12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The purpose of this project is to further the City's efforts to eliminate dead end water lines and improve water quality and fire protection by looping the City of Frostproof Water System.

Additionally, US 27 is a major north-south artery between I-4 and I-75. Expansion of the City's system along US 27 could attract additional businesses/industries to the area providing for economic growth of the City and neighboring communities.

b. What activities and services will be provided to meet the intended purpose of these funds?

Preliminary engineering, design, permitting and construction of water lines and related appurtenances.

c. What direct services will be provided to citizens by the appropriation project?

Improved water quality and increase fire protection.

d. Who is the target population served by this project? How many individuals are expected to be served?

The purpose project will directly benefit the estimated 3,200 City of Frostproof residents as well as those in neighboring communities and visitors to the area.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The anticipated benefits of this project include improved water quality, increase fire fighting projection, and the potential for additional businesses/industries to move into the area which would increase economic opportunities for the City of Frostproof and neighboring areas.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties
