Infrastructure and utilities-internal development roads, water, sewer, reuse, electrical, and other utilities as needed for the construction permitting of the homes.

**c. What direct services will be provided to citizens by the appropriation project?**

The infrastructure and utilities required for development of the affordable housing will directly benefit the new owners since the development won't occur without the funding needed.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

Limited income as well as seniors'; approximately 235 people in the residential, affordable housing and 24 in the senior, duplex, affordable housing.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

Providing the infrastructure and utilities in this are will offset costs for the affordable housing project to go in. Like the rest of Florida, Apopka has experienced high growth in population and increased prices in housing and there is not much affordable housing available.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?**

Standard contract penalties and revocation of funds.
