II. Present Situation:

The Department of Economic Opportunity

The DEO was created in 2011 by combining the Agency for Workforce Innovation, the Department of Community Affairs, and the Governor's Office of Tourism, Trade, and Economic Development.¹ The head of the DEO is the executive director, who is appointed by the Governor and confirmed by the Senate.² The purpose of the DEO is to formulate and implement policies designed to promote economic opportunities for Floridians.³

The Community Development Block Grant Program

The Community Development Block Grant (CDBG) Program was created by Title I of the Housing and Community Development Act of 1974.⁴ The CDBG program works to ensure decent affordable housing, to provide services to the most vulnerable in our communities, and to create jobs through the expansion and retention of businesses.⁵

Florida Small Cities Community Development Block Grant Program

The DEO administers the Small Cities CDBG program and distributes funds to eligible non-entitlement communities.⁶ To be eligible, a city must have a population under 50,000, and a county's population must be under 200,000.⁷ The program awards subgrants in economic development, neighborhood revitalization, housing rehabilitation, and commercial revitalization.⁸ Currently, the DEO may annually set aside 5 percent of CDBG funds for use in local government jurisdictions for which an emergency or natural disaster has been declared by executive order.⁹

⁹ Section 290.044(5), F.S.

Except for applications for economic development, an eligible local government may only submit one application for a grant during each application cycle.¹⁰ Additionally, if economic development funds remain available after the application cycle closes, the remaining funds must be awarded to eligible projects on a first-come, first served basis.¹¹

Disaster Recovery

The Community Development Block Grant – Disaster Recovery (CDBG-DR) program is a federally funded program administered by the U.S. Department of Housing and Urban Development that is designed to address housing, infrastructure, economic development, and mitigation needs that remain after other assistance has been exhausted.¹²

The DEO administers the CDBG-DR program through its Division of Community Development's Office of Long-Term Resiliency.¹³ Currently, single-family residential housing repair and replacement projects are underway for Florida residents whose homes still have unrepaired damage from Hurricanes Hermine, Matthew, Irma, and Michael.¹⁴ These projects must comply with the Florida Building Code Act by applying for and receiving Florida building permits.¹⁵ A building permit for a single-family residential home must be issued within 30 days of application.¹⁶

Enterprise Florida, Inc.

Enterprise Florida, Inc., (EFI) serves as the principle economic development organization for the state.¹⁷ Among its numerous duties, EFI markets the state for business creation, expansion, and retention.¹⁸ Additionally, EFI contracts with the DEO to manage some of the various programs housed in the Division of Strategic Business Development.¹⁹

Workforce Development Boards

Twenty-four local workforce development boards (local boards) deliver Florida's workforce development services through over 100 one-stop service providers.²⁰ The one-stop service providers give Floridians access to available workforce services; including job placement, career

¹⁰See s. 290.046(2)(a), F.S. An eligible local government may apply up to three times in any one annual funding cycle for an economic development grant but may not receive more than one such grant per annual funding cycle. A local government may have more than one open economic development grant.

counseling, and skills training.²¹ Each local board formulates a local budget and oversees the one-stop delivery system within its local area.²²

Background Screening

An employer²³ may not hire, select, or otherwise allow an employee to have contact with a vulnerable person²⁴ that would place the employee in a role that requires a background screening until the screening process is completed and demonstrates the absence of any grounds for the denial or termination of employment.²⁵ If the screening process shows any grounds for the denial or termination of employment, the employer may not hire, select, or otherwise allow the employee to have contact with any vulnerable person that would place the employee in a role that requires background screening unless the employee is granted an exemption for disqualification by the agency²⁶ as provided under s. 435.07, F.S.²⁷

Sections 435.03 and 435.04, F.S., outline the screening requirements. There are two levels of background screening.

- Level 1 screening includes, at a minimum, employment history checks and statewide criminal correspondence checks through the Florida Department of Law Enforcement (FDLE) and a check of the Dru Sjodin National Sex Offender Public Website,²⁸ and may include criminal records checks through local law enforcement agencies.²⁹
- Level 2 screening includes, but, is not limited to, fingerprinting for statewide criminal history records checks through the FDLE and national criminal history checks through the Federal Bureau of Investigation (FBI), and may include local criminal records checks through local law enforcement agencies.³⁰

Reemployment Assistance

Florida's unemployment insurance program was created by the Legislature in 1937.³¹ The program was rebranded as the "reemployment assistance (RA) program" in 2012.³² The DEO is responsible for administering the program, and the DEO contracts with the Florida Department

²¹ See s. 445.009, F.S.

²³ Section 435.02(3), F.S., defines "employer" as any person or entity required by law to conduct screening of employees pursuant to ch. 435, F.S.

²⁴ Section 415.102(28), F.S., defines "vulnerable adult" as a person 18 years of age or older whose ability to perform the normal activities of daily living or to provide for his or her own care or protection is impaired due to a mental, emotional, sensory, long-term physical, or developmental disability or dysfunction, or brain damage, or the infirmities of aging.

²⁵ Section 435.06(2)(a), F.S.

²⁶ Section 435.02(1), F.S., defines "agency" as any state, county, or municipal agency that grants licenses or registration permitting the operation of an employer, or is itself an employer, or that otherwise facilitates the screening of employees pursuant to ch.435, F.S. If there is no state agency or the municipal or county agency chooses not to conduct employment screening, "agency" means the Department of Children and Families.

of Revenue (DOR), as the tax collection service provider, for the collection of unemployment taxes.³³

Work Search Requirement

To receive RA benefits, a claimant must meet certain monetary and non-monetary eligibility requirements. Key eligibility requirements involve a claimant's earnings during a certain period of time, the manner in which the claimant became unemployed, and the claimant's efforts to find new employment.³⁴

A claimant must meet certain requirements in order to be eligible for benefits for each week of unemployment.³⁵ For example, each week an individual is required to contact at least five prospective employers (three prospective employers if the individual resides in a small county) or report to a One-Stop Career Center for reemployment services.³⁶

Domestic Violence³⁷ Victims

Sometimes victims of domestic violence must leave their jobs due to the impact that the violence has had on their lives. Employers are required to permit an employee to request and take up to 3 working days of leave from work in any 12-month period if the employee or a family or household member of an employee is the victim of domestic violence or sexual violence.³⁸

Except in cases of imminent danger to the health or safety of the employee, or a family or household member, an employee seeking leave from work must provide his or her employer with appropriate advance notice of the leave as required by the employer's policy along with sufficient documentation of the act of domestic violence or sexual violence as required by the employer.³⁹ An employer must keep all information relating to an employee's leave confidential.⁴⁰ Additionally, an employer may not fire, demote, suspend, retaliate, or otherwise discriminate against an individual for taking leave.⁴¹

Employees who voluntarily leave their job are not typically qualified to receive RA benefits.⁴² However, an individual will not be disqualified for voluntarily leaving work due to circumstances directly related to domestic violence.⁴³

³⁷ "'Domestic violence' means any assault, aggravated assault, battery, aggravated battery, sexual assault, sexual battery, stalking, aggravated stalking, kidnapping, false imprisonment, or any criminal offense resulting in physical injury or death of one family or household member by another family or household member." s. 741.28, F.S.

⁴² See s. 443.101(1)(a), F.S.

⁴³ See s. 443.101(1)(a)2.c., F.S.

An individual who voluntarily leaves work due to domestic violence must:

- Make reasonable efforts to preserve employment, unless the individual establishes that such efforts are likely to be futile or increase the risk of future incidents of domestic violence;⁴⁴
- Provide evidence such as an injunction, a protective order, or other documentation authorized by state law, which reasonably proves that domestic violence has occurred; and
- Reasonably believe that he or she is likely to be the victim of a future act of domestic violence at, in transit to, or departing from his or her place of employment.⁴⁵

The CONNECT System

Florida's unemployment system is administered by the DEO using the CONNECT system, which was deployed in 2013 to provide a modernized, web-based system and to replace a mainframe system.⁴⁶ According to ISF, an information technology and strategy firm who completed an assessment of the CONNECT system between November 2020 and February 2021, the CONNECT system was not designed to process the volume of claims received during the COVID-19 pandemic.⁴⁷ ISF analyzed ways to improve the delivery of RA benefits, including a phased approach to ensure the DEO can meet current and future demands.⁴⁸ ISF's assessment provides an overview of the current state of the CONNECT system, and recommends the modernization of the RA system, which includes cloud migration.⁴⁹

On May 4, 2020, at the request of Governor DeSantis, the Office of the Chief Inspector General (CIG) initiated a review of the CONNECT system.⁵⁰ The scope of the CIG's review considered available documentation and testimony about the CONNECT system from the period of 2007 to 2020.⁵¹ The CIG's recommendations in the draft report included the following:

- Documenting future Information Technology (IT) system capacity requirements and expected utilization in system testing plans and test results;
- Assessing the proposed level of maturity of any state transfer or commercial off-the-shelf system relied upon for risk and properly document the risk;
- Monitoring what is being provided by the vendor and build in an escape plan and financial penalties for noncompliance;
- Requiring project management to be flat and agile, which may include considering more modular IT projects to accommodate future and rapid technological changes; and

⁴⁴ Efforts to preserve employment may include seeking a protective injunction, relocating to a secure place, or seeking reasonable accommodation from the employing unit, such as a transfer or change of assignment. *See Id.*

⁴⁵ An individual who is otherwise eligible for RA benefits under s. 443.101, F.S., is ineligible for each week that he or she no longer meets the qualifying criteria or refuses a reasonable accommodation offered in good faith by his or her employing unit. *See Id.*

- Strengthening administrative and physical infrastructure needs, which may include moving the future CONNECT system to the cloud to allow for greater scalability.⁵²

Appeals Process

The DEO issues determinations and redeterminations on the monetary and non-monetary eligibility requirements of RA benefits.⁵³ Determinations and redeterminations are statements by the DEO regarding the application of law to an individual's eligibility for benefits or the effect of the benefits on an employer's tax account.⁵⁴ A party who believes a determination is inaccurate may request reconsideration and the DEO must review the information on which the request is based and issue a redetermination.⁵⁵

If a party disagrees with either the determination or redetermination, the applicant or employer may request an administrative hearing before an appeals referee.⁵⁶ An appeals referee must be an attorney in good standing with the Florida Bar.⁵⁷ Appeals referees in the DEO's Office of Appeals hold hearings and issue decisions to resolve disputes related to eligibility for RA benefits and the payment and collection of RA taxes.⁵⁸

A decision by an appeals referee can be appealed to the RA Appeals Commission.⁵⁹ The commission may affirm, modify, remand with instructions, or reverse the determination made by the appeals referee based on evidence previously submitted in the case or additional evidence taken at the direction of the commission.⁶⁰ However, the commission may also assume jurisdiction of a case prior to completion of proceedings by an appeals referee.⁶¹

A party to an appeal who disagrees with the commission's order may seek review of the decision in the Florida district courts of appeal.⁶² The notice of appeal should be filed either in the district court of appeal in the appellate district in which a claimant resides or the job separation arose or in the appellate district where the order was issued.⁶³ If the notice of appeal is filed with the commission, then the appeal will be filed in the district court of appeal in the appellate district where the order was issued.⁶⁴

The bill provides that a RA claimant may file a request for the DEO to reconsider a monetary determination within 20 days after the DEO mails the notice to the claimant's last known address, or in lieu of mailing, within 20 days after delivery of the notice.

The bill provides that a monetary redetermination is final for a claimant unless within 20 days after the mailing of the notice of monetary redetermination to the claimant's last known address, or in lieu of mailing, within 20 days after delivery of the notice, the claimant files an appeal.  448 opportunities. Aggregate data on assessment outcomes may be made
 449 available to CareerSource Florida, Inc., and Enterprise Florida,
 450 Inc., for use in the development of policies related to
 451 education and training programs that will ensure that businesses
 452 in this state have access to a skilled and competent workforce.

453 b. Individuals shall be informed of and offered services

470 443.101 Disqualification for benefits.—An individual shall
471 be disqualified for benefits:

472 (1) (a) For the week in which he or she has voluntarily left
473 work without good cause attributable to his or her employing
474 unit or for the week in which he or she has been discharged by
475 the employing unit for misconduct connected with his or her
476 work, based on a finding by the Department of Economic
477 Opportunity. As used in this paragraph, the term "work" means
478 any work, whether full-time, part-time, or temporary.

479 1. Disqualification for voluntarily quitting continues for
480 the full period of unemployment next ensuing after the
481 individual has left his or her full-time, part-time, or
482 temporary work voluntarily without good cause and until the
483 individual has earned income equal to or greater than 17 times
484 his or her weekly benefit amount. As used in this subsection,

490 2. An individual is not disqualified under this subsection
491 for:

4-01074D-21 20211948__

494 temporarily terminated his or her work within the previous 6
495 calendar months;

496 b. Voluntarily leaving work to relocate as a result of his
497 or her military-connected spouse's permanent change of station
498 orders, activation orders, or unit deployment orders; or

499 c. Voluntarily leaving work if he or she proves that his or
500 her discontinued employment is a direct result of circumstances
501 related to domestic violence as defined in s. 741.28. An
502 individual who voluntarily leaves work under this sub-
503 subparagraph must:

504 (I) Make reasonable efforts to preserve employment, unless
505 the individual establishes that such remedies are likely to be
506 futile or to increase the risk of future incidents of domestic
507 violence. Such efforts may include seeking a protective
508 injunction, relocating to a secure place, or seeking reasonable
509 accommodation from the employing unit, such as a transfer or
510 change of assignment;

511 (II) Provide evidence such as an injunction, a protective
512 order, or other documentation authorized by state law which
513 reasonably proves that domestic violence has occurred; and

514 (III) Reasonably believe that he or she is likely to be the
515 victim of a future act of domestic violence at, in transit to,
516 or departing from his or her place of employment. ~~An individual
517 who is otherwise eligible for benefits under this sub-
518 subparagraph is ineligible for each week that he or she no
519 longer meets such criteria or refuses a reasonable accommodation
520 offered in good faith by his or her employing unit.~~

521 3. The employment record of an employing unit may not be
522 charged for the payment of benefits to an individual who has

4-01074D-21 20211948__

523 voluntarily left work under sub-subparagraph 2.c.
 524 4. Disqualification for being discharged for misconduct
 525 connected with his or her work continues for the full period of
 526 unemployment next ensuing after having been discharged and until
 527 the individual is reemployed and has earned income of at least
 528 17 times his or her weekly benefit amount and for not more than
 529 52 weeks immediately following that week, as determined by the
 530 department in each case according to the circumstances or the
 531 seriousness of the misconduct, under the department's rules for
 532 determining disqualification for benefits for misconduct.
 533 5. If an individual has provided notification to the
 534 employing unit of his or her intent to voluntarily leave work
 535 and the employing unit discharges the individual for reasons
 536 other than misconduct before the date the voluntary quit was to
 537 take effect, the individual, if otherwise entitled, shall
 538 receive benefits from the date of the employer's discharge until
 539 the effective date of his or her voluntary quit.
 540 6. If an individual is notified by the employing unit of
 541 the employer's intent to discharge the individual for reasons
 542 other than misconduct and the individual quits without good
 543 cause before the date the discharge was to take effect, the
 544 claimant is ineligible for benefits pursuant to s. 443.091(1)(d)
 545 for failing to be available for work for the week or weeks of
 546 unemployment occurring before the effective date of the
 547 discharge.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1046 expands s. 901.43, F.S., to subject any person or entity that publishes or disseminates information relating to arrest booking photographs for a commercial purpose or pecuniary gain as their primary business model to a civil penalty for failing to remove the arrest booking photograph upon written request.

Section 901.43, F.S., prohibits any person or entity engaged in the business of publishing or otherwise disseminating arrest booking photographs from soliciting or accepting a fee to remove the photographs. Additionally, this section requires persons or entities who accept a fee for the removal of such photographs to remove the photographs within ten days of a written request or be subject to a civil penalty.

This bill may have an indeterminate fiscal impact on the courts due to the expansion of what entities are subject to civil penalties. See Section V. Fiscal Impact Statement.

This bill is effective October 1, 2021.

