Construction/Renovation/Land/Planning Engineering	Construction Services The scope of this project is to harden two stormwater pump stations to protect vital equipment currently susceptible to storm damage. The work includes but is not limited to: separating the pump stations electrical feeders and raising the generator and electrical risers to prevent damage during storm surge.	1,500,000
Total State Funds Requested (must equal total from question #6)		1,500,000

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

To harden the two coastal stormwater pump stations from storm damage. This ensures that the pumps stations continue operating to protect the life and property of the residents serviced by the pump stations.

b. What activities and services will be provided to meet the intended purpose of these funds?

The scope of this project is to harden two stormwater pump stations to protect vital equipment currently susceptible to storm damage. The work includes but is not limited to: separating the pump stations electrical feeders and raising the generator and electrical risers to prevent damage during storm surge.

c. What direct services will be provided to citizens by the appropriation project?

To protect the life and property of the residents serviced by the pump stations.

d. Who is the target population served by this project? How many individuals are expected to be served?

The residents of the communities located adjacent to the pump station and nearby businesses along a major arterial road.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

To ensure that the pumps stations continue operating to protect the life and property of the residents serviced by the pump stations. Flood risk assessments and flood damage reports.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties
