<b>Total State Funds Requested (must equal total from question #6)</b>		<b>6,000,000</b>

**12. Program Performance**

**a. What specific purpose or goal will be achieved by the funds requested?**

The specific purpose for this project is to construct a permanent fire station to meet the growing demand in the quickly expanding and under served area. The area requires a fire station to be able to meet emergency response standards for the growing population.

**b. What activities and services will be provided to meet the intended purpose of these funds?**

The construction of this fire station will provide staffing, fire trucks and emergency response vehicles to be able to respond to emergency incident calls in the identified area. Currently the closest fire station is several miles away, which could curtail the city's response time and inhibit life saving and property saving measures.

**c. What direct services will be provided to citizens by the appropriation project?**

The citizens will have the benefit of a fire station near their home, the ability to have fire officials respond quickly during emergency incidents and higher probability of receiving life saving measures during medical emergencies.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

The City of Hialeah annexed is the target population for this proposal.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

The outcome of this project is to have a fully staffed and equipped fire station in a currently under served area.
