Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 2386

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

Funding is requested to address the safety and flooding issues on Northeast 104th Street between 12th - 16th Avenues. This design involves raising the pitch of the roadway for rainwater to drain into the newly proposed stormwater drainage system to reduce flooding in the area.

5. State Agency to receive requested funds

State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2022-2023

Type of Funding	Amount
Operations	0
Fixed Capital Outlay	655,000
Total State Funds Requested	655,000

7. Total Project Cost for Fiscal Year 2022-2023 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	655,000	50%
Matching Funds		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	655,000	50%
Other	0	0%
Total Project Costs for Fiscal Year 2022-2023	1,310,000	100%

8. Has this project previously received state funding?

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. Is future funding likely to be requested?

a. If yes, indicate nonrecurring amount per year.

b. Describe the source of funding that can be used in lieu of state funding.

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

If yes, indicate the amount of funds received and what the funds were used for.

11. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Operational Costs: Other		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Major Renovation:		
Construction/Renovation/Land/Planning Engineering	Raise the pitch of the roadway and add curbs and gutters.	655,000
Total State Funds Requested (must equal total from question #6)		655,000

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Reduce flooding and water intrusion for the properties on this street.

b. What activities and services will be provided to meet the intended purpose of these funds?

Higher roadway that overflows into a new drainage system with curbs and gutters added.

c. What direct services will be provided to citizens by the appropriation project?

No more flooding or septic tank infiltration during rain events or high tide.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population is a residential area that has direct impact from rainfall events and water intrusion during high tides as this street is just south of the C-8 canal. There are approximately 60 homes with 180 people in this area.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The streets will have less standing water so residents are able to access the roadways to their properties and not have water intrude into their homes, garages, and septic systems. The outcome may be measured by inspection of streets during rainfall events and high tides and documenting the number of complaints from residents with flooded properties.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties
