

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2019-2020

LFIR#: 1129

1. Title of Project: Marco Island South Barfield Drive Drainage Project

2. Senate Sponsor: Kathleen Passidomo

3. Date of Submission: 01/30/2019

4. Project/Program Description:

This project consists of an area of approximately 32 acres of property along a major arterial street, South Barfield Drive, which was constructed during the early phases of the development of Marco Island. The storm drainage system is very limited between San Marco Road southerly to Hawaii Court, which causes several local collector streets to flood and become impassable. By creating a master planned stormwater management system along this major corridor will provide a means to fix the problem

5. State Agency to receive requested funds : Department of Environmental Protection

State Agency Contacted? No

6. Amount of the Nonrecurring Request for Fiscal Year 2019-2020

Type of Funding	Amount
Operations	
Fixed Capital Outlay	500,000
Total State Funds Requested	500,000

7. Total Project Cost for Fiscal Year 2019-2020 (including matching funds available for this project)

Type of Funding	Amount	Percent
Total State Funds Requested (from question #6)	500,000	58.82%
Federal	0	0.00%
State (excluding the amount of this request)	0	0.00%
Local	350,000	41.18%
Other	0	0.00%
Total Project Costs for Fiscal Year 2019-2020	850,000	100.0%

8. Has this project previously received state funding? No

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	NonRecurring		

9. Is future-year funding likely to be requested? No

10. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and

Fixed Capital Construction/Major Renovation:		
Construction/Renovation/Land/Planning Engineering	Construction by a contractor selected by the open bidding process to complete the project as designed and in conformance with the current State and Federal requirements.	500,000
Total State Funds Requested (must equal total from question #6)		500,000

11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?

This project consists of an area of approximately 32 acres of property along a major arterial street, South Barfield Drive, which was constructed during the early phases of the development of Marco Island. The storm drainage system is very limited between San Marco Road southerly to Hawaii Court, which causes several local collector streets to flood and become impassable. By creating a master planned stormwater management system along this major corridor will provide a means to fix the problem.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?

The greatest benefit to be gained from this project will be to increase the health and safety of our residents by allowing emergency vehicles to access the areas during storm events and to allow local residents a means of exit during Hurricane emergencies.

c. What are the direct services to be provided to citizens by the appropriations project?

By eliminating the standing flood waters with this area, residents will be able to freely move about during and after storm events. The reduction of standing water on the local streets will help to protect the roadway surfaces that deteriorate rapidly from frequent flooding. This project will also help eliminate the breeding grounds for the extreme mosquito population we have during the rainy season.

d. Who is the target population served by this project? How many individuals are expected to be served?

The citizens of Marco Island, population of approximately 17,000.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

By completing one more project from our Master Panned Stormwater Management Program we are advancing toward overall stormwater containment. With the completion of this project, water quality will be improved by the reduction in illicit discharges. Methodology by which this will be measured includes visual inspection and

reduction of citizen complaints. Additionally, as required in our MS4 permit yearly report, we will document the reduction in the stormwater related incidents.

- f. **What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?**

No payment for unsatisfactory deliverables, and termination of agreement.

12. **The owner(s) of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owner(s) of the facility and the entity.**

City of Marco Island

13. **Requestor Contact Information:**

- a. **Name:** Timothy Pinter
b. **Organization:** City of Marco Island
c. **E-mail Address:** TPINTER@CITYOFMARCOISLAND.COM
d. **Phone Number:** (239)389-5018

14. **Recipient Contact Information:**

- a. **Organization:** City of Marco Island
b. **County:** Collier
c. **Organization Type:**
