ law, an insurer may cancel or nonrenew a property insurance policy after at least 45 days' notice if the office finds that the early cancellation of some or all of the insurer's policies is necessary to protect the best interests of the public or policyholders and the office approves the insurer's plan for early cancellation or nonrenewal of some or all of its policies. The office may base such finding upon the financial condition of the insurer, lack of adequate reinsurance coverage for hurricane risk, or other relevant factors. The office may condition its

finding on the consent of the insurer to be placed under administrative supervision pursuant to s. 624.81 or to the appointment of a receiver under chapter 631.

7.~~6.~~ A policy covering both a home and a motor vehicle may be nonrenewed for any reason applicable to ~~either~~ the property or motor vehicle insurance after providing 90 days' notice.

Section 35. Subsection (1) of section 627.4137, Florida Statutes, is amended to read:

627.4137 Disclosure of certain information required.—

(1) Each insurer that provides ~~which does~~ or may provide liability insurance coverage to pay all or a portion of a ~~any~~ claim that ~~which~~ might be made shall ~~provide~~, within 30 days after ~~of~~ the written request of the claimant, provide a statement, under oath, of a corporate officer or the insurer's claims manager, ~~or~~ superintendent, or licensed company adjuster setting forth the following information with regard to each known policy of insurance, including excess or umbrella insurance:

(a) The name of the insurer.

(b) The name of each insured.

(c) The limits of the liability coverage.

(d) A statement of any policy or coverage defense that the ~~which such~~ insurer reasonably believes is available to the ~~such~~ insurer at the time of filing such statement.

(e) A copy of the policy.

~~In addition,~~ The insured, or her or his insurance agent, upon written request of the claimant or the claimant's attorney, shall also disclose the name and coverage of each known insurer

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

to the claimant and ~~shall~~ forward the ~~such~~ request for information ~~as~~ required by this subsection to all affected insurers. The insurer shall ~~then~~ supply the required information ~~required in this subsection~~ to the claimant within 30 days after ~~of~~ receipt of such request.

Section 36. Subsection (1) of section 627.421, Florida Statutes, is amended to read:

627.421 Delivery of policy.—

(1) Subject to the insurer's requirement as to payment of premium, every policy shall be mailed, delivered, or electronically transmitted to the insured or to the person entitled thereto within ~~not later than~~ 60 days after the effectuation of coverage. Notwithstanding any other provision of law, an insurer may allow a policyholder of personal lines insurance to affirmatively elect delivery of the policy documents, including policies, endorsements, notices, or other documents, by electronic means in lieu of delivery by mail. Electronic transmission of a policy for commercial risks, including, but not limited to, workers' compensation and employers' liability, commercial automobile liability, commercial automobile physical damage, commercial lines residential property, commercial nonresidential property, farm owners' insurance, and the types of commercial lines risks set forth in s. 627.062(3)(d), constitute ~~shall constitute~~ delivery to the insured or to the person entitled to delivery, unless the insured or the person entitled to delivery communicates to the insurer in writing or electronically that he or she does not agree to delivery by electronic means. Electronic transmission must ~~shall~~ include a notice to the insured or to the person

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

entitled to delivery of a policy of his or her right to receive the policy via United States mail rather than via electronic transmission. A paper copy of the policy shall be provided to the insured or to the person entitled to delivery at his or her request.

Section 37. Subsection (2) of section 627.43141, Florida Statutes, is amended to read:

627.43141 Notice of change in policy terms.—

(2) A renewal policy may contain a change in policy terms. If a renewal policy contains ~~does contain~~ such change, the insurer must give the named insured written notice of the change, which may ~~must~~ be enclosed along with the written notice of renewal premium required by ss. 627.4133 and 627.728 or be sent in a separate notice that complies with the nonrenewal mailing time requirement for that particular line of business. The insurer must also provide a sample copy of the notice to the insured's insurance agent before or at the same time that notice is given to the insured. Such notice shall be entitled "Notice of Change in Policy Terms."

Section 38. Section 627.4553, Florida Statutes, is created to read:

627.4553 Recommendations to surrender.—If an insurance agent recommends the surrender of an annuity or life insurance policy containing a cash value and is not recommending that the proceeds from the surrender be used to fund or purchase another annuity or life insurance policy, before execution of the surrender, the insurance agent, or the insurance company if no agent is involved, shall provide, on a form adopted by rule by the department, information concerning the annuity or policy to

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

be surrendered, including the amount of any surrender charge, the loss of any minimum interest rate guarantees, the amount of any tax consequences resulting from the surrender, the amount of any forfeited death benefit, and the value of any other investment performance guarantees being forfeited as a result of the surrender. This section also applies to a person performing insurance agent activities pursuant to an exemption from licensure under this part.

Section 39. Paragraph (b) of subsection (4) of section 627.7015, Florida Statutes, is amended to read:

627.7015 Alternative procedure for resolution of disputed property insurance claims.—

(4) The department shall adopt by rule a property insurance mediation program to be administered by the department or its designee. The department may also adopt special rules which are applicable in cases of an emergency within the state. The rules shall be modeled after practices and procedures set forth in mediation rules of procedure adopted by the Supreme Court. The rules must ~~shall~~ provide ~~for~~:

(b) Qualifications, denial of application, suspension, revocation of approval, and other penalties for ~~of~~ mediators as provided in s. 627.745 and in the Florida Rules for ~~of~~ Certified and Court-Appointed ~~Court Appointed~~ Mediators~~, and for such other individuals as are qualified by education, training, or experience as the department determines to be appropriate~~.

Section 40. Section 627.70151, Florida Statutes, is created to read:

627.70151 Appraisal; conflicts of interest.—An insurer that offers residential coverage, as defined in s. 627.4025, or a

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

policyholder that uses an appraisal clause in the property insurance contract to establish a process for estimating or evaluating the amount of the loss through the use of an impartial umpire may challenge the umpire's impartiality and disqualify the proposed umpire only if:

(1) A familial relationship within the third degree exists between the umpire and a party or a representative of a party;

(2) The umpire has previously represented a party or a representative of a party in a professional capacity in the same or a substantially related matter;

(3) The umpire has represented another person in a professional capacity on the same or a substantially related matter, which includes the claim, same property, or an adjacent property and that other person's interests are materially adverse to the interests of any party; or

(4) The umpire has worked as an employer or employee of a party within the preceding 5 years.

Section 41. Paragraph (c) of subsection (2) of section 627.706, Florida Statutes, is amended to read:

627.706 Sinkhole insurance; catastrophic ground cover collapse; definitions.—

(2) As used in ss. 627.706-627.7074, and as used in connection with any policy providing coverage for a catastrophic ground cover collapse or for sinkhole losses, the term:

(c) "Neutral evaluator" means a professional engineer or a professional geologist who has completed a course of study in alternative dispute resolution designed or approved by the department for use in the neutral evaluation process, ~~and~~ who is determined by the department to be fair and impartial, and who

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

is not otherwise ineligible for certification as provided in s. 627.7074.

Section 42. Subsections (3), (7), and (18) of section 627.7074, Florida Statutes, are amended to read:

627.7074 Alternative procedure for resolution of disputed sinkhole insurance claims.—

(3) Following the receipt of the report required ~~provided~~ under s. 627.7073 or the denial of a claim for a sinkhole loss, the insurer shall notify the policyholder of his or her right to participate in the neutral evaluation program under this section if coverage is available under the policy and the claim was submitted within the timeframe provided in s. 627.706(5). Neutral evaluation supersedes the alternative dispute resolution process under s. 627.7015 but does not invalidate the appraisal clause of the insurance policy. The insurer shall provide to the policyholder the consumer information pamphlet prepared by the department pursuant to subsection (1) electronically or by United States mail.

(7) Upon receipt of a request for neutral evaluation, the department shall provide the parties a list of certified neutral evaluators. The department shall allow the parties to submit requests for disqualifying ~~to disqualify~~ evaluators on the list for cause.

(a) The department shall disqualify neutral evaluators for cause based only on any of the following grounds:

1. A familial relationship exists between the neutral evaluator and either party or a representative of either party within the third degree.

2. The proposed neutral evaluator has, in a professional

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

capacity, previously represented either party or a representative of either party, in the same or a substantially related matter.

3. The proposed neutral evaluator has, in a professional capacity, represented another person in the same or a substantially related matter and that person's interests are materially adverse to the interests of the parties. The term "substantially related matter" means participation by the neutral evaluator on the same claim, property, or adjacent property.

4. The proposed neutral evaluator has, within the preceding 5 years, worked as an employer or employee of a ~~any~~ party to the case.

(b) The department shall deny an application, or suspend or revoke the certification, of a neutral evaluator to serve in the neutral evaluator capacity if the department finds that one or more of the following grounds exist:

1. Lack of one or more of the qualifications for certification specified in this section.

2. Material misstatement, misrepresentation, or fraud in obtaining or attempting to obtain the certification.

3. Demonstrated lack of fitness or trustworthiness to act as a neutral evaluator.

4. Fraudulent or dishonest practices in the conduct of an evaluation or in the conduct of business in the financial services industry.

5. Violation of any provision of this code or of a lawful order or rule of the department or aiding, instructing, or encouraging another party to commit such violation.

(c) ~~(b)~~ The parties shall appoint a neutral evaluator from the department list and promptly inform the department. If the parties cannot agree to a neutral evaluator within 14 business days, the department shall appoint a neutral evaluator from the list of certified neutral evaluators. The department shall allow each party to disqualify two neutral evaluators without cause. Upon selection or appointment, the department shall promptly refer the request to the neutral evaluator.

(d) ~~(c)~~ Within 14 business days after the referral, the neutral evaluator shall notify the policyholder and the insurer of the date, time, and place of the neutral evaluation conference. The conference may be held by telephone, if feasible and desirable. The neutral evaluator shall make reasonable efforts to hold the conference within 90 days after the receipt of the request by the department. Failure of the neutral evaluator to hold the conference within 90 days does not invalidate either party's right to neutral evaluation or to a neutral evaluation conference held outside this timeframe.

(18) The department shall adopt rules of procedure for the neutral evaluation process and for certifying, denying or suspending the certification of, and revoking certification as, a neutral evaluator.

Section 43. Subsection (8) of section 627.711, Florida Statutes, is amended to read:

627.711 Notice of premium discounts for hurricane loss mitigation; uniform mitigation verification inspection form.—

(8) At its expense, the insurer may require that a uniform mitigation verification form provided by a policyholder, a policyholder's agent, or an authorized mitigation inspector or

inspection company be independently verified by an inspector, an inspection company, or an independent third-party quality assurance provider that ~~which~~ possesses a quality assurance program before accepting the uniform mitigation verification form as valid. The insurer may exempt from additional independent verification any uniform mitigation verification form provided by a policyholder, a policyholder's agent, an authorized mitigation inspector, or an inspection company that possesses a quality assurance program that meets the standards established by the insurer. A uniform mitigation verification form provided by a policyholder, a policyholder's agent, an authorized mitigation inspector, or an inspection company to Citizens Property Insurance Corporation is not subject to additional verification, and the property is not subject to reinspection by the corporation, absent material changes to the structure for the term stated on the form if the form signed by a qualified inspector was submitted to, reviewed, and verified by a quality assurance program approved by the corporation before submission to the corporation.

Section 44. Subsections (1), (2), and (3) of section 627.7283, Florida Statutes, are amended to read:

627.7283 Cancellation; return of premium.—

(1) If the insured cancels a policy of motor vehicle insurance, the insurer must mail or electronically transfer the unearned portion of any premium paid within 30 days after the effective date of the policy cancellation or receipt of notice or request for cancellation, whichever is later. This requirement applies to a cancellation initiated by an insured for any reason.

(2) If an insurer cancels a policy of motor vehicle insurance, the insurer must mail or electronically transfer the unearned premium portion of any premium within 15 days after the effective date of the policy cancellation.

(3) If the unearned premium is not mailed or electronically transferred within the applicable period, the insurer must pay to the insured 8 percent interest on the amount due. If the unearned premium is not mailed or electronically transferred within 45 days after the applicable period, the insured may bring an action against the insurer pursuant to s. 624.155.

Section 45. Paragraph (a) of subsection (5) of section 627.736, Florida Statutes, is amended to read:

627.736 Required personal injury protection benefits; exclusions; priority; claims.—

(5) CHARGES FOR TREATMENT OF INJURED PERSONS.—

(a) A physician, hospital, clinic, or other person or institution lawfully rendering treatment to an injured person for a bodily injury covered by personal injury protection insurance may charge the insurer and injured party only a reasonable amount pursuant to this section for the services and supplies rendered, and the insurer providing such coverage may directly pay ~~for~~ such charges ~~directly~~ to the ~~such~~ person or institution lawfully rendering ~~such~~ treatment if the insured receiving such treatment or his or her guardian has countersigned the properly completed invoice, bill, or claim form approved by the office upon which such charges are to be paid ~~for~~ as having actually been rendered, to the best knowledge of the insured or his or her guardian. However, such a charge may not exceed the amount the person or institution customarily

charges for like services or supplies. In determining whether a charge for a particular service, treatment, or otherwise is reasonable, consideration may be given to evidence of usual and customary charges and payments accepted by the provider involved in the dispute, reimbursement levels in the community and various federal and state medical fee schedules applicable to motor vehicle and other insurance coverages, and other information relevant to the reasonableness of the reimbursement ~~for the service, treatment, or supply~~.

1. The insurer may limit reimbursement to 80 percent of the following schedule of maximum charges:

a. For emergency transport and treatment by providers licensed under chapter 401, 200 percent of Medicare.

b. For emergency services and care provided by a hospital licensed under chapter 395, 75 percent of the hospital's usual and customary charges.

c. For emergency services and care as defined by s. 395.002 provided in a facility licensed under chapter 395 rendered by a physician or dentist, and related hospital inpatient services rendered by a physician or dentist, the usual and customary charges in the community.

d. For hospital inpatient services, other than emergency services and care, 200 percent of the Medicare Part A prospective payment applicable to the specific hospital providing the inpatient services.

e. For hospital outpatient services, other than emergency services and care, 200 percent of the Medicare Part A Ambulatory Payment Classification for the specific hospital providing the outpatient services.

f. For all other medical services, supplies, and care, 200 percent of the allowable amount under:

(I) The participating physicians fee schedule of Medicare Part B, except as provided in sub-sub-subparagraphs (II) and (III).

(II) Medicare Part B, in the case of services, supplies, and care provided by ambulatory surgical centers and clinical laboratories.

(III) The Durable Medical Equipment Prosthetics/Orthotics and Supplies fee schedule of Medicare Part B, in the case of durable medical equipment.

However, if such services, supplies, or care is not reimbursable under Medicare Part B, as provided in this sub-subparagraph, the insurer may limit reimbursement to 80 percent of the maximum reimbursable allowance under workers' compensation, as determined under s. 440.13 and rules adopted thereunder which are in effect at the time such services, supplies, or care is provided. Services, supplies, or care that is not reimbursable under Medicare or workers' compensation is not required to be reimbursed by the insurer.

2. For purposes of subparagraph 1., the applicable fee schedule or payment limitation under Medicare is the fee schedule or payment limitation in effect on March 1 of the year in which the services, supplies, or care is rendered and for the area in which such services, supplies, or care is rendered, and the applicable fee schedule or payment limitation applies from March 1 until the last day of February ~~throughout the remainder~~ of the following ~~that~~ year, notwithstanding any subsequent

change made to the fee schedule or payment limitation, except that it may not be less than the allowable amount under the applicable schedule of Medicare Part B for 2007 for medical services, supplies, and care subject to Medicare Part B.

3. Subparagraph 1. does not allow the insurer to apply a ~~any~~ limitation on the number of treatments or other utilization limits that apply under Medicare or workers' compensation. An insurer that applies the allowable payment limitations of subparagraph 1. must reimburse a provider who lawfully provided care or treatment under the scope of his or her license, regardless of whether such provider is entitled to reimbursement under Medicare due to restrictions or limitations on the types or discipline of health care providers who may be reimbursed for particular procedures or procedure codes. However, subparagraph 1. does not prohibit an insurer from using the Medicare coding policies and payment methodologies of the federal Centers for Medicare and Medicaid Services, including applicable modifiers, to determine the appropriate amount of reimbursement for medical services, supplies, or care if the coding policy or payment methodology does not constitute a utilization limit.

4. If an insurer limits payment as authorized by subparagraph 1., the person providing such services, supplies, or care may not bill or attempt to collect from the insured any amount in excess of such limits, except for amounts that are not covered by the insured's personal injury protection coverage due to the coinsurance amount or maximum policy limits.

5. ~~Effective July 1, 2012,~~ An insurer may limit payment as authorized by this paragraph only if the insurance policy includes a notice at the time of issuance or renewal that the

insurer may limit payment pursuant to the schedule of charges specified in this paragraph. A policy form approved by the office satisfies this requirement. If a provider submits a charge for an amount less than the amount allowed under subparagraph 1., the insurer may pay the amount of the charge submitted.

Section 46. Subsection (1) and paragraphs (a) and (b) of subsection (2) of section 627.744, Florida Statutes, are amended to read:

627.744 Required preinsurance inspection of private passenger motor vehicles.—

(1) A private passenger motor vehicle insurance policy providing physical damage coverage, including collision or comprehensive coverage, may not be issued in this state unless the insurer has inspected the motor vehicle in accordance with this section. Physical damage coverage on a motor vehicle may not be suspended during the term of the policy due to the applicant's failure to provide required documents. However, payment of a claim may be conditioned upon the insurer's receipt of the required documents, and physical damage loss occurring after the effective date of coverage is not payable until the documents are provided to the insurer.

(2) This section does not apply:

(a) To a policy for a policyholder who has been insured for 2 years or longer, without interruption, under a private passenger motor vehicle policy that ~~which~~ provides physical damage coverage for any vehicle~~,~~ if the agent of the insurer verifies the previous coverage.

(b) To a new, unused motor vehicle purchased or leased from

a licensed motor vehicle dealer or leasing company~~,~~ if the insurer is provided with:

1. A bill of sale, ~~or~~ buyer's order, or lease agreement that ~~which~~ contains a full description of the motor vehicle~~,~~ ~~including all options and accessories~~; or

2. A copy of the title or registration that ~~which~~ establishes transfer of ownership from the dealer or leasing company to the customer and a copy of the window sticker ~~or the dealer invoice showing the itemized options and equipment and the total retail price of the vehicle~~.

~~For the purposes of this paragraph, the physical damage coverage on the motor vehicle may not be suspended during the term of the policy due to the applicant's failure to provide the required documents. However, payment of a claim is conditioned upon the receipt by the insurer of the required documents, and no physical damage loss occurring after the effective date of the coverage is payable until the documents are provided to the insurer.~~

Section 47. Paragraph (b) of subsection (3) of section 627.745, Florida Statutes, is amended, present subsections (4) and (5) of that section are redesignated as subsections (5) and (6), respectively, and a new subsection (4) is added to that section, to read:

627.745 Mediation of claims.—

(3)

(b) To qualify for approval as a mediator, an individual ~~a person~~ must meet one of the following qualifications:

1. Possess an active certification as a Florida Supreme

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Court certified circuit court mediator. A circuit court mediator whose certification is in a lapsed, suspended, or decertified status is not eligible to participate in the program ~~a masters or doctorate degree in psychology, counseling, business, accounting, or economics, be a member of The Florida Bar, be licensed as a certified public accountant, or demonstrate that the applicant for approval has been actively engaged as a qualified mediator for at least 4 years prior to July 1, 1990~~.

2. Be an approved department mediator as of July 1, 2014, and have conducted at least one mediation on behalf of the department within the 4 years ~~immediately~~ preceding that ~~the~~ date ~~the application for approval is filed with the department, have completed a minimum of a 40-hour training program approved by the department and successfully passed a final examination included in the training program and approved by the department~~. ~~The training program shall include and address all of the following:~~

~~a. Mediation theory.~~

~~b. Mediation process and techniques.~~

~~c. Standards of conduct for mediators.~~

~~d. Conflict management and intervention skills.~~

~~e. Insurance nomenclature.~~

(4) The department shall deny an application, or suspend or revoke its approval of a mediator or certification of a neutral evaluator to serve in such capacity, if the department finds that any of the following grounds exist:

(a) Lack of one or more of the qualifications for approval or certification specified in this section.

(b) Material misstatement, misrepresentation, or fraud in

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

obtaining, or attempting to obtain, the approval or certification.

(c) Demonstrated lack of fitness or trustworthiness to act as a mediator or neutral evaluator.

(d) Fraudulent or dishonest practices in the conduct of mediation or neutral evaluation or in the conduct of business in the financial services industry.

(e) Violation of any provision of this code or of a lawful order or rule of the department, violation of the Florida Rules of Certified and Court Appointed Mediators, or aiding, instructing, or encouraging another party in committing such a violation.

The department may adopt rules to administer this subsection.

Section 48. Subsection (8) of section 627.782, Florida Statutes, is amended to read:

627.782 Adoption of rates.—

(8) Each title insurance agency and insurer licensed to do business in this state and each insurer's direct or retail business in this state shall maintain and submit information, including revenue, loss, and expense data, as the office determines necessary to assist in the analysis of title insurance premium rates, title search costs, and the condition of the title insurance industry in this state. This information must be transmitted to the office annually by May ~~March~~ 31 of the year after the reporting year. The commission shall adopt rules regarding the collection and analysis of the data from the title insurance industry.

Section 49. Subsections (1), (3), (10), and (12) of section

628.461, Florida Statutes, are amended to read:

628.461 Acquisition of controlling stock.—

(1) A person may not, individually or in conjunction with an ~~any~~ affiliated person of such person, acquire directly or indirectly, conclude a tender offer or exchange offer for, enter into any agreement to exchange securities for, or otherwise finally acquire 10 ~~5~~ percent or more of the outstanding voting securities of a domestic stock insurer or of a controlling company~~,~~ unless:

(a) The person or affiliated person has filed with the office and sent to the insurer and controlling company a letter of notification regarding the transaction or proposed transaction within ~~no later than~~ 5 days after any form of tender offer or exchange offer is proposed~~,~~ or within ~~no later than~~ 5 days after the acquisition of the securities if no tender offer or exchange offer is involved. The notification must be provided on forms prescribed by the commission containing information determined necessary to understand the transaction and identify all purchasers and owners involved;

(b) The person or affiliated person has filed with the office a statement as specified in subsection (3). The statement must be completed and filed within 30 days after:

1. Any definitive acquisition agreement is entered;

2. Any form of tender offer or exchange offer is proposed; or

3. The acquisition of the securities~~,~~ if no definitive acquisition agreement, tender offer, or exchange offer is involved; and

(c) The office has approved the tender or exchange offer,

or acquisition if no tender offer or exchange offer is involved, and approval is in effect.

~~In lieu of a filing as required under this subsection, a party acquiring less than 10 percent of the outstanding voting securities of an insurer may file a disclaimer of affiliation and control. The disclaimer shall fully disclose all material relationships and basis for affiliation between the person and the insurer as well as the basis for disclaiming the affiliation and control. After a disclaimer has been filed, the insurer shall be relieved of any duty to register or report under this section which may arise out of the insurer's relationship with the person unless and until the office disallows the disclaimer. The office shall disallow a disclaimer only after furnishing all parties in interest with notice and opportunity to be heard and after making specific findings of fact to support the disallowance.~~ A filing as required under this subsection must be made as to any acquisition that equals or exceeds 10 percent of the outstanding voting securities.

(3) The statement to be filed with the office under subsection (1) and furnished to the insurer and controlling company must ~~shall~~ contain the following information and any additional information ~~as~~ the office deems necessary to determine the character, experience, ability, and other qualifications of the person or affiliated person of such person for the protection of the policyholders and shareholders of the insurer and the public:

(a) The identity of, and the background information specified in subsection (4) on, each natural person by whom, or

on whose behalf, the acquisition is to be made; and, if the acquisition is to be made by, or on behalf of, a corporation, association, or trust, as to the corporation, association, or trust and as to any person who ~~controls either~~ directly or indirectly controls the corporation, association, or trust, the identity of, and the background information specified in subsection (4) on, each director, officer, trustee, or other natural person performing duties similar to those of a director, officer, or trustee for the corporation, association, or trust;

(b) The source and amount of the funds or other consideration used, or to be used, in making the acquisition;

(c) Any plans or proposals that ~~which~~ such persons may have made to liquidate such insurer, to sell any of its assets or merge or consolidate it with any person, or to make any other major change in its business or corporate structure or management; and any plans or proposals that which such persons may have made to liquidate any controlling company of such insurer, to sell any of its assets or merge or consolidate it with any person, or to make any other major change in its business or corporate structure or management;

(d) The number of shares or other securities which the person or affiliated person of such person proposes to acquire, the terms of the proposed acquisition, and the manner in which the securities are to be acquired; and

(e) Information as to any contract, arrangement, or understanding with any party with respect to any of the securities of the insurer or controlling company, including, but not limited to, information relating to the transfer of any of the securities, option arrangements, puts or calls, or the

giving or withholding of proxies, which information names the party with whom the contract, arrangement, or understanding has been entered into and gives the details thereof.

(10) Upon notification to the office by the domestic stock insurer or a controlling company that any person or any affiliated person of such person has acquired 10 ~~5~~ percent or more of the outstanding voting securities of the domestic stock insurer or controlling company without complying with ~~the provisions of~~ this section, the office shall order that the person and any affiliated person of such person cease acquisition of any further securities of the domestic stock insurer or controlling company; however, the person or any affiliated person of such person may request a proceeding, which ~~proceeding~~ shall be convened within 7 days after the rendering of the order for the sole purpose of determining whether the person, individually or in connection with an ~~any~~ affiliated person of such person, has acquired 10 ~~5~~ percent or more of the outstanding voting securities of a domestic stock insurer or controlling company. Upon the failure of the person or affiliated person to request a hearing within 7 days, or upon a determination at a hearing convened pursuant to this subsection that the person or affiliated person has acquired voting securities of a domestic stock insurer or controlling company in violation of this section, the office may order the person and affiliated person to divest themselves of any voting securities so acquired.

(12)~~(a)~~ A presumption of control may be rebutted by filing a disclaimer of control. A person may file a disclaimer of control with the office. The disclaimer must fully disclose all

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

material relationships and bases for affiliation between the person and the insurer as well as the basis for disclaiming the affiliation. The disclaimer of control shall be filed on a form prescribed by the office, or a person or acquiring party may file with the office a copy of a Schedule 13G on file with the Securities and Exchange Commission pursuant to Rule 13d-1(b) or Rule 13d-1(c) under the Securities Exchange Act of 1934, as amended. After a disclaimer is filed, the insurer is relieved of any duty to register or report under this section which may arise out of the insurer's relationship with the person, unless the office disallows the disclaimer. ~~For the purpose of this section, the term "affiliated person" of another person means:~~

~~1. The spouse of such other person;~~

~~2. The parents of such other person and their lineal descendants and the parents of such other person's spouse and their lineal descendants;~~

~~3. Any person who directly or indirectly owns or controls, or holds with power to vote, 5 percent or more of the outstanding voting securities of such other person;~~

~~4. Any person 5 percent or more of the outstanding voting securities of which are directly or indirectly owned or controlled, or held with power to vote, by such other person;~~

~~5. Any person or group of persons who directly or indirectly control, are controlled by, or are under common control with such other person;~~

~~6. Any officer, director, partner, copartner, or employee of such other person;~~

~~7. If such other person is an investment company, any investment adviser of such company or any member of an advisory~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~board of such company;~~

~~8. If such other person is an unincorporated investment company not having a board of directors, the depositor of such company; or~~

~~9. Any person who has entered into an agreement, written or unwritten, to act in concert with such other person in acquiring or limiting the disposition of securities of a domestic stock insurer or controlling company.~~

~~(b) For the purposes of this section, the term "controlling company" means any corporation, trust, or association owning, directly or indirectly, 25 percent or more of the voting securities of one or more domestic stock insurance companies.~~

Section 50. Subsection (11) of section 631.717, Florida Statutes, is amended to read:

631.717 Powers and duties of the association.—

(11) The association is ~~shall~~ not ~~be~~ liable for any civil action under s. 624.155 arising from any acts alleged to have been committed by a member insurer before ~~prior to~~ its liquidation. ~~This subsection does not affect the association's obligation to pay valid insurance policy or contract claims if warranted after its independent de novo review of the policies, contracts, and claims presented to it, whether domestic or foreign, after a Florida domestic rehabilitation or a liquidation.~~

Section 51. Section 631.737, Florida Statutes, is amended to read:

631.737 Rescission and review generally.—The association shall review claims and matters regarding covered policies based upon the record available to it on and after the date of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

liquidation. Notwithstanding any other provision of this part, in order to allow for orderly claims administration by the association, entry of a liquidation order by a court of competent jurisdiction tolls ~~shall be deemed to toll~~ for 1 year any rescission or noncontestable period allowed by the contract, the policy, or by law. The association's obligation is to pay any valid insurance policy or contract claims, if warranted, after its independent de novo review of the policies, contracts, and claims presented to it, whether domestic or foreign, after a rehabilitation or a liquidation.

Section 52. Subsections (6) and (7) of section 634.406, Florida Statutes, are amended to read:

634.406 Financial requirements.—

(6) An association that ~~which~~ holds a license under this part ~~and which does not hold any other license under this chapter~~ may allow its premiums for service warranties written under this part to exceed the ratio to net assets limitations of this section if the association meets all of the following conditions:

(a) Maintains net assets of at least $750,000.

(b) Uses ~~Utilizes~~ a contractual liability insurance policy approved by the office that: ~~which~~

1. Reimburses the service warranty association for 100 percent of its claims liability and is issued by an insurer that maintains a policyholder surplus of at least $100 million; or

2. Complies with subsection (3) and is issued by an insurer that maintains a policyholder surplus of at least $200 million.

(c) The insurer issuing the contractual liability insurance policy:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~1. Maintains a policyholder surplus of at least $100 million.~~

1.~~2.~~ Is rated "A" or higher by A.M. Best Company or an equivalent rating by another national rating service acceptable to the office.

~~3. Is in no way affiliated with the warranty association.~~

2.~~4.~~ In conjunction with the warranty association's filing of the quarterly and annual reports, provides, on a form prescribed by the commission, a statement certifying the gross written premiums in force reported by the warranty association and a statement that all of the warranty association's gross written premium in force is covered under the contractual liability policy, regardless of whether ~~or not~~ it has been reported.

~~(7) A contractual liability policy must insure 100 percent of an association's claims exposure under all of the association's service warranty contracts, wherever written, unless all of the following are satisfied:~~

~~(a) The contractual liability policy contains a clause that specifically names the service warranty contract holders as sole beneficiaries of the contractual liability policy and claims are paid directly to the person making a claim under the contract;~~

~~(b) The contractual liability policy meets all other requirements of this part, including subsection (3) of this section, which are not inconsistent with this subsection;~~

~~(c) The association has been in existence for at least 5 years or the association is a wholly owned subsidiary of a corporation that has been in existence and has been licensed as a service warranty association in the state for at least 5~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~years, and:~~

~~1. Is listed and traded on a recognized stock exchange; is listed in NASDAQ (National Association of Security Dealers Automated Quotation system) and publicly traded in the over-the-counter securities market; is required to file either of Form 10-K, Form 100, or Form 20-G with the United States Securities and Exchange Commission; or has American Depository Receipts listed on a recognized stock exchange and publicly traded or is the wholly owned subsidiary of a corporation that is listed and traded on a recognized stock exchange; is listed in NASDAQ (National Association of Security Dealers Automated Quotation system) and publicly traded in the over-the-counter securities market; is required to file Form 10-K, Form 100, or Form 20-G with the United States Securities and Exchange Commission; or has American Depository Receipts listed on a recognized stock exchange and is publicly traded;~~

~~2. Maintains outstanding debt obligations, if any, rated in the top four rating categories by a recognized rating service;~~

~~3. Has and maintains at all times a minimum net worth of not less than $10 million as evidenced by audited financial statements prepared by an independent certified public accountant in accordance with generally accepted accounting principles and submitted to the office annually; and~~

~~4. Is authorized to do business in this state; and~~

~~(d) The insurer issuing the contractual liability policy:~~

~~1. Maintains and has maintained for the preceding 5 years, policyholder surplus of at least $100 million and is rated "A" or higher by A.M. Best Company or has an equivalent rating by another rating company acceptable to the office;~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~2. Holds a certificate of authority to do business in this state and is approved to write this type of coverage; and~~

~~3. Acknowledges to the office quarterly that it insures all of the association's claims exposure under contracts delivered in this state.~~

~~If all the preceding conditions are satisfied, then the scope of coverage under a contractual liability policy shall not be required to exceed an association's claims exposure under service warranty contracts delivered in this state.~~

Section 53. Except as otherwise expressly provided in this act, this act shall take effect July 1, 2014.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1272 makes a number of revisions to transportation laws administered by the Florida Department of Transportation (FDOT) and to motor vehicle laws administered by the Department of Highway Safety & Motor Vehicles (DHSMV). More specifically, the bill:

- Extends the Florida Transportation Commission's (FTC) oversight of expressway and bridge authorities to the Mid-Bay Bridge Authority (MBBA) and repeals provisions relating to the Florida Statewide Passenger Rail Commission (FSPRC).
- Revises provisions to allow for reinstatement of driving privileges for certain cases regarding driver license suspensions due to unpaid child support.
- Requires the court to make a specific determination of whether a driver license can be issued for business purposes only (BPO) when suspending a driver license for unpaid child support and convictions of certain drug offenses.
- Repeals the requirement that a court order the driver license suspension of persons who fail to appear on worthless check charges, and permits and applies the suspension only to persons previously found guilty of bad check charges.
- Requires the Department of State, in consultation with the Department of Law Enforcement, to establish a retention schedule for records generated through the use of an automated license plate recognition system.
- Prohibits a bus from stopping to load or unload passengers in a manner that restricts the progression of traffic on a roadway.

- Provides that the prohibition against unattended vehicles left with the engine running does not apply to a vehicle started by remote control while the ignition, transmission, and doors are locked.
- Includes devices used to improve driver safety in the current exception for devices that may be mounted on windshields.
- Expands those authorized to conduct testing of autonomous vehicle technology, expands potential testing locations, and removes the requirement that a human operator be in the vehicle when testing on a closed course or designated testing roadways.
- Limits the DHSMV's authority to withhold the issuance of a vehicle registration when a notice to surrender has been submitted by a lienor to the DHSMV to the vehicle identified the notice. The bill allows the registered owner to dispute a notice to surrender by bringing a civil action and provides procedural requirements for disposition of a challenge.
- Directs the DHSMV to develop a plan of action that addresses motor vehicle registration holds for outstanding tolls, parking tickets, and fines.
- Enhances accountability of organizations receiving specialty license plate revenues by:
  - Providing guidelines for revenue use and compliance determinations;
  - Extending the DHSMV's period within which to determine compliance with the guidelines from 90 to 120 days;
  - Providing guidelines for corrective actions; and
  - Authorizing the DHSMV to commission an independent consultant to assist in determining compliance.
- Extends the moratorium on issuance of new specialty license plates from July 1, 2014, to July 1, 2016.
- Authorizes individuals with amateur radio licenses recognized, as opposed to issued, by the Federal Communications Commission (FCC) to apply for a special license plate.
- Requires licensed recreational vehicle dealers who apply for supplemental licenses to hold off-premises sales, not in conjunction with a public vehicle show, to notify the DHSMV of the dates and location of the sales.
- Requires the DHSMV to develop an optional digital proof of driver license.
- Authorizes tax collectors who have completed the transition of driver license services to retain certain fees related to license issuance that are currently deposited into the Highway Safety Operating Trust Fund.
- Exempts applicants who are homeless or whose annual income is at or below 100% of the federal poverty level from the $25 fee for an identification card.
- Revises the terms and conditions under which the FDOT may sell or lease properties acquired for transportation rights-of-way.
- Amends the process that the FDOT must follow relating to proposals to enter into a lease of FDOT property for joint public-private development.
- Revises state law relating to the designation, voting membership, and reapportionment of metropolitan planning organizations (MPOs).
- Authorizes Enterprise Florida, Inc., to be a consultant to the FDOT for consideration of economic development transportation projects.
- Requires full-service gasoline stations offering self-service at a lesser cost to meet certain decal display requirements and preempts local government laws and regulations relating to the provision of fueling assistance by a self-service gas station.
- Authorizes the FDOT to program and pay maintenance costs related to the Pinellas Bayway.

- Makes various editorial and grammatical changes and corrects cross-references necessitated by changes made elsewhere in the bill.

The bill has not been reviewed by the Revenue Estimating Conference. However, staff estimates a recurring negative impact to the General Revenue Fund, a recurring negative impact to the Highway Safety Operating Trust Fund, and a positive fiscal impact to county Tax Collectors beginning in Fiscal Year 2014-15. See Section V.

II. Present Situation:

The present situation is discussed below in Effect of Proposed Changes in this bill analysis.

III. Effect of Proposed Changes:

Florida Transportation Commission Oversight of Mid-Bay Bridge Authority and Passenger Rail Systems

Current Situation

The Florida Transportation Commission (FTC) is charged with periodically reviewing the status of the state transportation system, including rail and other component modes, and with recommending improvements to the system to the Governor and the Legislature. In 2007, the Legislature passed HB 985 amending s. 20.23(2)(b)8, F.S., to expand the oversight role of the FTC to include monitoring the efficiency, productivity, and management of the various tolling authorities created under ch. 348 and ch. 349, F.S. The Commission conducts periodic reviews of each authority's operations and budget, acquisition of property, management of revenue and bond proceeds, and compliance with applicable laws and generally accepted accounting principles.

The Mid-Bay Bridge Authority (MBBA)[1] is the governing body of an independent special district in Okaloosa County for the purpose of planning, constructing, operating, and maintaining a bridge over the Choctawhatchee Bay. The MBBA operates the tolled, 3.6-mile long Mid-Bay Bridge across the Choctawhatchee Bay and approaches (SR 293) on the northern and southern sides of the bridge. The facility, which connects SR 20 with U.S. 98 east of Destin, is a link between Interstate 10 and U.S. 98 and provides a more direct route to tourists and residents between northern and southern Okaloosa and Walton Counties.[2] No state entity is currently charged with monitoring the efficiency, productivity, and management of the MBBA.

In 2009, the Florida Legislature created the Florida Statewide Passenger Rail Commission (FSPRC) to monitor, advise, and review publicly-funded passenger rail systems[3], resulting in oversight responsibilities that overlap with or are redundant to those of the FTC.

[1] Re-created by special act, ch. 2000-411, L.O.F.
[2] Senate Issue Brief 2012-208, *Cost Effectiveness of Regional Expressway and Bridge Authorities*, (September 2011).
[3] The only publicly funded passenger rail system in the state (Tri-Rail) then and now existing is operated by the South Florida Regional Transportation Authority, which is established in ch. 343, F.S. However, the first phase (31 miles) of a commuter rail project, SunRail,– an eventual 61-mile stretch of existing rail freight tracks through Orange, Seminole, Volusia and Osceola counties and the City of Orlando -- is under construction, and service could begin as early as 2014.

Specifically, and similar to the duty of the FTC, the Legislature charged the FSPRC in s. 20.23(3)(b)1., F.S., with the function of:

> Monitoring the efficiency, productivity, and management of all publicly funded passenger rail systems in the state, including, but not limited to, any authority created under chapter 343, chapter 349, or chapter 163 if the authority receives public funds for the provision of passenger rail service. …This paragraph does not preclude the Florida Transportation Commission from conducting its performance and work program monitoring responsibilities.

The Florida Department of Transportation (FDOT) provides administrative support and service to the FSPRC. The commission last met in July 2012. Six of the nine seats on the FSPRC are currently vacant. The remaining three seats expire in August of 2014. [4]

Effect of Proposed Changes

Section 1 amends s. 20.23, F.S., expanding the FTC oversight responsibilities to include monitoring the efficiency, productivity, and management of the MBBA. The bill also amends s. 20.23, F.S., to repeal the Florida Statewide Passenger Rail Commission. Overlapping oversight of publicly-funded passenger rail systems is eliminated and remains solely with the FTC.

Section 3 of the bill revises s. 110.205, F.S., to modernize terms and correct cross-references required by statutory changes made in section 1 of the bill.

Non-Driving-Related Driver License Suspensions

Current Situation

Driver license revocations and suspensions either terminate or temporarily, respectively, withdraw one's driving privilege.[5] Initially, specific provisions addressed poor driving behavior. Driver's license suspensions and revocations are now commonly used as a means to punish individuals engaged in illegal behavior unrelated to the operation of a motor vehicle. Consequently, a substantial amount of time and resources are expended by state and local entities to deal with and process non-driving-related suspensions and revocations.

Current law provides penalties for driving with a suspended, revoked, or canceled license. Unknowing infractions are a moving violation, punishable as provided in ch. 318, F.S. Knowing infractions are punishable as a second degree misdemeanor on the first conviction (up to 30 days in jail and a $500 fine); a first degree misdemeanor on the second conviction (up to 60 days in jail and a $1,000 fine); and a third degree felony on the third or subsequent conviction (up to five years in prison and a $5,000 fine). Additionally, the arresting officer is authorized to impound the vehicle of a driver arrested for criminal violations under certain conditions.[6]

---

[4] The FDOT email, February 24, 2014, on file in the Senate Transportation Committee.
[5] Section 322.01, F.S., *Definitions.*
[6] Section 322.34(8)(b), F.S.

Failure to Appear in Court for Worthless Checks: Section 832.09, F.S., provides for the suspension of a driver license after a warrant or capias is issued in a worthless check case. A person prosecuted for passing a worthless check who fails to appear before the court and against whom a warrant or capias for failure to appear is issued by the court must have his or her driver license suspended or revoked. Within five working days after issuance of the warrant or capias, the DHSMV has to be notified of the court's action.

Misdemeanor Theft: Section 812.0155, F.S., provides for the suspension of a driver license for misdemeanor theft. For a first time offender, the court is required to order suspension of the driver's license of a person adjudicated guilty of a misdemeanor violation, regardless of the value of property stolen. The first suspension for misdemeanor theft is for six months and subsequent suspensions are for one year each.

Drug Offenses: Section 322.055, F.S., provides for the automatic suspension of the driver license for conviction of drug related offenses, including when a motor vehicle is involved. The clerks of court are required to report to the DHSMV all convictions for the possession or sale of, trafficking, or conspiracy to possess, sell, or traffic controlled substances. This includes persons:

- 18 years of age or older;
- 18 years of age or older and eligible by reason of age for a driver's license or privilege;
- 18 years or older driver already under suspension or revocation for any reason; and
- 18 years of age or older and ineligible by reason of age for a driver's license.

Federal Child Support Enforcement: The Federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996, also known as the Welfare Reform Act of 1996, enacted section 466(a)(16) of the Social Security Act, which requires states to have (and use in appropriate cases) the authority to withhold, suspend or restrict the use of driver licenses of individuals owing past due child support. The United States Department of Health and Human Services Office of Child Support Enforcement (OCSE) administers a federal-state program that provides funding to child support agencies in the states to help develop, manage and operate their programs effectively and according to federal law.

State and Local Entities: At the state level, the DHSMV is responsible for issuing driver licenses and administering driver license examinations. The department is also responsible for suspending and revoking driver licenses, which includes providing notice required by law and communicating license reinstatement requirements. The role of other state agencies is to notify the department when individuals violate laws that can be sanctioned by driver license suspension. For example, if a parent is delinquent on child support payments, the Department of Revenue (DOR) notifies DHSMV to start the process of driver license suspension.

At the local level, clerks of court are responsible for collecting financial obligations imposed by the court for criminal and traffic offenses, as well as maintaining court records and ensuring that court orders are carried out. Section 322.245, F.S., requires clerks of court to notify the DHSMV when a driver fails to pay court-imposed financial obligations for criminal offenses. Failure to pay can result in a license suspension. In addition, clerks of court provide information to the DHSMV about any court actions that require the suspension or revocation of driver licenses. On behalf of DHSMV, clerks of court and county tax collectors may reinstate driving privileges and collect reinstatement fees.

The Office of Program Policy Analysis & Government Accountability (OPPAGA) completed a report on non-driver related suspensions and revocations in February 2014, which indicates that most suspensions for delinquent child support and truancy are reinstated fairly quickly, usually within the year. The DOR officials maintain that the threat of losing a driver license is one of the best compliance tools it has to enforce child support orders. The DOR collected approximately $101.8 million in delinquent child support payments in Fiscal Year 2012-2013 from parents who received a notice of suspension or whose license was suspended.[7]

Common Reasons for Non-Driving-Related Driver License Suspensions or Revocations[8]

Fiscal Year 2012-2013 Non-Driving-Related Suspensions or Revocations	**Number**
Failure to pay court financial obligations	70,216
Failure to pay child support	68,223
Conviction of drug-related offense	19,024
Non-compliance with school attendance	4,020
Failure to appear-worthless check	1,829
Conviction of theft offense	462
Other non-driving suspensions or revocations	3,493
Total	167,267

The OPPAGA report further states legislative alternatives based on its findings for non-driving-related suspensions or revocations:

- Leave driver license suspension for failure to appear in court on a worthless check, and for a conviction of misdemeanor theft offense charge, at the court's discretion;
- Explore modifying or opting out of Florida's implementation of the federal mandate requiring driver license suspension for drug convictions;
- Codify current DOR child support enforcement practices regarding the use of driver license suspensions;
- Evaluate the effectiveness of driver license suspension for school truancy.

Effect of Proposed Changes

Section 2 amends s. 61.13016, F.S., to provide additional justifications available to a person whose driver license has been suspended for failure to comply with child support responsibilities to delay the court's order of driver license suspension. The bill allows the court to withhold suspension of the driver license of persons who can demonstrate any of the following:

- The receipt of reemployment assistance or unemployment compensation;
- The receipt of benefits under the federal Supplemental Security Income or Social Security Disability Insurance program;
- The receipt of temporary cash assistance pursuant to ch. 414, F.S.; or
- That he or she is making payments in accordance with a confirmed bankruptcy plan under chapters 11, 12, or 13, F.S., of the U. S. Bankruptcy Code, 11 U.S.C. ss. 101 et seq.

[7] Office of Program Policy Analysis & Government Accountability, Florida Legislature, *Options Exist to Modify Use of Driver License Suspension for Non-Driving-Related Reasons*, Report No.14-07 (Feb. 2014).
[8] Id,

Section 17 amends s. 322.055, F.S., to reduce the allowable driver license revocation or suspension period of a person convicted of possession, sale, or trafficking in a controlled substance from two years to one year. When a court orders such a revocation or suspension, the court must specifically make a determination as to whether a license may be issued allowing driving for business purposes only.

Section 18 amends s. 322.058, F.S., authorizing the DHSMV to reinstate the driver license of a person whose license was suspended for failure to comply with child support responsibilities upon proof of the additional justifications as provided in Section 2 of the bill.

Section 28 of the bill amends s. 562.11, F.S., to require a court ordering the suspension or revocation of the driver license of a person convicted of selling, giving, or serving alcohol to a person under 21, to specifically make a determination as to whether a license may be issued allowing driving for business purposes only.

Section 29 of the bill amends s. 812.0155, F.S., to require a court ordering the suspension or revocation of the driver license of a person adjudicated guilty of theft, to specifically make a determination as to whether a license may be issued allowing driving for business purposes only.

Section 30 of the bill amends s. 832.09, F.S., to allow, rather than mandate, a court to order suspension or revocation of the driver license of a person who is being prosecuted for passing a worthless check, failing to appear before the court and against whom a warrant or capias for failure to appear is issued by the court, if such person has previously been adjudicated guilty passing worthless checks under s. 832.05, F.S.

Automated License Plate Recognition Systems

Current Situation

An automated license plate recognition system (ALPRS) uses computerized optical character recognition to extract vehicle license plate information from an image or a sequence of images. The extracted information can be used with or without a database for many applications, such as electronic payment systems (toll payment, parking fee payment), and freeway and arterial monitoring systems for real-time traffic speed projections. This captured information (i.e., license plate number, date, time, and location) is collected, and may be matched to personal identifying databases and sometimes pooled into regional sharing systems. As a result, enormous databases may house the location and travel patterns of thousands, if not millions of individual motorists.

As an operational tool for law enforcement, ALPRSs scan the license plates of moving or parked vehicles while either mounted on a moving patrol car or attached to a fixed location, such as a toll plaza or free-standing installation. Though designed to assist law enforcement with day-to-day vehicle violations, an ALPRS may collect and store extensive location information about each vehicle in its field of vision. Photographs captured by an ALPRS may contain more than simply the license plate, and sometimes include a substantial part of a vehicle, its occupants, and

its immediate vicinity. Law enforcement can use captured photographs to verify witness descriptions of vehicles and confirm identifying features.

Effect of Proposed Changes

Section 4 creates s. 316.0778, F.S., to define "automated license plate recognition system" to mean "a system of one or more mobile or fixed high-speed cameras combined with computer algorithms to convert images of license plates into computer-readable data." The Department of State, in consultation with the Department of Law Enforcement, is directed to establish a retention schedule for records containing images and data generated through the use of an automated license plate recognition system, including a maximum period that records may be retained. Entities in possession of such records will be required to retain them in compliance with the schedule.

Loading and Unloading of Bus Passengers

Current Situation

Section 316.0815, F.S., requires that a driver of a vehicle yield the right-of-way to a publicly owned transit bus traveling in the same direction when the bus driver has signaled and the bus is reentering the traffic flow from a specifically designated pullout bay. However, specifically designated pullout bays are not available at every location at which such buses stop for the purpose of loading and unloading bus passengers, and stops are routinely made in the main-traveled portion of a roadway.

Section 316.083, F.S., authorizes drivers to overtake and pass a vehicle proceeding in the same direction and requires the driver of the overtaken vehicle to give way to the right in favor of the overtaking vehicle, without increasing vehicle speed, until completely passed by the overtaking vehicle. This requirement applies to the drivers of buses stopped in the main-traveled portion of a roadway to load and unload passengers.

Effect of Proposed Changes

Section 5 creates s. 316.0817, F.S., notwithstanding any other law, to prohibit a bus from stopping to load or unload passengers in a manner that impedes, blocks, or otherwise restricts the progression of traffic on the main-traveled portion of a roadway if there is another reasonable means for the bus to stop parallel to the travel lane and safely load and unload passengers. "Reasonable means" is defined for purposes of the new section to mean "sufficient unobstructed pavement or a designated turn lane that is sufficient in length to allow the safe loading and unloading of passengers parallel to the travel lane." These provisions do not apply to school buses. Enforcement of these provisions may be difficult, as the definition of "reasonable means" may be subject to differing interpretations. Private owners of "sufficient unobstructed pavement" that may be adjacent and parallel to the travel lane may object to damage incurred to the pavement should use of the owner's pavement occur.

Unattended Motor Vehicles/Remote Starters

Current Situation

Section 316.1975(2)(d), F.S., prohibits a vehicle from standing unattended with the engine running and ignition not in locked position with the key removed. A violation of this section is a noncriminal traffic infraction punishable as a nonmoving violation.[9] This section does not apply to the operator of:

- An authorized emergency vehicle equipped with antitheft device prohibiting the vehicle from being driven;
- A licensed delivery truck being used for business; or
- A solid waste or recovered materials collection vehicle.

Remote keyless systems are devices that allow a vehicle to be started up without requiring either the driver or the key to be physically inside the automobile. This is accomplished through a component that is connected to the ignition system and fitted with a radio receiver. When that component receives a signal from a paired transmitter, which typically takes the form of a key fob, it activates the starter motor. Through the advancement of technology, some newer vehicle models can be started by way of Smartphones.

Many vehicle models currently on the market and in use on the roadways are capable of being started by remote control. The current exceptions from the prohibition against allowing a vehicle to stand unattended without first stopping the engine, locking the ignition, and removing the key do not include a vehicle that is started by remote control while the ignition, transmission, and doors are locked.

Effect of Proposed Changes

Section 6 amends s. 316.1975, F.S., to provide that the prohibition of leaving a vehicle unattended with the engine running does not apply to a vehicle started by remote control while the ignition, transmission, and doors are locked.

Vehicle Windshields/Global Positioning System Devices

Current Situation

Current law requires that every motor vehicle, except a motorcycle or implement of husbandry, be equipped with a windshield.[10] Operation of a vehicle with any sign, sun-screening material, product, or covering attached to, in, or on the windshield is prohibited, except for the following:

- A certificate or other paper required to be displayed by law.
- Sun-screening material along a strip at the top of the windshield, if the material is transparent and does not encroach upon the driver's direct forward viewing area.
- A device, issued by a governmental entity or its designee, used for electronic toll payments.
- A global positioning system (GPS) or similar device used to obtain navigation or routing information while the motor vehicle is being operated.[11]

[9] Section 318.18, F.S. The penalty for a nonmoving violation is $30.
[10] Section 316.2952(1), F.S.
[11] Section 316.2952(2), F.S.

Many public and private entities utilize GPS and camera-based devices to monitor fleet operations and provide additional sensory-based safety features.[12] Suppliers of such devices report multiple benefits, such as improved vehicle maintenance, driver safety, and delivery times, as well as reduced insurance costs and overall reduction in operational expenses. Concern exists that the current exception for GPS or similar devices on vehicle windshields for purposes other than navigation or routing may not allow these devices to be placed on windshields.

Effect of Proposed Changes

Section 7 amends s. 316.2952(2), F.S., to specifically include in the current exception for GPS devices on windshields, those devices used to improve driver safety as a component of safety or provide driver feedback.

Autonomous Vehicle Testing

Current Situation

Section 316.86, F.S., currently authorizes operation of autonomous, or "self-driving," vehicles on roads in this state by employees, contractors, or other persons designated by manufacturers of autonomous technology for the purpose of testing the technology. The law requires that a human operator be present in the autonomous vehicle with the ability to monitor the vehicle's performance and if necessary to intervene. This provision does not apply when the autonomous vehicle is being tested on a closed course. An entity is required to submit to the DHSMV an instrument of insurance, surety bond, or proof of self-insurance in the amount of $5 million before performing testing in this state.

Effect of Proposed Changes

Section 8 amends s. 316.86, F.S., to expand those authorized to conduct testing to research organizations associated with accredited educational institutions. The requirement that a human be present in the vehicle is removed in certain circumstances and testing locations are expanded. A human operator must retain the ability to monitor the vehicle's performance and intervene, if necessary, unless the vehicle is being tested or demonstrated on a closed course *or any other testing roadway as designated by the FDOT and the applicable local government or authority.*

Motor Vehicle Registration Holds

Current Situation

Section 320.02, F.S., requires every owner or operator of a motor vehicle, driving on roads of Florida to register his or her vehicle in this state with the DHSMV or its authorized agent.

Section 320.1316, F.S., allows a lienor to notify the DHSMV when a liened vehicle is not surrendered as ordered and has otherwise been disposed of, concealed, removed, or destroyed by the registered owner (lienee.) When the DHSMV receives notice from a lienor, the registered vehicle's owners name is placed on the list of persons who may not be issued a license plate or

[12] See, *e.g.*, the following supplier websites: http://www.networkfleet.com/; http://www.fleetistics.com/; http://www.fmsgps.com/frontend/.

revalidation sticker for any vehicle. If the unsurrendered vehicle is jointly-owned, the name of each registered owner is placed on the list and no vehicle may be registered by any of the named individuals.

The lienor must maintain proof that written notice to surrender the vehicle was sent to each registered owner pursuant to s. 320.1316(1), F.S. A revalidation sticker or replacement license plate may not be issued for any vehicle until that person's name is no longer on the list or until the person presents documentation from the lienor that the unsurrendered vehicle has been surrendered to the lienor.

Citing insufficient due process to the affected registered owners, the DHSMV has declined to enforce the provisions of s. 320.1316, F.S., since its revision in 2010.

Effect of Proposed Changes

Sections 9 and 14 amend ss. 320.02 and 320.1316, F.S., respectively, to require that when an applicant's name appears on a list of persons who may not be issued a license plate, revalidation sticker, or replacement license plate after a written notice to surrender a vehicle or vessel was submitted to the DHSMV by a lienor as provided in s. 320.1316, F.S., the DHSMV shall withhold renewal of registration or replacement registration of *only* the motor vehicle identified in the notice.

The registered owner of the vehicle may dispute a notice to surrender or his or her inclusion on the list by bringing a civil action in the county in which he or she resides. If the registered owner challenges the refusal to issue a license plate under s. 320.03(8), F.S., the court shall determine whether the lienor has a recorded lien on the vehicle or vessel and whether the lienor properly made a demand for the surrender in accordance with this section. The court shall determine whether good cause exists, which is limited to proof that:

- The vehicle was traded in to a licensed motor vehicle dealer before the date of the surrender demand;
- The lien of the vehicle in question has been paid in full, and demand satisfied;
- There is ongoing litigation relating to the validity or enforceability of the lien;
- The petitioner no longer has possession of the vehicle or vessel, and the loss of possession occurred under the operation of law (if the loss of possession did not occur under the operation of law, and a third party has physical possession of the vehicle or vessel, good cause is not proven).

If the petitioner establishes good cause for failure to surrender the vehicle or vessel, the court shall order removal of the petitioner's name(s) from the list of persons who may not be issued a license plate, revalidation sticker, or replacement license plate, and reasonable attorney fees and costs shall be awarded.

However, if the court finds that the demand for surrender was properly made by the lienor and the petitioner fails to establish good cause for the failure to surrender the vehicle or vessel, the court shall award the lienor reasonable attorney fees and costs.

The lienor must maintain proof that written notice to surrender the vehicle or vessel was sent to each registered owner pursuant to s. 320.1316(1), F.S. Only the vehicle identified on the notice to surrender may be denied issuance of a revalidation sticker or replacement license plate, until the person's name no longer appears on the list, having presented the proper documentation from the lienor informing that the vehicle or vessel has been surrendered to the lienor, or a court orders that person's name removed from the list.

S**ection 32** of the bill also directs the DHSMV to develop a plan of action that addresses motor vehicle registration holds placed pursuant to ss. 316.1001 (toll violations), 316.1967 (parking violations), and 318.15, F.S., (civil penalty compliance), for presentation to the Legislature by February 1, 2015. The plan must include a methodology for applicants whose names have been placed on the list of persons who may be issued a license plate or revalidation sticker to rectify the cause of the hold through the payment of any outstanding toll, parking ticket, fine, and any other fee at the point of collection of the registration fee.

Specialty License Plates/Organization Accountability/Moratorium

Current Situation

Presently, there are 120 specialty license plates available for purchase, and four in the pre-sale phase. Specialty license plates are available to any owner or lessee of a motor vehicle who is willing to pay an annual use fee for the privilege. Annual use fees ranging from $15 to $25, paid in addition to required license taxes and service fees, are distributed to an organization in support of a particular cause or charity signified in the plate's design and designated in statute. The Legislature may create a specialty license plate under its own initiative or it can do so at the request of an organization.

Pre-Sale Requirements: The approved specialty license plate organization must presell a minimum of 1,000 vouchers within 24 months before the DHSMV can begin manufacturing the specialty license plate. If, at the end of the 24-month presale period, the minimum sales requirement has not been met, the DHSMV will de-authorize the specialty plate, discontinue development, and discontinue issuance of the presale voucher.

Department Costs Defrayed: The DHSMV collects annual use fees from the sale of the specialty license plates and from these proceeds retains a sufficient amount to defray costs for inventory, distribution, and other direct costs associated with the specialty license plate program. The remainder of the proceeds collected are distributed as provided by law.[13]

Discontinuance of Specialty Plates: The DHSMV is required to discontinue the issuance of an approved specialty license plate if the number of valid specialty plate registrations falls below 1,000 plates for at least 12 consecutive months. A warning letter must be mailed to the sponsoring organization following the first month in which the total number of valid specialty plate registrations is below 1,000 plates (collegiate plates are not included).[14]

[13] Section 320.08056(7), F.S.
[14] Section 320.08056(8)(a), F.S.

Audits and Attestation of Specialty Plates: Any organization that receives specialty license plate revenue and does not have an annual financial audit must attest annually, under penalties of perjury, that the annual use fee proceeds were used as stipulated under the law. The attestation report must be submitted in accordance with rules promulgated by the Auditor General. An organization's annual attestation must be submitted to the DHSMV within nine months after the end of each fiscal year. The DHSMV has 90 days after receiving an organization's audit or attestation to determine which recipients of revenues have not complied. If the determination is made that an organization has not complied or has failed to use revenues as stipulated, the DHSMV must discontinue the distribution of that organization's revenues. If the organization fails to comply within 12 months after the revenue is withheld, the proceeds from the relevant specialty license plate are deposited into the Highway Safety Operating Trust Fund to offset the DHSMV's cost of issuing the plate. In lieu of discontinuing an organization's revenue, the DHSMV may opt to request the Legislative Budget Commission to approve redirecting previously collected and future revenues to an organization capable of performing the same or similar purposes as the original recipient.

Moratorium: Currently, there is a statutory moratorium on the issuance of new specialty license plates. Section 45, ch. 2008-176, L.O.F., as amended by s. 21, ch. 2010-223, L.O.F., provides that "[e]except for a specialty license plate proposal which has submitted a letter of intent to the Department of Highway Safety and Motor Vehicles prior to May 2, 2008, and which has submitted a valid survey, marketing strategy, and application fee as required by s. 320.08053, F. S., prior to October 1, 2008, or which was included in a bill filed during the 2008 legislative session, the Department of Highway Safety and Motor Vehicles may not issue any new specialty license plates pursuant to ss. 320.08056 and 320.08058, F.S., between July 1, 2008, and July 1, 2014.

Effect of Proposed Changes

Section 10 amends s. 320.08056(10), F.S., to define the terms "administrative costs" and "administrative expenses," for purposes of that section and s. 320.08058, F.S., to mean those expenditures which are considered as direct operating costs of the organization. These costs include but are not limited to:

- Administrative salaries of employees and officers of the organization who do not, or cannot prove, via detailed daily time sheets, that they actively participate in program activities;
- Bookkeeping and support services of the organization;
- Office supplies and equipment not directly utilized for the specified programs(s);
- Travel time, per diem, mileage reimbursement, and lodging expenses not directly associated with a specified program purpose;
- Paper, printing, envelopes, and postage not directly associated with a specified program purpose; or
- Miscellaneous expenses such as food, beverage, entertainment, and conventions.

Utilization of annual use fees from specialty license plates for these costs and expenses are limited by the provisions of s. 320.08058, F.S., which establish maximum percentages of the use fees that may be applied to such costs and expenses for each plate.

Section 11 amends s. 320.08062, F.S., to provide the DHSMV 120 days after receiving an organization's audit or attestation to determine whether recipients are in compliance, and authorizes the DHSMV to commission an independent actuarial consultant, or an independent certified public accountant, who has expertise in nonprofit and charitable organizations, to determine compliance. The DHSMV is required to discontinue the distribution of revenues to an organization that fails to submit the required documentation, but may resume distribution of the revenues upon receipt of the required documentation.

The bill requires the DHSMV to inform such organizations of its findings and direct the changes necessary to bring the organization into compliance. If the organization's officers sign under penalties of perjury that they acknowledge the findings of the DHSMV and attest that they have taken corrective action and will submit to a follow-up review, the DHSMV may resume the distribution of revenues. However, if an organization fails to comply with the directives of the DHSMV to correct actions as outlined, the revenue distributions must be discontinued until completion of the next regular session of the Legislature.

The DHSMV is required to notify the Legislature by the first day of the regular session of noncompliant organizations. If the Legislature does not provide direction to the organization and the DHSMV regarding the status of the undistributed revenues, the DHSMV must discontinue the plate, and the revenue from the plate must be immediately deposited into the Highway Safety Operating Trust Fund.

Section 12 amends s. 45 of ch. 2008-176, L.O.F., as amended by s. 21 of ch. 2010-223, L.O.F., to extend the current moratorium on issuance of new specialty license plates to July 1, 2016.

Amateur Radio Operators/Special License Plate

Current Situation

Amateur radio or ham radio call signs are unique identifiers for licensed amateur radio operators. In the United States, amateur radio licensing is governed by the Federal Communications Commission (FCC) which issues licenses to operate amateur stations for personal use to individuals once they demonstrate an understanding of both pertinent FCC regulations and knowledge of radio station operation and safety considerations. Canadian call signs are regulated internationally by the International Telecommunication Union (ITU) as well as nationally by Industry Canada, which regulates all aspects of amateur radio in the country. It assigns call signs, issues amateur radio licenses, conducts exams, allots frequency spectrum, and monitors the radio waves.

In 1952, Canada and the United States signed a Reciprocal Operating Agreement treaty. In the terms of the agreement, visiting amateurs may operate in the host country in accordance with the rules and regulations of the host country.

Under s. 320.083, F.S., persons who hold a valid amateur radio license *issued* by the FCC, may have their radio's call sign assigned to a special license plate for an additional fee. However, persons whose call sign was assigned in Canada by the ITU, may not.

Effect of Proposed Changes

Section 13 amends s. 320.083(1), F.S., to allow persons with amateur radio licenses *recognized* by the FCC to apply for a special license plate with their call sign assigned. This will allow Canadian, and potentially other long term visitors who register vehicles in the state to display their amateur radio call signs on their Florida license plate.

Licensed Recreational Vehicle Dealers

Current Situation

Section 320.01, F.S. provides that a recreational vehicle is a vehicle primarily designed as temporary living quarters for recreational, camping, or travel use, which either has its own motive power or is mounted on or drawn by another vehicle. The basic entities of a recreational vehicle-type unit are the, "travel trailer," "camping trailer," "truck camper," "motor home," "private motor coach," "van conversion," "park trailer," and "fifth-wheel trailer." However, s. 320.771(1)(c), F.S., provides that a "recreational vehicle" does not include any camping trailer, as defined in s. 320.01(1)(b)2.

Any person or business that buys, sells, offers for sale, displays for sale, or deals in one or more recreational vehicles in any 12-month period is presumed to be a recreational vehicle dealer and must have an appropriate recreational vehicle dealer license issued by the DHSMV under s. 320.771, F.S.

Section 320.3203, F.S., which governs the sales agreements between recreational vehicle manufacturers and recreational vehicle dealers, requires manufacturers to have a written manufacturer/dealer agreement addressing the area of sales responsibility. A motor vehicle dealer may not sell a new recreational vehicle outside of the area of sales responsibility designated in the manufacturer/dealer agreement.

Often times, such businesses hold temporary, off-premises sales, such as, "tent sales", at open parking areas, fairgrounds, or simply a separate and different locale than their business address, to move the stock and inventory. Such off-premises sales require a supplemental license, issued by the DHSMV at no charge under s. 320.771(7), F.S., which permits off-premises sales for up to ten days.

Effect of Proposed Changes

Section 15 amends s. 320.771, F.S., to require a licensed recreational motor vehicle dealer conducting an off-premises sale, held not in conjunction with a public vehicle show to:

- Notify the applicable local DHSMV office of dates and location in which the license is requested.
- Provide staff to work at the temporary location during the off-premises sale.
- Meet all local government permit requirements.
- Have the permission of the property owner to operate at the location.
- Conspicuously display a sign at the licensed location that clearly identifies the dealer's name and business address as listed on the dealer's original license.

- Prominently include the dealer's name and business address, as listed on the dealer's original license, in all advertisements associated with such sale.

Digital Proof of Driver License

Current Situation

Section 322.059, F.S., requires that any person whose driver license or registration has been suspended must return that driver license immediately to the DHSMV. If he or she fails to return their license or registration, a law enforcement agent may seize the driver's license.

Section 322.15, F.S., requires that every licensee must have his or her driver license in their possession at all times while operating a motor vehicle and shall display that license upon demand of a law enforcement officer or an authorized representative of the DHSMV.

Effect of Proposed Changes

Section 16 creates s. 322.032, F.S., to require the DHSMV to begin to review and prepare for the development of a secure and uniform system for issuing an optional digital proof of driver license and to authorize the DHSMV to contract with private entities to develop the system. The digital proof of driver license system must be in such a format that will allow law enforcement to verify the authenticity of digital driver licenses. A digital proof of driver license is available only after a person has satisfied all requirements of ch. 322, F.S., and has received a physical driver license. The DHSMV is authorized to promulgate rules to ensure valid authentication of the digital driver licenses by law enforcement.

Manufacturing a false digital proof of driver license is a felony of the third degree, punishable by a term of imprisonment not exceeding five years,[15] a possible additional fine not exceeding $5,000,[16] or imposition under certain circumstances of an extended term of imprisonment for habitual felony offenders, habitual violent felony offenders, three-time felony offenders, and violent career criminals.[17] Possession of a false digital proof of driver license is a misdemeanor of the second degree, punishable by a term of imprisonment not exceeding 60 days.[18]

Section 19 amends s. 322.059, F.S., to require the DHSMV to invalidate the digital proof of driver license issued under this chapter if the motor vehicle operator was driving on a suspended license or registration.

Section 21 amends s. 322.15, F.S., to provide that a digital proof of driver license as provided in this chapter may be displayed in lieu of a physical driver license.

[15] Section 775.082, F.S.
[16] Section 775.083, F.S.
[17] Section 775.084, F.S.
[18] See supra note 9.

Driver License Fees/Tax Collectors

Current Situation

Current law requires that driver license issuance services be assumed by the tax collectors who are constitutional officers under s. 1(d), Art. VIII of the State Constitution by June 30, 2015.[19] The implementation of this provision is directed to be according to the schedule outlined in the Driver License Transition Plan submitted to the Legislature on February 1, 2011. The DHSMV prepared the report in cooperation with the Florida Tax Collectors and the Florida Association of Counties.

An applicant for an original driver license must pass an initial knowledge test and an initial skills test.[20] A $10 fee is assessed for each subsequent knowledge test and a $20 fee for each subsequent skills test, when an applicant has failed to pass the initial test. The revenues collected from these fees are deposited in the Highway Safety Operating Trust Fund.

Driver license fees are authorized in s. 322.21, F.S. An original or renewal commercial driver license is $78; and, an original, renewal or extension of a Class E driver license is $48. The revenues from these fees are deposited into the General Revenue Fund. Other fees established include replacement driver licenses and original, replacement, and renewal identification cards. A replacement driver license is $25. Of this amount, $7 is deposited into the Highway Safety Operating Trust Fund and $18 is deposited into the General Revenue Fund.

An identification card is $25.[21] Of this amount, the fee distribution varies depending on the type of issuance. The fee for an original identification card is deposited into the General Revenue Fund. From the fee for a renewal identification card, $6 is deposited into the Highway Safety Operating Trust Fund and $19 into the General Revenue Fund; and for a replacement identification card, $9 into the Highway Safety Operating Trust Fund and $16 is deposited into the General Revenue Fund.

County tax collectors who provide driver license services are authorized to charge a service fee of $6.25 in addition to other fees set forth in ch. 322, F.S., relating to driver license issuance. Beginning July 1, 2015, or upon completion of the transition of driver license issuance services, a tax collector who issues a replacement driver license or replacement identification card may retain the portion the fee that is currently deposited in the Highway Safety Operating Trust Fund, $7 or $9 respectively.

Effect of Proposed Changes

Section 20 amends s. 322.12, F.S., to revise the distribution of fees related to driver license examinations fees to allow the tax collector who conducts the examination to retain a portion of the fee as follows:

- Of the $10 fee for each subsequent initial knowledge test, $6 is retained by the tax collector if the tax collector conducted the test, and the remaining $4 is deposited into the Highway Safety Operating Trust Fund.

[19] Section 322.135(5), F.S.
[20] Section 322.12, F.S.
[21] Section 322.051, F.S.

- Of the $20 fee for each subsequent initial skills test, $15 is retained by the tax collector if the tax collector conducted the test, and the remaining $5 is deposited into the Highway Safety Operating Trust Fund.
- In both cases, all fees incurred by an applicant with a third-party provider or administered at a state facility are deposited into the Highway Safety Operating Trust Fund.

Section 22 amends s. 322.21, F.S., to authorize county tax collectors to retain $7 of the $25 fee for a replacement driver license, and $9 of the $25 fee for a replacement identification card, otherwise deposited into the Highway Safety Operating Trust Fund, if the tax collector has completed the transition of driver licensing services.

The bill also exempts an applicant who presents satisfactory evidence that he or she is homeless or that his or her annual income is at or below 100 percent of the federal poverty level[22] from the $25 fee for an original, renewal, or replacement identification card issued pursuant to s. 322.051, F.S.

Disposal and Lease of Real and Personal Property

Current Situation

The FDOT is authorized to purchase, lease, exchange, or otherwise acquire any land, property interests, buildings or other improvements necessary for rights-of-way for existing or anticipated transportation facilities on the State Highway System, on the State Park Road System, or in an FDOT designated rail or transportation corridor. The FDOT may also accept donations of land, building, or other improvements for transportation rights-of-way and may compensate an entity by providing replacement facilities when the land, building, or other improvements are needed for transportation purposes but are held by a federal, state, or local governmental entity and used for public purposes other than transportation.[23]

The FDOT is required to conduct a complete inventory of all real or personal property immediately upon acquisition, including an itemized listing of all appliances, fixtures, and other severable items, a statement of the location or site of each piece of realty, structure, or severable item; and the serial number assigned to each.[24] The FDOT must evaluate the inventory of real property which has been owned for at least 10 years and which is not within a transportation corridor or the right-of-way of a transportation facility. If the property is not located within a transportation corridor or is not needed for a transportation facility, the FDOT is authorized to dispose of the property.[25] According to the FDOT, 85 percent of its currently-owned surplus property is valued at under $50,000.

Sale of Property: The FDOT is authorized to sell any land, building, or other real or personal property it acquired if the FDOT determines the property is not needed for a transportation facility.[26] The FDOT is required to first offer the property ("first right of refusal") to the local

[22] https://www.healthcare.gov/glossary/federal-poverty-level-FPL/ (last visited 2/27/14)
[23] Section 337.25(1), F.S.

[25] Section 337.25(3), F.S.
[26] Section 337.25(4), F.S.

government in whose jurisdiction the property is located, with the exception of the following parcels:

- The FDOT may negotiate the sale of property, at no less than fair market value as determined by an independent appraisal, to the owner holding title to abutting property, if in the FDOT's discretion public sale would be inequitable.[27]
- The FDOT may sell property acquired for use as a borrow pit, at no less than fair market value, to the owner of abutting land from which the pit was originally acquired, if the pit is no longer needed.[28]
- The FDOT may convey to a county without consideration any property acquired by a county or by the FDOT using constitutional gas tax funds for a right-of-way or borrow pit for a road on the State Highway System, State Park Road System, or county road system if the property is no longer used or needed by the FDOT; and the county may sell the property on receipt of competitive bids.[29]
- A governmental entity may authorize re-conveyance to the original donor of property donated to the state for transportation purposes if the facility has not been constructed for at least five years, no plans have been prepared for construction of the facility, and the property is not located within a transportation corridor.[30]
- The FDOT may negotiate the sale of property as replacement housing if the property was originally acquired for persons displaced by transportation projects and if the state receives no less than its investment in such properties or fair market value, whichever is lower. This benefit extends only to persons actually displaced by a project, and dispositions to any other person must be for fair market value. [31]

Once the FDOT determines the property is not needed for a transportation facility and has extended and received rejection of required first rights of refusal, FDOT is also authorized to:

- Negotiate the sale of property if its value is $10,000 or less as determined by FDOT estimate;[32]
- Sell the property to the highest bidder through "due advertisement" of receipt of sealed competitive bids or by public auction if its value exceeds $10,000 as determined by the FDOT estimate;[33]
- Determine the fair market value of property through appraisal conducted by an FDOT appraiser, if the FDOT begins the process for disposing of property on its own initiative, either by authorized negotiation or by authorized receipt of sealed competitive bids or public auction;[34]
- Convey the property without consideration to a governmental entity if the property is to be used for a public purpose;[35]and
- Use the projected maintenance costs of the property over the next five years to offset the market value in establishing a value for disposal of the property, even if that value is zero, if

[33] Section 337.25(4)(b), F.S.
[34] Section 337.25(4)(e), F.S.
[35] Section 337.25(4)(h), F.S.

the FDOT determines that the property will require significant costs to be incurred or that continued ownership of the property exposes the FDOT to significant liability risks.[36]

Lease of Property: The FDOT is further authorized to convey a leasehold interest for commercial or other purposes to any acquired land, building, or other property, real or personal, subject to the following:[37]

- The FDOT may negotiate such a lease at the prevailing market value with the owner from whom the property was acquired; with the holders of leasehold estates existing at the time of the FDOT's acquisition; or, if public bidding would be inequitable, with the owner of privately owned abutting property, after reasonable notice to all other abutting property owners.[38]
- All other leases must be by competitive bid.[39]
- Such leases are limited to five years in duration, but the FDOT may renegotiate a lease for an additional five-year term without rebidding.[40]
- Each lease must require that any improvements made to the property during the lease term be removed at the lessee's expense.[41]
- If property is to be used for a public purpose, including a fair, art show, or other educational, cultural, or fundraising activity, the property may be leased without consideration to a governmental entity or school board.[42]
- No lease may be used by the lessee to establish the four years' standing required by eminent domain law if the business had not been established for four years on the date title passed to the FDOT.[43]
- The FDOT may enter into a long-term lease without compensation with certain public ports for rail corridors used for the operation of a short-line railroad to the port.[44]

The appraisals currently required under s. 337.25(4)(c) and (d), F.S., must be prepared in accordance with the FDOT guidelines and rules by an independent appraiser certified by the FDOT.[45] When "due advertisement" is required, an advertisement in a newspaper of general circulation in the area of the improvements of not less than 14 calendar days prior to the date of the receipt of bids or the date on which a public auction is to be held satisfies the requirement.[46]

Effect of Proposed Changes

Section 23 amends s. 337.25, F.S., to revise the terms and conditions under which the FDOT may sell or lease properties acquired for transportation rights-of-way and to authorize the FDOT to contract for auction services used in the conveyance of real or personal property or leasehold

[46] Section 337.25(8), F.S.

interests and to authorize such contracts to allow the contractor to retain a portion of the proceeds as compensation.

The FDOT is authorized to "convey", rather than "sell" land, buildings, or other real or personal property after determining the property isn't needed for a transportation facility and to dispose of property through negotiations, sealed competitive bids, auctions, or any other means deemed to be in the FDOT's best interest. Due advertisement is required for property valued at more than $10,000, and no property may be sold at less than fair market value except as specified. The FDOT is authorized, rather than required, to afford a right of first refusal to a political subdivision, or local government in which the parcel is located, except in conveyances when the property has been donated to the state for transportation purposes and a facility has not been constructed for at least 5 years, the property was originally required for replacement housing for persons displaced by transportation projects, or property which the FDOT has determined a sale to anyone other than the abutting land owner would be inequitable.

The FDOT is prohibited from conveying a leasehold interest at a price less than the FDOT's current estimate of value and specifies that a lease may be created through negotiations, sealed competitive bids, auctions, or any other means deemed to be in the best interest by the FDOT. A lease shall not be for a period of more than 5 years, however, the FDOT may extend the lease for an additional 5 years without rebidding.

The FDOT is required to publish a notice when a proposal to lease property has been received, stating that a proposal has been received and that FDOT will accept other proposals for 120 days after the date of publication for lease of the property. The FDOT is authorized to establish, by rule, an application fee for the submission of the proposals.

The FDOT's estimate of value must be prepared in accordance with department procedures, guidelines, and rules for valuation of real property. If the value of the property exceeds $50,000, the sale or lease must be negotiated at a price not less than the estimated value determined by the FDOT.

This section does not modify the eminent domain requirement of s. 73.013, F.S.

Unsolicited Lease Proposals

Current Situation

Section 337.251, F.S., *Lease of property for joint public-private development and areas above or below department property*, authorizes the FDOT to request proposals for the lease of the FDOT property for joint public-private development or commercial development. The FDOT may also receive and consider unsolicited proposals for such uses. If the FDOT receives an unsolicited proposal to negotiate a lease, the FDOT must publish a notice in a newspaper of general circulation at least once a week for two weeks, stating that it has received the proposal and will accept, for 60 days after the date of publication, other proposals for use of the space. The FDOT must also mail a copy of the notice to each local government in the affected area.

Any unsolicited lease proposal must be selected based on competitive bidding, and the FDOT is authorized to consider such factors as the value of property exchanges, the cost of construction,

and other recurring costs for the benefit of the FDOT by the lessee in lieu of direct revenue to the FDOT if such other factors are of equal value including innovative proposals to involve minority businesses. Before entering into any lease, the FDOT must determine that the property subject to the lease has a permanent transportation use related to the FDOT responsibilities, has the potential for such future transportation uses, or constitutes airspace or subsurface rights attached to property having such uses, and is therefore not available for sale as surplus property.

Section 334.30, F.S., *Public-private transportation facilities,* authorizes the FDOT to lease certain toll facilities through public-private partnerships and also authorizes the FDOT to receive unsolicited proposals. That section directs the FDOT to establish by rule an application fee sufficient to pay the costs of evaluating a proposal. The FDOT is further authorized to engage the services of private consultants to assist in the evaluation.

Unlike s. 337.251, F.S., before approving a proposal, the FDOT must determine that the proposed project is in the public's best interest; would not require state funds to be used unless the project is on the State Highway System; would have adequate safeguards in place to ensure that no additional costs or service disruptions would be realized by the traveling public and residents of the state in the event of default or cancellation of the agreement by the FDOT; would have adequate safeguards in place to ensure that the FDOT or the private entity has the opportunity to add capacity to the proposed project and other transportation facilities serving similar origins and destinations; and would be owned by the FDOT upon completion or termination of the agreement.[47] In addition, before awarding a contract for lease of an existing toll facility through a public-private partnership, the FDOT is required to provide an independent analysis of the proposed lease that demonstrates the cost-effectiveness and overall public benefit.

If the FDOT receives an unsolicited proposal for a lease through a public-private partnership, the FDOT must publish a notice in the Florida Administrative Weekly and a newspaper of general circulation at least once a week for two weeks stating that the FDOT has received the proposal and will accept, for 120 days after the initial date of publication, other proposals for the same project purpose. The FDOT must also mail a copy of the notice to each local government in the affected area.

Effect of Proposed Changes

Section 24 amends s. 337.251(2), F.S., relating to the lease of property for joint public-private development, to:

- Require that if the FDOT receives a proposal for a lease (rather than to negotiate a lease) of particular property the FDOT desires to consider, it shall publish the currently required newspaper notice stating that the FDOT will accept for 120 (rather than 60) days other proposals for lease of the particular property;
- Direct the FDOT to establish by rule an application fee for the submission of proposals under s. 337.251, F.S., sufficient to pay the anticipated costs of evaluating the proposals;
- Authorize the FDOT to engage the services of private consultants to assist in the evaluations;
- Require the FDOT, before approval of any proposal, to determine that the proposed lease is in the public's best interest, does not require state funds to be used, and has adequate

[47] The ownership requirement in s. 334.30, F.S., would not, of course, apply to a lease arrangement under s. 337.251, F.S.

safeguards in place to ensure that no additional costs or service disruptions would be realized by the traveling public and residents of the state in the event of default by the private lessee or upon termination or expiration of the lease; and

- Require the FDOT to provide an independent analysis of a proposed lease that demonstrates the cost-effectiveness and overall public benefit before moving forward with the procurement and before awarding the contract if the procurement moves forward.

These revisions make the process under s. 337.251, F.S., more similar to that under s. 334.30, F.S.

Metropolitan Planning Organizations

Current Situation

Based on census data, the U.S. Bureau of the Census designates urbanized areas throughout the state. Federal law and rule (23 U.S.C. 134 and 23 C.F.R 450 Part C) require a metropolitan planning organization (MPO) to be designated for each urbanized area[48] or group of contiguous urbanized areas. In addition, federal law and rules specify the requirements for a MPO transportation planning and programming activities. These requirements are updated after each federal transportation reauthorization bill enacted by Congress. State law also includes provisions governing MPO activities. Section 339.175, F.S., paraphrases or restates some key federal requirements. In addition, state law includes provisions that go beyond the federal requirements. For example, federal requirements regarding MPO membership are very general, while state law is more specific.

Section 339.175(2)(a)2., F.S., currently provides that designation of an MPO be accomplished by agreement between the Governor and units of general-purpose local government representing at least 75 percent of the population of the urbanized area; however, the unit of general-purpose local government that represents the central city or cities within the MPO jurisdiction, as defined by the United State Bureau of the Census, must be a party to such agreement. This language has been superseded by revisions to 23 U.S.C. 134(d) and 23 C.F.R. 450.310(b), which now require designation to be accomplished by agreement between the Governor and units of general-purpose local government that together represent at least 75 percent of the population (including the largest incorporated city, based on population, as named by the Bureau of the Census) or in accordance with procedures established by applicable State or local law.

An existing MPO may be re-designated by agreement between the Governor and units of general-purpose local government that together represent at least 75 percent of the existing population in the area served, including the largest incorporated city.[49] Re-designation of an MPO is required whenever the existing MPO proposes to make a substantial change in the proportion of voting members on the existing MPO representing the largest incorporated city, other units of general-purpose local government served by the MPO, and the State; or a substantial change in the decision-making authority or responsibility of the MPO, or in decision-making procedures established under the MPO bylaws.[50]

[48] An urbanized area is defined by the U.S. Bureau of the Census and has a population of 50,000 or more.
[49] 23 C.F.R. 450.301(h) (2012).
[50] 23 C.F.R. 450.301(k) (2012).

Current law does not authorize more than 19 members on an MPO in cases when the MPO is re-designated as a result of the expansion of an MPO to include a new urbanized area or the consolidation of two or more MPOs, even if the membership is already at 19 members.

For both multicounty and single-county MPOs, current law requires that county commission members compose not less than one-third of the MPO governing board membership. All voting members must be elected officials of general-purpose local government.

MPOs are currently required to establish bylaws and adopt rules pursuant to the Administrative Procedures Act.

Effect of Proposed Changes

Section 25 amends s. 339.175, F.S., to:

- Revise state law superseded by federal law and rule by requiring that MPO designation occur by agreement between the Governor and units of general-purpose local government that together represent at least 75 percent of the population, including the largest incorporated city, based on population, as named by the Bureau of the Census.
- Increase the voting membership from 19 to 25 members, which may provide more flexibility when membership apportionment plans are revised based on updated census data and new or expanded urbanized area boundaries, and could potentially benefit MPO consolidation.
- Provide that, with the exception of instances in which all of the county commissioners in a single-county MPO are members of the MPO governing board, county commissioners must compose at least one-third of the MPO governing board membership.
- Provide that a multicounty MPO may satisfy the one-third requirement by any combination of county commissioners from each of the counties constituting the MPO.
- Authorize general purpose local governments serving on an MPO to include one member who represents a group of general purpose local governments through an entity created by an MPO for that purpose. This would allow an entity created by an MPO that is composed of local government officials, such as an MPO-created committee consisting of local governments not on the MPO, to serve on an MPO.
- Authorize, rather than require, provision of governing board voting membership to authorities or other agencies that perform transportation functions but which are not under the jurisdiction of a general purpose local government. This provides MPO discretion to determine which authorities or other agencies should serve on an MPO governing board.
- Provide that each MPO is to review the composition of its membership after each decennial census and, as necessary, reapportion its membership with the Governor, to clarify that the MPO initiates the review and reapportionment of its governing board membership.
- Authorize MPOs to establish bylaws by action of its governing board providing procedural rules to guide its proceedings and consideration of matters before the council or, alternatively, adopt rules pursuant to the Administrative Procedures Act.

Economic Development Transportation Projects

Current Situation

Florida has a number of economic development incentive programs used to recruit industry to Florida or to persuade existing businesses to expand their operations. One such incentive exists in what is commonly referred to as the Road Fund, which is funded by the State Transportation Trust Fund and used to assist local government in paying for highway or other transportation infrastructure improvements that will benefit a relocating or expanding company. The amount appropriated for this transfer varies from year to year. The Legislature in 2012 repealed s. 288.063, F.S., in which the Road Fund was statutorily placed, and created s. 339.2821, F.S. The revisions did not change the purpose of the Road Fund but simply moved oversight of the fund from the Florida Department of Economic Opportunity (FDEO) to the FDOT.[51]

The FDOT, in consultation with the FDEO, is authorized under the new section to make and approve expenditures and contract with the appropriate government body for the direct costs of transportation projects. Current law specifies that as part of the contractual agreement between the FDOT and a governmental body, the governmental body must provide FDOT with specified quarterly reports, the FDOT may only transfer funds on a quarterly basis, the governmental body must expend funds received in a timely manner, and the FDOT may only transfer funds after construction has begun on the facility of a business on whose behalf the award was made.

Effect of Proposed Changes

Section 26 amends s. 339.2821, F.S., to include Enterprise Florida, Inc., as an FDOT consultant in making and approving economic development transportation project contracts; provides authority for the FDOT to terminate a grant award if construction of the transportation project does not begin within four years after the date of the initial grant award; and expands the type of authorized transportation facility projects to include spaceports.

Gasoline Stations/Accessibility/Preemption of Regulation

Current Situation

People with disabilities may find it difficult or impossible to use the controls, hose, or nozzle of a self-serve gas pump. As a result, at stations that offer both self and full service, people with disabilities might have no choice but to purchase the more expensive gas from a full-serve pump. At locations with only self-serve pumps, people with disabilities might be unable to purchase gas at all. The Americans with Disabilities Act (ADA) requires self-serve gas stations to provide equal access to their customers with disabilities. If necessary to provide access, gas stations must:

- Provide refueling assistance upon the request of an individual with a disability. A service station or convenience store is not required to provide such service at any time that it is operating on a remote control basis with a single employee**,** but is encouraged to do so, if feasible.

[51] Budget Committee Final Analysis of SB 1998: http://www.flsenate.gov/Session/Bill/2012/1998/Analyses/M6TO2qtoNCs60=PL=Y=PL=DT9BT2bnWNo=%7C11/Public/Bills/1900-1999/1998/Analysis/s1998z2.TEDAS.PDF.

- Let patrons know (e.g., through appropriate signs) that customers with disabilities can obtain refueling assistance by either honking or otherwise signaling an employee.
- Provide the refueling assistance without any charge beyond the self-serve price.[52]

Section 526.141, F.S., requires every full-service gasoline station that offers gasoline at a lower price to provide an attendant to dispense gasoline from the self-service portion of the station to any motorist properly displaying an exemption parking permit as provided in s. 316.1958, F.S.,[53] or a license plate bearing the international accessibility symbol, and the operator is the person to whom such permit was issued. Such stations shall prominently display a decal no larger than 8 square inches on the front of all self-service pumps clearly stating the requirements and applicable penalties for violations. Violation of this section is a misdemeanor of the second degree, punishable by a term of imprisonment not exceeding 60 days[54] or by a $500 fine.[55]

Effect of Proposed Changes

Section 27 amends s. 526.141, F.S., to require, by July 1, 2016, a full-service gas station offering self-service at a lesser cost to prominently display, in addition to the above-described decal, a blue decal at least 15 square inches in size that clearly displays the international symbol of accessibility, the station's telephone number, and the words "Call for Assistance." The Department of Agriculture and Consumer Services is directed to adopt rules to implement and enforce these provisions, and local government laws and regulations pertaining to the provision of fueling assistance by a self-service gas station are preempted and superseded.

Pinellas Bayway/Maintenance Costs

Current Situation

The FDOT-owned, tolled Pinellas Bayway System is a series of causeways and bridges providing a connection between St. Petersburg Beach, Fort DeSoto Park, and I-275:

> The east-west section of the facility (SR 682) provides a connection between I-275 (via 54th Avenue) on the east and Gulf Boulevard (SR 699) on the west. This section crosses the Bayway Isles and Isle Del Sol. The north-south section of the facility (SR 679) extends from Isle Del Sol through Tierra Verde to Mullet Key and Fort DeSoto Park. The facility was opened to traffic in December 1962.[56]

The 1985 Legislature directed that all tolls collected shall first be used for the payment of annual operating costs, second to discharge the current bond indebtedness,[57] and thereafter to establish a reserve construction account to be used for certain Pinellas Bayway improvements. Maintenance

[52] http://www.ada.gov/gasserve.htm (last visited 2/26/14)
[53] Out-of-state vehicles bearing identification of issuance to persons who have disabilities.
[54] Section 775.082, F.S.
[55] Section 775.083, F.S.
[56] Traffic Engineer's Annual Report for Fiscal Year Ended June 30, 2012, p. 51, on file in the Senate Transportation Committee.
[57] The FDOT advises no current bond indebtedness exists. The FDOT email, February 4, 2014, on file in the Senate Transportation Committee.

costs were not included in the directive. Instead, the FDOT was required, upon completion of those certain improvements, to continue to collect tolls on the Pinellas Bayway to reimburse the FDOT for all accrued maintenance costs for the Pinellas Bayway.

The 1995 Legislature amended the 1985 law to remove reference to completed improvements and modify references to future improvements but did not change the directive regarding maintenance costs. Consequently, amounts paid by the FDOT for maintenance costs accrue as long-term debt due the State Transportation Trust Fund (STTF), as opposed to the FDOT paying the maintenance costs from toll revenues. As of December 20, 2013, the long-term debt due the STTF as a result of maintenance costs paid by the FDOT is projected to be approximately $66 million in Fiscal Year 2022-2023.[58]

Effect of Proposed Changes

Section 31 amends s. 2 of ch. 85-364, L.O.F., as amended by s. 2 of ch. 95-382, L.O.F., to authorize the FDOT to use tolls first for the payment of annual operating *and maintenance* costs. This will allow the FDOT to pay the costs from the toll revenues and no longer accrue those costs as long-term debt. Users of the facility will pay maintenance costs, rather than having the costs subsidized by revenues deposited into the STTF. The bill also removes references to completed improvements.

Section 33 provides the bill takes effect on July 1, 2014.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

PCS/CS/SB 1272 redirects existing fees from the Highway Safety Operating Trust Fund in the Department of Highway Safety and Motor Vehicles (DHSMV) to county tax collectors who provide licensing issuance services.

[58] The FDOT Pinellas Bayway Toll Facility Revenue and Expenditure Report, on file in the Senate Transportation Committee.

B. Private Sector Impact:

Section 6: Individuals who start their vehicles by remote control while the ignition, transmission, and doors are locked will no longer by subject to a $30 penalty.

Sections 9 and 14: Individuals will be subject to withholding of registration *only* of the motor vehicle identified in a notice to surrender, which may avoid economic loss for some.

Section 24: Those wishing to submit proposals for lease of the Florida Department of Transportation (FDOT) property that the FDOT wishes to consider will be subject to an application fee sufficient to pay the anticipated cost of evaluation the proposal, to be established by the FDOT rule. Opportunities for private consultant contracts with the FDOT are authorized.

Section 27: Full-service gas stations that offer gasoline at a lower price will incur what is expected to be insignificant expenses associated with displaying the required decal.

C. Government Sector Impact:

Section 1: The Florida Transportation Commission (FTC) will incur additional expenditures associated with monitoring the Mid-Bay Bridge Authority (MBBA) and any publicly funded passenger rail system. These expenses are expected to be absorbed within existing resources, as the FTC already monitors the South Florida Regional Transportation Authority, which operates Tri-Rail, and will only add monitoring of the SunRail system to its duties.

Sections 2 and 18. The DHSMV may incur an indeterminate revenue reduction in the Highway Safety Operating Trust Fund related to a reduced number of driver license suspensions for failure to comply with child support responsibilities.

Section 4: The Department of State and the Department of Law Enforcement may incur costs associated with establishing a retention schedule for records containing images and data generated through the use of an automated license plate recognition system, which are expected to be absorbed within existing resources.

Section 6: The $30 penalty previously applicable to individuals who start their vehicles by remote control while the ignition, transmission, and doors are locked will no longer be collected.

Section 16: The DHSMV will incur expenses associated with developing a secure and uniform system for issuing an optional digital proof of driver license, which are expected to be absorbed within existing resources.

Sections 20 and 22: Deposits into the Highway Safety Operating Trust Fund will be reduced by, and the tax collectors will retain, the specified dollar amounts for initial knowledge and skills tests conducted by tax collectors, and for replacement driver

licenses and replacement identification cards issued by tax collectors. The General Revenue Fund will be reduced due to the fee exemption for identification cards for persons at 100% of the poverty level. The fiscal impact below was provided by the DHSMV based on the Highway Safety Fees Estimating Conference held in February, 2014.

	FY 2014-15 Revenue	FY 2015-16 Revenue	FY 2016-17 Revenue	FY 2017-18 Revenue
General Revenue	(1,578,539)	(1,604,086)	(1,824,483)	(2,288,446)
Highway Safety Operating Trust Fund	(5,653,028)	(8,369,422)	(8,550,671)	(8,808,677)
Tax Collectors	5,450,846	8,163,379	8,279,267	8,394,963

The DHSMV has indicated that there will be programming cost of 420 hours incurred at $100 per hour. This includes:

- Issuance of Identification Cards to Homeless at 100% of poverty level will require 20 hours of programming.
- Fee redirection to tax collectors will require 400 hours of programming.

The remaining cost to develop and implement a uniform and secure system for an optional digital proof of driver license is indeterminate but potentially significant. The development of this system will increase the total cost of the contract for driver license issuance in future years.

Section 23: The fiscal impact of the modified terms and conditions governing the FDOT's sale or lease of surplus property is indeterminate. However, according to the FDOT, a net positive impact to local revenue is expected as properties are returned to the ad valorem tax roll. In addition, an indeterminate savings to the state is expected as a result of reduced appraisal expenses, especially in cases when such costs approach and even exceed the price received by the FDOT.

Section 24: The FDOT's costs associated with evaluating lease proposals pursuant to s. 337.251, F.S., would presumably be covered by the application fee the FDOT is required to establish by rule, particularly if the fee includes the cost of private consultants the FDOT is authorized to engage to assist in its evaluations.

Section 27: The Department of Agriculture and Consumer Services will incur expenses to adopt rules relating to decal display at full-service gas stations offering self-service at a lower cost, which are expected to be absorbed within existing resources.

Section 32: The DHSMV will incur expenses associated with developing a plan of action that addresses motor vehicle registration holds for outstanding tolls, parking tickets, and fines, which are expected to be absorbed within existing resources.

VI. Technical Deficiencies:

The DHSMV is concerned that the creation of a digital driver license does not guarantee acceptance or the same level of acceptance as a physical license. It is the agency's belief that the Transportation Safety Administration and other federal agencies will not accept it in lieu of the actual physical card. Privacy and search and seizure issues could possibly be implicated in a digital driver license verification. First responders may face digital driver license identification challenges when individuals are non-responsive. In addition, digital driver license verifications would be subject to an individual's smart phone operating properly which could result in time intensive digital verifications in the field by law enforcement agencies.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends the following sections of the Florida Statutes: 20.23, 61.13016, 110.205, 316.1975, 316.2952, 316.86, 320.02, 320.08056, 320.08062, 320.083, 320.1316, 320.771, 322.055, 322.058, 322.059, 322.12, 322.15, 322.21, 337.25, 337.251, 339.175, 339.2821, 526.141, 562.11, 812.0155, and 832.09.

This bill amends section 2 of chapter 85-364, Laws of Florida, as amended by section 2 of chapter 95-382, Laws of Florida; and amends section 45 of chapter 2008-176, Laws of Florida, as amended by section 21 of chapter 2010-233, Laws of Florida.

This bill creates the following sections of the Florida Statutes: 316.0778, 316.0817, and 322.032.

This bill creates an undesignated section of Florida Law.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by the Appropriations Subcommittee on Transportation, Tourism, and Economic Development on April 9, 2014:
The CS/CS differs as follows:

- Language prohibiting the enforcement of State Uniform Traffic Laws by any means other than the direct observation of a law enforcement officer or other duly appointed individual, unless expressly authorized, is removed from the bill.
- Reinstatement of driving privileges for certain cases regarding suspensions due to unpaid child support is allowed.
- The court is required to make a specific determination of whether a driver license can be issued for business purposes only (BPO) when the suspension is for unpaid child support and convictions of certain drug offenses.

- The requirement that a court order the driver license suspension of persons who fail to appear on worthless check charges is repealed. Driver license suspension is permitted and applied only to persons previously found guilty of bad check charges.
- Designation of a testing roadway for autonomous vehicles by an authority with roadway jurisdiction in a given location is required, in addition to designation by the Florida Department of Transportation.
- The moratorium on specialty license plates is extended to 2016, and provisions relating to accountability of specialty license plate organizations are revised.
- Licensed recreational vehicle dealers conducting off-premise sales are required to meet certain notice, staffing, property owner permission, and local permit requirements.

CS by Transportation on March 6, 2014:
The CS revises provisions relating to the testing of autonomous vehicle technology to remove the requirement that a human be present in the vehicle and capable of intervening, if necessary, unless the vehicle is being tested on a closed course. Instead, the bill provides that a human operator must retain the ability to monitor the vehicle and intervene, if necessary, unless the vehicle is being tested on a closed course *or any other testing roadway designated by the FDOT and applicable local or county government*. The CS also expands those authorized to conduct testing to include research organizations associated with accredited educational institutions. The CS also removes obsolete language requiring a DHSMV report, as the report has already been submitted. Lastly, the CS removes the date certain by which the DHSMV is to develop an optional digital proof of driver license (10/1/16) and instead directs the department to begin to review and prepare for the development.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

Senate Amendment (with title amendment)

Between lines 547 and 548
insert:

Section 4. Paragraph (a) of subsection (1) and subsection (2) of section 316.0083, Florida Statutes, are amended to read:

316.0083 Mark Wandall Traffic Safety Program; administration; report.—

(1)(a) For purposes of administering this section, the department, a county, or a municipality may authorize a traffic

390854

infraction enforcement officer under s. 316.640 to issue a traffic citation for a violation of s. 316.074(1) or s. 316.075(1)(c)1. A notice of violation and a traffic citation may not be issued for failure to stop at a red light if the driver is making a right-hand turn ~~in a careful and prudent manner~~ at an intersection where right-hand turns are permissible. ~~A notice of violation and a traffic citation may not be issued under this section if the driver of the vehicle came to a complete stop after crossing the stop line and before turning right if permissible at a red light, but failed to stop before crossing over the stop line or other point at which a stop is required.~~ This paragraph does not prohibit a review of information from a traffic infraction detector by an authorized employee or agent of the department, a county, or a municipality before issuance of the traffic citation by the traffic infraction enforcement officer. This paragraph does not prohibit the department, a county, or a municipality from issuing notification as provided in paragraph (b) to the registered owner of the motor vehicle involved in the violation of s. 316.074(1) or s. 316.075(1) (c) 1.

(2) A notice of violation and a traffic citation may not be issued for failure to stop at a red light if the driver is making a right-hand turn ~~in a careful and prudent manner~~ at an intersection where right-hand turns are permissible.

Senate Amendment (with title amendment)

Between lines 547 and 548
insert:

Section 4. Paragraph (a) of subsection (2) of section 316.0776, Florida Statutes, is amended to read:

316.0776 Traffic infraction detectors; placement and installation.—

(2)(a) If the department, county, or municipality installs a traffic infraction detector at an intersection, the

316646

department, county, or municipality shall notify the public that a traffic infraction device may be in use at that intersection and must specifically include notification of camera enforcement of violations concerning right turns. The department, county, or municipality must post:

1. ~~such~~ Signage used to notify the public which meets ~~must meet~~ the specifications for uniform signals and devices adopted by the Department of Transportation pursuant to s. 316.0745; and

2. Additional signage that is:

a. Four feet wide and two feet tall and displays visible, prominent letters stating "Photo Enforced";

b. Located in a position visible to approaching traffic over the intersection and parallel to the red light signal; and

c. Installed on or before November 30, 2014. The traffic infraction detector company shall be responsible for any costs associated with the manufacture and installation of the signs specified in this subparagraph.

The Committee on Appropriations (Bean) recommended the following:

Senate Amendment (with title amendment)

Between lines 575 and 576
insert:

Section 6. Paragraphs (j) and (k) of subsection (6) of section 316.193, Florida Statutes, are redesignated as paragraphs (k) and (l), respectively, and a new paragraph (j) is added to that subsection, to read:

316.193 Driving under the influence; penalties.—

(6) With respect to any person convicted of a violation of

489780

subsection (1), regardless of any penalty imposed pursuant to subsection (2), subsection (3), or subsection (4):

(j)1. Notwithstanding the provisions of this section, s. 316.1937, and s. 322.2715 relating to ignition interlock devices required for second or subsequent offenders, in order to strengthen the pretrial and posttrial options available to prosecutors and judges, the court may order, if deemed appropriate, that a person participate in a qualified sobriety and drug monitoring program, as defined in subparagraph 2., in lieu of the ignition interlock device requirement. Participation shall be at the person's sole expense.

2. As used in this paragraph, the term "qualified sobriety and drug monitoring program" means an evidence-based program, approved by the department, in which participants are regularly tested for alcohol and drug use. As the court deems appropriate, the program may monitor alcohol or drugs through one or more of the following modalities: breath testing twice a day; continuous transdermal alcohol monitoring in cases of hardship; or random blood, breath, urine, or oral fluid testing. Testing modalities that provide the best ability to sanction a violation as close in time as reasonably feasible to the occurrence of the violation should be given preference. This paragraph does not preclude a court from ordering an ignition interlock device as a testing modality.

3. For purposes of this paragraph, the term "evidence-based program" means a program that satisfies the requirements of at least two of the following:

a. The program is included in the federal registry of evidence-based programs and practices.

b. The program has been reported in a peer-reviewed journal as having positive effects on the primary targeted outcome.

c. The program has been documented as effective by informed experts and other sources.

For the purposes of this section, any conviction for a violation of s. 327.35; a previous conviction for the violation of former s. 316.1931, former s. 860.01, or former s. 316.028; or a previous conviction outside this state for driving under the influence, driving while intoxicated, driving with an unlawful blood-alcohol level, driving with an unlawful breath-alcohol level, or any other similar alcohol-related or drug-related traffic offense, is also considered a previous conviction for violation of this section. However, in satisfaction of the fine imposed pursuant to this section, the court may, upon a finding that the defendant is financially unable to pay either all or part of the fine, order that the defendant participate for a specified additional period of time in public service or a community work project in lieu of payment of that portion of the fine which the court determines the defendant is unable to pay. In determining such additional sentence, the court shall consider the amount of the unpaid portion of the fine and the reasonable value of the services to be ordered; however, the court may not compute the reasonable value of services at a rate less than the federal minimum wage at the time of sentencing.

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Transportation, Tourism, and Economic Development)

A bill to be entitled

An act relating to transportation and motor vehicles; amending s. 20.23, F.S.; requiring the Florida Transportation Commission to monitor the Mid-Bay Bridge Authority; repealing the Florida Statewide Passenger Rail Commission; amending s. 61.13016, F.S.; revising notification requirements with respect to the suspension of the driver license of a child support obligor; requiring delinquent child support obligors to provide certain documentation within a specified period in order to prevent the suspension of a driver license; amending s. 110.205, F.S.; conforming cross-references; creating s. 316.0778, F.S.; defining the term "automated license plate recognition system"; requiring the Department of State to consult with the Department of Law Enforcement in establishing a retention schedule for records generated by the use of an automated license plate recognition system; creating s. 316.0817, F.S.; prohibiting a bus from stopping to load or unload passengers in a manner that impedes, blocks, or otherwise restricts the progression of traffic under certain circumstances; amending s. 316.1975, F.S.; authorizing an operator of a vehicle that is started by remote control to let the vehicle stand unattended under certain circumstances; amending s. 316.2952, F.S.; revising a provision

376118

576-04081A-14

exempting a global position system device or similar satellite receiver device from the prohibition of attachments on windshields; amending s. 316.86, F.S.; revising provisions relating to the operation of vehicles equipped with autonomous technology on state roads for testing purposes; authorizing research organizations associated with accredited educational institutions to operate such vehicles; authorizing the testing of such vehicles on certain roadways designated by the Department of Transportation and the applicable local government or authority; deleting an obsolete provision; amending s. 320.02, F.S.; requiring, rather than authorizing, the Department of Highway Safety and Motor Vehicles to withhold the renewal of registration or replacement registration of a motor vehicle identified in a notice submitted by a lienor for failure to surrender the vehicle if the applicant's name is on the list of persons who may not be issued a license plate or revalidation sticker; revising the conditions under which a revalidation sticker or replacement license plate may be issued; amending s. 320.08056, F.S.; defining the terms "administrative costs" and "administrative expenses" for purposes of the section and s. 320.08058, F.S.; amending s. 320.08062, F.S.; revising provisions relating to audit and attestation requirements for annual use fee proceeds; requiring the Department of Highway Safety and Motor Vehicles to discontinue the distribution of revenues to an organization that does

not meet specified requirements; authorizing the department to resume the distribution of revenue under certain conditions; requiring a report to the Legislature; requiring the discontinuance of a specialty plate under certain circumstances; amending chapter 2008-176, Laws of Florida, as amended; extending the prohibition on the issuance of new specialty license plates; amending s. 320.083, F.S.; revising the requirements for a special license plate; amending s. 320.1316, F.S.; prohibiting the department from issuing a license plate, revalidation sticker, or replacement license plate for a vehicle or vessel identified in a notice from a lienor; requiring that a notice to surrender a vehicle or vessel be signed under oath by the lienor; authorizing a registered owner of a vehicle to bring a civil action, rather than to notify the department and present certain proof, to dispute a notice to surrender a vehicle or vessel or his or her inclusion on the list of persons who may not be issued a license plate or revalidation sticker; providing a procedure for such a civil action; providing for the award of attorney fees and costs; amending s. 320.771, F.S.; requiring a licensed recreational vehicle dealer who applies for a supplemental license to hold certain off-premises sales to notify the local Department of Highway Safety and Motor Vehicles office of the dates and location for such sales; specifying requirements for licensed recreational vehicle dealers to hold such sales;

creating s. 322.032, F.S.; requiring the Department of Highway Safety and Motor Vehicles to begin to review and prepare for the development of a system for issuing an optional digital proof of driver license; authorizing the Department of Highway Safety and Motor Vehicles to contract with private entities to develop the system; providing requirements for digital proof of driver license; providing criminal penalties for manufacturing or possessing a false digital proof of driver license; amending s. 322.055, F.S.; reducing the mandatory period of revocation or suspension of, or delay in eligibility for, a driver license for persons convicted of certain drug offenses; requiring the court to make a determination as to whether a restricted license would be appropriate for persons convicted of certain drug offenses; amending s. 322.058, F.S.; requiring the Department of Highway Safety and Motor Vehicles to reinstate the driving privilege and allow registration of a motor vehicle of a child support obligor upon receipt of an affidavit containing specified information; amending s. 322.059, F.S.; requiring the Department of Highway Safety and Motor Vehicles to invalidate the digital proof of driver license for a person whose license or registration has been suspended; amending s. 322.12, F.S.; requiring that certain test fees incurred by certain applicants for a driver license be retained by the tax collector; amending s. 322.15, F.S.; authorizing a digital proof of driver license to be

576-04081A-14

accepted in lieu of a physical driver license; amending s. 322.21, F.S.; authorizing certain tax collectors to retain a replacement driver license or identification card fee under certain circumstances; exempting certain individuals who are homeless or whose annual income is at or below a certain percentage of the federal poverty level from paying a fee for an original, renewal, or replacement identification card; amending s. 337.25, F.S.; authorizing the Department of Transportation to use auction services in the conveyance of certain property or leasehold interests; revising certain inventory requirements; revising provisions relating to, and providing criteria for, the disposition of certain excess property by the Department of Transportation; providing criteria for the disposition of donated property, property used for a public purpose, or property acquired to provide replacement housing for certain displaced persons; providing value offsets for property that requires significant maintenance costs or exposes the Department of Transportation to significant liability; providing procedures for the sale of property to abutting property owners; deleting provisions to conform to changes made by the act; providing monetary restrictions and criteria for the conveyance of certain leasehold interests; providing exceptions to restrictions for leases entered into for a public purpose; providing criteria for the preparation of estimates of value prepared by the

576-04081A-14

Department of Transportation; providing that the requirements of s. 73.013, F.S., relating to eminent domain are not modified; amending s. 337.251, F.S.; revising criteria for leasing certain Department of Transportation property; increasing the time for the Department of Transportation to accept proposals for lease after a notice is published; directing the Department of Transportation to establish an application fee by rule; providing criteria for the fee; providing criteria for a proposed lease; requiring the Department of Transportation to provide an independent analysis of a proposed lease; amending s. 339.175, F.S.; increasing the maximum number of apportioned members that may compose the voting membership of a metropolitan planning organization (M.P.O.); providing that the governing board of a multicounty M.P.O. may be made up of any combination of county commissioners from the counties constituting the M.P.O; providing that a voting member of an M.P.O may represent a group of general-purpose local governments through an entity created by the M.P.O.; requiring each M.P.O. to review and reapportion its membership as necessary in conjunction with the decennial census, the agreement of the affected units of the M.P.O., and the agreement of the Governor; removing provisions requiring the Governor to apportion, review, and reapportion the composition of an M.P.O. membership; revising a provision regarding bylaws to allow the M.P.O. governing board to

576-04081A-14

establish bylaws; amending s. 339.2821, F.S.; authorizing Enterprise Florida, Inc., to be a consultant to the Department of Transportation for consideration of expenditures associated with and contracts for transportation projects; revising the requirements for economic development transportation project contracts between the Department of Transportation and a governmental entity; amending s. 526.141, F.S.; requiring full-service gasoline stations offering self-service at a lesser cost to display an additional decal; requiring the decal to contain certain information; requiring the Department of Agriculture and Consumer Services to adopt rules to implement and enforce this requirement; providing for preemption of local regulations pertaining to fueling assistance for certain motor vehicle operators; amending s. 562.11, F.S.; authorizing the court to direct the Department of Highway Safety and Motor Vehicles to issue a restricted driver license to certain persons; amending s. 812.0155, F.S.; deleting a provision requiring the suspension of the driver license of a person adjudicated guilty of certain offenses; authorizing the court to direct the Department of Highway Safety and Motor Vehicles to issue a restricted driver license to certain persons; amending s. 832.09, F.S.; providing that the suspension of a driver license of a person being prosecuted for passing a worthless check is discretionary; amending chapter 85-364, Laws of

576-04081A-14

Florida, as amended; providing that maintenance costs are eligible for payment from certain toll revenues as specified; removing references to certain completed projects; directing the Department of Highway Safety and Motor Vehicles to develop a plan that addresses certain vehicle registration holds; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (b) of subsection (2) and subsection (3) of section 20.23, Florida Statutes, are amended to read:

20.23 Department of Transportation.—There is created a Department of Transportation which shall be a decentralized agency.

(2)

(b) The commission shall ~~have the primary functions to~~:

1. Recommend major transportation policies for the Governor's approval~~,~~ and assure that approved policies and any revisions ~~thereto~~ are properly executed.

2. Periodically review the status of the state transportation system including highway, transit, rail, seaport, intermodal development, and aviation components of the system and recommend improvements ~~therein~~ to the Governor and the Legislature.

3. Perform an in-depth evaluation of the annual department budget request, the Florida Transportation Plan, and the tentative work program for compliance with all applicable laws and established departmental policies. Except as specifically

provided in s. 339.135(4)(c)2., (d), and (f), the commission may not consider individual construction projects, but shall consider methods of accomplishing the goals of the department in the most effective, efficient, and businesslike manner.

4. Monitor the financial status of the department on a regular basis to assure that the department is managing revenue and bond proceeds responsibly and in accordance with law and established policy.

5. Monitor on at least a quarterly basis, the efficiency, productivity, and management of the department~~,~~ using performance and production standards developed by the commission pursuant to s. 334.045.

6. Perform an in-depth evaluation of the factors causing disruption of project schedules in the adopted work program and recommend to the Governor ~~Legislature~~ and the Legislature ~~Governor~~ methods to eliminate or reduce the disruptive effects of these factors.

7. Recommend to the Governor and the Legislature improvements to the department's organization in order to streamline and optimize the efficiency of the department. In reviewing the department's organization, the commission shall determine if the current district organizational structure is responsive to this state's ~~Florida's~~ changing economic and demographic development patterns. The initial report by the commission must be delivered to the Governor and the Legislature by December 15, 2000, and each year thereafter, as appropriate. The commission may retain ~~such~~ experts as ~~are reasonably~~ necessary to carry out ~~effectuate~~ this subparagraph, and the department shall pay the expenses of the ~~such~~ experts.

8. Monitor the efficiency, productivity, and management of the authorities created under chapters 348 and 349, including any authority formed using ~~the provisions of~~ part I of chapter 348; the Mid-Bay Bridge Authority re-created pursuant to chapter 2000-411, Laws of Florida; and any authority formed under chapter 343 ~~which is not monitored under subsection (3)~~. The commission shall also conduct periodic reviews of each authority's operations and budget, acquisition of property, management of revenue and bond proceeds, and compliance with applicable laws and generally accepted accounting principles.

~~(3) There is created the Florida Statewide Passenger Rail Commission.~~

~~(a)1. The commission shall consist of nine voting members appointed as follows:~~

~~a. Three members shall be appointed by the Governor, one of whom must have a background in the area of environmental concerns, one of whom must have a legislative background, and one of whom must have a general business background.~~

~~b. Three members shall be appointed by the President of the Senate, one of whom must have a background in civil engineering, one of whom must have a background in transportation construction, and one of whom must have a general business background.~~

~~c. Three members shall be appointed by the Speaker of the House of Representatives, one of whom must have a legal background, one of whom must have a background in financial matters, and one of whom must have a general business background.~~

~~2. The initial term of each member appointed by the~~

~~Governor shall be for 4 years. The initial term of each member appointed by the President of the Senate shall be for 3 years. The initial term of each member appointed by the Speaker of the House of Representatives shall be for 2 years. Succeeding terms for all members shall be for 4 years.~~

~~3. A vacancy occurring during a term shall be filled by the respective appointing authority in the same manner as the original appointment and only for the balance of the unexpired term. An appointment to fill a vacancy shall be made within 60 days after the occurrence of the vacancy.~~

~~4. The commission shall elect one of its members as chair of the commission. The chair shall hold office at the will of the commission. Five members of the commission shall constitute a quorum, and the vote of five members shall be necessary for any action taken by the commission. The commission may meet upon the constitution of a quorum. A vacancy in the commission does not impair the right of a quorum to exercise all rights and perform all duties of the commission.~~

~~5. The members of the commission are not entitled to compensation but are entitled to reimbursement for travel and other necessary expenses as provided in s. 112.061.~~

~~(b) The commission shall have the primary functions of:~~

~~1. Monitoring the efficiency, productivity, and management of all publicly funded passenger rail systems in the state, including, but not limited to, any authority created under chapter 343, chapter 349, or chapter 163 if the authority receives public funds for the provision of passenger rail service. The commission shall advise each monitored authority of its findings and recommendations. The commission shall also~~

~~conduct periodic reviews of each monitored authority's passenger rail and associated transit operations and budget, acquisition of property, management of revenue and bond proceeds, and compliance with applicable laws and generally accepted accounting principles. The commission may seek the assistance of the Auditor General in conducting such reviews and shall report the findings of such reviews to the Legislature. This paragraph does not preclude the Florida Transportation Commission from conducting its performance and work program monitoring responsibilities.~~

~~2. Advising the department on policies and strategies used in planning, designing, building, operating, financing, and maintaining a coordinated statewide system of passenger rail services.~~

~~3. Evaluating passenger rail policies and providing advice and recommendations to the Legislature on passenger rail operations in the state.~~

~~(c) The commission or a member of the commission may not enter into the day-to-day operation of the department or a monitored authority and is specifically prohibited from taking part in:~~

~~1. The awarding of contracts.~~

~~2. The selection of a consultant or contractor or the prequalification of any individual consultant or contractor. However, the commission may recommend to the secretary standards and policies governing the procedure for selection and prequalification of consultants and contractors.~~

~~3. The selection of a route for a specific project.~~

~~4. The specific location of a transportation facility.~~

~~5. The acquisition of rights-of-way.~~

~~6. The employment, promotion, demotion, suspension, transfer, or discharge of any department personnel.~~

~~7. The granting, denial, suspension, or revocation of any license or permit issued by the department.~~

~~(d) The commission is assigned to the Office of the Secretary of the Department of Transportation for administrative and fiscal accountability purposes, but it shall otherwise function independently of the control and direction of the department except that reasonable expenses of the commission shall be subject to approval by the Secretary of Transportation. The department shall provide administrative support and service to the commission.~~

Section 2. Section 61.13016, Florida Statutes, is amended to read:

61.13016 Suspension of driver ~~driver's~~ licenses and motor vehicle registrations.—

(1) The driver ~~driver's~~ license and motor vehicle registration of a support obligor who is delinquent in payment or who has failed to comply with subpoenas or a similar order to appear or show cause relating to paternity or support proceedings may be suspended. When an obligor is 15 days delinquent making a payment in support or failure to comply with a subpoena, order to appear, order to show cause, or similar order in IV-D cases, the Title IV-D agency may provide notice to the obligor of the delinquency or failure to comply with a subpoena, order to appear, order to show cause, or similar order and the intent to suspend by regular United States mail that is posted to the obligor's last address of record with the

Department of Highway Safety and Motor Vehicles. When an obligor is 15 days delinquent in making a payment in support in non-IV-D cases, and upon the request of the obligee, the depository or the clerk of the court must provide notice to the obligor of the delinquency and the intent to suspend by regular United States mail that is posted to the obligor's last address of record with the Department of Highway Safety and Motor Vehicles. In either case, the notice must state:

(a) The terms of the order creating the support obligation;

(b) The period of the delinquency and the total amount of the delinquency as of the date of the notice or describe the subpoena, order to appear, order to show cause, or other similar order that ~~which~~ has not been complied with;

(c) That notification will be given to the Department of Highway Safety and Motor Vehicles to suspend the obligor's driver ~~driver's~~ license and motor vehicle registration unless, within 20 days after the date that the notice is mailed, the obligor:

1.a. Pays the delinquency in full and any other costs and fees accrued between the date of the notice and the date the delinquency is paid;

b. Enters into a written agreement for payment with the obligee in non-IV-D cases or with the Title IV-D agency in IV-D cases; or in IV-D cases, complies with a subpoena or order to appear, order to show cause, or a similar order; ~~or~~

c. Files a petition with the circuit court to contest the delinquency action; ~~and~~

d. Demonstrates that he or she receives reemployment assistance or unemployment compensation pursuant to chapter 443;

e. Demonstrates that he or she is disabled and incapable of self-support or that he or she receives benefits under the federal Supplemental Security Income or Social Security Disability Insurance programs;

f. Demonstrates that he or she receives temporary cash assistance pursuant to chapter 414; or

g. Demonstrates that he or she is making payments in accordance with a confirmed bankruptcy plan under chapter 11, chapter 12, or chapter 13 of the United States Bankruptcy Code, 11 U.S.C. ss. 101 et seq.; and

2. Pays any applicable delinquency fees.

If an ~~the~~ obligor in a non-IV-D case ~~cases~~ enters into a written agreement for payment before the expiration of the 20-day period, the obligor must provide a copy of the signed written agreement to the depository or the clerk of the court. If an obligor seeks to satisfy sub-subparagraph 1.d., sub-subparagraph 1.e., sub-subparagraph 1.f., or sub-subparagraph 1.g. before expiration of the 20-day period, the obligor must provide the applicable documentation or proof to the depository or the clerk of the court.

(2)(a) Upon petition filed by the obligor in the circuit court within 20 days after the mailing date of the notice, the court may, in its discretion, direct the department to issue a license for driving privilege ~~privileges~~ restricted to business purposes only, as defined by s. 322.271, if the person is otherwise qualified for such a license. As a condition for the court to exercise its discretion under this subsection, the obligor must agree to a schedule of payment on any child support

arrearages and to maintain current child support obligations. If the obligor fails to comply with the schedule of payment, the court shall direct the Department of Highway Safety and Motor Vehicles to suspend the obligor's driver ~~driver's~~ license.

(b) The obligor must serve a copy of the petition on the Title IV-D agency in IV-D cases or on the depository or the clerk of the court in non-IV-D cases. When an obligor timely files a petition to set aside a suspension, the court must hear the matter within 15 days after the petition is filed. The court must enter an order resolving the matter within 10 days after the hearing, and a copy of the order must be served on the parties. The timely filing of a petition under this subsection stays the intent to suspend until the entry of a court order resolving the matter.

(3) If the obligor does not, within 20 days after the mailing date on the notice, pay the delinquency;~~,~~ enter into a written ~~payment~~ agreement;~~,~~ comply with the subpoena, order to appear, order to show cause, or other similar order;~~, or~~ file a motion to contest; or satisfy sub-subparagraph (1)(c)1.d., sub-subparagraph (1)(c)1.e., sub-subparagraph (1)(c)1.f., or sub-subparagraph (1)(c)1.g., the Title IV-D agency in IV-D cases, or the depository or clerk of the court in non-IV-D cases, may ~~shall~~ file the notice with the Department of Highway Safety and Motor Vehicles and request the suspension of the obligor's driver ~~driver's~~ license and motor vehicle registration in accordance with s. 322.058.

(4) The obligor may, within 20 days after the mailing date on the notice of delinquency or noncompliance and intent to suspend, file in the circuit court a petition to contest the

notice of delinquency or noncompliance and intent to suspend on the ground of mistake of fact regarding the existence of a delinquency or the identity of the obligor. The obligor must serve a copy of the petition on the Title IV-D agency in IV-D cases or depository or clerk of the court in non-IV-D cases. When an obligor timely files a petition to contest, the court must hear the matter within 15 days after the petition is filed. The court must enter an order resolving the matter within 10 days after the hearing, and a copy of the order must be served on the parties. The timely filing of a petition to contest stays the notice of delinquency and intent to suspend until the entry of a court order resolving the matter.

(5) The procedures prescribed in this section and s. 322.058 may be used to enforce compliance with an order to appear for genetic testing.

Section 3. Paragraphs (j), (m), and (q) of subsection (2) of section 110.205, Florida Statutes, are amended to read:

110.205 Career service; exemptions.—

(2) EXEMPT POSITIONS.—The exempt positions that are not covered by this part include the following:

(j) The appointed secretaries and the State Surgeon General, assistant secretaries, deputy secretaries, and deputy assistant secretaries of all departments; the executive directors, assistant executive directors, deputy executive directors, and deputy assistant executive directors of all departments; the directors of all divisions and those positions determined by the department to have managerial responsibilities comparable to such positions, which positions include, but are not limited to, program directors, assistant program directors,

district administrators, deputy district administrators, the Director of Central Operations Services of the Department of Children and Families ~~Family Services~~, the State Transportation Development Administrator, the State Public Transportation and Modal Administrator, district secretaries, district directors of transportation development, transportation operations, transportation support, and the managers of the offices of the Department of Transportation specified in s. 20.23(3)(b) ~~s. 20.23(4)(b), of the Department of Transportation~~. Unless otherwise fixed by law, the department shall set the salary and benefits of these positions ~~in accordance with the rules of the Senior Management Service;~~ and the positions of county health department directors and county health department administrators of the Department of Health in accordance with the rules of the Senior Management Service.

(m) All assistant division director, deputy division director, and bureau chief positions in any department, and those positions determined by the department to have managerial responsibilities comparable to such positions, which include, but are not limited to:

1. Positions in the Department of Health and the Department of Children and Families which ~~Family Services that~~ are assigned primary duties of serving as the superintendent or assistant superintendent of an institution.

2. Positions in the Department of Corrections which ~~that~~ are assigned primary duties of serving as the warden, assistant warden, colonel, or major of an institution or that are assigned primary duties of serving as the circuit administrator or deputy circuit administrator.

3. Positions in the Department of Transportation which ~~that~~ are assigned primary duties of serving as regional toll managers and managers of offices, as specified ~~defined~~ in s. 20.23(3)(b) and (4)(c) ~~s. 20.23(4)(b) and (5)(c)~~.

4. Positions in the Department of Environmental Protection which ~~that~~ are assigned the duty of an Environmental Administrator or program administrator.

5. Positions in the Department of Health which ~~that~~ are assigned the duties of Environmental Administrator, Assistant County Health Department Director, and County Health Department Financial Administrator.

6. Positions in the Department of Highway Safety and Motor Vehicles which ~~that~~ are assigned primary duties of serving as captains in the Florida Highway Patrol.

Unless otherwise fixed by law, the department shall set the salary and benefits of the positions listed in this paragraph in accordance with the rules established for the Selected Exempt Service.

(q) The staff directors, assistant staff directors, district program managers, district program coordinators, district subdistrict administrators, district administrative services directors, district attorneys, and the Deputy Director of Central Operations Services of the Department of Children and Families ~~Family Services~~. Unless otherwise fixed by law, the department shall establish the salary ~~pay band~~ and benefits for these positions in accordance with the rules of the Selected Exempt Service.

Section 4. Section 316.0778, Florida Statutes, is created

to read:

316.0778 Automated license plate recognition systems; records retention.—

(1) As used in this section, the term "automated license plate recognition system" means a system of one or more mobile or fixed high-speed cameras combined with computer algorithms to convert images of license plates into computer-readable data.

(2) In consultation with the Department of Law Enforcement, the Department of State shall establish a retention schedule for records containing images and data generated through the use of an automated license plate recognition system. The retention schedule must establish a maximum period that the records may be retained.

Section 5. Section 316.0817, Florida Statutes, is created to read:

316.0817 Loading and unloading of bus passengers.—

(1) Notwithstanding any other law, a bus may not stop to load or unload passengers in a manner that impedes, blocks, or otherwise restricts the progression of traffic on the main-traveled portion of a roadway if there is another reasonable means for the bus to stop parallel to the travel lane and safely load and unload passengers. As used in this section, the term "reasonable means" means sufficient unobstructed pavement or a designated turn lane that is sufficient in length to allow the safe loading and unloading of passengers parallel to the travel lane.

(2) This section does not apply to a school bus.

Section 6. Paragraph (d) is added to subsection (2) of section 316.1975, Florida Statutes, to read:

316.1975 Unattended motor vehicle.—

(2) This section does not apply to the operator of:

(d) A vehicle that is started by remote control while the ignition, transmission, and doors are locked.

Section 7. Paragraph (d) of subsection (2) of section 316.2952, Florida Statutes, is amended to read:

316.2952 Windshields; requirements; restrictions.—

(2) A person shall not operate any motor vehicle on any public highway, road, or street with any sign, sunscreening material, product, or covering attached to, or located in or upon, the windshield, except the following:

(d) A global positioning system device or similar satellite receiver device that ~~which~~ uses the global positioning system operated pursuant to 10 U.S.C. s. 2281 to obtain ~~for the purpose of obtaining~~ navigation, to improve driver safety as a component of safety monitoring equipment capable of providing driver feedback, or to otherwise route ~~routing~~ information while the motor vehicle is being operated.

Section 8. Subsections (1) and (3) of section 316.86, Florida Statutes, are amended to read:

316.86 Operation of vehicles equipped with autonomous technology on roads for testing purposes; financial responsibility; exemption from liability for manufacturer when third party converts vehicle; report.—

(1) Vehicles equipped with autonomous technology may be operated on roads in this state by employees, contractors, or other persons designated by manufacturers of autonomous technology, or by research organizations associated with accredited educational institutions, for the purpose of testing

the technology. For testing purposes, a human operator must retain ~~shall be present in the autonomous vehicle such that he or she has~~ the ability to monitor the vehicle's performance and intervene, if necessary, unless the vehicle is being tested or demonstrated on a closed course or any other autonomous vehicle testing roadway as designated by the Department of Transportation and the applicable local government or authority. Before ~~Prior to~~ the start of testing in this state, the entity performing the testing must submit to the Department of Highway Safety and Motor Vehicles an instrument of insurance, surety bond, or proof of self-insurance acceptable to the department in the amount of $5 million.

~~(3) By February 12, 2014, the Department of Highway Safety and Motor Vehicles shall submit a report to the President of the Senate and the Speaker of the House of Representatives recommending additional legislative or regulatory action that may be required for the safe testing and operation of motor vehicles equipped with autonomous technology.~~

Section 9. Subsection (17) of section 320.02, Florida Statutes, is amended to read:

320.02 Registration required; application for registration; forms.—

(17) If an ~~any~~ applicant's name appears on a list of persons who may not be issued a license plate, revalidation sticker, or replacement license plate after a written notice to surrender a vehicle was submitted to the department by a lienor as provided in s. 320.1316, the department shall ~~may~~ withhold renewal of registration or replacement registration of the ~~any~~ motor vehicle identified in ~~owned by the applicant at the time~~

the notice ~~was~~ submitted by the lienor. The lienor must maintain proof that written notice to surrender the vehicle was sent to each registered owner pursuant to s. 320.1316(1). A revalidation sticker or replacement license plate may not be issued for the identified vehicle until the ~~that~~ person's name no longer appears on the list, ~~or until~~ the person presents documentation from the lienor that the vehicle has been surrendered to the lienor, or a court orders the person's name removed from the list as provided in s. 320.1316. The department may ~~shall~~ not withhold an initial registration in connection with an applicant's purchase or lease of a motor vehicle solely because the applicant's name is on the list created by s. 320.1316.

Section 10. Subsection (10) of section 320.08056, Florida Statutes, is amended to read:

320.08056 Specialty license plates.—

(10) A specialty license plate annual use fee collected and distributed under this chapter, or any interest earned from those fees, may not be used for commercial or for-profit activities nor for general or administrative expenses, except as authorized by s. 320.08058 or to pay the cost of the audit or report required by s. 320.08062(1).

(a) As used in this section and s. 320.08058, the terms "administrative costs" and "administrative expenses" mean those expenditures which are considered as direct operating costs of the organization. These costs include but are not limited to the following:

1. Administrative salaries of employees and officers of the organization who do not, or cannot prove, via detailed daily time sheets, that they actively participate in program

activities;

2. Bookkeeping and support services of the organization;

3. Office supplies and equipment not directly utilized for the specified program(s);

4. Travel time, per diem, mileage reimbursement, and lodging expenses not directly associated with a specified program purpose;

5. Paper, printing, envelopes, and postage not directly associated with a specified program purpose; or

6. Miscellaneous expenses such as food, beverage, entertainment, and conventions.

Section 11. Section 320.08062, Florida Statutes, is amended to read:

320.08062 Audits and attestations required; annual use fees of specialty license plates.—

(1)(a) All organizations that receive annual use fee proceeds from the department are responsible for ensuring that proceeds are used in accordance with ss. 320.08056 and 320.08058.

(b) Any organization not subject to audit pursuant to s. 215.97 shall annually attest, under penalties of perjury, that such proceeds were used in compliance with ss. 320.08056 and 320.08058. The attestation shall be made annually in a form and format determined by the department.

(c) Any organization subject to audit pursuant to s. 215.97 shall submit an audit report in accordance with rules promulgated by the Auditor General. The annual attestation shall be submitted to the department for review within 9 months after the end of the organization's fiscal year.

(2) ~~(a)~~ Within 120 ~~90~~ days after receiving an organization's audit or attestation, the department shall determine which recipients of revenues from specialty license plate annual use fees have not complied with subsection (1). In determining compliance, the department may commission an independent actuarial consultant, or an independent certified public accountant, who has expertise in nonprofit and charitable organizations.

(a) The department must discontinue the distribution of revenues to an organization that fails to submit the documentation required in subsection (1), but may resume distribution of the revenues upon receipt of the required documentation.

(b) If the department or its designee determines that an organization has not complied or has failed to use the revenues in accordance with ss. 320.08056 and 320.08058, the department must discontinue the distribution of the revenues to the organization. The department must notify the organization of its findings and direct the organization to make the changes necessary in order to comply with this chapter. If the officers of the organization sign under penalties of perjury that they acknowledge the findings of the department and attest that they have taken corrective action and attest that the organization will submit to a follow-up review by the department, the department may resume the distribution of revenues ~~until the department determines that the organization has complied~~.

(c) If an organization fails to comply with the department's directive requiring corrective actions as outlined in paragraph (b), the revenue distributions must be discontinued

until completion of the next regular session of the Legislature. The department must notify the Legislature by the first day of the regular session of an organization whose revenues have been withheld pursuant to this paragraph. If the Legislature does not provide direction to the organization and the department regarding the status of the undistributed revenues, the department shall discontinue the plate, and undistributed revenues must ~~within 12 months after the annual use fee proceeds are withheld by the department, the proceeds shall~~ be immediately deposited into the Highway Safety Operating Trust Fund ~~to offset department costs related to the issuance of specialty license plates~~.

~~(b) In lieu of discontinuing revenue disbursement pursuant to this subsection, upon determining that a recipient has not complied or has failed to use the revenues in accordance with ss. 320.08056 and 320.08058, and with the approval of the Legislative Budget Commission, the department is authorized to redirect previously collected and future revenues to an organization that is able to perform the same or similar purposes as the original recipient.~~

(3) The department or its designee has the authority to examine all records pertaining to the use of funds from the sale of specialty license plates.

Section 12. Section 45 of chapter 2008-176, Laws of Florida, as amended by section 21 of chapter 2010-223, Laws of Florida, is amended to read:

Section 45. Except for a specialty license plate proposal which has submitted a letter of intent to the Department of Highway Safety and Motor Vehicles before ~~prior to~~ May 2, 2008,

and which has submitted a valid survey, marketing strategy, and application fee as required by s. 320.08053, Florida Statutes, before October 1, 2008 ~~prior to the effective date of this act~~, or which was included in a bill filed during the 2008 Legislative Session, the Department of Highway Safety and Motor Vehicles may not issue any new specialty license plates pursuant to ss. 320.08056 and 320.08058, Florida Statutes, between July 1, 2008, and July 1, 2016 ~~2011~~.

Section 13. Subsection (1) of section 320.083, Florida Statutes, is amended to read:

320.083 Amateur radio operators; special license plates; fees.—

(1) A person who is the owner or lessee of an automobile or truck for private use, a truck weighing not more than 7,999 pounds, or a recreational vehicle as specified in s. 320.08(9)(c) or (d), which is not used for hire or commercial use; who is a resident of the state; and who holds a valid official amateur radio station license recognized ~~issued~~ by the Federal Communications Commission shall be issued a special license plate upon application, accompanied by proof of ownership of such radio station license, and payment of the following tax and fees:

(a) The license tax required for the vehicle, as prescribed by s. 320.08(2), (3)(a), (b), or (c), (4)(a), (b), (c), (d), (e), or (f), or (9); and

(b) An initial additional fee of $5, and an additional fee of $1.50 thereafter.

Section 14. Section 320.1316, Florida Statutes, is amended to read:

320.1316 Failure to surrender vehicle or vessel.—

(1) Upon receipt from a lienor who claims a lien on a vehicle pursuant to s. 319.27 by the Department of Highway Safety and Motor Vehicles of written notice to surrender a vehicle or vessel that has been disposed of, concealed, removed, or destroyed by the lienee, the department shall place the name of the registered owner of that vehicle on the list of those persons who may not be issued a license plate, revalidation sticker, or replacement license plate ~~for any motor vehicle under s. 320.03(8) owned by the licnee at the time the notice was given by the lienor~~. Pursuant to s. 320.03(8), the department may not issue a license plate or revalidation sticker for the vehicle or vessel owned by the lienee which is identified in the claim by the lienor. If the vehicle is owned jointly ~~by more than one person~~, the name of each registered owner shall be placed on the list.

(2) The notice to surrender the vehicle shall be signed under oath by the lienor and submitted on forms developed by the department, which must include:

(a) The name, address, and telephone number of the lienor.

(b) The name of the registered owner of the vehicle and the address to which the lienor provided notice to surrender the vehicle to the registered owner.

(c) A general description of the vehicle, including its color, make, model, body style, and year.

(d) The vehicle identification number, registration license plate number, if known, or other identification number, as applicable.

(3) The registered owner of the vehicle may dispute a

notice to surrender the vehicle or his or her inclusion on the list of those persons who may not be issued a license plate, revalidation sticker, or replacement license plate under s. 320.03(8) by bringing a civil action in the county in which he or she resides ~~by notifying the department of the dispute in writing on forms provided by the department and presenting proof that the vehicle was sold to a motor vehicle dealer licensed under s. 320.27, a mobile home dealer licensed under s. 320.77, or a recreational vehicle dealer licensed under s. 320.771~~.

(4) In an action brought pursuant to subsection (3), the petitioner is entitled to the summary procedure specified in s. 51.011, and the court shall advance the cause on its calendar if requested by the petitioner.

(5) At a hearing challenging the refusal to issue a license plate, revalidation sticker, or replacement license plate under s. 320.03(8), the court shall first determine whether the lienor has a recorded lien on the vehicle or vessel and whether the lienor properly made a demand for the surrender of the vehicle or vessel in accordance with this section. If the court determines that the lien was recorded and that such a demand was properly made, the court shall determine whether good cause exists for the lienee's failure to surrender the vehicle or vessel. As used in this section, the term "good cause" is limited to proof that:

(a) The vehicle that was the subject of the demand for surrender was traded in to a licensed motor vehicle dealer before the date of the surrender demand;

(b) The lien giving rise to the inclusion on the list has been paid in full or otherwise satisfied;

(c) There is ongoing litigation relating to the validity or enforceability of the lien;

(d) The petitioner was in compliance with all of his or her contractual obligations with the lienholder at the time of the demand for surrender;

(e) The vehicle or vessel was reported to law enforcement as stolen by the registered owner of the vehicle or vessel before the demand for surrender; or

(f) The petitioner no longer has possession of the vehicle or vessel, and the loss of possession occurred pursuant to operation of law. If the petitioner's loss of possession did not occur pursuant to operation of law, the fact that a third party has physical possession of the vehicle or vessel does not constitute good cause for the failure to surrender the vehicle or vessel.

(6) If the petitioner establishes good cause for his or her failure to surrender the vehicle or vessel, the court shall enter an order removing the petitioner's name from the list of those persons who may not be issued a license plate, revalidation sticker, or replacement license plate under s. 320.03(8) and shall award the petitioner reasonable attorney fees and costs actually incurred for the proceeding.

(7) If the court finds that the demand for surrender was properly made by the lienor and the petitioner fails to establish good cause for the failure to surrender the vehicle or vessel, the court shall award the lienor reasonable attorney fees and costs actually incurred for the proceeding.

Section 15. Subsection (7) of section 320.771, Florida Statutes, is amended to read:

320.771 License required of recreational vehicle dealers.—

(7) SUPPLEMENTAL LICENSE.—A ~~Any~~ person licensed under ~~pursuant to~~ this section shall be entitled to operate one or more additional places of business under a supplemental license for each such business if the ownership of each business is identical to that of the principal business for which the original license is issued. Each supplemental license shall run concurrently with the original license and shall be issued upon application by the licensee on a form to be furnished by the department and payment of a fee of $50 for each such license. Only one licensed dealer shall operate at the same place of business. A supplemental license authorizing off-premises sales shall be issued, at no charge to the dealer, for a period not to exceed 10 consecutive ~~calendar~~ days. A licensed dealer who conducts an off-premises sale not in conjunction with a public vehicle show, as defined in s. 320.3203(5)(c), shall:

(a) Notify the applicable local department office of the specific dates and location for which such license is requested.

(b) Provide staff to work at the temporary location for the duration of the off-premises sale.

(c) Meet all local government permit requirements.

(d) Have the permission of the property owner to operate at that location.

(e) Conspicuously display a sign at the licensed location which clearly identifies the dealer's name and business address as listed on the dealer's original license.

(f) Prominently include the dealer's name and business address, as listed on the dealer's original license, in all advertisements associated with such sale.

Section 16. Section 322.032, Florida Statutes, is created to read:

322.032 Digital proof of driver license.—

(1) The department shall begin to review and prepare for the development of a secure and uniform system for issuing an optional digital proof of driver license. The department may contract with one or more private entities to develop a digital proof of driver license system.

(2) The digital proof of driver license developed by the department or by an entity contracted by the department must be in such a format as to allow law enforcement to verify the authenticity of the digital proof of driver license. The department may promulgate rules to ensure valid authentication of digital driver licenses by law enforcement.

(3) A person may not be issued a digital proof of driver license until he or she has satisfied all the requirements of this chapter and has received a physical driver license as provided in this chapter.

(4) A person who:

(a) Manufactures a false digital proof of driver license commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(b) Possesses a false digital proof of driver license commits a misdemeanor of the second degree, punishable as provided in s. 775.082.

Section 17. Section 322.055, Florida Statutes, is amended to read:

322.055 Revocation or suspension of, or delay of eligibility for, driver ~~driver's~~ license for persons 18 years of

age or older convicted of certain drug offenses.—

(1) Notwithstanding the provisions of s. 322.28, upon the conviction of a person 18 years of age or older for possession or sale of, trafficking in, or conspiracy to possess, sell, or traffic in a controlled substance, the court shall direct the department to revoke the driver ~~driver's~~ license or driving privilege of the person. The period of such revocation shall be 1 year ~~2 years~~ or until the person is evaluated for and, if deemed necessary by the evaluating agency, completes a drug treatment and rehabilitation program approved or regulated by the Department of Children and Families ~~Family Services~~. However, the court may, in its sound discretion, direct the department to issue a license for driving privilege ~~privileges~~ restricted to business or employment purposes only, as defined by s. 322.271, if the person is otherwise qualified for such a license. A driver whose license or driving privilege has been suspended or revoked under this section or s. 322.056 may, upon the expiration of 6 months, petition the department for restoration of the driving privilege on a restricted or unrestricted basis depending on length of suspension or revocation. In no case shall a restricted license be available until 6 months of the suspension or revocation period has expired.

(2) If a person 18 years of age or older is convicted for the possession or sale of, trafficking in, or conspiracy to possess, sell, or traffic in a controlled substance and such person is eligible by reason of age for a driver ~~driver's~~ license or privilege, the court shall direct the department to withhold issuance of such person's driver ~~driver's~~ license or

driving privilege for a period of 1 year ~~2 years~~ after the date the person was convicted or until the person is evaluated for and, if deemed necessary by the evaluating agency, completes a drug treatment and rehabilitation program approved or regulated by the Department of Children and Families ~~Family Services~~. However, the court may, in its sound discretion, direct the department to issue a license for driving privilege ~~privileges~~ restricted to business or employment purposes only, as defined by s. 322.271, if the person is otherwise qualified for such a license. A driver whose license or driving privilege has been suspended or revoked under this section or s. 322.056 may, upon the expiration of 6 months, petition the department for restoration of the driving privilege on a restricted or unrestricted basis depending on the length of suspension or revocation. In no case shall a restricted license be available until 6 months of the suspension or revocation period has expired.

(3) If a person 18 years of age or older is convicted for the possession or sale of, trafficking in, or conspiracy to possess, sell, or traffic in a controlled substance and such person's driver ~~driver's~~ license or driving privilege is already under suspension or revocation for any reason, the court shall direct the department to extend the period of such suspension or revocation by an additional period of 1 year ~~2 years~~ or until the person is evaluated for and, if deemed necessary by the evaluating agency, completes a drug treatment and rehabilitation program approved or regulated by the Department of Children and Families ~~Family Services~~. However, the court may, in its sound discretion, direct the department to issue a license for driving

privilege ~~privileges~~ restricted to business or employment purposes only, as defined by s. 322.271, if the person is otherwise qualified for such a license. A driver whose license or driving privilege has been suspended or revoked under this section or s. 322.056 may, upon the expiration of 6 months, petition the department for restoration of the driving privilege on a restricted or unrestricted basis depending on the length of suspension or revocation. In no case shall a restricted license be available until 6 months of the suspension or revocation period has expired.

(4) If a person 18 years of age or older is convicted for the possession or sale of, trafficking in, or conspiracy to possess, sell, or traffic in a controlled substance and such person is ineligible by reason of age for a driver ~~driver's~~ license or driving privilege, the court shall direct the department to withhold issuance of such person's driver ~~driver's~~ license or driving privilege for a period of 1 year ~~2 years~~ after the date that he or she would otherwise have become eligible or until he or she becomes eligible by reason of age for a driver ~~driver's~~ license and is evaluated for and, if deemed necessary by the evaluating agency, completes a drug treatment and rehabilitation program approved or regulated by the Department of Children and Families ~~Family Services~~. However, the court may, in its sound discretion, direct the department to issue a license for driving privilege ~~privileges~~ restricted to business or employment purposes only, as defined by s. 322.271, if the person is otherwise qualified for such a license. A driver whose license or driving privilege has been suspended or revoked under this section or s. 322.056 may, upon

the expiration of 6 months, petition the department for restoration of the driving privilege on a restricted or unrestricted basis depending on the length of suspension or revocation. In no case shall a restricted license be available until 6 months of the suspension or revocation period has expired.

(5) A court that orders the revocation or suspension of, or delay in eligibility for, a driver license pursuant to this section shall make a specific, articulated determination as to whether the issuance of a license for driving privilege restricted to business purposes only, as defined in s. 322.271, is appropriate in each case.

(6) ~~(5)~~ Each clerk of court shall promptly report to the department each conviction for the possession or sale of, trafficking in, or conspiracy to possess, sell, or traffic in a controlled substance.

Section 18. Section 322.058, Florida Statutes, is amended to read:

322.058 Suspension of driving privilege ~~privileges~~ due to support delinquency; reinstatement.—

(1) When the department receives notice from the Title IV-D agency or depository or the clerk of the court that any person licensed to operate a motor vehicle in the State of Florida under the provisions of this chapter has a delinquent support obligation or has failed to comply with a subpoena, order to appear, order to show cause, or similar order, the department shall suspend the driver ~~driver's~~ license of the person named in the notice and the registration of all motor vehicles owned by that person.

(2) The department must reinstate the driving privilege and allow registration of a motor vehicle when the Title IV-D agency in IV-D cases or the depository or the clerk of the court in non-IV-D cases provides to the department an affidavit stating that:

(a) The person has paid the delinquency;

(b) The person has reached a written agreement for payment with the Title IV-D agency or the obligee in non-IV-D cases;

(c) A court has entered an order granting relief to the obligor ordering the reinstatement of the license and motor vehicle registration; ~~or~~

(d) The person has complied with the subpoena, order to appear, order to show cause, or similar order;

(e) The person receives reemployment assistance or unemployment compensation pursuant to chapter 443;

(f) The person is disabled and incapable of self-support or receives benefits under the federal Supplemental Security Income or Social Security Disability Insurance programs;

(g) The person receives temporary cash assistance pursuant to chapter 414; or

(h) The person is making payments in accordance with a confirmed bankruptcy plan under chapter 11, chapter 12, or chapter 13 of the United States Bankruptcy Code, 11 U.S.C. ss. 101 et seq.

(3) The department shall not be held liable for any license or vehicle registration suspension resulting from the discharge of its duties under this section.

(4) This section applies only to the annual renewal in the owner's birth month of a motor vehicle registration and does not

apply to the transfer of a registration of a motor vehicle sold by a motor vehicle dealer licensed under chapter 320, except for the transfer of registrations which includes the annual renewals. This section does not affect the issuance of the title to a motor vehicle, notwithstanding s. 319.23(8)(b).

Section 19. Section 322.059, Florida Statutes, is amended to read:

322.059 Mandatory surrender of suspended driver ~~driver's~~ license and registration.—A ~~Any~~ person whose driver ~~driver's~~ license or registration has been suspended as provided in s. 322.058 must immediately return his or her driver ~~driver's~~ license and registration to the Department of Highway Safety and Motor Vehicles. The department shall invalidate the digital proof of driver license issued pursuant to s. 322.032 for such person. If such person fails to return his or her driver ~~driver's~~ license or registration, a ~~any~~ law enforcement agent may seize the license or registration while the driver ~~driver's~~ license or registration is suspended.

Section 20. Subsection (1) of section 322.12, Florida Statutes, is amended to read:

322.12 Examination of applicants.—

(1) It is the intent of the Legislature that each ~~every~~ applicant for an original driver ~~driver's~~ license in this state be required to pass an examination pursuant to this section. However, the department may waive the knowledge, endorsement, and skills tests for an applicant who is otherwise qualified and who surrenders a valid driver ~~driver's~~ license from another state or a province of Canada, or a valid driver ~~driver's~~ license issued by the United States Armed Forces, if the driver

applies for a Florida license of an equal or lesser classification. An ~~Any~~ applicant who:

(a) ~~Who~~ Fails to pass the initial knowledge test incurs a $10 fee for each subsequent test. Of the $10 fee, $6 shall be retained by the tax collector if the knowledge test is conducted by the tax collector, and the remaining $4 shall~~, to~~ be deposited into the Highway Safety Operating Trust Fund. All knowledge test fees incurred by an applicant taking the knowledge test with a third-party provider or administered at a state facility shall be deposited into the Highway Safety Operating Trust Fund. ~~Any applicant~~

(b) ~~Who~~ Fails to pass the initial skills test incurs a $20 fee for each subsequent test. Of the $20 fee, $15 shall be retained by the tax collector if the skills test is conducted by the tax collector, and the remaining $5 shall~~, to~~ be deposited into the Highway Safety Operating Trust Fund. All skills test fees incurred by an applicant taking the skills test with a third-party provider or administered at a state facility shall be deposited into the Highway Safety Operating Trust Fund. ~~A person who~~

(c) Seeks to retain a hazardous-materials endorsement, pursuant to s. 322.57(1)(d), must pass the hazardous-materials test~~,~~ upon surrendering his or her commercial driver ~~driver's~~ license~~,~~ if the person has not taken and passed the hazardous-materials test within 2 years before applying for a commercial driver ~~driver's~~ license in this state.

Section 21. Subsection (1) of section 322.15, Florida Statutes, is amended to read:

322.15 License to be carried and exhibited on demand;

fingerprint to be imprinted upon a citation.—

(1) Every licensee shall have his or her driver ~~driver's~~ license, which must be fully legible with no portion of such license faded, altered, mutilated, or defaced, in his or her immediate possession at all times when operating a motor vehicle and shall display the same upon the demand of a law enforcement officer or an authorized representative of the department. A licensee may display digital proof of driver license as provided in s. 322.032 in lieu of a physical driver license.

Section 22. Paragraphs (e) and (f) of subsection (1) of section 322.21, Florida Statutes, are amended to read:

322.21 License fees; procedure for handling and collecting fees.—

(1) Except as otherwise provided herein, the fee for:

(e) A replacement driver license issued pursuant to s. 322.17 is $25. Of this amount, $7 shall be deposited into the Highway Safety Operating Trust Fund or retained by the tax collector if issued by a tax collector that has completed the transition of driver licensing services, and $18 shall be deposited into the General Revenue Fund. ~~Beginning July 1, 2015, or upon completion of the transition of driver license issuance services, if the replacement driver license is issued by the tax collector, the tax collector shall retain the $7 that would otherwise be deposited into the Highway Safety Operating Trust Fund and the remaining revenues shall be deposited into the General Revenue Fund.~~

(f) An original, renewal, or replacement identification card issued pursuant to s. 322.051 is $25, except that an applicant who presents evidence satisfactory to the department

that he or she is homeless as defined in s. 414.0252(7) or his or her annual income is at or below 100 percent of the federal poverty level is exempt from such fee. Funds collected from ~~these~~ fees for original, renewal, or replacement identification cards shall be distributed as follows:

1. For an original identification card issued pursuant to s. 322.051, the fee ~~is $25. This amount~~ shall be deposited into the General Revenue Fund.

2. For a renewal identification card issued pursuant to s. 322.051 ~~the fee is $25. Of this amount~~, $6 shall be deposited into the Highway Safety Operating Trust Fund, and $19 shall be deposited into the General Revenue Fund.

3. For a replacement identification card issued pursuant to s. 322.051, the fee is $25. Of this amount, $9 shall be deposited into the Highway Safety Operating Trust Fund or retained by the tax collector if issued by a tax collector that has completed the transition of driver licensing services, and $16 shall be deposited into the General Revenue Fund. ~~Beginning July 1, 2015, or upon completion of the transition of the driver license issuance services, if the replacement identification card is issued by the tax collector, the tax collector shall retain the $9 that would otherwise be deposited into the Highway Safety Operating Trust Fund and the remaining revenues shall be deposited into the General Revenue Fund.~~

Section 23. Section 337.25, Florida Statutes, is amended to read:

337.25 Acquisition, lease, and disposal of real and personal property.—

(1)(a) The department may purchase, lease, exchange, or

otherwise acquire any land, property interests, ~~or~~ buildings, or other improvements, including personal property within such buildings or on such lands, necessary to secure or use ~~utilize~~ transportation rights-of-way for existing, proposed, or anticipated transportation facilities on the State Highway System, on the State Park Road System, in a rail corridor, or in a transportation corridor designated by the department. Such property shall be held in the name of the state.

