1	GOVERNOR, EXECUTIVE OFFICE																
2	EXECUTIVE DIR/SUPPORT SVCS	The Office of Tourism, Trade, and Economic Development was created to assist the Governor in working with the Legislature, state agencies, business leaders, and economic development professionals to formulate and implement coherent and consistent policies and strategies designed to provide economic opportunities for all Floridians. The office performs the key functions of contract management, incentive program administration, regulatory streamlining, and policy analysis and supports a full range of state programs aimed at improving the Florida economy. OTTED provides funding through performance based contracts to the public/private partners of Enterprise Florida, Visit Florida, the Florida Sports Foundation, Space Florida, and the Black Business Investment Board. OTTED also provides economic development incentives to local entities through programs such as the road fund, the Qualified Target Industries Program, and the Rural and Defense Infrastructure Programs. The Office of Film and Entertainment is also created within OTTED.

17	ECONOMIC DEV PGMS & PROJ	It is the goal of the state's economic development strategy to facilitate the productivity and growth of Florida's businesses, thereby enhancing the private sector's ability to expand and create quality jobs. The State of Florida has an important role to play in this job creation scenario by providing a business climate in which Florida's businesses can be competitive and productive with minimal government interference. Maintaining the economic viability of critical Florida industries is a top priority, with particular emphasis on the information technology, aviation, aerospace, defense, simulation, health care technology, tourism, sports, and film and entertainment industries. One element of Florida's economic development strategy is to retain and strengthen existing Florida businesses, while also marketing the state as a dynamic location for businesses that wish to relocate their operations to Florida. The Governor's economic development strategies also include supporting key infrastructure projects to assist in retaining and growing the state's significant space industry, military and defense facilities, and improving the competitiveness of our urban and rural communities.

61	EMERG PREV/PREP/RESPONSE	<p>The Division of Emergency Management is statutorily identified in Section 252.311, Florida Statutes, to promote the state's emergency preparedness, response, recovery and mitigation capabilities through enhanced coordination, long-term planning, and providing effective, coordinated, and timely support to communities and the public. The Division of Emergency Management is given the responsibility under Section 252.35, Florida Statutes, of maintaining a comprehensive statewide program of emergency management. This entails preparing the state comprehensive emergency management plan to include an evacuation component, sheltering component, postdisaster response and recovery component, coordinated and expeditious deployment of state resources in case of a major disaster, communication and warning systems, exercise guidelines and schedules, and additional components that address the preparedness, response, recovery and mitigation aspects of the division. As defined in Chapter 252, Part II, Florida Statutes, the Division of Emergency Management has the responsibility of implementing the federal Emergency Planning and Community Right to Know Act and Risk Management Planning Act. These programs ensure procedure are in place to prevent, prepare for and respond to incidents involving hazardous materials.</p> <p><u>Emergency Management Performance Grant (EMPG)</u> - the Division also uses the EMPG funds to pay salaries as well as fund the 67 county emergency management programs.</p> <p><u>United States Department of Transportation (US DOT)</u> - funds ensure procedures are in place to prevent, prepare for and respond to incidents involving hazardous materials.</p> <p><u>Shelter Retrofit</u> - funds are used to enhance structures for use as hurricane shelters.</p> <p><u>Power Plants</u> - funds provide the development of plans and the cost of training and exercises needed to prepare in the event of a nuclear event.</p> <p><u>National Oceanic and Atmospheric Agency (NOAA)</u> - funds provide an "All-Hazards Warning and Alerting System for 14 Florida Counties. Each of these counties will have the ability to rapidly and effectively provide emergency warnings or dangerous conditions to citizens and residents when existing alerting and warning systems cannot be heard or are ineffective or unavailable.</p> <p><u>Public Assistance</u> - funds are used to return public owned property (buildings, bridges, road, etc.) to preexisting conditions after a disaster.</p> <p><u>Hazard Mitigation Programs</u> - funds are used to enhance structures or otherwise upgrade property to reduce or eliminate the impact of disasters. These specific programs are the Hazard Mitigation Grant Program, Flood Mitigation Assistance Program, National Flood Insurance Program, Repetitive Flood Claims, Severe Repetitive Loss, Residential Construction Mitigation Program, and the Pre-Disaster Mitigation Program.</p> <p><u>Domestic Security Programs</u> - funds provide assistance to build capabilities at the state and local levels and to implement the goals and objectives included in the State Homeland Security strategies and initiatives. The specific programs are the State Homeland Security Grant Program, Transit Security Grant Program, Buffer Zone Protection Program, Urban Area Security Initiatives, Emergency Operations Center Grant Program.</p>

