d. What are the direct services to be provided to citizens by the appropriations project?

Cleaner groundwater, cleaner and clearer lagoon water, and improved marine habitat and fisheries.

e. Who is the target population served by this project? How many individuals are expected to be served?

Public users of the Indian River Lagoon, residents, tourists, fishermen

f. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Annual load reduction benefit for upgrading the Titusville Osprey Water Reclamation Facility is 22,988 pounds of nitrogen. Expected results include cleaner groundwater, cleaner and clearer lagoon water, and improved marine habitat and fisheries. The outcome will be measured using nutrient concentration, reduced by soil attenuation, and total annual load from the Water Reclamation Facility, which distributes reclaimed water to customers in the groundwater shed of the Indian River Lagoon .

g. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Cost share would be reduced on a pro-rata basis for work not completed to the satisfaction of the administering agency. However the agency should be authorized to issue time extensions without penalty when they believe the situation is justified (eg acts of God or other circumstances beyond the control of the applicant).

12. The owner(s) of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owner(s) of the facility and the entity.