(b) The department may accept donations of any land, ~~or~~ buildings, or other improvements, including personal property within such buildings or on such lands with or without such conditions, reservations, or reverter provisions as are acceptable to the department. Such donations may be used as transportation rights-of-way or to secure or use ~~utilize~~ transportation rights-of-way for existing, proposed, or anticipated transportation facilities on the State Highway System, on the State Park Road System, or in a transportation corridor designated by the department.

(c) If ~~When~~ lands, buildings, or other improvements are needed for transportation purposes, but are held by a federal, state, or local governmental entity and used ~~utilized~~ for public purposes other than transportation, the department may compensate the entity for such properties by providing functionally equivalent replacement facilities. The provision ~~providing~~ of replacement facilities under this subsection may only be undertaken with the agreement of the governmental entity affected.

(d) The department may contract pursuant to s. 287.055 for auction services used in the conveyance of real or personal

property or the conveyance of leasehold interests under subsections (4) and (5). The contract may allow for the contractor to retain a portion of the proceeds as compensation for the contractor's services.

(2) A complete inventory shall be made of all real or personal property immediately upon possession or acquisition. Such inventory must ~~shall~~ include ~~an itemized listing of all appliances, fixtures, and other severable items;~~ a statement of the location or site of each piece of realty, structure, or severable item~~; and the serial number assigned to each~~. Copies of each inventory shall be filed in the district office in which the property is located. Such inventory shall be carried forward to show the final disposition of each item of property, both real and personal.

(3) The inventory of real property that ~~which~~ was acquired by the state after December 31, 1988, that ~~which~~ has been owned by the state for 10 or more years, and that ~~which~~ is not within a transportation corridor or within the right-of-way of a transportation facility shall be evaluated to determine the necessity for retaining the property. If the property is not needed for the construction, operation, and maintenance of a transportation facility~~,~~ or is not located within a transportation corridor, the department may dispose of the property pursuant to subsection (4).

(4) The department may convey ~~sell~~, in the name of the state, any land, building, or other property, real or personal, which was acquired under ~~the provisions of~~ subsection (1) and which the department has determined is not needed for the construction, operation, and maintenance of a transportation

facility. ~~With the exception of any parcel governed by paragraph (c), paragraph (d), paragraph (f), paragraph (g), or paragraph (i), the department shall afford first right of refusal to the local government in the jurisdiction of which the parcel is situated.~~ When such a determination has been made, property may be disposed of through negotiations, sealed competitive bids, auctions, or any other means the department deems to be in its best interest, with due advertisement for property valued by the department at greater than $10,000. A sale may not occur at a price less than the department's current estimate of value, except as provided in paragraphs (a)-(d). The department may afford a right of first refusal to the local government or other political subdivision in the jurisdiction in which the parcel is situated, except in a conveyance transacted under paragraph (a), paragraph (c), or paragraph (e). ~~in the following manner:~~

(a) If the ~~value of the~~ property has been donated to the state for transportation purposes and a transportation facility has not been constructed for at least 5 years, plans have not been prepared for the construction of such facility, and the property is not located in a transportation corridor, the governmental entity may authorize reconveyance of the donated property for no consideration to the original donor or the donor's heirs, successors, assigns, or representatives ~~is $10,000 or less as determined by department estimate, the department may negotiate the sale~~.

(b) If ~~the value of~~ the property is to be used for a public purpose, the property may be conveyed without consideration to a governmental entity ~~exceeds $10,000 as determined by department estimate, such property may be sold to the highest bidder~~

~~through receipt of sealed competitive bids, after due advertisement, or by public auction held at the site of the improvement which is being sold~~.

(c) If the property was originally acquired specifically to provide replacement housing for persons displaced by transportation projects, the department may negotiate for the sale of such property as replacement housing. As compensation, the state shall receive at least its investment in such property or the department's current estimate of value, whichever is lower. It is expressly intended that this benefit be extended only to persons actually displaced by the project. Dispositions to any other person must be for at least the department's current estimate of value~~, in the discretion of the department, public sale would be inequitable, properties may be sold by negotiation to the owner holding title to the property abutting the property to be sold, provided such sale is at a negotiated price not less than fair market value as determined by an independent appraisal, the cost of which shall be paid by the owner of the abutting land. If negotiations do not result in the sale of the property to the owner of the abutting land and the property is sold to someone else, the cost of the independent appraisal shall be borne by the purchaser; and the owner of the abutting land shall have the cost of the appraisal refunded to him or her. If, however, no purchase takes place, the owner of the abutting land shall forfeit the sum paid by him or her for the independent appraisal. If, due to action of the department, the property is removed from eligibility for sale, the cost of any appraisal prepared shall be refunded to the owner of the abutting land~~.

(d) If the department determines that the property requires significant costs to be incurred or that continued ownership of the property exposes the department to significant liability risks, the department may use the projected maintenance costs over the next 10 years to offset the property's value in establishing a value for disposal of the property, even if that value is zero ~~property acquired for use as a borrow pit is no longer needed, the department may sell such property to the owner of the parcel of abutting land from which the borrow pit was originally acquired, provided the sale is at a negotiated price not less than fair market value as determined by an independent appraisal, the cost of which shall be paid by the owner of such abutting land~~.

(e) If, at the discretion of the department, a sale to a person other than an abutting property owner would be inequitable, the property may be sold to the abutting owner for the department's current estimate of value ~~the department begins the process for disposing of the property on its own initiative, either by negotiation under the provisions of paragraph (a), paragraph (c), paragraph (d), or paragraph (i), or by receipt of sealed competitive bids or public auction under the provisions of paragraph (b) or paragraph (i), a department staff appraiser may determine the fair market value of the property by an appraisal~~.

~~(f) Any property which was acquired by a county or by the department using constitutional gas tax funds for the purpose of a right-of-way or borrow pit for a road on the State Highway System, State Park Road System, or county road system and which is no longer used or needed by the department may be conveyed~~

~~without consideration to that county. The county may then sell such surplus property upon receipt of competitive bids in the same manner prescribed in this section.~~

~~(g) If a property has been donated to the state for transportation purposes and the facility has not been constructed for a period of at least 5 years and no plans have been prepared for the construction of such facility and the property is not located in a transportation corridor, the governmental entity may authorize reconveyance of the donated property for no consideration to the original donor or the donor's heirs, successors, assigns, or representatives.~~

~~(h) If property is to be used for a public purpose, the property may be conveyed without consideration to a governmental entity.~~

~~(i) If property was originally acquired specifically to provide replacement housing for persons displaced by transportation projects, the department may negotiate for the sale of such property as replacement housing. As compensation, the state shall receive no less than its investment in such properties or fair market value, whichever is lower. It is expressly intended that this benefit be extended only to those persons actually displaced by such project. Dispositions to any other persons must be for fair market value.~~

~~(j) If the department determines that the property will require significant costs to be incurred or that continued ownership of the property exposes the department to significant liability risks, the department may use the projected maintenance costs over the next 5 years to offset the market value in establishing a value for disposal of the property, even~~

~~if that value is zero.~~

(5) The department may convey a leasehold interest for commercial or other purposes, in the name of the state, to any land, building, or other property, real or personal, which was acquired under ~~the provisions of~~ subsection (1). However, a lease may not be entered into at a price less than the department's current estimate of value. The department's estimate of value shall be prepared in accordance with department procedures, guidelines, and rules for valuation of real property, the cost of which shall be paid by the party seeking the lease of the property.

(a) A lease may be through negotiations, sealed competitive bids, auctions, or any other means the department deems to be in its best interest ~~The department may negotiate such a lease at the prevailing market value with the owner from whom the property was acquired; with the holders of leasehold estates existing at the time of the department's acquisition; or, if public bidding would be inequitable, with the owner holding title to privately owned abutting property, if reasonable notice is provided to all other owners of abutting property~~. The department may allow an outdoor advertising sign to remain on the property acquired~~,~~ or be relocated on department property, and such sign is ~~shall~~ not ~~be considered~~ a nonconforming sign pursuant to chapter 479.

(b) If, at the discretion of the department, a lease to a person other than an abutting property owner or tenant with a leasehold interest in the abutting property would be inequitable, the property may be leased to the abutting owner or tenant for at least the department's current estimate of value

~~All other leases shall be by competitive bid~~.

(c) A ~~No~~ lease signed pursuant to paragraph (a) may not ~~or paragraph (b) shall~~ be for ~~a period of~~ more than 5 years; however, the department may renegotiate or extend such a lease for an additional ~~term of~~ 5 years as the department deems appropriate ~~without rebidding~~.

(d) Each lease shall provide that, unless otherwise directed by the lessor, any improvements made to the property during ~~the term of~~ the lease shall be removed at the lessee's expense.

(e) If property is to be used for a public purpose, ~~including a fair, art show, or other educational, cultural, or fundraising activity,~~ the property may be leased without consideration to a governmental entity ~~or school board~~. A lease for a public purpose is exempt from the term limits in paragraph (c).

(f) Paragraphs (c) and (e) ~~(d)~~ do not apply to leases entered into pursuant to s. 260.0161(3), except as provided in such a lease.

(g) A ~~No~~ lease executed under this subsection may not be used ~~utilized~~ by the lessee to establish the ~~4 years'~~ standing required under ~~by~~ s. 73.071(3)(b) if the business had not been established for the specified number of ~~4~~ years on the date title passed to the department.

(h) The department may enter into a long-term lease without compensation with a public port listed in s. 403.021(9)(b) for rail corridors used for the operation of a short-line railroad to the port.

(6) ~~Nothing in~~ This chapter does not prevent ~~prevents~~ the

joint use of right-of-way for alternative modes of transportation if~~; provided that~~ the joint use does not impair the integrity and safety of the transportation facility.

(7) The department shall prepare the estimate of value provided under subsection (4) in accordance with department procedures, guidelines, and rules for valuation of real property. If the value of the property is greater than $50,000, as determined by the department estimate, the sale must be at a negotiated price of at least the estimate of value as determined by an appraisal prepared in accordance with department procedures, guidelines, and rules for valuation of real property, the cost of which shall be paid by the party seeking the purchase of the property. If the estimated value is $50,000 or less, the department may use a department staff appraiser or obtain an independent appraisal ~~required by paragraphs (4)(c) and (d) shall be prepared in accordance with department guidelines and rules by an independent appraiser who has been certified by the department. If federal funds were used in the acquisition of the property, the appraisal shall also be subject to the approval of the Federal Highway Administration.~~

(8) As used in this section, the term ~~A~~ "due advertisement" means ~~under this section is~~ an advertisement in a newspaper of general circulation in the area of the improvements of at least ~~not less than~~ 14 calendar days before ~~prior to~~ the date of the receipt of bids or the date on which a public auction is to be held.

(9) The department, with the approval of the Chief Financial Officer, may ~~is authorized to~~ disburse state funds for real estate closings in a manner consistent with good business

practices and in a manner minimizing costs and risks to the state.

(10) The department may ~~is authorized to~~ purchase title insurance if ~~in those instances where~~ it determines ~~is determined~~ that such insurance is necessary to protect the public's investment in property being acquired for transportation purposes. The department shall adopt procedures to be followed in making the determination to purchase title insurance for a particular parcel or group of parcels which, at a minimum, shall specify ~~set forth~~ criteria that ~~which~~ the parcels must meet.

(11) This section does not modify the requirements of s. 73.013.

Section 24. Subsection (2) of section 337.251, Florida Statutes, is amended, present subsections (3) through (10) of that section are redesignated as subsections (4) through (11), respectively, and a new subsection (3) is added to that section, to read:

337.251 Lease of property for joint public-private development and areas above or below department property.—

(2) The department may request proposals for the lease of such property or, if the department receives a proposal for ~~to negotiate~~ a lease of a particular department property which it desires to consider, the department ~~it~~ shall publish a notice in a newspaper of general circulation at least once a week for 2 weeks~~,~~ stating that it has received the proposal and will accept~~, for 60 days after the date of publication,~~ other proposals for lease of such property for 120 days after the date of publication ~~use of the space~~. A copy of the notice must be

mailed to each local government in the affected area. The department shall establish by rule an application fee for the submission of proposals pursuant to this section. The fee must be sufficient to pay the anticipated costs of evaluating the proposals. The department may engage the services of private consultants to assist in the evaluations. Before approval, the department shall determine that the proposed lease:

(a) Is in the public's best interest;

(b) Does not require that state funds be used; and

(c) Has adequate safeguards in place to ensure that additional costs are not borne and service disruptions are not experienced by the traveling public and residents of the state in the event of default by the private lessee or upon termination or expiration of the lease.

(3) The department shall provide an independent analysis of a proposed lease which demonstrates the cost-effectiveness and overall public benefit at the following times:

(a) Before moving forward with the procurement; and

(b) Before awarding the contract if the procurement moves forward.

Section 25. Paragraphs (a) and (b) of subsection (3), paragraph (a) of subsection (4), and paragraph (c) of subsection (11) of section 339.175, Florida Statutes, are amended to read:

339.175 Metropolitan planning organization.—

(3) VOTING MEMBERSHIP.—

(a) The voting membership of an M.P.O. shall consist of at least ~~not fewer than~~ 5 but not ~~or~~ more than 25 ~~19~~ apportioned members, with the exact number ~~to be~~ determined on an equitable geographic-population ratio basis ~~by the Governor~~, based on an

agreement among the affected units of general-purpose local government and the Governor, as required by federal ~~rules and~~ regulations. ~~The Governor,~~ In accordance with 23 U.S.C. s. 134, the Governor may also allow ~~provide for~~ M.P.O. members who represent municipalities to alternate with representatives from other municipalities within the metropolitan planning area which ~~that~~ do not have members on the M.P.O. With the exception of instances in which all of the county commissioners in a single-county M.P.O. are members of the M.P.O. governing board, county commissioners ~~commission members~~ shall compose at least ~~not less than~~ one-third of the M.P.O. governing board membership. A multicounty M.P.O. may satisfy this requirement by any combination of county commissioners from each of the counties constituting the M.P.O.~~, except for an M.P.O. with more than 15 members located in a county with a 5-member county commission or an M.P.O. with 19 members located in a county with no more than 6 county commissioners, in which case county commission members may compose less than one-third percent of the M.P.O. membership, but all county commissioners must be members. All~~ Voting members shall be elected officials of general-purpose local governments, one of whom may represent a group of general-purpose local governments through an entity created by an M.P.O. for that purpose. ~~except that~~ An M.P.O. may include, as part of its apportioned voting members, a member of a statutorily authorized planning board, an official of an agency that operates or administers a major mode of transportation, or an official of Space Florida. As used in this section, the term "elected officials of a general-purpose local government" excludes ~~shall exclude~~ constitutional officers, including

sheriffs, tax collectors, supervisors of elections, property appraisers, clerks of the court, and similar types of officials. County commissioners shall compose not less than 20 percent of the M.P.O. membership if an official of an agency that operates or administers a major mode of transportation has been appointed to an M.P.O.

(b) In metropolitan areas in which authorities or other agencies have been or may be created by law to perform transportation functions and are or will be performing transportation functions that are not under the jurisdiction of a general-purpose local government represented on the M.P.O., such authorities or other agencies may ~~they shall~~ be provided voting membership on the M.P.O. In all other M.P.O.s in which ~~M.P.O.'s where~~ transportation authorities or agencies are to be represented by elected officials from general-purpose local governments, the M.P.O. shall establish a process by which the collective interests of such authorities or other agencies are expressed and conveyed.

(4) APPORTIONMENT.—

(a) Each M.P.O. shall review the composition of its membership in conjunction with the decennial census, as prepared by the United States Department of Commerce, Bureau of the Census, and with the agreement of the Governor and the affected general-purpose local government units that constitute the existing M.P.O., reapportion the membership as necessary to comply with subsection (3) ~~The Governor shall, with the agreement of the affected units of general-purpose local government as required by federal rules and regulations, apportion the membership on the applicable M.P.O. among the~~

~~various governmental entities within the area~~. At the request of a majority of the affected units of general-purpose local government comprising an M.P.O., the Governor and a majority of units of general-purpose local government serving on an M.P.O. shall cooperatively agree upon and prescribe who may serve as an alternate member and a method for appointing alternate members, who may vote at any M.P.O. meeting that he or she ~~an alternate member~~ attends in place of a regular member. The method must ~~shall~~ be set forth as a part of the interlocal agreement describing the M.P.O. ~~M.P.O.'s~~ membership or in the ~~M.P.O.'s~~ operating procedures and bylaws of the M.P.O. The governmental entity so designated shall appoint the appropriate number of members to the M.P.O. from eligible officials. Representatives of the department shall serve as nonvoting advisers to the M.P.O. governing board. Additional nonvoting advisers may be appointed by the M.P.O. as deemed necessary; however, to the maximum extent feasible, each M.P.O. shall seek to appoint nonvoting representatives of various multimodal forms of transportation not otherwise represented by voting members of the M.P.O. An M.P.O. shall appoint nonvoting advisers representing major military installations located within the jurisdictional boundaries of the M.P.O. upon the request of the aforesaid major military installations and subject to the agreement of the M.P.O. All nonvoting advisers may attend and participate fully in governing board meetings but may not vote or be members of the governing board. ~~The Governor shall review the composition of the M.P.O. membership in conjunction with the decennial census as prepared by the United States Department of Commerce, Bureau of the Census, and reapportion it as necessary~~

~~to comply with subsection (3).~~

(11) METROPOLITAN PLANNING ORGANIZATION ADVISORY COUNCIL.—

(c) The powers and duties of the Metropolitan Planning Organization Advisory Council are to:

1. Enter into contracts with individuals, private corporations, and public agencies.

2. Acquire, own, operate, maintain, sell, or lease personal property essential for the conduct of business.

3. Accept funds, grants, assistance, gifts, or bequests from private, local, state, or federal sources.

4. Establish bylaws by action of its governing board providing procedural rules to guide its proceedings and consideration of matters before the council, or, alternatively, ~~and~~ adopt rules pursuant to ss. 120.536(1) and 120.54 to implement provisions of law conferring powers or duties upon it.

5. Assist M.P.O.s ~~M.P.O.'s~~ in carrying out the urbanized area transportation planning process by serving as the principal forum for collective policy discussion pursuant to law.

6. Serve as a clearinghouse for review and comment by M.P.O.s ~~M.P.O.'s~~ on the Florida Transportation Plan and on other issues required to comply with federal or state law in carrying out the urbanized area transportation and systematic planning processes instituted pursuant to s. 339.155.

7. Employ an executive director and such other staff as necessary to perform adequately the functions of the council, within budgetary limitations. The executive director and staff are exempt from part II of chapter 110 and serve at the direction and control of the council. The council is assigned to the Office of the Secretary of the Department of Transportation

for fiscal and accountability purposes, but it shall otherwise function independently of the control and direction of the department.

8. Adopt an agency strategic plan that prioritizes steps ~~provides the priority directions~~ the agency will take to carry out its mission within the context of the state comprehensive plan and any other statutory mandates and directives ~~directions given to the agency~~.

Section 26. Paragraph (a) of subsection (1) and subsections (4) and (5) of section 339.2821, Florida Statutes, are amended to read:

339.2821 Economic development transportation projects.—

(1)(a) The department, in consultation with the Department of Economic Opportunity and Enterprise Florida, Inc., may make and approve expenditures and contract with the appropriate governmental body for the direct costs of transportation projects. The Department of Economic Opportunity and the Department of Environmental Protection may formally review and comment on recommended transportation projects, although the department has final approval authority for any project authorized under this section.

(4) A contract between the department and a governmental body for a transportation project must:

(a) Specify that the transportation project is for the construction of a new or expanding business and specify the number of full-time permanent jobs that will result from the project.

(b) Identify the governmental body and require that the governmental body award the construction of the particular

transportation project to the lowest and best bidder in accordance with applicable state and federal statutes or rules unless the transportation project can be constructed using existing local governmental employees within the contract period specified by the department.

(c) Require that the governmental body provide the department with ~~quarterly~~ progress reports. Each ~~quarterly~~ progress report must contain:

1. A narrative description of the work completed and whether the work is proceeding according to the transportation project schedule;

2. A description of each change order executed by the governmental body;

3. A budget summary detailing planned expenditures compared to actual expenditures; and

4. The identity of each small or minority business used as a contractor or subcontractor.

(d) Require that the governmental body make and maintain records in accordance with accepted governmental accounting principles and practices for each progress payment made for work performed in connection with the transportation project, each change order executed by the governmental body, and each payment made pursuant to a change order. The records are subject to financial audit as required by law.

(e) Require that the governmental body, upon completion and acceptance of the transportation project, certify to the department that the transportation project has been completed in compliance with the terms and conditions of the contract between the department and the governmental body and meets the minimum

construction standards established in accordance with s. 336.045.

(f) Specify that ~~the department transfer~~ funds will not be transferred to the governmental body unless construction has begun on the facility of the ~~not more often than quarterly, upon receipt of a request for funds from the governmental body and consistent with the needs of the transportation project. The governmental body shall expend funds received from the department in a timely manner. The department may not transfer funds unless construction has begun on the facility of a~~ business on whose behalf the award was made. The grant award shall be terminated if construction of the transportation project does not begin within 4 years after the date of the initial grant award ~~A contract totaling less than $200,000 is exempt from the transfer requirement~~.

(g) Require that funds be used only on a transportation project that has been properly reviewed and approved in accordance with the criteria provided ~~set forth~~ in this section.

(h) Require that the governing board of the governmental body adopt a resolution accepting future maintenance and other attendant costs occurring after completion of the transportation project if the transportation project is constructed on a county or municipal system.

(5) For purposes of this section, Space Florida may serve as the governmental body or as the contracting agency for a ~~transportation~~ project within a spaceport territory as defined by s. 331.304.

Section 27. Subsection (5) of section 526.141, Florida Statutes, is amended to read:

526.141 Self-service gasoline stations; attendants; regulations.—

(5)(a) Every full-service gasoline station offering self-service at a lesser cost shall require an attendant employed by the station to dispense gasoline from the self-service portion of the station to any motor vehicle properly displaying an exemption parking permit as provided in s. 316.1958 or s. 320.0848 or a license plate issued pursuant to s. 320.084, s. 320.0842, s. 320.0843, or s. 320.0845 when the person to whom such permit has been issued is the operator of the vehicle and such service is requested. Such stations shall prominently display a decal no larger than 8 square inches on the front of all self-service pumps clearly stating the requirements of this subsection and the penalties applicable to violations of this subsection. The Department of Agriculture and Consumer Services shall enforce this requirement.

(b) By July 1, 2016, a full-service gasoline station offering self-service at a lesser cost shall prominently display, in addition to the decal required under paragraph (a), a decal that is blue, is at least 15 square inches in size, and clearly displays the international symbol of accessibility shown in s. 320.0842, the telephone number of the station, and the words “Call for Assistance.” The Department of Agriculture and Consumer Services shall adopt rules to implement and enforce this paragraph. This paragraph preempts and supersedes local government laws and regulations pertaining to the provision of fueling assistance by a self-service gasoline station to a motor vehicle operator described in paragraph (a).

(c) ~~(b)~~ Violation of paragraph (a) is a misdemeanor of the

second degree, punishable as provided in s. 775.082 or s. 775.083.

Section 28. Paragraph (a) of subsection (1) of section 562.11, Florida Statutes, is amended to read:

562.11 Selling, giving, or serving alcoholic beverages to person under age 21; providing a proper name; misrepresenting or misstating age or age of another to induce licensee to serve alcoholic beverages to person under 21; penalties.—

(1)(a)1. A ~~It is unlawful for any~~ person may not ~~to~~ sell, give, serve, or permit to be served alcoholic beverages to a person under 21 years of age or to permit a person under 21 years of age to consume such beverages on the licensed premises. A person who violates this subparagraph commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. A person who violates this subparagraph a second or subsequent time within 1 year after a prior conviction commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

2. In addition to any other penalty imposed for a violation of subparagraph 1., the court may order the Department of Highway Safety and Motor Vehicles to withhold the issuance of, or suspend or revoke, the driver ~~driver's~~ license or driving privilege, as provided in s. 322.057, of any person who violates subparagraph 1. This subparagraph does not apply to a licensee, as defined in s. 561.01, who violates subparagraph 1. while acting within the scope of his or her license or an employee or agent of a licensee, as defined in s. 561.01, who violates subparagraph 1. while engaged within the scope of his or her employment or agency.

3. A court that withholds the issuance of, or suspends or revokes, the driver license or driving privilege of a person pursuant to subparagraph 2. may direct the Department of Highway Safety and Motor Vehicles to issue the person a license for driving privilege restricted to business purposes only, as defined in s. 322.271, if he or she is otherwise qualified.

Section 29. Section 812.0155, Florida Statutes, is amended to read:

812.0155 Suspension of driver ~~driver's~~ license following an adjudication of guilt for theft.—

(1) Except as provided in subsections (2) and (3), the court may order the suspension of the driver ~~driver's~~ license of each person adjudicated guilty of any misdemeanor violation of s. 812.014 or s. 812.015, regardless of the value of the property stolen. ~~The court shall order the suspension of the driver's license of each person adjudicated guilty of any misdemeanor violation of s. 812.014 or s. 812.015 who has previously been convicted of such an offense.~~ Upon ordering the suspension of the driver ~~driver's~~ license of the person adjudicated guilty, the court shall forward the driver ~~driver's~~ license of the person adjudicated guilty to the Department of Highway Safety and Motor Vehicles in accordance with s. 322.25.

(a) The first suspension of a driver ~~driver's~~ license under this subsection shall be for a period of up to 6 months.

(b) A second or subsequent suspension of a driver ~~driver's~~ license under this subsection shall be for 1 year.

(2) The court may revoke, suspend, or withhold issuance of a driver ~~driver's~~ license of a person less than 18 years of age who violates s. 812.014 or s. 812.015 as an alternative to

sentencing the person to:

(a) Probation as defined in s. 985.03 or commitment to the Department of Juvenile Justice, if the person is adjudicated delinquent for such violation and has not previously been convicted of or adjudicated delinquent for any criminal offense, regardless of whether adjudication was withheld.

(b) Probation as defined in s. 985.03, commitment to the Department of Juvenile Justice, probation as defined in chapter 948, community control, or incarceration, if the person is convicted as an adult of such violation and has not previously been convicted of or adjudicated delinquent for any criminal offense, regardless of whether adjudication was withheld.

(3) As used in this subsection, the term "department" means the Department of Highway Safety and Motor Vehicles. A court that revokes, suspends, or withholds issuance of a driver ~~driver's~~ license under subsection (2) shall:

(a) If the person is eligible by reason of age for a driver ~~driver's~~ license or driving privilege, direct the department to revoke or withhold issuance of the person's driver ~~driver's~~ license or driving privilege for not less than 6 months and not more than 1 year;

(b) If the person's driver ~~driver's~~ license is under suspension or revocation for any reason, direct the department to extend the period of suspension or revocation by not less than 6 months and not more than 1 year; or

(c) If the person is ineligible by reason of age for a driver ~~driver's~~ license or driving privilege, direct the department to withhold issuance of the person's driver ~~driver's~~ license or driving privilege for not less than 6 months and not

more than 1 year after the date on which the person would otherwise become eligible.

(4) Subsections (2) and (3) do not preclude the court from imposing any sanction specified or not specified in subsection (2) or subsection (3).

(5) A court that suspends the driver license of a person pursuant to subsection (1) may direct the Department of Highway Safety and Motor Vehicles to issue the person a license for driving privilege restricted to business purposes only, as defined in s. 322.271, if he or she is otherwise qualified.

Section 30. Section 832.09, Florida Statutes, is amended to read:

832.09 Suspension of driver license after warrant or capias is issued in worthless check case.—

(1) The court may order the suspension or revocation of the driver license of a ~~Any~~ person who is being prosecuted for passing a worthless check in violation of s. 832.05, who fails to appear before the court and against whom a warrant or capias for failure to appear is issued by the court if the person has previously been adjudicated guilty of a violation of s. 832.05 ~~shall have his or her driver's license suspended or revoked pursuant to s. 322.251~~.

(2) Within 5 working days after the court orders the suspension of a driver license pursuant to subsection (1) ~~issuance of a warrant or capias for failure to appear~~, the clerk of the court in the county where the warrant or capias is issued shall notify the Department of Highway Safety and Motor Vehicles by the most efficient method available of the action of the court.

Section 31. Section 2 of chapter 85-364, Laws of Florida, as amended by section 2 of chapter 95-382, Laws of Florida, is amended to read:

Section 2. All tolls collected shall ~~first~~ be used first for the payment of annual operating and maintenance costs and second to discharge the current bond indebtedness related to the Pinellas Bayway. Thereafter, tolls collected shall be used to establish a reserve construction account to be used, together with interest earned thereon, by the department ~~for the construction of Blind Pass Road, State Road 699 improvements, and~~ for Phase II of the Pinellas Bayway improvements. ~~A portion of the tolls collected shall first be used specifically for the construction of the Blind Pass Road improvements, which improvements consist of widening to four lanes the Blind Pass Road, State Road 699, from 75th Avenue north to the approach of the Blind Pass Bridge, including necessary right-of-way acquisition along said portion of Blind Pass Road, and intersection improvements at 75th Avenue and Blind Pass Road in Pinellas County. Said improvements shall be included in the department's current 5-year work program. Upon completion of the Blind Pass Road improvements, the tolls collected shall be used, together with interest earned thereon, by the department for~~ Phase II of the Pinellas Bayway improvements consists~~, which improvements consist~~ of widening to four lanes the Pinellas Bayway from State Road 679 west to Gulf Boulevard, including necessary approaches, bridges, and avenues of access. Upon completion of the Phase II improvements, the department shall continue to collect tolls on the Pinellas Bayway for purposes of reimbursing the department for all accrued maintenance costs for

the Pinellas Bayway.

Section 32. The Department of Highway Safety and Motor Vehicles is directed to develop a plan of action that addresses motor vehicle registration holds placed pursuant to ss. 316.1001, 316.1967, and 318.15, Florida Statutes, for presentation to the Legislature by February 1, 2015. The plan must, at a minimum, include a methodology for applicants whose names have been placed on the list of persons who may not be issued a license plate or revalidation sticker under s. 320.03(8), Florida Statutes, to rectify the cause of the hold through the payment of any outstanding toll, parking ticket, fine, and any other fee at the point of collection of the registration fee.

Section 33. This act shall take effect July 1, 2014.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations	
BILL:	CS/CS/SB 1272
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Transportation Committee; and Senator Brandes
SUBJECT:	Transportation and Motor Vehicles
DATE:	April 24, 2014 REVISED:

2.	Carey	Martin	ATD	**Fav/CS**
3.	Carey	Kynoch	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1272 makes a number of revisions to transportation laws administered by the Florida Department of Transportation (FDOT) and to motor vehicle laws administered by the Department of Highway Safety & Motor Vehicles (DHSMV). More specifically, the bill:

- Extends the Florida Transportation Commission's (FTC) oversight of expressway and bridge authorities to the Mid-Bay Bridge Authority (MBBA) and repeals provisions relating to the Florida Statewide Passenger Rail Commission (FSPRC).
- Revises provisions to allow for reinstatement of driving privileges for certain cases regarding driver license suspensions due to unpaid child support.
- Requires the court to make a specific determination of whether a driver license can be issued for business purposes only (BPO) when suspending a driver license for unpaid child support and convictions of certain drug offenses.
- Repeals the requirement that a court order the driver license suspension of persons who fail to appear on worthless check charges, and permits and applies the suspension only to persons previously found guilty of bad check charges.
- Requires the Department of State, in consultation with the Department of Law Enforcement, to establish a retention schedule for records generated through the use of an automated license plate recognition system.
- Prohibits a bus from stopping to load or unload passengers in a manner that restricts the progression of traffic on a roadway.

- Provides that the prohibition against unattended vehicles left with the engine running does not apply to a vehicle started by remote control while the ignition, transmission, and doors are locked.
- Includes devices used to improve driver safety in the current exception for devices that may be mounted on windshields.
- Expands those authorized to conduct testing of autonomous vehicle technology, expands potential testing locations, and removes the requirement that a human operator be in the vehicle when testing on a closed course or designated testing roadways.
- Limits the DHSMV's authority to withhold the issuance of a vehicle registration when a notice to surrender has been submitted by a lienor to the DHSMV to the vehicle identified the notice. The bill allows the registered owner to dispute a notice to surrender by bringing a civil action and provides procedural requirements for disposition of a challenge.
- Directs the DHSMV to develop a plan of action that addresses motor vehicle registration holds for outstanding tolls, parking tickets, and fines.
- Enhances accountability of organizations receiving specialty license plate revenues by:
  - Providing guidelines for revenue use and compliance determinations;
  - Extending the DHSMV's period within which to determine compliance with the guidelines from 90 to 120 days;
  - Providing guidelines for corrective actions; and
  - Authorizing the DHSMV to commission an independent consultant to assist in determining compliance.
- Extends the moratorium on issuance of new specialty license plates from July 1, 2014, to July 1, 2016.
- Authorizes individuals with amateur radio licenses recognized, as opposed to issued, by the Federal Communications Commission (FCC) to apply for a special license plate.
- Requires the DHSMV to develop an optional digital proof of driver license.
- Authorizes tax collectors who have completed the transition of driver license services to retain certain fees related to license issuance that are currently deposited into the Highway Safety Operating Trust Fund.
- Exempts applicants who are homeless or whose annual income is at or below 100% of the federal poverty level from the $25 fee for an identification card.
- Revises the terms and conditions under which the FDOT may sell or lease properties acquired for transportation rights-of-way.
- Amends the process that the FDOT must follow relating to proposals to enter into a lease of FDOT property for joint public-private development.
- Revises state law relating to the designation, voting membership, and reapportionment of metropolitan planning organizations (MPOs).
- Authorizes Enterprise Florida, Inc., to be a consultant to the FDOT for consideration of economic development transportation projects.
- Requires full-service gasoline stations offering self-service at a lesser cost to meet certain decal display requirements and preempts local government laws and regulations relating to the provision of fueling assistance by a self-service gas station.
- Authorizes the FDOT to program and pay maintenance costs related to the Pinellas Bayway.
- Revises the requirements for special markings on driver licenses and state identification cards for persons designated as sexual predators or sexual offenders, including persons so designated or subject to registration under the laws of another jurisdiction.

- Provides a $100,000 appropriation to the DHSMV for costs incurred with the issuance or reissuance of driver licenses and identification cards with a special marking of "SEXUAL PREDATOR".
- Removes a preemption barring a county or municipality from adopting or enforcing ordinances to expand accessibility, safety or availability of fueling assistance for persons displaying the international symbol of accessibility at full-service gas stations offering self-service .Makes various editorial and grammatical changes and corrects cross-references necessitated by changes made elsewhere in the bill.

The bill has not been reviewed by the Revenue Estimating Conference. However, staff estimates a recurring negative impact to the General Revenue Fund, a recurring negative impact to the Highway Safety Operating Trust Fund, and a positive fiscal impact to county Tax Collectors beginning in Fiscal Year 2014-15. See Section V.

II. Present Situation:

The present situation is discussed below in Effect of Proposed Changes in this bill analysis.

III. Effect of Proposed Changes:

Florida Transportation Commission Oversight of Mid-Bay Bridge Authority and Passenger Rail Systems

Current Situation

The Florida Transportation Commission (FTC) is charged with periodically reviewing the status of the state transportation system, including rail and other component modes, and with recommending improvements to the system to the Governor and the Legislature. In 2007, the Legislature passed HB 985 amending s. 20.23(2)(b)8, F.S., to expand the oversight role of the FTC to include monitoring the efficiency, productivity, and management of the various tolling authorities created under ch. 348 and ch. 349, F.S. The Commission conducts periodic reviews of each authority's operations and budget, acquisition of property, management of revenue and bond proceeds, and compliance with applicable laws and generally accepted accounting principles.

The Mid-Bay Bridge Authority (MBBA)[1] is the governing body of an independent special district in Okaloosa County for the purpose of planning, constructing, operating, and maintaining a bridge over the Choctawhatchee Bay. The MBBA operates the tolled, 3.6-mile long Mid-Bay Bridge across the Choctawhatchee Bay and approaches (SR 293) on the northern and southern sides of the bridge. The facility, which connects SR 20 with U.S. 98 east of Destin, is a link between Interstate 10 and U.S. 98 and provides a more direct route to tourists and residents between northern and southern Okaloosa and Walton Counties.[2] No state entity is currently charged with monitoring the efficiency, productivity, and management of the MBBA.

[1] Re-created by special act, ch. 2000-411, L.O.F.
[2] Senate Issue Brief 2012-208, *Cost Effectiveness of Regional Expressway and Bridge Authorities,* (September 2011).

In 2009, the Florida Legislature created the Florida Statewide Passenger Rail Commission (FSPRC) to monitor, advise, and review publicly-funded passenger rail systems[3], resulting in oversight responsibilities that overlap with or are redundant to those of the FTC. Specifically, and similar to the duty of the FTC, the Legislature charged the FSPRC in s. 20.23(3)(b)1., F.S., with the function of:

> Monitoring the efficiency, productivity, and management of all publicly funded passenger rail systems in the state, including, but not limited to, any authority created under chapter 343, chapter 349, or chapter 163 if the authority receives public funds for the provision of passenger rail service. …This paragraph does not preclude the Florida Transportation Commission from conducting its performance and work program monitoring responsibilities.

The Florida Department of Transportation (FDOT) provides administrative support and service to the FSPRC. The commission last met in July 2012. Six of the nine seats on the FSPRC are currently vacant. The remaining three seats expire in August of 2014. [4]

Effect of Proposed Changes

Section 1 amends s. 20.23, F.S., expanding the FTC oversight responsibilities to include monitoring the efficiency, productivity, and management of the MBBA. The bill also amends s. 20.23, F.S., to repeal the Florida Statewide Passenger Rail Commission. Overlapping oversight of publicly-funded passenger rail systems is eliminated and remains solely with the FTC.

Section 3 of the bill revises s. 110.205, F.S., to modernize terms and correct cross-references required by statutory changes made in section 1 of the bill.

Non-Driving-Related Driver License Suspensions

Current Situation

Driver license revocations and suspensions either terminate or temporarily, respectively, withdraw one's driving privilege.[5] Initially, specific provisions addressed poor driving behavior. Driver's license suspensions and revocations are now commonly used as a means to punish individuals engaged in illegal behavior unrelated to the operation of a motor vehicle. Consequently, a substantial amount of time and resources are expended by state and local entities to deal with and process non-driving-related suspensions and revocations.

Current law provides penalties for driving with a suspended, revoked, or canceled license. Unknowing infractions are a moving violation, punishable as provided in ch. 318, F.S. Knowing infractions are punishable as a second degree misdemeanor on the first conviction (up to 30 days

[3] The only publicly funded passenger rail system in the state (Tri-Rail) then and now existing is operated by the South Florida Regional Transportation Authority, which is established in ch. 343, F.S. However, the first phase (31 miles) of a commuter rail project, SunRail,– an eventual 61-mile stretch of existing rail freight tracks through Orange, Seminole, Volusia and Osceola counties and the City of Orlando -- is under construction, and service could begin as early as 2014.
[4] The FDOT email, February 24, 2014, on file in the Senate Transportation Committee.
[5] Section 322.01, F.S., *Definitions.*

in jail and a $500 fine); a first degree misdemeanor on the second conviction (up to 60 days in jail and a $1,000 fine); and a third degree felony on the third or subsequent conviction (up to five years in prison and a $5,000 fine). Additionally, the arresting officer is authorized to impound the vehicle of a driver arrested for criminal violations under certain conditions.[6]

Failure to Appear in Court for Worthless Checks: Section 832.09, F.S., provides for the suspension of a driver license after a warrant or capias is issued in a worthless check case. A person prosecuted for passing a worthless check who fails to appear before the court and against whom a warrant or capias for failure to appear is issued by the court must have his or her driver license suspended or revoked. Within five working days after issuance of the warrant or capias, the DHSMV has to be notified of the court's action.

Misdemeanor Theft: Section 812.0155, F.S., provides for the suspension of a driver license for misdemeanor theft. For a first time offender, the court is required to order suspension of the driver's license of a person adjudicated guilty of a misdemeanor violation, regardless of the value of property stolen. The first suspension for misdemeanor theft is for six months and subsequent suspensions are for one year each.

Drug Offenses: Section 322.055, F.S., provides for the automatic suspension of the driver license for conviction of drug related offenses, including when a motor vehicle is involved. The clerks of court are required to report to the DHSMV all convictions for the possession or sale of, trafficking, or conspiracy to possess, sell, or traffic controlled substances. This includes persons:

- 18 years of age or older;
- 18 years of age or older and eligible by reason of age for a driver's license or privilege;
- 18 years or older driver already under suspension or revocation for any reason; and
- 18 years of age or older and ineligible by reason of age for a driver's license.

Federal Child Support Enforcement: The Federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996, also known as the Welfare Reform Act of 1996, enacted section 466(a)(16) of the Social Security Act, which requires states to have (and use in appropriate cases) the authority to withhold, suspend or restrict the use of driver licenses of individuals owing past due child support. The United States Department of Health and Human Services Office of Child Support Enforcement (OCSE) administers a federal-state program that provides funding to child support agencies in the states to help develop, manage and operate their programs effectively and according to federal law.

State and Local Entities: At the state level, the DHSMV is responsible for issuing driver licenses and administering driver license examinations. The department is also responsible for suspending and revoking driver licenses, which includes providing notice required by law and communicating license reinstatement requirements. The role of other state agencies is to notify the department when individuals violate laws that can be sanctioned by driver license suspension. For example, if a parent is delinquent on child support payments, the Department of Revenue (DOR) notifies DHSMV to start the process of driver license suspension.

[6] Section 322.34(8)(b), F.S.

At the local level, clerks of court are responsible for collecting financial obligations imposed by the court for criminal and traffic offenses, as well as maintaining court records and ensuring that court orders are carried out. Section 322.245, F.S., requires clerks of court to notify the DHSMV when a driver fails to pay court-imposed financial obligations for criminal offenses. Failure to pay can result in a license suspension. In addition, clerks of court provide information to the DHSMV about any court actions that require the suspension or revocation of driver licenses. On behalf of DHSMV, clerks of court and county tax collectors may reinstate driving privileges and collect reinstatement fees.

The Office of Program Policy Analysis & Government Accountability (OPPAGA) completed a report on non-driver related suspensions and revocations in February 2014, which indicates that most suspensions for delinquent child support and truancy are reinstated fairly quickly, usually within the year. The DOR officials maintain that the threat of losing a driver license is one of the best compliance tools it has to enforce child support orders. The DOR collected approximately $101.8 million in delinquent child support payments in Fiscal Year 2012-2013 from parents who received a notice of suspension or whose license was suspended.[7]

Common Reasons for Non-Driving-Related Driver License Suspensions or Revocations[8]

Fiscal Year 2012-2013 Non-Driving-Related Suspensions or Revocations	**Number**
Failure to pay court financial obligations	70,216
Failure to pay child support	68,223
Conviction of drug-related offense	19,024
Non-compliance with school attendance	4,020
Failure to appear-worthless check	1,829
Conviction of theft offense	462
Other non-driving suspensions or revocations	3,493
Total	167,267

The OPPAGA report further states legislative alternatives based on its findings for non-driving-related suspensions or revocations:

- Leave driver license suspension for failure to appear in court on a worthless check, and for a conviction of misdemeanor theft offense charge, at the court's discretion;
- Explore modifying or opting out of Florida's implementation of the federal mandate requiring driver license suspension for drug convictions;
- Codify current DOR child support enforcement practices regarding the use of driver license suspensions;
- Evaluate the effectiveness of driver license suspension for school truancy.

Effect of Proposed Changes

Section 2 amends s. 61.13016, F.S., to provide additional justifications available to a person whose driver license has been suspended for failure to comply with child support responsibilities

[7] Office of Program Policy Analysis & Government Accountability, Florida Legislature, *Options Exist to Modify Use of Driver License Suspension for Non-Driving-Related Reasons*, Report No.14-07 (Feb. 2014).
[8] Id,

to delay the court's order of driver license suspension. The bill allows the court to withhold suspension of the driver license of persons who can demonstrate any of the following:

- The receipt of reemployment assistance or unemployment compensation;
- The receipt of benefits under the federal Supplemental Security Income or Social Security Disability Insurance program;
- The receipt of temporary cash assistance pursuant to ch. 414, F.S.; or
- That he or she is making payments in accordance with a confirmed bankruptcy plan under chapters 11, 12, or 13, F.S., of the U. S. Bankruptcy Code, 11 U.S.C. ss. 101 et seq.

Section 16 amends s. 322.055, F.S., to reduce the allowable driver license revocation or suspension period of a person convicted of possession, sale, or trafficking in a controlled substance from two years to one year. When a court orders such a revocation or suspension, the court must specifically make a determination as to whether a license may be issued allowing driving for business purposes only.

Section 17 amends s. 322.058, F.S., authorizing the DHSMV to reinstate the driver license of a person whose license was suspended for failure to comply with child support responsibilities upon proof of the additional justifications as provided in Section 2 of the bill.

Section 28 of the bill amends s. 562.11, F.S., to require a court ordering the suspension or revocation of the driver license of a person convicted of selling, giving, or serving alcohol to a person under 21, to specifically make a determination as to whether a license may be issued allowing driving for business purposes only.

Section 29 of the bill amends s. 812.0155, F.S., to require a court ordering the suspension or revocation of the driver license of a person adjudicated guilty of theft, to specifically make a determination as to whether a license may be issued allowing driving for business purposes only.

Section 30 of the bill amends s. 832.09, F.S., to allow, rather than mandate, a court to order suspension or revocation of the driver license of a person who is being prosecuted for passing a worthless check, failing to appear before the court and against whom a warrant or capias for failure to appear is issued by the court, if such person has previously been adjudicated guilty passing worthless checks under s. 832.05, F.S.

Automated License Plate Recognition Systems

Current Situation

An automated license plate recognition system (ALPRS) uses computerized optical character recognition to extract vehicle license plate information from an image or a sequence of images. The extracted information can be used with or without a database for many applications, such as electronic payment systems (toll payment, parking fee payment), and freeway and arterial monitoring systems for real-time traffic speed projections. This captured information (i.e., license plate number, date, time, and location) is collected, and may be matched to personal identifying databases and sometimes pooled into regional sharing systems. As a result, enormous

databases may house the location and travel patterns of thousands, if not millions of individual motorists.

As an operational tool for law enforcement, ALPRSs scan the license plates of moving or parked vehicles while either mounted on a moving patrol car or attached to a fixed location, such as a toll plaza or free-standing installation. Though designed to assist law enforcement with day-to-day vehicle violations, an ALPRS may collect and store extensive location information about each vehicle in its field of vision. Photographs captured by an ALPRS may contain more than simply the license plate, and sometimes include a substantial part of a vehicle, its occupants, and its immediate vicinity. Law enforcement can use captured photographs to verify witness descriptions of vehicles and confirm identifying features.

Effect of Proposed Changes

Section 4 creates s. 316.0778, F.S., to define "automated license plate recognition system" to mean "a system of one or more mobile or fixed high-speed cameras combined with computer algorithms to convert images of license plates into computer-readable data." The Department of State, in consultation with the Department of Law Enforcement, is directed to establish a retention schedule for records containing images and data generated through the use of an automated license plate recognition system, including a maximum period that records may be retained. Entities in possession of such records will be required to retain them in compliance with the schedule.

Loading and Unloading of Bus Passengers

Current Situation

Section 316.0815, F.S., requires that a driver of a vehicle yield the right-of-way to a publicly owned transit bus traveling in the same direction when the bus driver has signaled and the bus is reentering the traffic flow from a specifically designated pullout bay. However, specifically designated pullout bays are not available at every location at which such buses stop for the purpose of loading and unloading bus passengers, and stops are routinely made in the main-traveled portion of a roadway.

Section 316.083, F.S., authorizes drivers to overtake and pass a vehicle proceeding in the same direction and requires the driver of the overtaken vehicle to give way to the right in favor of the overtaking vehicle, without increasing vehicle speed, until completely passed by the overtaking vehicle. This requirement applies to the drivers of buses stopped in the main-traveled portion of a roadway to load and unload passengers.

Effect of Proposed Changes

Section 5 creates s. 316.0817, F.S., notwithstanding any other law, to prohibit a bus from stopping to load or unload passengers in a manner that impedes, blocks, or otherwise restricts the progression of traffic on the main-traveled portion of a roadway if there is another reasonable means for the bus to stop parallel to the travel lane and safely load and unload passengers. "Reasonable means" is defined for purposes of the new section to mean "sufficient unobstructed pavement or a designated turn lane that is sufficient in length to allow the safe loading and unloading of passengers parallel to the travel lane." These provisions do not apply to school

buses. Enforcement of these provisions may be difficult, as the definition of "reasonable means" may be subject to differing interpretations. Private owners of "sufficient unobstructed pavement" that may be adjacent and parallel to the travel lane may object to damage incurred to the pavement should use of the owner's pavement occur.

Unattended Motor Vehicles/Remote Starters

Current Situation

Section 316.1975(2)(d), F.S., prohibits a vehicle from standing unattended with the engine running and ignition not in locked position with the key removed. A violation of this section is a noncriminal traffic infraction punishable as a nonmoving violation.[9] This section does not apply to the operator of:

- An authorized emergency vehicle equipped with antitheft device prohibiting the vehicle from being driven;
- A licensed delivery truck being used for business; or
- A solid waste or recovered materials collection vehicle.

Remote keyless systems are devices that allow a vehicle to be started up without requiring either the driver or the key to be physically inside the automobile. This is accomplished through a component that is connected to the ignition system and fitted with a radio receiver. When that component receives a signal from a paired transmitter, which typically takes the form of a key fob, it activates the starter motor. Through the advancement of technology, some newer vehicle models can be started by way of Smartphones.

Many vehicle models currently on the market and in use on the roadways are capable of being started by remote control. The current exceptions from the prohibition against allowing a vehicle to stand unattended without first stopping the engine, locking the ignition, and removing the key do not include a vehicle that is started by remote control while the ignition, transmission, and doors are locked.

Effect of Proposed Changes

Section 6 amends s. 316.1975, F.S., to provide that the prohibition of leaving a vehicle unattended with the engine running does not apply to a vehicle started by remote control while the ignition, transmission, and doors are locked.

Vehicle Windshields/Global Positioning System Devices

Current Situation

Current law requires that every motor vehicle, except a motorcycle or implement of husbandry, be equipped with a windshield.[10] Operation of a vehicle with any sign, sun-screening material, product, or covering attached to, in, or on the windshield is prohibited, except for the following:

- A certificate or other paper required to be displayed by law.

[9] Section 318.18, F.S. The penalty for a nonmoving violation is $30.
[10] Section 316.2952(1), F.S.

- Sun-screening material along a strip at the top of the windshield, if the material is transparent and does not encroach upon the driver's direct forward viewing area.
- A device, issued by a governmental entity or its designee, used for electronic toll payments.
- A global positioning system (GPS) or similar device used to obtain navigation or routing information while the motor vehicle is being operated.[11]

Many public and private entities utilize GPS and camera-based devices to monitor fleet operations and provide additional sensory-based safety features.[12] Suppliers of such devices report multiple benefits, such as improved vehicle maintenance, driver safety, and delivery times, as well as reduced insurance costs and overall reduction in operational expenses. Concern exists that the current exception for GPS or similar devices on vehicle windshields for purposes other than navigation or routing may not allow these devices to be placed on windshields.

Effect of Proposed Changes

Section 7 amends s. 316.2952(2), F.S., to specifically include in the current exception for GPS devices on windshields, those devices used to improve driver safety as a component of safety or provide driver feedback.

Autonomous Vehicle Testing

Current Situation

Section 316.86, F.S., currently authorizes operation of autonomous, or "self-driving," vehicles on roads in this state by employees, contractors, or other persons designated by manufacturers of autonomous technology for the purpose of testing the technology. The law requires that a human operator be present in the autonomous vehicle with the ability to monitor the vehicle's performance and if necessary to intervene. This provision does not apply when the autonomous vehicle is being tested on a closed course. An entity is required to submit to the DHSMV an instrument of insurance, surety bond, or proof of self-insurance in the amount of $5 million before performing testing in this state.

Effect of Proposed Changes

Section 8 amends s. 316.86, F.S., to expand those authorized to conduct testing to research organizations associated with accredited educational institutions. The requirement that a human be present in the vehicle is removed in certain circumstances and testing locations are expanded. A human operator must retain the ability to monitor the vehicle's performance and intervene, if necessary, unless the vehicle is being tested or demonstrated on a closed course *or any other testing roadway as designated by the FDOT and the applicable local government or authority.*

[11] Section 316.2952(2), F.S.

Motor Vehicle Registration Holds

Current Situation

Section 320.02, F.S., requires every owner or operator of a motor vehicle, driving on roads of Florida to register his or her vehicle in this state with the DHSMV or its authorized agent.

Section 320.1316, F.S., allows a lienor to notify the DHSMV when a liened vehicle is not surrendered as ordered and has otherwise been disposed of, concealed, removed, or destroyed by the registered owner (lienee.) When the DHSMV receives notice from a lienor, the registered vehicle's owners name is placed on the list of persons who may not be issued a license plate or revalidation sticker for any vehicle. If the unsurrendered vehicle is jointly-owned, the name of each registered owner is placed on the list and no vehicle may be registered by any of the named individuals.

The lienor must maintain proof that written notice to surrender the vehicle was sent to each registered owner pursuant to s. 320.1316(1), F.S. A revalidation sticker or replacement license plate may not be issued for any vehicle until that person's name is no longer on the list or until the person presents documentation from the lienor that the unsurrendered vehicle has been surrendered to the lienor.

Citing insufficient due process to the affected registered owners, the DHSMV has declined to enforce the provisions of s. 320.1316, F.S., since its revision in 2010.

Effect of Proposed Changes

Sections 9 and 14 amend ss. 320.02 and 320.1316, F.S., respectively, to require that when an applicant's name appears on a list of persons who may not be issued a license plate, revalidation sticker, or replacement license plate after a written notice to surrender a vehicle or vessel was submitted to the DHSMV by a lienor as provided in s. 320.1316, F.S., the DHSMV shall withhold renewal of registration or replacement registration of *only* the motor vehicle identified in the notice.

The registered owner of the vehicle may dispute a notice to surrender or his or her inclusion on the list by bringing a civil action in the county in which he or she resides. If the registered owner challenges the refusal to issue a license plate under s. 320.03(8), F.S., the court shall determine whether the lienor has a recorded lien on the vehicle or vessel and whether the lienor properly made a demand for the surrender in accordance with this section. The court shall determine whether good cause exists, which is limited to proof that:

- The vehicle was traded in to a licensed motor vehicle dealer before the date of the surrender demand;
- The lien of the vehicle in question has been paid in full, and demand satisfied;
- There is ongoing litigation relating to the validity or enforceability of the lien;
- The petitioner no longer has possession of the vehicle or vessel, and the loss of possession occurred under the operation of law (if the loss of possession did not occur under the operation of law, and a third party has physical possession of the vehicle or vessel, good cause is not proven).

If the petitioner establishes good cause for failure to surrender the vehicle or vessel, the court shall order removal of the petitioner's name(s) from the list of persons who may not be issued a license plate, revalidation sticker, or replacement license plate, and reasonable attorney fees and costs shall be awarded.

However, if the court finds that the demand for surrender was properly made by the lienor and the petitioner fails to establish good cause for the failure to surrender the vehicle or vessel, the court shall award the lienor reasonable attorney fees and costs.

The lienor must maintain proof that written notice to surrender the vehicle or vessel was sent to each registered owner pursuant to s. 320.1316(1), F.S. Only the vehicle identified on the notice to surrender may be denied issuance of a revalidation sticker or replacement license plate, until the person's name no longer appears on the list, having presented the proper documentation from the lienor informing that the vehicle or vessel has been surrendered to the lienor, or a court orders that person's name removed from the list.

S**ection 32** of the bill also directs the DHSMV to develop a plan of action that addresses motor vehicle registration holds placed pursuant to ss. 316.1001 (toll violations), 316.1967 (parking violations), and 318.15, F.S., (civil penalty compliance), for presentation to the Legislature by February 1, 2015. The plan must include a methodology for applicants whose names have been placed on the list of persons who may be issued a license plate or revalidation sticker to rectify the cause of the hold through the payment of any outstanding toll, parking ticket, fine, and any other fee at the point of collection of the registration fee.

Specialty License Plates/Organization Accountability/Moratorium

Current Situation

Presently, there are 120 specialty license plates available for purchase, and four in the pre-sale phase. Specialty license plates are available to any owner or lessee of a motor vehicle who is willing to pay an annual use fee for the privilege. Annual use fees ranging from $15 to $25, paid in addition to required license taxes and service fees, are distributed to an organization in support of a particular cause or charity signified in the plate's design and designated in statute. The Legislature may create a specialty license plate under its own initiative or it can do so at the request of an organization.

Pre-Sale Requirements: The approved specialty license plate organization must presell a minimum of 1,000 vouchers within 24 months before the DHSMV can begin manufacturing the specialty license plate. If, at the end of the 24-month presale period, the minimum sales requirement has not been met, the DHSMV will de-authorize the specialty plate, discontinue development, and discontinue issuance of the presale voucher.

Department Costs Defrayed: The DHSMV collects annual use fees from the sale of the specialty license plates and from these proceeds retains a sufficient amount to defray costs for inventory, distribution, and other direct costs associated with the specialty license plate program. The remainder of the proceeds collected are distributed as provided by law.[13]

[13] Section 320.08056(7), F.S.

Discontinuance of Specialty Plates: The DHSMV is required to discontinue the issuance of an approved specialty license plate if the number of valid specialty plate registrations falls below 1,000 plates for at least 12 consecutive months. A warning letter must be mailed to the sponsoring organization following the first month in which the total number of valid specialty plate registrations is below 1,000 plates (collegiate plates are not included).[14]

Audits and Attestation of Specialty Plates: Any organization that receives specialty license plate revenue and does not have an annual financial audit must attest annually, under penalties of perjury, that the annual use fee proceeds were used as stipulated under the law. The attestation report must be submitted in accordance with rules promulgated by the Auditor General. An organization's annual attestation must be submitted to the DHSMV within nine months after the end of each fiscal year. The DHSMV has 90 days after receiving an organization's audit or attestation to determine which recipients of revenues have not complied. If the determination is made that an organization has not complied or has failed to use revenues as stipulated, the DHSMV must discontinue the distribution of that organization's revenues. If the organization fails to comply within 12 months after the revenue is withheld, the proceeds from the relevant specialty license plate are deposited into the Highway Safety Operating Trust Fund to offset the DHSMV's cost of issuing the plate. In lieu of discontinuing an organization's revenue, the DHSMV may opt to request the Legislative Budget Commission to approve redirecting previously collected and future revenues to an organization capable of performing the same or similar purposes as the original recipient.

Moratorium: Currently, there is a statutory moratorium on the issuance of new specialty license plates. Section 45, ch. 2008-176, L.O.F., as amended by s. 21, ch. 2010-223, L.O.F., provides that "[e]except for a specialty license plate proposal which has submitted a letter of intent to the Department of Highway Safety and Motor Vehicles prior to May 2, 2008, and which has submitted a valid survey, marketing strategy, and application fee as required by s. 320.08053, F. S., prior to October 1, 2008, or which was included in a bill filed during the 2008 legislative session, the Department of Highway Safety and Motor Vehicles may not issue any new specialty license plates pursuant to ss. 320.08056 and 320.08058, F.S., between July 1, 2008, and July 1, 2014.

Effect of Proposed Changes

Section 10 amends s. 320.08056(10), F.S., to define the terms "administrative costs" and "administrative expenses," for purposes of that section and s. 320.08058, F.S., to mean those expenditures which are considered as direct operating costs of the organization. These costs include but are not limited to:

- Administrative salaries of employees and officers of the organization who do not, or cannot prove, via detailed daily time sheets, that they actively participate in program activities;
- Bookkeeping and support services of the organization;
- Office supplies and equipment not directly utilized for the specified programs(s);
- Travel time, per diem, mileage reimbursement, and lodging expenses not directly associated with a specified program purpose;

[14] Section 320.08056(8)(a), F.S.

- Paper, printing, envelopes, and postage not directly associated with a specified program purpose; or
- Miscellaneous expenses such as food, beverage, entertainment, and conventions.

Utilization of annual use fees from specialty license plates for these costs and expenses are limited by the provisions of s. 320.08058, F.S., which establish maximum percentages of the use fees that may be applied to such costs and expenses for each plate.

Section 11 amends s. 320.08062, F.S., to provide the DHSMV 120 days after receiving an organization's audit or attestation to determine whether recipients are in compliance, and authorizes the DHSMV to commission an independent actuarial consultant, or an independent certified public accountant, who has expertise in nonprofit and charitable organizations, to determine compliance. The DHSMV is required to discontinue the distribution of revenues to an organization that fails to submit the required documentation, but may resume distribution of the revenues upon receipt of the required documentation.

The bill requires the DHSMV to inform such organizations of its findings and direct the changes necessary to bring the organization into compliance. If the organization's officers sign under penalties of perjury that they acknowledge the findings of the DHSMV and attest that they have taken corrective action and will submit to a follow-up review, the DHSMV may resume the distribution of revenues. However, if an organization fails to comply with the directives of the DHSMV to correct actions as outlined, the revenue distributions must be discontinued until completion of the next regular session of the Legislature.

The DHSMV is required to notify the Legislature by the first day of the regular session of noncompliant organizations. If the Legislature does not provide direction to the organization and the DHSMV regarding the status of the undistributed revenues, the DHSMV must discontinue the plate, and the revenue from the plate must be immediately deposited into the Highway Safety Operating Trust Fund.

Section 12 amends s. 45 of ch. 2008-176, L.O.F., as amended by s. 21 of ch. 2010-223, L.O.F., to extend the current moratorium on issuance of new specialty license plates to July 1, 2016.

Amateur Radio Operators/Special License Plate

Current Situation

Amateur radio or ham radio call signs are unique identifiers for licensed amateur radio operators. In the United States, amateur radio licensing is governed by the Federal Communications Commission (FCC) which issues licenses to operate amateur stations for personal use to individuals once they demonstrate an understanding of both pertinent FCC regulations and knowledge of radio station operation and safety considerations. Canadian call signs are regulated internationally by the International Telecommunication Union (ITU) as well as nationally by Industry Canada, which regulates all aspects of amateur radio in the country. It assigns call signs, issues amateur radio licenses, conducts exams, allots frequency spectrum, and monitors the radio waves.

In 1952, Canada and the United States signed a Reciprocal Operating Agreement treaty. In the terms of the agreement, visiting amateurs may operate in the host country in accordance with the rules and regulations of the host country.

Under s. 320.083, F.S., persons who hold a valid amateur radio license *issued* by the FCC, may have their radio's call sign assigned to a special license plate for an additional fee. However, persons whose call sign was assigned in Canada by the ITU, may not.

Effect of Proposed Changes

Section 13 amends s. 320.083(1), F.S., to allow persons with amateur radio licenses *recognized* by the FCC to apply for a special license plate with their call sign assigned. This will allow Canadian, and potentially other long term visitors who register vehicles in the state to display their amateur radio call signs on their Florida license plate.

Digital Proof of Driver License

Current Situation

Section 322.059, F.S., requires that any person whose driver license or registration has been suspended must return that driver license immediately to the DHSMV. If he or she fails to return their license or registration, a law enforcement agent may seize the driver's license.

Section 322.15, F.S., requires that every licensee must have his or her driver license in their possession at all times while operating a motor vehicle and shall display that license upon demand of a law enforcement officer or an authorized representative of the DHSMV.

Effect of Proposed Changes

Section 15 creates s. 322.032, F.S., to require the DHSMV to begin to review and prepare for the development of a secure and uniform system for issuing an optional digital proof of driver license and to authorize the DHSMV to contract with private entities to develop the system. The digital proof of driver license system must be in such a format that will allow law enforcement to verify the authenticity of digital driver licenses. A digital proof of driver license is available only after a person has satisfied all requirements of ch. 322, F.S., and has received a physical driver license. The DHSMV is authorized to promulgate rules to ensure valid authentication of the digital driver licenses by law enforcement.

Manufacturing a false digital proof of driver license is a felony of the third degree, punishable by a term of imprisonment not exceeding five years,[15] a possible additional fine not exceeding $5,000,[16] or imposition under certain circumstances of an extended term of imprisonment for habitual felony offenders, habitual violent felony offenders, three-time felony offenders, and violent career criminals.[17] Possession of a false digital proof of driver license is a misdemeanor of the second degree, punishable by a term of imprisonment not exceeding 60 days.[18]

[15] Section 775.082, F.S.
[16] Section 775.083, F.S.
[17] Section 775.084, F.S.
[18] See supra note 9.

Section 18 amends s. 322.059, F.S., to require the DHSMV to invalidate the digital proof of driver license issued under this chapter if the motor vehicle operator was driving on a suspended license or registration.

Section 21 amends s. 322.15, F.S., to provide that a digital proof of driver license as provided in this chapter may be displayed in lieu of a physical driver license.

Driver License Fees/Tax Collectors

Current Situation

Current law requires that driver license issuance services be assumed by the tax collectors who are constitutional officers under s. 1(d), Art. VIII of the State Constitution by June 30, 2015.[19] The implementation of this provision is directed to be according to the schedule outlined in the Driver License Transition Plan submitted to the Legislature on February 1, 2011. The DHSMV prepared the report in cooperation with the Florida Tax Collectors and the Florida Association of Counties.

An applicant for an original driver license must pass an initial knowledge test and an initial skills test.[20] A $10 fee is assessed for each subsequent knowledge test and a $20 fee for each subsequent skills test, when an applicant has failed to pass the initial test. The revenues collected from these fees are deposited in the Highway Safety Operating Trust Fund.

Driver license fees are authorized in s. 322.21, F.S. An original or renewal commercial driver license is $78; and, an original, renewal or extension of a Class E driver license is $48. The revenues from these fees are deposited into the General Revenue Fund. Other fees established include replacement driver licenses and original, replacement, and renewal identification cards. A replacement driver license is $25. Of this amount, $7 is deposited into the Highway Safety Operating Trust Fund and $18 is deposited into the General Revenue Fund.

An identification card is $25.[21] Of this amount, the fee distribution varies depending on the type of issuance. The fee for an original identification card is deposited into the General Revenue Fund. From the fee for a renewal identification card, $6 is deposited into the Highway Safety Operating Trust Fund and $19 into the General Revenue Fund; and for a replacement identification card, $9 into the Highway Safety Operating Trust Fund and $16 is deposited into the General Revenue Fund.

County tax collectors who provide driver license services are authorized to charge a service fee of $6.25 in addition to other fees set forth in ch. 322, F.S., relating to driver license issuance. Beginning July 1, 2015, or upon completion of the transition of driver license issuance services, a tax collector who issues a replacement driver license or replacement identification card may retain the portion the fee that is currently deposited in the Highway Safety Operating Trust Fund, $7 or $9 respectively.

[19] Section 322.135(5), F.S.
[20] Section 322.12, F.S.
[21] Section 322.051, F.S.

Effect of Proposed Changes

Section 19 amends s. 322.12, F.S., to revise the distribution of fees related to driver license examinations fees to allow the tax collector who conducts the examination to retain a portion of the fee as follows:

- Of the $10 fee for each subsequent initial knowledge test, $6 is retained by the tax collector if the tax collector conducted the test, and the remaining $4 is deposited into the Highway Safety Operating Trust Fund.
- Of the $20 fee for each subsequent initial skills test, $15 is retained by the tax collector if the tax collector conducted the test, and the remaining $5 is deposited into the Highway Safety Operating Trust Fund.
- In both cases, all fees incurred by an applicant with a third-party provider or administered at a state facility are deposited into the Highway Safety Operating Trust Fund.

Section 22 amends s. 322.21, F.S., to authorize county tax collectors to retain $7 of the $25 fee for a replacement driver license, and $9 of the $25 fee for a replacement identification card, otherwise deposited into the Highway Safety Operating Trust Fund, if the tax collector has completed the transition of driver licensing services.

The bill also exempts an applicant who presents satisfactory evidence that he or she is homeless or that his or her annual income is at or below 100 percent of the federal poverty level[22] from the $25 fee for an original, renewal, or replacement identification card issued pursuant to s. 322.051, F.S.

Sexual Predator/Offender Registration

Current Situation

Florida's registry laws subject sexual predators and offenders to registration and notification requirements. All qualifying sexual predators or offenders are listed on a public registry web site maintained by the Florida Department of Law Enforcement (FDLE).[23] The web site can also provide the public with email notifications when an offender moves nearby.

The sexual predator designation in Florida is reserved for relatively few sex offenders. As of September 11, 2013, a total of 43,640 persons located in Florida were required to register as a sexual predator or sexual offender. Of that number, courts designated 21 percent as sexual predators.

Designation of a Sexual Predator or Sexual Offender

A person is designated a sexual predator by a court if the person:

- Has been convicted of a current qualifying capital, life, or first degree felony sex offense committed on or after October 1, 1993;
- Has been convicted of a current qualifying sex offense committed on or after October 1, 1993, and has a prior conviction for a qualifying sex offense; or

[23] The web site is located online at: http://offender.fdle.state.fl.us/offender/homepage.do

- Is subject to civil commitment.[24]

A person is designated as a sexual offender by the FDLE if the person:

- Has been convicted of a qualifying sex offense and released on or after October 1, 1997 (the date the modern registry became effective) from the sanction imposed for that offense;
- Is a Florida resident and is subject to registration or community or public notification in another state or jurisdiction or is in the custody or control of, or under the supervision of, another state or jurisdiction as a result of a conviction for a qualifying sex offense; or
- On or after July 1, 2007, has been adjudicated delinquent of a qualifying sexual battery or lewd offense committed when the victim was 14 years of age or older.[25]

Registration Obligations of Sexual Predators/offenders

- Registrants must report to their local sheriff's office and provide a photograph, personal identifying information, driver's license/state ID number, social security number, residence address (including transient addresses), employer information, email addresses, instant message names, and crime information.[26]
- Sexual predators and some sexual offenders must report to the local sheriff's office quarterly; other sexual offenders report bi-annually.[27]
- Sexual predators and offenders must update their driver's license or identification card within 48 hours after any change of residence or name change.[28]
- Generally, sexual predators and offenders are subject to lifetime registration. Some sexual offenders may petition for removal of registration requirements if they have been released from the latest sanction for at least 25 years, remain arrest-free, and do not have an adult conviction for a disqualifying offense. Persons convicted of a qualifying sex offense as a young adult may also petition for removal of registration requirements.[29]
- Sexual predators are prohibited from working or volunteering at any place where children regularly congregate.[30]

Licensing for Sexual Predators

A driver license or identification card issued by the DHSMV to persons designated as sexual predators under s. 775.21, F.S.,[31] is required to have the marking "775.21, F.S.", on the front of his or her license or card.

[24] Section 775.21(4), F.S.
[25] Section 943.0435(1), F.S.
[26] Sections 775.21(6) and 943.0435(2), F.S.
[27] Sections 775.21(8)(a) and 943.0435(14)(a), F.S.
[28] Sections 775.21(6)(g)1. and 943.0435(4)(a), F.S.
[29] Sections 775.21(6)(l) and 943.0435(11), F.S.
[30] Section 775.21(3)(b)5., F.S.
[31] The Florida Sexual Predators Act.

Effect of Proposed Changes

Section 20 amends s. 322.141, F.S., to revise the required special markings on driver licenses or identification cards issued to persons designated as sexual predators or subject to registration as sexual offenders, including persons designated or subject to registration as such under the laws of another jurisdiction. A driver license or identification card issued to a person designated as a sexual predator under s. 775.21, F.S., is required to be marked on the front side of the card with "SEXUAL PREDATOR".

Disposal and Lease of Real and Personal Property

Current Situation

The FDOT is authorized to purchase, lease, exchange, or otherwise acquire any land, property interests, buildings or other improvements necessary for rights-of-way for existing or anticipated transportation facilities on the State Highway System, on the State Park Road System, or in an FDOT designated rail or transportation corridor. The FDOT may also accept donations of land, building, or other improvements for transportation rights-of-way and may compensate an entity by providing replacement facilities when the land, building, or other improvements are needed for transportation purposes but are held by a federal, state, or local governmental entity and used for public purposes other than transportation.[32]

The FDOT is required to conduct a complete inventory of all real or personal property immediately upon acquisition, including an itemized listing of all appliances, fixtures, and other severable items, a statement of the location or site of each piece of realty, structure, or severable item; and the serial number assigned to each.[33] The FDOT must evaluate the inventory of real property which has been owned for at least 10 years and which is not within a transportation corridor or the right-of-way of a transportation facility. If the property is not located within a transportation corridor or is not needed for a transportation facility, the FDOT is authorized to dispose of the property.[34] According to the FDOT, 85 percent of its currently-owned surplus property is valued at under $50,000.

Sale of Property: The FDOT is authorized to sell any land, building, or other real or personal property it acquired if the FDOT determines the property is not needed for a transportation facility.[35] The FDOT is required to first offer the property ("first right of refusal") to the local government in whose jurisdiction the property is located, with the exception of the following parcels:

- The FDOT may negotiate the sale of property, at no less than fair market value as determined by an independent appraisal, to the owner holding title to abutting property, if in the FDOT's discretion public sale would be inequitable.[36]

[32] Section 337.25(1), F.S.
[33] Section 337.25(2), F.S.
[34] Section 337.25(3), F.S.
[35] Section 337.25(4), F.S.
[36] Section 337.25(4)(c), F.S.

- The FDOT may sell property acquired for use as a borrow pit, at no less than fair market value, to the owner of abutting land from which the pit was originally acquired, if the pit is no longer needed.[37]
- The FDOT may convey to a county without consideration any property acquired by a county or by the FDOT using constitutional gas tax funds for a right-of-way or borrow pit for a road on the State Highway System, State Park Road System, or county road system if the property is no longer used or needed by the FDOT; and the county may sell the property on receipt of competitive bids.[38]
- A governmental entity may authorize re-conveyance to the original donor of property donated to the state for transportation purposes if the facility has not been constructed for at least five years, no plans have been prepared for construction of the facility, and the property is not located within a transportation corridor.[39]
- The FDOT may negotiate the sale of property as replacement housing if the property was originally acquired for persons displaced by transportation projects and if the state receives no less than its investment in such properties or fair market value, whichever is lower. This benefit extends only to persons actually displaced by a project, and dispositions to any other person must be for fair market value. [40]

Once the FDOT determines the property is not needed for a transportation facility and has extended and received rejection of required first rights of refusal, FDOT is also authorized to:

- Negotiate the sale of property if its value is $10,000 or less as determined by FDOT estimate;[41]
- Sell the property to the highest bidder through "due advertisement" of receipt of sealed competitive bids or by public auction if its value exceeds $10,000 as determined by the FDOT estimate;[42]
- Determine the fair market value of property through appraisal conducted by an FDOT appraiser, if the FDOT begins the process for disposing of property on its own initiative, either by authorized negotiation or by authorized receipt of sealed competitive bids or public auction;[43]
- Convey the property without consideration to a governmental entity if the property is to be used for a public purpose;[44]and
- Use the projected maintenance costs of the property over the next five years to offset the market value in establishing a value for disposal of the property, even if that value is zero, if the FDOT determines that the property will require significant costs to be incurred or that continued ownership of the property exposes the FDOT to significant liability risks.[45]

[37] Section 337.25(4)(d), F.S.
[38] Section 337.25(4)(f), F.S.
[39] Section 337.25(4)(g), F.S.
[40] Section 337.25(4)(i), F.S.
[41] Section 337.25(4)(a), F.S.
[42] Section 337.25(4)(b), F.S.
[43] Section 337.25(4)(e), F.S.
[44] Section 337.25(4)(h), F.S.
[45] Section 337.25(4)(j), F.S.

Lease of Property: The FDOT is further authorized to convey a leasehold interest for commercial or other purposes to any acquired land, building, or other property, real or personal, subject to the following:[46]

- The FDOT may negotiate such a lease at the prevailing market value with the owner from whom the property was acquired; with the holders of leasehold estates existing at the time of the FDOT's acquisition; or, if public bidding would be inequitable, with the owner of privately owned abutting property, after reasonable notice to all other abutting property owners.[47]
- All other leases must be by competitive bid.[48]
- Such leases are limited to five years in duration, but the FDOT may renegotiate a lease for an additional five-year term without rebidding.[49]
- Each lease must require that any improvements made to the property during the lease term be removed at the lessee's expense.[50]
- If property is to be used for a public purpose, including a fair, art show, or other educational, cultural, or fundraising activity, the property may be leased without consideration to a governmental entity or school board.[51]
- No lease may be used by the lessee to establish the four years' standing required by eminent domain law if the business had not been established for four years on the date title passed to the FDOT.[52]
- The FDOT may enter into a long-term lease without compensation with certain public ports for rail corridors used for the operation of a short-line railroad to the port.[53]

The appraisals currently required under s. 337.25(4)(c) and (d), F.S., must be prepared in accordance with the FDOT guidelines and rules by an independent appraiser certified by the FDOT.[54] When "due advertisement" is required, an advertisement in a newspaper of general circulation in the area of the improvements of not less than 14 calendar days prior to the date of the receipt of bids or the date on which a public auction is to be held satisfies the requirement.[55]

Effect of Proposed Changes

Section 23 amends s. 337.25, F.S., to revise the terms and conditions under which the FDOT may sell or lease properties acquired for transportation rights-of-way and to authorize the FDOT to contract for auction services used in the conveyance of real or personal property or leasehold interests and to authorize such contracts to allow the contractor to retain a portion of the proceeds as compensation.

The FDOT is authorized to "convey", rather than "sell" land, buildings, or other real or personal property after determining the property isn't needed for a transportation facility and to dispose of

[46] Section 337.25(5), F.S.
[47] Section 337.25(5)(a), F.S.
[48] Section 337.25(5)(b), F.S.

[54] Section 337.25(7), F.S.
[55] Section 337.25(8), F.S.

property through negotiations, sealed competitive bids, auctions, or any other means deemed to be in the FDOT's best interest. Due advertisement is required for property valued at more than $10,000, and no property may be sold at less than fair market value except as specified. The FDOT is authorized, rather than required, to afford a right of first refusal to a political subdivision, or local government in which the parcel is located, except in conveyances when the property has been donated to the state for transportation purposes and a facility has not been constructed for at least 5 years, the property was originally required for replacement housing for persons displaced by transportation projects, or property which the FDOT has determined a sale to anyone other than the abutting land owner would be inequitable.

The FDOT is prohibited from conveying a leasehold interest at a price less than the FDOT's current estimate of value and specifies that a lease may be created through negotiations, sealed competitive bids, auctions, or any other means deemed to be in the best interest by the FDOT. A lease shall not be for a period of more than 5 years, however, the FDOT may extend the lease for an additional 5 years without rebidding.

The FDOT is required to publish a notice when a proposal to lease property has been received, stating that a proposal has been received and that FDOT will accept other proposals for 120 days after the date of publication for lease of the property. The FDOT is authorized to establish, by rule, an application fee for the submission of the proposals.

The FDOT's estimate of value must be prepared in accordance with department procedures, guidelines, and rules for valuation of real property. If the value of the property exceeds $50,000, the sale or lease must be negotiated at a price not less than the estimated value determined by the FDOT.

This section does not modify the eminent domain requirement of s. 73.013, F.S.

Unsolicited Lease Proposals

Current Situation

Section 337.251, F.S., *Lease of property for joint public-private development and areas above or below department property*, authorizes the FDOT to request proposals for the lease of the FDOT property for joint public-private development or commercial development. The FDOT may also receive and consider unsolicited proposals for such uses. If the FDOT receives an unsolicited proposal to negotiate a lease, the FDOT must publish a notice in a newspaper of general circulation at least once a week for two weeks, stating that it has received the proposal and will accept, for 60 days after the date of publication, other proposals for use of the space. The FDOT must also mail a copy of the notice to each local government in the affected area.

Any unsolicited lease proposal must be selected based on competitive bidding, and the FDOT is authorized to consider such factors as the value of property exchanges, the cost of construction, and other recurring costs for the benefit of the FDOT by the lessee in lieu of direct revenue to the FDOT if such other factors are of equal value including innovative proposals to involve minority businesses. Before entering into any lease, the FDOT must determine that the property subject to the lease has a permanent transportation use related to the FDOT responsibilities, has the

potential for such future transportation uses, or constitutes airspace or subsurface rights attached to property having such uses, and is therefore not available for sale as surplus property.

Section 334.30, F.S., *Public-private transportation facilities*, authorizes the FDOT to lease certain toll facilities through public-private partnerships and also authorizes the FDOT to receive unsolicited proposals. That section directs the FDOT to establish by rule an application fee sufficient to pay the costs of evaluating a proposal. The FDOT is further authorized to engage the services of private consultants to assist in the evaluation.

Unlike s. 337.251, F.S., before approving a proposal, the FDOT must determine that the proposed project is in the public's best interest; would not require state funds to be used unless the project is on the State Highway System; would have adequate safeguards in place to ensure that no additional costs or service disruptions would be realized by the traveling public and residents of the state in the event of default or cancellation of the agreement by the FDOT; would have adequate safeguards in place to ensure that the FDOT or the private entity has the opportunity to add capacity to the proposed project and other transportation facilities serving similar origins and destinations; and would be owned by the FDOT upon completion or termination of the agreement.[56] In addition, before awarding a contract for lease of an existing toll facility through a public-private partnership, the FDOT is required to provide an independent analysis of the proposed lease that demonstrates the cost-effectiveness and overall public benefit.

If the FDOT receives an unsolicited proposal for a lease through a public-private partnership, the FDOT must publish a notice in the Florida Administrative Weekly and a newspaper of general circulation at least once a week for two weeks stating that the FDOT has received the proposal and will accept, for 120 days after the initial date of publication, other proposals for the same project purpose. The FDOT must also mail a copy of the notice to each local government in the affected area.

Effect of Proposed Changes

Section 24 amends s. 337.251(2), F.S., relating to the lease of property for joint public-private development, to:

- Require that if the FDOT receives a proposal for a lease (rather than to negotiate a lease) of particular property the FDOT desires to consider, it shall publish the currently required newspaper notice stating that the FDOT will accept for 120 (rather than 60) days other proposals for lease of the particular property;
- Direct the FDOT to establish by rule an application fee for the submission of proposals under s. 337.251, F.S., sufficient to pay the anticipated costs of evaluating the proposals;
- Authorize the FDOT to engage the services of private consultants to assist in the evaluations;
- Require the FDOT, before approval of any proposal, to determine that the proposed lease is in the public's best interest, does not require state funds to be used, and has adequate safeguards in place to ensure that no additional costs or service disruptions would be realized by the traveling public and residents of the state in the event of default by the private lessee or upon termination or expiration of the lease; and

[56] The ownership requirement in s. 334.30, F.S., would not, of course, apply to a lease arrangement under s. 337.251, F.S.

- Require the FDOT to provide an independent analysis of a proposed lease that demonstrates the cost-effectiveness and overall public benefit before moving forward with the procurement and before awarding the contract if the procurement moves forward.

These revisions make the process under s. 337.251, F.S., more similar to that under s. 334.30, F.S.

Metropolitan Planning Organizations

Current Situation

Based on census data, the U.S. Bureau of the Census designates urbanized areas throughout the state. Federal law and rule (23 U.S.C. 134 and 23 C.F.R 450 Part C) require a metropolitan planning organization (MPO) to be designated for each urbanized area[57] or group of contiguous urbanized areas. In addition, federal law and rules specify the requirements for a MPO transportation planning and programming activities. These requirements are updated after each federal transportation reauthorization bill enacted by Congress. State law also includes provisions governing MPO activities. Section 339.175, F.S., paraphrases or restates some key federal requirements. In addition, state law includes provisions that go beyond the federal requirements. For example, federal requirements regarding MPO membership are very general, while state law is more specific.

Section 339.175(2)(a)2., F.S., currently provides that designation of an MPO be accomplished by agreement between the Governor and units of general-purpose local government representing at least 75 percent of the population of the urbanized area; however, the unit of general-purpose local government that represents the central city or cities within the MPO jurisdiction, as defined by the United State Bureau of the Census, must be a party to such agreement. This language has been superseded by revisions to 23 U.S.C. 134(d) and 23 C.F.R. 450.310(b), which now require designation to be accomplished by agreement between the Governor and units of general-purpose local government that together represent at least 75 percent of the population (including the largest incorporated city, based on population, as named by the Bureau of the Census) or in accordance with procedures established by applicable State or local law.

An existing MPO may be re-designated by agreement between the Governor and units of general-purpose local government that together represent at least 75 percent of the existing population in the area served, including the largest incorporated city.[58] Re-designation of an MPO is required whenever the existing MPO proposes to make a substantial change in the proportion of voting members on the existing MPO representing the largest incorporated city, other units of general-purpose local government served by the MPO, and the State; or a substantial change in the decision-making authority or responsibility of the MPO, or in decision-making procedures established under the MPO bylaws.[59]

[57] An urbanized area is defined by the U.S. Bureau of the Census and has a population of 50,000 or more.
[58] 23 C.F.R. 450.301(h) (2012).
[59] 23 C.F.R. 450.301(k) (2012).

Current law does not authorize more than 19 members on an MPO in cases when the MPO is re-designated as a result of the expansion of an MPO to include a new urbanized area or the consolidation of two or more MPOs, even if the membership is already at 19 members.

For both multicounty and single-county MPOs, current law requires that county commission members compose not less than one-third of the MPO governing board membership. All voting members must be elected officials of general-purpose local government.

MPOs are currently required to establish bylaws and adopt rules pursuant to the Administrative Procedures Act.

Effect of Proposed Changes

Section 25 amends s. 339.175, F.S., to:

- Revise state law superseded by federal law and rule by requiring that MPO designation occur by agreement between the Governor and units of general-purpose local government that together represent at least 75 percent of the population, including the largest incorporated city, based on population, as named by the Bureau of the Census.
- Increase the voting membership from 19 to 25 members, which may provide more flexibility when membership apportionment plans are revised based on updated census data and new or expanded urbanized area boundaries, and could potentially benefit MPO consolidation.
- Provide that, with the exception of instances in which all of the county commissioners in a single-county MPO are members of the MPO governing board, county commissioners must compose at least one-third of the MPO governing board membership.
- Provide that a multicounty MPO may satisfy the one-third requirement by any combination of county commissioners from each of the counties constituting the MPO.
- Authorize general purpose local governments serving on an MPO to include one member who represents a group of general purpose local governments through an entity created by an MPO for that purpose. This would allow an entity created by an MPO that is composed of local government officials, such as an MPO-created committee consisting of local governments not on the MPO, to serve on an MPO.
- Authorize, rather than require, provision of governing board voting membership to authorities or other agencies that perform transportation functions but which are not under the jurisdiction of a general purpose local government. This provides MPO discretion to determine which authorities or other agencies should serve on an MPO governing board.
- Provide that each MPO is to review the composition of its membership after each decennial census and, as necessary, reapportion its membership with the Governor, to clarify that the MPO initiates the review and reapportionment of its governing board membership.
- Authorize MPOs to establish bylaws by action of its governing board providing procedural rules to guide its proceedings and consideration of matters before the council or, alternatively, adopt rules pursuant to the Administrative Procedures Act.

Economic Development Transportation Projects

Current Situation

Florida has a number of economic development incentive programs used to recruit industry to Florida or to persuade existing businesses to expand their operations. One such incentive exists

in what is commonly referred to as the Road Fund, which is funded by the State Transportation Trust Fund and used to assist local government in paying for highway or other transportation infrastructure improvements that will benefit a relocating or expanding company. The amount appropriated for this transfer varies from year to year. The Legislature in 2012 repealed s. 288.063, F.S., in which the Road Fund was statutorily placed, and created s. 339.2821, F.S. The revisions did not change the purpose of the Road Fund but simply moved oversight of the fund from the Florida Department of Economic Opportunity (FDEO) to the FDOT.[60]

The FDOT, in consultation with the FDEO, is authorized under the new section to make and approve expenditures and contract with the appropriate government body for the direct costs of transportation projects. Current law specifies that as part of the contractual agreement between the FDOT and a governmental body, the governmental body must provide FDOT with specified quarterly reports, the FDOT may only transfer funds on a quarterly basis, the governmental body must expend funds received in a timely manner, and the FDOT may only transfer funds after construction has begun on the facility of a business on whose behalf the award was made.

Effect of Proposed Changes

Section 26 amends s. 339.2821, F.S., to include Enterprise Florida, Inc., as an FDOT consultant in making and approving economic development transportation project contracts; provides authority for the FDOT to terminate a grant award if construction of the transportation project does not begin within four years after the date of the initial grant award; and expands the type of authorized transportation facility projects to include spaceports.

Gasoline Stations/Accessibility/Preemption of Regulation

Current Situation

People with disabilities may find it difficult or impossible to use the controls, hose, or nozzle of a self-serve gas pump. As a result, at stations that offer both self and full service, people with disabilities might have no choice but to purchase the more expensive gas from a full-serve pump. At locations with only self-serve pumps, people with disabilities might be unable to purchase gas at all. The Americans with Disabilities Act (ADA) requires self-serve gas stations to provide equal access to their customers with disabilities. If necessary to provide access, gas stations must:

- Provide refueling assistance upon the request of an individual with a disability. A service station or convenience store is not required to provide such service at any time that it is operating on a remote control basis with a single employee**,** but is encouraged to do so, if feasible.
- Let patrons know (e.g., through appropriate signs) that customers with disabilities can obtain refueling assistance by either honking or otherwise signaling an employee.
- Provide the refueling assistance without any charge beyond the self-serve price.[61]

[60] Budget Committee Final Analysis of SB 1998: http://www.flsenate.gov/Session/Bill/2012/1998/Analyses/M6TO2qtoNCs60=PL=Y=PL=DT9BT2bnWNo=%7C11/Public/Bills/1900-1999/1998/Analysis/s1998z2.TEDAS.PDF.

[61] http://www.ada.gov/gasserve.htm (last visited 2/26/14)

Section 526.141, F.S., requires every full-service gasoline station that offers gasoline at a lower price to provide an attendant to dispense gasoline from the self-service portion of the station to any motorist properly displaying an exemption parking permit as provided in s. 316.1958, F.S.,[62] or a license plate bearing the international accessibility symbol, and the operator is the person to whom such permit was issued. Such stations shall prominently display a decal no larger than 8 square inches on the front of all self-service pumps clearly stating the requirements and applicable penalties for violations. Violation of this section is a misdemeanor of the second degree, punishable by a term of imprisonment not exceeding 60 days[63] or by a $500 fine.[64]

Effect of Proposed Changes

Section 27 amends s. 526.141, F.S., to require, by July 1, 2016, a full-service gas station offering self-service at a lesser cost to prominently display, in addition to the above-described decal, a blue decal at least 15 square inches in size that clearly displays the international symbol of accessibility, the station's telephone number, and the words "Call for Assistance." The Department of Agriculture and Consumer Services is directed to adopt rules to implement and enforce these provisions, and local government laws and regulations pertaining to the provision of fueling assistance by a self-service gas station are preempted and superseded.

Pinellas Bayway/Maintenance Costs

Current Situation

The FDOT-owned, tolled Pinellas Bayway System is a series of causeways and bridges providing a connection between St. Petersburg Beach, Fort DeSoto Park, and I-275:

> The east-west section of the facility (SR 682) provides a connection between I-275 (via 54th Avenue) on the east and Gulf Boulevard (SR 699) on the west. This section crosses the Bayway Isles and Isle Del Sol. The north-south section of the facility (SR 679) extends from Isle Del Sol through Tierra Verde to Mullet Key and Fort DeSoto Park. The facility was opened to traffic in December 1962.[65]

The 1985 Legislature directed that all tolls collected shall first be used for the payment of annual operating costs, second to discharge the current bond indebtedness,[66] and thereafter to establish a reserve construction account to be used for certain Pinellas Bayway improvements. Maintenance costs were not included in the directive. Instead, the FDOT was required, upon completion of those certain improvements, to continue to collect tolls on the Pinellas Bayway to reimburse the FDOT for all accrued maintenance costs for the Pinellas Bayway.

---

[62] Out-of-state vehicles bearing identification of issuance to persons who have disabilities.
[63] Section 775.082, F.S.
[64] Section 775.083, F.S.
[65] Traffic Engineer's Annual Report for Fiscal Year Ended June 30, 2012, p. 51, on file in the Senate Transportation Committee.
[66] The FDOT advises no current bond indebtedness exists. The FDOT email, February 4, 2014, on file in the Senate Transportation Committee.

The 1995 Legislature amended the 1985 law to remove reference to completed improvements and modify references to future improvements but did not change the directive regarding maintenance costs. Consequently, amounts paid by the FDOT for maintenance costs accrue as long-term debt due the State Transportation Trust Fund (STTF), as opposed to the FDOT paying the maintenance costs from toll revenues. As of December 20, 2013, the long-term debt due the STTF as a result of maintenance costs paid by the FDOT is projected to be approximately $66 million in Fiscal Year 2022-2023.[67]

Effect of Proposed Changes

Section 31 amends s. 2 of ch. 85-364, L.O.F., as amended by s. 2 of ch. 95-382, L.O.F., to authorize the FDOT to use tolls first for the payment of annual operating *and maintenance* costs. This will allow the FDOT to pay the costs from the toll revenues and no longer accrue those costs as long-term debt. Users of the facility will pay maintenance costs, rather than having the costs subsidized by revenues deposited into the STTF. The bill also removes references to completed improvements.

Section 33 creates an undesignated section of law providing an appropriation to the DHSMV. The nonrecurring sum of $100,000 is appropriated for Fiscal Year 2014-15 for the purpose of the issuance of driver licenses and identifications with marking of "SEXUAL PREDATOR" in accordance with this act.

Section 34 provides the bill takes effect on July 1, 2014.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

CS/CS/SB 1272 redirects existing fees from the Highway Safety Operating Trust Fund in the Department of Highway Safety and Motor Vehicles (DHSMV) to county tax collectors who provide licensing issuance services.

[67] The FDOT Pinellas Bayway Toll Facility Revenue and Expenditure Report, on file in the Senate Transportation Committee.

B. Private Sector Impact:

Section 6: Individuals who start their vehicles by remote control while the ignition, transmission, and doors are locked will no longer by subject to a $30 penalty.

Sections 9 and 14: Individuals will be subject to withholding of registration *only* of the motor vehicle identified in a notice to surrender, which may avoid economic loss for some.

Section 24: Those wishing to submit proposals for lease of the Florida Department of Transportation (FDOT) property that the FDOT wishes to consider will be subject to an application fee sufficient to pay the anticipated cost of evaluation the proposal, to be established by the FDOT rule. Opportunities for private consultant contracts with the FDOT are authorized.

Section 27: Full-service gas stations that offer gasoline at a lower price will incur what is expected to be insignificant expenses associated with displaying the required decal.

C. Government Sector Impact:

Section 1: The Florida Transportation Commission (FTC) will incur additional expenditures associated with monitoring the Mid-Bay Bridge Authority (MBBA) and any publicly funded passenger rail system. These expenses are expected to be absorbed within existing resources, as the FTC already monitors the South Florida Regional Transportation Authority, which operates Tri-Rail, and will only add monitoring of the SunRail system to its duties.

Sections 2 and 17: The DHSMV may incur an indeterminate revenue reduction in the Highway Safety Operating Trust Fund related to a reduced number of driver license suspensions for failure to comply with child support responsibilities.

Section 4: The Department of State and the Department of Law Enforcement may incur costs associated with establishing a retention schedule for records containing images and data generated through the use of an automated license plate recognition system, which are expected to be absorbed within existing resources.

Section 6: The $30 penalty previously applicable to individuals who start their vehicles by remote control while the ignition, transmission, and doors are locked will no longer be collected.

Section 16: The DHSMV will incur expenses associated with developing a secure and uniform system for issuing an optional digital proof of driver license, which are expected to be absorbed within existing resources.

Sections 19 and 22: Deposits into the Highway Safety Operating Trust Fund will be reduced by, and the tax collectors will retain, the specified dollar amounts for initial knowledge and skills tests conducted by tax collectors, and for replacement driver

licenses and replacement identification cards issued by tax collectors. The General Revenue Fund will be reduced due to the fee exemption for identification cards for persons at 100 percent of the poverty level. The fiscal impact below was provided by the DHSMV based on the Highway Safety Fees Estimating Conference held in February, 2014.

	FY 2014-15 Revenue	FY 2015-16 Revenue	FY 2016-17 Revenue	FY 2017-18 Revenue
General Revenue	(1,578,539)	(1,604,086)	(1,824,483)	(2,288,446)
Highway Safety Operating Trust Fund	(5,653,028)	(8,369,422)	(8,550,671)	(8,808,677)
Tax Collectors	5,450,846	8,163,379	8,279,267	8,394,963

The DHSMV has indicated that there will be programming cost of 420 hours incurred at $100 per hour. This includes:

- Issuance of Identification Cards to Homeless at 100 percent of poverty level will require 20 hours of programming.
- Fee redirection to tax collectors will require 400 hours of programming.

The remaining cost to develop and implement a uniform and secure system for an optional digital proof of driver license is indeterminate but potentially significant. The development of this system will increase the total cost of the contract for driver license issuance in future years.

Section 20: The DHSMV indicates that there will be programming cost related to the implementing the revised requirements for special markings on driver licenses and identifications for persons who have been designated or are required to register as a sexual predator. The bill provides an appropriation of $100,000 related to these expenditures.

Section 23: The fiscal impact of the modified terms and conditions governing the FDOT's sale or lease of surplus property is indeterminate. However, according to the FDOT, a net positive impact to local revenue is expected as properties are returned to the ad valorem tax roll. In addition, an indeterminate savings to the state is expected as a result of reduced appraisal expenses, especially in cases when such costs approach and even exceed the price received by the FDOT.

Section 24: The FDOT's costs associated with evaluating lease proposals pursuant to s. 337.251, F.S., would presumably be covered by the application fee the FDOT is required to establish by rule, particularly if the fee includes the cost of private consultants the FDOT is authorized to engage to assist in its evaluations.

Section 27: The Department of Agriculture and Consumer Services will incur expenses to adopt rules relating to decal display at full-service gas stations offering self-service at a lower cost, which are expected to be absorbed within existing resources.

Section 32: The DHSMV will incur expenses associated with developing a plan of action that addresses motor vehicle registration holds for outstanding tolls, parking tickets, and fines, which are expected to be absorbed within existing resources.

Section 33: provides a nonrecurring appropriation in the amount of $100,000 to the DHSMV for Fiscal Year 2014-2015 from the Highway Safety Operating Trust Fund for costs incurred relating to revising the special marking requirements for persons designated as sexual predators.

VI. Technical Deficiencies:

The DHSMV is concerned that the creation of a digital driver license does not guarantee acceptance or the same level of acceptance as a physical license. It is the agency's belief that the Transportation Safety Administration and other federal agencies will not accept it in lieu of the actual physical card. Privacy and search and seizure issues could possibly be implicated in a digital driver license verification. First responders may face digital driver license identification challenges when individuals are non-responsive. In addition, digital driver license verifications would be subject to an individual's smart phone operating properly which could result in time intensive digital verifications in the field by law enforcement agencies.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends the following sections of the Florida Statutes: 20.23, 61.13016, 110.205, 316.1975, 316.2952, 316.86, 320.02, 320.08056, 320.08062, 320.083, 320.1316, 322.055, 322.058, 322.059, 322.12, 322.141, 322.15, 322.21, 337.25, 337.251, 339.175, 339.2821, 526.141, 562.11, 812.0155, and 832.09.

This bill amends section 2 of chapter 85-364, Laws of Florida, as amended by section 2 of chapter 95-382, Laws of Florida; and amends section 45 of chapter 2008-176, Laws of Florida, as amended by section 21 of chapter 2010-233, Laws of Florida.

This bill creates the following sections of the Florida Statutes: 316.0778, 316.0817, and 322.032.

This bill creates undesignated sections of Florida Law.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations Committee on April 24, 2014:
The CS/CS differs as follows:

- Language prohibiting the enforcement of State Uniform Traffic Laws by any means other than the direct observation of a law enforcement officer or other duly appointed individual, unless expressly authorized, is removed from the bill.
- Reinstatement of driving privileges for certain cases regarding suspensions due to unpaid child support is allowed.
- The court is required to make a specific determination of whether a driver license can be issued for business purposes only (BPO) when the suspension is for unpaid child support and convictions of certain drug offenses.
- The requirement that a court order the driver license suspension of persons who fail to appear on worthless check charges is repealed. Driver license suspension is permitted and applied only to persons previously found guilty of bad check charges.
- Designation of a testing roadway for autonomous vehicles by an authority with roadway jurisdiction in a given location is required, in addition to designation by the Florida Department of Transportation.
- The moratorium on specialty license plates is extended to 2016, and provisions relating to accountability of specialty license plate organizations are revised.
- Revises the requirements for special markings on driver licenses and state identification cards for persons designated as sexual predators or sexual offenders, including persons so designated or subject to registration under the laws of another jurisdiction.
- Provides a $100,000 appropriation to the DHSMV for costs incurred with the issuance or reissuance of driver licenses and identification cards with the special marking of "Sexual Predator".
- Removes a preemption barring a county or municipality from adopting or enforcing ordinances to expand accessibility, safety or availability of fueling assistance for persons displaying the international symbol of accessibility at full-service gas stations offering self-service.

CS by Transportation on March 6, 2014:
The CS revises provisions relating to the testing of autonomous vehicle technology to remove the requirement that a human be present in the vehicle and capable of intervening, if necessary, unless the vehicle is being tested on a closed course. Instead, the bill provides that a human operator must retain the ability to monitor the vehicle and intervene, if necessary, unless the vehicle is being tested on a closed course *or any other testing roadway designated by the FDOT and applicable local or county government*. The CS also expands those authorized to conduct testing to include research organizations associated with accredited educational institutions. The CS also removes obsolete language requiring a DHSMV report, as the report has already been submitted. Lastly, the CS removes the date certain by which the DHSMV is to develop an optional

digital proof of driver license (10/1/16) and instead directs the department to begin to review and prepare for the development.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Transportation; and Senator Brandes

596-02207-14 20141272c1

A bill to be entitled

An act relating to transportation and motor vehicles; amending s. 20.23, F.S.; requiring the Florida Transportation Commission to monitor the Mid-Bay Bridge Authority; repealing the Florida Statewide Passenger Rail Commission; amending s. 110.205, F.S.; conforming cross-references; creating s. 316.0071, F.S.; requiring that the provisions of ch. 316, F.S., be enforced by the direct observation and intervention of a law enforcement officer, a parking enforcement specialist, a traffic infraction enforcement officer, or any other duly appointed individual unless another method has been expressly authorized; creating s. 316.0778, F.S.; defining the term "automated license plate recognition system"; requiring the Department of State to consult with the Department of Law Enforcement in establishing a retention schedule for records generated by the use of an automated license plate recognition system; creating s. 316.0817, F.S.; prohibiting a bus from stopping to load or unload passengers in a manner that impedes, blocks, or otherwise restricts the progression of traffic under certain circumstances; amending s. 316.1975, F.S.; authorizing an operator of a vehicle that is started by remote control to let the vehicle stand unattended under certain circumstances; amending s. 316.2952, F.S.; revising a provision exempting a global position system device or similar satellite receiver device from the prohibition of attachments on windshields;

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

596-02207-14 20141272c1

amending s. 316.86, F.S.; revising provisions relating to the operation of vehicles equipped with autonomous technology on state roads for testing purposes; authorizing research organizations associated with accredited educational institutions to operate such vehicles; authorizing the testing of such vehicles on certain roadways designated by the Department of Transportation and applicable local or county governments; deleting an obsolete provision; amending s. 320.02, F.S.; requiring, rather than authorizing, the Department of Highway Safety and Motor Vehicles to withhold the renewal of registration or replacement registration of a motor vehicle identified in a notice submitted by a lienor for failure to surrender the vehicle if the applicant's name is on the list of persons who may not be issued a license plate or revalidation sticker; revising the conditions under which a revalidation sticker or replacement license plate may be issued; amending s. 320.083, F.S.; revising the requirements for a special license plate; amending s. 320.1316, F.S.; prohibiting the department from issuing a license plate, revalidation sticker, or replacement license plate for a vehicle or vessel identified in a notice from a lienor; requiring that a notice to surrender a vehicle or vessel be signed under oath by the lienor; authorizing a registered owner of a vehicle to bring a civil action, rather than to notify the department and present certain proof, to dispute a notice to surrender a vehicle or

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

vessel or his or her inclusion on the list of persons who may not be issued a license plate or revalidation sticker; providing a procedure for such a civil action; providing for the award of attorney fees and costs; creating s. 322.032, F.S.; requiring the Department of Highway Safety and Motor Vehicles to begin to review and prepare for the development of a system for issuing an optional digital proof of driver license; authorizing the Department of Highway Safety and Motor Vehicles to contract with private entities to develop the system; providing requirements for digital proof of driver license; providing criminal penalties for manufacturing or possessing a false digital proof of driver license; amending s. 322.059, F.S.; requiring the Department of Highway Safety and Motor Vehicles to invalidate the digital proof of driver license for a person whose license or registration has been suspended; amending s. 322.12, F.S.; requiring that certain test fees incurred by certain applicants for a driver license be retained by the tax collector; amending s. 322.15, F.S.; authorizing a digital proof of driver license to be accepted in lieu of a physical driver license; amending s. 322.21, F.S.; authorizing certain tax collectors to retain a replacement driver license or identification card fee under certain circumstances; exempting certain individuals who are homeless or whose annual income is at or below a certain percentage of the federal poverty level from paying a

fee for an original, renewal, or replacement identification card; amending s. 337.25, F.S.; authorizing the Department of Transportation to use auction services in the conveyance of certain property or leasehold interests; revising certain inventory requirements; revising provisions relating to, and providing criteria for, the disposition of certain excess property by the Department of Transportation; providing criteria for the disposition of donated property, property used for a public purpose, or property acquired to provide replacement housing for certain displaced persons; providing value offsets for property that requires significant maintenance costs or exposes the Department of Transportation to significant liability; providing procedures for the sale of property to abutting property owners; deleting provisions to conform to changes made by the act; providing monetary restrictions and criteria for the conveyance of certain leasehold interests; providing exceptions to restrictions for leases entered into for a public purpose; providing criteria for the preparation of estimates of value prepared by the Department of Transportation; providing that the requirements of s. 73.013, F.S., relating to eminent domain are not modified; amending s. 337.251, F.S.; revising criteria for leasing certain Department of Transportation property; increasing the time for the Department of Transportation to accept proposals for lease after a notice is published; directing the

Department of Transportation to establish an application fee by rule; providing criteria for the fee; providing criteria for a proposed lease; requiring the Department of Transportation to provide an independent analysis of a proposed lease; amending s. 339.175, F.S.; increasing the maximum number of apportioned members that may compose the voting membership of a metropolitan planning organization (M.P.O.); providing that the governing board of a multicounty M.P.O. may be made up of any combination of county commissioners from the counties constituting the M.P.O; providing that a voting member of an M.P.O may represent a group of general-purpose local governments through an entity created by the M.P.O.; requiring each M.P.O. to review and reapportion its membership as necessary in conjunction with the decennial census, the agreement of the affected units of the M.P.O., and the agreement of the Governor; removing provisions requiring the Governor to apportion, review, and reapportion the composition of an M.P.O. membership; revising a provision regarding bylaws to allow the M.P.O. governing board to establish bylaws; amending s. 339.2821, F.S.; authorizing Enterprise Florida, Inc., to be a consultant to the Department of Transportation for consideration of expenditures associated with and contracts for transportation projects; revising the requirements for economic development transportation project contracts between the Department of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Transportation and a governmental entity; amending s. 526.141, F.S.; requiring full-service gasoline stations offering self-service at a lesser cost to display an additional decal; requiring the decal to contain certain information; requiring the Department of Agriculture and Consumer Services to adopt rules to implement and enforce this requirement; providing for preemption of local regulations pertaining to fueling assistance for certain motor vehicle operators; amending chapter 85-634, Laws of Florida, as amended; providing that maintenance costs are eligible for payment from certain toll revenues as specified; removing references to certain completed projects; directing the Department of Highway Safety and Motor Vehicles to develop a plan that addresses certain vehicle registration holds; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (b) of subsection (2) and subsection (3) of section 20.23, Florida Statutes, are amended to read:

20.23 Department of Transportation.—There is created a Department of Transportation which shall be a decentralized agency.

(2)

(b) The commission shall ~~have the primary functions to~~:

1. Recommend major transportation policies for the Governor's approval~~,~~ and assure that approved policies and any

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

revisions ~~thereto~~ are properly executed.

2. Periodically review the status of the state transportation system including highway, transit, rail, seaport, intermodal development, and aviation components of the system and recommend improvements ~~therein~~ to the Governor and the Legislature.

3. Perform an in-depth evaluation of the annual department budget request, the Florida Transportation Plan, and the tentative work program for compliance with all applicable laws and established departmental policies. Except as specifically provided in s. 339.135(4)(c)2., (d), and (f), the commission may not consider individual construction projects, but shall consider methods of accomplishing the goals of the department in the most effective, efficient, and businesslike manner.

4. Monitor the financial status of the department on a regular basis to assure that the department is managing revenue and bond proceeds responsibly and in accordance with law and established policy.

5. Monitor on at least a quarterly basis, the efficiency, productivity, and management of the department~~,~~ using performance and production standards developed by the commission pursuant to s. 334.045.

6. Perform an in-depth evaluation of the factors causing disruption of project schedules in the adopted work program and recommend to the Governor ~~Legislature~~ and the Legislature ~~Governor~~ methods to eliminate or reduce the disruptive effects of these factors.

7. Recommend to the Governor and the Legislature improvements to the department's organization in order to

streamline and optimize the efficiency of the department. In reviewing the department's organization, the commission shall determine if the current district organizational structure is responsive to this state's ~~Florida's~~ changing economic and demographic development patterns. The initial report by the commission must be delivered to the Governor and the Legislature by December 15, 2000, and each year thereafter, as appropriate. The commission may retain ~~such~~ experts as ~~are reasonably~~ necessary to carry out ~~effectuate~~ this subparagraph, and the department shall pay the expenses of the ~~such~~ experts.

8. Monitor the efficiency, productivity, and management of the authorities created under chapters 348 and 349, including any authority formed using ~~the provisions of~~ part I of chapter 348; the Mid-Bay Bridge Authority re-created pursuant to chapter 2000-411, Laws of Florida; and any authority formed under chapter 343 ~~which is not monitored under subsection (3)~~. The commission shall also conduct periodic reviews of each authority's operations and budget, acquisition of property, management of revenue and bond proceeds, and compliance with applicable laws and generally accepted accounting principles.

~~(3) There is created the Florida Statewide Passenger Rail Commission.~~

~~(a)1. The commission shall consist of nine voting members appointed as follows:~~

~~a. Three members shall be appointed by the Governor, one of whom must have a background in the area of environmental concerns, one of whom must have a legislative background, and one of whom must have a general business background.~~

~~b. Three members shall be appointed by the President of the~~

~~Senate, one of whom must have a background in civil engineering, one of whom must have a background in transportation construction, and one of whom must have a general business background.~~

~~c. Three members shall be appointed by the Speaker of the House of Representatives, one of whom must have a legal background, one of whom must have a background in financial matters, and one of whom must have a general business background.~~

~~2. The initial term of each member appointed by the Governor shall be for 4 years. The initial term of each member appointed by the President of the Senate shall be for 3 years. The initial term of each member appointed by the Speaker of the House of Representatives shall be for 2 years. Succeeding terms for all members shall be for 4 years.~~

~~3. A vacancy occurring during a term shall be filled by the respective appointing authority in the same manner as the original appointment and only for the balance of the unexpired term. An appointment to fill a vacancy shall be made within 60 days after the occurrence of the vacancy.~~

~~4. The commission shall elect one of its members as chair of the commission. The chair shall hold office at the will of the commission. Five members of the commission shall constitute a quorum, and the vote of five members shall be necessary for any action taken by the commission. The commission may meet upon the constitution of a quorum. A vacancy in the commission does not impair the right of a quorum to exercise all rights and perform all duties of the commission.~~

~~5. The members of the commission are not entitled to~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~compensation but are entitled to reimbursement for travel and other necessary expenses as provided in s. 112.061.~~

~~(b) The commission shall have the primary functions of:~~

~~1. Monitoring the efficiency, productivity, and management of all publicly funded passenger rail systems in the state, including, but not limited to, any authority created under chapter 343, chapter 349, or chapter 163 if the authority receives public funds for the provision of passenger rail service. The commission shall advise each monitored authority of its findings and recommendations. The commission shall also conduct periodic reviews of each monitored authority's passenger rail and associated transit operations and budget, acquisition of property, management of revenue and bond proceeds, and compliance with applicable laws and generally accepted accounting principles. The commission may seek the assistance of the Auditor General in conducting such reviews and shall report the findings of such reviews to the Legislature. This paragraph does not preclude the Florida Transportation Commission from conducting its performance and work program monitoring responsibilities.~~

~~2. Advising the department on policies and strategies used in planning, designing, building, operating, financing, and maintaining a coordinated statewide system of passenger rail services.~~

~~3. Evaluating passenger rail policies and providing advice and recommendations to the Legislature on passenger rail operations in the state.~~

~~(c) The commission or a member of the commission may not enter into the day-to-day operation of the department or a~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~monitored authority and is specifically prohibited from taking part in:~~

~~1. The awarding of contracts.~~

~~2. The selection of a consultant or contractor or the prequalification of any individual consultant or contractor. However, the commission may recommend to the secretary standards and policies governing the procedure for selection and prequalification of consultants and contractors.~~

~~3. The selection of a route for a specific project.~~

~~4. The specific location of a transportation facility.~~

~~5. The acquisition of rights-of-way.~~

~~6. The employment, promotion, demotion, suspension, transfer, or discharge of any department personnel.~~

~~7. The granting, denial, suspension, or revocation of any license or permit issued by the department.~~

~~(d) The commission is assigned to the Office of the Secretary of the Department of Transportation for administrative and fiscal accountability purposes, but it shall otherwise function independently of the control and direction of the department except that reasonable expenses of the commission shall be subject to approval by the Secretary of Transportation. The department shall provide administrative support and service to the commission.~~

Section 2. Paragraphs (j), (m), and (q) of subsection (2) of section 110.205, Florida Statutes, are amended to read:

110.205 Career service; exemptions.—

(2) EXEMPT POSITIONS.—The exempt positions that are not covered by this part include the following:

(j) The appointed secretaries and the State Surgeon

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

General, assistant secretaries, deputy secretaries, and deputy assistant secretaries of all departments; the executive directors, assistant executive directors, deputy executive directors, and deputy assistant executive directors of all departments; the directors of all divisions and those positions determined by the department to have managerial responsibilities comparable to such positions, which positions include, but are not limited to, program directors, assistant program directors, district administrators, deputy district administrators, the Director of Central Operations Services of the Department of Children and Families ~~Family Services~~, the State Transportation Development Administrator, the State Public Transportation and Modal Administrator, district secretaries, district directors of transportation development, transportation operations, transportation support, and the managers of the offices of the Department of Transportation specified in s. 20.23(3)(b) ~~s. 20.23(4)(b), of the Department of Transportation~~. Unless otherwise fixed by law, the department shall set the salary and benefits of these positions ~~in accordance with the rules of the Senior Management Service;~~ and the positions of county health department directors and county health department administrators of the Department of Health in accordance with the rules of the Senior Management Service.

(m) All assistant division director, deputy division director, and bureau chief positions in any department, and those positions determined by the department to have managerial responsibilities comparable to such positions, which include, but are not limited to:

1. Positions in the Department of Health and the Department

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

of Children and Families which ~~Family Services that~~ are assigned primary duties of serving as the superintendent or assistant superintendent of an institution.

2. Positions in the Department of Corrections which ~~that~~ are assigned primary duties of serving as the warden, assistant warden, colonel, or major of an institution or that are assigned primary duties of serving as the circuit administrator or deputy circuit administrator.

3. Positions in the Department of Transportation which ~~that~~ are assigned primary duties of serving as regional toll managers and managers of offices, as specified ~~defined~~ in s. 20.23(3)(b) and (4)(c) ~~s. 20.23(4)(b) and (5)(c)~~.

4. Positions in the Department of Environmental Protection which ~~that~~ are assigned the duty of an Environmental Administrator or program administrator.

5. Positions in the Department of Health which ~~that~~ are assigned the duties of Environmental Administrator, Assistant County Health Department Director, and County Health Department Financial Administrator.

6. Positions in the Department of Highway Safety and Motor Vehicles which ~~that~~ are assigned primary duties of serving as captains in the Florida Highway Patrol.

Unless otherwise fixed by law, the department shall set the salary and benefits of the positions listed in this paragraph in accordance with the rules established for the Selected Exempt Service.

(q) The staff directors, assistant staff directors, district program managers, district program coordinators,

district subdistrict administrators, district administrative services directors, district attorneys, and the Deputy Director of Central Operations Services of the Department of Children and Families ~~Family Services~~. Unless otherwise fixed by law, the department shall establish the salary ~~pay band~~ and benefits for these positions in accordance with the rules of the Selected Exempt Service.

Section 3. Section 316.0071, Florida Statutes, is created to read:

316.0071 Enforcement.—Unless expressly authorized, enforcement of this chapter by a method other than the direct observation and intervention of a law enforcement officer, a parking enforcement specialist, a traffic infraction enforcement officer, or any other duly appointed individual is prohibited.

Section 4. Section 316.0078, Florida Statutes, is created to read:

316.0778 Automated license plate recognition systems; records retention.—

(1) As used in this section, the term "automated license plate recognition system" means a system of one or more mobile or fixed high-speed cameras combined with computer algorithms to convert images of license plates into computer-readable data.

(2) In consultation with the Department of Law Enforcement, the Department of State shall establish a retention schedule for records containing images and data generated through the use of an automated license plate recognition system. The retention schedule must establish a maximum period that the records may be retained.

Section 5. Section 316.0817, Florida Statutes, is created

to read:

316.0817 Loading and unloading of bus passengers.—

(1) Notwithstanding any other law, a bus may not stop to load or unload passengers in a manner that impedes, blocks, or otherwise restricts the progression of traffic on the main-traveled portion of a roadway if there is another reasonable means for the bus to stop parallel to the travel lane and safely load and unload passengers. As used in this section, the term "reasonable means" means sufficient unobstructed pavement or a designated turn lane that is sufficient in length to allow the safe loading and unloading of passengers parallel to the travel lane.

(2) This section does not apply to a school bus.

Section 6. Paragraph (d) is added to subsection (2) of section 316.1975, Florida Statutes, to read:

316.1975 Unattended motor vehicle.—

(2) This section does not apply to the operator of:

(d) A vehicle that is started by remote control while the ignition, transmission, and doors are locked.

Section 7. Paragraph (d) of subsection (2) of section 316.2952, Florida Statutes, is amended to read:

316.2952 Windshields; requirements; restrictions.—

(2) A person shall not operate any motor vehicle on any public highway, road, or street with any sign, sunscreening material, product, or covering attached to, or located in or upon, the windshield, except the following:

(d) A global positioning system device or similar satellite receiver device that ~~which~~ uses the global positioning system operated pursuant to 10 U.S.C. s. 2281 to obtain ~~for the purpose~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~of obtaining~~ navigation, to improve driver safety as a component of safety monitoring equipment capable of providing driver feedback, or to otherwise route ~~routing~~ information while the motor vehicle is being operated.

Section 8. Subsections (1) and (3) of section 316.86, Florida Statutes, are amended to read:

316.86 Operation of vehicles equipped with autonomous technology on roads for testing purposes; financial responsibility; exemption from liability for manufacturer when third party converts vehicle; report.—

(1) Vehicles equipped with autonomous technology may be operated on roads in this state by employees, contractors, or other persons designated by manufacturers of autonomous technology, or by research organizations associated with accredited educational institutions, for the purpose of testing the technology. For testing purposes, a human operator must retain ~~shall be present in the autonomous vehicle such that he or she has~~ the ability to monitor the vehicle's performance and intervene, if necessary, unless the vehicle is being tested or demonstrated on a closed course or any other autonomous vehicle testing roadway as designated by the Department of Transportation and applicable local or county government. Before ~~Prior to~~ the start of testing in this state, the entity performing the testing must submit to the Department of Highway Safety and Motor Vehicles an instrument of insurance, surety bond, or proof of self-insurance acceptable to the department in the amount of $5 million.

~~(3) By February 12, 2014, the Department of Highway Safety and Motor Vehicles shall submit a report to the President of the~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~Senate and the Speaker of the House of Representatives recommending additional legislative or regulatory action that may be required for the safe testing and operation of motor vehicles equipped with autonomous technology.~~

Section 9. Subsection (17) of section 320.02, Florida Statutes, is amended to read:

320.02 Registration required; application for registration; forms.—

(17) If an ~~any~~ applicant's name appears on a list of persons who may not be issued a license plate, revalidation sticker, or replacement license plate after a written notice to surrender a vehicle was submitted to the department by a lienor as provided in s. 320.1316, the department shall ~~may~~ withhold renewal of registration or replacement registration of the ~~any~~ motor vehicle identified in ~~owned by the applicant at the time~~ the notice ~~was~~ submitted by the lienor. The lienor must maintain proof that written notice to surrender the vehicle was sent to each registered owner pursuant to s. 320.1316(1). A revalidation sticker or replacement license plate may not be issued for the identified vehicle until the ~~that~~ person's name no longer appears on the list, ~~or until~~ the person presents documentation from the lienor that the vehicle has been surrendered to the lienor, or a court orders the person's name removed from the list as provided in s. 320.1316. The department may ~~shall~~ not withhold an initial registration in connection with an applicant's purchase or lease of a motor vehicle solely because the applicant's name is on the list created by s. 320.1316.

Section 10. Subsection (1) of section 320.083, Florida Statutes, is amended to read:

320.083 Amateur radio operators; special license plates; fees.—

(1) A person who is the owner or lessee of an automobile or truck for private use, a truck weighing not more than 7,999 pounds, or a recreational vehicle as specified in s. 320.08(9)(c) or (d), which is not used for hire or commercial use; who is a resident of the state; and who holds a valid official amateur radio station license recognized ~~issued~~ by the Federal Communications Commission shall be issued a special license plate upon application, accompanied by proof of ownership of such radio station license, and payment of the following tax and fees:

(a) The license tax required for the vehicle, as prescribed by s. 320.08(2), (3)(a), (b), or (c), (4)(a), (b), (c), (d), (e), or (f), or (9); and

(b) An initial additional fee of $5, and an additional fee of $1.50 thereafter.

Section 11. Section 320.1316, Florida Statutes, is amended to read:

320.1316 Failure to surrender vehicle or vessel.—

(1) Upon receipt from a lienor who claims a lien on a vehicle pursuant to s. 319.27 by the Department of Highway Safety and Motor Vehicles of written notice to surrender a vehicle or vessel that has been disposed of, concealed, removed, or destroyed by the lienee, the department shall place the name of the registered owner of that vehicle on the list of those persons who may not be issued a license plate, revalidation sticker, or replacement license plate ~~for any motor vehicle under s. 320.03(8) owned by the licnee at the time the notice~~

~~was given by the lienor~~. Pursuant to s. 320.03(8), the department may not issue a license plate or revalidation sticker for the vehicle or vessel owned by the lienee which is identified in the claim by the lienor. If the vehicle is owned jointly ~~by more than one person~~, the name of each registered owner shall be placed on the list.

(2) The notice to surrender the vehicle shall be signed under oath by the lienor and submitted on forms developed by the department, which must include:

(a) The name, address, and telephone number of the lienor.

(b) The name of the registered owner of the vehicle and the address to which the lienor provided notice to surrender the vehicle to the registered owner.

(c) A general description of the vehicle, including its color, make, model, body style, and year.

(d) The vehicle identification number, registration license plate number, if known, or other identification number, as applicable.

(3) The registered owner of the vehicle may dispute a notice to surrender the vehicle or his or her inclusion on the list of those persons who may not be issued a license plate, revalidation sticker, or replacement license plate under s. 320.03(8) by bringing a civil action in the county in which he or she resides ~~by notifying the department of the dispute in writing on forms provided by the department and presenting proof that the vehicle was sold to a motor vehicle dealer licensed under s. 320.27, a mobile home dealer licensed under s. 320.77, or a recreational vehicle dealer licensed under s. 320.771~~.

(4) In an action brought pursuant to subsection (3), the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

petitioner is entitled to the summary procedure specified in s. 51.011, and the court shall advance the cause on its calendar if requested by the petitioner.

(5) At a hearing challenging the refusal to issue a license plate, revalidation sticker, or replacement license plate under s. 320.03(8), the court shall first determine whether the lienor has a recorded lien on the vehicle or vessel and whether the lienor properly made a demand for the surrender of the vehicle or vessel in accordance with this section. If the court determines that the lien was recorded and that such a demand was properly made, the court shall determine whether good cause exists for the lienee's failure to surrender the vehicle or vessel. As used in this section, the term "good cause" is limited to proof that:

(a) The vehicle that was the subject of the demand for surrender was traded in to a licensed motor vehicle dealer before the date of the surrender demand;

(b) The lien giving rise to the inclusion on the list has been paid in full or otherwise satisfied;

(c) There is ongoing litigation relating to the validity or enforceability of the lien;

(d) The petitioner was in compliance with all of his or her contractual obligations with the lienholder at the time of the demand for surrender;

(e) The vehicle or vessel was reported to law enforcement as stolen by the registered owner of the vehicle or vessel before the demand for surrender; or

(f) The petitioner no longer has possession of the vehicle or vessel, and the loss of possession occurred pursuant to

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

operation of law. If the petitioner's loss of possession did not occur pursuant to operation of law, the fact that a third party has physical possession of the vehicle or vessel does not constitute good cause for the failure to surrender the vehicle or vessel.

(6) If the petitioner establishes good cause for his or her failure to surrender the vehicle or vessel, the court shall enter an order removing the petitioner's name from the list of those persons who may not be issued a license plate, revalidation sticker, or replacement license plate under s. 320.03(8) and shall award the petitioner reasonable attorney fees and costs actually incurred for the proceeding.

(7) If the court finds that the demand for surrender was properly made by the lienor and the petitioner fails to establish good cause for the failure to surrender the vehicle or vessel, the court shall award the lienor reasonable attorney fees and costs actually incurred for the proceeding.

Section 12. Section 322.032, Florida Statutes, is created to read:

322.032 Digital proof of driver license.—

(1) The department shall begin to review and prepare for the development of a secure and uniform system for issuing an optional digital proof of driver license. The department may contract with one or more private entities to develop a digital proof of driver license system.

(2) The digital proof of driver license developed by the department or by an entity contracted by the department must be in such a format as to allow law enforcement to verify the authenticity of the digital proof of driver license. The

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

department may promulgate rules to ensure valid authentication of digital driver licenses by law enforcement.

(3) A person may not be issued a digital proof of driver license until he or she has satisfied all the requirements of this chapter and has received a physical driver license as provided in this chapter.

(4) A person who:

(a) Manufactures a false digital proof of driver license commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(b) Possesses a false digital proof of driver license commits a misdemeanor of the second degree, punishable as provided in s. 775.082.

Section 13. Section 322.059, Florida Statutes, is amended to read:

322.059 Mandatory surrender of suspended driver ~~driver's~~ license and registration.—A ~~Any~~ person whose driver ~~driver's~~ license or registration has been suspended as provided in s. 322.058 must immediately return his or her driver ~~driver's~~ license and registration to the Department of Highway Safety and Motor Vehicles. The department shall invalidate the digital proof of driver license issued pursuant to s. 322.032 for such person. If such person fails to return his or her driver ~~driver's~~ license or registration, a ~~any~~ law enforcement agent may seize the license or registration while the driver ~~driver's~~ license or registration is suspended.

Section 14. Subsection (1) of section 322.12, Florida Statutes, is amended to read:

322.12 Examination of applicants.—

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(1) It is the intent of the Legislature that each ~~every~~ applicant for an original driver ~~driver's~~ license in this state be required to pass an examination pursuant to this section. However, the department may waive the knowledge, endorsement, and skills tests for an applicant who is otherwise qualified and who surrenders a valid driver ~~driver's~~ license from another state or a province of Canada, or a valid driver ~~driver's~~ license issued by the United States Armed Forces, if the driver applies for a Florida license of an equal or lesser classification. An ~~Any~~ applicant who:

(a) ~~Who~~ Fails to pass the initial knowledge test incurs a $10 fee for each subsequent test. Of the $10 fee, $6 shall be retained by the tax collector if the knowledge test is conducted by the tax collector, and the remaining $4 shall~~, to~~ be deposited into the Highway Safety Operating Trust Fund. All knowledge test fees incurred by an applicant taking the knowledge test with a third-party provider or administered at a state facility shall be deposited into the Highway Safety Operating Trust Fund. ~~Any applicant~~

(b) ~~Who~~ Fails to pass the initial skills test incurs a $20 fee for each subsequent test. Of the $20 fee, $15 shall be retained by the tax collector if the skills test is conducted by the tax collector, and the remaining $5 shall~~, to~~ be deposited into the Highway Safety Operating Trust Fund. All skills test fees incurred by an applicant taking the skills test with a third-party provider or administered at a state facility shall be deposited into the Highway Safety Operating Trust Fund. ~~A person who~~

(c) Seeks to retain a hazardous-materials endorsement,

pursuant to s. 322.57(1)(d), must pass the hazardous-materials test~~,~~ upon surrendering his or her commercial driver ~~driver's~~ license~~,~~ if the person has not taken and passed the hazardous-materials test within 2 years before applying for a commercial driver ~~driver's~~ license in this state.

Section 15. Subsection (1) of section 322.15, Florida Statutes, is amended to read:

322.15 License to be carried and exhibited on demand; fingerprint to be imprinted upon a citation.—

(1) Every licensee shall have his or her driver ~~driver's~~ license, which must be fully legible with no portion of such license faded, altered, mutilated, or defaced, in his or her immediate possession at all times when operating a motor vehicle and shall display the same upon the demand of a law enforcement officer or an authorized representative of the department. A licensee may display digital proof of driver license as provided in s. 322.032 in lieu of a physical driver license.

Section 16. Paragraphs (e) and (f) of subsection (1) of section 322.21, Florida Statutes, are amended to read:

322.21 License fees; procedure for handling and collecting fees.—

(1) Except as otherwise provided herein, the fee for:

(e) A replacement driver license issued pursuant to s. 322.17 is $25. Of this amount, $7 shall be deposited into the Highway Safety Operating Trust Fund or retained by the tax collector if issued by a tax collector that has completed the transition of driver licensing services, and $18 shall be deposited into the General Revenue Fund. ~~Beginning July 1, 2015, or upon completion of the transition of driver license issuance~~

~~services, if the replacement driver license is issued by the tax collector, the tax collector shall retain the $7 that would otherwise be deposited into the Highway Safety Operating Trust Fund and the remaining revenues shall be deposited into the General Revenue Fund.~~

(f) An original, renewal, or replacement identification card issued pursuant to s. 322.051 is $25, except that an applicant who presents evidence satisfactory to the department that he or she is homeless as defined in s. 414.0252(7) or his or her annual income is at or below 100 percent of the federal poverty level is exempt from such fee. Funds collected from ~~these~~ fees for original, renewal, or replacement identification cards shall be distributed as follows:

1. For an original identification card issued pursuant to s. 322.051, the fee ~~is $25. This amount~~ shall be deposited into the General Revenue Fund.

2. For a renewal identification card issued pursuant to s. 322.051 ~~the fee is $25. Of this amount~~, $6 shall be deposited into the Highway Safety Operating Trust Fund, and $19 shall be deposited into the General Revenue Fund.

3. For a replacement identification card issued pursuant to s. 322.051, the fee is $25. Of this amount, $9 shall be deposited into the Highway Safety Operating Trust Fund or retained by the tax collector if issued by a tax collector that has completed the transition of driver licensing services, and $16 shall be deposited into the General Revenue Fund. ~~Beginning July 1, 2015, or upon completion of the transition of the driver license issuance services, if the replacement identification card is issued by the tax collector, the tax collector shall~~

~~retain the $9 that would otherwise be deposited into the Highway Safety Operating Trust Fund and the remaining revenues shall be deposited into the General Revenue Fund.~~

Section 17. Section 337.25, Florida Statutes, is amended to read:

337.25 Acquisition, lease, and disposal of real and personal property.—

(1)(a) The department may purchase, lease, exchange, or otherwise acquire any land, property interests, ~~or~~ buildings, or other improvements, including personal property within such buildings or on such lands, necessary to secure or use ~~utilize~~ transportation rights-of-way for existing, proposed, or anticipated transportation facilities on the State Highway System, on the State Park Road System, in a rail corridor, or in a transportation corridor designated by the department. Such property shall be held in the name of the state.

(b) The department may accept donations of any land, ~~or~~ buildings, or other improvements, including personal property within such buildings or on such lands with or without such conditions, reservations, or reverter provisions as are acceptable to the department. Such donations may be used as transportation rights-of-way or to secure or use ~~utilize~~ transportation rights-of-way for existing, proposed, or anticipated transportation facilities on the State Highway System, on the State Park Road System, or in a transportation corridor designated by the department.

(c) If ~~When~~ lands, buildings, or other improvements are needed for transportation purposes, but are held by a federal, state, or local governmental entity and used ~~utilized~~ for public

purposes other than transportation, the department may compensate the entity for such properties by providing functionally equivalent replacement facilities. The provision ~~providing~~ of replacement facilities under this subsection may only be undertaken with the agreement of the governmental entity affected.

(d) The department may contract pursuant to s. 287.055 for auction services used in the conveyance of real or personal property or the conveyance of leasehold interests under subsections (4) and (5). The contract may allow for the contractor to retain a portion of the proceeds as compensation for the contractor's services.

(2) A complete inventory shall be made of all real or personal property immediately upon possession or acquisition. Such inventory must ~~shall~~ include ~~an itemized listing of all appliances, fixtures, and other severable items;~~ a statement of the location or site of each piece of realty, structure, or severable item~~; and the serial number assigned to each~~. Copies of each inventory shall be filed in the district office in which the property is located. Such inventory shall be carried forward to show the final disposition of each item of property, both real and personal.

(3) The inventory of real property that ~~which~~ was acquired by the state after December 31, 1988, that ~~which~~ has been owned by the state for 10 or more years, and that ~~which~~ is not within a transportation corridor or within the right-of-way of a transportation facility shall be evaluated to determine the necessity for retaining the property. If the property is not needed for the construction, operation, and maintenance of a

transportation facility~~,~~ or is not located within a transportation corridor, the department may dispose of the property pursuant to subsection (4).

(4) The department may convey ~~sell~~, in the name of the state, any land, building, or other property, real or personal, which was acquired under ~~the provisions of~~ subsection (1) and which the department has determined is not needed for the construction, operation, and maintenance of a transportation facility. ~~With the exception of any parcel governed by paragraph (c), paragraph (d), paragraph (f), paragraph (g), or paragraph (i), the department shall afford first right of refusal to the local government in the jurisdiction of which the parcel is situated.~~ When such a determination has been made, property may be disposed of through negotiations, sealed competitive bids, auctions, or any other means the department deems to be in its best interest, with due advertisement for property valued by the department at greater than $10,000. A sale may not occur at a price less than the department's current estimate of value, except as provided in paragraphs (a)-(d). The department may afford a right of first refusal to the local government or other political subdivision in the jurisdiction in which the parcel is situated, except in a conveyance transacted under paragraph (a), paragraph (c), or paragraph (e). ~~in the following manner:~~

(a) If the ~~value of the~~ property has been donated to the state for transportation purposes and a transportation facility has not been constructed for at least 5 years, plans have not been prepared for the construction of such facility, and the property is not located in a transportation corridor, the governmental entity may authorize reconveyance of the donated

property for no consideration to the original donor or the donor's heirs, successors, assigns, or representatives ~~is $10,000 or less as determined by department estimate, the department may negotiate the sale~~.

(b) If ~~the value of~~ the property is to be used for a public purpose, the property may be conveyed without consideration to a governmental entity ~~exceeds $10,000 as determined by department estimate, such property may be sold to the highest bidder through receipt of sealed competitive bids, after due advertisement, or by public auction held at the site of the improvement which is being sold~~.

(c) If the property was originally acquired specifically to provide replacement housing for persons displaced by transportation projects, the department may negotiate for the sale of such property as replacement housing. As compensation, the state shall receive at least its investment in such property or the department's current estimate of value, whichever is lower. It is expressly intended that this benefit be extended only to persons actually displaced by the project. Dispositions to any other person must be for at least the department's current estimate of value~~, in the discretion of the department, public sale would be inequitable, properties may be sold by negotiation to the owner holding title to the property abutting the property to be sold, provided such sale is at a negotiated price not less than fair market value as determined by an independent appraisal, the cost of which shall be paid by the owner of the abutting land. If negotiations do not result in the sale of the property to the owner of the abutting land and the property is sold to someone else, the cost of the independent~~

~~appraisal shall be borne by the purchaser; and the owner of the abutting land shall have the cost of the appraisal refunded to him or her. If, however, no purchase takes place, the owner of the abutting land shall forfeit the sum paid by him or her for the independent appraisal. If, due to action of the department, the property is removed from eligibility for sale, the cost of any appraisal prepared shall be refunded to the owner of the abutting land~~.

(d) If the department determines that the property requires significant costs to be incurred or that continued ownership of the property exposes the department to significant liability risks, the department may use the projected maintenance costs over the next 10 years to offset the property's value in establishing a value for disposal of the property, even if that value is zero ~~property acquired for use as a borrow pit is no longer needed, the department may sell such property to the owner of the parcel of abutting land from which the borrow pit was originally acquired, provided the sale is at a negotiated price not less than fair market value as determined by an independent appraisal, the cost of which shall be paid by the owner of such abutting land~~.

(e) If, at the discretion of the department, a sale to a person other than an abutting property owner would be inequitable, the property may be sold to the abutting owner for the department's current estimate of value ~~the department begins the process for disposing of the property on its own initiative, either by negotiation under the provisions of paragraph (a), paragraph (c), paragraph (d), or paragraph (i), or by receipt of sealed competitive bids or public auction under the provisions~~

~~of paragraph (b) or paragraph (i), a department staff appraiser may determine the fair market value of the property by an appraisal~~.

~~(f) Any property which was acquired by a county or by the department using constitutional gas tax funds for the purpose of a right-of-way or borrow pit for a road on the State Highway System, State Park Road System, or county road system and which is no longer used or needed by the department may be conveyed without consideration to that county. The county may then sell such surplus property upon receipt of competitive bids in the same manner prescribed in this section.~~

~~(g) If a property has been donated to the state for transportation purposes and the facility has not been constructed for a period of at least 5 years and no plans have been prepared for the construction of such facility and the property is not located in a transportation corridor, the governmental entity may authorize reconveyance of the donated property for no consideration to the original donor or the donor's heirs, successors, assigns, or representatives.~~

~~(h) If property is to be used for a public purpose, the property may be conveyed without consideration to a governmental entity.~~

~~(i) If property was originally acquired specifically to provide replacement housing for persons displaced by transportation projects, the department may negotiate for the sale of such property as replacement housing. As compensation, the state shall receive no less than its investment in such properties or fair market value, whichever is lower. It is expressly intended that this benefit be extended only to those~~

~~persons actually displaced by such project. Dispositions to any other persons must be for fair market value.~~

~~(j) If the department determines that the property will require significant costs to be incurred or that continued ownership of the property exposes the department to significant liability risks, the department may use the projected maintenance costs over the next 5 years to offset the market value in establishing a value for disposal of the property, even if that value is zero.~~

(5) The department may convey a leasehold interest for commercial or other purposes, in the name of the state, to any land, building, or other property, real or personal, which was acquired under ~~the provisions of~~ subsection (1). However, a lease may not be entered into at a price less than the department's current estimate of value. The department's estimate of value shall be prepared in accordance with department procedures, guidelines, and rules for valuation of real property, the cost of which shall be paid by the party seeking the lease of the property.

(a) A lease may be through negotiations, sealed competitive bids, auctions, or any other means the department deems to be in its best interest ~~The department may negotiate such a lease at the prevailing market value with the owner from whom the property was acquired; with the holders of leasehold estates existing at the time of the department's acquisition; or, if public bidding would be inequitable, with the owner holding title to privately owned abutting property, if reasonable notice is provided to all other owners of abutting property~~. The department may allow an outdoor advertising sign to remain on

the property acquired~~,~~ or be relocated on department property, and such sign is ~~shall~~ not ~~be considered~~ a nonconforming sign pursuant to chapter 479.

(b) If, at the discretion of the department, a lease to a person other than an abutting property owner or tenant with a leasehold interest in the abutting property would be inequitable, the property may be leased to the abutting owner or tenant for at least the department's current estimate of value ~~All other leases shall be by competitive bid~~.

(c) A ~~No~~ lease signed pursuant to paragraph (a) may not ~~or paragraph (b) shall~~ be for ~~a period of~~ more than 5 years; however, the department may renegotiate or extend such a lease for an additional ~~term of~~ 5 years as the department deems appropriate ~~without rebidding~~.

(d) Each lease shall provide that, unless otherwise directed by the lessor, any improvements made to the property during ~~the term of~~ the lease shall be removed at the lessee's expense.

(e) If property is to be used for a public purpose, ~~including a fair, art show, or other educational, cultural, or fundraising activity,~~ the property may be leased without consideration to a governmental entity ~~or school board~~. A lease for a public purpose is exempt from the term limits in paragraph (c).

(f) Paragraphs (c) and (e) ~~(d)~~ do not apply to leases entered into pursuant to s. 260.0161(3), except as provided in such a lease.

(g) A ~~No~~ lease executed under this subsection may not be used ~~utilized~~ by the lessee to establish the ~~4 years'~~ standing

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

required under ~~by~~ s. 73.071(3)(b) if the business had not been established for the specified number of ~~4~~ years on the date title passed to the department.

(h) The department may enter into a long-term lease without compensation with a public port listed in s. 403.021(9)(b) for rail corridors used for the operation of a short-line railroad to the port.

(6) ~~Nothing in~~ This chapter does not prevent ~~prevents~~ the joint use of right-of-way for alternative modes of transportation if~~; provided that~~ the joint use does not impair the integrity and safety of the transportation facility.

(7) The department shall prepare the estimate of value provided under subsection (4) in accordance with department procedures, guidelines, and rules for valuation of real property. If the value of the property is greater than $50,000, as determined by the department estimate, the sale must be at a negotiated price of at least the estimate of value as determined by an appraisal prepared in accordance with department procedures, guidelines, and rules for valuation of real property, the cost of which shall be paid by the party seeking the purchase of the property. If the estimated value is $50,000 or less, the department may use a department staff appraiser or obtain an independent appraisal ~~required by paragraphs (4)(c) and (d) shall be prepared in accordance with department guidelines and rules by an independent appraiser who has been certified by the department. If federal funds were used in the acquisition of the property, the appraisal shall also be subject to the approval of the Federal Highway Administration.~~

(8) As used in this section, the term ~~A~~ "due advertisement"

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

means ~~under this section is~~ an advertisement in a newspaper of general circulation in the area of the improvements of at least ~~not less than~~ 14 calendar days before ~~prior to~~ the date of the receipt of bids or the date on which a public auction is to be held.

(9) The department, with the approval of the Chief Financial Officer, may ~~is authorized to~~ disburse state funds for real estate closings in a manner consistent with good business practices and in a manner minimizing costs and risks to the state.

(10) The department may ~~is authorized to~~ purchase title insurance if ~~in those instances where~~ it determines ~~is determined~~ that such insurance is necessary to protect the public's investment in property being acquired for transportation purposes. The department shall adopt procedures to be followed in making the determination to purchase title insurance for a particular parcel or group of parcels which, at a minimum, shall specify ~~set forth~~ criteria that ~~which~~ the parcels must meet.

(11) This section does not modify the requirements of s. 73.013.

Section 18. Subsection (2) of section 337.251, Florida Statutes, is amended, present subsections (3) through (10) of that section are redesignated as subsections (4) through (11), respectively, and a new subsection (3) is added to that section, to read:

337.251 Lease of property for joint public-private development and areas above or below department property.—

(2) The department may request proposals for the lease of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

such property or, if the department receives a proposal for ~~to negotiate~~ a lease of a particular department property which it desires to consider, the department ~~it~~ shall publish a notice in a newspaper of general circulation at least once a week for 2 weeks~~,~~ stating that it has received the proposal and will accept~~, for 60 days after the date of publication,~~ other proposals for lease of such property for 120 days after the date of publication ~~use of the space~~. A copy of the notice must be mailed to each local government in the affected area. The department shall establish by rule an application fee for the submission of proposals pursuant to this section. The fee must be sufficient to pay the anticipated costs of evaluating the proposals. The department may engage the services of private consultants to assist in the evaluations. Before approval, the department shall determine that the proposed lease:

(a) Is in the public's best interest;

(b) Does not require that state funds be used; and

(c) Has adequate safeguards in place to ensure that additional costs are not borne and service disruptions are not experienced by the traveling public and residents of the state in the event of default by the private lessee or upon termination or expiration of the lease.

(3) The department shall provide an independent analysis of a proposed lease which demonstrates the cost-effectiveness and overall public benefit at the following times:

(a) Before moving forward with the procurement; and

(b) Before awarding the contract if the procurement moves forward.

Section 19. Paragraphs (a) and (b) of subsection (3),

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

paragraph (a) of subsection (4), and paragraph (c) of subsection (11) of section 339.175, Florida Statutes, are amended to read:

339.175 Metropolitan planning organization.—

(3) VOTING MEMBERSHIP.—

(a) The voting membership of an M.P.O. shall consist of at least ~~not fewer than~~ 5 but not ~~or~~ more than 25 ~~19~~ apportioned members, with the exact number ~~to be~~ determined on an equitable geographic-population ratio basis ~~by the Governor~~, based on an agreement among the affected units of general-purpose local government and the Governor, as required by federal ~~rules and~~ regulations. ~~The Governor,~~ In accordance with 23 U.S.C. s. 134, the Governor may also allow ~~provide for~~ M.P.O. members who represent municipalities to alternate with representatives from other municipalities within the metropolitan planning area which ~~that~~ do not have members on the M.P.O. With the exception of instances in which all of the county commissioners in a single-county M.P.O. are members of the M.P.O. governing board, county commissioners ~~commission members~~ shall compose at least ~~not less than~~ one-third of the M.P.O. governing board membership. A multicounty M.P.O. may satisfy this requirement by any combination of county commissioners from each of the counties constituting the M.P.O.~~, except for an M.P.O. with more than 15 members located in a county with a 5-member county commission or an M.P.O. with 19 members located in a county with no more than 6 county commissioners, in which case county commission members may compose less than one-third percent of the M.P.O. membership, but all county commissioners must be members. All~~ Voting members shall be elected officials of general-purpose local governments, one of whom may represent a group of general-purpose local governments through an entity created by an M.P.O. for that purpose. ~~except that~~ An M.P.O. may include, as part of its apportioned voting members, a member of a statutorily authorized planning board, an official of an agency that operates or administers a major mode of transportation, or an official of Space Florida. As used in this section, the term "elected officials of a general-purpose local government" excludes ~~shall exclude~~ constitutional officers, including sheriffs, tax collectors, supervisors of elections, property appraisers, clerks of the court, and similar types of officials. County commissioners shall compose not less than 20 percent of the M.P.O. membership if an official of an agency that operates or administers a major mode of transportation has been appointed to an M.P.O.

(b) In metropolitan areas in which authorities or other agencies have been or may be created by law to perform transportation functions and are or will be performing transportation functions that are not under the jurisdiction of a general-purpose local government represented on the M.P.O., such authorities or other agencies may ~~they shall~~ be provided voting membership on the M.P.O. In all other M.P.O.s in which ~~M.P.O.'s where~~ transportation authorities or agencies are to be represented by elected officials from general-purpose local governments, the M.P.O. shall establish a process by which the collective interests of such authorities or other agencies are expressed and conveyed.

(4) APPORTIONMENT.—

(a) Each M.P.O. shall review the composition of its membership in conjunction with the decennial census, as prepared

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

by the United States Department of Commerce, Bureau of the Census, and with the agreement of the Governor and the affected general-purpose local government units that constitute the existing M.P.O., reapportion the membership as necessary to comply with subsection (3) ~~The Governor shall, with the agreement of the affected units of general-purpose local government as required by federal rules and regulations, apportion the membership on the applicable M.P.O. among the various governmental entities within the area~~. At the request of a majority of the affected units of general-purpose local government comprising an M.P.O., the Governor and a majority of units of general-purpose local government serving on an M.P.O. shall cooperatively agree upon and prescribe who may serve as an alternate member and a method for appointing alternate members, who may vote at any M.P.O. meeting that he or she ~~an alternate member~~ attends in place of a regular member. The method must ~~shall~~ be set forth as a part of the interlocal agreement describing the M.P.O. ~~M.P.O.'s~~ membership or in the ~~M.P.O.'s~~ operating procedures and bylaws of the M.P.O. The governmental entity so designated shall appoint the appropriate number of members to the M.P.O. from eligible officials. Representatives of the department shall serve as nonvoting advisers to the M.P.O. governing board. Additional nonvoting advisers may be appointed by the M.P.O. as deemed necessary; however, to the maximum extent feasible, each M.P.O. shall seek to appoint nonvoting representatives of various multimodal forms of transportation not otherwise represented by voting members of the M.P.O. An M.P.O. shall appoint nonvoting advisers representing major military installations located within the

jurisdictional boundaries of the M.P.O. upon the request of the aforesaid major military installations and subject to the agreement of the M.P.O. All nonvoting advisers may attend and participate fully in governing board meetings but may not vote or be members of the governing board. ~~The Governor shall review the composition of the M.P.O. membership in conjunction with the decennial census as prepared by the United States Department of Commerce, Bureau of the Census, and reapportion it as necessary to comply with subsection (3).~~

(11) METROPOLITAN PLANNING ORGANIZATION ADVISORY COUNCIL.—

(c) The powers and duties of the Metropolitan Planning Organization Advisory Council are to:

1. Enter into contracts with individuals, private corporations, and public agencies.

2. Acquire, own, operate, maintain, sell, or lease personal property essential for the conduct of business.

3. Accept funds, grants, assistance, gifts, or bequests from private, local, state, or federal sources.

4. Establish bylaws by action of its governing board providing procedural rules to guide its proceedings and consideration of matters before the council, or, alternatively, ~~and~~ adopt rules pursuant to ss. 120.536(1) and 120.54 to implement provisions of law conferring powers or duties upon it.

5. Assist M.P.O.s ~~M.P.O.'s~~ in carrying out the urbanized area transportation planning process by serving as the principal forum for collective policy discussion pursuant to law.

6. Serve as a clearinghouse for review and comment by M.P.O.s ~~M.P.O.'s~~ on the Florida Transportation Plan and on other issues required to comply with federal or state law in carrying

out the urbanized area transportation and systematic planning processes instituted pursuant to s. 339.155.

7. Employ an executive director and such other staff as necessary to perform adequately the functions of the council, within budgetary limitations. The executive director and staff are exempt from part II of chapter 110 and serve at the direction and control of the council. The council is assigned to the Office of the Secretary of the Department of Transportation for fiscal and accountability purposes, but it shall otherwise function independently of the control and direction of the department.

8. Adopt an agency strategic plan that prioritizes steps ~~provides the priority directions~~ the agency will take to carry out its mission within the context of the state comprehensive plan and any other statutory mandates and directives ~~directions given to the agency~~.

Section 20. Paragraph (a) of subsection (1) and subsections (4) and (5) of section 339.2821, Florida Statutes, are amended to read:

339.2821 Economic development transportation projects.—

(1)(a) The department, in consultation with the Department of Economic Opportunity and Enterprise Florida, Inc., may make and approve expenditures and contract with the appropriate governmental body for the direct costs of transportation projects. The Department of Economic Opportunity and the Department of Environmental Protection may formally review and comment on recommended transportation projects, although the department has final approval authority for any project authorized under this section.

(4) A contract between the department and a governmental body for a transportation project must:

(a) Specify that the transportation project is for the construction of a new or expanding business and specify the number of full-time permanent jobs that will result from the project.

(b) Identify the governmental body and require that the governmental body award the construction of the particular transportation project to the lowest and best bidder in accordance with applicable state and federal statutes or rules unless the transportation project can be constructed using existing local governmental employees within the contract period specified by the department.

(c) Require that the governmental body provide the department with ~~quarterly~~ progress reports. Each ~~quarterly~~ progress report must contain:

1. A narrative description of the work completed and whether the work is proceeding according to the transportation project schedule;

2. A description of each change order executed by the governmental body;

3. A budget summary detailing planned expenditures compared to actual expenditures; and

4. The identity of each small or minority business used as a contractor or subcontractor.

(d) Require that the governmental body make and maintain records in accordance with accepted governmental accounting principles and practices for each progress payment made for work performed in connection with the transportation project, each

change order executed by the governmental body, and each payment made pursuant to a change order. The records are subject to financial audit as required by law.

(e) Require that the governmental body, upon completion and acceptance of the transportation project, certify to the department that the transportation project has been completed in compliance with the terms and conditions of the contract between the department and the governmental body and meets the minimum construction standards established in accordance with s. 336.045.

(f) Specify that ~~the department transfer~~ funds will not be transferred to the governmental body unless construction has begun on the facility of the ~~not more often than quarterly, upon receipt of a request for funds from the governmental body and consistent with the needs of the transportation project. The governmental body shall expend funds received from the department in a timely manner. The department may not transfer funds unless construction has begun on the facility of a~~ business on whose behalf the award was made. The grant award shall be terminated if construction of the transportation project does not begin within 4 years after the date of the initial grant award ~~A contract totaling less than $200,000 is exempt from the transfer requirement~~.

(g) Require that funds be used only on a transportation project that has been properly reviewed and approved in accordance with the criteria provided ~~set forth~~ in this section.

(h) Require that the governing board of the governmental body adopt a resolution accepting future maintenance and other attendant costs occurring after completion of the transportation

project if the transportation project is constructed on a county or municipal system.

(5) For purposes of this section, Space Florida may serve as the governmental body or as the contracting agency for a ~~transportation~~ project within a spaceport territory as defined by s. 331.304.

Section 21. Subsection (5) of section 526.141, Florida Statutes, is amended to read:

526.141 Self-service gasoline stations; attendants; regulations.—

(5)(a) Every full-service gasoline station offering self-service at a lesser cost shall require an attendant employed by the station to dispense gasoline from the self-service portion of the station to any motor vehicle properly displaying an exemption parking permit as provided in s. 316.1958 or s. 320.0848 or a license plate issued pursuant to s. 320.084, s. 320.0842, s. 320.0843, or s. 320.0845 when the person to whom such permit has been issued is the operator of the vehicle and such service is requested. Such stations shall prominently display a decal no larger than 8 square inches on the front of all self-service pumps clearly stating the requirements of this subsection and the penalties applicable to violations of this subsection. The Department of Agriculture and Consumer Services shall enforce this requirement.

(b) By July 1, 2016, a full-service gasoline station offering self-service at a lesser cost shall prominently display, in addition to the decal required under paragraph (a), a decal that is blue, is at least 15 square inches in size, and clearly displays the international symbol of accessibility shown

in s. 320.0842, the telephone number of the station, and the words "Call for Assistance." The Department of Agriculture and Consumer Services shall adopt rules to implement and enforce this paragraph. This paragraph preempts and supersedes local government laws and regulations pertaining to the provision of fueling assistance by a self-service gasoline station to a motor vehicle operator described in paragraph (a).