192	HISTORICAL RESOURCES	<p>The Mission of the Florida Division of Historical Resources is to inspire a love of history through preservation and education. To fulfill this Mission, the Division will identify, document, protect, preserve, interpret and promote Florida's historical, archaeological, and folklife resources; nurture an understanding of Florida's diverse cultural fabric; and promote Florida's role in regional, national, and international history, cultivate connections between people and place, encourage engagement, curiosity, and the exchange of ideas, support community enhancement and quality of life through history, facilitate the success of history partners and practitioners, articulate and disseminate a state wide case for the value of history, be a leader in the fields of public service and history. Florida's historic structures and archaeological sites are major contributors to the quality of life enjoyed by residents and visitors. They have substantial economic and educational value, contribute to urban revitalization, serve as a source of recreation and provide Floridians with important tangible links to their heritage. This service administers and coordinates support for archaeological research, management of archaeological sites, The Florida Folklife Program, and the preservation of historic sites and properties in the state.</p> <p><u>Bureau of Historic Preservation:</u> Florida National Register of Historic Places nominations reviewed for submission to the National Park Service; Florida Main Street Program and Certified Local Government Program; State Folklorist and Florida Folklife Program; State Historic Preservation Officer; Great Floridians Program; State Historical Markers; Compliance Review of federal and state projects for impact to historical resources; Statewide Master Site File of historic structures and archaeological sites; Manage federal grants for historic preservation activities and monitor subgrants to local constituents; Manage The Grove, state property adjacent to the Governor's Mansion— formerly the home of Governors Richard Keith Call and LeRoy Collins; Multiple statutory advisory councils and citizen support organizations.</p> <p><u>Bureau of Archaeological Research:</u> State Archaeologist – jurisdiction for managing unmarked human remains and burials for individuals who have been dead 75 years or more; Manage Mission San Luis in Tallahassee; Coordinate interpretive program for Miami Circle Heritage Park; Conduct archaeological surveys and excavations; Coordinate the state's Underwater Archaeological Preserves; Provide training to state land managers and others on the protection of historical and cultural resources; Manage exploration and recovery permits of historic shipwreck sites and research permits for excavation and surface reconnaissance on state lands; Curate the state's archaeological collection and operate the state archaeology laboratory.</p>

256	CULTURAL AFFAIRS	<p>Access is the Division's central goal for cultural projects. Activities are designed to guide, encourage, develop, and promote Florida's rich cultural assets; and to support and develop our rapidly growing not-for-profit cultural industry, one of the fastest growing segments of Florida's tourism industry. To facilitate further growth of this industry, a variety of services are provided to other state agencies, cultural organizations, and directly to citizens. The cultural support and development grant program administered by the Division fosters a receptive climate for cultural programs and the arts, increases access, improves quality of life, and generates increased economic benefits to the state through tourism. The state's commitment to funding is essential to maintain local cultural programs and the ability to leverage local funding makes these grants particularly cost-effective. The Museum of Florida History, located in the R.A. Gray Building, improves the quality of life for Floridians through research, study, and understanding the past. Museum exhibits, statewide educational programming, and community outreach are the Museum's major activities as well as the preservation and maintenance of historical objects reflecting the diverse range of Florida's social, cultural, and political history. The ability to leverage local funding makes the grants provided by this division particularly cost-effective for the State.</p> <p>This division: Manages the Museum of Florida History and the Knott House Museum; Curates and manages the state's history museum collections; Manages the state art collection and Capitol Complex Exhibition Program; Coordinates Florida Artists Hall of Fame and Arts Recognition Program; Manages federal grants for cultural and museum activities, and monitors grants to local constituents; Coordinates statewide cultural heritage programs such as Florida History Fair, Poetry Out Loud competition, Black History Month, Hispanic Heritage Month, Women's History Month, Florida Heritage Month; Supports multiple statutory advisory councils and citizen support organizations; Assists state agencies in complying with the Art in State Buildings Program; Provides ongoing information programs for individual artists and non-profit cultural organizations via webinars, workshops and teleconference.</p>

288	COMMUNITY AFFAIRS, DEPT OF																
289	LAND ADMINISTRATION																
<p>The Florida Communities Trust provides land acquisition grants to local governments and eligible nonprofit organizations to acquire parks, open space, greenways and projects supporting Florida's seafood harvesting and aquaculture industries. The funding source for the parks and open-space grant program is 21 percent of annual Florida Forever bond proceeds, as directed by the Florida Forever Act, Section 259.105, Florida Statutes. The funding source for the Stan Mayfield Working Waterfronts grant program is 2.5 percent of the total Florida Forever bond proceeds, also provided for in Section 259.105, Florida Statutes. Pursuant to Chapter 380, Florida Statutes, the Florida Communities Trust assists communities in strengthening local comprehensive plans through the competitive criteria in the conservation land acquisition grant program. Without the parks and open-space grant program, communities would lose potential funding for land acquisition and activities that implement goals, policies, and objectives of the conservation, recreation, and open space elements of local comprehensive plans. Further, Floridians would not receive the benefits provided by natural resource conservation and outdoor recreation, which include public health and economic benefits to communities. Annual grant requests for the traditional parks and open-space program always exceed actual funds available. The creation of the Stan Mayfield Working Waterfronts Florida Forever grant program by the 2008 Florida Legislature acknowledges the importance of the traditional seafood harvesting and aquaculture industries in Florida. A lack of funding for this program would jeopardize the continuation of an important element of Florida's heritage and would have a negative economic impact on traditional working waterfront communities.</p> <p>Programs administered by this budget entity include: Florida Communities Trust; Parks and Open Space grant program; Stan Mayfield Working Waterfronts grant program.</p>

