## 11. Program Performance

- a. What specific purpose or goal will be achieved by the funds requested?

To harden the two coastal stormwater pump stations from storm surge, sea level rise, and other hazards. This ensures that the pump stations will continue operating during an event in order to protect the life and property of the residents serviced by the pump stations.

- b. What activities and services will be provided to meet the intended purpose of these funds?

The construction of various on-site improvements to harden the pump stations against hazards.

- c. What direct services will be provided to citizens by the appropriation project?

The improvements will help ensure the pump stations will continue to operate before, during and after a major storm event.

- d. Who is the target population served by this project? How many individuals are expected to be served?

The residents of the communities adjacent to the pump stations.

- e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

To ensure that the pump stations continue operating to protect the life and property of the residents serviced by the pump stations. This will be measured by documenting the reduction of flooding in the area.

- f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Failure to build the improvements will result in no funds being dispersed.
