

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2019-2020

LFIR#: 2565

1. Title of Project: Hurricane Michael - City of Quincy - Generators/Rewiring

2. Senate Sponsor: Bill Montford

3. Date of Submission: 03/06/2019

4. Project/Program Description:

Funding would allow the city to install commercial generators that will provide emergency power to city hall and first responders, including the police and fire departments. This would also include wiring upgrades necessary to connect generators to the power panels. Generators would also be placed at city water towers. Not only will those generators supply emergency power for water pump operation, they will also serve communications antennas attached to the towers.

5. State Agency to receive requested funds : Executive Office of the Governor

State Agency Contacted? No

6. Amount of the Nonrecurring Request for Fiscal Year 2019-2020

Type of Funding	Amount
Operations	
Fixed Capital Outlay	200,000
Total State Funds Requested	200,000

7. Total Project Cost for Fiscal Year 2019-2020 (including matching funds available for this project)

Type of Funding	Amount	Percent
Total State Funds Requested (from question #6)	200,000	100.00%

11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?

The provision of back-up power for city hall, first responders (police and fire), elevated water tank pumps, and communication antenna facilities.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?

The city will purchase and install commercial generators at city hall, police and fire stations, and water towers where water pumps and communications equipment are located.

c. What are the direct services to be provided to citizens by the appropriations project?

By maintaining power at city hall, for first responders, at water towers, and at communication facilities, citizens of the City of Quincy will receive essential and potentially life-saving services during weather-related events.

d. Who is the target population served by this project? How many individuals are expected to be served?

Commercial and residential citizens receiving municipal services (approximately 11,280).

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected benefit is an adequate and back-up water supply and the efficient operation of fire and police services in a weather-related events.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Withhold partial funding until proof of installation is provided.

12. The owner(s) of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owner(s) of the facility and the entity.
