BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Rules

BILL: SB 2-D

INTRODUCER: Senator Brodeur

SUBJECT: Artificial Intelligence Bill of Rights

DATE: April 24, 2026

REVISED: _____

ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1. McMillan	Kruse	RC	Pre-meeting

I. Summary:

SB 2-D creates the “Artificial Intelligence Bill of Rights” to provide that Floridians are entitled to certain rights with respect to the use of artificial intelligence. The bill provides definitions and defines “artificial intelligence” to mean a machine-based system that can, for a given set of human-defined objectives, make predictions, recommendations, or decisions influencing real or virtual environments.

The “Artificial Intelligence Bill of Rights” includes the following consumer protections:

- A companion chatbot platform must prohibit a minor from entering into a contract with the platform to become an account holder or from maintaining an existing account, unless the minor’s parent or guardian provides consent. If consent is provided, the platform must authorize the consenting parent or guardian to receive certain controls over the minor’s account. Upon request, the platform must permanently delete all personal information held by the platform relating to the terminated account.
- A companion chatbot platform must provide certain disclosures to an account holder, as well as remind the account holder to take a break and that the companion chatbot is artificially generated and not human. The platform is also required to institute reasonable measures to prevent its companion chatbot from producing or sharing materials harmful to minors.
- At the beginning of an interaction between a user and a bot, and at least once every hour during the interaction, an operator is required to notify or inform users that they are not engaging in dialogue with a human counterpart. This requirement does not apply to a bot that is used solely by employees within a business for its internal operational purposes.
- An artificial intelligence technology company is prohibited from selling or disclosing personal information of users unless such information is deidentified data.
- The Department of Legal Affairs is given rulemaking and enforcement authority.

The bill places limitations on government contracting with entities for artificial intelligence technology, software, or products if such entities have certain ties to a government of a foreign country of concern.

The bill amends the section of law regulating the unauthorized publication of name or likeness to prohibit a person from publishing, printing, displaying, or otherwise publicly using for trade or for any commercial or advertising purpose the name, portrait, photograph, image, or other likeness of an individual created through generative artificial intelligence without the express written or oral consent to such use.

The bill creates s. 1006.1495, F.S., to establish a statewide framework for artificial intelligence instructional tools used by educational entities, including definitions, parent notice, opt-outs, parent or eligible student read-only account access, and construction. An educational entity is prohibited from providing students with access to an artificial intelligence instructional tool before grade 6 unless certain criteria are met. Additionally, private schools are required to comply with s. 1006.1495, F.S., when providing student access to an AI instructional tool.

The bill may have a workload impact on the Department of Legal Affairs. See Section V., Fiscal Impact Statement.

The bill provides an effective date of July 1, 2026.

II. Present Situation:

Government Contracting and Procurement

Currently, when state agencies wish to procure commodities or contractual services that cost more than \$35,000, a competitive solicitation¹ is required.² Depending on the type of contract and scope of work or goods sought, an agency may use one of three procurement methods:

- Invitation to bid (ITB): An agency must use an ITB when the agency is capable of specifically defining the scope of work for which a contractual service is required or when the agency can establish precise specifications defining the actual commodity or group of commodities required.³
- Request for proposals (RFP): An agency must use an RFP when the purposes and uses for which the commodity, group of commodities, or contractual service being sought can be specifically defined and the agency can identify necessary deliverables.⁴
- Invitation to negotiate (ITN): An ITN is a solicitation used by an agency that is intended to determine the best method for achieving a specific goal or solving a particular problem and identifies one or more responsive vendors with which the agency may negotiate to receive the best value.⁵

The Department of Management Services (DMS) is designated as the primary state agency overseeing procurement,⁶ and the responsibilities of DMS include creating uniform agency

¹ Section 287.012(6), F.S., defines “competitive solicitation” as the process of requesting and receiving two or more sealed bids, proposals, or replies submitted by responsive vendors in accordance with the terms of a competitive process, regardless of the method of procurement.

procurement rules,⁷ implementing the online procurement program,⁸ and procuring state term contracts.⁹ The DMS is also responsible for registering vendors that wish to provide goods or services to the state¹⁰ and maintaining lists of vendors who may not submit bids, proposals, or replies to agency solicitations, such as the suspended vendor list,¹¹ the convicted vendor list,¹² the discriminatory vendor list,¹³ and the antitrust violator vendor list.¹⁴

Scrutinized List of Prohibited Companies

Companies on the Scrutinized Companies or Other Entities that Boycott Isreal List are prohibited from bidding on, submitting a proposal for, or entering or renewing a contract with an agency or local governmental entity for goods and services of \$100,000 or more.¹⁵ Similarly, companies on the Scrutinized Companies with Activities in Sudan list, on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector list, or engaged in business operations in Cuba or Syria are prohibited from bidding on, submitting a proposal for, or entering into or renewing a contract with an agency or a local governmental entity for goods or services of \$1 million or more.¹⁶ The State Board of Administration is charged with maintaining a complete list of scrutinized companies.¹⁷

Foreign Countries of Concern

In 2023, the Legislature prohibited state and local governmental entities from contracting with certain foreign affiliated entities if such contracts would grant access to individuals' personal identifying information.¹⁸ Specifically, contracts with entities that are owned by, significantly controlled by, or organized under, the following foreign countries of concern are prohibited: China, Russia, Iran, North Korea, Cuba, Venezuela (Maduro regime), and Syria.¹⁹

Beginning January 1, 2024, entities must submit a sworn affidavit confirming that they do not meet these criteria before bidding on or entering into contracts involving personal data.²⁰ Starting

¹¹ Section 287.1351, F.S., provides that the "suspended vendor list" includes vendors who are in default on a contract or have repeatedly failed to fulfill the terms of state contracts. Contracts cannot be awarded to such vendors until the vendor reimburses the agency for the costs of re-procurement and the agency is satisfied that further default will not occur.

¹² Section 287.133, F.S., provides that the "convicted vendor list" includes vendors who have been disqualified due to conviction of a public entity crime, which includes fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation related to a contract for services to be provided to a public entity.

¹³ Section 287.134, F.S., provides that the "discriminatory vendor list" includes vendors who have been disqualified for violating any state or federal law prohibiting discrimination based on race, gender, national origin, disability, or religion.

¹⁴ Section 287.137, F.S., provides that the "antitrust violator vendor list" includes vendors who have been disqualified due to being convicted or held civilly liable for an antitrust violation.

July 1, 2025, this restriction extends to contract renewals and extensions.²¹ Violations may result in civil penalties, contract and license ineligibility for up to five years, and placement on the suspended vendor list.²²

Artificial Intelligence

Generally

Artificial intelligence (AI) is the development of computer systems to perform tasks that normally require human intelligence, such as learning and decision-making.²³ It enables computer systems to receive information that is either provided to them by others or gathered by them (e.g. through camera lenses or other sensors), which they can then process and respond to in some meaningful way. To a certain extent, AI systems can adapt their behavior by analyzing the effects of previous actions and working autonomously.²⁴

Investments in AI have led to many of the transformative advancements that U.S. consumers rely upon every day,²⁵ including mapping technologies, voice-assisted smartphones, handwriting recognition for mail delivery, financial trading, smart logistics, spam filtering, and language translation. AI advances have also provided significant social benefits in areas such as precision medicine, environmental sustainability, education, and public welfare.²⁶

Types of AI

AI may be generally classified in one of three classes based on its capabilities or its functionalities:²⁷

- *Artificial Narrow AI*. Also known as Weak AI, machines using Weak AI can only perform specific tasks using human-like capabilities. They can do nothing more than what they are programmed to do. Examples of Artificial Narrow AI include Siri, Alexa, and ChatGPT.²⁸
- *General AI*. Also known as Strong AI, and any machine or application using Strong AI in the future would be able to use what they have learned in the past to accomplish new tasks in different contexts without the need for additional training by human beings. In other words, they would be able to learn, perceive, understand, and function completely like human beings.²⁹

²⁹ *Id.*

- *Super AI* Also known as artificial superintelligence, Super AI is strictly theoretical. If ever realized, machines using Super AI would think, reason, learn, make judgments, and possess cognitive abilities surpassing those of human beings. Machines possessing Super AI capabilities would have evolved beyond the point of understanding human sentiments and experiences to feeling emotions, having needs, and possessing beliefs and desires of their own.³⁰

Under the umbrella of Artificial Narrow AI or Weak AI, there are four kinds of AI based upon functionalities:³¹

- *Reactive Machine AI.* Reactive machines are AI systems with no memory. They are designed to perform very specific tasks. They can only work with presently available data because they cannot recollect previous outcomes or decisions. Reactive Machine AI stems from statistical math and can analyze vast amounts of data to produce a seemingly intelligent output. Examples of machines and applications that rely upon Reactive Machine AI include IBM Deep Blue (IBM's chess-playing supercomputer) and the Netflix recommendation engine.³²
- *Limited Memory AI.* In addition to having the capabilities of purely reactive machines, Limited Memory AI machines and applications are also capable of learning from historical data to make decisions. Almost all present-day Limited Memory AI applications, including Generative AI tools (e.g. chatbots and virtual assistants) and self-driving vehicles, are Limited Memory AI machines and applications.³³
- *Theory of Mind AI.* Theory of Mind AI is a kind of General AI that exists only in concept. It is the "next level" of AI systems that researchers are currently developing. Machines and applications using Theory of Mind level AI will be able to understand the thoughts and emotions of other entities. In theory, this will allow them to simulate humanlike relationships and to contextualize artwork and essays, which today's Generative AI tools are unable to do.³⁴
- *Self-Aware AI.* Self-Aware AI is a kind of Super AI that exists only in concept. It is strictly theoretical. If ever achieved, it will have the ability to understand its own internal conditions and traits along with human emotions and thoughts. It will also have its own set of emotions, needs, and beliefs.³⁵

Generative AI

Generative AI is a type of Limited Memory AI technology that can produce high-quality content, including text, images, audio, or video, within seconds when prompted by a user.³⁶ Although it

was first introduced in the 1960s, it was not until 2014, with the introduction of generative adversarial networks, or GANs (a type of machine learning algorithm),³⁷ that Generative AI could convincingly create authentic images, videos, and audio of real people.³⁸

Generative AI systems learn patterns and relationships from massive amounts of data, which enables them to process and create new content that may be similar, but not identical, to the underlying training data. Such systems rely upon sophisticated machine learning algorithms and statistical models to work.³⁹

In order to generate new content, Generative AI users are required to submit prompts that guide the generation of new content. Many iterations may be required to produce the intended result because Generative AI is sensitive to the wording of prompts.⁴⁰

Because Generative AI can do so much, it has many potential applications, including in education, government, medicine, and law. Applications include:

- Writing a speech in a particular tone.
- Summarizing complex research.
- Assessing legal documents.
- Creating images for different applications.
- Composing music.
- Composing poems.
- Designing molecules for new drugs.
- Generating programming codes.
- Translating languages.
- Implementing chatbots.
- Deploying “deepfakes.”
- Improving dubbing for movies.
- Designing physical products and buildings.⁴¹

³⁷ “A generative adversarial network (GAN) is a deep learning architecture. It trains two neural networks to compete against each other to generate more authentic new data from a given training dataset. For instance, you can generate new images from an existing image database or original music from a database of songs. A GAN is called adversarial because it trains two different networks and pits them against each other. One network generates new data by taking an input data sample and modifying it as much as possible. The other network tries to predict whether the generated data output belongs in the original dataset. In other words, the predicting network determines whether the generated data is fake or real. The system generates newer, improved versions of fake data values until the predicting network can no longer distinguish fake from original.” Amazon Web Services (AWS), *What is a GAN?*, available at <https://aws.amazon.com/what-is/gan/> (last visited April 15, 2026). GAN can generate images, training data for other models, complete missing information, and generate 3D models from 2D data. *Id.*

The U.S. Government Accountability Office has identified several opportunities and challenges in connection with the proliferation of Generative AI systems.⁴² With respect to opportunities, Generative AI can quicken access to ideas and knowledge by helping people more efficiently gather new information; help automate a wide variety of administrative and repetitive tasks; and enhance the productivity of many industries.⁴³ With respect to challenges, because Generative AI systems can respond to harmful instructions, they can increase the speed and scale of many real world harms, such as facilitating the development and proliferation of false information; facilitating the use of copyrighted, proprietary, or sensitive data, without the owner's or subject's knowledge; reducing privacy for users, including minors, through the retention of personally identifiable information without consent; and facilitating the storage and use of sensitive information by foreign adversaries.⁴⁴

Companion Chatbots

AI companions are an application of Generative AI that use natural language processing and emotional recognition to simulate human relationships by mimicking human characteristics, emotions, and intentions.⁴⁵ These systems are generally designed to communicate like a friend or a confidant, which may prompt users, especially children and teens, to trust and form relationships with such systems.⁴⁶

Regulation of AI

Concerns about the potential misuse or unintended consequences of AI have prompted efforts to examine and develop standards at the federal and state levels.⁴⁷

Companion Chatbot Regulation

States including Colorado, Maine, Texas, and Utah have recently enacted legislation to require certain disclosures to be provided to consumers who interact with AI systems.⁴⁸ These disclosure laws aim to provide notice (and reminders) to consumers that they are interacting with an AI chatbot and not a human counterpart.⁴⁹

Recently, California also passed a law that regulates the use of AI chatbots.⁵⁰ Notably, the law seeks to protect minors by requiring AI operators⁵¹ to provide the following notifications to minors:

- Disclose to the minor that they are interacting with AI;
- At least every three hours, provide a clear and conspicuous notice that reminds the minor to take a break and that the companion chatbot is AI and not a human;
- Institute reasonable measures to prevent its companion chatbot from producing visual material of sexually explicit conduct or directly stating that the minor should engage in such conduct; and
- Disclose on the application, the browser, or any other format that a user can use to access the companion chatbot platform that companion chatbots may not be suitable for some minors.⁵²

The California law further requires an operator to maintain a protocol for preventing the production of suicidal ideation, suicide, or self-harm content to the user, as well as requiring an operator to refer a user expressing suicidal ideation, suicide, or self-harm to crisis service providers. The operator must also publish details on such protocol on the operator's website.⁵³

Currently, the United States does not have a comprehensive federal AI law, however in December of 2025, President Trump issued Executive Order (EO) 14365 entitled "Ensuring a National Policy Framework for Artificial Intelligence."⁵⁴ The EO states that it is designed to promote the US policy of sustaining and enhancing the United States' global AI dominance through a minimally burdensome national policy framework for AI, and gives instructions to the United States Attorney General, the Secretary of Commerce, the Federal Communications Commission, and the Federal Trade Commission.⁵⁵

Deidentified Data

In 2023, the Legislature passed the "Florida Digital Bill of Rights," which requires controllers⁵⁶ in possession of deidentified data to do the following:

⁵⁰ See CA SB 243 (2025-2026).

⁵¹ See *id.* CA SB 243 defines "operator" as a person who makes a companion chatbot platform available to a user in the state.

⁵² *Id.*

⁵³ *Id.*

⁵⁴ See 90 FR 58499.

⁵⁵ See *id.* The EO does the following: (1) instructs the US Attorney General to create an AI Task Force within 30 days to challenge state AI laws that are inconsistent with US policy; (2) instructs the Secretary of Commerce to conduct an evaluation of existing state AI laws and publish the results; (3) takes steps to make states with onerous AI laws ineligible for certain federal funds; (4) directs the Federal Communication Commission to determine whether a federal reporting and disclosure standard for AI models should be adopted; and (5) directs the Federal Trade Commission to issue a policy statement on whether state laws that require alterations to truthful outputs of AI models are preempted by federal law. Additionally, the EO directs the Special Advisor for AI and Crypto, along with the Assistant to the President for Science and Technology, to jointly prepare a legislative recommendation to establish a uniform AI policy framework – the EO states that such framework must ensure that children are protected, censorship is prevented, copyrights are respected, and communities are safeguarded. Additionally, on March 20, 2026, the White House issued a National Policy Framework for AI, which provides Congress with recommendations on how to create a minimally burdensome national AI framework. See The White House, *National Policy Framework – Artificial Intelligence*, available at <https://www.whitehouse.gov/wp-content/uploads/2026/03/03.20.26-National-Policy-Framework-for-Artificial-Intelligence-Legislative-Recommendations.pdf> (last visited April 15, 2026).

⁵⁶ Section 501.702(9), F.S., defines "controller" as a sole proprietorship, partnership, limited liability company, corporation, association, or legal entity that meets the following requirements: (1) is organized or operated for the profit or financial

- Take reasonable measures to ensure that the data cannot be associated with an individual.
- Maintain and use the data in deidentified form. A controller may not attempt to reidentify the data, except that the controller may attempt to reidentify the data solely for the purpose of determining whether its deidentification processes satisfy the requirements of s. 501.714, F.S.
- Contractually obligate any recipient of the deidentified data to comply with the Florida Digital Bill of Rights.
- Implement business processes to prevent the inadvertent release of deidentified data.

Section 501.702(13), F.S., defines “deidentified data” as data that cannot reasonably be linked to an identified or identifiable individual or a device linked to that individual.

The Florida Digital Bill of Rights may not be construed to require a controller or processor⁵⁷ to do any of the following:

- Re-identify deidentified data or pseudonymous data.
- Maintain data in an identifiable form or obtain, retain, or access any data or technology for the purpose of allowing the controller or processor to associate a consumer request with personal data.
- Comply with an authenticated consumer rights request under s. 501.705, F.S.,⁵⁸ if the controller:
 - Is not reasonably capable of associating the request with the personal data or it would be unreasonably burdensome for the controller to associate the request with the personal data;
 - Does not use the personal data to recognize or respond to the specific consumer who is the subject of the personal data or associate the personal data with other personal data about the same specific consumer; and
 - Does not sell the personal data to a third party or otherwise voluntarily disclose the personal data to a third party other than a processor, except as otherwise authorized.

benefit of its shareholders or owners; (2) conducts business in Florida; (3) collects personal data about consumers, or is the entity on behalf of which such information is collected; (4) determines the purposes and means of processing personal data about consumers alone or jointly with others; (5) makes in excess of \$1 billion in global gross annual revenues; and (5) satisfies at least one of the following: (a) derives 50 percent or more of its global gross annual revenues from the sale of advertisements online, including providing targeted advertising or the sale of ads online; (b) operates a consumer smart speaker and voice command component service with an integrated virtual assistant connected to a cloud computing service that uses hands-free verbal activation. For purposes of this sub-subparagraph, a consumer smart speaker and voice command component service does not include a motor vehicle or speaker or device associated with or connected to a vehicle which is operated by a motor vehicle manufacturer or a subsidiary or affiliate thereof; or (c) operates an app store or a digital distribution platform that offers at least 250,000 different software applications for consumers to download and install.

⁵⁷ Section 501.702(24), F.S., defines “processor” as a person who processes personal data on behalf of a controller.

⁵⁸ Section 501.705, F.S., provides that a consumer is entitled to the following upon request: (1) to confirm whether a controller is processing the consumer’s personal data and to access the personal data; (2) to correct inaccuracies in the consumer’s personal data, taking into account the nature of the personal data and the purposes of the processing of the consumer’s personal data; (3) to delete any or all personal data provided by or obtained about the consumer; (4) to obtain a copy of the consumer’s personal data in a portable and, to the extent technically feasible, readily usable format if the data is available in a digital format; (5) to opt out of the processing of the personal data for purposes of targeted advertising, the sale of personal data, or profiling in furtherance of a decision that produces a legal or similarly significant effect concerning a consumer; (6) to opt out of the collection of sensitive data, including precise geolocation data, or the processing of sensitive data; and (7) to opt out of the collection of personal data collected through the operation of a voice recognition or facial recognition feature.

Additionally, a controller that discloses deidentified data must exercise reasonable oversight to monitor compliance with any contractual commitments to which the data or information is subject and must take appropriate steps to address any breach of contractual commitments.⁵⁹

Unauthorized Publication of Name or Likeness

Section 540.08, F.S., prohibits a person from publishing, printing, displaying or otherwise publicly using for purposes of trade or any commercial or advertising purpose the name, portrait, photograph, or other likeness of any natural person without the express written or oral consent to such use given by:

- Such person; or
- Any other person, firm or corporation authorized in writing by such person to license the commercial use of her or his name or likeness; or
- If such person is deceased, any person, firm or corporation authorized in writing to license the commercial use of her or his name or likeness, or if no person, firm or corporation is authorized, then by any one from among a class composed of her or his surviving spouse and surviving children.⁶⁰

If the appropriate consent is not obtained, the person whose name, portrait, photograph, or other likeness is so used, or any person, firm, or corporation authorized by such person in writing to license the commercial use of her or his name or likeness, or, if the person whose likeness is used is deceased, any person, firm, or corporation having the right to give such consent, as provided hereinabove, may bring an action to enjoin such unauthorized publication, printing, display or other public use, and to recover damages for any loss or injury sustained by reason thereof, including an amount which would have been a reasonable royalty, and punitive or exemplary damages.⁶¹

If a person uses the name, portrait, photograph, or other likeness of a member of the armed forces without obtaining the appropriate consent, a court may impose a civil penalty of up to \$1,000 per violation in addition to the other applicable civil remedies.⁶²

The provisions of s. 540.08, F.S., do not apply to:

- The publication, printing, display, or use of the name or likeness of any person in any newspaper, magazine, book, news broadcast or telecast, or other news medium or publication as part of any bona fide news report or presentation having a current and legitimate public interest and where such name or likeness is not used for advertising purposes;
- The use of such name, portrait, photograph, or other likeness in connection with the resale or other distribution of literary, musical, or artistic productions or other articles of merchandise or property where such person has consented to the use of her or his name, portrait, photograph, or likeness on or in connection with the initial sale or distribution thereof; or

- Any photograph of a person solely as a member of the public and where such person is not named or otherwise identified in or in connection with the use of such photograph.⁶³

Florida's AI Laws

Election-Related Use of Artificial Intelligence

The proliferation of Generative AI use and its outpacing of government regulation has created concern among policymakers about its potentially negative effect on the electoral process. Specific concerns include, but are not limited to, voter misinformation by chatbots,⁶⁴ phishing scams on election officials through AI-generated voices, and the use of deepfakes⁶⁵ to deceive voters and damage political rivals. Over time, the use of AI may also erode trust in authentic information.⁶⁶

In 2024, the Legislature enacted a law to regulate the use of AI in political advertising.⁶⁷ If a political advertisement, an electioneering communication, or other miscellaneous advertisement of a political nature contains images, video, audio, graphics, or other digital content created in whole or in part with the use of Generative AI, if the generated content appears to depict a real person performing an action that did not actually occur, and if the generated content was created with intent to injure a candidate or to deceive regarding a ballot issue, the political advertisement, electioneering communication, or other miscellaneous advertisement must prominently state the following disclaimer: “Created in whole or in part with the use of Generative Artificial Intelligence (AI).”⁶⁸ Additionally, the disclaimer must:

- For a printed communication, be stated in bold font with a font size of at least 12 points.
- For a television or video communication, be clearly readable throughout the communication and occupy at least 4 percent of the vertical picture height.
- For an Internet public communication that includes text or graphic components, be viewable without the user taking any action and be large enough to be clearly readable.
- For any audio component of a communication, be at least 3 seconds in length and spoken in a clearly audible and intelligible manner at either the beginning or the end of the audio component of the communication.
- For a graphic communication, be large enough to be clearly readable but no less than 4 percent of the vertical height of the communication.⁶⁹

⁶³ Section 540.08(4), F.S. Additionally, s. 540.08(5), F.S., prohibits an action by reason of any publication, printing, display, or other public use of the name or likeness of a person occurring after the expiration of 40 years from and after the death of such person.

⁶⁵ Although exact definitions of “deepfake” vary, all reflect a depiction of something that has not actually occurred. Merriam-Webster, for example, defines “deepfake” to mean an image or recording that has been convincingly altered and manipulated to misrepresent someone as doing or saying something that was not actually said or done (*see* <https://www.merriam-webster.com/dictionary/deepfake>, last visited April 15, 2026).

Florida Elections Commission

The Florida Elections Commission (commission) has jurisdiction⁷⁰ to investigate and determine violations of campaign finance laws and other specified provisions of the Florida Election Code⁷¹ upon receipt of a report by the Division of Elections⁷² or a sworn complaint.⁷³ Upon a finding of a violation of one of the laws under its jurisdiction, the commission, or in cases referred to the Division of Administrative Hearings, an administrative law judge, may impose fines up to \$2,500 per count.⁷⁴

Florida's Age Verification Law

In 2024, the Legislature enacted laws to require age verification for online access to materials that are harmful to minors.⁷⁵

Florida law requires a commercial entity that knowingly and intentionally publishes or distributes material harmful to minors on a website or application, if the website or application contains a substantial portion of material harmful to minors to use either anonymous age verification or standard age verification to verify that the age of a person attempting to access the material is 18 years of age or older and prevent access to the material by a person younger than 18 years of age.⁷⁶

“Material harmful to minors” means any material that:

- The average person applying contemporary community standards would find, taken as a whole, appeals to the prurient interest;
- Depicts or describes, in a patently offensive way, sexual conduct as specifically defined in s. 847.001(19), F.S.; and
- When taken as a whole, lacks serious literary, artistic, political, or scientific value for minors.

“Standard age verification” means any commercially reasonable method of age verification approved by the commercial entity.⁷⁷

Any violation of the age verification law is deemed an unfair and deceptive trade practice, and the Department of Legal Affairs (department) has enforcement authority. In addition to the remedies under the Florida Deceptive and Unfair Trade Practices Act, the department may collect a civil penalty of up to \$50,000 per violation and reasonable attorney fees and court costs

⁷⁰ For the purposes of commission jurisdiction, a violation means the willful performance of an act prohibited by ch. 104 or 106, F.S., or the willful failure to perform an act required by such chapters. Willfulness is a determination of fact. Section 106.25(3), F.S.

⁷¹ Section 106.25(2), F.S. The commission is housed within the Department of Legal Affairs, but is not subject to the department's control, supervision, or direction. Section 106.24(1), F.S.

⁷² The Division of Elections is an administrative unit of the Department of State. Section 97.021(9), F.S.

⁷³ Section 106.25(4), F.S.

⁷⁴ Section 106.265, F.S. The fine may be multiplied by a factor of 3, not to exceed \$7,500, after a person commits three counts of the same category of offense. If applicable, the commission or administrative law judge may instead impose a civil penalty as provided in s. 104.271 or s. 106.19, F.S.

⁷⁵ Ch. 2024-42, Laws of Fla.

⁷⁶ Section 501.1737, F.S.

⁷⁷ Section 501.1737, F.S., defines “commercial entity” as a corporation, a limited liability company, a partnership, a limited partnership, a sole proprietorship, and any other legally recognized entity.

for a violation by a third party.⁷⁸ A commercial entity that violates the age verification requirement is liable to the minor for such access, including court costs and reasonable attorney fees as ordered by the court. Claimants may be awarded up to \$10,000 in damages. A civil action for a claim under this paragraph must be brought within 1 year from the date the complainant knew, or reasonably should have known, of the alleged violation.⁷⁹

Florida law defines the term “anonymous age verification” as a commercially reasonable method used by a government agency or a business for the purpose of age verification which is conducted by a nongovernmental, independent third party organized under the laws of a state of the United States which:

- Has its principal place of business in a state of the United States; and
- Is not owned or controlled by a company formed in a foreign country, a government of a foreign country, or any other entity formed in a foreign country.⁸⁰

A third party conducting anonymous age verification:

- May not retain personal identifying information used to verify age once the age of an account holder or a person seeking an account has been verified;
- May not use personal identifying information used to verify age for any other purpose;
- Must keep anonymous any personal identifying information used to verify age; and
- Must protect personal identifying information used to verify age from unauthorized or illegal access, destruction, use, modification, or disclosure through reasonable security procedures and practices appropriate to the nature of the personal information.⁸¹

Protection of Children in Online Spaces Law

Florida law provides that any online service, product, game, or feature likely to be predominantly accessed by children under 18 years of age may not, except under certain situations:

- Process the personal information of any child if the platform has actual knowledge or willfully disregards that the processing may result in substantial harm or privacy risk to children.
- Profile a child.
- Collect, sell, share, or retain any personal information that is not necessary to provide an online service, product, or feature with which a child is actively and knowingly engaged.
- Use a child’s personal information for any unstated reason.
- Collect, sell, or share any precise geolocation of data of children.
- Use dark patterns to:
 - Lead or encourage children to provide personal information beyond what personal information would otherwise be reasonably expected to be provided for that online service, product, game or feature.
 - Forego privacy protections.
 - Take any action that the online platform has actual knowledge of or willfully disregards that may result in substantial harm or privacy risk to children.

- Use collected information to estimate age or age range for any other purpose or retain that personal information longer than necessary to estimate age.⁸²

In 2024, the Legislature enacted a law to prohibit children under the age of 14 from creating a social media account.⁸³ A social media platform must do the following:

- Terminate any account held by an account holder younger than 14 years of age, including accounts that the social media platform treats or categorizes as belonging to an account holder who is likely younger than 14 years of age for purposes of targeting content or advertising, and provide 90 days for an account holder to dispute such termination.
- Allow an account holder younger than 14 years of age to request to terminate the account.
- Allow the confirmed parent or guardian of an account holder younger than 14 years of age to request that the minor's account be terminated. Termination must be effective within 10 business days after such request.
- Permanently delete all personal information held by the social media platform relating to the terminated account, unless there are legal requirements to maintain such information.⁸⁴

A social media platform must prohibit a minor who is 14 or 15 years of age from entering into a contract with a social media platform to become an account holder, unless the minor's parent or guardian provides consent for the minor to become an account holder.⁸⁵

A social media platform must do the following:

- Terminate any account held by an account holder who is 14 or 15 years of age, including accounts that the social media platform treats or categorizes as belonging to an account holder who is likely 14 or 15 years of age for purposes of targeting content or advertising, if the account holder's parent or guardian has not provided consent for the minor to create or maintain the account. The social media platform must provide 90 days for an account holder to dispute such termination. Termination must be effective upon the expiration of the 90 days if the account holder fails to effectively dispute the termination.
- Allow an account holder who is 14 or 15 years of age to request to terminate the account. Termination must be effective within 5 business days after such request.
- Allow the confirmed parent or guardian of an account holder who is 14 or 15 years of age to request that the minor's account be terminated. Termination must be effective within 10 business days after such request.
- Permanently delete all personal information held by the social media platform relating to the terminated account, unless there are legal requirements to maintain such information.⁸⁶

Any knowing or reckless violation of s. 501.1736(2) or (3), F.S., is deemed an unfair and deceptive trade practice, and the department has enforcement authority.⁸⁷ In addition to the remedies under the Florida Deceptive and Unfair Trade Practices Act, the department may

collect a civil penalty of up to \$50,000 per violation and reasonable attorney fees and court costs for a violation by a third party.⁸⁸ When the social media platform's failure to comply with the requirements is a consistent pattern of knowing or reckless conduct, punitive damages may be assessed against the social media platform.⁸⁹

A social media platform that knowingly or recklessly violates s. 501.1736(2) or (3), F.S., is liable to the minor account holder, including court costs and reasonable attorney fees as ordered by the court. Claimants may be awarded up to \$10,000 in damages. A civil action for a claim must be brought within 1 year from the date the complainant knew, or reasonably should have known, of the alleged violation.⁹⁰

Litigation Status

In October of 2024, the Computer and Communications Industry Association and NetChoice (Association) filed a lawsuit in the U.S. District Court for the Northern District of Florida to challenge Florida's social media law that among other requirements, requires certain social media platforms to prohibit minors under age 14 from becoming an account holder or maintaining an account on such platforms, and in June of 2025, the district court granted the Association's motion for a preliminary injunction.⁹¹ Florida appealed this decision and requested that the Eleventh Circuit "stay" the injunction to allow the law to take effect while the appeal continues.⁹² In November of 2025, the Eleventh Circuit granted Florida's motion for a "stay," which allows Florida to enforce the law while the appeal proceeds.⁹³ The case is currently pending before the Eleventh Circuit.⁹⁴

Florida Deceptive and Unfair Trade Practices Act (FDUTPA)

The FDUTPA is a consumer and business protection measure that prohibits unfair methods of competition, and unconscionable, deceptive, or unfair acts or practices in the conduct of trade or commerce.⁹⁵ The FDUTPA was modeled after the Federal Trade Commission Act.⁹⁶

The Department of Legal Affairs (DLA) or the state attorney's office in the judicial circuit affected or where the violation occurs may bring actions on behalf of consumers or governmental entities when it serves the public interest.⁹⁷ The state attorney's office may enforce violations of the FDUTPA if the violations take place within its jurisdiction.

The DLA has enforcement authority when:

- The violation is multi-jurisdictional;
- The state attorney defers to the DLA in writing; or
- The state attorney fails to act within 90 days after a written complaint is filed.⁹⁸

In certain circumstances, consumers may also file suit through private actions.⁹⁹

The DLA and the state attorney's office have powers to investigate the FDUTPA claims, which include:¹⁰⁰

- Administering oaths and affirmations;
- Subpoenaing witnesses or matter; and
- Collecting evidence.

The DLA and the state attorney's office may seek the following remedies:¹⁰¹

- Declaratory judgments;
- Injunctive relief;
- Actual damages on behalf of consumers and businesses;
- Cease and desist orders;¹⁰² and
- Civil penalties of up to \$10,000 per willful violation.¹⁰³

The FDUTPA may not be applied to certain entities in certain circumstances, including:¹⁰⁴

- Any person or activity regulated under laws administered by the Office of Insurance Regulation or the Department of Financial Services; and
- Banks, credit unions, and savings and loan associations regulated by the Office of Financial Regulation or federal agencies.

Artificial Intelligence in Education

Artificial intelligence (AI) provides opportunities to customize and accelerate learning for students and reduce teacher workload.¹⁰⁵ School districts are moving from policy guidance to deployment through major instructional platforms. For example, Miami-Dade Schools provides no-cost AI tools in the classroom and related supports for teachers and students.¹⁰⁶ Some districts are piloting AI tools for instructional support and personalization. Pasco County Schools has described using AI-driven tools to help staff identify student needs and support differentiated

instruction.¹⁰⁷ However, school districts in Florida implement AI differently and are using different AI tools for educators and students. The AI tools most used by school districts are Microsoft Copilot, Canva, and Magicschool.ai, and the AI tools most used by students are Gemini for students, Khanmigo, Canva, and Microsoft Copilot.¹⁰⁸

In 2024, the Legislature created the Florida Tutoring Advantage, administered by the University of Florida Lastinger Center for Learning to support school districts with tutoring programs that include virtual tutoring and automated tutoring software for students in kindergarten through grade 5.¹⁰⁹ A school district may receive grant funds for subscription fees and professional learning to support and accelerate learning for students in grades 6 through 12 during the school day. Grant recipients must select an AI platform that:

- Uses large language models based on GPT-4, its equivalent, or a successor, and is on a closed system.
- Provides professional learning to teachers.
- Provides one-on-one tutoring aligned to the Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards for reading and mathematics.
- Provides standards-aligned lesson plans and provides insights on student progress. Provides district-and school-level reporting and parental access to artificial intelligence interactions.¹¹⁰

K-12 Student and Parent Rights

The Legislature has determined that it is a fundamental right of parents to direct the upbringing, education, and care of their minor children. Important information relating to a minor child should not be withheld, either inadvertently or purposefully, from his or her parent, including information relating to the minor child's health, well-being, and education, while the minor child is in the custody of the school district.¹¹¹ Parents of public school students are required by law to receive accurate and timely information regarding their child's academic progress and must be informed of ways they can help their child succeed in school.¹¹² K-12 students and their parents are afforded numerous statutory rights pertaining to student education,¹¹³ which includes the right for a parent to object to instructional materials and other materials used in the classroom,¹¹⁴ and the right to access their students' educational records.¹¹⁵

Instructional Materials

Each district school board has the constitutional duty and responsibility to select and provide adequate instructional materials to each student for core courses in mathematics, language arts, science, social studies, reading, and literature for kindergarten through grade 12.¹¹⁶ School districts may purchase instructional materials from a list of state-reviewed and adopted instructional materials or establish their own review and adoption program.¹¹⁷ District school boards receive state funding for instructional materials through the instructional materials allocation.¹¹⁸

Each district school board is responsible for the content of all instructional materials and any other materials used in the classroom, made available in a school library, or included on a reading list. Each district school board must maintain on its website a current list of instructional materials, purchased by the district, separated by grade level. Florida law establishes that the parent of a public school student has the right to receive effective communication from the school principal about the manner in which instructional materials are used to implement curricular objectives.¹¹⁹

Student Online Personal Information Protection

Online service operators that have actual knowledge their product is used for K-12 school purposes, or that are designed and marketed for K-12 school purposes, are subject to student online information protection requirements governing the collection, use, maintenance, and disclosure of student “covered information” obtained through K-12 school purpose use.¹²⁰

“Covered information” includes student personal identifying information and other specified student data created, provided, or gathered through use of an operator’s site, service, or application for K-12 school purposes.¹²¹ “K-12 school purposes” includes instruction in the classroom or at home, administrative activities, and collaboration among students, school personnel, or parents.¹²²

Such operators are prohibited from using covered information for targeted advertising, creating or compiling student profiles except in furtherance of K-12 school purposes, and selling, renting, or sharing covered information.¹²³ Operators must take specified protective steps, including limiting collection and use to what is needed for K-12 school purposes, implementing reasonable security procedures and practices, and deleting covered information at the conclusion of the course or corresponding program and no later than 90 days after a student is no longer enrolled in a school within the district when the district provides notice, unless a parent expressly consents to retention.¹²⁴

- The teaching of reproductive health or any disease, including HIV/AIDS.¹²⁵
- Any portion of the school district's comprehensive health education that relates to sex education instruction in acquired immune deficiency syndrome education or any instruction regarding sexuality.¹²⁶
- Any district-level data collection.¹²⁷

III. Effect of Proposed Changes:

Government Contracting

Section 1 amends s. 287.138, F.S., which prohibits a governmental entity from contracting with entities of foreign countries of concern under certain circumstances. The bill defines “artificial intelligence” as an engineered or machine-based system that varies in its level of autonomy and that can, for explicit or implicit objectives, infer from the input it receives how to generate outputs that influence physical or virtual environments.

Beginning July 1, 2026, a governmental entity may not extend or renew a contract with an entity for artificial intelligence technology, software, or products, including as a portion or an option to the products or services provided under contracts if:

- The entity is owned by the government of a foreign country of concern;
- A government of a foreign country of concern has a controlling interest in the entity; or
- The entity is organized under the laws of, or has its principal place of business in, a foreign country of concern.

Beginning July 1, 2026, a governmental entity may not accept a bid on, a proposal for, or a reply to, or enter into a contract with, an entity to provide artificial intelligence technology software, or products, including as a portion or an option to the products or services provided under the contract, unless the entity provides the governmental entity with a signed affidavit that is signed by an officer or representative of the entity under penalty of perjury attesting that the entity is not owned by the government of a foreign country of concern, a government of a foreign country of concern does not have a controlling interest in the entity, or the entity is not organized under the laws or have its principle place of business in a foreign country of concern.

The Artificial Intelligence Bill of Rights

Sections 2 and 3 creates part IX of ch. 501, F.S., to be entitled the “Artificial Intelligence Bill of Rights.”

Section 4 creates s. 501.9982, F.S., to enumerate the rights Floridians have relating to the use of artificial intelligence:

¹²⁵ Section 1002.20, F.S.

¹²⁶ Section 1014.05, F.S.

¹²⁷ *Id.*

- The right to use artificial intelligence to improve their own lives and the lives of family members, fellow residents, and the world at large in accordance with the law.
- The right to supervise, access, limit, and control their minor children's use of artificial intelligence.
- The right to know whether they are communicating with a human being or an artificial intelligence system, program, or chatbot.
- The right to know if artificial intelligence technology companies are collecting personal information or biometric data, and the right to expect artificial technology companies to protect and deidentify that information or data in accordance with the law.
- The right to pursue civil remedies authorized by law against persons who use artificial intelligence to appropriate the name, image, or likeness of others for commercial purposes without consent.
- The right to be protected by law from criminal acts, such as fraud, exploitation, identity theft, stalking, and cyberbullying, regardless of whether artificial intelligence is used in the commission of those acts.
- The right to be protected by law from criminal acts relating to the alteration of existing images to create sexual or lewd or lascivious images or child pornography, regardless of whether artificial technology is used in the commission of those acts.
- The right to know whether political advertisements, electioneering communications, or similar advertisements were created in whole or in part with the use of artificial intelligence.
- The right to pursue civil remedies authorized by law against others who use artificial intelligence to slander, libel, or defame them.
- The right to prevent a companion chatbot from engaging with a user as a character that is protected by federal copyright law without the express written consent of the copyright owner.
- The right to prevent a companion chatbot from engaging with a user as a character that is a living individual without the express written consent of that individual.
- The right to prevent generative artificial intelligence from using a character that is protected by federal copyright law without the express written consent of the copyright owner.

The bill provides that "residents may exercise the aforementioned rights in accordance with existing law, and such rights may not be construed as creating new or independent rights or entitlements."

Definitions

Section 5 provides the following definitions, which apply to the sections of law that create the "Artificial Intelligence Bill of Rights:"

- "Account holder" means an individual who opens an account or creates a profile or is identified by the companion chatbot platform by a unique identifier while he or she is using or accessing the platform, if the platform knows or has reason to believe the individual is a resident of Florida.
- "Artificial Intelligence" means a machine-based system that can, for a given set of human-defined objectives, make predictions, recommendations, or decisions influencing real or virtual environments.

- “Artificial intelligence technology company” means a business or organization that produces, develops, creates, designs, or manufactures artificial intelligence technology or products, collects data for use in artificial intelligence products, or implements artificial intelligence technology.
- “Bot” means an automated online software application in which all or substantially all of the actions or posts of the account are not the result of a natural person.
- “Companion chatbot” means an artificial intelligence system with a natural language interface that provides adaptive, human-like responses to user inputs and is capable of meeting a user’s social needs by retaining information on prior interactions or user sessions and user preferences to personalize the interaction and facilitate ongoing engagement, asking unprompted or unsolicited emotion-based questions that go beyond a direct response to a user prompt, and sustaining an ongoing dialogue personalized to the user. The term does not include:
 - A chatbot used only for customer service; a business’s internal operational purposes, productivity and analysis; or uses related to source information, internal research, or technical assistance;
 - A chatbot that is a feature of a video game or theme park and is limited to replies related to the video game or theme park experience and does not discuss topics related to mental health, self-harm, or material harmful to minors or maintain a dialogue on other topics unrelated to the video game or theme park;
 - A stand-alone consumer electronic device that functions as a speaker and voice command interface, acts as a voice activated virtual assistant, and does not sustain a relationship across multiple interactions or generate outputs likely to elicit emotional responses in the user; or
 - An artificial intelligence instructional tool, as defined in s. 1006.1495.
- “Companion chatbot platform” means a platform that allows a user to engage with companion chatbots.
- “Deidentified data” means data that cannot reasonably be linked to an identified or identifiable individual or a device linked to that individual.
- “Department” means the Department of Legal Affairs (DLA).
- “Material harmful to minors” has the same meaning as in s. 501.1737(1), F.S.
- “Operator” means a person who owns, operates, or otherwise makes available a bot to individuals in Florida.
- “Pop-up” means a visible notification on the computer, tablet, or smartphone screen of a user which may be resolved if the user interacts with or responds to the notification.
- “Resident” means an individual who has resided in Florida for more than 6 months during the preceding 12-month period.
- “Theme park” has the same meaning as theme park or entertainment complex in s. 509.013.¹²⁸
- “User” means an individual who resides or is domiciled in Florida and who accesses an Internet website, online or cloud-computing service, online application, or mobile application.

¹²⁸ Section 509.013(9), F.S., provides that “theme park or entertainment complex” means a complex comprised of at least 25 contiguous acres owned and controlled by the same business entity and which contains permanent exhibitions and a variety of recreational activities and has a minimum of 1 million visitors annually.

- “Video game” means a game played on an electronic amusement device that uses a computer, microprocessor, or similar electronic circuitry and its own monitor, or is designed to be used with a television set or a computer monitor, to interact with the user of the device.

Companion Chatbot Use for Minors

Section 6 creates s. 501.9984, F.S., which provides regulations pertaining to the use of companion chatbots by minors.

The bill requires a companion chatbot platform to prohibit a minor from entering into a contract with the platform to become an account holder or from maintaining an existing account, unless the minor’s parent or guardian provides consent for the minor to become an account holder or maintain an existing account.

If the parent or guardian of a minor provides consent for the minor to become an account holder or maintain an existing account, the companion chatbot platform must allow the consenting parent or guardian of the minor account holder to:

- Receive copies of all past or present interactions between the account holder and the companion chatbot;
- Limit the amount of time that the account holder may interact with the companion chatbot each day;
- Limit the days of the week and the times during the day when the account holder may interact with the companion chatbot;
- Disable any of the interactions between the account holder and third-party account holders on the companion chatbot platform; and
- Receive timely notifications if the account holder expresses to the companion chatbot a desire or an intent to engage in self-harm or to harm others.

The bill requires a companion chatbot platform to do all of the following;

- Terminate any account or identifier belonging to an account holder who is a minor if the companion chatbot platform treats or categorizes the account or identifier as belonging to a minor for purposes of targeting content or advertising and if the minor’s parent or guardian has not provided consent for the minor to become an account holder or to maintain an existing account;¹²⁹
- Allow an account holder who is a minor to request to terminate the account;¹³⁰
- Allow the consenting parent or guardian of an account holder who is a minor to request the minor’s account or identifier be terminated;¹³¹ and
- Permanently delete all personal information held by the companion chatbot platform relating to the terminated account, unless state or federal law requires the platform to maintain the information.

¹²⁹ The bill requires the companion chatbot platform to provide 90 days for the account holder to dispute the termination. Termination must be effective upon the expiration of the 90 days if the account holder fails to effectively dispute the termination.

¹³⁰ The bill provides that termination must be effective within 5 business days after the request.

¹³¹ The bill requires to termination to be effective within 10 business days after the request.

In connection with all accounts or identifiers held by account holders who are minors, the bill requires a companion chatbot platform to do all of the following:

- Disclose to the account holder that he or she is interacting with artificial intelligence;
- Provide by default a clear and conspicuous notification to the account holder, at the beginning of companion chatbot interactions and at least once every hour during continuing interactions, reminding the minor to take a break and that the companion chatbot is artificially generated and not human; and
- Institute reasonable measures to prevent its companion chatbot from producing or sharing materials harmful to minors or encouraging the account holder to engage in any of the content described or depicted in materials harmful to minors.

Right to Cure

After the DLA has notified a companion chatbot platform in writing of an alleged violation, the DLA may grant the companion chatbot platform 45 calendar days to cure the alleged violation and may issue a letter of guidance stating that the companion chatbot platform will not be given another 45-calendar-day cure period for any future violation. The DLA may consider the number and frequency of violations, the substantial likelihood of injury to the public, and the safety of persons or property in determining whether to grant the companion chatbot platform the ability to cure a violation and issue a letter of guidance.

The cure period does not apply to an alleged violation where the companion chatbot platform willfully or knowingly disregarded the account holder's age.

The companion chatbot platform may provide for the DLA's consideration information that shows that the reasonable measures taken by the platform include controls aligned with the latest versions of the National Institute of Standards and Technology AI Risk Management Framework, ISO 42001.¹³² Such information may include structured interaction logs, status of parental access controls, harm-signal detection and response procedures enacted, and verified deletion events.

If the alleged violation is cured to the satisfaction of the DLA, and proof of such cure is provided to the DLA, the DLA may not bring an action for the alleged violation, but may issue a letter of guidance stating that the companion chatbot platform will not be offered a 45-calendar-day cure period for any future violation of this section. However, if the companion chatbot platform fails to cure the alleged violation within 45 calendar days, the DLA may bring an action against such platform for the alleged violation.

Enforcement and Penalties

The bill establishes that a knowing or reckless violation of the section regulating companion chatbot use for minors is deemed a deceptive or unfair trade practice or act actionable under part II of ch. 501, F.S., solely by the DLA against a companion chatbot platform. The DLA is also given enforcement authority.

¹³² This is a standard for managing AI risks and provides a framework for establishing, implementing, maintaining, and improving AI management systems.

In addition to the other remedies under the FDUTPA, the DLA is authorized to collect a civil penalty of up to \$50,000 per violation and reasonable attorney fees and court costs. If there is a consistent pattern of knowing or reckless conduct, punitive damages may be assessed against a companion chatbot platform.

A companion chatbot platform that knowingly or recklessly violates this section is liable to a minor account holder for up to \$10,000 in damages, as well as court costs and reasonable attorney fees as ordered by the court.¹³³ A civil claim must be brought within 1 year after the date the complainant knew, or reasonably should have known, of the alleged violation.

For the purposes of bringing an action under the section of the bill regulating companion chatbot use for minors, a companion chatbot platform that allows a minor account holder in Florida to create an account on the platform is considered to be both in substantial and not isolated activities within Florida and operating, conducting, engaging in, or carrying on business in Florida, and is therefore subject to the jurisdiction of the courts of Florida.

The bill establishes that if a companion chatbot platform allows a minor account holder to use the companion chatbot platform, the parties have entered into a contract.

The bill grants rulemaking authority to the DLA.

Consumer Protections Regarding Bots

Section 7 creates s. 501.9985, F.S., to provide protection to consumers that engage with bots.

The bill requires an operator to display a pop-up message or other prominent notification notifying the user, or if the interaction is not through a device with a screen, otherwise inform the user, that they are not engaging with a human counterpart at the beginning of an interaction between a user and a bot, and at least once every hour during the interaction. This section does not apply to a bot that is used solely by employees within a business for its internal operational purposes.

Right to Cure

After the DLA has notified an operator in writing of an alleged violation, the DLA may grant the operator 45 calendar days to cure the alleged violation and may issue a letter of guidance stating that the companion chatbot platform will not be offered another 45-day cure period for any future violations. The DLA may consider the number and frequency of violations, the substantial likelihood of injury to the public, and the safety of persons or property in determining whether to grant an operator 45 calendar days to cure and issue the letter of guidance.

The operator may provide for the DLA's consideration, information that demonstrates that the operator provides persistent and conspicuous identity indicators and accessible disclosures which

¹³³ The bill provides that an action brought under s. 501.9984(4), F.S., may only be brought on behalf of a minor account holder.

are in conformity with the latest versions of the National 351 Institute of Standards and Technology AI Risk Management 352 Framework, ISO 42001.¹³⁴

If the alleged violation is cured to the satisfaction of the DLA and proof of such cure is provided to the DLA, the DLA may not bring an action for the alleged violation but may issue a letter of guidance that indicates that the operator will not be offered a 45-calendar day cure period for any future violations. However, if the operator fails to cure the alleged violation within 45 calendar days, the DLA may bring an action against such platform for the alleged violation.

Enforcement and Penalties

A violation of the section of the bill providing protection to consumers that engage with bots is deemed a deceptive or unfair trade practice or act actionable under part II of ch. 501, F.S., solely by the DLA on behalf of a user of a bot.¹³⁵ The DLA is also given enforcement authority, and in addition to any other remedy under part II of ch. 501, F.S., the DLA may collect a civil penalty of up to \$50,000 per violation, as well as reasonable attorney fees and court costs.

For the purpose of bringing an action pursuant to the section of the bill providing protection to consumers that engage with bots, a person who meets the definition of an operator that owns, operates, or otherwise makes available a bot to individuals in Florida is considered to be both engaged in substantial and not isolated activities within Florida and operating, conducting, engaging in, or carrying on a business and doing business in Florida, and is therefore subject to the jurisdiction of the courts of Florida.

The bill grants rulemaking authority to the DLA.

Deidentified Data

Section 8 prohibits an artificial technology company from selling or disclosing personal information of users unless the information is deidentified data. However, this does not prohibit the sale or disclosure of information specifically authorized by federal law.

The bill defines “deidentified data” as data that cannot reasonably be linked to an identified or identifiable individual or device linked to that individual.

The bill requires an artificial intelligence technology company in possession of deidentified data to do all of the following:

- Take reasonable measures to ensure that the data cannot be associated with an individual;
- Maintain and use the data in deidentified form;¹³⁶

¹³⁴ This is a standard for managing AI risks and provides a framework for establishing, implementing, maintaining, and improving AI management systems.

¹³⁵ The bill provides that for the purpose of bringing an action pursuant to this section, ss. 501.211 and 501.212, F.S., do not apply. Section 501.211, F.S., provides for individual remedies under the FDUTPA, and s. 501.212, F.S., provides for application of the FDUTPA.

¹³⁶ The bill provides that an artificial intelligence technology company may not attempt to reidentify the data, except the company may attempt to reidentify the data solely for the purpose of determining whether its deidentification processes satisfy the requirements of this section of the bill.

- Contractually obligate a recipient of the deidentified data to comply with the section of the bill prohibiting the sell or disclosure of user's information unless such information is deidentified data; and
- Implement business processes to prevent the inadvertent release of deidentified data.

Right to Cure

After the DLA has notified an artificial intelligence technology company in writing of an alleged violation, the DLA may grant the artificial intelligence technology company 45 calendar days to cure the alleged violation and may issue a letter of guidance stating that the artificial intelligence technology company will not be offered another 45-calendar-day cure period for any future violations. The DLA may consider the number and frequency of violations, the substantial likelihood of injury to the public, and the safety of persons or property in determining whether to grant the artificial intelligence technology company 45 calendar days to cure and issue the letter of guidance.