(c) ~~(b)~~ Violation of paragraph (a) is a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

Section 22. Section 2 of chapter 85-364, Laws of Florida, as amended by section 2 of chapter 95-382, Laws of Florida, is amended to read:

Section 2. All tolls collected shall ~~first~~ be used first for the payment of annual operating and maintenance costs and second to discharge the current bond indebtedness related to the Pinellas Bayway. Thereafter, tolls collected shall be used to establish a reserve construction account to be used, together with interest earned thereon, by the department ~~for the construction of Blind Pass Road, State Road 699 improvements, and~~ for Phase II of the Pinellas Bayway improvements. ~~A portion of the tolls collected shall first be used specifically for the construction of the Blind Pass Road improvements, which improvements consist of widening to four lanes the Blind Pass Road, State Road 699, from 75th Avenue north to the approach of the Blind Pass Bridge, including necessary right-of-way acquisition along said portion of Blind Pass Road, and intersection improvements at 75th Avenue and Blind Pass Road in Pinellas County. Said improvements shall be included in the~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~department's current 5-year work program. Upon completion of the Blind Pass Road improvements, the tolls collected shall be used, together with interest earned thereon, by the department for~~ Phase II of the Pinellas Bayway improvements consists~~, which improvements consist~~ of widening to four lanes the Pinellas Bayway from State Road 679 west to Gulf Boulevard, including necessary approaches, bridges, and avenues of access. Upon completion of the Phase II improvements, the department shall continue to collect tolls on the Pinellas Bayway for purposes of reimbursing the department for all accrued maintenance costs for the Pinellas Bayway.

Section 23. The Department of Highway Safety and Motor Vehicles is directed to develop a plan of action that addresses motor vehicle registration holds placed pursuant to ss. 316.1001, 316.1967, and 318.15, Florida Statutes, for presentation to the Legislature by February 1, 2015. The plan must, at a minimum, include a methodology for applicants whose names have been placed on the list of persons who may not be issued a license plate or revalidation sticker under s. 320.03(8), Florida Statutes, to rectify the cause of the hold through the payment of any outstanding toll, parking ticket, fine, and any other fee at the point of collection of the registration fee.

Section 24. This act shall take effect July 1, 2014.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1292 restructures governance and functionality of online public postsecondary student support services related to libraries, online courses, and online student advising systems.

Specifically, the bill creates the Complete Florida Plus Program (Program) within the Innovation Institute at the University of West Florida and transfers the requirements and responsibilities associated with student support services that are currently administered through the Florida Virtual Campus (FLVC) to the new Program. The bill also establishes the Florida Center for Library Automation (Center) and reassigns the duties and resources regarding online library support services that are currently administered by the FLVC to the new Center. Additionally, the bill renames the Complete Florida Degree Program as the Complete Florida Degree Initiative (Initiative) and restructures the related functions under the new Program.

Senate Bill 2500, the proposed 2014-2015 Senate General Appropriations Bill, appropriates $22.8 million for the Florida Virtual Campus.

The bill takes effect on July 1, 2014.

II. Present Situation:

Complete Florida Degree Program

In 2012, the Legislature established the Complete Florida Degree Program to recruit, recover, and retain the state's adult learners and assist them in completing an associate degree or baccalaureate degree aligned to high-wage, high-skill workforce needs.[1] The program is administered by the University of West Florida (UWF), acting as the lead institution, in coordination with the Florida College System institutions, state universities, and private postsecondary institutions.[2]

The Complete Florida Degree Program must:[3]

- Provide adult learners with a single point of access to information and links to innovative online and accelerated distance learning courses, student and library support services, and electronic resources that will aid them in completing a postsecondary degree.
- Develop and implement an advising and student support system that includes the use of degree completion specialists, is based on best practices and processes, and includes academic and career support services designed specifically for adult learners.
- Use existing or develop new competency-based instructional and evaluation tools to assess prior performance, experience, and education to award college credit and reduce the time required for adults to complete degrees.
- Develop and implement an evaluation process to collect and analyze appropriate data in order to report program effectiveness.
- Develop and implement a statewide student recruitment campaign for the program.
- Identify proposed changes to the statewide computer-assisted student advising system developed by the Florida Virtual Campus (FLVC) to assist adult learners use of the system.
- Use the online admissions application implemented by the FLVC.
- Use the distance learning catalog implemented by the FLVC.

Florida Virtual Campus

In 2012, the Legislature created the FLVC by consolidating the services and resources previously provided by the Florida Distance Learning Consortium, the Florida Higher Education Distance Learning Catalog, FACTS.org, the Florida Center for Library Automation, and the College Center for Library Automation. The FLVC was established to provide access to online student and library support services and to serve as a statewide resource and clearinghouse for public postsecondary education distance learning courses and degree programs.[4]

The primary purposes of the FLVC are to:[5]

- Establish a single library automation system and associated resources and services for all public postsecondary education institutions to use to support their learning, teaching, and research needs.

[1] Section 15, ch. 2012-34, L.O.F.
[2] Section 1006.735(2), F.S.
[3] Section 1006.735(4)-(5), F.S.
[4] Section 14, ch. 2012-134, L.O.F.
[5] Section 1006.73(1), F.S.

- Provide information and access to distance learning courses and degree programs offered by the state's public postsecondary education institutions.
- Coordinate with the Florida College System (FCS) and the State University System (SUS) to identify and provide online academic support services and resources if the multi-institutional provision of such services and resources is more cost or operationally effective.

The FCS and SUS Chancellors exercise joint oversight of the FLVC and establish governance and reporting structures, administrative and operational guidelines and processes, staffing requirements, and the operational budget.[6]

The FLVC must:[7]

- Develop and manage a library information portal and automated library management tools for use by the FCS institutions and state universities.
- Develop and manage a statewide Internet-based catalog of distance learning courses, degree programs, and resources offered by public postsecondary education institutions to assist in the coordination and collaboration of articulation and access.
- Implement a streamlined, automated, online admissions application process for undergraduate transient students.
- Develop and manage a statewide computer-assisted student advising system that will support advising, registering, and certifying students for graduation and include a degree audit and articulation component.
- Coordinate the negotiation of statewide licensing of electronic library resources and preferred pricing agreements, issue purchase orders, and enter into contracts for the acquisition of distance learning resources, student and library support services, electronic resources, and other goods and services necessary to perform its duties.
- Promote and provide recommendations concerning the use and distribution of open-access textbooks and education resources to reduce costs and develop and standardized process for reviewing and approving open-access textbooks.
- Provide appropriate help desk support, training and consultation services to institutions and students using the services and resources of the FLVC.
- Identify and evaluate new technologies and instructional methods that can be used to improve distance learning instruction, student learning, the efficient delivery of student support services, and the overall quality of undergraduate distance learning courses and degree programs.
- Develop and implement a plan, in consultation with the public postsecondary education institutions, which describes the services and resources available through the FLVC to encourage students to use such services and resources.

The Office of Program Policy Analysis and Government Accountability (OPPAGA) reported that the FLVC as made progress toward functioning as a cohesive unit and saved approximately $1.5 million by reducing positions and an additional $116,586 by renegotiating leases. However, the FLVC continues to maintain three separate locations. The Tallahassee lease agreement

[6] Section 1006.73(2), F.S.
[7] Section 1006.73(5), F.S.

obligates the FLVC to pay for 2,000 square feet of space that it does not need. The FLVC maintains an $8 million in reserve balance for which the obligations are unclear.[8]

Additionally, OPPAGA reported that the FLVC has not implemented key legislative priorities and lacks a plan for addressing key issues, such as:[9]

- The FLVC has not taken adequate steps to advertise to students services that are available through the FLVC.
- The FLVC Website is difficult to navigate and use.
- The FLVC advising system is out-of-date and relatively few students use the system.
- The FLVC distance learning catalog is functional but does not have ready access to data that is needed to fully meet the statutory requirements.
- The FCS and state university library systems continue to operate separately.

Licensing Electronic Library Resources

Florida law provides parameters for cost efficient and cost effective licensing of electronic library resources and outlines a process for identifying shared core resources among institutions that must be made available to all public postsecondary education students.[10] The chancellors and vice chancellors of the FCS institutions and state universities must annually report to the Governor and the chairs of the legislative appropriations committee the cost savings realized as a result of the collaborative licensing process.[11]

III. Effect of Proposed Changes:

The bill restructures governance and functionality of online public postsecondary student support services related to libraries, online courses, and online student advising systems.

Specifically, the bill creates the Complete Florida Plus Program (Program) within the Innovation Institute at the University of West Florida (UWF) and transfers the requirements and responsibilities associated with student support services that are currently administered through the FLVC to the new Program. The bill also establishes the Florida Center for Library Automation (Center) and reassigns the duties and resources regarding online library support services that are currently administered by the FLVC to the new Center. Additionally, the bill renames the Complete Florida Degree Program as the Complete Florida Degree Initiative (Initiative) and restructures the related functions under the new Program. The consolidation of duties and resources are intended to strengthen and streamline online services and resources to students pursuing higher education in Florida.

[10] Section 1006.72, F.S.

[11] Section 1006.72(7), F.S.

Complete Florida Plus Program

The bill specifies that the purpose of the Program is to:

- Facilitate degree completion of the state's adult learners through the Initiative.
- Provide information and access to distance learning courses and degree programs offered by the state's public postsecondary institutions.
- Coordinate with the FCS and the SUS to identify and provide online academic support services and resources if the multi-institutional provision of such services and resources is more cost-effective or operationally effective.

The bill repeals section 1006.73 of the Florida Statutes and transfers responsibility regarding implementation of the services and resources that are currently assigned to the FLVC to the Program and requires the Program to:

- Develop and manage a statewide Internet-based catalog of distance learning courses, degree programs, and resources offered by public postsecondary institutions to assist with the coordination and collaboration of articulation and access to postsecondary education.
- Provide a streamlined, automated, online admissions application process for undergraduate transient students who are enrolled in a public postsecondary education institution and who enroll in a course offered by a public postsecondary education institution that is not the students' degree-granting institution.
- Develop and manage a statewide computer-assisted student advising system that will support student advising and registration and certification of students for graduation and include a degree audit and articulation component.
- Identify and evaluate new technologies and instructional methods that can be used to improve distance learning instruction and professional development for faculty, student learning outcomes, student access, the delivery of student support services, the alignment of degrees to career needs, and the overall quality of postsecondary distance learning courses and degree programs.
- Provide appropriate help desk support and training and consultation services to institutions and students using the Program services.
- Coordinate the negotiation of statewide licensing of resources and preferred pricing agreements, issue purchase orders, and execute contracts for the acquisition of distance learning resources, student support services, electronic resources, and other goods and services necessary to perform Program duties.
- Develop and implement a plan, in consultation with the public postsecondary education institutions, which describes the services and resources available through the Program to encourage students to use the Program services and resources.

The bill requires transfer of all records, personnel, property, existing contracts, and unexpended balance of appropriations, allocations, grants, and other funds of the FLVC to UWF. The bill also designates UWF as the successor in interest to the FLVC and be responsible for the provision of all authorized services.

Florida Center for Library Automation

The bill establishes the Center to provide a single library automation system and related resources and services that all public postsecondary institutions must use to support the teaching, learning, and research needs of students and faculty.

The Center must:

- Develop and manage a library information portal and automated library management tools for use by the FCS institutions and state universities.
- Coordinate the negotiation of statewide licensing of electronic library resources and preferred pricing agreements, issue purchase orders, and execute duties of the Center.
- Promote and provide recommendations concerning the use and distribution of open-access textbooks and education resources to reduce costs and work with public postsecondary education institutions to develop a standardized process for the review and approval of open-access textbooks.

The Center must be administered by an executive director who must be accountable to the executive director of UWF's Innovation Institute. The executive director of the Center must:

- Independently exercise all powers, duties, and functions of the Center as prescribed by law.
- Administer the operational requirements of the Center.
- Hire professional and administrative staff necessary to perform the duties of the Center.
- Keep administrative staff to the minimum necessary to administer the duties of the Center.

The bill repeals section 1006.72 of the Florida Statutes regarding licensing electronic library resources and incorporates related provisions into the Center.

The bill adds conforming references to reflect the new Program.

The bill takes effect on July 1, 2014.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

Senate Bill 2500, the proposed 2014-2015 Senate General Appropriations Bill, appropriates $22.8 million for the Florida Virtual Campus.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1006.735, 1007.01, 1009.23, and 1009.24.

This bill creates section 1004.448 of the Florida Statutes.

This bill repeals the following sections of the Florida Statutes: 1006.72 and 1006.73.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Education on March 25, 2014:
The committee substitute differs from SB 1292 in that the committee substitute:

- Creates the Complete Florida Plus Program (Program) within the Innovation Institute at the University of West Florida and transfers the requirements and responsibilities associated with student support services that are currently administered through the Florida Virtual Campus (FLVC) to the new Program.
- Establishes the Florida Center for Library Automation (Center) and reassigns the duties and resources regarding online library support services that are currently administered by the FLVC to the new Center.
- Renames the Complete Florida Degree Program as the Complete Florida Degree Initiative (Initiative) and restructures the related functions under the new Program.

- Omits the provision regarding adding industry certifications to the list of articulated acceleration mechanisms.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

The Committee on Appropriations (Latvala) recommended the following:

Senate Amendment (with title amendment)

Delete lines 368 - 410
and insert:
Section 6. Paragraphs (c) through (g) of subsection (3) of section 1009.22, Florida Statutes, are amended to read:
1009.22 Workforce education postsecondary student fees.—
(3)
(c) Effective July 1, 2014 ~~2011~~, for programs leading to a career certificate or an applied technology diploma, the

824504

standard tuition shall be $2.33 ~~$2.22~~ per contact hour for residents and nonresidents and the out-of-state fee shall be $6.99 ~~$6.66~~ per contact hour. For adult general education programs, a block tuition of $45 per half year or $30 per term shall be assessed ~~for residents and nonresidents, and the out-of-state fee shall be $135 per half year or $90 per term~~. Each district school board and Florida College System institution board of trustees shall adopt policies and procedures for the collection of and accounting for the expenditure of the block tuition. All funds received from the block tuition shall be used only for adult general education programs. Students enrolled in adult general education programs may not be assessed the fees authorized in subsection (5), subsection (6), or subsection (7).

~~(d) Beginning with the 2008-2009 fiscal year and each year thereafter, the tuition and the out-of-state fee per contact hour shall increase at the beginning of each fall semester at a rate equal to inflation, unless otherwise provided in the General Appropriations Act. The Office of Economic and Demographic Research shall report the rate of inflation to the President of the Senate, the Speaker of the House of Representatives, the Governor, and the State Board of Education each year prior to March 1. For purposes of this paragraph, the rate of inflation shall be defined as the rate of the 12-month percentage change in the Consumer Price Index for All Urban Consumers, U.S. City Average, All Items, or successor reports as reported by the United States Department of Labor, Bureau of Labor Statistics, or its successor for December of the previous year. In the event the percentage change is negative, the tuition and out-of-state fee shall remain at the same level as~~

~~the prior fiscal year.~~

(d) ~~(c)~~ Each district school board and each Florida College System institution board of trustees may adopt tuition and out-of-state fees that may vary no more than 5 percent below and 5 percent above the combined total of the standard tuition and out-of-state fees established in paragraph (c).

(e) ~~(f)~~ The maximum increase in resident tuition for any school district or Florida College System institution during the 2007-2008 fiscal year shall be 5 percent over the tuition charged during the 2006-2007 fiscal year.

(f) ~~(g)~~ The State Board of Education may adopt, by rule, the definitions and procedures that district school boards and Florida College System institution boards of trustees shall use in the calculation of cost borne by students.

Section 7. Subsection (3), paragraph (a) of subsection (16), and subsection (17) of section 1009.23, Florida Statutes, are amended to read:

1009.23 Florida College System institution student fees.—

(3)(a) Effective July 1, 2014 ~~2011~~, for advanced and professional, postsecondary vocational, developmental education, and educator preparation institute programs, the standard tuition shall be $71.98 ~~$68.56~~ per credit hour for residents and nonresidents, and the out-of-state fee shall be $215.94 ~~$205.82~~ per credit hour.

(b) Effective July 1, 2014 ~~2011~~, for baccalaureate degree programs, the following tuition and fee rates shall apply:

1. The tuition shall be $91.79 ~~$87.42~~ per credit hour for students who are residents for tuition purposes.

2. The sum of the tuition and the out-of-state fee per

credit hour for students who are nonresidents for tuition purposes shall be no more than 85 percent of the sum of the tuition and the out-of-state fee at the state university nearest the Florida College System institution.

~~(c) Beginning with the 2008-2009 fiscal year and each year thereafter, the tuition and the out-of-state fee shall increase at the beginning of each fall semester at a rate equal to inflation, unless otherwise provided in the General Appropriations Act. The Office of Economic and Demographic Research shall report the rate of inflation to the President of the Senate, the Speaker of the House of Representatives, the Governor, and the State Board of Education each year prior to March 1. For purposes of this paragraph, the rate of inflation shall be defined as the rate of the 12-month percentage change in the Consumer Price Index for All Urban Consumers, U.S. City Average, All Items, or successor reports as reported by the United States Department of Labor, Bureau of Labor Statistics, or its successor for December of the previous year. In the event the percentage change is negative, the tuition and the out-of-state fee per credit hour shall remain at the same levels as the prior fiscal year.~~

(16)(a) Each Florida College System institution may assess a student who enrolls in a course listed in the distance learning catalog, established pursuant to s. 1006.735 ~~s. 1006.73~~, a per-credit-hour distance learning course user fee. For purposes of assessing this fee, a distance learning course is a course in which at least 80 percent of the direct instruction of the course is delivered using some form of technology when the student and instructor are separated by time

824504

or space, or both.

(17) Each Florida College System institution that accepts transient students, pursuant to s. 1006.735 ~~s. 1006.73~~, may establish a transient student fee not to exceed $5 per course for processing the transient student admissions application.

Section 8. Paragraphs (a), (b), and (e) of subsection (4), paragraph (t) of subsection (14), paragraph (b) of subsection (16), and paragraph (a) of subsection (17) of section 1009.24, Florida Statutes, are amended, to read:

1009.24 State university student fees.—

(4)(a) Effective July 1, 2014 ~~2011~~, the resident undergraduate tuition for lower-level and upper-level coursework shall be $105.07 ~~$103.32~~ per credit hour.

~~(b) Beginning with the 2008-2009 fiscal year and each year thereafter, the resident undergraduate tuition per credit hour shall increase at the beginning of each fall semester at a rate equal to inflation, unless otherwise provided in the General Appropriations Act. The Office of Economic and Demographic Research shall report the rate of inflation to the President of the Senate, the Speaker of the House of Representatives, the Governor, and the Board of Governors each year prior to March 1. For purposes of this paragraph, the rate of inflation shall be defined as the rate of the 12-month percentage change in the Consumer Price Index for All Urban Consumers, U.S. City Average, All Items, or successor reports as reported by the United States Department of Labor, Bureau of Labor Statistics, or its successor for December of the previous year. In the event the percentage change is negative, the resident undergraduate tuition shall remain at the same level as the prior fiscal year.~~

824504

(d) ~~(c)~~ The sum of the activity and service, health, and athletic fees a student is required to pay to register for a course may ~~shall~~ not exceed 40 percent of the tuition established in law or in the General Appropriations Act. No university shall be required to lower any fee in effect on the effective date of this act in order to comply with this subsection. Within the 40 percent cap, universities may not increase the aggregate sum of activity and service, health, and athletic fees more than 5 percent per year~~, or the same percentage increase in tuition authorized under paragraph (b), whichever is greater,~~ unless specifically authorized in law or in the General Appropriations Act. A university may increase its athletic fee to defray the costs associated with changing National Collegiate Athletic Association divisions. Any such increase in the athletic fee may exceed both the 40 percent cap and the 5 percent cap imposed by this subsection. Any such increase must be approved by the athletic fee committee in the process outlined in subsection (12) and may not ~~cannot~~ exceed $2 per credit hour. Notwithstanding ~~the provisions of~~ ss. 1009.534, 1009.535, and 1009.536, that portion of any increase in an athletic fee pursuant to this subsection which ~~that~~ causes the sum of the activity and service, health, and athletic fees to exceed the 40 percent cap or the annual increase in such fees to exceed the 5 percent cap may ~~shall~~ not be included in calculating the amount a student receives for a Florida Academic Scholars award, a Florida Medallion Scholars award, or a Florida Gold Seal Vocational Scholars award. Notwithstanding this paragraph and subject to approval by the board of trustees, each state university may ~~is authorized to~~ exceed the 5 percent ~~5-~~

824504

~~percent~~ cap on the annual increase to the aggregate sum of activity and service, health, and athletic fees for the 2010-2011 fiscal year. Any such increase may ~~shall~~ not exceed 15 percent or the amount required to reach the 2009-2010 fiscal year statewide average for the aggregate sum of activity and service, health, and athletic fees at the main campuses, whichever is greater. The aggregate sum of the activity and service, health, and athletic fees may ~~shall~~ not exceed 40 percent of tuition. Any increase in the activity and service fee, health fee, or athletic fee must be approved by the appropriate fee committee pursuant to subsection (10), subsection (11), or subsection (12).

(14) Except as otherwise provided in subsection (15), each university board of trustees is authorized to establish the following fees:

(t) A transient student fee that may not exceed $5 per course for accepting a transient student and processing the transient student admissions application pursuant to s. 1006.735 ~~s. 1006.73~~.

With the exception of housing rental rates and except as otherwise provided, fees assessed pursuant to paragraphs (h)-(s) shall be based on reasonable costs of services. The Board of Governors shall adopt regulations and timetables necessary to implement the fees and fines authorized under this subsection. The fees assessed under this subsection may be used for debt only as authorized under s. 1010.62.

(16) Each university board of trustees may establish a tuition differential for undergraduate courses upon receipt of

824504

approval from the Board of Governors. The tuition differential shall promote improvements in the quality of undergraduate education and shall provide financial aid to undergraduate students who exhibit financial need.

(b) Each tuition differential is subject to the following conditions:

1. The tuition differential may be assessed on one or more undergraduate courses or on all undergraduate courses at a state university.

2. The tuition differential may vary by course or courses, campus or center location, and by institution. Each university board of trustees shall strive to maintain and increase enrollment in degree programs related to math, science, high technology, and other state or regional high-need fields when establishing tuition differentials by course.

3. For each state university that is designated as a preeminent state research university by the Board of Governors, pursuant to s. 1001.7065, ~~that has total research and development expenditures for all fields of at least $100 million per year as reported annually to the National Science Foundation,~~ the aggregate sum of tuition and the tuition differential may ~~not~~ be increased by no more than 6 ~~15~~ percent of the total charged for the aggregate sum of these fees in the preceding fiscal year if the university meets or exceeds each performance standard target for that university established annually by the Board of Governors for the following performance standards, each amounting to no more than a 2 percent increase in tuition differential:

a. Increase in the 6-year graduation rate for full-time,

first-time-in-college students, as reported annually to the Integrated Postsecondary Education Data System;

b. Increase in the total annual research expenditures; and

c. Increase in the total patents awarded by the United States Patent and Trademark Office for the most recent years. ~~For each state university that has total research and development expenditures for all fields of less than $100 million per year as reported annually to the National Science Foundation, the aggregate sum of tuition and the tuition differential may not be increased by more than 15 percent of the total charged for the aggregate sum of these fees in the preceding fiscal year.~~

4. The aggregate sum of undergraduate tuition and fees per credit hour, including the tuition differential, may not exceed the national average of undergraduate tuition and fees at 4-year degree-granting public postsecondary educational institutions.

5. The tuition differential shall not be included in any award under the Florida Bright Futures Scholarship Program established pursuant to ss. 1009.53-1009.538.

6. Beneficiaries having prepaid tuition contracts pursuant to s. 1009.98(2)(b) which were in effect on July 1, 2007, and which remain in effect, are exempt from the payment of the tuition differential.

7. The tuition differential may not be charged to any student who was in attendance at the university before July 1, 2007, and who maintains continuous enrollment.

8. The tuition differential may be waived by the university for students who meet the eligibility requirements for the Florida public student assistance grant established in s.

1009.50.

9. Subject to approval by the Board of Governors, the tuition differential authorized pursuant to this subsection may take effect with the 2009 fall term.

(17)(a) A state university may assess a student who enrolls in a course listed in the distance learning catalog, established pursuant to s. 1006.735 ~~s. 1006.73~~, a per-credit-hour distance learning course fee. For purposes of assessing this fee, a distance learning course is a course in which at least 80 percent of the direct instruction of the course is delivered using some form of technology when the student and instructor are separated by time or space, or both.

Section 9. Subsection (8) of section 1009.26, Florida Statutes, is amended, and subsection (12) is added to that section, to read:

1009.26 Fee waivers.—

(8) A state university, a ~~or~~ Florida College System institution, a career center operated by a school district under s. 1001.44, or a charter technical career center shall waive undergraduate tuition for each recipient of a Purple Heart or another combat decoration superior in precedence who:

(a) Is enrolled as a full-time, part-time, or summer-school student in an undergraduate program that terminates in a degree or certificate;

(b) Is currently, and was at the time of the military action that resulted in the awarding of the Purple Heart or other combat decoration superior in precedence, a resident of this state; and

(c) Submits to the state university or the Florida College

System institution the DD-214 form issued at the time of separation from service as documentation that the student has received a Purple Heart or another combat decoration superior in precedence. If the DD-214 is not available, other documentation may be acceptable if recognized by the United States Department of Defense or the United States Department of Veterans Affairs as documenting the award.

Such a waiver for a Purple Heart recipient or recipient of another combat decoration superior in precedence shall be applicable for 110 percent of the number of required credit hours of the degree or certificate program for which the student is enrolled.

(12)(a) A state university, a Florida College System institution, a career center operated by a school district under s. 1001.44, or a charter technical career center shall waive out-of-state fees for students, including but not limited to students who are undocumented for federal immigration purposes, who meet the following conditions:

1. Attended a secondary school in this state, which is not the Florida Virtual School Global, for 3 consecutive years immediately before graduating from a high school in this state;

2. Enrolled in a degree or certificate program at an institution of higher education within 24 months after high school graduation; and

3. Submitted an official Florida high school transcript as evidence of attendance and graduation.

(b) Tuition and fees charged to a student who qualifies for the out-of-state fee waiver under this subsection may not exceed

824504

the tuition and fees charged to a resident student. The waiver is applicable for 110 percent of the required credit hours of the degree or certificate program for which the student is enrolled. Each state university, Florida College System institution, career center operated by a school district under s. 1001.44, and charter technical career center shall report to the Board of Governors and the State Board of Education, as appropriate, the number and value of all fee waivers granted annually under this subsection. The Board of Governors for the state universities and the State Board of Education for Florida College System institutions, career centers operated by a school district under s. 1001.44, and charter technical career centers shall annually certify within their legislative budget requests that the percentage of resident students enrolled systemwide is at least the same as the 2013-2014 resident student enrollment systemwide.

(c) A student who is granted an out-of-state fee waiver under this subsection is not eligible for state financial aid under part III of chapter 1009.

Section 10. Subsection (10) of section 1009.98, Florida Statutes, is amended to read:

1009.98 Stanley G. Tate Florida Prepaid College Program.—

(10) PAYMENTS ON BEHALF OF QUALIFIED BENEFICIARIES.—

(a) As used in this subsection, the term:

1. "Actuarial reserve" means the amount by which the expected value of the assets exceeds ~~exceed~~ the expected value of the liabilities of the trust fund.

2. "Dormitory fees" means the fees included under advance payment contracts pursuant to paragraph (2)(d).

3. "Fiscal year" means the fiscal year of the state pursuant to s. 215.01.

4. "Local fees" means the fees covered by an advance payment contract provided pursuant to subparagraph (2)(b)2.

5. "Tuition differential" means the fee covered by advance payment contracts sold pursuant to subparagraph (2)(b)3. The base rate for the tuition differential fee for the 2012-2013 fiscal year is established at $37.03 per credit hour. The base rate for the tuition differential in subsequent years is the amount assessed ~~paid by the board~~ for the tuition differential for the preceding year adjusted pursuant to subparagraph (b)2.

(b) Effective with the 2009-2010 academic year and thereafter, and notwithstanding the provisions of s. 1009.24, the amount paid by the board to any state university on behalf of a qualified beneficiary of an advance payment contract whose contract was purchased before July 1, 2024 ~~2009~~, shall be:

1. As to registration fees, if the actuarial reserve is less than 5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 5.5 percent above the amount assessed for registration fees in the preceding fiscal year. If the actuarial reserve is between 5 percent and 6 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6 percent above the amount assessed for registration fees in the preceding fiscal year. If the actuarial reserve is between 6 percent and 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6.5 percent above the amount assessed for registration fees in the preceding fiscal year. If the actuarial reserve is equal to or greater than 7.5 percent of the expected

liabilities of the trust fund, the board shall pay the state universities 7 percent above the amount assessed for registration fees in the preceding fiscal year, whichever is greater.

2. As to the tuition differential, if the actuarial reserve is less than 5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 5.5 percent above the base rate for the tuition differential fee in the preceding fiscal year. If the actuarial reserve is between 5 percent and 6 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6 percent above the base rate for the tuition differential fee in the preceding fiscal year. If the actuarial reserve is between 6 percent and 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6.5 percent above the base rate for the tuition differential fee in the preceding fiscal year. If the actuarial reserve is equal to or greater than 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 7 percent above the base rate for the tuition differential fee in the preceding fiscal year.

3. As to local fees, the board shall pay the state universities 5 percent above the amount assessed for local fees in the preceding fiscal year.

4. As to dormitory fees, the board shall pay the state universities 6 percent above the amount assessed for dormitory fees in the preceding fiscal year.

5. Qualified beneficiaries of advance payment contracts purchased before July 1, 2007, are exempt from paying any

tuition differential fee.

(c) Notwithstanding the amount assessed for registration fees, the tuition differential fee, or local fees, the amount paid by the board to any state university on behalf of a qualified beneficiary of an advance payment contract purchased before July 1, 2024, may not exceed 100 percent of the amount charged by the state university for the aggregate sum of those fees.

(d) Notwithstanding the amount assessed for dormitory fees, the amount paid by the board to any state university on behalf of a qualified beneficiary of an advance payment contract purchased before July 1, 2024, may not exceed 100 percent of the amount charged by the state university for dormitory fees.

(e) ~~(c)~~ The board shall pay state universities the actual amount assessed in accordance with law for registration fees, the tuition differential, local fees, and dormitory fees for advance payment contracts purchased on or after July 1, 2024 ~~2009~~.

(f) ~~(d)~~ The board shall annually evaluate or cause to be evaluated the actuarial soundness of the trust fund.

Section 11. Subsection (10) of section 1011.80, Florida Statutes, is amended to read:

1011.80 Funds for operation of workforce education programs.—

(10) A high school student dually enrolled under s. 1007.271 in a workforce education program operated by a Florida College System institution or school district career center generates the amount calculated for workforce education funding, including any payment of performance funding, and the

proportional share of full-time equivalent enrollment generated through the Florida Education Finance Program for the student's enrollment in a high school. If a high school student is dually enrolled in a Florida College System institution program, including a program conducted at a high school, the Florida College System institution earns the funds generated for workforce education funding, and the school district earns the proportional share of full-time equivalent funding from the Florida Education Finance Program. If a student is dually enrolled in a career center operated by the same district as the district in which the student attends high school, that district earns the funds generated for workforce education funding and also earns the proportional share of full-time equivalent funding from the Florida Education Finance Program. If a student is dually enrolled in a workforce education program provided by a career center operated by a different school district, the funds must be divided between the two school districts proportionally from the two funding sources. A student may not be reported for funding in a dual enrollment workforce education program unless the student has completed the basic skills assessment pursuant to s. 1004.91. A student who is coenrolled in a K-12 education program and an adult education program may be reported for purposes of funding in an adult education program. If a student is coenrolled in core curricula courses for credit recovery or dropout prevention purposes and does not have a pattern of excessive absenteeism or habitual truancy or a history of disruptive behavior in school, the student may be reported for funding for up to two courses per year. Such a student is exempt from the payment of the block tuition for

824504

adult general education programs provided in s. 1009.22(3)(c) ~~s. 1009.22(3)(d)~~. The Department of Education shall develop a list of courses to be designated as core curricula courses for the purposes of coenrollment.

Section 12. A dependent child who is a citizen of the United States of America may not be denied residency classification for tuition purposes based solely on the parent's undocumented immigration status. All applicable laws apply.

Senate Substitute for Amendment (824504) (with title amendment)

Delete lines 368 - 410
and insert:
Section 6. Paragraphs (c) through (g) of subsection (3) of section 1009.22, Florida Statutes, are amended to read:
1009.22 Workforce education postsecondary student fees.—
(3)
(c) Unless otherwise provided in the General Appropriations

579090

Act, effective July 1, 2014 ~~2011~~, for programs leading to a career certificate or an applied technology diploma, the standard tuition shall be $2.33 ~~$2.22~~ per contact hour for residents and nonresidents and the out-of-state fee shall be $6.99 ~~$6.66~~ per contact hour. For adult general education programs, a block tuition of $45 per half year or $30 per term shall be assessed for residents and nonresidents, and the out-of-state fee shall be $135 per half year or $90 per term. Each district school board and Florida College System institution board of trustees shall adopt policies and procedures for the collection of and accounting for the expenditure of the block tuition. All funds received from the block tuition shall be used only for adult general education programs. Students enrolled in adult general education programs may not be assessed the fees authorized in subsection (5), subsection (6), or subsection (7).

~~(d) Beginning with the 2008-2009 fiscal year and each year thereafter, the tuition and the out-of-state fee per contact hour shall increase at the beginning of each fall semester at a rate equal to inflation, unless otherwise provided in the General Appropriations Act. The Office of Economic and Demographic Research shall report the rate of inflation to the President of the Senate, the Speaker of the House of Representatives, the Governor, and the State Board of Education each year prior to March 1. For purposes of this paragraph, the rate of inflation shall be defined as the rate of the 12-month percentage change in the Consumer Price Index for All Urban Consumers, U.S. City Average, All Items, or successor reports as reported by the United States Department of Labor, Bureau of Labor Statistics, or its successor for December of the previous~~

579090

~~year. In the event the percentage change is negative, the tuition and out-of-state fee shall remain at the same level as the prior fiscal year.~~

(d) ~~(e)~~ Each district school board and each Florida College System institution board of trustees may adopt tuition and out-of-state fees that may vary no more than 5 percent below and 5 percent above the combined total of the standard tuition and out-of-state fees established in paragraph (c).

(e) ~~(f)~~ The maximum increase in resident tuition for any school district or Florida College System institution during the 2007-2008 fiscal year shall be 5 percent over the tuition charged during the 2006-2007 fiscal year.

(f) ~~(g)~~ The State Board of Education may adopt, by rule, the definitions and procedures that district school boards and Florida College System institution boards of trustees shall use in the calculation of cost borne by students.

Section 7. Subsection (3), paragraph (a) of subsection (16), and subsection (17) of section 1009.23, Florida Statutes, are amended to read:

1009.23 Florida College System institution student fees.—

(3)(a) Unless otherwise provided in the General Appropriations Act, effective July 1, 2014 ~~2011~~, for advanced and professional, postsecondary vocational, developmental education, and educator preparation institute programs, the standard tuition shall be $71.98 ~~$68.56~~ per credit hour for residents and nonresidents, and the out-of-state fee shall be $215.94 ~~$205.82~~ per credit hour.

(b) Unless otherwise provided in the General Appropriations Act, effective July 1, 2014 ~~2011~~, for baccalaureate degree

579090

programs, the following tuition and fee rates shall apply:

1. The tuition shall be $91.79 ~~$87.42~~ per credit hour for students who are residents for tuition purposes.

2. The sum of the tuition and the out-of-state fee per credit hour for students who are nonresidents for tuition purposes shall be no more than 85 percent of the sum of the tuition and the out-of-state fee at the state university nearest the Florida College System institution.

~~(c) Beginning with the 2008-2009 fiscal year and each year thereafter, the tuition and the out-of-state fee shall increase at the beginning of each fall semester at a rate equal to inflation, unless otherwise provided in the General Appropriations Act. The Office of Economic and Demographic Research shall report the rate of inflation to the President of the Senate, the Speaker of the House of Representatives, the Governor, and the State Board of Education each year prior to March 1. For purposes of this paragraph, the rate of inflation shall be defined as the rate of the 12-month percentage change in the Consumer Price Index for All Urban Consumers, U.S. City Average, All Items, or successor reports as reported by the United States Department of Labor, Bureau of Labor Statistics, or its successor for December of the previous year. In the event the percentage change is negative, the tuition and the out-of-state fee per credit hour shall remain at the same levels as the prior fiscal year.~~

(16)(a) Each Florida College System institution may assess a student who enrolls in a course listed in the distance learning catalog, established pursuant to s. 1006.735 ~~s. 1006.73~~, a per-credit-hour distance learning course user fee.

579090

For purposes of assessing this fee, a distance learning course is a course in which at least 80 percent of the direct instruction of the course is delivered using some form of technology when the student and instructor are separated by time or space, or both.

(17) Each Florida College System institution that accepts transient students, pursuant to s. 1006.735 ~~s. 1006.73~~, may establish a transient student fee not to exceed $5 per course for processing the transient student admissions application.

Section 8. Paragraphs (a), (b), and (e) of subsection (4), paragraph (t) of subsection (14), paragraph (b) of subsection (16), and paragraph (a) of subsection (17) of section 1009.24, Florida Statutes, are amended, to read:

1009.24 State university student fees.—

(4)(a) Unless otherwise provided in the General Appropriations Act, effective July 1, 2014 ~~2011~~, the resident undergraduate tuition for lower-level and upper-level coursework shall be $105.07 ~~$103.32~~ per credit hour.

~~(b) Beginning with the 2008-2009 fiscal year and each year thereafter, the resident undergraduate tuition per credit hour shall increase at the beginning of each fall semester at a rate equal to inflation, unless otherwise provided in the General Appropriations Act. The Office of Economic and Demographic Research shall report the rate of inflation to the President of the Senate, the Speaker of the House of Representatives, the Governor, and the Board of Governors each year prior to March 1. For purposes of this paragraph, the rate of inflation shall be defined as the rate of the 12-month percentage change in the Consumer Price Index for All Urban Consumers, U.S. City Average,~~

579090

~~All Items, or successor reports as reported by the United States Department of Labor, Bureau of Labor Statistics, or its successor for December of the previous year. In the event the percentage change is negative, the resident undergraduate tuition shall remain at the same level as the prior fiscal year.~~

(d) ~~(c)~~ The sum of the activity and service, health, and athletic fees a student is required to pay to register for a course may ~~shall~~ not exceed 40 percent of the tuition established in law or in the General Appropriations Act. No university shall be required to lower any fee in effect on the effective date of this act in order to comply with this subsection. Within the 40 percent cap, universities may not increase the aggregate sum of activity and service, health, and athletic fees more than 5 percent per year, or the same percentage increase in tuition authorized under paragraph (a) ~~(b)~~, whichever is greater, unless specifically authorized in law or in the General Appropriations Act. A university may increase its athletic fee to defray the costs associated with changing National Collegiate Athletic Association divisions. Any such increase in the athletic fee may exceed both the 40 percent cap and the 5 percent cap imposed by this subsection. Any such increase must be approved by the athletic fee committee in the process outlined in subsection (12) and may not ~~cannot~~ exceed $2 per credit hour. Notwithstanding ~~the provisions of~~ ss. 1009.534, 1009.535, and 1009.536, that portion of any increase in an athletic fee pursuant to this subsection which ~~that~~ causes the sum of the activity and service, health, and athletic fees to exceed the 40 percent cap or the annual increase in such fees to exceed the 5 percent cap may ~~shall~~ not be included in

579090

calculating the amount a student receives for a Florida Academic Scholars award, a Florida Medallion Scholars award, or a Florida Gold Seal Vocational Scholars award. Notwithstanding this paragraph and subject to approval by the board of trustees, each state university may ~~is authorized to~~ exceed the 5 percent ~~5-percent~~ cap on the annual increase to the aggregate sum of activity and service, health, and athletic fees for the 2010-2011 fiscal year. Any such increase may ~~shall~~ not exceed 15 percent or the amount required to reach the 2009-2010 fiscal year statewide average for the aggregate sum of activity and service, health, and athletic fees at the main campuses, whichever is greater. The aggregate sum of the activity and service, health, and athletic fees may ~~shall~~ not exceed 40 percent of tuition. Any increase in the activity and service fee, health fee, or athletic fee must be approved by the appropriate fee committee pursuant to subsection (10), subsection (11), or subsection (12).

(14) Except as otherwise provided in subsection (15), each university board of trustees is authorized to establish the following fees:

(t) A transient student fee that may not exceed $5 per course for accepting a transient student and processing the transient student admissions application pursuant to s. 1006.735 ~~s. 1006.73~~.

With the exception of housing rental rates and except as otherwise provided, fees assessed pursuant to paragraphs (h)-(s) shall be based on reasonable costs of services. The Board of Governors shall adopt regulations and timetables necessary to

579090

implement the fees and fines authorized under this subsection. The fees assessed under this subsection may be used for debt only as authorized under s. 1010.62.

(16) Each university board of trustees may establish a tuition differential for undergraduate courses upon receipt of approval from the Board of Governors. The tuition differential shall promote improvements in the quality of undergraduate education and shall provide financial aid to undergraduate students who exhibit financial need.

(b) Each tuition differential is subject to the following conditions:

1. The tuition differential may be assessed on one or more undergraduate courses or on all undergraduate courses at a state university.

2. The tuition differential may vary by course or courses, campus or center location, and by institution. Each university board of trustees shall strive to maintain and increase enrollment in degree programs related to math, science, high technology, and other state or regional high-need fields when establishing tuition differentials by course.

3. For each state university that has total research and development expenditures for all fields of at least $100 million per year as reported annually to the National Science Foundation, the aggregate sum of tuition and the tuition differential may ~~not~~ be increased by no more than 6 ~~15~~ percent of the total charged for the aggregate sum of these fees in the preceding fiscal year. For each state university that has total research and development expenditures for all fields of less than $100 million per year as reported annually to the National

Science Foundation, the aggregate sum of tuition and the tuition differential may not be increased by more than 6 ~~15~~ percent of the total charged for the aggregate sum of these fees in the preceding fiscal year.

4. The aggregate sum of undergraduate tuition and fees per credit hour, including the tuition differential, may not exceed the national average of undergraduate tuition and fees at 4-year degree-granting public postsecondary educational institutions.

5. The tuition differential may ~~shall~~ not be included in any award under the Florida Bright Futures Scholarship Program established pursuant to ss. 1009.53-1009.538.

6. Beneficiaries having prepaid tuition contracts pursuant to s. 1009.98(2)(b) which were in effect on July 1, 2007, and which remain in effect, are exempt from the payment of the tuition differential.

7. The tuition differential may not be charged to any student who was in attendance at the university before July 1, 2007, and who maintains continuous enrollment.

8. The tuition differential may be waived by the university for students who meet the eligibility requirements for the Florida public student assistance grant established in s. 1009.50.

9. Subject to approval by the Board of Governors, the tuition differential authorized pursuant to this subsection may take effect with the 2009 fall term.

(17)(a) A state university may assess a student who enrolls in a course listed in the distance learning catalog, established pursuant to s. 1006.735 ~~s. 1006.73~~, a per-credit-hour distance learning course fee. For purposes of assessing this fee, a

579090

distance learning course is a course in which at least 80 percent of the direct instruction of the course is delivered using some form of technology when the student and instructor are separated by time or space, or both.

Section 9. Subsection (10) of section 1009.98, Florida Statutes, is amended to read:

1009.98 Stanley G. Tate Florida Prepaid College Program.—

(10) PAYMENTS ON BEHALF OF QUALIFIED BENEFICIARIES.—

(a) As used in this subsection, the term:

1. "Actuarial reserve" means the amount by which the expected value of the assets exceeds ~~exceed~~ the expected value of the liabilities of the trust fund.

2. "Dormitory fees" means the fees included under advance payment contracts pursuant to paragraph (2)(d).

3. "Fiscal year" means the fiscal year of the state pursuant to s. 215.01.

4. "Local fees" means the fees covered by an advance payment contract provided pursuant to subparagraph (2)(b)2.

5. "Tuition differential" means the fee covered by advance payment contracts sold pursuant to subparagraph (2)(b)3. The base rate for the tuition differential fee for the 2012-2013 fiscal year is established at $37.03 per credit hour. The base rate for the tuition differential in subsequent years is the amount assessed ~~paid by the board~~ for the tuition differential for the preceding year adjusted pursuant to subparagraph (b)2.

(b) Effective with the 2009-2010 academic year and thereafter, and notwithstanding the provisions of s. 1009.24, the amount paid by the board to any state university on behalf of a qualified beneficiary of an advance payment contract whose

579090

contract was purchased before July 1, 2024 ~~2009~~, shall be:

1. As to registration fees, if the actuarial reserve is less than 5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 5.5 percent above the amount assessed for registration fees in the preceding fiscal year. If the actuarial reserve is between 5 percent and 6 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6 percent above the amount assessed for registration fees in the preceding fiscal year. If the actuarial reserve is between 6 percent and 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6.5 percent above the amount assessed for registration fees in the preceding fiscal year. If the actuarial reserve is equal to or greater than 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 7 percent above the amount assessed for registration fees in the preceding fiscal year, whichever is greater.

2. As to the tuition differential, if the actuarial reserve is less than 5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 5.5 percent above the base rate for the tuition differential fee in the preceding fiscal year. If the actuarial reserve is between 5 percent and 6 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6 percent above the base rate for the tuition differential fee in the preceding fiscal year. If the actuarial reserve is between 6 percent and 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6.5 percent above the

579090

base rate for the tuition differential fee in the preceding fiscal year. If the actuarial reserve is equal to or greater than 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 7 percent above the base rate for the tuition differential fee in the preceding fiscal year.

3. As to local fees, the board shall pay the state universities 5 percent above the amount assessed for local fees in the preceding fiscal year.

4. As to dormitory fees, the board shall pay the state universities 6 percent above the amount assessed for dormitory fees in the preceding fiscal year.

5. Qualified beneficiaries of advance payment contracts purchased before July 1, 2007, are exempt from paying any tuition differential fee.

(c) Notwithstanding the amount assessed for registration fees, the tuition differential fee, or local fees, the amount paid by the board to any state university on behalf of a qualified beneficiary of an advance payment contract purchased before July 1, 2024, may not exceed 100 percent of the amount charged by the state university for the aggregate sum of those fees.

(d) Notwithstanding the amount assessed for dormitory fees, the amount paid by the board to any state university on behalf of a qualified beneficiary of an advance payment contract purchased before July 1, 2024, may not exceed 100 percent of the amount charged by the state university for dormitory fees.

(e) ~~(c)~~ The board shall pay state universities the actual amount assessed in accordance with law for registration fees,

579090

the tuition differential, local fees, and dormitory fees for advance payment contracts purchased on or after July 1, 2024 ~~2009~~.

(f) ~~(d)~~ The board shall annually evaluate or cause to be evaluated the actuarial soundness of the trust fund.

Section 10. Subsection (10) of section 1011.80, Florida Statutes, is amended to read:

1011.80 Funds for operation of workforce education programs.—

(10) A high school student dually enrolled under s. 1007.271 in a workforce education program operated by a Florida College System institution or school district career center generates the amount calculated for workforce education funding, including any payment of performance funding, and the proportional share of full-time equivalent enrollment generated through the Florida Education Finance Program for the student's enrollment in a high school. If a high school student is dually enrolled in a Florida College System institution program, including a program conducted at a high school, the Florida College System institution earns the funds generated for workforce education funding, and the school district earns the proportional share of full-time equivalent funding from the Florida Education Finance Program. If a student is dually enrolled in a career center operated by the same district as the district in which the student attends high school, that district earns the funds generated for workforce education funding and also earns the proportional share of full-time equivalent funding from the Florida Education Finance Program. If a student is dually enrolled in a workforce education program provided by

579090

a career center operated by a different school district, the funds must be divided between the two school districts proportionally from the two funding sources. A student may not be reported for funding in a dual enrollment workforce education program unless the student has completed the basic skills assessment pursuant to s. 1004.91. A student who is coenrolled in a K-12 education program and an adult education program may be reported for purposes of funding in an adult education program. If a student is coenrolled in core curricula courses for credit recovery or dropout prevention purposes and does not have a pattern of excessive absenteeism or habitual truancy or a history of disruptive behavior in school, the student may be reported for funding for up to two courses per year. Such a student is exempt from the payment of the block tuition for adult general education programs provided in s. 1009.22(3)(c) ~~s. 1009.22(3)(d)~~. The Department of Education shall develop a list of courses to be designated as core curricula courses for the purposes of coenrollment.

A bill to be entitled

An act relating to postsecondary education; creating s. 1004.448, F.S.; establishing the Florida Center for Library Automation; providing the duties of the center; providing that an executive director administers the center; providing the duties of the executive director; repealing s. 1006.72, F.S., relating to licensing electronic library resources; repealing s. 1006.73, F.S., relating to the Florida Virtual Campus; amending s. 1006.735, F.S.; creating the Complete Florida Plus Program, rather than the Complete Florida Degree Program, within the Innovation Institute of the University of West Florida; providing a purpose for the program; establishing the Complete Florida Degree Initiative; requiring the initiative to use labor market data and projections to identify specific workforce needs and targeted occupations; deleting implementing provisions relating to the Complete Florida Degree Program; providing duties of the Complete Florida Degree Initiative; requiring the Complete Florida Plus Program to develop and manage a statewide Internet-based catalog of distance learning courses, degree programs, and resources offered by public postsecondary education institutions; providing requirements for the operational procedures for the catalog; requiring the Complete Florida Plus Program to make available to postsecondary students specified online supports and services; providing that records, personnel, property, existing contracts, unexpended

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

581-03211-14 20141292c1

balances of appropriations, allocations, grants, and other funds of the Florida Virtual Campus are transferred to the University of West Florida; providing that the University of West Florida is the successor in interest to the Florida Virtual Campus; deleting an obsolete provision; amending ss. 1007.01, 1009.23, and 1009.24, F.S.; conforming cross-references; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 1004.448, Florida Statutes, is created to read:

1004.448 Florida Center for Library Automation.—

(1) The Florida Center for Library Automation is established to provide a single library automation system and associated resources and services that all public postsecondary institutions shall use to support their learning, teaching, and research needs.

(2) The Florida Center for Library Automation shall:

(a) Develop and manage a library information portal and automated library management tools for use by the Florida College System institutions and state universities. The library information portal and automated library management tools must include, but are not limited to, the following services and functions:

1. A shared Internet-based catalog and a discovery tool that allow a user to search and, if authorized, access the aggregate library holdings of the state's public postsecondary

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

education institutions. The catalog and discovery tool must allow the user to search the library holdings of one institution, selected institutions, or all institutions and, to the extent feasible, include an interlibrary loan function that ensures that the authorized user can access the required library holding.

2. An Internet-based searchable collection of electronic resources which includes, but is not limited to, full-text journals, articles, databases, and electronic books that the center licenses pursuant to paragraph (b).

3. An integrated library management system and its associated services that all public postsecondary education institution academic libraries must use for purposes of acquiring, cataloging, circulating, and tracking library material.

4. A statewide searchable database that includes an inventory of digital archives and collections held by public postsecondary education institutions.

(b) Coordinate the negotiation of statewide licensing of electronic library resources and preferred pricing agreements, issue purchase orders, and enter into contracts for the acquisition of library support services, electronic resources, and other goods and services necessary to carry out its duties under this section.

(c) Promote and provide recommendations concerning the use and distribution of open-access textbooks and education resources as a method for reducing costs and work with public postsecondary education institutions in developing a standardized process for the review and approval of open-access

textbooks.

(3) The Florida Center for Library Automation shall be administered by an executive director who is accountable to the executive director of the University of West Florida's Innovation Institute. The executive director of the Florida Center for Library Automation shall:

(a) Independently exercise all powers, duties, and functions of the center as prescribed by law.

(b) Administer the operational requirements of the center.

(c) Hire professional and administrative staff necessary to carry out the duties of the center.

(d) Keep administrative staff to the minimum necessary to administer the duties of the center.

Section 2. Section 1006.72, Florida Statutes, is repealed.

Section 3. Section 1006.73, Florida Statutes, is repealed.

Section 4. Section 1006.735, Florida Statutes, is amended to read:

1006.735 Complete Florida Plus ~~Degree~~ Program.—The Complete Florida Plus Program is created within the Innovation Institute at the University of West Florida.

(1) PURPOSE.—The purpose of the Complete Florida Plus Program is to:

(a) Facilitate degree completion for the state's adult learners through the Complete Florida Degree Initiative.

(b) Provide information and access to distance learning courses and degree programs offered by the state's public postsecondary education institutions.

(c) Coordinate with the Florida College System and the State University System to identify and provide online academic

support services and resources when the multi-institutional provision of such services and resources is more cost-effective or operationally effective.

(2) ~~(1)~~ COMPLETE FLORIDA DEGREE INITIATIVE.—The Complete Florida Degree Initiative ~~Program~~ is established for the purpose of recruiting, recovering, and retaining the state's adult learners and assisting them in completing an associate degree or a baccalaureate degree that is aligned to high-wage, high-skill workforce needs. As used in this section, the term "adult learner" means a student who has successfully completed college-level coursework in multiple semesters but has left an institution in good standing before completing his or her degree. The program shall give priority to adult learners who are veterans or active duty members of the United States Armed Forces.

(a) ~~(2)~~ The Complete Florida Degree Initiative ~~Program~~ shall be implemented ~~by the University of West Florida, acting as the lead institution,~~ in coordination with Florida College System institutions, state universities, and private postsecondary institutions, as appropriate. The initiative includes ~~program shall include~~ the associate, applied baccalaureate, and baccalaureate degree programs that these institutions have selected. Other partnering public postsecondary education institutions shall provide areas of specialization or concentration.

(b) ~~(3)~~ In determining ~~For purposes of selecting~~ the degree programs that will be given priority, ~~in~~ the Complete Florida Degree Initiative ~~Program, the institutions identified in subsection (2)~~ shall ~~partner with public and private job~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~recruitment and placement agencies and~~ use labor market data and projections, including those identified in the Board of Governors' gap analysis, to identify the specific workforce needs and targeted occupations of the state.

(c) ~~(4)~~ The Complete Florida Degree Initiative ~~Program~~ shall provide adult learners with a single point of access to information and links to innovative online and accelerated distance learning courses, student and library support services, and electronic resources that will guide the adult learner toward the successful completion of a postsecondary degree.

~~(5) By the end of the 2013-2014 academic year, the Complete Florida Degree Program shall be implemented and must:~~

~~(a) Use the distance learning course catalog established pursuant to s. 1006.73 to communicate course availability to the adult learner.~~

~~(b) Develop and implement an advising and student support system that includes the use of degree completion specialists, is based upon best practices and processes, and includes academic and career support services designed specifically for the adult learner. The program must identify proposed changes to the statewide computer-assisted student advising system established pursuant to s. 1006.73 to assist the adult learner in using the system.~~

~~(c) Use the streamlined, automated, online admissions application process for transient students established pursuant to s. 1006.73. The program shall identify any additional admissions and registration policies and practices that could be further streamlined and automated for purposes of assisting the adult learner.~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(d) The Complete Florida Degree Initiative shall:

1. Use existing and, if necessary, develop new competency-based instructional and evaluation tools to assess prior performance, experience, and education for the award of college credit in order to reduce the time required for adult learners to complete their degrees. The tools may include the use of the American Council on Education's collaborative link between the United States Department of Defense and higher education through the review of military training and experiences for the award of equivalent college credit for members of the United States Armed Forces.

2. ~~(e)~~ Develop and implement an evaluation process that collects, analyzes, and provides to the chancellors of the Florida College System and the State University System, the participating postsecondary education institutions, the chairs of the legislative appropriations committees, and the Executive Office of the Governor information on the effectiveness of the program and the attainment of its goals. Such a process shall include a management information system that collects the appropriate student, programmatic, and fiscal data necessary to complete the evaluation of the program. Institutions involved in the program shall also collect job placement and employment data on the adult learners who have completed their degrees as a result of the program.

3. ~~(f)~~ Develop and implement a statewide student recruitment campaign targeted toward adult learners, particularly veterans and active duty members of the United States Armed Forces, for enrollment in the degree programs offered through the program.

(e) ~~(6)~~ For purposes of the Complete Florida Degree

Initiative ~~Program~~, each institution's current tuition and fee structure shall be used. However, all participating institutions shall collaboratively identify the applicable cost components involved in the development and delivery of distance learning courses, collect information on these cost components, and submit the information to the chancellors of the Florida College System and the State University System. The chancellors shall submit a report to the chairs of the legislative appropriations committees no later than December 31, 2014, on the need for a differentiated tuition and fee structure for the development and delivery of distance learning courses.

(3) STATEWIDE INTERNET-BASED CATALOG OF DISTANCE LEARNING COURSES.—The Complete Florida Plus Program shall develop and manage a statewide Internet-based catalog of distance learning courses, degree programs, and resources offered by public postsecondary education institutions to assist with the coordination and collaboration of articulation and access to postsecondary education pursuant to parts II and III of chapter 1007. The program shall establish operational procedures for the catalog which must:

(a) Require participating institutions to provide specific information concerning the distance learning courses and degree programs including, but not limited to, prerequisite courses or technology competencies or skills; the availability of academic support services and financial aid resources; and course costs, fees, and payment policies.

(b) Require that distance learning courses and degree programs meet applicable accreditation standards and criteria established in law.

(c) Require that the catalog be reviewed at least annually and updated as needed to ensure that distance learning courses and degree programs comply with operational procedures.

(d) Define and describe the catalog's search and retrieval options that, at a minimum, allow users to search courses and programs by academic term or start date; institution or institutions; delivery method, level, availability, subject or discipline, and course number or program classification number.

(e) Use an Internet-based analytic tool that allows for the collection and analysis of information, including, but not limited to:

1. The number of students who use the catalog to search for distance learning courses and degree programs;

2. The number and type of requests for information on distance learning courses and degree programs that are not listed in the catalog; and

3. A summary of specific requests by course type or course number, delivery method, offering institution, and semester.

(4) STATEWIDE ONLINE STUDENT ADVISING SERVICES AND SUPPORT.—The Complete Florida Plus Program shall make available to all postsecondary students on a statewide basis online supports and services that:

(a) Provide a streamlined, automated, online admissions application process for undergraduate transient students who are currently enrolled and pursuing a degree at a public postsecondary education institution and who enroll in a course offered by a public postsecondary education institution that is not the student's degree-granting institution. The University of West Florida shall work with the Florida College System

institutions and state universities to:

1. Use the transient student admissions application available through the statewide computer-assisted student advising system established pursuant to paragraph (b). This admissions application is the only application required for the enrollment of a transient student as described in this paragraph.

2. Implement the financial aid procedures required by the transient student admissions application process.

3. Transfer credit awarded by the institution offering the course to the transient student's degree-granting institution.

4. Provide for an interface between the institutional advising system and the statewide computer-assisted student advising system established pursuant to paragraph (b) in order to electronically send, receive, and process the transient student admissions application.

(b) Develop and manage a statewide computer-assisted student advising system that supports the process of advising, registering, and certifying students for graduation and includes a degree audit and an articulation component. The Florida College System institutions and state universities shall interface institutional advising systems with the statewide computer-assisted student advising system. At a minimum, the statewide computer-assisted student advising system must:

1. Allow a student to access the system at any time, search public postsecondary education institutions, and identify course options that will meet the requirements of a selected path toward a degree.

2. Audit transcripts of students enrolled in a public

postsecondary education institution to assess current academic standing, the requirements for a student to transfer to another institution, and all requirements necessary for graduation.

3. Serve as the official statewide repository for the common prerequisite manual, admissions information for transferring programs, foreign language requirements, residency requirements, and statewide articulation agreements.

4. Provide information relating to career descriptions and corresponding educational requirements, admissions requirements, and available sources of student financial assistance.

5. Provide the admissions application for transient students pursuant to paragraph (a) which must include the electronic transfer and receipt of information and records for:

a. Admissions and readmissions;

b. Financial aid; and

c. Transfer of credit awarded by the institution offering the course to the transient student's degree-granting institution.

(c) Identify and evaluate new technologies and instructional methods that can be used to improve distance learning instruction and professional development for faculty, student learning outcomes, student access, the delivery of student support services, the alignment of degrees to career needs, and the overall quality of postsecondary distance learning courses and degree programs.

(d) Provide appropriate help desk support and training and consultation services to institutions and students using the services and resources of the Complete Florida Plus Program.

(e) Coordinate the negotiation of statewide licensing

resources and preferred pricing agreements, issue purchase orders, and execute contracts for the acquisition of distance learning resources, student support services, electronic resources, and other goods and services necessary to perform duties under this section.

(f) Develop and implement a plan, in consultation with the public postsecondary education institutions, that describes the services and resources available through the Complete Florida Plus Program to encourage current and prospective students' use of such services and resources.

(5) All records, personnel, property, existing contracts, and unexpended balances of appropriations, allocations, grants, and other funds of the Florida Virtual Campus shall be transferred to the University of West Florida. The University of West Florida shall be the successor in interest to the Florida Virtual Campus and shall be responsible for the provision of all services as authorized by this section.

~~(7) The University of West Florida, in collaboration with its partners, shall submit to the chairs of the Board of Governors, the State Board of Education, and the legislative appropriations committees no later than September 1, 2013, a detailed program plan that defines the major work activities, student eligibility criteria, timeline, and cost for implementing the Complete Florida Degree Program.~~

Section 5. Paragraph (h) of subsection (3) of section 1007.01, Florida Statutes, is amended to read:

1007.01 Articulation; legislative intent; purpose; role of the State Board of Education and the Board of Governors; Articulation Coordinating Committee.—

(3) The Commissioner of Education, in consultation with the Chancellor of the State University System, shall establish the Articulation Coordinating Committee, which shall make recommendations related to statewide articulation policies and issues regarding access, quality, and reporting of data maintained by the K-20 data warehouse, established pursuant to ss. 1001.10 and 1008.31, to the Higher Education Coordination Council, the State Board of Education, and the Board of Governors. The committee shall consist of two members each representing the State University System, the Florida College System, public career and technical education, K-12 education, and nonpublic postsecondary education and one member representing students. The chair shall be elected from the membership. The Office of K-20 Articulation shall provide administrative support for the committee. The committee shall:

(h) Recommend roles and responsibilities of public education entities in interfacing with the single, statewide computer-assisted student advising system established pursuant to s. 1006.735 ~~s. 1006.73~~.

Section 6. Paragraph (a) of subsection (16) and subsection (17) of section 1009.23, Florida Statutes, are amended to read:

1009.23 Florida College System institution student fees.—

(16)(a) Each Florida College System institution may assess a student who enrolls in a course listed in the distance learning catalog, established pursuant to s. 1006.735 ~~s. 1006.73~~, a per-credit-hour distance learning course user fee. For purposes of assessing this fee, a distance learning course is a course in which at least 80 percent of the direct instruction of the course is delivered using some form of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

technology when the student and instructor are separated by time or space, or both.

(17) Each Florida College System institution that accepts transient students, pursuant to s. 1006.735 ~~s. 1006.73~~, may establish a transient student fee not to exceed $5 per course for processing the transient student admissions application.

Section 7. Paragraph (t) of subsection (14) and paragraph (a) of subsection (17) of section 1009.24, Florida Statutes, are amended to read:

1009.24 State university student fees.—

(14) Except as otherwise provided in subsection (15), each university board of trustees is authorized to establish the following fees:

(t) A transient student fee that may not exceed $5 per course for accepting a transient student and processing the transient student admissions application pursuant to s. 1006.735 ~~s. 1006.73~~.

With the exception of housing rental rates and except as otherwise provided, fees assessed pursuant to paragraphs (h)-(s) shall be based on reasonable costs of services. The Board of Governors shall adopt regulations and timetables necessary to implement the fees and fines authorized under this subsection. The fees assessed under this subsection may be used for debt only as authorized under s. 1010.62.

(17)(a) A state university may assess a student who enrolls in a course listed in the distance learning catalog, established pursuant to s. 1006.735 ~~s. 1006.73~~, a per-credit-hour distance learning course fee. For purposes of assessing this fee, a

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

distance learning course is a course in which at least 80 percent of the direct instruction of the course is delivered using some form of technology when the student and instructor are separated by time or space, or both.

Section 8. This act shall take effect July 1, 2014.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1328
INTRODUCER:	Appropriations Committee; Governmental Oversight and Accountability Committee; and Senator Latvala
SUBJECT:	Inspectors General
DATE:	April 24, 2014
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	McKay	McVaney	GO	**Fav/CS**
2.	Shettle	Kynoch	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1328 modifies how agency inspectors general are appointed, supervised, and removed.

Currently, agency inspectors general are appointed by and report to agency heads. The bill provides that for agencies under the jurisdiction of the Governor, agency inspectors general are to be appointed and removed (only for cause) by the Chief Inspector General, with notice to the Governor; are to report to the Chief Inspector General; and may hire and fire their staff independently of the agency. For other state agencies, inspectors general are to be appointed and removed by agency heads.

The bill has no fiscal impact to the state agencies.

II. Present Situation:

Agency Inspectors General

Duties

Section 20.055, F.S., requires that each state agency[1] created in the organizational structure of state government have an inspector general office contained within the agency. The office is created to provide a focal point of accountability efforts within the agency. Each office is responsible for the following:

- Advising in the development of performance standards, their validation, and the compliance of agency activities with them.
- Assessing the reliability and validity of information provided by the agency on performance measures and standards.
- Improving agency performance.
- Supervising and coordinating audits, investigations, and reviews relating to the operations of the state agency.
- Conducting, supervising, or coordinating other activities carried out or financed by that state agency for the purpose of promoting economy and efficiency in the administration of, or preventing and detecting fraud and abuse in, its programs and operations.
- Providing central coordination of efforts to identify and remedy waste, fraud, and abuse.
- Coordinating agency-specific audit activities with those of peer federal and state agencies.
- Reviewing rules relating to the programs and operations of the agency and making recommendations concerning their impact.
- Maintaining a balance among audit, investigative, and other accounting activities of the agency.
- Complying with the General Principles and Standards for Offices of Inspector General as published and revised by the Association of Inspectors General.[2]

Appointment

Inspectors general are appointed by the agency head. For agencies under the direction of the Governor, the appointment must be made after notifying the Governor and the Chief Inspector General in writing, at least seven days prior to an offer of employment, of the agency head's intention to hire the inspector general.[3]

Removal and Qualifications

Inspectors general may be removed only by the agency head. For agencies under the direction of the Governor, the agency head must notify the Governor and the Chief Inspector General, in writing, of the intention to terminate the inspector general, at least seven days prior to the removal. For state agencies under the direction of the Governor and Cabinet, the agency head

[1] For purposes of this section, the Executive Office of the Governor, the Department of Military Affairs, the Fish and Wildlife Conservation Commission, the Office of Insurance Regulation, the Office of Financial Regulation, the Public Service Commission, the Board of Governors of the State University System, the Florida Housing Finance Corporation, and the state courts system are considered "state agencies," in addition to the departments created in Ch. 20, F.S.
[2] Section 20.055(2), F.S.
[3] Section 20.055(3)(a), F.S.

must notify the Governor and Cabinet, in writing, of the intention to terminate the inspector general, at least seven days prior to the removal.[4] Inspectors general must possess minimum educational and experience qualifications,[5] and the investigations they conduct must adhere to specific internal auditing standards.

Internal Audits

Each inspector general must review and evaluate internal controls necessary to ensure the fiscal accountability of the state agency. The inspector general must conduct financial, compliance, electronic data processing, and performance audits of the agency and prepare audit reports of his or her findings. The performance of the audit shall be under the direction of the inspector general, except that if the inspector general does not possess the specified qualifications, the director of auditing must perform the auditing functions.

Audits must be conducted in accordance with the current Standards for the Professional Practice of Internal Auditing and subsequent Internal Auditing Standards or Statements on Internal Auditing Standards published by the Institute of Internal Auditors, Inc., or, where appropriate, in accordance with generally accepted governmental auditing standards. All audit reports issued by internal audit staff shall include a statement that the audit was conducted pursuant to the appropriate standards.[6]

Audit work papers and reports must be public records to the extent that they do not include information that has been made confidential and exempt from the provisions of s. 119.07(1), F.S., or information protected under s. 112.3187(5), F.S., of the Whistle-blower's Act.[7]

Reporting

At the conclusion of each audit, the inspector general must submit preliminary findings and recommendations to the person responsible for supervision of the program function or operational unit who must respond to any adverse findings within 20 working days after receipt of the tentative findings. Such response and the inspector general's rebuttal to the response must be included in the final audit report.[8]

The inspector general must submit the final report to the agency head and to the Auditor General. The Auditor General, in connection with the independent post-audit of the same agency, must give appropriate consideration to internal audit reports and the resolution of findings therein. The Legislative Auditing Committee may inquire into the reasons or justifications for failure of the agency head to correct the deficiencies reported in internal audits that are also reported by the Auditor General and must take appropriate action.[9]

[4] Section 20.055(3)(c), F.S.
[5] Section 20.055(4), F.S.
[6] Section 20.055(5)(a), F.S.
[7] Section 20.055(5)(b), F.S.
[8] Section 20.055(5)(d), F.S.
[9] Section 20.055(5)(g), F.S.

The inspector general must monitor the implementation of the state agency's response to any report on the state agency issued by the Auditor General or by the Office of Program Policy Analysis and Government Accountability (OPPAGA). No later than six months after the Auditor General or the OPPAGA publishes a report on the state agency, the inspector general must provide a written response to the agency head on the status of corrective actions taken. The inspector general must file a copy of such response with the Legislative Auditing Committee.[10]

More Duties

The inspector general must develop long-term and annual audit plans based on the findings of periodic risk assessments. The plan, where appropriate, should include post-audit samplings of payments and accounts. The Chief Financial Officer, to assist in fulfilling the responsibilities for examining, auditing, and settling accounts, claims, and demands related to claims against the state, and examining, auditing, adjusting, and settling accounts relating to those indebted to the state, may utilize audits performed by the inspectors general and internal auditors. For state agencies under the Governor, the audit plans shall be submitted to the Governor's Chief Inspector General. The plan must be submitted to the agency head for approval, and a copy of the approved plan must be submitted to the Auditor General.[11]

In carrying out its investigative duties and responsibilities, each inspector general must initiate, conduct, supervise, and coordinate investigations designed to detect, deter, prevent, and eradicate fraud, waste, mismanagement, misconduct, and other abuses in state government. For these purposes, each inspector general must do the following:

- Receive complaints and coordinate all activities of the agency as required by the Whistle-blower's Act.
- Receive and consider the complaints that do not meet the criteria for an investigation under the Whistle-blower's Act and conduct, supervise, or coordinate such inquiries, investigations, or reviews as the inspector general deems appropriate.
- Report expeditiously to the Department of Law Enforcement or other law enforcement agencies, as appropriate, when the inspector general has reasonable grounds to believe there has been a violation of criminal law.
- Conduct investigations and other inquiries free of actual or perceived impairment to the independence of the inspector general or the inspector general's office. This must include freedom from any interference with investigations and timely access to records and other sources of information.
- At the conclusion of an audit the subject of which is an entity contracting with the state or an individual substantially affected, submit the findings to the contracting entity or the individual substantially affected, who must be advised that they may submit a written response to the findings. The response and the inspector general's rebuttal to the response, if any, must be included in the final audit report.
- Submit in a timely fashion final reports on investigations conducted by the inspector general to the agency head.[12]

[10] Section 20.055(5)(h), F.S.
[11] Section 20.055(5)(i), F.S.
[12] Section 20.055(6), F.S.

Each inspector general must submit a yearly report on its activities to the agency head, and provide any written complaints about the operations of the inspector general.[13]

III. Effect of Proposed Changes:

Agency Inspectors General

Section 1 amends s. 20.055, F.S., relating to the duties of agency inspectors general.

Appointment

The bill changes the appointment process for agency inspectors general, who are currently appointed by the agency head. The bill provides that for state agencies under the jurisdiction of the Governor, the Chief Inspector General appoints the agency inspector general. For all other state agencies, the agency head appoints the inspector general; the agency head or Chief Inspector General must notify the Governor in writing seven days in advance of the hiring of an agency inspector general.

Supervision

The inspector general will report to and be under the supervision of the agency head. In addition, for state agencies under the jurisdiction of the Governor, the inspector general will report to the Chief Inspector General, and may hire and remove staff within the Office of the Inspector General in consultation with the Chief Inspector General but independently of the respective agency. Inspectors general are not subject to supervision by any other agency employee.

Removal

For state agencies under the jurisdiction of the Governor, the Chief Inspector General may remove, for cause, the inspector general. The Chief Inspector General must give 21 days' notice to the Governor before removing an inspector general, who may present written objections to the agency head or Governor. For all other state agencies, the inspector general may be removed by the agency head.

Reports and Responses to Reports

For state agencies under the jurisdiction of the Governor, the agency inspector general must submit:

- Final reports to the agency head, the Auditor General, and the Chief Inspector General; and
- Responses to OPPAGA and Auditor General reports to the Chief Inspector General; and
- Annual reports on inspector general activities to the Chief Inspector General.

The bill takes effect July 1, 2014.

[13] Section 20.055(7) and (8), F.S.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

CS/CS/SB 1328 has no fiscal impact to the state agencies.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 20.055 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 22, 2014:
The CS/CS:

- Removes provisions regarding how the Chief Inspector General is appointed, and requiring the Chief Inspector General to provide independent legal counsel for inspectors general in agencies under the jurisdiction of the Governor.

- Removes provision requiring the Office of Inspector General to have its own budget within the respective state agency, developed in consultation with the Chief Inspector General.
- Makes technical correction by removing duplicative language regarding the approval of audit plans.

CS by Governmental Oversight and Accountability on April 3, 2014:
The CS removes a provision that would have required the Governor to consult with the Cabinet on the appointment of the Chief Inspector General and clarifies the appointment, supervision, and removal procedures for agency inspectors general.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

585-03740-14 20141328c1

A bill to be entitled

An act relating to inspectors general; amending s. 14.32, F.S.; requiring that the Chief Inspector General be confirmed by the Senate; requiring the Chief Inspector General to provide independent legal counsel for specified state agencies; amending s. 20.055, F.S.; revising provisions relating to the duties, appointment, and removal of agency inspectors general; updating a cross-reference; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) and paragraph (e) of subsection (2) of section 14.32, Florida Statutes, are amended to read:

14.32 Office of Chief Inspector General.—

(1) There is created in the Executive Office of the Governor the Office of Chief Inspector General. The Chief Inspector General is ~~shall be~~ responsible for promoting accountability, integrity, and efficiency in the agencies under the jurisdiction of the Governor. The Chief Inspector General shall be appointed by the Governor, subject to confirmation by the Senate, and shall serve at the pleasure of the Governor.

(2) The Chief Inspector General shall:

(e) Coordinate complaint-handling activities with agencies and provide for independent legal counsel for inspectors general in agencies under the jurisdiction of the Governor.

Section 2. Subsections (2), (3), (5), (7), and (8) of section 20.055, Florida Statutes, are amended to read:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

585-03740-14 20141328c1

20.055 Agency inspectors general.—

(2) The Office of Inspector General is ~~hereby~~ established in each state agency to provide a central point for coordination of and responsibility for activities that promote accountability, integrity, and efficiency in government. ~~It shall be the duty and responsibility of~~ Each inspector general, with respect to the state agency in which the office is established, shall ~~to~~:

(a) Advise in the development of performance measures, standards, and procedures for the evaluation of state agency programs.

(b) Assess the reliability and validity of the information provided by the state agency on performance measures and standards, and make recommendations for improvement, if necessary, before ~~prior to~~ submission of such information ~~those measures and standards to the Executive Office of the Governor~~ pursuant to s. 216.1827 ~~s. 216.0166(1)~~.

(c) Review the actions taken by the state agency to improve program performance and meet program standards and make recommendations for improvement, if necessary.

(d) Provide direction for, supervise, and coordinate audits, investigations, and management reviews relating to the programs and operations of the state agency, except that when the inspector general does not possess the qualifications specified in subsection (4), the director of auditing shall conduct such audits.

(e) Conduct, supervise, or coordinate other activities carried out or financed by that state agency for the purpose of promoting economy and efficiency in the administration of, or

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

preventing and detecting fraud and abuse in, its programs and operations.

(f) Keep the ~~such~~ agency head and, for state agencies under the jurisdiction of the Governor, the Chief Inspector General, informed concerning fraud, abuses, and deficiencies relating to programs and operations administered or financed by the state agency, recommend corrective action concerning fraud, abuses, and deficiencies, and report on the progress made in implementing corrective action.

(g) Ensure effective coordination and cooperation between the Auditor General, federal auditors, and other governmental bodies with a view toward avoiding duplication.

(h) Review, as appropriate, rules relating to the programs and operations of such state agency and make recommendations concerning their impact.

(i) Ensure that an appropriate balance is maintained between audit, investigative, and other accountability activities.

(j) Comply with the General Principles and Standards for Offices of Inspector General as published and revised by the Association of Inspectors General.

(3)(a) For state agencies under the jurisdiction of the Governor, the inspector general shall be appointed by the Chief Inspector General ~~agency head~~. For all other state agencies ~~under the direction of the Governor~~, the inspector general shall be appointed by the agency head. The agency head or Chief Inspector General shall notify ~~appointment shall be made after notifying~~ the Governor ~~and the Chief Inspector General~~ in writing, ~~at least 7 days prior to an offer of employment,~~ of his

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

or her ~~the agency head's~~ intention to hire the inspector general at least 7 days before an offer of employment. The inspector general shall be appointed without regard to political affiliation.

(b) The ~~Each~~ inspector general shall report to and be under the general supervision of the agency head and is ~~shall~~ not ~~be~~ subject to supervision by any other employee of the state agency in which the office is established. In addition, for state agencies under the jurisdiction of the Governor, the inspector general shall report to the Chief Inspector General, and may hire and remove staff within the office of the inspector general in consultation with the Chief Inspector General but independently of the agency ~~The inspector general shall be appointed without regard to political affiliation~~.

(c)1. For state agencies under the jurisdiction of the Governor, the ~~An~~ inspector general may be removed from office by the Chief Inspector General for cause, including concerns regarding performance, malfeasance, misfeasance, misconduct, or failure to carry out his or her duties under this section ~~agency head~~. The Chief Inspector General ~~For agencies under the direction of the Governor, the agency head~~ shall notify the Governor ~~and the Chief Inspector General,~~ in writing~~,~~ of his or her ~~the~~ intention to terminate the inspector general at least 21 ~~7~~ days before ~~prior to~~ the removal. If the inspector general objects to the removal, the inspector general may present written objections to the agency head or the Governor within the 21 day period.

2. For all other state agencies ~~under the direction of the Governor and Cabinet~~, the inspector general may be removed from

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

office by the agency head. ~~The agency head shall notify the Governor and Cabinet in writing of the intention to terminate the inspector general at least 7 days prior to the removal.~~

(d) The Governor, the Governor and Cabinet, the agency head, or agency staff may ~~shall~~ not prevent or prohibit the inspector general from initiating, carrying out, or completing any audit or investigation.

(e) The Office of Inspector General shall have its own budget within the respective state agency, developed in consultation with the Chief Inspector General, sufficient to meet its mission.

(5) In carrying out the auditing duties and responsibilities in this section ~~of this act~~, each inspector general shall review and evaluate internal controls necessary to ensure the fiscal accountability of the state agency. The inspector general shall conduct financial, compliance, electronic data processing, and performance audits of the agency and prepare audit reports of his or her findings. The scope and assignment of the audits shall be determined by the inspector general; however, the agency head may at any time direct the inspector general to perform an audit of a special program, function, or organizational unit. The performance of the audit shall be under the direction of the inspector general, except that if the inspector general does not possess the qualifications specified in subsection (4), the director of auditing shall perform the functions listed in this subsection.

(a) Such audits shall be conducted in accordance with the current International Standards for the Professional Practice of Internal Auditing as published by the Institute of Internal

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Auditors, Inc., or, where appropriate, in accordance with generally accepted governmental auditing standards. All audit reports issued by internal audit staff shall include a statement that the audit was conducted pursuant to the appropriate standards.

(b) Audit workpapers and reports shall be public records to the extent that they do not include information which has been made confidential and exempt from the provisions of s. 119.07(1) pursuant to law. However, when the inspector general or a member of the staff receives from an individual a complaint or information that falls within the definition provided in s. 112.3187(5), the name or identity of the individual shall not be disclosed to anyone else without the written consent of the individual, unless the inspector general determines that such disclosure is unavoidable during the course of the audit or investigation.

(c) The inspector general and the staff shall have access to any records, data, and other information of the state agency he or she deems necessary to carry out his or her duties. The inspector general is also authorized to request such information or assistance as may be necessary from the state agency or from any federal, state, or local government entity.

(d) At the conclusion of each audit, the inspector general shall submit preliminary findings and recommendations to the person responsible for supervision of the program function or operational unit who shall respond to any adverse findings within 20 working days after receipt of the preliminary findings. Such response and the inspector general's rebuttal to the response shall be included in the final audit report.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(e) At the conclusion of an audit in which the subject of the audit is a specific entity contracting with the state or an individual substantially affected, if the audit is not confidential or otherwise exempt from disclosure by law, the inspector general shall, consistent with s. 119.07(1), submit the findings to the entity contracting with the state or the individual substantially affected, who shall be advised in writing that they may submit a written response within 20 working days after receipt of the findings. The response and the inspector general's rebuttal to the response, if any, must be included in the final audit report.

(f) The inspector general shall submit the final report to the agency head, ~~and to~~ the Auditor General, and, for state agencies under the jurisdiction of the Governor, the Chief Inspector General.

(g) The Auditor General, in connection with the independent postaudit of the same agency pursuant to s. 11.45, shall give appropriate consideration to internal audit reports and the resolution of findings therein. The Legislative Auditing Committee may inquire into the reasons or justifications for failure of the agency head to correct the deficiencies reported in internal audits that are also reported by the Auditor General and shall take appropriate action.

(h) The inspector general shall monitor the implementation of the state agency's response to any report on the state agency issued by the Auditor General or by the Office of Program Policy Analysis and Government Accountability. No later than 6 months after the Auditor General or the Office of Program Policy Analysis and Government Accountability publishes a report on the

state agency, the inspector general shall provide a written response to the agency head on the status of corrective actions taken. The Inspector General shall file a copy of such response with the Legislative Auditing Committee.

(i) The inspector general shall develop long-term and annual audit plans based on the findings of periodic risk assessments. If appropriate, the plan must~~, where appropriate, should~~ include postaudit samplings of payments and accounts. The plan shall show the individual audits to be conducted during each year and related resources to be devoted to the respective audits. The Chief Financial Officer, to assist in fulfilling the responsibilities for examining, auditing, and settling accounts, claims, and demands pursuant to s. 17.03(1), and examining, auditing, adjusting, and settling accounts pursuant to s. 17.04, may use ~~utilize~~ audits performed by the inspectors general and internal auditors. For state agencies under the jurisdiction of the Governor, the audit plans shall be submitted to the agency head for review and to the ~~Governor's~~ Chief Inspector General. The plan shall be submitted to the agency head for approval. For all other state agencies, the plan shall be submitted to the agency head for approval. A copy of the approved plan shall be submitted to the Auditor General.

(7)(a) Except as provided in paragraph (b), each inspector general shall, not later than September 30 of each year, prepare an annual report summarizing the activities of the office during the immediately preceding state fiscal year.

(b) The inspector general of the Florida Housing Finance Corporation shall, not later than 90 days after the end of each fiscal year, prepare an annual report summarizing the activities

of the Office of Inspector General during the immediately preceding fiscal year.

(c) The final reports prepared pursuant to paragraphs (a) and (b) shall be furnished to the heads of the respective agencies and, for state agencies under the jurisdiction of the Governor, the Chief Inspector General. Such reports must ~~shall~~ include, but need not be limited to:

1. A description of activities relating to the development, assessment, and validation of performance measures.

2. A description of significant abuses and deficiencies relating to the administration of programs and operations of the agency disclosed by investigations, audits, reviews, or other activities during the reporting period.

3. A description of the recommendations for corrective action made by the inspector general during the reporting period with respect to significant problems, abuses, or deficiencies identified.

4. The identification of each significant recommendation described in previous annual reports on which corrective action has not been completed.

5. A summary of each audit and investigation completed during the reporting period.

(8) The inspector general in each state agency shall provide to the agency head, upon receipt, all written complaints concerning the duties and responsibilities in this section or any allegation of misconduct related to the office of the inspector general or its employees, if received from subjects of audits or investigations who are individuals substantially affected or entities contracting with the state, as defined in

this section. For state agencies ~~solely~~ under the jurisdiction ~~direction~~ of the Governor, the inspector general shall also provide the complaint to the Chief Inspector General.

Section 3. This act shall take effect July 1, 2014.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1354 revises the managed care accountability contract requirements for the Managed Medical Assistance (MMA) contracts under the Statewide Medicaid Managed Care Program (SMMC). MMA managed care plans that establish a prescribed drug formulary or preferred drug list must provide a broad range of therapeutic options, and, if feasible, the formulary or drug list must include at least two products in a therapeutic class.

Beginning January 1, 2015, each health insurer, managed care organization, health maintenance organization (HMO) and MMA managed care plan must use a single standardized form for obtaining prior authorization for a medical procedure, course of treatment, or prescription drug benefit.

Under the bill, a prior authorization request submitted for prescription drugs is deemed approved unless an insurer responds otherwise within three business days. Health insurers, managed care organizations, HMOs, and MMA managed care plans that restrict medications by a step-therapy or fail-first protocol are required to have a clear and convenient process for providers to request an override of the protocol, among other requirements in the bill. An override must be granted within 72 hours for certain situations where the prescribing provider documents that the drug under the step-therapy or fail-first protocol has been or likely will be ineffective or will cause or will likely cause an adverse reaction. The bill also provides circumstances for the customary period for use of the medication under the step therapy or fail-first protocol to be extended by the

MMA plan, insurer or HMO or terminated by the prescribing provider under certain circumstances.

The bill is likely to have a significant negative, but indeterminate, impact on the Medicaid program and on the State Employees' Group Health Self-Insurance Trust Fund.

II. Present Situation:

Medicaid

Medicaid is a joint federal and state funded program that provides healthcare for low income Floridians. The program is administered by the Agency for Healthcare Administration (AHCA). As of March 31, 2014, 3,539,441 Floridians were enrolled in Medicaid. The program's estimated expenditures for Fiscal Year 2013-2014 are approximately $22.2 billion.[1] The statutory authority for the Medicaid program is contained in ch. 409, F.S.

Statewide Medicaid Managed Care

Part IV of chapter 409, F.S., was created in 2011 by ch. 2011-134, L.O.F., and governs the Statewide Medicaid Managed Care program (SMMC). The program, authorized under two federal Medicaid waivers, is designed for the AHCA to issue invitations to negotiate[2] and competitively procure contracts with managed care plans in 11 regions of the state to provide comprehensive Medicaid coverage for most of the state's enrollees in the Medicaid program. SMMC has two components: managed medical assistance (MMA) and long-term care managed care (LTCMC).

The LTCMC component began enrolling Medicaid recipients in August 2013 and was scheduled to complete its statewide roll-out in March 2014.[3] The MMA component is scheduled to begin enrolling Medicaid recipients in May 2014 and finish its roll-out in August 2014.[4]

The AHCA's current contracts with non-SMMC Medicaid managed care plans allow the plans to develop their own preferred drug list (PDL) and prior authorization processes, including step-therapy and fail-first criteria, which must be approved by the AHCA.[5] Non-SMMC managed care plans also have the ability to deny claims for enrollees who were later determined to be ineligible at the time of service despite having issued a prior authorization.[6]

[6] *Id.*

For the first year of the MMA transition, the AHCA is requiring the MMA plans to use the Medicaid PDL. After the first year, MMA plans may develop a plan-specific PDL for the AHCA's consideration, if requested by the AHCA at that time.[7]

The Patient Protection and Affordable Care Act

In March 2010, the Congress passed and President Barack Obama signed the Patient Protection and Affordable Care Act (PPACA).[8] Among its changes to the U.S. health care system are requirements for health insurers to make coverage available to all individuals and employers. Qualifying coverage may be obtained through an employer, the federal or state exchanges created under PPACA, or private individual or group coverage meeting the minimum essential benefits coverage standard. Florida did not establish its own state exchange under PPACA.

Premium credits and other cost sharing subsidies are available to U.S. citizens and legal immigrants within certain income limits for qualified coverage purchased through the exchange. Premium credits are set on a sliding scale based on a percentage of the federal poverty level and reduce the out-of-pocket costs incurred by individuals and families.[9]

Federal regulations for PPACA also govern an enrollee's coverage bought through the exchanges and for non-grandfathered plans.[10] If an enrollee's coverage bought with advance premium tax credit for a qualified health plan (QHP)[11] is terminated for non-payment of premium, for example, the regulations provide the enrollee a 3-month grace period before cancellation of coverage.[12] During the grace period, the insurer must pay claims for services rendered in the first month but may pend claims for the second and third months.[13] If coverage is ultimately terminated, the termination date is the last day of the first month of the grace period and the insurer may not recoup any claims paid during the first month of the grace period.

The federal regulations do not affect those enrollees who are not enrolled in an exchange plan or do not receive a subsidy. The grace period for these individuals remains at the length required under s. 627.608, F.S., which varies by the length of the premium payment interval. Cancellation of coverage is effective the first day of the grace period if payment is not received.

[13] 45 CFR 156.270.

Step-Therapy or Fail-First Protocols

Step-therapy or fail-first protocols for prescription medication coverage require a member to try a certain drug, usually a generic alternative, before receiving coverage for another drug, usually a branded, more expensive product. Utilization management pharmacy benefit programs were first introduced in the 1980s and became popular with the implementation of tiered co-payment formularies.[14] Typically, step-therapy is applied to a certain drug class with the goal of encouraging generic drug use and decreasing costs without compromising the quality of care.[15] Many step-therapy programs incorporate edits into the system to recognize members through prior claims who have previously received a first-step drug so claims for a second-step drug are not rejected.

One outcome of step-therapy programs, however, has been that enrollees who have had a claim rejected do not have a later claim for a later medication in that same class.[16] The process for notifying the patient and prescriber of a step-therapy claim rejection and the resubmission of an alternate medication varies by insurer.

Prior Authorization for Health Care Services

Insurers may require prior authorization for certain services as a cost control and quality measure. Florida law prohibits requirements for prior authorization for certain services and requires direct access within specified guidelines for certain services such as dermatology.[17] State law currently does not provide a specific standard form or review timeline for a prior authorization process for health care services covered by an insurer, managed care plan, or HMO. Prior authorization is never required for any emergency procedure. Each insurer has established its own prior authorization process and form based on the situation and the type of authorization, service, course of treatment, or prescription. The state has mandated a standard health claims processing form be adopted and used under s. 627.647, F.S., by all hospitals and a separate form for all physicians, dentists and pharmacists.

Federal regulations for Medicaid and the Children's Health Insurance Program (or CHIP, which, in Florida, is known as Kidcare) require that managed care plans have written policies and procedures for initial and continuing authorization decisions that ensure timely access to care for enrollees with serious and chronic conditions.[18] Under these federal regulations, prior authorization decisions may not exceed 14 calendar days following receipt of the request, with a possible extension up to 14 additional calendar days if requested by the enrollee or provider or there is a need for additional information.

For Medicaid, an expedited authorization process is also provided that does not exceed three working days with the ability to extend up to 14 calendar days upon enrollee request, or if

the managed care plan justifies a need for additional information and the extension is in the enrollee's benefit.[19] Regulations governing the CHIP provide a deferral to any existing state law on the authorization of health services, if applicable.[20]

Preferred Provider Listings

Individuals enrolled in plans licensed under s. 627.6471, F.S., known as a "Preferred Provider Organization" or PPO plans, incur higher out-of-pocket costs if the provider is out of network. These out-of-pocket costs can be significant to the consumer. For example, in the standard PPO Option Group Plan for state employees, the enrollee would pay a small copayment for a physician office visit with an in-network provider after the enrollee had met any calendar year deductible, but would incur 40 percent of the costs with an out of network provider for the same service.[21] The state group PPO provider, Florida Blue, provides a list of in-network providers on its website.

Federal regulations require a QHP on a PPACA exchange to make its provider directory available online and to potential enrollees in hard copy, upon request.[22] Further guidance from the federal Centers for Medicare and Medicaid Services (CMS) indicates that QHPs must provide a link from the federal exchange to their networks directly where the consumer can view an up-to-date provider directory. The CMS requires the directory to include the location, contact information, specialty, medical group, any institutional affiliations for each provider and whether the provider is accepting new patients.[23]

State Group Health Insurance Program

Under the authority of s. 110.123, F.S., the Department of Management Services (DMS), through the Division of State Group Insurance, administers the state group insurance program providing employee benefits such as health, life, dental, and vision insurance products under a cafeteria plan consistent with s. 125 of the Internal Revenue Code.

As part of the State Group Insurance Program, the DMS contracts with third party administrators for the self-insured State Employees' PPO Plan and four self-insured HMO plans; contracts directly with two fully-insured HMOs; and contracts with a pharmacy benefits manager (PBM) for the State Employees' Prescription Drug Plan. The State Employees' Prescription Drug Plan covers all PPO and HMO plan members (excluding Medicare Advantage Plans offered exclusively to eligible retirees).

III. Effect of Proposed Changes:

Statewide Medicaid Managed Care Program (Section 1)

Section 1 revises s. 409.967, F.S., and requires a Medicaid managed care plan in Statewide Medicaid Managed Care (SMMC) that establishes a prescribed drug formulary or a PDL to provide a broad range of therapeutic options for the treatment of disease consistent with the outpatient population. At least two products in each therapeutic class must be included, if feasible. The AHCA indicates it will be required to amend its existing Medicaid contracts to ensure compliance.[24]

Prior Authorization Requirements (Sections 1, 2, and 8)

Health plans, health insurers, and health maintenance organizations (HMOs), including those participating under SMMC, will be required, after January 1, 2015, to use a single, standardized prior authorization form for obtaining approval for a medical procedure, course of treatment, or prescription drug benefit. A pharmacy benefit manager under contract with a managed care plan must also comply with this requirement. The form must be available electronically on the Medicaid managed care plan, insurer, or HMO's website. A prior authorization request completed on the standardized form will be deemed approved upon receipt by the managed care plan unless the managed care plan responds otherwise within three business days. The bill adds the prior authorization provisions to existing s. 409.967, F.S., and creates two new sections, ss. 627.42392 and 641.393, F.S.

The prior authorization requirements in ss. 627.42392 and 641.393, F.S., do not apply to grandfathered health plans.

Medication Protocol Overrides (Sections 1, 3, and 9)

If medications for the treatment of a medical condition are restricted for use through a step-therapy or fail-first protocol by a SMMC plan, an insurer, or a HMO, the prescribing provider must have access to a clear and convenient process to request an override. An override must be granted within 72 hours if the prescribing provider documents that:

- Based on sound clinical evidence, the preferred treatment required under step-therapy or fail-first protocol has been ineffective in the patient's disease or medical condition; or
- Based on sound, clinical evidence or medical and scientific evidence, the preferred treatment required under the step-therapy or fail-first protocol:
  - Is expected or likely to be ineffective based on known relevant physical or mental characteristics of the enrollee and known characteristics of the drug regimen; or
  - Will cause or will likely cause an adverse reaction or other physical harm to the patient.

If the patient does enroll in the step-therapy or fail-first protocol, the duration of the process may not exceed the customary period for use of the medication if the prescriber demonstrates such treatment to be clinically ineffective. If the SMMC plan, an insurer or an HMO can demonstrate that the originally prescribed medication is likely to require more than the customary period to

[24] *See supra,* note 6.

provide any relief or amelioration to the enrollee, the step therapy or fail-first protocol may be extended for an additional time period, but no longer than the customary period for the medication. Notwithstanding these provisions, if the prescribing provider determines the enrollee is having an adverse reaction or suffering physical harm from the use of the medication, the step-therapy or fail first therapy shall be terminated.

To add the provisions on step-therapy and fail-first protocol for the SMMC program, s. 409.967, F.S., is amended and two new sections, ss. 627.42393 and 641.394, F.S., are created to apply the provisions to insurers and HMOs. The medication protocol overrides do not apply to grandfathered health plans.

Payment of Claims (Sections 4 and 7)

Currently, health insurers under s. 627.6131, F.S., and HMOs under s. 641.3155, F.S., are prohibited from retroactively denying claims because of insured ineligibility more than 1 year after the date of the payment of the claim. The bill requires a health insurer or HMO to notify a provider that an insured or subscriber of a PPACA-compliant policy or contract is delinquent in their premium payments at the time of eligibility verification for the treatment in order to deny a claim for that treatment because of patient ineligibility. This provision would not apply to grandfathered plans.

Reduced Rate Insurance Contracts - Provider Listings (Section 5)

For contracts for reduced rates of payment, s. 627.6471, F.S., is revised and an insurer must post a link on its website's homepage to a list of preferred providers. Changes to the provider list must be updated within 24 hours.

Out of State Groups (Section 6)

For any group health insurance policy issued or delivered outside this state to a resident of this state, s. 627.6515, F.S., is updated to incorporate cross references to the newly created sections under ss. 627.42392 and 627.42393, F.S. These sections relating to prior authorization and the medication protocol override process would be applicable to out of state group health insurance policies sold under s. 627.6515, F.S.

The bill has an effective date of July 1, 2014.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Under Article VII, section 18(a) of the State Constitution, a mandate includes a general bill requiring counties or municipalities to spend funds. Counties and municipalities are not bound by a general law to spend funds or take an action unless the Legislature has determined that such a law fulfills an important state interest and one of the specific exceptions specified in the state constitution applies. The implementation of this bill may require some counties and municipalities to spend funds or take actions regarding health insurance programs for their employees because of the step-therapy provisions, which

may increase utilization of more costly brand medications. One of those mandate exceptions is that the law applies to all persons similarly situated, including the state and local governments. This bill may apply to all similarly situated persons, including the state and local governments. Therefore, a finding by the Legislature that the bill fulfills an important state interest would remove the bill from the purview of the constitutional provision.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Consumers may see more timely authorization for certain services, course of treatment, or prescriptions ordered by their health care providers. Health care providers and their patients may also experience less of a burden receiving a brand drug under the step-therapy or fail-first guidelines because patients are provided a statutory mechanism for bypassing step one, if certain indicators are present.

The provisions of the bill would not apply to self-insured plans, which are preempted from state mandates by the federal Employee Retirement Income Security Act (ERISA). In 2011, 58.5 percent of workers with private health coverage were enrolled in self-insured plans.[25]

Insurers, managed care organizations, and health maintenance organizations are likely to experience an indeterminate but significant increase in costs to cover prescription drugs under the bill. Those cost increases are likely to flow through to the purchasers of health insurance coverage, such as individuals and employers.

Individuals and employers with private insurance coverage may see an increase in out-of-pocket costs or premiums for health coverage related to the implementation of the bill's step-therapy and prior authorization provisions. Insurers use these measures as utilization management and cost control tools and will affect some current policies and procedures of insurers.

[25] https://www.shrm.org/hrdisciplines/benefits/Articles/Pages/Self-Insured-Health-Plans.aspx (last visited April 4, 2014).

Insurers under s. 627.6471, F.S., have an additional administrative impact complying with posting a list of preferred providers to their website and reflecting changes within 24 hours.

C. Government Sector Impact:

Medicaid
The bill has a negative indeterminate fiscal impact to Medicaid. This negative impact is likely to be significant given that Statewide Medicaid Managed Care is scheduled to fully complete its phase-in by August 2014. According to an actuarial analysis conducted by the Wakely Consulting Group for the Florida Association of Health Plans on April 3, 2014, Medicaid managed care plans were able to reduce the costs of providing prescription drugs to Medicaid recipients by 37 percent in calendar year 2012 when compared to those same costs in Medicaid's MediPass (fee-for-service) program during Fiscal Year 2011-2012, due, in part, to the plans' use of step-edit and prior authorization protocols authorized under current law.[26] The bill may increase the cost of providing a prescribed drug to Medicaid enrollees because it makes changes to the step-therapy and fail-first requirements for plan enrollees and provides a mechanism for prescribers to seek an override of that process with documentation. The AHCA would also need to modify existing Medicaid managed care plan contracts to incorporate the revised step-therapy and formulary requirements.

Division of State Group Insurance
According to the Department of Management Services, the bill would have a negative, significant, indeterminate impact on the State Employees' Group Health Self-Insurance Trust Fund. Excerpts of the fiscal analysis provided by the Division of State Group Insurance of the Department of Management Services are provided below:[27]

Prior Authorization Forms*:* The bill's requirement for health plans and pharmacy benefit plans to use a standardized authorization form when requesting a health plan's prior approval of a service or prescription could impede and decrease efficiency for the prior authorization process for both the doctor and the health plan. For example, the two-page form submitted may be incomplete or not have the necessary information to make an informed decision within three business days. It is unclear if there is a mechanism to request additional information to make a decision outside the three -day window, nor does there appear to be a process for unfavorable decisions or for cases needing same-day decisions (e.g., emergency situations). The three-day turnaround is shorter than timelines set by the National Committee on Quality Assurance for non-urgent service decisions.

Further, drugs and services subject to prior authorization vary greatly among health plans; it may not be possible to design a single prior authorization form that meets every medical and/or prescription drug need or use.

[26] Wakely Consulting Group analysis on file with staff of the Committee on Appropriations.
[27] Department of Management Services, *Senate Bill 1354 Analysis* (Mar. 25, 2014) (on file with Senate Committee on Banking and Insurance).

Online Provider Directory*:* Regarding the 24-hour timeframe, the bill does not address situations where the provider may end its network status retroactively.

VI. Technical Deficiencies:

None.

VII. Related Issues:

In several instances, the bill requires an insurer or managed care plan to provide an override process for a prescriber that permits an enrollee to "receive" a certain drug based on the premise that the "use" of medication might be restricted by an insurer or managed care plan. However, insurers and managed care plans cannot prohibit an enrollee or subscriber from receiving or using prescription drugs or medications. Insurers and managed care plans may utilize certain protocols regarding the *payment* for prescription drugs and medications received or used by enrollees or subscribers, but they cannot prohibit any person from receiving or using drugs or medications. The bill's language along these lines creates uncertainty as to the effect of those provisions and how those provisions will be interpreted by state regulatory agencies.

The bill provides a deadline of January 1, 2015, for using a single, standardized prior authorization form. It is unclear whether this deadline would provide adequate time for implementation.

Section 1311(d)(3)(B) of the PPACA requires states to defray the costs of state-mandated benefits in excess of essential health benefits for individuals enrolled in any qualified health plan either in the individual market or in the small group market. The bill requires health insurers and HMOs to grant step-therapy overrides within 72 hours to providers who document that step-therapy protocols could be ineffective or harmful. The bill does not address whether the medication must be a covered benefit under the plan. It is unclear whether a plan would be required to pay for an exclusion, such as an experimental or investigational drug because the provider overrides the step-therapy protocol.

In Section 1 of the bill, a conflict exists in the prior authorization timeframes. For health care providers, the time standard for approval of a prior authorization form is three business days. In the next paragraph for prescribing providers, the time standard for approval is two business days. It is not clear which standard should apply for the prior authorization process for providers.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 409.967, 627.6131, 627.6471, 627.6515, and 641.3155.

This bill creates the following sections of the Florida Statutes: 627.42392, 627.42393, 641.393, and 641.394.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 22, 2014:
The CS makes the following substantive changes:

- Eliminates the provision requiring coverage through prior authorization by an MMA plan of any new drug approved by the United States Food and Drug Administration until the Medicaid Pharmaceutical and Therapeutics Committee reviews such drug for inclusion on the formulary;
- Removes the provision permitting a Medicaid enrollee to continue receiving a drug after its removal from the formulary upon written request from the prescribing provider and demonstration that the drug is medically necessary;
- Revises the requirements for standardized prior authorization forms for an MMA plan, insurer and a health maintenance organization (HMO) to require a single, standardized form by January 1, 2015, that is accessible to providers electronically and online;
- Modifies the time standard for approval of a medication protocol override request by an MMA plan, insurer, and an HMO from 24 hours to 72 hours;
- Revises the time standard for approval of prior authorization requests by an MMA plan, insurer, and an HMO from one business day to 3 business days;
- Requires prescribing providers under a step therapy or fail first protocol process for an MMA plan, insurer and an HMO to document ineffectiveness of treatment or adverse reaction for an override; and
- Modifies the conditions under which an enrollee may be terminated from a step-therapy or fail first protocol as the customary period for the medication and adds a process for the MMA plan, insurer, or an HMO to extend the customary period under certain circumstances.

CS by Banking and Insurance on April 8, 2014:
The CS provides technical, conforming changes and the following substantive changes:

- Eliminates provision that would have prohibited health insurers and health maintenance organizations from retroactively denying claims because of insured ineligibility if the insurer or health maintenance organization provided the insured/subscriber with an identification card, which at the time of service identifies the insured/subscriber as eligible to receive services.
- Requires health insurers and health maintenance organizations to notify a provider that an insured/subscriber is delinquent in their payment of premiums at the time of eligibility verification for services in order to be able to deny a claim if the insured/subscriber does not pay their premium for a PPACA compliant policy or contract.
- Exempts grandfathered plans from the step-therapy and prior authorization provisions.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

782304

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/23/2014	.	
	.	
	.	
	.	

The Committee on Appropriations (Grimsley) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Paragraph (c) of subsection (2) of section 409.967, Florida Statutes, is amended to read:

409.967 Managed care plan accountability.—

(2) The agency shall establish such contract requirements as are necessary for the operation of the statewide managed care program. In addition to any other provisions the agency may deem

782304

necessary, the contract must require:

(c) *Access.*—

1. The agency shall establish specific standards for the number, type, and regional distribution of providers in managed care plan networks to ensure access to care for both adults and children. Each plan must maintain a regionwide network of providers in sufficient numbers to meet the access standards for specific medical services for all recipients enrolled in the plan. The exclusive use of mail-order pharmacies may not be sufficient to meet network access standards. Consistent with the standards established by the agency, provider networks may include providers located outside the region. A plan may contract with a new hospital facility before the date the hospital becomes operational if the hospital has commenced construction, will be licensed and operational by January 1, 2013, and a final order has issued in any civil or administrative challenge. Each plan shall establish and maintain an accurate and complete electronic database of contracted providers, including information about licensure or registration, locations and hours of operation, specialty credentials and other certifications, specific performance indicators, and such other information as the agency deems necessary. The database must be available online to ~~both~~ the agency and the public and have the capability <u>of comparing</u> ~~to compare~~ the availability of providers to network adequacy standards and to accept and display feedback from each provider's patients. Each plan shall submit quarterly reports to the agency identifying the number of enrollees assigned to each primary care provider.

782304

2. If establishing a prescribed drug formulary or preferred drug list, a managed care plan shall:

a. Provide a broad range of therapeutic options for the treatment of disease states which are consistent with the general needs of an outpatient population. If feasible, the formulary or preferred drug list must include at least two products in a therapeutic class.

b. ~~Each managed care plan must~~ Publish the ~~any~~ prescribed drug formulary or preferred drug list on the plan's website in a manner that is accessible to and searchable by enrollees and providers. The plan shall ~~must~~ update the list within 24 hours after making a change. ~~Each plan must ensure that the prior authorization process for prescribed drugs is readily accessible to health care providers, including posting appropriate contact information on its website and providing timely responses to providers.~~

3. For enrollees ~~Medicaid recipients~~ diagnosed with hemophilia who have been prescribed anti-hemophilic-factor replacement products, the agency shall provide for those products and hemophilia overlay services through the agency's hemophilia disease management program.

~~3. Managed care plans, and their fiscal agents or intermediaries, must accept prior authorization requests for any service electronically.~~

4. Notwithstanding any other law, in order to establish uniformity in the submission of prior authorization forms, effective January 1, 2015, a managed care plan shall use a single standardized form for obtaining prior authorization for a medical procedure, course of treatment, or prescription drug

782304

benefit. The form may not exceed two pages in length, excluding any instructions or guiding documentation.

a. The managed care plan shall make the form available electronically and online to practitioners. The prescribing provider may electronically submit the completed prior authorization form to the managed care plan.

b. If the managed care plan contracts with a pharmacy benefits manager to perform prior authorization services for a medical procedure, course of treatment, or prescription drug benefit, the pharmacy benefits manager must use and accept the standardized prior authorization form.

c. A completed prior authorization request submitted by a health care provider using the standardized prior authorization form is deemed approved upon receipt by the managed care plan unless the managed care plan responds otherwise within 3 business days.

5. If medications for the treatment of a medical condition are restricted for use by a managed care plan by a step-therapy or fail-first protocol, the prescribing provider must have access to a clear and convenient process to request an override of the protocol from the managed care plan.

a. The managed care plan shall grant an override within 72 hours if the prescribing provider documents that:

(I) Based on sound clinical evidence, the preferred treatment required under the step-therapy or fail-first protocol has been ineffective in the treatment of the enrollee’s disease or medical condition; or

(II) Based on sound clinical evidence or medical and scientific evidence, the preferred treatment required under the

step-therapy or fail-first protocol:

(A) Is expected or is likely to be ineffective based on known relevant physical or mental characteristics of the enrollee and known characteristics of the drug regimen; or

(B) Will cause or will likely cause an adverse reaction or other physical harm to the enrollee.

b. If the prescribing provider allows the enrollee to enter the step-therapy or fail-first protocol recommended by the managed care plan, the duration of the step-therapy or fail-first protocol may not exceed the customary period for use of the medication if the prescribing provider demonstrates such treatment to be clinically ineffective. If the managed care plan can, through sound clinical evidence, demonstrate that the originally prescribed medication is likely to require more than the customary period to provide any relief or amelioration to the enrollee, the step-therapy or fail-first protocol may be extended for an additional period, but no longer than the original customary period for use of the medication. Notwithstanding this provision, a step-therapy or fail-first protocol shall be terminated if the prescribing provider determines that the enrollee is having an adverse reaction or is suffering from other physical harm resulting from the use of the medication.

Section 2. Section 627.42392, Florida Statutes, is created to read:

627.42392 Prior authorization.—

(1) Notwithstanding any other law, in order to establish uniformity in the submission of prior authorization forms, effective January 1, 2015, a health insurer that delivers,

782304

issues for delivery, renews, amends, or continues an individual or group health insurance policy in this state, including a policy issued to a small employer as defined in s. 627.6699, shall use a single standardized form for obtaining prior authorization for a medical procedure, course of treatment, or prescription drug benefit. The form may not exceed two pages in length, excluding any instructions or guiding documentation.

(a) The health insurer shall make the form available electronically and online to practitioners. The prescribing provider may submit the completed prior authorization form electronically to the health insurer.

(b) If the health insurer contracts with a pharmacy benefits manager to perform prior authorization services for a medical procedure, course of treatment, or prescription drug benefit, the pharmacy benefits manager must use and accept the standardized prior authorization form.

(c) A completed prior authorization request submitted by a health care provider using the standardized prior authorization form is deemed approved upon receipt by the health insurer unless the health insurer responds otherwise within 3 business days.

(2) A completed prior authorization request submitted by a prescribing provider using the standardized prior authorization form required under subsection (1) is deemed approved upon receipt by the health insurer unless the health insurer responds otherwise within 2 business days.

(3) This section does not apply to a grandfathered health plan as defined in s. 627.402.

Section 3. Section 627.42393, Florida Statutes, is created

782304

to read:

627.42393 Medication protocol override.—If an individual or group health insurance policy, including a policy issued by a small employer as defined in s. 627.6699, restricts medications for the treatment of a medical condition by a step-therapy or fail-first protocol, the prescribing provider must have access to a clear and convenient process to request an override of the protocol from the health insurer.

(1) The health insurer shall authorize an override of the protocol within 72 hours if the prescribing provider documents that:

(a) Based on sound clinical evidence, the preferred treatment required under the step-therapy or fail-first protocol has been ineffective in the treatment of the insured's disease or medical condition; or

(b) Based on sound clinical evidence or medical and scientific evidence, the preferred treatment required under the step-therapy or fail-first protocol:

1. Is expected or is likely to be ineffective based on known relevant physical or mental characteristics of the insured and known characteristics of the drug regimen; or

2. Will cause or is likely to cause an adverse reaction or other physical harm to the insured.

(2) If the prescribing provider allows the insured to enter the step-therapy or fail-first protocol recommended by the health insurer, the duration of the step-therapy or fail-first protocol may not exceed the customary period for use of the medication if the prescribing provider demonstrates such treatment to be clinically ineffective. If the health insurer

782304

can, through sound clinical evidence, demonstrate that the originally prescribed medication is likely to require more than the customary period for such medication to provide any relief or amelioration to the insured, the step-therapy or fail-first protocol may be extended for an additional period of time, but no longer than the original customary period for the medication. Notwithstanding this provision, a step-therapy or fail-first protocol shall be terminated if the prescribing provider determines that the insured is having an adverse reaction or is suffering from other physical harm resulting from the use of the medication.

(3) This section does not apply to grandfathered health plans, as defined in s. 627.402.

Section 4. Subsection (11) of section 627.6131, Florida Statutes, is amended to read:

627.6131 Payment of claims.—

(11) A health insurer may not retroactively deny a claim because of insured ineligibility:

(a) More than 1 year after the date of payment of the claim; or

(b) If, under a policy compliant with the federal Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act of 2010, and the regulations adopted pursuant to those acts, the health insurer verified the eligibility of the insured at the time of treatment and provided an authorization number, unless, at the time eligibility was verified, the provider was notified that the insured was delinquent in paying the premium.

Section 5. Subsection (2) of section 627.6471, Florida

782304

Statutes, is amended to read:

627.6471 Contracts for reduced rates of payment; limitations; coinsurance and deductibles.—

(2) An ~~Any~~ insurer issuing a policy of health insurance in this state~~,~~ which ~~insurance~~ includes coverage for the services of a preferred provider shall~~, must~~ provide each policyholder and certificateholder with a current list of preferred providers, shall ~~and must~~ make the list available for public inspection during regular business hours at the principal office of the insurer within the state, and shall post a link to the list of preferred providers on the home page of the insurer's website. Changes to the list of preferred providers must be reflected on the insurer's website within 24 hours.

Section 6. Paragraph (c) of subsection (2) of section 627.6515, Florida Statutes, is amended to read:

627.6515 Out-of-state groups.—

(2) Except as otherwise provided in this part, this part does not apply to a group health insurance policy issued or delivered outside this state under which a resident of this state is provided coverage if:

(c) The policy provides the benefits specified in ss. 627.419, 627.42392, 627.42393, 627.6574, 627.6575, 627.6579, 627.6612, 627.66121, 627.66122, 627.6613, 627.667, 627.6675, 627.6691, and 627.66911, and complies with the requirements of s. 627.66996.

Section 7. Subsection (10) of section 641.3155, Florida Statutes, is amended to read:

641.3155 Prompt payment of claims.—

(10) A health maintenance organization may not

782304

retroactively deny a claim because of subscriber ineligibility:

(a) More than 1 year after the date of payment of the claim; or

(b) If, under a policy in compliance with the federal Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act of 2010, and the regulations adopted pursuant to those acts, the health maintenance organization verified the eligibility of the subscriber at the time of treatment and provided an authorization number, unless, at the time eligibility was verified, the provider was notified that the subscriber was delinquent in paying the premium.

Section 8. Section 641.393, Florida Statutes, is created to read:

641.393 Prior authorization.—Notwithstanding any other law, in order to establish uniformity in the submission of prior authorization forms, effective January 1, 2015, a health maintenance organization shall use a single standardized form for obtaining prior authorization for prescription drug benefits. The form may not exceed two pages in length, excluding any instructions or guiding documentation.

(1) A health maintenance organization shall make the form available electronically and online to practitioners. A health care provider may electronically submit the completed form to the health maintenance organization.

(2) If a health maintenance organization contracts with a pharmacy benefits manager to perform prior authorization services for prescription drug benefits, the pharmacy benefits manager must use and accept the standardized prior authorization

782304

form.

(3) A completed prior authorization request submitted by a health care provider using the standardized prior authorization form required under this section is deemed approved upon receipt by the health maintenance organization unless the health maintenance organization responds otherwise within 3 business days.

(4) This section does not apply to grandfathered health plans, as defined in s. 627.402.

Section 9. Section 641.394, Florida Statutes, is created to read:

641.394 Medication protocol override.—If a health maintenance organization contract restricts medications for the treatment of a medical condition by a step-therapy or fail-first protocol, the prescribing provider shall have access to a clear and convenient process to request an override of the protocol from the health maintenance organization.

(1) The health maintenance organization shall grant an override within 72 hours if the prescribing provider documents that:

(a) Based on sound clinical evidence, the preferred treatment required under the step-therapy or fail-first protocol has been ineffective in the treatment of the subscriber’s disease or medical condition; or

(b) Based on sound clinical evidence or medical and scientific evidence, the preferred treatment required under the step-therapy or fail-first protocol:

1. Is expected or is likely to be ineffective based on known relevant physical or mental characteristics of the

782304

subscriber and known characteristics of the drug regimen; or

2. Will cause or is likely to cause an adverse reaction or other physical harm to the subscriber.

(2) If the prescribing provider allows the subscriber to enter the step-therapy or fail-first protocol recommended by the health maintenance organization, the duration of the step-therapy or fail-first protocol may not exceed the customary period for use of the medication if the prescribing provider demonstrates such treatment to be clinically ineffective. If the health maintenance organization can, through sound clinical evidence, demonstrate that the originally prescribed medication is likely to require more than the customary period to provide any relief or amelioration to the subscriber, the step-therapy or fail-first protocol may be extended for an additional period, but no longer than the original customary period for use of the medication. Notwithstanding this provision, a step-therapy or fail-first protocol shall be terminated if the prescribing provider determines that the subscriber is having an adverse reaction or is suffering from other physical harm resulting from the use of the medication.

(3) This section does not apply to grandfathered health plans, as defined in s. 627.402.

Section 10. This act shall take effect July 1, 2014.

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

782304

An act relating to health care; amending s. 409.967, F.S.; revising contract requirements for Medicaid managed care programs; providing requirements for plans establishing a drug formulary or preferred drug list; requiring the use of a standardized prior authorization form; providing requirements for the form and for the availability and submission of the form; requiring a pharmacy benefits manager to use and accept the form under certain circumstances; establishing a process for providers to override certain treatment restrictions; providing requirements for approval of such overrides; providing an exception to the override protocol in certain circumstances; creating s. 627.42392, F.S.; requiring health insurers to use a standardized prior authorization form; providing requirements for the form and for the availability and submission of the form; requiring a pharmacy benefits manager to use and accept the form under certain circumstances; providing an exemption; creating s. 627.42393, F.S.; establishing a process for providers to override certain treatment restrictions; providing requirements for approval of such overrides; providing an exception to the override protocol in certain circumstances; providing an exemption; amending s. 627.6131, F.S.; prohibiting an insurer from retroactively denying a claim in certain circumstances; amending s. 627.6471, F.S.; requiring insurers to post preferred provider information on a website; specifying that changes to such a website

782304

must be made within a certain time; amending s. 627.6515, F.S.; applying provisions relating to prior authorization and override protocols to out-of-state groups; amending s. 641.3155, F.S.; prohibiting a health maintenance organization from retroactively denying a claim in certain circumstances; creating s. 641.393, F.S.; requiring the use of a standardized prior authorization form by a health maintenance organization; providing requirements for the availability and submission of the form; requiring a pharmacy benefits manager to use and accept the form under certain circumstances; providing an exemption; creating s. 641.394, F.S.; establishing a process for providers to override certain treatment restrictions; providing requirements for approval of such overrides; providing an exception to the override protocol in certain circumstances; providing an exemption; providing an effective date.

By the Committee on Banking and Insurance; and Senator Grimsley

597-04029-14 20141354c1

A bill to be entitled

An act relating to health care; amending s. 409.967, F.S.; revising contract requirements for Medicaid managed care programs; providing requirements for plans establishing a drug formulary or preferred drug list; requiring the plan to authorize an enrollee to continue a drug that is removed or changed, under certain circumstances; requiring the use of a standardized prior authorization form; requiring a pharmacy benefits manager to use and accept the form under certain circumstances; providing requirements for the form and for the availability and submission of the form; establishing a process for providers to override certain treatment restrictions; providing requirements for approval of such overrides; providing an exception to the override protocol in certain circumstances; creating s. 627.42392, F.S.; requiring health insurers to use a standardized prior authorization form; requiring a pharmacy benefits manager to use and accept the form under certain circumstances; providing requirements for the form and for the availability and submission of the form; providing an exemption; creating s. 627.42393, F.S.; establishing a process for providers to override certain treatment restrictions; providing requirements for approval of such overrides; providing an exception to the override protocol in certain circumstances; providing an exemption; amending s. 627.6131, F.S.; prohibiting an insurer from retroactively denying a

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

597-04029-14 20141354c1

claim in certain circumstances; amending s. 627.6471, F.S.; requiring insurers to post preferred provider information on a website; amending s. 627.6515, F.S.; applying provisions relating to prior authorization and override protocols to out-of-state groups; amending s. 641.3155, F.S.; prohibiting a health maintenance organization from retroactively denying a claim in certain circumstances; creating s. 641.393, F.S.; requiring the use of a standardized prior authorization form by a health maintenance organization; requiring a pharmacy benefits manager to use and accept the form under certain circumstances; providing requirements for the availability and submission of the form; providing an exemption; creating s. 641.394, F.S.; establishing a process for providers to override certain treatment restrictions; providing requirements for approval of such overrides; providing an exception to the override protocol in certain circumstances; providing an exemption; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (c) of subsection (2) of section 409.967, Florida Statutes, is amended to read:

409.967 Managed care plan accountability.—

(2) The agency shall establish such contract requirements as are necessary for the operation of the statewide managed care program. In addition to any other provisions the agency may deem

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

necessary, the contract must require:

(c) *Access.*—

1. The agency shall establish specific standards for the number, type, and regional distribution of providers in managed care plan networks to ensure access to care for both adults and children. Each plan must maintain a regionwide network of providers in sufficient numbers to meet the access standards for specific medical services for all recipients enrolled in the plan. The exclusive use of mail-order pharmacies may not be sufficient to meet network access standards. Consistent with the standards established by the agency, provider networks may include providers located outside the region. A plan may contract with a new hospital facility before the date the hospital becomes operational if the hospital has commenced construction, will be licensed and operational by January 1, 2013, and a final order has issued in any civil or administrative challenge. Each plan shall establish and maintain an accurate and complete electronic database of contracted providers, including information about licensure or registration, locations and hours of operation, specialty credentials and other certifications, specific performance indicators, and such other information as the agency deems necessary. The database must be available online to ~~both~~ the agency and the public and have the capability of comparing ~~to compare~~ the availability of providers to network adequacy standards and to accept and display feedback from each provider's patients. Each plan shall submit quarterly reports to the agency identifying the number of enrollees assigned to each primary care provider.

2. If establishing a prescribed drug formulary or preferred drug list, a managed care plan shall:

a. Provide a broad range of therapeutic options for the treatment of disease states which are consistent with the general needs of an outpatient population. If feasible, the formulary or preferred drug list must include at least two products in a therapeutic class.

b. Include coverage through prior authorization for each new drug approved by the United States Food and Drug Administration until the Medicaid Pharmaceutical and Therapeutics Committee reviews such drug for inclusion on the formulary. The timing of the formulary review must comply with s. 409.91195.

c. ~~Each managed care plan must~~ Publish the ~~any~~ prescribed drug formulary or preferred drug list on the plan's website in a manner that is accessible to and searchable by enrollees and providers. The plan shall ~~must~~ update the list within 24 hours after making a change. ~~Each plan must ensure that the prior authorization process for prescribed drugs is readily accessible to health care providers, including posting appropriate contact information on its website and providing timely responses to providers.~~

d. If a prescription drug on a plan's formulary is removed or changed, permit an enrollee who was receiving the drug to continue to receive the drug if the prescribing provider submits a written request that demonstrates that the drug is medically necessary and that the enrollee meets clinical criteria to receive the drug.

3. For enrollees ~~Medicaid recipients~~ diagnosed with

hemophilia who have been prescribed anti-hemophilic-factor replacement products, the agency shall provide for those products and hemophilia overlay services through the agency's hemophilia disease management program.

4. Notwithstanding any other law, in order to establish uniformity in the submission of prior authorization forms, after January 1, 2015, a managed care plan shall use only the standardized prior authorization form adopted by the Financial Services Commission pursuant to s. 627.42392 for obtaining prior authorization for a medical procedure, a course of treatment, or prescription drug benefits.

a. If a managed care plan contracts with a pharmacy benefits manager to perform prior authorization services for prescription drug benefits, the pharmacy benefits manager shall use and accept the standardized prior authorization form. The Office of Insurance Regulation and the managed care plan shall make the form electronically available on their respective websites.

b.~~3.~~ Managed care plans, and their fiscal agents or intermediaries, must accept prior authorization requests for any service electronically.

c. A completed prior authorization request submitted by a health care provider using the standardized prior authorization form required under this subparagraph is deemed approved upon receipt by the managed care plan unless the managed care plan responds otherwise within 2 business days.

5. If medications for the treatment of a medical condition are restricted for use by a managed care plan by a step-therapy or fail-first protocol, the prescribing provider must have

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

access to a clear and convenient process to request an override of the protocol from the managed care plan.

a. The managed care plan shall grant an override within 24 hours if the prescribing provider believes that:

(I) Based on sound clinical evidence, the preferred treatment required under the step-therapy or fail-first protocol has been ineffective in the treatment of the enrollee's disease or medical condition; or

(II) Based on sound clinical evidence or medical and scientific evidence, the preferred treatment required under the step-therapy or fail-first protocol:

(A) Is expected or likely to be ineffective based on known relevant physical or mental characteristics of the enrollee and known characteristics of the drug regimen; or

(B) Will cause or will likely cause an adverse reaction or other physical harm to the enrollee.

b. If the prescribing provider allows the enrollee to enter the step-therapy or fail-first protocol recommended by the managed care plan, the duration of the step-therapy or fail-first protocol may not exceed a period deemed appropriate by the provider. If the prescribing provider deems the treatment clinically ineffective, the enrollee is entitled to receive the recommended course of therapy without requiring the prescribing provider to seek approval for an override of the step-therapy or fail-first protocol.

Section 2. Section 627.42392, Florida Statutes, is created to read:

627.42392 Prior authorization.—Notwithstanding any other law, in order to establish uniformity in the submission of prior

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

authorization forms, after January 1, 2015, a health insurer that delivers, issues for delivery, renews, amends, or continues an individual or group health insurance policy in this state, including a policy issued to a small employer as defined in s. 627.6699, shall use only the standardized prior authorization form adopted by the commission for obtaining prior authorization for a medical procedure, course of treatment, or prescription drug benefits.

(1) If a health insurer contracts with a pharmacy benefits manager to perform prior authorization services for prescription drug benefits, the pharmacy benefits manager shall use and accept the standardized prior authorization form. The commission shall adopt rules prescribing the prior authorization form on or before January 1, 2015, and the office may consult with health insurers or other organizations as necessary in the development of the form. The form may not exceed two pages in length, excluding any instructions or guiding documentation. The office and the health insurer shall make the form electronically available on their respective websites. The prescribing provider may electronically submit the completed form to the health insurer. The adoption of the form by the commission does not constitute a determination that affects the substantial interests of a party under chapter 120.

(2) A completed prior authorization request submitted by a prescribing provider using the standardized prior authorization form required under subsection (1) is deemed approved upon receipt by the health insurer unless the health insurer responds otherwise within 2 business days.

(3) This section does not apply to a grandfathered health

plan as defined in s. 627.402.

Section 3. Section 627.42393, Florida Statutes, is created to read:

627.42393 Medication protocol override.—If an individual or group health insurance policy, including a policy issued by a small employer, as defined in s. 627.6699, restricts medications for the treatment of a medical condition by a step-therapy or fail-first protocol, the prescribing provider must have access to a clear and convenient process to request an override of the protocol from the health insurer.

(1) The health insurer shall authorize an override of the protocol within 24 hours if the prescribing provider believes that:

(a) Based on sound clinical evidence, the preferred treatment required under the step-therapy or fail-first protocol has been ineffective in the treatment of the insured's disease or medical condition; or

(b) Based on sound clinical evidence or medical and scientific evidence, the preferred treatment required under the step-therapy or fail-first protocol:

1. Is expected or likely to be ineffective based on known relevant physical or mental characteristics of the insured and known characteristics of the drug regimen; or

2. Will cause or is likely to cause an adverse reaction or other physical harm to the insured.

(2) If the prescribing provider allows the insured to enter the step-therapy or fail-first protocol recommended by the health insurer, the duration of the step-therapy or fail-first protocol may not exceed a period deemed appropriate by the

provider. If the prescribing provider deems the treatment clinically ineffective, the insured is entitled to receive the recommended course of therapy without requiring the prescribing provider to seek approval for an override of the step-therapy or fail-first protocol.

(3) This section does not apply to grandfathered health plans, as defined in s. 627.402.

Section 4. Subsection (11) of section 627.6131, Florida Statutes, is amended to read:

627.6131 Payment of claims.—

(11) A health insurer may not retroactively deny a claim because of insured ineligibility:

(a) More than 1 year after the date of payment of the claim; or

(b) If, under a policy compliant with the federal Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act of 2010, and regulations adopted pursuant to those acts, the health insurer verified the eligibility of the insured at the time of treatment and provided an authorization number unless, at the time eligibility was verified, the provider was notified that the insured was delinquent in paying the premium.

Section 5. Subsection (2) of section 627.6471, Florida Statutes, is amended to read:

627.6471 Contracts for reduced rates of payment; limitations; coinsurance and deductibles.—

(2) An ~~Any~~ insurer issuing a policy of health insurance in this state~~,~~ which ~~insurance~~ includes coverage for the services of a preferred provider~~,~~ shall ~~must~~ provide each policyholder

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

and certificateholder with a current list of preferred providers, shall ~~and must~~ make the list available for public inspection during regular business hours at the principal office of the insurer within the state, and shall post a link to the list of preferred providers on the home page of the insurer's website. Changes to the list of preferred providers must be reflected on the insurer's website within 24 hours.

Section 6. Paragraph (c) of subsection (2) of section 627.6515, Florida Statutes, is amended to read:

627.6515 Out-of-state groups.—

(2) Except as otherwise provided in this part, this part does not apply to a group health insurance policy issued or delivered outside this state under which a resident of this state is provided coverage if:

(c) The policy provides the benefits specified in ss. 627.419, 627.42392, 627.42393, 627.6574, 627.6575, 627.6579, 627.6612, 627.66121, 627.66122, 627.6613, 627.667, 627.6675, 627.6691, and 627.66911, and complies with the requirements of s. 627.66996.

Section 7. Subsection (10) of section 641.3155, Florida Statutes, is amended to read:

641.3155 Prompt payment of claims.—

(10) A health maintenance organization may not retroactively deny a claim because of subscriber ineligibility:

(a) More than 1 year after the date of payment of the claim; or

(b) If, under a policy compliant with the federal Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act of 2010, and regulations

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

adopted pursuant to those acts, the health maintenance organization verified the eligibility of the subscriber at the time of treatment and provided an authorization number unless, at the time eligibility was verified, the provider was notified that the subscriber was delinquent in paying the premium.

Section 8. Section 641.393, Florida Statutes, is created to read:

641.393 Prior authorization.—Notwithstanding any other law, in order to establish uniformity in the submission of prior authorization forms, after January 1, 2015, a health maintenance organization shall use only the standardized prior authorization form adopted by the Financial Services Commission pursuant to s. 627.42392 for obtaining prior authorization for a medical procedure, a course of treatment, or prescription drug benefits.

(1) If a health maintenance organization contracts with a pharmacy benefits manager to perform prior authorization services for prescription drug benefits, the pharmacy benefits manager must use and accept the standardized prior authorization form. The office and health maintenance organization shall make the form electronically available on their respective websites.

(2) A health care provider may submit the completed form electronically to the health maintenance organization.

(3) A completed prior authorization request submitted by a health care provider using the standardized prior authorization form required under this section is deemed approved upon receipt by the health maintenance organization unless the health maintenance organization responds otherwise within 2 business days.

(4) This section does not apply to grandfathered health

plans, as defined in s. 627.402.

Section 9. Section 641.394, Florida Statutes, is created to read:

641.394 Medication protocol override.—If a health maintenance organization contract restricts medications for the treatment of a medical condition by a step-therapy or fail-first protocol, the prescribing provider shall have access to a clear and convenient process to request an override of the protocol from the health maintenance organization.

(1) The health maintenance organization shall grant an override within 24 hours if the prescribing provider believes that:

(a) Based on sound clinical evidence, the preferred treatment required under the step-therapy or fail-first protocol has been ineffective in the treatment of the subscriber's disease or medical condition; or

(b) Based on sound clinical evidence or medical and scientific evidence, the preferred treatment required under the step-therapy or fail-first protocol:

1. Is expected or likely to be ineffective based on known relevant physical or mental characteristics of the subscriber and known characteristics of the drug regimen; or

2. Will cause or is likely to cause an adverse reaction or other physical harm to the subscriber.

(2) If the prescribing provider allows the subscriber to enter the step-therapy or fail-first protocol recommended by the health maintenance organization, the duration of the step-therapy or fail-first protocol may not exceed a period deemed appropriate by the provider. If the prescribing provider deems

the treatment clinically ineffective, the subscriber is entitled to receive the recommended course of therapy without requiring the prescribing provider to seek approval for an override of the step-therapy or fail-first protocol.

(3) This section does not apply to grandfathered health plans, as defined in s. 627.402.

Section 10. This act shall take effect July 1, 2014.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 1394 (672552)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Education) and Senator Legg
SUBJECT:	Education
DATE:	April 21, 2014
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	deMarsh-Mathues	Klebacha	ED	**Favorable**
2.	Sikes	Elwell	AED	**Fav/CS**
3.	Elwell	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/SB 1394 increases from one to two the number of industry certifications that a student must earn to attain a Merit designation on his or her standard high school diploma.

Current law provides for Scholar and Merit designations that high school students may earn if they satisfy course and testing requirements above-and-beyond those required for a standard high school diploma.

This bill also expands the membership of the Children and Youth Cabinet by adding a superintendent of schools.

This bill has no fiscal impact on state funds.

The bill is effective upon becoming a law.

II. Present Situation:

Currently, Florida public high school students have four options for obtaining a standard high school diploma -- a traditional 4-year, 24-credit option;[1] an 18-credit graduation option;[2] or completion of an International Baccalaureate (IB) or Advanced International Certificate of Education (AICE) curriculum.[3] In addition, current law requires each school district to adopt an early graduation policy allowing a high school student who completes 24 credits in less than eight semesters and meets the grade point average and assessment requirements to graduate early.[4]

Current law provides for Scholar and Merit designations that high school students may earn if they satisfy course and testing requirements above-and-beyond those required for a standard high school diploma.[5] Students pursuing a Scholar designation must:[6]

- Pass the 11th grade English Language Arts assessment, effective when the state transitions to new assessments;
- Earn one credit in Algebra II and one credit in Statistics or an equally rigorous course. When the state transitions to new assessments, students must pass the Algebra II assessment.
- Pass the Biology I end-of-course (EOC) assessment and earn one credit in Chemistry or Physics and one credit in an equally rigorous course.
- Pass the U.S. History EOC assessment.
- Earn two credits in the same foreign language.
- Earn at least one credit in an Advanced Placement, IB, AICE or a dual enrollment course.

Students pursuing a Merit designation must attain one or more industry certifications.[7]

The Children and Youth Cabinet ensures that public policy relating to children and youth promotes interdepartmental collaboration and program implementation so that services are planned, managed, and delivered in an integrated manner to improve the self-sufficiency, safety, economic stability, health, and quality of life for children.[8] The Children and Youth Cabinet consists of the Governor and the following persons:

- The Secretary of Children and Family Services;
- The Secretary of Juvenile Justice;
- The director of the Agency for Persons with Disabilities;
- The director of the Office of Early Learning;

[1] Section 1003.428, F.S., established high school graduation requirements beginning with students entering grade 9 in the 2007-2008 school year. Section 1003. 4282, F.S., established high school graduation requirements for students entering grade 9 in the 2013-2014 school year and thereafter.
[2] Section 1002.3105(5), F.S. Effective July 1, 2013, students may earn a standard high school diploma in 18 credits by achieving a 2.0 GPA; earning credit in the same 15 English Language Arts, mathematics, science, social studies, and fine and performing arts courses required under the traditional 24-credit option; and earning 3 elective credits, instead of the 6 electives required by the 24-credit option.
[3] Sections 1003.428 and 1003.4282, F.S.
[4] Section 1003.4281, F.S.
[5] Section 1003.4285, F.S.
[6] Section 1003.4285(1)(a), F.S.
[7] Section 1003.4285(1)(b), F.S.
[8] Section 402.56 (3)(a), F.S.

- The State Surgeon General;
- The Secretary of Health Care Administration;
- The Commissioner of Education;
- The director of the Statewide Guardian Ad Litem Office;
- The director of the Office of Child Abuse Prevention; and
- Five members representing children and youth advocacy organizations, who are not service providers and who are appointed by the Governor.[9]

III. Effect of Proposed Changes:

The bill increases from one to two the number of industry certifications that a student must earn to attain a Merit designation on his or her standard high school diploma.

The bill also expands the membership of the Children and Youth Cabinet by adding a superintendent of schools, appointed by the Governor, as an additional member.

The bill is effective upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

PCS/SB 1394 has no fiscal impact on state funds.

[9] Section 402.56 (4)(a), F.S.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 402.56 and 1003.4285.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Education on April 9, 2014:
The committee substitute expands the membership of the Children and Youth Cabinet by adding a superintendent of schools as an additional member.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

616272

LEGISLATIVE ACTION

Senate	.	House
Comm: WD	.	
04/23/2014	.	
	.	
	.	
	.	

The Committee on Appropriations (Grimsley) recommended the following:

Senate Amendment (with title amendment)

Delete lines 33 - 43
and insert:
Section 2. Subsection (3) of section 1003.4281, Florida Statutes, is amended to read:
1003.4281 Early high school graduation.—
(3) A student who graduates early may continue to participate in school activities, ~~and~~ social events, and school-authorized or education-related activities occurring during or

616272

outside of the regular instructional school day, regardless of location, and attend and participate in graduation events with the student's cohort, as if the student were still enrolled in high school. A student who graduates early will be included in class ranking, honors, and award determinations for the student's cohort. A student who graduates early must comply with district school board rules and policies regarding access to the school facilities and grounds during normal operating hours.

Section 3. Paragraph (b) of subsection (1) of section 1003.4285, Florida Statutes, is amended to read:

1003.4285 Standard high school diploma designations.—

(1) Each standard high school diploma shall include, as applicable, the following designations if the student meets the criteria set forth for the designation:

(b) *Merit designation.*—In addition to the requirements of ss. 1003.428 and 1003.4282, as applicable, in order to earn the Merit designation, a student must attain two ~~one~~ or more industry certifications from the list established under s. 1003.492.

Section 4. Subsection (1) and paragraphs (a), (b), and (f) of subsection (2) of section 1006.20, Florida Statutes, are amended to read:

1006.20 Athletics in public K-12 schools.—

(1) GOVERNING NONPROFIT ORGANIZATION.—The Florida High School Athletic Association (FHSAA) is designated as the governing nonprofit organization of athletics in Florida public schools.

(a) If the FHSAA fails to meet the provisions of this section, the commissioner shall designate a nonprofit

organization to govern athletics with the approval of the State Board of Education.

(b) The FHSAA is not a state agency as defined in s. 120.52. The FHSAA is ~~shall be~~ subject to ~~the provisions of~~ s. 1006.19.

(c) A private school that wishes to engage in high school athletic competition with a public high school may become a member of the FHSAA. Any high school in the state, including charter schools, virtual schools, and home education cooperatives, may become a member of the FHSAA and participate in the activities of the FHSAA. As used in this paragraph, the term "NFHS" means National Federation of State High School Associations. ~~However,~~

1. Membership in the FHSAA is not mandatory for any school.

2. The FHSAA may not deny or discourage interscholastic competition between its member schools and non-FHSAA member Florida schools, including members of another athletic governing organization, or out-of-state schools that are not members of high school athletic associations that are NFHS members or NFHS affiliate members. The FHSAA ~~and~~ may not take any retributory or discriminatory action against any of its member schools that participate in interscholastic competitions ~~competition~~ with non-FHSAA member Florida schools or out-of-state schools that are not affiliate members of the NFHS.

3. The FHSAA may not unreasonably withhold its approval of an application to become a NFHS ~~an~~ affiliate member which is ~~of the National Federation of State High School Associations~~ submitted by any other organization that governs interscholastic athletic competition in this state.

(d) The bylaws of the FHSAA are the rules by which high school athletic programs in its member schools, and the students who participate in them, are governed, unless otherwise specifically provided by statute.

(e) As used in ~~For the purposes of~~ this section, the term "high school" includes grades 6 through 12.

(2) ADOPTION OF BYLAWS, POLICIES, OR GUIDELINES.—

(a) The FHSAA shall adopt bylaws that, unless otherwise ~~specifically~~ provided by the Florida Statutes ~~statute~~, presume the ~~establish~~ eligibility of ~~requirements for all~~ students to ~~who~~ participate in the interscholastic ~~high school~~ athletic competitions of ~~competition in~~ its member schools and that specify a limited and enumerated list of violations that may result in the ineligibility of students to participate in any interscholastic athletic competition of its member schools. The bylaws must provide the following:

1. A ~~governing residence and transfer shall allow the~~ student remains ~~to be~~ eligible in the school in which he or she first enrolls each school year or the school in which the student makes himself or herself a candidate for an athletic team by engaging in a practice prior to enrolling in the school.

2. A ~~The bylaws shall also allow the~~ student is ~~to be~~ eligible to participate in interscholastic athletic competitions in the school to which the student has transferred during the school year if the transfer is made by a deadline established by the FHSAA, which may not be prior to the date authorized for the beginning of practice for the sport. These transfers shall be allowed pursuant to the district school board policies in the case of transfer to a public school or pursuant to the private

616272

school policies in the case of transfer to a private school. The student shall be eligible in that school so long as he or she remains enrolled in that school. Subsequent eligibility shall be determined and enforced through the FHSAA's bylaws. Requirements governing eligibility and transfer between member schools shall be applied similarly to public school students and private school students. A student may transfer schools for academic and athletic purposes if all other applicable eligibility and transfer requirements are met.

3. A student may not be declared ineligible to play in interscholastic athletic competitions based upon a violation of the FHSAA's recruitment policy or otherwise because the student:

a. Participated on a nonschool team or non-school teams affiliated with the school in which the student ultimately enrolls; or

b. Participated in nonschool athletic activities sponsored by a member school if, after participating, the student registers for, enrolls in, or applies to attend the sponsoring school.

As used in this subparagraph, nonschool teams include, but are not limited to, club teams, travel teams, grade school teams, recreational league teams, personal instruction sessions, and summer camp teams. Nonschool athletic activities include, but are not limited to, activities at a summer camp nonschool athletic program.

(b) The FHSAA shall adopt bylaws that specifically prohibit the recruiting of students for athletic purposes. The restrictions applied to any recruiting activities shall be

616272

expressly listed and clearly defined in the bylaws adopted by the FHSAA. The bylaws must ~~shall~~ prescribe penalties and an appeals process for the enumerated athletic recruiting violations included in the bylaws.

1. If it is determined that a school has recruited a student in violation of FHSAA bylaws, the FHSAA may require the school to participate in a higher classification for the sport in which the recruited student competes for a minimum of one classification cycle, in addition to any other appropriate fine and sanction imposed on the school, its coaches, or adult representatives who violate recruiting rules.

2. A student may not be declared ineligible based on violation of recruiting rules unless the student or parent has falsified any enrollment or eligibility document or accepted any benefit or any promise of benefit if such benefit is not generally available to the school's students or family members or is based in any way on athletic interest, potential, or performance.

3. The mass distribution of untargeted mailings, electronic mailings, or preprinted guides or booklets by or on behalf of a member school which include detailed information regarding such member school's interscholastic athletic programs is not a violation of the FHSAA's athletic recruiting or sportsmanship policies.

(f) The FHSAA shall adopt bylaws that establish sanctions for a person ~~coaches~~ who commits ~~have committed~~ major violations of the FHSAA's bylaws and policies. As used in this paragraph, the term "person" means a coach, an administrator, an official, a faculty member, a member of the athletic staff, or any other

individual engaged in representing, supporting, or promoting the athletic interests of a member school in an official capacity or unofficial, school-sanctioned capacity.

1. Major violations include, but are not limited to, knowingly allowing an ineligible student to participate in a contest representing a member school in an interscholastic contest, ~~or~~ committing a violation of the FHSAA's recruiting or sportsmanship policies, or colluding with a person to prevent a member or nonmember school from scheduling competitions among themselves.

2. Sanctions placed upon an individual person ~~coach~~ may include, but are not limited to, prohibiting or suspending the person ~~coach~~ from coaching, participating in, or attending any athletic activity sponsored, recognized, or sanctioned by the FHSAA and the member school for which the person ~~coach~~ committed the violation. If the person ~~a coach~~ is sanctioned by the FHSAA and the person ~~coach~~ transfers to another member school, those sanctions remain in full force and effect during the term of the sanction.

3. If a member school is assessed a financial penalty as a result of a person ~~coach~~ committing a major violation, the person ~~coach~~ shall reimburse the member school before being allowed to coach, participate in, or attend any athletic activity sponsored, recognized, or sanctioned by the FHSAA and a member school.

4. The FHSAA shall establish a due process procedure for persons who are ~~coaches~~ sanctioned under this paragraph, consistent with the appeals procedures set forth in subsection (7).

LEGISLATIVE ACTION

Senate	.	House
Comm: WD	.	
04/22/2014	.	
	.	
	.	
	.	

The Committee on Appropriations (Latvala) recommended the following:

Senate Amendment (with title amendment)

Delete line 44
and insert:
Section 3. Paragraphs (c) through (g) of subsection (3) of section 1009.22, Florida Statutes, are amended to read:
1009.22 Workforce education postsecondary student fees.—
(3)
(c) Effective July 1, 2014 ~~2011~~, for programs leading to a career certificate or an applied technology diploma, the

601364

standard tuition shall be $2.33 ~~$2.22~~ per contact hour for residents and nonresidents and the out-of-state fee shall be $6.99 ~~$6.66~~ per contact hour. For adult general education programs, a block tuition of $45 per half year or $30 per term shall be assessed ~~for residents and nonresidents, and the out-of-state fee shall be $135 per half year or $90 per term~~. Each district school board and Florida College System institution board of trustees shall adopt policies and procedures for the collection of and accounting for the expenditure of the block tuition. All funds received from the block tuition shall be used only for adult general education programs. Students enrolled in adult general education programs may not be assessed the fees authorized in subsection (5), subsection (6), or subsection (7).

~~(d) Beginning with the 2008-2009 fiscal year and each year thereafter, the tuition and the out-of-state fee per contact hour shall increase at the beginning of each fall semester at a rate equal to inflation, unless otherwise provided in the General Appropriations Act. The Office of Economic and Demographic Research shall report the rate of inflation to the President of the Senate, the Speaker of the House of Representatives, the Governor, and the State Board of Education each year prior to March 1. For purposes of this paragraph, the rate of inflation shall be defined as the rate of the 12-month percentage change in the Consumer Price Index for All Urban Consumers, U.S. City Average, All Items, or successor reports as reported by the United States Department of Labor, Bureau of Labor Statistics, or its successor for December of the previous year. In the event the percentage change is negative, the tuition and out-of-state fee shall remain at the same level as~~

601364

~~the prior fiscal year.~~

(d) ~~(c)~~ Each district school board and each Florida College System institution board of trustees may adopt tuition and out-of-state fees that may vary no more than 5 percent below and 5 percent above the combined total of the standard tuition and out-of-state fees established in paragraph (c).

(e) ~~(f)~~ The maximum increase in resident tuition for any school district or Florida College System institution during the 2007-2008 fiscal year shall be 5 percent over the tuition charged during the 2006-2007 fiscal year.

(f) ~~(g)~~ The State Board of Education may adopt, by rule, the definitions and procedures that district school boards and Florida College System institution boards of trustees shall use in the calculation of cost borne by students.

Section 4. Subsection (3) of section 1009.23, Florida Statutes, is amended to read:

1009.23 Florida College System institution student fees.—

(3)(a) Effective July 1, 2014 ~~2011~~, for advanced and professional, postsecondary vocational, developmental education, and educator preparation institute programs, the standard tuition shall be $71.98 ~~$68.56~~ per credit hour for residents and nonresidents, and the out-of-state fee shall be $215.94 ~~$205.82~~ per credit hour.

(b) Effective July 1, 2014 ~~2011~~, for baccalaureate degree programs, the following tuition and fee rates shall apply:

1. The tuition shall be $91.79 ~~$87.42~~ per credit hour for students who are residents for tuition purposes.

2. The sum of the tuition and the out-of-state fee per credit hour for students who are nonresidents for tuition

601364

purposes shall be no more than 85 percent of the sum of the tuition and the out-of-state fee at the state university nearest the Florida College System institution.

~~(c) Beginning with the 2008-2009 fiscal year and each year thereafter, the tuition and the out-of-state fee shall increase at the beginning of each fall semester at a rate equal to inflation, unless otherwise provided in the General Appropriations Act. The Office of Economic and Demographic Research shall report the rate of inflation to the President of the Senate, the Speaker of the House of Representatives, the Governor, and the State Board of Education each year prior to March 1. For purposes of this paragraph, the rate of inflation shall be defined as the rate of the 12-month percentage change in the Consumer Price Index for All Urban Consumers, U.S. City Average, All Items, or successor reports as reported by the United States Department of Labor, Bureau of Labor Statistics, or its successor for December of the previous year. In the event the percentage change is negative, the tuition and the out-of-state fee per credit hour shall remain at the same levels as the prior fiscal year.~~

Section 5. Paragraphs (a), (b), and (e) of subsection (4) and paragraph (b) of subsection (16) of section 1009.24, Florida Statutes, are amended, to read:

1009.24 State university student fees.—

(4)(a) Effective July 1, 2014 ~~2011~~, the resident undergraduate tuition for lower-level and upper-level coursework shall be $105.07 ~~$103.32~~ per credit hour.

~~(b) Beginning with the 2008-2009 fiscal year and each year thereafter, the resident undergraduate tuition per credit hour~~

601364

~~shall increase at the beginning of each fall semester at a rate equal to inflation, unless otherwise provided in the General Appropriations Act. The Office of Economic and Demographic Research shall report the rate of inflation to the President of the Senate, the Speaker of the House of Representatives, the Governor, and the Board of Governors each year prior to March 1. For purposes of this paragraph, the rate of inflation shall be defined as the rate of the 12-month percentage change in the Consumer Price Index for All Urban Consumers, U.S. City Average, All Items, or successor reports as reported by the United States Department of Labor, Bureau of Labor Statistics, or its successor for December of the previous year. In the event the percentage change is negative, the resident undergraduate tuition shall remain at the same level as the prior fiscal year.~~

(d) ~~(c)~~ The sum of the activity and service, health, and athletic fees a student is required to pay to register for a course may ~~shall~~ not exceed 40 percent of the tuition established in law or in the General Appropriations Act. No university shall be required to lower any fee in effect on the effective date of this act in order to comply with this subsection. Within the 40 percent cap, universities may not increase the aggregate sum of activity and service, health, and athletic fees more than 5 percent per year~~, or the same percentage increase in tuition authorized under paragraph (b), whichever is greater,~~ unless specifically authorized in law or in the General Appropriations Act. A university may increase its athletic fee to defray the costs associated with changing National Collegiate Athletic Association divisions. Any such increase in the athletic fee may exceed both the 40 percent cap

and the 5 percent cap imposed by this subsection. Any such increase must be approved by the athletic fee committee in the process outlined in subsection (12) and may not ~~cannot~~ exceed $2 per credit hour. Notwithstanding ~~the provisions of~~ ss. 1009.534, 1009.535, and 1009.536, that portion of any increase in an athletic fee pursuant to this subsection which ~~that~~ causes the sum of the activity and service, health, and athletic fees to exceed the 40 percent cap or the annual increase in such fees to exceed the 5 percent cap may ~~shall~~ not be included in calculating the amount a student receives for a Florida Academic Scholars award, a Florida Medallion Scholars award, or a Florida Gold Seal Vocational Scholars award. Notwithstanding this paragraph and subject to approval by the board of trustees, each state university may ~~is authorized to~~ exceed the 5 percent ~~5-percent~~ cap on the annual increase to the aggregate sum of activity and service, health, and athletic fees for the 2010-2011 fiscal year. Any such increase may ~~shall~~ not exceed 15 percent or the amount required to reach the 2009-2010 fiscal year statewide average for the aggregate sum of activity and service, health, and athletic fees at the main campuses, whichever is greater. The aggregate sum of the activity and service, health, and athletic fees may ~~shall~~ not exceed 40 percent of tuition. Any increase in the activity and service fee, health fee, or athletic fee must be approved by the appropriate fee committee pursuant to subsection (10), subsection (11), or subsection (12).

(16) Each university board of trustees may establish a tuition differential for undergraduate courses upon receipt of approval from the Board of Governors. The tuition differential

shall promote improvements in the quality of undergraduate education and shall provide financial aid to undergraduate students who exhibit financial need.

(b) Each tuition differential is subject to the following conditions:

1. The tuition differential may be assessed on one or more undergraduate courses or on all undergraduate courses at a state university.

2. The tuition differential may vary by course or courses, campus or center location, and by institution. Each university board of trustees shall strive to maintain and increase enrollment in degree programs related to math, science, high technology, and other state or regional high-need fields when establishing tuition differentials by course.

3. For each state university that is designated as a preeminent state research university by the Board of Governors, pursuant to s. 1001.7065, ~~that has total research and development expenditures for all fields of at least $100 million per year as reported annually to the National Science Foundation,~~ the aggregate sum of tuition and the tuition differential may ~~not~~ be increased by no more than 6 ~~15~~ percent of the total charged for the aggregate sum of these fees in the preceding fiscal year if the university meets or exceeds each performance standard target for that university established annually by the Board of Governors for the following performance standards, each amounting to no more than a 2 percent increase in tuition differential:

a. Increase in the 6-year graduation rate for full-time, first-time-in-college students, as reported annually to the

601364

Integrated Postsecondary Education Data System;

b. Increase in the total annual research expenditures; and

c. Increase in the total patents awarded by the United States Patent and Trademark Office for the most recent years.

~~For each state university that has total research and development expenditures for all fields of less than $100 million per year as reported annually to the National Science Foundation, the aggregate sum of tuition and the tuition differential may not be increased by more than 15 percent of the total charged for the aggregate sum of these fees in the preceding fiscal year.~~

4. The aggregate sum of undergraduate tuition and fees per credit hour, including the tuition differential, may not exceed the national average of undergraduate tuition and fees at 4-year degree-granting public postsecondary educational institutions.

5. The tuition differential shall not be included in any award under the Florida Bright Futures Scholarship Program established pursuant to ss. 1009.53-1009.538.

6. Beneficiaries having prepaid tuition contracts pursuant to s. 1009.98(2)(b) which were in effect on July 1, 2007, and which remain in effect, are exempt from the payment of the tuition differential.

7. The tuition differential may not be charged to any student who was in attendance at the university before July 1, 2007, and who maintains continuous enrollment.

8. The tuition differential may be waived by the university for students who meet the eligibility requirements for the Florida public student assistance grant established in s. 1009.50.

