COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1470 strengthens school safety measures, enhances behavioral threat management protocols, expands oversight of school security personnel, and clarifies campus security requirements. Specifically, the bill:

- Aligns the training and certification requirements for school security guards with those for school guardians and requires that all security guards be trained and approved by a sheriff.
- Clarifies participation in the school security guard program to private schools, ensuring they meet the same training and screening requirements as public schools.
- Enhances reporting requirements for school security guards and safe-school officers, requiring employment and disciplinary actions to be reported to the Florida Department of Law Enforcement (FDLE).
- Mandates that security guards submit the results of the required psychological evaluation to the sheriff for review.
- Clarifies that locked campus requirements apply only during school supervision hours, rather than whenever students are present.
- Expands the use of firearm detection canines by authorizing school districts, in addition to law enforcement agencies, to employ them for school security.
- Establishes a formal partnership between OSS and the Florida Association of School Safety Specialists (FS3) to develop training and certification programs for school safety personnel.
- Requires the Office of Safe Schools to convene a stakeholder work group to develop recommendations for the establishment of a Florida Institute of School Safety.

- Requires the Department of Education to establish and maintain a centralized system that integrates panic alert systems and digital school maps used by public schools.

This bill appropriates for the 2025-2026 fiscal year, the sum of \$450,000 in recurring general revenue funds to the Department of Education to implement the provisions of the centralized alert system. **See Section V., Fiscal Impact Statement.**

The bill takes effect July 1, 2025

II. Present Situation:

Chris Hixon, Coach Aaron Feis, and Coach Scott Beigel Guardian Program

School Guardian Training

Florida law requires sheriffs to assist district school boards, charter school governing boards, and private schools in exercising options for safe-school officers. Each sheriff must provide access to the Chris Hixon, Coach Aaron Feis, and Coach Scott Beigel Guardian Program to aid in the prevention or abatement of active assailant incidents on school premises.

A sheriff who establishes a guardian program must consult with the Florida Department of Law Enforcement (FDLE) on programmatic guiding principles, practices, and resources, and is responsible for certifying school employees as school guardians if they meet statutory qualifications, including:

- Holding a license to carry a concealed weapon or concealed firearm.
- Completing a 144-hour training program, consisting of 12 hours of training to improve the school guardian's knowledge and skills necessary to respond to and de-escalate incidents on school premises and 132 total hours of comprehensive firearm safety and proficiency training conducted by Criminal Justice Standards and Training Commission-certified instructors.
- Passing a psychological evaluation.
- Submitting to and passing an initial drug test and subsequent random drug tests.
- Successfully completing ongoing annual training, weapon inspection, and firearm qualification.¹

A sheriff who conducts the training or waives training requirements must issue a school guardian certificate and maintain detailed records of training, inspections, and certifications.²

Permitless Carry and Guardian Training Eligibility

A sheriff may only certify school employees as school guardians if they hold a concealed weapon or concealed firearm license under s. 790.06, F.S.³ However, in 2023, Florida enacted permitless concealed carry under s. 790.01(1), F.S., allowing individuals to carry a concealed firearm without obtaining a license under s. 790.06, F.S.⁴ Current law does not explicitly

Sheriff and School Guardian Reporting Requirements

Sheriff Reporting Responsibilities

A sheriff who issues a school guardian certificate must report to FDLE the name, date of birth, and certification date of the school guardian within 30 days. Additionally, each sheriff must submit quarterly reports to FDLE detailing:

- Upcoming school guardian training schedules.
- Training dates, locations, and registration contacts.
- Class capacity for training programs.

The FDLE must publish and update these reports at least quarterly on its website.

Sheriffs who fail to comply with these reporting requirements are ineligible to receive reimbursement from the Department of Education (DOE) for school guardian training expenses. However, upon submission of the required reports, sheriffs regain eligibility.⁵

School District, Charter School, and Private School Reporting Requirements

By February 1 and September 1 of each school year, each school district, charter school, and private school must report to the FDLE:

- The name, date of birth, and appointment date of each school guardian.
- The date of separation for any school guardian no longer serving in that capacity.

Failure to comply prohibits the school from operating a school guardian program in the following school year unless missing information is submitted.⁶

The FDLE Responsibilities and Enforcement

The FDLE must maintain a statewide list of all school guardians. This list must include:

- The guardian's name, certification date, and appointment date.
- The name of the appointing school district, charter school, or private school.
- Any additional information regarding misconduct or firearm discharges, except those occurring during training.
- The date a guardian separated from their appointment, if applicable.⁷

The FDLE must remove from the list any school guardian whose training has expired.

By March 1 and October 1 of each school year, the FDLE must notify the Department of Education of any sheriff, school district, charter school, or private school that has failed to comply with these reporting requirements.

⁵ Section 30.15, F.S.

⁶ *Id.*

⁷ *Id.*

The FDLE is authorized to adopt rules to implement these reporting requirements and may require additional identifying information as necessary to ensure accurate record-keeping of school guardians.⁸

Currently, 53 counties participate in the Chris Hixon, Coach Aaron Feis, and Coach Scott Beigel Guardian Program.⁹

Behavioral Threat Management and School Safety Oversight

Florida law establishes the Office of Safe Schools (OSS) within the DOE to serve as the central authority for school safety, overseeing training standards, best practices, and compliance measures.¹⁰

The OSS develops, administers, and ensures compliance with Florida's statewide behavioral threat management framework, which includes a standardized threat assessment process, a digital reporting portal, and oversight of school-based and district-level threat management teams.¹¹

The OSS is also required to develop and implement a School Safety Specialist Training Program for school safety specialists, based on national and state best practices on school safety and security and must include active shooter training.¹²

Behavioral Threat Management Operational Process

The OSS is responsible for developing a statewide behavioral threat management operational process to assist school districts, charter school governing boards, and individual schools in identifying, assessing, managing, and monitoring potential threats. This process includes:

- Establishing and defining the duties of threat management teams.
- Developing criteria for behavioral risk and threat assessment.
- Implementing intervention, school support, and community services procedures.
- Providing guidelines for law enforcement intervention and risk management procedures.
- Establishing monitoring mechanisms for ongoing threats and interventions.
- Requiring schools to use the Florida-specific behavioral threat assessment instrument to coordinate interventions for students who may pose a threat.

Each school district, charter school governing board, and individual school must use the statewide behavioral threat management operational process upon its availability.¹³

¹³ Section 1001.212(11)(a), F.S.

Florida-Specific Behavioral Threat Assessment Instrument

The OSS is required to develop the Florida-specific behavioral threat assessment instrument, which school districts, charter schools, and governing boards must use to evaluate student threats and coordinate intervention services. The assessment instrument:

- Includes a standardized threat assessment report containing documentation of evaluations, interventions, and ongoing monitoring.
- Establishes procedures for assessing student, family, school, and social dynamics when determining threat levels.
- Outlines requirements for school responses, law enforcement engagement, and mental health provider coordination in response to threats.
- Is integrated into the statewide digital threat management portal, where records are retained in accordance with State Board of Education (SBE) rules.¹⁴

Threat Management Portal and Data Access Restrictions

The OSS is responsible for developing, maintaining, and administering a statewide digital threat management portal to support behavioral threat assessment and intervention efforts. The portal digitizes the Florida-specific behavioral threat assessment instrument and is used by school districts, charter schools, and school governing boards for reporting, documentation, and coordination of student threat assessments.¹⁵

Florida law strictly regulates access to records maintained in the portal:

- The OSS and its system administrators may not access a threat assessment report, its corresponding documentation, or any other information stored in the portal.
- School districts and charter school governing boards may not access education records within the portal unless authorized by SBE rule.
- Parents may access their own child's education records in the portal but are not permitted direct access to the portal itself.
- The portal must have security controls that alert system administrators to any unauthorized access attempts.

Florida law further requires:

- Education records stored in the portal to be retained, maintained, and transferred only in compliance with SBE rule.
- A quarterly portal access review audit process to be developed and implemented by the OSS.
- Annual role-based training for authorized users of the portal to be provided by the OSS beginning August 1, 2025.
- Any unauthorized access, use, or release of an education record in the portal to be punishable by a fine of up to \$2,000.¹⁶

Federal and State Privacy Protections for Student Records

The Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 1232g, is the primary federal law governing access to student education records. FERPA prohibits the disclosure of personally identifiable information (PII) from student education records without prior written parental consent, unless an exception applies.¹⁷

FERPA applies to any educational institution receiving federal funds, including Florida's public schools, charter schools, and state education agencies.¹⁸ Education records include records that are directly related to a student and maintained by an educational agency or institution.¹⁹

Florida law further aligns with FERPA by stating that education records may not be disclosed without consent except as authorized by FERPA or other federal regulations.²⁰

Exceptions to FERPA's General Prohibition on Disclosure

State Program Audits and Compliance Monitoring

FERPA authorizes the disclosure of student records without parental consent to state and local educational authorities for the purpose of audits, program evaluations, and compliance monitoring related to state-supported education programs.²¹ This exception could permit the OSS to access threat assessment records if the access is necessary to monitor compliance with state safety policies.

Student Safety and Health Exceptions

FERPA's health or safety emergency exception allows schools to disclose student education records without parental consent when necessary to protect the health or safety of the student or other individuals.²² Disclosure under this provision must be limited to appropriate parties, such as law enforcement, school officials, or state safety agencies, who require the information to address an imminent threat.²³

This exception may justify the OSS's access to student threat assessment records if the access is necessary to protect student safety and prevent school violence. However, disclosures under the health or safety emergency exception must be limited to the duration of the emergency, and routine access to records would not be justified under this exception alone.²⁴

District School Board Responsibilities for School Safety

Emergency Alert Procedures

Each public school, including charter schools, is required to implement a mobile panic alert system capable of connecting diverse emergency services technologies to ensure real-time coordination between multiple first responder agencies. Such system, known as “Alyssa's Alert,” integrates with local public safety answering point infrastructure to transmit 911 calls and mobile activations.²⁵

A public school district may also implement additional strategies or systems to ensure real-time coordination between multiple first responder agencies in a school security emergency.²⁶

Emergency Alert Procedures

Each district school board is required to provide for the control, safety, and welfare of students on school campuses, including implementing security measures to prevent violence and unauthorized access. Each district school superintendent must establish policies and procedures for preventing violence on school grounds, including assessing and intervening with individuals who may pose a threat.²⁷

Florida law also establishes specific locked campus requirements to regulate access to school buildings, classrooms, and campus gates. Each school district and charter school governing board must comply with statewide school safety requirements, which mandate:

- Locking all gates and access points that restrict ingress to or egress from a school campus when students are on campus, unless actively staffed, permitted under a shared-use agreement, or exempted by the school safety specialist based on other security measures.
- Keeping all school classroom doors and instructional spaces locked when occupied by students, except between class periods or when actively staffed at the door.
- Securing all campus access doors, gates, and entry points to school buildings at all times to prevent unauthorized ingress, unless a person is actively entering or exiting, or an exemption has been documented by the school safety specialist.
- Clearly marking the safest areas for sheltering in place within each classroom and instructional space, with students being notified of these locations within the first 10 days of the school year.²⁸

Enforcement and Compliance

Each school district and charter school must document compliance with these requirements through the Florida Safe Schools Assessment Tool (FSSAT),²⁹ maintained by the OSS. The OSS

is authorized to conduct compliance visits to verify whether school safety specialists have appropriately documented exemptions or security adjustments.³⁰

Safe-School Officer Requirements

Florida law requires each public school, including charter schools, to have at least one safe-school officer assigned to its facility. School districts may partner with law enforcement agencies or private security agencies to meet this requirement through any combination of the following safe-school officer options:

- School resource officers (sworn law enforcement officers).
- School safety officers (sworn law enforcement officers who are employed by the school district).
- School guardians (trained school personnel or volunteers who complete guardian program training).
- School security guards (contracted private security personnel meeting state training and screening requirements).³¹

School Security Guards and Required Screening

A school district or charter school governing board may contract with a licensed security agency to employ a school security guard to fulfill the safe-school officer requirement. To serve in this role, an individual must:³²

- Hold a valid Class “D” (unarmed security) and Class “G” (armed security) license under Chapter 493, F.S.³³
- Complete 144 hours of required guardian program training.³⁴
- Pass a psychological evaluation administered by a licensed psychologist, with the results submitted to the sheriff’s office, school district, or charter school governing board.
- Submit to and pass an initial drug test and subsequent random drug tests, following state drug-free workplace regulations and applicable school district policies.
- Complete ongoing annual training, weapon inspections, and firearm qualifications, providing documentation to the appropriate contracting entity.³⁵

Additionally, contracts between a school district, charter school, or private security agency must specify who is responsible for training, inspection, and record maintenance related to school security guard qualifications.³⁶

Florida Safe Schools Canine Program

Florida law establishes the Florida Safe Schools Canine Program under the OSS within the DOE to support the use of firearm detection canines in K-12 schools. The program was created to:

³⁰ Section 1001.212(14), F.S.