326	COMMUNITY PLANNING																
<p>The Division of Community Planning plays the lead role in implementing the state's local comprehensive planning, Developments of Regional Impact, and Areas of Critical State Concern programs in accordance with Chapters 163 and 380, Florida Statutes, and related rules. This role includes oversight of local government comprehensive plans and large developments with multi-county impacts on public services. Recent Legislative changes have placed increased emphasis on planning for capital improvements, public school facilities, alternative water supply, transportation facilities, and planning issues relating to climate change and transportation concurrency exception areas. The Division has implemented a multi-year interagency technical assistance effort to assist local governments with revising their comprehensive plans to meet new sustainable economic development opportunities. Other Division programs that address community planning and development issues include Coastal Zone Consistency Review, the Waterfronts Florida Partnership, springs protection, military base compatibility, and planning for long-term recovery from disasters.</p> <p>Programs administered by this budget entity include: Comprehensive Planning (Comprehensive Plan and Plan Amendment Review, Local Government Comprehensive Planning Certification, Evaluation and Appraisal Reports, Optional Sector Planning, Rural Land Stewardship Program, Wekiva Parkway and Protection); Developments of Regional Impact; Plan Processing (Comprehensive Plan Review Tracking and Monitoring, File and Records Management, Homeowner's Covenants, State Clearinghouse and Federal Consistency Review); Areas of Critical State Concern; Transportation Planning; Military Base Encroachment; Rural and Natural Resource Planning (Rural Economic Development Initiative, Geographic Information Systems); Community Resiliency (formerly Waterfronts Florida and Post-Disaster Redevelopment Programs); Local Government Technical Assistance.</p>

347	EMERGENCY MANAGEMENT	<p>The Division of Emergency Management is statutorily identified in Section 252.311, Florida Statutes, to promote the state's emergency preparedness, response, recovery and mitigation capabilities through enhanced coordination, long-term planning, and providing effective, coordinated, and timely support to communities and the public. The Division of Emergency Management is given the responsibility under Section 252.35, Florida Statutes, of maintaining a comprehensive statewide program of emergency management. This entails preparing the state's comprehensive emergency management plan to include an evacuation component, sheltering component, postdisaster response and recovery component, coordinated and expeditious deployment of state resources in case of a major disaster, communication and warning systems, exercise guidelines and schedules, and additional components that address the preparedness, response, recovery and mitigation aspects of the division. As defined in Chapter 252, Part II, Florida Statutes, the Division of Emergency Management has the responsibility of implementing the federal Emergency Planning and Community Right to Know Act and Risk Management Planning Act. These programs ensure procedure are in place to prevent, prepare for and respond to incidents involving hazardous materials.</p> <p><u>Emergency Management Performance Grant (EMPG)</u> - the Division also uses the EMPG funds to pay salaries as well as fund the 67 county emergency management programs.</p> <p><u>United States Department of Transportation (US DOT)</u> - funds ensure procedures are in place to prevent, prepare for and respond to incidents involving hazardous materials.</p> <p><u>Shelter Retrofit</u> - funds are used to enhance structures for use as hurricane shelters.</p> <p><u>Power Plants</u> - funds provide the development of plans and the cost of training and exercises needed to prepare in the event of a nuclear event.</p> <p><u>National Oceanic and Atmospheric Agency (NOAA)</u> - funds provide an "All-Hazards Warning and Alerting System for 14 Florida Counties. Each of these counties will have the ability to rapidly and effectively provide emergency warnings or dangerous conditions to citizens and residents when existing alerting and warning systems cannot be heard or are ineffective or unavailable.</p> <p><u>Public Assistance</u> - funds are used to return public owned property (buildings, bridges, road, etc.) to preexisting conditions after a disaster.</p> <p><u>Hazard Mitigation Programs</u> - funds are used to enhance structures or otherwise upgrade property to reduce or eliminate the impact of disasters. These specific programs are the Hazard Mitigation Grant Program, Flood Mitigation Assistance Program, National Flood Insurance Program, Repetitive Flood Claims, Severe Repetitive Loss, Residential Construction Mitigation Program, and the Pre-Disaster Mitigation Program.</p> <p><u>Domestic Security Programs</u> - funds provide assistance to build capabilities at the state and local levels and to implement the goals and objectives included in the State Homeland Security strategies and initiatives. The specific programs are the State Homeland Security Grant Program, Transit Security Grant Program, Buffer Zone Protection Program, Urban Area Security Initiatives, Emergency Operations Center Grant Program.</p>

