Construction/Renovation/Land/Planning Engineering	Construct central vacuum station and infrastructure for conversion of 1,933 septic systems to central sewer	2,000,000
Total State Funds Requested (must equal total from question #6)		2,000,000

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The goal of this project is to improve water quality in the impaired waters of the Myakka River and Charlotte Harbor by abandoning and connecting 1,933 septic systems to central sewer.

b. What activities and services will be provided to meet the intended purpose of these funds?

Construction of a central vacuum station that will provide sewer service to 1,933 new users that have been converted from septic to sewer service.

c. What direct services will be provided to citizens by the appropriation project?

Central sewer service.

d. Who is the target population served by this project? How many individuals are expected to be served?

1,933 residents of all ages who live within the project boundaries.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Improve water quality in the impaired waters of Charlotte Harbor and the Myakka River. This will be measured through pre- and post project monitoring of nutrients, bacteria and contaminants in storm water and surface water.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Non payment of invoices.