601364

9. Subject to approval by the Board of Governors, the tuition differential authorized pursuant to this subsection may take effect with the 2009 fall term.

Section 6. Subsection (8) of section 1009.26, Florida Statutes, is amended, and subsection (12) is added to that section, to read:

1009.26 Fee waivers.—

(8) A state university, a ~~or~~ Florida College System institution, a career center operated by a school district under s. 1001.44, or a charter technical career center shall waive undergraduate tuition for each recipient of a Purple Heart or another combat decoration superior in precedence who:

(a) Is enrolled as a full-time, part-time, or summer-school student in an undergraduate program that terminates in a degree or certificate;

(b) Is currently, and was at the time of the military action that resulted in the awarding of the Purple Heart or other combat decoration superior in precedence, a resident of this state; and

(c) Submits to the state university or the Florida College System institution the DD-214 form issued at the time of separation from service as documentation that the student has received a Purple Heart or another combat decoration superior in precedence. If the DD-214 is not available, other documentation may be acceptable if recognized by the United States Department of Defense or the United States Department of Veterans Affairs as documenting the award.

Such a waiver for a Purple Heart recipient or recipient of

601364

another combat decoration superior in precedence shall be applicable for 110 percent of the number of required credit hours of the degree or certificate program for which the student is enrolled.

(12)(a) A state university, a Florida College System institution, a career center operated by a school district under s. 1001.44, or a charter technical career center shall waive out-of-state fees for students, including but not limited to students who are undocumented for federal immigration purposes, who meet the following conditions:

1. Attended a secondary school in this state, which is not the Florida Virtual School Global, for 3 consecutive years immediately before graduating from a high school in this state;

2. Enrolled in a degree or certificate program at an institution of higher education within 24 months after high school graduation; and

3. Submitted an official Florida high school transcript as evidence of attendance and graduation.

(b) Tuition and fees charged to a student who qualifies for the out-of-state fee waiver under this subsection may not exceed the tuition and fees charged to a resident student. The waiver is applicable for 110 percent of the required credit hours of the degree or certificate program for which the student is enrolled. Each state university, Florida College System institution, career center operated by a school district under s. 1001.44, and charter technical career center shall report to the Board of Governors and the State Board of Education, as appropriate, the number and value of all fee waivers granted annually under this subsection. The Board of Governors for the

601364

state universities and the State Board of Education for Florida College System institutions, career centers operated by a school district under s. 1001.44, and charter technical career centers shall annually certify within their legislative budget requests that the percentage of resident students enrolled systemwide is at least the same as the 2013-2014 resident student enrollment systemwide.

(c) A student who is granted an out-of-state fee waiver under this subsection is not eligible for state financial aid under part III of chapter 1009.

Section 7. Subsection (10) of section 1009.98, Florida Statutes, is amended to read:

1009.98 Stanley G. Tate Florida Prepaid College Program.—

(10) PAYMENTS ON BEHALF OF QUALIFIED BENEFICIARIES.—

(a) As used in this subsection, the term:

1. "Actuarial reserve" means the amount by which the expected value of the assets exceeds ~~exceed~~ the expected value of the liabilities of the trust fund.

2. "Dormitory fees" means the fees included under advance payment contracts pursuant to paragraph (2)(d).

3. "Fiscal year" means the fiscal year of the state pursuant to s. 215.01.

4. "Local fees" means the fees covered by an advance payment contract provided pursuant to subparagraph (2)(b)2.

5. "Tuition differential" means the fee covered by advance payment contracts sold pursuant to subparagraph (2)(b)3. The base rate for the tuition differential fee for the 2012-2013 fiscal year is established at $37.03 per credit hour. The base rate for the tuition differential in subsequent years is the

amount assessed ~~paid by the board~~ for the tuition differential for the preceding year adjusted pursuant to subparagraph (b)2.

(b) Effective with the 2009-2010 academic year and thereafter, and notwithstanding the provisions of s. 1009.24, the amount paid by the board to any state university on behalf of a qualified beneficiary of an advance payment contract whose contract was purchased before July 1, 2024 ~~2009~~, shall be:

1. As to registration fees, if the actuarial reserve is less than 5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 5.5 percent above the amount assessed for registration fees in the preceding fiscal year. If the actuarial reserve is between 5 percent and 6 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6 percent above the amount assessed for registration fees in the preceding fiscal year. If the actuarial reserve is between 6 percent and 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6.5 percent above the amount assessed for registration fees in the preceding fiscal year. If the actuarial reserve is equal to or greater than 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 7 percent above the amount assessed for registration fees in the preceding fiscal year, whichever is greater.

2. As to the tuition differential, if the actuarial reserve is less than 5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 5.5 percent above the base rate for the tuition differential fee in the preceding fiscal year. If the actuarial reserve is between 5

601364

percent and 6 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6 percent above the base rate for the tuition differential fee in the preceding fiscal year. If the actuarial reserve is between 6 percent and 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6.5 percent above the base rate for the tuition differential fee in the preceding fiscal year. If the actuarial reserve is equal to or greater than 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 7 percent above the base rate for the tuition differential fee in the preceding fiscal year.

3. As to local fees, the board shall pay the state universities 5 percent above the amount assessed for local fees in the preceding fiscal year.

4. As to dormitory fees, the board shall pay the state universities 6 percent above the amount assessed for dormitory fees in the preceding fiscal year.

5. Qualified beneficiaries of advance payment contracts purchased before July 1, 2007, are exempt from paying any tuition differential fee.

(c) Notwithstanding the amount assessed for registration fees, the tuition differential fee, or local fees, the amount paid by the board to any state university on behalf of a qualified beneficiary of an advance payment contract purchased before July 1, 2024, may not exceed 100 percent of the amount charged by the state university for the aggregate sum of those fees.

(d) Notwithstanding the amount assessed for dormitory fees,

the amount paid by the board to any state university on behalf of a qualified beneficiary of an advance payment contract purchased before July 1, 2024, may not exceed 100 percent of the amount charged by the state university for dormitory fees.

(e) ~~(c)~~ The board shall pay state universities the actual amount assessed in accordance with law for registration fees, the tuition differential, local fees, and dormitory fees for advance payment contracts purchased on or after July 1, 2024 ~~2009~~.

(f) ~~(d)~~ The board shall annually evaluate or cause to be evaluated the actuarial soundness of the trust fund.

Section 8. Subsection (10) of section 1011.80, Florida Statutes, is amended to read:

1011.80 Funds for operation of workforce education programs.—

(10) A high school student dually enrolled under s. 1007.271 in a workforce education program operated by a Florida College System institution or school district career center generates the amount calculated for workforce education funding, including any payment of performance funding, and the proportional share of full-time equivalent enrollment generated through the Florida Education Finance Program for the student's enrollment in a high school. If a high school student is dually enrolled in a Florida College System institution program, including a program conducted at a high school, the Florida College System institution earns the funds generated for workforce education funding, and the school district earns the proportional share of full-time equivalent funding from the Florida Education Finance Program. If a student is dually

601364

enrolled in a career center operated by the same district as the district in which the student attends high school, that district earns the funds generated for workforce education funding and also earns the proportional share of full-time equivalent funding from the Florida Education Finance Program. If a student is dually enrolled in a workforce education program provided by a career center operated by a different school district, the funds must be divided between the two school districts proportionally from the two funding sources. A student may not be reported for funding in a dual enrollment workforce education program unless the student has completed the basic skills assessment pursuant to s. 1004.91. A student who is coenrolled in a K-12 education program and an adult education program may be reported for purposes of funding in an adult education program. If a student is coenrolled in core curricula courses for credit recovery or dropout prevention purposes and does not have a pattern of excessive absenteeism or habitual truancy or a history of disruptive behavior in school, the student may be reported for funding for up to two courses per year. Such a student is exempt from the payment of the block tuition for adult general education programs provided in s. 1009.22(3)(c) ~~s. 1009.22(3)(d)~~. The Department of Education shall develop a list of courses to be designated as core curricula courses for the purposes of coenrollment.

Section 9. A dependent child who is a citizen of the United States of America may not be denied residency classification for tuition purposes based solely on the parent's undocumented immigration status. All applicable laws apply.

Section 10. This act shall take effect July 1, 2014.

The Committee on Appropriations (Bradley) recommended the following:

Senate Substitute for Amendment (601364) (with title amendment)

Delete line 44
and insert:
Section 3. Paragraphs (c) through (g) of subsection (3) of section 1009.22, Florida Statutes, are amended to read:
1009.22 Workforce education postsecondary student fees.—
(3)
(c) Unless otherwise provided in the General Appropriations

944838

Act, effective July 1, 2014 ~~2011~~, for programs leading to a career certificate or an applied technology diploma, the standard tuition shall be $2.33 ~~$2.22~~ per contact hour for residents and nonresidents and the out-of-state fee shall be $6.99 ~~$6.66~~ per contact hour. For adult general education programs, a block tuition of $45 per half year or $30 per term shall be assessed for residents and nonresidents, and the out-of-state fee shall be $135 per half year or $90 per term. Each district school board and Florida College System institution board of trustees shall adopt policies and procedures for the collection of and accounting for the expenditure of the block tuition. All funds received from the block tuition shall be used only for adult general education programs. Students enrolled in adult general education programs may not be assessed the fees authorized in subsection (5), subsection (6), or subsection (7).

~~(d) Beginning with the 2008-2009 fiscal year and each year thereafter, the tuition and the out-of-state fee per contact hour shall increase at the beginning of each fall semester at a rate equal to inflation, unless otherwise provided in the General Appropriations Act. The Office of Economic and Demographic Research shall report the rate of inflation to the President of the Senate, the Speaker of the House of Representatives, the Governor, and the State Board of Education each year prior to March 1. For purposes of this paragraph, the rate of inflation shall be defined as the rate of the 12-month percentage change in the Consumer Price Index for All Urban Consumers, U.S. City Average, All Items, or successor reports as reported by the United States Department of Labor, Bureau of Labor Statistics, or its successor for December of the previous~~

944838

~~year. In the event the percentage change is negative, the tuition and out-of-state fee shall remain at the same level as the prior fiscal year.~~

(d) ~~(e)~~ Each district school board and each Florida College System institution board of trustees may adopt tuition and out-of-state fees that may vary no more than 5 percent below and 5 percent above the combined total of the standard tuition and out-of-state fees established in paragraph (c).

(e) ~~(f)~~ The maximum increase in resident tuition for any school district or Florida College System institution during the 2007-2008 fiscal year shall be 5 percent over the tuition charged during the 2006-2007 fiscal year.

(f) ~~(g)~~ The State Board of Education may adopt, by rule, the definitions and procedures that district school boards and Florida College System institution boards of trustees shall use in the calculation of cost borne by students.

Section 4. Subsection (3) of section 1009.23, Florida Statutes, is amended to read:

1009.23 Florida College System institution student fees.—

(3)(a) Unless otherwise provided in the General Appropriations Act, effective July 1, 2014 ~~2011~~, for advanced and professional, postsecondary vocational, developmental education, and educator preparation institute programs, the standard tuition shall be $71.98 ~~$68.56~~ per credit hour for residents and nonresidents, and the out-of-state fee shall be $215.94 ~~$205.82~~ per credit hour.

(b) Unless otherwise provided in the General Appropriations Act, effective July 1, 2014 ~~2011~~, for baccalaureate degree programs, the following tuition and fee rates shall apply:

944838

1. The tuition shall be $91.79 ~~$87.42~~ per credit hour for students who are residents for tuition purposes.

2. The sum of the tuition and the out-of-state fee per credit hour for students who are nonresidents for tuition purposes shall be no more than 85 percent of the sum of the tuition and the out-of-state fee at the state university nearest the Florida College System institution.

~~(c) Beginning with the 2008-2009 fiscal year and each year thereafter, the tuition and the out-of-state fee shall increase at the beginning of each fall semester at a rate equal to inflation, unless otherwise provided in the General Appropriations Act. The Office of Economic and Demographic Research shall report the rate of inflation to the President of the Senate, the Speaker of the House of Representatives, the Governor, and the State Board of Education each year prior to March 1. For purposes of this paragraph, the rate of inflation shall be defined as the rate of the 12-month percentage change in the Consumer Price Index for All Urban Consumers, U.S. City Average, All Items, or successor reports as reported by the United States Department of Labor, Bureau of Labor Statistics, or its successor for December of the previous year. In the event the percentage change is negative, the tuition and the out-of-state fee per credit hour shall remain at the same levels as the prior fiscal year.~~

Section 5. Paragraphs (a), (b), and (e) of subsection (4) and paragraph (b) of subsection (16) of section 1009.24, Florida Statutes, are amended, to read:

1009.24 State university student fees.—

(4)(a) Unless otherwise provided in the General

944838

Appropriations Act, effective July 1, 2014 ~~2011~~, the resident undergraduate tuition for lower-level and upper-level coursework shall be $105.07 ~~$103.32~~ per credit hour.

~~(b) Beginning with the 2008-2009 fiscal year and each year thereafter, the resident undergraduate tuition per credit hour shall increase at the beginning of each fall semester at a rate equal to inflation, unless otherwise provided in the General Appropriations Act. The Office of Economic and Demographic Research shall report the rate of inflation to the President of the Senate, the Speaker of the House of Representatives, the Governor, and the Board of Governors each year prior to March 1. For purposes of this paragraph, the rate of inflation shall be defined as the rate of the 12-month percentage change in the Consumer Price Index for All Urban Consumers, U.S. City Average, All Items, or successor reports as reported by the United States Department of Labor, Bureau of Labor Statistics, or its successor for December of the previous year. In the event the percentage change is negative, the resident undergraduate tuition shall remain at the same level as the prior fiscal year.~~

(d) ~~(c)~~ The sum of the activity and service, health, and athletic fees a student is required to pay to register for a course may ~~shall~~ not exceed 40 percent of the tuition established in law or in the General Appropriations Act. No university shall be required to lower any fee in effect on the effective date of this act in order to comply with this subsection. Within the 40 percent cap, universities may not increase the aggregate sum of activity and service, health, and athletic fees more than 5 percent per year, or the same percentage increase in tuition authorized under paragraph (a)

944838

~~(b)~~, whichever is greater, unless specifically authorized in law or in the General Appropriations Act. A university may increase its athletic fee to defray the costs associated with changing National Collegiate Athletic Association divisions. Any such increase in the athletic fee may exceed both the 40 percent cap and the 5 percent cap imposed by this subsection. Any such increase must be approved by the athletic fee committee in the process outlined in subsection (12) and may not ~~cannot~~ exceed $2 per credit hour. Notwithstanding ~~the provisions of~~ ss. 1009.534, 1009.535, and 1009.536, that portion of any increase in an athletic fee pursuant to this subsection which ~~that~~ causes the sum of the activity and service, health, and athletic fees to exceed the 40 percent cap or the annual increase in such fees to exceed the 5 percent cap may ~~shall~~ not be included in calculating the amount a student receives for a Florida Academic Scholars award, a Florida Medallion Scholars award, or a Florida Gold Seal Vocational Scholars award. Notwithstanding this paragraph and subject to approval by the board of trustees, each state university may ~~is authorized to~~ exceed the 5 percent ~~5-percent~~ cap on the annual increase to the aggregate sum of activity and service, health, and athletic fees for the 2010-2011 fiscal year. Any such increase may ~~shall~~ not exceed 15 percent or the amount required to reach the 2009-2010 fiscal year statewide average for the aggregate sum of activity and service, health, and athletic fees at the main campuses, whichever is greater. The aggregate sum of the activity and service, health, and athletic fees may ~~shall~~ not exceed 40 percent of tuition. Any increase in the activity and service fee, health fee, or athletic fee must be approved by the

appropriate fee committee pursuant to subsection (10), subsection (11), or subsection (12).

(16) Each university board of trustees may establish a tuition differential for undergraduate courses upon receipt of approval from the Board of Governors. The tuition differential shall promote improvements in the quality of undergraduate education and shall provide financial aid to undergraduate students who exhibit financial need.

(b) Each tuition differential is subject to the following conditions:

1. The tuition differential may be assessed on one or more undergraduate courses or on all undergraduate courses at a state university.

2. The tuition differential may vary by course or courses, campus or center location, and by institution. Each university board of trustees shall strive to maintain and increase enrollment in degree programs related to math, science, high technology, and other state or regional high-need fields when establishing tuition differentials by course.

3. For each state university that has total research and development expenditures for all fields of at least $100 million per year as reported annually to the National Science Foundation, the aggregate sum of tuition and the tuition differential may ~~not~~ be increased by no more than 6 ~~15~~ percent of the total charged for the aggregate sum of these fees in the preceding fiscal year. For each state university that has total research and development expenditures for all fields of less than $100 million per year as reported annually to the National Science Foundation, the aggregate sum of tuition and the tuition

944838

differential may not be increased by more than 6 ~~15~~ percent of the total charged for the aggregate sum of these fees in the preceding fiscal year.

4. The aggregate sum of undergraduate tuition and fees per credit hour, including the tuition differential, may not exceed the national average of undergraduate tuition and fees at 4-year degree-granting public postsecondary educational institutions.

5. The tuition differential may ~~shall~~ not be included in any award under the Florida Bright Futures Scholarship Program established pursuant to ss. 1009.53-1009.538.

6. Beneficiaries having prepaid tuition contracts pursuant to s. 1009.98(2)(b) which were in effect on July 1, 2007, and which remain in effect, are exempt from the payment of the tuition differential.

7. The tuition differential may not be charged to any student who was in attendance at the university before July 1, 2007, and who maintains continuous enrollment.

8. The tuition differential may be waived by the university for students who meet the eligibility requirements for the Florida public student assistance grant established in s. 1009.50.

9. Subject to approval by the Board of Governors, the tuition differential authorized pursuant to this subsection may take effect with the 2009 fall term.

Section 6. Subsection (10) of section 1009.98, Florida Statutes, is amended to read:

1009.98 Stanley G. Tate Florida Prepaid College Program.—

(10) PAYMENTS ON BEHALF OF QUALIFIED BENEFICIARIES.—

(a) As used in this subsection, the term:

944838

1. "Actuarial reserve" means the amount by which the expected value of the assets exceeds ~~exceed~~ the expected value of the liabilities of the trust fund.

2. "Dormitory fees" means the fees included under advance payment contracts pursuant to paragraph (2)(d).

3. "Fiscal year" means the fiscal year of the state pursuant to s. 215.01.

4. "Local fees" means the fees covered by an advance payment contract provided pursuant to subparagraph (2)(b)2.

5. "Tuition differential" means the fee covered by advance payment contracts sold pursuant to subparagraph (2)(b)3. The base rate for the tuition differential fee for the 2012-2013 fiscal year is established at $37.03 per credit hour. The base rate for the tuition differential in subsequent years is the amount assessed ~~paid by the board~~ for the tuition differential for the preceding year adjusted pursuant to subparagraph (b)2.

(b) Effective with the 2009-2010 academic year and thereafter, and notwithstanding the provisions of s. 1009.24, the amount paid by the board to any state university on behalf of a qualified beneficiary of an advance payment contract whose contract was purchased before July 1, 2024 ~~2009~~, shall be:

1. As to registration fees, if the actuarial reserve is less than 5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 5.5 percent above the amount assessed for registration fees in the preceding fiscal year. If the actuarial reserve is between 5 percent and 6 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6 percent above the amount assessed for registration fees in the preceding fiscal year. If

the actuarial reserve is between 6 percent and 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6.5 percent above the amount assessed for registration fees in the preceding fiscal year. If the actuarial reserve is equal to or greater than 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 7 percent above the amount assessed for registration fees in the preceding fiscal year, whichever is greater.

2. As to the tuition differential, if the actuarial reserve is less than 5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 5.5 percent above the base rate for the tuition differential fee in the preceding fiscal year. If the actuarial reserve is between 5 percent and 6 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6 percent above the base rate for the tuition differential fee in the preceding fiscal year. If the actuarial reserve is between 6 percent and 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 6.5 percent above the base rate for the tuition differential fee in the preceding fiscal year. If the actuarial reserve is equal to or greater than 7.5 percent of the expected liabilities of the trust fund, the board shall pay the state universities 7 percent above the base rate for the tuition differential fee in the preceding fiscal year.

3. As to local fees, the board shall pay the state universities 5 percent above the amount assessed for local fees in the preceding fiscal year.

944838

4. As to dormitory fees, the board shall pay the state universities 6 percent above the amount assessed for dormitory fees in the preceding fiscal year.

5. Qualified beneficiaries of advance payment contracts purchased before July 1, 2007, are exempt from paying any tuition differential fee.

(c) Notwithstanding the amount assessed for registration fees, the tuition differential fee, or local fees, the amount paid by the board to any state university on behalf of a qualified beneficiary of an advance payment contract purchased before July 1, 2024, may not exceed 100 percent of the amount charged by the state university for the aggregate sum of those fees.

(d) Notwithstanding the amount assessed for dormitory fees, the amount paid by the board to any state university on behalf of a qualified beneficiary of an advance payment contract purchased before July 1, 2024, may not exceed 100 percent of the amount charged by the state university for dormitory fees.

(e) ~~(c)~~ The board shall pay state universities the actual amount assessed in accordance with law for registration fees, the tuition differential, local fees, and dormitory fees for advance payment contracts purchased on or after July 1, 2024 ~~2009~~.

(f) ~~(d)~~ The board shall annually evaluate or cause to be evaluated the actuarial soundness of the trust fund.

Section 7. Subsection (10) of section 1011.80, Florida Statutes, is amended to read:

1011.80 Funds for operation of workforce education programs.—

(10) A high school student dually enrolled under s. 1007.271 in a workforce education program operated by a Florida College System institution or school district career center generates the amount calculated for workforce education funding, including any payment of performance funding, and the proportional share of full-time equivalent enrollment generated through the Florida Education Finance Program for the student's enrollment in a high school. If a high school student is dually enrolled in a Florida College System institution program, including a program conducted at a high school, the Florida College System institution earns the funds generated for workforce education funding, and the school district earns the proportional share of full-time equivalent funding from the Florida Education Finance Program. If a student is dually enrolled in a career center operated by the same district as the district in which the student attends high school, that district earns the funds generated for workforce education funding and also earns the proportional share of full-time equivalent funding from the Florida Education Finance Program. If a student is dually enrolled in a workforce education program provided by a career center operated by a different school district, the funds must be divided between the two school districts proportionally from the two funding sources. A student may not be reported for funding in a dual enrollment workforce education program unless the student has completed the basic skills assessment pursuant to s. 1004.91. A student who is coenrolled in a K-12 education program and an adult education program may be reported for purposes of funding in an adult education program. If a student is coenrolled in core curricula courses

944838

for credit recovery or dropout prevention purposes and does not have a pattern of excessive absenteeism or habitual truancy or a history of disruptive behavior in school, the student may be reported for funding for up to two courses per year. Such a student is exempt from the payment of the block tuition for adult general education programs provided in s. 1009.22(3)(c) ~~s. 1009.22(3)(d)~~. The Department of Education shall develop a list of courses to be designated as core curricula courses for the purposes of coenrollment.

Section 8. This act shall take effect July 1, 2014.

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Education)

A bill to be entitled

An act relating to education; amending s. 402.56, F.S.; adding a superintendent of schools to the membership of the Children and Youth Cabinet; amending s. 1003.4285, F.S.; revising the requirements to earn a Merit designation on a standard high school diploma; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (a) of subsection (4) of section 402.56, Florida Statutes, is amended to read:

402.56 Children's cabinet; organization; responsibilities; annual report.—

(4) MEMBERS.—The cabinet shall consist of 16 ~~14~~ members including the Governor and the following persons:

(a)1. The Secretary of Children and Family Services;

2. The Secretary of Juvenile Justice;

3. The director of the Agency for Persons with Disabilities;

4. The director of the Office of Early Learning;

5. The State Surgeon General;

6. The Secretary of Health Care Administration;

7. The Commissioner of Education;

8. The director of the Statewide Guardian Ad Litem Office;

9. The director of the Office of Child Abuse Prevention;

~~and~~

672552

576-04099A-14

10. A superintendent of schools, appointed by the Governor; and

11.~~10.~~ Five members representing children and youth advocacy organizations, who are not service providers and who are appointed by the Governor.

Section 2. Paragraph (b) of subsection (1) of section 1003.4285, Florida Statutes, is amended to read:

1003.4285 Standard high school diploma designations.—

(1) Each standard high school diploma shall include, as applicable, the following designations if the student meets the criteria set forth for the designation:

(b) *Merit designation.*—In addition to the requirements of ss. 1003.428 and 1003.4282, as applicable, in order to earn the Merit designation, a student must attain two ~~one~~ or more industry certifications from the list established under s. 1003.492.

Section 3. This act shall take effect upon becoming a law.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1394
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Education) and Senator Legg
SUBJECT:	Education
DATE:	April 24, 2014 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1394 increases from one to two the number of industry certifications that a student must earn to attain a Merit designation on his or her standard high school diploma.

Current law provides for Scholar and Merit designations that high school students may earn if they satisfy course and testing requirements above-and-beyond those required for a standard high school diploma.

This bill also expands the membership of the Children and Youth Cabinet by adding a superintendent of schools.

This bill has no fiscal impact on state funds.

The bill is effective upon becoming a law.

II. Present Situation:

Currently, Florida public high school students have four options for obtaining a standard high school diploma -- a traditional 4-year, 24-credit option;[1] an 18-credit graduation option;[2] or completion of an International Baccalaureate (IB) or Advanced International Certificate of Education (AICE) curriculum.[3] In addition, current law requires each school district to adopt an early graduation policy allowing a high school student who completes 24 credits in less than eight semesters and meets the grade point average and assessment requirements to graduate early.[4]

Current law provides for Scholar and Merit designations that high school students may earn if they satisfy course and testing requirements above-and-beyond those required for a standard high school diploma.[5] Students pursuing a Scholar designation must:[6]

- Pass the 11th grade English Language Arts assessment, effective when the state transitions to new assessments;
- Earn one credit in Algebra II and one credit in Statistics or an equally rigorous course. When the state transitions to new assessments, students must pass the Algebra II assessment.
- Pass the Biology I end-of-course (EOC) assessment and earn one credit in Chemistry or Physics and one credit in an equally rigorous course.
- Pass the U.S. History EOC assessment.
- Earn two credits in the same foreign language.
- Earn at least one credit in an Advanced Placement, IB, AICE or a dual enrollment course.

Students pursuing a Merit designation must attain one or more industry certifications.[7]

The Children and Youth Cabinet ensures that public policy relating to children and youth promotes interdepartmental collaboration and program implementation so that services are planned, managed, and delivered in an integrated manner to improve the self-sufficiency, safety, economic stability, health, and quality of life for children.[8] The Children and Youth Cabinet consists of the Governor and the following persons:

- The Secretary of Children and Family Services;
- The Secretary of Juvenile Justice;
- The director of the Agency for Persons with Disabilities;
- The director of the Office of Early Learning;

[1] Section 1003.428, F.S., established high school graduation requirements beginning with students entering grade 9 in the 2007-2008 school year. Section 1003. 4282, F.S., established high school graduation requirements for students entering grade 9 in the 2013-2014 school year and thereafter.
[2] Section 1002.3105(5), F.S. Effective July 1, 2013, students may earn a standard high school diploma in 18 credits by achieving a 2.0 GPA; earning credit in the same 15 English Language Arts, mathematics, science, social studies, and fine and performing arts courses required under the traditional 24-credit option; and earning 3 elective credits, instead of the 6 electives required by the 24-credit option.
[3] Sections 1003.428 and 1003.4282, F.S.
[4] Section 1003.4281, F.S.
[5] Section 1003.4285, F.S.
[6] Section 1003.4285(1)(a), F.S.
[7] Section 1003.4285(1)(b), F.S.
[8] Section 402.56 (3)(a), F.S.

- The State Surgeon General;
- The Secretary of Health Care Administration;
- The Commissioner of Education;
- The director of the Statewide Guardian Ad Litem Office;
- The director of the Office of Child Abuse Prevention; and
- Five members representing children and youth advocacy organizations, who are not service providers and who are appointed by the Governor.[9]

III. Effect of Proposed Changes:

The bill increases from one to two the number of industry certifications that a student must earn to attain a Merit designation on his or her standard high school diploma.

The bill also expands the membership of the Children and Youth Cabinet by adding a superintendent of schools, appointed by the Governor, as an additional member.

The bill is effective upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

CS/SB 1394 has no fiscal impact on state funds.

[9] Section 402.56 (4)(a), F.S.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 402.56 and 1003.4285.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 22, 2014:
The committee substitute expands the membership of the Children and Youth Cabinet by adding a superintendent of schools as an additional member.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

17-00831A-14 20141394__

A bill to be entitled

An act relating to education; amending s. 1003.4285, F.S.; revising the requirements to earn a Merit designation on a standard high school diploma; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (b) of subsection (1) of section 1003.4285, Florida Statutes, is amended to read:

1003.4285 Standard high school diploma designations.—

(1) Each standard high school diploma shall include, as applicable, the following designations if the student meets the criteria set forth for the designation:

(b) *Merit designation.*—In addition to the requirements of ss. 1003.428 and 1003.4282, as applicable, in order to earn the Merit designation, a student must attain <u>two</u> ~~one~~ or more industry certifications from the list established under s. 1003.492.

Section 2. This act shall take effect upon becoming a law.

CODING: Words ~~stricken~~ are deletions; words <u>underlined</u> are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1474
INTRODUCER:	Community Affairs Committee; Ethics and Elections Committee; and Senator Abruzzo
SUBJECT:	Public Officers and Employees
DATE:	April 23, 2014 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Carlton	Roberts	EE	**Fav/CS**
2.	Stearns	Yeatman	CA	**Fav/CS**
3.	Shettle	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1474 allows the electors of a political subdivision to impose on its officers and employees additional or more stringent standards of conduct than are required in the Code of Ethics. The bill provides that a respondent charged with an ethics violation is entitled to a public hearing. The local ethics ordinance shall establish procedures concerning the hearing. The bill provides that the respondent may choose whether the local ethics board or a hearing officer will preside over the hearing.

The bill is not expected to have a significant fiscal impact.

II. Present Situation:

Pursuant to s. 112.326, F.S., the governing body of any political subdivision, by ordinance, or agency, by rule, is permitted to impose additional or more stringent standards of conduct and disclosure requirements than are contained in the Code of Ethics. The governing body of a political subdivision or agency may not adopt standards of conduct and disclosure requirements that conflict with the Code of Ethics.

III. Effect of Proposed Changes:

Section 1 amends s. 112.236, F.S., to allow the electors of a political subdivision to impose on its officers and employees additional or more stringent standards of conduct than are required in the Code of Ethics.

The bill provides that, if a local ethics agency determines that probable cause exists that a violation of the local ethics ordinance has occurred, then a respondent charged with an ethics violation is entitled to a public hearing. The local ethics ordinance shall establish procedures concerning the request of and/or waiver of the right to a hearing. The respondent may choose whether the local ethics board or a hearing officer will preside over the hearing. The bill does not prohibit a respondent and a local ethics agency from entering into a consent agreement or stipulation to resolve the allegations.

Section 2 provides an effective date of July 1, 2014.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

CS/CS/SB 1474 is not expected to have a significant fiscal impact.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 112.326 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Community Affairs on April 1, 2014:

- Removes language stating that the local complaint-related procedures are to follow the procedures set forth by the Commission on Ethics.
- States that the respondent is entitled to a public hearing upon a determination of probable cause of a violation of the local ethics ordinance.
- Requires the local ethics ordinance to establish procedures concerning the request of or waiver of the hearing.
- Provides that the respondent may choose whether the local ethics board or a public hearing officer will preside over the hearing.
- Provides that the bill does not prohibit the parties from entering into a consent agreement to resolve the allegations.

CS by Ethics and Elections on March 17, 2014:

- Does not require the Florida Commission on Ethics to investigate alleged violations of a local ethics code;
- Does not require the Florida Commission on Ethics to render advisory opinions on the applicability of local ethics codes;
- Removes the conforming provisions relating to imposition of penalties, the applicable statute of limitations, providing materials to assist in complying with the local ethics codes;
- No longer requires that the Florida Commission on Ethics serve as the official custodian of records for complaints and related documents that alleges violations of local ethics codes; and
- Does not extend the prohibition on contingency fees in s. 112.3217, F.S., to local government action.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committees on Community Affairs; and Ethics and Elections; and Senator Abruzzo

578-03585-14 20141474c2

A bill to be entitled

An act relating to public officers and employees; amending s. 112.326, F.S.; authorizing the electors of a political subdivision to impose additional or more stringent standards of conduct and disclosure requirements upon the political subdivision's officers and employees; providing that a respondent is entitled to a public hearing upon a finding of probable cause of a violation of a local ethics ordinance; requiring a local ethics ordinance to establish certain procedures; providing for construction; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 112.326, Florida Statutes, is amended to read:

112.326 Additional requirements by political subdivisions and agencies not prohibited. ~~Nothing in~~ This part does not prohibit the electors or ~~act shall prohibit~~ the governing body of a ~~any~~ political subdivision, by ordinance, or agency, by rule, from imposing upon its own officers and employees additional or more stringent standards of conduct and disclosure requirements than those specified in this part, if ~~provided that~~ those standards of conduct and disclosure requirements do not otherwise conflict with ~~the provisions of~~ this part. If a local ethics agency, board, or commission determines that probable cause exists to believe a violation of a local ethics ordinance occurred, the respondent is entitled to a public hearing. The

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

578-03585-14 20141474c2

local ethics ordinance shall establish procedures concerning request of, and waiver of the right to, a public hearing. The respondent may elect to have the public hearing conducted by the local ethics agency, board, or commission, or by a hearing officer who is not a member of the local ethics agency, board, or commission. This section does not prohibit a respondent and the local ethics agency, board or commission from entering into a stipulation or consent agreement to resolve the allegations.

Section 2. This act shall take effect July 1, 2014.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 1486
INTRODUCER:	Senator Garcia
SUBJECT:	Transitional Living Facilities
DATE:	April 23, 2014
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Hendon	Hendon	CF	**Favorable**
2.	Looke	Stovall	HP	**Favorable**
3.	Brown	Kynoch	AP	**Pre-meeting**

I. Summary:

SB 1486 revises regulations for transitional living facilities (TLF or facility). The purpose of these facilities is to provide rehabilitative care in a small residential setting for persons with brain or spinal cord injuries and who need significant care and services to regain their independence. The bill provides admission criteria, client evaluations, and treatment plans. The bill establishes rights for clients in these facilities, screening requirements for facility employees, and penalties for violations.

The bill may have an indeterminate, but likely insignificant, fiscal impact on the Agency for Health Care Administration.

II. Present Situation:

Brain and Spinal Cord Injuries

The human spinal cord operates much like a telephone line, relaying messages from the brain to the rest of the body. Spinal cord injuries are caused by bruising, crushing, or tearing of the delicate cord tissue. Swelling of the spinal cord after the injury can cause further damage. After an injury, the "messages" sent between the brain and the other parts of the body no longer flow through the damaged area. Many times the functions of the body which are located above the injury point will continue to work properly without impairment. However, the area below the injury point will be impaired to some degree, which may include any combination of the

following: motor deficit, sensory deficit, initial breathing difficulty, and/or bowel or bladder dysfunction.[1]

The Brain and Spinal Cord Injury Program (BSCIP) is administered by the Department of Health (DOH).[2] The program is funded through a percentage of traffic-related fines and surcharges for driving or boating under the influence of alcohol or drugs, fees on temporary license tags, and a percentage of fees from a motorcycle specialty tag.

The BSCIP is operated through a statewide system of case managers and rehabilitation technicians. The program also employs regional managers who supervise staff in their regions and who oversee the local operation, development, and evaluation of the program's services and supports. Services include: case management, acute care, inpatient and outpatient rehabilitation, transitional living, assistive technology, home and vehicle modifications, nursing home transition facilitation, and long-term supports for survivors and families through contractual agreements with community-based agencies.

In addition to providing resource facilitation and funding for the services above, the program funds education, prevention, and research activities. The program expands its services by funding a contract with the Brain Injury Association of Florida and the Florida Disabled Outdoors Association. Other services are provided through working relationships with the Florida Centers for Independent Living and the Florida Department of Education's Division of Vocational Rehabilitation.

Section 381.76, F.S., requires that an individual receiving services must be a legal Florida resident who has sustained a brain or spinal cord injury meeting the state's definition of such injuries;[3] has been referred to the BSCIP central registry; and must be medically stable. There must also be a reasonable expectation that with the provision of appropriate services and supports, the person can return to a community-based setting, rather than reside in a skilled nursing facility.

Transitional Living Facilities

Transitional living facilities (TLFs or facility) provide specialized health care services, including, but not limited to: rehabilitative services, community reentry training, aids for independent living, and counseling to persons with spinal cord or head injuries. There are currently 13 facilities located in the state.[4] Most of the facilities are small and have between five and 10 beds. One facility, however, is licensed for 116 beds (Florida Institute for Neurologic Rehabilitation in Wauchula). The facilities are located primarily in central Florida. The Agency for Health Care Administration (AHCA) is the licensing authority and one of the regulatory authorities which

[1]Florida Spinal Cord Injury Resource Center, *Family and Survivor's Guide*, http://fscirc.com/what-is-a-sci (last visited April 3, 2014).
[2] Florida Department of Health, http://www.floridahealth.gov/licensing-and-regulation/brain-and-spinal-cord-injury-program-site-survey-inspections/BSCIP%20Rules%20and%20Statutes/index.html. (Last visited April 3, 2014).
[3] Section 381.745, F.S., defines "brain or spinal cord injury" as either a lesion to the spinal cord or cauda equina, resulting from external trauma, with evidence of significant involvement of two of the following deficits or dysfunctions: motor deficit, sensory deficit, or bowel and bladder dysfunction; or an insult to the skull, brain, or its covering, resulting from external trauma that produces an altered state of consciousness or anatomic motor, sensory, cognitive, or behavioral deficits.
[4] The AHCA, *Florida Health Finder* http://www.floridahealthfinder.gov/index.html (last visited Mar. 13, 2014).

oversees TLFs under part II of ch. 408, F.S., part V of ch. 400, F.S., and Rule 59A-17 of the Florida Administrative Code. The current licensure fee is $4,588 plus a $90 per-bed fee per biennium.[5]

The AHCA governs the physical plant and fiscal management of these facilities and adopts rules in conjunction with the DOH to monitor services provided for persons with traumatic brain and spinal cord injuries. The Department of Children and Families investigates allegations of abuse and neglect of children and vulnerable adults.[6]

Section 400.805, F.S., provides requirements for TLFs. Section 400.805(2), F.S., sets licensure requirements and fees for operation of a facility, as well as requiring all facility personnel to submit to a level 2 background screening. Section 400.805(3)(a), F.S., requires the AHCA, in consultation with the DOH, to adopt rules governing the physical plan and the fiscal management of TLFs.[7]

The Brain and Spinal Cord Injury Advisory Council has the right to enter and inspect transitional living facilities.[8] In addition, designated representatives of the AHCA, the local fire marshal, and other agencies have access to the facilities and clients.[9]

According to a news report from Bloomberg, dated January 24, 2012, clients at the Florida Institute for Neurologic Rehabilitation in Wauchula, Florida, were abused, neglected, and confined. The news report was based on information from 20 current and former clients and their family members, criminal charging documents, civil complaints, and advocates for the disabled.[10] The report stated that three former employees face criminal charges for abusing clients. Subsequent news reports stated the facility and three affiliated corporations filed Chapter 11 bankruptcy in U.S. Bankruptcy Court in Tampa.[11] As of March 13, 2014, the facility remains licensed.

III. Effect of Proposed Changes:

Section 1 creates and designates ss. 400.997 through 400.9985, F.S., as part XI of ch. 400, F.S., entitled "Transitional Living Facilities."

Under s. 400.997, F.S., the bill provides legislative intent that transitional living facilities (TLFs) are to assist persons with brain and spinal cord injuries to achieve independent living and return to the community.

Under s. 400.9971. F.S., the bill defines the terms:

- "Chemical restraint" as a pharmacologic drug that physically limits, restricts, or deprives a person of movement or mobility and which is used for client protection or safety and is not required for the treatment of medical conditions or symptoms;
- "Physical restraint" as any manual method or physical or mechanical device, material, or equipment attached or adjacent to the individual's body which cannot easily be removed and restricts freedom of movement or normal access to one's own body; and
- "Seclusion" as the physical segregation of a person in any fashion or the involuntary isolation of a person in a room or area from which the person is prevented from leaving, while not meaning isolation due to a person's medical condition or symptoms.

The bill also moves the definition of a TLF from s. 381.475, F.S., and defines "agency" as the AHCA and "department" as the DOH.

Under s. 400.9972, F.S., the bill provides licensure requirements and application fees for TLFs. The bill codifies the current license fee of $4,588 and the per-bed fee of $90.[12] The bill requires certain information from the licensure applicant, including the facility location, proof that local zoning requirements have been met, proof of liability insurance, proof of a satisfactory fire safety inspection, and documentation of satisfactory sanitation inspection by a county health department. The bill also requires facilities to be accredited by an accrediting organization specializing in rehabilitation facilities. The AHCA may conduct an inspection of a facility after the facility submits proof of accreditation.

Admission Criteria

Under s. 400.9973, F.S., the bill sets standards that TLFs must meet for client admission, transfer, and discharge from the facility. The facility is required to establish admission, transfer, and discharge policies and procedures in writing.

Only clients who have a brain or spinal cord injury may be admitted to a TLF. Clients may be admitted to the facility only through a prescription by a licensed physician, physician assistant (PA), or advanced registered nurse practitioner (ARNP) and must remain under the care of a health care practitioner for the duration of the client's stay in the facility. Clients whose diagnosis does not positively identify a cause may be admitted for an evaluation period of up to 90 days.

A facility may not admit a client whose primary diagnosis is a mental illness or an intellectual or developmental disability. The facility may not admit clients who present significant risk of infection to other clients or personnel. Documentation indicating the person is free of apparent signs and symptoms of communicable disease is required. The facility may not admit clients who are a danger to themselves or others as determined by a physician, PA, ARNP, or mental health practitioner. The facility may not admit clients requiring nursing supervision on a 24-hour basis or who are bedridden.

[12] Section 400.805(2)(b), F.S., authorizes a license fee of $4,000 and a per bed fee of $75.50. Pursuant to s. 408.805(2), F.S., The AHCA can increase the fees each year by up to the increase in the consumer price index for that year. The current fee is $4,588 and $90 per bed and bill uses these amounts.

A facility's nursing or medical director must complete an initial evaluation of a client's functional skills, behavioral status, cognitive status, educational or vocational potential, medical status, psychosocial status, sensorimotor capacity, and other related skills and abilities within the first 72 hours after a client's admission to the facility. An initial treatment plan must be implemented within four days of admission. A facility must also develop, and update at least monthly, a discharge plan for each client and must discharge a client who no longer requires the facility's specialized services as soon as practicable. A facility must provide at least 30 days' notice to the client before transferring or discharging him or her.

Client Plans and Evaluation

Under s. 400.9974, F.S., the bill requires that a facility must develop a comprehensive treatment plan for each client within 30 days after an initial treatment plan is developed. An interdisciplinary team, including the client, as appropriate, must develop the plan. Each plan must be updated at least monthly and include the following:

- The physician's, PA's, or ARNP's orders, diagnosis, medical history, physical exams and rehabilitation needs;
- A nursing evaluation with physician, PA, or ARNP orders for immediate care completed at admission; and
- A comprehensive assessment of the client's functional status and the services needed to become independent and return to the community.

A facility must have qualified staff to carry out and monitor rehabilitation services in accordance with the stated goals of the treatment plan.

Under s. 400.9975, F.S., the bill provides for certain rights of each client. Specifically, a facility must ensure that each client:

- Lives in a safe environment;
- Is treated with respect, recognition of personal dignity, and privacy;
- Retains use of his or her own clothes and personal property;
- Has unrestricted private communications, which includes mail, telephone, and visitors; and
- Has the opportunity to:
  - Participate in community services and activities;
  - Manage his or her own financial affairs, unless the client or the client's representative authorizes the administrator of the facility to provide safekeeping for funds;
  - Have regular exercise and to be outdoors several times a week;
  - Exercise civil and religious liberties;
  - Have adequate access to appropriate health care services; and
  - Present grievances and recommend changes in policies, procedures, and services.

A facility must:

- Promote participation of client's representative in the process of treatment for the client;
- Answer communications from a client's family and friends promptly;
- Promote visits by individuals with a relationship to the client at any reasonable hour;
- Allow residents to leave from the facility to visit or to take trips or vacations; and
- Promptly notify client representatives of any significant incidents or changes in condition.

The bill requires the administrator to post a written notice of provider responsibilities in a prominent place in the facility that includes the statewide toll-free telephone number for reporting complaints to the AHCA and the statewide toll-free number of Disability Rights of Florida. The facility must ensure the client has access to a telephone to call the AHCA, the central abuse hotline, or Disabilities Rights of Florida. The facility cannot take retaliatory action against a client for filing a complaint or grievance. These are similar to protections provided to residents of nursing homes and assisted living facilities.

Medication

Under s. 400.9976, F.S., the bill requires the TLF to record the client's medication administration, including self-administration, and each dose of medication. The medication must be administered in compliance with the physician's, PA's, or ARNP's orders. Drug administration errors and adverse drug reactions must be recorded and reported immediately to the physician, PA, or ARNP. The interdisciplinary team that develops the client's treatment plan must determine whether a client is capable of self-administration of medications.

Under s. 400.9977, F.S., the bill provides that unlicensed direct care services staff may assist residents[13] with repackaged medications that are prescribed, prepackaged, and premeasured. The bill requires that the facility must provide training, develop procedures, and maintain records regarding assistance with medication by unlicensed staff. Training must be conducted by a registered nurse, a licensed physician, or a licensed pharmacist. The AHCA is required to adopt rules to implement this section.

Under s. 400.9979, F.S., the bill requires that physical and chemical restraints must be ordered for clients before such restraints may be used by a facility. The bill requires that an order for restraints must be documented by the client's physician, PA, or ARNP and be consistent with the policies and procedures adopted by the facility. The client's representative or responsible party must be notified as soon as practicable after the use of restraints. Clients receiving medications that can serve as a restraint must be evaluated by their physician at least monthly to assess:

- Continued need for the medication;
- Level of the medication in client's blood; and
- The need to adjust the prescription.

A facility must ensure clients are free from unnecessary drugs and physical restraints. All interventions to manage inappropriate client behaviors must be administered with sufficient safeguards and supervision.

Employees

Under s. 400.9978, F.S., the bill states that the facility is responsible for developing and implementing policies and procedures for screening and training employees, protection of clients, and for the prevention, identification, investigation, and reporting of abuse, neglect, mistreatment, and exploitation. This includes the facility identifying clients whose history renders the client a risk for abusing other clients. The facility must implement procedures to:

[13] In both TLF and assisted living facilities.

- Screen potential employees for a history of abuse, neglect, or mistreatment of clients;
- Train employees through orientation and ongoing sessions on abuse prohibition practices;
- Provide clients, families, and staff information on how and to whom they may report concerns, incidents, and grievances without fear of retribution;
- Identify events, such as suspicious bruising of clients, that may constitute abuse to determine the direction of the investigation;
- Investigate different types of incidents and identify staff members responsible for the initial internal reporting and the reporting of results to the proper authorities;
- Protect clients from harm during an investigation; and
- Report all alleged violations and all substantiated incidents as required under chs. 39 and 415, F.S., to the appropriate licensing authorities.

Under s. 400.998, F.S., the bill requires all TLF personnel to complete a level 2 background screening and requires the facility to maintain personnel records which contain the staff's background screening, job description, training requirements, compliance documentation, and a copy of all licenses or certification held by staff who perform services for which licensure or certification is required. The record must also include a copy of all job performance evaluations. In addition, the bill requires a facility to:

- Implement infection control policies and procedures;
- Maintain liability insurance, as defined by s. 624.605, F.S., at all times;
- Designate one person as administrator who is responsible for the overall management of the facility;
- Designate one person as program director who is responsible for supervising the therapeutic and behavioral staff;
- Designate in writing a person responsible for the facility when the administrator is absent for more than 24 hours;
- Designate a person to be responsible when the program director is absent;
- Obtain approval of the comprehensive emergency management plan from the local emergency management agency; and
- Maintain written records in a form and system that complies with standard medical and business practices and which is available for submission to the AHCA upon request. The records must include:
  - A daily census record;
  - A report of all accidental or unusual incidents involving clients or a staff member that caused or had the potential to cause injury or harm to any person or property within the facility;
  - Agreements with third party providers;
  - Agreements with consultants employed by the facility; and
  - Documentation of each consultant's visits and required written, dated reports.

Under s. 400.9981, F.S., the bill grants clients the option of using their own personal belongings and choosing a roommate whenever possible. The admission of a client to a facility and his or her presence therein does not confer on a licensee, administrator, employee, or representative any authority to manage, use, or dispose of any property of the client. The licensee, administrator, employee, or representative may not act as the client's guardian, trustee, or payee for social security or other benefits. The licensee, administrator, employee, or representative may be

granted power of attorney for a client if the licensee has filed a surety bond with the AHCA in an amount equal to twice the average monthly income of the client. If the power of attorney is granted to the licensee, administrator, staff, or representative, he or she must notify the client on a monthly basis of any transactions made on the client's behalf and a copy of such statement must be given to the client and retained in the client's file and be available for inspection by the AHCA.

The bill states that a facility, upon consent of the client, shall provide for the safekeeping in the facility of personal effects not in excess of $1,000 and funds of the client not in excess of $500 in cash, and shall keep complete and accurate records of all funds and personal effects received.

The bill provides for any funds or other property belonging to, or due to, a client, or expendable for his or her account, which is received by licensee, shall be trust funds which shall be kept separate from the funds and property of the licensee and other clients or shall be specifically credited to the client. At least once every month, unless upon order of a court of competent jurisdiction, the facility shall furnish the client and the client's representative a complete and verified statement of all funds and other property, detailing the amount and items received, together with their sources and disposition.

The bill mandates that any person who intentionally withholds a client's property or funds; demands, beneficially receives, or contracts for payment of all or any part of a client's personal property in satisfaction of the facility rate for supplies or services; or borrows from a client's personal funds, unless agreed to by written contract, commits a misdemeanor of the first degree. The bill mandates any licensee, administrator or staff, or representative thereof, who is granted power of attorney for any client of the facility and who misuses or misappropriates funds obtained through this power, commits a felony of the third degree.

In the event of the death of a client, a TLF must return all refunds, funds, and property held in trust to the client's personal representative. If the client has no spouse or adult next of kin or such person cannot be located, funds due the client shall be placed in an interest-bearing account, and all property held in trust by the licensee shall be safeguarded until such time as the funds and property are disbursed pursuant to the Florida Probate Code.

The bill authorizes the AHCA, by rule, to clarify terms and specify procedures and documentation necessary to administer the provisions relating to the proper management of clients' funds and personal property and the execution of surety bonds.

Under s. 400.9982, F.S., the bill authorizes the AHCA to publish and enforce rules to include criteria to ensure reasonable and consistent quality of care and client safety. The AHCA may adopt and enforce rules to implement this part and part II of ch. 408, F.S., including:

- The location of TLFs;
- The qualifications of personnel;
- The requirements for personnel procedures, reporting procedures, and documentation;
- Services provided to clients; and
- The preparation and annual update of a comprehensive emergency management plan.

Under s. 400.9983, F.S., the bill revises penalties for violations. Current law requires the AHCA to determine if violations in health care related facilities are isolated, patterned, or widespread.[14] The penalties in the bill take into account the frequency of the problems within the facility as well. Violations are also separated into class I through class IV based on severity with class I violations being the most serious and class IV being the least serious. Class I violations put clients in imminent danger. Class II violations directly threaten the safety of clients. Class III violations indirectly threaten the safety of clients. Class IV violations are primarily for paperwork violations that would not harm clients. The classifications must be included on the written notice of the violation provided to the facility.[15]

Under the bill, fines for violations will be levied at the following amounts, but fines for Class III and Class IV violations will not be levied if the violations are corrected within timeframes specified by the AHCA:

Class of Violation/Correction	Isolated	Patterned	Widespread
I - Regardless of correction	$5,000	$7,500	$10,000
II - Regardless of correction	$1,000	$2,500	$5,000
III - Only if uncorrected	$500	$750	$1,000
IV - Only if uncorrected	Fines for Class IV violations may range from $100 to $200.		

Under s. 400.9984, F.S., the bill authorizes the AHCA to petition a court for the appointment of a receiver for TLFs using the provisions of s. 429.22, F.S.

Under s. 400.9985, F.S., the bill requires the AHCA, the DOH, the Agency for Persons with Disabilities, and the Department of Children and Families to develop an electronic database to ensure that relevant information pertaining to the regulation of TLFs and clients is communicated timely among all agencies for the protection of clients. This system must include the Brain and Spinal Cord Registry and the abuse registries.

Section 2 repeals s. 400.805, F.S. This section of law contains the current regulations for TLFs. These provisions are replaced by new provisions in the bill.

Section 3 renames the title of part V of chapter 400 as "Intermediate Care Facilities" to remove "Transitional Living Facilities" from the title as the bill creates a new statutory part for such facilities.

Section 4 amends s. 381.745, F.S., to conform to changes in the definition of a TLF.

Section 5 amends s. 381.75, F.S., to eliminate a reference to the responsibility of the DOH to develop rules with the AHCA, for the regulation of transitional living facilities. Provisions in this statutory section are moved and revised in the newly-created sections 400.997 through 400.9984, F.S.

[14] *See* s. 408.813(2), F.S.
[15] *See* s. 408.813, F.S.

Section 6 amends s. 381.78, F.S., relating to the Brain and Spinal Cord Injury Advisory Council's appointment of a committee to regulate TLFs. These duties are duplicative of the regulation by the AHCA under the bill and, as a result, are removed.

Section 7 amends s. 400.93, F.S., to conform a reference to TLFs.

Section 8 amends s. 408.802, F.S., to conform a reference to TLFs.

Section 9 amends s. 408.820, F.S., to conform a reference to TLFs.

Section 10 creates a non-statutory section of Florida law requiring that transitional living facilities that were licensed prior to the effective date of the bill must be licensed under the new requirements of the bill no later than July 1, 2015.

Section 11 provides for an effective date of July 1, 2014.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Transitional living facilities may incur indeterminate increased costs based on the increased requirements under SB 1486.

C. Government Sector Impact:

The AHCA may experience costs associated with rulemaking that may be absorbed within existing resources. The AHCA may experience increased revenue due to the new fine structure established by the bill.

VI. Technical Deficiencies:

Section 1 of the bill creates s. 400.9977, F.S., allowing certain direct care services staff in both TLFs and assisted living facilities to assist residents with the administration of certain medication. Since this portion of the bill affects assisted living facilities as well as TLFs, it may not be germane to the title of the bill, "an act relating to transitional living facilities."

Line 285 requires participation of an ARNP on an interdisciplinary team that develops the comprehensive treatment plan. The bill does not require an ARNP to be a staff member. The bill refers to an ARNP as one of three types of healthcare practitioners who may prescribe placement in a TLF and who will continue to provide healthcare to the client while at the facility. It is unclear who the ARNP on the interdisciplinary team will be.

VII. Related Issues:

Lines 272-276 address providing at least 30 days' notice to a client if a TLF plans to transfer or discharge the client. It may be appropriate to also require the notice to be provided to the client's representative as well.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 381.745, 381.75, 381.78, 400.93, 408.802, and 408.820.

This bill creates the following sections of the Florida Statutes: 400.997, 400.9971, 400.9972, 400.9973, 400.9974, 400.9975, 400.9976, 400.9977, 400.9978, 400.9979, 400.998, 400.9981, 400.9982, 400.9983, 400.9984, and 400.9985.

This bill repeals section 400.805 of the Florida Statutes.

This bill creates an undesignated section of Florida law.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

By Senator Garcia

38-00318A-14 20141486__

A bill to be entitled

An act relating to transitional living facilities; creating part XI of ch. 400, F.S.; providing legislative intent; providing definitions; requiring the licensure of transitional living facilities; providing license fees and application requirements; requiring accreditation of licensed facilities; providing requirements for transitional living facility policies and procedures governing client admission, transfer, and discharge; requiring a comprehensive treatment plan to be developed for each client; providing plan and staffing requirements; requiring certain consent for continued treatment in a transitional living facility; providing licensee responsibilities; providing notice requirements; prohibiting a licensee or employee of a facility from serving notice upon a client to leave the premises or take other retaliatory action under certain circumstances; requiring the client and client's representative to be provided with certain information; requiring the licensee to develop and implement certain policies and procedures; providing licensee requirements relating to administration of medication; requiring maintenance of medication administration records; providing requirements for administration of medications by unlicensed staff; specifying who may conduct training of staff; requiring licensees to adopt policies and procedures for administration of medications by trained staff;

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

38-00318A-14 20141486__

requiring the Agency for Health Care Administration to adopt rules; providing requirements for the screening of potential employees and training and monitoring of employees for the protection of clients; requiring licensees to implement certain policies and procedures to protect clients; providing conditions for investigating and reporting incidents of abuse, neglect, mistreatment, or exploitation of clients; providing requirements and limitations for the use of physical restraints, seclusion, and chemical restraint medication on clients; providing a limitation on the duration of an emergency treatment order; requiring notification of certain persons when restraint or seclusion is imposed; authorizing the agency to adopt rules; providing background screening requirements; requiring the licensee to maintain certain personnel records; providing administrative responsibilities for licensees; providing recordkeeping requirements; providing licensee responsibilities with respect to the property and personal affairs of clients; providing requirements for a licensee with respect to obtaining surety bonds; providing recordkeeping requirements relating to the safekeeping of personal effects; providing requirements for trust funds or other property received by a licensee and credited to the client; providing a penalty for certain misuse of a client's personal funds, property, or personal needs allowance; providing criminal penalties for violations; providing for the disposition of property

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

in the event of the death of a client; authorizing the agency to adopt rules; providing legislative intent; authorizing the agency to adopt and enforce rules establishing standards for transitional living facilities and personnel thereof; classifying violations and providing penalties therefor; providing administrative fines for specified classes of violations; authorizing the agency to apply certain provisions with regard to receivership proceedings; requiring the agency, the Department of Health, the Agency for Persons with Disabilities, and the Department of Children and Families to develop electronic information systems for certain purposes; repealing s. 400.805, F.S., relating to transitional living facilities; revising the title of part V of ch. 400, F.S.; amending s. 381.745, F.S.; revising the definition of the term "transitional living facility," to conform; amending s. 381.75, F.S.; revising the duties of the Department of Health and the agency relating to transitional living facilities; amending ss. 381.78, 400.93, 408.802, and 408.820, F.S.; conforming provisions to changes made by the act; providing applicability with respect to transitional living facilities licensed before a specified date; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Part XI of chapter 400, Florida Statutes,

consisting of sections 400.997 through 400.9985, is created to read:

PART XI

TRANSITIONAL LIVING FACILITIES

400.997 Legislative intent.—It is the intent of the Legislature to provide for the licensure of transitional living facilities and require the development, establishment, and enforcement of basic standards by the Agency for Health Care Administration to ensure quality of care and services to clients in transitional living facilities. It is the policy of the state that the least restrictive appropriate available treatment be used based on the individual needs and best interest of the client, consistent with optimum improvement of the client's condition. The goal of a transitional living program for persons who have brain or spinal cord injuries is to assist each person who has such an injury to achieve a higher level of independent functioning and to enable the person to reenter the community. It is also the policy of the state that the restraint or seclusion of a client is justified only as an emergency safety measure used in response to danger to the client or others. It is therefore the intent of the Legislature to achieve an ongoing reduction in the use of restraint or seclusion in programs and facilities that serve persons who have brain or spinal cord injuries.

400.9971 Definitions.—As used in this part, the term:

(1) "Agency" means the Agency for Health Care Administration.

(2) "Chemical restraint" means a pharmacologic drug that physically limits, restricts, or deprives a person of movement

or mobility, is used for client protection or safety, and is not required for the treatment of medical conditions or symptoms.

(3) "Client's representative" means the parent of a child client or the client's guardian, designated representative, designee, surrogate, or attorney in fact.

(4) "Department" means the Department of Health.

(5) "Physical restraint" means a manual method to restrict freedom of movement of or normal access to a person's body, or a physical or mechanical device, material, or equipment attached or adjacent to the person's body that the person cannot easily remove and that restricts freedom of movement of or normal access to the person's body, including, but not limited to, a half-bed rail, a full-bed rail, a geriatric chair, or a Posey restraint. The term includes any device that is not specifically manufactured as a restraint but is altered, arranged, or otherwise used for this purpose. The term does not include bandage material used for the purpose of binding a wound or injury.

(6) "Seclusion" means the physical segregation of a person in any fashion or the involuntary isolation of a person in a room or area from which the person is prevented from leaving. Such prevention may be accomplished by imposition of a physical barrier or by action of a staff member to prevent the person from leaving the room or area. For purposes of this part, the term does not mean isolation due to a person's medical condition or symptoms.

(7) "Transitional living facility" means a site where specialized health care services are provided to persons who have brain or spinal cord injuries, including, but not limited

to, rehabilitative services, behavior modification, community reentry training, aids for independent living, and counseling.

400.9972 License required; fee; application.—

(1) The requirements of part II of chapter 408 apply to the provision of services that require licensure pursuant to this part and part II of chapter 408 and to entities licensed by or applying for licensure from the agency pursuant to this part. A license issued by the agency is required for the operation of a transitional living facility in this state. However, this part does not require a provider licensed by the agency to obtain a separate transitional living facility license to serve persons who have brain or spinal cord injuries as long as the services provided are within the scope of the provider's license.

(2) In accordance with this part, an applicant or a licensee shall pay a fee for each license application submitted under this part. The license fee shall consist of a $4,588 license fee and a $90 per-bed fee per biennium and shall conform to the annual adjustment authorized in s. 408.805.

(3) An applicant for licensure must provide:

(a) The location of the facility for which the license is sought and documentation, signed by the appropriate local government official, which states that the applicant has met local zoning requirements.

(b) Proof of liability insurance as defined in s. 624.605(1)(b).

(c) Proof of compliance with local zoning requirements, including compliance with the requirements of chapter 419 if the proposed facility is a community residential home.

(d) Proof that the facility has received a satisfactory

firesafety inspection.

(e) Documentation that the facility has received a satisfactory sanitation inspection by the county health department.

(4) The applicant's proposed facility must attain and continuously maintain accreditation by an accrediting organization that specializes in evaluating rehabilitation facilities whose standards incorporate licensure regulations comparable to those required by the state. An applicant for licensure as a transitional living facility must acquire accreditation within 12 months after issuance of an initial license. The agency shall accept the accreditation survey report of the accrediting organization in lieu of conducting a licensure inspection if the standards included in the survey report are determined by the agency to document that the facility substantially complies with state licensure requirements. Within 10 days after receiving the accreditation survey report, the applicant shall submit to the agency a copy of the report and evidence of the accreditation decision as a result of the report. The agency may conduct an inspection of a transitional living facility to ensure compliance with the licensure requirements of this part, to validate the inspection process of the accrediting organization, to respond to licensure complaints, or to protect the public health and safety.

400.9973 Client admission, transfer, and discharge.—

(1) A transitional living facility shall have written policies and procedures governing the admission, transfer, and discharge of clients.

(2) The admission of a client to a transitional living

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

facility must be in accordance with the licensee's policies and procedures.

(3) A client admitted to a transitional living facility must have a brain or spinal cord injury, such as a lesion to the spinal cord or cauda equina syndrome, with evidence of significant involvement of at least two of the following deficits or dysfunctions:

(a) A motor deficit.

(b) A sensory deficit.

(c) Bowel and bladder dysfunction.

(d) An acquired internal or external injury to the skull, the brain, or the brain's covering, whether caused by a traumatic or nontraumatic event, which produces an altered state of consciousness or an anatomic motor, sensory, cognitive, or behavioral deficit.

(4) A client whose medical condition and diagnosis do not positively identify a cause of the client's condition, whose symptoms are inconsistent with the known cause of injury, or whose recovery is inconsistent with the known medical condition may be admitted to a transitional living facility for evaluation for a period not to exceed 90 days.

(5) A client admitted to a transitional living facility must be admitted upon prescription by a licensed physician, physician assistant, or advanced registered nurse practitioner and must remain under the care of a licensed physician, physician assistant, or advanced registered nurse practitioner for the duration of the client's stay in the facility.

(6) A transitional living facility may not admit a person whose primary admitting diagnosis is mental illness or an

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

intellectual or developmental disability.

(7) A person may not be admitted to a transitional living facility if the person:

(a) Presents significant risk of infection to other clients or personnel. A health care practitioner must provide documentation that the person is free of apparent signs and symptoms of communicable disease;

(b) Is a danger to himself or herself or others as determined by a physician, physician assistant, or advanced registered nurse practitioner or a mental health practitioner licensed under chapter 490 or chapter 491, unless the facility provides adequate staffing and support to ensure patient safety;

(c) Is bedridden; or

(d) Requires 24-hour nursing supervision.

(8) If the client meets the admission criteria, the medical or nursing director of the facility must complete an initial evaluation of the client's functional skills, behavioral status, cognitive status, educational or vocational potential, medical status, psychosocial status, sensorimotor capacity, and other related skills and abilities within the first 72 hours after the client's admission to the facility. An initial comprehensive treatment plan that delineates services to be provided and appropriate sources for such services must be implemented within the first 4 days after admission.

(9) A transitional living facility shall develop a discharge plan for each client before or upon admission to the facility. The discharge plan must identify the intended discharge site and possible alternative discharge sites. For each discharge site identified, the discharge plan must identify

the skills, behaviors, and other conditions that the client must achieve to be eligible for discharge. A discharge plan must be reviewed and updated as necessary but at least once monthly.

(10) A transitional living facility shall discharge a client as soon as practicable when the client no longer requires the specialized services described in s. 400.9971(7), when the client is not making measurable progress in accordance with the client's comprehensive treatment plan, or when the transitional living facility is no longer the most appropriate and least restrictive treatment option.

(11) A transitional living facility shall provide at least 30 days' notice to a client of transfer or discharge plans, including the location of an acceptable transfer location if the client is unable to live independently. This subsection does not apply if a client voluntarily terminates residency.

400.9974 Client comprehensive treatment plans; client services.—

(1) A transitional living facility shall develop a comprehensive treatment plan for each client as soon as practicable but no later than 30 days after the initial comprehensive treatment plan is developed. The comprehensive treatment plan must be developed by an interdisciplinary team consisting of the case manager, the program director, the advanced registered nurse practitioner, and appropriate therapists. The client or, if appropriate, the client's representative must be included in developing the comprehensive treatment plan. The comprehensive treatment plan must be reviewed and updated if the client fails to meet projected improvements outlined in the plan or if a significant change in

the client's condition occurs. The comprehensive treatment plan must be reviewed and updated at least once monthly.

(2) The comprehensive treatment plan must include:

(a) Orders obtained from the physician, physician assistant, or advanced registered nurse practitioner and the client's diagnosis, medical history, physical examination, and rehabilitative or restorative needs.

(b) A preliminary nursing evaluation, including orders for immediate care provided by the physician, physician assistant, or advanced registered nurse practitioner, which shall be completed when the client is admitted.

(c) A comprehensive, accurate, reproducible, and standardized assessment of the client's functional capability; the treatments designed to achieve skills, behaviors, and other conditions necessary for the client to return to the community; and specific measurable goals.

(d) Steps necessary for the client to achieve transition into the community and estimated length of time to achieve those goals.

(3) The client or, if appropriate, the client's representative must consent to the continued treatment at the transitional living facility. Consent may be for a period of up to 3 months. If such consent is not given, the transitional living facility shall discharge the client as soon as practicable.

(4) A client must receive the professional program services needed to implement the client's comprehensive treatment plan.

(5) The licensee must employ qualified professional staff to carry out and monitor the various professional interventions

in accordance with the stated goals and objectives of the client's comprehensive treatment plan.

(6) A client must receive a continuous treatment program that includes appropriate, consistent implementation of specialized and general training, treatment, health services, and related services and that is directed toward:

(a) The acquisition of the behaviors and skills necessary for the client to function with as much self-determination and independence as possible.

(b) The prevention or deceleration of regression or loss of current optimal functional status.

(c) The management of behavioral issues that preclude independent functioning in the community.

400.9975 Licensee responsibilities.—

(1) The licensee shall ensure that each client:

(a) Lives in a safe environment free from abuse, neglect, and exploitation.

(b) Is treated with consideration and respect and with due recognition of personal dignity, individuality, and the need for privacy.

(c) Retains and uses his or her own clothes and other personal property in his or her immediate living quarters to maintain individuality and personal dignity, except when the licensee demonstrates that such retention and use would be unsafe, impractical, or an infringement upon the rights of other clients.

(d) Has unrestricted private communication, including receiving and sending unopened correspondence, access to a telephone, and visits with any person of his or her choice. Upon

request, the licensee shall modify visiting hours for caregivers and guests. The facility shall restrict communication in accordance with any court order or written instruction of a client's representative. Any restriction on a client's communication for therapeutic reasons shall be documented and reviewed at least weekly and shall be removed as soon as no longer clinically indicated. The basis for the restriction shall be explained to the client and, if applicable, the client's representative. The client shall retain the right to call the central abuse hotline, the agency, and Disability Rights Florida at any time.

(e) Has the opportunity to participate in and benefit from community services and activities to achieve the highest possible level of independence, autonomy, and interaction within the community.

(f) Has the opportunity to manage his or her financial affairs unless the client or, if applicable, the client's representative authorizes the administrator of the facility to provide safekeeping for funds as provided under this part.

(g) Has reasonable opportunity for regular exercise more than once per week and to be outdoors at regular and frequent intervals except when prevented by inclement weather.

(h) Has the opportunity to exercise civil and religious liberties, including the right to independent personal decisions. However, a religious belief or practice, including attendance at religious services, may not be imposed upon any client.

(i) Has access to adequate and appropriate health care consistent with established and recognized community standards.

(j) Has the opportunity to present grievances and recommend changes in policies, procedures, and services to the staff of the licensee, governing officials, or any other person without restraint, interference, coercion, discrimination, or reprisal. A licensee shall establish a grievance procedure to facilitate a client's ability to present grievances, including a system for investigating, tracking, managing, and responding to complaints by a client or, if applicable, the client's representative and an appeals process. The appeals process must include access to Disability Rights Florida and other advocates and the right to be a member of, be active in, and associate with advocacy or special interest groups.

(2) The licensee shall:

(a) Promote participation of the client's representative in the process of providing treatment to the client unless the representative's participation is unobtainable or inappropriate.

(b) Answer communications from the client's family, guardians, and friends promptly and appropriately.

(c) Promote visits by persons with a relationship to the client at any reasonable hour, without requiring prior notice, in any area of the facility that provides direct care services to the client, consistent with the client's and other clients' privacy, unless the interdisciplinary team determines that such a visit would not be appropriate.

(d) Promote opportunities for the client to leave the facility for visits, trips, or vacations.

(e) Promptly notify the client's representative of a significant incident or change in the client's condition, including, but not limited to, serious illness, accident, abuse,

unauthorized absence, or death.

(3) The administrator of a facility shall ensure that a written notice of licensee responsibilities is posted in a prominent place in each building where clients reside and is read or explained to clients who cannot read. This notice shall be provided to clients in a manner that is clearly legible, shall include the statewide toll-free telephone number for reporting complaints to the agency, and shall include the words: "To report a complaint regarding the services you receive, please call toll-free ...[telephone number]... or Disability Rights Florida ...[telephone number]...." The statewide toll-free telephone number for the central abuse hotline shall be provided to clients in a manner that is clearly legible and shall include the words: "To report abuse, neglect, or exploitation, please call toll-free ...[telephone number]...." The licensee shall ensure a client's access to a telephone where telephone numbers are posted as required by this subsection.

(4) A licensee or employee of a facility may not serve notice upon a client to leave the premises or take any other retaliatory action against another person solely because of the following:

(a) The client or other person files an internal or external complaint or grievance regarding the facility.

(b) The client or other person appears as a witness in a hearing inside or outside the facility.

(5) Before or at the time of admission, the client and, if applicable, the client's representative shall receive a copy of the licensee's responsibilities, including grievance procedures and telephone numbers, as provided in this section.

(6) The licensee must develop and implement policies and procedures governing the release of client information, including consent necessary from the client or, if applicable, the client's representative.

400.9976 Administration of medication.—

(1) An individual medication administration record must be maintained for each client. A dose of medication, including a self-administered dose, shall be properly recorded in the client's record. A client who self-administers medication shall be given a pill organizer. Medication must be placed in the pill organizer by a nurse. A nurse shall document the date and time that medication is placed into each client's pill organizer. All medications must be administered in compliance with orders of a physician, physician assistant, or advanced registered nurse practitioner.

(2) If an interdisciplinary team determines that self-administration of medication is an appropriate objective, and if the physician, physician assistant, or advanced registered nurse practitioner does not specify otherwise, the client must be instructed by the physician, physician assistant, or advanced registered nurse practitioner to self-administer his or her medication without the assistance of a staff person. All forms of self-administration of medication, including administration orally, by injection, and by suppository, shall be included in the training. The client's physician, physician assistant, or advanced registered nurse practitioner must be informed of the interdisciplinary team's decision that self-administration of medication is an objective for the client. A client may not self-administer medication until he or she demonstrates the

competency to take the correct medication in the correct dosage at the correct time, to respond to missed doses, and to contact the appropriate person with questions.

(3) Medication administration discrepancies and adverse drug reactions must be recorded and reported immediately to a physician, physician assistant, or advanced registered nurse practitioner.

400.9977 Assistance with medication.—

(1) Notwithstanding any provision of part I of chapter 464, the Nurse Practice Act, unlicensed direct care services staff who provide services to clients in a facility licensed under this chapter or chapter 429 may administer prescribed, prepackaged, and premeasured medications under the general supervision of a registered nurse as provided under this section and applicable rules.

(2) Training required by this section and applicable rules shall be conducted by a registered nurse licensed under chapter 464, a physician licensed under chapter 458 or chapter 459, or a pharmacist licensed under chapter 465.

(3) A facility that allows unlicensed direct care service staff to administer medications pursuant to this section shall:

(a) Develop and implement policies and procedures that include a plan to ensure the safe handling, storage, and administration of prescription medications.

(b) Maintain written evidence of the expressed and informed consent for each client.

(c) Maintain a copy of the written prescription, including the name of the medication, the dosage, and the administration schedule and termination date.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(d) Maintain documentation of compliance with required training.

(4) The agency shall adopt rules to implement this section.

400.9978 Protection of clients from abuse, neglect, mistreatment, and exploitation.—The licensee shall develop and implement policies and procedures for the screening and training of employees; the protection of clients; and the prevention, identification, investigation, and reporting of abuse, neglect, mistreatment, and exploitation. The licensee shall identify clients whose personal histories render them at risk for abusing other clients, develop intervention strategies to prevent occurrences of abuse, monitor clients for changes that would trigger abusive behavior, and reassess the interventions on a regular basis. A licensee shall:

(1) Screen each potential employee for a history of abuse, neglect, mistreatment, or exploitation of clients. The screening shall include an attempt to obtain information from previous and current employers and verification of screening information by the appropriate licensing boards.

(2) Train employees through orientation and ongoing sessions regarding issues related to abuse prohibition practices, including identification of abuse, neglect, mistreatment, and exploitation; appropriate interventions to address aggressive or catastrophic reactions of clients; the process for reporting allegations without fear of reprisal; and recognition of signs of frustration and stress that may lead to abuse.

(3) Provide clients, families, and staff with information regarding how and to whom they may report concerns, incidents,

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

and grievances without fear of retribution and provide feedback regarding the concerns that are expressed. A licensee shall identify, correct, and intervene in situations in which abuse, neglect, mistreatment, or exploitation is likely to occur, including:

(a) Evaluating the physical environment of the facility to identify characteristics that may make abuse or neglect more likely to occur, such as secluded areas.

(b) Providing sufficient staff on each shift to meet the needs of the clients and ensuring that the assigned staff have knowledge of each client's care needs.

(c) Identifying inappropriate staff behaviors, such as using derogatory language, rough handling of clients, ignoring clients while giving care, and directing clients who need toileting assistance to urinate or defecate in their beds.

(d) Assessing, monitoring, and planning care for clients with needs and behaviors that might lead to conflict or neglect, such as a history of aggressive behaviors including entering other clients' rooms without permission, exhibiting self-injurious behaviors or communication disorders, requiring intensive nursing care, or being totally dependent on staff.

(4) Identify events, such as suspicious bruising of clients, occurrences, patterns, and trends that may constitute abuse and determine the direction of the investigation.

(5) Investigate alleged violations and different types of incidents, identify the staff member responsible for initial reporting, and report results to the proper authorities. The licensee shall analyze the incidents to determine whether policies and procedures need to be changed to prevent further

incidents and take necessary corrective actions.

(6) Protect clients from harm during an investigation.

(7) Report alleged violations and substantiated incidents, as required under chapters 39 and 415, to the licensing authorities and all other agencies, as required, and report any knowledge of actions by a court of law that would indicate an employee is unfit for service.

400.9979 Restraint and seclusion; client safety.—

(1) A facility shall provide a therapeutic milieu that supports a culture of individual empowerment and responsibility. The health and safety of the client shall be the facility's primary concern at all times.

(2) The use of physical restraints must be ordered and documented by a physician, physician assistant, or advanced registered nurse practitioner and must be consistent with the policies and procedures adopted by the facility. The client or, if applicable, the client's representative shall be informed of the facility's physical restraint policies and procedures when the client is admitted.

(3) The use of chemical restraints shall be limited to prescribed dosages of medications as ordered by a physician, physician assistant, or advanced registered nurse practitioner and must be consistent with the client's diagnosis and the policies and procedures adopted by the facility. The client and, if applicable, the client's representative shall be informed of the facility's chemical restraint policies and procedures when the client is admitted.

(4) Based on the assessment by a physician, physician assistant, or advanced registered nurse practitioner, if a

client exhibits symptoms that present an immediate risk of injury or death to himself or herself or others, a physician, physician assistant, or advanced registered nurse practitioner may issue an emergency treatment order to immediately administer rapid-response psychotropic medications or other chemical restraints. Each emergency treatment order must be documented and maintained in the client's record.

(a) An emergency treatment order is not effective for more than 24 hours.

(b) Whenever a client is medicated under this subsection, the client's representative or a responsible party and the client's physician, physician assistant, or advanced registered nurse practitioner shall be notified as soon as practicable.

(5) A client who is prescribed and receives a medication that can serve as a chemical restraint for a purpose other than an emergency treatment order must be evaluated by his or her physician, physician assistant, or advanced registered nurse practitioner at least monthly to assess:

(a) The continued need for the medication.

(b) The level of the medication in the client's blood.

(c) The need for adjustments to the prescription.

(6) The licensee shall ensure that clients are free from unnecessary drugs and physical restraints and are provided treatment to reduce dependency on drugs and physical restraints.

(7) The licensee may only employ physical restraints and seclusion as authorized by the facility's written policies, which shall comply with this section and applicable rules.

(8) Interventions to manage dangerous client behavior shall be employed with sufficient safeguards and supervision to ensure

that the safety, welfare, and civil and human rights of a client are adequately protected.

(9) A facility shall notify the parent, guardian, or, if applicable, the client's representative when restraint or seclusion is employed. The facility must provide the notification within 24 hours after the restraint or seclusion is employed. Reasonable efforts must be taken to notify the parent, guardian, or, if applicable, the client's representative by telephone or e-mail, or both, and these efforts must be documented.

(10) The agency may adopt rules that establish standards and procedures for the use of restraints, restraint positioning, seclusion, and emergency treatment orders for psychotropic medications, restraint, and seclusion. These rules must include duration of restraint, staff training, observation of the client during restraint, and documentation and reporting standards.

400.998 Personnel background screening; administration and management procedures.—

(1) The agency shall require level 2 background screening for licensee personnel as required in s. 408.809(1)(e) and pursuant to chapter 435 and s. 408.809.

(2) The licensee shall maintain personnel records for each staff member that contain, at a minimum, documentation of background screening, a job description, documentation of compliance with the training requirements of this part and applicable rules, the employment application, references, a copy of each job performance evaluation, and, for each staff member who performs services for which licensure or certification is required, a copy of all licenses or certification held by that

staff member.

(3) The licensee must:

(a) Develop and implement infection control policies and procedures and include the policies and procedures in the licensee's policy manual.

(b) Maintain liability insurance as defined in s. 624.605(1)(b).

(c) Designate one person as an administrator to be responsible and accountable for the overall management of the facility.

(d) Designate in writing a person to be responsible for the facility when the administrator is absent from the facility for more than 24 hours.

(e) Designate in writing a program director to be responsible for supervising the therapeutic and behavioral staff, determining the levels of supervision, and determining room placement for each client.

(f) Designate in writing a person to be responsible when the program director is absent from the facility for more than 24 hours.

(g) Obtain approval of the comprehensive emergency management plan, pursuant to s. 400.9982(2)(e), from the local emergency management agency. Pending the approval of the plan, the local emergency management agency shall ensure that the following agencies, at a minimum, are given the opportunity to review the plan: the Department of Health, the Agency for Health Care Administration, and the Division of Emergency Management. Appropriate volunteer organizations shall also be given the opportunity to review the plan. The local emergency management

agency shall complete its review within 60 days after receipt of the plan and either approve the plan or advise the licensee of necessary revisions.

(h) Maintain written records in a form and system that comply with medical and business practices and make the records available by the facility for review or submission to the agency upon request. The records shall include:

1. A daily census record that indicates the number of clients currently receiving services in the facility, including information regarding any public funding of such clients.

2. A record of each accident or unusual incident involving a client or staff member that caused, or had the potential to cause, injury or harm to any person or property within the facility. The record shall contain a clear description of each accident or incident; the names of the persons involved; a description of medical or other services provided to these persons, including the provider of the services; and the steps taken to prevent recurrence of such accident or incident.

3. A copy of current agreements with third-party providers.

4. A copy of current agreements with each consultant employed by the licensee and documentation of a consultant's visits and required written and dated reports.

400.9981 Property and personal affairs of clients.—

(1) A client shall be given the option of using his or her own belongings, as space permits; choosing a roommate if practical and not clinically contraindicated; and, whenever possible, unless the client is adjudicated incompetent or incapacitated under state law, managing his or her own affairs.

(2) The admission of a client to a facility and his or her

presence therein does not confer on a licensee or administrator, or an employee or representative thereof, any authority to manage, use, or dispose of the property of the client, and the admission or presence of a client does not confer on such person any authority or responsibility for the personal affairs of the client except that which may be necessary for the safe management of the facility or for the safety of the client.

(3) A licensee or administrator, or an employee or representative thereof, may:

(a) Not act as the guardian, trustee, or conservator for a client or a client's property.

(b) Act as a competent client's payee for social security, veteran's, or railroad benefits if the client provides consent and the licensee files a surety bond with the agency in an amount equal to twice the average monthly aggregate income or personal funds due to the client, or expendable for the client's account, that are received by a licensee.

(c) Act as the attorney in fact for a client if the licensee files a surety bond with the agency in an amount equal to twice the average monthly income of the client, plus the value of a client's property under the control of the attorney in fact.

The surety bond required under paragraph (b) or paragraph (c) shall be executed by the licensee as principal and a licensed surety company. The bond shall be conditioned upon the faithful compliance of the licensee with the requirements of licensure and is payable to the agency for the benefit of a client who suffers a financial loss as a result of the misuse or

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

misappropriation of funds held pursuant to this subsection. A surety company that cancels or does not renew the bond of a licensee shall notify the agency in writing at least 30 days before the action, giving the reason for cancellation or nonrenewal. A licensee or administrator, or an employee or representative thereof, who is granted power of attorney for a client of the facility shall, on a monthly basis, notify the client in writing of any transaction made on behalf of the client pursuant to this subsection, and a copy of the notification given to the client shall be retained in the client's file and available for agency inspection.

(4) A licensee, with the consent of the client, shall provide for safekeeping in the facility of the client's personal effects of a value not in excess of $1,000 and the client's funds not in excess of $500 cash and shall keep complete and accurate records of the funds and personal effects received. If a client is absent from a facility for 24 hours or more, the licensee may provide for safekeeping of the client's personal effects of a value in excess of $1,000.

(5) Funds or other property belonging to or due to a client or expendable for the client's account that are received by a licensee shall be regarded as funds held in trust and shall be kept separate from the funds and property of the licensee and other clients or shall be specifically credited to the client. The funds held in trust shall be used or otherwise expended only for the account of the client. At least once every month, except pursuant to an order of a court of competent jurisdiction, the licensee shall furnish the client and, if applicable, the client's representative with a complete and verified statement

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

of all funds and other property to which this subsection applies, detailing the amount and items received, together with their sources and disposition. The licensee shall furnish the statement annually and upon discharge or transfer of a client. A governmental agency or private charitable agency contributing funds or other property to the account of a client is also entitled to receive a statement monthly and upon the discharge or transfer of the client.

(6)(a) In addition to any damages or civil penalties to which a person is subject, a person who:

1. Intentionally withholds a client's personal funds, personal property, or personal needs allowance;

2. Demands, beneficially receives, or contracts for payment of all or any part of a client's personal property or personal needs allowance in satisfaction of the facility rate for supplies and services; or

3. Borrows from or pledges any personal funds of a client, other than the amount agreed to by written contract under s. 429.24,

commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(b) A licensee or administrator, or an employee, or representative thereof, who is granted power of attorney for a client and who misuses or misappropriates funds obtained through this power commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(7) In the event of the death of a client, a licensee shall return all refunds, funds, and property held in trust to the

client's personal representative, if one has been appointed at the time the licensee disburses such funds, or, if not, to the client's spouse or adult next of kin named in a beneficiary designation form provided by the licensee to the client. If the client does not have a spouse or adult next of kin or such person cannot be located, funds due to be returned to the client shall be placed in an interest-bearing account, and all property held in trust by the licensee shall be safeguarded until such time as the funds and property are disbursed pursuant to the Florida Probate Code. The funds shall be kept separate from the funds and property of the licensee and other clients of the facility. If the funds of the deceased client are not disbursed pursuant to the Florida Probate Code within 2 years after the client's death, the funds shall be deposited in the Health Care Trust Fund administered by the agency.

(8) The agency, by rule, may clarify terms and specify procedures and documentation necessary to administer the provisions of this section relating to the proper management of clients' funds and personal property and the execution of surety bonds.

400.9982 Rules establishing standards.—

(1) It is the intent of the Legislature that rules adopted and enforced pursuant to this part and part II of chapter 408 include criteria to ensure reasonable and consistent quality of care and client safety. The rules should make reasonable efforts to accommodate the needs and preferences of the client to enhance the client's quality of life while residing in a transitional living facility.

(2) The agency may adopt and enforce rules to implement

this part and part II of chapter 408, which shall include reasonable and fair criteria with respect to:

(a) The location of transitional living facilities.

(b) The qualifications of personnel, including management, medical, nursing, and other professional personnel and nursing assistants and support staff, who are responsible for client care. The licensee must employ enough qualified professional staff to carry out and monitor interventions in accordance with the stated goals and objectives of each comprehensive treatment plan.

(c) Requirements for personnel procedures, reporting procedures, and documentation necessary to implement this part.

(d) Services provided to clients of transitional living facilities.

(e) The preparation and annual update of a comprehensive emergency management plan in consultation with the Division of Emergency Management. At a minimum, the rules must provide for plan components that address emergency evacuation transportation; adequate sheltering arrangements; postdisaster activities, including provision of emergency power, food, and water; postdisaster transportation; supplies; staffing; emergency equipment; individual identification of clients and transfer of records; communication with families; and responses to family inquiries.

400.9983 Violations; penalties.—A violation of this part or any rule adopted pursuant thereto shall be classified according to the nature of the violation and the gravity of its probable effect on facility clients. The agency shall indicate the classification on the written notice of the violation as

follows:

(1) Class "I" violations are defined in s. 408.813. The agency shall issue a citation regardless of correction and impose an administrative fine of $5,000 for an isolated violation, $7,500 for a patterned violation, or $10,000 for a widespread violation. Violations may be identified, and a fine must be levied, notwithstanding the correction of the deficiency giving rise to the violation.

(2) Class "II" violations are defined in s. 408.813. The agency shall impose an administrative fine of $1,000 for an isolated violation, $2,500 for a patterned violation, or $5,000 for a widespread violation. A fine must be levied notwithstanding the correction of the deficiency giving rise to the violation.

(3) Class "III" violations are defined in s. 408.813. The agency shall impose an administrative fine of $500 for an isolated violation, $750 for a patterned violation, or $1,000 for a widespread violation. If a deficiency giving rise to a class III violation is corrected within the time specified by the agency, the fine may not be imposed.

(4) Class "IV" violations are defined in s. 408.813. The agency shall impose for a cited class IV violation an administrative fine of at least $100 but not exceeding $200 for each violation. If a deficiency giving rise to a class IV violation is corrected within the time specified by the agency, the fine may not be imposed.

400.9984 Receivership proceedings.—The agency may apply s. 429.22 with regard to receivership proceedings for transitional living facilities.

400.9985 Interagency communication.—The agency, the department, the Agency for Persons with Disabilities, and the Department of Children and Families shall develop electronic systems to ensure that relevant information pertaining to the regulation of transitional living facilities and clients is timely and effectively communicated among agencies in order to facilitate the protection of clients. Electronic sharing of information shall include, at a minimum, a brain and spinal cord injury registry and a client abuse registry.

Section 2. Section 400.805, Florida Statutes, is repealed.

Section 3. The title of part V of chapter 400, Florida Statutes, consisting of sections 400.701-400.801, is redesignated as "INTERMEDIATE CARE FACILITIES."

Section 4. Subsection (9) of section 381.745, Florida Statutes, is amended to read:

381.745 Definitions; ss. 381.739-381.79.—As used in ss. 381.739-381.79, the term:

(9) "Transitional living facility" means a state-approved facility~~,~~ as defined and licensed under chapter 400 ~~or chapter 429, or a facility approved by the brain and spinal cord injury program in accordance with this chapter~~.

Section 5. Section 381.75, Florida Statutes, is amended to read:

381.75 Duties and responsibilities of the department~~, of transitional living facilities, and of residents~~.—Consistent with the mandate of s. 381.7395, the department shall develop and administer a multilevel treatment program for individuals who sustain brain or spinal cord injuries and who are referred to the brain and spinal cord injury program.

(1) Within 15 days after any report of an individual who has sustained a brain or spinal cord injury, the department shall notify the individual or the most immediate available family members of their right to assistance from the state, the services available, and the eligibility requirements.

(2) The department shall refer individuals who have brain or spinal cord injuries to other state agencies to ensure ~~assure~~ that rehabilitative services, if desired, are obtained by that individual.

(3) The department, in consultation with emergency medical service, shall develop standards for an emergency medical evacuation system that will ensure that all individuals who sustain traumatic brain or spinal cord injuries are transported to a department-approved trauma center that meets the standards and criteria established by the emergency medical service and the acute-care standards of the brain and spinal cord injury program.

(4) The department shall develop standards for designation of rehabilitation centers to provide rehabilitation services for individuals who have brain or spinal cord injuries.

(5) The department shall determine the appropriate number of designated acute-care facilities, inpatient rehabilitation centers, and outpatient rehabilitation centers~~,~~ needed based on incidence, volume of admissions, and other appropriate criteria.

(6) The department shall develop standards for designation of transitional living facilities to provide transitional living services for individuals who participate in the brain and spinal cord injury program ~~the opportunity to adjust to their disabilities and to develop physical and functional skills in a~~

~~supported living environment~~.

~~(a) The Agency for Health Care Administration, in consultation with the department, shall develop rules for the licensure of transitional living facilities for individuals who have brain or spinal cord injuries.~~

~~(b) The goal of a transitional living program for individuals who have brain or spinal cord injuries is to assist each individual who has such a disability to achieve a higher level of independent functioning and to enable that person to reenter the community. The program shall be focused on preparing participants to return to community living.~~

~~(c) A transitional living facility for an individual who has a brain or spinal cord injury shall provide to such individual, in a residential setting, a goal-oriented treatment program designed to improve the individual's physical, cognitive, communicative, behavioral, psychological, and social functioning, as well as to provide necessary support and supervision. A transitional living facility shall offer at least the following therapies: physical, occupational, speech, neuropsychology, independent living skills training, behavior analysis for programs serving brain-injured individuals, health education, and recreation.~~

~~(d) All residents shall use the transitional living facility as a temporary measure and not as a permanent home or domicile. The transitional living facility shall develop an initial treatment plan for each resident within 3 days after the resident's admission. The transitional living facility shall develop a comprehensive plan of treatment and a discharge plan for each resident as soon as practical, but no later than 30~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~days after the resident's admission. Each comprehensive treatment plan and discharge plan must be reviewed and updated as necessary, but no less often than quarterly. This subsection does not require the discharge of an individual who continues to require any of the specialized services described in paragraph (c) or who is making measurable progress in accordance with that individual's comprehensive treatment plan. The transitional living facility shall discharge any individual who has an appropriate discharge site and who has achieved the goals of his or her discharge plan or who is no longer making progress toward the goals established in the comprehensive treatment plan and the discharge plan. The discharge location must be the least restrictive environment in which an individual's health, well-being, and safety is preserved.~~

~~(7) Recipients of services, under this section, from any of the facilities referred to in this section shall pay a fee based on ability to pay.~~

Section 6. Subsection (4) of section 381.78, Florida Statutes, is amended to read:

381.78 Advisory council on brain and spinal cord injuries.—

(4) The council shall~~:~~

~~(a)~~ provide advice and expertise to the department in the preparation, implementation, and periodic review of the brain and spinal cord injury program.

~~(b) Annually appoint a five-member committee composed of one individual who has a brain injury or has a family member with a brain injury, one individual who has a spinal cord injury or has a family member with a spinal cord injury, and three members who shall be chosen from among these representative~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~groups: physicians, other allied health professionals,~~ ~~administrators of brain and spinal cord injury programs, and~~ ~~representatives from support groups with expertise in areas~~ ~~related to the rehabilitation of individuals who have brain or~~ ~~spinal cord injuries, except that one and only one member of the~~ ~~committee shall be an administrator of a transitional living~~ ~~facility. Membership on the council is not a prerequisite for~~ ~~membership on this committee.~~

~~1. The committee shall perform onsite visits to those~~ ~~transitional living facilities identified by the Agency for~~ ~~Health Care Administration as being in possible violation of the~~ ~~statutes and rules regulating such facilities. The committee~~ ~~members have the same rights of entry and inspection granted~~ ~~under s. 400.805(4) to designated representatives of the agency.~~

~~2. Factual findings of the committee resulting from an~~ ~~onsite investigation of a facility pursuant to subparagraph 1.~~ ~~shall be adopted by the agency in developing its administrative~~ ~~response regarding enforcement of statutes and rules regulating~~ ~~the operation of the facility.~~

~~3. Onsite investigations by the committee shall be funded~~ ~~by the Health Care Trust Fund.~~

~~4. Travel expenses for committee members shall be~~ ~~reimbursed in accordance with s. 112.061.~~

~~5. Members of the committee shall recuse themselves from~~ ~~participating in any investigation that would create a conflict~~ ~~of interest under state law, and the council shall replace the~~ ~~member, either temporarily or permanently.~~

Section 7. Subsection (5) of section 400.93, Florida Statutes, is amended to read:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

400.93 Licensure required; exemptions; unlawful acts; penalties.—

(5) The following are exempt from home medical equipment provider licensure, unless they have a separate company, corporation, or division that is in the business of providing home medical equipment and services for sale or rent to consumers at their regular or temporary place of residence pursuant to the provisions of this part:

(a) Providers operated by the Department of Health or Federal Government.

(b) Nursing homes licensed under part II.

(c) Assisted living facilities licensed under chapter 429, when serving their residents.

(d) Home health agencies licensed under part III.

(e) Hospices licensed under part IV.

(f) Intermediate care facilities and~~,~~ homes for special services~~, and transitional living facilities~~ licensed under part V.

(g) Transitional living facilities licensed under part XI.

(h) ~~(g)~~ Hospitals and ambulatory surgical centers licensed under chapter 395.

(i) ~~(h)~~ Manufacturers and wholesale distributors when not selling directly to consumers.

(j) ~~(i)~~ Licensed health care practitioners who use ~~utilize~~ home medical equipment in the course of their practice~~,~~ but do not sell or rent home medical equipment to their patients.

(k) ~~(j)~~ Pharmacies licensed under chapter 465.

Section 8. Subsection (21) of section 408.802, Florida Statutes, is amended to read:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

408.802 Applicability.—The provisions of this part apply to the provision of services that require licensure as defined in this part and to the following entities licensed, registered, or certified by the agency, as described in chapters 112, 383, 390, 394, 395, 400, 429, 440, 483, and 765:

(21) Transitional living facilities, as provided under part XI ~~V~~ of chapter 400.

Section 9. Subsection (20) of section 408.820, Florida Statutes, is amended to read:

408.820 Exemptions.—Except as prescribed in authorizing statutes, the following exemptions shall apply to specified requirements of this part:

(20) Transitional living facilities, as provided under part XI ~~V~~ of chapter 400, are exempt from s. 408.810(10).

Section 10. Effective July 1, 2015, a transitional living facility licensed before the effective date of this act pursuant to s. 400.805, Florida Statutes, must be licensed under part XI of chapter 400, Florida Statutes, as created by this act.

Section 11. Except as otherwise expressly provided in this act, this act shall take effect July 1, 2014.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1512 (532862)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Education); Education Committee; and Senator Stargel and others
SUBJECT:	Students with Disabilities
DATE:	April 21, 2014 REVISED:

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1512 creates a new scholarship program called "Personal Learning Scholarship Accounts" for kindergarten through grade 12 students with a disability, repeals the Special Diploma, and creates new pathways for students with disabilities who meet the requirements to earn a standard diploma.

The new scholarship program created by the bill:

- Specifies parent and student eligibility requirements, prohibitions, responsibilities and obligations;
- Delineates allowable expenditures related to elementary, secondary and postsecondary education expenses; and
- Provides funding, payment, and accountability responsibilities.

In addition to repealing the Special Diploma and Special Certificate of Completion as options for public school students effective July 1, 2015, the bill:

- Requires postsecondary goals and career transition planning processes begin before a student with a disability turns age 14.
- Provides students with disabilities with an additional opportunity to satisfy the requirements for a standard high school diploma.

Additionally, the bill allows a student with a disability to defer receipt of the standard high school diploma if the individual education plan (IEP) prescribes special education or services through age 21 and the student meets high school graduation and other requirements.

Under the bill, the Commissioner of Education must grant a permanent exemption to a student who suffers from such a severe cognitive disability or physical disability that the student permanently lacks the capacity to take statewide, standardized assessments. The State Board of Education must adopt rules that include expediting the exemption process.

The bill prohibits a school district from imposing any additional requirements and from charging fees associated with private instructional personnel who are employed by the parent or under contract to observe a student in a public school setting or provide services in the educational setting.

Finally, the bill provides that parents of a student with a substantial reading deficiency must be provided with specific information related to the criteria, policies, and evidence used to review a portfolio. The bill also creates a new, good cause exemption from retaining a 3rd grade student and prohibits a student from being retained more than once in the 3rd grade.

This bill and Senate Bill 2500, First Engrossed, the General Appropriations Bill for Fiscal Year 2014-2015, appropriate $18.4 million to the Agency for Persons with Disabilities for implementation of this program. $1.5 million of this amount is provided as startup funding for planning and implementation of the statewide pilot program which will begin enrolling parents and students on a first-come, first-served basis, no later than January 31, 2015.

The bill takes effect upon becoming a law, unless otherwise provided.

II. Present Situation:

Individuals with Disabilities Education Act (IDEA)[1]

Federal law requires states to make a free appropriate public education available to all children with disabilities residing in the state between the ages of 3 and 21, including children with disabilities who have been suspended or expelled from school.[2] As the state educational agency, the Florida Department of Education (DOE) must exercise general supervision over all educational programs for children with disabilities in the state, including all programs administered by other state or local agencies, and ensure that the programs meet the educational standards of the state educational agency.[3]

For each eligible student or child with a disability served by a school district, or other state agency that provides special education and related services either directly, by contract, or through other arrangements, an individual educational plan (IEP) or individual family support plan must be developed, reviewed, and revised.[4] In developing an IEP, the IEP team is required

[1] 20 U.S.C. §.1400 et. seq., as amended by P.L. 108-446; 34 C.F.R. § 300.17.
[2] 20 U.S.C. § 1412(a)(1).
[3] 20 U.S.C. § 1412(a)(11). 34 C.F.R. § 300.149.
[4] Rule 6A-6.03028(3), F.A.C.

to consider a child's strengths, concerns of the parents for enhancing education, results of the initial evaluation or most recent evaluation of the child, and the academic, developmental, and functional needs of the child, as well as special factors.[5]

States receiving Individuals with Disabilities Education (IDEA) funds must comply with detailed procedural requirements, including identifying, evaluating, and making placements for students with disabilities and for developing an individualized education program for each student.[6]

Transition to Postsecondary Education and the Workforce

Citing research that students with disabilities are less likely than their peers to successfully transition from high school to postsecondary education or the workforce, the U.S. General Accounting Office (GAO) notes that those students face several longstanding challenges accessing services that may assist them, including services such as tutoring, vocational training, and assistive technology.[7] Eligible students with disabilities are entitled to transition planning services during high school, but after leaving high school, to receive services that facilitate their transition they must apply as adults and establish eligibility for programs administered by multiple federal agencies.[8] Students with disabilities may face delays in service and end up on waitlists if these programs are full.[9]

The IDEA requires that beginning not later than the first IEP to be in effect when the student turns 16, school officials must include in the IEP measurable postsecondary goals related to training, education, employment, and where appropriate, independent living skills.[10] The IEP also must specify the transition services[11] needed to assist the student in reaching those goals.[12] School officials are required to invite the student to a meeting where the transition services

[6] 20 U.S.C. § 1415.
[7] *Students with Disabilities, Better Coordination Could Lessen Challenges in the Transition from High School*, U.S. Government Accounting Office (GAO), GAO-12-594, July 12, 2012. *See* http://gao.gov/products/GAO-12-594 (last visited February 22, 2014). Florida participated in the GAO review of federal programs.
[8] *Id.* Students remain eligible for transition planning and services, as well as other IDEA services, until they graduate from high school with a regular high school diploma or exceed the earlier of age 21 or the eligibility age for a free appropriate public education under state law. 20 U.S.C. § 1412(a)(1)(B)-(C), 34 C.F.R. § 300.102(a)(3)(i) and (ii), and Rule 6A-6.03028(1)(a), F.A.C. While federal law authorizes students to receive a free appropriate public education up until age 22, eligibility for students aged 18-21 is determined by states. 20 U.S.C. § 1412(a)(1) and 34 C.F.R. § 300.102. In addition to IDEA, there are a range of services to support students with disabilities in their transition out of high school. The programs vary in the target population served, services provided, grant funding amounts, and other characteristics. In addition, they are administered through various federal agencies, each with its own eligibility requirements and application processes. GAO-12-594, July 12, 2012. Federally funded programs that provide transition services, as defined in the GAO report, are often delivered through state and local entities that have flexibility on how to administer services. *Id.*
[9] *Students with Disabilities, Better Coordination Could Lessen Challenges in the Transition from High School*, U.S. Government Accounting Office (GAO), GAO-12-594, July 12, 2012.
[10] 20 U.S.C. § 1414(d)(1)(A)(i)(VIII).
[11] Under IDEA, transition services are defined as a coordinated set of activities that (1) is designed to be within a results-oriented process focused on improving the academic and functional achievement of a child with a disability to facilitate the child's movement from school to post-school activities; (2) is based on the individual child's needs, strengths, preferences, and interests; and (3) includes instruction, related services, community experiences, the development of employment and other post-school adult living objectives, and when appropriate, acquisition of daily living skills and functional vocational evaluation. 20 U.S.C. § 1401(34). Transition services are also defined in Rule 6A-6.03411(1)(nn), F.A.C.
[12] 20 U.S.C. § 1414(d)(1)(A)(i)(VIII).

detailed in the IEP are discussed.[13] When appropriate, they also must invite a representative of any participating outside agency that is likely to be responsible for providing or paying for services, with the prior consent of the parent or student who has reached the age of majority.[14]

During a Florida student's eighth grade year or during the school year of the student's 14th birthday, whichever occurs first, the IEP for a student with a disability must contain a statement of whether he or she is pursuing a course of study leading to a standard high school diploma or a special diploma.[15] Current law provides that nothing limits or restricts the right of an exceptional student solely to a special diploma or special certificate of completion.[16] A student must, upon proper request, be afforded the opportunity to fully meet all requirements and procedures in law[17] and qualify for a standard diploma upon graduation.[18]

Florida High School Diploma

Currently Florida public high school students have four options for obtaining a standard high school diploma -- a traditional 4-year, 24-credit option;[19] an 18-credit graduation option;[20] or completion of an International Baccalaureate (IB) or Advanced International Certificate of Education (AICE) curriculum.[21] In addition, current law requires each school district to adopt an early graduation policy allowing a high school student who completes 24 credits in less than eight semesters and meets the GPA and assessment requirements to graduate early.[22] A student who fails to meet the required credits or achieve a 2.0 GPA must be awarded a certificate of completion.[23] The state is not obligated to provide special education and related services to a student with a disability who has graduated from high school with a standard diploma.[24] This provision does not apply to a student who has graduated from high school, but has not been awarded a regular high school diploma.[25] A standard diploma does not include an alternative degree that is not fully aligned with the state's academic standards, such as a certificate of completion or a general educational development credential (GED).[26]

Florida Special Diploma

A student with a disability[27] must be awarded a special diploma upon meeting a combination of state and district school board requirements that are included in the district-adopted student progression plan.[28] School boards may award special diplomas based on two options.[29] For students entering ninth grade in or after 1999-2000, special diploma requirements for the first option must include:[30]

- Demonstration of proficiency at the independent, supported, or participatory level of each Florida academic standard for a special diploma, as determined through the IEP process;[31] or
- Mastery of Florida's academic standards through successful completion of courses that meet graduation requirements for a standard diploma;[32] and
- Completion of the minimum number of course credits for a special diploma as prescribed by the school board.[33]

The second option requires district school boards to include procedures for determining and certifying mastery of demonstrated employment and community competencies to ensure that the student:[34]

- Has achieved all the annual goals and short-term objectives which were specified on the IEP related to the employment and community competencies;
- Is employed in a community-based job, for the number of hours per week specified in the student's training plan, for the equivalent of one semester, and paid a minimum wage in compliance with the requirements of the Fair Labor Standards Act; and
- Has mastered the employment and community competencies specified in a training plan. The training plan must be developed and signed by the student, parent, teacher, and employer prior to placement in employment.

Each school board must develop procedures for ensuring that students may select and move between the special diploma options, if both options are provided by the school district, and between courses of study leading to standard or special diplomas, as appropriate.[35] A student who meets all special requirements of the district school board, but fails to meet the appropriate special state minimum requirements must be awarded a special certificate of completion.[36]

---

[27] Section 1003.438, F.S., applies to a student who has been identified, in accordance with State Board of Education rules, as a student with a disability who has an intellectual disability; an autism spectrum disorder; a language impairment; an orthopedic impairment; and other health impairment; a traumatic brain injury; an emotional or behavioral disability; a specific learning disability, including, but not limited to, dyslexia, dyscalculia, or developmental aphasia; or a student who is deaf or hard of hearing or dual sensory impaired.
[28] Section 1003.438, F.S., Rule 6A-1.09401(1) and (3), F.A.C., and Rule 6A-1.09961(2)(c), F.A.C.

[33] Rule 6A-1.09961(12)(b), F.A.C.
[34] Rule 6A-1.09961(14), F.A.C. The DOE notes that students seeking this option may also earn course credits, which are determined by the school board. The DOE also notes that in 2012, eight districts reported that they did not offer this option. DOE correspondence, February 24, 2014. On file with the Senate Education committee.
[35] Rule 6A-1.09961(2)(a), F.A.C.
[36] Section 1003.438, F.S.

Extraordinary Exemption

Current law provides a process for granting an extraordinary exemption from administration of a statewide, standardized assessment for a student with a disability who is prevented by a circumstance or condition from physically demonstrating the mastery of acquired skills that are measured by a statewide standardized assessment.[37] The IEP team may request an exemption from testing during a particular testing window.[38] The request must be made to the district superintendent who must make a recommendation to the Commissioner of Education. A parent is permitted to appeal the Commissioner's decision.[39]

III. Effect of Proposed Changes:

Personal Learning Scholarship Accounts

The bill creates a Personal Learning Scholarship Accounts program for kindergarten through grade 12 students who have a disability. The bill authorizes creation of personalized accounts for individual students, specifies parent and student obligations, delineates allowable expenditures related to elementary, secondary and postsecondary education, and provides funding and payment responsibilities. [40]

Student Eligibility

A parent may establish and maintain a personal account if his or her child:

- Is a resident of this state;
- Is eligible to enroll in kindergarten through grade 12 in a Florida public school;
- Has a disability that meets the Agency for Persons with Disabilities (APD) eligibility criteria;
- Is meeting "regular school attendance" requirements;
- Is the subject of an Individual Learning Services Plan (ILSP);[41] and
- Is a public school student, private school student, home education program student, a student receiving a McKay or FTC scholarship, or a student participating in a private tutoring program?

Students are not eligible if:

- The student or student's parent has accepted any payment, refund, or rebate from a provider of any services received while participating in the program;

[37] Section 1008.212, F.S.
[38] *Id.*
[39] *Id.*
[40] Disability means autism, as defined in s. 393.063(3), F.S.; cerebral palsy, as defined in s. 393.063(4), F.S.; Down syndrome, as defined in s. 393.063(13), F.S.; an intellectual disability, as defined in s. 393.063(21), F.S.; Prader-Willi syndrome, as defined in s. 393.063(25), F.S.; or Spina bifida, as defined in s. 393.063(36), F.S.; Williams syndrome; and, for a student in kindergarten, being a high-risk child, as defined in s. 393.063(20)(a), F.S.
[41] The ILSP is developed by APD, in consultation with the parent, for each student and documents the following: the student has an eligible disability; learning goals and objectives for the student that are linked directly to how program funds will be spent; how attendance requirements will be met (public school, private school, home education program, or a private tutoring program); and how progress towards meeting the individual learning goals and objectives specified in the plan will be assessed and documented for purposes of continued participation in the program.

- The student's participation in the program has been denied or revoked by the Executive Director for the Agency for Persons with Disabilities; or
- The student's parent has forfeited participation in the program for failure to comply with the program's requirements.

Parent and Student Obligations

A parent who applies for program participation is exercising his or her parental option to determine the appropriate placement or services that best meet the needs of his or her child. Parents are responsible for the following:

- Signing an agreement with the APD and annually submitting a notarized, sworn compliance statement to the department to:
  - Affirm that the student meets minimum student attendance requirements;[42]
  - Use funds only for authorized purposes to meet the student's goals and objectives in the ILSP;
  - Affirm that the student takes all appropriate assessments, in accordance with the academic program selected by the parent who enrolls the student in a private school, a home education program, or a scholarship program pursuant to ss. 1002.39 or 1002.395, F.S.;
- Requesting participation in the program at least 60 days before the date of the first program payment;
- Affirming that the student remains in good standing with the provider or school if those options are selected by the parent;
- Affirming that the parent will not transfer any college savings funds to another beneficiary and will not take possession of any funding contributed by the state;
- Applying for admission of his or her child to a private school if this option is selected by the parent;
- Annually renewing participation in the program;
- Be responsible for payment of eligible expenses in excess of the amount of the personal account; and
- Maintaining a portfolio of records for two years to document student learning and requiring it to be available for inspection upon 15 days written notice from the district school superintendent.

A parent who fails to comply with these requirements forfeits the personal account.

Allowable Expenditures

Funds from the personalized account may be used for the following, as specified in the student's ILSP:

[42] Pursuant to s. 1003.01, F.S., "regular school attendance" means the actual attendance of a student during the school day as defined by law and rules of the State Board of Education. Regular attendance within the intent of s. 1003.21, F.S., may be achieved by attendance in: a public school supported by public funds; a parochial, religious, or denominational school; a private school supported in whole or in part by tuition charges or by endowments or gifts; a home education program that meets the requirements of chapter 1002, F.S.; or a private tutoring program that meets the requirements of chapter 1002, F.S. *See also* ss. 1003.21 and 1003.24, F.S.

- Instructional materials, including digital devices, digital periphery devices, and assistive technology devices that allow a student to access instruction or instructional content;
- Curriculum;
- Specialized services selected by the parent and specified in the student's ILSP, including, but not limited to applied behavior analysis services[43] and services provided by speech-language pathologists,[44] occupational therapists,[45] physical therapists,[46] and listening and spoken language specialists;[47]
- Enrollment in, or tuition or fees associated with enrollment in, an eligible private school, an eligible postsecondary educational institution, a private tutoring program,[48] a virtual program offered by a DOE-approved private online provider,[49] or an approved online course;[50]
- Fees for assessments specified in the student's ILSP;
- Contributions to a Coverdell education savings account for the benefit of the eligible student;[51] and
- Contracted services provided by a public school or school district, including classes and extracurricular programs for the services specified in the ILSP or additional services.

A student who receives services under a contract is not considered to be enrolled in a public school for eligibility purposes.

A specialized service provider, eligible private school, eligible postsecondary educational institution, private tutoring program provider, online or virtual program provider, public school, school district, or other entity receiving payments may not share, refund, or rebate any moneys from the personalized account to the parent or participating student.

Term of the Program

Under the bill, the payments made remain in force until a student fails to comply with the program requirements, has funds revoked by the APD Executive Director, graduates from high school, or reaches 22 years of age, whichever occurs first.

[49] *See* s. 1002.45(2)(a), F.S.
[50] *See* ss. 1003.499 or 1004.0961, F.S.
[51] 26 U.S.C. § 530 of the Internal Revenue Code.

APD Executive Director

The bill requires the Executive Director to deny, suspend, or revoke a student's participation in the program or the use of program funds, if the student's health, safety, or welfare is in jeopardy or fraud is suspected. The Executive Director may also deny, suspend, or revoke the use of program funds for material noncompliance with law and rules.

APD

The bill authorizes the APD to perform direct program oversight and contract for some services. Under the bill, the APD may receive an administrative fee of up to ten percent from the appropriation for the program. The agency responsibilities include:

- Receiving applications and determines student eligibility;
- Developing individual learning services plans in consultation with the parent;
- Assigning a level of service category for each student that documents the nature and intensity of services needed to meet the learning outcomes specified in the plan;[52]
- Establishing and maintaining a separate Personal Learning Account for each eligible student;
- Verifying qualifying expenditures;
- Establishing a list of eligible providers;
- Requiring working with an Advisory Work Group to develop a newly created Individual Learning Services Plan, levels of services requirements, a system for payment of claims and providers, and a system to document and assess progress toward meeting the individual learning goals and objectives in the services plan; and
- Requiring rules to implement the program and enroll the first students in a statewide pilot program on a first-come, first-served basis no later than January 31, 2015.

Department of Education

The DOE's responsibilities are to maintain a list of eligible private schools and compare the list of students participating in the program with the public school enrollment lists before each program payment to avoid duplicate payments.

Florida K-20 Education Code

The Commissioner of Education, the Department of Education, and the school districts retain all current duties, authority, and responsibilities as specified in the Florida K-20 Education Code.

Auditor General

The Auditor General must conduct an annual financial and operational audit related to the program. As a part of this audit, the Auditor General must verify, at a minimum, the total amount of students served and eligibility of reimbursement made by the APD and transmit that information to the APD.

[52] The level of service category will be used to determine the amount of the award for the student.

Transition Planning

Under the bill, the postsecondary goals and career transition planning process begins before a student with a disability turns 14 so that a plan is in place by the time he or she turns 16. The IEP must include specific components, including a statement of measurable, long term postsecondary and career education goals, a statement of intent to pursue a standard high school diploma, as determined by the parent, and a description of how the student will fully meet the standard high school diploma requirements. Any change in goals must be approved by the parent and is subject to an independent review.

High School Graduation[53]

The bill repeals the special diploma and the special certificate of completion as graduation options for students with disabilities, effective July 1, 2015.[54]

The bill provides a student who has a disability and for whom the Florida Alternate Assessment (FAA) is the most appropriate measure of the student's skills with the opportunity to satisfy the requirements for a standard high school diploma through the following:[55]

- A combination of appropriate course substitutions, assessments, industry certifications, and other options that meet the criteria specified in State Board of Education rule.
- A portfolio of quantifiable evidence documenting a student's mastery of academic standards using rigorous metrics that are specified in State Board of Education rule.[56]

These provisions apply to students entering grade 9 in the 2014-2015 school year and thereafter.

The bill allows a student to defer receipt of the standard high school diploma if the IEP prescribes special education or services through age 21, the student meets the high school graduation requirements, and is enrolled in accelerated college credit instruction, industry certification courses that lead to college credit, a collegiate high school program, courses necessary to satisfy the Scholar designation requirements, or a structured work-study, internship, or pre-apprenticeship program. Additionally, the bill allows a student who receives a certificate of completion and has an IEP that prescribes special education, transition planning, transition

[53] The importance of making informed decisions about diploma options for students with disabilities has been underscored in recent reports by the National Center for Learning Disabilities, *A Critical Look at the Graduation Rate of Students with Disabilities*, 2013, and the National Center on Educational Outcomes, *Diploma Options, Graduation Requirements, and Exit Exams for Youth with Disabilities*, 2012. *See* http://www.ncld.org/?__utma=56814325.123698153.1394924720.1394924720.1394924720.1&__utmb=56814325.1.10.1394924720&__utmc=56814325&__utmx=-&__utmz=56814325.1394924720.1.1.utmcsr=bing|utmccn=(organic)|utmcmd=organic|utmctr=National%20Center%20for%20Learning%20Disabilities%2C%20A%20Critical%20Look%20at%20the%20Graduation%20Rate%20of%20Students%20with%20Disabilities%2C%202013%2C%20See&__utmv=-&__utmk=227182617http://ici.umn.edu/index.php?products/view/460 (last visited March 15, 2014).

[54] The 2013 K-20 Students with Disabilities Education Pathway Task Force recommended the repeal of Florida's special diploma. The task force was created pursuant to Special Appropriation 129 in the General Appropriations Act, chapter 2013-40, L.O.F.

[55] According to the DOE, the percent of students assessed on the FAA, as compared to students assessed on other statewide, standardized assessments (i.e., FCAT, FCAT 2.0, and end-of-course assessments) was 1.2 percent for 2009-2010, 2010-2011, and 2011-2012. DOE e-mail, April 3, 2014. On file with the Senate Education Committee.

[56] A portfolio may consist of documented work experience, internships, and community service.

services, or related services through 21 years of age to continue to receive the specified instruction and services.

Statewide, Standardized Assessments

A student who has a disability and for whom the IEP team determines that the statewide, standardized assessments cannot accurately measure the student's abilities, taking into consideration all allowable accommodations, must have assessment results waived for the purpose of receiving a course grade and a standard high school diploma.[57] The waiver must be designated on the student's transcript.

Based on information that a reasonably prudent person would rely upon, the Commissioner of Education must grant a permanent exemption to a student who suffers from such a severe cognitive disability or physical disability that the student permanently lacks the capacity to take statewide, standardized assessments. The State Board of Education must adopt rules that include expediting the exemption process.

Other

Current law authorizes private instructional personnel who are employed by the parent or under contract to observe a student in a public school setting or provide services in the educational setting at a time agreed upon by the private instructional personnel and the school.[58] The bill prohibits a school district from imposing any additional requirements and from charging fees in such circumstances.

Any third-grade student scoring Level 1 on a statewide, standardized assessment for grade 3 students must be retained in third grade.[59] Some students may qualify for a good cause exemption and be promoted to fourth grade.[60] Through a student portfolio, a student may be promoted to fourth grade if he or she demonstrates at least a Level 2 performance on the statewide standardized assessment.[61]

The bill provides that parents of a student with a substantial reading deficiency must be provided with specific information related to the criteria, policies and evidence used to review a portfolio. The bill allows the parent of a third grade student who is at risk of retention to request that the school immediately start compiling a portfolio. The bill also requires that a student who was granted a good cause exemption be provided with intensive reading instruction and intervention. The bill creates a new good cause exemption from retention of a 3rd grade student who was previously retained in kindergarten, grade 1, grade 2, or grade 3 for a total of two years and

[57] Section 1008.22(3)(c)2., F.S. This applies to any student who is documented as having an intellectual disability; a hearing impairment, including deafness; a speech or language impairment; a visual impairment, including blindness; an emotional or behavioral disability; an orthopedic or other health impairment; an autism spectrum disorder; a traumatic brain injury; or a specific learning disability, including, but not limited to, dyslexia, dyscalculia, or developmental aphasia. Section 1007.02(2), F.S.
[58] Section 1003.572(3), F.S. These personnel include licensed speech-language pathologists, occupational therapists, physical therapists, and psychologists and must meet the background screening requirements in s. 1012.32 or s. 1012.321, F.S.
[59] Section 1008.25(5)(b), F.S.
[60] Section 1008.25(6)(b), F.S.
[61] Section 1008.25(6)(b)4., F.S.

received intensive reading intervention for two or more years, but still demonstrates a deficiency in reading. Additionally, the bill prohibits a student from being retained in 3rd grade more than once.

The bill takes effect upon becoming a law, unless otherwise provided.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

Article IX, s. 1, Fla. Const., provides in part that "[a]dequate provision shall be made by law for a uniform, efficient, safe, secure, and high quality system of free public schools that allows students to obtain a high quality education and for the establishment, maintenance, and operation of institutions of higher learning and other public education programs that the needs of the people require." The Opportunity Scholarship Program (OSP) was found unconstitutional as fostering plural, nonuniform systems of education in direct violation of the constitutional mandate for a uniform system of free public schools in *Bush v. Holmes*, 919 So.2d 392 (Fla. 2006). However, the Florida Supreme Court also noted that "[w]e reject the suggestion by the State and amici that other publicly funded educational and welfare programs would necessarily be affected by our decision. Other educational programs, such as the program for exceptional students at issue in *Scavella*, are structurally different from the OSP, which provides a systematic private school alternative to the public school system mandated by our constitution." *Id.* at 412.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

A family of a student with a disability eligible to participate in this program would decide which services would best meet their student's needs and spend funds accordingly, within the limitations of the personal account established under CS/CS/SB 1512. Families of students not currently enrolled in a public school would be eligible for funding for authorized services, making those services more accessible and affordable.

C. Government Sector Impact:

Student eligibility for funding under the Personal Learning Scholarship Accounts for program is determined based on the student having a disability as defined in the bill and meeting the APD eligibility requirements.

This bill and Senate Bill 2500, First Engrossed, the General Appropriations Bill for Fiscal Year 2014-2015, appropriate $18.4 million to the Agency for Persons with Disabilities for implementation of this program. $1.5 million of this amount is provided as startup funding for planning and implementation of the statewide pilot program which will begin enrolling parents and students on a first-come, first-served basis, no later than January 31, 2015.

For the pilot program, the Agency for Persons with Disabilities will provide scholarships for eligible students in amounts from $5,000 to $19,000 based on service levels established by the agency. Eligible students in public school, students who participate in the McKay Scholarship program or the Florida Tax Credit Scholarship program will receive 50% of the scholarship amount.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 120.81, 409.1451, 1003.4282, 1003.572, 1007.263, and 1008.25.

This bill creates the following sections of the Florida Statutes: 1002.385, 1003.5716, and 1008.2121.

This bill repeals section 1003.438 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Education on April 2, 2014:
The Committee Substitute:

- Reassigns the major responsibilities for the program from the school districts, the Department of Education, and the Commissioner of Education to the Agency for Persons with Disabilities;
- Revises the eligibility requirements for students whose parents choose to participate in the program;
- Revises the source of funding for the program;
- Requires the APD to work with an Advisory Work Group to develop a newly created Individual Learning Service Plan, levels of services requirements, a system for payment of claims and providers, and a system to document and assess progress toward meeting the individual learning goals and objectives in the services plan;
- Requires rules to implement the program and enroll the first students in a statewide pilot program on a first-come, first-served basis no later than January 31, 2015; and
- Provides that the new requirements for attaining a standard high school diploma apply to students for whom the Florida Alternate Assessment is the most appropriate measure of the student's skills.

CS by Education on March 18, 2014:
The committee substitute:

- Adds a definition of an "approved provider" to mean a provider approved by the Agency for Persons with Disabilities or approved by the Department of Education pursuant to s. 1002.66, F.S.;
- Adds that a student having Williams syndrome is eligible to participate in the program;
- Adds a new requirement that parents maintain a portfolio of records for two years to document student learning and further requires the portfolio to be available for inspection upon 15 days written notice from the district school superintendent;
- Adds a requirement for the State Board of Education to adopt rules to administer an electronic system of payment for authorized expenditures;
- Re-assigns to the Department of Education the Chief Financial Officer's responsibility for payments to fund personalized accounts;
- Clarifies that only a student who has an intellectual or cognitive disability and who takes the Florida Alternate Assessment may use new criteria to satisfy standard high school diploma requirements;
- Adds a provision allowing the parent of a third grade student who is at risk of retention to request that the school immediately start compiling a portfolio;
- Adds a requirement that a student who was granted a good cause exemption be provided with intensive reading instruction and intervention and requires the school district to help schools and teachers meet this requirement;
- Creates a new good cause exemption from retaining a 3rd grade student who:
  - Received intensive reading intervention for two or more years, but still demonstrates a deficiency in reading; and
  - Was previously retained in kindergarten, grade 1, grade 2, or grade 3 for a total of two years;
- Adds a provision that prohibits a student from being retained in 3rd grade more than once;
- Eliminates the specialty high school diploma designation; and

- Makes technical and conforming changes.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/23/2014	.	
	.	
	.	
	.	

The Committee on Appropriations (Galvano) recommended the following:

Senate Amendment (with title amendment)

Between lines 94 and 95
insert:

Section 1. Paragraph (c) is added to subsection (1), paragraph (f) of subsection (2), subsection (3), subsection (5), subsection (6), paragraph (e) of subsection (7), paragraphs (c) and (e) of subsection (8), paragraphs (d), (j) and (o) of subsection (9), and paragraph (a) of subsection (12) of section 1002.395, Florida Statutes, are amended, paragraphs (h) through

910124

(j) of subsection (2) are redesignated as paragraphs (i) through (k), respectively, and a new paragraph (h) is added to that subsection, paragraph (g) is added to subsection (7), and subsection (16) is added to that section, to read:

1002.395 Florida Tax Credit Scholarship Program.—

(1) FINDINGS AND PURPOSE.—

(c) The purpose of this section is not to prescribe the standards or curriculum for private schools. A private school retains the authority to determine its own standards and curriculum.

(2) DEFINITIONS.—As used in this section, the term:

(f) "Eligible nonprofit scholarship-funding organization" means a state university; or an independent college or university that is eligible to participate in the William L. Boyd, IV, Florida Resident Access Grant Program, located and chartered in this state, is not for profit, and is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools; or is a charitable organization that:

1. Is exempt from federal income tax pursuant to s. 501(c)(3) of the Internal Revenue Code;

2. Is a Florida entity formed under chapter 607, chapter 608, or chapter 617 and whose principal office is located in the state; and

3. Complies with subsections ~~the provisions of subsection~~ (6) and (16).

(h) "Household income" has the same meaning as the term "income" is defined in the Income Eligibility Guidelines for free and reduced price meals under the National School Lunch Program in 7 C.F.R. part 210 as published in the Federal

910124

Register by the United States Department of Agriculture.

(3) PROGRAM; SCHOLARSHIP ELIGIBILITY.—

(a) The Florida Tax Credit Scholarship Program is established.

(b) For the 2014-2015 and 2015-2016 school years, contingent upon available funds, a student is eligible for a Florida tax credit scholarship under this section if the student meets one or more of the following criteria:

1. The student qualifies for free or reduced-price school lunches under the National School Lunch Act or is on the direct certification list; ~~and:~~

~~a. Was counted as a full-time equivalent student during the previous state fiscal year for purposes of state per-student funding;~~

~~b. Received a scholarship from an eligible nonprofit scholarship-funding organization or from the State of Florida during the previous school year; or~~

~~c. Is eligible to enter kindergarten through fifth grade.~~

2. The student is currently placed, or during the previous state fiscal year was placed, in foster care or in out-of-home care as defined in s. 39.01; or~~.~~

3. The student continues in the scholarship program as long as the student’s household income level does not exceed 230 percent of the federal poverty level.

~~4. The student, who is a first-time tax credit scholarship recipient, is a sibling of a student who is continuing in the scholarship program and who resides in the same household as the student if the sibling meets one or more of the criteria specified in subparagraphs 1. and 2. and as long as the~~

910124

~~student's and sibling's household income level does not exceed 230 percent of the federal poverty level.~~

(c) For the 2016-2017 school year and thereafter, contingent upon available funds, a student is eligible for a Florida tax credit scholarship under this section if the student meets one or more of the following criteria:

1. The student is on the direct certification list or the student's household income level does not exceed 185 percent of the federal poverty level; or

2. The student is currently placed, or during the previous state fiscal year was placed, in foster care or in out-of-home care as defined in s. 39.01.

A student who initially receives a scholarship based on eligibility under subparagraph (b)2. or subparagraph (c)2. remains eligible until the student graduates from high school or attains the age of 21 years, whichever occurs first, regardless of the student's household income level. A sibling of a student who is participating in the scholarship program under this subsection is eligible for a scholarship if the student resides in the same household as the sibling.

(5) SCHOLARSHIP FUNDING TAX CREDITS; LIMITATIONS.—

(a)1. The tax credit cap amount is $229 million in the 2012-2013 state fiscal year.

2. In the 2013-2014 state fiscal year and each state fiscal year thereafter, the tax credit cap amount is the tax credit cap amount in the prior state fiscal year. However, in any state fiscal year when the annual tax credit amount for the prior state fiscal year is equal to or greater than 90 percent of the

910124

tax credit cap amount applicable to that state fiscal year, the tax credit cap amount shall increase by 25 percent. The Department of Education and Department of Revenue~~department~~ shall publish on their websites~~its website~~ information identifying the tax credit cap amount when it is increased pursuant to this subparagraph.

(b) A taxpayer may submit an application to the department for a tax credit or credits under one or more of s. 211.0251, s. 212.1831, s. 220.1875, s. 561.1211, or s. 624.51055.

1. The taxpayer shall specify in the application each tax for which the taxpayer requests a credit and the applicable taxable year for a credit under s. 220.1875 or s. 624.51055 or the applicable state fiscal year for a credit under s. 211.0251, s. 212.1831, or s. 561.1211. The department shall approve tax credits on a first-come, first-served basis and must obtain the division's approval before ~~prior to~~ approving a tax credit under s. 561.1211.

2. Within 10 days after approving an application, the department shall provide a copy of its approval letter to the eligible nonprofit scholarship-funding organization specified by the taxpayer in the application.

(c) If a tax credit approved under paragraph (b) is not fully used within the specified state fiscal year for credits under s. 211.0251, s. 212.1831, or s. 561.1211 or against taxes due for the specified taxable year for credits under s. 220.1875 or s. 624.51055 because of insufficient tax liability on the part of the taxpayer, the unused amount may be carried forward for a period not to exceed 5 years. However, any taxpayer that seeks to carry forward an unused amount of tax credit must

910124

submit an application to the department for approval of the carryforward tax credit in the year that the taxpayer intends to use the carryforward. The department must obtain the division's approval prior to approving the carryforward of a tax credit under s. 561.1211.

(d) A taxpayer may not convey, assign, or transfer an approved tax credit or a carryforward tax credit to another entity unless all of the assets of the taxpayer are conveyed, assigned, or transferred in the same transaction. However, a tax credit under s. 211.0251, s. 212.1831, s. 220.1875, s. 561.1211, or s. 624.51055 may be conveyed, transferred, or assigned between members of an affiliated group of corporations if the type of tax credit under s. 211.0251, s. 212.1831, s. 220.1875, s. 561.1211, or s. 624.51055 remains the same. A taxpayer shall notify the department of its intent to convey, transfer, or assign a tax credit to another member within an affiliated group of corporations. The amount conveyed, transferred, or assigned is available to another member of the affiliated group of corporations upon approval by the department. The department shall obtain the division's approval before approving a conveyance, transfer, or assignment of a tax credit under s. 561.1211.

(e) Within any state fiscal year, a taxpayer may rescind all or part of a tax credit approved under paragraph (b). The amount rescinded shall become available for that state fiscal year to another eligible taxpayer as approved by the department if the taxpayer receives notice from the department that the rescindment has been accepted by the department. The department must obtain the division's approval prior to accepting the

910124

rescindment of a tax credit under s. 561.1211. Any amount rescinded under this paragraph shall become available to an eligible taxpayer on a first-come, first-served basis based on tax credit applications received after the date the rescindment is accepted by the department.

(f) For purposes of calculating the underpayment of estimated corporate income taxes pursuant to s. 220.34 and tax installment payments for taxes on insurance premiums or assessments under s. 624.5092, the final amount due is the amount after credits earned under s. 220.1875 or s. 624.51055 for contributions to eligible nonprofit scholarship-funding organizations are deducted.

1. For purposes of determining if a penalty or interest shall be imposed for underpayment of estimated corporate income tax pursuant to s. 220.34(2)(d)1., a taxpayer may, after earning a credit under s. 220.1875, reduce the following estimated payment in that taxable year by the amount of the credit. This subparagraph applies to contributions made on or after July 1, 2014.

2. For purposes of determining if a penalty under s. 624.5092 shall be imposed, an insurer may, after earning a credit under s. 624.51055, reduce the following installment payment of 27 percent of the amount of the net tax due as reported on the return for the preceding year under s. 624.5092(2)(b) by the amount of the credit. This subparagraph applies to contributions made on or after July 1, 2014.

(6) OBLIGATIONS OF ELIGIBLE NONPROFIT SCHOLARSHIP-FUNDING ORGANIZATIONS.—An eligible nonprofit scholarship-funding organization:

910124

(a) Must comply with the antidiscrimination provisions of 42 U.S.C. s. 2000d.

(b) Must comply with the following background check requirements:

1. All owners and operators as defined in subparagraph (2)(i)1. ~~(2)(h)1.~~ are, before ~~upon~~ employment or engagement to provide services, subject to level 2 background screening as provided under chapter 435. The fingerprints for the background screening must be electronically submitted to the Department of Law Enforcement and can be taken by an authorized law enforcement agency or by an employee of the eligible nonprofit scholarship-funding organization or a private company who is trained to take fingerprints. However, the complete set of fingerprints of an owner or operator may not be taken by the owner or operator. The results of the state and national criminal history check shall be provided to the Department of Education for screening under chapter 435. The cost of the background screening may be borne by the eligible nonprofit scholarship-funding organization or the owner or operator.

2. Every 5 years following employment or engagement to provide services or association with an eligible nonprofit scholarship-funding organization, each owner or operator must meet level 2 screening standards as described in s. 435.04, at which time the nonprofit scholarship-funding organization shall request the Department of Law Enforcement to forward the fingerprints to the Federal Bureau of Investigation for level 2 screening. If the fingerprints of an owner or operator are not retained by the Department of Law Enforcement under subparagraph 3., the owner or operator must electronically file a complete

910124

set of fingerprints with the Department of Law Enforcement. Upon submission of fingerprints for this purpose, the eligible nonprofit scholarship-funding organization shall request that the Department of Law Enforcement forward the fingerprints to the Federal Bureau of Investigation for level 2 screening, and the fingerprints shall be retained by the Department of Law Enforcement under subparagraph 3.

3. ~~All~~ Fingerprints submitted to the Department of Law Enforcement as required by this paragraph must be retained by the Department of Law Enforcement in a manner approved by rule and entered in the statewide automated biometric identification system authorized by s. 943.05(2)(b). The fingerprints must thereafter be available for all purposes and uses authorized for arrest fingerprints entered in the statewide automated biometric identification system pursuant to s. 943.051.

4. The Department of Law Enforcement shall search all arrest fingerprints received under s. 943.051 against the fingerprints retained in the statewide automated biometric identification system under subparagraph 3. Any arrest record that is identified with an owner’s or operator’s fingerprints must be reported to the Department of Education. The Department of Education shall participate in this search process by paying an annual fee to the Department of Law Enforcement and by informing the Department of Law Enforcement of any change in the employment, engagement, or association status of the owners or operators whose fingerprints are retained under subparagraph 3. The Department of Law Enforcement shall adopt a rule setting the amount of the annual fee to be imposed upon the Department of Education for performing these services and establishing the

910124

procedures for the retention of owner and operator fingerprints and the dissemination of search results. The fee may be borne by the owner or operator of the nonprofit scholarship-funding organization.

5. A nonprofit scholarship-funding organization whose owner or operator fails the level 2 background screening is not ~~shall not be~~ eligible to provide scholarships under this section.

6. A nonprofit scholarship-funding organization whose owner or operator in the last 7 years has filed for personal bankruptcy or corporate bankruptcy in a corporation of which he or she owned more than 20 percent shall not be eligible to provide scholarships under this section.

7. In addition to the offenses listed in s. 435.04, a person required to undergo background screening pursuant to this part or authorizing statutes must not have an arrest awaiting final disposition for, must not have been found guilty of, or entered a plea of nolo contendere to, regardless of adjudication, and must not have been adjudicated delinquent, and the record must not have been sealed or expunged for, any of the following offenses or any similar offense of another jurisdiction:

a. Any authorizing statutes, if the offense was a felony.

b. This chapter, if the offense was a felony.

c. Section 409.920, relating to Medicaid provider fraud.

d. Section 409.9201, relating to Medicaid fraud.

e. Section 741.28, relating to domestic violence.

f. Section 817.034, relating to fraudulent acts through mail, wire, radio, electromagnetic, photoelectronic, or photooptical systems.

910124

g. Section 817.234, relating to false and fraudulent insurance claims.

h. Section 817.505, relating to patient brokering.

i. Section 817.568, relating to criminal use of personal identification information.

j. Section 817.60, relating to obtaining a credit card through fraudulent means.

k. Section 817.61, relating to fraudulent use of credit cards, if the offense was a felony.

l. Section 831.01, relating to forgery.

m. Section 831.02, relating to uttering forged instruments.

n. Section 831.07, relating to forging bank bills, checks, drafts, or promissory notes.

o. Section 831.09, relating to uttering forged bank bills, checks, drafts, or promissory notes.

p. Section 831.30, relating to fraud in obtaining medicinal drugs.

q. Section 831.31, relating to the sale, manufacture, delivery, or possession with the intent to sell, manufacture, or deliver any counterfeit controlled substance, if the offense was a felony.

(c) Must not have an owner or operator who owns or operates an eligible private school that is participating in the scholarship program.

(d) Must provide scholarships, from eligible contributions, to eligible students for the cost of:

1. Tuition and fees for an eligible private school; or

2. Transportation to a Florida public school that is located outside the district in which the student resides or to

910124

a lab school as defined in s. 1002.32.

(e) Must give first priority to eligible students who received a scholarship from an eligible nonprofit scholarship-funding organization or from the State of Florida during the previous school year. Beginning in the 2016-2017 school year, an eligible nonprofit scholarship-funding organization shall give priority to new applicants whose household income levels do not exceed 185 percent of the federal poverty level or who are in foster care or out-of-home care.

(f) Must provide a scholarship to an eligible student on a first-come, first-served basis unless the student qualifies for priority pursuant to paragraph (e).

(g) May not restrict or reserve scholarships for use at a particular private school or provide scholarships to a child of an owner or operator.

(h) Must allow a student in foster care or out-of-home care to apply for a scholarship at any time.

(i) ~~(h)~~ Must allow an eligible student to attend any eligible private school and must allow a parent to transfer a scholarship during a school year to any other eligible private school of the parent’s choice.

(j) ~~(i)~~ 1. May use up to 3 percent of eligible contributions received during the state fiscal year in which such contributions are collected for administrative expenses if the organization has operated under this section for at least 3 state fiscal years and did not have any negative financial findings in its most recent audit under paragraph (m) ~~(l)~~. Such administrative expenses must be reasonable and necessary for the organization’s management and distribution of eligible

910124

contributions under this section. No funds authorized under this subparagraph shall be used for lobbying or political activity or expenses related to lobbying or political activity. Up to ~~No more than~~ one-third of the funds authorized for administrative expenses under this subparagraph may be used for expenses related to the recruitment of contributions from taxpayers. In any year an eligible non-profit scholarship funding organization is permitted under this subparagraph to use eligible contributions for administrative expenses, any application fee charged by the organization for an application for scholarship shall be expended for scholarships to students.

2. Must expend for annual or partial-year scholarships an amount equal to or greater than 75 percent of the net eligible contributions remaining after administrative expenses during the state fiscal year in which such contributions are collected. No more than 25 percent of such net eligible contributions may be carried forward to the following state fiscal year. All amounts carried forward, for audit purposes, must be specifically identified for particular students, by student name and the name of the school to which the student is admitted, subject to the requirements of s. 1002.22, s. 1002.221, 20 U.S.C. s. 1232g, and the applicable rules and regulations issued pursuant thereto. Any amounts carried forward shall be expended for annual or partial-year scholarships in the following state fiscal year. Net eligible contributions remaining on June 30 of each year that are in excess of the 25 percent that may be carried forward shall be returned to the State Treasury for deposit in the General Revenue Fund.

3. Must, before granting a scholarship for an academic

910124

year, document each scholarship student's eligibility for that academic year. A scholarship-funding organization may not grant multiyear scholarships in one approval process.

(k) ~~(j)~~ Must maintain separate accounts for scholarship funds and operating funds.

(l) ~~(k)~~ With the prior approval of the Department of Education, may transfer funds to another eligible nonprofit scholarship-funding organization if additional funds are required to meet scholarship demand at the receiving nonprofit scholarship-funding organization. A transfer is ~~shall be~~ limited to the greater of $500,000 or 20 percent of the total contributions received by the nonprofit scholarship-funding organization making the transfer. All transferred funds must be deposited by the receiving nonprofit scholarship-funding organization into its scholarship accounts. All transferred amounts received by any nonprofit scholarship-funding organization must be separately disclosed in the annual financial and compliance audit required in this section.

(m) ~~(l)~~ Must provide to the Auditor General and the Department of Education a report on the results of an annual financial ~~and compliance~~ audit of its accounts and records conducted by an independent certified public accountant ~~and~~ in accordance with auditing standards generally accepted in the United States, government auditing standards, and rules promulgated~~adopted~~ by the Auditor General. The audit report~~must be conducted in compliance with generally accepted auditing standards and~~ must include a report on financial statements presented in accordance with generally accepted accounting principles~~ set forth by the American Institute of Certified~~

910124

~~Public Accountants for not-for-profit organizations and a determination of compliance with the statutory eligibility and expenditure requirements set forth in this section~~. Audit reports~~Audits~~ must be provided to the Auditor General and the Department of Education within 180 days after completion of the eligible nonprofit scholarship-funding organization's fiscal year. The Auditor General shall review all audit reports submitted pursuant to this paragraph. The Auditor General shall request any significant items that were omitted in violation of a rule adopted by the Auditor General. The items must be provided within 45 days after the date of the request. If the scholarship-funding organization does not comply with the Auditor General's request, the Auditor General shall notify the Legislative Auditing Committee.

(n) ~~(m)~~ Must prepare and submit quarterly reports to the Department of Education pursuant to paragraph (9)(m). In addition, an eligible nonprofit scholarship-funding organization must submit in a timely manner any information requested by the Department of Education relating to the scholarship program.

(o) ~~(n)~~1.a. Must participate in the joint development of agreed-upon procedures to be performed by an independent certified public accountant as required under paragraph (8)(e) if the scholarship-funding organization provided more than $250,000 in scholarship funds to an eligible private school under this section during the 2009-2010 state fiscal year. The agreed-upon procedures must uniformly apply to all private schools and must determine, at a minimum, whether the private school has been verified as eligible by the Department of Education under paragraph (9)(c); has an adequate accounting

910124

system, system of financial controls, and process for deposit and classification of scholarship funds; and has properly expended scholarship funds for education-related expenses. During the development of the procedures, the participating scholarship-funding organizations shall specify guidelines governing the materiality of exceptions that may be found during the accountant's performance of the procedures. The procedures and guidelines shall be provided to private schools and the Commissioner of Education by March 15, 2011.

b. Must participate in a joint review of the agreed-upon procedures and guidelines developed under sub-subparagraph a., by February 2013 and biennially thereafter, if the scholarship-funding organization provided more than $250,000 in scholarship funds to an eligible private school under this section during the state fiscal year preceding the biennial review. If the procedures and guidelines are revised, the revisions must be provided to private schools and the Commissioner of Education by March 15, 2013, and biennially thereafter.

c. Must monitor the compliance of a private school with paragraph (8)(e) if the scholarship-funding organization provided the majority of the scholarship funding to the school. For each private school subject to paragraph (8)(e), the appropriate scholarship-funding organization shall notify the Commissioner of Education by October 30, 2011, and annually thereafter of:

(I) A private school's failure to submit a report required under paragraph (8)(e); or

(II) Any material exceptions set forth in the report required under paragraph (8)(e).

910124

2. Must seek input from the accrediting associations that are members of the Florida Association of Academic Nonpublic Schools when jointly developing the agreed-upon procedures and guidelines under sub-subparagraph 1.a. and conducting a review of those procedures and guidelines under sub-subparagraph 1.b.

(p) Must maintain the surety bond or letter of credit required by subsection (16). The amount of the surety bond or letter of credit may be adjusted quarterly to equal the actual amount of undisbursed funds based upon submission by the organization of a statement from a certified public accountant verifying the amount of undisbursed funds. The requirements of this paragraph are waived if the cost of acquiring a surety bond or letter of credit exceeds the average 10-year cost of acquiring a surety bond or letter of credit by 200 percent. The requirements of this paragraph are waived for a state university; or an independent college or university which is eligible to participate in the William L. Boyd, IV, Florida Resident Access Grant Program, located and chartered in this state, is not for profit, and is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools.

(q) Must provide to the Auditor General any information or documentation requested in connection with an operational audit of a scholarship funding organization conducted pursuant to s. 11.45.

~~Any and all~~ Information and documentation provided to the Department of Education and the Auditor General relating to the identity of a taxpayer that provides an eligible contribution under this section shall remain confidential at all times in

910124

accordance with s. 213.053.

(7) PARENT AND STUDENT RESPONSIBILITIES FOR PROGRAM PARTICIPATION.—

(e) The parent shall ensure that the student participating in the scholarship program takes the norm-referenced assessment offered by the private school. The parent may also choose to have the student participate in the statewide assessments pursuant to s. 1008.22. If the parent requests that the student participating in the scholarship program take statewide assessments pursuant to s. 1008.22 and the private school has not chosen to offer and administer the statewide assessments, the private school~~parent~~ is responsible for transporting the student in a manner as agreed upon by the parent, which may include but not be limited to transportation by the parent, to the assessment site designated by the school district, and for making arrangements for the student to take the assessments at an assessment site designated by the school district in accordance with the district's assessment schedule.

(g) The parent shall authorize the nonprofit scholarship-funding organization to access information needed for income eligibility determination and verification held by other state or federal agencies, including the Department of Revenue, the Department of Children and Families, the Department of Education, the Department of Economic Opportunity, and the Agency for Health Care Administration.

(8) PRIVATE SCHOOL ELIGIBILITY AND OBLIGATIONS.—An eligible private school may be sectarian or nonsectarian and must:

(c) Be academically accountable to the parent for meeting the educational needs of the student by:

910124

1. At a minimum, annually providing to the parent a written explanation of the student's progress.

2. Annually administering or making provision for students participating in the scholarship program in grades 3 through 10 to take one of the nationally norm-referenced tests identified by the Department of Education or the statewide assessments pursuant to s. 1008.22. Students with disabilities for whom standardized testing is not appropriate are exempt from this requirement. A participating private school must report a student's scores to the parent. A participating private school must annually report by August 15 the scores of all participating students to the Learning System Institute~~independent research organization~~ described in paragraph (9)(j).

3. Providing~~Cooperating with~~ the scholarship student whose parent chooses to have the student participate in the statewide assessments pursuant to s. 1008.22, transportation in a manner as agreed upon by the parent, which may include but not limited to transportation by the parent, to the assessment site designated by the school district, and making arrangements for the student to take the assessments at an assessment site designated by the school district in accordance with the district's assessment schedule or, if a private school chooses to offer the statewide assessments, administering the assessments at the school.

a. A participating private school may choose to offer and administer the statewide assessments to all students who attend the private school in grades 3 through 10.

b. A participating private school must submit a request in

910124

writing to the Department of Education by March 1 of each year in order to administer the statewide assessments in the subsequent school year.

(e) Annually contract with an independent certified public accountant to perform the agreed-upon procedures developed under paragraph (6)(o) ~~(6)(n)~~ and produce a report of the results if the private school receives more than $250,000 in funds from scholarships awarded under this section in the 2010-2011 state fiscal year or a state fiscal year thereafter. A private school subject to this paragraph must submit the report by September 15, 2011, and annually thereafter to the scholarship-funding organization that awarded the majority of the school's scholarship funds. The agreed-upon procedures must be conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.

The inability of a private school to meet the requirements of this subsection shall constitute a basis for the ineligibility of the private school to participate in the scholarship program as determined by the Department of Education.

(9) DEPARTMENT OF EDUCATION OBLIGATIONS.—The Department of Education shall:

(d) Annually verify the eligibility of expenditures as provided in paragraph (6)(d) using the audit required by paragraph (6)(m) and s. 11.45(2)(k) ~~(6)(l)~~.

(j) Issue a project grant award to the Learning System Institute at the Florida State University~~Select an independent research organization, which may be a public or private entity or university~~, to which participating private schools must

910124

report the scores of participating students on the nationally norm-referenced tests or the statewide assessments administered by the private school in grades 3 through 10. The project term is 2 years, and the amount of the project is up to $500,000 per year. The project grant award must be reissued in 2 year intervals in accordance with this paragraph.

1. The Learning System Institute ~~independent research organization~~ must annually report to the Department of Education on the student performance ~~year-to-year learning gains~~ of participating students:

a. On a statewide basis. The report shall also include, to the extent possible, a comparison of scholarship~~these~~ students' performance~~learning gains~~ to the statewide student performance~~learning gains~~ of public school students with socioeconomic backgrounds similar to those of students participating in the scholarship program. To minimize costs and reduce time required for the Learning System Institute's~~independent research organization's~~ analysis and evaluation, the Department of Education shall coordinate with the Learning System Institute to provide data to the Learning System Institute in order to conduct analyses of matched students from public school assessment data and calculate control group student performance~~learning gains~~ using an agreed-upon methodology ~~outlined in the contract~~ with the Learning System Institute~~independent research organization~~; and

b. On an individual school basis. The annual report must include student performance for each participating private school in which at least 51 percent of the total enrolled students in the private school participated in the Florida Tax

910124

Credit Scholarship Program in the prior school year. The report shall be according~~According~~ to each participating private school, and for participating students, in which there are at least 30 participating students who have scores for tests administered~~ during or after the 2009-2010 school year for 2 consecutive years at that private school~~. If the Learning System Institute determines that the 30 participating student cell size may be reduced without disclosing personally identifiable information, as described in 34 C.F.R. 99.12, of a participating student, the Learning System Institute may reduce the participating student cell size, but the cell size must not be reduced to less than 10 participating students. The department shall provide each private school's prior school year's student enrollment information to the Learning System Institute no later than June 15 of each year, or as requested by the Learning System Institute.

2. The sharing and reporting of student performance~~learning gain~~ data under this paragraph must be in accordance with requirements of s. 1002.22, s. 1002.221, 20 U.S.C. s. 1232g, the Family Educational Rights and Privacy Act, and the applicable rules and regulations issued pursuant thereto, and shall be for the sole purpose of creating the annual report required by subparagraph 1. All parties must preserve the confidentiality of such information as required by law. The annual report must not disaggregate data to a level that will identify individual participating schools, except as required under sub-subparagraph 1.b., or disclose the academic level of individual students.

3. The annual report required by subparagraph 1. shall be published by the Department of Education on its website.

910124

(o) Provide a process to match the direct certification list with the scholarship application data submitted by any nonprofit scholarship-funding organization eligible to receive the 3-percent administrative allowance under paragraph (6)(j) ~~(6)(i)~~.

(12) SCHOLARSHIP AMOUNT AND PAYMENT.—

(a)~~1.~~ Except as provided in subparagraph 2., the amount of a scholarship provided to any student for any single school year by an eligible nonprofit scholarship-funding organization from eligible contributions shall be for total costs authorized under paragraph (6)(d), not to exceed annual limits, which shall be determined as follows:

1.a. For a scholarship awarded to a student enrolled in an eligible private school~~:~~

~~(I) For the 2009-2010 state fiscal year, the limit shall be $3,950.~~

~~(II) For the 2010-2011 state fiscal year, the limit shall be 60 percent of the unweighted FTE funding amount for that year.~~

~~(III) For the 2011-2012 state fiscal year and thereafter~~, the limit shall be determined by multiplying the unweighted FTE funding amount in that state fiscal year by the percentage used to determine the limit in the prior state fiscal year. However, in each state fiscal year that the tax credit cap amount increases pursuant to paragraph (5)(a) ~~subparagraph (5)(a)2.~~, the prior year percentage shall be increased by 4 percentage points and the increased percentage shall be used to determine the limit for that state fiscal year. If the percentage so calculated reaches 80 percent in a state fiscal year, no further

910124

increase in the percentage is allowed and the limit shall be 80 percent of the unweighted FTE funding amount for that state fiscal year and thereafter. Beginning in the 2016-2017 state fiscal year, the amount of a scholarship awarded to a student enrolled in an eligible private school shall be equal to 82 percent of the unweighted FTE funding amount for that state fiscal year and thereafter.

b. For a scholarship awarded to a student enrolled in a Florida public school that is located outside the district in which the student resides or in a lab school as defined in s. 1002.32, the limit shall be $500.

2. The annual limit for a scholarship under sub-subparagraph 1.a. shall be reduced by:

a. Twenty-five percent if the student's household income level is equal to or greater than 200 percent, but less than 215 percent, of the federal poverty level.

b. Fifty percent if the student's household income level is equal to or greater than 215 percent, but equal to or less than 230 percent, of the federal poverty level.

(16) NONPROFIT SCHOLARSHIP-FUNDING ORGANIZATIONS; APPLICATION.—In order to participate in the scholarship program created under this section, a charitable organization that seeks to be a nonprofit scholarship-funding organization must submit an application for initial approval or renewal to the Office of Independent Education and Parental Choice no later than September 1 of each year before the school year for which the organization intends to offer scholarships.

(a) An application for initial approval must include:

1. A copy of the organization's incorporation documents and

910124

registration with the Division of Corporations of the Department of State.

2. A copy of the organization's Internal Revenue Service determination letter as a s. 501(c)(3) not-for-profit organization.

3. A description of the organization's financial plan that demonstrates sufficient funds to operate throughout the school year.

4. A description of the geographic region that the organization intends to serve and an analysis of the demand and unmet need for eligible students in that area.

5. The organization's organizational chart.

6. A description of the criteria and methodology that the organization will use to evaluate scholarship eligibility.

7. A description of the application process, including deadlines and any associated fees.

8. A description of the deadlines for attendance verification and scholarship payments.

9. A copy of the organization's policies on conflict of interest and whistleblowers.

10. A copy of a surety bond or letter of credit in an amount equal to 25 percent of the scholarship funds anticipated for each school year or $100,000, whichever is greater.

(b) In addition to the information required by subparagraphs (a)1.-9., an application for renewal must include:

1. A surety bond or letter of credit equal to the amount of undisbursed donations held by the organization based on the annual report submitted pursuant to paragraph (6)(m). The amount of the surety bond or letter of credit must be at least

910124

$100,000, but not more than $25 million.

2. The organization's completed Internal Revenue Service Form 990 submitted no later than November 30 of the year before the school year that the organization intends to offer the scholarships, notwithstanding the September 1 application deadline.

3. A copy of the statutorily required audit to the Department of Education and Auditor General.

4. An annual report that includes:

a. The number of students who completed applications, by county and by grade.

b. The number of students who were approved for scholarships, by county and by grade.

c. The number of students who received funding for scholarships within each funding category, by county and by grade.

d. The amount of funds received, the amount of funds distributed in scholarships, and an accounting of remaining funds and the obligation of those funds.

e. A detailed accounting of how the organization spent the administrative funds allowable under paragraph (6)(j).

(c) In consultation with the Department of Revenue and the Chief Financial Officer, the Office of Independent Education and Parental Choice shall review the application. The Department of Education shall notify the organization in writing of any deficiencies within 30 days after receipt of the application and allow the organization 30 days to correct any deficiencies.

(d) Within 30 days after receipt of the finalized application by the Office of Independent Education and Parental

910124

Choice, the Commissioner of Education shall recommend approval or disapproval of the application to the State Board of Education. The State Board of Education shall consider the application and recommendation at the next scheduled meeting, adhering to appropriate meeting notice requirements. If the State Board of Education disapproves the organization's application, it shall provide the organization with a written explanation of that determination. The State Board of Education's action is not subject to chapter 120.

(e) If the State Board of Education disapproves the renewal of a nonprofit scholarship-funding organization, the organization must notify the affected eligible students and parents of the decision within 15 days after disapproval. An eligible student affected by the disapproval of an organization's participation remains eligible under this section until the end of the school year in which the organization was disapproved. The student must apply and be accepted by another eligible nonprofit scholarship-funding organization for the upcoming school year. The student shall be given priority in accordance with paragraph (6)(f).

(f) All remaining funds held by a nonprofit scholarship-funding organization that is disapproved for participation must revert to the Department of Revenue for redistribution to other eligible nonprofit scholarship-funding organizations.

(g) A nonprofit scholarship-funding organization is a renewing organization if it maintains continuous approval and participation in the program. An organization that chooses not to participate for 1 year or more or is disapproved to participate for 1 year or more must submit an application for

910124

initial approval in order to participate in the program again.

(h) The State Board of Education shall adopt rules providing guidelines for receiving, reviewing, and approving applications for new and renewing nonprofit scholarship-funding organizations. The rules must include a process for compiling input and recommendations from the Chief Financial Officer, the Department of Revenue, and the Department of Education. The rules must also require that the nonprofit scholarship-funding organization make a brief presentation to assist the State Board of Education in its decision.

(i) A state university; or an independent college or university which is eligible to participate in the William L. Boyd, IV, Florida Resident Access Grant Program, located and chartered in this state, is not for profit, and is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools, is exempt from the initial or renewal application process, but must file a registration notice with the Department of Education to be an eligible nonprofit scholarship-funding organization. The State Board of Education shall adopt rules that identify the procedure for filing the registration notice with the department. The rules must identify appropriate reporting requirements for fiscal, programmatic, and performance accountability purposes consistent with this section, but shall not exceed the requirements for eligible nonprofit scholarship-funding organizations for charitable organizations. An nonprofit scholarship-funding organization that becomes eligible pursuant to this paragraph may begin providing scholarships to participating students in the 2015-2016 school year.

910124

Section 2. A nonprofit scholarship-funding organization whose application for participation in the program established by s. 1002.395, Florida Statutes, was approved before July 1, 2014, must, by August 1, 2014, provide a copy of a surety bond or letter of credit meeting the requirements of s. 1002.395(16), Florida Statutes, to the Office of Independent Education and Parental Choice.

Section 3. Paragraph (k) is added to subsection (2) and paragraph (y) is added to subsection (3) of section 11.45, Florida Statutes, and subsection (8) of that section is amended, to read:

11.45 Definitions; duties; authorities; reports; rules.—

(2) DUTIES.—The Auditor General shall:

(k) Annually conduct operational audits of the accounts and records of eligible non-profit scholarship-funding organizations receiving eligible contributions under s. 1002.395, including any contracts for services with related entities, to determine compliance with the provisions of that section. Such audits shall include, but not be limited to, a determination of the eligible non-profit scholarship funding organization's compliance with s. 1002.395(6)(j). The Auditor General shall provide its report on the results of the audits to the Governor, the President of the Senate, the Speaker of the House, the Chief Financial Officer, and the Legislative Auditing Committee, within 30 days of completion of the audit.

The Auditor General shall perform his or her duties independently but under the general policies established by the Legislative Auditing Committee. This subsection does not limit

910124

the Auditor General's discretionary authority to conduct other audits or engagements of governmental entities as authorized in subsection (3).

(3) AUTHORITY FOR AUDITS AND OTHER ENGAGEMENTS.—The Auditor General may, pursuant to his or her own authority, or at the direction of the Legislative Auditing Committee, conduct audits or other engagements as determined appropriate by the Auditor General of:

(y) The accounts and records of a nonprofit scholarship-funding organization participating in a state sponsored scholarship program authorized by chapter 1002.

(8) RULES OF THE AUDITOR GENERAL.—The Auditor General, in consultation with the Board of Accountancy, shall adopt rules for the form and conduct of all financial audits performed by independent certified public accountants pursuant to ss. 215.981, 218.39, 1001.453, 1002.395, 1004.28, and 1004.70. The rules for audits of local governmental entities, charter schools, charter technical career centers, and district school boards must include, but are not limited to, requirements for the reporting of information necessary to carry out the purposes of the Local Governmental Entity, Charter School, Charter Technical Career Center, and District School Board Financial Emergencies Act as stated in s. 218.501.

Senate Amendment (with title amendment)

Delete lines 105 - 171

and insert:

(b) "Approved provider" means a provider approved by the Agency for Persons with Disabilities, including an educational consultant, a health care practitioner as defined in s. 456.001(4), or a provider approved by the Department of Education pursuant to s. 1002.66. An educational consultant is a provider who is approved by the agency, has a bachelor's degree

252548

from an accredited college or university, holds a Florida professional educator certificate pursuant to s. 1012.56 in exceptional student education, and has 3 years of supervised experience in working with individuals with disabilities. The educational consultant assists in the development of an individual learning services plan, monitors a student's progress, and reports to the agency.

(c) "Curriculum" means a complete course of study for a particular content area or grade level, including any required supplemental materials.

(d) "Disability" means, for a student in kindergarten to grade 12, autism, as defined in s. 393.063(3); cerebral palsy, as defined in s. 393.063(4); Down syndrome, as defined in s. 393.063(13); an intellectual disability, as defined in s. 393.063(21); Prader-Willi syndrome, as defined in s. 393.063(25); Spina bifida, as defined in s. 393.063(36); for a student in kindergarten, being a high-risk child, as defined in s. 393.063(20)(a); or Williams syndrome, which is a developmental disorder that is characterized by mild to moderate intellectual disability or learning problems, unique personality characteristics, distinctive facial features, and cardiovascular problems.

(e) "Eligible postsecondary educational institution" means a Florida College System institution, a state university, a school district technical center, a school district adult general education center, or an accredited nonpublic postsecondary educational institution, as defined in s. 1005.02, which is licensed to operate in the state pursuant to requirements specified in part III of chapter 1005.

252548

(f) "Eligible private school" means a private school, as defined in s. 1002.01, which is located in this state, which offers an education to students in any grade from kindergarten to grade 12, and which meets the requirements of:

1. Sections 1002.42 and 1002.421; and

2. A scholarship program under s. 1002.39 or s. 1002.395, as applicable, if the private school participates in a scholarship program under s. 1002.39 or s. 1002.395.

(g) "ILSP" means an individual learning services plan that is developed for a student who participates in the program. The ILSP must include funding categories that are specified in accordance with rules of the Agency for Persons with Disabilities.

(h) "Parent" means a resident of this state who is a parent, as defined in s. 1000.21.

(i) "Program" means the Florida Personal Learning Scholarship Accounts established in this section.

(3) PROGRAM ELIGIBILITY.—A parent of a student with a disability may request and receive from the state a Florida personal learning scholarship account for the purposes specified in subsection (5) if:

(a) The student:

1. Is a resident of this state;

2. Is eligible to enroll in kindergarten through grade 12 in a public school in this state;

3. Has a disability as defined in paragraph (2)(d);

4. Has an ILSP developed by the agency in consultation with the parent and written in accordance with rules of the Agency for Persons with Disabilities; and

252548

5. Complies with regular school attendance pursuant to s. 1003.01(13); and

(b) The parent has applied to the agency to participate in the program by February 1 before the school year in which the student will participate or an alternate date adopted by the agency in rule for any vacant, funded slots. The request must be communicated directly to the agency in a manner that creates a written or electronic record of the request and the date of receipt of the request. The agency must notify the school district and the Department of Education of the parent's intent upon receipt of the parent's request.

(4) PROGRAM PROHIBITIONS.—A student is not eligible for the program if:

(a) The student or student's parent has accepted any payment, refund, or rebate, in any manner, from a provider of any services received pursuant to subsection (5);

(b) The student's participation in the program has been denied or revoked by the Agency for

and insert:

(f) Contributions to the Stanley G. Tate Florida Prepaid College Program pursuant to s. 1009.98, for the benefit of the eligible student.

(g) Contracted services provided by a public school or school district, including classes for the services specified in the ILSP or additional services. A student who receives services

359000

under a contract under this paragraph may not be considered to be enrolled in a public school.

A specialized service provider, eligible private school, eligible postsecondary educational institution, private tutoring program provider, online or virtual program provider, public school, school district, or other entity receiving payments pursuant to this subsection may not share, refund, or rebate any moneys from a Florida personal learning scholarship account with the parent or participating student in any manner.

(6) TERM OF THE PROGRAM.—For purposes of continuity of educational choice, the program payments made under this section shall remain in force until a student participating in the program participates in any of the prohibited activities specified in subsection (4), has funds revoked by the agency pursuant to subsection (10), graduates from high school, or reaches 22 years of age, whichever occurs first.

(7) SCHOOL DISTRICT OBLIGATIONS.—The school district retains all current duties, authority, and responsibilities as specified in the Florida K-20 Education Code.

(8) DEPARTMENT OF EDUCATION OBLIGATIONS.—The department shall:

(a) Maintain a list of eligible private schools as defined in paragraph (2)(f) and private tutoring programs pursuant to s. 1002.43.

(b) Compare the list of students participating in the program with the public school enrollment lists before each program payment to avoid duplicate payments.

The department retains all current duties, authority, and responsibilities as specified in the Florida K-20 Education Code.

(9) COMMISSIONER OF EDUCATION AUTHORITY AND OBLIGATIONS.—The Commissioner of Education retains all current duties, authority, and responsibilities as specified in the Florida K-20 Education Code.

(10) AUTHORITY AND OBLIGATIONS OF THE AGENCY FOR PERSONS WITH DISABILITIES; ENFORCEMENT.—

(a) The agency:

1. Shall deny, suspend, or revoke a student's participation in the program if the health, safety, or welfare of the student is threatened or fraud is suspected.

2. Shall deny, suspend, or revoke an authorized use of program funds if the health, safety, or welfare of the student is threatened or fraud is suspected.

3. May deny, suspend, or revoke an authorized use of program funds for material failure to comply with this section and applicable agency rules if the noncompliance is correctable within a reasonable period of time. Otherwise, the agency shall deny, suspend, or revoke an authorized use for failure to materially comply with the law and rules adopted under this section.

4. Shall require compliance by the appropriate party by a date certain for all nonmaterial failures to comply with this section and applicable agency rules. The agency may deny, suspend, or revoke program participation under this section thereafter.

(b) In determining whether to deny, suspend, or revoke an

359000

approved provider in accordance with this subsection, the agency may

2. Receive applications and determine student eligibility in accordance with the requirements of this section. The agency shall notify the Department of Education of the applicants for the program by February 15 before the school year in which the student intends to participate and indicate how the student will comply with regular school attendance pursuant to ss.

827068

1003.01(13) and 1003.23.

3. Notify parents of their receipt of a scholarship on a first-come, first-served basis based upon the funds provided for this program in the General Appropriations Act.

4. Establish a date by which a parent must confirm initial or continuing participation in the program and confirm the establishment or continuance of a personal learning scholarship account.

5. Establish a date and process by which students on the wait list or late-filing applicants may be allowed to participate in the program during the school year, within the amount of funds provided for this program in the General Appropriations Act.

6. Develop an ILSP, in consultation with the parent and the educational consultant, which documents the following:

a. That the student has an eligible disability as defined in paragraph (2)(d).

b. Learning goals and objectives for the student which are linked directly to how program funds will be spent for authorized services.

c. How attendance requirements in s. 1003.21 will be met.

d. How progress toward meeting the individual learning goals and objectives will be assessed and documented for purposes of continued participation in the program.

7. Assign a funding category for each student that documents the nature and intensity of services that the student will need to meet the learning outcomes specified in his or her ILSP. The funding category determines the amount of the award for the student.

827068

8. Receive an administrative fee of up to 10 percent from the appropriation to operate the Florida Personal Learning Scholarship Accounts.

9. Establish and maintain a separate account for each eligible student.

10. Establish and maintain a list of approved providers pursuant to paragraph (2)(b).

11. Verify eligible expenditures prior to the distribution of funds for any expenditures made pursuant to paragraphs (5)(a) and (b). The review of expenditures for services in paragraphs (5)(c) through (h) may be completed after the payment has been made.

12. Develop a system for payment of benefits by electronic funds transfer, including, but not limited to, debit cards, electronic payment cards, or any other means of electronic payment that the agency deems to be commercially viable or cost-effective. Commodities or services related to the development of such a system shall be procured by competitive solicitation unless they are purchased from a state term contract pursuant to s. 287.056.

(b) The agency may contract for services.

(14) FUNDING AND PAYMENT.—

(a) Funding for the Florida Personal Learning Scholarship Accounts shall be provided in the General Appropriations Act, which shall specify the annual amount per funding category for public school students, private school students, home education students, students receiving a scholarship pursuant to s. 1002.39 or s. 1002.395, and students participating in a private tutoring program.

827068

(b) Upon an eligible student's graduation from an eligible postsecondary educational institution or after any period of 4 consecutive years after high school graduation in which the student is not enrolled in an eligible postsecondary educational institution, the student's personal learning scholarship account shall be closed, and any remaining funds shall revert to the state.

(c) Moneys received pursuant to this section do not constitute taxable income to the eligible student or the parent of an eligible student.

(15) OBLIGATIONS OF THE AUDITOR GENERAL.—The Auditor General shall conduct an annual financial and operational audit of accounts and records of the Florida Personal Learning Scholarship Accounts. As a part of this audit, the Auditor General shall verify, at a minimum, the total amount of students served and eligibility of reimbursement made by the agency and transmit that information to the agency.

(16) LIABILITY.—The state is not liable for the award or any use of awarded funds under this section.

(17) SCOPE OF AUTHORITY.—This section does not expand the regulatory authority of this state, its officers, or any school district to impose additional regulation on participating private schools, nonpublic postsecondary educational institutions, and private providers beyond those reasonably necessary to enforce requirements expressly set forth in this section.

(18) RULES.—The Agency for Persons with Disabilities shall adopt rules pursuant to ss. 120.536(1) and 120.54 to administer this section.

827068

(19) IMPLEMENTATION SCHEDULE FOR THE 2014-2015 SCHOOL YEAR.—

(a) The Agency for Persons with Disabilities shall, in consultation with an advisory work group, develop an ILSP and an ILSP process, funding category requirements, a system for payment of claims and providers, and a system to document and assess progress toward meeting the individual learning goals and objectives in the ILSP. The advisory work group shall make specific recommendations to the agency by October 1, 2014. The agency shall adopt rules to implement the recommendations of the advisory group by December 31, 2014. The Commissioner of Education, the executive director of the agency, the Chancellor of the State University System, and the director of the Division of Vocational Rehabilitation shall appoint staff to work on the advisory group with stakeholders.

(b) Notwithstanding the provisions of this section related to notification and eligibility timelines, the agency may enroll parents in a statewide pilot program on a rolling schedule on a first-come, first-served basis, no later than February 1, 2015, within the amount of funds provided in the General Appropriations Act.

(c) There is hereby appropriated for the 2014-2015 fiscal year to the Agency for Persons with Disabilities a sum of $18.4 million from the Operations and Maintenance Trust Fund for the implementation of the Personal Learning Scholarship Accounts Program. From these funds, $1.5 million shall be allocated to the Agency for Persons with Disabilities for startup costs for planning and implementation of the pilot program. For the pilot program in the 2014-2015 fiscal year, the agency shall provide

827068

awards for eligible students which range from $5,000 to $19,000 per recipient and shall be based on funding categories established by the agency. Public school students and students who receive a scholarship pursuant to ss. 1002.39 and 1002.395 shall receive 50 percent of the designated amount for the student's funding category.

The Committee on Appropriations (Gardiner) recommended the following:

Senate Amendment (with title amendment)

Delete lines 505 - 535
and insert:
Section 1. Present subsection (10) of section 1003.4282, Florida Statutes, is renumbered as subsection (11), and a new subsection (10) is added to that section, to read:
1003.4282 Requirements for a standard high school diploma.—
(10) STUDENTS WITH DISABILITIES.—Beginning with students entering grade 9 in the 2014-2015 school year, this subsection

applies to a student with a disability.

(a) A parent of the student with a disability shall, in collaboration with the individual education plan (IEP) team during the transition planning process pursuant to s. 1003.5716, declare an intent for the student to graduate from high school with either a standard high school diploma or a certificate of completion. A student with a disability who does not satisfy the standard high school diploma requirements pursuant to this section shall be awarded a certificate of completion.

(b) The following options, in addition to the other options specified in this section, may be used to satisfy the standard high school diploma requirements, as specified in the student's individual education plan:

1. For a student with a disability for whom the IEP team has determined that the Florida Alternate Assessment is the most appropriate measure of the student's skills:

a. A combination of course substitutions, assessments, industry certifications, and other acceleration options appropriate to the student's unique skills and abilities that meet the criteria established by State Board of Education rule.

b. A portfolio of quantifiable evidence that documents a student's mastery of academic standards through rigorous metrics established by State Board of Education rule. A portfolio may include, but is not limited to, documentation of work experience, internships, community service, and postsecondary credit.

2. For a student with a disability for whom the IEP team has determined that mastery of academic and employment competencies is the most appropriate way for a student to

demonstrate his or her skills:

a. Documented completion of the number of course credits prescribed by the district school board in the district student progression plan pursuant to s. 1008.25.

b. Documented achievement of all annual goals and short-term objectives for academic and employment competencies and industry certifications specified in the student's transition plan. The documentation must be verified by the IEP team.

c. Documented successful employment for the number of hours per week specified in the student's transition plan, for the equivalent of 1 semester, and payment of a minimum wage in compliance with the requirements of the federal Fair Labor Standards Act.

d. Documented mastery of the academic and employment competencies and industry certifications specified in the student's transition plan. The documentation must be verified by the IEP team, the employer, and the teacher. The transition plan must be developed and signed by the student, parent, teacher, and employer before placement in employment and must identify the following:

(I) The expected academic and employment competencies and industry certifications;

(II) The criteria for determining and certifying mastery of the competencies;

(III) The work schedule and the minimum number of hours to be worked per week; and

(IV) A description of the supervision to be provided by the school district.

175992

The State Board of Education shall adopt rules under ss. 120.536(1) and 120.54 to implement this subparagraph, including rules that establish the minimum requirements for students described in this subparagraph to earn a standard high school diploma.

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Education)

A bill to be entitled

An act relating to education; creating s. 1002.385, F.S.; establishing the Florida Personal Learning Scholarship Accounts; defining terms; specifying criteria for students who are eligible to participate in the program; identifying certain students who are not eligible to participate in the program; authorizing the use of awarded funds for specific purposes; prohibiting specific providers, schools, institutions, school districts, and other entities from sharing, refunding, or rebating program funds; specifying the terms of the program; providing that the school district retains all duties, authority, and responsibilities specified in the Florida K-20 Education Code; specifying the duties of the Department of Education relating to the program; providing that the Commissioner of Education retains all current duties, authority, and responsibilities as specified in the Florida K-20 Education Code; requiring the executive director of the Agency for Persons with Disabilities to deny, suspend, or revoke participation in the program or use of program funds under certain circumstances; providing additional factors under which the executive director may deny, suspend, or revoke a participation in the program or program funds; requiring a parent to sign an agreement with the Agency for Persons with Disabilities to

532862

576-03620A-14

enroll his or her child in the program which specifies the responsibilities of a parent or student for using funds in a personal learning scholarship account and for submitting a compliance statement to the agency; providing that a parent who fails to comply with the responsibilities of the agreement forfeits the personal learning scholarship account; providing eligibility requirements and obligations for private schools under the program; specifying agency obligations under the program; authorizing the agency to contract for services; providing for funding and payment; providing the Auditor General's obligations under the program; providing that the state is not liable for the use of awarded funds; providing for the scope of authority; requiring the agency to adopt rules; providing for implementation of the program in a specified school year; providing an appropriation; amending s. 1003.4282, F.S.; providing standard high school diploma requirements for certain students with disabilities; authorizing certain students with disabilities to continue to receive certain instructions and services; requiring an independent review and a parent's approval to waive statewide, standardized assessment requirements by the individual education plan (IEP) team; repealing s. 1003.438, F.S., relating to special high school graduation requirements for certain exceptional students; creating s. 1003.5716, F.S.; providing that certain students with disabilities have a right to free,

appropriate public education; requiring an IEP team to begin the process of, and to develop an IEP for, identifying transition services needs for a student with a disability before the student attains a specified age; providing requirements for the process; requiring certain statements to be included and annually updated in the IEP; providing that changes in the goals specified in an IEP are subject to independent review and parental approval; requiring the school district to reconvene the IEP team to identify alternative strategies to meet transition objectives if a participating agency fails to provide transition services specified in the IEP; providing that the agency's failure does not relieve the agency of the responsibility to provide or pay for the transition services that the agency otherwise would have provided; amending s. 1003.572, F.S.; prohibiting a school district from imposing additional requirements on private instructional personnel or charging fees; creating s. 1008.2121, F.S.; requiring the Commissioner of Education to permanently exempt certain students with disabilities from taking statewide, standardized assessments; requiring the State Board of Education to adopt rules; amending s. 1008.25, F.S.; requiring written notification relating to portfolios to a parent of a student with a substantial reading deficiency; requiring a student promoted to a certain grade with a good cause exemption to receive intensive reading instruction and

intervention; requiring a school district to assist schools and teachers with the implementation of reading strategies; revising good cause exemptions; amending ss. 120.81, 409.1451, and 1007.263, F.S.; conforming cross-references; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 1002.385, Florida Statutes, is created to read:

1002.385 Florida Personal Learning Scholarship Accounts.—

(1) ESTABLISHMENT OF PROGRAM.—The Florida Personal Learning Scholarship Accounts is established to provide the option for a parent to better meet the individual educational needs of his or her eligible child.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Agency" means the Agency for Persons with Disabilities.

(b) "Approved provider" means a provider approved by the Agency for Persons with Disabilities, a health care practitioner as defined in s. 456.001(4), or a provider approved by the Department of Education pursuant to s. 1002.66.

(c) "Curriculum" means a complete course of study for a particular content area or grade level, including any required supplemental materials.

(d) "Disability" means, for a student in kindergarten to grade 12, autism, as defined in s. 393.063(3); cerebral palsy, as defined in s. 393.063(4); Down syndrome, as defined in s.

393.063(13); an intellectual disability, as defined in s. 393.063(21); Prader-Willi syndrome, as defined in s. 393.063(25); Spina bifida, as defined in s. 393.063(36); for a student in kindergarten, being a high-risk child, as defined in s. 393.063(20)(a); or Williams syndrome.

(e) "Eligible postsecondary educational institution" means a Florida College System institution, a state university, a school district technical center, a school district adult general education center, or an accredited nonpublic postsecondary educational institution, as defined in s. 1005.02, which is licensed to operate in the state pursuant to requirements specified in part III of chapter 1005.

(f) "Eligible private school" means a private school, as defined in s. 1002.01, which is located in this state, which offers an education to students in any grade from kindergarten to grade 12, and which meets the requirements of:

1. Sections 1002.42 and 1002.421; and

2. A scholarship program under s. 1002.39 or s. 1002.395, as applicable, if the private school participates in a scholarship program under s. 1002.39 or s. 1002.395.

(g) "ILSP" means an individual learning services plan that is developed for a student who participates in the program.

(h) "Parent" means a resident of this state who is a parent, as defined in s. 1000.21.

(i) "Program" means the Florida Personal Learning Scholarship Accounts established in this section.

(3) PROGRAM ELIGIBILITY.—A parent of a student with a disability may request and receive from the state a Florida personal learning scholarship account for the purposes specified

in subsection (5) if:

(a) The student:

1. Is a resident of this state;

2. Is eligible to enroll in kindergarten through grade 12 in a public school in this state;

3. Has a disability as defined in paragraph (2)(d) and meets the agency's eligibility criteria;

4. Has an ILSP developed by the agency in consultation with the parent and written in accordance with rules of the Agency for Persons with Disabilities; and

5. Complies with regular school attendance pursuant to s. 1003.01(13); and

(b) The parent has applied to the agency to participate in the program by February 1 prior to the school year in which the student will participate or an alternate date adopted by the agency in rule for any vacant, funded slots. The request must be communicated directly to the agency in a manner that creates a written or electronic record of the request and the date of receipt of the request. The agency must notify the school district and the Department of Education of the parent's intent upon receipt of the parent's request.

(4) PROGRAM PROHIBITIONS.—A student is not eligible for the program if:

(a) The student or student's parent has accepted any payment, refund, or rebate, in any manner, from a provider of any services received pursuant to subsection (5);

(b) The student's participation in the program has been denied or revoked by the executive director of the Agency for Persons with Disabilities pursuant to subsection (10); or

(c) The student's parent has forfeited participation in the program for failure to comply with requirements pursuant to subsection (11).

(5) AUTHORIZED USES OF PROGRAM FUNDS.—Program funds may be spent for the following purposes, according to the goals and objectives identified in the student's ILSP:

(a) Instructional materials, including digital devices, digital periphery devices, and assistive technology devices that allow a student to access instruction or instructional content.

(b) Curriculum as defined in paragraph (2)(c).

(c) Specialized services by approved providers that are selected by the parent and specified in the student's ILSP. These specialized services may include, but are not limited to:

1. Applied behavior analysis services as provided in ss. 627.6686 and 641.31098.

2. Services provided by speech-language pathologists as defined in s. 468.1125.

3. Occupational therapy services as defined in s. 468.203.

4. Services provided by physical therapists as defined in s. 486.021.

5. Services provided by listening and spoken language specialists and an appropriate acoustical environment for a child who is deaf or hard of hearing and who has received an implant or assistive hearing device.

(d) Enrollment in, or tuition or fees associated with enrollment in, an eligible private school, an eligible postsecondary educational institution, a private tutoring program authorized under s. 1002.43, a virtual program offered by a department-approved private online provider that meets the

provider qualifications specified in s. 1002.45(2)(a), or an approved online course offered pursuant to s. 1003.499 or s. 1004.0961.

(e) Fees for nationally standardized, norm-referenced achievement tests, Advanced Placement examinations, industry certification examinations, assessments related to postsecondary education, or other assessments specified in the student's ILSP.

(f) Contributions to a Coverdell education savings established pursuant to 26 U.S.C. s. 530 of the Internal Revenue Code for the benefit of the eligible student.

(g) Contributions to the Stanley G. Tate Florida Prepaid College Program pursuant to s. 1009.98, for the benefit of the eligible student.

(h) Contracted services provided by a public school or school district, including classes for the services specified in the ILSP or additional services. A student who receives services under a contract under this paragraph shall not be considered to be enrolled in a public school for eligibility purposes as specified in subsection (3).

A specialized service provider, eligible private school, eligible postsecondary educational institution, private tutoring program provider, online or virtual program provider, public school, school district, or other entity receiving payments pursuant to this subsection may not share, refund, or rebate any moneys from a Florida personal learning scholarship account with the parent or participating student in any manner.

(6) TERM OF THE PROGRAM.—For purposes of continuity of educational choice, the program payments made under this section

shall remain in force until a student participating in the program participates in any of the prohibited activities specified in subsection (4), has funds revoked by the agency pursuant to subsection (10), graduates from high school, or reaches 22 years of age, whichever occurs first.

(7) SCHOOL DISTRICT OBLIGATIONS.—The school district retains all current duties, authority, and responsibilities as specified in the Florida K-20 Education Code.

(8) DEPARTMENT OF EDUCATION OBLIGATIONS.—The department shall:

(a) Maintain a list of eligible private schools as defined in paragraph (2)(f) and private tutoring programs pursuant to s. 1002.43.

(b) Compare the list of students participating in the program with the public school enrollment lists before each program payment to avoid duplicate payments.

The department retains all current duties, authority, and responsibilities as specified in the Florida K-20 Education Code.

(9) COMMISSIONER OF EDUCATION AUTHORITY AND OBLIGATIONS.—The Commissioner of Education retains all current duties, authority, and responsibilities as specified in the Florida K-20 Education Code.

(10) AUTHORITY AND OBLIGATIONS OF THE EXECUTIVE DIRECTOR OF THE AGENCY FOR PERSONS WITH DISABILITIES.—

(a) The executive director:

1. Shall deny, suspend, or revoke a student's participation in the program if the health, safety, or welfare of the student

is threatened or fraud is suspected.

2. Shall deny, suspend, or revoke an authorized use of program funds if the health, safety, or welfare of the student is threatened or fraud is suspected.

3. May deny, suspend, or revoke an authorized use of program funds for material failure to comply with this section and applicable agency rules if the noncompliance is correctable within a reasonable period of time. Otherwise, the executive director shall deny, suspend, or revoke an authorized use for failure to materially comply with the law and rules adopted under this section.

4. Shall require compliance by the appropriate party by a date certain for all nonmaterial failures to comply with this section and applicable agency rules. The executive director may deny, suspend, or revoke program participation under this section thereafter.

(b) In determining whether to deny, suspend, or revoke in accordance with this subsection, the executive director may consider factors that include, but are not limited to, acts or omissions by a participating entity which led to a previous denial or revocation of participation in an education scholarship program under this chapter; failure to reimburse the agency for program funds improperly received or retained by the entity; imposition of a prior criminal sanction related to the entity or its officers or employees; imposition of a civil fine or administrative fine, license revocation or suspension, or program eligibility suspension, termination, or revocation related to an entity's management or operation; or other types of criminal proceedings in which the entity or its officers or

employees were found guilty of, regardless of adjudication, or entered a plea of nolo contendere or guilty to, any offense involving fraud, deceit, dishonesty, or moral turpitude.

(11) PARENT AND STUDENT RESPONSIBILITIES FOR PROGRAM PARTICIPATION.—A parent who applies for program participation under this section is exercising his or her parental option to determine the appropriate placement or services that best meet the needs of his or her student. To enroll an eligible student in the program, the parent must sign an agreement with the agency and annually submit a notarized, sworn compliance statement to the agency to:

(a) Affirm that the student is enrolled in a school or program that meets minimum student attendance requirements as provided in s. 1003.21.

(b) Comply with the ILSP and use the program funds only for authorized purposes to meet the student's goals and objectives in the ILSP as described in subsection (2).

(c) Provide for an appropriate assessment that documents the student's demonstration of educational progress at a level commensurate with her or his ability, in accordance with the requirements for the academic program selected by the parent who enrolls the student in a private school pursuant to paragraph (2)(f), a home education program pursuant to s. 1002.41, or a scholarship program pursuant to s. 1002.39 or s. 1002.395.

(d) Affirm that the student takes all appropriate assessments as specified in the student's ILSP. The parent is responsible for transporting the student to the assessment site designated by the school district if the parent selects a statewide, standardized assessment pursuant to s. 1008.22.

(e) Notify the school district that the student is participating in the program if the parent chooses to enroll the student in an eligible private school pursuant to paragraph (2)(f), a home education program pursuant to s. 1002.41, a scholarship program pursuant to this chapter, or a private tutoring program authorized under s. 1002.43.

(f) Request participation in the program at least 60 days before the date of the first program payment.

(g) Affirm that the student remains in good standing with the provider or school if those options are selected by the parent.

(h) Apply for admission of his or her child if the private school option is selected by the parent.

(i) Annually renew participation in the program.

(j) Be responsible for the payment of all eligible expenses in excess of the amount of the personal learning scholarship account.

(k) Affirm that the parent will not transfer any college savings funds to another beneficiary.

(l) Affirm that the parent will not take possession of any funding contributed by the state.

(m) Maintain a portfolio of records and materials which must be preserved by the parent for 2 years and be made available for inspection by the district school superintendent or the superintendent's designee upon 15 days' written notice. This paragraph does not require the superintendent to inspect the portfolio. The portfolio of records and materials consists of:

1. A log of educational instruction and services which is

made contemporaneously with delivery of the instruction and services and which designates by title any reading materials used; and

2. Samples of any writings, worksheets, workbooks, or creative materials used or developed by the student.

A parent who fails to comply with this subsection forfeits the personal learning scholarship account.

(12) PRIVATE SCHOOL ELIGIBILITY AND OBLIGATIONS.—An eligible private school as defined in paragraph (2)(f) must:

(a) Comply with all requirements for private schools in ss. 1002.42 and 1002.421. A private school participating in a scholarship program under s. 1002.39 or s. 1002.395 must also comply with the requirements of that scholarship program.

(b) Provide to the agency, upon request, all documentation required for the student's participation, including the private school's and student's fee schedules.

(c) Be academically accountable to the parent for meeting the educational needs of the student.

(d) Employ or contract with teachers who have regular and direct contact with each student receiving a scholarship under this section at the school's physical location.

The inability of a private school to meet the requirements of this subsection shall constitute a basis for the ineligibility of the private school to participate in the scholarship program as determined by the Department of Education.

(13) AGENCY FOR PERSONS WITH DISABILITIES OBLIGATIONS.—

(a) The agency shall:

1. Monitor and provide oversight for the program.

2. Receive applications and determine student eligibility in accordance with the requirements of this section. The agency must notify the Department of Education of the applicants for the program by February 1 prior to the school year in which the student intends to participate and indicate how the student will comply with regular school attendance pursuant to ss. 1003.01(13) and 1003.23.

3. Notify parents of their receipt of a scholarship on a first-come, first-served basis based upon the funds provided for this program in the General Appropriations Act.

4. Establish a date by which a parent must confirm initial or continuing participation in the program and confirm the establishment or continuance of a personal learning scholarship account.

5. Establish a date and process by which students on the wait list or late-filing applicants may be allowed to participate in the program during the school year, within the amount of funds provided for this program in the General Appropriations Act.

6. Develop an ILSP, in consultation with the parent, which documents the following:

a. That the student has an eligible disability.

b. Learning goals and objectives for the student which are linked directly to how program funds will be spent for authorized services.

c. How attendance requirements in s. 1003.21 will be met.

d. How progress towards meeting the individual learning goals and objectives will be assessed and documented for

purposes of continued participation in the program.

7. Assign a level of services category for each student that documents the nature and intensity of services that the student will need to meet the learning outcomes specified in his or her ILSP. The level of services determines the amount of the award for the student.

8. Receive an administrative fee of up to 10 percent from the appropriation to operate the Florida Personal Learning Scholarship Accounts.

9. Establish and maintain a separate account for each eligible student.

10. Establish and maintain a list of approved providers pursuant to paragraph (2)(b).

11. Verify eligible expenditures prior to the distribution of funds for any expenditures made pursuant to paragraphs (5)(a) and (b). The review of expenditures for services in paragraphs (5)(c) through (h) may be completed after the payment has been made.

12. Develop a system for payment of benefits by electronic funds transfer, including, but not limited to, debit cards, electronic payment cards, or any other means of electronic payment that the agency deems to be commercially viable or cost-effective. Commodities or services related to the development of such a system shall be procured by competitive solicitation unless they are purchased from a state term contract pursuant to s. 287.056.

(b) The agency may contract for services.

(14) FUNDING AND PAYMENT.—

(a) Funding for the Florida Personal Learning Scholarship

Accounts shall be provided in the General Appropriations Act which shall specify the annual amount per service level for public school students, private school students, home education students, students receiving a scholarship pursuant to s. 1002.39 or s. 1002.395, and students participating in a private tutoring program.

(b) Upon an eligible student's graduation from an eligible postsecondary educational institution or after any period of 4 consecutive years after high school graduation in which the student is not enrolled in an eligible postsecondary educational institution, the student's personal learning scholarship account shall be closed, and any remaining funds shall revert to the state.

(c) Moneys received pursuant to this section do not constitute taxable income to the parent of an eligible student.

(15) OBLIGATIONS OF THE AUDITOR GENERAL.—The Auditor General shall conduct an annual financial and operational audit of accounts and records of the Florida Personal Learning Scholarship Accounts. As a part of this audit, the Auditor General shall verify, at a minimum, the total amount of students served and eligibility of reimbursement made by the agency and transmit that information to the agency.

(16) LIABILITY.—The state is not liable for the award or any use of awarded funds under this section.

(17) SCOPE OF AUTHORITY.—This section does not expand the regulatory authority of this state, its officers, or any school district to impose additional regulation on participating private schools, nonpublic postsecondary educational institutions, and private providers beyond those reasonably

576-03620A-14

necessary to enforce requirements expressly set forth in this section.

(18) RULES.—The Agency for Persons with Disabilities shall adopt rules pursuant to ss. 120.536(1) and 120.54 to administer this section.

(19) IMPLEMENTATION SCHEDULE FOR THE 2014-2015 SCHOOL YEAR.—

(a) The Agency for Persons with Disabilities shall, in consultation with an advisory work group, develop an ILSP, levels of services requirements, a system for payment of claims and providers, and a system to document and assess progress toward meeting the individual learning goals and objectives in the ILSP. The advisory work group shall make specific recommendations by October 1, 2014, to the agency. The agency shall adopt rules to implement the recommendations of the advisory group by December 31, 2014. The Commissioner of Education, the executive director of the agency, the Chancellor of the State University System, and the director of the Division of Vocational Rehabilitation shall appoint staff to work on the advisory group with representatives from the Center for Autism and Related Disabilities (CARD) and the Florida Diagnostic and Learning Resources System (FDLRS).

(b) Notwithstanding the provisions of this section related to notification and eligibility timelines, the agency may enroll parents in a statewide pilot program on a rolling schedule on a first-come, first-served basis, no later than January 31, 2015, within the amount of funds provided in the General Appropriations Act.

(c) There is hereby appropriated for the 2014-2015 fiscal

576-03620A-14

year to the Agency for Persons with Disabilities a sum of $18,400,000 from the Operations and Maintenance Trust Fund for the implementation of the Personal Learning Scholarship Accounts Program. From these funds, $1,500,000 shall be allocated to the Agency for Persons with Disabilities for startup costs for planning and implementation of the pilot program. For the pilot program in the 2014-2015 fiscal year, the agency shall provide awards for eligible students which range from $5,000 to $19,000 per recipient and shall be based on service levels established by the agency. Public school students and students who receive a scholarship pursuant to ss. 1002.39 and 1002.395 shall receive 50 percent of the designated amount for the student's service level.

Section 2. Present subsection (10) of section 1003.4282, Florida Statutes, is renumbered as subsection (11), and a new subsection (10) is added to that section, to read:

1003.4282 Requirements for a standard high school diploma.—

(10) STUDENTS WITH DISABILITIES.—Beginning with students entering grade 9 in the 2014-2015 school year, this subsection applies to a student with a disability for whom the IEP team has determined that the Florida Alternate Assessment is the most appropriate measure of the student's skills.

(a) A parent of the student with a disability shall, in collaboration with the individual education plan team pursuant to s. 1003.5716, declare an intent for the student to graduate from high school with either a standard high school diploma or a certificate of completion. A student with a disability who does not satisfy the standard high school diploma requirements pursuant to this section shall be awarded a certificate of

completion.

(b) The following options, in addition to the other options specified in this section, may be used to satisfy the standard high school diploma requirements, as specified in the student's individual education plan:

1. A combination of course substitutions, assessments, industry certifications, and other acceleration options appropriate to the student's unique skills and abilities that meet the criteria established by State Board of Education rule.

2. A portfolio of quantifiable evidence that documents a student's mastery of academic standards through rigorous metrics established by State Board of Education rule. A portfolio may include, but is not limited to, documentation of work experience, internships, community service, and postsecondary credit.

(c) A student with a disability who meets the standard high school diploma requirements in this section may defer the receipt of a standard high school diploma if the student:

1. Has an individual education plan that prescribes special education, transition planning, transition services, or related services through age 21; and

2. Is enrolled in accelerated college credit instruction pursuant to s. 1007.27, industry certification courses that lead to college credit, a collegiate high school program, courses necessary to satisfy the Scholar designation requirements, or a structured work-study, internship, or preapprenticeship program.

(d) A student with a disability who receives a certificate of completion and has an individual education plan that prescribes special education, transition planning, transition

services, or related services through 21 years of age may continue to receive the specified instruction and services.

(e) Any waiver of the statewide, standardized assessment requirements by the individual education plan team, pursuant to s. 1008.22(3)(c), must be approved by the parent and is subject to verification for appropriateness by an independent reviewer selected by the parent as provided for in s. 1003.572.

Section 3. Effective July 1, 2015, section 1003.438, Florida Statutes, is repealed.

Section 4. Section 1003.5716, Florida Statutes, is created to read:

1003.5716 Transition to postsecondary education and career opportunities.—All students with disabilities who are 3 years of age to 21 years of age have the right to a free, appropriate public education. As used in this section, the term "IEP" means individual education plan.

(1) To ensure quality planning for a successful transition of a student with a disability to postsecondary education and career opportunities, an IEP team shall begin the process of, and develop an IEP for, identifying the need for transition services before the student with a disability attains the age of 14 years in order for his or her postsecondary goals and career goals to be identified and in place when he or she attains the age of 16 years. This process must include, but is not limited to:

(a) Consideration of the student's need for instruction in the area of self-determination and self-advocacy to assist the student's active and effective participation in an IEP meeting; and

(b) Preparation for the student to graduate from high school with a standard high school diploma pursuant to s. 1003.4282 with a Scholar designation unless the parent chooses a Merit designation.

(2) Beginning not later than the first IEP to be in effect when the student turns 16, or younger, if determined appropriate by the parent and the IEP team, the IEP must include the following statements that must be updated annually:

(a) A statement of intent to pursue a standard high school diploma and a Scholar or Merit designation, pursuant to s. 1003.4285, as determined by the parent.

(b) A statement of intent to receive a standard high school diploma before the student reaches the age of 22 and a description of how the student will fully meet the requirements in s. 1003.428 or s. 1003.4282, as applicable, including, but not limited to, a portfolio pursuant to s. 1003.4282(10)(b) that meets the criteria specified in State Board of Education rule. The IEP must also specify the outcomes and additional benefits expected by the parent and the IEP team at the time of the student's graduation.

(c) A statement of appropriate measurable long-term postsecondary education and career goals based upon age-appropriate transition assessments related to training, education, employment, and, if appropriate, independent living skills and the transition services, including courses of study needed to assist the student in reaching those goals.

(3) Any change in the IEP for the goals specified in subsection (2) must be approved by the parent and is subject to verification for appropriateness by an independent reviewer

selected by the parent as provided in s. 1003.572.

(4) If a participating agency responsible for transition services, other than the school district, fails to provide the transition services described in the IEP, the school district shall reconvene the IEP team to identify alternative strategies to meet the transition objectives for the student that are specified in the IEP. However, this does not relieve any participating agency of the responsibility to provide or pay for any transition service that the agency would otherwise provide to students with disabilities who meet the eligibility criteria of that agency.

Section 5. Subsection (3) of section 1003.572, Florida Statutes, is amended to read:

1003.572 Collaboration of public and private instructional personnel.—

(3) Private instructional personnel who are hired or contracted by parents to collaborate with public instructional personnel must be permitted to observe the student in the educational setting, collaborate with instructional personnel in the educational setting, and provide services in the educational setting according to the following requirements:

(a) The student's public instructional personnel and principal consent to the time and place.

(b) The private instructional personnel satisfy the requirements of s. 1012.32 or s. 1012.321.

For the purpose of implementing this subsection, a school district may not impose any requirements beyond those requirements specified in this subsection or charge any fees.

Section 6. Section 1008.2121, Florida Statutes, is created to read:

1008.2121 Students with severe cognitive or physical disabilities; permanent exemption.—Based on information that a reasonably prudent person would rely upon, including, but not limited to, facts contained within an individual education plan under s. 1008.212, documentation from an appropriate health care provider, or certification from the district school board superintendent, the Commissioner of Education shall perfunctorily grant a permanent exemption to a student who suffers from such a severe cognitive disability or physical disability that the student permanently lacks the capacity to take statewide, standardized assessments. The State Board of Education shall adopt rules to administer this section, including, but not limited to, expediting the exemption process to demonstrate the utmost compassion and consideration for meeting the parent's and student's needs.

Section 7. Paragraph (c) of subsection (5) and paragraph (b) of subsection (6) of section 1008.25, Florida Statutes, are amended to read:

1008.25 Public school student progression; remedial instruction; reporting requirements.—

(5) READING DEFICIENCY AND PARENTAL NOTIFICATION.—

(c) The parent of any student who exhibits a substantial deficiency in reading, as described in paragraph (a), must be notified in writing of the following:

1. That his or her child has been identified as having a substantial deficiency in reading.

2. A description of the current services that are provided

to the child.

3. A description of the proposed supplemental instructional services and supports that will be provided to the child that are designed to remediate the identified area of reading deficiency.

4. That if the child's reading deficiency is not remediated by the end of grade 3, the child must be retained unless he or she is exempt from mandatory retention for good cause.

5. Strategies for parents to use in helping their child succeed in reading proficiency.

6. That the Florida Comprehensive Assessment Test (FCAT) is not the sole determiner of promotion and that additional evaluations, portfolio reviews, and assessments are available to the child to assist parents and the school district in knowing when a child is reading at or above grade level and ready for grade promotion.

7. The district's specific criteria and policies for a portfolio as provided in subparagraph (6)(b)4. and the evidence required for a student to demonstrate mastery of Florida's academic standards for English Language Arts. A parent of a student in grade 3 who is identified anytime during the year as being at risk of retention may request that the school immediately begin collecting evidence for a portfolio.

8.~~7.~~ The district's specific criteria and policies for midyear promotion. Midyear promotion means promotion of a retained student at any time during the year of retention once the student has demonstrated ability to read at grade level.

(6) ELIMINATION OF SOCIAL PROMOTION.—

(b) The district school board may only exempt students from

532862

576-03620A-14

mandatory retention, as provided in paragraph (5)(b), for good cause. A student who is promoted to grade 4 with a good cause exemption shall be provided intensive reading instruction and intervention that include specialized diagnostic information and specific reading strategies to meet the needs of each student so promoted. The school district shall assist schools and teachers with the implementation of reading strategies for students promoted with a good cause exemption which research has shown to be successful in improving reading among students that have reading difficulties. Good cause exemptions shall be limited to the following:

1. Limited English proficient students who have had less than 2 years of instruction in an English for Speakers of Other Languages program.

2. Students with disabilities whose individual education plan indicates that participation in the statewide assessment program is not appropriate, consistent with the requirements of State Board of Education rule.

3. Students who demonstrate an acceptable level of performance on an alternative standardized reading or English Language Arts assessment approved by the State Board of Education.

4. A student who demonstrates through a student portfolio that he or she is performing at least at Level 2 on FCAT Reading or the common core English Language Arts assessment, as applicable under s. 1008.22.

5. Students with disabilities who participate in FCAT Reading or the common core English Language Arts assessment, as applicable under s. 1008.22, and who have an individual

532862

576-03620A-14

education plan or a Section 504 plan that reflects that the student has received intensive remediation in reading and English Language Arts for more than 2 years but still demonstrates a deficiency and was previously retained in kindergarten, grade 1, grade 2, or grade 3.

6. Students who have received intensive reading intervention for 2 or more years but still demonstrate a deficiency in reading and who were previously retained in kindergarten, grade 1, grade 2, or grade 3 for a total of 2 years. A student may not be retained more than once in grade 3.

7.~~6.~~ Students who have received intensive remediation in reading and English Language Arts, as applicable under s. 1008.22, for 2 or more years but still demonstrate a deficiency and who were previously retained in kindergarten, grade 1, grade 2, or grade 3 for a total of 2 years. Intensive instruction for students so promoted must include an altered instructional day that includes specialized diagnostic information and specific reading strategies for each student. The district school board shall assist schools and teachers to implement reading strategies that research has shown to be successful in improving reading among low-performing readers.

Section 8. Effective July 1, 2015, paragraph (c) of subsection (1) of section 120.81, Florida Statutes, is amended to read:

120.81 Exceptions and special requirements; general areas.—

(1) EDUCATIONAL UNITS.—

(c) Notwithstanding s. 120.52(16), any tests, test scoring criteria, or testing procedures relating to student assessment which are developed or administered by the Department of

Education pursuant to s. 1003.428, s. 1003.429, ~~s. 1003.438,~~ s. 1008.22, or s. 1008.25, or any other statewide educational tests required by law, are not rules.

Section 9. Effective July 1, 2015, paragraph (a) of subsection (2) of section 409.1451, Florida Statutes, is amended to read:

409.1451 The Road-to-Independence Program.—

(2) POSTSECONDARY EDUCATION SERVICES AND SUPPORT.—

(a) A young adult is eligible for services and support under this subsection if he or she:

1. Was living in licensed care on his or her 18th birthday or is currently living in licensed care; or was at least 16 years of age and was adopted from foster care or placed with a court-approved dependency guardian after spending at least 6 months in licensed care within the 12 months immediately preceding such placement or adoption;

2. Spent at least 6 months in licensed care before reaching his or her 18th birthday;

3. Earned a standard high school diploma or its equivalent pursuant to s. 1003.428, s. 1003.4281, s. 1003.429, or s. 1003.435~~, or s. 1003.438~~;

4. Has been admitted for enrollment as a full-time student or its equivalent in an eligible postsecondary educational institution as provided in s. 1009.533. For purposes of this section, the term "full-time" means 9 credit hours or the vocational school equivalent. A student may enroll part-time if he or she has a recognized disability or is faced with another challenge or circumstance that would prevent full-time attendance. A student needing to enroll part-time for any reason

other than having a recognized disability must get approval from his or her academic advisor;

5. Has reached 18 years of age but is not yet 23 years of age;

6. Has applied, with assistance from the young adult's caregiver and the community-based lead agency, for any other grants and scholarships for which he or she may qualify;

7. Submitted a Free Application for Federal Student Aid which is complete and error free; and

8. Signed an agreement to allow the department and the community-based care lead agency access to school records.

Section 10. Effective July 1, 2015, subsection (4) of section 1007.263, Florida Statutes, is amended to read:

1007.263 Florida College System institutions; admissions of students.—Each Florida College System institution board of trustees is authorized to adopt rules governing admissions of students subject to this section and rules of the State Board of Education. These rules shall include the following:

(4) A student who has been awarded ~~a special diploma as defined in s. 1003.438 or~~ a certificate of completion as defined in s. 1003.428(7)(b) is eligible to enroll in certificate career education programs.

Each board of trustees shall establish policies that notify students about developmental education options for improving their communication or computation skills that are essential to performing college-level work, including tutoring, extended time in gateway courses, free online courses, adult basic education, adult secondary education, or private provider instruction.

532862

576-03620A-14

Section 11. Except as otherwise expressly provided in this act, this act shall take effect upon becoming a law.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1512
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Education); Education Committee; and Senator Stargel and others
SUBJECT:	Students with Disabilities
DATE:	April 24, 2014 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	deMarsh-Mathues	Klebacha	ED	**Fav/CS**
2.	Sikes	Elwell	AED	**Fav/CS**
3.	Elwell	Kynoch	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1512 creates a new scholarship program called "Personal Learning Scholarship Accounts" for kindergarten through grade 12 students with a disability, repeals the Special Diploma, and creates new pathways for students with disabilities who meet the requirements to earn a standard diploma.

The new scholarship program created by the bill:

- Specifies parent and student eligibility requirements, prohibitions, responsibilities and obligations;
- Delineates allowable expenditures related to elementary, secondary and postsecondary education expenses; and
- Provides funding, payment, and accountability responsibilities.

In addition to repealing the Special Diploma and Special Certificate of Completion as options for public school students effective July 1, 2015, the bill:

- Requires postsecondary goals and career transition planning processes begin before a student with a disability turns age 14.
- Provides students with disabilities with additional opportunities to satisfy the requirements for a standard high school diploma.

Additionally, the bill allows a student with a disability to defer receipt of the standard high school diploma if the individual education plan (IEP) prescribes special education or services through age 21 and the student meets high school graduation and other requirements.

Under the bill, the Commissioner of Education must grant a permanent exemption to a student who suffers from such a severe cognitive disability or physical disability that the student permanently lacks the capacity to take statewide, standardized assessments. The State Board of Education must adopt rules that include expediting the exemption process.

The bill prohibits a school district from imposing any additional requirements and from charging fees associated with private instructional personnel who are employed by the parent or under contract to observe a student in a public school setting or provide services in the educational setting.

The bill provides that parents of a student with a substantial reading deficiency must be provided with specific information related to the criteria, policies, and evidence used to review a portfolio. The bill also creates a new, good cause exemption from retaining a 3rd grade student and prohibits a student from being retained more than once in the 3rd grade.

This bill and Senate Bill 2500, First Engrossed, the General Appropriations Bill for Fiscal Year 2014-2015, appropriate $18.4 million to the Agency for Persons with Disabilities for implementation of this program. $1.5 million of this amount is provided as startup funding for planning and implementation of the statewide pilot program which will begin enrolling parents and students on a first-come, first-served basis, no later than February 1, 2015.

The bill also amends the Florida Tax Credit Scholarship Program to confirm the autonomy of a private school over its standards and curriculum; revise student eligibility, performance and funding requirements; and strengthen eligible nonprofit scholarship-funding organization accountability and transparency.

The bill takes effect upon becoming a law, unless otherwise provided.

II. Present Situation:

Individuals with Disabilities Education Act (IDEA)[1]

Federal law requires states to make a free appropriate public education available to all children with disabilities residing in the state between the ages of 3 and 21, including children with disabilities who have been suspended or expelled from school.[2] As the state educational agency, the Florida Department of Education (DOE) must exercise general supervision over all educational programs for children with disabilities in the state, including all programs administered by other state or local agencies, and ensure that the programs meet the educational standards of the state educational agency.[3]

[1] 20 U.S.C. §.1400 et. seq., as amended by P.L. 108-446; 34 C.F.R. § 300.17.
[2] 20 U.S.C. § 1412(a)(1).
[3] 20 U.S.C. § 1412(a)(11). 34 C.F.R. § 300.149.

For each eligible student or child with a disability served by a school district, or other state agency that provides special education and related services either directly, by contract, or through other arrangements, an individual educational plan (IEP) or individual family support plan must be developed, reviewed, and revised.[4] In developing an IEP, the IEP team is required to consider a child's strengths, concerns of the parents for enhancing education, results of the initial evaluation or most recent evaluation of the child, and the academic, developmental, and functional needs of the child, as well as special factors.[5]

States receiving Individuals with Disabilities Education (IDEA) funds must comply with detailed procedural requirements, including identifying, evaluating, and making placements for students with disabilities and for developing an individualized education program for each student.[6]

Transition to Postsecondary Education and the Workforce

Citing research that students with disabilities are less likely than their peers to successfully transition from high school to postsecondary education or the workforce, the U.S. General Accounting Office (GAO) notes that those students face several longstanding challenges accessing services that may assist them, including services such as tutoring, vocational training, and assistive technology.[7] Eligible students with disabilities are entitled to transition planning services during high school, but after leaving high school, to receive services that facilitate their transition they must apply as adults and establish eligibility for programs administered by multiple federal agencies.[8] Students with disabilities may face delays in service and end up on waitlists if these programs are full.[9]

The IDEA requires that beginning not later than the first IEP to be in effect when the student turns 16, school officials must include in the IEP measurable postsecondary goals related to training, education, employment, and where appropriate, independent living skills.[10] The IEP

[5] 20 U.S.C. s. 1414(d)(3)(A) and (B).
[6] 20 U.S.C. § 1415.
[7] *Students with Disabilities, Better Coordination Could Lessen Challenges in the Transition from High School*, U.S. Government Accounting Office (GAO), GAO-12-594, July 12, 2012. *See* http://gao.gov/products/GAO-12-594 (last visited February 22, 2014). Florida participated in the GAO review of federal programs.
[8] *Id.* Students remain eligible for transition planning and services, as well as other IDEA services, until they graduate from high school with a regular high school diploma or exceed the earlier of age 21 or the eligibility age for a free appropriate public education under state law. 20 U.S.C. § 1412(a)(1)(B)-(C), 34 C.F.R. § 300.102(a)(3)(i) and (ii), and Rule 6A-6.03028(1)(a), F.A.C. While federal law authorizes students to receive a free appropriate public education up until age 22, eligibility for students aged 18-21 is determined by states. 20 U.S.C. § 1412(a)(1) and 34 C.F.R. § 300.102. In addition to IDEA, there are a range of services to support students with disabilities in their transition out of high school. The programs vary in the target population served, services provided, grant funding amounts, and other characteristics. In addition, they are administered through various federal agencies, each with its own eligibility requirements and application processes. GAO-12-594, July 12, 2012. Federally funded programs that provide transition services, as defined in the GAO report, are often delivered through state and local entities that have flexibility on how to administer services. *Id.*
[9] *Students with Disabilities, Better Coordination Could Lessen Challenges in the Transition from High School*, U.S. Government Accounting Office (GAO), GAO-12-594, July 12, 2012.
[10] 20 U.S.C. § 1414(d)(1)(A)(i)(VIII).

also must specify the transition services[11] needed to assist the student in reaching those goals.[12] School officials are required to invite the student to a meeting where the transition services detailed in the IEP are discussed.[13] When appropriate, they also must invite a representative of any participating outside agency that is likely to be responsible for providing or paying for services, with the prior consent of the parent or student who has reached the age of majority.[14]

During a Florida student's eighth grade year or during the school year of the student's 14th birthday, whichever occurs first, the IEP for a student with a disability must contain a statement of whether he or she is pursuing a course of study leading to a standard high school diploma or a special diploma.[15] Current law provides that nothing limits or restricts the right of an exceptional student solely to a special diploma or special certificate of completion.[16] A student must, upon proper request, be afforded the opportunity to fully meet all requirements and procedures in law[17] and qualify for a standard diploma upon graduation.[18]

Florida High School Diploma

Currently Florida public high school students have four options for obtaining a standard high school diploma -- a traditional 4-year, 24-credit option;[19] an 18-credit graduation option;[20] or completion of an International Baccalaureate (IB) or Advanced International Certificate of Education (AICE) curriculum.[21] In addition, current law requires each school district to adopt an early graduation policy allowing a high school student who completes 24 credits in less than eight semesters and meets the GPA and assessment requirements to graduate early.[22] A student who fails to meet the required credits or achieve a 2.0 GPA must be awarded a certificate of completion.[23] The state is not obligated to provide special education and related services to a

[11] Under IDEA, transition services are defined as a coordinated set of activities that (1) is designed to be within a results-oriented process focused on improving the academic and functional achievement of a child with a disability to facilitate the child's movement from school to post-school activities; (2) is based on the individual child's needs, strengths, preferences, and interests; and (3) includes instruction, related services, community experiences, the development of employment and other post-school adult living objectives, and when appropriate, acquisition of daily living skills and functional vocational evaluation. 20 U.S.C. § 1401(34). Transition services are also defined in Rule 6A-6.03411(1)(nn), F.A.C.

[18] Section 1003.438, F.S.
[19] Section 1003.428, F.S., established high school graduation requirements beginning with students entering grade 9 in the 2007-2008 school year. Section 1003. 4282, F.S., established high school graduation requirements for students entering grade 9 in the 2013-2014 school year and thereafter.
[20] Section 1002.3105(5), F.S. Effective July 1, 2013, students may earn a standard high school diploma in 18 credits by achieving a 2.0 GPA; earning credit in the same 15 English Language Arts, mathematics, science, social studies, and fine and performing arts courses required under the traditional 24-credit option; and earning 3 elective credits, instead of the 6 electives required by the 24-credit option.
[21] Sections 1003.428 and 1003.4282, F.S.
[22] Section 1003.4281, F.S.,
[23] Section 1003.4282(7), F.S.

student with a disability who has graduated from high school with a standard diploma.[24] This provision does not apply to a student who has graduated from high school, but has not been awarded a regular high school diploma.[25] A standard diploma does not include an alternative degree that is not fully aligned with the state's academic standards, such as a certificate of completion or a general educational development credential (GED).[26]

Florida Special Diploma

A student with a disability[27] must be awarded a special diploma upon meeting a combination of state and district school board requirements that are included in the district-adopted student progression plan.[28] School boards may award special diplomas based on two options.[29] For students entering ninth grade in or after 1999-2000, special diploma requirements for the first option must include:[30]

- Demonstration of proficiency at the independent, supported, or participatory level of each Florida academic standard for a special diploma, as determined through the IEP process;[31] or
- Mastery of Florida's academic standards through successful completion of courses that meet graduation requirements for a standard diploma;[32] and
- Completion of the minimum number of course credits for a special diploma as prescribed by the school board.[33]

The second option requires district school boards to include procedures for determining and certifying mastery of demonstrated employment and community competencies to ensure that the student:[34]

- Has achieved all the annual goals and short-term objectives which were specified on the IEP related to the employment and community competencies;
- Is employed in a community-based job, for the number of hours per week specified in the student's training plan, for the equivalent of one semester, and paid a minimum wage in compliance with the requirements of the Fair Labor Standards Act; and
- Has mastered the employment and community competencies specified in a training plan. The training plan must be developed and signed by the student, parent, teacher, and employer prior to placement in employment.

[24] 20 U.S.C. § 1412(a)(1)(B)-(C), 34 C.F.R. § 300.102(a)(3)(i), and Rule 6A-6.03028(1)(a), F.A.C.
[25] 34 C.F.R. § 300.102(a)(3)(ii).

[30] Rule 6A-1.09961(1), F.A.C.
[31] Rule 6A-1.09961(12)(a), F.A.C.
[32] Rule 6A-1.09961(13), F.A.C.
[33] Rule 6A-1.09961(12)(b), F.A.C.
[34] Rule 6A-1.09961(14), F.A.C. The DOE notes that students seeking this option may also earn course credits, which are determined by the school board. The DOE also notes that in 2012, eight districts reported that they did not offer this option. DOE correspondence, February 24, 2014. On file with the Senate Education committee.

Each school board must develop procedures for ensuring that students may select and move between the special diploma options, if both options are provided by the school district, and between courses of study leading to standard or special diplomas, as appropriate.[35] A student who meets all special requirements of the district school board, but fails to meet the appropriate special state minimum requirements must be awarded a special certificate of completion.[36]

Extraordinary Exemption

Current law provides a process for granting an extraordinary exemption from administration of a statewide, standardized assessment for a student with a disability who is prevented by a circumstance or condition from physically demonstrating the mastery of acquired skills that are measured by a statewide standardized assessment.[37] The IEP team may request an exemption from testing during a particular testing window.[38] The request must be made to the district superintendent who must make a recommendation to the Commissioner of Education. A parent is permitted to appeal the Commissioner's decision.[39]

Florida Tax Credit Scholarship Program

The Florida Tax Credit Scholarship Program (FTC) provides scholarships for eligible low-income students to attend private schools.[40] The program is funded by taxpayers that choose to make private, voluntary contributions to an eligible nonprofit scholarship-funding organization (SFO) to help parents with limited resources educate their children.[41] The three components of the FTC program that are addressed in this bill are private school autonomy; student eligibility, performance, and funding; and SFO accountability and transparency.

Private School Autonomy

Although all private schools must annually provide basic information regarding the school to the Department of Education, it is the intent of the Legislature not to regulate, control, approve, or accredit private schools.[42] Additionally, including private schools within options to Florida public school students does not expand the regulatory authority of the state to impose any additional regulation of private schools beyond those reasonably necessary to enforce state scholarship program requirements.[43]

[42] Section 1002.42(2)(h), F.S. The types of information provided by private schools to DOE includes information such as: name, address, and telephone number of the institution; names of the administrative officers; enrollment by grade; number of graduates; the number of instructional and administrative personnel. *See*, s. 1002.42(2), F.S.
[43] Section 1002.421(6), F.S.

Student Eligibility, Performance, and Funding

A student is eligible[44] for a FTC scholarship if he or she:

- Qualifies for free or reduced-price school lunches under the National School Lunch Act[45] or is on the direct certification list[46] and:
  - Was counted as a full-time student during the previous state fiscal year for purposes of state per-student funding;
  - Received a scholarship from an eligible nonprofit scholarship-funding organization (SFO) or the State of Florida during the previous school year; or
  - Is eligible to enter kindergarten through fifth grade.[47]
- Is placed, or during the previous state fiscal year was placed, in foster care;[48] or
- Is a sibling of a scholarship student who continues to participate in the program and resides in the same household as the student.[49]

The maximum scholarship award to each participating student is set at a percentage of the unweighted Florida Education Finance Program (FEFP) full-time equivalent (FTE) per student funding as provided in the General Appropriations Act.[50] The scholarship amount increases by four percentage points each fiscal year the tax credit amounts meet or exceed 90 percent of the tax credit cap; however, the percentage will stop increasing upon reaching 80 percent of the unweighted FTE funding.[51]

An eligible student's scholarship is also dependent upon the student's household income level, as follows:[52]

- A full scholarship award is available for a student with a household income level below 200 percent of the federal poverty level.[53]
- A 75 percent scholarship award is available for a student with a household income level that is equal to, or greater than 200 percent, but less than 215 percent of the federal poverty level.[54]

---

[44] Likewise, a student is ineligible if the student meets certain requirements, such as participating in another state sponsored scholarship program, or being home-schooled. *See*, s. 1002.395(4), F.S.

[45] The National School Lunch Program is a federally funded program administered by the United States Department of Agriculture that assists schools and other agencies in providing nutritious meals to children at reasonable prices. 42 U.S.C. 1758(b). In Florida, the Florida Department of Agriculture and Consumer Services, Division of Food, Nutrition, and Wellness administers the program. *See*, chapter 595, F.S.

[46] "Direct certification list" means the certified list of children who qualify for the food assistance program, the Temporary Assistance to Needy Families Program, or the Food Distribution Program on Indian Reservations provided to DOE by the Department of Children and Family Services. Section 1002.395(2)(c), F.S.

[47] Section 1002.395(3)(b), F.S.

[48] Section 1002.395(3)(b)1. – 2., F.S. Foster care is a placement with a foster family or in a group home. Section 39.01(31), F.S. In comparison (i.e., see the effect of proposed changes), out-of-home care refers to placement outside of the home of the parent(s). Section 39.01(48), F.S. Students placed in out-of-home care that is not foster care are not currently eligible for an FTC scholarship. *See*, s. 1002.395(3)(b), F.S.

[49] Section 1002.395(3)(b)3., F.S. The sibling is eligible as a first-time scholarship recipient. *Id.*

[50] Section 1002.395(12)(a)1., F.S.

[51] *Id*.

[52] Section 1002.395(12)(a)2., F.S. Household income is not defined in s. 1002.395, F.S.

[53] *Id*.

[54] *Id*.

- A 50 percent scholarship award is available for a student with a household income level equal to, or greater than 215 percent, but equal to or less than 230 percent of the federal poverty level.[55]
- A student will lose his or her scholarship if the student's household income level exceeds 230 percent of the federal poverty guidelines.[56]

Participating students are obligated to take one of the DOE approved norm-referenced assessments offered by the student's private school, or the parent may choose for the student to take the statewide assessments under s. 1008.22, F.S.[57] If the parent chooses the statewide assessments, and the private school is not approved to administer the statewide assessment, the parent is responsible for transporting the student to the assessment site designated by the school district.[58]

The DOE is required to select an independent nonprofit organization, which may be a public or private entity or university, to report the year-to-year learning gains of participating students on a statewide and school-level basis.[59] For the school level, there must be at least 30 participating students who have scores for tests administered for 2 consecutive years at the private school.[60] The sharing and reporting of the data must be in accordance with the Family Educational Rights and Privacy Act (FERPA).[61]

Scholarship Funding Organization Accountability and Transparency

An eligible SFO is a charitable organization that is: exempt from federal income tax pursuant to s. 501(c)(3) of the Internal Revenue Code; a Florida entity formed under Chapter 607, F.S., Chapter 608, F.S., or Chapter 617, F.S., and whose principal office is located in Florida; and complies with applicable laws.[62]

An SFO administers the receipt of contributions and distribution of FTC scholarship awards.[63] Although no application process for an SFO exists in statute, DOE has promulgated an annual application process via rule.[64]

Unlike a participating private school, an SFO is not required to maintain a surety bond or letter of credit.[65]

[62] Section 1002.395(2)(f), F.S. Chapter 607, F.S., concerns corporations. Chapter 608, F.S., concerns limited liability companies. Chapter 617, F.S., concerns corporations not for profit.
[63] Section 1002.395(6), F.S.
[64] Rule 6A-6.0960(1), F.A.C.
[65] Section 1002.421(2)(f)1., F.S., requires a participating private school to be in operation for at least 3 years or to obtain a surety bond or letter of credit for the amount equal to the scholarship funds for any quarter.

Owners and operators of an SFO must pass a level 2 background check upon beginning employment there and every 5 years thereafter.[66]

If an SFO has been in operation for three years and does not have any negative financial audit findings, the SFO may use up to three percent of the contributions received for reasonable and necessary administrative expenses.[67] No more than one-third of the funds available for administrative expenses may be used for expenses related to the recruitment of contributions.[68]

An SFO must provide to the Auditor General and DOE an annual financial and compliance audit of its accounts and records conducted by an independent certified public accountant and in accordance with rules adopted by the Auditor General.[69] An SFO must submit to DOE quarterly reports regarding the number of students participating and the schools at which they are enrolled.[70] An SFO must expend at least 75 percent of donations remaining after administrative costs as scholarship payments each year.[71] Any amounts carried forward to the next year must be spent in that year.[72]

A taxpayer may transfer an approved tax credit to another entity if all of the taxpayer's assets are transferred in the same transaction.[73]

III. Effect of Proposed Changes:

Personal Learning Scholarship Accounts

The bill creates a Personal Learning Scholarship Accounts program for kindergarten through grade 12 students who have a disability. The bill authorizes creation of personalized accounts for individual students, specifies parent and student obligations, delineates allowable expenditures related to elementary, secondary and postsecondary education, and provides funding and payment responsibilities. [74]

Student Eligibility

A parent may establish and maintain a personal account if his or her child:

- Is a resident of this state;
- Is eligible to enroll in kindergarten through grade 12 in a Florida public school;
- Has a disability as defined in the bill;

[66] Section 1002.395(6)(b), F.S.

[68] *Id*.
[69] Section 1002.395(6)(l), F.S. However, note that the Auditor General does not have specific statutory authority to audit an SFO. *See*, s. 11.45(2), F.S.
[70] Section 1002.395(6)(m), F.S.
[71] Section 1002.395(6)(i)2., F.S.
[72] *Id*.
[73] Section 1002.395(5)(d), F.S.
[74] Disability means autism, as defined in s. 393.063(3), F.S.; cerebral palsy, as defined in s. 393.063(4), F.S.; Down syndrome, as defined in s. 393.063(13), F.S.; an intellectual disability, as defined in s. 393.063(21), F.S.; Prader-Willi syndrome, as defined in s. 393.063(25), F.S.; or Spina bifida, as defined in s. 393.063(36), F.S.; Williams syndrome; and, for a student in kindergarten, being a high-risk child, as defined in s. 393.063(20)(a), F.S.

- Is meeting "regular school attendance" requirements;
- Is the subject of an Individual Learning Services Plan (ILSP);[75] and
- Is a public school student, private school student, home education program student, a student receiving a McKay or FTC scholarship, or a student participating in a private tutoring program?

Students are not eligible if:

- The student or student's parent has accepted any payment, refund, or rebate from a provider of any services received while participating in the program;
- The student's participation in the program has been denied or revoked by the Agency for Persons with Disabilities (APD); or
- The student's parent has forfeited participation in the program for failure to comply with the program's requirements.

Parent and Student Obligations

A parent who applies for program participation is exercising his or her parental option to determine the appropriate placement or services that best meet the needs of his or her child. Parents are responsible for the following:

- Signing an agreement with the APD and annually submitting a notarized, sworn compliance statement to the department to:
  - Affirm that the student meets minimum student attendance requirements;[76]
  - Use funds only for authorized purposes to meet the student's goals and objectives in the ILSP;
  - Affirm that the student takes all appropriate assessments, in accordance with the academic program selected by the parent who enrolls the student in a private school, a home education program, or a scholarship program pursuant to ss. 1002.39 or 1002.395, F.S.;
- Requesting participation in the program by February 1st prior to the school year in which the student will participate;
- Affirming that the student remains in good standing with the provider or school if those options are selected by the parent;
- Affirming that the parent will not transfer any college savings funds to another beneficiary and will not take possession of any funding provided for Personal Learning Scholarship Accounts;

[75] The ILSP is developed by APD, in consultation with the parent, for each student and documents the following: the student has an eligible disability; learning goals and objectives for the student that are linked directly to how program funds will be spent; how attendance requirements will be met (public school, private school, home education program, or a private tutoring program); how progress towards meeting the individual learning goals and objectives specified in the plan will be assessed and documented for purposes of continued participation in the program; and funding categories specified in accordance with APD rule..

[76] Pursuant to s. 1003.01, F.S., "regular school attendance" means the actual attendance of a student during the school day as defined by law and rules of the State Board of Education. Regular attendance within the intent of s. 1003.21, F.S., may be achieved by attendance in: a public school supported by public funds; a parochial, religious, or denominational school; a private school supported in whole or in part by tuition charges or by endowments or gifts; a home education program that meets the requirements of chapter 1002, F.S.; or a private tutoring program that meets the requirements of chapter 1002, F.S. *See also* ss. 1003.21 and 1003.24, F.S.

- Applying for admission of his or her child to a private school if this option is selected by the parent;
- Annually renewing participation in the program;
- Be responsible for payment of eligible expenses in excess of the amount of the personal account; and
- Maintaining a portfolio of records for two years to document student learning and requiring it to be available for inspection upon 15 days written notice from the district school superintendent.

A parent who fails to comply with these requirements forfeits the personal account.

Allowable Expenditures

Funds from the personalized account may be used for the following, as specified in the student's ILSP:

- Instructional materials, including digital devices, digital periphery devices, and assistive technology devices that allow a student to access instruction or instructional content;
- Curriculum;
- Specialized services selected by the parent and specified in the student's ILSP, including, but not limited to applied behavior analysis services[77] and services provided by speech-language pathologists,[78] occupational therapists,[79] physical therapists,[80] and listening and spoken language specialists;[81]
- Enrollment in, or tuition or fees associated with enrollment in, an eligible private school, an eligible postsecondary educational institution, a private tutoring program,[82] a virtual program offered by a DOE-approved private online provider,[83] or an approved online course;[84]
- Fees for assessments specified in the student's ILSP;
- Contributions to the Stanley G. Tate Prepaid College Program for the benefit of the eligible student;[85] and
- Contracted services provided by a public school or school district, including classes and extracurricular programs for the services specified in the ILSP or additional services.

[77] *See* ss. 627.6686 and 641.31098, F.S.
[78] *See* s. 468.1125, F.S.
[79] *See* s. 468.203, F.S.
[80] *See* s. 486.021, F.S.
[81] Providers must be approved by the DOE or the Agency for Persons with Disabilities (APD). The DOE maintains a list of approved providers. Providers may request approval from the department. If a provider is not on the current DOE-approved list, parents may request approval of a specified provider who must meet criteria (e.g., licensure or certification in an applicable field of study and delivery of services according to professionally accepted standards). Rule 6A-6.03033, F.A.C. See also http://www.floridaearlylearning.com/providers/provider_menu/specialized_instructional_services_providers.aspx (last visited March 19, 2014). All APD iBudget Waiver providers must be enrolled by the Agency for Healthcare Administration as a Medicaid provider and also sign a contract with APD to render waiver services. E-mail, APD, March 13, 2014. On file with the Senate Committee on Education. Service descriptions and a list eligible providers are available at http://www.flddresources.org/html/service_descriptions.htm (last visited March 19, 2014).
[82] *See* s. 1002.43, F.S.
[83] *See* s. 1002.45(2)(a), F.S.
[84] *See* ss. 1003.499 or 1004.0961, F.S.
[85] Section 1009.98, F.S.

A student who receives services under a contract is not considered to be enrolled in a public school for eligibility purposes.

A specialized service provider, eligible private school, eligible postsecondary educational institution, private tutoring program provider, online or virtual program provider, public school, school district, or other entity receiving payments may not share, refund, or rebate any moneys from the personalized account to the parent or participating student.

Term of the Program

Under the bill, the payments made remain in force until a student fails to comply with the program requirements, has funds revoked by the APD, graduates from high school, or reaches 22 years of age, whichever occurs first.

APD

The bill requires the APD to deny, suspend, or revoke a student's participation in the program or the use of program funds, if the student's health, safety, or welfare is in jeopardy or fraud is suspected. The APD may also deny, suspend, or revoke the use of program funds for material noncompliance with law and rules.

The bill authorizes the APD to perform direct program oversight and contract for some services. Under the bill, the APD may receive an administrative fee of up to ten percent from the appropriation for the program. The agency responsibilities include:

- Receiving applications and determines student eligibility;
- Developing individual learning services plans in consultation with the parent;
- Assigning a funding category for each student that documents the nature and intensity of services needed to meet the learning outcomes specified in the plan;[86]
- Establishing and maintaining a separate Personal Learning Account for each eligible student;
- Verifying qualifying expenditures;
- Establishing a list of eligible providers;
- Requiring working with an Advisory Work Group to develop a newly created Individual Learning Services Plan, funding category requirements, a system for payment of claims and providers, and a system to document and assess progress toward meeting the individual learning goals and objectives in the services plan; and
- Requiring rules to implement the program and enroll the first students in a statewide pilot program on a first-come, first-served basis no later than February 1, 2015.

Department of Education

The DOE's responsibilities are to maintain a list of eligible private schools and compare the list of students participating in the program with the public school enrollment lists before each program payment to avoid duplicate payments.

[86] The funding category will be used to determine the amount of the award for the student.

Florida K-20 Education Code

The Commissioner of Education, the Department of Education, and the school districts retain all current duties, authority, and responsibilities as specified in the Florida K-20 Education Code.

Auditor General

The Auditor General must conduct an annual financial and operational audit related to the program. As a part of this audit, the Auditor General must verify, at a minimum, the total amount of students served and eligibility of reimbursement made by the APD and transmit that information to the APD.

Transition Planning

Under the bill, the postsecondary goals and career transition planning process begins before a student with a disability turns 14 so that a plan is in place by the time he or she turns 16. The IEP must include specific components, including a statement of measurable, long term postsecondary and career education goals, a statement of intent to pursue a standard high school diploma, as determined by the parent, and a description of how the student will fully meet the standard high school diploma requirements. Any change in goals must be approved by the parent and is subject to an independent review.

High School Graduation[87]

The bill repeals the special diploma and the special certificate of completion as graduation options for students with disabilities, effective July 1, 2015.[88]

The bill provides additional opportunities for a student with a disability to satisfy the requirements for a standard high school diploma. These provisions apply to students entering grade 9 in the 2014-2015 school year and thereafter.

[87] The importance of making informed decisions about diploma options for students with disabilities has been underscored in recent reports by the National Center for Learning Disabilities, *A Critical Look at the Graduation Rate of Students with Disabilities*, 2013, and the National Center on Educational Outcomes, *Diploma Options, Graduation Requirements, and Exit Exams for Youth with Disabilities*, 2012. *See* http://www.ncld.org/?__utma=56814325.123698153.1394924720.1394924720.1394924720.1&__utmb=56814325.1.10.1394924720&__utmc=56814325&__utmx=-&__utmz=56814325.1394924720.1.1.utmcsr=bing|utmccn=(organic)|utmcmd=organic|utmctr=National%20Center%20for%20Learning%20Disabilities%2C%20A%20Critical%20Look%20at%20the%20Graduation%20Rate%20of%20Students%20with%20Disabilities%2C%202013%2C%20See&__utmv=-&__utmk=227182617http://ici.umn.edu/index.php?products/view/460 (last visited March 15, 2014).

[88] The 2013 K-20 Students with Disabilities Education Pathway Task Force recommended the repeal of Florida's special diploma. The task force was created pursuant to Special Appropriation 129 in the General Appropriations Act, chapter 2013-40, L.O.F.

The bill provides a student who has a disability and for whom the Florida Alternate Assessment (FAA) is the most appropriate measure of the student's skills with the opportunity to satisfy the requirements for a standard high school diploma through the following:[89]

- A combination of appropriate course substitutions, assessments, industry certifications, and other options that meet the criteria specified in State Board of Education rule.
- A portfolio of quantifiable evidence documenting a student's mastery of academic standards using rigorous metrics that are specified in State Board of Education rule.[90]

For a student with a disability for whom the IEP team determines that mastery of academic and employment competencies is the most appropriate way for a student to demonstrate his or her skill, the requirements may be met through the following:

- Completion of the number of course credits specified by the district school board;
- Achievement of annual goals and short-term objectives for academic and employment competencies and industry certifications that is verified by the IEP team;
- Successful employment for the number of hours each week for the equivalent of 1 semester and payment of the minimum wage; and
- Mastery of academic and employment competencies and industry certifications that is verified by the IEP team, the employer, and the teacher.

The bill also provides for:

- All requirements to be specified in the student's transition plan.
- The State Board of Education to establish the minimum requirements for the diploma.
- The transition plan to be developed and signed by the student, parent, teacher, and employer and include academic and employment expectations and industry certifications, work schedule, and required supervision, prior to employment.

The bill allows a student to defer receipt of the standard high school diploma if the IEP prescribes special education or services through age 21, the student meets the high school graduation requirements, and is enrolled in accelerated college credit instruction, industry certification courses that lead to college credit, a collegiate high school program, courses necessary to satisfy the Scholar designation requirements, or a structured work-study, internship, or pre-apprenticeship program. Additionally, the bill allows a student who receives a certificate of completion and has an IEP that prescribes special education, transition planning, transition services, or related services through 21 years of age to continue to receive the specified instruction and services.

Statewide, Standardized Assessments

A student who has a disability and for whom the IEP team determines that the statewide, standardized assessments cannot accurately measure the student's abilities, taking into consideration all allowable accommodations, must have assessment results waived for the

[89] According to the DOE, the percent of students assessed on the FAA, as compared to students assessed on other statewide, standardized assessments (i.e., FCAT, FCAT 2.0, and end-of-course assessments) was 1.2 percent for 2009-2010, 2010-2011, and 2011-2012. DOE e-mail, April 3, 2014. On file with the Senate Education Committee.

[90] A portfolio may consist of documented work experience, internships, and community service.

purpose of receiving a course grade and a standard high school diploma.[91] The waiver must be designated on the student's transcript.

Based on information that a reasonably prudent person would rely upon, the Commissioner of Education must grant a permanent exemption to a student who suffers from such a severe cognitive disability or physical disability that the student permanently lacks the capacity to take statewide, standardized assessments. The State Board of Education must adopt rules that include expediting the exemption process.

Other

Current law authorizes private instructional personnel who are employed by the parent or under contract to observe a student in a public school setting or provide services in the educational setting at a time agreed upon by the private instructional personnel and the school.[92] The bill prohibits a school district from imposing any additional requirements and from charging fees in such circumstances.

Any third-grade student scoring Level 1 on a statewide, standardized assessment for grade 3 students must be retained in third grade.[93] Some students may qualify for a good cause exemption and be promoted to fourth grade.[94] Through a student portfolio, a student may be promoted to fourth grade if he or she demonstrates at least a Level 2 performance on the statewide standardized assessment.[95]

The bill provides that parents of a student with a substantial reading deficiency must be provided with specific information related to the criteria, policies and evidence used to review a portfolio. The bill allows the parent of a third grade student who is at risk of retention to request that the school immediately start compiling a portfolio. The bill also requires that a student who was granted a good cause exemption be provided with intensive reading instruction and intervention. The bill creates a new good cause exemption from retention of a 3rd grade student who was previously retained in kindergarten, grade 1, grade 2, or grade 3 for a total of two years and received intensive reading intervention for two or more years, but still demonstrates a deficiency in reading. Additionally, the bill prohibits a student from being retained in 3rd grade more than once.

Florida Tax Credit Scholarship Program

The bill addresses the following components of the Florida Tax Credit Scholarship Program (FTC): confirming private school autonomy; revising student eligibility, performance

[91] Section 1008.22(3)(c)2., F.S. This applies to any student who is documented as having an intellectual disability; a hearing impairment, including deafness; a speech or language impairment; a visual impairment, including blindness; an emotional or behavioral disability; an orthopedic or other health impairment; an autism spectrum disorder; a traumatic brain injury; or a specific learning disability, including, but not limited to, dyslexia, dyscalculia, or developmental aphasia. Section 1007.02(2), F.S.
[92] Section 1003.572(3), F.S. These personnel include licensed speech-language pathologists, occupational therapists, physical therapists, and psychologists and must meet the background screening requirements in s. 1012.32 or s. 1012.321, F.S.
[93] Section 1008.25(5)(b), F.S.
[94] Section 1008.25(6)(b), F.S.
[95] Section 1008.25(6)(b)4., F.S.

requirements, and funding; and strengthening Scholarship Funding Organization (SFO) accountability and transparency.

Private School Autonomy

The bill provides that the purpose of the FTC program is not to prescribe standards or curriculum for private schools. More specifically, a private school in the FTC program retains the authority to determine its own standards and curriculum.

Student Eligibility, Performance, and Funding

Beginning in the 2014-15 school year and thereafter, the prior public school year enrollment requirements are eliminated. Students placed in out-of-home care that does not fall within the definition of foster care are eligible for the FTC program. Students in foster care or out-of-home care placement may apply to enter the program at any time and remain eligible until the student turns 21 or graduates high school, whichever comes first. The "first time recipient" limitation for student eligibility, for a student whose sibling is participating in the FTC program, is also removed from current law.

Beginning in the 2016-2017 school year and thereafter, an SFO must give priority to new applicants with household incomes up to 185 percent of the federal poverty level and to students in foster or out-of-home care.[96] The maximum household income level for student eligibility is reduced from 230 percent to 185 percent of the federal poverty level, while the maximum scholarship amount is increased from 80 percent to 82 percent of the Florida Education Finance Program (FEFP) per student funding amount.

If a parent decides that the student will participate in the statewide assessments pursuant to s. 1008.22, F.S., the bill shifts the responsibility of transportation to the assessment site from the parent to the private school, but in a manner as agreed upon by the parent. The private school is also responsible for making arrangements for the student to take the assessments at the assessment site designated by the school district and in accordance with the district's assessment schedule.

The bill designates the Learning System Institute at the Florida State University as the independent research organization to report on FTC student performance.[97] The institute will report student performance on a statewide and individual school basis. For the individual school basis, the report will include student performance for participating private schools in which at least 51 percent of the total enrolled students were FTC students in the prior year. Subject to student privacy laws, the report may be at the school-level and student level. For example, student cell size may drop below 30 students if the institute determines that no personally identifiable information will be disclosed; however, the student cell size is not permitted to drop below 10 students. Additionally, the bill strengthens the sharing and reporting of student data to the institute by specifically requiring compliance with state student confidentiality laws and applicable rules and regulations, in addition to existing law requiring compliance with the Family Educational Rights and Privacy Act.

[96] The bill also provides that students who received a scholarship in the prior year will continue to receive first priority.
[97] The term "student performance" is defined in CS/SB 1642 2nd Eng., to include, but not be limited to, student learning growth, achievement levels, and learning gains.

"Household income" is defined to correspond to the definition of "income" pursuant to the United States Department of Agriculture Income Eligibility Guidelines for free or reduced price meals.

Parents of students who wish to participate in FTC must authorize the SFO to access information held by other state or federal agencies necessary for verification of income.

Scholarship Funding Organization Accountability and Transparency

The bill creates an application process for a charitable organization to become an SFO. The organization must submit an application for approval to DOE by September 1 of the year prior to the year in which the organization intends to begin offering scholarships. The application must include types of information such as:

- The organization's incorporation documents.
- The organizational chart.
- A surety bond or letter of credit for the amount equal to 25 percent of anticipated donations or $100,000, whichever is greater.
- A description of the organization's financial plan and intended area of operation.
- A description of the criteria and methodology that will be used to evaluate student scholarship eligibility.
- A description of the student application process, including deadlines and associated fees.

An eligible SFO must annually submit a renewal application to maintain eligibility to continue to participate in FTC. The renewal application must include types of information such as:

- A surety bond or letter of credit equal to the amount of undispersed funds, with a minimum amount of $100,000 and a maximum of $25 million.
- The organization's IRS Form 990 from the previous year.
- A copy of the SFO's annual independent audit.
- An annual report regarding donations, administrative expenditures, scholarship application recipients, the amounts of funds received and distributed, and how administrative funds were spent.

In review of the initial and renewal application, DOE will consult with the Department of Revenue (DOR) and the Chief Financial Officer. The DOE will notify the organization of any deficiencies, and allow 30 days for correction. The DOE will provide a recommendation for each initial or renewal application to the State Board of Education for final approval or disapproval. Any funds held by an SFO whose application for renewal is denied will revert to DOR for redistribution to eligible SFOs.

The bond or letter of credit may be adjusted on a quarterly basis to equal the amount of undispersed donations based upon a statement from a certified public accountant verifying the amount. The surety bond or letter of credit requirement is waived if the cost of acquiring such bond or letter exceeds the average 10-year cost by 200 percent. An SFO that is already approved as of July 1, 2014, will have until August 1, 2014, to provide a copy of a surety bond or letter of credit.

The bill strengthens the background check requirements for owners and operators of an SFO by adding a number of additional disqualifying offenses specified in s. 435.04, F.S., and various other laws that primarily relate to fraudulent financial crimes.

The bill increases SFO accountability and transparency by strengthening audit requirements and review. For example, the bill:

- Revises existing law to require an SFO to provide the Auditor General a report on the results on the SFOs annual financial audit conducted by an independent certified public accountant. The audit will be in accordance with auditing standards that are generally accepted in the United States. The Auditor General will review all reports and request significant items that were omitted in violation of applicable rules.
- Requires, for audit purposes, that all eligible contributions carried forward into the next year by an SFO be identified for particular students and schools (as opposed to being reserved for non-scholarship expenses), subject to student privacy laws.
- Requires the Auditor General to conduct operational audits of SFO accounts and records. This audit will include review of any contracts for services with related entities, and a determination of compliance with applicable law. The Auditor General must provide a report on the results of the audit to the Governor, the President of the Senate, the Speaker of the House, the Chief Financial Officer, and the Joint Legislative Auditing Committee, within 30 days of completion of the audit.

The bill authorizes a state university, or an independent college or university that is eligible to participate in the William L. Boyd, IV, Florida Resident Grant Access Program, located and chartered in Florida, is not for profit, and is accredited by the Commission on Colleges of Southern Association of Colleges and Schools (ICUF Institution) to become an SFO. The university or ICUF institution may begin providing FTC scholarships in the 2015-2016 school year. The university or ICUF institution is exempt from the SFO application requirements in this bill. Rather, the university or ICUF institution must register with DOE pursuant to State Board of Education (SBE) rule. The SBE will also adopt rules for the university or ICUF institution to file the registration notice and for appropriate reporting requirements for fiscal, programmatic, and performance accountability purposes. The university or ICUF institution is exempt from SFO bond requirements.

The bill authorizes taxpayers to transfer tax credits received so long as the transfer is between members of an affiliated group of corporations. The transferred tax credit must be applied against the same tax as it was to be applied against prior to the transfer. The credit is not available until DOR approves the transfer.

The bill also authorizes credits against corporate income tax and insurance premium tax to be taken against the estimated payments made by a corporation throughout its taxable year.

The bill takes effect upon becoming a law, unless otherwise provided.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

Article IX, s. 1, Fla. Const., provides in part that "[a]dequate provision shall be made by law for a uniform, efficient, safe, secure, and high quality system of free public schools that allows students to obtain a high quality education and for the establishment, maintenance, and operation of institutions of higher learning and other public education programs that the needs of the people require." For example, the Opportunity Scholarship Program (OSP) was found unconstitutional as fostering plural, nonuniform systems of education in direct violation of the constitutional mandate for a uniform system of free public schools in *Bush v. Holmes*, 919 So.2d 392 (Fla. 2006). However, the Florida Supreme Court also noted that "[w]e reject the suggestion by the State and amici that other publicly funded educational and welfare programs would necessarily be affected by our decision. Other educational programs, such as the program for exceptional students at issue in *Scavella*, are structurally different from the OSP, which provides a systematic private school alternative to the public school system mandated by our constitution." *Id.* at 412.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Personal Learning Scholarship Accounts

A family of a student with a disability eligible to participate in this program would decide which services would best meet their student's needs and spend funds accordingly, within the limitations of the personal account established under CS/CS/SB 1512. Families of students not currently enrolled in a public school would be eligible for funding for authorized services, making those services more accessible and affordable.

Florida Tax Credit Scholarship Program

The bill will provide more families with the opportunity to participate in the Florida Tax Credit Scholarship Program, and, beginning in the 2016-2017 fiscal year, participating students may be eligible for a larger award amount under the program.

C. Government Sector Impact:

Personal Learning Scholarship Accounts

Student eligibility for funding under the Personal Learning Scholarship Accounts program is determined based on the student having a disability as defined in the bill and meeting the APD eligibility requirements.

This bill and Senate Bill 2500, First Engrossed, the General Appropriations Bill for Fiscal Year 2014-2015, appropriate $18.4 million to the Agency for Persons with Disabilities for implementation of this program. $1.5 million of this amount is provided as startup funding for planning and implementation of the statewide pilot program which will begin enrolling parents and students on a first-come, first-served basis, no later than January 31, 2015.

For the pilot program, the Agency for Persons with Disabilities will provide scholarships for eligible students in amounts from $5,000 to $19,000 based on funding categories established by the agency. Eligible students in public school, students who participate in the McKay Scholarship program or the Florida Tax Credit Scholarship program will receive 50% of the scholarship amount.

Florida Tax Credit Scholarship Program

This bill allows corporations and insurance companies to apply credits against their estimated payments of corporate income tax and premium taxes. The Revenue Estimating Conference has estimated that these provisions will reduce general revenue by $15.2 million in Fiscal year 2014-2015.

The bill removes the prior public school enrollment requirement for eligibility for 6th through 12th grade students. This will increase enrollments in the program and affect Florida Education Finance Program (FEFP) cost savings, but savings associated with the program will remain positive.

The bill also increases the maximum award amount to 82% of the FEFP per student funding from 80%, beginning in 2016-2017. This will affect FEFP cost savings, but the savings associated with the program will remain positive.

This bill designates the Learning System Institute at FSU as the independent research organization to annually report Florida tax Credit Scholarship Program (FTC) student performance on a statewide and school level. The bill requires DOE to issue 2-year grants to the institute, of up to $500,000 per year. Currently, the DOE has a set-aside in the

assessment budget of $120,000 which is provided to the University of Florida for this purpose.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 11.45, 120.81, 409.1451, 1002.395, 1003.4282, 1003.572, 1007.263, and 1008.25.

This bill creates the following sections of the Florida Statutes: 1002.385, 1003.5716, and 1008.2121.

This bill repeals section 1003.438 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 22, 2014:
The committee substitute:

- Reassigns the major responsibilities for the Personal Learning Scholarship Accounts (program) from the school districts, the Department of Education, and the Commissioner of Education to the Agency for Persons with Disabilities.
- Revises the eligibility requirements for students whose parents choose to participate in the program.
- Requires the Agency for Persons with Disabilities (APD) to work with an Advisory Work Group to develop a newly created Individual Learning Service Plan, levels of services requirements, a system for payment of claims and providers, and a system to document and assess progress toward meeting the individual learning goals and objectives in the services plan.
- Requires rules to implement the program and enroll the first students in a statewide pilot program on a first-come, first-served basis no later than February 1, 2015.
- Provides that the new requirements for attaining a standard high school diploma apply to students for whom the Florida Alternate Assessment is the most appropriate measure of the student's skills.
- Defines an "educational consultant" as an approved APD provider and specifies the consultant's qualifications and responsibilities, which include assisting with the development of the student's individual learning services plan.
- Requires the plan to include the funding categories for the student;
- Defines Williams syndrome.

- Specifies that APD, rather than the APD Executive Director, assumes the enforcement responsibilities for approved providers.
- Removes a Coverdell contribution as an authorized use of program account funds;
- Specifies that the parent must affirm that he or she will not take possession of any funding provided for the Florida Personal Learning Scholarship Accounts;
- Changes the term "levels of services" to "funding category."
- Removes a reference to APD eligibility requirements.
- Provides that program funds received by an eligible student are not taxable income;
- Creates additional requirements for the Advisory Work Group, including working with a broader group of stakeholders.
- Adjusts the date by which the APD may enroll parents in a statewide pilot program and notify the DOE of applicants for the program.
- Specifies the requirements for earning a standard high school diploma for a student for whom the IEP team determines that mastery of academic and employment competencies is the most appropriate way for a student to demonstrate his or her skill.
- Affirms the authority of a private school to determine its own standards and curriculum.
- Defines "household income" to correspond to the term "income" use by the United States Department of Agriculture Income Eligibility Guidelines for free or reduced price meals.
- Revises student eligibility criteria, student household income levels, and scholarship reductions over a three-year period.
- Beginning in 2016-2017 and thereafter, the scholarship amount under the Florida Tax Credit (FTC) Scholarship Program is equal to 82 percent of the unweighted FTE.
- For a student who elects to take the statewide assessment, requires a private school to make arrangements for transportation for the student, as agreed upon by the parent.
- Designates the Learning System Institute at Florida State University as the independent research organization that annually reports FTC student performance on a statewide and individual school level.
- Requires specific, additional background screening requirements for owners or operators of the Scholarship Funding Organization (SFO).
- Revises an SFO to use funds in a manner that focuses on providing scholarships.
- Increases SFO audit requirements.
- Requires an SFO to have a surety bond or letter of credit.
- Allows a tax credit to be transferred between members of an affiliated group of corporations, subject to Department of Revenue approval.
- Allows corporations to apply tax credits to estimated payments, which will allow the impact to be one year earlier.
- Creates an SFO annual application process.
- Authorizes a state university or an accredited independent college or university of Florida (ICUF) institution to be an SFO, and exempts the university or ICUF institution from the bond requirement and application process.

CS by Education on March 18, 2014:
The committee substitute:

- Adds a definition of an "approved provider" to mean a provider approved by the Agency for Persons with Disabilities or approved by the Department of Education pursuant to s. 1002.66, F.S.;
- Adds that a student having Williams syndrome is eligible to participate in the program;
- Adds a new requirement that parents maintain a portfolio of records for two years to document student learning and further requires the portfolio to be available for inspection upon 15 days written notice from the district school superintendent;
- Adds a requirement for the State Board of Education to adopt rules to administer an electronic system of payment for authorized expenditures;
- Re-assigns to the Department of Education the Chief Financial Officer's responsibility for payments to fund personalized accounts;
- Clarifies that only a student who has an intellectual or cognitive disability and who takes the Florida Alternate Assessment may use new criteria to satisfy standard high school diploma requirements;
- Adds a provision allowing the parent of a third grade student who is at risk of retention to request that the school immediately start compiling a portfolio;
- Adds a requirement that a student who was granted a good cause exemption be provided with intensive reading instruction and intervention and requires the school district to help schools and teachers meet this requirement;
- Creates a new good cause exemption from retaining a 3rd grade student who:
  - Received intensive reading intervention for two or more years, but still demonstrates a deficiency in reading; and
  - Was previously retained in kindergarten, grade 1, grade 2, or grade 3 for a total of two years;
- Adds a provision that prohibits a student from being retained in 3rd grade more than once;
- Eliminates the specialty high school diploma designation; and
- Makes technical and conforming changes.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Education; and Senators Stargel, Thrasher, Gardiner, and Galvano

581-02750-14 20141512c1

A bill to be entitled

An act relating to students with disabilities; creating s. 1002.385, F.S.; establishing the Florida Personalized Accounts for Learning; defining terms; specifying criteria for students who are eligible to participate in the program; identifying certain students who are not eligible to participate in the program; authorizing the use of awarded funds for specific purposes; prohibiting specific providers, schools, institutions, school districts, and other entities from sharing, refunding, or rebating program funds; specifying the terms of the program; requiring a school district to notify the parent regarding the option to participate in the program; specifying the school district's responsibilities for completing a matrix of services and notifying the Department of Education of the completion of the matrix; requiring the department to notify the parent regarding the amount of the awarded funds; authorizing the school district to change the matrix under certain circumstances; requiring the school district in which a student resides to provide locations and times to take all statewide assessments; requiring the school district to notify parents of the availability of a reevaluation; specifying the duties of the Department of Education relating to the program; requiring the Commissioner of Education to deny, suspend, or revoke participation in the program or use of program funds under certain circumstances; providing additional

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

581-02750-14 20141512c1

factors under which the commissioner may deny, suspend, or revoke a participation in the program or program funds; requiring a parent to sign an agreement with the Department of Education to enroll his or her child in the program which specifies the responsibilities of a parent or student for using funds in an account and for submitting a compliance statement to the department; providing that a parent who fails to comply with the responsibilities of the agreement forfeits the personalized account for learning; providing for funding and payments; requiring the department to request from the Department of Financial Services a sample of payments from the authorized financial institution for specified purposes; providing for the closing of a student's account and reversion of funds to the state; requiring the department to make payments to the personalized accounts for learning at the authorized financial institution, select an authorized financial institution through a competitive bidding process to administer the personalized accounts for learning, and require audits of the authorized financial institution's personalized accounts for learning; requiring the Chief Financial Officer to conduct audits; providing that the state is not liable for the award or use of awarded funds; providing for the scope of authority of the act; requiring the State Board of Education to adopt rules to administer the program; amending s. 1003.4282, F.S.; providing standard high

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

school diploma requirements for certain students with an intellectual disability or cognitive disability; authorizing certain students with disabilities to continue to receive certain instructions and services; requiring an independent review and a parent's approval to waive statewide, standardized assessment requirements by the IEP team; repealing s. 1003.438, F.S., relating to special high school graduation requirements for certain exceptional students; creating s. 1003.5716, F.S.; providing that certain students with disabilities have a right to free, appropriate public education; requiring an individual education plan (IEP) team to begin the process of, and to develop an IEP for, identifying transition services needs for a student with a disability before the student attains a specified age; providing requirements for the process; requiring certain statements to be included and annually updated in the IEP; providing that changes in the goals specified in an IEP are subject to independent review and parental approval; requiring the school district to reconvene the IEP team to identify alternative strategies to meet transition objectives if a participating agency fails to provide transition services specified in the IEP; providing that the agency's failure does not relieve the agency of the responsibility to provide or pay for the transition services that the agency otherwise would have provided; amending s. 1003.572, F.S.; prohibiting a school district from charging fees

or imposing additional requirements on private instructional personnel; creating s. 1008.2121, F.S.; requiring the Commissioner of Education to permanently exempt certain students with disabilities from taking statewide, standardized assessments; requiring the State Board of Education to adopt rules; amending s. 1008.25, F.S.; requiring written notification relating to portfolios to a parent of a student with a substantial reading deficiency; requiring a student promoted to a certain grade with a good cause exemption to receive intensive reading instruction and intervention; requiring a school district to assist schools and teachers with the implementation of reading strategies; revising good cause exemptions; amending ss. 120.81, 409.1451, and 1007.263, F.S.; conforming cross-references; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 1002.385, Florida Statutes, is created to read:

1002.385 Florida Personalized Accounts for Learning.—

(1) ESTABLISHMENT OF PROGRAM.—The Florida Personalized Accounts for Learning is established to provide the option for a parent to better meet the individual educational needs of his or her eligible child.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Approved provider" means a provider approved by the

Agency for Persons with Disabilities and a provider approved by the department pursuant to s. 1002.66.

(b) "Authorized financial institution" means the institution that is designated in writing by the parent to receive payment of program funds into the parent's personalized account for learning at such institution.

(c) "Chief Financial Officer" means the chief fiscal officer of this state, as defined in s. 17.001.

(d) "Curriculum" means a complete course of study for a particular content area or grade level, including any required supplemental materials.

(e) "Department" means the Department of Education.

(f) "Disability" means, for a student in kindergarten to grade 12, autism, as defined in s. 393.063(3); cerebral palsy, as defined in s. 393.063(4); Down syndrome, as defined in s. 393.063(13); an intellectual disability, as defined in s. 393.063(21); Prader-Willi syndrome, as defined in s. 393.063(25); or Spina bifida, as defined in s. 393.063(36); for a student in kindergarten, being a high-risk child, as defined in s. 393.063(20)(a); and Williams syndrome.

(g) "Eligible postsecondary educational institution" means a Florida College System institution, a state university, a school district technical center, a school district adult general education center, or an accredited nonpublic postsecondary educational institution, as defined in s. 1005.02, which is licensed to operate in the state pursuant to requirements specified in part III of chapter 1005.

(h) "Eligible private school" means a private school, as defined in s. 1002.01, which is located in this state, which

offers an education to students in any grade from kindergarten to grade 12, and which meets requirements of ss. 1002.42 and 1002.421.

(i) "IEP" means individual education plan.

(j) "Parent" means a resident of this state who is a parent, as defined in s. 1000.21.

(k) "Program" means the Florida Personalized Accounts for Learning established in this section.

(3) PROGRAM ELIGIBILITY.—A parent of a student with a disability may request and receive from the state a Florida personalized account for learning for the purposes specified in subsection (5) if:

(a) The student:

1. Is a resident of this state;

2. Is eligible to enroll in kindergarten through grade 12 in a public school in this state;

3. Has a disability as defined in paragraph (2)(f) and is eligible for Level 3 to Level 5 services; and

4. Is the subject of an IEP written in accordance with rules of the State Board of Education; and

(b) The parent has requested from the department a participation in the program at least 60 days before the date of the first payment. The request must be communicated directly to the department in a manner that creates a written or electronic record of the request and the date of receipt of the request. The department must notify the district of the parent's intent upon receipt of the parent's request.

(4) PROGRAM PROHIBITIONS.—

(a) A student is not eligible for the program while he or

she is:

1. Enrolled in a public school, including, but not limited to, the Florida School for the Deaf and the Blind, the Florida Virtual School, the College-Preparatory Boarding Academy, a developmental research school authorized under s. 1002.32, a charter school authorized under s. 1002.33, s. 1002.331, or s. 1002.332, or a virtual education program authorized under s. 1002.45;

2. Enrolled in a school operating for the purpose of providing educational services to youth in the Department of Juvenile Justice commitment programs;

3. Receiving a scholarship pursuant to the Florida Tax Credit Scholarship Program under s. 1002.395 or the John M. McKay Scholarships for Students with Disabilities Program under s. 1002.39; or

4. Receiving an educational scholarship pursuant to this chapter.

(b) A student is not eligible for the program if:

1. The student or student's parent has accepted any payment, refund, or rebate, in any manner, from a provider of any services received pursuant to subsection (5);

2. The student's participation in the program has been denied or revoked by the Commissioner of Education pursuant to subsection (9); or

3. The student's parent has forfeited participation in the program for failure to comply with requirements pursuant to subsection (10).

(5) AUTHORIZED USES OF PROGRAM FUNDS.—Program funds may be spent for the following purposes, as specified in the student's

IEP or the portion of the IEP regarding the transition of the student to postsecondary education and career opportunities pursuant to s. 1003.5716:

(a) Instructional materials, including digital devices, digital periphery devices, and assistive technology devices that allow a student to access instruction or instructional content.

(b) Curriculum as defined in paragraph (2)(d).

(c) Specialized services by approved providers that are selected by the parent and specified in the student's IEP. These specialized services may include, but are not limited to:

1. Applied behavior analysis services as provided in ss. 627.6686 and 641.31098.

2. Services provided by speech-language pathologists as defined in s. 468.1125.

3. Occupational therapy services as defined in s. 468.203.

4. Services provided by physical therapists as defined in s. 486.021.

5. Services provided by listening and spoken language specialists and an appropriate acoustical environment for a child who is deaf or hard of hearing and who has received an implant or assistive hearing device.

(d) Enrollment in, or tuition or fees associated with enrollment in, an eligible private school, an eligible postsecondary educational institution, a private tutoring program authorized under s. 1002.43, a virtual program offered by a department-approved private online provider that meets the provider qualifications specified in s. 1002.45(2)(a), or an approved online course offered pursuant to ss. 1003.499 or 1004.0961.

(e) Fees for nationally standardized, norm-referenced achievement tests, Advanced Placement Examinations, industry certification examinations, assessments related to postsecondary education, or other assessments specified in the student's IEP.

(f) Contributions to a Coverdell education savings account established pursuant to 26 U.S.C. s. 530 of the Internal Revenue Code for the benefit of the eligible student.

(g) Contracted services provided by a public school or school district, including classes and extracurricular programs for the services specified in the IEP or additional services. A student who receives services under a contract under this paragraph shall not be considered to be enrolled in a public school for eligibility purposes as specified in subsection (4).

A specialized service provider, eligible private school, eligible postsecondary educational institution, private tutoring program provider, online or virtual program provider, public school, school district, or other entity receiving payments pursuant to this subsection may not share, refund, or rebate any moneys from the Florida Personalized Account for Learning with the parent or participating student in any manner.

(6) TERM OF THE PROGRAM.—For purposes of continuity of educational choice, the program payments made under this section shall remain in force until a student participating in the program participates in any of the prohibited activities specified in subsection (4), has funds revoked by the Commissioner of Education pursuant to subsection (9), or returns to a public school, graduates from high school, or reaches 22 years of age, whichever occurs first. A participating student

who enrolls in a public school or public school program is considered to have returned to a public school for the purpose of determining the end of the program's term.

(7) SCHOOL DISTRICT OBLIGATIONS; PARENTAL OPTIONS.—

(a) By April 1 of each year and within 10 days after an IEP meeting, a school district shall notify the parent of the student who meets eligibility requirements under subsection (3) of the option to participate in the program.

(b)1. For a student with a disability who does not have a matrix of services under s. 1011.62(1)(e), the school district shall complete a matrix that assigns the student to one of the levels of service as they existed before the 2000-2001 school year.

2.a. Within 10 school days after a school district receives notification of a parent's request for participation in the program under this section, the school district shall notify the student's parent if the matrix of services has not been completed and inform the parent that the district is required to complete the matrix within 30 days after receiving notice of the parent's request for participation. This notice must include the required completion date for the matrix.

b. The school district shall complete the matrix of services for a student who is participating in the program and shall notify the department of the student's matrix level within 30 days after receiving notification of a request to participate in the program. The school district must provide the student's parent with the student's matrix level within 10 school days after its completion.

c. The department shall notify the parent of the amount of

the funds awarded within 10 days after receiving the school district's notification of the student's matrix level.

d. A school district may change a matrix of services only if the change is to correct a technical, typographical, or calculation error.

(c) For each student participating in the program who takes statewide, standardized assessments under s. 1008.22, the school district in which the student resides must notify the student and his or her parent about the locations and times to take all statewide, standardized assessments.

(d) For each student participating in the program, a school district shall notify the parent about the availability of a reevaluation at least every 3 years.

(8) DEPARTMENT OF EDUCATION OBLIGATIONS.—The department shall:

(a) Establish an annual enrollment period and a process in which a parent may apply to enroll his or her student in the program. The enrollment period shall begin on July 1 and end on May 1 of each year for applications for the following state fiscal year. All applications must be approved by June 1 of each year for program participation for the following fiscal year.

(b) Conduct or contract for annual audits of the program to ensure compliance with this section.

(c) Notify the authorized financial institution of students who are approved to participate in the program. The notice must be made annually by June 1, after the department processes all applications to participate in the program.

(d) Establish a process by which a person may notify the department of any violation of laws or rules relating to

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

participation in the program. The department shall conduct an inquiry of all signed, written, and legally sufficient complaints that allege a violation of this section or make a referral to the appropriate agency for an investigation. A complaint is legally sufficient if it contains ultimate facts showing that a violation of this section or a violation of a rule adopted under this section has occurred. In order to determine legal sufficiency, the department may require supporting information or documentation from the complainant. A department inquiry is not subject to the requirements of chapter 120.

(e) Compare the list of students participating in the program with the public school enrollment lists before each program payment to avoid duplicate payments.

(f) Select an independent research organization, which may be a public or private entity or university, to which participating entities must report the scores of students participating in the program on the standardized assessments administered by the schools as specified in the IEP.

1. The independent research organization shall annually issue a report to the department which includes:

a. The year-to-year learning gains of students participating in the program.

b. To the extent possible, a comparison of the learning gains of students in the program to the statewide learning gains of public school students having backgrounds similar to those of the students in the program. In order to minimize the costs and time that the independent research organization requires for analysis and evaluation, the department shall conduct analyses

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

of assessment data from matched students in public schools and shall calculate the learning gains of control groups using a methodology outlined in the contract with the independent research organization.

c. The aggregate year-to-year learning gains of students in the program in each participating entity in which there are at least 30 participating students that have scores for tests for 2 consecutive years at that entity.

2. The sharing and reporting of the learning gains of students pursuant to this paragraph must be in accordance with the Family Educational Rights and Privacy Act, 20 U.S.C. s. 1232g, and shall be for the sole purpose of creating the annual report required under subparagraph 1. All parties shall preserve the confidentiality of such information as required by law. The independent research organization may not disaggregate data in its annual report to a level that identifies individual participating entities, except as required under sub-subparagraph 1.c., or disclose the academic level of individual students.

3. The department shall publish on its website the annual report required by subparagraph 1.

(g) Coordinate with state-funded or federally funded benefits programs to advise a parent about the possible effect his or her child's participation in the program under this section may have on the child's eligibility for participating in those state-funded or federally funded benefits programs.

(h) Issue a report by December 15, 2014, and annually thereafter to the Governor, the President of the Senate, and the Speaker of the House of Representatives describing the

implementation of accountability mechanisms for the program, identifying any substantial allegations and violations of a law or rule governing the program, and describing the corrective actions taken by the department relating to violations of a law or rule governing the program.

(9) COMMISSIONER OF EDUCATION AUTHORITY AND OBLIGATIONS.—

(a) The Commissioner of Education:

1. Shall deny, suspend, or revoke a student's participation in the program if the health, safety, or welfare of the student is threatened or fraud is suspected.

2. Shall deny, suspend, or revoke an authorized use of program funds if the health, safety, or welfare of the student is threatened or fraud is suspected.

3. May deny, suspend, or revoke an authorized use of program funds for material failure to comply with this section and applicable department rules if the noncompliance is correctable within a reasonable period of time. Otherwise, the commissioner shall deny, suspend, or revoke an authorized use for failure to materially comply with the law and rules adopted under this section.

4. Shall require compliance by the appropriate party by a date certain for all nonmaterial failures to comply with this section and applicable department rules. The commissioner may deny, suspend, or revoke program participation under this section thereafter.

(b) In determining whether to deny, suspend, or revoke in accordance with this subsection, the commissioner may consider factors that include, but are not limited to, acts or omissions by a participating entity which led to a previous denial or

revocation of participation in an education scholarship program; failure to reimburse the department for program funds improperly received or retained by the entity; imposition of a prior criminal sanction related to the entity or its officers or employees; imposition of a civil fine or administrative fine, license revocation or suspension, or program eligibility suspension, termination, or revocation related to an entity's management or operation; or other types of criminal proceedings in which the entity or its officers or employees were found guilty of, regardless of adjudication, or entered a plea of nolo contendere or guilty to, any offense involving fraud, deceit, dishonesty, or moral turpitude.

(10) PARENT AND STUDENT RESPONSIBILITIES FOR PROGRAM PARTICIPATION.—A parent who applies for program participation under this section is exercising his or her parental option to determine the appropriate placement or services that best meet the needs of his or her student. To enroll an eligible student in the program, the parent must sign an agreement with the department and annually submit a notarized, sworn compliance statement to the department to:

(a) Affirm that the student meets minimum student attendance requirements as provided in s. 1003.21.

(b) Use the program funds only for authorized purposes, as described in subsection (5).

(c) Affirm that the student takes all appropriate standardized assessments as specified in the student's IEP. The parent is responsible for transporting the student to the assessment site designated by the school district.

(d) Request participation in the program at least 60 days

before the date of the first program payment.

(e) Affirm that the student remains in good standing with the provider or school if those options are selected by the parent.

(f) Apply for admission of his or her child if the private school option is selected by the parent.

(g) Annually renew participation in the program. Notwithstanding any changes to the student's IEP, a student who was previously eligible for participation in the program shall remain eligible to apply for renewal as provided in subsection (6).

(h) Designate in writing the authorized financial institution to receive payment of program funds and maintain a separate personalized account for learning at that institution.

(i) Affirm that the parent will not transfer any college savings funds to another beneficiary.

(j) Affirm that the parent will not take possession of any funding contributed by the state.

(k) Maintain a portfolio of records and materials which must be preserved by the parent for 2 years and be made available for inspection by the district school superintendent or the superintendent's designee upon 15 days' written notice. This paragraph does not require the superintendent to inspect the portfolio. The portfolio of records and materials consists of:

1. A log of educational instruction and services which is made contemporaneously with delivery of the instruction and services and which designates by title any reading materials used; and

2. Samples of any writings, worksheets, workbooks, or creative materials used or developed by the student.

A parent who fails to comply with this subsection forfeits the personalized account for learning.

(11) FUNDING AND PAYMENT.—

(a)1. The maximum funding amount granted for an eligible student with a disability, pursuant to subsection (3), shall be equivalent to the base student allocation in the Florida Education Finance Program multiplied by the appropriate cost factor for the educational program which would have been provided for the student in the district school to which he or she would have been assigned, multiplied by the district cost differential.

2. In addition, an amount equivalent to a share of the guaranteed allocation for exceptional students in the Florida Education Finance Program shall be determined and added to the amount in subparagraph 1. The calculation shall be based on the methodology and the data used to calculate the guaranteed allocation for exceptional students for each district in chapter 2000-166, Laws of Florida. Except as provided in subparagraph 3., the calculation shall be based on the student's grade, the matrix level of services, and the difference between the 2000-2001 basic program and the appropriate level of services cost factor, multiplied by the 2000-2001 base student allocation and the 2000-2001 district cost differential for the sending district. The calculated amount must also include an amount equivalent to the per-student share of supplemental academic instruction funds, instructional materials funds, technology

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

funds, and other categorical funds as provided in the General Appropriations Act.

3. Until the school district completes the matrix required under paragraph (7)(b), the calculation shall be based on the matrix that assigns the student to support level 3 of services. When the school district completes the matrix, the amount of the payment shall be adjusted as needed.

(b) The amount of the awarded funds shall be 90 percent of the calculated amount.

(c) The school district shall report all students who are participating in the program. The participating students who have previously been included in the Florida Education Finance Program and are included in public school enrollment counts shall be reported separately from other students reported for purposes of the Florida Education Finance Program. Participating students who have been enrolled in nonpublic schools shall also be reported separately.

(d) Following notification on July 1, September 1, December 1, or February 1 of the number of program participants:

1. For students who have been enrolled in public schools and are included in public school enrollment counts, the department shall transfer, from General Revenue funds only, the amount of the awarded program funds calculated pursuant to paragraph (b) from the school district's total funding entitlement under the Florida Education Finance Program and from authorized categorical accounts to a separate account for the program for quarterly disbursement to the personalized account for learning at an authorized financial institution on behalf of the parent and student; and

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

2. For students who have been and will continue to be enrolled in nonpublic schools, the department shall also transfer from an appropriation for the program the amount calculated under paragraph (b) to a separate account for the program for quarterly disbursement to the personalized account for learning at an authorized financial institution on behalf of the parent and student. Nonpublic school students shall be provided awarded funds on a first-come, first-served basis.

(e) When a student enters the program, the department must receive, at least 30 days before the first quarterly program payment is made to the personalized account for learning for the student, all documentation required for the student's participation in the program.

(f) Upon notification by the department that it has received the documentation required under paragraph (d), the department shall make payments in four equal amounts no later than September 1, November 1, February 1, and April 1 of each academic year in which the awarded funds are in force. The initial payment shall be made after department verification of the establishment of the personalized account for learning at an authorized financial institution, and subsequent payments shall be made upon verification of parental obligations under subsection (10). Payment must be by individual warrant made payable to the personalized account for learning on behalf of the parent and student. The authorized financial institution shall mail or electronically process payments as directed by the parent for authorized uses.

(g) Subsequent to each payment, the department shall request from the Department of Financial Services a sample of

payments from the authorized financial institution for authorized uses to endorsed warrants to review and confirm compliance with this section.

(h) Upon an eligible student's graduation from an eligible postsecondary educational institution or after any period of 4 consecutive years after high school graduation in which the student is not enrolled in an eligible postsecondary educational institution, the student's personalized account for learning shall be closed, and any remaining funds shall revert to the state.

(i) The department shall make payments to fund personalized accounts for learning at the authorized financial institution pursuant to this section.

(j) The department shall develop a system for payment of benefits by electronic funds transfer, including, but not limited to, debit cards, electronic payment cards, or any other means of electronic payment that the department deems to be commercially viable or cost-effective. Commodities or services related to the development of such a system shall be procured by competitive solicitation unless they are purchased from a state term contract pursuant to s. 287.056. The State Board of Education shall adopt rules to administer this paragraph.

(k) The department shall require audits of the authorized financial institution's personalized accounts for learning pursuant to this section. The Chief Financial Officer shall conduct audits pursuant to this section.

(12) LIABILITY.—The state is not liable for the award or any use of awarded funds under this section.

(13) SCOPE OF AUTHORITY.—This section does not expand the

regulatory authority of this state, its officers, or any school district to impose additional regulation on participating private schools, nonpublic postsecondary educational institutions, and private providers beyond those reasonably necessary to enforce requirements expressly set forth in this section.

(14) RULES.—The State Board of Education shall adopt rules pursuant to ss. 120.536(1) and 120.54 to administer this section. The rules must identify the appropriate school district personnel who must complete the matrix of services.

Section 2. Present subsection (10) of section 1003.4282, Florida Statutes, is renumbered as subsection (11), and a new subsection (10) is added to that section, to read:

1003.4282 Requirements for a standard high school diploma.—

(10) STUDENTS WITH DISABILITIES.—Beginning with students entering grade 9 in the 2014-2015 school year, this subsection applies to a student with an intellectual or cognitive disability for whom the IEP team has determined that the Florida Alternate Assessment is the most appropriate measure of the student's skills.

(a) A parent of the student with a disability shall, in collaboration with the individual education plan team pursuant to s. 1003.5716, declare an intent for the student to graduate from high school with either a standard high school diploma or a certificate of completion. A student with a disability who does not satisfy the standard high school diploma requirements pursuant to this section shall be awarded a certificate of completion.

(b) The following options, in addition to the other options

specified in this section, may be used to satisfy the standard high school diploma requirements, as specified in the student's individual education plan:

1. A combination of course substitutions, assessments, industry certifications, and other acceleration options appropriate to the student's unique skills and abilities that meet the criteria established by State Board of Education rule.

2. A portfolio of quantifiable evidence that documents a student's mastery of academic standards through rigorous metrics established by State Board of Education rule. A portfolio may include, but is not limited to, documentation of work experience, internships, community service, and postsecondary credit.

(c) A student with a disability who meets the standard high school diploma requirements in this section may defer the receipt of a standard high school diploma if the student:

1. Has an individual education plan that prescribes special education, transition planning, transition services, or related services through age 21; and

2. Is enrolled in accelerated college credit instruction pursuant to s. 1007.27, industry certification courses that lead to college credit, a collegiate high school program, courses necessary to satisfy the Scholar designation requirements, or a structured work-study, internship, or pre-apprenticeship program.

(d) A student with a disability who receives a certificate of completion and has an individual education plan that prescribes special education, transition planning, transition services, or related services through 21 years of age may

continue to receive the specified instruction and services.

(e) Any waiver of the statewide, standardized assessment requirements by the individual education plan team, pursuant to s. 1008.22(3)(c), must be approved by the parent and is subject to verification for appropriateness by an independent reviewer selected by the parent as provided for in s. 1003.572.

Section 3. Effective July 1, 2015, section 1003.438, Florida Statutes, is repealed.

Section 4. Section 1003.5716, Florida Statutes, is created to read:

1003.5716 Transition to postsecondary education and career opportunities.—All students with disabilities who are 3 years of age to 21 years of age have the right to a free, appropriate public education. As used in this section, the term "IEP" means individual education plan.

(1) To ensure quality planning for a successful transition of a student with a disability to postsecondary education and career opportunities, an IEP team shall begin the process of, and develop an IEP for, identifying the need for transition services before the student with a disability attains the age of 14 years in order for his or her postsecondary goals and career goals to be identified and in place when he or she attains the age of 16 years. This process must include, but is not limited to:

(a) Consideration of the student's need for instruction in the area of self-determination and self-advocacy to assist the student's active and effective participation in an IEP meeting; and

(b) Preparation for the student to graduate from high

school with a standard high school diploma pursuant to s. 1003.4282 with a Scholar designation unless the parent chooses a Merit designation.

(2) Beginning not later than the first IEP to be in effect when the student turns 16, or younger, if determined appropriate by the parent and the IEP team, the IEP must include the following statements that must be updated annually:

(a) A statement of intent to pursue a standard high school diploma and a Scholar or Merit designation, pursuant to s. 1003.4285, as determined by the parent.

(b) A statement of intent to receive a standard high school diploma before the student reaches the age of 22 and a description of how the student will fully meet the requirements in s. 1003.428 or s. 1003.4282, as applicable, including, but not limited to, a portfolio pursuant to s. 1003.4282(10)(b) that meets the criteria specified in State Board of Education rule. The IEP must also specify the outcomes and additional benefits expected by the parent and the IEP team at the time of the student's graduation.

(c) A statement of appropriate measurable long-term postsecondary education and career goals based upon age-appropriate transition assessments related to training, education, employment, and, if appropriate, independent living skills and the transition services, including courses of study needed to assist the student in reaching those goals.

(3) Any change in the IEP for the goals specified in subsection (2) must be approved by the parent and is subject to verification for appropriateness by an independent reviewer selected by the parent as provided in s. 1003.572.

(4) If a participating agency responsible for transition services, other than the school district, fails to provide the transition services described in the IEP, the school district shall reconvene the IEP team to identify alternative strategies to meet the transition objectives for the student that are specified in the IEP. However, this does not relieve any participating agency of the responsibility to provide or pay for any transition service that the agency would otherwise provide to students with disabilities who meet the eligibility criteria of that agency.

Section 5. Subsection (3) of section 1003.572, Florida Statutes, is amended to read:

1003.572 Collaboration of public and private instructional personnel.—

(3) Private instructional personnel who are hired or contracted by parents to collaborate with public instructional personnel must be permitted to observe the student in the educational setting, collaborate with instructional personnel in the educational setting, and provide services in the educational setting according to the following requirements:

(a) The student's public instructional personnel and principal consent to the time and place.

(b) The private instructional personnel satisfy the requirements of s. 1012.32 or s. 1012.321.

For the purpose of implementing this subsection, a school district may not impose any requirements beyond those requirements specified in this subsection or charge any fees.

Section 6. Section 1008.2121, Florida Statutes, is created

to read:

1008.2121 Students with severe cognitive or physical disabilities; permanent exemption.—Based on information that a reasonably prudent person would rely upon, including, but not limited to, facts contained within an individual education plan under s. 1008.212, documentation from an appropriate health care provider, or certification from the district school board superintendent, the Commissioner of Education shall perfunctorily grant a permanent exemption to a student who suffers from such a severe cognitive disability or physical disability that the student permanently lacks the capacity to take statewide, standardized assessments. The State Board of Education shall adopt rules to administer this section, including, but not limited to, expediting the exemption process to demonstrate the utmost compassion and consideration for meeting the parent's and student's needs.

Section 7. Paragraph (c) of subsection (5) and paragraph (b) of subsection (6) of section 1008.25, Florida Statutes, are amended to read:

1008.25 Public school student progression; remedial instruction; reporting requirements.—

(5) READING DEFICIENCY AND PARENTAL NOTIFICATION.—

(c) The parent of any student who exhibits a substantial deficiency in reading, as described in paragraph (a), must be notified in writing of the following:

1. That his or her child has been identified as having a substantial deficiency in reading.

2. A description of the current services that are provided to the child.

3. A description of the proposed supplemental instructional services and supports that will be provided to the child that are designed to remediate the identified area of reading deficiency.

4. That if the child's reading deficiency is not remediated by the end of grade 3, the child must be retained unless he or she is exempt from mandatory retention for good cause.

5. Strategies for parents to use in helping their child succeed in reading proficiency.

6. That the Florida Comprehensive Assessment Test (FCAT) is not the sole determiner of promotion and that additional evaluations, portfolio reviews, and assessments are available to the child to assist parents and the school district in knowing when a child is reading at or above grade level and ready for grade promotion.

7. The district's specific criteria and policies for a portfolio as provided in subparagraph (6)(b)4. and the evidence required for a student to demonstrate mastery of Florida's academic standards for English Language Arts. A parent of a student in grade 3 who is identified anytime during the year as being at risk of retention may request that the school immediately begin collecting evidence for a portfolio.

8.~~7.~~ The district's specific criteria and policies for midyear promotion. Midyear promotion means promotion of a retained student at any time during the year of retention once the student has demonstrated ability to read at grade level.

(6) ELIMINATION OF SOCIAL PROMOTION.—

(b) The district school board may only exempt students from mandatory retention, as provided in paragraph (5)(b), for good

cause. A student who is promoted to grade 4 with a good cause exemption shall be provided intensive reading instruction and intervention that include specialized diagnostic information and specific reading strategies to meet the needs of each student so promoted. The school district shall assist schools and teachers with the implementation of reading strategies for students promoted with a good cause exemption which research has shown to be successful in improving reading among students that have reading difficulties. Good cause exemptions shall be limited to the following:

1. Limited English proficient students who have had less than 2 years of instruction in an English for Speakers of Other Languages program.

2. Students with disabilities whose individual education plan indicates that participation in the statewide assessment program is not appropriate, consistent with the requirements of State Board of Education rule.

3. Students who demonstrate an acceptable level of performance on an alternative standardized reading or English Language Arts assessment approved by the State Board of Education.

4. A student who demonstrates through a student portfolio that he or she is performing at least at Level 2 on FCAT Reading or the common core English Language Arts assessment, as applicable under s. 1008.22.

5. Students with disabilities who participate in FCAT Reading or the common core English Language Arts assessment, as applicable under s. 1008.22, and who have an individual education plan or a Section 504 plan that reflects that the

student has received intensive remediation in reading and English Language Arts for more than 2 years but still demonstrates a deficiency and was previously retained in kindergarten, grade 1, grade 2, or grade 3.

6. Students who have received intensive reading intervention for 2 or more years but still demonstrate a deficiency in reading and who were previously retained in kindergarten, grade 1, grade 2, or grade 3 for a total of 2 years. A student may not be retained more than once in grade 3.

7.~~6.~~ Students who have received intensive remediation in reading and English Language Arts, as applicable under s. 1008.22, for 2 or more years but still demonstrate a deficiency and who were previously retained in kindergarten, grade 1, grade 2, or grade 3 for a total of 2 years. Intensive instruction for students so promoted must include an altered instructional day that includes specialized diagnostic information and specific reading strategies for each student. The district school board shall assist schools and teachers to implement reading strategies that research has shown to be successful in improving reading among low-performing readers.

Section 8. Effective July 1, 2015, paragraph (c) of subsection (1) of section 120.81, Florida Statutes, is amended to read:

120.81 Exceptions and special requirements; general areas.—

(1) EDUCATIONAL UNITS.—

(c) Notwithstanding s. 120.52(16), any tests, test scoring criteria, or testing procedures relating to student assessment which are developed or administered by the Department of Education pursuant to s. 1003.428, s. 1003.429, ~~s. 1003.438,~~ s.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

1008.22, or s. 1008.25, or any other statewide educational tests required by law, are not rules.

Section 9. Effective July 1, 2015, subsection (2) of section 409.1451, Florida Statutes, is amended to read:

409.1451 The Road-to-Independence Program.—

(2) POSTSECONDARY EDUCATION SERVICES AND SUPPORT.—

(a) A young adult is eligible for services and support under this subsection if he or she:

1. Was living in licensed care on his or her 18th birthday or is currently living in licensed care; or was at least 16 years of age and was adopted from foster care or placed with a court-approved dependency guardian after spending at least 6 months in licensed care within the 12 months immediately preceding such placement or adoption;

2. Spent at least 6 months in licensed care before reaching his or her 18th birthday;

3. Earned a standard high school diploma or its equivalent pursuant to s. 1003.428, s. 1003.4281, s. 1003.429, or s. 1003.435~~, or s. 1003.438~~;

4. Has been admitted for enrollment as a full-time student or its equivalent in an eligible postsecondary educational institution as provided in s. 1009.533. For purposes of this section, the term "full-time" means 9 credit hours or the vocational school equivalent. A student may enroll part-time if he or she has a recognized disability or is faced with another challenge or circumstance that would prevent full-time attendance. A student needing to enroll part-time for any reason other than having a recognized disability must get approval from his or her academic advisor;

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

5. Has reached 18 years of age but is not yet 23 years of age;

6. Has applied, with assistance from the young adult's caregiver and the community-based lead agency, for any other grants and scholarships for which he or she may qualify;

7. Submitted a Free Application for Federal Student Aid which is complete and error free; and

8. Signed an agreement to allow the department and the community-based care lead agency access to school records.

Section 10. Effective July 1, 2015, subsection (4) of section 1007.263, Florida Statutes, is amended to read:

1007.263 Florida College System institutions; admissions of students.—Each Florida College System institution board of trustees is authorized to adopt rules governing admissions of students subject to this section and rules of the State Board of Education. These rules shall include the following:

(4) A student who has been awarded ~~a special diploma as defined in s. 1003.438 or~~ a certificate of completion as defined in s. 1003.428(7)(b) is eligible to enroll in certificate career education programs.

Each board of trustees shall establish policies that notify students about developmental education options for improving their communication or computation skills that are essential to performing college-level work, including tutoring, extended time in gateway courses, free online courses, adult basic education, adult secondary education, or private provider instruction.

Section 11. Except as otherwise expressly provided in this act, this act shall take effect July 1, 2014.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/CS/SB 1576
INTRODUCER:	Appropriations Committee; Agriculture Committee; Environmental Preservation and Conservation Committee; and Senator Dean and others
SUBJECT:	Springs
DATE:	April 24, 2014 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Hinton	Uchino	EP	**Fav/CS**
2.	Akhavein	Becker	AG	**Fav/CS**
3.	Howard	Kynoch	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/CS/SB 1576 provides for the protection of springs in Florida. Specifically, the bill:

- Creates Part VIII of ch. 373, F.S.;
- Provides findings, intent, and definitions;
- Directs the Department of Environmental Protection (DEP), in coordination with the water management districts (WMDs), to delineate spring protection and management zones (SPMZs);
- Requires the establishment of minimum flows and levels (MFLs) in Outstanding Florida Springs (OFSs)by July 1, 2022 and the adoption of recovery or prevention strategies under certain circumstances;
- Directs the DEP to make determinations of impairment for OFSs and develop basin management action plans (BMAPs);
- Provides requirements for BMAPs in SPMZs;
- Directs local governments within SPMZs to adopt ordinances that meet or exceed those of the Model Ordinance for Florida-Friendly Fertilizer Use on Urban Landscapes;
- Requires upgrading certain domestic wastewater treatment plants and onsite sewage treatment and disposal systems (OSTDSs), and implementation of nutrient reduction and monitoring methods for agricultural operations;
- Directs the DEP to create a program to evaluate, select, and rank project proposals;

- Prohibits certain activities in SPMZs related to new municipal or industrial wastewater disposal systems, new OSTDSs, new hazardous waste facilities, land application of Class A and B biosolids, and new agricultural operations;
- Assigns duties to several agencies to carry out the provisions of Part VIII of ch. 373, F.S.;
- Provides extensions to local governments and rural areas of critical economic concern for completing projects;
- Requires the Department of Agriculture and Consumer Services (DACS) and the DEP to study new or revised basin management action plans (BMPs); and
- Requires a yearly report by the DEP and the WMDs on the progress of TMDL, BMAP, MFL, and recovery or prevention strategies, beginning on July 1, 2015.

Based on the new springs program requirements, there is a significant fiscal impact to the DEP and the WMDs which is indeterminate. Funding to support the bill is to be provided in the Fiscal Year 2014-2015 General Appropriations Act, or similar legislation. For subsequent fiscal years, funding will be determined annually by the Legislature and provided in the General Appropriations Act. See Section V.

DACS will incur an indeterminate amount of costs for staff time and travel to participate in new studies and rule development efforts and an estimated $50,000 in costs to contract with a third party to complete a required report related to public health, engineering, public perception, fiscal, and rate structure issues.

II. Present Situation:

Florida's Springs

Florida's springs are unique and beautiful resources. The historically crystal clear waters provide not only a variety of recreational opportunities and habitats, but also great economic value for recreation and tourism. The springs are major sources of stream flow in a number of rivers such as the Rainbow, Chassahowitza, Homosassa, and Ichetucknee.[1] Additionally, Florida's springs provide a "window" into the Floridan Aquifer system, which provides most of the state's drinking water.

The Floridan Aquifer System is a limestone aquifer that has enormous freshwater storage and transmission capacity. The upper portion of the aquifer consists of thick carbonate rocks that have been heavily eroded and covered with unconsolidated sand and clay. The surficial aquifer is located within the sand deposits and forms the land surface that is present today. In portions of Florida, the surficial aquifer lies on top of deep layers of clay sediments that prevent the downward movement of water. Springs form when groundwater is forced out through natural openings in the ground.[2]

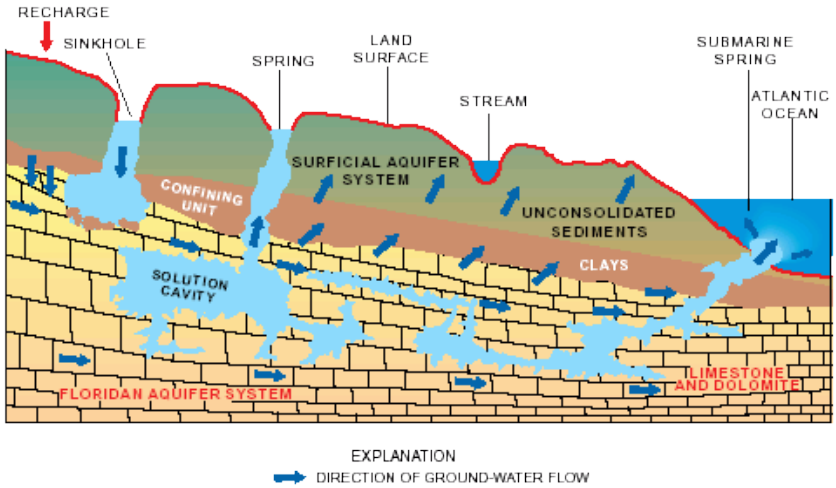
[2] *Id*. at 3-1 to 3-2.

The Water Cycle – Springs[3]



Florida has more than 700 recognized springs. First magnitude springs are those that discharge 100 cubic feet of water per second or greater. Florida has 33 first magnitude springs in 18 counties that discharge more than 64 million gallons of water per day. Spring discharges, primarily from the Floridan Aquifer, are used to determine ground water quality and the degree of human impact on a spring's recharge area. Rainfall, surface conditions, soil type, mineralogy, the composition and porous nature of the aquifer system, flow, and length of time in the aquifer all contribute to ground water chemistry.[4]

The springshed is the area within the groundwater and surface water basins that contributes to the discharge of the spring. The spring recharge basin consists of all areas where water can be shown to contribute to groundwater flow discharging from the spring.

Spring protection zones are sub-areas of the groundwater and surface water basins of each spring or spring system that supply water to the spring and within which human activities, such as waste disposal or water use, are most likely to have negative impacts on the water discharging from the spring. When adverse conditions occur within a spring protection zone, the conditions can be minimized by:

- Land-use management and zoning by county or municipal government;
- Adoption of best management practices (BMPs);
- Educating the public concerning environmental sensitivity; and
- If necessary, regulatory action.[5]

Nutrients

Phosphorus and nitrogen are essential nutrients for plants and animals and are the limiting nutrients in aquatic environments. The correct balance of both of these nutrients is necessary for

a healthy ecosystem; however, excessive nitrogen and phosphorus can cause significant water quality problems. Typically, nitrogen is the limiting nutrient in spring systems. Therefore, even modest increases in nitrogen above optimum levels can accelerate algae growth, plant growth, and deplete oxygen levels.[6]

Phosphorus and nitrogen are derived from natural and anthropogenic sources. Natural inputs include the atmosphere, soils, and the decay of plants and animals. Anthropogenic sources include sewage disposal systems (wastewater treatment facilities and septic tanks), overflows of storm and sanitary sewers (untreated sewage), agricultural production and irrigation practices, and stormwater runoff.

Excessive nutrients may result in harmful algal blooms, nuisance aquatic weeds, and alteration of the natural community of plants and animals. Dense, harmful algal blooms can also cause human health problems, fish kills, problems for water treatment plants, and generally impair the aesthetics and tastes of waters. Growth of nuisance aquatic weeds tends to increase in nutrient-enriched waters, which can impact recreational activities. Increased algae production, as a result of increased nutrients, can alter plant communities and affect natural systems.

In pristine conditions, spring water is high quality and lacks contaminants. It can be used directly for public water supplies or for irrigation. When pollutants are introduced to the land surface, some will be retained, but some will travel into the aquifer and later appear in spring flow. Often, nutrients introduced close to a spring will quickly reach the spring, especially in unconfined areas of the aquifer. While springs are valuable recreational and tourist attractions, they are also an indicator of reduced quality of the water in the aquifer.[7]

Urban Fertilizer Usage and Florida's Model Ordinance

Application of fertilizer in urban areas impacts springsheds when it runs off lawns and impervious surfaces into stormwater collection systems or directly into the surface water. The Department of Environmental Protection (DEP) has provided guidelines to minimize the impact of urban fertilizer usage and has adopted the "Model Ordinance for Florida-Friendly Fertilizer Use on Urban Landscapes." The model ordinance provides counties and municipalities with a range of ordinances to help minimize fertilizer inputs from urban applications. Some of the suggestions contained in the model ordinance are:

- Restricting the times fertilizer may be applied, such as restricting its application during the rainy season;
- Creating fertilizer free zones around sensitive waterbodies such as ponds, streams, watercourses, lakes, canals, or wetlands;
- Controlling application practices, for example, by restricting fertilizer application on impervious surfaces and requiring prompt cleanup of any fertilizer that is spilled on impervious surfaces; and

[7] *Supra* note 1, at 3-4.

- Managing grass clipping and vegetative matter by disposing of such materials properly rather than simply blowing them into the street, ditches, stormwater drains, or waterbodies.[8]

Water Pollution Control Programs

Total Maximum Daily Loads (TMDLs) and Water Quality Standards (WQSs)

Under s. 303 of the federal Clean Water Act (CWA), states are incentivized to adopt WQSs for their navigable waters and must review and update those standards at least once every three years. These standards include:

- Designation of a waterbody's beneficial uses, such as water supply, recreation, fish propagation, and navigation;
- Water quality criteria that define the amounts of pollutants, in either numeric or narrative standards, that the waterbody can contain without impairment of the designated beneficial uses; and
- Anti-degradation requirements.[9]

In 1999, the Legislature passed the Florida Watershed Restoration Act (WRA),[10] which codified the establishment of TMDLs for pollutants of waterbodies as required by the CWA.[11] Each TMDL, which must be adopted by rule, is a scientific determination of the maximum amount of a given pollutant that can be absorbed by the waterbody while still meeting WQSs. Waterbodies that do not meet the established WQSs are deemed impaired and, pursuant to the CWA, the DEP establishes a TMDL for the waterbody or section of the waterbody that is impaired.[12] A TMDL for an impaired waterbody is defined as the sum of the individual waste load allocations for point sources and the load allocations for nonpoint sources and natural background. Waste load allocations are pollutant loads attributable to existing and future point sources, such as discharges from industry and sewage facilities. Load allocations are pollutant loads attributable to existing and future nonpoint sources such as the runoff from farms, forests, and urban areas. [13]

The U.S. Environmental Protection Agency (EPA) and the DEP enforce WQSs through the implementation and enforcement of the National Pollutant Discharge Elimination System (NPDES) permitting program. Every point source that discharges a pollutant into waters of the United States must obtain an NPDES permit establishing the amount of a particular pollutant that an individual point source can discharge into a specific waterbody. The amount of the pollutant that a point source can discharge under a NPDES permit is determined through the establishment of a technology-based effluent limitation. If a waterbody fails to meet the applicable WQS

[10] Chapter 99-223, Laws of Fla.
[11] Section 403.067, F.S.
[12] *Id*.
[13] Rule 62-620.200(37), F.A.C. Point source means any discernible, confined, and discrete conveyance, including any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, concentrated animal feeding operation, landfill leachate collection system, vessel or other floating craft from which pollutants are or may be discharged. Nonpoint sources of pollution are essentially sources of pollution that are not point sources. They can include runoff from agricultural lands or residential areas; oil, grease and toxic materials from urban runoff; and sediment from improperly managed construction sites.

through the application of a technology-based effluent limitation, a more stringent pollution control program called the water quality based effluent limitation is applied.

Basin Management Action Plans

The DEP is the lead agency in coordinating the implementation of TMDLs and basin management action plans (BMAPs) through existing water quality protection programs. Such programs include:

- Permitting and other existing regulatory programs, including water quality based effluent limitations;
- Non-regulatory and incentive-based programs, including BMPs, cost sharing, waste minimization, pollution prevention, agreements established pursuant to s. 403.061(21), F.S., and public education;[14]
- Public works, including capital facilities; and
- Land acquisition.[15]

The DEP may establish a BMAP as part of the development and implementation of a TMDL for a specific water body. First, the BMAP equitably allocates pollutant reductions to individual basins, as a whole to all basins, or to each identified point source or category of nonpoint sources.[16] Then the BMAP establishes the schedule for implementing projects and activities to meet the pollution reduction allocations. The BMAP process has the flexibility to allow for adaptive changes if necessary. The BMAP development process provides an opportunity for local stakeholders, local government and community leaders, and the general public to collectively determine and share water quality clean-up responsibilities. The DEP works with stakeholders to develop effective BMAPs.[17]

BMAPs must include milestones for implementation and water quality improvement. They must also include an associated water quality monitoring component sufficient to evaluate whether reasonable progress in pollutant load reductions is being achieved over time. An assessment of progress toward these milestones must be conducted every five years and revisions to the plan must be made as appropriate.[18]

Producers of nonpoint source pollution included in a BMAP must comply with the established pollutant reductions by either implementing the appropriate BMPs or by conducting water quality monitoring.[19] A nonpoint source discharger may be subject to enforcement action by the DEP or a WMD based upon a failure to implement these responsibilities.[20]

---

[14] Section 403.061, F.S., grants the DEP the power and the duty to control and prohibit pollution of air and water in accordance with the law and rules adopted and promulgated by it. Furthermore, s. 403.061(21), F.S., allows the DEP to advise, consult, cooperate, and enter into agreements with other state agencies, the federal government, other states, interstate agencies, etc.
[15] Section 403.067(7)(b), F.S.
[16] Section 403.067(7), F.S.
[17] DEP, *Basin Management Action Plans (BMAPs)*, http://www.dep.state.fl.us/central/Home/Watershed/BMAP.htm (last visited Mar. 27, 2014).
[18] Section 403.067(7)(a)5., F.S.
[19] BMPs for agriculture, for example, include activities such as managing irrigation water to minimize losses, limiting the use of fertilizers, and waste management.
[20] Section 403.067(7)(b)1.h., F.S.

Provisions of a BMAP must be included in subsequent NPDES permits. The DEP is prohibited from imposing limits or conditions associated with an adopted TMDL in a NPDES permit until the permit expires, the discharge is modified, or the permit is reopened pursuant to an adopted BMAP.[21]

NPDES permits issued between the time a TMDL is established and a BMAP is adopted contain a compliance schedule allowing time for the BMAP to be developed. Once the BMAP is developed, a permit will be reopened and individual allocations consistent with the BMAP will be established in the permit. The timeframe for this to occur cannot exceed five years. NPDES permittees may request an individual allocation during the interim, and the DEP may include an individual allocation in the permit.[22]

For an individual point source, reducing pollutant loads established under the TMDL and water quality based effluent limitation regulatory programs can be difficult to accomplish. It may require investment in expensive technology or other costly measures to reduce pollutant loads.[23]

Agricultural Operations

Only lands that are used primarily for bona fide agricultural purposes are classified as agricultural in Florida.[24] The term "bona fide agricultural purposes" means good faith commercial agricultural use of the land. Certain factors may be taken into account in determining whether an agricultural operation is bona fide:

- The length of time the land has been used for agriculture;
- Whether the use has been continuous;
- The purchase price paid;
- Size, as it relates to specific agricultural use, but a minimum acreage may not be required for agricultural assessment;
- Whether an indicated effort has been made to care sufficiently and adequately for the land in accordance with accepted commercial agricultural practices, including fertilizing, liming, tilling, mowing, reforesting, and other accepted agricultural practices;
- Whether the land is under lease and, if so, the effective length, terms, and conditions of the lease; and
- Other factors as may be applicable.[25]

Best Management Practices on Agricultural Lands

Agricultural BMPs are guidelines advising producers how to manage the water, nutrients, and pesticides they use to minimize agricultural impacts on Florida's natural resources. Agricultural activity is dependent on the application of fertilizer and pesticides and is linked to the contamination of watersheds with nutrients such as nitrogen and phosphorus. BMPs tend to cover four major areas, which overlap: nutrient management, or how producers use fertilizers;

[21] Florida Senate Committee on Environmental Preservation and Conservation, *CS/SB 754 Analysis* (Mar. 14, 2013), *available at* http://flsenate.gov/Session/Bill/2013/0754/Analyses/2013s0754.pre.ep.PDF (last visited Mar. 27, 2014).

[25] *Id*.

pest management, or how they use pesticides; water management, or how they use and discard water; and sediment management, or how they affect the sediments on and around their properties.[26]

BMPs reduce the amount of nutrients, sediments, and pesticides that enter the water system, and help reduce water use. Because much of the state is built on limestone, which allows water to return relatively unfiltered to the aquifer, pollutants can enter the water supply quickly, endangering humans and ecosystems.[27]

The Office of Agricultural Water Policy, a division of the Department of Agriculture and Consumer Services (DACS), is actively involved in developing BMPs. DACS works cooperatively with agricultural producers, industry groups, the DEP, the university system, the water management districts (WMDs), and other interested parties to develop and implement BMP programs that are economically and technically feasible.[28]

Onsite Sewage Treatment and Disposal Systems

In Florida, septic systems are referred to as onsite sewage treatment and disposal systems or septic systems (OSTDS). An OSTDS can contain any one of the following components: a septic tank; a subsurface drainfield; an aerobic treatment unit (ATU); a graywater tank; a laundry wastewater tank; a grease interceptor; a pump tank; a waterless, incinerating or organic waste-composting toilet; and a sanitary pit privy.[29] Septic systems are located underground and treat sewage without the presence of oxygen. Sewage flows from a home or business through a pipe into the first chamber, where solids settle out. The liquid then flows into the second chamber where anaerobic bacteria in the sewage break down the organic matter, allowing cleaner water to flow out of the second chamber into a drainfield.[30] Engineers licensed in Florida may specially design OSTDSs to meet the needs of individual property owners. Engineer-designed OSTDS plans are subject to review by the local county health department and must be certified by the engineer as complying with all requirements pertaining to such system.[31]

Onsite Sewage Programs, part of the Department of Health (DOH), develops statewide rules and provides training and standardization for county health department employees responsible for issuing permits for the installation and repair of OSTDSs within the state.[32] The Bureau also

[31] *See* Rules 64E-6.003 and 6.004, F.A.C.
[32] The DOH does not permit the use of onsite sewage treatment and disposal systems where the estimated domestic sewage flow from the establishment is over 10,000 gallons per day (gpd) or the commercial sewage flow is over 5,000 gpd; where there is a likelihood that the system will receive toxic, hazardous or industrial wastes; where a sewer system is available; or of any system or flow from the establishment is currently regulated by the DEP. The DEP issues the permits for systems that discharge more than 10,000 gpd.

licenses over 700 septic tank contractors and oversees 2.6 million onsite wastewater systems in Florida. [33]

The EPA concluded in its 1997 Report to Congress that "adequately managed decentralized wastewater systems are a cost-effective and long-term option for meeting public health and water quality goals, particularly in less densely populated areas." In Florida, development is dependent on OSTDSs due to the cost and time it takes to install central sewer. In rural areas and low-density developments, central sewer is not cost effective. Less than one percent of Florida systems are actively managed. The remainder generally only receive maintenance when they fail, often leading to costly repairs that could have been avoided with routine tank pump outs and service.[34]

Land Spreading of Septage

Septage is defined as a mixture of sludge, fatty materials, human feces, and wastewater removed during the pumping of an OSTDS.[35] Approximately 100,000 septic tanks are pumped each year, generating 100 million gallons of septage requiring treatment and disposal.[36] The septage is treated and disposed of at a number of septage treatment facilities regulated by the DOH. When used for land application, the septage is stabilized by raising the pH to 12 for at least two hours or to a pH of 12.5 for 30 minutes.[37]The treated septage is then spread over the land at DOH-regulated land application sites.[38] In addition to septage, onsite systems serving restaurants include tanks that separate grease from the sewage stream. The grease is collected, hauled, treated, and land applied similarly to septage. There are currently 92 DOH-regulated land application sites that receive treated septage from 108 DOH-regulated septage treatment facilities. Approximately 40 percent of septage removed from septic tanks is treated at septage treatment facilities and then land applied.[39]

In 2010, the Legislature enacted a law prohibiting the land application of septage from septic tanks effective January 1, 2016.[40] In addition, the bill required the DOH, in consultation with the DEP, to provide a report to the Governor and the Legislature recommending alternative methods to establish enhanced treatment levels for the land application of septage by February 1, 2011. The report provided several alternatives to the land application of septage as it is currently performed.[41]

Treatment of septage at domestic wastewater treatment facilities

Treating septage takes advantage of available wastewater treatment facilities' capacity while at the same time centralizing waste treatment operations. However, not all wastewater treatment facilities accept septage because it is a high strength waste, which has the potential to upset facilities' processes and may result in increased operation and maintenance requirements and costs. Furthermore, the distance between central facilities with available treatment capacity and the locations where septage is collected in rural areas can make transport to such facilities cost prohibitive.[42]

Disposal of septage at landfills

Acceptance of septage at Class I landfills has positive impacts to the landfills because it increases microbial activity that results in increased waste decomposition and more rapid waste stabilization. However, landfill instability may result due to disposal of the wet waste stream. Increased difficulty in operating compaction equipment may result due to creation of a slick working surface. Many landfills choose not to accept loads of septage, making land application sites one of the only available options for the disposal of septage.[43]

Advanced Treatment

While most of Florida's OSTDSs are conventional OSTDSs, or passive septic systems, there are other advanced systems capable of providing additional or advanced treatment of wastewater prior to disposal in the drainfield. Advanced OSTDSs can utilize various approaches to improve treatment before discharge to a drainfield, or the drainfield itself can be modified. On occasion, engineers have included the drainfield as part of the treatment process, usually as a means to achieve fecal coliform reduction.[44]

Advanced systems differ in three respects from conventional treatment systems that consist of a septic tank with drainfield. First, the design of advanced systems is more variable than the approach for conventional systems. Second, they need more frequent checkups and maintenance, which is the reason they require operating permits. Third, the performance expectations are more specific, while failures for advanced systems are less defined.[45] Advanced systems are significantly more expensive to purchase, install, and operate.