428	AFFORD HOUSING/NEIGHB REDV																
	Funding for programs appropriated within Affordable Housing and Neighborhood Redevelopment is used for rehabilitation of low-income housing, public infrastructure in low-income neighborhoods, job creation for low-income residents, revitalization of commercial areas serving low income residents, and revitalization of distressed neighborhoods. The Community Development Block Grant serves 48 rural counties and 196 small cities for a total of 244 eligible local governments. While large urban counties known as entitlements receive similar funding directly from the federal government, DCA's program does serve some small cities within those entitlement counties that have opted out of the urban entitlement program as well as any community in the state that receives a federally declared disaster designation.																
	Programs administered by this budget entity include: Small Cities Community Development Block Grant Program; Small Cities Community Development Block Grant Disaster Recovery Program; Small Cities Community Development Block Grant (NSP) Neighborhood Stabilization Program; Special District Information Program.

454																	
455	BLDG CODE COMPL/HAZARD MIT	Funding for programs appropriated within Building Code Compliance is designed to improve the built environment by adopting unified building codes and overseeing the production of manufactured buildings installed in the State of Florida. As a result of adopting and implementing the Florida Building Code, we expect to maintain the present Insurance Service Organization rating of Florida's local governments, with 84% rating 1 - 4. Adopting and enforcing a good code ensures Floridians live and work in buildings that are safe and will withstand wind, fire, and other threats. Programs administered by this budget entity include: Florida Building Code Program; Manufactured (Modular) Building Program; Product Approval Program.

472																	
473	PUB SVC/ENERGY INITIATIVES	Funding for programs appropriated within Public Service/Energy Initiatives is provided to serve the low-income households of Florida. The services are provided at the local level by contracting with a network of local governments and community-based organizations. With minor exceptions, the programs are provided statewide. The Community Services Block Grant works with low-income clients to attain the skills, knowledge and motivation necessary to achieve self-sufficiency. It also provides low-income people with immediate life necessities such as food and shelter and medicine. The Low-Income Home Energy Assistance Program provides assistance with home energy bill payments. The Weatherization Assistance Program assists low-income households in making energy saving improvements to their homes. Without these programs and services, many low-income citizens would not be able to maintain their residence and be productive members of the community. Programs administered by this budget entity include: Low-Income Home Energy Assistance Program; Community Services Block Grant Program; Weatherization Assistance Program.

Safe, decent housing is a critical issue for all Floridians, with an increasing number of households unable to afford housing. Statewide in 2010, 618,814 low-income, renter households paid more than 40% of their income for housing. Affordable housing finance assists in providing housing to very low-, low- and moderate income Floridians, because these households have the most difficulty finding homes that are affordable and decent, and are located in areas with access to employment and services. Pursuant to Chapter 420, F.S. Florida Housing implements Partnership program, which provides assistance to local governments for needs outlined in local housing plans. Without state appropriations from the housing trust funds, Florida must rely on federal resources to finance rental housing. Lower investment pricing for tax credits and limited investor interest in federal tax-exempt mortgage revenue bonds, make it extremely difficult to fully use these available federal programs in the current investment climate. State funding is critical in Florida Housing's work to aging rental housing, provide new rental housing in underserved areas, and provide down payment assistance to help qualified borrowers purchase homes which will in turn help decrease the glut of single family housing units for sale.																	
Florida Housing's state funded programs include both rental and homeownership programs. Programs that fall under the program "Affordable Housing Finance" include:																	
State Apartment Incentive Loan Program - Provides gap financing for development and preservation of rental housing.																	
Elderly Housing Community Loan Program - Provides loans to make life safety or security related improvements to existing affordable elderly rental housing.																	
Homeownership Assistance Program - Provides zero percent, non-amortizing loans for downpayment assistance and closing costs in conjunction with the First Time Homebuyer Program.																	
State Housing Initiatives Partnership Program - Provides funds to all county local governments and Florida's larger cities on a population-based formula to finance and preserve affordable housing for very low, low and moderate income families based on locally adopted housing plans.																	
Predevelopment Loan Program - Provides loans and technical assistance to nonprofit organizations, local governments and public housing authorities for predevelopment activities such as rezoning, engineering and legal fees, impact fees, appraisals and land acquisition expenses.																	
Affordable Housing Catalyst Program - Provides onsite and telephone technical assistance and training statewide to nonprofit organizations, local governments and public housing authorities on affordable housing programs being implemented in Florida.																	
Florida Housing Data Clearinghouse - Created in 2001 to provide the public, including local and state government, builders and developers, and community based organizations, with access to data on housing need and supply from a variety of sources.																	
Affordable Housing Study Commission - A standing commission created in 1986 to evaluate affordable housing policy issues and programs and recommend public policy changes to the Governor and Legislature to promote the production, preservation and maintenance of affordable housing.																	
Florida Affordable Housing Guarantee Program - Provides credit enhancement on tax-exempt and taxable bond developments to lower overall borrowing costs and thus allow the development to provide housing for low income families. State funds have been used for debt service payments on the bonds issued to capitalize the Guarantee Program.

