

THE FLORIDA SENATE
2023 SUMMARY OF LEGISLATION PASSED
Committee on Health Policy

SB 614 — Mammography Reports

by Senator Harrell

The bill (Chapter 2023-45, L.O.F.) extends the scheduled statutory repeal date for provisions of Florida law requiring facilities that perform mammography to send a summary of the patient's mammography report to certain patients. The repeal date is extended to September 10, 2024, to coincide with the effective date of federal reporting rules pertaining to, among other things, mammography reporting to patients by essentially all mammography facilities nationwide.

These provisions were approved by the Governor and take effect May 11, 2023.

Vote: Senate 38-0; House 118-0