The artificial intelligence technology company may provide to the DLA for their consideration, information that shows the company maintains a risk management program that:

- Validates the company's information security and privacy controls against a recognized framework aligned with the latest versions of the National Institute of Standards and Technology AI Risk Management Framework, ISO 42001,¹³⁷ and
- Includes assessed controls for deidentification, contractual flow-down, non-reidentification, inadvertent release prevention, monitoring, and auditing sufficient to demonstrate that the company is taking reasonable measures to meet the requirements of this section.

If the alleged violation is cured to the satisfaction of the DLA and proof of such cure is provided to the DLA, the DLA may not bring an action for the alleged violation but may issue a letter of guidance that indicates that the artificial intelligence technology company will not be offered another 45-calendar-day cure period for any future violations. However, if the artificial intelligence technology company fails to cure the alleged violation within the 45-calendar-day cure period, the DLA may bring an action against such company for the alleged violation.

Enforcement and Penalties

A violation of the section of the bill prohibiting the sell or disclosure of user's information unless such information is deidentified data is deemed a deceptive or unfair trade practice or act actionable under part II of ch. 501, F.S., solely by the DLA.¹³⁸ The DLA is also given enforcement authority, and in addition to any other remedy under part II of ch. 501, F.S., the DLA may collect a civil penalty of up to \$50,000 per violation, as well as reasonable attorney fees and court costs.

¹³⁷ This is a standard for managing AI risks and provides a framework for establishing, implementing, maintaining, and improving AI management systems.

¹³⁸ The bill provides that for the purpose of bringing an action pursuant to this section, ss. 501.211 and 501.212, F.S., do not apply. Section 501.211, F.S., provides for individual remedies under the FDUTPA, and s. 501.212, F.S., provides for application of the FDUTPA.

For the purpose of bringing an action pursuant to the section of the bill prohibiting the sell or disclosure of user's information unless such information is deidentified data, a person who meets the definition of an artificial intelligence technology company that produces, develops, creates, designs, or manufactures artificial intelligence technology or products, collects data for use in artificial intelligence products, or implements artificial technology in Florida is considered to be both engaged in substantial and not isolated activities within Florida and operating, conducting, engaging in, or carrying on a business, and doing business in Florida, and is therefore subject to the jurisdiction of the courts of Florida.

The bill grants rulemaking authority to the DLA.

Investigations by the DLA

Section 9 creates s. 501.9987, F.S., to provide guidelines for investigations by the DLA. If, by its own inquiry or as a result of complaints, the DLA has reason to believe that a person has engaged in, or is engaging in, a practice or an act that violates the Artificial Intelligence Bill of Rights, the DLA may administer oaths and affirmations, subpoena witnesses or matter, and collect evidence.

Within 5 days, excluding weekends and legal holidays, after service of a subpoena or at any time before the return date specified in the subpoena, whichever time period is longer, the party served may file a petition for an order modifying or setting aside the subpoena. The petitioner may raise any objection or privilege that would be available upon service of a subpoena in a civil action. Additionally, the subpoena must inform the party served of the party's rights under the section of the bill providing guidelines for investigations by the DLA.

If the matter that the DLA seeks to obtain by subpoena is located outside of Florida, the person subpoenaed may make the matter available to the DLA or its representative at the place where it is located. The DLA may designate representatives, including officials of the state in which the matter is located, to inspect the matter on its behalf and respond to similar requests from officials of other states.

The bill also authorizes the DLA to request that a person who refuses to comply with a subpoena on the grounds that the testimony or matter may be self-incriminating be ordered by the court to provide the testimony or matter. Except for prosecution for perjury, a person who complies with a court order to provide testimony or matter after asserting a valid privilege against self-incrimination may not have the testimony or matter so provided, or evidence deprived from the testimony or matter, received against the person in any criminal investigation or proceeding.

A person whom a subpoena is served pursuant to an investigation under the Artificial Intelligence Bill of Rights must comply with its terms unless otherwise provided by order of the court. A person who fails to appear, with the intent to avoid, evade, or prevent compliance in whole or in part with an investigation under the Artificial Intelligence Bill of Rights, or who removes from any place, conceals, withholds, mutilates, alters, or destroys, or by any other means falsifies any documentary material in the possession, custody, or control of a person subject to subpoena, or who knowingly conceals relevant information with the intent to avoid,

evade, or prevent compliance, is liable for a civil penalty of not more than \$5,000 per week in violation, reasonable attorney fees, and costs.

The bill grants rulemaking authority to the DLA.

Unauthorized Publication of Name, Image, or Likeness

Section 10 amends s. 540.08, F.S., to prohibit a person from publishing, printing, displaying, or otherwise publicly using for trade or for any commercial or advertising purpose the name, portrait, photograph, image, or other likeness of an individual created through generative artificial intelligence without the express written or oral consent to such use. Such consent may be given by any of the following:

- The individual;
- Any other person authorized in writing by the individual to license the commercial use of the individual's name, image, or likeness; or
- If the individual is deceased, a person authorized in writing to license the commercial use of the individual's name, image, or likeness, or if a person is not authorized, any one individual from a class composed of the deceased individual's surviving spouse and surviving children.¹³⁹

The bill provides the following definitions:

- “Generative artificial intelligence” means a machine-based system that can, for a given set of human-defined objectives, emulate the structure and characteristics of input data in order to generate derived synthetic content, including images, videos, audio, text, and other digital content.
- “Person” has the same meaning as in s. 1.01(3), F.S.¹⁴⁰
- “Servicemember” has the same meaning as in s. 250.01, F.S., and includes any officer or enlisted member who died from service-connected causes while on active duty.¹⁴¹
- “Surviving children” means an individual's immediate offspring and any children legally adopted by the individual.
- “Surviving spouse” means an individual's surviving spouse under the law of the individual's domicile at the time of the individual's death, regardless of whether the spouse later remarried.

The bill adds “image” throughout s. 540.08, F.S., to provide that a person is prohibited from publishing, printing, displaying, or otherwise publicly using for the purpose of trade or for any commercial or advertising purpose the name, portrait, photograph, image, or other likeness of an individual without express written or oral consent.

The bill changes “person” to “individual” throughout s. 540.08, F.S.

¹³⁹ The bill provides that a legal parent or guardian may give consent on behalf of a minor surviving child.

¹⁴⁰ Section 1.01(3), F.S., defines “person” as including individuals, children, firms, associations, joint adventures, partnerships, estates, trusts, business trusts, syndicates, fiduciaries, corporations, and all other groups or combinations.

¹⁴¹ Section 250.01, F.S., defines “servicemember” as any person serving as a member of the United States Armed Forces on active duty or state active duty and all members of the Florida National Guard and United States Reserve Forces.

The bill provides that this section does not apply to the publication, printing, display, or use of the name, portrait, photograph, image, or other likeness of an individual created through generative artificial intelligence in a newspaper, magazine, book, news broadcast or telecast, radio broadcast, or other news medium or publication if the generative artificial intelligence is used as part of a bona fide news report or presentation and that report or presentation contains a clear acknowledgement of speculation regarding the authenticity of the materials which are the subject of the report or presentation.

The bill clarifies that a legal parent or guardian may give consent on behalf of a minor surviving child.

Artificial Intelligence Instructional Tools

Section 12 creates s. 1006.1495, F.S., which establishes a statewide framework for artificial intelligence instructional tools used by educational entities, including definitions, parent notice, opt-outs, parent or eligible student read-only account access, and construction. The bill excludes an artificial intelligence instructional tool from the definition of “companion chatbot,” thereby exempting such tools from the companion chatbot platform requirements in the bill.

The bill provides the following definitions:

- “Artificial intelligence instructional tool” means a software application or service that uses artificial intelligence, including machine learning, which is made available to a student by an educational entity for educational purposes, including instruction, tutoring, practice, feedback, or completing educator-directed assignments, and that is not designed, marketed, or configured to:
 - Meet a student’s social needs;
 - Simulate friendship, companionship, or an emotional relationship with a student; or
 - Employ relationship-building or anthropomorphic design features for the purpose of encouraging a student to continue interacting with the system.
- “Educational entity” means a school district, a public school, or a private school. The term includes a VPK provider meaning a private prekindergarten provider or a public school prekindergarten provider, as those terms are defined in s. 1002.51, F.S., which delivers the Voluntary Prekindergarten Education Program under part V of chapter 1002, F.S.
- “Operator” means a person who operates an artificial intelligence instructional tool and collects, receives, maintains, or uses student information or student-generated content through the tool.
- “Parent” includes a parent, guardian, or other person with legal authority to make educational decisions for a student.
- “Private school” has the same meaning as in s. 1002.01(3), F.S.¹⁴²

¹⁴² Section 1002.01(3), F.S., defines “private school” as a nonpublic school defined as an individual, association, co-partnership, or corporation, or department, division, or section of such organizations, that designates itself as an educational center that includes kindergarten or a higher grade or as an elementary, secondary, business, technical, or trade school below college level or any organization that provides instructional services that meet the intent of s. 1003.01(16), F.S., or that gives preemployment or supplementary training in technology or in fields of trade or industry or that offers academic, literary, or career training below college level, or any combination of the above, including an institution that performs the functions of the above schools through correspondence or extension, except those licensed under the provisions of chapter 1005, F.S. A

- “Public school” means a component described in s. 1000.04(2), (4), (5), or (6), F.S.¹⁴³

An educational entity is prohibited from providing students with access to an artificial intelligence instructional tool before grade 6 unless such use is:

- Directed and supervised by school personnel;
- For translation or similar support necessary for a student identified as an English language learner; or
- For accommodations, assistive technology, or similar support necessary for a student with a documented disability.

Before a student is provided access credentials for an artificial intelligence instructional tool, the educational entity must provide the parent of a minor student with notice that:

- Identifies the tool and its educational purpose;
- Describes, in general terms, how the tool will be used by students;
- Explains how the parent may exercise the opt-out process; and
- Explains how the parent may access the student’s account or request access to information and account activity, including the method for submitting a written request.

A parent of a minor student must be provided the opportunity to opt out of the student’s use of an artificial intelligence instructional tool. The opt-out process must align with the educational entity’s existing policies for parental notice, consent, objection, or opt-out for instructional materials, digital tools, or online accounts, as applicable. If a parent opts out and the student is enrolled in a Florida public school, the school district or public school must provide an alternative instructional activity that allows the student to meet a comparative educational requirement without penalty.

At the time an operator provides a student’s access credentials or otherwise provides or enables student access to an educational entity for an artificial intelligence instructional tool, the operator must simultaneously provide to the educational entity a means to authorize the parent of a minor student to access information and account activity maintained within the artificial intelligence instructional tool. The operator may satisfy this requirement by:

- Providing the parent of a minor student credentials or another method for read-only access to the student’s account; or
- Upon written request from the parent of a minor student, providing access to the information and account activity maintained within the tool, in accordance with applicable state and federal law, within 30 days after receipt of the request. The educational entity must inform the parent of the right to make such a request and the method for submitting the request.

If an educational entity satisfies the parent-access requirement by using the read-only credential or access-method option, the educational entity must provide the credentials or other access method at the time the educational entity provides the student access credentials or otherwise enables student access.

private school may be a parochial, religious, denominational, for-profit, or nonprofit school. This definition does not include home education programs conducted in accordance with s. 1002.41, F.S.

¹⁴³ This includes Public K-12 schools, the Florida School for the Deaf and the Blind, The Florida Virtual School, and the Florida Scholars Academy.

Section 1006.1495(4), F.S., does not require an operator or an educational entity to create or retain a transcript or record of student interactions beyond information otherwise maintained in the ordinary course of providing access to the tool.

Section 1006.1495, F.S., does not alter a parent's rights under state or federal law to access student education records or an educational entity's obligations under applicable state and federal student privacy laws.

Private Schools

The bill requires private schools to comply with s. 1006.1495, F.S., when providing student access to an artificial intelligence instructional tool.

Incorporating Changes and Effective Date

Sections 13 and 14 reenact ss. 540.10 and 743.08, F.S., respectively, to incorporate the changes made to s. 540.08, F.S.

Section 15 of the bill provides an effective date of July 1, 2026.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

Article VI, Paragraph 2 of the U.S. Constitution, commonly referred to as the Supremacy Clause, establishes that the federal constitution, and federal law generally, take precedence over state laws and constitutions. The Supremacy Clause also prohibits states from interfering with the federal government's exercise of its constitutional powers and from assuming any functions that are exclusively entrusted to the federal government. It

does not, however, allow the federal government to review or veto state laws before they take effect.¹⁴⁴

The First Amendment to the U.S. Constitution guarantees that “Congress shall make no law ... abridging the freedom of speech.”¹⁴⁵ Generally, “government has no power to restrict expression because of its message, its ideas, its subject matter, or its content.”¹⁴⁶ The rights guaranteed by the First Amendment apply with equal force to state governments through the due process clause of the Fourteenth Amendment.¹⁴⁷

In most circumstances, these protections “are no less applicable when government seeks to control the flow of information to minors”¹⁴⁸ as states do not possess “a free-floating power to restrict the ideas to which children may be exposed.”¹⁴⁹

Many of the questions regarding the constitutionality of age verification laws may concern whether such laws are sufficiently narrow to avoid inhibiting more speech than necessary. The degree of tailoring required may vary depending on whether a given law is content-based or content-neutral. In both circumstances, a law’s constitutionality depends on several factors, including the:

- Strength of the government’s interest.
- Amount of protected speech that the law directly or indirectly restricts.
- Availability of less speech-restrictive alternatives.¹⁵⁰

Content-neutral regulations on free speech are legitimate if they advance important governmental interests that are not related to suppression of free speech, do so in a way that is substantially related to those interests, and do not substantially burden more speech than necessary to further those interests.¹⁵¹

The U.S. Supreme Court regards content-based laws, which limit communication because of the message it conveys, as presumptively unconstitutional.¹⁵² Such a law may be justified only if the government shows that the law is required to promote a compelling state interest and that the least restrictive means have been chosen to further that articulated interest.¹⁵³

In general, the U.S. Supreme Court has held that requiring adults to prove their age to access certain content is an unconstitutional, content-based limit on free speech, when

there are less restrictive means to curb access to minors, such as filters and parental controls.¹⁵⁴

According to Justice O'Connor's *Reno* dissent, because technology was insufficient for ensuring that minors could be excluded while still providing adults full access to protected content, the age verification provision was viewed as ultimately unconstitutional; however, she contemplated the possibility that future technological advances may allow for a constitutionally sound age verification law.¹⁵⁵

In June of 2025, the U.S. Supreme Court upheld a Texas law that requires commercial pornography websites to verify the age of their users.¹⁵⁶ The court applied intermediate scrutiny and upheld the law as constitutional because it merely imposes an incidental burden on adults' protected speech while serving the state's important interest in shielding children from harmful content.¹⁵⁷

Experts assert that age verification systems have progressed considerably from a generation ago when the U.S. Supreme Court held that age verification methods often failed and were too burdensome for law-abiding adults.¹⁵⁸ Currently, there are numerous minimally invasive verification techniques that do not require sharing any age verification information at all with social media platforms.¹⁵⁹

Additionally, in determining whether laws requiring age verification to access social media platforms unconstitutionally restrict free speech, courts have found that even if "the state has the power to enforce parental prohibitions it does not follow that the state has the power to prevent children from hearing or saying anything without their parents' prior consent."¹⁶⁰ Moreover:

[A]ge-verification requirements are more restrictive than policies enabling or encouraging users (or their parents) to control their own access to information, whether through user-installed devices and filters or affirmative requests to third-party companies. "Filters impose selective restrictions on speech at the receiving end, not universal restrictions at the source." And "[u]nder a filtering regime,

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Companion chatbot platforms, operators, and artificial intelligence technology companies will be required to implement the provisions of the bill.

C. Government Sector Impact:

The bill may have a workload impact on the Department of Legal Affairs due to the department’s enforcement authority provided in this bill. It is anticipated that the department has sufficient existing resources for this workload impact.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill creates the following sections of the Florida Statutes: 501.9981, 501.9982, 501.9983, 501.9984, 501.9985, 501.9986, 501.9987, and 1006.1495.

The bill substantially amends the following sections of the Florida Statutes: 287.138, 540.08, 540.10, 743.08, and 1002.42.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

¹⁶¹ *NetChoice, LLC v. Griffin*, 2023 WL 5660155, *21 (W.D. Ark. Aug. 31, 2023) (internal citations omitted).

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

160 Section 1. Present paragraphs (a) through (d) of subsection
 161 (1) and present subsection (7) of section 287.138, Florida
 162 Statutes, are redesignated as paragraphs (b) through (e) and
 163 subsection (8), respectively, a new paragraph (a) is added to
 164 subsection (1), a new subsection (7) is added to that section,
 165 and subsection (3) of that section is amended, to read:

166 287.138 Contracting with entities of foreign countries of
 167 concern prohibited.—

168 (1) As used in this section, the term:

169 (a) "Artificial intelligence" means a machine-based system
 170 that can, for a given set of human-defined objectives, make
 171 predictions, recommendations, or decisions influencing real or
 172 virtual environments.

173 (3) (a) Beginning July 1, 2025, a governmental entity may
 174 not extend or renew a contract with an entity listed in

10-00003-26D

20262D__

paragraphs (2) (a)-(c) if the contract would give such entity access to an individual's personal identifying information. Beginning July 1, 2026, a governmental entity may not extend or renew a contract with an entity listed in paragraph (7) (a), paragraph (7) (b), or paragraph (7) (c).

(b) Beginning July 1, 2026, a governmental entity may not accept a bid on, a proposal for, or a reply to, or enter into a contract with, an entity to provide artificial intelligence technology, software, or products, including as a portion or an option to the products or services provided under the contract, unless the entity provides the governmental entity with an affidavit signed by an officer or a representative of the entity under penalty of perjury attesting that the entity does not meet any of the criteria in paragraph (7) (a), paragraph (7) (b), or paragraph (7) (c).

(7) A governmental entity may not knowingly enter into a contract with an entity for artificial intelligence technology, software, or products, including as a portion or an option to the products or services provided under the contract, if:

(a) The entity is owned by the government of a foreign country of concern;

(b) A government of a foreign country of concern has a controlling interest in the entity; or

(c) The entity is organized under the laws of or has its principal place of business in a foreign country of concern.

Section 2. The Division of Law Revision is directed to create part IX of chapter 501, Florida Statutes, consisting of ss. 501.9981, 501.9982, 501.9983, 501.9984, 501.9985, 501.9986, and 501.9987, Florida Statutes, to be entitled the "Artificial

Section 3. Section 501.9981, Florida Statutes, is created to read:

501.9981 Short title.—This part may be cited as the "Artificial Intelligence Bill of Rights."

Section 4. Section 501.9982, Florida Statutes, is created to read:

501.9982 Rights relating to the use of artificial intelligence.—

(1) Residents are entitled to certain rights with respect to the use of artificial intelligence, including, but not limited to:

(a) The right to use artificial intelligence to improve their own lives and the lives of family members, fellow residents, and the world at large in accordance with the law.

(b) The right to supervise, access, limit, and control their minor children's use of artificial intelligence.

(c) The right to know whether they are communicating with a human being or an artificial intelligence system, program, or chatbot.

(d) The right to know whether artificial intelligence technology companies are collecting personal information or biometric data, and the right to expect artificial intelligence technology companies to protect and deidentify that information or data in accordance with the law.

(e) The right to pursue civil remedies authorized by law against persons who use artificial intelligence to appropriate the name, image, or likeness of others for commercial purposes without their consent.

10-00003-26D

20262D

(f) The right to be protected by law from criminal acts, such as fraud, exploitation, identity theft, stalking, and cyberbullying, regardless of whether artificial intelligence is used in the commission of those acts.

(g) The right to be protected by law from criminal acts relating to the alteration of existing images to create sexual or lewd or lascivious images or child pornography, regardless of whether artificial intelligence is used in the commission of those acts.

(h) The right to know whether political advertisements, electioneering communications, or similar advertisements were created in whole or in part with the use of artificial intelligence.

(i) The right to pursue civil remedies authorized by law against others who use artificial intelligence to slander, libel, or defame them.

(j) The right to prevent a companion chatbot from engaging with a user as a character that is protected by federal copyright law without the express written consent of the copyright owner.

(k) The right to prevent a companion chatbot from engaging with a user as a character that is a living individual without the express written consent of that individual.

(l) The right to prevent generative artificial intelligence from using a character that is protected by federal copyright law without the express written consent of the copyright owner.

(2) Residents may exercise the rights described in this section in accordance with existing law. This section may not be construed as creating new or independent rights or entitlements.

Section 5. Section 501.9983, Florida Statutes, is created to read:

501.9983 Definitions.—As used in this part, the term:

(1) "Account holder" means an individual who opens an account or creates a profile or is identified by the companion chatbot platform by a unique identifier while he or she is using or accessing the platform, if the platform knows or has reason to believe the individual is a resident of this state.

(2) "Artificial intelligence" means a machine-based system that can, for a given set of human-defined objectives, make predictions, recommendations, or decisions influencing real or virtual environments.

(3) "Artificial intelligence technology company" means a business or organization that produces, develops, creates, designs, or manufactures artificial intelligence technology or products, collects data for use in artificial intelligence products, or implements artificial intelligence technology.

(4) "Bot" means an automated online software application in which all or substantially all of the actions or posts of the account are not the result of a natural person.

(5) "Companion chatbot" means an artificial intelligence system with a natural language interface that provides adaptive, human-like responses to user inputs and is capable of meeting a user's social needs by retaining information on prior interactions or user sessions and user preferences to personalize the interaction and facilitate ongoing engagement, asking unprompted or unsolicited emotion-based questions that go beyond a direct response to a user prompt, and sustaining an ongoing dialogue personalized to the user. The term does not

10-00003-26D

291 include:

292 (a) A chatbot used only for customer service; a business's
 293 internal operational purposes, productivity and analysis; or
 294 uses related to source information, internal research, or
 295 technical assistance;

296 (b) A chatbot that is a feature of a video game or theme
 297 park and is limited to replies related to the video game or
 298 theme park experience and does not discuss topics related to
 299 mental health, self-harm, or material harmful to minors or
 300 maintain a dialogue on other topics unrelated to the video game
 301 or theme park;

302 (c) A stand-alone consumer electronic device that functions
 303 as a speaker and voice command interface, acts as a voice-
 304 activated virtual assistant, and does not sustain a relationship
 305 across multiple interactions or generate outputs likely to
 306 elicit emotional responses in the user; or

307 (d) An artificial intelligence instructional tool, as
 308 defined in s. 1006.1495.

309 (6) "Companion chatbot platform" means a platform that
 310 allows a user to engage with companion chatbots.

311 (7) "Deidentified data" means data that cannot reasonably
 312 be linked to an identified or identifiable individual or a
 313 device linked to that individual.

314 (8) "Department" means the Department of Legal Affairs.

315 (9) "Material harmful to minors" has the same meaning as in
 316 s. 501.1737(1).

317 (10) "Minor" means any person 17 years of age or younger.

318 (11) "Operator" means a person who owns, operates, or
 319 otherwise makes available a bot to individuals in this state.

10-00003-26D

20262D__

320 (12) "Pop-up" means a visible notification on the computer,
 321 tablet, or smartphone screen of a user which may be resolved if
 322 the user interacts with or responds to the notification.

323 (13) "Resident" means an individual who has resided in this
 324 state for more than 6 months during the preceding 12-month
 325 period.

326 (14) "Theme park" has the same meaning as the term theme
 327 park or entertainment complex as defined in s. 509.013.

328 (15) "User" means an individual who resides or is domiciled
 329 in this state and who accesses an Internet website, online or
 330 cloud-computing service, online application, or mobile
 331 application.

332 (16) "Video game" means a game played on an electronic
 333 amusement device that uses a computer, microprocessor, or
 334 similar electronic circuitry and its own monitor, or is designed
 335 to be used with a television set or a computer monitor, to
 336 interact with the user of the device.

337 Section 6. Section 501.9984, Florida Statutes, is created
 338 to read:

339 501.9984 Companion chatbot use for minors.—

340 (1) A companion chatbot platform shall prohibit a minor
 341 from becoming or being an account holder unless the minor's
 342 parent or guardian provides consent. If a companion chatbot
 343 platform allows a minor to become or be an account holder, the
 344 parties have entered into a contract.

345 (a) If the minor's parent or guardian provides consent for
 346 the minor to become an account holder or maintain an existing
 347 account, the companion chatbot platform must allow the
 348 consenting parent or guardian of the minor account holder to:

10-00003-26D

20262D__

- 349 1. Receive copies of all past or present interactions
 350 between the account holder and the companion chatbot;
 351 2. Limit the amount of time that the account holder may
 352 interact with the companion chatbot each day;
 353 3. Limit the days of the week and the times during the day
 354 when the account holder may interact with the companion chatbot;
 355 4. Disable any of the interactions between the account
 356 holder and third-party account holders on the companion chatbot
 357 platform; and
 358 5. Receive timely notifications if the account holder
 359 expresses to the companion chatbot a desire or an intent to
 360 engage in harm to self or others.
 361 (b) A companion chatbot platform shall do all of the
 362 following:
 363 1. Terminate any account or identifier belonging to an
 364 account holder who is a minor if the companion chatbot platform
 365 treats or categorizes the account or identifier as belonging to
 366 a minor for purposes of targeting content or advertising and if
 367 the minor's parent or guardian has not provided consent for the
 368 minor pursuant to subsection (1). The companion chatbot platform
 369 shall provide 90 days for the account holder to dispute the
 370 termination. Termination must be effective upon the expiration
 371 of the 90 days if the account holder fails to effectively
 372 dispute the termination.
 373 2. Allow an account holder who is a minor to request to
 374 terminate the account or identifier. Termination must be
 375 effective within 5 business days after the request.
 376 3. Allow the consenting parent or guardian of an account
 377 holder who is a minor to request that the minor's account or

- 378 identifier be terminated. Termination must be effective within
 379 10 business days after the request.
 380 4. Permanently delete all personal information held by the
 381 companion chatbot platform relating to the terminated minor
 382 account or identifier, unless state or federal law requires the
 383 platform to maintain the information.
 384 (2) In connection to all accounts or identifiers held by
 385 account holders who are minors, the companion chatbot platform
 386 shall do all of the following:
 387 (a) Disclose to the account holder that he or she is
 388 interacting with artificial intelligence.
 389 (b) Provide by default a clear and conspicuous notification
 390 to the account holder, at the beginning of companion chatbot
 391 interactions and at least once every hour during continuing
 392 interactions, reminding the minor to take a break and that the
 393 companion chatbot is artificially generated and not human.
 394 (c) Institute reasonable measures to prevent the companion
 395 chatbot from producing or sharing materials harmful to minors or
 396 encouraging the account holder to engage in any of the conduct
 397 described or depicted in materials harmful to minors.
 398 (3) A knowing or reckless violation of this section is
 399 deemed a deceptive or unfair trade practice or act actionable
 400 under part II of this chapter solely by the department against a
 401 companion chatbot platform. If the department has reason to
 402 believe that a companion chatbot platform is in violation of
 403 this section, the department, as the enforcing authority, may
 404 bring an action against such platform for a deceptive or unfair
 405 trade practice or act. In addition to other remedies under part
 406 II of this chapter, the department may collect a civil penalty

of up to \$50,000 per violation and reasonable attorney fees and court costs. If the companion chatbot platform's failure to comply with this section is part of a consistent pattern of knowing or reckless conduct, punitive damages may be assessed against the companion chatbot platform.

