11. Program Performance

- a. What specific purpose or goal will be achieved by the funds requested?

This will allow for the design and construction of a Diversion Wall. The Diversion Wall is a critical component of the Lake Toho Water Restoration Project and diverts nutrient laden runoff from the older parts of the community into a regional stormwater pond and alternative water supply reservoir for use and/or treatment.

- b. What activities and services will be provided to meet the intended purpose of these funds?

Contract with a vendor to provide design and construction services for the Diversion Wall.

- c. What direct services will be provided to citizens by the appropriation project?

N/A

- d. Who is the target population served by this project? How many individuals are expected to be served?

N/A

- e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Improved water quality to Lake Toho, this can be evaluated through measurement and monitoring of the water coming into and out of the pond.

- f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Return of funds.
