12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Programming, events, and activities for the communities and visitors. Recreational facilities will encourage an active lifestyle.

b. What activities and services will be provided to meet the intended purpose of these funds?

The funds will be used to plan, design, and create a design criteria plan for improvements along the South Dade Trail's 20-mile off-road mobility multi-modal corridor. The \$3 million requested will be used for planning and design of the multi-modal corridor.

c. What direct services will be provided to citizens by the appropriation project?

The South Dade Trail will provide approximately 20-miles of separated bicycle and pedestrian paths, and intersection improvements along U.S. 1 and the South Corridor. Increased safety, connectivity, and decongestion of traffic is expected as a result. Improvements to the South Dade Trail are necessary to facilitate this corridor as part of the core alignment of the BRT first/last mile network.

d. Who is the target population served by this project? How many individuals are expected to be served?

Elderly, economically disadvantaged persons, at-risk-youth, and the general population. Thousands of visitors and residents are expected to be served.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The installation of bike lanes and wider sidewalks will promote urban cycling and walking of residents and visitors of the community. This will promote a more active lifestyle which reduces the risk of other health complications, including diabetes, cardiovascular disease, high blood pressure, and contributes to improved mental health.