649	EXECUTIVE DIR/SUPPORT SVCS	This service provides administrative and support services to assist in the agency operation. Resources contained in this service provide direct support to the Department through overall management of the Department in the attainment of goals and objectives; acquisition of personnel, consultant and material resources; and direct support for the production offices through financial, legal and other support services. These include activities such as legal services, construction lettings, contractual services, reprographics, mail services, etc. No organization can function without leadership and the provision of routine administrative services. Services are provided to both internal customers (Department employees) and external customers (Governor's Office, Legislature, contractors, consultants, local governments, general public, etc.). Services are primarily, not exclusively, by state employees. The department would not be able to accomplish its mission without leadership and administrative support. The Department is in a state of change and is facing many challenges: increased demands for transportation services, doing more with less and increasing our productivity. Without executive direction, these challenges could not be met. Leadership is critical to keeping department resources focused during this time of change and the quality administrative support systems must be in place to support the needs of the production and operational units.

688	INFORMATION TECHNOLOGY	The purpose of this service is to provide timely, economical, and effective data processing services in support of Department programs. This service supports the Department by managing an automated processing environment that must be reliable, secure, cost-effective, and responsive. Resources contained in this service provide for the processing, storage and retrieval of data; system development and maintenance; statewide computer network management; information security administration; and general information services supporting the Department. Various information technology services are produced by contract and state employees. Information technology services provided include the collection, processing, storage, and reporting of transportation data across a supported information technology communications infrastructure; hardware and software support for end-user processing; security and quality assurance of systems; and customer support. The alignment of information technology services with the Department's mission provides support for its core functions: safety, mobility of people and goods, enhancement of economic prosperity, and preservation of the quality of our environment and communities. The information technology infrastructure provides secure access to financial, business, and engineering systems that support this mission. The number and dollars for highway construction projects identified in the Department's Work Program can have an impact on the information technology services needed by the Department. In addition, changes mandated by the Federal Highway Administration and other government entities can impact the information technology projects needed.

713	FL'S TURNPIKE ENTERPRISE	The purpose of this service is to help meet the State's growing needs for transportation, ensuring value to our customers and protection of investors by managing the Turnpike System as a business for Florida. Resources contained in this service provide: toll collection activities; transportation facilities and services to reduce the number of structurally deficient highways and bridges requiring replacement or repair; funds to expand capacity of the Turnpike portion of the Florida Intrastate Highway System; funds to acquire the necessary rights of way to support the Turnpike portion of the Department's Work Program, the routine maintenance of the Turnpike portion of the Florida Intrastate Highway System; and the resources necessary to support this service. In addition, this service provides resources to develop and apply solutions to traffic engineering problems that do not require major structural alterations of existing or planned roadways. Regular maintenance and improvements keep these assets operating efficiently, extend their useful life and can delay the substantial cost of reconstructing or replacing them. Toll roads fill vital transportation needs. While motor fuel taxes and highway user fees were once relied on to fund highway construction, the cost of building needed roads in Florida exceeds the available funding. Toll roads provide funds that are otherwise not available to build and maintain roads and bridges needed to meet traffic demands.

875	EXECUTIVE DIR/SUPPORT SVCS	The Florida National Guard Headquarters provides leadership and essential support services to a large military organization with U.S. Army and Air Guard units located throughout the state. It is led by a federally recognized general officer, the Adjutant General, who also serves as the senior officer of the Florida National Guard. The staff exercises oversight of more than \$1 billion of equipment, all readiness centers located in 56 communities across the state, and well over 73,000 acres of training lands. This service outcome relates to the percent of the overall budget dedicated to Executive Direction. This budget entity also administers the Worker's Compensation for State Active Duty program.

900	FED/STATE COOPERATIVE AGRM	<p>The Department exercises a unique blend of federal and state authority. The Florida National Guard's federal makeup facilitates the transfer of federal funding to in-state requirements via Federal/State Cooperative Agreements. These include a wide range of funding programs, including social assistance, maintenance and repair, security, range operation, training support, telecommunications, environmental resource, and equipment storage projects. Additionally, this service includes all state grants and pass-through funds given to the Department. Federal and state support for such agreements vary from year-to-year; however, the Department will continue to focus on the efficient and timely execution of these funds. This service's outcome relates to the annual execution of these funds.</p> <p>This budget entity : • Supports the Operations and Management of 23 Master Cooperative Agreements • Operates the Florida Youth Challenge Program • Operates the Forward March and About Face Programs</p>

