12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

30' x 40' enclosed barn that will provide an educational opportunity to special needs children. These students will learn how to raise, groom, and care for various kinds of livestock.

b. What activities and services will be provided to meet the intended purpose of these funds?

Students will have direct access to hands on experience in caring for livestock. These hands on experiences, in combination with standard classroom learning, will provide a well rounded understanding of the process of raising livestock.

c. What direct services will be provided to citizens by the appropriation project?

Citizens will benefit through an increase in individuals wishing to pursue agriscience studies, and will likely see an overall positive change in the behavior of those working with the animals at the barn.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target populations include: Persons with mental and/or physical disabilities, economically disadvantaged persons, and at risk youth.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected benefit of this project will be an increase in agricultural education and peer inclusion in courses. The results of this project will be measured by monitoring participation in other agiscience courses, and by tracking participation of students in the Future Farmers of America (FFA). Monitoring of overall grade changes across each student's curricula will provide data on how direct, hands on involvement, correlate with performances in other courses.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Return of funds should deliverable not be met.