II. Present Situation:

Dissemination of Arrest Booking Photographs

Section 901.43, F.S., provides that any person or entity engaged in the business of publicly publishing arrest booking photographs may not solicit or accept a fee or other form of payment to remove the photographs.¹

A person whose arrest booking photograph is published, or his or her legal representative, may request that a registered agent of the person or entity who published the photograph remove the photograph. The request must:

- Be made in writing.
- Be sent by registered mail.
- Include sufficient proof of identification of the person whose arrest booking photograph was published.
- Include specific information identifying the arrest booking photograph that the request seeks to remove.²

The person or entity that published the arrest booking photograph must remove the photograph within 10 days of receipt of the written request for removal.³ If the photograph is not removed within 10 calendar days, the person seeking removal may bring a civil action to enjoin the continued publication of the photograph. Additionally, the court may impose a civil penalty of \$1,000 per day for noncompliance and must award reasonable attorney fees and court costs. Money recovered for civil penalties must be deposited into the General Revenue Fund.⁴

Refusal to remove an arrest booking photograph after written request has been made constitutes an unfair or deceptive trade practice in accordance with part II of ch. 501, F.S.⁵

Section 901.43, F.S., only applies to a person or entity that solicits or accepts payments to remove arrest booking photographs.⁶

Public Disclosure of Criminal Record Information

All “materials made or received by an agency in connection with official business which are used to perpetuate, communicate, or formalize knowledge” are public records and open for public inspection, unless a specific exemption applies.⁷

Criminal record information may be obtained and published by non-governmental publishers. This information includes booking photographs, arrest reports, charging documents, sentencing orders, and criminal history information.⁸ Like all other records prepared by Florida government agencies, arrest and crime reports are generally considered to be subject to public disclosure unless specifically exempted.⁹ Statutory exemptions for active criminal investigative and intelligence information, confessions, juvenile offender records, and certain victim information may apply to crime reports and other law enforcement records.¹⁰

Arrest Record Information

Public record information pertaining to a person's arrest for the alleged commission of a crime includes the arrest report and booking photograph ("mugshot"). With few exceptions, arrest record information (including booking photographs) must be disclosed pursuant to a public records request.¹¹ However, the arrest record information of juveniles charged with misdemeanors is confidential and exempt,¹² and a public records custodian may choose to not electronically publish the arrest or booking photograph of a child that is not confidential and exempt.¹³

Arrest record information may be requested by many persons and entities, including members of the public, traditional news companies, companies that provide criminal history or criminal record information for a service or subscriber fee (e.g., so that a private employer may determine if a job applicant has a criminal history), and companies that are often referred to as "mugshot" companies.

Mugshot companies operate commercial websites that repost booking photographs. The companies often make a profit by charging a fee to remove the image. Photos posted on one site may also be reposted to other sites, causing continuing harm to the reputation of the individual.¹⁴ Florida law does not specifically prohibit mugshot companies from posting booking photographs, but does prohibit charging a removal fee.¹⁵

Laws and Legislation of Other States

Some states have passed laws addressing the issue of publishing booking photographs for commercial gain. Fourteen states, including Florida, have enacted legislation designed to prohibit

⁸ The Florida Department of Law Enforcement is the central repository of criminal history information for the State of Florida. commercial website operators from posting mugshot photos on a website and charging a removal fee.¹⁶ Additionally, some states have limited public access to booking photographs. For example, law enforcement in California have the discretion to furnish copies of booking photographs in response to a public request. However, once a copy is furnished to one member of the general public, it must be made available to all who make a request.¹⁷

An American Bar Association article suggests that there is no legal solution to this problem, and instead, the solution will develop through private sector activity.¹⁸ For example, Google has adjusted its algorithms so that the mugshot companies will not appear as prominently in the search results. In addition, some credit card companies such as MasterCard, American Express, and Discover are cutting ties with these types of websites.¹⁹

Case Law

Persons whose booking photographs are posted by commercial entities have sought relief based on various causes of action. These include claims for an invasion of privacy based on false light, invasion of privacy based on unauthorized appropriation of name or likeness, defamation by slander, and unjust enrichment.²⁰

In 2008, the Florida Supreme Court indicated that Florida does not recognize tort claims based on false light, “because we conclude that false light is largely duplicative of existing torts, but without the attendant protections of the First Amendment.”²¹ The Court specifically noted that the key elements of a false claim are nearly identical to the elements required in a defamation case.²² Florida does recognize defamation claims.²³

Right of Publicity

Section 540.08(1), F.S., prohibits a person from publishing, printing, displaying, or otherwise publicly using for purposes of trade or for any commercial or advertising purpose the name, portrait, photograph, or other likeness of any natural person without the person’s express written or oral consent to such use. There are exceptions for:

²⁰ A claim of false light is a type of a claim of invasion of privacy based in tort. - The use of such name, portrait, photograph, or other likeness in connection with the resale or other distribution of literary, musical, or artistic productions or other articles of merchandise or property where such person has consented to the use on or in connection with the initial sale or distribution; and
- Any photograph of a person solely as a member of the public and where such person is not named or otherwise identified in or in connection with the use of such photograph.²⁴

When necessary consent is not obtained, the person whose name, portrait, photograph, or other likeness is used may bring an action to enjoin the unauthorized publication, printing, display or other public use, and to recover damages for any loss or injury sustained, including an amount which would have been a reasonable royalty, and punitive or exemplary damages.²⁵

In 2014, a Florida federal district court denied the defendant's motion to dismiss a cause of action alleging a violation of s. 540.08, F.S., for publishing the plaintiff's booking photograph without her consent and advertising "unpublishing services" that required the payment of a fee to remove the photograph.²⁶ In a later proceeding, the court denied the plaintiff's Motion to Certify Class (to allow the case to proceed as a class action) without prejudice.²⁷ The class action was not re-filed, nor was the case resolved by trial on the merits. The resolution of the case and whether the plaintiff would have succeeded on the merits of her claim is unknown.

The Florida Deceptive and Unfair Trade Practices Act (FDUTPA)

History and Purpose of FDUTPA

Section 901.43(4), F.S., subjects a person or entity that refuses to remove an arrest booking photograph after a specific request has been made to remove it to prosecution under the Florida Deceptive and Unfair Trade Practices Act (FDUTPA).

FDUTPA is a consumer and business protection measure that prohibits unfair methods of competition, unconscionable acts or practices, and unfair or deceptive acts or practices in trade or commerce.²⁸ The FDUTPA is based on federal law.²⁹ The State Attorney or the Department of Legal Affairs may bring actions when it is in the public interest on behalf of consumers or governmental entities.³⁰ The Office of the State Attorney may enforce violations of the FDUTPA

The Department of Legal Affairs has enforcement authority if the violation is multi-jurisdictional, the state attorney defers in writing, or the state attorney fails to act within 90 days after a written complaint is filed.³¹ Consumers may also file suit through private actions.³²

Remedies under the FDUTPA

The Department of Legal Affairs and the State Attorney, as enforcing authorities, may seek the following remedies:

- Declaratory judgments;
- Injunctive relief;
- Actual damages on behalf of consumers and businesses;
- Cease and desist orders; and
- Civil penalties of up to \$10,000 per willful violation.³³

Remedies for private parties are limited to:

- A declaratory judgment and an injunction where a person is aggrieved by a FDUTPA violation; and
- Actual damages, attorney fees and court costs, where a person has suffered a loss due to a FDUTPA violation.³⁴

Arrest Records and Employment

An online mugshot photo can complicate the hiring process for some.³⁵ According to one source, 77 percent of employers google their job applicants.³⁶ The Equal Employment Opportunity Commission (EEOC) has provided guidance that an arrest, in and of itself, is not a job-related consideration consistent with business necessity because the fact of an arrest alone does not establish that the criminal conduct occurred. However, this guidance further states that an employer may make an employment decision based on the conduct underlying an arrest if the conduct makes the individual unfit for the position in question.³⁷

III. Effect of Proposed Changes:

Section 901.43, F.S., prohibits any person or entity engaged in the business of publishing or otherwise disseminating arrest booking photographs from soliciting or accepting a fee to remove the photographs. Additionally, this section provides that persons or entities who accept a fee for the removal of such photographs must remove the photographs within ten days of a written request or be subject to a civil penalty.

The bill amends s. 901.43, F.S., to expand its application to any person or entity that publishes or disseminates information relating to arrest booking photographs when they do so for a commercial purpose or pecuniary gain. Therefore, these persons or entities are subject to a civil penalty for the failure to remove an arrest booking photograph upon written request.

Dear Chairman Hooper,

I would like to request that SB 572 Engineers and SB 574 Fees/Professional Structural Engineers Licensing be heard in the next Commerce & Tourism Committee meeting.

SB 572 amends current law to create classification for licensed structural engineers. To enhance public safety this bill requires Florida structural engineers to demonstrate their design capability through a nationally-accepted exam. It also establishes criteria for the qualifications of professional structural engineers.

SB 574 establishes fees for Professional Structural Engineers licensing.

I appreciate your favorable consideration.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Commerce and Tourism

BILL: SB 572

INTRODUCER: Senator Baxley

SUBJECT: Engineers

DATE: March 12, 2021

REVISED: _____

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	<u>Kraemer</u>	<u>Imhof</u>	<u>RI</u>	Favorable
2.	<u>McMillan</u>	<u>McKay</u>	<u>CM</u>	Favorable
3.	_____	_____	<u>RC</u>	_____

I. Summary:

SB 572 authorizes the Florida Board of Professional Engineers (board) to establish minimum standards of practice for the profession of structural engineering, which includes the structural analysis and design of components for threshold buildings (those higher than 50 feet/three stories or with an occupancy of greater than 500 persons) as well as the practice of engineering under current law.

The bill prohibits, effective March 1, 2023, the practice of professional structural engineering by any person who is not a licensed professional structural engineer or otherwise exempted from licensure under ch. 471, F.S., related to engineering.

Under the bill, the following titles may not be used by persons who are not licensed or exempt from licensing under current law relating to engineering: licensed professional engineer, licensed structural engineer, professional structural engineer, or registered professional engineer.

The bill authorizes the board to certify persons as qualified to practice structural engineering if they are licensed or qualify for licensure as an engineer, have at least 4 years of active structural engineering experience under the supervision of a licensed engineer, have passed certain professional examinations, and meet other administrative requirements. The bill also requires the board to certify qualified foreign or out-of-state applicants for licensure by endorsement in certain circumstances.

SB 574, relating to Fees/Professional Structural Engineer Licensing, is linked to this bill, and provides for the establishment of licensing fees by the Board of Professional Engineering to be paid by persons seeking licensure as a professional structural engineer. See Section V, Fiscal Impact Statement.

The bill provides an effective date of July 1, 2021.

II. Present Situation:

Regulation of Professional Engineers

The practice of engineering is regulated by the board. Section 471.005(7), F.S., defines the term “engineering” to include:

the term “professional engineering” and means any service or creative work, the adequate performance of which requires engineering education, training, and experience in the application of special knowledge of the mathematical, physical, and engineering sciences to such services or creative work as consultation, investigation, evaluation, planning, and design of engineering works and systems, planning the use of land and water, teaching of the principles and methods of engineering design, engineering surveys, and the inspection of construction for the purpose of determining in general if the work is proceeding in compliance with drawings and specifications, any of which embraces such services or work, either public or private, in connection with any utilities, structures, buildings, machines, equipment, processes, work systems, projects, and industrial or consumer products or equipment of a mechanical, electrical, hydraulic, pneumatic, or thermal nature, insofar as they involve safeguarding life, health, or property; and includes such other professional services as may be necessary to the planning, progress, and completion of any engineering services. A person who practices any branch of engineering; who, by verbal claim, sign, advertisement, letterhead, or card, or in any other way, represents himself or herself to be an engineer or, through the use of some other title, implies that he or she is an engineer or that he or she is licensed under this chapter; or who holds himself or herself out as able to perform, or does perform, any engineering service or work or any other service designated by the practitioner which is recognized as engineering shall be construed to practice or offer to practice engineering within the meaning and intent of this chapter [ch. 471, Engineering].

Unlike most Department of Business and Professional Regulation (DBPR) professions, the administrative, investigative, and prosecutorial services for the board are not provided by the DBPR. The DBPR contracts with the Florida Engineers Management Corporation (FEMC), a nonprofit corporation, to provide such services.¹ The FEMC is a public-private nonprofit association that has contracted with the DBPR to handle administrative, investigative, and prosecutorial services for the Board of Professional Engineers.²

Section 471.008, F.S., authorizes the board to adopt rules to implement the provisions of ch. 471, F.S., and for ch. 455, F.S., which provides the general licensing procedures for professional licensing by the DBPR and its professional licensing boards. The board has adopted

¹ See s. 471.038, F.S., the Florida Engineers Management Corporation Act, for the duties and authority of the FEMC.

² See the Annual Report of the FEMC for FY 2019-2020, available at [2019-20-FEMC-Annual-Report.pdf \(fbpe.org\)](https://fbpe.org/wp-content/uploads/2019-20-FEMC-Annual-Report.pdf) (last visited March 12, 2021), and the contract between DBPR and FEMC for the period between July 1, 2017 and June 30, 2021 at <https://fbpe.org/wp-content/uploads/2018/07/FEMC-DBPR-Contract-2017.pdf> (last visited March 12, 2021).

responsibility rules for the profession of engineering addressing a variety of issues, including the design of structures and fire protection systems.³

There were 62,475 licensed professional engineers in Fiscal Year 2019-2020.⁴ The FEMC processed 451 complaints regarding engineering practice during that period, with 372 of those complaints found to be legally sufficient to proceed, and filed 27 administrative complaints in cases where probable cause was found relating to a violation of the Practice Act.⁵

Professional Engineer License Qualifications and Exemptions

Section 471.013, F.S., provides the license qualifications for a professional engineer. In order to be licensed as a professional engineer, a person must successfully pass two examinations: the fundamentals examination and the principles and practices examination. Prior to being permitted to sit for the fundamentals examination, an applicant must have graduated from:

- An approved engineering science curriculum of 4 years or more in a board-approved school, college, or university; or
- An approved engineering technology curriculum of 4 years or more in a board-approved school, college, or university.⁶

Under s. 471.015(2), F.S., the board must certify for licensure any applicant who has submitted proof of being at least 18 years old and has the required engineering experience. For graduates of an approved engineering science curriculum, the applicant must have a record of at least 4 years of active engineering experience sufficient to indicate competence to be in responsible charge of engineering. Graduates of an approved engineering technology curriculum must have a record of at least 6 years of such qualified experience.⁷

Section 471.003(2), F.S., identifies the licensing requirement exemptions of ch. 471, F.S.

Special Inspectors of Threshold Buildings

Section 471.015(7), F.S., authorizes the board to establish by rule the qualifications for certification of licensees as inspectors of threshold buildings. A “threshold building” is “any building which is greater than three stories or 50 feet in height, or which has an assembly occupancy classification as defined in the Florida Building Code which exceeds 5,000 square feet in area and an occupant content of greater than 500 persons.”⁸

³ The responsibility rules are in Fla. Admin. Code Chapters 61G15-30, 61G15-31, 61G15-32, and 61G15-33 (2021).

⁴ There were 595 inactive professional engineering licenses in that fiscal year. See Department of Business and Professional Regulations, *Annual Report, Division of Professions, Division of Certified Public Accounting, Division of Real Estate, and Division of Regulation, Fiscal Year 2019-2020*, at p. 20, available at [DivisionAnnualReport_FY1920.pdf](https://myfloridalicense.com/DivisionAnnualReport_FY1920.pdf) (myfloridalicense.com) (last visited March 12, 2021).

⁵ See the Annual Report of the FEMC for FY 2019-2020, available at [2019-20-FEMC-Annual-Report.pdf](https://fbpe.org/2019-20-FEMC-Annual-Report.pdf) (fbpe.org), at p. 2 (last visited March 12, 2021). The FEMC also filed 27 Final Orders with DBPR; entered into eight negotiations, and tried six administrative hearings; dismissed two cases after re-consideration; issued 11 reprimands, six suspensions, seven probations, eight project reviews, and three license restrictions; and imposed \$43,916.10 in administrative costs and \$25,500.00 in fines. The board also issued 24 Final Orders against licensees.

⁶ Section 471.013(1), F.S.

⁷ See ss. 471.015(2)(a)1. and 2., F.S.