941	EXECUTIVE LEADERSHIP		The Agency for Workforce Innovation (AWI) was established with the Workforce Innovation Act of 2000 and is responsible for: ensuring that workforce funds and programs are appropriately administered with policy direction from Workforce Florida, Inc. (WFI) - the board that serves as the single point of policy accountability for Florida's workforce system; administering the state's Unemployment Compensation Program which provides temporary wage replacement benefits to qualified individuals who are unemployed through no fault of their own; providing administrative support to the Unemployment Appeals Commission - the quasi-judicial administrative appellate body that reviews contested unemployment compensation cases; and ensuring, through the Agency's Office of Early Learning, that Florida's School Readiness and Voluntary PreKindergarten programs are appropriately implemented and administered. The Executive Leadership budget entity houses the following offices: Director, Inspector General, General Counsel, Civil Rights, Legislative Affairs and External Affairs. The Director's Office provides the Agency with short and long term direction, establishes performance expectations for all programs and develops agency-wide policies and procedures. The remaining offices provide services consistent with their titles: Inspector General - conducts audits, investigations and special reviews to ensure program accountability, integrity and efficiency; General Counsel - provides legal services for all program areas; Civil Rights - ensures nondiscrimination and equal opportunity in employment, programs and services within the Agency's jurisdiction; Legislative Affairs coordinates and communicates the Agency's legislative priorities; and External Affairs - handles all internal and external communications for the Agency.

981	PROGRAM SUPPORT	The Agency for Workforce Innovation, in partnership with Workforce Florida, Inc. (WFI), is responsible for ensuring that workforce funds and programs are effectively and efficiently administered in Florida. Workforce Florida, Inc. is the non-profit private/public partnership board that sets the direction for the state's workforce system. In the Program Support budget entity, the Agency provides "pass-through" funding to each of the state's 24 chartered Regional Workforce Boards (RWBs) that provide workforce services directly to employers and job seekers - services that are tailored to the specific workforce needs of the local communities served by each RWB. This budget entity also houses the Offices of One-Stop and Program Support (OSPS) and Labor Market Statistics (LMS). OSPS provides programmatic guidance, coordination, planning and technical assistance to the RWBs that operate the state's One-Stop Career Centers. OSPS staff conducts statewide programmatic monitoring, performance reporting, data validation and program evaluation processes. CSPS is also responsible for directly administering several state-level programs, including the Alien Labor Certification, Work Opportunity Tax Credit and Displaced Homemaker programs. LMS produces, analyzes and distributes labor market statistics, including information on the labor force, employment, unemployment, mass layoffs, employment projections, and wages. Primary customers for these data are RWBs, Economic Development Councils, Enterprise Florida, job seekers, Chambers of Commerce, employers, career counselors and other users involved in workforce and education decisions.

1009	UNEMPLOYMENT COMPENSATION	<p>The Unemployment Compensation (UC) program provides support to Florida's workforce by: (1) paying unemployment compensation benefits to qualified unemployed workers (through the Office of Unemployment Compensation Benefits); and (2) resolving unemployment compensation appeals in a timely manner (through the Office of Unemployment Compensation Appeals). Unemployment Compensation Benefits is an insurance program that provides temporary and partial income to workers who lose their jobs through no fault of their own and are able and available for work. The program also focuses on assisting the temporarily unemployed in finding jobs and being gainfully reemployed. The Office of Unemployment Compensation Appeals holds hearings and issues decisions to resolve disputed issues related to eligibility and claims for unemployment compensation and the payment and collection of unemployment compensation taxes. The UC Program operates as a federal/state partnership - the administrative framework is established in federal law and state law governs program operations. States are responsible for determining program eligibility and providing funds to cover UC benefit payments while the federal government is responsible for providing states with funds to administer the program. The Agency contracts with the Florida Department of Revenue for unemployment compensation tax collection services.</p> <p>Funds are provided in this budget entity to: process initial unemployment compensation claims; make initial and ongoing benefit eligibility determinations; monitor UC benefit payments to prevent fraud and detect and collect UC benefit payment overpayments; and hold hearings and issue decisions on disputed initial determinations related to unemployment benefit ineligibility and collection of UC taxes.</p>

1029	WORKFORCE FLORIDA, INC	<p>Workforce Florida, Inc. (WFI) was established with the Workforce Innovation Act of 2000 and serves as the single point of policy accountability for Florida's workforce system. The public/private partnership board provides policy and oversight to Florida's 24 chartered Regional Workforce Boards (RWBs) and is governed by a state board of directors appointed by the Governor. WFI is charged with meeting the workforce needs and challenges of Florida's businesses and a top priority of the board is addressing the disconnect that exists between businesses searching for skilled employees and job-seeking Floridians. Florida's integrated workforce system ensures that businesses can hire the work-ready employees they need ("Right Person, Right Job, Right Now") and that all Floridians have the opportunity to obtain jobs that allow them to prosper. WFI contracts with the Agency for Workforce Innovation, the state agency responsible for ensuring that workforce funds and programs are appropriately administered. Additionally, WFI directly administers two statewide training incentive programs: Quick Response Training (QRT) and Incumbent Worker Training (IWT).</p>

1046	UNEMPLOYMENT APPEALS COMM	The Unemployment Appeals Commission ("UAC" or "Commission"), created in Chapter 443, Florida Statutes, has a single purpose - the appellate review of contested unemployment compensation claims. The Commission's charge is to provide an expeditious second level review of contested unemployment compensation claims by an executive branch administrative body funded by a federal trust fund. If the Commission didn't perform this function, contested unemployment compensation claims would have to be reviewed in the state courts system. In the event that the Commission's decision is appealed to one of Florida's District Courts of Appeals, the Commission defends its decision in court. The Commission operates pursuant to state and federal laws and seeks to adhere to timeliness standards established by the U.S. Department of Labor to dispose of 50% of appeals within 45 days, and 95% within 150 days of the date of the Commission's receipt of the appeal.

