1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

To provide potable water to residents through a centralized and permitted water system to residents who are currently served by private wells. Safe and reliable potable water will ensure that the risk for waterborne diseases is less likely to occur from a permitted water treatment plant than unregulated private wells. As such, the residents' public health will be enhanced. In addition, roadway restoration, driveways, and fire suppression systems will be provided with this project. This project is currently in construction.
