11. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Connection to water services is a prerequisite for conversion from septic to sewer.

Environmental benefits can be measured via number of homes ultimately converted from septic to sewer.

b. What activities and services will be provided to meet the intended purpose of these funds?

Improved drinking water quality - number of homes connected to Miami-Dade County Water and Sewer Department water services.

c. What direct services will be provided to citizens by the appropriation project?

Improved groundwater quality.

d. Who is the target population served by this project? How many individuals are expected to be served?

General public will benefit from the project.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Improved groundwater quality and surface water quality.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Revocation of funds.