⁸ See s. 553.71(12), F.S.

The board is also authorized to establish minimum qualifications for the qualified representative of the special inspector who is authorized to perform inspections of threshold buildings on behalf of the special inspector.⁹ Current law does not authorize the board to establish minimum training or education requirements for maintaining a certification or qualification as a special inspector.

The agency charged with enforcing the building code (enforcing agency)¹⁰ must require a special inspector to perform structural inspections on a threshold building pursuant to a structural inspection plan prepared by the engineer or architect of record.¹¹

Use of Engineer Seals

Section 471.025(1), F.S., authorizes the board to prescribe, by rule, one or more forms of seal to be used by licensed engineers. Each licensee must obtain at least one seal.¹² All final drawings, specifications, plans, reports, or documents prepared or issued by the licensee and filed for public record and all final documents provided to the owner or the owner's representative must be signed by the licensee, dated, and sealed with the seal.¹³ The signature, date, and seal are evidence of the authenticity of the document to which they are affixed.¹⁴

A licensee may not affix or permit to be affixed his or her seal, name, or digital signature to any plan, specification, drawing, final bid document, or other document that depicts work which he or she is not licensed to perform or which is beyond his or her profession or specialty.¹⁵

A successor engineer seeking to reuse documents previously sealed by another engineer must be able to independently re-create all of the work done by the original engineer, and assumes full professional and legal responsibility by signing and affixing his or her seal to the assumed documents.¹⁶

Use of Descriptive Titles

Section 471.031, F.S., sets forth the permissible and prohibited titles for persons licensed under ch. 471, F.S., and for persons who are otherwise exempted from such licensure. With certain exceptions for persons exempted from licensure, the use of the name "professional engineer" or any other title, designation, abbreviation, or indication that a person holds an active license as an engineer when the person is not licensed under ch. 489, F.S., is prohibited, along with use of the following titles:

- Agricultural engineer;

Imposition of Discipline by the Board

The conduct that constitute grounds for the imposition of discipline by the board are set forth in s. 471.033, F.S. Such discipline includes denial of an application for licensure, suspension or revocation of a license, imposition of fines, reprimands, probation, or restitution, and restriction of the authorized scope of practice of a licensee.

Voluntary Structural Engineer Associations

The Florida Structural Engineers Association (FSEA) provides input on building codes and enforcement and sponsors technical seminars to address common concerns of the profession.¹⁸ Members of FSEA become members of the National Council of Structural Engineers Associations (NCSEA).¹⁹ The NCSEA was formed to improve the standard level of practice of the structural engineering profession and provide an identifiable resource for seeking communication with the profession.²⁰ Additionally, it advocates for the practice of structural

engineering on behalf of its 44 member organizations.²¹ According to the NCSEA, two states restrict who may use the title “structural engineer,”²² seven states have a partial practice act for structural engineers,²³ and two states have a full practice act for structural engineers.²⁴

The National Council of Examiners for Engineering and Surveying is a nonprofit organization composed of 69 engineering and surveying licensing boards from all 50 states, the District of Columbia, Guam, Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands.²⁵ It provides services including engineering examinations, surveying examinations, exam preparation materials, records programs, and credentials evaluations among other services to licensing jurisdictions.²⁶

III. Effect of Proposed Changes:

Section 1 of the bill amends s. 471.003, F.S., to prohibit, effective March 1, 2023, the practice of professional structural engineering by any person who is not a licensed professional structural engineer or otherwise exempted from licensure under ch. 471, F.S., related to engineering.

The bill prohibits the use of the name or title of “licensed engineer,” “licensed professional engineer,” “licensed structural engineer,” “professional structural engineer,” or “registered structural engineer” or any other title that indicates an unlicensed person is a licensed professional structural engineer in this state. The bill amends s. 471.003(2), F.S., to clarify that certain persons are not required to be licensed as a licensed professional structural engineer, and this exemption includes contractors performing work designed by a professional structural engineer.

Section 2 of the bill amends s. 471.005, F.S., to define the term “licensed professional structural engineer” to mean a person who is licensed to engage in the practice of professional structural engineering in Florida under ch. 471, F.S.

The bill defines the term “professional structural engineering” to mean a service or creative work that includes the structural analysis and design of structural components or systems for threshold buildings.²⁷ The term includes engineering that requires significant structural engineering education, training, experience, and examination, as determined by the board.

The bill allows a retired professional structural engineer to be granted use of the title “professional engineer, retired” or “professional structural engineer, retired” by the board, if the retiree has:

- Been licensed as a professional engineer by the board;
- Relinquished or not renewed a license; and

²⁷ Section 553.71(12), F.S., provides a “threshold building” is “any building which is greater than three stories or 50 feet in height, or which has an assembly occupancy classification as defined in the Florida Building Code which exceeds 5,000 square feet in area and an occupant content of greater than 500 persons.”

- Applied to and been approved by the board to use such title.

Section 3 amends s. 471.013(2)(a), F.S., relating to licensure, to include a reference to licensed professional structural engineers.

Section 4 amends s. 471.015, F.S., to authorize the board to certify persons as qualified to practice professional structural engineering if they are licensed or qualify for licensure as an engineer, have at least 4 years of active professional structural engineering experience under the supervision of a licensed professional engineer, have passed certain professional examinations, and meet other administrative requirements.

Under the bill, an applicant for licensure as a professional structural engineer must:

- Be licensed as an engineer, or qualify for licensure, under ch. 471, F.S.;
- Submit an application in the format prescribed by the board;
- Provide satisfactory evidence of good moral character, as defined by the board.
- Provide a record of 4 years of active professional structural engineering experience, as defined by the board, under the supervision of a licensed professional engineer; and
- Have successfully passed the 16-hour National Council of Examiners for Engineering and Surveying Structural Engineering examination.

Before March 1, 2023, a qualified applicant, in lieu of satisfying the experience and examination requirements set forth above, may instead:

- Submit a signed affidavit in the format prescribed by the board that the applicant is currently a licensed engineer in Florida and has been engaged in the practice of professional structural engineering with a record of at least 4 years of active professional structural engineering design experience;
- Possess a current professional engineering license and file the necessary documentation as required by the board, or possess a current threshold inspector license; and
- Agree to meet with the board or its representative at the board's request, for the purpose of evaluating the applicant's qualifications for licensure as a professional structural engineer.

An applicant qualified for licensure as an engineer may simultaneously apply for licensure as a professional structural engineer, if all the above requirements and all education, examination, experience, and good moral character requirements set forth in s. 471.013, F.S., are met.

The bill sets forth the following requirements for board certification of an applicant as qualified for licensure as a professional structural engineer by endorsement:

- An applicant who holds a license to practice either engineering or professional structural engineering issued by another state or territory of the United States, if the criteria for issuance of the license were substantially the same as the licensure criteria that existed in Florida at the time the license was issued; or
- An applicant who holds a valid license to practice structural engineering issued by another state or territory of the United States and who has successfully passed one of the following 16-hour examination combinations:

- The 8-hour National Council of Examiners for Engineering and Surveying²⁸ Structural Engineering I examination and the 8-hour National Council of Examiners for Engineering and Surveying Structural Engineering II examination.
- The 8-hour National Council of Examiners for Engineering and Surveying Structural Engineering II examination and either the 8-hour National Council of Examiners for Engineering and Surveying Civil: Structural examination or the 8-hour National Council of Examiners for Engineering and Surveying Architectural Engineering examination.
- The 16-hour Western States Structural Engineering examination.
- The 8-hour National Council of Examiners for Engineering and Surveying Structural Engineering II examination, and either the 8-hour California Structural Engineering Seismic III examination, or the 8-hour Washington Structural Engineering III examination.

Section 5 amends s. 471.019, F.S., relating to reinstatement of void licenses, to include a reference to licensed professional structural engineers.

Section 6 amends s. 471.025(2), F.S., regarding the use of seals on documents, to include a reference to the use of seals when a professional structural engineer's license is revoked or suspended.

Section 7 amends s. 471.031, F.S., to provide that beginning March 1, 2023, no person may practice professional structural engineering unless the person is licensed as a professional structural engineer or exempt from licensure under ch. 471, F.S. The bill also provides that the following titles may not be used by persons who are not licensed, or otherwise exempt from licensing, under ch. 471, F.S., relating to engineering: licensed engineer, licensed professional engineer, licensed structural engineer, professional structural engineer, registered structural engineer, or structural engineer.

Section 8 amends s. 471.033, F.S., related to disciplinary proceedings, to revise the acts that constitute grounds for discipline, to include acts related to the practice of professional structural engineering.

Section 9 amends s. 471.037(1), F.S., related to the construction of provisions in ch. 471, F.S., to provide that local building codes, zoning laws, or ordinances may be more restrictive concerning the services of licensed professional structural engineers.

Section 10 amends s. 471.0385, F.S., related to certain authorizations granted to the Governor. The bill grants authority to the Governor to reestablish positions, budget authority, and salary rate necessary to carry out the DBPR's responsibilities relating to "professional structural

COMMITTEE SUBSTITUTE - Technical Changes

I. Summary:

CS/SB 574 provides that the Board of Professional Engineers (board) may establish a fee for licensing of professional structural engineers.

SB 572, relating to Engineers, is a linked bill that requires the board to determine whether applicants seeking to practice professional structural engineering are licensed or qualify for licensure as an engineer, have at least 4 years of active professional structural engineering experience under the supervision of a licensed professional engineer, have passed certain professional examinations, and meet other administrative requirements. The linked bill also addresses other issues related to professional structural engineers.

See Section V, Fiscal Impact Statement.

The bill is effective on the same date that SB 572 or similar legislation takes effect, if such legislation is adopted in the same legislative session or any extension and becomes a law.

II. Present Situation:

Linked Bill SB 572

This bill is linked to SB 572, relating to Engineers, which amends s. 471.015(3), F.S. Under the linked bill, the board is authorized to certify persons as qualified to practice professional

structural engineering if they are licensed or qualify for licensure as an engineer, have at least 4 years of active professional structural engineering experience under the supervision of a licensed professional engineer, have passed certain professional examinations, and meet other administrative requirements.

In addition, the linked bill provides an applicant for licensure as a professional structural engineer must:

- Be licensed as an engineer, or qualify for licensure, under ch. 471, F.S.;
- Submit an application in the format prescribed by the board;
- Provide satisfactory evidence of good moral character, as defined by the board.
- Provide a record of 4 years of active professional structural engineering experience, as defined by the board, under the supervision of a licensed professional engineer; and
- Have successfully passed the 16-hour National Council of Examiners for Engineering and Surveying Structural Engineering examination. Section 471.011, F.S., authorizes the board by rule to establish fees to be paid for applications, examination, reexamination, licensing, renewal, reactivation, inactive status applications, and recordmaking and recordkeeping. It also provides that qualification of a business organization must not require payment of a fee.

Fees

Section 471.011, F.S., authorizes the board to establish fees, by rule, to be paid for applications, examination, reexamination, licensing, renewal, reactivation, inactive status applications, and recordmaking and recordkeeping. It also provides that qualification of a business organization must not require payment of a fee.

Current law provides fees for licensure may not exceed these amounts:

- Initial license - \$125;
- Biennial renewal - \$125;
- Temporary registration or certificate - \$25 for an individual or \$50 for a business firm;
- Licensure by endorsement - \$150; or
- Application for inactive status or for reactivation of an inactive license - \$150.

III. Effect of Proposed Changes:

Section 1 of the bill amends s. 471.011, F.S., relating to fees for license applications, temporary licenses, license renewals, inactive licenses, examinations, and records, to provide that such fees are also applicable to the regulation of professional structural engineering.

Section 2 of the bill amends subsection s. 471.015(3), F.S., as amended in linked bill SB 572, relating to Engineers, to require payment by applicants seeking licensure to practice professional structural engineering, of a fee to be established by the board.

Section 3 provides the bill takes effect on the same date that SB 572 or similar legislation takes effect, if such legislation is adopted in the same legislative session or any extension and becomes a law.

IV. Constitutional Issues:**A. Municipality/County Mandates Restrictions:**

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

Article VII, s. 19 of the Florida Constitution requires new or increased taxes or fees¹ to be passed by a 2/3 vote of the membership of each house of the Legislature in a separate bill that contains no other subject.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:**A. Tax/Fee Issues:**

The bill requires the board to establish a fee for licensure as a professional structural engineer, as authorized in s. 471.011, F.S.

Beginning March 1, 2023, persons who are licensed engineers in Florida and those who perform work that comes within the definition in the bill for “professional structural engineering” will be required to obtain additional licensing to perform such work and pay the fee for such licensing established by the board.

C. Government Sector Impact:

Unlike most Department of Business and Professional Regulation (DBPR) professions, the administrative, investigative, and prosecutorial services for the board are not provided by the DBPR. The DBPR contracts with the Florida Engineers Management Corporation (FEMC), a nonprofit corporation, to provide such services.²

¹ A “fee” is defined by the Florida Constitution to mean “any charge or payment required by law, including any fee for service, fee or cost for licenses, and charge for service. *See* FLA. CONST. art. VII, s. 19(d)(1).

² The FEMC is a public-private nonprofit association that has contracted with the DBPR to handle administrative, investigative, and prosecutorial services for the Board of Professional Engineers *See* s. 471.038, F.S., the Florida Engineers Management Corporation Act, for the duties and authority of the FEMC.

The creation of an additional licensing and regulatory structure for professional structural engineers may result in a fiscal impact to the DBPR or the FEMC. To date, no analysis by the DBPR or the FEMC of the impact of the bill on their respective operations, revenue, and expenditures has been provided.

VI. Technical Deficiencies:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1560 updates the duties of the Florida Office of Broadband (Office) within the Department of Economic Opportunity (Department) to align its goals and duties with several federal broadband programs, and to encourage efficient identification and use of available federal resources. Specifically, the bill:

- Provides a definition for an “unserved” area to conform to definitions adopted by federal agencies and updates the definition of an “underserved” area;
- Expands the Office’s local technology planning teams’ duties to focus on rural, unserved, and underserved areas;
- Requires the Office to undertake mapping programs that identify Florida’s geographic availability of broadband, and assets that may be used for the further buildout of broadband infrastructure;
- Establishes the Broadband Opportunity Program to award grants for the expansion of broadband Internet service in unserved and underserved areas of Florida;
- Creates a Broadband Deployment Task Force within the Department to support and provide recommendations to the Office for the deployment of broadband Internet throughout Florida; and
- Assigns the Office a role in educating the public and assisting with the deployment of the Federal Emergency Broadband Benefit Program.

II. Present Situation:

Broadband Internet Deployment

Fixed and mobile broadband Internet services provide access to numerous employment, education, entertainment, and health care opportunities.¹ Access to a sufficient internet connection has only grown more important during the COVID-19 pandemic, which requires many Americans to connect to their family and friends, schooling, work, and even medical appointments over the internet.²

While Florida's urban areas are served at a fixed broadband coverage rate of 98 percent, its rural areas are served at a rate of 78.6 percent.³ This disparity is caused primarily by high per-unit construction costs required to build broadband infrastructure across larger swaths of rural geographic areas.⁴ Communities that lack broadband access can have difficulty attracting new capital investment.⁵ Additionally, data indicates that low-income households disproportionately lack access to broadband Internet service, which puts children in those households at risk of falling behind.⁶

Broadband internet is a high speed internet that is faster than dial-up access and is always on; in 2015, the Federal Communications Commission (FCC) defined broadband as 25/3 megabits per second (Mbps), i.e., 25 Mbps (download rate) and 3 Mbps (upload rate).⁷ Consumers can receive Broadband internet through several different technologies, including a digital subscriber line (DSL), a cable modem, fiber, wireless, satellite, and broadband over power lines.⁸

Federal Broadband Initiatives

FCC Digital Opportunity Data Collection Program

The FCC collects and monitors data on broadband deployment in order to identify underserved and unserved localities in the United States.⁹ In August 2019, the FCC adopted the Digital Opportunity Data Collection Program, which modernized the collection of broadband deployment data by creating granular coverage maps, as opposed to census tract maps, and by implementing a process to accept public data to confirm the maps' accuracy.¹⁰ In March 2020, Congress ratified the FCC's Data Collection Program with passage of the Broadband Data Act, which requires the FCC to establish a semiannual collection of geographically granular broadband coverage data to use to create coverage maps.¹¹ Congress has allocated \$65 million to the FCC to achieve this mapping project.¹²

To create these geographic service maps, the FCC collects information from service providers according to specific reporting standards. The service providers must report their service coverage areas, including where their services were available to residences or businesses, and the speed and latency at which their services are delivered.¹³ The FCC also considers public testimony regarding service availability.

