4. Project/Program Description

The South-Dade Trail Multi-Use/Mobility Corridor consists of improvements to the 20-mile corridor existing along the South Corridor. This project is part of the Miami-Dade County Parks and Open Spaces System Master Plan. The funds will be used for design improvements along the South Dade Trail's 20-mile off-road mobility multi-modal corridor including the enhancement of the existing bicycle/pedestrian pathway, addition of native landscaping and tree canopy, hardscaping, lighting, signage, drainage, recreational facilities and amenities. The South Dade Trail will provide approximately 20-miles of off-road bicycle and pedestrian paths, intersection improvement along U.S.1 and the South Corridor. Increased safety, connectivity and decongestion of traffic is expected as a result. Improvements to the South Dade Trail are necessary to facilitate this corridor as part of the core alignment of the BRT first/last mile network.

14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2023-2024

LFIR # 1348

The goals are to encourage residents, students, and visitors to walk, bike and take public transit to alleviate traffic congestion, and improve accessibility and safety. This funding will support the planning and design for the required improvements along the South Dade Trail's 20-mile off-road mobility multi-modal corridor.

b. What activities and services will be provided to meet the intended purpose of these funds?

The \$3 million requested will be used for planning and design of the multi-modal corridor. The South Dade Trail will provide approximately 20-miles of off-road bicycle and pedestrian paths and intersection improvements along the South Corridor. Increased safety, connectivity and decongestion of traffic is expected as a result. Improvements to the South Dade Trail are necessary to facilitate this corridor as part of the core alignment of the BRT first/last mile network.

c. What direct services will be provided to citizens by the appropriation project?

Accessibility and connectivity to public transportation with safe, off-road pedestrian and bicycle paths that includes lighting and signage within a 20-mile multi-modal corridor.

d. Who is the target population served by this project? How many individuals are expected to be served?

The funds requested are for direct services to citizens, residents and visitors including but not limited to the elderly, pre-school, grade school, high-school and university/college students. The numbers of individuals to be served is greater than 250,000.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Improved physical health (increased physical activity), improve mental Health (satisfaction with quality of life), enrich cultural experience (events and curriculum drawing residents to The South Dade Trail), education, enhance the environment (lower CO2 levels), protect the general public from harm (improved pedestrian and bicycle safety), improve transportation conditions, increase economic activity (increased property values projected at 5% to 25%), increase tourism, and create job opportunities. Outcomes will be measured by evaluation of attendance, Health Impact Assessment, measurement of property value change, reduction in pedestrian and bicyclist conflicts and increase in transit ridership.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Miami-Dade County has several standard strategies designed to mitigate lack of performance and deliverables. One of these strategies is liquidated damages.