Aerobic Treatment Units (ATUs) offer advanced treatment for wastewater. ATUs force compressed air through the liquid effluent in the tank to create a highly oxygenated (aerobic) environment for bacteria. Bacteria that thrive in oxygen-rich environments work to break down and digest the wastewater inside the aerobic treatment unit. Aerobic units come in a variety of sizes and shapes and can be made of concrete, fiberglass, or polyurethane. They are designed to collect and treat all the water from a home, including water from toilets, showers, bathtubs,

sinks, and laundry. There are as many as three stages that ATUs take wastewater through before the effluent is dispersed into the drainfield.[46]

Water Pollution Management

Urban Stormwater Management

Unmanaged urban stormwater creates a wide variety of effects on Florida's surface waters and groundwaters. Factors that exacerbate unmanaged runoff include:

- Compaction of soil;
- Addition of impervious surfaces such as roads and parking lots;
- Alteration of natural landscape features such as natural depression areas that hold water, floodplains, and wetlands;
- Construction of highly efficient drainage systems that alter the ability of the land to assimilate precipitation; and
- Pollutant loading of receiving water bodies from stormwater discharge.[47]

Urbanization within a watershed decreases the amount of rainwater that seeps into the soil. Rainwater is critical for recharging aquifers, maintaining water levels in lakes and wetlands, and maintaining spring and stream flows. The increased volume, speed, and pollutant loading in stormwater discharged from developed areas leads to flooding, water quality problems, and loss of habitat.[48]

In 1982, to manage urban stormwater and minimize impacts to natural systems, Florida adopted a technology-based rule requiring the treatment of stormwater to a specified level of pollutant load reduction for new development. The rule included a performance standard for the minimum level of treatment and design criteria for BMPs to achieve the performance standard. It also included a rebuttable presumption that discharges from a stormwater management system designed in accordance with the BMP design criteria would meet WQSs.[49] The performance standard was to reduce post-development stormwater pollutant loading of total suspended solids[50] by 80 percent, or by 95 percent for Outstanding Florida Waters.[51]

In 1990, the DEP developed and implemented the State Water Resource Implementation Rule (originally known as the State Water Policy rule).[52] This rule sets forth the broad guidelines for the implementation of Florida's stormwater program and describes the roles of the DEP, the WMDs, and local governments. One of the primary goals of the program is to maintain the

[49] *Id*.
[50] Total Suspended Solids is listed as a conventional pollutant under s. 304(a)(4) of the CWA. A conventional pollutant is a water pollutant that is amenable to treatment by a municipal sewage treatment plant.
[51] Rule 62-302.700, F.A.C., provides that an Outstanding Florida Water is a designated water body worthy of special protection because of its natural attributes. This special designation is applied to certain water bodies, and is intended to protect and preserve their existing states.
[52] *Supra* note 47. See also Rule. 62-40, F.A.C.

predevelopment stormwater characteristics of a site. The rule sets a minimum performance standard for stormwater treatment systems to remove 80 percent of the post-development stormwater pollutants "that cause or contribute to violations of WQSs."[53]

The DEP and the WMDs jointly administer the Environmental Resource Permitting (ERP) program for activities that alter surface water flows.[54] Alteration or construction of new stormwater management systems in urban redevelopment areas is regulated by the ERP program pursuant to s. 373.413, F.S., and must comply with all other relevant sections of ch. 373, Part IV, F.S.

Wastewater Treatment Plants

Wastewater treatment is one of the most common forms of pollution control in the United States. Sewerage system components include collection sewers, pumping stations, and treatment plants. Sewage is collected and sent to a treatment plant to remove solids and biological contaminants. Once sewage has been treated, it is typically discharged into streams and other receiving waters, or reused.[55]

The basic function of wastewater treatment is to speed up natural processes by which water is purified. Typically, sewage is treated by primary and secondary processes. In the primary stage, solids are allowed to settle and are removed from the wastewater. The secondary stage uses biological processes to further purify wastewater.[56]

Limits in Florida for effluent to surface water from wastewater treatment plants are required to contain no more than 20 mg/L carbonaceous biochemical oxygen demand (CBOD5)[57] and 20 mg/L total suspended solids (TSS),[58] or 90 percent removal of each from the wastewater influent, whichever is more stringent.[59] There are other limits depending on where the effluent is being discharged.

Advanced Wastewater Treatment

Advanced wastewater treatment (AWT) systems perform additional treatment beyond secondary treatment. AWT systems can remove more than 99 percent of all impurities from sewage, producing an effluent that may be drinking-water quality. The related technology can be expensive, requiring a high level of technical expertise and well trained treatment plant operators, a steady energy supply, chemicals, and specific equipment that may not be readily available. An example of an AWT process is the modification of a conventional secondary treatment plant to remove additional phosphorus and nitrogen. The effluent standards for AWT on an annual average basis are:

- CBOD5 – 5 mg/L;
- Suspended solids – 5 mg/L;
- Total Nitrogen – 3 mg/L;
- Total Phosphorus – 1 mg/L; and
- High levels of disinfection.[60]

Residuals

Biosolids are the solid, semisolid, or liquid residue generated during the biological wastewater treatment process. Florida generates approximately 320,000 dry tons of biosolids annually. Biosolids are normally high in organic content and contain moderate amounts of nutrients such as nitrogen and phosphorus, making them valuable as a fertilizer or soil amendment.[61] They may be used beneficially or disposed of in landfills.[62]

Biosolids are classified as AA, A, or B. Class AA biosolids are considered the highest quality biosolids. They must be treated to a level that essentially eliminates pathogens and meets strict concentration limits for heavy metals. They may be used as fertilizer through commercial distribution and marketing.[63] Class A biosolids are biosolids that meet the same pathogen reduction requirements as Class AA biosolids, meet the same vector attraction (meaning the attraction of disease spreading animals) requirements as Class B biosolids, and meet a series of concentration limits for nine different elements.[64] Class B biosolids must be treated to significantly reduce pathogens and must meet certain concentration limits for heavy metals. Application rates are limited to crop nutrient needs. They are subject to site application restrictions and restrictions on harvesting, grazing, and public access. Also, cumulative heavy metals must be tracked for Class A and B biosolids; however, in Florida, land applied biosolids are almost exclusively Class B. In 2012, approximately 108,272 dry tons of Class B biosolids were land applied.[65]

Total Maximum Daily Load (TMDL) Restoration Grants Program

The TMDL Water Quality Restoration Grants program was developed to provide grants to fund the implementation of BMPs to reduce pollutant loads to impaired waters from urban stormwater discharges.[66] The DEP funds research into BMPs to reduce pollutant loads from urban nonpoint sources of pollution.

The eligibility criteria for TMDL Water Quality Restoration Grants are:

- Projects that reduce stormwater pollutant loadings from urban areas that discharge to water bodies on the state's verified list of impaired waters;
- The project is at least at the 60 percent design phase;

[64] Rule 62-640.200(9), F.A.C.
[65] *Supra* note 61.
[66] Rule 62-305.100(1), F.A.C.

- The project is permitted or the permit has been scheduled for approval at the next meeting of the WMD governing board or the DEP;
- The project includes storm event monitoring to determine the actual load reduction;
- The construction will be completed within three years of appropriation of the funds by the Legislature in order to ensure funds remain available;
- The applicant provides a minimum of 50 percent of the total project cost in matching funds, of which at least 25 percent are provided by the local government; and
- The grant funds are used for construction of BMPs, monitoring to determine pollutant load reductions, or public education activities specifically associated with the project and may only occur after the date of contract. Funds spent in advance of contract may be used for match, such as design, land acquisition, and other costs incurred by the applicant.[67]

The submitted projects are then evaluated and ranked. The criteria include:

- Impairment status of the receiving waterbody;
- Estimated load reduction of the pollutants of concern;
- Percentage of local matching funds;
- Cost effectiveness based on the cost per pound of Total Nitrogen and/or Total Phosphorus removed per acre treated;
- Inclusion of a robust educational component; and
- Whether the local government sponsor has implemented a dedicated funding source for stormwater management, such as a stormwater utility fee.[68]

Grant applications may be submitted throughout the year. The DEP reviews and ranks projects in March, July, and November.[69] Projects selected for grant funding are based on ranking and availability of funds. Projects that are not selected for funding remain in the pool of projects for one year from the date of submittal.[70]

Minimum Flows and Levels (MFLs)

MFLs are established for water bodies in order to prevent significant harm as a result of withdrawals. MFLs are typically determined based on evaluations of topography, soils, and vegetation data collected within plant communities and other pertinent information associated with the water resource. MFLs take into account the ability of wetlands and aquatic communities to adjust to changes in hydrologic conditions and allow for an acceptable level of hydrologic change to occur. When uses of water resources shifts the hydrologic conditions below levels defined by MFLs, significant ecological harm can occur.[71] The goal of establishing an MFL is to ensure there is enough water to satisfy the consumptive use of the water resource without causing significant harm to the resource.[72] Consumptive uses of water draw down water levels

and reduce pressure in the aquifer.[73] By establishing MFLs for non-consumptive uses, the WMDs are able to determine how much water is available for consumptive use. This is useful when evaluating a new consumptive use permit (CUP) application.[74]

Section 373.042, F.S., requires the DEP or WMDs to establish MFLs for priority water bodies to prevent significant harm from water withdrawals. While the DEP has the authority to adopt MFLs under ch. 373, F.S., the WMDs have the primary responsibility for MFL adoption. The WMDs submit annual MFL priority lists and schedules to the DEP for review and approval. MFLs are considered rules by the WMDs and are subject to ch. 120, F.S., challenges. MFLs are established using the best available data and are subject to independent scientific peer review at the election of the WMD, or, if requested, by a third party.[75]

MFLs apply to decisions affecting permit applications, declarations of water shortages and assessments of water supply sources. Computer water budget models for surface waters and groundwater are used to evaluate the effects of existing and/or proposed consumptive uses and the likelihood they might cause significant harm. The WMD Governing Boards are required to develop recovery or prevention strategies in those cases where a water body or watercourse currently does not or is anticipated to not meet an established MFL. Water uses cannot be permitted that cause any MFL to be violated.[76]

Recovery or Prevention Strategies

At the time of the initial adoption or revision of a water body's MFL, if the water body is below or is projected within 20 years to fall below the MFL, the WMD must simultaneously approve a recovery or prevention strategy or modify an existing recovery or prevention strategy. The WMD may adopt the revised MFL prior to the approval of the recovery or prevention strategy if the revised MFL is less constraining on existing or projected future consumptive uses.[77]

For water bodies without a recovery or prevention strategy, when the WMD determines the water body has fallen below, or is projected within 20 years to fall below the adopted MFL, the WMD shall expeditiously approve a recovery or prevention strategy.[78]

An MFL recovery or prevention strategy must include a phasing or timetable that allows for the provision of sufficient water supplies for all existing and projected reasonable-beneficial uses, including the development of additional water supplies and implementation of conservation and other efficiency measures concurrent with, to the extent practical, and to offset, reductions in permitted withdrawals. In the development of a recovery or prevention strategy, the WMD will consider the need for water resource or water supply development, additional regulatory measures, and implementation of additional water conservations measures.[79]

[79] Rule 62-40.473(6), F.A.C.

Consumptive Use Permits (CUPs)

A CUP establishes the duration and type of water use as well as the maximum amount of water that may be withdrawn daily. Pursuant to s. 373.219, F.S., each CUP must be consistent with the objectives of the issuing WMD or the DEP and may not be harmful to the water resources of the area. To obtain a CUP, an applicant must establish that the proposed use of water satisfies the statutory test, commonly referred to as "the three-prong test." Specifically, the proposed water use must:

- Be a "reasonable-beneficial use" as defined in s. 373.019(16), F.S.;
- Not interfere with any presently existing legal use of water; and
- Be consistent with the public interest.

Rural Areas of Critical Economic Concern

Rural areas of critical economic concern are rural communities, or regions composed of rural communities, designated by the Governor, that have been adversely affected by an extraordinary economic event, severe or chronic distress, or a natural disaster, or that presents a unique economic development opportunity of regional impact.[80] The Governor may waive criteria of any economic development incentive for such areas.[81]

Rural communities are:

- Counties with a population of 75,000 or fewer;
- Counties with a population of 125,000 or fewer that are contiguous to a county with a population of 75,000 or fewer;
- Designated municipalities within a county that meets the thresholds of the two previous criteria; and
- An unincorporated federal enterprise community or an incorporated rural city with a population of 25,000 or less and an employment base focused on traditional agricultural or resource-based industries, located in a county not defined as rural, which has at least three or more of the economic distress factors identified below.[82]

Economic distress factors are:

- Low per capita income;
- Low per capita taxable values;
- High unemployment;
- High underemployment;
- Low weekly earned wages compared to the state average;
- Low housing values compared to the state average;
- High percentages of the population receiving public assistance;
- High poverty levels compared to the state average; and

[80] Section 288.0656(2)(d), F.S.
[81] Florida Department of Economic Opportunity, Rural Areas of Critical Economic Concern, http://www.floridajobs.org/business-growth-and-partnerships/rural-and-economic-development-initiative/rural-areas-of-critical-economic-concern (last visited Apr. 23, 2014).
[82] Section 288.0656(2)(e), F.S.

- A lack of year-round stable employment opportunities.[83]

The Governor may waive the criteria of any economic development incentive for such areas. The three areas in Florida designated as rural areas of critical economic concern are the Northwest, South Central, and the North Central.[84]

Northwest Rural Area of Critical Economic Concern is made up of Calhoun, Franklin, Gadsden, Gulf, Holmes, Jackson, Liberty, Wakulla, and Washington Counties, and the City of Freeport in Walton County. [85]

The South Central Rural Areas of Critical Economic Concern is made up of Desoto, Glades, Hendry, Highlands, and Okeechobee Counties. It also includes the cities of Pahokee, Belle Glade, South Bay, and Immokalee.[86]

The North Central Rural Area of Critical Economic Concern is made up of Baker, Bradford, Columbia, Dixie, Gilchrist, Hamilton, Jefferson, Lafayette, Levy, Madison, Putnam, Suwannee, Taylor, and Union Counties.[87]

III. Effect of Proposed Changes:

Sections 1 and 2 amend ss. 373.042 and 373.0421, F.S., respectively, requiring the standard of "harm" to be applied when determining the minimum flow level (MFL) of an Outstanding Florida Springs (OFS). They also make conforming changes.

Section 3 creates Part VIII of ch. 373, F.S., consisting of ss. 373.801, 373.802, 373.803, 373.805, 373.807, 373.809, 373.811, and 373.813, F.S., and provides the title, "Florida Springs and Aquifer Protection Act." The requirements of this act are discussed in Sections 6-12 of this section of the analysis.

Section 4 creates s. 373.801, F.S., providing legislative findings and intent:

- Detailing the importance of Florida's springs, and various benefits they provide to the state including providing critical habitat for plants and animals. They provide immeasurable natural, recreational, economic, and inherent value. They are indicators of the health of the Floridan aquifer. They also provide recreational opportunities for Floridians and visitors to the state;
- Stating that water quantity and water quality in springs are related. It also specifies the primary responsibilities of the Department of Environmental Protection (DEP), water management districts (WMDs), Department of Agriculture and Consumer Services (DACS), and local governments;
- Recognizing that springs are only as healthy as their springsheds and identifies several of the problems affecting springs, including pollution runoff from urban and agricultural lands,

[83] Section 288.0656(2)(c), F.S.
[84] *Supra* note 81.
[85] *Supra* note 81.
[86] *Supra* note 81.
[87] *Supra* note 81.

stormwater runoff, and reduced water levels of the Floridan Aquifer, which may have led to the degradation of many of Florida's springs;
- Recognizing that without significant action, the quality of Florida's springs will continue to degrade;
- Stating that springshed boundaries need to be delineated using the best available data;
- Recognizing that springsheds often cross WMDs and local government jurisdictional boundaries, which requires a coordinated response;
- Recognizing that aquifers and springs are complex systems affected by many variables and influences; and
- Recognizing that sufficient information exists to act, action is urgently needed, and action can be continually modified as additional data is acquired.

Section 5 creates s. 373.802, F.S., providing definitions for "department," "local government," "onsite sewage and treatment disposal system," "spring run," "springshed," and "spring vent."

The bill also defines:
- "Outstanding Florida Spring," meaning all historic first magnitude springs, as determined by the department using the most recent version of the Florida Geological Survey's springs bulletin. The following springs are also considered (OFSs): Deleon Spring, Peacock Spring, Poe Spring Rock Springs, Wekiwa Spring, and Gemini Spring; and
- Spring protection and management zone (SPMZ)," meaning the areas of a springshed where the Floridan Aquifer is vulnerable to sources of contamination or reduced levels, as determined by the DEP in consultation with the appropriate WMD.

Section 6 creates s. 373.803, F.S., directing the DEP, in consultation with the WMDs, to delineate SPMZs for each OFS, using the best available data. The bill requires the delineation of the zones to be completed by July 1, 2015. It directs the DEP to consider groundwater travel time, hydrogeology, and nutrient load when delineating spring protection zones. Additionally, the bill directs each WMD to adopt, by rule, maps that delineate SPMZs for each OFS within its jurisdiction by July 1, 2016.

Section 7 creates s. 373.805, F.S., directing each WMD to establish an minimum flow level (MFL) for each OFS located within its jurisdiction by July 1, 2015. The bill provides for yearly extensions until July 1, 2022, if the WMD provides sufficient evidence to the DEP that an extension is in the best interest of the public. It directs the DEP to establish MFLs for OFSs that are affected or have been affected by withdrawals in areas that cross WMD boundaries by July 1, 2017.

The bill requires the simultaneous adoption of a recovery or prevention strategy when an MFL is adopted for an OFS and when the spring is below, or is projected within 20 years to be below the MFL. MFLs adopted before July 1, 2014, must be revised by July 1, 2017, and a recovery or prevention strategy must be adopted or revised if the OFS is below, or is projected within 20 years to be below the MFL. Finally, it requires the adoption of a recovery or prevention strategy by the DEP or WMD when there is no recovery or prevention strategy and the OFS is below, or is projected to be below the adopted MFL.

The bill provides minimum requirements for a recovery or prevention strategy for an OFS. The strategy, at a minimum, must include:

- A listing of all specific projects identified for implementation to achieve the recovery or prevention strategy;
- A priority listing of each project;
- The estimated cost for each listed project;
- The source and amount of financial assistance from the WMD for each project, which may not be less than 25 percent of the total cost of the project, unless another funding source or sources are identified which will provide more than 75 percent of the total project cost. The bill exempts the Northwest Florida and Suwannee River WMDs from the requirement to provide 25 percent of the total project cost;
- An estimate of each project's anticipated benefit;
- A map and legal descriptions of the SPMZ; and
- An implementation plan detailing how MFLs will be restored within 15 years of the adoption of a recovery or prevention strategy with interim milestones at five and 10 years.
- Local governments may apply for an extension of up to five years from the DEP, or 10 years for local governments in rural areas of critical economic concern, for any project in an adopted recovery or prevention strategy if the local government provides sufficient evidence to the DEP that an extension is in the best interest of the public.

Section 8 creates s. 373.807, F.S., providing a deadline of July 1, 2014, for the DEP to initiate assessment of any OFS for which a determination of impairment has not been made and complete the assessment of them under the numeric nutrient standards for spring vents by July 1, 2017. The bill requires that:

- When a total maximum daily load (TMDL) is adopted, the DEP, or the DEP in coordination with a WMD, will simultaneously initiate development of a BMAP;
- For OFSs that have an adopted nutrient TMDL by July 1, 2014, the DEP, or the DEP in coordination with a WMD, will initiate development of a BMAP by July 1, 2014; and
- As the BMAP is developed, if OSTDSs are identified as a source of pollution that needs to be addressed, the local government must develop an OSTDS remediation plan.

BMAPs must be completed within three years of their initiation and must include:

- A list of all projects for implementing a TMDL;
- A list of all projects in an OSTDS remediation plan, if applicable;
- A priority ranking of all projects;
- The estimated cost of each project;
- The estimated date of completion of each project;
- The source and amount of any financial assistance from the DEP, WMD, or other entity;
- The estimate of each project's nutrient load reduction;
- A map and legal descriptions of the SPMZ;
- The identification of each point source of category of nonpoint sources; and
- An implementation plan detailing how the TMDL will be achieved within 15 years of the adoption of a BMAP along with interim milestones at five and 10 years.

The bill requires BMAPs adopted by July 1, 2014, that affect an OFS to be revised by the DEP, or the DEP in conjunction with a WMD, by July 1, 2017. Any completed OSTDS remediation

plans will be considered incorporated in an existing BMAP until the BMAP is revised. Additionally, a local government may apply for an extension of up to five years, or 10 years in the case of a local government within a rural area of critical economic concern, for any project in an adopted BMAP upon showing that an extension is in the best interest of the public.

Within six months of delineating an SPMZ of an OFS located fully or partially within a local government's jurisdictional boundaries, the local government must adopt an ordinance that meets or exceeds the requirements of the Model Ordinance for Florida-Friendly Fertilizer Use on Urban Landscapes. The ordinance must require that, within an SPMZ of an OFS with an adopted nutrient TMDL, the nitrogen application rate of fertilizer may not exceed the lowest, basic maintenance rate of the most recent recommendations by the University of Florida's Institute of Food and Agricultural Sciences (IFAS). The DEP must adopt rules to implement this provision that establish reasonable minimum standards and reflect advancements of improvements regarding nutrient load reduction.

By July 1, 2016, the DEP, in conjunction with the Department of Health and local governments, must identify OSTDSs within each SPMZ and provide that information to the local governments where they are located within 60 days. If the DEP determines that OSTDSs are a source of pollution that needs to be addressed during the basin management action plan (BMAP) development process, it will notify the local government that it needs to develop an OSTDS remediation plan within one year of notification by the DEP. For each system or group of systems, the plan must include whether the systems require upgrading, connection to a central sewerage system, or no action. The plan must also include a priority ranking of each system or group of systems that require remediation and each plan must be submitted to the DEP for approval. In reviewing and approving remediation plans, the DEP must consider, at a minimum:

- The density of onsite sewage treatment and disposal systems (OSTDSs);
- The number of OSTDSs;
- The proximity of the OSTDSs to an OFS;
- The estimated nutrient loading of the OSTDSs; and
- The cost of the proposed action.

In developing the OSTDS remediation plan, the local government must hold at least one public meeting in order to receive public comment on the plan.

Regarding implementation of the OSTDS remediation plan, a property owner with an OSTDS identified by the plan is not required to pay any of the costs of an inspection or upgrade of the system, or connection fees for connection to a sanitary sewer system. This does not apply to local government programs in existence before July 1, 2014, that do not comply with these cost provisions.

Section 9 creates s. 373.808 F.S., providing for funding for the restoration of OFSs.

It directs the DEP to adopt rules to fund pilot projects each project selection cycle that test the effectiveness of technologies or practices designed to minimize nutrient pollution or conserve water in Florida springs by December 31, 2014. Funding for pilot projects may only be provided if the DEP determines that the pilot project will not be harmful to the ecological resources in the study area. It also directs the DEP to develop rules by December 31, 2014, to evaluate, select,

and rank projects or land acquisitions eligible for funding . The rules must give preference to projects that will result in the greatest improvement to water quality and water quantity for the funds expended. The bill specifies that the DEP must consider, at a minimum:

- The level of nutrient impairment of the OFS in which the project is located;
- The quantity of pollutants the project is estimated to remove from an SPMZ;
- The flow necessary for the OFS to meet its adopted MFL;
- The anticipated impact the project will have on restoring or increasing water flow or water level;
- The amount of matching funds for the project that will be provided by the entities responsible for implementing the project;
- Whether the project is located in a rural area of critical economic concern, with preference given to the local government responsible for implementing the project;
- For multi-year projects, whether the project has funding sources that are identified and assured through the expected completion date of the project;
- The cost of the project and the length of time it will take to complete relative to its expected benefits; and
- Whether the applicant has used its own funds for projects to improve water quality or conserve water use within a springshed or SPMZ of an OFS since July 1, 2009.

Section 10 creates s. 373.811, F.S., detailing prohibited activities within an SPMZ of an OFS. Prohibited activities are:

- Construction of municipal or industrial wastewater disposal system with permitted capacities of 100,000 gallons per day or greater unless the system meets a treatment standard of 3 mg/L Total Nitrogen on an annual permitted basis, unless the DEP determines a higher standard is necessary;
- Construction of OSTDSs on lots less than one acre, except for passive nitrogen removing systems approved by the DOH. This prohibition will not take effect until six months after the DOH has approved such a system for use;
- Construction of facilities for disposal of hazardous waste;
- Land application of class A or B domestic wastewater biosolids or septage; and
- New agriculture operations that do not implement BMPs, measures necessary to achieve pollution reduction levels established by the DEP, or a groundwater monitoring plan approved by a WMD or the DEP.

Section 11 creates s. 373.813, F.S., directing the DEP to adopt rules to create a program to improve water quantity and water quality based on the TMDL Water Quality Restoration Grants rule. It allows the DOH, DACS, and the WMDs to adopt rules to administer Part VIII of ch. 373, F.S.

The bill specifies DACS is the lead agency for coordinating the reduction of agricultural nonpoint sources of pollution for the protection of OFSs. DACS and the DEP will study and, if necessary, initiate rulemaking to implement new or revised BMPs, in cooperation with applicable local governments, and stakeholders. The purpose of the rules is to implement new or revised BMPs for improving and protecting OFSs and to require the implementation of such practices within a reasonable time.

The bill directs the DEP, DACS, and Institute of Food and Agriculture Sciences (IFAS) to conduct research into improved or additional nutrient management tools, with a sensitivity to the necessary balance between water quality improvements and agricultural productivity. If necessary, the tools must be incorporated into revised BMPs adopted by rule by DACS.

Section 12 creates s. 373.815, F.S., requiring a progress report by the DEP, in conjunction with the WMDs, by July 1, 2015, and annually thereafter, be submitted to the Governor, the Senate President, and the Speaker of the House of Representatives. The report must detail the status of each TMDL, BMAP, MFL, and recovery or prevention strategies adopted pursuant to Part VIII of ch. 373, F.S. It must also include the status of each project identified to achieve a TMDL and MFL, as applicable.

If the report states that any interim five or 10 year milestone, or the 15 year deadline, will not be met, the report must include specific corrective actions that will be taken to achieve these milestones and deadlines, and, if necessary, executive and legislative recommendations.

Section 13 creates an unnumbered section of Florida law that provides for funding for the Florida Springs and Aquifer Protection Act for the 2014-2015 fiscal year. It states that funding for future years will be at the discretion of the Legislature and provided in the General Appropriations Act.

Section 14 provides an effective date of July 1, 2014.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Existing regulatory programs require local governments to expend funds to comply with minimum flows and levels (MFLs), water quality standards (WQSs), and basin management action plans (BMAPs). This bill requires additional expenditures for onsite sewage and disposal systems (OSTDS) remediation plans and implementation of those plans. A comprehensive fiscal analysis of the bill is required to determine the total impact and whether this bill is a mandate.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The exact impact of CS/CS/CS/SB 1576 on the private sector and individuals cannot be calculated because many of the costs are dependent on activities, such as delineation of spring protection and management zone (SPMZs) that have not occurred. Listed below are examples of potential private sector impacts.

- Provisions that will require some property owners in spring protection zones to upgrade their onsite sewage treatment and disposal systems (OSTDSs) or connect to a central sewerage system. This could result in higher rates for sewage disposal compared to the costs of using an OSTDS. Aerobic treatment units (ATUs) are also more costly to operate than conventional OSTDSs.
- Rate payers may pay for ongoing operation and maintenance for advanced wastewater treatment (AWT) plants, through rate increases, in addition to costs associated with disposal of Class A and B biosolids in landfills.
- Property owners may have to pay for more expensive passive OSTDSs to install in new developments with lots of less than one acre. They may also face more expensive pump out costs as a result of more expensive disposal options.
- Urban fertilizer use may decrease because of ordinances causing a reduction in revenue for fertilizer companies.
- Septic tank contractors may benefit due to increased scrutiny and required upgrades to OSTDSs.

C. Government Sector Impact:

The Department of Agriculture and Consumer Services (DACS) has indicated that while the bill does not significantly change the role of DACS in water resources protection through best management practices development and implementation, it does direct the department to participate in new studies and rule development efforts. The cost for staff time and travel to implement these duties is unknown. Also, DACS would need funding to contract with a third party entity, estimated at $50,000, to complete the required report related to public health, engineering, public perception, fiscal, and rate structure issues.

Due to the increased workload related to this bill, the Department of Environmental Protection (DEP) would need additional positions and funding. While the exact need is indeterminate at this time, the DEP estimates up to 35 additional positions based on its existing water program. However, because the grant program anticipated by this bill will be based on the DEP's existing program, the exact number of additional positions and costs are indeterminate.

The bill would require the water management districts (WMDs) and the DEP to establish Minimum Flows and Levels (MFLs) which is expected to cost between $280,000 and $2.25 million per MFL, including agency costs for extensive data collection, analysis and modeling, stakeholder coordination, and rulemaking. Costs can vary widely depending on the complexity of the system and the amount and type of scientific and technical data that exists or must be collected. Future reevaluation of the 17 MFLs already established or in

rulemaking due to the change of the standard from "significant harm" to "harm" would add additional costs that are indeterminate.

The bill requires the DEP to develop Basin Management Action Plans (BMAPs). The DEP estimates the need for one additional position for each spring and that six springs would need BMAPs. The estimated total cost for each BMAP is $250,000 to $340,000 per year which includes one position's salary and benefits costs along with contracted service costs. It is difficult to estimate the level of work needed for each spring; however, the total estimates range from $1.5 million to $2 million.

The WMDs (excluding Northwest Florida and Suwannee River WMDs) would be required to fund at least 25 percent of recovery or prevention strategies projects. However, the WMDs may provide less than a 25 percent match if another specific source(s) of funding will provide more than 75 percent of the project cost. Since the number of project applicants and project costs is unknown, the fiscal impact is indeterminate at this time.

The bill requires the DEP to assess outstanding Florida springs for determination of impairment by July 1, 2017. This deadline would be difficult to achieve due to the time needed to gather sufficient data. Until an assessment of data gaps can be completed, the cost of securing the additional data is unknown.

Funding to support the bill is to be provided in the Fiscal Year 2014-2015 General Appropriations Act, or similar legislation. For subsequent fiscal years, funding will be determined annually by the Legislature and provided in the General Appropriations Act.

VI. Technical Deficiencies:

None.

VII. Related Issues:

The bill defines outstanding Florida springs as all first magnitude springs in Florida, as defined in the most recent version of the Florida Geological Survey's springs bulletin. A future bulletin could remove one of the first magnitude springs from its list, creating problems for ongoing projects by removing the regulatory structure established in this bill.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 373.042 and 373.0421.

This bill creates the following sections of the Florida Statutes: 373.801, 373.802, 373.803, 373.805, 373.807, 373.809, 373.811, 373.813, and 373.815.

This bill creates an undesignated section of Florida law.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS/CS by Appropriations on April 22, 2014:

- Removes provisions providing for funding from documentary stamp revenues;
- Funding to support the bill is to be provided in the Fiscal Year 2014-2015 General Appropriations Act, or similar legislation. For subsequent fiscal years, funding will be determined annually by the Legislature and provided in the General Appropriations Act;
- Removes the definition of "Responsible Management Entities" and all references to responsible management entities in the bill;
- Extends the deadline for establishment of minimum flow levels from July 1, 2020, to July 1, 2022;
- Adds provisions requiring the establishment of recovery or prevention strategies under certain circumstances;
- Adds requirements for recovery and prevention strategies;
- Requires the Department of Environmental Protection (DEP) to begin water quality assessments by July 1, 2014, and requires them to be completed by July 1, 2017;
- Requires the development of a basin management action plan (BMAP) simultaneously with the adoption of a total maximum daily loads (TMDLs);
- Requires BMAPs to be adopted within three years of their initiation;
- Requires the revision of BMAPs adopted before July 1, 2014, by July 1, 2017;
- Requires the initiation of the development of a BMAP by July 1, 2014, for OFSs that have a TMDL adopted before July 1, 2014;
- Requires the development of onsite sewage treatment and disposal systems (OSTDS) remediation plans if OSTDSs are identified as a nonpoint source of pollution that needs to be addressed;
- Removes all references to "Spring Action Plans";
- Provides additional requirements for items included in a BMAP;
- Changes requirements for local governments to develop OSTDS remediation plans and requires them only when the DEP determines that OSTDSs are a source of nutrient pollution that needs to be addressed;
- Removes a provision stating that remedial actions are not required until adequate funding is made available;
- Removes a provision requiring existing wastewater treatment facilities in an springs protection and management zone (SPMZ) to meet certain treatment levels;
- Removes a provision requiring agricultural producers in SPMZs to implement BMPs or other measures by July 1, 2019;
- Removes a provision requiring local governments to submit funding requests at least every two years;
- Requires public involvement in the development of OSTDS remediation plans;
- Provides that local governments that do not comply with certain provisions may be ineligible for funding;

- Allows local governments to apply for extensions of up to five years from the DEP for any project in an adopted recovery or prevention strategy or an adopted BMAP. Local governments in Rural Areas of Critical Economic Concern may apply for extensions of up to 10 years.
- Requires the DEP to consider whether projects are located in Rural Areas of Critical Economic Concern when developing rules to evaluate, rank and select projects for funding;
- Changes a requirement for the DEP to approve funding for at least two pilot projects per funding cycle by requiring the DEP to fund "pilot projects" each funding cycle;
- Adds criteria the DEP is required to consider when developing rules to fund projects;
- Prohibits new wastewater disposal systems in SPMZs with capacities of 100,000 gallons per day or more that do not meet an effluent standard of 3 mg/L Total Nitrogen, rather than prohibiting all new wastewater disposal systems that do not meet that standard;
- Changes an effective date for a provision requiring new OSTDSs in SPMZs to have passive nitrogen removing components approved by the Department of Health (DOH) from July 1, 2015, to six months after the DOH approves such a system;
- Changes the prohibition of the application of all biosolids in SPMZs to a prohibition of the application of Class A and B biosolids;
- Removes a provision prohibiting concentrated animal feeding operations and intense cattle finishing and slaughter operations in SPMZs;
- Adds a provision prohibiting new agriculture operations that do not meet certain requirements;
- Removes a section related to variances and exceptions; and
- Adds a requirement for a yearly status report by the DEP on TMDLs, BMAPs, MFLs, and recovery or prevention strategies.

CS/CS by Agriculture on March 31, 2014:

- Adds Poe Spring to the list of Outstanding Florida Springs;
- Clarifies that the aquifer is vulnerable to multiple sources of contamination, not just not just surface sources;
- Amends the definition of "springshed" to delete "historically contributed" and add those areas of the springshed in favor of an analysis that takes into account "relevant facts, circumstances, and data";
- Clarifies timelines for the DEP to develop and adopt spring action plans. In the CS, there was no completion date, as it was intended that these plans were to be open ended. This led to confusion;
- Specifies that the spring action plan must be continually updated;
- Clarifies that the projects may be partially or fully within a spring protection management zone;
- Requires an estimated allocation for each point source or category of nonpoint source pollutant loads instead of a "detailed allocation." A detailed allocation analysis could significantly slow down progress as those determinations would have to be made first;
- Specifies considerations the DEP must account for when reviewing an onsite sewage treatment and disposal system remediation plan, including density of systems, the

total number of systems, the proximity to an OFS, the estimated nutrient load, and an estimated cost of the remedial action;
- Defines "adequate funding" to mean that the DEP provides 100 percent of its portion of the project proposal's costs;
- Specifies that even though certain remedial actions are dependent on adequate funding, the protection for taking action based on funding is supplemental to other specific requirements or authority provided by other controlling laws;
- Specifies that pilot projects can now consider practices in addition to technologies; and
- Extends the ban on new onsite sewage treatment and disposal systems until July 1, 2015.

CS by Environmental Preservation and Conservation on March 20, 2014:
- Removes provisions concerning the Acquisition and Restoration Council;
- Renames the act, calling it the "Florida Springs and Aquifer Protection Act;"
- Removing legislative intent provision stating that a precautionary approach should be taken in addressing spring protection, and that the DEP or the WMDs should take common sense actions to protect springs;
- Adds legislative recognition that aquifers and springs are complex systems affected by many variable and influences;
- Removes the definition of "bedroom";
- Directs the DEP to consider groundwater travel time, hydrogeology, and nutrient load when delineating SPMZs;
- Removes a one-year extension for the DEP to delineate SPMZs by July 1, 2015;
- Provides a yearly extension until July 1, 2020, for each WMD to establish MFLs for all OFSs within its jurisdiction;
- Provides that an MFL adopted for an OFS prior to July 1, 2014, does not have to be changed until it is revised or amended, rather than directing it to be revised by July 1, 2014;
- Provides that land spreading, dumping, or disposal of all domestic wastewater residuals or septage is not allowed in SPMZs;
- Removes a provision stating that a WMD may not issue new CUPs unless the entity requesting the CUP provides reasonable assurance that the withdrawal will not cause harm to the OFS. It was a restatement of existing law;
- Provides that WMDs may provide less than 25 percent of total project cost if there is another funding source that provides more than 75 percent of the funding costs, and exempts the Northwest Florida and Suwannee River WMDs from the requirement to provide 25 percent of total project costs;
- Shortens a deadline from July1, 2017, to July 1, 2015, for the DEP to assess any OFS that does not have an impairment determination;
- Clarifies that detailed allocations have to be listed for categories of nonpoint sources rather than each one;
- Creates and describes the concept of a spring action plan;
- Removes a provision requiring that fertilizer ordinances mandate the use of 50 percent slow release nitrogen;
- Removes a provision regarding revision of stormwater management plans;

- Changes a deadline from July 1, 2019, to July 1, 2021, for wastewater treatment facilities to upgrade to a standard of 3mg/L Total Nitrogen;
- Provides a deadline of July 1, 2016, for wastewater treatment facilities to file a plan for complying with requirement of 3 mg/L Total Nitrogen;
- Provides that required remedial actions do not have to be taken if funding is not available unless those actions are required as part of a BMAP;
- Provides a deadline of July 1, 2019, for agricultural producers within an SPMZ to implement BMPs;
- Provides a deadline of July 1, 2016, for local governments to develop an OSTDS remediation plan;
- Directs the DEP to provide rules for funding water conservation pilot projects and provides considerations;
- Directs the DEP to create a program to evaluate and rank submitted projects based on the TMDL Water Quality Restoration Grants program;
- Provides conditions for establishing RMEs; and
- Removes a provision requiring the study of nutrient loading from row crops.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

356190

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Appropriations (Montford) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Paragraph (c) of subsection (1) of section 201.15, Florida Statutes, is amended to read:

201.15 Distribution of taxes collected.—All taxes collected under this chapter are subject to the service charge imposed in s. 215.20(1). Prior to distribution under this section, the Department of Revenue shall deduct amounts necessary to pay the

costs of the collection and enforcement of the tax levied by this chapter. Such costs and the service charge may not be levied against any portion of taxes pledged to debt service on bonds to the extent that the costs and service charge are required to pay any amounts relating to the bonds. After distributions are made pursuant to subsection (1), all of the costs of the collection and enforcement of the tax levied by this chapter and the service charge shall be available and transferred to the extent necessary to pay debt service and any other amounts payable with respect to bonds authorized before January 1, 2013, secured by revenues distributed pursuant to subsection (1). All taxes remaining after deduction of costs and the service charge shall be distributed as follows:

(1) Sixty-three and thirty-one hundredths percent of the remaining taxes shall be used for the following purposes:

(c) After the required payments under paragraphs (a) and (b), the remainder shall be paid into the State Treasury to the credit of:

1. The State Transportation Trust Fund in the Department of Transportation in the amount of the lesser of 38.2 percent of the remainder or $541.75 million in each fiscal year. Out of such funds, the first $50 million for the 2012-2013 fiscal year; $65 million for the 2013-2014 fiscal year; and $75 million for the 2014-2015 fiscal year and all subsequent years, shall be transferred to the State Economic Enhancement and Development Trust Fund within the Department of Economic Opportunity. The remainder shall ~~is to~~ be used for the following specified purposes, notwithstanding any other law ~~to the contrary~~:

a. For the purposes of capital funding for the New Starts

Transit Program, authorized by Title 49, U.S.C. s. 5309 and specified in s. 341.051, 10 percent of these funds;

b. For the purposes of the Small County Outreach Program specified in s. 339.2818, 5 percent of these funds. Effective July 1, 2014, the percentage allocated under this sub-subparagraph shall be increased to 10 percent;

c. For the purposes of the Strategic Intermodal System specified in ss. 339.61, 339.62, 339.63, and 339.64, 75 percent of these funds after allocating for the New Starts Transit Program described in sub-subparagraph a. and the Small County Outreach Program described in sub-subparagraph b.; and

d. For the purposes of the Transportation Regional Incentive Program specified in s. 339.2819, 25 percent of these funds after allocating for the New Starts Transit Program described in sub-subparagraph a. and the Small County Outreach Program described in sub-subparagraph b. Effective July 1, 2014, the first $60 million of the funds allocated pursuant to this sub-subparagraph shall be allocated annually to the Florida Rail Enterprise for the purposes established in s. 341.303(5).

2. The Grants and Donations Trust Fund in the Department of Economic Opportunity in the amount of the lesser of 0.23 ~~.23~~ percent of the remainder or $3.25 million in each fiscal year to fund technical assistance to local governments.

3. The Ecosystem Management and Restoration Trust Fund in the amount of:

a. The lesser of 2.12 percent of the remainder or $30 million in each fiscal year~~,~~ to be used for the preservation and repair of the state's beaches as provided in ss. 161.091-161.212; and

356190

b. Five and four tenths percent of the remainder in each fiscal year to be used for the restoration and protection of springs pursuant to part VIII of chapter 373, and for the acquisition of parcels identified by the Department of Environmental Protection or by a water management district for the restoration and protection of Outstanding Florida Springs, as defined in s. 373.802.

4. General Inspection Trust Fund in the amount of the lesser of 0.02 ~~.02~~ percent of the remainder or $300,000 in each fiscal year to be used to fund oyster management and restoration programs as provided in s. 379.362(3).

Moneys distributed pursuant to this paragraph may not be pledged for debt service unless such pledge is approved by referendum of the voters.

Section 2. Subsection (1) of section 373.042, Florida Statutes, is amended to read:

373.042 Minimum flows and levels.—

(1) Within each section, or within the water management district as a whole, the department or the governing board shall establish the following:

(a) Minimum flow for all surface watercourses in the area. The minimum flow for a given watercourse is ~~shall be~~ the limit at which further withdrawals would be significantly harmful to the water resources or ecology of the area.

(b) Minimum water level. The minimum water level is ~~shall be~~ the level of groundwater in an aquifer and the level of surface water at which further withdrawals would be significantly harmful to the water resources of the area.

356190

(c) Minimum flow and minimum water level for an Outstanding Florida Spring, as defined in s. 373.802. The minimum flow and minimum water level are the limit and level, respectively, at which further withdrawals would be harmful to the water resources or ecology of the area.

The minimum flow and minimum water level shall be calculated by the department and the governing board using the best information available. When appropriate, minimum flows and minimum water levels may be calculated to reflect seasonal variations. The department and the governing board shall ~~also~~ consider, and at their discretion may provide for, the protection of nonconsumptive uses in the establishment of minimum flows and minimum water levels.

Section 3. Paragraph (a) of subsection (1) of section 373.0421, Florida Statutes, is amended to read:

373.0421 Establishment and implementation of minimum flows and levels.—

(1) ESTABLISHMENT.—

(a) Considerations.—When establishing minimum flows and minimum water levels pursuant to s. 373.042, the department or governing board shall consider changes and structural alterations to watersheds, surface waters, and aquifers and the effects such changes or alterations have had, and the constraints such changes or alterations have placed, on the hydrology of an affected watershed, surface water, or aquifer, provided that nothing in this paragraph shall allow significant harm as provided by s. 373.042(1)(a) and (b), or harm as provided by s. 373.042(1)(c), caused by withdrawals.

356190

Section 4. Part VIII of chapter 373, Florida Statutes, consisting of sections 373.801, 373.802, 373.803, 373.805, 373.807, 373.809, 373.811, 373.813, and 373.815, Florida Statutes, is created and entitled the "Florida Springs and Aquifer Protection Act."

Section 5. Section 373.801, Florida Statutes, is created to read:

373.801 Legislative findings and intent.—

(1) The Legislature finds that springs are a unique part of this state's scenic beauty. Springs provide critical habitat for plants and animals, including many endangered or threatened species. Springs also provide immeasurable natural, recreational, economic, and inherent value. Flow level and water quality of springs are indicators of local conditions of the Floridan Aquifer, which is the source of drinking water for many residents of this state. Springs are of great scientific importance in understanding the diverse functions of aquatic ecosystems. In addition, springs provide recreational opportunities for swimming, canoeing, wildlife watching, fishing, cave diving, and many other activities in this state. Because of such recreational opportunities and the accompanying tourism, state and local economies benefit from many of the springs in this state.

(2) Water quantity and water quality in springs are related. For regulatory purposes, the department has primary responsibility for water quality; the water management districts have primary responsibility for water quantity; the Department of Agriculture and Consumer Services has primary responsibility for the development and implementation of best management

356190

practices; and local governments have primary responsibility for providing wastewater and stormwater management. The foregoing responsible entities must work together in a coordinated manner to restore and maintain the water quantity and water quality for Outstanding Florida Springs.

(3) The Legislature recognizes that:

(a) Springs are only as healthy as their springsheds. The groundwater that supplies springs is derived from water that recharges the aquifer system in the form of seepage from the land surface and through direct conduits such as sinkholes. Springs may be adversely affected by polluted runoff from urban and agricultural lands; discharge resulting from inadequate wastewater and stormwater management practices; stormwater runoff; and the reduced water levels of the Floridan Aquifer. As a result, the hydrologic and environmental conditions of a spring or spring run are directly influenced by activities and land uses within a springshed and by water withdrawals from the Floridan Aquifer.

(b) Springs, whether found in urban or rural settings, or on public or private lands, are threatened by actual or potential flow reductions and declining water quality. Many of this state’s springs are demonstrating signs of significant ecological imbalance, increased nutrient loading, and declining water flow. Without effective remedial actions, further declines in water quality and water quantity may occur.

(c) Springshed boundaries and areas of high vulnerability within a springshed need to be identified and delineated using the best available data.

(d) Because springsheds cross water management district and

local government jurisdictional boundaries, a coordinated statewide springs protection plan is needed.

(e) The aquifers and springs of this state are complex systems affected by many variables and influences.

(4) The Legislature recognizes that sufficient information exists to act, action is urgently needed, and action can be continually modified as additional data is acquired.

Section 6. Section 373.802, Florida Statutes, is created to read:

373.802 Definitions.—As used in this part, the term:

(1) "Department" means the Department of Environmental Protection, which includes the Florida Geological Survey or its successor agency or agencies.

(2) "Local government" means a county or municipal government the jurisdictional boundaries of which include an Outstanding Florida Spring, or any part of a delineated springshed or spring protection and management zone for an Outstanding Florida Spring.

(3) "Onsite sewage treatment and disposal system" means a system that contains a standard subsurface, filled, or mound drainfield system; an aerobic treatment unit; a graywater system tank; a laundry wastewater system tank; a septic tank; a grease interceptor; a pump tank; a solids or effluent pump; a waterless, incinerating, or organic waste-composting toilet; or a sanitary pit privy that is installed or proposed to be installed beyond the building sewer on land of the owner or on other land to which the owner has the legal right to install a system. The term includes any item placed within, or intended to be used as a part of or in conjunction with, the system. The

356190

term does not include package sewage treatment facilities and other treatment works regulated under chapter 403.

(4) "Outstanding Florida Spring" includes all historic first magnitude springs, as determined by the department using the most recent Florida Geological Survey springs bulletin, and the following springs, and their associated spring runs:

(a) DeLeon Spring;

(b) Peacock Spring;

(c) Poe Spring;

(d) Rock Springs;

(e) Wekiwa Spring; and

(f) Gemini Spring.

(5) "Spring protection and management zone" means the area or areas of a springshed where the Floridan Aquifer is vulnerable to sources of contamination or reduced levels, as determined by the department in consultation with the appropriate water management districts.

(6) "Spring run" means a body of flowing water that originates from a spring or whose primary source of water is a spring or springs under average rainfall conditions.

(7) "Springshed" means the areas within the groundwater and surface water basins which contribute, based upon all relevant facts, circumstances, and data, to the discharge of a spring as defined by potentiometric surface maps and surface watershed boundaries.

(8) "Spring vent" means a location where groundwater flows out of a natural, discernable opening in the ground onto the land surface or into a predominantly fresh surface waterbody.

Section 7. Section 373.803, Florida Statutes, is created to

356190

read:

373.803 Delineation of spring protection and management zones for Outstanding Florida Springs.—Using the best data available from the water management districts and other credible sources, the department, in coordination with the water management districts, shall delineate one or more spring protection and management zones for each Outstanding Florida Spring. In delineating spring protection and management zones, the department shall consider groundwater travel time to the spring, hydrogeology, and nutrient load. The delineation of spring protection and management zones must be completed by July 1, 2015. In conjunction with delineating a spring protection and management zone for an Outstanding Florida Spring, the department shall adopt by rule, pursuant to ss. 120.536(1) and 120.54, maps and legal descriptions that depict the delineated spring protection and management zone or zones for that spring as soon as practicable but no later than July 1, 2016.

Section 8. Section 373.805, Florida Statutes, is created to read:

373.805 Minimum flows and minimum water levels for Outstanding Florida Springs.—

(1)(a) Each water management district shall establish a minimum flow and minimum water level for each Outstanding Florida Spring within its jurisdiction by July 1, 2015, in accordance with ss. 373.042 and 373.0421. The deadline may be extended each year until July 1, 2022, if a water management district provides sufficient evidence to the department that an extension is in the best interest of the public.

(b) If an area contributes or has contributed to the flow

356190

of an Outstanding Florida Spring and that area is in more than one water management district or is impacted by withdrawals outside of the water management district where the Outstanding Florida Spring is located, the department, in conjunction with the affected water management districts, shall establish a minimum flow and minimum water level by July 1, 2017, in accordance with ss. 373.042 and 373.0421.

(2) At the time a minimum flow or minimum water level is adopted for an Outstanding Florida Spring, if the spring is below or is projected within 20 years to fall below the initial minimum flow or minimum water level, a water management district, pursuant to paragraph (1)(a), or the department, pursuant to paragraph (1)(b), shall simultaneously adopt a recovery or prevention strategy required by s. 373.0421.

(3) For an Outstanding Florida Spring, a minimum flow and minimum water level adopted before July 1, 2014, must be revised by July 1, 2017. When a minimum flow or minimum water level is revised, if the spring is below or is projected within 20 years to fall below the revised minimum flow or minimum water level, a water management district, pursuant to paragraph (1)(a), or the department, pursuant to paragraph (1)(b), shall simultaneously adopt a recovery or prevention strategy required by s. 373.0421(2) or modify an existing recovery or prevention strategy. A district or the department may adopt the revised minimum flow and minimum water level prior to the adoption of a recovery or prevention strategy if the revised minimum flow and minimum water level is less constraining on existing or projected future consumptive uses.

(4) For an Outstanding Florida Spring without an adopted

356190

recovery or prevention strategy, when a district or the department determines the spring has fallen below, or is projected within 20 years to fall below the adopted minimum flow or minimum water level, a water management district, pursuant to paragraph (1)(a), or the department, pursuant to paragraph (1)(b), shall expeditiously adopt a recovery or prevention strategy.

(5) The recovery or prevention strategy for each Outstanding Florida Spring must include, at a minimum:

(a) A listing of all specific projects identified for implementation of a recovery or prevention strategy.

(b) A priority listing of each project.

(c) The estimated cost for each listed project.

(d) For each listed project, the estimated date of completion.

(e) The source and amount of financial assistance to be made available by the water management district for each listed project, which may not be less than 25 percent of the total project cost unless a specific funding source or sources are identified which will provide more than 75 percent of the total project cost. The Northwest Florida Water Management District and the Suwannee River Water Management District are not required to provide matching funds pursuant to this paragraph.

(f) An estimate of each listed project's benefit to an Outstanding Florida Spring.

(g) A map and legal descriptions depicting the spring protection and management zones established pursuant to s. 373.803.

(h) An implementation plan to achieve the adopted minimum

356190

flow and minimum water level within 15 years of the adoption of a recovery or prevention strategy. The plan must include measureable interim milestones to be achieved within 5 and 10 years to achieve the adopted minimum flow and minimum water level.

Section 9. Section 373.807, Florida Statutes, is created to read:

373.807 Protection of water quality in Outstanding Florida Springs.—By July 1, 2014, the department shall initiate assessment, pursuant to 403.067(3), of each Outstanding Florida Spring for which an impairment determination has not been made under the numeric nutrient standards in effect for spring vents. Assessments must be completed by July 1, 2017.

(1)(a) Simultaneously with the adoption of a nutrient total maximum daily load for an Outstanding Florida Spring, the department, or the department in conjunction with a water management district, shall initiate development of a basin management action plan, as specified in s. 403.067. For an Outstanding Florida Spring with a nutrient total maximum daily load adopted prior to July 1, 2014, the department, or the department in conjunction with a water management district, shall initiate development of a basin management action plan by July 1, 2014. During the development of a basin management action plan, if the department identifies onsite sewage treatment and disposal systems as nonpoint sources of nutrient pollution that need addressing within a local government jurisdiction, the department shall notify the local government within 30 days, which shall develop an onsite sewage treatment and disposal system remediation plan pursuant to subsection (3)

for inclusion in the basin management action plan.

(b) A basin management action plan for an Outstanding Florida Spring shall be adopted within 3 years of its initiation and must include, at minimum:

1. A list of all specific projects identified to implement a nutrient total maximum daily load.

2. A list of all specific projects identified in an onsite sewage treatment and disposal system remediation plan, if applicable.

3. A priority rank for each listed project.

4. The estimated cost for each listed project.

5. For each listed project, the estimated date of completion.

6. The source and amount of financial assistance to be made available by the department, a water management district, or other entity for each listed project.

7. An estimate of each listed project's nutrient load reduction.

8. A map and legal descriptions depicting the spring protection and management zones established pursuant to s. 373.803.

9. Identification of each point source or category of nonpoint sources, including but not limited to, urban turf fertilizer, sports turf fertilizer, agricultural fertilizer, onsite sewage treatment and disposal systems, wastewater treatment facilities, animal wastes, and stormwater facilities. An estimated allocation of the pollutant load must be provided for each point source or category of nonpoint sources.

10. An implementation plan to achieve the adopted nutrient

356190

total maximum daily load within 15 years of the adoption of a basin management action plan. The plan must include measureable interim milestones to be achieved within 5 and 10 years to achieve the adopted nutrient total maximum daily load.

(c) For a basin management action plan adopted before July 1, 2014, that addresses an Outstanding Florida Spring, the department, or the department in conjunction with a water management district, shall revise the plan by July 1, 2017, pursuant to this section.

(d) Upon approval of an onsite sewage treatment and disposal system remediation plan, the plan shall be deemed incorporated as part of the appropriate basin management action plan until such time as the basin management action plan is revised pursuant to s. 403.067(7).

(2) Within 6 months of the delineation of a spring protection and management zone or zones of an Outstanding Florida Spring that is fully or partially within the jurisdiction of a local government, a local government must develop, enact, and implement an ordinance that meets or exceeds the requirements of the department’s Model Ordinance for Florida-Friendly Fertilizer Use on Urban Landscapes. Such ordinance must require that, within a spring protection and management zone of an Outstanding Florida Spring with an adopted nutrient total maximum daily load, the nitrogen application rate of any fertilizer applied to turf or landscape plants may not exceed the lowest, basic maintenance rate of the most recent recommendations by the Institute of Food and Agricultural Sciences. The department shall adopt rules to implement this paragraph which establish reasonable minimum standards and

356190

reflect advancements or improvements regarding nutrient load reductions.

(3) By July 1, 2016, the department, in conjunction with the Department of Health and local governments, must identify onsite sewage treatment and disposal systems within each spring protection and management zone. Within 60 days of the department's completion of the identification of these systems, the department shall provide the location of these systems to the local governments in which they are located. If notified by the department pursuant to subsection (1), the local government, in consultation with the department, shall develop an onsite sewage treatment and disposal system remediation plan within 12 months of notification by the department. For each onsite sewage treatment and disposal system or group of systems, the plan must include whether the systems require upgrading, connection to a central sewerage system, or no action. The plan must also include a priority ranking for each system or group of systems that require remediation. Each remediation plan must be submitted to the department for approval.

(a) In reviewing and approving the remediation plans, the department shall consider, at a minimum:

1. The density of onsite sewage treatment and disposal systems.

2. The number of onsite sewage treatment and disposal systems.

3. The proximity of the onsite sewage treatment and disposal system or systems to an Outstanding Florida Spring

4. The estimated nutrient loading of the onsite sewage treatment and disposal system or systems.

5. The cost of the proposed remedial action.

(b) Prior to submitting an onsite sewage treatment and disposal system remediation plan to the department, the local government shall hold at least one public meeting to provide the public an opportunity to comment on the plan. The approval of an onsite sewage treatment and disposal system remediation plan by the department constitutes a final agency action.

(c) If a local government does not substantially comply with this subsection, it may be ineligible for funding pursuant to s. 373.809.

(4) With respect to implementation of an onsite sewage treatment and disposal system remediation plan, a property owner with an onsite sewage treatment and disposal system identified by the plan may not be required to pay any of the costs of a system inspection or for upgrading a system, or connection fees for connection to a sanitary sewer system. This subsection does not apply to local government programs in existence before July 1, 2014, that are inconsistent with this subsection.

Section 10. Section 373.809, Florida Statutes, is created to read:

373.809 Funding for the restoration and preservation of Outstanding Florida Springs.—

(1) Projects to implement an adopted basin management action plan or an adopted recovery or prevention strategy for Outstanding Florida Springs are eligible for funding from documentary stamp tax revenues deposited into the Ecosystem Management and Restoration Trust Fund in accordance with s. 201.15(1)(c)3.b. The Legislature may use other sources of revenue to fund projects that will benefit an adopted basin

management action plan or an adopted recovery or prevention strategy for Outstanding Florida Springs.

(2) By December 31, 2014, the department shall adopt rules to fund pilot projects that test the effectiveness of innovative or existing nutrient reduction or water conservation technologies or practices designed to minimize nutrient pollution in the springs of this state. The department may approve funding for pilot projects each funding cycle if the department determines that the pilot project will not be harmful to the ecological resources in the study area.

(3) By December 31, 2014, the department shall adopt rules to evaluate, rank, and select projects eligible for funding under this part or land acquisition pursuant to s. 201.15(1)(c)3.b. In developing these rules, the department shall give preference to the projects that will result in the greatest improvement to water quality and water quantity for the dollars to be expended for the project. At a minimum, the department shall consider:

(a) The level of nutrient impairment of the Outstanding Florida Spring in which the project is located.

(b) The quantity of pollutants, particularly total nitrogen, the project is estimated to remove from an Outstanding Florida Spring with an adopted nutrient total maximum daily load.

(c) The flow necessary to restore the Outstanding Florida Spring to its adopted minimum flow or minimum water level.

(d) The anticipated impact the project will have on restoring or increasing water flow or water level.

(e) The amount of matching funds for the project that will

356190

be provided by the entities responsible for implementing the project.

(f) For multiple-year projects, whether the project has funding sources that are identified and assured through the expected completion date of the project.

(g) The cost of the project and the length of time it will take to complete relative to its expected benefits.

(h) Whether the entities responsible for implementing the project, since July 1, 2009, have used their own funds for projects to improve water quality or conserve water use within a springshed or spring protection and management zone of an Outstanding Florida Spring, with preference given to those entities that have expended such funds.

(4) Moneys in the Ecosystem Management and Restoration Trust Fund not needed in the current fiscal year to meet obligations incurred under this part shall be deposited with the Chief Financial Officer to the credit of the fund and may be invested in the manner provided by law. Interest received on such investments shall be credited to the fund to be used for the purposes of this part.

Section 11. Section 373.811, Florida Statutes, is created to read:

373.811 Prohibited activities within a spring protection and management zone of an Outstanding Florida Spring.—The following activities are prohibited within a spring protection and management zone of an Outstanding Florida Spring:

(1) New municipal or industrial wastewater disposal facilities, including rapid infiltration basins, with permitted capacities of 100,000 gallons per day or more, except for those

356190

facilities that meet an advanced wastewater treatment standard of no more than 3 mg/L Total Nitrogen, expressed as N, on an annual permitted basis, or a higher treatment standard if the department determines the higher standard is necessary to prevent impairment or aid in the recovery of an Outstanding Florida Spring.

(2) New onsite sewage treatment and disposal systems on lots less than 1 acre, except for passive nitrogen removing onsite sewage treatment and disposal systems approved by the Department of Health. This subsection does not take effect until 6 months after the Department of Health has approved such a system for use.

(3) New facilities for the disposal of hazardous waste.

(4) The land application of Class A or B domestic wastewater biosolids or septage.

(5) New agriculture operations that do not implement best management practices, measures necessary to achieve pollution reduction levels established by the department, or a groundwater monitoring plan approved by a water management district or the department.

Section 12. Section 373.813, Florida Statutes, is created to read:

373.813 Rules.—

(1) The department shall adopt rules to create a program to improve water quantity and water quality pursuant to ss. 120.536(1) and 120.54 to administer this part, as applicable. In developing rules to administer s. 373.808, the department shall use the Total Maximum Daily Load Water Quality Restoration Grants rule as guidance to develop a comparable program for the

356190

restoration and protection of the water quality and water quantity for Outstanding Florida Springs.

(2) The Department of Health, the Department of Agriculture and Consumer Services, and the water management districts may adopt rules pursuant to ss. 120.536(1) and 120.54 to administer this part, as applicable.

(3)(a) The Department of Agriculture and Consumer Services is the lead agency coordinating the reduction of agricultural nonpoint sources of pollution for the protection of Outstanding Florida Springs. The Department of Agriculture and Consumer Services and the department, pursuant to s. 403.067(7)(c)4., shall study new or revised best management practices for improving and protecting Outstanding Florida Springs and, if necessary, in cooperation with applicable local governments and stakeholders, initiate rulemaking to require the implementation of such practices within a reasonable time period.

(b) The department, the Department of Agriculture and Consumer Services, and the University of Florida's Institute of Food and Agricultural Sciences shall cooperate in conducting the necessary research and demonstration projects to develop improved or additional nutrient management tools, including the use of controlled release fertilizer that can be used by agricultural producers as part of an agricultural best management practices program. The development of such tools must reflect a balance between water quality improvement and agricultural productivity and, when applicable, must be incorporated into the revised best management practices adopted by rule of the Department of Agriculture and Consumer Services.

Section 13. Section 373.815, Florida Statutes, is created

356190

to read:

373.815 Reports.—By July 1, 2015, and annually thereafter on July 1, the department, in conjunction with the water management districts, shall submit progress reports to the Governor, President of the Senate and Speaker of the House of Representatives on the status of each total maximum daily load, basin management action plan, minimum flow and minimum water level, and recovery or prevention strategy adopted pursuant to this part. The report must include the status of each project identified to achieve a total maximum daily load and a minimum flow and minimum water level, as applicable. If a report indicates that any of the interim 5 or 10 year milestones, or the 15 year deadline will not be met, the report must include specific corrective actions that will be taken to achieve these milestones and deadlines, and, if necessary, executive and legislative recommendations.

Section 14. This act shall take effect July 1, 2014.

Senate Amendment to Amendment (356190)

Delete lines 335 - 511
and insert:
(6) A local government may apply for an extension of up to 5 years from the department for any project in an adopted recovery or prevention strategy. The department may grant the extension if the local government provides sufficient evidence to the department that an extension is in the best interest of the public. For a local government in a rural area of critical

state concern, as defined in s. 288.0656, the department may grant an extension of up to 10 years.

Section 9. Section 373.807, Florida Statutes, is created to read:

373.807 Protection of water quality in Outstanding Florida Springs.—By July 1, 2014, the department shall initiate assessment, pursuant to 403.067(3), of each Outstanding Florida Spring for which an impairment determination has not been made under the numeric nutrient standards in effect for spring vents. Assessments must be completed by July 1, 2017.

(1)(a) Simultaneously with the adoption of a nutrient total maximum daily load for an Outstanding Florida Spring, the department, or the department in conjunction with a water management district, shall initiate development of a basin management action plan, as specified in s. 403.067. For an Outstanding Florida Spring with a nutrient total maximum daily load adopted prior to July 1, 2014, the department, or the department in conjunction with a water management district, shall initiate development of a basin management action plan by July 1, 2014. During the development of a basin management action plan, if the department identifies onsite sewage treatment and disposal systems as nonpoint sources of nutrient pollution that need addressing within a local government jurisdiction, the department shall notify the local government within 30 days, which shall develop an onsite sewage treatment and disposal system remediation plan pursuant to subsection (3) for inclusion in the basin management action plan.

(b) A basin management action plan for an Outstanding Florida Spring shall be adopted within 3 years of its initiation

and must include, at a minimum:

1. A list of all specific projects identified to implement a nutrient total maximum daily load.

2. A list of all specific projects identified in an onsite sewage treatment and disposal system remediation plan, if applicable.

3. A priority rank for each listed project.

4. The estimated cost for each listed project.

5. For each listed project, the estimated date of completion.

6. The source and amount of financial assistance to be made available by the department, a water management district, or other entity for each listed project.

7. An estimate of each listed project's nutrient load reduction.

8. A map and legal descriptions depicting the spring protection and management zones established pursuant to s. 373.803.

9. Identification of each point source or category of nonpoint sources, including but not limited to, urban turf fertilizer, sports turf fertilizer, agricultural fertilizer, onsite sewage treatment and disposal systems, wastewater treatment facilities, animal wastes, and stormwater facilities. An estimated allocation of the pollutant load must be provided for each point source or category of nonpoint sources.

10. An implementation plan to achieve the adopted nutrient total maximum daily load within 15 years of the adoption of a basin management action plan. The plan must include measureable interim milestones to be achieved within 5 and 10 years to

achieve the adopted nutrient total maximum daily load.

(c) For a basin management action plan adopted before July 1, 2014, that addresses an Outstanding Florida Spring, the department, or the department in conjunction with a water management district, shall revise the plan by July 1, 2017, pursuant to this section.

(d) Upon approval of an onsite sewage treatment and disposal system remediation plan, the plan shall be deemed incorporated as part of the appropriate basin management action plan until such time as the basin management action plan is revised pursuant to s. 403.067(7).

(e) A local government may apply for an extension of up to 5 years from the department for any project in an adopted basin management action plan. The department may grant the extension if the local government provides sufficient evidence to the department that an extension is in the best interest of the public. For a local government in a rural area of critical state concern, as defined in s. 288.0656, the department may grant an extension of up to 10 years.

(2) Within 6 months of the delineation of a spring protection and management zone or zones of an Outstanding Florida Spring that is fully or partially within the jurisdiction of a local government, a local government must develop, enact, and implement an ordinance that meets or exceeds the requirements of the department’s Model Ordinance for Florida-Friendly Fertilizer Use on Urban Landscapes. Such ordinance must require that, within a spring protection and management zone of an Outstanding Florida Spring with an adopted nutrient total maximum daily load, the nitrogen application rate

of any fertilizer applied to turf or landscape plants may not exceed the lowest, basic maintenance rate of the most recent recommendations by the Institute of Food and Agricultural Sciences. The department shall adopt rules to implement this paragraph which establish reasonable minimum standards and reflect advancements or improvements regarding nutrient load reductions.

(3) By July 1, 2016, the department, in conjunction with the Department of Health and local governments, must identify onsite sewage treatment and disposal systems within each spring protection and management zone. Within 60 days of the department's completion of the identification of these systems, the department shall provide the location of these systems to the local governments in which they are located. If notified by the department pursuant to subsection (1), the local government, in consultation with the department, shall develop an onsite sewage treatment and disposal system remediation plan within 12 months of notification by the department. For each onsite sewage treatment and disposal system or group of systems, the plan must include whether the systems require upgrading, connection to a central sewerage system, or no action. The plan must also include a priority ranking for each system or group of systems that require remediation. Each remediation plan must be submitted to the department for approval.

(a) In reviewing and approving the remediation plans, the department shall consider, at a minimum:

1. The density of onsite sewage treatment and disposal systems.

2. The number of onsite sewage treatment and disposal

systems.

3. The proximity of the onsite sewage treatment and disposal system or systems to an Outstanding Florida Spring.

4. The estimated nutrient loading of the onsite sewage treatment and disposal system or systems.

5. The cost of the proposed remedial action.

(b) Prior to submitting an onsite sewage treatment and disposal system remediation plan to the department, the local government shall hold at least one public meeting to provide the public an opportunity to comment on the plan. The approval of an onsite sewage treatment and disposal system remediation plan by the department constitutes a final agency action.

(c) If a local government does not substantially comply with this subsection, it may be ineligible for funding pursuant to s. 373.809.

(4) With respect to implementation of an onsite sewage treatment and disposal system remediation plan, a property owner with an onsite sewage treatment and disposal system identified by the plan may not be required to pay any of the costs of a system inspection or for upgrading a system, or connection fees for connection to a sanitary sewer system. This subsection does not apply to local government programs in existence before July 1, 2014, that are inconsistent with this subsection.

Section 10. Section 373.809, Florida Statutes, is created to read:

373.809 Funding for the restoration and preservation of Outstanding Florida Springs.—

(1) Projects to implement an adopted basin management action plan or an adopted recovery or prevention strategy for

Outstanding Florida Springs are eligible for funding from documentary stamp tax revenues deposited into the Ecosystem Management and Restoration Trust Fund in accordance with s. 201.15(1)(c)3.b. The Legislature may use other sources of revenue to fund projects that will benefit an adopted basin management action plan or an adopted recovery or prevention strategy for Outstanding Florida Springs.

(2) By December 31, 2014, the department shall adopt rules to fund pilot projects that test the effectiveness of innovative or existing nutrient reduction or water conservation technologies or practices designed to minimize nutrient pollution in the springs of this state. The department may approve funding for pilot projects each funding cycle if the department determines that the pilot project will not be harmful to the ecological resources in the study area.

(3) By December 31, 2014, the department shall adopt rules to evaluate, rank, and select projects eligible for funding under this part or land acquisition pursuant to s. 201.15(1)(c)3.b. In developing these rules, the department shall give preference to the projects that will result in the greatest improvement to water quality and water quantity for the dollars to be expended for the project. At a minimum, the department shall consider:

(a) The level of nutrient impairment of the Outstanding Florida Spring in which the project is located.

(b) The quantity of pollutants, particularly total nitrogen, the project is estimated to remove from an Outstanding Florida Spring with an adopted nutrient total maximum daily load.

(c) The flow necessary to restore the Outstanding Florida Spring to its adopted minimum flow or minimum water level.

(d) The anticipated impact the project will have on restoring or increasing water flow or water level.

(e) The amount of matching funds for the project that will be provided by the entities responsible for implementing the project.

(f) Whether the project is located in a rural area of critical state concern, as defined in s. 288.0656, with preference given to the local government responsible for implementing the project.

(g) For multiple-year projects, whether the project has funding sources that are identified and assured through the expected completion date of the project.

(h) The cost of the project and the length of time it will take to complete relative to its expected benefits.

(i) Whether the entities responsible for implementing the

The Committee on Appropriations (Montford) recommended the following:

Senate Amendment to Amendment (356190)

Delete lines 335 - 401
and insert:
(6) A local government may apply for an extension of up to 5 years from the department for any project in an adopted recovery or prevention strategy. The department may grant the extension if the local government provides sufficient evidence to the department that an extension is in the best interest of the public. For a local government in a rural area of critical

state concern, as defined in s. 288.0656, the department may grant an extension of up to 10 years.

Section 9. Section 373.807, Florida Statutes, is created to read:

373.807 Protection of water quality in Outstanding Florida Springs.—By July 1, 2014, the department shall initiate assessment, pursuant to 403.067(3), of each Outstanding Florida Spring for which an impairment determination has not been made under the numeric nutrient standards in effect for spring vents. Assessments must be completed by July 1, 2017.

(1)(a) Simultaneously with the adoption of a nutrient total maximum daily load for an Outstanding Florida Spring, the department, or the department in conjunction with a water management district, shall initiate development of a basin management action plan, as specified in s. 403.067. For an Outstanding Florida Spring with a nutrient total maximum daily load adopted prior to July 1, 2014, the department, or the department in conjunction with a water management district, shall initiate development of a basin management action plan by July 1, 2014. During the development of a basin management action plan, if the department identifies onsite sewage treatment and disposal systems as nonpoint sources of nutrient pollution that need addressing within a local government jurisdiction, the department shall notify the local government within 30 days, which shall develop an onsite sewage treatment and disposal system remediation plan pursuant to subsection (3) for inclusion in the basin management action plan.

(b) A basin management action plan for an Outstanding Florida Spring shall be adopted within 3 years of its initiation

966234

and must include, at a minimum:

1. A list of all specific projects identified to implement a nutrient total maximum daily load.

2. A list of all specific projects identified in an onsite sewage treatment and disposal system remediation plan, if applicable.

3. A priority rank for each listed project.

4. The estimated cost for each listed project.

5. For each listed project, the estimated date of completion.

6. The source and amount of financial assistance to be made available by the department, a water management district, or other entity for each listed project.

7. An estimate of each listed project's nutrient load reduction.

8. A map and legal descriptions depicting the spring protection and management zones established pursuant to s. 373.803.

9. Identification of each point source or category of nonpoint sources, including but not limited to, urban turf fertilizer, sports turf fertilizer, agricultural fertilizer, onsite sewage treatment and disposal systems, wastewater treatment facilities, animal wastes, and stormwater facilities. An estimated allocation of the pollutant load must be provided for each point source or category of nonpoint sources.

10. An implementation plan to achieve the adopted nutrient total maximum daily load within 15 years of the adoption of a basin management action plan. The plan must include measureable interim milestones to be achieved within 5 and 10 years to

966234

achieve the adopted nutrient total maximum daily load.

(c) For a basin management action plan adopted before July 1, 2014, that addresses an Outstanding Florida Spring, the department, or the department in conjunction with a water management district, shall revise the plan by July 1, 2017, pursuant to this section.

(d) Upon approval of an onsite sewage treatment and disposal system remediation plan, the plan shall be deemed incorporated as part of the appropriate basin management action plan until such time as the basin management action plan is revised pursuant to s. 403.067(7).

(e) A local government may apply for an extension of up to 5 years from the department for any project in an adopted basin management action plan. The department may grant the extension if the local government provides sufficient evidence to the department that an extension is in the best interest of the public. For a local government in a rural area of critical state concern, as defined in s. 288.0656, the department may grant an extension of up to 10 years.

The Committee on Appropriations (Montford) recommended the following:

Senate Amendment to Amendment (356190) (with title amendment)

Delete lines 468 - 523
and insert:
(1) By December 31, 2014, the department shall adopt rules to fund pilot projects that test the effectiveness of innovative or existing nutrient reduction or water conservation technologies or practices designed to minimize nutrient pollution in the springs of this state. The department may

844544

approve funding for pilot projects each funding cycle if the department determines that the pilot project will not be harmful to the ecological resources in the study area.

(2) By December 31, 2014, the department shall adopt rules to evaluate, rank, and select projects eligible for funding under this part or land acquisition pursuant to s. 201.15(1)(c)3.b. In developing these rules, the department shall give preference to the projects that will result in the greatest improvement to water quality and water quantity for the dollars to be expended for the project. At a minimum, the department shall consider:

(a) The level of nutrient impairment of the Outstanding Florida Spring in which the project is located.

(b) The quantity of pollutants, particularly total nitrogen, the project is estimated to remove from an Outstanding Florida Spring with an adopted nutrient total maximum daily load.

(c) The flow necessary to restore the Outstanding Florida Spring to its adopted minimum flow or minimum water level.

(d) The anticipated impact the project will have on restoring or increasing water flow or water level.

(e) The amount of matching funds for the project that will be provided by the entities responsible for implementing the project.

(f) Whether the project is located in a rural area of critical state concern, as defined in s. 288.0656, with preference given to the local government responsible for implementing the project.

(g) For multiple-year projects, whether the project has

844544

funding sources that are identified and assured through the expected completion date of the project.

(h) The cost of the project and the length of time it will take to complete relative to its expected benefits.

(i) Whether the entities responsible for implementing the project, since July 1, 2009, have used their own funds for projects to improve water quality or conserve water use within a springshed or spring protection and management zone of an Outstanding Florida Spring, with preference given to those entities that have expended such funds.

The Committee on Appropriations (Montford) recommended the following:

Senate Amendment to Amendment (356190) (with title amendment)

Between lines 606 and 607
insert:
Section 14. For the 2014-15 fiscal year, funding for the Florida Springs and Aquifer Protection Act is provided in Specific Appropriations 1645 and 1390 in Senate Bill 2500, House Bill 5001, or similar legislation becoming law. Funding and implementation of this act for subsequent fiscal years shall be

690158

determined annually by the Legislature and provided in the General Appropriations Act.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Between lines 656 and 657

insert:

funding in the General Appropriations Act for fiscal year 2014-15; providing

By the Committees on Agriculture; and Environmental Preservation and Conservation; and Senators Dean, Montford, Soto, Simmons, Hays, Altman, and Abruzzo

575-03484-14 20141576c2

A bill to be entitled

An act relating to springs; amending s. 201.15, F.S.; specifying distributions to the Ecosystem Management and Restoration Trust Fund; amending s. 373.042, F.S.; requiring the Department of Environmental Protection or the governing board of a water management district to establish the minimum flow and water level for an Outstanding Florida Spring; specifying minimum flows and water levels for an Outstanding Florida Spring; amending s. 373.0421, F.S.; conforming a cross-reference; creating part VIII of chapter 373, F.S., entitled "Florida Springs and Aquifer Protection Act"; creating s. 373.801, F.S.; providing legislative findings and intent; creating s. 373.802, F.S.; defining terms; creating s. 373.803, F.S.; requiring the Department of Environmental Protection to delineate the spring protection and management zone for each Outstanding Florida Spring; requiring the department to adopt by rule maps that depict the delineation of each spring protection and management zone for each Outstanding Florida Spring; creating s. 373.805, F.S.; requiring the water management districts to adopt minimum flows and levels for Outstanding Florida Springs; requiring a water management district to implement a recovery or prevention strategy under certain circumstances; authorizing the water management districts to adopt rules; creating s. 373.807, F.S.; providing procedures for improving water quality in Outstanding Florida

Springs; requiring the Department of Environmental Protection to develop a spring action plan; providing requirements; creating s. 373.808, F.S.; providing for funding mechanisms for the restoration of Outstanding Florida Springs; prohibiting a project from being funded under this part unless it is listed on a spring action plan; creating s. 373.809, F.S.; specifying prohibited activities within a spring protection and management zone of an Outstanding Florida Spring; creating s. 373.811, F.S.; providing rulemaking authority; creating s. 373.813, F.S.; providing for variances and exemptions under certain circumstances; amending s. 381.0065, F.S.; defining the term "responsible management entity"; requiring the Department of Health to submit a report to the Governor and the Legislature on responsible management entities; authorizing the establishment of responsible management entities; repealing s. 381.00651, F.S., relating to periodic evaluation and assessment of onsite sewage treatment and disposal systems; requiring the Department of Agriculture and Consumer Services and the Department of Environmental Protection to conduct a comprehensive study on nutrient reduction improvements and the expansion of the beneficial use of reclaimed water; requiring the departments to jointly hold a public meeting to gather input on the design of the comprehensive study and provide an opportunity for public comment; requiring the final report to be submitted to the Governor and

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

the Legislature by a certain date; providing for future expiration; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (c) of subsection (1) of section 201.15, Florida Statutes, is amended to read:

201.15 Distribution of taxes collected.—All taxes collected under this chapter are subject to the service charge imposed in s. 215.20(1). Prior to distribution under this section, the Department of Revenue shall deduct amounts necessary to pay the costs of the collection and enforcement of the tax levied by this chapter. Such costs and the service charge may not be levied against any portion of taxes pledged to debt service on bonds to the extent that the costs and service charge are required to pay any amounts relating to the bonds. After distributions are made pursuant to subsection (1), all of the costs of the collection and enforcement of the tax levied by this chapter and the service charge shall be available and transferred to the extent necessary to pay debt service and any other amounts payable with respect to bonds authorized before January 1, 2013, secured by revenues distributed pursuant to subsection (1). All taxes remaining after deduction of costs and the service charge shall be distributed as follows:

(1) Sixty-three and thirty-one hundredths percent of the remaining taxes shall be used for the following purposes:

(c) After the required payments under paragraphs (a) and (b), the remainder shall be paid into the State Treasury to the credit of:

1. The State Transportation Trust Fund in the Department of Transportation in the amount of the lesser of 38.2 percent of the remainder or $541.75 million in each fiscal year. Out of such funds, the first $50 million for the 2012-2013 fiscal year; $65 million for the 2013-2014 fiscal year; and $75 million for the 2014-2015 fiscal year and all subsequent years, shall be transferred to the State Economic Enhancement and Development Trust Fund within the Department of Economic Opportunity. The remainder shall ~~is to~~ be used for the following specified purposes, notwithstanding any other law ~~to the contrary~~:

a. For the purposes of capital funding for the New Starts Transit Program, authorized by Title 49, U.S.C. s. 5309 and specified in s. 341.051, 10 percent of these funds;

b. For the purposes of the Small County Outreach Program specified in s. 339.2818, 5 percent of these funds. Effective July 1, 2014, the percentage allocated under this sub-subparagraph shall be increased to 10 percent;

c. For the purposes of the Strategic Intermodal System specified in ss. 339.61, 339.62, 339.63, and 339.64, 75 percent of these funds after allocating for the New Starts Transit Program described in sub-subparagraph a. and the Small County Outreach Program described in sub-subparagraph b.; and

d. For the purposes of the Transportation Regional Incentive Program specified in s. 339.2819, 25 percent of these funds after allocating for the New Starts Transit Program described in sub-subparagraph a. and the Small County Outreach Program described in sub-subparagraph b. Effective July 1, 2014, the first $60 million of the funds allocated pursuant to this sub-subparagraph shall be allocated annually to the Florida Rail

Enterprise for the purposes established in s. 341.303(5).

2. The Grants and Donations Trust Fund in the Department of Economic Opportunity in the amount of the lesser of 0.23 ~~.23~~ percent of the remainder or $3.25 million in each fiscal year to fund technical assistance to local governments.

3. The Ecosystem Management and Restoration Trust Fund in the amount of:

a. The lesser of 2.12 percent of the remainder or $30 million in each fiscal year~~,~~ to be used for the preservation and repair of the state's beaches as provided in ss. 161.091-161.212; and

b. Thirty-six and nine-tenths percent of the remainder in each fiscal year to be used for the restoration and protection of Outstanding Florida Springs pursuant to part VIII of chapter 373 and for the acquisition of lands identified on the most current Board of Trustees Florida Forever Priority List, or by a water management district, which protect the essential parcels of the named spring projects that improve water quality or conserve water use and are located partially or fully within a spring protection and management zone of an Outstanding Florida Spring.

4. General Inspection Trust Fund in the amount of the lesser of 0.02 ~~.02~~ percent of the remainder or $300,000 in each fiscal year to be used to fund oyster management and restoration programs as provided in s. 379.362(3).

Moneys distributed pursuant to this paragraph may not be pledged for debt service unless such pledge is approved by referendum of the voters.

Section 2. Subsection (1) of section 373.042, Florida Statutes, is amended to read:

373.042 Minimum flows and levels.—

(1) Within each section, or within the water management district as a whole, the department or the governing board shall establish the following:

(a) Minimum flow for all surface watercourses in the area. The minimum flow for a given watercourse is ~~shall be~~ the limit at which further withdrawals would be significantly harmful to the water resources or ecology of the area.

(b) Minimum water level. The minimum water level is ~~shall be~~ the level of groundwater in an aquifer and the level of surface water at which further withdrawals would be significantly harmful to the water resources of the area.

(c) Minimum flow and minimum water level for an Outstanding Florida Spring, as defined in s. 373.802. The minimum flow and minimum water level are the limit and level, respectively, at which further withdrawals would be harmful to the water resources or ecology of the area.

The minimum flow and minimum water level shall be calculated by the department and the governing board using the best information available. When appropriate, minimum flows and minimum water levels may be calculated to reflect seasonal variations. The department and the governing board shall ~~also~~ consider, and at their discretion may provide for, the protection of nonconsumptive uses in the establishment of minimum flows and minimum water levels.

Section 3. Paragraph (a) of subsection (1) of section

373.0421, Florida Statutes, is amended to read:

373.0421 Establishment and implementation of minimum flows and levels.—

(1) ESTABLISHMENT.—

(a) *Considerations.*—When establishing minimum flows and minimum water levels pursuant to s. 373.042, the department or governing board shall consider changes and structural alterations to watersheds, surface waters, and aquifers and the effects such changes or alterations have had, and the constraints such changes or alterations have placed, on the hydrology of an affected watershed, surface water, or aquifer, provided that nothing in this paragraph shall allow significant harm as provided by s. 373.042(1)(a) and (b), or harm as provided by s. 373.042(1)(c), caused by withdrawals.

Section 4. Part VIII of chapter 373, Florida Statutes, consisting of sections 373.801, 373.802, 373.803, 373.805, 373.807, 373.808, 373.809, 373.811, and 373.813, Florida Statutes, is created and entitled the "Florida Springs and Aquifer Protection Act."

Section 5. Section 373.801, Florida Statutes, is created to read:

373.801 Legislative findings and intent.—

(1) The Legislature finds that springs are a unique part of this state's scenic beauty, deserving the highest level of protection under s. 7, Art. II of the State Constitution. Springs provide critical habitat for plants and animals, including many endangered or threatened species. Springs also provide immeasurable natural, recreational, economic, and inherent value. Flow level and water quality of springs are

indicators of local conditions of the Floridan Aquifer, which is the source of drinking water for many residents of this state. Springs are of great scientific importance in understanding the diverse functions of aquatic ecosystems. In addition, springs provide recreational opportunities for swimming, canoeing, wildlife watching, fishing, cave diving, and many other activities in this state. Because of such recreational opportunities and the accompanying tourism, state and local economies benefit from many of the springs in this state.

(2) Water quantity and water quality in springs are directly related. For regulatory purposes, the department has primary responsibility for water quality; the water management districts have primary responsibility for water quantity; the Department of Agriculture and Consumer Services has primary responsibility for the development and implementation of best management practices; and local governments have primary responsibility for providing wastewater and stormwater management. The foregoing responsible entities must work together in a coordinated manner to restore and maintain the water quantity and water quality for Outstanding Florida Springs.

(3) The Legislature recognizes that:

(a) Springs are only as healthy as their springsheds. The groundwater that supplies springs is derived from water that recharges the aquifer system in the form of seepage from the land surface and through direct conduits such as sinkholes. Springs are adversely affected by polluted runoff from urban and agricultural lands; discharge resulting from inadequate wastewater and stormwater management practices; stormwater

runoff; and the reduced water levels of the Floridan Aquifer. As a result, the hydrologic and environmental conditions of a spring or spring run are directly influenced by activities and land uses within a springshed and by water withdrawals from the Floridan Aquifer.

(b) Springs, whether found in urban or rural settings, or on public or private lands, are threatened by actual or potential flow reductions and declining water quality. Many of this state's springs are demonstrating signs of significant ecological imbalance, increased nutrient loading, and declining water flow. Without effective remedial actions, further declines in water quality and water quantity will occur.

(c) The state standards regulating both water quality and quantity, including minimum criteria relating to nutrient concentrations in groundwater, need to protect both human health and the complex biological and ecological systems that contribute to the integrity of springs.

(d) Springshed boundaries and areas of high vulnerability within a springshed need to be identified and delineated using the best available data.

(e) Because springsheds cross water management district and local government jurisdictional boundaries, a coordinated statewide springs protection plan is needed.

(f) The aquifers and springs of this state are complex systems affected by many variables and influences.

(4) The Legislature recognizes that sufficient information exists to act, action is urgently needed, and action can be continually modified as additional data is acquired. Therefore, state agencies and water management districts shall work

together with local governments to delineate springsheds and spring protection and management zones and develop comprehensive plans and land development regulations that protect the springs of this state for future generations.

(5) The Legislature intends to establish a spring and aquifer protection program to be administered by the department.

Section 6. Section 373.802, Florida Statutes, is created to read:

373.802 Definitions.—As used in this part, the term:

(1) "Department" means the Department of Environmental Protection, which includes the Florida Geological Survey or its successor agency or agencies.

(2) "Local government" means a county or municipal government the jurisdictional boundaries of which include an Outstanding Florida Spring, or any part of a delineated springshed or spring protection and management zone for an Outstanding Florida Spring.

(3) "Onsite sewage treatment and disposal system" means a system that contains a standard subsurface, filled, or mound drainfield system; an aerobic treatment unit; a graywater system tank; a laundry wastewater system tank; a septic tank; a grease interceptor; a pump tank; a solids or effluent pump; a waterless, incinerating, or organic waste-composting toilet; or a sanitary pit privy that is installed or proposed to be installed beyond the building sewer on land of the owner or on other land to which the owner has the legal right to install a system. The term includes any item placed within, or intended to be used as a part of or in conjunction with, the system. The term does not include package sewage treatment facilities and

other treatment works regulated under chapter 403.

(4) "Outstanding Florida Spring" includes all historic first magnitude springs, as determined by the department using the most recent Florida Geological Survey springs bulletin, and the following springs and their associated spring runs:

(a) DeLeon Spring;

(b) Peacock Spring;

(c) Poe Spring;

(d) Rock Springs;

(e) Wekiwa Spring; and

(f) Gemini Spring.

(5) "Responsible management entity" means a legal entity established for the purpose of providing localized nutrient management services with the requisite managerial, financial, and technical capacity to ensure long-term management of onsite sewage treatment and disposal systems and other local nutrient sources at the option of the local government within its jurisdiction.

(6) "Spring protection and management zone" means the area or areas of a springshed where the Floridan Aquifer is vulnerable to sources of contamination or reduced levels, as determined by the department in consultation with the appropriate water management districts.

(7) "Spring run" means a body of flowing water that originates from a spring or whose primary source of water is a spring or springs under average rainfall conditions.

(8) "Springshed" means the areas within the groundwater and surface water basins which contribute, based upon all relevant facts, circumstances, and data, to the discharge of a spring as

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

defined by potentiometric surface maps and surface watershed boundaries.

(9) "Spring vent" means a location where groundwater flows out of a natural, discernable opening in the ground onto the land surface or into a predominantly fresh surface waterbody.

Section 7. Section 373.803, Florida Statutes, is created to read:

373.803 Delineation of spring protection and management zones for Outstanding Florida Springs.—Using the best data available from the water management districts and other credible sources, the department, in consultation with the water management districts, shall delineate one or more spring protection and management zones for each Outstanding Florida Spring. In delineating spring protection and management zones, the department shall consider groundwater travel time to the spring, hydrogeology, and nutrient load. The delineation of spring protection and management zones must be completed by July 1, 2015. In conjunction with delineating a spring protection and management zone for an Outstanding Florida Spring, the department shall adopt by rule, pursuant to ss. 120.536(1) and 120.54, maps and legal descriptions that depict the delineated spring protection and management zone or zones for that spring.

Section 8. Section 373.805, Florida Statutes, is created to read:

373.805 Minimum flow and minimum water level for Outstanding Florida Springs.—

(1) Each water management district shall establish a minimum flow and minimum water level for each Outstanding Florida Spring within its jurisdiction by July 1, 2015, in

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

accordance with ss. 373.042 and 373.0421. The deadline may be extended each year until July 1, 2020, if a water management district provides sufficient evidence to the department that an extension is in the best interest of the public. This subsection does not apply to minimum flows and minimum water levels adopted before July 1, 2014, for a spring included in the definition of Outstanding Florida Springs in s. 373.802, until such time as the minimum flow or minimum water level is revised, or otherwise amended.

(2) By July 1, 2017, each water management district shall approve a recovery or prevention strategy, as required by ss. 373.042 and 373.0421, for each Outstanding Florida Spring in its jurisdiction in which the existing flow or water level of the Outstanding Florida Spring is below, or is projected within the next 20 years to fall below, the applicable minimum flow or minimum water level established pursuant to s. 373.042. The recovery or prevention strategy for each Outstanding Florida Spring must include, at a minimum:

(a) A listing of all specific projects identified for implementation of a recovery or prevention strategy.

(b) A priority listing of each project.

(c) The estimated cost for each listed project.

(d) The source and amount of financial assistance to be made available by the water management district for each project, which may not be less than 25 percent of the total project cost unless a specific funding source or sources are identified which will provide more than 75 percent of the total project cost. The Northwest Florida Water Management District and the Suwannee River Water Management District are not

required to provide matching funds pursuant to this paragraph.

Section 9. Section 373.807, Florida Statutes, is created to read:

373.807 Protection of water quality in Outstanding Florida Springs.—By July 1, 2015, the department shall assess each Outstanding Florida Spring for which an impairment determination has not been made under the numeric nutrient standards in effect for spring vents.

(1) BASIN MANAGEMENT ACTION PLAN.—By July 1, 2017, the department shall develop basin management action plans, as specified in s. 403.067(7), for Outstanding Florida Springs impaired by nutrients.

(2)(a) SPRING ACTION PLAN.—By July 1, 2014, the department shall begin preparation of a spring action plan for each Outstanding Florida Spring that has an adopted basin management action plan or an implemented recovery or prevention strategy, or as soon as a basin management action plan is adopted, a recovery or prevention strategy is implemented, or the department projects the Outstanding Florida Spring will be impaired by nutrients within 20 years. Each initial spring action plan shall be adopted within one year of when the department begins preparation of the spring action plan. Further, the spring action plan must be continually updated to reflect newly added and completed projects.

(b) A spring action plan must include all of the following:

1. All projects in the basin management action plan which are located fully or partially within a spring protection and management zone.

2. All projects in the regional water supply plan which are

located fully or partially within a spring protection and management zone.

3. All projects included in a recovery or prevention strategy which are located fully or partially within a spring protection and management zone.

4. All projects proposed to or by the department that will prevent or stop potential nutrient impairment.

5. An estimate of each listed project's reduction of nutrient loading.

6. A map and legal descriptions depicting the spring protection and management zones established pursuant to s. 373.803.

7. Identification of each point source or category of nonpoint sources, including but not limited to, urban turf fertilizer, sports turf fertilizer, agricultural fertilizer, onsite sewage treatment and disposal systems, wastewater treatment facilities, animal wastes, and stormwater facilities. An estimated allocation of the pollutant load shall be provided for each point source or category of nonpoint sources.

(3) REQUIREMENTS.—

(a) Within 6 months of the delineation of a spring protection and management zone or zones of an Outstanding Florida Spring that is fully or partially within the jurisdiction of a local government, a local government must develop, enact, and implement an ordinance that meets or exceeds the requirements of the department's Model Ordinance for Florida-Friendly Fertilizer Use on Urban Landscapes. Such ordinance must require that, within a spring protection and management zone of an Outstanding Florida Spring impaired by

nutrients, the nitrogen content of any fertilizer applied to turf or landscape plants may not exceed the lowest, basic maintenance rate of the most recent recommendations by the Institute of Food and Agricultural Sciences. The department shall adopt rules to implement this paragraph which establish reasonable minimum standards and reflect advancements or improvements regarding nutrient load reductions.

(b) By July 1, 2016, the owner or operator of each existing wastewater treatment facility in a spring protection and management zone shall file for approval by the department a plan for complying with this paragraph. Upon a showing to the department of inordinate expense or that a delay is in the best interest of the public, the department may grant a local government or wastewater treatment facility an extension of up to 2 years to implement the plan. The owner and operator shall submit a proposal for funding at least once every 2 years until the plan is fully implemented.

(c) By July 1, 2016, the department, in consultation with the Department of Health and local governments, must identify onsite sewage treatment and disposal systems within a spring protection and management zone. Within 60 days of the department's completion of the identification of these systems, the department shall provide the location of these systems to the local governments in which these systems are located. Within 1 year of identification of these systems, and in consultation with the department, the local governments in which they are located shall develop an onsite sewage treatment and disposal system remediation plan. For each onsite sewage treatment and disposal system or group of systems, the plan must include

whether the systems require upgrading, connection to a central sewerage system, or no action. The plan must also include a priority ranking for each system or group of systems that require remediation. Each remediation plan must be submitted to the department for approval. In reviewing and approving the remediation plans, the department shall consider, at a minimum, all of the following:

1. The density of the onsite sewage treatment and disposal systems.

2. The number of onsite sewage treatment and disposal systems.

3. The proximity of the onsite sewage treatment and disposal system or systems to an Outstanding Florida Spring

4. The estimated nutrient loading of the onsite sewage treatment and disposal system or systems.

5. The cost of the proposed remedial action.

(d) Remedial actions required under this paragraph are not required until adequate funding for the specific project is provided pursuant to s. 373.808. As used in this paragraph, the term "adequate funding" means that the department has agreed to provide 100 percent of the state's portion of funding requested for the project under s. 373.808. The provisions of this paragraph are supplemental to any other specific requirements or authority provided by law.

1. By July 1, 2021, the owner or operator of each existing wastewater treatment facility in a spring protection and management zone shall meet a standard of no more than 3 mg/L Total Nitrogen, expressed as N, on an annual permitted basis, unless granted a variance or exemption pursuant to s. 373.813.

2. By July 1, 2019, each agricultural producer in a spring protection and management zone must implement best management practices or other measures necessary to achieve pollution reduction levels established by the department. The Department of Agriculture and Consumers Services, in consultation with the department, shall adopt rules to implement this subparagraph.

3. Within 6 months after approval of the onsite sewage treatment and disposal system remediation plan by the department, the local government shall begin implementing the approved remediation plan by making proposals to the department for funding pursuant to s. 373.808. The costs of connection to a central sewerage system or upgrading the onsite sewage treatment and disposal systems are eligible for funding of up to 100 percent of the total project cost. Further, the costs of connection to a central sewerage system or upgrading the onsite sewage treatment and disposal system may not be imposed on the property owner. The local government shall submit a proposal for funding at least every two years until the remediation plan is fully implemented.

Section 10. Section 373.808, Florida Statutes, is created to read:

373.808 Funding for the restoration of Outstanding Florida Springs.—

(1) In order to satisfy the requirements under this part, state agencies, water management districts, local governments, special districts, utilities, and regional management entities, if applicable, shall cooperate with property owners and agricultural producers to submit project proposals to the department in order to receive funding for up to 75 percent of

the total project cost. Project submittals for upgrades or connections of onsite sewage treatment and disposal systems, and those submitted by a fiscally constrained county as described in s. 218.67(1) or in a municipality located therein, are eligible for funding of up to 100 percent of the total project cost.

(2) Projects approved by the department shall be funded by moneys from documentary stamp tax revenues deposited into the Ecosystem Management and Restoration Trust Fund in accordance with s. 201.15(1)(c)3.b. The Legislature may use other sources of revenue to fund projects submitted to the department pursuant to this part.

(3) The department may distribute moneys deposited into the Ecosystem Management and Restoration Trust Fund pursuant to subsection (2) to any person who submits a project proposal application to the department for which funding is approved. The department shall distribute moneys to state agencies and water management districts for all reasonable administrative costs related to implementing this part. In addition, the department may adopt rules to develop grant application procedures to cover reasonable administrative costs of a fiscally constrained county as described in s. 218.67(1) or a municipality located therein.

(4) Moneys in the fund not needed in the current fiscal year to meet obligations incurred under this part shall be deposited to the credit of the fund and may be invested in the manner provided by law. Interest received on such investments shall be credited to the Ecosystem Management and Restoration Trust Fund for the purposes specified in s. 201.15(1)(c)3.b.

(5) By December 31, 2014, the department shall adopt rules to fund pilot projects that test the effectiveness of innovative

or existing nutrient reduction or water conservation technologies or practices designed to minimize nutrient pollution in the springs of this state. The department must approve funding for at least two pilot projects in each project selection cycle if the department determines that the project will not be harmful to the ecological resources in the study area.

(6) By December 31, 2014, the department shall develop and recommend rules to competitively evaluate, select, and rank projects eligible for partial or complete funding under this section. In developing these rules, the department shall give preference to the projects that it estimates will result in the greatest improvement to water quality and water quantity for the dollars to be expended for the project. At a minimum, the department shall consider the following criteria:

(a) Whether the project is within a spring protection and management zone of an Outstanding Florida Spring impaired by nutrients.

(b) The level of nutrient impairment of the Outstanding Florida Spring in which the project is located.

(c) The quantity of pollutants, particularly total nitrogen, the project is estimated to remove from a spring protection and management zone.

(d) Whether the project is within a spring protection and management zone of an Outstanding Florida Spring that is not meeting its adopted minimum flow or minimum water level.

(e) The flow necessary to restore the Outstanding Florida Spring to its adopted minimum flow or minimum water level.

(f) The anticipated impact the project will have on

restoring or increasing water flow or water level.

(g) Whether the project facilitates or enhances an existing basin management action plan adopted by the department to address pollutant loadings.

(h) Whether the project is identified and prioritized in an adopted regional water supply plan.

(i) The percentage by which the amount of matching funds provided by the applicant exceeds the statutory minimum required under s. 373.805 or s. 373.807.

(j) For multiple-year projects, whether the project has funding sources that are identified and assured through the expected completion date of the project.

(k) The cost of the project and the length of time it will take to complete relative to its expected benefits.

(l) Whether the applicant, since July 1, 2009, has used its own funds for projects to improve water quality or conserve water use within a springshed or spring protection and management zone of an Outstanding Florida Spring, with preference given to those applicants that have expended such funds.

(7) In addition to the criteria set forth in subsection (6), a project may not be funded by the department under this part unless it is listed on a spring action plan.

Section 11. Section 373.809, Florida Statutes, is created to read:

373.809 Prohibited activities within a spring protection and management zone of an Outstanding Florida Spring.—The following activities are prohibited within a spring protection and management zone of an Outstanding Florida Spring:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(1) New municipal or industrial wastewater disposal systems, including rapid infiltration basins, except those systems that meet an advanced wastewater treatment standard of no more than 3 mg/L Total Nitrogen, expressed as N, on an annual permitted basis, or a higher treatment standard if the department determines the higher standard is necessary to prevent impairment or aid in the recovery of an Outstanding Florida Spring.

(2) New onsite sewage treatment and disposal systems on lots less than 1 acre, except for active or passive nitrogen removing onsite sewage treatment and disposal systems approved by the Department of Health. This subsection shall take effect July 1, 2015.

(3) New facilities for the disposal of hazardous waste.

(4) The land spreading, dumping, or disposal of all domestic wastewater residuals or septage.

(5) Concentrated animal feeding operations or intense cattle finishing and slaughter operations. This subsection does not apply to operations permitted by July 1, 2014, or the future expansion of livestock or poultry operations engaged in the occupation of bona fide agriculture as of July 1, 2014.

Section 12. Section 373.811, Florida Statutes, is created to read:

373.811 Rules.—

(1) The department shall adopt rules to create a program to improve water quantity and water quality pursuant to ss. 120.536(1) and 120.54 to administer this part, as applicable. In developing rules to administer s. 373.808, the department shall use the Total Maximum Daily Load Water Quality Restoration

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Grants rule as guidance to develop a comparable program for the restoration and protection of the water quality and water quantity for Outstanding Florida Springs.

(2) The Department of Health, the Department of Agriculture and Consumer Services, the water management districts, and responsible management entities may adopt rules pursuant to ss. 120.536(1) and 120.54 to administer this part, as applicable.

(3)(a) The Department of Agriculture and Consumer Services is the lead agency coordinating the reduction of agricultural nonpoint sources of pollution for the protection of Outstanding Florida Springs. The Department of Agriculture and Consumer Services and the department, pursuant to s. 403.067(7)(c)4., shall study new or revised best management practices for improving and protecting Outstanding Florida Springs and, if necessary, in cooperation with applicable local governments and stakeholders, initiate rulemaking to require the implementation of such practices within a reasonable time period.

(b) The department, the Department of Agriculture and Consumer Services, and the University of Florida's Institute of Food and Agricultural Sciences shall cooperate in conducting the necessary research and demonstration projects to develop improved or additional nutrient management tools, including the use of controlled release fertilizer that can be used by agricultural producers as part of an agricultural best management practices program. The development of such tools must reflect a balance between water quality improvement and agricultural productivity and, when applicable, must be incorporated into the revised best management practices adopted by rule of the Department of Agriculture and Consumer Services.

Section 13. Section 373.813, Florida Statutes, is created to read:

373.813 Variances and exemptions.—A person may apply to the appropriate agency or a water management district for a variance or exemption from any requirement in this part. An agency or a water management district may approve the application upon receiving reasonable assurance that the applicant's proposed activity, evaluated individually and as part of cumulative impacts, will not cause or contribute to violations of water quality standards, minimum flows, or minimum water levels in an Outstanding Florida Spring.

Section 14. Present paragraphs (n) through (q) of subsection (2) of section 381.0065, Florida Statutes, are redesignated as paragraphs (o) through (r), respectively, a new paragraph (n) is added to that subsection, and subsection (7) is added to that section, to read:

381.0065 Onsite sewage treatment and disposal systems; regulation.—

(2) DEFINITIONS.—As used in ss. 381.0065-381.0067, the term:

(n) "Responsible management entity" has the same meaning as in s. 373.802.

(7) RESPONSIBLE MANAGEMENT ENTITIES.—

(a) By March 1, 2015, the department and the Department of Environmental Protection shall submit a report and recommendations to the Governor, the President of the Senate, and the Speaker of the House of Representatives on the creation and operation of responsible management entities within spring protection and management zones of Outstanding Florida Springs,

as defined in s. 373.802. The report must focus on the feasibility of different management models to prevent, reduce, and control nutrient pollution from onsite sewage treatment and disposal systems, including the costs associated with each model. In addition, the report must compare the results of the differing management models to a mandatory onsite sewage treatment and disposal system evaluation and assessment program or any other option that would achieve similar nutrient pollution reductions in the short and long term.

(b) A local government may not create a responsible management entity without the prior approval of the department, in consultation with the Department of Environmental Protection. In reviewing requests for the creation of a responsible management entity, the local government must demonstrate to the department, in consultation with the Department of Environmental Protection, that it has the management skills, personnel, financial capacity, and technical expertise to properly operate and maintain such an entity.

(c) The department shall ensure that responsible management entities adopt rules and policies that are at least as restrictive as state law.

Section 15. Section 381.00651, Florida Statutes, is repealed.

Section 16. Comprehensive study on nutrient reduction improvements and the beneficial use of reclaimed water, stormwater, and excess surface water.—

(1) The Department of Agriculture and Consumer Services and the Department of Environmental Protection, in cooperation with the five water management districts, shall conduct a

comprehensive study on the expansion of the beneficial use of reclaimed water, stormwater, and excess surface water in this state. The final report of the study must:

(a) Describe factors that currently prohibit or otherwise complicate the expansion of the beneficial use of reclaimed water and include recommendations for the mitigation or elimination of such factors.

(b) Identify environmental, public health, public perception, engineering, and fiscal issues, and user fee amounts, including utility rate structures for potable and reclaimed water.

(c) Identify areas in the state where making reclaimed water available for irrigation or other uses is necessary because the use of traditional water supply sources is constrained by limitations on availability.

(d) Evaluate the costs to users of reclaimed water compared to the cost associated with traditional water sources, including an examination of the nutrient concentrations in reclaimed water and the necessity for additional fertilizer supplementation.

(e) Evaluate permitting incentives, such as further extending current authorization for long-term consumptive use permits to all entities substituting reclaimed water for traditional water sources or including in such permits a provision that authorizes conversion to traditional water sources if reclaimed water becomes unavailable or cost prohibitive.

(f) Describe the basic feasibility, benefit, and cost estimates for the infrastructure needed to construct regional storage features on public or private lands for reclaimed water,

stormwater, or excess surface water, including collection and delivery mechanisms for beneficial uses rather than discharge to tide, such as agricultural irrigation, power generation, public water supply, wetland restoration, groundwater recharge, and water body base flow augmentation.

(g) Describe any other alternative processes, systems, or technology that may be comparable or preferable to a regional storage system or that may effectively complement or be a substitute for a regional storage system.

(h) Evaluate the impact of implementation of a comprehensive reclaimed water plan on traditional water sources and aquifer levels.

(2) The Department of Agriculture and Consumer Services and the Department of Environmental Protection shall jointly hold a public meeting to gather input on the design of the comprehensive study and to provide an opportunity for public comment before publishing the final report of the study.

(3) The final report shall be submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives by December 1, 2015.

(4) This section expires on December 1, 2015.

Section 17. This act shall take effect July 1, 2014.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

THE FLORIDA SENATE

Tallahassee, Florida 32399-1100

COMMITTEES:
Environmental Preservation and Conservation, *Chair*

The Honorable Joe Negron
412 Senate Office Building
404 South Monroe Street
Tallahassee, FL 32399-1100

Dear Chairman Negron,

I respectfully request you place Committee Substitute for Committee Substitute for Senate Bill 1576, relating to Springs, on your Appropriations Committee agenda at your earliest convenience.

If you have any concerns, please do not hesitate to contact me personally.

Sincerely,

Charles S. Dean
State Senator District 5

cc: Cindy Kynoch, Staff Director

TOWN OF WHITE SPRINGS

" On the Banks of the Suwannee River "

21 April 2014

Senator David Simmons
406 Senate Office Building
404 S. Monroe Street
Tallahassee, FL 32399

Dear Senator Simmons:

Economic Devastation in White Springs due to Excessive Groundwater Withdrawals to the East, Specifically within SJRWMD

I wish to extend my sincere appreciation to you for your leadership on the Springs Protection legislation, and for taking the time on April 9 to meet with me and my colleagues representing the North Florida Water Working Group. My small town of White Springs – Florida's Original Tourist Destination, and my sister municipalities, are experiencing severe economic dislocations due to Floridan Aquifer over-pumping and contamination.

Since 1831 the medicinal spring waters of the White Sulphur Spring were the driving force behind our community's historic role in the development of the State of Florida. Even before our roads were paved, White Springs was populated with world class hotels, eateries, pharmacies, boutiques, hardware stores, bowling alleys, movie theaters and more. White Springs was "THE Destination," the "must stop" on the railroad. Presidents, their staffs and families, were among the dignitaries and celebrities to experience Florida in White Springs. White Springs was the "New York City" of Florida, but now it's the "Dead Canary" of Florida.

Evidence of our plight has been quantified by the SRWMD. I am attaching a map from their study showing how the groundwater basin divide, which is the point at which groundwater moves either east or west, has migrated some 35 miles west. This line is moving west because of excessive groundwater withdrawals to our east. According to the Florida Geological Survey, since the beginning of groundwater pumping in Northeast Florida, the drawdown of the Floridan Aquifer is over 60 feet. The 2010 SRWMD Water Supply Assessment documents a six foot drawdown over the most recent 30 year period. This is not conjecture. This is science.

Senator, water quality and quantity go hand-in-hand. There is little or no benefit to having all of the water we want if it is saturated with contaminants and unfit for use by the public or wildlife in our lakes, rivers and waterways. And, there is little or no benefit to having the cleanest water on the planet if we do not have sufficient quantities to support our public needs and springs don't flow, lakes, rivers and estuaries dry out and wildlife withers and dies. White Springs, as does all of Florida, needs both.

P.O. Drawer D | 10363 Bridge Street | White Springs, FL 32096

Ph. 386.397.2310 | Fax 386.397.1542 | www.whitesprings.org | cityhall@windstream.net

All of Florida depends upon the Floridan Aquifer. It is the World's Greatest Natural Wonder – larger than the Grand Canyon, larger than the Great Barrier Reef, and with more water flowing through it daily than Victoria Falls. It has more springs, sinkholes, solution tubes, underground caverns and rivers than any other geologic formation in the world. All of it depends upon the quantity and quality of water flowing through and from this unique geologic structure. The consequences of not addressing water quantity and quality issues are nothing short of devastating – the reduction in water flow caused our spring to stop flowing and is also the major contributor to the substantial problems we face with water quality. According to research conducted by the Florida Springs Institute, the average flow of SRWMD's 300+ springs has been reduced by over 40 percent. This massive reduction in flow threatens all of the Floridan Aquifer, the region's springs, and the economic vitality of their human communities.

If I, or any member of the North Florida Water Working Group, can assist you in any way with your springs legislation which will re-define the future of the State of Florida, we are at your service.

With appreciation and best wishes,

Dr. Helen B. Miller
Mayor, Town of White Springs
Member, North Florida Water Working Group

cc: Columbia County Commissioner Ron Williams, Chair, NFWWG

Enclosure - 1

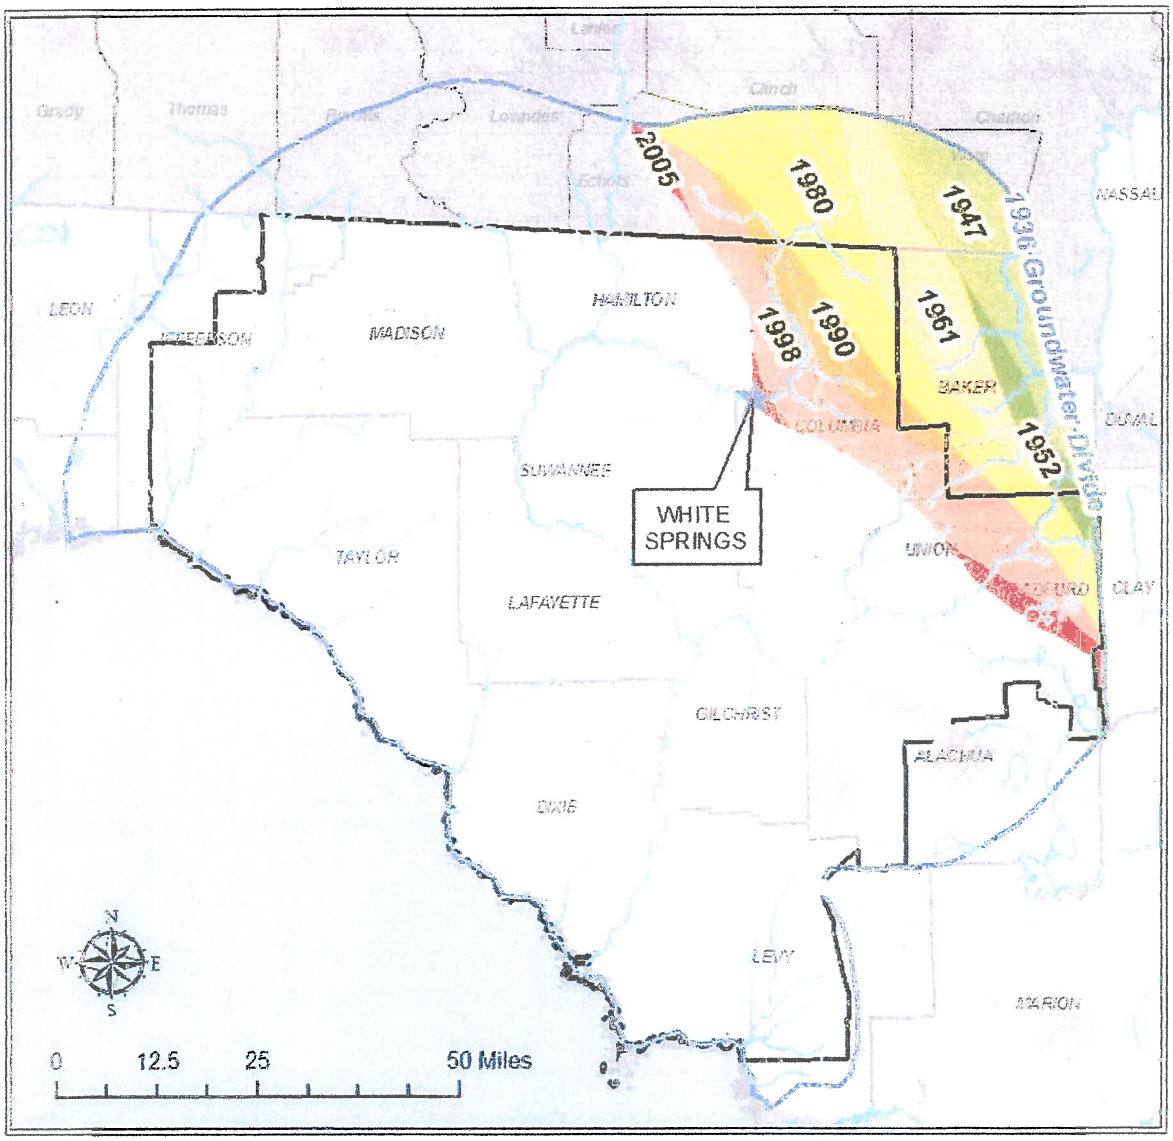

Figure ES-1. Migration of the Groundwater Basin Divide in the Northeastern Portion of the District.

Figure ES-2 illustrates the magnitude of the decline in average potentiometric levels from 1981 to the present that is responsible for a portion of the migration of the groundwater divide depicted in Figure ES-1. The figure shows potentiometric levels for a 28 mile long cross section through the Upper Floridan aquifer based on groundwater levels in three wells from the District's groundwater monitoring network. Average groundwater levels from each well for each five year period between 1981 and 2010 were analyzed for trends. The analysis indicates that the potentiometric surface of the Upper Floridan aquifer across section A-A' has experienced a cumulative drawdown of approximately six feet over the past 29 years. This decline is in

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 1582 (664100)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on General Government) and Senator Dean
SUBJECT:	Rehabilitation of Petroleum Contamination Sites
DATE:	April 21, 2014 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Gudeman	Uchino	EP	**Favorable**
2.	Howard	DeLoach	AGG	**Fav/CS**
3.	Howard	Kynoch	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/SB 1582 revises the legislative intent for the Petroleum Restoration Program in the Department of Environmental Protection (DEP or department), requires competitive procurement for cleanup contracts, and amends contractor qualifications. The bill limits the eligibility funding for the Early Detection Incentive (EDI) Program, deletes obsolete provisions related to the reimbursement program, and repeals sections of statute related to the Petroleum Preapproval Program.

The DEP anticipates that the costs to the state for site rehabilitation will decrease with the implementation of competitive solicitation procedures. In the preapproved advanced cleanup program, lower costs of at least 25 percent are required for applicants participating in a performance-based contract for the cleanup of at least 20 sites. The increase in workload related to contracts and procurement can be handled with existing staff.

The bill takes effect on July 1, 2014.

II. Present Situation:

Petroleum Restoration Program

The Division of Waste Management within the DEP regulates underground and aboveground storage tank systems. In 1983, Florida became one of the first states to pass legislation and adopt rules to regulate underground and aboveground storage tanks.[1] Leaking storage tanks pose a significant threat to groundwater quality, and Florida relies on groundwater for about 92 percent of its drinking water needs.[2]

In 1986, the Legislature passed the State Underground Petroleum Environmental Response Act (SUPER Act) to address the problem of pollution from leaking underground petroleum storage systems. The SUPER Act authorized the DEP to establish criteria for the prioritization, assessment, cleanup, and reimbursement for cleanup of contaminated sites. The SUPER Act also created the Inland Protection Trust Fund (IPTF), which is funded by a tax on petroleum products imported or produced in Florida. The SUPER Act established the Early Detection Incentive Program (EDI), which provided site owners with the option of conducting the cleanup themselves, and then receive reimbursement from the IPTF, or have the state conduct the cleanup in priority order.[3]

In 1988, the Legislature created the Petroleum Liability Insurance Program (PLIP) to provide third-party liability insurance to qualified program participants. The PLIP provided up to $1 million of liability insurance for each incident of petroleum contamination.[4] The program was revised in 1989 and renamed to the Petroleum Liability Insurance and Restoration Program (PLIRP). The PLIRP allows eligible petroleum facilities to purchase $1 million in pollution liability protection from a state contracted insurer and provided $1 million worth of site restoration coverage through reimbursement or state-funded cleanup.[5]

In 1990, the Legislature established the Abandoned Tank Restoration Program (ATRP). The ATRP was created to address the contamination at facilities that had out-of-service or abandoned tanks as of March 1990. The ATRP originally had a one-year application period, but the deadline is now waived indefinitely for owners who are unable to pay for the closure of abandoned tanks.[6]

The Legislature began to phase out the state's role in the cleanup process in 1992 by shifting the cleanup of sites to the reimbursement program,[7] which was funded by increasing the excise tax on petroleum and petroleum products.[8] The reimbursement program proved costly, and within a few years the reimbursement amount exceeded the administrative capacity of the DEP and the financial resources of the IPTF. By 1996, over 18,000 petroleum sites had been identified as

[1] *See* ch. 83-310, Laws of Fla.

[4] Chapter 88-331, Laws of Fla.
[5] Chapter 89-188, Laws of Fla.
[6] Chapter 90-98, Laws of Fla.
[7] The term "cleanup sites" includes contaminated sites that are being remediated by the state or the property owner.
[8] Chapter 92-30, Laws of Fla.

contaminated and the program had accumulated $551.5 million in outstanding reimbursement claims.[9]

In 1995, the Legislature passed a temporary measure to address the large backlog of reimbursement applications and unpaid claims and required a review of the petroleum underground storage tanks program. The measure only funded the remediation of sites that had received prior notice from the DEP.[10]

The Petroleum Preapproval Program (program) was implemented by the Legislature in 1996. The program required state-funded clean up of sites to be done on a preapproved basis, in priority order, and within the current fiscal year's budget. The program also required the DEP to use risk-based corrective action principles in the cleanup criteria rule. The Petroleum Cleanup Participation Program (PCPP) was created for sites that had missed the opportunity for state funding assistance but had reported contamination before 1995. Responsible parties were required to cost share in the cleanup and prepare a limited scope assessment at their expense.[11]

The Preapproved Advanced Cleanup (PAC) program was also created in 1996 to allow property owners or responsible parties the opportunity to pay a portion of the cleanup costs in order to bypass the priority ranking list. The PAC program requires applicants to provide at least 25 percent of the total cleanup costs and requires the property owner to prepare limited scope assessments at their expense.[12]

Section 376.30713(4), F.S., authorizes the DEP to enter into PAC contracts for up to $15 million each fiscal year and limits the amount a facility may receive to $5 million per year. A facility includes multiple site facilities such as airports, ports, or terminal facilities.[13] PAC applications are submitted to the DEP twice a year (between May 1 and June 30 and between November 1 and December 31). The applications are ranked based on the percentage of cost-sharing commitment proposed by the applicant, with the highest ranking given to the applicant that proposes the highest percentage of its share of costs.[14] In 1999, the Legislature amended the Petroleum Preapproval Program to allow the DEP to fund certain source removal activities. The bill addressed new petroleum discharges that occurred at a site with existing contamination and were reported after December 31, 1998. The bill allowed a responsible party to enter into a Site Rehabilitation Agreement with the DEP and to share in the cost and coordination of the cleanup, provided that the responsible party submit an application and a Limited Contamination Assessment Report to the DEP.[15]

The Legislature substantially amended the Petroleum Preapproval Program in 2005 to require:

- All of Florida's underground petroleum storage tanks be upgraded prior to January 1, 2010;

[9] Comm. on Environmental Preservation and Conservation, the Florida Senate, *Underground Petroleum Storage Tank Cleanup Program*, (Interim Report 2005-153) (Nov. 2004).
[10] Chapter 95-2, Laws of Fla.
[11] Chapter 96-277, ss. 18-19, Laws of Fla.
[12] Section 376.30713, F.S.
[13] Section 376.30713(4), F.S.
[14] Section 376.30713(2), F.S
[15] Chapter 99-376, Laws of Fla.

- The DEP to establish a process to uniformly encumber funds appropriated for the underground storage tank program throughout a fiscal year;
- The DEP to establish priorities based on a scoring system;
- Funding for limited interim soil-source removals for sites that become inaccessible for future remediation due to road infrastructure and right-of-way restrictions resulting from pending Department of Transportation projects;
- Funding for limited interim soil-source removals associated with the underground petroleum storage system upgrade that are conducted in advance of the site's priority ranking for cleanup;
- Limited funding to 10 sites per fiscal year per owner for source removal associated with the underground petroleum storage system upgrade;
- Limited funding per facility and for activities that may be funded;
- Limited funding of $1 million per fiscal year for Department of Transportation projects, and $10 million per fiscal year for underground petroleum storage system upgrade projects;
- Repeal of funding provisions as of June 30, 2008;
- Availability of the Preapproved Advanced Cleanup Participation Program for discharges of petroleum that are eligible for restoration funding under the Petroleum Cleanup Participation Program for the state's cost share of site rehabilitation; and
- Extension of the life of the Inland Protection Financing Corporation from 2011 to 2025, and require the corporation to issue notes and bonds, and to pay for large-scale cleanups such as ports, airports, and terminal facilities that are eligible for state funding.[16]

In 2013, the Legislature amended s. 376.30711, F.S., to require all task assignments, work orders, and contracts for providers under the preapproval program be procured through competitive bidding pursuant to ss. 287.056, 287.057, and 287.059, F.S., after June 30, 2014.[17] Pursuant to s. 376.30711, F.S., the DEP is authorized to use competitive bid procedures or negotiated contracts for preapproving all costs and procedures for site-specific rehabilitation projects, but has not done so on a permanent basis.

Pursuant to s. 287.057, F.S., state agencies that competitively solicit contractual services exceeding $35,000 must:

- Make the competitive solicitation available to all vendors;
- Include the time and date for the receipt of bids, proposal, or replies, and of the public opening;
- Include the contractual terms and conditions applicable to the procurement and the criteria used to determine acceptability and merit of the bid;
- Use the invitation to bid process when the agency is able to define the scope of work and establish the specifications of the services needed;
- Use the request for proposal process when the purpose of the services needed can be defined and the agency can identify the deliverables; and
- Use the invitation to negotiate process when the agency must determine the best method for achieving the specific goal and more than one vendor is able to provide the services.

[16] Sections 376.3071, 376.30713, 376.3075, and 376.30715, F.S.
[17] Chapter 2013-41, s. 29, Laws of Fla.

Contractual services that exceed the $35,000 threshold must be procured through competitive sealed bids, competitive sealed proposals, or competitive sealed replies unless:

- The agency head determines there is an immediate danger to public health, safety, or welfare; and
- The agency purchases the services from a state procured contract that was contracted by another agency pursuant to s. 287.057(1), F.S.[18]

MyFloridaMarketPlace

The Department of Management Services established a statewide electronic registration and procurement system called MyFloridaMarketPlace. Pursuant to s. 287.057(23), F.S., a one percent transaction fee is charged to all vendors in order to utilize the system.[19]

Funding for the Petroleum Restoration Program

The Fiscal Year 2013-2014 General Appropriations Act (GAA) appropriated $125 million to the DEP for the rehabilitation of eligible petroleum contaminated sites. The GAA directed that up to $50 million be appropriated to fund petroleum rehabilitation task assignments, work orders, and contracts entered into prior to June 30, 2013. The remaining $75 million was placed in reserve and was contingent upon submission of a plan for consideration by the Legislative Budget Commission (LBC) detailing how the DEP would improve the effectiveness and efficiency of the Petroleum Restoration Program. Also, no funds could be released after January 1, 2014, unless the DEP adopted rules to implement ss. 376.3071, 376.30711, and 376.30713, Florida Statutes. The DEP's plan was approved by the LBC on September 12, 2013, and rules were adopted on December 27, 2013. The remaining $75 million in appropriation was released in March 2014.[20]

The DEP is currently transitioning the Petroleum Restoration Program from the "preapproved contractor" approach to competitive procurement procedures pursuant to ss. 287.056, 287.057, and 287.059, F.S., and rules 62-771 and 62-772, F.A.C. As of January 31, 2014, there are approximately 17,300 sites or gasoline filling stations eligible for state funding and approximately 7,258 sites have been rehabilitated. Approximately 3,167 sites are currently undergoing some phase of site rehabilitation, and approximately 6,911 sites await rehabilitation. Site rehabilitation is funded based on available budget and the priority score. The score for each site ranges from five to 115, with five representing a very low potential threat to human health and the environment, and 115 representing a substantial potential threat.[21]

As of March 13, 2014, there are 60 approved cleanup contractors and 137 executed contracts. The DEP has:

- Obligated approximately $57.1 million of the Fiscal Year 2013-2014 appropriation of $125 million;

[18] See s. 287.057, F.S.
[19] See Rules 60A-1.030, 60A-1.031, and 60A-1.032, F.A.C.
[20] Chapter 2013-40, Laws of Fla.
[21] DEP, *Senate Bill 1582 Agency Analysis*, 3 (Mar. 12, 2014) (on file with the Senate Committee on Environmental Preservation and Conservation).

- Directed assigned rehabilitation work to 149 sites with a total value of $5,041,217, which is included in the total obligated amount of $57.1 million; and
- Selected 13 sites to receive quotes from contractors for a total estimated value of $4,216,075, which is not included in the $57.1 million.[22]

Legislative Ratification of Agency Rules

The Legislature required the DEP to adopt rules to implement ss. 376.3071, 376.30711, and 376.30713, F.S., by December 31, 2013, otherwise the remaining, unreleased funds appropriated for Fiscal Year 2013-2014 could not be released. On May 30, 2013, the DEP published a Notice of Rule Development in the Florida Administrative Register to create Rule 62-772, F.A.C., and amend Rule 62-771, F.A.C. The new rules provide the procedures for the procurement of contractual services for clean up of petroleum contaminated sites and amend the procedures for establishing the priority scoring system for petroleum contaminated sites. The rules were adopted on December 27, 2013.

Pursuant to s. 120.541, F.S., a rule that meets any of three thresholds must be ratified by the Legislature. The thresholds include:

- If the rule is likely to have an adverse impact on economic growth, private sector job creation or employment, or private sector investment in excess of $1 million in the aggregate within five years after implementation of the rule;
- If the rule is likely to have an adverse impact on business competitiveness, including the ability of persons doing business in the state to compete with persons doing business in other states or domestic markets, productivity, or innovation in excess of $1 million in the aggregate within five years after implementation of the rule; or
- If the rule is likely to increase regulatory costs, including any transactional costs, in excess of $1 million in the aggregate within five years after implementation of the rule.[23]

The DEP prepared a Statement of Estimated Regulatory (SERC) for Rules 62-772.300 and 62-772.400, F.A.C., and determined the rules triggered a statutory threshold requiring ratification. The SERC for Rule 62-772.300, F.A.C., estimates the cost for contractors to maintain business licensure, safety compliance, workers compensation insurance, comprehensive automobile insurance, and general and professional liability insurance is approximately $15.4 million per year. The cost estimate provided in the SERC is based on 225 contractors. As of March 2014, the number of agency term contractors is 70, decreasing the cost associated with Rule 62-772.300, F.A.C., to approximately $4.8 million per year.[24]

The SERC for Rule 62-772.400, F.A.C., estimates the cost incurred by contractors to assemble and submit bids, responses, replies, and quotes to the DEP as part of the competitive

[22] Email from Pierce Schuessler, Legislative Affairs Director, DEP (Mar. 16, 2014) (on file with the Senate Committee on Environmental Preservation and Conservation).
[23] Section 120.541(2)(a)1.-3., F.S.
[24] DEP, *Statement of Estimated Regulatory Cost, Rule 62-772.300, F.A.C.*, 3 (on file with the Senate Committee on Environmental Preservation and Conservation).

procurement procedures and a one percent transaction fee for MyFloridaMarketPlace, to be approximately $41 million per year.[25]

The cost requirements outlined by the DEP in its new rules are already required of and incurred by contractors in order to conduct business pursuant to ss. 376.3071, 376.30711, and 376.30713, F.S.; however, the existing requirements are being restated in rule, thereby requiring ratification by the Legislature.

III. Effect of Proposed Changes:

The bill provides conforming language and makes technical changes to repeal the Petroleum Preapproval Program and requires the DEP to competitively procure contracts for the Petroleum Restoration Program.

Section 1 amends s. 376.3071, F.S., to affirm that the Petroleum Restoration Program be implemented in a manner that reduces costs and improves efficiencies for rehabilitation activities. The bill specifies that the Legislature intends to prioritize the cleanup of sites based on the threat of contamination to water resources and the environment, public health, safety, and welfare, and within the funding limits of the Inland Protection Trust Fund. The bill recognizes that when source removal is feasible and cost effective, it significantly reduces and eliminates the spread of contamination.

The bill specifies contracting and contractor selection requirements. It directs that state-funded cleanup sites are funded pursuant to the provisions of the Petroleum Restoration Program in ss. 376.3071, 376.305(6), 376.3072, and 376.3073, F.S. The bill requires a facility owner to abate the source of discharge for a release that occurred after March 29, 1995, and to notify the DEP if free product is present.

The bill requires the DEP to comply with competitive procurement requirements pursuant to ch. 287, F.S., or adopted rules.

Contractors that perform site assessments and remediation are required to certify to the DEP that they:

- Comply with applicable Occupational Safety and Health Administration regulations;
- Maintain workers compensation insurance for employees as required by the Florida Workers' Compensation Law;
- Maintain comprehensive general liability and comprehensive automobile liability insurance including:
  - Having minimum limits of $1 million per occurrence; and
  - Having $1 million per annual aggregate for personal injury, accidental death, and property damage;
- Maintain professional liability insurance of at least $1 million per occurrence and $1 million annual aggregate; and

[25] DEP, *Statement of Estimated Regulatory Cost, Rule 62-772.400, F.A.C.*, 3 (on file with the Senate Committee on Environmental Preservation and Conservation).

- Have the capacity to perform or directly supervise the majority of the rehabilitation work pursuant to s. 489.113(9), F.S.

The bill requires that the rules implementing this section must:
- Specify that only qualified contractors may submit responses on competitive solicitation;
- Include procedures for the rejection of vendors that do not meet the minimum qualifications; and
- Include requirements for the vendor to maintain its qualifications.

The bill provides procedures for invoicing and payments. Specifically, the bill:
- Requires invoices to be submitted on forms provided by the DEP;
- Requires contractors to provide evidence documenting the contracted services were provided;
- Requires invoices to be paid pursuant to s. 215.422, F.S., if there are sufficient unencumbered funds available;
- Allows a contractor to assign its right to payment to another person after the contractor has submitted an invoice and before payment is made;
- Specifies the assignee must be paid pursuant to s. 215.422, F.S.;
- Requires contractors to submit an invoice to the DEP within 30 days of the DEP's written acceptance of the interim deliverables or approval of the final deliverables;
- Allows the DEP to retain up to 25 percent of the contracted amount or use a performance bond as long as the terms are included in the contract;
- Specifies that the contractor, or the assignee, must make prompt payment to subcontractors and suppliers pursuant to s. 287.0585, F.S.;
- Specifies that the exemption provided in s. 287.0585(2), F.S., does not apply to payments associated with an approved contract;
- Allows the DEP to withhold payment if the validity or accuracy of the contractor's invoices or supporting documents is in question; and
- Does not authorize payment for the cost of contaminated soil treatment or disposal if the soil treatment or disposal does not meet the rules for general permitting, state air emissions standards, monitoring, sampling, and reporting rules as described by the DEP.

The bill specifies the DEP must terminate or suspend a contractor's eligibility for participation in the program if the contractor fails to perform its contractual duties. It also prohibits a site owner or operator, or its designee, from receiving remuneration in cash or in kind, directly or indirectly from a contract performing site cleanup activities. The bill clarifies that any action by the DEP to seek recovery of payments or overpayments to a contractor must be based on the law that existed at the time of payment or overpayment.

The bill deletes references to the preapproval program and obsolete provisions related to the reimbursement program and makes conforming and technical changes.

Section 2 repeals s. 376.30711, F.S., which provided contracting and contractor selection procedures for the preapproval program.

Section 3 amends s. 376.301, F.S., deletes the obsolete definitions of "backlog" and "person responsible for conducting site rehabilitation," which were associated with the reimbursement program.

Sections 4-5 and 7-10 amend ss. 376.302, 376.305, 376.30714, 376.3072, 376.3073, 376.3075, F.S., respectively, to make conforming and technical changes to repeal the reimbursement program and the preapproval program.

Section 6 amends s. 376.30713, F.S., to allow an applicant to participate in the preapproved advanced cleanup program under a performance-based contract for the cleanup of at least 20 sites. The applicant must provide at least 25 percent of the costs of cleanup by paying, demonstrating cost savings to the DEP, or a combination of the two. The percentage of cost savings must be included in the application and compared to the cost of cleanup of the same sites using the current rates provided to the DEP by the agency term contractor. The DEP must determine if the cost savings demonstration is acceptable, which is not subject to ch. 120, F.S. The bill also makes conforming and technical changes to repeal the reimbursement program and the preapproval program.

Section 11 provides an effective date of July 1, 2014.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Under PCS/SB 1582, the transition from a "preapproved contractor" approach to a competitive procurement system will have a positive and negative fiscal impact on the private sector. There will be costs to contractors associated with the requirements of submitting quotes and materials that meet the requirements of MyFloridaMarketPlace, including the one percent transaction fee. The utilization of competitive solicitation procedures are expected to reduce prices and potential profits. However, contractors that

maintain a positive performance record will be able to generate more work, which could offset the lower profit margins.[26]

Generally, lower costs to rehabilitate sites will lead to greater efficiencies and the ability to clean up sites more cost effectively than in previous years. Individually, these costs may be negligible; however, in the aggregate and over time, the new program could lead to substantial savings.

The expansion of the preapproved advanced cleanup (PAC) program may benefit applicants with at least 20 sites that require cleanup. Conversely, because funding of this program is limited to $15 million each fiscal year, such expansion may exhaust the funds available for applicants with less than 20 sites.

C. Government Sector Impact:

The bill may decrease DEP's cost of site rehabilitation due to the implementation of the competitive solicitation process. Since this process is in the early stage of implementation, the cost savings are indeterminate at this time.[27]

In the PAC program, at least 25 percent in lower costs is required for applicants participating in a performance-based contract for the cleanup of at least 20 sites.

The department anticipates an increase in workload related to contracts and procurement in the Administrative section within the Petroleum Restoration Program. Currently, this section has 12 positions and an annual budget of $886,103, with seven positions that work directly on contracts and procurement. According to the DEP, this is sufficient to handle the increased workload.

VI. Technical Deficiencies:

None.

VII. Related Issues:

CS/SB 1674, providing for legislative ratification of Rules 62-772.300 and 62-772.400, F.A.C., which relate to competitive bidding and contractor qualifications for the Petroleum Restoration Program, is pending. Failure to ratify the rules would prohibit the DEP from implementing the program after June 30, 2014.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 376.3071, 376.301, 376.302, 376.305, 376.30713, 376.30714, 376.3072, 376.3073, and 376.3075.

[26] *Supra* note 18, at 6.
[27] *Id*. DEP, *Senate Bill 1582 Agency Analysis*, 6 (Mar. 12, 2014) (on file with the Senate Committee on Environmental Preservation and Conservation).

This bill repeals section 376.30711 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on General Government on April 2, 2014:

- Authorizes the DEP to approve performance-based advanced cleanup contracts for at least 20 sites for applicants and requires that they demonstrate a proportional share of at least 25 percent of the cleanup costs;
- Requires competitive solicitations to adhere to the requirements in s. 287.055, F.S., relating to acquisition of professional architectural, engineering, landscape architectural, or surveying and mapping services.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

Senate Amendment

Delete lines 621 - 638
and insert:
the date on which ~~that~~ the discharge occurred.
(c)1. The department may perform financial and technical audits in order to verify site restoration costs and ensure compliance with this chapter. The department shall seek recovery of any overpayment based on the findings of the audits. The department must begin an audit within 5 years after the date of

935264

payment for costs incurred at a facility, except in cases in which the department alleges specific facts indicating fraud.

2. Upon determination by the department that any portion of costs that have been paid from the fund is disallowed, the department shall provide written notice to the recipient of the payment specifying the allegations of fact that justify the department's proposed action and ordering repayment of disallowed costs within 60 days after receipt of such notice.

3. If the recipient does not make payment to the department within 60 days after receipt of such notice, the department shall seek recovery in a court of competent jurisdiction to recover the overpayment, unless the department finds the amount involved too small or the likelihood of recovery too uncertain.

4. In addition to the amount of the overpayment, the recipient is liable to the department for interest of 1 percent per month or the prime rate, whichever is less, on the amount of the overpayment from the date of the overpayment by the department until the recipient satisfies the department's request for repayment pursuant to this paragraph. The accrual of interest shall be tolled during the pendency of any litigation.

(d) Claims that accrued under former reimbursement or preapproval programs are expressly preserved.

(e) ~~(c)~~ If the department initiates an enforcement action to clean up a contaminated site and determines that the responsible party cannot ~~is~~ financially ~~unable to~~ undertake complete restoration of the contaminated site, that the current property owner was not responsible for the discharge when the contamination first occurred, or that the state's interest can best be served by conducting cleanup, the department may enter

935264

into an agreement with the responsible party or property owner whereby the department agrees to conduct site rehabilitation and the responsible party or property owner agrees to pay for the portion of the cleanup costs that are within such party's or owner's financial capabilities as determined by the department, taking into consideration the party's or owner's net worth and the economic impact on the party or owner.

664100

576-03677-14

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on General Government)

A bill to be entitled

An act relating to rehabilitation of petroleum contamination sites; amending s. 376.3071, F.S.; revising legislative findings and intent regarding the Petroleum Restoration Program and the rehabilitation of contamination sites; providing requirements for site rehabilitation contracts and procedures for payment of rehabilitation work under the Petroleum Restoration Program; limiting eligibility for funding under the Early Detection Incentive Program; deleting obsolete provisions relating to reimbursement for certain cleanup expenses; repealing s. 376.30711, F.S., relating to preapproved site rehabilitation; amending s. 376.30713, F.S.; providing that applicants can use a demonstration of a cost savings in meeting the required cost share commitment if bundling multiple sites; amending ss. 376.301, 376.302, 376.305, 376.30714, 376.3072, 376.3073, and 376.3075, F.S.; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 376.3071, Florida Statutes, is amended to read:

376.3071 Inland Protection Trust Fund; creation; purposes; funding.—

664100

576-03677-14

(1) FINDINGS.—In addition to the legislative findings set forth in s. 376.30, the Legislature finds and declares:

(a) That significant quantities of petroleum and petroleum products are being stored in storage systems in this state, which is a hazardous undertaking.

(b) That spills, leaks, and other discharges from such storage systems have occurred, are occurring, and will continue to occur and that such discharges pose a significant threat to the quality of the groundwaters and inland surface waters of this state.

(c) That, where contamination of the ground or surface water has occurred, remedial measures have often been delayed for long periods while determinations as to liability and the extent of liability are made and that such delays result in the continuation and intensification of the threat to the public health, safety, and welfare; in greater damage to water resources and the environment; and in significantly higher costs to contain and remove the contamination.

(d) That adequate financial resources must be readily available to provide for the expeditious supply of safe and reliable alternative sources of potable water to affected persons and to provide a means for investigation and cleanup of contamination sites without delay.

(e) That it is necessary to fulfill the intent and purposes of ss. 376.30-376.317~~,~~ and ~~further it is hereby~~ determined to be in the best interest of, and necessary for the protection of the public health, safety, and ~~general~~ welfare of the residents of this state, and therefore a paramount public purpose, to provide for the creation of a nonprofit public benefit corporation as an

instrumentality of the state to assist in financing the functions provided in ss. 376.30-376.317 and to authorize the department to enter into one or more service contracts with such corporation for the purpose ~~provision~~ of financing services related to such functions and to make payments thereunder from the amount on deposit in the Inland Protection Trust Fund, subject to annual appropriation by the Legislature.

(f) That to achieve the purposes established in paragraph (e) and in order to facilitate the expeditious handling and rehabilitation of contamination sites and remedial measures with respect to contamination sites ~~provided hereby~~ without delay, it is in the best interests of the residents of this state to authorize such corporation to issue evidences of indebtedness payable from amounts paid by the department under any such service contract entered into between the department and such corporation.

(g) That the Petroleum Restoration Program must be implemented in a manner that reduces costs and improves the efficiency of rehabilitation activities to reduce the significant backlog of contaminated sites eligible for state-funded rehabilitation and the corresponding threat to water resources, the environment, and the public health, safety, and welfare.

(2) INTENT AND PURPOSE.—

(a) It is the intent of the Legislature to establish the Inland Protection Trust Fund to serve as a repository for funds which will enable the department to respond without delay to incidents of inland contamination related to the storage of petroleum and petroleum products in order to protect the public

health, safety, and welfare and to minimize environmental damage.

(b) It is the intent of the Legislature that the department implement rules and procedures to improve the efficiency of the Petroleum Restoration Program. The department is directed to implement rules and policies to eliminate and reduce duplication of site rehabilitation efforts, paperwork, and documentation, and micromanagement of site rehabilitation tasks.

(c) It is the intent of the Legislature that rehabilitation of contamination sites be conducted with emphasis on first addressing the sites that pose the greatest threat to water resources, the environment, and the public health, safety, and welfare, within the availability of funds in the Inland Protection Trust Fund, recognizing that source removal, wherever it is technologically feasible and cost-effective, significantly reduces contamination or eliminates the spread of contamination and protects water resources, the environment, and the public health, safety, and welfare.

(d) ~~(c)~~ The department is directed to adopt and implement uniform and standardized forms for ~~the requests for preapproval~~ site rehabilitation work and for the submittal of reports to ensure that information is submitted to the department in a concise, standardized uniform format seeking only information that is necessary.

(e) ~~(d)~~ The department is directed to implement computerized and electronic filing capabilities of ~~preapproval requests and~~ submittal of reports in order to expedite submittal of the information and elimination of delay in paperwork. ~~The computerized, electronic filing system shall be implemented no~~

~~later than January 1, 1997.~~

~~(c) The department is directed to adopt uniform scopes of work with templated labor and equipment costs to provide definitive guidance as to the type of work and authorized expenditures that will be allowed for preapproved site rehabilitation tasks.~~

(f) The department is directed to establish guidelines for consideration and acceptance of new and innovative technologies for site rehabilitation work.

(3) CREATION.—There is ~~hereby~~ created the Inland Protection Trust Fund, hereinafter referred to as the "fund," to be administered by the department. This fund shall be used by the department as a nonlapsing revolving fund for carrying out the purposes of this section and s. 376.3073. To this fund shall be credited all penalties, judgments, recoveries, reimbursements, loans, and other fees and charges related to the implementation of this section and s. 376.3073 and the excise tax revenues levied, collected, and credited pursuant to ss. 206.9935(3) and 206.9945(1)(c). Charges against the fund shall be made pursuant to ~~in accordance with the provisions of~~ this section.

(4) USES.—Whenever, in its determination, incidents of inland contamination related to the storage of petroleum or petroleum products may pose a threat to water resources, the environment, or the public health, safety, or welfare, the department shall obligate moneys available in the fund to provide for:

(a) Prompt investigation and assessment of contamination sites.

(b) Expeditious restoration or replacement of potable water

supplies as provided in s. 376.30(3)(c)1.

(c) Rehabilitation of contamination sites, which shall consist of cleanup of affected soil, groundwater, and inland surface waters, using the most cost-effective alternative that is technologically feasible and reliable, ~~and~~ that provides adequate protection of water resources and the public health, safety, and welfare, and that minimizes environmental damage, pursuant to ~~in accordance with~~ the site selection and cleanup criteria established by the department under subsection (5), except that this paragraph does not ~~nothing herein shall be construed to~~ authorize the department to obligate funds for payment of costs that ~~which~~ may be associated with, but are not integral to, site rehabilitation, such as the cost for retrofitting or replacing petroleum storage systems.

(d) Maintenance and monitoring of contamination sites.

(e) Inspection and supervision of activities described in this subsection.

(f) Payment of expenses incurred by the department in its efforts to obtain from responsible parties the payment or recovery of reasonable costs resulting from the activities described in this subsection.

(g) Payment of any other reasonable costs of administration, including those administrative costs incurred by the Department of Health in providing field and laboratory services, toxicological risk assessment, and other assistance to the department in the investigation of drinking water contamination complaints and costs associated with public information and education activities.

(h) Establishment and implementation of the compliance

verification program as authorized in s. 376.303(1)(a), including contracting with local governments or state agencies to provide for the administration of such program through locally administered programs, to minimize the potential for further contamination sites.

(i) Funding of the provisions of ss. 376.305(6) and 376.3072.

(j) Activities related to removal and replacement of petroleum storage systems, exclusive of costs of any tank, piping, dispensing unit, or related hardware, if soil removal is approved ~~preapproved~~ as a component of site rehabilitation and requires removal of the tank where remediation is conducted under this section ~~s. 376.30711~~ or if such activities were justified in an approved remedial action plan ~~performed pursuant to subsection (12)~~.

~~(k) Activities related to reimbursement application preparation and activities related to reimbursement application examination by a certified public accountant pursuant to subsection (12).~~

(k) ~~(l)~~ Reasonable costs of restoring property as nearly as practicable to the conditions that ~~which~~ existed before ~~prior to~~ activities associated with contamination assessment or remedial action taken under s. 376.303(4).

(l) ~~(m)~~ Repayment of loans to the fund.

(m) ~~(n)~~ Expenditure of sums from the fund to cover ineligible sites or costs as set forth in subsection (13), if the department in its discretion deems it necessary to do so. In such cases, the department may seek recovery and reimbursement of costs in the same manner and pursuant to ~~in accordance with~~

the same procedures ~~as are~~ established for recovery and reimbursement of sums otherwise owed to or expended from the fund.

(n) ~~(o)~~ Payment of amounts payable under any service contract entered into by the department pursuant to s. 376.3075, subject to annual appropriation by the Legislature.

(o) ~~(p)~~ Petroleum remediation pursuant to this section ~~s. 376.30711~~ throughout a state fiscal year. The department shall establish a process to uniformly encumber appropriated funds throughout a state fiscal year and shall allow for emergencies and imminent threats to water resources, ~~human health and~~ the environment, and the public health, safety, and welfare, as provided in paragraph (5)(a). This paragraph does not apply to appropriations associated with the free product recovery initiative provided in ~~of~~ paragraph (5)(c) or the ~~preapproved~~ advanced cleanup program provided in ~~of~~ s. 376.30713.

(p) ~~(q)~~ Enforcement of this section and ss. 376.30-376.317 by the Fish and Wildlife Conservation Commission. The department shall disburse moneys to the commission for such purpose.

The Inland Protection Trust Fund may only be used to fund the activities in ss. 376.30-376.317 except ss. 376.3078 and 376.3079. Amounts on deposit in the ~~Inland Protection Trust~~ fund in each fiscal year shall first be applied or allocated for the payment of amounts payable by the department pursuant to paragraph (n) ~~(o)~~ under a service contract entered into by the department pursuant to s. 376.3075 and appropriated in each year by the Legislature before ~~prior to~~ making or providing for other disbursements from the fund. ~~Nothing in~~ This subsection does not

~~shall~~ authorize the use of the ~~Inland Protection Trust~~ fund for cleanup of contamination caused primarily by a discharge of solvents as defined in s. 206.9925(6), or polychlorinated biphenyls when their presence causes them to be hazardous wastes, except solvent contamination which is the result of chemical or physical breakdown of petroleum products and is otherwise eligible. Facilities used primarily for the storage of motor or diesel fuels as defined in ss. 206.01 and 206.86 are ~~shall be presumed~~ not ~~to be~~ excluded from eligibility pursuant to this section.

(5) SITE SELECTION AND CLEANUP CRITERIA.—

(a) The department shall adopt rules to establish priorities based upon a scoring system for state-conducted cleanup at petroleum contamination sites based upon factors that include, but need not be limited to:

1. The degree to which the public ~~human~~ health, safety, or welfare may be affected by exposure to the contamination;

2. The size of the population or area affected by the contamination;

3. The present and future uses of the affected aquifer or surface waters, with particular consideration as to the probability that the contamination is substantially affecting, or will migrate to and substantially affect, a known public or private source of potable water; and

4. The effect of the contamination on water resources and the environment.

Moneys in the fund shall then be obligated for activities described in paragraphs (4)(a)-(e) at individual sites pursuant

to ~~in accordance with~~ such established criteria. However, ~~nothing in~~ this paragraph does not ~~shall be construed to~~ restrict the department from modifying the priority status of a rehabilitation site where conditions warrant, taking into consideration the actual distance between the contamination site and groundwater or surface water receptors or other factors that affect the risk of exposure to petroleum products' chemicals of concern. The department may use the effective date of a department final order granting eligibility pursuant to subsections (10) ~~(9)~~ and (13) and ss. 376.305(6) and 376.3072 to establish a prioritization system within a particular priority scoring range.

(b) It is the intent of the Legislature to protect the health of all people under actual circumstances of exposure. The secretary shall establish criteria by rule for the purpose of determining, on a site-specific basis, the rehabilitation program tasks that comprise a site rehabilitation program and the level at which a rehabilitation program task and a site rehabilitation program are ~~may be deemed~~ completed. In establishing the rule, the department shall incorporate, to the maximum extent feasible, risk-based corrective action principles to achieve protection of water resources, ~~human health and safety and~~ the environment, and the public health, safety, and welfare in a cost-effective manner as provided in this subsection. Criteria for determining what constitutes a rehabilitation program task or completion of site rehabilitation program tasks and site rehabilitation programs shall be based upon the factors set forth in paragraph (a) and the following additional factors:

1. The current exposure and potential risk of exposure to humans and the environment including multiple pathways of exposure.

2. The appropriate point of compliance with cleanup target levels for petroleum products' chemicals of concern. The point of compliance shall be at the source of the petroleum contamination. However, the department may ~~is authorized to~~ temporarily move the point of compliance to the boundary of the property, or to the edge of the plume when the plume is within the property boundary, while cleanup, including cleanup through natural attenuation processes in conjunction with appropriate monitoring, is proceeding. The department may also ~~is authorized~~, pursuant to criteria provided for in this paragraph, ~~to~~ temporarily extend the point of compliance beyond the property boundary with appropriate monitoring~~,~~ if such extension is needed to facilitate natural attenuation or to address the current conditions of the plume and if water resources, ~~provided human health, public safety, and~~ the environment, and the public health, safety, and welfare are adequately protected. Temporary extension of the point of compliance beyond the property boundary, as provided in this subparagraph, must ~~shall~~ include notice to local governments and owners of any property into which the point of compliance is allowed to extend.

3. The appropriate site-specific cleanup goal. The site-specific cleanup goal shall be that all petroleum contamination sites ultimately achieve the applicable cleanup target levels provided in this paragraph. However, the department may ~~is authorized to~~ allow concentrations of the petroleum products' chemicals of concern to temporarily exceed the applicable

cleanup target levels while cleanup, including cleanup through natural attenuation processes in conjunction with appropriate monitoring, is proceeding, if water resources ~~provided human health, public safety~~, ~~and~~ the environment, and the public health, welfare, and safety are adequately protected.

4. The appropriateness of using institutional or engineering controls. Site rehabilitation programs may include the use of institutional or engineering controls to eliminate the potential exposure to petroleum products' chemicals of concern to humans or the environment. Use of such controls must have prior department approval ~~be preapproved by the department,~~ and may ~~institutional controls shall~~ not be acquired with moneys ~~funds~~ from the ~~Inland Protection Trust~~ fund. When institutional or engineering controls are implemented to control exposure, the removal of such controls must have prior department approval and must be accompanied immediately by the resumption of active cleanup~~,~~ or other approved controls~~,~~ unless cleanup target levels pursuant to this paragraph have been achieved.