FCC's Rural Digital Opportunity Fund

In January 2020, the FCC established the Rural Digital Opportunity Fund (Fund) to fund the deployment of broadband networks in rural America over the next decade. The first phase of the Fund began in 2020 and made available up to \$16 billion to target census blocks that are wholly unserved by fixed broadband speeds of at least 25 megabits per second (Mbps) downstream and 3 Mbps upstream (25/3 Mbps).¹⁴ Florida entities received over \$190 million (to be distributed over the next 10 years) in this first round of funding.¹⁵

Phase II of the Fund will target underserved localities, as identified by the FCC's Digital Opportunity Data Collection Program.¹⁶ Using this more precise data, the second phase of FCC

grants will make available at least \$4.4 billion to target geographic areas where some locations lack access to 25/3 Mbps broadband.¹⁷

FCC's Emergency Broadband Benefit Program

Congress appropriated \$3.2 billion to expand broadband access via subsidies for broadband service to students, families, and unemployed workers.¹⁸ Eligible households can receive a discount of up to \$50 per month off their broadband service bill. A household is eligible to receive subsidies under the bill if any member of the household:¹⁹ qualifies for the Lifeline program, receives benefits under the free or reduce-price school lunch program, received a Federal Pell Grant, experienced a substantial loss of income in the last year and has a total household income in 2020 below \$99,000 for single filers and \$198,000 for joint filers, or meets criteria to participate in service providers' existing low-income or COVID-19 program.²⁰

U.S. Department of Agriculture ReConnect Program

The U.S. Department of Agriculture (USDA), through its ReConnect Program, offers federal loans, grants, and loan/grant combinations to facilitate broadband deployment to rural areas without access to sufficient broadband service.²¹ Eligible entities include cooperatives and non-profits, for-profit companies, and state and local governments and their agencies and political subdivisions. Applicants for a grant or a loan/grant combination under the ReConnect Program must submit a scoring sheet by which USDA may analyze nine separate evaluation criteria to score the application. One of the evaluation criteria is whether the proposed project is in a state with a broadband plan that has been updated within the previous 5 years.²²

Miscellaneous Federal Broadband Initiatives

Federal assets to assist with the expansion and promotion of broadband comes from a variety of other sources, for example:²³

- The FCC's E-Rate Universal Service Fund subsidizes telephone service (including broadband Internet access) to low-income households, high-cost areas, rural healthcare providers, and eligible schools and libraries,²⁴

- The National Telecommunications and Information Administration within the U.S. Department of Commerce is working to improve coordination between Federal programs that fund broadband and statewide efforts.²⁸

Additionally, the latest COVID-19 relief bill passed by Congress²⁹ included the following funding to expand broadband Internet access for students, families, and unemployed workers:³⁰

- \$300 million for rural broadband;
- \$250 million for the FCC’s telehealth program;
- \$285 million to fund a pilot program to assist with broadband issues at historically Black colleges and universities;
- \$1.9 billion for “rip and replace” efforts related to Huawei and ZTE equipment in U.S. networks; and
- \$1 billion in grants for tribal broadband programs.

Florida Broadband Program

In 2020 the Legislature created the Florida Office of Broadband (Office) within the Department of Economic Opportunity (Department).³¹ The Office is tasked with developing, marketing, and promoting broadband Internet service in the state.

Specifically, the Office must:

- Create a strategic plan for increasing the use of broadband Internet service in the state which must include a process to review and verify public input regarding transmission speeds and availability of broadband Internet service throughout the state;
- Build local technology planning teams representing, among others, libraries, schools, colleges and universities, local health care providers, private businesses, community organizations, economic development organizations, local governments, tourism, parks and recreation, and agriculture;

³¹ Ch. 2020-26, Laws of Fla.

- Encourage the use of broadband Internet service, especially in rural, unserved, and underserved³² areas of the state through grant programs; and
- Monitor, participate in, and provide input in proceedings of the FCC and other federal agencies related to the geographic availability and deployment of broadband Internet service as necessary to ensure that Florida's rural, unserved, and underserved areas are best positioned to benefit from federal and state broadband deployment programs.³³

The DEO may apply for and accept federal grant funds, enter into necessary or useful contracts, and establish any committee or workgroup to further the above goals.³⁴

Florida's Multi-use Corridors of Regional Economic Significance (M-CORES)

Section 339.0801(2)(b), F.S., provides that up to \$5 million of the funds transferred to Florida's Turnpike Enterprise³⁵ for the M-CORES program may be used for projects that assist in the development of broadband infrastructure within or adjacent to a multiuse corridor. The Department of Transportation must give specific priority to broadband infrastructure projects located in a rural area of opportunity³⁶ that is adjacent to a multiuse corridor.³⁷

III. Effect of Proposed Changes:

Office of Broadband Mapping Requirements

The bill expands the Office's duties to require it to develop a map of Florida's broadband Internet service availability by June 30, 2022, and to update it annually thereafter. This map must specifically identify:

- Where broadband-capable networks currently exist and where broadband Internet service is available to Florida's consumers.
- The download and upload rates at which service providers make broadband Internet service available to Florida's businesses and individuals.
- Gaps in Florida's broadband Internet service coverage—especially any areas that are underserved or unserved within rural areas of opportunity.
- Any other mapping information that another Florida agency has already compiled.
- Locations where broadband Internet service is not available, or is provided at speeds below 25/3 Mbps, as identified by public input.

The bill permits the Office to collaborate with Enterprise Florida, Inc., state agencies, local governments, private businesses, and community organizations to create a process to collect and

³² Section 364.0135(2)(d), F.S., defines the term "underserved" to mean a geographic area of this state in which there is no provider of broadband Internet service that offers a connection to the Internet with a capacity for transmission at a consistent speed of at least 10 Mbps downstream and at least 1 Mbps upstream

³³ Section 364.0135(4), F.S.

³⁴ Section 364.0135(5), F.S.

³⁵ The Florida Turnpike Enterprise is part of the Department of Transportation.

³⁶ Section 288.0656, F.S., defines a rural area of opportunity (RAO) as a rural community, or region composed of rural communities, designated by the Governor, that has been adversely affected by an extraordinary economic event, severe or chronic distress, or natural disaster that presents a unique economic development opportunity of regional impact. RAO's are eligible for assistance and other support through the Rural Economic Development Initiative, administered by DEO.

³⁷ Section 339.0801(2)(b), F.S.

verify public data regarding the availability of broadband Internet service. This may be repetitive of the current requirement in 364.0135(4)(a), F.S., that the Office include a process to review and verify public input regarding transmission speeds and availability of broadband Internet service in its strategic plan.

The Office must also verify any mapping data it receives from another governmental entity or a contractor by comparing it to the source of the data and by evaluating the third-party's collection methodology, study organization, and self-verification processes. This verification requirement also applies to the broadband availability data that a contractor who operates pursuant to a valid contract with the Office or a governmental entity collects. The contractor must also describe any third party it uses to provide the data.

The bill also requires the Office to create another map by June 30, 2022, that details Florida's broadband infrastructure assets. This map must include the location of any state and federal physical or funding assets that can be used for expanding broadband infrastructure by, e.g., burying or stringing fiber optic cable. Such assets include municipally or city-owned towers, public transportation corridors, capital projects, community-owned land and infrastructure (such as utility poles), and federal E-rate funding commitments.

Florida Broadband Opportunity Program

The bill creates the Broadband Opportunity Program (Grant Program), which will award grants of up to \$5 million per project to applicants who seek to expand access to broadband Internet service in unserved and underserved areas of the state. The Office will administer the Grant Program, and its administration is subject to appropriation. Entities may apply for grants to fund the installation or deployment of infrastructure that supports broadband Internet service in underserved or unserved areas.

Applicants must submit a grant application to the Office, which must include:

- A description of the project area;
- A description of the kind and amount of broadband Internet service infrastructure that is proposed;
- Evidence demonstrating the unserved or underserved nature of the project area and the number of households and businesses that would have new access to broadband Internet service, or that would have upgraded broadband Internet service as a result of the grant;
- A list of significant community institutions that would benefit from the grant;
- The total cost of the project and the timeframe in which it would be completed;
- Sources of funding or in-kind contributions that would supplement any awarded grant; and
- Any other information required by the Office.

The Office must publish the criteria and quantitative scoring system it will use to evaluate applications and award grants each fiscal year. The criteria and quantitative scoring system must include the criteria listed in the bill, as discussed below.

After it receives Grant Program applications, the Office must publish the proposed areas to be served and the proposed broadband Internet speed at which the area will be serviced. A broadband Internet service provider that provides existing service in, or adjacent to a proposed

project area may challenge the Grant Program applicant's plan. The challenge must demonstrate that:

- The provider currently has deployed broadband Internet service to retail customers within the proposed project area;
- The provider has begun construction to provide broadband Internet service to retail customers within the proposed project area; or
- The provider commits to providing broadband Internet service to retail customers within the proposed project area within the timeframe proposed by the applicant.

If the Office determines that the challenge is valid, the Office may not fund the challenged project. If a challenger fails to fulfill its commitment to provide broadband Internet service in accordance with its challenge, it is excluded from submitting another challenge for the next two grant cycles, unless the Office determines the failure to fulfill the commitment was due to circumstances beyond provider's control.

The Office must prioritize applications that:

- Offer broadband Internet service to community institutions including libraries, educational institutions, public safety facilities, and healthcare facilities;
- Facilitate the use of telemedicine and electronic health records;
- Serve economically distressed areas of the state;
- Provide for scalability to transmission speeds of at least 100/10 Mbps;
- Actively promote the adoption of the newly available broadband Internet services in the community;
- Provide evidence of strong support for the project from citizens, government, businesses, and institutions in the community;
- Provide access to broadband Internet service to the greatest number of unserved households and businesses;
- Leverage greater amounts of funding for the project from other private and public sources; or
- Demonstrate consistency with the Office's strategic plan.³⁸

The Office must attempt to award grants to qualified applicants in all regions of the state. The Office cannot award grants:

- To provide broadband Internet service to an area that already has broadband Internet service from at least one provider.
- To provide service in a project area that has received any other federal funding.
- To a governmental entity, rural electric cooperative or its broadband affiliate, or an educational institution or affiliate, for the purpose of providing broadband Internet service to any residential or commercial premises, unless other broadband Internet service providers have not deployed broadband Internet service to an unserved or underserved area.
- For the purpose of serving any retail end user that already has access to broadband Internet service.
- To any entity if, when combined with any other state or local funds, the grant will constitute more than 50 percent of the project's funding.

³⁸ The Office has yet to issue its strategic plan.

The Office must enter into an agreement with the applicant that is awarded a grant under the Grant Program. The agreement must specify the total amount of the grant, performance conditions, payment schedule, and sanctions for failure to meet performance conditions, including, but not limited to, requiring the return of grant funds.

By January 1, 2023, and each year thereafter, the Office must publish on its website and provide to the Governor, the President of the Senate, and the Speaker of the House of Representatives:

- A list of all grant applications it received during the previous year and for each application:
 - The results of any quantitative weighting or scoring system the Office used to award grants or rank the applications.
 - The grant amount requested.
 - The grant amount awarded, if any.
 - A report on the progress of each grant recipient in acquiring and installing infrastructure that supports the provision of broadband Internet service in the project areas for which the grant was awarded and in securing adoption of such service in each project area.
- All written challenges during the previous year.

Florida Broadband Deployment Task Force

The bill creates a Broadband Deployment Task Force (Task Force) to support and provide recommendations to the Office for the deployment of broadband Internet service throughout Florida, including addressing the rural infrastructure issue and urban adoption strategies.

The bill establishes the Task Force's membership as follows:

- One member each from the Department of Agriculture and Consumer Services, the Department of Management Services, the Department of Transportation, the Department of Education, the Department of Health, and the Office of Technology and Information Services, all of whom will be appointed by his or her respective agency head;
- One member from the Florida Association of Counties, who will be appointed by the Department's executive director;
- One member of the Florida League of Cities, who will be appointed by the Department's executive director;
- Two members of the public—one who lives in an underserved area and one who lives in an unserved area of Florida—who will be appointed by the Governor; and
- A member from each of the following types of broadband industry providers, who will all be appointed by the Governor: a wireless provider, a wireline provider, a broadband satellite provider, a cable provider, a rural local exchange carrier, and a competitive local exchange carrier.

The bill outlines the following specific duties for the Task Force:

- Identify federal funding sources to assist with the expansion or improvement of broadband Internet in Florida;
- Identify geographic gaps in Florida's broadband Internet service coverage;

- Develop strategies to expand broadband Internet service to rural areas of opportunity³⁹— including establishing partnerships with local governments, other state and federal entities, electric utilities, businesses, and the public;
- Address the affordability of broadband Internet service in Florida;
- Identify funding sources to further deploy broadband Internet service throughout Florida, especially grants provided through the rural infrastructure fund;⁴⁰
- Coordinate with the Cabinet, state agencies, and other governmental entities that have oversight in broadband Internet activities or that control potential funding opportunities; and
- Recommend outreach strategies and partnerships to best use the federal Emergency Broadband Benefit Program.

The Task Force is required to submit a report that details its findings and recommendations to the Governor, President of the Florida Senate, and Speaker of the Florida House of Representatives by December 30, 2022, and each year thereafter.

Office of Broadband’s Role in the Emergency Broadband Benefit Program

The bill requires the Office to establish a process to identify households that may be eligible to receive a subsidy under the Emergency Broadband Benefit Program. The Office is also required to provide separate notice to identified households that they may be eligible to receive assistance under the Program along with information on other state or federal resources that may provide assistance with debt relief.

The bill adopts the federal Emergency Broadband Benefit Program recipient eligibility language.

Local Technology Planning Teams

Current law requires the Office to create local technology planning teams, the membership of which consists of representatives of education, health care, private business, agriculture, economic development organizations, local government, and tourism. Current law does not provide a specific purpose or goal for these teams. The bill adds language that targets the teams’ work to unserved and underserved communities—especially fiscally constrained counties. The bill outlines the following duties for the teams:

- Work with rural communities to help them understand their current availability;
- Locate unserved and underserved businesses or residents;
- Identify assets that may be used to further deploy broadband;
- Build partnerships with broadband service providers, and
- Identify opportunities to increase the use and deployment of broadband in the community.

³⁹ The currently designated rural areas of opportunity (RAOs) are the Northwest RAO, the South Central RAO, and the North Central RAO. See Department of Economic Opportunity, *Rural Areas of Opportunity*, <http://www.floridajobs.org/community-planning-and-development/rural-community-programs/rural-areas-of-opportunity> (last visited Mar. 15, 2021).

⁴⁰ The Rural Infrastructure Fund (RIF) is administered by the DEO with the purpose of facilitating the planning and financing of rural infrastructure projects in Florida. A main goal of the RIF is to connect rural communities with infrastructure funding programs. See, Department of Economic Opportunity, *Rural Infrastructure Fund*, <https://floridajobs.org/community-planning-and-development/rural-community-programs/rural-infrastructure-fund> (last visited Mar. 15, 2021).

Miscellaneous

Legislative Findings

The bill updates the legislative findings to state that Florida’s sustainable adoption of broadband Internet service is essential to all its residents, rather than beneficial to specific entities.

Definitions

The bill adds a definition of the term “unserved” to mean a geographic area of Florida in which there is no provider of broadband Internet service that offers a connection to the Internet with a capacity for transmission at a speed of 25/3 Mbps—the speed used by the FCC to define sufficient broadband Internet.

The bill also amends the definition of “underserved” to mean a geographic area of Florida in which there is no internet service provider that offers a connection to the Internet with a capacity for transmission at a speed of 100/10 Mbps. This is higher than any current definition of broadband.