(4)(a) After the department has notified a companion chatbot platform in writing of an alleged violation, the department may grant the companion chatbot platform 45 calendar days to cure the alleged violation and may issue a letter of guidance stating that the companion chatbot platform will not be offered another 45-calendar-day cure period for any future violations of this section. The department may consider the number and frequency of violations, the substantial likelihood of injury to the public, and the safety of persons or property in determining whether to grant the companion chatbot platform 45 calendar days to cure and issue the letter of guidance.

1. The 45-calendar-day cure period does not apply to an alleged violation where the companion chatbot platform willfully or knowingly disregarded the account holder's age.

2. For an alleged violation of paragraph (2)(c), the companion chatbot platform may provide for the department's consideration information that shows that the reasonable measures taken by the platform include controls aligned with the latest versions of the National Institute of Standards and Technology AI Risk Management Framework, ISO 42001. Such information may include structured interaction logs, status of parental access controls, harm-signal detection and response procedures enacted, and verified deletion events.

(b) If the alleged violation is cured to the satisfaction

10-00003-26D

of the department, and proof of such cure is provided to the department, the department may not bring an action for the alleged violation but may issue a letter of guidance stating that the companion chatbot platform will not be offered a 45-calendar-day cure period for any future violations of this section.

(c) If the companion chatbot platform fails to cure the alleged violation within 45 calendar days, the department may bring an action against such companion chatbot platform for the alleged violation.

(5)(a) A companion chatbot platform that knowingly or recklessly violates this section is liable to a minor account holder for up to \$10,000 in damages plus court costs and reasonable attorney fees as ordered by the court.

(b) A civil action for a claim under this subsection must be brought within 1 year after the date the complainant knew, or reasonably should have known, of the alleged violation.

(c) An action brought under this subsection may be brought only on behalf of a minor account holder.

(6) For purposes of bringing an action under this section, a companion chatbot platform that allows a minor to become or be an account holder on the platform is considered to be both engaged in substantial and not isolated activities within this state and operating, conducting, engaging in, or carrying on a business, and doing business in this state, and is therefore subject to the jurisdiction of the courts of this state.

(7) This section does not preclude any other available remedy at law or equity.

(8) The department may adopt rules to implement this

465 section.

466 Section 7. Section 501.9985, Florida Statutes, is created
467 to read:

468 501.9985 Consumer protections regarding bots.-

469 (1) At the beginning of an interaction between a user and a
470 bot, and at least once every hour during the interaction, an
471 operator shall display a pop-up message or other prominent
472 notification notifying the user or, if the interaction is not
473 through a device with a screen, otherwise inform the user, that
474 he or she is not engaging in dialogue with a human counterpart.
475 This section does not apply to a bot that is used solely by
476 employees within a business for its internal operational
477 purposes.

478 (2) A violation of this section is deemed a deceptive or
479 unfair trade practice or act actionable under part II of this
480 chapter solely by the department on behalf of a user of a bot.
481 If the department has reason to believe that an operator is in
482 violation of this section, the department, as the enforcing
483 authority, may bring an action against the operator for a
484 deceptive or unfair trade practice or act. For the purpose of
485 bringing an action pursuant to this section, ss. 501.211 and
486 501.212 do not apply. In addition to any other remedy under part
487 II of this chapter, the department may collect a civil penalty
488 of up to \$50,000 per violation and reasonable attorney fees and
489 court costs.

490 (3)(a) After the department has notified an operator in
491 writing of an alleged violation, the department may grant the
492 operator 45 calendar days to cure the alleged violation and may
493 issue a letter of guidance stating that the companion chatbot

10-00003-26D

20262D__

494 platform will not be offered another 45-calendar-day cure period
495 for any future violations. The department may consider the
496 number and frequency of violations, the substantial likelihood
497 of injury to the public, and the safety of persons or property
498 in determining whether to grant an operator 45 calendar days to
499 cure and issue the letter of guidance.

500 (b) For an alleged violation of this section, the operator
501 may provide for the department's consideration information that
502 demonstrates that the operator provides persistent and
503 conspicuous identity indicators and accessible disclosures which
504 are in conformity with the latest versions of the National
505 Institute of Standards and Technology AI Risk Management
506 Framework, ISO 42001.

507 (c) If the alleged violation is cured to the satisfaction
508 of the department and proof of such cure is provided to the
509 department, the department may not bring an action for the
510 alleged violation but may issue a letter of guidance that
511 indicates that the operator will not be offered a 45-calendar-
512 day cure period for any future violations.

513 (d) If the operator fails to cure the alleged violation
514 within the 45-calendar-day cure period, the department may bring
515 an action against such operator for the alleged violation.

516 (4) For purposes of bringing an action pursuant to this
517 section, an operator that owns, operates, or otherwise makes
518 available a bot to individuals in this state is considered to be
519 both engaged in substantial and not isolated activities within
520 this state and operating, conducting, engaging in, or carrying
521 on a business, and doing business in this state, and is
522 therefore subject to the jurisdiction of the courts of this

523 state.

524 (5) The department may adopt rules to implement this
 525 section.

526 Section 8. Section 501.9986, Florida Statutes, is created
 527 to read:

528 501.9986 Consumer protections regarding deidentified data.—

529 (1) An artificial intelligence technology company may not
 530 sell or disclose personal information of users unless the
 531 information is deidentified data. This subsection does not
 532 prohibit the sale or disclosure of information specifically
 533 authorized by federal law.

534 (2) An artificial intelligence technology company in
 535 possession of deidentified data shall do all of the following:

536 (a) Take reasonable measures to ensure that the data cannot
 537 be associated with a user.

538 (b) Maintain and use the data in deidentified form. An
 539 artificial intelligence technology company may not attempt to
 540 reidentify the data, except that the artificial intelligence
 541 technology company may attempt to reidentify the data solely for
 542 the purpose of determining whether its deidentification
 543 processes satisfy the requirements of this section.

544 (c) Contractually obligate a recipient of the deidentified
 545 data to comply with this section.

546 (d) Implement business processes to prevent the inadvertent
 547 release of deidentified data.

548 (3) A violation of this section is deemed a deceptive or
 549 unfair trade practice or act actionable under part II of this
 550 chapter solely by the department. If the department has reason
 551 to believe that an artificial intelligence technology company is

10-00003-26D

20262D__

552 in violation of this section, the department, as the enforcing
 553 authority, may bring an action against the artificial
 554 intelligence technology company for a deceptive or unfair trade
 555 practice or act. For the purpose of bringing an action pursuant
 556 to this section, ss. 501.211 and 501.212 do not apply. In
 557 addition to any other remedy under part II of this chapter, the
 558 department may collect a civil penalty of up to \$50,000 per
 559 violation and reasonable attorney fees and court costs.

560 (4) (a) After the department has notified an artificial
 561 intelligence technology company in writing of an alleged
 562 violation, the department may grant the artificial intelligence
 563 technology company 45 calendar days to cure the alleged
 564 violation and may issue a letter of guidance stating that the
 565 artificial intelligence technology company will not be offered
 566 another 45-calendar-day cure period for any future violations.
 567 The department may consider the number and frequency of
 568 violations, the substantial likelihood of injury to the public,
 569 and the safety of persons or property in determining whether to
 570 grant the artificial intelligence technology company 45 calendar
 571 days to cure and issue the letter of guidance.

572 (b) For an alleged violation of this section, the
 573 artificial intelligence technology company may provide for the
 574 department's consideration information that shows that the
 575 artificial intelligence technology company maintains a risk
 576 management program that:

577 1. Validates the company's information security and privacy
 578 controls against a recognized framework aligned with the latest
 579 versions of the National Institute of Standards and Technology
 580 AI Risk Management Framework, ISO 42001; and

10-00003-26D

20262D__

581 2. Includes assessed controls for deidentification,
 582 contractual flow-down, non-reidentification, inadvertent release
 583 prevention, monitoring, and auditing sufficient to demonstrate
 584 that the company is taking reasonable measures to meet the
 585 requirements of this section.

586 (c) If the alleged violation is cured to the satisfaction
 587 of the department and proof of such cure is provided to the
 588 department, the department may not bring an action for the
 589 alleged violation but may issue a letter of guidance that
 590 indicates that the artificial intelligence technology company
 591 will not be offered another 45-calendar-day cure period for any
 592 future violations.

593 (d) If the artificial intelligence technology company fails
 594 to cure the alleged violation within the 45-calendar-day cure
 595 period, the department may bring an action against such
 596 artificial intelligence technology company for the alleged
 597 violation.

598 (5) For purposes of bringing an action pursuant to this
 599 section, an artificial intelligence technology company that
 600 produces, develops, creates, designs, or manufactures artificial
 601 intelligence technology or products, collects data for use in
 602 artificial intelligence products, or implements artificial
 603 intelligence technology in this state is considered to be both
 604 engaged in substantial and not isolated activities within this
 605 state and operating, conducting, engaging in, or carrying on a
 606 business, and doing business in this state, and is therefore
 607 subject to the jurisdiction of the courts of this state.

608 (6) The department may adopt rules to implement this
 609 section.

610 Section 9. Section 501.9987, Florida Statutes, is created
 611 to read:

612 501.9987 Investigations.—

613 (1) If, by its own inquiry or as a result of complaints,
 614 the department has reason to believe that a person has engaged
 615 in, or is engaging in, a practice or an act that violates this
 616 part, the department may administer oaths and affirmations,
 617 subpoena witnesses or matter, and collect evidence. Within 5
 618 days, excluding weekends and legal holidays, after service of a
 619 subpoena, or at any time before the return date specified in the
 620 subpoena, whichever time period is longer, the party served may
 621 file in the circuit court in the county in which it resides or
 622 in which it transacts business and serve upon the enforcing
 623 authority a petition for an order modifying or setting aside the
 624 subpoena. The petitioner may raise any objection or privilege
 625 that would be available upon service of a subpoena in a civil
 626 action. The subpoena must inform the party served of the party's
 627 rights under this subsection.

628 (2) If the matter that the department seeks to obtain by
 629 subpoena is located outside this state, the person subpoenaed
 630 may make the matter available to the department or its
 631 representative at the place where it is located. The department
 632 may designate representatives, including officials of the state
 633 in which the matter is located, to inspect the matter on its
 634 behalf and may respond to similar requests from officials of
 635 other states.

636 (3) Upon the failure of a person, without lawful excuse, to
 637 obey a subpoena and upon reasonable notice to all persons
 638 affected, the department may apply to the circuit court for an

10-00003-26D

639 order compelling compliance.

640 (4) The department may request that a person who refuses to
 641 comply with a subpoena on the grounds that the testimony or
 642 matter may be self-incriminating be ordered by the court to
 643 provide the testimony or matter. Except in a prosecution for
 644 perjury, a person who complies with a court order to provide
 645 testimony or matter after asserting a valid privilege against
 646 self-incrimination may not have the testimony or matter so
 647 provided, or evidence derived from the testimony or matter,
 648 received against the person in any criminal investigation or
 649 proceeding.

650 (5) A person upon whom a subpoena is served pursuant to
 651 this part must comply with its terms unless otherwise provided
 652 by order of the court. A person who fails to appear, with the
 653 intent to avoid, evade, or prevent compliance in whole or in
 654 part with an investigation under this part, or who removes from
 655 any place, conceals, withholds, mutilates, alters, or destroys,
 656 or by any other means falsifies any documentary material in the
 657 possession, custody, or control of a person subject to a
 658 subpoena, or who knowingly conceals relevant information with
 659 the intent to avoid, evade, or prevent compliance, is liable for
 660 a civil penalty of not more than \$5,000 per week in violation,
 661 reasonable attorney fees, and costs.

662 (6) The department may adopt rules to implement this
 663 section.

664 Section 10. Section 540.08, Florida Statutes, is amended to
 665 read:

666 540.08 Unauthorized publication of name, image, or

668 (1) As used in this section, the term:

669 (a) "Generative artificial intelligence" means a machine-
 670 based system that can, for a given set of human-defined
 671 objectives, emulate the structure and characteristics of input
 672 data in order to generate derived synthetic content, including
 673 images, videos, audio, text, and other digital content.

674 (b) "Person" has the same meaning as in s. 1.01.

675 (c) "Servicemember" has the same meaning as in s. 250.01
 676 and includes any officer or enlisted member who died from
 677 service-connected causes while on active duty.

678 (d) "Surviving children" means an individual's immediate
 679 offspring and any children legally adopted by the individual.

680 (e) "Surviving spouse" means an individual's surviving
 681 spouse under the law of the individual's domicile at the time of
 682 the individual's death, regardless of whether the spouse later
 683 remarried.

684 (2) A person may not publish, print, display, or otherwise
 685 publicly use for trade or for any commercial or advertising
 686 purpose the name, portrait, photograph, image, or other likeness
 687 of an individual created through generative artificial
 688 intelligence without the express written or oral consent to such
 689 use given by any of the following:

690 (a) The individual.

691 (b) Any other person authorized in writing by the
 692 individual to license the commercial use of the individual's
 693 name, image, or likeness.

694 (c) If the individual is deceased:

695 1. A person authorized in writing to license the commercial

799 Section 11. Subsection (21) is added to section 1002.42,
 800 Florida Statutes, to read:

801 1002.42 Private schools.—

802 (21) ARTIFICIAL INTELLIGENCE INSTRUCTIONAL TOOLS.—A private
 803 school that provides student access to an artificial
 804 intelligence instructional tool, as defined in s. 1006.1495,
 805 must comply with the provisions in that section.

806 Section 12. Section 1006.1495, Florida Statutes, is created
 807 to read:

808 1006.1495 Artificial intelligence instructional tools;
 809 parental notice, opt-out, and account access.—

810 (1) DEFINITIONS.—As used in this section, the term:

811 (a) "Artificial intelligence instructional tool" means a
 812 software application or service that uses artificial

10-00003-26D

20262D__

813 intelligence, including machine learning, which is made
 814 available to a student by an educational entity for educational
 815 purposes, including instruction, tutoring, practice, feedback,
 816 or completing educator-directed assignments, and that is not
 817 designed, marketed, or configured to:
 818 1. Meet a student's social needs;
 819 2. Simulate friendship, companionship, or an emotional
 820 relationship with a student; or
 821 3. Employ relationship-building or anthropomorphic design
 822 features for the purpose of encouraging a student to continue
 823 interacting with the system.
 824 (b) "Educational entity" means a school district, a public
 825 school, or a private school. The term includes a VPK provider
 826 meaning a private prekindergarten provider or a public school
 827 prekindergarten provider, as those terms are defined in s.
 828 1002.51, which delivers the Voluntary Prekindergarten Education
 829 Program under part V of chapter 1002.
 830 (c) "Operator" means a person who operates an artificial
 831 intelligence instructional tool and collects, receives,
 832 maintains, or uses student information or student-generated
 833 content through the tool.
 834 (d) "Parent" includes a parent, guardian, or other person
 835 with legal authority to make educational decisions for a
 836 student.
 837 (e) "Private school" has the same meaning as in s.
 838 1002.01(3).
 839 (f) "Public school" means a component described in s.
 840 1000.04(2), (4), (5), or (6).
 841 (2) RESTRICTION.—An educational entity may not provide

10-00003-26D

20262D__

842 students with access to an artificial intelligence instructional
 843 tool before grade 6 unless such use is:
 844 (a) Directed and supervised by school personnel;
 845 (b) For translation or similar support necessary for a
 846 student identified as an English language learner; or
 847 (c) For accommodations, assistive technology, or similar
 848 support necessary for a student with a documented disability.
 849 (3) EDUCATIONAL USE; PARENTAL NOTICE.—Before a student is
 850 provided access credentials for an artificial intelligence
 851 instructional tool, the educational entity must provide the
 852 parent of a minor student with notice that:
 853 (a) Identifies the tool and its educational purpose;
 854 (b) Describes, in general terms, the manner in which the
 855 tool will be used by students;
 856 (c) Explains how the parent may exercise the opt-out
 857 process under subsection (4); and
 858 (d) Explains how the parent may access the student's
 859 account or request access to information and account activity
 860 under subsection (5), including the method for submitting a
 861 written request.
 862 (4) PARENTAL OPT-OUT.—
 863 (a) A parent of a minor student must be provided the
 864 opportunity to opt out of the student's use of an artificial
 865 intelligence instructional tool.
 866 (b) The opt-out process must align with the educational
 867 entity's existing policies for parental notice, consent,
 868 objection, or opt out for instructional materials, digital
 869 tools, or online accounts, as applicable.
 870 (c) If a parent opts out of a student's use of an

10-00003-26D

20262D__

871 artificial intelligence instructional tool and the student is
 872 enrolled in a public school, the school district or public
 873 school must provide an alternative instructional activity that
 874 allows the student to meet a comparative educational requirement
 875 without penalty.

876 (5) PARENT ACCOUNT ACCESS; COMPLIANCE OPTIONS.—

877 (a) At the time an operator provides a student's access
 878 credentials or otherwise provides or enables student access to
 879 an educational entity for an artificial intelligence
 880 instructional tool, the operator shall simultaneously provide to
 881 the educational entity a means to authorize the parent of a
 882 minor student to access information and account activity
 883 maintained within the artificial intelligence instructional
 884 tool.

885 (b) The operator may satisfy paragraph (a) by:

886 1. Providing the parent of a minor student credentials or
 887 another method for read-only access to the student's account; or

888 2. Upon written request from the parent of a minor student,
 889 providing access to the information and account activity
 890 maintained within the tool, in accordance with applicable state
 891 and federal law, within 30 days after receipt of the request.
 892 The educational entity shall inform the parent of the right to
 893 make such a request and the method for submitting the request.

894 (c) If an educational entity satisfies subparagraph (b)1.,
 895 the educational entity must provide the credentials or other
 896 access method at the time the educational entity provides the
 897 student with access credentials or otherwise enables student
 898 access.

899 (d) This subsection does not require an operator or

10-00003-26D

20262D__

900 educational entity to create or retain a transcript or record of
 901 student interactions beyond information otherwise maintained in
 902 the ordinary course of providing access to the tool.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Rules

BILL: SB 4-D

INTRODUCER: Senator Brodeur

SUBJECT: Public Records/Investigations by the Department of Legal Affairs

DATE: April 24, 2026

REVISED: _____

ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1. McMillan	Kruse	RC	Pre-meeting

I. Summary:

SB 4-D creates public records exemptions for information received by the Department of Legal Affairs (DLA) pursuant to a notification of a violation under ss. 501.9984, 501.9985, or 501.9986, F.S., or received pursuant to an investigation made by the DLA. Such information is confidential and exempt until the investigation is completed or ceases to be active.

The bill permits the DLA to disclose confidential and exempt information during an active investigation under specific circumstances.

Once an investigation is completed or once an investigation ceases to be active, the following information received by the DLA will remain confidential and exempt:

- All information to which another public record exemption applies;
- Personal identifying information;
- A computer forensic report;
- Information that would otherwise reveal weaknesses in data security of a bot or an operator of a bot; and
- Information that would disclose proprietary information of an operator of a bot.

The bill provides for the repeal of the exemptions on October 2, 2031, unless they are reenacted by the Legislature under the Open Government Sunset Review Act.

The bill provides a statement of necessity as required by the State Constitution, and because it expands the public records exemption, it requires a two-thirds vote of the members present and voting in each house of the Legislature for final passage.

The bill may increase costs minimally for the DLA. See Section V., Fiscal Impact Statement.

The bill takes effect on the same day SB 2-D takes effect, if such legislation is adopted in the same legislative session or an extension thereof and becomes law.

II. Present Situation:

Access to Public Records - Generally

The State Constitution provides that the public has the right to inspect or copy records made or received in connection with official governmental business.¹ The right to inspect or copy applies to the official business of any public body, officer, or employee of the state, including all three branches of state government, local governmental entities, and any person acting on behalf of the government.²

Additional requirements and exemptions related to public records are found in various statutes and rules, depending on the branch of government involved. For instance, s. 11.0431, F.S., provides public access requirements for legislative records. Relevant exemptions are codified in s. 11.0431(2)-(3), F.S., and adopted in the rules of each house of the legislature.³ Florida Rule of Judicial Administration 2.420 governs public access to judicial branch records.⁴ Lastly, ch. 119, F.S., known as the Public Records Act, provides requirements for public records held by executive agencies.

Executive Agency Records – The Public Records Act

The Public Records Act provides that all state, county and municipal records are open for personal inspection and copying by any person, and that providing access to public records is a duty of each agency.⁵

Section 119.011(12), F.S., defines “public records” to include:

[a]ll documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connections with the transaction of official business by any agency.

The Florida Supreme Court has interpreted this definition to encompass all materials made or received by an agency in connection with official business that are used to “perpetuate, communicate, or formalize knowledge of some type.”⁶

² *Id.* See also, *Sarasota Citizens for Responsible Gov’t v. City of Sarasota*, 48 So. 3d 755, 762-763 (Fla. 2010).

³ See Rule 1.48, *Rules and Manual of the Florida Senate*, (2022-2024) and Rule 14.1, *Rules of the Florida House of Representatives*, Edition 2, (2022-2024).

⁴ *State v. Wooten*, 260 So. 3d 1060 (Fla. 4th DCA 2018).

⁵ Section 119.01(1), F.S. Section 119.011(2), F.S., defines “agency” as “any state, county, district, authority, or municipal officer, department, division, board, bureau, commission, or other separate unit of government created or established by law including, for the purposes of this chapter, the Commission on Ethics, the Public Service Commission, and the Office of Public Counsel, and any other public or private agency, person, partnership, corporation, or business entity acting on behalf of any public agency.”

⁶ *Shevin v. Byron, Harless, Schaffer, Reid and Assoc., Inc.*, 379 So. 2d 633, 640 (Fla. 1980).

The Florida Statutes specify conditions under which public access to public records must be provided. The Public Records Act guarantees every person's right to inspect and copy any public record at any reasonable time, under reasonable conditions, and under supervision by the custodian of the public record.⁷ A violation of the Public Records Act may result in civil or criminal liability.⁸

The Legislature may exempt public records from public access requirements by passing a general law by a two-thirds vote of both the House and the Senate.⁹ The exemption must state with specificity the public necessity justifying the exemption and must be no broader than necessary to accomplish the stated purpose of the exemption.¹⁰

General exemptions from the public records requirements are contained in the Public Records Act.¹¹ Specific exemptions are often placed in the substantive statutes relating to a particular agency or program.¹²

When creating a public records exemption, the Legislature may provide that a record is "exempt" or "confidential and exempt." There is a difference between records the Legislature has determined to be exempt from the Public Records Act and those which the Legislature has determined to be exempt from the Public Records Act *and confidential*.¹³ Records designated as "confidential and exempt" are not subject to inspection by the public and may only be released under the circumstances defined by statute.¹⁴ Records designated as "exempt" may be released at the discretion of the records custodian under certain circumstances.¹⁵

Open Government Sunset Review Act

The provisions of s. 119.15, F.S., known as the Open Government Sunset Review Act¹⁶ (the Act), prescribe a legislative review process for newly created or substantially amended¹⁷ public records or open meetings exemptions, with specified exceptions.¹⁸ The Act requires the repeal of

⁷ Section 119.07(1)(a), F.S.

⁸ Section 119.10, F.S. Public records laws are found throughout the Florida Statutes, as are the penalties for violating those laws.

News-Journal Corp.*, 724 So. 2d 567 (Fla. 1999) (holding that a public meetings exemption was unconstitutional because the statement of public necessity did not define important terms and did not justify the breadth of the exemption); *Baker County Press, Inc. v. Baker County Medical Services, Inc.*, 870 So. 2d 189 (Fla. 1st DCA 2004) (holding that a statutory provision written to bring another party within an existing public records exemption is unconstitutional without a public necessity statement).

¹⁶ Section 119.15, F.S.

¹⁷ An exemption is considered to be substantially amended if it is expanded to include more records or information or to include meetings as well as records. Section 119.15(4)(b), F.S.

¹⁸ Section 119.15(2)(a) and (b), F.S., provides that exemptions required by federal law or applicable solely to the Legislature or the State Court System are not subject to the Open Government Sunset Review Act.

such exemption on October 2 of the fifth year after its creation or substantial amendment, unless the Legislature reenacts the exemption.¹⁹

The Act provides that a public records or open meetings exemption may be created or maintained only if it serves an identifiable public purpose and is no broader than is necessary.²⁰ An exemption serves an identifiable purpose if the Legislature finds that the purpose of the exemption outweighs open government policy and cannot be accomplished without the exemption and it meets one of the following purposes:

- It allows the state or its political subdivisions to effectively and efficiently administer a governmental program, and administration would be significantly impaired without the exemption;²¹
- It protects sensitive, personal information, the release of which would be defamatory, cause unwarranted damage to the good name or reputation of the individual, or would jeopardize the individual's safety. If this public purpose is cited as the basis of an exemption, however, only personal identifying information is exempt;²² or
- It protects information of a confidential nature concerning entities, such as trade or business secrets.²³

The Act also requires specified questions to be considered during the review process.²⁴ In examining an exemption, the Act directs the Legislature to question the purpose and necessity of reenacting the exemption.

If the exemption is continued and expanded, then a public necessity statement and a two-thirds vote for passage are again required.²⁵ If the exemption is continued without substantive changes or if the exemption is continued and narrowed, then a public necessity statement and a two-thirds vote for passage are not required. If the Legislature allows an exemption to expire, the previously exempt records will remain exempt unless otherwise provided by law.²⁶

Artificial Intelligence

SB 2-D creates the “Artificial Intelligence Bill of Rights,” and provides consumer protections including regulations aimed at companion chatbot platforms. These regulations include prohibiting a minor from entering into a contract with the platform to become an account holder

²³ Section 119.15(6)(b)3., F.S.

²⁴ Section 119.15(6)(a), F.S. The specified questions are:

- What specific records or meetings are affected by the exemption?
- Whom does the exemption uniquely affect, as opposed to the general public?
- What is the identifiable public purpose or goal of the exemption?
- Can the information contained in the records or discussed in the meeting be readily obtained by alternative means?
If so, how?
- Is the record or meeting protected by another exemption?
- Are there multiple exemptions for the same type of record or meeting that it would be appropriate to merge?

²⁶ Section 119.15(7), F.S.

or from maintaining an existing account, unless the minor's parent or guardian gives consent. If consent is provided, the platform must authorize the consenting parent or guardian to receive certain controls over the minor's account. Upon request, the platform must permanently delete all personal information held by the platform relating to the terminated account. A companion chatbot must also provide certain disclosures to an account holder, as well as remind the account holder to take a break and that the companion chatbot is artificially generated and not human. The platform is also required to institute reasonable measures to prevent its companion chatbot from producing or sharing materials harmful to minors.

Additionally, at the beginning of an interaction between a user and a bot, and at least once every hour during the interaction, an operator is required to display a pop-up message notifying users that they are not engaging in dialogue with a human counterpart.

