### Fiscal Year 2021-2022

LFIR # 1058

1. **Project Title**
2. **Senate Sponsor**
3. **Date of Request**

**4. Project/Program Description**

The City of Deerfield Beach is developing a Stormwater Master Plan (SMP) to address stormwater management and flood resilience. The City SMP will identify community concerns and various Capital Improvement Projects (CIPs). Deer Run, a neighborhood in West Deerfield, has been identified as the top priority of the SMP. The Deer Run neighborhood requires immediate attention to address flooding during substantial rain and storm events.

The Deer Run Project will address current stormwater infrastructure deficiencies, reduce flood risk and improve stormwater management. The project will involve installation of exfiltration pipes, swales, and stormwater retention/detention areas to comprehensively address the neighborhood stormwater needs. The project supports the City's commitment to develop short term and long-range plans to guide stormwater capital improvement projects and advance resiliency efforts.

**12. Program Performance**

**a. What specific purpose or goal will be achieved by the funds requested?**

The specific purpose and goal of the funding will be to address current stormwater infrastructure deficiencies, reduce flood risk and improve stormwater management. The project will decrease the extensive flooding in the Deer Run neighborhood. The stormwater from rain events pools on the roadways too long causing roads to be impassible. The standing water then becomes a health hazard as contaminants from vehicles and other pollutant sources become mixed in in the standing water.

**b. What activities and services will be provided to meet the intended purpose of these funds?**

The activities and services will include installation of exfiltration pipes, swales, and stormwater retention/detention areas to comprehensively address the neighborhood stormwater needs.

**c. What direct services will be provided to citizens by the appropriation project?**

Citizens will benefit directly from appropriation request as a result of reduction of roadway flooding issues on several roadways and minimize the amount of standing water in the Deer Run neighborhood.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

The target population that will benefit from this project is 530 residents from the Deer Run neighborhood.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

### Fiscal Year 2021-2022

LFIR # 1058

The expected benefit and outcome of this project will be to provide residents with a reduction of flooding issues on roadways in the Deer Run neighborhood.  
The outcome will be measured by tracking the number of flooding incidents, calls for service and reports of roadway blockage due to flooding.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?**

Failure to meet deliverables without notification will result in 5% retainage withheld.

**13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.**

The City of Deerfield Beach - Municipality