³¹ Section 1006.12, F.S.

³² Section 1006.12(4), F.S.

- Encourage partnerships between schools, businesses, and law enforcement agencies to fund the acquisition, training, and care of firearm detection canines.
- Enhance school safety by increasing the presence of firearm detection canines in schools, reinforcing public confidence in law enforcement's role in school security.³⁷

A firearm detection canine is defined as any canine that is owned or the service of which is employed by a law enforcement agency for use in K-12 schools for the primary purpose of detecting firearms and ammunition.³⁸ These canines must be trained to interact with children and may also be trained as animal-assisted therapy canines.³⁹

III. Effect of Proposed Changes:

This bill strengthens school safety measures, enhances behavioral threat management protocols, expands oversight of school security personnel, and clarifies campus security requirements.

Chris Hixon, Coach Aaron Feis, and Coach Scott Beigel Guardian Program

The bill amends s. 30.15, F.S., to modify training, certification, and oversight requirements for school guardians and school security guards. Specifically, the bill:

- Aligns the training and certification requirements for school security guards with those for school guardians, establishing consistent standards across both roles.
- Requires a sheriff to establish a school guardian program if a school board, charter school, or private school contracts for the use of school security guards.
- Authorizes private schools to contract for school security guards and allows a sheriff to establish a guardian program to provide training for private school security guards.
- Clarifies that security agencies are responsible for all training and screening-related costs for school security guards, which may not be waived by sheriffs, preventing the use of state funds for private security agency expenses. The bill clarifies that the fee a sheriff may charge a security agency for guardian training may not exceed the actual cost incurred by the sheriff to provide the training.
- Requires sheriffs to maintain documentation of training, certification, weapon inspection, and firearm qualification records for each certified school security guard.
- Specifies that a school security guard who has completed the guardian training program is not required to complete another guardian training program unless there has been at least a one-year break in appointment as a school guardian or employment as a school security guard.
- Authorizes a sheriff to provide guardian training to individuals who are legally permitted to possess or carry a concealed firearm under Florida law, aligning with the state's permitless carry provisions.
- Requires a sheriff to provide guardian training only to individuals who have already satisfied all background screening, psychological evaluation, and drug test requirements.
- Requires a sheriff to issue a school security guard certificate to individuals who meet all statutory screening, training, and experience requirements and to maintain documentation of

³⁷ Section 1006.121(1), F.S.

³⁸ Section 1006.121(2), F.S.

³⁹ Section 1006.121(3), F.S.

weapon and equipment inspections, training, certification, and qualification records for each certified school security guard.

Sheriff and School Guardian Reporting Requirements

To streamline reporting processes and enhance oversight, the bill aligns school security guard reporting requirements with those for school guardians. Specifically, the bill:

- Aligns school security guard reporting and recordkeeping requirements with those for school guardians and mandates that security agencies report to the FDLE the date a school security guard was last employed in a school.
- Clarifies that the fee a sheriff may charge a security agency for guardian training may not exceed the actual cost incurred by the sheriff to provide the training.
- Specifies that if no guardian or security guard training sessions are scheduled, the sheriff is not required to submit a quarterly training report to the FDLE.
- Removes outdated reporting requirements for sheriffs, school districts, charter schools, and private schools regarding school guardian certifications and appointments.

Behavioral Threat Management and School Safety Oversight

The bill amends s. 1001.212, F.S., to modify the duties of the OSS related to threat assessment processes and security exceptions. Specifically, the bill:

- Clarifies that the OSS is responsible for maintaining the statewide behavioral threat management operational process and the Florida-specific behavioral threat assessment instrument.
- Authorizes the State Board of Education to establish in rule when the OSS or its system administrators may access a threat assessment report, related documentation, or any other information required by the Florida-specific behavioral threat assessment instrument maintained in the portal. Access must comply with state and federal privacy laws.
- Requires the OSS to convene a stakeholder work group to develop recommendations for the establishment of a Florida Institute of School Safety. The work group must include representatives from postsecondary institutions, law enforcement, fire and emergency medical services, emergency management, school facilities staff, school safety specialists, school administrators, superintendents, school-based mental health professionals, and threat management practitioners. The recommendations must address potential programs and functions to enhance school safety. The Office must submit its finding and recommendations to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2026.

The bill amends s. 1006.07, F.S., to require the Department of Education to establish and maintain a centralized system that integrates panic alert systems and digital school maps used by public schools, charter schools, and other educational institutions. The centralized system must:

- Receive and process alerts from Department-approved panic alert systems.
- Integrate digital maps to provide real-time situational awareness for law enforcement and emergency responders.
- Store and provide access to historical alert data for authorized state agencies.

The bill also requires that:

All public and charter schools connect their panic alert systems to the centralized system.

- Panic alert systems be interoperable with the centralized system to ensure seamless communication with emergency personnel.
- Digital maps required under s. 1013.13, F.S., be integrated into the centralized system to support emergency response coordination.

District School Board Responsibilities for School Safety

The bill also amends s. 1006.07, F.S., to modify locked campus and building requirements to apply only during school supervision hours rather than whenever students are present. It also clarifies when certain access points may remain unlocked. Specifically, the bill:

- Authorizes an exception to the requirement that campus areas and school buildings remain locked, permitting an access point to be unlocked if another closed and locked gate or access point separates it from areas occupied by students for campus areas, or if another closed and locked door, gate, or access point prevents access to a school building.
- Defines "school supervision hours" as the hours of the school day plus a reasonable time immediately before and after school when student supervision is available, as determined by school district policy.
- Clarifies that the exception allowing an access point to remain unlocked when it is actively staffed applies not only to campus entry points but also to school buildings when staffed by school personnel.
- Defines the terms "exclusive zone" and "nonexclusive zone" to clarify where locked access point requirements apply on a school campus. The exclusive zone refers to the interior portion of a campus that lies beyond a secured gate or door limiting access to a single point of entry. Locked access point requirements apply to this zone.
- Defines the nonexclusive zone as the area outside of the exclusive zone but still located on school property. These areas may include, but are not limited to, parking lots, athletic fields and stadiums, mechanical buildings, playgrounds, bus ramps, agricultural spaces, and other locations that do not provide direct, unimpeded access to the exclusive zone. The bill expressly states that locked access point requirements do not apply to nonexclusive zones.

The bill provides specific exemptions to the requirement that all school classrooms and other instructional spaces remain locked to prevent ingress when occupied by students. The bill allows a classroom or instructional space used for a career and technical education (CTE) program to remain unlocked if locking the space would pose a health or safety risk to students. In such cases, the school safety specialist, or his or her designee, must document in the Florida Safe Schools Assessment Tool (FSSAT) that the space is used for CTE and that other safety measures are in place to prevent authorized access.

The bill also exempts common areas such as cafeterias, media centers, and auditoriums from the locked classroom requirement, except when those spaces are being used for instructional time or student testing.

The bill requires that each substitute teacher be provided with all school safety protocols and policies before their first day of substitute teaching at a school.

Safe-School Officer Requirements

The bill amends s. 1006.12, F.S., to clarify participation in the school security guard program and increase oversight of security guard training, certification, and reporting requirements.

Specifically, the bill:

- Clarifies private school authority to contract with security agencies for school security guards.
- Requires private schools contracting for security guards to adhere to all training and screening requirements applicable to public schools.
- Requires that all school security guards be trained by a sheriff pursuant to the training requirements of the Chris Hixon, Coach Aaron Feis, and Coach Scott Beigel Guardian Program.
- Mandates that security guards be approved by the sheriff of each county in which the school security guard will be assigned to a school before being assigned to a school in that county.
- Requires that school security guards submit the results of the required psychological evaluation to the sheriff for review.
- Mandates that all ongoing training, weapon inspections, and firearm qualifications for school security guards be conducted by a sheriff or through a sheriff-approved program.

The bill adds private school administrators to the notification requirements concerning safe-school officer misconduct and firearm discharges, supporting uniform reporting across all schools utilizing safe-school officers. The bill requires the OSS to provide the FDLE with any information it receives from a district school superintendent or charter school administrator, private school administrator, or respective designee concerning a school security guard who:

- Is dismissed for misconduct or is otherwise disciplined.
- Discharges his or her firearm in the exercise of the school security guard's duties, other than for training purposes.

Florida Safe Schools Canine Program

The bill expands the definition of the term "firearm detection canine" in s. 1006.121(2), F.S., to authorize school districts, rather than just law enforcement agencies, to employ firearm detection canines and specify that only sworn law enforcement officers may use the canines in K-12 schools.

The bill takes effect July 1, 2025.

A. Committee Substitute – Statement of Substantial Changes:

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations Committee on Pre-K - 12 Education on March 24, 2025:

The committee substitute:

- Clarifies that the fee a sheriff may charge a security agency for guardian training may not exceed the actual cost incurred by the sheriff to provide the training.
- Replaces the provision requiring the Office of Safe Schools (OSS) to partner with the Florida Association of School Safety Specialists with a requirement that the OSS convene a stakeholder workgroup to develop recommendations for establishing a Florida Institute of School Safety, with findings due to the Governor and Legislature by January 1, 2026.
- Removes the requirement for OSS to maintain a list of exceptions to locked access point requirements.
- Defines the terms “exclusive zone” and “non-exclusive zone” and applies locked access point requirements only to the exclusive zone.
- Removes the provision authorizing the OSS to recognize exceptions to locked classroom requirements.
- Adds specific exceptions to locked classroom requirements for certain career and technical education (CTE) instructional spaces and common areas.
- Applies locked school building requirements to schools that do not have a secure exclusive zone, as a conforming change.
- Requires substitute teachers to be provided with all school safety protocols and policies before their first day of substitute teaching.

The committee substitute requires the Department of Education (DOE) to establish and maintain a centralized system that integrates panic alert systems and digital school maps used by public schools, charter schools, and other educational institutions. The centralized system must:

- Receive and process alerts from DOE-approved panic alert systems.
- Integrate digital maps to provide real-time situational awareness for law enforcement and emergency responders.
- Store and provide access to historical alert data for authorized state agencies.

The committee substitute also requires that:

- All public and charter schools connect their panic alert systems to the centralized system.
- Panic alert systems be interoperable with the centralized system to ensure seamless communication with emergency personnel.
- Digital maps required under s. 1013.13, F.S., be integrated into the centralized system to support emergency response coordination.

The committee substitute appropriates, for the 2025-2026 fiscal year, the sum of \$450,000 in recurring funds from the General Revenue Fund to the DOE to implement a centralized system to integrate all panic alert systems and digital school maps used by

public schools, charter schools, and other educational institutions, and for schools to connect their panic alert systems to the centralized system.

433 other access point is not subject to this requirement based upon
434 other safety measures at the school. The office may conduct a
435 compliance visit pursuant to s. 1001.212(14) to review if such
436 determination is appropriate.

437
438 This subparagraph does not apply to the nonexclusive zone of a
439 school campus. The term "nonexclusive zone" means the area
440 outside of the exclusive zone but contained on school property.
441 Nonexclusive zones may include, but are not limited to, such
442 spaces as parking lots, athletic fields and stadiums, mechanical
443 buildings, playgrounds, bus ramps, agricultural spaces, and
444 other areas that do not give direct, unimpeded access to the
445 exclusive zone.

220728

446 2.a. During school supervision hours, all school classrooms
447 and other instructional spaces must be locked to prevent ingress
448 when occupied by students, except between class periods when
449 students are moving between classrooms or other instructional
450 spaces. If a classroom or other instructional space door must be
451 left unlocked or open for any other reason ~~other than between~~
452 ~~class periods when students are moving between classrooms or~~
453 ~~other instructional spaces,~~ the door must be actively staffed by
454 a person standing or seated at the door.

455 b. Instructional spaces for career and technical education
456 which are designed as open areas for which compliance with the
457 requirements of sub-subparagraph a. affects the health and
458 safety of students may be exempted from compliance with that
459 sub-subparagraph by the school safety specialist. For such a
460 space to be exempt, the school safety specialist, or his or her
461 designee, must document in the Florida Safe Schools Assessment
462 Tool portal maintained by the Office of Safe Schools that the
463 instructional space is exempt from these requirements due to
464 negative impacts to student health and safety and the presence
465 of other safety measures at the school which prevent egress from
466 the instructional space to hallways or other classrooms or
467 instructional spaces.

