Fixed Capital Construction/Majo	r Renovation:				
Construction/Renovation/Land/ Planning Engineering	The city is currently making major renovations to the Civic and Resource Center to improve residents' access to the facilities and making improvements within the center. Construction will consist of the indoor recreation facility.	5,000,000			
Total State Funds Requested (must equal total from question #6)					

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The City of Belle Glade is requesting support for a new indoor swimming pool and recreational facility located adjacent to the Lakeshore Civic Center. This facility will be the focal point for revitalization of the city's downtown area and will have a regional impact throughout the entire Glades area.

b. What activities and services will be provided to meet the intended purpose of these funds?

A new indoor olympic size swimming pool and recreational center will make a dramatic improvement to this inner part of the city and will also enhance service to the community and regional area that has been traditionally underserved.

c. What direct services will be provided to citizens by the appropriation project?

Types of programs planned include all individuals and groups from youths and youth groups to seniors, hosting competitive sports programs, aerobic and yoga facilities, weight and exercise facilities, and facilities for hosting events, etc. This facility will be the first of its kind in the western Glades area.

d. Who is the target population served by this project? How many individuals are expected to be served?

LFIR # 1358

The indoor swimming pool and recreational facility will have programs to support all ages and all members of the community and surrounding area and would be the only such facility in the western region of Palm Beach County. Residents from Pahokee and South Bay and those in between could access the facility through public transportation along with city residents and those in the surrounding area.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

A new indoor olympic size swimming pool and recreational center will make a dramatic improvement to this inner part of the city and also enhance service to the community and regional area that has traditionally been underserved. Success of this outcome will be measured by the number of visitors that attend the facility, focusing on youth and elderly, as well as the number of programs and events the facility hosts.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

The agency may withhold funds if deliverables and project goals are not met. Standard contract penalties are sufficient.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The City of Belle Glade.	elle Glade.
