Research shows that 1 in 5 children and adolescents suffer from a mental health disorder, with symptoms such as anxiety, disruptive behavior, or changes in mood and eating patterns. These issues are sometimes interrelated with issues of drug or alcohol abuse and can lead to life-threatening situations. With support and treatment, youth and adults experiencing mental health disorders and/or substance abuse issues can improve the quality of their lives. This program will minimize service gaps for our youth and adult population who may suffer from a variety of mental health issues.