468 c. Common areas on a school campus, including, but not
469 limited to, cafeterias, auditoriums, and media centers, which
470 are used for instructional time or student testing must meet the
471 requirements of sub-subparagraph a. only when such areas are
472 being used for instructional time or student testing.

473 3. For schools that do not have a secure exclusive zone,
474 all campus access doors, gates, and other access points that

220728

475 allow ingress to or egress from a school building shall remain
476 closed and locked during school supervision hours ~~at all times~~
477 to prevent unauthorized access, except when:

478 a. ingress, unless A person is actively entering or exiting
479 the door, gate, or other access point;

480 b. The door, gate, or access point is actively staffed by
481 school personnel to prevent unauthorized entry; or

482 c. The school safety specialist, or his or her designee,
483 has documented in the Florida Safe Schools Assessment Tool
484 portal maintained by the Office of Safe Schools that the open
485 and unlocked door, gate, or other access point is not subject to
486 this requirement based upon other safety measures at the school.
487 The office may conduct a compliance visit pursuant to s.
488 1001.212(14) to review if such determination is appropriate. All
489 campus access doors, gates, and other access points may be
490 electronically or manually controlled by school personnel to
491 allow access by authorized visitors, students, and school
492 personnel.

493 4. All school classrooms and other instructional spaces
494 must clearly and conspicuously mark the safest areas in each
495 classroom or other instructional space where students must
496 shelter in place during an emergency. Students must be notified
497 of these safe areas within the first 10 days of the school year.
498 If it is not feasible to clearly and conspicuously mark the
499 safest areas in a classroom or other instructional space, the
500 school safety specialist, or his or her designee, must document
501 such determination in the Florida Safe Schools Assessment Tool
502 portal maintained by the Office of Safe Schools, identifying
503 where affected students must shelter in place. The office shall

504 assist the school safety specialist with compliance during the
505 inspection required under s. 1001.212(14).

506
507 Persons who are aware of a violation of this paragraph must
508 report the violation to the school principal. The school
509 principal must report the violation to the school safety
510 specialist no later than the next business day after receiving
511 such report. If the person who violated this paragraph is the
512 school principal or charter school administrator, the report
513 must be made directly to the district school superintendent or
514 charter school governing board, as applicable.

515 (h) Provision of school safety protocols and policies.—Each
516 substitute teacher must be provided with all school safety
517 protocols and policies before beginning his or her first day of
518 substitute teaching at a school.

 48 Section 1. Paragraph (k) of subsection (1) of section
 49 30.15, Florida Statutes, is amended to read:
 50 30.15 Powers, duties, and obligations.—
 51 (1) Sheriffs, in their respective counties, in person or by

59 required under this paragraph. Persons certified as school
60 guardians pursuant to this paragraph have no authority to act in
61 any law enforcement capacity except to the extent necessary to
62 prevent or abate an active assailant incident.

63 1.a. If a local school board has voted by a majority to
64 implement a guardian program or has contracted for the use of
65 school security guards to satisfy the requirements of s.
66 1006.12, the sheriff in that county must ~~shall~~ establish a
67 guardian program to provide training for school guardians or
68 school security guards, pursuant to subparagraph 2., to school
69 employees, either directly or through a contract with another
70 sheriff's office that has established a guardian program.

72 b. A charter school governing board in a school district
73 that has not voted, or has declined, to implement a guardian
74 program may request the sheriff in the county to establish a
75 guardian program for the purpose of training the charter school
76 employees or school security guards consistent with the
77 requirements of subparagraph 2. If the county sheriff denies the
78 request, the charter school governing board may contract with a
79 sheriff that has established a guardian program to provide such
80 training. The charter school governing board must notify the
81 superintendent and the sheriff in the charter school's county of
82 the contract prior to its execution. The security agency
83 employing a school security guard is responsible for all
84 training and screening-related costs for a school security
85 guard.

86 c. A private school in a school district that has not

88 request that the sheriff in the county of the private school
89 establish a guardian program for the purpose of training private
90 school employees or school security guards. If the county
91 sheriff denies the request, the private school may contract with
92 a sheriff from another county who has established a guardian
93 program under subparagraph 2. to provide such training. The
94 private school must notify the sheriff in the private school's
95 county of the contract with a sheriff from another county before
96 its execution. The private school or security agency is
97 responsible for all training and screening-related costs for a
98 school guardian program. The sheriff providing such training
99 must ensure that any moneys paid by a private school or security
100 agency are not commingled with any funds provided by the state
101 to the sheriff as reimbursement for screening-related and
102 training-related costs of any school district or charter school
103 employee.

104 d. The training program required in sub-subparagraph 2.b.
105 is a standardized statewide curriculum, and each sheriff
106 providing such training shall adhere to the course of
107 instruction specified in that sub-subparagraph. This
108 subparagraph does not prohibit a sheriff from providing
109 additional training. A school guardian or school security guard
110 who has completed the training program required in sub-
111 subparagraph 2.b. may not be required to attend another
112 sheriff's training program pursuant to that sub-subparagraph
113 unless there has been at least a 1-year break in his or her
114 appointment as a guardian or employment by a security agency as
115 a school security guard in a school.

 120 school guardian who participates in the school guardian program.

121 f. The sheriff may waive the training and screening-related
 122 costs for a private school for a school guardian program. Funds
 123 provided pursuant to sub-subparagraph e. may not be used to
 124 subsidize any costs that have been waived by the sheriff. The
 125 sheriff may not waive the training and screening-related costs
 126 required to be paid by a security agency for initial training or
 127 ongoing training of a school security guard.

128 g. A person who is certified and in good standing under the
 129 Florida Criminal Justice Standards and Training Commission, who
 130 meets the qualifications established in s. 943.13, and who is
 131 otherwise qualified for the position of a school guardian or
 132 school security guard may be certified as a school guardian or
 133 school security guard by the sheriff without completing the
 134 training requirements of sub-subparagraph 2.b. However, a person

 150 training to improve the school guardian's knowledge and skills
 151 necessary to respond to and de-escalate incidents on school
 152 premises and 132 total hours of comprehensive firearm safety and
 153 proficiency training conducted by Criminal Justice Standards and
 154 Training Commission-certified instructors, which must include:

155 (I) Eighty hours of firearms instruction based on the
 156 Criminal Justice Standards and Training Commission's Law
 157 Enforcement Academy training model, which must include at least
 158 10 percent but no more than 20 percent more rounds fired than
 159 associated with academy training. Program participants must

 174 paragraph.

178 e. Successfully complete ongoing training, weapon
 179 inspection, and firearm qualification on at least an annual
 180 basis.

181
 182 The sheriff who conducts the guardian training or waives the
 183 training requirements for a person under sub-subparagraph 1.g.
 184 shall issue a school guardian certificate to persons who meet
 185 the requirements of this section to the satisfaction of the
 186 sheriff, and shall maintain documentation of weapon and
 187 equipment inspections, as well as the training, certification,
 188 inspection, and qualification records of each school guardian
 189 certified by the sheriff. A person who is certified under this

 191 only if he or she is appointed by the applicable school district
 192 superintendent, charter school principal, or private school head

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Appropriations Committee on Pre-K - 12 Education

BILL: SB 1472

INTRODUCER: Senator Burgess

SUBJECT: Public Records/School Security Guards

DATE: March 21, 2025

REVISED: _____

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	<u>Brick</u>	<u>Bouck</u>	<u>ED</u>	Favorable
2.	<u>Gray</u>	<u>Elwell</u>	<u>AED</u>	Favorable
3.	_____	_____	<u>FP</u>	_____

I. Summary:

SB 1472, which is linked to the passage of SB 1470 (2025), amends s. 30.15, F.S., to create an exemption from public records requirements for any information held by the Florida Department of Law Enforcement (FDLE), a law enforcement agency, a school district, or a charter school that is reported to the FDLE under SB 1470 and would identify whether an individual has been certified to serve as a school security guard. This public record exemption supports the existing public record exemption for information that is held by a law enforcement agency, school district, or charter school that would identify whether a particular individual has been appointed as a safe-school officer at a public school, charter school, or private school. The list required to be maintained by the FDLE under SB 1470 could identify a school security guard if not exempt from disclosure.

The bill provides that the public record exemption is a public necessity because disclosure of the identity of a school security guard could affect his or her ability to adequately respond to an active assailant situation.

The bill establishes a public records exemption subject to the Open Government Sunset Review Act, with an automatic repeal date of October 2, 2030, unless reenacted by the Legislature. Additionally, the bill extends the sunset date for the exemption protecting school guardian certification information from October 2, 2029, to October 2, 2030.

The bill will become effective on the same date that SB 1470 (2025) or similar legislation takes effect, if such legislation is adopted in the same legislative session or an extension thereof and becomes law.

This bill does not have a fiscal impact to state revenues or expenditures. **See Section V., Fiscal Impact Statement.**

II. Present Situation:

Access to Public Records - Generally

The Florida Constitution provides that the public has the right to inspect or copy records made or received in connection with official governmental business. The right to inspect or copy applies to the official business of any public body, officer, or employee of the state, including all three branches of state government, local governmental entities, and any person acting on behalf of the government.¹

Additional requirements and exemptions related to public records are found in various statutes and rules, depending on the branch of government involved. For instance, section 11.0431, F.S., provides public access requirements for legislative records. Relevant exemptions are codified in s. 11.0431(2)-(3), F.S., and adopted in the rules of each house of the legislature.² Florida Rule of Judicial Administration 2.420 governs public access to judicial branch records.³ Lastly, chapter 119, F.S., known as the Public Records Act, provides requirements for public records held by executive agencies.

Executive Agency Records – The Public Records Act

The Public Records Act provides that all state, county and municipal records are open for personal inspection and copying by any person, and that providing access to public records is the duty of each agency.⁴

Section 119.011(12), F.S., defines “public records” to include:

All documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connections with the transaction of official business by any agency.

The Florida Supreme Court has interpreted this definition to encompass all materials made or received by an agency in connection with official business that are used to “perpetuate, communicate, or formalize knowledge of some type.”⁵

The Florida Statutes specify conditions under which public access to public records must be provided. The Public Records Act guarantees every person’s right to inspect and copy any public

⁴ Section 119.01(1), F.S. Section 119.011(2), F.S., defines “agency” as “any state, county, district, authority, or municipal officer, department, division, board, bureau, commission, or other separate unit of government created or established by law including, for the purposes of this chapter, the Commission on Ethics, the Public Service Commission, and the Office of Public Counsel, and any other public or private agency, person, partnership, corporation, or business entity acting on behalf of any public agency.”

record at any reasonable time, under reasonable conditions, and under supervision by the custodian of the public record.⁶ A violation of the Public Records Act may result in civil or criminal liability.⁷

The Legislature may exempt public records from public access requirements by passing a general law by a two-thirds vote of both the House and the Senate.⁸ The exemption must state with specificity the public necessity justifying the exemption and must be no broader than necessary to accomplish the stated purpose of the exemption.⁹

General exemptions from the public records requirements are contained in the Public Records Act.¹⁰ Specific exemptions often are placed in the substantive statutes relating to a particular agency or program.¹¹

When creating a public records exemption, the Legislature may provide that a record is “exempt” or “confidential and exempt.” There is a difference between records the Legislature has determined to be exempt from the Public Records Act and those which the Legislature has determined to be exempt from the Public Records Act *and confidential*. Records designated as “confidential and exempt” are not subject to inspection by the public and may only be released under the circumstances defined by statute.¹² Records designated as “exempt” may be released at the discretion of the records custodian under certain circumstances.¹³

Open Government Sunset Review Act

The provisions of s. 119.15, F.S., known as the Open Government Sunset Review Act¹⁴ (the Act), prescribe a legislative review process for newly created or substantially amended¹⁵ public records or open meetings exemptions, with specified exceptions.¹⁶ The Act requires the repeal of such exemption on October 2 of the fifth year after creation or substantial amendment, unless the Legislature reenacts the exemption.¹⁷

¹⁶ Section 119.15(2), F.S., provides that exemptions required by federal law or applicable solely to the Legislature or the State Court System are not subject to the Open Government Sunset Review Act.

¹⁷ Section 119.15(3), F.S.