Further, an artificial intelligence technology company is prohibited from selling or disclosing personal information of users unless such information is de-identified data.

Companion chatbot platforms, operators, and artificial intelligence technology companies must act to accommodate the consumer protections provided in SB 2-D.

SB 2-D grants the DLA authority to institute appropriate legal proceedings against businesses that it believes have violated or are violating the provisions in the "Artificial Intelligence Bill of Rights."

As created, then, any information obtained by the DLA during an investigation of the consumer protection provisions in SB 2-D is subject to disclosure under ch. 119, F.S. This could present a hurdle to the DLA's investigation and enforcement because it could stifle the disclosure of pertinent information to the DLA. Additionally, the release of consumer personal information could subject consumers to identity theft or further harm.

III. Effect of Proposed Changes:

This bill makes information received by the DLA pursuant to a notification of a violation under ss. 501.9984, 501.9985, or 501.9986, F.S., or received pursuant to an investigation made by the DLA, confidential and exempt. Such information is confidential and exempt until the investigation is completed or ceases to be active.

During an active investigation, the DLA may disclose confidential and exempt information:

- In furtherance of its official duties and responsibilities;
- For print, publication, or broadcast if the DLA determines that such release would assist in notifying the public or locating or identifying a person believed to be a victim of the improper use or disposal of customer records; or
- To another governmental entity in the furtherance of its official duties and responsibilities.

Once an investigation is completed or once an investigation ceases to be active, the following information received by the DLA will remain confidential and exempt:

- All information to which another public record exemption applies;
- Personal identifying information;

- A computer forensic report;
- Information that would otherwise reveal weaknesses in data security of a bot or an operator of a bot; and
- Information that would disclose proprietary information of an operator of a bot.

For the purposes of these public records exemptions, “proprietary information” means information that:

- Is owned and controlled by the companion chatbot platform, the bot, or the artificial intelligence technology company;
- Is intended to be private and is treated by the companion chatbot platform, the bot, or the artificial intelligence technology company as private because disclosure would harm such entities or their business operations;
- Has not been disclosed except as required by law or private agreement that provides that the information will not be released to the public;
- Is not publicly available or otherwise readily ascertainable through proper means from another source in the same configuration as received by the DLA; or
- Reveals competitive interests, the disclosure of which would impair the competitive advantage of the companion chatbot platform, the bot, or the artificial intelligence technology company that is the subject of the information.

The provisions will be subject to an Open Government Sunset Review in accordance with s. 119.15, F.S., and will stand repealed on October 2, 2031, unless reviewed and saved from repeal through reenactment by the Legislature.

The bill will become effective on the same date that SB 2-D (2026-D) or similar legislation takes effect, if such legislation is adopted in the same legislative session or an extension thereof and becomes law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Not applicable. The bill does not require counties or municipalities to take an action requiring the expenditure of funds, reduce the authority that counties or municipalities have to raise revenue in the aggregate, nor reduce the percentage of state tax shared with counties or municipalities.

B. Public Records/Open Meetings Issues:

Vote Requirement

Article I, s. 24(c) of the State Constitution requires a two-thirds vote of the members present and voting for final passage of a bill creating or expanding an exemption to the public records requirements. The bill creates new public records exemptions. Thus, the bill requires a two-thirds vote to be enacted.

Public Necessity Statement

Article I, s. 24(c) of the State Constitution requires a bill creating or expanding an exemption to the public records requirements to state with specificity the public necessity justifying the exemption. Sections 2, 4, and 6 of the bill contain the public necessity statements.

Breadth of Exemption

Article I, s. 24(c) of the State Constitution requires an exemption to the public records requirements to be no broader than necessary to accomplish the stated purpose of the law. The bill creates public records exemptions for information relating to a notification of a violation under ss. 501.9984, 501.9985, or 501.9986, F.S., or received pursuant to an investigation made by the DLA, as well as information to which another public record exemption applies, personal identifying information, a computer forensic report, information that would otherwise reveal weaknesses in a business' data security, and information that would disclose a companion chatbot's proprietary information. The exemptions do not appear to be broader than necessary to accomplish the purpose of the law.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None identified.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The DLA may incur costs related to the review and redaction of confidential and exempt records associated with responding to public records requests. However, these costs are anticipated to be handled with existing resources.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 501.9984, 501.9985, and 501.9986.

IX. Additional Information:**A. Committee Substitute – Statement of Substantial Changes:**

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

disclosed by the department:

1. In the furtherance of its official duties and responsibilities;

2. For print, publication, or broadcast if the department determines that such release would assist in notifying the public or locating or identifying a person whom the department believes to be a victim of an improper use or disposal of customer records, except that information made confidential and exempt by paragraph (c) may not be released pursuant to this subparagraph; or

3. To another governmental entity in the furtherance of such entity's official duties and responsibilities.

(c) Upon completion of an investigation or once an investigation ceases to be active, the following information held by the department shall remain confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution:

1. Information that is otherwise confidential or exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

2. Personal identifying information.

3. A computer forensic report.

4. Information that would otherwise reveal weaknesses in the data security of a companion chatbot platform.

5. Information that would disclose the proprietary information of a companion chatbot platform.

(d) For purposes of this section, the term "proprietary information" means information that:

1. Is owned or controlled by the companion chatbot platform.

2. Is intended to be private and is treated by the companion chatbot platform as private because disclosure would harm the companion chatbot platform or its business operations.

3. Has not been disclosed except as required by law or a private agreement that provides that the information will not be released to the public.

4. Is not publicly available or otherwise readily ascertainable through proper means from another source in the same configuration as received by the department.

5. Reveals competitive interests, the disclosure of which would impair the competitive advantage of the companion chatbot platform that is the subject of the information.

(e) This subsection is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2031, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 2. The Legislature finds that it is a public necessity that all information held by the Department of Legal Affairs pursuant to a notification or investigation of a violation of s. 501.9984, Florida Statutes, be made confidential and exempt from s. 119.07(1), Florida Statutes, and s. 24(a), Article I of the State Constitution for the following reasons:

(1) A notification of a violation of s. 501.9984, Florida Statutes, may result in an investigation of such violation. The premature release of such information could frustrate or thwart the investigation and impair the ability of the department to effectively and efficiently administer s. 501.9984, Florida Statutes. In addition, release of such information before completion of an active investigation could jeopardize the

10-00004-26D

117 ongoing investigation.

118 (2) The release of information that is otherwise
 119 confidential or exempt from public records requirements once an
 120 investigation is completed or ceases to be active would undo the
 121 specific statutory exemption protecting that information, thus
 122 affirming that any protections currently afforded to such
 123 information are not removed.

124 (3) An investigation of a violation of s. 501.9984, Florida
 125 Statutes, is likely to result in the gathering of sensitive
 126 personal identifying information, which could include
 127 identification numbers, unique identifiers, professional or
 128 employment-related information, and personal financial
 129 information. Such information could be used for the purpose of
 130 identity theft. The release of such information could subject
 131 families to possible privacy violations, as it would reveal
 132 information of a sensitive personal nature.

133 (4) Notices received by the department and information
 134 generated during an investigation of a violation of s. 501.9984,
 135 Florida Statutes, are likely to contain proprietary information.
 136 Such information derives independent economic value, actual or
 137 potential, from being generally unknown to, and not readily
 138 ascertainable by, other persons who might obtain economic value
 139 from its disclosure or use. Allowing public access to
 140 proprietary information through a public records request could
 141 destroy the value of the proprietary information and cause a
 142 financial loss to the companion chatbot platform. Release of
 143 such information could give business competitors an unfair
 144 advantage.

145 (5) Information held by the department may contain a

146 computer forensic report or information that could reveal
 147 weaknesses in the data security of a companion chatbot platform.
 148 The release of this information could result in the
 149 identification of vulnerabilities in the cybersecurity system of
 150 the companion chatbot platform and be used to harm the companion
 151 chatbot platform and its clients.

152 (6) The harm that may result from the release of
 153 information held by the department pursuant to a notification or
 154 an investigation of a violation of s. 501.9984, Florida
 155 Statutes, could impair the effective and efficient
 156 administration of the investigation and thus outweighs the
 157 public benefit that may be derived from the disclosure of the
 158 information.

159 Section 3. Present subsection (5) of section 501.9985,
 160 Florida Statutes, as created by SB 2-D or similar legislation,
 161 2026 Special Session D, is redesignated as subsection (6), and a
 162 new subsection (5) is added to that section, to read:

163 501.9985 Consumer protections regarding bots.—

164 (5)(a) All information held by the department pursuant to a
 165 notification of a violation of this section or an investigation
 166 of a violation of this section is confidential and exempt from
 167 s. 119.07(1) and s. 24(a), Art. I of the State Constitution,
 168 until such time as the investigation is completed or ceases to
 169 be active. This exemption shall be construed in conformity with
 170 s. 119.071(2)(c).

171 (b) During an active investigation, information made
 172 confidential and exempt pursuant to paragraph (a) may be
 173 disclosed by the department:

3. To another governmental entity in the furtherance of such entity's official duties and responsibilities.

(c) Upon completion of an investigation or once an investigation ceases to be active, the following information held by the department shall remain confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution:

1. Information that is otherwise confidential or exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

4. Information that would otherwise reveal weaknesses in the data security of a bot or an operator of a bot.

5. Information that would disclose the proprietary information of an operator of a bot.

(d) For purposes of this section, the term "proprietary information" means information that:

1. Is owned or controlled by the operator of a bot.

2. Is intended to be private and is treated by the operator of a bot as private because disclosure would harm the operator of the bot or its business operations.

3. Has not been disclosed except as required by law or a private agreement that provides that the information will not be released to the public.

4. Is not publicly available or otherwise readily ascertainable through proper means from another source in the same configuration as received by the department.

5. Reveals competitive interests, the disclosure of which would impair the competitive advantage of the operator of the bot that is the subject of the information.

(e) This subsection is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2031, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 4. The Legislature finds that it is a public necessity that all information held by the Department of Legal Affairs pursuant to a notification of a violation of s. 501.9985, Florida Statutes, or an investigation of a violation of that section, be made confidential and exempt from s. 119.07(1), Florida Statutes, and s. 24(a), Article I of the State Constitution for the following reasons:

(1) A notification of a violation of s. 501.9985, Florida Statutes, may result in an investigation of such violation. The premature release of such information could frustrate or thwart the investigation and impair the ability of the department to effectively and efficiently administer s. 501.9985, Florida Statutes. In addition, release of such information before completion of an active investigation could jeopardize the ongoing investigation.

(2) The release of information that is otherwise

10-00004-26D

20264D__

confidential or exempt from public records requirements once an investigation is completed or ceases to be active would undo the specific statutory exemption protecting that information, thus affirming that any protections currently afforded to such information are not removed.

(3) An investigation of a violation of s. 501.9985, Florida Statutes, is likely to result in the gathering of sensitive personal identifying information, which could include identification numbers, unique identifiers, professional or employment-related information, and personal financial information. Such information could be used for the purpose of identity theft. The release of such information could subject families to possible privacy violations, as it would reveal information of a sensitive personal nature.

(4) Notices received by the department and information generated during an investigation of a violation of s. 501.9985, Florida Statutes, are likely to contain proprietary information. Such information derives independent economic value, actual or potential, from being generally unknown to, and not readily ascertainable by, other persons who might obtain economic value from its disclosure or use. Allowing public access to proprietary information through a public records request could destroy the value of the proprietary information and cause a financial loss to the operator of a bot. Release of such information could give business competitors an unfair advantage.

(5) Information held by the department may contain a computer forensic report or information that could reveal weaknesses in the data security of an operator of a bot. The release of this information could result in the identification

of vulnerabilities in the cybersecurity system of the operator of a bot and be used to harm the operator of the bot and its clients.

(6) The harm that may result from the release of information held by the department pursuant to a notification or an investigation of a violation of s. 501.9985, Florida Statutes, could impair the effective and efficient administration of the investigation and thus outweighs the public benefit that may be derived from the disclosure of the information.

Section 5. Present subsection (6) of section 501.9986, Florida Statutes, as created by SB 2-D or similar legislation, 2026 Special Session D, is redesignated as subsection (7), and a new subsection (6) is added to that section, to read:

501.9986 Consumer protections regarding deidentified data.—

(6)(a) All information held by the department pursuant to a notification of a violation of this section or an investigation of a violation of this section is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution, until such time as the investigation is completed or ceases to be active. This exemption shall be construed in conformity with s. 119.071(2)(c).

(b) During an active investigation, information made confidential and exempt pursuant to paragraph (a) may be disclosed by the department:

1. In the furtherance of its official duties and responsibilities;

2. For print, publication, or broadcast if the department determines that such release would assist in notifying the

public or locating or identifying a person whom the department believes to be a victim of an improper use or disposal of customer records, except that information made confidential and exempt by paragraph (c) may not be released pursuant to this subparagraph; or

3. To another governmental entity in the furtherance of such entity's official duties and responsibilities.

(c) Upon completion of an investigation or once an investigation ceases to be active, the following information held by the department shall remain confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution:

1. Information that is otherwise confidential or exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

2. Personal identifying information.

3. A computer forensic report.

4. Information that would otherwise reveal weaknesses in the data security of an artificial intelligence technology company.

5. Information that would disclose the proprietary information of an artificial intelligence technology company.

(d) For purposes of this section, the term "proprietary information" means information that:

1. Is owned or controlled by the artificial intelligence technology company.

2. Is intended to be private and is treated by the artificial intelligence technology company as private because disclosure would harm the artificial intelligence technology company or its business operations.

The Florida Senate
BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Rules

BILL: SB 6-D

INTRODUCER: Senator Yarborough

SUBJECT: Medical Freedom

DATE: April 24, 2026

REVISED: _____

ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1. Smith	Kruse	RC	Pre-meeting

I. Summary:

SB 6-D creates a statutory nonmedical exemption from immunization requirements for a child attending a K-12 school if the administration of a vaccine conflicts with the parent's conscience. Like the existing religious exemption, the conscience-based exemption would also be available to parents with children attending preschool or day care in a child care facility or family day care home facility who are subject to immunization requirements pursuant to existing rules. The bill requires the Department of Health to make the nonmedical exemption form available on its website.

Before a vaccine may be administered, the bill requires a health care practitioner or paramedic who administers a vaccine to a minor child to provide the child's parent or guardian with the appropriate Vaccine Information Statement published by the U.S. Centers for Disease Control and Prevention and materials relating to the role of immunization in communicable disease prevention, including risks, benefits, safety, and efficacy, as approved and adopted by joint rule of the Board of Medicine and the Board of Osteopathic Medicine. A parent's or guardian's signature must be obtained to document receipt of the information. When a parent or guardian accesses the nonmedical exemption form on the DOH website, the bill requires that the form and the materials approved and adopted by joint rule of the Boards are downloadable as a single document, ensuring that all parents and guardians have access to the same information.

The bill requires that when more than one vaccine is to be administered to a child, the practitioner must discuss the parent's or guardian's options for the timing of the vaccinations and may, at the parent's or guardian's request, administer the vaccines to the child over multiple encounters.

The bill also establishes that it is unlawful for a vaccine manufacturer to offer or pay, or for a health care practitioner to receive, a financial incentive, directly or indirectly, overtly or covertly, in cash or in kind, for the administration of a vaccine. Any such act is considered patient brokering and is punishable by existing law.

The bill authorizes pharmacists to provide ivermectin¹ as a behind-the-counter medication without a prescription to a person 18 years of age or older. Before such dispensing, the bill requires a pharmacist to provide the person with written information regarding indications and contraindications, dosage, and the need to seek follow-up care from the person's primary care physician. The bill grants immunity from civil or criminal liability or disciplinary action under Florida law for pharmacists acting in accordance with these provisions.

Additionally, the bill grants immunity from civil or criminal liability or disciplinary action under Florida law to health care practitioners licensed under chs. 458, 459, or 464, F.S., whose license includes prescribing authority, for prescribing or administering ivermectin to an adult, in good faith, in accordance with the applicable standard of care, and in accordance with the applicable practice act and pertinent rules.

The bill preserves the statutory definition of "messenger ribonucleic acid vaccine" by deleting the definition's scheduled repeal. In practice, this maintains existing prohibitions against mandates by governmental entities, business establishments, and educational institutions that a person must be vaccinated with an mRNA-based vaccine. Finally, the bill clarifies that during a declared public health emergency, the State Surgeon General may not order an individual to be vaccinated.

The bill provides an effective date of July 1, 2026, except as otherwise provided.

II. Present Situation:

Florida Department of Health Immunization² Guidelines

Duty to Immunize All Children in Florida

The Florida Department of Health (DOH) is directed by law to ensure that all children in this state are immunized against vaccine-preventable diseases.³ This requirement is integral to the department's duty to conduct a communicable disease prevention and control program as part of fulfilling its public health mission. The Florida Statutes provide that a communicable disease is any disease caused by transmission of a specific infectious agent, or its toxic products, from an infected person, an infected animal, or the environment to a susceptible host, either directly or indirectly.⁴

The DOH is responsible for adopting rules governing the immunization of school children, as well as the testing for and control of preventable communicable diseases. The DOH establishes

¹ Prescription ivermectin tablets are approved for treating certain parasitic infections. Some topical forms of ivermectin are approved to treat external parasitic infestations and rosacea. A topical lotion for head lice is available without a prescription. Ivermectin products are also used to prevent heartworm disease and to treat certain internal and external parasites in animals. See: U.S. Food and Drug Administration, *Ivermectin and COVID-19*, Apr. 5, 2024, <https://www.fda.gov/consumers/consumer-updates/ivermectin-and-covid-19> (last visited Apr. 20, 2026).

² Immunization is defined as "The process of being made immune or resistant to an infectious disease, typically by the administration of a vaccine. It implies that a vaccine will trigger an immune response." See: U.S. Centers for Disease Control and Prevention, *Immunization Glossary of Terms*, available at <https://www.cdc.gov/vaccines/glossary/index.html> (last visited Apr. 20, 2026).

and maintains its own immunization schedule through the *Immunization Guidelines for Florida Schools, Childcare Facilities, and Family Daycare Homes* (“DOH Immunization Guidelines”), which have remained unchanged since their adoption in 2013.⁵

Florida School-entry Vaccination Requirements

Section 1003.22, F.S., requires immunizations for certain preventable communicable diseases as a condition of admittance to or attendance in Florida public and private schools (K–12) and for initial entrance into a Florida school. The statute requires immunization against the following diseases, several of which are typically provided in combined vaccine formulations:

- DTaP: Diphtheria, Tetanus, and acellular Pertussis (whooping cough);⁶
- Polio;⁷
- MMR: Measles, mumps, and rubella.⁸

The statute authorizes the DOH to determine additional communicable diseases for which immunization is required.⁹ Pursuant to this authority, the DOH currently requires vaccinations against the following diseases by rule:

- Haemophilus influenzae type b (Hib);¹⁰
- Hepatitis B (Hep B);¹¹
- Varicella (chickenpox);¹² and
- Pneumococcal conjugate.¹³

Immunizations required under s. 1003.22, F.S., and related DOH rule are available at no cost from county health departments.¹⁴

Eliminating Rule-based Vaccine Mandates

The DOH held a rule workshop on December 12, 2025, in Panama City Beach.¹⁵ At the workshop, draft Proposed Revisions to Rule 64D-3.046 were distributed to attendees. The draft proposed rule eliminated the four vaccinations required only by rule.¹⁶ At this time, no proposed rule has been formally published, and those four vaccinations are still required.

Florida Requirements Versus Federal Vaccination Recommendations

The vaccine recommendations issued by the U.S. Centers for Disease Control and Prevention (CDC) include every vaccine required under Florida law and current DOH rule for K-12 school entry.¹⁷ On January 5, 2026, the CDC announced changes to its Recommended Child and Adolescent Immunization Schedule, which would have reduced the number of recommended vaccinations. Those changes have been stayed by the U.S. District Court for the District of Massachusetts and are not in effect at this time.¹⁸ Under the stayed schedule, the Hep B vaccination would be recommended only for certain high-risk groups or populations.¹⁹

Florida School-entry Immunization Requirements; Exemptions

To attend a public or private K-12 school, each child must present to the school either a Florida Certificate of Immunization Form²⁰ or a Religious Exemption from Immunization Form,²¹ both of which are adopted under DOH rule. Child care facilities²² and family day care homes²³ are

²² Section 402.305, F.S., requires the Dept. of Children and Families to establish licensing standards that all licensed child care facilities must meet, including minimum standards relating to immunizations and the maintenance of emergency and health records for all children. Department rule 65C-22, F.A.C., incorporates the *Child Care Facility Handbook*, which in turn references the DOH Immunization Guidelines. The handbook requires child care facilities to obtain a Certificate of Immunization (Form DH 680) or a Religious Exemption from Immunization (Form DH 681) for each child within 30 days of enrollment. See Fla. Admin. Code R. 65C-22.001(8); Fla. ²³ Section 402.313, F.S., directs the Department of Children and Families to adopt rules establishing minimum standards for family day care homes. These standards must include health and safety requirements, including provisions for the maintenance of immunization records. Department rule 65C-20, F.A.C., incorporates the *Family Day Care Home and Large Family Child Care Home Handbook*, which references the DOH Immunization Guidelines. The handbook requires the

also required, by rule of the Florida Department of Children and Families (DCF), to collect one of these forms for each child they serve.

The Certificate of Immunization Form is prepared by a physician's office or clinic and provides:

- Part A: Completion of immunizations in accordance with DOH Immunization Guidelines;
- Part B: A temporary medical exemption for children²⁴ who have commenced a schedule to complete the required immunizations;²⁵ or
- Part C: A permanent medical exemption for medically contraindicated immunizations. Only a licensed allopathic or osteopathic physician may certify a permanent medical exemption.²⁶

Aside from a 30-day temporary exemption applicable to transferring students, homeless students, dependent children, or students entering the juvenile justice system, the only nonmedical exemption authorized in the Florida Statutes is a religious exemption. The DOH Religious Exemption from Immunization Form must be signed by a parent or guardian who declares that immunizations conflict with his or her "religious tenets or practices."²⁷

The DOH Immunization Guidelines currently state the following regarding the unlawfulness of exemptions that might be sought for other reasons:²⁸

D. Consistency With Florida Law:

Requests for religious exemption from immunizations should be consistent with section 1003.22, *Florida Statutes*. **Exemptions for personal or philosophical reasons are not permitted under Florida law.**

However, the DOH's draft Proposed Revisions to Rule 64D-3.046 delete "Exemptions for personal or philosophical reasons are not permitted under Florida law."²⁹ from the DOH Immunization Guidelines and amend the Religious Exemption from Immunization form to allow

operator to obtain a Certificate of Immunization (Form DH 680) or a Religious Exemption from Immunization (Form DH 681) for each child within 30 days of enrollment. See Fla. Admin. Code R. 65C-20.010(1)(a); Fla. Dept. of Children & Families., *Family Day Care Home and Large Family Child Care Home Handbook*, available at <https://flrules.org/Gateway/reference.asp?No=Ref-13928> (last visited Apr. 20, 2026).

²⁴ Children under age four are generally granted a temporary medical exemption because they have not received all required vaccine doses required of a kindergartener by that age.

²⁵ An allopathic, osteopathic, or chiropractic physician can certify a temporary medical exemption pursuant to s. 1003.22(5)(c), F.S. The DOH has indicated that it is not within a chiropractic physician's scope of practice to administer a vaccine to a minor child. See: Fla. Dept. of Health, *Legislative Bill Analysis: SB 1756*, Jan. 22, 2026 (on file with Senate Committee on Health Policy).

²⁶ Florida Administrative Code & Florida Administrative Register, *supra* note 20.

²⁷ The immunization requirements do not apply if "the parent of the child objects in writing that the administration of immunizing agents conflicts with his or her religious tenets or practices." See: s. 1003.22(5)(a), F.S.

a parent to attest that “Immunizations are in conflict with my religious tenets or practices, which may include a sincerely held moral or ethical belief.” (Emphasis added.) The current exemption form does not contain this reference to “a sincerely held moral or ethical belief,” nor does Florida law. As of this writing, no proposed rules have been formally published.

Religious Exemption Form

The DOH Immunization Guidelines require county health department staff to issue the Religious Exemption from Immunization form, which is available electronically in the Florida SHOTS registry. (See “Florida SHOTS Immunization Registry” on page 11 of this analysis.) No other information should be solicited from the parent or guardian.³⁰ The form requires the electronic signature of the county health department director or administrator.³¹ The exemption form must be presented to the school, preschool, child care facility, or family day care home where it is to be kept on file in order to identify unimmunized children needing exclusion during an outbreak of a vaccine-preventable disease.

Each public school and private school, including kindergarten, is required to provide to the county health department director or administrator annual reports of compliance with immunization requirements.³² Those reports are generally compiled into statewide data.

The following chart reflects the same 2023-2024 school year data above in an attempt to show the inherent correlation between religious exemptions and completion of vaccinations by Florida County. Generally, the more religious exemptions, the fewer students with completed Certificates of Immunization.

Florida SHOTS Immunization Registry

The DOH maintains a secure statewide electronic immunization registry, Florida SHOTS (State Health Online Tracking System), which consolidates immunization histories and facilitates access to immunization documentation for clinical care and school recordkeeping.³⁸ A parent or guardian, or a certain eligible student, may decline participation in the registry by submitting an opt-out form.³⁹ A parent or guardian who opts out generally assumes responsibility for maintaining and providing documentation of their child's immunization status.⁴⁰

During an outbreak, Florida SHOTS enables the DOH and county health departments to rapidly verify immunization status, identify individuals who may be susceptible to disease, and support response activities such as contact investigations, targeted vaccination outreach, and, when authorized, school exclusion decisions.⁴¹

Disease Outbreaks

The CDC defines a measles outbreak as three or more related cases.⁴² The DOH rule defines an “outbreak” as “an increase in the number of cases of a disease or condition compared to the expected number in a particular period of time and geographical area. For diseases where the expected number is zero, a single case constitutes an outbreak.”⁴³

Measles Outbreak

Florida is currently experiencing a measles outbreak. The DOH reports 131 confirmed cases of measles between January 1 and April 11, 2026, as follows:⁴⁴

Reporting Requirements

All practitioners, health care facilities, and laboratories in Florida are required to notify the DOH of diseases or conditions of public health significance.⁴⁷ DOH rules require reporting for each disease for which the DOH seeks to immunize children under its Immunization Guidelines. For those specified diseases, practitioners must report as follows:

Emergencies and Advisories

While the Governor of this state has broad emergency management powers,⁴⁹ the statutes grant specified authority to the State Health Officer, commonly referred to as the State Surgeon General. In the State Surgeon General's discretion, he or she may issue a public health advisory⁵⁰ (a warning or report giving information to the public about a potential public health threat) or may declare a public health emergency⁵¹ (for any occurrence which results or may result in substantial injury or harm to the public).