Public Records

The bill adds language that clarifies that any information that is confidential or exempt from public disclosure under ch. 119, F.S., when held by the Department is also confidential or exempt from ch. 119, F.S., when given to the Department by a broadband service provider pursuant to s. 364.0135, F.S.

The Florida Constitution provides that the public has the right to inspect or copy records made or received in connection with official governmental business.⁴¹ The right to inspect or copy applies to the official business of any public body, officer, or employee of the state, including all three branches of state government, local governmental entities, and any person acting on behalf of the government.⁴²

Chapter 119, F.S., known as the Public Records Act, provides that all state, county, and municipal records are open for personal inspection and copying by any person, and that Florida agencies must provide access to its public records.⁴³ The Legislature may exempt specific types of public records from public access requirements,⁴⁴ the exemption must state with specificity the public necessity that justifies the exemption and must be no broader than necessary to accomplish the stated purpose of the exemption.⁴⁵ For example, section 288.075(3) and (4), F.S.,

⁴¹ Art. I, s. 24(a), Fla. Const.

⁴² *Id.*

⁴³ Section 119.01(1), F.S. Section 119.011(2), F.S., defines “agency” as “any state, county, district, authority, or municipal officer, department, division, board, bureau, commission, or other separate unit of government created or established by law including, for the purposes of this chapter, the Commission on Ethics, the Public Service Commission, and the Office of Public Counsel, and any other public or private agency, person, partnership, corporation, or business entity acting on behalf of any public agency.”

⁴⁴ Art. I, s. 24(c), Fla. Const.

⁴⁵ *Id. See, e.g., Halifax Hosp. Medical Center v. News-Journal Corp.*, 724 So. 2d 567 (Fla. 1999) (holding that a public meetings exemption was unconstitutional because the statement of public necessity did not define important terms and did not justify the breadth of the exemption); *Baker County Press, Inc. v. Baker County Medical Services, Inc.*, 870 So. 2d 189

make trade secrets held by an economic development agency and proprietary confidential business information held by an economic development agency, respectively, confidential and exempt from s. 119.071(1), F.S.

Effective Date

The bill takes effect on July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill may ultimately help to provide more affordable broadband Internet service to Florida's communities by increasing related infrastructure and identifying funding sources to subsidize other related costs.

C. Government Sector Impact:

This bill will require the Office to undertake geographical mapping, gather public input, and perform outreach and informational campaigns. This will likely require additional funding.

(Fla. 1st DCA 2004) (holding that a statutory provision written to bring another party within an existing public records exemption is unconstitutional without a public necessity statement).

Additionally, the bill creates the Broadband Opportunity Program, which is designed to administer grants to support the growth of broadband Internet infrastructure in Florida. The Office will likely require funds to staff this program. The general program is subject to appropriation, but has not yet been allocated any amount.

VI. Technical Deficiencies:

The definition of the Task Force states that it operates within the Office; the creation of the Task Force in s. 364.0135(5), F.S., states that it is established within the Department to support and provide recommendations to the Office. This inconsistency may lead to confusion while creating the Task Force.

The bill refers to a “board” that shall adjust its geographic information system maps to reflect information received from the public. This should refer to the “Office.”

VII. Related Issues:

The bill creates a Broadband Deployment Task Force that must perform specific duties and submit an annual report. Section 20.03, F.S., defines a “task force” as an advisory body that is created by a specific statutory enactment for a time not to exceed 3 years and that will cease to exist after it completes its assignment. The bill does not create a term of existence for the task force and further requires it to create and submit an annual report each year after its initial report is due in 2022. This may conflict with the duration of task forces described in s. 20.03, F.S.

The bill requires the Office to establish a mechanism to receive and verify public input as part of its mapping process. This may be repetitive of the current requirement in 364.0135(4)(a), F.S., that the Office include a process to review and verify public input regarding transmission speeds and availability of broadband Internet service in its strategic plan.

The confidentiality and public record exemption language in s. 364.0135(6), F.S., of the bill appears to reiterate current confidentiality and public record exemption language that already exist elsewhere in law. Therefore, this language appears to be duplicative and unnecessary.

The Department may lack expertise to be able to direct consumers to state or federal resources that may provide assistance with debt relief as required by the bill.

VIII. Statutes Affected:

This bill substantially amends sections 364.0135 and 364.0136 of the Florida Statutes.

IX. Additional Information:

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Commerce and Tourism on March 15, 2021:

80 (7) ~~(5)~~ ADMINISTRATION.—The department may:

81 (a) Apply for and accept federal funds for purposes of this
82 section.

83 (b) Enter into contracts necessary or useful to carry out
84 the purposes of this section.

85 (c) Establish any committee or workgroup to administer and
86 carry out the purposes of this section.

87 Section 2. Section 364.0136, Florida Statutes, is created
88 to read:

89 364.0136 Broadband Opportunity Program.—

90 (1) The Broadband Opportunity Program is established within
91 the Florida Office of Broadband within the Department of
92 Economic Opportunity to award grants to applicants who seek to
93 expand broadband Internet service to unserved and underserved
94 areas of this state. The office must administer and act as
95 fiscal agent for the program and is responsible for receiving
96 and reviewing applications and awarding grants. Funding for the
97 program shall be as provided in s. 338.2278(7)(b).

186496

98 (2) Grants awarded under this section shall fund the
99 installation or deployment of infrastructure that supports the
100 provision of broadband Internet service. State funds may not be
101 used to install or deploy broadband Internet service to a
102 geographic area in which broadband Internet service is already
103 deployed by at least one provider.

104 (3) Applicants eligible for grant awards include:

105 (a) Corporations, nonprofit corporations, limited liability
106 companies, general partnerships, and limited partnerships that
107 are organized under the laws of this state or otherwise
108 authorized to transact business in this state.

109 (b) Political subdivisions.

110 (c) Rural electric cooperatives organized under chapter 425
111 and their broadband affiliates.

112 (d) Indian tribes.

113 (4) The office may not award, directly or indirectly,
114 grants under this section to a governmental entity, a rural
115 electric cooperative or its broadband affiliate, or an
116 educational institution or affiliate to provide broadband
117 Internet service to any residential or commercial premises,
118 unless other broadband Internet service providers have not
119 deployed service to an unserved or underserved area.

120 (5) An eligible applicant shall submit a grant application
121 to the office on a form prescribed by the office. A grant
122 application must include all of the following information:

123 (a) A description of the project area.

124 (b) A description of the kind and amount of broadband
125 Internet service infrastructure which is proposed.

126 (c) Evidence demonstrating the unserved or underserved

127 nature of the project area.
128 (d) The number of households and businesses which would
129 have access to broadband Internet service as a result of the
130 grant.
131 (e) A list of significant community institutions that would
132 benefit from the grant.
133 (f) The total cost of the project and the timeframe in
134 which it would be completed.
135 (g) A list identifying sources of funding or in-kind
136 contributions that would supplement any awarded grant.
137 (h) Any other information required by the office.
138 (6) (a) At least 30 days before the first day grant
139 applications may be submitted each fiscal year, the office shall
140 publish on its website the specific criteria and quantitative
141 scoring system it will use to evaluate or rank grant
142 applications. Such criteria and quantitative scoring system must
143 include the criteria set forth in subsection (7).
144 (b) Within 3 business days after the close of the grant
145 application process, the office shall publish on its website,
146 from each grant application submitted, the proposed unserved or
147 underserved areas to be served and the proposed broadband
148 Internet speeds of the areas to be served.
149 (c) A broadband Internet service provider that provides
150 existing service in or adjacent to a proposed project area may
151 submit to the office, within 45 days after publication of the
152 information under paragraph (b), a written challenge to an
153 application. The challenge must contain information
154 demonstrating that:
155 1. The provider currently has deployed broadband Internet

186496

156 service to retail customers within the project area;
157 2. The provider has begun construction to provide broadband
158 Internet service to retail customers within the proposed project
159 area within the timeframe proposed by the applicant; or
160 3. The provider commits to providing broadband Internet
161 service to retail customers within the proposed project area
162 within the timeframe proposed by the applicant.
163 (d) Within 3 business days after the submission of a
164 written challenge, the office shall notify the applicant, in
165 writing, of the challenge.
166 (e) The office shall evaluate each challenge submitted
167 under this subsection. If the office determines that the
168 provider currently has deployed, has begun construction to
169 provide, or commits to provide broadband Internet service in the
170 proposed project area, the office may not fund the challenged
171 project.
172 (f) If the office denies funding to an applicant as a
173 result of a broadband Internet service provider's challenge, and
174 the provider does not fulfill its commitment to provide
175 broadband Internet service in the unserved or underserved area,
176 the office may not consider another challenge from the provider
177 for the next two grant application cycles, unless the office
178 determines that the failure to fulfill the commitment was due to
179 circumstances beyond the provider's control.
180 (7) (a) In evaluating grant applications and awarding
181 grants, the office must give priority to applications that:
182 1. Offer broadband Internet service to important community
183 institutions, including, but not limited to, libraries,
184 educational institutions, public safety facilities, and health

186496

185 care facilities;

186 2. Facilitate the use of telemedicine and electronic health
187 records;

188 3. Serve economically distressed areas of this state, as
189 measured by indices of unemployment, poverty, or population loss
190 which are significantly greater than the statewide average;

191 4. Provide for scalability to transmission speeds of at
192 least 100 megabits per second download and 10 megabits per
193 second upload;

194 5. Include a component to actively promote the adoption of
195 the newly available broadband Internet service in the community;

196 6. Provide evidence of strong support for the project from
197 residents, government, businesses, and institutions in the
198 community;

199 7. Provide access to broadband Internet service to the
200 greatest number of unserved and underserved households and
201 businesses;

202 8. Leverage greater amounts of funding for a project from
203 private sources; or

204 9. Demonstrate consistency with the strategic plan adopted

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

SB 302 establishes a one-day sales tax holiday on Saturday, November 27, 2021, that coincides with Small Business Saturday. During the holiday, small businesses may opt out of collecting state sales tax and local discretionary sales surtaxes on the sale of items of tangible personal property having a sales price of \$1,000 or less per item.

A small business that chooses not to participate in the sales tax holiday must notify the Department of Revenue of its decision by November 16, 2021, and post a copy of that notice at its place of business.

The bill takes effect July 1, 2021.

II. Present Situation:

Florida Sales Tax

Florida levies a 6 percent sales and use tax on the sale or rental of most tangible personal property,¹ admissions,² transient rentals,³ and a limited number of services. Chapter 212, F.S., contains provisions authorizing the levy and collection of Florida's sales and use tax, as well as

¹ Section 212.05(1)(a)1.a, F.S.

² Section 212.04(b), F.S.

³ Section 212.03(1)(a), F.S.

the exemptions and credits applicable to certain items or uses under specified circumstances. Sales tax is added to the price of the taxable good or service and collected from the purchaser at the time of sale.⁴ Sales tax receipts accounted for approximately 79 percent of the state's General Revenue in Fiscal Year 2019-2020.⁵

Section 212.055, F.S., authorizes counties to impose local discretionary sales surtaxes in addition to the state sales tax. A surtax applies to "all transactions occurring in the county which transactions are subject to the state tax imposed on sales, use, services, rentals, admissions, and other transactions by [ch. 212, F.S.], and communications services as defined in ch. 202."⁶ The discretionary sales surtax is based on the tax rate imposed by the county where the taxable goods or services are sold or delivered. Discretionary sales surtax rates currently levied vary by county in a range of 0.5 to 2.5 percent.⁷

Small Business Saturday

Small Business Saturday was created in 2010 by American Express as a rewards program that encouraged their cardholders to shop at small businesses on the Saturday after Black Friday.⁸ The U.S. Senate passed a resolution recognizing Small Business Saturday in 2011,⁹ and the U.S. Small Business Administration began co-sponsoring the shopping event in 2015.¹⁰ Although American Express has ended its cardholder rewards program, sales on Small Business Saturday have increased. According to the Small Business Administration, 110 million consumers spent almost \$20 billion at small businesses on Small Business Saturday in 2019, compared to the almost \$18 billion spent by 104 million consumers in 2018.¹¹

III. Effect of Proposed Changes:

SB 302 establishes a one-day sales tax holiday on Saturday, November 27, 2021, that coincides with Small Business Saturday. During the holiday, small businesses may opt out of collecting state sales tax and local discretionary sales surtaxes on the sale of items of tangible personal property having a sales prices of \$1,000 or less per item. The bill defines a "small business" as one that:

- Has registered with the Department of Revenue (DOR);
- Began operating no later than January 8, 2021; and

- Has owed and remitted less than \$200,000 in total sales and use tax to the DOR during either the one-year period ending on September 30, 2021, or the period beginning on the date the business began operating and ending on September 30, 2021, if the business has not been in operation for a full year as of September 30, 2021.

A small business eligible to file a consolidated tax return may only qualify for the sales tax holiday if the total sales and use tax owed and remitted from all of the business's locations is less than \$200,000.

If a business chooses not to participate in the sales tax holiday, the business must notify the DOR of its decision by November 16, 2021. The business must post a copy of the notice in a conspicuous place.

The DOR may adopt emergency rules pursuant to ss. 120.536(1) and 120.54, F.S., for the purpose of implementing the bill.

The bill takes effect July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18 of the Florida Constitution governs laws that require counties and municipalities to spend funds, limit the ability of counties and municipalities to raise revenue, or reduce the percentage of state tax shared with counties and municipalities.

Subsection (b) of s. 18, Art. VII of the Florida Constitution provides that except upon approval of each house of the Legislature by two-thirds vote of the membership, the legislature may not enact, amend, or repeal any general law if the anticipated effect of doing so would be to reduce the authority that municipalities or counties have to raise revenue in the aggregate, as such authority existed on February 1, 1989. However, the mandates requirements do not apply to laws having an insignificant impact,^{12, 13} which is \$2.2 million or less for Fiscal Year 2021-2022.¹⁴

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

¹² FLA. CONST. art. VII, s. 18(d).

¹³ An insignificant fiscal impact is the amount not greater than the average statewide population for the applicable fiscal year multiplied by \$0.10. *See* Florida Senate Committee on Community Affairs, *Interim Report 2012-115: Insignificant Impact*, (September 2011), available at <http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf> (last visited Mar. 16, 2021).

¹⁴ Based on the Demographic Estimating Conference's population adopted on November 13, 2020. The conference packet is available at <http://edr.state.fl.us/Content/conferences/population/ConferenceResults.pdf> (last visited Mar. 16, 2021).

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference has not yet met regarding the bill.

B. Private Sector Impact:

Persons purchasing items from stores participating in the sales tax holiday will realize savings.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

The bill defines “small business” as a dealer who owed and remitted to the DOR less than \$200,000 in total sales and use tax during a specified period. Information contained in reports received by the DOR, such as taxes remitted, is considered confidential and exempt from public records under s. 213.053, F.S. Thus, the DOR has indicated it will not be able to publish a Tax Information Publication (TIP) identifying businesses participating in the sales tax holiday.

VIII. Statutes Affected:

The bill creates an undesignated section of chapter law.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Commerce and Tourism on March 15, 2021:

The committee substitute:

- Provides that a business that chooses not to participate in the sales tax holiday must notify the DOR of its decision by November 16, 2021, and post a copy of that notice at its place of business; and

- Deletes language that appropriates \$200,000 to the DOR to implement the sales tax holiday.

I. Summary:

SB 616 permits a nonresident Florida-licensed certified public accountant (CPA) to renew his or her license if the CPA has complied with the continuing education requirements in the state in which his or her office is located. However, a nonresident CPA must satisfy Florida's ethics-related continuing education requirements. If the state in which the nonresident CPA's office is located does not have continuing education requirements as a condition for license renewal, the nonresident CPA must comply with the continuing education requirements in Florida.

The bill permits a CPA to place his or her license in a retired status. If a licensee on retired status reenters the workforce in a position that has an association with accounting or any of the CPA services, the licensee automatically loses his or her retired status. A retired CPA may continue to be engaged in specific activities but may not offer professional services that require the use of the CPA title. A retired CPA may reactivate her or his license in a conditional manner determined by the Florida Board of Accountancy, which must require the payment of fees and the completion of any required continuing education.

The bill takes effect July 1, 2021.