The Act provides that a public records or open meetings exemption may be created or maintained only if it serves an identifiable public purpose and is no broader than is necessary.¹⁸ An exemption serves an identifiable purpose if it meets one of the following purposes *and* the Legislature finds that the purpose of the exemption outweighs open government policy and cannot be accomplished without the exemption:

- It allows the state or its political subdivisions to effectively and efficiently administer a governmental program, and administration would be significantly impaired without the exemption;
- It protects sensitive, personal information, the release of which would be defamatory, cause unwarranted damage to the good name or reputation of the individual, or would jeopardize the individual's safety. If this public purpose is cited as the basis of an exemption, however, only personal identifying information is exempt; or
- It protects information of a confidential nature concerning entities, such as trade or business secrets.¹⁹

The Act also requires specified questions to be considered during the review process.

The specified questions are:

- What specific records or meetings are affected by the exemption?
- Whom does the exemption uniquely affect, as opposed to the general public?
- What is the identifiable public purpose or goal of the exemption?
- Can the information contained in the records or discussed in the meeting be readily obtained by alternative means? If so, how?
- Is the record or meeting protected by another exemption?
- Are there multiple exemptions for the same type of record or meeting that it would be appropriate to merge?²⁰

In examining an exemption, the Act directs the Legislature to question the purpose and necessity of reenacting the exemption.

If the exemption is continued and expanded, then a public necessity statement and a two-thirds vote for passage are required.²¹ If the exemption is continued without substantive changes or if the exemption is continued and narrowed, then a public necessity statement and a two-thirds vote for passage are *not* required. If the Legislature allows an exemption to expire, the previously exempt records will remain exempt unless otherwise provided by law.²²

Chris Hixon, Coach Aaron Feis, and Coach Scott Beigel Guardian Program

Sheriffs are required to assist district school boards, charter school governing boards, and private schools in exercising options for safe-school officers. A sheriff is required to provide access to a Chris Hixon, Coach Aaron Feis, and Coach Scott Beigel Guardian Program to aid in the prevention or abatement of active assailant incidents on school premises.

¹⁸ Section 119.15(6)(b), F.S.

¹⁹ Section 119.15(6)(b), F.S.

²⁰ Section 119.15(6)(a), F.S.

²¹ *See generally* s. 119.15, F.S.

²² Section 119.15(7), F.S.

A sheriff who establishes a Chris Hixon, Coach Aaron Feis, and Coach Scott Beigel Guardian Program is required to consult with the Florida Department of Law Enforcement (FDLE) on programmatic guiding principles, practices, and resources, and certify as school guardians, school employees who:

- Hold a license to carry a concealed weapon or concealed firearm.
- Complete a 144-hour training program, consisting of 12 hours of training on incident de-escalation and 132 total hours of comprehensive firearm safety and proficiency training conducted by Criminal Justice Standards and Training Commission-certified instructors.
- Pass a psychological evaluation.
- Submit to and pass an initial drug test and subsequent random drug tests.
- Successfully complete ongoing training, weapon inspection, and firearm qualification on at least an annual basis.

The sheriff who conducts the guardian training is required to issue a school guardian certificate to individuals who meet these requirements and maintain documentation of weapon and equipment inspections, as well as the training, certification, inspection, and qualification records of each school guardian certified by the sheriff.²³

Sheriff Reporting Responsibilities

A sheriff who issues a school guardian certificate must report to the FDLE the name, date of birth, and certification date of the school guardian within 30 days.

Additionally, each sheriff must submit quarterly reports to the FDLE detailing:

- Upcoming school guardian training schedules.
- Training dates, locations, and registration contacts.
- Class capacity for training programs.

The FDLE must publish and update these reports at least quarterly on its website.

Sheriffs who fail to comply with these reporting requirements are ineligible to receive reimbursement from the Department of Education (DOE) for school guardian training expenses. However, upon submission of the required reports, sheriffs regain eligibility.²⁴

School District, Charter School, and Private School Reporting Requirements

By February 1 and September 1 of each school year, each school district, charter school, and private school must report to the FDLE:

- The name, date of birth, and appointment date of each school guardian.
- The date of separation for any school guardian no longer serving in that capacity.

Failure to comply prohibits the school from operating a school guardian program in the following school year unless missing information is submitted.²⁵

²³ Section 30.15(1), F.S.

²⁴ Section 30.15(1)(k), F.S.

²⁵ *Id.*

The FDLE Responsibilities and Enforcement

The FDLE must maintain a statewide list of all school guardians. This list must include:

- The guardian's name, certification date, and appointment date.
- The name of the appointing school district, charter school, or private school.
- Any additional information regarding misconduct or firearm discharges, except those occurring during training.
- The date a guardian separated from their appointment, if applicable.

The FDLE must remove from the list any school guardian whose training has expired.

By March 1 and October 1 of each school year, the FDLE must notify the Department of Education of any sheriff, school district, charter school, or private school that has failed to comply with these reporting requirements.

The FDLE is authorized to adopt rules to implement these reporting requirements and may require additional identifying information as necessary to ensure accurate record-keeping of school guardians.²⁶

Any information held by the FDLE, a law enforcement agency, a school district, or a charter school that would identify whether a person has been certified to serve as a school guardian is exempt from disclosure requirements. The exemption will be repealed on October 2, 2029, unless reviewed and saved from repeal through reenactment by the Legislature.²⁷

Safe-School Officer Requirement

Florida law requires each district school board and school district superintendent to partner with law enforcement and security agencies to establish or assign one or more safe-school officers at each school facility within the district by implementing one or more safe-school officer options which best meet the needs of the school district and charter schools. These options include:

- Establishing a School Resource Officer (SRO) program through a cooperative agreement with law enforcement agencies. SROs are certified law enforcement officers.
- Commissioning one or more school safety officers. School safety officers are certified law enforcement officers who are employed by either a law enforcement agency or by the district school board.
- Participating in the Chris Hixon, Coach Aaron Feis, and Coach Scott Beigel Guardian Program.
- Contracting with a security agency to employ as a school security guard an individual who holds a Class “D” and Class “G” license and completes the same training and evaluation requirements as a school guardian.²⁸

²⁶ *Id.*

²⁷ Section 30.15(6), F.S.

²⁸ Section 1006.12, F.S.

Additionally, a private school may partner with a law enforcement agency or a security agency to establish or assign one or more safe-school officers.²⁹ Any information that would identify whether a particular individual has been assigned a safe-school officer at a private school and that is held by a law enforcement agency is exempt from public records disclosure requirements.³⁰

Currently, 53 counties participate in the Chris Hixon, Coach Aaron Feis, and Coach Scott Beigel Guardian Program.³¹

SB 1470 School Safety (2025)

SB 1470 (2025), to which this bill is linked, aligns school security guard reporting and recordkeeping requirements with those for school guardians and mandates that security agencies report to the FDLE the date a school security guard was last employed in a school.

III. Effect of Proposed Changes:

This bill, which is linked to the passage of SB 1470 (2025), amends s. 30.15, F.S., to create an exemption from public records requirements for any information held by the Florida Department of Law Enforcement (FDLE) or a law enforcement agency, school district, or charter school and reported to the FDLE that would identify whether an individual has been certified to serve as a school security guard. This public record exemption supports the existing public record exemption for information that is held by a law enforcement agency, school district, or charter school that would identify whether a particular individual has been appointed as a safe-school officer at a public school, charter school, or private school. The list required to be maintained by the FDLE under SB 1470, if not protected, could identify a school security guard.

This exemption is consistent with existing protections for other safe-school officers and expands those protections to individuals serving as school security guards.

The bill states that the public record exemption is necessary because disclosing the identity of a school security guard could compromise their ability to respond effectively to an active assailant situation. Specifically, the bill provides that it is a public necessity that any information held by the FDLE, a district school board, a charter school governing board, or a sheriff a list of certified school security guard that may identify whether an individual has been certified to serve as a school security guard be made exempt from s. 119.07(1), F.S., and s. 24(a), Article I of the State Constitution.

The bill affirms that school security and student safety are fundamental state priorities and emphasizes the importance of protecting the safety of current and former school security guards. The bill states that school security guards serve a critical role as safe-school officers and first responders, and their presence on school grounds serves as a deterrent against incidents threatening the lives of students and school personnel.

²⁹ Section 1006.12(18), F.S.

³⁰ Section 1002.42(20), F.S.

³¹ Florida Department of Education, *Chris Hixon, Coach Aaron Feis, & Coach Scott Beigel Guardian Program*, <https://www.fl DOE.org/safe-schools/guardian-program.stml> (last visited Mar. 15, 2025).

The bill further specifies that disclosure of the identity of persons certified as school security guards might undermine such deterrence and may compromise their safety along with the safety of students. The public disclosure of such information would also adversely affect their ability to adequately respond to an active assailant incident, as an assailant might be alerted in advance that a particular individual is certified as a school security guard.

The bill also states that school security guards who have been appointed to that position might leave their appointment for a period of time while maintaining their certification, and, thereafter, be reappointed at a future date. The bill provides that the safety of such persons would be compromised if their status as school security guards became public record by virtue of their continued certification. The bill accordingly provides that it is necessary to protect the identity of persons certified as school security guards from public records requirements to effectively and efficiently implement the purpose and intent of school security guard programs.

The bill establishes a public records exemption subject to the Open Government Sunset Review Act, with an automatic repeal date of October 2, 2030, unless reenacted by the Legislature. Additionally, the bill extends the sunset date for the exemption protecting school guardian certification information from October 2, 2029, to October 2, 2030.

The bill will become effective on the same date that SB 1470 (2025) or similar legislation takes effect, if such legislation is adopted in the same legislative session or an extension thereof and becomes law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

Vote Requirement

Article I, s. 24(c) of the State Constitution requires a two-thirds vote of the members present and voting for final passage of a bill creating or expanding an exemption to the public records requirements. This bill enacts a new exemption for information that would identify an individual who has been certified to serve as a school guardian, thus, the bill requires a two-thirds vote to be enacted.

Public Necessity Statement

Article I, s. 24(c) of the State Constitution requires a bill creating or expanding an exemption to the public records requirements to state with specificity the public necessity justifying the exemption. Section 2 of the bill contains a statement of public necessity for the exemption.

Breadth of Exemption

Article I, s. 24(c) of the State Constitution requires an exemption to the public records requirements to be no broader than necessary to accomplish the stated purpose of the law. The purpose of the law is to protect information that would identify whether an individual has been certified to serve as a school security guard. This bill exempts only information held by the Florida Department of Law Enforcement (FDLE) or a law enforcement agency, school district, or charter school that would identify whether an individual has been certified to serve as a school security guard from the public records disclosure requirements. The exemption does not appear to be broader than necessary to accomplish the purpose of the law.

The present situation for the relevant portions of the bill is discussed under the Effect of Proposed Changes section of this bill analysis.

III. Effect of Proposed Changes:

Florida's Voluntary Prekindergarten (VPK) Program

Present Situation

Florida's Voluntary PreKindergarten (VPK) Program

The VPK program prepares children for success in school and in life. Implemented in 2005, the program is a free, high-quality, education program available to all four-year-old children residing in the state.¹ Each child who resides in Florida who attains the age of four years on or before September 1 of the school year is eligible for the VPK Program during either that school year or the following school year. Parents of four-year-olds with birthdays from February 2 through September 1 may wait to enroll their child the following year when they are five.² The child remains eligible until the child is admitted to kindergarten, or unless the child has attained the age of six years by February 1 of any school year.³ In 2023-2024, there were 155,275 children enrolled with 6,247 providers in Florida's VPK program.⁴

Parents of each child eligible for a VPK program in Florida may enroll their child in one of the following programs:

- A school-year prekindergarten program delivered by an approved private prekindergarten provider.
- A school-year prekindergarten program delivered by a public school.
- A summer prekindergarten program delivered by a public school or private prekindergarten provider.
- A specialized instructional services program for children who have disabilities, if the child has been evaluated and determined as eligible and has a current individual educational plan developed by the local school board.⁵

Funding for Florida's VPK Program

A full-time equivalent student in the VPK program is calculated as follows:

- For a student in a school-year prekindergarten program delivered by a private prekindergarten provider: 540 instructional hours.
- For a student in a school-year prekindergarten program delivered by a public school: 540 instructional hours.
- For a student in a summer prekindergarten program delivered by a public school or private prekindergarten provider: 300 instructional hours.⁶

A child who, for any of the prekindergarten programs, has not completed more than 70 percent of the hours authorized to be reported for funding may withdraw from the program for good

cause and reenroll in one of the programs. The total funding for a child who reenrolls in one of the programs for good cause may not exceed one full-time equivalent student. A child who has not substantially completed any of the prekindergarten programs may withdraw from the program due to an extreme hardship that is beyond the child's or parent's control, reenroll in one of the summer programs, and be reported for funding purposes as a full-time equivalent student in the summer program.⁷

A child may be granted a good cause exemption if:

- The illness of the child, an individual living in the child's household, an individual which the child's parent is responsible for caring for, or the child's parent, sibling, grandparent, stepparent, step-sibling, or step-grandparent.
- A disagreement between the parent and the provider concerning policies, practices, or procedures at the provider's VPK program.
- A change in the child's residence.
- A change in the employment schedule or place of employment of the child's parent.
- The VPK program provider's inability to meet the child's health, behavioral, or educational needs.
- The termination of the child's class before 70 percent of the VPK program instructional hours are delivered.
- The child is dismissed by a VPK program provider for failure to comply with the provider's attendance policy.
- The VPK program provider's designation as a provider on probation.