During a public health emergency, the State Surgeon General has statutory authority to order an individual to be examined, tested, treated, isolated, or quarantined for communicable diseases that have significant morbidity or mortality and present a severe danger to public health.⁵² In 2021, the Legislature amended the statute to remove the State Surgeon General's authority to order an individual to be vaccinated for such a disease.⁵³

At the local level, a county health department director or administrator⁵⁴ may declare a communicable disease emergency if a communicable disease for which vaccination is required by the DOH is present in a public or private school.⁵⁵ Upon declaration of such an emergency, the district school board or the governing authority of a private school must identify all students in attendance who have not completed the required immunizations, as documented on the Certificate of Immunization form. Students identified as not immunized against the disease for which the emergency has been declared must be excluded from school until the county health department director or administrator specifies otherwise.⁵⁶ In 2024, when seven elementary school students contracted confirmed cases of measles, a communicable disease emergency was not declared. Instead, a public health advisory was issued.⁵⁷

Measles and Community Immunity as Illustrated by the Manatee Bay Elementary Outbreak of 2024

According to the CDC website:

- “Some people think of measles as just a little rash and fever that clear up in a few days.”⁵⁸
- “Measles can cause serious health complications, especially in children younger than five years of age. Common complications are ear infections and diarrhea. Serious complications include pneumonia and encephalitis.”⁵⁹
- “Measles is highly contagious. If one person has it, up to 9 out of 10 people nearby will become infected if they are not protected.”⁶⁰
- “It spreads through the air when an infected person coughs or sneezes.”⁶¹

The CDC further indicates that “The measles, mumps, and rubella (MMR) vaccine is very safe and effective. *When more than 95 percent of people in a community are vaccinated (coverage >95 percent), most people are protected through community immunity (herd immunity).*”⁶²

The CDC defines “community immunity” as “a situation in which a sufficient proportion of a population is immune to an infectious disease (through vaccination and/or prior illness) to make its spread from person to person unlikely. Even individuals not vaccinated (such as newborns and those with chronic illnesses) are offered some protection because the disease has little opportunity to spread within the community. Also known as herd immunity.”⁶³

In 2024, seven children at Manatee Bay Elementary in Broward County contracted confirmed cases of measles.⁶⁴ Broward County experienced two additional cases of measles, and there were single cases of measles in Martin, Orange, and Polk Counties in 2024, bringing the state total up to 12 confirmed cases in 2024 according to the DOH data.⁶⁵

The Broward County health department issued a public health advisory on February 18, 2024, in response to the outbreak of related measles cases at Manatee Bay Elementary.⁶⁶ Initially, the Broward County school district superintendent declared that the school was 92 percent

vaccinated against measles.⁶⁷ It is probable that the school district obtained initial data from the Florida SHOTS immunization registry to quickly assess the school's immunization rate. Children whose parents have opted them out of Florida SHOTS would not be counted in the initial data pull.

State Surgeon General Ladapo has reiterated that “people with a history of prior infection or vaccination of the full series of the Measles, Mumps, Rubella (MMR) immunization are 98 percent protected and are unlikely to contract measles.”⁶⁸

The county health department began offering MMR immunizations at the school.⁶⁹ The measles vaccination is typically given in a combined vaccine formulation also protecting against mumps and rubella. The Broward County school district superintendent later gave an update claiming that 33 of 1,067 Manatee Bay students were unimmunized against measles.⁷⁰ This mathematically suggests that 97 percent of students had at least one dose of the MMR vaccine, reflecting a 5 percent increase in immunization, with roughly 3 percent of students totally unprotected from the virus. The on-site vaccination efforts, together with the inclusion of students who acquired immunity through infection, appears to have increased the overall immunization rate.

According to both the CDC Child and Adolescent Immunization Schedule and the DOH Immunization Guidelines, the first dose of the MMR vaccine is recommended at one year of age, so infants under one year of age are unprotected and have no immunity from measles, mumps, and rubella. While some vaccines, such as Tdap⁷¹, that are given during pregnancy can pass protective antibodies to the baby, the MMR vaccine should not be administered during pregnancy.⁷² The second recommended dose of the MMR vaccine is recommended at four years of age. Because this outbreak occurred in an elementary school rather than a day care or preschool, the students had significantly higher immunity due to having received the second dose.

It is likely that several of the Manatee Bay Elementary students had a permanent medical exemption in place. A medical doctor or osteopathic physician may advise against a measles vaccine if the child has a known life-threatening allergy to MMR ingredients such as gelatin or neomycin, has a serious immune system condition that makes live vaccines unsafe, or has a documented history of severe brain inflammation or injury that would make MMR vaccination dangerous. Certainly, some students had a temporary medical exemption in place with the intent of completing the second recommended dose.

A child may have a religious exemption in place while still receiving selected immunizations. For the 2023-2024 school year, Broward County reported that 5.1 percent of its kindergarten students in public and private schools had a religious exemption.⁷³ It is likely that the majority of the school's 33 unimmunized students had a religious exemption in place.

Assuming the superintendent's updated data are accurate, with roughly 97 percent of students immunized from measles, the CDC's 95 percent threshold was exceeded within the school, offering most students protection through community immunity.

The school remained open.⁷⁴ The DOH deferred to parents and guardians to make decisions about school attendance and provided virtual learning options for students whose parents or guardians chose to keep them at home.⁷⁵ On March 8, 2024, the DOH issued a press release entitled "Leading the Nation Again, Florida Successfully Balances Personal Responsibility, Parent's Rights, and Public Health."⁷⁶ The disease outbreak was contained due to the DOH and county health department's response measures which appear to have boosted the school's already high immunization rate, exceeding the threshold needed to achieve community immunity.

It should be noted that the percentage of kindergarten students fully immunized in Broward County has fallen dramatically from 90.7 percent during the 2023-2024 school year to 84.7 percent during the 2025-2026 school year, as reported in recently updated DOH data.⁷⁷ The DOH indicates that the Broward County immunization rate is statistically significantly different from the statewide rate.

Community immunity thresholds vary from disease to disease. Pertussis (whooping cough), which most commonly affects infants and young children, also requires a relatively high vaccination rate to achieve community immunity, estimated to be between 92-94 percent.⁷⁸ The

Spartanburg, South Carolina Measles Outbreak and Localized Data

Assessing local outbreak risk based on statewide data is of limited utility. The South Carolina Department of Public Health recently reported 997 measles cases associated with a single outbreak, with no new reported cases since March 17, 2026.⁸¹ If no new cases are reported, the last day of the outbreak will be April 26, 2026.⁸² At this time, no people are in quarantine or isolation, though both methods were used to widely control the outbreak. On January 27, 2026, 557 people in South Carolina (including students in 23 different schools) were in quarantine and 20 were in isolation to control the spread.⁸³

⁷⁹ DTaP is recommended for children under seven years of age. Tdap is recommended for older children and adults. Different dosages are recommended for different age groups. Of the confirmed cases, 932 were unvaccinated, 25 were fully vaccinated, 21 were partially vaccinated with one of the recommended two-dose MMR sequence, and 19 are unknown.⁸⁵

The epicenter of the South Carolina outbreak was Spartanburg County, where the majority of cases were concentrated. Although approximately 90 percent of students in Spartanburg County met school immunization requirements, significant variation exists at a more granular level.⁸⁶ Some schools in the county reportedly had vaccination rates as low as 20 percent.⁸⁷ When assessing outbreak risk, county- and school-level immunization data provide more meaningful insight than statewide averages.

Approximately eight percent of students in Spartanburg County had a nonmedical religious exemption from immunization requirements, reflecting a jump from three percent in 2020.⁸⁸ An eight-percent figure suggests that the county as a whole will not achieve the CDC community immunity threshold for measles of at least 95 percent. The religious exemption is the only nonmedical exemption available under South Carolina law.⁸⁹ The South Carolina Department of Public Health has made the religious exemption form available on its website, warning parents that unvaccinated children are more likely to get sick.⁹⁰

Consistent with the Spartanburg outbreak, a recent study concluded that nonmedical vaccine exemptions tend to be geographically concentrated in a fraction of counties, creating localized pockets of increased vulnerability.⁹¹

Nonmedical Exemptions in Other States⁹²

Nationally, all 50 states and the District of Columbia require specified immunizations for K–12 school attendance and allow medical exemptions. For nonmedical exemptions, state statutes fall into four nonmedical exemption categories.

- Religious-only (and no personal/philosophical): Alabama, Alaska, Delaware, Florida, Georgia, Hawaii, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Massachusetts, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, Rhode Island, South Carolina, South Dakota, Tennessee, Vermont, Virginia, and Wyoming. (Washington, D.C., is also religious-only.)
- Both religious and personal/philosophical exemptions: Arizona, Arkansas, Colorado, Idaho, Michigan, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Texas, Utah, Washington, and Wisconsin.
- Nonmedical allowed but not specified as religious or personal: Louisiana and Minnesota.
- Medical exemptions only: California, Connecticut, Maine, New York, and West Virginia.

Conditions for Nonmedical Exemptions

States that allow nonmedical exemptions generally require a parent or guardian (or adult student) to submit a state-required form (sometimes vaccine-specific), a signed statement or affidavit attesting to the basis for the exemption, and depending on the jurisdiction, renewal at defined grade levels or annually, with explicit notice that an exempt child may be excluded from school attendance during outbreaks. Some states also narrow the scope of personal/philosophical exemptions. For example, D.C. and Virginia allow a personal-belief exemption only for HPV, and Washington state removed the personal/philosophical option for MMR. In a smaller subset, the exemption is not merely filed with the school; it is processed through a health agency workflow (e.g., state or county health department intake), or it must be notarized.

Consultation and Parental Education Requirements for Nonmedical Exemptions

Several states require parents seeking a nonmedical vaccine exemption to complete an education or counseling step rather than simply filing a form. Colorado and Oregon allow two routes, either completing an online education module or obtaining documentation after a health care provider consultation. Michigan requires education through the county health department before issuing the waiver form, and Utah similarly requires either an online module or an in-person local health department consultation. Mississippi requires an in-person county health department appointment that includes watching an education video and discussing vaccine information, while Vermont requires an annual religious-exemption statement confirming the parent has reviewed evidence-based educational materials. Washington state generally requires a health care practitioner signature on the exemption certificate to document that the required information was provided (with separate limits on certain personal/philosophical exemptions, such as for MMR).

Legal Challenges

The U.S. Supreme Court has long recognized that compulsory vaccination falls within a state's police powers for the protection of public health.⁹³ However, disputes over nonmedical exemptions have given rise to recent challenges.

West Virginia state law provides for compulsory school immunization with medical exemptions and does not codify a nonmedical exemption. On January 14, 2025, West Virginia Governor Morrisey issued Executive Order 7-25, directing an exemption process for families asserting religious objections in K–12 schools and state-regulated child care.⁹⁴ On March 24, 2025, West Virginia Senate Bill 460, which would have established a religious exemption and related changes, was defeated on the House floor (42–56).⁹⁵ On December 2, 2025, the West Virginia Supreme Court granted a stay of a ruling that would have allowed students to attend school with the religious exemption.⁹⁶ Litigation is ongoing.

New York removed its religious exemption from the state's school-immunization law in 2019, after a significant measles outbreak that was at least partly attributed to high numbers of religious exemptions in certain schools and childcare centers,⁹⁷ leaving medical exemptions as the only statutory basis for attending school without the required vaccines. That change brought forth litigation in *Miller v. McDonald*.⁹⁸ In that case, Old Order Amish parents and Amish schools challenged the 2019 repeal on federal constitutional grounds (principally the Free Exercise Clause), arguing that eliminating the religious exemption while retaining a medical exemption unlawfully burdened their religious exercise. In a decision issued March 3, 2025, the U.S. Court of Appeals for the Second Circuit upheld dismissal of the challenge, concluding that New York's post-2019 scheme is neutral and generally applicable for Free Exercise purposes despite the continued availability of medical exemptions. The U.S. Supreme Court intervened, vacating the Second Circuit's judgment and remanding the case for further consideration on December 8, 2025.⁹⁹

Arkansas: Addition of a Philosophical Exemption

A 2007 study examined Arkansas school immunization exemption data before and after the state introduced a philosophical exemption in 2003, in addition to its preexisting religious exemption and medical exemptions.¹⁰⁰ The authors reported that total exemptions increased significantly over time after the philosophical exemption became available. They also found that nonmedical exemptions were geographically clustered, which could concentrate outbreaks and risk within communities smaller than an entire county.

The chart above shows the number of Arkansas students requesting immunization exemptions by type, 2001-2005. Exemptions include all students reported to Arkansas Division of Health who attended day care, pre-K programs, K-12, and colleges/universities.¹⁰¹

Among Florida's counties and nationwide, higher percentages of students with nonmedical exemptions are associated with lower vaccination rates.¹⁰²

Federal Oversight of Vaccinations

While states generally establish and enforce vaccination requirements for school attendance, the federal government plays a central role in regulating vaccine products, issuing recommendations on vaccine use and supporting vaccine access through coverage and purchase programs. The U.S. Department of Health and Human Services (HHS) is the federal department principally responsible for public health policy and administration. Federal vaccine activity is coordinated through HHS and its operating divisions, including the CDC and the Food and Drug Administration (FDA). In addition, federal law directs the HHS Secretary to establish a National

CDC, ACIP, and the Recommended Childhood Immunization Schedule

The CDC's vaccine-use guidance is traditionally developed through the Advisory Committee on Immunization Practices (ACIP).¹⁰⁴ The CDC publishes consolidated recommendations for clinicians and public health professionals as the Recommended Child and Adolescent Immunization Schedule.¹⁰⁵ The CDC publishes the schedule as an annual, consolidated summary of current ACIP recommendations and organizes the schedule in standard components used in pediatric practice, including an age-based schedule, a catch-up schedule, and notes that describe routine, catch-up, and special-situation guidance.¹⁰⁶ Because school-age vaccination compliance frequently depends on vaccinations received in infancy and early childhood (as well as adolescent boosters and series), the schedule serves as a central federal reference point for routine pediatric vaccination and catch-up vaccination for children who are behind schedule.

The reduced recommended schedule, which was issued via memorandum on January 5, 2026, is stayed in court and is not in effect at this time.¹⁰⁷ That schedule was not established, reviewed, or revised by ACIP.¹⁰⁸ Interest groups and associations such as the American Academy of Pediatrics are challenging in federal court the procedure by which the guidance was adopted, citing conflict with federal laws and regulations.¹⁰⁹ The American Academy of Pediatrics maintains its own recommended schedule.¹¹⁰

adverse events, and creating a no-fault compensation program for certain vaccine-related injuries.¹¹¹

Federal law imposes informed-consent-adjacent requirements specific to vaccines. The Act requires development of Vaccine Information Statements (VIS) for covered vaccines and imposes duties on vaccine providers to furnish those materials prior to administration of each dose of a covered vaccine. Specifically, each health care provider who administers a vaccine set forth in the Vaccine Injury Table must provide the Vaccine Information Statement to the child's parent or guardian prior to administration of the vaccine.¹¹² The HHS requires providers to document in the patient's permanent medical record the VIS edition date and the date the VIS was provided at the time the VIS is given.¹¹³

In addition, federal law requires providers administering covered vaccines to record specified information in the patient's permanent medical record (or in a permanent office log/file):

- The date of administration,
- The manufacturer and lot number, and
- The name/address (and, if appropriate, title) of the provider administering the vaccine.¹¹⁴

The Act requires each health care provider and vaccine manufacturer to report specified events to the HHS Secretary, including events set forth in the Vaccine Injury Table within the applicable time period.¹¹⁵ The national reporting mechanism used for this purpose is the Vaccine Adverse Event Reporting System (VAERS), a passive reporting system co-managed by CDC and FDA. Anyone (health care providers, manufacturers, and the public) may submit a report.¹¹⁶ VAERS is primarily an early warning signal-detection system; it is not designed to determine whether a vaccine caused a reported event.¹¹⁷

The Act sought to incentivize manufacturers to develop vaccinations for market by offering some protection from litigation. The Act established the National Vaccine Injury Compensation Program (VICP), administered by the HHS, under which compensation may be paid for a vaccine-related injury or death. HRSA describes VICP's objectives: to ensure an adequate supply of vaccines, stabilize vaccine costs, and establish and maintain an accessible and efficient forum for individuals found to have been injured by certain vaccines.¹¹⁸

VICP claims are adjudicated in the U.S. Court of Federal Claims by special masters in the Court's Office of Special Masters (sometimes referred to as "vaccine court"). The Court describes the program as a no-fault compensation system in which petitions for compensation may be brought by or on behalf of persons alleging injury or death from covered vaccines.¹¹⁹ The vast majority of VICP claims filed are related to influenza vaccinations (flu shots).¹²⁰

According to the CDC, from 2006 to 2023, over 5 billion doses of covered vaccines were distributed in the U.S.¹²¹ For petitions filed in this period, 13,948 petitions were adjudicated by the Court, and of those, 10,193 were compensated.¹²² This means for every 1 million doses of vaccine that were distributed, approximately one individual was compensated.¹²³

The VICP covers most vaccines routinely administered in the U.S., but it does not cover claims associated with COVID-19 vaccines, which have never been added to the table. Instead, HRSA directs that claims related to COVID-19 vaccines be filed under the Countermeasures Injury Compensation Program.¹²⁴

Vaccines for Children Program and No-Cost Vaccines for Eligible Children

Separate from the Act's reporting and compensation framework, federal law supports access to pediatric vaccines through the Vaccines for Children program, a pediatric vaccine distribution program established in the Social Security Act.¹²⁵ The CDC states that there is no cost for vaccines themselves provided by program providers to eligible children.¹²⁶

FDA Regulation of Vaccines

Vaccines are regulated as biological products. The FDA licenses (approves) vaccines for introduction into interstate commerce.¹²⁷ In general terms, the FDA evaluates evidence of safety, effectiveness, and manufacturing quality to determine whether a vaccine may be marketed in the U.S.¹²⁸

Before a vaccine may be evaluated by the FDA for licensure, it typically proceeds through preclinical testing and clinical development.¹²⁹

- Preclinical phase. A company or researcher conducts laboratory research and animal testing. If the sponsor is ready to begin studies in humans, it submits an Investigational New Drug application to the FDA. If the application meets the FDA's criteria and is authorized to proceed, clinical development begins and the vaccine enters phased human trials.
- Phase 1 (safety). Generally involves 20-100 healthy volunteers and focuses on initial safety and dosing. If no significant safety concerns arise, the product may proceed to Phase 2.
- Phase 2 (initial efficacy). Generally involves hundreds of participants and evaluates dosing, immune response, and additional safety data across broader demographic groups.
- Phase 3 (confirmatory efficacy and safety). Generally involves thousands of participants and is designed to generate the principal evidence of effectiveness and additional safety data. Participants are randomized into a treatment group and a control group to generate critical information on effectiveness and additional important safety data. The treatment group gets the vaccine and the control group gets the placebo. For a new vaccine, the placebo is saline or similar. In the case of childhood vaccinations, the currently given vaccinations are updated versions of older vaccines. When updated versions of older vaccines are tested in trials, the treatment group gets the new vaccine and the control group gets the old vaccine as the placebo.¹³⁰

After Phase 3, the sponsor generally submits a biologics license application for FDA review of data, proposed labeling, and manufacturing.¹³¹ If the FDA approves the application and licenses the vaccine, the product may be marketed and distributed in interstate commerce.¹³² Once distribution begins, the FDA and the CDC continue post-licensure safety monitoring through systems such as VAERS.

Compensation for Clinical Trial Participation

Clinical investigation sponsors may pay human subjects to participate in a vaccine trial and may reimburse subjects for expenses associated with participation, such as travel and lodging. FDA guidance states that payment to research subjects is a common and generally acceptable practice for any pharmaceutical clinical trial.¹³³

Federal human-subject protections require informed consent to be sought under circumstances that minimize coercion or undue influence. If research subjects are to be paid, the FDA guidance provides that the Institutional Review Board (the ethics-review committee that oversees research involving human subjects) should review the amount, method, and timing of payment to ensure that payment is not coercive and does not create undue influence.¹³⁴ The FDA guidance directs that payment should accrue as the study progresses rather than depend on completion of the

entire study, and that payment terms should be set in the informed consent document.¹³⁵ The HHS Office for Human Research Protections has issued recommendations that similarly distinguish reimbursement, compensation, appreciation payments, and incentive payments and recommend that reimbursement and compensation ordinarily be prorated.¹³⁶

Ivermectin

As of September 30, 2025, the DOH had received 59 total complaints involving licensed health care practitioners related to the prescribing or dispensing of ivermectin. The DOH reports that none of these complaints were deemed legally sufficient for probable cause to be found.

FDA Approval of Ivermectin for Treatment of Parasitic Conditions

The FDA website details how the ivermectin drug is used: “Ivermectin tablets are approved by the FDA to treat people with intestinal strongyloidiasis and onchocerciasis, two conditions caused by parasitic worms. In addition, some topical forms of ivermectin are approved to treat external parasites like head lice and for skin conditions such as rosacea. Some forms of animal ivermectin¹³⁷ are approved to prevent heartworm disease and treat certain internal and external parasites in animals. It’s important to note that these products are different from the ones for people, and safe only when used in animals as labeled or as prescribed. The FDA has not authorized or approved ivermectin for the treatment or prevention of COVID-19 in people or animals. The FDA has not determined that ivermectin is safe or effective for these indications (uses).”¹³⁸

Similar to how the FDA licenses vaccines and other (“large-molecule”) biologics, the FDA also authorizes most conventional (“small-molecule”) drugs for marketing by approving a New Drug Application.¹³⁹ After pre-clinical testing and with approval to proceed, the drug sponsor runs a series of clinical trials in people (typically Phase 1-3) to evaluate safety and efficacy, and then submits those data to the FDA for review.¹⁴⁰ The FDA’s review teams then evaluate the submitted evidence (along with manufacturing and labeling information) and decide whether the benefits outweigh the risks for the intended use.¹⁴¹

The FDA has granted marketing approval for ivermectin tablets for specified parasitic worm conditions.¹⁴² Those FDA-approved indications are the drug’s “on-label” uses. However, a licensed prescriber has the authority to prescribe an FDA-approved human drug for an off-label use when, in the prescriber’s professional judgment, such use is medically appropriate for an individual patient.¹⁴³

The FDA at one time led a “You are not a horse!” social media campaign attempting to deter people from using both animal ivermectin drugs and FDA-approved prescription ivermectin drugs as an off-label COVID-19 treatment.¹⁴⁴ The campaign gave rise to litigation clarifying the role of the FDA. The U.S. Court of Appeals for the Fifth Circuit opined that the “FDA is not a physician. It has authority to inform, announce, and apprise—but not to endorse, denounce, or advise.”¹⁴⁵

The American Association of Poison Control Centers reported 2,337 ivermectin poison control reports nationally in 2021.¹⁴⁶ One of the clearest datasets tying veterinary ivermectin to severe outcomes comes from Oregon. A poison center study of COVID-19-related ivermectin exposures that led to a health care visit (Aug. 14, 2021–Jan. 31, 2022) reported 37 cases, including 21 hospitalizations, 13 treated in emergency departments, and one death. Seventeen cases involved veterinary formulations, and 15 involved prescription-only tablets.¹⁴⁷

Clinical Studies: Ivermectin and COVID-19

Early in the COVID-19 pandemic, ivermectin drew attention because a mix of small clinical studies and early meta-analyses appeared to show benefit, but the limited evidence and its underlying data sets were highly disputed. A CDC health alert issued on August 26, 2021, explained: “Clinical trials and observational studies to evaluate the use of ivermectin to prevent and treat COVID-19 in humans have yielded insufficient evidence for the NIH COVID-19 Treatment Guidelines Panel to recommend its use. Data from adequately sized, well-designed, and well-conducted clinical trials are needed to provide more specific, evidence-based guidance on the role of ivermectin in the treatment of COVID-19.”¹⁴⁸

As the evidence base matured, larger, better-controlled randomized trials did not confirm those early signals that appeared to show benefits of off-label ivermectin use. In the TOGETHER

outpatient trial, ivermectin did not reduce the need for hospitalization or prolonged emergency observation.¹⁴⁹ In the U.S. ACTIV-6 platform trial, which included a participation site at the University of Florida, ivermectin likewise did not improve time to sustained recovery, even when tested at higher doses and longer courses.¹⁵⁰

Because the most rigorous trials have failed to demonstrate meaningful clinical benefit, clinical guidelines largely do not recommend ivermectin for COVID-19 outside of research settings.¹⁵¹

Ivermectin Classified as Rx-Only Status; Federal Misbranding

When the FDA approves a drug application for marketing, the agency also determines whether the product will be prescription-only or nonprescription (over-the-counter or “OTC”), and it approves the product’s conditions of use and labeling consistent with that status. Under the Federal Food, Drug, and Cosmetic Act, a drug is classified as prescription-only if it is not safe for use without a clinician’s supervision (e.g., due to toxicity, method of use, or required monitoring), and prescription drugs must bear the “Rx only” legend consistent with this statutory scheme.¹⁵² If a drug sponsor later seeks to move a drug from prescription to nonprescription status, that occurs through a separate Rx-to-OTC switch process that typically relies on consumer-focused evidence (e.g., label comprehension and self-selection studies, and sometimes actual-use studies) to show the product can be used safely and effectively without a prescriber.¹⁵³

Ivermectin remains classified federally as a prescription drug for human use. Federal law requires that, prior to dispensing, the drug’s labeling bear the legend “Rx only.” A prescription drug that does not bear this legend before dispensing is deemed misbranded under federal law. Ivermectin is generally well tolerated when used at FDA-approved doses for approved indications; however, adverse effects may occur and can be dose-related. The FDA has warned that ivermectin can interact with other medications, including anticoagulants (“blood thinners”).¹⁵⁴ These interaction risks are particularly relevant when ivermectin is obtained without individualized prescriber oversight, as patients taking anticoagulants may not recognize the potential for increased bleeding risk.

For purposes of labeling and misbranding law, nonprescription (OTC) drug labeling must “stand on its own” for a lay consumer and must include adequate directions for use so that an ordinary person can use the product safely and for its intended purpose without professional

supervision.¹⁵⁵ By contrast, prescription (Rx-only) drugs are intended to be used under the supervision of a licensed practitioner and therefore generally fall within the FDA’s regulatory exemptions from the “adequate directions for use” requirement, because such directions cannot feasibly be written for safe self-use by the general public. As a result, attempts to market a product for self-directed use without consumer-usable directions (or with labeling that implies an OTC use that actually requires practitioner oversight) raise heightened misbranding risk under federal labeling standards.

State Trends in Ivermectin Laws

When a state authorizes a pharmacist to furnish a prescription drug without a patient-specific prescription, questions arise as to whether the transaction constitutes “dispensing” under state law and what labeling and documentation requirements apply, particularly in light of the federal “Rx only” classification.

Several states have enacted laws authorizing pharmacists to provide ivermectin without an individual patient-specific prescription, notwithstanding ivermectin’s federal prescription-only status. These laws generally fall into two models: an OTC authorization declaring that ivermectin suitable for human use may be sold or purchased without a prescription, or a standing order or collaborative practice model authorizing dispensing pursuant to a non-patient-specific prescriptive order or protocol.

