Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 2670

1. **Project Title**
2. **Senate Sponsor**
3. **Date of Request**

4. Project/Program Description

The proposed Shady Lane Drainage Project (SLDP) is a retrofit stormwater facility for an existing residential development within the City of Crestview. This neighborhood's watershed is 64.4 acres. The SLDP will provide flooding relief to existing properties and existing roadways in the surrounding area, attenuation and treatment of the watershed will be provided as well. The existing stormwater system (pipes and inlets) from the depression at Shady Lane to the current discharge point will be upgraded. The new system is designed to route the stormwater runoff from that area to a proposed retention pond with a volume of over 600,000 ft. An overflow pipe system will route the discharge from a larger storm events from the proposed pond to a stream tributary area maintained by the City of Crestview located at the end of Gil-Ava Street.

5. **State Agency to receive requested funds**
- State Agency contacted?**

6. Amount of the Nonrecurring Request for Fiscal Year 2022-2023

Type of Funding	Amount
Operations	0
Fixed Capital Outlay	2,226,000
Total State Funds Requested	2,226,000

7. Total Project Cost for Fiscal Year 2022-2023 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	2,226,000	100%
Matching Funds		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	0	0%
Other	0	0%
Total Project Costs for Fiscal Year 2022-2023	2,226,000	100%

8. **Has this project previously received state funding?**

Fiscal Year (YYYY-YY)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. **Is future funding likely to be requested?**
- a. **If yes, indicate nonrecurring amount per year.**

b. **Describe the source of funding that can be used in lieu of state funding.**

If no state funding is available, the City funds can be budgeted for the project over the 5 year CIP.

10. **Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?**

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 2670

Yes

If yes, indicate the amount of funds received and what the funds were used for.

N/A

11. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Operational Costs: Other		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Major Renovation:		
Construction/Renovation/Land/Planning Engineering	Stormwater piping: 450 ft of 24", 250 ft of 30", 1650 ft of 36", 250' of 38", 600 ft of 42", and 800 ft of 48" Excavation and grading of an over 600,000 square foot retention pond; various manholes, pipe fittings, MOT equipment, street excavation and repairs	2,226,000
Total State Funds Requested (must equal total from question #6)		2,226,000

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The proposed Shady Lane Drainage will provide flooding relief to 64.4 acres of existing properties and existing roadways, and attenuation and treatment of the watershed. The existing stormwater system (pipes and inlets) from the depression at Shady Lane to the current discharge point will be upgraded.

b. What activities and services will be provided to meet the intended purpose of these funds?

The proposed Shady Lane Drainage Project will upgrade the existing stormwater system (pipes and inlets) from the depression at Shady Lane to the current discharge. The new system is designed to route the stormwater runoff from that area to a proposed retention pond with a volume of over 600,000 ft. An overflow pipe system will route the discharge from larger storm events from the proposed pond to a stream tributary area maintained by the City of Crestview located at the end of Gil-Ava Street.

c. What direct services will be provided to citizens by the appropriation project?

Flood attenuation will be provided to all residents in the 64.4 acre watershed.

d. Who is the target population served by this project? How many individuals are expected to be served?

There are 128 separate properties in the project's watershed. There are the poor, the elderly, children, and businesses that are located on these properties. At least 300 residents are expected to be serviced by this project.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 2670

The expected benefit of this project is a reduction in the flood events that are affecting the properties in the watershed. The City will measure the success of the project by the reduction of the number of calls received and the lessening of the flood events and property damage in the project area.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Liquidated damages per day that stormwater system is not operational past the expected completion date in the contract.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The owner of the all new stormwater infrastructure will be the City of Crestview.
