2. Senate Sponsor Aaron Bean

3. Date of Request 02/06/2021

4. Project/Program Description

The federal Substance Abuse and Mental Health Services Administration (SAMHSA), Food and Drug Administration (FDA) and the Centers for Disease Control (CDC) strongly advocate for the use of medication-assisted treatment as a best practice approach to serve individuals with alcohol and opioid use disorders. Program funds community treatment providers for provision of substance abuse screening, medical assessments/lab work and extended-release naltrexone medication injections for individuals with alcohol and/or opioid abuse or dependence throughout the state that are uninsured or under-insured. Services are delivered through a statewide network of 45 providers from Pensacola to Key West.

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

In response to the opioid epidemic, the COVID-19 pandemic, and the ongoing problem of alcohol abuse/dependence among Florida's citizens, the program facilitates recovery from substance abuse, lower rates of opioid overdose, and reduced costs to society for employment issues, high-cost healthcare utilization, and court involvement related to substance misuse, abuse, and dependence.

b. What activities and services will be provided to meet the intended purpose of these funds?

Program funds substance abuse screening/evaluation, medical assessment, and extended-release medication injections to help individuals that are uninsured or under-insured with alcohol and/or opioid dependence achieve recovery through enhanced retention/completion rates for outpatient, residential, and other forms of psychosocial treatment.

c. What direct services will be provided to citizens by the appropriation project?

Substance abuse screenings, medical assessments, and administration of extended-release injectable naltrexone medication.

d. Who is the target population served by this project? How many individuals are expected to be served?

The requested funds, in conjunction with Federal block grant funds, enable the program to serve 605 patients who are uninsured or under-insured and present with alcohol and/or opioid abuse and dependence problems. The requested funds would support screening, medical assessment/lab work, and extended-release injectable naltrexone medication for 210 of the total 605 patients.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The use of medication in substance abuse treatment supports improved retention in traditional treatment. At least 58% of individuals receiving extended-release injectable naltrexone services will successfully complete or remain actively engaged in psychosocial treatment for addiction problems with alcohol and/or opioids at time of discharge from medication-assisted treatment (MAT) services. Algorithm includes all individuals successfully completing or still actively engaged in psychosocial treatment at time of discharge from services divided by all individuals discharged from MAT services.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

The program has operated well throughout its 6-year history - current penalties in the contract for failure to meet deliverables or performance measures are sufficient.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.
