Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 2407

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

This project involves lining or replacing approximately 12,345 linear feet of sanitary sewer mains and 62 manholes. The City is currently in the process of completing a Resiliency and Capacity Plan to address sanitary sewer inflow and infiltration and future utility growth. The purpose is to reduce sanitary sewer system failures due to inflow and infiltration; increase sewer capacity; extend the life of sewer treatment system components; and reduce customer treatment costs. The project area is City wide. The City will use the results of the DEO funded Wastewater Resiliency Masterplan to determine final work areas.

5. State Agency to receive requested funds

State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2022-2023

Type of Funding	Amount
Operations	0
Fixed Capital Outlay	2,015,531
Total State Funds Requested	2,015,531

7. Total Project Cost for Fiscal Year 2022-2023 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	2,015,531	84%
Matching Funds		
Federal	0	0%
State (excluding the amount of this request)	385,000	16%
Local	0	0%
Other	0	0%
Total Project Costs for Fiscal Year 2022-2023	2,400,531	100%

8. Has this project previously received state funding?

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. Is future funding likely to be requested?

a. If yes, indicate nonrecurring amount per year.

b. Describe the source of funding that can be used in lieu of state funding.

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 2407

If yes, indicate the amount of funds received and what the funds were used for.

\$499,397.27 was received as a pass through from Putnam County. The funds were used for Public Safety Personnel Costs; Employee leave due to Covid; telecommunications system and Commission Chamber Infrastructure to facilitate remote working, governmental business and public meetings; and the realized and projected PPE necessary to maintain health and safety of essential workers.

11. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Operational Costs: Other		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Major Renovation:		
Construction/Renovation/Land/Planning Engineering	Design, Bidding Administration, Construction and Construction Observation and Inspection	2,015,531
Total State Funds Requested (must equal total from question #6)		2,015,531

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

This project will address the continuing problem of sanitary sewer system failures due to infiltration of dirt and debris within the sanitary sewer mains and manholes. The need to alleviate infiltration is especially great during wet weather events and this will lower the instances of lift station failure caused by sand and debris backing up in the system. During Hurricane Irma, infiltration contributed to a system wide failure at all 37 lift stations and complications at the Waste Water Treatment Plant. Infiltration also includes stormwater and groundwater inflow into the system. This increase of flow to the plant decreases capacity affecting Plant treatment parameters and raising the operation cost and taxing the components of the treatment system.

b. What activities and services will be provided to meet the intended purpose of these funds?

Approximately 12,345 linear feet of sanitary sewer mains and 62 manholes will be lined or replaced.

c. What direct services will be provided to citizens by the appropriation project?

Preventing sanitary sewage overflowing in the streets and waterways, as well as, preventing sewage from backing up into homes and businesses due to a system failure caused by infiltration.

d. Who is the target population served by this project? How many individuals are expected to be served?

Approximately 10,588 people reside in Palatka (as of the 2010 census) and there are approximately 1,000 active business within the City Limits.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 2407

The benefit of the project is the reduction of the likelihood of system wide failure of the sanitary sewer system and the connected treatment plant due to infiltration and inflow. It will lower operational overages currently seen when high levels of stormwater enter the system during wet weather events. The outcome can be measured by the reduction in work orders generated with complications to the system and the reduction in flow to the plant.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

We stand ready to complete this project, meeting all deliverables and performance measures.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The City of Palatka currently owns the Sanitary Sewer Collection System and does not intend to transfer ownership.

Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 2407

Please complete the questions below for Water Projects only.

17. Have you applied for alternative state funding?

- Waste Water Revolving Loan
- Drinking Water Revolving Loan
- Small Community Wastewater Treatment Grant
- Other (please specify) Hazard Mitigation Grant Program; St Johns River Water Management Cost Share; CDBG MIT Infrastructure
- N/A

18. What is the population economic status?

- Financially Disadvantaged Community (ch. 62-552, F.A.C)
- Financially Disadvantaged Municipality (ch. 62-552, F.A.C)
- Rural Area of Economic Concern
- Rural Area of Opportunity (s. 288.0656, Florida Statutes)
- N/A

19. What is the status of construction?

ready

20. What percentage of the construction has been completed?

0

21. What is the estimated completion date of construction?

06/30/2023
