12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The specific purpose of this project is to construct and install new fueling systems and upgrades to meet the needs of the growing west corridor annex area. This project funding will increase the response time of local law enforcement and fire department personnel in the City of Hialeah and surrounding areas.

b. What activities and services will be provided to meet the intended purpose of these funds?

The construction and installation of a new fueling system and upgrades will increase the response time of local law enforcement and fire departments; with increased response time, emergency personnel can protect and provide life saving and property saving measures.

c. What direct services will be provided to citizens by the appropriation project?

The citizens will benefit by not having delayed response times by both local and surrounding law enforcement/fire personnel during emergency incidents.

d. Who is the target population served by this project? How many individuals are expected to be served?

The City of Hialeah west corridor annexed area is the target of this project proposal. This project will serve the entire City of Hialeah residents and the surrounding communities.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

LFIR # 1667

The outcome of this project is to have fully operational upgraded fueling stations. The upgrades will allow local and surrounding law enforcement and fire departments to respond quicker to a currently underserved area. Data from the measurable increase in response time is the best measure for this project. In addition, having a fire station structure allows for residents to visit and report any other crimes and concerns in the area.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Failing to meet deliverables should result in non-reimbursement of submitted expenditures for this proposed project. This requirement would assure that all funds are being used for the approved and intended purpose.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The City of Hialeah.
