d. Who is the target population served by this project? How many individuals are expected to be served?

Devastating flooding occurred in 2012 after Tropical Storm Isaac brought 15-20 inches of rain in a 72 hour period to over 45,000 residents in the Indian Trail Improvement District & surrounding area. Subsequently, South Florida Water Management District was funded \$4M of the \$8M request & built HALF the levee on the western side.
