Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 1809

1. Project Title
2. Senate Sponsor
3. Date of Request

4. Project/Program Description

The City wishes to address water supply deficiencies by constructing a new 250 gpm well, a new chlorination system, and an upgrade to the City's SCADA system, which is antiquated in comparison to the City's recently constructed ground storage tank SCADA system. The City had a very tough time maintaining water capacity and pressure after Hurricane Michael. This project should greatly alleviate that issue. The City would also like to replace a 2" watermain along Clay Street, which was damaged in the aftermath of Hurricane Michael cleanup and has produced dirty water to some of the citizens in multiple cases for the last 2+ years. The funding will also address upgrades to their water system buildings and elevated storage tank.

5. State Agency to receive requested funds
- State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2022-2023

Type of Funding	Amount
Operations	0
Fixed Capital Outlay	650,000
Total State Funds Requested	650,000

7. Total Project Cost for Fiscal Year 2022-2023 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	650,000	100%
Matching Funds		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	0	0%
Other	0	0%
Total Project Costs for Fiscal Year 2022-2023	650,000	100%

8. Has this project previously received state funding?

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. Is future funding likely to be requested?

a. If yes, indicate nonrecurring amount per year.

b. Describe the source of funding that can be used in lieu of state funding.

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 1809

Yes

If yes, indicate the amount of funds received and what the funds were used for.

The City received \$55,402.59 in CARES Act funding through Liberty County. The total amount of ARPA funds to be received by the City is expected to be \$490,838.00.

11. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Operational Costs: Other		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Major Renovation:		
Construction/Renovation/Land/Planning Engineering	Engineering and construction services.	650,000
Total State Funds Requested (must equal total from question #6)		650,000

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The City wishes to address water supply deficiencies by constructing a new 250 gpm well, a new SCADA system, and a new chlorination system. With the proposed improvements, the City will not only mitigate the current supply capacity shortfall, but also have sufficient capacity to carry the City as many as 20 years into the future. The project will supply water to 700 customers on the City's system. The new SCADA system will allow much more capabilities and reliability than the antiquated system the City currently relies on. The City would also like to replace a 2" watermain along Clay Street that has produced inadequate water since being damaged following Hurricane Michael, despite multiple attempts to repair the waterline, as well as improvements to their water system buildings and the elevated storage tank.

b. What activities and services will be provided to meet the intended purpose of these funds?

This funding will cover the permitting, design, and construction of the water system improvements.

c. What direct services will be provided to citizens by the appropriation project?

The citizens of the City's water system will benefit from a much more reliable water supply.

d. Who is the target population served by this project? How many individuals are expected to be served?

It is estimated to serve over 700 connections currently on the City of Bristol's water system, roughly 2,000 citizens.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The project will supply water to over 700 connections currently on the City's system and will be designed to handle any future growth on the City's water system.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 1809

for failing to meet deliverables or performance measures provided for the contract?

It is not anticipated that failing to meet deliverables or performance measures will occur, however, if such penalties are needed, withholding funding would be an appropriate measure.

- 13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.**

The City of Bristol currently owns and operates the water system and the proposed well.
