## Local Funding Initiative Request

### Fiscal Year 2023-2024

LFIR # 1543

Emergency generators will be provided for existing potable water wells.

**c. What direct services will be provided to citizens by the appropriation project?**

The emergency generators for existing potable water wells will help ensure the continuation of supply of potable water and fire protection to the community. In addition, this will help eliminate vertical migration of salt water and eliminate the purchasing of water from another utility.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

This will serve 42,000 existing customers within the service area that includes numerous nursing homes, schools, two hospitals, four fire stations and EMS.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

Purchase of the emergency generators for existing potable water wells will provide emergency generator vendors with reliable income and employment. This will be measured by Procurement records, invoices and City budget documents.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?**

Funding to be withheld if deliverables are not met.
