3. Date of Request

4. Project/Program Description

To seek contractual architectural/engineering design services for a new 7,000 sq. ft. library facility to be located in the central portion of the county. The library plays an important part in the community by providing meeting rooms, classes, training, and events that are not provided elsewhere. The library encourages literacy and lifelong learning to all community members, specifically for at-risk and low income populations, through public access to information via books, computers, and wi-fi which will also aid in workforce development. Provides community and economic development through hosting community centered events. A final set of construction plans (shovel ready) allows the project to be constructed as designed. Addresses the Adopted Infrastructure Plan (November 2021). The county is designated as a rural area of opportunity.

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

To seek contractual architectural/engineering design services for a 7,000 sq. ft. library facility to be constructed on county-owned property in the central area of the county. A final set of construction plans allows for bidding/construction procurement process to commence. The new library will promote literacy and lifelong learning to all community members, specifically for at-risk and low income populations through public access to information via books, videos, magazines, newspapers, computers, and wi-fi, which will also aid in workforce development. Provides community and economic development through hosting community centered events.

b. What activities and services will be provided to meet the intended purpose of these funds?

Activities are to seek contractual architectural/engineering design services through the county's procurement process to provide a final set of construction plans to build the new library facility on county-owned property in the central portion of the county. The shovel ready project can move forward with the bidding and contractor procurement selection process. A library promotes literacy and continued learning and provides public access to information through books, magazines, videos, and wi-fi in this rural area of opportunity.

c. What direct services will be provided to citizens by the appropriation project?

A new library provides the citizenry with access to improve their education; enhances cultural experience; provides a place for children's programs, children and youth reading materials, and special programs that include the arts and interactive technology; and is a place to seek employment using the computers. The library encourages literacy and lifelong learning to all community members, specifically for at-risk and low income populations, through public access to information via books, videos, magazines, newspapers, computers, and wi-fi, which will also aid in workforce development. Provides community and economic development through hosting community centered events.
