Fiscal Year 2023-2024

LFIR # 1053

1. **Project Title**

2. **Senate Sponsor**

3. **Date of Request**

4. **Project/Program Description**

Between 2010 and 2014, the Legislature provided \$25 million to the College to purchase the abandoned Holler Automotive properties adjacent to the original campus for purposes of future growth. Current request is for funding to remodel one of the unused automotive dealership buildings into a Student Services Center to house admissions, testing and assessment, registration, transcript, academic advising, financial aid, disability, veterans, and other services on this campus. These will be relocated from the original campus building, thus freeing up instructional space for nursing and other healthcare programs.

Yes

If yes, indicate the amount of funds received and what the funds were used for.

The College has received federal COVID relief funding, primarily for student financial aid, tuition refunds/waivers, tech and software costs, and the replacement of lost bookstore revenues. \$600,000 was used for an emergency roof repair on the Sanford campus.

Local Funding Initiative Request

Fiscal Year 2023-2024

LFIR # 1053

Between 2010 and 2014, the Legislature provided \$25 million to the College to purchase the abandoned Holler Automotive properties adjacent to the original campus for purposes of future growth. Current request is for funding to remodel one of the abandoned buildings into a Student Services Center to house admissions, registration, transcript, academic advising, financial aid, disability, veterans, and other services on this campus. These will be relocated from the original building, thus freeing up instructional space for nursing and other healthcare programs.

b. What activities and services will be provided to meet the intended purpose of these funds?

Remodeling and renovation of an unused automotive dealership building into a new Student Services Center. A one-stop-shop service model will be implemented and wait times will be reduced.

c. What direct services will be provided to citizens by the appropriation project?

See response to 14b above.

d. Who is the target population served by this project? How many individuals are expected to be served?

College students, high school dual enrollment students, unemployed persons, persons with poor physical health, economically disadvantaged persons, workers returning to refresh or enhance skills, jobless persons and general population by remodeling and optimizing the use of this taxpayer-owned building. There are currently ~4,500 students on this campus, with a doubling of this number planned. Nearly all of these students will be served in this facility.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Consolidation of all student service functions into this newly-renovated, one-stop-shop center. Renovation will be measured by the completion of the project in accordance with the work plan, the list of deliverables, and the time frames specified in the contract. Ultimately, success will be measured by the delivery of student services more efficiently and effectively.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Seminole State College has standard performance clauses in all of its contracts which ensure that work will be completed in accordance with the work plan, time frame, and list of deliverables, including provisions relating to the payment and withholding of funds as necessary. It is not anticipated that additional penalties will be needed. Deliverables will include the total remodeling of this unused automotive dealership building.
