12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The City of Graceville is currently under a consent order from the State for exceeding their permitted wastewater treatment volume. The City will use these funds to repair and/or replace sanitary sewer utilities as needed in areas of high inflow and infiltration. These areas of high level inflow and infiltration are to be determined from smoke testing or TV testing. The City of Graceville will use these funds to repair these deficiencies in an effort to comply with the Consent Order.

b. What activities and services will be provided to meet the intended purpose of these funds?

These funds will be used to repair or replace the gravity sewer mains that are found to be contributing to the excessive inflow and infiltration within Graceville's wastewater collection system.

c. What direct services will be provided to citizens by the appropriation project?

This specific project will allow the City to comply with the consent order and provide the citizens with an efficient wastewater collection system.

d. Who is the target population served by this project? How many individuals are expected to be served?

This project will provide services to the entire City of Graceville which is approximately 2,432 people.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

This project will satisfy the requirements of the consent order and decrease the flow at the plant, thereby reducing the amount of water treated and providing the City with a more efficient system.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

The Auditor General audits for both the City and state agencies.