Vaccine and Testing Mandate Prohibitions

In 2023, CS/SB 252 was enacted to prohibit a business entity,¹⁵⁶ governmental entity,¹⁵⁷ or educational institution¹⁵⁸ from requiring any person to provide any documentation certifying vaccination with listed vaccines or postinfection recovery from COVID-19, or requiring a COVID-19 test, in order to gain access, entry upon, or service from entity or institution.

The 2023 bill, now codified in ss. 381.00316 and 381.00319, F.S., applies to the following vaccines:

- “COVID-19 vaccine” means a preparation designed to stimulate the human body’s immune response against COVID-19.
- “Emergency use authorization vaccine” means any vaccine that is authorized for emergency use under 21 U.S.C. 360bbb-3(a)(1) and qualifies as an unapproved product under 21 U.S.C. 360bbb-3(a)(2)(A).

¹⁵⁵ U.S. Food & Drug Admin., *Labeling Requirements—Exemptions From Adequate Directions for Use* (content current as of Feb. 21, 2018), available at <https://www.fda.gov/medical-devices/general-device-labeling-requirements/labeling-requirements-exemptions-adequate-directions-use> (last visited Apr. 20, 2026).

¹⁵⁶ “Business entity” has the same meaning as in s. 606.03, F.S., and also includes a charitable organization as defined in s. 496.404, a corporation not for profit as defined in s. 617.01401, a private club, or any other business operating in this state.

¹⁵⁷ “Governmental entity” means the state or any political subdivision thereof, including the Executive, Legislative, and Judicial branches of government; the independent establishments of the state, counties, municipalities, districts, authorities, boards, or commissions; or any agencies that are subject to chapter 286, F.S.

¹⁵⁸ “Educational institution” means a public or private school, including a preschool, elementary school, middle school, junior high school, secondary school, career center, or postsecondary school.

- “Messenger ribonucleic acid vaccine” means any vaccine that uses laboratory-produced messenger ribonucleic acid to trigger the human body’s immune system to generate an immune response.

Those statutes prohibit:

- Requiring such documentation or testing as a condition of contracting, hiring, promotion, or continued employment;
- Using a knowledge or belief of a person’s vaccination with any of the listed vaccines or COVID-19 postinfection status, or a person’s failure to take a COVID-19 test, to:
 - Refuse to hire, or discharge, the person;
 - Deprive or attempt to deprive the person of employment opportunities;
 - Adversely affect the person’s status as an employee or as an applicant; or
 - Otherwise discriminate against the person.

Current law also provides that if a governmental entity fails to comply with the above provisions, an employee terminated based on such noncompliance is eligible for reemployment assistance under ch. 443, F.S., in addition to any other remedies available for such violation.

Additionally, for matters related to any vaccine other than a defined vaccine, a defined entity or institution must provide for reasonable religious and medical accommodations in compliance with federal law.

The definitions for “messenger ribonucleic acid vaccine” in ss. 381.00316 and 381.00319, F.S., were scheduled to automatically expire on June 1, 2025, but the enactment of a 2025 bill, CS/CS/HB 1299, delayed the automatic expiration until June 1, 2027, effectively eliminating the prohibitions relating to that type of vaccine on that date.¹⁵⁹

Messenger Ribonucleic Acid (mRNA) Vaccines

Messenger RNA is a molecule that contains the instructions or recipe that directs cells in the human body to make a protein using their natural machinery. To enter cells smoothly, mRNA travels within a protective bubble called a Lipid Nanoparticle. Once inside, mRNA causes cells to read the mRNA as a set of instructions, building proteins that match parts of the pathogen called antigens. The immune system sees these foreign antigens as invaders, dispatching defenders called antibodies and T-cells, and training the immune system for potential future attacks. So, if and when the real virus comes along, the body might recognize it, sounding the alarm to help defend against infection and illness.

Though many people first became aware of mRNA technology because of COVID-19 vaccines, the technology is not new to the scientific community. For decades, scientists have studied mRNA, looking for ways to unlock its potential to prevent and treat disease. While the mechanism of action for mRNA technology is relatively simple, researchers have worked for years to develop technologies to allow mRNA to work in the real world.¹⁶⁰

¹⁵⁹ Sections 1-3, ch. 2025-114, Laws of Fla.

¹⁶⁰ Johns Hopkins University, *5 things to know about the power of mRNA technology*, Apr. 15, 2025, available at <https://washingtondc.jhu.edu/news/5-things-to-know-about->

In 2024, the FDA approved an mRNA vaccine for the prevention of respiratory syncytial virus (RSV). There are mRNA vaccines in Phase 3 of clinical trials, including vaccines for Influenza and Norovirus.¹⁶¹ Research is ongoing for various infectious diseases, and researchers are also working on mRNA vaccines for cancer and genetic diseases as well as treatments for food and environmental allergies.¹⁶² Most recently, researchers at Memorial Sloan Kettering Cancer Center announced promising results of a Phase 1 clinical trial of an mRNA-based vaccine against pancreatic cancer, which is one of the most difficult cancers to detect and treat effectively.¹⁶³ A larger Phase 2 clinical trial is underway.¹⁶⁴

Anti-Kickback Laws

A kickback is money or something else of value given or received to induce or reward a referral for health care services. Federal and state law both prohibit kickbacks in health care, but they differ in scope and application.

The federal anti-kickback statute makes it a crime to knowingly and willfully offer, pay, solicit, or receive remuneration, directly or indirectly, in cash or in kind, to induce or reward referrals or the purchasing, leasing, ordering, or recommending of items or services for which payment may be made in whole or in part under a federal health care program.¹⁶⁵ Thus, federal anti-kickback laws apply only when the item or service is reimbursable by a federal health care program, such as Medicare, Medicaid, TRICARE, or another federally funded health care program. The statute contains express statutory exceptions, and the HHS Office of Inspector General has adopted additional regulatory “safe harbors” for certain arrangements.¹⁶⁶

The Florida anti-kickback statute, s. 456.054, F.S., makes it unlawful for *any* health care provider or provider of health care services to offer, pay, solicit, or receive a kickback, directly or indirectly, overtly or covertly, in cash or in kind, for referring or soliciting patients, and defines a “kickback” as remuneration or payment made as an incentive or inducement to refer patients when the payment is not tax deductible as an ordinary and necessary expense.

A violation of this Florida statute is considered patient brokering and is punishable as provided in s. 817.505, F.S., which provides graduated criminal penalties. A violation is generally a third-degree felony, punishable as provided in s. 775.082 or s. 775.084, F.S., and the offender must be ordered to pay a \$50,000 fine. If the prohibited conduct involves 10 or more patients, but fewer

In addition, for allopathic and osteopathic physicians, ss. 458.331(1)(i) and 459.015(1)(j), F.S., respectively, make it grounds for disciplinary action to pay or receive any commission, bonus, kickback, or rebate, or to engage in any split-fee arrangement, directly or indirectly, for patients referred to providers of health care goods and services; however, those provisions do not prohibit a physician from receiving a fee for professional consultation services.

III. Effect of Proposed Changes:

Section 1 creates a short title. The act may be cited as the “Medical Freedom Act.”

Section 2 repeals section 9 of Chapter 2023-43, L.O.F., as amended by section 1 of Chapter 2025-114, L.O.F. In effect, this repeals the scheduled repeal date of June 1, 2027, for the statutory definition of “messenger ribonucleic acid vaccine,” ensuring the continued enforceability of the definition in both s. 381.00316(2)(g) and s. 381.00319(1)(e), F.S.”¹⁶⁷ In practice, this maintains existing prohibitions against mandates by governmental entities, business establishments, and educational institutions that a person must be vaccinated with an mRNA-based vaccine.

Section 3 amends s. 381.00315(2)(d)4., F.S. That statute currently provides that the State Surgeon General, upon declaration of a public health emergency, may order an individual to be treated for communicable diseases that have significant morbidity or mortality and present a severe danger to public health. The bill amends this subparagraph to clarify that the State Surgeon General’s authority to order an individual to be treated does not include authority to order the individual to be vaccinated.

In 2021, the Legislature amended the statute to remove the State Surgeon General’s overt authority to order an individual to be vaccinated for such a disease.¹⁶⁸ Although the State Surgeon General’s authority to order an individual to be vaccinated was already removed from this section, this bill goes a step further to state that limitation affirmatively. The bill forecloses negative-implication and prevents arguments that vaccination is simply a form of “treatment” authorized within that section.

Section 4 amends s. 456.054, F.S., the Florida Anti-kickback Law, to establish that it is unlawful and considered patient brokering for a vaccine manufacturer to offer or pay, a commission, bonus, kickback, or rebate, directly or indirectly, overtly or covertly, in cash or in kind, for the administration of a vaccine.

This section also establishes that it is unlawful for a health care practitioner to receive such a commission, bonus, kickback, or rebate from a vaccine manufacturer for the administration of a vaccine.

¹⁶⁷ “Messenger ribonucleic acid vaccine” means any vaccine that uses laboratory-produced messenger ribonucleic acid to trigger the human body’s immune system to generate an immune response.

¹⁶⁸ Chapter 2021-7B, Laws of Fla.

A violation of either provision is considered patient brokering and is punishable as provided in s. 817.505, F.S.

Section 5 amends s. 456.0575, F.S., to revise procedures surrounding vaccinations of minor children.

“Health care practitioner” is defined for ch. 456, F.S., in s. 456.001(4), F.S.,¹⁶⁹ but only the following professions are granted authority in their respective practice acts to administer vaccinations to minors: allopathic physicians and physician assistants, osteopathic physicians and physician assistants, registered nurses, advanced practice registered nurses, and licensed practical nurses.

Under s. 401.272(2)(c), F.S., paramedics may administer immunizations in a nonemergency environment, within the scope of their training, and under the medical direction of a physician through two-way communication or pursuant to established standing orders or protocols.

Under the bill, before administering a vaccine to a minor child, such health care practitioner or paramedic must:

- Provide the child’s parent or guardian with the most recently issued Vaccine Information Statement (VIS) published by the U.S. Centers for Disease Control and Prevention pertaining to each vaccine being administered and materials approved and adopted by joint rule of the Board of Medicine and the Board of Osteopathic Medicine (collectively, the Boards) relating to the role of immunizations in communicable disease prevention, including risks, benefits, safety, and efficacy.
- Obtain the signature of the parent or guardian acknowledging receipt of that information.

In addition to obtaining the signature of the parent or guardian acknowledging receipt of the information required by the bill, the practitioner or paramedic must document additional information in the minor child’s medical record. The National Childhood Vaccine Injury Act establishes a federal requirement for health care providers to provide a VIS to a child’s parent or guardian prior to administration of vaccines covered by the Act, a category that includes most routine pediatric immunizations and flu shots.¹⁷⁰ Federal law requires providers to record in the medical record that the VIS was provided; the date the VIS was provided; the edition (publication) date of the VIS; the name, address and title of the individual who administers the vaccine; the date of administration; and the vaccine manufacturer and lot number of the vaccine used.

If more than one vaccine is to be administered, the bill requires a health care practitioner to discuss the timing of multiple vaccinations with the child’s parent or guardian and the parent or guardian’s options for such timing before administering the initial vaccination. The bill

¹⁶⁹ Section 456.001(4), F.S. “Health care practitioner” means any person licensed under chapter 457; chapter 458; chapter 459; chapter 460; chapter 461; chapter 462; chapter 463; chapter 464; chapter 465; chapter 466; chapter 467; part I, part II, part III, part V, part X, part XIII, or part XIV of chapter 468; chapter 478; chapter 480; part I, part II, or part III of chapter 483; chapter 484; chapter 486; chapter 490; or chapter 491.

¹⁷⁰ While COVID-19 vaccines are not NCVIA-covered vaccines, CDC guidance indicates that vaccinators should provide the COVID-19 VIS before each dose. See: U.S. Centers for Disease Control & Prevention, *COVID-19 Vaccines by Product*, available at <https://www.cdc.gov/vaccines/covid-19/info-by-product/index.html> (last visited Apr. 20, 2026).

affirmatively authorizes the health care practitioner to administer vaccines to a child over multiple encounters if the parent or guardian requests it.

The Department of Health (DOH) has indicated that the Board of Medicine, Board of Osteopathic Medicine, Board of Nursing, and Board of Pharmacy may need to amend their disciplinary guideline rules to create a range of penalties for violating the new requirements in s. 456.0575, F.S., as amended by the bill.¹⁷¹

Section 6 provides that the amendments to s. 456.0575(2)(a) and (b), F.S., in section 3 of the bill relating to information that must be provided to parents or guardians before vaccinating a minor, become effective 30 days after the Board of Medicine and the Board of Osteopathic Medicine adopt the informational materials by joint rule. The Boards must adopt the joint rule no later than 120 days after the bill becomes a law and must notify the Division of Law Revision immediately upon adoption. The bill, if enacted, would take effect before the informational materials are finalized. This delayed effective date relating to the informational materials ensures that practitioners and paramedics can continue to provide vaccinations to minors with parental consent, as generally required for the provision of all health care services pursuant to s. 1014.06, F.S., while the materials are being developed by the Boards.

The bill provides this section takes effect upon becoming a law, enabling the Boards to begin the rulemaking process as soon as practicable.

Sections 7, 8, and 9 create ss. 458.3351, 459.0156, and 464.0181, F.S., respectively, to grant immunity from civil or criminal liability and disciplinary action under Florida law to a health care practitioner licensed under chs. 458, 459, or 464, F.S., whose license includes prescribing authority, for prescribing or administering ivermectin¹⁷² to an adult, in good faith, in accordance with the applicable standard of care and in accordance with the applicable practice act and pertinent rules.

- Section 7 grants such immunities to allopathic physicians, and physician assistants delegated prescriptive authority by their supervising physician, licensed under ch. 458, F.S.
- Section 8 grants such immunities to osteopathic physicians, and physician assistants delegated prescriptive authority by their supervising physician, licensed under ch. 459, F.S.
- Section 9 grants such immunities to advance practice registered nurses (APRNs) operating within the framework of an established protocol, or autonomous APRNs, licensed under ch. 464, F.S.

Section 10 amends the Florida Pharmacy Act by creating s. 465.1897, F.S., to authorize a licensed pharmacist to provide ivermectin¹⁷³ to a person who is 18 years of age or older without a prescription as a behind-the-counter medication until the U.S. Food and Drug Administration (FDA) approves ivermectin for over-the-counter sale. Current prescription-only ivermectin drugs include oral tablets for the treatment of parasitic conditions and topical ivermectin for the treatment of rosacea.

¹⁷¹ Fla. Dept. of Health, *Legislative Bill Analysis: SB 1756*, Jan. 22, 2026 (on file with Senate Committee on Health Policy).

¹⁷² These sections of the bill address ivermectin broadly and could be interpreted to encompass all formulations for on- and off-label use, including drugs manufactured for human use and animal use.

¹⁷³ The bill does not specify whether the ivermectin authorized to be dispensed by pharmacists under this section must be manufactured for human use.

Before providing ivermectin under this provision, the pharmacist must provide written information regarding indications and contraindications, appropriate dosage, and the need to seek follow-up care from the person's primary care physician. Because the FDA has classified all tablet forms and some topical forms of ivermectin as prescription-only drugs, meaning that the drugs may be dispensed to a specific patient pursuant to a practitioner's prescription and used under that practitioner's supervision, they are exempted from federal "adequate directions for use" requirements. This exemption would no longer apply if they were to be dispensed without a prescription.

The bill provides that a pharmacist acting in good faith is immune from civil or criminal liability or disciplinary action for providing ivermectin to an adult in accordance with this portion of the bill. However, any prescription drugs so dispensed would be misbranded in violation of federal law.¹⁷⁴ Although the bill provides protection from state actions, a pharmacist or pharmacy acting in accordance with this section would risk federal enforcement.

The Board of Pharmacy is authorized, but not required, to adopt rules to implement this new section of law.

Section 11 amends s. 1003.22, F.S., to create a statutory nonmedical exemption from immunization requirements for a child attending a K-12 school if the administration of immunizing agents conflicts with the parent's conscience.

Like the existing religious exemption, the conscience exemption would also be available to children attending preschool or day care in a child care facility¹⁷⁵ or family day care home facility¹⁷⁶ who are subject to immunization requirements pursuant to rules of the Department of Children and Families.

Under the bill, a single nonmedical exemption form would provide for both conflicts with religious tenets or practices and conflicts with conscience.¹⁷⁷ In accordance with current DOH rule for the religious exemption form, the new form must be adopted by DOH rule.

The bill statutorily requires the nonmedical exemption form to be made available on the DOH website. Nothing in current law prevents the DOH from making the form available on its website today. Under the bill, the DOH would be required to do something it may already do of its own volition but has chosen not to.

Upon making the nonmedical exemption form available on its website and upon the Boards' adoption of a rule, the DOH must ensure that the form and the materials approved and adopted

¹⁷⁶ Section 402.313, F.S.

¹⁷⁷ Neither the bill nor the Florida Statutes define the term "conscience." Section 381.00321(1)(b), F.S., defines the term "conscience-based objection" for purposes of that section as an objection based on a sincerely held religious, moral, or ethical belief." One Merriam-Webster definition of "conscience" is "conformity to what one considers to be correct, right, or morally good." by joint rule of the Boards under s. 456.0575(2)(a), F.S., as amended under Section 5 of the bill relating to the role of immunizations in communicable disease prevention, are downloaded as a single document. This requirement takes effect upon the adoption of the joint rule.

The web page containing the download link must also include and prominently display a link or links to the CDC's current Vaccine Information Statements.

A parent seeking a nonmedical exemption must obtain a signature from the director or administrator of the county health department pursuant to existing DOH rule before presenting the form to the school or facility, as required by the bill and in accordance with rule, effectively exempting their child from immunization requirements.

The bill makes a technical change to paragraph (5)(b) regarding a permanent medical exemption to clarify that a child may be exempt from one or more required immunizations, which is in accordance with Part C of the DOH's current Certificate of Immunization Form.

The bill also makes a technical change to paragraph (5)(c) to correct verbiage providing that a child who has a temporary medical exemption, which may be issued by an allopathic physician, an osteopathic physician, or a chiropractic physician under current law, is in the process of completing the other required immunizations, thereby conforming to Part B of the DOH's current Certificate of Immunization Form.

The bill makes other non-substantive edits to improve clarity within this statutory section and to improve consistency within the statutes. For example, the bill replaces "permit" with "allow" to clarify that no formal permit is issued, and hyphens are added to "follow-up."

Section 10 provides an effective date of July 1, 2026, except for the provisions directing the Boards to adopt informational materials by rule which would go into effect upon becoming law. The bill directs the Boards to adopt the joint rule no later than 120 days after the bill becomes a law. The provisions requiring a parent's signature documenting the receipt of informational materials do not go into effect until 30 days after the Boards adopt the materials by joint rule.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

Because the bill authorizes behind-the-counter access to an U.S. Food and Drug Administration (FDA) Rx-only ivermectin product, a court could find conflict preemption under the Supremacy Clause because the state authorization would permit conduct that federal law treats as unlawful misbranding for prescription-only drugs. See *Present Situation: Ivermectin* portion of this analysis.

V. Fiscal Impact Statement:**A. Tax/Fee Issues:**

None identified.

B. Private Sector Impact:

None identified.

C. Government Sector Impact:

SB 6-D requires the Board of Medicine and the Board of Osteopathic Medicine to jointly adopt materials to convey to parents the role of immunizations in communicable disease prevention. The Department of Health (DOH) will be required under the bill to update its Immunization Guidelines and its Exemption from Immunization for Religion form. The Department of Children and Families will need to update its handbooks for childcare facilities and family day care homes. It is expected that these operational impacts may be absorbed within existing resources.¹⁷⁸

VI. Technical Deficiencies:

None identified.

VII. Related Issues:

The bill amends s. 456.054, F.S., to establish that it is unlawful for a vaccine manufacturer to offer or pay, or for a health care practitioner to receive, any form of compensation for the administration of a vaccine. Any such act is considered patient brokering, punishable as a felony under existing law.

As with any pharmaceutical needing FDA approval, before a vaccine may be approved, the vaccine manufacturer must guide the vaccine through a series of clinical trials on human subjects to confirm safety and efficacy. When vaccine manufacturers are testing a new product before it may be offered on market, they are required to conduct a series of clinical trials.

¹⁷⁸ Fla. Dept. of Health, *supra* note 171.

Participants in clinical trials are often incentivized to participate through compensation and travel reimbursement by pharmaceutical manufacturers. Such compensation for vaccine clinical trials could be interpreted as an indirect financial incentive that is prohibited as patient brokering under this bill, thus outlawing such compensation for participants in clinical trials of vaccines conducted in Florida. Meanwhile, compensation for participants in clinical trials of other types of pharmaceuticals would remain lawful.

If that outcome is not the bill's intent, an amendment should be considered.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 381.00315, 456.054, 456.0575, and 1003.22.

This bill creates the following sections of the Florida Statutes: 458.3351, 459.0156, 464.0181, and 465.1897.

providing that the requirement takes effect upon adoption of a specified rule; requiring that the web page containing the download link also include and prominently display certain other links; revising requirements and procedures for declarations of a communicable disease emergency; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. This act may be cited as the "Medical Freedom Act."

Section 2. Section 9 of chapter 2023-43, Laws of Florida, as amended by section 1 of chapter 2025-114, Laws of Florida, is repealed.

Section 3. Paragraph (d) of subsection (2) of section 381.00315, Florida Statutes, is amended to read:

381.00315 Public health advisories; public health emergencies; isolation and quarantines.—The State Health Officer is responsible for declaring public health emergencies, issuing public health advisories, and ordering isolation or quarantines.

(2)

(d) The State Health Officer, upon declaration of a public health emergency, may take actions that are necessary to protect the public health. Such actions include, but are not limited to:

1. Directing manufacturers of prescription drugs or over-the-counter drugs who are permitted under chapter 499 and wholesalers of prescription drugs located in this state who are permitted under chapter 499 to give priority to the shipping of

4-00005-26D

20266D__

specified drugs to pharmacies and health care providers within geographic areas identified by the State Health Officer. The State Health Officer must identify the drugs to be shipped. Manufacturers and wholesalers located in the state must respond to the State Health Officer's priority shipping directive before shipping the specified drugs.

2. Notwithstanding chapters 465 and 499 and rules adopted thereunder, directing pharmacists employed by the department to compound bulk prescription drugs and provide these bulk prescription drugs to physicians and nurses of county health departments or any qualified person authorized by the State Health Officer for administration to persons as part of a prophylactic or treatment regimen.

3. Notwithstanding s. 456.036, temporarily reactivating the inactive license of the following health care practitioners, when such practitioners are needed to respond to the public health emergency: physicians licensed under chapter 458 or chapter 459; physician assistants licensed under chapter 458 or chapter 459; licensed practical nurses, registered nurses, and advanced practice registered nurses licensed under part I of chapter 464; respiratory therapists licensed under part V of chapter 468; and emergency medical technicians and paramedics certified under part III of chapter 401. Only those health care practitioners specified in this paragraph who possess an unencumbered inactive license and who request that such license be reactivated are eligible for reactivation. An inactive license that is reactivated under this paragraph shall return to inactive status when the public health emergency ends or before the end of the public health emergency if the State Health

Officer determines that the health care practitioner is no longer needed to provide services during the public health emergency. Such licenses may only be reactivated for a period not to exceed 90 days without meeting the requirements of s. 456.036 or chapter 401, as applicable.

4. Ordering an individual to be examined, tested, treated, isolated, or quarantined for communicable diseases that have significant morbidity or mortality and present a severe danger to public health. Individuals who are unable or unwilling to be examined, tested, or treated for reasons of health, religion, or conscience may be subjected to isolation or quarantine. For the purposes of this subparagraph, the State Health Officer's authority to treat or order treatment does not include the authority to order a vaccination.

a. Examination, testing, or treatment may be performed by any qualified person authorized by the State Health Officer.

b. If the individual poses a danger to the public health, the State Health Officer may subject the individual to isolation or quarantine. If there is no practical method to isolate or quarantine the individual, the State Health Officer may use any means necessary to treat the individual.

c. Any order of the State Health Officer given to effectuate this paragraph is immediately enforceable by a law enforcement officer under s. 381.0012.

Section 4. Present subsection (4) of section 456.054, Florida Statutes, is redesignated as subsection (5) and amended, and a new subsection (4) is added to that section, to read:

456.054 Kickbacks prohibited.—

(4) It is unlawful for a vaccine manufacturer to offer or

4-00005-26D

20266D__

pay a commission, bonus, kickback, or rebate, directly or indirectly, overtly or covertly, in cash or in kind, for the administration of a vaccine. It is unlawful for a health care practitioner to receive such a commission, bonus, kickback, or rebate from a vaccine manufacturer for the administration of a vaccine.

(5)-(4) Violations of this section are ~~shall be~~ considered patient brokering and are ~~shall be~~ punishable as provided in s. 817.505.

Section 5. Section 456.0575, Florida Statutes, is amended to read:

456.0575 Duty to notify patients.—

(1) ADVERSE INCIDENTS.—A ~~Every~~ licensed health care practitioner shall inform each patient, or an individual identified pursuant to s. 765.401(1), in person about adverse incidents that result in serious harm to the patient. Notification of outcomes of care that result in harm to the patient under this section does not constitute an acknowledgment of admission of liability, nor can such notifications be introduced as evidence.

(2) VACCINATIONS OF MINORS.—

(a) Each health care practitioner authorized by law to administer vaccines, and each paramedic acting pursuant to s. 401.272, shall, before administering one or more vaccines to a minor child, provide the parent or guardian with the following:

1. The most recently issued Vaccine Information Statement published by the United States Centers for Disease Control and Prevention pertaining to each vaccine being administered.

2. Materials approved and adopted by joint rule of the

4-00005-26D

Board of Medicine and the Board of Osteopathic Medicine relating to the role of immunizations in communicable disease prevention, including risks, benefits, safety, and efficacy.

(b) Before administering one or more vaccines to a minor child, the health care practitioner or paramedic must obtain the signature of the parent or guardian acknowledging receipt of the information required under paragraph (a).

(c) When more than one vaccine is to be administered, the health care practitioner shall discuss the timing of multiple vaccinations with the child's parent or guardian and the parent's or guardian's options for such timing before administering the initial vaccination. At the request of the parent or guardian, a health care practitioner may administer vaccines to the minor child over multiple encounters.

(3) GOOD FAITH ESTIMATE OF CHARGES.—Upon request by a patient, before providing nonemergency medical services in a facility licensed under chapter 395, a health care practitioner shall provide, in writing or by electronic means, a good faith estimate of reasonably anticipated charges to treat the patient's condition at the facility. The health care practitioner shall provide the estimate to the patient within 7 business days after receiving the request and is not required to adjust the estimate for any potential insurance coverage. The health care practitioner shall inform the patient that the patient may contact his or her health insurer or health maintenance organization for additional information concerning cost-sharing responsibilities. The health care practitioner shall provide information to uninsured patients and insured patients for whom the practitioner is not a network provider or

4-00005-26D

20266D__

preferred provider which discloses the practitioner's financial assistance policy, including the application process, payment plans, discounts, or other available assistance, and the practitioner's charity care policy and collection procedures. Such estimate does not preclude the actual charges from exceeding the estimate. Failure to provide the estimate in accordance with this subsection, without good cause, shall result in disciplinary action against the health care practitioner and a daily fine of \$500 until the estimate is provided to the patient. The total fine may not exceed \$5,000.