A child may be granted an exemption for an extreme hardship if:

- The illness of the child, a family member which the child's parent is responsible for caring for, or of the child's parent, as documented in writing by a licensed physician if it would result in the child being absent for more than 30 percent of the number of hours in the program type in which the child is enrolled.
- The termination of the child's VPK program class as a result of the VPK program provider's removal from eligibility to offer the VPK program, as documented by the early learning coalition.
- The parent's inability to meet the basic needs of the child, including, but not limited to, a lack of food, shelter, clothing, or transportation, as documented in writing by a federal, state, or local governmental official.
- The VPK program provider's inability to meet the child's educational needs due to the child's learning or developmental disability, as documented by a federal, state, or local governmental official.
- The VPK program provider's inability to meet the child's health needs as documented by a licensed or a federal, state, or local governmental official.
- Displacement of the child from his or her place of residence, or closure of the child's VPK program provider as a result of a state of emergency as declared by a federal, state, or local government official.
- A temporary or permanent change in parent custody or guardianship, supported by legal documentation such as a court order or official documentation from the Department of

Children and Families (DCF) or DCF contracted agency. This includes an at-risk childcare authorization that documents the guardianship change.⁸

Gold Seal Quality Care Program

The Department of Education (DOE) administers the Gold Seal Quality Care program (Gold Seal program). Established in 1996,⁹ the Gold Seal program recognizes childcare facilities and family day care homes that have gone above the required minimum licensing standards to become accredited by recognized agencies whose standards reflect quality in the level of care and supervision provided to children. The Gold Seal program is not an accreditation, but a designation. The Gold Seal program offers various advantages to participating providers, including tax exemptions on certain educational materials and property taxes, as well as increased reimbursement rates for School Readiness (SR) providers.¹⁰ To obtain and maintain a designation as a Gold Seal program provider, a childcare facility, large family childcare home, or family day care home must have:

- No class I¹¹ violations within preceding two years.
- Less than three class II¹² violations within the preceding two years.
- Less than three class III¹³ violations within the preceding two years that were not corrected within one year.
- If the DOE determines through a formal process that a provider has been in business for at least five years and has no other class I violations recorded, the DOE may recommend to the State Board of Education (SBE) that the provider maintain its Gold Seal Quality Care status.¹⁴

During the 2023-2024 fiscal year:¹⁵

- There were 16 Gold Seal approved accrediting associations.
- There were 1,861 Gold Seal designated childcare providers, of which 1,519 were contracted for SR and 1,591 were contracted for VPK.
- There were 23 providers removed from the Gold Seal program due to licensing regulation violations.

¹¹ Class “I” violations are those conditions or occurrences related to the operation and maintenance of a provider or to the care of clients which the agency determines present an imminent danger to the clients of the provider or a substantial probability that death or serious physical or emotional harm would result therefrom. The Council for Early Grades Success

The Council for Early Grades Success (Council) was created in 2021 within the DOE.¹⁶ The Council is responsible for reviewing the implementation of training for and outcomes from the coordinated screening and progress monitoring program to provide recommendations to the DOE that support grade three students reading at or above grade level. The Council, at a minimum, is responsible for:

- Providing recommendations on the implementation of the coordinated screening and progress monitoring program, including reviewing any procurement solicitation documents and criteria before being published.
- Developing training plans and timelines for such training.
- Identifying appropriate personnel, processes, and procedures required for the administration of the coordinated screening and progress monitoring program.
- Providing input on the methodology for calculating the VPK accountability program.¹⁷
- Working with the department to review the methodology for determining a child's kindergarten readiness.
- Reviewing data on age-appropriate learning gains by grade level that a student would need to attain to demonstrate proficiency in reading by grade three.
- Continually reviewing anonymized data from the results of the coordinated screening and progress monitoring program for students in the VPK Program through grade three to help inform recommendations to the department that support practices that will enable grade three students to read at or above grade level.¹⁸

Effect of Proposed Changes

The bill amends s. 1002.71, F.S., to remove the 70 percent cap on the hours authorized to be reported for funding for a child who withdraws from a VPK program for good cause and reenrolls in another VPK program. The bill maintains that the total funding for a VPK student who reenrolls in one of the programs for good cause may not exceed one full-time equivalent student. Similarly, the bill also specifies that a child who has not completed any portion of the program, no matter the number of hours, of a VPK program may withdraw from the program due to an extreme hardship that is beyond the child's or parent's control, reenroll in one of the summer programs, and be reported for funding purposes as a full-time equivalent student in the summer program for which the child is reenrolled.

The bill amends s. 1002.945, F.S., to remove the authority of the DOE to determine through a formal process that because a provider has been in business for at least five years and has no other class I violations recorded, the DOE may recommend to the SBE that the provider maintain its Gold Seal Quality Care status.

The bill repeals s. 1008.2125, F.S., to remove the Council for Early Grades Success. The bill also amends s. 1002.68, F.S., to remove the requirement that the DOE consult with the Council for

Student Academic Standards

Present Situation

State Academic Standards

Florida's state academic standards establish the core content of the curricula to be taught and specify the core content knowledge and skills that K-12 public school students are expected to acquire. Standards must be rigorous and relevant and provide for the logical, sequential progression of core curricular content that incrementally increases a student's core content knowledge and skills over time.¹⁹

The Commissioner of Education (commissioner) is required to develop and submit proposed revisions to the standards for review and comment by Florida educators, school administrators, representatives of the Florida College System institutions and state universities who have expertise in the content knowledge and skills necessary to prepare a student for postsecondary education and careers, a representative from the Department of Commerce, business and industry leaders for in-demand careers, and the public.²⁰ The state academic standards are required to meet the following requirements:

- English Language Arts standards are required to establish specific curricular content for, at a minimum, reading, writing, speaking and listening, and language.
- Science standards are required to establish specific curricular content for, at a minimum, the nature of science, earth and space science, physical science, and life science.
- Mathematics standards are required to establish specific curricular content for, at a minimum, algebra, geometry, statistics and probability, number and quantity, functions, and modeling.
- Social Studies standards are required to establish specific curricular content for, at a minimum, geography, United States and world history, government, civics, humanities, economics, and financial literacy.
- Visual and performing arts, physical education, health, and foreign language standards are required to establish specific curricular content and include distinct grade-level expectations for the core content knowledge.²¹

Florida uses a unique coding scheme that is defined by five-character positions in alphanumeric code: The subject, grade level, strand, standard and benchmark. The strand is a focal group of related standard, standards are overarching criteria for the grade level or grade band, and the benchmark is a specific expectation for the grade level or grade band that falls within the standard. An example of a standard is provided below:²²

<i>Subject</i>	<i>Grade Level</i>	<i>Strand</i>	<i>Standard</i>	<i>Benchmark</i>
SC.	4.	CO.	1.	2
Science	Grade 4	Computing Components	Introduce foundational computer literacy skills.	Create and edit multimedia artifacts using digital tools.

Within the approved state academic standards documents, the Department of Education includes clarifications that are added to standards to guide teachers in the integration of those standards within instruction. For example, in the Computational Thinking and Reasoning Standards for the Computer Science Standards, there are seven standards, and each of the seven standards has a clarification for how that standard should be integrated into instruction.²³

Effect of Proposed Changes

The bill amends s. 1003.41, F.S., to require that new and revised standards documents submitted to the State Board of Education must only consist of academic standards and benchmarks. The bill also requires the commissioner to submit all revised standards documents to the SBE for approval no later than July 1, 2026. By removing the benchmark clarifications statements, educators will have more flexibility in how they incorporate the standards into their instruction.

Agricultural Education in Florida

To help support students interested in the agricultural industry in Florida, the Florida Department of Education (DOE) created nine middle school courses focused on careers in the agricultural field, ranging from the “Exploration of Agriscience” to the “Introduction to Agriculture, Food and Natural Resources.” At the secondary level, the DOE created 18 courses and programs ranging from “Agricultural Biotechnology” to “Food Science Applications.”²⁷ In the 2022-2023 school year, there were 640 Secondary CTE Programs in Agriculture, Food and Natural Resources. Additionally, there are several benchmarks related to the impact agriculture has had on society:

- Compare the lifestyles of hunter-gatherers with those of settlers of early agricultural communities.²⁸
- Explain how the physical landscape has affected the development of agriculture and industry in the ancient world.²⁹
- Describe how the developments of agriculture and metallurgy related to settlement, population growth, and the emergence of civilization.³⁰

Effect of Proposed Changes

The bill amends s. 1003.42, F.S., to expand the requirements of the elementary principles of agriculture to include the history of agriculture both nationally and specifically in Florida, the economic and societal impact of agriculture, and the various agricultural industry sectors. The change expands the current instruction of how agriculture impacts Florida, our economy, and society. The bill also requires the DOE, in collaboration with the Department of Agriculture and Consumer Services and the University of Florida's Institute of Food and Agricultural Science to prepare and offer standards and a curriculum and may seek input from state or nationally recognized agricultural educational organizations. The bill also authorizes the DOE to contract with state or nationally recognized agricultural educational organizations to develop training for instructional personnel and grade-appropriate classroom resources to support the developed curriculum.

Reading

Present Situation

Comprehensive System of Reading Intervention

Each school district is required to implement a system of comprehensive reading instruction for students enrolled in prekindergarten through grade 12 and certain students who exhibit a substantial deficiency in early literacy.³² Students with a substantial deficiency are defined as:

- A voluntary prekindergarten student in early literacy skills who scores below the tenth (10th) percentile or is unable to complete the practice items at the middle or end of the year test administration of the coordinated screening and progress monitoring system.
- A kindergarten through grade three student in reading if:
 - The student is identified as in need of Tier 3 interventions³³. or
 - For kindergarten, the student scores below the tenth (10th) percentile or is unable to complete the practice items on the designated grade-level assessment at the beginning, middle, or end of the year test administration of the coordinated screening and progress monitoring system.
 - b. For grades one and two, the student scores below the tenth (10th) percentile or is unable to complete the practice items on the designated grade-level assessment for the specified test administration of the coordinated screening and progress monitoring system. or
 - c. For grade three, the student scores below the twentieth (20th) percentile at the beginning or middle of the year test administration of the coordinated screening and progress monitoring system.

This standard is included in Grades 9-12 World History.

³² Section 1003.4201, F.S.

³³ Intensive, Individualized Instruction/Interventions (Tier 3): provides explicit, systematic, individualized instruction based on student need, one-on-one or very small group instruction with more guided practice, immediate corrective feedback, and frequent progress monitoring; and occurs in addition to core instruction and Tier 2 interventions.

- A student in grade three scores a Level 1 on the end-of-year statewide, standardized English Language Arts (ELA) assessment.³⁴

The comprehensive reading instruction plan may include all district schools, including charter schools, unless a charter school elects to submit a plan independently from the school district.³⁵

The plan may include the following components:

- Additional time per day of evidence-based intensive reading instruction for kindergarten through grade 12 students, which may be delivered during or outside of the regular school day.
- Highly qualified reading coaches, who must be endorsed in reading, to specifically support classroom teachers in making instructional decisions based on progress monitoring data and improve classroom teacher delivery of effective reading instruction, reading intervention, and reading in the content areas based on student need.
- Professional learning to help instructional personnel and certified prekindergarten teachers funded in the Florida Education Finance Program earn a certification, a credential, an endorsement, or an advanced degree in scientifically researched and evidence-based reading instruction.
- Summer reading camps, using only classroom teachers or other district personnel who possess a micro-credential³⁶ in reading or are certified or endorsed in reading consistent for all students in kindergarten through grade five exhibiting a reading deficiency as determined by district and state assessments.
- Incentives for instructional personnel and certified prekindergarten teachers funded in the Florida Education Finance Program who possess a reading certification or endorsement or micro-credential and provide educational support to improve student literacy.
- Tutoring in reading.³⁷

Reading Achievement Initiative for Scholastic Excellence Act

In 2021, the Florida Legislature established the Reading Achievement Initiative for Scholastic Excellence (RAISE) program within the DOE.³⁸ The RAISE program provides instructional supports to school districts, school administrators, and instructional personnel in implementing evidence-based reading instruction and interventions in order to improve student reading achievement.³⁹

Under the RAISE program, the DOE must establish 20 literacy support regions and regional support teams in Florida to assist schools in improving low reading scores.⁴⁰ Eligible schools include:

³⁴ Rule 6A-6.053, F.A.C.

