4. **Project/Program Description**

UCF RESTORES PTSD Clinic provides treatment and resiliency services at no cost to Florida's active-duty personnel, veterans, first responders, law enforcement personnel, firefighters, emergency medical technicians, paramedics, and survivors of sexual assault, mass shootings or natural disasters. The Clinic's innovative three-week intensive outpatient treatment program is the only program of its kind in the country with significantly improved patient outcomes over that of other providers. This funding will provide for services at the Orlando clinic, including salaries and benefits for personnel and other operational costs (equipment and supplies) allowing the Clinic to function for another year.

### Fiscal Year 2022-2023

LFIR # 1023

Yes

**If yes, indicate the amount of funds received and what the funds were used for.**

The Clinic received \$50,000 to treat Orange County first responders and was also awarded funds to treat Azalea Park residents with PTSD due to high rates of COVID-19. All funds were spent on treatment by 12/30/2020 as required. No further funding received.

**12. Program Performance**

**a. What specific purpose or goal will be achieved by the funds requested?**

Continuing to serve the citizens of Florida in providing free, highly successful treatment to Florida's veterans and active-duty military personnel, first responders, and victims of sexual assault and mass shootings. This funding will allow the UCF Clinic to continue our innovative prevention and treatment programs including evidence based strategies for suicide prevention.

**b. What activities and services will be provided to meet the intended purpose of these funds?**

This funding will provide for: continued operation of the UCF Clinic treatment program at current locations (treatment is free). The innovative three-week intensive outpatient treatment program, where personnel are treated three per day, five days per week, is the only program of its kind in the country. The program includes the use of virtual reality (sights, sounds, and smells) to enhance the effects of the therapy and we have seen remarkable success.

**c. What direct services will be provided to citizens by the appropriation project?**

- A. Direct clinical services to first responders and survivors of traumatic events such as mass violence, natural disasters such as Hurricane Michael, Surfside building collapse, and to prevent suicide contagion. Also education of clinicians in the area of the event to provide evidence-based treatment to the community.
- B. Education and training of mental health clinicians to provide evidence-based therapy to survivors of trauma
- C. Education and suicide prevention to vulnerable groups (veterans, and first responders)
- D. On-line referral services for first responders and veterans

**d. Who is the target population served by this project? How many individuals are expected to be served?**

### Fiscal Year 2022-2023

LFIR # 1023

All projects will be directed at citizens of Florida who have experienced traumatic events or Florida clinicians who will be trained to provide evidence-based psychotherapy for trauma survivors. We anticipate that, between the direct clinical services and the educational/outreach services that we will provide, between 5,000 and 10,000 individuals will be served through these endeavors.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

Improved mental health for Florida's citizens. Outcome will be assessed by the percentage of individuals who no longer meet diagnostic criteria for post-traumatic stress disorder after completing treatment; For educational initiatives - we will document the percentage of clinicians who complete the training and the number of individuals who take part in the on-line or in-person education and training programs. Concerning return on investment, it cannot be overstated that a key outcome of the Clinic's work is to allow the state to retain its critical group of first responders by allowing them to recover from their trauma-related injuries and return to the workplace.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?**

Return of state funds.

**13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.**

No fixed capital outlay funding is being requested. The Clinic is located on the main campus of the University of Central Florida, with treatment provided at locations across the State of Florida.
