LFIR # 2417

## 11. Program Performance

- a. What specific purpose or goal will be achieved by the funds requested?

The goal of this program is to reduce flooding and improve water quality within the City of Crestview.

- b. What activities and services will be provided to meet the intended purpose of these funds?

Stormwater treatment will be provided through this program to reduce flooding and improve the water quality for the region.

- c. What direct services will be provided to citizens by the appropriation project?

The pond and drainage improvements will improve the quality of the water that flows downstream to the Yellow River. This will increase the water quality for wildlife and humans.

- d. Who is the target population served by this project? How many individuals are expected to be served?

The project will improve water quality for the City and surrounding areas. The total population for the greater Crestview area is approximately 40,000.

- e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Reduced flooding and negative impacts of stormwater runoff. The turbidity of the water entering Red Wash Branch will be measured after the next major storm event. Additionally, the number of stormwater related road-closures.

- f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

The City will enforce liquidated damages on any and all contractors who fail to meet required time lines.