³⁵ Section 1003.4201(1), F.S.

³⁶ To earn an early literacy micro-credential a teacher must demonstrate competency in diagnosing literacy difficulties and determining the appropriate range of literacy interventions based upon the age and literacy deficiency of the student and how use evidence-based instructional and intervention practices grounded in the science of reading, including strategies identified by the Just Read, Florida! Office.

⁴⁰ Section 1008.365(3), F.S.

- Schools serving students in kindergarten through grade five where 50 percent of the students score below a Level 3 on the statewide, standardized ELA assessment for any grade level. and
- Schools where 50 percent or more of students in kindergarten through grade three are not on track to pass the grade three ELA assessment based on data from the coordinated screening and progress monitoring system.⁴¹

As part of the RAISE program, the DOE must establish a tutoring program and develop training to prepare eligible high school students to tutor students in kindergarten through grade three. If high school students serve as a tutor in the RAISE program, they:

- May earn up to three elective credits for high school graduation based on the verified number of hours the student spends tutoring under the program.
- May use unpaid hours devoted to tutoring may be counted toward meeting community service requirements for high school graduation and community service requirements for participation in the Florida Bright Futures Scholarship Program.⁴²

Effect of Proposed Changes

The bill amends s. 1003.4201, F.S., to authorize school districts to include in their comprehensive reading instruction plan intensive reading interventions, which must be delivered by instructional personnel who possess an early literacy micro-credential or personnel certified or endorsed in reading, and which must include specified evidence-based strategies. The bill also requires that instructional personnel who possess an early literacy micro-credential and who deliver intensive reading interventions are supervised by an educator who is certified or endorsed in reading. The bill defines “supervised” as able, through telecommunication or in person, to communicate and consult with, and receive direction from. The bill also authorizes districts to include a description of how the district prioritizes the assignment of highly effective teachers in grades kindergarten through grade two.

The bill amends s. 1008.365, F.S., to allow high school students who are tutors in the RAISE program to use either paid or unpaid hours, to count towards the volunteer service or paid work hours requirements for the Florida Bright Futures Scholarship program.

Private Schools

Present Situation

A private school is a nonpublic school defined as an individual, association, copartnership, or corporation, or department, division, or section of such organizations, that designates itself as an educational center that includes kindergarten through grade 12 or higher.⁴³ A private school that participates in the scholarship program must also:

- Comply with 42 U.S.C. s. 2000d which prohibits excluding a person from participating in federally assisted programs on the grounds of race, color, or national origin.

- Notify the Department of Education (DOE) of its intent to participate in the scholarship program.
- Notify the DOE of any changes in the school's name, director, mailing address, or physical location within 15 days of change.
- Provide to the DOE or the scholarship funding organization (SFO) all required documentation for student registration and payment.

- Provide the parent, at least on a quarterly basis, a written report of the student's progress.
- Cooperate with a parent who wants a student to participate in Florida's statewide standardized assessments.
- Adopt policies establishing standards of ethical conduct for educational support employees, instructional personnel, and school administrators.
- Not to be owned or operated by a person or an entity domiciled in, owned by, or in any way controlled by a foreign country of concern or foreign principal, as identified in law.⁴⁴

Private schools that participate in a state scholarship program must, complete a Scholarship Program Compliance form, which includes the following questions related to the school facility:

- Does the school facility meet the prescribed minimum requirements and standards of sanitation and safety for K-12 private schools, with current Florida law?
- If the school facility possesses a well, is it licensed or permitted pursuant to the Florida Safe Drinking Water Act?
- If the school facility stores, prepares, or serves food to students, does the school possess a current, food service establishment sanitation certificate in accordance with Florida law?
- If the school facility is located in a non-exempt county, does the school possess a current and acceptable Mandatory Measurements Nonresidential Radon Measurement Report in accordance with current Florida Law?

private school is ineligible to receive scholarship payments until a satisfactory site visit has been conducted by the DOE.⁴⁶

A private school may use facilities on property that is owned or leased by, or purchased from a library, community service organization, museum, performing arts venue, theatre, cinema, or church facility⁴⁷, which is or was actively used as such within five years of any executed agreement with a private school to use the facilities; any facility or land owned by a Florida College System institution or university; any similar public institutional facilities; and any facility recently used to house a school or child care facility,⁴⁸ under any such facility's preexisting zoning and land use designations without rezoning or obtaining a special exception or a land use change, and without complying with any mitigation requirements or conditions.⁴⁹

The facility must be located on property used solely as one of the designated facilities and meet applicable state and local health, safety, and welfare laws, codes, and rules, including fire safety and building safety.⁵⁰

Effect of Proposed Changes

The bill amends s. 1002.40, F.S., to authorize a private school located in a county with four incorporated municipalities⁵¹ to construct new facilities on property that is:

- Purchased or leased from a library, community service organization, museum, performing arts venue, theater, cinema, or church that is or was actively used as such within five years of any executed agreement with the private school;
- Owned by a Florida College System institution or state university; or
- Recently used to house a school or childcare facility licensed under s. 402.305, Florida Statutes.

The bill authorizes the new facilities may be constructed under the property's preexisting zoning and land use designations, without the need for rezoning, a special exception, a land use change, or compliance with mitigation requirements or conditions.

The bill also requires that the new facility be used solely as a private school and comply with all applicable state and local health, safety, and welfare laws, codes, and rules, including those related to fire safety and building safety.

High School Graduation Requirements

Present Situation

To earn a standard high school diploma a student must complete 24 credits, an International Baccalaureate curriculum, or an Advanced International Certificate of Education curriculum.⁵²

The 24-credit option for a standard diploma includes:

- Four credits in ELA I, II, III, and IV.
- Four credits in mathematics, including one in Algebra I and one in Geometry.
- Three credits in science, two of which must have a laboratory component and one of which must include Biology I.
- Three credits in social studies including one credit in United States History, one credit in World History, one-half credit in economics, and one-half credit in United States Government.
- One credit in fine or performing arts, speech and debate, or career and technical education.
- One credit in physical education which includes the integration of health.
- Seven and one-half credits in electives.
- One-half credit in personal financial literacy.

The one-half credit in personal financial literacy must include instruction in all of the following:

- Types of bank accounts offered, opening and managing a bank account, and assessing the quality of a depository institution's services.
- Balancing a checkbook.
- Basic principles of money management, such as spending, credit, credit scores, and managing debt, including retail and credit card debt.

- Computing federal income taxes.
- Local tax assessments.
- Computing interest rates by various mechanisms.
- Simple contracts.
- Contesting an incorrect billing statement.
- Types of savings and investments.
- State and federal laws concerning finance.⁵³

Effect of Proposed Changes

The bill amends s. 1003.4282, F.S., to require that the one-half credit in financial literacy instruction includes the costs of postsecondary education, cost of attendance, completion of the Free Application for Federal Student Aid, scholarships and grants, and student loans.

Articulated Accelerated Mechanisms

Present Situation

High school students in Florida have a variety of avenues by which they can earn college credit. These opportunities, known as articulated acceleration mechanisms, shorten the time necessary for a student to complete the requirements for a high school diploma and a postsecondary degree. These mechanisms also allow Florida schools to increase the depth of study in a particular subject and expand available curricular options.⁵⁴

Programs that provide high school students with the opportunity to earn college credit include, but are not limited to, dual enrollment and early admission, credit by examination, advanced placement, the IB Program, and the AICE Program. Credit earned through the Florida Virtual School also provides additional opportunities for early graduation and acceleration.⁵⁵

The Department of Education (DOE) annually identifies and publishes the minimum scores, maximum credit, and course or courses for which credit is to be awarded for each College Level Examination Program (CLEP) subject examination, College Board Advanced Placement Program examination, AICE examination, IB examination, Excelsior College subject examination, Defense Activity for Non-Traditional Education Support (DANTES) subject standardized test, and Defense Language Proficiency Test (DLPT). In addition, the DOE also identifies courses in the general education core curriculum of each state university and FCS institution for which credit is to be granted. The DOE is also authorized to partner with an independent third-party testing or assessment organization to develop assessments that measure competencies consistent with general education core courses.⁵⁶

Effect of Proposed Changes

The bill amends s. 1007.27, F.S., to authorize the SBE and the Board of Governors to join or establish a national consortium as an alternative method to develop courses for secondary students that align with general education core course competencies, and to implement advanced placement courses.

The Florida School for Competitive Academics

Present Situation

Established in 2023, The Florida School for Competitive Academics (FSCA) was scheduled to open in the 2024-2025 school year to students in grades six through 12 and located in Alachua County.⁵⁷ The FSCA was created for the primary purpose of providing a rigorous academic curriculum, and the secondary purpose was to prepare students for regional, state, and national academic competitions in all areas of study, including, but not limited to, science, technology, engineering, and mathematics. The FSCA's mission was to provide students who met selective admissions requirements with an environment that would foster high academic engagement and

advanced understanding of subject areas, develop productive work habits, build resiliency, connect students with industry leaders, and promote civic leadership.⁵⁸

The FSCA was to be operated by a board of trustees composed of seven members appointed by the Governor to four-year terms and confirmed by the Senate. The FSCA Board of Trustees had full power and authority to:

- Adopt rules to implement provisions of the law relating to the operation of the FSCA. The rules had to be submitted to the State Board of Education for approval or disapproval.
- Appoint a principal, administrators, teachers, and other employees.
- Remove principals, administrators, teachers, and other employees at the discretion of the board.
- Determine eligibility of students and procedures for admission.
- Provide for the proper keeping of accounts and records and for budgeting funds.
- Receive gifts, donations, and bequests of money or property, real or personal, tangible or intangible, from any person, firm, corporation, or other legal entity for the use and benefit of the school.
- Recommend to the Legislature that the school become a residential public school.
- Perform every other matter requisite to the proper management, maintenance, support, and control of the school at the highest efficiency economically possible.
- Prepare and submit legislative budget requests.⁵⁹

The FSCA was a public school but, like charter schools, was exempt from all statutes in the education code except:

- Statutes pertaining to the student assessment program and school grading system.
- Statutes pertaining to the provision of services to students with disabilities.
- Statutes pertaining to civil rights, including, but not limited to, statutes relating to discrimination.
- Statutes pertaining to student health, safety, and welfare.⁶⁰

The FSCA was scheduled to open beginning in the 2024-2025 school year; however, the school was never officially opened.

Effect of Proposed Changes

The bill repeals ss.1002.351, 1011.58, and 1011.59, F.S., to remove the Florida School for Competitive Academics.

The bill also conforms cross-references related to FSCA activities and requirements in ss. 11.45, 216.251, 447.203, 1004.04, 1001.20, 1002.394, and 1002.395, F.S.

District and School Advisory Councils

Present Situation

Each district school board must establish an advisory council for each school in the district and develop procedures for the election and appointment of advisory council members. The school advisory council is the sole body responsible for final decision-making at the school relating to the implementation of school improvement and education accountability.⁶¹

The advisory councils must consist of the principal and an appropriately balanced number of teachers,⁶² education support employees,⁶³ students, parents, and other business and community citizens who are representative of the ethnic, racial, and economic community served by the school. Career center and high school advisory councils must include students, and middle and junior high school advisory councils may include students. School advisory councils of career centers and adult education centers are not required to include parents as members. Council members representing teachers, education support employees, students, and parents must be elected by their respective peer groups at the school in a fair and equitable manner.⁶⁴

The district school board must review the membership composition of each advisory council. If the district school board determines that the membership elected by the school is not representative of the ethnic, racial, and economic community served by the school, the district school board must appoint additional members to achieve proper representation. The Commissioner of Education must determine if schools have maximized their efforts to include minority persons and persons of lower socioeconomic status on their advisory council.⁶⁵

Effect of Proposed Changes

The bill amends s. 1001.452, F.S., to remove the authority of the Commissioner of Education to determine if schools have maximized their efforts to include minorities and persons of lower socioeconomic status on their advisory council. The bill maintains the requirement that the district school board review the membership composition of each advisory council and appoint additional members if the elected school advisory council is not representative of the ethnic, racial, and economic community served by the school.