5. The additive effects of the petroleum products' chemicals of concern. The synergistic effects of petroleum products' chemicals of concern must ~~shall~~ also be considered when the scientific data becomes available.

6. Individual site characteristics that must ~~which shall~~ include, but not be limited to, the current and projected use of the affected groundwater in the vicinity of the site, current and projected land uses of the area affected by the contamination, the exposed population, the degree and extent of contamination, the rate of contaminant migration, the apparent or potential rate of contaminant degradation through natural

attenuation processes, the location of the plume, and the potential for further migration in relation to site property boundaries.

7. Applicable state water quality standards.

a. Cleanup target levels for petroleum products' chemicals of concern found in groundwater shall be the applicable state water quality standards. Where such standards do not exist, the cleanup target levels for groundwater shall be based on the minimum criteria specified in department rule. The department shall consider the following, as appropriate, in establishing the applicable minimum criteria: calculations using a lifetime cancer risk level of 1.0E-6; a hazard index of 1 or less; the best achievable detection limit; the naturally occurring background concentration; or nuisance, organoleptic, and aesthetic considerations.

b. Where surface waters are exposed to petroleum contaminated groundwater, the cleanup target levels for the petroleum products' chemicals of concern shall be based on the surface water standards as established by department rule. The point of measuring compliance with the surface water standards shall be in the groundwater immediately adjacent to the surface water body.

8. Whether deviation from state water quality standards or from established criteria is appropriate. The department may issue a "No Further Action Order" based upon the degree to which the desired cleanup target level is achievable and can be reasonably and cost-effectively implemented within available technologies or engineering and institutional control strategies. Where a state water quality standard is applicable,

a deviation may not result in the application of cleanup target levels more stringent than <u>the</u> ~~said~~ standard. In determining whether it is appropriate to establish alternate cleanup target levels at a site, the department may consider the effectiveness of source removal that has been completed at the site and the practical likelihood of: the use of low yield or poor quality groundwater; the use of groundwater near marine surface water bodies; the current and projected use of the affected groundwater in the vicinity of the site; or the use of groundwater in the immediate vicinity of the storage tank area, where it has been demonstrated that the groundwater contamination is not migrating away from such localized source<u>,</u> <u>if water resources</u>~~; provided human health, public safety~~, ~~and~~ the environment<u>, and the public health, safety, and welfare</u> are adequately protected.

9. Appropriate cleanup target levels for soils.

a. In establishing soil cleanup target levels for human exposure to petroleum products' chemicals of concern found in soils from the land surface to 2 feet below land surface, the department shall consider the following, as appropriate: calculations using a lifetime cancer risk level of 1.0E-6; a hazard index of 1 or less; the best achievable detection limit; or the naturally occurring background concentration.

b. Leachability-based soil target levels shall be based on protection of the groundwater cleanup target levels or the alternate cleanup target levels for groundwater established pursuant to this paragraph, as appropriate. Source removal and other cost-effective alternatives that are technologically feasible shall be considered in achieving the leachability soil

target levels established by the department. The leachability goals do not apply ~~shall not be applicable~~ if the department determines, based upon individual site characteristics, that petroleum products' chemicals of concern will not leach into the groundwater at levels which pose a threat to water resources, ~~human health and safety or~~ the environment, or the public health, safety, or welfare.

~~However, nothing in~~ This paragraph does not ~~shall be construed to~~ restrict the department from temporarily postponing completion of any site rehabilitation program for which funds are being expended whenever such postponement is ~~deemed~~ necessary in order to make funds available for rehabilitation of a contamination site with a higher priority status.

(c) The department shall require source removal, if warranted and cost-effective, at each site eligible for restoration funding from the ~~Inland Protection Trust~~ fund.

1. Funding for free product recovery may be provided in advance of the order established by the priority ranking system under paragraph (a) for site cleanup activities. However, a separate prioritization for free product recovery shall be established consistent with paragraph (a). No more than $5 million shall be encumbered from the ~~Inland Protection Trust~~ fund in any fiscal year for free product recovery conducted in advance of the priority order under paragraph (a) established for site cleanup activities.

2. Once free product removal and other source removal identified in this paragraph are completed at a site, and notwithstanding the order established by the priority ranking

system under paragraph (a) for site cleanup activities, the department may reevaluate the site to determine the degree of active cleanup needed to continue site rehabilitation. Further, the department shall determine whether ~~if~~ the reevaluated site qualifies for natural attenuation monitoring, long-term natural attenuation monitoring, or no further action. If additional site rehabilitation is necessary to reach no further action status, the site rehabilitation shall be conducted in the order established by the priority ranking system under paragraph (a). The department shall use ~~utilize~~ natural attenuation monitoring strategies and, when cost-effective, transition sites eligible for restoration funding assistance to long-term natural attenuation monitoring where the plume is shrinking or stable and confined to the source property boundaries and the petroleum products' chemicals of concern meet the natural attenuation default concentrations, as defined by department rule. If the plume migrates beyond the source property boundaries, natural attenuation monitoring may be conducted pursuant to ~~in accordance with~~ department rule, or if the site no longer qualifies for natural attenuation monitoring, active remediation may be resumed. For long-term natural attenuation monitoring, if the petroleum products' chemicals of concern increase or are not significantly reduced after 42 months of monitoring, or if the plume migrates beyond the property boundaries, active remediation shall be resumed as necessary. For sites undergoing active remediation, the department shall evaluate ~~template~~ the cost of natural attenuation monitoring ~~pursuant to s. 376.30711~~ to ensure that site mobilizations are performed in a cost-effective manner. Sites that are not eligible for state

restoration funding may transition to long-term natural attenuation monitoring using the criteria in this subparagraph. ~~Nothing in~~ This subparagraph does not preclude ~~precludes~~ a site from pursuing a "No Further Action" order with conditions.

3. The department shall evaluate whether higher natural attenuation default concentrations for natural attenuation monitoring or long-term natural attenuation monitoring are cost-effective and would adequately protect water resources, ~~public health and~~ the environment, and the public health, safety, and welfare. The department shall also evaluate site-specific characteristics that would allow for higher natural attenuation or long-term natural attenuation concentration levels.

4. A local government may not deny a building permit based solely on the presence of petroleum contamination for any construction, repairs, or renovations performed in conjunction with tank upgrade activities to an existing retail fuel facility if the facility was fully operational before the building permit was requested and if the construction, repair, or renovation is performed by a licensed contractor. All building permits and any construction, repairs, or renovations performed in conjunction with such permits must comply with the applicable provisions of chapters 489 and 553.

(6) CONTRACTING AND CONTRACTOR SELECTION REQUIREMENTS.—

(a) Site rehabilitation work on sites that are eligible for state-funded cleanup from the fund pursuant to this section and ss. 376.305(6), 376.3072, and 376.3073 may be funded only pursuant to this section. A facility operator shall abate the source of discharge for a new release that occurred after March 29, 1995. If free product is present, the operator shall notify

the department, and the department may direct the removal of the free product. The department shall grant approval to continue site rehabilitation pursuant to this section.

(b) When contracting for site rehabilitation activities performed under the Petroleum Restoration Program, the department shall comply with competitive procurement requirements provided in chapter 287 or rules adopted under this section or s. 287.0595.

(c) Each contractor performing site assessment and remediation activities for state-funded sites under this section shall certify to the department that the contractor meets all certification and license requirements imposed by law. Each contractor shall certify to the department that the contractor meets the following minimum qualifications:

1. Complies with applicable Occupational Safety and Health Administration regulations.

2. Maintains workers' compensation insurance for employees as required by the Florida Workers' Compensation Law.

3. Maintains comprehensive general liability and comprehensive automobile liability insurance with minimum limits of at least $1 million per occurrence and $1 million annual aggregate to pay claims for damage for personal injury, including accidental death, as well as claims for property damage that may arise from performance of work under the program, which insurance designates the state as an additional insured party.

4. Maintains professional liability insurance of at least $1 million per occurrence and $1 million annual aggregate.

5. Has the capacity to perform or directly supervise the

majority of the rehabilitation work at a site pursuant to s. 489.113(9).

(d) The department rules implementing this section must specify that only qualified vendors may submit responses on a competitive solicitation. The department rules must also include procedures for the rejection of vendors not meeting the minimum qualifications on the opening of a competitive solicitation and requirements for a vendor to maintain its qualifications in order to enter contracts or perform rehabilitation work.

(e) A contractor that performs services pursuant to this subsection may file invoices for payment with the department for the services described in the approved contract. The invoices for payment must be submitted to the department on forms provided by the department, together with evidence documenting that activities were conducted or completed pursuant to the approved contract. If there are sufficient unencumbered funds available in the fund which have been appropriated for expenditure by the Legislature and if all of the terms of the approved contract have been met, invoices for payment must be paid pursuant to s. 215.422. After a contractor has submitted its invoices to the department, and before payment is made, the contractor may assign its right to payment to another person without recourse of the assignee or assignor to the state. In such cases, the assignee must be paid pursuant to s. 215.422. Prior notice of the assignment and assignment information must be made to the department and must be signed and notarized by the assigning party.

(f) The contractor shall submit an invoice to the department within 30 days after the date of the department's

written acceptance of each interim deliverable or written approval of the final deliverable specified in the approved contract.

(g) The department shall make payments based on the terms of an approved contract for site rehabilitation work. The department may, based on its experience and the past performance and concerns regarding a contractor, retain up to 25 percent of the contracted amount or use performance bonds to ensure performance. The amount of retainage and the amount of performance bonds, as well as the terms and conditions for such, must be included in the approved contract.

(h) The contractor or the person to which the contractor has assigned its right to payment pursuant to paragraph (e) shall make prompt payment to subcontractors and suppliers for their costs associated with an approved contract pursuant to s. 287.0585(1).

(i) The exemption under s. 287.0585(2) does not apply to payments associated with an approved contract.

(j) The department may withhold payment if the validity or accuracy of a contractor's invoices or supporting documents is in question.

(k) This section does not authorize payment to a person for costs of contaminated soil treatment or disposal that does not meet the applicable rules of this state for such treatment or disposal, including all general permitting, state air emission standards, monitoring, sampling, and reporting rules more specifically described by department rules.

(l) The department shall terminate or suspend a contractor's eligibility for participation in the program if the

contractor fails to perform its contractual duties for site rehabilitation program tasks.

(m) A site owner or operator, or his or her designee, may not receive any remuneration, in cash or in kind, directly or indirectly, from a rehabilitation contractor performing site cleanup activities pursuant to this section.

(7) ~~(6)~~ FUNDING.—The Inland Protection Trust Fund shall be funded as follows:

(a) All excise taxes levied, collected, and credited to the fund in accordance with ~~the provisions of~~ ss. 206.9935(3) and 206.9945(1)(c).

(b) All penalties, judgments, recoveries, reimbursements, and other fees and charges credited to the fund pursuant to ~~in accordance with the provisions of~~ subsection (3).

(8) ~~(7)~~ DEPARTMENTAL DUTY TO SEEK RECOVERY AND REIMBURSEMENT.—

(a) Except as provided in subsection (10) ~~(9)~~ and as otherwise provided by law, the department shall recover to the use of the fund from a person or persons at any time causing or having caused the discharge or from the Federal Government, jointly and severally, all sums owed or expended from the fund, pursuant to s. 376.308, except that the department may decline to pursue such recovery if it finds the amount involved too small or the likelihood of recovery too uncertain. Sums recovered as a result of damage due to a discharge related to the storage of petroleum or petroleum products or other similar disaster shall be apportioned between the fund and the General Revenue Fund so as to repay the full costs to the General Revenue Fund of ~~any~~ sums disbursed therefrom as a result of such

disaster. A ~~Any~~ request for reimbursement to the fund for such costs, if not paid within 30 days after ~~of~~ demand, shall be turned over to the department for collection.

(b) Except as provided in subsection (10) ~~(9)~~ and as otherwise provided by law, it is the duty of the department in administering the fund diligently to pursue the reimbursement to the fund of any sum expended from the fund for cleanup and abatement pursuant to ~~in accordance with the provisions of~~ this section or s. 376.3073, unless the department finds the amount involved too small or the likelihood of recovery too uncertain. For the purposes of s. 95.11, the limitation period within which to institute an action to recover such sums shall begin ~~commence~~ on the last date on which ~~any~~ such sums were expended~~,~~ and not the date on which ~~that~~ the discharge occurred. The department's claim for recovery of payments or overpayments from the fund must be based on the law in existence at the time of the payment or overpayment.

(c) If the department initiates an enforcement action to clean up a contaminated site and determines that the responsible party cannot ~~is~~ financially ~~unable to~~ undertake complete restoration of the contaminated site, that the current property owner was not responsible for the discharge when the contamination first occurred, or that the state's interest can best be served by conducting cleanup, the department may enter into an agreement with the responsible party or property owner whereby the department agrees to conduct site rehabilitation and the responsible party or property owner agrees to pay for the portion of the cleanup costs that are within such party's or owner's financial capabilities as determined by the department,

taking into consideration the party's or owner's net worth and the economic impact on the party or owner.

(9) ~~(8)~~ INVESTMENTS; INTEREST.—Moneys in the fund which are not needed currently to meet the obligations of the department in the exercise of its responsibilities under this section and s. 376.3073 shall be deposited with the Chief Financial Officer to the credit of the fund and may be invested in such manner as ~~is~~ provided ~~for~~ by law ~~statute~~. The interest received on such investment shall be credited to the fund. Any provisions of law to the contrary notwithstanding, such interest may be freely transferred between the ~~this~~ trust fund and the Water Quality Assurance Trust Fund~~,~~ in the discretion of the department.

(10) ~~(9)~~ EARLY DETECTION INCENTIVE PROGRAM.—To encourage early detection, reporting, and cleanup of contamination from leaking petroleum storage systems, the department shall, within the guidelines established in this subsection, conduct an incentive program that provides ~~which shall provide~~ for a 30-month grace period ending on December 31, 1988. ~~Pursuant thereto:~~

(a) The department shall establish reasonable requirements for the written reporting of petroleum contamination incidents and shall distribute forms to registrants under s. 376.303(1)(b) and to other interested parties upon request to be used for such purpose. Until such forms are available for distribution, the department shall take reports of such incidents, however made, but shall notify any person making such a report that a complete written report of the incident will be required by the department at a later time, the form for which will be provided by the department.

(b) When reporting forms become available for distribution, all sites involving incidents of contamination from petroleum storage systems initially reported to the department at any time from midnight on June 30, 1986, to midnight on December 31, 1988, shall be qualified sites if~~, provided that such~~ a complete written report is filed with respect thereto within a reasonable time. Subject to the delays which may occur as a result of the prioritization of sites under paragraph (5)(a) for any qualified site, costs for activities described in paragraphs (4)(a)-(e) shall be absorbed at the expense of the fund, without recourse to reimbursement or recovery, with the following exceptions:

1. ~~The provisions of~~ This subsection does ~~shall~~ not apply to a ~~any~~ site where the department has been denied site access to implement ~~the provisions of~~ this section.

2. ~~The provisions of~~ This subsection does ~~shall~~ not ~~be construed to~~ authorize or require reimbursement from the fund for costs expended before ~~prior to~~ the beginning of the grace period~~, except as provided in subsection (12)~~.

3.a. Upon discovery by the department that the owner or operator of a petroleum storage system has been grossly negligent in the maintenance of such petroleum storage system; has, with willful intent to conceal the existence of a serious discharge, falsified inventory or reconciliation records maintained with respect to the site at which such system is located; or has intentionally damaged such petroleum storage system, the site at which such system is located shall be ineligible for participation in the incentive program and the owner shall be liable for all costs due to discharges from petroleum storage systems at that site, any other provisions of

chapter 86-159, Laws of Florida, to the contrary notwithstanding. For the purposes of this paragraph, willful failure to maintain inventory and reconciliation records, willful failure to make monthly monitoring system checks where such systems are in place, and failure to meet monitoring and retrofitting requirements within the schedules established under chapter 62-761, Florida Administrative Code, or violation of similar rules adopted by the department under this chapter, constitutes ~~shall be construed to be~~ gross negligence in the maintenance of a petroleum storage system.

b. The department shall redetermine the eligibility of petroleum storage systems for which a timely Early Detection Incentive Program ~~EDI~~ application was filed, but which were deemed ineligible by the department, under the following conditions:

(I) The owner or operator, on or before March 31, 1991, shall submit, in writing, notification that the storage system is now in compliance with department rules adopted pursuant to s. 376.303, and which requests the department to reevaluate the storage system eligibility; and

(II) The department verifies the storage system compliance based on a compliance inspection.

~~Provided, however, that~~ A site may be determined eligible by the department for good cause shown, including, but not limited to, demonstration by the owner or operator that to achieve compliance would cause an increase in the potential for the spread of the contamination.

c. Redetermination of eligibility pursuant to sub-

subparagraph b. shall not be available to:

(I) Petroleum storage systems owned or operated by the Federal Government.

(II) Facilities that denied site access to the department.

(III) Facilities where a discharge was intentionally concealed.

(IV) Facilities that were denied eligibility due to:

(A) Absence of contamination, unless any such facility subsequently establishes that contamination did exist at that facility on or before December 31, 1988.

(B) Contamination from substances that were not petroleum or a petroleum product.

(C) Contamination that was not from a petroleum storage system.

d. ~~EDI~~ Applicants who demonstrate compliance for a site pursuant to sub-subparagraph b. are eligible for the Early Detection Incentive Program and site rehabilitation funding pursuant to subsections ~~subsection~~ (5) and (6) ~~s. 376.30711~~.

If, in order to avoid prolonged delay, the department in its discretion deems it necessary to expend sums from the fund to cover ineligible sites or costs as set forth in this paragraph, the department may do so and seek recovery and reimbursement therefor in the same manner and pursuant to ~~in accordance with~~ the same procedures ~~as are~~ established for recovery and reimbursement of sums otherwise owed to or expended from the fund.

(c) A ~~No~~ report of a discharge made to the department by a ~~any~~ person pursuant to ~~in accordance with~~ this subsection~~,~~ or

~~any~~ rules adopted ~~promulgated~~ pursuant to this subsection may not ~~hereto, shall~~ be used directly as evidence of liability for such discharge in any civil or criminal trial arising out of the discharge.

(d) ~~The provisions of~~ This subsection does ~~shall~~ not apply to petroleum storage systems owned or operated by the Federal Government.

(11)~~(10)~~ VIOLATIONS; PENALTY.—A ~~It is unlawful for any~~ person may not ~~to~~:

(a) Falsify inventory or reconciliation records maintained in compliance with chapters 62-761 and 62-762, Florida Administrative Code, with willful intent to conceal the existence of a serious leak; or

(b) Intentionally damage a petroleum storage system.

A ~~Any~~ person convicted of such a violation commits ~~shall be guilty of~~ a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(12)~~(11)~~ SITE CLEANUP.—

(a) *Voluntary cleanup.*—This section does not prohibit a person from conducting site rehabilitation ~~either~~ through his or her own personnel or through responsible response action contractors or subcontractors when such person is not seeking site rehabilitation funding from the fund. Such voluntary cleanups must meet all applicable environmental standards.

(b) *Low-scored site initiative.*—Notwithstanding subsections (5) and (6) ~~s. 376.30711~~, a ~~any~~ site with a priority ranking score of 29 points or less may voluntarily participate in the low-scored site initiative regardless of~~,~~ whether ~~or not~~ the

site is eligible for state restoration funding.

1. To participate in the low-scored site initiative, the responsible party or property owner must affirmatively demonstrate that the following conditions are met:

a. Upon reassessment pursuant to department rule, the site retains a priority ranking score of 29 points or less.

b. ~~No~~ Excessively contaminated soil, as defined by department rule, does not exist ~~exists~~ onsite as a result of a release of petroleum products.

c. A minimum of 6 months of groundwater monitoring indicates that the plume is shrinking or stable.

d. The release of petroleum products at the site does not adversely affect adjacent surface waters, including their effects on human health and the environment.

e. The area of groundwater containing the petroleum products' chemicals of concern is less than one-quarter acre and is confined to the source property boundaries of the real property on which the discharge originated.

f. Soils onsite that are subject to human exposure found between land surface and 2 feet below land surface meet the soil cleanup target levels established by department rule or human exposure is limited by appropriate institutional or engineering controls.

2. Upon affirmative demonstration of the conditions under subparagraph 1., the department shall issue a determination of "No Further Action." Such determination acknowledges that minimal contamination exists onsite and that such contamination is not a threat to water resources, ~~human health or~~ the environment, or the public health, safety, or welfare. If no

contamination is detected, the department may issue a site rehabilitation completion order.

3. Sites that are eligible for state restoration funding may receive payment of ~~preapproved~~ costs for the low-scored site initiative as follows:

a. A responsible party or property owner may submit an assessment plan designed to affirmatively demonstrate that the site meets the conditions under subparagraph 1. Notwithstanding the priority ranking score of the site, the department may approve ~~preapprove~~ the cost of the assessment ~~pursuant to s. 376.30711~~, including 6 months of groundwater monitoring, not to exceed $30,000 for each site. The department may not pay the costs associated with the establishment of institutional or engineering controls.

b. The assessment work shall be completed no later than 6 months after the department issues its approval.

c. No more than $10 million for the low-scored site initiative may be encumbered from the ~~Inland Protection Trust~~ fund in any fiscal year. Funds shall be made available on a first-come, first-served basis and shall be limited to 10 sites in each fiscal year for each responsible party or property owner.

d. Program deductibles, copayments, and the limited contamination assessment report requirements under paragraph (13)(c) do not apply to expenditures under this paragraph.

~~(12) REIMBURSEMENT FOR CLEANUP EXPENSES. Except as provided in s. 2(3), chapter 95-2, Laws of Florida, this subsection shall not apply to any site rehabilitation program task initiated after March 29, 1995. Effective August 1, 1996, no further site~~

~~rehabilitation work on sites eligible for state-funded cleanup from the Inland Protection Trust Fund shall be eligible for reimbursement pursuant to this subsection. The person responsible for conducting site rehabilitation may seek reimbursement for site rehabilitation program task work conducted after March 28, 1995, in accordance with s. 2(2) and (3), chapter 95-2, Laws of Florida, regardless of whether the site rehabilitation program task is completed. A site rehabilitation program task shall be considered to be initiated when actual onsite work or engineering design, pursuant to chapter 62-770, Florida Administrative Code, which is integral to performing a site rehabilitation program task has begun and shall not include contract negotiation and execution, site research, or project planning. All reimbursement applications pursuant to this subsection must be submitted to the department by January 3, 1997. The department shall not accept any applications for reimbursement or pay any claims on applications for reimbursement received after that date; provided, however if an application filed on or prior to January 3, 1997, was returned by the department on the grounds of untimely filing, it shall be refiled within 30 days after the effective date of this act in order to be processed.~~

~~(a) *Legislative findings.*—The Legislature finds and declares that rehabilitation of contamination sites should be conducted in a manner and to a level of completion which will protect the public health, safety, and welfare and will minimize damage to the environment.~~

~~(b) *Conditions.*—~~

~~1. The owner, operator, or his or her designee of a site~~

~~which is eligible for restoration funding assistance in the EDI, PLRIP, or ATRP programs shall be reimbursed from the Inland Protection Trust Fund of allowable costs at reasonable rates incurred on or after January 1, 1985, for completed program tasks as identified in the department rule promulgated pursuant to paragraph (5)(b), or uncompleted program tasks pursuant to chapter 95-2, Laws of Florida, subject to the conditions in this section. It is unlawful for a site owner or operator, or his or her designee, to receive any remuneration, in cash or in kind, directly or indirectly from the rehabilitation contractor.~~

~~2. Nothing in this subsection shall be construed to authorize reimbursement to any person for costs of contaminated soil treatment or disposal that does not meet the applicable rules of this state for such treatment or disposal, including all general permitting, state air emission standards, monitoring, sampling, and reporting rules more specifically described in department rules.~~

~~(c) *Legislative intent*. Due to the value of the potable water of this state, it is the intent of the Legislature that the department initiate and facilitate as many cleanups as possible utilizing the resources of the state, local governments, and the private sector, recognizing that source removal, wherever it is technologically feasible and cost-effective, shall be considered the primary initial response to protect public health, safety, and the environment.~~

~~(d) *Amount of reimbursement*. The department shall reimburse actual and reasonable costs for site rehabilitation. The department shall not reimburse interest on the amount of reimbursable costs for any reimbursement application. However,~~

~~nothing herein shall affect the department's authority to pay interest authorized under prior law.~~

~~(e) *Records*. The person responsible for conducting site rehabilitation, or his or her agent, shall keep and preserve suitable records as follows:~~

~~1. Hydrological and other site investigations and assessments; site rehabilitation plans; contracts and contract negotiations; and accounts, invoices, sales tickets, or other payment records from purchases, sales, leases, or other transactions involving costs actually incurred related to site rehabilitation. Such records shall be made available upon request to agents and employees of the department during regular business hours and at other times upon written request of the department.~~

~~2. In addition, the department may from time to time request submission of such site-specific information as it may require, unless a waiver or variance from such department request is granted pursuant to paragraph (k).~~

~~3. All records of costs actually incurred for cleanup shall be certified by affidavit to the department as being true and correct.~~

~~(f) *Application for reimbursement*.—Any eligible person who performs a site rehabilitation program or performs site rehabilitation program tasks such as preparation of site rehabilitation plans or assessments; product recovery; cleanup of groundwater or inland surface water; soil treatment or removal; or any other tasks identified by department rule developed pursuant to subsection (5), may apply for reimbursement. Such applications for reimbursement must be~~

submitted to the department on forms provided by the department, together with evidence documenting that site rehabilitation program tasks were conducted or completed in accordance with department rule developed pursuant to subsection (5), and other such records or information as the department requires. The reimbursement application and supporting documentation shall be examined by a certified public accountant in accordance with standards established by the American Institute of Certified Public Accountants. A copy of the accountant's report shall be submitted with the reimbursement application. Applications for reimbursement shall not be approved for site rehabilitation program tasks which have not been completed, except for the task of remedial action and except for uncompleted program tasks pursuant to chapter 95-2, Laws of Florida, and this subsection. Applications for remedial action may be submitted semiannually at the discretion of the person responsible for cleanup. After an applicant has filed an application with the department and before payment is made, the applicant may assign the right to payment to any other person, without recourse of the assignee or assignor to the state, without affecting the order in which payment is made. Information necessary to process the application shall be requested from and provided by the assigning applicant. Proper notice of the assignment and assignment information shall be made to the department which notice shall be signed and notarized by the assigning applicant.

(g) *Review.*

1. Provided there are sufficient unencumbered funds available in the Inland Protection Trust Fund, or to the extent proceeds of debt obligations are available for the payment of

existing reimbursement obligations pursuant to s. 376.3075, the department shall have 60 days to determine if the applicant has provided sufficient information for processing the application and shall request submission of any additional information that the department may require within such 60-day period. If the applicant believes any request for additional information is not authorized, the applicant may request a hearing pursuant to ss. 120.569 and 120.57. Once the department requests additional information, the department may request only that information needed to clarify such additional information or to answer new questions raised by or directly related to such additional information.

2. The department shall deny or approve the application for reimbursement within 90 days after receipt of the last item of timely requested additional material, or, if no additional material is requested, within 90 days of the close of the 60-day period described in subparagraph 1., unless the total review period is otherwise extended by written mutual agreement of the applicant and the department.

3. Final disposition of an application shall be provided to the applicant in writing, accompanied by a written explanation setting forth in detail the reason or reasons for the approval or denial. If the department fails to make a determination on an application within the time provided in subparagraph 2., or denies an application, or if a dispute otherwise arises with regard to reimbursement, the applicant may request a hearing pursuant to ss. 120.569 and 120.57.

(h) *Reimbursement.*—Upon approval of an application for reimbursement, reimbursement for reasonable expenditures of a

site rehabilitation program or site rehabilitation program tasks documented therein shall be made in the order in which the department receives completed applications. Effective January 1, 1997, all unpaid reimbursement applications are subject to payment on the following terms: The department shall develop a schedule of the anticipated dates of reimbursement of applications submitted to the department pursuant to this subsection. The schedule shall specify the projected date of payment based on equal monthly payments and projected annual revenue of $100 million. Based on the schedule, the department shall notify all reimbursement applicants of the projected date of payment of their applications. The department shall direct the Inland Protection Financing Corporation to pay applicants the present value of their applications as soon as practicable after approval by the department, subject to the availability of funds within the Inland Protection Financing Corporation. The present value of an application shall be based on the date on which the department anticipates the Inland Protection Financing Corporation will settle the reimbursement application and the schedule's projected date of payment and shall use 3.5 percent as the annual discount rate. The determination of the amount of the claim and the projected date of payment shall be subject to s. 120.57.

(i) *Liberal construction.*—With respect to site rehabilitation initiated prior to July 1, 1986, the provisions of this subsection shall be given such liberal construction by the department as will accomplish the purposes set forth in this subsection. With regard to the keeping of particular records or the giving of certain notice, the department may accept as

compliance action by a person which meets the intent of the requirements set forth in this subsection.

(j) *Reimbursement review contracts.* The department may contract with entities capable of processing or assisting in the review of reimbursement applications. Any purchase of such services shall not be subject to chapter 287.

(k) *Audits.*—

1. The department is authorized to perform financial and technical audits in order to certify site restoration costs and ensure compliance with this chapter. The department shall seek recovery of any overpayments based on the findings of these audits. The department must commence any audit within 5 years after the date of reimbursement, except in cases where the department alleges specific facts indicating fraud.

2. Upon determination by the department that any portion of costs which have been reimbursed are disallowed, the department shall give written notice to the applicant setting forth with specificity the allegations of fact which justify the department's proposed action and ordering repayment of disallowed costs within 60 days of notification of the applicant.

3. In the event the applicant does not make payment to the department within 60 days of receipt of such notice, the department shall seek recovery in a court of competent jurisdiction to recover reimbursement overpayments made to the person responsible for conducting site rehabilitation, unless the department finds the amount involved too small or the likelihood of recovery too uncertain.

4. In addition to the amount of any overpayment, the

applicant shall be liable to the department for interest of 1 percent per month or the prime rate, whichever is less, on the amount of overpayment, from the date of overpayment by the department until the applicant satisfies the department's request for repayment pursuant to this paragraph. The calculation of interest shall be tolled during the pendency of any litigation.

5. Financial and technical audits frequently are conducted under this section many years after the site rehabilitation activities were performed and the costs examined in the course of the audit were incurred by the person responsible for site rehabilitation. During the intervening span of years, the department's rule requirements and its related guidance and other nonrule policy directives may have changed significantly. The Legislature finds that it may be appropriate for the department to provide relief to persons subject to such requirements in financial and technical audits conducted pursuant to this section.

a. The department is authorized to grant variances and waivers from the documentation requirements of subparagraph (c)2. and from the requirements of rules applicable in technical and financial audits conducted under this section. Variances and waivers shall be granted when the person responsible for site rehabilitation demonstrates to the department that application of a financial or technical auditing requirement would create a substantial hardship or would violate principles of fairness. For purposes of this subsection, "substantial hardship" means a demonstrated economic, technological, legal, or other type of hardship to the person requesting the variance or waiver. For

purposes of this subsection, "principles of fairness" are violated when the application of a requirement affects a particular person in a manner significantly different from the way it affects other similarly situated persons who are affected by the requirement or when the requirement is being applied retroactively without due notice to the affected parties.

b. A person whose reimbursed costs are subject to a financial and technical audit under this section may file a written request to the department for grant of a variance or waiver. The request shall specify:

(I) The requirement from which a variance or waiver is requested.

(II) The type of action requested.

(III) The specific facts which would justify a waiver or variance.

(IV) The reason or reasons why the requested variance or waiver would serve the purposes of this section.

c. Within 90 days after receipt of a written request for variance or waiver under this subsection, the department shall grant or deny the request. If the request is not granted or denied within 90 days of receipt, the request shall be deemed approved. An order granting or denying the request shall be in writing and shall contain a statement of the relevant facts and reasons supporting the department's action. The department's decision to grant or deny the petition shall be supported by competent substantial evidence and is subject to ss. 120.569 and 120.57. Once adopted, model rules promulgated by the Administration Commission under s. 120.542 shall govern the processing of requests under this provision.

~~6. The Chief Financial Officer may audit the records of persons who receive or who have received payments pursuant to this chapter in order to verify site restoration costs, ensure compliance with this chapter, and verify the accuracy and completeness of audits performed by the department pursuant to this paragraph. The Chief Financial Officer may contract with entities or persons to perform audits pursuant to this subparagraph. The Chief Financial Officer shall commence any audit within 1 year after the department's completion of an audit conducted pursuant to this paragraph, except in cases where the department or the Chief Financial Officer alleges specific facts indicating fraud.~~

(13) PETROLEUM CLEANUP PARTICIPATION PROGRAM.—To encourage detection, reporting, and cleanup of contamination caused by discharges of petroleum or petroleum products, the department shall, within the guidelines established in this subsection, implement a cost-sharing cleanup program to provide rehabilitation funding assistance for all property contaminated by discharges of petroleum or petroleum products occurring before January 1, 1995, subject to a copayment provided for in a Petroleum Cleanup Participation Program ~~preapproved~~ site rehabilitation agreement. Eligibility is ~~shall be~~ subject to an annual appropriation from the ~~Inland Protection Trust~~ fund. Additionally, funding for eligible sites is ~~shall be~~ contingent upon annual appropriation in subsequent years. Such continued state funding is ~~shall~~ not ~~be deemed~~ an entitlement or a vested right under this subsection. Eligibility shall be determined in the program, ~~shall be~~ notwithstanding any other provision of law, consent order, order, judgment, or ordinance to the

contrary.

(a)1. The department shall accept any discharge reporting form received before ~~prior to~~ January 1, 1995, as an application for this program, and the facility owner or operator need not reapply.

2. Owners or operators of property contaminated by petroleum or petroleum products from a petroleum storage system may apply for such program by filing a written report of the contamination incident, including evidence that such incident occurred before ~~prior to~~ January 1, 1995, with the department. Incidents of petroleum contamination discovered after December 31, 1994, at sites which have not stored petroleum or petroleum products for consumption, use, or sale after such date shall be presumed to have occurred before ~~prior to~~ January 1, 1995. An operator's filed report shall be ~~deemed~~ an application of the owner for all purposes. Sites reported to the department after December 31, 1998, are ~~shall~~ not ~~be~~ eligible for the ~~this~~ program.

(b) Subject to annual appropriation from the ~~Inland Protection Trust~~ fund, sites meeting the criteria of this subsection are eligible for up to $400,000 of site rehabilitation funding assistance in priority order pursuant to subsections ~~subsection~~ (5) and (6) ~~s. 376.30711~~. Sites meeting the criteria of this subsection for which a site rehabilitation completion order was issued before ~~prior to~~ June 1, 2008, do not qualify for the 2008 increase in site rehabilitation funding assistance and are bound by the pre-June 1, 2008, limits. Sites meeting the criteria of this subsection for which a site rehabilitation completion order was not issued before ~~prior to~~

June 1, 2008, regardless of whether ~~or not~~ they have previously transitioned to nonstate-funded cleanup status, may continue state-funded cleanup pursuant to this section ~~s. 376.30711~~ until a site rehabilitation completion order is issued or the increased site rehabilitation funding assistance limit is reached, whichever occurs first. The department may not pay ~~At no time shall~~ expenses incurred beyond ~~outside~~ the scope of an approved contract ~~preapproved site rehabilitation program under s. 376.30711 be reimbursable~~.

(c) Upon notification by the department that rehabilitation funding assistance is available for the site pursuant to subsections ~~subsection~~ (5) and (6) ~~s. 376.30711~~, the owner, operator, or person otherwise responsible for site rehabilitation shall provide the department with a limited contamination assessment report and shall enter into a Petroleum Cleanup Participation Program ~~preapproved~~ site rehabilitation agreement with the department ~~and a contractor qualified under s. 376.30711(2)(b)~~. The agreement must ~~shall~~ provide for a 25-percent copayment by the owner, operator, or person otherwise responsible for conducting site rehabilitation. The owner, operator, or person otherwise responsible for conducting site rehabilitation shall adequately demonstrate the ability to meet the copayment obligation. The limited contamination assessment report and the copayment costs may be reduced or eliminated if the owner and all operators responsible for restoration under s. 376.308 demonstrate that they cannot ~~are~~ financially ~~unable to~~ comply with the copayment and limited contamination assessment report requirements. The department shall take into consideration the owner's and operator's net worth in making the

determination of financial ability. In the event the department and the owner, operator, or person otherwise responsible for site rehabilitation cannot ~~are unable to~~ complete negotiation of the cost-sharing agreement within 120 days after beginning ~~commencing~~ negotiations, the department shall terminate negotiations, and the site shall be ~~deemed~~ ineligible for state funding under this subsection and all liability protections provided for in this subsection shall be revoked.

(d) A ~~No~~ report of a discharge made to the department by a ~~any~~ person pursuant to ~~in accordance with~~ this subsection~~,~~ or any rules adopted pursuant to this subsection may not ~~hereto, shall~~ be used directly as evidence of liability for such discharge in any civil or criminal trial arising out of the discharge.

(e) ~~Nothing in~~ This subsection does not ~~shall be construed to~~ preclude the department from pursuing penalties under ~~in accordance with~~ s. 403.141 for violations of any law or any rule, order, permit, registration, or certification adopted or issued by the department pursuant to its lawful authority.

(f) Upon the filing of a discharge reporting form under paragraph (a), ~~neither~~ the department or ~~nor any~~ local government may not ~~shall~~ pursue any judicial or enforcement action to compel rehabilitation of the discharge. This paragraph does ~~shall~~ not prevent any such action with respect to discharges determined ineligible under this subsection or to sites for which rehabilitation funding assistance is available pursuant to subsections ~~in accordance with subsection~~ (5) and (6) ~~s. 376.30711~~.

(g) The following are ~~shall be~~ excluded from participation

in the program:

1. Sites at which the department has been denied reasonable site access to implement ~~the provisions of~~ this section.

2. Sites that were active facilities when owned or operated by the Federal Government.

3. Sites that are identified by the United States Environmental Protection Agency to be on, or which qualify for listing on, the National Priorities List under Superfund. This exception does not apply to those sites for which eligibility has been requested or granted as of the effective date of this act under the Early Detection Incentive Program established pursuant to s. 15, chapter 86-159, Laws of Florida.

4. Sites for which ~~The~~ contamination is covered under the Early Detection Incentive Program, the Abandoned Tank Restoration Program, or the Petroleum Liability and Restoration Insurance Program, in which case site rehabilitation funding assistance shall continue under the respective program.

(14) LEGISLATIVE APPROVAL AND AUTHORIZATION.—Before ~~Prior to~~ the department enters ~~entering~~ into a service contract with the Inland Protection Financing Corporation which includes payments by the department to support any existing or planned note, bond, certificate of indebtedness, or other obligation or evidence of indebtedness of the corporation pursuant to s. 376.3075, the Legislature, by law, must specifically authorize the department to enter into such a contract. The corporation may issue bonds in an amount not to exceed $104 million, with a term up to 15 years, and annual payments not in excess of $10.4 million. The department may enter into a service contract in conjunction with the issuance of such bonds which provides for

annual payments for debt service payments or other amounts payable with respect to bonds, plus any administrative expenses of the corporation to finance the rehabilitation of petroleum contamination sites pursuant to ss. 376.30-376.317.

Section 2. Section 376.30711, Florida Statutes, is repealed.

Section 3. Section 376.30713, Florida Statutes, is amended to read:

376.30713 ~~Preapproved~~ Advanced cleanup.—

(1) In addition to the legislative findings provided in s. 376.3071 ~~s. 376.30711~~, the Legislature finds and declares:

(a) That the inability to conduct site rehabilitation in advance of a site's priority ranking pursuant to s. 376.3071(5)(a) may substantially impede or prohibit property transactions or the proper completion of public works projects.

(b) While the first priority of the state is to provide for protection of ~~the~~ water resources ~~of the state~~, ~~human health, and~~ the environment, and the public health, safety, and welfare, the viability of commerce is of equal importance to the state.

(c) It is in the public interest and of substantial economic benefit to the state to provide an opportunity for site rehabilitation to be conducted on a limited basis at contaminated sites, in advance of the site's priority ranking, to facilitate property transactions or public works projects.

(d) It is appropriate for a person who is ~~persons~~ responsible for site rehabilitation to share the costs associated with managing and conducting ~~preapproved~~ advanced cleanup, to facilitate the opportunity for ~~preapproved~~ advanced cleanup, and to mitigate the additional costs that will be

incurred by the state in conducting site rehabilitation in advance of the site's priority ranking. Such cost sharing will result in more contaminated sites being cleaned up and greater environmental benefits to the state. ~~The provisions of~~ This section is ~~shall only be~~ available only for sites eligible for restoration funding under EDI, ATRP, or PLRIP ~~PLIRP~~. This section is available for discharges eligible for restoration funding under the petroleum cleanup participation program for the state's cost share of site rehabilitation. Applications must ~~shall~~ include a cost-sharing commitment for this section in addition to the 25-percent-copayment requirement of the petroleum cleanup participation program. This section is not available for any discharge under a petroleum cleanup participation program where the 25-percent-copayment requirement of the petroleum cleanup participation program has been reduced or eliminated pursuant to s. 376.3071(13)(c).

(2) The department may ~~is authorized to~~ approve an application for ~~preapproved~~ advanced cleanup at eligible sites, before ~~prior to~~ funding based on the site's priority ranking established pursuant to s. 376.3071(5)(a), pursuant to ~~in accordance with the provisions of~~ this section. Only the facility owner or operator or the person otherwise responsible for site rehabilitation qualifies ~~Persons who qualify~~ as an applicant under ~~the provisions of~~ this section ~~shall only include the facility owner or operator or the person otherwise responsible for site rehabilitation~~.

(a) ~~Preapproved~~ Advanced cleanup applications may be submitted between May 1 and June 30 and between November 1 and December 31 of each fiscal year. Applications submitted between

May 1 and June 30 shall be for the fiscal year beginning July 1. An application must ~~shall~~ consist of:

1. A commitment to pay ~~no less than~~ 25 percent or more of the total cleanup cost deemed recoverable under ~~the provisions of~~ this section along with proof of the ability to pay the cost share. An applicant proposing that the department enter into a performance-based contract for the cleanup of at least 20 sites may use the following as its cost share commitment: a commitment to pay; a demonstrated cost savings to the department; or any combination of the two. For applications relying on a demonstration of a cost savings, the applicant, in conjunction with its proposed agency term contractor, shall establish and provide in its application the percentage of cost savings, in the aggregate, that is being provided to the department for cleanup of the sites under its application compared to the cost of cleanup of those same sites using the current rates provided to the department by that proposed agency term contractor. The department shall determine if the cost savings demonstration is acceptable, and such determination is not subject to chapter 120.

2. A nonrefundable review fee of $250 to cover the administrative costs associated with the department's review of the application.

3. A limited contamination assessment report.

4. A proposed course of action.

The limited contamination assessment report must ~~shall~~ be sufficient to support the proposed course of action and to estimate the cost of the proposed course of action. ~~Any~~ Costs

incurred related to conducting the limited contamination assessment report are not refundable from the Inland Protection Trust Fund. Site eligibility under this subsection~~,~~ or any other provision of this section is~~, shall~~ not ~~constitute~~ an entitlement to ~~preapproved~~ advanced cleanup or continued restoration funding. The applicant shall certify to the department that the applicant has the prerequisite authority to enter into an ~~a preapproved~~ advanced cleanup contract with the department. The ~~This~~ certification must ~~shall~~ be submitted with the application.

(b) The department shall rank the applications based on the percentage of cost-sharing commitment proposed by the applicant, with the highest ranking given to the applicant who ~~that~~ proposes the highest percentage of cost sharing. If the department receives applications that propose identical cost-sharing commitments and that ~~which~~ exceed the funds available to commit to all such proposals during the ~~preapproved~~ advanced cleanup application period, the department shall proceed to rerank those applicants. Those applicants submitting identical cost-sharing proposals that ~~which~~ exceed funding availability must ~~shall~~ be so notified by the department and ~~shall be~~ offered the opportunity to raise their individual cost-share commitments, in a period ~~of time~~ specified in the notice. At the close of the period, the department shall proceed to rerank the applications pursuant to ~~in accordance with~~ this paragraph.

(3)(a) Based on the ranking established under paragraph (2)(b) ~~and the funding limitations provided in subsection (4)~~, the department shall begin ~~commence~~ negotiation with such applicants. If the department and the applicant agree on the

course of action, the department may enter into a contract with the applicant. The department may ~~is authorized to~~ negotiate the terms and conditions of the contract.

(b) ~~Preapproved~~ Advanced cleanup must ~~shall~~ be conducted pursuant to s. 376.3071(5)(b) and (6) and rules adopted under ss. 287.0595 and 376.3071 ~~under the provisions of ss. 376.3071(5)(b) and 376.30711~~. If the terms of the ~~preapproved~~ advanced cleanup contract are not fulfilled, the applicant forfeits any right to future payment for any site rehabilitation work conducted under the contract.

(c) The department's decision not to enter into an ~~a preapproved~~ advanced cleanup contract with the applicant is ~~shall~~ not ~~be~~ subject to ~~the provisions of~~ chapter 120. If the department cannot ~~is not able to~~ complete negotiation of the course of action and the terms of the contract within 60 days after beginning ~~commencing~~ negotiations, the department shall terminate negotiations with that applicant.

(4) The department may ~~is authorized to~~ enter into contracts for a total of up to $15 million of ~~preapproved~~ advanced cleanup work in each fiscal year. However, a facility or an applicant that bundles multiple sites as specified in subparagraph (2)(a)1. may not be approved ~~preapproved~~ for more than $5 million of cleanup activity in each fiscal year. For the purposes of this section, the term "facility" includes ~~shall include~~, but is not ~~be~~ limited to, multiple site facilities such as airports, port facilities, and terminal facilities even though such enterprises may be treated as separate facilities for other purposes under this chapter.

(5) All funds collected by the department pursuant to this

section shall be deposited into the Inland Protection Trust Fund to be used as provided in this section.

Section 4. Subsections (4) and (30) of section 376.301, Florida Statutes, are amended to read:

376.301 Definitions of terms used in ss. 376.30-376.317, 376.70, and 376.75.—When used in ss. 376.30-376.317, 376.70, and 376.75, unless the context clearly requires otherwise, the term:

~~(4) "Backlog" means reimbursement obligations incurred pursuant to s. 376.3071(12), prior to March 29, 1995, or authorized for reimbursement under the provisions of s. 376.3071(12), pursuant to chapter 95-2, Laws of Florida. Claims within the backlog are subject to adjustment, where appropriate.~~

~~(30) "Person responsible for conducting site rehabilitation" means the site owner, operator, or the person designated by the site owner or operator on the reimbursement application. Mortgage holders and trust holders may be eligible to participate in the reimbursement program pursuant to s. 376.3071(12).~~

Section 5. Subsection (5) of section 376.302, Florida Statutes, is amended to read:

376.302 Prohibited acts; penalties.—

(5) Any person who commits fraud in representing his or her ~~their~~ qualifications as a contractor ~~for reimbursement~~ or in submitting a payment invoice ~~reimbursement request~~ pursuant to s. 376.3071 ~~s. 376.3071(12)~~ commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Section 6. Subsection (6) of section 376.305, Florida Statutes, is amended to read:

376.305 Removal of prohibited discharges.—

(6) The Legislature created the Abandoned Tank Restoration Program in response to the need to provide financial assistance for cleanup of sites that have abandoned petroleum storage systems. For purposes of this subsection, the term "abandoned petroleum storage system" means a ~~shall mean any~~ petroleum storage system that has not stored petroleum products for consumption, use, or sale since March 1, 1990. The department shall establish the Abandoned Tank Restoration Program to facilitate the restoration of sites contaminated by abandoned petroleum storage systems.

(a) To be included in the program:

1. An application must be submitted to the department by June 30, 1996, certifying that the system has not stored petroleum products for consumption, use, or sale at the facility since March 1, 1990.

2. The owner or operator of the petroleum storage system when it was in service must have ceased conducting business involving consumption, use, or sale of petroleum products at that facility on or before March 1, 1990.

3. The site is not otherwise eligible for the cleanup programs pursuant to s. 376.3071 or s. 376.3072.

(b) In order to be eligible for the program, petroleum storage systems from which a discharge occurred must be closed pursuant to ~~in accordance with~~ department rules before ~~prior to~~ an eligibility determination. However, if the department determines that the owner of the facility cannot ~~is~~ financially ~~unable to~~ comply with the department's petroleum storage system closure requirements and all other eligibility requirements are

met, the petroleum storage system closure requirements shall be waived. The department shall take into consideration the owner's net worth and the economic impact on the owner in making the determination of the owner's financial ability. The June 30, 1996, application deadline shall be waived for owners who cannot ~~are~~ financially ~~unable to~~ comply.

(c) Sites accepted in the program are ~~will be~~ eligible for site rehabilitation funding as provided in s. 376.3071 ~~s. 376.3071(12) or s. 376.30711, as appropriate~~.

(d) The following sites are excluded from eligibility:

1. Sites on property of the Federal Government;

2. Sites contaminated by pollutants that are not petroleum products;

3. Sites where the department has been denied site access; or

4. Sites which are owned by a ~~any~~ person who had knowledge of the polluting condition when title was acquired unless the ~~that~~ person acquired title to the site after issuance of a notice of site eligibility by the department.

(e) Participating sites are subject to a deductible as determined by rule, not to exceed $10,000.

~~The provisions of~~ This subsection does ~~do~~ not relieve a ~~any~~ person who has acquired title after ~~subsequent to~~ July 1, 1992, from the duty to establish by a preponderance of the evidence that he or she undertook, at the time of acquisition, all appropriate inquiry into the previous ownership and use of the property consistent with good commercial or customary practice in an effort to minimize liability, as required by s.

376.308(1)(c).

Section 7. Paragraph (a) of subsection (1) and subsections (3), (4), and (9) of section 376.30714, Florida Statutes, are amended to read:

376.30714 Site rehabilitation agreements.—

(1) In addition to the legislative findings provided in s. 376.3071, the Legislature finds and declares:

(a) The provisions of s. 376.3071(5)(a) ~~ss. 376.3071(5)(a) and 376.30711~~ have delayed cleanup of low-priority sites determined to be eligible for state funding under that section and ss. 376.305~~, 376.3071,~~ and 376.3072.

(3) Free product attributable to a new discharge shall be removed to the extent practicable and pursuant to ~~in accordance with~~ department rules adopted pursuant to s. 376.3071(5) at the expense of the owner, operator, or other responsible party. Free product attributable to existing contamination shall be removed pursuant to ~~in accordance with~~ s. 376.3071(5) and (6)~~, or s. 376.30711(1)(b),~~ and department rules adopted pursuant thereto.

(4) Beginning January 1, 1999, the department may ~~is authorized to~~ negotiate and enter into site rehabilitation agreements with applicants at sites with eligible existing contamination at which a new discharge occurs. The site rehabilitation agreement must ~~shall~~ include, but is not ~~be~~ limited to, allocation of the funding responsibilities of the department and the applicant for cleanup of the qualified site, establishment of a mechanism to guarantee the applicant's commitment to pay its agreed amount of site rehabilitation as set forth in the agreement, and establishment of the priority in which cleanup of the qualified site will occur. Under ~~any~~ such a

negotiated site rehabilitation agreement, the applicant may not ~~shall~~ be responsible for ~~no~~ more than the cleanup costs that are attributable to the new discharge. However, the payment of ~~any~~ applicable deductibles, copayments, or other program eligibility requirements under ss. 376.305, 376.3071, and 376.3072 shall continue to apply to the existing contamination and must be accounted for in the negotiated site rehabilitation agreement. The department may ~~is further authorized~~, pursuant to this section, ~~to preapprove or~~ conduct additional assessment activities at the site.

(9) Site rehabilitation conducted at qualified sites shall be conducted pursuant to s. 376.3071(5)(b) and (6) ~~under the provisions of ss. 376.3071(5)(b) and 376.30711~~. If the terms of the agreement are not fulfilled by the applicant, the applicant forfeits the ~~any~~ right to continued funding for ~~any~~ site rehabilitation work under the agreement and is ~~shall be~~ subject to enforcement action by the department or local government to compel cleanup of the new discharge.

Section 8. Subsection (2) of section 376.3072, Florida Statutes, is amended to read:

376.3072 Florida Petroleum Liability and Restoration Insurance Program.—

(2)(a) An ~~Any~~ owner or operator of a petroleum storage system may become an insured in the restoration insurance program at a facility if ~~provided~~:

1. A site at which an incident has occurred is ~~shall be~~ eligible for restoration if the insured is a participant in the third-party liability insurance program or otherwise meets applicable financial responsibility requirements. After July 1,

1993, the insured must also provide the required excess insurance coverage or self-insurance for restoration to achieve the financial responsibility requirements of 40 C.F.R. s. 280.97, subpart H, not covered by paragraph (d).

2. A site that ~~which~~ had a discharge reported before ~~prior to~~ January 1, 1989, for which notice was given pursuant to s. 376.3071(10) ~~s. 376.3071(9) or (12)~~, and that ~~which~~ is ineligible for the third-party liability insurance program solely due to that discharge is ~~shall be~~ eligible for participation in the restoration program for an ~~any~~ incident occurring on or after January 1, 1989, pursuant to ~~in accordance with~~ subsection (3). Restoration funding for an eligible contaminated site will be provided without participation in the third-party liability insurance program until the site is restored as required by the department or until the department determines that the site does not require restoration.

3. Notwithstanding paragraph (b), a site where an application is filed with the department before ~~prior to~~ January 1, 1995, where the owner is a small business under s. 288.703(6), a state community college with less than 2,500 FTE, a religious institution as defined by s. 212.08(7)(m), a charitable institution as defined by s. 212.08(7)(p), or a county or municipality with a population of less than 50,000, is ~~shall be~~ eligible for up to $400,000 of eligible restoration costs, less a deductible of $10,000 for small businesses, eligible community colleges, and religious or charitable institutions, and $30,000 for eligible counties and municipalities, if ~~provided that~~:

a. Except as provided in sub-subparagraph e., the facility

was in compliance with department rules at the time of the discharge.

b. The owner or operator has, upon discovery of a discharge, promptly reported the discharge to the department, and drained and removed the system from service, if necessary.

c. The owner or operator has not intentionally caused or concealed a discharge or disabled leak detection equipment.

d. The owner or operator proceeds to complete initial remedial action as specified ~~defined~~ by department rules.

e. The owner or operator, if required and if it has not already done so, applies for third-party liability coverage for the facility within 30 days after ~~of~~ receipt of an eligibility order issued by the department pursuant to this subparagraph ~~provision~~.

However, the department may consider in-kind services from eligible counties and municipalities in lieu of the $30,000 deductible. The cost of conducting initial remedial action as defined by department rules is ~~shall be~~ an eligible restoration cost pursuant to this subparagraph ~~provision~~.

4.a. By January 1, 1997, facilities at sites with existing contamination must ~~shall be required to~~ have methods of release detection to be eligible for restoration insurance coverage for new discharges subject to department rules for secondary containment. Annual storage system testing, in conjunction with inventory control, shall be considered to be a method of release detection until the later of December 22, 1998, or 10 years after the date of installation or the last upgrade. Other methods of release detection for storage tanks which meet such

requirement are:

(I) Interstitial monitoring of tank and integral piping secondary containment systems;

(II) Automatic tank gauging systems; or

(III) A statistical inventory reconciliation system with a tank test every 3 years.

b. For pressurized integral piping systems, the owner or operator must use:

(I) An automatic in-line leak detector with flow restriction meeting the requirements of department rules used in conjunction with an annual tightness or pressure test; or

(II) An automatic in-line leak detector with electronic flow shut-off meeting the requirements of department rules.

c. For suction integral piping systems, the owner or operator must use:

(I) A single check valve installed directly below the suction pump if~~, provided~~ there are no other valves between the dispenser and the tank; or

(II) An annual tightness test or other approved test.

d. Owners of facilities with existing contamination which ~~that~~ install internal release detection systems pursuant to ~~in accordance with~~ sub-subparagraph a. shall permanently close their external groundwater and vapor monitoring wells pursuant to ~~in accordance with~~ department rules by December 31, 1998. Upon installation of the internal release detection system, such ~~these~~ wells must ~~shall~~ be secured and taken out of service until permanent closure.

e. Facilities with vapor levels of contamination meeting the requirements of or below the concentrations specified in the

performance standards for release detection methods specified in department rules may continue to use vapor monitoring wells for release detection.

f. The department may approve other methods of release detection for storage tanks and integral piping which have at least the same capability to detect a new release as the methods specified in this subparagraph.

(b)1. To be eligible to be certified as an insured facility, for discharges reported after January 1, 1989, the owner or operator must ~~shall~~ file an affidavit upon enrollment in the program. The affidavit must ~~shall~~ state that the owner or operator has read and is familiar with this chapter and the rules relating to petroleum storage systems and petroleum contamination site cleanup adopted pursuant to ss. 376.303 and 376.3071 and that the facility is in compliance with this chapter and applicable rules adopted pursuant to s. 376.303. Thereafter, the facility's annual inspection report shall serve as evidence of the facility's compliance with department rules. The facility's certificate as an insured facility may be revoked only if the insured fails to correct a violation identified in an inspection report before a discharge occurs. The facility's certification may be restored when the violation is corrected as verified by a reinspection.

2. Except as provided in paragraph (a), to be eligible to be certified as an insured facility, the applicant must demonstrate to the department that the applicant has financial responsibility for third-party claims and excess coverage, as required by this section and 40 C.F.R. s. 280.97(h), and that the applicant maintains such insurance during the applicant's

participation as an insured facility.

3. Should a reinspection of the facility be necessary to demonstrate compliance, the insured shall pay an inspection fee not to exceed $500 per facility to be deposited in the Inland Protection Trust Fund.

4. Upon report of a discharge, the department shall issue an order stating that the site is eligible for restoration coverage unless the insured has intentionally caused or concealed a discharge or disabled leak detection equipment, has misrepresented facts in the affidavit filed pursuant to subparagraph 1., or cannot demonstrate that he or she has obtained and maintained the financial responsibility for third-party claims and excess coverage as required in subparagraph 2.

This paragraph does not ~~Nothing contained herein shall~~ prevent the department from assessing civil penalties for noncompliance pursuant to this subsection ~~as provided herein~~.

(c) A lender that has loaned money to a participant in the Florida Petroleum Liability and Restoration Insurance Program and has held a mortgage lien, security interest, or ~~any~~ lien rights on the site primarily to protect the lender's right to convert or liquidate the collateral in satisfaction of the debt secured, or a financial institution that ~~which~~ serves as a trustee for an insured in the program for the purpose of site rehabilitation, is ~~shall be~~ eligible for a state-funded cleanup of the site~~,~~ if the lender forecloses the lien or accepts a deed in lieu of foreclosure on that property and acquires title, and as long as the following has occurred, as applicable:

1. The owner or operator provided the lender with proof

that the facility is eligible for the restoration insurance program at the time of the loan or before the discharge occurred.

2. The financial institution or lender ~~completes site rehabilitation and seeks reimbursement pursuant to s. 376.3071(12) or~~ conducts ~~preapproved~~ site rehabilitation pursuant to s. 376.3071 ~~s. 376.30711, as appropriate~~.

3. The financial institution or lender did not engage in management activities at the site before ~~prior to~~ foreclosure and does not operate the site or otherwise engage in management activities after foreclosure, except to comply with environmental statutes or rules or to prevent, abate, or remediate a discharge.

(d)1. With respect to eligible incidents reported to the department before ~~prior to~~ July 1, 1992, the restoration insurance program shall provide up to $1.2 million of restoration for each incident and shall have an annual aggregate limit of $2 million of restoration per facility.

2. For any site at which a discharge is reported on or after July 1, 1992, and for which restoration coverage is requested, the department shall pay for restoration in accordance with the following schedule:

a. For discharges reported to the department from July 1, 1992, to June 30, 1993, the department shall pay up to $1.2 million of eligible restoration costs, less a $1,000 deductible per incident.

b. For discharges reported to the department from July 1, 1993, to December 31, 1993, the department shall pay up to $1.2 million of eligible restoration costs, less a $5,000 deductible

per incident. However, if, before ~~prior to~~ the date the discharge is reported and by September 1, 1993, the owner or operator can demonstrate financial responsibility in effect in accordance with 40 C.F.R. s. 280.97, subpart H, for coverage under sub-subparagraph c., the deductible will be $500. The $500 deductible shall apply for a period of 1 year from the effective date of a policy or other form of financial responsibility obtained and in effect by September 1, 1993.

c. For discharges reported to the department from January 1, 1994, to December 31, 1996, the department shall pay up to $400,000 of eligible restoration costs, less a deductible of $10,000.

d. For discharges reported to the department from January 1, 1997, to December 31, 1998, the department shall pay up to $300,000 of eligible restoration costs, less a deductible of $10,000.

e. Beginning January 1, 1999, ~~no~~ restoration coverage may not ~~shall~~ be provided.

f. In addition, a supplemental deductible shall be added as follows:

(I) A supplemental deductible of $5,000 if the owner or operator fails to report a suspected release within 1 working day after discovery.

(II) A supplemental deductible of $10,000 if the owner or operator, within 3 days after discovery of an actual new discharge, fails to take steps to test or empty the storage system and complete such activity within 7 days.

(III) A supplemental deductible of $25,000 if the owner or operator, after testing or emptying the storage system, fails to

proceed within 24 hours thereafter to abate the known source of the discharge or to begin free product removal relating to an actual new discharge and fails to complete abatement within 72 hours, although free product recovery may be ongoing.

(e) The following are not eligible to participate in the Petroleum Liability and Restoration Insurance Program:

1. Sites owned or operated by the Federal Government during the time the facility was in operation.

2. Sites where the owner or operator has denied the department reasonable site access.

3. Any third-party claims relating to damages caused by discharges discovered before ~~prior to~~ January 1, 1989.

4. Any incidents discovered before ~~prior to~~ January 1, 1989~~, are not eligible to participate in the restoration insurance program~~. However, this exclusion does ~~shall~~ not ~~be construed to~~ prevent a new incident at the same location from participation in the restoration insurance program if the owner or operator is otherwise eligible. This exclusion does ~~shall~~ not affect eligibility for participation in the Early Detection Incentive ~~EDI~~ Program.

Sites meeting the criteria of this subsection for which a site rehabilitation completion order was issued before ~~prior to~~ June 1, 2008, do not qualify for the 2008 increase in site rehabilitation funding assistance and are bound by the pre-June 1, 2008, limits. Sites meeting the criteria of this subsection for which a site rehabilitation completion order was not issued before ~~prior to~~ June 1, 2008, regardless of whether ~~or not~~ they have previously transitioned to nonstate-funded cleanup status,

may continue state-funded cleanup pursuant to s. 376.3071(6) ~~s. 376.30711~~ until a site rehabilitation completion order is issued or the increased site rehabilitation funding assistance limit is reached, whichever occurs first. ~~At no time shall expenses incurred outside the preapproved site rehabilitation program under s. 376.30711 be reimbursable.~~

Section 9. Subsections (1) and (4) of section 376.3073, Florida Statutes, are amended to read:

376.3073 Local programs and state agency programs for control of contamination.—

(1) The department shall, to the greatest extent possible and cost-effective, contract with local governments to provide for the administration of its departmental responsibilities under ss. 376.305, 376.3071(4)(a)-(e), (h), (k), and (m) and (6) ~~(l), (n), 376.30711~~, 376.3072, and 376.3077 through locally administered programs. The department may also contract with state agencies to carry out the restoration activities authorized pursuant to ss. 376.305, 376.3071, and 376.3072~~, 376.305, and 376.30711~~. However, ~~no~~ such a contract may not ~~shall~~ be entered into unless the local government or state agency is deemed capable of carrying out such responsibilities to the department's satisfaction.

(4) Under no circumstances shall the cleanup criteria employed in locally administered programs or state agency programs or pursuant to local ordinance be more stringent than the criteria established by the department pursuant to s. 376.3071(5) or (6) ~~s. 376.30711~~.

Section 10. Subsections (4) and (5) of section 376.3075, Florida Statutes, are amended to read:

664100

576-03677-14

376.3075 Inland Protection Financing Corporation.—

(4) The corporation may enter into one or more service contracts with the department to provide services to the department in connection with financing the functions and activities provided in ss. 376.30-376.317. The department may enter into one or more such service contracts with the corporation and provide for payments under such contracts pursuant to s. 376.3071(4)(n) ~~s. 376.3071(4)(o)~~, subject to annual appropriation by the Legislature. The proceeds from such service contracts may be used for the corporation's administrative costs and expenses after payments as set forth in subsection (5). Each service contract may have a term of up to 20 years. Amounts annually appropriated and applied to make payments under such service contracts may not include any funds derived from penalties or other payments received from any property owner or private party, including payments received under s. 376.3071(7)(b) ~~s. 376.3071(6)(b)~~. In compliance with s. 287.0641 and other applicable provisions of law, the obligations of the department under such service contracts do not constitute a general obligation of the state or a pledge of the faith and credit or taxing power of the state, and ~~nor may~~ such obligations are not obligations ~~be construed in any manner as an obligation~~ of the State Board of Administration or entities for which it invests funds, other than the department as provided in this section, but are payable solely from amounts available in the Inland Protection Trust Fund, subject to annual appropriation. In compliance with this subsection and s. 287.0582, the service contract must expressly include the following statement: "The State of Florida's performance and

664100

576-03677-14

obligation to pay under this contract is contingent upon an annual appropriation by the Legislature."

(5) The corporation may issue and incur notes, bonds, certificates of indebtedness, or other obligations or evidences of indebtedness payable from and secured by amounts payable to the corporation by the department under a service contract entered into pursuant to subsection (4) for the purpose of financing the rehabilitation of petroleum contamination sites pursuant to ss. 376.30-376.317. The term of any such note, bond, certificate of indebtedness, or other obligation or evidence of indebtedness may not have a financing term that exceeds 15 years. The corporation may select its financing team and issue its obligations through competitive bidding or negotiated contracts, whichever is most cost-effective. ~~Any~~ Indebtedness of the corporation does not constitute a debt or obligation of the state or a pledge of the faith and credit or taxing power of the state~~,~~ but is payable from and secured by payments made by the department under the service contract pursuant to s. 376.3071(4)(n) ~~s. 376.3071(4)(o)~~.

Section 11. This act shall take effect July 1, 2014.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1582
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on General Government) and Senator Dean
SUBJECT:	Rehabilitation of Petroleum Contamination Sites
DATE:	April 24, 2014 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Gudeman	Uchino	EP	**Favorable**
2.	Howard	DeLoach	AGG	**Fav/CS**
3.	Howard	Kynoch	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1582 revises the legislative intent for the Petroleum Restoration Program in the Department of Environmental Protection (DEP or department), requires competitive procurement for cleanup contracts, and amends contractor qualifications. The bill limits the eligibility funding for the Early Detection Incentive (EDI) Program, deletes obsolete provisions related to the reimbursement program, repeals sections of statute related to the Petroleum Preapproval Program, and allows the DEP to conduct financial and technical audits for the Petroleum Restoration Program.

The DEP anticipates that the costs to the state for site rehabilitation will decrease with the implementation of competitive solicitation procedures. In the preapproved advanced cleanup program, lower costs of at least 25 percent are required for applicants participating in a performance-based contract for the cleanup of at least 20 sites. The increase in workload related to contracts and procurement can be handled with existing staff.

The bill takes effect on July 1, 2014.

II. Present Situation:

Petroleum Restoration Program

The Division of Waste Management within the DEP regulates underground and aboveground storage tank systems. In 1983, Florida became one of the first states to pass legislation and adopt rules to regulate underground and aboveground storage tanks.[1] Leaking storage tanks pose a significant threat to groundwater quality, and Florida relies on groundwater for about 92 percent of its drinking water needs.[2]

In 1986, the Legislature passed the State Underground Petroleum Environmental Response Act (SUPER Act) to address the problem of pollution from leaking underground petroleum storage systems. The SUPER Act authorized the DEP to establish criteria for the prioritization, assessment, cleanup, and reimbursement for cleanup of contaminated sites. The SUPER Act also created the Inland Protection Trust Fund (IPTF), which is funded by a tax on petroleum products imported or produced in Florida. The SUPER Act established the Early Detection Incentive Program (EDI), which provided site owners with the option of conducting the cleanup themselves, and then receive reimbursement from the IPTF, or have the state conduct the cleanup in priority order.[3]

In 1988, the Legislature created the Petroleum Liability Insurance Program (PLIP) to provide third-party liability insurance to qualified program participants. The PLIP provided up to $1 million of liability insurance for each incident of petroleum contamination.[4] The program was revised in 1989 and renamed to the Petroleum Liability Insurance and Restoration Program (PLIRP). The PLIRP allows eligible petroleum facilities to purchase $1 million in pollution liability protection from a state contracted insurer and provided $1 million worth of site restoration coverage through reimbursement or state-funded cleanup.[5]

In 1990, the Legislature established the Abandoned Tank Restoration Program (ATRP). The ATRP was created to address the contamination at facilities that had out-of-service or abandoned tanks as of March 1990. The ATRP originally had a one-year application period, but the deadline is now waived indefinitely for owners who are unable to pay for the closure of abandoned tanks.[6]

The Legislature began to phase out the state's role in the cleanup process in 1992 by shifting the cleanup of sites to the reimbursement program,[7] which was funded by increasing the excise tax on petroleum and petroleum products.[8] The reimbursement program proved costly, and within a few years the reimbursement amount exceeded the administrative capacity of the DEP and the financial resources of the IPTF. By 1996, over 18,000 petroleum sites had been identified as

[1] *See* ch. 83-310, Laws of Fla.

[4] Chapter 88-331, Laws of Fla.
[5] Chapter 89-188, Laws of Fla.
[6] Chapter 90-98, Laws of Fla.
[7] The term "cleanup sites" includes contaminated sites that are being remediated by the state or the property owner.
[8] Chapter 92-30, Laws of Fla.

contaminated and the program had accumulated $551.5 million in outstanding reimbursement claims.[9]

In 1995, the Legislature passed a temporary measure to address the large backlog of reimbursement applications and unpaid claims and required a review of the petroleum underground storage tanks program. The measure only funded the remediation of sites that had received prior notice from the DEP.[10]

The Petroleum Preapproval Program (program) was implemented by the Legislature in 1996. The program required state-funded clean up of sites to be done on a preapproved basis, in priority order, and within the current fiscal year's budget. The program also required the DEP to use risk-based corrective action principles in the cleanup criteria rule. The Petroleum Cleanup Participation Program (PCPP) was created for sites that had missed the opportunity for state funding assistance but had reported contamination before 1995. Responsible parties were required to cost share in the cleanup and prepare a limited scope assessment at their expense.[11]

The Preapproved Advanced Cleanup (PAC) program was also created in 1996 to allow property owners or responsible parties the opportunity to pay a portion of the cleanup costs in order to bypass the priority ranking list. The PAC program requires applicants to provide at least 25 percent of the total cleanup costs and requires the property owner to prepare limited scope assessments at their expense.[12]

Section 376.30713(4), F.S., authorizes the DEP to enter into PAC contracts for up to $15 million each fiscal year and limits the amount a facility may receive to $5 million per year. A facility includes multiple site facilities such as airports, ports, or terminal facilities.[13] PAC applications are submitted to the DEP twice a year (between May 1 and June 30 and between November 1 and December 31). The applications are ranked based on the percentage of cost-sharing commitment proposed by the applicant, with the highest ranking given to the applicant that proposes the highest percentage of its share of costs.[14] In 1999, the Legislature amended the Petroleum Preapproval Program to allow the DEP to fund certain source removal activities. The bill addressed new petroleum discharges that occurred at a site with existing contamination and were reported after December 31, 1998. The bill allowed a responsible party to enter into a Site Rehabilitation Agreement with the DEP and to share in the cost and coordination of the cleanup, provided that the responsible party submit an application and a Limited Contamination Assessment Report to the DEP.[15]

The Legislature substantially amended the Petroleum Preapproval Program in 2005 to require:

- All of Florida's underground petroleum storage tanks be upgraded prior to January 1, 2010;

[9] Comm. on Environmental Preservation and Conservation, the Florida Senate, *Underground Petroleum Storage Tank Cleanup Program*, (Interim Report 2005-153) (Nov. 2004).
[10] Chapter 95-2, Laws of Fla.
[11] Chapter 96-277, ss. 18-19, Laws of Fla.
[12] Section 376.30713, F.S.
[13] Section 376.30713(4), F.S.
[14] Section 376.30713(2), F.S
[15] Chapter 99-376, Laws of Fla.

- The DEP to establish a process to uniformly encumber funds appropriated for the underground storage tank program throughout a fiscal year;
- The DEP to establish priorities based on a scoring system;
- Funding for limited interim soil-source removals for sites that become inaccessible for future remediation due to road infrastructure and right-of-way restrictions resulting from pending Department of Transportation projects;
- Funding for limited interim soil-source removals associated with the underground petroleum storage system upgrade that are conducted in advance of the site's priority ranking for cleanup;
- Limited funding to 10 sites per fiscal year per owner for source removal associated with the underground petroleum storage system upgrade;
- Limited funding per facility and for activities that may be funded;
- Limited funding of $1 million per fiscal year for Department of Transportation projects, and $10 million per fiscal year for underground petroleum storage system upgrade projects;
- Repeal of funding provisions as of June 30, 2008;
- Availability of the Preapproved Advanced Cleanup Participation Program for discharges of petroleum that are eligible for restoration funding under the Petroleum Cleanup Participation Program for the state's cost share of site rehabilitation; and
- Extension of the life of the Inland Protection Financing Corporation from 2011 to 2025, and require the corporation to issue notes and bonds, and to pay for large-scale cleanups such as ports, airports, and terminal facilities that are eligible for state funding.[16]

In 2013, the Legislature amended s. 376.30711, F.S., to require all task assignments, work orders, and contracts for providers under the preapproval program be procured through competitive bidding pursuant to ss. 287.056, 287.057, and 287.059, F.S., after June 30, 2014.[17] Pursuant to s. 376.30711, F.S., the DEP is authorized to use competitive bid procedures or negotiated contracts for preapproving all costs and procedures for site-specific rehabilitation projects, but has not done so on a permanent basis.

Pursuant to s. 287.057, F.S., state agencies that competitively solicit contractual services exceeding $35,000 must:

- Make the competitive solicitation available to all vendors;
- Include the time and date for the receipt of bids, proposal, or replies, and of the public opening;
- Include the contractual terms and conditions applicable to the procurement and the criteria used to determine acceptability and merit of the bid;
- Use the invitation to bid process when the agency is able to define the scope of work and establish the specifications of the services needed;
- Use the request for proposal process when the purpose of the services needed can be defined and the agency can identify the deliverables; and
- Use the invitation to negotiate process when the agency must determine the best method for achieving the specific goal and more than one vendor is able to provide the services.

[16] Sections 376.3071, 376.30713, 376.3075, and 376.30715, F.S.
[17] Chapter 2013-41, s. 29, Laws of Fla.

Contractual services that exceed the $35,000 threshold must be procured through competitive sealed bids, competitive sealed proposals, or competitive sealed replies unless:

- The agency head determines there is an immediate danger to public health, safety, or welfare; and
- The agency purchases the services from a state procured contract that was contracted by another agency pursuant to s. 287.057(1), F.S.[18]

MyFloridaMarketPlace

The Department of Management Services established a statewide electronic registration and procurement system called MyFloridaMarketPlace. Pursuant to s. 287.057(23), F.S., a one percent transaction fee is charged to all vendors in order to utilize the system.[19]

Funding for the Petroleum Restoration Program

The Fiscal Year 2013-2014 General Appropriations Act (GAA) appropriated $125 million to the DEP for the rehabilitation of eligible petroleum contaminated sites. The GAA directed that up to $50 million be appropriated to fund petroleum rehabilitation task assignments, work orders, and contracts entered into prior to June 30, 2013. The remaining $75 million was placed in reserve and was contingent upon submission of a plan for consideration by the Legislative Budget Commission (LBC) detailing how the DEP would improve the effectiveness and efficiency of the Petroleum Restoration Program. Also, no funds could be released after January 1, 2014, unless the DEP adopted rules to implement ss. 376.3071, 376.30711, and 376.30713, Florida Statutes. The DEP's plan was approved by the LBC on September 12, 2013, and rules were adopted on December 27, 2013. The remaining $75 million in appropriation was released in March 2014.[20]

The DEP is currently transitioning the Petroleum Restoration Program from the "preapproved contractor" approach to competitive procurement procedures pursuant to ss. 287.056, 287.057, and 287.059, F.S., and rules 62-771 and 62-772, F.A.C. As of January 31, 2014, there are approximately 17,300 sites or gasoline filling stations eligible for state funding and approximately 7,258 sites have been rehabilitated. Approximately 3,167 sites are currently undergoing some phase of site rehabilitation, and approximately 6,911 sites await rehabilitation. Site rehabilitation is funded based on available budget and the priority score. The score for each site ranges from five to 115, with five representing a very low potential threat to human health and the environment, and 115 representing a substantial potential threat.[21]

As of March 13, 2014, there are 60 approved cleanup contractors and 137 executed contracts. The DEP has:

- Obligated approximately $57.1 million of the Fiscal Year 2013-2014 appropriation of $125 million;

[18] See s. 287.057, F.S.
[19] See Rules 60A-1.030, 60A-1.031, and 60A-1.032, F.A.C.
[20] Chapter 2013-40, Laws of Fla.
[21] DEP, *Senate Bill 1582 Agency Analysis*, 3 (Mar. 12, 2014) (on file with the Senate Committee on Environmental Preservation and Conservation).

- Directed assigned rehabilitation work to 149 sites with a total value of $5,041,217, which is included in the total obligated amount of $57.1 million; and
- Selected 13 sites to receive quotes from contractors for a total estimated value of $4,216,075, which is not included in the $57.1 million.[22]

Legislative Ratification of Agency Rules

The Legislature required the DEP to adopt rules to implement ss. 376.3071, 376.30711, and 376.30713, F.S., by December 31, 2013, otherwise the remaining, unreleased funds appropriated for Fiscal Year 2013-2014 could not be released. On May 30, 2013, the DEP published a Notice of Rule Development in the Florida Administrative Register to create Rule 62-772, F.A.C., and amend Rule 62-771, F.A.C. The new rules provide the procedures for the procurement of contractual services for clean up of petroleum contaminated sites and amend the procedures for establishing the priority scoring system for petroleum contaminated sites. The rules were adopted on December 27, 2013.

Pursuant to s. 120.541, F.S., a rule that meets any of three thresholds must be ratified by the Legislature. The thresholds include:

- If the rule is likely to have an adverse impact on economic growth, private sector job creation or employment, or private sector investment in excess of $1 million in the aggregate within five years after implementation of the rule;
- If the rule is likely to have an adverse impact on business competitiveness, including the ability of persons doing business in the state to compete with persons doing business in other states or domestic markets, productivity, or innovation in excess of $1 million in the aggregate within five years after implementation of the rule; or
- If the rule is likely to increase regulatory costs, including any transactional costs, in excess of $1 million in the aggregate within five years after implementation of the rule.[23]

The DEP prepared a Statement of Estimated Regulatory (SERC) for Rules 62-772.300 and 62-772.400, F.A.C., and determined the rules triggered a statutory threshold requiring ratification. The SERC for Rule 62-772.300, F.A.C., estimates the cost for contractors to maintain business licensure, safety compliance, workers compensation insurance, comprehensive automobile insurance, and general and professional liability insurance is approximately $15.4 million per year. The cost estimate provided in the SERC is based on 225 contractors. As of March 2014, the number of agency term contractors is 70, decreasing the cost associated with Rule 62-772.300, F.A.C., to approximately $4.8 million per year.[24]

The SERC for Rule 62-772.400, F.A.C., estimates the cost incurred by contractors to assemble and submit bids, responses, replies, and quotes to the DEP as part of the competitive

[22] Email from Pierce Schuessler, Legislative Affairs Director, DEP (Mar. 16, 2014) (on file with the Senate Committee on Environmental Preservation and Conservation).
[23] Section 120.541(2)(a)1.-3., F.S.
[24] DEP, *Statement of Estimated Regulatory Cost, Rule 62-772.300, F.A.C.*, 3 (on file with the Senate Committee on Environmental Preservation and Conservation).

procurement procedures and a one percent transaction fee for MyFloridaMarketPlace, to be approximately $41 million per year.[25]

The cost requirements outlined by the DEP in its new rules are already required of and incurred by contractors in order to conduct business pursuant to ss. 376.3071, 376.30711, and 376.30713, F.S.; however, the existing requirements are being restated in rule, thereby requiring ratification by the Legislature.

III. Effect of Proposed Changes:

The bill provides conforming language and makes technical changes to repeal the Petroleum Preapproval Program and requires the DEP to competitively procure contracts for the Petroleum Restoration Program.

Section 1 amends s. 287.0595, F.S., to allow the DEP to negotiate pollution response action contracts pursuant to s. 287.055, F.S., which is the Consultants Competitive Negotiation Act.

Section 2 amends s. 376.3071, F.S., to affirm that the Petroleum Restoration Program be implemented in a manner that reduces costs and improves efficiencies for rehabilitation activities. The bill specifies that the Legislature intends to prioritize the cleanup of sites based on the threat of contamination to water resources and the environment, public health, safety, and welfare, and within the funding limits of the Inland Protection Trust Fund. The bill recognizes that when source removal is feasible and cost effective, it significantly reduces and eliminates the spread of contamination.

The bill specifies contracting and contractor selection requirements. It directs that state-funded cleanup sites are funded pursuant to the provisions of the Petroleum Restoration Program in ss. 376.3071, 376.305(6), 376.3072, and 376.3073, F.S. The bill requires a facility owner to abate the source of discharge for a release that occurred after March 29, 1995, and to notify the DEP if free product is present.

The bill requires the DEP to comply with competitive procurement requirements pursuant to ch. 287, F.S., or adopted rules.

Contractors that perform site assessments and remediation are required to certify to the DEP that they:

- Comply with applicable Occupational Safety and Health Administration regulations;
- Maintain workers compensation insurance for employees as required by the Florida Workers' Compensation Law;
- Maintain comprehensive general liability and comprehensive automobile liability insurance including:
  - Having minimum limits of $1 million per occurrence; and

[25] DEP, *Statement of Estimated Regulatory Cost, Rule 62-772.400, F.A.C.*, 3 (on file with the Senate Committee on Environmental Preservation and Conservation).

  - Having $1 million per annual aggregate for personal injury, accidental death, and property damage;
- Maintain professional liability insurance of at least $1 million per occurrence and $1 million annual aggregate; and
- Have the capacity to perform or directly supervise the majority of the rehabilitation work pursuant to s. 489.113(9), F.S.

The bill requires that the rules implementing this section must:
- Specify that only qualified contractors may submit responses on competitive solicitation;
- Include procedures for the rejection of vendors that do not meet the minimum qualifications; and
- Include requirements for the vendor to maintain its qualifications.

The bill provides procedures for invoicing and payments. Specifically, the bill:
- Requires invoices to be submitted on forms provided by the DEP;
- Requires contractors to provide evidence documenting the contracted services were provided;
- Requires invoices to be paid pursuant to s. 215.422, F.S., if there are sufficient unencumbered funds available;
- Allows a contractor to assign its right to payment to another person after the contractor has submitted an invoice and before payment is made;
- Specifies the assignee must be paid pursuant to s. 215.422, F.S.;
- Requires contractors to submit an invoice to the DEP within 30 days of the DEP's written acceptance of the interim deliverables or approval of the final deliverables;
- Allows the DEP to retain up to 25 percent of the contracted amount or use a performance bond as long as the terms are included in the contract;
- Specifies that the contractor, or the assignee, must make prompt payment to subcontractors and suppliers pursuant to s. 287.0585, F.S.;
- Specifies that the exemption provided in s. 287.0585(2), F.S., does not apply to payments associated with an approved contract;
- Allows the DEP to withhold payment if the validity or accuracy of the contractor's invoices or supporting documents is in question; and
- Does not authorize payment for the cost of contaminated soil treatment or disposal if the soil treatment or disposal does not meet the rules for general permitting, state air emissions standards, monitoring, sampling, and reporting rules as described by the DEP.

The bill specifies the DEP must terminate or suspend a contractor's eligibility for participation in the program if the contractor fails to perform its contractual duties. It also prohibits a site owner or operator, or its designee, from receiving remuneration in cash or in kind, directly or indirectly from a contract performing site cleanup activities. The bill clarifies that any action by the DEP to seek recovery of payments or overpayments to a contractor must be based on the law that existed at the time of payment or overpayment.

The bill authorizes the DEP to perform financial and technical audits to verify site restoration costs and to ensure compliance with the Petroleum Restoration Program. It authorizes the DEP to receive any overpayment based on the results of the audit. The bill also requires the DEP to

begin an audit within five years after costs have been incurred, unless the DEP alleges facts that indicate fraud.

The bill requires the DEP to provide written notice to the recipient of a payment made from disallowed funds. If the recipient does not make payment to the DEP within 60 days after receipt of the written notice, the DEP must recover the payment in a court of competent jurisdiction, unless the DEP determines the amount is too small or the likelihood of recovery is too uncertain.

The bill specifies that in addition to the overpayment amount, the recipient is liable to the DEP for interest of one percent per month or the prime rate, whichever is less, of the amount of overpayment. The accrual of interest must be charged during the pendency of any litigation.

The bill specifies that claims accrued under the former reimbursement or preapproval program are expressly preserved.

The bill deletes references to the preapproval program and obsolete provisions related to the reimbursement program and makes conforming and technical changes.

Section 3 repeals s. 376.30711, F.S., which provided contracting and contractor selection procedures for the preapproval program.

Section 4 amends s. 376.301, F.S., deletes the obsolete definitions of "backlog" and "person responsible for conducting site rehabilitation," which were associated with the reimbursement program.

Sections 5 through 6 and 8 through 11 amend ss. 376.302, 376.305, 376.30714, 376.3072, 376.3073, 376.3075, F.S., respectively, to make conforming and technical changes to repeal the reimbursement program and the preapproval program.

Section 7 amends s. 376.30713, F.S., to allow an applicant to participate in the preapproved advanced cleanup program under a performance-based contract for the cleanup of at least 20 sites. The applicant must provide at least 25 percent of the costs of cleanup by paying, demonstrating cost savings to the DEP, or a combination of the two. The percentage of cost savings must be included in the application and compared to the cost of cleanup of the same sites using the current rates provided to the DEP by the agency term contractor. The DEP must determine if the cost savings demonstration is acceptable, which is not subject to ch. 120, F.S. The bill also makes conforming and technical changes to repeal the reimbursement program and the preapproval program.

Section 12 provides an effective date of July 1, 2014.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Under CS/SB 1582, the transition from a "preapproved contractor" approach to a competitive procurement system will have a positive and negative fiscal impact on the private sector. There will be costs to contractors associated with the requirements of submitting quotes and materials that meet the requirements of MyFloridaMarketPlace, including the one percent transaction fee. The utilization of competitive solicitation procedures are expected to reduce prices and potential profits. However, contractors that maintain a positive performance record will be able to generate more work, which could offset the lower profit margins.[26]

Generally, lower costs to rehabilitate sites will lead to greater efficiencies and the ability to clean up sites more cost effectively than in previous years. Individually, these costs may be negligible; however, in the aggregate and over time, the new program could lead to substantial savings.

The expansion of the preapproved advanced cleanup (PAC) program may benefit applicants with at least 20 sites that require cleanup. Conversely, because funding of this program is limited to $15 million each fiscal year, such expansion may exhaust the funds available for applicants with less than 20 sites.

C. Government Sector Impact:

The bill may decrease DEP's cost of site rehabilitation due to the implementation of the competitive solicitation process. Since this process is in the early stage of implementation, the cost savings are indeterminate at this time.[27]

In the PAC program, at least 25 percent in lower costs is required for applicants participating in a performance-based contract for the cleanup of at least 20 sites.

---

[26] *Supra* note 18, at 6.

[27] *Id*. DEP, *Senate Bill 1582 Agency Analysis*, 6 (Mar. 12, 2014) (on file with the Senate Committee on Environmental Preservation and Conservation).

The department anticipates an increase in workload related to contracts and procurement in the Administrative section within the Petroleum Restoration Program. Currently, this section has 12 positions and an annual budget of $886,103, with seven positions that work directly on contracts and procurement. According to the DEP, this is sufficient to handle the increased workload.

VI. Technical Deficiencies:

None.

VII. Related Issues:

CS/SB 1674, providing for legislative ratification of Rules 62-772.300 and 62-772.400, F.A.C., which relate to competitive bidding and contractor qualifications for the Petroleum Restoration Program, is pending. Failure to ratify the rules would prohibit the DEP from implementing the program after June 30, 2014.

It is unclear in lines 638-639 of the bill if there is a timeframe associated with the DEP's abilities to initiate an audit to recover costs in the case of fraud.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 287.0595, 376.3071, 376.301, 376.302, 376.305, 376.30713, 376.30714, 376.3072, 376.3073, and 376.3075.

This bill repeals section 376.30711 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 22, 2014:

- Allows the DEP to negotiate pollution response action contracts pursuant to s. 287.055, F.S., which is the Consultants Competitive Negotiation Act.
- Authorizes the DEP to perform financial and technical audits to verify site restoration costs and to ensure compliance with s. 376.3071, F.S. The bill provides parameters for the audits and any collection activities that may be necessary.
- Authorizes the DEP to approve performance-based advanced cleanup contracts for at least 20 sites for applicants and requires that they demonstrate a proportional share of at least 25 percent of the cleanup costs;

- Requires competitive solicitations to adhere to the requirements in s. 287.055, F.S., relating to acquisition of professional architectural, engineering, landscape architectural, or surveying and mapping services.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By Senator Dean

5-00511A-14 20141582__

A bill to be entitled

An act relating to rehabilitation of petroleum contamination sites; amending s. 376.3071, F.S.; revising legislative findings and intent regarding the Petroleum Restoration Program and the rehabilitation of contamination sites; providing requirements for site rehabilitation contracts and procedures for payment of rehabilitation work under the Petroleum Restoration Program; limiting eligibility for funding under the Early Detection Incentive Program; deleting obsolete provisions relating to reimbursement for certain cleanup expenses; repealing s. 376.30711, F.S., relating to preapproved site rehabilitation; amending ss. 376.301, 376.302, 376.305, 376.30713, 376.30714, 376.3072, 376.3073, and 376.3075, F.S.; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 376.3071, Florida Statutes, is amended to read:

376.3071 Inland Protection Trust Fund; creation; purposes; funding.—

(1) FINDINGS.—In addition to the legislative findings set forth in s. 376.30, the Legislature finds and declares:

(a) That significant quantities of petroleum and petroleum products are being stored in storage systems in this state, which is a hazardous undertaking.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

5-00511A-14 20141582__

(b) That spills, leaks, and other discharges from such storage systems have occurred, are occurring, and will continue to occur and that such discharges pose a significant threat to the quality of the groundwaters and inland surface waters of this state.

(c) That, where contamination of the ground or surface water has occurred, remedial measures have often been delayed for long periods while determinations as to liability and the extent of liability are made and that such delays result in the continuation and intensification of the threat to the public health, safety, and welfare; in greater damage to water resources and the environment; and in significantly higher costs to contain and remove the contamination.

(d) That adequate financial resources must be readily available to provide for the expeditious supply of safe and reliable alternative sources of potable water to affected persons and to provide a means for investigation and cleanup of contamination sites without delay.

(e) That it is necessary to fulfill the intent and purposes of ss. 376.30-376.317~~,~~ and ~~further it is hereby~~ determined to be in the best interest of, and necessary for the protection of the public health, safety, and ~~general~~ welfare of the residents of this state, and therefore a paramount public purpose, to provide for the creation of a nonprofit public benefit corporation as an instrumentality of the state to assist in financing the functions provided in ss. 376.30-376.317 and to authorize the department to enter into one or more service contracts with such corporation for the purpose ~~provision~~ of financing services related to such functions and to make payments thereunder from

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

the amount on deposit in the Inland Protection Trust Fund, subject to annual appropriation by the Legislature.

(f) That to achieve the purposes established in paragraph (e) and in order to facilitate the expeditious handling and rehabilitation of contamination sites and remedial measures with respect to contamination sites ~~provided hereby~~ without delay, it is in the best interests of the residents of this state to authorize such corporation to issue evidences of indebtedness payable from amounts paid by the department under any such service contract entered into between the department and such corporation.

(g) That the Petroleum Restoration Program must be implemented in a manner that reduces costs and improves the efficiency of rehabilitation activities to reduce the significant backlog of contaminated sites eligible for state-funded rehabilitation and the corresponding threat to water resources, the environment, and the public health, safety, and welfare.

(2) INTENT AND PURPOSE.—

(a) It is the intent of the Legislature to establish the Inland Protection Trust Fund to serve as a repository for funds which will enable the department to respond without delay to incidents of inland contamination related to the storage of petroleum and petroleum products in order to protect the public health, safety, and welfare and to minimize environmental damage.

(b) It is the intent of the Legislature that the department implement rules and procedures to improve the efficiency of the Petroleum Restoration Program. The department is directed to

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

implement rules and policies to eliminate and reduce duplication of site rehabilitation efforts, paperwork, and documentation, and micromanagement of site rehabilitation tasks.

(c) It is the intent of the Legislature that rehabilitation of contamination sites be conducted with emphasis on first addressing the sites that pose the greatest threat to water resources, the environment, and the public health, safety, and welfare, within the availability of funds in the Inland Protection Trust Fund, recognizing that source removal, wherever it is technologically feasible and cost-effective, significantly reduces contamination or eliminates the spread of contamination and protects water resources, the environment, and the public health, safety, and welfare.

(d) ~~(c)~~ The department is directed to adopt and implement uniform and standardized forms for ~~the requests for preapproval~~ site rehabilitation work and for the submittal of reports to ensure that information is submitted to the department in a concise, standardized uniform format seeking only information that is necessary.

(e) ~~(d)~~ The department is directed to implement computerized and electronic filing capabilities of ~~preapproval requests and~~ submittal of reports in order to expedite submittal of the information and elimination of delay in paperwork. ~~The computerized, electronic filing system shall be implemented no later than January 1, 1997.~~

~~(e) The department is directed to adopt uniform scopes of work with templated labor and equipment costs to provide definitive guidance as to the type of work and authorized expenditures that will be allowed for preapproved site~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~rehabilitation tasks.~~

(f) The department is directed to establish guidelines for consideration and acceptance of new and innovative technologies for site rehabilitation work.

(3) CREATION.—There is ~~hereby~~ created the Inland Protection Trust Fund, hereinafter referred to as the "fund," to be administered by the department. This fund shall be used by the department as a nonlapsing revolving fund for carrying out the purposes of this section and s. 376.3073. To this fund shall be credited all penalties, judgments, recoveries, reimbursements, loans, and other fees and charges related to the implementation of this section and s. 376.3073 and the excise tax revenues levied, collected, and credited pursuant to ss. 206.9935(3) and 206.9945(1)(c). Charges against the fund shall be made pursuant to ~~in accordance with the provisions of~~ this section.

(4) USES.—Whenever, in its determination, incidents of inland contamination related to the storage of petroleum or petroleum products may pose a threat to water resources, the environment, or the public health, safety, or welfare, the department shall obligate moneys available in the fund to provide for:

(a) Prompt investigation and assessment of contamination sites.

(b) Expeditious restoration or replacement of potable water supplies as provided in s. 376.30(3)(c)1.

(c) Rehabilitation of contamination sites, which shall consist of cleanup of affected soil, groundwater, and inland surface waters, using the most cost-effective alternative that is technologically feasible and reliable, ~~and~~ that provides

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

adequate protection of water resources and the public health, safety, and welfare, and that minimizes environmental damage, pursuant to ~~in accordance with~~ the site selection and cleanup criteria established by the department under subsection (5), except that this paragraph does not ~~nothing herein shall be construed to~~ authorize the department to obligate funds for payment of costs that ~~which~~ may be associated with, but are not integral to, site rehabilitation, such as the cost for retrofitting or replacing petroleum storage systems.

(d) Maintenance and monitoring of contamination sites.

(e) Inspection and supervision of activities described in this subsection.

(f) Payment of expenses incurred by the department in its efforts to obtain from responsible parties the payment or recovery of reasonable costs resulting from the activities described in this subsection.

(g) Payment of any other reasonable costs of administration, including those administrative costs incurred by the Department of Health in providing field and laboratory services, toxicological risk assessment, and other assistance to the department in the investigation of drinking water contamination complaints and costs associated with public information and education activities.

(h) Establishment and implementation of the compliance verification program as authorized in s. 376.303(1)(a), including contracting with local governments or state agencies to provide for the administration of such program through locally administered programs, to minimize the potential for further contamination sites.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(i) Funding of the provisions of ss. 376.305(6) and 376.3072.

(j) Activities related to removal and replacement of petroleum storage systems, exclusive of costs of any tank, piping, dispensing unit, or related hardware, if soil removal is approved ~~preapproved~~ as a component of site rehabilitation and requires removal of the tank where remediation is conducted under this section ~~s. 376.30711~~ or if such activities were justified in an approved remedial action plan ~~performed pursuant to subsection (12)~~.

~~(k) Activities related to reimbursement application preparation and activities related to reimbursement application examination by a certified public accountant pursuant to subsection (12).~~

(k) ~~(l)~~ Reasonable costs of restoring property as nearly as practicable to the conditions that ~~which~~ existed before ~~prior to~~ activities associated with contamination assessment or remedial action taken under s. 376.303(4).

(l) ~~(m)~~ Repayment of loans to the fund.

(m) ~~(n)~~ Expenditure of sums from the fund to cover ineligible sites or costs as set forth in subsection (13), if the department in its discretion deems it necessary to do so. In such cases, the department may seek recovery and reimbursement of costs in the same manner and pursuant to ~~in accordance with~~ the same procedures ~~as are~~ established for recovery and reimbursement of sums otherwise owed to or expended from the fund.

(n) ~~(o)~~ Payment of amounts payable under any service contract entered into by the department pursuant to s. 376.3075,

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

subject to annual appropriation by the Legislature.

(o) ~~(p)~~ Petroleum remediation pursuant to this section ~~s. 376.30711~~ throughout a state fiscal year. The department shall establish a process to uniformly encumber appropriated funds throughout a state fiscal year and shall allow for emergencies and imminent threats to water resources, ~~human health and~~ the environment, and the public health, safety, and welfare, as provided in paragraph (5)(a). This paragraph does not apply to appropriations associated with the free product recovery initiative provided in ~~of~~ paragraph (5)(c) or the ~~preapproved~~ advanced cleanup program provided in ~~of~~ s. 376.30713.

(p) ~~(q)~~ Enforcement of this section and ss. 376.30-376.317 by the Fish and Wildlife Conservation Commission. The department shall disburse moneys to the commission for such purpose.

The Inland Protection Trust Fund may only be used to fund the activities in ss. 376.30-376.317 except ss. 376.3078 and 376.3079. Amounts on deposit in the ~~Inland Protection Trust~~ fund in each fiscal year shall first be applied or allocated for the payment of amounts payable by the department pursuant to paragraph (n) ~~(o)~~ under a service contract entered into by the department pursuant to s. 376.3075 and appropriated in each year by the Legislature before ~~prior to~~ making or providing for other disbursements from the fund. ~~Nothing in~~ This subsection does not ~~shall~~ authorize the use of the ~~Inland Protection Trust~~ fund for cleanup of contamination caused primarily by a discharge of solvents as defined in s. 206.9925(6), or polychlorinated biphenyls when their presence causes them to be hazardous wastes, except solvent contamination which is the result of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

chemical or physical breakdown of petroleum products and is otherwise eligible. Facilities used primarily for the storage of motor or diesel fuels as defined in ss. 206.01 and 206.86 are ~~shall be presumed~~ not ~~to be~~ excluded from eligibility pursuant to this section.

(5) SITE SELECTION AND CLEANUP CRITERIA.—

(a) The department shall adopt rules to establish priorities based upon a scoring system for state-conducted cleanup at petroleum contamination sites based upon factors that include, but need not be limited to:

1. The degree to which the public ~~human~~ health, safety, or welfare may be affected by exposure to the contamination;

2. The size of the population or area affected by the contamination;

3. The present and future uses of the affected aquifer or surface waters, with particular consideration as to the probability that the contamination is substantially affecting, or will migrate to and substantially affect, a known public or private source of potable water; and

4. The effect of the contamination on water resources and the environment.

Moneys in the fund shall then be obligated for activities described in paragraphs (4)(a)-(e) at individual sites pursuant to ~~in accordance with~~ such established criteria. However, ~~nothing in~~ this paragraph does not ~~shall be construed to~~ restrict the department from modifying the priority status of a rehabilitation site where conditions warrant, taking into consideration the actual distance between the contamination site

and groundwater or surface water receptors or other factors that affect the risk of exposure to petroleum products' chemicals of concern. The department may use the effective date of a department final order granting eligibility pursuant to subsections (10) ~~(9)~~ and (13) and ss. 376.305(6) and 376.3072 to establish a prioritization system within a particular priority scoring range.

(b) It is the intent of the Legislature to protect the health of all people under actual circumstances of exposure. The secretary shall establish criteria by rule for the purpose of determining, on a site-specific basis, the rehabilitation program tasks that comprise a site rehabilitation program and the level at which a rehabilitation program task and a site rehabilitation program are ~~may be deemed~~ completed. In establishing the rule, the department shall incorporate, to the maximum extent feasible, risk-based corrective action principles to achieve protection of water resources, ~~human health and safety and~~ the environment, and the public health, safety, and welfare in a cost-effective manner as provided in this subsection. Criteria for determining what constitutes a rehabilitation program task or completion of site rehabilitation program tasks and site rehabilitation programs shall be based upon the factors set forth in paragraph (a) and the following additional factors:

1. The current exposure and potential risk of exposure to humans and the environment including multiple pathways of exposure.

2. The appropriate point of compliance with cleanup target levels for petroleum products' chemicals of concern. The point

of compliance shall be at the source of the petroleum contamination. However, the department may ~~is authorized to~~ temporarily move the point of compliance to the boundary of the property, or to the edge of the plume when the plume is within the property boundary, while cleanup, including cleanup through natural attenuation processes in conjunction with appropriate monitoring, is proceeding. The department may also ~~is authorized~~, pursuant to criteria provided for in this paragraph, ~~to~~ temporarily extend the point of compliance beyond the property boundary with appropriate monitoring~~,~~ if such extension is needed to facilitate natural attenuation or to address the current conditions of the plume and if water resources, ~~provided human health, public safety, and~~ the environment, and the public health, safety, and welfare are adequately protected. Temporary extension of the point of compliance beyond the property boundary, as provided in this subparagraph, must ~~shall~~ include notice to local governments and owners of any property into which the point of compliance is allowed to extend.

3. The appropriate site-specific cleanup goal. The site-specific cleanup goal shall be that all petroleum contamination sites ultimately achieve the applicable cleanup target levels provided in this paragraph. However, the department may ~~is authorized to~~ allow concentrations of the petroleum products' chemicals of concern to temporarily exceed the applicable cleanup target levels while cleanup, including cleanup through natural attenuation processes in conjunction with appropriate monitoring, is proceeding, if water resources ~~provided human health, public safety~~, ~~and~~ the environment, and the public health, welfare, and safety are adequately protected.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

4. The appropriateness of using institutional or engineering controls. Site rehabilitation programs may include the use of institutional or engineering controls to eliminate the potential exposure to petroleum products' chemicals of concern to humans or the environment. Use of such controls must have prior department approval ~~be preapproved by the department,~~ and may ~~institutional controls shall~~ not be acquired with moneys ~~funds~~ from the ~~Inland Protection Trust~~ fund. When institutional or engineering controls are implemented to control exposure, the removal of such controls must have prior department approval and must be accompanied immediately by the resumption of active cleanup~~,~~ or other approved controls~~,~~ unless cleanup target levels pursuant to this paragraph have been achieved.

5. The additive effects of the petroleum products' chemicals of concern. The synergistic effects of petroleum products' chemicals of concern must ~~shall~~ also be considered when the scientific data becomes available.

6. Individual site characteristics that must ~~which shall~~ include, but not be limited to, the current and projected use of the affected groundwater in the vicinity of the site, current and projected land uses of the area affected by the contamination, the exposed population, the degree and extent of contamination, the rate of contaminant migration, the apparent or potential rate of contaminant degradation through natural attenuation processes, the location of the plume, and the potential for further migration in relation to site property boundaries.

7. Applicable state water quality standards.

a. Cleanup target levels for petroleum products' chemicals

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

of concern found in groundwater shall be the applicable state water quality standards. Where such standards do not exist, the cleanup target levels for groundwater shall be based on the minimum criteria specified in department rule. The department shall consider the following, as appropriate, in establishing the applicable minimum criteria: calculations using a lifetime cancer risk level of 1.0E-6; a hazard index of 1 or less; the best achievable detection limit; the naturally occurring background concentration; or nuisance, organoleptic, and aesthetic considerations.

b. Where surface waters are exposed to petroleum contaminated groundwater, the cleanup target levels for the petroleum products' chemicals of concern shall be based on the surface water standards as established by department rule. The point of measuring compliance with the surface water standards shall be in the groundwater immediately adjacent to the surface water body.

8. Whether deviation from state water quality standards or from established criteria is appropriate. The department may issue a "No Further Action Order" based upon the degree to which the desired cleanup target level is achievable and can be reasonably and cost-effectively implemented within available technologies or engineering and institutional control strategies. Where a state water quality standard is applicable, a deviation may not result in the application of cleanup target levels more stringent than the ~~said~~ standard. In determining whether it is appropriate to establish alternate cleanup target levels at a site, the department may consider the effectiveness of source removal that has been completed at the site and the

practical likelihood of: the use of low yield or poor quality groundwater; the use of groundwater near marine surface water bodies; the current and projected use of the affected groundwater in the vicinity of the site; or the use of groundwater in the immediate vicinity of the storage tank area, where it has been demonstrated that the groundwater contamination is not migrating away from such localized source, if water resources~~; provided human health, public safety~~, ~~and~~ the environment, and the public health, safety, and welfare are adequately protected.

9. Appropriate cleanup target levels for soils.

a. In establishing soil cleanup target levels for human exposure to petroleum products' chemicals of concern found in soils from the land surface to 2 feet below land surface, the department shall consider the following, as appropriate: calculations using a lifetime cancer risk level of 1.0E-6; a hazard index of 1 or less; the best achievable detection limit; or the naturally occurring background concentration.

b. Leachability-based soil target levels shall be based on protection of the groundwater cleanup target levels or the alternate cleanup target levels for groundwater established pursuant to this paragraph, as appropriate. Source removal and other cost-effective alternatives that are technologically feasible shall be considered in achieving the leachability soil target levels established by the department. The leachability goals do not apply ~~shall not be applicable~~ if the department determines, based upon individual site characteristics, that petroleum products' chemicals of concern will not leach into the groundwater at levels which pose a threat to water resources,

~~human health and safety or~~ the environment, or the public health, safety, or welfare.

~~However, nothing in~~ This paragraph does not ~~shall be construed to~~ restrict the department from temporarily postponing completion of any site rehabilitation program for which funds are being expended whenever such postponement is ~~deemed~~ necessary in order to make funds available for rehabilitation of a contamination site with a higher priority status.

(c) The department shall require source removal, if warranted and cost-effective, at each site eligible for restoration funding from the ~~Inland Protection Trust~~ fund.

1. Funding for free product recovery may be provided in advance of the order established by the priority ranking system under paragraph (a) for site cleanup activities. However, a separate prioritization for free product recovery shall be established consistent with paragraph (a). No more than $5 million shall be encumbered from the ~~Inland Protection Trust~~ fund in any fiscal year for free product recovery conducted in advance of the priority order under paragraph (a) established for site cleanup activities.

2. Once free product removal and other source removal identified in this paragraph are completed at a site, and notwithstanding the order established by the priority ranking system under paragraph (a) for site cleanup activities, the department may reevaluate the site to determine the degree of active cleanup needed to continue site rehabilitation. Further, the department shall determine whether ~~if~~ the reevaluated site qualifies for natural attenuation monitoring, long-term natural

attenuation monitoring, or no further action. If additional site rehabilitation is necessary to reach no further action status, the site rehabilitation shall be conducted in the order established by the priority ranking system under paragraph (a). The department shall use ~~utilize~~ natural attenuation monitoring strategies and, when cost-effective, transition sites eligible for restoration funding assistance to long-term natural attenuation monitoring where the plume is shrinking or stable and confined to the source property boundaries and the petroleum products' chemicals of concern meet the natural attenuation default concentrations, as defined by department rule. If the plume migrates beyond the source property boundaries, natural attenuation monitoring may be conducted pursuant to ~~in accordance with~~ department rule, or if the site no longer qualifies for natural attenuation monitoring, active remediation may be resumed. For long-term natural attenuation monitoring, if the petroleum products' chemicals of concern increase or are not significantly reduced after 42 months of monitoring, or if the plume migrates beyond the property boundaries, active remediation shall be resumed as necessary. For sites undergoing active remediation, the department shall evaluate ~~template~~ the cost of natural attenuation monitoring pursuant to s. 376.30711 to ensure that site mobilizations are performed in a cost-effective manner. Sites that are not eligible for state restoration funding may transition to long-term natural attenuation monitoring using the criteria in this subparagraph. ~~Nothing in~~ This subparagraph does not preclude ~~precludes~~ a site from pursuing a "No Further Action" order with conditions.

3. The department shall evaluate whether higher natural

attenuation default concentrations for natural attenuation monitoring or long-term natural attenuation monitoring are cost-effective and would adequately protect water resources, ~~public health and~~ the environment, and the public health, safety, and welfare. The department shall also evaluate site-specific characteristics that would allow for higher natural attenuation or long-term natural attenuation concentration levels.

4. A local government may not deny a building permit based solely on the presence of petroleum contamination for any construction, repairs, or renovations performed in conjunction with tank upgrade activities to an existing retail fuel facility if the facility was fully operational before the building permit was requested and if the construction, repair, or renovation is performed by a licensed contractor. All building permits and any construction, repairs, or renovations performed in conjunction with such permits must comply with the applicable provisions of chapters 489 and 553.

(6) CONTRACTING AND CONTRACTOR SELECTION REQUIREMENTS.—

(a) Site rehabilitation work on sites that are eligible for state-funded cleanup from the fund pursuant to this section and ss. 376.305(6), 376.3072, and 376.3073 may be funded only pursuant to this section. A facility operator shall abate the source of discharge for a new release that occurred after March 29, 1995. If free product is present, the operator shall notify the department, and the department may direct the removal of the free product. The department shall grant approval to continue site rehabilitation pursuant to this section.

(b) When contracting for site rehabilitation activities performed under the Petroleum Restoration Program, the

department shall comply with competitive procurement requirements provided in chapter 287 or rules adopted under this section or s. 287.0595. A competitive solicitation issued pursuant to this section is not subject to s. 287.055.

(c) Each contractor performing site assessment and remediation activities for state-funded sites under this section shall certify to the department that the contractor meets all certification and license requirements imposed by law. Each contractor shall certify to the department that the contractor meets the following minimum qualifications:

1. Complies with applicable Occupational Safety and Health Administration regulations.

2. Maintains workers' compensation insurance for employees as required by the Florida Workers' Compensation Law.

3. Maintains comprehensive general liability and comprehensive automobile liability insurance with minimum limits of at least $1 million per occurrence and $1 million annual aggregate to pay claims for damage for personal injury, including accidental death, as well as claims for property damage that may arise from performance of work under the program, which insurance designates the state as an additional insured party.

4. Maintains professional liability insurance of at least $1 million per occurrence and $1 million annual aggregate.

5. Has the capacity to perform or directly supervise the majority of the rehabilitation work at a site pursuant to s. 489.113(9).

(d) The department rules implementing this section must specify that only qualified vendors may submit responses on a

competitive solicitation. The department rules must also include procedures for the rejection of vendors not meeting the minimum qualifications on the opening of a competitive solicitation and requirements for a vendor to maintain its qualifications in order to enter contracts or perform rehabilitation work.

(e) A contractor that performs services pursuant to this subsection may file invoices for payment with the department for the services described in the approved contract. The invoices for payment must be submitted to the department on forms provided by the department, together with evidence documenting that activities were conducted or completed pursuant to the approved contract. If there are sufficient unencumbered funds available in the fund which have been appropriated for expenditure by the Legislature and if all of the terms of the approved contract have been met, invoices for payment must be paid pursuant to s. 215.422. After a contractor has submitted its invoices to the department, and before payment is made, the contractor may assign its right to payment to another person without recourse of the assignee or assignor to the state. In such cases, the assignee must be paid pursuant to s. 215.422. Prior notice of the assignment and assignment information must be made to the department and must be signed and notarized by the assigning party.

(f) The contractor shall submit an invoice to the department within 30 days after the date of the department's written acceptance of each interim deliverable or written approval of the final deliverable specified in the approved contract.

(g) The department shall make payments based on the terms

of an approved contract for site rehabilitation work. The department may, based on its experience and the past performance and concerns regarding a contractor, retain up to 25 percent of the contracted amount or use performance bonds to ensure performance. The amount of retainage and the amount of performance bonds, as well as the terms and conditions for such, must be included in the approved contract.

(h) The contractor or the person to which the contractor has assigned its right to payment pursuant to paragraph (e) shall make prompt payment to subcontractors and suppliers for their costs associated with an approved contract pursuant to s. 287.0585(1).

(i) The exemption under s. 287.0585(2) does not apply to payments associated with an approved contract.

(j) The department may withhold payment if the validity or accuracy of a contractor's invoices or supporting documents is in question.

(k) This section does not authorize payment to a person for costs of contaminated soil treatment or disposal that does not meet the applicable rules of this state for such treatment or disposal, including all general permitting, state air emission standards, monitoring, sampling, and reporting rules more specifically described by department rules.

(l) The department shall terminate or suspend a contractor's eligibility for participation in the program if the contractor fails to perform its contractual duties for site rehabilitation program tasks.

(m) A site owner or operator, or his or her designee, may not receive any remuneration, in cash or in kind, directly or

indirectly, from a rehabilitation contractor performing site cleanup activities pursuant to this section.

(7)~~(6)~~ FUNDING.—The Inland Protection Trust Fund shall be funded as follows:

(a) All excise taxes levied, collected, and credited to the fund in accordance with ~~the provisions of~~ ss. 206.9935(3) and 206.9945(1)(c).

(b) All penalties, judgments, recoveries, reimbursements, and other fees and charges credited to the fund pursuant to ~~in accordance with the provisions of~~ subsection (3).

(8)~~(7)~~ DEPARTMENTAL DUTY TO SEEK RECOVERY AND REIMBURSEMENT.—

(a) Except as provided in subsection (10) ~~(9)~~ and as otherwise provided by law, the department shall recover to the use of the fund from a person or persons at any time causing or having caused the discharge or from the Federal Government, jointly and severally, all sums owed or expended from the fund, pursuant to s. 376.308, except that the department may decline to pursue such recovery if it finds the amount involved too small or the likelihood of recovery too uncertain. Sums recovered as a result of damage due to a discharge related to the storage of petroleum or petroleum products or other similar disaster shall be apportioned between the fund and the General Revenue Fund so as to repay the full costs to the General Revenue Fund of ~~any~~ sums disbursed therefrom as a result of such disaster. A ~~Any~~ request for reimbursement to the fund for such costs, if not paid within 30 days after ~~of~~ demand, shall be turned over to the department for collection.

(b) Except as provided in subsection (10) ~~(9)~~ and as

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

otherwise provided by law, it is the duty of the department in administering the fund diligently to pursue the reimbursement to the fund of any sum expended from the fund for cleanup and abatement pursuant to ~~in accordance with the provisions of~~ this section or s. 376.3073, unless the department finds the amount involved too small or the likelihood of recovery too uncertain. For the purposes of s. 95.11, the limitation period within which to institute an action to recover such sums shall begin ~~commence~~ on the last date on which ~~any~~ such sums were expended~~,~~ and not the date on which ~~that~~ the discharge occurred. The department's claim for recovery of payments or overpayments from the fund must be based on the law in existence at the time of the payment or overpayment.

(c) If the department initiates an enforcement action to clean up a contaminated site and determines that the responsible party cannot ~~is~~ financially ~~unable to~~ undertake complete restoration of the contaminated site, that the current property owner was not responsible for the discharge when the contamination first occurred, or that the state's interest can best be served by conducting cleanup, the department may enter into an agreement with the responsible party or property owner whereby the department agrees to conduct site rehabilitation and the responsible party or property owner agrees to pay for the portion of the cleanup costs that are within such party's or owner's financial capabilities as determined by the department, taking into consideration the party's or owner's net worth and the economic impact on the party or owner.

(9)~~(8)~~ INVESTMENTS; INTEREST.—Moneys in the fund which are not needed currently to meet the obligations of the department

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

in the exercise of its responsibilities under this section and s. 376.3073 shall be deposited with the Chief Financial Officer to the credit of the fund and may be invested in such manner as ~~is~~ provided ~~for~~ by law ~~statute~~. The interest received on such investment shall be credited to the fund. Any provisions of law to the contrary notwithstanding, such interest may be freely transferred between the ~~this~~ trust fund and the Water Quality Assurance Trust Fund~~,~~ in the discretion of the department.

(10)~~(9)~~ EARLY DETECTION INCENTIVE PROGRAM.—To encourage early detection, reporting, and cleanup of contamination from leaking petroleum storage systems, the department shall, within the guidelines established in this subsection, conduct an incentive program that provides ~~which shall provide~~ for a 30-month grace period ending on December 31, 1988. ~~Pursuant thereto:~~

(a) The department shall establish reasonable requirements for the written reporting of petroleum contamination incidents and shall distribute forms to registrants under s. 376.303(1)(b) and to other interested parties upon request to be used for such purpose. Until such forms are available for distribution, the department shall take reports of such incidents, however made, but shall notify any person making such a report that a complete written report of the incident will be required by the department at a later time, the form for which will be provided by the department.

(b) When reporting forms become available for distribution, all sites involving incidents of contamination from petroleum storage systems initially reported to the department at any time from midnight on June 30, 1986, to midnight on December 31,

1988, shall be qualified sites if~~, provided that such~~ a complete written report is filed with respect thereto within a reasonable time. Subject to the delays which may occur as a result of the prioritization of sites under paragraph (5)(a) for any qualified site, costs for activities described in paragraphs (4)(a)-(e) shall be absorbed at the expense of the fund, without recourse to reimbursement or recovery, with the following exceptions:

1. ~~The provisions of~~ This subsection does ~~shall~~ not apply to a ~~any~~ site where the department has been denied site access to implement ~~the provisions of~~ this section.

2. ~~The provisions of~~ This subsection does ~~shall~~ not ~~be construed to~~ authorize or require reimbursement from the fund for costs expended before ~~prior to~~ the beginning of the grace period~~, except as provided in subsection (12)~~.

3.a. Upon discovery by the department that the owner or operator of a petroleum storage system has been grossly negligent in the maintenance of such petroleum storage system; has, with willful intent to conceal the existence of a serious discharge, falsified inventory or reconciliation records maintained with respect to the site at which such system is located; or has intentionally damaged such petroleum storage system, the site at which such system is located shall be ineligible for participation in the incentive program and the owner shall be liable for all costs due to discharges from petroleum storage systems at that site, any other provisions of chapter 86-159, Laws of Florida, to the contrary notwithstanding. For the purposes of this paragraph, willful failure to maintain inventory and reconciliation records, willful failure to make monthly monitoring system checks where

such systems are in place, and failure to meet monitoring and retrofitting requirements within the schedules established under chapter 62-761, Florida Administrative Code, or violation of similar rules adopted by the department under this chapter, constitutes ~~shall be construed to be~~ gross negligence in the maintenance of a petroleum storage system.

b. The department shall redetermine the eligibility of petroleum storage systems for which a timely Early Detection Incentive Program ~~EDI~~ application was filed, but which were deemed ineligible by the department, under the following conditions:

(I) The owner or operator, on or before March 31, 1991, shall submit, in writing, notification that the storage system is now in compliance with department rules adopted pursuant to s. 376.303, and which requests the department to reevaluate the storage system eligibility; and

(II) The department verifies the storage system compliance based on a compliance inspection.

~~Provided, however, that~~ A site may be determined eligible by the department for good cause shown, including, but not limited to, demonstration by the owner or operator that to achieve compliance would cause an increase in the potential for the spread of the contamination.

c. Redetermination of eligibility pursuant to sub-subparagraph b. shall not be available to:

(I) Petroleum storage systems owned or operated by the Federal Government.

(II) Facilities that denied site access to the department.

(III) Facilities where a discharge was intentionally concealed.

(IV) Facilities that were denied eligibility due to:

(A) Absence of contamination, unless any such facility subsequently establishes that contamination did exist at that facility on or before December 31, 1988.

(B) Contamination from substances that were not petroleum or a petroleum product.

(C) Contamination that was not from a petroleum storage system.

d. ~~EDI~~ Applicants who demonstrate compliance for a site pursuant to sub-subparagraph b. are eligible for the Early Detection Incentive Program and site rehabilitation funding pursuant to subsections ~~subsection~~ (5) and (6) ~~s. 376.30711~~.

If, in order to avoid prolonged delay, the department in its discretion deems it necessary to expend sums from the fund to cover ineligible sites or costs as set forth in this paragraph, the department may do so and seek recovery and reimbursement therefor in the same manner and pursuant to ~~in accordance with~~ the same procedures ~~as are~~ established for recovery and reimbursement of sums otherwise owed to or expended from the fund.

(c) A ~~No~~ report of a discharge made to the department by a ~~any~~ person pursuant to ~~in accordance with~~ this subsection~~,~~ or ~~any~~ rules adopted ~~promulgated~~ pursuant to this subsection may not ~~hereto, shall~~ be used directly as evidence of liability for such discharge in any civil or criminal trial arising out of the discharge.

(d) ~~The provisions of~~ This subsection does ~~shall~~ not apply to petroleum storage systems owned or operated by the Federal Government.

(11)~~(10)~~ VIOLATIONS; PENALTY.—A ~~It is unlawful for any~~ person may not ~~to~~:

(a) Falsify inventory or reconciliation records maintained in compliance with chapters 62-761 and 62-762, Florida Administrative Code, with willful intent to conceal the existence of a serious leak; or

(b) Intentionally damage a petroleum storage system.

A ~~Any~~ person convicted of such a violation commits ~~shall be guilty of~~ a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(12)~~(11)~~ SITE CLEANUP.—

(a) *Voluntary cleanup.*—This section does not prohibit a person from conducting site rehabilitation ~~either~~ through his or her own personnel or through responsible response action contractors or subcontractors when such person is not seeking site rehabilitation funding from the fund. Such voluntary cleanups must meet all applicable environmental standards.

(b) *Low-scored site initiative.*—Notwithstanding subsections (5) and (6) ~~s. 376.30711~~, a ~~any~~ site with a priority ranking score of 29 points or less may voluntarily participate in the low-scored site initiative regardless of~~,~~ whether ~~or not~~ the site is eligible for state restoration funding.

1. To participate in the low-scored site initiative, the responsible party or property owner must affirmatively demonstrate that the following conditions are met:

a. Upon reassessment pursuant to department rule, the site retains a priority ranking score of 29 points or less.

b. ~~No~~ Excessively contaminated soil, as defined by department rule, does not exist ~~exists~~ onsite as a result of a release of petroleum products.

c. A minimum of 6 months of groundwater monitoring indicates that the plume is shrinking or stable.

d. The release of petroleum products at the site does not adversely affect adjacent surface waters, including their effects on human health and the environment.

e. The area of groundwater containing the petroleum products' chemicals of concern is less than one-quarter acre and is confined to the source property boundaries of the real property on which the discharge originated.

f. Soils onsite that are subject to human exposure found between land surface and 2 feet below land surface meet the soil cleanup target levels established by department rule or human exposure is limited by appropriate institutional or engineering controls.

2. Upon affirmative demonstration of the conditions under subparagraph 1., the department shall issue a determination of "No Further Action." Such determination acknowledges that minimal contamination exists onsite and that such contamination is not a threat to water resources, ~~human health or~~ the environment, or the public health, safety, or welfare. If no contamination is detected, the department may issue a site rehabilitation completion order.

3. Sites that are eligible for state restoration funding may receive payment of ~~preapproved~~ costs for the low-scored site

initiative as follows:

a. A responsible party or property owner may submit an assessment plan designed to affirmatively demonstrate that the site meets the conditions under subparagraph 1. Notwithstanding the priority ranking score of the site, the department may approve ~~preapprove~~ the cost of the assessment ~~pursuant to s. 376.30711~~, including 6 months of groundwater monitoring, not to exceed $30,000 for each site. The department may not pay the costs associated with the establishment of institutional or engineering controls.

b. The assessment work shall be completed no later than 6 months after the department issues its approval.

c. No more than $10 million for the low-scored site initiative may be encumbered from the ~~Inland Protection Trust~~ fund in any fiscal year. Funds shall be made available on a first-come, first-served basis and shall be limited to 10 sites in each fiscal year for each responsible party or property owner.

d. Program deductibles, copayments, and the limited contamination assessment report requirements under paragraph (13)(c) do not apply to expenditures under this paragraph.

~~(12) REIMBURSEMENT FOR CLEANUP EXPENSES.—Except as provided in s. 2(3), chapter 95-2, Laws of Florida, this subsection shall not apply to any site rehabilitation program task initiated after March 29, 1995. Effective August 1, 1996, no further site rehabilitation work on sites eligible for state-funded cleanup from the Inland Protection Trust Fund shall be eligible for reimbursement pursuant to this subsection. The person responsible for conducting site rehabilitation may seek~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~reimbursement for site rehabilitation program task work conducted after March 28, 1995, in accordance with s. 2(2) and (3), chapter 95-2, Laws of Florida, regardless of whether the site rehabilitation program task is completed. A site rehabilitation program task shall be considered to be initiated when actual onsite work or engineering design, pursuant to chapter 62-770, Florida Administrative Code, which is integral to performing a site rehabilitation program task has begun and shall not include contract negotiation and execution, site research, or project planning. All reimbursement applications pursuant to this subsection must be submitted to the department by January 3, 1997. The department shall not accept any applications for reimbursement or pay any claims on applications for reimbursement received after that date; provided, however if an application filed on or prior to January 3, 1997, was returned by the department on the grounds of untimely filing, it shall be refiled within 30 days after the effective date of this act in order to be processed.~~

~~(a) *Legislative findings.*—The Legislature finds and declares that rehabilitation of contamination sites should be conducted in a manner and to a level of completion which will protect the public health, safety, and welfare and will minimize damage to the environment.~~

~~(b) *Conditions.*—~~

~~1. The owner, operator, or his or her designee of a site which is eligible for restoration funding assistance in the EDI, PLRIP, or ATRP programs shall be reimbursed from the Inland Protection Trust Fund of allowable costs at reasonable rates incurred on or after January 1, 1985, for completed program~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~tasks as identified in the department rule promulgated pursuant to paragraph (5)(b), or uncompleted program tasks pursuant to chapter 95-2, Laws of Florida, subject to the conditions in this section. It is unlawful for a site owner or operator, or his or her designee, to receive any remuneration, in cash or in kind, directly or indirectly from the rehabilitation contractor.~~

~~2. Nothing in this subsection shall be construed to authorize reimbursement to any person for costs of contaminated soil treatment or disposal that does not meet the applicable rules of this state for such treatment or disposal, including all general permitting, state air emission standards, monitoring, sampling, and reporting rules more specifically described in department rules.~~

~~(c) *Legislative intent.*—Due to the value of the potable water of this state, it is the intent of the Legislature that the department initiate and facilitate as many cleanups as possible utilizing the resources of the state, local governments, and the private sector, recognizing that source removal, wherever it is technologically feasible and cost-effective, shall be considered the primary initial response to protect public health, safety, and the environment.~~

~~(d) *Amount of reimbursement.*—The department shall reimburse actual and reasonable costs for site rehabilitation. The department shall not reimburse interest on the amount of reimbursable costs for any reimbursement application. However, nothing herein shall affect the department's authority to pay interest authorized under prior law.~~

~~(e) *Records.* The person responsible for conducting site rehabilitation, or his or her agent, shall keep and preserve~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~suitable records as follows:~~

~~1. Hydrological and other site investigations and assessments; site rehabilitation plans; contracts and contract negotiations; and accounts, invoices, sales tickets, or other payment records from purchases, sales, leases, or other transactions involving costs actually incurred related to site rehabilitation. Such records shall be made available upon request to agents and employees of the department during regular business hours and at other times upon written request of the department.~~

~~2. In addition, the department may from time to time request submission of such site-specific information as it may require, unless a waiver or variance from such department request is granted pursuant to paragraph (k).~~

~~3. All records of costs actually incurred for cleanup shall be certified by affidavit to the department as being true and correct.~~

~~(f) *Application for reimbursement.*—Any eligible person who performs a site rehabilitation program or performs site rehabilitation program tasks such as preparation of site rehabilitation plans or assessments; product recovery; cleanup of groundwater or inland surface water; soil treatment or removal; or any other tasks identified by department rule developed pursuant to subsection (5), may apply for reimbursement. Such applications for reimbursement must be submitted to the department on forms provided by the department, together with evidence documenting that site rehabilitation program tasks were conducted or completed in accordance with department rule developed pursuant to subsection (5), and other~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~such records or information as the department requires. The reimbursement application and supporting documentation shall be examined by a certified public accountant in accordance with standards established by the American Institute of Certified Public Accountants. A copy of the accountant's report shall be submitted with the reimbursement application. Applications for reimbursement shall not be approved for site rehabilitation program tasks which have not been completed, except for the task of remedial action and except for uncompleted program tasks pursuant to chapter 95-2, Laws of Florida, and this subsection. Applications for remedial action may be submitted semiannually at the discretion of the person responsible for cleanup. After an applicant has filed an application with the department and before payment is made, the applicant may assign the right to payment to any other person, without recourse of the assignee or assignor to the state, without affecting the order in which payment is made. Information necessary to process the application shall be requested from and provided by the assigning applicant. Proper notice of the assignment and assignment information shall be made to the department which notice shall be signed and notarized by the assigning applicant.~~

~~(g) *Review.*—~~

~~1. Provided there are sufficient unencumbered funds available in the Inland Protection Trust Fund, or to the extent proceeds of debt obligations are available for the payment of existing reimbursement obligations pursuant to s. 376.3075, the department shall have 60 days to determine if the applicant has provided sufficient information for processing the application and shall request submission of any additional information that~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~the department may require within such 60-day period. If the applicant believes any request for additional information is not authorized, the applicant may request a hearing pursuant to ss. 120.569 and 120.57. Once the department requests additional information, the department may request only that information needed to clarify such additional information or to answer new questions raised by or directly related to such additional information.~~

~~2. The department shall deny or approve the application for reimbursement within 90 days after receipt of the last item of timely requested additional material, or, if no additional material is requested, within 90 days of the close of the 60-day period described in subparagraph 1., unless the total review period is otherwise extended by written mutual agreement of the applicant and the department.~~

~~3. Final disposition of an application shall be provided to the applicant in writing, accompanied by a written explanation setting forth in detail the reason or reasons for the approval or denial. If the department fails to make a determination on an application within the time provided in subparagraph 2., or denies an application, or if a dispute otherwise arises with regard to reimbursement, the applicant may request a hearing pursuant to ss. 120.569 and 120.57.~~

~~(h) *Reimbursement.*—Upon approval of an application for reimbursement, reimbursement for reasonable expenditures of a site rehabilitation program or site rehabilitation program tasks documented therein shall be made in the order in which the department receives completed applications. Effective January 1, 1997, all unpaid reimbursement applications are subject to~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~payment on the following terms: The department shall develop a schedule of the anticipated dates of reimbursement of applications submitted to the department pursuant to this subsection. The schedule shall specify the projected date of payment based on equal monthly payments and projected annual revenue of $100 million. Based on the schedule, the department shall notify all reimbursement applicants of the projected date of payment of their applications. The department shall direct the Inland Protection Financing Corporation to pay applicants the present value of their applications as soon as practicable after approval by the department, subject to the availability of funds within the Inland Protection Financing Corporation. The present value of an application shall be based on the date on which the department anticipates the Inland Protection Financing Corporation will settle the reimbursement application and the schedule's projected date of payment and shall use 3.5 percent as the annual discount rate. The determination of the amount of the claim and the projected date of payment shall be subject to s. 120.57.~~

~~(i) *Liberal construction.* With respect to site rehabilitation initiated prior to July 1, 1986, the provisions of this subsection shall be given such liberal construction by the department as will accomplish the purposes set forth in this subsection. With regard to the keeping of particular records or the giving of certain notice, the department may accept as compliance action by a person which meets the intent of the requirements set forth in this subsection.~~

~~(j) *Reimbursement review contracts.* The department may contract with entities capable of processing or assisting in the review of reimbursement applications. Any purchase of such services shall not be subject to chapter 287.~~

~~(k) *Audits.*~~

~~1. The department is authorized to perform financial and technical audits in order to certify site restoration costs and ensure compliance with this chapter. The department shall seek recovery of any overpayments based on the findings of these audits. The department must commence any audit within 5 years after the date of reimbursement, except in cases where the department alleges specific facts indicating fraud.~~

~~2. Upon determination by the department that any portion of costs which have been reimbursed are disallowed, the department shall give written notice to the applicant setting forth with specificity the allegations of fact which justify the department's proposed action and ordering repayment of disallowed costs within 60 days of notification of the applicant.~~

~~3. In the event the applicant does not make payment to the department within 60 days of receipt of such notice, the department shall seek recovery in a court of competent jurisdiction to recover reimbursement overpayments made to the person responsible for conducting site rehabilitation, unless the department finds the amount involved too small or the likelihood of recovery too uncertain.~~

~~4. In addition to the amount of any overpayment, the applicant shall be liable to the department for interest of 1 percent per month or the prime rate, whichever is less, on the amount of overpayment, from the date of overpayment by the department until the applicant satisfies the department's~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~request for repayment pursuant to this paragraph. The calculation of interest shall be tolled during the pendency of any litigation.~~

~~5. Financial and technical audits frequently are conducted under this section many years after the site rehabilitation activities were performed and the costs examined in the course of the audit were incurred by the person responsible for site rehabilitation. During the intervening span of years, the department's rule requirements and its related guidance and other nonrule policy directives may have changed significantly. The Legislature finds that it may be appropriate for the department to provide relief to persons subject to such requirements in financial and technical audits conducted pursuant to this section.~~

~~a. The department is authorized to grant variances and waivers from the documentation requirements of subparagraph (c)2. and from the requirements of rules applicable in technical and financial audits conducted under this section. Variances and waivers shall be granted when the person responsible for site rehabilitation demonstrates to the department that application of a financial or technical auditing requirement would create a substantial hardship or would violate principles of fairness. For purposes of this subsection, "substantial hardship" means a demonstrated economic, technological, legal, or other type of hardship to the person requesting the variance or waiver. For purposes of this subsection, "principles of fairness" are violated when the application of a requirement affects a particular person in a manner significantly different from the way it affects other similarly situated persons who are affected by the requirement or when the requirement is being applied retroactively without due notice to the affected parties.~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~b. A person whose reimbursed costs are subject to a financial and technical audit under this section may file a written request to the department for grant of a variance or waiver. The request shall specify:~~

~~(I) The requirement from which a variance or waiver is requested.~~

~~(II) The type of action requested.~~

~~(III) The specific facts which would justify a waiver or variance.~~

~~(IV) The reason or reasons why the requested variance or waiver would serve the purposes of this section.~~

~~c. Within 90 days after receipt of a written request for variance or waiver under this subsection, the department shall grant or deny the request. If the request is not granted or denied within 90 days of receipt, the request shall be deemed approved. An order granting or denying the request shall be in writing and shall contain a statement of the relevant facts and reasons supporting the department's action. The department's decision to grant or deny the petition shall be supported by competent substantial evidence and is subject to ss. 120.569 and 120.57. Once adopted, model rules promulgated by the Administration Commission under s. 120.542 shall govern the processing of requests under this provision.~~

~~6. The Chief Financial Officer may audit the records of persons who receive or who have received payments pursuant to this chapter in order to verify site restoration costs, ensure compliance with this chapter, and verify the accuracy and~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~completeness of audits performed by the department pursuant to this paragraph. The Chief Financial Officer may contract with entities or persons to perform audits pursuant to this subparagraph. The Chief Financial Officer shall commence any audit within 1 year after the department's completion of an audit conducted pursuant to this paragraph, except in cases where the department or the Chief Financial Officer alleges specific facts indicating fraud.~~

(13) PETROLEUM CLEANUP PARTICIPATION PROGRAM.—To encourage detection, reporting, and cleanup of contamination caused by discharges of petroleum or petroleum products, the department shall, within the guidelines established in this subsection, implement a cost-sharing cleanup program to provide rehabilitation funding assistance for all property contaminated by discharges of petroleum or petroleum products occurring before January 1, 1995, subject to a copayment provided for in a Petroleum Cleanup Participation Program ~~preapproved~~ site rehabilitation agreement. Eligibility is ~~shall be~~ subject to an annual appropriation from the ~~Inland Protection Trust~~ fund. Additionally, funding for eligible sites is ~~shall be~~ contingent upon annual appropriation in subsequent years. Such continued state funding is ~~shall~~ not ~~be deemed~~ an entitlement or a vested right under this subsection. Eligibility shall be determined in the program, ~~shall be~~ notwithstanding any other provision of law, consent order, order, judgment, or ordinance to the contrary.

(a)1. The department shall accept any discharge reporting form received before ~~prior to~~ January 1, 1995, as an application for this program, and the facility owner or operator need not

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

reapply.

2. Owners or operators of property contaminated by petroleum or petroleum products from a petroleum storage system may apply for such program by filing a written report of the contamination incident, including evidence that such incident occurred before ~~prior to~~ January 1, 1995, with the department. Incidents of petroleum contamination discovered after December 31, 1994, at sites which have not stored petroleum or petroleum products for consumption, use, or sale after such date shall be presumed to have occurred before ~~prior to~~ January 1, 1995. An operator's filed report shall be ~~deemed~~ an application of the owner for all purposes. Sites reported to the department after December 31, 1998, are ~~shall~~ not ~~be~~ eligible for the ~~this~~ program.

(b) Subject to annual appropriation from the ~~Inland Protection Trust~~ fund, sites meeting the criteria of this subsection are eligible for up to $400,000 of site rehabilitation funding assistance in priority order pursuant to subsections ~~subsection~~ (5) and (6) ~~s. 376.30711~~. Sites meeting the criteria of this subsection for which a site rehabilitation completion order was issued before ~~prior to~~ June 1, 2008, do not qualify for the 2008 increase in site rehabilitation funding assistance and are bound by the pre-June 1, 2008, limits. Sites meeting the criteria of this subsection for which a site rehabilitation completion order was not issued before ~~prior to~~ June 1, 2008, regardless of whether ~~or not~~ they have previously transitioned to nonstate-funded cleanup status, may continue state-funded cleanup pursuant to this section ~~s. 376.30711~~ until a site rehabilitation completion order is issued or the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

increased site rehabilitation funding assistance limit is reached, whichever occurs first. The department may not pay ~~At no time shall~~ expenses incurred beyond ~~outside~~ the scope of an approved contract ~~preapproved site rehabilitation program under s. 376.30711 be reimbursable~~.

(c) Upon notification by the department that rehabilitation funding assistance is available for the site pursuant to subsections ~~subsection~~ (5) and (6) ~~s. 376.30711~~, the owner, operator, or person otherwise responsible for site rehabilitation shall provide the department with a limited contamination assessment report and shall enter into a Petroleum Cleanup Participation Program ~~preapproved~~ site rehabilitation agreement with the department ~~and a contractor qualified under s. 376.30711(2)(b)~~. The agreement must ~~shall~~ provide for a 25-percent copayment by the owner, operator, or person otherwise responsible for conducting site rehabilitation. The owner, operator, or person otherwise responsible for conducting site rehabilitation shall adequately demonstrate the ability to meet the copayment obligation. The limited contamination assessment report and the copayment costs may be reduced or eliminated if the owner and all operators responsible for restoration under s. 376.308 demonstrate that they cannot ~~are~~ financially ~~unable to~~ comply with the copayment and limited contamination assessment report requirements. The department shall take into consideration the owner's and operator's net worth in making the determination of financial ability. In the event the department and the owner, operator, or person otherwise responsible for site rehabilitation cannot ~~are unable to~~ complete negotiation of the cost-sharing agreement within 120 days after beginning

~~commencing~~ negotiations, the department shall terminate negotiations, and the site shall be ~~deemed~~ ineligible for state funding under this subsection and all liability protections provided for in this subsection shall be revoked.

(d) A ~~No~~ report of a discharge made to the department by a ~~any~~ person pursuant to ~~in accordance with~~ this subsection~~,~~ or any rules adopted pursuant to this subsection may not ~~hereto, shall~~ be used directly as evidence of liability for such discharge in any civil or criminal trial arising out of the discharge.

(e) ~~Nothing in~~ This subsection does not ~~shall be construed to~~ preclude the department from pursuing penalties under ~~in accordance with~~ s. 403.141 for violations of any law or any rule, order, permit, registration, or certification adopted or issued by the department pursuant to its lawful authority.

(f) Upon the filing of a discharge reporting form under paragraph (a), ~~neither~~ the department or ~~nor any~~ local government may not ~~shall~~ pursue any judicial or enforcement action to compel rehabilitation of the discharge. This paragraph does ~~shall~~ not prevent any such action with respect to discharges determined ineligible under this subsection or to sites for which rehabilitation funding assistance is available pursuant to subsections ~~in accordance with subsection~~ (5) and (6) ~~s. 376.30711~~.

(g) The following are ~~shall be~~ excluded from participation in the program:

1. Sites at which the department has been denied reasonable site access to implement ~~the provisions of~~ this section.

2. Sites that were active facilities when owned or operated

by the Federal Government.

3. Sites that are identified by the United States Environmental Protection Agency to be on, or which qualify for listing on, the National Priorities List under Superfund. This exception does not apply to those sites for which eligibility has been requested or granted as of the effective date of this act under the Early Detection Incentive Program established pursuant to s. 15, chapter 86-159, Laws of Florida.

4. Sites for which ~~The~~ contamination is covered under the Early Detection Incentive Program, the Abandoned Tank Restoration Program, or the Petroleum Liability and Restoration Insurance Program, in which case site rehabilitation funding assistance shall continue under the respective program.

(14) LEGISLATIVE APPROVAL AND AUTHORIZATION.—Before ~~Prior to~~ the department enters ~~entering~~ into a service contract with the Inland Protection Financing Corporation which includes payments by the department to support any existing or planned note, bond, certificate of indebtedness, or other obligation or evidence of indebtedness of the corporation pursuant to s. 376.3075, the Legislature, by law, must specifically authorize the department to enter into such a contract. The corporation may issue bonds in an amount not to exceed $104 million, with a term up to 15 years, and annual payments not in excess of $10.4 million. The department may enter into a service contract in conjunction with the issuance of such bonds which provides for annual payments for debt service payments or other amounts payable with respect to bonds, plus any administrative expenses of the corporation to finance the rehabilitation of petroleum contamination sites pursuant to ss. 376.30-376.317.

Section 2. Section 376.30711, Florida Statutes, is repealed.

Section 3. Subsections (4) and (30) of section 376.301, Florida Statutes, are amended to read:

376.301 Definitions of terms used in ss. 376.30-376.317, 376.70, and 376.75.—When used in ss. 376.30-376.317, 376.70, and 376.75, unless the context clearly requires otherwise, the term:

~~(4) "Backlog" means reimbursement obligations incurred pursuant to s. 376.3071(12), prior to March 29, 1995, or authorized for reimbursement under the provisions of s. 376.3071(12), pursuant to chapter 95-2, Laws of Florida. Claims within the backlog are subject to adjustment, where appropriate.~~

~~(30) "Person responsible for conducting site rehabilitation" means the site owner, operator, or the person designated by the site owner or operator on the reimbursement application. Mortgage holders and trust holders may be eligible to participate in the reimbursement program pursuant to s. 376.3071(12).~~

Section 4. Subsection (5) of section 376.302, Florida Statutes, is amended to read:

376.302 Prohibited acts; penalties.—

(5) Any person who commits fraud in representing his or her ~~their~~ qualifications as a contractor ~~for reimbursement~~ or in submitting a payment invoice ~~reimbursement request~~ pursuant to s. 376.3071 ~~s. 376.3071(12)~~ commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Section 5. Subsection (6) of section 376.305, Florida Statutes, is amended to read:

376.305 Removal of prohibited discharges.—

(6) The Legislature created the Abandoned Tank Restoration Program in response to the need to provide financial assistance for cleanup of sites that have abandoned petroleum storage systems. For purposes of this subsection, the term "abandoned petroleum storage system" means a ~~shall mean any~~ petroleum storage system that has not stored petroleum products for consumption, use, or sale since March 1, 1990. The department shall establish the Abandoned Tank Restoration Program to facilitate the restoration of sites contaminated by abandoned petroleum storage systems.

(a) To be included in the program:

1. An application must be submitted to the department by June 30, 1996, certifying that the system has not stored petroleum products for consumption, use, or sale at the facility since March 1, 1990.

2. The owner or operator of the petroleum storage system when it was in service must have ceased conducting business involving consumption, use, or sale of petroleum products at that facility on or before March 1, 1990.

3. The site is not otherwise eligible for the cleanup programs pursuant to s. 376.3071 or s. 376.3072.

(b) In order to be eligible for the program, petroleum storage systems from which a discharge occurred must be closed pursuant to ~~in accordance with~~ department rules before ~~prior to~~ an eligibility determination. However, if the department determines that the owner of the facility cannot ~~is~~ financially ~~unable to~~ comply with the department's petroleum storage system closure requirements and all other eligibility requirements are

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

met, the petroleum storage system closure requirements shall be waived. The department shall take into consideration the owner's net worth and the economic impact on the owner in making the determination of the owner's financial ability. The June 30, 1996, application deadline shall be waived for owners who cannot ~~are~~ financially ~~unable to~~ comply.

(c) Sites accepted in the program are ~~will be~~ eligible for site rehabilitation funding as provided in s. 376.3071 ~~s. 376.3071(12) or s. 376.30711, as appropriate~~.

(d) The following sites are excluded from eligibility:

1. Sites on property of the Federal Government;

2. Sites contaminated by pollutants that are not petroleum products;

3. Sites where the department has been denied site access; or

4. Sites which are owned by a ~~any~~ person who had knowledge of the polluting condition when title was acquired unless the ~~that~~ person acquired title to the site after issuance of a notice of site eligibility by the department.

(e) Participating sites are subject to a deductible as determined by rule, not to exceed $10,000.

~~The provisions of~~ This subsection does ~~do~~ not relieve a ~~any~~ person who has acquired title after ~~subsequent to~~ July 1, 1992, from the duty to establish by a preponderance of the evidence that he or she undertook, at the time of acquisition, all appropriate inquiry into the previous ownership and use of the property consistent with good commercial or customary practice in an effort to minimize liability, as required by s.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

376.308(1)(c).

Section 6. Section 376.30713, Florida Statutes, is amended to read:

376.30713 ~~Preapproved~~ Advanced cleanup.—

(1) In addition to the legislative findings provided in s. 376.3071 ~~s. 376.30711~~, the Legislature finds and declares:

(a) That the inability to conduct site rehabilitation in advance of a site's priority ranking pursuant to s. 376.3071(5)(a) may substantially impede or prohibit property transactions or the proper completion of public works projects.

(b) While the first priority of the state is to provide for protection of ~~the~~ water resources ~~of the state~~, ~~human health,~~ ~~and~~ the environment, and the public health, safety, and welfare, the viability of commerce is of equal importance to the state.

(c) It is in the public interest and of substantial economic benefit to the state to provide an opportunity for site rehabilitation to be conducted on a limited basis at contaminated sites, in advance of the site's priority ranking, to facilitate property transactions or public works projects.

(d) It is appropriate for a person who is ~~persons~~ responsible for site rehabilitation to share the costs associated with managing and conducting ~~preapproved~~ advanced cleanup, to facilitate the opportunity for ~~preapproved~~ advanced cleanup, and to mitigate the additional costs that will be incurred by the state in conducting site rehabilitation in advance of the site's priority ranking. Such cost sharing will result in more contaminated sites being cleaned up and greater environmental benefits to the state. ~~The provisions of~~ This section is ~~shall only be~~ available only for sites eligible for

restoration funding under EDI, ATRP, or PLRIP ~~PLIRP~~. This section is available for discharges eligible for restoration funding under the petroleum cleanup participation program for the state's cost share of site rehabilitation. Applications must ~~shall~~ include a cost-sharing commitment for this section in addition to the 25-percent-copayment requirement of the petroleum cleanup participation program. This section is not available for any discharge under a petroleum cleanup participation program where the 25-percent-copayment requirement of the petroleum cleanup participation program has been reduced or eliminated pursuant to s. 376.3071(13)(c).

(2) The department may ~~is authorized to~~ approve an application for ~~preapproved~~ advanced cleanup at eligible sites, before ~~prior to~~ funding based on the site's priority ranking established pursuant to s. 376.3071(5)(a), pursuant to ~~in accordance with the provisions of~~ this section. Only the facility owner or operator or the person otherwise responsible for site rehabilitation qualifies ~~Persons who qualify~~ as an applicant under ~~the provisions of~~ this section ~~shall only include the facility owner or operator or the person otherwise responsible for site rehabilitation~~.

(a) ~~Preapproved~~ Advanced cleanup applications may be submitted between May 1 and June 30 and between November 1 and December 31 of each fiscal year. Applications submitted between May 1 and June 30 shall be for the fiscal year beginning July 1. An application must ~~shall~~ consist of:

1. A commitment to pay ~~no less than~~ 25 percent or more of the total cleanup cost deemed recoverable under ~~the provisions of~~ this section along with proof of the ability to pay the cost

share.

2. A nonrefundable review fee of $250 to cover the administrative costs associated with the department's review of the application.

3. A limited contamination assessment report.

4. A proposed course of action.

The limited contamination assessment report must ~~shall~~ be sufficient to support the proposed course of action and to estimate the cost of the proposed course of action. ~~Any~~ Costs incurred related to conducting the limited contamination assessment report are not refundable from the Inland Protection Trust Fund. Site eligibility under this subsection~~,~~ or any other provision of this section is~~, shall~~ not ~~constitute~~ an entitlement to ~~preapproved~~ advanced cleanup or continued restoration funding. The applicant shall certify to the department that the applicant has the prerequisite authority to enter into an ~~a preapproved~~ advanced cleanup contract with the department. The ~~This~~ certification must ~~shall~~ be submitted with the application.

(b) The department shall rank the applications based on the percentage of cost-sharing commitment proposed by the applicant, with the highest ranking given to the applicant who ~~that~~ proposes the highest percentage of cost sharing. If the department receives applications that propose identical cost-sharing commitments and that ~~which~~ exceed the funds available to commit to all such proposals during the ~~preapproved~~ advanced cleanup application period, the department shall proceed to rerank those applicants. Those applicants submitting identical

cost-sharing proposals that ~~which~~ exceed funding availability must ~~shall~~ be so notified by the department and ~~shall be~~ offered the opportunity to raise their individual cost-share commitments, in a period ~~of time~~ specified in the notice. At the close of the period, the department shall proceed to rerank the applications pursuant to ~~in accordance with~~ this paragraph.

(3)(a) Based on the ranking established under paragraph (2)(b) ~~and the funding limitations provided in subsection (4)~~, the department shall begin ~~commence~~ negotiation with such applicants. If the department and the applicant agree on the course of action, the department may enter into a contract with the applicant. The department may ~~is authorized to~~ negotiate the terms and conditions of the contract.

(b) ~~Preapproved~~ Advanced cleanup must ~~shall~~ be conducted pursuant to s. 376.3071(5)(b) and (6) and rules adopted under ss. 287.0595 and 376.3071 ~~under the provisions of ss. 376.3071(5)(b) and 376.30711~~. If the terms of the ~~preapproved~~ advanced cleanup contract are not fulfilled, the applicant forfeits any right to future payment for any site rehabilitation work conducted under the contract.

(c) The department's decision not to enter into an ~~a preapproved~~ advanced cleanup contract with the applicant is ~~shall~~ not ~~be~~ subject to ~~the provisions of~~ chapter 120. If the department cannot ~~is not able to~~ complete negotiation of the course of action and the terms of the contract within 60 days after beginning ~~commencing~~ negotiations, the department shall terminate negotiations with that applicant.

(4) The department may ~~is authorized to~~ enter into contracts for a total of up to $15 million of ~~preapproved~~

advanced cleanup work in each fiscal year. However, a facility may not be approved ~~preapproved~~ for more than $5 million of cleanup activity in each fiscal year. For the purposes of this section, the term "facility" includes ~~shall include~~, but is not ~~be~~ limited to, multiple site facilities such as airports, port facilities, and terminal facilities even though such enterprises may be treated as separate facilities for other purposes under this chapter.

(5) All funds collected by the department pursuant to this section shall be deposited into the Inland Protection Trust Fund to be used as provided in this section.

Section 7. Paragraph (a) of subsection (1) and subsections (3), (4), and (9) of section 376.30714, Florida Statutes, are amended to read:

376.30714 Site rehabilitation agreements.—

(1) In addition to the legislative findings provided in s. 376.3071, the Legislature finds and declares:

(a) The provisions of s. 376.3071(5)(a) ~~ss. 376.3071(5)(a) and 376.30711~~ have delayed cleanup of low-priority sites determined to be eligible for state funding under that section and ss. 376.305~~, 376.3071,~~ and 376.3072.

(3) Free product attributable to a new discharge shall be removed to the extent practicable and pursuant to ~~in accordance with~~ department rules adopted pursuant to s. 376.3071(5) at the expense of the owner, operator, or other responsible party. Free product attributable to existing contamination shall be removed pursuant to ~~in accordance with~~ s. 376.3071(5) and (6)~~, or s. 376.30711(1)(b),~~ and department rules adopted pursuant thereto.

(4) Beginning January 1, 1999, the department may ~~is~~

~~authorized to~~ negotiate and enter into site rehabilitation agreements with applicants at sites with eligible existing contamination at which a new discharge occurs. The site rehabilitation agreement must ~~shall~~ include, but is not ~~be~~ limited to, allocation of the funding responsibilities of the department and the applicant for cleanup of the qualified site, establishment of a mechanism to guarantee the applicant's commitment to pay its agreed amount of site rehabilitation as set forth in the agreement, and establishment of the priority in which cleanup of the qualified site will occur. Under ~~any~~ such a negotiated site rehabilitation agreement, the applicant may not ~~shall~~ be responsible for ~~no~~ more than the cleanup costs that are attributable to the new discharge. However, the payment of ~~any~~ applicable deductibles, copayments, or other program eligibility requirements under ss. 376.305, 376.3071, and 376.3072 shall continue to apply to the existing contamination and must be accounted for in the negotiated site rehabilitation agreement. The department may ~~is further authorized~~, pursuant to this section, ~~to preapprove or~~ conduct additional assessment activities at the site.

(9) Site rehabilitation conducted at qualified sites shall be conducted pursuant to s. 376.3071(5)(b) and (6) ~~under the provisions of ss. 376.3071(5)(b) and 376.30711~~. If the terms of the agreement are not fulfilled by the applicant, the applicant forfeits the ~~any~~ right to continued funding for ~~any~~ site rehabilitation work under the agreement and is ~~shall be~~ subject to enforcement action by the department or local government to compel cleanup of the new discharge.