1055	EARLY LEARNING SERVICES	Effective January 2, 2005, the Legislature established the Office of Early Learning (OEL) within the Agency for Workforce Innovation, replacing the former Florida Partnership for School Readiness. The Agency, through the OEL, is responsible for enhancing the early childhood education of Florida's children by administering two major programs: the School Readiness Program and the Voluntary Prekindergarten Education Program. OEL administers these programs at the state level and coordinates the local delivery of services through Early Learning Coalitions. There are currently 31 Early Learning Coalitions that provide services statewide in each of Florida's 67 counties. The School Readiness Program is provided for targeted populations of children, based on need, including children who are economically disadvantaged, children who have disabilities and children who are at risk of abuse or neglect. The Voluntary PreKindergarten Education Program was established to fulfill the constitutional requirement that "every four-year old child in Florida shall be provided by the State a high-quality pre-kindergarten learning opportunity in the form of an early childhood development and education program which shall be voluntary, high quality, free and delivered according to professionally accepted standards." OEL's vision is that all of Florida's children are eager to learn and ready to succeed when they enter kindergarten. Specific functions funded in this budget entity include: <u>School Readiness and VPK</u> - Provide fiscal and program policy guidance and fiscal and programmatic technical assistance to early learning coalitions, promulgate program rules, perform quality assurance monitoring in finance and programmatic areas, prepare data analysis, perform advocacy with state and federal partners, provide public education related to school readiness and voluntary prekindergarten programs and support for the Florida Early Learning Advisory Council. <u>Child Care Resource & Referral Program</u> - Helps families identify quality child care and early education programs and support for the Florida Early Learning Advisory Council. <u>Even Start Program</u> - Overall management and oversight of local family literacy projects that integrate early childhood education, adult literacy, parenting education, and interactive parent and child literacy activities for eligible families. <u>Child Care & Executive Partnership Program</u> - Executive and administrative support for the public/private partnership to expand the availability of child care options for working families by providing incentives for employers to contribute to meeting the needs of their employees' families by matching public dollars available for child care. <u>Head Start (ARRA)</u> - Executive and administrative support for the State Advisory Council on Early Education and Care.

1091	EXECUTIVE DIR/SUPPORT SVCS	Chapters 20.04 and 20.05, Florida Statutes establish that the head of each agency must plan, direct, coordinate, and execute the powers, duties, and functions vested in the department. The service area of Executive Direction and Support Services assures that the department fulfill this responsibility. Executive direction and administrative support is an integral part of the agency as it relates to personnel administration, budget development, strategic planning, legislative affairs, procurement, legal issues, financial management, and property management. These activities ensure that the department's people, workplace, and money are managed and supported enabling the members of the department on the frontline, troopers, examiners, and others to focus on making highways safe. Activities included in this service include performance management, financial management, workforce programs, legislative and constituent affairs, communications, inspector general, general counsel, purchasing and contracts, real estate, safety and risk management, accounts receivable, revenue distribution, accounts payable, office and support services.

1123	HIGHWAY SAFETY		The Florida Highway Patrol is charged with providing a safe driving environment for Florida's residents, visitors, and commercial shippers through proactive law enforcement. This service monitors the effectiveness of the Patrol's major law enforcement functions: patrolling the state's highways, providing community service officers, providing aerial traffic enforcement, conducting traffic homicide investigations and providing training to law enforcement officers. This service area also conducts criminal and professional compliance (internal) investigations, polygraph other law enforcement agencies. Additionally, this activity area is called upon to conduct a variety of criminal investigations, including those involving driver license fraud, title fraud, odometer fraud, identity theft, organized auto and heavy equipment theft, commercial vehicle and cargo theft, and worthless checks submitted to the department. Finally, this service area participates in numerous task forces and professional groups that focus on motor vehicle theft and fraud, and is involved in intensive resource and information sharing with other federal, state, and local agencies.

1177	EXECUTIVE DIR/SUPPORT SVCS	This service area supports all Florida Highway Patrol activities by insuring consistent management of all operations. It provides oversight of command and administration of the ten field troops and other organizational units. This service area also provides for planning necessary to manage organizational change, supports liaison with senior managers of other agencies, and ensures efficient use of tax dollars in the management of the division.

