11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?

The purpose of the project is to promote the protection of water resources.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?

By providing the desired water and sewer services, environmentally damaging improvements such as on-site septic systems can be mitigated. Additionally, these improvements will provide central sewer extension to a community of 70 houses and a subdivision with 150 platted residential lots.

c. What are the direct services to be provided to citizens by the appropriations project?

The City is the current water supplier and seeks funding to provide central sewer extension services.

d. Who is the target population served by this project? How many individuals are expected to be served?

Anticipated future customers = greater than 528

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Will provide for the protection of water resources in Tanyard Creek and Little River. The Department of Health can provide data on the number of septic systems that are taken offline. Also, data can be collected on the estimate amount of nutrient levels in the groundwater.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Refund of funds.

12. The owner(s) of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owner(s) of the facility and the entity.

The City of Quincy will own and operate the proposed improvements.
