Fiscal Year 2023-2024

LFIR # 2882

To use clinically effective Medication-assisted treatment (MAT) for the greater Gainesville community's comprehensive behavioral health needs which consists of coordinated recovery services and the ability to live a self-directed life.

b. What activities and services will be provided to meet the intended purpose of these funds?

Medication-Assisted Therapy for a 3-year pilot program. The funding will provide 2 teams from the Gainesville Fire Rescue Community Resource Paramedicine Program dedicated to MAT only. The funding will also provide the operational resources to support those teams.

c. What direct services will be provided to citizens by the appropriation project?

Citizens who have been identified through healthcare providers as having an active opioid addiction will be provided MAT through coordination with GFR CRP.

d. Who is the target population served by this project? How many individuals are expected to be served?

The following target populations between 201 - 400 will be served: elderly, persons with either poor mental or poor physical health, jobless and economically disadvantaged persons, homeless, physically disabled, drug users in health services, university/college students, and current/former incarcerated persons.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

- * Improve physical health through decrease of patients reporting moderate to severe pain, decrease in 911 calls for substance abuse; methodology includes Pre-test and 6-month post tests with enrolled patients, EMS data analysis, and Pain scale.
- * Improve mental health through decrease of patients reporting anxiety, decrease of patients reporting major depressive levels, decrease of patients reporting being unable to carry out normal daily activities, and increase in long-term treatment enrollment; methodology includes Pre-test and 6-month post tests with enrolled patients (tests will include the GAD-7 and PHQ-9)
- * Protect the general public from harm through decreased utilization of needles for IDU; methodology includes Pre-test and 6-month post tests with enrolled patients.
- * Increase/improve economic activity through an increase in number of days worked by enrolled patients; methodology includes Pre-test and 6-month post tests with enrolled patients.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

The Community Resource Paramedicine Team has provided support and connection to resources to vulnerable members of the community for years. Our ability to effectively provide these services without interruption has allowed us to establish a reputation that is beyond reproach and is evident in the improved health outcomes and quality of life we see in our patients. We are confident that we will meet the stated outcomes and deliverables. No penalties are suggested.