1203	DRIVER LICENSURE	The Driver Licensure service category includes the statewide and central issuance of driver licenses and identification cards, telephone assistance for resolution of motorist inquiries regarding licensing information and actions, maintenance of comprehensive driver history information, and maintenance of a statewide uniform traffic citation system. These activities are intended to increase consumer protection and public safety by ensuring that only qualified drivers are licensed after the administration of knowledge, skill and vision examinations. Security measures were strengthened to detect and prevent fraud and identity theft through fraudulent document recognition, digital imaging, document scanning and electronic record review, and automated driver license testing. Upon verification of identity and legal presence, customers are provided a universally accepted form of identification through issuance of an identification card or driver license. Other activities in this service include crash records and reports, driver record sales and data exchange, uniform traffic citations, customer service center, fatal crash reporting, quality assurance/tax collector liaison and commercial driver testing.

1239	MOTORIST FINAN RESPON COMP	The Motorist Financial Responsibility Compliance service category is responsible for ensuring that licensed drivers comply with Florida automobile insurance laws and requirements to carry Personal Injury Protection and Property Damage Liability insurance coverage, and Bodily Injury Liability coverage if required. Activities for carrying out this responsibility involve administering Florida's No Fault and Financial Responsibility laws; verifying insurance coverage; suspending driving privileges of persons for non-compliance with Florida's motor vehicle insurance laws; and reinstating suspended driving privileges upon compliance and payment of reinstatement fees. Public safety is enhanced through verification that licensed drivers and motor vehicles are properly insured.

1253	IDENT/CONTR/PROBLEM DRIVER	The Identification and Control of Problem Drivers service category is responsible for identification and control of problem drivers through the suspension, revocation, disqualification, and cancellation of driving privileges; conducting administrative reviews for persons subject to certain driving sanctions under the law; and approval of course curricula and evaluation of driver improvement related course programs. A basic precept in traffic safety is that drivers who repeatedly violate traffic laws, cause crashes, or otherwise demonstrate they are a hazard to others should have their driving privileges removed. Florida law provides many criteria for identifying such problem drivers and specifies the actions to be taken in response. Activities included in this service include issuance of revocations, suspensions, cancellations and disqualifications; collection of statutorily required fees and fines, medical reviews, monitoring DUI programs, monitoring and regulation of commercial driver schools, ignition interlock program, motorcycle rider training program and conducting administrative reviews.

1275	MOBILE HOME COMP/ENFORCMNT	This service monitors the quality of manufactured home units by ensuring manufacturers' compliance with construction standards established by the Department of Housing and Urban Development (HUD) and provides additional consumer protection by training, testing and licensing individuals that set-up and install mobile homes. The Department is under contract with the Department of Housing and Urban Development (HUD) to inspect mobile homes as they are built in Florida manufacturing facilities to ensure compliance with the HUD Code. This work is performed in mobile home manufacturing plants, inspecting all construction phases of a mobile home. This provides consumer protection and safety measures to Florida citizens. Site inspections and complaint investigations are also conducted to ensure the safety of the construction and installation of the home. The training, testing and licensing of mobile home installers, also provides consumer protection by insuring that installation businesses are trained on the state requirements for setting up a mobile home correctly.

1290	VEH/VESSEL TITLE-REG SVCS	This service provides consumer protection and public safety through efficient license systems that register and title motor vehicles, vessels and mobile homes. Customers may title and register motor vehicles, vessels and mobile homes at Tax Collector offices, or at Departmental headquarters. The average time to issue a title through the Florida Real Time Vehicle Information System (FRVIS 2000) is 3 days with same day service being available via Fast Title process by HSMV or Tax Collector offices. This service also provides consumer protection through enforcement of motor vehicle and mobile home title and registrations and dealer licensing regulations. It also involves the inspection of rebuilt vehicles for the purpose of detecting fraudulent titles, invalid odometer readings, stolen vehicles and stolen vehicle parts. The Department also provides consumer protection and public safety by performing rebuilt inspections, vehicle identification numbers, and odometer inspections and enforcement of title and registration laws to reduce insurance and title fraud, automobile theft, and illegal business practices. This service also audits Florida-based commercial carriers under the International Registration Plan and the International Fuel Use Tax agreements pursuant 49 USC, Subtitle VI, Part B, and Chapter 317, Florida Statutes. The IRP is an interstate agreement which allows a carrier to register a vehicle one time in a single jurisdiction. The IFTA allows a carrier to obtain a fuel tax license in one state and report all operations for fuel tax purposes to that one state.

1330	INFORMATION TECHNOLOGY	Information Systems Administration (ISA) provides information technology resources to assist the department in accomplishing its public safety and consumer protection goals. This service provides acquisition of computer equipment, software, and services, software development, system installation and maintenance, network administration, and desktop support for systems that are used to issue driver licenses and vehicle and vessel titles and registrations to the citizens of Florida. Information from these systems is stored on the Department's central databases and used by the department, tax collectors, local, state, and federal agencies, businesses, and the citizens of Florida. This service maintains the Department central computing facility, which houses enterprise and web servers and includes a standby facility for disaster recovery. Additionally, ISA provides help desk support for more than 400 statewide field offices maintained by the Divisions of Driver Licenses, Motor Vehicles, Florida Highway Patrol and 67 county Tax Collectors.
