11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?

This grant request for \$124,000 would replace the existing shallow bury water main crossing from mainland Surfside to Biscaya Island.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?

The funds will be used to install a water main crossing at a greater depth using directional drilling.

c. What are the direct services to be provided to citizens by the appropriations project?

The reconstructed line would be protected from potential impacts, potential leaking of potable water into the Bay and potential loss of service to the residents of the Island.

d. Who is the target population served by this project? How many individuals are expected to be served?

The residents of the Town of Surfside and those operating water vessels across Point Lake Canal.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Prevention against loss of service to residents, prevention against damage to water vessels, prevention of potable water leaks. Measured by the monitoring of water billings and water vessel traffic studies.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Work to be performed on Contractor's time/cost if delays or performance issues occur at the fault of the Contractor.

12. The owner(s) of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owner(s) of the facility and the entity.

The Town of Surfside.
