<b>Operational Costs: Other</b>		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study	Cost of removal and disposal of sargassum seaweed from high accumulation areas on Miami Beach.	1,470,500
<b>Fixed Capital Construction/Major Renovation:</b>		
Construction/Renovation/Land/Planning Engineering		0
<b>Total State Funds Requested (must equal total from question #6)</b>		<b>1,470,500</b>

#### 12. Program Performance

##### a. What specific purpose or goal will be achieved by the funds requested?

Maintaining the quality of the beaches along beaches in Miami-Dade County to support the tourist industry as well as maintain resident's ability to enjoy the natural beauty of the beaches.

##### b. What activities and services will be provided to meet the intended purpose of these funds?

Removal of excess amounts of seaweed at three key locations along Miami-Dade County Beaches that have begun experiencing larger than normal volumes of sargassum.

##### c. What direct services will be provided to citizens by the appropriation project?

Maintaining the cleanliness of the beaches of Miami-Dade County which will support both local and State economy.

##### d. Who is the target population served by this project? How many individuals are expected to be served?

The target population is both residents of Miami-Dade County and the visitors. According to the Greater Miami Convention and Visitors Bureau, in 2018 over 23M people visited the greater Miami area with Miami Beach being the most visited neighborhood.

##### e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

A recent survey, conducted by the Visitors Bureau, indicated that Miami had 23.3 million visitors last year. Visitors continue traveling to Miami, primarily for leisure/vacation purposes making up 84% of visitors. Of those who visited, 57% visited Miami Beach. This equates to approximately 13.28 million annual visitors to our beaches. Monies into the economy equate to \$18 billion. Maintaining residents and visitors ability to enjoy the beaches of Miami-Dade and support the tourist industry, both for the County and the State. Seaweed removal will be measured in cubic yards removed.

##### f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?