Section 8. Subsection (2) of section 376.3072, Florida

Statutes, is amended to read:

376.3072 Florida Petroleum Liability and Restoration Insurance Program.—

(2)(a) An ~~Any~~ owner or operator of a petroleum storage system may become an insured in the restoration insurance program at a facility if ~~provided~~:

1. A site at which an incident has occurred is ~~shall be~~ eligible for restoration if the insured is a participant in the third-party liability insurance program or otherwise meets applicable financial responsibility requirements. After July 1, 1993, the insured must also provide the required excess insurance coverage or self-insurance for restoration to achieve the financial responsibility requirements of 40 C.F.R. s. 280.97, subpart H, not covered by paragraph (d).

2. A site that ~~which~~ had a discharge reported before ~~prior to~~ January 1, 1989, for which notice was given pursuant to s. 376.3071(10) ~~s. 376.3071(9) or (12)~~, and that ~~which~~ is ineligible for the third-party liability insurance program solely due to that discharge is ~~shall be~~ eligible for participation in the restoration program for an ~~any~~ incident occurring on or after January 1, 1989, pursuant to ~~in accordance with~~ subsection (3). Restoration funding for an eligible contaminated site will be provided without participation in the third-party liability insurance program until the site is restored as required by the department or until the department determines that the site does not require restoration.

3. Notwithstanding paragraph (b), a site where an application is filed with the department before ~~prior to~~ January 1, 1995, where the owner is a small business under s.

288.703(6), a state community college with less than 2,500 FTE, a religious institution as defined by s. 212.08(7)(m), a charitable institution as defined by s. 212.08(7)(p), or a county or municipality with a population of less than 50,000, is ~~shall be~~ eligible for up to $400,000 of eligible restoration costs, less a deductible of $10,000 for small businesses, eligible community colleges, and religious or charitable institutions, and $30,000 for eligible counties and municipalities, if ~~provided that~~:

a. Except as provided in sub-subparagraph e., the facility was in compliance with department rules at the time of the discharge.

b. The owner or operator has, upon discovery of a discharge, promptly reported the discharge to the department, and drained and removed the system from service, if necessary.

c. The owner or operator has not intentionally caused or concealed a discharge or disabled leak detection equipment.

d. The owner or operator proceeds to complete initial remedial action as specified ~~defined~~ by department rules.

e. The owner or operator, if required and if it has not already done so, applies for third-party liability coverage for the facility within 30 days after ~~of~~ receipt of an eligibility order issued by the department pursuant to this subparagraph ~~provision~~.

However, the department may consider in-kind services from eligible counties and municipalities in lieu of the $30,000 deductible. The cost of conducting initial remedial action as defined by department rules is ~~shall be~~ an eligible restoration

cost pursuant to this subparagraph ~~provision~~.

4.a. By January 1, 1997, facilities at sites with existing contamination must ~~shall be required to~~ have methods of release detection to be eligible for restoration insurance coverage for new discharges subject to department rules for secondary containment. Annual storage system testing, in conjunction with inventory control, shall be considered to be a method of release detection until the later of December 22, 1998, or 10 years after the date of installation or the last upgrade. Other methods of release detection for storage tanks which meet such requirement are:

(I) Interstitial monitoring of tank and integral piping secondary containment systems;

(II) Automatic tank gauging systems; or

(III) A statistical inventory reconciliation system with a tank test every 3 years.

b. For pressurized integral piping systems, the owner or operator must use:

(I) An automatic in-line leak detector with flow restriction meeting the requirements of department rules used in conjunction with an annual tightness or pressure test; or

(II) An automatic in-line leak detector with electronic flow shut-off meeting the requirements of department rules.

c. For suction integral piping systems, the owner or operator must use:

(I) A single check valve installed directly below the suction pump if~~, provided~~ there are no other valves between the dispenser and the tank; or

(II) An annual tightness test or other approved test.

d. Owners of facilities with existing contamination which ~~that~~ install internal release detection systems pursuant to ~~in accordance with~~ sub-subparagraph a. shall permanently close their external groundwater and vapor monitoring wells pursuant to ~~in accordance with~~ department rules by December 31, 1998. Upon installation of the internal release detection system, such ~~these~~ wells must ~~shall~~ be secured and taken out of service until permanent closure.

e. Facilities with vapor levels of contamination meeting the requirements of or below the concentrations specified in the performance standards for release detection methods specified in department rules may continue to use vapor monitoring wells for release detection.

f. The department may approve other methods of release detection for storage tanks and integral piping which have at least the same capability to detect a new release as the methods specified in this subparagraph.

(b)1. To be eligible to be certified as an insured facility, for discharges reported after January 1, 1989, the owner or operator must ~~shall~~ file an affidavit upon enrollment in the program. The affidavit must ~~shall~~ state that the owner or operator has read and is familiar with this chapter and the rules relating to petroleum storage systems and petroleum contamination site cleanup adopted pursuant to ss. 376.303 and 376.3071 and that the facility is in compliance with this chapter and applicable rules adopted pursuant to s. 376.303. Thereafter, the facility's annual inspection report shall serve as evidence of the facility's compliance with department rules. The facility's certificate as an insured facility may be revoked

only if the insured fails to correct a violation identified in an inspection report before a discharge occurs. The facility's certification may be restored when the violation is corrected as verified by a reinspection.

2. Except as provided in paragraph (a), to be eligible to be certified as an insured facility, the applicant must demonstrate to the department that the applicant has financial responsibility for third-party claims and excess coverage, as required by this section and 40 C.F.R. s. 280.97(h), and that the applicant maintains such insurance during the applicant's participation as an insured facility.

3. Should a reinspection of the facility be necessary to demonstrate compliance, the insured shall pay an inspection fee not to exceed $500 per facility to be deposited in the Inland Protection Trust Fund.

4. Upon report of a discharge, the department shall issue an order stating that the site is eligible for restoration coverage unless the insured has intentionally caused or concealed a discharge or disabled leak detection equipment, has misrepresented facts in the affidavit filed pursuant to subparagraph 1., or cannot demonstrate that he or she has obtained and maintained the financial responsibility for third-party claims and excess coverage as required in subparagraph 2.

This paragraph does not ~~Nothing contained herein shall~~ prevent the department from assessing civil penalties for noncompliance pursuant to this subsection ~~as provided herein~~.

(c) A lender that has loaned money to a participant in the Florida Petroleum Liability and Restoration Insurance Program

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

and has held a mortgage lien, security interest, or ~~any~~ lien rights on the site primarily to protect the lender's right to convert or liquidate the collateral in satisfaction of the debt secured, or a financial institution that ~~which~~ serves as a trustee for an insured in the program for the purpose of site rehabilitation, is ~~shall be~~ eligible for a state-funded cleanup of the site~~,~~ if the lender forecloses the lien or accepts a deed in lieu of foreclosure on that property and acquires title, and as long as the following has occurred, as applicable:

1. The owner or operator provided the lender with proof that the facility is eligible for the restoration insurance program at the time of the loan or before the discharge occurred.

2. The financial institution or lender ~~completes site rehabilitation and seeks reimbursement pursuant to s. 376.3071(12) or~~ conducts ~~preapproved~~ site rehabilitation pursuant to s. 376.3071 ~~s. 376.30711, as appropriate~~.

3. The financial institution or lender did not engage in management activities at the site before ~~prior to~~ foreclosure and does not operate the site or otherwise engage in management activities after foreclosure, except to comply with environmental statutes or rules or to prevent, abate, or remediate a discharge.

(d)1. With respect to eligible incidents reported to the department before ~~prior to~~ July 1, 1992, the restoration insurance program shall provide up to $1.2 million of restoration for each incident and shall have an annual aggregate limit of $2 million of restoration per facility.

2. For any site at which a discharge is reported on or

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

after July 1, 1992, and for which restoration coverage is requested, the department shall pay for restoration in accordance with the following schedule:

a. For discharges reported to the department from July 1, 1992, to June 30, 1993, the department shall pay up to $1.2 million of eligible restoration costs, less a $1,000 deductible per incident.

b. For discharges reported to the department from July 1, 1993, to December 31, 1993, the department shall pay up to $1.2 million of eligible restoration costs, less a $5,000 deductible per incident. However, if, before ~~prior to~~ the date the discharge is reported and by September 1, 1993, the owner or operator can demonstrate financial responsibility in effect in accordance with 40 C.F.R. s. 280.97, subpart H, for coverage under sub-subparagraph c., the deductible will be $500. The $500 deductible shall apply for a period of 1 year from the effective date of a policy or other form of financial responsibility obtained and in effect by September 1, 1993.

c. For discharges reported to the department from January 1, 1994, to December 31, 1996, the department shall pay up to $400,000 of eligible restoration costs, less a deductible of $10,000.

d. For discharges reported to the department from January 1, 1997, to December 31, 1998, the department shall pay up to $300,000 of eligible restoration costs, less a deductible of $10,000.

e. Beginning January 1, 1999, ~~no~~ restoration coverage may not ~~shall~~ be provided.

f. In addition, a supplemental deductible shall be added as

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

follows:

(I) A supplemental deductible of $5,000 if the owner or operator fails to report a suspected release within 1 working day after discovery.

(II) A supplemental deductible of $10,000 if the owner or operator, within 3 days after discovery of an actual new discharge, fails to take steps to test or empty the storage system and complete such activity within 7 days.

(III) A supplemental deductible of $25,000 if the owner or operator, after testing or emptying the storage system, fails to proceed within 24 hours thereafter to abate the known source of the discharge or to begin free product removal relating to an actual new discharge and fails to complete abatement within 72 hours, although free product recovery may be ongoing.

(e) The following are not eligible to participate in the Petroleum Liability and Restoration Insurance Program:

1. Sites owned or operated by the Federal Government during the time the facility was in operation.

2. Sites where the owner or operator has denied the department reasonable site access.

3. Any third-party claims relating to damages caused by discharges discovered before ~~prior to~~ January 1, 1989.

4. Any incidents discovered before ~~prior to~~ January 1, 1989~~, are not eligible to participate in the restoration insurance program~~. However, this exclusion does ~~shall~~ not ~~be construed to~~ prevent a new incident at the same location from participation in the restoration insurance program if the owner or operator is otherwise eligible. This exclusion does ~~shall~~ not affect eligibility for participation in the Early Detection

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Incentive ~~EDI~~ Program.

Sites meeting the criteria of this subsection for which a site rehabilitation completion order was issued before ~~prior to~~ June 1, 2008, do not qualify for the 2008 increase in site rehabilitation funding assistance and are bound by the pre-June 1, 2008, limits. Sites meeting the criteria of this subsection for which a site rehabilitation completion order was not issued before ~~prior to~~ June 1, 2008, regardless of whether ~~or not~~ they have previously transitioned to nonstate-funded cleanup status, may continue state-funded cleanup pursuant to s. 376.3071(6) ~~s. 376.30711~~ until a site rehabilitation completion order is issued or the increased site rehabilitation funding assistance limit is reached, whichever occurs first. ~~At no time shall expenses incurred outside the preapproved site rehabilitation program under s. 376.30711 be reimbursable.~~

Section 9. Subsections (1) and (4) of section 376.3073, Florida Statutes, are amended to read:

376.3073 Local programs and state agency programs for control of contamination.—

(1) The department shall, to the greatest extent possible and cost-effective, contract with local governments to provide for the administration of its departmental responsibilities under ss. 376.305, 376.3071(4)(a)-(e), (h), (k), and (m) and (6) ~~(l), (n), 376.30711~~, 376.3072, and 376.3077 through locally administered programs. The department may also contract with state agencies to carry out the restoration activities authorized pursuant to ss. 376.305, 376.3071, and 376.3072~~, 376.305, and 376.30711~~. However, ~~no~~ such a contract may not

~~shall~~ be entered into unless the local government or state agency is deemed capable of carrying out such responsibilities to the department's satisfaction.

(4) Under no circumstances shall the cleanup criteria employed in locally administered programs or state agency programs or pursuant to local ordinance be more stringent than the criteria established by the department pursuant to s. 376.3071(5) or (6) ~~s. 376.30711~~.

Section 10. Subsections (4) and (5) of section 376.3075, Florida Statutes, are amended to read:

376.3075 Inland Protection Financing Corporation.—

(4) The corporation may enter into one or more service contracts with the department to provide services to the department in connection with financing the functions and activities provided in ss. 376.30-376.317. The department may enter into one or more such service contracts with the corporation and provide for payments under such contracts pursuant to s. 376.3071(4)(n) ~~s. 376.3071(4)(o)~~, subject to annual appropriation by the Legislature. The proceeds from such service contracts may be used for the corporation's administrative costs and expenses after payments as set forth in subsection (5). Each service contract may have a term of up to 20 years. Amounts annually appropriated and applied to make payments under such service contracts may not include any funds derived from penalties or other payments received from any property owner or private party, including payments received under s. 376.3071(7)(b) ~~s. 376.3071(6)(b)~~. In compliance with s. 287.0641 and other applicable provisions of law, the obligations of the department under such service contracts do not constitute

a general obligation of the state or a pledge of the faith and credit or taxing power of the state, and ~~nor may~~ such obligations are not obligations ~~be construed in any manner as an obligation~~ of the State Board of Administration or entities for which it invests funds, other than the department as provided in this section, but are payable solely from amounts available in the Inland Protection Trust Fund, subject to annual appropriation. In compliance with this subsection and s. 287.0582, the service contract must expressly include the following statement: "The State of Florida's performance and obligation to pay under this contract is contingent upon an annual appropriation by the Legislature."

(5) The corporation may issue and incur notes, bonds, certificates of indebtedness, or other obligations or evidences of indebtedness payable from and secured by amounts payable to the corporation by the department under a service contract entered into pursuant to subsection (4) for the purpose of financing the rehabilitation of petroleum contamination sites pursuant to ss. 376.30-376.317. The term of any such note, bond, certificate of indebtedness, or other obligation or evidence of indebtedness may not have a financing term that exceeds 15 years. The corporation may select its financing team and issue its obligations through competitive bidding or negotiated contracts, whichever is most cost-effective. ~~Any~~ Indebtedness of the corporation does not constitute a debt or obligation of the state or a pledge of the faith and credit or taxing power of the state~~,~~ but is payable from and secured by payments made by the department under the service contract pursuant to s. 376.3071(4)(n) ~~s. 376.3071(4)(o)~~.

Section 11. This act shall take effect July 1, 2014.

SENATOR CHARLES S. DEAN, SR.
5th District

April 8, 2014

The Honorable Joe Negron
412 Senate Office Building
404 South Monroe Street
Tallahassee, FL 32399-1100

Dear Chairman Negron,

I respectfully request you place Committee Substitute for Senate Bill 1582, relating to Rehabilitation of Petroleum Contamination Sites, on your Appropriations Committee agenda at your earliest convenience.

If you have any concerns, please do not hesitate to contact me personally.

Sincerely,

Charles S. Dean
State Senator District 5

cc: Cindy Kynoch, Staff Director

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/CS/SB 1630 addresses issues relating to agriculture and certain powers and duties of the Department of Agriculture and Consumer Services (department). Specifically the bill:

- Reorganizes ch. 570, F.S., the department's general authorizing statute, into five separate parts;
- Standardizes penalty language in the new part V which is cross-referenced in the various statutes enforced by the department;
- Removes obsolete language to ensure accuracy;
- Under certain conditions, allows property owners to file late for an agricultural classification for assessment purposes;
- States that lands classified as agricultural and participating in a dispersed water storage program shall continue to be classified as agricultural;
- Provides private landowners participating in a water storage program with an option to establish a baseline condition determining the extent of wetlands;
- Adds a representative of the department to the Joint Task Force on State Agency Law Enforcement Communications;
- Revises requirements for registration and distribution of discontinued pesticides;
- Updates the department's certification and licensure processes to include applying online;

- Expands the authority of the Florida Forest Service, under certain conditions, to grant leases, permits, privileges, and concessions for the use of state forest lands to include *any lands* leased by or assigned to the Florida Forest Service for management purposes;
- Authorizes the department to impose civil penalties for violations relating to private security, investigative, and repossession services;
- Removes security bond and certificate of deposit requirements for fertilizer license applicants, since the department has sufficient authority to impose fines or to revoke licensure for licensees who do not pay inspection fees;
- Adds additional criteria to determine whether commercial feed is adulterated;
- Simplifies the information required to register as a seed dealer;
- Revises food permit requirements, associated fees, and renewal procedures;
- Exempts manually operated vending stands serviced by the Department of Education's Division of Blind Services from permitting requirements;
- Authorizes the department to close a food facility if it is found to pose an immediate danger or threat to public health, safety, and welfare;
- Authorizes the department to inspect aquaculture facilities and to analyze their food samples;
- Repeals a pilot program and permit for the use of Australian pine trees as windbreaks for citrus groves; and
- Creates new requirements for qualifying as a "non-dealer" in limited sales of dressed poultry.

The bill has an insignificant fiscal impact on state funds.

II. Present Situation:

Chapter 570, F.S., Revision

Chapter 570, F.S., is the primary authorizing chapter for the Department of Agriculture and Consumer Services (department). This chapter establishes the functions, powers, and duties of the department, as well as the Commissioner of Agriculture. Over the years, ch. 570, F.S., has become a general "catch-all" for statutory language that does not clearly fall within another chapter. This bill reorganizes ch. 570, F.S., to provide accuracy and efficiency.

Penalty Consolidation

Currently, penalties are located within specific statutory sections that contain the regulation being enforced. In an effort to be more consistent and consumer friendly, the department has recommended consolidating its fines and penalties into one part of the statute and placing cross-references within the specific subject matter statutes to standardize penalty language.

Property Valuation in Florida

The Florida Constitution requires that all property be assessed at just value (fair market value) for ad valorem tax purposes. However, sections 3, 4, and 6, Article VII of the Constitution, provide for specified assessment limitations, property classifications, and exemptions. After the property appraiser has considered any assessment limitation or use classification affecting the just value of a property, the assessed value is determined. The assessed value is then reduced by any applicable exemptions to produce the taxable value.

Agricultural Property Classification

Section 193.461, F.S., provides that each county's property appraiser shall, for assessment purposes on an annual basis, classify all lands within a county as agricultural or nonagricultural. For property to be classified as agricultural land, it must be used "primarily for bona fide agricultural purposes." Agricultural purposes include, but are not limited to: horticulture; floriculture; viticulture; forestry; dairy; livestock; poultry; apiary; pisciculture, when the land is used principally for the production of tropical fish; aquaculture, including algaculture; sod farming; and all forms of farm products and farm production.

Property appraisers are required to reclassify lands as nonagricultural when they are diverted from an agricultural to a nonagricultural use or no longer utilized for agricultural purposes.

In response to the spread of citrus canker, the 2000 Legislature authorized lands to retain agricultural classification and be assessed at a de minimis value of no more than $50 per acre if the owner took the land out of production due to a state or federal eradication or quarantine program. These lands retain the agricultural classification and de minimis assessment as long as they are not used to produce income or used for a nonagricultural use.

Property owners must submit applications for agricultural classification by March 1 of each year.[1] If a property owner submits an application after March 1, the property owner must petition the value adjustment board and show extenuating circumstances that warrant granting the classification. The property appraiser is not authorized to review late applications.

Agricultural Water Policy

The Office of Agricultural Water Policy was established in 1995, in s. 570.074, F.S. The purpose of the office is to facilitate communications among federal, state, and local agencies, and the agricultural industry on water quantity and quality issues involving agriculture.[2] The bill requires the office to enforce and implement the provisions of ch. 582, F.S., which establishes the soil and water conservation districts. This duty is currently performed by the department's Division of Agricultural Environmental Services.

Water Retention Programs

The Legislature has encouraged and supported development of creative public-private partnerships and programs that facilitate or further the restoration of the surface water resources of the Lake Okeechobee watershed, the Caloosahatchee River watershed, and the St. Lucie River watershed. Since 2005, the South Florida Water Management District has been working with agencies, environmental organizations, land owners, and researchers to enhance opportunities for storing excess surface water on private and public lands. Over the years, these efforts have made thousands of acre-feet of water retention and storage available.

[1] Section 193.461(3)(a), F.S.
[2] Florida Dep't of Agric. And Cons. Servs., *Office of Agricultural Water Policy*, http://www.freshfromflorida.com/Divisions-Offices/Agricultural-Water-Policy (last visited April 4, 2014).

Water retention systems serve to control storm water volume before it is discharged to surface waters or floods urban areas. The systems also act to minimize point source and non-point source pollution prior to its entry into streams, natural wetlands, and other receiving waters. These systems vary widely in their pollutant removal capabilities, but can effectively remove a number of contaminants with removal rates as high as 95 and 99 percent for some non-dissolved nutrients and pesticides, respectively.

Eight Florida ranchers participated in a $6 million pilot program run by the South Florida Water Management District called the "Florida Ranchlands Environmental Services Project." The program, which ran from 2006 to 2011, paid ranchers to construct water retention areas on their properties that acted as natural phosphorous filters. In addition to construction costs, the program paid ranchers for annual maintenance and a participation fee for three years. The district also created a $3 million water farming pilot project that paid citrus growers to build systems to store excess water on fallow citrus land before it can flow into estuaries.

Once an agricultural landowner enters into an agreement with a water management district or the Department of Environmental Protection for water storage or water quality improvements on private land, the extent of existing wetlands and other surface waters must be established in the agreement.[3]This "baseline determination" is later needed so that any increase in wetlands or surface water as a result of the project does not subject the landowner to increased regulatory requirements.

As part of Florida's pollution control requirements, the amount of a pollutant that a water body may receive without exceeding water quality standards is established.[4] The Department of Agriculture and Consumer Services is authorized to establish best management practices to reduce agricultural pollutants.[5]

Division of Food Safety

The Division of Food Safety is responsible for assuring a safe, wholesome, and properly represented food supply. This is accomplished through the permitting and inspection of food establishments, inspection of food products, and through specialized laboratory analyses on a variety of food products sold or produced in the state. The division monitors food from the farm gate through processing and distribution to the retail point of purchase.

The division is charged with administration and enforcement of food, poultry, and egg laws, and also provides support in the enforcement of other food safety laws. In addition to regulatory surveillance and enforcement, the division evaluates consumer complaints related to food.[6] The bill will authorize the division to also inspect aquaculture facilities and to analyze food samples from those facilities.

[3] Section 373.4591, F.S.

[6] Florida Dep't of Agric. And Cons. Servs., *Division of Food Safety*, http://www.freshfromflorida.com/Divisions-Offices/Food-Safety (last visited April 4, 2014).

Office of Energy

The Office of Energy is the primary organization for state energy and climate change programs and policies. The office works cooperatively with other state entities, including the Florida Public Service Commission and the Florida Energy Consortium to develop state energy and climate change policies and programs.[7] During the 2011 Legislative Session, the Office of Energy was transferred from the Executive Office of the Governor to the department. However, the Office of Energy was never specifically established in ch. 570, F.S.

Conservation Easements and Agreements

A conservation easement is a perpetual, undivided interest in property that may be created in a variety of ways. Section 570.71(12), F.S., authorizes the department to use funds from the following sources to implement certain conservation easements and agreements:

- State funds;
- Federal funds;
- Other governmental entities;
- Nongovernmental organizations; and
- Private individuals.

The bill specifies that the funds described above can be used for administrative and operating expenses related to appraisals, mapping, title process, personnel, and other real estate expenses.

Pesticide Regulation

The Bureau of Pesticides provides comprehensive pesticide regulatory programs to ensure the protection of public health and the environment. The bureau is responsible for registering pesticide products sold and distributed in Florida. The bureau also conducts scientific reviews to determine whether human health and the environment may be adversely affected when pesticides are used under Florida conditions and in accordance with label directions and applicable regulations.[8]

The Pesticide Registration Section registers federally accepted pesticides that are distributed, sold, or offered for sale in Florida as stipulated in ch. 487, F.S., and ch. 5E-2, Florida Administrative Code. The law requires biennial registration renewal for each pesticide product sold or distributed in Florida.[9]

Agricultural Fertilizers, Feed, and Seed

The Bureau of Compliance Monitoring registers or licenses more than 3,000 distributors of feed, seed, and fertilizer products in Florida to ensure that their products meet current regulatory standards and label guarantees.[10] The Agricultural Feed, Seed, and Fertilizer Advisory Council is a 15-member statutorily charged stakeholder advisory council to the department that was created in 2012 and convened in 2013. The council advises the department regarding actions to be taken with respect to the regulation and enforcement of agricultural feed, seed, and fertilizer. Stakeholders include the department, the University of Florida's Institute of Food and Agricultural Sciences, and the aquaculture, dairy production, citrus, seed, feed, fertilizer, beef cattle, poultry, field/row crops, and vegetable industries.[11]

Plant Industry

The Division of Plant Industry works to detect, intercept, and control plant and honey bee pests that threaten Florida's native and commercially grown plants and agricultural resources.[12] In 2008, the Legislature established a five-year pilot program to permit the planting of *Casuarina cunninghamiana* (Australian pine trees) as a windbreak for commercial citrus groves growing fresh fruit in Indian River, St. Lucie, and Martin counties.[13] The purpose of the pilot program was to determine if the use of the trees as an agricultural pest and disease windbreak would pose any adverse environmental consequences. The five-year pilot project ended in 2012. A final report was issued that indicated that Australian Pine Trees used as windbreaks did not demonstrate any invasive tendencies.

Florida Forest Service

The Florida Forest Service's mission is to protect and manage the forest resources of the state. Wildfire prevention and suppression are key components of its efforts to protect homeowners from the threat of damage in a natural, fire-dependent environment. In addition to managing over one million acres of state forests for multiple public uses including timber, recreation, and wildlife habitat, the service also provides landowners throughout the state with technical information and grant programs.[14]

Goethe and Withlacoochee State Forests

Section 589.081, F.S., requires the Florida Forest Service to pay 15 percent of the gross receipts from Withlacoochee State Forest and the Goethe State Forest to each fiscally constrained county

[10] Florida Dep't of Agric. And Cons. Servs., *Bureau of Compliance Monitoring*, http://www.freshfromflorida.com/Divisions-Offices/Agricultural-Environmental-Services/Bureaus-and-Sections2/Bureau-of-Compliance-Monitoring (last visited April 4, 2014).

[14] Florida Dep't of Agric. And Cons. Servs., *Florida Forest Service*, http://www.freshfromflorida.com/Divisions-Offices/Florida-Forest-Service (last visited April 4, 2014).

containing a portion of the forests. The funds must be equally divided between the board of county commissioners and the school board of each fiscally-constrained county.

Classification and Sale of Eggs and Poultry

Section 583.01, F.S., currently defines the term "dealer" to mean any person, firm, or corporation, including a producer, processor, retailer, or wholesaler, that sells, offers for sale, or holds for the purpose of sale 30 dozen or more eggs or its equivalent in any one week, or in excess of 100 pounds of dressed poultry in any one week. Egg and poultry dealers are regulated under this chapter and are required to possess a valid food permit. The bill creates limited sale poultry requirements to benefit operators of small poultry farms by correcting a discrepancy between state and federal law regarding what constitutes a "dealer." For the past several years, the department has been working with small farmers to provide a level of economic and regulatory relief relative to production and sale of limited poultry. This change will establish more realistic numbers for a "non-dealer."

III. Effect of Proposed Changes:

Section 1 amends s. 193.461, F.S., to allow a property owner to file with the property appraiser for an agricultural classification for assessment purposes after the deadline for filing has passed. The application must be filed within 25 days after the property appraiser mails the notices required under s. 194.011(1). The application must demonstrate that the applicant was unable to apply for the classification in a timely manner or otherwise demonstrate extenuating circumstances as judged by the property appraiser.

The bill provides that lands classified as agricultural for assessment purposes and which participate in a dispersed water storage program, pursuant to a contract with the Department of Environmental Protection or a water management district, shall continue to be classified as agricultural lands for the duration of the lands' participation in the program and shall be assessed as nonproductive agricultural lands. Lands diverted to a nonagricultural use shall be assessed under s. 193.011, F.S.

Section 2 amends s. 282.709, F.S., to add a representative of the Department of Agriculture and Consumer Services (department) to the Joint Task Force on State Agency Law Enforcement Communications. This task force advises the Department of Management Services of agency needs relating to the planning, designing, and establishment of the statewide radio communication system.

Section 3 amends s. 373.4591, F.S., to provide that when the department and a private landowner enter into an agreement related to water storage on private agricultural lands and to implement best management practices pursuant to s. 403.067(7)(c), F.S., a baseline condition determining the extent of wetlands and other surface waters may be established at the option and expense of the private landowner. The bill provides procedures to be followed and directs the department to coordinate with the Department of Environmental Protection and water management districts on a process for reviewing such requests by private landowners.

Section 4 transfers and renumbers s. 570.0741, F.S., pertaining to the department's Office of Energy, as s. 377.805, F.S. It also deletes an obsolete web posting date.

Section 5 amends s. 379.361, F.S., to require a person to retake an educational seminar when renewing an Apalachicola Bay oyster harvesting license.

Section 6 amends s. 487.041, F.S., to revise requirements for registration and distribution of discontinued pesticides.

Section 7 amends s. 487.046, F.S., to update methods for filing pesticide applicator license applications.

Section 8 amends s. 487.048, F.S., to update methods for filing pesticide dealer's license applications.

Section 9 amends s. 487.159, F.S., to delete requirements for filing statements claiming damages and injuries from pesticide applications. It updates reporting requirements for pesticide applicators who observe unreasonable adverse effects of restricted-use pesticides.

Section 10 amends s. 487.160, F.S., to revise recordkeeping requirements for licensed private applicators.

Section 11 amends s. 487.2031, F.S., to revise the definition of "Material Safety Data Sheet" to "Safety Data Sheet."

Section 12 amends s. 487.2051, F.S., to revise requirements for pesticide fact sheets and safety data sheets.

Section 13 amends s. 493.6120, F.S., pertaining to private investigative, security, and repossession services. The department is authorized to seek the imposition of certain civil penalties for violations and provides a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 14 transfers and renumbers s. 570.545, F.S., pertaining to unsolicited goods, as s. 501.0113, F.S.

Section 15 amends s. 500.03, F.S., to add a cross-reference to the definition of "food establishment." This will exempt the Department of Education's Division of Blind Services from obtaining permits from the department for vending machines it services at Department of Transportation rest areas.

Section 16 amends s. 500.12, F.S., to revise criteria for certain food permit exemptions. Food establishments and retail food stores are required to obtain a food permit before beginning operation and clarifies that such permits are not transferable. The department is required to adopt a food permit fee schedule by rule and updates terminology (occupational license to business tax certificate).

Section 17 amends s. 500.121, F.S., to conform to changes made by this bill to the Florida Food Safety Act. Specifically, the amended section:

- Clarifies that the fine for violating the provisions of ch. 500, F.S., is an administrative fine to make it consistent with the newly created penalty section of the bill, s. 570.971, F.S.;
- Reduces a fine for mislabeling the country of origin of a food from $10,000 per violation to $5,000;
- Revises the time limit for payment of fines from 15 days to 21 days;
- Provides for permit revocation for failure to pay a fine;
- Authorizes the department to immediately close food establishments that fail to comply with ch. 500, FS., and are deemed a severe and immediate threat to public health;
- Provides a procedure for the department to follow in order to issue a final order to close a food establishment determined to be a severe and immediate threat to public health;
- Provides that a person who defaces or removes a closed-for-operation sign or an owner or operator that resists closure commits a second degree misdemeanor; and
- Authorizes the department to adopt rules to administer this subsection.

Section 18 amends s. 500.147, F.S., to authorize the department to inspect and have free access to any food establishment's food records. This will allow the department to trace food products in the event of a food-borne illness outbreak or to identify an adulterated or misbranded food item.

Section 19 amends s. 500.165, F.S., pertaining to shipments of food items, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 20 amends s. 500.172, F.S., to allow department employees access to food-processing or food storage areas if there has been probable cause of a food safety violation.

Section 21 amends s. 501.019, F.S., pertaining to penalties imposed for violations of health studio laws, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 22 amends s. 501.059, F.S., pertaining to telephone solicitation, to provide cross-references to penalties in the newly created s. 570.971, F.S. The department is authorized to adopt rules to implement this section.

Section 23 amends s. 501.922, F.S., pertaining to violations of the Antifreeze Act of 1978, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 24 transfers and renumbers s. 570.42, F.S., pertaining to the Dairy Technical Council, as s. 502.301, F.S. The new section is amended to make technical changes and to correct a cross-reference.

Section 25 creates part I of ch. 570, F.S., consisting of ss. 570.01 – 570.232, F.S., and entitled "General Provisions."

Section 26 renumbers s. 570.14, F.S., pertaining to the official seal that the department uses in official acts, as s. 570.031, F.S.

Section 27 renumbers s. 570.18, F.S., pertaining to the authority of the department to organize its work and to create maximum efficiency, as s. 570.041, F.S.

Section 28 renumbers s. 570.16, F.S., pertaining to penalties for interfering with department employees in the performance of their duties, as s. 570.051, F.S.

Section 29 amends s. 570.07, F.S., pertaining to the duties and responsibilities of the department, to correct a cross-reference.

Section 30 renumbers s. 570.17, F.S., pertaining to responsibilities between the department and the University of Florida's extension service and experiment stations, as s. 570.081, F.S.

Section 31 renumbers s. 570.531, F.S., pertaining to the Market Improvements Working Capital Trust Fund, as s. 570.209, F.S.

Section 32 amends s. 570.23, F.S., pertaining to the State Agricultural Advisory Council, to correct a cross-reference and to delete an obsolete date.

Section 33 renumbers s. 570.0705, F.S., pertaining to advisory committees, as s. 570.232, F.S.

Section 34 creates part II of ch. 570, F.S., consisting of ss. 570.30 – 570.693, F.S., and entitled "Program Services."

Section 35 amends s. 570.36, F.S., to change "laboratories" to "laboratory" since there is currently only one.

Section 36 amends s. 570.44, F.S., to delete a reference to the Pesticide Review Council which was abolished in 2013. The responsibilities over the soil and water conservation districts are removed from the Division of Agricultural Environmental Services, as Section 61 of the bill directs the Office of Agricultural Water Policy to enforce and implement the provisions of ch. 582, F.S., and any rules relating to soil and water conservation.

Section 37 amends s. 570.45, F.S., to delete a cross-reference. This amendment removes the duties of overseeing soil and water conservation districts from the director of the Division of Agricultural Environmental Services.

Section 38 amends s. 570.451, F.S., to correct a cross-reference and establish that the meetings, powers and duties, procedures, and recordkeeping of the Agricultural Feed, Seed, and Fertilizer Advisory Council be kept pursuant to s. 570.232, F.S.

Section 39 amends s. 570.50, F.S., to add aquaculture products to the list of items the Division of Food Safety may inspect and analyze. Enforcement authority for aquaculture regulations is provided.

Section 40 amends s. 570.51, F.S., to add ch. 597, F.S., (aquaculture) to the chapters that the Division of Food Safety has the authority to enforce.

Section 41 amends s. 570.543, F.S., to remove a reference to s. 570.0705, F.S., and establish that the meetings, powers, duties, procedures, and recordkeeping of the Florida Consumers' Council must be performed pursuant to s. 570.232, F.S.

Section 42 renumbers s. 570.073, F.S., pertaining to the Office of Agricultural Law Enforcement, as s. 570.65, F.S.

Section 43 renumbers s. 570.074, pertaining to the Office of Agricultural Water Policy, as s. 570.66, F.S. The bill directs the office to provide oversight of the soil and water conservation districts, provisions of ch. 582, F.S., and rules relating to soil and water conservation.

Section 44 creates s. 570.67, F.S., establishing the Office of Energy within the department. The bill requires the Office of Energy to be under the supervision of a senior manager, appointed by the Commissioner of Agriculture, and provides for duties of the office.

Section 45 renumbers s. 570.951, F.S., pertaining to the Florida Agriculture Center and Horse Park, as s. 570.681, F.S.

Section 46 renumbers s. 570.952, F.S., pertaining to the Florida Agriculture Center and Horse Park Authority, as s. 570.685, F.S. The new section is amended to correct cross-references and to remove obsolete dates.

Section 47 renumbers s. 570.953, F.S., pertaining to confidentiality of donors to the Agriculture Center and Horse Park Authority, as s. 570.686, F.S.

Section 48 renumbers s. 570.902, F.S., pertaining to definitions for the purpose of the department's direct-support organizations, as s. 570.69, F.S. The new section is amended to correct cross-references.

Section 49 renumbers s. 570.903, F.S., pertaining to direct-support organizations, as s. 570.691, F.S.

Section 50 renumbers s. 570.901, F.S., pertaining to the Florida Agricultural Museum, as s. 570.692, F.S.

Section 51 renumbers s. 570.91, F.S., pertaining to the Florida Agriculture in the Classroom program, as s. 570.693, F.S.

Section 52 creates part III of ch. 570, F.S., consisting of ss. 570.70 – 570.89, F.S., and entitled "Agricultural Development."

Section 53 amends s. 570.71, F.S., to remove an obsolete date for the initiation of the conservation easements and agreements program. Funds are directed to be deposited into the Conservation and Recreation Lands Program Trust Fund and used for all related real estate costs, including administrative and operating expenses related to appraisals, mapping, title process, personnel, and other real estate-related expenses.

Section 54 transfers and renumbers s. 570.241, F.S., pertaining to the Agricultural Economic Development Act, as s. 570.73, F.S.

Section 55 renumbers s. 570.242, F.S., pertaining to definitions relating to the Agricultural Economic Development Act, as s. 570.74, F.S. The new section is amended to delete the terms "Commissioner" and "Department."

Section 56 renumbers s. 570.243, F.S., pertaining to the department's Agricultural Economic Development Program, as s. 570.75, F.S.

Section 57 renumbers s. 570.244, F.S., pertaining to the powers and duties of the department, as s. 570.76, F.S.

Section 58 renumbers s. 570.245, F.S., pertaining to the department's interaction with other economic development agencies and groups, as s. 570.77, F.S.

Section 59 renumbers s. 570.246, F.S., pertaining to funds appropriated to agricultural economic development, as s. 570.78, F.S.

Section 60 renumbers s. 570.247, F.S., pertaining to promulgation of rules to implement the agricultural economic development program, as s. 570.79, F.S. The new section is amended to remove an obsolete date.

Section 61 renumbers s. 570.248, F.S., pertaining to the Agricultural Economic Development Project Review Committee, as s. 570.81, F.S.

Section 62 renumbers s. 570.249, F.S., pertaining to Agricultural Economic Development Program disaster loans, grants, and aid, as s. 570.82, F.S.

Section 63 renumbers s. 570.9135, F.S., pertaining to the Beef Market Development Act, as s. 570.83, F.S. The new section is amended to correct cross-references.

Section 64 renumbers s. 570.954, F.S., pertaining to the farm-to-fuel initiative, as s. 570.841, F.S.

Section 65 renumbers s. 570.96, F.S., pertaining to agritourism, as s. 570.85, F.S.

Section 66 renumbers s. 570.961, F.S., pertaining to definitions clarifying agritourism, as s. 570.86, F.S. The new section is amended to correct a cross-reference.

Section 67 renumbers s. 570.962, F.S., pertaining to the impact of agritourism activities on land classification for purposes of ad valorem taxation, as s. 570.87, F.S.

Section 68 renumbers s. 570.963, F.S., pertaining to liability for agritourism operators, as s. 570.88, F.S. The new section is amended to correct a cross-reference.

Section 69 renumbers s. 570.964, F.S., pertaining to notice requirements and the notice language that must be posted and given to patrons when engaging in agritourism activities, as s.570.89, F.S. Technical revisions are made to the new section.

Section 70 creates part IV of ch. 570, F.S., consisting of ss. 570.916 – 570.94, F.S., and entitled "Agricultural Water Policy."

Section 71 renumbers s. 570.075, F.S., pertaining to water supply agreements with landowners in rural areas, as s. 570.916, F.S.

Section 72 renumbers s. 570.076, F.S., pertaining to the department's Environmental Stewardship Certification Program, as s. 570.921, F.S. The new section corrects a cross-reference.

Section 73 renumbers s. 570.085, F.S., pertaining to the department's agricultural water conservation program and agricultural water supply planning, as s. 570.93, F.S.

Section 74 renumbers s. 570.087, F.S., pertaining to best management practices for wildlife, as s. 570.94, F.S.

Section 75 creates part V of ch. 570, F.S., consisting of s. 570.971, F.S., and entitled "Penalties."

Section 76 creates s. 570.971, F.S., to establish levels of administrative and civil penalties for violations of department regulations. The bill provides applicability and authorizes the department to adopt rules.

Section 77 amends s. 576.021, F.S., to revise procedures for filing applications to distribute fertilizer. The change would allow for online certification and licensure.

Section 78 amends s. 576.031, F.S., to reduce the number of labels from five to two which registrants would have to provide a purchaser in order to distribute bulk fertilizer.

Section 79 amends s. 576.041, F.S., to delete a requirement that fertilizer license applicants provide surety bonds or certificates of deposit to ensure payment of inspection fees.

Section 80 amends s. 576.051, F.S., to revise the period of time a fertilizer sample must be retained from 90 days to 60 days.

Section 81 amends s. 576.061, F.S., pertaining to plant nutrient investigational allowances, deficiencies, and penalties, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 82 amends s. 576.071, F.S., to revise criteria for determining the commercial value of fertilizer nutrients. This change allows the department to utilize additional data sources, such as surveys of the Florida fertilizer industry, to obtain commercial values.

Section 83 amends s. 576.087, F.S., to revise antisiphon requirements for irrigation systems in response to constant changes in technology of these devices.

Section 84 amends s. 576.101, F.S., to remove the probationary status of fertilizer licensees whose fertilizer samples fail to meet minimum performance level requirements.

Section 85 amends s. 578.08, F.S., to revise application requirements and registration requirements for the sale of feed. It allows registrants to apply online or by paper application. It also adds categories in the fees section for businesses that sell the least amount of seed to make the registration process easier and to entice more small businesses to register with the department.

Section 86 amends s. 580.036, F.S., to re-insert a reference to the Commercial Feed Technical Council which a statutory revisers bill mistakenly removed in the 2013 Session.

Section 87 amends s. 580.041, F.S., to provide the option for online license applications for distributors of commercial feed and feedstuff.

Section 88 amends s. 580.071, F.S., to revise criteria for adulteration of commercial feed and feedstuff to include national standards established by the Association of American Feed Control Officials. This will make the definition of adulteration more consistent with national standards.

Section 89 amends s. 581.091, F.S., to delete a program for Australian pines used as windbreaks in citrus groves. The five-year pilot project ended in 2012 and a final report was issued.

Section 90 amends s. 581.131, F.S., to revise the timeframe from 60 days to 30 days before the annual renewal date in which the department must provide notices for registration renewal to nurserymen, stock dealers, agents, or plant brokers. This will bring the notice of need to renew into alignment with standards for billing used in the private sector.

Section 91 amends s. 583.01, F.S., to revise the definition of "dealer" to create limited sale poultry requirements. This change will make state law closer to federal law for a "non-dealer."

Section 92 transfers and renumbers s. 570.38, F.S., pertaining to the Animal Industry Technical Council, as s. 585.008, F.S. The new section is amended to make technical changes and to correct a cross-reference.

Section 93 amends s. 589.08, F.S., to clarify the distribution of 15 percent of the gross receipts received by the Florida Forest Service from Goethe State Forest to fiscally constrained counties. The bill removes reference to Withlacoochee State Forest as it is not located in a fiscal constrained county.

Section 94 amends s. 589.011, F.S., to provide conditions under which the Florida Forest Service is authorized to grant the use of certain lands. Criteria is provided for the Florida Forest Service to determine certain fees, rentals, and charges.

Section 95 amends s. 589.20, F.S., to authorize the Florida Forest Service to cooperate with water management districts, municipalities, and other governmental entities in the designation and dedication of lands suitable for forestry purposes.

Section 96 amends s. 590.02, F.S., to rename the Florida Center for Wildfire and Forest Resources Management Training as the Withlacoochee Training Center.

Section 97 amends s. 590.125, F.S., to clarify requirements for non-certified burning and smoldering.

Section 98 transfers and renumbers s. 570.0725, F.S., pertaining to food recovery, as s. 595.420, F.S.

Section 99 amends s. 597.003, F.S., to authorize the department to provide training as necessary to lessees of certain lands.

Section 100 amends s. 597.004, F.S., to require an applicant for an aquaculture certificate to submit a certificate of training, if required.

Section 101 amends s. 597.020, F.S., to authorize the department to adopt training requirements for shellfish processors, by rule. The bill provides a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 102 transfers and renumbers s. 570.481, F.S., pertaining to fruit and vegetable inspection fees and penalties, as s. 603.011, F.S.

Section 103 transfers and renumbers s. 570.55, F.S., pertaining to the Florida Tropical or Subtropical Fruit and Vegetables Sales Law, as s. 603.211, F.S.

Section 104 amends s. 604.16, F.S., to provide an exemption from the provisions of ss. 604.15– 604.34, F.S., for a dealer in agricultural products to the extent that the dealer purchases agricultural products from a producer owned by the exact same person as the dealer, owned solely by the dealer, or who solely owns the dealer. The dealer is not exempt from the recordkeeping requirements of s. 604.22(2), F.S.

Section 105 amends s. 604.22, F.S., pertaining to penalties for dealers in agricultural products, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 106 repeals the following sections:

> Section 487.172, F.S., requires an educational program for organotin anti-fouling paints. It is obsolete since these products are now restricted-use pesticides, which are rarely used, and education is covered in the certification process.
>
> Section 500.301, F.S., pertains to standards of enrichment for grain products. The department has adopted provisions in the code of federal regulations by reference in rule, making it obsolete and duplicative.

Section 500.302, F.S., clarifies what constitutes an unlawful retail sale of a grain product. The department has adopted provisions in the code of federal regulations by reference in rule, making it obsolete and duplicative.

Section 500.303, F.S., requires the department to establish by rule a state standard for each grain product. The department has adopted provisions in the code of federal regulations by reference in rule, making it obsolete and duplicative.

Section 500.304, F.S., provides for enforcement of provisions found in ss. 500.301-500.306, F.S. The department has adopted provisions in the code of federal regulations by reference in rule, making it obsolete and duplicative.

Section 500.305, F.S., provides the department with the authority to inspect, take samples and investigate grain products for compliance with ss. 500.301-500.306, F.S. The department has adopted provisions in the code of federal regulations by reference in rule, making it obsolete and duplicative.

Section 500.306, F.S., provides penalties for violations of ss. 500.301-500.306, F.S., which Section 36 of the bill repeals.

Section 500.601, F.S., regulates the retail sale of meat. The department no longer carries out this function, as it falls under the jurisdiction of the United States Department of Agriculture.

Section 570.345, F.S., pertains to the Interstate Pest Control Compact. With the dissolution of the compact in 2013, the statutory authority in this section is obsolete.

Section 570.542, F.S., creates the short title of the Florida Consumer's Council and is not necessary.

Section 570.72, F.S., is a redundant definition of "department."

Section 570.92, F.S., pertains to the department's equestrian educational sports program which is an inactive program.

Section 589.081, F.S., details the payment of 15 percent of gross receipts received by the Florida Forest Service from the Goethe and Withlacoochee State Forests to the fiscally constrained counties within these forests. This statutory distribution has been moved to s. 589.08, F.S., in Section 92 of the bill.

Section 590.091, F.S., pertains to the designation of railroad rights-of-way as wildfire hazard areas. It is no longer needed due to underground pipelines and communications lines that run along railroad tracks.

Section 107 amends s. 193.461, F.S., pertaining to assessments of agricultural lands, to make grammatical changes and to correct a cross-reference.

Section 108 amends s. 253.74, F.S., pertaining to certain aquaculture violations, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 109 amends s. 288.1175, F.S., pertaining to an agriculture education and promotion facility, to correct a cross-reference.

Section 110 amends s. 320.08058, F.S., pertaining to Florida agricultural license plates, to correct cross-references.

Section 111 amends s. 373.621, F.S., pertaining to water conservation, to correct a cross-reference.

Section 112 amends s. 373.709, F.S., pertaining to regional water supply planning, to correct a cross-reference.

Section 113 amends s. 381.0072, F.S., pertaining to food service protection, to correct a cross-reference.

Section 114 amends s. 388.46, pertaining to the Florida Coordinating Council on Mosquito Control, to remove an obsolete reference to the Pesticide Review Council.

Section 115 amends s. 472.0351, F.S., pertaining to land surveyors and mappers, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 116 amends s. 472.036, F.S., pertaining to unlicensed practice of professional surveying and mapping, to provide cross-references to penalties in the newly created s. 570.971, F.S.

Section 117 amends s. 482.161, F.S., pertaining to pest control, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 118 amends s. 482.165, F.S., pertaining to unlicensed practice of pest control, to provide cross-references to penalties in the newly created s. 570.971, F.S.

Section 119 amends s. 482.243, F.S., pertaining to the Pest Control Enforcement Advisory Council, to correct a cross-reference.

Section 120 amends s. 487.047, F.S., to revise provisions for filing pesticide applicator license applications to allow for on-line certification and licensure.

Section 121 amends s. 487.091, F.S., pertaining to penalties relating to pesticide regulation and safety, to provide cross-references to penalties in the newly created s. 570.971, F.S.

Section 122 amends s. 487.175, F.S., pertaining to violations of pesticide application, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 123 amends s. 493.6118, F.S., pertaining to administrative fines for offenses by private investigative, security, and repossession services, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 124 amends s. 496.420, F.S., pertaining to the solicitation of persons for donations, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 125 amends s. 500.70, F.S., pertaining to tomato food safety standards, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 126 amends s. 501.612, F.S., pertaining to commercial telephone sellers or salespersons, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 127 amends s. 501.619, F.S., pertaining to consumer protection, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 128 amends s. 502.231, F.S., pertaining to penalties for violations of regulatory laws governing the production, processing, and distribution of milk, milk products, frozen desserts, and frozen dessert mix. It provides cross-references to penalties in the newly created s. 570.971, F.S.

Section 129 amends s. 507.09, F.S., pertaining to household moving services, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 130 amends s. 507.10, F.S., pertaining to civil penalties and remedies for violations concerning household moving services, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 131 amends s. 509.032, F.S., pertaining to the department's duties during the inspection of food service establishments, to correct cross-references.

Section 132 amends s. 525.16, F.S., pertaining to penalties for gasoline and oil inspection violations, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 133 amends s. 526.311, F.S., pertaining to penalties for violations in the sale of liquid fuels, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 134 amends s. 526.55, F.S., pertaining to penalties for violations in the sale of brake fluid, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 135 amends s. 527.13, F.S., pertaining to penalties for violations in the sale of liquefied petroleum gas, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 136 amends s. 531.50, F.S., pertaining to penalties for violations of the Weights and Measures Act of 1971, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 137 amends s. 534.52, F.S., pertaining to penalties for violations of livestock market laws, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 138 amends s. 539.001, F.S., pertaining to penalties for violations of the Florida Pawnbroking Act, to provide cross-references to penalties in the newly created s. 570.971, F.S.

Section 139 amends s. 559.921, F.S., pertaining to penalties for violations of the Florida Motor Vehicle Repair Act, to provide cross-references to penalties in the newly created s. 570.971, F.S.

Section 140 amends s. 559.9355, pertaining to administrative remedies for violations of the Florida Sellers of Travel Act, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 141 amends s. 559.936, F.S., pertaining to civil penalties for violations of the Florida Sellers of Travel Act, to provide cross-references to penalties in the newly created s. 570.971, F.S.

Section 142 amends s. 571.11, F.S., pertaining to seal of quality for eggs and poultry, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 143 amends s. 571.28, F.S., pertaining to the Florida Agricultural Promotional Campaign Advisory Council, to correct a cross-reference.

Section 144 amends s. 571.29, F.S., pertaining to unlawful use of logos of the Florida Agricultural Promotional Campaign, to provide cross-references to penalties in the newly created s. 570.971, F.S.

Section 145 amends s. 578.181, F.S., pertaining to notice of infected plants and their destruction, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 146 amends s. 580.121, F.S., pertaining to penalties for violations of commercial feed and feedstuff laws, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 147 amends s. 581.141, F.S, pertaining to violations regarding certificates of registration or plant industry inspections, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 148 amends s. 581.186, F.S., pertaining to the Endangered Plant Advisory Council, to correct a cross-reference.

Section 149 amends s. 581.211, F.S., pertaining to penalties for violations of plant industry laws, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 150 amends s. 582.06, F.S., pertaining to the Soil and Water Conservation Council, to correct a cross-reference.

Section 151 amends s. 585.007, F.S., pertaining to violations of rules or laws governing the animal industry, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 152 amends s. 586.15, F.S., pertaining to violations of honey certification and honey bees, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 153 amends s. 586.161, pertaining to the Honeybee Technical Council, to correct a cross-reference.

Section 154 amends s. 590.14, F.S., pertaining to violations of forest protection, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 155 amends s. 595.701, F.S., pertaining to the Healthy Schools for Healthy Lives Council, to correct a cross-reference.

Section 156 amends s. 597.0041, F.S., pertaining to violations of prohibited acts relating to aquaculture, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 157 amends s. 599.002, F.S., pertaining to the Viticulture Advisory Council, to correct a cross-reference.

Section 158 amends s. 601.67, F.S., pertaining to disciplinary actions against citrus fruit dealers, to provide cross-references to penalties in the newly created s. 570.971, F.S.

Section 159 amends s. 604.30, F.S., pertaining to violations of general agricultural laws, to provide cross-references to penalties in the newly created s. 570.971, F.S.

Section 160 amends s. 616.242, F.S., pertaining to violations of safety standards for amusement rides at public fairs and expositions, to provide a cross-reference to penalties in the newly created s. 570.971, F.S.

Section 161 provides that this act shall take effect July 1, 2014.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

CS/CS/CS/SB 1630 establishes two new lower fee categories for distributors of small amounts of seed ($10 per year for annual sales under $500 and $25 per year for annual sales under $1,000). This will reduce fees paid by approximately 200 seed dealers.

The bill does not increase, and in some cases decreases, fines currently in law.

B. Private Sector Impact:

The bill will have a positive fiscal impact on the private sector by providing on-line registration for pesticide and fertilizer licenses, eliminating certain bond requirements, simplifying the regulatory process for Australian pines for wind breaks, and lowering registration fees for distributors of small amounts of seed. Additionally, the bill increases the number of dressed birds a small farm can sell weekly, potentially increasing revenues for the farm.

C. Government Sector Impact:

The provisions in the bill will have an insignificant impact on state revenues. The department estimates a reduction of $13,725 in the General Inspection Trust Fund related to reduced registration fees for seed dealers.

The bill repeals a pilot program related to the use of Australian pine trees and authorizes use of the trees as a windbreak for citrus groves with a valid permit. The department does not anticipate a significant increase in permits issued.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 193.461, 253.74, 282.709, 288.1175, 320.08058, 373.4591, 373.621, 379.361, 373.709, 381.0072, 388.46, 472.0351, 472.036, 482.161, 482.165, 482.243, 487.041, 487.046, 487.047, 487.048, 487.091, 487.159, 487.160, 487.175, 487.2031, 487.2051, 493.6118, 493.6120, 496.420, 500.03, 500.12, 500.121, 500.147, 500.165, 500.172, 500.70, 501.019, 501.059, 501.612, 501.619, 507.09, 501.922, 507.10, 509.032, 525.16, 526.311, 526.55, 527.13, 531.50, 534.52, 539.001, 559.921, 559.9355, 559.936, 570.42, 570.14, 570.07, 570.23, 570.242, 570.36, 570.38, 570.44, 570.45, 570.451, 570.50, 570.51, 570.543, 570.074, 570.952, 570.902, 570.71, 570.247, 570.9135, 570.961, 570.963, 570.076, 571.11, 571.28, 571.29, 576.021, 576.031, 576.041, 576.051,

576.061, 576.071, 576.087, 576.101, 578.08, 578.181, 580.036, 580.041, 580.071, 580.091, 580.121, 581.091, 581.131, 581.141, 581.186, 581.211, 582.06, 583.01, 585.007, 586.15, 586.161, 589.08, 589.011, 589.20, 590.02, 590.125, 590.14, 595.701, 597.003, 597.004, 597.0041, 597.020, 599.002, 601.67, 604.16, 604.22, 604.30, and 616.242.

This bill transfers and renumbers the following sections of the Florida Statutes: 507.545, 570.0741, 570.17, 570.531, 570.0725, 570.241, 570.481, and 570.55.

This bill renumbers the following sections of the Florida Statutes: 570.16, 570.18, 570.0705, 570.073, 570.17, 570.951, 570.953, 570.901, 570.903, 570.91, 570.243, 570.244, 570.245, 570.246, 570.248, 570.249, 570.954, 570.96, 570.962, 570.964, 570.075, 570.085, and 570.087.

This bill creates the following sections of the Florida Statutes: parts I, II, III, IV, and V of ch. 570, 570.67, and 570.971.

This bill repeals the following sections of the Florida Statutes: 487.172, 500.301, 500.302, 500.303, 500.304, 500.305, 500.306, 500.601, 570.345, 570.542, 570.72, 570.92, 589.081, and 590.091.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS/CS by Community Affairs on April 8, 2014:
Amends s. 193.461, F.S., to:

- Allow a property owner to file with the property appraiser for an agricultural classification after the deadline has passed under certain conditions.
- State that lands classified for assessment purposes as agricultural and which participate in a dispersed water storage program shall continue to be classified as agricultural lands under certain conditions. Lands under a dispersed water storage program diverted to a nonagricultural use shall be assessed under s. 193.011, F.S.

Amends s. 373.4591, F.S., to:

- Provide that when the department and a private landowner enter into an agreement related to water storage on private agricultural lands and to implement best management practices pursuant to s. 403.067(7)(c), F.S., a baseline condition determining the extent of wetlands and other surface waters may be established at the option and expense of the private landowner.
- Direct the department to submit the landowner's proposed baseline condition documentation to the lead agency for review and approval.
- Direct the department to coordinate with the Department of Environmental Protection and the water management district on a process for reviewing such requests.

CS/CS by Transportation on March 26, 2014:

- Removes from the bill language providing that certain acts relating to livery services are unfair or deceptive regulatory acts or practices.

- Removes from the bill language limiting the liability of lessees of certain Florida Forest Service lands and providing such lessees owe no duty of care to keep the leased area safe for entry or use by others.

CS by Agriculture on March 17, 2014:

- Makes technical and organizational changes.
- Provides that it is an unfair or deceptive regulatory act or practice for a special district to restrict the right of the public to freely bargain for lawful livery transit services, to create classifications within each type of livery service, or to fix or approve zones, rates, or fares for such classifications, which apply differently to individuals and businesses that compete with each other to provide similar services.
- Authorizes the department to adopt by rule training requirements for shellfish processors.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

The Committee on Appropriations (Latvala and Galvano) recommended the following:

Senate Amendment (with title amendment)

Between lines 2421 and 2422

insert:

Section 106. Section 828.35, Florida Statutes, is created to read:

828.35 Humane treatment of racehorses.—

(1)(a) In order to ensure the humane treatment and welfare of horses racing in this state and notwithstanding any other law to the contrary, the Division of Pari-mutuel Wagering, in

476562

consultation with the Department of Agriculture and Consumer Services and the designated state laboratory, shall adopt rules establishing the conditions of use and maximum concentrations of drugs, medications, and naturally occurring substances identified in the most recent Controlled Therapeutic Medication Schedule adopted by the Association of Racing Commissioners International, Inc. (ARCI) on or before April 30, 2014. Controlled therapeutic medications include only the specific medications and concentrations authorized in biological samples that have been approved by ARCI as controlled therapeutic medications. The division shall initiate rulemaking to consider the adoption of any subsequent amendments to the Controlled Therapeutic Medication Schedule, penalties, or laboratory-screening limits adopted by ARCI within 180 days after the adoption of any such amendments. The division shall adopt laboratory-screening limits approved by ARCI for drugs and medications that are not included as controlled therapeutic medications. The division rules must include a classification system for medications and drugs and a corresponding penalty schedule for violations, which must incorporate the Uniform Classification Guidelines for Foreign Substances, revised December 2013, as adopted by ARCI. The rules must specify those drugs considered prohibited substances, whose presence in a sample in prescribed concentrations may result in administrative sanction by the division.

(b) After consultation with the department and the state laboratory, the division shall, notwithstanding s. 550.2415, designate the appropriate biological specimens by which the administration of medications, drugs, and naturally occurring

476562

substances are monitored and the testing methodologies for screening and confirmation.

(c) The rules must include conditions for the humane use of furosemide to treat exercise-induced pulmonary hemorrhage. Notwithstanding any other law, furosemide is the only medication that may be administered within 24 hours of the officially scheduled post time of a race, but it may not be administered within 4 hours before the officially scheduled post time.

(2) The division shall implement a split-sample procedure for testing racehorses to ensure their humane treatment. Upon collection, each urine and blood sample shall be split into a primary sample and a secondary (split) sample in accordance with rules adopted by the division. The division shall transfer custody of the primary sample to the state laboratory, with custody of the split sample remaining with the division except as provided in this subsection. Unless otherwise recommended by the department, serum is the testing medium for phenylbutazone in horses.

(a) The division shall notify the owner or trainer, the stewards, the department, and the horsemen's association of all drug test results. In the event of a positive test result, and upon request by the affected trainer or owner of the horse from which the sample was obtained, the division shall send the split sample to an approved independent laboratory for analysis. The division shall establish standards and rules for uniform enforcement and maintain a list of at least five approved independent laboratories for an owner or trainer to select from in the event of a positive test result.

1. If the laboratory's findings are not confirmed by the

476562

independent laboratory, further administrative or disciplinary action under this section may not be pursued. The division may adopt rules identifying substances that diminish in a blood or urine sample due to passage of time and that must be taken into account in applying this section.

2. If the independent laboratory confirms the positive result, the division shall inform the department and may seek administrative sanctions pursuant to chapter 120 against the violator within 180 days after laboratory confirmation which, in addition to license suspension or revocation, may include the imposition of a fine against the violator in an amount not to exceed the purse or sweepstakes earned by the horse in the race at issue or $10,000, whichever is greater. Upon receiving the report, the department may forward the report to the appropriate law enforcement agency for investigation of potential violations of s. 828.12. For the purpose of this subsection, the division shall in good faith attempt to obtain a sufficient quantity of the test fluid to allow both a primary test and a secondary test. If there is an insufficient quantity of the split sample for confirmation of the division laboratory's positive result, the division may not take further action on the matter against the owner or trainer and any resulting license suspension must be immediately lifted.

(b) The division shall require its laboratory and the independent laboratories to annually participate in an externally administered quality assurance program designed to assess testing proficiency in the detection and appropriate quantification of medications, drugs, and naturally occurring substances that may be administered to racing horses. The

476562

administrator of the quality assurance program shall report its results and findings to the division and the department.

The Committee on Appropriations (Sobel) recommended the following:

Senate Amendment to Amendment (476562) (with directory and title amendments)

After line 99
insert:

(3)(a) In order to monitor the humane treatment of racing greyhounds, each licensed greyhound track shall maintain records regarding injuries incurred by racing greyhounds while they are racing in this state, including injuries incurred in schooling races. The records must include:

952720

1. The greyhound's registered name, right and left ear tattoo numbers, and, if applicable, the microchip manufacturer and number.

2. The name, business address, and telephone number of the greyhound owner and trainer and the kennel operator.

3. The color, weight, and sex of the greyhound.

4. The location where the injury occurred.

5. If the injury occurred while the greyhound was racing, the racetrack where the injury occurred and the distance, grade, race, and post position of the greyhound when the injury occurred.

6. The weather conditions, time, and track condition when the injury occurred.

7. The specific type and bodily location of the injury, the cause of the injury, and the estimated recovery time from the injury.

(b) All injury records shall be completed and signed under oath or affirmation under penalty of perjury by the racetrack veterinarian, whose signature must be witnessed by a designated representative of the Department of Agriculture and Consumer Services or the Division of Pari-mutuel Wagering.

(c) Injury records created and maintained under this subsection shall be filed monthly with the Department of Agriculture and Consumer Services with an inspector designated by the department. Injury records shall also be maintained by the track for a period of 7 years and shall be made readily available for inspection and copying by the public upon oral or written request.

(d) A person who knowingly makes a false statement on an

952720

injury record is subject to a fine not to exceed $1,500. A person who commits a second or subsequent violation of this paragraph is subject to a fine of at least $3,000.

By the Committees on Community Affairs; Transportation; and Agriculture; and Senator Montford

578-04054-14 20141630c3

A bill to be entitled

An act relating to the Department of Agriculture and Consumer Services; amending s. 193.461, F.S.; authorizing a property appraiser to grant an agricultural classification after the application deadline upon a showing of extenuating circumstances; providing that participation in certain dispersed water storage programs does not change a land's agricultural classification for assessment purposes; amending s. 282.709, F.S.; adding a representative to the Joint Task Force on State Agency Law Enforcement Communications, to be appointed by the Commissioner of Agriculture; amending s. 373.4591, F.S.; authorizing agricultural landowners to establish baseline wetland and surface water conditions before implementing certain best management practice implementation agreements; requiring establishment of a process for review of proposed baseline condition determinations; transferring, renumbering, and amending s. 570.0741, F.S., relating to the energy efficiency and conservation clearinghouse; deleting an obsolete provision; amending s. 379.361, F.S.; requiring a person to retake an educational seminar when renewing an Apalachicola Bay oyster harvesting license; amending s. 487.041, F.S.; requiring a registrant to continue the registration of a brand of pesticide that continues to remain on retailers' shelves in this state under certain circumstances; amending ss. 487.046 and 487.048, F.S.; authorizing applications

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

578-04054-14 20141630c3

for certain licenses to be submitted through the department's website; amending s. 487.159, F.S.; deleting the requirements for filing statements claiming damages and injuries from pesticide application; amending s. 487.160, F.S.; requiring all licensed private applicators to keep the same records as licensed public applicators and licensed commercial applicators with respect to the application of restricted pesticides; amending s. 487.2031, F.S.; revising the term "material safety data sheet"; amending s. 487.2051, F.S.; revising requirements for pesticide fact sheets and safety data sheets; amending s. 493.6120, F.S.; authorizing the department to impose certain civil penalties for violations relating to private security, investigative, and repossession services; transferring and renumbering s. 570.545, F.S., relating to unsolicited goods; amending s. 500.03, F.S.; revising the definition of the term "food establishment"; amending s. 500.12, F.S.; revising the exemption from permit requirements for minor food outlets; requiring an establishment to apply for and receive a permit prior to the commencement of operations; requiring the department to adopt a schedule of fees to be paid by each food establishment and retail food store; providing that food permits are not transferable; updating terminology; amending s. 500.121, F.S.; authorizing the department to order the immediate closure of certain establishments upon determination that the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

establishment presents a severe and immediate threat to the public health, safety, and welfare; specifying the procedure the department must use in ordering immediate closure; conforming provisions to changes made by the act; providing criminal penalties; authorizing the department to adopt rules; amending s. 500.147, F.S.; authorizing the department to inspect food records to facilitate tracing of food products in certain circumstances; amending s. 500.165, F.S.; revising the administrative fine amount for violating provisions relating to transporting shipments of food items; amending s. 500.172, F.S.; authorizing the department to issue and enforce a stop-sale, stop-use, removal, or hold order for certain food-processing or food storage areas; amending s. 501.019, F.S.; revising the administrative fine amount for violations relating to health studios; amending s. 501.059, F.S.; authorizing the department to adopt rules; conforming provisions to changes made by the act; amending s. 501.922, F.S.; revising the administrative fine amount for certain violations relating to the "Antifreeze Act"; transferring, renumbering, and amending s. 570.42, F.S., relating to the Dairy Industry Technical Council; conforming a cross-reference; creating part I of ch. 570, F.S., entitled "General Provisions"; renumbering and amending s. 570.14, F.S., relating to the seal of the department; restricting the seal of the department from being used without written approval by the department; renumbering ss. 570.18 and

570.16, F.S., relating to organization of departmental work and the interference with department employees, respectively; amending s. 570.07, F.S.; conforming a cross-reference; transferring and renumbering ss. 570.17 and 570.531, F.S., relating to the regulatory work of the state relating to the protection of agricultural interests and the Market Improvements Working Capital Trust Fund, respectively; amending s. 570.23, F.S.; conforming a cross-reference; renumbering s. 570.0705, F.S., relating to advisory committees; creating part II of ch. 570, F.S., entitled "Program Services"; amending s. 570.36, F.S.; making a technical change; amending s. 570.44, F.S.; revising the duties of the Division of Agricultural Environmental Services; amending s. 570.45, F.S.; conforming provisions to changes made by the act; amending s. 570.451, F.S.; conforming a cross-reference; amending ss. 570.50 and 570.51, F.S.; conforming provisions to changes made by the act; amending s. 570.543, F.S.; conforming a cross-reference; renumbering s. 570.073, F.S., relating to the Office of Agricultural Law Enforcement; renumbering and amending s. 570.074, F.S.; requiring the Office of Agricultural and Water Policy to enforce and implement ch. 582, F.S., and rules relating to soil and water conservation; creating s. 570.67, F.S.; codifying the creation of the Office of Energy; providing for management and specifying duties; renumbering s. 570.951, F.S., relating to the Florida

Agriculture Center and Horse Park; renumbering and amending s. 570.952, F.S., relating to the Florida Agricultural Center and Horse Park Authority; conforming provisions to changes made by the act; deleting obsolete provisions; renumbering s. 570.953, F.S., relating to the identity of donors to the Florida Agriculture Center and Horse Park Authority; renumbering and amending s. 570.902, F.S., relating to definitions; conforming provisions to changes made by the act; renumbering ss. 570.903, 570.901, and 570.91, F.S., relating to direct-support organizations, the Florida Agricultural Museum, and Florida agriculture in the classroom, respectively; creating part III of ch. 570, F.S., entitled "Agricultural Development"; amending s. 570.71, F.S.; authorizing the department to use certain funds for administrative and operating expenses related to appraisals, mapping, title process, personnel, and other real estate expenses; renumbering s. 570.241, F.S., relating to the Agricultural Economic Development Act; renumbering and amending s. 570.242, F.S., relating to the Agricultural Economic Development Act; removing the definition of the terms "commissioner" and "department"; renumbering ss. 570.243, 570.244, 570.245, and 570.246, F.S., relating to the Agricultural Economic Development Program, the powers of the department, interaction with other economic development agencies and groups, and agricultural economic development funding, respectively;

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

renumbering and amending s. 570.247, F.S., relating to certain department rules; deleting obsolete provisions; renumbering ss. 570.248 and 570.249, F.S., relating to the Agricultural Economic Development and Project Review Committee and disaster loans and grants and aid, respectively; renumbering and amending s. 570.9135, F.S., relating to the Beef Market Development Act; conforming cross-references; making technical changes; renumbering ss. 570.954 and 570.96, F.S., relating to the farm-to-fuel initiative and agritourism, respectively; renumbering and amending s. 570.961, F.S., relating to definitions; conforming cross-references; renumbering s. 570.962, F.S., relating to agritourism participation impact on land classification; renumbering and amending s. 570.963, F.S., relating to liability; conforming a cross-reference; renumbering and amending s. 570.964, F.S., relating to posting and notification requirements for agritourism operators; conforming provisions to changes made by the act; creating part IV of ch. 570, F.S., entitled "Agricultural Water Policy"; renumbering s. 570.075, F.S., relating to water supply agreements; renumbering and amending s. 570.076, F.S., relating to Environmental Stewardship Certification; conforming a cross-reference; renumbering ss. 570.085 and 570.087, F.S., relating to agricultural water conservation and agricultural water supply planning and best management practices for wildlife, respectively; creating part V of ch. 570, F.S.,

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

entitled "Penalties"; creating s. 570.971, F.S.; providing administrative fines and civil penalties; authorizing the department to refuse to issue or renew a license, permit, authorization, certificate, or registration under certain circumstances; authorizing the department to adopt rules; amending s. 576.021, F.S.; updating terminology; authorizing applications for registration for specialty fertilizers to be submitted using the department's website; making technical changes; amending s. 576.031, F.S.; revising labeling requirements for distribution of fertilizer in bulk; amending s. 576.041, F.S.; removing surety bond and certificate of deposit requirements for fertilizer license applicants; amending s. 576.051, F.S.; extending the period of retention for an official check sample; amending s. 576.061, F.S.; deleting the penalty imposed when it is determined by the department that a fertilizer has been distributed without being licensed or registered, or without labeling; conforming provisions to changes made by the act; making technical changes; amending s. 576.071, F.S.; requiring the department to survey the fertilizer industry of this state to determine the commercial value used in assessing penalties for a deficiency; amending s. 576.087, F.S.; deleting certain requirements relating to antisiphon devices; amending s. 576.101, F.S.; deleting the department's authorization to place a licensee on probationary status under certain circumstances; amending s.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

578.08, F.S.; deleting the requirement that the application for registration as a seed dealer include the name and location of each place of business at which the seed is sold, distributed, offered, exposed, or handled for sale; requiring the application to be made by submitting a form prescribed by department rule or using the department's website; establishing a registration fee for receipts of certain amounts; amending s. 580.036, F.S.; requiring that standards for the sale, use, and distribution of commercial feed or feedstuff, if adopted, be developed in consultation with the Agricultural Feed, Seed, and Fertilizer Advisory Council; amending s. 580.041, F.S.; removing the requirement that the master registration form for each distributor of commercial feed identify the manufacturer's or guarantor's name and place of business and the location of each manufacturing facility; revising the requirement that the department must mail a copy of the master registration in order to signify that the administrative requirements have been met; amending s. 580.071, F.S.; providing additional factors that would make a commercial feed or feedstuff be deemed adulterated; amending s. 581.091, F.S.; deleting the definition of the term "commercial citrus grove"; deleting provisions relating to special permits authorizing a person to plant Casuarina cunninghamiana as part of a pilot program; eliminating a requirement that the department develop and implement a monitoring protocol to

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

determine invasiveness of Casuarina cunninghamiana; amending s. 581.131, F.S.; revising the time in which the department must provide certain notice and certificate renewal forms; amending s. 583.01, F.S.; redefining the term "dealer"; transferring, renumbering, and amending s. 570.38, F.S., relating to the Animal Industry Technical Council; conforming a cross-reference; amending s. 589.08, F.S.; requiring the Florida Forest Service to pay a certain percentage of the gross receipts from the Goethe State Forest to each fiscally constrained county; requiring such funds to be equally divided between the board of county commissioners and the school board; amending s. 589.011, F.S.; providing conditions under which the Florida Forest Service is authorized to grant use of certain lands; providing criteria by which the Florida Forest Service determines certain fees, rentals, and charges; amending s. 589.20, F.S.; authorizing the Florida Forest Service to cooperate with water management districts, municipalities, and other governmental entities; amending s. 590.02, F.S.; renaming the Florida Center for Wildfire and Forest Resources Management Training as the Withlacoochee Training Center; making technical changes; amending s. 590.125, F.S.; providing that new authorization is not required for smoldering that occurs within the authorized burn area unless new ignitions are conducted by certain persons; providing that monitoring the smoldering activity of a burn does not

require an additional authorization; transferring and renumbering s. 570.0725, F.S., relating to food recovery; amending s. 597.003, F.S.; amending the powers and duties of the department to include providing training as necessary to lessees of certain lands for aquaculture use; amending s. 597.004, F.S.; requiring an applicant for an aquaculture certificate to submit a certificate of training if required; amending s. 597.020, F.S.; authorizing the department to adopt training requirements for shellfish processors by rule; transferring and renumbering ss. 570.481 and 570.55, F.S., relating to food recovery, fruit and vegetable inspection fees, and identification of sellers or handlers of tropical or subtropical fruit and vegetables, respectively; amending s. 604.16, F.S.; providing an exemption for certain dealers in agricultural products from certain requirements; amending s. 604.22, F.S.; revising certain penalties for dealers in agricultural products; repealing s. 487.172, F.S., relating to an educational program for organotin compounds in antifouling paints; repealing ss. 500.301, 500.302, 500.303, 500.304, 500.305, and 500.306, F.S., relating to the standards of enrichment, sales, enforcement, and inspection of certain grain products; repealing s. 500.601, F.S., relating to the retail sale of meat; repealing s. 570.345, F.S., relating to the Pest Control Compact; repealing s. 570.542, F.S., relating to the Florida Consumer Services Act; repealing s.

570.72, F.S., relating to a definition; repealing s. 570.92, F.S., relating to an equestrian educational sports program; repealing s. 589.081, F.S., relating to the Withlacoochee State Forest and Goethe State Forest; repealing s. 590.091, F.S., relating to the designation of railroad rights-of-way as wildfire hazard areas; amending ss. 193.461, 253.74, 288.1175, 320.08058, 373.621, 373.709, 381.0072, 388.46, 472.0351, 472.036, 482.161, 482.165, 482.243, 487.047, 487.091, 487.175, 493.6118, 496.420, 500.70, 501.612, 501.619, 502.231, 507.09, 507.10, 509.032, 525.16, 526.311, 526.55, 527.13, 531.50, 534.52, 539.001, 559.921, 559.9355, 559.936, 571.11, 571.28, 571.29, 578.181, 580.121, 581.141, 581.186, 581.211, 582.06, 585.007, 586.15, 586.161, 590.14, 595.701, 597.0041, 599.002, 601.67, 604.30, and 616.242, F.S.; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (a) of subsection (3) and subsection (7) of section 193.461, Florida Statutes, are amended to read:

193.461 Agricultural lands; classification and assessment; mandated eradication or quarantine program.—

(3)(a) ~~No~~ Lands may not ~~shall~~ be classified as agricultural lands unless a return is filed on or before March 1 of each year. The property appraiser, before so classifying such lands, may require the taxpayer or the taxpayer's representative to

furnish the property appraiser such information as may reasonably be required to establish that such lands were actually used for a bona fide agricultural purpose. Failure to make timely application by March 1 shall constitute a waiver for 1 year of the privilege herein granted for agricultural assessment. However, an applicant who is qualified to receive an agricultural classification who fails to file an application by March 1 must ~~may~~ file an application for the classification with the property appraiser within 25 days after the property appraiser mails the notices required under s. 194.011(1). Upon receipt of sufficient evidence, as determined by the property appraiser, demonstrating that the applicant was unable to apply for the classification in a timely manner or otherwise demonstrating extenuating circumstances judged by the property appraiser to warrant granting the classification, the property appraiser may grant the classification. If the applicant fails to produce sufficient evidence demonstrating that the applicant was unable to apply for the classification in a timely manner or otherwise demonstrating extenuating circumstances as judged by the property appraiser, the applicant ~~and~~ may file, pursuant to s. 194.011(3), a petition with the value adjustment board requesting that the classification be granted. The petition may be filed at any time during the taxable year on or before the 25th day following the mailing of the notice by the property appraiser as provided in s. 194.011(1). Notwithstanding ~~the provisions of~~ s. 194.013, the applicant must pay a nonrefundable fee of $15 upon filing the petition. Upon reviewing the petition, if the person is qualified to receive the classification and demonstrates particular extenuating

circumstances judged by the ~~property appraiser or the~~ value adjustment board to warrant granting the classification, ~~the property appraiser or~~ the value adjustment board may grant the classification for the current year. The owner of land that was classified agricultural in the previous year and whose ownership or use has not changed may reapply on a short form as provided by the department. The lessee of property may make original application or reapply using the short form if the lease, or an affidavit executed by the owner, provides that the lessee is empowered to make application for the agricultural classification on behalf of the owner and a copy of the lease or affidavit accompanies the application. A county may, at the request of the property appraiser and by a majority vote of its governing body, waive the requirement that an annual application or statement be made for classification of property within the county after an initial application is made and the classification granted by the property appraiser. Such waiver may be revoked by a majority vote of the governing body of the county.

(7)(a) Lands classified for assessment purposes as agricultural lands which are taken out of production by a ~~any~~ state or federal eradication or quarantine program shall continue to be classified as agricultural lands for the duration of such program or successor programs. Lands under these programs which are converted to fallow~~,~~ or otherwise nonincome-producing uses shall continue to be classified as agricultural lands and shall be assessed at a de minimis value of up to ~~no more than~~ $50 per acre, on a single year assessment methodology; however, lands converted to other income-producing agricultural

uses permissible under such programs shall be assessed pursuant to this section. Land under a mandated eradication or quarantine program which is diverted from an agricultural to a nonagricultural use shall be assessed under s. 193.011.

(b) Lands classified for assessment purposes as agricultural lands which participate in a dispersed water storage program pursuant to a contract with the Department of Environmental Protection or a water management district which requires flooding of land shall continue to be classified as agricultural lands for the duration of the inclusion of the lands in such program or successor programs and shall be assessed as nonproductive agricultural lands. Land under a dispersed water storage program which is diverted to a nonagricultural use shall be assessed under s. 193.011.

Section 2. Paragraph (a) of subsection (2) of section 282.709, Florida Statutes, is amended to read:

282.709 State agency law enforcement radio system and interoperability network.—

(2) The Joint Task Force on State Agency Law Enforcement Communications is created adjunct to the department to advise the department of member-agency needs relating to the planning, designing, and establishment of the statewide communication system.

(a) The Joint Task Force on State Agency Law Enforcement Communications shall consist of the following members:

1. A representative of the Division of Alcoholic Beverages and Tobacco of the Department of Business and Professional Regulation who shall be appointed by the secretary of the department.

2. A representative of the Division of Florida Highway Patrol of the Department of Highway Safety and Motor Vehicles who shall be appointed by the executive director of the department.

3. A representative of the Department of Law Enforcement who shall be appointed by the executive director of the department.

4. A representative of the Fish and Wildlife Conservation Commission who shall be appointed by the executive director of the commission.

5. A representative of the Department of Corrections who shall be appointed by the secretary of the department.

6. A representative of the Division of State Fire Marshal of the Department of Financial Services who shall be appointed by the State Fire Marshal.

7. A representative of the Department of Transportation who shall be appointed by the secretary of the department.

8. A representative of the Department of Agriculture and Consumer Services who shall be appointed by the Commissioner of Agriculture.

Section 3. Section 373.4591, Florida Statutes, is amended to read:

373.4591 Improvements on private agricultural lands.—The Legislature encourages public-private partnerships to accomplish water storage and water quality improvements on private agricultural lands. When an agreement is entered into between a water management district or the department and a private landowner to establish such a partnership, a baseline condition determining the extent of wetlands and other surface waters on

the property shall be established and documented in the agreement before improvements are constructed. When an agreement is entered into between the Department of Agriculture and Consumer Services and a private landowner to implement best management practices pursuant to s. 403.067(7)(c), a baseline condition determining the extent of wetlands and other surface waters on the property may be established at the option and expense of the private landowner and documented in the agreement before improvements are constructed. The Department of Agriculture and Consumer Services shall submit the landowner's proposed baseline condition documentation to the lead agency for review and approval, and the agency shall make every effort to complete the review within 45 days. The Department of Agriculture and Consumer Services, the department, and the water management districts shall coordinate on a process for reviewing such requests. The determination of a ~~for the~~ baseline condition shall be conducted using the methods set forth in the rules adopted pursuant to s. 373.421. The baseline condition documented in an ~~the~~ agreement shall be considered the extent of wetlands and other surface waters on the property for the purpose of regulation under this chapter for the duration of the agreement and after its expiration.

Section 4. Section 570.0741, Florida Statutes, is transferred, renumbered as section 377.805, Florida Statutes, and amended to read:

377.805 ~~570.0741~~ Energy efficiency and conservation clearinghouse.—The Office of Energy within the Department of Agriculture and Consumer Services, in consultation with the Public Service Commission, the Florida Building Commission, and

the Florida Energy Systems Consortium, shall develop a clearinghouse of information regarding cost savings associated with various energy efficiency and conservation measures. The Department of Agriculture and Consumer Services shall post the information on its website ~~by July 1, 2013~~.

Section 5. Paragraph (e) of subsection (5) of section 379.361, Florida Statutes, is amended to read:

379.361 Licenses.—

(5) APALACHICOLA BAY OYSTER HARVESTING LICENSE.—

(e) Each person who applies for an Apalachicola Bay oyster harvesting license shall~~, before receiving the license for the first time,~~ attend an educational seminar of not more than 16 hours length, developed and conducted jointly by the Department of Environmental Protection's Apalachicola National Estuarine Research Reserve, the Division of Law Enforcement of the Fish and Wildlife Conservation Commission, and the Department of Agriculture and Consumer Services' Apalachicola District Shellfish Environmental Assessment Laboratory. The seminar shall address, among other things, oyster biology, conservation of the Apalachicola Bay, sanitary care of oysters, small business management, and water safety. The seminar shall be offered five times per year, and each person attending shall receive a certificate of participation to present when obtaining an Apalachicola Bay oyster harvesting license. ~~The educational seminar is not required for renewal of an Apalachicola Bay oyster harvesting license.~~

Section 6. Paragraph (d) of subsection (3) of section 487.041, Florida Statutes, is amended to read:

487.041 Registration.—

(3) The department, in addition to its other duties under this section, has the power to:

(d) Require a registrant to continue the registration of a brand of pesticide that remains on retailers' shelves in the state unless the department receives the registrant's written notification that it is discontinuing the distribution of the brand of pesticide and the registrant then maintains the registration of that brand for a minimum of 2 years. The discontinued brand of pesticide may remain on retailers' shelves without further registration if the brand of pesticide is not distributed by the registrant in the state during or after the minimum 2-year period ~~who discontinues the distribution of a brand of pesticide in this state to continue the registration of the brand of the pesticide for a minimum of 2 years or until no more remains on retailers' shelves if such continued registration or sale is not specifically prohibited by the department or the United States Environmental Protection Agency~~.

Section 7. Subsection (1) of section 487.046, Florida Statutes, is amended to read:

487.046 Application; licensure.—

(1) An application for a license shall be filed with ~~made in writing to~~ the department by using ~~on~~ a form prescribed ~~furnished~~ by the department or by using the department's website. Each application shall contain information regarding the applicant's qualifications, proposed operations, and license classification or subclassifications, as prescribed by rule.

Section 8. Subsection (1) of section 487.048, Florida Statutes, is amended to read:

487.048 Dealer's license; records.—

(1) Each person holding or offering for sale, selling, or distributing restricted-use pesticides must ~~shall~~ obtain a dealer's license from the department. An application for a ~~the~~ license shall be filed with the department by using ~~made on~~ a form prescribed by the department or by using the department's website. The license must be obtained before entering into business or transferring ownership of a business. The department may require examination or other proof of competency of individuals to whom licenses are issued or of individuals employed by persons to whom licenses are issued. Demonstration of continued competency may be required for license renewal, as set by rule. The license shall be renewed annually as provided by rule. An annual license fee not exceeding $250 shall be established by rule. However, a user of a restricted-use pesticide may distribute unopened containers of a properly labeled pesticide to another user who is legally entitled to use that restricted-use pesticide without obtaining a pesticide dealer's license. The exclusive purpose of distribution of the restricted-use pesticide is to keep it from becoming a hazardous waste as defined in s. 403.703(13).

Section 9. Section 487.159, Florida Statutes, is amended to read:

487.159 Damage or injury to property, animal, or person; mandatory report of damage or injury~~; time for filing; failure to file~~.—

~~(1) The person claiming damage or injury to property, animal, or human beings from application of a pesticide shall file with the department a written statement claiming damages, on a form prescribed by the department, within 48 hours after~~

~~the damage or injury becomes apparent. The statement shall contain, but shall not be limited to, the name of the person responsible for the application of the pesticide, the name of the owner or lessee of the land on which the crop is grown and for which the damages are claimed, and the date on which it is alleged that the damages occurred. The department shall investigate the alleged damages and notify all concerned parties of its findings. If the findings reveal a violation of the provisions of this part, the department shall determine an appropriate penalty, as provided in this part. The filing of a statement or the failure to file such a statement need not be alleged in any complaint which might be filed in a court of law, and the failure to file the statement shall not be considered any bar to the maintenance of any criminal or civil action.~~

(1)~~(2)~~ A ~~It is the duty of any~~ licensee shall ~~to~~ report unreasonable adverse effects on the environment or damage to property or injury to human beings, animals, plants, or other property ~~a person~~ as the result of the application of a restricted-use pesticide by the licensee or by an applicator or mixer-loader under the licensee's direct supervision, if and when the licensee has knowledge of such damage or injury. ~~It is also the express intent of this section to require all~~ Physicians shall ~~to~~ report all pesticide-related illnesses or injuries to the nearest county health department, which shall ~~will~~ notify the department so that the department may establish a pesticide incident monitoring system within the Division of Agricultural Environmental Services.

(2)~~(3)~~ When damage or injury to human beings, animals, plants, or other property as the result of the application of a

restricted-use pesticide is alleged ~~to have been done~~, the person claiming such damage or injury ~~claimant~~ shall allow ~~permit~~ the licensee and the licensee's representatives to observe within a reasonable amount of time ~~hours~~ the alleged damage or injury in order that the damage or injury may be examined. The failure of the person claiming such damage or injury ~~claimant~~ to allow ~~permit~~ observation and examination of the alleged damage or injury shall automatically bar the claim against the licensee.

Section 10. Section 487.160, Florida Statutes, is amended to read:

487.160 Records.—Licensed private applicators, ~~supervising 15 or more unlicensed applicators or mixer-loaders and~~ licensed public applicators, and licensed commercial applicators shall maintain records as the department may determine by rule with respect to the application of restricted pesticides, including, but not limited to, the type and quantity of pesticide, method of application, crop treated, and dates and location of application. ~~Other licensed private applicators shall maintain records as the department may determine by rule with respect to the date, type, and quantity of restricted-use pesticides used.~~ Licensees shall keep records for ~~a period of~~ 2 years from the date of the application of the pesticide to which the records refer~~,~~ and ~~shall~~ furnish to the department a copy of the records upon written request by the department.

Section 11. Present subsection (8) of section 487.2031, Florida Statutes, is redesignated as subsection (7), and present subsection (7) of that section is amended to read:

487.2031 Definitions.—For the purposes of this part, the

term:

(8)~~(7)~~ "~~Material~~ Safety data sheet" means written, electronic, or printed material concerning an agricultural pesticide that sets forth the following information:

(a) The chemical name and the common name of the agricultural pesticide.

(b) The hazards or other risks in the use of the agricultural pesticide, including:

1. The potential for fire, explosions, corrosivity, and reactivity.

2. The known acute health effects and chronic health effects of exposure to the agricultural pesticide, including those medical conditions that are generally recognized as being aggravated by exposure to the agricultural pesticide.

3. The primary routes of entry and symptoms of overexposure.

(c) The proper handling practices, necessary personal protective equipment, and other proper or necessary safety precautions in circumstances that involve the use of or exposure to the agricultural pesticide, including appropriate emergency treatment in case of overexposure.

(d) The emergency procedures for spills, fire, disposal, and first aid.

(e) A description of the known specific potential health risks posed by the agricultural pesticide, which is written in lay terms and is intended to alert a ~~any~~ person who reads the information.

(f) The year and month, if available, that the information was compiled and the name, address, and emergency telephone

number of the manufacturer responsible for preparing the information.

Section 12. Section 487.2051, Florida Statutes, is amended to read:

487.2051 Availability of agricultural pesticide information to workers and medical personnel.—

(1) An agricultural employer shall make available agricultural pesticide information concerning any agricultural pesticide to a ~~any~~ worker:

(a) Who enters an agricultural-pesticide-treated area on an agricultural establishment where:

1. An agricultural pesticide has been applied within 30 days of that entry; or

2. A restricted-entry interval has been in effect; or

(b) Who may be exposed to the agricultural pesticide during normal conditions of use or in a foreseeable emergency.

(2) The agricultural pesticide information provided pursuant to subsection (1) must be in the form of a fact sheet or a ~~material~~ safety data sheet. The agricultural employer shall provide a written copy of the information provided pursuant to subsection (1) within 2 working days after a request for the information by a worker or a designated representative. In the case of a pesticide-related medical emergency, the agricultural employer shall provide a written copy of the information promptly upon the request of the worker, the designated representative, or medical personnel treating the worker.

(3) Upon the initial purchase of a product and with the first purchase after the fact sheet or ~~material~~ safety data sheet is updated, the distributor, manufacturer, or importer of

agricultural pesticides shall obtain or develop and provide each direct purchaser of an agricultural pesticide with a fact sheet or ~~material~~ safety data sheet. If the fact sheet or ~~material~~ safety data sheet ~~or fact sheet~~ for the agricultural pesticide is not available when the agricultural pesticide is purchased, the agricultural employer shall take appropriate and timely steps to obtain the fact sheet or ~~material~~ safety data sheet ~~or fact sheet~~ from the distributor, the manufacturer, the department, a federal agency, or another distribution source.

(4) The department shall produce and make available to a trainer a one-page general agricultural pesticide safety sheet. The pesticide safety sheet must be in a language understandable to the worker and must include, but need not be limited to, illustrated instructions on preventing agricultural pesticide exposure and toll-free telephone numbers to the Florida Poison Control Centers. The trainer shall provide the pesticide safety sheet to the worker pursuant to the United States Environmental Protection Agency Worker Protection Standard, 40 C.F.R. s. 170.130.

Section 13. Subsections (3) and (5) of section 493.6120, Florida Statutes, are amended to read:

493.6120 Violations; penalty.—

(3) Except as otherwise provided in this chapter, a person who violates any provision of this chapter except subsection (7) commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083. The department may also seek the imposition of a civil penalty in the Class II category pursuant to s. 570.971 upon a withholding of adjudication of guilt or an adjudication of guilt in a criminal case.

(5) A person who violates or disregards a cease and desist order issued by the department commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083. In addition, the department may seek the imposition of a civil penalty in the Class II category pursuant to s. 570.971 ~~not to exceed $5,000~~.

Section 14. Section 570.545, Florida Statutes, is transferred and renumbered as section 501.0113, Florida Statutes.

Section 15. Paragraph (p) of subsection (1) of section 500.03, Florida Statutes, is amended to read:

500.03 Definitions; construction; applicability.—

(1) For the purpose of this chapter, the term:

(p) "Food establishment" means a ~~any~~ factory, food outlet, or ~~any~~ other facility manufacturing, processing, packing, holding, or preparing food or selling food at wholesale or retail. The term does not include any business or activity that is regulated under s. 413.051, s. 500.80, chapter 509, or chapter 601. The term includes tomato packinghouses and repackers but does not include any other establishments that pack fruits and vegetables in their raw or natural states, including those fruits or vegetables that are washed, colored, or otherwise treated in their unpeeled, natural form before they are marketed.

Section 16. Paragraphs (a) and (b) of subsection (1) and subsection (8) of section 500.12, Florida Statutes, are amended to read:

500.12 Food permits; building permits.—

(1)(a) A food permit from the department is required of a

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~any~~ person who operates a food establishment or retail food store, except:

1. Persons operating minor food outlets~~, including, but not limited to, video stores,~~ that sell food that is commercially prepackaged, not potentially hazardous, and not time or temperature controlled for safety if~~, nonpotentially hazardous candy, chewing gum, soda, or popcorn, provided~~ the shelf space for those items does not exceed 12 total ~~linear~~ feet and no other food is sold by the minor food outlet.

2. Persons subject to continuous, onsite federal or state inspection.

3. Persons selling only legumes in the shell, either parched, roasted, or boiled.

4. Persons selling sugar cane or sorghum syrup that has been boiled and bottled on a premise located within the state. Such bottles must contain a label listing the producer's name and street address, all added ingredients, the net weight or volume of the product, and a statement that reads: "This product has not been produced in a facility permitted by the Florida Department of Agriculture and Consumer Services."

(b) Each food establishment and retail food store regulated under this chapter must apply for and receive a food permit before operation begins. An application for a food permit from the department must be accompanied by a fee in an amount determined by department rule. The department shall adopt by rule a schedule of fees, which may not exceed $650, to be paid by each food establishment and retail food store as a condition of issuance or renewal of a food permit. Such fees ~~and~~ shall be used solely for the recovery of costs for the services provided,

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

except that the fee accompanying an application for a food permit for operating a bottled water plant may not exceed $1,000 and the fee accompanying an application for a food permit for operating a packaged ice plant may not exceed $250. The fee for operating a bottled water plant or a packaged ice plant shall be set by rule of the department. Food permits are not transferable from one person or physical location to another. Food permits must be renewed annually on or before January 1. If an application for renewal of a food permit is not received by the department within 30 days after its due date, a late fee~~, in an amount~~ not exceeding $100~~,~~ must be paid in addition to the food permit fee before the department may issue the food permit. The moneys collected shall be deposited in the General Inspection Trust Fund.

(8) A ~~Any~~ person who~~, after October 1, 2000,~~ applies for or renews a local business tax certificate ~~occupational license~~ to engage in business as a food establishment or retail food store must exhibit a current food permit or an active letter of exemption from the department before the local business tax certificate ~~occupational license~~ may be issued or renewed.

Section 17. Subsections (1) through (3) of section 500.121, Florida Statutes, are amended, and subsection (7) is added to that section, to read:

500.121 Disciplinary procedures.—

(1) In addition to the suspension procedures provided in s. 500.12, if applicable, the department may impose an administrative fine in the Class II category pursuant to s. 570.971 ~~a fine not to exceed $5,000~~ against any retail food store, food establishment, or cottage food operation that

violates this chapter, which fine, when imposed and paid, shall be deposited by the department into the General Inspection Trust Fund. The department may revoke or suspend the permit of ~~any~~ such retail food store or food establishment if it is satisfied that the retail food store or food establishment has:

(a) Violated ~~any of the provisions of~~ this chapter.

(b) Violated, or aided or abetted in the violation of, any law of this state or department rule relating ~~governing or applicable~~ to retail food stores or food establishments ~~or any lawful rules of the department~~.

(c) Knowingly committed, or been a party to, any material fraud, misrepresentation, conspiracy, collusion, trick, scheme, or device whereby another ~~any other~~ person, lawfully relying upon the word, representation, or conduct of a retail food store or food establishment, acts to her or his injury or damage.

(d) Committed any act or conduct of the same or different character than that enumerated which constitutes fraudulent or dishonest dealing.

(2) A ~~Any~~ manufacturer, processor, packer, or distributor who misrepresents or mislabels the country of origin of any food may, in addition to any penalty provided in this chapter, be subject to an additional administrative fine in the Class II category pursuant to s. 570.971 for each ~~of up to $10,000 per~~ violation.

(3) An ~~Any~~ administrative order made and entered by the department imposing a fine pursuant to this section shall specify the amount of the fine and the time limit for payment thereof, not exceeding 21 ~~15~~ days, and, upon failure of the permitholder to pay the fine within that time, the permit is

subject to suspension or revocation.

(7) The department may determine that a food establishment regulated under this chapter requires immediate closure when the food establishment fails to comply with this chapter or rules adopted under this chapter and presents an imminent threat to the public health, safety, and welfare. The department may accept inspection results from other state and local building officials and other regulatory agencies as justification for such action. The department shall, upon such a determination, issue an immediate final order to close a food establishment as follows:

(a) The division director or designee shall determine that the continued operation of a food establishment presents an immediate danger to the public health, safety, and welfare.

(b) Upon such determination, the department shall issue an immediate final order directing the owner or operator of the food establishment to cease operation and close the food establishment. The department shall serve the order upon the owner or operator of the food establishment, or agent thereof. The department may attach a closed-for-operation sign to the food establishment while the order remains in place.

(c) The department shall inspect the food establishment within 24 hours after the issuance of the order. Upon a determination that the food establishment has met the applicable requirements to resume operations, the department shall serve a release upon the owner or operator of the food establishment, or agent thereof.

(d) A food establishment ordered by the department to cease operation and close under this section shall remain closed until

released by the department or by a judicial order to reopen.

(e) It is a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083, for a person to deface or remove a closed-for-operation sign placed on a food establishment by the department or for the owner or operator of a food establishment to resist closure of the establishment by the department. The department may impose administrative sanctions for violations of this paragraph.

(f) The department may adopt rules to administer this subsection.

Section 18. Subsection (1) of section 500.147, Florida Statutes, is amended to read:

500.147 Inspection of food establishments, food records, and vehicles.—

(1) The department or its duly authorized agent shall have free access at all reasonable hours to a ~~any~~ food establishment, food record, or ~~any~~ vehicle being used to transport or hold food in commerce for the purpose of inspecting such establishment, record, or vehicle to determine whether ~~if any provision of~~ this chapter or any rule adopted under this ~~the~~ chapter is being violated; to secure a sample or a specimen of any food after paying or offering to pay for such sample; to see that all sanitary rules adopted by the department are complied with; to facilitate tracing of food products in the event of a food-borne illness outbreak or the identification of an adulterated or misbranded food item; or to enforce the special-occupancy provisions of the Florida Building Code which apply to food establishments.

Section 19. Subsection (3) of section 500.165, Florida

Statutes, is amended to read:

500.165 Transporting shipments of food items; rules; penalty.—

(3) A ~~Any~~ person who violates subsection (1) or the rules adopted under subsection (2) is subject to an administrative fine in the class III category pursuant to s. 570.971 for each ~~not to exceed $50,000 per~~ violation. In addition, a ~~any~~ person who violates subsection (1) commits ~~is guilty of~~ a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

Section 20. Section 500.172, Florida Statutes, is amended to read:

500.172 Embargoing, detaining, destroying of food, ~~or~~ food-processing equipment, food-processing areas, or food storage areas that are ~~is~~ in violation.—

(1) If ~~When~~ the department or its duly authorized agent finds, or has probable cause to believe, that any food article, ~~or~~ food-processing equipment, food-processing area, or food storage area is in violation of this chapter or any rule adopted under this chapter so as to be dangerous, unwholesome, fraudulent, or insanitary within the meaning of this chapter, an agent of the department may issue and enforce a stop-sale, stop-use, removal, or hold order, which ~~order~~ gives notice that such article, ~~or~~ processing equipment, processing area, or storage area is, or is suspected of being, in violation and has been detained or embargoed and ~~which order~~ warns all persons not to remove, use, or dispose of such article, ~~or~~ processing equipment, processing area, or storage area by sale or otherwise until permission for removal, use, or disposal is given by the

department or the court. A ~~It is unlawful for any~~ person may not ~~to~~ remove, use, or dispose of such detained or embargoed article, ~~or~~ processing equipment, processing area, or storage area by sale or otherwise without such permission.

(2) If an article, ~~or~~ processing equipment, processing area, or storage area detained or embargoed under subsection (1) has been found by the department to be in violation of law or rule, the department may, within a reasonable period of time after the issuance of such notice, petition the circuit court, in the jurisdiction of which the article, ~~or~~ processing equipment, processing area, or storage area is detained or embargoed, for an order for condemnation of such article, ~~or~~ processing equipment, processing area, or storage area. When the department has found that an article, ~~or~~ processing equipment, processing area, or storage area so detained or embargoed is not in violation, the department shall rescind the stop-sale, stop-use, removal, or hold order.

(3) If the court finds that the detained or embargoed article, ~~or~~ processing equipment, processing area, or storage area is in violation, such article, ~~or~~ processing equipment, processing area, or storage area shall, after entry of the decree, be destroyed or made sanitary at the expense of the claimant thereof under the supervision of the department, and~~,~~ all court costs, fees, and storage and other proper expenses shall be taxed against the claimant of such article, ~~or~~ processing equipment, processing area, or storage area or her or his agent. However, if the violation can be corrected by proper labeling of the article or sanitizing of the processing equipment, processing area, or storage area, and after such

costs, fees, and expenses have been paid and a good and sufficient bond, conditioned that such article be so labeled or processed or such processing equipment, processing area, or storage area so sanitized, has been executed, the court may by order direct that such article, ~~or~~ processing equipment, processing area, or storage area be made available ~~delivered~~ to the claimant thereof for such labeling, processing, or sanitizing under the supervision of the department. The expense of such supervision shall be paid by the claimant. Such bond shall be returned to the claimant of the article or processing equipment, processing area, or storage area, on representation to the court by the department that the article, ~~or~~ processing equipment, processing area, or storage area is no longer in violation of this chapter and that the expenses of such supervision have been paid.

(4) When the department or any of its authorized agents finds in any room, building, vehicle, or other structure any meat, seafood, poultry, vegetable, fruit, or other perishable articles which are unsound or contain any filthy, decomposed, or putrid substances, or which may be poisonous or deleterious to health or otherwise unsafe, the same is ~~being hereby~~ declared to be a nuisance, and the department~~,~~ or its authorized agent~~,~~ shall ~~forthwith~~ condemn or destroy the same~~,~~ or in any other manner render the same unsalable as human food.

Section 21. Subsection (3) and paragraph (b) of subsection (4) of section 501.019, Florida Statutes, are amended to read:

501.019 Health studios; penalties.—

(3) The department may institute proceedings in the appropriate circuit court to recover any penalties or damages

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

allowed in this section and for injunctive relief to enforce compliance with ss. 501.012-501.019 or any rule or order of the department. The department may seek a civil penalty in the Class II category pursuant to s. 570.971 ~~of up to $5,000~~ for each violation of this section.

(4)

(b) Upon a finding as set forth in paragraph (a), the department may enter an order doing one or more of the following:

1. Issuing a notice of noncompliance pursuant to s. 120.695.

2. For a violation of s. 501.015 or s. 501.016, imposing an administrative fine in the Class II category pursuant to s. 570.971 for each ~~not to exceed $5,000 per~~ violation.

~~3. For a violation of s. 501.013, s. 501.017, or s. 501.018, imposing an administrative fine not to exceed $500 per violation.~~

3.~~4.~~ Directing that the health studio cease and desist specified activities.

4.~~5.~~ Refusing to register or revoking or suspending a registration.

5.~~6.~~ Placing the registrant on probation for a period of 5 years, subject to such conditions as the department may specify by rule.

Section 22. Subsection (9) of section 501.059, Florida Statutes, is amended, and subsection (12) is added to that section, to read:

501.059 Telephone solicitation.—

(9)(a) The department shall investigate any complaints

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

received concerning violations of this section. If, after investigating a ~~any~~ complaint, the department finds that there has been a violation of this section, the department or the Department of Legal Affairs may bring an action to impose a civil penalty and to seek other relief, including injunctive relief, as the court deems appropriate against the telephone solicitor. The civil penalty shall be in the Class III category pursuant to s. 570.971 for each ~~may not exceed $10,000 per~~ violation and shall be deposited in the General Inspection Trust Fund if the action or proceeding was brought by the department, or the Legal Affairs Revolving Trust Fund if the action or proceeding was brought by the Department of Legal Affairs. This civil penalty may be recovered in any action brought under this part by the department, or the department may terminate any investigation or action upon agreement by the person to pay a stipulated civil penalty. The department or the court may waive any civil penalty if the person has previously made full restitution or reimbursement or has paid actual damages to the consumers who have been injured by the violation.

(b) The department may, as an alternative to the civil penalties provided in paragraph (a), impose an administrative fine in the Class I category pursuant to s. 570.971 ~~not to exceed $1,000~~ for each act or omission that constitutes a violation of this section. An administrative proceeding that could result in the entry of an order imposing an administrative penalty must be conducted pursuant to ~~in accordance with~~ chapter 120.

(12) The department may adopt rules to implement this section.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Section 23. Paragraph (a) of subsection (1) of section 501.922, Florida Statutes, is amended to read:

501.922 Violation.—

(1) The department may enter an order imposing one or more of the following penalties against any person who violates ss. 501.91-501.923 or who impedes, obstructs, or hinders the department in performing its duties under those sections:

(a) Imposition of an administrative fine in the Class II category pursuant to s. 570.971 for each ~~of not more than $1,000 per violation for a first-time offender. For a second-time or repeat offender, or any person who willfully and intentionally violates ss. 501.91-501.923, the administrative fine may not exceed $5,000 per~~ violation.

Section 24. Section 570.42, Florida Statutes, is transferred, renumbered as section 502.301, Florida Statutes, and amended to read:

502.301 ~~570.42~~ Dairy Industry Technical Council.—

(1) COMPOSITION.—The Dairy Industry Technical Council is ~~hereby~~ created within ~~in~~ the department and shall be composed of seven members as follows:

(a) Two citizens of the state, one of whom shall be associated with the Agricultural Extension Service of the University of Florida and the other with the College of Agricultural and Life Sciences ~~Agriculture~~ of the University of Florida.

(b) An employee of the Department of Health.

(c) Two dairy farmers who are actively engaged in the production of milk in this state and who earn a major portion of their income from the production of milk. The commissioner shall

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

appoint the two members ~~provided for in this paragraph~~ from no fewer than four nor more than six nominees submitted by the recognized statewide organizations representing this group. In the absence of nominations, the commissioner shall appoint other persons qualified under ~~the provisions of~~ this paragraph.

(d) Two distributors of milk. "Distributor" means any milk dealer who operates a milk gathering station or processing plant where milk is collected and bottled or otherwise processed and prepared for sale. The commissioner shall appoint the two members ~~provided for in this paragraph~~ from no fewer than four nor more than six nominees submitted by the recognized statewide organizations representing this group. In the absence of nominations, the commissioner shall appoint other persons qualified under ~~the provisions of~~ this paragraph.

(e) All members shall serve 4-year terms or until their successors are duly qualified and appointed. If a vacancy occurs, it shall be filled for the remainder of the term in the manner of an initial appointment.

(2) POWERS AND DUTIES; MEETINGS; PROCEDURES; RECORDS.—The meetings, powers and duties, procedures, and recordkeeping of the Dairy Industry Technical Council shall be pursuant to s. 570.232 ~~governed by the provisions of s. 570.0705 relating to advisory committees established within the department~~.

Section 25. Part I of chapter 570, Florida Statutes, consisting of ss. 570.01-570.232, Florida Statues, is created and entitled "General Provisions."

Section 26. Section 570.14, Florida Statutes, is renumbered as section 570.031, Florida Statutes, and amended to read:

570.031 ~~570.14~~ Seal of department.—The department shall

have an official seal which shall be used for the authentication of the orders and proceedings of the department and for such other purposes as the department may prescribe. Use of the seal or any likeness thereof requires written approval of the department.

Section 27. Section 570.18, Florida Statutes, is renumbered as section 570.041, Florida Statutes.

Section 28. Section 570.16, Florida Statutes, is renumbered as section 570.051, Florida Statutes.

Section 29. Subsection (33) of section 570.07, Florida Statutes, is amended to read:

570.07 Department of Agriculture and Consumer Services; functions, powers, and duties.—The department shall have and exercise the following functions, powers, and duties:

(33) To assist local volunteer and nonprofit organizations in soliciting, collecting, packaging, or delivering surplus fresh fruit and vegetables for distribution pursuant to s. 595.420 ~~in accordance with s. 570.0725~~. The department also may coordinate the development of food recovery programs in the production areas of the state using local volunteer and nonprofit organizations.

Section 30. Section 570.17, Florida Statutes, is renumbered as section 570.081, Florida Statutes.

Section 31. Section 570.531, Florida Statutes, is renumbered as section 570.209, Florida Statutes.

Section 32. Paragraph (d) of subsection (1) and subsection (2) of section 570.23, Florida Statutes, are amended to read:

570.23 State Agricultural Advisory Council.—

(1) COMPOSITION.—The State Agricultural Advisory Council is

hereby created in the department.

(d) ~~On or after January 15, 1988,~~ Alternates shall be appointed for each member and shall serve as alternates for the remainder of the corresponding members' terms. As terms of current members expire, members and their alternates shall be appointed for 4-year terms and shall serve until their successors are duly qualified and appointed. A vacancy shall be filled for the remainder of an unexpired term in the same manner as an initial appointment.

(2) POWERS AND DUTIES; MEETINGS; PROCEDURES; RECORDS.—The meetings, powers and duties, procedures, and recordkeeping of the State Agricultural Advisory Council shall be pursuant to s. 570.232 ~~governed by the provisions of s. 570.0705 relating to advisory committees established within the department~~.

Section 33. Section 570.0705, Florida Statutes, is renumbered as section 570.232, Florida Statutes.

Section 34. Part II of chapter 570, Florida Statutes, consisting of ss. 570.30-570.693, Florida Statutes, is created and entitled "Program Services."

Section 35. Subsection (5) of section 570.36, Florida Statutes, is amended to read:

570.36 Division of Animal Industry; powers and duties.—The duties of the Division of Animal Industry include, but are not limited to:

(5) Operating and managing the animal disease diagnostic laboratory ~~laboratories~~ provided for in chapter 585.

Section 36. Subsections (3) and (4) of section 570.44, Florida Statutes, are amended to read:

570.44 Division of Agricultural Environmental Services;

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

powers and duties.—The duties of the Division of Agricultural Environmental Services include, but are not limited to:

(3) ~~Supporting the Pesticide Review Council and~~ Reviewing and evaluating technical and scientific data associated with the production, manufacture, storage, transportation, sale, or use of any article or product with respect to any statutory authority ~~which is~~ conferred on the department. The department may ~~is authorized to~~ establish positions within the division for the employment of experts in the fields of toxicology, hydrology, and biology to conduct such reviews and evaluations and may~~. The department is also authorized to~~ establish appropriate clerical support positions to implement the duties and responsibilities of the division.

~~(4) Enforcing and implementing the responsibilities of chapter 582, and the rules relating to soil and water conservation.~~

Section 37. Subsection (2) of section 570.45, Florida Statutes, is amended to read:

570.45 Director; duties.—

(2) The director shall supervise, direct, and coordinate the activities of the division and enforce ~~the provisions of~~ chapters 388, 482, 487, 501, 504, 531, 570, 576, 578, and 580~~, and 582~~ and any other chapter necessary to carry out the responsibilities of the division.

Section 38. Paragraph (d) of subsection (3) of section 570.451, Florida Statutes, is amended to read:

570.451 Agricultural Feed, Seed, and Fertilizer Advisory Council.—

(3)

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(d) The meetings, powers and duties, procedures, and recordkeeping of the council shall be pursuant to s. 570.232 ~~in accordance with the provisions of s. 570.0705 relating to advisory committees established within the department~~.

Section 39. Subsections (2) and (3) of section 570.50, Florida Statutes, are amended to read:

570.50 Division of Food Safety; powers and duties.—The duties of the Division of Food Safety include, but are not limited to:

(2) Conducting those general inspection activities relating to food and food products being processed, held, or offered for sale in this state and enforcing those provisions of chapters 500, 501, 502, 531, 583, 585, 586, 597, and 601 relating to foods as authorized by the department.

(3) Analyzing samples of foods offered for sale in this state as required under chapters 500, 501, 502, 585, 586, 597, and 601.

Section 40. Subsection (2) of section 570.51, Florida Statutes, is amended to read:

570.51 Director; qualifications; duties.—

(2) The director shall supervise, direct, and coordinate the activities of the division and enforce the provisions of chapters 500, 501, 502, 531, 583, 585, 597, and 601 and any other chapter necessary to carry out the responsibilities of the division.

Section 41. Subsection (2) of section 570.543, Florida Statutes, is amended to read:

570.543 Florida Consumers' Council.—The Florida Consumers' Council in the department is created to advise and assist the

department in carrying out its duties.

(2) POWERS AND DUTIES; MEETINGS; PROCEDURES; RECORDS.—The meetings, powers and duties, procedures, and recordkeeping of the Florida Consumers' Council shall be pursuant to s. 570.232 ~~governed by the provisions of s. 570.0705 relating to advisory committees established within the department~~. The council members or chair may call no more than two meetings.

Section 42. Section 570.073, Florida Statutes, is renumbered as section 570.65, Florida Statutes.

Section 43. Section 570.074, Florida Statutes, is renumbered as section 570.66, Florida Statutes, and amended to read:

570.66 ~~570.074~~ Department of Agriculture and Consumer Services; Water Policy.—The commissioner may create an Office of Agricultural Water Policy under the supervision of a senior manager exempt under s. 110.205 in the Senior Management Service. The commissioner may designate the bureaus and positions in the various organizational divisions of the department that report to the ~~this~~ office relating to any matter over which the department has jurisdiction in matters relating to water policy affecting agriculture, application of such policies, and coordination of such matters with state and federal agencies. The office shall enforce and implement chapter 582 and rules relating to soil and water conservation.

Section 44. Section 570.67, Florida Statutes, is created to read:

570.67 Office of Energy.—The Office of Energy is created within the department. The office shall be under the supervision of a senior manager, appointed by the commissioner, exempt under

s. 110.205 in the Senior Management Service. The duties of the office must include, but are not limited to, administering and enforcing parts II and III of chapter 377, the rules adopted under those parts, and any other duties authorized by the commissioner.

Section 45. Section 570.951, Florida Statutes, is renumbered as section 570.681, Florida Statutes.

Section 46. Section 570.952, Florida Statutes, is renumbered as section 570.685, Florida Statutes, and amended to read:

570.685 ~~570.952~~ Florida Agriculture Center and Horse Park Authority.—

(1) There is created within the Department of Agriculture and Consumer Services the Florida Agriculture Center and Horse Park Authority which shall be governed by this section and s. 570.691 ~~s. 570.903~~.

(2) The authority shall be composed of 21 members appointed by the commissioner.

(a) Initially, the commissioner shall appoint 11 members for 4-year terms and 10 members for 2-year terms. Thereafter, each member shall be appointed for a term of 4 years from the date of appointment, except that a vacancy shall be filled by appointment for the remainder of the term.

(b) A ~~Any~~ member of the authority who fails to attend three consecutive authority meetings without good cause shall be deemed to have resigned from the authority.

~~(c) Terms for members appointed prior to July 1, 2005, shall expire on July 1, 2005.~~

(3) The Florida Agriculture Center and Horse Park Authority

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

shall ~~have the power and duty to~~:

(a) Appoint, with approval from the commissioner, an executive director for the Florida Agriculture Center and Horse Park.

(b) Establish rules of procedure for conducting its meetings and approving matters before the authority pursuant to s. 570.691 ~~that are consistent with s. 570.903~~.

(c) Develop, document, and implement strategies for the planning, construction, and operation of the Florida Agriculture Center and Horse Park.

(d) Advise and consult with the commissioner on matters related to the Florida Agriculture Center and Horse Park.

(e) Consider all matters submitted to the authority by the commissioner.

(4) The authority shall meet at least semiannually and elect a chair ~~chairperson~~, a vice chair ~~chairperson~~, and a secretary for 1-year terms.

(a) The authority shall meet at the call of its chair ~~chairperson~~, at the request of a majority of its membership, at the request of the commissioner, or at such times as may be prescribed by its rules of procedure.

(b) The department shall be responsible for providing administrative and staff support services relating to the meetings of the authority and shall provide suitable space in the offices of the department for the meetings and the storage of records of the authority.

(c) In conducting its meetings, the authority shall use accepted rules of procedure. The secretary shall keep a complete record of the proceedings of each meeting, which record shall

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

show the names of the members present and the actions taken. These records shall be kept on file with the department, and such records and other documents regarding matters within the jurisdiction of the authority shall be subject to inspection by members of the authority.

Section 47. Section 570.953, Florida Statutes, is renumbered as section 570.686, Florida Statutes.

Section 48. Section 570.902, Florida Statutes, is renumbered as section 570.69, Florida Statutes, and amended to read:

570.69 ~~570.902~~ Definitions~~; ss. 570.902 and 570.903~~.—For the purpose of this section and s. 570.691 ~~s. 570.903~~:

(1) "Designated program" means the departmental program which a direct-support organization has been created to support.

(2) "Direct-support organization" or "organization" means an organization which is a Florida corporation not for profit incorporated under ~~the provisions of~~ chapter 617 and approved by the department to operate for the benefit of a museum or a designated program.

(3) "Museum" means the Florida Agricultural Museum which is designated as the museum for agriculture and rural history of the State of Florida.

Section 49. Section 570.903, Florida Statutes, is renumbered as section 570.691, Florida Statutes.

Section 50. Section 570.901, Florida Statutes, is renumbered as section 570.692, Florida Statutes.

Section 51. Section 570.91, Florida Statutes, is renumbered as section 570.693, Florida Statutes.

Section 52. Part III of chapter 570, Florida Statutes,

consisting of ss. 570.70-570.89, Florida Statutes, is created and entitled "Agricultural Development."

Section 53. Subsections (2) and (12) of section 570.71, Florida Statutes, are amended to read:

570.71 Conservation easements and agreements.—

(2) To achieve the purposes of this section ~~act~~, ~~beginning no sooner than July 1, 2002, and every year thereafter,~~ the department may accept applications for project proposals to ~~that~~:

(a) Purchase conservation easements, as defined in s. 704.06.

(b) Purchase rural-lands-protection easements pursuant to this section ~~act~~.

(c) Fund resource conservation agreements pursuant to this section ~~act~~.

(d) Fund agricultural protection agreements pursuant to this section ~~act~~.

(12) The department may ~~is authorized to~~ use funds from the following sources to implement this section ~~act~~:

(a) State funds;

(b) Federal funds;

(c) Other governmental entities;

(d) Nongovernmental organizations; or

(e) Private individuals.

Any such funds provided shall be deposited into the Conservation and Recreation Lands Program Trust Fund within the Department of Agriculture and Consumer Services and used for the purposes of this section, including administrative and operating expenses

related to appraisals, mapping, title process, personnel, and other real estate-related expenses ~~act~~.

Section 54. Section 570.241, Florida Statutes, is transferred and renumbered as section 570.73, Florida Statutes.

Section 55. Section 570.242, Florida Statutes, is renumbered as section 570.74, and amended to read:

570.74 ~~570.242~~ Definitions relating to Agricultural Economic Development Act.—For purposes of this act, the term ~~following terms shall have the following meanings~~:

(1) "Agriculturally depressed area" means a rural area that ~~which~~ has declining profitability from agricultural enterprises and one or more of the following characteristics:

(a) A stable or declining population.

(b) A stable or declining real per capita income.

(c) A traditional economy based on agriculture or extraction of solid minerals.

(d) A low ad valorem tax base.

(e) A need for agribusiness and leadership training.

(f) Crop losses or economic depression resulting from a natural disaster or socioeconomic conditions or events that ~~which~~ negatively impact a crop.

(2) "Assistance" means financial or nonfinancial assistance issued pursuant to ~~the provisions of~~ this act.

~~(3) "Commissioner" means the Commissioner of Agriculture.~~

~~(4) "Department" means the Department of Agriculture and Consumer Services.~~

(3) ~~(5)~~ "Financial assistance" means the providing of funds to an agribusiness.

(4) ~~(6)~~ "Nonfinancial assistance" means the providing of

personnel to work with an agribusiness to establish an infrastructure, including, but not limited to, the development of an accounting system, management procedures, and a marketing plan. Nonfinancial assistance includes ~~shall also include~~ the providing of equipment.

Section 56. Section 570.243, Florida Statutes, is renumbered as section 570.75, Florida Statutes.

Section 57. Section 570.244, Florida Statutes, is renumbered as section 570.76, Florida Statutes.

Section 58. Section 570.245, Florida Statutes, is renumbered as section 570.77, Florida Statutes.

Section 59. Section 570.246, Florida Statutes, is renumbered as section 570.78, Florida Statutes.

Section 60. Section 570.247, Florida Statutes, is renumbered as section 570.79, Florida Statutes, and amended to read:

570.79 ~~570.247~~ Adoption ~~Promulgation~~ of rules.—~~In conjunction with funds specifically appropriated for the purposes specified in this act,~~ The department shall adopt ~~begin to promulgate~~ rules ~~no later than January 1, 1992, pursuant to s. 120.54,~~ pertaining to:

(1) Formal notification procedures for the availability of assistance, including publication in the Florida Administrative Register pursuant to s. 120.55.

(2) Written evaluation criteria for selecting project proposals to receive assistance. The criteria for eligibility of assistance shall include a written business plan delineating the economic viability of the proposed project, including the financial commitment by project participants and a schedule for

repayment of agricultural economic development funds.

(3) Procedures for repayment of financial assistance by an assisted agribusiness into the General Inspection Trust Fund within the department. Repayment of financial assistance shall be based upon a percentage of future profits until repayment is complete.

(4) Funding procedures for projects eligible for assistance. These procedures shall include the amount of funding, the limits and requirements for the objects of expenditure, and the duration of assistance.

(5) Other subject matter pertaining to the implementation of this act.

Section 61. Section 570.248, Florida Statutes, is renumbered as section 570.81, Florida Statutes.

Section 62. Section 570.249, Florida Statutes, is renumbered as section 570.82, Florida Statutes.

Section 63. Section 570.9135, Florida Statutes, is renumbered as section 570.83, Florida Statutes, and subsection (6) of that section is amended, to read:

570.83 ~~570.9135~~ Beef Market Development Act; definitions; Florida Beef Council, Inc., creation, purposes, governing board, powers, and duties; referendum on assessments imposed on gross receipts from cattle sales; payments to organizations for services; collecting and refunding assessments; vote on continuing the act; council bylaws.—

(6) REFERENDUM ON ASSESSMENTS.—All producers in this state shall have the opportunity to vote in a referendum to determine whether the council shall be authorized to impose an assessment of not more than $1 per head on cattle sold in the state. The

referendum shall pose the question: "Do you approve of an assessment program, up to $1 per head of cattle pursuant to section 570.83 ~~section 570.9135~~, Florida Statutes, to be funded through specific contributions that are mandatory and refundable upon request?"

(a) A referendum held under this section must be conducted by secret ballot at extension offices of the Institute of Food and Agricultural Sciences of the University of Florida or at offices of the United States Department of Agriculture with the cooperation of the department.

(b) Notice of a referendum to be held under this act must be given at least once in trade publications, the public press, and statewide newspapers at least 30 days before the referendum is held.

(c) Additional referenda may be held to authorize the council to increase the assessment to more than $1 per head of cattle. Such referendum shall pose the question: "Do you approve of granting the Florida Beef Council, Inc., authority to increase the per-head-of-cattle assessment pursuant to section 570.83 ~~section 570.9135~~, Florida Statutes, from ...(present rate)... to up to a maximum of ...(proposed rate)... per head?" Referenda may not be held more often than once every 3 years.

(d) Each cattle producer is entitled to only one vote in a referendum held under this section ~~act~~. Proof of identification and cattle ownership must be presented before voting.

(e) A simple majority of those casting ballots determines ~~shall determine~~ any issue that requires a referendum under this section ~~act~~.

Section 64. Section 570.954, Florida Statutes, is

renumbered as section 570.841, Florida Statutes.

Section 65. Section 570.96, Florida Statutes, is renumbered as section 570.85, Florida Statutes.

Section 66. Section 570.961, Florida Statutes, is renumbered as section 570.86, Florida Statutes, and amended to read:

570.86 ~~570.961~~ Definitions.—As used in ss. 570.85-570.89 ~~570.96-570.964~~, the term:

(1) "Agritourism activity" means any agricultural related activity consistent with a bona fide farm or ranch or in a working forest which allows members of the general public, for recreational, entertainment, or educational purposes, to view or enjoy activities, including farming, ranching, historical, cultural, or harvest-your-own activities and attractions. An agritourism activity does not include the construction of new or additional structures or facilities intended primarily to house, shelter, transport, or otherwise accommodate members of the general public. An activity is an agritourism activity regardless of whether ~~or not~~ the participant paid to participate in the activity.

(2) "Agritourism operator" means a ~~any~~ person who is engaged in the business of providing one or more agritourism activities, whether for compensation or not for compensation.

(3) "Farm" means the land, buildings, support facilities, machinery, and other appurtenances used in the production of farm or aquaculture products, including land used to display plants, animals, farm products, or farm equipment to the public.

(4) "Farm operation" has the same meaning as ~~defined~~ in s. 823.14.

(5) "Inherent risks of agritourism activity" means those dangers or conditions that are an integral part of an agritourism activity including certain hazards, such as surface and subsurface conditions; natural conditions of land, vegetation, and waters; the behavior of wild or domestic animals; and the ordinary dangers of structures or equipment ordinarily used in farming and ranching operations. The term also includes the potential of a participant to act in a negligent manner that may contribute to the injury of the participant or others, including failing to follow the instructions given by the agritourism operator or failing to exercise reasonable caution while engaging in the agritourism activity.

Section 67. Section 570.962, Florida Statutes, is renumbered as section 570.87, Florida Statutes.

Section 68. Section 570.963, Florida Statutes, is renumbered as section 570.88, Florida Statutes, and subsection (1) of that section is amended, to read:

570.88 ~~570.963~~ Liability.—

(1) Except as provided in subsection (2), an agritourism operator, his or her employer or employee, or the owner of the underlying land on which the agritourism occurs is not liable for injury or death of, or damage or loss to, a participant resulting from the inherent risks of agritourism activities if the notice of risk required under s. 570.89 ~~s. 570.964~~ is posted as required. Except as provided in subsection (2), a participant, or a participant's representative, may not maintain an action against or recover from an agritourism operator, his or her employer or employee, or the owner of the underlying land

on which the agritourism occurs for the injury or death of, or damage or loss to, an agritourism participant resulting exclusively from any of the inherent risks of agritourism activities.

Section 69. Section 570.964, Florida Statutes, is renumbered as section 570.89, Florida Statutes, and subsection (3) of that section is amended, to read:

570.89 ~~570.964~~ Posting and notification.—

(3) Failure to comply with ~~the requirements of~~ this section ~~subsection~~ prevents an agritourism operator, his or her employer or employee, or the owner of the underlying land on which the agritourism occurs from invoking the privileges of immunity provided by this section.

Section 70. Part IV of chapter 570, Florida Statutes, consisting of ss. 570.916-570.94, Florida Statutes, is created and entitled "Agricultural Water Policy."

Section 71. Section 570.075, Florida Statutes, is renumbered as section 570.916, Florida Statutes.

Section 72. Section 570.076, Florida Statutes, is renumbered as section 570.921, Florida Statutes, and paragraph (c) of subsection (2) of that section is amended to read:

570.921 ~~570.076~~ Environmental Stewardship Certification Program.—The department may, by rule, establish the Environmental Stewardship Certification Program consistent with this section. A rule adopted under this section must be developed in consultation with state universities, agricultural organizations, and other interested parties.

(2) The department shall provide an agricultural certification under this program for implementation of one or

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

more of the following criteria:

(c) Best management practices adopted by rule pursuant to s. 403.067(7)(c) or s. 570.93(1)(b) ~~s. 570.085(1)(b)~~.

Section 73. Section 570.085, Florida Statutes, is renumbered as section 570.93, Florida Statutes.

Section 74. Section 570.087, Florida Statutes, is renumbered as section 570.94, Florida Statutes.

Section 75. Part V of chapter 570, Florida Statutes, consisting of s. 570.971, Florida Statutes, is created and entitled "Penalties."

Section 76. Section 570.971, Florida Statutes, is created to read:

570.971 Penalties; administrative and civil.—

(1) The department or enforcing authority may impose the following fine amount for the class category specified in the chapter or section of law violated:

(a) Class I.—For each violation in the Class I category, a fine not to exceed $1,000 may be imposed.

(b) Class II.—For each violation in the Class II category, a fine not to exceed $5,000 may be imposed.

(c) Class III.—For each violation in the Class III category, a fine not to exceed $10,000 may be imposed.

(d) Class IV.—For each violation in the Class IV category, a fine of $10,000 or more may be imposed.

(2)(a) This section does not supersede a chapter or section of law or rule that limits the total fine amount that may be imposed for a violation.

(b) The class categories under this section also apply to penalties provided by rule.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(c) The penalties under this section are in addition to any other remedy provided by law.

(3) A person who violates this chapter or any rule adopted under this chapter is subject to an administrative or civil fine in the Class II category in addition to any other penalty provided by law.

(4) The department may refuse to issue or renew any license, permit, authorization, certificate, or registration to a person who has not satisfied a penalty imposed by the department.

(5) The department may adopt rules to implement this section or any section that references this section.

Section 77. Subsection (1) and paragraph (a) of subsection (2) of section 576.021, Florida Statutes, are amended to read:

576.021 Registration and licensing.—

(1) A company the ~~person whose~~ name and address of which appears upon a label and which ~~who~~ guarantees a fertilizer may not distribute that fertilizer to a nonlicensee until a license to distribute has been obtained by the company ~~that person~~ from the department upon payment of a $100 fee. All licenses shall expire on June 30 each year. An application for license shall include the following information:

(a) The name and address of the applicant.

(b) The name and address of the distribution point. The name and address shown on the license shall be shown on all labels, pertinent invoices, and storage facilities for fertilizer distributed by the licensee in this state.

(2)(a) A company the name and address of which appear upon a label and which guarantees a fertilizer ~~person~~ may not

distribute a specialty fertilizer in this state until it is registered with the department ~~by the licensee whose name appears on the label~~. An application for registration of each brand and grade of specialty fertilizer shall be filed with the department by using ~~made on~~ a form prescribed ~~furnished~~ by the department or by using the department's website and shall be accompanied by an annual fee of $100 for each specialty fertilizer that is registered. All specialty fertilizer registrations expire June 30 each year. All licensing and registration fees paid to the department under this section shall be deposited into the State Treasury to be placed in the General Inspection Trust Fund to be used for the sole purpose of funding the fertilizer inspection program.

Section 78. Subsection (2) of section 576.031, Florida Statutes, is amended to read:

576.031 Labeling.—

(2) If distributed in bulk, two ~~five~~ labels containing the information required in paragraphs (1)(a)-(f) shall accompany delivery and be supplied to the purchaser at time of delivery with the delivery ticket, which shall show the certified net weight.

Section 79. Subsections (3), (4), (6), and (7) of section 576.041, Florida Statutes, are amended to read:

576.041 Inspection fees; records~~; bond~~.—

(3) In addition to any other penalty provided by this chapter, a ~~any~~ licensee who fails to timely pay the inspection ~~tonnage~~ fee shall be assessed a penalty of 1.5 percent for each month or part of a month that the fee or portion of the fee is not paid.

(4) If the report is not filed and the inspection fee is not paid on the date due or if the report of tonnage is false, the amount of the inspection fee due is subject to a penalty of 10 percent or $25, whichever is greater. ~~The penalty shall be added to the inspection fee due and constitutes a debt and becomes a claim and lien against the surety bond or certificate of deposit required by this chapter.~~

~~(6) In order to guarantee faithful performance of the provisions of subsection (2), the applicant for license shall post with the department a surety bond, or assign a certificate of deposit, in an amount required by rule of the department to cover fees for any reporting period. The amount shall not be less than $1,000. The surety bond shall be executed by a corporate surety company authorized to do business in this state. The certificate of deposit shall be issued by any recognized financial institution doing business in the United States. The department shall establish, by rule, whether an annual or continuous surety bond or certificate of deposit will be required and shall approve each surety bond or certificate of deposit before acceptance. The department shall examine and approve as to sufficiency all such bonds and certificates of deposit before acceptance. When the licensee ceases operation, said bond or certificate of deposit shall be returned, provided there are no outstanding fees due and payable.~~

(6) ~~(7)~~ In order to obtain information that will facilitate the collection of inspection fees and serve other useful purposes relating to fertilizer, the department may, by rule, require licensees, manufacturers, registrants, and dealers to report movements of fertilizer.

Section 80. Subsection (3) of section 576.051, Florida Statutes, is amended to read:

576.051 Inspection, sampling, analysis.—

(3) The official analysis shall be made from the official sample. The department, before making the official analysis, shall take a sufficient portion from the official sample for check analysis and place that portion in a bottle sealed and identified by number, date, and the preparer's initials. The official check sample shall be kept until the analysis of the official sample is completed. However, the licensee may obtain upon request a portion of the official check sample. Upon completion of the analysis of the official sample, a true copy of the fertilizer analysis report shall be mailed to the licensee of the fertilizer from whom the official sample was taken and to the dealer or agent, if any, and purchaser, if known. This fertilizer analysis report shall show all determinations of plant nutrients ~~nutrient~~ and pesticides. If the official analysis conforms with ~~the provisions of~~ this section ~~law~~, the official check sample may be destroyed. If the official analysis does not conform with ~~the provisions of~~ this section ~~law~~, the official check sample shall be retained for 60 ~~a period of 90~~ days after ~~from~~ the date of the fertilizer analysis report of the official sample. If, within that time, the licensee of the fertilizer from whom the official sample was taken, upon receipt of the fertilizer analysis report, makes written demand for analysis of the official check sample by a referee chemist, a portion of the official check sample sufficient for analysis shall be sent to a referee chemist who is mutually acceptable to the department and the licensee for

analysis at the expense of the licensee. The referee chemist, upon completion of the analysis, shall forward to the department and to the licensee a fertilizer analysis report bearing a proper identification mark or number, ~~,~~ and the fertilizer analysis report shall be verified by an affidavit of the person making the analysis. If the results reported on the fertilizer analysis report agree within the matching criteria defined in department rule with the department's analysis on each element for which analysis was made, the mean average of the two analyses shall be accepted as final and binding on all concerned. However, if the referee's fertilizer analysis report results do not agree within the matching criteria defined in department rule with the department's analysis in any one or more elements for which an analysis was made, upon demand of either the department or the licensee from whom the official sample was taken, a portion of the official check sample sufficient for analysis shall be submitted to a second referee chemist who is mutually acceptable to the department and to the licensee from whom the official sample was taken, at the expense of the party or parties requesting the referee analysis. If no demand is made for an analysis by a second referee chemist, the department's fertilizer analysis report shall be accepted as final and binding on all concerned. The second referee chemist, upon completion of the analysis, shall make a fertilizer analysis report as provided in this subsection for the first referee chemist. The mean average of the two analyses nearest in conformity to each other shall be accepted as final and binding on all concerned.

Section 81. Subsections (4) and (5) of section 576.061,

Florida Statutes, are amended to read:

576.061 Plant nutrient investigational allowances, deficiencies, and penalties.—

~~(4) When it is determined by the department that a fertilizer has been distributed without being licensed or registered, or without labeling, the department shall require the licensee to pay a penalty in the amount of $100. The proceeds from any penalty payments shall be deposited by the department in the General Inspection Trust Fund to be used for the sole purpose of funding the fertilizer inspection program.~~

(4) ~~(5)~~ The department may enter an order imposing one or more of the following penalties against a ~~any~~ person who violates ~~any of the provisions of~~ this chapter or the rules adopted under this chapter ~~hereunder~~ or who impedes, obstructs, or hinders ~~shall impede, obstruct, hinder, or otherwise prevent or attempt to prevent~~ the department in performing ~~the performance of~~ its duties under ~~duty in connection with the provisions of~~ this chapter:

(a) Issuance of a warning letter.

(b) Imposition of an administrative fine in the Class I category pursuant to s. 570.971 for each ~~of not more than $1,000 per~~ occurrence after the issuance of a warning letter.

(c) Cancellation, revocation, or suspension of any license issued by the department.

Section 82. Section 576.071, Florida Statutes, is amended to read:

576.071 Commercial value.—The commercial value used in assessing penalties for a ~~any~~ deficiency shall be determined by surveying the fertilizer industry in the state and using

annualized plant nutrient values contained in one or more generally recognized journals.

Section 83. Subsections (3) and (4) of section 576.087, Florida Statutes, are amended to read:

576.087 Antisiphon requirements for irrigation systems.—

~~(3) The department shall establish specific requirements for antisiphon devices.~~

~~(4) Any governmental agency which requires antisiphon devices on irrigation systems used for the application of fertilizer shall use the specific antisiphon device requirements adopted by the department.~~

Section 84. Section 576.101, Florida Statutes, is amended to read:

576.101 Cancellation, revocation, and suspension~~, probationary status~~.—

~~(1)~~ The department may deny, suspend, or revoke a ~~any~~ license issued by the department for a ~~any~~ violation of ~~the provisions of~~ this chapter, the rules adopted under this chapter ~~thereunder~~, or any lawful order of the department.

~~(2) The department may place any licensee on a probationary status when the deficiency levels of samples taken from that licensee do not meet minimum performance levels established by statute within the investigational allowances provided in s. 576.061.~~

Section 85. Subsection (1) of section 578.08, Florida Statutes, is amended to read:

578.08 Registrations.—

(1) Every person, except as provided in subsection (4) and s. 578.14, before selling, distributing for sale, offering for

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

sale, exposing for sale, handling for sale, or soliciting orders for the purchase of an ~~any~~ agricultural, vegetable, flower, or forest tree seed, or mixture thereof, shall first register with the department as a seed dealer. ~~The application for registration shall include the name and location of each place of business at which the seed is sold, distributed for sale, offered for sale, exposed for sale, or handled for sale.~~ The application for registration shall be filed with the department by using a form prescribed by the department or by using the department's website and shall be accompanied by an annual registration fee for each such place of business based on the gross receipts from the sale of such seed for the last preceding license year as follows:

(a)1. Receipts of less than $500, a fee of.....$10.

2. Receipts of $500 or more but less than $1,000, a fee of.....$25.

3.~~1.~~ Receipts of $1,000 or more but less than $2,500 ~~$2,500.01~~, a fee of.....$100.

4.~~2.~~ Receipts of ~~more than~~ $2,500 or more but ~~and~~ less than $5,000 ~~$5,000.01~~, a fee of.....$200.

5.~~3.~~ Receipts of ~~more than~~ $5,000 or more but ~~and~~ less than $10,000 ~~$10,000.01~~, a fee of.....$350.

6.~~4.~~ Receipts of ~~more than~~ $10,000 or more but ~~and~~ less than $20,000 ~~$20,000.01~~, a fee of.....$800.

7.~~5.~~ Receipts of ~~more than~~ $20,000 or more but ~~and~~ less than $40,000 ~~$40,000.01~~, a fee of.....$1,000.

8.~~6.~~ Receipts of ~~more than~~ $40,000 or more but ~~and~~ less than $70,000 ~~$70,000.01~~, a fee of.....$1,200.

9.~~7.~~ Receipts of ~~more than~~ $70,000 or more but ~~and~~ less

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

than $150,000 ~~$150,000.01~~, a fee of.....$1,600.

10.~~8.~~ Receipts of ~~more than~~ $150,000 or more but ~~and~~ less than $400,000 ~~$400,000.01~~, a fee of.....$2,400.

11.~~9.~~ Receipts of ~~more than~~ $400,000 or more, a fee of.....$4,600.

(b) For places of business not previously in operation, the fee shall be based on anticipated receipts for the first license year.

Section 86. Paragraph (g) of subsection (2) of section 580.036, Florida Statutes, is amended to read:

580.036 Powers and duties.—

(2) The department is authorized to adopt rules pursuant to ss. 120.536(1) and 120.54 to enforce the provisions of this chapter. These rules shall be consistent with the rules and standards of the United States Food and Drug Administration and the United States Department of Agriculture, when applicable, and shall include:

(g) Establishing standards for the sale, use, and distribution of commercial feed or feedstuff to ensure usage that is consistent with animal safety and well-being and, to the extent that meat, poultry, and other animal products for human consumption may be affected by commercial feed or feedstuff, to ensure that these products are safe for human consumption. Such standards, if adopted, must be developed in consultation with the Agricultural Feed, Seed, and Fertilizer Advisory Council created under s. 570.451.

Section 87. Paragraphs (a), (b), and (d) of subsection (1) of section 580.041, Florida Statutes, are amended to read:

580.041 Master registration; fee; refusal or cancellation

of registration; reporting.—

(1)(a) Each distributor of commercial feed must annually obtain a master registration before her or his brands are distributed in this state. Upon initial registration, ~~The department shall furnish the registration forms requiring~~ the distributor shall agree to ~~state that the distributor will~~ comply with ~~all provisions of~~ this chapter and applicable rules. ~~The registration form shall identify the manufacturer's or guarantor's name and place of business and the location of each manufacturing facility in the state and shall be signed by the owner; by a partner, if a partnership; or by an authorized officer or agent, if a corporation.~~ All registrations expire on June 30 of each year.

(b) The application for registration ~~form~~ shall be filed with the department by using a form prescribed by the department or by using the department's website and shall be accompanied by a fee ~~that shall be~~ based on tons of feed distributed in this state during the previous year. If a distributor has been in business less than 1 year, the tonnage shall be estimated by the distributor for the first year and based on actual tonnage thereafter. These fees shall be as follows:

SALES IN TONS	FEE
Zero, up to and including 25	$40
More than 25, up to and including 50	$75
More than 50, up to and including 100	$150
More than 100, up to and including 300	$375
More than 300, up to and including 600	$600

More than 600, up to and including 1,000.....$900

More than 1,000, up to and including 2,000.....$1,250

More than 2,000, up to and including 5,000.....$2,000

More than 5,000.....$3,500

(d) The department shall provide ~~mail~~ a copy of the master registration to the registrant to signify that administrative requirements have been met.

Section 88. Subsection (1) of section 580.071, Florida Statutes, is amended to read:

580.071 Adulteration.—No person shall distribute an adulterated commercial feed or feedstuff. A commercial feed or feedstuff shall be deemed to be adulterated:

(1)(a) If it bears or contains any poisonous, deleterious, or nonnutritive substance that may render it injurious to animal or human health. However, if the substance is not an additive, the feed shall not be considered adulterated if the quantity of the substance does not ordinarily render it injurious to animal or human health;

(b) If it bears or contains any food additive or added poisonous, deleterious, or nonnutritive substance that is unsafe within the meaning of s. 406 of the Federal Food, Drug, and Cosmetic Act, other than a pesticide chemical in or on a raw agricultural commodity;

(c) If it is, or it bears or contains, any food additive or color additive that is unsafe within the meaning of s. 409 or s. 512 of the Federal Food, Drug, and Cosmetic Act, respectively;

(d) If it is a raw agricultural commodity and it bears or

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

contains a pesticide chemical that is unsafe within the meaning of s. 408(a) of the Federal Food, Drug, and Cosmetic Act; however, if ~~where~~ a pesticide chemical has been used in or on a raw agricultural commodity in conformity with an exemption granted or a tolerance prescribed under s. 408 of the Federal Food, Drug, and Cosmetic Act and that raw agricultural commodity has been subjected to processing such as canning, cooking, freezing, dehydrating, or milling, the processed feed will result, or is likely to result, in pesticide residue in the edible product of the animal which is unsafe within the meaning of s. 408(a) of the Federal Food, Drug, and Cosmetic Act; ~~or~~

(e) If it is, or it bears or contains, a ~~any~~ new animal drug that is unsafe within the meaning of s. 512 of the Federal Food, Drug, and Cosmetic Act; ~~.~~

(f) If it consists, in whole or in part, of a filthy, putrid, or decomposed substance, or if it is otherwise unfit for feed;

(g) If it is prepared, packaged, or held under unsanitary conditions whereby it may have become contaminated with filth, or may have been rendered injurious to health; or

(h) If it is, in whole or in part, the product of a diseased animal or of an animal that died by a means other than slaughter which is unsafe within the meaning of s. 402(a)(1) or (2) of the Federal Food, Drug, and Cosmetic Act.

Section 89. Subsection (5) of section 581.091, Florida Statutes, is amended to read:

581.091 Noxious weeds and infected plants or regulated articles; sale or distribution; receipt; information to department; withholding information.—

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(5)(a) Notwithstanding any other ~~provision of state~~ law or rule, a person may obtain a special permit from the department to plant *Casuarina cunninghamiana* as a windbreak for a commercial citrus grove if ~~provided~~ the plants are produced in an authorized registered nursery and certified by the department as being vegetatively propagated from male plants. ~~A "commercial citrus grove" means a contiguous planting of 100 or more citrus trees where citrus fruit is produced for sale.~~

~~(b) For a 5-year period, special permits authorizing a person to plant *Casuarina cunninghamiana* shall be issued only as part of a pilot program for fresh fruit groves in areas of Indian River, St. Lucie, and Martin Counties where citrus canker is determined by the department to be widespread. The pilot program shall be reevaluated annually, and a comprehensive review shall be conducted in 2013. The purpose of the annual and 5-year reviews is to determine if the use of *Casuarina cunninghamiana* as an agricultural pest and disease windbreak poses any adverse environmental consequences. At the end of the 5-year pilot program, if the Noxious Weed and Invasive Plant Review Committee, created by the department, and the Department of Environmental Protection, in consultation with a representative of the citrus industry who has a *Casuarina cunninghamiana* windbreak, determine that the potential is low for adverse environmental impacts from planting *Casuarina cunninghamiana* as windbreaks, the department may, by rule, allow the use of *Casuarina cunninghamiana* windbreaks for commercial citrus groves in other areas of the state. If it is determined at the end of the 5-year pilot program that additional time is needed to further evaluate *Casuarina cunninghamiana*, the department will remain the lead agency.~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(b) ~~(c)~~ Each application for a special permit must ~~shall~~ be accompanied by a fee in an amount determined by ~~the~~ department~~,~~ ~~by~~ rule, not to exceed $500. A special permit is ~~shall be~~ required for each noncontiguous commercial citrus grove and shall be renewed every 5 years. The property owner shall maintain and produce ~~is responsible for maintaining and producing~~ for inspection the original nursery invoice with certification documentation. If ownership of the property is transferred, the seller shall ~~must~~ notify the department and provide the buyer with a copy of the special permit and copies of all invoices and certification documentation before ~~prior to~~ the closing of the sale.

(c) ~~(d)~~ Each application must ~~shall~~ include a baseline survey of all lands within 500 feet of the proposed *Casuarina cunninghamiana* windbreak showing the location and identifying the ~~identification to~~ species of ~~all~~ existing *Casuarina spp.*

(d) ~~(c)~~ Nurseries authorized to produce *Casuarina cunninghamiana* shall ~~must~~ obtain a special permit from the department certifying that the plants have been vegetatively propagated from sexually mature male source trees currently grown in the state. The importation of *Casuarina cunninghamiana* from any area outside the state for use ~~to be used~~ as a propagation source tree is prohibited. Each male source tree must be registered by the department as being a horticulturally true-to-type male plant and be labeled with a source tree registration number. Each nursery application for a special permit must ~~shall~~ be accompanied by a fee in an amount determined by ~~the~~ department~~, by~~ rule, not to exceed $200.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Special permits shall be renewed annually. The department shall, by rule, set the amount of an annual fee, not to exceed $50, for each *Casuarina cunninghamiana* registered as a source tree. ~~Nurseries may only sell *Casuarina cunninghamiana* to a person with a special permit as specified in paragraphs (a) and (b).~~ The source tree registration numbers of the parent plants must be documented on each invoice or other certification documentation provided to the buyer.

(e)~~(f)~~ All *Casuarina cunninghamiana* shall ~~must~~ be destroyed by the property owner within 6 months after:

1. The property owner takes permanent action to no longer use the site for commercial citrus production;

2. The site has not been used for commercial citrus production for a period of 5 years; or

3. The department determines that the *Casuarina cunninghamiana* on the site has become invasive. This determination shall be based on, but not limited to, the recommendation of the Noxious Weed and Invasive Plant Review Committee and the Department of Environmental Protection and made in consultation with a representative of the citrus industry who has a *Casuarina cunninghamiana* windbreak.

If the owner or person in charge refuses or neglects to comply, the director or her or his authorized representative may, under authority of the department, ~~proceed to~~ destroy the plants. The expense of the destruction shall be assessed, collected, and enforced against the owner by the department. If the owner does not pay the assessed cost, the department may record a lien against the property.

(f)~~(g)~~ The use of *Casuarina cunninghamiana* for windbreaks does ~~shall~~ not preclude the department from issuing permits for the research or release of biological control agents to control *Casuarina spp.* as provided in ~~in accordance with~~ s. 581.083.

(g)~~(h)~~ The use of *Casuarina cunninghamiana* for windbreaks may ~~shall~~ not restrict or interfere with any other agency or local government effort to manage or control noxious weeds or invasive plants, including *Casuarina cunninghamiana*. An~~, nor shall any other~~ agency or local government may not remove any *Casuarina cunninghamiana* planted as a windbreak under special permit issued by the department.

~~(i) The department shall develop and implement a monitoring protocol to determine invasiveness of *Casuarina cunninghamiana*. The monitoring protocol shall, at a minimum, require:~~

~~1. Inspection of the planting site by department inspectors within 30 days following initial planting or any subsequent planting of *Casuarina cunninghamiana* to ensure the criteria of the special permit have been met.~~

~~2. Annual site inspections of planting sites and all lands within 500 feet of the planted windbreak by department inspectors who have been trained to identify *Casuarina spp.* and to make determinations of whether *Casuarina cunninghamiana* has spread beyond the permitted windbreak location.~~

~~3. Any new seedlings found within 500 feet of the planted windbreak to be removed, identified to the species level, and evaluated to determine if hybridization has occurred.~~

~~4. The department to submit an annual report and a final 5-year evaluation identifying any adverse effects resulting from the planting of *Casuarina cunninghamiana* for windbreaks and~~

~~documenting all inspections and the results of those inspections to the Noxious Weed and Invasive Plant Review Committee, the Department of Environmental Protection, and a designated representative of the citrus industry who has a *Casuarina cunninghamiana* windbreak.~~

~~(j) If the department determines that female flowers or cones have been produced on any *Casuarina cunninghamiana* that have been planted under a special permit issued by the department, the property owner shall be responsible for destroying the trees. The department shall notify the property owner of the timeframe and method of destruction.~~

~~(k) If at any time the department determines that hybridization has occurred during the pilot program between *Casuarina cunninghamiana* planted as a windbreak and other *Casuarina spp.*, the department shall expeditiously initiate research to determine the invasiveness of the hybrid. The information obtained from this research shall be evaluated by the Noxious Weed and Invasive Plant Review Committee, the Department of Environmental Protection, and a designated representative of the citrus industry who has a *Casuarina cunninghamiana* windbreak. If the department determines that the hybrids have a high potential to become invasive, based on, but not limited to, the recommendation of the Noxious Weed and Invasive Plant Review Committee, the Department of Environmental Protection, and a designated representative of the citrus industry who has a *Casuarina cunninghamiana* windbreak, this pilot program shall be permanently suspended.~~

~~(l) Each application for a special permit must be accompanied by a fee as described in paragraph (c) and an~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~agreement that the property owner will abide by all permit conditions including the removal of *Casuarina cunninghamiana* if invasive populations or other adverse environmental factors are determined to be present by the department as a result of the use of *Casuarina cunninghamiana* as windbreaks. The application must include, on a form provided by the department, the name of the applicant and the applicant's address or the address of the applicant's principal place of business; a statement of the estimated cost of removing and destroying the *Casuarina cunninghamiana* that is the subject of the special permit; and the basis for calculating or determining that estimate. If the applicant is a corporation, partnership, or other business entity, the applicant must also provide in the application the name and address of each officer, partner, or managing agent. The applicant shall notify the department within 30 business days of any change of address or change in the principal place of business. The department shall mail all notices to the applicant's last known address.~~

1. Upon obtaining a permit, the permitholder must annually maintain the *Casuarina cunninghamiana* authorized by a special permit as required in the permit. If the permitholder ceases to maintain the *Casuarina cunninghamiana* as required by the special permit, if the permit expires, or if the permitholder ceases to abide by the conditions of the special permit, the permitholder must ~~shall~~ remove and destroy the *Casuarina cunninghamiana* in a timely manner as specified in the permit.

2. If the department:

a. Determines that the permitholder is no longer maintaining the *Casuarina cunninghamiana* subject to the special

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

permit and has not removed and destroyed the *Casuarina cunninghamiana* authorized by the special permit;

b. Determines that the continued use of *Casuarina cunninghamiana* as windbreaks presents an imminent danger to public health, safety, or welfare; or

c. Determines that the permitholder has exceeded the conditions of the authorized special permit,~~;~~

the department may issue an immediate final order, which is ~~shall be~~ immediately appealable or enjoinable pursuant to ~~as provided by~~ chapter 120, directing the permitholder to immediately remove and destroy the *Casuarina cunninghamiana* authorized to be planted under the special permit. A copy of the immediate final order shall be provided ~~mailed~~ to the permitholder.

3. If, upon issuance by the department of an immediate final order to the permitholder, the permitholder fails to remove and destroy the *Casuarina cunninghamiana* subject to the special permit within 60 days after issuance of the order~~,~~ or such shorter period as is designated in the order as public health, safety, or welfare requires, the department may remove and destroy the *Casuarina cunninghamiana* that are the subject of the special permit. If the permitholder makes a written request to the department for an extension of time to remove and destroy the *Casuarina cunninghamiana* that demonstrates specific facts showing why the *Casuarina cunninghamiana* could not reasonably be removed and destroyed in the applicable timeframe, the department may extend the time for removing and destroying *Casuarina cunninghamiana* subject to a special permit. The
