Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
<b>Fixed Capital Construction/Major Renovation:</b>		
Construction/Renovation/Land/Planning Engineering	Construction	3,000,000
<b>Total State Funds Requested (must equal total from question #6)</b>		<b>3,000,000</b>

**12. Program Performance**

**a. What specific purpose or goal will be achieved by the funds requested?**

The requested funds will be used for the upgrading the size of three pipes to reduce the risk of flooding to a flood prone area in one of the oldest portions of the City of Palm Coast. The target area is part of Graham Swamp that floods frequently that have resulted in flood waters impacting residential homes.

**b. What activities and services will be provided to meet the intended purpose of these funds?**

Planning of construction.

**c. What direct services will be provided to citizens by the appropriation project?**

Prevention of flooding.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

The citizens of Palm Coast.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

Protect general public from harm. Reduce risk of stormwater flood within residential structures. Improvement to the stormwater conveyance system within the Graham Swamp/Wild Oaks & Old Woodlands neighborhoods. Reduces the risk of flood waters entering residential structures. Improve transportation conditions. Reduce the risk of flooding on neighborhood roadways during storm events and emergency response. Provides significant improvement to the stormwater conveyance system within the Graham Swamp/Wild Oaks & Old Woodlands neighborhoods. Improvement translates to a reduction in flood stages greatly reducing the risk of flooded roadways. Improve stormwater management. Lowering base flood elevation of the 1%, 5%, and 10% annual chance flood events and improving the stormwater system's recovery. Modeling in the feasibility study and stormwater reports demonstrate significant improvement in the 1%, 5%, and 10% annual chance flood events. Increase in the stormwater system's overall recovery.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?**
