MEMBERS: Senator Gaetz, Chair; Senator Margolis, Vice Chair; Senators Alexander, Benacquisto, Bennett,

Bogdanoff, Bullard, Dean, Diaz de la Portilla, Evers, Fasano, Hill, Latvala, Norman, Sachs, Smith,

and Sobel

BILL DESCRIPTION and

TAB BILL NO. and INTRODUCER SENATE COMMITTEE ACTIONS COMMITTEE ACTION

Budget Work Session

Trust Fund Consolidation

The overall policy is to reduce the numerous separate pots of money that the state currently uses to account for various revenue streams. This puts as much money in General Revenue as possible so that the state can use the available revenues to fund the most critical needs possible.

- 1. Reviewed 293 Trust Funds with Operating Appropriations in Base Budget
- 2. Criteria for Shift Exclusion:
 - Constitutional
 - Bonds
 - Federal Grant or Regulations
 - Private Grants and Donations
 - Fiduciary Funds
 - Statewide Internal Service Funds
 - Clearing Funds
 - Agency Internal Service fund that Nets to Zero

The shift policy was to move any revenues and issues over that were not prohibited from going into General Revenue by something other than state law. The concept was to make the trust fund consolidation as comprehensive as possible.

Note – In many cases revenue streams and operating expenditures that were shifted over do not give a net increase to General Revenue. For example, state or local match shifted over results in the same amount of match requirement in General Revenue as in the separate trust fund.

- 3. **124** Funds have Revenues and Base Budget Appropriations that can be Shifted to General Revenue
 - 90 funds can be Terminated due to a Complete Shift
 - 34 Funds can have Partial shifts of Revenues and Appropriations

The revenues shown for the trust funds are projected by the agencies and reviewed by the trust fund section of OPB based on Revenue Estimating projections, historical revenue projections, and analysis of trends described by the agencies in the LBR submissions. Each agency chief financial officer must certify the accuracy of the projections. This is the same methodology used to review revenue projections for funding issues in the trust fund and to sweep trust fund balances.

The appropriations shifted over represent base budget less any unfunded budget. Once

the appropriations have been shifted over to General Revenue, increases above base or reductions to those issues were taken in General Revenue.

- 4. Eliminate Unfunded Budget in FY 11-12 Before Fund Shift
- 5. Prior Year FCO and NonOperating Appropriations will be addressed in conforming bills. Funds were also analyzed to ensure sufficient balance had been subtracted to pay for prior FCO before determining amount available to benefit General Revenue.
- 6. Terminating and other Conforming Legislation will be Submitted