Parental Rights

Present Situation

K-12 Student and Parent Rights

Parents of public school students are required to receive from school districts accurate and timely information regarding their child's academic progress and must be informed of ways they can help their child to succeed in school. Students and parents are afforded numerous statutory rights, including, but not limited to:

- A high-quality system of education, one that allows students the opportunity to obtain a high-quality education;
- Attendance;
- Issues surrounding health;
- Discipline;
- Safety;
- Educational Choice;
- Issues relating to Students with Disabilities and Blind Students;
- Issues relating to Limited English Proficient Students;
- Students with deficiencies in Math and Reading;
- Pledge of Allegiance;
- Student Records, Report Cards and Student Progress Reports;
- School Accountability and Improvement Rating Reports;
- Athletics and Extracurricular Activities;
- Instructional Materials;
- Juvenile Justice Programs;
- Parental Input and Meetings; and
- Transportation.⁶⁶

Opioid Antagonists

In 2022, public schools were authorized to purchase a supply of the opioid antagonist, naloxone, from an approved wholesale distributor, in the event of a student opioid overdose.⁶⁷ School districts are required to maintain the naloxone in a secure location and the school district employee who administers the opioid antagonist in compliance with state law is immune from civil liability.

Opioid receptor antagonists block one or more of the opioid receptors in the central or peripheral nervous system. The two most commonly used centrally acting opioid receptor antagonists are naloxone and naltrexone. Naloxone comes in intravenous, intramuscular, and intranasal formulations and is FDA-approved for the use in an opioid overdose and the reversal of respiratory depression associated with opioid use. Naltrexone is available in both oral and long-acting injectable formulations and is FDA-approved for the treatment of opioid and/or alcohol maintenance treatment. The most commonly used peripheral opioid receptor antagonist is

methylaltraxone, which is a potent competitive antagonist acting at the digestive tract and is also FDA-approved for the treatment of opioid-induced constipation.⁶⁸

Corporal Punishment

District school boards have the option of administering corporal punishment and must establish a policy authorizing the use of corporal punishment as a form of discipline, which must be reviewed every three years. The district school board is required to take public testimony in establishing or reviewing the policy authorizing corporal punishment.⁶⁹ If the school board has a corporal punishment policy it must incorporate that:

- The use of corporal punishment must be approved by the principal before it is used, but approval is not necessary for each specific instance in which it is used. The principal is required to prepare guidelines for administering such punishment that must identify the types of punishable offenses, the conditions under which the punishment is administered, and the specific personnel on the school staff authorized to administer the punishment.
- A teacher or principal may administer corporal punishment only in the presence of another adult who is informed beforehand, and in the student's presence, of the reason for the punishment.
- A teacher or principal who has administered corporal punishment shall, upon request, provide the student's parent with a written explanation of the reason for the punishment and the name of the other adult who was present.⁷⁰

In the 2023-2024 school year, there were 516 incidents of corporal punishment in 17 school districts.⁷¹

Effect of Proposed Changes

The bill amends s. 1002.20, F.S., to modify provisions related to opioid antagonists and corporal punishment in schools. The bill expands the opioid antagonist for purchase by district school boards to specify any emergency opioid antagonist approved by the U.S. Food and Drug Administration (FDA), rather than only naloxone.

The bill also requires that if a district school board has a policy authorizing corporal punishment, the policy must include a requirement for parental consent. The policy may specify that parent consent is provided for the entire school year or before each administration of corporal punishment.

The bill amends s. 1002.33, F.S., to require charter schools to comply with the requirements of corporal punishment.

Prohibited Expenditures

Present Situation

Florida Educational Equity Act

The “Florida Educational Equity Act” (FEEA) prohibits discrimination in any program or employment condition on the basis of race, color, national origin, sex, disability, religion, or marital status against a student or an employee in the state system of public K-20 education.

The FEEA specifies, in part, that:

- No individual may, on the basis of race, color, national origin, sex, disability, religion, or marital status, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any public K-20 education program or activity, or in any employment conditions or practices, conducted by a public educational institution that receives or benefits from federal or state financial assistance.
- The criteria for admission to a program or course may not have the effect of restricting access by persons of a particular race, color, national origin, sex, disability, religion, or marital status.⁷²

Included in the prohibition on discrimination on the basis of race, color, national origin, or sex is subjecting any student or employee to training or instruction that espouses, promotes, advances, inculcates, or compels such student or employee to believe any of the following concepts:

- Members of one race, color, national origin, or sex are morally superior to members of another race, color, national origin, or sex.
- A person, by virtue of his or her race, color, national origin, or sex, is inherently racist, sexist, or oppressive, whether consciously or unconsciously.
- A person’s moral character or status as either privileged or oppressed is necessarily determined by his or her race, color, national origin, or sex.
- Members of one race, color, national origin, or sex cannot and should not attempt to treat others without respect to race, color, national origin, or sex.
- A person, by virtue of his or her race, color, national origin, or sex, bears responsibility for, or should be discriminated against or receive adverse treatment because of, actions committed in the past by other members of the same race, color, national origin, or sex.
- A person, by virtue of his or her race, color, national origin, or sex, should be discriminated against or receive adverse treatment to achieve diversity, equity, or inclusion.
- A person, by virtue of his or her race, color, sex, or national origin, bears personal responsibility for and must feel guilt, anguish, or other forms of psychological distress because of actions, in which the person played no part, committed in the past by other members of the same race, color, national origin, or sex.⁷³

Florida College System institution and State University System Prohibited Expenditures

A Florida College System (FCS) institution, state university, FCS institution direct-support organization, or state university direct-support organization may not expend any funds,

⁷² Section 1000.05(2), F.S.

⁷³ Section 1005.05(4), F.S.

regardless of source, to purchase membership in, or goods and services from, any organization that discriminates on the basis of race, color, national origin, sex, disability, or religion.⁷⁴

An FCS institution, state university, FCS institution direct-support organization, or state university direct-support organization may not expend any state or federal funds to promote, support, or maintain any programs or campus activities that:

- Violate Florida's Educational Equity Act
- Advocate for diversity, equity, and inclusion, or promote or engage in political or social activism, as defined by rules of the State Board of Education and regulations of the Board of Governors.⁷⁵

The requirements for prohibited expenditures do not apply to student fees to support student-led organizations regardless of any speech or expressive activity by such organizations, but the public funds must be allocated to student-led organizations pursuant to written policies or regulations of each FCS institution or state university.⁷⁶ The requirements also do not apply to programs, campus activities, or functions required for compliance with general or federal laws or regulations; for obtaining or retaining institutional or discipline-specific accreditation; or for access programs for military veterans, Pell Grant recipients, first generation college students, nontraditional students, "2+2" transfer students from the FCS, students from low-income families, or students with unique abilities.⁷⁷

Effect of Proposed Changes

The bill creates s. 1001.325, F.S., to align the expenditure restrictions across different educational institutions. Specifically, it aligns the existing limitations on prohibited expenditures for Florida College System (FCS) institutions and state universities with the purchasing requirements for schools and school districts. The bill specifies that a public school, charter school, school district, charter school administrator, or direct-support organization may not expend any funds, regardless of source, to purchase membership in, or goods and services from, any organization that discriminates on the basis of race, color, national origin, sex, disability, or religion. The bill also prohibits a public school, charter school, school district, charter school administrator, or direct-support organization from expending any state or federal funds to promote, support, or maintain any programs or campus activities that:

- Violate Florida's Educational Equity Act; or
- Advocate for or promote or engage in political or social activism, as defined by rules of the State Board of Education (SBE).

The bill exempts from prohibited expenditure requirements student fees to support student-led organizations regardless of any speech or expressive activity by such organizations that would otherwise violate the above provisions, but the public funds must be allocated to student-led organizations pursuant to written policies or regulations of the school or district in which the student is enrolled, as applicable. The bill does not prohibit programs, campus activities or functions required for compliance with general or federal laws or regulations, for obtaining or

retaining accreditation, or for continuing to receive state funds with the approval of either the SBE or the department.

The bill requires the SBE to adopt rules to implement these requirements.

Florida School Recognition Funding

Present Situation

The Florida School Recognition Program provides public recognition and financial awards to faculty and staff at schools sustaining high student performance by receiving a school grade of “A” or showing substantial improvement in student performance by improving a letter grade.

Schools that receive financial awards depend on the availability of funds appropriated and the number and size of schools selected to receive an award. The school recognition funds must be distributed to the school’s fiscal agent and placed in the school’s account and must be used for purposes listed in statute as determined jointly by the school’s staff and school advisory council. If school staff and the school advisory council cannot reach agreement by February 1, the awards must be equally distributed to all classroom teachers currently teaching in the school.

The school recognition award funding must be used for the following:

- Nonrecurring bonuses to the faculty and staff.
- Nonrecurring expenditures for educational equipment or materials to assist in maintaining and improving student performance.
- Temporary personnel for the school to assist in maintaining and improving student performance.⁷⁸

The 2024-2025 General Appropriations Act allocated \$200,000,000 to schools in the School Recognition program.⁷⁹

Effect of Proposed Changes

The bill amends s. 1008.36, F.S., to clarify that only instructional personnel, which includes classroom teachers, individuals working in student personnel services, librarians/media specialists, education paraprofessionals, and other instructional staff, are eligible for nonrecurring bonuses through the School Recognition awards.

- Documentation of receipt of a master's or higher degree from an accredited postsecondary educational institution that the DOE has identified as having a quality program resulting in a baccalaureate degree or higher.⁸³

A school district that employs an individual who does not achieve passing scores on any subtest of the general knowledge examination must provide information regarding the availability of state-level and district-level supports and instruction to assist him or her in achieving a passing score. The requirement of mastery of general knowledge must be waived for an individual who has been provided three years of support and instruction and who has been rated effective or highly effective for each of the last three years.⁸⁴

The acceptable means of demonstrating mastery of subject area knowledge include:

American Board for Certification of Teacher Excellence (ABCTE)

The ABCTE is run by the nonprofit American Board program which is designed to offer a competency-based alternative path to teaching for career changers with a quick and affordable route to becoming a teacher.⁸⁷ The ABTCE is approved in 15 states to offer teacher certification programs.⁸⁸ In Florida, ABTCE is approved to offer certification programs in the following subject areas:

- Biology (6-12);
- Chemistry (6-12) ;
- Elementary Education (K-6) ;
- English (6-12) ;

Christa McAuliffe Ambassador for Education Program

The Christa McAuliffe Ambassador for Education Program was created in 2002⁹¹ to recognize that Florida continues to face teacher shortages, and that fewer young people consider teaching as a career. The Christa McAuliffe Ambassador for Education Program was established to provide salary, travel, and other related expenses annually for an outstanding Florida teacher (Teacher of the Year) to promote the positive aspects of teaching as a career. The goals of the program are to:

- Enhance the stature of teachers and the teaching profession.
- Promote the importance of quality education and teaching for our future.
- Inspire and attract talented people to become teachers.
- Provide information regarding Florida's scholarship and loan programs related to teaching.
- Promote the teaching profession within community and business groups.
- Provide information to retired military personnel and other individuals who might consider teaching as a second career.
- Work with and represent the Department of Education, as needed.
- Work with and encourage the efforts of school and district teachers of the year.
- Support the activities of the Florida Future Educator of America Program.
- Represent Florida teachers at business, trade, education, and other conferences and meetings.
- Promote the teaching profession in other ways related to the teaching responsibilities, background experiences, and aspirations of the Ambassador for Education.⁹²

The Teacher of the Year is required to serve as the Ambassador for Education for a year. Applications and selection criteria are distributed annually by the Department of Education to all school districts. The Commissioner of Education is required to establish a selection committee which assures representation from teacher organizations, administrators, and parents to select the Teacher of the Year and Ambassador for Education from among the school district teachers of the year.⁹³

⁹³ Section 1012.77(3), F.S.

Effect of Proposed Changes

The bill amends s. 1012.56, F.S., to expand options for educators who hold a valid certificate issued by The American Board for Certification of Teacher Excellence (ABCTE) to have a direct pathway to a professional teaching certificate in Florida. The bill specifies that ABCTE certification satisfies subject area, general knowledge, and professional preparation and educator competence requirements.