II. Present Situation:

Certified Public Accountants

The Florida Board of Accountancy (board) within the Department of Business and Professional Regulation (DBPR) is responsible for regulating and licensing the more than 38,000 active and 2,800 inactive CPAs and more than 5,500 accounting firms in Florida.¹ The Division of Certified

Public Accounting provides administrative support to the nine-member board, which consists of seven CPAs and two laypersons.²

A CPA is an individual who holds a license to practice public accounting in this state under ch. 473, F.S., or an individual who is practicing public accounting in this state pursuant to the practice privilege granted in s. 473.3141, F.S.³

The practice of public accounting includes offering to the public the performance of services involving audits, reviews, compilations, tax preparation, management advisory or consulting services, or preparation of financial statements.⁴ To engage in the practice of public accounting,⁵ an individual or firm must be licensed pursuant to ss. 473.308 or 473.3101, F.S., and business entities must meet the requirements of s. 473.309, F.S.

CPA Licensing

Section 473.308, F.S., provides licensing requirements for CPAs. To be licensed as a certified public accountant, a person must be of good moral character, pass the licensure exam, and have at least 150 semester hours of education with a focus on accounting and business.⁶ CPA licenses must be renewed on a biennial basis through procedures adopted by the DBPR.⁷

License by Endorsement

Individuals who are licensed as a CPA in another state or territory, as well as individuals who are not licensed in another state or territory but have met certain requirements, may apply to the board for licensure by endorsement.⁸

If the applicant is not licensed and has never been licensed in another state or territory, the applicant must meet the education, work experience, and good moral character requirements and have passed a national, regional, state, or territorial licensing examination that is substantially equivalent to the examination required by s. 473.306, F.S.⁹

If the applicant is licensed in another state or territory, the applicant must:

- Have satisfied licensing criteria that were substantially equivalent to the licensure criteria in Florida at the time the license was issued;¹⁰
- Have passed a national, regional, state, or territorial licensing examination with examination criteria that were substantially equivalent to the examination criteria required in this state and

² Section 473.303, F.S.

³ See s. 473.302(4), F.S. Section 473.3141, F.S., permits a person who does not have an office in Florida to practice public accountancy in this state without obtaining a license under ch. 473, F.S., notifying or registering with the board, or paying a fee if the person meets the required criteria.

Continuing Education

CPAs, as part of the license renewal procedure, are required to submit proof satisfactory to the board that, during the 2 years prior to the application for renewal, they have successfully completed not less than 48 or more than 80 hours of continuing professional education programs in public accounting subjects approved by the board.¹³ The board has the authority to prescribe by rule additional continuing professional education hours, not to exceed 25 percent of the total hours required, for failure to complete the hours required for renewal by the end of the reestablishment period.¹⁴

Not less than 10 percent of the total continuing education hours required by the board shall be in accounting-related and auditing-related subjects, as distinguished from federal and local taxation matters and management services.¹⁵

Not less than 5 percent of the continuing education shall be in ethics applicable to the practice of public accounting, including a review of the provisions of ch. 455, F.S., relating to the regulations of businesses and professions, ch. 473, F.S., and the related administrative rules. This requirement must be administered by providers approved by the board.¹⁶

Inactive Licenses

Section 473.313(1), F.S., permits Florida-licensed CPAs to request that their license be placed on inactive status. Licenses can also be placed on inactive status for failing to complete, or failure to report completion of, the continuing education requirements.¹⁷ The board is authorized to adopt rules establishing fees for placing a license on inactive status, renewal of inactive status, and reactivation of an inactive license.¹⁸

A CPA may reactivate an inactive license by paying the DPBR a \$250 application fee¹⁹ and providing certification that the CPA has completed the education requirements.²⁰ If a license that was placed on inactive status for failure to report completed continuing education requirements

is inactive on January 1, the applicant must submit a complete application to the board by March 15 immediately after the delinquent period.²¹

Retired Status

Florida law does not currently provide CPAs the option of placing licenses into a retired status as an alternative to inactive status.

The American Institute of Certified Public Accountants (AICPA) estimated that, as of 2015, approximately 75 percent of its members would be eligible to retire by 2020.²² In order to allow retirees to continue to serve their communities without remaining an active CPA in practice, the AICPA's Board of Directors and the National Association of State Boards of Accountancy Board of Directors each approved changes in the Uniform Accountancy Act to provide for the creation of a Retired-CPA status. The changes allow inactive CPAs at least 55 years of age to place the word "retired" after their CPA title, in lieu of "inactive," with appropriate registration with their State Board; offer volunteer tax preparation services; participate in government-sponsored business mentoring programs; and serve on the board of a non-profit organization. All of these activities must be uncompensated, and the applicant must have a license in good standing.²³

III. Effect of Proposed Changes:

Licensure by Endorsement

The bill amends s. 473.308(7)(a), F.S., referring to applicants for licensure by endorsement who are not licensed in another state, to change the term "another" state to "any" state. The bill does not make the same change throughout s. 473.308, F.S., where the term "another" state is used in several instances.

As amended by the bill, s. 473.308(7)(a), F.S., appears to permit persons who have not been licensed as a CPA in *any* state, including Florida, to qualify for license by endorsement instead of persons who have not been licensed in any state *aside* from Florida.

This change in language would prevent a previously-licensed Florida CPA from using the licensure by endorsement process to regain a license. However, a person from Florida who has not been licensed as a CPA in any state or territory must still satisfy the licensing requirements of this state, whether they do so through the regular licensure qualification process or the licensure by endorsement process.

²³ Uniform Accountancy Act of 2018, s. 6(d).

Continuing Education

The bill creates s. 473.311(1)(b), F.S., to permit a nonresident licensee seeking to renew his or her Florida license to comply with the continuing education requirements of the state in which his or her office is located. Under the bill, a nonresident licensee must still complete no less than 5 percent of the total continuing education hours required in ethics applicable to public accounting as administered by providers approved by the board.

The nonresident licensee must comply with all of Florida's continuing education requirements if the state in which the nonresident licensee's office is located does not have continuing education requirements as a condition for license renewal.

The bill also amends s. 473.312(1)(c), F.S., to require that a majority of the continuing education hours in ethics include a review of the provisions of the provisions of ch. 455, F.S., relating to the regulations of businesses and professions, ch. 473, F.S., and the related administrative rules.

Retired Status

Under current law, a CPA licensed in Florida is not permitted to place his or license in a retired status. The bill amends s. 473.313, F.S., to permit a Florida-licensed CPA to submit an application to the DBPR to place his or her license in a retired status if the licensee:

- Is at least 55 years of age;
- Holds a current active or inactive license; and
- Is in good standing and not the subject of any sanction or disciplinary action.

Under the bill, a licensee in retired status that reenters the workforce in a position associated with accounting, or any related services defined in ss. 473.302(8)(a), (c), and (d), F.S., automatically loses his or her retired status. A CPA on retired status may continue to provide services utilizing accounting skills, as well as tax, management advisory, or consulting services, as defined in s. 473.302(8)(b), F.S., but may not provide certain accounting services that involve expressing an opinion on or preparing financial statements, as defined in ss. 473.302(8)(a), (c), and (d), F.S.

Retired licensees are permitted to use the title of "retired CPA" but may not offer or render professional services that require her or his signature and use of the CPA title, regardless of whether the word "retired" is attached to such title.

The bill authorizes a retired licensee to serve without compensation on a board of directors or board of trustees, provide volunteer tax preparation services, participate in a government-sponsored business mentoring program, and participate in an advisory role for a similar charitable, civic, or nonprofit organizations. A retired licensee may accept routine reimbursement for actual costs of travel and meals associated with volunteer services or de minimis per diem amounts paid to the retired licensee to cover such expenses as allowed by law.

Retired licensees are not required to maintain the continuing education requirements set forth in s. 473.312, F.S.

A retired licensee must affirm in writing his or her understanding of the limited types of activities in which he or she may engage while in retired status and that he or she has a professional duty to ensure that he or she holds the professional competencies necessary to participate in such activities.

A retired licensee may reactivate his or her license in a conditional manner determined by the board, which must require the payment of fees and the completion of any required continuing education.

Effective Date

The bill takes effect July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

Section 19(a), Article VII of the State Constitution limits the authority of the legislature to enact legislation that imposes a new state tax or fee by requiring such legislation to be approved by a 2/3 vote in each chamber of the legislature. Section 19(e), Article VII of the Florida Constitution provides that a state tax or fee imposed, authorized, or raised must be contained in a separate bill that contains no other subject.

SB 616 permits a licensed CPA in retired status to reactivate his or her license in a conditional manner determined by the Florida Board of Accountancy. The bill requires that the conditions for the reactivation of a license in retired status must include the payment of fees. The board currently has the authority to impose a fee for the reactivation

of an inactive license. Because the bill requires the board to impose a fee of an unknown amount for the reactivation of a license in retired status, it is unclear if the voting and separate bill requirements found in the State Constitution apply to the bill.

B. Private Sector Impact:

Retired CPAs wishing to reactivate their licenses will be subject to reactivation fees in an amount determined by the board.

C. Government Sector Impact:

The DBPR estimates that the technological modifications required to administer the bill can be made with existing resources.

VI. Technical Deficiencies:

Line 129 of the bill refers to subsection (2) of s. 473.313, F.S., but the bill renumbers section (2) as paragraph (1)(a).

VII. Related Issues:

The bill creates s. 473.311(1)(b), F.S., permitting a nonresident licensee seeking a renewal of his or her Florida license to comply with the continuing education requirements of the state in which his or her office is located. It is unclear if these new provisions are intended to apply to territories as well as states. In comparison, existing provisions governing the renewal of CPA licenses in s. 473.308, F.S., include licensure requirements for persons licensed in other states *or* territories.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 473.308, 473.311, 473.312, and 473.313.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Commerce and Tourism

BILL: SB 1444

INTRODUCER: Senator Wright

SUBJECT: Florida Small Manufacturing Business Recovery Act

DATE: March 12, 2021

REVISED: _____

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Reeve	McKay	CM	Favorable
2.	_____	_____	FT	_____
3.	_____	_____	AP	_____

I. Summary:

SB 1444 creates s. 288.715, F.S., the Florida Small Manufacturing Business Recovery Act. The bill allows investors to earn state premium tax credits equal to their investment in certified relief funds; in turn, the relief funds will invest in certain businesses. The bill caps investment at a level that will result in no more than \$100 million in tax credits under the program.

The Department of Economic Opportunity will administer the program by certifying relief funds, granting tax credits to investors, and, if necessary, revoking a relief fund's tax credit authority.

The Revenue Estimating Conference has not yet determined the fiscal impact of the bill.

The bill takes effect July 1, 2021.

II. Present Situation:

Economic Development Incentives that use Tax Credits

Capital Investment Tax Credit

The Capital Investment Tax Credit was created to attract and grow capital-intensive industries in the state by offering an annual tax credit equal to 5 percent of the capital costs generated by a project. The tax credit offered may only be used against the corporate income tax or premium tax liability generated by a project.¹ Eligible projects are in high impact portions of the clean energy, life sciences, financial services, information technology, semi-conductor, transportation

¹ Section 220.91, F.S.

equipment manufacturing, advanced manufacturing, or corporate headquarters facility industries. In calendar year 2019, the DEO approved over \$67 million in capital investment tax credits.²

Rural Job Tax Credit Program

The Florida Rural Job Tax Credit Program offers a tax credit incentive for eligible businesses that are located within a designated qualified rural area to create new jobs.³ The tax credit ranges from \$1,000 to \$1,500 per qualified employee and can be taken against either the businesses' corporate income tax or sales and use tax liabilities. A business is limited to no more than \$500,000 of tax credits per year.⁴ The DEO administers this program, and may approve up to \$5 million in tax credits per year; in calendar year 2019, the DEO approved \$100,000 in rural job tax credits.⁵

Florida New Markets Development Program⁶

The Florida New Markets Development Program (NMDP), similar to the program created in this bill, uses tax credits to spur economic development. The NMDP allows Florida taxpayers to earn tax credits against corporate income tax and insurance premium tax by investing in qualified community development entities (CDEs) that make investments in qualified low-income community businesses. CDEs are domestic corporations or partnerships that have a primary role in administering the tax credit program and act as intermediaries between the investors, financiers, and low-income community businesses. The NMDP is modeled after the federal New Markets Tax Credit program.⁷ The NMDP is capped at a cumulative investment that would result in no more than \$216.34 million in tax credits, and an annual investment that would result in no more than \$36.6 million in a single fiscal year.⁸ The NMDP has exhausted its credit allocation. It has not issued tax credits since Fiscal Year 2014-2015.⁹

Examples of Acts in Other States

In 2017, Georgia created the Georgia Agribusiness and Rural Jobs Act, which is designed to spur \$100 million in capital investments in rural businesses in the state. Investors may redeem up to \$15 million in tax credits annually for four years (for a total of \$60 million tax credits) against their corporate income tax and premium tax liabilities.¹⁰ While Georgia's tax credit program incentivizes investment rural businesses instead of manufacturing businesses, the program's

structure is similar to that of the proposed bill. Similar legislation directed towards other industries has been proposed in several other states, including Kentucky¹¹ and Washington.¹²

Additionally, the federal New Markets Tax Credit Program is structurally similar to the program created by the bill. The federal program, which offers investors a credit against the federal income tax in exchange for making equity investments in Community Development Entities (CDEs), was extended through 2025 with a \$5 billion annual appropriation under the 2021 Consolidated Appropriations Act.¹³ Several CDEs are actively financing businesses in Florida under the federal program.¹⁴

III. Effect of Proposed Changes:

The bill creates s. 288.715, F.S., the Florida Small Manufacturing Business Recovery Act, to be administered by the Department of Economic Opportunity (DEO). The bill uses tax credits against the state insurance premium tax to incentivize investors to give funds, known as “relief contributions,” to certified relief funds that, in turn, will make capital or equity investments, or loans with a maturity date of at least 2 years, in an impact business. The total relief investment authorities are capped at \$100 million and relief contributions are capped at \$80 million.

An impact business is one that:

- Has fewer than 200 employees;
- Has its principal business operations in Florida. A business has its principal business operations in the state if at least 60 percent of the business’s employees are Florida residents, at least 80 percent of the business’s payroll is paid to Florida residents, or the business has agreed to use the proceeds of a relief investment to relocate at least 60 percent of the business’s employees to Florida or pay at least 80 percent of the business’s payroll to Florida residents; and
- Is engaged in manufacturing under NAICS code 31-33. A business not engaged in manufacturing is considered an impact business under the bill if the DEO has determined that an investment in such a business will benefit the state’s recovery.

Tax Credit Application, Approval, and Allocation

Beginning August 1, 2021, the DEO must accept applications for certification of relief funds and relief contributions. Applications must include:

- The total relief investment authority¹⁵ sought by the applicant, 80 percent of which must consist of relief contributions;

¹⁵ “Relief investment authority” means the amount stated on the notice issued by DEO certifying a relief fund.

- Evidence that an applicant or an affiliate of the applicant is licensed as a rural or small business investment company;¹⁶
- Evidence that at least one principal of the rural or small business investment company is, and has been for at least 4 years, an officer, employee, or affiliate of the applicant on the date the application is submitted;
- Evidence that the applicant and its affiliates have invested more than \$500 million in small businesses, regardless of whether the principal businesses operations of the small business are in the state; and
- A signed affidavit from each investor stating that the investor agrees to make a relief contribution,¹⁷ and the amount of the relief contribution.

The DEO must approve or deny an application within 30 days of its receipt. The DEO must deny an application if:

- The application is incomplete, including failing to submit the affidavits accounting for at least 80 percent of the relief investment authority sought;
- The application does not include evidence proving the relief fund is eligible for certification; or
- The DEO has already approved the maximum total relief investment authority and relief contributions.

The total relief investment authority is capped at \$100 million and relief contributions are capped at \$80 million.

The DEO must issue a written notice to an approved applicant certifying the applicant as a relief fund and specifying the applicant's amount of relief fund authority. If the DEO denies an application for any reason other than the aforementioned reasons, the DEO must notify the applicant and allow the applicant to cure defects in the application within 15 days of receipt of the notice of denial.

The DEO may not reduce a relief fund's requested relief investment authority unless such an allocation would cause the DEO to exceed the relief investment authority and relief contribution limits. If the DEO approves applications received on the same day with relief investment authority and relief contribution amounts that would collectively exceed the limits specified by the bill, the DEO must approve both applicants but proportionally reduce the authority and contribution for each approved application as necessary to avoid exceeding the limit.

