Construction/Renovation/Land/Planning Engineering	Installation of additional security lighting in parking lots and the perimeter of buildings and implementation of target hardening measures.	1,496,000
<b>Total State Funds Requested (must equal total from question #6)</b>		<b>2,234,800</b>

**11. Program Performance:**

**a. What is the specific purpose or goal that will be achieved by the funds requested?**

Requested funds would improve building access controls, target hardening, cyber security, and surveillance systems and would enhance the mass communications system.

**b. What are the activities and services that will be provided to meet the intended purpose of these funds?**

Cyber security improvements include both software and associated hardware upgrades required to expand door access controls across all campuses and centers. Surveillance cameras will be added to campuses and centers to allow for remote observation and documentation of activities in and around College facilities. To improve district-wide emergency messaging, this project includes the purchase and installation of additional digital signage equipment at the Winter Haven Campus and new units at the Polk State JD Alexander Center. The project also includes the purchase and installation of electronic locks as well as manual locksets for interior office and classroom doors at all six campuses and centers.

**c. What are the direct services to be provided to citizens by the appropriations project?**

The project will provide enhanced safety to all students, staff, faculty, and visitors to the College's campuses and centers.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

Polk State College serves nearly 16,000 students each year and employees nearly 1,200 individuals. As an institution whose facilities are open to the public, the College's libraries, auditoriums, meeting spaces, and outdoor recreation facilities are frequently used by members of the community. These safety improvements will serve many individuals well beyond the immediate campus community.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

The project will enhance the overall safety and security of all campuses and centers. These improvements will allow for stricter control of access to facilities, as well as documentation of where and when individuals are entering and exiting. Security improvements will also allow for remote lockdown of buildings with centralized

entry systems at all campuses and centers. Enhancements to the mass communications system will provide an additional method to inform the campus community in the event of an emergency.

- f. **What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?**

None

12. **The owner(s) of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owner(s) of the facility and the entity.**

Polk State College is a public institution and will receive and invest the capital outlay funding as described above.