The bill amends s. 1012.77, F.S., to include charter school consortia with at least 30 member schools and an approved professional learning system on file with the DOE as eligible entities to nominate teacher-of-the-year candidates.

Background Screenings

Present Situation

In 2012, the Legislature created the Care Provider Background Screening Clearinghouse (clearinghouse) to create a single “program” of screening individuals and allow for the results of criminal history checks of persons acting as covered care providers to be shared among the specified agencies.⁹⁴ Designated agencies include:

- Agency for Health Care Administration (ACHA);
- Department of Health;
- Department of Children and Families;
- Department of Elder Affairs;
- Agency for Persons with Disabilities;
- Department of Education;
- Each school district;
- Developmental Research (Laboratory) Schools;
- Florida School for the Deaf and the Blind;
- Florida Virtual School;
- Virtual instruction programs;
- Charter schools;
- Charter school Hope Operators;
- Private schools participating in an educational scholarship program;
- Alternative schools;
- Regional workforce boards providing services; and
- Local licensing agencies when these agencies are conducting state and national criminal history background screening on persons who work with children or persons who are elderly or disabled.⁹⁵

Once a person’s screening record is in the clearinghouse, that person will avoid the need for any future state screens and related fees.⁹⁶ Final implementation of the clearinghouse by the

designated state agencies was required by October 1, 2013. The clearinghouse was initially implemented by the AHCA on January 1, 2013.

Background Screening of Individuals at Schools

School districts, lab schools, the Florida School for the Deaf and the Blind, the Florida Virtual School, virtual instruction providers, charter schools, hope operators, early learning coalitions, and private schools participating in an educational scholarship program (education entities, collectively) currently using the Volunteer Employee Criminal Screening History System (VECHS) to conduct background screenings are required to use the clearinghouse beginning on January 1, 2023. Education entities must be fully implemented into the Clearinghouse by January 1, 2025, or by a date determined by the AHCA.⁹⁷

Individuals who work in or provide services to school districts, charter schools, alternative schools, and private schools participating in state school choice scholarship programs⁹⁸ must undergo a fingerprint based background screening before being permitted access to school grounds.⁹⁹ The individuals who must undergo background screening fall under three personnel classifications: instructional and noninstructional personnel;¹⁰⁰ noninstructional school district employees and contracted personnel;¹⁰¹ and noninstructional contractors.¹⁰² Candidates for educator certification must also undergo background screening.¹⁰³

The background screening requirements for each personnel classification vary depending upon the individual's duties, whether or not the individual is a school district employee, and the degree of contact the individual has with students.¹⁰⁴ Because they are more likely to have direct contact with students, candidates for educator certification, instructional and noninstructional personnel, and noninstructional school district employees and contracted personnel must be screened against a distinct list of 52 disqualifying offenses applicable to employment with public schools and school districts.¹⁰⁵

The Commissioner of Education is required to maintain a disqualification list that includes the following:

- The identity of each person who has been permanently denied an educator certificate or whose educator certificate has been permanently revoked and has been placed on the list as directed by the Education Practices Commission pursuant.

⁹⁷ Section 435.12(1), F.S.

⁹⁸ The background screenings conducted by such private schools are conducted through the VECHS.

⁹⁹ Sections 1002.421, 1012.32(2), 1012.465(2), and 1012.467(2)(a), F.S.

¹⁰⁰ Instructional and noninstructional personnel are individuals who are hired or contracted to fill positions that require direct contact with students in any public school. Section 1012.32(2), F.S.

¹⁰¹ Noninstructional school district employees and contracted personnel are individuals who are permitted access to school grounds when students are present; who have direct contact with students; or who have access to, or control of, school funds. Section 1012.465(1), F.S.

¹⁰² Noninstructional contractors are vendors or contractors who are not school district employees, are permitted access to school grounds when students are present, and have little or no direct contact with students. Section 1012.467(1), F.S.

¹⁰³ Sections 1012.315, 1012.32(2), and 1012.56, F.S.

¹⁰⁴ See ss. 1012.32(2), 1012.465(2), and 1012.467(2), F.S.

¹⁰⁵ Sections 1012.315, 1012.32, and 1012.465, F.S.

- The identity of each person who has been permanently disqualified by the commissioner from owning or operating a private school that participates in state scholarship programs.
- The identity of each person who has been terminated, or has resigned in lieu of termination, from employment as a result of sexual misconduct with a student.¹⁰⁶
- The identity of each person who is ineligible for educator certification or employment based on the following criteria:
 - Is on the disqualification list.
 - Is registered as a sex offender.
 - Is ineligible based on a Level 2 background screening requirements in law.¹⁰⁷
 - Is ineligible for an exemption under current law.¹⁰⁸
 - Has been convicted or found guilty of, has had adjudication withheld for any criminal act in another state or under federal law that would count as a disqualifying offense in Florida.¹⁰⁹

The head of the appropriate agency or qualified entity may grant to any employee or person with an affiliation otherwise disqualified from employment an exemption from disqualification for:

- Felonies for which at least two years have elapsed since the applicant for the exemption has completed or been lawfully released from confinement, supervision, or nonmonetary condition imposed by the court for the disqualifying felony;
- Specified misdemeanors for which the applicant for the exemption has completed or been lawfully released from confinement, supervision, or nonmonetary condition imposed by the court;
- Offenses that were felonies when committed but that are now misdemeanors and for which the applicant for the exemption has completed or been lawfully released from confinement, supervision, or nonmonetary condition imposed by the court; or
- Findings of delinquency. For offenses that would be felonies if committed by an adult and the record has not been sealed or expunged, the exemption may not be granted until at least three years have elapsed since the applicant for the exemption has completed or been lawfully released from confinement, supervision, or nonmonetary condition imposed by the court for the disqualifying offense.¹¹⁰

Effect of Proposed Changes

The bill amends s. 1012.315, F.S., to clarify that the owner or operator of a private school must meet the same background screening requirements as an individual who has direct contact with students. The bill also clarifies that background screening exemptions do not apply to public and private school employees in positions that require direct contact with students. Finally, the bill

¹⁰⁶ Section 1001.10(4)(b), F.S.

¹⁰⁷ Section 435.04(2), F.S. provides the lists of ineligible criminal offenses a person must not have been arrested for and are awaiting final disposition of; have not been found guilty of, regardless of adjudication, or entered a plea of nolo contendere or guilty to; or have not been adjudicated delinquent and the record has not been sealed or expunged

¹⁰⁸ Section 435.07, F.S. allows certain individuals disqualified from employment due to background screening results to seek an exemption if they demonstrate rehabilitation through clear and convincing evidence, provided they have completed sentencing requirements and paid all court-ordered costs. However, exemptions are prohibited for individuals convicted of severe crimes such as sexual offenses, murder, kidnapping, and certain child-related offenses, as well as registered sex offenders, sexual predators, and career offenders.

¹⁰⁹ Section 1012.315, F.S.

¹¹⁰ Section 435.07(1), F.S.

specifies that persons who apply for certification or employment in positions that may require direct contact with a student are governed by the laws and rules in effect when the application was issued for initial certificate or employment, if continuity of certificates or employment are maintained.

The bill is effective July 1, 2025, except as otherwise specified.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1058 directs state agencies, district school boards, and charter school governing boards to update, change, or create materials to rename the “Gulf of Mexico” to the “Gulf of America.” Each state agency must update its “geographic materials.” Instructional materials and additions to library media center collections acquired or adopted by a district school board or charter school on or after July 1, 2025, must reflect the renaming.

The bill will have an indeterminate fiscal impact to state entities and school districts. **See Section V., Fiscal Impact Statement.**

The bill takes effect on July 1, 2025.

II. Present Situation:

Executive Order 14172: Gulf of America

On January 20, 2025, President Donald Trump signed Executive Order 14172, entitled “Restoring Names That Honor American Greatness.” In relevant part, the President directed that the “Gulf of Mexico” officially be renamed the “Gulf of America.” Additionally, the Executive Order instructs the Secretary of the Interior to take all appropriate actions to rename the “Gulf of Mexico” to the “Gulf of America.” The Secretary is directed to update the Geographic Names Information System to reflect such change. The Board on Geographic Names, established by the

Executive Order, provides guidance to ensure all federal references to the Gulf of America, including references included on agency maps, or in contracts and other documents and communications, shall reflect its renaming.

Public School Instructional Materials

Florida Statutes addresses instructional materials for K-12 public education.¹ District school boards have the constitutional duty and responsibility to select and provide instructional materials for all students, including materials in the school or classroom library.² Instructional materials are items having intellectual content that by design serve as a major tool for assisting in the instruction of a subject or course³ and must be consistent with district goals and applicable with state academic standards and course descriptions provide in law.⁴

The districts must provide a sufficient number of student or site licenses or sets of materials that serve as the basis for instruction in the core subject areas of mathematics, language arts, social studies, science, reading and literature to students.⁵ Such materials may be made available in bound, unbound, kit, or package form and may consist of hardbacked or softback textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software.⁶

School boards must also establish and maintain a program of school library media services for all public schools in the district. This includes traveling or circulating libraries that may be needed for proper operation of the district school system⁷ A library media center is any collection of books, ebooks, periodicals, or videos maintained and accessible on the site of a school.⁸

The Florida Department of Education (DOE) facilitates the statewide instructional materials adoption process. Expert reviewers chosen by the DOE are provided training on competencies for making valid, culturally sensitive, and objective recommendations regarding the content and rigor of instructional materials prior to the beginning of the review and selection process.⁹ Reviewers must objectively evaluate materials with Florida's state-adopted standards in mind.¹⁰ Based on reviewer recommendations, the Commissioner of Education selects and adopts instructional materials for each grade and subject under consideration.¹¹

The term of adoption for instructional materials must be for a five-year period beginning on April 1, following the adoption. The DOE is required to annually publish an official schedule of subject areas to be called for adoption. The schedule is developed to promote balance among the subject areas so that the required expenditure for new instructional materials is approximately the same each year.¹²

The following instructional material adoption schedule is posted on the DOE’s website.¹³

Adoption Year	Subject Area	Specifications and Criteria Available	State Adoption Process	Effective Date of Contract April 1- March 31

Purchase of Instructional Materials

On or before July 1 each year, the district school superintendent must certify to the commissioner the estimated allocation of state funds for instructional materials for the ensuing school year. Up to 50 percent of the amount the school district has budgeted for instructional materials may be used to purchase:

- Library and reference books and nonprint materials.
- Other materials having intellectual content which assist in the instruction of a subject course.

¹³ Florida Department of Education, *Florida Instructional Materials Adoption Schedule*, available at <https://www.fldoe.org/core/fileparse.php/5574/urlt/AdoptionCycle.pdf> (last visited Mar. 14, 2025)

- The repair and renovation of textbooks and library books and replacement of items which were part of previously purchased instructional materials.¹⁴

III. Effect of Proposed Changes:

This bill creates an unnumbered section of law directing each state agency, as defined in s. 11.45(1), F.S., to update its “geographic materials” to reflect the new federal designation of the “Gulf of Mexico” as the “Gulf of America.” Instructional materials and additions to library media center collections adopted or acquired by a district school board or charter school governing board, on or after July 1, 2025, must also reflect this new federal designation.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Not applicable. The bill does not require counties or municipalities to take an action requiring the expenditure of funds, reduce the authority that counties or municipalities have to raise revenue in the aggregate, or reduce the percentage of state tax shared with counties or municipalities.

B. Public Records/Open Meetings Issues:

None identified.

C. Trust Funds Restrictions:

None identified.

D. State Tax or Fee Increases:

None identified.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None identified.

B. Private Sector Impact:

Contracted education service providers and testing groups may need to update their materials and packages to reflect this change.

¹⁴ Section 1006.40, F.S.

C. Government Sector Impact:

The provisions of this bill requiring state agencies to update their materials to reflect the “Gulf of America” has an indeterminate, yet likely insignificant fiscal impact on state agency expenditures. The fiscal impact to school districts is also indeterminate. However, the full impact may not be immediate as the bill specifies the update is required for all materials adopted or acquired on or after July 1, 2025, rather than updating current materials.

VI. Technical Deficiencies:

The term “geographic materials” is undefined and unclear. This term does not otherwise appear in the Florida Statutes.

VII. Related Issues:

None identified.

VIII. Statutes Affected:

This bill creates an undesignated section of law.

IX. Additional Information:**A. Committee Substitute – Statement of Substantial Changes:**

B. Amendments:

None.