Additionally, the DEO may not approve any applications submitted after a denied application until the previously denied application has been cured and reconsidered if the approval of the subsequent application would result in exceeding the dollar limitations on relief investment authority or relief contributions.

¹⁶ See 7 U.S.C. s. 2009cc and 15 U.S.C. s. 681.

¹⁷ "Relief contribution" means a cash investment in a relief fund which equals the amount specified on a notice of tax credit allocation issued by the DEO after certification. The investments must purchase an equity interest in the relief fund or a debt instrument issued by the relief fund.

Within 30 days of certification, a relief fund must collect the relief contributions from each investor whose affidavit was included in the application, and collect direct or indirect equity investments from affiliates of the fund equal to at least 10 percent of the relief fund's investment authority. A relief fund must send to the DEO proof of collecting such contributions and investments within 35 days of certification. If a relief fund fails to send such documentation, the DEO must revoke the fund's certification.

Upon a relief fund's satisfaction of the aforementioned collection and documentation requirements, the DEO must issue a notice of the amount and utilization schedule of the tax credit certificates allocated to each investor or affiliate as a result of their relief contributions. Only the first \$3.5 million of a relief fund's investment in any one impact business may be considered a relief investment; a relief investment in an affiliate of an impact business is considered a relief investment in that impact business.

Tax Credits

An investor that made a relief contribution is vested with a nonrefundable tax credit against state premium taxes, which is transferable to any person that pays premium taxes in the state.

On the closing date,¹⁸ an investor who made a relief contribution is eligible for a tax credit equal to the amount specified in the notice sent by the DEO. The DEO will issue investors a tax credit for one-fifth of their relief contributions on the anniversary of the relief fund's closing date every year for 5 years, beginning in 2023. If the tax credit received in one year exceeds the taxes owed for that year, the unused credits may be carried forward for use; a retaliatory tax may not be assessed for using the tax credit. Anyone receiving a tax credit must include a copy of the tax credit certificate when submitting an annual statement for each year the credit is claimed.

Revocation of Tax Credit Certificates and Exit from the Program

The DEO may not issue a tax credit to a relief fund that does not invest at least 70 percent of its relief investment authority in relief investments within 1 year of the closing date or 100 percent of its authority within 2 years of the closing date. A relief investment is any capital or equity investment¹⁹ in or loan²⁰ to an impact business with a maturity of at least 2 years after the date of issuance.

The DEO must revoke a relief fund's tax credit certificate if the relief fund:

- Makes a distribution in excess of the cumulative investment earnings of the relief fund, taking into account all past distributions, before satisfying the investment level requirements listed above;

¹⁸ The closing date is the date on which a relief fund has collected the relief funds from each investor whose affidavit was included in the fund's application and the direct or indirect equity investments from affiliates of the relief fund.

¹⁹ An equity investment is a relief investment only if the relief fund does not acquire a majority interest in the small business as a result of the investment.

²⁰ A secured loan is a relief investment only if it has an initial interest rate of less than 2 percent or principal and interest payments deferred for at least 1 year. Subordinate loans must have an initial interest rate of 6 percent and interest payments deferred for at least 1 year.

- Fails to maintain the required investment levels through the fifth anniversary of the closing date;²¹ or
- Makes a distribution that results in the fund having less than 100 percent of its authority invested in other relief investments or held in cash or marketable securities available for relief investments, after satisfying the original investment level requirements but before decertification of the relief fund.

The DEO must notify a relief fund of the reasons for revocation before revoking the tax credit certificate, and the DEO may not revoke a certificate if a relief fund corrects the reasons for revocation within 30 days of receiving notice.

A relief fund that has invested all of its relief investment authority in relief investments may apply to the DEO to be decertified on or after the sixth anniversary of the fund's closing date. The DEO must respond and not unreasonably deny an application for decertification within 60 days of receipt; a relief fund is eligible for decertification if it has not had its tax credit certificate revoked. The DEO must send notice of its decision to approve or deny an application for decertification, including, if necessary, any reasons for denial.

The DEO may not revoke a tax credit certificate in response to any action a relief fund takes after decertification. However, a decertified relief fund's tax credit certificate may be revoked as a result of actions taken while a fund was certified, even if the actions are discovered after the fund has been decertified.

The relief investment authority and relief contributions of a relief fund whose tax credit certificate has been revoked do not count towards the \$100 million limit and \$80 million limit on relief investment authorities and relief contributions, respectively, that the DEO is authorized to approve. Relief investment authority and relief contribution amounts from such a fund will be awarded pro rata to relief funds whose investment relief authorities were reduced in order to not exceed the total relief investment authority the DEO may approve. Relief investment authority remaining may be awarded to new applicants.

Reporting Requirements

Each relief fund must submit a report to the DEO on or before April 1 of each year, including the closing date year, until the calendar year after the relief fund is decertified. In addition to an itemization of the relief fund's investments, reports must also include:

- A bank statement evidencing each relief investment;
- The name, location, and industry class of each impact business that received a relief investment and evidence that the business qualified as an impact business at the time of the investment;
- The jobs created and retained as a result of each relief investment; and
- Any other information required by the DEO.

²¹ An investment that is sold or repaid is considered to be maintained if the relief fund reinvests an amount equal to the repaid or sold investment into other relief investments in Florida within 1 year of receipt of such funds.

Relief funds must also submit a report to the DEO on or before the fifth business day after the first and second anniversaries of the closing date that provides documentation proving that the relief fund has met the investment thresholds required and has not violated any other revocation provisions.

Miscellaneous

A relief fund may request the DEO to issue a written opinion advising whether a business qualifies as an impact business; if the DEO does not respond within 10 days, the business is deemed an impact business or small business.

The bill grants the DEO rulemaking authority to implement the program.

The bill takes effect July 1, 2021.

 49 read:
 50 288.715 The Florida Small Manufacturing Business Recovery
 51 Act.—
 52 (1) This section may be cited as the "Florida Small
 53 Manufacturing Business Recovery Act."
 54 (2) As used in this section, the term:
 55 (a) "Affiliate" means a person that directly, or indirectly
 56 through one or more intermediaries, controls, is controlled by,
 57 or is under common control with another person. For the purposes
 58 of this paragraph, a person is "controlled by" another person if

59 the controlling person holds, directly or indirectly, the

 61 or has control over the day-to-day operations of the controlled
 62 person by contract or by law.

63 (b) "Closing date" means the date on which a relief fund
 64 has collected the amounts specified in paragraph (3) (f).

65 (c) "Department" means the Department of Economic
 66 Opportunity.

67 (d) "Impact business" means a business that, at the time of
 68 the initial relief investment by a relief fund:

69 1. Has fewer than 200 employees;

70 2. Has its principal business operations in this state; and

71 3. Is engaged in the North American Industry Classification
 72 System codes 31-33 or, if not engaged in such industries, the
 73 department determines that an investment in the business will be
 74 beneficial to this state's recovery.

75
 76 For the purposes of this paragraph, a business has its principal
 77 business operations in this state if at least 60 percent of the
 78 business' employees reside in this state, at least 80 percent of
 79 the business' payroll is paid to individuals who reside in this
 80 state, or the business has agreed to use the proceeds of a
 81 relief investment to relocate at least 60 percent of the
 82 business' employees to this state or pay at least 80 percent of
 83 the business' payroll to individuals residing in this state.

84 (e) "Premium taxes" means taxes imposed under s. 624.509 or
 85 s. 624.5091.

 87 relief fund which equals the amount specified on a notice of tax

14-01583-21 20211444__

88 credit allocation issued by the department under paragraph
 89 (3) (h). The investment must purchase an equity interest in the
 90 relief fund or purchases, at par value or premium, a debt
 91 instrument issued by the relief fund which has an original
 92 maturity date of at least 5 years after the date of issuance and
 93 a repayment schedule that is no greater than level principal
 94 amortization over 5 years.

95 (g) "Relief fund" means an entity certified by the
 96 department under paragraph (3) (e).

97 (h) "Relief investment" means any capital or equity
 98 investment in an impact business or any loan to an impact
 99 business which has a stated maturity at least 2 years after the
 100 date of issuance. A secured loan is a relief investment only if
 101 it has an initial interest rate of less than 2 percent or
 102 principal and interest payments deferred for at least 1 year. A
 103 subordinate loan is a relief investment only if it has an
 104 initial interest rate of less than 6 percent or principal and
 105 interest payments deferred for at least 1 year. An equity
 106 investment is a relief investment only if the relief fund does
 107 not acquire a majority interest in the small business as a
 108 result of such investment. The term "relief investment" does not
 109 include any transaction that includes an origination fee.

110 (i) "Relief investment authority" means the amount stated
 111 on the notice issued under paragraph (3) (e) certifying the
 112 relief fund. Eighty percent of a relief fund's relief investment
 113 authority must consist of relief contributions.

114 (j) "Small business" means any business that has its
 115 principal business operations in this state, as described in
 116 paragraph (d), and which, at the time the initial relief

117 investment is made, has fewer than 250 employees or the number
 118 of employees set forth for the business' North American Industry
 119 Classification System code under 13 C.F.R. s. 121.201, whichever
 120 is greater.

121 (3) (a) Beginning August 1, 2021, the department shall
 122 accept applications for certification of relief funds and relief
 123 contributions. The application must include:

124 1. The total relief investment authority sought by the
 125 applicant;

126 2. Evidence that proves, to the satisfaction of the
 127 department, that:

128 a. The applicant or an affiliate of the applicant is a
 129 federally approved or licensed rural business investment company
 130 under 7 U.S.C. s. 2009cc or a small business investment company
 131 under 15 U.S.C. s. 681. The applicant must include a certificate
 132 executed by an executive officer of the applicant attesting that
 133 the approval or license remains in effect and has not been
 134 revoked;

135 b. At least one principal or similar officer of such entity
 136 is, and has been for at least 4 years, an officer or employee of
 137 the applicant or an affiliate of the applicant on the date the
 138 application is submitted; and

139 c. As of the date the application is submitted, the
 140 applicant and its affiliates have invested more than \$500
 141 million in small businesses, regardless of whether the principal
 142 business operations of the small business are in this state; and

143 3. A signed affidavit from each investor stating that the
 144 investor agrees to make a relief contribution and the amount of
 145 the relief contribution.

14-01583-21 20211444__

146 (b)1. Except as provided in subparagraph 2., the department
 147 shall approve or deny an application within 30 days after
 148 receiving the application. The department shall deem
 149 applications received on the same day as having been received
 150 simultaneously. The department may not approve more than \$100
 151 million in relief investment authority and may not approve more
 152 than \$80 million in relief contributions. If approving
 153 simultaneously submitted applications would result in exceeding
 154 these limits, the department shall proportionally reduce the
 155 relief investment authority and the relief contributions for
 156 each approved application as necessary to avoid exceeding the
 157 limit.

158 2. If the department denies an application for
 159 certification as a relief fund, and approving a subsequently
 160 submitted application would result in exceeding the dollar
 161 limitation on relief investment authority or relief
 162 contributions, assuming the previously denied application was
 163 completed, clarified, or cured under subparagraph (e)2., the
 164 agency may not make a determination on the subsequently
 165 submitted application until the previously denied application is
 166 reconsidered or the 15-day period for submitting additional
 167 information regarding that application has passed, whichever
 168 occurs first.

169 (c) The department must deny an application if:

170 1. The application is incomplete, including failing to
 171 submit the affidavits accounting for at least 80 percent of the
 172 relief investment authority sought;

173 2. The applicant does not satisfy the requirements of
 174 subparagraph (a)2.; or

14-01583-21

20211444__

175 3. The department has already approved the maximum total
 176 relief investment authority and relief contributions authorized
 177 under subparagraph (b)1.

178 (d) The department may not deny a relief fund application
 179 or reduce the requested relief investment authority for reasons
 180 other than those described in paragraphs (b) and (c).

181 (e)1. If the department approves an application, the
 182 department must issue a written notice to the applicant
 183 certifying the applicant as a relief fund and specifying the
 184 applicant's amount of relief investment authority.

185 2. If the department denies an application, the department
 186 must notify the applicant of the reasons for denial. If the
 187 application was denied for any reason other than a reason
 188 specified in paragraph (c) or because the applicant failed to
 189 satisfy subparagraph (a)3., the applicant may submit additional
 190 information to the agency to cure defects in the application
 191 within 15 days after receipt of the notice of denial. The
 192 department must reconsider such application within 15 days after
 193 receiving any additional information and, if the application is
 194 approved, treat it as approved as of its original filing date.

195 (f) Within 30 days after receiving a certification under
 196 paragraph (e), a relief fund must:

197 1. Collect the relief contributions from each investor
 198 whose affidavit was included in the application; and

199 2. Collect direct or indirect equity investments from
 200 affiliates of the relief fund, including employees, officers,
 201 and directors of such affiliates, equal to at least 10 percent
 202 of the relief fund's investment authority.

203 (g) Within 35 days after receiving certification under

14-01583-21

20211444__

204 paragraph (e), a relief fund must send documentation to the
 205 department which proves the relief fund has collected the
 206 amounts required under paragraph (f). If the relief fund fails
 207 to comply with this paragraph, the department shall revoke the
 208 relief fund's certification.

209 (h) After a relief fund satisfies the requirement under
 210 paragraph (g), the department shall issue to each investor or
 211 affiliate identified under paragraph (g) a notice of the amount
 212 and utilization schedule of the tax credit certificates
 213 allocated to the investor or affiliate as a result of the
 214 investor or affiliate's relief contribution.

215 (i) If a relief fund's certification is revoked under
 216 paragraph (g) or the relief fund has tax credits revoked under
 217 paragraph (5) (b), the corresponding relief investment authority
 218 and relief contributions do not count toward limits on total
 219 relief investment authority and relief contributions authorized
 220 under paragraph (b). The department shall first award lapsed or
 221 revoked relief investment authority and the corresponding relief
 222 contributions pro rata to each relief fund awarded less than the
 223 relief investment authority for which it applied pursuant to
 224 subparagraph (b)1. The department may award any remaining relief
 225 investment authority to new applicants.

226 (4) (a) A nonrefundable tax credit certificate is authorized
 227 for owners of tax credit certificates issued by the department
 228 under paragraph (b). The credit may be claimed against premium
 229 taxes and is transferable to any person that pays premium taxes
 230 in this state.

231 (b) On the closing date, a taxpayer that made a relief
 232 contribution is eligible for a credit equal to the amount

14-01583-21 20211444__

233 specified in the notice issued under paragraph (3)(h). On or
 234 before the anniversaries of the closing date occurring in 2023,
 235 2024, 2025, 2026, and 2027, the department shall issue a tax
 236 credit certificate equal to one-fifth of the relief
 237 contributions allocated to the taxpayer.

238 (c) Any amount of credits which exceeds the tax otherwise
 239 due for that year may be carried forward for any ensuing taxable
 240 years. An additional retaliatory tax may not be required as a
 241 result of using the credit. A taxpayer claiming a credit under
 242 this section shall submit a copy of the tax credit certificate
 243 with the taxpayer's annual statement for each taxable year in
 244 which the credit is claimed.

245 (5)(a) The department is not required to issue a tax credit
 246 certificate to a relief fund that does not invest at least 70
 247 percent of its relief investment authority in relief investments
 248 within 1 year after the closing date or 100 percent of its
 249 relief investment authority in relief investments within 2 years
 250 after the closing date.

251 (b) The department may revoke tax credit certificates
 252 issued pursuant to subsection (4) if:

253 1. Before satisfying paragraph (a), the relief fund makes a
 254 distribution or payment in excess of the cumulative investment
 255 earnings of the relief fund as of the date of the distribution
 256 or payment, taking into account all past distributions and
 257 payments;

258 2. After satisfying paragraph (a), the relief fund fails to
 259 maintain those levels of investment until the fifth anniversary
 260 of the closing date. For the purposes of this subparagraph, an
 261 investment is maintained even if the investment is sold or

14-01583-21 20211444__

262 repaid, so long as the relief fund reinvests an amount equal to
 263 the capital returned or recovered from the original investment,
 264 exclusive of any profits realized, in other relief investments
 265 in this state within 1 year of the receipt of such capital.

