c. What direct services will be provided to citizens by the appropriation project?

- 1. Care Coordination: developing a Care Plan based on an initial assessment and continuously updating it to ensure the client's needs are met.
- 2. Assessments & Screenings for maternal and child health, child development, mental health, substance use, intimate partner violence, and social determinants of health.
- 3. Case Management to support prenatal care, pregnancy issues, conduct warm hand-offs to medical and social services, and remind moms of well-child visits and immunization schedules.
- 4. Counseling & Health Education on issues such as tobacco cessation, substance use disorders, nutrition, the birthing process, safe sleep practices, birth spacing, and children's health and development

d. Who is the target population served by this project? How many individuals are expected to be served?

First-time, high-risk pregnant women who are living in poverty and their babies, as well as Multiparous and Late Registrants mothers through the NFPX Bridge study.

Annual mothers and babies expected to be served with full allocation are at least: 100. Currently funded communities are: Brevard, Broward, Baker, Collier, Clay, Duval, Gadsden, Hillsborough, Hendry, Highlands, Indian River, Jackson, Lee, Martin, Miami-Dade, Orange, Palm Beach, Pinellas, Polk, and Saint Lucie.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Nurse-Family Partnership has extensive data, research studies and replication analyses showing the program's impact over the past 40 years. NFP has repeatedly demonstrated:

- 82% increase in labor participation by the mothers
- 9% reduction in Medicaid costs and an 11% reduction in Food Stamp costs
- 46% increase in father presence and partner stability
- 31% reduction in closely-spaced subsequent pregnancies
- 48% reduction in child abuse and neglect
- 35% fewer cases of pregnancy-induced hypertension
- 56% reduction in emergency room visits for accidents and poisonings

In Florida:

- 89% of babies were born full term
- 92% of mothers initiated breastfeeding
- 96% of children received all recommended immunizations by 24 months
- 77% of NFP participants do not have a subsequent pregnancy within 18months
- 67% of clients 18+ were employed at 24 months

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Incremental reductions in payments for less than 90% performance expectations or achievement of tasks (ie. hiring/training nurses). Repeated/egregious failures should result in contract cancellation/transfer.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.