Section 6. The amendments made by this act to s. 456.0575(2)(a) and (b), Florida Statutes, relating to information that must be provided to parents or guardians before the administration of a vaccination to a minor are effective July 1, 2026, or 30 days after the Board of Medicine and the Board of Osteopathic Medicine adopt by joint rule the informational materials as required under s. 456.0575(2)(a), Florida Statutes, as created by this act, whichever occurs later. The Board of Medicine and the Board of Osteopathic Medicine shall adopt the joint rule no later than 120 days after this act becomes a law and shall notify the Division of Law Revision immediately upon their adoption of the joint rule. This section takes effect upon becoming a law.

Section 7. Section 458.3351, Florida Statutes, is created to read:

458.3351 Prescription or administration of ivermectin.—A health care practitioner who is licensed under this chapter and whose license includes prescribing authority is immune from civil or criminal liability or disciplinary action for

4-00005-26D

20266D

prescribing or administering ivermectin to an adult in good faith, in accordance with the applicable standard of care and in accordance with this chapter and the rules pertaining to his or her practice.

Section 8. Section 459.0156, Florida Statutes, is created to read:

459.0156 Prescription or administration of ivermectin.—A health care practitioner who is licensed under this chapter and whose license includes prescribing authority is immune from civil or criminal liability or disciplinary action for prescribing or administering ivermectin to an adult in good faith, in accordance with the applicable standard of care and in accordance with this chapter and the rules pertaining to his or her practice.

Section 9. Section 464.0181, Florida Statutes, is created to read:

464.0181 Prescription or administration of ivermectin.—A health care practitioner who is licensed under this chapter and whose license includes prescribing authority is immune from civil or criminal liability or disciplinary action for prescribing or administering ivermectin to an adult in good faith, in accordance with the applicable standard of care and in accordance with this chapter and the rules pertaining to his or her practice.

Section 10. Section 465.1897, Florida Statutes, is created to read:

465.1897 Sale of ivermectin without a prescription.—

(1) A pharmacist may provide ivermectin to a person 18 years of age or older without a prescription as a behind-the-

4-00005-26D

counter medication until the United States Food and Drug Administration approves it for over-the-counter sale.

(2) Before providing ivermectin under this section, the pharmacist shall provide the person with written information regarding the indications and contraindications for ivermectin, the appropriate dosage, and the need to seek follow-up care from the person's primary care physician.

(3) A pharmacist acting in good faith is immune from civil or criminal liability or disciplinary action for providing ivermectin to an adult in accordance with this section.

(4) The board may adopt rules to implement this section.

Section 11. Subsections (5) and (9) of section 1003.22, Florida Statutes, are amended to read:

1003.22 School-entry health examinations; immunization against communicable diseases; exemptions; duties of Department of Health.—

(5) A child is exempt from immunization requirements in subsection (3) ~~The provisions of this section shall not apply~~ if:

(a) The parent of the child presents to the school, on a form adopted by rule of the Department of Health and made available on its website, an attestation ~~objects in writing~~ that the administration of immunizing agents conflicts with the parent's his or her religious tenets or practices or conscience;

(b) A physician licensed under ~~the provisions of~~ chapter 458 or chapter 459 certifies in writing, on a form approved and provided by the Department of Health, that the child should be permanently exempt from one or more of the required immunizations ~~immunization~~ for medical reasons stated in

 297 indicated at the time and is in the process of completing the
 298 other required ~~necessary~~ immunizations;

299 (d) The Department of Health determines that, according to
 300 recognized standards of medical practice, any required
 301 immunization is unnecessary or hazardous; or

302 (e) An authorized school official issues a temporary
 303 exemption, for up to 30 school days, to allow ~~permit~~ a student
 304 who transfers into a new county to attend class until his or her
 305 records can be obtained. Children and youths who are
 306 experiencing homelessness and children who are known to the
 307 department, as defined in s. 39.0016, shall be given a temporary
 308 exemption for 30 school days. The public school health nurse or
 309 authorized private school official is responsible for follow-up
 310 ~~followup~~ of each such student until proper documentation or
 311 immunizations are obtained. An exemption for 30 days may be
 312 issued for a student who enters a juvenile justice program to

Proposed Congressional Redistricting Plan

JASON POREDA
EXECUTIVE OFFICE OF THE GOVERNOR
APRIL 28, 2026

Overview on Congressional Redistricting

- The U.S. Census Bureau released Apportionment Counts to all states on April 26, 2021. Resulting from the 2020 Census, Florida gained 1 seat, for a total of 28 seats in the U.S. House of Representatives.
- Florida Population (21,538,187) divided by 28 districts: 769,221.
- The standard for Congressional Redistricting is to draw districts: “As nearly equal as possible” which has been consistently interpreted to mean exact population equality – plus or minus 1 person.

Florida Fast Facts	2010	2020	Difference
Statewide Population	18,801,310	21,538,187	+2,736,877
Number of Congressional Seats	27	28	+1 seat
Congressional District Ideal Population	696,345	769,221	+72,876

Overview on Congressional Redistricting

- Districts are assembled using “Census Blocks” that are part of the Redistricting data set provided by the U.S. Census Bureau (P.L. 94-171).
- There are 390,066 census blocks in Florida.

The Florida Senate
BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Rules

BILL: SB 8-D

INTRODUCER: Senator Gaetz

SUBJECT: Establishing the Congressional Districts of the State

DATE: April 27, 2026

REVISED: _____

ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1. Ferrin	Kruse	RC	Favorable

I. Summary:

Senate Bill 8-D apportions the state into 28 single-member Congressional districts.

II. Present Situation:

The 2020 Census revealed overall population growth and an unequal distribution of population growth across Florida's Congressional districts. Therefore, districts were adjusted to comply with the "one person, one vote" principle such that each district was substantially equal in total population.¹ Additionally, Florida was apportioned an additional congressional seat, increasing its representation to 28.²

Litigation over the configuration of Florida's congressional districts as enacted in 2022 ensued in both state and federal court. Challenges were brought to specific districts based on the role race played in their creation.

After the conclusion of the litigation in state courts, Governor DeSantis issued a proclamation, which was later amended, convening the Legislature in Special Session "for the sole and exclusive purpose of considering legislation relating to the drawing of congressional districts for the State of Florida and any legal challenges thereto, including the appropriation of additional funding for such litigation."³

Background

The terms “redistricting” and “reapportionment” are often used interchangeably to describe the process of redrawing Congressional and state legislative district boundaries after each decennial census. Redrawing districts is necessary to accommodate population growth and shifts, ensuring that each district contains equal or nearly equal populations in compliance with applicable state and federal law.

The U.S. Constitution requires the apportionment of the U.S. House of Representatives after each decennial census to distribute each of the U.S. House of Representatives’ 435 seats between the 50 states and to equalize population between districts within each state.⁴

The 2020 Census

Established by the U.S. Constitution, the census has been conducted every 10 years by the United States Census Bureau since 1790 to determine the number of people living in the United States. Article I, s. 2 of the U.S. Constitution states that “The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct.”⁵

Florida is one of 21 states that explicitly requires the use of census data for redistricting.⁶ Article X, s. 8 of the Florida Constitution designates each decennial census of the state taken by the United States as the official census of the state.⁷ Florida Statutes also designate the most recent federally conducted decennial census as the official census for redistricting.⁸

Public Law (P.L.) 94-171 requires the Census Bureau to provide states the opportunity to identify the small area geography for which data is needed to conduct legislative and congressional redistricting. The law also requires the U.S. Census Bureau to furnish these tabulations of population to each state, at the county, tract, block group, and block levels, within one year of Census Day.⁹

Title 13, U.S. Code requires that the state-level apportionment population counts be delivered to the President of the United States within 9 months of the census date. In the 2020, 2010, and most 20th century censuses, the census date has been April 1, meaning that the statutory deadline for delivering the counts to the President is December 31 of the census year.¹⁰

¹⁰ United States Census Bureau, *About Congressional Reapportionment* (November 22, 2021), <https://www.census.gov/topics/public-sector/congressional-apportionment/about.html>.

The delivery of 2020 Census results was delayed due to several factors affecting the Census Bureau's collection and processing, including the COVID-19 pandemic, natural disasters that included hurricanes and wildfires, civil unrest, and legal challenges.¹¹

The state population counts for apportionment were delivered to the President on April 26, 2021 (originally due December 31, 2020). The U.S. Census Bureau provided redistricting data as legacy format summary files, which is tabular data, for all states on August 12, 2021 (originally due April 1, 2021). The full redistricting data toolkit was delivered to all 50 states and the public on September 16, 2021 (originally due April 1, 2021).

Redistricting Criteria and Concepts

Florida follows various criteria and standards as it relates to drawing congressional districts, including those established by state and federal law, and in applicable court decisions.

The United States Constitution

The United States (U.S.) Constitution requires the reapportionment of the U.S. House of Representatives after each decennial census to distribute each of the U.S. House of Representatives' 435 seats between the states and to equalize population among districts within each state.¹²

Article I, s. 4 of the U.S. Constitution grants each state legislature the exclusive authority to apportion seats designated to that state by providing the legislative bodies with the authority to determine the times, place, and manner of holding elections for senators and representatives. Consistent therewith, Florida adopts its Congressional apportionment plans by legislation subject to gubernatorial approval.

In addition to state-specific requirements to redistrict, states are obligated to redistrict based on provisions within the United States Constitution. In *Wesberry v. Sanders*, the United States Supreme Court held that districts must be as nearly equal in population as practicable.¹³ Derived from the Fourteenth Amendment, this principle is commonly referred to as "one person, one vote."¹⁴ For Congressional districts, "as practicable" has been interpreted to mean exactly equal based on census data available at the time of redistricting.¹⁵

The requirement that each district be equal in population applies differently to Congressional districts than to state legislative districts. The populations of Congressional districts must achieve absolute mathematical equality (+/- one person from the ideal population), with no de minimis exception.¹⁶ Limited population variances are permitted if they are "unavoidable despite a good

faith effort” or if a valid “justification is shown.”¹⁷ In practice, Congressional districting has strictly adhered to the requirement of exact mathematical equality and in *Kirkpatrick v. Preisler*, the Court rejected several justifications for violating this principle.

The Fourteenth Amendment has also been interpreted to prohibit racial predominance.¹⁸ The U.S. Supreme Court has stated: “The equal protection clause prohibits a state, without sufficient justification, from separating its citizens into different voting districts on the basis of race.” A redistricting plan “that expressly distinguishes among citizens because of their race [must] be narrowly tailored to further a compelling government interest.” Such strict scrutiny review applies not only to redistricting plans that expressly distinguish citizens because of race, but also those plans “that, although race neutral, are, on their face, unexplainable on grounds other than race.”¹⁹

The Federal Voting Rights Act

The Federal Voting Rights Act (VRA) prohibits any state or political subdivision from imposing any “voting qualification or prerequisite to voting or standard, practice, or procedure” in a manner which “results in a denial or abridgement of the right of any citizen of the United States to vote on account of race or color” or status as a member of a language minority group.²⁰

The Supreme Court has evaluated claims brought under Section 2 of the VRA using the three-part framework developed in *Thornburg v. Gingles*, 478 U.S. 30 (1986). To succeed in proving a Section 2 violation under *Gingles*, plaintiffs must satisfy three “preconditions”:

First, the “minority group must be sufficiently large and [geographically] compact to constitute a majority in a reasonably configured district.” A district will be reasonably configured, our cases explain, if it comports with traditional districting criteria, such as being contiguous and reasonably compact. “Second, the minority group must be able to show that it is politically cohesive.” And third, “the minority must be able to demonstrate that the white majority votes sufficiently as a bloc to enable it ... to defeat the minority’s preferred candidate.” Finally, a plaintiff who demonstrates the three preconditions must also show, under the “totality of circumstances,” that the political process is not “equally open” to minority voters.²¹

The Florida Constitution

In 2010, voters amended the Florida Constitution to create additional standards for establishing Congressional district boundaries.²² The standards are set forth in two tiers.

Tier–One Standards

Article III, s. 20(a) of the Florida Constitution prohibits drawing a district or plan with the intent to favor or disfavor a political party or an incumbent. The Florida Supreme Court has held that Florida’s constitutional provision “prohibits intent, not effect” because “any redrawing of lines, regardless of intent, will inevitably have an effect on the political composition of a district and likely whether a political party or incumbent is advantaged or disadvantaged.”²³ Nonetheless, there is no acceptable level of improper intent.²⁴

Article III, s. 20(a) of the Florida Constitution also prohibits drawing districts with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process; or to diminish their ability to elect representatives of their choice.

In litigation following the 2010 redistricting cycle, the Court interpreted the “Non-Diminishment Clause” to mean that “the Legislature cannot eliminate majority-minority districts or weaken other historically performing minority districts where doing so would actually diminish a minority group’s ability to elect its preferred candidates...”²⁵ In 2025, however, the Court expressly addressed the relationship between Florida’s Non-Diminishment Clause and the federal Equal Protection Clause in *Black Voters Matter Capacity Building Institute v. Byrd*. In that case, the Court determined that “The obligation to comply with the Non-Diminishment Clause would not of its own force give the Legislature a compelling interest in drawing a race-predominant district. Were it to choose to draw a race-predominant district—whether to comply with the Non-Diminishment Clause or for any other reason—the Legislature itself would have to specify and justify the compelling interest, with a fresh evidentiary record...The Legislature could not establish a compelling interest for race-based districting simply by pointing to the existence of [Article III, s. 20(a)].”²⁶

Finally, Article III, s. 20(a) requires that districts consist of contiguous territory. The Florida Supreme Court has previously defined contiguous as “being in actual contact: touching along a boundary or at a point.”²⁷ A district is not contiguous if it consists of isolated parts or meets at a corner or right angle.²⁸ The Florida Supreme Court has also held that the presence in a district of a body of water without a connecting bridge, even if it requires land travel outside the district in order to reach other parts of the district, does not violate contiguity.²⁹

The order in which the tier-one standards are set out in the Constitution does not establish any priority among those standards within the tier.³⁰

Tier–Two Standards

The tier-two standards of the Florida Constitution encompass what are often called “traditional redistricting criteria,” but make it clear these standards are subordinated to the tier-one standards. Article III, s. 20(b) states that unless compliance with these standards conflicts with tier-one standards or with federal law, districts shall be as nearly equal in population as practicable, districts shall be compact, and districts shall, where feasible, utilize existing political and geographical boundaries.³¹ As with tier-one, the order in which the tier-two standards are set out in the Constitution does not establish any priority among those standards within the tier.³²

The first tier-two standard set forth by the Florida Constitution states that districts shall be as nearly equal in population as is practicable. As interpreted by the United States Supreme Court, the Equal Protection Clause of the Fourteenth Amendment mandates that “state legislatures be apportioned in such a way that each person’s vote carries the same weight—that is, each legislator represents the same number of voters.”³³ Congressional districts fall under a stricter standard of variance under the United States Constitution, where Congressional districts must achieve precise mathematical equality of population of +/- one person from the ideal population.³⁴

The second tier-two requirement established by Section 20 of the Florida Constitution is compactness. The constitutional amendments adopted in Florida in 2010 state that districts “shall be compact.”³⁵

The Florida Supreme Court has held that “compactness is a standard that refers to the shape of the district. The goal is to ensure that districts are logically drawn and that bizarrely shaped districts are avoided. Compactness can be evaluated both visually and by employing standard mathematical measurements.”³⁶ However, “limiting the definition of compactness to an assessment of a district’s shape does not eliminate the inherent vagueness of the term; however measured, compactness is a matter of degree. And a district’s compactness can be affected by factors over which the line-drawer has no control, like our state’s unique geographical contours and the distribution of population within the state.”³⁷

Florida has historically used three scores to gauge compactness mathematically, all of which fall within a range of 0-1, where a score closer to one indicates a more compact district.³⁸ The first score used is the Convex Hull score, which tests for concavities or indentations in district boundaries by calculating the ratio of the area of the district to the area of the minimum convex polygon that can enclose the district’s geometry.³⁹ The second score used is the Polsby-Popper score, which tests for jagged or squiggly district boundaries by calculating the ratio of the area of

the district to the area of a circle whose circumference is equal to the perimeter of the district. The third score used is the Reock score, which indicates a district's similarity to a circle by calculating the ratio of the area of the district to the area of the smallest circle that can be drawn around the district.⁴⁰

In the Court's interpretation of the tier-one and tier-two standards as applied to state legislative districts, they held that "since compactness is set forth in Section 21(b), the criteria of Section 21(a) must predominate to the extent that they conflict with drawing a district that is compact. However, if a district can be drawn more compactly while utilizing political and geographical boundaries and without intentionally favoring a political party or incumbent, compactness must be a yardstick by which to evaluate those other factors."⁴¹ The same standard applies to Congressional districts, given that Sections 20 and 21 within Article III of the Florida Constitution are identical.⁴²

The final tier-two standard established by the Florida Constitution is that districts shall, "where feasible, utilize existing political and geographical boundaries."⁴³ The Florida Supreme court has defined geographic boundaries as features that are "easily ascertainable and commonly understood" such as "rivers, railways, interstates, and state roads."⁴⁴ Moreover, political boundaries primarily consist of county and municipal boundaries.⁴⁵

The boundaries of Florida's municipalities are not static, and while Florida Statutes⁴⁶ permit municipalities to annex contiguous and compact unincorporated territory, many of Florida's cities are not contiguous, neither visually nor mathematically compact, and contain holes or enclaves.⁴⁷ Of Florida's 412 cities, 136 are discontinuous, and 170 have holes or enclaves.⁴⁸

Unlike other objective tier-two standards in the Florida Constitution, there is no widely accepted measurement for compliance with the requirement to, where feasible, utilize existing political and geographic boundaries.⁴⁹

Simply counting the cities or counties kept whole, meaning they have either all geographic territory or all population in a single district⁵⁰, fails to account for the degree of usage of existing county or municipal boundaries. It also disregards the co-equal constitutional mandate to, where feasible, use political and geographical boundaries.⁵¹

Professional staff of the Florida House of Representatives and the Florida Senate worked to develop a set of quantitative metrics that measure the coincidence of a district's border with easily ascertainable and commonly understood political and geographic features and make it publicly available to all users in the redistricting application. This Boundary Analysis independently measures the extent to which district boundaries overlap city boundaries, county boundaries, primary and secondary roads (interstates, U.S. highways, and State highways), railroads, and significant water bodies (contiguous area hydrography features greater than 10 acres) as defined by the U.S. Census Bureau's TIGER/Line files. Districts' coincidence with these existing political and geographic boundaries is independently calculated and presented along with the extent to which district boundaries do not follow any specified features.

In this way, users are presented with a Boundary Analysis that shows the degree of utilization for each type of existing political or geographic boundary as specified by the Florida Constitution and interpreted by the Florida Supreme Court. To facilitate the utilization of existing political and geographic boundaries, each of the feature layers used in the computation of the Boundary Analysis is provided in the map-drawing application.

Judicial Review of State Legislative Districts

The state constitution prescribes a mandated review process for state legislative redistricting plans by the Florida Supreme Court.⁵² During a constitutionally mandated review, the Florida Supreme Court determines if the newly created State Senate and State House districts are valid. When the Florida Supreme Court enters a judgment that the plan is valid, the plan becomes binding upon all citizens of the state.⁵³

In contrast, the process for enacting Congressional districts differs in two ways. The districts are not established in a joint resolution, but in a general bill that is subject to a Governor's veto. Additionally, the maps do not require mandatory review by the Florida Supreme Court.

Current Congressional Districts and Related Litigation

On February 1, 2022, Governor DeSantis requested an advisory opinion from the Florida Supreme Court inquiring as to whether Article III, Section 20(a) of the Florida constitution "requires the retention of a district in northern Florida that connects the minority population in Jacksonville with distant and distinct minority populations (either in Leon and Gadsden Counties or outside of Orlando) to ensure sufficient voting strength, even if not a majority, to elect a candidate of their choice."⁵⁴ The Florida Supreme Court declined to provide an opinion in response to the Governor's request, noting that "the scope of the Governor's request is broad and contains multiple questions that implicate complex federal and state constitutional matters and precedents interpreting the Voting Rights Act of 1965...Moreover, the Governor's request might necessitate fact-intensive analysis and consideration of other congressional districts, not just District 5. We have no record before us setting forth a functional analysis of statistical evidence, such as the voting age of minority populations and election results."⁵⁵

⁵⁵ *Id.*

On March 4, 2022, the House amended and passed CS/SB 102 to include both a primary and secondary map. The primary map in the House product (H000C8019) sought to address concerns expressed by the Governor’s office about the Duval-to-Gadsden configuration of CD 5 by creating a more compact North Florida district located in Duval County alone. The House amendment also contained a secondary map (H000C8015), which would have taken immediate effect if a court determined that the primary map’s configuration of CD 5 was found to be invalid under state or federal law. The secondary map maintained a configuration of CD 5 similar to that in the benchmark map. The Senate concurred with the House amendment and passed CS/SB 102 the same day.

On March 29, 2022, the Governor vetoed CS/SB 102 and issued a proclamation calling the Florida Legislature into Special Session C to consider legislation relating to the establishment of congressional districts. The veto message filed with the Secretary of State included a memorandum containing the rationale for the veto: “Congressional District 5 in both the primary and secondary maps enacted by the Legislature violates the Equal Protection Clause of the Fourteenth Amendment to the U.S. Constitution because it assigns voters primarily on the basis of race but is not narrowly tailored to achieve a compelling state interest.”⁵⁶

On April 21, 2022, during Special Session C, the Florida Legislature passed SB 2C, which contained the congressional districts (P000C0109) to serve for the qualification, nomination, and election of members to the U.S. House of Representatives in the primary and general elections held in 2022 and thereafter. On April 22, 2022, the Governor signed SB 2C into law.

Common Cause Florida v. Byrd

Voters and organizations sued Florida’s Secretary of State in federal court, alleging claims of intentional vote dilution under the Fourteenth and Fifteenth Amendments against the congressional districting map proposed by the Governor and enacted by the Florida Legislature. In March of 2024, a three-judge panel of the federal District Court for the Northern District of Florida held that any racially discriminatory purpose on Governor’s part could not be imputed to Legislature; and that plaintiffs failed to demonstrate majority of legislators had a racially discriminatory purpose in enacting the redistricting plan.⁵⁷

Nord Hodges v. Albritton

Voters sued the President of the Florida Senate and Florida’s Secretary of State alleging racial gerrymandering of a Tampa Bay district in violation of the Fourteenth Amendment’s Equal Protection Clause. In August 2025, following a trial, a three-judge panel of the federal District Court for the Middle District of Florida held that race did not predominate in the Legislature’s motivations in drawing the district and that the district did not violate the Equal Protection Clause.⁵⁸

Black Voters Matter Capacity Building Institute v. Byrd

Voters and organizations sued Florida’s Secretary of State and the Florida Legislature seeking a declaration that the congressional districting plan enacted in 2022 (P000C0109) violated the Non-Diminishment Clause of the Florida Constitution by failing to retain a congressional district which encompassed several communities of black voters across North Florida. In July of 2025, the Florida Supreme Court held that the Legislature’s obligation to comply with Non-Diminishment Clause was not a compelling governmental interest justifying the drawing of a race-predominant district under the Equal Protection Clause; and that the plaintiffs’ preferred remedial district was drawn for predominantly racial considerations.⁵⁹

Cubanos Pa’lante v. Florida House of Representatives

Voters and organizations sued Florida’s Secretary of State and the Florida House of Representatives, alleging that the Florida Legislature racially gerrymandered several state house districts and one congressional district, in violation of the Equal Protection Clause and Article III Sections 20 and 21 of the Florida Constitution. A trial was held in January of 2026. As of publication of this analysis, no decision has been issued.⁶⁰

Significant Litigation in Other States Since Enactment***Allen v. Milligan***

Alabama voters and several organizations challenged the Alabama’s congressional map, arguing that the state created a redistricting plan for its seven congressional districts in which only one was a majority-black district, when a second could have been created. The challengers alleged that the map minimized the number of districts in which black voters can elect their chosen candidates in violation of Section 2 of the Voting Rights Act. The United States Supreme Court upheld a lower court decision, determining that it correctly applied binding Supreme Court precedent related to the *Gingles* factors to conclude that Alabama’s redistricting map violated Section 2.⁶¹

Alexander v. South Carolina NAACP

The United States Supreme Court overturned a lower court ruling finding that South Carolina’s congressional plan was an unconstitutional racial gerrymander. In doing so, the Court held that the challengers failed to prove race, rather than politics, was the predominant factor in redistricting. The Court established that to prove racial gerrymandering in cases involving mixed motives (race and politics in this case), plaintiffs must produce an alternative map that shows the state could have achieved its political goals without the alleged racial impact.⁶²

Louisiana v. Callais (No. 24-109), consolidated with Robinson v. Callais (No. 24-110)

This is a pending United States Supreme Court case challenging that a Louisiana congressional redistricting map is an impermissible racial gerrymander. The map was created in response to a previous lawsuit, *Robinson v. Ardoin*, where plaintiffs argued that the prior map violated Section 2 of the Voting Rights Act by diluting minority votes. To address these issues, the Louisiana

Legislature adopted a new map that included a second majority-black district. However, the plaintiffs in this case claimed that this new map violated the Equal Protection Clause of the Fourteenth Amendment by prioritizing race in its creation. Though the case was first heard during the Supreme Court's 2024–2025 term, it was reargued in the following term on October 15, 2025, with a focus on whether Louisiana's intentional creation of a second majority-minority congressional district, and in turn Section 2 of the Voting Rights Act, violates the Fourteenth and Fifteenth Amendment to the United States Constitution. As of publication of this analysis, no decision has been issued.⁶³

III. Effect of Proposed Changes:

The bill apportions the state into 28 single-member Congressional districts.

Section 1 amends s. 8.0002, F.S., to describe the state's 28 Congressional districts using Census geography.

Section 2 reenacts s. 8.031, F.S., to establish the districts described in 8.0002 as the official congressional districts of the state.

Section 3 reenacts s. 8.051, F.S., to designate electronic maps as the authoritative representation of the state's Congressional districts. Additionally, it establishes the Office of Economic and Demographic Research as the official custodian of electronic maps representing the Congressional districts described in s. 8.0002, F.S.

Section 4 reenacts s. 8.0611, F.S., to provide severability if any provision of this chapter is invalidated.

Section 5 amends s. 8.07, F.S., to change the applicable starting date for the qualification, nomination, and election in the new congressional districts from 2022 to 2026.

Section 6 provides an effective date.