266 Regularly scheduled principal payments on a loan that is a
 267 relief investment are deemed continuously invested in a relief
 268 investment if the amounts are reinvested in one or more relief
 269 investments by the end of the following calendar year; or

270 3. After satisfying paragraph (a) and before the relief
 271 fund is decertified pursuant to paragraph (d), the relief fund
 272 makes a distribution or payment that results in the relief fund
 273 having less than 100 percent of its relief investment authority
 274 invested in relief investments or held in cash or marketable
 275 securities available for investment in relief investments.

276
 277 The department must notify the relief fund of the reasons for
 278 revocation before revoking tax credit certificates pursuant to
 279 this paragraph. If, within 30 days after the department sends
 280 such notice, the relief fund corrects the reasons given in the
 281 notice to the satisfaction of the department, the department may
 282 not revoke the tax credit certificates.

283 (c) The amount by which one or more relief investments by a
 284 relief fund in the same impact business exceeds \$3.5 million may
 285 not be counted as a relief investment for the purposes of this
 286 section, exclusive of capital repaid or redeemed by such small
 287 business and reinvested as a relief investment in such small
 288 business. A relief investment in an affiliate of an impact

291 (d)1. On or after the sixth anniversary of the closing
 292 date, a relief fund that has invested 100 percent of its relief
 293 investment authority in relief investments may apply to the
 294 department to be decertified as a relief fund. The department
 295 shall respond to and not unreasonably deny the application
 296 within 60 days after receiving the application. In evaluating
 297 the application, the fact that no tax credit certificates have
 298 been revoked with respect to the relief fund shall be evidence
 299 to prove that the relief fund is eligible for decertification.
 300 2. The department shall send notice to the relief fund of
 301 its determination with respect to decertification and reasons
 302 for denial, if applicable.
 303 3. The department may not revoke a tax credit certificate
 304 due to any actions of a relief fund which occur after
 305 decertification, but the department may revoke tax credit
 306 certificates due to the actions of a relief fund which occur
 307 before decertification even if such actions are discovered after
 308 the date of decertification.

 310 department as to whether a business qualifies as an impact
 311 business. The department shall issue a written opinion to the
 312 relief fund within 10 business days after receiving such a
 313 request. If the department determines that the business
 314 qualifies as an impact business or if the department fails to
 315 timely issue the written opinion, the business shall be
 316 considered a small business or impact business for the purposes
 317 of this section.
 318 (6) (a) Each relief fund shall submit a report to the
 319 department on or before April 1 of each year, including the

 322 relief fund's relief investments and must include the following
 323 documents and information:
 324 1. A bank statement evidencing each relief investment;
 325 2. The name, location, and industry class of each impact
 326 business that received a relief investment from the relief fund

 332 (b) Each relief fund shall submit a report to the
 333 department on or before the fifth business day after the first
 334 and second anniversaries of the closing date which provides

 337 violated any of the other revocation provisions described in
 338 paragraph (5) (b).

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Commerce and Tourism

BILL: SM 1544

INTRODUCER: Senator Pizzo

SUBJECT: Free Trade Agreement/United States and United Kingdom

DATE: March 12, 2021

REVISED: _____

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	<u>Vigrass</u>	<u>McKay</u>	<u>CM</u>	Favorable
2.	_____	_____	<u>RC</u>	_____

I. Summary:

SM 1544 commends Congress for granting Trade Promotion Authority (TPA) to the executive branch. The memorial also encourages the executive branch to negotiate a comprehensive and mutually beneficial free trade agreement between the United States and the United Kingdom, and encourages Congress to ratify such an agreement.

Legislative memorials are not subject to the Governor's veto power and are not presented to the Governor for review. Memorials have no force of law, as they are mechanisms for formally petitioning the federal government to act on a particular subject.

II. Present Situation:

Trade Promotion Authority

Although the President has the authority to negotiate treaties with foreign countries, Congress has the sole authority to regulate international trade.¹

Since 1974, Congress has enacted TPA legislation that defines U.S. negotiating objectives and priorities for trade agreements and establishes consultation and notification requirements for the President to follow throughout the negotiation process.² TPA does not provide new power to the executive branch, but rather, TPA is a legislative procedure through which Congress defines U.S. negotiating objectives and details an oversight process to be used during trade negotiations.³

¹ U.S. CONST. art. 1, s.8

² Office of the United States Trade Representative, *Trade Promotion Authority*, available at <https://ustr.gov/trade-topics/trade-promotion-authority> (last visited Mar. 12, 2021).

³ *Id.*

TPA is only extended for limited periods, so Congress periodically reconsiders legislation to extend it and to outline future negotiation objectives.⁴

Free Trade Agreements

A Free Trade Agreement is an agreement between two or more countries where the parties involved agree on certain trade obligations for the purpose of reducing barriers and providing a more stable and transparent trading environment. It also allows an easier process for U.S. companies to export products or services to partner markets.⁵ All U.S. Free Trade Agreements (FTAs), except the agreement with Jordan, were considered in Congress under TPA.⁶

The U.S. currently has FTAs with 20 countries. The current U.S. FTA partner countries include: Australia; Bahrain; Canada; Chile; Colombia; Costa Rica; Dominican Republic; El Salvador; Guatemala; Honduras; Israel; Jordan; Korea; Mexico; Morocco; Nicaragua; Oman; Panama; Peru; and Singapore.⁷ In 2020, the U.S., Mexico, and Canada renegotiated the North American Free Trade Agreement and entered into force the United States-Mexico-Canada Agreement on July 1, 2020.⁸

US and UK Trade Negotiations

In July of 2017, the U.S. – UK Trade and Investment Working Group was established to provide commercial progress for the UK and U.S. businesses, workers, and consumers to prepare for the UK's withdrawal from the European Union. On May 5, 2020, the U.S. and UK announced the formal launch of trade agreement negotiations.⁹

The U.S. and the UK are each other's largest source of foreign direct investment, with about \$1 trillion invested in each other's economies and over \$250 billion a year in total two-way trade.¹⁰ More than 1.25 million U.S. workers are employed by British companies in the U.S., and over 1.5 million Britons are employed by U.S. affiliates. Additionally, the UK is the United States' 7th largest trading partner and the 5th largest export destination for U.S. goods and services.¹¹

Current Trade Agreements

As part of the U.S. – UK Trade and Investment Working Group, the U.S. and the UK have signed agreements on specific products that were covered by existing agreements the U.S. maintains with the EU.¹² These agreements between the U.S. and UK were entered into force on December 31, 2020, to ensure that there was no disruption in trade for specific products between the U.S. and UK. These new agreements include U.S. – UK Agreement on Trade in Wine; U.S. – UK Agreement on Mutual Recognition of Certain Distilled Spirits/Spirits Drinks; Agreement on Mutual Recognition; and Agreement on the Mutual Recognition of Certificates of Conformity for Marine Equipment.¹³

As of January 1, 2021, EU Trade Agreements no longer apply to the UK. The UK has sought to replicate the effects of previous trade agreements to ensure continuity for UK business.¹⁴ In 2018, the Trump Administration notified Congress, under TPA, of its intent to enter comprehensive FTA negotiations with the UK. The U.S. and UK conducted five rounds of negotiations in 2020, with negotiations pending over outstanding issues.¹⁵ To be considered under the current TPA, an agreement must be concluded by July 1, 2021.¹⁶

III. Effect of Proposed Changes:

SM 1544 commends Congress for granting TPA to the executive branch. The memorial also encourages the executive branch to negotiate a comprehensive and mutually beneficial free trade agreement between the U.S. and UK, and encourages Congress to ratify such an agreement.

Copies of this memorial will be dispatched to the President of the United States, the President of the United States Senate, the Speaker of the United States House of Representatives, and each member of the Florida delegation to the United States Congress.

Legislative memorials are not subject to the Governor’s veto power and are not presented to the Governor for review. Memorials have no force of law, as they are mechanisms for formally petitioning the federal government to act on a particular subject.

Senate Memorial

A memorial to the Congress of the United States and the President of the United States commending Congress for granting trade promotion authority to the executive branch, urging the executive branch to negotiate a comprehensive and mutually beneficial free trade agreement between the United States and the United Kingdom, and urging Congress to ratify such agreement.

WHEREAS, the United States is the United Kingdom's largest single-country trade partner, with a relationship valued at more than \$200 billion; both countries are each other's largest foreign direct investors, having approximately \$1 trillion invested in each other's economies; and the UK-US Trade and Investment Working Group has been laying the groundwork to strengthen trade and investment ties for the present and in the future, including through the use of a free trade agreement, and

WHEREAS, expansion of global trade, especially with the United Kingdom, is of vital importance to the growth of the United States' economy, small business participation in the international marketplace, and job creation, and

WHEREAS, this state would benefit greatly from the ratification of a comprehensive free trade agreement, which, since the United Kingdom is currently the largest foreign direct employer in this state and is the second largest market for tourism, would create employment opportunities for residents of this state as a direct result of reducing and removing barriers to trade and free markets, and

WHEREAS, the successful implementation of a free trade agreement will increase exports to the United Kingdom from this state, and

WHEREAS, the United States Constitution grants the United States Congress exclusive authority to regulate commerce with foreign nations, and

WHEREAS, the negotiation of a successful free trade agreement between the United States and the United Kingdom will require bipartisan cooperation between state, federal, and foreign governments, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

That the Congress of the United States is commended for granting trade promotion authority to the executive branch, the executive branch is urged to complete a timely and successful negotiation of a comprehensive and mutually beneficial free trade agreement between the United States and the United Kingdom, and the Congress of the United States is urged to ratify such agreement.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 2004 requires the Office of Broadband (Office) within the Department of Economic Opportunity to address additional areas in its strategic plan. Specifically, the Office must develop short-term and long-term goals and strategies to increase the availability of and access to broadband Internet service in Florida; incorporate federal broadband activities that may improve Florida's broadband Internet service; and identify available federal funding for the expansion or improvement of broadband Internet service. The bill requires the Office to complete and submit its strategic plan by June 30, 2022.

Additionally, the bill requires the Office to provide technical and planning assistance to Florida's rural communities' broadband Internet infrastructure projects.

The bill provides an appropriation of \$1.4 million in nonrecurring funds for the fiscal year 2021-2022.

II. Present Situation:

Broadband Internet Deployment

Fixed and mobile broadband Internet services provide access to numerous employment, education, entertainment, and health care opportunities.¹ Access to a sufficient internet connection has only grown more important during the COVID-19 pandemic, which requires many Americans to connect to their family and friends, schooling, work, and even medical appointments over the internet.² While Florida's urban areas are served at a fixed broadband coverage rate of 98 percent, its rural areas are served at a rate of 78.6 percent.³ This disparity is caused primarily by high per-unit construction costs required to build broadband infrastructure across larger swaths of rural geographic areas.⁴ Communities that lack broadband access can have difficulty attracting new capital investment.⁵ Additionally, data indicates that low-income households disproportionately lack access to broadband Internet service, which puts children in those households at risk of falling behind.⁶

Broadband internet is a high speed internet that is faster than dial-up access and is always on; in 2015, the Federal Communications Commission (FCC) defined broadband as 25/3 megabits per second (Mbps), i.e., 25 Mbps (download rate) and 3 Mbps (upload rate).⁷ Consumers can receive Broadband internet through several different technologies, including a digital subscriber line (DSL), a cable modem, fiber, wireless, satellite, and broadband over power lines.⁸

Other State Action

All 50 states have created either a task force, commission, or authority to coordinate broadband expansion.⁹ One organization has studied the work of several state broadband offices authorities, and determined that effective practices include stakeholder outreach and engagement at both the state and local levels; thorough development of a policy framework with well-defined goals; adoption of a state broadband plan; and helping communities identify their broadband goals and needs to better connect them with satisfactory resources.¹⁰

Florida's Office of Broadband

In 2020 the Legislature created the Florida Office of Broadband (Office) within the Department of Economic Opportunity (Department).¹¹ The Office is tasked with developing, marketing, and promoting broadband Internet service in the state.

Specifically, the Office must:

- Create a strategic plan for increasing the use of broadband Internet service in Florida which must include a process to review and verify public input regarding transmission speeds and availability of broadband Internet service throughout the state;
- Build local technology planning teams representing, among others, libraries, schools, colleges and universities, local health care providers, private businesses, community organizations, economic development organizations, local governments, tourism, parks and recreation, and agriculture;
- Encourage the use of broadband Internet service, especially in rural, unserved, and underserved¹² areas of the state through grant programs; and
- Monitor, participate in, and provide input in proceedings of the FCC and other federal agencies related to the geographic availability and deployment of broadband Internet service as necessary to ensure that Florida's rural, unserved, and underserved areas are best positioned to benefit from federal and state broadband deployment programs.¹³

The DEO may apply for and accept federal grant funds, enter into necessary or useful contracts, and establish any committee or workgroup to further the above goals.¹⁴

¹⁴ Section 364.0135(5), F.S.

Federal Broadband Programs

FCC Digital Opportunity Data Collection Program

The FCC collects and monitors data on broadband deployment in order to identify underserved and unserved localities in the United States.¹⁵ In August 2019, the FCC adopted the Digital Opportunity Data Collection Program, which modernized the collection of broadband deployment data by creating granular coverage maps, as opposed to census tract maps, and by implementing a process to accept public data to confirm the maps' accuracy.¹⁶ In March 2020, Congress ratified the FCC's Data Collection Program with passage of the Broadband Data Act, which requires the FCC to establish a semiannual collection of geographically granular broadband coverage data to use to create coverage maps.¹⁷ Congress has allocated \$65 million to the FCC to achieve this mapping project.¹⁸

To create these geographic service maps, the FCC collects information from service providers according to specific reporting standards. The service providers must report their service coverage areas, including where their services were available to residences or businesses, and the speed and latency at which their services are delivered.¹⁹ The FCC also considers public testimony regarding service availability.

FCC's Rural Digital Opportunity Fund

In January 2020, the FCC established the Rural Digital Opportunity Fund (Fund) to fund the deployment of broadband networks in rural America over the next decade. The first phase of the Fund began in 2020 and made available up to \$16 billion to target census blocks that are wholly unserved by fixed broadband speeds of at least 25 megabits per second (Mbps) downstream and 3 Mbps upstream (25/3 Mbps).²⁰ Florida entities received over \$190 million (to be distributed over the next 10 years) in this first round of funding.²¹

Phase II of the Fund will target underserved localities, as identified by the FCC's Digital Opportunity Data Collection Program.²² Using this more precise data, the second phase of FCC

grants will make available at least \$4.4 billion to target geographic areas where some locations lack access to 25/3 Mbps broadband.²³

FCC's Emergency Broadband Benefit Program

Congress appropriated \$3.2 billion to expand broadband access via subsidies for broadband service to students, families, and unemployed workers.²⁴ Eligible households can receive a discount of up to \$50 per month off their broadband service bill. A household is eligible to receive subsidies under the bill if any member of the household:²⁵ qualifies for the Lifeline program, receives benefits under the free or reduce-price school lunch program, received a Federal Pell Grant, experienced a substantial loss of income in the last year and has a total household income in 2020 below \$99,000 for single filers and \$198,000 for joint filers, or meets criteria to participate in service providers' existing low-income or COVID-19 program.²⁶

U.S. Department of Agriculture ReConnect Program

The U.S. Department of Agriculture (USDA), through its ReConnect Program, offers federal loans, grants, and loan/grant combinations to facilitate broadband deployment to rural areas without access to sufficient broadband service.²⁷ Eligible entities include cooperatives and non-profits, for-profit companies, and state and local governments and their agencies and political subdivisions. Applicants for a grant or a loan/grant combination under the ReConnect Program must submit a scoring sheet by which USDA may analyze nine separate evaluation criteria to score the application. One of the evaluation criteria is whether the proposed project is in a state with a broadband plan that has been updated within the previous 5 years.²⁸

Federal assets to assist with the expansion and promotion of broadband comes from a variety of sources, for example:²⁹

- The FCC's E-Rate Universal Service Fund subsidizes telephone service (including broadband Internet access) to low-income households, high-cost areas, rural healthcare providers, and eligible schools and libraries;³⁰
