**4. Project/Program Description**

To renovate the 29 acre Jackson County Agriculture Center grounds following the devastation caused by Hurricane Michael. The center is available for use to the public 24/7 to fit an event's needs featuring 64 RV hookups, overnight horse stalls, restrooms, showers, indoor auditorium, covered arena, outdoor show arena, and ample parking. However, many of the services have been severely limited due to storm damage. The center lost 4 of its 8 barns among other structures. The renovations would allow the Ag. Center to host large scale rodeo events both indoor and outdoor while providing suitable animal enclosures to allow for overnight livestock stays. The project includes the demolition of existing structures, site prep/foundation, install new barn (80x180x14), electrical/water, infrastructure (for new barn), install new bleachers for arena, cow panels/chutes for arena rodeo upgrade, livestock stalls for new barn, new announcers booth, outdoor arena improvement (panels, bleachers, lighting)
