Local Funding Initiative Request

Fiscal Year 2020-2021

LFIR # 1506

1. **Project Title**
2. **Senate Sponsor**
3. **Date of Request**

4. **Project/Program Description**

This project consists of construction upgrades to existing (old and outdated drainage systems) throughout the City. The proposed improvement areas were identified in the City's Storm water Management Master Plan as immediate water projects. The proposed improvement will provide much needed water quality standards and flood mitigation required for the National Pollution Discharge Elimination System (NPDES) and BMAP. The State's Department of Environmental Protection (DEP) has verified the City as having local fecal coliform, although no Total Maximum Daily Load (TMDL) has officially been set under WBID#3283. The DEP will complete the assessment for Broward County in 2016. As a proactive initiative to any future or potential impairments, the City is working along with Broward County and our sister cities to address proactive inspections, reactive inspections and high risk facilities inspections. These BMAP improvements will include a) catch basins; b) drainage pipes and drainage outlets;

11. Program Performance

- a. What specific purpose or goal will be achieved by the funds requested?

The DEP will complete the assessment for Broward County in 2016. As a proactive initiative to any future or potential impairments, the City is working along with Broward County and our sister cities to address proactive inspections, reactive inspections and high risk facilities inspections. These BMAP improvements will include a) catch basins; b) drainage pipes and drainage outlets; c) trenches; d) curbs; e) gutters; f) drainage structures; and g) landscaped drainage retention areas.

- b. What activities and services will be provided to meet the intended purpose of these funds?

This project consists of construction upgrades to existing (old and outdated drainage systems) throughout the City. The proposed improvement areas were identified in the City's Storm water Management Master Plan as immediate water projects. The proposed improvement will provide much needed water quality standards and flood mitigation required for the National Pollution Discharge Elimination System (NPDES) and BMAP.

- c. What direct services will be provided to citizens by the appropriation project?

N/A

- d. Who is the target population served by this project? How many individuals are expected to be served?

These projects corridor benefits three cities and serves as a transportation route for a total population of 267,037.

- e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The State's Department of Environmental Protection (DEP) has verified the City as having local fecal coliform, although no Total Maximum Daily Load (TMDL) has officially been set under WBID#3283. The DEP will complete the assessment for Broward County in 2016.

- f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Once the City selects a contractor to preform the scope of services, a series of per-construction meetings will occur to establish time line, objectives etc. If the selected contractor does not meet the given objectives, the City would then issue a warning, if the penalties continue to the City will then liquidate the damage and start the performance bond process.
