12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The main purpose will be to address a long standing, over 40 year issue of safe and adequate access to a residential area that is currently being served by a substandard road built within an inadequate right-of-way owned by multiple jurisdictions. The plan is to designate one owner with maintenance responsibilities in order to provide access on a road which will be brought up to required minimum safe standards, provide construction of needed piped drainage infrastructure, and build sidewalks to accommodate pedestrian traffic.

b. What activities and services will be provided to meet the intended purpose of these funds?

Safe access to single-family homes through improved roadway construction, sidewalk construction, and piped drainage improvements.

c. What direct services will be provided to citizens by the appropriation project?

Improved roadway access and addition of pedestrian access for school bus and public transportation riders.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population is residents occupying over 100 homes that use Chickasaw Road as their only means of access in and out of their communities.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Improved roadway conditions, safe pedestrian access, and identified ownership of the roadway to ensure ongoing maintenance and upkeep.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?
